

THE BREAKDOWN

1
00:00:02,810 --> 00:00:00,589

[Music]

2
00:00:05,210 --> 00:00:02,820

this is Jim semithan and you are

3
00:00:10,190 --> 00:00:05,220

listening to that UFO podcast

4
00:00:14,390 --> 00:00:12,470

hi everyone and welcome back to that UFO

5
00:00:16,670 --> 00:00:14,400

podcast my name is Andy with your

6
00:00:18,590 --> 00:00:16,680

breakdown for September pretty much for

7
00:00:20,630 --> 00:00:18,600

the full month I think this is the first

8
00:00:22,849 --> 00:00:20,640

one for the month namely because I've

9
00:00:24,410 --> 00:00:22,859

been pretty lazy uh Dan joins me for

10
00:00:26,090 --> 00:00:24,420

this one Dan welcome

11
00:00:28,670 --> 00:00:26,100

uh yeah hi

12
00:00:30,109 --> 00:00:28,680

um I I should have uh you know like

13
00:00:31,970 --> 00:00:30,119

trumpets sounding but I think people

14

00:00:34,850 --> 00:00:31,980

expect me on the breakdown now so yeah

15

00:00:36,650 --> 00:00:34,860

we don't need big intros no in all

16

00:00:38,810 --> 00:00:36,660

there's plenty to talk about as well and

17

00:00:40,850 --> 00:00:38,820

we've got a couple of bigger topics to

18

00:00:43,010 --> 00:00:40,860

discuss first off including Chris melon

19

00:00:45,470 --> 00:00:43,020

on Linda Moulton Howe which we'll get to

20

00:00:46,729 --> 00:00:45,480

which is a strange combination

21

00:00:50,650 --> 00:00:46,739

um even though they're both involved in

22

00:00:54,350 --> 00:00:50,660

the same topic uh the Wilson Davis

23

00:00:55,670 --> 00:00:54,360

controversy slash progress slash update

24

00:00:57,770 --> 00:00:55,680

that happened recently as well that's

25

00:00:59,389 --> 00:00:57,780

kind of got people talking and again has

26
00:01:02,090 --> 00:00:59,399
has people kind of button heads a little

27
00:01:03,889 --> 00:01:02,100
bit online and then of course I've got

28
00:01:06,109 --> 00:01:03,899
some news to run through including the

29
00:01:08,270 --> 00:01:06,119
the recent Nim Aviation logo that came

30
00:01:10,490 --> 00:01:08,280
out with the saucer on it uh debrief

31
00:01:12,289 --> 00:01:10,500
classification article the dark asteroid

32
00:01:14,030 --> 00:01:12,299
Smash and then some other bits and

33
00:01:15,530 --> 00:01:14,040
pieces as well to run through at the end

34
00:01:17,090 --> 00:01:15,540
so it should be a nice summation of

35
00:01:19,010 --> 00:01:17,100
what's kind of going on this month just

36
00:01:21,050 --> 00:01:19,020
again to show folks there is a whole lot

37
00:01:23,870 --> 00:01:21,060
going on if you think things are quiet

38
00:01:26,390 --> 00:01:23,880

in the world of UFOs slash uaps slash

39

00:01:28,429 --> 00:01:26,400

whatever you want to call them but here

40

00:01:30,830 --> 00:01:28,439

we are listen first up um pretty fresh

41

00:01:32,749 --> 00:01:30,840

as well we're recording this on the 29th

42

00:01:34,190 --> 00:01:32,759

of September it'll be out on the 29th of

43

00:01:37,130 --> 00:01:34,200

September for folks to listen to

44

00:01:40,429 --> 00:01:37,140

straight off the bat and Chris Mellon

45

00:01:42,289 --> 00:01:40,439

has been on with Linda Milton Howe

46

00:01:44,510 --> 00:01:42,299

um just just last night it was on the

47

00:01:46,670 --> 00:01:44,520

29th as we speak in the UK but it was a

48

00:01:48,770 --> 00:01:46,680

28th still in the US because time travel

49

00:01:50,630 --> 00:01:48,780

that's how that happened

50

00:01:52,190 --> 00:01:50,640

um this this is one that got people

51
00:01:54,530 --> 00:01:52,200
walking out the eyebrows raised Chris

52
00:01:56,630 --> 00:01:54,540
Miller and Linda Moulton how done well

53
00:01:59,090 --> 00:01:56,640
they're very much too

54
00:02:01,850 --> 00:01:59,100
two people involved in the the same

55
00:02:03,530 --> 00:02:01,860
subject the same Worlds Apart don't they

56
00:02:05,690 --> 00:02:03,540
and like it was really weird in seeing

57
00:02:08,570 --> 00:02:05,700
them together like can I win the rock

58
00:02:09,770 --> 00:02:08,580
faced Hulk Hogan it was like oh you've

59
00:02:11,330 --> 00:02:09,780
both done this for years but never

60
00:02:13,369 --> 00:02:11,340
expected to see in the same place at the

61
00:02:14,869 --> 00:02:13,379
same time even though they do the same

62
00:02:17,150 --> 00:02:14,879
thing that's a good way of putting it

63
00:02:20,229 --> 00:02:17,160

just very different eras of ufology yeah

64

00:02:22,970 --> 00:02:20,239

you know and it's nice

65

00:02:24,410 --> 00:02:22,980

yeah you could kind of see that tension

66

00:02:26,089 --> 00:02:24,420

in the conversation sometimes you know

67

00:02:28,250 --> 00:02:26,099

Linda wanted to probably talk about

68

00:02:29,330 --> 00:02:28,260

Antarctica and Spartan one and two and

69

00:02:31,250 --> 00:02:29,340

all those kind of really interesting

70

00:02:34,910 --> 00:02:31,260

things but Chris was like legislation

71

00:02:37,010 --> 00:02:34,920

like you know the uh laser focus yeah so

72

00:02:38,510 --> 00:02:37,020

see them come face to face actually my

73

00:02:39,949 --> 00:02:38,520

note I put down at the time was it's

74

00:02:41,330 --> 00:02:39,959

like when you see your mum and dad who

75

00:02:43,670 --> 00:02:41,340

have been divorced for several years

76

00:02:45,170 --> 00:02:43,680

together at a parent's night

77

00:02:46,610 --> 00:02:45,180

um and there's just that kind of

78

00:02:48,350 --> 00:02:46,620

awkwardness between them but they're

79

00:02:49,430 --> 00:02:48,360

there to have a similar type of

80

00:02:51,110 --> 00:02:49,440

discussion but maybe get different

81

00:02:52,970 --> 00:02:51,120

things out of it

82

00:02:55,430 --> 00:02:52,980

um straight away Linda asks about the

83

00:02:58,190 --> 00:02:55,440

upcoming amendments and legislation uh

84

00:03:01,369 --> 00:02:58,200

changing how Pilots example having to

85

00:03:03,350 --> 00:03:01,379

sign ndas after an encounter with a UFO

86

00:03:05,150 --> 00:03:03,360

that could change what would the process

87

00:03:06,550 --> 00:03:05,160

be is it going to make things easier and

88

00:03:08,570 --> 00:03:06,560

I think at the start I thought oh

89

00:03:11,030 --> 00:03:08,580

interesting this is going to be maybe

90

00:03:13,190 --> 00:03:11,040

the tone of the conversation but spoiler

91

00:03:15,290 --> 00:03:13,200

alert like you say Linda quickly brings

92

00:03:17,509 --> 00:03:15,300

things back to the animal mutilations

93

00:03:19,910 --> 00:03:17,519

abductions pretty quick in the

94

00:03:22,130 --> 00:03:19,920

conversation the conversations only

95

00:03:23,390 --> 00:03:22,140

about 15 minutes long then but it's yeah

96

00:03:25,309 --> 00:03:23,400

really really short one like those

97

00:03:27,110 --> 00:03:25,319

divorced parents you know they keep they

98

00:03:28,850 --> 00:03:27,120

keep it Slappy they've got their slot

99

00:03:29,990 --> 00:03:28,860

and to be fair they were together at a

100

00:03:31,850 --> 00:03:30,000

conference weren't they and I think this

101
00:03:34,490 --> 00:03:31,860
has very much been probably a rather

102
00:03:36,290 --> 00:03:34,500
hastily arranged uh Linda's asked for

103
00:03:37,910 --> 00:03:36,300
the time Chris has been been good enough

104
00:03:40,550 --> 00:03:37,920
together that time and she deserves it

105
00:03:42,949 --> 00:03:40,560
to be fair and it's been what can we get

106
00:03:44,570 --> 00:03:42,959
done but he was there for and this is

107
00:03:47,330 --> 00:03:44,580
just my opinion folks and you know I can

108
00:03:49,490 --> 00:03:47,340
be wrong sometimes but it seemed like he

109
00:03:51,110 --> 00:03:49,500
was there to have one conversation she

110
00:03:53,270 --> 00:03:51,120
was there to have another

111
00:03:55,250 --> 00:03:53,280
and she was doing her best to ask the

112
00:03:57,289 --> 00:03:55,260
question she wanted to which I can

113
00:03:58,670 --> 00:03:57,299

totally appreciate by the way but at the

114

00:04:00,110 --> 00:03:58,680

same time

115

00:04:02,210 --> 00:04:00,120

he was only there to give certain

116

00:04:04,789 --> 00:04:02,220

answers and

117

00:04:07,910 --> 00:04:04,799

I I put down Chris melon seems like a

118

00:04:09,410 --> 00:04:07,920

fantastic filter to have between people

119

00:04:10,850 --> 00:04:09,420

like Linda who have done a lot of work

120

00:04:13,070 --> 00:04:10,860

in research and do have a lot of

121

00:04:14,509 --> 00:04:13,080

knowledge but potentially very biased

122

00:04:17,629 --> 00:04:14,519

knowledge like maybe you could put a

123

00:04:19,270 --> 00:04:17,639

Steven Greer in the same category as a

124

00:04:21,830 --> 00:04:19,280

filter between

125

00:04:23,870 --> 00:04:21,840

what should go through to people places

126
00:04:26,810 --> 00:04:23,880
like congress with politicians and

127
00:04:28,550 --> 00:04:26,820
policy makers and decision makers but

128
00:04:31,010 --> 00:04:28,560
also be able to get rid of all that

129
00:04:32,990 --> 00:04:31,020
other stuff that is just not part of the

130
00:04:35,629 --> 00:04:33,000
conversation right now

131
00:04:37,969 --> 00:04:35,639
um does that feel Fair yeah I would say

132
00:04:39,650 --> 00:04:37,979
so uh and and that's what we kind of

133
00:04:41,390 --> 00:04:39,660
need to do right you know we we can't go

134
00:04:43,249 --> 00:04:41,400
to Congress imagine if in those hearings

135
00:04:45,530 --> 00:04:43,259
we started bringing up all the the kind

136
00:04:47,330 --> 00:04:45,540
of the woovia aspects of the conversation

137
00:04:50,090 --> 00:04:47,340
people would switch off you know there

138
00:04:51,530 --> 00:04:50,100

were plenty of complaints about the The

139

00:04:52,850 --> 00:04:51,540

Stranger stuff being brought into the

140

00:04:54,230 --> 00:04:52,860

Brazilian hearings but that's just the

141

00:04:56,150 --> 00:04:54,240

culture there the more accepting of it

142

00:04:58,249 --> 00:04:56,160

so you know it wouldn't rub locals up in

143

00:05:01,670 --> 00:04:58,259

the same way as it rubs people looking

144

00:05:04,129 --> 00:05:01,680

in yeah uh but yeah Chris was nice and

145

00:05:06,409 --> 00:05:04,139

focused on the legislative stuff uh you

146

00:05:10,249 --> 00:05:06,419

know reminding people that there are

147

00:05:12,170 --> 00:05:10,259

people in uh Arrow the duap task force

148

00:05:13,790 --> 00:05:12,180

now that don't feel like they're getting

149

00:05:16,430 --> 00:05:13,800

all the answers and this legislation

150

00:05:17,990 --> 00:05:16,440

that's coming in is designed to to help

151

00:05:18,950 --> 00:05:18,000

them get to where they want to be so

152

00:05:20,629 --> 00:05:18,960

that they can study this that will

153

00:05:23,689 --> 00:05:20,639

probably come with a name change for the

154

00:05:25,969 --> 00:05:23,699

UAP office as well to the UAP jpo which

155

00:05:26,870 --> 00:05:25,979

is joint program office where it

156

00:05:28,249 --> 00:05:26,880

basically means that everyone's working

157

00:05:28,909 --> 00:05:28,259

together

158

00:05:30,770 --> 00:05:28,919

um

159

00:05:33,050 --> 00:05:30,780

something that I didn't know that Linda

160

00:05:34,930 --> 00:05:33,060

mentioned is that her brother saw

161

00:05:37,550 --> 00:05:34,940

a crafter Malmstrom

162

00:05:39,590 --> 00:05:37,560

yeah that was new to me as well and I

163

00:05:41,210 --> 00:05:39,600

thought is that new or is that something

164

00:05:43,730 --> 00:05:41,220

that she just dropped and maybe a long

165

00:05:45,650 --> 00:05:43,740

time like hardcore listeners of Linda

166

00:05:47,029 --> 00:05:45,660

excuse the language of Hardcore I don't

167

00:05:48,890 --> 00:05:47,039

know if that's the right way way to see

168

00:05:50,390 --> 00:05:48,900

it she doesn't have an only fans

169

00:05:52,670 --> 00:05:50,400

um but a lot long time listeners of

170

00:05:54,890 --> 00:05:52,680

Linda maybe knew that already but yeah I

171

00:05:56,570 --> 00:05:54,900

was a bit surprised at that um and and

172

00:05:58,270 --> 00:05:56,580

to be fair Chris took the stuff like

173

00:06:01,310 --> 00:05:58,280

that and the nature that was intended

174

00:06:05,330 --> 00:06:01,320

but always bringing it back to to

175

00:06:08,330 --> 00:06:05,340

legislation and she did ask about the if

176

00:06:10,070 --> 00:06:08,340

this goes through would it become law in

177

00:06:11,270 --> 00:06:10,080

the the January time and he said yeah it

178

00:06:13,010 --> 00:06:11,280

should if it goes through in a

179

00:06:14,930 --> 00:06:13,020

successful it'll be enacted by the

180

00:06:17,629 --> 00:06:14,940

Year's End and then should become law

181

00:06:19,370 --> 00:06:17,639

January 2023 without any issues or

182

00:06:21,770 --> 00:06:19,380

anything that gives upset in the in the

183

00:06:23,510 --> 00:06:21,780

background yeah precisely as soon as

184

00:06:25,850 --> 00:06:23,520

it's signed in last year we saw it

185

00:06:27,529 --> 00:06:25,860

signed in around Christmas you know the

186

00:06:29,150 --> 00:06:27,539

same week of and as soon as it's signed

187

00:06:32,029 --> 00:06:29,160

it's basically all systems go for for

188

00:06:34,309 --> 00:06:32,039

the UAP jpo office and and I'm sure that

189

00:06:35,990 --> 00:06:34,319

Dr Kirkpatrick Who currently runs Arrow

190

00:06:37,670 --> 00:06:36,000

would love all the help that he can get

191

00:06:40,010 --> 00:06:37,680

to kind of sift through this history of

192

00:06:42,590 --> 00:06:40,020

information and things that he is or he

193

00:06:46,189 --> 00:06:42,600

isn't getting to to study

194

00:06:47,510 --> 00:06:46,199

now Linda outright asks Chris if he

195

00:06:49,730 --> 00:06:47,520

would be surprised if an announcement

196

00:06:52,249 --> 00:06:49,740

came out soon that we weren't alone in

197

00:06:54,950 --> 00:06:52,259

the universe and it kind of laughs

198

00:06:57,350 --> 00:06:54,960

doesn't it and very quickly Kai Bosh is

199

00:06:59,150 --> 00:06:57,360

that I like the word kibosh and says I

200

00:07:01,070 --> 00:06:59,160

would be surprised yes I don't think

201

00:07:02,990 --> 00:07:01,080

we're we're near that

202

00:07:05,390 --> 00:07:03,000

um that's not what this process is about

203

00:07:07,610 --> 00:07:05,400

again it's that that to me showed that

204

00:07:09,529 --> 00:07:07,620

change in divide of but people really

205

00:07:10,570 --> 00:07:09,539

want to ask this stuff and Chris melon

206

00:07:12,770 --> 00:07:10,580

being

207

00:07:14,390 --> 00:07:12,780

frustratingly level-headed but you

208

00:07:17,990 --> 00:07:14,400

expect that from him at this point it's

209

00:07:21,650 --> 00:07:18,000

his role in all of this is very much the

210

00:07:22,850 --> 00:07:21,660

he far more than Louis zondo is seems to

211

00:07:24,529 --> 00:07:22,860

be the guy who's doing a lot of the work

212

00:07:26,570 --> 00:07:24,539

in the background and just now and again

213

00:07:28,550 --> 00:07:26,580

steps out to say here's where we're at

214

00:07:29,990 --> 00:07:28,560

here's an interesting article here's

215

00:07:31,430 --> 00:07:30,000

where it's pushing things down the line

216

00:07:33,409 --> 00:07:31,440

and then goes back to doing what he's

217

00:07:35,330 --> 00:07:33,419

doing and which is obviously very much

218

00:07:37,129 --> 00:07:35,340

appreciated by many

219

00:07:38,570 --> 00:07:37,139

um but he he just puts that straight on

220

00:07:40,270 --> 00:07:38,580

there look no that's not what this is

221

00:07:43,010 --> 00:07:40,280

about this isn't about you know

222

00:07:44,809 --> 00:07:43,020

disclosure as such in the the president

223

00:07:46,969 --> 00:07:44,819

announcing anything

224

00:07:50,390 --> 00:07:46,979

um however what I thought was thought

225

00:07:52,490 --> 00:07:50,400

was interesting is Chris does drop a

226

00:07:55,129 --> 00:07:52,500

time scale on things and says hopefully

227

00:07:57,170 --> 00:07:55,139

in a year or two we'll know more about

228

00:07:58,850 --> 00:07:57,180

the truth of this and we can stop the

229

00:08:00,650 --> 00:07:58,860

speculating

230

00:08:02,510 --> 00:08:00,660

which again because Linda just before

231

00:08:05,629 --> 00:08:02,520

that for context had talked again about

232

00:08:07,850 --> 00:08:05,639

mutilations abductions and he just

233

00:08:10,070 --> 00:08:07,860

doesn't go there in the conversation but

234

00:08:11,570 --> 00:08:10,080

seems to to give indication that you

235

00:08:13,430 --> 00:08:11,580

know what in a year or two it's possible

236

00:08:14,689 --> 00:08:13,440

that we've got some answers to this kind

237

00:08:15,770 --> 00:08:14,699

of stuff and I thought that was a very

238

00:08:17,570 --> 00:08:15,780

interesting

239

00:08:18,950 --> 00:08:17,580

yeah because he doesn't seem the kind of

240

00:08:21,110 --> 00:08:18,960

guy to throw out kind of spurious

241

00:08:23,390 --> 00:08:21,120

language and and just throw numbers on

242

00:08:25,670 --> 00:08:23,400

things because again like when Lou

243

00:08:27,710 --> 00:08:25,680

Elizondo mentioned the the five years

244

00:08:29,510 --> 00:08:27,720

comment everyone jumped on that and

245

00:08:30,710 --> 00:08:29,520

anytime and in the upcoming interview

246

00:08:32,029 --> 00:08:30,720

people are going to hear with Jim

247

00:08:33,170 --> 00:08:32,039

semivan

248

00:08:34,790 --> 00:08:33,180

um you've not even listened to that

249

00:08:36,110 --> 00:08:34,800

yourself yet Dad I've only sent it to

250

00:08:37,430 --> 00:08:36,120

you yesterday yeah that's right it's on

251
00:08:40,430 --> 00:08:37,440
my computer ready to edit but I haven't

252
00:08:43,130 --> 00:08:40,440
jumped in here a mini spoiler but a

253
00:08:44,870 --> 00:08:43,140
spoiler on really nothing but and I joke

254
00:08:48,470 --> 00:08:44,880
with Jim about this at the time he

255
00:08:50,930 --> 00:08:48,480
mentions a date of April 15 2023 okay

256
00:08:53,269 --> 00:08:50,940
just talking about you know if something

257
00:08:54,829 --> 00:08:53,279
happened blah blah blah and I I made the

258
00:08:56,329 --> 00:08:54,839
comment to him that just because you

259
00:08:59,030 --> 00:08:56,339
have now said that people will look into

260
00:09:00,769 --> 00:08:59,040
that date as Jim simivan said and he was

261
00:09:02,870 --> 00:09:00,779
like no no I've only laughed I've

262
00:09:04,670 --> 00:09:02,880
literally just picked that date Chris

263
00:09:06,650 --> 00:09:04,680

melon doesn't seem like that type of guy

264

00:09:08,930 --> 00:09:06,660

who is just throwing out a time scale of

265

00:09:11,870 --> 00:09:08,940

a year or two so for me that seems that

266

00:09:14,090 --> 00:09:11,880

he's confident to a degree that within

267

00:09:16,430 --> 00:09:14,100

the next 12 to 24 months showing that I

268

00:09:18,110 --> 00:09:16,440

know what a year is we could really have

269

00:09:19,850 --> 00:09:18,120

a little bit more progress or quite a

270

00:09:21,769 --> 00:09:19,860

bit more progress than we're seeing now

271

00:09:24,050 --> 00:09:21,779

so hope yeah hope for you in that one

272

00:09:25,730 --> 00:09:24,060

it's interesting to extrapolate forward

273

00:09:27,530 --> 00:09:25,740

the legislation that we've got going

274

00:09:29,030 --> 00:09:27,540

through this year you know people have

275

00:09:31,250 --> 00:09:29,040

pointed out essentially that there's no

276

00:09:32,810 --> 00:09:31,260

punishment if no one wants to come

277

00:09:34,430 --> 00:09:32,820

forward to talk about this thing you

278

00:09:35,750 --> 00:09:34,440

know this year it's all carried you know

279

00:09:37,190 --> 00:09:35,760

kind of saying hey you know if you come

280

00:09:38,630 --> 00:09:37,200

to us we will make sure that you're not

281

00:09:39,889 --> 00:09:38,640

prosecuted and that you're protected

282

00:09:42,590 --> 00:09:39,899

from the people that made you sign an

283

00:09:44,630 --> 00:09:42,600

nd8 so on so forth but then if you think

284

00:09:46,130 --> 00:09:44,640

next year's legislation because this is

285

00:09:48,290 --> 00:09:46,140

built on last year's legislation already

286

00:09:49,970 --> 00:09:48,300

so next year's is probably going to be

287

00:09:52,250 --> 00:09:49,980

hey we gave you a year to come forward

288

00:09:54,230 --> 00:09:52,260

and you haven't so we're gonna start

289

00:09:55,250 --> 00:09:54,240

kicking in the door now so we'll

290

00:09:58,070 --> 00:09:55,260

probably see some language about

291

00:09:59,990 --> 00:09:58,080

repercussions and things like that so

292

00:10:02,509 --> 00:10:00,000

it's interesting to think that Chris's

293

00:10:04,449 --> 00:10:02,519

time scale is set essentially after

294

00:10:07,370 --> 00:10:04,459

they've put out the carrot and the stick

295

00:10:09,530 --> 00:10:07,380

to kind of say okay you know the this is

296

00:10:11,810 --> 00:10:09,540

the punishment this is the reward which

297

00:10:13,670 --> 00:10:11,820

which do you want and he seems pretty

298

00:10:14,810 --> 00:10:13,680

confident that uh people people are

299

00:10:17,449 --> 00:10:14,820

ready to talk

300

00:10:19,670 --> 00:10:17,459

however just to clear up on that

301

00:10:22,430 --> 00:10:19,680

it's not a case of people are going to

302

00:10:23,870 --> 00:10:22,440

come forward and in a public sense spell

303

00:10:25,490 --> 00:10:23,880

all the beans about what they know in

304

00:10:27,650 --> 00:10:25,500

terms of classified projects crash

305

00:10:29,329 --> 00:10:27,660

retrieval programs and that that's not

306

00:10:31,130 --> 00:10:29,339

what this is about Chris Miller's trying

307

00:10:32,750 --> 00:10:31,140

to get that language in there and these

308

00:10:35,690 --> 00:10:32,760

people to come forward along with many

309

00:10:37,250 --> 00:10:35,700

others but most of that if not all of it

310

00:10:39,590 --> 00:10:37,260

is going to happen in a classified set

311

00:10:41,090 --> 00:10:39,600

and still probably or or behind closed

312

00:10:43,250 --> 00:10:41,100

door setting

313

00:10:44,750 --> 00:10:43,260

um and yeah I know that the Frank

314

00:10:46,250 --> 00:10:44,760

Melbourne interview a little bit

315

00:10:47,329 --> 00:10:46,260

divisive I think is the word that we're

316

00:10:49,009 --> 00:10:47,339

all using

317

00:10:51,050 --> 00:10:49,019

um and some of the things Frank said and

318

00:10:52,490 --> 00:10:51,060

Frank's a very Brash guy and has his own

319

00:10:55,610 --> 00:10:52,500

way of saying very Frank about things

320

00:10:57,769 --> 00:10:55,620

he's very Frank very Melbourne and he um

321

00:10:59,630 --> 00:10:57,779

but he made a very fair point and others

322

00:11:01,790 --> 00:10:59,640

have said this too that it's not just as

323

00:11:03,410 --> 00:11:01,800

easy as well the UFO Community want

324

00:11:06,170 --> 00:11:03,420

people to come forward and talk about it

325

00:11:08,210 --> 00:11:06,180

so they will it's like Dan like if you

326

00:11:10,610 --> 00:11:08,220

were in that position and you had a

327

00:11:13,370 --> 00:11:10,620

family and a career and and generally

328

00:11:14,810 --> 00:11:13,380

you had loved ones yeah yeah don't worry

329

00:11:16,970 --> 00:11:14,820

we're going to let you talk about what

330

00:11:20,030 --> 00:11:16,980

you want to talk about but there's then

331

00:11:22,009 --> 00:11:20,040

no doubt awful as it sounds threats that

332

00:11:23,509 --> 00:11:22,019

happen in the background and you know oh

333

00:11:25,130 --> 00:11:23,519

that's a shame if your wife lost her job

334

00:11:27,829 --> 00:11:25,140

and your kids got kicked out that

335

00:11:29,569 --> 00:11:27,839

private school and what can happen in

336

00:11:31,610 --> 00:11:29,579

the snowball affecting consequence of

337

00:11:33,050 --> 00:11:31,620

those people still coming out so it's

338

00:11:34,430 --> 00:11:33,060

all very well and good people saying

339

00:11:37,069 --> 00:11:34,440

yeah well whistleblowers are all going

340

00:11:39,230 --> 00:11:37,079

to come forward now there's probably a

341

00:11:41,269 --> 00:11:39,240

fair reason for many of them to not want

342

00:11:43,490 --> 00:11:41,279

to come forward and like Frank sort of

343

00:11:45,170 --> 00:11:43,500

said some of them potentially tell level

344

00:11:47,150 --> 00:11:45,180

of needing to go into some sort of

345

00:11:49,190 --> 00:11:47,160

extreme Witness Protection Program

346

00:11:51,110 --> 00:11:49,200

depending on what they come forward and

347

00:11:52,670 --> 00:11:51,120

say so yeah it's all well and good

348

00:11:54,710 --> 00:11:52,680

seeing yep the legislation will be there

349

00:11:56,630 --> 00:11:54,720

for people to come forward

350

00:11:58,610 --> 00:11:56,640

coming forward's a whole nother ball

351
00:12:00,590 --> 00:11:58,620
game and I can totally appreciate that

352
00:12:03,050 --> 00:12:00,600
that human element of things that maybe

353
00:12:04,610 --> 00:12:03,060
people just don't consider and that's

354
00:12:06,949 --> 00:12:04,620
that's very important I think in this

355
00:12:08,870 --> 00:12:06,959
and anyone that can come forward you

356
00:12:11,329 --> 00:12:08,880
know we we've heard that people like

357
00:12:13,610 --> 00:12:11,339
Eric Davis have already testified behind

358
00:12:15,350 --> 00:12:13,620
closed doors so when we're talking about

359
00:12:16,550 --> 00:12:15,360
this legislation being set up to protect

360
00:12:19,490 --> 00:12:16,560
people we're not talking about people

361
00:12:21,170 --> 00:12:19,500
like Eric Davis who's quite frankly said

362
00:12:23,810 --> 00:12:21,180
out loud you know with dealing with

363
00:12:26,449 --> 00:12:23,820

craft that are not from this not made by

364

00:12:28,069 --> 00:12:26,459

human hands you know

365

00:12:30,590 --> 00:12:28,079

so

366

00:12:32,150 --> 00:12:30,600

essentially that signifies that there

367

00:12:33,650 --> 00:12:32,160

are people from the Legacy programs

368

00:12:35,630 --> 00:12:33,660

waiting to come forward because this

369

00:12:36,590 --> 00:12:35,640

language doesn't really get written if

370

00:12:38,990 --> 00:12:36,600

there aren't

371

00:12:41,810 --> 00:12:39,000

but I wonder how many Pilots you know

372

00:12:43,250 --> 00:12:41,820

for example Ryan Graves uh you know he's

373

00:12:45,410 --> 00:12:43,260

been out there talking about the Gimbal

374

00:12:46,670 --> 00:12:45,420

and the events that surrounded it and

375

00:12:48,590 --> 00:12:46,680

things like that but we've never heard

376

00:12:50,629 --> 00:12:48,600

from the actual pilot because supposedly

377

00:12:52,370 --> 00:12:50,639

they were still in service and and you

378

00:12:54,650 --> 00:12:52,380

know they couldn't talk but this

379

00:12:57,410 --> 00:12:54,660

legislation might let them talk

380

00:12:59,870 --> 00:12:57,420

to the Senators and and hopefully

381

00:13:01,790 --> 00:12:59,880

it'll just snowball and and become a

382

00:13:03,949 --> 00:13:01,800

preponderance of evidence which I think

383

00:13:05,690 --> 00:13:03,959

we're at already but like Chris said

384

00:13:07,129 --> 00:13:05,700

we're at a point now where we can

385

00:13:10,250 --> 00:13:07,139

actually start to get to the bottom of

386

00:13:12,050 --> 00:13:10,260

this in an official way without people

387

00:13:14,090 --> 00:13:12,060

kind of saying oh that's swamp gas you

388

00:13:15,590 --> 00:13:14,100

know yeah I think if you're right from a

389

00:13:17,170 --> 00:13:15,600

private point of view behind closed

390

00:13:19,730 --> 00:13:17,180

doors you'll get people coming forward

391

00:13:22,370 --> 00:13:19,740

private contractors people within the

392

00:13:24,230 --> 00:13:22,380

military who don't want to go public but

393

00:13:26,690 --> 00:13:24,240

they can share the information to allow

394

00:13:28,730 --> 00:13:26,700

that new office to carry on forward with

395

00:13:31,009 --> 00:13:28,740

the work it's doing but maybe publicly

396

00:13:33,829 --> 00:13:31,019

like you say more pilots come out like

397

00:13:37,190 --> 00:13:33,839

other David fravers and Alex Alex

398

00:13:38,750 --> 00:13:37,200

dietrich's uh Ryan Graves and so on to

399

00:13:41,870 --> 00:13:38,760

maybe have those conversations and jump

400

00:13:43,129 --> 00:13:41,880

on podcasts and set up blogs and get in

401
00:13:44,930 --> 00:13:43,139
touch with fellow Pilots you know people

402
00:13:46,670 --> 00:13:44,940
getting in touch with with Graves or

403
00:13:48,170 --> 00:13:46,680
Sean K House of the world and saying

404
00:13:49,190 --> 00:13:48,180
look how do I best go out and tell my

405
00:13:51,769 --> 00:13:49,200
story here

406
00:13:54,170 --> 00:13:51,779
um because yeah I had an event as as

407
00:13:55,550 --> 00:13:54,180
fascinating as the Tic Tac and then you

408
00:13:56,870 --> 00:13:55,560
start to hear all of a sudden you know

409
00:13:58,610 --> 00:13:56,880
we hear about the Tic Tacs raining down

410
00:13:59,870 --> 00:13:58,620
maybe that comes a month where our

411
00:14:01,310 --> 00:13:59,880
bucket Pilots raining down everywhere

412
00:14:03,350 --> 00:14:01,320
telling us all these stories and

413
00:14:06,110 --> 00:14:03,360

corroborating the data so that that

414

00:14:07,610 --> 00:14:06,120

would be my I think realistic hope as

415

00:14:09,530 --> 00:14:07,620

opposed to we're going to see a set of

416

00:14:11,690 --> 00:14:09,540

hearings live on TV like we had where

417

00:14:13,910 --> 00:14:11,700

we've got you know bobblazar standing

418

00:14:14,750 --> 00:14:13,920

testifying just to throw some names out

419

00:14:16,009 --> 00:14:14,760

there

420

00:14:17,810 --> 00:14:16,019

um but yeah so what we'll see on that

421

00:14:19,730 --> 00:14:17,820

one uh time will tell

422

00:14:21,590 --> 00:14:19,740

um I suppose actually Dan that may be a

423

00:14:23,269 --> 00:14:21,600

really good places to Hoy in quickly

424

00:14:25,250 --> 00:14:23,279

about the end of October report because

425

00:14:28,550 --> 00:14:25,260

that is kind of just over a month ago

426

00:14:31,910 --> 00:14:28,560

yeah yeah absolutely so would you uh

427

00:14:34,670 --> 00:14:31,920

second public-facing UAP report from the

428

00:14:37,009 --> 00:14:34,680

US government that will be coming

429

00:14:39,829 --> 00:14:37,019

the the yearly date is the 31st of

430

00:14:41,569 --> 00:14:39,839

October but as Bryce Sable uh rightly

431

00:14:44,150 --> 00:14:41,579

pointed out I need to know with himself

432

00:14:45,889 --> 00:14:44,160

and Ross coltas uh that falls on a

433

00:14:47,389 --> 00:14:45,899

weekend so it's likely that we're going

434

00:14:49,730 --> 00:14:47,399

to see it on the Friday before which is

435

00:14:52,250 --> 00:14:49,740

the 28th and then it kind of gets hidden

436

00:14:53,750 --> 00:14:52,260

a little bit uh but

437

00:14:55,730 --> 00:14:53,760

the interesting thing that Bryce said

438

00:14:57,110 --> 00:14:55,740

about that is that actually when that

439

00:14:58,730 --> 00:14:57,120

comes out there are a bunch of Elections

440

00:15:00,710 --> 00:14:58,740

going on and there are a bunch of people

441

00:15:02,030 --> 00:15:00,720

that we know have spoken about UAP in

442

00:15:04,490 --> 00:15:02,040

the past and have kind of put their

443

00:15:07,129 --> 00:15:04,500

reputations on the line so it'll be

444

00:15:09,889 --> 00:15:07,139

interesting to see if they pick up the

445

00:15:13,129 --> 00:15:09,899

UAP report as a talking point because

446

00:15:14,449 --> 00:15:13,139

you know I think we've said it before if

447

00:15:16,370 --> 00:15:14,459

you look at how many people have watched

448

00:15:19,009 --> 00:15:16,380

these videos online there are millions

449

00:15:22,670 --> 00:15:19,019

so this could potentially be an election

450

00:15:23,870 --> 00:15:22,680

decider issue uh but who knows if people

451
00:15:25,550 --> 00:15:23,880
are going out to vote on that you know

452
00:15:28,990 --> 00:15:25,560
there are so many other issues that are

453
00:15:31,610 --> 00:15:29,000
bigger I can see you doing the face

454
00:15:35,329 --> 00:15:31,620
I don't know right because

455
00:15:37,430 --> 00:15:35,339
it's I don't think it's uh a candidacy

456
00:15:40,730 --> 00:15:37,440
killer like it may have been in the past

457
00:15:43,310 --> 00:15:40,740
yeah I still think there's a majority of

458
00:15:46,009 --> 00:15:43,320
of normal folks you know general public

459
00:15:47,530 --> 00:15:46,019
who don't have a UFO interest that I

460
00:15:51,949 --> 00:15:47,540
think would would see a candidate

461
00:15:54,530 --> 00:15:51,959
talking about UFOs UAP the report no

462
00:15:56,389 --> 00:15:54,540
matter how well they do it and be turned

463
00:15:58,550 --> 00:15:56,399

off by that because I think it's still a

464

00:16:01,550 --> 00:15:58,560

very easy one for other people to go

465

00:16:04,009 --> 00:16:01,560

after in terms of slander and totally be

466

00:16:06,590 --> 00:16:04,019

derisely about it rightly or wrongly I

467

00:16:09,290 --> 00:16:06,600

mean wrongly obviously but I just don't

468

00:16:12,050 --> 00:16:09,300

think it's there yet in terms of

469

00:16:14,329 --> 00:16:12,060

but I think that I'm arguing with myself

470

00:16:16,009 --> 00:16:14,339

now I think there's more people who at

471

00:16:17,930 --> 00:16:16,019

least would go oh actually this this

472

00:16:20,990 --> 00:16:17,940

this guy wants to talk about UFOs that's

473

00:16:22,850 --> 00:16:21,000

pretty interesting yeah absolutely and

474

00:16:25,910 --> 00:16:22,860

they've spoken about it before like you

475

00:16:27,710 --> 00:16:25,920

say it's not a vote killer but

476

00:16:28,850 --> 00:16:27,720

it might not be the first thing on their

477

00:16:30,230 --> 00:16:28,860

mind when they're talking about this

478

00:16:32,750 --> 00:16:30,240

especially we're talking about whether

479

00:16:34,490 --> 00:16:32,760

they find air defense important you know

480

00:16:37,310 --> 00:16:34,500

the National Security of the airspace

481

00:16:39,410 --> 00:16:37,320

and that's gonna vary person to person

482

00:16:40,550 --> 00:16:39,420

but I don't think that if say for

483

00:16:42,829 --> 00:16:40,560

example if someone wasn't going to vote

484

00:16:45,590 --> 00:16:42,839

for Marco Rubio him talking about UAP

485

00:16:47,870 --> 00:16:45,600

isn't gonna make them vote for him but

486

00:16:51,350 --> 00:16:47,880

it will certainly bring the subject up

487

00:16:53,509 --> 00:16:51,360

in in the media and bigger circles uh

488

00:16:55,610 --> 00:16:53,519

more mainstream circles if people like

489

00:16:57,829 --> 00:16:55,620

Marco Rubio start talking about this

490

00:16:59,870 --> 00:16:57,839

yeah I think well you've got people

491

00:17:02,210 --> 00:16:59,880

fighting to put food on the table feed

492

00:17:04,130 --> 00:17:02,220

their children clothes themselves roofs

493

00:17:05,689 --> 00:17:04,140

over their heads and and put gas slash

494

00:17:06,650 --> 00:17:05,699

Petrol in their cars depending where you

495

00:17:07,569 --> 00:17:06,660

are

496

00:17:09,770 --> 00:17:07,579

um

497

00:17:12,169 --> 00:17:09,780

those those are always going to take

498

00:17:14,210 --> 00:17:12,179

priority and and rightly so um including

499

00:17:15,710 --> 00:17:14,220

never mind the war in Ukraine still

500

00:17:18,650 --> 00:17:15,720

going on and all that kind of stuff

501
00:17:20,870 --> 00:17:18,660
escalating so it's it's a hard one and

502
00:17:22,730 --> 00:17:20,880
we talked about this Dan um here's a

503
00:17:25,730 --> 00:17:22,740
peek behind the carton of the UAP Media

504
00:17:27,710 --> 00:17:25,740
Chat on on our group but like weekend I

505
00:17:29,270 --> 00:17:27,720
said didn't we about is there ever going

506
00:17:31,909 --> 00:17:29,280
to be a good time especially right now

507
00:17:34,850 --> 00:17:31,919
to for the UFO Topic in the UK to be

508
00:17:36,289 --> 00:17:34,860
discussed because look at covid and

509
00:17:37,909 --> 00:17:36,299
imagine in the covered everyone was

510
00:17:39,110 --> 00:17:37,919
looking forward to or when we get back

511
00:17:41,330 --> 00:17:39,120
out there and we can see each other

512
00:17:43,490 --> 00:17:41,340
again and and it just seems to be like

513
00:17:45,230 --> 00:17:43,500

that that was very short-lived and all

514

00:17:46,610 --> 00:17:45,240

of a sudden it was not that kovid's gone

515

00:17:47,810 --> 00:17:46,620

you know our friend venetious came down

516

00:17:49,789 --> 00:17:47,820

with it today

517

00:17:51,169 --> 00:17:49,799

um get Wilson Vinnie

518

00:17:53,510 --> 00:17:51,179

um but you know

519

00:17:56,390 --> 00:17:53,520

that's that's just quickly been taken

520

00:17:58,909 --> 00:17:56,400

over by a whole war and escalating gas

521

00:18:02,029 --> 00:17:58,919

and electricity prices and fuel crisis

522

00:18:04,070 --> 00:18:02,039

and Global Food problems and progress

523

00:18:06,110 --> 00:18:04,080

issues and we just went into a whole

524

00:18:06,890 --> 00:18:06,120

nother crisis and it's just like well do

525

00:18:09,289 --> 00:18:06,900

you know what and there'll be something

526

00:18:10,490 --> 00:18:09,299

else after it probably as well just just

527

00:18:12,230 --> 00:18:10,500

to check on the end there you know if

528

00:18:13,430 --> 00:18:12,240

people in Florida stay safe I've been

529

00:18:14,930 --> 00:18:13,440

seeing the footage of the hurricane

530

00:18:16,310 --> 00:18:14,940

there but that's a really good example

531

00:18:18,169 --> 00:18:16,320

of something that came from left field

532

00:18:20,150 --> 00:18:18,179

and it's just you know it's taking up

533

00:18:22,970 --> 00:18:20,160

the airwaves and it's taken up rightly

534

00:18:26,270 --> 00:18:22,980

so uh you know making sure people are

535

00:18:29,029 --> 00:18:26,280

safe yeah so yeah but yeah so on that

536

00:18:31,190 --> 00:18:29,039

one folks hopefully we get some uh some

537

00:18:32,570 --> 00:18:31,200

stuff from the report Dan what what are

538

00:18:35,390 --> 00:18:32,580

you expecting

539

00:18:37,190 --> 00:18:35,400

uh big hype big letdown I I would say

540

00:18:39,289 --> 00:18:37,200

you know keep everyone's expectations in

541

00:18:40,610 --> 00:18:39,299

check assume we're gonna get the same as

542

00:18:41,990 --> 00:18:40,620

last year I think that's a safe bet

543

00:18:43,549 --> 00:18:42,000

where they just kind of tell us the

544

00:18:45,590 --> 00:18:43,559

number of the unknowns the number have

545

00:18:47,630 --> 00:18:45,600

solved whether they're a Flight Risk

546

00:18:49,010 --> 00:18:47,640

about maybe changes to the buckets that

547

00:18:50,690 --> 00:18:49,020

they've established

548

00:18:53,210 --> 00:18:50,700

um you know which was like weather and

549

00:18:54,950 --> 00:18:53,220

private contractors and U.S tech and

550

00:18:56,690 --> 00:18:54,960

things like that and we have to remember

551

00:18:59,870 --> 00:18:56,700

as well this is the first release from

552

00:19:02,750 --> 00:18:59,880

Arrow and Dr Kirkpatrick hasn't been in

553

00:19:04,250 --> 00:19:02,760

the role that long was it June July yeah

554

00:19:05,750 --> 00:19:04,260

I think so and you know we heard

555

00:19:07,789 --> 00:19:05,760

Rumblings earlier as well so it's

556

00:19:10,310 --> 00:19:07,799

possible that he he was unofficially in

557

00:19:11,930 --> 00:19:10,320

charge earlier but it's still not that

558

00:19:13,669 --> 00:19:11,940

long to put this together and he's got

559

00:19:16,490 --> 00:19:13,679

to take all the previous information and

560

00:19:19,250 --> 00:19:16,500

you know I would look to potentially the

561

00:19:21,950 --> 00:19:19,260

2023 report as a better example of what

562

00:19:24,669 --> 00:19:21,960

he's capable of this one as I said it

563

00:19:26,930 --> 00:19:24,679

will be a very basic by the Numbers

564

00:19:28,909 --> 00:19:26,940

these are the amount of sightings we've

565

00:19:33,049 --> 00:19:28,919

had these are the unknowns what I'd

566

00:19:34,450 --> 00:19:33,059

really love to see is an emphasis on you

567

00:19:37,010 --> 00:19:34,460

know the legislation has been

568

00:19:38,990 --> 00:19:37,020

emphasizing that if anything is found to

569

00:19:40,130 --> 00:19:39,000

be a man-made craft throw away like

570

00:19:41,390 --> 00:19:40,140

we're not interested in that data

571

00:19:44,690 --> 00:19:41,400

they're clearly interested in the more

572

00:19:46,549 --> 00:19:44,700

an anomalous crafts and events

573

00:19:49,130 --> 00:19:46,559

I would like to see a deeper dive into

574

00:19:50,450 --> 00:19:49,140

those anomalous happenings I know that

575

00:19:51,890 --> 00:19:50,460

they're not allowed to share those

576
00:19:53,690 --> 00:19:51,900
videos and things and we'll talk about

577
00:19:55,310 --> 00:19:53,700
that but

578
00:19:56,510 --> 00:19:55,320
there are still certain things they can

579
00:19:59,210 --> 00:19:56,520
tell us

580
00:20:01,549 --> 00:19:59,220
you know for example hey we've found

581
00:20:04,310 --> 00:20:01,559
five events in the last year of craft

582
00:20:07,430 --> 00:20:04,320
the exhibit four or more of the five

583
00:20:10,270 --> 00:20:07,440
observables and we're looking into it

584
00:20:13,970 --> 00:20:10,280
okay uh final question yes or no answer

585
00:20:16,070 --> 00:20:13,980
uh with a little bit of context that the

586
00:20:18,710 --> 00:20:16,080
previous reports were hampered and the

587
00:20:21,049 --> 00:20:18,720
efforts from the task force By changes

588
00:20:22,310 --> 00:20:21,059

at the top and changes of leadership and

589

00:20:24,409 --> 00:20:22,320

some would say that was deliberate

590

00:20:25,130 --> 00:20:24,419

obfuscation of the work that was going

591

00:20:27,830 --> 00:20:25,140

on

592

00:20:29,690 --> 00:20:27,840

Dr Sean Kirkpatrick is and they are

593

00:20:31,490 --> 00:20:29,700

unofficially are not for for the best

594

00:20:33,590 --> 00:20:31,500

partner of maybe six months let's say

595

00:20:35,870 --> 00:20:33,600

probably less than that in an official

596

00:20:38,510 --> 00:20:35,880

capacity would you be surprised yes or

597

00:20:39,830 --> 00:20:38,520

no if before the next report came out he

598

00:20:42,230 --> 00:20:39,840

was no longer in charge and someone else

599

00:20:43,970 --> 00:20:42,240

was I wouldn't be surprised now that's

600

00:20:46,610 --> 00:20:43,980

yeah okay that's kind of been my problem

601
00:20:48,409 --> 00:20:46,620
so far right yeah exactly I always do

602
00:20:49,970 --> 00:20:48,419
this when you say yes yeah that would be

603
00:20:52,310 --> 00:20:49,980
frustrating but yeah I wouldn't be

604
00:20:54,110 --> 00:20:52,320
shocked either but listen let's move on

605
00:20:55,490 --> 00:20:54,120
um a bit of an update this week and

606
00:20:57,650 --> 00:20:55,500
what's kind of taken up a lot of the

607
00:20:59,750 --> 00:20:57,660
time if you are fortunate enough to to

608
00:21:01,850 --> 00:20:59,760
not be on social media God bless you

609
00:21:04,070 --> 00:21:01,860
because it's a wild and weird place at

610
00:21:05,870 --> 00:21:04,080
the best of times but what's taking up

611
00:21:08,990 --> 00:21:05,880
all the conversation in the last week

612
00:21:10,850 --> 00:21:09,000
was a j over at Project Unity

613
00:21:13,490 --> 00:21:10,860

um who's been on the podcast before uh

614

00:21:15,409 --> 00:21:13,500

does it's based in the UK and does some

615

00:21:17,090 --> 00:21:15,419

some great interviews over on his

616

00:21:18,650 --> 00:21:17,100

channel too probably very different to

617

00:21:20,990 --> 00:21:18,660

what what I do in terms of interviews

618

00:21:22,669 --> 00:21:21,000

and even the guest that he gets on the

619

00:21:24,169 --> 00:21:22,679

guests that you get on are very

620

00:21:28,070 --> 00:21:24,179

different too at times

621

00:21:31,250 --> 00:21:28,080

um but he had Shannon who was one of the

622

00:21:34,610 --> 00:21:31,260

names on the Eric Wilson at Wilson Davis

623

00:21:36,890 --> 00:21:34,620

memo and essentially to be fair Dynamite

624

00:21:39,529 --> 00:21:36,900

insane he wasn't actually a big part of

625

00:21:42,350 --> 00:21:39,539

the memo all he was cited as being was

626
00:21:44,090 --> 00:21:42,360
the man who Admiral Wilson apparently

627
00:21:45,950 --> 00:21:44,100
went to to say look this Eric Davis

628
00:21:48,529 --> 00:21:45,960
fellow can you vouch for him what's his

629
00:21:50,510 --> 00:21:48,539
background watch his credentials Shannon

630
00:21:52,490 --> 00:21:50,520
basically said yeah Eric Davis is a guy

631
00:21:53,690 --> 00:21:52,500
you should be talking to and off the

632
00:21:55,730 --> 00:21:53,700
back of that

633
00:21:58,430 --> 00:21:55,740
the whole conversation happened that is

634
00:21:59,690 --> 00:21:58,440
now allegedly in the the Wilson Davis

635
00:22:00,730 --> 00:21:59,700
memo

636
00:22:03,110 --> 00:22:00,740
um

637
00:22:04,669 --> 00:22:03,120
the auction interview has been

638
00:22:06,230 --> 00:22:04,679

controversial for a few reasons because

639

00:22:09,890 --> 00:22:06,240

one has never really come out in public

640

00:22:12,049 --> 00:22:09,900

but uh Jay managed to get the

641

00:22:14,570 --> 00:22:12,059

the interview sorted out and what I'm

642

00:22:16,250 --> 00:22:14,580

going to do now Dan is throw to that

643

00:22:18,649 --> 00:22:16,260

interview with Jay it's about 20 minutes

644

00:22:20,630 --> 00:22:18,659

long we'll paste that in here folks and

645

00:22:22,490 --> 00:22:20,640

then with the magic of technology in a

646

00:22:24,649 --> 00:22:22,500

couple of seconds Dan and I will be back

647

00:22:26,990 --> 00:22:24,659

to discuss it but Jason best place to

648

00:22:29,210 --> 00:22:27,000

connect yeah oh don't fade out yet don't

649

00:22:30,409 --> 00:22:29,220

feed out yet Jay is in the best place to

650

00:22:31,730 --> 00:22:30,419

discuss the interview and how it came

651
00:22:32,990 --> 00:22:31,740
about and all the background around it

652
00:22:34,909 --> 00:22:33,000
as well rather than us going through

653
00:22:37,010 --> 00:22:34,919
that so here's a Jay from Project Unity

654
00:22:39,649 --> 00:22:37,020
with myself joining me now on the

655
00:22:41,390 --> 00:22:39,659
breakdown is Jay from Project Unity Jay

656
00:22:43,130 --> 00:22:41,400
welcome back to the podcast

657
00:22:45,289 --> 00:22:43,140
thanks for having me on Andy I think the

658
00:22:46,970 --> 00:22:45,299
last time we spoke was when at least on

659
00:22:49,130 --> 00:22:46,980
the record was when we did the New York

660
00:22:51,110 --> 00:22:49,140
Times thing like literally what like a

661
00:22:53,029 --> 00:22:51,120
year and a half ago it was it seems like

662
00:22:54,770 --> 00:22:53,039
a lifetime ago doesn't it uh and how

663
00:22:56,690 --> 00:22:54,780

times change but the more they change I

664

00:22:59,570 --> 00:22:56,700

think the more they stay the same

665

00:23:01,610 --> 00:22:59,580

um lesson Jay uh you're uh away just now

666

00:23:02,990 --> 00:23:01,620

you're out of country and folks mean all

667

00:23:04,310 --> 00:23:03,000

that may not know that so I wouldn't

668

00:23:05,690 --> 00:23:04,320

take up too much of your time because

669

00:23:07,909 --> 00:23:05,700

you'll want to go away and enjoy

670

00:23:10,070 --> 00:23:07,919

yourself as well uh but you have just

671

00:23:12,710 --> 00:23:10,080

released an interview with Oak Shannon

672

00:23:14,630 --> 00:23:12,720

on the Project Unity YouTube channel I'm

673

00:23:16,370 --> 00:23:14,640

going to caveat this by saying folks

674

00:23:18,230 --> 00:23:16,380

this is not a full rundown of that

675

00:23:20,510 --> 00:23:18,240

interview go and watch the interview if

676
00:23:22,430 --> 00:23:20,520
you haven't already on the Project Unity

677
00:23:24,169 --> 00:23:22,440
YouTube channel and make sure you check

678
00:23:26,750 --> 00:23:24,179
that one out it's less than an hour of

679
00:23:28,789 --> 00:23:26,760
your time but with so much focus on the

680
00:23:30,770 --> 00:23:28,799
Wilson Davis memo documents recently

681
00:23:32,450 --> 00:23:30,780
it's added a lot of fuel to that

682
00:23:34,549 --> 00:23:32,460
particular fire some of it I'm sure you

683
00:23:36,890 --> 00:23:34,559
would expecting maybe some of it not so

684
00:23:38,870 --> 00:23:36,900
much but we'll we'll go over that um

685
00:23:40,850 --> 00:23:38,880
just a very quick rundown of folks I

686
00:23:41,830 --> 00:23:40,860
haven't seen that yet Jay who is Oak

687
00:23:45,890 --> 00:23:41,840
Shannon

688
00:23:47,630 --> 00:23:45,900

well auction is a U.S Navy veteran uh

689

00:23:50,090 --> 00:23:47,640

U.S Navy officer

690

00:23:52,490 --> 00:23:50,100

um who during his time within his

691

00:23:54,470 --> 00:23:52,500

military career ended up becoming uh

692

00:23:57,049 --> 00:23:54,480

he's also a nuclear physicist he ended

693

00:23:59,210 --> 00:23:57,059

up becoming the special project manager

694

00:24:01,370 --> 00:23:59,220

for Los Alamos National Labs which a lot

695

00:24:03,950 --> 00:24:01,380

of us know is pretty high up on the list

696

00:24:06,590 --> 00:24:03,960

of potential research facilities that

697

00:24:08,270 --> 00:24:06,600

may be holding on to materials or at the

698

00:24:09,890 --> 00:24:08,280

very least we're studying the phenomenon

699

00:24:12,470 --> 00:24:09,900

in some way

700

00:24:14,930 --> 00:24:12,480

um so he he went from the you know the

701
00:24:17,570 --> 00:24:14,940
U.S Navy career into this uh you know

702
00:24:21,110 --> 00:24:17,580
research facility career as a physicist

703
00:24:23,090 --> 00:24:21,120
and he had a lot of exposure to a lot of

704
00:24:25,250 --> 00:24:23,100
the main players that we look at as

705
00:24:28,490 --> 00:24:25,260
people in the know uh people who have

706
00:24:31,610 --> 00:24:28,500
knowledge to my understanding uh Oak was

707
00:24:33,470 --> 00:24:31,620
never read in to UFO programs or

708
00:24:36,230 --> 00:24:33,480
anything of that nature but he knows

709
00:24:37,610 --> 00:24:36,240
pretty much everyone who we believe was

710
00:24:38,990 --> 00:24:37,620
read in or has you know close

711
00:24:41,270 --> 00:24:39,000
connections with people that were

712
00:24:43,789 --> 00:24:41,280
involved in that kind of work so it just

713
00:24:45,289 --> 00:24:43,799

that alone makes him a very interesting

714

00:24:48,409 --> 00:24:45,299

and important person to try and get on

715

00:24:50,810 --> 00:24:48,419

the record but aside from that as many

716

00:24:52,909 --> 00:24:50,820

people will know his name is mentioned

717

00:24:54,950 --> 00:24:52,919

in this very controversial release of

718

00:24:58,130 --> 00:24:54,960

papers the Admiral Wilson leaks or the

719

00:25:01,190 --> 00:24:58,140

Eric Davis notes and uh

720

00:25:03,289 --> 00:25:01,200

what's interesting about Oak is the fact

721

00:25:06,110 --> 00:25:03,299

that there are a series of statements

722

00:25:09,070 --> 00:25:06,120

allegedly made by you know Eric and

723

00:25:11,450 --> 00:25:09,080

Admiral Wilson regarding Oak Shannon

724

00:25:13,250 --> 00:25:11,460

regarding his level of communication

725

00:25:16,250 --> 00:25:13,260

with the Admiral his knowledge of who

726

00:25:18,409 --> 00:25:16,260

Eric Davis is even down to him having

727

00:25:19,970 --> 00:25:18,419

health issues that prevented him from

728

00:25:22,610 --> 00:25:19,980

being easy to contact when they were

729

00:25:24,110 --> 00:25:22,620

having this supposed meeting so I think

730

00:25:27,049 --> 00:25:24,120

what's really important about Oak

731

00:25:29,630 --> 00:25:27,059

Shannon is that he at least represents

732

00:25:32,529 --> 00:25:29,640

another Link in that chain uh connecting

733

00:25:37,310 --> 00:25:32,539

this string of the Admiral Wilson Saga

734

00:25:40,130 --> 00:25:37,320

and he was gracious enough to come on do

735

00:25:42,590 --> 00:25:40,140

an interview and acknowledge at least

736

00:25:45,110 --> 00:25:42,600

what he knows to be true which is his

737

00:25:46,970 --> 00:25:45,120

own involvement the statements made

738

00:25:48,890 --> 00:25:46,980

about him in these documents he

739

00:25:50,210 --> 00:25:48,900

confirmed all of that to be true so I

740

00:25:52,970 --> 00:25:50,220

don't know if you want me to quickly say

741

00:25:54,950 --> 00:25:52,980

but basically to give people a quick

742

00:25:57,529 --> 00:25:54,960

bullet point he said he knows Eric Davis

743

00:25:59,029 --> 00:25:57,539

he said he knows Admiral Wilson which of

744

00:26:00,649 --> 00:25:59,039

course contradicts it's what Admiral

745

00:26:03,289 --> 00:26:00,659

Wilson said people will know about the

746

00:26:05,930 --> 00:26:03,299

uh now uh famous quote that probably

747

00:26:08,029 --> 00:26:05,940

won't age very well Oak who you know

748

00:26:10,190 --> 00:26:08,039

that's Admiral Wilson's response Oak who

749

00:26:12,169 --> 00:26:10,200

uh which he found quite funny oak

750

00:26:13,789 --> 00:26:12,179

Shannon found that quite amusing

751
00:26:16,070 --> 00:26:13,799
um but essentially he confirmed he knows

752
00:26:17,570 --> 00:26:16,080
Eric he knows the Admiral uh he did have

753
00:26:19,610 --> 00:26:17,580
a long phone conversation with the

754
00:26:22,250 --> 00:26:19,620
Admiral who was phoning up to Gage the

755
00:26:24,830 --> 00:26:22,260
trustworthiness of Eric Davis and he did

756
00:26:27,409 --> 00:26:24,840
confirm that he had a very severe heart

757
00:26:28,850 --> 00:26:27,419
attack which actually we get into in our

758
00:26:31,250 --> 00:26:28,860
discussion because he had a near-death

759
00:26:34,070 --> 00:26:31,260
experience during that time but he was

760
00:26:36,470 --> 00:26:34,080
Gravely unwell and was not easy to get

761
00:26:40,610 --> 00:26:36,480
hold of and all of this is mentioned in

762
00:26:42,470 --> 00:26:40,620
the notes so although he never confirmed

763
00:26:44,210 --> 00:26:42,480

yeah yes these notes are authentic or

764

00:26:45,890 --> 00:26:44,220

yes the meeting happened I never expect

765

00:26:48,049 --> 00:26:45,900

him to do that you know I didn't come

766

00:26:49,430 --> 00:26:48,059

into that with that intention because he

767

00:26:51,950 --> 00:26:49,440

can't confirm something he wasn't

768

00:26:53,990 --> 00:26:51,960

directly there to to acknowledge and

769

00:26:56,510 --> 00:26:54,000

know his fact the only thing he gave us

770

00:26:58,330 --> 00:26:56,520

is the truth is he knows it and the

771

00:27:01,250 --> 00:26:58,340

truth is he knows it certainly

772

00:27:02,990 --> 00:27:01,260

authenticates parts of that document

773

00:27:05,029 --> 00:27:03,000

um because the you know what was said

774

00:27:07,130 --> 00:27:05,039

about him is true

775

00:27:09,950 --> 00:27:07,140

well it certainly seems more obvious

776

00:27:11,630 --> 00:27:09,960

that either Eric Davis Oak Shannon and

777

00:27:14,750 --> 00:27:11,640

others are lying about the document's

778

00:27:17,090 --> 00:27:14,760

authenticity or Admiral Wilson is

779

00:27:18,590 --> 00:27:17,100

staying steadfast in his denial that it

780

00:27:20,570 --> 00:27:18,600

ever happened and you've got to be

781

00:27:22,610 --> 00:27:20,580

respectful that you can see why he would

782

00:27:24,529 --> 00:27:22,620

deny this constantly

783

00:27:26,870 --> 00:27:24,539

um I know which one I believe is more

784

00:27:29,269 --> 00:27:26,880

likely what about yourself oh

785

00:27:32,390 --> 00:27:29,279

unequivocally that the meeting in the

786

00:27:34,669 --> 00:27:32,400

the documents are are accurate and true

787

00:27:36,590 --> 00:27:34,679

um it's like you said no surprise that

788

00:27:38,510 --> 00:27:36,600

Admiral Wilson would deny all

789

00:27:39,890 --> 00:27:38,520

involvement I mean I understand that

790

00:27:41,690 --> 00:27:39,900

we're taking this from the notes that

791

00:27:44,390 --> 00:27:41,700

are still in question in regards to

792

00:27:47,930 --> 00:27:44,400

their authenticity but he said very

793

00:27:49,909 --> 00:27:47,940

explicitly to Eric allegedly I will deny

794

00:27:52,310 --> 00:27:49,919

everything all involvement any of this

795

00:27:56,750 --> 00:27:52,320

all of it and that's exactly what he did

796

00:27:58,909 --> 00:27:56,760

but Oak Shannon he's not active in the

797

00:28:01,370 --> 00:27:58,919

UFO world not even like Gary Davis who's

798

00:28:04,370 --> 00:28:01,380

been on interviews you know this guy he

799

00:28:06,769 --> 00:28:04,380

retired from his Navy career he's now

800

00:28:09,049 --> 00:28:06,779

you know an Evangelical Christian he's

801
00:28:11,690 --> 00:28:09,059
he came into that Faith later in his

802
00:28:14,450 --> 00:28:11,700
life he just wants a quiet life away

803
00:28:16,070 --> 00:28:14,460
from all of this and he didn't have to

804
00:28:17,690 --> 00:28:16,080
speak to me we were very fortunate that

805
00:28:19,909 --> 00:28:17,700
he decided to speak to me but this isn't

806
00:28:21,710 --> 00:28:19,919
someone that wants to be seen as a

807
00:28:23,690 --> 00:28:21,720
figure and of some of some level of

808
00:28:26,390 --> 00:28:23,700
importance he he really doesn't need

809
00:28:27,590 --> 00:28:26,400
that so I I find him very sincere and

810
00:28:29,330 --> 00:28:27,600
very credible

811
00:28:31,070 --> 00:28:29,340
um so when he sits there and he tells me

812
00:28:32,390 --> 00:28:31,080
that you know yes he did speak to the

813
00:28:35,269 --> 00:28:32,400

Admiral and yes he did have a heart

814

00:28:37,310 --> 00:28:35,279

attack which Linda his wife confirmed

815

00:28:39,649 --> 00:28:37,320

doesn't seem to me like he's making

816

00:28:41,510 --> 00:28:39,659

these things up why would you um he has

817

00:28:43,070 --> 00:28:41,520

nothing to gain from making this up he

818

00:28:45,230 --> 00:28:43,080

has nothing to gain from even coming on

819

00:28:46,430 --> 00:28:45,240

the record he's got more to lose than to

820

00:28:48,710 --> 00:28:46,440

gain

821

00:28:50,870 --> 00:28:48,720

um and it certainly you know took us

822

00:28:53,210 --> 00:28:50,880

putting him at ease and making him feel

823

00:28:56,090 --> 00:28:53,220

comfortable with us to uh to engage on

824

00:28:58,549 --> 00:28:56,100

that so I I think you know I already

825

00:29:00,769 --> 00:28:58,559

felt very secure in my belief that these

826
00:29:02,990 --> 00:29:00,779
are legitimate notes so the oak Shannon

827
00:29:04,610 --> 00:29:03,000
situation has just pushed that meter

828
00:29:06,529 --> 00:29:04,620
even further forward

829
00:29:09,110 --> 00:29:06,539
um obviously I understand that people

830
00:29:11,630 --> 00:29:09,120
don't like to speak in definitives and I

831
00:29:14,330 --> 00:29:11,640
don't like to either but

832
00:29:17,570 --> 00:29:14,340
the annoying thing about this situation

833
00:29:19,130 --> 00:29:17,580
is people who are directly involved I'm

834
00:29:20,450 --> 00:29:19,140
not going to say a name but I think

835
00:29:22,490 --> 00:29:20,460
people can understand what I'm saying

836
00:29:24,289 --> 00:29:22,500
here at least one individual in that

837
00:29:26,149 --> 00:29:24,299
scenario between Admiral Wilson and Eric

838
00:29:28,549 --> 00:29:26,159

Davis has acknowledged this off the

839

00:29:29,990 --> 00:29:28,559

Record not publicly and I know that that

840

00:29:32,090 --> 00:29:30,000

sucks because we want to have that

841

00:29:33,710 --> 00:29:32,100

public acknowledgment but for me it's

842

00:29:35,149 --> 00:29:33,720

just kind of like look guys Connect the

843

00:29:37,130 --> 00:29:35,159

Dots here like you know they're not

844

00:29:38,750 --> 00:29:37,140

denying it like Eric Davis has never

845

00:29:40,430 --> 00:29:38,760

denied it he's put out some very strange

846

00:29:42,350 --> 00:29:40,440

statements like the Stephen Green Street

847

00:29:44,529 --> 00:29:42,360

interview where he talked about how

848

00:29:46,310 --> 00:29:44,539

Obama had like updated the security

849

00:29:49,669 --> 00:29:46,320

classifications and that there were

850

00:29:51,289 --> 00:29:49,679

risks involved it it's it's about I

851
00:29:52,850 --> 00:29:51,299
suppose in some way reading between the

852
00:29:54,769 --> 00:29:52,860
lines but I feel that the dots are

853
00:29:56,210 --> 00:29:54,779
pretty easy to connect here when you

854
00:29:58,010 --> 00:29:56,220
look at the wide scope of this whole

855
00:29:59,029 --> 00:29:58,020
situation and just kind of piece

856
00:30:00,889 --> 00:29:59,039
together all of these different

857
00:30:02,810 --> 00:30:00,899
statements from different players and

858
00:30:04,310 --> 00:30:02,820
now we have uh you know a new player

859
00:30:07,130 --> 00:30:04,320
who's given us statements that can be

860
00:30:09,830 --> 00:30:07,140
validated and authenticated so yeah I'm

861
00:30:11,570 --> 00:30:09,840
I'm pretty secure in the idea that these

862
00:30:13,310 --> 00:30:11,580
are real

863
00:30:15,769 --> 00:30:13,320

yeah the way I see it I've talked before

864

00:30:19,070 --> 00:30:15,779

about a jigsaw puzzle and if the Admiral

865

00:30:20,870 --> 00:30:19,080

Wilson Davis memo is is a puzzle in

866

00:30:23,149 --> 00:30:20,880

itself it's got a lot of missing pieces

867

00:30:25,070 --> 00:30:23,159

but this is one of those big pieces for

868

00:30:27,049 --> 00:30:25,080

me that's now fit in to see well yeah we

869

00:30:29,090 --> 00:30:27,059

can kind of make out the picture now but

870

00:30:31,010 --> 00:30:29,100

there's still some more to go before we

871

00:30:32,930 --> 00:30:31,020

look at the Fallout Jay how did the

872

00:30:35,630 --> 00:30:32,940

interview come about because like you

873

00:30:38,029 --> 00:30:35,640

say this is a character who wasn't in

874

00:30:40,010 --> 00:30:38,039

the in the conversation as such other

875

00:30:42,529 --> 00:30:40,020

than his name on some paper he wasn't

876

00:30:44,090 --> 00:30:42,539

looking for this conversation with all

877

00:30:45,950 --> 00:30:44,100

due respect and I can say this from a

878

00:30:47,990 --> 00:30:45,960

place of being similar to yourself he's

879

00:30:50,389 --> 00:30:48,000

not jumped on Joe Rogan to have this

880

00:30:53,269 --> 00:30:50,399

chat you know he's gone to yourself so

881

00:30:55,250 --> 00:30:53,279

it's a very specific way of getting this

882

00:30:57,470 --> 00:30:55,260

out and obviously you want to protect

883

00:30:59,570 --> 00:30:57,480

Source season and such as well I respect

884

00:31:00,950 --> 00:30:59,580

that how did this come about as best you

885

00:31:02,810 --> 00:31:00,960

can tell us

886

00:31:04,850 --> 00:31:02,820

yeah well I mean I've been I've been

887

00:31:07,190 --> 00:31:04,860

pretty fortunate during my time in this

888

00:31:09,049 --> 00:31:07,200

research field and especially over uh

889

00:31:11,330 --> 00:31:09,059

this last year I've secured some very

890

00:31:13,909 --> 00:31:11,340

good contacts both former and active

891

00:31:15,529 --> 00:31:13,919

within uh the intelligence community and

892

00:31:17,450 --> 00:31:15,539

I mean you know how it goes and the when

893

00:31:19,190 --> 00:31:17,460

you secure a good contact you also

894

00:31:21,710 --> 00:31:19,200

secure access to their wider Network

895

00:31:23,570 --> 00:31:21,720

which means your network grows with them

896

00:31:25,730 --> 00:31:23,580

so I have people that I can reach out to

897

00:31:27,409 --> 00:31:25,740

who can reach into the intelligence

898

00:31:29,570 --> 00:31:27,419

Community networks that they're a part

899

00:31:31,850 --> 00:31:29,580

of to ask on my behalf you know if this

900

00:31:33,889 --> 00:31:31,860

person or that person would want to

901
00:31:36,350 --> 00:31:33,899
engage with me and sometimes it's a no

902
00:31:39,230 --> 00:31:36,360
and sometimes it's a yes and when it

903
00:31:40,909 --> 00:31:39,240
came to Oak Shannon it was a yes you

904
00:31:43,610 --> 00:31:40,919
know they invited me to have lunch with

905
00:31:45,409 --> 00:31:43,620
them and I was fortunate enough to get

906
00:31:47,510 --> 00:31:45,419
some assistance in relation to flight

907
00:31:49,430 --> 00:31:47,520
travel accommodation costs otherwise I

908
00:31:51,710 --> 00:31:49,440
wouldn't have been able to uh pull this

909
00:31:54,230 --> 00:31:51,720
off to be honest uh I was I was met at

910
00:31:56,630 --> 00:31:54,240
the airport by a contact of mine who's a

911
00:31:58,789 --> 00:31:56,640
retired intelligence officer uh this

912
00:32:02,389 --> 00:31:58,799
individual drove me to a place uh where

913
00:32:03,830 --> 00:32:02,399

I was meeting Oak and his wife Linda and

914

00:32:05,750 --> 00:32:03,840

this person joined us in the

915

00:32:07,789 --> 00:32:05,760

conversation I think it helps to have

916

00:32:10,549 --> 00:32:07,799

someone with a similar background to Oak

917

00:32:12,289 --> 00:32:10,559

it sets him at ease I think it's

918

00:32:13,970 --> 00:32:12,299

probably what got me through the cracks

919

00:32:16,190 --> 00:32:13,980

in the first place because

920

00:32:18,350 --> 00:32:16,200

uh like we said Oak doesn't make himself

921

00:32:20,810 --> 00:32:18,360

publicly available to to just anyone

922

00:32:22,850 --> 00:32:20,820

he's he doesn't want to be in the

923

00:32:25,070 --> 00:32:22,860

Forefront of all of this

924

00:32:26,810 --> 00:32:25,080

um so having an Intel guy uh with me

925

00:32:29,330 --> 00:32:26,820

made Oak feel like this would be handled

926

00:32:31,610 --> 00:32:29,340

professionally which it was and they

927

00:32:33,409 --> 00:32:31,620

really enjoyed meeting us uh and vice

928

00:32:35,470 --> 00:32:33,419

versa I had a lovely time we had a great

929

00:32:37,970 --> 00:32:35,480

lunch we we talked for about three hours

930

00:32:39,590 --> 00:32:37,980

and uh and it was during this talk that

931

00:32:41,990 --> 00:32:39,600

the idea of an interview was brought up

932

00:32:43,789 --> 00:32:42,000

and uh and subsequently agreed upon uh

933

00:32:45,830 --> 00:32:43,799

you know they really are they really are

934

00:32:47,930 --> 00:32:45,840

lovely people good-natured people and

935

00:32:50,149 --> 00:32:47,940

I'm incredibly grateful for the

936

00:32:53,570 --> 00:32:50,159

opportunity that they've given me and uh

937

00:32:56,029 --> 00:32:53,580

for the continued friendship we now have

938

00:32:57,590 --> 00:32:56,039

so as we Decor desk it's the 27th of

939

00:32:59,029 --> 00:32:57,600

September the interview came out a

940

00:33:01,310 --> 00:32:59,039

couple of days prior

941

00:33:03,710 --> 00:33:01,320

since then there's been a little bit of

942

00:33:05,029 --> 00:33:03,720

you know we stay away from the drama gee

943

00:33:06,230 --> 00:33:05,039

you tend to stay away from the drama on

944

00:33:09,230 --> 00:33:06,240

your channel it's not that type of

945

00:33:10,850 --> 00:33:09,240

YouTube show and I hate the word show a

946

00:33:12,350 --> 00:33:10,860

podcast whatever you want to call it

947

00:33:14,450 --> 00:33:12,360

blog everyone's got different names for

948

00:33:15,649 --> 00:33:14,460

these things don't you but it is what it

949

00:33:17,149 --> 00:33:15,659

is and it puts out really good

950

00:33:19,610 --> 00:33:17,159

information with some very high level

951

00:33:21,950 --> 00:33:19,620

people that others can't get access to

952

00:33:25,009 --> 00:33:21,960

Grant Cameron is a big name when it

953

00:33:28,210 --> 00:33:25,019

comes to the Wilson Davis memo Grant has

954

00:33:31,549 --> 00:33:28,220

been keeping back a set of notes from

955

00:33:33,710 --> 00:33:31,559

uh from Oak Shannon that were to be

956

00:33:35,990 --> 00:33:33,720

released when Oak passed

957

00:33:37,370 --> 00:33:36,000

Grant Cameron from what I can see and

958

00:33:38,810 --> 00:33:37,380

you can correct me if I'm wrong in any

959

00:33:41,269 --> 00:33:38,820

of this I've watched Grant's piece and

960

00:33:42,909 --> 00:33:41,279

I've looked online Grant saw that Oak

961

00:33:45,470 --> 00:33:42,919

had come forward through yourself

962

00:33:47,090 --> 00:33:45,480

decided that well the the notes don't

963

00:33:49,430 --> 00:33:47,100

have to be held back anymore because Ox

964

00:33:52,009 --> 00:33:49,440

came forward he contacted Oak

965

00:33:54,350 --> 00:33:52,019

Oak said it looked like that was okay

966

00:33:57,470 --> 00:33:54,360

for him to release the notes Grant was

967

00:33:59,690 --> 00:33:57,480

due to go live with Nicole sakach on her

968

00:34:01,549 --> 00:33:59,700

YouTube show and they basically started

969

00:34:02,990 --> 00:34:01,559

the show and there was some online back

970

00:34:05,570 --> 00:34:03,000

and forward saying basically Project

971

00:34:07,370 --> 00:34:05,580

Unity has has blocked this release you

972

00:34:09,649 --> 00:34:07,380

said you denied this again this is all

973

00:34:13,550 --> 00:34:09,659

factual no drama here but from your

974

00:34:15,050 --> 00:34:13,560

perspective Jay what happened that those

975

00:34:16,790 --> 00:34:15,060

notes weren't allowed to be released

976
00:34:17,990 --> 00:34:16,800
through a grant

977
00:34:19,849 --> 00:34:18,000
yeah

978
00:34:21,349 --> 00:34:19,859
um first of all look ground Cameron's

979
00:34:23,389 --> 00:34:21,359
great I've got a lot of respect for him

980
00:34:26,270 --> 00:34:23,399
he's been in this field for a long time

981
00:34:28,190 --> 00:34:26,280
and he's done incredible work so you

982
00:34:29,570 --> 00:34:28,200
know nothing against Grant Cameron but

983
00:34:31,010 --> 00:34:29,580
and I don't want to start a drama like

984
00:34:32,629 --> 00:34:31,020
you said that's not my style it's not

985
00:34:34,430 --> 00:34:32,639
your style

986
00:34:36,889 --> 00:34:34,440
um but I should just be clear about my

987
00:34:39,230 --> 00:34:36,899
position on this so what I will say is I

988
00:34:41,570 --> 00:34:39,240

flew to Florida I met Oak Shannon and

989

00:34:43,070 --> 00:34:41,580

his wife Linda I spent time with them we

990

00:34:44,750 --> 00:34:43,080

had lunch together we talked for hours

991

00:34:47,869 --> 00:34:44,760

like I said they're lovely people

992

00:34:49,490 --> 00:34:47,879

good-natured kind-hearted people Linda's

993

00:34:50,750 --> 00:34:49,500

primary concern is the well-being of her

994

00:34:52,609 --> 00:34:50,760

husband

995

00:34:54,950 --> 00:34:52,619

um and since they're both gracious

996

00:34:57,050 --> 00:34:54,960

enough to not only meet me but to also

997

00:34:58,970 --> 00:34:57,060

agree to do an interview my primary

998

00:35:00,770 --> 00:34:58,980

concern is the safeguarding and the

999

00:35:02,690 --> 00:35:00,780

overall well-being of Oak and his family

1000

00:35:05,810 --> 00:35:02,700

uh you know people need to understand

1001

00:35:08,030 --> 00:35:05,820

that this wasn't easy and

1002

00:35:09,770 --> 00:35:08,040

you know Oak doesn't just open his doors

1003

00:35:13,370 --> 00:35:09,780

to anyone I've got nothing but respect

1004

00:35:14,810 --> 00:35:13,380

for him all I did was contact Oak to

1005

00:35:17,030 --> 00:35:14,820

make sure he was comfortable with what

1006

00:35:18,950 --> 00:35:17,040

was about to be uh what was about to be

1007

00:35:20,569 --> 00:35:18,960

released what was about to happen now

1008

00:35:22,910 --> 00:35:20,579

some people are saying what has it got

1009

00:35:24,829 --> 00:35:22,920

to do with me well those people

1010

00:35:26,450 --> 00:35:24,839

obviously haven't cultivated sources

1011

00:35:28,790 --> 00:35:26,460

with sensitive information because they

1012

00:35:31,550 --> 00:35:28,800

seem to think I should stop caring about

1013

00:35:33,050 --> 00:35:31,560

my sources well-being if someone else is

1014

00:35:35,510 --> 00:35:33,060

planning to reveal information about

1015

00:35:37,190 --> 00:35:35,520

them which is ridiculous because my

1016

00:35:39,109 --> 00:35:37,200

concern for Oak's well-being doesn't end

1017

00:35:41,390 --> 00:35:39,119

with my direct interaction with him it

1018

00:35:43,010 --> 00:35:41,400

continues as a sense of obligation to a

1019

00:35:45,530 --> 00:35:43,020

man who was quite happy leaving all of

1020

00:35:49,550 --> 00:35:45,540

this behind him seeing him get dragged

1021

00:35:52,670 --> 00:35:49,560

into things online is upsetting and um

1022

00:35:54,530 --> 00:35:52,680

you know when people are

1023

00:35:56,630 --> 00:35:54,540

when people who are supposed to be

1024

00:35:59,510 --> 00:35:56,640

experienced in handling sources and

1025

00:36:02,569 --> 00:35:59,520

sensitive information decide to hastily

1026
00:36:05,450 --> 00:36:02,579
post a bunch of documents online that

1027
00:36:06,890 --> 00:36:05,460
guys contained unredacted Social

1028
00:36:08,690 --> 00:36:06,900
Security numbers

1029
00:36:10,010 --> 00:36:08,700
you know perhaps people can see why I

1030
00:36:12,589 --> 00:36:10,020
was concerned this type of information

1031
00:36:14,510 --> 00:36:12,599
should have been washed out it's it's a

1032
00:36:16,550 --> 00:36:14,520
major privacy breach and this was the

1033
00:36:19,069 --> 00:36:16,560
kind of thing I wanted to avoid with

1034
00:36:21,290 --> 00:36:19,079
clear communication now lastly Oak

1035
00:36:23,210 --> 00:36:21,300
Shannon did turn around and say that he

1036
00:36:24,770 --> 00:36:23,220
wants this to go through my channel and

1037
00:36:26,690 --> 00:36:24,780
this has given people some impression

1038
00:36:28,670 --> 00:36:26,700

that I was like pressuring oak or

1039

00:36:30,950 --> 00:36:28,680

telling him it should only be released

1040

00:36:34,490 --> 00:36:30,960

through me this isn't true the truth is

1041

00:36:36,290 --> 00:36:34,500

the oak trusts me oak likes me oak

1042

00:36:38,089 --> 00:36:36,300

understands that I was the one who took

1043

00:36:40,310 --> 00:36:38,099

the time to fly over to his home to sit

1044

00:36:42,710 --> 00:36:40,320

with him and his wife he respects me and

1045

00:36:44,810 --> 00:36:42,720

so he decided on his own that he would

1046

00:36:46,310 --> 00:36:44,820

prefer this to go through me now I'll be

1047

00:36:47,750 --> 00:36:46,320

the first to admit I've made plenty of

1048

00:36:49,370 --> 00:36:47,760

mistakes during my time in this field

1049

00:36:51,290 --> 00:36:49,380

but this situation isn't one of them

1050

00:36:53,930 --> 00:36:51,300

I've got nothing to apologize for my

1051
00:36:55,550 --> 00:36:53,940
sole concern is and always will be the

1052
00:36:56,930 --> 00:36:55,560
safeguarding of my sources and making

1053
00:36:58,970 --> 00:36:56,940
sure they're comfortable and feel safe

1054
00:37:01,250 --> 00:36:58,980
I've got nothing but respect for Grant

1055
00:37:04,490 --> 00:37:01,260
Cameron I don't know who it was that

1056
00:37:06,349 --> 00:37:04,500
posted them up originally unredacted

1057
00:37:07,970 --> 00:37:06,359
but it was a part of that Network you

1058
00:37:09,530 --> 00:37:07,980
know these they they needed to have done

1059
00:37:11,930 --> 00:37:09,540
more due diligence on that it wasn't

1060
00:37:15,410 --> 00:37:11,940
fair for that to go out without Oak

1061
00:37:17,810 --> 00:37:15,420
giving it the full okay and I I think

1062
00:37:19,670 --> 00:37:17,820
what happened was

1063
00:37:21,349 --> 00:37:19,680

he had originally said yeah you can do

1064

00:37:23,990 --> 00:37:21,359

that just make sure you wash out any

1065

00:37:25,849 --> 00:37:24,000

sort of uh you know sensitive details

1066

00:37:27,589 --> 00:37:25,859

yeah I didn't know he had said that at

1067

00:37:29,150 --> 00:37:27,599

that point so I just sent an email to

1068

00:37:30,770 --> 00:37:29,160

Oak saying hey are you comfortable with

1069

00:37:32,510 --> 00:37:30,780

the fact that this is happening and I

1070

00:37:34,190 --> 00:37:32,520

tried to contact Grant Cameron but he

1071

00:37:35,990 --> 00:37:34,200

hasn't got back to me just want to make

1072

00:37:37,430 --> 00:37:36,000

sure you're cool with it basically and

1073

00:37:39,170 --> 00:37:37,440

that's when he responded saying well Jay

1074

00:37:39,950 --> 00:37:39,180

I'm actually not that comfortable with

1075

00:37:42,230 --> 00:37:39,960

it

1076

00:37:44,210 --> 00:37:42,240

um and I was just like okay but then

1077

00:37:48,770 --> 00:37:44,220

suddenly they went up they went up and

1078

00:37:50,150 --> 00:37:48,780

they were unredacted and you know I

1079

00:37:52,250 --> 00:37:50,160

don't know what the laws are in Canada

1080

00:37:54,109 --> 00:37:52,260

but I'm pretty sure in the EU posting

1081

00:37:56,329 --> 00:37:54,119

Social Security numbers is actually a

1082

00:37:58,190 --> 00:37:56,339

breach of the law I'm not 100 but it's

1083

00:38:00,109 --> 00:37:58,200

certainly a massive breach of privacy

1084

00:38:01,970 --> 00:38:00,119

and it shouldn't have happened

1085

00:38:04,849 --> 00:38:01,980

um of course I'm not blocking anything

1086

00:38:06,470 --> 00:38:04,859

for I mean first of all I have no power

1087

00:38:07,670 --> 00:38:06,480

to block anything anyway like they had

1088

00:38:09,710 --> 00:38:07,680

the notes they were going to do it

1089

00:38:11,810 --> 00:38:09,720

anyway regardless of what I have to say

1090

00:38:14,690 --> 00:38:11,820

they were going to post them so I I

1091

00:38:16,609 --> 00:38:14,700

don't see why it would be put onto my

1092

00:38:18,770 --> 00:38:16,619

shoulders as OJ's trying to block this

1093

00:38:20,150 --> 00:38:18,780

and why would I want to block anything

1094

00:38:21,710 --> 00:38:20,160

that's coming out to push full

1095

00:38:23,630 --> 00:38:21,720

disclosure I mean I'm in this with you

1096

00:38:25,609 --> 00:38:23,640

guys we want the truth to come out but

1097

00:38:27,589 --> 00:38:25,619

you've got to do it sensibly you know

1098

00:38:29,569 --> 00:38:27,599

there's Ethics in journalism I mean if

1099

00:38:31,790 --> 00:38:29,579

this was done in a conventional

1100

00:38:34,069 --> 00:38:31,800

journalistic environment people would be

1101

00:38:36,770 --> 00:38:34,079

fired for for posting that kind of uh

1102

00:38:40,010 --> 00:38:36,780

you know unredacted information so all

1103

00:38:41,690 --> 00:38:40,020

respect to a fantastic researcher who

1104

00:38:43,130 --> 00:38:41,700

has engraved his name into the history

1105

00:38:45,890 --> 00:38:43,140

of this subject

1106

00:38:47,089 --> 00:38:45,900

this was a this was an oversight and I

1107

00:38:48,650 --> 00:38:47,099

just wanted to make sure there was clear

1108

00:38:50,210 --> 00:38:48,660

communication between us before this

1109

00:38:53,630 --> 00:38:50,220

went out and the oak was okay with it

1110

00:38:56,210 --> 00:38:53,640

and that didn't happen and that's why

1111

00:38:57,109 --> 00:38:56,220

I was upset but at the same time I just

1112

00:38:59,630 --> 00:38:57,119

think

1113

00:39:01,250 --> 00:38:59,640

it could have been handled better

1114

00:39:03,109 --> 00:39:01,260

um we should just let the past be the

1115

00:39:05,450 --> 00:39:03,119

past luckily and I'll let people know

1116

00:39:07,550 --> 00:39:05,460

Oaks

1117

00:39:09,170 --> 00:39:07,560

um security number was not exploited out

1118

00:39:10,970 --> 00:39:09,180

so like that was an old one it's dead

1119

00:39:13,130 --> 00:39:10,980

it's not it's not the same

1120

00:39:14,630 --> 00:39:13,140

um details that he's got now but there

1121

00:39:16,490 --> 00:39:14,640

were two other people on there that had

1122

00:39:18,290 --> 00:39:16,500

their details revealed and who knows

1123

00:39:20,450 --> 00:39:18,300

maybe they're still active and that

1124

00:39:22,609 --> 00:39:20,460

might impact them so it's just about

1125

00:39:24,109 --> 00:39:22,619

being careful with what you do at the

1126

00:39:25,670 --> 00:39:24,119

end of the day you know getting that

1127

00:39:27,290 --> 00:39:25,680

information out is important but getting

1128

00:39:31,130 --> 00:39:27,300

that information out at the expense of

1129

00:39:35,210 --> 00:39:33,230

yeah thanks for clearing that up on on

1130

00:39:38,210 --> 00:39:35,220

your side Jay like I say many folks have

1131

00:39:39,710 --> 00:39:38,220

seen Grant Cameron's uh YouTube piece

1132

00:39:41,150 --> 00:39:39,720

and and maybe some of the stuff posted

1133

00:39:43,609 --> 00:39:41,160

online and it's always nice to be able

1134

00:39:45,230 --> 00:39:43,619

to get both kind of sides of things so

1135

00:39:46,730 --> 00:39:45,240

um and well sometimes the truth can be

1136

00:39:48,650 --> 00:39:46,740

somewhere in the middle like I say I'm

1137

00:39:50,089 --> 00:39:48,660

just asking to see where things are at

1138

00:39:51,950 --> 00:39:50,099

so that that makes sense though and

1139

00:39:53,270 --> 00:39:51,960

appreciate the angle you're coming at

1140

00:39:55,550 --> 00:39:53,280

that from

1141

00:39:58,250 --> 00:39:55,560

um what do you hope the impact is going

1142

00:39:59,870 --> 00:39:58,260

forward of that interview you've done

1143

00:40:00,829 --> 00:39:59,880

what do you want the lasting impact to

1144

00:40:03,950 --> 00:40:00,839

be

1145

00:40:06,410 --> 00:40:03,960

well I mean I I think that the Admiral

1146

00:40:09,109 --> 00:40:06,420

Wilson documents are being used as a

1147

00:40:10,730 --> 00:40:09,119

strategic card for Congressional and

1148

00:40:12,890 --> 00:40:10,740

certain committees to push into the

1149

00:40:14,930 --> 00:40:12,900

private sector I mean we didn't touch on

1150

00:40:17,870 --> 00:40:14,940

this but the fact that Dr Gary Nolan

1151
00:40:19,609 --> 00:40:17,880
went on you know Tucker Carlson and and

1152
00:40:21,290 --> 00:40:19,619
said that he believes they're authentic

1153
00:40:23,390 --> 00:40:21,300
and he did that with Ross Coulter in the

1154
00:40:25,790 --> 00:40:23,400
documentary people who need to remember

1155
00:40:27,770 --> 00:40:25,800
who Gary Nolan is he's connected to all

1156
00:40:30,349 --> 00:40:27,780
these people help us off Eric Davis Lu

1157
00:40:31,849 --> 00:40:30,359
Elizondo Christopher melon do you think

1158
00:40:34,010 --> 00:40:31,859
he just went off the reservation and

1159
00:40:36,589 --> 00:40:34,020
decided to say that hell no this is

1160
00:40:38,750 --> 00:40:36,599
strategic it's strategic and so he's now

1161
00:40:41,569 --> 00:40:38,760
pushed that ball forward by legitimizing

1162
00:40:43,190 --> 00:40:41,579
it and having the background of his own

1163
00:40:44,630 --> 00:40:43,200

authenticity which is just evident

1164

00:40:47,030 --> 00:40:44,640

because he's one of the world's leading

1165

00:40:49,490 --> 00:40:47,040

geneticists he's extremely uh successful

1166

00:40:51,710 --> 00:40:49,500

in his career he's a genius to be honest

1167

00:40:53,270 --> 00:40:51,720

and uh at the at the same time he's

1168

00:40:55,069 --> 00:40:53,280

sitting there and willfully

1169

00:40:56,930 --> 00:40:55,079

acknowledging that he believes he's a

1170

00:40:58,670 --> 00:40:56,940

legitimate documents and he has that

1171

00:41:00,950 --> 00:40:58,680

background with these guys that would

1172

00:41:02,690 --> 00:41:00,960

make you go all right well he's not just

1173

00:41:04,250 --> 00:41:02,700

going to say that for no reason he's

1174

00:41:06,230 --> 00:41:04,260

obviously sat down with them and they've

1175

00:41:08,089 --> 00:41:06,240

said yeah you can say this they just

1176

00:41:09,950 --> 00:41:08,099

can't say it themselves and there's

1177

00:41:11,510 --> 00:41:09,960

legal implications as to why they can't

1178

00:41:14,270 --> 00:41:11,520

say it themselves which might explain

1179

00:41:15,829 --> 00:41:14,280

maybe a part of this push to get a

1180

00:41:17,510 --> 00:41:15,839

safety mechanism established for

1181

00:41:20,450 --> 00:41:17,520

whistleblowers it may be you know a

1182

00:41:22,069 --> 00:41:20,460

component of that desire to do this so I

1183

00:41:24,109 --> 00:41:22,079

think that the Wilson documents in

1184

00:41:25,970 --> 00:41:24,119

general which have now been you know

1185

00:41:27,829 --> 00:41:25,980

inserted into the Congressional Record

1186

00:41:29,930 --> 00:41:27,839

and are available on the Congress

1187

00:41:31,490 --> 00:41:29,940

website to download which is insane I

1188

00:41:34,130 --> 00:41:31,500

mean you've got literally documents

1189

00:41:35,750 --> 00:41:34,140

about reverse engineering programs and a

1190

00:41:38,089 --> 00:41:35,760

director of the intelligence agency

1191

00:41:40,310 --> 00:41:38,099

defense intelligence agency uh being

1192

00:41:42,109 --> 00:41:40,320

denied access to them on congress's

1193

00:41:44,750 --> 00:41:42,119

website that's mind-blowing to me but

1194

00:41:45,770 --> 00:41:44,760

yeah I think that my hope for the

1195

00:41:48,109 --> 00:41:45,780

interview

1196

00:41:49,670 --> 00:41:48,119

um and you know this isn't me puffing my

1197

00:41:51,650 --> 00:41:49,680

chest up or patting myself on the back

1198

00:41:52,790 --> 00:41:51,660

I've been told by people that you know

1199

00:41:54,530 --> 00:41:52,800

there are certain members of the

1200

00:41:56,089 --> 00:41:54,540

executive and legislative branch of the

1201
00:41:58,069 --> 00:41:56,099
US government that watch my interviews

1202
00:41:59,329 --> 00:41:58,079
Congress to watch my interviews and I

1203
00:42:00,890 --> 00:41:59,339
would not be surprised if it was the

1204
00:42:02,150 --> 00:42:00,900
exact same for you and the these people

1205
00:42:03,829 --> 00:42:02,160
are watching what we're doing and

1206
00:42:06,410 --> 00:42:03,839
they're listening when we have you know

1207
00:42:08,630 --> 00:42:06,420
big players on people from the Intel

1208
00:42:10,910 --> 00:42:08,640
community on talking about this stuff so

1209
00:42:12,829 --> 00:42:10,920
it's no surprise that there are eyes on

1210
00:42:15,170 --> 00:42:12,839
certain podcasters who are getting these

1211
00:42:17,750 --> 00:42:15,180
people on and talking about this so my

1212
00:42:20,089 --> 00:42:17,760
hope and I've emailed a few Congress p

1213
00:42:22,849 --> 00:42:20,099

people these you know the interview to

1214

00:42:25,310 --> 00:42:22,859

encourage them to look into it and and

1215

00:42:28,849 --> 00:42:25,320

see if this can be used in any way but I

1216

00:42:31,430 --> 00:42:28,859

think that ideally I would like to see

1217

00:42:33,589 --> 00:42:31,440

this push Congress even further into

1218

00:42:35,630 --> 00:42:33,599

pressuring the private sector and the

1219

00:42:37,010 --> 00:42:35,640

more clandestine areas of the Pentagon

1220

00:42:38,569 --> 00:42:37,020

when it comes to research and

1221

00:42:41,750 --> 00:42:38,579

development programs

1222

00:42:43,790 --> 00:42:41,760

about what is actually going on and he

1223

00:42:46,010 --> 00:42:43,800

didn't say this on the record but it's

1224

00:42:47,750 --> 00:42:46,020

fine for me to let people know that Oak

1225

00:42:50,270 --> 00:42:47,760

Shannon said I asked him you know if

1226

00:42:52,430 --> 00:42:50,280

people approached you from a a select

1227

00:42:54,230 --> 00:42:52,440

committee or from Congress and asked you

1228

00:42:55,550 --> 00:42:54,240

to testify about what you've been

1229

00:42:57,950 --> 00:42:55,560

telling me and what you've said on the

1230

00:43:00,170 --> 00:42:57,960

record would you do it and I actually

1231

00:43:01,550 --> 00:43:00,180

thought he'd say well Jay you know I I

1232

00:43:03,710 --> 00:43:01,560

don't want to be involved but he said no

1233

00:43:05,329 --> 00:43:03,720

I would I said sorry he said yes I will

1234

00:43:07,250 --> 00:43:05,339

do that I would I would do that if they

1235

00:43:10,609 --> 00:43:07,260

called me to do that so

1236

00:43:12,530 --> 00:43:10,619

I hope it can at least step forward

1237

00:43:14,329 --> 00:43:12,540

through Congress and and you never know

1238

00:43:15,950 --> 00:43:14,339

we might see Oak Shannon in a

1239

00:43:17,750 --> 00:43:15,960

congressional setting saying that this

1240

00:43:19,309 --> 00:43:17,760

is what happened and

1241

00:43:21,410 --> 00:43:19,319

I think it's pretty obvious that he

1242

00:43:23,150 --> 00:43:21,420

knows a little bit more

1243

00:43:24,530 --> 00:43:23,160

um again you have to be very respectful

1244

00:43:26,510 --> 00:43:24,540

with these kind of people you can't just

1245

00:43:27,950 --> 00:43:26,520

push and push there were loads of things

1246

00:43:30,170 --> 00:43:27,960

I wanted to ask him during the interview

1247

00:43:31,430 --> 00:43:30,180

you know like obviously like I've had

1248

00:43:32,870 --> 00:43:31,440

people saying why didn't you drill down

1249

00:43:34,490 --> 00:43:32,880

on the advance theoretical physics group

1250

00:43:35,870 --> 00:43:34,500

it's like because we spoke about this

1251
00:43:38,150 --> 00:43:35,880
and I have to be respectful of someone

1252
00:43:39,950 --> 00:43:38,160
when they say look I don't want to get

1253
00:43:42,050 --> 00:43:39,960
into this or that or the other or

1254
00:43:44,270 --> 00:43:42,060
speculate he was very clear that he

1255
00:43:46,010 --> 00:43:44,280
didn't want to speculate and and kind of

1256
00:43:47,569 --> 00:43:46,020
come up with ideas about other people

1257
00:43:49,130 --> 00:43:47,579
and other things that are happening he

1258
00:43:51,109 --> 00:43:49,140
was just like I just want to tell the

1259
00:43:53,329 --> 00:43:51,119
truth as I know it the fact is I know it

1260
00:43:55,190 --> 00:43:53,339
and and that's what he did you know he

1261
00:43:58,250 --> 00:43:55,200
told us that the parts of the notes that

1262
00:44:00,170 --> 00:43:58,260
involved him were authentic which is a a

1263
00:44:02,569 --> 00:44:00,180

really strong signifier of their

1264

00:44:04,430 --> 00:44:02,579

legitimacy he said some other stuff some

1265

00:44:06,890 --> 00:44:04,440

other interesting things that there were

1266

00:44:09,950 --> 00:44:06,900

people at Los Alamos National Labs that

1267

00:44:11,990 --> 00:44:09,960

were at least and I'm still not 100 sure

1268

00:44:13,670 --> 00:44:12,000

if it was official or not official but

1269

00:44:16,130 --> 00:44:13,680

he said that it was just kind of like an

1270

00:44:18,589 --> 00:44:16,140

unofficial interest by people within Los

1271

00:44:20,690 --> 00:44:18,599

Alamos labs but that they were you know

1272

00:44:22,550 --> 00:44:20,700

researching and conducting some forms of

1273

00:44:24,650 --> 00:44:22,560

experiments to figure out what exactly

1274

00:44:26,390 --> 00:44:24,660

this phenomenon was and that they'd come

1275

00:44:29,809 --> 00:44:26,400

to the conclusion that it was in some

1276

00:44:31,130 --> 00:44:29,819

way interdimensional in nature which he

1277

00:44:33,410 --> 00:44:31,140

expanded on a little bit with his

1278

00:44:34,970 --> 00:44:33,420

physics but I'm not a physicist so I

1279

00:44:36,710 --> 00:44:34,980

won't pretend to fully understand the

1280

00:44:38,750 --> 00:44:36,720

implications of what he was uh what he

1281

00:44:40,010 --> 00:44:38,760

was saying in regards to that but we

1282

00:44:41,030 --> 00:44:40,020

definitely got some interesting things

1283

00:44:43,190 --> 00:44:41,040

from him

1284

00:44:44,530 --> 00:44:43,200

um you know even his own UFO sighting

1285

00:44:46,790 --> 00:44:44,540

which I thought was kind of incredible

1286

00:44:48,710 --> 00:44:46,800

and I I don't know if you've seen have

1287

00:44:51,650 --> 00:44:48,720

you seen the film nope

1288

00:44:53,270 --> 00:44:51,660

have you seen nope yes yeah I watched

1289

00:44:54,890 --> 00:44:53,280

nope like the day before I interviewed

1290

00:44:56,630 --> 00:44:54,900

him and then he tells me about a UFO

1291

00:44:58,010 --> 00:44:56,640

that he thought was living like a living

1292

00:44:59,630 --> 00:44:58,020

being I was like I don't need to hear

1293

00:45:00,040 --> 00:44:59,640

yeah that's right I don't need to hear

1294

00:45:02,450 --> 00:45:00,050

this

1295

00:45:04,670 --> 00:45:02,460

[Laughter]

1296

00:45:06,890 --> 00:45:04,680

well listen Jay many people have done

1297

00:45:09,170 --> 00:45:06,900

PCS on the Wilson Davis memo Richard

1298

00:45:10,370 --> 00:45:09,180

Dolan has a huge four or five part Deep

1299

00:45:12,230 --> 00:45:10,380

dive on it

1300

00:45:13,970 --> 00:45:12,240

um Joe merger has a mega blog on it

1301

00:45:15,950 --> 00:45:13,980

which is very well known I've done my

1302

00:45:17,870 --> 00:45:15,960

own piece recently with Joe modular on

1303

00:45:20,270 --> 00:45:17,880

audio and YouTube and many others have

1304

00:45:22,309 --> 00:45:20,280

so if people aren't well versed in the

1305

00:45:23,990 --> 00:45:22,319

notes or the documents still go back and

1306

00:45:25,730 --> 00:45:24,000

check any of those out

1307

00:45:27,470 --> 00:45:25,740

um Jay thank you very much for your time

1308

00:45:29,569 --> 00:45:27,480

I encourage folks to check out your

1309

00:45:31,430 --> 00:45:29,579

interview still with Oak and others in

1310

00:45:32,930 --> 00:45:31,440

your back catalog and is there anything

1311

00:45:34,250 --> 00:45:32,940

that you're currently working on that

1312

00:45:35,870 --> 00:45:34,260

you want to advise the listeners of

1313

00:45:37,670 --> 00:45:35,880

before you head off

1314

00:45:39,470 --> 00:45:37,680

well I've still got a couple of people

1315

00:45:41,630 --> 00:45:39,480

to meet in the states and I'm really

1316

00:45:43,609 --> 00:45:41,640

looking forward to the conference on

1317

00:45:45,589 --> 00:45:43,619

October the 8th in Manhattan with Dr

1318

00:45:47,329 --> 00:45:45,599

Gary Nolan and James Ian Dolly

1319

00:45:50,150 --> 00:45:47,339

Christopher King and you know a bunch of

1320

00:45:51,530 --> 00:45:50,160

others so uh I'm looking forward to kind

1321

00:45:52,849 --> 00:45:51,540

of going there and shaking some hands

1322

00:45:55,010 --> 00:45:52,859

and maybe securing a couple more

1323

00:45:57,230 --> 00:45:55,020

interviews and I've recently I've been

1324

00:45:59,750 --> 00:45:57,240

talking to and I'm scared I'm gonna mess

1325

00:46:01,490 --> 00:45:59,760

his name up Salvatore says our pay or

1326

00:46:05,329 --> 00:46:01,500

pie I I don't know how to pronounce it

1327

00:46:07,609 --> 00:46:05,339

his last name I almost say pie but yeah

1328

00:46:09,650 --> 00:46:07,619

yeah so Salvatore I've been talking to

1329

00:46:11,329 --> 00:46:09,660

him and he he would like to come on and

1330

00:46:13,849 --> 00:46:11,339

and have a conversation so that's going

1331

00:46:16,010 --> 00:46:13,859

to happen in October but apart from that

1332

00:46:17,450 --> 00:46:16,020

just you know enjoying my time out here

1333

00:46:19,670 --> 00:46:17,460

it's a bit of business it's a bit of

1334

00:46:21,109 --> 00:46:19,680

pleasure and uh I don't really want to

1335

00:46:22,849 --> 00:46:21,119

come back to the UK as I told you before

1336

00:46:25,430 --> 00:46:22,859

we got on record but at some point I

1337

00:46:29,870 --> 00:46:27,650

it's a burning Forest at the moment but

1338

00:46:31,430 --> 00:46:29,880

yeah some of us are stuck here so enjoy

1339

00:46:33,470 --> 00:46:31,440

your time away Jay thanks very much for

1340

00:46:35,510 --> 00:46:33,480

breaking up your vacation slash business

1341

00:46:38,150 --> 00:46:35,520

trip to join us uh you're most welcome

1342

00:46:40,130 --> 00:46:38,160

mate anytime thanks to Jay who took some

1343

00:46:42,290 --> 00:46:40,140

time out on his vacation in the states

1344

00:46:44,569 --> 00:46:42,300

to uh to speak to myself very much

1345

00:46:46,250 --> 00:46:44,579

appreciated thank you Jay and like I

1346

00:46:48,050 --> 00:46:46,260

sort of said to Jay regarding the the

1347

00:46:50,390 --> 00:46:48,060

controversy that happened online with

1348

00:46:51,890 --> 00:46:50,400

Grant Cameron as well I think the truth

1349

00:46:53,750 --> 00:46:51,900

tends to lie somewhere within the middle

1350

00:46:55,730 --> 00:46:53,760

of these things maybe a few wires got

1351
00:46:57,530 --> 00:46:55,740
crossed maybe there was a little bit of

1352
00:46:58,849 --> 00:46:57,540
a a little bit of column B and

1353
00:47:00,290 --> 00:46:58,859
whatever's happened there's been a

1354
00:47:03,050 --> 00:47:00,300
little bit of a falling out

1355
00:47:05,030 --> 00:47:03,060
um but hopefully I would say Grant

1356
00:47:07,069 --> 00:47:05,040
Cameron Jay and others who all do

1357
00:47:09,050 --> 00:47:07,079
fantastic work in their own right can

1358
00:47:11,150 --> 00:47:09,060
just get past any kind of disagreements

1359
00:47:13,250 --> 00:47:11,160
and and just kind of move on

1360
00:47:14,630 --> 00:47:13,260
um into doing the good work that they do

1361
00:47:17,150 --> 00:47:14,640
because that's a little bit unfortunate

1362
00:47:19,490 --> 00:47:17,160
I I think they will you know people this

1363
00:47:20,870 --> 00:47:19,500

is a really good example actually of the

1364

00:47:22,730 --> 00:47:20,880

drama kind of distracting from the

1365

00:47:24,710 --> 00:47:22,740

conversation a little bit right where

1366

00:47:26,270 --> 00:47:24,720

we've got this amazing interview that's

1367

00:47:27,589 --> 00:47:26,280

happened that we've wanted happen for a

1368

00:47:28,910 --> 00:47:27,599

long time and instead of talking about

1369

00:47:31,190 --> 00:47:28,920

the contents of the interview people are

1370

00:47:33,589 --> 00:47:31,200

talking about the circumstances of who

1371

00:47:35,930 --> 00:47:33,599

released it first doesn't matter really

1372

00:47:39,650 --> 00:47:35,940

ultimately you know it's out there this

1373

00:47:41,569 --> 00:47:39,660

is this is Chinatown baby you know yeah

1374

00:47:43,490 --> 00:47:41,579

um I actually could have had Oak Shannon

1375

00:47:45,950 --> 00:47:43,500

on about two months ago Dan I never told

1376

00:47:48,290 --> 00:47:45,960

you really no that's not true I just

1377

00:47:49,430 --> 00:47:48,300

went well there you go remember

1378

00:47:50,569 --> 00:47:49,440

um but someone will have pause that

1379

00:47:52,430 --> 00:47:50,579

there and I mean oh my God they could

1380

00:47:54,530 --> 00:47:52,440

have had him on and didn't uh him but

1381

00:47:56,870 --> 00:47:54,540

that's how these things happen so yeah

1382

00:47:58,670 --> 00:47:56,880

like you say it I think for many of us

1383

00:48:00,650 --> 00:47:58,680

it doesn't matter I've never been one to

1384

00:48:02,630 --> 00:48:00,660

oh my God I have to skip people or be

1385

00:48:04,250 --> 00:48:02,640

the first one to release something I'm

1386

00:48:06,530 --> 00:48:04,260

not particularly fussed on that myself

1387

00:48:08,870 --> 00:48:06,540

and different hosts have different

1388

00:48:10,970 --> 00:48:08,880

styles and different takeaways so well

1389

00:48:13,370 --> 00:48:10,980

and actually a good example there was

1390

00:48:15,770 --> 00:48:13,380

When You released the the hearing video

1391

00:48:17,089 --> 00:48:15,780

of Lou and I was trying to get you to

1392

00:48:18,770 --> 00:48:17,099

slow down so I could pop her up on

1393

00:48:20,030 --> 00:48:18,780

YouTube and you know pop pop the podcast

1394

00:48:22,130 --> 00:48:20,040

logo on it and you're like nope don't

1395

00:48:23,329 --> 00:48:22,140

care I'm just gonna put her out and you

1396

00:48:24,710 --> 00:48:23,339

know it's about getting the information

1397

00:48:26,870 --> 00:48:24,720

out and moving the ball down the field

1398

00:48:30,309 --> 00:48:26,880

it's not about anyone being first yeah

1399

00:48:34,430 --> 00:48:30,319

although I was so yeah

1400

00:48:36,349 --> 00:48:34,440

no so um yeah so it's again been one of

1401

00:48:38,089 --> 00:48:36,359

those conversations that a little bit

1402

00:48:40,970 --> 00:48:38,099

like seeing Chris melon and Linda Milton

1403

00:48:43,010 --> 00:48:40,980

how talking I've seen loads of other UFO

1404

00:48:46,069 --> 00:48:43,020

Twitter names and personalities and

1405

00:48:47,510 --> 00:48:46,079

groups going back and forward Gary Nolan

1406

00:48:49,190 --> 00:48:47,520

and John Greenwald have been having a

1407

00:48:50,990 --> 00:48:49,200

little bit of Tit for Tat all all very

1408

00:48:52,790 --> 00:48:51,000

much good-natured

1409

00:48:54,410 --> 00:48:52,800

um Tim McMillan's been been clearing

1410

00:48:57,050 --> 00:48:54,420

things up and discussing it Joe merger

1411

00:48:58,970 --> 00:48:57,060

Grant Cameron Richard Dolan

1412

00:49:00,950 --> 00:48:58,980

um Richard Dolan just last night again

1413

00:49:03,109 --> 00:49:00,960

has released a show again Dan and I have

1414

00:49:05,089 --> 00:49:03,119

managed to watch that today and where he

1415

00:49:06,589 --> 00:49:05,099

gives many people including Jay big

1416

00:49:08,809 --> 00:49:06,599

shout out for the work they've done in

1417

00:49:10,490 --> 00:49:08,819

terms of the Wilson Davis notes

1418

00:49:12,230 --> 00:49:10,500

um really quick rundown I recommend

1419

00:49:14,210 --> 00:49:12,240

people go and watch we'll put the link

1420

00:49:16,609 --> 00:49:14,220

for it in the description then the Retro

1421

00:49:19,490 --> 00:49:16,619

ensure it's only 54 55 minutes long

1422

00:49:21,589 --> 00:49:19,500

which for Richard is I mean I snippet

1423

00:49:23,569 --> 00:49:21,599

that's a YouTube shot for Rachel isn't

1424

00:49:25,309 --> 00:49:23,579

it normally yeah he likes his longer

1425

00:49:27,829 --> 00:49:25,319

form and um he does a really nice

1426

00:49:29,690 --> 00:49:27,839

rundown and summation of the notes in

1427

00:49:31,430 --> 00:49:29,700

the Wilson Davis memo if you haven't

1428

00:49:33,050 --> 00:49:31,440

checked out the one at the Deep dive I

1429

00:49:35,030 --> 00:49:33,060

done with Joe mergia do go check that

1430

00:49:36,650 --> 00:49:35,040

out but um Richard Dolan gives a really

1431

00:49:38,270 --> 00:49:36,660

nice quick summation of what he thinks

1432

00:49:41,030 --> 00:49:38,280

of the notes bringing it back up to

1433

00:49:43,609 --> 00:49:41,040

speed and then I agree with what he says

1434

00:49:45,710 --> 00:49:43,619

though that after all this controversy

1435

00:49:47,630 --> 00:49:45,720

it does seem a little bit redundant

1436

00:49:49,430 --> 00:49:47,640

because so much conversation is coming

1437

00:49:52,250 --> 00:49:49,440

from the fact that it doesn't actually

1438

00:49:53,630 --> 00:49:52,260

change the contents of the memo or what

1439

00:49:56,089 --> 00:49:53,640

you think about them because people like

1440

00:49:58,970 --> 00:49:56,099

myself and yourself Dan and many others

1441

00:50:01,550 --> 00:49:58,980

I agree they're not so genuine and that

1442

00:50:03,230 --> 00:50:01,560

meeting did take place and for me it's

1443

00:50:05,569 --> 00:50:03,240

just a useful puzzle piece like I said

1444

00:50:07,309 --> 00:50:05,579

to Jay yeah that and a jigsaw that's

1445

00:50:09,589 --> 00:50:07,319

getting filled in oh now we can see that

1446

00:50:12,109 --> 00:50:09,599

yeah from Orcs point of view he did vet

1447

00:50:13,730 --> 00:50:12,119

Eric Davis for Admiral Thomas Wilson and

1448

00:50:16,970 --> 00:50:13,740

Admiral Wilson when asked about auction

1449

00:50:19,010 --> 00:50:16,980

and said ok who yeah and he's just been

1450

00:50:20,510 --> 00:50:19,020

kind of staunch and denying his

1451

00:50:23,290 --> 00:50:20,520

involvement in all of this but he is

1452

00:50:25,730 --> 00:50:23,300

always going to do that understandably

1453

00:50:27,470 --> 00:50:25,740

changes you know he was threatened to

1454

00:50:29,089 --> 00:50:27,480

have his Stars taken away his whole

1455

00:50:31,910 --> 00:50:29,099

career was threatened whoever he spoke

1456

00:50:36,170 --> 00:50:31,920

to if this is a genuine document was

1457

00:50:38,150 --> 00:50:36,180

outside of and above the law uh Jay

1458

00:50:39,950 --> 00:50:38,160

actually put a really fair statement

1459

00:50:41,990 --> 00:50:39,960

online I thought that that hits the nail

1460

00:50:43,370 --> 00:50:42,000

on the head he wrote Oak acknowledging

1461

00:50:44,809 --> 00:50:43,380

and authenticating the statements that

1462

00:50:46,609 --> 00:50:44,819

relate to him that are in these notes

1463

00:50:49,130 --> 00:50:46,619

provide an extremely strong argument for

1464

00:50:50,569 --> 00:50:49,140

the their legitimacy the Admiral will

1465

00:50:52,609 --> 00:50:50,579

deny the meeting because he broke the

1466

00:50:55,069 --> 00:50:52,619

law slash security oath if we change the

1467

00:50:56,750 --> 00:50:55,079

law we may he may change his View and

1468

00:50:58,190 --> 00:50:56,760

that relates back to the legislation you

1469

00:51:00,049 --> 00:50:58,200

know Admiral Wilson could be one of the

1470

00:51:01,490 --> 00:51:00,059

people who away in saying yeah I'll talk

1471

00:51:02,930 --> 00:51:01,500

to you but you need to get this law

1472

00:51:06,290 --> 00:51:02,940

enacted first otherwise I'm just gonna

1473

00:51:09,349 --> 00:51:06,300

deny deny deny and part of me thinks as

1474

00:51:11,150 --> 00:51:09,359

well with you know in in the notes

1475

00:51:14,089 --> 00:51:11,160

Wilson approaches essentially the The

1476
00:51:16,010 --> 00:51:14,099
Gatekeepers of the Legacy programs and

1477
00:51:18,829 --> 00:51:16,020
he's told what they're working on and

1478
00:51:20,510 --> 00:51:18,839
he's turned down as having access yeah

1479
00:51:21,890 --> 00:51:20,520
it's always kind of gotten under my skin

1480
00:51:24,049 --> 00:51:21,900
that they were so open about what they

1481
00:51:26,450 --> 00:51:24,059
were working on and I wonder if maybe

1482
00:51:27,230 --> 00:51:26,460
they didn't tell him the truth uh it

1483
00:51:31,190 --> 00:51:27,240
doesn't

1484
00:51:32,870 --> 00:51:31,200
have no involvement with UFO stuff but

1485
00:51:34,130 --> 00:51:32,880
it certainly makes me wonder you know

1486
00:51:36,770 --> 00:51:34,140
who are these people what are they

1487
00:51:39,530 --> 00:51:36,780
actually working on and how come that

1488
00:51:41,750 --> 00:51:39,540

they're outside of

1489

00:51:44,270 --> 00:51:41,760

of you know congressional oversight and

1490

00:51:46,309 --> 00:51:44,280

and presidential oversight

1491

00:51:48,170 --> 00:51:46,319

what it seemed like in my head then is

1492

00:51:50,030 --> 00:51:48,180

that he's he's found one of those

1493

00:51:51,589 --> 00:51:50,040

corridors or stove pipes that Tom DeLong

1494

00:51:53,390 --> 00:51:51,599

talked about and he's gone down the

1495

00:51:54,890 --> 00:51:53,400

corridor knocked on the door someone's

1496

00:51:56,690 --> 00:51:54,900

opened the door but not too much and can

1497

00:51:58,309 --> 00:51:56,700

I stuck their head out and he's kind of

1498

00:51:59,690 --> 00:51:58,319

looking in the background as if like you

1499

00:52:01,609 --> 00:51:59,700

know oh what's going on in there and

1500

00:52:04,309 --> 00:52:01,619

they've went crash retrieval program oh

1501
00:52:06,710 --> 00:52:04,319
okay can I find out more nope well why

1502
00:52:08,569 --> 00:52:06,720
not I'm yeah you just can't and the

1503
00:52:10,549 --> 00:52:08,579
slander door in his face and it's like

1504
00:52:12,170 --> 00:52:10,559
oh they've admitted yeah we're working

1505
00:52:14,569 --> 00:52:12,180
on these things but you can't know any

1506
00:52:15,650 --> 00:52:14,579
more about it and then that's it locked

1507
00:52:18,250 --> 00:52:15,660
out

1508
00:52:21,049 --> 00:52:18,260
um yeah it's like you say it's

1509
00:52:23,930 --> 00:52:21,059
tantalizingly frustrating but

1510
00:52:25,549 --> 00:52:23,940
I get why Admiral Wilson denies you know

1511
00:52:27,109 --> 00:52:25,559
everything because it's very easy for

1512
00:52:29,390 --> 00:52:27,119
him to do that and until he comes out

1513
00:52:31,069 --> 00:52:29,400

and says yes that meeting happened well

1514

00:52:33,230 --> 00:52:31,079

let's be fair that as a game changer in

1515

00:52:34,549 --> 00:52:33,240

terms of the conversation Admiral Wilson

1516

00:52:37,010 --> 00:52:34,559

coming out and seeing this meeting

1517

00:52:38,630 --> 00:52:37,020

happened and the notes are genuine isn't

1518

00:52:41,150 --> 00:52:38,640

far off a picture of a black triangle

1519

00:52:43,309 --> 00:52:41,160

being released in terms of Gravitass and

1520

00:52:46,490 --> 00:52:43,319

weight because all of a sudden a very

1521

00:52:47,450 --> 00:52:46,500

senior figure is admitting or completely

1522

00:52:49,970 --> 00:52:47,460

lying

1523

00:52:52,790 --> 00:52:49,980

that there are crash retrieval programs

1524

00:52:54,950 --> 00:52:52,800

down craft we know about aliens existing

1525

00:52:56,870 --> 00:52:54,960

you know all that kind of stuff so it

1526
00:52:59,210 --> 00:52:56,880
would be huge and until he just changes

1527
00:53:00,950 --> 00:52:59,220
that one no to a yes

1528
00:53:03,230 --> 00:53:00,960
that's that's the way it's gonna remain

1529
00:53:04,730 --> 00:53:03,240
yeah definitely I'm just gonna quickly

1530
00:53:06,109 --> 00:53:04,740
run through the implications Richard at

1531
00:53:07,970 --> 00:53:06,119
the end of this video I had a few really

1532
00:53:09,950 --> 00:53:07,980
interesting uh bullet points where he

1533
00:53:11,990 --> 00:53:09,960
said you know if if these are real then

1534
00:53:13,910 --> 00:53:12,000
these are the implications

1535
00:53:16,670 --> 00:53:13,920
um the implications are aliens are here

1536
00:53:18,589 --> 00:53:16,680
and they are real that we have recovered

1537
00:53:20,930 --> 00:53:18,599
their technology including an intact

1538
00:53:22,250 --> 00:53:20,940

torsa that their technology is far

1539

00:53:24,829 --> 00:53:22,260

beyond our knowledge and capabilities

1540

00:53:26,510 --> 00:53:24,839

that private military contractors are

1541

00:53:27,530 --> 00:53:26,520

attempting to study and replicate that

1542

00:53:29,750 --> 00:53:27,540

technology

1543

00:53:31,490 --> 00:53:29,760

the contractors have exceptional levels

1544

00:53:33,710 --> 00:53:31,500

of protection for their work from the US

1545

00:53:35,450 --> 00:53:33,720

government they're immune from all types

1546

00:53:37,069 --> 00:53:35,460

of inquiry including the highest level

1547

00:53:39,410 --> 00:53:37,079

intelligence officials

1548

00:53:41,290 --> 00:53:39,420

we don't really have any idea who is in

1549

00:53:44,809 --> 00:53:41,300

charge it's clearly not the US president

1550

00:53:46,849 --> 00:53:44,819

the sap which is the the special access

1551
00:53:49,790 --> 00:53:46,859
programs uh connection to this program

1552
00:53:51,410 --> 00:53:49,800
are buried within the dod uh Dolan has

1553
00:53:53,089 --> 00:53:51,420
been told privately that there are

1554
00:53:55,130 --> 00:53:53,099
similar programs in the CIA and the

1555
00:53:56,930 --> 00:53:55,140
department of energy that there's a

1556
00:53:59,510 --> 00:53:56,940
significant wall of secrecy around the

1557
00:54:01,910 --> 00:53:59,520
program and that includes media coverage

1558
00:54:04,670 --> 00:54:01,920
mainstream media coverage and more

1559
00:54:06,589 --> 00:54:04,680
that they've extracted significant

1560
00:54:08,630 --> 00:54:06,599
amount of money for r d security

1561
00:54:09,950 --> 00:54:08,640
engineering manufacturing and operation

1562
00:54:12,710 --> 00:54:09,960
you know that's not going to be cheap

1563
00:54:14,270 --> 00:54:12,720

that someone is benefiting from all this

1564

00:54:15,950 --> 00:54:14,280

whether it's private contract or someone

1565

00:54:19,250 --> 00:54:15,960

else we don't know someone has got a

1566

00:54:21,410 --> 00:54:19,260

benefit from this and ultimately that if

1567

00:54:23,270 --> 00:54:21,420

that program exists where they Harbor

1568

00:54:24,589 --> 00:54:23,280

this technology that's so Advanced that

1569

00:54:26,510 --> 00:54:24,599

could change the world and so on so

1570

00:54:28,430 --> 00:54:26,520

forth it means that we essentially

1571

00:54:31,549 --> 00:54:28,440

currently are living in a fictitious

1572

00:54:33,109 --> 00:54:31,559

reality that's kind of built by a small

1573

00:54:36,170 --> 00:54:33,119

group who are concealing the actual

1574

00:54:38,089 --> 00:54:36,180

truth about aliens being here now that

1575

00:54:41,510 --> 00:54:38,099

last statement is very very loaded right

1576
00:54:43,490 --> 00:54:41,520
and and it your mileage may vary but if

1577
00:54:45,530 --> 00:54:43,500
that is true and there is a somewhat

1578
00:54:47,270 --> 00:54:45,540
Breakaway like little civilization group

1579
00:54:49,690 --> 00:54:47,280
of people with this technology studying

1580
00:54:52,370 --> 00:54:49,700
it it amounts to

1581
00:54:54,770 --> 00:54:52,380
possibly the the most astounding smoke

1582
00:54:56,690 --> 00:54:54,780
screen in history

1583
00:54:59,150 --> 00:54:56,700
not just U.S history but history

1584
00:55:02,930 --> 00:54:59,160
entirely in terms of human race

1585
00:55:05,630 --> 00:55:02,940
100 and until that time I think the last

1586
00:55:07,250 --> 00:55:05,640
week in general it's been a little bit

1587
00:55:08,690 --> 00:55:07,260
overblown in terms of reaction and

1588
00:55:10,309 --> 00:55:08,700

conversation and what's come from it

1589

00:55:12,290 --> 00:55:10,319

ultimately we have a little bit of

1590

00:55:15,710 --> 00:55:12,300

confirmation on a very mysterious

1591

00:55:17,329 --> 00:55:15,720

document uh which is a kind of a small

1592

00:55:18,710 --> 00:55:17,339

win for the good guys I think for those

1593

00:55:21,170 --> 00:55:18,720

of us who support the documents

1594

00:55:22,849 --> 00:55:21,180

legitimacy yes one of the names on there

1595

00:55:25,010 --> 00:55:22,859

has come out and said yep I you know I

1596

00:55:26,870 --> 00:55:25,020

vouch for Eric Davis and Admiral Thomas

1597

00:55:28,730 --> 00:55:26,880

Wilson does indeed know me so that's

1598

00:55:30,530 --> 00:55:28,740

that was good to hear because again it

1599

00:55:32,690 --> 00:55:30,540

goes down to really basically Oak

1600

00:55:35,270 --> 00:55:32,700

Shannon's lying or Admiral Thomas

1601
00:55:37,430 --> 00:55:35,280
Wilson's line and yeah and the argument

1602
00:55:40,370 --> 00:55:37,440
around the Wilson Davis memo

1603
00:55:42,349 --> 00:55:40,380
Admiral Thomas Wilson right now the the

1604
00:55:44,210 --> 00:55:42,359
evidence very much leans towards him

1605
00:55:47,569 --> 00:55:44,220
being the one who is is not being

1606
00:55:49,490 --> 00:55:47,579
truthful but understandably so so yeah

1607
00:55:50,990 --> 00:55:49,500
um Dan let's in the time I've got left

1608
00:55:52,670 --> 00:55:51,000
because we're going almost an hour now

1609
00:55:54,230 --> 00:55:52,680
once the the J stuff has been in as well

1610
00:55:56,750 --> 00:55:54,240
so we'll run through some other nose

1611
00:55:59,210 --> 00:55:56,760
pieces uh kind of short form

1612
00:56:02,510 --> 00:55:59,220
um first one the logo situation so

1613
00:56:05,349 --> 00:56:02,520

recently the Nim Aviation logo which is

1614

00:56:07,910 --> 00:56:05,359

an official DOD Department

1615

00:56:10,790 --> 00:56:07,920

Department under the I want to say the

1616

00:56:12,950 --> 00:56:10,800

National Intelligence uh odni early

1617

00:56:14,390 --> 00:56:12,960

office Director of National Intelligence

1618

00:56:16,250 --> 00:56:14,400

there you go so many acronyms to

1619

00:56:17,510 --> 00:56:16,260

remember there's too many to remember to

1620

00:56:18,650 --> 00:56:17,520

the point nobody just throw stuff out

1621

00:56:20,450 --> 00:56:18,660

there and sometimes I'm right and

1622

00:56:23,270 --> 00:56:20,460

sometimes I'm not

1623

00:56:25,430 --> 00:56:23,280

um but yeah they really start a logo uh

1624

00:56:26,630 --> 00:56:25,440

a new kind of patch type effort and

1625

00:56:28,069 --> 00:56:26,640

these things have always got kind of

1626
00:56:30,109 --> 00:56:28,079
crazy designs and you do some of these

1627
00:56:31,670 --> 00:56:30,119
yourself don't you but when you're with

1628
00:56:33,770 --> 00:56:31,680
an official government and you release

1629
00:56:35,750 --> 00:56:33,780
one on your website which has several

1630
00:56:37,849 --> 00:56:35,760
different types of aircraft prototypes

1631
00:56:40,670 --> 00:56:37,859
drones all that kind of stuff but in the

1632
00:56:42,890 --> 00:56:40,680
bottom left a great big Flying Saucer um

1633
00:56:44,809 --> 00:56:42,900
kicking about it certainly is going to

1634
00:56:47,270 --> 00:56:44,819
raise some eyebrows now

1635
00:56:48,530 --> 00:56:47,280
done very quickly what did you make of

1636
00:56:50,030 --> 00:56:48,540
the whole situation because we talked

1637
00:56:51,770 --> 00:56:50,040
about it from early on and we're

1638
00:56:54,710 --> 00:56:51,780

relatively skeptical about what it may

1639

00:56:57,049 --> 00:56:54,720

or may not be yeah right from the get-go

1640

00:56:58,910 --> 00:56:57,059

I was pretty skeptical uh you know

1641

00:57:00,710 --> 00:56:58,920

things like that they make me narrow my

1642

00:57:02,630 --> 00:57:00,720

eyes because I'm like yeah it looks too

1643

00:57:03,829 --> 00:57:02,640

good to be true they usually are you

1644

00:57:06,589 --> 00:57:03,839

know I thought you were going to say

1645

00:57:08,030 --> 00:57:06,599

poor resolution but that was a bad joke

1646

00:57:09,349 --> 00:57:08,040

and and there were there were two

1647

00:57:11,630 --> 00:57:09,359

different logos on the website as well

1648

00:57:13,430 --> 00:57:11,640

with two different UFO sources yeah in

1649

00:57:15,230 --> 00:57:13,440

them as well so clearly one of them was

1650

00:57:17,809 --> 00:57:15,240

a draft everything was misaligned and

1651
00:57:19,910 --> 00:57:17,819
and people immediately just you know

1652
00:57:22,609 --> 00:57:19,920
went diving in about what it could mean

1653
00:57:24,470 --> 00:57:22,619
the US government and the military has a

1654
00:57:26,270 --> 00:57:24,480
history of having some rather esoteric

1655
00:57:27,650 --> 00:57:26,280
symbolism on their patches and I've

1656
00:57:29,150 --> 00:57:27,660
learned being fortunate to learn that

1657
00:57:30,950 --> 00:57:29,160
working with people like Tim McMillan

1658
00:57:33,470 --> 00:57:30,960
the journalist uh he he has a

1659
00:57:35,510 --> 00:57:33,480
particularly affinity for patches and

1660
00:57:37,609 --> 00:57:35,520
the the kind of semiotics that are on

1661
00:57:39,230 --> 00:57:37,619
them you know the symbology

1662
00:57:40,910 --> 00:57:39,240
and so

1663
00:57:43,069 --> 00:57:40,920

I can confidently say there is a history

1664

00:57:44,750 --> 00:57:43,079

of the US government having aliens on

1665

00:57:46,910 --> 00:57:44,760

their patches and things like that yeah

1666

00:57:48,589 --> 00:57:46,920

but in more of a cutie way never in a

1667

00:57:50,089 --> 00:57:48,599

this is the official Insignia of the

1668

00:57:51,530 --> 00:57:50,099

department it's more of a you know

1669

00:57:53,089 --> 00:57:51,540

soldiers to soldiers on a particular

1670

00:57:54,470 --> 00:57:53,099

Mission or you know something like that

1671

00:57:56,150 --> 00:57:54,480

they'll have a tongue-in-cheek patch

1672

00:57:58,670 --> 00:57:56,160

that isn't necessarily official but it

1673

00:58:02,150 --> 00:57:58,680

kind of is internally you know

1674

00:58:03,710 --> 00:58:02,160

my inclination is that this patch

1675

00:58:06,530 --> 00:58:03,720

because you can buy it online from a

1676

00:58:08,569 --> 00:58:06,540

reputable patch Creator uh that only

1677

00:58:12,170 --> 00:58:08,579

deals in military patches

1678

00:58:14,569 --> 00:58:12,180

that it's more of an internal thing it

1679

00:58:16,309 --> 00:58:14,579

being put up online could be a multitude

1680

00:58:17,809 --> 00:58:16,319

of things it brings me to thinking about

1681

00:58:19,430 --> 00:58:17,819

we always talk about the human element

1682

00:58:22,730 --> 00:58:19,440

in these things you know ultimately we

1683

00:58:26,630 --> 00:58:22,740

have someone probably that they're a

1684

00:58:28,309 --> 00:58:26,640

career professional uh civil servant and

1685

00:58:30,109 --> 00:58:28,319

they might click the wrong thing when

1686

00:58:31,970 --> 00:58:30,119

they're uploading like a new logo to a

1687

00:58:33,290 --> 00:58:31,980

website or something like that there are

1688

00:58:35,510 --> 00:58:33,300

a whole load of other broken links on

1689

00:58:37,190 --> 00:58:35,520

the website as well so it's not like the

1690

00:58:39,349 --> 00:58:37,200

website was particularly functional and

1691

00:58:42,410 --> 00:58:39,359

finished and things like that

1692

00:58:44,329 --> 00:58:42,420

um but it did shed light on the fact

1693

00:58:46,490 --> 00:58:44,339

that

1694

00:58:48,530 --> 00:58:46,500

can you hear the I I can hear the ice

1695

00:58:50,390 --> 00:58:48,540

cream van coming here then government

1696

00:58:51,410 --> 00:58:50,400

has information on its way yeah it is

1697

00:58:53,210 --> 00:58:51,420

yeah yeah

1698

00:58:55,670 --> 00:58:53,220

um Okay so

1699

00:58:59,150 --> 00:58:55,680

oh the ice cream van totally threw me uh

1700

00:59:00,710 --> 00:58:59,160

yeah so so Tim McMillan said that name a

1701
00:59:02,390 --> 00:59:00,720
is just being cute and the patch means

1702
00:59:04,549 --> 00:59:02,400
they gather intelligence on All Foreign

1703
00:59:06,770 --> 00:59:04,559
Aerospace platforms including unknowns

1704
00:59:08,809 --> 00:59:06,780
yep people correctly pointed out that a

1705
00:59:12,049 --> 00:59:08,819
few months back Lou alizondo made an

1706
00:59:14,030 --> 00:59:12,059
allusions to this department name a

1707
00:59:16,250 --> 00:59:14,040
actually having a big impact on the

1708
00:59:17,630 --> 00:59:16,260
discussion of UAP and and it wasn't

1709
00:59:20,089 --> 00:59:17,640
clear what that was and a lot of people

1710
00:59:21,950 --> 00:59:20,099
thought oh is it this logo it turns out

1711
00:59:24,530 --> 00:59:21,960
no it's not the logo uh Lou was talking

1712
00:59:26,990 --> 00:59:24,540
about General Dan Simpson and referring

1713
00:59:30,650 --> 00:59:27,000

to the early actions that would lead aoi

1714

00:59:33,170 --> 00:59:30,660

MSG the previous incarnation of the UAP

1715

00:59:36,230 --> 00:59:33,180

office to become Arrow which is what it

1716

00:59:37,430 --> 00:59:36,240

is now which meant that Nim a had to now

1717

00:59:39,710 --> 00:59:37,440

be part of the loop for National

1718

00:59:40,970 --> 00:59:39,720

Intelligence estimates on UAP so

1719

00:59:43,010 --> 00:59:40,980

essentially

1720

00:59:45,170 --> 00:59:43,020

it could be a mistake or it could be

1721

00:59:46,789 --> 00:59:45,180

something popped up to say to the public

1722

00:59:48,470 --> 00:59:46,799

hey this is where you need to look we're

1723

00:59:49,789 --> 00:59:48,480

overseeing this whole thing they were

1724

00:59:51,530 --> 00:59:49,799

the ones that helped prepare the report

1725

00:59:54,470 --> 00:59:51,540

that's probably where the next report

1726
00:59:55,789 --> 00:59:54,480
will be on that website so we're all now

1727
00:59:56,809 --> 00:59:55,799
on the same page looking in the right

1728
00:59:58,490 --> 00:59:56,819
direction

1729
01:00:01,970 --> 00:59:58,500
yeah I've got nothing to add to that one

1730
01:00:03,589 --> 01:00:01,980
it was interesting it was no way shape

1731
01:00:05,089 --> 01:00:03,599
or form the kind of sinister thing

1732
01:00:06,890 --> 01:00:05,099
people thought it was or people

1733
01:00:09,230 --> 01:00:06,900
overlooked into it that it's more of an

1734
01:00:12,109 --> 01:00:09,240
admission and drip feed it's just it was

1735
01:00:14,510 --> 01:00:12,119
a logo and it was genuine but you know

1736
01:00:15,829 --> 01:00:14,520
it is what it is and it's kind of all

1737
01:00:17,329 --> 01:00:15,839
blown over now

1738
01:00:20,870 --> 01:00:17,339

um next what was the statement they put

1739

01:00:22,130 --> 01:00:20,880

out uh erroneously that's it and that

1740

01:00:25,069 --> 01:00:22,140

could mean anything it just could mean

1741

01:00:27,410 --> 01:00:25,079

that Karen you know uploaded it wrong

1742

01:00:31,010 --> 01:00:27,420

um or if you want to go to the other end

1743

01:00:34,069 --> 01:00:31,020

of the scale that we we've heard for

1744

01:00:35,150 --> 01:00:34,079

years now that within the dod there are

1745

01:00:37,309 --> 01:00:35,160

people who want this out and there are

1746

01:00:38,630 --> 01:00:37,319

people that want to keep this secret we

1747

01:00:40,490 --> 01:00:38,640

could have just seen a little scuffle

1748

01:00:42,289 --> 01:00:40,500

between two people who were on either

1749

01:00:44,150 --> 01:00:42,299

side of that fence someone posted the

1750

01:00:46,069 --> 01:00:44,160

logo someone took it down

1751

01:00:47,630 --> 01:00:46,079

yeah 100

1752

01:00:49,730 --> 01:00:47,640

um there was also some other updates

1753

01:00:51,650 --> 01:00:49,740

very quickly uh Ronnie vernay Brazilian

1754

01:00:53,809 --> 01:00:51,660

journalist who's been dealing with the

1755

01:00:55,370 --> 01:00:53,819

updates on the hearing so that happened

1756

01:00:57,049 --> 01:00:55,380

to Citizen type hearings that happened

1757

01:00:58,670 --> 01:00:57,059

some time ago in Brazil

1758

01:01:00,109 --> 01:00:58,680

um I asked him if there was any news on

1759

01:01:02,210 --> 01:01:00,119

potential hearings happening in

1760

01:01:03,710 --> 01:01:02,220

Brazilian Parliament Congress and he

1761

01:01:05,690 --> 01:01:03,720

said everything's on hold just now

1762

01:01:07,430 --> 01:01:05,700

because elections are due in Brazil

1763

01:01:09,530 --> 01:01:07,440

through October so there'll be nothing

1764

01:01:11,270 --> 01:01:09,540

till November at the earliest and again

1765

01:01:13,549 --> 01:01:11,280

we know what happens when things change

1766

01:01:15,950 --> 01:01:13,559

in terms of leadership and local and

1767

01:01:17,329 --> 01:01:15,960

international election then yeah that

1768

01:01:19,010 --> 01:01:17,339

that could put things on hold for a

1769

01:01:20,630 --> 01:01:19,020

little bit longer as well so anyone

1770

01:01:22,069 --> 01:01:20,640

wondering about the Brazilian hearings

1771

01:01:25,250 --> 01:01:22,079

and elections if you've been in touch

1772

01:01:26,630 --> 01:01:25,260

that's why so yep uh nothing more to say

1773

01:01:31,549 --> 01:01:26,640

on that one

1774

01:01:33,950 --> 01:01:31,559

um Dan the dot Mission recently we

1775

01:01:35,890 --> 01:01:33,960

smashed an asteroid to bits which sounds

1776

01:01:39,230 --> 01:01:35,900

like a great idea

1777

01:01:41,170 --> 01:01:39,240

well we didn't smash it a bit uh you

1778

01:01:43,849 --> 01:01:41,180

know I've seen that I can't remember

1779

01:01:46,609 --> 01:01:43,859

yeah if we blew the asteroid up we turn

1780

01:01:49,910 --> 01:01:46,619

into the other asteroids but the idea

1781

01:01:52,430 --> 01:01:49,920

was that we could hit an asteroid with a

1782

01:01:53,870 --> 01:01:52,440

spacecraft and change its trajectory so

1783

01:01:55,309 --> 01:01:53,880

if we can see that an asteroid was going

1784

01:01:57,049 --> 01:01:55,319

to hit us we could just send a

1785

01:01:58,849 --> 01:01:57,059

spacecraft up to hit it onto a different

1786

01:02:01,549 --> 01:01:58,859

path and then problem solved is not

1787

01:02:02,990 --> 01:02:01,559

going to hit us better than sending or

1788

01:02:06,470 --> 01:02:03,000

training oil

1789

01:02:09,289 --> 01:02:06,480

rig workers as uh as astronauts thanks

1790

01:02:11,990 --> 01:02:09,299

Michael Bay but yeah they they sent it

1791

01:02:14,930 --> 01:02:12,000

up it hit properly uh you know the video

1792

01:02:17,150 --> 01:02:14,940

is available online and it's a really

1793

01:02:19,970 --> 01:02:17,160

amazing feat imagine throwing a dart

1794

01:02:22,190 --> 01:02:19,980

10.5 million kilometers to hit a Target

1795

01:02:24,349 --> 01:02:22,200

that's 160 meters wide while traveling

1796

01:02:25,490 --> 01:02:24,359

at 22 000 miles an hour as I jokingly

1797

01:02:26,690 --> 01:02:25,500

said the other day we still have people

1798

01:02:28,670 --> 01:02:26,700

on Earth that can't even Park between

1799

01:02:31,490 --> 01:02:28,680

two white lines yet NASA are there doing

1800

01:02:33,650 --> 01:02:31,500

that uh it's impressive we we don't know

1801
01:02:35,630 --> 01:02:33,660
we know that it moved the asteroid about

1802
01:02:37,970 --> 01:02:35,640
17 meters we don't know if that's enough

1803
01:02:39,589 --> 01:02:37,980
to make it you know shift off its path

1804
01:02:41,329 --> 01:02:39,599
enough that it wouldn't hit us if it was

1805
01:02:43,069 --> 01:02:41,339
going to but we'll find out over the

1806
01:02:45,410 --> 01:02:43,079
next few months but the cool thing was

1807
01:02:47,270 --> 01:02:45,420
that it was the one of the very first

1808
01:02:49,370 --> 01:02:47,280
targets that the Hubble telescope and

1809
01:02:51,349 --> 01:02:49,380
the James Webb Telescope simultaneously

1810
01:02:54,230 --> 01:02:51,359
looked at at the same time which you

1811
01:02:56,270 --> 01:02:54,240
know kind of a cool nerd Factor so if

1812
01:02:58,010 --> 01:02:56,280
that asteroid had any reason to think it

1813
01:02:59,930 --> 01:02:58,020

was being picked on it would be correct

1814

01:03:02,089 --> 01:02:59,940

because we looked at it with several

1815

01:03:03,589 --> 01:03:02,099

telescopes and launched launched our

1816

01:03:05,089 --> 01:03:03,599

projectile after but yeah the video was

1817

01:03:07,309 --> 01:03:05,099

really cool and I always think it's

1818

01:03:09,950 --> 01:03:07,319

amazing that we can get those images

1819

01:03:11,690 --> 01:03:09,960

back so clearly and from the distance

1820

01:03:13,010 --> 01:03:11,700

they have to travel and it's one of

1821

01:03:15,829 --> 01:03:13,020

those you know when folks complain about

1822

01:03:17,809 --> 01:03:15,839

the quality of like CCTV images and you

1823

01:03:20,390 --> 01:03:17,819

think yeah we're sending back HD

1824

01:03:21,890 --> 01:03:20,400

pictures from you know spacecraft are

1825

01:03:23,809 --> 01:03:21,900

millions of miles away it's incredible

1826

01:03:25,490 --> 01:03:23,819

but yeah we do have to remember that

1827

01:03:28,549 --> 01:03:25,500

that was so there was like a 30 second

1828

01:03:31,490 --> 01:03:28,559

delay yeah and it was sending back still

1829

01:03:32,930 --> 01:03:31,500

frames that were kind of amassed into so

1830

01:03:34,789 --> 01:03:32,940

you know if that camera had been

1831

01:03:36,829 --> 01:03:34,799

recording crime the police would not

1832

01:03:38,089 --> 01:03:36,839

know for at least 30 seconds and the

1833

01:03:39,710 --> 01:03:38,099

criminals would be gone by the time they

1834

01:03:43,670 --> 01:03:39,720

got there so you know better definition

1835

01:03:44,569 --> 01:03:43,680

but yeah yeah not not better it's still

1836

01:03:46,430 --> 01:03:44,579

pretty cool though and it's something

1837

01:03:48,410 --> 01:03:46,440

that again planetary defense people talk

1838

01:03:49,730 --> 01:03:48,420

about not to go on about it but it's

1839

01:03:51,170 --> 01:03:49,740

it's one of those kind of pressing

1840

01:03:53,569 --> 01:03:51,180

issues that if there was something

1841

01:03:55,430 --> 01:03:53,579

heading our way then yeah we do want to

1842

01:03:57,349 --> 01:03:55,440

be doing this kind of stuff and I don't

1843

01:03:59,150 --> 01:03:57,359

think again to take it back to UFOs

1844

01:04:01,010 --> 01:03:59,160

there was anything necessarily in this

1845

01:04:02,990 --> 01:04:01,020

that were defending against anything

1846

01:04:04,910 --> 01:04:03,000

coming at us because I'm sure any

1847

01:04:07,970 --> 01:04:04,920

sufficiently advanced technology would

1848

01:04:09,890 --> 01:04:07,980

be able to Dart out the way of some kind

1849

01:04:12,890 --> 01:04:09,900

of satellite slash probe being launched

1850

01:04:14,150 --> 01:04:12,900

at it from a great distance yeah so yeah

1851

01:04:15,710 --> 01:04:14,160

they're coming right and they just go

1852

01:04:17,030 --> 01:04:15,720

yeah we're just gonna swap that away

1853

01:04:19,309 --> 01:04:17,040

whatever it is that you're trying to

1854

01:04:21,950 --> 01:04:19,319

degree let it pass through a transition

1855

01:04:24,349 --> 01:04:21,960

style but yeah there we go

1856

01:04:25,730 --> 01:04:24,359

um Dan James Webb James Webb sorry I'm

1857

01:04:28,789 --> 01:04:25,740

James Fox and I thought we'll get to

1858

01:04:31,609 --> 01:04:28,799

James Webb James Fox has his moment of

1859

01:04:33,410 --> 01:04:31,619

contact World premiere on the 17th of

1860

01:04:34,789 --> 01:04:33,420

October if you've got the details from

1861

01:04:37,609 --> 01:04:34,799

that because people can still buy

1862

01:04:39,170 --> 01:04:37,619

tickets yeah so I'll make sure that the

1863

01:04:41,630 --> 01:04:39,180

link is in the description

1864

01:04:44,569 --> 01:04:41,640

um it's October 17th at the Regal LA

1865

01:04:46,789 --> 01:04:44,579

Live Theater it's followed by a q a with

1866

01:04:47,809 --> 01:04:46,799

James if it does well they're going to

1867

01:04:49,609 --> 01:04:47,819

expand it to different screens so

1868

01:04:52,010 --> 01:04:49,619

hopefully it'll be able to be kind of I

1869

01:04:53,809 --> 01:04:52,020

think they call it simulcasting uh on

1870

01:04:56,030 --> 01:04:53,819

the east and west coast and it's

1871

01:04:57,890 --> 01:04:56,040

actually I feel great for James because

1872

01:04:59,329 --> 01:04:57,900

I know how disappointed he was that the

1873

01:05:00,589 --> 01:04:59,339

phenomena didn't get a Silver Screen

1874

01:05:02,329 --> 01:05:00,599

release and it would have been really

1875

01:05:03,890 --> 01:05:02,339

cool to see that in the cinema and take

1876

01:05:06,470 --> 01:05:03,900

some friends along to see it if I

1877

01:05:08,150 --> 01:05:06,480

could agree with it yeah exactly you

1878

01:05:09,650 --> 01:05:08,160

know no one's fault so so it's really

1879

01:05:11,210 --> 01:05:09,660

wonderful to see that James is going to

1880

01:05:13,549 --> 01:05:11,220

get to present it properly and to talk

1881

01:05:15,589 --> 01:05:13,559

about it and then just to touch on you

1882

01:05:17,930 --> 01:05:15,599

know there's been some rumors that while

1883

01:05:21,170 --> 01:05:17,940

James was out there filming it that he

1884

01:05:23,809 --> 01:05:21,180

came across some footage of the beings

1885

01:05:25,430 --> 01:05:23,819

that were recovered someone on Twitter

1886

01:05:27,470 --> 01:05:25,440

posted and you know pinch assault

1887

01:05:29,390 --> 01:05:27,480

because social media is social media but

1888

01:05:34,130 --> 01:05:29,400

yeah they posted that there's currently

1889

01:05:37,430 --> 01:05:34,140

A 200k Plus offer uh out there monetary

1890

01:05:40,010 --> 01:05:37,440

offer for that person to hand over their

1891

01:05:42,289 --> 01:05:40,020

video of the creature and you know all

1892

01:05:44,089 --> 01:05:42,299

their materials apparently the film was

1893

01:05:45,069 --> 01:05:44,099

shown to James Fox's business partner

1894

01:05:48,890 --> 01:05:45,079

Marco

1895

01:05:51,650 --> 01:05:48,900

and uh yeah we've just got to hope that

1896

01:05:53,210 --> 01:05:51,660

the person goes for it it's

1897

01:05:54,890 --> 01:05:53,220

it's a little disappointing to see that

1898

01:05:56,930 --> 01:05:54,900

the person wants money for it especially

1899

01:05:59,390 --> 01:05:56,940

after you know the we got the Calvin

1900

01:06:00,589 --> 01:05:59,400

photo and that person was so altruistic

1901

01:06:01,910 --> 01:06:00,599

whether he just wanted to make sure it

1902

01:06:05,150 --> 01:06:01,920

was an archive where everyone could see

1903

01:06:07,250 --> 01:06:05,160

it well well does the person actually

1904

01:06:08,990 --> 01:06:07,260

want money or is the money a carrot

1905

01:06:10,789 --> 01:06:09,000

being offered but the persons may be

1906

01:06:13,130 --> 01:06:10,799

nervous or worried about you know giving

1907

01:06:15,349 --> 01:06:13,140

up the footage yeah that's a fair and it

1908

01:06:17,450 --> 01:06:15,359

may even be that yeah I I would give you

1909

01:06:19,670 --> 01:06:17,460

or I would I'll take 200 Grand but it's

1910

01:06:21,230 --> 01:06:19,680

not worth my life potentially again it's

1911

01:06:22,309 --> 01:06:21,240

that immunity language we're talking

1912

01:06:24,230 --> 01:06:22,319

about going into legislations

1913

01:06:26,029 --> 01:06:24,240

whistleblowers coming forward it's not

1914

01:06:27,589 --> 01:06:26,039

just yeah I'll hand over the video for

1915

01:06:29,870 --> 01:06:27,599

200 Grand but

1916

01:06:31,849 --> 01:06:29,880

or dvd who knows but it'll be a video

1917

01:06:35,210 --> 01:06:31,859

wouldn't it so yeah well apparently the

1918

01:06:36,829 --> 01:06:35,220

the video shows uh a being lying on a

1919

01:06:38,630 --> 01:06:36,839

stretcher inside a hospital in hospital

1920

01:06:40,730 --> 01:06:38,640

in Virginia in the presence of a

1921

01:06:42,289 --> 01:06:40,740

well-known doctor in the city

1922

01:06:44,329 --> 01:06:42,299

so it could be the doctor that has it

1923

01:06:46,730 --> 01:06:44,339

and you know like you say there is more

1924

01:06:48,589 --> 01:06:46,740

on the line than just just releasing a

1925

01:06:50,809 --> 01:06:48,599

video here you know we wouldn't say any

1926

01:06:52,430 --> 01:06:50,819

more on moment of contact Dan and I have

1927

01:06:54,470 --> 01:06:52,440

an advanced screener of it thank you

1928

01:06:56,510 --> 01:06:54,480

very much to James and his people

1929

01:06:58,430 --> 01:06:56,520

um we'll record a review which will be

1930

01:07:01,430 --> 01:06:58,440

released uh we'll probably release it

1931

01:07:03,049 --> 01:07:01,440

the day after the the premiere or once

1932

01:07:05,450 --> 01:07:03,059

it's released online for people to watch

1933

01:07:07,549 --> 01:07:05,460

so it'll be spoiler spoiler-filled and

1934

01:07:09,890 --> 01:07:07,559

so don't watch it until you until you've

1935

01:07:11,569 --> 01:07:09,900

seen a moment of contact anyway and then

1936

01:07:14,930 --> 01:07:11,579

James will be on the podcast I think

1937

01:07:16,789 --> 01:07:14,940

about the week after its release uh to

1938

01:07:19,010 --> 01:07:16,799

to talk about it too so look forward to

1939

01:07:21,529 --> 01:07:19,020

that towards the end of the month

1940

01:07:22,789 --> 01:07:21,539

um Dan much more from yourself you want

1941

01:07:25,130 --> 01:07:22,799

to talk about I think there was maybe a

1942

01:07:26,930 --> 01:07:25,140

couple of bits yeah so there was a there

1943

01:07:29,750 --> 01:07:26,940

was a debrief article from Tim McMillan

1944

01:07:31,789 --> 01:07:29,760

that was extremely long but I recommend

1945

01:07:33,589 --> 01:07:31,799

to everyone to go read it Tim basically

1946

01:07:35,569 --> 01:07:33,599

broke down the classification system in

1947

01:07:37,370 --> 01:07:35,579

America so if you've ever been curious

1948

01:07:38,990 --> 01:07:37,380

about what can they classify who

1949

01:07:40,250 --> 01:07:39,000

classifies it who can declassify

1950

01:07:42,349 --> 01:07:40,260

something why would something be

1951

01:07:43,849 --> 01:07:42,359

classified I do different departments

1952

01:07:46,190 --> 01:07:43,859

have different classification systems

1953

01:07:48,109 --> 01:07:46,200

this goes into all that in my new detail

1954

01:07:49,910 --> 01:07:48,119

and it's wonderful like I say it's a bit

1955

01:07:52,670 --> 01:07:49,920

long I won't summarize it just because

1956

01:07:55,910 --> 01:07:52,680

it is well well worth people's time to

1957

01:07:58,010 --> 01:07:55,920

look at but my takeaway from it was that

1958

01:08:00,170 --> 01:07:58,020

the president can declassify anything

1959

01:08:02,210 --> 01:08:00,180

except

1960

01:08:04,250 --> 01:08:02,220

things related to nuclear secrets

1961

01:08:06,710 --> 01:08:04,260

anything that's related to nuclear

1962

01:08:08,089 --> 01:08:06,720

secrets uh the only the president's only

1963

01:08:10,549 --> 01:08:08,099

role there would be to act as a

1964

01:08:12,650 --> 01:08:10,559

tiebreaker to declassify a nuclear

1965

01:08:15,289 --> 01:08:12,660

secret it takes a will of an act of

1966

01:08:17,150 --> 01:08:15,299

Congress as well as that being headed up

1967

01:08:18,470 --> 01:08:17,160

by the department of energy and I know a

1968

01:08:19,610 --> 01:08:18,480

few people's ears are going to prick up

1969

01:08:22,910 --> 01:08:19,620

and we say in the department of energy

1970

01:08:25,550 --> 01:08:22,920

but yeah anything related to nuclear

1971

01:08:27,349 --> 01:08:25,560

secrets would be held by the doe and by

1972

01:08:29,209 --> 01:08:27,359

Congress

1973

01:08:30,950 --> 01:08:29,219

they would have to act with legislation

1974

01:08:32,749 --> 01:08:30,960

to get that out

1975

01:08:35,090 --> 01:08:32,759

it's also interesting that Tim mentioned

1976

01:08:36,289 --> 01:08:35,100

something called fogbank so we we often

1977

01:08:38,809 --> 01:08:36,299

talk about

1978

01:08:40,789 --> 01:08:38,819

you know within the 40s Roswell happens

1979

01:08:42,410 --> 01:08:40,799

and they've got all this material what's

1980

01:08:45,229 --> 01:08:42,420

the likelihood that they still have that

1981

01:08:47,749 --> 01:08:45,239

material now and the example of fog Bank

1982

01:08:49,610 --> 01:08:47,759

was included was basically it was a it

1983

01:08:52,550 --> 01:08:49,620

was a material that was used in

1984

01:08:54,650 --> 01:08:52,560

manufacturing nuclear weapons and it was

1985

01:08:57,709 --> 01:08:54,660

guarded by such a heavy level heavy

1986

01:08:59,570 --> 01:08:57,719

level of secrecy that by the time they

1987

01:09:01,309 --> 01:08:59,580

ran out of said material they went back

1988

01:09:03,229 --> 01:09:01,319

to kind of get the ingredient list and

1989

01:09:04,849 --> 01:09:03,239

the methods and it was gone no one knew

1990

01:09:06,709 --> 01:09:04,859

how to make it so they kind of had to

1991

01:09:10,010 --> 01:09:06,719

reverse engineer this and and remember

1992

01:09:11,570 --> 01:09:10,020

this is It's nuclear Associated so these

1993

01:09:15,110 --> 01:09:11,580

are hazardous materials this is

1994

01:09:17,809 --> 01:09:15,120

dangerous work and even that was lost to

1995

01:09:19,430 --> 01:09:17,819

time so it makes you wonder you know

1996

01:09:21,349 --> 01:09:19,440

what what else has kind of been lost at

1997

01:09:23,570 --> 01:09:21,359

last a time

1998

01:09:25,729 --> 01:09:23,580

um but yeah it's a long article I highly

1999

01:09:26,570 --> 01:09:25,739

recommend people go read it for me at

2000

01:09:29,510 --> 01:09:26,580

least

2001

01:09:30,289 --> 01:09:29,520

it emphasizes that nuclear is the issue

2002

01:09:31,849 --> 01:09:30,299

here

2003

01:09:33,709 --> 01:09:31,859

um Lewis said that before on podcast

2004

01:09:35,689 --> 01:09:33,719

that he can't talk about nuclear things

2005

01:09:37,849 --> 01:09:35,699

because they're so heavily guarded and

2006

01:09:40,070 --> 01:09:37,859

this is a good guide to why

2007

01:09:42,709 --> 01:09:40,080

um Tim finished it off with with the

2008

01:09:45,349 --> 01:09:42,719

saying from GI Joe which he says knowing

2009

01:09:47,030 --> 01:09:45,359

is half the battle uh which is very true

2010

01:09:49,370 --> 01:09:47,040

I think that was a great way to end it

2011

01:09:50,689 --> 01:09:49,380

and yeah go read it

2012

01:09:52,550 --> 01:09:50,699

um the other thing would be to say that

2013

01:09:53,870 --> 01:09:52,560

there are no Above Top Secret or Cosmic

2014

01:09:55,370 --> 01:09:53,880

clearances like some people have said

2015

01:09:57,169 --> 01:09:55,380

over the years they just don't exist

2016

01:10:00,470 --> 01:09:57,179

it's kind of like a registration that's

2017

01:10:02,390 --> 01:10:00,480

what they see but yeah they

2018

01:10:05,090 --> 01:10:02,400

um yeah kind of like a registration on a

2019

01:10:06,770 --> 01:10:05,100

car each part of a classification will

2020

01:10:08,870 --> 01:10:06,780

have a meaning it'll tell you where it's

2021

01:10:10,790 --> 01:10:08,880

from who's done it who has the authority

2022

01:10:12,650 --> 01:10:10,800

to kind of change it and yeah it was

2023

01:10:14,689 --> 01:10:12,660

really interesting everyone should go

2024

01:10:17,570 --> 01:10:14,699

read it then the other thing

2025

01:10:19,370 --> 01:10:17,580

was Travis Taylor who uh you know he's

2026

01:10:20,990 --> 01:10:19,380

in skin walk around she came out as one

2027

01:10:22,550 --> 01:10:21,000

of the lead scientists on the UAP task

2028

01:10:25,130 --> 01:10:22,560

force a few years ago how prepared a

2029

01:10:28,550 --> 01:10:25,140

report he was a phenomena Khan

2030

01:10:31,070 --> 01:10:28,560

phenomicon at Vernal Utah it's been a

2031

01:10:32,630 --> 01:10:31,080

mouthful and some people put videos up

2032

01:10:34,310 --> 01:10:32,640

where they went to a q a with him

2033

01:10:35,689 --> 01:10:34,320

essentially while he ate lunch they

2034

01:10:37,370 --> 01:10:35,699

asked him questions and he just answered

2035

01:10:38,990 --> 01:10:37,380

them uh looked like a bit of awkward

2036

01:10:40,550 --> 01:10:39,000

setup to me I can't imagine being

2037

01:10:43,990 --> 01:10:40,560

comfortable with people just asking me

2038

01:10:49,070 --> 01:10:47,209

that was his break but

2039

01:10:50,810 --> 01:10:49,080

um but yeah there were a few things in

2040

01:10:52,669 --> 01:10:50,820

there that were really interesting so

2041

01:10:54,410 --> 01:10:52,679

Travis mentioned that Bigelow supposedly

2042

01:10:56,030 --> 01:10:54,420

sold the ranch because he was convinced

2043

01:10:58,610 --> 01:10:56,040

that it killed his wife

2044

01:11:01,390 --> 01:10:58,620

how true is that I don't know but fairly

2045

01:11:04,310 --> 01:11:01,400

heavy right yeah uh he he said that

2046

01:11:05,930 --> 01:11:04,320

Travis and uh Axelrod who we're starting

2047

01:11:08,750 --> 01:11:05,940

to kind of get an idea of maybe being

2048

01:11:10,550 --> 01:11:08,760

Jay Stratton that they had events happen

2049

01:11:12,410 --> 01:11:10,560

within literal microseconds of each

2050

01:11:14,149 --> 01:11:12,420

other at different locations and we're

2051

01:11:17,149 --> 01:11:14,159

talking hitchhiker events now like

2052

01:11:19,310 --> 01:11:17,159

weirdness so there might be something to

2053

01:11:21,110 --> 01:11:19,320

you know the event happening at the same

2054

01:11:23,090 --> 01:11:21,120

time in different locations that you

2055

01:11:24,830 --> 01:11:23,100

know we're talking Windows maybe where

2056

01:11:26,090 --> 01:11:24,840

interaction can be heightened and things

2057

01:11:28,550 --> 01:11:26,100

like that

2058

01:11:30,649 --> 01:11:28,560

a neighbor of axelrods had an orb fly

2059

01:11:32,570 --> 01:11:30,659

through them uh they got a dangerous

2060

01:11:34,010 --> 01:11:32,580

form of cancer and Travis said she

2061

01:11:35,030 --> 01:11:34,020

thinks he thinks she survived but she

2062

01:11:36,350 --> 01:11:35,040

had to go through a whole load of

2063

01:11:38,870 --> 01:11:36,360

dangerous chemo to get rid of it

2064

01:11:40,250 --> 01:11:38,880

apparently Bigelow didn't have great

2065

01:11:42,709 --> 01:11:40,260

equipment when they showed up on the

2066

01:11:45,169 --> 01:11:42,719

ranch it was more weird experiments like

2067

01:11:47,149 --> 01:11:45,179

they found fish tanks with cubes you

2068

01:11:49,910 --> 01:11:47,159

know those kind of kid letter kid letter

2069

01:11:51,709 --> 01:11:49,920

cubes yeah inside uh you got to think

2070

01:11:53,149 --> 01:11:51,719

you know they're separating them from

2071

01:11:54,830 --> 01:11:53,159

the outside world so that there's no

2072

01:11:56,630 --> 01:11:54,840

interaction and if they move that's a

2073

01:11:59,149 --> 01:11:56,640

kind of communication signal so it's

2074

01:12:01,189 --> 01:11:59,159

interesting that it was so um so low

2075

01:12:02,990 --> 01:12:01,199

Tech you know Bigelow seems very

2076

01:12:04,610 --> 01:12:03,000

different to Brandon fugle who's kind of

2077

01:12:07,130 --> 01:12:04,620

set up all these really extensive

2078

01:12:08,750 --> 01:12:07,140

systems and employed all these really

2079

01:12:10,250 --> 01:12:08,760

wonderful scientists and basically said

2080

01:12:11,930 --> 01:12:10,260

you know you've got to justify it but

2081

01:12:13,490 --> 01:12:11,940

money is no object if you can explain to

2082

01:12:15,649 --> 01:12:13,500

me why you want this piece of equipment

2083

01:12:16,910 --> 01:12:15,659

uh Bigelow it doesn't seem like he he

2084

01:12:18,950 --> 01:12:16,920

took that attack then it was a little

2085

01:12:20,990 --> 01:12:18,960

while ago you know technology hadn't

2086

01:12:23,630 --> 01:12:21,000

been quite so democratized

2087

01:12:25,370 --> 01:12:23,640

Travis also spoke about the recurrence

2088

01:12:27,350 --> 01:12:25,380

of the number 33 around the ranch

2089

01:12:28,910 --> 01:12:27,360

apparently uh with hitchhiker effects

2090

01:12:30,530 --> 01:12:28,920

and things like that which freaked me

2091

01:12:32,870 --> 01:12:30,540

out because this this video was split

2092

01:12:34,189 --> 01:12:32,880

into five parts and he said this right

2093

01:12:35,810 --> 01:12:34,199

at the end of one of the parts and I

2094

01:12:38,209 --> 01:12:35,820

went to the next video and the amount of

2095

01:12:40,550 --> 01:12:38,219

likes on the video was 33 that creeped

2096

01:12:41,990 --> 01:12:40,560

me out a little bit uh but yeah there's

2097

01:12:44,090 --> 01:12:42,000

a recurrence of numbers there you know

2098

01:12:46,189 --> 01:12:44,100

that comes up often and do you know how

2099

01:12:48,530 --> 01:12:46,199

many episodes of Skinwalker Ranch will

2100

01:12:51,110 --> 01:12:48,540

have been made by the end of season four

2101

01:12:53,810 --> 01:12:51,120

uh I don't know how many what do you

2102

01:12:55,550 --> 01:12:53,820

think it's going to be 33 isn't it it's

2103

01:12:57,229 --> 01:12:55,560

not um but yeah I just started to that

2104

01:12:58,790 --> 01:12:57,239

anyway but yeah that would have been

2105

01:13:00,290 --> 01:12:58,800

interesting apparently they're really

2106

01:13:02,149 --> 01:13:00,300

kicking things up a notch for the for

2107

01:13:04,310 --> 01:13:02,159

the next season so we'll we'll see them

2108

01:13:06,110 --> 01:13:04,320

being a lot more aggressive can I ask

2109

01:13:08,990 --> 01:13:06,120

you another yes or no question yeah sure

2110

01:13:11,689 --> 01:13:09,000

go for it okay and I said yes or no so

2111

01:13:14,649 --> 01:13:11,699

don't give me any fluff around it

2112

01:13:17,689 --> 01:13:14,659

do you see the Skinwalker Ranch program

2113

01:13:19,790 --> 01:13:17,699

going the way of our cost of Oak Island

2114

01:13:21,169 --> 01:13:19,800

type show where it never really finishes

2115

01:13:23,450 --> 01:13:21,179

and

2116

01:13:27,050 --> 01:13:23,460

they never really find anything

2117

01:13:29,209 --> 01:13:27,060

yes okay that's fine we'll continue that

2118

01:13:32,270 --> 01:13:29,219

I mean you said not to add any fluff

2119

01:13:33,649 --> 01:13:32,280

buttons that is what it is you know I I

2120

01:13:34,970 --> 01:13:33,659

guess that investigation and that's not

2121

01:13:37,070 --> 01:13:34,980

to say that the legitimacy around

2122

01:13:40,070 --> 01:13:37,080

Juventus can walk a ranch aren't real

2123

01:13:41,510 --> 01:13:40,080

which I believe 100 they are in terms of

2124

01:13:43,550 --> 01:13:41,520

a TV show though

2125

01:13:45,530 --> 01:13:43,560

yeah I think there's certain constraints

2126

01:13:48,110 --> 01:13:45,540

there but that's just TV

2127

01:13:51,649 --> 01:13:48,120

um so yeah and any more on that one Dan

2128

01:13:53,090 --> 01:13:51,659

uh uh just to say Travis book about an

2129

01:13:55,250 --> 01:13:53,100

event where

2130

01:13:57,350 --> 01:13:55,260

he he and this is a recurrent event

2131

01:13:58,790 --> 01:13:57,360

where it sounds like imagine someone

2132

01:14:00,830 --> 01:13:58,800

throwing a baseball at the side of the

2133

01:14:02,990 --> 01:14:00,840

trailer but he said think of it like a

2134

01:14:04,790 --> 01:14:03,000

basketball the ball is bigger uh so the

2135

01:14:06,830 --> 01:14:04,800

banging's louder his trailers surrounded

2136

01:14:08,270 --> 01:14:06,840

by cameras and there's no one and

2137

01:14:09,530 --> 01:14:08,280

nothing outside of that truck when

2138

01:14:10,669 --> 01:14:09,540

there's banging on the wall he's had

2139

01:14:11,990 --> 01:14:10,679

other people in the truck with him

2140

01:14:13,490 --> 01:14:12,000

listening to this banging on the wall

2141

01:14:15,590 --> 01:14:13,500

and at one point they heard a female

2142

01:14:17,149 --> 01:14:15,600

voice as well talking to them and there

2143

01:14:18,590 --> 01:14:17,159

was no one around uh it made me think of

2144

01:14:20,930 --> 01:14:18,600

the lady and kind of all those things

2145

01:14:23,030 --> 01:14:20,940

that uh that are associated with the

2146

01:14:24,890 --> 01:14:23,040

phenomenon so yeah a lot a lot more

2147

01:14:27,050 --> 01:14:24,900

weirdness than we see in the series so

2148

01:14:29,649 --> 01:14:27,060

it would be nice maybe if someone went

2149

01:14:32,630 --> 01:14:29,659

in and produced a very serious

2150

01:14:33,770 --> 01:14:32,640

non-oak Island format look at the work

2151
01:14:34,610 --> 01:14:33,780
they've been doing over the past few

2152
01:14:36,950 --> 01:14:34,620
years

2153
01:14:39,770 --> 01:14:36,960
today ever tell you about the gentleman

2154
01:14:42,530 --> 01:14:39,780
I know from a long time ago who worked

2155
01:14:44,390 --> 01:14:42,540
on a nuclear submarine uh from Scotland

2156
01:14:47,209 --> 01:14:44,400
who act

2157
01:14:49,310 --> 01:14:47,219
a certain location out at Sea

2158
01:14:51,590 --> 01:14:49,320
um they were having something tapped in

2159
01:14:53,810 --> 01:14:51,600
Morse code on the outside of the hull of

2160
01:14:56,090 --> 01:14:53,820
the the chills that's really creepy and

2161
01:14:58,850 --> 01:14:56,100
it was like equations for things were

2162
01:15:00,229 --> 01:14:58,860
being tapped into the on the metal and

2163
01:15:01,370 --> 01:15:00,239

some of the guys on board to know most

2164

01:15:03,590 --> 01:15:01,380

codes were like yeah there's there's

2165

01:15:05,810 --> 01:15:03,600

stuff and nothing

2166

01:15:07,669 --> 01:15:05,820

really strange there's so many

2167

01:15:09,050 --> 01:15:07,679

interesting noises that come from under

2168

01:15:11,870 --> 01:15:09,060

our oceans that you've got to wonder

2169

01:15:12,770 --> 01:15:11,880

what and if there's something down there

2170

01:15:14,810 --> 01:15:12,780

you know

2171

01:15:17,390 --> 01:15:14,820

and also the same gentleman told me and

2172

01:15:19,790 --> 01:15:17,400

this was when I was younger that um they

2173

01:15:21,229 --> 01:15:19,800

got bumped by what they said that the

2174

01:15:23,870 --> 01:15:21,239

nuclear submarines would sometimes get

2175

01:15:25,490 --> 01:15:23,880

bumped by whales who thought maybe it's

2176

01:15:27,169 --> 01:15:25,500

another whale or kind of nudge them

2177

01:15:29,649 --> 01:15:27,179

along whatever it may have been and he

2178

01:15:34,070 --> 01:15:29,659

said one country then yeah yeah

2179

01:15:35,750 --> 01:15:34,080

uh yeah it's not that aggressive country

2180

01:15:37,790 --> 01:15:35,760

um and there was another time that it

2181

01:15:40,370 --> 01:15:37,800

got bumped and they thought something

2182

01:15:41,930 --> 01:15:40,380

was maybe attacking the submarine that

2183

01:15:43,370 --> 01:15:41,940

again that's a long time ago folks I'm

2184

01:15:46,070 --> 01:15:43,380

being very very paraphrased of

2185

01:15:48,050 --> 01:15:46,080

paraphrase as a word that is now

2186

01:15:49,729 --> 01:15:48,060

um and basically when they came up I

2187

01:15:52,310 --> 01:15:49,739

believe it was Florida somewhere maybe

2188

01:15:54,890 --> 01:15:52,320

or whatever the coast was maybe

2189

01:15:56,810 --> 01:15:54,900

California to to put the submarine you

2190

01:15:59,209 --> 01:15:56,820

know whether but in the US there was a

2191

01:16:01,610 --> 01:15:59,219

huge claw in the side of it and

2192

01:16:03,830 --> 01:16:01,620

apparently Army folks came along took

2193

01:16:06,110 --> 01:16:03,840

the Chloe tarp over it and off it went

2194

01:16:07,610 --> 01:16:06,120

that was a super interesting and you

2195

01:16:09,110 --> 01:16:07,620

know we hear about things like that

2196

01:16:10,970 --> 01:16:09,120

doesn't have to be a monster we could be

2197

01:16:14,110 --> 01:16:10,980

talking you know giant squid with kind

2198

01:16:16,130 --> 01:16:14,120

of claws in its its tend to

2199

01:16:17,390 --> 01:16:16,140

could have been a monster but we would

2200

01:16:18,770 --> 01:16:17,400

have called that a monster at some point

2201

01:16:21,470 --> 01:16:18,780

right so that would have been a monster

2202

01:16:22,689 --> 01:16:21,480

in California oh it would have been very

2203

01:16:25,189 --> 01:16:22,699

good all right

2204

01:16:27,350 --> 01:16:25,199

jump same event on the podcast next week

2205

01:16:29,030 --> 01:16:27,360

folks make sure you check that one out

2206

01:16:30,830 --> 01:16:29,040

um but yeah on that Dan will be finished

2207

01:16:32,510 --> 01:16:30,840

very quickly with the new James Webb

2208

01:16:33,830 --> 01:16:32,520

emojis that came out

2209

01:16:36,229 --> 01:16:33,840

um what did you think of those it was

2210

01:16:38,149 --> 01:16:36,239

Neptune we saw an infrared and saw the

2211

01:16:41,330 --> 01:16:38,159

the rings of Neptune the Lesser spotted

2212

01:16:42,950 --> 01:16:41,340

Rings yeah that's right it's one of

2213

01:16:45,350 --> 01:16:42,960

those examples of something that's been

2214

01:16:47,209 --> 01:16:45,360

there all along for us to look at but we

2215

01:16:49,189 --> 01:16:47,219

just didn't have the eyes to see we had

2216

01:16:50,510 --> 01:16:49,199

to develop that site and we're still

2217

01:16:52,790 --> 01:16:50,520

going to be doing that across the

2218

01:16:54,290 --> 01:16:52,800

electromagnetic spectrum and and kind of

2219

01:16:56,530 --> 01:16:54,300

looking with different sets of eyes

2220

01:17:00,050 --> 01:16:56,540

essentially at the universe

2221

01:17:01,370 --> 01:17:00,060

sorry Uranus isn't really sorry Neptune

2222

01:17:04,390 --> 01:17:01,380

sorry I don't know why I'm saying Uranus

2223

01:17:07,430 --> 01:17:04,400

uh we looked at Jupiter

2224

01:17:09,229 --> 01:17:07,440

we looked at Jupiter as well and that

2225

01:17:11,090 --> 01:17:09,239

had rings and not many people know that

2226

01:17:12,649 --> 01:17:11,100

these planets have rings so it's kind of

2227

01:17:14,510 --> 01:17:12,659

cool to see this spinning out into the

2228

01:17:15,890 --> 01:17:14,520

world you know things are the ideas that

2229

01:17:17,330 --> 01:17:15,900

we grew up with that they would you know

2230

01:17:18,950 --> 01:17:17,340

only saturn has a ring in the solar

2231

01:17:21,290 --> 01:17:18,960

system actually it's not true things

2232

01:17:23,750 --> 01:17:21,300

exist in other parts of the

2233

01:17:26,149 --> 01:17:23,760

electromagnetic spectrum and it makes

2234

01:17:27,770 --> 01:17:26,159

you wonder what else is out there I'm

2235

01:17:29,810 --> 01:17:27,780

curious to see

2236

01:17:31,669 --> 01:17:29,820

what the image of Earth in infrared

2237

01:17:33,229 --> 01:17:31,679

looks like or near infrared because

2238

01:17:34,430 --> 01:17:33,239

they've imaged all of the bodies in the

2239

01:17:35,990 --> 01:17:34,440

solar system so we're going to get a

2240

01:17:37,610 --> 01:17:36,000

good look at everything that we're used

2241

01:17:39,590 --> 01:17:37,620

to seeing but see it in a completely

2242

01:17:41,689 --> 01:17:39,600

different light I just hope we get some

2243

01:17:43,130 --> 01:17:41,699

emojis coming out that even the

2244

01:17:45,470 --> 01:17:43,140

scientists and astronomers looking at

2245

01:17:46,850 --> 01:17:45,480

them go what the hell is that that's

2246

01:17:48,470 --> 01:17:46,860

what I want like you know like something

2247

01:17:50,030 --> 01:17:48,480

they just had no idea would even be

2248

01:17:51,050 --> 01:17:50,040

there that would be pretty cool and I

2249

01:17:53,030 --> 01:17:51,060

don't think we're going to end up with

2250

01:17:54,530 --> 01:17:53,040

something like that we're just this

2251

01:17:56,209 --> 01:17:54,540

isn't James Webb related it's not even

2252

01:17:59,630 --> 01:17:56,219

in my notes but I'll just mention it we

2253

01:18:01,669 --> 01:17:59,640

have a flyby of Europa uh soon where

2254

01:18:03,709 --> 01:18:01,679

basically we're sending a spacecraft

2255

01:18:05,510 --> 01:18:03,719

over Europa to get images better than

2256

01:18:08,149 --> 01:18:05,520

we've seen in the past

2257

01:18:10,250 --> 01:18:08,159

since looking at in the past we think

2258

01:18:12,590 --> 01:18:10,260

that it's an ocean world that underneath

2259

01:18:14,390 --> 01:18:12,600

its surface which is covered in ice that

2260

01:18:16,189 --> 01:18:14,400

there's water we think there have been

2261

01:18:18,169 --> 01:18:16,199

geysers kind of spewing out into space

2262

01:18:22,070 --> 01:18:18,179

and at the base of those geysers would

2263

01:18:24,590 --> 01:18:22,080

be life essentially so we could in a few

2264

01:18:28,490 --> 01:18:24,600

months be seen images of life or

2265

01:18:30,350 --> 01:18:28,500

microbial life or under sea life from

2266

01:18:32,330 --> 01:18:30,360

another planet in the solar system or a

2267

01:18:34,729 --> 01:18:32,340

moon uh and that would be real real

2268

01:18:37,490 --> 01:18:34,739

interesting smashing some probe into

2269

01:18:39,050 --> 01:18:37,500

some alien whale and God yeah that would

2270

01:18:41,410 --> 01:18:39,060

be very human wouldn't it oh look we've

2271

01:18:44,709 --> 01:18:41,420

found life but we also killed it yeah

2272

01:18:47,450 --> 01:18:44,719

that would be so so human

2273

01:18:49,070 --> 01:18:47,460

yeah on that note folks yeah

2274

01:18:50,390 --> 01:18:49,080

um God I bet there's protocols for that

2275

01:18:51,890 --> 01:18:50,400

as well I wasn't there what did we do if

2276

01:18:54,229 --> 01:18:51,900

we accidentally kill alien life that

2277

01:18:56,270 --> 01:18:54,239

there's a conversation for another time

2278

01:18:58,250 --> 01:18:56,280

um listen um this week available early

2279

01:18:59,930 --> 01:18:58,260

in ad free is the Whitley stuber

2280

01:19:01,790 --> 01:18:59,940

interview it's just under one hour

2281

01:19:02,870 --> 01:19:01,800

really fascinating conversation with

2282

01:19:04,970 --> 01:19:02,880

Whitley

2283

01:19:07,130 --> 01:19:04,980

um and then after that folks October is

2284

01:19:09,470 --> 01:19:07,140

absolutely act in terms of guess there's

2285

01:19:12,530 --> 01:19:09,480

a two-hour conversation with Jim semivan

2286

01:19:14,810 --> 01:19:12,540

current uh co-founder of Tom was Tom

2287

01:19:16,970 --> 01:19:14,820

Delong of two of the Stars Jacque Valley

2288

01:19:19,250 --> 01:19:16,980

is then the guest just a week after that

2289

01:19:20,870 --> 01:19:19,260

and then followed by James Fox so it's a

2290

01:19:23,090 --> 01:19:20,880

hell of a month after going to get on

2291

01:19:25,550 --> 01:19:23,100

board and support via patreon Spotify

2292

01:19:27,290 --> 01:19:25,560

Apple YouTube or if you just want to

2293

01:19:29,630 --> 01:19:27,300

listen on the free feeds or watch on the

2294

01:19:31,430 --> 01:19:29,640

free YouTube stuff thank you very much a

2295

01:19:34,310 --> 01:19:31,440

like and a share and a comment is always

2296

01:19:37,669 --> 01:19:34,320

very much appreciated so Dan on that

2297

01:19:40,729 --> 01:19:37,679

note of killing alien whales

2298

01:19:43,250 --> 01:19:40,739

how do you say alien Wales in Welsh I

2299

01:19:46,430 --> 01:19:43,260

don't even uh we don't have a word for

2300

01:19:48,590 --> 01:19:46,440

alien in Welsh we tend to use uh poble

2301

01:19:49,510 --> 01:19:48,600

sarin which is star people so it would

2302

01:19:52,130 --> 01:19:49,520

be

2303

01:19:55,790 --> 01:19:52,140

Saran comrade you could have just made

2304

01:19:58,130 --> 01:19:55,800

that up anyway yeah okay thanks folks

2305

01:20:00,229 --> 01:19:58,140

speak soon Folks at the start of this

2306

01:20:02,090 --> 01:20:00,239

year I got a bit of a health scare and

2307

01:20:04,010 --> 01:20:02,100

it kick-started me to getting fitter

2308

01:20:06,770 --> 01:20:04,020

healthier and generally looking after

2309

01:20:08,870 --> 01:20:06,780

myself better a healthier breakfast was

2310

01:20:11,630 --> 01:20:08,880

high on my priority list and it should

2311

01:20:13,130 --> 01:20:11,640

be for you too magic spoon is the

2312

01:20:15,530 --> 01:20:13,140

perfect way to get in your morning

2313

01:20:17,450 --> 01:20:15,540

protein eating cereal that tastes like

2314

01:20:19,550 --> 01:20:17,460

it did when you were a kid without all

2315

01:20:22,130 --> 01:20:19,560

the bad stuff I can promise you there is

2316

01:20:24,169 --> 01:20:22,140

nothing unidentified in this cereal the

2317

01:20:26,810 --> 01:20:24,179

variety pack has four flavors including

2318

01:20:30,229 --> 01:20:26,820

cocoa fruity frosted and peanut butter

2319

01:20:32,990 --> 01:20:30,239

this pack has zero grams of sugar 13 to

2320

01:20:35,810 --> 01:20:33,000

14 grams of protein and only four net

2321

01:20:38,209 --> 01:20:35,820

grams of carbs that are only 140

2322

01:20:41,149 --> 01:20:38,219

calories per serving it's keto friendly

2323

01:20:43,550 --> 01:20:41,159
