3 BREAKING NEWS:  
4 NDAA UAP? UPDATE

5 igit shall establish a secure mechanism for au-  
6 thorized reporting of—

1  
00:00:03,470 --> 00:00:00,790

[Music]

2  
00:00:10,070 --> 00:00:03,480

this is Leslie Kane and you're listening

3  
00:00:14,390 --> 00:00:11,750

hey everyone and welcome back to that

4  
00:00:18,290 --> 00:00:14,400

UFO podcast my name is Andy and this is

5  
00:00:20,510 --> 00:00:18,300

a breaking news pod as the ndaa has been

6  
00:00:23,090 --> 00:00:20,520

passed what does that mean what does the

7  
00:00:24,769 --> 00:00:23,100

ndaa why is it relevant to UFOs you

8  
00:00:26,330 --> 00:00:24,779

might not even know you might you might

9  
00:00:28,609 --> 00:00:26,340

have been following it for quite some

10  
00:00:31,569 --> 00:00:28,619

time no one better to join me to discuss

11  
00:00:34,130 --> 00:00:31,579

and analyze this and break it down than

12  
00:00:35,270 --> 00:00:34,140

hello all the way over in Mexico how are

13  
00:00:37,670 --> 00:00:35,280

we

14

00:00:40,490 --> 00:00:37,680

hello hello I'm great thank you I'm here

15

00:00:41,930 --> 00:00:40,500

in sunny sunny Mexico uh I I was trying

16

00:00:43,850 --> 00:00:41,940

to kind of get a nice view out my back

17

00:00:45,590 --> 00:00:43,860

window but the sun is too bright and it

18

00:00:46,910 --> 00:00:45,600

may be a silhouette but just out my

19

00:00:48,470 --> 00:00:46,920

window I can see one of the volcanoes

20

00:00:49,729 --> 00:00:48,480

this around the city

21

00:00:51,410 --> 00:00:49,739

um and yeah I'm going to be going to see

22

00:00:54,290 --> 00:00:51,420

some ruining and stuff so I'm excited

23

00:00:57,229 --> 00:00:54,300

this is my first video from on the road

24

00:00:59,750 --> 00:00:57,239

nice well where I am is zero degrees I'm

25

00:01:01,910 --> 00:00:59,760

gonna shed I can't feel my feet and it's

26  
00:01:03,950 --> 00:01:01,920  
been snowing quite heavily outside as

27  
00:01:05,810 --> 00:01:03,960  
well and as Dan knows I've had pretty

28  
00:01:08,330 --> 00:01:05,820  
much the day from hell as it pertains to

29  
00:01:10,789 --> 00:01:08,340  
things breaking things not working and

30  
00:01:13,850 --> 00:01:10,799  
general stuff like that but one thing

31  
00:01:17,750 --> 00:01:13,860  
that has broken today was the news that

32  
00:01:20,270 --> 00:01:17,760  
the end e NDA has passed a reminder of

33  
00:01:22,789 --> 00:01:20,280  
what that actually is the ndaa is the

34  
00:01:25,670 --> 00:01:22,799  
National Defense authorization act for

35  
00:01:27,770 --> 00:01:25,680  
the United States obviously and it is

36  
00:01:30,230 --> 00:01:27,780  
the name for a series of U.S federal

37  
00:01:32,990 --> 00:01:30,240  
laws specifying the annual budget and

38  
00:01:35,569 --> 00:01:33,000

expenditures of the US Department of

39

00:01:38,330 --> 00:01:35,579

Defense how does that impact those of us

40

00:01:40,969 --> 00:01:38,340

with our UFO uh interest I hear you ask

41

00:01:43,190 --> 00:01:40,979

well Dan how does that impact the UFO

42

00:01:45,770 --> 00:01:43,200

community

43

00:01:46,850 --> 00:01:45,780

it impacts us in a number of ways not

44

00:01:49,190 --> 00:01:46,860

necessarily the community but the

45

00:01:52,130 --> 00:01:49,200

subject um at the very least there there

46

00:01:54,649 --> 00:01:52,140

is about 33 pages in it that are

47

00:01:56,870 --> 00:01:54,659

relevant to the UAP issue that talk

48

00:01:58,730 --> 00:01:56,880

about the office and what it's required

49

00:02:00,050 --> 00:01:58,740

to do and various things like that the

50

00:02:01,850 --> 00:02:00,060

languages changed since we last

51  
00:02:03,710 --> 00:02:01,860  
discussed it so so I'll just kind of

52  
00:02:05,929 --> 00:02:03,720  
walk through all of the changes and

53  
00:02:07,850 --> 00:02:05,939  
summarize really what um what is

54  
00:02:09,229 --> 00:02:07,860  
important for people to know uh but

55  
00:02:14,229 --> 00:02:09,239  
basically there are a few sections

56  
00:02:19,309 --> 00:02:17,869  
6802-6803 uh fans can I just said

57  
00:02:22,790 --> 00:02:19,319  
comment on that sure I'm guessing

58  
00:02:24,589 --> 00:02:22,800  
section 1673 as everyone will know is a

59  
00:02:26,690 --> 00:02:24,599  
secure method for authorized reporting

60  
00:02:32,510 --> 00:02:26,700  
uh is that correct

61  
00:02:36,050 --> 00:02:34,250  
so there are a few things in here that

62  
00:02:38,089 --> 00:02:36,060  
are relevant to discuss so firstly

63  
00:02:40,550 --> 00:02:38,099

before now uh there's been a lot of

64

00:02:42,170 --> 00:02:40,560

changing the office name so the uip uh

65

00:02:43,550 --> 00:02:42,180

joint program office that's not

66

00:02:45,350 --> 00:02:43,560

happening anymore we're sticking with

67

00:02:48,050 --> 00:02:45,360

the name that we've got Arrow the all

68

00:02:49,910 --> 00:02:48,060

domain anomalies resolution office which

69

00:02:51,410 --> 00:02:49,920

is a great name if you ask me kind of

70

00:02:54,110 --> 00:02:51,420

does what it says on the team you know

71

00:02:55,970 --> 00:02:54,120

uh this this section specifically it

72

00:02:57,470 --> 00:02:55,980

creates a secure method by which current

73

00:02:59,930 --> 00:02:57,480

or former government employees or

74

00:03:02,270 --> 00:02:59,940

contractors can submit UAP related

75

00:03:04,670 --> 00:03:02,280

information to the Pentagon UAP office

76

00:03:06,650 --> 00:03:04,680

then through that office they also can

77

00:03:08,750 --> 00:03:06,660

reach the Congressional armed services

78

00:03:11,089 --> 00:03:08,760

and intelligence committees as well

79

00:03:13,970 --> 00:03:11,099

there is a new language in here that

80

00:03:15,350 --> 00:03:13,980

explicitly kind of expands the scope of

81

00:03:17,449 --> 00:03:15,360

interest

82

00:03:19,190 --> 00:03:17,459

um as any activity or program by a

83

00:03:21,170 --> 00:03:19,200

department or agency of the federal

84

00:03:23,229 --> 00:03:21,180

government or contractor of such a

85

00:03:25,790 --> 00:03:23,239

department or agency

86

00:03:27,290 --> 00:03:25,800

including with respect to material

87

00:03:31,610 --> 00:03:27,300

retrieval so we're cooking crash

88

00:03:35,830 --> 00:03:33,710

reverse engineering research and

89

00:03:38,630 --> 00:03:35,840

development detecting and tracking

90

00:03:40,670 --> 00:03:38,640

developmental or operational testing and

91

00:03:42,289 --> 00:03:40,680

security protections and enforcement

92

00:03:44,990 --> 00:03:42,299

that's a nice robust bit of language

93

00:03:47,270 --> 00:03:45,000

there if Arrow does receive through the

94

00:03:49,610 --> 00:03:47,280

secure system any disclosure about UAP

95

00:03:51,770 --> 00:03:49,620

related restricted access programs that

96

00:03:54,229 --> 00:03:51,780

Congress is not aware of

97

00:03:56,270 --> 00:03:54,239

they have to inform the Secretary of

98

00:03:58,490 --> 00:03:56,280

Defense and the Committees and

99

00:04:00,589 --> 00:03:58,500

Congressional leadership within 72 hours

100

00:04:02,809 --> 00:04:00,599

that is new in this particular bit of

101  
00:04:04,430 --> 00:04:02,819  
language so it's really nice to hear

102  
00:04:06,530 --> 00:04:04,440  
that the pressure is on to kind of keep

103  
00:04:09,110 --> 00:04:06,540  
it all current

104  
00:04:11,869 --> 00:04:09,120  
other whistle blow related language is

105  
00:04:14,449 --> 00:04:11,879  
in the ndaa not necessarily connected to

106  
00:04:16,490 --> 00:04:14,459  
this uh but it will probably impact how

107  
00:04:18,170 --> 00:04:16,500  
this reporting happens I would just say

108  
00:04:19,849 --> 00:04:18,180  
that under the Obama Administration

109  
00:04:21,349 --> 00:04:19,859  
there was a lot of prosecution for

110  
00:04:23,749 --> 00:04:21,359  
people going outside of the law to

111  
00:04:25,909 --> 00:04:23,759  
whistleblow here it's best that people

112  
00:04:27,170 --> 00:04:25,919  
stick to this report and apparatus that

113  
00:04:28,969 --> 00:04:27,180

it's it's going to be made public how

114

00:04:31,129 --> 00:04:28,979

people can report it

115

00:04:32,749 --> 00:04:31,139

um so it's best for people to stick to

116

00:04:34,310 --> 00:04:32,759

it just so they can protect themselves

117

00:04:36,409 --> 00:04:34,320

and not be prosecuted by the current

118

00:04:38,510 --> 00:04:36,419

government Chris Mellon was really

119

00:04:40,249 --> 00:04:38,520

supportive of this language in the New

120

00:04:42,350 --> 00:04:40,259

York conference he even gave out his

121

00:04:44,749 --> 00:04:42,360

email there was a discussion I was privy

122

00:04:47,150 --> 00:04:44,759

to between an ex-air Force employee who

123

00:04:48,950 --> 00:04:47,160

said they wouldn't be covered by it so

124

00:04:50,990 --> 00:04:48,960

it's nice to know that melon actually

125

00:04:52,249 --> 00:04:51,000

wants to to expand the scope of this and

126  
00:04:53,390 --> 00:04:52,259  
make sure that other people are being

127  
00:04:55,670 --> 00:04:53,400  
helped

128  
00:04:59,150 --> 00:04:55,680  
all organizations will be searching

129  
00:05:02,150 --> 00:04:59,160  
their records for mbas related to UAP

130  
00:05:04,129 --> 00:05:02,160  
and the head of Arrow which is Dr Sean

131  
00:05:05,870 --> 00:05:04,139  
Kirkpatrick I will have to make these

132  
00:05:07,370 --> 00:05:05,880  
records accessible to Congressional

133  
00:05:10,189 --> 00:05:07,380  
defense committees intelligence

134  
00:05:13,129 --> 00:05:10,199  
committees and Leadership no later than

135  
00:05:15,710 --> 00:05:13,139  
September 30th 2023. the reports and

136  
00:05:17,629 --> 00:05:15,720  
briefings will go on every year as well

137  
00:05:19,490 --> 00:05:17,639  
we've also changed the term

138  
00:05:21,290 --> 00:05:19,500

so we're no longer talking about

139

00:05:23,510 --> 00:05:21,300

um identified aerial phenomena we're

140

00:05:25,189 --> 00:05:23,520

talking about and identified anomalous

141

00:05:27,950 --> 00:05:25,199

phenomena

142

00:05:30,050 --> 00:05:27,960

just before we get to that regarding the

143

00:05:32,870 --> 00:05:30,060

Whistleblower stuff because I feel there

144

00:05:34,370 --> 00:05:32,880

are still expectations from some and

145

00:05:37,370 --> 00:05:34,380

this is just when I look at social media

146

00:05:41,029 --> 00:05:37,380

conversations that whistleblowers coming

147

00:05:42,469 --> 00:05:41,039

forward means that on live TV or in some

148

00:05:44,210 --> 00:05:42,479

kind of you know political setting

149

00:05:46,430 --> 00:05:44,220

there's going to be an unclassified

150

00:05:49,010 --> 00:05:46,440

public debate where you're going to get

151  
00:05:51,469 --> 00:05:49,020  
individual a coming out to say I worked

152  
00:05:53,570 --> 00:05:51,479  
on uh secret program that reverse

153  
00:05:55,730 --> 00:05:53,580  
engineered spacecraft that we recovered

154  
00:05:57,770 --> 00:05:55,740  
that is very unlikely to be the case

155  
00:06:01,070 --> 00:05:57,780  
isn't it it's not going to be that sort

156  
00:06:03,590 --> 00:06:01,080  
of grandiose announcement it's there's

157  
00:06:05,090 --> 00:06:03,600  
not even the necessity that it's going

158  
00:06:07,670 --> 00:06:05,100  
to be people coming forward to speak

159  
00:06:09,230 --> 00:06:07,680  
publicly they could still be speaking

160  
00:06:12,230 --> 00:06:09,240  
and likely we'd be speaking in a

161  
00:06:15,770 --> 00:06:12,240  
classified setting which means we don't

162  
00:06:17,810 --> 00:06:15,780  
necessarily even end up hearing about it

163  
00:06:19,129 --> 00:06:17,820

yeah that's absolutely correct just

164

00:06:20,870 --> 00:06:19,139

because someone reports it it doesn't

165

00:06:22,550 --> 00:06:20,880

mean we'll be hearing about it what I

166

00:06:24,290 --> 00:06:22,560

would say is we we will hear whether

167

00:06:26,450 --> 00:06:24,300

people have utilized the system or not

168

00:06:28,129 --> 00:06:26,460

in our yulu reports we just won't

169

00:06:29,749 --> 00:06:28,139

necessarily hear the contents of that

170

00:06:32,090 --> 00:06:29,759

this is where we kind of just need to

171

00:06:33,650 --> 00:06:32,100

have a little bit of faith that the the

172

00:06:35,870 --> 00:06:33,660

Congressional leadership who I had in

173

00:06:37,790 --> 00:06:35,880

this Earth are going to action it they

174

00:06:39,409 --> 00:06:37,800

can then if they want to try and

175

00:06:41,450 --> 00:06:39,419

declassify the information which is

176

00:06:44,390 --> 00:06:41,460

where we would be privy to it in a

177

00:06:46,850 --> 00:06:44,400

public sector or something like that

178

00:06:48,830 --> 00:06:46,860

I'm just going to mention deidine

179

00:06:51,650 --> 00:06:48,840

Johnson who some of you will follow on

180

00:06:53,689 --> 00:06:51,660

social media his article is also within

181

00:06:55,309 --> 00:06:53,699

the description of this link so was the

182

00:06:56,870 --> 00:06:55,319

article from the debrief they've both

183

00:07:00,290 --> 00:06:56,880

covered this really well and cover it

184

00:07:03,409 --> 00:07:00,300

very often too a quick quote from D Dean

185

00:07:05,689 --> 00:07:03,419

Johnson as and I'll quote there might be

186

00:07:07,670 --> 00:07:05,699

other cases in which a witness learns of

187

00:07:10,610 --> 00:07:07,680

the new system and uses it to provide

188

00:07:12,469 --> 00:07:10,620

obscure but useful information that had

189

00:07:14,870 --> 00:07:12,479

simply been lost at pigeonholed or

190

00:07:16,969 --> 00:07:14,880

forgotten without any element of

191

00:07:18,650 --> 00:07:16,979

improper active concealment and in that

192

00:07:21,290 --> 00:07:18,660

case the term whistleblower would not be

193

00:07:23,450 --> 00:07:21,300

a good fit but the secure method would

194

00:07:25,550 --> 00:07:23,460

still be useful end quote so again

195

00:07:27,650 --> 00:07:25,560

there's there are other things here that

196

00:07:29,930 --> 00:07:27,660

this is useful for because it's going to

197

00:07:31,909 --> 00:07:29,940

allow folks to come forward to say I

198

00:07:33,790 --> 00:07:31,919

found out this I've discovered this and

199

00:07:36,589 --> 00:07:33,800

it doesn't necessarily have been a whole

200

00:07:38,749 --> 00:07:36,599

conspiracy for example the Air Force has

201  
00:07:41,270 --> 00:07:38,759  
a program for reverse engineering you

202  
00:07:43,790 --> 00:07:41,280  
know back engineering or retrieval of

203  
00:07:46,370 --> 00:07:43,800  
stolen recovered materials it could be

204  
00:07:48,589 --> 00:07:46,380  
something totally a left field but

205  
00:07:50,089 --> 00:07:48,599  
relevant and in this system and this

206  
00:07:52,909 --> 00:07:50,099  
method will allow them to come forward

207  
00:07:54,650 --> 00:07:52,919  
without any reprisal or fear of you know

208  
00:07:56,870 --> 00:07:54,660  
anything coming against them for for

209  
00:07:59,450 --> 00:07:56,880  
speaking out so there's a lot of of

210  
00:08:01,490 --> 00:07:59,460  
positives not just the the classic I

211  
00:08:02,749 --> 00:08:01,500  
think the Whistleblower idea that people

212  
00:08:05,089 --> 00:08:02,759  
may have in their heads of what a

213  
00:08:06,770 --> 00:08:05,099

whistleblower might be

214

00:08:08,150 --> 00:08:06,780

yeah that's absolutely right we're not

215

00:08:10,430 --> 00:08:08,160

just talking about people like Edward

216

00:08:12,950 --> 00:08:10,440

Snowden and you know people like that

217

00:08:15,469 --> 00:08:12,960

this is a robust system to do it

218

00:08:17,270 --> 00:08:15,479

properly which is what we mean really uh

219

00:08:18,469 --> 00:08:17,280

you know whistleblowers could have come

220

00:08:19,670 --> 00:08:18,479

out for you as we've had that bad

221

00:08:21,890 --> 00:08:19,680

confessions and they haven't really

222

00:08:23,450 --> 00:08:21,900

moved the needle on this so we need a

223

00:08:25,309 --> 00:08:23,460

proper robust system and that's what

224

00:08:27,170 --> 00:08:25,319

we're getting pretty much worth

225

00:08:29,089 --> 00:08:27,180

mentioning that when it comes to the

226

00:08:30,890 --> 00:08:29,099

definition of unidentified aerial

227

00:08:32,570 --> 00:08:30,900

phenomena the definition hasn't changed

228

00:08:34,610 --> 00:08:32,580

so even though we're using anomalous

229

00:08:36,290 --> 00:08:34,620

instead of Ariel we're still talking

230

00:08:38,449 --> 00:08:36,300

about Airborne objects that are not

231

00:08:40,850 --> 00:08:38,459

immediately identifiable transmedium

232

00:08:42,469 --> 00:08:40,860

objects or devices and submerge objects

233

00:08:44,570 --> 00:08:42,479

or devices that are not immediately

234

00:08:45,949 --> 00:08:44,580

identifiable and that display Behavior

235

00:08:47,870 --> 00:08:45,959

or performance characteristics

236

00:08:50,389 --> 00:08:47,880

suggesting that the objects of devices

237

00:08:53,690 --> 00:08:50,399

may be related to the objects described

238

00:08:56,210 --> 00:08:53,700

in subparagraph a the term transmedium

239

00:08:58,070 --> 00:08:56,220

objects or devices is defined to

240

00:08:59,630 --> 00:08:58,080

basically mean objects that are observed

241

00:09:01,550 --> 00:08:59,640

to transition between space the

242

00:09:04,190 --> 00:09:01,560

atmosphere and water

243

00:09:06,170 --> 00:09:04,200

so we're not just talking about uh you

244

00:09:08,269 --> 00:09:06,180

know ignoring man-made stuff anymore

245

00:09:10,670 --> 00:09:08,279

that provision is actually removed from

246

00:09:12,470 --> 00:09:10,680

the legislation here which I'm not too

247

00:09:13,730 --> 00:09:12,480

happy about but it's okay you know you

248

00:09:16,370 --> 00:09:13,740

know this is this is still a really

249

00:09:20,329 --> 00:09:16,380

robust piece of legislation

250

00:09:22,070 --> 00:09:20,339

that brings us to section 6802 and 6803

251  
00:09:23,389 --> 00:09:22,080  
which you might have in front of you do

252  
00:09:24,889 --> 00:09:23,399  
you want to tell everyone what that what

253  
00:09:28,190 --> 00:09:24,899  
that is

254  
00:09:30,290 --> 00:09:28,200  
uh I had it in front of me and I've hit

255  
00:09:32,930 --> 00:09:30,300  
the wrong button but that's fine in

256  
00:09:34,970 --> 00:09:32,940  
general as the general revisions

257  
00:09:37,790 --> 00:09:34,980  
pertaining to the Pentagon UAP office

258  
00:09:40,250 --> 00:09:37,800  
brackets arrow and its operations and

259  
00:09:43,850 --> 00:09:40,260  
arrow conducted historical record report

260  
00:09:46,970 --> 00:09:43,860  
on government involvement in UAP what I

261  
00:09:48,949 --> 00:09:46,980  
took away from that is that from those

262  
00:09:50,930 --> 00:09:48,959  
historical records people thinking back

263  
00:09:53,389 --> 00:09:50,940

I suppose go to Roswell a blue book

264

00:09:55,990 --> 00:09:53,399

those kind of things and it now is going

265

00:09:58,790 --> 00:09:56,000

to go back to January 1st

266

00:10:01,370 --> 00:09:58,800

1945. so it's been broadened slightly

267

00:10:03,650 --> 00:10:01,380

and the report is to include a

268

00:10:05,810 --> 00:10:03,660

compilation and itemization of the key

269

00:10:07,810 --> 00:10:05,820

historical record of the involvement of

270

00:10:09,889 --> 00:10:07,820

the intelligence Community with

271

00:10:12,769 --> 00:10:09,899

unidentified anomalous phenomena

272

00:10:14,930 --> 00:10:12,779

including any program or activity that

273

00:10:17,150 --> 00:10:14,940

was protected by restricted access that

274

00:10:19,970 --> 00:10:17,160

has not been explicitly and clearly

275

00:10:21,949 --> 00:10:19,980

reported to Congress and success or

276

00:10:24,170 --> 00:10:21,959

unsuccessful reports to identify and

277

00:10:27,769 --> 00:10:24,180

track unidentified anomalous phenomena

278

00:10:29,810 --> 00:10:27,779

and any efforts to obfuscate manipulate

279

00:10:31,850 --> 00:10:29,820

public opinion hide or otherwise provide

280

00:10:34,610 --> 00:10:31,860

incorrect unclassified or classified

281

00:10:37,850 --> 00:10:34,620

information about unidentified anomalous

282

00:10:39,290 --> 00:10:37,860

phenomena or related activities I think

283

00:10:41,030 --> 00:10:39,300

for me Dan that's the one that will

284

00:10:42,710 --> 00:10:41,040

raise a lot of people's eyebrows because

285

00:10:45,110 --> 00:10:42,720

that's the ones that do start getting

286

00:10:46,730 --> 00:10:45,120

into for lack of other terms that people

287

00:10:50,110 --> 00:10:46,740

would use with who are much smarter than

288

00:10:53,509 --> 00:10:50,120

me secret programs misinformation

289

00:10:55,190 --> 00:10:53,519

cover-ups but I also think that might be

290

00:10:56,389 --> 00:10:55,200

the hardest thing in all of this to

291

00:10:58,310 --> 00:10:56,399

really

292

00:11:00,290 --> 00:10:58,320

clarify because this is the kind of

293

00:11:01,970 --> 00:11:00,300

stuff when Tom DeLong talks about stove

294

00:11:03,829 --> 00:11:01,980

pipes and and all these different

295

00:11:05,630 --> 00:11:03,839

compartments and knocking on one door

296

00:11:07,610 --> 00:11:05,640

leading to three other doors and two of

297

00:11:09,230 --> 00:11:07,620

those doors are boarded up and one of

298

00:11:10,550 --> 00:11:09,240

them is now a broom closet and then you

299

00:11:12,170 --> 00:11:10,560

find a note to say you need to go

300

00:11:14,690 --> 00:11:12,180

somewhere else down a hall but that then

301  
00:11:17,630 --> 00:11:14,700  
got moved to a private contractor and

302  
00:11:21,710 --> 00:11:17,640  
you know page 12 says turn to page 26

303  
00:11:24,290 --> 00:11:21,720  
and it's I think that's really confusing

304  
00:11:26,269 --> 00:11:24,300  
yeah it's I'm thinking Goosebumps Choose

305  
00:11:27,829 --> 00:11:26,279  
Your Own Ending um but when you don't

306  
00:11:29,329 --> 00:11:27,839  
like it you go back to the page but you

307  
00:11:31,370 --> 00:11:29,339  
go back to the page you were on

308  
00:11:33,829 --> 00:11:31,380  
I think that's a really difficult thing

309  
00:11:36,110 --> 00:11:33,839  
because it's not easy to see yet

310  
00:11:37,670 --> 00:11:36,120  
actually we've found a closet and it has

311  
00:11:39,410 --> 00:11:37,680  
some failing cabinets and within those

312  
00:11:42,530 --> 00:11:39,420  
failing cabinets there's a folder and

313  
00:11:45,230 --> 00:11:42,540

that folder says here in 1940 it we

314

00:11:47,090 --> 00:11:45,240

recovered our craft in 1952 we covered

315

00:11:48,530 --> 00:11:47,100

this up and because that's not going to

316

00:11:50,389 --> 00:11:48,540

be there the people that would have

317

00:11:52,970 --> 00:11:50,399

dealt with these have long since passed

318

00:11:55,850 --> 00:11:52,980

on and that will be the The Gatekeepers

319

00:11:57,290 --> 00:11:55,860

and key holders Generations removed who

320

00:12:00,889 --> 00:11:57,300

have never been charged with that

321

00:12:02,870 --> 00:12:00,899

information and the secure you know

322

00:12:04,850 --> 00:12:02,880

secret keeping that's happened

323

00:12:06,350 --> 00:12:04,860

potentially within that time

324

00:12:07,970 --> 00:12:06,360

and that's just not something that's

325

00:12:09,530 --> 00:12:07,980

going to necessarily come forward and I

326

00:12:11,990 --> 00:12:09,540

think when I read a lot of that stuff I

327

00:12:13,610 --> 00:12:12,000

immediately think Air Force potentially

328

00:12:16,190 --> 00:12:13,620

involved in a lot of that kind of stuff

329

00:12:18,170 --> 00:12:16,200

as well what are your thoughts

330

00:12:19,910 --> 00:12:18,180

yeah absolutely there will be smear

331

00:12:21,590 --> 00:12:19,920

Force involvement and like you say it's

332

00:12:23,329 --> 00:12:21,600

gonna it's gonna be a lot of work to

333

00:12:24,949 --> 00:12:23,339

kind of detail this and I hope when it's

334

00:12:27,050 --> 00:12:24,959

done they kind of release some kind of

335

00:12:29,509 --> 00:12:27,060

public version of this because wowie

336

00:12:31,190 --> 00:12:29,519

that will contain a it'll almost be an

337

00:12:33,230 --> 00:12:31,200

Insider's look at the US government's

338

00:12:35,329 --> 00:12:33,240

involvement in UFOs in a way that we

339

00:12:36,290 --> 00:12:35,339

just haven't seen before you know they

340

00:12:38,569 --> 00:12:36,300

they're going to be able to look at

341

00:12:40,130 --> 00:12:38,579

documents but also Paul interviews uh

342

00:12:41,509 --> 00:12:40,140

pull people into interview as well

343

00:12:44,090 --> 00:12:41,519

whether it's contractors or government

344

00:12:45,350 --> 00:12:44,100

employees past or present uh they'll be

345

00:12:47,389 --> 00:12:45,360

able to look at classified and

346

00:12:49,370 --> 00:12:47,399

unclassified archives do open source

347

00:12:51,290 --> 00:12:49,380

analysis and just look at any records

348

00:12:53,870 --> 00:12:51,300

that Dr Sean Kirkpatrick sees fit to

349

00:12:56,750 --> 00:12:53,880

look at basically so once done it's it's

350

00:12:59,629 --> 00:12:56,760

going to be a real robust uh real robust

351

00:13:02,750 --> 00:12:59,639

look at it all and they generally have

352

00:13:04,550 --> 00:13:02,760

uh a little time to do it

353

00:13:06,470 --> 00:13:04,560

um I had the date noted here but we're

354

00:13:08,269 --> 00:13:06,480

looking at some time uh you know in the

355

00:13:10,250 --> 00:13:08,279

next year or so I think they have about

356

00:13:12,410 --> 00:13:10,260

a year a year and a half to put this

357

00:13:14,030 --> 00:13:12,420

together so it'll be a little while

358

00:13:16,449 --> 00:13:14,040

before we even hear that it's been

359

00:13:18,889 --> 00:13:16,459

handed in but it's an absolutely

360

00:13:21,050 --> 00:13:18,899

necessary part of this process to kind

361

00:13:24,050 --> 00:13:21,060

of clear up what's been going on in the

362

00:13:25,670 --> 00:13:24,060

past uh as we all want them to the the

363

00:13:27,769 --> 00:13:25,680

one main thing to note as well with this

364

00:13:28,910 --> 00:13:27,779

is it was going to be the Comptroller uh

365

00:13:31,009 --> 00:13:28,920

that did this

366

00:13:33,110 --> 00:13:31,019

but now it's going to be arrow that kind

367

00:13:34,550 --> 00:13:33,120

of takes the lead on it which is fair

368

00:13:36,470 --> 00:13:34,560

enough I think you know they're doing a

369

00:13:39,050 --> 00:13:36,480

UAP study they kind of need to know this

370

00:13:41,990 --> 00:13:39,060

but what's really encouraging about it

371

00:13:44,629 --> 00:13:42,000

is now the reporting isn't just to odni

372

00:13:47,509 --> 00:13:44,639

it's to the congressional committees to

373

00:13:48,710 --> 00:13:47,519

the officials in Congress basically OD

374

00:13:50,210 --> 00:13:48,720

and I aren't going to be able to just

375

00:13:53,030 --> 00:13:50,220

stop the buck at their office anymore

376

00:13:54,470 --> 00:13:53,040

they they will anything they hear they

377

00:13:56,449 --> 00:13:54,480

will know that all of the current

378

00:13:58,370 --> 00:13:56,459

officials in Congress also have heard

379

00:14:00,530 --> 00:13:58,380

this stuff so it's going to be very

380

00:14:03,710 --> 00:14:00,540

actionable uh in a way that it wasn't

381

00:14:07,850 --> 00:14:05,750

one or two listeners reached out to me

382

00:14:09,110 --> 00:14:07,860

recently regarding some of the language

383

00:14:11,629 --> 00:14:09,120

changes

384

00:14:13,009 --> 00:14:11,639

um and the dating Johnson himself

385

00:14:14,389 --> 00:14:13,019

pointed this out which is where I

386

00:14:16,610 --> 00:14:14,399

connected the dots it wasn't just me

387

00:14:19,910 --> 00:14:16,620

being intelligent uh he and I'll quote

388

00:14:21,410 --> 00:14:19,920

uh dating Johnson some commentators have

389

00:14:23,750 --> 00:14:21,420

jumped to the conclusion that the change

390

00:14:25,670 --> 00:14:23,760

from Ariel to anomalous will vastly

391

00:14:27,170 --> 00:14:25,680

expand the scope of the phenomena that

392

00:14:29,329 --> 00:14:27,180

Arrow would be tasked to him with

393

00:14:32,030 --> 00:14:29,339

investigating to include for example

394

00:14:33,769 --> 00:14:32,040

Poltergeist or werewolves such claims

395

00:14:35,269 --> 00:14:33,779

fail to take into account that the old

396

00:14:38,150 --> 00:14:35,279

term and the new term point to

397

00:14:40,370 --> 00:14:38,160

functionally identical definitions so I

398

00:14:42,769 --> 00:14:40,380

think the idea that removing Ariel to

399

00:14:46,430 --> 00:14:42,779

anomalous would be this almost more of

400

00:14:48,170 --> 00:14:46,440

an OSAP type of you know organization or

401  
00:14:50,750 --> 00:14:48,180  
investigating the skinwalker type

402  
00:14:52,850 --> 00:14:50,760  
phenomena that's that's highly unlikely

403  
00:14:54,530 --> 00:14:52,860  
and it's more of a definition tweaking

404  
00:14:57,590 --> 00:14:54,540  
isn't it and is still very much looking

405  
00:15:00,230 --> 00:14:57,600  
at objects or finding in the air the the

406  
00:15:02,509 --> 00:15:00,240  
sea and potentially space I always like

407  
00:15:04,189 --> 00:15:02,519  
to add in there yeah we're talking

408  
00:15:06,530 --> 00:15:04,199  
transmedium objects you know the ones

409  
00:15:09,050 --> 00:15:06,540  
that transition between airspace and see

410  
00:15:10,670 --> 00:15:09,060  
exactly like you said there is scope in

411  
00:15:12,530 --> 00:15:10,680  
the future I would say with that

412  
00:15:14,449 --> 00:15:12,540  
anomalous term for them to broaden out a

413  
00:15:15,590 --> 00:15:14,459

little bit but for now we're looking at

414

00:15:16,790 --> 00:15:15,600

exactly the same stuff as we were

415

00:15:18,949 --> 00:15:16,800

looking at last year which is fine

416

00:15:22,670 --> 00:15:18,959

because looking at the number of reports

417

00:15:25,430 --> 00:15:22,680

uh you know it went up from 40 44 last

418

00:15:26,810 --> 00:15:25,440

year to we're hitting like 366 is the

419

00:15:29,210 --> 00:15:26,820

number we're here in this year with 50

420

00:15:31,490 --> 00:15:29,220

solve the reporting measures are doing

421

00:15:32,990 --> 00:15:31,500

what they were designed to do the more

422

00:15:34,910 --> 00:15:33,000

people are reporting we've got more

423

00:15:37,310 --> 00:15:34,920

reports more things are being solved but

424

00:15:39,290 --> 00:15:37,320

actually the solve rate has gone down so

425

00:15:41,030 --> 00:15:39,300

I'm not sure you know that Julian Barnes

426

00:15:42,410 --> 00:15:41,040

article was painting a proper picture

427

00:15:44,329 --> 00:15:42,420

when they were kind of saying yeah we

428

00:15:45,530 --> 00:15:44,339

sold out of these things cool what what

429

00:15:47,389 --> 00:15:45,540

are the things you didn't solve that's

430

00:15:49,250 --> 00:15:47,399

what we're interested in you know

431

00:15:50,990 --> 00:15:49,260

absolutely Dan I want to ask you a

432

00:15:55,069 --> 00:15:51,000

question so with that Roundup for people

433

00:15:56,269 --> 00:15:55,079

what what does this ultimately mean in

434

00:15:58,069 --> 00:15:56,279

terms of

435

00:16:00,889 --> 00:15:58,079

what we're going to get from this just

436

00:16:02,389 --> 00:16:00,899

to summarize so the NDA has passed it

437

00:16:05,569 --> 00:16:02,399

still has to be signed off am I correct

438

00:16:08,509 --> 00:16:05,579

from the the administration now

439

00:16:10,370 --> 00:16:08,519

from Biden so I it's going towards the

440

00:16:12,410 --> 00:16:10,380

desk of the president basically it is

441

00:16:14,750 --> 00:16:12,420

passed today uh which is awesome

442

00:16:17,509 --> 00:16:14,760

congratulations everyone good job

443

00:16:19,550 --> 00:16:17,519

um and oh just to say that the

444

00:16:23,569 --> 00:16:19,560

Comptroller report is due by uh no later

445

00:16:25,250 --> 00:16:23,579

than September 30th 2023 uh but yeah

446

00:16:26,870 --> 00:16:25,260

this this has passed now it will go to

447

00:16:28,970 --> 00:16:26,880

the president's desk I would expect it

448

00:16:31,250 --> 00:16:28,980

to hit President Biden to sign it in

449

00:16:32,810 --> 00:16:31,260

around Christmas and then we'll

450

00:16:34,910 --> 00:16:32,820

essentially get the ball rolling on

451  
00:16:36,170 --> 00:16:34,920  
these kind of title Provisions the

452  
00:16:39,590 --> 00:16:36,180  
secure system

453  
00:16:42,530 --> 00:16:39,600  
and this report of the history of the

454  
00:16:44,329 --> 00:16:42,540  
US's involvement with UAP and just to

455  
00:16:47,150 --> 00:16:44,339  
point out as well that there are a lot

456  
00:16:49,129 --> 00:16:47,160  
of offices involved with this too so

457  
00:16:50,269 --> 00:16:49,139  
we're looking at the DIA the NSA the

458  
00:16:52,850 --> 00:16:50,279  
department of energy the National

459  
00:16:55,009 --> 00:16:52,860  
geospatial Intelligence Agency the Army

460  
00:16:58,850 --> 00:16:55,019  
Navy Air Force Marine Corps and Coast

461  
00:17:00,530 --> 00:16:58,860  
Guard and Homeland Security uh who kind

462  
00:17:04,069 --> 00:17:00,540  
of leaked the rubber duck video early

463  
00:17:06,110 --> 00:17:04,079

this year uh so there's a nice kind of

464

00:17:08,090 --> 00:17:06,120

wide array of organizations involved in

465

00:17:10,189 --> 00:17:08,100

this so I would expect you know this

466

00:17:11,630 --> 00:17:10,199

board is rolling we'll get yearly

467

00:17:14,210 --> 00:17:11,640

reports again

468

00:17:16,429 --> 00:17:14,220

um that are deemed to

469

00:17:19,069 --> 00:17:16,439

they have to be unclassified but can

470

00:17:20,390 --> 00:17:19,079

include a classified Annex however like

471

00:17:22,909 --> 00:17:20,400

we've seen this year there's no

472

00:17:24,289 --> 00:17:22,919

guarantee on a date for them to be

473

00:17:26,270 --> 00:17:24,299

submitted

474

00:17:27,949 --> 00:17:26,280

there's just a requirement for reports

475

00:17:29,690 --> 00:17:27,959

so I would still expect to see the UAP

476

00:17:31,549 --> 00:17:29,700

report from this year we just haven't

477

00:17:34,070 --> 00:17:31,559

seen it yet it's caught up in red tape

478

00:17:36,230 --> 00:17:34,080

basically yeah

479

00:17:38,750 --> 00:17:36,240

do you know what if any positives are to

480

00:17:40,610 --> 00:17:38,760

come from that I'll just add then if any

481

00:17:43,730 --> 00:17:40,620

positives are to come from that the fact

482

00:17:47,330 --> 00:17:43,740

is that those dates regardless of being

483

00:17:48,650 --> 00:17:47,340

mandated or not are fluid and it

484

00:17:51,049 --> 00:17:48,660

came and went and must still not had

485

00:17:53,570 --> 00:17:51,059

that report I would like to add Dan that

486

00:17:55,310 --> 00:17:53,580

the the debrief article did mention the

487

00:17:56,870 --> 00:17:55,320

funding levels included within the bill

488

00:17:59,950 --> 00:17:56,880

for those interested in the numbers

489

00:18:03,470 --> 00:17:59,960

involved uh Department of Defense is

490

00:18:05,270 --> 00:18:03,480

816.7 billion Department of energy which

491

00:18:07,669 --> 00:18:05,280

is always an organization that raises

492

00:18:10,430 --> 00:18:07,679

eyebrows as it gets mentioned many times

493

00:18:14,270 --> 00:18:10,440

on the podcast by guests and another uh

494

00:18:17,890 --> 00:18:14,280

literature Endeavors 30.3 billion the

495

00:18:21,549 --> 00:18:17,900

ndaa top line is 847 points

496

00:18:24,350 --> 00:18:21,559

defense related activities outside here

497

00:18:26,330 --> 00:18:24,360

30.3 billion yeah

498

00:18:28,370 --> 00:18:26,340

um which I mean it's not it's not a

499

00:18:30,529 --> 00:18:28,380

number of you know amount of money to be

500

00:18:32,930 --> 00:18:30,539

sniffed at you know uh differentiated

501  
00:18:35,510 --> 00:18:32,940  
activities outside the ndaa jurisdiction

502  
00:18:36,909 --> 00:18:35,520  
10.6 billion and National Defense

503  
00:18:40,010 --> 00:18:36,919  
Topline

504  
00:18:41,630 --> 00:18:40,020  
857.9 billion something I found was

505  
00:18:44,570 --> 00:18:41,640  
really interesting was and I think this

506  
00:18:46,549 --> 00:18:44,580  
is correct that the the US defends

507  
00:18:48,529 --> 00:18:46,559  
budget is more than every other

508  
00:18:51,770 --> 00:18:48,539  
country's defense budget put together I

509  
00:18:53,570 --> 00:18:51,780  
believe which is yeah pretty pretty

510  
00:18:54,890 --> 00:18:53,580  
incredible and also actually just to

511  
00:18:57,049 --> 00:18:54,900  
give a shout out to the debrief because

512  
00:18:57,950 --> 00:18:57,059  
of quoted DD and Johnson quite a lot

513  
00:19:01,669 --> 00:18:57,960

here

514

00:19:04,430 --> 00:19:01,679

article about disruptive Technologies

515

00:19:05,990 --> 00:19:04,440

Lancet air and the edge and it talks

516

00:19:08,090 --> 00:19:06,000

about from military concerns and

517

00:19:09,830 --> 00:19:08,100

competition from foreign adversaries

518

00:19:11,029 --> 00:19:09,840

like China development of Next

519

00:19:13,730 --> 00:19:11,039

Generation aircraft other

520

00:19:15,950 --> 00:19:13,740

state-of-the-art Technologies so things

521

00:19:18,409 --> 00:19:15,960

like um strategic competition with China

522

00:19:20,029 --> 00:19:18,419

and Russia disruptive Technologies like

523

00:19:22,490 --> 00:19:20,039

Hypersonic weapons artificial

524

00:19:25,130 --> 00:19:22,500

intelligence 5G and Quantum Computing

525

00:19:26,750 --> 00:19:25,140

modernizing our aircraft and vehicles

526

00:19:28,909 --> 00:19:26,760

that's the kind of stuff this money gets

527

00:19:31,070 --> 00:19:28,919

put towards as well as the stuff that's

528

00:19:33,110 --> 00:19:31,080

involved with taking a UAP side of

529

00:19:36,110 --> 00:19:33,120

things as well

530

00:19:38,270 --> 00:19:36,120

cool so then

531

00:19:39,890 --> 00:19:38,280

um all in I I think it's a weird thing

532

00:19:41,270 --> 00:19:39,900

to talk about a defense budget and be

533

00:19:42,710 --> 00:19:41,280

like oh yeah is that a good thing a bad

534

00:19:44,810 --> 00:19:42,720

thing you know a lot of this stuff goes

535

00:19:47,570 --> 00:19:44,820

to war

536

00:19:49,370 --> 00:19:47,580

M where

537

00:19:51,289 --> 00:19:49,380

just in the uh part of this bill

538

00:19:53,270 --> 00:19:51,299

requires a science plan to be developed

539

00:19:54,590 --> 00:19:53,280

and as part of that science plan they'll

540

00:19:56,210 --> 00:19:54,600

be testing theories relating to

541

00:19:58,070 --> 00:19:56,220

characteristics and performance at UAP

542

00:19:59,930 --> 00:19:58,080

whether it's propulsion aerodynamic

543

00:20:01,610 --> 00:19:59,940

control signature structures materials

544

00:20:04,909 --> 00:20:01,620

sensors countermeasures weapons

545

00:20:07,970 --> 00:20:04,919

Electronics or a power source they that

546

00:20:11,029 --> 00:20:07,980

investigation uh is specified to perhaps

547

00:20:12,590 --> 00:20:11,039

provide potential future Investments for

548

00:20:16,610 --> 00:20:12,600

the upgrade of the US's military

549

00:20:20,570 --> 00:20:17,930

awesome

550

00:20:22,850 --> 00:20:20,580

cool Dan what we'll do is we will round

551  
00:20:24,590 --> 00:20:22,860  
off there with any final thoughts I'll

552  
00:20:26,990 --> 00:20:24,600  
just add I'm going to go back and

553  
00:20:29,029 --> 00:20:27,000  
hopefully fix there's been a couple of

554  
00:20:30,890 --> 00:20:29,039  
little gaps potentially and Dan and I

555  
00:20:32,630 --> 00:20:30,900  
talking to each other you shouldn't hear

556  
00:20:34,850 --> 00:20:32,640  
that when this gets released just with

557  
00:20:37,010 --> 00:20:34,860  
Dan being in Mexico there's a bit of a

558  
00:20:38,750 --> 00:20:37,020  
lag at times in the conversation so

559  
00:20:40,490 --> 00:20:38,760  
apologies if any of that does leak

560  
00:20:42,169 --> 00:20:40,500  
through it hopefully doesn't and if

561  
00:20:44,810 --> 00:20:42,179  
we've been talking over each other it's

562  
00:20:47,630 --> 00:20:44,820  
just because of you know said Gap but

563  
00:20:50,570 --> 00:20:47,640

that's it yeah so uh Dan final thoughts

564

00:20:53,090 --> 00:20:50,580

in on the legislation passing

565

00:20:55,669 --> 00:20:53,100

very encouraged uh it's exciting to see

566

00:20:57,289 --> 00:20:55,679

this going through a good set forward

567

00:20:59,090 --> 00:20:57,299

from last year and remember we have like

568

00:21:01,610 --> 00:20:59,100

four or five years of this left in this

569

00:21:04,549 --> 00:21:01,620

legislation it's specified that it will

570

00:21:07,010 --> 00:21:04,559

go till 2027 previously it was only 2026

571

00:21:11,510 --> 00:21:07,020

so we have an extra year here uh this is

572

00:21:16,490 --> 00:21:14,390

awesome Dan thank you for taking time up

573

00:21:17,990 --> 00:21:16,500

of your sabbatical to come on to the

574

00:21:20,450 --> 00:21:18,000

podcast and you know chat to the Little

575

00:21:22,789 --> 00:21:20,460

People Like Us uh but she'll be doing on

576

00:21:24,169 --> 00:21:22,799

a regular basis anyway obviously that

577

00:21:26,630 --> 00:21:24,179

won't change just now and again Dan

578

00:21:28,370 --> 00:21:26,640

might not have internet sustainable on a

579

00:21:29,450 --> 00:21:28,380

daily basis but he's still getting the

580

00:21:31,310 --> 00:21:29,460

work done

581

00:21:33,649 --> 00:21:31,320

um and yeah it is very good to hear from

582

00:21:35,750 --> 00:21:33,659

you and obviously if anything changes

583

00:21:37,970 --> 00:21:35,760

and uh in the meantime which it

584

00:21:39,890 --> 00:21:37,980

shouldn't because as we've seen from D

585

00:21:42,590 --> 00:21:39,900

Dean Johnson and others this should now

586

00:21:44,510 --> 00:21:42,600

go through with no revisions whatsoever

587

00:21:46,669 --> 00:21:44,520

um pertaining to any of the UAP UFO

588

00:21:48,830 --> 00:21:46,679

stuff either so good to break that down

589

00:21:50,870 --> 00:21:48,840

any questions send them over via any of

590

00:21:52,250 --> 00:21:50,880

the social media channels via email and

591

00:21:53,630 --> 00:21:52,260

we can chat through those I would

592

00:21:55,669 --> 00:21:53,640

definitely recommend following people

593

00:21:57,470 --> 00:21:55,679

like Dan dedeen Johnson the debrief

594

00:21:58,610 --> 00:21:57,480

because those are the folks in the know

595

00:22:01,190 --> 00:21:58,620

that can give you some detailed

596

00:22:02,810 --> 00:22:01,200

information on that too and anything we

597

00:22:05,649 --> 00:22:02,820

get wrong full disclaimer we're not

598

00:22:07,909 --> 00:22:05,659

based in the states so we don't know

599

00:22:10,430 --> 00:22:07,919

this is very true I think I know more

600

00:22:12,350 --> 00:22:10,440

about the U.S political system than the

601  
00:22:14,630 --> 00:22:12,360  
UK

602  
00:22:17,750 --> 00:22:14,640

[Music]
