

THE BREAKDOWN

1
00:00:02,810 --> 00:00:00,589

[Music]

2
00:00:05,210 --> 00:00:02,820

this is Jim semithan and you are

3
00:00:09,770 --> 00:00:05,220

listening to that UFO podcast

4
00:00:14,270 --> 00:00:12,230

hi everyone and welcome back to that UFO

5
00:00:16,189 --> 00:00:14,280

podcast my name is Andy and I've got a

6
00:00:18,410 --> 00:00:16,199

breakdown to round off the month of

7
00:00:20,090 --> 00:00:18,420

October may fit in another one before at

8
00:00:22,849 --> 00:00:20,100

the end of October but likely be well

9
00:00:24,890 --> 00:00:22,859

into November joining me provide

10
00:00:26,929 --> 00:00:24,900

commentary analysis feedback and all

11
00:00:28,670 --> 00:00:26,939

that good stuff is Dan welcome

12
00:00:29,929 --> 00:00:28,680

hi uh it's nice to start my

13
00:00:31,250 --> 00:00:29,939

globetrotting for a minute and take a

14

00:00:33,049 --> 00:00:31,260

breath and sit down with you and have a

15

00:00:34,670 --> 00:00:33,059

chat about what's been going on yeah

16

00:00:36,069 --> 00:00:34,680

just for a minute or two before you head

17

00:00:39,470 --> 00:00:36,079

back off again

18

00:00:40,729 --> 00:00:39,480

around the Americas as they call them

19

00:00:43,369 --> 00:00:40,739

um it's been a few weeks since we

20

00:00:44,930 --> 00:00:43,379

recorded anything uh life in general but

21

00:00:47,150 --> 00:00:44,940

also just very quickly thanks to

22

00:00:48,650 --> 00:00:47,160

everyone who got in touch about the if

23

00:00:50,389 --> 00:00:48,660

you hadn't seen social media my dog

24

00:00:51,770 --> 00:00:50,399

passed away a few days ago passed away

25

00:00:53,630 --> 00:00:51,780

you know there was was put to sleep

26
00:00:55,549 --> 00:00:53,640
because of very sudden health issues so

27
00:00:56,990 --> 00:00:55,559
that's been a bit crappy but thanks for

28
00:00:58,130 --> 00:00:57,000
folks reaching out it was very nice and

29
00:01:00,350 --> 00:00:58,140
seeing a lot of people who had gone

30
00:01:02,569 --> 00:01:00,360
through the same kind of stuff so cheers

31
00:01:05,350 --> 00:01:02,579
for that uh but back to talking about

32
00:01:07,850 --> 00:01:05,360
UFOs and which there is a lot of news

33
00:01:09,710 --> 00:01:07,860
and a lot of stuff coming up a lot of

34
00:01:11,990 --> 00:01:09,720
stuff just happened and some stuff just

35
00:01:13,609 --> 00:01:12,000
happened in the past so we will Blitz

36
00:01:15,170 --> 00:01:13,619
through as much as we can to get people

37
00:01:17,090 --> 00:01:15,180
kind of up to speed and I've seen a few

38
00:01:19,190 --> 00:01:17,100

people ask about oh any breakdowns and

39

00:01:20,630 --> 00:01:19,200

comments on the news and stuff so so

40

00:01:23,330 --> 00:01:20,640

let's get to it

41

00:01:25,789 --> 00:01:23,340

um first up uh one week away Dan

42

00:01:27,830 --> 00:01:25,799

um well at most from recording this it's

43

00:01:30,710 --> 00:01:27,840

the 24th of October we are one week away

44

00:01:32,090 --> 00:01:30,720

from the 31st of October for those of

45

00:01:33,170 --> 00:01:32,100

you who could be a calendars that should

46

00:01:36,770 --> 00:01:33,180

be correct

47

00:01:40,130 --> 00:01:36,780

um but the next unclassified UAP task

48

00:01:42,469 --> 00:01:40,140

force report should be due out

49

00:01:44,690 --> 00:01:42,479

you as with many other folks are

50

00:01:49,370 --> 00:01:44,700

expecting it by this Friday aren't you

51
00:01:51,830 --> 00:01:49,380
which is the 29th 28th 28th of October

52
00:01:53,749 --> 00:01:51,840
yeah because people tend to release

53
00:01:56,690 --> 00:01:53,759
stuff they want buried in those Cycles

54
00:01:58,190 --> 00:01:56,700
on the Friday before our weekend and it

55
00:02:00,350 --> 00:01:58,200
kind of goes away doesn't it doesn't get

56
00:02:02,090 --> 00:02:00,360
discussed until the Monday unless

57
00:02:04,130 --> 00:02:02,100
something else comes and takes over so

58
00:02:07,069 --> 00:02:04,140
we're expecting that to come up aren't

59
00:02:09,229 --> 00:02:07,079
we yeah absolutely I I would expect it

60
00:02:10,969 --> 00:02:09,239
before the weekend it's due by Monday

61
00:02:12,949 --> 00:02:10,979
but could come out Monday uh they could

62
00:02:14,270 --> 00:02:12,959
want the weekend to write stuff on it uh

63
00:02:15,949 --> 00:02:14,280

Travis Taylor was involved in writing

64

00:02:17,570 --> 00:02:15,959

the one last year and I'm sure he has

65

00:02:20,089 --> 00:02:17,580

said at some point over the last year he

66

00:02:20,990 --> 00:02:20,099

would have loved more time but this

67

00:02:23,570 --> 00:02:21,000

one's going to be interesting because

68

00:02:26,270 --> 00:02:23,580

we've had the establishment of a new

69

00:02:27,949 --> 00:02:26,280

office or a rebranding uh once again uh

70

00:02:29,869 --> 00:02:27,959

from you know we had the UAP task force

71

00:02:33,110 --> 00:02:29,879

and we went to aimsog as they called it

72

00:02:35,330 --> 00:02:33,120

aoi MSG and now we're on Arrow which is

73

00:02:37,970 --> 00:02:35,340

the uh all domain

74

00:02:40,610 --> 00:02:37,980

anomaly resolution office

75

00:02:41,690 --> 00:02:40,620

and yeah so we we have a whole new setup

76

00:02:43,850 --> 00:02:41,700

essentially so it's going to be really

77

00:02:46,670 --> 00:02:43,860

curious to seeing how much information

78

00:02:48,890 --> 00:02:46,680

they've been actually able to pass since

79

00:02:50,330 --> 00:02:48,900

that office was established there's

80

00:02:51,530 --> 00:02:50,340

probably a whole bunch of bureaucratic

81

00:02:53,089 --> 00:02:51,540

things that mean taking their attention

82

00:02:54,350 --> 00:02:53,099

again their email set up getting the

83

00:02:57,290 --> 00:02:54,360

computers were up and running getting

84

00:02:59,990 --> 00:02:57,300

those home vpns going uh but we do know

85

00:03:03,170 --> 00:03:00,000

as well that Dr Sean Kirkpatrick the the

86

00:03:06,949 --> 00:03:03,180

head of Arrow has been in touch with

87

00:03:08,750 --> 00:03:06,959

various people exploring cases uh namely

88

00:03:11,509 --> 00:03:08,760

with aviloab and the Ukraine stuff which

89

00:03:14,030 --> 00:03:11,519

we'll talk about in a bit uh so it's

90

00:03:16,550 --> 00:03:14,040

very active office but yeah I'm curious

91

00:03:18,710 --> 00:03:16,560

what's going to be in there I I would at

92

00:03:20,809 --> 00:03:18,720

the very least expect the same as last

93

00:03:22,670 --> 00:03:20,819

year in terms of just this is how many

94

00:03:25,970 --> 00:03:22,680

reports we've had this is how many we've

95

00:03:27,290 --> 00:03:25,980

solved but it's gonna be curiously and

96

00:03:28,550 --> 00:03:27,300

what's different to last year more than

97

00:03:31,309 --> 00:03:28,560

anything I think

98

00:03:33,290 --> 00:03:31,319

I think we mentioned this before but um

99

00:03:36,410 --> 00:03:33,300

it's worth pointing out that Dr Sean

100

00:03:38,750 --> 00:03:36,420

Kirkpatrick hasn't had that long enroll

101

00:03:40,670 --> 00:03:38,760

again similar to the last or the initial

102

00:03:43,670 --> 00:03:40,680

report there was a lot of changes made

103

00:03:46,130 --> 00:03:43,680

people like Lola zondo and Chris melon

104

00:03:47,930 --> 00:03:46,140

commented how it seemed to hamstring and

105

00:03:49,550 --> 00:03:47,940

and tie the hands behind their back a

106

00:03:51,830 --> 00:03:49,560

little bit in terms of what the the

107

00:03:53,630 --> 00:03:51,840

finished product would look like and and

108

00:03:55,729 --> 00:03:53,640

we've probably had that again this time

109

00:03:59,530 --> 00:03:55,739

because I think he came in was around

110

00:04:03,470 --> 00:04:01,970

since like maybe March that he was

111

00:04:05,210 --> 00:04:03,480

taking the job but it wasn't announced

112

00:04:06,770 --> 00:04:05,220

until about June when the the arrow

113

00:04:08,630 --> 00:04:06,780

rebranding was announced but yeah you're

114

00:04:11,449 --> 00:04:08,640

right you know not not a lot of time to

115

00:04:14,390 --> 00:04:11,459

do work no and again last time again

116

00:04:16,189 --> 00:04:14,400

people like Chris melon and others like

117

00:04:18,590 --> 00:04:16,199

Tim McMillan and such were commenting

118

00:04:20,210 --> 00:04:18,600

that you really need a run of years at

119

00:04:22,129 --> 00:04:20,220

this kind of stuff to start to compile

120

00:04:23,270 --> 00:04:22,139

the data and the networking and

121

00:04:26,030 --> 00:04:23,280

everything else that would produce

122

00:04:27,530 --> 00:04:26,040

results so again it's like a restart and

123

00:04:29,870 --> 00:04:27,540

back to the beginning so it's very much

124

00:04:31,730 --> 00:04:29,880

the early days and what we're going to

125

00:04:33,530 --> 00:04:31,740

get is a report and just before we

126
00:04:35,030 --> 00:04:33,540
recorded Dan you made you were saying

127
00:04:36,530 --> 00:04:35,040
that people are asking for you know oh

128
00:04:38,510 --> 00:04:36,540
we're not going to get videos we'll know

129
00:04:40,850 --> 00:04:38,520
what's a report it's like handing in a

130
00:04:42,350 --> 00:04:40,860
report at an S8 school isn't it you're

131
00:04:44,390 --> 00:04:42,360
saying or where are they accompanying

132
00:04:46,249 --> 00:04:44,400
videos and slides and you'd be like well

133
00:04:47,930 --> 00:04:46,259
you asked for a report I just I just

134
00:04:50,749 --> 00:04:47,940
wrote you an essay that's it so it's

135
00:04:53,210 --> 00:04:50,759
it's a written report and we're probably

136
00:04:55,730 --> 00:04:53,220
going to see some maybe some redacted

137
00:04:57,350 --> 00:04:55,740
stuff again that like the color not the

138
00:05:00,730 --> 00:04:57,360

color the color in the shapes the Foo

139

00:05:04,010 --> 00:05:03,110

yeah I absolutely did not mean that

140

00:05:06,590 --> 00:05:04,020

either

141

00:05:08,870 --> 00:05:06,600

um the the shapes on the report of

142

00:05:10,730 --> 00:05:08,880

various UAP were completely redacted as

143

00:05:12,110 --> 00:05:10,740

we saw a lot of kind of conversation

144

00:05:14,210 --> 00:05:12,120

happened around that but you're still

145

00:05:15,350 --> 00:05:14,220

talking about a big black rectangle on a

146

00:05:19,610 --> 00:05:15,360

page

147

00:05:20,870 --> 00:05:19,620

um that was from foia right so this will

148

00:05:22,490 --> 00:05:20,880

be slightly different this will be we'll

149

00:05:24,230 --> 00:05:22,500

have a public facing Report with a

150

00:05:26,150 --> 00:05:24,240

classified Annex we won't see any of the

151
00:05:28,310 --> 00:05:26,160
classified Annex even with stuff blacked

152
00:05:30,170 --> 00:05:28,320
out but the shapes thing is interesting

153
00:05:32,210 --> 00:05:30,180
that you bring that up because

154
00:05:34,730 --> 00:05:32,220
then this is this is my hope for this

155
00:05:37,370 --> 00:05:34,740
year I I guess uh you know my Pie in the

156
00:05:39,830 --> 00:05:37,380
Sky hope yeah is that last year they

157
00:05:41,749 --> 00:05:39,840
they designated five categories four of

158
00:05:43,129 --> 00:05:41,759
them were man-made prosaic things so um

159
00:05:45,230 --> 00:05:43,139
you know natural phenomena things like

160
00:05:46,790 --> 00:05:45,240
that and then we had the other category

161
00:05:48,469 --> 00:05:46,800
Congress has made it clear through

162
00:05:49,850 --> 00:05:48,479
legislation that hasn't passed yet that

163
00:05:53,330 --> 00:05:49,860

they're only interested in this other

164

00:05:55,610 --> 00:05:53,340

category so those four categories for me

165

00:05:58,610 --> 00:05:55,620

should become one category of you you

166

00:06:01,070 --> 00:05:58,620

know not interested basically and that

167

00:06:03,230 --> 00:06:01,080

category for others should expand

168

00:06:06,050 --> 00:06:03,240

that that would be my hope that we'd see

169

00:06:07,730 --> 00:06:06,060

you know maybe that expand by shapes or

170

00:06:09,950 --> 00:06:07,740

by how many observables are present in

171

00:06:11,870 --> 00:06:09,960

these anomalous encounters and as well

172

00:06:14,210 --> 00:06:11,880

as that I I'd hope that there would be a

173

00:06:15,469 --> 00:06:14,220

bit more talk about cooperation on an

174

00:06:17,689 --> 00:06:15,479

international level because that didn't

175

00:06:19,370 --> 00:06:17,699

really happen uh last year and you know

176

00:06:21,230 --> 00:06:19,380

the UK is still very stumb they haven't

177

00:06:23,809 --> 00:06:21,240

even responded to our Calvin stuff even

178

00:06:25,790 --> 00:06:23,819

though that photo is now out and yeah

179

00:06:26,749 --> 00:06:25,800

it's just it's a little perturbing that

180

00:06:29,090 --> 00:06:26,759

you know there's no international

181

00:06:31,189 --> 00:06:29,100

corporation here as well as that I'd

182

00:06:33,890 --> 00:06:31,199

like to see the name and shame uh some

183

00:06:35,270 --> 00:06:33,900

of the actors who aren't uh willingly

184

00:06:37,550 --> 00:06:35,280

participating in the report and giving

185

00:06:39,770 --> 00:06:37,560

over their data namely the Air Force

186

00:06:41,150 --> 00:06:39,780

even though we had certain members of

187

00:06:43,249 --> 00:06:41,160

the Air Force involved and help them

188

00:06:45,409 --> 00:06:43,259

write it it doesn't seem like they get

189

00:06:48,409 --> 00:06:45,419

in that historical data from them

190

00:06:49,670 --> 00:06:48,419

no and I think um oh God I'm going to

191

00:06:50,809 --> 00:06:49,680

butcher whatever this was going to be

192

00:06:51,950 --> 00:06:50,819

and it could have been a really Salient

193

00:06:53,150 --> 00:06:51,960

Point

194

00:06:57,110 --> 00:06:53,160

um

195

00:06:59,150 --> 00:06:57,120

was it Ben Hanson or no Ryan Graves on

196

00:07:02,629 --> 00:06:59,160

Twitter had commented how there have

197

00:07:05,029 --> 00:07:02,639

been cases where airline pilots and crew

198

00:07:06,350 --> 00:07:05,039

are still what airline pilots are being

199

00:07:09,529 --> 00:07:06,360

again

200

00:07:11,689 --> 00:07:09,539

dissuade or you know to not come forward

201
00:07:13,249 --> 00:07:11,699
and that's still happening so you could

202
00:07:15,050 --> 00:07:13,259
imagine that goes right through to

203
00:07:16,490 --> 00:07:15,060
places like the Air Force and such as

204
00:07:18,710 --> 00:07:16,500
well and again I've mentioned this

205
00:07:20,390 --> 00:07:18,720
recently on some interviews that and I

206
00:07:22,309 --> 00:07:20,400
think Gary Nolan had mentioned it's not

207
00:07:23,870 --> 00:07:22,319
just as easy for even with immunity

208
00:07:25,189 --> 00:07:23,880
language being written in that

209
00:07:27,950 --> 00:07:25,199
everyone's going to come running forward

210
00:07:30,170 --> 00:07:27,960
to to talk about the UFO subject because

211
00:07:32,230 --> 00:07:30,180
people have careers and aspirations and

212
00:07:34,850 --> 00:07:32,240
their own thoughts and opinions and bias

213
00:07:36,230 --> 00:07:34,860

so it's not just as easy as everyone

214

00:07:39,350 --> 00:07:36,240

wants to come forward and talk about

215

00:07:40,730 --> 00:07:39,360

UFOs and there is still a stigma in a

216

00:07:43,309 --> 00:07:40,740

lot of different places and a lot of

217

00:07:44,589 --> 00:07:43,319

different in areas even with people who

218

00:07:46,790 --> 00:07:44,599

are seeing things they can't explain

219

00:07:48,830 --> 00:07:46,800

they don't immediately want to think

220

00:07:50,749 --> 00:07:48,840

about the potential of what it could be

221

00:07:54,469 --> 00:07:50,759

and that it will be something likely

222

00:07:55,969 --> 00:07:54,479

presaic so there's a lot of variables

223

00:07:58,309 --> 00:07:55,979

with this and you're quite right that

224

00:08:00,290 --> 00:07:58,319

people again I think will use that

225

00:08:02,150 --> 00:08:00,300

temper their expectations line with this

226

00:08:05,870 --> 00:08:02,160

one I think that's one of those yeah

227

00:08:07,370 --> 00:08:05,880

yeah again Gwen just expecting the bare

228

00:08:08,589 --> 00:08:07,380

minimum and you might come out

229

00:08:11,210 --> 00:08:08,599

pleasantly

230

00:08:14,290 --> 00:08:11,220

non-plussed I'm not even surprised but

231

00:08:16,490 --> 00:08:14,300

yeah it's yeah I think so and it's not

232

00:08:17,930 --> 00:08:16,500

you know last year they were talking

233

00:08:19,010 --> 00:08:17,940

there being a nothing burger that there

234

00:08:22,189 --> 00:08:19,020

was nothing in the report that was

235

00:08:23,930 --> 00:08:22,199

relevant which wasn't true that's yeah I

236

00:08:26,390 --> 00:08:23,940

agree you know I think the fact the

237

00:08:27,950 --> 00:08:26,400

report's even happening at all is kind

238

00:08:29,150 --> 00:08:27,960

of miraculous

239

00:08:30,469 --> 00:08:29,160

um and there's been some talk from

240

00:08:32,029 --> 00:08:30,479

people like Eric Weinstein in the past

241

00:08:34,909 --> 00:08:32,039

week where he's basically pointing out

242

00:08:37,850 --> 00:08:34,919

whether this is UFOs or a Psy off this

243

00:08:39,290 --> 00:08:37,860

is a ridiculously huge story and it you

244

00:08:40,909 --> 00:08:39,300

know it's not clear which way it's going

245

00:08:42,589 --> 00:08:40,919

to go yet but uh there seems to be a

246

00:08:43,610 --> 00:08:42,599

there there that's what we can all agree

247

00:08:47,570 --> 00:08:43,620

on

248

00:08:49,550 --> 00:08:47,580

then the Eric Weinstein stuff because he

249

00:08:52,009 --> 00:08:49,560

appeared at San Marino

250

00:08:54,530 --> 00:08:52,019

um as part of a presentation that was

251
00:08:56,030 --> 00:08:54,540
going on I've seen some folks if you're

252
00:08:57,590 --> 00:08:56,040
not familiar with social media you might

253
00:08:59,750 --> 00:08:57,600
not know Eric Weinstein because I only

254
00:09:00,829 --> 00:08:59,760
know the guy from from social media as

255
00:09:02,810 --> 00:09:00,839
well

256
00:09:05,930 --> 00:09:02,820
um is he a mathematician by trade is

257
00:09:07,250 --> 00:09:05,940
that where his background is uh I don't

258
00:09:09,970 --> 00:09:07,260
know exactly but I would say

259
00:09:12,290 --> 00:09:09,980
mathematician physicists

260
00:09:15,050 --> 00:09:12,300
love our guy with millions of followers

261
00:09:16,670 --> 00:09:15,060
super intelligent guy and someone who

262
00:09:18,470 --> 00:09:16,680
kind of I would say spoke out against

263
00:09:20,210 --> 00:09:18,480

the establishment as well so he's kind

264

00:09:23,449 --> 00:09:20,220

of been shunned from academic circles

265

00:09:25,610 --> 00:09:23,459

but what he's actually talking about is

266

00:09:28,130 --> 00:09:25,620

very often kind of the broader view

267

00:09:30,970 --> 00:09:28,140

instead of just staying in his Lane and

268

00:09:33,829 --> 00:09:30,980

we're big fans of people who who do that

269

00:09:35,509 --> 00:09:33,839

yeah it's one that was and I've seen

270

00:09:37,370 --> 00:09:35,519

people comment on the guy's politics and

271

00:09:39,230 --> 00:09:37,380

opinions on stuff and that that's all by

272

00:09:41,150 --> 00:09:39,240

the by it's a Twitter profile now just

273

00:09:42,410 --> 00:09:41,160

says Dad so yeah I can't even get

274

00:09:44,030 --> 00:09:42,420

anything off of that no he's changed

275

00:09:44,650 --> 00:09:44,040

that so fair enough

276

00:09:47,210 --> 00:09:44,660

um

277

00:09:48,590 --> 00:09:47,220

yeah it could be a police it could be a

278

00:09:51,410 --> 00:09:48,600

role who knows

279

00:09:53,030 --> 00:09:51,420

um so yeah he's uh a very clever guy in

280

00:09:54,889 --> 00:09:53,040

one of those people that is outside of

281

00:09:57,050 --> 00:09:54,899

the UFO subject that you you probably

282

00:09:59,570 --> 00:09:57,060

want to be involved are characters like

283

00:10:01,790 --> 00:09:59,580

that who can come in and and take this

284

00:10:02,990 --> 00:10:01,800

topic to a broader subject he's got 700

285

00:10:04,430 --> 00:10:03,000

000 Twitter followers so that's that's

286

00:10:06,170 --> 00:10:04,440

no mean feat

287

00:10:08,570 --> 00:10:06,180

um so yeah interesting to see him coming

288

00:10:10,490 --> 00:10:08,580

in and talking about the UFO subject he

289

00:10:11,930 --> 00:10:10,500

did meet with Luella zondo some time ago

290

00:10:14,630 --> 00:10:11,940

they posted a picture together didn't

291

00:10:16,009 --> 00:10:14,640

they on on social media as well I think

292

00:10:18,290 --> 00:10:16,019

he was also

293

00:10:19,970 --> 00:10:18,300

over a year ago was he not one of the

294

00:10:21,949 --> 00:10:19,980

people who talked about being briefed

295

00:10:23,389 --> 00:10:21,959

along the time Sam Harris had mentioned

296

00:10:26,030 --> 00:10:23,399

you know people are reaching out to talk

297

00:10:27,590 --> 00:10:26,040

about the UFO subject to personalities

298

00:10:30,769 --> 00:10:27,600

and media profiles and media

299

00:10:31,970 --> 00:10:30,779

personalities and there we go and it

300

00:10:34,910 --> 00:10:31,980

might have taken a little bit more time

301
00:10:37,730 --> 00:10:34,920
but all of a sudden he goes from being a

302
00:10:39,470 --> 00:10:37,740
healthy skeptic in the subject to oh I'm

303
00:10:41,509 --> 00:10:39,480
no appealing at the San Marino UFO

304
00:10:43,310 --> 00:10:41,519
conference and I'm part of a

305
00:10:45,230 --> 00:10:43,320
presentation and talking about like you

306
00:10:47,090 --> 00:10:45,240
say they're either there

307
00:10:48,889 --> 00:10:47,100
and it's worth it's worth getting

308
00:10:50,690 --> 00:10:48,899
involved in this subject and if we can

309
00:10:52,550 --> 00:10:50,700
get more and more of that happening I

310
00:10:54,650 --> 00:10:52,560
think that's a huge Plus

311
00:10:56,150 --> 00:10:54,660
it was just amazing to hear his thoughts

312
00:10:58,130 --> 00:10:56,160
you know the actual circumstances

313
00:11:00,829 --> 00:10:58,140

surrounding him being in San Marino he

314

00:11:02,870 --> 00:11:00,839

was going just to watch basically yeah

315

00:11:04,190 --> 00:11:02,880

um and then as per Eric's Twitter he

316

00:11:05,750 --> 00:11:04,200

reported that Lou was under the weather

317

00:11:07,550 --> 00:11:05,760

so couldn't go so we filled a spot

318

00:11:09,350 --> 00:11:07,560

basically very Romberg at the moment

319

00:11:10,910 --> 00:11:09,360

being asked to play jazz flute you know

320

00:11:12,949 --> 00:11:10,920

like please I couldn't and then he's the

321

00:11:17,449 --> 00:11:12,959

most prepared person there yeah

322

00:11:21,530 --> 00:11:20,210

and uh and yeah he he laid out some just

323

00:11:23,030 --> 00:11:21,540

some interesting thoughts that like we

324

00:11:25,069 --> 00:11:23,040

already said came down to this or there

325

00:11:26,990 --> 00:11:25,079

there this is hugely intriguing I'm

326

00:11:28,370 --> 00:11:27,000

along for the ride even if you know I'm

327

00:11:30,230 --> 00:11:28,380

being used to kind of get this message

328

00:11:32,210 --> 00:11:30,240

out I think this is a really important

329

00:11:34,190 --> 00:11:32,220

thing to pay attention to whether it's

330

00:11:36,710 --> 00:11:34,200

because there are visitors in our skies

331

00:11:38,990 --> 00:11:36,720

from somewhere else or because we're

332

00:11:41,389 --> 00:11:39,000

being manipulated by an organizational

333

00:11:42,590 --> 00:11:41,399

structure that should have a higher bar

334

00:11:45,650 --> 00:11:42,600

quite frankly and shouldn't be doing

335

00:11:47,870 --> 00:11:45,660

this to people either way bigger story

336

00:11:49,310 --> 00:11:47,880

and you see just to caveat that there

337

00:11:51,410 --> 00:11:49,320

are visitors and our skies from

338

00:11:53,449 --> 00:11:51,420

somewhere else they might just be not us

339

00:11:55,009 --> 00:11:53,459

but in their own Skies so who knows just

340

00:11:57,110 --> 00:11:55,019

for anyone who follows that particular

341

00:11:57,829 --> 00:11:57,120

path but we could be here all day with

342

00:12:02,990 --> 00:11:57,839

that

343

00:12:05,150 --> 00:12:03,000

chatter uh D Dean Johnson again

344

00:12:07,370 --> 00:12:05,160

fantastic reporting in terms of saying

345

00:12:09,050 --> 00:12:07,380

that language that can ask maybe boring

346

00:12:09,970 --> 00:12:09,060

stuff that people might be like oh you

347

00:12:12,230 --> 00:12:09,980

know the

348

00:12:14,389 --> 00:12:12,240

sa5950 which I've got written down here

349

00:12:16,850 --> 00:12:14,399

which is the only reason I know it

350

00:12:19,670 --> 00:12:16,860

um is the intelligence authorization act

351

00:12:22,430 --> 00:12:19,680

uh the UAP related text is in there as

352

00:12:24,230 --> 00:12:22,440

part of a huge bill and as of October

353

00:12:27,050 --> 00:12:24,240

12th I don't think I've seen any updates

354

00:12:29,150 --> 00:12:27,060

since then the the UAP language is still

355

00:12:30,530 --> 00:12:29,160

in there and I just wanted you to

356

00:12:32,329 --> 00:12:30,540

explain though it said that the final

357

00:12:34,850 --> 00:12:32,339

UAP language will be written in

358

00:12:36,970 --> 00:12:34,860

conference with the house in November

359

00:12:40,550 --> 00:12:36,980

what does that mean

360

00:12:42,410 --> 00:12:40,560

in Internet I'll try my best in a

361

00:12:44,389 --> 00:12:42,420

nutshell uh I always I always use the

362

00:12:45,670 --> 00:12:44,399

analogy of train tracks

363

00:12:48,590 --> 00:12:45,680

um basically

364

00:12:50,569 --> 00:12:48,600

the conference is what the last stop

365

00:12:52,790 --> 00:12:50,579

before this bill is put on the

366

00:12:54,170 --> 00:12:52,800

president's desk so after conference it

367

00:12:56,269 --> 00:12:54,180

will be presented to the president to

368

00:12:57,650 --> 00:12:56,279

sign but conferences where both sides of

369

00:12:59,569 --> 00:12:57,660

the aisle the Republicans and the

370

00:13:01,970 --> 00:12:59,579

Democrats come together and privately

371

00:13:04,550 --> 00:13:01,980

kind of hash out the details instead of

372

00:13:06,470 --> 00:13:04,560

arguing them in public that

373

00:13:09,230 --> 00:13:06,480

bill will now be presented in the house

374

00:13:10,670 --> 00:13:09,240

and voted on uh more than likely we'll

375

00:13:12,230 --> 00:13:10,680

just pass once conferences happen

376

00:13:13,610 --> 00:13:12,240

because that's where the details are

377

00:13:15,650 --> 00:13:13,620

sorted you know they wouldn't present it

378

00:13:17,750 --> 00:13:15,660

if they weren't happy with it once it's

379

00:13:19,610 --> 00:13:17,760

presented and signed off by them it'll

380

00:13:21,650 --> 00:13:19,620

go to the president's desk so the

381

00:13:23,389 --> 00:13:21,660

soonest that can happen is the 14th of

382

00:13:25,250 --> 00:13:23,399

November when Congress reconvenes

383

00:13:26,569 --> 00:13:25,260

that'll be when conference starts so I

384

00:13:28,129 --> 00:13:26,579

would probably expect it around

385

00:13:32,269 --> 00:13:28,139

Christmas again you know you'll see that

386

00:13:33,710 --> 00:13:32,279

ndaa HR 7900 passing I dream in these

387

00:13:37,009 --> 00:13:33,720

numbers now I still remember the ones

388

00:13:38,509 --> 00:13:37,019

from years ago and largely though

389

00:13:40,250 --> 00:13:38,519

because so much happens with all this

390

00:13:41,810 --> 00:13:40,260

stuff and names change and acronyms

391

00:13:43,129 --> 00:13:41,820

change your different organizations and

392

00:13:45,769 --> 00:13:43,139

you've got the bill people can get

393

00:13:47,629 --> 00:13:45,779

easily confused I definitely do if

394

00:13:49,970 --> 00:13:47,639

anyone thinks I don't for the love of

395

00:13:52,009 --> 00:13:49,980

God when I don't do these regularly I do

396

00:13:53,509 --> 00:13:52,019

get mixed up in all over the place and

397

00:13:56,269 --> 00:13:53,519

that's probably part of the reason these

398

00:13:58,490 --> 00:13:56,279

things happen but this reporting going

399

00:14:00,110 --> 00:13:58,500

into the Bell ultimately what is that

400

00:14:01,970 --> 00:14:00,120

going to achieve

401
00:14:04,250 --> 00:14:01,980
so essentially there are a few different

402
00:14:07,009 --> 00:14:04,260
aspects of the bill this year we're

403
00:14:08,569 --> 00:14:07,019
going to get a do over the office or

404
00:14:12,050 --> 00:14:08,579
probably a new name again the name

405
00:14:14,509 --> 00:14:12,060
that's being floated is the UAP joint uh

406
00:14:16,430 --> 00:14:14,519
program office so a name that properly

407
00:14:19,129 --> 00:14:16,440
reflects that it's all of the different

408
00:14:20,990 --> 00:14:19,139
organizations coming together and

409
00:14:24,050 --> 00:14:21,000
umbrella wise it will actually be kind

410
00:14:25,850 --> 00:14:24,060
of held somewhere where those offices

411
00:14:28,370 --> 00:14:25,860
can be held accountable instead of kind

412
00:14:31,069 --> 00:14:28,380
of pleasing themselves for it also in

413
00:14:32,870 --> 00:14:31,079

this bill there is the

414

00:14:34,970 --> 00:14:32,880

instead of just the aerial phenomena

415

00:14:37,850 --> 00:14:34,980

they emphasizing the transmedium aspects

416

00:14:40,129 --> 00:14:37,860

of it so the undersea portion is now

417

00:14:42,290 --> 00:14:40,139

kind of in the UAP acronym

418

00:14:44,210 --> 00:14:42,300

so that's being emphasized we've also

419

00:14:45,530 --> 00:14:44,220

got language saying that anything that's

420

00:14:46,970 --> 00:14:45,540

man-made they're not interested in

421

00:14:48,949 --> 00:14:46,980

actually they're more interested in the

422

00:14:51,110 --> 00:14:48,959

anomalous stuff which is you know pretty

423

00:14:53,389 --> 00:14:51,120

startlingly clear in terms of whether

424

00:14:55,670 --> 00:14:53,399

they're looking for life elsewhere or

425

00:14:57,350 --> 00:14:55,680

something else and then you've got the

426
00:14:59,150 --> 00:14:57,360
reporting apparatus that they're setting

427
00:15:01,550 --> 00:14:59,160
up so

428
00:15:04,310 --> 00:15:01,560
essentially a private channel to

429
00:15:05,689 --> 00:15:04,320
whichever UAP task force is there

430
00:15:07,970 --> 00:15:05,699
whatever it's called after this bill

431
00:15:10,069 --> 00:15:07,980
passes where people can submit

432
00:15:12,230 --> 00:15:10,079
classified information with no fear of

433
00:15:14,990 --> 00:15:12,240
repercussions essentially so they can't

434
00:15:16,550 --> 00:15:15,000
be fired or lose stars or anything like

435
00:15:19,189 --> 00:15:16,560
that they can just go and start talking

436
00:15:21,170 --> 00:15:19,199
about this in private sessions so that's

437
00:15:22,189 --> 00:15:21,180
I'd emphasize that because there are a

438
00:15:23,750 --> 00:15:22,199

lot of people out there talking about

439

00:15:25,610 --> 00:15:23,760

once this bill passes people can just

440

00:15:27,889 --> 00:15:25,620

spill the beans that's not the case uh

441

00:15:30,470 --> 00:15:27,899

it'll be private closed door sessions

442

00:15:32,750 --> 00:15:30,480

and we'll build from there as well as

443

00:15:34,970 --> 00:15:32,760

that the Comptroller has has been

444

00:15:37,790 --> 00:15:34,980

directed to go back all the way to

445

00:15:39,949 --> 00:15:37,800

Roswell and basically a master timeline

446

00:15:42,829 --> 00:15:39,959

of the intelligence Services dealings

447

00:15:45,230 --> 00:15:42,839

with UAP since then so we should expect

448

00:15:47,329 --> 00:15:45,240

a huge report from the Comptroller at

449

00:15:48,829 --> 00:15:47,339

some point detailing where and when

450

00:15:50,930 --> 00:15:48,839

exactly all these different projects

451
00:15:52,910 --> 00:15:50,940
like magnet blue book or you know sign

452
00:15:54,110 --> 00:15:52,920
Grudge or all these different programs

453
00:15:55,910 --> 00:15:54,120
over the years we should get a nice

454
00:15:57,470 --> 00:15:55,920
concise timeline from the US Government

455
00:15:59,689 --> 00:15:57,480
after all of this

456
00:16:01,550 --> 00:15:59,699
yeah nice and again it's what might

457
00:16:03,590 --> 00:16:01,560
interest me with that and there will be

458
00:16:05,509 --> 00:16:03,600
loads of UFO researchers out there

459
00:16:07,730 --> 00:16:05,519
people like Grant Cameron who have done

460
00:16:09,829 --> 00:16:07,740
decades worth of work and research and

461
00:16:11,509 --> 00:16:09,839
other people like him who would probably

462
00:16:13,670 --> 00:16:11,519
say they could do that themselves until

463
00:16:15,290 --> 00:16:13,680

you're from Roswell to know what all

464

00:16:17,509 --> 00:16:15,300

those different programs were what they

465

00:16:19,069 --> 00:16:17,519

achieved what happened but I think if

466

00:16:20,930 --> 00:16:19,079

you get it happening in some sort of

467

00:16:23,150 --> 00:16:20,940

official capacity you don't know what

468

00:16:25,069 --> 00:16:23,160

else comes out of that or gets dug up or

469

00:16:26,569 --> 00:16:25,079

you go ah because we never knew that or

470

00:16:29,750 --> 00:16:26,579

we never knew that was related to that

471

00:16:31,610 --> 00:16:29,760

and you know that whole OSAP a-tip thing

472

00:16:33,290 --> 00:16:31,620

that at one point seemed like two

473

00:16:35,030 --> 00:16:33,300

programs and then became a bit more

474

00:16:37,430 --> 00:16:35,040

muddied and that might happen for

475

00:16:38,749 --> 00:16:37,440

something that was 40 50 years ago and

476

00:16:40,910 --> 00:16:38,759

you start to get some other dots being

477

00:16:42,350 --> 00:16:40,920

connected elsewhere so who knows I think

478

00:16:43,970 --> 00:16:42,360

it's an interesting one definitely

479

00:16:46,550 --> 00:16:43,980

there's there's plenty to look forward

480

00:16:49,910 --> 00:16:46,560

to with it in terms of the report and

481

00:16:52,069 --> 00:16:49,920

the ndaa what happens with that language

482

00:16:54,170 --> 00:16:52,079

you know that people again shouldn't

483

00:16:56,449 --> 00:16:54,180

expect too much to happen too quickly

484

00:16:58,069 --> 00:16:56,459

again if you take a step back and maybe

485

00:17:00,050 --> 00:16:58,079

if you listen to the breakdown from a

486

00:17:02,569 --> 00:17:00,060

year or two ago and some of the news at

487

00:17:04,130 --> 00:17:02,579

the time we've come pretty far and

488

00:17:05,510 --> 00:17:04,140

there's a lot of progress happened I see

489

00:17:08,090 --> 00:17:05,520

we like I've not done it you know other

490

00:17:11,030 --> 00:17:08,100

people have done the work report no no

491

00:17:12,909 --> 00:17:11,040

no I'm sure yeah

492

00:17:16,490 --> 00:17:12,919

um until

493

00:17:18,350 --> 00:17:16,500

2026 essentially funded and signed off

494

00:17:20,030 --> 00:17:18,360

so we're playing the long game here not

495

00:17:21,829 --> 00:17:20,040

the short game you know absolutely yeah

496

00:17:23,150 --> 00:17:21,839

there we go folks so three years worth

497

00:17:25,669 --> 00:17:23,160

of content left

498

00:17:27,710 --> 00:17:25,679

um so yeah look forward to it

499

00:17:31,130 --> 00:17:27,720

um speaking of uh timelines

500

00:17:32,570 --> 00:17:31,140

that's a spurious link um NASA as UFO

501
00:17:34,850 --> 00:17:32,580
study has finally come together they

502
00:17:37,430 --> 00:17:34,860
announced some time ago and I believe

503
00:17:39,169 --> 00:17:37,440
their results of that study are going to

504
00:17:41,090 --> 00:17:39,179
be announced one year from today is that

505
00:17:43,669 --> 00:17:41,100
right was it the 29 months from today

506
00:17:45,409 --> 00:17:43,679
same month 24th of July 2023 and

507
00:17:47,029 --> 00:17:45,419
actually launches today as well as we

508
00:17:48,289 --> 00:17:47,039
record this on the 24th this is when

509
00:17:50,810 --> 00:17:48,299
they're rolling the sleeves and getting

510
00:17:53,029 --> 00:17:50,820
to work so it's a little exciting to

511
00:17:54,830 --> 00:17:53,039
it's a watershed moment maybe yeah today

512
00:17:56,870 --> 00:17:54,840
was a scan and we'll get the birth of

513
00:17:58,909 --> 00:17:56,880

the the results in about nine months

514

00:18:01,789 --> 00:17:58,919

time yeah it's made up of 16 staff

515

00:18:03,710 --> 00:18:01,799

members from various backgrounds I've

516

00:18:04,850 --> 00:18:03,720

seen some people online and and we won't

517

00:18:05,930 --> 00:18:04,860

go through the whole list of everyone

518

00:18:08,090 --> 00:18:05,940

because we're trying to get through a

519

00:18:10,789 --> 00:18:08,100

lot of chat here but people disappointed

520

00:18:13,010 --> 00:18:10,799

there seems to be a lack of UFO experts

521

00:18:15,289 --> 00:18:13,020

involved in this but that's not the

522

00:18:17,510 --> 00:18:15,299

point of NASA having their own UFO study

523

00:18:19,370 --> 00:18:17,520

and I can see why they have the people

524

00:18:21,529 --> 00:18:19,380

they have involved in this including

525

00:18:23,990 --> 00:18:21,539

some what people may see are kind of

526
00:18:25,850 --> 00:18:24,000
Hardcore Skeptics on the US top UFO

527
00:18:29,270 --> 00:18:25,860
topic given some of their past comments

528
00:18:30,710 --> 00:18:29,280
is it astronauts uh Scott Kelly Scott

529
00:18:33,529 --> 00:18:30,720
Kelly yeah

530
00:18:35,090 --> 00:18:33,539
and we've also got Nadia Drake the

531
00:18:38,150 --> 00:18:35,100
daughter of Francis Drake of the famous

532
00:18:40,430 --> 00:18:38,160
Drake Equation uh she's pretty skeptical

533
00:18:41,570 --> 00:18:40,440
on this whole thing but it's interesting

534
00:18:42,950 --> 00:18:41,580
that that's where she's coming from you

535
00:18:45,169 --> 00:18:42,960
know her dad kind of wrote the book on

536
00:18:48,110 --> 00:18:45,179
how to apply science to finding life out

537
00:18:50,630 --> 00:18:48,120
there uh so it's really intriguing to

538
00:18:53,210 --> 00:18:50,640

have her on board do not think if

539

00:18:54,950 --> 00:18:53,220

anything does come of their study it

540

00:18:57,049 --> 00:18:54,960

does mean uh do you know what I'll just

541

00:18:58,070 --> 00:18:57,059

give my opinion it would mean a little

542

00:19:00,590 --> 00:18:58,080

bit more

543

00:19:02,690 --> 00:19:00,600

to hear something positive come from the

544

00:19:04,490 --> 00:19:02,700

mouth of the Skeptics like that and

545

00:19:06,169 --> 00:19:04,500

people who did take a more hard-nosed

546

00:19:09,110 --> 00:19:06,179

approach to the UFO subject to come out

547

00:19:11,390 --> 00:19:09,120

and see actually there's more study

548

00:19:13,789 --> 00:19:11,400

needs to be done here or actually we are

549

00:19:15,529 --> 00:19:13,799

finding some really interesting data and

550

00:19:17,090 --> 00:19:15,539

we need more funding you know we need

551
00:19:19,669 --> 00:19:17,100
more people involved and there is

552
00:19:21,470 --> 00:19:19,679
something to this as opposed to a group

553
00:19:22,730 --> 00:19:21,480
of really well-known UFO people coming

554
00:19:24,049 --> 00:19:22,740
in and saying yeah let's keep going

555
00:19:26,029 --> 00:19:24,059
there's definitely something to this

556
00:19:28,070 --> 00:19:26,039
because that's what they want to say

557
00:19:29,630 --> 00:19:28,080
that that's essentially you'd be

558
00:19:32,510 --> 00:19:29,640
building in bias right and that's not

559
00:19:34,789 --> 00:19:32,520
what we want we want a bunch of data

560
00:19:36,590 --> 00:19:34,799
that's really objective that's really

561
00:19:37,909 --> 00:19:36,600
solid that other scientists can pick up

562
00:19:39,590 --> 00:19:37,919
and run with and that's hopefully what

563
00:19:41,930 --> 00:19:39,600

will come from this this initial bit of

564

00:19:44,150 --> 00:19:41,940

the nine month study uh is literally

565

00:19:45,650 --> 00:19:44,160

just the team identifying how data

566

00:19:47,330 --> 00:19:45,660

gathered by civilian government entities

567

00:19:49,190 --> 00:19:47,340

commercial data and data from other

568

00:19:51,529 --> 00:19:49,200

sources can potentially be analyzed to

569

00:19:53,270 --> 00:19:51,539

shed light on UAP and it'll then

570

00:19:54,830 --> 00:19:53,280

recommend a roadmap so we're not going

571

00:19:56,330 --> 00:19:54,840

to get to nine months and have a

572

00:19:59,090 --> 00:19:56,340

declaration from NASA that these are

573

00:20:00,409 --> 00:19:59,100

real or not there was a lie time in the

574

00:20:01,610 --> 00:20:00,419

announcement tweets where they basically

575

00:20:03,289 --> 00:20:01,620

said there's no evidence this is

576

00:20:05,210 --> 00:20:03,299

extraterrestrial and a number of people

577

00:20:07,070 --> 00:20:05,220

push back on that because that can

578

00:20:08,990 --> 00:20:07,080

rightly be seen as a conclusion before

579

00:20:10,430 --> 00:20:09,000

the study right yeah science science you

580

00:20:13,610 --> 00:20:10,440

shouldn't be making up your mind before

581

00:20:15,710 --> 00:20:13,620

you do the study then David spurgle uh

582

00:20:17,270 --> 00:20:15,720

who's heading up the study uh gave a

583

00:20:19,310 --> 00:20:17,280

statement he said I'm entering into the

584

00:20:21,350 --> 00:20:19,320

study with an open mind I am hoping that

585

00:20:23,270 --> 00:20:21,360

we will be informing NASA not so much

586

00:20:25,130 --> 00:20:23,280

about the nature of the uaps but about

587

00:20:27,529 --> 00:20:25,140

how to design a program to most

588

00:20:28,850 --> 00:20:27,539

effectively understand their nature that

589

00:20:31,450 --> 00:20:28,860

to me sounds like it's a foregone

590

00:20:34,490 --> 00:20:31,460

conclusion that they think UAP exists

591

00:20:36,529 --> 00:20:34,500

that's kind of you know an amazing

592

00:20:38,029 --> 00:20:36,539

moment for for NASA to say that like

593

00:20:40,610 --> 00:20:38,039

they exist we're just kind of advising

594

00:20:42,950 --> 00:20:40,620

how to best study them uh you know that

595

00:20:44,330 --> 00:20:42,960

that's awesome and rightfully so as well

596

00:20:46,370 --> 00:20:44,340

in terms of how to best study them

597

00:20:49,130 --> 00:20:46,380

because all the data we have so far is

598

00:20:50,450 --> 00:20:49,140

from tools of war and Ryan Graves

599

00:20:51,830 --> 00:20:50,460

himself spoke about this on The Joe

600

00:20:54,470 --> 00:20:51,840

Rogan podcast

601
00:20:56,150 --> 00:20:54,480
where he was saying those flea cameras

602
00:20:58,250 --> 00:20:56,160
and things like that they're designed to

603
00:20:59,990 --> 00:20:58,260
track enemies in a war zone these aren't

604
00:21:02,450 --> 00:21:00,000
scientific instruments and that's what

605
00:21:04,010 --> 00:21:02,460
we need to bring to bear so NASA has all

606
00:21:05,810 --> 00:21:04,020
these gadgets so they can kind of

607
00:21:08,210 --> 00:21:05,820
scientifically do read-ins and gather

608
00:21:09,890 --> 00:21:08,220
data I'd be really curious to see what

609
00:21:11,390 --> 00:21:09,900
NASA can see when they start looking

610
00:21:13,310 --> 00:21:11,400
through their data and kind of saying

611
00:21:14,870 --> 00:21:13,320
okay well what was going on according to

612
00:21:17,570 --> 00:21:14,880
our instruments off the coast of

613
00:21:19,190 --> 00:21:17,580

California in November 2004 when Dave

614

00:21:20,930 --> 00:21:19,200

fraver encountered this Tic Tac let's

615

00:21:23,029 --> 00:21:20,940

have a look you know it should come up

616

00:21:25,430 --> 00:21:23,039

with some interesting results yeah 100

617

00:21:26,630 --> 00:21:25,440

those pilots in the Navy and stuff

618

00:21:28,549 --> 00:21:26,640

aren't out there flying about looking

619

00:21:30,230 --> 00:21:28,559

for UFOs as far as we know they just

620

00:21:32,510 --> 00:21:30,240

happen to be encountering them and

621

00:21:34,430 --> 00:21:32,520

recording them as best they can on on

622

00:21:35,690 --> 00:21:34,440

the data that we get to see and we know

623

00:21:38,330 --> 00:21:35,700

they've got better stuff we know they've

624

00:21:41,690 --> 00:21:38,340

got the HD 4K videos all that all that

625

00:21:43,250 --> 00:21:41,700

close-ups telescopic lenses yeah the

626
00:21:44,450 --> 00:21:43,260
beings waving through the window like

627
00:21:45,830 --> 00:21:44,460
yeah hi

628
00:21:47,690 --> 00:21:45,840
um that's a good point though it's worth

629
00:21:49,549 --> 00:21:47,700
remembering when we talk about like the

630
00:21:52,070 --> 00:21:49,559
the van handsome race track uaps coming

631
00:21:53,870 --> 00:21:52,080
up uh just because

632
00:21:55,430 --> 00:21:53,880
commercial airline pilots when they film

633
00:21:57,529 --> 00:21:55,440
these things out the window they can't

634
00:21:59,029 --> 00:21:57,539
just turn their giant planes and go look

635
00:22:00,950 --> 00:21:59,039
at this stuff in the sky they are there

636
00:22:03,110 --> 00:22:00,960
to do a job to look after a captain full

637
00:22:05,630 --> 00:22:03,120
of people we we need a group of people

638
00:22:07,430 --> 00:22:05,640

who can go up and with a bunch of

639

00:22:09,350 --> 00:22:07,440

scientific instruments and fly towards

640

00:22:11,029 --> 00:22:09,360

these things uh hopefully that's what

641

00:22:12,409 --> 00:22:11,039

will come from this NASA study a bunch

642

00:22:13,970 --> 00:22:12,419

of people that go yeah this is legit

643

00:22:15,230 --> 00:22:13,980

let's uh let's get in a plane and just

644

00:22:17,810 --> 00:22:15,240

fly around until we see these things

645

00:22:19,730 --> 00:22:17,820

like the UFO equivalent of the movie

646

00:22:22,070 --> 00:22:19,740

Twister where they have the van that

647

00:22:23,830 --> 00:22:22,080

flies into the tornado and releases all

648

00:22:29,270 --> 00:22:23,840

the little balls yeah

649

00:22:33,710 --> 00:22:31,730

um I would want to be the guy in the

650

00:22:35,210 --> 00:22:33,720

truck who was further away watching

651
00:22:36,710 --> 00:22:35,220
people doing you know what you've said

652
00:22:38,270 --> 00:22:36,720
about going to Skinwalker Ranch and how

653
00:22:40,490 --> 00:22:38,280
you would camp out and I'd be the guy in

654
00:22:42,169 --> 00:22:40,500
the hotel in Utah like

655
00:22:43,310 --> 00:22:42,179
um asking you how your night's going I

656
00:22:46,370 --> 00:22:43,320
just don't want to be talking with me

657
00:22:48,950 --> 00:22:46,380
yeah yeah very far away Housewives shows

658
00:22:50,390 --> 00:22:48,960
and yeah 100 yeah that would be the

659
00:22:51,950 --> 00:22:50,400
difference yeah so yeah really

660
00:22:53,630 --> 00:22:51,960
interesting stuff and and you wanted to

661
00:22:55,669 --> 00:22:53,640
mention on black vaults uh John

662
00:22:57,649 --> 00:22:55,679
greenwald's NASA internal emails on that

663
00:23:01,190 --> 00:22:57,659

too oh yeah just just you know John

664

00:23:03,770 --> 00:23:01,200

released a whole trench of NASA internal

665

00:23:05,090 --> 00:23:03,780

Communications uh which were a whole

666

00:23:07,430 --> 00:23:05,100

bunch of different experts kind of

667

00:23:08,810 --> 00:23:07,440

trying to pass this subject and I really

668

00:23:10,010 --> 00:23:08,820

recommend people go read it it's really

669

00:23:12,110 --> 00:23:10,020

long but just kind of have a flick

670

00:23:14,270 --> 00:23:12,120

through and you can see

671

00:23:16,190 --> 00:23:14,280

how they're trying to combat their their

672

00:23:18,110 --> 00:23:16,200

inherent bias by having more than one

673

00:23:19,730 --> 00:23:18,120

person present by having not just

674

00:23:21,830 --> 00:23:19,740

Skeptics but also people are a bit more

675

00:23:23,690 --> 00:23:21,840

open-minded and they all argue and don't

676

00:23:25,190 --> 00:23:23,700

take it personally and I think that was

677

00:23:27,049 --> 00:23:25,200

really cool to read uh you know they're

678

00:23:29,149 --> 00:23:27,059

passing around essentially articles that

679

00:23:31,010 --> 00:23:29,159

you know you and I and people in the UFO

680

00:23:32,450 --> 00:23:31,020

Community have you know poured over over

681

00:23:34,549 --> 00:23:32,460

the past couple of years and it's really

682

00:23:36,830 --> 00:23:34,559

called sea scientists paying attention

683

00:23:38,529 --> 00:23:36,840

to that now and and looking through for

684

00:23:41,810 --> 00:23:38,539

any nugget of information they can find

685

00:23:44,450 --> 00:23:41,820

Ravi has just teamed up with Ryan Graves

686

00:23:46,310 --> 00:23:44,460

as well to launch the aiaa community of

687

00:23:48,649 --> 00:23:46,320

interest on UAP which we'll talk about

688

00:23:50,930 --> 00:23:48,659

when we get to it but uh but yeah you

689

00:23:52,610 --> 00:23:50,940

know there are some NASA scientists who

690

00:23:54,350 --> 00:23:52,620

aren't necessarily part of a huge

691

00:23:56,690 --> 00:23:54,360

cover-up that's decades long and they

692

00:23:58,850 --> 00:23:56,700

seem to be willing to do the work here

693

00:24:00,950 --> 00:23:58,860

so from an organization hoping to

694

00:24:03,289 --> 00:24:00,960

achieve first Contact we move on to

695

00:24:05,690 --> 00:24:03,299

moment of contact that's a far better

696

00:24:07,370 --> 00:24:05,700

that's a far better length yeah the

697

00:24:09,409 --> 00:24:07,380

moment of contact has just been released

698

00:24:12,909 --> 00:24:09,419

a few days ago or almost a week ago now

699

00:24:15,169 --> 00:24:12,919

by director James Fox to pretty

700

00:24:16,430 --> 00:24:15,179

overwhelming critical Acclaim as far as

701
00:24:17,750 --> 00:24:16,440

I can see

702
00:24:19,370 --> 00:24:17,760

um we're going to do a full review

703
00:24:20,990 --> 00:24:19,380

record that in the next day or two and

704
00:24:22,430 --> 00:24:21,000

get that released for you for for the

705
00:24:23,750 --> 00:24:22,440

middle of this week and end of the week

706
00:24:25,669 --> 00:24:23,760

on YouTube

707
00:24:27,169 --> 00:24:25,679

um rumors are and we'll keep our

708
00:24:30,010 --> 00:24:27,179

thoughts about the stuff for the review

709
00:24:32,990 --> 00:24:30,020

but rumors are there are potentially

710
00:24:35,510 --> 00:24:33,000

accompanying accompanying data and

711
00:24:37,669 --> 00:24:35,520

videos to be released soon

712
00:24:39,590 --> 00:24:37,679

um James Fox rumors where he had offered

713
00:24:41,630 --> 00:24:39,600

two hundred thousand dollars for the

714

00:24:44,390 --> 00:24:41,640

individual to release the video to him

715

00:24:47,029 --> 00:24:44,400

of the alleged being from the Virginia

716

00:24:49,970 --> 00:24:47,039

UFO incident in the the mid 90s in

717

00:24:51,830 --> 00:24:49,980

Brazil and yeah more and more if you

718

00:24:54,590 --> 00:24:51,840

look at Ronnie vernay a Brazilian

719

00:24:57,350 --> 00:24:54,600

journalist on Twitter he basically said

720

00:25:00,230 --> 00:24:57,360

breaking news on this uh was today

721

00:25:02,990 --> 00:25:00,240

actually just an hour or so ago after 26

722

00:25:05,330 --> 00:25:03,000

years in silence researcher Vittorio uh

723

00:25:07,490 --> 00:25:05,340

pakka it's either pakakini or pakachini

724

00:25:09,230 --> 00:25:07,500

or pachaccini it gave some explosive

725

00:25:11,210 --> 00:25:09,240

details about the Virginia beings during

726

00:25:14,750 --> 00:25:11,220

a moment of contact our motor contact

727

00:25:16,669 --> 00:25:14,760

Premiere and essentially he said that

728

00:25:19,310 --> 00:25:16,679

there there's someone's given them

729

00:25:21,610 --> 00:25:19,320

permission to watch 35 seconds of video

730

00:25:24,769 --> 00:25:21,620

of the Virginia being in a secret spot

731

00:25:26,990 --> 00:25:24,779

and there is uh the creature in the

732

00:25:28,430 --> 00:25:27,000

video the footage apparently does exist

733

00:25:30,409 --> 00:25:28,440

I'll let you go ahead and read those

734

00:25:32,870 --> 00:25:30,419

yourself folks I'll put the link in to

735

00:25:34,730 --> 00:25:32,880

Renee's tweets and I'll just make a note

736

00:25:36,289 --> 00:25:34,740

of that link to Ronnie's tweets and

737

00:25:37,250 --> 00:25:36,299

Beulah professional we got out on the

738

00:25:39,289 --> 00:25:37,260

Pod

739

00:25:41,510 --> 00:25:39,299

um but yeah I think it's one of those

740

00:25:43,310 --> 00:25:41,520

that spoiler alert there is no video

741

00:25:45,230 --> 00:25:43,320

footage of the being

742

00:25:46,730 --> 00:25:45,240

and and the documentary but I think

743

00:25:48,409 --> 00:25:46,740

James Fox made that pretty clear

744

00:25:50,269 --> 00:25:48,419

throughout the production especially

745

00:25:52,430 --> 00:25:50,279

towards release that he was trying to

746

00:25:54,350 --> 00:25:52,440

attain that there are no rumors that

747

00:25:57,710 --> 00:25:54,360

this video might be there and that would

748

00:25:59,690 --> 00:25:57,720

be absolutely huge if we could get a

749

00:26:01,549 --> 00:25:59,700

glimpse into any of that even a still

750

00:26:03,950 --> 00:26:01,559

frame of that Dan

751

00:26:05,390 --> 00:26:03,960

could be a pretty big story couldn't it

752

00:26:07,010 --> 00:26:05,400

yeah it would be it would be a game

753

00:26:08,750 --> 00:26:07,020

changer for the documentary for me you

754

00:26:10,610 --> 00:26:08,760

know one of my favorite things about the

755

00:26:13,250 --> 00:26:10,620

documentary and I'll avoid going too

756

00:26:14,570 --> 00:26:13,260

much into it uh but it's just the fact

757

00:26:17,149 --> 00:26:14,580

that James doesn't conclude you know

758

00:26:18,950 --> 00:26:17,159

he's there to do an investigation he's a

759

00:26:21,890 --> 00:26:18,960

few times kind of says you know if this

760

00:26:24,289 --> 00:26:21,900

is true this is huge so if they can add

761

00:26:26,269 --> 00:26:24,299

something that proves that it's true and

762

00:26:28,010 --> 00:26:26,279

that this creature was there and seen by

763

00:26:30,110 --> 00:26:28,020

these three girls and transported Back

764

00:26:32,029 --> 00:26:30,120

To America that would be the cherry on

765

00:26:35,149 --> 00:26:32,039

the cake that that suddenly sets this

766

00:26:37,190 --> 00:26:35,159

case a light I would say yeah and like I

767

00:26:38,630 --> 00:26:37,200

say we'll be releasing our full review I

768

00:26:41,090 --> 00:26:38,640

suggest people do check it out it's

769

00:26:43,070 --> 00:26:41,100

getting fantastic response from people

770

00:26:45,590 --> 00:26:43,080

um all around the world who have had an

771

00:26:47,269 --> 00:26:45,600

interest in this topic in case for some

772

00:26:49,730 --> 00:26:47,279

time since James said he was going to be

773

00:26:51,590 --> 00:26:49,740

doing this deep dive into it it's very

774

00:26:55,269 --> 00:26:51,600

very professionally made it looks

775

00:26:59,330 --> 00:26:55,279

fantastic and I'll just say non

776

00:27:01,850 --> 00:26:59,340

non-spoilery on my part I it's had a far

777

00:27:03,830 --> 00:27:01,860

more positive response than I thought it

778

00:27:05,930 --> 00:27:03,840

might and I'll get into those reasons

779

00:27:07,789 --> 00:27:05,940

why when we talk about it you're

780

00:27:10,010 --> 00:27:07,799

probably not intriguing yeah I could

781

00:27:11,810 --> 00:27:10,020

probably guess but I'm intrigued yeah so

782

00:27:13,970 --> 00:27:11,820

yeah and I'm really glad about that so

783

00:27:16,010 --> 00:27:13,980

yeah well done to everyone who's watched

784

00:27:17,690 --> 00:27:16,020

that as well so we'll go into that just

785

00:27:19,070 --> 00:27:17,700

a quick congratulations to James as well

786

00:27:20,810 --> 00:27:19,080

I've said this before but you know when

787

00:27:22,850 --> 00:27:20,820

the phenomenon came out he didn't get to

788

00:27:24,529 --> 00:27:22,860

have that on the Silver Screen and watch

789

00:27:25,850 --> 00:27:24,539

it and show people it and and he's

790

00:27:27,649 --> 00:27:25,860

really getting his moment with this so

791

00:27:28,789 --> 00:27:27,659

just congratulations James and thank you

792

00:27:29,990 --> 00:27:28,799

for all your hard work on this you're

793

00:27:32,529 --> 00:27:30,000

doing style work

794

00:27:35,990 --> 00:27:32,539

yes well done James

795

00:27:38,690 --> 00:27:36,000

yeah yeah he's probably not

796

00:27:40,610 --> 00:27:38,700

um uh next up uh some folks who may be

797

00:27:43,370 --> 00:27:40,620

listening uh another James who might

798

00:27:45,049 --> 00:27:43,380

actually is a James iandoli and Jay

799

00:27:47,390 --> 00:27:45,059

Christopher King

800

00:27:49,730 --> 00:27:47,400

um and potentially Priscilla Stone uh

801
00:27:51,649 --> 00:27:49,740
and Kelly Chase of the UFO Rabbit Hole

802
00:27:52,610 --> 00:27:51,659
podcast Priscilla Stone of quite a much

803
00:27:54,649 --> 00:27:52,620
Cafe

804
00:27:56,269 --> 00:27:54,659
James eindoli of engaging the phenomenon

805
00:27:58,130 --> 00:27:56,279
YouTube channel Jay Christopher count of

806
00:28:01,130 --> 00:27:58,140
the experiencer group I'm sorry folks

807
00:28:02,930 --> 00:28:01,140
hopefully basically yeah uh yeah I've

808
00:28:04,789 --> 00:28:02,940
just been seeing words someone listening

809
00:28:06,289 --> 00:28:04,799
to this for the first time and who

810
00:28:08,390 --> 00:28:06,299
hasn't signed up to Babel one of the

811
00:28:10,250 --> 00:28:08,400
sponsors has been like what's that guy

812
00:28:11,450 --> 00:28:10,260
just said yeah go back and play it on

813
00:28:13,970 --> 00:28:11,460

half speed

814

00:28:16,610 --> 00:28:13,980

um all of the above where organizers or

815

00:28:18,169 --> 00:28:16,620

hosts of the recent Conference held out

816

00:28:20,510 --> 00:28:18,179

in New York and inquired it into

817

00:28:23,390 --> 00:28:20,520

anomalous experiences and the phenomenon

818

00:28:25,669 --> 00:28:23,400

it took place in the 8th of October then

819

00:28:26,870 --> 00:28:25,679

which I've got down here last week but

820

00:28:28,310 --> 00:28:26,880

obviously that wasn't last week it's

821

00:28:29,870 --> 00:28:28,320

just been a few weeks

822

00:28:32,029 --> 00:28:29,880

um you attended the conference it's

823

00:28:34,010 --> 00:28:32,039

still available to watch on catch up as

824

00:28:36,110 --> 00:28:34,020

well headlined by the wonderful Dr Gary

825

00:28:38,330 --> 00:28:36,120

Nolan with a range of fascinating

826

00:28:41,029 --> 00:28:38,340

speakers including Mitch Horowitz Darren

827

00:28:44,510 --> 00:28:41,039

from uh point of convergence podcast Dr

828

00:28:46,070 --> 00:28:44,520

Tim grave Carlson Dr Sean esbjorn uh Dan

829

00:28:47,630 --> 00:28:46,080

just very quickly how was the whole

830

00:28:49,190 --> 00:28:47,640

experience getting to attend a

831

00:28:51,169 --> 00:28:49,200

conference like that you know out there

832

00:28:53,330 --> 00:28:51,179

in New York and meeting those people

833

00:28:55,130 --> 00:28:53,340

so firstly it was my first time in New

834

00:28:56,810 --> 00:28:55,140

York and thanking New York you you were

835

00:28:58,070 --> 00:28:56,820

amazing uh Central Park is probably one

836

00:28:59,810 --> 00:28:58,080

of my New York place it's not listening

837

00:29:01,130 --> 00:28:59,820

the planet they're all listening all of

838

00:29:03,289 --> 00:29:01,140

New York

839

00:29:05,390 --> 00:29:03,299

um and yeah it was really cool very cool

840

00:29:06,769 --> 00:29:05,400

experience uh got to meet some musicians

841

00:29:07,549 --> 00:29:06,779

on the way out there that I got to see

842

00:29:08,990 --> 00:29:07,559

play

843

00:29:10,490 --> 00:29:09,000

um and if people are listening who are

844

00:29:11,750 --> 00:29:10,500

in synchronicities there were some owl

845

00:29:13,730 --> 00:29:11,760

kind of things present throughout my

846

00:29:16,370 --> 00:29:13,740

trip and it was interesting but yeah

847

00:29:18,049 --> 00:29:16,380

back to the conference so the day

848

00:29:19,490 --> 00:29:18,059

started and it was just amazing to meet

849

00:29:21,950 --> 00:29:19,500

uh you know Priscilla and Kelly and

850

00:29:23,990 --> 00:29:21,960

James and Jay we took so much on social

851
00:29:25,610 --> 00:29:24,000
media and it's just incredible to be

852
00:29:27,590 --> 00:29:25,620
able to just give those guys a you know

853
00:29:28,730 --> 00:29:27,600
massive hug and finally connect in

854
00:29:32,090 --> 00:29:28,740
person

855
00:29:34,970 --> 00:29:32,100
um great ckt Holland as well and yeah we

856
00:29:36,169 --> 00:29:34,980
we went in and we didn't know what to

857
00:29:38,389 --> 00:29:36,179
expect because this was the first event

858
00:29:39,889 --> 00:29:38,399
right and it was a very small Affair

859
00:29:41,389 --> 00:29:39,899
it's not like the conferences that kind

860
00:29:45,110 --> 00:29:41,399
of we've been to in the UK where they're

861
00:29:48,110 --> 00:29:45,120
kind of huge uh you know maybe 80 to 100

862
00:29:51,110 --> 00:29:48,120
seats in the room most uh Dr Sean

863
00:29:54,110 --> 00:29:51,120

esbjorn hoggins are presented about

864

00:29:55,370 --> 00:29:54,120

study that he's doing an academic study

865

00:29:57,549 --> 00:29:55,380

where they're looking to take a

866

00:30:01,610 --> 00:29:57,559

quantifiable approach to the phenomena

867

00:30:03,350 --> 00:30:01,620

he kind of gave out lists of things that

868

00:30:05,750 --> 00:30:03,360

are consistent between experiences and

869

00:30:08,149 --> 00:30:05,760

they're trying to use them as as kind of

870

00:30:10,370 --> 00:30:08,159

comparable data points to come up with a

871

00:30:12,409 --> 00:30:10,380

consistent idea of what's going on he

872

00:30:15,350 --> 00:30:12,419

also mentioned weird owl experiences

873

00:30:16,970 --> 00:30:15,360

which was a crazy one but yeah that

874

00:30:19,310 --> 00:30:16,980

study is being set up the data is

875

00:30:21,230 --> 00:30:19,320

collated and reflected on I I would say

876

00:30:23,330 --> 00:30:21,240

people should reach out to Sean if they

877

00:30:26,810 --> 00:30:23,340

feel like their experiences can be part

878

00:30:28,850 --> 00:30:26,820

of that study so yeah go go for that Dr

879

00:30:31,549 --> 00:30:28,860

Tim griev Carlson's

880

00:30:32,930 --> 00:30:31,559

he he went up and he read an excerpt

881

00:30:34,190 --> 00:30:32,940

from an upcoming book where he went out

882

00:30:36,169 --> 00:30:34,200

to see some spook lights essentially

883

00:30:37,250 --> 00:30:36,179

what we saw in Colombia and that was

884

00:30:39,830 --> 00:30:37,260

really amazing I'm looking forward to

885

00:30:42,470 --> 00:30:39,840

that book he writes very well uh he was

886

00:30:44,810 --> 00:30:42,480

involved in religious studies in Rice

887

00:30:46,909 --> 00:30:44,820

University where he helped work on the

888

00:30:50,090 --> 00:30:46,919

archive of The Impossible Project with

889

00:30:52,250 --> 00:30:50,100

Dr Professor Jeffrey Krippow

890

00:30:53,990 --> 00:30:52,260

um who basically it's an archive of

891

00:30:55,370 --> 00:30:54,000

weirdness if you're into this subject

892

00:30:57,010 --> 00:30:55,380

that's where you should go and have a

893

00:30:59,029 --> 00:30:57,020

look

894

00:31:00,409 --> 00:30:59,039

exo-academian always puts on a good talk

895

00:31:02,330 --> 00:31:00,419

kind of talking about informed

896

00:31:04,250 --> 00:31:02,340

speculation on the subject

897

00:31:06,289 --> 00:31:04,260

the surprise of the day I would say was

898

00:31:07,970 --> 00:31:06,299

Mitch Horowitz people don't know a lot

899

00:31:10,549 --> 00:31:07,980

about Mitch but he has a kind of a cult

900

00:31:12,649 --> 00:31:10,559

background and he talks a lot about that

901
00:31:14,269 --> 00:31:12,659
but

902
00:31:16,250 --> 00:31:14,279
I've been eager for him to get into this

903
00:31:17,570 --> 00:31:16,260
field for years because a lot of what he

904
00:31:20,690 --> 00:31:17,580
talks about kind of overlaps with the

905
00:31:23,630 --> 00:31:20,700
UFO subject and finally here he was kind

906
00:31:26,269 --> 00:31:23,640
of waxing lyrical about UAP and he told

907
00:31:28,610 --> 00:31:26,279
the story essentially that said every

908
00:31:29,990 --> 00:31:28,620
Halloween journalists call him to kind

909
00:31:31,430 --> 00:31:30,000
of say what weird stuff's going on this

910
00:31:35,090 --> 00:31:31,440
year Mitch you know can can you tell us

911
00:31:37,070 --> 00:31:35,100
if this movement and he his whole point

912
00:31:39,289 --> 00:31:37,080
was there's been a sea change that this

913
00:31:41,870 --> 00:31:39,299

year finally when journalists say to him

914

00:31:43,430 --> 00:31:41,880

is there anything to these UFO stuff is

915

00:31:44,870 --> 00:31:43,440

is the mainstream catching on he can

916

00:31:46,669 --> 00:31:44,880

finally say yes there's been a change

917

00:31:48,409 --> 00:31:46,679

yes the mainstream is catching on and I

918

00:31:50,210 --> 00:31:48,419

don't know where it's going to go uh so

919

00:31:52,610 --> 00:31:50,220

that was a good fist bump moment you

920

00:31:54,529 --> 00:31:52,620

know and then as always Dr Gary Nolan

921

00:31:56,269 --> 00:31:54,539

knocked out of the park his talk was

922

00:31:58,669 --> 00:31:56,279

about the language of Science and

923

00:32:00,409 --> 00:31:58,679

applying it to UAP uh he spoke a lot

924

00:32:02,029 --> 00:32:00,419

about the Ukraine stuff with Abby loab

925

00:32:04,669 --> 00:32:02,039

which we'll touch on

926

00:32:06,409 --> 00:32:04,679

um and yeah he he just he asked a lot of

927

00:32:08,029 --> 00:32:06,419

questions Jay from Project Unity asked

928

00:32:09,710 --> 00:32:08,039

about the Wilson docs and Gary was kind

929

00:32:11,510 --> 00:32:09,720

of saying they're intriguing but you

930

00:32:13,370 --> 00:32:11,520

know even if you prove that they're real

931

00:32:15,470 --> 00:32:13,380

you can't prove that the content a rails

932

00:32:17,029 --> 00:32:15,480

so yeah is it worth kind of pulling that

933

00:32:18,649 --> 00:32:17,039

thread and focusing your you know all

934

00:32:21,169 --> 00:32:18,659

our efforts around it which I thought

935

00:32:23,570 --> 00:32:21,179

was an interesting point and yeah we got

936

00:32:25,130 --> 00:32:23,580

to kind of talk outside of those kind of

937

00:32:26,510 --> 00:32:25,140

presentations as well but I'd highly

938

00:32:27,950 --> 00:32:26,520

recommend you know get a live stream

939

00:32:29,029 --> 00:32:27,960

ticket watch them all it's well worth

940

00:32:30,889 --> 00:32:29,039

your time

941

00:32:32,750 --> 00:32:30,899

yeah and their next event has already

942

00:32:35,269 --> 00:32:32,760

been announced for the 3rd of December

943

00:32:36,649 --> 00:32:35,279

and if you haven't seen already Leslie

944

00:32:38,870 --> 00:32:36,659

Kane was one of the first big names

945

00:32:41,630 --> 00:32:38,880

allowance for it but uh Mr Christopher

946

00:32:43,549 --> 00:32:41,640

melon who needs no introduction has been

947

00:32:45,350 --> 00:32:43,559

announced for that one as well I can

948

00:32:46,610 --> 00:32:45,360

promise you he is not near for not there

949

00:32:48,350 --> 00:32:46,620

for the money

950

00:32:50,090 --> 00:32:48,360

um as you know Chris melon is from a

951

00:32:52,789 --> 00:32:50,100

very wealthy family

952

00:32:54,049 --> 00:32:52,799

um like billionaires and uh yeah he is

953

00:32:55,730 --> 00:32:54,059

not attending those conferences so

954

00:32:57,289 --> 00:32:55,740

that's that's a really good get for for

955

00:32:58,909 --> 00:32:57,299

James and Jane and made up for them

956

00:33:00,830 --> 00:32:58,919

because that's someone that a lot of

957

00:33:02,990 --> 00:33:00,840

people I know want to see speaking on

958

00:33:04,970 --> 00:33:03,000

the topic and it usually does a lot of

959

00:33:07,010 --> 00:33:04,980

his work behind the scenes Chris Mellon

960

00:33:09,049 --> 00:33:07,020

uh very much exclusively behind the

961

00:33:11,090 --> 00:33:09,059

scenes so it's good to see him stepping

962

00:33:13,130 --> 00:33:11,100

out into public for that conversation so

963

00:33:14,269 --> 00:33:13,140

yeah I know Ed James and Jay both

964

00:33:15,769 --> 00:33:14,279

messed in the last couple of days

965

00:33:17,870 --> 00:33:15,779

they're going to come back on near the

966

00:33:20,029 --> 00:33:17,880

time to talk about the the conversation

967

00:33:22,669 --> 00:33:20,039

talk about the conference and what can

968

00:33:24,889 --> 00:33:22,679

be expected and Mitch Horowitz I was

969

00:33:26,450 --> 00:33:24,899

speaking to a few weeks ago via DM he's

970

00:33:28,190 --> 00:33:26,460

going to come on to the podcast as well

971

00:33:29,389 --> 00:33:28,200

in the near future so hopefully that one

972

00:33:32,269 --> 00:33:29,399

will be arranged for an event number

973

00:33:34,850 --> 00:33:32,279

Sobo Leslie Kane for November as well

974

00:33:36,289 --> 00:33:34,860

good to finally get Leslie on and a few

975

00:33:37,789 --> 00:33:36,299

others but yeah just some of those

976

00:33:39,950 --> 00:33:37,799

guests are just kind of

977

00:33:41,810 --> 00:33:39,960

lining up nicely to talk about various

978

00:33:43,310 --> 00:33:41,820

different things as well so it was a

979

00:33:44,690 --> 00:33:43,320

cool stand-up moment in New York for me

980

00:33:46,130 --> 00:33:44,700

uh Jay looked at me at one point and

981

00:33:47,630 --> 00:33:46,140

said hey Dan would you mind uh going

982

00:33:49,070 --> 00:33:47,640

outside and just going to the queue

983

00:33:50,210 --> 00:33:49,080

Leslie Kane's in the queue do you want

984

00:33:52,669 --> 00:33:50,220

to just grab her and bring her inside

985

00:33:55,549 --> 00:33:52,679

and my brain kind of fricked you know

986

00:33:56,870 --> 00:33:55,559

just walking out to fetch Leslie and we

987

00:33:59,810 --> 00:33:56,880

had a lovely chat sheet she was

988

00:34:01,730 --> 00:33:59,820

genuinely just such a nice person yeah

989

00:34:03,950 --> 00:34:01,740

um again I wouldn't make that one folks

990

00:34:05,870 --> 00:34:03,960

it's Christmas young family kids you

991

00:34:07,610 --> 00:34:05,880

know it's a lot of money still to get to

992

00:34:08,990 --> 00:34:07,620

New York at this time of year but

993

00:34:10,369 --> 00:34:09,000

hopefully sometime next year I can get

994

00:34:12,230 --> 00:34:10,379

out there for one of James and Jay's

995

00:34:14,810 --> 00:34:12,240

conferences if you can and you're in the

996

00:34:16,310 --> 00:34:14,820

area definitely attend otherwise get a

997

00:34:18,290 --> 00:34:16,320

live stream ticket I saw someone on

998

00:34:19,790 --> 00:34:18,300

Twitter had very kindly said that um

999

00:34:21,950 --> 00:34:19,800

they would donate five live stream

1000

00:34:23,869 --> 00:34:21,960

tickets for for folks just because they

1001

00:34:25,250 --> 00:34:23,879

were in a good place in life and and

1002

00:34:27,649 --> 00:34:25,260

could afford to do that which I thought

1003

00:34:28,849 --> 00:34:27,659

was very nice as well so um yeah that

1004

00:34:30,710 --> 00:34:28,859

was that was really cool of them but

1005

00:34:34,970 --> 00:34:30,720

yeah if you can folks I think it was it

1006

00:34:36,829 --> 00:34:34,980

is it 25 for a life yeah 25 at the

1007

00:34:38,349 --> 00:34:36,839

moment usually 30 but I think it's an

1008

00:34:42,050 --> 00:34:38,359

early discount yeah

1009

00:34:43,909 --> 00:34:42,060

early bird or early bird early bird for

1010

00:34:45,649 --> 00:34:43,919

various accents and now

1011

00:34:47,510 --> 00:34:45,659

um is available as well so check out

1012

00:34:50,089 --> 00:34:47,520

James eindoly or J Christopher King's

1013

00:34:52,849 --> 00:34:50,099

Twitter uh feeds for those discounts and

1014

00:34:54,770 --> 00:34:52,859

stuff as well I I will also be out in

1015

00:34:56,750 --> 00:34:54,780

New York for the next event so just like

1016

00:34:58,370 --> 00:34:56,760

with my previous one I covered you know

1017

00:34:59,690 --> 00:34:58,380

I posted a lot of social medias I was

1018

00:35:01,370 --> 00:34:59,700

out there kind of experiencing this

1019

00:35:02,810 --> 00:35:01,380

stuff so follow me at the signal on

1020

00:35:04,550 --> 00:35:02,820

Instagram or Twitter and you'll kind of

1021

00:35:06,710 --> 00:35:04,560

see some of those as they're happening

1022

00:35:09,230 --> 00:35:06,720

or just follow them if you see them or

1023

00:35:12,650 --> 00:35:09,240

just follow them yeah yeah he sometimes

1024

00:35:14,930 --> 00:35:12,660

drops gummy sweets behind them back up

1025

00:35:18,589 --> 00:35:14,940

um also I'd suggest follow if you're on

1026
00:35:19,910 --> 00:35:18,599
social media at inquiry anomalous now

1027
00:35:21,710 --> 00:35:19,920
check the spelling of that because

1028
00:35:23,930 --> 00:35:21,720
iMessage James just checking he had

1029
00:35:25,790 --> 00:35:23,940
spilled anomalous incorrectly but he

1030
00:35:27,589 --> 00:35:25,800
actually was a character shot and

1031
00:35:29,510 --> 00:35:27,599
spelling it the right way so I had to go

1032
00:35:31,550 --> 00:35:29,520
with anomalous so it is

1033
00:35:33,109 --> 00:35:31,560
yeah you'll see the spelling of it as

1034
00:35:34,670 --> 00:35:33,119
correct but yeah make sure you're you're

1035
00:35:35,990 --> 00:35:34,680
following that one I don't even know Dan

1036
00:35:38,089 --> 00:35:36,000
if you would check that out and saw that

1037
00:35:39,230 --> 00:35:38,099
but yeah I checked with James iron Dory

1038
00:35:41,089 --> 00:35:39,240

just I was like you know you'll spell

1039

00:35:42,890 --> 00:35:41,099

anomalous wrong and he was like yeah we

1040

00:35:44,930 --> 00:35:42,900

were a character short so it was on

1041

00:35:46,849 --> 00:35:44,940

purpose spelling for the word I would

1042

00:35:48,710 --> 00:35:46,859

just be like that's a pun yeah a letter

1043

00:35:50,210 --> 00:35:48,720

had to go and it was little so yeah

1044

00:35:51,950 --> 00:35:50,220

there we go

1045

00:35:53,390 --> 00:35:51,960

um there's a slogan but yeah so that was

1046

00:35:54,829 --> 00:35:53,400

that was a lot of the news and I want to

1047

00:35:56,450 --> 00:35:54,839

get through some other bits and pieces

1048

00:35:57,650 --> 00:35:56,460

in quickfire format because I'm a bit

1049

00:35:59,150 --> 00:35:57,660

short of time today just getting back

1050

00:36:01,069 --> 00:35:59,160

into this and hopefully I've not sounded

1051
00:36:02,450 --> 00:36:01,079
manically depressed after the the kind

1052
00:36:03,849 --> 00:36:02,460
of weekend I had

1053
00:36:05,990 --> 00:36:03,859
um

1054
00:36:07,970 --> 00:36:06,000
thanks shut up

1055
00:36:09,890 --> 00:36:07,980
um a few things worth touching on um

1056
00:36:11,630 --> 00:36:09,900
some of you asked me to discuss a few

1057
00:36:15,470 --> 00:36:11,640
different things with Dan the first one

1058
00:36:17,950 --> 00:36:15,480
is the Mars rover shot so there was a

1059
00:36:20,569 --> 00:36:17,960
giga pan or something it's called which

1060
00:36:22,430 --> 00:36:20,579
Mars Rover takes pictures of the Mars

1061
00:36:24,530 --> 00:36:22,440
landscape and usually you see all kind

1062
00:36:27,290 --> 00:36:24,540
of interesting or sometimes just shots

1063
00:36:29,870 --> 00:36:27,300

of kind of brownie red desert

1064

00:36:31,550 --> 00:36:29,880

um however there is uh if you check the

1065

00:36:33,410 --> 00:36:31,560

link in the description or various

1066

00:36:35,810 --> 00:36:33,420

different accounts there is a particular

1067

00:36:36,530 --> 00:36:35,820

shot where something seems to be in the

1068

00:36:38,270 --> 00:36:36,540

sky

1069

00:36:39,710 --> 00:36:38,280

all I'm going to say on this one is it

1070

00:36:41,870 --> 00:36:39,720

could be something it could be nothing

1071

00:36:43,910 --> 00:36:41,880

many I know would say it's an artifact

1072

00:36:46,190 --> 00:36:43,920

or a glitch um it doesn't appear in the

1073

00:36:48,109 --> 00:36:46,200

next frame which to many would indicate

1074

00:36:49,970 --> 00:36:48,119

something was in the sky and then wasn't

1075

00:36:52,190 --> 00:36:49,980

and as we know there shouldn't be

1076

00:36:53,930 --> 00:36:52,200

anything in the sky of Mars

1077

00:36:56,930 --> 00:36:53,940

um depending on your persuasion on the

1078

00:37:00,370 --> 00:36:56,940

UFO topic but I think it's one of those

1079

00:37:04,130 --> 00:37:02,690

who are in charge of this Rover come out

1080

00:37:06,230 --> 00:37:04,140

and basically say oh yeah it was nothing

1081

00:37:08,510 --> 00:37:06,240

half the people will believe them and

1082

00:37:10,069 --> 00:37:08,520

half of them won't I I don't think that

1083

00:37:10,970 --> 00:37:10,079

is really any way as I've done to

1084

00:37:13,790 --> 00:37:10,980

address

1085

00:37:16,250 --> 00:37:13,800

the the artifact because it's just one

1086

00:37:17,930 --> 00:37:16,260

single point of a picture and the

1087

00:37:19,730 --> 00:37:17,940

quality is such that you can't really

1088

00:37:21,829 --> 00:37:19,740

zoom in on it unless it becomes a big

1089

00:37:23,810 --> 00:37:21,839

pixelated blob I mean do you want to

1090

00:37:25,190 --> 00:37:23,820

comment much more on it I could I'd love

1091

00:37:27,170 --> 00:37:25,200

it to be something I'd love it to be an

1092

00:37:28,849 --> 00:37:27,180

alien spacecraft flying I zoomed in and

1093

00:37:30,829 --> 00:37:28,859

I could see them waving no

1094

00:37:31,970 --> 00:37:30,839

um yeah you know I zoomed in I had a

1095

00:37:34,370 --> 00:37:31,980

look at some of the frames either side

1096

00:37:35,870 --> 00:37:34,380

of it if it was a camera artifact I.E

1097

00:37:37,670 --> 00:37:35,880

you know part of the sensor was dying it

1098

00:37:39,050 --> 00:37:37,680

would be present in all of them

1099

00:37:40,490 --> 00:37:39,060

um it could have been something kicked

1100

00:37:42,410 --> 00:37:40,500

up by one of the real wheels of the

1101

00:37:44,690 --> 00:37:42,420

Rover but it doesn't travel too fast so

1102

00:37:47,089 --> 00:37:44,700

probably not that uh but yeah it's

1103

00:37:48,829 --> 00:37:47,099

curious but without a time machine you

1104

00:37:51,050 --> 00:37:48,839

know without a Tic Tac we physically

1105

00:37:53,089 --> 00:37:51,060

cannot go there and see what it was even

1106

00:37:54,710 --> 00:37:53,099

if it's a fly you know if in this

1107

00:37:56,630 --> 00:37:54,720

situation usually you get my quest kind

1108

00:37:58,370 --> 00:37:56,640

of saying that's a fly that's a bug if

1109

00:37:59,930 --> 00:37:58,380

bugs are present on Mars flying in front

1110

00:38:03,589 --> 00:37:59,940

of the car shouldn't fly that's huge

1111

00:38:06,770 --> 00:38:03,599

right yeah so you know it could still be

1112

00:38:09,170 --> 00:38:06,780

something prosaic but incredible

1113

00:38:10,849 --> 00:38:09,180

more data as always are you leaning

1114

00:38:12,410 --> 00:38:10,859

towards though regardless that there is

1115

00:38:14,810 --> 00:38:12,420

something in the picture as opposed to

1116

00:38:16,130 --> 00:38:14,820

it being an issue with the camera yeah I

1117

00:38:17,510 --> 00:38:16,140

would say I'm leaning towards there

1118

00:38:19,069 --> 00:38:17,520

being something there you know we've

1119

00:38:21,230 --> 00:38:19,079

seen pictures of you know maybe fungal

1120

00:38:23,210 --> 00:38:21,240

formations on Mars of things moving

1121

00:38:24,950 --> 00:38:23,220

things or sorry things present in one

1122

00:38:27,109 --> 00:38:24,960

photo and then not in another photo not

1123

00:38:30,109 --> 00:38:27,119

moving because we didn't have film uh

1124

00:38:33,530 --> 00:38:30,119

but yeah there certainly seems to be a a

1125

00:38:35,750 --> 00:38:33,540

growing kind of idea that there is life

1126
00:38:37,130 --> 00:38:35,760
on Mars but when we say that we're not

1127
00:38:39,530 --> 00:38:37,140
talking about green men or gray men

1128
00:38:41,569 --> 00:38:39,540
we're more talking uh you know bacterial

1129
00:38:44,630 --> 00:38:41,579
or bugs or something like that yeah

1130
00:38:45,890 --> 00:38:44,640
David Bowie had a great album song Life

1131
00:38:47,329 --> 00:38:45,900
on Mars

1132
00:38:50,270 --> 00:38:47,339
um he did

1133
00:38:53,630 --> 00:38:50,280
um grind Graves uh pilot extraordinaire

1134
00:38:56,089 --> 00:38:53,640
was on Joe Rogan podcast recently

1135
00:38:57,710 --> 00:38:56,099
um Dan I've only seen the highlights of

1136
00:38:59,569 --> 00:38:57,720
it to be honest Ryan grave speaks

1137
00:39:01,010 --> 00:38:59,579
incredibly well I have asked Ryan to

1138
00:39:02,750 --> 00:39:01,020

come on the podcast before he's a busy

1139

00:39:04,490 --> 00:39:02,760

man and he's got similar things going on

1140

00:39:05,930 --> 00:39:04,500

so polite decline from him which is

1141

00:39:07,730 --> 00:39:05,940

totally understandable

1142

00:39:09,790 --> 00:39:07,740

um but yeah he went on to Joe Rogan he

1143

00:39:12,290 --> 00:39:09,800

wasn't too busy for Rogan was he but

1144

00:39:13,970 --> 00:39:12,300

that's that's fine I'm sure Joe Rogan

1145

00:39:14,930 --> 00:39:13,980

puts on a far better spread than I could

1146

00:39:16,310 --> 00:39:14,940

offer

1147

00:39:17,810 --> 00:39:16,320

um and it's great to have someone like

1148

00:39:20,270 --> 00:39:17,820

Ryan Graves if he was going to give one

1149

00:39:22,069 --> 00:39:20,280

interview you know do it on Joe Rogan's

1150

00:39:24,109 --> 00:39:22,079

podcast because that's the platform to

1151
00:39:26,150 --> 00:39:24,119
discuss this topic on I think on a mass

1152
00:39:27,890 --> 00:39:26,160
scale to get folks interested and all

1153
00:39:29,750 --> 00:39:27,900
that good stuff trickles down to to the

1154
00:39:31,730 --> 00:39:29,760
lower levels like ourselves

1155
00:39:33,650 --> 00:39:31,740
um so yeah he spoke Lily Bell talked

1156
00:39:35,930 --> 00:39:33,660
about his encounters experiences and for

1157
00:39:37,370 --> 00:39:35,940
me one of the kind of standouts was he

1158
00:39:39,650 --> 00:39:37,380
didn't mind too much doing a little bit

1159
00:39:41,569 --> 00:39:39,660
of speculation on the possibility of

1160
00:39:43,550 --> 00:39:41,579
some of these encounters being being a

1161
00:39:45,109 --> 00:39:43,560
non-human intelligence and it's nice

1162
00:39:46,849 --> 00:39:45,119
again to hear someone like that just

1163
00:39:48,530 --> 00:39:46,859

being able to say that out there in a

1164

00:39:50,030 --> 00:39:48,540

public forum to millions of people

1165

00:39:52,010 --> 00:39:50,040

viewing and listening around the world

1166

00:39:53,990 --> 00:39:52,020

yeah yeah you know he's someone

1167

00:39:56,990 --> 00:39:54,000

reputable like you say he's an expert

1168

00:39:58,790 --> 00:39:57,000

and it kind of the interview stacks on

1169

00:40:00,290 --> 00:39:58,800

top of the one he Ryan did with Lex

1170

00:40:02,089 --> 00:40:00,300

fredman I would say you know they're a

1171

00:40:04,310 --> 00:40:02,099

good ones who listen to them both uh

1172

00:40:05,930 --> 00:40:04,320

with Lex they talked about Ryan's

1173

00:40:07,910 --> 00:40:05,940

experience as a fighter pilot for a lot

1174

00:40:09,230 --> 00:40:07,920

of it and that was amazingly informative

1175

00:40:11,690 --> 00:40:09,240

but pretty much straight from the get-go

1176
00:40:14,390 --> 00:40:11,700
in this one they're talking about UAP uh

1177
00:40:16,250 --> 00:40:14,400
he recounts a number of things and there

1178
00:40:19,010 --> 00:40:16,260
were a few quotes that I just picked out

1179
00:40:20,510 --> 00:40:19,020
um yeah one one wish I've mentioned

1180
00:40:22,730 --> 00:40:20,520
already was where Ryan was saying that

1181
00:40:24,109 --> 00:40:22,740
an F-18 isn't an analytical tool it's a

1182
00:40:25,730 --> 00:40:24,119
tool of war and we need proper

1183
00:40:28,430 --> 00:40:25,740
scientific instruments kind of directed

1184
00:40:30,710 --> 00:40:28,440
at these UAP that we're finding

1185
00:40:31,910 --> 00:40:30,720
second was that he pointed out that the

1186
00:40:33,589 --> 00:40:31,920
shape that we're seeing in the gimbal

1187
00:40:35,870 --> 00:40:33,599
video that's the shape of the energy

1188
00:40:37,069 --> 00:40:35,880

that the object is emitting so when

1189

00:40:38,870 --> 00:40:37,079

we're talking about it being a spinning

1190

00:40:40,849 --> 00:40:38,880

top based on the shape of the gimbal in

1191

00:40:42,410 --> 00:40:40,859

the video it's probably not a spinning

1192

00:40:44,569 --> 00:40:42,420

top that's not how it looks we're not

1193

00:40:46,010 --> 00:40:44,579

seeing the shape there so there's a

1194

00:40:47,930 --> 00:40:46,020

whole bunch of you know graphic artists

1195

00:40:50,750 --> 00:40:47,940

out there that just kind of went ah back

1196

00:40:52,790 --> 00:40:50,760

to the drawing board then and uh yeah I

1197

00:40:54,589 --> 00:40:52,800

thought that was interesting he also

1198

00:40:56,510 --> 00:40:54,599

stated he believes there's a pathway for

1199

00:40:58,550 --> 00:40:56,520

declassification of data so that

1200

00:40:59,870 --> 00:40:58,560

scientists can help understand it which

1201
00:41:01,370 --> 00:40:59,880
was interesting that would have been

1202
00:41:02,870 --> 00:41:01,380
something I would have liked to have

1203
00:41:05,450 --> 00:41:02,880
followed up on well you know why Ryan

1204
00:41:07,310 --> 00:41:05,460
has that impression and

1205
00:41:08,270 --> 00:41:07,320
than the the final one that I'd like to

1206
00:41:10,550 --> 00:41:08,280
highlight

1207
00:41:12,950 --> 00:41:10,560
is that at one point he said

1208
00:41:14,630 --> 00:41:12,960
they were talking about politicians and

1209
00:41:16,730 --> 00:41:14,640
how you know we're failures came down if

1210
00:41:18,349 --> 00:41:16,740
visitors came down they would go see the

1211
00:41:20,390 --> 00:41:18,359
president or something that's what we

1212
00:41:22,010 --> 00:41:20,400
assume but Ryan quite rightly pointed

1213
00:41:23,089 --> 00:41:22,020

out you know if we find an ant colony in

1214

00:41:24,589 --> 00:41:23,099

the garden do we make ourselves

1215

00:41:27,890 --> 00:41:24,599

available to meet the queen of the hive

1216

00:41:29,450 --> 00:41:27,900

no so it was a really good analogy for

1217

00:41:30,710 --> 00:41:29,460

kind of saying you know yeah we think of

1218

00:41:33,470 --> 00:41:30,720

everything in terms of politics but

1219

00:41:35,030 --> 00:41:33,480

something coming here wouldn't and it's

1220

00:41:36,470 --> 00:41:35,040

a testament to all these kind of school

1221

00:41:38,530 --> 00:41:36,480

Landings and things like that that we

1222

00:41:40,970 --> 00:41:38,540

always see happening

1223

00:41:42,349 --> 00:41:40,980

on that that point people might be

1224

00:41:43,910 --> 00:41:42,359

listening to this and thinking yeah but

1225

00:41:45,890 --> 00:41:43,920

that's what I think anyway that you know

1226

00:41:47,510 --> 00:41:45,900

why would they come down here the point

1227

00:41:49,730 --> 00:41:47,520

being and what we're trying to say is

1228

00:41:52,010 --> 00:41:49,740

Ryan graves are saying this to three or

1229

00:41:53,810 --> 00:41:52,020

four million people most of which don't

1230

00:41:55,730 --> 00:41:53,820

have that deep in interest in the UFO

1231

00:41:58,069 --> 00:41:55,740

subject and it just makes them think

1232

00:41:59,630 --> 00:41:58,079

that little that one line especially

1233

00:42:02,450 --> 00:41:59,640

something like that for me makes people

1234

00:42:04,790 --> 00:42:02,460

go huh I never thought about it that way

1235

00:42:06,770 --> 00:42:04,800

maybe I should look at this slightly

1236

00:42:07,970 --> 00:42:06,780

differently and that for me is the big

1237

00:42:09,710 --> 00:42:07,980

thing with these sorts of interviews

1238

00:42:11,569 --> 00:42:09,720

that that's where I kind of you know

1239

00:42:13,190 --> 00:42:11,579

similar to nope the movie that's what I

1240

00:42:14,990 --> 00:42:13,200

took from that that they put in this

1241

00:42:16,370 --> 00:42:15,000

other idea of what these things could be

1242

00:42:18,349 --> 00:42:16,380

in front of millions of people that

1243

00:42:19,550 --> 00:42:18,359

don't like a loving organism yeah it's

1244

00:42:21,290 --> 00:42:19,560

just like okay well let's think a little

1245

00:42:22,670 --> 00:42:21,300

outside the box here you know maybe it's

1246

00:42:24,109 --> 00:42:22,680

not just something coming from another

1247

00:42:27,530 --> 00:42:24,119

planet visiting

1248

00:42:28,910 --> 00:42:27,540

Ryan also uh

1249

00:42:33,050 --> 00:42:28,920

posted the other day I think it was

1250

00:42:34,550 --> 00:42:33,060

October 19th uh that the aiaa community

1251
00:42:36,530 --> 00:42:34,560
of Interest has launched I mentioned

1252
00:42:38,510 --> 00:42:36,540
this earlier but basically they want to

1253
00:42:40,370 --> 00:42:38,520
help uh

1254
00:42:42,530 --> 00:42:40,380
the community of interest is to study

1255
00:42:43,790 --> 00:42:42,540
the unidentified unidentified aerial

1256
00:42:46,550 --> 00:42:43,800
phenomena and educate government

1257
00:42:49,490 --> 00:42:46,560
Academia and Industry on Aerospace

1258
00:42:51,829 --> 00:42:49,500
safety so he's working with Ravi

1259
00:42:54,230 --> 00:42:51,839
kaparapu who's a planetary scientist at

1260
00:42:56,150 --> 00:42:54,240
Nasser and is included in those emails

1261
00:42:58,010 --> 00:42:56,160
that John Greenmore got from NASA so if

1262
00:42:59,030 --> 00:42:58,020
you want to find out what he kind of

1263
00:43:00,950 --> 00:42:59,040

thinks of the subject have a look

1264

00:43:02,329 --> 00:43:00,960

through there but they have three teams

1265

00:43:04,370 --> 00:43:02,339

there's the human factor the Outreach

1266

00:43:05,329 --> 00:43:04,380

factor and the hardware factors so

1267

00:43:07,069 --> 00:43:05,339

they'll be looking at the hardware

1268

00:43:08,450 --> 00:43:07,079

that'll be a very neutral point then

1269

00:43:09,950 --> 00:43:08,460

there's Outreach which is pretty much

1270

00:43:12,230 --> 00:43:09,960

what it sounds like you know the the

1271

00:43:13,790 --> 00:43:12,240

subject matter experts talking to people

1272

00:43:16,010 --> 00:43:13,800

who are interested in a scientific

1273

00:43:17,870 --> 00:43:16,020

engineering way and then you've got the

1274

00:43:19,370 --> 00:43:17,880

human factors which engages with

1275

00:43:20,990 --> 00:43:19,380

scientific and engineer and research

1276

00:43:23,809 --> 00:43:21,000

communities who assist with educating

1277

00:43:26,089 --> 00:43:23,819

the Aerospace Community relative to the

1278

00:43:27,890 --> 00:43:26,099

Aerospace safety factors with UAP so

1279

00:43:29,750 --> 00:43:27,900

it's all about air safety air safety

1280

00:43:31,190 --> 00:43:29,760

safety basically

1281

00:43:33,290 --> 00:43:31,200

um and that's what we're seeing

1282

00:43:34,370 --> 00:43:33,300

addressed as well with Ben Hansen and

1283

00:43:37,370 --> 00:43:34,380

what's going on with him and the

1284

00:43:39,290 --> 00:43:37,380

racetrack uaps is it fair to say Dan

1285

00:43:41,809 --> 00:43:39,300

we've only got a few minutes left but

1286

00:43:43,250 --> 00:43:41,819

people complained about the threat

1287

00:43:46,010 --> 00:43:43,260

narrative being used and official

1288

00:43:47,750 --> 00:43:46,020

capacity by folks like Louis zondo but

1289

00:43:49,069 --> 00:43:47,760

it did get the military involved and the

1290

00:43:51,349 --> 00:43:49,079

Navy involved in a way they weren't

1291

00:43:54,109 --> 00:43:51,359

before in the UFO subject so as much as

1292

00:43:56,329 --> 00:43:54,119

people might be oh the AIA stuff you

1293

00:43:58,609 --> 00:43:56,339

know that's not really UFO related and

1294

00:44:01,670 --> 00:43:58,619

talking about air safety but you might

1295

00:44:02,750 --> 00:44:01,680

get organizations interested in the UFO

1296

00:44:05,930 --> 00:44:02,760

subject

1297

00:44:10,370 --> 00:44:05,940

and directly because you go with their

1298

00:44:12,349 --> 00:44:10,380

it's their uh their example of a threat

1299

00:44:14,089 --> 00:44:12,359

narrative you know air safety is really

1300

00:44:15,710 --> 00:44:14,099

important oh is it yeah okay well that's

1301

00:44:17,089 --> 00:44:15,720

that's true so we have to look at

1302

00:44:19,790 --> 00:44:17,099

something that may be affecting that

1303

00:44:21,950 --> 00:44:19,800

which is unidentified aerial phenomenon

1304

00:44:23,930 --> 00:44:21,960

or UFOs as you might know them and it

1305

00:44:26,030 --> 00:44:23,940

just gets them into that conversation a

1306

00:44:27,589 --> 00:44:26,040

different way is that fair yeah I would

1307

00:44:29,210 --> 00:44:27,599

say that that's precisely the the right

1308

00:44:30,829 --> 00:44:29,220

way to think about it you know people

1309

00:44:32,150 --> 00:44:30,839

are coming because these are there there

1310

00:44:34,910 --> 00:44:32,160

not because they agree that they're

1311

00:44:37,490 --> 00:44:34,920

aliens but I don't really care if they

1312

00:44:38,809 --> 00:44:37,500

agree with you know my thinking that

1313

00:44:40,250 --> 00:44:38,819

it's something else and something other

1314

00:44:41,690 --> 00:44:40,260

the fact is they're looking at it and

1315

00:44:42,829 --> 00:44:41,700

that's more than we've ever had in this

1316

00:44:44,089 --> 00:44:42,839

subject

1317

00:44:46,550 --> 00:44:44,099

um looking at it with an actual open

1318

00:44:47,930 --> 00:44:46,560

mind and when they say about threats it

1319

00:44:49,250 --> 00:44:47,940

doesn't necessarily mean as Stephen gray

1320

00:44:50,930 --> 00:44:49,260

would assert that they're you know

1321

00:44:53,030 --> 00:44:50,940

coming down and blowing us up with these

1322

00:44:55,430 --> 00:44:53,040

Special bombs that they have

1323

00:44:57,290 --> 00:44:55,440

um it just means that it could be a

1324

00:44:59,030 --> 00:44:57,300

threat to air safety because there are

1325

00:45:00,770 --> 00:44:59,040

genuinely some examples where commercial

1326

00:45:02,329 --> 00:45:00,780

pilots have swived to avoid these things

1327

00:45:04,490 --> 00:45:02,339

you know drop their plane hundreds of

1328

00:45:05,510 --> 00:45:04,500

feet in seconds and some passengers have

1329

00:45:09,230 --> 00:45:05,520

been injured and gone to hospital

1330

00:45:10,670 --> 00:45:09,240

afterwards it is a safety issue and if

1331

00:45:12,050 --> 00:45:10,680

these things can fly right through Jets

1332

00:45:13,550 --> 00:45:12,060

we kind of need to know that so we know

1333

00:45:15,710 --> 00:45:13,560

not to Swerve you know

1334

00:45:17,329 --> 00:45:15,720

okay you've got 30 seconds on each of

1335

00:45:19,490 --> 00:45:17,339

the next topics I want to discuss of

1336

00:45:21,770 --> 00:45:19,500

which there are four okay and I'm going

1337

00:45:23,930 --> 00:45:21,780

to time you on them as well and both of

1338

00:45:25,609 --> 00:45:23,940

us have the 30 seconds between us

1339

00:45:27,410 --> 00:45:25,619

um Stephen Greer who you mentioned was

1340

00:45:29,630 --> 00:45:27,420

on The Theory of Everything podcast Dan

1341

00:45:31,490 --> 00:45:29,640

you were on that with Kurt uh Carter

1342

00:45:32,750 --> 00:45:31,500

of course and people if you

1343

00:45:34,790 --> 00:45:32,760

haven't checked that one out go and

1344

00:45:36,890 --> 00:45:34,800

check out Cuts done a variety of UFO

1345

00:45:39,109 --> 00:45:36,900

related interviews

1346

00:45:42,410 --> 00:45:39,119

it was a pretty mixed response from

1347

00:45:45,349 --> 00:45:42,420

folks online the online community the

1348

00:45:47,150 --> 00:45:45,359

UFO Community anyway is is quite vocal

1349

00:45:48,710 --> 00:45:47,160

against Stephen Greer well the ones who

1350

00:45:49,970 --> 00:45:48,720

don't like him anyway so they were

1351
00:45:51,349 --> 00:45:49,980
always going to shoot the loudest about

1352
00:45:53,030 --> 00:45:51,359
this

1353
00:45:54,890 --> 00:45:53,040
um Stephen Greer I've shared my thoughts

1354
00:45:57,530 --> 00:45:54,900
on many times I think he was someone 20

1355
00:46:00,109 --> 00:45:57,540
years ago had maybe the right intentions

1356
00:46:01,730 --> 00:46:00,119
with the subject and then God knows all

1357
00:46:05,050 --> 00:46:01,740
the stuff that's going on since then but

1358
00:46:07,430 --> 00:46:05,060
his arms got bigger and so did his ego

1359
00:46:08,750 --> 00:46:07,440
you can't necessarily blame that to be

1360
00:46:11,510 --> 00:46:08,760
fair but

1361
00:46:15,290 --> 00:46:11,520
um I think if you have not seen cutjoy

1362
00:46:17,809 --> 00:46:15,300
mango style it can Clash wildly with

1363
00:46:19,849 --> 00:46:17,819

people like Stephen Greer and Linda

1364

00:46:22,030 --> 00:46:19,859

Moulton Howe because he usually does

1365

00:46:25,609 --> 00:46:22,040

really fascinating in depth and

1366

00:46:28,430 --> 00:46:25,619

intellectual talks on physics and you

1367

00:46:30,170 --> 00:46:28,440

know quantum physics and Mathematics and

1368

00:46:31,790 --> 00:46:30,180

you know some really really Niche

1369

00:46:34,010 --> 00:46:31,800

subjects with some very very interesting

1370

00:46:36,530 --> 00:46:34,020

and very intelligent individuals and

1371

00:46:38,809 --> 00:46:36,540

then he gets on Stephen Greer who claims

1372

00:46:41,030 --> 00:46:38,819

to be some of these things but when he's

1373

00:46:42,530 --> 00:46:41,040

asked or pressed on you know oh let's

1374

00:46:45,290 --> 00:46:42,540

talk about physics because that's I'm

1375

00:46:47,510 --> 00:46:45,300

classically trained in physics as a Kurt

1376

00:46:49,910 --> 00:46:47,520

told them and Stephen went oh no no no

1377

00:46:52,790 --> 00:46:49,920

yeah it's like that was your chance Dr

1378

00:46:55,309 --> 00:46:52,800

Grier to you know really get get into it

1379

00:46:57,050 --> 00:46:55,319

and you didn't so there's been some

1380

00:46:59,270 --> 00:46:57,060

fantastic UFO interviews done by cut

1381

00:47:01,490 --> 00:46:59,280

there's been some ones that have been a

1382

00:47:03,890 --> 00:47:01,500

little bit more Awkward or car crashy

1383

00:47:06,050 --> 00:47:03,900

seal in the mountain how who stormed off

1384

00:47:09,290 --> 00:47:06,060

at the end which was a shame and really

1385

00:47:10,970 --> 00:47:09,300

no fault of cuts ruined a birthday yeah

1386

00:47:12,349 --> 00:47:10,980

dead yep and then you've got the one

1387

00:47:14,150 --> 00:47:12,359

where Stephen Greer's going on and

1388

00:47:16,250 --> 00:47:14,160

largely to promote something he had

1389

00:47:18,710 --> 00:47:16,260

coming up but which is which is what he

1390

00:47:20,150 --> 00:47:18,720

was doing yeah it was it was very if

1391

00:47:22,309 --> 00:47:20,160

anyone watches it you know for the first

1392

00:47:23,390 --> 00:47:22,319

hour Kurt and I were met like messaging

1393

00:47:25,550 --> 00:47:23,400

each other saying like get a question

1394

00:47:26,990 --> 00:47:25,560

and get a question because Greer clearly

1395

00:47:28,069 --> 00:47:27,000

you know you you asked how come he was

1396

00:47:30,290 --> 00:47:28,079

doing this one interview and he's

1397

00:47:31,849 --> 00:47:30,300

notoriously hard to get on podcasts and

1398

00:47:33,890 --> 00:47:31,859

then he just spoke for a long time and

1399

00:47:36,470 --> 00:47:33,900

it was just it was a lot I'll say that

1400

00:47:38,930 --> 00:47:36,480

uh but I was glad that I was there

1401

00:47:39,950 --> 00:47:38,940

because when it got quite awkward it

1402

00:47:41,089 --> 00:47:39,960

meant that there was someone else to

1403

00:47:42,950 --> 00:47:41,099

kind of step in and direct the

1404

00:47:44,630 --> 00:47:42,960

conversation elsewhere and that was

1405

00:47:46,190 --> 00:47:44,640

specifically where Kurt was pushing

1406

00:47:47,690 --> 00:47:46,200

Greer on the physics of it and kind of

1407

00:47:49,430 --> 00:47:47,700

saying you know you don't need to play

1408

00:47:50,990 --> 00:47:49,440

koi with this audience this audience is

1409

00:47:52,790 --> 00:47:51,000

the audience who's into the physics so

1410

00:47:54,770 --> 00:47:52,800

speak as much as you want yeah it became

1411

00:47:57,230 --> 00:47:54,780

very apparent that Greer didn't really

1412

00:47:58,609 --> 00:47:57,240

understand what he was what he was

1413

00:48:00,050 --> 00:47:58,619

saying

1414

00:48:02,150 --> 00:48:00,060

um some of the words he was using and

1415

00:48:03,829 --> 00:48:02,160

that's fine if you know you know not all

1416

00:48:05,150 --> 00:48:03,839

of us are physicists but at that point

1417

00:48:06,829 --> 00:48:05,160

is where you'd expect someone to just

1418

00:48:08,930 --> 00:48:06,839

put their hands up and say I don't know

1419

00:48:10,430 --> 00:48:08,940

like I'm not the person that has made

1420

00:48:12,950 --> 00:48:10,440

this free energy device that he was

1421

00:48:15,530 --> 00:48:12,960

talking about so I can't Enlighten you

1422

00:48:16,790 --> 00:48:15,540

we got to speak about Tom Delong why

1423

00:48:18,290 --> 00:48:16,800

they fell out

1424

00:48:20,210 --> 00:48:18,300

um you know I got to ask Stephen about

1425

00:48:22,309 --> 00:48:20,220

flares as well

1426

00:48:23,990 --> 00:48:22,319

um several times actually and the answer

1427

00:48:25,550 --> 00:48:24,000

there was that there are people messing

1428

00:48:27,650 --> 00:48:25,560

with them and other actors might have

1429

00:48:29,270 --> 00:48:27,660

dropped the flares which to be honest I

1430

00:48:30,410 --> 00:48:29,280

don't believe because you know they're

1431

00:48:32,210 --> 00:48:30,420

they're uh

1432

00:48:34,550 --> 00:48:32,220

receipts essentially Point into Stephen

1433

00:48:36,230 --> 00:48:34,560

Greer's company and doing this but for

1434

00:48:38,569 --> 00:48:36,240

me there was a really nice bit of

1435

00:48:41,270 --> 00:48:38,579

feedback I go about the whole thing so

1436

00:48:44,150 --> 00:48:41,280

not just that Stephen Greer called just

1437

00:48:46,730 --> 00:48:44,160

Justin Bieber Justice Beaver

1438

00:48:48,230 --> 00:48:46,740

um but also that

1439

00:48:49,670 --> 00:48:48,240

someone said to me that they really

1440

00:48:51,770 --> 00:48:49,680

wanted going into the interview they

1441

00:48:53,569 --> 00:48:51,780

wanted it to be a gotcha interview to

1442

00:48:55,430 --> 00:48:53,579

kind of show Stephen up and they said

1443

00:48:57,410 --> 00:48:55,440

that when the interview finished they

1444

00:49:00,170 --> 00:48:57,420

realized that doing a gotcha interview

1445

00:49:01,730 --> 00:49:00,180

isn't very insightful and that it was a

1446

00:49:04,010 --> 00:49:01,740

lot more informative to

1447

00:49:05,450 --> 00:49:04,020

see people let Steven say his peace and

1448

00:49:07,010 --> 00:49:05,460

give his answers

1449

00:49:08,750 --> 00:49:07,020

um and now they have a better idea of

1450

00:49:10,370 --> 00:49:08,760

who Stephen Greer is and I would say the

1451
00:49:12,589 --> 00:49:10,380
mask dropped during that interview a bit

1452
00:49:15,410 --> 00:49:12,599
so yeah people should go watch it in my

1453
00:49:17,089 --> 00:49:15,420
inform as to maybe if they should even

1454
00:49:19,309 --> 00:49:17,099
be listening to to what Stephen Curry

1455
00:49:21,290 --> 00:49:19,319
has to say yeah go ahead and check that

1456
00:49:22,910 --> 00:49:21,300
one out um on the podcast next week is

1457
00:49:26,210 --> 00:49:22,920
Dr Stephen Grier with his fascinating

1458
00:49:28,309 --> 00:49:26,220
new documentary I'm joking he's not

1459
00:49:30,109 --> 00:49:28,319
coming on he never gets back to me

1460
00:49:31,790 --> 00:49:30,119
um so yeah there you go go on folks and

1461
00:49:33,890 --> 00:49:31,800
I'll as always make up your own mind on

1462
00:49:35,809 --> 00:49:33,900
Dr Greer I know many of you are big fans

1463
00:49:39,650 --> 00:49:35,819

of heads and that's absolutely fine you

1464

00:49:41,210 --> 00:49:39,660

know I yeah that's it but yeah just

1465

00:49:43,309 --> 00:49:41,220

emphasize that even if you don't agree

1466

00:49:45,589 --> 00:49:43,319

with Dr Grier stuff like ce5 human

1467

00:49:48,530 --> 00:49:45,599

initiated contact goes way back before

1468

00:49:50,510 --> 00:49:48,540

him yeah so you know by foing what Dr

1469

00:49:53,030 --> 00:49:50,520

Green is saying and what he's become of

1470

00:49:55,250 --> 00:49:53,040

in the past years that's not a

1471

00:49:56,950 --> 00:49:55,260

reflection on the subject itself we've

1472

00:49:59,210 --> 00:49:56,960

gone way over 30 seconds on that one

1473

00:50:00,650 --> 00:49:59,220

some of this documentary stuff is okay

1474

00:50:02,990 --> 00:50:00,660

bits of it

1475

00:50:04,609 --> 00:50:03,000

um yeah very quickly George Knapp had a

1476
00:50:06,470 --> 00:50:04,619
piece on eight news where he works out

1477
00:50:08,450 --> 00:50:06,480
in Las Vegas on Radiance Technologies

1478
00:50:10,609 --> 00:50:08,460
they're a company that has employee

1479
00:50:13,849 --> 00:50:10,619
owned ties to Travis Taylor and Jay

1480
00:50:15,589 --> 00:50:13,859
Stratton who um famously You Know Travis

1481
00:50:17,510 --> 00:50:15,599
the chief scientist in the UAP task

1482
00:50:19,550 --> 00:50:17,520
force wrote the report they have offices

1483
00:50:22,130 --> 00:50:19,560
within rate Paterson Air Force Base and

1484
00:50:24,470 --> 00:50:22,140
Nellis Air Force Base and the big

1485
00:50:26,809 --> 00:50:24,480
takeaway from this folks was uh the

1486
00:50:29,089 --> 00:50:26,819
president of Radiance Technologies is

1487
00:50:30,589 --> 00:50:29,099
one Tim Tinsley who has kind of worked

1488
00:50:32,809 --> 00:50:30,599

his way up to be the president of said

1489

00:50:34,490 --> 00:50:32,819

company and a lot of people were jumping

1490

00:50:36,349 --> 00:50:34,500

on his comment that they wouldn't shy

1491

00:50:39,170 --> 00:50:36,359

away from getting involved with UFO or

1492

00:50:40,970 --> 00:50:39,180

UAP related contracts I think you can

1493

00:50:43,190 --> 00:50:40,980

take the line with a little bit of a

1494

00:50:44,750 --> 00:50:43,200

pinch of salt because if you if you see

1495

00:50:45,950 --> 00:50:44,760

the interview and I'll put the the link

1496

00:50:48,410 --> 00:50:45,960

to it under

1497

00:50:49,549 --> 00:50:48,420

the description he's sort of asked the

1498

00:50:51,170 --> 00:50:49,559

question but you don't get to see him

1499

00:50:53,870 --> 00:50:51,180

being asked a question and he does that

1500

00:50:55,549 --> 00:50:53,880

you know sure yeah we would we would get

1501
00:50:57,170 --> 00:50:55,559
involved in UFO related contracts why

1502
00:50:59,210 --> 00:50:57,180
not we're a private contractor you would

1503
00:51:01,309 --> 00:50:59,220
want to it would be cool it's very

1504
00:51:03,109 --> 00:51:01,319
throwaway um and he's just being honest

1505
00:51:04,670 --> 00:51:03,119
that yeah but get involved but yeah I

1506
00:51:07,309 --> 00:51:04,680
don't think there was too much to it but

1507
00:51:09,589 --> 00:51:07,319
what it did highlight is again the CV of

1508
00:51:11,329 --> 00:51:09,599
Travis Taylor which I always think it's

1509
00:51:14,030 --> 00:51:11,339
fascinating more and more that the

1510
00:51:15,829 --> 00:51:14,040
skinwalker range TV series almost seems

1511
00:51:18,770 --> 00:51:15,839
detrimental through no fault of their

1512
00:51:21,589 --> 00:51:18,780
own to the character of Travis Taylor

1513
00:51:22,849 --> 00:51:21,599

yet people forget the the kind of Genius

1514

00:51:25,069 --> 00:51:22,859

behind the man because his

1515

00:51:26,569 --> 00:51:25,079

qualifications and academic academic

1516

00:51:28,430 --> 00:51:26,579

backgrounds speak for themselves then

1517

00:51:30,910 --> 00:51:28,440

you'll get five seconds

1518

00:51:34,190 --> 00:51:30,920

I agree yeah

1519

00:51:35,569 --> 00:51:34,200

that's 30 seconds I just wanted to touch

1520

00:51:37,309 --> 00:51:35,579

on a couple of things literally a few

1521

00:51:39,049 --> 00:51:37,319

lines each uh and we won't get to the

1522

00:51:41,089 --> 00:51:39,059

bet at the end but that's fine um Avila

1523

00:51:42,770 --> 00:51:41,099

web had commented on new APS above your

1524

00:51:44,450 --> 00:51:42,780

crane saying there's pretty prosaic

1525

00:51:46,309 --> 00:51:44,460

explanations for them Dan this

1526
00:51:47,510 --> 00:51:46,319
disappointed some people but what were

1527
00:51:49,849 --> 00:51:47,520
your thoughts

1528
00:51:51,650 --> 00:51:49,859
just that you know you you can just feel

1529
00:51:53,390 --> 00:51:51,660
free to disagree with Abby I'm sure he'd

1530
00:51:54,829 --> 00:51:53,400
welcome it if you presented that

1531
00:51:57,049 --> 00:51:54,839
disagreement in the language that he

1532
00:51:58,490 --> 00:51:57,059
knows which is a peer review paper avi's

1533
00:52:00,049 --> 00:51:58,500
written a paper he's put it out you can

1534
00:52:02,569 --> 00:52:00,059
disagree with it but you need the data

1535
00:52:04,069 --> 00:52:02,579
to back it up so for example he thinks

1536
00:52:06,589 --> 00:52:04,079
that actually it's probably artillery

1537
00:52:08,510 --> 00:52:06,599
shells you could object on the shape of

1538
00:52:10,910 --> 00:52:08,520

some of these objects or maybe the fact

1539

00:52:12,170 --> 00:52:10,920

that this study was done really early so

1540

00:52:13,130 --> 00:52:12,180

the wall might have not kicked off and

1541

00:52:15,170 --> 00:52:13,140

there wouldn't have been artillery

1542

00:52:17,750 --> 00:52:15,180

flying around but the point is you need

1543

00:52:19,549 --> 00:52:17,760

to speak his language and that that's

1544

00:52:21,530 --> 00:52:19,559

where we have scientists coming in and

1545

00:52:23,210 --> 00:52:21,540

kind of grappling over it that Abby

1546

00:52:24,650 --> 00:52:23,220

doesn't think it's bad to be wrong he

1547

00:52:25,849 --> 00:52:24,660

thinks it's bad to not investigate

1548

00:52:27,470 --> 00:52:25,859

something so he's just putting his

1549

00:52:30,230 --> 00:52:27,480

assertions out so that they can be

1550

00:52:31,730 --> 00:52:30,240

discussed yeah and also very quickly

1551

00:52:34,130 --> 00:52:31,740

we'll just finish on this one the Ben

1552

00:52:35,930 --> 00:52:34,140

Hansen race track UAP reports Ben Hansen

1553

00:52:38,450 --> 00:52:35,940

done a special update a few weeks ago in

1554

00:52:42,049 --> 00:52:38,460

the podcast thanks to Ben on uh some

1555

00:52:44,329 --> 00:52:42,059

Pilots uh sightings that were filmed and

1556

00:52:46,010 --> 00:52:44,339

also the audio was released over as well

1557

00:52:47,750 --> 00:52:46,020

which was really cool Ben Hansen's been

1558

00:52:49,370 --> 00:52:47,760

following this up and he's getting

1559

00:52:52,430 --> 00:52:49,380

reports from Pilots all the way from

1560

00:52:54,109 --> 00:52:52,440

Japan to the Us and other areas as well

1561

00:52:55,730 --> 00:52:54,119

um that I just really enjoy seeing that

1562

00:52:57,710 --> 00:52:55,740

kind of bits on the ground actual work

1563

00:53:00,109 --> 00:52:57,720

done which can be a bit dirty at times

1564

00:53:01,309 --> 00:53:00,119

and people like yourself who are you

1565

00:53:02,690 --> 00:53:01,319

know you can call yourself a proper

1566

00:53:05,210 --> 00:53:02,700

researcher now because you went to

1567

00:53:07,549 --> 00:53:05,220

Colombia and you've done some music you

1568

00:53:09,049 --> 00:53:07,559

said it I'm calling you oh but it's true

1569

00:53:10,430 --> 00:53:09,059

it's just I stick the facts and that's

1570

00:53:12,170 --> 00:53:10,440

that like yourself and Vinnie and all

1571

00:53:14,089 --> 00:53:12,180

the crew that done that you went and

1572

00:53:15,650 --> 00:53:14,099

researched something and whether the

1573

00:53:17,270 --> 00:53:15,660

final product is what some people are

1574

00:53:19,490 --> 00:53:17,280

happy with or not you went and

1575

00:53:20,809 --> 00:53:19,500

researched it these Pilots may or may

1576

00:53:23,270 --> 00:53:20,819

not be seeing something worth

1577

00:53:25,010 --> 00:53:23,280

investigating but unless they actually

1578

00:53:27,530 --> 00:53:25,020

go and investigate it unless people like

1579

00:53:29,390 --> 00:53:27,540

Ben do the work and go oh let's actually

1580

00:53:31,069 --> 00:53:29,400

see what this could be let's go speak to

1581

00:53:32,809 --> 00:53:31,079

these Pilots let's go find the video

1582

00:53:35,210 --> 00:53:32,819

let's go and do some stuff as opposed to

1583

00:53:37,549 --> 00:53:35,220

just sitting online and saying yes it is

1584

00:53:39,290 --> 00:53:37,559

or no it's not then you know you have to

1585

00:53:41,329 --> 00:53:39,300

applaud the work people like Ben are

1586

00:53:42,829 --> 00:53:41,339

putting into this as well so yeah I

1587

00:53:44,329 --> 00:53:42,839

completely agree and Ben would be the

1588

00:53:46,370 --> 00:53:44,339

first person to say I don't know what

1589

00:53:48,109 --> 00:53:46,380

these are I just want to help figure it

1590

00:53:49,190 --> 00:53:48,119

out uh it's the same with the pilots

1591

00:53:50,450 --> 00:53:49,200

that are seeing them they're not saying

1592

00:53:52,010 --> 00:53:50,460

that they're aliens

1593

00:53:53,630 --> 00:53:52,020

um and that's the that's the accusation

1594

00:53:54,890 --> 00:53:53,640

that's being levied against them this is

1595

00:53:56,210 --> 00:53:54,900

the kind of work we need to be doing if

1596

00:53:58,609 --> 00:53:56,220

we want to move forward in this subject

1597

00:54:00,650 --> 00:53:58,619

not making conclusions unlimited data

1598

00:54:03,049 --> 00:54:00,660

but just investigating because like we

1599

00:54:04,309 --> 00:54:03,059

always say there's likely to be a lot of

1600

00:54:05,690 --> 00:54:04,319

different things that are causing these

1601
00:54:08,690 --> 00:54:05,700
sightings it's not just going to be one

1602
00:54:10,430 --> 00:54:08,700
thing cool just to finish up folks uh

1603
00:54:13,010 --> 00:54:10,440
Dan I hate to ask you to make

1604
00:54:14,270 --> 00:54:13,020
conclusions on limited data but based on

1605
00:54:16,730 --> 00:54:14,280
what you've seen with these reports from

1606
00:54:19,069 --> 00:54:16,740
Ben Hansen yes I know are these Pilots

1607
00:54:22,130 --> 00:54:19,079
saying alien piloted spacecraft

1608
00:54:24,049 --> 00:54:22,140
absolutely they are Folks at the start

1609
00:54:26,030 --> 00:54:24,059
of this year I got a bit of a health

1610
00:54:28,130 --> 00:54:26,040
scare and it kick-started me to getting

1611
00:54:30,530 --> 00:54:28,140
fitter healthier and generally looking

1612
00:54:32,690 --> 00:54:30,540
after myself better a healthier

1613
00:54:35,510 --> 00:54:32,700

breakfast was high on my priority list

1614

00:54:37,370 --> 00:54:35,520

and it should be for you too magic spoon

1615

00:54:39,589 --> 00:54:37,380

is the perfect way to get in your

1616

00:54:41,150 --> 00:54:39,599

morning protein eating cereal that

1617

00:54:43,370 --> 00:54:41,160

tastes like it did when you were a kid

1618

00:54:45,410 --> 00:54:43,380

without all the bad stuff I can promise

1619

00:54:47,690 --> 00:54:45,420

you there is nothing unidentified in

1620

00:54:50,450 --> 00:54:47,700

this cereal the variety pack has four

1621

00:54:53,030 --> 00:54:50,460

flavors including cocoa fruity frosted

1622

00:54:56,030 --> 00:54:53,040

and peanut butter this pack has zero

1623

00:54:58,970 --> 00:54:56,040

grams of sugar 13 to 14 grams of protein

1624

00:55:01,790 --> 00:54:58,980

and only four net grams of carbs that

1625

00:55:04,670 --> 00:55:01,800

are only 140 calories per serving it's

1626
