

# THE BREAKDOWN

1  
00:00:06,190 --> 00:00:02,310  
this is ross coulthard and you are

2  
00:00:10,709 --> 00:00:06,200  
listening to that ufo podcast

3  
00:00:15,829 --> 00:00:13,190  
hi everyone and welcome back to that ufo

4  
00:00:17,109 --> 00:00:15,839  
podcast it's a breakdown for the i was

5  
00:00:19,590 --> 00:00:17,119  
going to say beginning of july but it's

6  
00:00:21,510 --> 00:00:19,600  
now the 10th of july my god the month is

7  
00:00:23,670 --> 00:00:21,520  
getting away from us dan is here with me

8  
00:00:25,670 --> 00:00:23,680  
dan welcome

9  
00:00:28,950 --> 00:00:25,680  
is this time dilation is time getting

10  
00:00:30,470 --> 00:00:28,960  
warped by the intense heat in the uk

11  
00:00:32,870 --> 00:00:30,480  
we'll get to that when we talk about tom

12  
00:00:36,069 --> 00:00:32,880  
delong's appearance on stevo's podcast

13  
00:00:37,910 --> 00:00:36,079

uh time dilation but yes um on that it

14

00:00:40,069 --> 00:00:37,920

is extremely hot here in the uk to the

15

00:00:42,549 --> 00:00:40,079

point i cannot sit in my normal

16

00:00:44,869 --> 00:00:42,559

recording space and let's not call it a

17

00:00:46,869 --> 00:00:44,879

shed it is like it would be like

18

00:00:48,630 --> 00:00:46,879

recording in a sauna that's having the

19

00:00:50,709 --> 00:00:48,640

air sucked out of it so if there's a

20

00:00:52,470 --> 00:00:50,719

slight echo on this one or the sound

21

00:00:54,310 --> 00:00:52,480

sounds a little bit different just for

22

00:00:55,990 --> 00:00:54,320

this recording because we couldn't fit

23

00:00:57,270 --> 00:00:56,000

in anybody else over the next few days

24

00:00:58,869 --> 00:00:57,280

and we really wanted to do it we were

25

00:01:00,790 --> 00:00:58,879

getting into trouble for off of

26

00:01:03,029 --> 00:01:00,800

listeners for not having done this yet

27

00:01:04,710 --> 00:01:03,039

and i have moved into the kitchen so if

28

00:01:06,550 --> 00:01:04,720

you are watching on youtube there will

29

00:01:08,230 --> 00:01:06,560

be no video for this one apologies but

30

00:01:10,710 --> 00:01:08,240

you do not need to see my kitchen trust

31

00:01:12,950 --> 00:01:10,720

me um it is an absolute mess with kids

32

00:01:15,030 --> 00:01:12,960

stuff everywhere um but we're getting it

33

00:01:17,590 --> 00:01:15,040

done and that it'll be back to normal

34

00:01:19,510 --> 00:01:17,600

audio quality for the next one anyway

35

00:01:21,109 --> 00:01:19,520

done a lot to get through for this one

36

00:01:22,630 --> 00:01:21,119

because it's actually it's actually been

37

00:01:26,950 --> 00:01:22,640

almost a month since we recorded a

38

00:01:28,469 --> 00:01:26,960

breakdown um wow time does go by fast it

39

00:01:30,469 --> 00:01:28,479

does um

40

00:01:31,749 --> 00:01:30,479

a lot to get through i've got down here

41

00:01:34,310 --> 00:01:31,759

among other things we're going to talk

42

00:01:37,030 --> 00:01:34,320

about the brazilian hearings lou

43

00:01:40,550 --> 00:01:37,040

elizondo's ig complaint tom delong on

44

00:01:42,310 --> 00:01:40,560

stevo's podcast the ndaa language uh

45

00:01:44,230 --> 00:01:42,320

james webb update a little bit on

46

00:01:45,830 --> 00:01:44,240

roswell at the end and there's some

47

00:01:48,230 --> 00:01:45,840

other stuff thrown in there as well

48

00:01:49,350 --> 00:01:48,240

which will which we'll get to so we'll

49

00:01:51,590 --> 00:01:49,360

kick off with a little bit on the

50

00:01:54,069 --> 00:01:51,600

brazilian hearings then

51  
00:01:57,190 --> 00:01:54,079  
they happened um on the 24th of june so

52  
00:01:58,789 --> 00:01:57,200  
as we record this almost three weeks ago

53  
00:02:01,109 --> 00:01:58,799  
and this was an event that we've known

54  
00:02:04,709 --> 00:02:01,119  
has been coming for some time um it

55  
00:02:06,230 --> 00:02:04,719  
wasn't like the us hearings it wasn't as

56  
00:02:08,389 --> 00:02:06,240  
i don't think it's unfair to say as

57  
00:02:10,869 --> 00:02:08,399  
official in terms of the representation

58  
00:02:14,949 --> 00:02:10,879  
and who was there it wasn't senators

59  
00:02:16,949 --> 00:02:14,959  
congress men and women it was officials

60  
00:02:19,750 --> 00:02:16,959  
but researchers journalists and a bit

61  
00:02:23,110 --> 00:02:19,760  
more of a citizen type hearing that we

62  
00:02:24,630 --> 00:02:23,120  
had in 2001 as opposed to the the us

63  
00:02:26,309 --> 00:02:24,640

hearings that we had more recently as

64

00:02:28,869 --> 00:02:26,319

well um

65

00:02:31,830 --> 00:02:28,879

it was overseen by brazilian senator

66

00:02:34,309 --> 00:02:31,840

eduardo gerald um who also helped

67

00:02:36,790 --> 00:02:34,319

organize the event and the speakers like

68

00:02:38,390 --> 00:02:36,800

i say were made up of researchers

69

00:02:40,309 --> 00:02:38,400

journalists

70

00:02:41,430 --> 00:02:40,319

apparently high ranking officials were

71

00:02:43,750 --> 00:02:41,440

present

72

00:02:45,589 --> 00:02:43,760

however not necessarily part of the part

73

00:02:48,710 --> 00:02:45,599

of the event and there was a far more

74

00:02:50,390 --> 00:02:48,720

federal representative as well

75

00:02:52,229 --> 00:02:50,400

it's been quite hard i think for people

76

00:02:54,470 --> 00:02:52,239

to get a hold of

77

00:02:56,869 --> 00:02:54,480

what exactly went on at the hearing it

78

00:02:58,869 --> 00:02:56,879

was quite long it was in

79

00:03:00,790 --> 00:02:58,879

the native you know brazilian other than

80

00:03:03,430 --> 00:03:00,800

some parts like from robert salas gary

81

00:03:05,430 --> 00:03:03,440

hesseltown and a couple of others and it

82

00:03:06,949 --> 00:03:05,440

went on for quite a few hours as well

83

00:03:09,670 --> 00:03:06,959

well done to the couple of folks on

84

00:03:11,430 --> 00:03:09,680

twitter who who tried to transcribe the

85

00:03:12,869 --> 00:03:11,440

the event and there's a bit of a

86

00:03:14,470 --> 00:03:12,879

breakdown yeah there's a bit of a

87

00:03:16,229 --> 00:03:14,480

breakdown on reddit as well so thank you

88

00:03:18,149 --> 00:03:16,239

to those folks who've done that and i

89

00:03:19,830 --> 00:03:18,159

think the subtitles um actually they are

90

00:03:21,910 --> 00:03:19,840

now available if people want to go back

91

00:03:24,149 --> 00:03:21,920

and watch the replay um and it's

92

00:03:26,149 --> 00:03:24,159

relatively they're relatively okay the

93

00:03:28,070 --> 00:03:26,159

subtitles can can work out my accent

94

00:03:30,630 --> 00:03:28,080

they can work out the translation from

95

00:03:32,869 --> 00:03:30,640

um portuguese uh brazilian portuguese

96

00:03:34,869 --> 00:03:32,879

however it's uh phrased

97

00:03:37,270 --> 00:03:34,879

so yeah and we'll give you the the

98

00:03:38,789 --> 00:03:37,280

basics and the highlights um

99

00:03:40,550 --> 00:03:38,799

straight off the back dan

100

00:03:43,670 --> 00:03:40,560

uh one thing that was a bit of a

101  
00:03:45,830 --> 00:03:43,680  
controversy afterwards was louie lozando

102  
00:03:48,070 --> 00:03:45,840  
was meant to have a representation there

103  
00:03:50,789 --> 00:03:48,080  
in form of a video

104  
00:03:52,630 --> 00:03:50,799  
that was meant to be played at the event

105  
00:03:54,309 --> 00:03:52,640  
uh that didn't happen

106  
00:03:56,630 --> 00:03:54,319  
and there was nothing really said about

107  
00:03:58,470 --> 00:03:56,640  
it did you ever hear anything afterwards

108  
00:04:02,149 --> 00:03:58,480  
as to why that was

109  
00:04:04,149 --> 00:04:02,159  
i did um so so uh roni ronnie excuse me

110  
00:04:06,390 --> 00:04:04,159  
getting the name wrong uh he was talking

111  
00:04:08,229 --> 00:04:06,400  
with you a while back he spoke with

112  
00:04:10,470 --> 00:04:08,239  
vinnie on disclosure team and he

113  
00:04:12,710 --> 00:04:10,480

explained that basically he kept putting

114

00:04:14,309 --> 00:04:12,720

lu in touch with the officials and wires

115

00:04:16,710 --> 00:04:14,319

just got crossed contact just got

116

00:04:18,949 --> 00:04:16,720

dropped and at a certain point it just

117

00:04:20,229 --> 00:04:18,959

became untenable to wait for the video

118

00:04:21,509 --> 00:04:20,239

uh they would have had to delay the

119

00:04:23,030 --> 00:04:21,519

hearings and things like that and they

120

00:04:24,310 --> 00:04:23,040

thought they had a strong enough lineup

121

00:04:26,390 --> 00:04:24,320

so they just you know went ahead with

122

00:04:28,710 --> 00:04:26,400

the planned date essentially

123

00:04:31,670 --> 00:04:28,720

it's interesting because about an hour

124

00:04:33,030 --> 00:04:31,680

ago lou elizondo told me he did send a

125

00:04:35,189 --> 00:04:33,040

video

126

00:04:37,590 --> 00:04:35,199

and he did send it to someone that was

127

00:04:38,870 --> 00:04:37,600

involved but for whatever reason it

128

00:04:39,670 --> 00:04:38,880

wasn't played

129

00:04:41,350 --> 00:04:39,680

um

130

00:04:44,070 --> 00:04:41,360

which is interesting so i think it's

131

00:04:45,430 --> 00:04:44,080

very interesting yeah yeah i'll get back

132

00:04:46,710 --> 00:04:45,440

to ronnie on that because you know there

133

00:04:48,469 --> 00:04:46,720

might have been something that he didn't

134

00:04:50,070 --> 00:04:48,479

say because it was a public thing and he

135

00:04:51,110 --> 00:04:50,080

doesn't want anyone to feel blamed you

136

00:04:53,030 --> 00:04:51,120

know

137

00:04:54,870 --> 00:04:53,040

without going into detail uh speaking to

138

00:04:57,030 --> 00:04:54,880

ronnie about it myself about an hour ago

139

00:04:58,550 --> 00:04:57,040

again and because i've not said you know

140

00:05:01,270 --> 00:04:58,560

what can i see all this stuff on it's

141

00:05:03,830 --> 00:05:01,280

nothing juicy but there may have been

142

00:05:05,590 --> 00:05:03,840

individuals involved or indirectly or

143

00:05:07,510 --> 00:05:05,600

directly that maybe didn't want certain

144

00:05:10,390 --> 00:05:07,520

people involved in the hearings

145

00:05:12,790 --> 00:05:10,400

and there's a possibility that video was

146

00:05:13,670 --> 00:05:12,800

sent but just not played

147

00:05:15,830 --> 00:05:13,680

so

148

00:05:17,670 --> 00:05:15,840

it's a little bit difficult to work out

149

00:05:18,710 --> 00:05:17,680

what exactly happened

150

00:05:21,350 --> 00:05:18,720

but

151

00:05:23,270 --> 00:05:21,360

take it from what it's worth lou

152

00:05:24,790 --> 00:05:23,280

did send a video

153

00:05:25,670 --> 00:05:24,800

did ronnie say that as well or ronnie

154

00:05:27,430 --> 00:05:25,680

sorry

155

00:05:29,110 --> 00:05:27,440

ronnie doesn't

156

00:05:31,909 --> 00:05:29,120

know that a video was received we'll

157

00:05:33,270 --> 00:05:31,919

just say that much okay but there was a

158

00:05:34,790 --> 00:05:33,280

number of people that that could have

159

00:05:36,390 --> 00:05:34,800

been sent to that

160

00:05:38,310 --> 00:05:36,400

yeah so it's a little bit of an odd one

161

00:05:39,909 --> 00:05:38,320

and it's worth addressing because yeah

162

00:05:41,670 --> 00:05:39,919

everyone was expecting you know robert

163

00:05:42,710 --> 00:05:41,680

salas and loyola zondo part of these

164

00:05:44,710 --> 00:05:42,720

hearings

165

00:05:46,469 --> 00:05:44,720

a video was being sent and then there

166

00:05:48,629 --> 00:05:46,479

was you know apparently all they got was

167

00:05:50,469 --> 00:05:48,639

a text from lou which was would be

168

00:05:52,310 --> 00:05:50,479

really odd you know that i've received a

169

00:05:54,310 --> 00:05:52,320

text message that's very chris mellon on

170

00:05:57,189 --> 00:05:54,320

rogan yeah i was just thinking of that

171

00:05:59,670 --> 00:05:57,199

yeah yep um but that yeah so if we hear

172

00:06:01,270 --> 00:05:59,680

any more about that then i am chasing

173

00:06:03,029 --> 00:06:01,280

something up if we can get any more on

174

00:06:04,710 --> 00:06:03,039

it but i mean it's it's come and gone

175

00:06:06,790 --> 00:06:04,720

now but a lot of people were asking

176

00:06:08,150 --> 00:06:06,800

about it and i think people skipping

177

00:06:10,629 --> 00:06:08,160

through the event or wondering oh

178

00:06:12,950 --> 00:06:10,639

where's loyola's on those part and yeah

179

00:06:14,469 --> 00:06:12,960

that's that's what happened so

180

00:06:16,469 --> 00:06:14,479

maybe there's a little bit of conspiracy

181

00:06:18,230 --> 00:06:16,479

to this one as much as we'd like

182

00:06:20,710 --> 00:06:18,240

we just revealed it live on air right

183

00:06:22,629 --> 00:06:20,720

yeah yeah so interesting but but who

184

00:06:24,390 --> 00:06:22,639

knows um but yeah that would have been

185

00:06:26,150 --> 00:06:24,400

good to have that but this this was very

186

00:06:27,590 --> 00:06:26,160

much brazil's

187

00:06:29,590 --> 00:06:27,600

effort at

188

00:06:31,830 --> 00:06:29,600

our citizen effort almost at carrying

189

00:06:33,909 --> 00:06:31,840

forward this conversation and for me

190

00:06:36,070 --> 00:06:33,919

it seems that it's very much been a

191

00:06:37,590 --> 00:06:36,080

massive recap of brazil's history in the

192

00:06:40,150 --> 00:06:37,600

ufo subject

193

00:06:42,230 --> 00:06:40,160

with casey's dates

194

00:06:44,710 --> 00:06:42,240

known data points

195

00:06:46,870 --> 00:06:44,720

explanations individuals who have been

196

00:06:49,430 --> 00:06:46,880

involved in researching speaking about

197

00:06:50,950 --> 00:06:49,440

presenting and

198

00:06:52,950 --> 00:06:50,960

a summary of here's where we're at

199

00:06:55,029 --> 00:06:52,960

here's everything that's happened

200

00:06:57,350 --> 00:06:55,039

and then very much a dot dot dot

201  
00:06:59,189 --> 00:06:57,360  
ellipses of what's next how to

202  
00:07:00,870 --> 00:06:59,199  
facilitate this conversation forward

203  
00:07:02,629 --> 00:07:00,880  
there was no and i think we said

204  
00:07:04,390 --> 00:07:02,639  
beforehand ronnie said on my interview

205  
00:07:06,629 --> 00:07:04,400  
with him and i don't think there was

206  
00:07:09,589 --> 00:07:06,639  
ever any hype that this was going to be

207  
00:07:11,029 --> 00:07:09,599  
a revel revelatory re revealing

208  
00:07:13,189 --> 00:07:11,039  
of it

209  
00:07:14,950 --> 00:07:13,199  
revelatory that's the one event that

210  
00:07:16,790 --> 00:07:14,960  
there were going to be videos and images

211  
00:07:17,749 --> 00:07:16,800  
and pictures and it wasn't ever going to

212  
00:07:20,469 --> 00:07:17,759  
be that

213  
00:07:23,270 --> 00:07:20,479

it was a summary in an attempt to get

214

00:07:24,790 --> 00:07:23,280

that ball rolling in brazil and i wonder

215

00:07:27,990 --> 00:07:24,800

in your opinion dan

216

00:07:29,990 --> 00:07:28,000

did that have any level of success

217

00:07:32,710 --> 00:07:30,000

i think so i i've heard from a few

218

00:07:34,710 --> 00:07:32,720

different places that it it kind of made

219

00:07:36,469 --> 00:07:34,720

the right people ask questions that the

220

00:07:37,909 --> 00:07:36,479

officials that were present the

221

00:07:40,070 --> 00:07:37,919

brazilian air force officials were

222

00:07:41,909 --> 00:07:40,080

taking notes for the whole time um so it

223

00:07:43,270 --> 00:07:41,919

certainly seems that they're interested

224

00:07:45,110 --> 00:07:43,280

and i'd hope that it would lead to

225

00:07:47,589 --> 00:07:45,120

something tangible ronnie himself said

226

00:07:48,629 --> 00:07:47,599

that he feels like it's going to uh but

227

00:07:50,230 --> 00:07:48,639

it almost felt like he didn't want to

228

00:07:51,510 --> 00:07:50,240

jinx it by saying what what he knew

229

00:07:53,589 --> 00:07:51,520

completely you know

230

00:07:55,990 --> 00:07:53,599

yeah and the debrief put up an article

231

00:07:57,670 --> 00:07:56,000

written by micah hanks where ronnie had

232

00:07:59,430 --> 00:07:57,680

a few quotes in there and that that was

233

00:08:00,869 --> 00:07:59,440

something that was mentioned that um

234

00:08:02,869 --> 00:08:00,879

conversations will hopefully be

235

00:08:05,510 --> 00:08:02,879

happening between senators and armed

236

00:08:07,350 --> 00:08:05,520

forces to discuss the issue and uh

237

00:08:10,070 --> 00:08:07,360

similar legislation like the gillibrand

238

00:08:11,830 --> 00:08:10,080

rubio gallego amendment may be submitted

239

00:08:14,790 --> 00:08:11,840

for approval by congress so at the

240

00:08:16,790 --> 00:08:14,800

moment we're taking ronnie at face value

241

00:08:17,909 --> 00:08:16,800

this is what he's hearing this is what

242

00:08:20,550 --> 00:08:17,919

he's hoping

243

00:08:22,869 --> 00:08:20,560

and can can this be moved forward into a

244

00:08:26,230 --> 00:08:22,879

more official phase and

245

00:08:28,230 --> 00:08:26,240

an approach and there are some uh cases

246

00:08:29,830 --> 00:08:28,240

mentioned dan right now that uh you've

247

00:08:31,430 --> 00:08:29,840

got a lot of detail on as well if people

248

00:08:33,110 --> 00:08:31,440

do want to go digging into the hearings

249

00:08:35,589 --> 00:08:33,120

to hear a bit more

250

00:08:37,589 --> 00:08:35,599

yeah absolutely they i noted down a few

251  
00:08:39,990 --> 00:08:37,599  
there was a few controversial ones as

252  
00:08:43,750 --> 00:08:40,000  
well because they got into what we

253  
00:08:45,350 --> 00:08:43,760  
described as the woo cases yeah but

254  
00:08:47,509 --> 00:08:45,360  
it's part of the culture there it's very

255  
00:08:49,430 --> 00:08:47,519  
different to hear i experienced a little

256  
00:08:50,949 --> 00:08:49,440  
taste of that when i was in colombia and

257  
00:08:53,509 --> 00:08:50,959  
people are a lot more open to talking

258  
00:08:55,030 --> 00:08:53,519  
about what we would deem woo as just a

259  
00:08:57,110 --> 00:08:55,040  
fact of life

260  
00:08:58,870 --> 00:08:57,120  
so it didn't really surprise me to hear

261  
00:09:00,230 --> 00:08:58,880  
those ones talked about

262  
00:09:01,430 --> 00:09:00,240  
and i'm kind of glad that they including

263  
00:09:03,910 --> 00:09:01,440

them because for better or worse they

264

00:09:06,230 --> 00:09:03,920

need to be addressed and confirmed or

265

00:09:08,070 --> 00:09:06,240

you know taken out of the pile so the

266

00:09:09,910 --> 00:09:08,080

the first one that stood out was the

267

00:09:11,190 --> 00:09:09,920

it's called the knight of the ufos and

268

00:09:12,710 --> 00:09:11,200

the brazilian government actually have

269

00:09:14,310 --> 00:09:12,720

an official website on this which we'll

270

00:09:15,430 --> 00:09:14,320

put in the show links so you can go in

271

00:09:17,509 --> 00:09:15,440

and you can read it you can see the

272

00:09:20,389 --> 00:09:17,519

photos but there were at least 21

273

00:09:21,910 --> 00:09:20,399

confirmed ufos um detected by military

274

00:09:24,949 --> 00:09:21,920

and civilians up to one and a half

275

00:09:27,269 --> 00:09:24,959

kilometers in size and one of them was

276

00:09:28,710 --> 00:09:27,279

chased by a civilian aircraft uh that

277

00:09:30,790 --> 00:09:28,720

had an air force

278

00:09:32,870 --> 00:09:30,800

kernel in it and armed jets were

279

00:09:34,470 --> 00:09:32,880

scrambled to pursue uh you know what we

280

00:09:36,470 --> 00:09:34,480

would call the phenomena and they say

281

00:09:40,470 --> 00:09:36,480

that it displayed intelligent behavior

282

00:09:41,910 --> 00:09:40,480

by avoiding the the fighter jets um and

283

00:09:43,829 --> 00:09:41,920

kind of

284

00:09:45,030 --> 00:09:43,839

i guess the word would be jamming uh

285

00:09:47,110 --> 00:09:45,040

their radars

286

00:09:48,389 --> 00:09:47,120

their airport did a press conference on

287

00:09:50,310 --> 00:09:48,399

it and a report and they're all

288

00:09:51,829 --> 00:09:50,320

available to the public and they're all

289

00:09:53,670 --> 00:09:51,839

on the the

290

00:09:56,550 --> 00:09:53,680

link in the description

291

00:09:58,150 --> 00:09:56,560

then we have the collars incident uh

292

00:10:01,269 --> 00:09:58,160

which is known as operation so so this

293

00:10:02,949 --> 00:10:01,279

was in 77 and there was an official

294

00:10:05,110 --> 00:10:02,959

investigation done on this where

295

00:10:06,710 --> 00:10:05,120

basically a lot of civilians were being

296

00:10:08,470 --> 00:10:06,720

attacked and injured

297

00:10:10,310 --> 00:10:08,480

by various different things you know

298

00:10:11,750 --> 00:10:10,320

balls of light craft things like that

299

00:10:13,829 --> 00:10:11,760

there were a lot there's a lot of

300

00:10:16,150 --> 00:10:13,839

confidential information uh including

301  
00:10:18,310 --> 00:10:16,160  
like pictures videos that was actually

302  
00:10:20,870 --> 00:10:18,320  
released by the commander who kind of

303  
00:10:23,030 --> 00:10:20,880  
did a whistleblower moment

304  
00:10:26,069 --> 00:10:23,040  
uh colonel hollander

305  
00:10:29,030 --> 00:10:26,079  
in in 1997 and he killed himself days

306  
00:10:30,310 --> 00:10:29,040  
after revealing it sadly so i loved

307  
00:10:32,790 --> 00:10:30,320  
seeing that

308  
00:10:34,389 --> 00:10:32,800  
put here because that gentleman clearly

309  
00:10:35,829 --> 00:10:34,399  
you know put his

310  
00:10:36,790 --> 00:10:35,839  
life on the line

311  
00:10:38,310 --> 00:10:36,800  
uh whether you want to go into

312  
00:10:40,230 --> 00:10:38,320  
conspiracies or not it's very

313  
00:10:42,870 --> 00:10:40,240

interesting that it's there then we have

314

00:10:45,509 --> 00:10:42,880

the acre assault in 2014 this was a wave

315

00:10:47,750 --> 00:10:45,519

of ufo attacks that occurred on the

316

00:10:50,150 --> 00:10:47,760

indigenous tribes of the amazon one

317

00:10:52,949 --> 00:10:50,160

reported one document reports a silver

318

00:10:54,870 --> 00:10:52,959

craft landing in the center of a tribe

319

00:10:57,269 --> 00:10:54,880

shooting light beams that injured a lot

320

00:10:59,350 --> 00:10:57,279

of people including a pregnant woman

321

00:11:01,990 --> 00:10:59,360

who was killed there were investigations

322

00:11:04,710 --> 00:11:02,000

done by uh the policies federale which

323

00:11:06,150 --> 00:11:04,720

is basically the brazil's fbi

324

00:11:08,389 --> 00:11:06,160

and they concluded that although they

325

00:11:09,670 --> 00:11:08,399

can't confirm the story

326

00:11:15,110 --> 00:11:09,680

the

327

00:11:17,269 --> 00:11:15,120

of daily habits and rituals and things

328

00:11:19,030 --> 00:11:17,279

like that so again that that that will

329

00:11:21,910 --> 00:11:19,040

make me think of secret machines in the

330

00:11:23,829 --> 00:11:21,920

cargo cults and how these sightings can

331

00:11:25,590 --> 00:11:23,839

have a deep effect on people's everyday

332

00:11:26,790 --> 00:11:25,600

lives

333

00:11:30,470 --> 00:11:26,800

the next one

334

00:11:32,389 --> 00:11:30,480

was a trinidad island case in 57 this

335

00:11:34,470 --> 00:11:32,399

involved naval officers and a whole ship

336

00:11:36,389 --> 00:11:34,480

crew on leaves seeing the disc disappear

337

00:11:37,670 --> 00:11:36,399

into the ocean um or it came out of the

338

00:11:39,030 --> 00:11:37,680

ocean circled around them a bunch of

339

00:11:40,389 --> 00:11:39,040

times and went back into the ocean there

340

00:11:41,430 --> 00:11:40,399

were three pictures taken that were

341

00:11:43,269 --> 00:11:41,440

shown

342

00:11:45,269 --> 00:11:43,279

and classified naval documents were

343

00:11:47,509 --> 00:11:45,279

later released to kind of confirm it

344

00:11:49,910 --> 00:11:47,519

again one of these ones where clearly it

345

00:11:51,110 --> 00:11:49,920

happened there were a lot of officials

346

00:11:53,110 --> 00:11:51,120

that saw it

347

00:11:55,110 --> 00:11:53,120

but where did where do they go from here

348

00:11:56,790 --> 00:11:55,120

you know they almost needed help from

349

00:11:58,470 --> 00:11:56,800

you know nasa and the special space

350

00:11:59,670 --> 00:11:58,480

satellites and things like that to look

351  
00:12:02,310 --> 00:11:59,680  
at that area

352  
00:12:04,949 --> 00:12:02,320  
let me ask you what next then fro from

353  
00:12:07,750 --> 00:12:04,959  
all of this data and these presentations

354  
00:12:09,110 --> 00:12:07,760  
and the people involved what do you see

355  
00:12:10,470 --> 00:12:09,120  
happening are we going to get those

356  
00:12:12,470 --> 00:12:10,480  
official hearings

357  
00:12:15,509 --> 00:12:12,480  
or is it a case that we may have to wait

358  
00:12:17,750 --> 00:12:15,519  
on other countries doing similar to to

359  
00:12:18,790 --> 00:12:17,760  
build that momentum for for folks to get

360  
00:12:21,030 --> 00:12:18,800  
involved

361  
00:12:22,470 --> 00:12:21,040  
i feel like other countries are going to

362  
00:12:24,550 --> 00:12:22,480  
kind of come and add to the snowball

363  
00:12:26,389 --> 00:12:24,560

here because when we're looking at cases

364

00:12:28,470 --> 00:12:26,399

outside of america we're suddenly

365

00:12:30,710 --> 00:12:28,480

dealing with realistically

366

00:12:32,710 --> 00:12:30,720

the possibility of it being us

367

00:12:35,110 --> 00:12:32,720

technology they pour money into this you

368

00:12:37,190 --> 00:12:35,120

know into black projects and so a

369

00:12:39,910 --> 00:12:37,200

triangle that's seen in brazil as a you

370

00:12:42,310 --> 00:12:39,920

know a uap or ufo or of me

371

00:12:44,230 --> 00:12:42,320

could just be you know project aurora or

372

00:12:46,069 --> 00:12:44,240

something like that or a stealth fighter

373

00:12:48,069 --> 00:12:46,079

that's being flown over so there's

374

00:12:50,310 --> 00:12:48,079

certainly that aspect where

375

00:12:52,790 --> 00:12:50,320

this is kind of begging to connect with

376

00:12:54,470 --> 00:12:52,800

the us efforts that they have been

377

00:12:56,710 --> 00:12:54,480

instructed to involve allies and

378

00:12:57,990 --> 00:12:56,720

partners but how deeply they're

379

00:13:00,389 --> 00:12:58,000

respecting that wish and actually

380

00:13:02,230 --> 00:13:00,399

carrying that out is anyone's guess

381

00:13:03,990 --> 00:13:02,240

yeah and grant cameron when i spoke to

382

00:13:05,350 --> 00:13:04,000

him last week and thank you to everyone

383

00:13:08,629 --> 00:13:05,360

for the feedback on the grant cameron

384

00:13:10,389 --> 00:13:08,639

interview um or grant cameron speaking

385

00:13:12,069 --> 00:13:10,399

with me now and again getting to ask him

386

00:13:13,430 --> 00:13:12,079

something it was a he's a font of

387

00:13:14,949 --> 00:13:13,440

knowledge and the information just kind

388

00:13:16,790 --> 00:13:14,959

of comes out doesn't it but it was it

389

00:13:17,750 --> 00:13:16,800

was excellent i love speaking to grant

390

00:13:19,430 --> 00:13:17,760

um

391

00:13:21,670 --> 00:13:19,440

he mentions that he's trying to arrange

392

00:13:23,030 --> 00:13:21,680

something similar in canada as well so

393

00:13:24,710 --> 00:13:23,040

again that would be that would be

394

00:13:26,710 --> 00:13:24,720

interesting to see who who would be

395

00:13:29,190 --> 00:13:26,720

involved in what would be discussed and

396

00:13:31,509 --> 00:13:29,200

again it's just adding to that that pile

397

00:13:33,030 --> 00:13:31,519

and weight behind the effort so fingers

398

00:13:35,430 --> 00:13:33,040

crossed we get we get a little bit more

399

00:13:36,710 --> 00:13:35,440

coming from that and we hear if brazil

400

00:13:39,350 --> 00:13:36,720

are going to pursue this in a more

401  
00:13:41,430 --> 00:13:39,360  
formal fashion as well um which would be

402  
00:13:42,949 --> 00:13:41,440  
impressive and well done to ronnie

403  
00:13:44,629 --> 00:13:42,959  
vernae for keeping people up to date

404  
00:13:46,150 --> 00:13:44,639  
over the last few months on this and

405  
00:13:49,430 --> 00:13:46,160  
he's definitely a twitter account you

406  
00:13:51,110 --> 00:13:49,440  
should be following um next up we were

407  
00:13:54,550 --> 00:13:51,120  
talking about u.s efforts and someone

408  
00:13:56,790 --> 00:13:54,560  
who was uh unveiled as the us the uap

409  
00:13:59,590 --> 00:13:56,800  
task force chief scientist

410  
00:14:03,110 --> 00:13:59,600  
it was none other than dr travis taylor

411  
00:14:04,389 --> 00:14:03,120  
himself of skinwalker ranch fame and

412  
00:14:05,509 --> 00:14:04,399  
of course

413  
00:14:07,670 --> 00:14:05,519

other

414

00:14:10,870 --> 00:14:07,680

shows documentaries and

415

00:14:13,030 --> 00:14:10,880

uh a bit controversial for many because

416

00:14:15,509 --> 00:14:13,040

he's he's very much seen as a tv star i

417

00:14:17,990 --> 00:14:15,519

think to many because of the skinwalker

418

00:14:20,230 --> 00:14:18,000

ranch roll uh it was very timely because

419

00:14:22,230 --> 00:14:20,240

literally i had just interviewed travis

420

00:14:24,389 --> 00:14:22,240

days before george knapp

421

00:14:26,470 --> 00:14:24,399

announced this and travis you know

422

00:14:28,829 --> 00:14:26,480

basically had his revealing to the world

423

00:14:31,910 --> 00:14:28,839

that he was he was in this role

424

00:14:33,430 --> 00:14:31,920

um i spoke to george and colm kelleher

425

00:14:34,790 --> 00:14:33,440

about this that interview is about to

426

00:14:37,829 --> 00:14:34,800

drop on the free feeds in the next

427

00:14:39,590 --> 00:14:37,839

couple of days and two parts and i asked

428

00:14:41,670 --> 00:14:39,600

them do you think it's it's fair some

429

00:14:43,350 --> 00:14:41,680

people's reaction

430

00:14:44,470 --> 00:14:43,360

is a little bit tentative on this one

431

00:14:47,350 --> 00:14:44,480

because

432

00:14:49,590 --> 00:14:47,360

travis is a very charismatic individual

433

00:14:51,670 --> 00:14:49,600

and you see that i think on the showdown

434

00:14:53,110 --> 00:14:51,680

don't you that he's you know he's really

435

00:14:54,949 --> 00:14:53,120

good at explaining stuff and dumbing

436

00:14:57,030 --> 00:14:54,959

down but to be fair and this has no

437

00:14:59,509 --> 00:14:57,040

slight on him he's very good at playing

438

00:15:01,910 --> 00:14:59,519

to the camera as well on what is still

439

00:15:04,150 --> 00:15:01,920

essentially a tv show about a scientific

440

00:15:05,670 --> 00:15:04,160

experiment that's going on so

441

00:15:07,990 --> 00:15:05,680

what were your thoughts on when travis

442

00:15:09,350 --> 00:15:08,000

got confirmed or announced as as the

443

00:15:11,350 --> 00:15:09,360

chief scientist

444

00:15:13,189 --> 00:15:11,360

i i was stoked to be honest because you

445

00:15:14,790 --> 00:15:13,199

you know you just spoken to him and a

446

00:15:16,949 --> 00:15:14,800

lot of the answers that he gave suddenly

447

00:15:18,310 --> 00:15:16,959

became a lot more interesting if he was

448

00:15:20,470 --> 00:15:18,320

involved in the official effort like

449

00:15:21,910 --> 00:15:20,480

talking about caffeine and adhd

450

00:15:23,670 --> 00:15:21,920

medication and the effect that has on

451  
00:15:25,269 --> 00:15:23,680  
the phenomenon i was suddenly thinking

452  
00:15:29,110 --> 00:15:25,279  
well they're looking at that in the ua

453  
00:15:31,910 --> 00:15:29,120  
ptf you know the uap task force um

454  
00:15:33,829 --> 00:15:31,920  
also watching skin water ranch now

455  
00:15:35,269 --> 00:15:33,839  
it's taken on a different feel when he's

456  
00:15:36,790 --> 00:15:35,279  
on screen because yeah you know he does

457  
00:15:39,110 --> 00:15:36,800  
play up to the cameras he's been a

458  
00:15:40,550 --> 00:15:39,120  
staple of some other shows on history

459  
00:15:42,710 --> 00:15:40,560  
where you know he's clearly being

460  
00:15:44,230 --> 00:15:42,720  
invited back because he's good at he's

461  
00:15:45,990 --> 00:15:44,240  
good at kind of protect for riding that

462  
00:15:48,550 --> 00:15:46,000  
glue in the team but

463  
00:15:50,870 --> 00:15:48,560

there's no denying that travis is very

464

00:15:53,350 --> 00:15:50,880

qualified he's a very smart individual

465

00:15:54,470 --> 00:15:53,360

he has a whole bunch of degrees you know

466

00:15:56,150 --> 00:15:54,480

and

467

00:15:58,470 --> 00:15:56,160

just because you write science fiction

468

00:16:00,629 --> 00:15:58,480

it's not fair to just accuse him of

469

00:16:02,310 --> 00:16:00,639

having these biases and beliefs or to

470

00:16:04,230 --> 00:16:02,320

say because we all have those things but

471

00:16:05,030 --> 00:16:04,240

to say that he would let them affect his

472

00:16:06,389 --> 00:16:05,040

work

473

00:16:08,389 --> 00:16:06,399

travis

474

00:16:11,189 --> 00:16:08,399

even in the dod statement

475

00:16:13,269 --> 00:16:11,199

they said that he was part of the task

476

00:16:16,310 --> 00:16:13,279

force so there were other experts and

477

00:16:17,910 --> 00:16:16,320

things that he would consult there so

478

00:16:19,749 --> 00:16:17,920

you know what we don't want someone that

479

00:16:21,430 --> 00:16:19,759

consults experts when they need to like

480

00:16:24,629 --> 00:16:21,440

that that seems like the smart idea to

481

00:16:25,990 --> 00:16:24,639

me uh it's literally just that that bias

482

00:16:27,509 --> 00:16:26,000

piece that people keep hanging on to and

483

00:16:29,430 --> 00:16:27,519

i said the other day and everyone had a

484

00:16:31,350 --> 00:16:29,440

bit of fun with it where

485

00:16:32,790 --> 00:16:31,360

you know we all put we put a mug on a

486

00:16:34,230 --> 00:16:32,800

table without thinking about it and

487

00:16:35,509 --> 00:16:34,240

that's a bias right there that's a

488

00:16:37,189 --> 00:16:35,519

belief that we have that the table's

489

00:16:39,269 --> 00:16:37,199

going to hold the mug and maybe someday

490

00:16:41,350 --> 00:16:39,279

it'll do something different but it's

491

00:16:42,870 --> 00:16:41,360

still one that's just innate to us and

492

00:16:43,990 --> 00:16:42,880

it's sometimes good to be aware of those

493

00:16:45,990 --> 00:16:44,000

biases

494

00:16:47,430 --> 00:16:46,000

yeah i think with travis taylor if you

495

00:16:49,430 --> 00:16:47,440

take away the name

496

00:16:51,110 --> 00:16:49,440

and you take away the resume that says

497

00:16:53,110 --> 00:16:51,120

skinwalker ranch

498

00:16:55,990 --> 00:16:53,120

on there or any of those documentaries

499

00:16:57,749 --> 00:16:56,000

and you just list his academic academic

500

00:17:01,110 --> 00:16:57,759

you know qualifications

501  
00:17:03,350 --> 00:17:01,120  
his his papers his research and his you

502  
00:17:04,949 --> 00:17:03,360  
know list of peers and you said to

503  
00:17:07,029 --> 00:17:04,959  
someone how does that look for the

504  
00:17:09,110 --> 00:17:07,039  
resume of someone involved with the uap

505  
00:17:11,270 --> 00:17:09,120  
task force you would say yeah that's

506  
00:17:12,710 --> 00:17:11,280  
absolutely what you'd be expecting

507  
00:17:14,390 --> 00:17:12,720  
so i think

508  
00:17:15,429 --> 00:17:14,400  
to now know that he is that person

509  
00:17:17,590 --> 00:17:15,439  
that's a little bit like watching

510  
00:17:19,829 --> 00:17:17,600  
undercover boss or when you're watching

511  
00:17:21,590 --> 00:17:19,839  
skin walker ranch that oh there's like

512  
00:17:23,510 --> 00:17:21,600  
there's that guy and you know

513  
00:17:25,590 --> 00:17:23,520

brandon fogle and others have confirmed

514

00:17:27,110 --> 00:17:25,600

they had no idea because travis taylor

515

00:17:29,029 --> 00:17:27,120

was under nda

516

00:17:31,190 --> 00:17:29,039

and couldn't have those discussions so

517

00:17:33,350 --> 00:17:31,200

maybe they had you know their own ideas

518

00:17:36,070 --> 00:17:33,360

and i know a few people in the ufo

519

00:17:38,150 --> 00:17:36,080

community have said to me since that

520

00:17:40,870 --> 00:17:38,160

they had their leanings or their

521

00:17:42,390 --> 00:17:40,880

thoughts that that might be who that was

522

00:17:43,669 --> 00:17:42,400

which is fair and people have their

523

00:17:46,789 --> 00:17:43,679

sources but

524

00:17:49,029 --> 00:17:46,799

um we all know now and uh for me

525

00:17:50,470 --> 00:17:49,039

it's interesting how we go forward from

526

00:17:52,470 --> 00:17:50,480

this and

527

00:17:54,789 --> 00:17:52,480

travis has opened himself up to a whole

528

00:17:57,110 --> 00:17:54,799

lot of scrutiny now which i'm sure he

529

00:17:59,270 --> 00:17:57,120

would have known and we have seen how

530

00:18:01,350 --> 00:17:59,280

especially on social media which travis

531

00:18:03,830 --> 00:18:01,360

to be fair isn't too active on

532

00:18:05,590 --> 00:18:03,840

how this is how this impacts and how

533

00:18:07,510 --> 00:18:05,600

people react to these people

534

00:18:09,669 --> 00:18:07,520

being involved in the ufo community and

535

00:18:11,430 --> 00:18:09,679

the ufo conversation again just to

536

00:18:13,350 --> 00:18:11,440

remind folks i had a listener emailing

537

00:18:15,350 --> 00:18:13,360

me today asking when the interview with

538

00:18:17,110 --> 00:18:15,360

professor simon holland was

539

00:18:18,870 --> 00:18:17,120

and i just had to let them know that you

540

00:18:19,990 --> 00:18:18,880

know as i've said on the podcast a while

541

00:18:21,270 --> 00:18:20,000

back

542

00:18:22,870 --> 00:18:21,280

and we'd lined up an interview with

543

00:18:25,270 --> 00:18:22,880

simon holland he was requested by

544

00:18:28,070 --> 00:18:25,280

several listeners to be a guest on the

545

00:18:29,190 --> 00:18:28,080

podcast um british based you know

546

00:18:31,669 --> 00:18:29,200

scientist

547

00:18:33,669 --> 00:18:31,679

interesting guy very intelligent getting

548

00:18:35,750 --> 00:18:33,679

involved in the ufo conversation and

549

00:18:38,230 --> 00:18:35,760

some of his youtube videos and he agreed

550

00:18:39,990 --> 00:18:38,240

to come on the podcast and because of

551  
00:18:41,830 --> 00:18:40,000  
what was happening on social media at

552  
00:18:44,310 --> 00:18:41,840  
the time and all the kind of toxic

553  
00:18:46,230 --> 00:18:44,320  
conversation and people arguing back and

554  
00:18:48,710 --> 00:18:46,240  
forward and the attacks

555  
00:18:50,630 --> 00:18:48,720  
he he declined and chose to cancel the

556  
00:18:52,630 --> 00:18:50,640  
interview not a slight on ourselves or

557  
00:18:54,230 --> 00:18:52,640  
the listeners but he just didn't want to

558  
00:18:56,390 --> 00:18:54,240  
be involved in that side of things which

559  
00:18:58,470 --> 00:18:56,400  
was really disappointing and you wonder

560  
00:19:00,070 --> 00:18:58,480  
how many others

561  
00:19:02,070 --> 00:19:00,080  
like a travis taylor who have stayed in

562  
00:19:04,230 --> 00:19:02,080  
the background could have potentially

563  
00:19:06,710 --> 00:19:04,240

come forward but didn't

564

00:19:09,350 --> 00:19:06,720

because they see the reaction online and

565

00:19:11,669 --> 00:19:09,360

the keyboard warriors and arguing and

566

00:19:13,669 --> 00:19:11,679

the infighting and the bitterness

567

00:19:15,190 --> 00:19:13,679

and they just say no i don't need that

568

00:19:16,470 --> 00:19:15,200

and travis taylor could have very much

569

00:19:18,710 --> 00:19:16,480

just done that as well and we could have

570

00:19:20,150 --> 00:19:18,720

just kept guessing but i think it's it's

571

00:19:21,830 --> 00:19:20,160

one of those things you don't know what

572

00:19:24,789 --> 00:19:21,840

you've got until you don't have it

573

00:19:26,230 --> 00:19:24,799

anymore yeah and again

574

00:19:28,950 --> 00:19:26,240

people can go on about sock puppet

575

00:19:31,190 --> 00:19:28,960

accounts and others leaving ufo twitter

576  
00:19:33,270 --> 00:19:31,200  
but it would be great to see some people

577  
00:19:35,830 --> 00:19:33,280  
really involved again and we just don't

578  
00:19:37,270 --> 00:19:35,840  
have that necessarily at the moment uh

579  
00:19:38,950 --> 00:19:37,280  
because of kind of what's going on in

580  
00:19:40,310 --> 00:19:38,960  
the last year online so

581  
00:19:41,590 --> 00:19:40,320  
again i would just say to folks that

582  
00:19:43,430 --> 00:19:41,600  
when you've got someone like a travis

583  
00:19:45,029 --> 00:19:43,440  
taylor who potentially is going to

584  
00:19:46,870 --> 00:19:45,039  
become more accessible

585  
00:19:48,310 --> 00:19:46,880  
let's embrace it a little bit more and

586  
00:19:49,669 --> 00:19:48,320  
be you know constructive with the

587  
00:19:50,950 --> 00:19:49,679  
questions and

588  
00:19:52,310 --> 00:19:50,960

and try and get them involved and

589

00:19:53,830 --> 00:19:52,320

encourage folks like this to come

590

00:19:55,669 --> 00:19:53,840

forward because it's the only way we're

591

00:19:57,190 --> 00:19:55,679

going to be able to progress those

592

00:19:59,830 --> 00:19:57,200

conversations and

593

00:20:02,230 --> 00:19:59,840

and get folks like aj stratton on

594

00:20:04,710 --> 00:20:02,240

twitter and instagram or you know doing

595

00:20:06,710 --> 00:20:04,720

reddit amas and things like that which

596

00:20:07,990 --> 00:20:06,720

years ago were never in the conversation

597

00:20:09,909 --> 00:20:08,000

but now you can literally have a back

598

00:20:12,390 --> 00:20:09,919

and forward conversation with your

599

00:20:13,510 --> 00:20:12,400

favorite football star or movie star or

600

00:20:15,190 --> 00:20:13,520

you know

601  
00:20:16,789 --> 00:20:15,200  
we've got the opportunity to discuss

602  
00:20:19,669 --> 00:20:16,799  
these things with real like i would love

603  
00:20:21,270 --> 00:20:19,679  
to have eric davis on twitter

604  
00:20:23,190 --> 00:20:21,280  
you know answering people's questions

605  
00:20:26,710 --> 00:20:23,200  
and having back and forwards and for all

606  
00:20:28,789 --> 00:20:26,720  
we know he he is on twitter but we just

607  
00:20:30,549 --> 00:20:28,799  
don't know it's him do you get what i

608  
00:20:32,149 --> 00:20:30,559  
mean dan yeah yeah yeah we're

609  
00:20:34,390 --> 00:20:32,159  
potentially missing out in a big part of

610  
00:20:36,149 --> 00:20:34,400  
the conversation here and it's a very

611  
00:20:37,029 --> 00:20:36,159  
real example of people propagating the

612  
00:20:38,549 --> 00:20:37,039  
stigma

613  
00:20:39,990 --> 00:20:38,559

you know where over the past couple of

614

00:20:42,070 --> 00:20:40,000

years since the the new york times

615

00:20:44,310 --> 00:20:42,080

article that stigma has kind of been

616

00:20:45,669 --> 00:20:44,320

pushed away and it's not gone completely

617

00:20:47,669 --> 00:20:45,679

but

618

00:20:49,830 --> 00:20:47,679

pushing people away like this just keeps

619

00:20:51,350 --> 00:20:49,840

that in place it came up when eric

620

00:20:52,470 --> 00:20:51,360

weinstein was talking to mick west on

621

00:20:53,990 --> 00:20:52,480

theories of everything the other day

622

00:20:55,909 --> 00:20:54,000

which was a great conversation you know

623

00:20:57,430 --> 00:20:55,919

in terms of knowing what the other side

624

00:20:59,990 --> 00:20:57,440

is thinking and they were talking about

625

00:21:02,149 --> 00:21:00,000

the idea of debunking and kind of people

626

00:21:04,070 --> 00:21:02,159

almost being the ufo please say you

627

00:21:05,830 --> 00:21:04,080

can't have this conversation and all it

628

00:21:07,270 --> 00:21:05,840

does is it stops people coming forward

629

00:21:09,830 --> 00:21:07,280

it stops people telling us about their

630

00:21:11,190 --> 00:21:09,840

stories and their experiences even if

631

00:21:12,870 --> 00:21:11,200

they're telling you a story that they

632

00:21:14,230 --> 00:21:12,880

didn't really understand what they were

633

00:21:15,990 --> 00:21:14,240

seeing or something like that they're

634

00:21:17,909 --> 00:21:16,000

just not going to tell us whereas we

635

00:21:19,510 --> 00:21:17,919

want ryan graves out there we want alex

636

00:21:21,110 --> 00:21:19,520

to shrek you know how great would it be

637

00:21:22,470 --> 00:21:21,120

to have david fravor on twitter but we

638

00:21:24,789 --> 00:21:22,480

know what would happen

639

00:21:26,310 --> 00:21:24,799

people would be judgmental instead of

640

00:21:28,830 --> 00:21:26,320

curious

641

00:21:30,950 --> 00:21:28,840

there was a whole thing with the travis

642

00:21:33,990 --> 00:21:30,960

taylor reveal

643

00:21:35,669 --> 00:21:34,000

from science magazine as well where

644

00:21:38,470 --> 00:21:35,679

basically the journalist who wrote the

645

00:21:40,950 --> 00:21:38,480

article took a

646

00:21:42,789 --> 00:21:40,960

a pentagon statement and edited it and

647

00:21:44,549 --> 00:21:42,799

took the complete wrong part they kind

648

00:21:46,149 --> 00:21:44,559

of cut this you know whole paragraph

649

00:21:48,390 --> 00:21:46,159

down to one sentence to just fit their

650

00:21:49,669 --> 00:21:48,400

narrative and then that went out to god

651  
00:21:51,750 --> 00:21:49,679  
knows how many people because it's a

652  
00:21:53,350 --> 00:21:51,760  
respected magazine and unfortunately you

653  
00:21:55,270 --> 00:21:53,360  
know i'd say at least for me it damaged

654  
00:21:56,950 --> 00:21:55,280  
their reputation and they did issue a

655  
00:21:59,190 --> 00:21:56,960  
correction but it still really wasn't

656  
00:22:01,350 --> 00:21:59,200  
good enough and that is a journalist

657  
00:22:02,950 --> 00:22:01,360  
that we've seen repeatedly you know i'll

658  
00:22:04,710 --> 00:22:02,960  
kind of say the word journalist in bunny

659  
00:22:06,549 --> 00:22:04,720  
is there repeatedly just come out

660  
00:22:08,070 --> 00:22:06,559  
against people and it just makes you

661  
00:22:10,549 --> 00:22:08,080  
start asking questions as to whether

662  
00:22:12,710 --> 00:22:10,559  
there's a you know a very real effort to

663  
00:22:14,470 --> 00:22:12,720

to stop this conversation happening yeah

664

00:22:16,149 --> 00:22:14,480

look at that like an agenda potentially

665

00:22:17,990 --> 00:22:16,159

and to be fair that that's something i

666

00:22:19,190 --> 00:22:18,000

ask george and comb about because they

667

00:22:21,830 --> 00:22:19,200

bring that up in the interview i had

668

00:22:23,830 --> 00:22:21,840

with them and they they both go off on

669

00:22:25,669 --> 00:22:23,840

that journalist about that piece and

670

00:22:26,470 --> 00:22:25,679

that it very much comes across as a hit

671

00:22:28,630 --> 00:22:26,480

piece

672

00:22:31,350 --> 00:22:28,640

and they were both calm especially

673

00:22:33,830 --> 00:22:31,360

mentioning how respected that science

674

00:22:35,750 --> 00:22:33,840

journal is and that it's in libraries

675

00:22:38,310 --> 00:22:35,760

around the world and a lot of very

676

00:22:41,270 --> 00:22:38,320

respected people read it and that the

677

00:22:42,870 --> 00:22:41,280

vetting done on the article is

678

00:22:45,190 --> 00:22:42,880

it's very strange

679

00:22:47,270 --> 00:22:45,200

and curious that it managed to get

680

00:22:49,350 --> 00:22:47,280

published with

681

00:22:51,430 --> 00:22:49,360

the tone and the errors that i actually

682

00:22:52,870 --> 00:22:51,440

had within it and like you say you can

683

00:22:54,789 --> 00:22:52,880

issue a correction but once it's out

684

00:22:56,149 --> 00:22:54,799

there in print it's out there yeah so

685

00:22:58,310 --> 00:22:56,159

you can't take those ones back from the

686

00:22:59,590 --> 00:22:58,320

library right and suddenly update them

687

00:23:01,510 --> 00:22:59,600

so there are going to be people out

688

00:23:04,630 --> 00:23:01,520

there even today even though that's been

689

00:23:06,390 --> 00:23:04,640

corrected and you know uh proven to be a

690

00:23:08,710 --> 00:23:06,400

fallacy there are going to be people

691

00:23:09,510 --> 00:23:08,720

reading that incorrect edited statement

692

00:23:11,510 --> 00:23:09,520

and

693

00:23:13,669 --> 00:23:11,520

for a journalist you know that word

694

00:23:15,909 --> 00:23:13,679

journalists who have edited a department

695

00:23:17,990 --> 00:23:15,919

of defense statement you know that's

696

00:23:20,390 --> 00:23:18,000

it's a very or possibly a very real

697

00:23:22,310 --> 00:23:20,400

example of an easily provable piece of

698

00:23:23,909 --> 00:23:22,320

the conspiracy you know you don't

699

00:23:25,110 --> 00:23:23,919

necessarily need guys in dark rooms

700

00:23:27,110 --> 00:23:25,120

planning this stuff out when you have

701  
00:23:29,510 --> 00:23:27,120  
journalists like that with an agenda

702  
00:23:31,190 --> 00:23:29,520  
yeah um and so i think it's fair to say

703  
00:23:34,390 --> 00:23:31,200  
from yourself and myself dan no

704  
00:23:36,230 --> 00:23:34,400  
complaints on travis taylor being the

705  
00:23:38,630 --> 00:23:36,240  
as involved as he is with the task force

706  
00:23:40,950 --> 00:23:38,640  
of reporting and and the efforts going

707  
00:23:42,470 --> 00:23:40,960  
forward shall we say yeah not at all i

708  
00:23:44,070 --> 00:23:42,480  
was watching the recent skidmore ranch

709  
00:23:45,909 --> 00:23:44,080  
where he you know travis is there

710  
00:23:48,070 --> 00:23:45,919  
shooting laser beams up at what he

711  
00:23:49,029 --> 00:23:48,080  
thinks might be an invisible thing in

712  
00:23:50,870 --> 00:23:49,039  
the sky

713  
00:23:52,070 --> 00:23:50,880

and i was just filled with glee thinking

714

00:23:53,909 --> 00:23:52,080

i'm watching

715

00:23:55,750 --> 00:23:53,919

the guy who was heading up the science

716

00:23:56,870 --> 00:23:55,760

of the uab task force doing live

717

00:23:59,830 --> 00:23:56,880

experiments trying to figure out this

718

00:24:01,830 --> 00:23:59,840

phenomena that's stupidly cool

719

00:24:03,909 --> 00:24:01,840

it's very cool um and speaking of

720

00:24:05,190 --> 00:24:03,919

complaints then i set that one up for

721

00:24:07,110 --> 00:24:05,200

myself

722

00:24:09,350 --> 00:24:07,120

um we're going to talk about luella's on

723

00:24:11,269 --> 00:24:09,360

those and um ig complaint

724

00:24:13,029 --> 00:24:11,279

uh this is one that is kind of running

725

00:24:16,830 --> 00:24:13,039

in the background it's one that you

726

00:24:19,830 --> 00:24:16,840

followed a lot more closely than myself

727

00:24:21,909 --> 00:24:19,840

um what is happening with this at the

728

00:24:24,230 --> 00:24:21,919

moment and just to summarize what are

729

00:24:26,149 --> 00:24:24,240

the kind of main points or on

730

00:24:29,269 --> 00:24:26,159

on loo's complaint

731

00:24:31,510 --> 00:24:29,279

sure so so we have two things basically

732

00:24:32,470 --> 00:24:31,520

we have the

733

00:24:35,029 --> 00:24:32,480

dod

734

00:24:36,710 --> 00:24:35,039

inspector general investigation of the

735

00:24:39,590 --> 00:24:36,720

department of defense's handling of the

736

00:24:41,110 --> 00:24:39,600

uap issue over the years that's ongoing

737

00:24:43,029 --> 00:24:41,120

that was announced

738

00:24:44,630 --> 00:24:43,039

but on that day or we don't have the

739

00:24:46,390 --> 00:24:44,640

results for that but they always do

740

00:24:48,710 --> 00:24:46,400

public reports via their website so at

741

00:24:50,230 --> 00:24:48,720

some point we will see that go up um no

742

00:24:51,830 --> 00:24:50,240

idea when it's going to finish but it's

743

00:24:53,909 --> 00:24:51,840

been going a while so i can't imagine

744

00:24:55,830 --> 00:24:53,919

that it's going to take much longer then

745

00:24:57,190 --> 00:24:55,840

in a separate kind of

746

00:24:59,590 --> 00:24:57,200

document

747

00:25:01,269 --> 00:24:59,600

the day that was announced

748

00:25:04,149 --> 00:25:01,279

luella zondo submitted a formal

749

00:25:05,190 --> 00:25:04,159

complaint to the dodig

750

00:25:07,590 --> 00:25:05,200

and

751  
00:25:09,029 --> 00:25:07,600  
that apparently has led to you know an

752  
00:25:11,750 --> 00:25:09,039  
investigation

753  
00:25:13,269 --> 00:25:11,760  
against how they have handled lou

754  
00:25:14,870 --> 00:25:13,279  
nothing like that has been announced but

755  
00:25:16,310 --> 00:25:14,880  
i don't know if they would announce

756  
00:25:17,590 --> 00:25:16,320  
something so personal you know we we

757  
00:25:19,590 --> 00:25:17,600  
didn't necessarily hear about the gary

758  
00:25:21,750 --> 00:25:19,600  
reed investigation before

759  
00:25:24,310 --> 00:25:21,760  
that came to a head

760  
00:25:26,390 --> 00:25:24,320  
so it might be in that area but in a

761  
00:25:28,789 --> 00:25:26,400  
nutshell we have three people named in

762  
00:25:30,470 --> 00:25:28,799  
the complaint we have gary reed who we

763  
00:25:31,350 --> 00:25:30,480

already know has been removed from his

764

00:25:34,149 --> 00:25:31,360

post

765

00:25:36,630 --> 00:25:34,159

we have susan goff who still is in her

766

00:25:38,230 --> 00:25:36,640

post as the spokesperson for the dod she

767

00:25:39,909 --> 00:25:38,240

got promotion in the time between when

768

00:25:41,750 --> 00:25:39,919

this was filed and we heard about it and

769

00:25:43,510 --> 00:25:41,760

then we have neil tipton as well who was

770

00:25:45,350 --> 00:25:43,520

lou's supervisor

771

00:25:47,110 --> 00:25:45,360

and all three of those supposedly

772

00:25:48,950 --> 00:25:47,120

contributed to

773

00:25:50,710 --> 00:25:48,960

several things so

774

00:25:52,630 --> 00:25:50,720

the report contains

775

00:25:55,190 --> 00:25:52,640

firstly a chronological

776

00:25:56,950 --> 00:25:55,200

listing of the events that lieu of lou's

777

00:25:58,470 --> 00:25:56,960

involvement in atip that's really

778

00:26:01,269 --> 00:25:58,480

interesting to read and i was messaging

779

00:26:04,789 --> 00:26:01,279

you as i was reading that part because

780

00:26:07,430 --> 00:26:04,799

it it really in detail explains

781

00:26:09,350 --> 00:26:07,440

away the confusion between osap and atip

782

00:26:11,430 --> 00:26:09,360

and what happened there with lou

783

00:26:14,070 --> 00:26:11,440

you could argue that lou was the head of

784

00:26:15,029 --> 00:26:14,080

osap for maybe like 10 minutes if that

785

00:26:17,029 --> 00:26:15,039

you know

786

00:26:18,950 --> 00:26:17,039

i think i explained it to you like i

787

00:26:20,870 --> 00:26:18,960

worked for apple retail

788

00:26:22,870 --> 00:26:20,880

and people would see that as apple but

789

00:26:24,310 --> 00:26:22,880

it's not part of apple inc so it's a

790

00:26:25,669 --> 00:26:24,320

different thing i can't say that i work

791

00:26:27,029 --> 00:26:25,679

for apple inc you know that kind of

792

00:26:28,789 --> 00:26:27,039

thing happens

793

00:26:30,070 --> 00:26:28,799

as soon as lou took control of that

794

00:26:32,870 --> 00:26:30,080

project he

795

00:26:34,549 --> 00:26:32,880

all the people got let go from osap and

796

00:26:37,029 --> 00:26:34,559

it was shuttered and they focused on

797

00:26:39,669 --> 00:26:37,039

atip and the military cases so it's safe

798

00:26:41,190 --> 00:26:39,679

to say that not only

799

00:26:43,029 --> 00:26:41,200

did he

800

00:26:45,190 --> 00:26:43,039

was he aware of the stranger aspects of

801  
00:26:47,269 --> 00:26:45,200  
things but he also realized how

802  
00:26:49,990 --> 00:26:47,279  
difficult they are to talk about um and

803  
00:26:51,510 --> 00:26:50,000  
to fund so he focused in on the thing

804  
00:26:53,750 --> 00:26:51,520  
that he could prove and that was all the

805  
00:26:55,590 --> 00:26:53,760  
military sightings with multi-sensor

806  
00:26:57,669 --> 00:26:55,600  
systems and things like that

807  
00:26:59,590 --> 00:26:57,679  
then we have a detail listed of the

808  
00:27:02,149 --> 00:26:59,600  
events and actions to substantiate the

809  
00:27:03,830 --> 00:27:02,159  
complaint uh all of which lou says

810  
00:27:06,149 --> 00:27:03,840  
resulted in great personal and

811  
00:27:08,390 --> 00:27:06,159  
professional challenges so these are the

812  
00:27:10,230 --> 00:27:08,400  
things where we've seen you know just

813  
00:27:11,750 --> 00:27:10,240

these character assassination pieces

814

00:27:13,269 --> 00:27:11,760

appear in the media and things like that

815

00:27:15,190 --> 00:27:13,279

based on statements that were given by

816

00:27:16,710 --> 00:27:15,200

the pentagon that whether you agree with

817

00:27:18,710 --> 00:27:16,720

them or not they changed their

818

00:27:20,870 --> 00:27:18,720

statements from who did work with atip

819

00:27:23,269 --> 00:27:20,880

to he didn't work to hate it from it did

820

00:27:25,430 --> 00:27:23,279

look at ufos too it didn't look at ufos

821

00:27:27,350 --> 00:27:25,440

and this flip-flopping just damages

822

00:27:28,950 --> 00:27:27,360

someone's reputation and lou has always

823

00:27:31,430 --> 00:27:28,960

maintained that

824

00:27:33,110 --> 00:27:31,440

there's paperwork that shows the truth

825

00:27:34,789 --> 00:27:33,120

of this stuff and that the truth is on

826

00:27:38,230 --> 00:27:34,799

his side

827

00:27:40,230 --> 00:27:38,240

the third thing is that it points out uh

828

00:27:42,070 --> 00:27:40,240

the evidence that substantiates the

829

00:27:44,950 --> 00:27:42,080

claim that there might be a deeper

830

00:27:47,669 --> 00:27:44,960

conspiracy within the osd staff to

831

00:27:49,430 --> 00:27:47,679

circumvent dod policy rules regulations

832

00:27:52,389 --> 00:27:49,440

and perhaps even law and that word

833

00:27:54,310 --> 00:27:52,399

perhaps is used so again kind of

834

00:27:55,830 --> 00:27:54,320

pointing out the conspiracy that for

835

00:27:58,070 --> 00:27:55,840

whatever reason they're trying to stop

836

00:27:59,590 --> 00:27:58,080

this conversation happening

837

00:28:01,350 --> 00:27:59,600

like i say the complaint may have led to

838

00:28:02,549 --> 00:28:01,360

an investigation but we're not hearing

839

00:28:04,149 --> 00:28:02,559

that at the moment

840

00:28:05,510 --> 00:28:04,159

but the important thing is is there's a

841

00:28:06,549 --> 00:28:05,520

page right at the end of the document

842

00:28:08,230 --> 00:28:06,559

after all this stuff and i implore

843

00:28:11,190 --> 00:28:08,240

people to go read it it's about 60 pages

844

00:28:13,510 --> 00:28:11,200

long you read it in an hour or so

845

00:28:16,310 --> 00:28:13,520

but there's a little part where lou had

846

00:28:17,750 --> 00:28:16,320

to sign with his name and the date to

847

00:28:18,789 --> 00:28:17,760

say this is the truth and the whole

848

00:28:19,590 --> 00:28:18,799

truth

849

00:28:21,110 --> 00:28:19,600

so

850

00:28:22,950 --> 00:28:21,120

and he signed it

851  
00:28:24,470 --> 00:28:22,960  
and this this is an offense punishable

852  
00:28:26,310 --> 00:28:24,480  
by law because he's submitting this as

853  
00:28:28,630 --> 00:28:26,320  
an official document i think people need

854  
00:28:30,230 --> 00:28:28,640  
to realize the weight of that as well

855  
00:28:31,990 --> 00:28:30,240  
one height thing i'd like to highlight

856  
00:28:33,669 --> 00:28:32,000  
is that

857  
00:28:35,510 --> 00:28:33,679  
if there's anyone out there listening

858  
00:28:37,669 --> 00:28:35,520  
who has access to something called jwix

859  
00:28:39,110 --> 00:28:37,679  
which is kind of a shared drive in in

860  
00:28:41,110 --> 00:28:39,120  
secure space

861  
00:28:42,870 --> 00:28:41,120  
take a look for something called the y

862  
00:28:45,350 --> 00:28:42,880  
project it's letter y and then just

863  
00:28:48,470 --> 00:28:45,360

project according to the complaint that

864

00:28:51,430 --> 00:28:48,480

is where the atip files were so you'd

865

00:28:53,350 --> 00:28:51,440

see things like the the ufo videos that

866

00:28:55,190 --> 00:28:53,360

alluded to and things like that i know

867

00:28:56,389 --> 00:28:55,200

you can't tell us whether you know you

868

00:28:58,630 --> 00:28:56,399

see this stuff or not but just go look

869

00:29:00,310 --> 00:28:58,640

for yourself if you can

870

00:29:02,149 --> 00:29:00,320

no there's not much more to be said

871

00:29:04,470 --> 00:29:02,159

about it because it's an active

872

00:29:06,710 --> 00:29:04,480

complaint and we're now just waiting on

873

00:29:09,590 --> 00:29:06,720

the resolution of said complaint

874

00:29:11,029 --> 00:29:09,600

but one thing that as in the background

875

00:29:14,549 --> 00:29:11,039

and more and more people are starting to

876

00:29:15,990 --> 00:29:14,559

discuss online is that lou has his book

877

00:29:18,310 --> 00:29:16,000

which we're still not sure if it's going

878

00:29:19,750 --> 00:29:18,320

to be this year or next year we know the

879

00:29:21,510 --> 00:29:19,760

book itself goes through a vetting

880

00:29:24,389 --> 00:29:21,520

process much like skin walkers at the

881

00:29:26,710 --> 00:29:24,399

pentagon does that can take weeks months

882

00:29:28,389 --> 00:29:26,720

or or you know it could take years

883

00:29:29,830 --> 00:29:28,399

there's no real time scale with it

884

00:29:33,190 --> 00:29:29,840

because they could send it back and say

885

00:29:36,149 --> 00:29:33,200

change this etc um

886

00:29:38,630 --> 00:29:36,159

how do you think lou's book ties in with

887

00:29:41,110 --> 00:29:38,640

the the complaint in the background

888

00:29:41,990 --> 00:29:41,120

do you think that

889

00:29:43,909 --> 00:29:42,000

lou

890

00:29:45,590 --> 00:29:43,919

is going to be vindicated with what he

891

00:29:47,669 --> 00:29:45,600

puts in the book

892

00:29:49,110 --> 00:29:47,679

or do you think that in terms of the

893

00:29:51,350 --> 00:29:49,120

because i asked colm the question out

894

00:29:52,870 --> 00:29:51,360

right that can someone who writes one of

895

00:29:55,350 --> 00:29:52,880

these books

896

00:29:57,029 --> 00:29:55,360

lie in the book and colm said well

897

00:29:59,269 --> 00:29:57,039

technically yes

898

00:30:00,710 --> 00:29:59,279

if it's not something that and i'm not

899

00:30:02,549 --> 00:30:00,720

saying lou would be lying but just to

900

00:30:03,909 --> 00:30:02,559

clear that up people keep thinking that

901  
00:30:05,510 --> 00:30:03,919  
well whatever loop it's in the book will

902  
00:30:07,590 --> 00:30:05,520  
be truth and i would i would believe

903  
00:30:09,029 --> 00:30:07,600  
that as well okay fanboyish or whatever

904  
00:30:11,350 --> 00:30:09,039  
you think then you know he's writing the

905  
00:30:14,070 --> 00:30:11,360  
book you have to take it at face values

906  
00:30:16,070 --> 00:30:14,080  
yeah shameless but i asked holm that you

907  
00:30:17,750 --> 00:30:16,080  
know could someone put you know

908  
00:30:19,669 --> 00:30:17,760  
something that was false in there and it

909  
00:30:21,669 --> 00:30:19,679  
would get through the vetting process

910  
00:30:23,350 --> 00:30:21,679  
and he made the point well yeah because

911  
00:30:25,350 --> 00:30:23,360  
you don't necessarily know who's vetting

912  
00:30:27,269 --> 00:30:25,360  
it it could be a couple of people

913  
00:30:28,870 --> 00:30:27,279

someone convert it go away then someone

914

00:30:30,950 --> 00:30:28,880

else comes in and during that time and

915

00:30:32,870 --> 00:30:30,960

they start vetting parts of it and you

916

00:30:34,630 --> 00:30:32,880

don't know what they know to be true or

917

00:30:36,310 --> 00:30:34,640

false depending on what what is in the

918

00:30:38,470 --> 00:30:36,320

book so there's a whole lot of things

919

00:30:40,710 --> 00:30:38,480

that things could slip through the net

920

00:30:43,430 --> 00:30:40,720

but do you see this book as being a

921

00:30:46,310 --> 00:30:43,440

piece that will vindicate and

922

00:30:48,230 --> 00:30:46,320

complement the ig complaint for lou

923

00:30:49,830 --> 00:30:48,240

yeah absolutely if i if i was the

924

00:30:51,909 --> 00:30:49,840

publisher i would include this ig

925

00:30:53,430 --> 00:30:51,919

complaint with the book if i could it's

926  
00:30:54,870 --> 00:30:53,440  
a public document so chuck it in there

927  
00:30:55,830 --> 00:30:54,880  
at the back it's a good reference

928  
00:30:58,070 --> 00:30:55,840  
document

929  
00:30:59,750 --> 00:30:58,080  
not to kind of go oh is lu telling the

930  
00:31:00,710 --> 00:30:59,760  
truth or not but just to give it's a

931  
00:31:04,870 --> 00:31:00,720  
very

932  
00:31:06,310 --> 00:31:04,880  
kind of read and it still

933  
00:31:07,509 --> 00:31:06,320  
contains an incredible amount of

934  
00:31:10,389 --> 00:31:07,519  
information

935  
00:31:12,789 --> 00:31:10,399  
so if the book reflects at all what's in

936  
00:31:14,310 --> 00:31:12,799  
this ig complaint it's going to be

937  
00:31:16,149 --> 00:31:14,320  
explosive

938  
00:31:17,509 --> 00:31:16,159

and lou has alluded to on several

939

00:31:20,070 --> 00:31:17,519

interviews there's a very specific

940

00:31:21,029 --> 00:31:20,080

reason he's writing the book as well so

941

00:31:22,950 --> 00:31:21,039

i keep thinking about all these

942

00:31:24,630 --> 00:31:22,960

situations where you know he's gonna put

943

00:31:27,029 --> 00:31:24,640

someone's name in to get them to react

944

00:31:28,310 --> 00:31:27,039

or something like that and you know kind

945

00:31:29,990 --> 00:31:28,320

of canary in the coal mine type

946

00:31:31,430 --> 00:31:30,000

situation it's it's gonna be a real

947

00:31:32,789 --> 00:31:31,440

interesting time when that comes out

948

00:31:34,549 --> 00:31:32,799

because

949

00:31:36,389 --> 00:31:34,559

he's going to be given a lot of context

950

00:31:37,669 --> 00:31:36,399

and will finally kind of we've heard a

951  
00:31:39,029 --> 00:31:37,679  
little bit of his background what he

952  
00:31:40,789 --> 00:31:39,039  
might have done in afghanistan and

953  
00:31:43,430 --> 00:31:40,799  
things like that

954  
00:31:45,350 --> 00:31:43,440  
but we're gonna here it's always

955  
00:31:46,870 --> 00:31:45,360  
prose is always better you know the the

956  
00:31:48,630 --> 00:31:46,880  
book's always better than the film kind

957  
00:31:50,630 --> 00:31:48,640  
of thing in some cases but you know what

958  
00:31:52,230 --> 00:31:50,640  
i mean it's just more extensive we'll be

959  
00:31:53,350 --> 00:31:52,240  
able to hear lou's thoughts on things

960  
00:31:55,029 --> 00:31:53,360  
that happened

961  
00:31:57,509 --> 00:31:55,039  
everything about his relationship with

962  
00:32:01,350 --> 00:31:57,519  
jay stratton or axelrod as we've now

963  
00:32:02,870 --> 00:32:01,360

found out uh to you know 99.9

964

00:32:04,310 --> 00:32:02,880

we're going to get a lot more detail and

965

00:32:06,789 --> 00:32:04,320

events that we know and a lot more

966

00:32:09,269 --> 00:32:06,799

context around all of these events so i

967

00:32:12,789 --> 00:32:09,279

i think it's going to be explosive and

968

00:32:14,230 --> 00:32:12,799

that it's designed to make someone react

969

00:32:15,830 --> 00:32:14,240

if you had to put a bet on it because

970

00:32:17,590 --> 00:32:15,840

people are asking online do you see it

971

00:32:18,310 --> 00:32:17,600

being this year or next year for the

972

00:32:21,190 --> 00:32:18,320

book

973

00:32:22,470 --> 00:32:21,200

next year me too yeah yeah i can't see

974

00:32:24,789 --> 00:32:22,480

it although christmas release would be

975

00:32:26,549 --> 00:32:24,799

lovely um there's a whole secret santa's

976  
00:32:28,389 --> 00:32:26,559  
done for them

977  
00:32:31,350 --> 00:32:28,399  
he delivered oh speaking of

978  
00:32:34,230 --> 00:32:31,360  
interdimensional dan good segway uh tom

979  
00:32:36,870 --> 00:32:34,240  
delong appeared on stevo's podcast uh

980  
00:32:39,590 --> 00:32:36,880  
stevo of jackass fame as many people

981  
00:32:41,269 --> 00:32:39,600  
will know him um we had his demons in

982  
00:32:43,430 --> 00:32:41,279  
the past but certainly turned his life

983  
00:32:45,509 --> 00:32:43,440  
right around and uh i didn't actually

984  
00:32:48,470 --> 00:32:45,519  
know he had a podcast although every big

985  
00:32:50,070 --> 00:32:48,480  
celebrity does now um tom delong

986  
00:32:52,470 --> 00:32:50,080  
and stevo being

987  
00:32:54,070 --> 00:32:52,480  
acquaintances chums mates as no surprise

988  
00:32:56,549 --> 00:32:54,080

given their backgrounds and the time

989

00:32:58,470 --> 00:32:56,559

they both became famous

990

00:33:00,149 --> 00:32:58,480

blink when it too jackass of course they

991

00:33:02,310 --> 00:33:00,159

met and you know had you know

992

00:33:04,310 --> 00:33:02,320

affiliations um

993

00:33:07,350 --> 00:33:04,320

they talked about ufos quite extensively

994

00:33:09,269 --> 00:33:07,360

on the podcast and stevo is decent with

995

00:33:11,350 --> 00:33:09,279

his conversations very laid back very

996

00:33:12,950 --> 00:33:11,360

open and i don't think there was

997

00:33:14,630 --> 00:33:12,960

anything on there

998

00:33:15,830 --> 00:33:14,640

revelatory again i'll use that word

999

00:33:18,549 --> 00:33:15,840

because you've told me how to pronounce

1000

00:33:20,710 --> 00:33:18,559

it properly but i think i hope it's

1001

00:33:22,950 --> 00:33:20,720

wrong for both of us now

1002

00:33:23,750 --> 00:33:22,960

there's nothing particularly revealing

1003

00:33:25,269 --> 00:33:23,760

um

1004

00:33:27,990 --> 00:33:25,279

but i think if it's been a while since

1005

00:33:29,430 --> 00:33:28,000

you heard tom delong speak on ufos or

1006

00:33:31,509 --> 00:33:29,440

you've not heard anything and looking

1007

00:33:33,669 --> 00:33:31,519

for where to start it's probably not a

1008

00:33:35,750 --> 00:33:33,679

bad interview to jump into yeah because

1009

00:33:39,190 --> 00:33:35,760

he covers very much the same points he's

1010

00:33:40,470 --> 00:33:39,200

made in the past um again to run through

1011

00:33:42,070 --> 00:33:40,480

them without there's not a whole lot of

1012

00:33:43,350 --> 00:33:42,080

detail we can necessarily go into

1013

00:33:45,590 --> 00:33:43,360

because it's things we've discussed in

1014

00:33:48,389 --> 00:33:45,600

the past but you know time is parallel

1015

00:33:50,149 --> 00:33:48,399

not linear um they're not coming from

1016

00:33:51,669 --> 00:33:50,159

far away is kind of where he starts and

1017

00:33:53,110 --> 00:33:51,679

that's something he says more and more

1018

00:33:56,070 --> 00:33:53,120

as in they're not coming from other

1019

00:33:58,630 --> 00:33:56,080

planets or galaxies um and i think what

1020

00:33:59,990 --> 00:33:58,640

the producer or the co-host says or so

1021

00:34:01,990 --> 00:34:00,000

they're interdimensional and he says

1022

00:34:04,230 --> 00:34:02,000

yeah that that's it they're coming from

1023

00:34:07,909 --> 00:34:04,240

a different reality um or you know a

1024

00:34:10,149 --> 00:34:07,919

time parallel to others he uses the

1025

00:34:12,389 --> 00:34:10,159

analogy of or he says that imagine a

1026  
00:34:14,310 --> 00:34:12,399  
technological civilization at the end of

1027  
00:34:15,909 --> 00:34:14,320  
the technological cycle

1028  
00:34:17,270 --> 00:34:15,919  
whatever he means by that he says

1029  
00:34:19,510 --> 00:34:17,280  
imagine they could invent like a

1030  
00:34:22,950 --> 00:34:19,520  
submarine that could change its voltage

1031  
00:34:25,669 --> 00:34:22,960  
as is wording and materialize in our

1032  
00:34:26,869 --> 00:34:25,679  
reality that could be what we are seeing

1033  
00:34:28,389 --> 00:34:26,879  
um

1034  
00:34:30,069 --> 00:34:28,399  
i thought it was the philadelphia

1035  
00:34:31,109 --> 00:34:30,079  
experiment when he said that was you

1036  
00:34:34,149 --> 00:34:31,119  
know

1037  
00:34:35,750 --> 00:34:34,159  
yeah not the tom hanks movie

1038  
00:34:37,349 --> 00:34:35,760

i used to always get those confused it

1039

00:34:38,950 --> 00:34:37,359

was really as a child growing up when

1040

00:34:41,030 --> 00:34:38,960

you hear of the philadelphia experiment

1041

00:34:43,430 --> 00:34:41,040

and then philadelphia with tom hanks and

1042

00:34:44,950 --> 00:34:43,440

denzel washington um yeah it's two

1043

00:34:47,270 --> 00:34:44,960

strange movies to mix up because they're

1044

00:34:49,909 --> 00:34:47,280

very very different

1045

00:34:53,270 --> 00:34:49,919

yeah good double feature um i digress

1046

00:34:55,430 --> 00:34:53,280

but yeah so tom very much wading in that

1047

00:34:56,470 --> 00:34:55,440

these aren't coming from other planets

1048

00:34:58,710 --> 00:34:56,480

um

1049

00:35:01,270 --> 00:34:58,720

i find that really interesting that he

1050

00:35:03,829 --> 00:35:01,280

he seems to stay away in conversations

1051  
00:35:05,349 --> 00:35:03,839  
now completely from talking about beings

1052  
00:35:07,589 --> 00:35:05,359  
traveling great distances in the

1053  
00:35:09,829 --> 00:35:07,599  
universe whereas you still have folks

1054  
00:35:10,990 --> 00:35:09,839  
like like chris mellon

1055  
00:35:12,710 --> 00:35:11,000  
who very much talk about

1056  
00:35:15,829 --> 00:35:12,720  
extraterrestrials

1057  
00:35:17,430 --> 00:35:15,839  
and yeah that hypothesis and

1058  
00:35:19,430 --> 00:35:17,440  
people come at it from different angles

1059  
00:35:20,790 --> 00:35:19,440  
that you would tend to think given the

1060  
00:35:23,349 --> 00:35:20,800  
relationship they've had in those

1061  
00:35:25,430 --> 00:35:23,359  
discussions well they'll all have a very

1062  
00:35:28,069 --> 00:35:25,440  
similar idea of what's happening yet

1063  
00:35:29,910 --> 00:35:28,079

they all seem to have different

1064

00:35:31,510 --> 00:35:29,920

end games or comes in terms of their

1065

00:35:32,790 --> 00:35:31,520

conversation and what they think might

1066

00:35:34,870 --> 00:35:32,800

be going on

1067

00:35:36,310 --> 00:35:34,880

let me ask you dan i want to to discuss

1068

00:35:39,109 --> 00:35:36,320

this because we know we've talked about

1069

00:35:40,710 --> 00:35:39,119

it before tom delong and his his idea

1070

00:35:42,390 --> 00:35:40,720

that these are interdimensional given

1071

00:35:45,190 --> 00:35:42,400

what he's heard learned and the people

1072

00:35:47,270 --> 00:35:45,200

he's spoken to would you be disappointed

1073

00:35:49,190 --> 00:35:47,280

to find out you know capital d

1074

00:35:51,670 --> 00:35:49,200

disclosure happens tomorrow

1075

00:35:53,589 --> 00:35:51,680

uh that there isn't an aspect of other

1076

00:35:55,990 --> 00:35:53,599

stuff coming from from other planets and

1077

00:35:57,750 --> 00:35:56,000

galaxies you know if if we have the the

1078

00:35:59,270 --> 00:35:57,760

white house lawn conversation and the

1079

00:36:01,349 --> 00:35:59,280

world leaders come out and say you know

1080

00:36:04,150 --> 00:36:01,359

what yes there are non-human

1081

00:36:06,150 --> 00:36:04,160

intelligences controlling craft they're

1082

00:36:08,150 --> 00:36:06,160

coming here um but there's nothing

1083

00:36:09,750 --> 00:36:08,160

there's literally no evidence of other

1084

00:36:12,150 --> 00:36:09,760

planets being involved they're coming

1085

00:36:13,510 --> 00:36:12,160

from a different or a parallel timeline

1086

00:36:15,190 --> 00:36:13,520

would there be an element of that that

1087

00:36:17,430 --> 00:36:15,200

would disappoint you

1088

00:36:19,430 --> 00:36:17,440

a little bit only because of the way you

1089

00:36:21,190 --> 00:36:19,440

know i grew up gazing at the stars and

1090

00:36:22,470 --> 00:36:21,200

that's how the x-files was sold and

1091

00:36:25,910 --> 00:36:22,480

that's that's the idea i was

1092

00:36:27,510 --> 00:36:25,920

acclimatized to but at the same time and

1093

00:36:29,030 --> 00:36:27,520

stevo and tom talk about it during this

1094

00:36:30,870 --> 00:36:29,040

interview

1095

00:36:33,190 --> 00:36:30,880

it is almost like that's easier and less

1096

00:36:35,990 --> 00:36:33,200

scary to accept because the alternative

1097

00:36:38,069 --> 00:36:36,000

is is that our locks on our doors don't

1098

00:36:40,310 --> 00:36:38,079

work anymore our windows don't keep us

1099

00:36:41,430 --> 00:36:40,320

safe our houses you know they're they're

1100

00:36:44,069 --> 00:36:41,440

just

1101

00:36:46,390 --> 00:36:44,079

penetrable by by others that could be

1102

00:36:49,190 --> 00:36:46,400

watching us at all times and they they

1103

00:36:51,430 --> 00:36:49,200

have someone conversations in here about

1104

00:36:53,430 --> 00:36:51,440

uh fear feeding these other entities our

1105

00:36:55,430 --> 00:36:53,440

emotions be being able to yeah

1106

00:36:57,349 --> 00:36:55,440

essentially be a source of nourishment

1107

00:36:59,349 --> 00:36:57,359

for these and tom goes into a few

1108

00:37:02,710 --> 00:36:59,359

examples but

1109

00:37:04,470 --> 00:37:02,720

they they get a little scary and

1110

00:37:06,870 --> 00:37:04,480

when talking about misinformation tom

1111

00:37:08,790 --> 00:37:06,880

says the why of it could be that

1112

00:37:10,390 --> 00:37:08,800

people feel safe when they think that

1113

00:37:13,270 --> 00:37:10,400

this thing is super far away and it's a

1114

00:37:14,790 --> 00:37:13,280

big effort for them to get here so yeah

1115

00:37:16,710 --> 00:37:14,800

whilst disappointment

1116

00:37:18,230 --> 00:37:16,720

would be a part of it i actually think

1117

00:37:21,270 --> 00:37:18,240

it would make me a little more nervous

1118

00:37:22,870 --> 00:37:21,280

to have it confirmed that yeah my my

1119

00:37:24,390 --> 00:37:22,880

eyes don't necessarily work and show me

1120

00:37:26,230 --> 00:37:24,400

everything that's around

1121

00:37:27,990 --> 00:37:26,240

yeah it talks about the idea that you

1122

00:37:30,390 --> 00:37:28,000

know by creating our own reality through

1123

00:37:31,910 --> 00:37:30,400

our thoughts and feelings and you know

1124

00:37:33,510 --> 00:37:31,920

almost a little bit of you know people

1125

00:37:35,190 --> 00:37:33,520

say you create your own luck well maybe

1126

00:37:37,109 --> 00:37:35,200

you literally create what happens to you

1127

00:37:39,750 --> 00:37:37,119

by putting that out there he says once

1128

00:37:41,990 --> 00:37:39,760

you manifest an idea of something

1129

00:37:44,310 --> 00:37:42,000

that it goes out there it can happen in

1130

00:37:46,230 --> 00:37:44,320

different ways shapes and forms he uses

1131

00:37:48,550 --> 00:37:46,240

the example of you know a book moving on

1132

00:37:50,310 --> 00:37:48,560

a shelf if you see a book moving and you

1133

00:37:51,270 --> 00:37:50,320

think you see it move then you're like

1134

00:37:53,270 --> 00:37:51,280

huh

1135

00:37:55,270 --> 00:37:53,280

but if you see a book moving and it

1136

00:37:56,950 --> 00:37:55,280

really scares you and frightens you that

1137

00:37:58,550 --> 00:37:56,960

emotion manifests itself in a way that

1138

00:38:00,390 --> 00:37:58,560

that book will fly off the shelf and hit

1139

00:38:02,470 --> 00:38:00,400

you and then are you starting to think

1140

00:38:04,550 --> 00:38:02,480

about oh poltergeist activity is that

1141

00:38:07,750 --> 00:38:04,560

where that comes from and it's there's a

1142

00:38:09,349 --> 00:38:07,760

part of you manifesting that event

1143

00:38:11,109 --> 00:38:09,359

because you're connecting with something

1144

00:38:12,790 --> 00:38:11,119

else that you know thinking about the

1145

00:38:14,230 --> 00:38:12,800

way i can i thought of it was old

1146

00:38:16,069 --> 00:38:14,240

switchboards on phones you know when you

1147

00:38:18,150 --> 00:38:16,079

call the operator and they plug you in

1148

00:38:19,589 --> 00:38:18,160

and depending how you feel you're where

1149

00:38:21,750 --> 00:38:19,599

you're at in that moment in time and

1150

00:38:24,950 --> 00:38:21,760

your thoughts and experiences that you

1151

00:38:27,270 --> 00:38:24,960

get plugged into a channel and

1152

00:38:29,829 --> 00:38:27,280

there's a reaction and that book flying

1153

00:38:32,710 --> 00:38:29,839

off at you are not flying off at you and

1154

00:38:34,230 --> 00:38:32,720

even going down a really were a strange

1155

00:38:36,710 --> 00:38:34,240

rate of you know people having like

1156

00:38:37,990 --> 00:38:36,720

psychic powers or like telekinesis or

1157

00:38:40,310 --> 00:38:38,000

being able to move things with their

1158

00:38:41,670 --> 00:38:40,320

mind is that when you start tapping into

1159

00:38:43,270 --> 00:38:41,680

that kind of stuff because you're you're

1160

00:38:45,270 --> 00:38:43,280

willing it to happen

1161

00:38:47,910 --> 00:38:45,280

well it comes up or it's come up with

1162

00:38:50,150 --> 00:38:47,920

ce5 some people think that the lights in

1163

00:38:52,310 --> 00:38:50,160

the sky that people do in ce5

1164

00:38:54,390 --> 00:38:52,320

actually come from kind of raw i guess

1165

00:38:56,310 --> 00:38:54,400

psychic powers but the way that we speak

1166

00:38:57,990 --> 00:38:56,320

about them is interesting we don't

1167

00:38:59,750 --> 00:38:58,000

have the language to talk about these

1168

00:39:00,870 --> 00:38:59,760

things when you were saying that about

1169

00:39:02,790 --> 00:39:00,880

you know you could plug into a different

1170

00:39:04,550 --> 00:39:02,800

switchboard and suddenly you know the

1171

00:39:06,470 --> 00:39:04,560

the reality where you wanted to be a

1172

00:39:07,910 --> 00:39:06,480

rock star is what you're in people talk

1173

00:39:09,750 --> 00:39:07,920

about timeline jumping and things like

1174

00:39:12,069 --> 00:39:09,760

that and the language makes it just

1175

00:39:14,790 --> 00:39:12,079

sound crazy but the way that tom's just

1176

00:39:16,950 --> 00:39:14,800

explain it is a bit more it's a bit more

1177

00:39:18,390 --> 00:39:16,960

sciencey and palatable yeah absolutely

1178

00:39:19,829 --> 00:39:18,400

it's the way that you communicate in the

1179

00:39:21,829 --> 00:39:19,839

idea if i say to you i can jump

1180

00:39:23,829 --> 00:39:21,839

timelines that sounds nuts because it's

1181

00:39:26,470 --> 00:39:23,839

been in sci-fi and everything like that

1182

00:39:29,589 --> 00:39:26,480

whereas if it's more of yeah you you

1183

00:39:31,510 --> 00:39:29,599

create your own block that's that sounds

1184

00:39:33,349 --> 00:39:31,520

better you know it sounds like

1185

00:39:36,069 --> 00:39:33,359

i can do work to affect that as opposed

1186

00:39:38,230 --> 00:39:36,079

to it just being this sci-fi magic

1187

00:39:40,150 --> 00:39:38,240

um on that he mentions that you know

1188

00:39:41,430 --> 00:39:40,160

monsters in california has been made and

1189

00:39:43,430 --> 00:39:41,440

we've talked about what we're both

1190

00:39:45,589 --> 00:39:43,440

looking forward to that coming out i'm

1191

00:39:48,390 --> 00:39:45,599

really interested to see how tom delong

1192

00:39:50,230 --> 00:39:48,400

puts these themes all together in one

1193

00:39:51,190 --> 00:39:50,240

movie that we know we're going to get

1194

00:39:53,109 --> 00:39:51,200

that

1195

00:39:55,030 --> 00:39:53,119

tdl humor

1196

00:39:56,870 --> 00:39:55,040

and that can a little bit of slapstick

1197

00:39:58,390 --> 00:39:56,880

immaturity at times we've seen that from

1198

00:40:00,470 --> 00:39:58,400

the trailer as well

1199

00:40:01,589 --> 00:40:00,480

but do you think tom

1200

00:40:03,270 --> 00:40:01,599

can

1201

00:40:05,510 --> 00:40:03,280

i turned along like i know the guy

1202

00:40:07,990 --> 00:40:05,520

that's tommed along mistered along

1203

00:40:10,390 --> 00:40:08,000

mr d through

1204

00:40:12,470 --> 00:40:10,400

monsters in california or other media

1205

00:40:14,630 --> 00:40:12,480

vehicles like this

1206

00:40:16,230 --> 00:40:14,640

can add to these theories do you think

1207

00:40:17,990 --> 00:40:16,240

he's going to success successfully put

1208

00:40:19,430 --> 00:40:18,000

out a vehicle that

1209

00:40:21,589 --> 00:40:19,440

not the general public who watch it

1210

00:40:24,150 --> 00:40:21,599

because i think there'll be a limited

1211

00:40:26,470 --> 00:40:24,160

audience for this film from the general

1212

00:40:29,109 --> 00:40:26,480

public i think it's going to be people

1213

00:40:30,950 --> 00:40:29,119

like me you the people listening to this

1214

00:40:32,790 --> 00:40:30,960

are watching this who are going to pick

1215

00:40:34,710 --> 00:40:32,800

it up and also angels and airwaves blink

1216

00:40:36,950 --> 00:40:34,720

one it to her fans and stuff like that

1217

00:40:39,829 --> 00:40:36,960

and hello to all the box car racer fans

1218

00:40:41,430 --> 00:40:39,839

out there um is it good those folks but

1219

00:40:43,430 --> 00:40:41,440

are we going to see something in this

1220

00:40:45,030 --> 00:40:43,440

and go ah that's interesting now he's

1221

00:40:46,550 --> 00:40:45,040

not said that before

1222

00:40:47,990 --> 00:40:46,560

or is it going to be a presentation of

1223

00:40:50,390 --> 00:40:48,000

all this stuff he's talked about in a

1224

00:40:52,309 --> 00:40:50,400

way we go oh yeah he said that

1225

00:40:53,510 --> 00:40:52,319

yeah i think it's the second one more

1226

00:40:55,190 --> 00:40:53,520

than anything i don't think it's gonna

1227

00:40:56,309 --> 00:40:55,200

have anything crazy new in it but then

1228

00:40:57,349 --> 00:40:56,319

again

1229

00:40:59,109 --> 00:40:57,359

i'm always meeting people in the

1230

00:41:00,470 --> 00:40:59,119

community who you know they haven't had

1231

00:41:02,630 --> 00:41:00,480

the time to sit down and read the secret

1232

00:41:04,230 --> 00:41:02,640

machines books for example so that's

1233

00:41:06,390 --> 00:41:04,240

meant to be truth mixed with fiction so

1234

00:41:08,150 --> 00:41:06,400

there's a lot of ideas in there that

1235

00:41:10,550 --> 00:41:08,160

whilst you know we might talk about them

1236

00:41:12,470 --> 00:41:10,560

in really general terms it kind of goes

1237

00:41:15,190 --> 00:41:12,480

in depth with you know the archaeology

1238

00:41:16,630 --> 00:41:15,200

aspect of things and the itching and the

1239

00:41:18,230 --> 00:41:16,640

way that the universe reflects the

1240

00:41:21,349 --> 00:41:18,240

effort that you put into it and you can

1241

00:41:23,670 --> 00:41:21,359

make it react you know um so yeah i

1242

00:41:25,430 --> 00:41:23,680

don't think it's gonna

1243

00:41:27,910 --> 00:41:25,440

necessarily set the ufo community on

1244

00:41:29,750 --> 00:41:27,920

fire but it just might it's an easier

1245

00:41:31,910 --> 00:41:29,760

way to get everybody up to speed and on

1246

00:41:33,510 --> 00:41:31,920

the same page i think you know an hour

1247

00:41:34,950 --> 00:41:33,520

and a half movie is a lot easier than

1248

00:41:36,390 --> 00:41:34,960

asking someone to read a book for 20

1249

00:41:39,430 --> 00:41:36,400

hours but one might lead to the other

1250

00:41:41,510 --> 00:41:39,440

right and and then the secret machines

1251  
00:41:43,270 --> 00:41:41,520  
series is being developed currently by

1252  
00:41:44,630 --> 00:41:43,280  
legendary pictures who did things like

1253  
00:41:47,589 --> 00:41:44,640  
interstellar and things like that so

1254  
00:41:50,069 --> 00:41:47,599  
they used to super lofty uh ideas that

1255  
00:41:51,829 --> 00:41:50,079  
you know usually permeates sci-fi and

1256  
00:41:54,069 --> 00:41:51,839  
again a hat tip to marvel as well

1257  
00:41:55,510 --> 00:41:54,079  
because they seem to be inadvertently

1258  
00:41:57,829 --> 00:41:55,520  
spreading a lot of the ideas that are

1259  
00:42:01,270 --> 00:41:57,839  
present in kind of the ufo subject in

1260  
00:42:02,870 --> 00:42:01,280  
the areas um like dreamwalkers there's

1261  
00:42:04,230 --> 00:42:02,880  
literally an angels and airwaves album

1262  
00:42:06,230 --> 00:42:04,240  
called dreamwalker that's all about that

1263  
00:42:09,270 --> 00:42:06,240

and a short film that goes along with it

1264

00:42:11,510 --> 00:42:09,280

so yeah i certainly think that movies

1265

00:42:12,870 --> 00:42:11,520

and tv is a great way to get these ideas

1266

00:42:14,790 --> 00:42:12,880

out there close encounters of the third

1267

00:42:15,829 --> 00:42:14,800

kind we look back on now and realize wow

1268

00:42:17,910 --> 00:42:15,839

that was

1269

00:42:19,589 --> 00:42:17,920

effective but how many more people saw

1270

00:42:21,109 --> 00:42:19,599

batteries not included but didn't

1271

00:42:22,950 --> 00:42:21,119

necessarily think of it in that way and

1272

00:42:25,109 --> 00:42:22,960

now they get to reframe it and think

1273

00:42:28,870 --> 00:42:25,119

okay that's an autonomous ai coming to

1274

00:42:31,510 --> 00:42:28,880

our planet to help us that's a very

1275

00:42:33,270 --> 00:42:31,520

cool way to depict that idea

1276

00:42:34,710 --> 00:42:33,280

do you know what could be quite cool as

1277

00:42:36,390 --> 00:42:34,720

and this is i've not even got this noted

1278

00:42:38,470 --> 00:42:36,400

down but um

1279

00:42:40,790 --> 00:42:38,480

if if we could get like close encounters

1280

00:42:42,470 --> 00:42:40,800

to the third kind remake and i'm not

1281

00:42:44,630 --> 00:42:42,480

usually a big one for remaking classic

1282

00:42:47,190 --> 00:42:44,640

films at all but that could be an

1283

00:42:49,430 --> 00:42:47,200

interesting one to reimagine now

1284

00:42:50,550 --> 00:42:49,440

i like the word reimagine as opposed to

1285

00:42:52,230 --> 00:42:50,560

remake

1286

00:42:54,150 --> 00:42:52,240

yeah i felt a bit dirty when you said

1287

00:42:55,510 --> 00:42:54,160

that yeah yeah you don't just remake it

1288

00:42:57,589 --> 00:42:55,520

but you reimagine it and update it a

1289

00:42:58,950 --> 00:42:57,599

little bit and you know

1290

00:43:00,550 --> 00:42:58,960

could someone like tom delonge get

1291

00:43:02,550 --> 00:43:00,560

involved in a project like that you know

1292

00:43:04,950 --> 00:43:02,560

buy the rights and

1293

00:43:06,870 --> 00:43:04,960

yeah who knows could be interesting

1294

00:43:08,470 --> 00:43:06,880

maybe that's his idea and we've got nope

1295

00:43:09,349 --> 00:43:08,480

coming out soon the jordan peel movie as

1296

00:43:11,349 --> 00:43:09,359

well

1297

00:43:13,030 --> 00:43:11,359

that is very much a ufo movie and

1298

00:43:14,150 --> 00:43:13,040

there's a theme park aspect to that too

1299

00:43:15,270 --> 00:43:14,160

they're leaving the set there so you can

1300

00:43:16,870 --> 00:43:15,280

go visit the theme park and they're

1301  
00:43:18,790 --> 00:43:16,880  
bound to have a nighttime show there or

1302  
00:43:21,109 --> 00:43:18,800  
something and yeah i want to go and see

1303  
00:43:22,870 --> 00:43:21,119  
one of the ufos so listen slight aside

1304  
00:43:25,510 --> 00:43:22,880  
on that which is i think a positive for

1305  
00:43:27,109 --> 00:43:25,520  
for nope for anyone who's not heard or

1306  
00:43:29,510 --> 00:43:27,119  
seen the the trailers available now it

1307  
00:43:31,430 --> 00:43:29,520  
comes out in the uk on the 22nd of july

1308  
00:43:33,750 --> 00:43:31,440  
and i went to see thor in the cinema

1309  
00:43:36,390 --> 00:43:33,760  
today and behind me and the role behind

1310  
00:43:37,990 --> 00:43:36,400  
me were a couple of kind of older geeks

1311  
00:43:39,589 --> 00:43:38,000  
um who were commenting all the way

1312  
00:43:41,349 --> 00:43:39,599  
through the trailers and the adverts and

1313  
00:43:43,430 --> 00:43:41,359

stuff like that and one of those guys

1314

00:43:45,910 --> 00:43:43,440

was there who nothing impressed them and

1315

00:43:47,510 --> 00:43:45,920

everything was like beneath them and uh

1316

00:43:50,150 --> 00:43:47,520

funnily enough when all the trailers

1317

00:43:51,270 --> 00:43:50,160

were on the one he reacted to positively

1318

00:43:53,349 --> 00:43:51,280

like i see i was literally right in

1319

00:43:55,030 --> 00:43:53,359

front of him it was nope because the

1320

00:43:57,270 --> 00:43:55,040

trailer came on and it's got those kind

1321

00:43:58,870 --> 00:43:57,280

of quick flashes that hides it didn't

1322

00:44:01,190 --> 00:43:58,880

have the picture of the ufo that some of

1323

00:44:02,550 --> 00:44:01,200

the trailers have yeah but

1324

00:44:04,710 --> 00:44:02,560

you see the person getting sucked up

1325

00:44:06,790 --> 00:44:04,720

into the sky and the horror aspect of it

1326  
00:44:09,270 --> 00:44:06,800  
and the nope and big you know white and

1327  
00:44:10,950 --> 00:44:09,280  
black lettering and he just went huh

1328  
00:44:13,510 --> 00:44:10,960  
that looks quite interesting actually so

1329  
00:44:15,030 --> 00:44:13,520  
i was like ah so if you've got a trailer

1330  
00:44:16,309 --> 00:44:15,040  
which is meant to grab an audience and

1331  
00:44:17,670 --> 00:44:16,319  
not ruin the film and show you

1332  
00:44:19,829 --> 00:44:17,680  
everything that's in it which too many

1333  
00:44:21,270 --> 00:44:19,839  
trailers do these days yeah i thought it

1334  
00:44:22,870 --> 00:44:21,280  
was quite interesting to your member of

1335  
00:44:24,790 --> 00:44:22,880  
the general public behind me and i

1336  
00:44:27,510 --> 00:44:24,800  
really wanted her to turn around and say

1337  
00:44:29,910 --> 00:44:27,520  
it's a ufo movie but yeah

1338  
00:44:32,069 --> 00:44:29,920

but to hear him say oh yeah that looks

1339

00:44:34,069 --> 00:44:32,079

interesting oh well i think that is a

1340

00:44:35,910 --> 00:44:34,079

trailer doing its job because you've got

1341

00:44:38,230 --> 00:44:35,920

a guy sitting there who is quite

1342

00:44:39,910 --> 00:44:38,240

critical of life by the sounds of it he

1343

00:44:41,270 --> 00:44:39,920

wasn't happy with banking adverts that

1344

00:44:43,030 --> 00:44:41,280

were being played

1345

00:44:44,870 --> 00:44:43,040

he sees a movie that i know is going to

1346

00:44:46,870 --> 00:44:44,880

be about ufos and he was like oh that

1347

00:44:49,430 --> 00:44:46,880

looks interesting so yeah and well done

1348

00:44:50,710 --> 00:44:49,440

to jordan peepe and the makers of that

1349

00:44:51,910 --> 00:44:50,720

because at least the trailer has done

1350

00:44:53,910 --> 00:44:51,920

its job and i think that guy's going to

1351  
00:44:55,670 --> 00:44:53,920  
go and pay to see that yeah absolutely

1352  
00:44:58,069 --> 00:44:55,680  
and then he'll watch the film and kind

1353  
00:44:59,990 --> 00:44:58,079  
of probably go from that to researching

1354  
00:45:01,270 --> 00:45:00,000  
the ufo subject and now when he types

1355  
00:45:03,190 --> 00:45:01,280  
his ufo into google it's going to

1356  
00:45:05,349 --> 00:45:03,200  
correct him to uap and he'll be seeing

1357  
00:45:07,030 --> 00:45:05,359  
the navy tic tac video and hearing ryan

1358  
00:45:08,710 --> 00:45:07,040  
graves and alex dietrich talk about like

1359  
00:45:10,470 --> 00:45:08,720  
that's a that's a really cool kind of

1360  
00:45:12,950 --> 00:45:10,480  
set of dominoes to make fall for someone

1361  
00:45:14,390 --> 00:45:12,960  
and it's it's a lot smoother than it

1362  
00:45:16,550 --> 00:45:14,400  
used to be a couple of years ago right

1363  
00:45:18,230 --> 00:45:16,560

yeah a couple years ago like pre-youtube

1364

00:45:19,990 --> 00:45:18,240

pre yeah you know when you had to go to

1365

00:45:21,430 --> 00:45:20,000

the library to get anything about it and

1366

00:45:22,790 --> 00:45:21,440

they had pictures of

1367

00:45:25,030 --> 00:45:22,800

the the book that i mentioned in the

1368

00:45:26,230 --> 00:45:25,040

last show with i saw in blackpool that i

1369

00:45:28,470 --> 00:45:26,240

was like i haven't seen that book since

1370

00:45:30,069 --> 00:45:28,480

i was a kid on the front of it literal

1371

00:45:31,990 --> 00:45:30,079

clouds like now we know they're clouds

1372

00:45:33,589 --> 00:45:32,000

but then when that book was made they

1373

00:45:36,230 --> 00:45:33,599

didn't so it was on the front cover it's

1374

00:45:38,309 --> 00:45:36,240

a ufo photo no i would hope as part of

1375

00:45:40,550 --> 00:45:38,319

that search he types in ufo to google he

1376

00:45:42,550 --> 00:45:40,560

finds that ufo podcast and he dives into

1377

00:45:44,550 --> 00:45:42,560

the archives and listens but what he's

1378

00:45:47,510 --> 00:45:44,560

more likely to find when he types in ufo

1379

00:45:49,670 --> 00:45:47,520

podcast is lex friedman and joe rogan

1380

00:45:52,390 --> 00:45:49,680

and just to touch on that dan segway

1381

00:45:54,710 --> 00:45:52,400

yeah thanks uh just to touch on that lex

1382

00:45:57,430 --> 00:45:54,720

friedman had joe rogan on as a guest for

1383

00:45:59,430 --> 00:45:57,440

his 300th show i've not had a chance to

1384

00:46:01,109 --> 00:45:59,440

watch or listen to this one yet and

1385

00:46:02,470 --> 00:46:01,119

after this lex friedman has went to

1386

00:46:04,390 --> 00:46:02,480

ukraine and he's been out there

1387

00:46:07,109 --> 00:46:04,400

documenting a few different things given

1388

00:46:09,430 --> 00:46:07,119

what's going on um but they do discuss

1389

00:46:11,190 --> 00:46:09,440

as part of that interview um ufos now

1390

00:46:13,349 --> 00:46:11,200

dan you said to me having watched it

1391

00:46:15,910 --> 00:46:13,359

it's not necessarily bigger explosive

1392

00:46:17,829 --> 00:46:15,920

it's just a general conversation however

1393

00:46:20,470 --> 00:46:17,839

for me the big takeaway here is you've

1394

00:46:22,550 --> 00:46:20,480

got lex friedman who has hosted numerous

1395

00:46:24,630 --> 00:46:22,560

people regarding the ufo topic on his

1396

00:46:27,510 --> 00:46:24,640

podcast we know joe rogan has done the

1397

00:46:29,430 --> 00:46:27,520

same they get audiences of millions

1398

00:46:31,589 --> 00:46:29,440

on listening to each of those shows or

1399

00:46:33,430 --> 00:46:31,599

watching those shows and they've come

1400

00:46:36,069 --> 00:46:33,440

together and still found time to discuss

1401  
00:46:37,589 --> 00:46:36,079  
the ufo topic which i think's great that

1402  
00:46:40,150 --> 00:46:37,599  
that's happening and again that just

1403  
00:46:42,630 --> 00:46:40,160  
gets more eyes and ears on the subject

1404  
00:46:46,470 --> 00:46:42,640  
and the conversation particularly that

1405  
00:46:48,870 --> 00:46:46,480  
18 35 40 demo that is really important

1406  
00:46:50,309 --> 00:46:48,880  
especially in terms of voting and

1407  
00:46:52,309 --> 00:46:50,319  
politics and

1408  
00:46:54,630 --> 00:46:52,319  
getting representatives

1409  
00:46:56,470 --> 00:46:54,640  
whatever whatever country you're in

1410  
00:46:58,550 --> 00:46:56,480  
talking about the conversation and aware

1411  
00:47:00,710 --> 00:46:58,560  
of the conversation and influencing

1412  
00:47:02,069 --> 00:47:00,720  
folks to get back into the ufo topic

1413  
00:47:03,270 --> 00:47:02,079

which more and more people get in touch

1414

00:47:05,510 --> 00:47:03,280

with me and say

1415

00:47:07,030 --> 00:47:05,520

i've just got back into the topic or

1416

00:47:09,349 --> 00:47:07,040

i've not been bothered about this topic

1417

00:47:12,470 --> 00:47:09,359

since i was a kid but i heard rogan i

1418

00:47:13,750 --> 00:47:12,480

heard lex friedman i heard xyz so that's

1419

00:47:15,270 --> 00:47:13,760

really interesting that they're still

1420

00:47:17,990 --> 00:47:15,280

doing that because every time they have

1421

00:47:20,069 --> 00:47:18,000

that conversation you know like bono

1422

00:47:22,230 --> 00:47:20,079

clicking his fingers you know fairy gets

1423

00:47:23,750 --> 00:47:22,240

her wings someone gets into the ufo

1424

00:47:25,270 --> 00:47:23,760

topic so for me that's that's the big

1425

00:47:27,109 --> 00:47:25,280

positive take away from that as well

1426

00:47:28,470 --> 00:47:27,119

yeah yeah i'd agree

1427

00:47:31,190 --> 00:47:28,480

the

1428

00:47:33,190 --> 00:47:31,200

joe rogan expressed that he had you know

1429

00:47:35,430 --> 00:47:33,200

he was starting to question what he'd

1430

00:47:37,349 --> 00:47:35,440

been told about stuff but the point is

1431

00:47:39,109 --> 00:47:37,359

he's thinking about a mystery right like

1432

00:47:40,870 --> 00:47:39,119

no one has answers to this it's a

1433

00:47:42,710 --> 00:47:40,880

genuine question so if people are asking

1434

00:47:43,990 --> 00:47:42,720

questions good come on in let's get this

1435

00:47:45,670 --> 00:47:44,000

sew in

1436

00:47:48,230 --> 00:47:45,680

yeah especially some of the people that

1437

00:47:49,910 --> 00:47:48,240

we want to see on on joe rogan that you

1438

00:47:51,910 --> 00:47:49,920

know that that's a huge audience not

1439

00:47:53,670 --> 00:47:51,920

that i think he'll be the best interview

1440

00:47:54,870 --> 00:47:53,680

for some of those people but i think

1441

00:47:57,349 --> 00:47:54,880

there are people that i'd love to see

1442

00:47:58,790 --> 00:47:57,359

are lex friedman interview but also joe

1443

00:48:01,349 --> 00:47:58,800

rogan have a different interview with

1444

00:48:02,710 --> 00:48:01,359

them and so on and so forth so so yeah

1445

00:48:04,549 --> 00:48:02,720

very interesting they're having that

1446

00:48:07,190 --> 00:48:04,559

conversation and keeping the keeping

1447

00:48:08,470 --> 00:48:07,200

that going dan

1448

00:48:11,270 --> 00:48:08,480

next one for you do you want to talk

1449

00:48:12,870 --> 00:48:11,280

about james webb or the ndaa language

1450

00:48:14,470 --> 00:48:12,880

we're getting near the end of this night

1451

00:48:15,990 --> 00:48:14,480

i feel like we always save james webb

1452

00:48:17,829 --> 00:48:16,000

for for the last like a relaxing

1453

00:48:21,750 --> 00:48:17,839

discussion so let's do the ndaa that's

1454

00:48:24,069 --> 00:48:21,760

quite a lofty one cool so again dan this

1455

00:48:25,430 --> 00:48:24,079

is one that you follow along with uh d

1456

00:48:28,710 --> 00:48:25,440

dean johnson

1457

00:48:30,549 --> 00:48:28,720

uh who has been uh posting quite a lot

1458

00:48:32,950 --> 00:48:30,559

on the subject in a lot of detail

1459

00:48:34,470 --> 00:48:32,960

keeping people up to date um

1460

00:48:36,630 --> 00:48:34,480

really good at getting the scoops i

1461

00:48:38,230 --> 00:48:36,640

think on these bills and when there's an

1462

00:48:39,910 --> 00:48:38,240

update when there's a language change

1463

00:48:41,190 --> 00:48:39,920

when there's a possible update and i

1464

00:48:43,670 --> 00:48:41,200

know that's something you follow quite

1465

00:48:46,390 --> 00:48:43,680

closely and you've spoken also with uh d

1466

00:48:47,589 --> 00:48:46,400

dean himself yeah he's he's fantastic

1467

00:48:49,750 --> 00:48:47,599

just you know if he's listening i'm not

1468

00:48:51,910 --> 00:48:49,760

sure if he is but thank you so much um

1469

00:48:53,349 --> 00:48:51,920

he he's always great to take time to

1470

00:48:55,829 --> 00:48:53,359

even if he's having a busy day just he

1471

00:48:57,190 --> 00:48:55,839

might be back and explain the answer to

1472

00:48:58,950 --> 00:48:57,200

the stupid question that i've asked you

1473

00:49:00,390 --> 00:48:58,960

know because i just don't know the terms

1474

00:49:01,910 --> 00:49:00,400

in the legislation

1475

00:49:04,390 --> 00:49:01,920

yeah he does updates and things like

1476

00:49:05,829 --> 00:49:04,400

that so he's worth following but in in a

1477

00:49:07,829 --> 00:49:05,839

nutshell it's

1478

00:49:09,750 --> 00:49:07,839

basically people can remember last year

1479

00:49:11,430 --> 00:49:09,760

when the ndaa was started and there were

1480

00:49:13,589 --> 00:49:11,440

a whole host of amendments as he went

1481

00:49:16,390 --> 00:49:13,599

through through different people like uh

1482

00:49:18,069 --> 00:49:16,400

senate's gillibrand and marco rubio and

1483

00:49:19,589 --> 00:49:18,079

they all had different things that they

1484

00:49:22,069 --> 00:49:19,599

wanted

1485

00:49:24,630 --> 00:49:22,079

to cover with the uap language

1486

00:49:25,990 --> 00:49:24,640

it started in a certain way and the

1487

00:49:28,470 --> 00:49:26,000

language was very different by the time

1488

00:49:29,670 --> 00:49:28,480

it got to the actual ndaa vote we

1489

00:49:31,349 --> 00:49:29,680

thought it was going to be discussed on

1490

00:49:33,349 --> 00:49:31,359

the house floor it wasn't it actually

1491

00:49:35,030 --> 00:49:33,359

went through smoothly so i'm kind of

1492

00:49:36,549 --> 00:49:35,040

hoping for the same this year but at the

1493

00:49:38,790 --> 00:49:36,559

moment we've got a few different trains

1494

00:49:42,549 --> 00:49:38,800

on a few different tracks and we've got

1495

00:49:44,470 --> 00:49:42,559

the iaa 2023 which will be you know

1496

00:49:47,030 --> 00:49:44,480

processed that one

1497

00:49:49,270 --> 00:49:47,040

was announced by uh senator mark warner

1498

00:49:50,549 --> 00:49:49,280

and is from the senate intelligence

1499

00:49:53,030 --> 00:49:50,559

committee

1500

00:49:55,589 --> 00:49:53,040

that one talks about essentially a new

1501

00:49:57,270 --> 00:49:55,599

acronym so instead of uap or ufo is

1502

00:49:59,190 --> 00:49:57,280

unidentified aerospace undersea

1503

00:50:01,349 --> 00:49:59,200

phenomena which is just

1504

00:50:02,710 --> 00:50:01,359

an easy way of explaining trans medium

1505

00:50:05,430 --> 00:50:02,720

because people might not know what that

1506

00:50:07,030 --> 00:50:05,440

word means of course it's leaving out a

1507

00:50:08,710 --> 00:50:07,040

certain domain because it's not just

1508

00:50:09,990 --> 00:50:08,720

aerospace undersea

1509

00:50:11,910 --> 00:50:10,000

there are all these other mediums that

1510

00:50:13,829 --> 00:50:11,920

kind of left out there can i just make a

1511

00:50:15,750 --> 00:50:13,839

point on that and i've seen a few people

1512

00:50:17,109 --> 00:50:15,760

online discussing this and chris sharp

1513

00:50:19,670 --> 00:50:17,119

was involved in the conversation at one

1514

00:50:21,109 --> 00:50:19,680

point i think uh and a few others

1515

00:50:23,030 --> 00:50:21,119

at the end of the day and some people

1516

00:50:24,390 --> 00:50:23,040

don't necessarily like this and maybe

1517

00:50:26,870 --> 00:50:24,400

i'm going back on things i've said in

1518

00:50:29,109 --> 00:50:26,880

the past i don't know but

1519

00:50:31,910 --> 00:50:29,119

this is called that ufo podcast and not

1520

00:50:33,190 --> 00:50:31,920

that uap podcast because 99 of the

1521

00:50:35,510 --> 00:50:33,200

population

1522

00:50:37,510 --> 00:50:35,520

know them as ufos and whether people

1523

00:50:38,390 --> 00:50:37,520

like that or not that's not going to

1524

00:50:40,870 --> 00:50:38,400

change

1525

00:50:43,430 --> 00:50:40,880

uap might become more involved or known

1526

00:50:46,950 --> 00:50:43,440

in the conversation but

1527

00:50:48,309 --> 00:50:46,960

wwf is still the term people use for

1528

00:50:53,030 --> 00:50:48,319

wrestling

1529

00:50:55,589 --> 00:50:53,040

on the tv or being discussed even when

1530

00:50:57,030 --> 00:50:55,599

the wwf lost a court battle to the world

1531

00:51:00,230 --> 00:50:57,040

wildlife fund

1532

00:51:03,109 --> 00:51:00,240

to change their name to wwe people now

1533

00:51:05,510 --> 00:51:03,119

20 years later still say oh wwf or the

1534

00:51:08,230 --> 00:51:05,520

wwf as wrestling even what changed a

1535

00:51:10,549 --> 00:51:08,240

long time ago um

1536

00:51:12,390 --> 00:51:10,559

that for me is the way the ufo

1537

00:51:15,190 --> 00:51:12,400

language is and i saw some people saying

1538

00:51:17,589 --> 00:51:15,200

about that new acronym in new term

1539

00:51:19,750 --> 00:51:17,599

call them uap usa was everything else

1540

00:51:23,030 --> 00:51:19,760

under the sun we have to just accept

1541

00:51:24,870 --> 00:51:23,040

that ufo shouldn't be a dirty word or

1542

00:51:26,069 --> 00:51:24,880

our language people are scared to use

1543

00:51:26,790 --> 00:51:26,079

because

1544

00:51:30,309 --> 00:51:26,800

it

1545

00:51:32,870 --> 00:51:30,319

stigma to get into the conversation when

1546

00:51:34,549 --> 00:51:32,880

you say uap but at the end of the day i

1547

00:51:36,950 --> 00:51:34,559

think you still have to you know yeah

1548

00:51:38,470 --> 00:51:36,960

it's ufos and people always say you know

1549

00:51:40,150 --> 00:51:38,480

if i say uap to someone that hasn't

1550

00:51:41,510 --> 00:51:40,160

spoken about it or isn't thinking about

1551  
00:51:44,230 --> 00:51:41,520  
it they'll always say what you mean and

1552  
00:51:45,910 --> 00:51:44,240  
i'll go ufos and they go oh okay so we

1553  
00:51:48,230 --> 00:51:45,920  
should just start with ufos like i

1554  
00:51:50,069 --> 00:51:48,240  
understand that it is the official term

1555  
00:51:51,990 --> 00:51:50,079  
uap to talk about it internally to

1556  
00:51:53,430 --> 00:51:52,000  
reduce the stigma but like you say we

1557  
00:51:55,430 --> 00:51:53,440  
all know what we're talking about so

1558  
00:51:56,470 --> 00:51:55,440  
let's just say it you know and given

1559  
00:51:58,790 --> 00:51:56,480  
what's come out and what we're

1560  
00:51:59,829 --> 00:51:58,800  
discussing now and and the the events

1561  
00:52:01,750 --> 00:51:59,839  
and

1562  
00:52:03,190 --> 00:52:01,760  
the last couple of years in the progress

1563  
00:52:04,470 --> 00:52:03,200

i think people should kind of reclaim

1564

00:52:06,069 --> 00:52:04,480

that a little bit and be happy to say

1565

00:52:08,150 --> 00:52:06,079

yeah ufos

1566

00:52:09,829 --> 00:52:08,160

because now you can go ufos oh and they

1567

00:52:11,910 --> 00:52:09,839

might eye roll but yes but have you

1568

00:52:13,510 --> 00:52:11,920

heard and you can talk about any number

1569

00:52:15,430 --> 00:52:13,520

of things that have happened since and

1570

00:52:17,109 --> 00:52:15,440

that's the substance isn't it you know

1571

00:52:18,230 --> 00:52:17,119

it's whether there's no point in arguing

1572

00:52:19,430 --> 00:52:18,240

and saying oh well they're not flying

1573

00:52:21,030 --> 00:52:19,440

they're vectoring or they're using

1574

00:52:23,109 --> 00:52:21,040

gravity bubbles

1575

00:52:24,630 --> 00:52:23,119

we we don't know we want to figure out

1576

00:52:26,549 --> 00:52:24,640

the mystery and

1577

00:52:28,790 --> 00:52:26,559

people understand that thing in the sky

1578

00:52:31,750 --> 00:52:28,800

you know we say the term there's a there

1579

00:52:33,190 --> 00:52:31,760

there often what we're talking about

1580

00:52:35,750 --> 00:52:33,200

is a ufo

1581

00:52:37,030 --> 00:52:35,760

yeah 100 yeah sorry to interrupt just it

1582

00:52:38,549 --> 00:52:37,040

just came up there when you mentioned

1583

00:52:40,630 --> 00:52:38,559

the new acronyms and stuff as well so

1584

00:52:42,309 --> 00:52:40,640

it's a great point so they talk about um

1585

00:52:43,990 --> 00:52:42,319

increasing transparency and promoting

1586

00:52:46,230 --> 00:52:44,000

efforts to reform the declassification

1587

00:52:47,750 --> 00:52:46,240

process as well as protections for

1588

00:52:50,069 --> 00:52:47,760

whistleblowers which is where we get to

1589

00:52:52,470 --> 00:52:50,079

the kind of immunity stuff then in

1590

00:52:54,790 --> 00:52:52,480

another amendment that came along a

1591

00:52:56,950 --> 00:52:54,800

different time a bit later

1592

00:53:00,069 --> 00:52:56,960

they proposed basically move it out the

1593

00:53:01,670 --> 00:53:00,079

dod and into the wider net so that it

1594

00:53:03,109 --> 00:53:01,680

could actually be held accountable and

1595

00:53:05,430 --> 00:53:03,119

was a joint program between all of the

1596

00:53:07,510 --> 00:53:05,440

different departments that would

1597

00:53:09,910 --> 00:53:07,520

effectively have a reboot on the task

1598

00:53:11,510 --> 00:53:09,920

force which a lot of people would

1599

00:53:13,589 --> 00:53:11,520

support because you know they're not

1600

00:53:15,829 --> 00:53:13,599

they're not very happy essentially with

1601  
00:53:18,630 --> 00:53:15,839  
those hearings and what the the job that

1602  
00:53:21,030 --> 00:53:18,640  
the aoi msg are doing so we can already

1603  
00:53:22,870 --> 00:53:21,040  
see in that legislation it's reflecting

1604  
00:53:24,870 --> 00:53:22,880  
the frustration with those hearings so

1605  
00:53:26,470 --> 00:53:24,880  
even if you didn't like those hearings

1606  
00:53:28,630 --> 00:53:26,480  
it was functional because now we've

1607  
00:53:30,950 --> 00:53:28,640  
actually got language to address some of

1608  
00:53:32,790 --> 00:53:30,960  
the the tomfoolery that went on

1609  
00:53:34,309 --> 00:53:32,800  
then we've got the

1610  
00:53:36,069 --> 00:53:34,319  
oh and there was a proposed name change

1611  
00:53:38,150 --> 00:53:36,079  
as well in there so we should be getting

1612  
00:53:39,349 --> 00:53:38,160  
hopefully a new office with a new name

1613  
00:53:41,349 --> 00:53:39,359

um

1614

00:53:43,109 --> 00:53:41,359

then we've got the gallagher gallejo

1615

00:53:45,109 --> 00:53:43,119

amendment and this one's all about

1616

00:53:46,470 --> 00:53:45,119

immunity and there's been some confusion

1617

00:53:47,589 --> 00:53:46,480

with this one because a lot of people

1618

00:53:49,190 --> 00:53:47,599

think that it means that people can

1619

00:53:51,109 --> 00:53:49,200

suddenly go and just spill the beans in

1620

00:53:52,390 --> 00:53:51,119

a public hearing that's not what this is

1621

00:53:53,190 --> 00:53:52,400

what this is

1622

00:53:55,990 --> 00:53:53,200

is

1623

00:53:59,190 --> 00:53:56,000

it they want to set up a secure system

1624

00:54:01,349 --> 00:53:59,200

within aoi msg where people who are

1625

00:54:03,430 --> 00:54:01,359

working in classified projects can

1626  
00:54:05,670 --> 00:54:03,440  
legally and safely

1627  
00:54:07,510 --> 00:54:05,680  
and not you know

1628  
00:54:09,990 --> 00:54:07,520  
almost damage national security by

1629  
00:54:12,870 --> 00:54:10,000  
putting their stories in the part submit

1630  
00:54:14,710 --> 00:54:12,880  
classified information so if someone is

1631  
00:54:17,030 --> 00:54:14,720  
say for example eric davis is a good

1632  
00:54:19,349 --> 00:54:17,040  
example he he has a past where he's

1633  
00:54:21,670 --> 00:54:19,359  
definitely worked in certain programs

1634  
00:54:23,990 --> 00:54:21,680  
that would look to people much like you

1635  
00:54:24,950 --> 00:54:24,000  
know studying crash debris and things

1636  
00:54:26,790 --> 00:54:24,960  
like that

1637  
00:54:29,990 --> 00:54:26,800  
he would be able to go to this system

1638  
00:54:31,910 --> 00:54:30,000

submit his reports securely for

1639

00:54:34,309 --> 00:54:31,920

congressmen to read who could read them

1640

00:54:35,829 --> 00:54:34,319

securely and then suddenly

1641

00:54:37,430 --> 00:54:35,839

they're not just talking about stories

1642

00:54:40,789 --> 00:54:37,440

anymore they can actually

1643

00:54:42,630 --> 00:54:40,799

talk to somebody who previously to

1644

00:54:45,190 --> 00:54:42,640

to it passing which i would expect to be

1645

00:54:46,470 --> 00:54:45,200

around christmas like it was last time

1646

00:54:48,630 --> 00:54:46,480

just wouldn't be able to talk to them at

1647

00:54:50,630 --> 00:54:48,640

all and this language covers contractors

1648

00:54:52,630 --> 00:54:50,640

as well so we'd be looking at the mass

1649

00:54:55,670 --> 00:54:52,640

employees and things like that and of

1650

00:54:58,150 --> 00:54:55,680

course pilots who might say fly a black

1651  
00:55:00,950 --> 00:54:58,160  
project and encounter something other

1652  
00:55:02,309 --> 00:55:00,960  
while they're doing it we we know that

1653  
00:55:04,309 --> 00:55:02,319  
in the 40s when they were doing these

1654  
00:55:06,150 --> 00:55:04,319  
new this nuclear testing

1655  
00:55:07,349 --> 00:55:06,160  
the ufo supposedly a lot of people think

1656  
00:55:09,910 --> 00:55:07,359  
they showed it first there but it goes

1657  
00:55:11,829 --> 00:55:09,920  
way back but it seems like they they

1658  
00:55:13,990 --> 00:55:11,839  
like being around the cutting edge of

1659  
00:55:16,390 --> 00:55:14,000  
what we're doing so who knows you know

1660  
00:55:17,430 --> 00:55:16,400  
someone flying a stealth project kind of

1661  
00:55:19,589 --> 00:55:17,440  
at the edge of space could have

1662  
00:55:21,910 --> 00:55:19,599  
encountered some of these things

1663  
00:55:23,270 --> 00:55:21,920

they're like the early adopters of the

1664

00:55:24,950 --> 00:55:23,280

the civilizations that are out there

1665

00:55:27,030 --> 00:55:24,960

yeah they're like oh some new tech yeah

1666

00:55:29,109 --> 00:55:27,040

i'll get involved in that absolutely and

1667

00:55:30,470 --> 00:55:29,119

and yeah when those people come down or

1668

00:55:31,990 --> 00:55:30,480

those beings come down they think that

1669

00:55:33,190 --> 00:55:32,000

we all are just shaped like planes

1670

00:55:35,589 --> 00:55:33,200

instead of people because that was the

1671

00:55:37,430 --> 00:55:35,599

first thing they saw that's what we do

1672

00:55:39,750 --> 00:55:37,440

but it just yeah it just gives them

1673

00:55:41,430 --> 00:55:39,760

immunity now there's some interesting

1674

00:55:43,750 --> 00:55:41,440

stuff coming up with that because

1675

00:55:45,670 --> 00:55:43,760

it's on the house floor for debate uh on

1676  
00:55:48,069 --> 00:55:45,680  
the 12th and then they get to choose it

1677  
00:55:49,349 --> 00:55:48,079  
on the 14th that's of july so if you're

1678  
00:55:51,109 --> 00:55:49,359  
in the us

1679  
00:55:53,109 --> 00:55:51,119  
call your representatives

1680  
00:55:54,630 --> 00:55:53,119  
and if you're anywhere else in the world

1681  
00:55:56,150 --> 00:55:54,640  
tweet them go on facebook and let them

1682  
00:55:59,190 --> 00:55:56,160  
know that you want this legislation to

1683  
00:56:01,510 --> 00:55:59,200  
go in just to repeat it it's called hr

1684  
00:56:03,910 --> 00:56:01,520  
7900 and you you want them to include

1685  
00:56:05,990 --> 00:56:03,920  
the gallagher galejo amendment i'll

1686  
00:56:07,670 --> 00:56:06,000  
include a link uh with the show

1687  
00:56:09,750 --> 00:56:07,680  
description to basically

1688  
00:56:11,430 --> 00:56:09,760

uh katie howland wrote a script for

1689

00:56:12,789 --> 00:56:11,440

people calling in america that was aimed

1690

00:56:13,829 --> 00:56:12,799

at republicans democrats because

1691

00:56:15,510 --> 00:56:13,839

obviously they care about different

1692

00:56:16,950 --> 00:56:15,520

things i was just about to ask you to

1693

00:56:20,150 --> 00:56:16,960

give that a mention there for for

1694

00:56:23,270 --> 00:56:20,160

katie's uh call to arms on monday the

1695

00:56:25,030 --> 00:56:23,280

11th of july uh yes that's right it

1696

00:56:26,390 --> 00:56:25,040

moved from the tuesday yeah but it's

1697

00:56:28,549 --> 00:56:26,400

monday night

1698

00:56:30,069 --> 00:56:28,559

yeah so i'll include a link to my tweet

1699

00:56:31,510 --> 00:56:30,079

that kind of has those things there and

1700

00:56:33,109 --> 00:56:31,520

tells you exactly what you need to do to

1701

00:56:34,789 --> 00:56:33,119

get involved and you can also update the

1702

00:56:36,069 --> 00:56:34,799

spreadsheet for katie so we can have a

1703

00:56:38,230 --> 00:56:36,079

good idea of how many people got

1704

00:56:40,230 --> 00:56:38,240

involved as well point is is just to let

1705

00:56:41,990 --> 00:56:40,240

them know that you want this addressed

1706

00:56:43,349 --> 00:56:42,000

that's it they're your representatives

1707

00:56:44,870 --> 00:56:43,359

they don't know what you want unless you

1708

00:56:46,470 --> 00:56:44,880

talk to them about it if you're into

1709

00:56:48,870 --> 00:56:46,480

this mystery get in touch and let them

1710

00:56:51,109 --> 00:56:48,880

know and listen there is no bad day for

1711

00:56:52,630 --> 00:56:51,119

people to do that if no matter what

1712

00:56:55,270 --> 00:56:52,640

country you're in if you're uk us

1713

00:56:56,470 --> 00:56:55,280

australia canada ireland sweden whatever

1714

00:56:58,950 --> 00:56:56,480

else you are

1715

00:57:00,390 --> 00:56:58,960

if you don't get involved in any one of

1716

00:57:03,190 --> 00:57:00,400

these you know

1717

00:57:05,109 --> 00:57:03,200

rallies or you know phone homes or like

1718

00:57:07,030 --> 00:57:05,119

katie's putting this together to get

1719

00:57:08,870 --> 00:57:07,040

everyone to do it at one time for like a

1720

00:57:10,390 --> 00:57:08,880

level of impact if you don't get a

1721

00:57:12,069 --> 00:57:10,400

chance to do it that's fine do it in

1722

00:57:14,630 --> 00:57:12,079

tuesday do it on wednesday do it in four

1723

00:57:16,470 --> 00:57:14,640

weeks time do it on the 22nd of december

1724

00:57:18,230 --> 00:57:16,480

at half past one and a tuesday afternoon

1725

00:57:19,910 --> 00:57:18,240

because you're bored and it just comes

1726

00:57:21,829 --> 00:57:19,920

to mind do you know what i think i'm

1727

00:57:23,829 --> 00:57:21,839

going to write a letter or an email or a

1728

00:57:26,069 --> 00:57:23,839

tweet there's no bad time to do it just

1729

00:57:28,549 --> 00:57:26,079

get involved just it helps the

1730

00:57:29,750 --> 00:57:28,559

conversation and you never know that

1731

00:57:32,309 --> 00:57:29,760

on monday

1732

00:57:34,230 --> 00:57:32,319

maybe a thousand people email tweet get

1733

00:57:36,309 --> 00:57:34,240

in touch with representatives and it has

1734

00:57:38,309 --> 00:57:36,319

a level of impact but you don't know

1735

00:57:40,390 --> 00:57:38,319

that on that random day you get in touch

1736

00:57:42,630 --> 00:57:40,400

with your elected representative

1737

00:57:44,710 --> 00:57:42,640

that that letter or email arriving on

1738

00:57:47,109 --> 00:57:44,720

their desk or their computer doesn't

1739

00:57:49,190 --> 00:57:47,119

have the impact everything else didn't

1740

00:57:50,549 --> 00:57:49,200

so that that could sway it could just be

1741

00:57:53,270 --> 00:57:50,559

that time that they're picking up you

1742

00:57:55,589 --> 00:57:53,280

know correspondence and ah that's

1743

00:57:57,510 --> 00:57:55,599

interesting and it snowballs from there

1744

00:57:58,950 --> 00:57:57,520

you you'll always want to get them to a

1745

00:58:01,349 --> 00:57:58,960

point where they're eye rolling like oh

1746

00:58:02,870 --> 00:58:01,359

another uap email because at that point

1747

00:58:04,870 --> 00:58:02,880

they've noted how many people are

1748

00:58:06,549 --> 00:58:04,880

interested in this and it's getting to

1749

00:58:07,910 --> 00:58:06,559

the so i can't remember who pointed out

1750

00:58:09,270 --> 00:58:07,920

but if you look at the original release

1751

00:58:11,270 --> 00:58:09,280

of like the tic tac video and stuff like

1752

00:58:13,510 --> 00:58:11,280

that that has millions of views millions

1753

00:58:14,630 --> 00:58:13,520

of views or millions of votes so this is

1754

00:58:15,990 --> 00:58:14,640

going to become a really interesting

1755

00:58:17,510 --> 00:58:16,000

issue now we're talking about national

1756

00:58:20,230 --> 00:58:17,520

defense and i know there are other

1757

00:58:21,750 --> 00:58:20,240

things going on in the world but

1758

00:58:23,190 --> 00:58:21,760

there are senators talking about this

1759

00:58:25,910 --> 00:58:23,200

there are representatives talking about

1760

00:58:27,030 --> 00:58:25,920

this so it's not it's not going away we

1761

00:58:29,910 --> 00:58:27,040

like to see the ketchups out of the

1762

00:58:31,349 --> 00:58:29,920

bottle it's you know i'm i'm i'm covered

1763

00:58:33,430 --> 00:58:31,359

yeah keep smacking the bottom of that

1764

00:58:35,510 --> 00:58:33,440

bottle there you go i feel like you're

1765

00:58:37,270 --> 00:58:35,520

in the scottish accent enjoy there are

1766

00:58:39,190 --> 00:58:37,280

just four things outstanding this year

1767

00:58:40,789 --> 00:58:39,200

so september uh we're looking at a

1768

00:58:42,950 --> 00:58:40,799

second classified quarterly report

1769

00:58:45,349 --> 00:58:42,960

that's based on the iaa that was passed

1770

00:58:47,910 --> 00:58:45,359

we're also looking at a classified

1771

00:58:49,349 --> 00:58:47,920

semi-annual briefing based on the ndaa

1772

00:58:51,910 --> 00:58:49,359

so a lot of committees will get updates

1773

00:58:53,670 --> 00:58:51,920

from the aoi msg then then 31st of

1774

00:58:55,829 --> 00:58:53,680

october which is halloween we get our

1775

00:58:57,270 --> 00:58:55,839

second report and that will be a public

1776

00:58:58,230 --> 00:58:57,280

report they'll no doubt be arguments

1777

00:58:59,829 --> 00:58:58,240

about the length of it and what it

1778

00:59:01,670 --> 00:58:59,839

contains and so on so forth but

1779

00:59:03,270 --> 00:59:01,680

halloween is the date that the public

1780

00:59:04,950 --> 00:59:03,280

are going to get something and then in

1781

00:59:07,349 --> 00:59:04,960

december there'll be the third

1782

00:59:09,270 --> 00:59:07,359

classified coursey report

1783

00:59:11,190 --> 00:59:09,280

so there are a lot of moments where

1784

00:59:12,789 --> 00:59:11,200

senators and representatives can go hold

1785

00:59:14,309 --> 00:59:12,799

on this isn't working right let's create

1786

00:59:15,510 --> 00:59:14,319

a law to change this and try and shake

1787

00:59:18,230 --> 00:59:15,520

things up a bit

1788

00:59:19,910 --> 00:59:18,240

yeah and unfortunately those classified

1789

00:59:21,190 --> 00:59:19,920

reports that are even the classified

1790

00:59:23,349 --> 00:59:21,200

briefing that happened at the end of the

1791

00:59:25,349 --> 00:59:23,359

hearings we've never really had anything

1792

00:59:26,950 --> 00:59:25,359

leak from or come out of so

1793

00:59:29,670 --> 00:59:26,960

we can't really expect anything on those

1794

00:59:31,829 --> 00:59:29,680

dates to to happen or come out or even

1795

00:59:33,910 --> 00:59:31,839

kind of trickle down so what the best we

1796

00:59:35,750 --> 00:59:33,920

can hope for is when that 31st of

1797

00:59:36,710 --> 00:59:35,760

october hits and we get the public

1798

00:59:39,349 --> 00:59:36,720

briefing

1799

00:59:41,670 --> 00:59:39,359

our public report that there's something

1800

00:59:43,109 --> 00:59:41,680

in there to chew over so yeah don't get

1801  
00:59:46,150 --> 00:59:43,119  
hopes up on any of those classified

1802  
00:59:47,990 --> 00:59:46,160  
dates revealing anything as such um

1803  
00:59:50,710 --> 00:59:48,000  
they're not for as

1804  
00:59:53,349 --> 00:59:50,720  
as we do have um people like tim

1805  
00:59:55,190 --> 00:59:53,359  
burchard who will talk about he he made

1806  
00:59:56,870 --> 00:59:55,200  
a statement yesterday saying

1807  
00:59:58,309 --> 00:59:56,880  
that the things he seen has you know

1808  
00:59:59,510 --> 00:59:58,319  
blown his mind

1809  
01:00:01,190 --> 00:59:59,520  
so

1810  
01:00:03,430 --> 01:00:01,200  
that's the most we've heard about those

1811  
01:00:05,030 --> 01:00:03,440  
classified briefings but that for me is

1812  
01:00:06,870 --> 01:00:05,040  
enough to go well why why can't we

1813  
01:00:08,789 --> 01:00:06,880

loosen up the declassification process

1814

01:00:10,470 --> 01:00:08,799

and release a few of these videos so

1815

01:00:11,910 --> 01:00:10,480

everyone including scientists who can

1816

01:00:13,430 --> 01:00:11,920

actually tackle this have a better idea

1817

01:00:14,390 --> 01:00:13,440

of what we're dealing with

1818

01:00:16,789 --> 01:00:14,400

absolutely

1819

01:00:19,990 --> 01:00:16,799

um james webb update 12th of july you've

1820

01:00:23,910 --> 01:00:20,000

mentioned before dan um as the big date

1821

01:00:25,829 --> 01:00:23,920

for us to get the the first images um

1822

01:00:28,470 --> 01:00:25,839

proper images from the james webb

1823

01:00:31,349 --> 01:00:28,480

telescope the test image that um i

1824

01:00:33,510 --> 01:00:31,359

retweet last week that came out online

1825

01:00:35,750 --> 01:00:33,520

was incredible it showed us you know

1826  
01:00:37,670 --> 01:00:35,760  
some stars looked phenomenal it showed

1827  
01:00:39,349 --> 01:00:37,680  
us just points of light everywhere that

1828  
01:00:41,829 --> 01:00:39,359  
are just galaxies and galaxies and

1829  
01:00:44,150 --> 01:00:41,839  
galaxies and galaxies um and for a test

1830  
01:00:47,030 --> 01:00:44,160  
damage i think they've said again this

1831  
01:00:50,789 --> 01:00:47,040  
uh piece of equipment is performing well

1832  
01:00:52,230 --> 01:00:50,799  
beyond any expectations already so

1833  
01:00:54,710 --> 01:00:52,240  
it's hard not to get a little bit

1834  
01:00:57,109 --> 01:00:54,720  
carried away with what we might see

1835  
01:00:59,109 --> 01:00:57,119  
on the 12th of july in terms of a real

1836  
01:01:00,470 --> 01:00:59,119  
image isn't it well the the images we've

1837  
01:01:01,990 --> 01:01:00,480  
seen so far like you say they've been

1838  
01:01:03,750 --> 01:01:02,000

test images from different instruments

1839

01:01:07,510 --> 01:01:03,760

the one that was released this week was

1840

01:01:09,430 --> 01:01:07,520

from the fine guidance sensor and that

1841

01:01:11,109 --> 01:01:09,440

is not even a piece of equipment that is

1842

01:01:12,630 --> 01:01:11,119

meant to be taking pictures it's

1843

01:01:14,470 --> 01:01:12,640

literally meant to just point the

1844

01:01:16,710 --> 01:01:14,480

telescope at the target that they

1845

01:01:18,870 --> 01:01:16,720

actually want to image so to see that

1846

01:01:20,549 --> 01:01:18,880

kind of result from something that's not

1847

01:01:22,069 --> 01:01:20,559

meant to be a scientific instrument is

1848

01:01:23,829 --> 01:01:22,079

just incredible

1849

01:01:26,069 --> 01:01:23,839

that's also an infrared so it has like

1850

01:01:28,630 --> 01:01:26,079

this orange hue to it and there there

1851  
01:01:30,549 --> 01:01:28,640  
are these diffraction spikes that are

1852  
01:01:33,349 --> 01:01:30,559  
literally there because of the way the

1853  
01:01:34,870 --> 01:01:33,359  
mirrors are shaped those kind of things

1854  
01:01:36,069 --> 01:01:34,880  
are essentially what they're working out

1855  
01:01:38,309 --> 01:01:36,079  
when they're saying we're processing the

1856  
01:01:39,510 --> 01:01:38,319  
data they're getting rid of those spikes

1857  
01:01:41,270 --> 01:01:39,520  
and they're looking at what's behind the

1858  
01:01:42,950 --> 01:01:41,280  
spikes and seeing essentially what's

1859  
01:01:45,109 --> 01:01:42,960  
there and correcting the color for them

1860  
01:01:47,990 --> 01:01:45,119  
so what we see when they release these

1861  
01:01:49,589 --> 01:01:48,000  
images will be

1862  
01:01:51,670 --> 01:01:49,599  
much much better than what we're seeing

1863  
01:01:53,349 --> 01:01:51,680

from that instrument that you retweeted

1864

01:01:56,309 --> 01:01:53,359

or if you're you know on youtube you can

1865

01:01:58,470 --> 01:01:56,319

see the thumbnail uh that's the image

1866

01:02:00,390 --> 01:01:58,480

it's an incredible image anyway so yeah

1867

01:02:01,589 --> 01:02:00,400

i think that it's going to be better

1868

01:02:03,190 --> 01:02:01,599

my god

1869

01:02:05,910 --> 01:02:03,200

question for you though dan so the

1870

01:02:08,710 --> 01:02:05,920

target locations have been revealed um

1871

01:02:11,910 --> 01:02:08,720

it's the karina nebula which is 7 600

1872

01:02:14,789 --> 01:02:11,920

light years away wasp 96b spectrum which

1873

01:02:16,630 --> 01:02:14,799

as everyone knows a gas giant 1 150

1874

01:02:18,390 --> 01:02:16,640

light years away the southern ring

1875

01:02:20,390 --> 01:02:18,400

nebula one of your favorite stand two

1876

01:02:22,870 --> 01:02:20,400

thousand light years away and stefan's

1877

01:02:26,870 --> 01:02:22,880

quintet which is a galaxy group 290

1878

01:02:28,549 --> 01:02:26,880

million light years away and smacs 0723

1879

01:02:30,950 --> 01:02:28,559

everyone's favorite a gravitational

1880

01:02:32,950 --> 01:02:30,960

lensing galaxy cluster

1881

01:02:35,750 --> 01:02:32,960

are we getting

1882

01:02:36,950 --> 01:02:35,760

five different images each of those are

1883

01:02:38,950 --> 01:02:36,960

those

1884

01:02:41,349 --> 01:02:38,960

all images that are going to be or all

1885

01:02:43,190 --> 01:02:41,359

locations within the one image

1886

01:02:44,710 --> 01:02:43,200

if you get any idea how that kind of

1887

01:02:46,470 --> 01:02:44,720

breaks down in terms of what we can

1888

01:02:48,470 --> 01:02:46,480

expect because i saw that and i was like

1889

01:02:50,549 --> 01:02:48,480

ah that's that's some incredibly

1890

01:02:52,150 --> 01:02:50,559

different things to be looking at

1891

01:02:53,589 --> 01:02:52,160

yeah so essentially we're going to get a

1892

01:02:55,670 --> 01:02:53,599

bunch of

1893

01:02:57,990 --> 01:02:55,680

cropped and zoomed in images of these

1894

01:02:59,270 --> 01:02:58,000

places so they'll all be separate images

1895

01:03:01,029 --> 01:02:59,280

i would say we're going to get at least

1896

01:03:02,950 --> 01:03:01,039

five based on what they've said and

1897

01:03:05,270 --> 01:03:02,960

they're all very different things so we

1898

01:03:10,309 --> 01:03:05,280

can kind of see essentially what science

1899

01:03:12,069 --> 01:03:10,319

can start being done the smacks smac s

1900

01:03:13,750 --> 01:03:12,079

that one's interesting because they're

1901

01:03:16,630 --> 01:03:13,760

using gravitational lenses to see

1902

01:03:18,549 --> 01:03:16,640

objects that are further than it which

1903

01:03:19,910 --> 01:03:18,559

it's essentially like a magnifying glass

1904

01:03:21,670 --> 01:03:19,920

it's kind of like a magic trick that

1905

01:03:23,109 --> 01:03:21,680

used to see a lot further back into the

1906

01:03:24,230 --> 01:03:23,119

universe and the further we see out the

1907

01:03:26,230 --> 01:03:24,240

further back in time we're kind of

1908

01:03:28,470 --> 01:03:26,240

looking so we can start seeing those you

1909

01:03:30,150 --> 01:03:28,480

know primordial stars and black holes

1910

01:03:31,829 --> 01:03:30,160

that maybe were there at the beginning

1911

01:03:33,589 --> 01:03:31,839

of the universe and understanding a bit

1912

01:03:36,230 --> 01:03:33,599

of where we came from the real

1913

01:03:39,990 --> 01:03:36,240

interesting one is wasp 96b

1914

01:03:41,589 --> 01:03:40,000

which is a spectrum of a planet

1915

01:03:42,950 --> 01:03:41,599

now a lot of people are kind of like oh

1916

01:03:45,670 --> 01:03:42,960

it's a gas giant so there's not going to

1917

01:03:47,589 --> 01:03:45,680

be life i need to be very clear we are

1918

01:03:49,750 --> 01:03:47,599

not going to get pictures of aliens

1919

01:03:52,069 --> 01:03:49,760

mowing their lawns from this telescope

1920

01:03:53,750 --> 01:03:52,079

that's not what this is it's infrared so

1921

01:03:55,990 --> 01:03:53,760

it's looking at a certain wavelength of

1922

01:03:57,829 --> 01:03:56,000

light what we might see

1923

01:04:00,069 --> 01:03:57,839

in this spectrum it's like a an

1924

01:04:02,470 --> 01:04:00,079

atmospheric fingerprint so depending on

1925

01:04:03,990 --> 01:04:02,480

what chemicals are present in the

1926  
01:04:05,510 --> 01:04:04,000  
atmosphere because different levels of

1927  
01:04:07,349 --> 01:04:05,520  
different chemicals will block out

1928  
01:04:09,270 --> 01:04:07,359  
certain parts of the spectrum

1929  
01:04:11,510 --> 01:04:09,280  
they can see whether there are perhaps

1930  
01:04:14,069 --> 01:04:11,520  
maybe biological processes taking place

1931  
01:04:15,750 --> 01:04:14,079  
or in an incredible turn of events if

1932  
01:04:17,750 --> 01:04:15,760  
there are industrial processes taking

1933  
01:04:18,470 --> 01:04:17,760  
place with our planet we pollute the air

1934  
01:04:19,990 --> 01:04:18,480  
so

1935  
01:04:21,670 --> 01:04:20,000  
if you were using the james webb

1936  
01:04:23,589 --> 01:04:21,680  
telescope to look at us you'd be able to

1937  
01:04:25,270 --> 01:04:23,599  
see hold on a second there seems to be

1938  
01:04:27,910 --> 01:04:25,280

something producing chemicals that

1939

01:04:30,630 --> 01:04:27,920

shouldn't be there um as you know we're

1940

01:04:32,789 --> 01:04:30,640

comparing it to earth as well so

1941

01:04:34,710 --> 01:04:32,799

we're looking for life as we know it and

1942

01:04:36,470 --> 01:04:34,720

as we know life as we know it is

1943

01:04:37,990 --> 01:04:36,480

broadening every day because we keep

1944

01:04:39,109 --> 01:04:38,000

finding life in places that we thought

1945

01:04:40,630 --> 01:04:39,119

it couldn't be

1946

01:04:42,710 --> 01:04:40,640

so it's going to be real interesting to

1947

01:04:44,870 --> 01:04:42,720

get a first look at an exoplanet's uh

1948

01:04:46,549 --> 01:04:44,880

spectral readout and to start really

1949

01:04:48,230 --> 01:04:46,559

thinking about the science that goes

1950

01:04:50,470 --> 01:04:48,240

behind that we're looking further back

1951

01:04:52,870 --> 01:04:50,480

in time and into the universe

1952

01:04:55,029 --> 01:04:52,880

than ever before and it's just it's

1953

01:04:56,710 --> 01:04:55,039

incredible it's it brings to mind you

1954

01:04:58,470 --> 01:04:56,720

know lou used the word somber to

1955

01:05:00,309 --> 01:04:58,480

describe

1956

01:05:02,150 --> 01:05:00,319

something else but this is going to be a

1957

01:05:05,109 --> 01:05:02,160

real somber moment for me we're looking

1958

01:05:07,670 --> 01:05:05,119

into the abyss and it tends to look back

1959

01:05:09,190 --> 01:05:07,680

um i've seen a few people mention online

1960

01:05:10,630 --> 01:05:09,200

and i know some of you familiar to the

1961

01:05:12,470 --> 01:05:10,640

podcast will have heard us say this

1962

01:05:14,549 --> 01:05:12,480

before but this isn't a piece of

1963

01:05:17,109 --> 01:05:14,559

equipment that is going to find pictures

1964

01:05:18,630 --> 01:05:17,119

of ufos and i've seen someone mention

1965

01:05:21,109 --> 01:05:18,640

that or what if we saw lots of you know

1966

01:05:23,589 --> 01:05:21,119

little objects dotted about that i think

1967

01:05:26,150 --> 01:05:23,599

it'd be fair to say dan the only way we

1968

01:05:28,549 --> 01:05:26,160

would get you know some sort of ufo in

1969

01:05:31,270 --> 01:05:28,559

any of these pictures would be if there

1970

01:05:33,109 --> 01:05:31,280

was something that had sat stationary

1971

01:05:34,309 --> 01:05:33,119

that was probably planet-sized like a

1972

01:05:35,109 --> 01:05:34,319

death star

1973

01:05:36,870 --> 01:05:35,119

and

1974

01:05:38,309 --> 01:05:36,880

you know i hadn't moved for a long long

1975

01:05:40,150 --> 01:05:38,319

time

1976

01:05:41,750 --> 01:05:40,160

it may show up as something on the

1977

01:05:43,270 --> 01:05:41,760

picture but we're not going to be seeing

1978

01:05:44,789 --> 01:05:43,280

flying saucers coming across the screen

1979

01:05:46,870 --> 01:05:44,799

here because it's not how this equipment

1980

01:05:48,950 --> 01:05:46,880

works and it's not what it's looking for

1981

01:05:50,950 --> 01:05:48,960

it's very much like you say finding

1982

01:05:52,549 --> 01:05:50,960

chemical makeup you know changes in

1983

01:05:53,750 --> 01:05:52,559

light and things like that and what

1984

01:05:55,349 --> 01:05:53,760

we're going to get is just a picture of

1985

01:05:57,190 --> 01:05:55,359

the universe so just hopefully in a way

1986

01:05:59,750 --> 01:05:57,200

that what i hope to get from this and

1987

01:06:02,549 --> 01:05:59,760

other people is that again it just

1988

01:06:04,710 --> 01:06:02,559

reminds folks how how big

1989

01:06:06,710 --> 01:06:04,720

which is probably the wrong word to even

1990

01:06:07,990 --> 01:06:06,720

use because infinite it's not even yet

1991

01:06:09,430 --> 01:06:08,000

it's not even big it's infinite and then

1992

01:06:10,950 --> 01:06:09,440

what is infinite you know how can

1993

01:06:13,109 --> 01:06:10,960

something not have an end

1994

01:06:15,190 --> 01:06:13,119

but you know how how huge the universe

1995

01:06:17,430 --> 01:06:15,200

is and what we should and could be

1996

01:06:19,190 --> 01:06:17,440

exploring and again as a little slap

1997

01:06:21,510 --> 01:06:19,200

down to people like neil degrasse tyson

1998

01:06:23,510 --> 01:06:21,520

who has had a wonderful rebuttal from is

1999

01:06:26,150 --> 01:06:23,520

it stephen colbert it is yeah it's

2000

01:06:27,430 --> 01:06:26,160

wonderful yeah that was fantastic if you

2001

01:06:30,150 --> 01:06:27,440

can make a note down for me to put the

2002

01:06:32,390 --> 01:06:30,160

link for that and um he gets his ass

2003

01:06:35,029 --> 01:06:32,400

handed to him by stephen colbert

2004

01:06:36,630 --> 01:06:35,039

um and he hasn't seen asylum before yeah

2005

01:06:37,829 --> 01:06:36,640

he does his laugh his celebrity laugh

2006

01:06:39,670 --> 01:06:37,839

doesn't he when he doesn't know what to

2007

01:06:41,190 --> 01:06:39,680

say but he can't you know it's the

2008

01:06:43,270 --> 01:06:41,200

equivalent of you know when you see an

2009

01:06:45,109 --> 01:06:43,280

award ceremony and you don't win and

2010

01:06:47,589 --> 01:06:45,119

they do the clap like oh yeah the

2011

01:06:50,309 --> 01:06:47,599

smiling clap like joey doesn't friends

2012

01:06:52,470 --> 01:06:50,319

it's that but for an astrophysicist or

2013

01:06:54,069 --> 01:06:52,480

physicist who doesn't know what to say

2014

01:06:55,589 --> 01:06:54,079

because someone's made a point that's

2015

01:06:57,750 --> 01:06:55,599

perfectly correct and they don't like it

2016

01:06:58,630 --> 01:06:57,760

and he just kind of politely laughs it

2017

01:06:59,430 --> 01:06:58,640

off

2018

01:07:00,870 --> 01:06:59,440

um

2019

01:07:02,390 --> 01:07:00,880

and it's kind of heavy low at this point

2020

01:07:04,150 --> 01:07:02,400

right it's just they they're talking

2021

01:07:06,150 --> 01:07:04,160

about um just to explain it for people

2022

01:07:07,430 --> 01:07:06,160

that won't you know have time to go look

2023

01:07:10,069 --> 01:07:07,440

yeah and

2024

01:07:13,109 --> 01:07:10,079

neil uh is explaining that it just went

2025

01:07:14,470 --> 01:07:13,119

around the sun and kind of came back and

2026

01:07:16,390 --> 01:07:14,480

colbert

2027

01:07:18,309 --> 01:07:16,400

rightly says well just because it's

2028

01:07:19,670 --> 01:07:18,319

using gravity and it fell you know i can

2029

01:07:21,190 --> 01:07:19,680

lift this pen and let it go and that's

2030

01:07:23,510 --> 01:07:21,200

using gravity to hit the table but it

2031

01:07:24,470 --> 01:07:23,520

was still like go by an intelligent

2032

01:07:26,549 --> 01:07:24,480

being

2033

01:07:28,470 --> 01:07:26,559

so we need to keep that possibility on

2034

01:07:30,069 --> 01:07:28,480

the table and he's absolutely right and

2035

01:07:31,990 --> 01:07:30,079

until you scratch it off you can't say

2036

01:07:33,910 --> 01:07:32,000

that it's not that and there were a lot

2037

01:07:35,190 --> 01:07:33,920

of peculiar things about um we did other

2038

01:07:37,750 --> 01:07:35,200

shows about them and you spoke to abby

2039

01:07:39,829 --> 01:07:37,760

so i won't go into it but yeah it was a

2040

01:07:42,309 --> 01:07:39,839

really good bit of science communication

2041

01:07:43,670 --> 01:07:42,319

from colbert against who is perhaps one

2042

01:07:46,069 --> 01:07:43,680

of the best science communicators on the

2043

01:07:47,910 --> 01:07:46,079

planet with a closed mind

2044

01:07:49,589 --> 01:07:47,920

absolutely and to finish up dan that's

2045

01:07:51,109 --> 01:07:49,599

kind of bumper breakdown we've covered a

2046

01:07:52,789 --> 01:07:51,119

lot of bases and these will be back to

2047

01:07:54,870 --> 01:07:52,799

being more regular folks apologies for

2048

01:07:57,750 --> 01:07:54,880

the the radio silence the last few weeks

2049

01:08:00,630 --> 01:07:57,760

life gets in the way sometimes um it was

2050

01:08:03,589 --> 01:08:00,640

the roswell 75th anniversary just passed

2051

01:08:05,750 --> 01:08:03,599

on the 8th of july and lots of retweets

2052

01:08:06,950 --> 01:08:05,760

of the famous newspaper front page and

2053

01:08:08,870 --> 01:08:06,960

discussion

2054

01:08:10,309 --> 01:08:08,880

then just just to ask you because we

2055

01:08:12,630 --> 01:08:10,319

have to certainly talk about it it's

2056

01:08:14,789 --> 01:08:12,640

it's one of those first cases if not the

2057

01:08:17,430 --> 01:08:14,799

first case you hear about as a kid um

2058

01:08:20,550 --> 01:08:17,440

getting into the ufo subject what what

2059

01:08:24,709 --> 01:08:20,560

is the place that roswell has in modern

2060

01:08:26,950 --> 01:08:24,719

day ufology or the ufo topic where does

2061

01:08:29,910 --> 01:08:26,960

it set for you now

2062

01:08:31,990 --> 01:08:29,920

it's almost become this

2063

01:08:34,390 --> 01:08:32,000

we we talk about the kenneth arnold

2064

01:08:36,870 --> 01:08:34,400

sighting over mount rainier as the start

2065

01:08:39,189 --> 01:08:36,880

of modern ufology but

2066

01:08:41,030 --> 01:08:39,199

i think that honor belongs to roswell

2067

01:08:43,910 --> 01:08:41,040

now you know it's almost a household

2068

01:08:45,590 --> 01:08:43,920

name of ufo landings and and crashes and

2069

01:08:47,510 --> 01:08:45,600

things like that everybody knows what it

2070

01:08:50,550 --> 01:08:47,520

was and everybody knows that there was a

2071

01:08:52,630 --> 01:08:50,560

bit of message changing and i i think

2072

01:08:54,870 --> 01:08:52,640

it's sad because

2073

01:08:57,349 --> 01:08:54,880

i'm not convinced we'll ever know what

2074

01:08:59,030 --> 01:08:57,359

it was because back then you know you

2075

01:09:01,030 --> 01:08:59,040

had to make a photocopy of paperwork for

2076

01:09:02,709 --> 01:09:01,040

it to exist twice and and that was kind

2077

01:09:05,269 --> 01:09:02,719

of a big ask back then it wasn't as easy

2078

01:09:06,870 --> 01:09:05,279

as now so a lot of documents that would

2079

01:09:09,110 --> 01:09:06,880

maybe confirm

2080

01:09:10,470 --> 01:09:09,120

what we would like them to confirm

2081

01:09:13,829 --> 01:09:10,480

they would have just been shredded or

2082

01:09:16,149 --> 01:09:13,839

set fire to the the people involved are

2083

01:09:18,550 --> 01:09:16,159

probably all passed away now and every

2084

01:09:20,309 --> 01:09:18,560

time they do a a television show to kind

2085

01:09:22,390 --> 01:09:20,319

of go oh yeah you know we're celebrating

2086

01:09:23,829 --> 01:09:22,400

the 75th anniversary of roswell i don't

2087

01:09:25,349 --> 01:09:23,839

know about you but i react with a little

2088

01:09:27,349 --> 01:09:25,359

bit of an eye roll because i'm just like

2089

01:09:28,950 --> 01:09:27,359

what what can you find that's new and

2090

01:09:31,829 --> 01:09:28,960

every time i watch these shows there's

2091

01:09:33,430 --> 01:09:31,839

there's not really anything it's just

2092

01:09:35,349 --> 01:09:33,440

it's just a you know a headline

2093

01:09:37,110 --> 01:09:35,359

retailing then yeah it's a retelling of

2094

01:09:38,630 --> 01:09:37,120

the story and i'm not sure it's getting

2095

01:09:41,269 --> 01:09:38,640

better each time either you know it's

2096

01:09:43,030 --> 01:09:41,279

kind of getting diminishing returns um

2097

01:09:45,110 --> 01:09:43,040

which is why i i'm looking forward to

2098

01:09:47,430 --> 01:09:45,120

nope because it could kind of you know

2099

01:09:49,349 --> 01:09:47,440

summarize a an event like that and

2100

01:09:51,590 --> 01:09:49,359

really make us imagine how strange it

2101  
01:09:53,349 --> 01:09:51,600  
would have been back then

2102  
01:09:55,270 --> 01:09:53,359  
yeah roswell for me that the place that

2103  
01:09:57,030 --> 01:09:55,280  
it has is a fascinating event it's

2104  
01:09:59,030 --> 01:09:57,040  
kick-started a lot of conversations and

2105  
01:10:00,790 --> 01:09:59,040  
interests and fascinations for for

2106  
01:10:03,030 --> 01:10:00,800  
especially young people getting involved

2107  
01:10:05,990 --> 01:10:03,040  
in the topic in the conversation it's a

2108  
01:10:07,750 --> 01:10:06,000  
it's a fantastic story and narrative of

2109  
01:10:10,149 --> 01:10:07,760  
something came from somewhere else

2110  
01:10:11,669 --> 01:10:10,159  
crashed and there was there were bodies

2111  
01:10:13,910 --> 01:10:11,679  
retrieved they weren't human you know

2112  
01:10:15,590 --> 01:10:13,920  
we've got this incredible technology and

2113  
01:10:17,510 --> 01:10:15,600

there was a big cover-up

2114

01:10:19,350 --> 01:10:17,520

and and it goes from there and like you

2115

01:10:20,709 --> 01:10:19,360

said and i've said before on the podcast

2116

01:10:22,950 --> 01:10:20,719

that

2117

01:10:24,870 --> 01:10:22,960

so many people involved if not all of

2118

01:10:27,110 --> 01:10:24,880

them are now deceased we now have the

2119

01:10:29,350 --> 01:10:27,120

grandchildren of the people involved who

2120

01:10:31,430 --> 01:10:29,360

are deceased and like you say it's like

2121

01:10:33,510 --> 01:10:31,440

so many of these events that are are

2122

01:10:35,270 --> 01:10:33,520

part of the lore and myth and history of

2123

01:10:37,830 --> 01:10:35,280

the subject which are fantastic and

2124

01:10:40,229 --> 01:10:37,840

should be preserved and kept but

2125

01:10:41,430 --> 01:10:40,239

how many books can you release on and i

2126

01:10:43,430 --> 01:10:41,440

won't name i'm thinking of one

2127

01:10:45,510 --> 01:10:43,440

particular event you know how many books

2128

01:10:48,229 --> 01:10:45,520

can you release on an event that

2129

01:10:49,350 --> 01:10:48,239

happened so long ago and new witnesses

2130

01:10:51,750 --> 01:10:49,360

are still cut and now you're probably

2131

01:10:52,870 --> 01:10:51,760

gonna guess that yeah then new witnesses

2132

01:10:55,430 --> 01:10:52,880

are still

2133

01:10:56,709 --> 01:10:55,440

yeah yeah um ends

2134

01:10:58,630 --> 01:10:56,719

um

2135

01:11:00,310 --> 01:10:58,640

new witnesses are still coming forward

2136

01:11:02,790 --> 01:11:00,320

and you're like what 50 years after the

2137

01:11:04,870 --> 01:11:02,800

event really okay and at that point

2138

01:11:06,470 --> 01:11:04,880

there is a case of you know memory and

2139

01:11:07,910 --> 01:11:06,480

you're not talking about a pilot who saw

2140

01:11:09,669 --> 01:11:07,920

something or even a civilian who saw

2141

01:11:11,430 --> 01:11:09,679

something a couple of years ago you're

2142

01:11:13,590 --> 01:11:11,440

talking about people who in their 20s

2143

01:11:15,270 --> 01:11:13,600

are now in their 70s and 80s and you

2144

01:11:17,110 --> 01:11:15,280

know they've lived a life and i have

2145

01:11:18,470 --> 01:11:17,120

memories as a kid and from even last

2146

01:11:20,790 --> 01:11:18,480

year a couple of years ago that are

2147

01:11:22,870 --> 01:11:20,800

slightly altered just because of time

2148

01:11:25,270 --> 01:11:22,880

you know and that's kind of what happens

2149

01:11:27,669 --> 01:11:25,280

with these and yeah like yourself i

2150

01:11:28,550 --> 01:11:27,679

don't have any great inkling to go and

2151

01:11:30,709 --> 01:11:28,560

watch

2152

01:11:32,630 --> 01:11:30,719

any roswell documentaries now that are

2153

01:11:34,229 --> 01:11:32,640

being made um

2154

01:11:35,669 --> 01:11:34,239

i don't think there's anything new to

2155

01:11:36,870 --> 01:11:35,679

glean from them

2156

01:11:38,229 --> 01:11:36,880

and

2157

01:11:40,470 --> 01:11:38,239

when people talk about you know that

2158

01:11:42,470 --> 01:11:40,480

even the congressional hearings oh let's

2159

01:11:43,990 --> 01:11:42,480

bring up roswell none of the people

2160

01:11:45,590 --> 01:11:44,000

involved in the cover-up are alive

2161

01:11:46,870 --> 01:11:45,600

anymore and like you say that the

2162

01:11:48,070 --> 01:11:46,880

shredding that would have happened back

2163

01:11:50,070 --> 01:11:48,080

then would have been someone writing

2164

01:11:51,750 --> 01:11:50,080

something down and i imagine halfway

2165

01:11:53,510 --> 01:11:51,760

through the door gets open some army

2166

01:11:56,470 --> 01:11:53,520

general walks and takes the paper out

2167

01:11:58,229 --> 01:11:56,480

the hand rips up there and then bends it

2168

01:12:00,149 --> 01:11:58,239

that's it that was if they even wrote

2169

01:12:01,510 --> 01:12:00,159

stuff down right like you know that's

2170

01:12:03,110 --> 01:12:01,520

chalkboards that you could just wipe

2171

01:12:05,110 --> 01:12:03,120

clean you could have conversations but

2172

01:12:06,149 --> 01:12:05,120

you don't even write stuff down yeah

2173

01:12:08,310 --> 01:12:06,159

it's not like now where you could have

2174

01:12:10,870 --> 01:12:08,320

these spy gadgets that are just around

2175

01:12:13,110 --> 01:12:10,880

you know yeah it's too far gone for

2176  
01:12:14,790 --> 01:12:13,120  
anything new to be credible unless you

2177  
01:12:16,870 --> 01:12:14,800  
literally had an official government

2178  
01:12:19,510 --> 01:12:16,880  
document pulled from some vault

2179  
01:12:21,270 --> 01:12:19,520  
somewhere that said roswell and had a

2180  
01:12:23,030 --> 01:12:21,280  
load of information on it that's the

2181  
01:12:25,750 --> 01:12:23,040  
only real way you could take something

2182  
01:12:28,229 --> 01:12:25,760  
away as being oh there's a document from

2183  
01:12:30,790 --> 01:12:28,239  
40 or 50 years ago or there's a video

2184  
01:12:32,550 --> 01:12:30,800  
testimony that was filmed in the 60s

2185  
01:12:35,669 --> 01:12:32,560  
from someone involved you know like i'm

2186  
01:12:37,110 --> 01:12:35,679  
a jesse marcel or someone like that so

2187  
01:12:38,550 --> 01:12:37,120  
and let's be honest as well if that did

2188  
01:12:39,669 --> 01:12:38,560

happen and they found a document like

2189

01:12:41,830 --> 01:12:39,679

that

2190

01:12:44,709 --> 01:12:41,840

the community would still tear it apart

2191

01:12:46,550 --> 01:12:44,719

and say yeah right absolutely yeah which

2192

01:12:48,550 --> 01:12:46,560

which is all going to happen so for me

2193

01:12:50,310 --> 01:12:48,560

it's a very romantic story and it was

2194

01:12:51,910 --> 01:12:50,320

one that very much it's worth mentioning

2195

01:12:53,189 --> 01:12:51,920

the anniversary i was going to release a

2196

01:12:55,110 --> 01:12:53,199

short

2197

01:12:57,270 --> 01:12:55,120

episode on the day of the 75th

2198

01:12:58,870 --> 01:12:57,280

anniversary of roswell but i thought i'm

2199

01:13:00,070 --> 01:12:58,880

speaking to dan in a few days anyway for

2200

01:13:02,310 --> 01:13:00,080

the breakdown

2201

01:13:04,709 --> 01:13:02,320

what have i got to add other than a

2202

01:13:06,709 --> 01:13:04,719

story everyone knows again it's like

2203

01:13:08,070 --> 01:13:06,719

remaking the movie the titanic you know

2204

01:13:10,470 --> 01:13:08,080

what else can you put in there that

2205

01:13:11,590 --> 01:13:10,480

actually happened well probably nothing

2206

01:13:13,990 --> 01:13:11,600

you know

2207

01:13:15,910 --> 01:13:14,000

they will the old lady doesn't actually

2208

01:13:17,430 --> 01:13:15,920

exist on that boat probably the only

2209

01:13:19,030 --> 01:13:17,440

thing they could do to make the titanic

2210

01:13:20,709 --> 01:13:19,040

interesting and a remake now would be to

2211

01:13:22,870 --> 01:13:20,719

have it not sync which kind of defeats

2212

01:13:25,510 --> 01:13:22,880

the whole point right yes

2213

01:13:27,350 --> 01:13:25,520

and on that um we are sinking at the end

2214

01:13:28,870 --> 01:13:27,360

of this podcast

2215

01:13:30,390 --> 01:13:28,880

and but what we'll do is very quickly i

2216

01:13:31,430 --> 01:13:30,400

just want you to a few listeners

2217

01:13:33,750 --> 01:13:31,440

thoughts

2218

01:13:36,790 --> 01:13:33,760

on on roswell and sort of what it means

2219

01:13:38,310 --> 01:13:36,800

to them so just bear with me dan while i

2220

01:13:40,709 --> 01:13:38,320

quickly find us and it saves you any

2221

01:13:42,390 --> 01:13:40,719

editing let me just jump in and i'll

2222

01:13:44,790 --> 01:13:42,400

just kind of do i've got two points here

2223

01:13:46,950 --> 01:13:44,800

so australia um the dod has been

2224

01:13:48,390 --> 01:13:46,960

discussing uap internally and they

2225

01:13:50,550 --> 01:13:48,400

prepared a

2226

01:13:52,470 --> 01:13:50,560

eight-page brief paper for the incoming

2227

01:13:54,310 --> 01:13:52,480

chief of the air force grant levack

2228

01:13:56,950 --> 01:13:54,320

bless him on twitter give him a follow

2229

01:13:58,709 --> 01:13:56,960

he he got this through foia and

2230

01:14:01,110 --> 01:13:58,719

again very much they're following the us

2231

01:14:02,630 --> 01:14:01,120

lead but it shows actual official

2232

01:14:03,990 --> 01:14:02,640

interest and in australia we have things

2233

01:14:06,149 --> 01:14:04,000

that like the min min lights and there's

2234

01:14:08,229 --> 01:14:06,159

a lot of indigenous tribe stories that

2235

01:14:09,430 --> 01:14:08,239

involve beings that are not from here so

2236

01:14:11,270 --> 01:14:09,440

that's real interesting that they're

2237

01:14:13,270 --> 01:14:11,280

starting to get the ball moving as well

2238

01:14:15,669 --> 01:14:13,280

and then in japan we have the ufo

2239

01:14:18,709 --> 01:14:15,679

laboratory they did their first yearly

2240

01:14:22,870 --> 01:14:18,719

kind of summary press conference and

2241

01:14:25,590 --> 01:14:22,880

they presented 452 reports 125 images

2242

01:14:28,630 --> 01:14:25,600

and 24 videos that were confirmed in the

2243

01:14:30,229 --> 01:14:28,640

lab analysis to be genuine unknowns they

2244

01:14:32,310 --> 01:14:30,239

couldn't figure them out and they

2245

01:14:34,709 --> 01:14:32,320

actually spoke about plasma a lot at

2246

01:14:36,550 --> 01:14:34,719

their press conference and identified

2247

01:14:39,590 --> 01:14:36,560

areas with maybe quartz in the ground

2248

01:14:41,350 --> 01:14:39,600

that were very kind of hess darling and

2249

01:14:43,430 --> 01:14:41,360

so what you've got

2250

01:14:45,350 --> 01:14:43,440

that mentioned in the the british ufo

2251

01:14:46,870 --> 01:14:45,360

report as well plasmas things like that

2252

01:14:48,790 --> 01:14:46,880

so it's interesting that the

2253

01:14:50,709 --> 01:14:48,800

conversation's starting to really happen

2254

01:14:53,030 --> 01:14:50,719

on an international scale

2255

01:14:55,030 --> 01:14:53,040

and they're finding similar trends in

2256

01:14:58,709 --> 01:14:55,040

these things so yeah it's great

2257

01:15:00,630 --> 01:14:58,719

australia japan canada us brazil like

2258

01:15:02,470 --> 01:15:00,640

it's not in snowball and and i really

2259

01:15:04,550 --> 01:15:02,480

hope that we see some

2260

01:15:06,630 --> 01:15:04,560

lesser-known places you know like india

2261

01:15:09,590 --> 01:15:06,640

and that side of things

2262

01:15:11,110 --> 01:15:09,600

um start talking about the ufo history

2263

01:15:13,750 --> 01:15:11,120

so a few listener points sent to finish

2264

01:15:15,830 --> 01:15:13,760

off uap focus said it's the origin point

2265

01:15:18,390 --> 01:15:15,840

of a mystery which has befuddled so many

2266

01:15:20,550 --> 01:15:18,400

through obfuscation misinformation and

2267

01:15:22,550 --> 01:15:20,560

inadequate data meaning that we are only

2268

01:15:24,550 --> 01:15:22,560

just a little further down the road when

2269

01:15:27,830 --> 01:15:24,560

we should be in the next time zone by

2270

01:15:29,110 --> 01:15:27,840

now at least um danny moleston says as i

2271

01:15:30,709 --> 01:15:29,120

get older i think it could have been

2272

01:15:32,310 --> 01:15:30,719

something mundane that crashed but the

2273

01:15:34,709 --> 01:15:32,320

government went with a flying saucer

2274

01:15:37,590 --> 01:15:34,719

angle to scare our enemies into thinking

2275

01:15:39,669 --> 01:15:37,600

we had alien tech high level chess i

2276

01:15:42,630 --> 01:15:39,679

want it to be something special and

2277

01:15:46,149 --> 01:15:42,640

maybe it was but i'm not tied to it

2278

01:15:47,910 --> 01:15:46,159

uh brett clark said um i should watch

2279

01:15:50,070 --> 01:15:47,920

six days in roswell again if you haven't

2280

01:15:53,990 --> 01:15:50,080

seen it it's a gem and it's from the

2281

01:15:56,550 --> 01:15:54,000

creator of trekkies uh trey commas says

2282

01:15:58,870 --> 01:15:56,560

this was a this was a decision made to

2283

01:16:00,550 --> 01:15:58,880

conceal for an entire generation i hope

2284

01:16:03,110 --> 01:16:00,560

it was the right call as we discover the

2285

01:16:05,750 --> 01:16:03,120

stories on past heroes of american

2286

01:16:07,189 --> 01:16:05,760

secrecy um adonis says to me it's a

2287

01:16:08,470 --> 01:16:07,199

great example of how something quite

2288

01:16:11,189 --> 01:16:08,480

large can come out of something very

2289

01:16:13,350 --> 01:16:11,199

small i.e crashed military balloon leads

2290

01:16:16,709 --> 01:16:13,360

to tourism industry arguments beliefs

2291

01:16:18,149 --> 01:16:16,719

mythology um mike says simply roswell as

2292

01:16:20,310 --> 01:16:18,159

ufology

2293

01:16:23,110 --> 01:16:20,320

um and see skimmer says seems to me

2294

01:16:25,510 --> 01:16:23,120

someone told the truth 75 years ago then

2295

01:16:26,870 --> 01:16:25,520

someone else covered it up

2296

01:16:27,910 --> 01:16:26,880

i like that that would be a good movie

2297

01:16:30,709 --> 01:16:27,920

tagline

2298

01:16:31,669 --> 01:16:30,719

it would someone told the truth

2299

01:16:34,390 --> 01:16:31,679

again

2300

01:16:37,430 --> 01:16:34,400

someone covered it up

2301

01:16:39,189 --> 01:16:37,440

tom delong's remake of close encounters

2302

01:16:41,350 --> 01:16:39,199

on that note folks we'll leave you thank

2303

01:16:43,830 --> 01:16:41,360

you very much for listening uh this week

2304

01:16:46,070 --> 01:16:43,840

coming up you can rent phenomenology

2305

01:16:47,669 --> 01:16:46,080

episode two if you head to the vimeo

2306

01:16:49,110 --> 01:16:47,679

link we'll pop in the description for

2307

01:16:50,709 --> 01:16:49,120

the podcast

2308

01:16:51,990 --> 01:16:50,719

can i read one review out that we got

2309

01:16:53,270 --> 01:16:52,000

just because i was over the movement

2310

01:16:55,270 --> 01:16:53,280

there so i'm gonna do it anyway yeah i

2311

01:16:57,430 --> 01:16:55,280

thought yeah gaz superfly on twitter

2312

01:16:58,470 --> 01:16:57,440

said first episode has me hooked so well

2313

01:17:00,390 --> 01:16:58,480

produced and put together with

2314

01:17:02,310 --> 01:17:00,400

incredible visuals i can't wait to watch

2315

01:17:03,669 --> 01:17:02,320

the rest of the documentary and see what

2316

01:17:05,430 --> 01:17:03,679

you all discovered the signal and

2317

01:17:07,669 --> 01:17:05,440

disclosure team have brought credibility

2318

01:17:09,910 --> 01:17:07,679

back to ufology in an amazing way what

2319

01:17:11,669 --> 01:17:09,920

an incredible review thank you and yeah

2320

01:17:14,229 --> 01:17:11,679

i think that is it all really and they

2321

01:17:15,910 --> 01:17:14,239

never paid for that review

2322

01:17:18,310 --> 01:17:15,920

and the the coming days you're going to

2323

01:17:20,709 --> 01:17:18,320

hear uh george knapp and colm kelleher

2324

01:17:22,070 --> 01:17:20,719

review the year so far in part one and

2325

01:17:24,390 --> 01:17:22,080

part two those will be released over a

2326

01:17:26,229 --> 01:17:24,400

couple of days folks not too far apart

2327

01:17:28,070 --> 01:17:26,239

really interesting fun conversation the

2328

01:17:31,110 --> 01:17:28,080

full things available early access and

2329

01:17:32,950 --> 01:17:31,120

ad free on patreon apple youtube and any

2330

01:17:35,110 --> 01:17:32,960

other kind of premium platform so thank

2331

01:17:37,030 --> 01:17:35,120

you if you subscribe to any of those

2332

01:17:39,189 --> 01:17:37,040

um then i've recorded with john

2333

01:17:41,510 --> 01:17:39,199

alexander that was rescheduled that one

2334

01:17:43,669 --> 01:17:41,520

will be available next week early access

2335

01:17:45,669 --> 01:17:43,679

to be released the following week and

2336

01:17:47,430 --> 01:17:45,679

this week i've got robin hansen on the

2337

01:17:49,270 --> 01:17:47,440

podcast that'll be out the week after

2338

01:17:50,630 --> 01:17:49,280

that gonna be awesome yeah i'm looking

2339

01:17:51,990 --> 01:17:50,640

forward to that one that was another one

2340

01:17:54,229 --> 01:17:52,000

that had to be rescheduled it's been a

2341

01:17:55,830 --> 01:17:54,239

funny couple of weeks um but we're

2342

01:17:58,229 --> 01:17:55,840

pretty much ahead with things and i

2343

01:18:00,229 --> 01:17:58,239

should also say that when people hear

2344

01:18:01,990 --> 01:18:00,239

you talk to robin hansen

2345

01:18:03,590 --> 01:18:02,000

any questions that you have sent them in

2346

01:18:05,189 --> 01:18:03,600

because i've scheduled him for a

2347

01:18:06,709 --> 01:18:05,199

coloring outside the lines episode in a

2348

01:18:09,270 --> 01:18:06,719

few months so we can get a bit nerdy if

2349

01:18:11,270 --> 01:18:09,280

you want to in that one so yeah let's

2350

01:18:13,990 --> 01:18:11,280

see how they piggyback absolutely do

2351

01:18:15,590 --> 01:18:14,000

that folks absolutely and um jeremy

2352

01:18:17,270 --> 01:18:15,600

corbell should be back on in a few weeks

2353

01:18:18,870 --> 01:18:17,280

as a follow-up to that year in review

2354

01:18:20,950 --> 01:18:18,880

episode and we'll be covering some of

2355

01:18:23,510 --> 01:18:20,960

those points may uh covered with george

2356

01:18:26,390 --> 01:18:23,520

and colm but some other stuff as well

2357

01:18:28,310 --> 01:18:26,400

uh and dan we're going to review

2358

01:18:31,110 --> 01:18:28,320

documentary this month did we decide on

2359

01:18:32,390 --> 01:18:31,120

out of the blue i think we did yeah yeah

2360

01:18:34,470 --> 01:18:32,400

out of the blue

2361

01:18:36,550 --> 01:18:34,480

james fox classic effort we're going to

2362

01:18:37,830 --> 01:18:36,560

do that one and then i think already i

2363

01:18:40,630 --> 01:18:37,840

know in august we're going to do the

2364

01:18:41,990 --> 01:18:40,640

dorothy isaac one as well because quite

2365

01:18:43,750 --> 01:18:42,000

a few people have asked us to look at

2366

01:18:45,990 --> 01:18:43,760

that so yeah this month we'll look at

2367

01:18:47,510 --> 01:18:46,000

the out of the blue but james fox so any

2368

01:18:49,910 --> 01:18:47,520

questions you have or any thoughts or

2369

01:18:51,750 --> 01:18:49,920

opinions on that documentary go watch it

2370

01:18:52,950 --> 01:18:51,760

ahead of time or wait till we review it

2371

01:18:55,590 --> 01:18:52,960

and then you can you can watch

2372

01:18:57,110 --> 01:18:55,600

afterwards as well but uh yeah lots more

2373

01:18:59,350 --> 01:18:57,120

to come this month so thank you very

2374

01:19:01,430 --> 01:18:59,360

much and just one ask for me if you've

2375

01:19:03,669 --> 01:19:01,440

made it this far into the podcast if

2376

01:19:05,750 --> 01:19:03,679

you're having any issues listening on

2377

01:19:07,270 --> 01:19:05,760

any platforms let me know just cause

2378

01:19:09,350 --> 01:19:07,280

some changes i've made with techy stuff

2379

01:19:11,110 --> 01:19:09,360

in the background and apparently it

2380

01:19:13,750 --> 01:19:11,120

might look like some of you on google

2381

01:19:15,750 --> 01:19:13,760

podcasts are having some issues with

2382

01:19:17,510 --> 01:19:15,760

your feed you might have to refresh it

2383

01:19:18,870 --> 01:19:17,520

and but i'll let you know i'll chase

2384

01:19:20,390 --> 01:19:18,880

that one up folks but yeah a couple of

2385

01:19:22,550 --> 01:19:20,400

people have mentioned google podcast

2386

01:19:26,149 --> 01:19:22,560

having a couple of issues but everyone

2387

01:19:27,830 --> 01:19:26,159

else seems okay so far so yeah so dan

2388

01:19:29,590 --> 01:19:27,840

thank you very much and we'll speak to

2389

01:19:31,030 --> 01:19:29,600

everyone else soon

2390

01:19:32,630 --> 01:19:31,040

greetings ladies and gentlemen and

2391

01:19:33,830 --> 01:19:32,640

esteemed members of the government of

2392

01:19:35,750 --> 01:19:33,840

brazil

2393

01:19:37,590 --> 01:19:35,760

i apologize for not being able to make

2394

01:19:40,149 --> 01:19:37,600

this address in person and i hope that

2395

01:19:42,390 --> 01:19:40,159

my appeal is not diminished in any way

2396

01:19:44,070 --> 01:19:42,400

due to my inability to be with you today

2397

01:19:46,149 --> 01:19:44,080

in person

2398

01:19:47,750 --> 01:19:46,159

my name is luis elizondo and i'm a

2399

01:19:49,590 --> 01:19:47,760

career intelligence officer with the

2400

01:19:52,870 --> 01:19:49,600

united states government

2401  
01:19:55,030 --> 01:19:52,880  
from 2008 to 2017 i had the privilege to

2402  
01:19:57,430 --> 01:19:55,040  
participate in a small but significant

2403  
01:20:00,630 --> 01:19:57,440  
program within the pentagon

2404  
01:20:02,870 --> 01:20:00,640  
focusing on the collection of ufo data

2405  
01:20:04,550 --> 01:20:02,880  
in 2010 i was asked to lead the overall

2406  
01:20:06,470 --> 01:20:04,560  
effort which later became a small

2407  
01:20:09,430 --> 01:20:06,480  
footnote to my country's history

2408  
01:20:11,189 --> 01:20:09,440  
involving the dedicated study of this

2409  
01:20:12,870 --> 01:20:11,199  
phenomenon

2410  
01:20:14,470 --> 01:20:12,880  
it was during this time that it became

2411  
01:20:16,310 --> 01:20:14,480  
very evident to all of us involved in

2412  
01:20:18,629 --> 01:20:16,320  
the project that our military was

2413  
01:20:21,110 --> 01:20:18,639

encountering a technology that far

2414

01:20:23,110 --> 01:20:21,120

exceeded our own capabilities

2415

01:20:25,189 --> 01:20:23,120

furthermore it was abundantly clear that

2416

01:20:27,510 --> 01:20:25,199

this technology had the ability to gain

2417

01:20:29,910 --> 01:20:27,520

access to our controlled airspace and

2418

01:20:33,270 --> 01:20:29,920

once more perform in ways that was

2419

01:20:35,030 --> 01:20:33,280

unimaginable and yet verifiable by some

2420

01:20:36,149 --> 01:20:35,040

of our most sophisticated weapon

2421

01:20:38,950 --> 01:20:36,159

platforms

2422

01:20:41,030 --> 01:20:38,960

and data collection techniques

2423

01:20:42,870 --> 01:20:41,040

on a regular routine basis our military

2424

01:20:44,550 --> 01:20:42,880

equities were coming face to face with

2425

01:20:47,110 --> 01:20:44,560

these technologies

2426  
01:20:49,510 --> 01:20:47,120  
perplexing our military eyewitnesses and

2427  
01:20:52,070 --> 01:20:49,520  
stymieing our best efforts to understand

2428  
01:20:54,470 --> 01:20:52,080  
the unique performance characteristics

2429  
01:20:56,470 --> 01:20:54,480  
furthermore of critical concern was the

2430  
01:20:58,709 --> 01:20:56,480  
apparent interest this phenomenon has

2431  
01:21:01,270 --> 01:20:58,719  
with our nuclear technologies including

2432  
01:21:03,030 --> 01:21:01,280  
power generation weapon systems and

2433  
01:21:05,350 --> 01:21:03,040  
propulsion

2434  
01:21:06,950 --> 01:21:05,360  
recently elected officials in my country

2435  
01:21:08,550 --> 01:21:06,960  
have decided the evidence was too

2436  
01:21:09,990 --> 01:21:08,560  
overwhelming to ignore

2437  
01:21:12,149 --> 01:21:10,000  
and called upon our defense and

2438  
01:21:14,950 --> 01:21:12,159

intelligence communities to participate

2439

01:21:16,870 --> 01:21:14,960

in a public hearing of which i suspect

2440

01:21:18,629 --> 01:21:16,880

many more will follow

2441

01:21:20,310 --> 01:21:18,639

the result of the hearing was simple and

2442

01:21:21,350 --> 01:21:20,320

yet astonishing

2443

01:21:23,350 --> 01:21:21,360

one

2444

01:21:24,229 --> 01:21:23,360

ufo's are real

2445

01:21:26,950 --> 01:21:24,239

two

2446

01:21:29,590 --> 01:21:26,960

ufos most likely represent a real

2447

01:21:32,229 --> 01:21:29,600

technology and three

2448

01:21:35,430 --> 01:21:32,239

ufos are considered a national interest

2449

01:21:39,430 --> 01:21:37,910

further reinforcing this new priority is

2450

01:21:41,270 --> 01:21:39,440

a requirement for our defense and

2451  
01:21:43,750 --> 01:21:41,280  
intelligence communities to work with

2452  
01:21:45,510 --> 01:21:43,760  
partner nations and allies

2453  
01:21:47,750 --> 01:21:45,520  
although i applaud this new renewed

2454  
01:21:49,110 --> 01:21:47,760  
interest in a historically forbidden

2455  
01:21:51,270 --> 01:21:49,120  
area of study

2456  
01:21:54,070 --> 01:21:51,280  
it is with great concern that i worry

2457  
01:21:56,709 --> 01:21:54,080  
about any single country having monopoly

2458  
01:21:59,270 --> 01:21:56,719  
on the study of what is now considered

2459  
01:22:00,310 --> 01:21:59,280  
beyond next generation technology and by

2460  
01:22:02,709 --> 01:22:00,320  
default

2461  
01:22:05,510 --> 01:22:02,719  
controlling the narrative on this topic

2462  
01:22:07,510 --> 01:22:05,520  
this is precisely the mindset that has

2463  
01:22:10,149 --> 01:22:07,520

relegated this legitimate study of this

2464

01:22:12,229 --> 01:22:10,159

topic to fringe and pseudoscience for

2465

01:22:13,669 --> 01:22:12,239

the last 70 years

2466

01:22:15,510 --> 01:22:13,679

ladies and gentlemen

2467

01:22:17,350 --> 01:22:15,520

today i speak to you not as a former

2468

01:22:19,270 --> 01:22:17,360

intelligence officer

2469

01:22:20,310 --> 01:22:19,280

not as a representative of the u.s

2470

01:22:22,550 --> 01:22:20,320

government

2471

01:22:24,870 --> 01:22:22,560

and not as a ufo expert

2472

01:22:26,390 --> 01:22:24,880

today i appeal to you as an ordinary

2473

01:22:27,750 --> 01:22:26,400

citizen of the world

2474

01:22:29,030 --> 01:22:27,760

as your brother

2475

01:22:30,950 --> 01:22:29,040

your father

2476

01:22:33,750 --> 01:22:30,960

your son

2477

01:22:35,910 --> 01:22:33,760

pleading you take this topic seriously

2478

01:22:38,390 --> 01:22:35,920

and to do what is necessary

2479

01:22:40,470 --> 01:22:38,400

not just for your constituents but for

2480

01:22:43,270 --> 01:22:40,480

every person on the planet

2481

01:22:47,030 --> 01:22:43,280

today you have a rare opportunity that

2482

01:22:49,189 --> 01:22:47,040

comes only once in a lifetime

2483

01:22:50,870 --> 01:22:49,199

today i ask you seriously consider the

2484

01:22:53,669 --> 01:22:50,880

establishment of a brazilian

2485

01:22:56,629 --> 01:22:53,679

government-sponsored ufo program

2486

01:22:58,709 --> 01:22:56,639

that includes scientists and academics

2487

01:23:00,470 --> 01:22:58,719

the time has come to remove conspiracy

2488

01:23:01,590 --> 01:23:00,480

theory and replace it with quantum

2489

01:23:03,750 --> 01:23:01,600

theory

2490

01:23:05,110 --> 01:23:03,760

remove stigma and replace it with

2491

01:23:06,550 --> 01:23:05,120

academia

2492

01:23:09,350 --> 01:23:06,560

remove secrecy

2493

01:23:11,590 --> 01:23:09,360

and replace it with transparency

2494

01:23:13,590 --> 01:23:11,600

i ask that brazil help lead the world in

2495

01:23:15,030 --> 01:23:13,600

a new millennium of enlightenment and

2496

01:23:17,430 --> 01:23:15,040

knowledge

2497

01:23:18,790 --> 01:23:17,440

i dream that one day brazil may sit

2498

01:23:21,030 --> 01:23:18,800

amongst friends

2499

01:23:22,790 --> 01:23:21,040

perhaps at the united nations or perhaps

2500

01:23:24,870 --> 01:23:22,800

even in san marino

2501

01:23:27,189 --> 01:23:24,880

and help usher in a new era of

2502

01:23:28,629 --> 01:23:27,199

understanding

2503

01:23:30,470 --> 01:23:28,639

before i close i'd like to share a

2504

01:23:32,550 --> 01:23:30,480

little little personal thought if i may

2505

01:23:34,709 --> 01:23:32,560

with you

2506

01:23:38,709 --> 01:23:34,719

you are in a very rare opportunity right

2507

01:23:41,189 --> 01:23:38,719

now as as leaders for for brazil

2508

01:23:43,910 --> 01:23:41,199

um times and opportunities like this do

2509

01:23:45,750 --> 01:23:43,920

not happen very often in fact in a in a

2510

01:23:47,830 --> 01:23:45,760

one person's lifetime they don't they

2511

01:23:51,350 --> 01:23:47,840

they may not happen at all but as a

2512

01:23:52,950 --> 01:23:51,360

species as a species these paradigm

2513

01:23:55,270 --> 01:23:52,960

moments for us

2514

01:23:57,510 --> 01:23:55,280

occur and in fact are a natural part of

2515

01:23:59,430 --> 01:23:57,520

our species evolution

2516

01:24:01,350 --> 01:23:59,440

one may infer the very first time that

2517

01:24:03,669 --> 01:24:01,360

man came out of the cave and looked into

2518

01:24:06,950 --> 01:24:03,679

the heavens and realized that the

2519

01:24:09,110 --> 01:24:06,960

shadows that were were being portrayed

2520

01:24:11,110 --> 01:24:09,120

on the side of the cave wall were no

2521

01:24:13,350 --> 01:24:11,120

longer real that wasn't that wasn't

2522

01:24:14,709 --> 01:24:13,360

mankind's reality and crawling out of

2523

01:24:16,709 --> 01:24:14,719

the cave for the first time and

2524

01:24:18,470 --> 01:24:16,719

witnessing the heavens maybe that was

2525

01:24:19,910 --> 01:24:18,480

the first fundamental paradigm change

2526

01:24:22,070 --> 01:24:19,920

for our species

2527

01:24:24,149 --> 01:24:22,080

perhaps the second time was when mankind

2528

01:24:26,790 --> 01:24:24,159

struck two stones together

2529

01:24:29,590 --> 01:24:26,800

and created a spark and that spark then

2530

01:24:31,669 --> 01:24:29,600

led to fire and that fire illuminated

2531

01:24:32,709 --> 01:24:31,679

the darkness for which man was scared at

2532

01:24:35,189 --> 01:24:32,719

one time

2533

01:24:37,430 --> 01:24:35,199

and now man could could now

2534

01:24:38,629 --> 01:24:37,440

roam freely in the night illuminating

2535

01:24:40,709 --> 01:24:38,639

the darkness

2536

01:24:41,510 --> 01:24:40,719

and perhaps the last time mankind came

2537

01:24:43,430 --> 01:24:41,520

to

2538

01:24:45,030 --> 01:24:43,440

some sort of paradigm moment like this

2539

01:24:47,910 --> 01:24:45,040

for our species

2540

01:24:49,189 --> 01:24:47,920

was when two people were standing on a

2541

01:24:51,270 --> 01:24:49,199

sandy beach

2542

01:24:53,990 --> 01:24:51,280

and one person looks to the other and

2543

01:24:55,910 --> 01:24:54,000

says i'm gonna sail over that horizon

2544

01:24:57,270 --> 01:24:55,920

and of course the other person said no

2545

01:24:59,270 --> 01:24:57,280

you don't want to do that because you'll

2546

01:25:01,030 --> 01:24:59,280

fall off the earth and in fact there are

2547

01:25:03,510 --> 01:25:01,040

sea monsters out there there's giant

2548

01:25:05,030 --> 01:25:03,520

kraken and they will destroy your ship

2549

01:25:06,870 --> 01:25:05,040

and of course now we look back and we

2550

01:25:08,709 --> 01:25:06,880

kind of laugh at that but in reality it

2551

01:25:10,310 --> 01:25:08,719

turns out there are sea monsters it's

2552

01:25:12,470 --> 01:25:10,320

just that those scene monsters now have

2553

01:25:13,669 --> 01:25:12,480

names they're called great white sharks

2554

01:25:15,590 --> 01:25:13,679

they're called blue whales they're

2555

01:25:17,189 --> 01:25:15,600

called great squid of the pacific and

2556

01:25:19,350 --> 01:25:17,199

and they're not really sea monsters are

2557

01:25:21,030 --> 01:25:19,360

they they're they're part of our natural

2558

01:25:23,750 --> 01:25:21,040

world they're part of nature they're

2559

01:25:25,430 --> 01:25:23,760

part of our our current paradigm

2560

01:25:27,590 --> 01:25:25,440

and so perhaps

2561

01:25:29,990 --> 01:25:27,600

with this topic this is yet just another

2562

01:25:31,990 --> 01:25:30,000

paradigm moment perhaps we as a species

2563

01:25:32,629 --> 01:25:32,000

are standing yet on another sandy beach

2564

01:25:34,470 --> 01:25:32,639

and

2565

01:25:36,790 --> 01:25:34,480

we're looking at the horizon one more

2566

01:25:39,430 --> 01:25:36,800

time and we're about to sail over that

2567

01:25:40,390 --> 01:25:39,440

horizon together i would submit to you

2568

01:25:42,550 --> 01:25:40,400

that that

2569

01:25:45,110 --> 01:25:42,560

change is a very necessary and very

2570

01:25:47,189 --> 01:25:45,120

healthy part of our species evolution

2571

01:25:49,189 --> 01:25:47,199

and i believe we may be at the precipice

2572

01:25:51,910 --> 01:25:49,199

yet again of another paradigm moment for

2573

01:25:54,550 --> 01:25:53,030

in closing

2574

01:25:55,990 --> 01:25:54,560
