

THE
Loose Threads
BREAKDOWN

1
00:00:05,020 --> 00:00:02,869
this is Jim semivan and you are

2
00:00:09,830 --> 00:00:05,030
listening to that UFO podcast

3
00:00:14,629 --> 00:00:12,350
hi everyone and welcome back to that UFO

4
00:00:17,269 --> 00:00:14,639
podcast my name is Andy and I'm going to

5
00:00:20,630 --> 00:00:17,279
kick off with a joke Dan knock knock

6
00:00:23,990 --> 00:00:20,640
who's there not the uefo report due to

7
00:00:26,509 --> 00:00:24,000
Congress on the 31st of October 2022. we

8
00:00:28,910 --> 00:00:26,519
are still waiting on it as we come into

9
00:00:31,189 --> 00:00:28,920
another breakdown for this month is it

10
00:00:32,930 --> 00:00:31,199
fair to say Dan by this point we thought

11
00:00:34,670 --> 00:00:32,940
we would have had a breaking news pod on

12
00:00:37,010 --> 00:00:34,680
the report we thought we would have

13
00:00:38,750 --> 00:00:37,020

dissected the report and also spoken to

14

00:00:42,770 --> 00:00:38,760

a guest or two about the report as well

15

00:00:45,470 --> 00:00:42,780

yeah yeah 110 we we all expected to have

16

00:00:46,729 --> 00:00:45,480

this available publicly by now and it's

17

00:00:49,670 --> 00:00:46,739

not happened it's not even delivered to

18

00:00:51,770 --> 00:00:49,680

a congress yet as far as We Know no

19

00:00:54,229 --> 00:00:51,780

um so at this point do you think it's

20

00:00:55,369 --> 00:00:54,239

going to come out before like even New

21

00:00:57,709 --> 00:00:55,379

Year

22

00:00:58,910 --> 00:00:57,719

is there any reason to think it wouldn't

23

00:01:02,090 --> 00:00:58,920

be

24

00:01:05,630 --> 00:01:02,100

seems to sell

25

00:01:07,609 --> 00:01:05,640

not everyone um that's wrong people seem

26

00:01:08,570 --> 00:01:07,619

to still think it's it's p it's coming

27

00:01:10,730 --> 00:01:08,580

soon

28

00:01:12,649 --> 00:01:10,740

and it just made me think well who's to

29

00:01:15,050 --> 00:01:12,659

say it's not February or March you know

30

00:01:16,730 --> 00:01:15,060

yeah I mean it could be that long all

31

00:01:19,010 --> 00:01:16,740

I've heard is one I've spoken to a dni

32

00:01:20,270 --> 00:01:19,020

is that it's going through the process

33

00:01:21,469 --> 00:01:20,280

of being approved through all the

34

00:01:25,190 --> 00:01:21,479

different apartments with the signing

35

00:01:27,710 --> 00:01:25,200

off on it that kind of process will take

36

00:01:30,350 --> 00:01:27,720

as long as it takes I guess it could be

37

00:01:33,710 --> 00:01:30,360

as well that the release is being held

38

00:01:35,990 --> 00:01:33,720

off until the legislation is signed in

39
00:01:37,130 --> 00:01:36,000
because the you know things have changed

40
00:01:39,109 --> 00:01:37,140
a little bit there in terms of the

41
00:01:41,170 --> 00:01:39,119
immunity stuff and the expectation of

42
00:01:43,670 --> 00:01:41,180
what's contained in the report so

43
00:01:46,310 --> 00:01:43,680
that the the old remit for the report

44
00:01:48,230 --> 00:01:46,320
does not fulfill the new remit so yeah

45
00:01:50,090 --> 00:01:48,240
they might be holding off to to change

46
00:01:53,749 --> 00:01:50,100
that but who knows we'll see when it

47
00:01:55,210 --> 00:01:53,759
comes yeah and it's still a pro oh God I

48
00:01:57,950 --> 00:01:55,220
can't say the word preliminary

49
00:01:59,510 --> 00:01:57,960
preliminary it's a preliminary report

50
00:02:01,789 --> 00:01:59,520
that should be removed from the Scottish

51
00:02:04,789 --> 00:02:01,799
vocabulary that word it's impossible

52
00:02:07,609 --> 00:02:04,799
um it's still a first stage report given

53
00:02:10,910 --> 00:02:07,619
that Sean Kirkpatrick and and teams

54
00:02:12,470 --> 00:02:10,920
first attempt at the report so it may

55
00:02:14,930 --> 00:02:12,480
not be the worst thing that it's that's

56
00:02:16,550 --> 00:02:14,940
delayed yeah um like you say it could be

57
00:02:18,290 --> 00:02:16,560
getting changed could be amended to it

58
00:02:19,790 --> 00:02:18,300
no one knows at the minute that seems to

59
00:02:22,850 --> 00:02:19,800
be the thing doesn't it it was asked

60
00:02:24,650 --> 00:02:22,860
about it uh um Pentagon briefing just a

61
00:02:26,270 --> 00:02:24,660
few days ago by a journalist so it is

62
00:02:28,490 --> 00:02:26,280
still being asked about by by

63
00:02:31,309 --> 00:02:28,500

journalists and it was very much like

64

00:02:33,830 --> 00:02:31,319

you say it's it's with uh the right

65

00:02:35,690 --> 00:02:33,840

people for a review and that's all they

66

00:02:38,390 --> 00:02:35,700

know yeah and that's all we're going to

67

00:02:39,770 --> 00:02:38,400

get so and I would just emphasize that

68

00:02:41,449 --> 00:02:39,780

because there are a lot of people out

69

00:02:43,490 --> 00:02:41,459

there saying they do know they they

70

00:02:45,290 --> 00:02:43,500

don't we're here in speculation on

71

00:02:46,729 --> 00:02:45,300

rumors you know it's going through the

72

00:02:49,250 --> 00:02:46,739

process and that's all anyone knows

73

00:02:50,809 --> 00:02:49,260

really unless you're on the inside where

74

00:02:52,309 --> 00:02:50,819

you wouldn't be able to talk about this

75

00:02:54,350 --> 00:02:52,319

there wouldn't be any more information

76

00:02:56,390 --> 00:02:54,360

there do you not hate when people say

77

00:02:58,009 --> 00:02:56,400

they know for sure Dan

78

00:02:59,390 --> 00:02:58,019

but you but you're saying you know for

79

00:03:02,390 --> 00:02:59,400

sure that people don't know

80

00:03:04,190 --> 00:03:02,400

yeah I I put money on saying that people

81

00:03:06,890 --> 00:03:04,200

don't know it should be a speculation

82

00:03:08,750 --> 00:03:06,900

yeah I've I've heard a date but I don't

83

00:03:10,190 --> 00:03:08,760

know I haven't I'm joking yeah I think

84

00:03:12,290 --> 00:03:10,200

that said that no one really does know

85

00:03:13,910 --> 00:03:12,300

something happened 20th 5th of December

86

00:03:15,770 --> 00:03:13,920

that's a pretty you know I'm hearing a

87

00:03:17,210 --> 00:03:15,780

lot of people talk about that date so

88

00:03:18,770 --> 00:03:17,220

either it's a holiday or something's

89

00:03:22,009 --> 00:03:18,780

happening I'm kidding when it's

90

00:03:24,110 --> 00:03:22,019

Christmas and Happy Thanksgiving day

91

00:03:26,390 --> 00:03:24,120

after to those of you who celebrate such

92

00:03:28,009 --> 00:03:26,400

still not entirely sure other than a

93

00:03:29,089 --> 00:03:28,019

viewing of The Addams Family when I was

94

00:03:30,830 --> 00:03:29,099

a kid and there was a scene about

95

00:03:34,009 --> 00:03:30,840

Thanksgiving as to what it actually is

96

00:03:36,350 --> 00:03:34,019

but it looks like a fun uh preemptive

97

00:03:38,210 --> 00:03:36,360

Christmas I was treated to Thanksgiving

98

00:03:40,850 --> 00:03:38,220

once in University I had someone from

99

00:03:42,470 --> 00:03:40,860

New York Lyla claghorn uh she was kind

100

00:03:44,149 --> 00:03:42,480

of in my dorm and she did Thanksgiving

101

00:03:45,830 --> 00:03:44,159

for us all and the amount of food was

102

00:03:48,470 --> 00:03:45,840

discussed in where it was delicious and

103

00:03:50,750 --> 00:03:48,480

we all had a a great time but even after

104

00:03:51,890 --> 00:03:50,760

partaking in it I'm not sure what it's

105

00:03:54,710 --> 00:03:51,900

about

106

00:03:56,330 --> 00:03:54,720

um I I yeah ghosting your enemies in

107

00:03:58,190 --> 00:03:56,340

yeah just show them I feel like that's

108

00:03:59,930 --> 00:03:58,200

traditional it seems that they offer

109

00:04:01,789 --> 00:03:59,940

abundance and excess and you know what

110

00:04:04,369 --> 00:04:01,799

there's an excess of for your requests

111

00:04:06,830 --> 00:04:04,379

by John Greenwald then there is our

112

00:04:08,809 --> 00:04:06,840

lovely segue uh yeah just on the delayed

113

00:04:10,970 --> 00:04:08,819

report if you feel a little bit down or

114

00:04:12,649 --> 00:04:10,980

a bit jaded about the fact this hasn't

115

00:04:15,170 --> 00:04:12,659

come out even though to be honest it

116

00:04:16,550 --> 00:04:15,180

wasn't going to be ground breaking or

117

00:04:18,289 --> 00:04:16,560

earth-shattering it was going to be

118

00:04:19,490 --> 00:04:18,299

similar I think at least to what we had

119

00:04:21,050 --> 00:04:19,500

last time

120

00:04:23,450 --> 00:04:21,060

um but I was still excited to see it and

121

00:04:25,670 --> 00:04:23,460

will be when it comes out John Greenwald

122

00:04:27,890 --> 00:04:25,680

had a fire request back recently where

123

00:04:29,570 --> 00:04:27,900

basically it's they're still actively

124

00:04:33,230 --> 00:04:29,580

investigating what was the phrasing

125

00:04:35,390 --> 00:04:33,240

hundreds of reporters so remember what

126

00:04:36,530 --> 00:04:35,400

what initially was set up by the task

127

00:04:39,770 --> 00:04:36,540

force

128

00:04:41,689 --> 00:04:39,780

and the Dan reminds me there was

129

00:04:44,210 --> 00:04:41,699

legislation that followed as legislation

130

00:04:46,010 --> 00:04:44,220

the right word where the Navy and such

131

00:04:48,050 --> 00:04:46,020

put out our

132

00:04:49,010 --> 00:04:48,060

I'm forgetting all the terminology now

133

00:04:50,450 --> 00:04:49,020

but it's probably a good thing for

134

00:04:53,030 --> 00:04:50,460

people who are like myself and not into

135

00:04:55,370 --> 00:04:53,040

the terminology but that they requested

136

00:04:57,469 --> 00:04:55,380

Personnel report more that they wanted

137

00:04:58,450 --> 00:04:57,479

to get more reports in when all that

138

00:05:00,890 --> 00:04:58,460

came out

139

00:05:02,330 --> 00:05:00,900

yeah but the guidance changed and you

140

00:05:06,050 --> 00:05:02,340

know we want to know about reports of

141

00:05:07,490 --> 00:05:06,060

UAP that that is I think a real win from

142

00:05:09,350 --> 00:05:07,500

the last couple of years that we are

143

00:05:10,909 --> 00:05:09,360

getting more reports and John Greenwald

144

00:05:12,830 --> 00:05:10,919

with these fantastic firework that he

145

00:05:14,629 --> 00:05:12,840

does it has got that confirmed that

146

00:05:17,689 --> 00:05:14,639

these reports are still coming in in the

147

00:05:20,030 --> 00:05:17,699

hundreds by Personnel all over so that

148

00:05:21,469 --> 00:05:20,040

that's good and just literally before we

149

00:05:23,270 --> 00:05:21,479

recorded this Dan I don't know if you

150

00:05:25,129 --> 00:05:23,280

saw John greenwald's kind of breaking

151
00:05:27,350 --> 00:05:25,139
news piece

152
00:05:31,010 --> 00:05:27,360
um it's a commercial airlines recording

153
00:05:32,810 --> 00:05:31,020
although um a UAP report the the Audio I

154
00:05:34,790 --> 00:05:32,820
was listening to it it's 33 minutes long

155
00:05:37,189 --> 00:05:34,800
but it's been condensed down just to

156
00:05:38,890 --> 00:05:37,199
remove long pauses and stuff but it's um

157
00:05:42,170 --> 00:05:38,900
various different commercial airlines

158
00:05:43,850 --> 00:05:42,180
reporting the same well I say phenomena

159
00:05:46,249 --> 00:05:43,860
the same lights

160
00:05:48,650 --> 00:05:46,259
um one of them originally at 35 000 feet

161
00:05:52,790 --> 00:05:48,660
sees uh what they call a sea of lights

162
00:05:55,909 --> 00:05:52,800
on the ground that he says yeah

163
00:05:58,249 --> 00:05:55,919

over Kansas in September 2022 so just

164

00:06:01,490 --> 00:05:58,259

two months ago as we record this

165

00:06:03,950 --> 00:06:01,500

um and they report it their the the air

166

00:06:06,230 --> 00:06:03,960

traffic control sort of summarize could

167

00:06:07,490 --> 00:06:06,240

it be a football stadium or whatever but

168

00:06:08,749 --> 00:06:07,500

the location they're at they're saying

169

00:06:09,950 --> 00:06:08,759

there's nothing that should account for

170

00:06:11,450 --> 00:06:09,960

the amount of lights that they're seeing

171

00:06:13,730 --> 00:06:11,460

or that those lights should even be

172

00:06:15,469 --> 00:06:13,740

there they weren't entirely bright

173

00:06:17,450 --> 00:06:15,479

lights they were relatively dim from

174

00:06:20,029 --> 00:06:17,460

what they said but they tracked them I

175

00:06:23,150 --> 00:06:20,039

followed him for 50 miles apparently and

176

00:06:25,189 --> 00:06:23,160

they they then radio other uh aircraft

177

00:06:26,570 --> 00:06:25,199

ask who are going to be in the area can

178

00:06:28,550 --> 00:06:26,580

they see these lights as well and there

179

00:06:29,809 --> 00:06:28,560

are reports that they did see them so I

180

00:06:31,430 --> 00:06:29,819

hadn't got a chance to listen to the

181

00:06:32,990 --> 00:06:31,440

full audio but that's when I would

182

00:06:34,430 --> 00:06:33,000

recommend I'm on John Greenwood's

183

00:06:35,749 --> 00:06:34,440

patreon as well so

184

00:06:37,490 --> 00:06:35,759

um that's why I've got that through so

185

00:06:39,050 --> 00:06:37,500

if you can check that out folks go and

186

00:06:41,090 --> 00:06:39,060

have a little lesson just to hear some

187

00:06:43,490 --> 00:06:41,100

commercial airline chatter about uh

188

00:06:45,590 --> 00:06:43,500

essentially a sighting of Lights I'm not

189

00:06:46,790 --> 00:06:45,600

going to say UFO sighting but

190

00:06:48,290 --> 00:06:46,800

um well we don't know what they are we

191

00:06:49,490 --> 00:06:48,300

can we can say UFO sat in for now

192

00:06:51,170 --> 00:06:49,500

because we don't know what they are so

193

00:06:53,270 --> 00:06:51,180

they are literally unidentified flying

194

00:06:54,890 --> 00:06:53,280

objects almost definitely alien

195

00:06:57,529 --> 00:06:54,900

spacecraft but I don't want you to say

196

00:06:59,570 --> 00:06:57,539

too much reptilians yes absolutely yeah

197

00:07:00,409 --> 00:06:59,580

it's yet reticulite all that jazz so

198

00:07:01,969 --> 00:07:00,419

yeah I thought that was quite

199

00:07:03,469 --> 00:07:01,979

interesting to listen to um always

200

00:07:05,390 --> 00:07:03,479

always a cool one so well done to John

201
00:07:08,930 --> 00:07:05,400
so yeah these reports are still coming

202
00:07:11,029 --> 00:07:08,940
in folks from All Sorts so even if this

203
00:07:13,430 --> 00:07:11,039
report eventually comes out from the UFO

204
00:07:15,290 --> 00:07:13,440
team arrow and it's a it's a nothing

205
00:07:17,330 --> 00:07:15,300
Burger as people like to say or a

206
00:07:18,830 --> 00:07:17,340
nothing Burger as people like to say in

207
00:07:20,330 --> 00:07:18,840
an American accent

208
00:07:22,070 --> 00:07:20,340
um don't worry because the subject

209
00:07:23,689 --> 00:07:22,080
doesn't go away reports still come in

210
00:07:25,610 --> 00:07:23,699
there are still things flying about in

211
00:07:27,770 --> 00:07:25,620
the skies under the water and in space

212
00:07:29,749 --> 00:07:27,780
that we do not know what they are and do

213
00:07:31,610 --> 00:07:29,759

not know where they are from so the

214

00:07:33,529 --> 00:07:31,620

subject goes on so we'll see when the

215

00:07:34,909 --> 00:07:33,539

report comes out that might be a good

216

00:07:36,950 --> 00:07:34,919

place to actually mention

217

00:07:38,390 --> 00:07:36,960

um Ross Colter's comments I think I was

218

00:07:39,969 --> 00:07:38,400

going to do this later but might be a

219

00:07:43,969 --> 00:07:39,979

good place to put it now then

220

00:07:45,890 --> 00:07:43,979

yeah it was on with uh James iandoli

221

00:07:49,670 --> 00:07:45,900

engaging the phenomena on his channel

222

00:07:52,010 --> 00:07:49,680

and uh Ryan Robbins UFO Jesus and Chris

223

00:07:54,350 --> 00:07:52,020

sharp lemonation times they were all

224

00:07:56,089 --> 00:07:54,360

chatting on retrieve a week which is

225

00:07:58,129 --> 00:07:56,099

being promoted this week finishes this

226

00:08:00,950 --> 00:07:58,139

weekend and that's something that James

227

00:08:03,110 --> 00:08:00,960

iandoli started a year or so ago to

228

00:08:04,550 --> 00:08:03,120

promote the idea and the Crash retrieval

229

00:08:06,469 --> 00:08:04,560

stuff it was based on the New York Times

230

00:08:09,110 --> 00:08:06,479

articles due to come out

231

00:08:10,790 --> 00:08:09,120

um but Ross Coulter unlike Ross a lot of

232

00:08:13,909 --> 00:08:10,800

people picked up on him sounding quite

233

00:08:16,189 --> 00:08:13,919

downbeat at the moment regarding people

234

00:08:18,589 --> 00:08:16,199

coming forward and the progress of the

235

00:08:20,990 --> 00:08:18,599

UFO conversation in terms of a political

236

00:08:22,610 --> 00:08:21,000

movement Ross is always very upbeat

237

00:08:24,710 --> 00:08:22,620

isn't he on it and very

238

00:08:26,869 --> 00:08:24,720

you know excited and very much you know

239

00:08:29,029 --> 00:08:26,879

things are happening and for a change

240

00:08:31,070 --> 00:08:29,039

Ross seemed a little bit downbeat

241

00:08:33,589 --> 00:08:31,080

did you get a chance to catch the video

242

00:08:35,269 --> 00:08:33,599

or even the comments on this one seen a

243

00:08:37,010 --> 00:08:35,279

lot of the comments uh so sort of chunk

244

00:08:38,990 --> 00:08:37,020

of the video and yeah you're right Ross

245

00:08:41,449 --> 00:08:39,000

is usually you know there's a there's a

246

00:08:43,610 --> 00:08:41,459

fire under his butt usually uh but this

247

00:08:46,550 --> 00:08:43,620

time uh it was a little downtrodden and

248

00:08:48,470 --> 00:08:46,560

we've heard a lot about people saying

249

00:08:49,790 --> 00:08:48,480

that things are being walked back that

250

00:08:51,949 --> 00:08:49,800

they're trying to put this catch up back

251
00:08:54,110 --> 00:08:51,959
in the bottle and and literally you know

252
00:08:55,970 --> 00:08:54,120
we we talked before about how impossible

253
00:08:58,610 --> 00:08:55,980
it is to kind of put ketchup tightly

254
00:09:00,590 --> 00:08:58,620
back in a bottle but

255
00:09:02,509 --> 00:09:00,600
Ross was very

256
00:09:03,590 --> 00:09:02,519
very optimistic that there was some news

257
00:09:07,190 --> 00:09:03,600
coming

258
00:09:08,870 --> 00:09:07,200
that was around the same week of of the

259
00:09:12,430 --> 00:09:08,880
report dropping as well was it the

260
00:09:17,329 --> 00:09:15,769
nothing's really emerged so James Fox

261
00:09:18,530 --> 00:09:17,339
did a similar thing you know he he said

262
00:09:20,030 --> 00:09:18,540
there was some news coming and now he

263
00:09:22,070 --> 00:09:20,040

said it's been delayed by a month or two

264

00:09:23,750 --> 00:09:22,080

so for all we know a lot of this is kind

265

00:09:25,190 --> 00:09:23,760

of bundled up into that report and

266

00:09:27,230 --> 00:09:25,200

whether that's going to drop first and

267

00:09:28,850 --> 00:09:27,240

then all this stuff will come out uh but

268

00:09:31,430 --> 00:09:28,860

it seems that there are a lot of moving

269

00:09:34,730 --> 00:09:31,440

pieces here so you know this isn't kind

270

00:09:36,410 --> 00:09:34,740

of in the bank and done but we know

271

00:09:38,269 --> 00:09:36,420

people want to come forward to testify

272

00:09:40,670 --> 00:09:38,279

we know the secure system is being set

273

00:09:42,230 --> 00:09:40,680

up so on so forth we're eventually going

274

00:09:44,449 --> 00:09:42,240

to get there but based on Ross's

275

00:09:45,590 --> 00:09:44,459

reaction I would say that uh it's

276
00:09:48,410 --> 00:09:45,600
probably going to take a bit longer than

277
00:09:49,790 --> 00:09:48,420
we expected initially yeah it did I

278
00:09:52,850 --> 00:09:49,800
tweet the day after

279
00:09:54,949 --> 00:09:52,860
um retweeting an article and he himself

280
00:09:56,509 --> 00:09:54,959
said a glimmer of optimism more U.S

281
00:09:59,449 --> 00:09:56,519
military and government officials with

282
00:10:01,070 --> 00:09:59,459
knowledge of or experience with UFOs are

283
00:10:04,190 --> 00:10:01,080
expected to come out of the Shadows soon

284
00:10:06,949 --> 00:10:04,200
so I think just maybe it was just being

285
00:10:09,650 --> 00:10:06,959
a little bit more on the

286
00:10:11,210 --> 00:10:09,660
on the negative side but potentially a

287
00:10:12,410 --> 00:10:11,220
little bit more realistic given maybe

288
00:10:15,230 --> 00:10:12,420

some things have happened in the

289

00:10:17,090 --> 00:10:15,240

background like you say that

290

00:10:20,570 --> 00:10:17,100

it's not going to be as quick as he had

291

00:10:22,310 --> 00:10:20,580

hoped and he did go all out with us

292

00:10:24,470 --> 00:10:22,320

October surprise stuff like a few people

293

00:10:26,150 --> 00:10:24,480

did and I just don't know if there was a

294

00:10:28,310 --> 00:10:26,160

real basis for it maybe they heard

295

00:10:30,650 --> 00:10:28,320

something maybe it was a case of you

296

00:10:32,090 --> 00:10:30,660

know a snowball going down the hill and

297

00:10:34,130 --> 00:10:32,100

it just became an avalanche with other

298

00:10:35,449 --> 00:10:34,140

people saying the same kind of stuff and

299

00:10:37,070 --> 00:10:35,459

never something I had heard anything

300

00:10:39,290 --> 00:10:37,080

about I could say that I suppose in

301

00:10:41,269 --> 00:10:39,300

hindsight that's the event but I had

302

00:10:42,769 --> 00:10:41,279

never had any inkling as to what the

303

00:10:43,970 --> 00:10:42,779

October surprise could have been I

304

00:10:45,470 --> 00:10:43,980

remember a few people at the time had

305

00:10:47,630 --> 00:10:45,480

got in touch to see or what could it be

306

00:10:49,970 --> 00:10:47,640

do you know nothing there was never any

307

00:10:52,190 --> 00:10:49,980

idea other than the reports Joe on

308

00:10:55,370 --> 00:10:52,200

Halloween that that was it or by

309

00:10:56,990 --> 00:10:55,380

Halloween and it's not came out so uh so

310

00:10:58,670 --> 00:10:57,000

yeah that was but again it's refreshing

311

00:11:00,590 --> 00:10:58,680

to see Ross can I pick himself back up

312

00:11:02,030 --> 00:11:00,600

and and get right back on the wagon with

313

00:11:04,910 --> 00:11:02,040

that one Ross has done some fantastic

314

00:11:07,250 --> 00:11:04,920

reporting on on the subject

315

00:11:08,630 --> 00:11:07,260

um what then did can I bring me down

316

00:11:10,850 --> 00:11:08,640

this week uh some really interesting

317

00:11:12,650 --> 00:11:10,860

interviews by Richard Dolan I'll put the

318

00:11:14,449 --> 00:11:12,660

links in the description for people to

319

00:11:16,970 --> 00:11:14,459

check those out as well Dan you have a

320

00:11:18,470 --> 00:11:16,980

time to check them uh the the first one

321

00:11:21,110 --> 00:11:18,480

do you want to go with the list threads

322

00:11:22,130 --> 00:11:21,120

first or the Apple yeah list threads

323

00:11:24,470 --> 00:11:22,140

okay cool

324

00:11:27,650 --> 00:11:24,480

yeah let's do loose threads first

325

00:11:28,730 --> 00:11:27,660

so let's read Dan do you know or I said

326

00:11:30,050 --> 00:11:28,740

do you know what it is of course you

327

00:11:32,030 --> 00:11:30,060

know what it is I know you've watched it

328

00:11:33,110 --> 00:11:32,040

and had the document

329

00:11:35,509 --> 00:11:33,120

um so do you want to give a quick

330

00:11:36,949 --> 00:11:35,519

summary of what this loose threads thing

331

00:11:38,930 --> 00:11:36,959

is for those who might not have heard of

332

00:11:41,569 --> 00:11:38,940

it yeah for sure so

333

00:11:44,389 --> 00:11:41,579

a number of days ago to two users on

334

00:11:46,430 --> 00:11:44,399

Twitter posted a nion 250 page document

335

00:11:48,170 --> 00:11:46,440

that's very thorough and they'd gone

336

00:11:49,910 --> 00:11:48,180

through a bunch of research the the

337

00:11:51,590 --> 00:11:49,920

paper analyzes a number of kind of

338

00:11:53,810 --> 00:11:51,600

recently leaked documents like the Davis

339

00:11:56,930 --> 00:11:53,820

Wilson notes the oak Shannon notes uh

340

00:11:58,790 --> 00:11:56,940

the Jack uh hook notes I never get that

341

00:12:00,170 --> 00:11:58,800

pronunciation right yeah um along with

342

00:12:01,970 --> 00:12:00,180

some other kind of documents

343

00:12:04,130 --> 00:12:01,980

Publications and interviews and it

344

00:12:07,430 --> 00:12:04,140

pieces together a really incredible

345

00:12:10,310 --> 00:12:07,440

story and kind of timeline from you know

346

00:12:12,829 --> 00:12:10,320

going back to the 40s really

347

00:12:15,530 --> 00:12:12,839

um of people involved in this subject

348

00:12:17,990 --> 00:12:15,540

and paint a very compelling picture for

349

00:12:19,550 --> 00:12:18,000

who it is we should be looking at

350

00:12:21,949 --> 00:12:19,560

um as well as kind of covering a couple

351
00:12:23,990 --> 00:12:21,959
of main themes so uh it speaks about the

352
00:12:25,310 --> 00:12:24,000
advanced theoretical physics working

353
00:12:27,350 --> 00:12:25,320
group

354
00:12:28,430 --> 00:12:27,360
um that that was from like 1985 if

355
00:12:30,050 --> 00:12:28,440
people have ever heard the name John

356
00:12:31,910 --> 00:12:30,060
Alexander he was involved there that's

357
00:12:34,509 --> 00:12:31,920
kind of where he comes from

358
00:12:36,470 --> 00:12:34,519
um UFO tracking and beating as well

359
00:12:39,730 --> 00:12:36,480
including kind of directed energy

360
00:12:42,530 --> 00:12:39,740
weapons being able to take down UFOs

361
00:12:43,730 --> 00:12:42,540
1985 as a vital inflection point as well

362
00:12:45,410 --> 00:12:43,740
in terms of

363
00:12:47,810 --> 00:12:45,420

when this kind of change started

364

00:12:49,490 --> 00:12:47,820

happening and people that were kind of

365

00:12:51,350 --> 00:12:49,500

previously on the outside were kind of

366

00:12:53,030 --> 00:12:51,360

starting to figure out maybe how they

367

00:12:55,850 --> 00:12:53,040

could get on the inside in terms of the

368

00:12:57,650 --> 00:12:55,860

UFO subject and then it really Dives in

369

00:12:58,850 --> 00:12:57,660

as well to remote viewing in UFOs and

370

00:13:01,069 --> 00:12:58,860

the connections there as well as

371

00:13:02,930 --> 00:13:01,079

experience the studies and that's the

372

00:13:05,210 --> 00:13:02,940

stuff really in it that I found you know

373

00:13:06,889 --> 00:13:05,220

most intriguing and most compelling uh

374

00:13:09,050 --> 00:13:06,899

because yeah they were going through

375

00:13:11,269 --> 00:13:09,060

basically everything from from the

376

00:13:13,790 --> 00:13:11,279

Monroe Institute right up to modern day

377

00:13:16,670 --> 00:13:13,800

where you know by the end of the

378

00:13:20,030 --> 00:13:16,680

interview you'll have a fairly solid

379

00:13:21,829 --> 00:13:20,040

notion that there is probably a modern

380

00:13:24,410 --> 00:13:21,839

day remote viewing program that is

381

00:13:26,930 --> 00:13:24,420

ongoing and studying UFOs and

382

00:13:28,970 --> 00:13:26,940

experiences the the two individuals who

383

00:13:31,370 --> 00:13:28,980

put it together they go under pseudonyms

384

00:13:34,069 --> 00:13:31,380

online it's Omega point and hermetic

385

00:13:35,990 --> 00:13:34,079

penetrator ruffle copter for those who

386

00:13:37,490 --> 00:13:36,000

it Richard Dolan had a little giggle at

387

00:13:40,129 --> 00:13:37,500

that name himself

388

00:13:42,110 --> 00:13:40,139

um but those two where the the gents

389

00:13:43,550 --> 00:13:42,120

have put it together with some some help

390

00:13:45,230 --> 00:13:43,560

from others in the background Dan from

391

00:13:46,790 --> 00:13:45,240

what see

392

00:13:48,650 --> 00:13:46,800

um I don't know how big a secret that is

393

00:13:49,790 --> 00:13:48,660

or not but yeah there was others

394

00:13:51,530 --> 00:13:49,800

involved yeah there are some names

395

00:13:53,629 --> 00:13:51,540

mentioned in in that interview there uh

396

00:13:55,970 --> 00:13:53,639

you know James iandoli is always a big

397

00:13:57,290 --> 00:13:55,980

help to everyone in the community uh

398

00:13:59,150 --> 00:13:57,300

yeah a lot of the community came

399

00:14:01,850 --> 00:13:59,160

together to make this happen uh led by

400

00:14:04,670 --> 00:14:01,860

those two uh wonderful folk what I'd say

401

00:14:07,250 --> 00:14:04,680

is if you're if you have a

402

00:14:08,569 --> 00:14:07,260

a surface level interest in a UFO topic

403

00:14:11,090 --> 00:14:08,579

if you're listening to shows like this

404

00:14:12,710 --> 00:14:11,100

or others to kind of get your news and

405

00:14:14,449 --> 00:14:12,720

you listen to interviewers and you maybe

406

00:14:16,009 --> 00:14:14,459

hear some detail within some of the

407

00:14:18,470 --> 00:14:16,019

interviews that you're not too sure of

408

00:14:20,269 --> 00:14:18,480

the background I think if you watch the

409

00:14:22,610 --> 00:14:20,279

Richard Dolan interview

410

00:14:24,470 --> 00:14:22,620

um on this it's three hours long or you

411

00:14:26,210 --> 00:14:24,480

read the document itself I think

412

00:14:28,009 --> 00:14:26,220

there'll be a lot of things within the

413

00:14:30,170 --> 00:14:28,019

document you'll go Ah that's the

414

00:14:32,329 --> 00:14:30,180

background to that or ah I've heard

415

00:14:35,030 --> 00:14:32,339

Grant gab Grant Cameron mentioned this

416

00:14:36,889 --> 00:14:35,040

in one of his recent interviews you know

417

00:14:38,990 --> 00:14:36,899

or one of his own shows or I've heard

418

00:14:41,090 --> 00:14:39,000

this talked about here's the basis for

419

00:14:42,949 --> 00:14:41,100

that or here's where it came from so it

420

00:14:44,689 --> 00:14:42,959

really does like like it says it's loose

421

00:14:45,829 --> 00:14:44,699

threads it ties up a lot of those loose

422

00:14:48,889 --> 00:14:45,839

threads

423

00:14:52,310 --> 00:14:48,899

um the to a lot of different things that

424

00:14:53,810 --> 00:14:52,320

maybe make sense of that bigger picture

425

00:14:56,629 --> 00:14:53,820

um so yeah it was it was pretty

426

00:14:58,430 --> 00:14:56,639

interesting um to tie a lot of that in

427

00:15:01,790 --> 00:14:58,440

even the idea of that advanced

428

00:15:04,069 --> 00:15:01,800

theatrical physics working group or ATP

429

00:15:05,590 --> 00:15:04,079

um long before atip there was oh no that

430

00:15:09,110 --> 00:15:05,600

is literally just going to

431

00:15:10,670 --> 00:15:09,120

yeah and um it was the task task force

432

00:15:12,829 --> 00:15:10,680

Delta it was called originally that's

433

00:15:14,329 --> 00:15:12,839

right the group that came from it and it

434

00:15:16,790 --> 00:15:14,339

was just a group of individuals who had

435

00:15:18,829 --> 00:15:16,800

an interest uh a high interest in the

436

00:15:22,129 --> 00:15:18,839

UFO subject at scientific or military

437

00:15:24,170 --> 00:15:22,139

level yeah and um yeah task force Delta

438

00:15:26,990 --> 00:15:24,180

was it was kind of a bit broader it was

439

00:15:28,790 --> 00:15:27,000

an Army kind of commission group uh that

440

00:15:30,590 --> 00:15:28,800

was just there to think outside the box

441

00:15:32,449 --> 00:15:30,600

apparently so far that there wasn't even

442

00:15:34,069 --> 00:15:32,459

a box you know they'd just be looking at

443

00:15:35,629 --> 00:15:34,079

different solutions and outlying

444

00:15:37,610 --> 00:15:35,639

technology that maybe they could use

445

00:15:39,290 --> 00:15:37,620

yeah nothing was off the table if you

446

00:15:41,150 --> 00:15:39,300

want to have ridiculous Notions or

447

00:15:42,650 --> 00:15:41,160

discussions about what this could be how

448

00:15:45,410 --> 00:15:42,660

it could work it was yeah it was

449

00:15:46,850 --> 00:15:45,420

encouraged from the language I saw so

450

00:15:49,069 --> 00:15:46,860

yeah it really does kind of take you

451

00:15:51,110 --> 00:15:49,079

back through the decades and focusing on

452

00:15:54,230 --> 00:15:51,120

documents pulling some of these players

453

00:15:57,290 --> 00:15:54,240

together you get involved in in one

454

00:15:58,610 --> 00:15:57,300

thread of the UFO subject and it pulls

455

00:16:01,129 --> 00:15:58,620

them into here's what they were involved

456

00:16:02,629 --> 00:16:01,139

in before that and after that as well so

457

00:16:05,090 --> 00:16:02,639

yeah really really good work really

458

00:16:07,610 --> 00:16:05,100

interesting and I would suggest most

459

00:16:10,129 --> 00:16:07,620

Forks are probably benefit from watching

460

00:16:11,810 --> 00:16:10,139

the Richard Dolan interview first and

461

00:16:13,970 --> 00:16:11,820

getting the information from there but

462

00:16:15,949 --> 00:16:13,980

then definitely give the The Gents a

463

00:16:17,269 --> 00:16:15,959

shout out and a like and such if you can

464

00:16:19,730 --> 00:16:17,279

on social media for the work they've

465

00:16:21,110 --> 00:16:19,740

done and then check out the paper if you

466

00:16:22,610 --> 00:16:21,120

want to Deep dive into that as well

467

00:16:24,710 --> 00:16:22,620

that's something I'll look into myself

468

00:16:26,509 --> 00:16:24,720

eventually it's been a very busy week

469

00:16:29,269 --> 00:16:26,519

but regarding reading that like you say

470

00:16:30,769 --> 00:16:29,279

it's a big document it's 250 pages but

471

00:16:33,110 --> 00:16:30,779

there's a lot of really cool stuff in

472

00:16:35,210 --> 00:16:33,120

there so so well done to them for

473

00:16:36,889 --> 00:16:35,220

putting in that leg work

474

00:16:37,790 --> 00:16:36,899

um a couple of new things in there as

475

00:16:40,189 --> 00:16:37,800

well

476

00:16:42,710 --> 00:16:40,199

um there's uh so so a few things that

477

00:16:45,769 --> 00:16:42,720

kind of jumped out to me uh one one was

478

00:16:49,189 --> 00:16:45,779

there was a NASA engineer called Bob

479

00:16:50,509 --> 00:16:49,199

exler who was a UFO researcher as well

480

00:16:52,310 --> 00:16:50,519

which I thought was great because we

481

00:16:54,350 --> 00:16:52,320

always talk about NASA being the leader

482

00:16:55,730 --> 00:16:54,360

of conspiracies and here we have a NASA

483

00:16:57,110 --> 00:16:55,740

engineer who didn't actually know more

484

00:16:59,509 --> 00:16:57,120

but he wanted to know more so we went

485

00:17:02,269 --> 00:16:59,519

searching um and he he came across a

486

00:17:04,370 --> 00:17:02,279

number of people who basically said to

487

00:17:06,049 --> 00:17:04,380

him I can't talk about that and then a

488

00:17:09,590 --> 00:17:06,059

few years later other people got in

489

00:17:12,230 --> 00:17:09,600

touch with the same folk who uh when

490

00:17:14,210 --> 00:17:12,240

they asked about UFO programs and

491

00:17:16,309 --> 00:17:14,220

Engineering that they were a part of the

492

00:17:18,409 --> 00:17:16,319

response uh this was from Evan Hindman

493

00:17:19,730 --> 00:17:18,419

he he literally responded with I am a

494

00:17:21,530 --> 00:17:19,740

long way in quite a few years from

495

00:17:23,809 --> 00:17:21,540

working in the area you're researching

496

00:17:25,730 --> 00:17:23,819

which kind of confirms that he worked on

497

00:17:27,350 --> 00:17:25,740

it in the past right that that's a very

498

00:17:28,850 --> 00:17:27,360

potent and that was a new name to me as

499

00:17:30,350 --> 00:17:28,860

well so you know there's going to be a

500

00:17:31,010 --> 00:17:30,360

lot of Google in there

501
00:17:33,950 --> 00:17:31,020
um

502
00:17:36,409 --> 00:17:33,960
to get that conversation uh they they

503
00:17:38,930 --> 00:17:36,419
kind of had to mention uh Bobby I want

504
00:17:40,549 --> 00:17:38,940
to say Bobby Ray Inman and it's quite

505
00:17:43,250 --> 00:17:40,559
quite a prominent figure and this was

506
00:17:45,470 --> 00:17:43,260
before as well that guy became such a

507
00:17:47,390 --> 00:17:45,480
well-known name in the UFO field so he's

508
00:17:49,130 --> 00:17:47,400
being mentioned way before it he is the

509
00:17:50,930 --> 00:17:49,140
oldest living Director of National

510
00:17:53,270 --> 00:17:50,940
Intelligence so that's a really

511
00:17:55,789 --> 00:17:53,280
interesting connection there Jay from

512
00:17:57,950 --> 00:17:55,799
Project Unity interviewed Barbary Edmund

513
00:18:01,990 --> 00:17:57,960

was it was it probably admin at Jay and

514

00:18:07,370 --> 00:18:06,169

recently uh Jay interviewed Oak Shannon

515

00:18:09,470 --> 00:18:07,380

um which is where I love those

516

00:18:11,150 --> 00:18:09,480

theoretical physics working group notes

517

00:18:13,850 --> 00:18:11,160

came from

518

00:18:17,690 --> 00:18:13,860

um but yeah and

519

00:18:19,430 --> 00:18:17,700

they they speak about uh basically the

520

00:18:21,110 --> 00:18:19,440

the remote viewing programs get to a

521

00:18:22,789 --> 00:18:21,120

point where they're just like right we

522

00:18:23,630 --> 00:18:22,799

need to kind of bring this under you

523

00:18:25,730 --> 00:18:23,640

know

524

00:18:27,169 --> 00:18:25,740

a classified program or somewhere that

525

00:18:29,330 --> 00:18:27,179

it's it's better funded and better

526

00:18:31,250 --> 00:18:29,340

looked at and at this point they were

527

00:18:34,130 --> 00:18:31,260

talking to the Monroe Institute Bob

528

00:18:35,990 --> 00:18:34,140

Monroe uh and they hosted a kind of

529

00:18:37,370 --> 00:18:36,000

presentation Retreat for you know the

530

00:18:40,549 --> 00:18:37,380

science board

531

00:18:44,750 --> 00:18:40,559

this is where kit green was tasked with

532

00:18:47,090 --> 00:18:44,760

basically reviewing remote viewing as a

533

00:18:48,950 --> 00:18:47,100

you know a real thing

534

00:18:50,390 --> 00:18:48,960

kit Green in recent years has kind of

535

00:18:52,190 --> 00:18:50,400

said oh you know a lot of this is human

536

00:18:55,010 --> 00:18:52,200

cause and so on so forth but some of the

537

00:18:56,750 --> 00:18:55,020

quotes here are crazy so when they said

538

00:18:58,250 --> 00:18:56,760

to kick green hey we want you to review

539

00:19:00,650 --> 00:18:58,260

this

540

00:19:02,750 --> 00:19:00,660

on the terms that we we essentially want

541

00:19:04,789 --> 00:19:02,760

to take these protocols give them to

542

00:19:06,890 --> 00:19:04,799

normal soldiers and have normal soldiers

543

00:19:08,150 --> 00:19:06,900

become remote viewers and outstanding

544

00:19:10,850 --> 00:19:08,160

remote viewers

545

00:19:12,350 --> 00:19:10,860

at that point kit green responds with I

546

00:19:14,570 --> 00:19:12,360

looked at the blood test their genetic

547

00:19:17,930 --> 00:19:14,580

test their IQ test the neurological

548

00:19:20,750 --> 00:19:17,940

tasks and the cardiovascular tests which

549

00:19:23,029 --> 00:19:20,760

has a lot to do with Endocrinology I

550

00:19:25,370 --> 00:19:23,039

concluded that these people are abnormal

551

00:19:26,870 --> 00:19:25,380

so this is picking up on what we've

552

00:19:28,549 --> 00:19:26,880

heard in recent years with Gary Nolan

553

00:19:30,470 --> 00:19:28,559

kind of finding that there's a you know

554

00:19:32,390 --> 00:19:30,480

some biological differences in

555

00:19:34,190 --> 00:19:32,400

experiences whether that came before the

556

00:19:36,650 --> 00:19:34,200

experience or after uh you know we're

557

00:19:38,390 --> 00:19:36,660

not too sure but kick green essentially

558

00:19:40,190 --> 00:19:38,400

recommended hey you know we know these

559

00:19:41,750 --> 00:19:40,200

biomarkers exist so instead of just

560

00:19:43,549 --> 00:19:41,760

teaching normal soldiers how to remote

561

00:19:44,990 --> 00:19:43,559

view why don't we look for people with

562

00:19:46,850 --> 00:19:45,000

these biomarkers because we know

563

00:19:49,310 --> 00:19:46,860

there'll be rock stars at this and we'll

564

00:19:51,710 --> 00:19:49,320

employ those people instead of just you

565

00:19:53,810 --> 00:19:51,720

know training normal people uh which I

566

00:19:54,890 --> 00:19:53,820

thought was astounding thing to say you

567

00:19:56,630 --> 00:19:54,900

know that that's kind of essentially

568

00:19:58,190 --> 00:19:56,640

confirmation from Kate green of yes this

569

00:19:59,870 --> 00:19:58,200

works yes there are markers that we can

570

00:20:02,150 --> 00:19:59,880

track people in the population and pick

571

00:20:04,490 --> 00:20:02,160

them and then that leads all the way to

572

00:20:06,110 --> 00:20:04,500

and this was again was a new bit for me

573

00:20:07,970 --> 00:20:06,120

there were some things in here that I

574

00:20:10,010 --> 00:20:07,980

wish that I'd heard before I spoke to Dr

575

00:20:11,390 --> 00:20:10,020

Greer by the way uh because I definitely

576

00:20:12,770 --> 00:20:11,400

would have brought up a whole lot uh

577

00:20:14,990 --> 00:20:12,780

because apparently he was kind of in the

578

00:20:16,490 --> 00:20:15,000

mix early 90s in this uh in his

579

00:20:18,830 --> 00:20:16,500

protocols were looked at as a kind of

580

00:20:21,169 --> 00:20:18,840

remote view in 2.0 uh referred to as

581

00:20:22,850 --> 00:20:21,179

remote vectoring uh I.E you know back to

582

00:20:25,010 --> 00:20:22,860

the craft to you ce5 that's what we're

583

00:20:27,529 --> 00:20:25,020

talking about uh but yeah

584

00:20:29,930 --> 00:20:27,539

we go all the way forward to randallsham

585

00:20:32,210 --> 00:20:29,940

and John Burroughs who who touched the

586

00:20:35,330 --> 00:20:32,220

craft and we know that uh it got to a

587

00:20:38,090 --> 00:20:35,340

point where he couldn't get insurance

588

00:20:40,430 --> 00:20:38,100

or medical insurance because his records

589

00:20:43,490 --> 00:20:40,440

were said to be classified it was kit

590

00:20:45,950 --> 00:20:43,500

green who wrote a letter to John McCain

591

00:20:47,750 --> 00:20:45,960

who then you know pressured folk to

592

00:20:49,130 --> 00:20:47,760

unclassify those medical records so he

593

00:20:50,330 --> 00:20:49,140

could actually get the treatment he got

594

00:20:52,850 --> 00:20:50,340

the treatment he survived he's still

595

00:20:56,630 --> 00:20:52,860

here but as part of that

596

00:20:58,070 --> 00:20:56,640

jonbers was taken to uh earthtech and he

597

00:20:59,750 --> 00:20:58,080

was briefed on remote viewing and

598

00:21:02,090 --> 00:20:59,760

certain types of yoga and meditation

599

00:21:04,310 --> 00:21:02,100

which you know come up often and

600

00:21:06,890 --> 00:21:04,320

apparently he was taken to Sedona

601
00:21:08,210 --> 00:21:06,900
with uh some people that you know we

602
00:21:09,650 --> 00:21:08,220
don't know but they were from the remote

603
00:21:11,750 --> 00:21:09,660
viewing program

604
00:21:13,310 --> 00:21:11,760
and apparently nothing happens this this

605
00:21:15,289 --> 00:21:13,320
place is apparently like skin walker

606
00:21:16,850 --> 00:21:15,299
Ranch nothing happens and as they're

607
00:21:19,130 --> 00:21:16,860
about to leave all these craft appear

608
00:21:20,210 --> 00:21:19,140
they see triangle crafts orbs and

609
00:21:22,250 --> 00:21:20,220
they're asking themselves you know why

610
00:21:26,810 --> 00:21:22,260
why did this happen

611
00:21:29,510 --> 00:21:26,820
so John didn't do yoga or meditation or

612
00:21:31,250 --> 00:21:29,520
ce5 when they were at this spot it just

613
00:21:33,470 --> 00:21:31,260

seems that these things were attracted

614

00:21:35,090 --> 00:21:33,480

to him and there was a really nice

615

00:21:36,770 --> 00:21:35,100

phrase that they used here that Gary

616

00:21:39,110 --> 00:21:36,780

Nolan brought into our lives uh called

617

00:21:41,149 --> 00:21:39,120

lighthouses in the dark and it certainly

618

00:21:44,210 --> 00:21:41,159

seems like John Burr has been in this

619

00:21:46,789 --> 00:21:44,220

one hot spot seems to have attracted

620

00:21:48,110 --> 00:21:46,799

these beings or these craft to this

621

00:21:50,990 --> 00:21:48,120

place

622

00:21:53,270 --> 00:21:51,000

why that happened is anyone's guess but

623

00:21:54,770 --> 00:21:53,280

I think that was an explosive part of

624

00:21:56,390 --> 00:21:54,780

the story I can see you kind of leaning

625

00:21:57,590 --> 00:21:56,400

in as I'm telling it yeah yeah you know

626
00:21:59,450 --> 00:21:57,600
these crafting orbs apparently just

627
00:22:01,909 --> 00:21:59,460
appeared that's insane

628
00:22:03,590 --> 00:22:01,919
um and yeah it could be that there's a

629
00:22:05,330 --> 00:22:03,600
biological marker in people that when

630
00:22:06,409 --> 00:22:05,340
you put them in hot spots you can tell

631
00:22:08,570 --> 00:22:06,419
that this kind of stuff is going to

632
00:22:10,010 --> 00:22:08,580
happen and this is early 90s and we're

633
00:22:12,049 --> 00:22:10,020
30 years later now so you've got to

634
00:22:13,970 --> 00:22:12,059
wonder how that's developed well a nice

635
00:22:16,610 --> 00:22:13,980
segue into Rich Dolan's other interview

636
00:22:19,669 --> 00:22:16,620
that I did watch this week uh but just

637
00:22:22,430 --> 00:22:19,679
the FYI uh Jay from Project Unity did

638
00:22:24,350 --> 00:22:22,440

interview Admiral Bobby Inman that is 90

639

00:22:25,610 --> 00:22:24,360

now that interview is up on his channel

640

00:22:27,649 --> 00:22:25,620

I'll put the link in the description

641

00:22:29,390 --> 00:22:27,659

below and that was eight or nine months

642

00:22:30,950 --> 00:22:29,400

ago now time goes really funny I thought

643

00:22:32,990 --> 00:22:30,960

it was quite recent but I suppose that

644

00:22:34,730 --> 00:22:33,000

is relatively but yeah here we go

645

00:22:37,730 --> 00:22:34,740

um but you mentioned ce5 and remote

646

00:22:42,110 --> 00:22:37,740

viewing an individual who wasn't too

647

00:22:44,270 --> 00:22:42,120

fond of 85 was Richard Dolan's uh

648

00:22:46,130 --> 00:22:44,280

interview with Alan Levine Alan Levine

649

00:22:47,630 --> 00:22:46,140

was part of April the aluminous

650

00:22:49,549 --> 00:22:47,640

anomalous phenomena research

651
00:22:52,190 --> 00:22:49,559
organization station

652
00:22:53,750 --> 00:22:52,200
um and that's to me Dan I remember I

653
00:22:55,430 --> 00:22:53,760
said to you before you listen to it

654
00:22:58,310 --> 00:22:55,440
didn't uh that it felt like a real

655
00:23:01,010 --> 00:22:58,320
throwback interview to the 90s Art Bell

656
00:23:02,090 --> 00:23:01,020
Coast to Coast here was a guy on talking

657
00:23:03,909 --> 00:23:02,100
about

658
00:23:08,270 --> 00:23:03,919
um and like I said the names Alan Levine

659
00:23:11,029 --> 00:23:08,280
uh nuts and bolts E.T craft coming from

660
00:23:12,289 --> 00:23:11,039
other planets he he didn't like the idea

661
00:23:14,930 --> 00:23:12,299
of

662
00:23:18,529 --> 00:23:14,940
um talking about experiencers that kind

663
00:23:20,149 --> 00:23:18,539

of language ce5 remote viewing he felt a

664

00:23:22,549 --> 00:23:20,159

lot of that was mudding the waters

665

00:23:24,770 --> 00:23:22,559

almost almost a disinformation type

666

00:23:26,930 --> 00:23:24,780

thing to take away from the fact we do

667

00:23:29,210 --> 00:23:26,940

have and you know non-human intelligence

668

00:23:30,890 --> 00:23:29,220

from other planets visiting us and it

669

00:23:33,350 --> 00:23:30,900

was it was a real throwback sounding

670

00:23:34,789 --> 00:23:33,360

interview and which not that I

671

00:23:37,070 --> 00:23:34,799

necessarily agreed with everything he

672

00:23:39,470 --> 00:23:37,080

said at all but I found it refreshing in

673

00:23:41,210 --> 00:23:39,480

a way just with how different the

674

00:23:43,789 --> 00:23:41,220

conversation how broad the conversation

675

00:23:45,350 --> 00:23:43,799

can tend to go these days so it's one I

676

00:23:47,990 --> 00:23:45,360

definitely recommend

677

00:23:50,750 --> 00:23:48,000

um people listening to it because Alan

678

00:23:52,130 --> 00:23:50,760

Levine seemed to impress Rich Dolan with

679

00:23:53,990 --> 00:23:52,140

a lot of what he was talking about the

680

00:23:55,789 --> 00:23:54,000

people he was mentioning

681

00:23:58,190 --> 00:23:55,799

um I think Dan when we discussed the

682

00:24:00,110 --> 00:23:58,200

interview one part of it was

683

00:24:02,330 --> 00:24:00,120

who was it you brought up that I said to

684

00:24:04,130 --> 00:24:02,340

you he told the story David a day David

685

00:24:07,490 --> 00:24:04,140

David they are the Forest Gump of

686

00:24:11,330 --> 00:24:07,500

ufology as yeah so he he brings up David

687

00:24:12,710 --> 00:24:11,340

Adair and they talk about Richard Dolan

688

00:24:14,330 --> 00:24:12,720

mentions how

689

00:24:16,310 --> 00:24:14,340

on I wasn't going to talk about this but

690

00:24:17,690 --> 00:24:16,320

it's quite funny he mentions how at a

691

00:24:20,270 --> 00:24:17,700

conference I think it was one of the

692

00:24:21,470 --> 00:24:20,280

Awakening conferences I was a member of

693

00:24:23,270 --> 00:24:21,480

Richard site when this happened well

694

00:24:25,730 --> 00:24:23,280

yeah when he posted it yeah so it was

695

00:24:27,529 --> 00:24:25,740

like 2019 maybe before that yeah it was

696

00:24:29,510 --> 00:24:27,539

around there yeah but then he mentions

697

00:24:31,310 --> 00:24:29,520

he was there with Mike batter and they

698

00:24:34,070 --> 00:24:31,320

were watching David Adair talk and

699

00:24:35,630 --> 00:24:34,080

basically Mike Barron and Richard dolom

700

00:24:37,070 --> 00:24:35,640

are going do you believe this guy do you

701

00:24:39,169 --> 00:24:37,080

continue do you believe this do you

702

00:24:41,330 --> 00:24:39,179

believe this and Alan Levine very much

703

00:24:44,570 --> 00:24:41,340

said David Adair was the real deal and

704

00:24:46,970 --> 00:24:44,580

that David Adair was at Neil Armstrong's

705

00:24:49,130 --> 00:24:46,980

house sleeping in his childhood bed the

706

00:24:51,770 --> 00:24:49,140

the day Neil Armstrong walked on the

707

00:24:53,510 --> 00:24:51,780

moon because childhood beds are smaller

708

00:24:55,010 --> 00:24:53,520

right so like is he just a full-grown

709

00:24:56,990 --> 00:24:55,020

adult with his feet going at the edge

710

00:24:58,430 --> 00:24:57,000

yeah I mean he was staying over but

711

00:25:00,230 --> 00:24:58,440

there's there's context for the story

712

00:25:02,330 --> 00:25:00,240

and everything but it was it was just

713

00:25:04,070 --> 00:25:02,340

quite an interesting conversation like I

714

00:25:05,690 --> 00:25:04,080

say folks go and check it out again the

715

00:25:08,110 --> 00:25:05,700

link will be in the description

716

00:25:11,029 --> 00:25:08,120

um I'll make a note of that but yeah

717

00:25:13,310 --> 00:25:11,039

what what interested me was

718

00:25:16,010 --> 00:25:13,320

he made comments about and I spoke to

719

00:25:17,270 --> 00:25:16,020

you about that Stan experiencers he

720

00:25:19,850 --> 00:25:17,280

doesn't like the term he prefers

721

00:25:22,610 --> 00:25:19,860

eyewitness and we should be looking for

722

00:25:25,430 --> 00:25:22,620

eyewitnesses and I think some of what he

723

00:25:27,230 --> 00:25:25,440

said might upset experiences and and the

724

00:25:29,870 --> 00:25:27,240

way he was talking about it again very

725

00:25:31,970 --> 00:25:29,880

dismissive of ce5 what were your

726

00:25:34,850 --> 00:25:31,980

thoughts on that especially things done

727

00:25:35,930 --> 00:25:34,860

like like you've just mentioned ct5

728

00:25:39,169 --> 00:25:35,940

before

729

00:25:40,850 --> 00:25:39,179

but he laughed at the notion that Dan

730

00:25:43,310 --> 00:25:40,860

could go out into his back garden and

731

00:25:46,070 --> 00:25:43,320

it's very dismissive but basically do

732

00:25:47,930 --> 00:25:46,080

some ce5 and that some really

733

00:25:49,730 --> 00:25:47,940

intelligent beings traveling millions of

734

00:25:52,310 --> 00:25:49,740

light years across the Galaxy will stop

735

00:25:53,930 --> 00:25:52,320

their their craft to wave and come down

736

00:25:56,750 --> 00:25:53,940

to Dan's back garden and see what he

737

00:26:01,010 --> 00:25:56,760

wants which is a very bastardized

738

00:26:03,169 --> 00:26:01,020

version of what ct5 is is making the

739

00:26:05,690 --> 00:26:03,179

jest what were your thoughts on on Alan

740

00:26:07,909 --> 00:26:05,700

Levine I I mean I I really enjoyed the

741

00:26:10,669 --> 00:26:07,919

interview Alan has so much knowledge and

742

00:26:12,710 --> 00:26:10,679

so much kind of you know side so many

743

00:26:14,450 --> 00:26:12,720

sidebars uh during that interview as

744

00:26:16,669 --> 00:26:14,460

well with just interesting things that

745

00:26:19,610 --> 00:26:16,679

kind of you know add to the UFO

746

00:26:21,470 --> 00:26:19,620

conversation I I feel like very nuts and

747

00:26:22,789 --> 00:26:21,480

bolts driven you know like you say he

748

00:26:25,549 --> 00:26:22,799

wants to use Witnesses and not

749

00:26:27,769 --> 00:26:25,559

experiences and that kind of we've heard

750

00:26:28,789 --> 00:26:27,779

that before in some ways um from others

751

00:26:30,769 --> 00:26:28,799

where they say you know you don't

752

00:26:32,570 --> 00:26:30,779

experience a sandwich you you eat the

753

00:26:34,850 --> 00:26:32,580

sandwich you can call everything an

754

00:26:36,350 --> 00:26:34,860

experience if you want to go that way uh

755

00:26:38,710 --> 00:26:36,360

but I I feel like that was the language

756

00:26:41,450 --> 00:26:38,720

difference he was getting at in terms of

757

00:26:43,490 --> 00:26:41,460

ce5 and and you know things stopping to

758

00:26:46,549 --> 00:26:43,500

waver us

759

00:26:48,470 --> 00:26:46,559

there's a lot of assumptions there

760

00:26:50,930 --> 00:26:48,480

um about what these beings are where

761

00:26:53,750 --> 00:26:50,940

they come from to kind of think

762

00:26:55,190 --> 00:26:53,760

why would they stop and you know was

763

00:26:57,289 --> 00:26:55,200

they kind of coming to the planet to

764

00:26:59,750 --> 00:26:57,299

waver Bob in his backyard kind of doing

765

00:27:01,850 --> 00:26:59,760

ce5 for all we know it could be like a

766

00:27:03,830 --> 00:27:01,860

tour bus right and they're just here to

767

00:27:05,990 --> 00:27:03,840

see people who who light up like these

768

00:27:07,610 --> 00:27:06,000

lighthouses in the dark to them you know

769

00:27:09,529 --> 00:27:07,620

what would be more interesting if if

770

00:27:11,570 --> 00:27:09,539

they are kind of Sci based and they use

771

00:27:14,390 --> 00:27:11,580

kind of telepathy and things like that

772

00:27:15,950 --> 00:27:14,400

you would aim for people who were more

773

00:27:17,450 --> 00:27:15,960

likely to be able to interact with you

774

00:27:20,090 --> 00:27:17,460

as opposed to people that didn't show up

775

00:27:21,830 --> 00:27:20,100

you know uh so it didn't it didn't

776

00:27:23,690 --> 00:27:21,840

really push anything off the table for

777

00:27:25,669 --> 00:27:23,700

me uh I I thought it was kind of

778

00:27:27,110 --> 00:27:25,679

unfortunate that he spoke on these notes

779

00:27:29,029 --> 00:27:27,120

and Vault Stones because like you say

780

00:27:30,769 --> 00:27:29,039

there's there are going to be a lot of

781

00:27:32,690 --> 00:27:30,779

people where that rubs them up the wrong

782

00:27:34,789 --> 00:27:32,700

way whereas I I personally I feel it was

783

00:27:37,190 --> 00:27:34,799

just a language thing you know just

784

00:27:38,450 --> 00:27:37,200

words and we're just trying to find that

785

00:27:41,029 --> 00:27:38,460

that kind of

786

00:27:43,370 --> 00:27:41,039

agreed term that we use to talk about

787

00:27:44,990 --> 00:27:43,380

these things because whether they are

788

00:27:46,669 --> 00:27:45,000

aliens stopping in the atmosphere to

789

00:27:48,470 --> 00:27:46,679

give it a wave or not there are things

790

00:27:51,049 --> 00:27:48,480

there that seem to respond to those

791

00:27:52,610 --> 00:27:51,059

protocols so what they are is anyone's

792

00:27:54,890 --> 00:27:52,620

guess so they didn't necessarily have to

793

00:27:56,330 --> 00:27:54,900

come from is it to reticulate to do that

794

00:27:58,789 --> 00:27:56,340

way then it could be an interdimensional

795

00:28:02,630 --> 00:27:58,799

thing and you know we've heard

796

00:28:04,610 --> 00:28:02,640

ideas as well where ce5 the person doing

797

00:28:06,470 --> 00:28:04,620

it is generating the light flash in the

798

00:28:08,510 --> 00:28:06,480

sky and it's kind of latent psychic kind

799

00:28:10,250 --> 00:28:08,520

of ability uh lots of different

800

00:28:12,470 --> 00:28:10,260

possibilities that that I wouldn't kind

801
00:28:14,690 --> 00:28:12,480
of push that off the table for but I I

802
00:28:16,490 --> 00:28:14,700
did love some of the stuff you know

803
00:28:18,830 --> 00:28:16,500
Alan was the first person to speak to

804
00:28:21,529 --> 00:28:18,840
Travis Walton uh there was the day after

805
00:28:23,210 --> 00:28:21,539
that he came back apparently yeah yeah

806
00:28:25,070 --> 00:28:23,220
and there was some interesting he

807
00:28:26,390 --> 00:28:25,080
mentioned about polygraph tests and what

808
00:28:27,950 --> 00:28:26,400
I really liked about this part of the

809
00:28:30,289 --> 00:28:27,960
interview was actually that Alan was

810
00:28:32,510 --> 00:28:30,299
emphasizing that polygraph tests are

811
00:28:34,250 --> 00:28:32,520
notoriously unreliable so you kind of

812
00:28:36,890 --> 00:28:34,260
have to take them with a pinch of salt

813
00:28:38,630 --> 00:28:36,900

and and there were so many times in

814

00:28:39,830 --> 00:28:38,640

cases where polygraphs come up as the

815

00:28:41,269 --> 00:28:39,840

be-all and end all and they're not

816

00:28:42,409 --> 00:28:41,279

they're not admissible in court they can

817

00:28:43,669 --> 00:28:42,419

just kind of give you a guidance and

818

00:28:44,870 --> 00:28:43,679

tell you whether someone's fibbing to

819

00:28:46,669 --> 00:28:44,880

you or not

820

00:28:48,350 --> 00:28:46,679

um and then you can kind of follow along

821

00:28:49,370 --> 00:28:48,360

the track of I think they've been there

822

00:28:50,870 --> 00:28:49,380

for all pressure them and they might

823

00:28:53,210 --> 00:28:50,880

confess you know like that kind of stuff

824

00:28:55,149 --> 00:28:53,220

you have just ruined years of Jerry

825

00:28:58,789 --> 00:28:55,159

Springer for many minutes

826

00:29:01,250 --> 00:28:58,799

sorry not sorry yeah

827

00:29:03,470 --> 00:29:01,260

um there were a couple of other really

828

00:29:05,210 --> 00:29:03,480

interesting Parts you you know

829

00:29:08,210 --> 00:29:05,220

he was saying that they would keep

830

00:29:10,730 --> 00:29:08,220

certain details back from kind of public

831

00:29:12,350 --> 00:29:10,740

discourse so I thought that was

832

00:29:13,669 --> 00:29:12,360

unpleased and yeah yeah it was really

833

00:29:16,010 --> 00:29:13,679

interesting right like a couple of

834

00:29:17,450 --> 00:29:16,020

things came up about like the eyes how

835

00:29:19,070 --> 00:29:17,460

they weren't just big and black they had

836

00:29:20,750 --> 00:29:19,080

irises

837

00:29:23,149 --> 00:29:20,760

um and

838

00:29:24,590 --> 00:29:23,159

talking about Travis and a lot of other

839

00:29:26,450 --> 00:29:24,600

people were reporting that inside these

840

00:29:28,250 --> 00:29:26,460

ships there are no corners there are

841

00:29:29,630 --> 00:29:28,260

just curved surfaces

842

00:29:31,190 --> 00:29:29,640

um which does make me think that Steve

843

00:29:33,110 --> 00:29:31,200

Jobs was an alien because apparently his

844

00:29:35,930 --> 00:29:33,120

house was the similar kind of thing he

845

00:29:38,570 --> 00:29:35,940

hated kind of sharp Corners uh but yeah

846

00:29:40,610 --> 00:29:38,580

again details that you can infer a lot

847

00:29:41,690 --> 00:29:40,620

from and and Alan kind of emphasized

848

00:29:44,870 --> 00:29:41,700

this a lot going through the interview

849

00:29:46,370 --> 00:29:44,880

that no matter what detail it is you can

850

00:29:48,110 --> 00:29:46,380

kind of backward engineer the thought

851
00:29:49,789 --> 00:29:48,120
and kind of think okay if there's a big

852
00:29:51,110 --> 00:29:49,799
eye there why would that big eye be

853
00:29:52,730 --> 00:29:51,120
there okay will they travel in space

854
00:29:54,049 --> 00:29:52,740
therefore they're gonna need to let more

855
00:29:56,090 --> 00:29:54,059
light into the right to see better

856
00:29:57,950 --> 00:29:56,100
therefore there I would grow that and we

857
00:29:59,750 --> 00:29:57,960
know that the eye needs to be round to

858
00:30:01,789 --> 00:29:59,760
kind of focus the light on a certain

859
00:30:03,169 --> 00:30:01,799
point so that the brain can read it and

860
00:30:04,909 --> 00:30:03,179
you can kind of start modeling you know

861
00:30:07,490 --> 00:30:04,919
the anatomy of these things and whether

862
00:30:09,110 --> 00:30:07,500
they could exist uh based off details

863
00:30:10,970 --> 00:30:09,120

like that and I found that really really

864

00:30:12,889 --> 00:30:10,980

captivated

865

00:30:15,230 --> 00:30:12,899

um there was a point as well where it

866

00:30:17,690 --> 00:30:15,240

was brought up about why do these things

867

00:30:18,950 --> 00:30:17,700

keep crashing if they're so Advanced and

868

00:30:20,210 --> 00:30:18,960

Alan rightly said you know just because

869

00:30:22,490 --> 00:30:20,220

you have a Lamborghini it doesn't make

870

00:30:23,870 --> 00:30:22,500

you smarter than everyone else which I

871

00:30:26,090 --> 00:30:23,880

thought was a really good point uh

872

00:30:27,889 --> 00:30:26,100

really succinctly he made the I think he

873

00:30:30,350 --> 00:30:27,899

made the point and again there will be

874

00:30:32,630 --> 00:30:30,360

people listening to this far better than

875

00:30:33,769 --> 00:30:32,640

me and maybe even yourself that I put

876

00:30:35,870 --> 00:30:33,779

you obviously knowing more than I do

877

00:30:38,450 --> 00:30:35,880

about that I would say more for longer

878

00:30:40,970 --> 00:30:38,460

but yeah sharp so yeah more than you as

879

00:30:44,269 --> 00:30:40,980

well then there you go but um the idea

880

00:30:46,430 --> 00:30:44,279

that we assume these things visiting

881

00:30:49,070 --> 00:30:46,440

here all made these crafts themselves

882

00:30:50,450 --> 00:30:49,080

but they made the point what if they had

883

00:30:52,310 --> 00:30:50,460

just back engineered something that

884

00:30:55,130 --> 00:30:52,320

crashed on their Planet what if they

885

00:30:58,370 --> 00:30:55,140

shot down something and now had the

886

00:31:00,470 --> 00:30:58,380

crafts through whatever means to fly

887

00:31:01,789 --> 00:31:00,480

here so there's that assumption isn't

888

00:31:03,289 --> 00:31:01,799

there that oh well these things have

889

00:31:05,450 --> 00:31:03,299

this technology so they must be so much

890

00:31:07,130 --> 00:31:05,460

better than us and what if they're just

891

00:31:08,750 --> 00:31:07,140

10 years ahead in a back engineering

892

00:31:10,789 --> 00:31:08,760

program and it was that was a really

893

00:31:12,950 --> 00:31:10,799

interesting way to look at it wasn't

894

00:31:14,930 --> 00:31:12,960

that a really interesting point

895

00:31:17,330 --> 00:31:14,940

um even going back to some of his

896

00:31:19,490 --> 00:31:17,340

conversations about Holloman and their

897

00:31:21,649 --> 00:31:19,500

their being an apro office within

898

00:31:23,510 --> 00:31:21,659

Holloman Air Force Base yeah some of the

899

00:31:25,789 --> 00:31:23,520

individuals involved with that that it

900

00:31:28,010 --> 00:31:25,799

was kind of it wasn't unofficial but it

901
00:31:29,570 --> 00:31:28,020
was small and it was to the side and and

902
00:31:31,370 --> 00:31:29,580
they seem to have a lot of money as well

903
00:31:32,930 --> 00:31:31,380
and they had staff and it seemed like

904
00:31:34,610 --> 00:31:32,940
maybe there was an official hand in it

905
00:31:36,590 --> 00:31:34,620
and yeah that was intriguing I hope that

906
00:31:38,210 --> 00:31:36,600
comes out in the future talks there's a

907
00:31:39,529 --> 00:31:38,220
lot in it folks honestly I think it's

908
00:31:41,269 --> 00:31:39,539
one that I would definitely recommend

909
00:31:42,289 --> 00:31:41,279
you go and check out as a standalone

910
00:31:44,510 --> 00:31:42,299
interview

911
00:31:46,730 --> 00:31:44,520
um so two two pretty big ones from Rich

912
00:31:48,350 --> 00:31:46,740
Dolan in the space of a week to be fair

913
00:31:50,750 --> 00:31:48,360

um I I would recommend checking both of

914

00:31:53,090 --> 00:31:50,760

them out one very much a research base

915

00:31:55,730 --> 00:31:53,100

to other Alan Levine

916

00:31:58,250 --> 00:31:55,740

a guy with quite an extensive background

917

00:31:59,690 --> 00:31:58,260

and character profile but he he talks

918

00:32:01,310 --> 00:31:59,700

about a lot of people

919

00:32:03,169 --> 00:32:01,320

um spanning a lot of time as well so

920

00:32:05,630 --> 00:32:03,179

definitely worth checking both of those

921

00:32:07,190 --> 00:32:05,640

out yeah Dan yeah yeah definitely the

922

00:32:08,330 --> 00:32:07,200

one of my favorite points I think from

923

00:32:09,590 --> 00:32:08,340

that interview was when they were

924

00:32:11,630 --> 00:32:09,600

talking about lost tribes in the Amazon

925

00:32:13,070 --> 00:32:11,640

and and Alan was quite correctly saying

926
00:32:15,169 --> 00:32:13,080
you know do we study these tribes by

927
00:32:17,570 --> 00:32:15,179
satellite and these tribes have no idea

928
00:32:19,010 --> 00:32:17,580
that this space-faring civilization is

929
00:32:21,230 --> 00:32:19,020
studying them by satellite and

930
00:32:23,090 --> 00:32:21,240
apparently they flew a drone in and you

931
00:32:24,590 --> 00:32:23,100
know we just got speared basically and

932
00:32:26,810 --> 00:32:24,600
you've got to wonder what that tribe

933
00:32:28,070 --> 00:32:26,820
thought when they saw that flying drone

934
00:32:29,870 --> 00:32:28,080
you know it's gonna be like one of us

935
00:32:31,130 --> 00:32:29,880
seeing a UFO

936
00:32:32,810 --> 00:32:31,140
um and when we went there we didn't

937
00:32:34,070 --> 00:32:32,820
offer technology we didn't have to solve

938
00:32:37,190 --> 00:32:34,080

their problems we didn't bring them a

939

00:32:39,710 --> 00:32:37,200

healthcare you know so it's very much a

940

00:32:42,649 --> 00:32:39,720

similar situation but uh but yeah you

941

00:32:44,149 --> 00:32:42,659

know we we the advanced civilization

942

00:32:45,710 --> 00:32:44,159

didn't solve anything for the less

943

00:32:48,649 --> 00:32:45,720

Advanced civilization it was just an

944

00:32:51,049 --> 00:32:48,659

observational visit which could be what

945

00:32:53,690 --> 00:32:51,059

you know our visitors are doing too yeah

946

00:32:55,070 --> 00:32:53,700

can I just drop a fact on the in view on

947

00:32:57,710 --> 00:32:55,080

you because I thought this was really

948

00:32:59,330 --> 00:32:57,720

cool they were talking about inventions

949

00:33:00,889 --> 00:32:59,340

and how it long it takes them to kind of

950

00:33:03,769 --> 00:33:00,899

come to Market when do you think the fax

951
00:33:06,230 --> 00:33:03,779
machine was invented the facts machines

952
00:33:09,710 --> 00:33:06,240
machine yeah um I would say the fax

953
00:33:13,570 --> 00:33:09,720
machine was invented in 1904 1904

954
00:33:17,269 --> 00:33:13,580
average your um questions

955
00:33:19,190 --> 00:33:17,279
1843. ah which is insane like we didn't

956
00:33:20,750 --> 00:33:19,200
even have telephones then and this was

957
00:33:22,669 --> 00:33:20,760
you know a wired fax machine and it

958
00:33:24,289 --> 00:33:22,679
worked kind of different from the facts

959
00:33:26,330 --> 00:33:24,299
that we're thinking of but that's where

960
00:33:28,430 --> 00:33:26,340
it started the electric motor apparently

961
00:33:30,889 --> 00:33:28,440
took 60 years before it caught on after

962
00:33:33,049 --> 00:33:30,899
someone patented it so

963
00:33:34,970 --> 00:33:33,059

you know just to say basically that this

964

00:33:36,649 --> 00:33:34,980

technology we're talking about you know

965

00:33:38,149 --> 00:33:36,659

gravity technology or anti-gravity

966

00:33:40,250 --> 00:33:38,159

technology

967

00:33:43,669 --> 00:33:42,409

60 years from electric motor means that

968

00:33:45,470 --> 00:33:43,679

you know if we got something from

969

00:33:46,909 --> 00:33:45,480

Roswell we're about at the cusp now

970

00:33:48,169 --> 00:33:46,919

where we should start seeing it come out

971

00:33:50,149 --> 00:33:48,179

so

972

00:33:51,889 --> 00:33:50,159

it's intriguing it's an intriguing

973

00:33:54,470 --> 00:33:51,899

possibility right

974

00:33:57,350 --> 00:33:54,480

100 yeah no that was a cool interview

975

00:33:59,029 --> 00:33:57,360

and go and check that out uh ancient

976
00:34:01,070 --> 00:33:59,039
apocalypse then is one that you wanted

977
00:34:03,529 --> 00:34:01,080
to bring up this is the Graham Hancock

978
00:34:05,990 --> 00:34:03,539
series that has just been on Netflix

979
00:34:08,329 --> 00:34:06,000
I touched on this and the solo breakdown

980
00:34:12,109 --> 00:34:08,339
a few weeks ago and I I saw a little

981
00:34:15,649 --> 00:34:12,119
interesting factoid then uh that someone

982
00:34:18,349 --> 00:34:15,659
so the series largely in the mainstream

983
00:34:19,490 --> 00:34:18,359
press has been ridiculed derated and I

984
00:34:20,990 --> 00:34:19,500
think that's probably what Graham

985
00:34:23,930 --> 00:34:21,000
Hancock expected because it's something

986
00:34:26,570 --> 00:34:23,940
he's he's kind of had to had to accept

987
00:34:28,909 --> 00:34:26,580
going through his his career that he

988
00:34:31,430 --> 00:34:28,919

gets labels like pseudoscience and you

989

00:34:32,990 --> 00:34:31,440

know myth and no facts and no evidence

990

00:34:34,430 --> 00:34:33,000

thrown at him quite a lot so he'll be

991

00:34:35,810 --> 00:34:34,440

used to it and it's probably good

992

00:34:37,369 --> 00:34:35,820

advertising as well because it's still

993

00:34:40,010 --> 00:34:37,379

doing really well on Netflix in the

994

00:34:41,450 --> 00:34:40,020

charts but I saw an article that was

995

00:34:43,129 --> 00:34:41,460

quite scathing I think it was the

996

00:34:46,129 --> 00:34:43,139

guardian of the telegraph one of these

997

00:34:48,109 --> 00:34:46,139

reviewing it where it tears it apart the

998

00:34:49,909 --> 00:34:48,119

whole time and then says at the end and

999

00:34:52,730 --> 00:34:49,919

even if all of that's not enough for you

1000

00:34:55,490 --> 00:34:52,740

just know that Graham Hancock's son is

1001
00:34:58,130 --> 00:34:55,500
the senior manager in charge of Netflix

1002
00:34:59,870 --> 00:34:58,140
unscripted originals so that's why he

1003
00:35:01,250 --> 00:34:59,880
basically got this commissioned I've

1004
00:35:03,109 --> 00:35:01,260
been unable to find if that was

1005
00:35:04,849 --> 00:35:03,119
definitely true or not I don't know if

1006
00:35:06,950 --> 00:35:04,859
you would that because I messaged you

1007
00:35:08,329 --> 00:35:06,960
about this didn't I yeah you did I'm

1008
00:35:10,910 --> 00:35:08,339
just looking now I can't see anything

1009
00:35:12,230 --> 00:35:10,920
obvious on the IMDb uh but I mean it

1010
00:35:13,910 --> 00:35:12,240
wouldn't surprise me uh you know

1011
00:35:15,530 --> 00:35:13,920
Productions are often done by people who

1012
00:35:18,349 --> 00:35:15,540
have a passion for them you know because

1013
00:35:21,530 --> 00:35:18,359

this stuff I I heard about two years ago

1014

00:35:23,329 --> 00:35:21,540

that this was in the works so it's taken

1015

00:35:25,370 --> 00:35:23,339

a long time to kind of get there and it

1016

00:35:27,530 --> 00:35:25,380

would make sense the grams um uh you

1017

00:35:29,030 --> 00:35:27,540

know help get it there does that does

1018

00:35:31,069 --> 00:35:29,040

that change things for you like did you

1019

00:35:32,870 --> 00:35:31,079

leave things a little less no I don't

1020

00:35:35,510 --> 00:35:32,880

think so because

1021

00:35:36,890 --> 00:35:35,520

it fits Netflix given some of the

1022

00:35:38,990 --> 00:35:36,900

content they have on there that you

1023

00:35:40,849 --> 00:35:39,000

would put within a similar vein I think

1024

00:35:42,650 --> 00:35:40,859

it's really well produced

1025

00:35:44,150 --> 00:35:42,660

um I think it looks beautiful I know

1026

00:35:45,530 --> 00:35:44,160

sometimes I can say that in a way if

1027

00:35:47,630 --> 00:35:45,540

something's about boarding it looks

1028

00:35:50,150 --> 00:35:47,640

really nice but it does it's it's filmed

1029

00:35:52,190 --> 00:35:50,160

in some fascinating locations

1030

00:35:54,890 --> 00:35:52,200

um I don't know if Eight Episodes is a

1031

00:35:57,829 --> 00:35:54,900

bit long for it I I think maybe

1032

00:35:59,870 --> 00:35:57,839

five or six might have been fine see I

1033

00:36:02,690 --> 00:35:59,880

kind of wanted more

1034

00:36:04,970 --> 00:36:02,700

um that's really interesting because

1035

00:36:06,170 --> 00:36:04,980

you know I I love this stuff um and it

1036

00:36:07,490 --> 00:36:06,180

was very much the ancient kind of

1037

00:36:09,230 --> 00:36:07,500

civilizations of the world being back

1038

00:36:12,050 --> 00:36:09,240

into the UFO fold you know as Tom Delan

1039

00:36:13,550 --> 00:36:12,060

came out with tssa uh but for you this

1040

00:36:15,650 --> 00:36:13,560

isn't this is like a new thing right

1041

00:36:17,810 --> 00:36:15,660

maybe not new but you know it's

1042

00:36:20,089 --> 00:36:17,820

something I've never dived into and yeah

1043

00:36:22,569 --> 00:36:20,099

watching this it was more of a I'm aware

1044

00:36:25,370 --> 00:36:22,579

of this stuff but here's some real

1045

00:36:27,530 --> 00:36:25,380

here's a lot of examples with a lot of

1046

00:36:29,270 --> 00:36:27,540

context and kind of the rich history of

1047

00:36:30,530 --> 00:36:29,280

it or Rich history you know no pun

1048

00:36:32,870 --> 00:36:30,540

intended

1049

00:36:34,250 --> 00:36:32,880

um but I thought it was interesting it

1050

00:36:35,810 --> 00:36:34,260

wouldn't change it for me if it was

1051

00:36:36,650 --> 00:36:35,820

Graham Hancock's son that commissioned

1052

00:36:39,349 --> 00:36:36,660

it

1053

00:36:42,710 --> 00:36:39,359

um I can see why he does

1054

00:36:44,329 --> 00:36:42,720

get a lot of aggro from the mainstream

1055

00:36:46,370 --> 00:36:44,339

because it's the same as the UFO subject

1056

00:36:47,569 --> 00:36:46,380

and trying to talk about that oh there's

1057

00:36:50,210 --> 00:36:47,579

no proof there's no evidence it's

1058

00:36:52,250 --> 00:36:50,220

nonsense but there are some things that

1059

00:36:53,390 --> 00:36:52,260

are raised that you think oh I would

1060

00:36:56,270 --> 00:36:53,400

love to hear

1061

00:36:58,430 --> 00:36:56,280

serious archaeologist come on and not

1062

00:37:00,230 --> 00:36:58,440

debunk but have a recent conversation to

1063

00:37:02,329 --> 00:37:00,240

say well actually he makes this point

1064

00:37:04,609 --> 00:37:02,339

but the reason this could go back this

1065

00:37:06,710 --> 00:37:04,619

far is just this it could be any number

1066

00:37:08,750 --> 00:37:06,720

of things and that's just one of them so

1067

00:37:10,250 --> 00:37:08,760

that that would be fair enough but it

1068

00:37:12,410 --> 00:37:10,260

just tends to be it's rubbish and

1069

00:37:14,030 --> 00:37:12,420

dismissed too quickly and it seems to me

1070

00:37:16,910 --> 00:37:14,040

there's a lot of archaeological new

1071

00:37:19,609 --> 00:37:16,920

digress Tysons out there very happy to

1072

00:37:22,370 --> 00:37:19,619

just very well put thank you very happy

1073

00:37:24,770 --> 00:37:22,380

to sling their mind mud there's another

1074

00:37:27,770 --> 00:37:24,780

one for you uh Graham Hancock's work

1075

00:37:29,510 --> 00:37:27,780

without giving people like me who go oh

1076
00:37:32,390 --> 00:37:29,520
that's interesting what's the argument

1077
00:37:34,910 --> 00:37:32,400
to the contrary in a paratable way that

1078
00:37:36,410 --> 00:37:34,920
I can digest that and go actually nah

1079
00:37:38,690 --> 00:37:36,420
Graham Hancock's going pure Ancient

1080
00:37:40,130 --> 00:37:38,700
Aliens there and doing the whole Giorgio

1081
00:37:42,710 --> 00:37:40,140
circulus you know it must be aliens

1082
00:37:44,030 --> 00:37:42,720
because of this rather than giving you a

1083
00:37:46,069 --> 00:37:44,040
reasoned argument as to why it's

1084
00:37:48,109 --> 00:37:46,079
definitely known I feel like almost the

1085
00:37:49,730 --> 00:37:48,119
title makes people think that way as

1086
00:37:50,870 --> 00:37:49,740
well you know ancient apocalypse Ancient

1087
00:37:52,069 --> 00:37:50,880
Aliens they're not too far from each

1088
00:37:53,329 --> 00:37:52,079

other and I kind of wish that it was

1089

00:37:55,250 --> 00:37:53,339

yeah something else because a lot of

1090

00:37:56,510 --> 00:37:55,260

people said to me you know it's similar

1091

00:37:58,010 --> 00:37:56,520

does this mean that he's talking about

1092

00:37:59,810 --> 00:37:58,020

aliens and I was like yeah not

1093

00:38:01,490 --> 00:37:59,820

necessarily you know Graham doesn't he's

1094

00:38:03,349 --> 00:38:01,500

not into the whole alien idea he doesn't

1095

00:38:06,050 --> 00:38:03,359

think we need them he he's more a

1096

00:38:07,790 --> 00:38:06,060

champion of there's a big question to be

1097

00:38:09,290 --> 00:38:07,800

asked here that there was something that

1098

00:38:12,170 --> 00:38:09,300

happened during the younger dryers

1099

00:38:14,390 --> 00:38:12,180

period uh where the ice age ended and

1100

00:38:16,370 --> 00:38:14,400

there was massive warming and we don't

1101
00:38:17,990 --> 00:38:16,380
really know why that happened and all of

1102
00:38:19,550 --> 00:38:18,000
this lines up with a lot of

1103
00:38:22,010 --> 00:38:19,560
civilizations kind of I say

1104
00:38:23,450 --> 00:38:22,020
civilizations Villages and sites and

1105
00:38:25,730 --> 00:38:23,460
things like that kind of Disappearing

1106
00:38:27,710 --> 00:38:25,740
sea level rises things like that so

1107
00:38:30,530 --> 00:38:27,720
there's almost a picture being painted

1108
00:38:32,750 --> 00:38:30,540
that that's what needs discussion you

1109
00:38:34,910 --> 00:38:32,760
know why I don't wanna I'm bored of

1110
00:38:35,930 --> 00:38:34,920
hearing you know people say oh Graham

1111
00:38:37,609 --> 00:38:35,940
Hancock shouldn't be listened to because

1112
00:38:38,690 --> 00:38:37,619
he was on Joe Rogan or Graham Hancock

1113
00:38:40,190 --> 00:38:38,700

shouldn't be listened to because he went

1114

00:38:41,569 --> 00:38:40,200

and did Ayahuasca like these aren't

1115

00:38:43,130 --> 00:38:41,579

arguments against the younger driest

1116

00:38:46,190 --> 00:38:43,140

hypothesis you're attacking the person

1117

00:38:48,770 --> 00:38:46,200

not the message I I the same as you I I

1118

00:38:50,770 --> 00:38:48,780

really would love a seasoned academic to

1119

00:38:53,210 --> 00:38:50,780

kind of address the younger driest

1120

00:38:55,310 --> 00:38:53,220

hypothesis about whether you know there

1121

00:38:56,829 --> 00:38:55,320

was solar flare or a bunch of impacts

1122

00:38:59,810 --> 00:38:56,839

because there are legitimately

1123

00:39:01,370 --> 00:38:59,820

peer-reviewed science papers now that

1124

00:39:03,890 --> 00:39:01,380

point out that yes something happened

1125

00:39:06,290 --> 00:39:03,900

yes it's probably an impact or a solar

1126

00:39:07,730 --> 00:39:06,300

flare and it's kind of starting to

1127

00:39:11,510 --> 00:39:07,740

change and I think in you know maybe 15

1128

00:39:12,950 --> 00:39:11,520

20 years we'll we'll have essentially a

1129

00:39:14,690 --> 00:39:12,960

Changing of the Guard in terms of

1130

00:39:16,550 --> 00:39:14,700

archeology and things like that and

1131

00:39:18,530 --> 00:39:16,560

it'll be a much more accepted fact that

1132

00:39:21,349 --> 00:39:18,540

something happened but you know what one

1133

00:39:23,569 --> 00:39:21,359

thing I have seen thrown at it uh is the

1134

00:39:25,490 --> 00:39:23,579

introduction of The Joe Rogan Clips

1135

00:39:27,349 --> 00:39:25,500

during the documentary and I think

1136

00:39:29,569 --> 00:39:27,359

that's just an attempt to try and give

1137

00:39:31,730 --> 00:39:29,579

it an extra level of credibility with

1138

00:39:34,130 --> 00:39:31,740

the audience that oh look I was on Joe

1139

00:39:36,410 --> 00:39:34,140

Rogan which that that's fine it has has

1140

00:39:38,810 --> 00:39:36,420

shown someone suggested to put that in

1141

00:39:41,270 --> 00:39:38,820

there so great it doesn't add anything

1142

00:39:43,310 --> 00:39:41,280

to it and what maybe would have been

1143

00:39:46,609 --> 00:39:43,320

better placed would have been if he

1144

00:39:48,589 --> 00:39:46,619

could have gotten uh the mechquest of

1145

00:39:51,230 --> 00:39:48,599

the archaeological World someone on

1146

00:39:52,849 --> 00:39:51,240

there with a knowledge and a respect to

1147

00:39:55,730 --> 00:39:52,859

come on and say look well you come here

1148

00:39:58,670 --> 00:39:55,740

and just for these short moments very

1149

00:40:01,190 --> 00:39:58,680

quickly debate or have Graham and other

1150

00:40:03,050 --> 00:40:01,200

on the screen with him to say look I'm

1151

00:40:05,270 --> 00:40:03,060

presenting this information why would

1152

00:40:07,670 --> 00:40:05,280

archaeologists or why would why would a

1153

00:40:10,190 --> 00:40:07,680

scholar or an academic you know whatever

1154

00:40:11,569 --> 00:40:10,200

the correct terminology would be why

1155

00:40:14,750 --> 00:40:11,579

would they debate this why would they

1156

00:40:16,490 --> 00:40:14,760

say this wasn't something more and just

1157

00:40:18,470 --> 00:40:16,500

have maybe that alternative Theory

1158

00:40:20,750 --> 00:40:18,480

presented I think that's maybe what's

1159

00:40:23,270 --> 00:40:20,760

lacking within it just to have that

1160

00:40:25,310 --> 00:40:23,280

other side of the coin yeah I would

1161

00:40:26,750 --> 00:40:25,320

agree with you it should be a discussion

1162

00:40:28,550 --> 00:40:26,760

where the the points are presented

1163

00:40:32,210 --> 00:40:28,560

because there are very compelling data

1164

00:40:34,130 --> 00:40:32,220

points to to you know that describe this

1165

00:40:35,810 --> 00:40:34,140

absolutely cataclysmic period to look

1166

00:40:37,670 --> 00:40:35,820

through and you you can definitely build

1167

00:40:39,050 --> 00:40:37,680

that narrative and story and there are

1168

00:40:40,370 --> 00:40:39,060

things that we take for granted in that

1169

00:40:42,349 --> 00:40:40,380

kind of mainstream story like that we

1170

00:40:43,849 --> 00:40:42,359

all came out of Africa for example there

1171

00:40:45,349 --> 00:40:43,859

are now a lot of studies emerging where

1172

00:40:47,089 --> 00:40:45,359

they're like oh maybe we didn't you know

1173

00:40:49,550 --> 00:40:47,099

there are footprints over here or there

1174

00:40:50,990 --> 00:40:49,560

are people hunting fish over here or you

1175

00:40:52,790 --> 00:40:51,000

know something else that kind of just

1176
00:40:55,790 --> 00:40:52,800
point to that story not necessarily

1177
00:40:57,950 --> 00:40:55,800
being absolute and that's where I kind

1178
00:40:59,450 --> 00:40:57,960
of want to see explored you know there's

1179
00:41:01,190 --> 00:40:59,460
no point in just kind of sitting there

1180
00:41:03,230 --> 00:41:01,200
and saying I'm right they're wrong they

1181
00:41:05,750 --> 00:41:03,240
should listen to me uh you know we

1182
00:41:07,370 --> 00:41:05,760
actually have to do the work here uh and

1183
00:41:09,650 --> 00:41:07,380
and you know find people that are worth

1184
00:41:11,569 --> 00:41:09,660
debating uh for Hancock and for Randall

1185
00:41:13,849 --> 00:41:11,579
Carlson and people like Robert shark and

1186
00:41:14,990 --> 00:41:13,859
John Anthony West blesses her John

1187
00:41:16,849 --> 00:41:15,000
Anthony west by the way if you're not

1188
00:41:18,170 --> 00:41:16,859

familiar with the name he did a whole

1189

00:41:20,270 --> 00:41:18,180

bunch of series about kind of the

1190

00:41:22,130 --> 00:41:20,280

pyramids and where they come from and

1191

00:41:23,690 --> 00:41:22,140

all the anomalies there he's passed away

1192

00:41:25,130 --> 00:41:23,700

way now but that's very much kind of

1193

00:41:28,190 --> 00:41:25,140

where all of that stuff kind of comes

1194

00:41:30,109 --> 00:41:28,200

from awesome and some of those sites are

1195

00:41:32,990 --> 00:41:30,119

very beautiful very interesting I would

1196

00:41:35,770 --> 00:41:33,000

love to go there myself Dan in the very

1197

00:41:38,329 --> 00:41:35,780

near future as in next week

1198

00:41:40,010 --> 00:41:38,339

yeah you are off on your travels aren't

1199

00:41:41,569 --> 00:41:40,020

you just um a good time to put this in

1200

00:41:44,690 --> 00:41:41,579

because people may notice in the coming

1201
00:41:46,250 --> 00:41:44,700
months that you are either missing for a

1202
00:41:48,290 --> 00:41:46,260
little bit of time or your audio sounds

1203
00:41:50,030 --> 00:41:48,300
a bit different or your backgrounds are

1204
00:41:51,950 --> 00:41:50,040
a bit different and but you're heading

1205
00:41:54,829 --> 00:41:51,960
off for a while aren't you yeah that's

1206
00:41:57,470 --> 00:41:54,839
right so I decided basically you know

1207
00:41:59,390 --> 00:41:57,480
saved up a bit of money quit my job gave

1208
00:42:01,010 --> 00:41:59,400
my notes on my flat and I'm just gonna

1209
00:42:02,990 --> 00:42:01,020
go traveling to kind of see a lot of

1210
00:42:04,430 --> 00:42:03,000
these ancient sites and see a lot of UFO

1211
00:42:06,410 --> 00:42:04,440
kind of hot spots and things like that

1212
00:42:08,270 --> 00:42:06,420
I'll be going to New York first of all

1213
00:42:09,770 --> 00:42:08,280

to see this incredible conference the

1214

00:42:12,109 --> 00:42:09,780

the James and Jay have put together and

1215

00:42:14,990 --> 00:42:12,119

meet everyone there and after that uh my

1216

00:42:17,210 --> 00:42:15,000

first spot is Mexico City uh where I'll

1217

00:42:20,210 --> 00:42:17,220

be going to kind of see the celebrations

1218

00:42:22,190 --> 00:42:20,220

around the Lady of Guadalupe uh which we

1219

00:42:24,650 --> 00:42:22,200

all know there's an attachment to UFOs

1220

00:42:26,450 --> 00:42:24,660

into the miracle of Fatima there as well

1221

00:42:28,550 --> 00:42:26,460

as seeing a lot of these ancient sites

1222

00:42:29,870 --> 00:42:28,560

that you see in ancient apocalypse and

1223

00:42:32,150 --> 00:42:29,880

this was planned before the show came

1224

00:42:34,310 --> 00:42:32,160

along just so we will know uh but I'll

1225

00:42:36,470 --> 00:42:34,320

be doing you know lives and stuff like

1226

00:42:38,150 --> 00:42:36,480

that from the sites themselves so feel

1227

00:42:40,010 --> 00:42:38,160

free to follow me on social media things

1228

00:42:41,510 --> 00:42:40,020

like that and you'll you'll see the

1229

00:42:43,910 --> 00:42:41,520

videos of my travels and things like

1230

00:42:46,970 --> 00:42:43,920

that one place that I'm very interested

1231

00:42:49,210 --> 00:42:46,980

to go to is a town called Tampico uh on

1232

00:42:52,550 --> 00:42:49,220

the coast the Caribbean coast of Mexico

1233

00:42:54,829 --> 00:42:52,560

they think that Town everyone there says

1234

00:42:56,930 --> 00:42:54,839

the town is protected by an alien base

1235

00:42:58,430 --> 00:42:56,940

off the coast so hopefully I'm going to

1236

00:43:00,349 --> 00:42:58,440

spend New Years there and I'll get to

1237

00:43:01,790 --> 00:43:00,359

watch the water and see if any light to

1238

00:43:04,370 --> 00:43:01,800

come out of the water like the locals

1239

00:43:05,450 --> 00:43:04,380

say go scuba diving or New Year's Eve

1240

00:43:07,010 --> 00:43:05,460

there you go

1241

00:43:08,270 --> 00:43:07,020

um and I think you're you're going to be

1242

00:43:09,650 --> 00:43:08,280

meeting up with your Uncle Graham

1243

00:43:12,290 --> 00:43:09,660

Hancock well you're out there no I'm

1244

00:43:13,609 --> 00:43:12,300

joking so there you are yeah um so yeah

1245

00:43:15,589 --> 00:43:13,619

that's it Daniel sounds a bit different

1246

00:43:17,569 --> 00:43:15,599

from time to time might be reporting

1247

00:43:19,490 --> 00:43:17,579

from the field as such and literally

1248

00:43:21,410 --> 00:43:19,500

from the field at times

1249

00:43:23,510 --> 00:43:21,420

um so yeah I'll be like your foreign

1250

00:43:27,170 --> 00:43:23,520

correspondent you know for the news well

1251
00:43:29,329 --> 00:43:27,180
you are because you're Welsh yeah true

1252
00:43:30,890 --> 00:43:29,339
um one or two last things folks before

1253
00:43:32,569 --> 00:43:30,900
we head off there was an interview I've

1254
00:43:34,970 --> 00:43:32,579
not managed to actually catch it yet Dan

1255
00:43:37,849 --> 00:43:34,980
you have uh Dr Brian Keating who

1256
00:43:39,410 --> 00:43:37,859
interviewed um along with Jay Mongol Tom

1257
00:43:41,870 --> 00:43:39,420
Delong and Jim simmer van you'll

1258
00:43:45,770 --> 00:43:41,880
remember earlier this year or late last

1259
00:43:52,010 --> 00:43:48,829
um he interviewed Avila web and Dr Gary

1260
00:43:53,809 --> 00:43:52,020
Nolan at the same time and just a day or

1261
00:43:56,930 --> 00:43:53,819
so ago some of those videos have however

1262
00:43:58,910 --> 00:43:56,940
dropped online a quick point I wanted to

1263
00:44:01,609 --> 00:43:58,920

bring up um some of the clips I've seen

1264

00:44:03,770 --> 00:44:01,619

Gary Nolan talks about Louis zondo and

1265

00:44:06,109 --> 00:44:03,780

Chris Merlin bringing the conversation

1266

00:44:09,290 --> 00:44:06,119

on UFOs to a place where serious

1267

00:44:12,950 --> 00:44:09,300

scientists like himself and Avi loib and

1268

00:44:15,410 --> 00:44:12,960

others are now getting on board and

1269

00:44:17,270 --> 00:44:15,420

a lot of people fall on different sides

1270

00:44:18,950 --> 00:44:17,280

of Defense there are people who and I

1271

00:44:20,809 --> 00:44:18,960

have them on my topography to worship

1272

00:44:22,550 --> 00:44:20,819

Lou Alexander on the ground he walks on

1273

00:44:24,589 --> 00:44:22,560

and there are people on the other side

1274

00:44:27,410 --> 00:44:24,599

of it that think Luella zondo is

1275

00:44:28,910 --> 00:44:27,420

disinformation psyops and all that kind

1276

00:44:30,589 --> 00:44:28,920

of stuff you know whatever it might be

1277

00:44:33,530 --> 00:44:30,599

and then there's folks in the middle who

1278

00:44:37,849 --> 00:44:33,540

just take stuff at face value so

1279

00:44:40,250 --> 00:44:37,859

I wonder though as a lot of that

1280

00:44:43,550 --> 00:44:40,260

hate towards people like Lou Elizondo

1281

00:44:45,589 --> 00:44:43,560

Chris melon because they have managed to

1282

00:44:48,650 --> 00:44:45,599

package something

1283

00:44:50,450 --> 00:44:48,660

like the UFO subject in a way that has

1284

00:44:52,609 --> 00:44:50,460

allowed a progress that wasn't there

1285

00:44:54,170 --> 00:44:52,619

previously and they're liking it to as

1286

00:44:56,809 --> 00:44:54,180

someone who's just moved from Samsung to

1287

00:44:59,270 --> 00:44:56,819

Apple you know the Android users would

1288

00:45:00,950 --> 00:44:59,280

always say that they do it first but

1289

00:45:02,990 --> 00:45:00,960

what Apple do is they come along and

1290

00:45:05,990 --> 00:45:03,000

wait a little while and and do it better

1291

00:45:08,510 --> 00:45:06,000

and put it out in a more simplistic and

1292

00:45:10,370 --> 00:45:08,520

palatable way for people to use that

1293

00:45:13,010 --> 00:45:10,380

product or consume that product and it

1294

00:45:14,809 --> 00:45:13,020

made me think is that all that

1295

00:45:16,730 --> 00:45:14,819

the hate kind of goes towards people

1296

00:45:17,630 --> 00:45:16,740

like Lou and Chris melon and Gary Nolan

1297

00:45:20,150 --> 00:45:17,640

for

1298

00:45:21,770 --> 00:45:20,160

because they've managed to do something

1299

00:45:23,510 --> 00:45:21,780

with this topic that's been around for

1300

00:45:26,150 --> 00:45:23,520

so long but they've changed the

1301

00:45:28,010 --> 00:45:26,160

direction of it just by changing the

1302

00:45:29,630 --> 00:45:28,020

focus of the conversation am I making

1303

00:45:32,450 --> 00:45:29,640

sense yeah you're making sense

1304

00:45:35,210 --> 00:45:32,460

absolutely and I think you know people

1305

00:45:37,790 --> 00:45:35,220

are naturally

1306

00:45:39,829 --> 00:45:37,800

when when folks start falling out of

1307

00:45:41,390 --> 00:45:39,839

favor you know off our screens some some

1308

00:45:44,690 --> 00:45:41,400

people can

1309

00:45:45,829 --> 00:45:44,700

not enjoy that a lot uh and like you say

1310

00:45:48,109 --> 00:45:45,839

I think

1311

00:45:49,790 --> 00:45:48,119

maybe some professional jealousy or Envy

1312

00:45:51,530 --> 00:45:49,800

or something like that or or the

1313

00:45:52,970 --> 00:45:51,540

conversation just isn't going how the

1314

00:45:54,530 --> 00:45:52,980

person wanted it to go you know we're

1315

00:45:56,270 --> 00:45:54,540

very much going down a nuts and bolts

1316

00:45:57,950 --> 00:45:56,280

Road there's you know experience the

1317

00:46:00,710 --> 00:45:57,960

discussions are very much ahead of us in

1318

00:46:02,990 --> 00:46:00,720

terms of the legislation and the the

1319

00:46:04,190 --> 00:46:03,000

official Congress conversation

1320

00:46:07,069 --> 00:46:04,200

so

1321

00:46:09,950 --> 00:46:07,079

depending on how people would pitch the

1322

00:46:11,750 --> 00:46:09,960

subject to someone would mean that they

1323

00:46:13,670 --> 00:46:11,760

maybe disagree with how these people

1324

00:46:15,890 --> 00:46:13,680

have put it together

1325

00:46:17,809 --> 00:46:15,900

I suppose a back example Stephen Greer

1326

00:46:19,670 --> 00:46:17,819

who for years and this is not to say

1327

00:46:22,190 --> 00:46:19,680

Stephen Creed is Right Dr Steven Greer

1328

00:46:23,270 --> 00:46:22,200

that's right or wrong but he has he will

1329

00:46:26,569 --> 00:46:23,280

send his people after you if you don't

1330

00:46:28,069 --> 00:46:26,579

say doctor he will yeah um I think on

1331

00:46:30,109 --> 00:46:28,079

your travels you're attending one of his

1332

00:46:30,890 --> 00:46:30,119

meditations and flare droppings aren't

1333

00:46:32,690 --> 00:46:30,900

you

1334

00:46:35,270 --> 00:46:32,700

um no hard joke of course I would have

1335

00:46:37,790 --> 00:46:35,280

that even gave me in trouble yeah

1336

00:46:39,589 --> 00:46:37,800

um no but like Dr Steven Greer famously

1337

00:46:41,270 --> 00:46:39,599

and would still say to to this day

1338

00:46:43,849 --> 00:46:41,280

Daniel spoke to him recently with Jay

1339

00:46:45,650 --> 00:46:43,859

Mungo that you know these beings are

1340

00:46:47,329 --> 00:46:45,660

friendly it's loving light they're here

1341

00:46:49,309 --> 00:46:47,339

to help us we've got all these lovely

1342

00:46:50,870 --> 00:46:49,319

what lovely warnings lovely warnings

1343

00:46:53,510 --> 00:46:50,880

that's a weird thing to say but you know

1344

00:46:55,250 --> 00:46:53,520

These Warnings from them and then

1345

00:46:57,710 --> 00:46:55,260

someone like hello Elizondo comes along

1346

00:47:00,109 --> 00:46:57,720

and we hear threat narrative and we hear

1347

00:47:02,210 --> 00:47:00,119

military and we hear you know XY and

1348

00:47:04,130 --> 00:47:02,220

gimbal Tic Tac go fast and it just

1349

00:47:07,490 --> 00:47:04,140

totally changes all this stuff that's

1350

00:47:08,750 --> 00:47:07,500

been been in someone's narrative and you

1351

00:47:10,670 --> 00:47:08,760

can see why that would totally throw

1352

00:47:13,190 --> 00:47:10,680

them off wouldn't you because and it was

1353

00:47:15,290 --> 00:47:13,200

a bit like when we saw Linda Moulton how

1354

00:47:18,770 --> 00:47:15,300

interview Chris melon

1355

00:47:20,150 --> 00:47:18,780

my God that was like you know Mr T and

1356

00:47:21,530 --> 00:47:20,160

Roddy Piper meeting there were just two

1357

00:47:23,390 --> 00:47:21,540

characters from two different worlds

1358

00:47:24,890 --> 00:47:23,400

where you were like ah this was a very

1359

00:47:26,569 --> 00:47:24,900

strange sight to see in the same place

1360

00:47:29,210 --> 00:47:26,579

at the same time

1361

00:47:31,370 --> 00:47:29,220

um and yeah it was very very strange to

1362

00:47:33,410 --> 00:47:31,380

see that and I just yeah it just made me

1363

00:47:35,390 --> 00:47:33,420

think because it was Brian Keating was

1364

00:47:37,309 --> 00:47:35,400

bringing up Gary Nolan's had a lot of

1365

00:47:39,829 --> 00:47:37,319

attacks and hate thrown his way and

1366

00:47:41,390 --> 00:47:39,839

Gary's very much water off a Ducks back

1367

00:47:43,250 --> 00:47:41,400

for him isn't it he doesn't he doesn't

1368

00:47:45,230 --> 00:47:43,260

bother with that really I'm sure it

1369

00:47:46,970 --> 00:47:45,240

bothers him in some way but it gets on

1370

00:47:48,290 --> 00:47:46,980

with it and it just made me start to

1371

00:47:49,609 --> 00:47:48,300

think about is it just the way these

1372

00:47:51,530 --> 00:47:49,619

things are packaged by different people

1373

00:47:53,510 --> 00:47:51,540

were there any other highlights for you

1374

00:47:55,849 --> 00:47:53,520

from that interview from from Dr Keating

1375

00:47:57,290 --> 00:47:55,859

and Abby and Gary there were a few

1376

00:47:59,390 --> 00:47:57,300

things that I've seen discussed that I

1377

00:48:02,510 --> 00:47:59,400

just wanted to touch on uh one one thing

1378

00:48:04,430 --> 00:48:02,520

is that people are saying that Avi food

1379

00:48:06,109 --> 00:48:04,440

the Tic Tac stuff that essentially you

1380

00:48:07,970 --> 00:48:06,119

know pushed off the table and I wouldn't

1381

00:48:09,410 --> 00:48:07,980

say that's true at all Abby just kind of

1382

00:48:11,210 --> 00:48:09,420

made the point that without the

1383

00:48:13,790 --> 00:48:11,220

classified data the sensor data it's

1384

00:48:15,650 --> 00:48:13,800

really hard to get a thorough idea of

1385

00:48:16,849 --> 00:48:15,660

what happened so your mileage is going

1386

00:48:18,829 --> 00:48:16,859

to vary when you're listening to people

1387

00:48:20,809 --> 00:48:18,839

uh talk about that case whether it's

1388

00:48:22,849 --> 00:48:20,819

favor or Chad Underwood

1389

00:48:24,770 --> 00:48:22,859

um but I would say that I feel like

1390

00:48:27,349 --> 00:48:24,780

there's a lot that Avi could could

1391

00:48:28,910 --> 00:48:27,359

research that he might not have yet so

1392

00:48:30,349 --> 00:48:28,920

listening to those interviews with the

1393

00:48:31,790 --> 00:48:30,359

person who filmed it

1394

00:48:33,349 --> 00:48:31,800

um and the Dave fraver ones and things

1395

00:48:36,230 --> 00:48:33,359

like that I I think would be beneficial

1396

00:48:37,730 --> 00:48:36,240

for him but I can also see that he he

1397

00:48:40,309 --> 00:48:37,740

wants to come from a really pure Place

1398

00:48:41,750 --> 00:48:40,319

scientifically because even since

1399

00:48:44,450 --> 00:48:41,760

bringing his book out

1400

00:48:46,670 --> 00:48:44,460

Abby's being attacked by

1401

00:48:48,890 --> 00:48:46,680

I'm going to change the word attacked

1402

00:48:50,990 --> 00:48:48,900

actually I'm going to say disparaged uh

1403

00:48:53,089 --> 00:48:51,000

by by a lot of academics about how he

1404

00:48:55,430 --> 00:48:53,099

frames his conversations because a lot

1405

00:48:57,349 --> 00:48:55,440

of it is about ET

1406

00:48:59,150 --> 00:48:57,359

but I would just say that that that is

1407

00:49:00,170 --> 00:48:59,160

just Avi in a nutshell he's really

1408

00:49:02,690 --> 00:49:00,180

hopeful that we're going to find

1409

00:49:05,690 --> 00:49:02,700

something out there he's he always says

1410

00:49:07,910 --> 00:49:05,700

scientists should be like kids and what

1411

00:49:09,770 --> 00:49:07,920

what more could we want than a bunch of

1412

00:49:11,210 --> 00:49:09,780

curious children who know science like

1413

00:49:13,970 --> 00:49:11,220

the back of their hand looking at the

1414

00:49:15,410 --> 00:49:13,980

sky searching for UFOs like it's you

1415

00:49:17,809 --> 00:49:15,420

know it's what we've always wanted so

1416

00:49:20,630 --> 00:49:17,819

yeah just support that project I would

1417

00:49:22,670 --> 00:49:20,640

say a lot of things are being rolled out

1418

00:49:25,069 --> 00:49:22,680

for project Galileo a couple of their

1419

00:49:27,890 --> 00:49:25,079

sensor systems are in place now uh

1420

00:49:29,750 --> 00:49:27,900

they're looking for more uh

1421

00:49:32,270 --> 00:49:29,760

funding so that they can get more sense

1422

00:49:33,770 --> 00:49:32,280

of stuff out but it sounds like the

1423

00:49:34,849 --> 00:49:33,780

question was asked at one point by Brian

1424

00:49:37,069 --> 00:49:34,859

Keaton

1425

00:49:37,910 --> 00:49:37,079

to Abby what would you do with unlimited

1426

00:49:41,089 --> 00:49:37,920

money

1427

00:49:43,130 --> 00:49:41,099

and Avi responded with that's not a

1428

00:49:44,750 --> 00:49:43,140

hypothetical anymore which I thought was

1429

00:49:46,130 --> 00:49:44,760

interesting this guy was like wait do

1430

00:49:48,770 --> 00:49:46,140

you have unlimited money as long as you

1431

00:49:50,270 --> 00:49:48,780

can justify it as someone you know as a

1432

00:49:51,109 --> 00:49:50,280

billionaire come to you and said hey as

1433

00:49:52,730 --> 00:49:51,119

long as you can tell me how you're

1434

00:49:53,870 --> 00:49:52,740

spending this money and justify I will

1435

00:49:56,210 --> 00:49:53,880

give you everything you need to do this

1436

00:49:58,190 --> 00:49:56,220

properly uh that that's really

1437

00:50:00,710 --> 00:49:58,200

intriguing the other thing I wanted to

1438

00:50:03,109 --> 00:50:00,720

touch on was the the NASA study uh where

1439

00:50:04,730 --> 00:50:03,119

there's a lot of conversation with it's

1440

00:50:08,930 --> 00:50:04,740

very evident that people think

1441

00:50:11,089 --> 00:50:08,940

that NASA are doing the research now yep

1442

00:50:12,290 --> 00:50:11,099

and there's a frustration that comes

1443

00:50:13,849 --> 00:50:12,300

along with that because they look at

1444

00:50:14,930 --> 00:50:13,859

that you know what it's being funded and

1445

00:50:16,130 --> 00:50:14,940

they kind of say oh that's not enough to

1446

00:50:18,589 --> 00:50:16,140

do a good job

1447

00:50:20,030 --> 00:50:18,599

what NASA are doing now are planning the

1448

00:50:22,250 --> 00:50:20,040

study they're not actually doing the

1449

00:50:24,470 --> 00:50:22,260

study what we'll hear next year when

1450

00:50:25,849 --> 00:50:24,480

when this team that's been kind of

1451

00:50:27,950 --> 00:50:25,859

announced and you can see them on the

1452

00:50:30,109 --> 00:50:27,960

NASA website when they come forward they

1453

00:50:31,790 --> 00:50:30,119

will just have basically a 10-point plan

1454

00:50:33,890 --> 00:50:31,800

you know don't hold me to that 10-point

1455

00:50:37,309 --> 00:50:33,900

thing but essentially a 10-point plan to

1456

00:50:39,290 --> 00:50:37,319

study UFOs in a scientific manner

1457

00:50:40,730 --> 00:50:39,300

they're not there to say whether they're

1458

00:50:43,550 --> 00:50:40,740

real or not

1459

00:50:44,930 --> 00:50:43,560

so when people like Nadia Drake uh you

1460

00:50:47,450 --> 00:50:44,940

know son of Francis Drake of the Drake

1461

00:50:48,770 --> 00:50:47,460

equation when when she oh sorry daughter

1462

00:50:50,650 --> 00:50:48,780

not son

1463

00:50:53,750 --> 00:50:50,660

um

1464

00:50:55,730 --> 00:50:53,760

a little slam yeah when when she says

1465

00:50:57,109 --> 00:50:55,740

this stuff is probably not E.T yes

1466

00:50:59,089 --> 00:50:57,119

people are absolutely correct she's

1467

00:51:01,130 --> 00:50:59,099

concluding before she's looked but also

1468

00:51:02,569 --> 00:51:01,140

she's not gonna be someone that's asked

1469

00:51:04,609 --> 00:51:02,579

to come up for a conclusion for whether

1470

00:51:06,589 --> 00:51:04,619

these things are real or not this study

1471

00:51:08,150 --> 00:51:06,599

is happening because someone at Nasa the

1472

00:51:10,309 --> 00:51:08,160

higher ups have decided yeah these are

1473

00:51:12,770 --> 00:51:10,319

absolutely real UAP is a real thing we

1474

00:51:14,089 --> 00:51:12,780

need to figure out how we can help

1475

00:51:15,410 --> 00:51:14,099

awesome

1476

00:51:17,990 --> 00:51:15,420

um a couple of things just before we

1477

00:51:19,790 --> 00:51:18,000

round off a few listeners in the Discord

1478

00:51:21,470 --> 00:51:19,800

chat had asked us to mention a few

1479

00:51:24,770 --> 00:51:21,480

things some of which we've talked about

1480

00:51:26,329 --> 00:51:24,780

and Dan did you see two weeks ago the

1481

00:51:27,410 --> 00:51:26,339

Bigelow Institute for Consciousness

1482

00:51:29,809 --> 00:51:27,420

tweet

1483

00:51:31,569 --> 00:51:29,819

uh which again I'll just read because

1484

00:51:33,710 --> 00:51:31,579

I've got it up here

1485

00:51:35,390 --> 00:51:33,720

and make a little internship for

1486

00:51:37,849 --> 00:51:35,400

Consciousness studies tweeted out on

1487

00:51:39,650 --> 00:51:37,859

November 15th is Humanity facing an

1488

00:51:42,049 --> 00:51:39,660

extinction level event in the near

1489

00:51:44,210 --> 00:51:42,059

future an important part of the bics

1490

00:51:45,470 --> 00:51:44,220

grants program is the fund research that

1491

00:51:47,150 --> 00:51:45,480

considers this problem through

1492

00:51:49,250 --> 00:51:47,160

authenticated and corroborated

1493

00:51:52,010 --> 00:51:49,260

information that can be shown to come

1494

00:51:54,250 --> 00:51:52,020

from senior sources on quote unquote the

1495

00:51:56,930 --> 00:51:54,260

other side thoughts on that one then

1496

00:52:01,010 --> 00:51:56,940

really interesting it made me think of

1497

00:52:03,010 --> 00:52:01,020

um oh the name's gonna Escape me now the

1498

00:52:05,270 --> 00:52:03,020

the something experiments basically

1499

00:52:06,710 --> 00:52:05,280

that's really going to bug me I I

1500

00:52:08,150 --> 00:52:06,720

promise though that I'll find a link to

1501
00:52:10,010 --> 00:52:08,160
it and we'll put it in the description

1502
00:52:11,450 --> 00:52:10,020
uh because they were afterlife

1503
00:52:12,950 --> 00:52:11,460
experiments essentially where a bunch of

1504
00:52:14,210 --> 00:52:12,960
people were gathered in the room a lot

1505
00:52:15,890 --> 00:52:14,220
of Skeptics were there and they were

1506
00:52:19,370 --> 00:52:15,900
asking questions to people on the other

1507
00:52:22,210 --> 00:52:19,380
side during these these experiments

1508
00:52:25,370 --> 00:52:22,220
there was a sealed you know never opened

1509
00:52:27,950 --> 00:52:25,380
uh canister of camera film put in a safe

1510
00:52:31,309 --> 00:52:27,960
in the room that these people were in

1511
00:52:32,990 --> 00:52:31,319
the answers to their questions had

1512
00:52:35,270 --> 00:52:33,000
somehow been scraped into the camera

1513
00:52:37,370 --> 00:52:35,280

film and they were kind of supposedly

1514

00:52:39,309 --> 00:52:37,380

technology shared and stories shared

1515

00:52:42,770 --> 00:52:39,319

along this kind of strip of of

1516

00:52:44,569 --> 00:52:42,780

photographic uh

1517

00:52:47,990 --> 00:52:44,579

found me the term escaping film yeah

1518

00:52:49,309 --> 00:52:48,000

film a longer strip of photo film uh

1519

00:52:50,870 --> 00:52:49,319

where it was just scratched into it and

1520

00:52:52,790 --> 00:52:50,880

ever since then I've been really curious

1521

00:52:54,950 --> 00:52:52,800

as to whether we could converse with the

1522

00:52:56,930 --> 00:52:54,960

other side and get technology back that

1523

00:52:59,569 --> 00:52:56,940

would help us converse with them what

1524

00:53:01,970 --> 00:52:59,579

intrigues me about that though is the

1525

00:53:03,770 --> 00:53:01,980

kind of the ancient apocalypse kind of

1526

00:53:06,829 --> 00:53:03,780

angled to all that uh you know is there

1527

00:53:08,750 --> 00:53:06,839

an impending catastrophe and

1528

00:53:10,790 --> 00:53:08,760

the ancient apocalypse idea is that

1529

00:53:12,589 --> 00:53:10,800

there is a meteor stream that every time

1530

00:53:15,290 --> 00:53:12,599

earth goes through it it's like running

1531

00:53:17,510 --> 00:53:15,300

across I'm going to say the M4 it's the

1532

00:53:18,710 --> 00:53:17,520

M4 is a massive Road in the UK that you

1533

00:53:22,250 --> 00:53:18,720

know chances are you're gonna get hit by

1534

00:53:25,790 --> 00:53:22,260

a car if you run across it so

1535

00:53:27,290 --> 00:53:25,800

if there are meteors uh that will hit

1536

00:53:29,630 --> 00:53:27,300

Earth in their stream that means that

1537

00:53:31,370 --> 00:53:29,640

there's a kind of a regular clock cycle

1538

00:53:34,069 --> 00:53:31,380

to it the way we can say the earth is

1539

00:53:35,809 --> 00:53:34,079

most in danger here so I'd be curious as

1540

00:53:38,150 --> 00:53:35,819

to whether any of the people that are

1541

00:53:40,670 --> 00:53:38,160

responding to this request from the

1542

00:53:42,349 --> 00:53:40,680

Bigelow Institute have a notion that you

1543

00:53:44,450 --> 00:53:42,359

know maybe a solar flare or a meteor is

1544

00:53:46,849 --> 00:53:44,460

coming that lines up maybe with the data

1545

00:53:48,170 --> 00:53:46,859

that Graham Hancock's dug up from these

1546

00:53:51,370 --> 00:53:48,180

various different bits of work by

1547

00:53:57,650 --> 00:53:54,349

another one is the pronunciation of

1548

00:54:00,290 --> 00:53:57,660

Virginia Virginia

1549

00:54:02,809 --> 00:54:00,300

Virginia obviously Brazil where the

1550

00:54:04,250 --> 00:54:02,819

crash was in the mid 90s

1551
00:54:05,990 --> 00:54:04,260
someone just asked us to pretend to

1552
00:54:08,210 --> 00:54:06,000
pronounce it Brenda for Virginia

1553
00:54:10,270 --> 00:54:08,220
Virginia I know some people just read it

1554
00:54:12,710 --> 00:54:10,280
like vagina so that that's acceptable

1555
00:54:15,589 --> 00:54:12,720
every time every time

1556
00:54:17,450 --> 00:54:15,599
um so yeah and um also someone asked

1557
00:54:19,730 --> 00:54:17,460
about our thoughts on Tim birchett's

1558
00:54:21,829 --> 00:54:19,740
interview with Jay from Project Unity

1559
00:54:23,630 --> 00:54:21,839
um sounding more glum than was cool talk

1560
00:54:26,870 --> 00:54:23,640
obviously Tim burchett's been pretty

1561
00:54:28,430 --> 00:54:26,880
upset and annoyed that so much is being

1562
00:54:31,190 --> 00:54:28,440
repressed in terms of information

1563
00:54:34,010 --> 00:54:31,200

clearly someone who's seen a lot more

1564

00:54:35,809 --> 00:54:34,020

than he lets on in terms of videos and

1565

00:54:38,089 --> 00:54:35,819

classified briefings and I've heard a

1566

00:54:39,710 --> 00:54:38,099

lot more than he lets on as well do you

1567

00:54:42,950 --> 00:54:39,720

understand the frustrations of a

1568

00:54:44,470 --> 00:54:42,960

temperature has politics aside uh in

1569

00:54:47,510 --> 00:54:44,480

terms of

1570

00:54:49,190 --> 00:54:47,520

that frustration like he saw that the

1571

00:54:52,250 --> 00:54:49,200

the Congressional hearing that happened

1572

00:54:54,589 --> 00:54:52,260

the the disaster with the VLC media

1573

00:54:56,809 --> 00:54:54,599

player trying to show a video you know

1574

00:54:58,190 --> 00:54:56,819

brain moultries kind of known answers

1575

00:55:00,410 --> 00:54:58,200

and him just been really really

1576

00:55:02,329 --> 00:55:00,420

disappointed at the end of it yeah

1577

00:55:05,089 --> 00:55:02,339

absolutely I I can see Tim's frustration

1578

00:55:06,829 --> 00:55:05,099

the the one thing I do think about what

1579

00:55:08,930 --> 00:55:06,839

Tim says is that there's a lot of

1580

00:55:10,250 --> 00:55:08,940

personal stuff coming into it so when we

1581

00:55:11,930 --> 00:55:10,260

hear him say you know there's been a

1582

00:55:13,010 --> 00:55:11,940

cover of for years he doesn't know that

1583

00:55:14,930 --> 00:55:13,020

there's a program with a closed door

1584

00:55:16,069 --> 00:55:14,940

necessarily I I get the impression that

1585

00:55:17,990 --> 00:55:16,079

he's just frustrated for the same

1586

00:55:20,690 --> 00:55:18,000

reasons we are he's grown up reading

1587

00:55:23,569 --> 00:55:20,700

about this he knows that there has been

1588

00:55:25,430 --> 00:55:23,579

hijinks and cover-ups over the years and

1589

00:55:26,990 --> 00:55:25,440

that there's something to uncover here

1590

00:55:28,609 --> 00:55:27,000

he just happens to be in a position

1591

00:55:29,990 --> 00:55:28,619

where you know he can push a few buttons

1592

00:55:33,109 --> 00:55:30,000

kind of thing and and speak with

1593

00:55:35,870 --> 00:55:33,119

authority on it I would love

1594

00:55:39,109 --> 00:55:35,880

kind of his mind to you know to to see

1595

00:55:42,710 --> 00:55:39,119

exactly what he's seen uh if he's been

1596

00:55:44,210 --> 00:55:42,720

shown classified stuff uh you know stuff

1597

00:55:46,790 --> 00:55:44,220

that essentially has been shown in

1598

00:55:48,290 --> 00:55:46,800

closed door briefings that that's where

1599

00:55:50,930 --> 00:55:48,300

I want to hear him open up about really

1600

00:55:53,510 --> 00:55:50,940

uh hearing him say I'm frustrated I'm

1601
00:55:55,309 --> 00:55:53,520
just like cool Tim excellent so we'll

1602
00:55:56,750 --> 00:55:55,319
let's give it give us some of the

1603
00:55:59,750 --> 00:55:56,760
details you know if you're that

1604
00:56:02,030 --> 00:55:59,760
frustrated spill

1605
00:56:03,349 --> 00:56:02,040
yeah and someone else asked about they

1606
00:56:04,910 --> 00:56:03,359
would just like to hear from people like

1607
00:56:07,069 --> 00:56:04,920
Lou since it's been a while since they

1608
00:56:10,849 --> 00:56:07,079
had from them one way you can hear from

1609
00:56:13,250 --> 00:56:10,859
Leila zondo Dan is is so last year we

1610
00:56:16,430 --> 00:56:13,260
did uh some fundraising we did a charity

1611
00:56:18,349 --> 00:56:16,440
raffle and the top prize was a call with

1612
00:56:20,270 --> 00:56:18,359
Lou Alexander and that the prize was

1613
00:56:21,290 --> 00:56:20,280

given to the person who donated most so

1614

00:56:23,030 --> 00:56:21,300

this year we're going to be launching

1615

00:56:25,609 --> 00:56:23,040

the raffle this week so keep an eye out

1616

00:56:27,710 --> 00:56:25,619

for it the top and it's good just just

1617

00:56:29,630 --> 00:56:27,720

to say it's through UAP media UK so

1618

00:56:30,710 --> 00:56:29,640

you're going to hear this from Vinnie uh

1619

00:56:32,329 --> 00:56:30,720

disclosure team you're going to hear

1620

00:56:33,829 --> 00:56:32,339

Ryan Sprague talk about it on somewhere

1621

00:56:35,870 --> 00:56:33,839

in the skies you'll see Graham Randall

1622

00:56:37,790 --> 00:56:35,880

and Dave Partridge all tweeting about it

1623

00:56:39,829 --> 00:56:37,800

and mentioning it too yeah absolutely

1624

00:56:42,049 --> 00:56:39,839

that's right so we we have a whole load

1625

00:56:43,790 --> 00:56:42,059

of great prizes uh from from various

1626
00:56:47,510 --> 00:56:43,800
people who've donated them but the top

1627
00:56:48,829 --> 00:56:47,520
prize is a call with Lou himself and a

1628
00:56:50,329 --> 00:56:48,839
signed copy of his book when it does

1629
00:56:51,710 --> 00:56:50,339
eventually come out so keep an eye on

1630
00:56:53,329 --> 00:56:51,720
your socials we'll launch that this week

1631
00:56:54,650 --> 00:56:53,339
there's also a project that I'm very

1632
00:56:56,750 --> 00:56:54,660
proud of that's kind of going to be one

1633
00:56:59,089 --> 00:56:56,760
of the prizes and that is not too long

1634
00:57:01,370 --> 00:56:59,099
ago I got in touch with a bunch of

1635
00:57:03,290 --> 00:57:01,380
outstanding artists in the UFO community

1636
00:57:04,730 --> 00:57:03,300
on Twitter and things like that as well

1637
00:57:05,750 --> 00:57:04,740
as some people who were outside of the

1638
00:57:07,849 --> 00:57:05,760

community you know we have a children's

1639

00:57:09,349 --> 00:57:07,859

author and

1640

00:57:11,390 --> 00:57:09,359

essentially we've all made Christmas

1641

00:57:12,770 --> 00:57:11,400

cards that are UFO themed all the money

1642

00:57:15,410 --> 00:57:12,780

is going to be going to charity as well

1643

00:57:17,150 --> 00:57:15,420

so those will hopefully be up on Monday

1644

00:57:18,530 --> 00:57:17,160

and people can buy them and all of the

1645

00:57:20,450 --> 00:57:18,540

proceeds go for charity we're not taking

1646

00:57:21,829 --> 00:57:20,460

a penny all those rights oh sorry all

1647

00:57:23,990 --> 00:57:21,839

those artists retain rights to their

1648

00:57:25,970 --> 00:57:24,000

work as well and they will be championed

1649

00:57:28,250 --> 00:57:25,980

and I can't wait to show off the art and

1650

00:57:29,510 --> 00:57:28,260

to yeah to show people the just the

1651
00:57:31,970 --> 00:57:29,520
wonderful things that everyone's done

1652
00:57:33,470 --> 00:57:31,980
yeah last year was amazing and it's just

1653
00:57:34,910 --> 00:57:33,480
nice to give a little something back the

1654
00:57:36,770 --> 00:57:34,920
Charities this year should be I think

1655
00:57:39,410 --> 00:57:36,780
the Humane Society for animals again

1656
00:57:41,030 --> 00:57:39,420
that's right and also cash for kids

1657
00:57:42,890 --> 00:57:41,040
which is a big charity here in the UK

1658
00:57:44,450 --> 00:57:42,900
helping impoverished children and

1659
00:57:45,950 --> 00:57:44,460
something that's already launched you

1660
00:57:48,589 --> 00:57:45,960
may have seen if you're on social media

1661
00:57:51,049 --> 00:57:48,599
I know many of you are not as the the

1662
00:57:52,849 --> 00:57:51,059
very popular outro to this podcast is by

1663
00:57:54,230 --> 00:57:52,859

Sean Cahill people still don't know that

1664

00:57:55,309 --> 00:57:54,240

I mention it all the time but people

1665

00:57:57,410 --> 00:57:55,319

don't

1666

00:57:59,329 --> 00:57:57,420

um and it's called Goblin problems it's

1667

00:58:01,430 --> 00:57:59,339

not really available online many places

1668

00:58:02,930 --> 00:58:01,440

but people always ask me to send it and

1669

00:58:04,609 --> 00:58:02,940

I always have Sean's been really good

1670

00:58:06,829 --> 00:58:04,619

basically saying you know do what you

1671

00:58:09,530 --> 00:58:06,839

like and so I asked Sean if we could

1672

00:58:11,150 --> 00:58:09,540

release it as I can charity single so

1673

00:58:12,530 --> 00:58:11,160

there is a link in the description to

1674

00:58:14,870 --> 00:58:12,540

the podcast it's on a site called

1675

00:58:16,670 --> 00:58:14,880

bandcamp and for three pounds which is

1676

00:58:18,770 --> 00:58:16,680

about four dollars or roughly whatever

1677

00:58:20,329 --> 00:58:18,780

that is in your currency you can donate

1678

00:58:22,190 --> 00:58:20,339

more than that if you want to any

1679

00:58:24,410 --> 00:58:22,200

proceeds they basically take a very

1680

00:58:26,030 --> 00:58:24,420

small percentage for their fees then the

1681

00:58:27,950 --> 00:58:26,040

rest of it comes to me into an account

1682

00:58:30,770 --> 00:58:27,960

and that will be getting donated fully

1683

00:58:32,990 --> 00:58:30,780

to cash for kids as well so if you want

1684

00:58:34,790 --> 00:58:33,000

to purchase a digital copy of the outro

1685

00:58:36,289 --> 00:58:34,800

to the podcast Goblin problems which

1686

00:58:37,609 --> 00:58:36,299

you'll hear in a couple of minutes and

1687

00:58:39,170 --> 00:58:37,619

I'm not going to play it in full for a

1688

00:58:40,910 --> 00:58:39,180

few weeks so anyone who does enjoy it go

1689

00:58:42,829 --> 00:58:40,920

and get the single

1690

00:58:44,450 --> 00:58:42,839

um then yeah please do because it's just

1691

00:58:46,309 --> 00:58:44,460

a little something back really

1692

00:58:47,630 --> 00:58:46,319

appreciate it thanks to everyone who has

1693

00:58:49,670 --> 00:58:47,640

already it's been really really great

1694

00:58:51,230 --> 00:58:49,680

and again at this time of year it's just

1695

00:58:53,990 --> 00:58:51,240

nice to be able to to give something

1696

00:58:56,210 --> 00:58:54,000

back to animals kids that you know maybe

1697

00:58:57,410 --> 00:58:56,220

don't have what everyone else has so and

1698

00:58:59,329 --> 00:58:57,420

I get there's people in a lot of very

1699

00:59:01,430 --> 00:58:59,339

difficult situations so thank you very

1700

00:59:03,530 --> 00:59:01,440

much got some other cool prizes donated

1701

00:59:05,450 --> 00:59:03,540

I have had here for about six months now

1702

00:59:09,230 --> 00:59:05,460

a listener sent me if you'll remember

1703

00:59:11,450 --> 00:59:09,240

Bob Lazar was doing sign the prince of

1704

00:59:13,609 --> 00:59:11,460

the sports model saucer and one of those

1705

00:59:15,530 --> 00:59:13,619

was donated by a listener in Finland so

1706

00:59:17,870 --> 00:59:15,540

that is still sitting right in front of

1707

00:59:19,609 --> 00:59:17,880

me here in a tube over just I'm pointing

1708

00:59:21,349 --> 00:59:19,619

but yeah if you're on audio ignore the

1709

00:59:22,849 --> 00:59:21,359

point well you wouldn't see it anyway to

1710

00:59:24,049 --> 00:59:22,859

ignore just picture it in your mind if

1711

00:59:26,089 --> 00:59:24,059

you're yeah if you're on YouTube that's

1712

00:59:27,530 --> 00:59:26,099

a form of telepathy I'm saying it now it

1713

00:59:29,329 --> 00:59:27,540

is yes they are

1714

00:59:31,670 --> 00:59:29,339

um some of Richard Dolan's guests would

1715

00:59:32,990 --> 00:59:31,680

disagree with that Dan even existing

1716

00:59:34,670 --> 00:59:33,000

um but yeah so there are lots of cool

1717

00:59:36,109 --> 00:59:34,680

stuff the the tickets will be cheap

1718

00:59:38,150 --> 00:59:36,119

anyone will have a chance of winning

1719

00:59:40,190 --> 00:59:38,160

stuff on it anything you can give is

1720

00:59:42,170 --> 00:59:40,200

much appreciated but if you want to pick

1721

00:59:43,789 --> 00:59:42,180

up a digital copy of the outro to the

1722

00:59:45,770 --> 00:59:43,799

podcast you can donate what you like for

1723

00:59:48,289 --> 00:59:45,780

it that would be very much appreciated

1724

00:59:50,450 --> 00:59:48,299

from us but that is pretty much us for

1725

00:59:51,950 --> 00:59:50,460

today so Dan thanks for your time thank

1726
00:59:53,450 --> 00:59:51,960
you it's always always a pleasure

1727
00:59:56,150 --> 00:59:53,460
highlight of my day to talk to you my

1728
00:59:58,370 --> 00:59:56,160
friend and next up you are going to be

1729
01:00:01,730 --> 00:59:58,380
on one of Stephen Greer's virtual calls

1730
01:00:02,990 --> 01:00:01,740
yeah you would love it anyway folks

1731
01:00:05,450 --> 01:00:03,000
thank you very much for listening and

1732
01:00:07,130 --> 01:00:05,460
speak soon that is all for this week's

1733
01:00:09,470 --> 01:00:07,140
show thank you very much for listening

1734
01:00:12,049 --> 01:00:09,480
please remember to leave the podcast a

1735
01:00:14,510 --> 01:00:12,059
review on your chosen platform you can

1736
01:00:16,730 --> 01:00:14,520
like retweet And subscribe that would

1737
01:00:18,650 --> 01:00:16,740
all be very much appreciated the shows

1738
01:00:20,450 --> 01:00:18,660

are being uploaded onto YouTube as we

1739

01:00:22,849 --> 01:00:20,460

speak more and more you can sign up at

1740

01:00:25,250 --> 01:00:22,859

patreon.com forward slash that UFO

1741

01:00:27,589 --> 01:00:25,260

podcast to access shows ad free as well

1742

01:00:30,650 --> 01:00:27,599

please get in touch on Twitter Facebook

1743

01:00:34,250 --> 01:00:30,660

Instagram that UFO podcast of course on

1744

01:00:36,349 --> 01:00:34,260

Twitter it's at UFO UAP am and again

1745

01:00:40,130 --> 01:00:36,359

folks as always keep looking up you

1746

01:00:40,140 --> 01:00:44,500

foreign

1747

01:01:45,970 --> 01:01:05,910

[Music]

1748

01:01:45,980 --> 01:01:54,220

because it doesn't really scare me

1749

01:02:18,190 --> 01:01:55,930

[Music]

1750

01:02:18,200 --> 01:02:23,630

consider your space

1751

01:02:23,640 --> 01:02:40,089

[Music]

1752

01:02:40,099 --> 01:02:46,910

can't sleep forever

1753

01:02:46,920 --> 01:03:08,049

[Music]

1754

01:03:08,059 --> 01:03:11,880

you can hear them

1755

01:03:11,890 --> 01:03:41,210

[Music]
