IMMEDIATE RELEASE

DoD Announces the Establishment of the All-domain Anomaly Resolution Office

JULY 20, 2022

THE

BREAKDOWN

Airborne Object Identification and Management Group (AOIMSG) to the All-domain

1
00:00:03,350 --> 00:00:01,270

[Music]

2
00:00:09,830 --> 00:00:03,360
this is lou elizondo and you are

3
00:00:14,310 --> 00:00:12,230
hi everyone and welcome back to that ufo

4
00:00:16,310 --> 00:00:14,320
podcast my name is andy and we've got

5
00:00:18,790 --> 00:00:16,320
some breaking news that happened well a

6
00:00:21,269 --> 00:00:18,800
few days ago as we record this joining

7
00:00:23,269 --> 00:00:21,279
me of course for this one is dan

8
00:00:24,790 --> 00:00:23,279
hi howdy howdy how are you

9
00:00:25,910 --> 00:00:24,800
yep not bad we've been talking for half

10
00:00:28,470 --> 00:00:25,920
an hour let's dispense with the

11
00:00:30,310 --> 00:00:28,480
pleasantries um we said this will be a

12
00:00:32,389 --> 00:00:30,320
quicker one than normal it feels like

13
00:00:34,229 --> 00:00:32,399

we've not recorded much in a while

14

00:00:35,750 --> 00:00:34,239

people won't really have noticed that

15

00:00:37,510 --> 00:00:35,760

because the stuff's still been coming

16

00:00:39,110 --> 00:00:37,520

out regularly but

17

00:00:40,709 --> 00:00:39,120

managed to get a better head in terms of

18

00:00:42,790 --> 00:00:40,719

interviews and schedules and everything

19

00:00:45,510 --> 00:00:42,800

else i've been working a lot dan's been

20

00:00:47,510 --> 00:00:45,520

working a lot and dan is about to move

21

00:00:48,869 --> 00:00:47,520

as you may have saw online so it's been

22

00:00:50,229 --> 00:00:48,879

best that the way we've done it and

23

00:00:52,229 --> 00:00:50,239

we've finally got a chance to at least

24

00:00:53,510 --> 00:00:52,239

record this one dan moves over the

25

00:00:55,830 --> 00:00:53,520

weekend and then we're all we're all

26

00:00:57,110 --> 00:00:55,840

good for a regular schedule again but i

27

00:00:59,750 --> 00:00:57,120

don't think people should have noticed

28

00:01:01,670 --> 00:00:59,760

any any difference anyway yeah it was a

29

00:01:03,510 --> 00:01:01,680

smooth transition but my wall will be

30

00:01:05,189 --> 00:01:03,520

changing soon so people will notice that

31

00:01:06,950 --> 00:01:05,199

probably right that's that's the unless

32

00:01:08,630 --> 00:01:06,960

they're on audio

33

00:01:10,149 --> 00:01:08,640

yeah in which case it doesn't matter

34

00:01:12,230 --> 00:01:10,159

because now

35

00:01:14,550 --> 00:01:12,240

dan's audio wall will be changing and

36

00:01:15,910 --> 00:01:14,560

hopefully his audio doesn't um unless

37

00:01:18,149 --> 00:01:15,920

you hate his audio then it may change

38

00:01:20,469 --> 00:01:18,159

for the better yeah

39

00:01:22,390 --> 00:01:20,479

but yeah on the 20th of july it was

40

00:01:25,910 --> 00:01:22,400

announced online from the department of

41

00:01:28,070 --> 00:01:25,920

defense that on the 15th of july the

42

00:01:30,069 --> 00:01:28,080

deputy secretary of defense kathleen

43

00:01:32,230 --> 00:01:30,079

hicks in coordination with the director

44

00:01:33,830 --> 00:01:32,240

of national intelligence amended her

45

00:01:35,510 --> 00:01:33,840

original direction to the under

46

00:01:38,390 --> 00:01:35,520

secretary of defense for intelligence

47

00:01:41,109 --> 00:01:38,400

and security by renaming and expanding

48

00:01:42,550 --> 00:01:41,119

the scope of the aoi msg which as we

49

00:01:45,429 --> 00:01:42,560

know was the airborne object

50

00:01:48,389 --> 00:01:45,439

identification and management group to a

51
00:01:51,350 --> 00:01:48,399
new office titled arrow which was the

52
00:01:54,389 --> 00:01:51,360
all domain anomaly resolution office and

53
00:01:57,190 --> 00:01:54,399
for jazz shaw the hyphen does negate the

54
00:01:59,270 --> 00:01:57,200
d being part of that um

55
00:02:03,030 --> 00:01:59,280
it does even i know that one jazz shame

56
00:02:07,749 --> 00:02:03,040
on you um so yes so the a a r o so the

57
00:02:09,749 --> 00:02:07,759
aoi msg is gone and we have arrow

58
00:02:11,589 --> 00:02:09,759
um and this is due to the enactment of

59
00:02:15,110 --> 00:02:11,599
the national defense authorization act

60
00:02:16,869 --> 00:02:15,120
ndaa for fiscal year 2022 which we've

61
00:02:18,790 --> 00:02:16,879
just had the new language amendments for

62
00:02:21,350 --> 00:02:18,800
which we covered recently on the podcast

63
00:02:23,270 --> 00:02:21,360

as well um which included a provision to

64

00:02:25,589 --> 00:02:23,280

establish an office in coordination with

65

00:02:27,589 --> 00:02:25,599

the dni with responsibilities that were

66

00:02:30,150 --> 00:02:27,599

broader than those originally assigned

67

00:02:32,790 --> 00:02:30,160

to the eoi msg that was the initial

68

00:02:36,070 --> 00:02:32,800

statement on the dod's website dan and

69

00:02:37,990 --> 00:02:36,080

so in short aoi msg no longer a thing we

70

00:02:40,710 --> 00:02:38,000

get rid of that huge acronym we have

71

00:02:41,830 --> 00:02:40,720

this new office the aaro

72

00:02:43,110 --> 00:02:41,840

um

73

00:02:44,390 --> 00:02:43,120

what were your initial thoughts when you

74

00:02:46,630 --> 00:02:44,400

saw this drop

75

00:02:48,470 --> 00:02:46,640

my immediate thought is that the word

76

00:02:52,150 --> 00:02:48,480

arrow is a hell of a lot better to say

77

00:02:54,070 --> 00:02:52,160

than aim sog i think everyone can agree

78

00:02:55,589 --> 00:02:54,080

it's nice that now that i mean i know

79

00:02:57,350 --> 00:02:55,599

we're talking about it so it's a little

80

00:02:59,589 --> 00:02:57,360

ironic for me to say but it's nice that

81

00:03:02,229 --> 00:02:59,599

when we say oh yeah america has a uap

82

00:03:04,309 --> 00:03:02,239

office it's arrow people won't go

83

00:03:05,670 --> 00:03:04,319

you know what the hell is that word

84

00:03:07,670 --> 00:03:05,680

there won't be so much conversation

85

00:03:09,030 --> 00:03:07,680

about the naming of the office which is

86

00:03:10,470 --> 00:03:09,040

good we can focus on the content and

87

00:03:12,790 --> 00:03:10,480

what they're doing now

88

00:03:15,830 --> 00:03:12,800

there was a phrase that came

89

00:03:18,630 --> 00:03:15,840

along with this legislation um which had

90

00:03:21,030 --> 00:03:18,640

another hyphen in it uh which was

91

00:03:25,670 --> 00:03:21,040

unidentified oh i'm gonna mess this up

92

00:03:30,070 --> 00:03:28,309

i've forgotten the second u done

93

00:03:32,390 --> 00:03:30,080

um but basically

94

00:03:34,550 --> 00:03:32,400

it's the

95

00:03:35,910 --> 00:03:34,560

the new phrasing for uap which includes

96

00:03:37,910 --> 00:03:35,920

a term that

97

00:03:39,910 --> 00:03:37,920

is not just saying trans medium it

98

00:03:41,509 --> 00:03:39,920

denotes that it goes through multiple

99

00:03:43,750 --> 00:03:41,519

domains

100

00:03:45,910 --> 00:03:43,760

so it's go on people people are getting

101
00:03:47,830 --> 00:03:45,920
too caught up i think and i get it's the

102
00:03:49,350 --> 00:03:47,840
detail okay but all the different

103
00:03:50,949 --> 00:03:49,360
acronyms that people are coming out with

104
00:03:53,110 --> 00:03:50,959
online whenever they see a new piece of

105
00:03:54,630 --> 00:03:53,120
legislation or some language being put

106
00:03:57,190 --> 00:03:54,640
in i think a lot of these are just

107
00:03:59,110 --> 00:03:57,200
covering the bases of what is being seen

108
00:04:00,869 --> 00:03:59,120
ultimately folks like i've said before

109
00:04:02,949 --> 00:04:00,879
and you can like this you can hate it or

110
00:04:07,190 --> 00:04:02,959
you can be non-plus

111
00:04:09,110 --> 00:04:07,200
ufo covers all of these still it's just

112
00:04:11,350 --> 00:04:09,120
language that people may or may not find

113
00:04:13,429 --> 00:04:11,360

stigmatized we then kind of got used to

114

00:04:14,949 --> 00:04:13,439

uap and i think people are just getting

115

00:04:18,789 --> 00:04:14,959

a little bit too excited whenever they

116

00:04:20,949 --> 00:04:18,799

see oh usap or you you sap and it's like

117

00:04:23,110 --> 00:04:20,959

it's all still the same thing

118

00:04:24,310 --> 00:04:23,120

yeah and uap has been going since what

119

00:04:29,670 --> 00:04:24,320

the earliest mention we found i think

120

00:04:32,629 --> 00:04:31,030

puts the documents in our chat then

121

00:04:35,430 --> 00:04:32,639

doesn't he says yeah absolutely it says

122

00:04:37,350 --> 00:04:35,440

uap here back in the 40s and 50s and it

123

00:04:39,590 --> 00:04:37,360

just wasn't as common especially in the

124

00:04:40,830 --> 00:04:39,600

public domain yeah absolutely and it

125

00:04:44,070 --> 00:04:40,840

hasn't replaced

126

00:04:46,070 --> 00:04:44,080

ufo despite being around for 50 to 20 of

127

00:04:48,790 --> 00:04:46,080

sorry 50 to 70 years so i don't think

128

00:04:51,350 --> 00:04:48,800

it's gonna replace ufo the public calls

129

00:04:54,469 --> 00:04:51,360

them ufos officials call them uap i

130

00:04:58,230 --> 00:04:54,479

would say that's the line yeah 100

131

00:05:00,550 --> 00:04:58,240

i use the wwf wwe you know wwe has been

132

00:05:01,990 --> 00:05:00,560

around now since 2002. oh sure but to

133

00:05:03,990 --> 00:05:02,000

the general public who don't watch

134

00:05:05,670 --> 00:05:04,000

wrestling it's the wwf

135

00:05:08,390 --> 00:05:05,680

and that's that's still the wrestling to

136

00:05:11,430 --> 00:05:08,400

them so it's that kind of thing um arrow

137

00:05:13,510 --> 00:05:11,440

itself so aaron remember folks uh its

138

00:05:15,670 --> 00:05:13,520

mission according to the statement

139

00:05:17,189 --> 00:05:15,680

online the mission of arrow will be to

140

00:05:18,790 --> 00:05:17,199

synchronize efforts across the

141

00:05:21,590 --> 00:05:18,800

department of defense

142

00:05:24,790 --> 00:05:21,600

and with other u.s federal departments

143

00:05:28,070 --> 00:05:24,800

and agencies to detect identify and

144

00:05:30,230 --> 00:05:28,080

attribute objects of interest in on or

145

00:05:32,790 --> 00:05:30,240

near military installations

146

00:05:35,749 --> 00:05:32,800

operating areas training areas special

147

00:05:38,310 --> 00:05:35,759

use airspace and other areas of interest

148

00:05:41,189 --> 00:05:38,320

and as necessary to mitigate any

149

00:05:43,189 --> 00:05:41,199

associated threats of safety or to

150

00:05:45,430 --> 00:05:43,199

safety of operations and national

151
00:05:47,749 --> 00:05:45,440
security this includes anomalous

152
00:05:49,909 --> 00:05:47,759
unidentified space airborne submerged

153
00:05:51,670 --> 00:05:49,919
and trans medium objects so they really

154
00:05:53,670 --> 00:05:51,680
are covering the bases they are now of

155
00:05:56,390 --> 00:05:53,680
not just things flying about in the air

156
00:05:57,430 --> 00:05:56,400
but things that can go underwater can go

157
00:05:59,430 --> 00:05:57,440
in space

158
00:06:01,670 --> 00:05:59,440
and you know again trans medium doing

159
00:06:03,430 --> 00:06:01,680
some or all of the above and potentially

160
00:06:04,950 --> 00:06:03,440
as we've discussed a long time ago

161
00:06:06,629 --> 00:06:04,960
previously done

162
00:06:08,469 --> 00:06:06,639
going through physical objects could

163
00:06:10,150 --> 00:06:08,479

technically now be part of that as well

164

00:06:12,790 --> 00:06:10,160

well this was the reason i was happy

165

00:06:13,990 --> 00:06:12,800

with the old domain being in the arrow

166

00:06:15,430 --> 00:06:14,000

acronym

167

00:06:17,749 --> 00:06:15,440

the the phrasing that i kind of forgot

168

00:06:19,590 --> 00:06:17,759

earlier was unidentified aerospace dash

169

00:06:21,990 --> 00:06:19,600

undersea phenomena so to me that

170

00:06:24,070 --> 00:06:22,000

includes you know space a and then the c

171

00:06:26,309 --> 00:06:24,080

but there are more mediums uh in the

172

00:06:28,710 --> 00:06:26,319

universe than those three things so it

173

00:06:30,390 --> 00:06:28,720

makes sense to cover those bases by just

174

00:06:33,029 --> 00:06:30,400

saying all domain in the language it

175

00:06:35,189 --> 00:06:33,039

even says unknown domains so it's giving

176

00:06:38,309 --> 00:06:35,199

room for you know places and things that

177

00:06:41,189 --> 00:06:38,319

we we just don't know exist yet um

178

00:06:43,270 --> 00:06:41,199

they're expanding that scope to really

179

00:06:45,990 --> 00:06:43,280

drive home the fact that they're looking

180

00:06:47,990 --> 00:06:46,000

at anomalous craft that don't fit under

181

00:06:49,189 --> 00:06:48,000

the remit of things like drones even

182

00:06:50,950 --> 00:06:49,199

though that might be a part of the

183

00:06:52,710 --> 00:06:50,960

conversation

184

00:06:54,870 --> 00:06:52,720

but what's the idea ultimately still

185

00:06:56,629 --> 00:06:54,880

being this this organization the same as

186

00:06:58,950 --> 00:06:56,639

the one before it and the same as a task

187

00:07:00,469 --> 00:06:58,960

force the same as any other that would

188

00:07:03,029 --> 00:07:00,479

be around that we've heard of or not

189

00:07:05,589 --> 00:07:03,039

heard of we still want to find out what

190

00:07:07,510 --> 00:07:05,599

these objects are what the origin is so

191

00:07:08,950 --> 00:07:07,520

yeah it's great we can keep covering

192

00:07:10,230 --> 00:07:08,960

more and more things that they may or

193

00:07:11,670 --> 00:07:10,240

may not do

194

00:07:14,309 --> 00:07:11,680

but ultimately we don't want that to

195

00:07:15,510 --> 00:07:14,319

detract from from what it does

196

00:07:16,710 --> 00:07:15,520

yeah you know

197

00:07:19,350 --> 00:07:16,720

what are they that's the ultimate

198

00:07:21,670 --> 00:07:19,360

question 100 and we've spoken about this

199

00:07:23,270 --> 00:07:21,680

a lot as well like we we both of us

200

00:07:24,629 --> 00:07:23,280

don't think that there's only one thing

201

00:07:26,710 --> 00:07:24,639

here we think that there are multiple

202

00:07:27,830 --> 00:07:26,720

things happening multiple phenomena some

203

00:07:29,270 --> 00:07:27,840

of them might be natural some of them

204

00:07:30,629 --> 00:07:29,280

might be you know visited from other

205

00:07:32,629 --> 00:07:30,639

planets some of them might be something

206

00:07:35,270 --> 00:07:32,639

else as well so

207

00:07:36,870 --> 00:07:35,280

as we go forward we will start labeling

208

00:07:38,469 --> 00:07:36,880

these things and narrowing them down you

209

00:07:39,830 --> 00:07:38,479

know the the giant squid isn't going to

210

00:07:41,350 --> 00:07:39,840

call a monster at the edge of the map

211

00:07:43,270 --> 00:07:41,360

forever it's now a giant squid and

212

00:07:45,270 --> 00:07:43,280

science studies it uh eventually we will

213

00:07:47,430 --> 00:07:45,280

have a name for you know it won't be a

214

00:07:49,029 --> 00:07:47,440

tic tac it'll be probably named after

215

00:07:50,390 --> 00:07:49,039

the species that made it possibly if if

216

00:07:52,230 --> 00:07:50,400

that's what it is

217

00:07:53,909 --> 00:07:52,240

so let me ask you then

218

00:07:58,070 --> 00:07:53,919

this replaces the

219

00:07:59,589 --> 00:07:58,080

aoi msg ai aim sog whatever people want

220

00:08:00,869 --> 00:07:59,599

to call it or whatever that was it's now

221

00:08:02,150 --> 00:08:00,879

gone

222

00:08:05,510 --> 00:08:02,160

what did

223

00:08:07,029 --> 00:08:05,520

amesog actually do or did it actually do

224

00:08:09,350 --> 00:08:07,039

anything wrong because it doesn't seem

225

00:08:11,510 --> 00:08:09,360

like it was about all too long to get

226

00:08:14,230 --> 00:08:11,520

any actual work done before it's

227

00:08:16,950 --> 00:08:14,240

disappeared yeah absolutely so

228

00:08:17,749 --> 00:08:16,960

about the only thing we saw aimsaw do

229

00:08:19,990 --> 00:08:17,759

was

230

00:08:22,710 --> 00:08:20,000

take over everything that the the uap

231

00:08:24,150 --> 00:08:22,720

task force had yeah start going through

232

00:08:25,589 --> 00:08:24,160

that

233

00:08:29,110 --> 00:08:25,599

and then

234

00:08:31,110 --> 00:08:29,120

also brief uh maltreat and bray for the

235

00:08:33,110 --> 00:08:31,120

hearing that we saw and we saw how

236

00:08:35,909 --> 00:08:33,120

ill-equipped they were so i remember

237

00:08:37,509 --> 00:08:35,919

when aoi msg was announced and we all

238

00:08:39,269 --> 00:08:37,519

thought that they were trying to kind of

239

00:08:41,350 --> 00:08:39,279

the dod was trying to distract from the

240

00:08:42,709 --> 00:08:41,360

gillibrand rubio amendment because that

241

00:08:45,750 --> 00:08:42,719

was a really extensive piece of

242

00:08:46,949 --> 00:08:45,760

legislation and if the office for uap

243

00:08:48,470 --> 00:08:46,959

study had been defined by the

244

00:08:51,030 --> 00:08:48,480

legislation it would have been a lot

245

00:08:52,230 --> 00:08:51,040

broader and a lot more far-reaching than

246

00:08:55,350 --> 00:08:52,240

aimsog

247

00:08:58,070 --> 00:08:55,360

ended up being so i i i would i feel

248

00:09:00,070 --> 00:08:58,080

confident saying that aims was exactly

249

00:09:02,070 --> 00:09:00,080

what we feared it was it was just

250

00:09:04,070 --> 00:09:02,080

something to try and appease the the

251
00:09:05,750 --> 00:09:04,080
senators and to make them back off as

252
00:09:08,470 --> 00:09:05,760
opposed to something that was actually a

253
00:09:11,110 --> 00:09:08,480
robust office meant to investigate these

254
00:09:12,150 --> 00:09:11,120
things thoroughly whereas this new

255
00:09:14,310 --> 00:09:12,160
office

256
00:09:16,710 --> 00:09:14,320
looking at the new legislation as well

257
00:09:19,030 --> 00:09:16,720
even though it's just a rebrand

258
00:09:20,710 --> 00:09:19,040
the person that they've brought in uh dr

259
00:09:23,829 --> 00:09:20,720
sean kirkpatrick who will speak about in

260
00:09:27,670 --> 00:09:23,839
a minute like he's he's not someone that

261
00:09:31,030 --> 00:09:27,680
messes around and i think that reflects

262
00:09:32,870 --> 00:09:31,040
this newer office's attitude

263
00:09:36,630 --> 00:09:32,880

so do you think the rebranding which

264

00:09:39,030 --> 00:09:36,640

essentially is is what this largely is

265

00:09:41,670 --> 00:09:39,040

all because of what's happened in the

266

00:09:43,910 --> 00:09:41,680

time from it being set up to to just

267

00:09:46,389 --> 00:09:43,920

before this essentially those hearings

268

00:09:48,550 --> 00:09:46,399

and the performance of moultrie and bray

269

00:09:50,550 --> 00:09:48,560

and the kind of lack of confidence that

270

00:09:52,710 --> 00:09:50,560

people seem to have in government with

271

00:09:54,389 --> 00:09:52,720

this office do you think that's prompted

272

00:09:56,630 --> 00:09:54,399

this rethink

273

00:09:59,910 --> 00:09:56,640

structure

274

00:10:02,230 --> 00:09:59,920

yeah i 100 think that um

275

00:10:03,430 --> 00:10:02,240

unfortunately it's still under the ousdi

276

00:10:05,430 --> 00:10:03,440

uh which is the office for under

277

00:10:09,269 --> 00:10:05,440

secretary of defense for intelligence

278

00:10:12,710 --> 00:10:10,069

who

279

00:10:14,310 --> 00:10:12,720

is the under sec f for intel security as

280

00:10:15,590 --> 00:10:14,320

i'm getting used to that's correct i

281

00:10:19,190 --> 00:10:15,600

always forget those there are so many

282

00:10:21,190 --> 00:10:19,200

terms here right like we don't know

283

00:10:25,670 --> 00:10:21,200

yeah

284

00:10:27,430 --> 00:10:25,680

it's a step in the right direction

285

00:10:30,710 --> 00:10:27,440

and that it's addressing a lot of the

286

00:10:33,670 --> 00:10:30,720

criticism that was levied at aimsog and

287

00:10:35,750 --> 00:10:33,680

before that the uaptf now it's becoming

288

00:10:38,550 --> 00:10:35,760

more of a well like say a more of a

289

00:10:40,389 --> 00:10:38,560

robust office and i'm sure there are

290

00:10:42,389 --> 00:10:40,399

gaps in this legislation

291

00:10:43,829 --> 00:10:42,399

that will be filled in next year and the

292

00:10:45,990 --> 00:10:43,839

year after that and the year after that

293

00:10:47,829 --> 00:10:46,000

as we move forward this isn't perfect by

294

00:10:51,030 --> 00:10:47,839

any means but it's definitely a step

295

00:10:52,949 --> 00:10:51,040

forward and a step up from aim's hog

296

00:10:55,269 --> 00:10:52,959

and there's also a little bit of a pr

297

00:10:57,750 --> 00:10:56,470

probably

298

00:11:00,630 --> 00:10:57,760

i mean it

299

00:11:02,389 --> 00:11:00,640

rebranding washes off the the bad taste

300

00:11:03,990 --> 00:11:02,399

um and we've we've seen countless

301

00:11:06,470 --> 00:11:04,000

companies do it through throughout

302

00:11:09,190 --> 00:11:06,480

history and after those hearings i

303

00:11:11,910 --> 00:11:09,200

imagine they won aims as far away as

304

00:11:14,389 --> 00:11:11,920

possible uh as a name as a term from the

305

00:11:16,630 --> 00:11:14,399

next hearings where hopefully it will be

306

00:11:18,310 --> 00:11:16,640

a much better offering i i think the

307

00:11:20,069 --> 00:11:18,320

first time we'll get to judge it is come

308

00:11:21,190 --> 00:11:20,079

this halloween when we see the second

309

00:11:23,350 --> 00:11:21,200

uap

310

00:11:24,949 --> 00:11:23,360

unclassified report we'll be able to

311

00:11:27,030 --> 00:11:24,959

compare and contrast with the one we had

312

00:11:28,310 --> 00:11:27,040

before and see okay really what what is

313

00:11:31,350 --> 00:11:28,320

this have they just done the same thing

314

00:11:34,069 --> 00:11:31,360

again um then we know that travis taylor

315

00:11:35,509 --> 00:11:34,079

helped prepare that report now

316

00:11:37,910 --> 00:11:35,519

and a lot of stuff would have been taken

317

00:11:40,630 --> 00:11:37,920

out of it so we will now be able to see

318

00:11:42,790 --> 00:11:40,640

okay how is the declassification process

319

00:11:43,590 --> 00:11:42,800

kind of shaking up our officials pushing

320

00:11:46,949 --> 00:11:43,600

for

321

00:11:48,949 --> 00:11:46,959

don't think it should be classified and

322

00:11:50,870 --> 00:11:48,959

looking at other details that that are

323

00:11:53,430 --> 00:11:50,880

included it will be very telling

324

00:11:54,470 --> 00:11:53,440

of uh doctor sean kirkpatrick and his

325

00:11:56,949 --> 00:11:54,480

team

326

00:12:00,069 --> 00:11:56,959

well people can follow the on social

327

00:12:03,110 --> 00:12:00,079

media the arrow department at dod

328

00:12:04,870 --> 00:12:03,120

underscore aaron and the first

329

00:12:06,470 --> 00:12:04,880

announcement from that twitter account

330

00:12:08,310 --> 00:12:06,480

was welcome to the official twitter

331

00:12:10,629 --> 00:12:08,320

account for the all domain anomaly

332

00:12:12,949 --> 00:12:10,639

resolution office through this channel

333

00:12:15,350 --> 00:12:12,959

we will provide updates and information

334

00:12:17,509 --> 00:12:15,360

relative to our examinations of

335

00:12:20,230 --> 00:12:17,519

unidentified anomalous phenomena across

336

00:12:22,389 --> 00:12:20,240

space air and maritime domains as we

337

00:12:24,069 --> 00:12:22,399

grow the office begin building upon the

338

00:12:26,310 --> 00:12:24,079

previous department of defense efforts

339

00:12:28,150 --> 00:12:26,320

in this area and communicate with

340

00:12:30,550 --> 00:12:28,160

congress we will provide updates on our

341

00:12:32,629 --> 00:12:30,560

progress here this is an exciting and

342

00:12:35,829 --> 00:12:32,639

intellectually stimulating opportunity

343

00:12:37,829 --> 00:12:35,839

for us here at arrow uh ronald s

344

00:12:40,310 --> 00:12:37,839

moultrie who we mentioned before dan he

345

00:12:42,069 --> 00:12:40,320

then followed up with on july 20th i

346

00:12:45,430 --> 00:12:42,079

informed the dod that of the

347

00:12:46,870 --> 00:12:45,440

establishment of the aaro with an ods

348

00:12:49,110 --> 00:12:46,880

ousdi

349

00:12:50,949 --> 00:12:49,120

and named dr sean kirkpatrick most

350

00:12:52,870 --> 00:12:50,959

recently the chief scientist at defense

351

00:12:56,069 --> 00:12:52,880

intel's miss island space intelligence

352

00:12:58,310 --> 00:12:56,079

center as director dr kirkpatrick and i

353

00:12:59,910 --> 00:12:58,320

have a very productive discussion uh or

354

00:13:01,430 --> 00:12:59,920

had a very productive discussion with

355

00:13:03,269 --> 00:13:01,440

senator gillibrand and her staff

356

00:13:05,829 --> 00:13:03,279

yesterday afternoon regarding the dod

357

00:13:08,150 --> 00:13:05,839

arrow and look forward to continuing our

358

00:13:08,949 --> 00:13:08,160

work on this important effort

359

00:13:11,190 --> 00:13:08,959

so

360

00:13:13,829 --> 00:13:11,200

dr sean kirkpatrick a name that people

361

00:13:16,150 --> 00:13:13,839

may have heard dropped and and passed in

362

00:13:18,470 --> 00:13:16,160

various different ways shapes and forms

363

00:13:21,110 --> 00:13:18,480

uh what did you already know done about

364

00:13:24,069 --> 00:13:21,120

dr sean kirkpatrick so i was very

365

00:13:25,190 --> 00:13:24,079

excited to hear this name because

366

00:13:27,350 --> 00:13:25,200

and i'm gonna have to keep the

367

00:13:29,190 --> 00:13:27,360

gentleman's name out of it just because

368

00:13:30,550 --> 00:13:29,200

it turns out that i know somebody that

369

00:13:32,790 --> 00:13:30,560

knows sean and has worked with him in

370

00:13:34,389 --> 00:13:32,800

the past warning fork stands about to

371

00:13:36,150 --> 00:13:34,399

cite an anonymous sword

372

00:13:37,590 --> 00:13:36,160

i mean i've done it

373

00:13:39,430 --> 00:13:37,600

um

374

00:13:42,470 --> 00:13:39,440

i was fortunate to meet this gentleman

375

00:13:45,430 --> 00:13:42,480

uh in colombia as part of phenomenology

376

00:13:46,870 --> 00:13:45,440

uh we we had great conversations about

377

00:13:49,509 --> 00:13:46,880

uh you know what he did i'm not a

378

00:13:52,150 --> 00:13:49,519

liberty to share that because yeah he is

379

00:13:54,629 --> 00:13:52,160

an active employee but i will say that

380

00:13:57,670 --> 00:13:54,639

it was a glowing review of dr sean

381

00:13:59,910 --> 00:13:57,680

kirkpatrick uh he spoke about him as dr

382

00:14:03,030 --> 00:13:59,920

k that's what his friends call him

383

00:14:05,990 --> 00:14:03,040

so yeah dr k apparently is the guy that

384

00:14:08,550 --> 00:14:06,000

you want on this he he's the go-to

385

00:14:09,829 --> 00:14:08,560

gentleman in terms of and they they say

386

00:14:11,430 --> 00:14:09,839

it in

387

00:14:14,550 --> 00:14:11,440

on the announcement they linked to a

388

00:14:16,069 --> 00:14:14,560

kind of a summary of his past and there

389

00:14:17,030 --> 00:14:16,079

was a phrase in there that i'd heard

390

00:14:19,590 --> 00:14:17,040

before

391

00:14:22,150 --> 00:14:19,600

which was that he basically served in a

392

00:14:24,790 --> 00:14:22,160

variety of no fail roles

393

00:14:26,629 --> 00:14:24,800

which is as heavy as it sounds he's the

394

00:14:28,870 --> 00:14:26,639

guy you bring in to sort things out he's

395

00:14:31,829 --> 00:14:28,880

the guy you bring in to get the job done

396

00:14:34,230 --> 00:14:31,839

so in spite of the the air force being

397

00:14:35,829 --> 00:14:34,240

involved in sean's uh

398

00:14:37,829 --> 00:14:35,839

past

399

00:14:39,430 --> 00:14:37,839

i would say try and put that aside

400

00:14:41,269 --> 00:14:39,440

because this is the guy that you want on

401

00:14:42,870 --> 00:14:41,279

the job in a nutshell

402

00:14:44,470 --> 00:14:42,880

yeah i mean the air force don't have on

403

00:14:46,389 --> 00:14:44,480

their application forms do you have an

404

00:14:47,590 --> 00:14:46,399

interest in ufos which then will exclude

405

00:14:49,110 --> 00:14:47,600

you from a role you know there's going

406

00:14:50,790 --> 00:14:49,120

to be folks at the air force who do have

407

00:14:52,710 --> 00:14:50,800

an interest in the subject absolutely

408

00:14:54,470 --> 00:14:52,720

similar to nasa right we spoke about

409

00:14:56,629 --> 00:14:54,480

this often like the government is a big

410

00:14:59,110 --> 00:14:56,639

thing and not everybody in it is going

411

00:15:00,870 --> 00:14:59,120

to be read into these programs where

412

00:15:02,550 --> 00:15:00,880

they can't talk about things so there

413

00:15:04,230 --> 00:15:02,560

are genuinely people outside of it who

414

00:15:05,750 --> 00:15:04,240

that have interest and i think that that

415

00:15:07,350 --> 00:15:05,760

tweet reflected that

416

00:15:08,790 --> 00:15:07,360

a really interesting place i think

417

00:15:11,030 --> 00:15:08,800

especially in the growing world of

418

00:15:13,670 --> 00:15:11,040

social media to find out information on

419

00:15:15,350 --> 00:15:13,680

fox legitimate information as linkedin

420

00:15:17,990 --> 00:15:15,360

and if you jump on to dr sean

421

00:15:19,670 --> 00:15:18,000

kirkpatrick's linkedin profile you find

422

00:15:21,590 --> 00:15:19,680

out this little blurb about him which i

423

00:15:25,110 --> 00:15:21,600

thought was quite interesting as a quite

424

00:15:27,750 --> 00:15:25,120

succinct summary of of his background

425

00:15:30,310 --> 00:15:27,760

so dr sean kirkpatrick is an executive

426
00:15:32,310 --> 00:15:30,320
level physicist and intelligence officer

427
00:15:34,389 --> 00:15:32,320
with extensive experience in research

428
00:15:36,550 --> 00:15:34,399
and development systems engineering

429
00:15:39,829 --> 00:15:36,560
acquisition oversight operations and

430
00:15:41,509 --> 00:15:39,839
policy he brings unconventional thinking

431
00:15:43,269 --> 00:15:41,519
through a diverse background to solve

432
00:15:44,870 --> 00:15:43,279
some of the nation's most complex and

433
00:15:46,230 --> 00:15:44,880
challenging problems pretty

434
00:15:48,470 --> 00:15:46,240
interestingly

435
00:15:51,590 --> 00:15:48,480
demonstrated ability for executive level

436
00:15:54,550 --> 00:15:51,600
cradle to grave strategy development

437
00:15:56,470 --> 00:15:54,560
implementation and execution as a

438
00:15:58,550 --> 00:15:56,480

recognized national subject matter

439

00:16:00,150 --> 00:15:58,560

expert widely sought by national level

440

00:16:03,110 --> 00:16:00,160

political and military leadership for

441

00:16:04,870 --> 00:16:03,120

advice and recommendations on space and

442

00:16:06,829 --> 00:16:04,880

counter space and scientific and

443

00:16:09,749 --> 00:16:06,839

technical intelligence

444

00:16:11,829 --> 00:16:09,759

issues he combines extensive technical

445

00:16:14,150 --> 00:16:11,839

and engineering depth with strategy and

446

00:16:16,870 --> 00:16:14,160

policy in space control space operations

447

00:16:19,350 --> 00:16:16,880

and cutting edge science and technology

448

00:16:21,590 --> 00:16:19,360

he's a change agent with deep experience

449

00:16:23,110 --> 00:16:21,600

in startup organizations and major

450

00:16:26,310 --> 00:16:23,120

organizational and management

451
00:16:28,550 --> 00:16:26,320
realignments now so much of that profile

452
00:16:31,990 --> 00:16:28,560
fits into exactly what he's coming into

453
00:16:33,910 --> 00:16:32,000
here and reads positively like you say

454
00:16:35,990 --> 00:16:33,920
for what he can potentially do and bring

455
00:16:39,030 --> 00:16:36,000
to this role because this doesn't sound

456
00:16:40,790 --> 00:16:39,040
like a guy who comes into a role and

457
00:16:42,710 --> 00:16:40,800
it doesn't go anywhere

458
00:16:44,629 --> 00:16:42,720
that's not the reputation and you know

459
00:16:46,550 --> 00:16:44,639
no that's not his cv is it

460
00:16:48,870 --> 00:16:46,560
no i i would say that if someone's

461
00:16:50,230 --> 00:16:48,880
bringing him in for that to kind of

462
00:16:51,910 --> 00:16:50,240
brush this end of the carpet they're

463
00:16:53,509 --> 00:16:51,920

probably going to end up finding that

464

00:16:55,829 --> 00:16:53,519

they've hired a person who will hold

465

00:16:57,910 --> 00:16:55,839

them to account and will not do that

466

00:16:59,430 --> 00:16:57,920

whether we see the results of all of

467

00:17:01,430 --> 00:16:59,440

that work remains to be seen because

468

00:17:02,550 --> 00:17:01,440

there's a lot of classified stuff here

469

00:17:04,390 --> 00:17:02,560

but

470

00:17:06,309 --> 00:17:04,400

dr kirkpatrick is

471

00:17:08,390 --> 00:17:06,319

tremendously qualified for this position

472

00:17:10,789 --> 00:17:08,400

and it certainly seems like he has an

473

00:17:12,870 --> 00:17:10,799

interest in just things that other

474

00:17:15,909 --> 00:17:12,880

people can't figure out anyway

475

00:17:17,669 --> 00:17:15,919

do you think that dr k as his friend's

476

00:17:19,029 --> 00:17:17,679

column we'll we'll assume

477

00:17:19,750 --> 00:17:19,039

his friends he might listen you never

478

00:17:22,630 --> 00:17:19,760

know

479

00:17:24,470 --> 00:17:22,640

and also the aaro will succeed in

480

00:17:26,470 --> 00:17:24,480

picking up where the previous efforts

481

00:17:29,590 --> 00:17:26,480

have left off

482

00:17:32,230 --> 00:17:29,600

i think so i i can imagine someone like

483

00:17:34,310 --> 00:17:32,240

dr kirkpatrick going in and asking to

484

00:17:36,789 --> 00:17:34,320

see where these kind of bits of data are

485

00:17:39,909 --> 00:17:36,799

held and so on and so forth and if

486

00:17:44,070 --> 00:17:39,919

amesag were as

487

00:17:46,390 --> 00:17:44,080

illegitimate as we think they are um

488

00:17:47,750 --> 00:17:46,400

then

489

00:17:49,830 --> 00:17:47,760

all of those things would have been

490

00:17:51,510 --> 00:17:49,840

sorted out basically all of the data

491

00:17:53,909 --> 00:17:51,520

stores would have been shored up

492

00:17:55,350 --> 00:17:53,919

everything will have its place

493

00:17:56,630 --> 00:17:55,360

i can't imagine

494

00:17:58,630 --> 00:17:56,640

john

495

00:18:01,190 --> 00:17:58,640

taking no for an answer when he's asking

496

00:18:03,510 --> 00:18:01,200

for materials from places that are maybe

497

00:18:05,830 --> 00:18:03,520

not cooperating there was a really great

498

00:18:08,150 --> 00:18:05,840

line in kathleen hicks's

499

00:18:09,990 --> 00:18:08,160

memo announcing this she's the director

500

00:18:12,470 --> 00:18:10,000

of national intelligence and she said

501
00:18:14,150 --> 00:18:12,480
that any dod component acting on behalf

502
00:18:16,390 --> 00:18:14,160
of the uapf

503
00:18:18,390 --> 00:18:16,400
or who has data analysis contracts and

504
00:18:20,150 --> 00:18:18,400
other material related to uap will

505
00:18:21,190 --> 00:18:20,160
immediately synchronize their efforts

506
00:18:23,990 --> 00:18:21,200
with the

507
00:18:26,549 --> 00:18:24,000
aaro which i thought was very telling

508
00:18:29,510 --> 00:18:26,559
that either alludes to her just talking

509
00:18:31,430 --> 00:18:29,520
about the aimsawg or

510
00:18:33,270 --> 00:18:31,440
kathleen hicks is being very particular

511
00:18:35,430 --> 00:18:33,280
with a language

512
00:18:38,230 --> 00:18:35,440
in that she possibly suspects that there

513
00:18:39,750 --> 00:18:38,240

are some other components within the dod

514

00:18:42,390 --> 00:18:39,760

that don't fall under the remit of the

515

00:18:43,590 --> 00:18:42,400

uaptf or aims that might be studying

516

00:18:46,390 --> 00:18:43,600

this

517

00:18:48,870 --> 00:18:46,400

let me ask though and correct me

518

00:18:51,830 --> 00:18:48,880

where or if i'm getting this wrong

519

00:18:52,710 --> 00:18:51,840

which is likely that during the uap task

520

00:18:55,190 --> 00:18:52,720

force

521

00:18:57,110 --> 00:18:55,200

summary being compiled we we found out

522

00:18:59,110 --> 00:18:57,120

they had a change of leadership and you

523

00:19:00,870 --> 00:18:59,120

remember at the time people like loyola

524

00:19:03,110 --> 00:19:00,880

zondo chris mellon and others were

525

00:19:05,430 --> 00:19:03,120

saying that it was already being set up

526

00:19:07,110 --> 00:19:05,440

to fail and the change of leadership in

527

00:19:08,789 --> 00:19:07,120

the middle of that meant it really

528

00:19:09,990 --> 00:19:08,799

should have been extended and you know

529

00:19:11,750 --> 00:19:10,000

everything was going to be rushed and

530

00:19:12,870 --> 00:19:11,760

they were being hamstrung and everything

531

00:19:14,470 --> 00:19:12,880

else

532

00:19:16,789 --> 00:19:14,480

you're saying that in three months time

533

00:19:19,430 --> 00:19:16,799

we have that next unclassified report

534

00:19:21,990 --> 00:19:19,440

due is this not potentially something

535

00:19:24,390 --> 00:19:22,000

similar where all this change is a

536

00:19:27,350 --> 00:19:24,400

disruption to an ongoing process

537

00:19:29,270 --> 00:19:27,360

and how can dr kirkpatrick and in three

538

00:19:31,110 --> 00:19:29,280

months

539

00:19:33,750 --> 00:19:31,120

get things together get everything you

540

00:19:35,830 --> 00:19:33,760

know compiled and ready to put out some

541

00:19:38,230 --> 00:19:35,840

kind of report or should we not expect

542

00:19:39,669 --> 00:19:38,240

very much and be looking forward already

543

00:19:41,190 --> 00:19:39,679

to next year

544

00:19:41,990 --> 00:19:41,200

so the the first thing i would say is

545

00:19:44,150 --> 00:19:42,000

that

546

00:19:45,909 --> 00:19:44,160

dr kirkpatrick

547

00:19:48,870 --> 00:19:45,919

this was announced a while back

548

00:19:49,750 --> 00:19:48,880

unofficially uh we we had dean johnson

549

00:19:51,669 --> 00:19:49,760

um

550

00:19:54,150 --> 00:19:51,679

telling us that this happened that he'd

551
00:19:56,150 --> 00:19:54,160
heard this has happened so i imagine dr

552
00:19:56,870 --> 00:19:56,160
kirkpatrick has been working for a while

553
00:19:59,029 --> 00:19:56,880
on

554
00:20:00,870 --> 00:19:59,039
everything as opposed to it since july

555
00:20:03,029 --> 00:20:00,880
15th

556
00:20:04,950 --> 00:20:03,039
that said

557
00:20:07,029 --> 00:20:04,960
you are completely right that's a really

558
00:20:08,870 --> 00:20:07,039
disruptive thing to happen a change of

559
00:20:11,830 --> 00:20:08,880
leadership a change of remit change of

560
00:20:14,789 --> 00:20:11,840
scope so it's quite possible that this

561
00:20:17,110 --> 00:20:14,799
first report includes a kind of

562
00:20:17,830 --> 00:20:17,120
almost a reset that we're gonna kind of

563
00:20:20,710 --> 00:20:17,840

see

564

00:20:22,710 --> 00:20:20,720

dr kirkpatrick's version of

565

00:20:23,750 --> 00:20:22,720

last year's report

566

00:20:25,510 --> 00:20:23,760

and

567

00:20:27,110 --> 00:20:25,520

have the bits pointed out that are

568

00:20:28,390 --> 00:20:27,120

ineffective basically

569

00:20:30,070 --> 00:20:28,400

because now we have someone there that's

570

00:20:31,990 --> 00:20:30,080

going to be looking at the office and

571

00:20:33,350 --> 00:20:32,000

looking at what he can improve

572

00:20:35,590 --> 00:20:33,360

process-wise

573

00:20:37,430 --> 00:20:35,600

and we already know that we have the new

574

00:20:39,990 --> 00:20:37,440

legislation coming in for the classified

575

00:20:41,750 --> 00:20:40,000

stuff and and the immunity language but

576
00:20:43,909 --> 00:20:41,760
that will not factor into this report

577
00:20:46,789 --> 00:20:43,919
because that won't be passed by the time

578
00:20:48,070 --> 00:20:46,799
we get that report basically so

579
00:20:50,149 --> 00:20:48,080
at the very least i would expect

580
00:20:52,549 --> 00:20:50,159
something similar to what we had but i'm

581
00:20:53,909 --> 00:20:52,559
expecting for a little more transparency

582
00:20:56,230 --> 00:20:53,919
in there

583
00:20:57,669 --> 00:20:56,240
sure and again we see this as the change

584
00:20:59,750 --> 00:20:57,679
on the surface but we don't know the

585
00:21:02,070 --> 00:20:59,760
ripples underneath as to to what the

586
00:21:03,270 --> 00:21:02,080
knock-on effect is if dr kirkpatrick

587
00:21:05,669 --> 00:21:03,280
brings on

588
00:21:08,070 --> 00:21:05,679

advisor a b and c to help out and get

589

00:21:09,510 --> 00:21:08,080

rid of d e and f who are there already

590

00:21:11,350 --> 00:21:09,520

or if there are any changes and it's

591

00:21:12,630 --> 00:21:11,360

kind of seamless so that's that's

592

00:21:13,430 --> 00:21:12,640

something that will just remain to be

593

00:21:15,669 --> 00:21:13,440

seen

594

00:21:18,310 --> 00:21:15,679

and i wonder how how can the language

595

00:21:20,789 --> 00:21:18,320

changes in the upcoming ndaa which

596

00:21:22,789 --> 00:21:20,799

people have been reporting on

597

00:21:25,190 --> 00:21:22,799

that's to help bring other agencies

598

00:21:26,950 --> 00:21:25,200

together help with the data collection

599

00:21:28,310 --> 00:21:26,960

and one of the big focuses has been the

600

00:21:29,510 --> 00:21:28,320

language and i'm going to paraphrase

601
00:21:31,750 --> 00:21:29,520
around

602
00:21:33,909 --> 00:21:31,760
essentially finding out

603
00:21:36,470 --> 00:21:33,919
have we collected i say we as in

604
00:21:40,710 --> 00:21:36,480
government agencies the u.s etc i think

605
00:21:42,870 --> 00:21:40,720
you and i yeah yeah have we yeah yeah

606
00:21:45,110 --> 00:21:42,880
not yet yeah not yet um we still have to

607
00:21:47,750 --> 00:21:45,120
get the pickup truck um but have any of

608
00:21:50,789 --> 00:21:47,760
these agencies within the us government

609
00:21:52,230 --> 00:21:50,799
found crashed materials crashed craft

610
00:21:54,149 --> 00:21:52,240
whatever they may be

611
00:21:56,149 --> 00:21:54,159
and given them to

612
00:21:57,669 --> 00:21:56,159
the private sector because that was

613
00:21:59,750 --> 00:21:57,679

something that we've talked about before

614

00:22:02,470 --> 00:21:59,760

you know it's easy to to give that let's

615

00:22:03,990 --> 00:22:02,480

just for talking secures roswell and say

616

00:22:05,990 --> 00:22:04,000

yeah we don't have that

617

00:22:07,669 --> 00:22:06,000

well maybe they don't because it was

618

00:22:09,750 --> 00:22:07,679

given away a long time ago to lockheed

619

00:22:10,870 --> 00:22:09,760

the boeing you know somewhere else and

620

00:22:12,630 --> 00:22:10,880

that's where some of these language

621

00:22:14,630 --> 00:22:12,640

changes are coming in

622

00:22:16,310 --> 00:22:14,640

is that right then and also how how

623

00:22:18,149 --> 00:22:16,320

effective can that actually be because

624

00:22:19,990 --> 00:22:18,159

surely there are still ways and means to

625

00:22:22,070 --> 00:22:20,000

keep these things secret

626

00:22:24,390 --> 00:22:22,080

yeah you're not wrong the language

627

00:22:26,549 --> 00:22:24,400

that's currently going through the house

628

00:22:27,669 --> 00:22:26,559

is referring to i'll just do like a

629

00:22:29,830 --> 00:22:27,679

little brief summary for people that

630

00:22:32,149 --> 00:22:29,840

maybe haven't seen the last episode uh

631

00:22:35,270 --> 00:22:32,159

it's it's referring to

632

00:22:38,149 --> 00:22:35,280

creating a system within the dod

633

00:22:40,549 --> 00:22:38,159

that would be able to or would be secure

634

00:22:42,870 --> 00:22:40,559

enough to have classified reports

635

00:22:44,470 --> 00:22:42,880

submitted so if someone was working in a

636

00:22:46,549 --> 00:22:44,480

special access program where maybe they

637

00:22:48,950 --> 00:22:46,559

had access to this materials they could

638

00:22:50,789 --> 00:22:48,960

submit their report through that system

639

00:22:52,470 --> 00:22:50,799

and it would be considered secure it

640

00:22:56,070 --> 00:22:52,480

would get to the right people i.e the

641

00:22:57,909 --> 00:22:56,080

senators who will write in this language

642

00:22:59,430 --> 00:22:57,919

there is no

643

00:23:01,350 --> 00:22:59,440

kind of

644

00:23:03,510 --> 00:23:01,360

stick in this legislation there's

645

00:23:04,870 --> 00:23:03,520

nothing kind of saying to people look if

646

00:23:07,029 --> 00:23:04,880

you don't come forward we're going to

647

00:23:09,590 --> 00:23:07,039

throw you in jail for 50 years all there

648

00:23:11,750 --> 00:23:09,600

is is essentially an offer of a

649

00:23:13,510 --> 00:23:11,760

handshake and to say you know come in

650

00:23:15,990 --> 00:23:13,520

give us your information and we'll go

651
00:23:18,549 --> 00:23:16,000
from there there is no promise that they

652
00:23:20,710 --> 00:23:18,559
won't be that they will be forgiven for

653
00:23:22,470 --> 00:23:20,720
past crimes or anything like that yeah

654
00:23:24,710 --> 00:23:22,480
all the legislation is designed to do

655
00:23:26,630 --> 00:23:24,720
like i say is to take the classified

656
00:23:28,630 --> 00:23:26,640
information and be secure and get it to

657
00:23:32,149 --> 00:23:28,640
the the officials that need it

658
00:23:34,070 --> 00:23:32,159
another bit in the in the ndaa that kind

659
00:23:35,750 --> 00:23:34,080
of went under people's radars

660
00:23:38,149 --> 00:23:35,760
is to do with the national archives

661
00:23:39,750 --> 00:23:38,159
taking over the declassification process

662
00:23:41,510 --> 00:23:39,760
and then right at the end of all the uap

663
00:23:42,950 --> 00:23:41,520

stuff they slip in that they want

664

00:23:45,029 --> 00:23:42,960

everything that the national archives

665

00:23:47,350 --> 00:23:45,039

has on uap so you can kind of see those

666

00:23:51,029 --> 00:23:47,360

two puzzle pieces slotted together that

667

00:23:53,110 --> 00:23:51,039

if an independent body has control of

668

00:23:55,269 --> 00:23:53,120

declassifying materials

669

00:23:57,430 --> 00:23:55,279

and then the uap task force or sorry

670

00:23:59,110 --> 00:23:57,440

arrow plugs directly into that that's

671

00:24:00,630 --> 00:23:59,120

going to be extremely beneficial to the

672

00:24:02,630 --> 00:24:00,640

conversation

673

00:24:04,230 --> 00:24:02,640

because we can just start

674

00:24:06,549 --> 00:24:04,240

you know we have someone there that

675

00:24:07,909 --> 00:24:06,559

isn't going to look at a bit of footage

676
00:24:09,430 --> 00:24:07,919
from the gun camera and just go oh we

677
00:24:11,430 --> 00:24:09,440
can't show anyone that because it's a

678
00:24:13,110 --> 00:24:11,440
sensitive bit of technology

679
00:24:15,190 --> 00:24:13,120
it will be their job to kind of go okay

680
00:24:16,710 --> 00:24:15,200
what can we maybe crop out of this video

681
00:24:18,470 --> 00:24:16,720
and we can still show them the

682
00:24:20,549 --> 00:24:18,480
interesting part that doesn't give away

683
00:24:21,830 --> 00:24:20,559
our you know our advantage to our

684
00:24:23,830 --> 00:24:21,840
adversaries

685
00:24:25,830 --> 00:24:23,840
so yeah that's the one bit

686
00:24:28,230 --> 00:24:25,840
then the other bit and this was kind of

687
00:24:29,990 --> 00:24:28,240
expanded on in the iaa this week there's

688
00:24:32,470 --> 00:24:30,000

so many different acronyms that's the

689

00:24:35,350 --> 00:24:32,480

intelligence authorization act

690

00:24:37,750 --> 00:24:35,360

the number is hr 8367 if anyone wants to

691

00:24:40,710 --> 00:24:37,760

go look it up but basically

692

00:24:42,630 --> 00:24:40,720

that is a bit of language

693

00:24:44,950 --> 00:24:42,640

that

694

00:24:47,110 --> 00:24:44,960

when it comes to the

695

00:24:49,269 --> 00:24:47,120

the person is called the comptroller of

696

00:24:51,269 --> 00:24:49,279

the united states essentially

697

00:24:53,029 --> 00:24:51,279

that person and department has been

698

00:24:55,669 --> 00:24:53,039

directed to

699

00:24:57,830 --> 00:24:55,679

create a report of this essentially the

700

00:24:59,510 --> 00:24:57,840

complete history of the american

701
00:25:00,630 --> 00:24:59,520
intelligence community's dealings with

702
00:25:04,230 --> 00:25:00,640
uap

703
00:25:06,789 --> 00:25:04,240
and to start from january 1947.

704
00:25:10,070 --> 00:25:06,799
that was in the ndaa but in the iaa they

705
00:25:12,310 --> 00:25:10,080
expanded it to very specifically say

706
00:25:14,630 --> 00:25:12,320
efforts to recover or translate related

707
00:25:17,990 --> 00:25:14,640
technologies to united states-based

708
00:25:20,549 --> 00:25:18,000
industry or national laboratories

709
00:25:21,909 --> 00:25:20,559
so what we're seeing is these senators

710
00:25:23,190 --> 00:25:21,919
as we're going forward and they're

711
00:25:25,430 --> 00:25:23,200
getting a little bit more bits of

712
00:25:27,830 --> 00:25:25,440
information we're seeing them add these

713
00:25:30,710 --> 00:25:27,840

terms to the language to kind of block

714

00:25:33,110 --> 00:25:30,720

out these loopholes and almost i think

715

00:25:34,950 --> 00:25:33,120

to kind of say hey anyone that's worked

716

00:25:37,029 --> 00:25:34,960

at a national laboratory

717

00:25:39,430 --> 00:25:37,039

we've got eyes on you so if this is you

718

00:25:41,350 --> 00:25:39,440

you better come forward now before we

719

00:25:42,870 --> 00:25:41,360

have to have the next conversation which

720

00:25:44,950 --> 00:25:42,880

you know like saying no one's having yet

721

00:25:47,909 --> 00:25:44,960

this is all carrot and no stick

722

00:25:51,110 --> 00:25:47,919

so i'm i'm hoping that by pointing these

723

00:25:53,029 --> 00:25:51,120

people out and these places out that

724

00:25:56,070 --> 00:25:53,039

that the ufo community has been speaking

725

00:25:57,590 --> 00:25:56,080

about for decades and decades now that

726
00:25:59,830 --> 00:25:57,600
those people start coming forward and

727
00:26:01,269 --> 00:25:59,840
start speaking hopefully folk like eric

728
00:26:03,350 --> 00:26:01,279
davis will use the new reporting

729
00:26:04,870 --> 00:26:03,360
mechanisms because he still has

730
00:26:06,870 --> 00:26:04,880
clearance so he can't speak about it

731
00:26:08,149 --> 00:26:06,880
openly even though he gets real close to

732
00:26:10,070 --> 00:26:08,159
that line and that must be a really

733
00:26:11,029 --> 00:26:10,080
interesting conversation with bosses at

734
00:26:11,909 --> 00:26:11,039
earth

735
00:26:15,190 --> 00:26:11,919
uh

736
00:26:17,029 --> 00:26:15,200
but folks like him um

737
00:26:19,190 --> 00:26:17,039
people like lazar i don't think will

738
00:26:21,669 --> 00:26:19,200

testify just because you know i can't

739

00:26:23,190 --> 00:26:21,679

see that no no political aid is gonna go

740

00:26:25,190 --> 00:26:23,200

to their boss and be like hey you know

741

00:26:26,549 --> 00:26:25,200

marco rubio we should we should get bob

742

00:26:28,070 --> 00:26:26,559

lazar and he's going to say who's bob

743

00:26:29,830 --> 00:26:28,080

lazar and then look at his rap sheet and

744

00:26:32,390 --> 00:26:29,840

kind of go yeah we shouldn't put that

745

00:26:34,230 --> 00:26:32,400

guy in front of uh television and stuff

746

00:26:37,350 --> 00:26:34,240

like that there are some dodgy things in

747

00:26:41,750 --> 00:26:38,630

and also

748

00:26:44,870 --> 00:26:41,760

the whole character and story and

749

00:26:46,470 --> 00:26:44,880

circus that can surround a bob lazar and

750

00:26:47,750 --> 00:26:46,480

others like that with those types of

751
00:26:49,430 --> 00:26:47,760
stories

752
00:26:51,590 --> 00:26:49,440
even for example someone i get asked

753
00:26:54,710 --> 00:26:51,600
regularly to bring on is gary mckinnon

754
00:26:56,710 --> 00:26:54,720
who famously i'll use allegedly even

755
00:26:58,870 --> 00:26:56,720
though we know what happened um just

756
00:27:02,630 --> 00:26:58,880
first you know law reasons legal reasons

757
00:27:04,470 --> 00:27:02,640
um hacked the nasa systems and yeah yeah

758
00:27:06,630 --> 00:27:04,480
hacked like

759
00:27:08,390 --> 00:27:06,640
like jurassic park when they go hacksaw

760
00:27:09,909 --> 00:27:08,400
yeah yeah yeah just in the keyboard

761
00:27:10,710 --> 00:27:09,919
without really looking that's that's old

762
00:27:12,549 --> 00:27:10,720
school

763
00:27:14,549 --> 00:27:12,559

but danny apparently saw lots of

764

00:27:15,669 --> 00:27:14,559

different things including you know

765

00:27:17,430 --> 00:27:15,679

proof that there were alien

766

00:27:18,870 --> 00:27:17,440

civilizations and whatnot and there's

767

00:27:21,510 --> 00:27:18,880

been all kinds of things over the years

768

00:27:24,310 --> 00:27:21,520

but is it the time to bring those types

769

00:27:25,990 --> 00:27:24,320

of people to a stand no and i think in a

770

00:27:28,789 --> 00:27:26,000

way it's like when i talk about

771

00:27:30,389 --> 00:27:28,799

experiencers feeling left out it's still

772

00:27:31,990 --> 00:27:30,399

not the time to bring up you know so

773

00:27:33,350 --> 00:27:32,000

what about abductions

774

00:27:35,110 --> 00:27:33,360

what's happening with those that's

775

00:27:36,789 --> 00:27:35,120

that's that that's down the line in the

776

00:27:38,470 --> 00:27:36,799

conversation

777

00:27:39,750 --> 00:27:38,480

and no one should be offended by that i

778

00:27:41,110 --> 00:27:39,760

don't think it's kind of like

779

00:27:41,909 --> 00:27:41,120

introducing you know if someone says to

780

00:27:43,430 --> 00:27:41,919

me

781

00:27:45,029 --> 00:27:43,440

what's marvel about what's the what are

782

00:27:46,789 --> 00:27:45,039

those films about i'm not going to start

783

00:27:48,950 --> 00:27:46,799

talking about the particular mix of

784

00:27:50,549 --> 00:27:48,960

elements in iron man's suits right i'm

785

00:27:52,789 --> 00:27:50,559

going to keep the conversation light and

786

00:27:54,310 --> 00:27:52,799

kind of go baby steps and maybe let them

787

00:27:56,230 --> 00:27:54,320

kind of immerse themselves in it before

788

00:27:57,909 --> 00:27:56,240

we have those heavier conversations so

789

00:27:59,190 --> 00:27:57,919

that's all this is is we're kind of

790

00:28:01,269 --> 00:27:59,200

laying the groundwork to have those

791

00:28:02,549 --> 00:28:01,279

deeper conversations down the line yeah

792

00:28:04,549 --> 00:28:02,559

you don't tell someone you love them on

793

00:28:06,389 --> 00:28:04,559

the first date because likely that's not

794

00:28:08,950 --> 00:28:06,399

going to go well

795

00:28:10,470 --> 00:28:08,960

dan has uh but yeah you build that up

796

00:28:12,470 --> 00:28:10,480

don't you not that's for down the line

797

00:28:14,470 --> 00:28:12,480

when things get more serious that you've

798

00:28:16,149 --> 00:28:14,480

got to lay the ground working you know

799

00:28:17,510 --> 00:28:16,159

tread lightly in the early days and i

800

00:28:19,510 --> 00:28:17,520

think that's really what's got to happen

801
00:28:21,350 --> 00:28:19,520
here so overall dan just before we

802
00:28:23,190 --> 00:28:21,360
finish off with some listener thoughts a

803
00:28:25,190 --> 00:28:23,200
positive step for you

804
00:28:27,350 --> 00:28:25,200
yeah i would i would say

805
00:28:28,149 --> 00:28:27,360
eight hours out of ten on that news i i

806
00:28:30,710 --> 00:28:28,159
was

807
00:28:32,149 --> 00:28:30,720
very happy to read it and to have that

808
00:28:33,430 --> 00:28:32,159
you know beautiful new acronym that

809
00:28:34,310 --> 00:28:33,440
actually forms a word that people can

810
00:28:36,310 --> 00:28:34,320
say

811
00:28:39,190 --> 00:28:36,320
i can't go as high as eight out of ten

812
00:28:40,789 --> 00:28:39,200
but i will go four out of five um

813
00:28:42,630 --> 00:28:40,799

like that's more than fair

814

00:28:45,269 --> 00:28:42,640

um you're gonna have listeners yelling

815

00:28:46,070 --> 00:28:45,279

at you again it's the same thing

816

00:28:47,830 --> 00:28:46,080

yeah

817

00:28:49,830 --> 00:28:47,840

you know i've got the a i've got the a

818

00:28:51,909 --> 00:28:49,840

i've got the r they all just messing off

819

00:28:53,510 --> 00:28:51,919

the w at the end and still know that

820

00:28:56,630 --> 00:28:53,520

spells it wrongly folks just before

821

00:28:58,950 --> 00:28:56,640

anyone kicks off um listen our thoughts

822

00:29:01,350 --> 00:28:58,960

graham rendell at borders 750 you'll

823

00:29:02,870 --> 00:29:01,360

know graeme will folks yeah well except

824

00:29:04,630 --> 00:29:02,880

dan yeah you should follow graham of

825

00:29:07,190 --> 00:29:04,640

course um he's got

826

00:29:08,710 --> 00:29:07,200

numerous new books out and yeah i'm

827

00:29:11,190 --> 00:29:08,720

behind on interviewing graham about his

828

00:29:13,350 --> 00:29:11,200

books but go check those out um he said

829

00:29:14,870 --> 00:29:13,360

if only the mod in the uk would make a

830

00:29:17,190 --> 00:29:14,880

similar announcement about the creation

831

00:29:19,190 --> 00:29:17,200

of a british equivalent oh look a pig

832

00:29:20,950 --> 00:29:19,200

has just flown past my window and he

833

00:29:22,470 --> 00:29:20,960

said i'm hopeful for more progress but

834

00:29:24,230 --> 00:29:22,480

equally realistic and thinking will

835

00:29:25,909 --> 00:29:24,240

probably be the last to know if anything

836

00:29:28,389 --> 00:29:25,919

is discovered

837

00:29:30,070 --> 00:29:28,399

davey said as i said to dan earlier this

838

00:29:32,630 --> 00:29:30,080

was on twitter folks he's happy with the

839

00:29:34,310 --> 00:29:32,640

new name i am super pleased by dr k

840

00:29:36,310 --> 00:29:34,320

being part of it but i'm still wary of

841

00:29:38,149 --> 00:29:36,320

the overarching department that oversees

842

00:29:39,190 --> 00:29:38,159

the office

843

00:29:41,350 --> 00:29:39,200

stephen

844

00:29:43,430 --> 00:29:41,360

uh ask the question dan do you think the

845

00:29:46,230 --> 00:29:43,440

immunity language and the amendment is

846

00:29:48,310 --> 00:29:46,240

sufficient or has real teeth to enable

847

00:29:50,149 --> 00:29:48,320

those with ndas to speak if they choose

848

00:29:52,389 --> 00:29:50,159

we mentioned eric davis and others

849

00:29:54,070 --> 00:29:52,399

before is there some subtle word play

850

00:29:55,750 --> 00:29:54,080

that has escaped this layman that will

851
00:29:59,990 --> 00:29:55,760
give the powers that be an avenue to

852
00:30:03,430 --> 00:30:01,590
so i'm gonna have to ask you to repeat

853
00:30:05,909 --> 00:30:03,440
that just because my my

854
00:30:07,510 --> 00:30:05,919
cable died halfway between that's fine

855
00:30:08,870 --> 00:30:07,520
folks and this is a short episode so we

856
00:30:10,870 --> 00:30:08,880
can leave it in so if you want to skip

857
00:30:12,870 --> 00:30:10,880
10 seconds i'll repeat the question it's

858
00:30:15,110 --> 00:30:12,880
it's a whole new version of i was on

859
00:30:17,990 --> 00:30:15,120
mute yeah i'll read that in my posh

860
00:30:19,830 --> 00:30:18,000
voice okay stephen asks do you think the

861
00:30:22,470 --> 00:30:19,840
immunity language and the amendment is

862
00:30:24,870 --> 00:30:22,480
sufficient or and or has real teeth to

863
00:30:27,190 --> 00:30:24,880

enable those of ndas to speak if they

864

00:30:29,029 --> 00:30:27,200

choose so you mentioned like eric davis

865

00:30:29,830 --> 00:30:29,039

and such before as the language in the

866

00:30:31,590 --> 00:30:29,840

bill

867

00:30:32,950 --> 00:30:31,600

gonna allow these people to come forward

868

00:30:34,549 --> 00:30:32,960

which is something that people have been

869

00:30:36,310 --> 00:30:34,559

clamoring for now

870

00:30:38,230 --> 00:30:36,320

i think the key thing to remember is

871

00:30:40,870 --> 00:30:38,240

that it will allow people who were

872

00:30:42,950 --> 00:30:40,880

already willing to come forward there's

873

00:30:45,029 --> 00:30:42,960

obviously been conversations in back

874

00:30:46,710 --> 00:30:45,039

rooms you know in skiffs uh secure

875

00:30:48,950 --> 00:30:46,720

facilities where they can talk about

876

00:30:51,110 --> 00:30:48,960

these things and and i think this is

877

00:30:53,669 --> 00:30:51,120

designed to let some people that

878

00:30:56,389 --> 00:30:53,679

officials are already aware of come

879

00:30:58,870 --> 00:30:56,399

forward and be able to speak can i ask

880

00:31:00,789 --> 00:30:58,880

a really i think basic question i'm

881

00:31:02,710 --> 00:31:00,799

going to ask it really badly but this is

882

00:31:04,230 --> 00:31:02,720

for an idiot like myself

883

00:31:05,830 --> 00:31:04,240

who i think there'll be other idiots

884

00:31:07,350 --> 00:31:05,840

like me out there who who want this

885

00:31:09,110 --> 00:31:07,360

basically as a

886

00:31:10,470 --> 00:31:09,120

yes or no and that's all you can give us

887

00:31:13,190 --> 00:31:10,480

yes or no

888

00:31:15,909 --> 00:31:13,200

can luella's ondo and in a hypothetical

889

00:31:18,070 --> 00:31:15,919

scenario he knows that there are for a

890

00:31:20,149 --> 00:31:18,080

fact alien civilizations

891

00:31:21,430 --> 00:31:20,159

visiting and or on this planet because

892

00:31:23,669 --> 00:31:21,440

of a reason

893

00:31:26,070 --> 00:31:23,679

can he if he has given or granted

894

00:31:27,029 --> 00:31:26,080

immunity from his nda can he literally

895

00:31:28,149 --> 00:31:27,039

stand

896

00:31:29,509 --> 00:31:28,159

in public

897

00:31:32,549 --> 00:31:29,519

in congress

898

00:31:33,509 --> 00:31:32,559

and tell us everything he knows

899

00:31:37,509 --> 00:31:33,519

no

900

00:31:39,990 --> 00:31:37,519

but it would let him do that to

901
00:31:41,269 --> 00:31:40,000
officials in a skiff so the when they

902
00:31:42,789 --> 00:31:41,279
said oh we're gonna scaffold those

903
00:31:44,149 --> 00:31:42,799
glasses

904
00:31:46,149 --> 00:31:44,159
you know that that little bit of the

905
00:31:48,310 --> 00:31:46,159
hearing that we didn't get to see yeah

906
00:31:49,990 --> 00:31:48,320
lou could now go into there and say

907
00:31:52,710 --> 00:31:50,000
everything he knows without fear of

908
00:31:55,830 --> 00:31:52,720
prosecution but not publicly

909
00:31:57,909 --> 00:31:55,840
okay sure um chuck says and this one's a

910
00:31:59,750 --> 00:31:57,919
little bit of a somber one from chuck um

911
00:32:01,909 --> 00:31:59,760
as the us crumbles quickly and

912
00:32:03,430 --> 00:32:01,919
exponentially before our very eyes i

913
00:32:05,190 --> 00:32:03,440

think the cat might have to be laid out

914

00:32:06,950 --> 00:32:05,200

of the bag once they get desperate

915

00:32:09,029 --> 00:32:06,960

enough because all they have left is a

916

00:32:10,789 --> 00:32:09,039

crumbling divided middle class rich

917

00:32:13,350 --> 00:32:10,799

people and a massive military budget to

918

00:32:14,710 --> 00:32:13,360

keep the rich rich chuck to be fair i

919

00:32:16,230 --> 00:32:14,720

think there are many others throughout

920

00:32:19,110 --> 00:32:16,240

the world who would say our countries

921

00:32:21,430 --> 00:32:19,120

are crumbling before our very eyes but

922

00:32:22,230 --> 00:32:21,440

shut up it could be it could be worse

923

00:32:23,029 --> 00:32:22,240

you know

924

00:32:24,710 --> 00:32:23,039

yeah

925

00:32:27,110 --> 00:32:24,720

fuel prices in the uk just dropped a

926

00:32:28,950 --> 00:32:27,120

couple of pence so you know

927

00:32:30,630 --> 00:32:28,960

and our ground is literally melting and

928

00:32:31,830 --> 00:32:30,640

cracking i think it was looting where

929

00:32:34,470 --> 00:32:31,840

planes couldn't take off because the

930

00:32:36,470 --> 00:32:34,480

tarmac was all goopy the good news is uh

931

00:32:40,870 --> 00:32:36,480

because of the crash and fuel prices dan

932

00:32:42,149 --> 00:32:40,880

i fed my kids today so fantastic news

933

00:32:43,350 --> 00:32:42,159

first

934

00:32:45,110 --> 00:32:43,360

um

935

00:32:47,029 --> 00:32:45,120

alex says i was reading about the

936

00:32:49,269 --> 00:32:47,039

director sean kirpatrick really

937

00:32:51,269 --> 00:32:49,279

surprised they announced who he was his

938

00:32:52,630 --> 00:32:51,279

background is pretty crazy and yeah as

939

00:32:54,710 --> 00:32:52,640

we said alex went into that a lot about

940

00:32:57,110 --> 00:32:54,720

a detail he seems extremely well

941

00:32:59,430 --> 00:32:57,120

qualified and similar to a travis taylor

942

00:33:01,269 --> 00:32:59,440

while dr kirkpatrick hasn't appeared on

943

00:33:04,870 --> 00:33:01,279

numerous tv shows as part of the history

944

00:33:06,549 --> 00:33:04,880

channel network his cv and resume and

945

00:33:09,110 --> 00:33:06,559

even on their summer's recommendations

946

00:33:11,190 --> 00:33:09,120

from colleagues speak for themselves

947

00:33:13,190 --> 00:33:11,200

and some free plugs and advertising here

948

00:33:15,350 --> 00:33:13,200

for demon house design dan i know you

949

00:33:17,269 --> 00:33:15,360

know them well they said looking forward

950

00:33:19,990 --> 00:33:17,279

to hearing it do you think that access

951
00:33:22,549 --> 00:33:20,000
to files pre-1947

952
00:33:24,630 --> 00:33:22,559
will be used as an excuse to buy further

953
00:33:26,789 --> 00:33:24,640
time stalling or is this where

954
00:33:28,870 --> 00:33:26,799
disclosure will come from

955
00:33:30,630 --> 00:33:28,880
i i don't think the stuff from way back

956
00:33:32,549 --> 00:33:30,640
just for my own view dan is is going to

957
00:33:34,310 --> 00:33:32,559
be the things that you know put it this

958
00:33:36,470 --> 00:33:34,320
way folks we're not bringing up roswell

959
00:33:37,990 --> 00:33:36,480
here and getting confirmation no one's

960
00:33:40,070 --> 00:33:38,000
dragging out the flying saucers i don't

961
00:33:41,909 --> 00:33:40,080
think that's what's going to happen here

962
00:33:43,669 --> 00:33:41,919
it's possible that roswell gets included

963
00:33:46,389 --> 00:33:43,679

in the comptroller's report though since

964

00:33:47,669 --> 00:33:46,399

that starts in january 47

965

00:33:49,909 --> 00:33:47,679

but

966

00:33:53,269 --> 00:33:49,919

the focus isn't going to be on things

967

00:33:55,110 --> 00:33:53,279

like roswell the focus is going to be on

968

00:33:57,669 --> 00:33:55,120

sightings that

969

00:33:59,430 --> 00:33:57,679

or events that have multiple

970

00:34:01,110 --> 00:33:59,440

sensor systems so not just a pilot with

971

00:34:04,070 --> 00:34:01,120

their eyes it's going to be their wso

972

00:34:06,230 --> 00:34:04,080

there's another pilot and they're whizzo

973

00:34:07,990 --> 00:34:06,240

plus you know the the high-tech fancy

974

00:34:09,750 --> 00:34:08,000

radars that they have plus the hawkeye

975

00:34:11,190 --> 00:34:09,760

radar that they have plus the other ship

976

00:34:13,270 --> 00:34:11,200

that was there you know

977

00:34:15,750 --> 00:34:13,280

these these anomalous events with

978

00:34:17,589 --> 00:34:15,760

multiple vantage points are gonna take

979

00:34:19,430 --> 00:34:17,599

precedence and that that's pretty much

980

00:34:20,470 --> 00:34:19,440

the whole reason that we see such a

981

00:34:22,470 --> 00:34:20,480

focus on

982

00:34:24,149 --> 00:34:22,480

2004 and the tic tac because that's kind

983

00:34:25,909 --> 00:34:24,159

of the first one where we have all that

984

00:34:27,990 --> 00:34:25,919

and not to bang on and i've said this

985

00:34:30,629 --> 00:34:28,000

before dan myself but roswell's a very

986

00:34:32,550 --> 00:34:30,639

romantic story and it's 75 years plus

987

00:34:34,710 --> 00:34:32,560

now since roswell

988

00:34:36,790 --> 00:34:34,720

it's a little bit to me because so much

989

00:34:38,629 --> 00:34:36,800

has happened almost everyone involved is

990

00:34:40,550 --> 00:34:38,639

passed on we have mentioned before many

991

00:34:44,069 --> 00:34:40,560

of the grandchildren of those involved

992

00:34:46,149 --> 00:34:44,079

are passed on or are very elderly um

993

00:34:48,790 --> 00:34:46,159

would it not be similar to saying to you

994

00:34:50,629 --> 00:34:48,800

dan i've baked a cake here's a list of

995

00:34:52,310 --> 00:34:50,639

20 ingredients i've put them together in

996

00:34:54,389 --> 00:34:52,320

a bowl it's been baked it's been

997

00:34:56,389 --> 00:34:54,399

presented there it is can you go and get

998

00:34:57,750 --> 00:34:56,399

me the sugar back out the cake

999

00:34:59,910 --> 00:34:57,760

and that's a little bit like sending

1000

00:35:02,310 --> 00:34:59,920

people back to find as if roswell oh

1001

00:35:04,390 --> 00:35:02,320

there's the roswell file there is there

1002

00:35:06,790 --> 00:35:04,400

and here's the hanger with all the stuff

1003

00:35:08,870 --> 00:35:06,800

it's probably long removed from that

1004

00:35:11,270 --> 00:35:08,880

with say that even was a recovered

1005

00:35:12,790 --> 00:35:11,280

vehicle or technology

1006

00:35:14,390 --> 00:35:12,800

it could be all over the place in

1007

00:35:16,069 --> 00:35:14,400

various different places it could almost

1008

00:35:17,910 --> 00:35:16,079

be unrecognizable

1009

00:35:21,190 --> 00:35:17,920

you know to what it was then or where it

1010

00:35:23,190 --> 00:35:21,200

was and been past hands so many times in

1011

00:35:24,710 --> 00:35:23,200

private industry as well that it would

1012

00:35:25,910 --> 00:35:24,720

be really hard to go and find that kind

1013

00:35:28,470 --> 00:35:25,920

of stuff

1014

00:35:29,990 --> 00:35:28,480

yeah absolutely you'd end up with you

1015

00:35:31,430 --> 00:35:30,000

know say you had a big sheet of material

1016

00:35:33,270 --> 00:35:31,440

and you started giving chunks of it out

1017

00:35:35,190 --> 00:35:33,280

to people to kind of study and they all

1018

00:35:37,030 --> 00:35:35,200

had ndas they were all secure but you

1019

00:35:38,790 --> 00:35:37,040

know i was giving this material out at

1020

00:35:40,630 --> 00:35:38,800

some point one of them's probably gonna

1021

00:35:42,829 --> 00:35:40,640

go walkies or it's gonna get cut into

1022

00:35:46,470 --> 00:35:42,839

two to pass out to someone else

1023

00:35:48,630 --> 00:35:46,480

so the longest since the event happened

1024

00:35:50,710 --> 00:35:48,640

the more kind of stove piped all of that

1025

00:35:52,150 --> 00:35:50,720

information is going to be and sure we

1026

00:35:54,470 --> 00:35:52,160

can connect these stove pipes going

1027

00:35:56,390 --> 00:35:54,480

forward with something like arrow

1028

00:35:58,470 --> 00:35:56,400

but going back and connecting things

1029

00:36:00,550 --> 00:35:58,480

with stove pipes that's really really

1030

00:36:02,790 --> 00:36:00,560

difficult so there might be some stories

1031

00:36:05,030 --> 00:36:02,800

in ufo law that we kind of almost have

1032

00:36:06,630 --> 00:36:05,040

to let go of because they're just not

1033

00:36:08,150 --> 00:36:06,640

good enough to have to have part of the

1034

00:36:09,670 --> 00:36:08,160

conversation you know

1035

00:36:13,030 --> 00:36:09,680

yeah where do you think baubles are head

1036

00:36:14,230 --> 00:36:13,040

has element 115

1037

00:36:16,069 --> 00:36:14,240

um

1038

00:36:18,230 --> 00:36:16,079

buried in the garden i'm going to say

1039

00:36:19,910 --> 00:36:18,240

it's outside it's garden or something

1040

00:36:22,310 --> 00:36:19,920

i just have a little jack valet on my

1041

00:36:23,190 --> 00:36:22,320

shoulder saying that's aerogel

1042

00:36:26,550 --> 00:36:23,200

okay

1043

00:36:28,470 --> 00:36:26,560

i thought you would um trent says a new

1044

00:36:30,150 --> 00:36:28,480

name and clear objectives as a start

1045

00:36:32,069 --> 00:36:30,160

unless there are consequences for not

1046

00:36:33,750 --> 00:36:32,079

giving up info to arrow then it's a

1047

00:36:35,750 --> 00:36:33,760

pretty picture that doesn't have a frame

1048

00:36:38,790 --> 00:36:35,760

to hang on the wall arrows should be a

1049

00:36:39,829 --> 00:36:38,800

well-funded diverse think tank hopefully

1050

00:36:41,430 --> 00:36:39,839

you know that's the proof is in the

1051

00:36:43,349 --> 00:36:41,440

pudding with that one

1052

00:36:45,030 --> 00:36:43,359

gaz says in a nutshell what will be

1053

00:36:47,670 --> 00:36:45,040

different than it is now in five years

1054

00:36:49,109 --> 00:36:47,680

time then what do you guys hope will be

1055

00:36:50,550 --> 00:36:49,119

in five years

1056

00:36:51,829 --> 00:36:50,560

five years is that time scale i think

1057

00:36:53,990 --> 00:36:51,839

some people have latched on to now

1058

00:36:55,750 --> 00:36:54,000

because of lew's comment but it's also a

1059

00:36:58,390 --> 00:36:55,760

nice time scale of you know in five

1060

00:36:59,990 --> 00:36:58,400

years what will change um we're almost

1061

00:37:02,069 --> 00:37:00,000

five years on this december from the new

1062

00:37:03,670 --> 00:37:02,079

york times article and that's a hell of

1063

00:37:05,430 --> 00:37:03,680

a timeline to go back and cover which no

1064

00:37:07,990 --> 00:37:05,440

doubt will do in in four or five months

1065

00:37:09,829 --> 00:37:08,000

time done and because that's a big big

1066

00:37:11,750 --> 00:37:09,839

piece of work but

1067

00:37:14,630 --> 00:37:11,760

what what do you hope from five years

1068

00:37:15,990 --> 00:37:14,640

from now where are we going to be

1069

00:37:17,589 --> 00:37:16,000

i would hope

1070

00:37:18,870 --> 00:37:17,599

that in five years

1071

00:37:20,069 --> 00:37:18,880

and i'll even take bets on this for

1072

00:37:21,349 --> 00:37:20,079

someone someone wants to put some money

1073

00:37:23,270 --> 00:37:21,359

down because it would kind of be fun but

1074

00:37:26,630 --> 00:37:23,280

not too much just like 10 10 fine

1075

00:37:29,270 --> 00:37:26,640

english pounds i will bet someone that

1076

00:37:31,750 --> 00:37:29,280

in five years we won't call them uap

1077

00:37:34,829 --> 00:37:31,760

we'll have an actual name for them and

1078

00:37:39,270 --> 00:37:34,839

know their origin that's what i would

1079

00:37:42,150 --> 00:37:39,280

say okay at the very least by 2026

1080

00:37:43,750 --> 00:37:42,160

the now there are illusions in the new

1081

00:37:45,430 --> 00:37:43,760

legislation language that the programs

1082

00:37:46,870 --> 00:37:45,440

are going to carry on past that but the

1083

00:37:50,230 --> 00:37:46,880

programs they're looking at like arrow

1084

00:37:52,230 --> 00:37:50,240

like uaptf like aimsawg they are funded

1085

00:37:54,550 --> 00:37:52,240

until 2026.

1086

00:37:56,470 --> 00:37:54,560

so in five years we'll be past the end

1087

00:37:58,950 --> 00:37:56,480

of that and we'll have a kind of summary

1088

00:38:01,430 --> 00:37:58,960

of you know for four or five years of

1089

00:38:03,109 --> 00:38:01,440

study of the uap phenomena um and we'll

1090

00:38:05,270 --> 00:38:03,119

also have the results of what nasa are

1091

00:38:07,109 --> 00:38:05,280

doing and what they're diving into

1092

00:38:09,829 --> 00:38:07,119

also we'll have a lot of what project

1093

00:38:12,150 --> 00:38:09,839

galileo finds so in five years we're

1094

00:38:13,829 --> 00:38:12,160

going to be looking at results

1095

00:38:15,270 --> 00:38:13,839

and like i say we're probably going to

1096

00:38:16,710 --> 00:38:15,280

have to look at a whole bunch of events

1097

00:38:18,710 --> 00:38:16,720

that we hold on really tightly to at the

1098

00:38:20,630 --> 00:38:18,720

moment and go you know what they did

1099

00:38:22,550 --> 00:38:20,640

look into that in a robust manner and if

1100

00:38:23,750 --> 00:38:22,560

there was nothing there you know

1101
00:38:25,270 --> 00:38:23,760
do you know what i've been thinking to

1102
00:38:27,829 --> 00:38:25,280
give my answer and hopefully doesn't

1103
00:38:30,870 --> 00:38:27,839
frustrate many people but

1104
00:38:33,589 --> 00:38:30,880
something that i'm thinking is realistic

1105
00:38:35,670 --> 00:38:33,599
especially given the last few weeks as i

1106
00:38:38,550 --> 00:38:35,680
wonder in five years time

1107
00:38:41,990 --> 00:38:38,560
have we got a combination of the james

1108
00:38:43,589 --> 00:38:42,000
webb telescope has seen something at

1109
00:38:45,910 --> 00:38:43,599
quite a distance

1110
00:38:48,310 --> 00:38:45,920
that we can confirm and scientists come

1111
00:38:51,030 --> 00:38:48,320
out and confirm we think we have found

1112
00:38:54,390 --> 00:38:51,040
something somewhere that has intelligent

1113
00:38:56,069 --> 00:38:54,400

life be a you know a dyson sphere or a

1114

00:38:58,390 --> 00:38:56,079

planet that's inhabited or something

1115

00:38:59,990 --> 00:38:58,400

like that or a huge craft somewhere but

1116

00:39:02,069 --> 00:39:00,000

it's been so long ago that we don't even

1117

00:39:04,150 --> 00:39:02,079

know if it's still there

1118

00:39:06,790 --> 00:39:04,160

and they they basically say but it's

1119

00:39:08,710 --> 00:39:06,800

been so far away so long ago

1120

00:39:10,550 --> 00:39:08,720

but we think we've found something out

1121

00:39:12,870 --> 00:39:10,560

there in the universe

1122

00:39:15,190 --> 00:39:12,880

but to go hand in hand with that the

1123

00:39:16,230 --> 00:39:15,200

conversation here a bit closer to home

1124

00:39:18,550 --> 00:39:16,240

is that

1125

00:39:20,230 --> 00:39:18,560

we think there may be a chance

1126

00:39:22,790 --> 00:39:20,240

that some of these things may or may not

1127

00:39:25,349 --> 00:39:22,800

already have visited you know or be

1128

00:39:26,069 --> 00:39:25,359

visiting us and we're looking into that

1129

00:39:28,230 --> 00:39:26,079

and

1130

00:39:29,510 --> 00:39:28,240

almost again keeping that drip going but

1131

00:39:31,030 --> 00:39:29,520

saying ah

1132

00:39:32,150 --> 00:39:31,040

actually we've found something really

1133

00:39:34,150 --> 00:39:32,160

far away

1134

00:39:36,230 --> 00:39:34,160

and that gets the general public more

1135

00:39:38,150 --> 00:39:36,240

ready for a conversation of well are

1136

00:39:40,230 --> 00:39:38,160

they coming here well we don't know this

1137

00:39:42,230 --> 00:39:40,240

thing's actually 13 billion light years

1138

00:39:44,790 --> 00:39:42,240

away so you know the actual distance is

1139

00:39:46,470 --> 00:39:44,800

it's not there anymore however

1140

00:39:48,470 --> 00:39:46,480

it just opens up people's minds a little

1141

00:39:50,870 --> 00:39:48,480

bit to oh well if something was there

1142

00:39:52,710 --> 00:39:50,880

why couldn't something now be here

1143

00:39:54,390 --> 00:39:52,720

and then that allows the conversation to

1144

00:39:56,150 --> 00:39:54,400

change so i wonder and do you know what

1145

00:39:58,790 --> 00:39:56,160

i would take that in five years if we

1146

00:40:00,950 --> 00:39:58,800

were at that point

1147

00:40:03,349 --> 00:40:00,960

i'm gonna dub your five year point the

1148

00:40:05,910 --> 00:40:03,359

the three body point because there's a

1149

00:40:07,349 --> 00:40:05,920

lot in what you just said that is very

1150

00:40:09,510 --> 00:40:07,359

very similar to

1151
00:40:11,510 --> 00:40:09,520
the three body problem and that series

1152
00:40:13,109 --> 00:40:11,520
in general

1153
00:40:15,109 --> 00:40:13,119
what worries me about a scenario like

1154
00:40:17,190 --> 00:40:15,119
that is that if we start talking about

1155
00:40:19,430 --> 00:40:17,200
you know not being alone but not knowing

1156
00:40:21,349 --> 00:40:19,440
how close they are that affects people

1157
00:40:22,870 --> 00:40:21,359
in in a really fundamental kind of way

1158
00:40:25,589 --> 00:40:22,880
psychologically some people are going

1159
00:40:27,670 --> 00:40:25,599
gonna be okay having them so close um

1160
00:40:29,910 --> 00:40:27,680
and tom alluded it to it oh in his

1161
00:40:31,990 --> 00:40:29,920
interview with sivo where if we can see

1162
00:40:32,870 --> 00:40:32,000
them 13 you know million light years

1163
00:40:36,069 --> 00:40:32,880

away

1164

00:40:37,349 --> 00:40:36,079

worry about it

1165

00:40:38,790 --> 00:40:37,359

but if there's evidence that they're

1166

00:40:40,710 --> 00:40:38,800

visiting here and we don't know what

1167

00:40:42,470 --> 00:40:40,720

they're doing that's a really scary

1168

00:40:43,349 --> 00:40:42,480

conversation for some people

1169

00:40:45,829 --> 00:40:43,359

so

1170

00:40:48,470 --> 00:40:45,839

i would hope that in five years

1171

00:40:51,190 --> 00:40:48,480

we would have a bit more of an answer in

1172

00:40:53,589 --> 00:40:51,200

terms of intent as well

1173

00:40:55,510 --> 00:40:53,599

okay interesting a good question guys

1174

00:40:57,829 --> 00:40:55,520

one for uh one for a longer show i think

1175

00:41:00,069 --> 00:40:57,839

as well um ricky says do you guys feel

1176

00:41:02,230 --> 00:41:00,079

like the formation of arrow will be more

1177

00:41:03,510 --> 00:41:02,240

effective than its predecessor i think

1178

00:41:06,069 --> 00:41:03,520

you can have answered that but dan just

1179

00:41:09,109 --> 00:41:06,079

to sum up you we do yeah yeah yeah i

1180

00:41:10,550 --> 00:41:09,119

think so um not perfect but a good step

1181

00:41:11,990 --> 00:41:10,560

forward and next year we'll go through

1182

00:41:14,630 --> 00:41:12,000

the same thing again with not perfect

1183

00:41:17,589 --> 00:41:14,640

burgers set forward so yeah onwards yeah

1184

00:41:19,510 --> 00:41:17,599

adam adam goldsack as we know uap media

1185

00:41:21,910 --> 00:41:19,520

uk colleague optimistically cautious

1186

00:41:24,550 --> 00:41:21,920

this is a positive move although how apt

1187

00:41:25,910 --> 00:41:24,560

is ousdi over another branch and i've

1188

00:41:27,349 --> 00:41:25,920

seen some people commenting saying it

1189

00:41:29,430 --> 00:41:27,359

should have been housed somewhere else

1190

00:41:32,069 --> 00:41:29,440

but this is always going to be the thing

1191

00:41:33,589 --> 00:41:32,079

that where is the perfect place to put

1192

00:41:34,390 --> 00:41:33,599

something like this there's always going

1193

00:41:35,829 --> 00:41:34,400

to be

1194

00:41:38,150 --> 00:41:35,839

some kind of

1195

00:41:39,990 --> 00:41:38,160

issue with how a department is run or

1196

00:41:40,790 --> 00:41:40,000

what they may be doing behind the scenes

1197

00:41:42,150 --> 00:41:40,800

or

1198

00:41:45,109 --> 00:41:42,160

like imagine it was like the department

1199

00:41:46,790 --> 00:41:45,119

of energy aha there you go it was them

1200

00:41:47,750 --> 00:41:46,800

and it's like so it's got to be

1201
00:41:49,270 --> 00:41:47,760
somewhere

1202
00:41:50,150 --> 00:41:49,280
and

1203
00:41:53,190 --> 00:41:50,160
there is

1204
00:41:54,710 --> 00:41:53,200
legislation that proposes making a joint

1205
00:41:56,870 --> 00:41:54,720
program office

1206
00:41:59,349 --> 00:41:56,880
which alludes to them maybe either this

1207
00:42:02,230 --> 00:41:59,359
year or next year kind of pull in

1208
00:42:03,829 --> 00:42:02,240
control of this office away from the dod

1209
00:42:05,750 --> 00:42:03,839
so i think it's something that officials

1210
00:42:07,109 --> 00:42:05,760
are aware of but they're kind of letting

1211
00:42:09,430 --> 00:42:07,119
them do their thing and kind of saying

1212
00:42:11,109 --> 00:42:09,440
okay you know doctor chunk and patrick

1213
00:42:12,630 --> 00:42:11,119

you want him in you say that he's the

1214

00:42:15,190 --> 00:42:12,640

best that you've got cool let's see what

1215

00:42:17,030 --> 00:42:15,200

he does for you and then if by next year

1216

00:42:19,109 --> 00:42:17,040

we're still in the same situation again

1217

00:42:20,710 --> 00:42:19,119

we'll probably see you know it being

1218

00:42:22,230 --> 00:42:20,720

pulled further and further away from the

1219

00:42:23,829 --> 00:42:22,240

dod control

1220

00:42:25,829 --> 00:42:23,839

and then you know i like to finish on a

1221

00:42:27,670 --> 00:42:25,839

fair or cynical or

1222

00:42:29,589 --> 00:42:27,680

you know point i know you saw this one

1223

00:42:31,750 --> 00:42:29,599

as well on twitter you interacted with

1224

00:42:33,829 --> 00:42:31,760

lin lin said it's another word for the

1225

00:42:36,710 --> 00:42:33,839

same organization doing the same thing

1226

00:42:38,470 --> 00:42:36,720

but maybe i'm just being cynical um and

1227

00:42:40,150 --> 00:42:38,480

it reminded me of the

1228

00:42:42,630 --> 00:42:40,160

you know the scooby-doo meme where they

1229

00:42:44,390 --> 00:42:42,640

pull off the mask and it's

1230

00:42:45,910 --> 00:42:44,400

it was that guy all along or the old

1231

00:42:48,550 --> 00:42:45,920

vince mcmahon he was a wrestling one

1232

00:42:50,390 --> 00:42:48,560

again it was me austin and is it going

1233

00:42:52,630 --> 00:42:50,400

to be that meme where the arrow hood

1234

00:42:54,309 --> 00:42:52,640

gets pulled off and it's the aoi msg at

1235

00:42:55,349 --> 00:42:54,319

a year's time going haha it was me all

1236

00:42:57,349 --> 00:42:55,359

along

1237

00:42:58,950 --> 00:42:57,359

but then we can we can keep going back

1238

00:43:01,030 --> 00:42:58,960

right if we pull

1239

00:43:03,349 --> 00:43:01,040

aim sogg's face off then we get the

1240

00:43:05,670 --> 00:43:03,359

uaptf if we pull that mask off we get a

1241

00:43:08,069 --> 00:43:05,680

tip we pull that mask off we get osap

1242

00:43:09,750 --> 00:43:08,079

and then they're areas that people are a

1243

00:43:11,589 --> 00:43:09,760

lot more comfortable with right we think

1244

00:43:13,190 --> 00:43:11,599

we did a good job we think they did a

1245

00:43:15,109 --> 00:43:13,200

good job investigating skinwalker ranch

1246

00:43:16,710 --> 00:43:15,119

and the high strangeness so this stuff

1247

00:43:18,390 --> 00:43:16,720

all kind of trickles down out of those

1248

00:43:19,990 --> 00:43:18,400

things but yeah just more robust

1249

00:43:21,910 --> 00:43:20,000

conversation now

1250

00:43:23,589 --> 00:43:21,920

awesome cool well done thank you very

1251

00:43:25,829 --> 00:43:23,599

much for joining us for this one

1252

00:43:27,829 --> 00:43:25,839

especially ahead of your big move

1253

00:43:29,349 --> 00:43:27,839

i'm away this weekend in glasgow for a

1254

00:43:32,550 --> 00:43:29,359

day with my little boy looking forward

1255

00:43:34,309 --> 00:43:32,560

to that coming up on monday dan is the

1256

00:43:37,270 --> 00:43:34,319

robin hanson interview which is about

1257

00:43:39,829 --> 00:43:37,280

out now on early access and ad-free

1258

00:43:41,990 --> 00:43:39,839

according to dan dave smithers and a few

1259

00:43:44,630 --> 00:43:42,000

others i didn't make an idea of myself

1260

00:43:46,630 --> 00:43:44,640

with robin um thank him very much for

1261

00:43:48,230 --> 00:43:46,640

that conversation you you did great

1262

00:43:50,230 --> 00:43:48,240

people are going to really enjoy it it's

1263

00:43:51,990 --> 00:43:50,240

a thoroughly entertaining and a bit of a

1264

00:43:53,510 --> 00:43:52,000

different interview as well

1265

00:43:55,030 --> 00:43:53,520

it was the most awkward i think i said

1266

00:43:56,630 --> 00:43:55,040

you don't have felt since the cut joy

1267

00:43:58,550 --> 00:43:56,640

mongol interview i've done with and that

1268

00:43:59,829 --> 00:43:58,560

was nothing against cur that was just

1269

00:44:01,430 --> 00:43:59,839

having someone who's far more

1270

00:44:03,109 --> 00:44:01,440

intellectual than myself on but trying

1271

00:44:05,190 --> 00:44:03,119

to kind of break it down to terms i

1272

00:44:06,470 --> 00:44:05,200

understood but yeah robin was great he

1273

00:44:07,990 --> 00:44:06,480

said he'd be really happy to come back

1274

00:44:09,910 --> 00:44:08,000

on in the future he's got a bit coming

1275

00:44:11,670 --> 00:44:09,920

out down the line which is quite some

1276

00:44:13,750 --> 00:44:11,680

time away still but you'll be speaking

1277

00:44:15,670 --> 00:44:13,760

to him for colouring outside the lines

1278

00:44:17,109 --> 00:44:15,680

well before then anyway

1279

00:44:19,109 --> 00:44:17,119

um but folks want to listen to that

1280

00:44:22,390 --> 00:44:19,119

early you can check out any of the link
