1
00:00:05,349 --> 00:00:03,510
what is your take on in 2022

2
00:00:07,430 --> 00:00:05,359
nasa getting further involved in the

3
00:00:09,910 --> 00:00:07,440
study of the ufos

4
00:00:10,950 --> 00:00:09,920
welcome to the club

5
00:00:13,430 --> 00:00:10,960
now

6
00:00:14,910 --> 00:00:13,440
that's not only facetious

7
00:00:17,109 --> 00:00:14,920
until very

8
00:00:20,230 --> 00:00:17,119
recently in fact i'm telling us bill

9
00:00:23,269 --> 00:00:20,240
nelson took over as the administrator

10
00:00:25,269 --> 00:00:23,279
their position has been overtly hostile

11
00:00:27,670 --> 00:00:25,279
to zero now this doesn't mean that you

12
00:00:31,669 --> 00:00:27,680
didn't have astronauts and individuals

13
00:00:33,190 --> 00:00:31,679

who had some interest and but as an

14

00:00:35,750 --> 00:00:33,200

institution

15

00:00:37,350 --> 00:00:35,760

they were very very negative

16

00:00:40,150 --> 00:00:37,360

on the topic

17

00:00:43,110 --> 00:00:40,160

and that's unfortunate i think now the

18

00:00:45,190 --> 00:00:43,120

evidence has become overwhelming

19

00:00:47,830 --> 00:00:45,200

and they're kind of following suit

20

00:00:48,950 --> 00:00:47,840

because of what gop is doing

21

00:00:50,790 --> 00:00:48,960

now

22

00:00:53,350 --> 00:00:50,800

do not believe

23

00:00:55,750 --> 00:00:53,360

that because the

24

00:00:56,869 --> 00:00:55,760

department of defense says the uap task

25

00:00:59,670 --> 00:00:56,879

force or

26

00:01:01,510 --> 00:00:59,680

that that is widely accepted

27

00:01:02,630 --> 00:01:01,520

there are plenty of people in there who

28

00:01:05,750 --> 00:01:02,640

just

29

00:01:07,750 --> 00:01:05,760

it's like project blue book

30

00:01:10,390 --> 00:01:07,760

and the condom report the idea of the

31

00:01:12,390 --> 00:01:10,400

common report putting it out was to make

32

00:01:14,710 --> 00:01:12,400

this go away

33

00:01:16,789 --> 00:01:14,720

we just don't want to deal with it and i

34

00:01:18,070 --> 00:01:16,799

can understand why these are pretty good

35

00:01:20,149 --> 00:01:18,080

reasons

36

00:01:22,789 --> 00:01:20,159

um

37

00:01:24,870 --> 00:01:22,799

i you know i've said

38

00:01:27,030 --> 00:01:24,880

my little

39

00:01:29,429 --> 00:01:27,040

venues that you know i i think the

40

00:01:31,830 --> 00:01:29,439

phenomenons we're dealing with are more

41

00:01:33,749 --> 00:01:31,840

complex than cancer

42

00:01:36,469 --> 00:01:33,759

so the point is when you're going to put

43

00:01:38,469 --> 00:01:36,479

a small amount of resources against it

44

00:01:40,390 --> 00:01:38,479

what's your probability that you're

45

00:01:43,030 --> 00:01:40,400

going to be able to come up with

46

00:01:46,870 --> 00:01:43,040

you know definitive answers

47

00:01:48,389 --> 00:01:46,880

i think dod has a role to play but not

48

00:01:51,590 --> 00:01:48,399

b-roll

49

00:01:54,870 --> 00:01:51,600

uh it is far bigger than anything now i

50

00:01:57,510 --> 00:01:54,880

think their role is twofold one

51
00:02:00,230 --> 00:01:57,520
is how do these things interacting with

52
00:02:02,709 --> 00:02:00,240
their platform planes and that and two

53
00:02:04,069 --> 00:02:02,719
they bring sensor systems

54
00:02:06,550 --> 00:02:04,079
that can

55
00:02:08,469 --> 00:02:06,560
make recordings that are not generally

56
00:02:10,150 --> 00:02:08,479
available to the public so from a
