

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

2022 Annual Report on
Unidentified Aerial Phenomena

1
00:00:06,190 --> 00:00:03,590
this is Lou Elizondo and you are

2
00:00:10,190 --> 00:00:06,200
listening to that UFO podcast

3
00:00:12,230 --> 00:00:10,200
[Music]

4
00:00:14,690 --> 00:00:12,240
hi everyone and welcome back to that

5
00:00:16,730 --> 00:00:14,700
uafo podcast we're starting the gear off

6
00:00:18,710 --> 00:00:16,740
well it's the 13th of January with a

7
00:00:21,290 --> 00:00:18,720
breaking news podcast but it's a couple

8
00:00:23,390 --> 00:00:21,300
of months later than expected this is us

9
00:00:25,429 --> 00:00:23,400
talking about the UFO report the long

10
00:00:28,490 --> 00:00:25,439
delayed UFO report that was due on the

11
00:00:31,849 --> 00:00:28,500
31st of October 2022 which dropped on

12
00:00:35,630 --> 00:00:31,859
the 12th of January 2023 joining me from

13
00:00:37,790 --> 00:00:35,640

Mexico as always is Dan welcome

14

00:00:39,110 --> 00:00:37,800

hello hello I was gonna say hello in

15

00:00:40,430 --> 00:00:39,120

Spanish then but I don't want to yeah

16

00:00:42,590 --> 00:00:40,440

thank you I think you've done that last

17

00:00:45,049 --> 00:00:42,600

time yeah yeah I think we're like I

18

00:00:46,670 --> 00:00:45,059

should just I'm gonna open up from now

19

00:00:48,410 --> 00:00:46,680

on with movie quotes when you introduce

20

00:00:49,970 --> 00:00:48,420

me and and then you can try and Guess

21

00:00:52,430 --> 00:00:49,980

the Movie so for today I'm just gonna go

22

00:00:54,049 --> 00:00:52,440

for Aloe beastie

23

00:00:57,170 --> 00:00:54,059

um

24

00:00:59,450 --> 00:00:57,180

oh is that an alien type one

25

00:01:01,369 --> 00:00:59,460

it's not I was gonna say Starship I was

26

00:01:03,470 --> 00:01:01,379

going to say Starship triples

27

00:01:09,609 --> 00:01:03,480

but oh this I am watched that in a while

28

00:01:14,330 --> 00:01:12,530

but I'll know by the end anyway so

29

00:01:15,710 --> 00:01:14,340

um we're going to the court desk and get

30

00:01:17,450 --> 00:01:15,720

it straight out and hopefully it'll be

31

00:01:19,730 --> 00:01:17,460

on the YouTube for you within 24 hours

32

00:01:21,770 --> 00:01:19,740

as well so quick turnaround on this one

33

00:01:23,450 --> 00:01:21,780

uh the plan was to have the interview

34

00:01:26,210 --> 00:01:23,460

with Chris playing that recorded

35

00:01:28,130 --> 00:01:26,220

yesterday as we speak about this out but

36

00:01:30,289 --> 00:01:28,140

literally minutes before I recorded the

37

00:01:32,030 --> 00:01:30,299

Chris the report dropped so myself and

38

00:01:34,190 --> 00:01:32,040

Chris spent 20 minutes going through the

39

00:01:36,469 --> 00:01:34,200

report at a glance and then we moved on

40

00:01:37,850 --> 00:01:36,479

to the interview previewing 2023 so it

41

00:01:41,270 --> 00:01:37,860

was a really interesting chat especially

42

00:01:42,830 --> 00:01:41,280

for those with a an an edge towards the

43

00:01:45,410 --> 00:01:42,840

science and the technology side of

44

00:01:47,149 --> 00:01:45,420

things incorporating the UFO stories as

45

00:01:49,069 --> 00:01:47,159

well and Chris dropped in some very cool

46

00:01:51,950 --> 00:01:49,079

nuggets of things that are coming in

47

00:01:54,469 --> 00:01:51,960

2023 including in around two weeks time

48

00:01:56,630 --> 00:01:54,479

a debrief article which is going to have

49

00:02:00,109 --> 00:01:56,640

an update on the Chicago O'Hare incident

50

00:02:02,810 --> 00:02:00,119

from 2005 2006.

51
00:02:04,429 --> 00:02:02,820
um and there are there may be some new

52
00:02:06,950 --> 00:02:04,439
evidence coming forward with that and

53
00:02:10,370 --> 00:02:06,960
Chris himself while said that uh it's

54
00:02:11,630 --> 00:02:10,380
not debunking it either so interesting

55
00:02:12,890 --> 00:02:11,640
so I'm looking forward to that and

56
00:02:14,809 --> 00:02:12,900
there's a few other nuggets he touched

57
00:02:16,130 --> 00:02:14,819
on as well so definitely check that one

58
00:02:18,170 --> 00:02:16,140
out but that one will go up early access

59
00:02:20,570 --> 00:02:18,180
over the weekend but it'll be out for

60
00:02:22,250 --> 00:02:20,580
Monday or Tuesday on all the feeds as

61
00:02:23,990 --> 00:02:22,260
well and then up on YouTube by like

62
00:02:26,330 --> 00:02:24,000
Tuesday Wednesday so we'll get that all

63
00:02:28,430 --> 00:02:26,340

all up and out for you as well folks but

64

00:02:30,050 --> 00:02:28,440

yes listen as we said Dan the report

65

00:02:32,390 --> 00:02:30,060

finally dropped around two and a half

66

00:02:33,830 --> 00:02:32,400

months overdue it just kind of came out

67

00:02:35,570 --> 00:02:33,840

of nowhere there was very little

68

00:02:37,970 --> 00:02:35,580

Rumblings a few people I know hours

69

00:02:39,890 --> 00:02:37,980

before were kind of of the opinion

70

00:02:41,930 --> 00:02:39,900

something was going to happen Sean

71

00:02:44,270 --> 00:02:41,940

Kirkpatrick was doing a talk wasn't your

72

00:02:46,790 --> 00:02:44,280

presentation that wasn't related but

73

00:02:47,990 --> 00:02:46,800

that seemed to get the the chatter going

74

00:02:50,930 --> 00:02:48,000

as well that it was going to come out

75

00:02:53,990 --> 00:02:50,940

and yeah it just dropped so

76

00:02:55,430 --> 00:02:54,000

I think it's fair to say I've had we've

77

00:02:57,290 --> 00:02:55,440

not spoke about it yet folks uh

78

00:02:58,970 --> 00:02:57,300

genuinely I text Dan yesterday the link

79

00:03:01,550 --> 00:02:58,980

but by the time it was the evening and

80

00:03:02,809 --> 00:03:01,560

it stands kind of morning afternoon we

81

00:03:04,670 --> 00:03:02,819

didn't get a chat to actually go back

82

00:03:05,869 --> 00:03:04,680

and forward on it at all and I was in

83

00:03:07,550 --> 00:03:05,879

bed last night

84

00:03:09,470 --> 00:03:07,560

uh as I said you know the kids are up

85

00:03:11,570 --> 00:03:09,480

early and stuff then it's Dan's night

86

00:03:13,550 --> 00:03:11,580

time and we've left the chat or even

87

00:03:16,009 --> 00:03:13,560

when we hit record to literally talk

88

00:03:18,710 --> 00:03:16,019

about it now I've had the 24 hours time

89

00:03:20,509 --> 00:03:18,720

to reflect on it I get people are a

90

00:03:23,570 --> 00:03:20,519

little bit disappointed people are a bit

91

00:03:25,790 --> 00:03:23,580

deflated it's it is sort of what I

92

00:03:27,350 --> 00:03:25,800

expected and for the love of God for the

93

00:03:29,390 --> 00:03:27,360

couple of people who were unhappy with

94

00:03:32,210 --> 00:03:29,400

me seeing that online you know

95

00:03:33,890 --> 00:03:32,220

get over it but it's just true it's kind

96

00:03:36,290 --> 00:03:33,900

of what I expected I didn't expect there

97

00:03:38,390 --> 00:03:36,300

to be much in it there was potentially

98

00:03:39,890 --> 00:03:38,400

maybe even a little bit less than I

99

00:03:41,089 --> 00:03:39,900

thought would be in it and you're

100

00:03:43,250 --> 00:03:41,099

totally

101
00:03:46,610 --> 00:03:43,260
allowed to be annoyed or frustrated at

102
00:03:48,710 --> 00:03:46,620
it I'll be more annoyed or frustrated if

103
00:03:50,630 --> 00:03:48,720
the next one that's due and we'll get to

104
00:03:53,089 --> 00:03:50,640
that as the same

105
00:03:54,410 --> 00:03:53,099
I'm gonna get am I going to give them a

106
00:03:56,390 --> 00:03:54,420
pass can I even say that they don't give

107
00:03:59,270 --> 00:03:56,400
a if I give them a pass or not

108
00:04:01,670 --> 00:03:59,280
um I'm gonna say I get why this one

109
00:04:03,289 --> 00:04:01,680
potentially has been the way it is I'll

110
00:04:04,789 --> 00:04:03,299
let you kick off then with your initial

111
00:04:06,949 --> 00:04:04,799
thoughts before we choose some of the

112
00:04:09,289 --> 00:04:06,959
details and numbers out of it

113
00:04:12,530 --> 00:04:09,299

yeah I mean ultimately I agree with you

114

00:04:15,350 --> 00:04:12,540

this this is the report that the uaptf

115

00:04:17,569 --> 00:04:15,360

or aimsog should have submitted

116

00:04:19,430 --> 00:04:17,579

as like their last thing before being

117

00:04:21,289 --> 00:04:19,440

dissolved and turning into Arrow arrow

118

00:04:23,090 --> 00:04:21,299

is a new thing or at least they're

119

00:04:24,710 --> 00:04:23,100

selling it that way you know was an

120

00:04:26,210 --> 00:04:24,720

operational until kind of late in the

121

00:04:28,909 --> 00:04:26,220

years so

122

00:04:32,030 --> 00:04:28,919

they've essentially handed in someone

123

00:04:33,890 --> 00:04:32,040

else's late group homework here so it

124

00:04:37,430 --> 00:04:33,900

contains a really kind of minimal amount

125

00:04:40,790 --> 00:04:37,440

of information but it's it's wiping the

126
00:04:42,770 --> 00:04:40,800
Slate clean and I I get a sense of you

127
00:04:44,629 --> 00:04:42,780
know let's get this over with let's just

128
00:04:46,730 --> 00:04:44,639
fulfill the requirements from the last

129
00:04:48,710 --> 00:04:46,740
ndaa not this new one with the

130
00:04:50,330 --> 00:04:48,720
Whistleblower stuff and just get that

131
00:04:52,189 --> 00:04:50,340
out of the way and then we can focus on

132
00:04:53,930 --> 00:04:52,199
what we're doing and focus on the next

133
00:04:56,629 --> 00:04:53,940
report that that's what came across to

134
00:04:58,249 --> 00:04:56,639
me here yeah and the way I looked at it

135
00:05:00,170 --> 00:04:58,259
eventually last night is I kind of saw

136
00:05:01,430 --> 00:05:00,180
people going back and forward online and

137
00:05:03,290 --> 00:05:01,440
seeing the frustrations and people

138
00:05:04,790 --> 00:05:03,300

messed me I had voice notes from

139

00:05:07,310 --> 00:05:04,800

listeners I was getting emails from

140

00:05:09,409 --> 00:05:07,320

people DMs with a lot of different

141

00:05:11,090 --> 00:05:09,419

different opinions largely airing on the

142

00:05:14,090 --> 00:05:11,100

frustrated side was

143

00:05:17,030 --> 00:05:14,100

it was the same thing it was almost the

144

00:05:17,990 --> 00:05:17,040

the outline of a report which we already

145

00:05:19,490 --> 00:05:18,000

had

146

00:05:20,930 --> 00:05:19,500

to say this is what we should be doing

147

00:05:22,969 --> 00:05:20,940

and it's like yeah we knew that from

148

00:05:24,529 --> 00:05:22,979

last time but it's a different team

149

00:05:26,870 --> 00:05:24,539

that's been put together

150

00:05:29,930 --> 00:05:26,880

I don't know Dan do you know did they

151
00:05:32,570 --> 00:05:29,940
have the same less or more time than

152
00:05:34,670 --> 00:05:32,580
Travis Taylor who put together the last

153
00:05:37,550 --> 00:05:34,680
task force report

154
00:05:39,230 --> 00:05:37,560
I I would say last time because this

155
00:05:40,730 --> 00:05:39,240
office is you know it's understaffed

156
00:05:42,230 --> 00:05:40,740
underfunded they're just kind of get

157
00:05:44,570 --> 00:05:42,240
enrolling and getting all their eggs in

158
00:05:46,310 --> 00:05:44,580
a row so yeah I would say less time the

159
00:05:50,810 --> 00:05:46,320
the only date that's referenced in the

160
00:05:52,550 --> 00:05:50,820
document is the dates of uh you know the

161
00:05:54,409 --> 00:05:52,560
the database that they have how many UAP

162
00:05:56,930 --> 00:05:54,419
incidents and that was the 30th of

163
00:05:59,510 --> 00:05:56,940

August so I assumed that was kind of the

164

00:06:01,070 --> 00:05:59,520

cut off for them uh you know when

165

00:06:03,230 --> 00:06:01,080

everything since then was he in the next

166

00:06:05,330 --> 00:06:03,240

report do you want a horrendous analogy

167

00:06:07,730 --> 00:06:05,340

for this that's just came to mind go on

168

00:06:09,590 --> 00:06:07,740

it's a it's a oh God this is about a

169

00:06:12,050 --> 00:06:09,600

couple of weeks out a date as well but I

170

00:06:14,930 --> 00:06:12,060

don't know why this is a little bit like

171

00:06:17,029 --> 00:06:14,940

taking over a Christmas tree farm

172

00:06:19,790 --> 00:06:17,039

in the middle of the year

173

00:06:22,010 --> 00:06:19,800

but you really had to be farming the

174

00:06:24,290 --> 00:06:22,020

Christmas trees from January

175

00:06:26,570 --> 00:06:24,300

and now that it's June you've planted

176

00:06:28,249 --> 00:06:26,580

all the trees and all the customers have

177

00:06:30,409 --> 00:06:28,259

arrived in December to get the Christmas

178

00:06:32,210 --> 00:06:30,419

trees and they've all just kind of

179

00:06:33,409 --> 00:06:32,220

started blooming and not really fully

180

00:06:36,290 --> 00:06:33,419

grown yet

181

00:06:38,390 --> 00:06:36,300

and they it needed more time and you

182

00:06:40,550 --> 00:06:38,400

should have probably just left it to the

183

00:06:43,309 --> 00:06:40,560

following year but you went ahead and

184

00:06:46,790 --> 00:06:43,319

sold the trees anyway

185

00:06:49,070 --> 00:06:46,800

yeah and and add to that though and all

186

00:06:51,610 --> 00:06:49,080

the trees as well no appreciation for

187

00:06:54,230 --> 00:06:51,620

that one thanks Dad

188

00:06:56,330 --> 00:06:54,240

not one of my stronger efforts but yeah

189

00:06:57,710 --> 00:06:56,340

it's for the love of God I don't know

190

00:07:00,170 --> 00:06:57,720

why that came tonight

191

00:07:01,850 --> 00:07:00,180

um Christmas tree food yeah it's a good

192

00:07:03,230 --> 00:07:01,860

one and it's a thematically correct one

193

00:07:04,670 --> 00:07:03,240

as well you know everyone's kind of

194

00:07:06,050 --> 00:07:04,680

yelling for the report they had to give

195

00:07:08,210 --> 00:07:06,060

something in

196

00:07:09,950 --> 00:07:08,220

um it feels almost like one step forward

197

00:07:12,409 --> 00:07:09,960

two steps back because right like you

198

00:07:14,930 --> 00:07:12,419

say yeah okay so you say they're done

199

00:07:16,610 --> 00:07:14,940

that they had to get something in so it

200

00:07:18,830 --> 00:07:16,620

was it was mandated that they had to do

201
00:07:20,870 --> 00:07:18,840
it it was late but there was no there

202
00:07:23,089 --> 00:07:20,880
was no legal requirement as we found out

203
00:07:25,430 --> 00:07:23,099
for to be submitted by that date that

204
00:07:26,629 --> 00:07:25,440
was just the date that was requested I'm

205
00:07:28,010 --> 00:07:26,639
sure there are frustrations in the

206
00:07:31,610 --> 00:07:28,020
background from those who requested that

207
00:07:34,969 --> 00:07:31,620
initially but here we are so

208
00:07:36,770 --> 00:07:34,979
as it is it almost better if there were

209
00:07:38,930 --> 00:07:36,780
no unclassified versions of these

210
00:07:40,610 --> 00:07:38,940
reports first maybe for some people

211
00:07:43,309 --> 00:07:40,620
because then

212
00:07:45,170 --> 00:07:43,319
there wouldn't be this expectation that

213
00:07:47,450 --> 00:07:45,180

there's going to be some kind of Smoking

214

00:07:49,309 --> 00:07:47,460

Gun evidence in one of these reports and

215

00:07:51,170 --> 00:07:49,319

the way I put it yesterday was it's a

216

00:07:53,629 --> 00:07:51,180

little bit like

217

00:07:55,370 --> 00:07:53,639

hearing a new documentaries coming out

218

00:07:58,010 --> 00:07:55,380

and waiting months and months for the

219

00:08:00,170 --> 00:07:58,020

documentary and when it gets released

220

00:08:02,629 --> 00:08:00,180

finding there's no Smoking Gun footage

221

00:08:04,670 --> 00:08:02,639

that proves conclusively there's alien

222

00:08:06,409 --> 00:08:04,680

life in the galaxy

223

00:08:08,570 --> 00:08:06,419

you're not going to get that and same

224

00:08:10,070 --> 00:08:08,580

skin walker Ranch you're not going to

225

00:08:12,110 --> 00:08:10,080

see the new series of Skinwalker Ranch

226

00:08:15,350 --> 00:08:12,120

and see an episode that conclusively

227

00:08:17,029 --> 00:08:15,360

proves there's a non-human intelligence

228

00:08:18,529 --> 00:08:17,039

because it's not going to happen that

229

00:08:21,350 --> 00:08:18,539

kind of stuff will be a big announcement

230

00:08:24,409 --> 00:08:21,360

online it won't be held back it'll be

231

00:08:26,450 --> 00:08:24,419

press conferences so it's it's similar

232

00:08:27,890 --> 00:08:26,460

there wasn't it to expect that from this

233

00:08:30,469 --> 00:08:27,900

report

234

00:08:32,329 --> 00:08:30,479

yeah I would say so um you know if we

235

00:08:34,250 --> 00:08:32,339

found evidence of ET we'd be looking at

236

00:08:36,170 --> 00:08:34,260

like a NASA announcement European Space

237

00:08:38,690 --> 00:08:36,180

Agency you know it would be a whole kind

238

00:08:40,190 --> 00:08:38,700

of it would be a big deal you're not

239

00:08:41,870 --> 00:08:40,200

going to get that in a little PDF report

240

00:08:42,889 --> 00:08:41,880

released on a website three months late

241

00:08:44,810 --> 00:08:42,899

you know

242

00:08:46,490 --> 00:08:44,820

um there's gonna be a deeper analysis

243

00:08:48,110 --> 00:08:46,500

whether you would get the data and

244

00:08:50,090 --> 00:08:48,120

everything like that

245

00:08:51,949 --> 00:08:50,100

um this is essentially I mean you could

246

00:08:53,750 --> 00:08:51,959

see it right like two of the pages in

247

00:08:56,150 --> 00:08:53,760

this report literally list the

248

00:08:58,670 --> 00:08:56,160

requirements from the ndaa It quotes the

249

00:09:00,110 --> 00:08:58,680

ndaa and it says you wanted this and

250

00:09:02,150 --> 00:09:00,120

we've satisfied this here you wanted

251
00:09:04,070 --> 00:09:02,160
this we've satisfied this here there

252
00:09:05,870 --> 00:09:04,080
were a few things left out but those few

253
00:09:07,670 --> 00:09:05,880
things left out were things like nuclear

254
00:09:09,949 --> 00:09:07,680
relations which is classified so that

255
00:09:11,630 --> 00:09:09,959
would be in the classified portion

256
00:09:15,530 --> 00:09:11,640
um so yeah I mean they fulfill their

257
00:09:18,230 --> 00:09:15,540
remit if if anything this shows that the

258
00:09:19,970 --> 00:09:18,240
ndaa this year the further empowers

259
00:09:22,430 --> 00:09:19,980
Arrow to kind of get data and

260
00:09:24,590 --> 00:09:22,440
collaborate and so on so forth was much

261
00:09:26,150 --> 00:09:24,600
needed and and that the next report as

262
00:09:28,790 --> 00:09:26,160
you said should be a little more

263
00:09:30,410 --> 00:09:28,800

enlightening and the report as for the

264

00:09:33,050 --> 00:09:30,420

public is it this is just the

265

00:09:36,050 --> 00:09:33,060

unclassified version that the public can

266

00:09:38,030 --> 00:09:36,060

access which is is again frustrating in

267

00:09:39,829 --> 00:09:38,040

its own way that there's an expectation

268

00:09:41,930 --> 00:09:39,839

that comes around it as if this is

269

00:09:43,310 --> 00:09:41,940

written for the people and it's not and

270

00:09:44,690 --> 00:09:43,320

it's not even for understand because we

271

00:09:46,610 --> 00:09:44,700

are not we're not American citizens

272

00:09:50,509 --> 00:09:46,620

we're not American taxpayers we are you

273

00:09:52,190 --> 00:09:50,519

know so I get why someone who's American

274

00:09:54,230 --> 00:09:52,200

is allowed to be for more frustrated

275

00:09:55,610 --> 00:09:54,240

than us because it's it's their

276

00:09:58,550 --> 00:09:55,620

government and it's their funding it's

277

00:10:00,769 --> 00:09:58,560

their tax dollars they say so it was 11

278

00:10:02,870 --> 00:10:00,779

pages but the first page was the front

279

00:10:04,550 --> 00:10:02,880

cover the second page was a table of

280

00:10:06,829 --> 00:10:04,560

contents and in the final three pages

281

00:10:09,710 --> 00:10:06,839

where the appendix so really there was

282

00:10:11,990 --> 00:10:09,720

what six pages that were the body of the

283

00:10:14,090 --> 00:10:12,000

report and it's again fair to see a lot

284

00:10:16,550 --> 00:10:14,100

of the languages just telling you what

285

00:10:18,530 --> 00:10:16,560

the remit was and let's dig into some of

286

00:10:19,970 --> 00:10:18,540

the the interests and stuff though um I

287

00:10:20,690 --> 00:10:19,980

thought what stood out straight away for

288

00:10:22,310 --> 00:10:20,700

me

289

00:10:24,410 --> 00:10:22,320

um this might not be completely in order

290

00:10:26,870 --> 00:10:24,420

but what I've got is that reporting has

291

00:10:30,230 --> 00:10:26,880

increased and this is down to two things

292

00:10:33,350 --> 00:10:30,240

largely that the increased awareness of

293

00:10:36,050 --> 00:10:33,360

threats of UAP that it could be either a

294

00:10:40,090 --> 00:10:36,060

flight risk or adversarial technology

295

00:10:43,190 --> 00:10:40,100

and also that are just stigma amongst

296

00:10:45,650 --> 00:10:43,200

those Personnel reporting essentially

297

00:10:48,470 --> 00:10:45,660

they can talk about UFOs without being

298

00:10:51,889 --> 00:10:48,480

laughed at now so more pilots and

299

00:10:53,990 --> 00:10:51,899

Personnel are free to submit reports and

300

00:10:56,870 --> 00:10:54,000

that wasn't happening in the past

301
00:10:59,569 --> 00:10:56,880
which is kind of huge right like even we

302
00:11:01,370 --> 00:10:59,579
talk about I I've heard the phrase

303
00:11:02,449 --> 00:11:01,380
nothing Burger probably like 50 times in

304
00:11:05,329 --> 00:11:02,459
the past day

305
00:11:07,430 --> 00:11:05,339
but just that alone the people are

306
00:11:08,930 --> 00:11:07,440
starting to feel like they can they can

307
00:11:11,030 --> 00:11:08,940
actually report this stuff without being

308
00:11:13,430 --> 00:11:11,040
laughed at is is huge there's official

309
00:11:14,630 --> 00:11:13,440
channels for this to be reported now

310
00:11:16,790 --> 00:11:14,640
um you know even if you think this is

311
00:11:18,230 --> 00:11:16,800
Blue Book 2.0 or something

312
00:11:20,630 --> 00:11:18,240
um it's still happening we're still in

313
00:11:22,130 --> 00:11:20,640

the modern day of communication you know

314

00:11:24,110 --> 00:11:22,140

we can hold these people to account a

315

00:11:26,030 --> 00:11:24,120

little better than we could back then so

316

00:11:27,250 --> 00:11:26,040

it's real interesting and a real step

317

00:11:29,870 --> 00:11:27,260

forward

318

00:11:32,990 --> 00:11:29,880

for me the next part that was

319

00:11:35,389 --> 00:11:33,000

interesting was the list of departments

320

00:11:37,790 --> 00:11:35,399

and organizations which

321

00:11:41,030 --> 00:11:37,800

there was input from to make the report

322

00:11:42,829 --> 00:11:41,040

however the what the input was from

323

00:11:46,009 --> 00:11:42,839

these organizations or departments isn't

324

00:11:49,009 --> 00:11:46,019

listed but you have the DIA the nro the

325

00:11:50,690 --> 00:11:49,019

NGA the NSA NASA will be a standout to

326

00:11:52,490 --> 00:11:50,700

folks the department of energy will be a

327

00:11:54,110 --> 00:11:52,500

standout to folks then of course the

328

00:11:56,150 --> 00:11:54,120

other branches of the military which are

329

00:11:56,990 --> 00:11:56,160

involved in including some more

330

00:11:59,210 --> 00:11:57,000

um

331

00:12:00,530 --> 00:11:59,220

they are forces listed but again that

332

00:12:02,509 --> 00:12:00,540

could literally be because they're an

333

00:12:04,730 --> 00:12:02,519

Air Force personnel who submitted

334

00:12:06,530 --> 00:12:04,740

reports so they are forced listed as

335

00:12:08,449 --> 00:12:06,540

giving input that's not to say they're

336

00:12:10,550 --> 00:12:08,459

suddenly all on board so that's not one

337

00:12:13,250 --> 00:12:10,560

we can disseminate too much from but

338

00:12:15,650 --> 00:12:13,260

there was a whole host of departments

339

00:12:17,329 --> 00:12:15,660

from which data was drawn which we can

340

00:12:18,650 --> 00:12:17,339

we can take from that

341

00:12:19,910 --> 00:12:18,660

um and again when you think of it

342

00:12:22,250 --> 00:12:19,920

they've had six months to put that

343

00:12:25,130 --> 00:12:22,260

together that's a hell of a lot to go

344

00:12:27,650 --> 00:12:25,140

around and then take data from request

345

00:12:29,990 --> 00:12:27,660

data look through the data collate it

346

00:12:31,970 --> 00:12:30,000

you know and again it sounds like I'm

347

00:12:34,250 --> 00:12:31,980

sympathizing with them here but I am

348

00:12:35,690 --> 00:12:34,260

just going to and in General Life folks

349

00:12:38,150 --> 00:12:35,700

I had a lot of people to be realistic

350

00:12:39,710 --> 00:12:38,160

yeah I get I was told last night that um

351

00:12:41,269 --> 00:12:39,720

I look always look at things half full

352

00:12:43,009 --> 00:12:41,279

and if it comes across that way in the

353

00:12:44,509 --> 00:12:43,019

podcast fair enough

354

00:12:46,129 --> 00:12:44,519

um I mean then I'll tell you I can be

355

00:12:48,110 --> 00:12:46,139

relatively negative at the best of times

356

00:12:49,310 --> 00:12:48,120

so I was going to say the other day you

357

00:12:51,110 --> 00:12:49,320

were only telling me that so it's funny

358

00:12:53,509 --> 00:12:51,120

that someone said oh yeah it's like I'm

359

00:12:56,030 --> 00:12:53,519

not that bigussly at all so normally I'd

360

00:12:59,389 --> 00:12:56,040

be all in and attacking them I just

361

00:13:00,889 --> 00:12:59,399

think or 4K for this one because it's a

362

00:13:02,389 --> 00:13:00,899

new team submitting the report you

363

00:13:04,670 --> 00:13:02,399

almost have to forget the task force

364

00:13:07,190 --> 00:13:04,680

report but the really the pressure's on

365

00:13:09,769 --> 00:13:07,200

for the next one to have something more

366

00:13:11,629 --> 00:13:09,779

substantive or what I really hope and

367

00:13:13,610 --> 00:13:11,639

this is I'm kind of looking at the the

368

00:13:15,410 --> 00:13:13,620

background of these reports I'm

369

00:13:17,449 --> 00:13:15,420

disappointed from the last time that

370

00:13:19,129 --> 00:13:17,459

nothing leaked I thought we might have

371

00:13:21,430 --> 00:13:19,139

had something from your Warner your

372

00:13:24,050 --> 00:13:21,440

Rubios your Jilla brands

373

00:13:25,310 --> 00:13:24,060

silently or secretly getting some

374

00:13:27,170 --> 00:13:25,320

information out I mean we just never

375

00:13:29,269 --> 00:13:27,180

heard anything more so I was kind of

376

00:13:30,829 --> 00:13:29,279

hoping maybe that would come from it and

377

00:13:32,930 --> 00:13:30,839

the more people get involved in the more

378

00:13:34,009 --> 00:13:32,940

potential funding in there is that fair

379

00:13:36,170 --> 00:13:34,019

enough

380

00:13:38,870 --> 00:13:36,180

yeah yeah for sure and and I'd love to

381

00:13:40,310 --> 00:13:38,880

see people talk about that that

382

00:13:42,470 --> 00:13:40,320

um classified version and a bit more

383

00:13:44,629 --> 00:13:42,480

about it because it seems to suggest in

384

00:13:47,090 --> 00:13:44,639

this that they've specified things like

385

00:13:48,410 --> 00:13:47,100

speed trajectory altitude you know all

386

00:13:49,790 --> 00:13:48,420

these kind of things things that we

387

00:13:51,829 --> 00:13:49,800

would love to know

388

00:13:53,930 --> 00:13:51,839

um we're still not seeing shapes and

389

00:13:55,910 --> 00:13:53,940

that's a fairly basic thing right

390

00:13:57,230 --> 00:13:55,920

um but there must be a giveaway there

391

00:13:59,269 --> 00:13:57,240

whether it's

392

00:14:00,829 --> 00:13:59,279

that they don't want no China to know

393

00:14:02,509 --> 00:14:00,839

that they know what China's drones look

394

00:14:04,970 --> 00:14:02,519

like or that they don't want to say hey

395

00:14:06,769 --> 00:14:04,980

we're seeing sources in uh training

396

00:14:08,210 --> 00:14:06,779

ranges and then people will you know

397

00:14:09,650 --> 00:14:08,220

their heads will explode

398

00:14:12,110 --> 00:14:09,660

um they seem to be holding back on that

399

00:14:14,210 --> 00:14:12,120

front for some reason yes what are the

400

00:14:15,710 --> 00:14:14,220

numbers that then first comes up is and

401
00:14:17,329 --> 00:14:15,720
this is something we can have seen on

402
00:14:19,490 --> 00:14:17,339
the reports going back to Julian Barnes

403
00:14:20,750 --> 00:14:19,500
New York Times article of which that was

404
00:14:23,269 --> 00:14:20,760
accurate and

405
00:14:25,069 --> 00:14:23,279
I don't think many folks actually denied

406
00:14:26,810 --> 00:14:25,079
it was accurate at the time it was just

407
00:14:28,910 --> 00:14:26,820
more the the narrative Julian Barnes

408
00:14:31,190 --> 00:14:28,920
chose to go down and this kind of comes

409
00:14:32,810 --> 00:14:31,200
across and interestingly the mainstream

410
00:14:35,150 --> 00:14:32,820
media who's picked up on the story today

411
00:14:37,610 --> 00:14:35,160
as you would expect it's pretty split on

412
00:14:40,550 --> 00:14:37,620
how they're reporting it either half the

413
00:14:42,290 --> 00:14:40,560

reports are completely unremarkable and

414

00:14:45,350 --> 00:14:42,300

that proves there's no sign of anything

415

00:14:48,590 --> 00:14:45,360

non-human other news agencies have

416

00:14:50,590 --> 00:14:48,600

picked up and go with almost half of

417

00:14:53,030 --> 00:14:50,600

reports submitted display

418

00:14:54,410 --> 00:14:53,040

characteristics are quite unique etc etc

419

00:14:57,650 --> 00:14:54,420

so they seem quite split how the

420

00:14:59,870 --> 00:14:57,660

reporting it was 53 unremarkable 47

421

00:15:02,449 --> 00:14:59,880

remain you know

422

00:15:04,730 --> 00:15:02,459

potentially remarkable or at least as

423

00:15:07,310 --> 00:15:04,740

yet not identified let's be fair of that

424

00:15:09,829 --> 00:15:07,320

47 there's going to be drones clutter

425

00:15:12,110 --> 00:15:09,839

balloons misidentifications and all of

426

00:15:13,970 --> 00:15:12,120

that in there as well but again we'd be

427

00:15:16,850 --> 00:15:13,980

hoping not expecting that some of that

428

00:15:19,189 --> 00:15:16,860

is going to be the the good stuff you

429

00:15:22,189 --> 00:15:19,199

would think

430

00:15:23,870 --> 00:15:22,199

yeah yeah absolutely I just agree with

431

00:15:25,430 --> 00:15:23,880

you on that pretty much yeah numbers

432

00:15:28,730 --> 00:15:25,440

don't lie do they although they do it

433

00:15:31,490 --> 00:15:28,740

sometimes there were 510 reports overall

434

00:15:34,670 --> 00:15:31,500

but this also includes the reports from

435

00:15:39,350 --> 00:15:34,680

the first UAP task force 144

436

00:15:41,329 --> 00:15:39,360

um 366 reports since the last report

437

00:15:42,769 --> 00:15:41,339

um how many days in a leap year if folks

438

00:15:46,370 --> 00:15:42,779

remember my tweet from a few months ago

439

00:15:48,949 --> 00:15:46,380

so yeah 366 reports from the last report

440

00:15:50,569 --> 00:15:48,959

some of those again if I keep saying

441

00:15:52,610 --> 00:15:50,579

that the word report here sorry I hope

442

00:15:55,790 --> 00:15:52,620

you like it in Scottish uh some of those

443

00:15:57,889 --> 00:15:55,800

reports actually predate the the task

444

00:15:59,810 --> 00:15:57,899

force report they just weren't included

445

00:16:02,090 --> 00:15:59,820

because of the date that they were

446

00:16:04,189 --> 00:16:02,100

submitted as well but we never saw any

447

00:16:06,889 --> 00:16:04,199

of the information or breakdown of those

448

00:16:09,110 --> 00:16:06,899

reports anyway in this release so

449

00:16:10,550 --> 00:16:09,120

essentially it was just the numbers I

450

00:16:12,710 --> 00:16:10,560

think that's maybe one of the big things

451
00:16:14,210 --> 00:16:12,720
then it's really disappointed people as

452
00:16:16,189 --> 00:16:14,220
we've been shown that there have been

453
00:16:17,810 --> 00:16:16,199
overwhelming number of Reports look at

454
00:16:19,610 --> 00:16:17,820
all this interesting information that

455
00:16:21,650 --> 00:16:19,620
we've got hold of here in number form

456
00:16:23,449 --> 00:16:21,660
and we'll tell you nothing about any of

457
00:16:26,090 --> 00:16:23,459
them

458
00:16:28,009 --> 00:16:26,100
yeah it the the lack of information is

459
00:16:29,990 --> 00:16:28,019
frustrating because it creates a vacuum

460
00:16:32,030 --> 00:16:30,000
that people fill with speculation you

461
00:16:34,430 --> 00:16:32,040
know this is where transparency could be

462
00:16:35,990 --> 00:16:34,440
an excellent addition uh to the

463
00:16:37,970 --> 00:16:36,000

conversation and I know you know Susan

464

00:16:39,769 --> 00:16:37,980

Goff issued a statement saying that

465

00:16:42,230 --> 00:16:39,779

their dedicated transparency but that's

466

00:16:43,790 --> 00:16:42,240

not what I'm seeing here I'm I'm seeing

467

00:16:45,350 --> 00:16:43,800

like a little bit of transparency and

468

00:16:47,629 --> 00:16:45,360

then like holding cards close to their

469

00:16:49,550 --> 00:16:47,639

chest so it would be great if we could

470

00:16:51,769 --> 00:16:49,560

be you know all treated like adults by

471

00:16:54,769 --> 00:16:51,779

these institutions

472

00:16:57,410 --> 00:16:54,779

Devil's Advocate hat on here Dan but do

473

00:17:00,769 --> 00:16:57,420

you still then understand why

474

00:17:03,230 --> 00:17:00,779

would it okay thinking out loud would it

475

00:17:05,270 --> 00:17:03,240

not be also very questionable if say

476
00:17:09,169 --> 00:17:05,280
this report came out yesterday as it had

477
00:17:11,030 --> 00:17:09,179
late but had a ton of information it was

478
00:17:13,990 --> 00:17:11,040
littered with references to non-human

479
00:17:17,390 --> 00:17:14,000
intelligencies and extraordinary

480
00:17:19,069 --> 00:17:17,400
movements and numbers that was like 20

481
00:17:20,929 --> 00:17:19,079
000 miles per hour underwater things

482
00:17:22,909 --> 00:17:20,939
like that would that not raise alarm

483
00:17:25,490 --> 00:17:22,919
bells in the other way that people would

484
00:17:26,870 --> 00:17:25,500
then be curious why all of a sudden we

485
00:17:28,130 --> 00:17:26,880
had all this information from the

486
00:17:30,770 --> 00:17:28,140
government

487
00:17:32,450 --> 00:17:30,780
yeah yeah you're probably right uh it

488
00:17:35,750 --> 00:17:32,460

would feel like a bit too to be true

489

00:17:38,630 --> 00:17:35,760

right uh so they kind of have to work

490

00:17:41,210 --> 00:17:38,640

with the the lowest common denominator I

491

00:17:42,350 --> 00:17:41,220

guess and just kind of steadily go

492

00:17:44,870 --> 00:17:42,360

forward

493

00:17:47,150 --> 00:17:44,880

um I think this is why we're seeing this

494

00:17:48,650 --> 00:17:47,160

dedication to just stats and numbers you

495

00:17:50,810 --> 00:17:48,660

know like the like you say the numbers

496

00:17:52,730 --> 00:17:50,820

don't lie unfortunately that that kind

497

00:17:54,169 --> 00:17:52,740

of lead was buried in the report that

498

00:17:56,450 --> 00:17:54,179

one line

499

00:17:58,970 --> 00:17:56,460

um that we're all interested in but

500

00:18:00,529 --> 00:17:58,980

those numbers are still there and I

501
00:18:02,930 --> 00:18:00,539
found it curious that they they don't

502
00:18:05,870 --> 00:18:02,940
necessarily use the word solved in this

503
00:18:07,549 --> 00:18:05,880
report they say characterized so they

504
00:18:10,490 --> 00:18:07,559
can look at something and go oh that's

505
00:18:13,250 --> 00:18:10,500
that kind of looks like it's likely cool

506
00:18:14,210 --> 00:18:13,260
will characterize that as a balloon

507
00:18:16,370 --> 00:18:14,220
um

508
00:18:18,470 --> 00:18:16,380
yeah I mean I I would hope that they

509
00:18:20,390 --> 00:18:18,480
will carry on looking at those cases to

510
00:18:22,430 --> 00:18:20,400
not just characterize them but to

511
00:18:24,409 --> 00:18:22,440
actually solve them you know yeah and

512
00:18:27,890 --> 00:18:24,419
the majority of the reports and cases

513
00:18:30,830 --> 00:18:27,900

within that 510 are from Navy and Air

514

00:18:32,810 --> 00:18:30,840

Force aviators and operators which is

515

00:18:34,310 --> 00:18:32,820

going to be pilots and those who are

516

00:18:37,430 --> 00:18:34,320

operating various pieces of equipment

517

00:18:39,350 --> 00:18:37,440

that would potentially pick up signals

518

00:18:40,669 --> 00:18:39,360

or radar that that kind of stuff that

519

00:18:42,230 --> 00:18:40,679

people would be aware of so that's

520

00:18:43,610 --> 00:18:42,240

that's not unexpected that's who you

521

00:18:46,789 --> 00:18:43,620

would expect to be deporting these kind

522

00:18:49,549 --> 00:18:46,799

of sightings anyway this this is like a

523

00:18:51,110 --> 00:18:49,559

thinking of the Julian Bond stuff it's a

524

00:18:54,230 --> 00:18:51,120

really good example of how you use

525

00:18:56,450 --> 00:18:54,240

statistics to skew numbers

526

00:18:58,130 --> 00:18:56,460

um you know here we can say oh yeah you

527

00:19:01,430 --> 00:18:58,140

know there was only one solved out of

528

00:19:04,010 --> 00:19:01,440

144 last year whereas now we've got like

529

00:19:06,950 --> 00:19:04,020

50 sort of isn't that great we've done

530

00:19:10,250 --> 00:19:06,960

better actually no now you've got you

531

00:19:11,990 --> 00:19:10,260

know 170 plus unsolved like this is

532

00:19:13,789 --> 00:19:12,000

worse like yes you're solving a lot of

533

00:19:15,890 --> 00:19:13,799

them but there's there's a lot more here

534

00:19:18,890 --> 00:19:15,900

that are on solved then you initially

535

00:19:21,950 --> 00:19:18,900

kind of said that 75 of Statistics are

536

00:19:23,150 --> 00:19:21,960

made up that's a fact so I always like

537

00:19:25,730 --> 00:19:23,160

that quote because it's just nonsense

538

00:19:27,830 --> 00:19:25,740

isn't it but I love it um interestingly

539

00:19:31,130 --> 00:19:27,840

this report was due on the 31st of

540

00:19:33,770 --> 00:19:31,140

October 2022 that it's supposed to be a

541

00:19:36,529 --> 00:19:33,780

quarterly report isn't it

542

00:19:39,710 --> 00:19:36,539

uh yes so they'll do one per year

543

00:19:42,770 --> 00:19:39,720

unclassified and then classified they'll

544

00:19:44,690 --> 00:19:42,780

do one per quarter to the Committees and

545

00:19:47,390 --> 00:19:44,700

and the officials

546

00:19:49,730 --> 00:19:47,400

does the date still stand though that

547

00:19:52,570 --> 00:19:49,740

the the next quarterly report would then

548

00:19:56,090 --> 00:19:52,580

be due to 31st of January

549

00:19:57,169 --> 00:19:56,100

uh yes it might have shifted slightly I

550

00:19:58,549 --> 00:19:57,179

haven't sat down and worked out the

551
00:20:00,950 --> 00:19:58,559
dates but it might have shifted slightly

552
00:20:02,750 --> 00:20:00,960
since the new Andy AAA was signed in

553
00:20:04,190 --> 00:20:02,760
um but that maintains the same language

554
00:20:06,350 --> 00:20:04,200
so the dates might just stay the same

555
00:20:08,870 --> 00:20:06,360
that's maybe a question for a day Dean

556
00:20:10,490 --> 00:20:08,880
Johnson about the dates does he think

557
00:20:13,090 --> 00:20:10,500
that the dates are potentially going to

558
00:20:15,289 --> 00:20:13,100
going to move on that because

559
00:20:17,750 --> 00:20:15,299
you're looking at the next one being due

560
00:20:20,150 --> 00:20:17,760
then in two or three weeks from from a

561
00:20:21,710 --> 00:20:20,160
classified setting but given it's been

562
00:20:23,810 --> 00:20:21,720
late do the dates even mean anything

563
00:20:25,730 --> 00:20:23,820

anymore is it just going to be a case of

564

00:20:28,070 --> 00:20:25,740

you'll get it roughly every three months

565

00:20:30,470 --> 00:20:28,080

if we can get it done

566

00:20:32,690 --> 00:20:30,480

yeah versus I suppose having two in at

567

00:20:34,970 --> 00:20:32,700

the same time right yeah um I I can say

568

00:20:37,730 --> 00:20:34,980

at the very least the the date of the

569

00:20:39,409 --> 00:20:37,740

unclassified report has changed

570

00:20:41,450 --> 00:20:39,419

um we'll be looking at like the end of

571

00:20:43,669 --> 00:20:41,460

june-ish for that rather than Halloween

572

00:20:45,590 --> 00:20:43,679

this year Dan you might have the exact

573

00:20:47,450 --> 00:20:45,600

language for this handy but one thing I

574

00:20:48,950 --> 00:20:47,460

know that was called out is uh it's

575

00:20:52,130 --> 00:20:48,960

mentioned there are no reported

576
00:20:53,390 --> 00:20:52,140
collisions even though UAP do pose a

577
00:20:57,350 --> 00:20:53,400
Flight Risk

578
00:20:58,730 --> 00:20:57,360
and no reported Health implications I

579
00:21:01,610 --> 00:20:58,740
believe the word thing is is that no

580
00:21:03,289 --> 00:21:01,620
direct Health implications yeah you're

581
00:21:05,150 --> 00:21:03,299
totally right I've got this in my notes

582
00:21:06,770 --> 00:21:05,160
uh regarding health concerns there have

583
00:21:08,630 --> 00:21:06,780
also been no encounters with the UAP

584
00:21:10,430 --> 00:21:08,640
confirmed to contribute directly to

585
00:21:12,190 --> 00:21:10,440
adverse health related effects to The

586
00:21:15,049 --> 00:21:12,200
Observers so

587
00:21:17,570 --> 00:21:15,059
confirmed directly like they're the two

588
00:21:19,730 --> 00:21:17,580

words that I would say I I want to know

589

00:21:21,710 --> 00:21:19,740

okay well what unconfirmed health

590

00:21:23,990 --> 00:21:21,720

conditions are there possibly what

591

00:21:24,890 --> 00:21:24,000

indirect effects on health have there

592

00:21:26,750 --> 00:21:24,900

been

593

00:21:29,810 --> 00:21:26,760

um it sounds like they're not willing to

594

00:21:32,930 --> 00:21:29,820

to commit to UAP having adverse health

595

00:21:34,010 --> 00:21:32,940

effects on observers but I mean there's

596

00:21:35,810 --> 00:21:34,020

certainly something there because

597

00:21:37,610 --> 00:21:35,820

they're using this Weasley language to

598

00:21:40,250 --> 00:21:37,620

kind of get around saying yeah we have

599

00:21:42,049 --> 00:21:40,260

some suspicions you know yeah it's it's

600

00:21:44,029 --> 00:21:42,059

a big Insurance scheme potentially when

601
00:21:45,890 --> 00:21:44,039
that comes up as well and payouts and

602
00:21:47,450 --> 00:21:45,900
we've talked before about back dating

603
00:21:49,970 --> 00:21:47,460
payouts potentially to military

604
00:21:51,350 --> 00:21:49,980
personnel or any anyone who who had an

605
00:21:53,810 --> 00:21:51,360
encounter with one of these things and

606
00:21:55,789 --> 00:21:53,820
wasn't paid out we've heard about rare

607
00:21:57,289 --> 00:21:55,799
forms of cancers and various diseases

608
00:21:59,750 --> 00:21:57,299
that have been picked up potentially

609
00:22:02,090 --> 00:21:59,760
from from an encounter as well going

610
00:22:05,029 --> 00:22:02,100
back decades so that's one that's never

611
00:22:07,549 --> 00:22:05,039
going to again jump out and a report but

612
00:22:09,049 --> 00:22:07,559
I imagine that that shirt you're Gary

613
00:22:10,730 --> 00:22:09,059

Nolans and others who are working on

614

00:22:12,770 --> 00:22:10,740

those sorts of cases they have very much

615

00:22:14,630 --> 00:22:12,780

hinted at speaking and dealing with all

616

00:22:16,909 --> 00:22:14,640

sorts of individuals aren't they

617

00:22:18,470 --> 00:22:16,919

yeah absolutely Gary did confirm on

618

00:22:21,289 --> 00:22:18,480

Twitter that he doesn't know the data

619

00:22:22,730 --> 00:22:21,299

set that arrow is using so it could be a

620

00:22:24,890 --> 00:22:22,740

completely different data set from Gary

621

00:22:27,110 --> 00:22:24,900

and kitcoins work you know

622

00:22:29,810 --> 00:22:27,120

um but you would still expect there to

623

00:22:31,130 --> 00:22:29,820

be some kind of correlation present uh

624

00:22:33,289 --> 00:22:31,140

because this stuff has been just

625

00:22:35,090 --> 00:22:33,299

prevalent for God knows how many decades

626

00:22:36,649 --> 00:22:35,100

now like we know there's an adverse

627

00:22:38,690 --> 00:22:36,659

Health effect it's silly to kind of

628

00:22:40,789 --> 00:22:38,700

dance around it was that anything else

629

00:22:42,710 --> 00:22:40,799

outside of the three summary points

630

00:22:44,390 --> 00:22:42,720

before I get to those that you you found

631

00:22:46,549 --> 00:22:44,400

interesting

632

00:22:49,070 --> 00:22:46,559

uh they mentioned working with allies

633

00:22:50,810 --> 00:22:49,080

and partners uh which makes me just

634

00:22:52,610 --> 00:22:50,820

think where the hell is the UK again you

635

00:22:54,409 --> 00:22:52,620

know we're just silent on it well I

636

00:22:56,330 --> 00:22:54,419

think we are we are animating next week

637

00:22:59,149 --> 00:22:56,340

aren't we down in London about that so

638

00:23:03,289 --> 00:23:01,130

yeah we're going to be skewing the stats

639

00:23:05,570 --> 00:23:03,299

personally for the UK so I'll be I'll be

640

00:23:08,630 --> 00:23:05,580

just raming off statistics that 75 of

641

00:23:13,430 --> 00:23:11,570

uh Gary had a really good um Gary Nolan

642

00:23:16,430 --> 00:23:13,440

that is had a really good summary

643

00:23:18,470 --> 00:23:16,440

comment for the report uh he wrote

644

00:23:22,250 --> 00:23:18,480

that it was almost like someone someone

645

00:23:23,930 --> 00:23:22,260

said write a 2022 UAP Report with as few

646

00:23:25,490 --> 00:23:23,940

specifics as possible as you can and

647

00:23:27,590 --> 00:23:25,500

hide the anomalous findings in a

648

00:23:29,870 --> 00:23:27,600

paragraph as an obtuse reference deep in

649

00:23:32,870 --> 00:23:29,880

the output and that one line that Gary's

650

00:23:35,510 --> 00:23:32,880

referring to is uh some of these and

651
00:23:37,430 --> 00:23:35,520
they were 171 of these uh some of these

652
00:23:38,750 --> 00:23:37,440
uncharacterized UAP appear to have

653
00:23:40,370 --> 00:23:38,760
demonstrated unusual flight

654
00:23:42,049 --> 00:23:40,380
characteristics or performance

655
00:23:44,870 --> 00:23:42,059
capabilities and require further

656
00:23:46,730 --> 00:23:44,880
analysis let's be honest that's what we

657
00:23:49,610 --> 00:23:46,740
want this whole report to be about is

658
00:23:52,010 --> 00:23:49,620
those incidents and Senate Intel

659
00:23:53,750 --> 00:23:52,020
chairman Mark Warner issued a statement

660
00:23:56,750 --> 00:23:53,760
that was essentially kind of speaking

661
00:23:58,190 --> 00:23:56,760
about that uh the last line of which he

662
00:24:00,770 --> 00:23:58,200
said uh

663
00:24:02,870 --> 00:24:00,780

as we work to focus resources on UAP

664

00:24:05,090 --> 00:24:02,880

reports that remain uncharacterized and

665

00:24:07,789 --> 00:24:05,100

unattributed so it's fair to say that

666

00:24:11,270 --> 00:24:07,799

Mark Warner thinks that this year's ndaa

667

00:24:13,610 --> 00:24:11,280

allows Arrow to focus up a bit onto the

668

00:24:15,110 --> 00:24:13,620

things that we we suspect that you know

669

00:24:17,630 --> 00:24:15,120

this whole department is they're looking

670

00:24:19,610 --> 00:24:17,640

at Chris melon as well had an article

671

00:24:21,649 --> 00:24:19,620

which she covered many different aspects

672

00:24:23,810 --> 00:24:21,659

of the report and I think he's he's

673

00:24:24,950 --> 00:24:23,820

relatively positive he's not escaping in

674

00:24:27,230 --> 00:24:24,960

it as he was when he talked about

675

00:24:28,970 --> 00:24:27,240

calling it The Air Force back in back in

676

00:24:31,430 --> 00:24:28,980

March I think last year in his debrief

677

00:24:32,810 --> 00:24:31,440

article and but one that I had to clip

678

00:24:33,890 --> 00:24:32,820

from it that everyone kind of picked up

679

00:24:36,169 --> 00:24:33,900

on was

680

00:24:38,210 --> 00:24:36,179

um Chris melon says and I quote I've

681

00:24:40,190 --> 00:24:38,220

spoken with several credible people who

682

00:24:41,870 --> 00:24:40,200

claim the US has evidence of alien

683

00:24:44,750 --> 00:24:41,880

technology in its possession these are

684

00:24:47,390 --> 00:24:44,760

indeed exciting times so

685

00:24:48,529 --> 00:24:47,400

that's that's a nice little drop in

686

00:24:51,230 --> 00:24:48,539

there from him

687

00:24:53,029 --> 00:24:51,240

from Christopher melon uh saying it like

688

00:24:55,070 --> 00:24:53,039

it is which is always nice to see I know

689

00:24:57,590 --> 00:24:55,080

Stephen Green Street um got he replied

690

00:24:58,970 --> 00:24:57,600

to that and and has said that uh in one

691

00:25:00,230 --> 00:24:58,980

of his previous articles it was likely

692

00:25:01,490 --> 00:25:00,240

Eric Davis

693

00:25:02,810 --> 00:25:01,500

um and I don't doubt that as one of the

694

00:25:04,490 --> 00:25:02,820

individuals Chris melon's probably

695

00:25:06,430 --> 00:25:04,500

talking about but

696

00:25:09,470 --> 00:25:06,440

um just double checking he does say

697

00:25:11,750 --> 00:25:09,480

individuals doesn't he use his Pluto uh

698

00:25:14,029 --> 00:25:11,760

I've spoken with several credible people

699

00:25:15,649 --> 00:25:14,039

so yeah it's not just Eric Davis

700

00:25:17,570 --> 00:25:15,659

um regardless of what your opinions may

701
00:25:18,710 --> 00:25:17,580
or may not be on on Eric I would love to

702
00:25:20,090 --> 00:25:18,720
speak to him at some point I'm sure we

703
00:25:23,750 --> 00:25:20,100
all would but

704
00:25:26,149 --> 00:25:23,760
um the other being uh Louis zondo was

705
00:25:28,010 --> 00:25:26,159
out sending some tweets wasn't he

706
00:25:30,710 --> 00:25:28,020
um he was yeah out of his self-imposed

707
00:25:34,370 --> 00:25:30,720
Exile from from the socials

708
00:25:36,590 --> 00:25:34,380
um and he did mention to a few people uh

709
00:25:39,350 --> 00:25:36,600
that his book and we'll get to that

710
00:25:40,970 --> 00:25:39,360
would hopefully be out by the end of

711
00:25:42,289 --> 00:25:40,980
2023 as well

712
00:25:43,669 --> 00:25:42,299
um I've not seen him comment on the

713
00:25:45,169 --> 00:25:43,679

report as such yet though Dan have you

714

00:25:46,909 --> 00:25:45,179

saw anything

715

00:25:48,110 --> 00:25:46,919

not so much no

716

00:25:51,409 --> 00:25:48,120

um

717

00:25:53,630 --> 00:25:51,419

yeah it would be he's kind of happy that

718

00:25:54,769 --> 00:25:53,640

it's ongoing uh from why I can gather on

719

00:25:56,210 --> 00:25:54,779

Twitter

720

00:25:59,570 --> 00:25:56,220

um you know the efforts are still

721

00:26:01,190 --> 00:25:59,580

happening but yeah I don't think he's he

722

00:26:02,810 --> 00:26:01,200

would have a glow in review otherwise

723

00:26:04,430 --> 00:26:02,820

he'd be on that kind of messaging about

724

00:26:06,110 --> 00:26:04,440

it right yeah sometimes you're about to

725

00:26:07,850 --> 00:26:06,120

hold your tongue if that's the case and

726

00:26:10,070 --> 00:26:07,860

you know what I did think was was nice

727

00:26:11,810 --> 00:26:10,080

was it did try and Buddy the hatchet

728

00:26:14,450 --> 00:26:11,820

with a few people I saw as well which

729

00:26:15,590 --> 00:26:14,460

was again good of him but I think a lot

730

00:26:16,730 --> 00:26:15,600

of people could just do with doing that

731

00:26:19,130 --> 00:26:16,740

that she didn't say do you know what

732

00:26:21,049 --> 00:26:19,140

let's just forget about let bygones be

733

00:26:23,029 --> 00:26:21,059

bygones let's move on past the arguing

734

00:26:25,549 --> 00:26:23,039

and the pettiness and and just enjoy the

735

00:26:26,930 --> 00:26:25,559

UFO topic for what it is because I'm

736

00:26:27,890 --> 00:26:26,940

sure it'll be an interesting year ahead

737

00:26:29,090 --> 00:26:27,900

and that's what we're going to talk

738

00:26:30,350 --> 00:26:29,100

about in this next half of the show

739

00:26:32,330 --> 00:26:30,360

aren't we done

740

00:26:34,010 --> 00:26:32,340

um yeah but yeah it's not worth the

741

00:26:36,230 --> 00:26:34,020

hassle the fighting and the the stuff

742

00:26:37,490 --> 00:26:36,240

online use the mute button spellingly

743

00:26:39,950 --> 00:26:37,500

folks

744

00:26:43,029 --> 00:26:39,960

um and and let's be honest like even if

745

00:26:45,710 --> 00:26:43,039

you spend 15 hours convincing Richard

746

00:26:46,789 --> 00:26:45,720

44125 that there's something anomalous

747

00:26:48,590 --> 00:26:46,799

like you're probably not going to change

748

00:26:51,409 --> 00:26:48,600

their mind and stuff like that it's just

749

00:26:53,510 --> 00:26:51,419

it's a bit fruitless to spend all your

750

00:26:55,430 --> 00:26:53,520

energy uh just arguing with people

751
00:26:56,570 --> 00:26:55,440
online about this stuff yeah right sure

752
00:26:58,610 --> 00:26:56,580
there are bigger things happen Richard

753
00:27:00,649 --> 00:26:58,620
four four one two five isn't isn't that

754
00:27:02,870 --> 00:27:00,659
great a guy but uh four four one two six

755
00:27:04,690 --> 00:27:02,880
is a long time patreon so thank you one

756
00:27:07,310 --> 00:27:04,700
two sixes oh yeah

757
00:27:09,289 --> 00:27:07,320
it goes without seeing um there was a

758
00:27:11,930 --> 00:27:09,299
quick summary at the end and the

759
00:27:13,970 --> 00:27:11,940
headlines from those are UAP continue to

760
00:27:16,610 --> 00:27:13,980
represent a hazard to flight safety and

761
00:27:19,789 --> 00:27:16,620
pose a possible adversario or adversary

762
00:27:21,769 --> 00:27:19,799
Collective Collective threat Arrow has

763
00:27:24,470 --> 00:27:21,779

been established as the dod focal point

764

00:27:27,110 --> 00:27:24,480

for UAP which we know and coordinated

765

00:27:28,970 --> 00:27:27,120

efforts between the dod the intelligence

766

00:27:31,310 --> 00:27:28,980

community and other government agencies

767

00:27:33,830 --> 00:27:31,320

to collect and report on UAP events have

768

00:27:36,169 --> 00:27:33,840

resulted in increased data sets spanning

769

00:27:38,450 --> 00:27:36,179

multiple security domains

770

00:27:40,730 --> 00:27:38,460

my my kind of final thought in closing

771

00:27:44,090 --> 00:27:40,740

kind of statement on it Dan is that what

772

00:27:46,430 --> 00:27:44,100

we need now is consistency in the regime

773

00:27:49,130 --> 00:27:46,440

that's going to be looking after this we

774

00:27:51,649 --> 00:27:49,140

need uh we need Dr Sean Kirkpatrick

775

00:27:53,269 --> 00:27:51,659

regardless of what people again may

776

00:27:54,830 --> 00:27:53,279

think or know of them but we don't know

777

00:27:55,490 --> 00:27:54,840

all that much

778

00:27:57,409 --> 00:27:55,500

um

779

00:27:58,549 --> 00:27:57,419

we need time to to make sure he's the

780

00:28:00,890 --> 00:27:58,559

person that does lead this through the

781

00:28:02,269 --> 00:28:00,900

next year we need consistency we need

782

00:28:03,710 --> 00:28:02,279

the same people involved they could

783

00:28:06,649 --> 00:28:03,720

probably do us some more funding no

784

00:28:08,330 --> 00:28:06,659

doubt but the next reports have to have

785

00:28:09,890 --> 00:28:08,340

the same people investigating otherwise

786

00:28:12,049 --> 00:28:09,900

what we're going to get if there's a

787

00:28:14,390 --> 00:28:12,059

change in Personnel for the love of God

788

00:28:16,310 --> 00:28:14,400

hopefully not another name change as you

789

00:28:18,169 --> 00:28:16,320

end up going back to this same report

790

00:28:20,330 --> 00:28:18,179

and the reports become completely

791

00:28:22,430 --> 00:28:20,340

useless and that is when you have to use

792

00:28:24,049 --> 00:28:22,440

the phrase nothing Burger

793

00:28:25,850 --> 00:28:24,059

um because that that would then just be

794

00:28:28,190 --> 00:28:25,860

an utter waste of time to have different

795

00:28:31,190 --> 00:28:28,200

people going back over writing the same

796

00:28:33,169 --> 00:28:31,200

square run reports to say yep we have to

797

00:28:34,789 --> 00:28:33,179

write better reports and we have some

798

00:28:36,350 --> 00:28:34,799

data and we're going to look into it but

799

00:28:39,049 --> 00:28:36,360

then by the next time the next one comes

800

00:28:41,269 --> 00:28:39,059

along you're back to square one

801
00:28:43,970 --> 00:28:41,279
yeah I I would completely agree with

802
00:28:46,010 --> 00:28:43,980
that consistency uh you know people are

803
00:28:47,149 --> 00:28:46,020
not getting complacent with it

804
00:28:49,850 --> 00:28:47,159
um and

805
00:28:52,430 --> 00:28:49,860
next report is going to be outside of

806
00:28:54,169 --> 00:28:52,440
the hands of the the dod and the odni

807
00:28:56,029 --> 00:28:54,179
there so it'll be submitted by this

808
00:28:58,669 --> 00:28:56,039
Equity to defense

809
00:29:00,110 --> 00:28:58,679
um so we should we should see a lot more

810
00:29:01,789 --> 00:29:00,120
kind of

811
00:29:03,529 --> 00:29:01,799
I don't want to say transparency because

812
00:29:05,510 --> 00:29:03,539
people will expect you know pictures of

813
00:29:08,090 --> 00:29:05,520

alien bodies and things like that but a

814

00:29:09,830 --> 00:29:08,100

bit more of a robust report I'll say Dan

815

00:29:12,230 --> 00:29:09,840

knock knock

816

00:29:15,289 --> 00:29:12,240

who's there the year ahead let's let it

817

00:29:16,610 --> 00:29:15,299

in and discuss 2023. uh we're going to

818

00:29:17,810 --> 00:29:16,620

look at some of the stories this was

819

00:29:20,029 --> 00:29:17,820

going to make up the bigger part of the

820

00:29:22,190 --> 00:29:20,039

show but with the oh well should we look

821

00:29:25,310 --> 00:29:22,200

at the slideshow first no

822

00:29:26,930 --> 00:29:25,320

yeah yeah let's go for it uh

823

00:29:29,830 --> 00:29:26,940

I'll leave my joke in when it was but

824

00:29:35,870 --> 00:29:29,840

it's now completely redundant thanks

825

00:29:38,690 --> 00:29:35,880

2020. yeah it's a 2023 20 23 thing yeah

826

00:29:40,549 --> 00:29:38,700

2020 so you stay and go on what is it

827

00:29:42,830 --> 00:29:40,559

what is it is it George Noory says pull

828

00:29:47,350 --> 00:29:42,840

up a chair that are stories to tell yeah

829

00:29:53,810 --> 00:29:51,590

so yeah uh Dr Sean Kirkpatrick director

830

00:29:56,029 --> 00:29:53,820

of Arrow presented to the transportation

831

00:29:58,370 --> 00:29:56,039

research board at the National Academy

832

00:30:00,590 --> 00:29:58,380

of engineering uh last Wednesday on the

833

00:30:02,090 --> 00:30:00,600

11th of January and he gave a report

834

00:30:04,549 --> 00:30:02,100

that was potentially a little more

835

00:30:07,909 --> 00:30:04,559

interesting uh than the UAP report that

836

00:30:10,610 --> 00:30:07,919

was released it seems that when Dr

837

00:30:13,130 --> 00:30:10,620

Kirkpatrick is on his own he's willing

838

00:30:14,269 --> 00:30:13,140

to speak a bit more widely about this

839

00:30:16,310 --> 00:30:14,279

subject

840

00:30:18,049 --> 00:30:16,320

so for example

841

00:30:20,450 --> 00:30:18,059

um in in this

842

00:30:22,850 --> 00:30:20,460

report he built a presentation he

843

00:30:25,730 --> 00:30:22,860

discussed arrows aims their methods what

844

00:30:28,130 --> 00:30:25,740

they hope to achieve he defined UAP as

845

00:30:30,590 --> 00:30:28,140

sources of anomalous spaceborne Airborne

846

00:30:32,750 --> 00:30:30,600

Seaborn or transmedium observations that

847

00:30:35,269 --> 00:30:32,760

are not yet attributable to known actors

848

00:30:38,450 --> 00:30:35,279

or causes which is a bit of a wider

849

00:30:40,610 --> 00:30:38,460

definition that was in the ndaa there

850

00:30:42,110 --> 00:30:40,620

he lists a bunch of vital questions for

851

00:30:44,810 --> 00:30:42,120

the intelligence community and for

852

00:30:46,730 --> 00:30:44,820

science with regard to UAP so they want

853

00:30:48,350 --> 00:30:46,740

to know about the technical behavior and

854

00:30:49,909 --> 00:30:48,360

contextual characteristics of the

855

00:30:52,490 --> 00:30:49,919

phenomena the composition the movement

856

00:30:55,970 --> 00:30:52,500

the capabilities the vulnerabilities the

857

00:30:56,570 --> 00:30:55,980

tech gap between the us and it hazards

858

00:30:58,909 --> 00:30:56,580

um

859

00:31:01,430 --> 00:30:58,919

indications of foreign observation and

860

00:31:03,169 --> 00:31:01,440

reaction to the phenomena too and he

861

00:31:04,490 --> 00:31:03,179

also talks about the disposition of the

862

00:31:06,950 --> 00:31:04,500

phenomena which is interesting because

863

00:31:08,510 --> 00:31:06,960

the disposition usually requires like an

864

00:31:10,130 --> 00:31:08,520

intelligent control you know to feel

865

00:31:12,710 --> 00:31:10,140

whether it's a threat or whether it's

866

00:31:13,669 --> 00:31:12,720

chill out and peaceful and stuff like

867

00:31:15,529 --> 00:31:13,679

that

868

00:31:18,590 --> 00:31:15,539

there's a really interesting line in

869

00:31:20,210 --> 00:31:18,600

there that says the consequence of uaps

870

00:31:22,130 --> 00:31:20,220

in the vicinity of strategic

871

00:31:24,710 --> 00:31:22,140

capabilities is high potentially

872

00:31:26,870 --> 00:31:24,720

threatened and strategic deterrence and

873

00:31:29,210 --> 00:31:26,880

safety of Civil Society he's talking

874

00:31:30,590 --> 00:31:29,220

about nuclear weapons here and he's

875

00:31:32,269 --> 00:31:30,600

doing so vaguely but that's really

876

00:31:33,830 --> 00:31:32,279

interesting that he's actually getting

877

00:31:35,389 --> 00:31:33,840

that in there instead of just leaving it

878

00:31:37,070 --> 00:31:35,399

out entirely because it's it's something

879

00:31:39,049 --> 00:31:37,080

that's highly classified

880

00:31:41,330 --> 00:31:39,059

he highlights that he's worried the

881

00:31:43,850 --> 00:31:41,340

foreign actors will attribute UAP to the

882

00:31:46,010 --> 00:31:43,860

USA technology which is again is really

883

00:31:47,630 --> 00:31:46,020

interesting in and of itself because if

884

00:31:49,070 --> 00:31:47,640

other countries are seeing them and here

885

00:31:51,289 --> 00:31:49,080

he is saying I don't want them to think

886

00:31:52,970 --> 00:31:51,299

that's us who is it there's an

887

00:31:55,490 --> 00:31:52,980

implication there that that could do

888

00:31:57,730 --> 00:31:55,500

some questioning from journalists he

889

00:32:00,169 --> 00:31:57,740

linked to a

890

00:32:02,269 --> 00:32:00,179

1994-2010 because it was updated article

891

00:32:04,610 --> 00:32:02,279

about China calling for international

892

00:32:06,710 --> 00:32:04,620

collaboration which I thought was really

893

00:32:08,870 --> 00:32:06,720

interesting uh you know usually

894

00:32:10,789 --> 00:32:08,880

collaborating with countries like China

895

00:32:12,649 --> 00:32:10,799

who they consider an adversary in many

896

00:32:14,990 --> 00:32:12,659

ways would be off the table but here he

897

00:32:18,230 --> 00:32:15,000

is highlighting that a bunch of

898

00:32:19,909 --> 00:32:18,240

scientists uh had a meeting there and

899

00:32:21,230 --> 00:32:19,919

decided yeah you know we need to get a

900

00:32:24,169 --> 00:32:21,240

worldwide

901
00:32:26,570 --> 00:32:24,179
kind of study on this going

902
00:32:28,010 --> 00:32:26,580
he highlighted that he's interested in

903
00:32:30,590 --> 00:32:28,020
potential Communications and

904
00:32:34,190 --> 00:32:30,600
coordination between UAP which is again

905
00:32:37,490 --> 00:32:34,200
interesting and he he speaks about

906
00:32:39,049 --> 00:32:37,500
what they expect in UAP reports so this

907
00:32:40,850 --> 00:32:39,059
stuff I assume would be in the

908
00:32:42,889 --> 00:32:40,860
classified section for each of these

909
00:32:45,049 --> 00:32:42,899
incidents the hundreds of incidents that

910
00:32:46,730 --> 00:32:45,059
were specified in the report so he'd

911
00:32:49,010 --> 00:32:46,740
want location a description of the

912
00:32:50,630 --> 00:32:49,020
events the advanced capabilities and

913
00:32:53,029 --> 00:32:50,640

characteristics include in the physical

914

00:32:56,570 --> 00:32:53,039

state of whether it's a solid a liquid

915

00:32:58,730 --> 00:32:56,580

or a plasma and that excites me because

916

00:33:01,909 --> 00:32:58,740

there's a lot of connection between

917

00:33:03,710 --> 00:33:01,919

earthlights plasma and UAP and not

918

00:33:05,149 --> 00:33:03,720

necessarily in like a doorway either to

919

00:33:07,370 --> 00:33:05,159

just say oh yeah it's bull lightning but

920

00:33:08,750 --> 00:33:07,380

in a more of a fascinating wow these

921

00:33:10,070 --> 00:33:08,760

things are capable of a lot is that

922

00:33:11,409 --> 00:33:10,080

thought that aimed at me that dull

923

00:33:14,509 --> 00:33:11,419

comment

924

00:33:16,250 --> 00:33:14,519

no not at all

925

00:33:18,710 --> 00:33:16,260

um they want to know if they're under

926
00:33:20,570 --> 00:33:18,720
intelligent control uh they want to know

927
00:33:23,389 --> 00:33:20,580
the UAP performance including the path

928
00:33:25,009 --> 00:33:23,399
trajectory speed altitude lots of

929
00:33:26,750 --> 00:33:25,019
information from The Observers as well

930
00:33:28,909 --> 00:33:26,760
like the effects on the Observer any

931
00:33:30,649 --> 00:33:28,919
other observers who were affected so

932
00:33:32,269 --> 00:33:30,659
this is a lot more intriguing than the

933
00:33:34,310 --> 00:33:32,279
report is because they're essentially

934
00:33:36,409 --> 00:33:34,320
detailing things that

935
00:33:38,029 --> 00:33:36,419
you know we we all want to know this

936
00:33:40,669 --> 00:33:38,039
this is the stuff we want to know like

937
00:33:43,250 --> 00:33:40,679
was there a UAP traveling 30 000 miles

938
00:33:44,930 --> 00:33:43,260

an hour if yes it's probably you know

939

00:33:46,490 --> 00:33:44,940

not Hypersonic if it's doing a right

940

00:33:49,310 --> 00:33:46,500

angle turn if they list that in the

941

00:33:51,350 --> 00:33:49,320

report the gloves are off right

942

00:33:52,370 --> 00:33:51,360

so yeah I mean that that was a really

943

00:33:54,669 --> 00:33:52,380

great

944

00:33:57,830 --> 00:33:54,679

presentation and snuck in there as well

945

00:34:00,169 --> 00:33:57,840

was the new logo for Arrow did you see

946

00:34:02,210 --> 00:34:00,179

this yes I saw the translation as well I

947

00:34:04,130 --> 00:34:02,220

think Ronnie Renee had translated it the

948

00:34:06,049 --> 00:34:04,140

first time when I saw

949

00:34:07,490 --> 00:34:06,059

that's right so I did a bit of a digging

950

00:34:09,290 --> 00:34:07,500

around on this because I was like surely

951
00:34:11,089 --> 00:34:09,300
this can't be like the first place this

952
00:34:14,389 --> 00:34:11,099
this quote popped up

953
00:34:17,149 --> 00:34:14,399
um and uh Marcus Aurelius uh you know

954
00:34:19,070 --> 00:34:17,159
the the old the old philosopher there

955
00:34:21,290 --> 00:34:19,080
um he it's a line that he wrote our life

956
00:34:23,810 --> 00:34:21,300
is what our thoughts may get

957
00:34:25,849 --> 00:34:23,820
um and he was talking about kind of the

958
00:34:29,089 --> 00:34:25,859
the idea of what we see being accurate

959
00:34:32,089 --> 00:34:29,099
because of how we view events is

960
00:34:33,649 --> 00:34:32,099
affected by our personal perspective so

961
00:34:35,690 --> 00:34:33,659
several people can witness an event and

962
00:34:36,950 --> 00:34:35,700
describe it differently since they see

963
00:34:38,389 --> 00:34:36,960

it in different ways because they've

964

00:34:40,129 --> 00:34:38,399

grown up with a different life and a

965

00:34:41,629 --> 00:34:40,139

different attitude so that's kind of

966

00:34:43,129 --> 00:34:41,639

what that's alluding to as opposed to

967

00:34:45,290 --> 00:34:43,139

you know changing the universe with your

968

00:34:48,050 --> 00:34:45,300

Consciousness however that's that's Tom

969

00:34:50,450 --> 00:34:48,060

delong's train of thought isn't it that

970

00:34:53,510 --> 00:34:50,460

you can literally manifest the universe

971

00:34:55,190 --> 00:34:53,520

and reality by by thinking it and that's

972

00:34:57,829 --> 00:34:55,200

what I went with

973

00:34:59,510 --> 00:34:57,839

it made me think of um that Angels

974

00:35:01,190 --> 00:34:59,520

Angels and Airwaves message that they

975

00:35:02,390 --> 00:35:01,200

play at the end of shows and and I just

976
00:35:03,410 --> 00:35:02,400
listed it here because I was going to

977
00:35:05,150 --> 00:35:03,420
read it because I think there's an

978
00:35:07,010 --> 00:35:05,160
interesting possible connection between

979
00:35:08,810 --> 00:35:07,020
the two please do because I think both

980
00:35:12,670 --> 00:35:08,820
the other angels and areas fans listen

981
00:35:18,470 --> 00:35:16,130
I know they're popular

982
00:35:20,870 --> 00:35:18,480
um so basically the context is uh before

983
00:35:23,390 --> 00:35:20,880
the last two songs of the set on some of

984
00:35:24,890 --> 00:35:23,400
the nights during the 2019 tour uh the

985
00:35:26,990 --> 00:35:24,900
lights dimmed in an ethereal sound

986
00:35:28,190 --> 00:35:27,000
invoice kind of emitted from the

987
00:35:30,770 --> 00:35:28,200
speakers

988
00:35:32,030 --> 00:35:30,780

um and this is what it said hello we

989

00:35:33,890 --> 00:35:32,040

would like you to know that you were

990

00:35:35,750 --> 00:35:33,900

part of a grand experiment it is called

991

00:35:37,790 --> 00:35:35,760

Humanity inside of you there is

992

00:35:40,069 --> 00:35:37,800

something called a soul it is one piece

993

00:35:42,410 --> 00:35:40,079

of a unified mind some call this mind

994

00:35:44,870 --> 00:35:42,420

God some call it the source but both are

995

00:35:46,370 --> 00:35:44,880

correct it is light it is pure love it

996

00:35:48,530 --> 00:35:46,380

is each star Born Into the infinite

997

00:35:50,270 --> 00:35:48,540

Blackness of space your soul is an

998

00:35:52,130 --> 00:35:50,280

antenna that allows you to connect to

999

00:35:54,349 --> 00:35:52,140

the light to all that is known and to

1000

00:35:55,910 --> 00:35:54,359

all that will be this connection is the

1001
00:35:57,950 --> 00:35:55,920
strongest during times of pain and

1002
00:36:00,829 --> 00:35:57,960
heartache for this is when we shall

1003
00:36:02,210 --> 00:36:00,839
learn the most during this show your

1004
00:36:04,310 --> 00:36:02,220
minds have synced up to the same

1005
00:36:06,349 --> 00:36:04,320
frequencies to the same electromagnetic

1006
00:36:07,730 --> 00:36:06,359
patterns when we are connected like this

1007
00:36:09,890 --> 00:36:07,740
we can achieve wonders beyond

1008
00:36:12,050 --> 00:36:09,900
imagination we can initiate Miracles

1009
00:36:13,370 --> 00:36:12,060
only then can we experience this

1010
00:36:16,130 --> 00:36:13,380
physical life in the way we were

1011
00:36:17,750 --> 00:36:16,140
intended to as a soul in a physical body

1012
00:36:18,770 --> 00:36:17,760
using these connection to change the

1013
00:36:21,050 --> 00:36:18,780

world

1014

00:36:22,910 --> 00:36:21,060

life from New York it's Saturday night

1015

00:36:26,150 --> 00:36:22,920

yeah

1016

00:36:28,069 --> 00:36:26,160

Dan's opening monologue no you you've

1017

00:36:29,270 --> 00:36:28,079

told me that before and clearly Tom's

1018

00:36:31,310 --> 00:36:29,280

trying to drop in some of the things

1019

00:36:33,290 --> 00:36:31,320

that he's known knows or learned or are

1020

00:36:34,670 --> 00:36:33,300

pieced together and folks should go back

1021

00:36:36,530 --> 00:36:34,680

and check out some of the shows we've

1022

00:36:38,210 --> 00:36:36,540

done on Tom DeLong as a profile that

1023

00:36:40,250 --> 00:36:38,220

we've not went back and finished off yet

1024

00:36:42,710 --> 00:36:40,260

but I'd like to leave that to a later

1025

00:36:45,109 --> 00:36:42,720

point where I think there's Maybe

1026
00:36:46,910 --> 00:36:45,119
maybe more to talk about and and put

1027
00:36:48,890 --> 00:36:46,920
together as a finished piece I think

1028
00:36:51,230 --> 00:36:48,900
we'll see some other Tom this year in

1029
00:36:53,569 --> 00:36:51,240
the media especially as monsters in

1030
00:36:55,370 --> 00:36:53,579
California gets a release I think maybe

1031
00:36:56,630 --> 00:36:55,380
finally we get Tom back out talking a

1032
00:36:57,650 --> 00:36:56,640
little bit more

1033
00:36:59,810 --> 00:36:57,660
um

1034
00:37:01,670 --> 00:36:59,820
and blink are huge as well right like

1035
00:37:03,290 --> 00:37:01,680
they they're enormous

1036
00:37:04,609 --> 00:37:03,300
um judging by the success of the later

1037
00:37:08,290 --> 00:37:04,619
single which has been at the top of the

1038
00:37:10,790 --> 00:37:08,300

charts in the US for like 10 weeks

1039

00:37:12,170 --> 00:37:10,800

alternative charts that's right um but

1040

00:37:14,750 --> 00:37:12,180

yeah they it seems that they're bigger

1041

00:37:16,069 --> 00:37:14,760

than ever and as Tom's traveling the

1042

00:37:17,630 --> 00:37:16,079

world and doing interviews he's going to

1043

00:37:19,670 --> 00:37:17,640

be asked about this stuff and he's going

1044

00:37:21,470 --> 00:37:19,680

to be speaking about it very frankly

1045

00:37:24,770 --> 00:37:21,480

um and it's kind of exciting that he

1046

00:37:27,109 --> 00:37:24,780

maybe isn't around these people with

1047

00:37:30,170 --> 00:37:27,119

um you know classified kind of need to

1048

00:37:32,210 --> 00:37:30,180

know uh clearances because it just means

1049

00:37:34,130 --> 00:37:32,220

that he can speak a bit more freely so

1050

00:37:35,089 --> 00:37:34,140

Dad let's rattle through some of the

1051
00:37:37,670 --> 00:37:35,099
things we're going to look forward to

1052
00:37:39,470 --> 00:37:37,680
then in 2023 okay

1053
00:37:40,730 --> 00:37:39,480
um we'll call some out and then we'll

1054
00:37:42,410 --> 00:37:40,740
just get through them in a kind of quick

1055
00:37:43,970 --> 00:37:42,420
fire type format but is there any kind

1056
00:37:46,790 --> 00:37:43,980
of big ones you'd like to touch on first

1057
00:37:49,190 --> 00:37:46,800
that you think could could make up the

1058
00:37:51,050 --> 00:37:49,200
you know what at the end of 2023 when

1059
00:37:53,030 --> 00:37:51,060
we're doing that highlight show what are

1060
00:37:54,950 --> 00:37:53,040
we going to be talking about

1061
00:37:56,870 --> 00:37:54,960
so I think firstly the big thing for me

1062
00:37:58,490 --> 00:37:56,880
would be Jay Stratton coming out Jay

1063
00:38:01,550 --> 00:37:58,500

Stratton was the the head of the UAP

1064

00:38:03,950 --> 00:38:01,560

task force uh he was involved in OSAP at

1065

00:38:05,990 --> 00:38:03,960

Skinwalker Ranch he's the guy who did

1066

00:38:07,250 --> 00:38:06,000

the initial write-up on the Tic Tac

1067

00:38:08,510 --> 00:38:07,260

event

1068

00:38:11,390 --> 00:38:08,520

um and he loved it because there were

1069

00:38:13,870 --> 00:38:11,400

multiple sensors and so on so forth uh

1070

00:38:17,329 --> 00:38:13,880

he's going to be speaking at alien car

1071

00:38:19,849 --> 00:38:17,339

and and that's in March or uh March 4th

1072

00:38:20,990 --> 00:38:19,859

to fifth in passage I don't know he was

1073

00:38:24,109 --> 00:38:21,000

speaking there

1074

00:38:25,910 --> 00:38:24,119

oh yeah so I mean we've heard for a

1075

00:38:27,950 --> 00:38:25,920

number of years that he will eventually

1076
00:38:29,390 --> 00:38:27,960
come out speaking but yeah it seems this

1077
00:38:31,609 --> 00:38:29,400
year is the year that he's going to come

1078
00:38:33,109 --> 00:38:31,619
out swinging so I'm I think we're going

1079
00:38:35,569 --> 00:38:33,119
to be looking back on a lot of what Jay

1080
00:38:37,310 --> 00:38:35,579
has to say and share with us and you

1081
00:38:39,650 --> 00:38:37,320
know ruminating on it uh just because

1082
00:38:40,550 --> 00:38:39,660
this is the guy that was in the know

1083
00:38:42,770 --> 00:38:40,560
yeah

1084
00:38:45,950 --> 00:38:42,780
um he was basically

1085
00:38:48,109 --> 00:38:45,960
Lou Elizondo before Lou wasn't he and

1086
00:38:55,609 --> 00:38:48,119
that that role is it Lou took over from

1087
00:39:00,589 --> 00:38:57,829
etc etc before anyone starts sending the

1088
00:39:04,210 --> 00:39:00,599

messages but to keep things simple

1089

00:39:07,250 --> 00:39:04,220

boss up then it went to atip potentially

1090

00:39:09,290 --> 00:39:07,260

Lou took over from Jay Stratton so let's

1091

00:39:10,010 --> 00:39:09,300

just yeah leave that one there

1092

00:39:11,870 --> 00:39:10,020

um

1093

00:39:14,690 --> 00:39:11,880

but yeah and just to throw in as well

1094

00:39:16,310 --> 00:39:14,700

Jay Stratton is Axelrod in the book uh

1095

00:39:17,630 --> 00:39:16,320

skinwalkers of the Pentagon so that's

1096

00:39:19,609 --> 00:39:17,640

worth the read because it add little

1097

00:39:22,430 --> 00:39:19,619

tidbits like the following

1098

00:39:24,650 --> 00:39:22,440

um there's a bit where Axelrod uh

1099

00:39:26,810 --> 00:39:24,660

details that his son was woken up by a

1100

00:39:28,670 --> 00:39:26,820

bright light in his room uh his son Paul

1101
00:39:30,829 --> 00:39:28,680
might not be his real name there used in

1102
00:39:33,109 --> 00:39:30,839
the book but uh Paul was kept up all

1103
00:39:35,089 --> 00:39:33,119
night by blue and red orbs swiping at

1104
00:39:37,370 --> 00:39:35,099
him and left these these left like red

1105
00:39:39,290 --> 00:39:37,380
contusions on his body he tried to yell

1106
00:39:41,450 --> 00:39:39,300
but he couldn't he never saw the faces

1107
00:39:42,970 --> 00:39:41,460
of these kind of two or three shadow

1108
00:39:46,250 --> 00:39:42,980
people that were in the room with him

1109
00:39:48,050 --> 00:39:46,260
and Paul is a little bit kind of deaf

1110
00:39:51,050 --> 00:39:48,060
and he said that he could hear these

1111
00:39:52,670 --> 00:39:51,060
shadow figures screaming and when he was

1112
00:39:54,050 --> 00:39:52,680
asked about you know how can we didn't

1113
00:39:56,210 --> 00:39:54,060

hear the screaming he was like oh it

1114

00:39:58,250 --> 00:39:56,220

wasn't audible it was in my mind

1115

00:40:00,470 --> 00:39:58,260

that gives me chills when I say it but

1116

00:40:02,329 --> 00:40:00,480

like there's a lot of weirdness that's

1117

00:40:03,829 --> 00:40:02,339

going to come out with Jay share and his

1118

00:40:05,150 --> 00:40:03,839

story I think yeah that'll be

1119

00:40:07,190 --> 00:40:05,160

interesting to see how much of it he

1120

00:40:09,829 --> 00:40:07,200

wants to go into in detail and listen

1121

00:40:11,569 --> 00:40:09,839

everyone who's got a podcast a blogger

1122

00:40:12,950 --> 00:40:11,579

you know as someone on Twitter is

1123

00:40:14,329 --> 00:40:12,960

tagging them and saying welcome to

1124

00:40:16,310 --> 00:40:14,339

Twitter with the hope that when he

1125

00:40:18,109 --> 00:40:16,320

follows them and two uh that he gives

1126

00:40:19,849 --> 00:40:18,119

him some kind of interview I think it's

1127

00:40:21,710 --> 00:40:19,859

one of those just letting see what it

1128

00:40:24,410 --> 00:40:21,720

what he wants to do but if folks are

1129

00:40:25,910 --> 00:40:24,420

cordial and kind of again appreciate

1130

00:40:28,190 --> 00:40:25,920

what you've got when you have access to

1131

00:40:30,170 --> 00:40:28,200

these types of individuals

1132

00:40:32,150 --> 00:40:30,180

um as much as they carry a form of

1133

00:40:34,010 --> 00:40:32,160

celebrity status as much as they're very

1134

00:40:36,410 --> 00:40:34,020

well known and they've been involved in

1135

00:40:38,150 --> 00:40:36,420

something you want to know more about so

1136

00:40:40,250 --> 00:40:38,160

um hopefully Jay gets himself out there

1137

00:40:42,410 --> 00:40:40,260

at least on a few platforms and again

1138

00:40:44,990 --> 00:40:42,420

for me the bigger the better I I like to

1139

00:40:46,910 --> 00:40:45,000

see these folks on on your rogans of the

1140

00:40:49,730 --> 00:40:46,920

world and Lex Friedman because they hold

1141

00:40:51,170 --> 00:40:49,740

massive audiences and it gets folks

1142

00:40:54,650 --> 00:40:51,180

interested in the subject who maybe

1143

00:40:56,630 --> 00:40:54,660

don't hear my show or Vinnies or Ryan

1144

00:40:59,750 --> 00:40:56,640

Spriggs or The Black Vault you know all

1145

00:41:01,490 --> 00:40:59,760

but again for us it trickles down so any

1146

00:41:03,829 --> 00:41:01,500

news is good news in the UF world like

1147

00:41:05,750 --> 00:41:03,839

that so I I'm hoping like you see Jay

1148

00:41:07,670 --> 00:41:05,760

Stratton comes out and speaks

1149

00:41:09,290 --> 00:41:07,680

um or maybe even sends a tweet since he

1150

00:41:10,910 --> 00:41:09,300

joined Twitter about 14 years ago

1151
00:41:12,710 --> 00:41:10,920
according to his bio

1152
00:41:14,150 --> 00:41:12,720
um but has just locked in the background

1153
00:41:16,849 --> 00:41:14,160
hasn't he

1154
00:41:18,530 --> 00:41:16,859
yeah just just watching this year Dan so

1155
00:41:20,750 --> 00:41:18,540
we've got the report we're expecting

1156
00:41:22,790 --> 00:41:20,760
that there should be several classified

1157
00:41:24,410 --> 00:41:22,800
reports released of which we might hear

1158
00:41:27,410 --> 00:41:24,420
some stuff and there'll be another

1159
00:41:29,510 --> 00:41:27,420
unclassified report due by the 31st of

1160
00:41:32,150 --> 00:41:29,520
October again would that be correct uh

1161
00:41:35,270 --> 00:41:32,160
and end of June end of June oh okay yeah

1162
00:41:37,910 --> 00:41:35,280
um a bit earlier also I'm just rounding

1163
00:41:40,370 --> 00:41:37,920

up politically here uh the potential for

1164

00:41:42,950 --> 00:41:40,380

Congressional hearings with the ndaa

1165

00:41:44,870 --> 00:41:42,960

language allowing for whistleblowers to

1166

00:41:46,310 --> 00:41:44,880

potentially come forward however it's

1167

00:41:48,650 --> 00:41:46,320

got to be said that that would likely be

1168

00:41:50,690 --> 00:41:48,660

in a classified setting again I doubt

1169

00:41:52,910 --> 00:41:50,700

we're going to see a YouTube live stream

1170

00:41:55,310 --> 00:41:52,920

of whistleblowers standing talking about

1171

00:41:56,930 --> 00:41:55,320

special access programs in the middle of

1172

00:41:58,970 --> 00:41:56,940

Senator Congress or whether it might be

1173

00:42:00,109 --> 00:41:58,980

held so but again I think that can only

1174

00:42:02,270 --> 00:42:00,119

be a good thing in the background

1175

00:42:04,670 --> 00:42:02,280

because that's really for me that seems

1176

00:42:07,250 --> 00:42:04,680

the next level up politically to really

1177

00:42:09,890 --> 00:42:07,260

get those folks out and talking

1178

00:42:11,329 --> 00:42:09,900

yeah absolutely along with that I think

1179

00:42:13,130 --> 00:42:11,339

we're going to see some new legislation

1180

00:42:15,530 --> 00:42:13,140

this year closing some of the loopholes

1181

00:42:17,030 --> 00:42:15,540

that are kind of present

1182

00:42:18,470 --> 00:42:17,040

um you know this year was kind of the

1183

00:42:19,790 --> 00:42:18,480

carrot saying hey come forward we can

1184

00:42:21,109 --> 00:42:19,800

protect you next year it's going to be

1185

00:42:22,370 --> 00:42:21,119

hey you didn't come forward we're going

1186

00:42:24,710 --> 00:42:22,380

to start hitting the door down with

1187

00:42:26,210 --> 00:42:24,720

Sticks and Bricks and you know you know

1188

00:42:27,650 --> 00:42:26,220

we we know where these programs are

1189

00:42:30,470 --> 00:42:27,660

because we've been told by some people

1190

00:42:32,329 --> 00:42:30,480

uh it's gonna be interesting to see if

1191

00:42:35,270 --> 00:42:32,339

they get kind of stuck between a rock

1192

00:42:39,170 --> 00:42:35,280

and a hard place in terms of if someone

1193

00:42:41,150 --> 00:42:39,180

reports a you know a an sap uh special

1194

00:42:44,630 --> 00:42:41,160

access program that's off the books to

1195

00:42:47,690 --> 00:42:44,640

Arrow Arrow required to report that to

1196

00:42:49,730 --> 00:42:47,700

Congress within 72 hours so this could

1197

00:42:52,310 --> 00:42:49,740

out a whole load of programs maybe not

1198

00:42:54,829 --> 00:42:52,320

even UAP related uh you know we could

1199

00:42:57,470 --> 00:42:54,839

see a whole bunch of uh well crap people

1200

00:42:59,690 --> 00:42:57,480

let's be fair would we ever actually see

1201
00:43:02,390 --> 00:42:59,700
that because let's just say some special

1202
00:43:04,430 --> 00:43:02,400
access programs are Unearthed by people

1203
00:43:05,630 --> 00:43:04,440
who think they they're aware or know

1204
00:43:07,910 --> 00:43:05,640
something that Congress should know

1205
00:43:09,470 --> 00:43:07,920
about there's still potential surely and

1206
00:43:12,109 --> 00:43:09,480
this is where my political knowledge

1207
00:43:14,270 --> 00:43:12,119
just stops but surely

1208
00:43:16,250 --> 00:43:14,280
if there was stuff that people in the

1209
00:43:18,589 --> 00:43:16,260
Air Force were working on in a small

1210
00:43:20,390 --> 00:43:18,599
subsection small group that they could

1211
00:43:21,650 --> 00:43:20,400
go to Congress and say look we're

1212
00:43:23,870 --> 00:43:21,660
working on something here that should

1213
00:43:26,569 --> 00:43:23,880

not be coming out here is the basic

1214

00:43:27,829 --> 00:43:26,579

reason why due to X Y and Z then you

1215

00:43:29,510 --> 00:43:27,839

don't you don't find out about it

1216

00:43:31,069 --> 00:43:29,520

regardless what it is because it could

1217

00:43:33,170 --> 00:43:31,079

be something regarding nuclear weapons

1218

00:43:34,490 --> 00:43:33,180

nuclear secrets it could be some kind of

1219

00:43:35,750 --> 00:43:34,500

technology that is just nothing to do

1220

00:43:37,670 --> 00:43:35,760

with UFOs

1221

00:43:39,170 --> 00:43:37,680

you know that that kind of stuff still

1222

00:43:41,690 --> 00:43:39,180

isn't going to come out

1223

00:43:43,550 --> 00:43:41,700

yeah exactly what we would see in the

1224

00:43:45,050 --> 00:43:43,560

report something like oh we've received

1225

00:43:47,569 --> 00:43:45,060

several reports through the secure

1226

00:43:48,829 --> 00:43:47,579

system of interesting things and that

1227

00:43:51,410 --> 00:43:48,839

would be it yeah probably you know

1228

00:43:53,030 --> 00:43:51,420

unless someone deems it okay for them to

1229

00:43:55,309 --> 00:43:53,040

talk about in a public setting which is

1230

00:43:56,690 --> 00:43:55,319

all about the executive and Congress and

1231

00:43:58,670 --> 00:43:56,700

you know that's down to the officials

1232

00:44:00,950 --> 00:43:58,680

that are processes in place to clear

1233

00:44:02,150 --> 00:44:00,960

things to talk about publicly but yeah

1234

00:44:05,390 --> 00:44:02,160

you're right it's not it's not

1235

00:44:06,829 --> 00:44:05,400

guaranteed though a slight tease for the

1236

00:44:08,450 --> 00:44:06,839

Chris played interview folks if you've

1237

00:44:10,609 --> 00:44:08,460

not heard it yet uh when this comes out

1238

00:44:11,690 --> 00:44:10,619

on the Early Access listen to it when it

1239

00:44:13,550 --> 00:44:11,700

comes out

1240

00:44:15,950 --> 00:44:13,560

um Chris there was an article about

1241

00:44:18,050 --> 00:44:15,960

potential warp drive

1242

00:44:19,730 --> 00:44:18,060

um I don't know I asked them sorry that

1243

00:44:21,710 --> 00:44:19,740

was separate I asked them was there

1244

00:44:23,329 --> 00:44:21,720

anything he worked on last year that

1245

00:44:25,370 --> 00:44:23,339

didn't come to fruition

1246

00:44:28,250 --> 00:44:25,380

and he said he was trying to get an

1247

00:44:30,470 --> 00:44:28,260

article out that are very very

1248

00:44:33,470 --> 00:44:30,480

mainstream scientist was working with

1249

00:44:35,150 --> 00:44:33,480

some very high energy equipment and

1250

00:44:37,309 --> 00:44:35,160

they've had some extremely interesting

1251

00:44:40,910 --> 00:44:37,319

results where essentially they've

1252

00:44:43,490 --> 00:44:40,920

managed to float items like ping pong

1253

00:44:44,809 --> 00:44:43,500

balls and bits of wood and such and

1254

00:44:47,329 --> 00:44:44,819

Chris said to him you know so

1255

00:44:49,790 --> 00:44:47,339

anti-gravity and apparently they hate

1256

00:44:51,890 --> 00:44:49,800

that term but yes that's that's

1257

00:44:53,870 --> 00:44:51,900

essentially

1258

00:44:56,569 --> 00:44:53,880

scientists seem to like uh you know

1259

00:45:03,730 --> 00:44:56,579

anti-gravity but like a repulsion Force

1260

00:45:08,210 --> 00:45:06,410

that's really exciting um not to see

1261

00:45:09,589 --> 00:45:08,220

that's a special Access program but yeah

1262

00:45:11,329 --> 00:45:09,599

that was something Chris mentioned was

1263

00:45:12,470 --> 00:45:11,339

was kind of relevant so slight teaser

1264

00:45:14,750 --> 00:45:12,480

for that it gives it a little bit more

1265

00:45:15,770 --> 00:45:14,760

detail on it but yeah there's all kinds

1266

00:45:17,630 --> 00:45:15,780

of things that are going to be worked on

1267

00:45:19,550 --> 00:45:17,640

that we're not going to hear about

1268

00:45:20,930 --> 00:45:19,560

um and a lot of even the classified UFO

1269

00:45:22,130 --> 00:45:20,940

stuff isn't going to come out because

1270

00:45:24,589 --> 00:45:22,140

that's the whole point of it being

1271

00:45:26,750 --> 00:45:24,599

classified we might just get some crumbs

1272

00:45:28,849 --> 00:45:26,760

off the back of that which would be good

1273

00:45:30,050 --> 00:45:28,859

doobie then and I suppose this is my

1274

00:45:32,450 --> 00:45:30,060

last one for the political side of

1275

00:45:34,309 --> 00:45:32,460

things Dan do we get any further leaks

1276

00:45:34,990 --> 00:45:34,319

of photos or videos because let's be

1277

00:45:39,410 --> 00:45:35,000

fair

1278

00:45:43,730 --> 00:45:39,420

2022 was pretty lacking in terms of no

1279

00:45:47,630 --> 00:45:45,349

I mean that's a good point I would

1280

00:45:49,550 --> 00:45:47,640

expect I mean Jeremy colbell and judge

1281

00:45:51,109 --> 00:45:49,560

Knapp have have hinted that they're

1282

00:45:54,829 --> 00:45:51,119

about to take the gloves off and kind of

1283

00:45:57,349 --> 00:45:54,839

start talking about the things that

1284

00:45:58,490 --> 00:45:57,359

Sailors and servicemen gave to them in

1285

00:46:01,309 --> 00:45:58,500

interviews when they were talking about

1286

00:46:03,890 --> 00:46:01,319

like the Omaha transmedium uh ball case

1287

00:46:05,569 --> 00:46:03,900

and and things like that so we should

1288

00:46:08,569 --> 00:46:05,579

start hearing a bit more of that

1289

00:46:10,250 --> 00:46:08,579

detail-wise but one thing that it

1290

00:46:12,589 --> 00:46:10,260

probably won't contain photos or videos

1291

00:46:15,170 --> 00:46:12,599

but it will be a huge thing anyway

1292

00:46:16,849 --> 00:46:15,180

um is the the report going all the way

1293

00:46:18,109 --> 00:46:16,859

back to 45

1294

00:46:20,390 --> 00:46:18,119

um looking at the intelligence community

1295

00:46:22,910 --> 00:46:20,400

and government involvement in UAP stuff

1296

00:46:25,190 --> 00:46:22,920

we should expect that this year and that

1297

00:46:26,089 --> 00:46:25,200

will kind of contain hopefully a lot of

1298

00:46:28,010 --> 00:46:26,099

detail

1299

00:46:29,450 --> 00:46:28,020

um but then I can't even guarantee the

1300

00:46:31,190 --> 00:46:29,460

we're gonna see that you know that might

1301

00:46:33,530 --> 00:46:31,200

just be a closed off document I saw

1302

00:46:35,270 --> 00:46:33,540

online a few people mentioning that

1303

00:46:37,670 --> 00:46:35,280

you shouldn't go back to 45 because

1304

00:46:39,470 --> 00:46:37,680

Roswell was 47 but the Trinity case

1305

00:46:41,450 --> 00:46:39,480

which I've got the brick there and

1306

00:46:43,190 --> 00:46:41,460

someone had posted online just copies of

1307

00:46:46,250 --> 00:46:43,200

Trinity this book here going for over

1308

00:46:47,510 --> 00:46:46,260

200 now on Amazon which because of the

1309

00:46:49,069 --> 00:46:47,520

interest in that case which is

1310

00:46:51,790 --> 00:46:49,079

disgusting because I'm selling them for

1311

00:46:54,170 --> 00:46:51,800

150 if anyone wants it

1312

00:46:56,450 --> 00:46:54,180

it means it's a copy that says not for

1313

00:46:58,910 --> 00:46:56,460

resale as well so really special

1314

00:47:01,190 --> 00:46:58,920

um but yeah no that's that's based on uh

1315

00:47:04,010 --> 00:47:01,200

Jacques villain Paola Harris's work on

1316

00:47:06,170 --> 00:47:04,020

the Trinity case from 1945. I think

1317

00:47:08,870 --> 00:47:06,180

you're going to get limited limited

1318

00:47:10,309 --> 00:47:08,880

success or limited data from going back

1319

00:47:12,890 --> 00:47:10,319

that far

1320

00:47:14,390 --> 00:47:12,900

um however oh God I don't want to spoil

1321

00:47:17,210 --> 00:47:14,400

everything in the Chris plane interview

1322

00:47:19,309 --> 00:47:17,220

we talked about the ligo the waves uh

1323

00:47:22,309 --> 00:47:19,319

the ligo measurements being used for

1324

00:47:24,170 --> 00:47:22,319

gravitational waves and I asked them

1325

00:47:26,329 --> 00:47:24,180

could given that's going to be used to

1326

00:47:29,170 --> 00:47:26,339

look out into the Milky Way could we use

1327

00:47:32,510 --> 00:47:29,180

that a lot more locally and for example

1328

00:47:34,430 --> 00:47:32,520

the the Chicago hair event Chicago

1329

00:47:36,470 --> 00:47:34,440

O'Hare event we talked about happened 16

1330

00:47:38,210 --> 00:47:36,480

17 years ago if something like that

1331

00:47:40,430 --> 00:47:38,220

happened could we use those lasers more

1332

00:47:42,530 --> 00:47:40,440

locally and he said he didn't think they

1333

00:47:43,849 --> 00:47:42,540

could use those ones that are set up but

1334

00:47:45,829 --> 00:47:43,859

there is something they're working on

1335

00:47:47,390 --> 00:47:45,839

that it was talking about as well

1336

00:47:49,790 --> 00:47:47,400

and

1337

00:47:52,190 --> 00:47:49,800

that's where I wonder

1338

00:47:55,609 --> 00:47:52,200

looking back I don't think we need to go

1339

00:47:57,410 --> 00:47:55,619

back that far because 2005 2006 even

1340

00:47:59,870 --> 00:47:57,420

going back to 97 with the Phoenix Lights

1341

00:48:01,790 --> 00:47:59,880

we would have had very good satellite

1342

00:48:03,890 --> 00:48:01,800

technology we would have been able to

1343

00:48:06,109 --> 00:48:03,900

the reconnaissance in orbit would have

1344

00:48:07,609 --> 00:48:06,119

been really good still much much better

1345

00:48:09,650 --> 00:48:07,619

than it would have been in the 60s 70s

1346

00:48:11,990 --> 00:48:09,660

80s and such before we had satellites up

1347

00:48:13,970 --> 00:48:12,000

there so surely we could look at what

1348

00:48:16,190 --> 00:48:13,980

was over Chicago at that time

1349

00:48:18,290 --> 00:48:16,200

what did we pick up entering the orbit

1350

00:48:19,309 --> 00:48:18,300

you know again what did we pick up in

1351

00:48:21,890 --> 00:48:19,319

terms of

1352

00:48:23,329 --> 00:48:21,900

ballistic missile uh places on the

1353

00:48:25,309 --> 00:48:23,339

coasts but did they track anything

1354

00:48:27,230 --> 00:48:25,319

leaving the atmosphere going into orbit

1355

00:48:29,210 --> 00:48:27,240

and surely there would be data for those

1356

00:48:31,849 --> 00:48:29,220

events that's as far back as you you

1357

00:48:33,950 --> 00:48:31,859

need to go never mind looking at 1945

1358

00:48:36,290 --> 00:48:33,960

and 1947 because I imagine a lot of that

1359

00:48:37,970 --> 00:48:36,300

stuff's just not going to be there now

1360

00:48:39,950 --> 00:48:37,980

and and that's kind of one of the points

1361

00:48:42,290 --> 00:48:39,960

that Jay Stratton made about the the Tic

1362

00:48:44,210 --> 00:48:42,300

Tac case you know how much data was that

1363

00:48:45,890 --> 00:48:44,220

further than that yeah like so many

1364

00:48:47,270 --> 00:48:45,900

different boat stores so many different

1365

00:48:49,069 --> 00:48:47,280

Personnel it was on so many different

1366

00:48:50,390 --> 00:48:49,079

systems you can really kind of get a

1367

00:48:52,490 --> 00:48:50,400

handle on it

1368

00:48:54,770 --> 00:48:52,500

um I say someone ironically because we

1369

00:48:57,470 --> 00:48:54,780

don't have a handle on it uh but there's

1370

00:48:59,630 --> 00:48:57,480

two handles on the bottom oh yeah that's

1371

00:49:02,630 --> 00:48:59,640

what they are they just pick up things

1372

00:49:04,069 --> 00:49:02,640

um I'm reading a three body problem at

1373

00:49:06,290 --> 00:49:04,079

the moment as I keep saying it's taking

1374

00:49:08,990 --> 00:49:06,300

me a while but they actually make a ship

1375

00:49:10,970 --> 00:49:09,000

in three body problem that can transmit

1376

00:49:12,890 --> 00:49:10,980

gravitational waves and it is a perfect

1377

00:49:14,510 --> 00:49:12,900

Tic Tac shape which I thought was was

1378

00:49:17,930 --> 00:49:14,520

interesting apparently that shape is

1379

00:49:19,430 --> 00:49:17,940

quite kind of amenable to to generate in

1380

00:49:21,530 --> 00:49:19,440

these gravitational waves if given

1381

00:49:23,150 --> 00:49:21,540

enough power let's jump on if media then

1382

00:49:24,470 --> 00:49:23,160

for this year because this is one thing

1383

00:49:26,210 --> 00:49:24,480

I like talking about this kind of stuff

1384

00:49:27,650 --> 00:49:26,220

what are you excited for in terms of

1385

00:49:29,450 --> 00:49:27,660

media that's going to come up I've got

1386

00:49:30,890 --> 00:49:29,460

four or five things here in terms of

1387

00:49:33,650 --> 00:49:30,900

documentaries movies

1388

00:49:35,270 --> 00:49:33,660

um a book and a Netflix series

1389

00:49:36,230 --> 00:49:35,280

um and then one sort of outside one

1390

00:49:38,510 --> 00:49:36,240

that's just because it's been on the

1391

00:49:40,490 --> 00:49:38,520

radar for a while lol

1392

00:49:42,589 --> 00:49:40,500

um my spy one radar

1393

00:49:45,050 --> 00:49:42,599

um the three body prop oh my God

1394

00:49:47,089 --> 00:49:45,060

Almighty the three body problem series

1395

00:49:48,589 --> 00:49:47,099

Dan you're going to correct me because

1396

00:49:50,690 --> 00:49:48,599

it's not the three body problem series

1397

00:49:53,750 --> 00:49:50,700

is it I literally just thought that you

1398

00:49:54,890 --> 00:49:53,760

know me too I wish we just need to

1399

00:49:56,450 --> 00:49:54,900

change the name to three body problem

1400

00:49:57,770 --> 00:49:56,460

series is what everyone calls it it's

1401
00:50:00,410 --> 00:49:57,780
whatever knows it but that's the first

1402
00:50:02,809 --> 00:50:00,420
book the author calls it the

1403
00:50:03,829 --> 00:50:02,819
um remembrance of Earth's past Trilogy

1404
00:50:06,470 --> 00:50:03,839
yeah

1405
00:50:07,970 --> 00:50:06,480
um and and that really you'd get why

1406
00:50:09,650 --> 00:50:07,980
it's called that

1407
00:50:11,450 --> 00:50:09,660
um in book two and three because it

1408
00:50:13,550 --> 00:50:11,460
becomes much more of a historical kind

1409
00:50:15,530 --> 00:50:13,560
of hindsight thing recounting events and

1410
00:50:16,849 --> 00:50:15,540
how Society reacted to them we wouldn't

1411
00:50:19,309 --> 00:50:16,859
spoil it but obviously a three-body

1412
00:50:21,530 --> 00:50:19,319
problem got some that notoriety online

1413
00:50:24,710 --> 00:50:21,540

Louis zondo had mentioned it hadn't he

1414

00:50:27,349 --> 00:50:24,720

it was one of the first big sci-fi books

1415

00:50:29,510 --> 00:50:27,359

out of China given their very

1416

00:50:31,790 --> 00:50:29,520

extract on what gets published in terms

1417

00:50:34,430 --> 00:50:31,800

of that sort of thing in China as well

1418

00:50:36,290 --> 00:50:34,440

um it got critical Acclaim and it was

1419

00:50:38,089 --> 00:50:36,300

translated into English that's why parts

1420

00:50:40,190 --> 00:50:38,099

of it can be a bit of a labor to get

1421

00:50:41,569 --> 00:50:40,200

through because of the translation there

1422

00:50:43,849 --> 00:50:41,579

are sometimes you'll read a sentence and

1423

00:50:45,829 --> 00:50:43,859

go did I read that correctly and you go

1424

00:50:47,809 --> 00:50:45,839

back and it's just slightly misworded

1425

00:50:49,549 --> 00:50:47,819

but it's literally no more than a slight

1426
00:50:51,290 --> 00:50:49,559
miswording you you understand what it

1427
00:50:52,490 --> 00:50:51,300
means it's really interesting I never

1428
00:50:54,290 --> 00:50:52,500
got through the full first book just

1429
00:50:56,329 --> 00:50:54,300
because life got in the way but Netflix

1430
00:50:58,250 --> 00:50:56,339
commissioned and have made a series

1431
00:50:59,510 --> 00:50:58,260
that's going to be out this year that

1432
00:51:01,190 --> 00:50:59,520
I'm guessing that and you're very much

1433
00:51:03,290 --> 00:51:01,200
looking forward to as well but also

1434
00:51:04,670 --> 00:51:03,300
there's an animated version coming out

1435
00:51:06,530 --> 00:51:04,680
too isn't there

1436
00:51:08,150 --> 00:51:06,540
there is yeah and I would say I'm

1437
00:51:10,190 --> 00:51:08,160
looking forward to that more mostly

1438
00:51:11,510 --> 00:51:10,200

because one animation just allows you to

1439

00:51:13,670 --> 00:51:11,520

do anything

1440

00:51:15,589 --> 00:51:13,680

um I know CGI is pretty good these days

1441

00:51:17,210 --> 00:51:15,599

but the CGI gets quite Roby if you're

1442

00:51:19,250 --> 00:51:17,220

not if you don't have the budget you

1443

00:51:20,690 --> 00:51:19,260

know to make it look great so animated

1444

00:51:21,710 --> 00:51:20,700

you you can get a little more abstract

1445

00:51:23,089 --> 00:51:21,720

with

1446

00:51:24,950 --> 00:51:23,099

um and also the Netflix series is

1447

00:51:26,630 --> 00:51:24,960

directed by the guys that did Game of

1448

00:51:28,670 --> 00:51:26,640

Thrones and kind of just tanked that

1449

00:51:31,790 --> 00:51:28,680

last season uh so they they don't really

1450

00:51:34,309 --> 00:51:31,800

have a lot of faith kind of behind them

1451
00:51:37,250 --> 00:51:34,319
um for this like really high concept

1452
00:51:41,750 --> 00:51:37,260
really you know hard to digest in some

1453
00:51:45,230 --> 00:51:41,760
ways uh sci-fi uh or be the worth it

1454
00:51:47,690 --> 00:51:45,240
like um content yeah concept yeah that

1455
00:51:49,250 --> 00:51:47,700
is a hard one to sum up so I'm not going

1456
00:51:53,210 --> 00:51:49,260
to be cruel I'm going to give you around

1457
00:51:56,030 --> 00:51:53,220
15 words one sentence to sum up what the

1458
00:51:59,930 --> 00:51:56,040
three body problem is about

1459
00:52:01,670 --> 00:51:59,940
oh yeah I can do this uh so Humanity

1460
00:52:03,530 --> 00:52:01,680
detects a signal from another

1461
00:52:05,450 --> 00:52:03,540
civilization and it turns out that that

1462
00:52:09,250 --> 00:52:05,460
Civilization is coming to take the

1463
00:52:14,630 --> 00:52:12,170

I think I counted there just off hand so

1464

00:52:16,609 --> 00:52:14,640

I kept it concise feel you failed

1465

00:52:18,230 --> 00:52:16,619

miserably I asked it for it on the 31st

1466

00:52:20,210 --> 00:52:18,240

of October you presented it on the 12th

1467

00:52:22,190 --> 00:52:20,220

of January well done

1468

00:52:24,230 --> 00:52:22,200

um so yeah um other series that are

1469

00:52:26,089 --> 00:52:24,240

coming out uh Leslie Kane's UFO series

1470

00:52:28,069 --> 00:52:26,099

that people were worried was going to be

1471

00:52:29,750 --> 00:52:28,079

down the pan because of a major at CNN

1472

00:52:31,549 --> 00:52:29,760

it was announced just in the last couple

1473

00:52:33,650 --> 00:52:31,559

of days as it's going to be National

1474

00:52:35,569 --> 00:52:33,660

Geographic has picked up which is owned

1475

00:52:37,970 --> 00:52:35,579

by Disney uh who own everything

1476
00:52:39,589 --> 00:52:37,980
including me in this podcast and then so

1477
00:52:41,270 --> 00:52:39,599
brilliant and Dan's winning is Mickey

1478
00:52:42,290 --> 00:52:41,280
Mouse ears as we speak

1479
00:52:43,190 --> 00:52:42,300
um but no it's going to be on Disney

1480
00:52:45,170 --> 00:52:43,200
plus it's going to be a National

1481
00:52:48,470 --> 00:52:45,180
Geographic um it's going to be on a few

1482
00:52:50,510 --> 00:52:48,480
different uh platforms to watch Hulu as

1483
00:52:52,190 --> 00:52:50,520
well and vice I think it is what a fun

1484
00:52:53,930 --> 00:52:52,200
name to say Hulu

1485
00:52:55,130 --> 00:52:53,940
um I've never watched anything on Hulu

1486
00:52:56,750 --> 00:52:55,140
even though we do have it here in the UK

1487
00:52:57,770 --> 00:52:56,760
it's not really as big as as in the

1488
00:52:59,089 --> 00:52:57,780

states

1489

00:53:01,250 --> 00:52:59,099

um so I think I watched some of the

1490

00:53:03,589 --> 00:53:01,260

Marvel shows on Hulu uh but yeah that's

1491

00:53:04,970 --> 00:53:03,599

about it yeah it's it's going to be on a

1492

00:53:06,770 --> 00:53:04,980

few platforms folks it's good that it's

1493

00:53:08,390 --> 00:53:06,780

still coming out and Dan you saw some

1494

00:53:10,790 --> 00:53:08,400

teasers for it when you're at the entire

1495

00:53:13,670 --> 00:53:10,800

anomalous conference uh Jay King yeah

1496

00:53:15,410 --> 00:53:13,680

James aendoli's um very quickly can you

1497

00:53:17,150 --> 00:53:15,420

sum up what you saw

1498

00:53:18,650 --> 00:53:17,160

looks great contains some interviews

1499

00:53:20,870 --> 00:53:18,660

with people we haven't seen before like

1500

00:53:23,089 --> 00:53:20,880

Helene Cooper who co-wrote the the 2017

1501
00:53:24,290 --> 00:53:23,099
New York Times article seems like it's

1502
00:53:26,870 --> 00:53:24,300
going to be important to get that

1503
00:53:28,790 --> 00:53:26,880
information yep uh next up Dan uh

1504
00:53:31,370 --> 00:53:28,800
blink182 related angels and Airbase

1505
00:53:32,870 --> 00:53:31,380
related Tom delong's monsters in

1506
00:53:36,049 --> 00:53:32,880
California which we have seen a trailer

1507
00:53:38,569 --> 00:53:36,059
for that looks like I can uh

1508
00:53:43,309 --> 00:53:38,579
teen slasher movie

1509
00:53:47,510 --> 00:53:43,319
ghost story UFO movie all in one

1510
00:53:49,490 --> 00:53:47,520
um Stoner romp potentially if it looks

1511
00:53:50,870 --> 00:53:49,500
fun but Tom said there's a lot of the

1512
00:53:52,490 --> 00:53:50,880
ideas that he's talked about over the

1513
00:53:53,990 --> 00:53:52,500

years have been put into this film and

1514

00:53:56,450 --> 00:53:54,000

one of the things he wants to do with

1515

00:54:00,410 --> 00:53:56,460

the new direction of two of the Stars

1516

00:54:02,210 --> 00:54:00,420

the media Empire is to tell these sorts

1517

00:54:03,290 --> 00:54:02,220

of stories that he talks about if you

1518

00:54:05,750 --> 00:54:03,300

follow him on social media and

1519

00:54:07,130 --> 00:54:05,760

interviews through the form of you know

1520

00:54:08,809 --> 00:54:07,140

he's done it in books he's done it in

1521

00:54:10,910 --> 00:54:08,819

song he wants to do it through movies

1522

00:54:12,950 --> 00:54:10,920

and I think we're still waiting and

1523

00:54:15,049 --> 00:54:12,960

finding out the distributor for this is

1524

00:54:18,710 --> 00:54:15,059

it going to go to Cinemas uh it'll be in

1525

00:54:21,230 --> 00:54:18,720

cartel the guys who made uh Tales from

1526

00:54:23,030 --> 00:54:21,240

the Crypt okay uh the Crypt Keeper um so

1527

00:54:24,410 --> 00:54:23,040

yeah Stan spry is is the head of that

1528

00:54:26,890 --> 00:54:24,420

company and he's been working with his

1529

00:54:30,470 --> 00:54:26,900

Tom to kind of do this stuff

1530

00:54:32,630 --> 00:54:30,480

yeah I imagine streaming straight away

1531

00:54:34,609 --> 00:54:32,640

um which would be interesting because

1532

00:54:36,109 --> 00:54:34,619

I I get a feeling Tom's gonna hold this

1533

00:54:37,549 --> 00:54:36,119

till like Halloween or something like

1534

00:54:39,530 --> 00:54:37,559

that and then blink will be in full

1535

00:54:41,329 --> 00:54:39,540

swing so someone said to me the other

1536

00:54:44,450 --> 00:54:41,339

day do you do you hear for the truth or

1537

00:54:45,589 --> 00:54:44,460

entertainment and I was like you can

1538

00:54:47,089 --> 00:54:45,599

kind of be both because we need the

1539

00:54:48,710 --> 00:54:47,099

entertainment as an on-ramp to bring

1540

00:54:50,569 --> 00:54:48,720

people that aren't necessarily here

1541

00:54:51,290 --> 00:54:50,579

because they're obsessed with UFOs you

1542

00:54:52,730 --> 00:54:51,300

know

1543

00:54:54,829 --> 00:54:52,740

um it's a really good way to bring them

1544

00:54:56,809 --> 00:54:54,839

on board and on that yeah there's people

1545

00:54:58,670 --> 00:54:56,819

who listen to the show purely for

1546

00:55:00,049 --> 00:54:58,680

entertainment and just have an interest

1547

00:55:02,450 --> 00:55:00,059

there's people who listen for a bit of

1548

00:55:04,250 --> 00:55:02,460

both there are people who purely enjoy

1549

00:55:05,569 --> 00:55:04,260

the science talk there are people who

1550

00:55:07,130 --> 00:55:05,579

like when I said I had Chris plain

1551
00:55:08,690 --> 00:55:07,140
coming on again not to Hype that but

1552
00:55:10,309 --> 00:55:08,700
people were like oh brilliant science I

1553
00:55:12,530 --> 00:55:10,319
love the Science and Tech when it's

1554
00:55:14,390 --> 00:55:12,540
entertained with UFOs there are others

1555
00:55:15,829 --> 00:55:14,400
who love the more out there side of

1556
00:55:17,930 --> 00:55:15,839
things you know Paul Sinclair and has

1557
00:55:20,089 --> 00:55:17,940
stories about that you know night people

1558
00:55:21,170 --> 00:55:20,099
and and the hunman bay incident that

1559
00:55:24,290 --> 00:55:21,180
we're going to talk about in a couple of

1560
00:55:26,329 --> 00:55:24,300
years Rick and Morty yeah yeah they're

1561
00:55:28,250 --> 00:55:26,339
eight people yeah nighttime Jerry

1562
00:55:29,569 --> 00:55:28,260
um there's there's a whole host of

1563
00:55:31,010 --> 00:55:29,579

things and they don't all have to be

1564

00:55:33,170 --> 00:55:31,020

mutually exclusive and that's why when

1565

00:55:34,490 --> 00:55:33,180

we do these you try to you try to appeal

1566

00:55:35,930 --> 00:55:34,500

to everything because I think we've got

1567

00:55:37,910 --> 00:55:35,940

that interest that you can see the

1568

00:55:39,770 --> 00:55:37,920

entertaining side of things the things

1569

00:55:41,750 --> 00:55:39,780

that I look at I've mentioned Andrew D

1570

00:55:43,130 --> 00:55:41,760

Bassey Azure before the guy who has

1571

00:55:45,290 --> 00:55:43,140

claimed to have basically time traveled

1572

00:55:47,150 --> 00:55:45,300

to has jumped from to Mars with

1573

00:55:48,950 --> 00:55:47,160

President Obama stuff I used to listen

1574

00:55:51,069 --> 00:55:48,960

to in YouTube for like four hours and I

1575

00:55:54,410 --> 00:55:51,079

found fascinating do I believe it

1576

00:55:55,849 --> 00:55:54,420

probably probably didn't happen folks

1577

00:55:58,250 --> 00:55:55,859

unless President Obama comes out and

1578

00:56:00,170 --> 00:55:58,260

confirms he he knows that guy

1579

00:56:01,910 --> 00:56:00,180

um but it's interesting same with Linda

1580

00:56:04,670 --> 00:56:01,920

Moulton house stories that she tells of

1581

00:56:06,650 --> 00:56:04,680

other folks recounts of their stories

1582

00:56:08,569 --> 00:56:06,660

you know about Antarctica and things

1583

00:56:10,490 --> 00:56:08,579

like that it's it's entertainment for

1584

00:56:11,990 --> 00:56:10,500

some for others it's infotainment and

1585

00:56:15,530 --> 00:56:12,000

then you know it's everything in between

1586

00:56:17,750 --> 00:56:15,540

for other folks as well but yeah it's

1587

00:56:19,370 --> 00:56:17,760

it's another way to tell stories to a

1588

00:56:21,349 --> 00:56:19,380

new generation especially through things

1589

00:56:23,030 --> 00:56:21,359

like monsters in California for people

1590

00:56:24,710 --> 00:56:23,040

who may not have an interest in the UFO

1591

00:56:26,569 --> 00:56:24,720

subject that get involved because of

1592

00:56:28,309 --> 00:56:26,579

that because they hear someone in Rogan

1593

00:56:30,890 --> 00:56:28,319

because they see the three body problem

1594

00:56:32,930 --> 00:56:30,900

on Netflix because Lorella zondo's book

1595

00:56:36,290 --> 00:56:32,940

comes out and he does a nationwide tour

1596

00:56:37,849 --> 00:56:36,300

he'll get slated by some obviously for

1597

00:56:39,290 --> 00:56:37,859

making money by writers in his life

1598

00:56:41,450 --> 00:56:39,300

story and it was all a rose and he's a

1599

00:56:43,730 --> 00:56:41,460

grifter but so many more people are

1600

00:56:45,530 --> 00:56:43,740

going to pick up that and get involved

1601
00:56:46,609 --> 00:56:45,540
in the UFO topic because they see that

1602
00:56:48,349 --> 00:56:46,619
story

1603
00:56:51,349 --> 00:56:48,359
it's happened before it'll happen again

1604
00:56:52,910 --> 00:56:51,359
so that's that's just the nature of the

1605
00:56:55,309 --> 00:56:52,920
whole topic and it's no different to

1606
00:56:57,230 --> 00:56:55,319
many many other topics as well

1607
00:56:59,150 --> 00:56:57,240
yeah I would totally agree with that and

1608
00:57:01,190 --> 00:56:59,160
and on that note hopefully this year

1609
00:57:03,530 --> 00:57:01,200
we'll see at least the first episode of

1610
00:57:05,870 --> 00:57:03,540
secret machines or maybe a trailer

1611
00:57:08,150 --> 00:57:05,880
um of that TV series that the tsa are

1612
00:57:08,930 --> 00:57:08,160
making with Legends thinking trailer at

1613
00:57:10,910 --> 00:57:08,940

best

1614

00:57:12,950 --> 00:57:10,920

probably trailer it will get some

1615

00:57:14,930 --> 00:57:12,960

casting news probably and you know see

1616

00:57:17,030 --> 00:57:14,940

it kind of developing but I'm excited

1617

00:57:20,510 --> 00:57:17,040

for that one because that's uh kind of

1618

00:57:21,950 --> 00:57:20,520

like a Dan Brown but with UFOs it kind

1619

00:57:23,690 --> 00:57:21,960

of incorporates a bunch of history and

1620

00:57:25,910 --> 00:57:23,700

it'll just get people's gears turning a

1621

00:57:27,770 --> 00:57:25,920

bit like nope did you know where it was

1622

00:57:29,569 --> 00:57:27,780

talking about UFOs as a life form a

1623

00:57:30,950 --> 00:57:29,579

little bit of a different approach to to

1624

00:57:32,390 --> 00:57:30,960

get people just thinking of it I've

1625

00:57:33,650 --> 00:57:32,400

enjoyed the audiobook I'm going through

1626

00:57:35,690 --> 00:57:33,660

the first secret machines and I'm

1627

00:57:37,010 --> 00:57:35,700

something like three-fifths of the way

1628

00:57:39,290 --> 00:57:37,020

through it one arbitrary on birthday

1629

00:57:40,730 --> 00:57:39,300

pack six tenths of the way through it

1630

00:57:41,990 --> 00:57:40,740

just over halfway

1631

00:57:44,450 --> 00:57:42,000

um and it's been really impressed in the

1632

00:57:46,430 --> 00:57:44,460

jumping back and forward between the you

1633

00:57:48,470 --> 00:57:46,440

know the Concentration Camp story that's

1634

00:57:51,109 --> 00:57:48,480

part of it the Nazi Tech that's part of

1635

00:57:53,270 --> 00:57:51,119

it you then go into the to modern day

1636

00:57:55,250 --> 00:57:53,280

you hear about things that happened in

1637

00:57:56,270 --> 00:57:55,260

the past and it's it's starting to kind

1638

00:57:58,609 --> 00:57:56,280

of come together which is really

1639

00:58:00,170 --> 00:57:58,619

interesting as well do do you do you

1640

00:58:01,970 --> 00:58:00,180

find that it kind of

1641

00:58:03,349 --> 00:58:01,980

prompts you to like you'll read

1642

00:58:05,569 --> 00:58:03,359

something and kind of go wait is that

1643

00:58:08,089 --> 00:58:05,579

true and then go and Google it and then

1644

00:58:09,230 --> 00:58:08,099

you'll know because I'm listening to it

1645

00:58:13,370 --> 00:58:09,240

on audio

1646

00:58:14,930 --> 00:58:13,380

oh okay so I tend to be driving or

1647

00:58:16,370 --> 00:58:14,940

yeah I think it's always been what I've

1648

00:58:18,190 --> 00:58:16,380

been driving back and forward to Glasgow

1649

00:58:21,170 --> 00:58:18,200

if I've been myself okay

1650

00:58:22,730 --> 00:58:21,180

yeah yeah

1651
00:58:25,569 --> 00:58:22,740
um I need Apple to release like a mental

1652
00:58:27,290 --> 00:58:25,579
note-taking app that um

1653
00:58:29,089 --> 00:58:27,300
there you go

1654
00:58:31,370 --> 00:58:29,099
um and one other thing that's coming out

1655
00:58:33,290 --> 00:58:31,380
this year um it's been coming out for a

1656
00:58:35,450 --> 00:58:33,300
few years now and I'm just interested oh

1657
00:58:36,710 --> 00:58:35,460
go on I I was just gonna say you just

1658
00:58:38,630 --> 00:58:36,720
mentioned neuraling so let's talk about

1659
00:58:41,930 --> 00:58:38,640
Danny Sheehan and the helmets oh I bet

1660
00:58:44,710 --> 00:58:41,940
with cash plane uh okay

1661
00:58:46,849 --> 00:58:44,720
um yeah what did you think of that

1662
00:58:47,870 --> 00:58:46,859
very quickly tell people who might not

1663
00:58:49,130 --> 00:58:47,880

have heard that what you're talking

1664

00:58:50,990 --> 00:58:49,140

about first

1665

00:58:52,849 --> 00:58:51,000

so Danny Sheehan was on coast to coast

1666

00:58:56,270 --> 00:58:52,859

and he kind of dropped this this

1667

00:58:57,829 --> 00:58:56,280

bombshell that uh they'd you know the

1668

00:59:00,349 --> 00:58:57,839

the Royal they

1669

00:59:02,510 --> 00:59:00,359

um had found basically helmets

1670

00:59:05,750 --> 00:59:02,520

um uh crash sites uh that allowed a

1671

00:59:07,609 --> 00:59:05,760

telepathic interface with the UFO or the

1672

00:59:09,289 --> 00:59:07,619

ship to control it

1673

00:59:11,390 --> 00:59:09,299

um and it got people talking a lot

1674

00:59:14,270 --> 00:59:11,400

because they were just like this was

1675

00:59:16,069 --> 00:59:14,280

mentioned in uh before before Roswell by

1676

00:59:18,410 --> 00:59:16,079

Corso um it's been in a number of

1677

00:59:21,049 --> 00:59:18,420

different you know TVs shows and movies

1678

00:59:23,390 --> 00:59:21,059

that were supposedly informed by kind of

1679

00:59:25,250 --> 00:59:23,400

people in the know that yeah there were

1680

00:59:28,130 --> 00:59:25,260

these helmets that they would put on to

1681

00:59:30,289 --> 00:59:28,140

kind of interface with the ship for me

1682

00:59:32,030 --> 00:59:30,299

the use of the word telepathy was

1683

00:59:34,069 --> 00:59:32,040

interesting because telepathy usually

1684

00:59:35,630 --> 00:59:34,079

talks about you know two living beings

1685

00:59:38,329 --> 00:59:35,640

kind of talking without any interface

1686

00:59:39,829 --> 00:59:38,339

between them as opposed to neuralink or

1687

00:59:41,650 --> 00:59:39,839

something like that which is called and

1688

00:59:43,549 --> 00:59:41,660

I'm going to mess this word up but

1689

00:59:45,049 --> 00:59:43,559

electroencephalography hey I pulled it

1690

00:59:46,370 --> 00:59:45,059

off but that's what it's called when you

1691

00:59:48,170 --> 00:59:46,380

put sensors on your head and kind of

1692

00:59:50,270 --> 00:59:48,180

read it and it kind of takes the magic

1693

00:59:52,069 --> 00:59:50,280

away from it unless

1694

00:59:54,650 --> 00:59:52,079

as we have heard from many people the

1695

00:59:56,510 --> 00:59:54,660

ship is considered conscious and then

1696

00:59:57,349 --> 00:59:56,520

you are interfacing telepathically with

1697

00:59:59,569 --> 00:59:57,359

it

1698

01:00:01,789 --> 00:59:59,579

um and the Grays kind of become

1699

01:00:03,650 --> 01:00:01,799

the ship's avatars and tools to go out

1700

01:00:05,870 --> 01:00:03,660

into the world and explore which is you

1701

01:00:09,530 --> 01:00:05,880

know the kind of a a new angle on it

1702

01:00:15,589 --> 01:00:12,890

Danny Sheehan is an intelligent guy

1703

01:00:19,010 --> 01:00:15,599

he has a law a very interesting law

1704

01:00:21,109 --> 01:00:19,020

background he has been involved with

1705

01:00:22,849 --> 01:00:21,119

many of the kind of top names in the UFO

1706

01:00:24,530 --> 01:00:22,859

topic over the years

1707

01:00:26,569 --> 01:00:24,540

all the way from you know Stephen Curry

1708

01:00:28,549 --> 01:00:26,579

on one side to Luella zondo on the other

1709

01:00:30,530 --> 01:00:28,559

and other folks in between

1710

01:00:31,970 --> 01:00:30,540

and now and again he throws out these

1711

01:00:33,770 --> 01:00:31,980

incredible

1712

01:00:35,750 --> 01:00:33,780

claims

1713

01:00:37,549 --> 01:00:35,760

and I get why you get people seeing and

1714

01:00:41,150 --> 01:00:37,559

I throw a poll for this I had like 2 000

1715

01:00:42,950 --> 01:00:41,160

votes and largely let me let me find a

1716

01:00:45,349 --> 01:00:42,960

poll Dan to Phil time for me for a

1717

01:00:47,270 --> 01:00:45,359

second right I think yeah for sure while

1718

01:00:49,010 --> 01:00:47,280

you find the power I'll just kind of tee

1719

01:00:50,210 --> 01:00:49,020

up Danny spoke about

1720

01:00:52,490 --> 01:00:50,220

um an organization that's going to be

1721

01:00:54,530 --> 01:00:52,500

launched this year a 501c3 public

1722

01:00:55,910 --> 01:00:54,540

interest organization to Shadow the work

1723

01:00:57,710 --> 01:00:55,920

of Arrow

1724

01:00:59,930 --> 01:00:57,720

um Gary Nola's on board he said it's

1725

01:01:02,809 --> 01:00:59,940

getting donations they've got facilities

1726

01:01:05,809 --> 01:01:02,819

they've got as I say donations

1727

01:01:07,609 --> 01:01:05,819

um they want to essentially shatter the

1728

01:01:09,349 --> 01:01:07,619

work of arrows so that Congress and

1729

01:01:11,510 --> 01:01:09,359

other people will know that Arrow aren't

1730

01:01:12,710 --> 01:01:11,520

mucking around uh they'll have a bit

1731

01:01:14,030 --> 01:01:12,720

more freedom to talk about it there's

1732

01:01:16,370 --> 01:01:14,040

things called The Institute for

1733

01:01:17,870 --> 01:01:16,380

preparing uh Human family for contact

1734

01:01:20,690 --> 01:01:17,880

which will probably change that's quite

1735

01:01:22,609 --> 01:01:20,700

long the acronym is going to be awkward

1736

01:01:26,030 --> 01:01:22,619

um but this will be announced later in

1737

01:01:27,650 --> 01:01:26,040

2023 uh but yeah the idea is it'll be

1738

01:01:29,450 --> 01:01:27,660

based in La uh they're going to be

1739

01:01:32,089 --> 01:01:29,460

working on transparency and maximum

1740

01:01:34,789 --> 01:01:32,099

public disclosure so thank you for that

1741

01:01:36,650 --> 01:01:34,799

the polar put up was I'm curious where

1742

01:01:38,750 --> 01:01:36,660

opinion sits when you hit a prominent

1743

01:01:40,430 --> 01:01:38,760

name like Danny Shane and the world of

1744

01:01:42,170 --> 01:01:40,440

UFOs say that there are recovered

1745

01:01:44,210 --> 01:01:42,180

helmets that help control our pilot

1746

01:01:46,190 --> 01:01:44,220

craft where does your mind immediately

1747

01:01:49,190 --> 01:01:46,200

go and the options for our excitement

1748

01:01:52,510 --> 01:01:49,200

nonsense curious or other uh excitement

1749

01:01:55,549 --> 01:01:52,520

got 18 nonsense about the same on 19.5

1750

01:01:58,430 --> 01:01:55,559

57 curious and five point five percent

1751

01:01:59,569 --> 01:01:58,440

other so I think still largely folk

1752

01:02:02,870 --> 01:01:59,579

leaning towards all that's really

1753

01:02:05,089 --> 01:02:02,880

interesting and yeah

1754

01:02:06,770 --> 01:02:05,099

for me that that's as far as it goes oh

1755

01:02:09,410 --> 01:02:06,780

interesting comment

1756

01:02:11,690 --> 01:02:09,420

I'd love I'd love to know more

1757

01:02:13,490 --> 01:02:11,700

yeah that's yeah and that's really that

1758

01:02:15,349 --> 01:02:13,500

information is not there so yeah but

1759

01:02:16,789 --> 01:02:15,359

that's why I like run to the streets

1760

01:02:18,890 --> 01:02:16,799

telling everyone yeah there were helmets

1761

01:02:19,609 --> 01:02:18,900

yeah exactly

1762

01:02:21,530 --> 01:02:19,619

um

1763

01:02:23,289 --> 01:02:21,540

I could make a joke there but I would

1764

01:02:25,789 --> 01:02:23,299

um

1765

01:02:27,589 --> 01:02:25,799

I'll tell you off here

1766

01:02:29,210 --> 01:02:27,599

um the

1767

01:02:31,490 --> 01:02:29,220

that's why I like listening to Danish

1768

01:02:33,049 --> 01:02:31,500

Ian but also why I can see folks who

1769

01:02:35,870 --> 01:02:33,059

would say utter nonsense where's the

1770

01:02:37,250 --> 01:02:35,880

proof but I I don't mind that in the UFO

1771

01:02:39,109 --> 01:02:37,260

subject people speculate and are

1772

01:02:40,970 --> 01:02:39,119

bringing stuff up it makes me go ah that

1773

01:02:42,650 --> 01:02:40,980

would be really cool

1774

01:02:44,329 --> 01:02:42,660

um the other documentary I was going to

1775

01:02:45,890 --> 01:02:44,339

mention that's due to come out but has

1776

01:02:48,289 --> 01:02:45,900

been coming out now for several years is

1777

01:02:50,690 --> 01:02:48,299

couple green which is a retrospective

1778

01:02:52,549 --> 01:02:50,700

look at the rendition Forest incident

1779

01:02:53,870 --> 01:02:52,559

um from what I've seen and they're meant

1780

01:02:55,609 --> 01:02:53,880

to be coming on the podcast as they're

1781

01:02:57,829 --> 01:02:55,619

going to do many others at the time for

1782

01:02:59,270 --> 01:02:57,839

lunch is that they're putting a lot of

1783

01:03:00,950 --> 01:02:59,280

work into it that more people came

1784

01:03:02,690 --> 01:03:00,960

forward they're putting a lot of work

1785

01:03:05,030 --> 01:03:02,700

into the post-production

1786

01:03:07,789 --> 01:03:05,040

but it's been happening for a while now

1787

01:03:09,410 --> 01:03:07,799

um so just a pure curiosity I really

1788

01:03:11,930 --> 01:03:09,420

want to see that and I'm going to give

1789

01:03:13,609 --> 01:03:11,940

him pulse and Claire who was on the

1790

01:03:15,349 --> 01:03:13,619

podcast last week in fantastically

1791

01:03:16,970 --> 01:03:15,359

popular guest and he was great yeah or

1792

01:03:18,650 --> 01:03:16,980

Paul was Paul was wonderful in a very

1793

01:03:20,630 --> 01:03:18,660

different accent here on the podcast as

1794

01:03:22,789 --> 01:03:20,640

well which is always nice

1795

01:03:24,890 --> 01:03:22,799

um he has a documentary coming out in

1796

01:03:28,430 --> 01:03:24,900

collaboration with a few others called

1797

01:03:31,010 --> 01:03:28,440

wolf lands which is uh if you're talking

1798

01:03:32,450 --> 01:03:31,020

to Skinwalker stuff that's that's what

1799

01:03:34,970 --> 01:03:32,460

we're looking at with wolf lands as well

1800

01:03:36,650 --> 01:03:34,980

so again Paul promises a high production

1801
01:03:37,910 --> 01:03:36,660
value which is always something I look

1802
01:03:39,589 --> 01:03:37,920
for you know that as well you're the

1803
01:03:42,950 --> 01:03:39,599
same then and with a lot of very

1804
01:03:45,049 --> 01:03:42,960
interesting anecdotal and data within it

1805
01:03:46,190 --> 01:03:45,059
as well so look forward to both lands

1806
01:03:47,690 --> 01:03:46,200
coming out and Paul's going to be back

1807
01:03:49,609 --> 01:03:47,700
on in a couple of months to talk about

1808
01:03:52,130 --> 01:03:49,619
that too when it's released

1809
01:03:54,130 --> 01:03:52,140
and just to emphasize as well Paul said

1810
01:03:56,630 --> 01:03:54,140
in the podcast that he was not expecting

1811
01:03:58,609 --> 01:03:56,640
for his kind of career to take him in

1812
01:04:00,170 --> 01:03:58,619
this direction no the Cryptids and stuff

1813
01:04:02,510 --> 01:04:00,180

like that it's just that the phenomena

1814

01:04:04,549 --> 01:04:02,520

includes it so he has to kind of address

1815

01:04:07,069 --> 01:04:04,559

it I thought that was real interesting

1816

01:04:09,170 --> 01:04:07,079

and uh we mentioned Louis zondo's book

1817

01:04:10,910 --> 01:04:09,180

Dan Lewis said himself he hopes it's out

1818

01:04:14,270 --> 01:04:10,920

by the end of the year

1819

01:04:16,430 --> 01:04:14,280

um what are you expecting

1820

01:04:17,329 --> 01:04:16,440

so for me the the most exciting thing

1821

01:04:19,549 --> 01:04:17,339

about it

1822

01:04:21,109 --> 01:04:19,559

um you know the IG document the IG

1823

01:04:23,990 --> 01:04:21,119

complaint that he put in uh really

1824

01:04:26,270 --> 01:04:24,000

details chronologically kind of what

1825

01:04:27,710 --> 01:04:26,280

happened or set up onwards

1826
01:04:29,870 --> 01:04:27,720
um I'm looking forward to hearing before

1827
01:04:31,490 --> 01:04:29,880
that lose experience with everything and

1828
01:04:32,870 --> 01:04:31,500
his work and things like that kind of

1829
01:04:35,750 --> 01:04:32,880
like the lexford millions view with my

1830
01:04:37,490 --> 01:04:35,760
engraves right just let's kind of get an

1831
01:04:40,730 --> 01:04:37,500
idea of how

1832
01:04:42,349 --> 01:04:40,740
big of a deal Lou Alexander was uh in in

1833
01:04:43,970 --> 01:04:42,359
his career because we've heard from

1834
01:04:45,890 --> 01:04:43,980
people in Australia um kind of

1835
01:04:47,870 --> 01:04:45,900
intelligence from people in the UK all

1836
01:04:49,309 --> 01:04:47,880
of them say this guy's a heavy hitter we

1837
01:04:50,690 --> 01:04:49,319
should listen to him

1838
01:04:53,990 --> 01:04:50,700

um so we'll finally kind of get those

1839

01:04:55,670 --> 01:04:54,000

bits of story but also when Lou submits

1840

01:04:58,250 --> 01:04:55,680

his book to kind of be reviewed by the

1841

01:04:59,390 --> 01:04:58,260

dod a bunch of departments there are

1842

01:05:00,829 --> 01:04:59,400

gonna say you can't say that you can't

1843

01:05:02,450 --> 01:05:00,839

say that you can't say that and they all

1844

01:05:04,789 --> 01:05:02,460

have to if they redact it they'll be

1845

01:05:08,089 --> 01:05:04,799

listed as being one of the places the

1846

01:05:10,250 --> 01:05:08,099

redacted stuff so we essentially get

1847

01:05:12,049 --> 01:05:10,260

given targets from this book to kind of

1848

01:05:13,910 --> 01:05:12,059

say hey they're holding the public back

1849

01:05:15,289 --> 01:05:13,920

from talking about this stuff and

1850

01:05:17,809 --> 01:05:15,299

holding Lou back from talking about this

1851

01:05:20,569 --> 01:05:17,819

stuff so I I expect it will bring

1852

01:05:21,950 --> 01:05:20,579

probably some legislative language to

1853

01:05:24,230 --> 01:05:21,960

kind of say this department specifically

1854

01:05:26,750 --> 01:05:24,240

has to start talking about XYZ

1855

01:05:29,450 --> 01:05:26,760

I hope we get some nuggets that people

1856

01:05:32,089 --> 01:05:29,460

go wow I didn't know that Lou has never

1857

01:05:34,370 --> 01:05:32,099

said that or he expands on some things

1858

01:05:36,349 --> 01:05:34,380

that he said but also gives us a little

1859

01:05:37,789 --> 01:05:36,359

bit more of a why he hasn't said it

1860

01:05:39,049 --> 01:05:37,799

because I'm sure there are going to be

1861

01:05:41,210 --> 01:05:39,059

numerous people out there who are ready

1862

01:05:43,010 --> 01:05:41,220

to jump on you've been asked that before

1863

01:05:44,809 --> 01:05:43,020

there may be questions I've asked him on

1864

01:05:47,270 --> 01:05:44,819

a podcast that he never quite answered

1865

01:05:48,589 --> 01:05:47,280

or he said something different that he's

1866

01:05:50,870 --> 01:05:48,599

going to give something else in the book

1867

01:05:52,549 --> 01:05:50,880

and that's that's fine but I would just

1868

01:05:54,410 --> 01:05:52,559

love to see the reasons why or some

1869

01:05:56,870 --> 01:05:54,420

context as as far as he can go with

1870

01:05:58,130 --> 01:05:56,880

things as well so it's it's one I'm

1871

01:06:00,710 --> 01:05:58,140

looking forward to and let's prefer the

1872

01:06:03,230 --> 01:06:00,720

whole UFO Community whether they love or

1873

01:06:05,089 --> 01:06:03,240

hate Lou or have no feelings whatsoever

1874

01:06:07,430 --> 01:06:05,099

are probably going to want to see or

1875

01:06:09,530 --> 01:06:07,440

hear about that anyway so that's that's

1876

01:06:11,210 --> 01:06:09,540

definitely one little no doubt I I

1877

01:06:13,549 --> 01:06:11,220

expect it'll be a very successful book

1878

01:06:15,349 --> 01:06:13,559

yeah I mean that just

1879

01:06:16,970 --> 01:06:15,359

just through marketing alone and the

1880

01:06:19,130 --> 01:06:16,980

people who are publishing it it'll do

1881

01:06:20,990 --> 01:06:19,140

well so yeah there you go

1882

01:06:22,190 --> 01:06:21,000

um any more media done before we move on

1883

01:06:24,650 --> 01:06:22,200

to the academy with Science and Tech

1884

01:06:29,809 --> 01:06:26,450

um

1885

01:06:31,670 --> 01:06:29,819

the Obama Betty Hill uh Bunny Hill

1886

01:06:33,170 --> 01:06:31,680

production I expect we'll see probably

1887

01:06:34,730 --> 01:06:33,180

again a trailer for that because it's

1888

01:06:37,609 --> 01:06:34,740

not in production yet

1889

01:06:39,049 --> 01:06:37,619

um but that will kind of look at uh you

1890

01:06:41,690 --> 01:06:39,059

know the lives of an interracial couple

1891

01:06:43,430 --> 01:06:41,700

in the 1960s uh who have a horrifying

1892

01:06:46,130 --> 01:06:43,440

encounter with the UFO

1893

01:06:47,870 --> 01:06:46,140

um and having read the script I can say

1894

01:06:50,210 --> 01:06:47,880

that there are some really interesting

1895

01:06:52,069 --> 01:06:50,220

changes to the story for example the

1896

01:06:54,349 --> 01:06:52,079

ship is Tic Tac shaped it bounces around

1897

01:06:56,029 --> 01:06:54,359

like a ping pong ball at one point it

1898

01:06:58,490 --> 01:06:56,039

turns into a sphere rolls along the road

1899

01:07:00,470 --> 01:06:58,500

and dips into the tarmac of the road and

1900

01:07:02,029 --> 01:07:00,480

then shoots upwards and leaves so little

1901

01:07:03,650 --> 01:07:02,039

things like that I'm just like oh that's

1902

01:07:06,170 --> 01:07:03,660

interesting that you would change that

1903

01:07:08,450 --> 01:07:06,180

specific thing and update it to kind of

1904

01:07:09,349 --> 01:07:08,460

this trans medium idea

1905

01:07:11,870 --> 01:07:09,359

um

1906

01:07:14,270 --> 01:07:11,880

it also I don't want to spoil it because

1907

01:07:17,569 --> 01:07:14,280

it was a really cool story but

1908

01:07:20,329 --> 01:07:17,579

um it directly links kind of their civil

1909

01:07:22,609 --> 01:07:20,339

rights work of Barney and Betty with

1910

01:07:24,230 --> 01:07:22,619

their encounter with other worldly

1911

01:07:25,789 --> 01:07:24,240

beings uh so it's going to be

1912

01:07:28,430 --> 01:07:25,799

interesting seeing how people kind of

1913

01:07:29,809 --> 01:07:28,440

reckon with that cool awesome and I

1914

01:07:30,890 --> 01:07:29,819

think there's a lot of exciting media to

1915

01:07:32,329 --> 01:07:30,900

come as well

1916

01:07:34,609 --> 01:07:32,339

um and we'll see what comes out in terms

1917

01:07:36,710 --> 01:07:34,619

of the cinema world Loosely connected

1918

01:07:39,049 --> 01:07:36,720

things like Ant-Man Quantum Mania and

1919

01:07:40,549 --> 01:07:39,059

the new Marvel phase with Multiverse you

1920

01:07:42,170 --> 01:07:40,559

know some of those ideas being explored

1921

01:07:43,670 --> 01:07:42,180

there's always really interesting and

1922

01:07:44,990 --> 01:07:43,680

what we'll mention those as and when

1923

01:07:47,210 --> 01:07:45,000

they come out as well

1924

01:07:49,730 --> 01:07:47,220

we I should also say we will have a

1925

01:07:51,950 --> 01:07:49,740

season two of phenomenology yes sorry

1926

01:07:53,630 --> 01:07:51,960

um and we're pretty much Plan the first

1927

01:07:54,890 --> 01:07:53,640

night a bunch of us going up the

1928

01:07:56,329 --> 01:07:54,900

mountain with torches and we're gonna

1929

01:07:58,370 --> 01:07:56,339

kind of get some reference images of

1930

01:08:00,349 --> 01:07:58,380

what it looks like uh with us up the

1931

01:08:02,690 --> 01:08:00,359

mountain with torches versus what we

1932

01:08:04,250 --> 01:08:02,700

think were earthlights that we filmed uh

1933

01:08:05,750 --> 01:08:04,260

so that's gonna be fun there'll be a

1934

01:08:08,390 --> 01:08:05,760

whole new team of people some of which

1935

01:08:09,890 --> 01:08:08,400

people will know uh they'll be announced

1936

01:08:11,450 --> 01:08:09,900

in kind of due course but yeah I'm

1937

01:08:14,270 --> 01:08:11,460

excited for that one that should be a

1938

01:08:16,490 --> 01:08:14,280

fun trip and a very enlightening forward

1939

01:08:17,870 --> 01:08:16,500

step in the project unless traveling for

1940

01:08:21,530 --> 01:08:17,880

you than this time given you're not

1941

01:08:24,169 --> 01:08:21,540

going from the UK out to South America

1942

01:08:26,030 --> 01:08:24,179

yeah precisely yeah I'll be watching

1943

01:08:28,309 --> 01:08:26,040

from a distance here in the northeast of

1944

01:08:29,510 --> 01:08:28,319

England folks you know in the shed in

1945

01:08:32,030 --> 01:08:29,520

the cold

1946

01:08:34,789 --> 01:08:32,040

um and finally then I think a few kind

1947

01:08:36,590 --> 01:08:34,799

of random bits to add on the James Webb

1948

01:08:38,150 --> 01:08:36,600

updates again Joe this year there are

1949

01:08:40,070 --> 01:08:38,160

some photographs here to be presented in

1950

01:08:41,990 --> 01:08:40,080

the near future I think those will

1951

01:08:44,090 --> 01:08:42,000

always be exciting because we're seeing

1952

01:08:46,309 --> 01:08:44,100

some incredible images we're seeing some

1953

01:08:48,110 --> 01:08:46,319

images that we've already had but in

1954

01:08:49,970 --> 01:08:48,120

just far more detail than we ever

1955

01:08:52,970 --> 01:08:49,980

imagined we're seeing things appearing

1956

01:08:55,130 --> 01:08:52,980

that just weren't there previously and

1957

01:08:56,870 --> 01:08:55,140

scientists astronomers are going what is

1958

01:08:58,789 --> 01:08:56,880

that which I love that they're generally

1959

01:09:00,709 --> 01:08:58,799

we never thought that would be there we

1960

01:09:02,269 --> 01:09:00,719

don't know what that is which is always

1961

01:09:04,070 --> 01:09:02,279

really really interesting

1962

01:09:05,510 --> 01:09:04,080

people think sorry there's a little

1963

01:09:09,470 --> 01:09:05,520

banging from the cleaners outside my

1964

01:09:14,450 --> 01:09:12,709

folk think Eureka is kind of the the

1965

01:09:17,269 --> 01:09:14,460

sound of science being discovered but

1966

01:09:19,430 --> 01:09:17,279

actually it's probably hmm we were wrong

1967

01:09:21,110 --> 01:09:19,440

that's interesting is probably a much

1968

01:09:23,030 --> 01:09:21,120

more propulsive moment

1969

01:09:25,970 --> 01:09:23,040

um for example James Webb Telescope is

1970

01:09:28,130 --> 01:09:25,980

finding that there are a lot a lot more

1971

01:09:30,110 --> 01:09:28,140

early galaxies than we thought they

1972

01:09:31,669 --> 01:09:30,120

should be so that's going to take some

1973

01:09:33,410 --> 01:09:31,679

some kind of figuring out because it

1974

01:09:35,390 --> 01:09:33,420

seems that things weren't quite right

1975

01:09:37,070 --> 01:09:35,400

about calculations about the big bang

1976

01:09:38,329 --> 01:09:37,080

and things like that

1977

01:09:39,769 --> 01:09:38,339

um and of course some people think that

1978

01:09:43,669 --> 01:09:39,779

there was no big bang and that the

1979

01:09:47,150 --> 01:09:43,679

universe is cyclical uh people like um

1980

01:09:49,990 --> 01:09:47,160

oh damn I forget his name uh

1981

01:09:53,990 --> 01:09:50,000

Carl Sagan knew the glass Tyson

1982

01:09:55,490 --> 01:09:54,000

no uh Roger I forget his name uh he won

1983

01:09:58,130 --> 01:09:55,500

a Nobel Prize

1984

01:09:59,570 --> 01:09:58,140

um no that was a grandson

1985

01:10:02,450 --> 01:09:59,580

he speaks about Consciousness as

1986

01:10:04,610 --> 01:10:02,460

fundamental to the universe uh

1987

01:10:06,290 --> 01:10:04,620

someone I guarantee listeners are going

1988

01:10:08,810 --> 01:10:06,300

to be screaming at the thing but it's

1989

01:10:10,310 --> 01:10:08,820

just blank yeah

1990

01:10:12,830 --> 01:10:10,320

um but yeah well well I can see you're

1991

01:10:14,510 --> 01:10:12,840

looking at it so I'm just gonna Penrose

1992

01:10:16,250 --> 01:10:14,520

that's it Roger Penrose thank you so

1993

01:10:17,689 --> 01:10:16,260

much yeah his theory is okowa and he

1994

01:10:19,790 --> 01:10:17,699

thinks that Consciousness is fundamental

1995

01:10:21,350 --> 01:10:19,800

to the universe so we're going to have a

1996

01:10:23,330 --> 01:10:21,360

lot more about that

1997

01:10:24,169 --> 01:10:23,340

um because the science says that you

1998

01:10:25,970 --> 01:10:24,179

know we're wrong about the early

1999

01:10:28,250 --> 01:10:25,980

Universe some things that James White

2000

01:10:31,130 --> 01:10:28,260

but it's going to be exploring as well

2001

01:10:32,510 --> 01:10:31,140

um more planetary spectroscopy uh where

2002

01:10:33,890 --> 01:10:32,520

it just looks at the chemicals in the

2003

01:10:35,870 --> 01:10:33,900

atmosphere

2004

01:10:38,149 --> 01:10:35,880

um will it pick up of signs of organic

2005

01:10:40,370 --> 01:10:38,159

chemistry in an atmosphere too hopefully

2006

01:10:42,470 --> 01:10:40,380

this year we would find out

2007

01:10:44,630 --> 01:10:42,480

um they're looking for small moons in

2008

01:10:46,550 --> 01:10:44,640

the Martian system

2009

01:10:48,530 --> 01:10:46,560

um they're looking at the coldest image

2010

01:10:50,330 --> 01:10:48,540

exoplanet uh so we're looking at kind of

2011

01:10:53,450 --> 01:10:50,340

essentially Water World ice worlds so

2012

01:10:56,090 --> 01:10:53,460

there could be life there probing uh the

2013

01:10:57,770 --> 01:10:56,100

subsurface oceans of Europa which is

2014

01:10:59,689 --> 01:10:57,780

interesting because I don't know if

2015

01:11:01,130 --> 01:10:59,699

you've seen a 2001 A Space Odyssey but

2016

01:11:03,229 --> 01:11:01,140

there's a big thing about life being in

2017

01:11:05,030 --> 01:11:03,239

the oceans on Europa and humans not

2018

01:11:06,890 --> 01:11:05,040

being able to visit it

2019

01:11:08,870 --> 01:11:06,900

um so that's been kind of prevalent in

2020

01:11:11,570 --> 01:11:08,880

the Sci-Fi Community for years looking

2021

01:11:13,250 --> 01:11:11,580

at free floating planetary Mass objects

2022

01:11:14,689 --> 01:11:13,260

essentially planets that just aren't

2023

01:11:17,090 --> 01:11:14,699

part of a solar system and they're just

2024

01:11:18,530 --> 01:11:17,100

kind of floating through the Universe

2025

01:11:20,689 --> 01:11:18,540

um they would have some extreme

2026

01:11:22,970 --> 01:11:20,699

conditions looking at the center of the

2027

01:11:24,229 --> 01:11:22,980

Galaxy as well at Sagittarius say that

2028

01:11:26,090 --> 01:11:24,239

black hole

2029

01:11:27,550 --> 01:11:26,100

um because yeah there are some really

2030

01:11:30,709 --> 01:11:27,560

interesting kind of correlations between

2031

01:11:32,450 --> 01:11:30,719

the earth facing that and remote viewing

2032

01:11:35,149 --> 01:11:32,460

kind of being a bit more powerful in

2033

01:11:36,830 --> 01:11:35,159

those moments uh so I mean I don't

2034

01:11:38,330 --> 01:11:36,840

imagine that the James Webb team talk

2035

01:11:40,850 --> 01:11:38,340

about remote viewing but will certainly

2036

01:11:42,229 --> 01:11:40,860

get to kind of put that data together

2037

01:11:43,490 --> 01:11:42,239

um and just generally kind of see him

2038

01:11:45,590 --> 01:11:43,500

back further into the universe I'm

2039

01:11:47,930 --> 01:11:45,600

looking at large asteroids maybe things

2040

01:11:49,550 --> 01:11:47,940

like a muamua um not a Mumu because

2041

01:11:52,370 --> 01:11:49,560

that's kind of gone but similar things

2042

01:11:55,729 --> 01:11:52,380

to it and on that front will also be

2043

01:11:58,250 --> 01:11:55,739

kind of seeing the Galileo project uh

2044

01:12:01,310 --> 01:11:58,260

one kind of dragonness the Pacific Ocean

2045

01:12:02,510 --> 01:12:01,320

for an object that fell there um that is

2046

01:12:05,270 --> 01:12:02,520

probably a meteor but it could be

2047

01:12:07,370 --> 01:12:05,280

anything it's extra solar as well as

2048

01:12:08,750 --> 01:12:07,380

their first peer-reviewed papers

2049

01:12:10,189 --> 01:12:08,760

um and the results kind of from their

2050

01:12:12,530 --> 01:12:10,199

sensor systems they've had set up

2051
01:12:15,470 --> 01:12:12,540
awesome and related to that the NASA

2052
01:12:17,870 --> 01:12:15,480
study that is currently underway with a

2053
01:12:19,850 --> 01:12:17,880
whole host of individuals not

2054
01:12:22,130 --> 01:12:19,860
necessarily UFO friendly as we've talked

2055
01:12:23,630 --> 01:12:22,140
about in the past is due to be concluded

2056
01:12:25,970 --> 01:12:23,640
in April

2057
01:12:28,070 --> 01:12:25,980
um that again norfolks I think if you're

2058
01:12:30,470 --> 01:12:28,080
if you're looking at the UFO report this

2059
01:12:32,689 --> 01:12:30,480
came out it's very much a study that's

2060
01:12:34,910 --> 01:12:32,699
set up to decide whether this is worthy

2061
01:12:36,709 --> 01:12:34,920
of further investigation not one that's

2062
01:12:38,450 --> 01:12:36,719
necessarily going to throw up all look

2063
01:12:41,689 --> 01:12:38,460

what we found in the archives or here's

2064

01:12:43,310 --> 01:12:41,699

some interesting footage or here's a UFO

2065

01:12:45,590 --> 01:12:43,320

we've caught on camera when we were

2066

01:12:48,530 --> 01:12:45,600

studying that's not what this is but

2067

01:12:52,729 --> 01:12:48,540

hopefully that bears some fruit that we

2068

01:12:55,250 --> 01:12:52,739

get a more well-funded well-rounded and

2069

01:12:56,930 --> 01:12:55,260

stringent program set up to really

2070

01:12:58,310 --> 01:12:56,940

investigate the subject from that point

2071

01:13:00,530 --> 01:12:58,320

of view with NASA and they would

2072

01:13:02,149 --> 01:13:00,540

obviously tie into potentially Arrow as

2073

01:13:04,070 --> 01:13:02,159

well

2074

01:13:05,510 --> 01:13:04,080

yeah absolutely you know Bill Nelson the

2075

01:13:07,490 --> 01:13:05,520

head of NASA he was one of the first

2076

01:13:09,590 --> 01:13:07,500

people briefed on those committees um so

2077

01:13:12,229 --> 01:13:09,600

he would have seen you know that kind of

2078

01:13:15,229 --> 01:13:12,239

23 minutes of sci-fi that we were told

2079

01:13:16,669 --> 01:13:15,239

existed in the form of UAP footage so

2080

01:13:19,010 --> 01:13:16,679

yeah we'll see this study plan being

2081

01:13:21,709 --> 01:13:19,020

unveiled what they need to to kind of

2082

01:13:23,510 --> 01:13:21,719

actually study this stuff and for all we

2083

01:13:25,070 --> 01:13:23,520

know in that report they could say yeah

2084

01:13:27,050 --> 01:13:25,080

we need access to the NASA archives

2085

01:13:28,430 --> 01:13:27,060

because it seems like there's um there's

2086

01:13:30,229 --> 01:13:28,440

some you know there's some smoke there

2087

01:13:32,030 --> 01:13:30,239

so there could be some fire there too so

2088

01:13:33,830 --> 01:13:32,040

we need to look like yeah that's

2089

01:13:35,990 --> 01:13:33,840

forthcoming and that'll be exciting to

2090

01:13:37,490 --> 01:13:36,000

see and the final moments Dan anything

2091

01:13:39,950 --> 01:13:37,500

else that you think's worth shouting

2092

01:13:41,930 --> 01:13:39,960

about coming up in 2023

2093

01:13:43,550 --> 01:13:41,940

uh well I've got a few things so I'll

2094

01:13:45,530 --> 01:13:43,560

just I'll list them really concerned

2095

01:13:47,270 --> 01:13:45,540

because I know we've gone over on time

2096

01:13:49,370 --> 01:13:47,280

uh so I'm sure we'll get some follow-up

2097

01:13:50,570 --> 01:13:49,380

to that Fusion news that we had um you

2098

01:13:52,729 --> 01:13:50,580

know they were using 20 year old

2099

01:13:54,290 --> 01:13:52,739

equipment that is now going to be

2100

01:13:56,030 --> 01:13:54,300

applied to more modern equipment so we

2101

01:13:58,130 --> 01:13:56,040

could see some amazing results there

2102

01:14:00,770 --> 01:13:58,140

we're gonna get Chris Bledsoe's book in

2103

01:14:02,570 --> 01:14:00,780

March uh UFO of God which whether you

2104

01:14:04,250 --> 01:14:02,580

agree or disagree it's information and

2105

01:14:05,810 --> 01:14:04,260

and you can kind of take it as you want

2106

01:14:07,189 --> 01:14:05,820

you know it would be really interesting

2107

01:14:09,050 --> 01:14:07,199

whatever happened on that one my

2108

01:14:10,850 --> 01:14:09,060

interview with Chris is already arranged

2109

01:14:13,250 --> 01:14:10,860

it's just literally waiting on the book

2110

01:14:14,870 --> 01:14:13,260

coming out to to talk about it so that

2111

01:14:16,610 --> 01:14:14,880

is that is happening for these questions

2112

01:14:18,610 --> 01:14:16,620

people that's sort of before or after

2113

01:14:21,530 --> 01:14:18,620

the book comes out

2114

01:14:23,510 --> 01:14:21,540

about that time okay I don't even think

2115

01:14:25,850 --> 01:14:23,520

they've got an exact date yet but it

2116

01:14:28,330 --> 01:14:25,860

should be about the week of release

2117

01:14:30,530 --> 01:14:28,340

cool that that's the last one

2118

01:14:32,149 --> 01:14:30,540

then we've got I'm sure we'll see some

2119

01:14:34,010 --> 01:14:32,159

new books this year from like a masters

2120

01:14:35,330 --> 01:14:34,020

Graham Randall uh they're always very

2121

01:14:36,649 --> 01:14:35,340

exciting

2122

01:14:38,930 --> 01:14:36,659

um and they could have some excellent

2123

01:14:40,370 --> 01:14:38,940

covers I'd recommend some folk watch the

2124

01:14:42,070 --> 01:14:40,380

new series of Ancient Aliens because you

2125

01:14:44,930 --> 01:14:42,080

might see a familiar face in there too

2126

01:14:46,490 --> 01:14:44,940

yes Ryan Sprague is Ryan spread

2127

01:14:48,890 --> 01:14:46,500

something yeah

2128

01:14:50,810 --> 01:14:48,900

um there will also be an experience of

2129

01:14:54,169 --> 01:14:50,820

study taking place in Cardiff in the UK

2130

01:14:56,149 --> 01:14:54,179

by Dr Daniel stubbins he's not kind of

2131

01:14:58,430 --> 01:14:56,159

talking to experiences to

2132

01:15:00,410 --> 01:14:58,440

to say whether their experiences are

2133

01:15:02,330 --> 01:15:00,420

real or not he's talking to them about

2134

01:15:03,830 --> 01:15:02,340

what they need to be helped I think this

2135

01:15:06,169 --> 01:15:03,840

is a really good place to start from

2136

01:15:08,209 --> 01:15:06,179

because yeah we we just need to take it

2137

01:15:09,770 --> 01:15:08,219

seriously it's going to be UK based

2138

01:15:12,830 --> 01:15:09,780

eight to ten people

2139

01:15:14,750 --> 01:15:12,840

um if you're in the UK and you've had an

2140

01:15:16,970 --> 01:15:14,760

experience and you know even consistent

2141

01:15:18,350 --> 01:15:16,980

experiences over your life uh get in

2142

01:15:20,330 --> 01:15:18,360

touch you know and you can pass things

2143

01:15:22,010 --> 01:15:20,340

on to me and I'll pass them on so now he

2144

01:15:23,330 --> 01:15:22,020

can pass them understand itself

2145

01:15:25,669 --> 01:15:23,340

um and it would be good to just to help

2146

01:15:28,189 --> 01:15:25,679

that happen we will probably get a

2147

01:15:29,810 --> 01:15:28,199

follow-up to some of the phosphine on

2148

01:15:31,610 --> 01:15:29,820

Venus news

2149

01:15:33,530 --> 01:15:31,620

um it's been a little while now since we

2150

01:15:35,030 --> 01:15:33,540

heard about that um a bunch of new

2151

01:15:37,490 --> 01:15:35,040

sensors are on their way to kind of the

2152

01:15:40,010 --> 01:15:37,500

planet to scan and see whether life is

2153

01:15:42,169 --> 01:15:40,020

there um or the processes of life

2154

01:15:43,910 --> 01:15:42,179

still undecided some agree some disagree

2155

01:15:45,950 --> 01:15:43,920

but basically more science on that front

2156

01:15:48,169 --> 01:15:45,960

so we should hear something there and

2157

01:15:49,970 --> 01:15:48,179

then the last thing for me would just be

2158

01:15:51,890 --> 01:15:49,980

on the first of second and second of

2159

01:15:53,570 --> 01:15:51,900

February this year

2160

01:15:55,570 --> 01:15:53,580

um go outside and look up

2161

01:15:57,430 --> 01:15:55,580

um there'll be a comment called

2162

01:16:00,590 --> 01:15:57,440

c2022

2163

01:16:02,630 --> 01:16:00,600

e3ztf kind of a great name everyone

2164

01:16:05,270 --> 01:16:02,640

knows that one yeah it was only

2165

01:16:06,590 --> 01:16:05,280

discovered in March last year uh it

2166

01:16:08,450 --> 01:16:06,600

should you should be able to see it with

2167

01:16:10,790 --> 01:16:08,460

a naked eye but

2168

01:16:12,890 --> 01:16:10,800

um it's not been this close to Earth in

2169

01:16:14,570 --> 01:16:12,900

about 50 000 years so make sure to go

2170

01:16:16,729 --> 01:16:14,580

see it

2171

01:16:20,090 --> 01:16:16,739

awesome and hopefully it's not that

2172

01:16:21,709 --> 01:16:20,100

close to us right yeah we're slightly

2173

01:16:22,970 --> 01:16:21,719

off in your calculations and we end up

2174

01:16:24,649 --> 01:16:22,980

with God what was the movie that came

2175

01:16:25,490 --> 01:16:24,659

out last year but it was the oh look at

2176

01:16:28,370 --> 01:16:25,500

him

2177

01:16:30,410 --> 01:16:28,380

yeah don't look up don't look at it yeah

2178

01:16:32,689 --> 01:16:30,420

that was that was that was a fun watch

2179

01:16:34,189 --> 01:16:32,699

but yeah and interesting

2180

01:16:36,290 --> 01:16:34,199

um but yeah lesson folks thanks very

2181

01:16:37,729 --> 01:16:36,300

much for listening this far in

2182

01:16:40,070 --> 01:16:37,739

um this one's going to go out next up

2183

01:16:42,290 --> 01:16:40,080

we've got Crest plane on the podcast

2184

01:16:43,430 --> 01:16:42,300

talking science technology and repented

2185

01:16:45,050 --> 01:16:43,440

at some of the things that are coming up

2186

01:16:47,090 --> 01:16:45,060

there as well really interesting chat

2187

01:16:49,729 --> 01:16:47,100

Steve Aspen will then be on to talk

2188

01:16:52,130 --> 01:16:49,739

about the intergenerational abduction

2189

01:16:53,870 --> 01:16:52,140

experience uh through his years of

2190

01:16:55,610 --> 01:16:53,880

research and investigations from his

2191

01:16:57,830 --> 01:16:55,620

book out of time you can check that one

2192

01:16:59,930 --> 01:16:57,840

out and we'll be recording hopefully in

2193

01:17:02,209 --> 01:16:59,940

the next week or so then the missing 4-1

2194

01:17:03,890 --> 01:17:02,219

win the UFO connection review that we

2195

01:17:05,209 --> 01:17:03,900

watched Before Christmas people are

2196

01:17:06,770 --> 01:17:05,219

asking about the David polidies

2197

01:17:07,970 --> 01:17:06,780

interview again I've heard back from his

2198

01:17:09,530 --> 01:17:07,980

people today

2199

01:17:12,110 --> 01:17:09,540

um it was double booked I was literally

2200

01:17:13,970 --> 01:17:12,120

sitting ready to record the waiting and

2201

01:17:15,229 --> 01:17:13,980

uh David never showed up no no hard

2202

01:17:18,169 --> 01:17:15,239

feelings it happens he was just double

2203

01:17:20,149 --> 01:17:18,179

booked and it didn't didn't realize so

2204

01:17:21,890 --> 01:17:20,159

I'm waiting on a rescheduling but David

2205

01:17:23,570 --> 01:17:21,900

should be coming back on

2206

01:17:25,310 --> 01:17:23,580

um and then as the canal next couple of

2207

01:17:28,070 --> 01:17:25,320

weeks go on I'll have some announcements

2208

01:17:30,050 --> 01:17:28,080

for guess for February as well a little

2209

01:17:32,750 --> 01:17:30,060

one on that Bryce Sable will be coming

2210

01:17:34,850 --> 01:17:32,760

on in February around president's week

2211

01:17:37,430 --> 01:17:34,860

and Bryce suggested actually we do a

2212

01:17:38,450 --> 01:17:37,440

show around presidents and UFOs so that

2213

01:17:40,250 --> 01:17:38,460

is something about how they're talking

2214

01:17:41,570 --> 01:17:40,260

to with Bryce so looking forward to that

2215

01:17:43,669 --> 01:17:41,580

one and make sure you check out brace

2216

01:17:46,010 --> 01:17:43,679

and Ross kiltarts podcast need to know

2217

01:17:47,930 --> 01:17:46,020

which is extremely popular always a good

2218

01:17:49,370 --> 01:17:47,940

listen and two very interesting

2219

01:17:50,810 --> 01:17:49,380

characters as well they've got great

2220

01:17:52,669 --> 01:17:50,820

voices for this kind of stuff don't they

2221

01:17:53,630 --> 01:17:52,679

they really do they did uh if people

2222

01:17:55,250 --> 01:17:53,640

aren't familiar with the Wilson

2223

01:17:57,169 --> 01:17:55,260

documents they did a reading of that

2224

01:17:58,790 --> 01:17:57,179

just before Christmas highly recommend

2225

01:18:00,050 --> 01:17:58,800

go and listen to it because yeah if you

2226

01:18:01,850 --> 01:18:00,060

can't be bothered to sit down and read

2227

01:18:04,370 --> 01:18:01,860

those documents there's not a more

2228

01:18:07,010 --> 01:18:04,380

entertaining way to do it in my opinion

2229

01:18:08,570 --> 01:18:07,020
