[Music]

2
00:00:05,269 --> 00:00:03,199

hey this is bryant arnold also known as

3
00:00:11,830 --> 00:00:05,279

dragon from skinwalker ranch and you're

4
00:00:16,710 --> 00:00:14,390

hi everyone and welcome back to that ufo

5
00:00:19,029 --> 00:00:16,720

podcast i've been very lucky in the time

6
00:00:22,070 --> 00:00:19,039

doing the podcast to speak to many of

7
00:00:24,230 --> 00:00:22,080

the cast and stars scientists of uh the

8
00:00:25,990 --> 00:00:24,240

skinwalker run show it's the secret skin

9
00:00:28,470 --> 00:00:26,000

walker ranch or cursive skin walker

10
00:00:30,630 --> 00:00:28,480

ranch depending on the us or uk i've

11
00:00:33,430 --> 00:00:30,640

spoken to thomas winterton brian arnold

12
00:00:35,510 --> 00:00:33,440

and brandon fuego i am delighted to be

13
00:00:38,310 --> 00:00:35,520

joined by a gentleman with a 20-year

14

00:00:40,150 --> 00:00:38,320

career supporting nasa at the us army

15

00:00:42,630 --> 00:00:40,160

space and missile defense command a

16

00:00:44,389 --> 00:00:42,640

published author among many many other

17

00:00:46,630 --> 00:00:44,399

academic achievements and one of the

18

00:00:48,630 --> 00:00:46,640

stars of numerous documentaries most

19

00:00:50,950 --> 00:00:48,640

notably of course history channels the

20

00:00:52,790 --> 00:00:50,960

secret of skinwalker ranch travis taylor

21

00:00:55,430 --> 00:00:52,800

joins me on the podcast travis how are

22

00:00:57,189 --> 00:00:55,440

you i'm doing all right how are you i'm

23

00:00:59,750 --> 00:00:57,199

very well very glad to be speaking to

24

00:01:02,709 --> 00:00:59,760

yourself finally three years into the

25

00:01:04,710 --> 00:01:02,719

skinwalker run show um like i say it's

26

00:01:06,870 --> 00:01:04,720

been been three years for you now what's

27

00:01:08,390 --> 00:01:06,880

that journey been like for you from then

28

00:01:13,590 --> 00:01:08,400

to now

29

00:01:14,630 --> 00:01:13,600

interesting because when i first went

30

00:01:18,070 --> 00:01:14,640

out there

31

00:01:18,950 --> 00:01:18,080

uh more than three years ago now um

32

00:01:24,950 --> 00:01:18,960

i

33

00:01:26,870 --> 00:01:24,960

and

34

00:01:29,910 --> 00:01:26,880

yeah i was gonna like scooby doo the

35

00:01:32,149 --> 00:01:29,920

thing and find old man withers was

36

00:01:34,870 --> 00:01:32,159

wasn't all the problems um

37

00:01:37,350 --> 00:01:34,880

but uh then within just a matter of

38

00:01:39,749 --> 00:01:37,360

minutes from my first time being there

39

00:01:43,109 --> 00:01:39,759

uh weird stuff started happening that i

40

00:01:45,510 --> 00:01:43,119

couldn't explain uh and i never have yet

41

00:01:46,710 --> 00:01:45,520

found old man withers who is causing the

42

00:01:49,510 --> 00:01:46,720

problem right

43

00:01:51,670 --> 00:01:49,520

uh it is something that's uh bizarre and

44

00:01:54,789 --> 00:01:51,680

real and my current

45

00:01:57,030 --> 00:01:54,799

uh understanding of it is not a lot

46

00:01:59,350 --> 00:01:57,040

better than it was um

47

00:02:01,510 --> 00:01:59,360

you know before i went out there uh

48

00:02:03,990 --> 00:02:01,520

except that i know now that it is some

49

00:02:06,630 --> 00:02:04,000

sort of real phenomena or maybe multiple

50

00:02:09,669 --> 00:02:06,640

phenomena occurring that needs a lot

51
00:02:11,990 --> 00:02:09,679
more investigation how much did you know

52
00:02:13,990 --> 00:02:12,000
already about the ranch before you went

53
00:02:15,589 --> 00:02:14,000
on you set foot on it

54
00:02:19,110 --> 00:02:15,599
well you know i had heard it i heard

55
00:02:21,270 --> 00:02:19,120
about it on uh like uh coast to coast

56
00:02:24,470 --> 00:02:21,280
uh and other things and before i went

57
00:02:26,630 --> 00:02:24,480
out there um i got uh calm kelleher's

58
00:02:28,710 --> 00:02:26,640
book and read through it in in great

59
00:02:29,430 --> 00:02:28,720
detail and i spoke with george knapsom

60
00:02:33,270 --> 00:02:29,440
and

61
00:02:35,030 --> 00:02:33,280
stories right it sounds like stuff you

62
00:02:36,790 --> 00:02:35,040
would tell around a campfire to scare

63
00:02:39,190 --> 00:02:36,800

the younger kids

64

00:02:41,270 --> 00:02:39,200

but then when you get out there and you

65

00:02:43,430 --> 00:02:41,280

realize

66

00:02:46,470 --> 00:02:43,440

while their experience may have sounded

67

00:02:48,949 --> 00:02:46,480

uh different from the stories

68

00:02:51,990 --> 00:02:48,959

my experience isn't a lot

69

00:02:53,830 --> 00:02:52,000

less confusing and perplexing

70

00:02:55,910 --> 00:02:53,840

now you joined the ranch team when they

71

00:02:58,630 --> 00:02:55,920

had already been there for around three

72

00:02:59,990 --> 00:02:58,640

years prior 2016 their investigation

73

00:03:02,630 --> 00:03:00,000

started under the

74

00:03:04,949 --> 00:03:02,640

stewardship of brandon fugo what was it

75

00:03:07,190 --> 00:03:04,959

like getting involved with thomas dragon

76

00:03:09,670 --> 00:03:07,200

eric and cole who had already been there

77

00:03:13,670 --> 00:03:09,680

working together joining the team can a

78

00:03:16,630 --> 00:03:13,680

few years into their work as a skeptic

79

00:03:19,030 --> 00:03:16,640

yeah uh at first they uh they weren't

80

00:03:21,030 --> 00:03:19,040

sure what to think about me um

81

00:03:22,630 --> 00:03:21,040

coming in and uh looking at what they

82

00:03:25,190 --> 00:03:22,640

had done and and

83

00:03:27,270 --> 00:03:25,200

and sort of telling them that i wasn't a

84

00:03:29,589 --> 00:03:27,280

big believer you know and they just kind

85

00:03:31,350 --> 00:03:29,599

of all smirked and said just give it

86

00:03:32,789 --> 00:03:31,360

time

87

00:03:35,030 --> 00:03:32,799

and you will be

88

00:03:37,990 --> 00:03:35,040

and that's kind of where uh where it

89

00:03:40,630 --> 00:03:38,000

ended up but uh but we got along

90

00:03:43,270 --> 00:03:40,640

very good just really quickly

91

00:03:45,830 --> 00:03:43,280

and uh started uh digging into the

92

00:03:48,309 --> 00:03:45,840

investigation and and they all uh

93

00:03:50,390 --> 00:03:48,319

accepted me as part of the team and

94

00:03:51,750 --> 00:03:50,400

since then we've uh really

95

00:03:54,550 --> 00:03:51,760

kind of been in the same foxhole

96

00:03:56,229 --> 00:03:54,560

together for the last three years or so

97

00:03:58,070 --> 00:03:56,239

and those first seasons we are

98

00:04:00,470 --> 00:03:58,080

introduced to the ranch the history of

99

00:04:03,509 --> 00:04:00,480

the ranch the team and we start to see

100

00:04:05,190 --> 00:04:03,519

those initial scientific investigations

101

00:04:07,350 --> 00:04:05,200

now several years down the line the

102

00:04:09,750 --> 00:04:07,360

technology has improved what are the

103

00:04:11,830 --> 00:04:09,760

challenges that you face individually

104

00:04:14,550 --> 00:04:11,840

and as a group to keep progressing those

105

00:04:17,749 --> 00:04:14,560

investigations

106

00:04:20,789 --> 00:04:17,759

yeah the biggest thing is

107

00:04:23,030 --> 00:04:20,799

while we do our best try and stimulate

108

00:04:25,189 --> 00:04:23,040

something to happen everything seems

109

00:04:27,909 --> 00:04:25,199

sort of random serendipitous

110

00:04:29,749 --> 00:04:27,919

happenstance and we'll try one thing

111

00:04:31,030 --> 00:04:29,759

that works one day and try it again

112

00:04:33,030 --> 00:04:31,040

another day and something different will

113

00:04:36,310 --> 00:04:33,040

happen so it's real hard to be

114

00:04:37,270 --> 00:04:36,320

repeatable from a scientific standpoint

115

00:04:38,150 --> 00:04:37,280

um

116

00:04:43,909 --> 00:04:38,160

we

117

00:04:46,230 --> 00:04:43,919

some uh some of the limits of some of

118

00:04:48,710 --> 00:04:46,240

the uh lower cost technologies that

119

00:04:50,230 --> 00:04:48,720

we've been using and we really are at a

120

00:04:52,230 --> 00:04:50,240

point where we've got to kind of step up

121

00:04:55,670 --> 00:04:52,240

the game and go to some uh more

122

00:04:58,070 --> 00:04:55,680

expensive more more complex systems

123

00:04:59,350 --> 00:04:58,080

and uh i think we also have to be more

124

00:05:01,350 --> 00:04:59,360

aggressive

125

00:05:02,310 --> 00:05:01,360

in the uh investigation you know we

126

00:05:03,510 --> 00:05:02,320

gotta

127

00:05:05,510 --> 00:05:03,520

how are we gonna find out what's

128

00:05:07,270 --> 00:05:05,520

underneath the mesa if we don't dig into

129

00:05:08,710 --> 00:05:07,280

the mesa we've pretty much exhausted

130

00:05:11,270 --> 00:05:08,720

ground penetrating radar and

131

00:05:13,110 --> 00:05:11,280

seismophones and everything else

132

00:05:15,270 --> 00:05:13,120

is that a big frustration for yourself

133

00:05:17,510 --> 00:05:15,280

because we've seen several episodes

134

00:05:19,430 --> 00:05:17,520

titled you know bad things happen when

135

00:05:21,990 --> 00:05:19,440

you dig we've heard of the injuries

136

00:05:24,469 --> 00:05:22,000

thomas winterton received and others

137

00:05:27,430 --> 00:05:24,479

when digging has happened on the ranch

138

00:05:29,990 --> 00:05:27,440

do you have that scientific you know

139

00:05:31,749 --> 00:05:30,000

drive that let's just dig let's just see

140

00:05:33,350 --> 00:05:31,759

what happens let's let's poke the

141

00:05:35,029 --> 00:05:33,360

hornet's nest

142

00:05:36,710 --> 00:05:35,039

yeah well that's the first thing i told

143

00:05:38,150 --> 00:05:36,720

the guys the first day i met them if

144

00:05:40,469 --> 00:05:38,160

they're telling me that things happen

145

00:05:42,710 --> 00:05:40,479

when you digs don't dig that's a big

146

00:05:45,029 --> 00:05:42,720

blinking flashing light neon sign that

147

00:05:47,590 --> 00:05:45,039

says well we need to dig and we need to

148

00:05:49,430 --> 00:05:47,600

dig a lot uh to see if we can measure

149

00:05:51,909 --> 00:05:49,440

the phenomena that's going on

150

00:05:53,990 --> 00:05:51,919

it's really weird that

151
00:05:55,189 --> 00:05:54,000
anytime we've done any significant

152
00:05:57,430 --> 00:05:55,199
digging

153
00:05:59,510 --> 00:05:57,440
with a bulldozer or a

154
00:06:01,990 --> 00:05:59,520
backhoe or even drilling

155
00:06:04,230 --> 00:06:02,000
for some reason we have a lot of

156
00:06:05,350 --> 00:06:04,240
technical malfunctions and issues with

157
00:06:07,990 --> 00:06:05,360
the equipment

158
00:06:10,070 --> 00:06:08,000
a big thing is the batteries get zapped

159
00:06:12,150 --> 00:06:10,080
like almost instantly we we had a

160
00:06:13,909 --> 00:06:12,160
bulldozer out there one day and we had

161
00:06:15,350 --> 00:06:13,919
to change the batteries on it uh like

162
00:06:16,790 --> 00:06:15,360
three or four times

163
00:06:18,830 --> 00:06:16,800

and that's one of the things we've seen

164

00:06:21,270 --> 00:06:18,840

with trucks with tractors with

165

00:06:23,990 --> 00:06:21,280

everything uh but now you think about it

166

00:06:25,830 --> 00:06:24,000

this is a farm right it's it's a ranch

167

00:06:28,390 --> 00:06:25,840

and they had to dig post holes they had

168

00:06:30,550 --> 00:06:28,400

to you know dig pipelines to run their

169

00:06:33,670 --> 00:06:30,560

wire their plumbing

170

00:06:35,990 --> 00:06:33,680

so digging happens the question is

171

00:06:37,990 --> 00:06:36,000

why are you digging and does does is

172

00:06:41,189 --> 00:06:38,000

there really an effect because you have

173

00:06:43,350 --> 00:06:41,199

an intent to dig to find something as

174

00:06:45,830 --> 00:06:43,360

opposed to just you know uh

175

00:06:47,830 --> 00:06:45,840

infrastructure building

176
00:06:49,670 --> 00:06:47,840
and the three seasons that we've seen so

177
00:06:51,749 --> 00:06:49,680
far there's been a lot of experiments

178
00:06:53,189 --> 00:06:51,759
shown on camera

179
00:06:55,270 --> 00:06:53,199
what are some of your your favorite

180
00:06:57,270 --> 00:06:55,280
experiments you've done so far and are

181
00:06:59,670 --> 00:06:57,280
there any that was not seen on camera

182
00:07:01,670 --> 00:06:59,680
that you would like to talk about

183
00:07:03,510 --> 00:07:01,680
well uh there's some that are still

184
00:07:05,909 --> 00:07:03,520
coming up that i don't want to spoil for

185
00:07:08,070 --> 00:07:05,919
anybody but and they were really

186
00:07:09,830 --> 00:07:08,080
last summer our investigation

187
00:07:12,390 --> 00:07:09,840
i mean we went all out

188
00:07:15,029 --> 00:07:12,400

and you'll see that uh

189

00:07:16,950 --> 00:07:15,039

some of the uh experiments we did were

190

00:07:18,469 --> 00:07:16,960

exciting

191

00:07:21,189 --> 00:07:18,479

they had a lot of equipment they were

192

00:07:23,110 --> 00:07:21,199

highly complex and they had some amazing

193

00:07:23,990 --> 00:07:23,120

results

194

00:07:28,230 --> 00:07:24,000

but

195

00:07:31,909 --> 00:07:30,150

any any time that we were up in the

196

00:07:34,469 --> 00:07:31,919

helicopter uh

197

00:07:37,189 --> 00:07:34,479

making measurements uh in the anomaly

198

00:07:39,430 --> 00:07:37,199

over the triangle uh because the results

199

00:07:40,629 --> 00:07:39,440

that we got from that is just beyond

200

00:07:43,510 --> 00:07:40,639

fascinating

201
00:07:45,990 --> 00:07:43,520
um and and of course the one where we

202
00:07:48,950 --> 00:07:46,000
had the thermal cameras observing

203
00:07:51,189 --> 00:07:48,960
homestead 2 when the rabbi did his

204
00:07:53,189 --> 00:07:51,199
uh ceremony to open up a portal to

205
00:07:55,510 --> 00:07:53,199
heaven and we saw the

206
00:07:58,710 --> 00:07:55,520
temperature vortex appear inside the

207
00:08:00,710 --> 00:07:58,720
homestead doorway so i you know but

208
00:08:03,510 --> 00:08:00,720
every every bit of it has been exciting

209
00:08:05,110 --> 00:08:03,520
and and fascinating

210
00:08:07,909 --> 00:08:05,120
i listened to your interview with george

211
00:08:09,909 --> 00:08:07,919
knapp on mystery wire just recently and

212
00:08:12,390 --> 00:08:09,919
you talked about the the time i believe

213
00:08:15,029 --> 00:08:12,400

in season one you'd opened up one of the

214

00:08:17,430 --> 00:08:15,039

the manholes essentially and got the

215

00:08:19,589 --> 00:08:17,440

symptoms of radiation poisoning

216

00:08:21,909 --> 00:08:19,599

was it did you find out exactly what it

217

00:08:23,670 --> 00:08:21,919

was you got was it radiation poisoning

218

00:08:25,670 --> 00:08:23,680

or was it an illness similar to

219

00:08:28,230 --> 00:08:25,680

radiation poisoning

220

00:08:30,790 --> 00:08:28,240

so uh all the symptoms according to two

221

00:08:32,550 --> 00:08:30,800

different doctors that i saw uh and

222

00:08:34,630 --> 00:08:32,560

myself you know looking at the

223

00:08:36,790 --> 00:08:34,640

everything i'd read about it is i had

224

00:08:38,389 --> 00:08:36,800

all the symptoms of radiation sickness

225

00:08:40,949 --> 00:08:38,399

and uh

226

00:08:42,790 --> 00:08:40,959

it was when we were behind homestead 2

227

00:08:45,350 --> 00:08:42,800

opening up the cistern

228

00:08:47,430 --> 00:08:45,360

uh in the back there and

229

00:08:49,269 --> 00:08:47,440

you know my gamma ray detector went off

230

00:08:51,190 --> 00:08:49,279

and people standing right next to me

231

00:08:53,350 --> 00:08:51,200

theirs didn't so i don't know how that's

232

00:08:54,710 --> 00:08:53,360

possible and you know we had a team come

233

00:08:58,070 --> 00:08:54,720

in the next day

234

00:09:00,310 --> 00:08:58,080

uh to scour the entire ranch for you

235

00:09:02,389 --> 00:09:00,320

know radiation sources and nobody found

236

00:09:04,150 --> 00:09:02,399

anything with high-tech equipment that

237

00:09:07,829 --> 00:09:04,160

they use for the navy

238

00:09:09,750 --> 00:09:07,839

and uh so we can't explain what happened

239

00:09:12,790 --> 00:09:09,760

but what we can't explain is that

240

00:09:15,750 --> 00:09:12,800

something hit me it set off my geiger

241

00:09:19,670 --> 00:09:15,760

counter my personal dosimeter

242

00:09:22,790 --> 00:09:19,680

and then i had burn marks i had

243

00:09:24,570 --> 00:09:22,800

all of the other symptoms of dark

244

00:09:26,710 --> 00:09:24,580

discolored urine

245

00:09:28,710 --> 00:09:26,720

[Music]

246

00:09:30,790 --> 00:09:28,720

flu-like symptoms

247

00:09:32,630 --> 00:09:30,800

all of these things that are very

248

00:09:34,710 --> 00:09:32,640

indicative of radiation sickness that

249

00:09:36,790 --> 00:09:34,720

lasted for several days to a week

250

00:09:37,590 --> 00:09:36,800

depending on which symptom we're talking

251
00:09:38,230 --> 00:09:37,600
so

252
00:10:06,470 --> 00:09:38,240
i

253
00:10:08,790 --> 00:10:06,480
we've heard recently more so from you

254
00:10:11,190 --> 00:10:08,800
mentioned colm keller and his book with

255
00:10:13,509 --> 00:10:11,200
james lickatsky and george knapp about

256
00:10:15,829 --> 00:10:13,519
you know skinwalker ranch awesome the

257
00:10:18,550 --> 00:10:15,839
the what went on several years before

258
00:10:20,230 --> 00:10:18,560
brandon fugal took over that other

259
00:10:23,110 --> 00:10:20,240
people have had exposure to the

260
00:10:24,949 --> 00:10:23,120
phenomena that has resulted in illness

261
00:10:26,710 --> 00:10:24,959
did anything like that ever cross your

262
00:10:29,670 --> 00:10:26,720
mind or did you have any conversations

263
00:10:31,590 --> 00:10:29,680

with people like colm

264

00:10:34,389 --> 00:10:31,600

you know we've talked with uh with them

265

00:10:36,790 --> 00:10:34,399

through either the phone or in person or

266

00:10:39,190 --> 00:10:36,800

on like zoom calls or something and in

267

00:10:42,389 --> 00:10:39,200

fact i talked with eric davis uh day

268

00:10:46,710 --> 00:10:42,399

before yesterday uh uh about some things

269

00:10:48,030 --> 00:10:46,720

and and it it seems to me that uh

270

00:10:50,069 --> 00:10:48,040

they had sort of different

271

00:10:51,829 --> 00:10:50,079

phenomenologies occur and different

272

00:10:53,750 --> 00:10:51,839

illnesses and and

273

00:10:56,150 --> 00:10:53,760

they never were exposed to radiation

274

00:10:57,910 --> 00:10:56,160

that eric seemed to think and that's

275

00:11:00,150 --> 00:10:57,920

eric davis

276

00:11:02,630 --> 00:11:00,160

and uh but i will tell you this colm

277

00:11:04,790 --> 00:11:02,640

kelleher told us from the very start

278

00:11:07,430 --> 00:11:04,800

that uh he wasn't going back out there

279

00:11:09,190 --> 00:11:07,440

and uh uh it was better us being there

280

00:11:10,150 --> 00:11:09,200

than him sort of thing

281

00:11:11,110 --> 00:11:10,160

uh

282

00:11:13,430 --> 00:11:11,120

now

283

00:11:15,750 --> 00:11:13,440

i also have heard from some other folks

284

00:11:16,790 --> 00:11:15,760

from the nids and bass team

285

00:11:21,829 --> 00:11:16,800

that

286

00:11:23,430 --> 00:11:21,839

generated some activity we maybe have we

287

00:11:25,110 --> 00:11:23,440

have poked the hornet's nest because we

288

00:11:27,350 --> 00:11:25,120

seem to be seeing a lot more activity

289

00:11:29,990 --> 00:11:27,360

than what they saw

290

00:11:33,030 --> 00:11:30,000

but they did see stuff and they and they

291

00:11:35,030 --> 00:11:33,040

were more passive uh than we've been and

292

00:11:36,790 --> 00:11:35,040

that might be part of it

293

00:11:38,550 --> 00:11:36,800

it seemed quite uncomfortable and quite

294

00:11:40,949 --> 00:11:38,560

scary for you when you started feeling

295

00:11:42,630 --> 00:11:40,959

those initial symptoms on camera and

296

00:11:44,470 --> 00:11:42,640

obviously on camera it lasts a few

297

00:11:47,269 --> 00:11:44,480

seconds but like you say for you it was

298

00:11:49,190 --> 00:11:47,279

days of not feeling well was there ever

299

00:11:51,110 --> 00:11:49,200

any moments throughout your time on the

300

00:11:53,430 --> 00:11:51,120

ranch where you've thought this is

301
00:11:56,069 --> 00:11:53,440
enough i need to get away from here and

302
00:11:58,949 --> 00:11:56,079
probably not go back

303
00:12:01,110 --> 00:11:58,959
oh that had that crossed my mind a few

304
00:12:03,350 --> 00:12:01,120
times over the few years and we'll have

305
00:12:04,949 --> 00:12:03,360
things that there there's this phenomena

306
00:12:07,030 --> 00:12:04,959
that we've noticed

307
00:12:09,829 --> 00:12:07,040
that the longer you're exposed to the

308
00:12:12,069 --> 00:12:09,839
ranch that you seem to become very

309
00:12:14,230 --> 00:12:12,079
more likely to be irritable and more

310
00:12:16,310 --> 00:12:14,240
likely to be exhausted

311
00:12:17,670 --> 00:12:16,320
mentally and emotionally

312
00:12:19,829 --> 00:12:17,680
and

313
00:12:21,670 --> 00:12:19,839

there are days when

314

00:12:23,670 --> 00:12:21,680

you feel like you just got to get away

315

00:12:25,590 --> 00:12:23,680

from the place and going and we don't

316

00:12:27,430 --> 00:12:25,600

know exactly why that is i think it has

317

00:12:29,430 --> 00:12:27,440

something to do possibly

318

00:12:31,990 --> 00:12:29,440

with the microwaves we keep detecting

319

00:12:33,509 --> 00:12:32,000

out there affecting our sleep patterns

320

00:12:35,910 --> 00:12:33,519

but i haven't proven that yet but that

321

00:12:38,470 --> 00:12:35,920

is my working hypothesis

322

00:12:39,910 --> 00:12:38,480

but i i remember one morning in season

323

00:12:42,230 --> 00:12:39,920

uh two

324

00:12:44,870 --> 00:12:42,240

where i got up and uh walked over to the

325

00:12:46,710 --> 00:12:44,880

guys and uh i said it was all i could do

326

00:12:48,710 --> 00:12:46,720

just to not get in my my car and drive

327

00:12:50,550 --> 00:12:48,720

the airport and go home this morning

328

00:12:52,230 --> 00:12:50,560

uh i mean that happens

329

00:12:54,310 --> 00:12:52,240

but we fight through it and we keep

330

00:12:55,829 --> 00:12:54,320

going and uh because there's something

331

00:12:57,430 --> 00:12:55,839

going on there that we just got to get

332

00:12:59,350 --> 00:12:57,440

to the bottom of

333

00:13:01,350 --> 00:12:59,360

and you've got an incredibly impressive

334

00:13:03,269 --> 00:13:01,360

cv you know between your academic

335

00:13:04,150 --> 00:13:03,279

achievements and your and your working

336

00:13:05,590 --> 00:13:04,160

life

337

00:13:08,069 --> 00:13:05,600

what do your colleagues say in those

338

00:13:10,389 --> 00:13:08,079

different backgrounds that know you work

339

00:13:13,350 --> 00:13:10,399

at the ranch and you you investigate at

340

00:13:15,590 --> 00:13:13,360

the ranch what are their opinions on it

341

00:13:17,590 --> 00:13:15,600

at first they thought i was nuts and

342

00:13:20,069 --> 00:13:17,600

that i would uh you know completely

343

00:13:21,430 --> 00:13:20,079

discredit myself for future work but now

344

00:13:24,069 --> 00:13:21,440

that they've seen

345

00:13:25,750 --> 00:13:24,079

the exhaustive in fact i had a colleague

346

00:13:27,990 --> 00:13:25,760

who who actually told me that i was nuts

347

00:13:30,150 --> 00:13:28,000

for going out there doing what i do

348

00:13:33,190 --> 00:13:30,160

uh before i went

349

00:13:35,190 --> 00:13:33,200

uh told me actually yesterday that he

350

00:13:37,110 --> 00:13:35,200

was extremely impressed by the

351

00:13:39,189 --> 00:13:37,120

exhaustive amount of scientific rigor

352

00:13:42,230 --> 00:13:39,199

that we've put into the effort and it's

353

00:13:45,030 --> 00:13:42,240

kind of helping change opinion i think

354

00:13:47,269 --> 00:13:45,040

in the culture uh and i think shows like

355

00:13:49,990 --> 00:13:47,279

skinwalker ranch ancient aliens you know

356

00:13:53,110 --> 00:13:50,000

those those types of shows are actually

357

00:13:55,590 --> 00:13:53,120

convincing the academic community that

358

00:13:56,790 --> 00:13:55,600

uh hey uh this is something that we need

359

00:13:59,750 --> 00:13:56,800

to look into

360

00:14:02,150 --> 00:13:59,760

there's no no such thing as fringe in in

361

00:14:04,310 --> 00:14:02,160

the scientific method if it's an unknown

362

00:14:06,069 --> 00:14:04,320

you're supposed to as a scientist

363

00:14:08,629 --> 00:14:06,079

investigate it with the scientific

364

00:14:10,949 --> 00:14:08,639

method and i think also with the all the

365

00:14:12,870 --> 00:14:10,959

uap stuff coming out uh from the

366

00:14:14,389 --> 00:14:12,880

pentagon

367

00:14:15,910 --> 00:14:14,399

is is really

368

00:14:18,150 --> 00:14:15,920

making people realize hey you know

369

00:14:20,230 --> 00:14:18,160

there's a possible whole field of

370

00:14:22,230 --> 00:14:20,240

science here that we have not been

371

00:14:24,310 --> 00:14:22,240

looking at for a long time seriously and

372

00:14:25,910 --> 00:14:24,320

it's time to get serious

373

00:14:27,750 --> 00:14:25,920

you mentioned them

374

00:14:29,110 --> 00:14:27,760

the uap task force report from the

375

00:14:31,430 --> 00:14:29,120

pentagon was one thing that they

376

00:14:33,350 --> 00:14:31,440

released and recently you were hired by

377

00:14:35,990 --> 00:14:33,360

radiance technologies which is a firm

378

00:14:37,990 --> 00:14:36,000

taking on classified work for the dod

379

00:14:40,389 --> 00:14:38,000

one of your colleagues is a certain john

380

00:14:42,550 --> 00:14:40,399

j stratton who was former head of the

381

00:14:45,430 --> 00:14:42,560

uap task force for the pentagon and i'm

382

00:14:47,110 --> 00:14:45,440

just wondering if your paths cross

383

00:14:48,629 --> 00:14:47,120

do you have conversations about

384

00:14:50,069 --> 00:14:48,639

skinwalker ranch and given his

385

00:14:51,590 --> 00:14:50,079

background you know what may or may not

386

00:14:54,470 --> 00:14:51,600

be going on now

387

00:14:56,310 --> 00:14:54,480

oh i i talk with jay every day jay is a

388

00:15:00,310 --> 00:14:56,320

good friend of mine i've known him for

389

00:15:02,790 --> 00:15:00,320

several years uh uh we've uh

390

00:15:06,470 --> 00:15:02,800

passed uh sort of uh war stories as

391

00:15:07,990 --> 00:15:06,480

you'd say and uh uh in fact his office

392

00:15:10,150 --> 00:15:08,000

in my office actually share a wall i

393

00:15:12,069 --> 00:15:10,160

mean we we work on i was in a meeting

394

00:15:14,710 --> 00:15:12,079

with him this morning and

395

00:15:16,389 --> 00:15:14,720

so we talk about these things all the

396

00:15:18,790 --> 00:15:16,399

time and you know he tells me some of

397

00:15:21,189 --> 00:15:18,800

the things that happened when when uh

398

00:15:23,110 --> 00:15:21,199

the previous work was done out there and

399

00:15:25,030 --> 00:15:23,120

and he's also extremely impressed with

400

00:15:26,870 --> 00:15:25,040

the fact that you know the technology is

401
00:15:29,749 --> 00:15:26,880
so much cheaper and more available for

402
00:15:33,189 --> 00:15:29,759
us than it was for bigelow's team so we

403
00:15:35,350 --> 00:15:33,199
have a an opportunity to do a lot more

404
00:15:38,150 --> 00:15:35,360
now at skinwalker ranch than bigelow's

405
00:15:39,430 --> 00:15:38,160
team ever did simply due to cost and

406
00:15:40,629 --> 00:15:39,440
availability

407
00:15:43,829 --> 00:15:40,639
and uh

408
00:15:47,030 --> 00:15:43,839
you know what effect it had with uh you

409
00:15:49,829 --> 00:15:47,040
know or what it stimulated for uh that

410
00:15:51,749 --> 00:15:49,839
era though i think was

411
00:15:54,629 --> 00:15:51,759
it was a hot spot for

412
00:15:56,550 --> 00:15:54,639
activity that made people take serious

413
00:15:58,949 --> 00:15:56,560

enough that they would start a program

414

00:16:00,550 --> 00:15:58,959

and and start go investigating these

415

00:16:01,910 --> 00:16:00,560

phenomena and i think it's going to

416

00:16:04,069 --> 00:16:01,920

continue

417

00:16:05,829 --> 00:16:04,079

brandon said himself on several

418

00:16:07,350 --> 00:16:05,839

occasions and brandon seems a man you

419

00:16:09,189 --> 00:16:07,360

have to take at face value and take his

420

00:16:11,509 --> 00:16:09,199

word that he didn't receive any

421

00:16:13,670 --> 00:16:11,519

documents from brandon fugo from robert

422

00:16:15,110 --> 00:16:13,680

bigelow sorry when they took over

423

00:16:17,110 --> 00:16:15,120

ownership of the ranch there was no

424

00:16:19,269 --> 00:16:17,120

exchange of information is that

425

00:16:21,110 --> 00:16:19,279

something you think would have helped or

426
00:16:22,470 --> 00:16:21,120
hindered your own investigations having

427
00:16:25,590 --> 00:16:22,480
that information

428
00:16:27,350 --> 00:16:25,600
well i have mixed feelings about it

429
00:16:29,030 --> 00:16:27,360
had they given us the information at

430
00:16:30,069 --> 00:16:29,040
least we might not have reinvented the

431
00:16:32,069 --> 00:16:30,079
wheel

432
00:16:35,590 --> 00:16:32,079
on some of the experiments they did

433
00:16:36,710 --> 00:16:35,600
but they mostly uh observed

434
00:16:38,310 --> 00:16:36,720
and

435
00:16:39,350 --> 00:16:38,320
the data they got

436
00:16:41,829 --> 00:16:39,360
why they

437
00:16:43,829 --> 00:16:41,839
they won't release it to us

438
00:16:45,509 --> 00:16:43,839

i i don't understand

439

00:16:47,030 --> 00:16:45,519

all of the details of that it may be

440

00:16:49,269 --> 00:16:47,040

that bigelow still thinks some of it is

441

00:16:51,350 --> 00:16:49,279

uh proprietary to him or the government

442

00:16:53,269 --> 00:16:51,360

owes him something for it or what i

443

00:16:54,310 --> 00:16:53,279

don't know

444

00:16:56,230 --> 00:16:54,320

but

445

00:16:57,430 --> 00:16:56,240

anytime you start on a scientific

446

00:16:58,870 --> 00:16:57,440

project that's part of the scientific

447

00:17:00,949 --> 00:16:58,880

method actually the first step of the

448

00:17:02,470 --> 00:17:00,959

scientific method is to do your homework

449

00:17:04,470 --> 00:17:02,480

and read all the papers that's ever been

450

00:17:05,429 --> 00:17:04,480

written about the topic

451
00:17:07,909 --> 00:17:05,439
and

452
00:17:09,669 --> 00:17:07,919
so doing that it would have been nice to

453
00:17:11,590 --> 00:17:09,679
have had the previous experiments and

454
00:17:14,150 --> 00:17:11,600
data that was gathered from the bigelow

455
00:17:15,829 --> 00:17:14,160
work but i've never been able to see any

456
00:17:17,270 --> 00:17:15,839
of that he's it's never been released to

457
00:17:18,470 --> 00:17:17,280
any of us

458
00:17:20,789 --> 00:17:18,480
so

459
00:17:23,270 --> 00:17:20,799
we're basically starting over and i

460
00:17:25,270 --> 00:17:23,280
think we've done all right

461
00:17:26,949 --> 00:17:25,280
obviously i've done more than okay the

462
00:17:29,270 --> 00:17:26,959
the science on the ranch has been very

463
00:17:31,350 --> 00:17:29,280

interesting and it does translate well

464

00:17:32,950 --> 00:17:31,360

to a tv show because that can be a

465

00:17:35,029 --> 00:17:32,960

difficult thing to show scientific

466

00:17:36,310 --> 00:17:35,039

experiments on tv given the nature of

467

00:17:37,990 --> 00:17:36,320

what you're doing

468

00:17:40,310 --> 00:17:38,000

if you were put in charge of the ranch

469

00:17:42,789 --> 00:17:40,320

for a month and you know history channel

470

00:17:44,630 --> 00:17:42,799

gave you a sizeable budget what are some

471

00:17:46,150 --> 00:17:44,640

of the first things you would do you've

472

00:17:48,310 --> 00:17:46,160

mentioned digging but what else would

473

00:17:50,470 --> 00:17:48,320

you do to really move forward those

474

00:17:52,789 --> 00:17:50,480

investigations yourself

475

00:17:55,029 --> 00:17:52,799

oh wow so if i had a

476
00:17:56,310 --> 00:17:55,039
ginormous budget so to speak yeah i

477
00:17:57,590 --> 00:17:56,320
would have uh

478
00:18:00,870 --> 00:17:57,600
i would pay

479
00:18:03,270 --> 00:18:00,880
for some infrared satellite imagery

480
00:18:06,390 --> 00:18:03,280
and detailed uh

481
00:18:07,750 --> 00:18:06,400
space imagery done of the area i would

482
00:18:10,549 --> 00:18:07,760
also

483
00:18:13,350 --> 00:18:10,559
probably set up an entire grid on every

484
00:18:18,270 --> 00:18:13,360
like one every square meter of the ranch

485
00:18:21,669 --> 00:18:18,280
have a a set of sensors that would be

486
00:18:23,270 --> 00:18:21,679
seismometry microwave magnetic

487
00:18:26,150 --> 00:18:23,280
gamma rays

488
00:18:28,710 --> 00:18:26,160

across the board you name it and have

489

00:18:30,870 --> 00:18:28,720

you have all that come into a major

490

00:18:33,430 --> 00:18:30,880

server system in the command center that

491

00:18:35,190 --> 00:18:33,440

we could continually run with artificial

492

00:18:36,870 --> 00:18:35,200

intelligence and machine learning

493

00:18:40,630 --> 00:18:36,880

looking through it for

494

00:18:43,510 --> 00:18:40,640

uh any types of anomalous data as well

495

00:18:46,150 --> 00:18:43,520

as i would have an array of cameras and

496

00:18:48,310 --> 00:18:46,160

radio telescopes and radar constantly

497

00:18:50,230 --> 00:18:48,320

sweeping the sky above it

498

00:18:52,310 --> 00:18:50,240

but all that stuff is expensive and the

499

00:18:54,710 --> 00:18:52,320

biggest thing even even if you had the

500

00:18:57,590 --> 00:18:54,720

equipment you gather so much data it

501
00:19:00,310 --> 00:18:57,600
would take expensive uh computer systems

502
00:19:02,070 --> 00:19:00,320
and and and people running them to go

503
00:19:02,950 --> 00:19:02,080
through all the data that's the problem

504
00:19:04,549 --> 00:19:02,960
you know that the search for

505
00:19:06,710 --> 00:19:04,559
extraterrestrial intelligence has had

506
00:19:08,789 --> 00:19:06,720
for a long time they've gathered so much

507
00:19:10,789 --> 00:19:08,799
data they can't go through all of it

508
00:19:14,070 --> 00:19:10,799
and and so uh that's kind of one of the

509
00:19:17,150 --> 00:19:14,080
things that uh uh we we've started uh

510
00:19:18,789 --> 00:19:17,160
live feeds on our website uh

511
00:19:20,710 --> 00:19:18,799
skinwalkerhyphenranch.com so that people

512
00:19:22,070 --> 00:19:20,720
can can go there and actually look and

513
00:19:23,990 --> 00:19:22,080

if they see something they can tell us

514

00:19:25,430 --> 00:19:24,000

hey we saw something at such and such

515

00:19:27,909 --> 00:19:25,440

time and we'll go back and look for and

516

00:19:29,990 --> 00:19:27,919

do to uh gather the data

517

00:19:31,669 --> 00:19:30,000

so it that's what i would do is just add

518

00:19:33,270 --> 00:19:31,679

a lot more sensors and a lot more

519

00:19:35,590 --> 00:19:33,280

capabilities

520

00:19:37,110 --> 00:19:35,600

interesting on a recent interview again

521

00:19:39,590 --> 00:19:37,120

with george knapp you mentioned that you

522

00:19:41,270 --> 00:19:39,600

had never seen a ufo until you got to

523

00:19:43,669 --> 00:19:41,280

skinwalker ranch now you've seen more

524

00:19:45,510 --> 00:19:43,679

than you can count what's been the most

525

00:19:48,150 --> 00:19:45,520

incredible of all your sightings and

526

00:19:49,750 --> 00:19:48,160

experiences involving ufos

527

00:19:52,310 --> 00:19:49,760

yeah so i'm not sure

528

00:19:55,350 --> 00:19:52,320

which episodes have uh aired in the uk

529

00:19:56,789 --> 00:19:55,360

this year uh so far no season three yet

530

00:19:58,230 --> 00:19:56,799

just season one and two we've not got

531

00:19:59,430 --> 00:19:58,240

season three yet well you haven't got

532

00:20:01,430 --> 00:19:59,440

season three

533

00:20:03,990 --> 00:20:01,440

well then i'm not gonna spoil it for you

534

00:20:06,549 --> 00:20:04,000

but the most exciting one that i've seen

535

00:20:08,870 --> 00:20:06,559

uh occurred in season three

536

00:20:11,190 --> 00:20:08,880

and uh i i think it's around episode

537

00:20:14,789 --> 00:20:11,200

four or five i forget which one uh and

538

00:20:16,470 --> 00:20:14,799

you'll see uh it's just an amazing uh uh

539

00:20:18,789 --> 00:20:16,480

event that takes place

540

00:20:22,549 --> 00:20:18,799

uh but in the previous season

541

00:20:23,909 --> 00:20:22,559

um in season two when i i actually was

542

00:20:26,310 --> 00:20:23,919

at home

543

00:20:27,830 --> 00:20:26,320

and i was looking at my phone uh i was

544

00:20:29,909 --> 00:20:27,840

actually going to show my son

545

00:20:32,630 --> 00:20:29,919

the the mesa through the cameras that i

546

00:20:34,630 --> 00:20:32,640

can access through my phone

547

00:20:35,750 --> 00:20:34,640

and and i told him i said well well

548

00:20:38,549 --> 00:20:35,760

let's look here and it looked like it

549

00:20:40,630 --> 00:20:38,559

was lightning on the mesa and raining

550

00:20:42,870 --> 00:20:40,640

and i called eric uh who was there and

551
00:20:44,710 --> 00:20:42,880
it was there it was a saturday and uh

552
00:20:46,149 --> 00:20:44,720
and uh i said eric go out and look at

553
00:20:47,909 --> 00:20:46,159
the mesa it's lightning just struck

554
00:20:49,830 --> 00:20:47,919
right where we launched the rockets from

555
00:20:51,669 --> 00:20:49,840
anyone it's not raining here there's no

556
00:20:53,029 --> 00:20:51,679
lightning what are you talking about

557
00:20:54,950 --> 00:20:53,039
so when i got back to the ranch on

558
00:20:56,230 --> 00:20:54,960
monday morning we went and looked at

559
00:20:59,110 --> 00:20:56,240
that time

560
00:21:01,430 --> 00:20:59,120
exact time that i called him and we

561
00:21:04,789 --> 00:21:01,440
found in multiple cameras looking in the

562
00:21:07,430 --> 00:21:04,799
direction of the mesa a ufo that or that

563
00:21:09,430 --> 00:21:07,440

flew in and and did some maneuvers and

564

00:21:11,430 --> 00:21:09,440

took off at like a couple thousand miles

565

00:21:13,990 --> 00:21:11,440

per hour and we'd have never looked

566

00:21:16,070 --> 00:21:14,000

there had for that not been some weird

567

00:21:18,390 --> 00:21:16,080

phenomena affecting my phone and the

568

00:21:21,270 --> 00:21:18,400

server we never found

569

00:21:22,630 --> 00:21:21,280

the video that i saw through my phone

570

00:21:25,190 --> 00:21:22,640

where it was looked like there was a

571

00:21:28,950 --> 00:21:25,200

storm on the mesa that is really bizarre

572

00:21:30,549 --> 00:21:28,960

really weird but it was amazing

573

00:21:33,510 --> 00:21:30,559

the ranch is probably the highest

574

00:21:35,430 --> 00:21:33,520

profile spot on earth for this type of

575

00:21:37,590 --> 00:21:35,440

activity and all the different types of

576
00:21:40,710 --> 00:21:37,600
activity we hear about through you know

577
00:21:41,990 --> 00:21:40,720
the ossat program bigelow calm kelleher

578
00:21:43,350 --> 00:21:42,000
george knapp and others and now

579
00:21:45,510 --> 00:21:43,360
yourselves

580
00:21:47,909 --> 00:21:45,520
people must reach out to you from other

581
00:21:49,830 --> 00:21:47,919
places around the world and say i live

582
00:21:51,909 --> 00:21:49,840
here or i'm in the location where other

583
00:21:53,590 --> 00:21:51,919
sorts of phenomena happen is there

584
00:21:55,350 --> 00:21:53,600
anywhere else if there was a christmas

585
00:21:57,110 --> 00:21:55,360
special of the show and you were told

586
00:21:58,630 --> 00:21:57,120
you could head out on location that you

587
00:22:01,430 --> 00:21:58,640
yourself would want to go with a camera

588
00:22:04,230 --> 00:22:01,440

crew and maybe some equipment

589

00:22:06,310 --> 00:22:04,240

oh absolutely there's several places uh

590

00:22:08,710 --> 00:22:06,320

there you know like dulce new mexico

591

00:22:10,870 --> 00:22:08,720

there's a spot up in upstate new york

592

00:22:12,710 --> 00:22:10,880

there's a place out in arizona there's a

593

00:22:15,110 --> 00:22:12,720

place in spain that seems to be a really

594

00:22:17,990 --> 00:22:15,120

big hot spot i forget the the the city

595

00:22:19,350 --> 00:22:18,000

there but we actually spoke to uh uh one

596

00:22:20,950 --> 00:22:19,360

of the scientists that's working there

597

00:22:23,190 --> 00:22:20,960

and they're seeing some of the same

598

00:22:24,950 --> 00:22:23,200

things that we're seeing so uh there are

599

00:22:27,029 --> 00:22:24,960

spots all around the world i think

600

00:22:29,590 --> 00:22:27,039

there's one in italy uh

601
00:22:31,990 --> 00:22:29,600
you know maybe uh there in the uk

602
00:22:33,590 --> 00:22:32,000
somewhere like around stonehenge or or

603
00:22:35,830 --> 00:22:33,600
some of the places like that there's

604
00:22:36,950 --> 00:22:35,840
people see things all the time

605
00:22:38,630 --> 00:22:36,960
and it would be really interesting to

606
00:22:40,549 --> 00:22:38,640
take some of our equipment and see if we

607
00:22:42,310 --> 00:22:40,559
get similar measurements as we've gotten

608
00:22:44,549 --> 00:22:42,320
at skinwalker

609
00:22:47,750 --> 00:22:44,559
what's your biggest regret so far in the

610
00:22:49,750 --> 00:22:47,760
three years of your time in the ranch

611
00:22:51,990 --> 00:22:49,760
wow biggest regret uh well there have

612
00:22:55,270 --> 00:22:52,000
been several instances where

613
00:22:57,750 --> 00:22:55,280

uh something has occurred and uh we only

614

00:23:00,710 --> 00:22:57,760

had like one instrument or one camera

615

00:23:03,110 --> 00:23:00,720

that was there and and it would fail for

616

00:23:04,710 --> 00:23:03,120

whatever reason and uh we didn't have

617

00:23:05,750 --> 00:23:04,720

enough equipment there to have captured

618

00:23:07,990 --> 00:23:05,760

it then it would have been it was

619

00:23:08,789 --> 00:23:08,000

amazing things and we kind of have this

620

00:23:10,870 --> 00:23:08,799

uh

621

00:23:12,549 --> 00:23:10,880

kind of saying that if we didn't capture

622

00:23:13,990 --> 00:23:12,559

it on the sensors and on the cameras it

623

00:23:15,510 --> 00:23:14,000

didn't happen right because nobody's

624

00:23:16,310 --> 00:23:15,520

gonna it's just a ghost story at that

625

00:23:18,549 --> 00:23:16,320

point

626

00:23:21,510 --> 00:23:18,559

and we've had a few of those i really

627

00:23:23,590 --> 00:23:21,520

the the night that we uh were cooking

628

00:23:25,350 --> 00:23:23,600

out by my trailer and there was

629

00:23:26,789 --> 00:23:25,360

something watching us and then we ended

630

00:23:29,190 --> 00:23:26,799

up chasing it through

631

00:23:31,750 --> 00:23:29,200

uh the weeds and the up the mason it

632

00:23:33,750 --> 00:23:31,760

vanished uh the fact that we could see

633

00:23:37,029 --> 00:23:33,760

us chasing around on the ranch in the

634

00:23:39,350 --> 00:23:37,039

camera security cameras but never got a

635

00:23:41,350 --> 00:23:39,360

an image of whatever this thing was

636

00:23:42,630 --> 00:23:41,360

i i really regret that i wish we could

637

00:23:43,909 --> 00:23:42,640

have gotten a picture of whatever this

638

00:23:45,830 --> 00:23:43,919

thing was

639

00:23:48,830 --> 00:23:45,840

and i have to ask to be fair what has

640

00:23:52,070 --> 00:23:48,840

been your biggest success

641

00:23:54,390 --> 00:23:52,080

ah well i would say our biggest success

642

00:23:57,190 --> 00:23:54,400

uh well and you'll see more big

643

00:23:59,510 --> 00:23:57,200

successes in season three uh but our

644

00:24:00,310 --> 00:23:59,520

biggest success has been the fact that

645

00:24:02,310 --> 00:24:00,320

uh

646

00:24:04,630 --> 00:24:02,320

we've caught multiple

647

00:24:09,029 --> 00:24:04,640

uh uh uap

648

00:24:12,710 --> 00:24:09,039

ufos maybe uh uh on multiple cameras and

649

00:24:14,710 --> 00:24:12,720

sensors at one time with scientific data

650

00:24:16,630 --> 00:24:14,720

to back it up so that we can do analysis

651
00:24:18,230 --> 00:24:16,640
and kind of uh

652
00:24:20,149 --> 00:24:18,240
figure out what this thing is and i

653
00:24:23,269 --> 00:24:20,159
think identifying that there is a

654
00:24:25,830 --> 00:24:23,279
anomaly above the ranch uh at about a

655
00:24:27,190 --> 00:24:25,840
mile high uh is really significant

656
00:24:28,789 --> 00:24:27,200
because you know the

657
00:24:30,710 --> 00:24:28,799
the bigelow team never even bothered to

658
00:24:33,510 --> 00:24:30,720
look upward they only you know look

659
00:24:36,310 --> 00:24:33,520
really on the on the surface uh and

660
00:24:39,590 --> 00:24:36,320
around and we have been kind of

661
00:24:42,390 --> 00:24:39,600
digging down and digging up so to speak

662
00:24:44,870 --> 00:24:42,400
recently you attended the ufo symposium

663
00:24:47,350 --> 00:24:44,880

and there were videos released to the

664

00:24:49,750 --> 00:24:47,360

public shown some of them were previous

665

00:24:51,830 --> 00:24:49,760

videos we had seen one was a newer video

666

00:24:53,990 --> 00:24:51,840

and we got to hear some analysis it's

667

00:24:56,149 --> 00:24:54,000

been relatively controversial analysis

668

00:24:57,269 --> 00:24:56,159

and what the video may or may not show

669

00:24:59,190 --> 00:24:57,279

what do you

670

00:25:01,669 --> 00:24:59,200

want to say to the public in terms of

671

00:25:03,269 --> 00:25:01,679

releasing footage as it's something from

672

00:25:07,190 --> 00:25:03,279

a scientific point of view that really

673

00:25:08,710 --> 00:25:07,200

needs time and study and extra data or

674

00:25:10,310 --> 00:25:08,720

should should people be able to just

675

00:25:12,630 --> 00:25:10,320

look at a piece of footage and take it

676
00:25:14,870 --> 00:25:12,640
at face value that it may be something

677
00:25:16,710 --> 00:25:14,880
anomalous but we don't know

678
00:25:19,909 --> 00:25:16,720
a little bit of both you can't really

679
00:25:22,470 --> 00:25:19,919
look at the at a video by itself without

680
00:25:24,470 --> 00:25:22,480
doing very detailed analysis about every

681
00:25:26,470 --> 00:25:24,480
single frame in the video

682
00:25:29,510 --> 00:25:26,480
before you can say there's a really an

683
00:25:32,230 --> 00:25:29,520
anomalous thing here uh and you also

684
00:25:34,310 --> 00:25:32,240
can't throw out pieces of the video like

685
00:25:37,669 --> 00:25:34,320
the audio from the pilots

686
00:25:39,909 --> 00:25:37,679
like the uh uh the location of the thing

687
00:25:42,870 --> 00:25:39,919
like any other information that comes

688
00:25:44,070 --> 00:25:42,880

along with it uh you you can't throw

689

00:25:46,390 --> 00:25:44,080

that out and there are a lot of people

690

00:25:48,310 --> 00:25:46,400

that just ignore the audio uh from the

691

00:25:49,269 --> 00:25:48,320

pilots they say well we're they're just

692

00:25:51,990 --> 00:25:49,279

pilots they don't know what they're

693

00:25:52,870 --> 00:25:52,000

saying or seeing and i think well that's

694

00:25:55,110 --> 00:25:52,880

you know

695

00:25:58,950 --> 00:25:55,120

we're paying these guys to sit behind uh

696

00:26:00,630 --> 00:25:58,960

a high-tech piece of uh war equipment

697

00:26:01,830 --> 00:26:00,640

and they got their finger on the trigger

698

00:26:04,789 --> 00:26:01,840

and each time they pull the trigger

699

00:26:07,909 --> 00:26:04,799

they're making a uh you know a

700

00:26:09,830 --> 00:26:07,919

diplomacy a policy statement for

701
00:26:12,149 --> 00:26:09,840
whatever country they're they're doing

702
00:26:13,990 --> 00:26:12,159
that for and if we don't trust them to

703
00:26:15,669 --> 00:26:14,000
look at something and realize it's not a

704
00:26:19,110 --> 00:26:15,679
bird or a

705
00:26:20,470 --> 00:26:19,120
or a balloon or an airplane then uh then

706
00:26:22,070 --> 00:26:20,480
we got problems

707
00:26:25,990 --> 00:26:22,080
in that case so you can't throw out the

708
00:26:28,230 --> 00:26:26,000
testimony but at the same time

709
00:26:31,190 --> 00:26:28,240
you do need to be

710
00:26:32,549 --> 00:26:31,200
uh have some healthy skepticism but let

711
00:26:36,549 --> 00:26:32,559
me tell you there's a difference in

712
00:26:38,870 --> 00:26:36,559
scientific skepticism and skepticism

713
00:26:40,630 --> 00:26:38,880

with a pre-planned agenda i mean if you

714

00:26:42,630 --> 00:26:40,640

start from the beginning saying the

715

00:26:43,990 --> 00:26:42,640

results of this is it's birds or it's a

716

00:26:45,909 --> 00:26:44,000

weather balloon then you're going to

717

00:26:48,310 --> 00:26:45,919

taint your your analysis

718

00:26:50,310 --> 00:26:48,320

uh the same way you also can't uh say

719

00:26:52,310 --> 00:26:50,320

i'm i'm sure this is a ufo and it's

720

00:26:53,510 --> 00:26:52,320

going to change your analysis uh to get

721

00:26:54,870 --> 00:26:53,520

there you've got to look at i don't know

722

00:26:56,950 --> 00:26:54,880

what this is i'm going to do analysis

723

00:26:58,710 --> 00:26:56,960

and see what it tells me what it is and

724

00:27:01,029 --> 00:26:58,720

that's what you've got to do in this

725

00:27:03,350 --> 00:27:01,039

kind of situation i'll tell you this the

726

00:27:05,990 --> 00:27:03,360

the one video of the the three things

727

00:27:08,310 --> 00:27:06,000

the helicopter uh saw was very

728

00:27:09,590 --> 00:27:08,320

intriguing to me and with the pilots

729

00:27:13,269 --> 00:27:09,600

saying they thought they were moving as

730

00:27:15,510 --> 00:27:13,279

fast as f-16s uh really suggests uh that

731

00:27:17,750 --> 00:27:15,520

it wasn't birds and it wasn't some

732

00:27:19,990 --> 00:27:17,760

really mundane explanation

733

00:27:21,590 --> 00:27:20,000

yeah i'm no expert but the one thing i

734

00:27:24,149 --> 00:27:21,600

said was i'm sure the pilots can

735

00:27:26,149 --> 00:27:24,159

identify a bird in the sky as opposed to

736

00:27:27,510 --> 00:27:26,159

what may be a piece of technology so

737

00:27:29,510 --> 00:27:27,520

i'll let the experts deal with the

738

00:27:31,909 --> 00:27:29,520

analytics but for me that's i i'll

739

00:27:33,350 --> 00:27:31,919

reserve my judgment on that one still

740

00:27:35,350 --> 00:27:33,360

just before we get to some listener

741

00:27:36,950 --> 00:27:35,360

questions travis i want to ask if

742

00:27:38,870 --> 00:27:36,960

someone said tomorrow that it's the

743

00:27:41,110 --> 00:27:38,880

final episode of skinwalker ranch we're

744

00:27:42,950 --> 00:27:41,120

packing up you've got one last talking

745

00:27:45,190 --> 00:27:42,960

head moment to sum up your time on the

746

00:27:46,830 --> 00:27:45,200

show but also your best theory as to

747

00:27:49,830 --> 00:27:46,840

what's happening what would that sound

748

00:27:50,950 --> 00:27:49,840

like oh wow well certainly i hope that's

749

00:27:52,870 --> 00:27:50,960

not going to happen because there's so

750

00:27:55,269 --> 00:27:52,880

many questions to be answered there but

751
00:27:57,430 --> 00:27:55,279
uh i i would say

752
00:27:59,510 --> 00:27:57,440
thanks for the amazing opportunity to be

753
00:28:01,110 --> 00:27:59,520
out there and see uh something that

754
00:28:03,590 --> 00:28:01,120
really has changed the way i look at the

755
00:28:04,549 --> 00:28:03,600
universe in the world and and life in

756
00:28:07,029 --> 00:28:04,559
general

757
00:28:07,830 --> 00:28:07,039
uh but i would also

758
00:28:10,149 --> 00:28:07,840
uh

759
00:28:12,630 --> 00:28:10,159
say that i haven't got an idea of what

760
00:28:15,590 --> 00:28:12,640
could be causing such strange phenomena

761
00:28:17,669 --> 00:28:15,600
uh or multiple phenomena or is it just

762
00:28:19,830 --> 00:28:17,679
one thing i don't know if they're all

763
00:28:20,950 --> 00:28:19,840

you know from the same source

764

00:28:23,909 --> 00:28:20,960

uh

765

00:28:25,350 --> 00:28:23,919

and i would say if i were to speculate

766

00:28:27,430 --> 00:28:25,360

uh i could come up with all sorts of

767

00:28:29,750 --> 00:28:27,440

science fiction and fantasy

768

00:28:33,269 --> 00:28:29,760

answers that would range from a crashed

769

00:28:34,070 --> 00:28:33,279

alien spacecraft going haywire to uh uh

770

00:28:35,350 --> 00:28:34,080

you know

771

00:28:36,310 --> 00:28:35,360

some sort of

772

00:28:39,269 --> 00:28:36,320

uh

773

00:28:40,870 --> 00:28:39,279

portal into a connected universe or you

774

00:28:42,789 --> 00:28:40,880

know you could come up with all sorts of

775

00:28:44,630 --> 00:28:42,799

science fiction scenarios

776

00:28:46,710 --> 00:28:44,640

but i would say that we just don't have

777

00:28:48,389 --> 00:28:46,720

enough data to tell you one which one of

778

00:28:50,549 --> 00:28:48,399

those science fiction scenarios is more

779

00:28:52,389 --> 00:28:50,559

likely than the other

780

00:28:54,149 --> 00:28:52,399

to be fair i will say you did lead me

781

00:28:55,990 --> 00:28:54,159

along in one of the episodes where you

782

00:28:58,149 --> 00:28:56,000

drew what looked like a spacecraft when

783

00:29:00,549 --> 00:28:58,159

it was the sonar readings of under the

784

00:29:02,070 --> 00:29:00,559

ground and it had the shape and i don't

785

00:29:04,230 --> 00:29:02,080

know if that was you allowing your brain

786

00:29:06,230 --> 00:29:04,240

to to just lead you a little bit but it

787

00:29:08,149 --> 00:29:06,240

certainly looked like a craft that you

788

00:29:11,430 --> 00:29:08,159

sketched on the outlines but

789

00:29:13,510 --> 00:29:11,440

i was just mapping the hot spots on the

790

00:29:16,070 --> 00:29:13,520

return of the ground penetrating radar

791

00:29:17,510 --> 00:29:16,080

and it did turn out sort of football

792

00:29:20,630 --> 00:29:17,520

shape

793

00:29:22,230 --> 00:29:20,640

that's american football not soccer

794

00:29:24,470 --> 00:29:22,240

but uh

795

00:29:27,110 --> 00:29:24,480

but it was uh

796

00:29:28,950 --> 00:29:27,120

yeah it was odd and you know we've gone

797

00:29:31,510 --> 00:29:28,960

back and dug down through there with the

798

00:29:32,789 --> 00:29:31,520

you drilled again and and i'm not sure

799

00:29:35,029 --> 00:29:32,799

that we found

800

00:29:37,190 --> 00:29:35,039

uh any evidence that it's anything more

801
00:29:40,470 --> 00:29:37,200
than a different a strange layer

802
00:29:42,470 --> 00:29:40,480
of a more dense material now

803
00:29:44,070 --> 00:29:42,480
that part being said wait till you see

804
00:29:45,750 --> 00:29:44,080
what we pull out of the ground in season

805
00:29:47,669 --> 00:29:45,760
three

806
00:29:49,510 --> 00:29:47,679
well on that note we've got uh plenty of

807
00:29:51,590 --> 00:29:49,520
listener questions for you to cover to

808
00:29:53,110 --> 00:29:51,600
cover some more ground um half the

809
00:29:55,269 --> 00:29:53,120
listeners that listen to the podcast are

810
00:29:57,669 --> 00:29:55,279
based in the u.s so many of them are i

811
00:30:00,149 --> 00:29:57,679
believe four four episodes and as of

812
00:30:01,830 --> 00:30:00,159
this evening when this this one goes out

813
00:30:04,070 --> 00:30:01,840

and the first question from tim says

814

00:30:05,750 --> 00:30:04,080

travis i'm a big fan have you any

815

00:30:07,350 --> 00:30:05,760

theories you can share unless it

816

00:30:09,909 --> 00:30:07,360

conflicts with the show's wishes until

817

00:30:12,950 --> 00:30:09,919

it finishes airing as to the origin of

818

00:30:14,470 --> 00:30:12,960

the 1.6 gigahertz frequencies i've read

819

00:30:17,190 --> 00:30:14,480

all sorts of bits about it being

820

00:30:18,870 --> 00:30:17,200

possible us air force and gps but i'm

821

00:30:23,350 --> 00:30:18,880

open to any of it

822

00:30:25,269 --> 00:30:23,360

yeah no it's not gps gps is at 1.575

823

00:30:27,029 --> 00:30:25,279

and you know out several other decimal

824

00:30:28,470 --> 00:30:27,039

places and it would have to have a

825

00:30:30,470 --> 00:30:28,480

significant

826

00:30:31,990 --> 00:30:30,480

doppler blue shift for it to be at the

827

00:30:33,909 --> 00:30:32,000

1.61

828

00:30:37,350 --> 00:30:33,919

ish that we're measuring

829

00:30:39,830 --> 00:30:37,360

i have some ideas about what

830

00:30:41,590 --> 00:30:39,840

if it actually means anything for the

831

00:30:43,430 --> 00:30:41,600

frequency it's at

832

00:30:46,310 --> 00:30:43,440

but that's to come

833

00:30:49,430 --> 00:30:46,320

uh we haven't found the source we've

834

00:30:50,950 --> 00:30:49,440

triangulated with multiple systems and

835

00:30:52,310 --> 00:30:50,960

never been able to find where it's

836

00:30:53,510 --> 00:30:52,320

coming from it seems to be coming from

837

00:30:56,549 --> 00:30:53,520

everywhere

838

00:30:59,190 --> 00:30:56,559

uh the 1.6 gigahertz is bizarre and

839

00:31:02,549 --> 00:30:59,200

fascinating and we have seen it uh

840

00:31:05,269 --> 00:31:02,559

actually move around the central 1.6

841

00:31:06,710 --> 00:31:05,279

gigahertz in a in a way that

842

00:31:09,990 --> 00:31:06,720

looks like it might be

843

00:31:11,190 --> 00:31:10,000

being modulated uh in a way to send

844

00:31:13,350 --> 00:31:11,200

information

845

00:31:14,549 --> 00:31:13,360

uh we don't know what they have never i

846

00:31:16,630 --> 00:31:14,559

haven't been able to decode it or

847

00:31:20,070 --> 00:31:16,640

anything yet and it's not a standard

848

00:31:22,310 --> 00:31:20,080

encryption that or or a waveform

849

00:31:24,230 --> 00:31:22,320

encoding that we normally use so i don't

850

00:31:26,470 --> 00:31:24,240

know what it could be

851
00:31:28,389 --> 00:31:26,480
it is important because it seems to

852
00:31:30,630 --> 00:31:28,399
happen a lot of times when we have

853
00:31:32,630 --> 00:31:30,640
phenomena occur

854
00:31:34,470 --> 00:31:32,640
could it be something that somebody is

855
00:31:35,990 --> 00:31:34,480
hiding behind a tree and eavesdropping

856
00:31:37,350 --> 00:31:36,000
on us with a thing

857
00:31:39,430 --> 00:31:37,360
i doubt it

858
00:31:42,470 --> 00:31:39,440
but until we find if look behind every

859
00:31:44,389 --> 00:31:42,480
tree i can't 100 guarantee that

860
00:31:47,029 --> 00:31:44,399
a little bit of a follow-up on that one

861
00:31:49,190 --> 00:31:47,039
is from paul markham and paul asks is

862
00:31:51,509 --> 00:31:49,200
there any chance the 1.6 gigahertz

863
00:31:54,070 --> 00:31:51,519

signal and voice echoing back to you in

864

00:31:55,830 --> 00:31:54,080

a recent episode could be caused by you

865

00:31:58,149 --> 00:31:55,840

tapping into a government or private

866

00:32:00,070 --> 00:31:58,159

satellite surveillance system

867

00:32:01,750 --> 00:32:00,080

a lot of people have asked that question

868

00:32:04,870 --> 00:32:01,760

uh actually they thought maybe we were

869

00:32:06,630 --> 00:32:04,880

hitting the uh the uh um iridium

870

00:32:09,029 --> 00:32:06,640

satellites or or something like that but

871

00:32:11,110 --> 00:32:09,039

we've looked into that uh it would take

872

00:32:13,430 --> 00:32:11,120

a lot more gain than what anything we're

873

00:32:15,669 --> 00:32:13,440

producing and uh

874

00:32:18,149 --> 00:32:15,679

and and if somebody were

875

00:32:20,710 --> 00:32:18,159

looking at us with a satellite

876

00:32:23,590 --> 00:32:20,720

and they were illuminating us uh with

877

00:32:27,350 --> 00:32:23,600

this they would be illuminating a large

878

00:32:29,509 --> 00:32:27,360

spot of the uinta basin as well so that

879

00:32:31,190 --> 00:32:29,519

it doesn't really fit the math on and

880

00:32:33,669 --> 00:32:31,200

the orbital mechanics for it to be a

881

00:32:35,750 --> 00:32:33,679

satellite possibly could be an airplane

882

00:32:37,430 --> 00:32:35,760

or something but we'd see the airplane

883

00:32:40,630 --> 00:32:37,440

we're constantly looking at the skies

884

00:32:42,789 --> 00:32:40,640

and we've got uh radar systems the adsb

885

00:32:45,029 --> 00:32:42,799

and all that looking at air traffic

886

00:32:47,669 --> 00:32:45,039

so i don't know is it we're not sure

887

00:32:49,750 --> 00:32:47,679

what this 1.6 gigahertz

888

00:32:52,470 --> 00:32:49,760

phenomena is

889

00:32:53,350 --> 00:32:52,480

it could still be a man-made solution

890

00:32:55,029 --> 00:32:53,360

but

891

00:32:56,789 --> 00:32:55,039

it seems to be happening in such a

892

00:32:58,149 --> 00:32:56,799

strange way that we can't seem to find

893

00:33:00,310 --> 00:32:58,159

the source

894

00:33:03,029 --> 00:33:00,320

our next question is from adam he says

895

00:33:05,830 --> 00:33:03,039

hi travis do you feel you and the team

896

00:33:07,830 --> 00:33:05,840

are being toyed with by whatever it is

897

00:33:09,669 --> 00:33:07,840

or are you starting to understand or

898

00:33:12,070 --> 00:33:09,679

develop understanding of trends and

899

00:33:14,950 --> 00:33:12,080

characteristics or maybe a baseline of

900

00:33:16,710 --> 00:33:14,960

data you can understand

901
00:33:20,230 --> 00:33:16,720

so

902
00:33:22,710 --> 00:33:20,240

trickster god playing with us like loki

903
00:33:25,430 --> 00:33:22,720

is standing behind the the curtain

904
00:33:28,389 --> 00:33:25,440

manipulating things but uh and being

905
00:33:30,070 --> 00:33:28,399

very random and uh purposefully random

906
00:33:31,750 --> 00:33:30,080

but um

907
00:33:32,710 --> 00:33:31,760

we haven't been able to

908
00:33:34,710 --> 00:33:32,720

to

909
00:33:36,789 --> 00:33:34,720

figure that part of it out i will say

910
00:33:38,549 --> 00:33:36,799

that the more data we gather we do feel

911
00:33:40,870 --> 00:33:38,559

like that we

912
00:33:42,470 --> 00:33:40,880

know that these kinds of things happen

913
00:33:44,549 --> 00:33:42,480

but we can never say this is going to

914

00:33:46,149 --> 00:33:44,559

happen when we do this because a lot of

915

00:33:47,590 --> 00:33:46,159

times we'll do something

916

00:33:48,549 --> 00:33:47,600

we'll get a response we'll do the same

917

00:33:50,710 --> 00:33:48,559

thing we'll get a completely different

918

00:33:53,830 --> 00:33:50,720

response so

919

00:33:55,669 --> 00:33:53,840

yeah i'd say we have more data is all we

920

00:33:57,909 --> 00:33:55,679

can say we're not much better at

921

00:34:00,630 --> 00:33:57,919

understanding what's causing it

922

00:34:02,630 --> 00:34:00,640

a question from walker he asks just

923

00:34:04,870 --> 00:34:02,640

wanted to establish if travis is

924

00:34:07,190 --> 00:34:04,880

convinced this could be non-human did

925

00:34:09,909 --> 00:34:07,200

you ever experience any ontological

926

00:34:11,750 --> 00:34:09,919

shock after that realization and as a

927

00:34:14,069 --> 00:34:11,760

scientist i assume travis is facts

928

00:34:16,550 --> 00:34:14,079

driven just wondering how he relies on

929

00:34:18,470 --> 00:34:16,560

his intuition and if so have those

930

00:34:22,629 --> 00:34:18,480

intuitive impulses increased or

931

00:34:28,629 --> 00:34:26,710

um i have hunches that i think are uh

932

00:34:30,230 --> 00:34:28,639

a lot of times they come to me after

933

00:34:31,990 --> 00:34:30,240

i've actually been asleep because i

934

00:34:34,710 --> 00:34:32,000

think my brain is processing all the

935

00:34:37,589 --> 00:34:34,720

data that i've seen the day before but i

936

00:34:40,230 --> 00:34:37,599

really don't uh follow

937

00:34:41,990 --> 00:34:40,240

like an intuition or something sometimes

938

00:34:44,389 --> 00:34:42,000

i will take a shot in the dark because

939

00:34:47,510 --> 00:34:44,399

i'm at a loss for what's happening

940

00:34:58,230 --> 00:34:49,349

my

941

00:35:01,030 --> 00:34:58,240

really changed i still go at it with the

942

00:35:03,430 --> 00:35:01,040

scientific method uh and with logic but

943

00:35:06,230 --> 00:35:03,440

sometimes i will

944

00:35:07,270 --> 00:35:06,240

you know try a hair brain hypothesis or

945

00:35:09,589 --> 00:35:07,280

something that

946

00:35:11,510 --> 00:35:09,599

other folks might say is crazy or fringe

947

00:35:13,990 --> 00:35:11,520

or something just to see if a stimulus

948

00:35:16,390 --> 00:35:14,000

occurs because we really honestly don't

949

00:35:18,150 --> 00:35:16,400

know what's going on and we're just

950

00:35:20,790 --> 00:35:18,160

gathering more data

951
00:35:22,630 --> 00:35:20,800
a question from gary does dr taylor have

952
00:35:24,870 --> 00:35:22,640
any thoughts on why the carcasses of

953
00:35:27,349 --> 00:35:24,880
mutilated cattle are left on the ranch

954
00:35:29,750 --> 00:35:27,359
and not removed by the perpetrators who

955
00:35:32,710 --> 00:35:29,760
or whatever they might be

956
00:35:35,030 --> 00:35:32,720
no that's a really good question um

957
00:35:38,310 --> 00:35:35,040
and that's kind of the the trend with

958
00:35:40,150 --> 00:35:38,320
most cattle mutilation phenomena is that

959
00:35:41,829 --> 00:35:40,160
for some reason they take a few things

960
00:35:44,230 --> 00:35:41,839
from the cow but leave the rest of the

961
00:35:46,150 --> 00:35:44,240
cow and i can't explain what that's

962
00:35:48,550 --> 00:35:46,160
about i will tell you i've seen several

963
00:35:50,470 --> 00:35:48,560

i've flown around and seen some right

964

00:35:51,670 --> 00:35:50,480

after it's occurred and there's never

965

00:35:54,230 --> 00:35:51,680

any blood

966

00:35:56,310 --> 00:35:54,240

and there's always uh stuff missing and

967

00:35:59,750 --> 00:35:56,320

the cow seems to

968

00:36:03,069 --> 00:35:59,760

not be attacked by the uh predators and

969

00:36:05,270 --> 00:36:03,079

the carnivores and even the the uh the

970

00:36:07,430 --> 00:36:05,280

microbiology that seems to and the

971

00:36:09,670 --> 00:36:07,440

insects that seem to eat away at

972

00:36:12,790 --> 00:36:09,680

carcasses doesn't affect these things

973

00:36:15,190 --> 00:36:12,800

now we'll tell you i have seen uh where

974

00:36:17,190 --> 00:36:15,200

a friend of mine had a cattle ranch and

975

00:36:19,190 --> 00:36:17,200

they had some get struck by lightning

976

00:36:20,870 --> 00:36:19,200

and that the predators and carnivores

977

00:36:21,829 --> 00:36:20,880

wouldn't have wouldn't eat those cows

978

00:36:23,510 --> 00:36:21,839

either

979

00:36:24,710 --> 00:36:23,520

that were killed by lightning so it

980

00:36:27,430 --> 00:36:24,720

makes me wonder if there's an

981

00:36:30,150 --> 00:36:27,440

electromagnetic phenomena uh that as

982

00:36:31,990 --> 00:36:30,160

that's part of this and as much magnetic

983

00:36:34,230 --> 00:36:32,000

and electromagnetic stuff we see out

984

00:36:36,470 --> 00:36:34,240

there it wouldn't surprise me

985

00:36:37,829 --> 00:36:36,480

that's interesting kimberly asks and

986

00:36:40,150 --> 00:36:37,839

kimberly's been a long time listener to

987

00:36:42,390 --> 00:36:40,160

the podcast so hi kimberly um if you get

988

00:36:44,150 --> 00:36:42,400

a chance can you ask travis what event

989

00:36:45,990 --> 00:36:44,160

has been the most mind-blowing moment

990

00:36:47,589 --> 00:36:46,000

for him at the ranch

991

00:36:49,510 --> 00:36:47,599

oh wow

992

00:36:50,470 --> 00:36:49,520

um

993

00:36:52,470 --> 00:36:50,480

well

994

00:36:55,589 --> 00:36:52,480

the most mind-blowing actually would be

995

00:36:58,310 --> 00:36:55,599

a spoiler for anybody in the uk so i

996

00:37:00,710 --> 00:36:58,320

would hate to do that to you

997

00:37:01,910 --> 00:37:00,720

but uh it's it's one where something

998

00:37:03,750 --> 00:37:01,920

happened to eric and i sort of

999

00:37:05,349 --> 00:37:03,760

simultaneously and we were in different

1000

00:37:07,030 --> 00:37:05,359

locations and we both came to each other

1001
00:37:08,950 --> 00:37:07,040
to tell each other the story and our

1002
00:37:10,230 --> 00:37:08,960
stories were the same which led us to a

1003
00:37:14,790 --> 00:37:10,240
discovery

1004
00:37:17,109 --> 00:37:14,800
the other one is i i have no idea

1005
00:37:19,510 --> 00:37:17,119
how i was exposed to radiation

1006
00:37:21,190 --> 00:37:19,520
there's no there's no uh there's nothing

1007
00:37:24,310 --> 00:37:21,200
there i mean

1008
00:37:26,310 --> 00:37:24,320
something uh hit me with a beam of gamma

1009
00:37:28,630 --> 00:37:26,320
rays and there were people within 10

1010
00:37:31,349 --> 00:37:28,640
feet from me that didn't get hit by the

1011
00:37:33,109 --> 00:37:31,359
gamma rays and that's not typically how

1012
00:37:34,950 --> 00:37:33,119
gamma rays work so

1013
00:37:36,790 --> 00:37:34,960

that is baffling and mind-blowing to me

1014

00:37:38,790 --> 00:37:36,800

and i can't explain it

1015

00:37:40,790 --> 00:37:38,800

next question from melanie and i suppose

1016

00:37:43,589 --> 00:37:40,800

this is one for myself who's not a

1017

00:37:45,349 --> 00:37:43,599

scientist obviously um melanie wonders

1018

00:37:48,390 --> 00:37:45,359

how do you call what you're doing at the

1019

00:37:50,790 --> 00:37:48,400

ranch science when there are no controls

1020

00:37:53,109 --> 00:37:50,800

or repeatable experiments with the same

1021

00:37:55,190 --> 00:37:53,119

or different results and also do you

1022

00:37:56,550 --> 00:37:55,200

know if the insider application will

1023

00:37:58,069 --> 00:37:56,560

have the actual data that's being

1024

00:38:00,790 --> 00:37:58,079

collected

1025

00:38:01,990 --> 00:38:00,800

ah well so um

1026

00:38:04,870 --> 00:38:02,000

i'll go backwards with that one the

1027

00:38:06,710 --> 00:38:04,880

insider uh thing we are showing uh some

1028

00:38:11,190 --> 00:38:06,720

of the data we actually are showing some

1029

00:38:12,870 --> 00:38:11,200

feeds live real time and as i get time i

1030

00:38:14,150 --> 00:38:12,880

know eric is already doing this he's

1031

00:38:16,069 --> 00:38:14,160

going through stuff and talking about

1032

00:38:17,430 --> 00:38:16,079

experiments with folks on there but i i

1033

00:38:19,829 --> 00:38:17,440

plan to

1034

00:38:22,790 --> 00:38:19,839

actually give some presentations of some

1035

00:38:24,870 --> 00:38:22,800

of the data and some of my analyses

1036

00:38:25,910 --> 00:38:24,880

but it's just a matter of having time to

1037

00:38:28,150 --> 00:38:25,920

do it

1038

00:38:31,670 --> 00:38:28,160

then the other part is how do we call it

1039

00:38:34,630 --> 00:38:31,680

science well so we are repeating our

1040

00:38:36,950 --> 00:38:34,640

experimental processes just because we

1041

00:38:39,190 --> 00:38:36,960

don't get the same results doesn't mean

1042

00:38:41,430 --> 00:38:39,200

it's not science it means that

1043

00:38:43,589 --> 00:38:41,440

our either our hypothesis was wrong or

1044

00:38:44,870 --> 00:38:43,599

our experimental apparatus wasn't

1045

00:38:47,750 --> 00:38:44,880

necessarily the right experimental

1046

00:38:49,829 --> 00:38:47,760

apparatus sooner or later we'll find

1047

00:38:51,829 --> 00:38:49,839

something that's repeatable verifiable

1048

00:38:53,990 --> 00:38:51,839

or falsifiable and that's one of the

1049

00:38:55,670 --> 00:38:54,000

things i really harp on

1050

00:38:57,190 --> 00:38:55,680

is that you have to come up with

1051
00:39:00,390 --> 00:38:57,200

hypotheses

1052
00:39:02,390 --> 00:39:00,400

that you can verify or falsify and you

1053
00:39:04,390 --> 00:39:02,400

don't have big hypotheses like you asked

1054
00:39:06,390 --> 00:39:04,400

me earlier what what is it i said well i

1055
00:39:08,710 --> 00:39:06,400

can't just say well it's aliens causing

1056
00:39:10,310 --> 00:39:08,720

this because you can't verify that what

1057
00:39:11,910 --> 00:39:10,320

experiment could you do

1058
00:39:13,750 --> 00:39:11,920

that you could prove that it was aliens

1059
00:39:15,270 --> 00:39:13,760

doing unless you found an alien or an

1060
00:39:18,069 --> 00:39:15,280

alien came to you that you couldn't but

1061
00:39:20,790 --> 00:39:18,079

what you can say is okay well data

1062
00:39:22,790 --> 00:39:20,800

suggests that when weird phenomena occur

1063
00:39:25,270 --> 00:39:22,800

across multiple types of phenomena that

1064

00:39:28,150 --> 00:39:25,280

we measure microwave signals or gamma

1065

00:39:30,230 --> 00:39:28,160

rays or weird sounds so we can put out

1066

00:39:33,510 --> 00:39:30,240

instruments to see if this occurs and we

1067

00:39:35,270 --> 00:39:33,520

have found that is repeatable probably

1068

00:39:37,910 --> 00:39:35,280

80 to 90 percent of the time when

1069

00:39:40,630 --> 00:39:37,920

phenomena occurs we measure this 1.6

1070

00:39:42,230 --> 00:39:40,640

gigahertz microwave system so we are

1071

00:39:45,349 --> 00:39:42,240

actually doing science and finding

1072

00:39:47,910 --> 00:39:45,359

repeatable uh results so we're doing

1073

00:39:49,510 --> 00:39:47,920

small steps though and we're not we're i

1074

00:39:52,230 --> 00:39:49,520

think we're a long way from that it's a

1075

00:39:54,710 --> 00:39:52,240

it's a portal to another dimension thing

1076

00:39:57,030 --> 00:39:54,720

maybe season four um last couple of

1077

00:39:58,790 --> 00:39:57,040

questions uh travis um in your george

1078

00:40:01,349 --> 00:39:58,800

knapp interview you mentioned that blood

1079

00:40:03,510 --> 00:40:01,359

pressure or add medication could affect

1080

00:40:05,510 --> 00:40:03,520

people's ability to perceive anomalous

1081

00:40:07,190 --> 00:40:05,520

activity on the ranch

1082

00:40:09,030 --> 00:40:07,200

do you suspect that those people are

1083

00:40:10,390 --> 00:40:09,040

more susceptible to having strange

1084

00:40:12,470 --> 00:40:10,400

experiences

1085

00:40:14,390 --> 00:40:12,480

or do the medications potentially

1086

00:40:16,470 --> 00:40:14,400

interfere with the ability to perceive

1087

00:40:18,630 --> 00:40:16,480

yeah so it's the latter uh so there are

1088

00:40:21,309 --> 00:40:18,640

some studies that have recently

1089

00:40:22,870 --> 00:40:21,319

been done by folks studying uh

1090

00:40:24,230 --> 00:40:22,880

hallucinations

1091

00:40:26,230 --> 00:40:24,240

and

1092

00:40:28,710 --> 00:40:26,240

using

1093

00:40:31,670 --> 00:40:28,720

hallucinogenic drugs and sensory

1094

00:40:35,109 --> 00:40:31,680

deprivation tanks as well as coma

1095

00:40:37,270 --> 00:40:35,119

patients and so on and it appears that

1096

00:40:39,589 --> 00:40:37,280

the data is now beginning to show us

1097

00:40:41,910 --> 00:40:39,599

that the hallucinations occur when

1098

00:40:45,190 --> 00:40:41,920

there's less brain activity

1099

00:40:47,589 --> 00:40:45,200

and so maybe these are stimulus that

1100

00:40:51,030 --> 00:40:47,599

are out there in the environment but our

1101
00:40:54,069 --> 00:40:51,040
hyper active brains uh aren't detecting

1102
00:40:56,390 --> 00:40:54,079
it because uh it's too big of a noise

1103
00:40:59,349 --> 00:40:56,400
floor and so when you are in a coma

1104
00:41:02,309 --> 00:40:59,359
state a meditative state or these drugs

1105
00:41:04,230 --> 00:41:02,319
they lower your uh uh your brain

1106
00:41:06,790 --> 00:41:04,240
activity and you will have these types

1107
00:41:08,870 --> 00:41:06,800
of connections hallucinations whatever

1108
00:41:11,109 --> 00:41:08,880
and the add blood pressure medicines and

1109
00:41:13,670 --> 00:41:11,119
things like that are they they actually

1110
00:41:15,270 --> 00:41:13,680
may hype up your brain activity and so

1111
00:41:17,670 --> 00:41:15,280
they may actually act as sort of a

1112
00:41:20,230 --> 00:41:17,680
buffer or a protection uh you know like

1113
00:41:21,190 --> 00:41:20,240

nicotine caffeine things like that may

1114

00:41:24,069 --> 00:41:21,200

actually

1115

00:41:27,030 --> 00:41:24,079

prevent uh some people from seeing or

1116

00:41:29,270 --> 00:41:27,040

are experiencing these things

1117

00:41:31,349 --> 00:41:29,280

um javacat asks have you ever

1118

00:41:33,109 --> 00:41:31,359

experienced or anyone close to you any

1119

00:41:35,109 --> 00:41:33,119

hitchhiker activity since you started

1120

00:41:36,870 --> 00:41:35,119

your investigations

1121

00:41:38,950 --> 00:41:36,880

yeah we uh

1122

00:41:40,309 --> 00:41:38,960

everybody like is real curious yes the

1123

00:41:41,670 --> 00:41:40,319

answer is yes

1124

00:41:43,270 --> 00:41:41,680

and uh in

1125

00:41:45,030 --> 00:41:43,280

in the risk of

1126

00:41:47,030 --> 00:41:45,040

stimulating whatever we don't know why

1127

00:41:48,790 --> 00:41:47,040

it happens or what it is but we don't

1128

00:41:50,790 --> 00:41:48,800

talk about it a lot

1129

00:41:51,829 --> 00:41:50,800

uh because uh we don't want it to get

1130

00:41:53,430 --> 00:41:51,839

worse

1131

00:41:54,870 --> 00:41:53,440

uh there have been people who've had it

1132

00:41:56,630 --> 00:41:54,880

so bad that's really affected their

1133

00:41:57,510 --> 00:41:56,640

family life and so on

1134

00:42:00,390 --> 00:41:57,520

um

1135

00:42:02,790 --> 00:42:00,400

but we all uh except for dragon nothing

1136

00:42:05,589 --> 00:42:02,800

happens to him he's like our repellent

1137

00:42:06,710 --> 00:42:05,599

um but uh uh all of us have had things

1138

00:42:10,069 --> 00:42:06,720

like our

1139

00:42:12,470 --> 00:42:10,079

our car electronics uh going on and off

1140

00:42:14,790 --> 00:42:12,480

blowing out and coming back on batteries

1141

00:42:17,430 --> 00:42:14,800

being drained uh

1142

00:42:19,589 --> 00:42:17,440

strange seeing weird things where there

1143

00:42:22,150 --> 00:42:19,599

shouldn't be weird things uh and stuff

1144

00:42:25,270 --> 00:42:22,160

like that keep in mind i live in alabama

1145

00:42:26,790 --> 00:42:25,280

that's a long way from utah and uh and

1146

00:42:29,750 --> 00:42:26,800

if i have these events happening to me

1147

00:42:32,390 --> 00:42:29,760

it means it's non-local it means it it

1148

00:42:33,589 --> 00:42:32,400

it's connected across space and time

1149

00:42:35,589 --> 00:42:33,599

somehow

1150

00:42:37,430 --> 00:42:35,599

and final question from barry on that

1151
00:42:39,829 --> 00:42:37,440
hitchhiker effect what are your thoughts

1152
00:42:43,349 --> 00:42:39,839
on the hypothesis that that it can

1153
00:42:45,910 --> 00:42:43,359
spread to other people like a contagion

1154
00:42:49,430 --> 00:42:45,920
i've seen some data and heard heard uh

1155
00:42:50,390 --> 00:42:49,440
anecdotal stories about that being true

1156
00:42:55,750 --> 00:42:50,400
um

1157
00:42:56,870 --> 00:42:55,760
i don't know that it is true uh 100

1158
00:42:59,430 --> 00:42:56,880
although

1159
00:43:02,470 --> 00:42:59,440
i have heard some significant stories

1160
00:43:04,950 --> 00:43:02,480
and seen some instrument data uh from

1161
00:43:07,589 --> 00:43:04,960
one of the particular subjects and his

1162
00:43:09,510 --> 00:43:07,599
family that seems to be

1163
00:43:12,069 --> 00:43:09,520

seems to be backing that up that it

1164

00:43:13,990 --> 00:43:12,079

could be possible i know gary nolan i

1165

00:43:15,270 --> 00:43:14,000

think has done some research in that uh

1166

00:43:17,430 --> 00:43:15,280

so you might look him up and read

1167

00:43:18,309 --> 00:43:17,440

whatever he's done about it but i it's

1168

00:43:22,150 --> 00:43:18,319

it's

1169

00:43:24,230 --> 00:43:22,160

evidence is beginning to suggest to me

1170

00:43:26,150 --> 00:43:24,240

that that is what's happening so it kind

1171

00:43:26,950 --> 00:43:26,160

of it kind of makes me think about it a

1172

00:43:29,109 --> 00:43:26,960

little bit because i don't want it to

1173

00:43:30,710 --> 00:43:29,119

happen in my family either

1174

00:43:32,550 --> 00:43:30,720

[Music]

1202

00:45:25,750 --> 00:45:06,470

i can't imagine how it could have been

1203

00:45:30,950 --> 00:45:27,030

there was something on my head and

1204

00:45:38,770 --> 00:45:31,910

noise they thought it was everything

1205

00:45:54,150 --> 00:45:44,330

[Music]

1206

00:45:54,160 --> 00:45:59,830

and what's that

1207

00:46:34,470 --> 00:46:04,150

[Music]

1208

00:46:38,490 --> 00:46:36,390

it wasn't a tic tac and not quite a

1209

00:46:47,490 --> 00:46:38,500

saucer

1210

00:47:29,470 --> 00:47:09,640
