

CHRIS PLAIN
WHAT'S TO COME IN 2023

1
00:00:05,020 --> 00:00:02,869
this is Jim semivan and you are

2
00:00:09,710 --> 00:00:05,030
listening to that UFO podcast

3
00:00:15,169 --> 00:00:12,530
hi everyone and welcome back to that UFO

4
00:00:17,029 --> 00:00:15,179
podcast I have a guest with me making a

5
00:00:19,310 --> 00:00:17,039
second appearance on the show I'm

6
00:00:21,470 --> 00:00:19,320
delighted to be joined by science editor

7
00:00:24,349 --> 00:00:21,480
and head science writer at the debrief

8
00:00:26,570 --> 00:00:24,359
also a safe self-professed nerd

9
00:00:28,790 --> 00:00:26,580
published author and all-around good guy

10
00:00:30,589 --> 00:00:28,800
Chris playing Chris welcome back hey

11
00:00:32,089 --> 00:00:30,599
thanks for having me on again Andy it's

12
00:00:34,010 --> 00:00:32,099
pleasure

13
00:00:36,410 --> 00:00:34,020

no it's a good to have you back on

14

00:00:38,150 --> 00:00:36,420

listen and we got thrown into a little

15

00:00:40,850 --> 00:00:38,160

bit of disarray didn't we in minutes

16

00:00:43,610 --> 00:00:40,860

minutes before we were due to record the

17

00:00:46,549 --> 00:00:43,620

long delayed awaited

18

00:00:48,889 --> 00:00:46,559

rumored myth prophesized about UFO

19

00:00:52,850 --> 00:00:48,899

report that was due October 31st has

20

00:00:53,990 --> 00:00:52,860

dropped uh 12th of January 2023 so I

21

00:00:56,330 --> 00:00:54,000

think we kind of have to start there

22

00:00:59,209 --> 00:00:56,340

Chris don't we um we've got to caveat

23

00:01:01,250 --> 00:00:59,219

that by saying we've both had one run

24

00:01:04,789 --> 00:01:01,260

through of the report it's it's pretty

25

00:01:07,670 --> 00:01:04,799

limited as as many expected it covers 12

26
00:01:09,770 --> 00:01:07,680
Pages if you open up the PDF but bear in

27
00:01:12,289 --> 00:01:09,780
mind the first page is the front cover

28
00:01:15,469 --> 00:01:12,299
there's in a table of contents which is

29
00:01:17,929 --> 00:01:15,479
the the second page and then the last

30
00:01:22,249 --> 00:01:17,939
few pages are some reason appendixes

31
00:01:24,109 --> 00:01:22,259
glossary terms and all of that yep yeah

32
00:01:25,850 --> 00:01:24,119
um I'm going to say straight off the bat

33
00:01:28,370 --> 00:01:25,860
just looking and we're talking now half

34
00:01:31,429 --> 00:01:28,380
an hour worth of reaction online it

35
00:01:33,530 --> 00:01:31,439
seems to be underwhelming or what was

36
00:01:35,330 --> 00:01:33,540
expected depending on what side of the

37
00:01:37,969 --> 00:01:35,340
fence you're gonna fell down on is that

38
00:01:39,350 --> 00:01:37,979

fair from what you've seen yeah I think

39

00:01:42,710 --> 00:01:39,360

um

40

00:01:44,749 --> 00:01:42,720

it's so similar to the first report in

41

00:01:48,109 --> 00:01:44,759

the sense that it's like here's what

42

00:01:50,090 --> 00:01:48,119

we're doing here's our duties and we've

43

00:01:52,609 --> 00:01:50,100

had X number of cases I think there was

44

00:01:53,929 --> 00:01:52,619

over 500 that they referenced in this

45

00:01:55,969 --> 00:01:53,939

report and

46

00:01:59,630 --> 00:01:55,979

this many have been resolved this many

47

00:02:01,969 --> 00:01:59,640

haven't or at least categorized into a

48

00:02:04,429 --> 00:02:01,979

potentially resolved category

49

00:02:07,150 --> 00:02:04,439

I think that's all pretty perfunctory I

50

00:02:13,850 --> 00:02:07,160

think we're still looking for

51
00:02:16,490 --> 00:02:13,860
either you know videos photos or uh you

52
00:02:19,070 --> 00:02:16,500
know specific conclusions on things and

53
00:02:20,570 --> 00:02:19,080
I I still felt like it was really thin

54
00:02:22,430 --> 00:02:20,580
on any of that obviously there was no

55
00:02:25,970 --> 00:02:22,440
videos or photos at all

56
00:02:28,070 --> 00:02:25,980
and I do is that realistic though is it

57
00:02:29,990 --> 00:02:28,080
to expect photos and videos in one of

58
00:02:31,790 --> 00:02:30,000
these reports from the unclassified

59
00:02:34,130 --> 00:02:31,800
version anyway are we really going to

60
00:02:37,010 --> 00:02:34,140
get that you know uh when they did that

61
00:02:39,830 --> 00:02:37,020
uh the the one press conference on it

62
00:02:41,330 --> 00:02:39,840
they showed that real brief video or

63
00:02:43,550 --> 00:02:41,340

whatever that a lot of people you know

64

00:02:46,190 --> 00:02:43,560

we all kind of said was garbage there

65

00:02:48,229 --> 00:02:46,200

wasn't much to it I think maybe some

66

00:02:50,270 --> 00:02:48,239

hopes got up including mine that we

67

00:02:52,130 --> 00:02:50,280

might see something like that I still

68

00:02:53,690 --> 00:02:52,140

feel like

69

00:02:55,369 --> 00:02:53,700

um and this was something I was going to

70

00:02:57,949 --> 00:02:55,379

discuss regardless of whether the report

71

00:03:01,729 --> 00:02:57,959

came out I still feel like there's been

72

00:03:03,470 --> 00:03:01,739

a uh a data bubble uh uh that's been

73

00:03:05,210 --> 00:03:03,480

building with this

74

00:03:07,190 --> 00:03:05,220

you know Chris melons and these other

75

00:03:09,410 --> 00:03:07,200

types coming out constantly indicating

76

00:03:12,530 --> 00:03:09,420

that there's better foot video and

77

00:03:16,250 --> 00:03:12,540

better photos and things like that and

78

00:03:18,170 --> 00:03:16,260

none of that leaking out I mean really

79

00:03:20,210 --> 00:03:18,180

if you think about the dawn of the

80

00:03:24,290 --> 00:03:20,220

debrief and the discussion of the

81

00:03:25,610 --> 00:03:24,300

triangle photo which was two years and a

82

00:03:29,210 --> 00:03:25,620

month ago

83

00:03:31,790 --> 00:03:29,220

it doesn't really feel like any at least

84

00:03:34,330 --> 00:03:31,800

government capture data has been

85

00:03:38,690 --> 00:03:34,340

released there hasn't been any

86

00:03:41,270 --> 00:03:38,700

yet constant talk of more video and more

87

00:03:44,449 --> 00:03:41,280

photos and better photos and

88

00:03:46,850 --> 00:03:44,459

you know now since then elizondo's

89

00:03:48,589 --> 00:03:46,860

credibility has been cast into doubt a

90

00:03:51,410 --> 00:03:48,599

lot of these other the people that were

91

00:03:53,930 --> 00:03:51,420

championed that data have been cast into

92

00:03:56,210 --> 00:03:53,940

doubt so in many ways

93

00:03:59,030 --> 00:03:56,220

we've kind of Fallen back into the gray

94

00:04:01,490 --> 00:03:59,040

Zone that the UFO topic has been in for

95

00:04:02,809 --> 00:04:01,500

so long while at the same time making a

96

00:04:05,630 --> 00:04:02,819

lot of progress we have government

97

00:04:08,809 --> 00:04:05,640

offices looking at it and NASA looking

98

00:04:10,970 --> 00:04:08,819

at it and Avi lobe type projects and you

99

00:04:13,250 --> 00:04:10,980

know there's in one hand there feels

100

00:04:15,170 --> 00:04:13,260

like there's so much new going on

101
00:04:17,090 --> 00:04:15,180
and in the other hand when I look at

102
00:04:18,289 --> 00:04:17,100
this report today and I look at the

103
00:04:20,750 --> 00:04:18,299
summary

104
00:04:25,189 --> 00:04:20,760
you know I think about the Twining Memo

105
00:04:27,710 --> 00:04:25,199
from 1947 or project uh sign from 1948

106
00:04:28,969 --> 00:04:27,720
where they're kind of saying the same

107
00:04:31,850 --> 00:04:28,979
thing like

108
00:04:35,330 --> 00:04:31,860
people are seeing stuff flying around we

109
00:04:37,790 --> 00:04:35,340
can't identify all of it some of it may

110
00:04:39,590 --> 00:04:37,800
be exhibiting unusual flight

111
00:04:41,689 --> 00:04:39,600
characteristics

112
00:04:43,370 --> 00:04:41,699
as a matter of fact in the last report I

113
00:04:45,830 --> 00:04:43,380

thought we got more detail on that I

114

00:04:48,370 --> 00:04:45,840

thought they broke it down to

115

00:04:50,870 --> 00:04:48,380

if I remember right there were 21

116

00:04:52,749 --> 00:04:50,880

incidents that were broken down in the

117

00:04:55,610 --> 00:04:52,759

last report is potentially

118

00:04:58,010 --> 00:04:55,620

displaying anomalous or unusual flight

119

00:05:00,170 --> 00:04:58,020

characteristics and this one just kind

120

00:05:02,990 --> 00:05:00,180

of said ah there's some of those

121

00:05:05,629 --> 00:05:03,000

so uh it didn't really even give us a

122

00:05:08,629 --> 00:05:05,639

number on them this time

123

00:05:10,909 --> 00:05:08,639

so on the I get what you mean with 2022

124

00:05:12,710 --> 00:05:10,919

I think there was a lot of progress and

125

00:05:15,290 --> 00:05:12,720

a lot of regression it seemed at times

126
00:05:17,030 --> 00:05:15,300
people like Louis zondo Chris melon and

127
00:05:18,170 --> 00:05:17,040
others who had been quite prevalent for

128
00:05:20,810 --> 00:05:18,180
a couple of years

129
00:05:22,249 --> 00:05:20,820
took a step back maybe not in terms of

130
00:05:23,629 --> 00:05:22,259
what they're doing because many would

131
00:05:25,129 --> 00:05:23,639
say they're still working hard in the

132
00:05:27,290 --> 00:05:25,139
background still a lot going on but like

133
00:05:29,689 --> 00:05:27,300
you say I think with a lot of the the

134
00:05:31,310 --> 00:05:29,699
chatter online they just decided enough

135
00:05:32,689 --> 00:05:31,320
was enough and let's just go back to

136
00:05:34,430 --> 00:05:32,699
doing the work in the background and you

137
00:05:36,710 --> 00:05:34,440
can't blame them for some of the some of

138
00:05:38,689 --> 00:05:36,720

the heat they got but like you say it

139

00:05:40,850 --> 00:05:38,699

they're saying this void isn't there of

140

00:05:43,070 --> 00:05:40,860

people throwing questions which they

141

00:05:44,570 --> 00:05:43,080

don't have to answer but it kind of left

142

00:05:46,610 --> 00:05:44,580

that Gap and I'd like to think they're

143

00:05:48,409 --> 00:05:46,620

going to come back in 2023 at some point

144

00:05:49,850 --> 00:05:48,419

and make the triumphant return to kind

145

00:05:51,950 --> 00:05:49,860

of answer some of those questions but

146

00:05:53,330 --> 00:05:51,960

also help address maybe some of the

147

00:05:55,610 --> 00:05:53,340

issues people have not with them

148

00:05:57,469 --> 00:05:55,620

necessarily but with these reports the

149

00:05:59,570 --> 00:05:57,479

lack of information I'm sure Chris

150

00:06:00,950 --> 00:05:59,580

Mellon who we can refer to as one of

151
00:06:02,990 --> 00:06:00,960
your colleagues because he writes it the

152
00:06:04,370 --> 00:06:03,000
debrief now and again doesn't he Chris

153
00:06:05,990 --> 00:06:04,380
Mill and I would love to see one of his

154
00:06:07,550 --> 00:06:06,000
articles published on this and what his

155
00:06:09,770 --> 00:06:07,560
thoughts are I'm sure he's had that

156
00:06:11,150 --> 00:06:09,780
ready to go and he's just hovering his

157
00:06:13,310 --> 00:06:11,160
finger over the inner button just now

158
00:06:15,110 --> 00:06:13,320
and again to pick up what you mentioned

159
00:06:17,090 --> 00:06:15,120
about the report being very much similar

160
00:06:19,129 --> 00:06:17,100
to the first report we got in 2021

161
00:06:20,390 --> 00:06:19,139
you've got Star Wars was posted in the

162
00:06:22,430 --> 00:06:20,400
background which many of the YouTube

163
00:06:24,230 --> 00:06:22,440

viewers can see the Star Wars poster for

164

00:06:25,969 --> 00:06:24,240

those listening on audio there's a Star

165

00:06:29,870 --> 00:06:25,979

Wars but is it Revenge of the Sith it's

166

00:06:33,170 --> 00:06:29,880

it's actually revention which was the

167

00:06:36,290 --> 00:06:33,180

original name of the 1983 movie Return

168

00:06:38,330 --> 00:06:36,300

to the Jedi and uh these exclusive

169

00:06:42,950 --> 00:06:38,340

posters went out to fan club members

170

00:06:44,390 --> 00:06:42,960

which I was back in 1983 and uh then

171

00:06:46,610 --> 00:06:44,400

they changed the title because somebody

172

00:06:48,770 --> 00:06:46,620

pointed out to George Lucas that uh

173

00:06:51,710 --> 00:06:48,780

Jedis are good guys and they don't get

174

00:06:54,650 --> 00:06:51,720

revenge so they ended up changing it to

175

00:06:57,469 --> 00:06:54,660

Return of the Jedi so yes it's a it's a

176

00:07:00,529 --> 00:06:57,479

limited edition collectible poster one

177

00:07:02,930 --> 00:07:00,539

of the few limited edition anything nice

178

00:07:05,150 --> 00:07:02,940

I love that a dropping dropping movie

179

00:07:07,010 --> 00:07:05,160

bombs on here I like that what it

180

00:07:09,529 --> 00:07:07,020

reminded me of though is that many

181

00:07:11,809 --> 00:07:09,539

people said the episode seven uh a force

182

00:07:14,629 --> 00:07:11,819

awakens the newer of the trilogy the

183

00:07:16,730 --> 00:07:14,639

newer Trilogy was just a repeat of A New

184

00:07:19,249 --> 00:07:16,740

Hope and it was very similar almost

185

00:07:22,010 --> 00:07:19,259

almost a remake and I think the the

186

00:07:24,409 --> 00:07:22,020

report to bring it back to UFOs it seems

187

00:07:26,089 --> 00:07:24,419

like they've retread that ground and the

188

00:07:28,730 --> 00:07:26,099

new team that's been involved in making

189

00:07:30,770 --> 00:07:28,740

the new report Dr Sean Kirkpatrick and

190

00:07:33,110 --> 00:07:30,780

others they've had to come in and start

191

00:07:35,990 --> 00:07:33,120

from square one so as much as the report

192

00:07:37,430 --> 00:07:36,000

that came out in 2021 in June like you

193

00:07:40,370 --> 00:07:37,440

say probably had a bit more information

194

00:07:41,749 --> 00:07:40,380

and maybe we're thinking of that extra

195

00:07:43,070 --> 00:07:41,759

stuff that got released through John

196

00:07:44,450 --> 00:07:43,080

Greenwald and others on their fire

197

00:07:46,490 --> 00:07:44,460

requests

198

00:07:47,990 --> 00:07:46,500

these guys have had to go again and go

199

00:07:50,210 --> 00:07:48,000

okay here's what we've managed to put

200

00:07:51,589 --> 00:07:50,220

for the groundwork and as they say

201
00:07:53,870 --> 00:07:51,599
within the report going forward

202
00:07:56,270 --> 00:07:53,880
quarterly there will be the updates

203
00:07:58,309 --> 00:07:56,280
again you can't guarantee what kind of

204
00:07:59,510 --> 00:07:58,319
quality is going to come from those you

205
00:08:02,089 --> 00:07:59,520
mentioned numbers some of the numbers

206
00:08:05,330 --> 00:08:02,099
that are in this report is that there

207
00:08:08,029 --> 00:08:05,340
are 366 reports

208
00:08:10,790 --> 00:08:08,039
um or incidents been reported since the

209
00:08:14,210 --> 00:08:10,800
last report some of those are actually

210
00:08:15,830 --> 00:08:14,220
predating the June 2021 report but they

211
00:08:18,409 --> 00:08:15,840
weren't included in that report at the

212
00:08:20,390 --> 00:08:18,419
time so they could be before then

213
00:08:22,189 --> 00:08:20,400

um so overall that means since these

214

00:08:26,210 --> 00:08:22,199

reports were asked to be made there's

215

00:08:28,430 --> 00:08:26,220

over 510 or a total of 366 in the new

216

00:08:31,189 --> 00:08:28,440

one we don't see any information really

217

00:08:34,370 --> 00:08:31,199

at all on those other than of those

218

00:08:36,230 --> 00:08:34,380

reports that 53 are characterized as

219

00:08:38,949 --> 00:08:36,240

unremarkable

220

00:08:41,290 --> 00:08:38,959

they don't really then talk about the 47

221

00:08:44,690 --> 00:08:41,300

that would be

222

00:08:46,370 --> 00:08:44,700

remarkable because yeah yeah it's not

223

00:08:47,870 --> 00:08:46,380

unfairly see is it but again that's not

224

00:08:50,630 --> 00:08:47,880

to say that's not remarkable Chinese

225

00:08:52,730 --> 00:08:50,640

drones a remarkable Russian dolls or

226

00:08:54,769 --> 00:08:52,740

remarkable US tech that's accidentally

227

00:08:56,870 --> 00:08:54,779

been discovered by its own air force or

228

00:08:58,550 --> 00:08:56,880

navy but there's still that potential

229

00:08:59,269 --> 00:08:58,560

that there's some interesting stuff in

230

00:09:01,430 --> 00:08:59,279

there

231

00:09:02,750 --> 00:09:01,440

is it likely that's what's then going to

232

00:09:04,790 --> 00:09:02,760

be in the classified version of this

233

00:09:06,470 --> 00:09:04,800

report they get to see some of that more

234

00:09:08,570 --> 00:09:06,480

interesting stuff that would be my guess

235

00:09:11,389 --> 00:09:08,580

that would be the the key difference

236

00:09:14,570 --> 00:09:11,399

between the unclassified and classified

237

00:09:17,389 --> 00:09:14,580

versions and again I'm this is not

238

00:09:19,850 --> 00:09:17,399

exactly my area of expertise but I've

239

00:09:21,769 --> 00:09:19,860

already been in the chat with Tim

240

00:09:23,870 --> 00:09:21,779

McMillan and Micah Hanks and the rest of

241

00:09:26,690 --> 00:09:23,880

the debrief crew since this report came

242

00:09:30,470 --> 00:09:26,700

out and that is the impression I get

243

00:09:34,610 --> 00:09:30,480

that also uh they mentioned uh Airborne

244

00:09:36,590 --> 00:09:34,620

clutter and uh Tim thought that the way

245

00:09:38,449 --> 00:09:36,600

they worded it and again I don't want to

246

00:09:40,730 --> 00:09:38,459

put words in his mouth but we were just

247

00:09:43,250 --> 00:09:40,740

discussing this before I came on air

248

00:09:45,769 --> 00:09:43,260

that those might represent

249

00:09:48,889 --> 00:09:45,779

um electronic signal Gathering

250

00:09:52,250 --> 00:09:48,899

electronic intelligence or uh yeah

251
00:09:54,769 --> 00:09:52,260
exactly he called it massant uh you know

252
00:09:57,769 --> 00:09:54,779
uh sort of gathering so

253
00:09:58,970 --> 00:09:57,779
I think that's the stuff that they're

254
00:10:01,670 --> 00:09:58,980
always going to get in the classified

255
00:10:03,650 --> 00:10:01,680
report that we don't get is here's the

256
00:10:05,690 --> 00:10:03,660
advanced sensors or the advanced

257
00:10:07,670 --> 00:10:05,700
detection equipment that the military

258
00:10:11,570 --> 00:10:07,680
doesn't want to disclose that they're

259
00:10:14,329 --> 00:10:11,580
using to gather data on potential enemy

260
00:10:16,670 --> 00:10:14,339
military platforms or whatever

261
00:10:19,670 --> 00:10:16,680
and that it's picking this sort of stuff

262
00:10:22,730 --> 00:10:19,680
up so that would be my main guess would

263
00:10:28,130 --> 00:10:22,740

be yeah they're getting more detail on

264

00:10:30,889 --> 00:10:28,140

the uh the the 47 percent and then more

265

00:10:34,250 --> 00:10:30,899

detail on the advanced sensors and

266

00:10:35,930 --> 00:10:34,260

advanced systems that are being used and

267

00:10:37,610 --> 00:10:35,940

you know the the thing I always point

268

00:10:39,650 --> 00:10:37,620

out to people I say you know as a

269

00:10:42,410 --> 00:10:39,660

science writer

270

00:10:45,230 --> 00:10:42,420

I write on amazing things that are done

271

00:10:48,350 --> 00:10:45,240

civilian wise for instance I wrote one

272

00:10:51,290 --> 00:10:48,360

story about a team from MIT using high

273

00:10:54,050 --> 00:10:51,300

energy particles to scan the inside of

274

00:10:56,870 --> 00:10:54,060

the pyramid and the Great Pyramid of

275

00:10:59,750 --> 00:10:56,880

Giza and the reason that's applicable I

276

00:11:02,509 --> 00:10:59,760

think in this situation is there are

277

00:11:04,970 --> 00:11:02,519

ways that science people sit around and

278

00:11:06,829 --> 00:11:04,980

think about using information that's

279

00:11:09,110 --> 00:11:06,839

available that just other people don't

280

00:11:11,449 --> 00:11:09,120

think about so if you think of the

281

00:11:15,069 --> 00:11:11,459

massive budgets we pour into this stuff

282

00:11:17,810 --> 00:11:15,079

in the U.S and into our our military

283

00:11:20,449 --> 00:11:17,820

God only knows what some of those

284

00:11:22,790 --> 00:11:20,459

sensors do God only knows what some of

285

00:11:25,250 --> 00:11:22,800

the systems I mean you can you can

286

00:11:28,190 --> 00:11:25,260

guesstimate more advanced types of uh

287

00:11:31,790 --> 00:11:28,200

underwater detection and sonar grids or

288

00:11:33,250 --> 00:11:31,800

things like that but there are ways to

289

00:11:36,170 --> 00:11:33,260

detect information

290

00:11:38,810 --> 00:11:36,180

that are you know are

291

00:11:42,410 --> 00:11:38,820

would probably reveal a significant

292

00:11:43,850 --> 00:11:42,420

amount about the nature of UAP that

293

00:11:46,790 --> 00:11:43,860

would give a lot more information

294

00:11:48,829 --> 00:11:46,800

because of these Advanced data

295

00:11:50,150 --> 00:11:48,839

collection so I think that's the stuff

296

00:11:52,009 --> 00:11:50,160

people would get in the classified

297

00:11:54,590 --> 00:11:52,019

reports

298

00:11:56,630 --> 00:11:54,600

I I unfortunately think it might be

299

00:12:00,410 --> 00:11:56,640

something for the history books as far

300

00:12:02,870 --> 00:12:00,420

as you know ever finding out what that

301
00:12:05,690 --> 00:12:02,880
sort of data is and what those tools are

302
00:12:08,569 --> 00:12:05,700
people often talk about

303
00:12:10,370 --> 00:12:08,579
the U.S revealing the the stealth

304
00:12:13,130 --> 00:12:10,380
fighter and the stealth bomber during

305
00:12:16,430 --> 00:12:13,140
the Gulf War and that kind of being the

306
00:12:19,009 --> 00:12:16,440
last that's 30 years ago and that's the

307
00:12:20,990 --> 00:12:19,019
last time we really gotta hey here's a

308
00:12:23,750 --> 00:12:21,000
really cool secret military technology

309
00:12:26,509 --> 00:12:23,760
we've been working on for 30 years and

310
00:12:29,630 --> 00:12:26,519
we're going to let you all see it and uh

311
00:12:33,170 --> 00:12:29,640
it's not something we get very often and

312
00:12:35,329 --> 00:12:33,180
if anything with you know the rise of

313
00:12:38,090 --> 00:12:35,339

China and with the issues with the

314

00:12:40,730 --> 00:12:38,100

Russia now I think we're less likely

315

00:12:42,769 --> 00:12:40,740

than ever to be told hey here's the

316

00:12:45,230 --> 00:12:42,779

really cool toys we have and here's the

317

00:12:47,690 --> 00:12:45,240

type of data they collect

318

00:12:49,629 --> 00:12:47,700

I think the the rise of China was Star

319

00:12:52,250 --> 00:12:49,639

Wars episode 8 yes

320

00:12:54,110 --> 00:12:52,260

yeah yeah

321

00:12:56,449 --> 00:12:54,120

um what was interesting from the report

322

00:12:58,310 --> 00:12:56,459

and I suppose this is me forgive me

323

00:12:59,990 --> 00:12:58,320

folks that I'm really scraping the

324

00:13:02,329 --> 00:13:00,000

battle here for interesting being the

325

00:13:04,310 --> 00:13:02,339

word but they do list the number of

326

00:13:06,230 --> 00:13:04,320

Agents they name the agencies that have

327

00:13:08,870 --> 00:13:06,240

been involved in the data collection

328

00:13:11,930 --> 00:13:08,880

um including the the DIA the nro the NGA

329

00:13:14,269 --> 00:13:11,940

the NSA NASA the department of energy

330

00:13:16,069 --> 00:13:14,279

and and many many more

331

00:13:17,750 --> 00:13:16,079

some of those obviously stand out and

332

00:13:19,730 --> 00:13:17,760

like when you mention those sensors do

333

00:13:22,250 --> 00:13:19,740

you see things like geospatial sensors

334

00:13:24,350 --> 00:13:22,260

and you talk about why some of these

335

00:13:26,810 --> 00:13:24,360

can't be can't be discussed I I remember

336

00:13:28,790 --> 00:13:26,820

speaking to Gary Vorhees Patrick Hughes

337

00:13:30,590 --> 00:13:28,800

and Kevin day and they mentioned in

338

00:13:34,910 --> 00:13:30,600

terms of the Nimitz Princeton incident

339

00:13:37,790 --> 00:13:34,920

2004 that there was a an organization on

340

00:13:40,129 --> 00:13:37,800

the coast which has sensors that are

341

00:13:41,930 --> 00:13:40,139

looking for essentially missiles coming

342

00:13:44,810 --> 00:13:41,940

in and approaching the U.S coastline

343

00:13:46,310 --> 00:13:44,820

that picked up the Tic Tacs so again

344

00:13:47,990 --> 00:13:46,320

that's not something they're going to

345

00:13:49,370 --> 00:13:48,000

come out though and say oh yeah we'll

346

00:13:51,470 --> 00:13:49,380

give you our information while we're

347

00:13:53,150 --> 00:13:51,480

looking for ballistic InterContinental

348

00:13:55,730 --> 00:13:53,160

missiles that could hit the US and how

349

00:13:57,769 --> 00:13:55,740

we how we how we detect those and you do

350

00:14:00,170 --> 00:13:57,779

what we might have so that kind of stuff

351

00:14:02,569 --> 00:14:00,180

is never going to come out but it's

352

00:14:05,269 --> 00:14:02,579

interesting those organizations how much

353

00:14:06,889 --> 00:14:05,279

input they had is also up for Up For

354

00:14:08,690 --> 00:14:06,899

Debate because it could literally be

355

00:14:11,269 --> 00:14:08,700

trying Kirkpatrick sending an email to

356

00:14:12,650 --> 00:14:11,279

someone at Nasa NASA sending back a zip

357

00:14:13,970 --> 00:14:12,660

file saying here you go here's some

358

00:14:16,129 --> 00:14:13,980

stuff I've got have a look through it

359

00:14:17,569 --> 00:14:16,139

and then that's that's part of the study

360

00:14:19,250 --> 00:14:17,579

however it could be a lot more than that

361

00:14:21,350 --> 00:14:19,260

but we just don't know so it's

362

00:14:23,150 --> 00:14:21,360

interesting and at least encouraging to

363

00:14:25,850 --> 00:14:23,160

see that all these organizations

364

00:14:28,250 --> 00:14:25,860

are involved and they are being looked

365

00:14:29,810 --> 00:14:28,260

at but for Sean Kirkpatrick and Co it's

366

00:14:32,750 --> 00:14:29,820

been about six months

367

00:14:35,210 --> 00:14:32,760

it's a lot to ask them to put together a

368

00:14:37,069 --> 00:14:35,220

huge portfolio with all that information

369

00:14:39,650 --> 00:14:37,079

and I'll go back to

370

00:14:41,030 --> 00:14:39,660

to 2021 when we knew a report was coming

371

00:14:43,189 --> 00:14:41,040

the first time

372

00:14:45,530 --> 00:14:43,199

people like Luella zondo and Chris melon

373

00:14:48,230 --> 00:14:45,540

sat on mainstream news platforms telling

374

00:14:50,269 --> 00:14:48,240

people that it wasn't enough time six

375

00:14:52,310 --> 00:14:50,279

months or a year wasn't enough time to

376

00:14:55,069 --> 00:14:52,320

put together a comprehensive report it

377

00:14:56,750 --> 00:14:55,079

had to be two or three or four years

378

00:14:59,090 --> 00:14:56,760

to really put together something

379

00:15:00,829 --> 00:14:59,100

something meaty something that Congress

380

00:15:02,629 --> 00:15:00,839

and others could get their teeth into so

381

00:15:04,009 --> 00:15:02,639

people have to bear that in mind as well

382

00:15:06,710 --> 00:15:04,019

that while it seems that we've been back

383

00:15:09,350 --> 00:15:06,720

to square one from square one yeah well

384

00:15:12,410 --> 00:15:09,360

it's the quarterly reports coming that

385

00:15:15,829 --> 00:15:12,420

could see a lot I do think that that's

386

00:15:19,970 --> 00:15:15,839

the potential good news here

387

00:15:26,210 --> 00:15:22,670

The Grudge and led the blue book and if

388

00:15:29,329 --> 00:15:26,220

you look at that Arc excuse me

389

00:15:31,490 --> 00:15:29,339

that that was the the first effort was

390

00:15:33,410 --> 00:15:31,500

almost informal it was just hey that

391

00:15:35,449 --> 00:15:33,420

these guys went to General Twining and

392

00:15:37,910 --> 00:15:35,459

said get a bunch of science nerds

393

00:15:40,129 --> 00:15:37,920

together and figure out what people are

394

00:15:43,550 --> 00:15:40,139

seeing in the air and they came back and

395

00:15:45,829 --> 00:15:43,560

said yes stuff is being seen it's if if

396

00:15:48,110 --> 00:15:45,839

I remember the terminology used in that

397

00:15:51,050 --> 00:15:48,120

memo was it's not fictitious or

398

00:15:53,030 --> 00:15:51,060

Visionary but it's a real phenomenon is

399

00:15:55,790 --> 00:15:53,040

exhibiting anomalous flight

400

00:15:59,829 --> 00:15:55,800

characteristics and you know in many

401
00:16:03,050 --> 00:15:59,839
ways similar to that June 2021 report

402
00:16:06,050 --> 00:16:03,060
that kind of just acknowledged okay

403
00:16:08,210 --> 00:16:06,060
there's enough here to to to go ahead

404
00:16:10,850 --> 00:16:08,220
and move forward and have an official

405
00:16:14,509 --> 00:16:10,860
program so now we have the official

406
00:16:16,850 --> 00:16:14,519
program arrow and arrows doing their

407
00:16:19,150 --> 00:16:16,860
chapter one you know they're going all

408
00:16:22,550 --> 00:16:19,160
right this is now the official effort

409
00:16:25,370 --> 00:16:22,560
here's our first chapter and it it

410
00:16:27,829 --> 00:16:25,380
references the 2021 and it references

411
00:16:29,329 --> 00:16:27,839
the original in incidents and then it

412
00:16:32,030 --> 00:16:29,339
says here's all the new ones we've

413
00:16:34,970 --> 00:16:32,040

looked at since but in many ways the

414

00:16:36,889 --> 00:16:34,980

report is here's our definition of terms

415

00:16:38,990 --> 00:16:36,899

it was almost like a legal document in

416

00:16:40,370 --> 00:16:39,000

that way yeah here's the glossary of

417

00:16:42,650 --> 00:16:40,380

terms

418

00:16:44,150 --> 00:16:42,660

as you said here's the platforms that

419

00:16:46,490 --> 00:16:44,160

would that contributed or the

420

00:16:49,310 --> 00:16:46,500

organizations that contributed

421

00:16:52,850 --> 00:16:49,320

information uh I don't think we saw the

422

00:16:58,430 --> 00:16:55,370

um actually one of the dimensions of the

423

00:17:01,009 --> 00:16:58,440

Air Force was that it was mainly reports

424

00:17:02,990 --> 00:17:01,019

from Navy and Air Force aviators and

425

00:17:05,210 --> 00:17:03,000

operators so they're they're mentioned

426
00:17:06,770 --> 00:17:05,220
in terms of the reporting and where the

427
00:17:09,110 --> 00:17:06,780
reports are coming from so those would

428
00:17:12,770 --> 00:17:09,120
most likely be like pilot reports then

429
00:17:14,449 --> 00:17:12,780
yeah yeah I I think we're still what's

430
00:17:15,890 --> 00:17:14,459
interesting you know Chris melon you

431
00:17:18,530 --> 00:17:15,900
referenced he wrote a piece for the

432
00:17:21,470 --> 00:17:18,540
debrief a few months back asking where

433
00:17:25,850 --> 00:17:21,480
is the air force on this issue and what

434
00:17:28,250 --> 00:17:25,860
he went into uh in that piece was all

435
00:17:30,789 --> 00:17:28,260
the different types of technology and

436
00:17:33,830 --> 00:17:30,799
systems available Satellite Systems

437
00:17:35,270 --> 00:17:33,840
Advanced radar systems and and

438
00:17:38,270 --> 00:17:35,280

everything that the Air Force

439

00:17:41,510 --> 00:17:38,280

specifically has to

440

00:17:45,110 --> 00:17:41,520

you know have domain dominance to have a

441

00:17:47,510 --> 00:17:45,120

full information dominance of Aerospace

442

00:17:49,850 --> 00:17:47,520

just at the edge of the atmosphere and

443

00:17:52,789 --> 00:17:49,860

all the way down to ground level and

444

00:17:54,770 --> 00:17:52,799

everything they have the these and the

445

00:17:57,770 --> 00:17:54,780

the point he made was how much they

446

00:17:59,810 --> 00:17:57,780

dwarf the capabilities of the Navy that

447

00:18:02,330 --> 00:17:59,820

the Navy has a bunch of great technology

448

00:18:05,870 --> 00:18:02,340

and and has their own aviators and has

449

00:18:09,950 --> 00:18:05,880

to uh to monitor the skies as well but

450

00:18:12,409 --> 00:18:09,960

they're a significant fraction uh of of

451

00:18:16,070 --> 00:18:12,419

the capabilities

452

00:18:18,169 --> 00:18:16,080

are not the eyes of an Air Force pilot

453

00:18:19,690 --> 00:18:18,179

going hey I saw something weird flying

454

00:18:22,490 --> 00:18:19,700

around that's worth

455

00:18:24,350 --> 00:18:22,500

categorizing and grabbing but the

456

00:18:26,690 --> 00:18:24,360

follow-up to that the going back to the

457

00:18:29,510 --> 00:18:26,700

Air Force and as you said say what it

458

00:18:31,909 --> 00:18:29,520

what did our missile launch analysis

459

00:18:35,210 --> 00:18:31,919

system see what did our satellites see

460

00:18:38,390 --> 00:18:35,220

what did our uh Advance electronic

461

00:18:40,730 --> 00:18:38,400

intelligence sensors see so

462

00:18:43,430 --> 00:18:40,740

I still think that

463

00:18:45,830 --> 00:18:43,440

it one still gets the feeling that the

464

00:18:48,470 --> 00:18:45,840

group most equipped

465

00:18:51,409 --> 00:18:48,480

to discuss this and to really feed

466

00:18:53,390 --> 00:18:51,419

information to this office is still not

467

00:18:55,549 --> 00:18:53,400

doing that at least that's the

468

00:18:57,770 --> 00:18:55,559

impression I get so yeah as you said

469

00:19:00,669 --> 00:18:57,780

maybe some pilot reports

470

00:19:04,370 --> 00:19:00,679

but yeah my my initial reaction is

471

00:19:06,289 --> 00:19:04,380

you've still got you know the people who

472

00:19:08,870 --> 00:19:06,299

were the were asking all the general

473

00:19:11,330 --> 00:19:08,880

practitioners if it's cancer but the

474

00:19:14,690 --> 00:19:11,340

oncologist still isn't chiming in right

475

00:19:17,570 --> 00:19:14,700

and that's their area of expertise so in

476

00:19:20,810 --> 00:19:17,580

this particular case it still feels like

477

00:19:24,230 --> 00:19:20,820

for what whatever reason the Air Force

478

00:19:26,090 --> 00:19:24,240

is not participating at least at a a

479

00:19:28,190 --> 00:19:26,100

higher up level I do think it's

480

00:19:31,190 --> 00:19:28,200

particularly encouraging the the groups

481

00:19:33,650 --> 00:19:31,200

you pointed out the NOAA and NASA and

482

00:19:35,330 --> 00:19:33,660

these other ones are providing the

483

00:19:37,909 --> 00:19:35,340

information they have but again that

484

00:19:40,070 --> 00:19:37,919

feels like more General Practitioners

485

00:19:42,289 --> 00:19:40,080

that feels like more people say we got a

486

00:19:44,029 --> 00:19:42,299

little bit of data over here we got a

487

00:19:45,770 --> 00:19:44,039

little bit of data over there but the

488

00:19:49,370 --> 00:19:45,780

main group that one would really want to

489

00:19:52,029 --> 00:19:49,380

hear from that is their area to to uh to

490

00:19:54,650 --> 00:19:52,039

uh Patrol and and defend theoretically

491

00:19:57,289 --> 00:19:54,660

are not participating so that's the

492

00:20:00,049 --> 00:19:57,299

thing that jumps out to me I would also

493

00:20:02,029 --> 00:20:00,059

say that and just reiterate my initial

494

00:20:05,330 --> 00:20:02,039

point which is it feels like this is

495

00:20:07,909 --> 00:20:05,340

their chapter one that that the the 2021

496

00:20:09,529 --> 00:20:07,919

was like a triage you know hey yes we

497

00:20:11,630 --> 00:20:09,539

definitely have a damaged patient here

498

00:20:13,850 --> 00:20:11,640

let's get them in and then the

499

00:20:15,409 --> 00:20:13,860

preliminary assessment actually done by

500

00:20:17,210 --> 00:20:15,419

the the new group

501
00:20:19,669 --> 00:20:17,220
as you've pointed out and a lot of

502
00:20:23,090 --> 00:20:19,679
people pointed out not a lot of time to

503
00:20:26,090 --> 00:20:23,100
do it not a very big group to do it one

504
00:20:29,029 --> 00:20:26,100
one can be hopeful that

505
00:20:31,130 --> 00:20:29,039
at least it's being taken seriously that

506
00:20:33,110 --> 00:20:31,140
the report did actually finally come out

507
00:20:35,810 --> 00:20:33,120
I think that's significant in and of

508
00:20:37,909 --> 00:20:35,820
itself and that yeah they're they're

509
00:20:39,710 --> 00:20:37,919
listing incidents and they're still

510
00:20:43,370 --> 00:20:39,720
saying

511
00:20:45,710 --> 00:20:43,380
47 we don't know what they are and a

512
00:20:47,830 --> 00:20:45,720
huge at least some percentage of these I

513
00:20:50,150 --> 00:20:47,840

think they again mentioned

514

00:20:52,430 --> 00:20:50,160

anomalous or unconventional flight

515

00:20:56,870 --> 00:20:52,440

characteristics that's still in this

516

00:20:59,630 --> 00:20:56,880

report that hasn't been weeded out yet

517

00:21:01,070 --> 00:20:59,640

well Chris we often over it as literally

518

00:21:02,510 --> 00:21:01,080

as it's dropped we've not had a long

519

00:21:04,130 --> 00:21:02,520

time to look at it and a lot of dust

520

00:21:06,230 --> 00:21:04,140

will settle no doubt people will find

521

00:21:07,669 --> 00:21:06,240

particular wording that may or may not

522

00:21:09,710 --> 00:21:07,679

have changed or something that was

523

00:21:11,150 --> 00:21:09,720

interesting within it so we'll look

524

00:21:12,710 --> 00:21:11,160

forward to that happening over the

525

00:21:15,230 --> 00:21:12,720

coming days I'll be doing a breakdown

526
00:21:16,909 --> 00:21:15,240
with Dan in the coming days as well or

527
00:21:18,110 --> 00:21:16,919
it's already out depending when folks

528
00:21:20,630 --> 00:21:18,120
hear this

529
00:21:22,430 --> 00:21:20,640
um like you say one positive is that

530
00:21:24,950 --> 00:21:22,440
it's finally came out we waited for it

531
00:21:26,450 --> 00:21:24,960
for the last two months of 2022. it

532
00:21:28,370 --> 00:21:26,460
caused a bit of infighting with some

533
00:21:30,169 --> 00:21:28,380
folks online and whatnot as as you can

534
00:21:33,529 --> 00:21:30,179
expect with you know the old interweb

535
00:21:35,390 --> 00:21:33,539
these days but here we are in 2023 and

536
00:21:38,270 --> 00:21:35,400
so at least that's a positive to kind of

537
00:21:40,250 --> 00:21:38,280
kick off 2023 the reports here it's out

538
00:21:43,190 --> 00:21:40,260

and we can move forward looking onto

539

00:21:44,870 --> 00:21:43,200

those quarterly reports I finished 2022

540

00:21:47,029 --> 00:21:44,880

recording with your colleague Micah

541

00:21:48,770 --> 00:21:47,039

Hanks and we looked at the the year in

542

00:21:50,870 --> 00:21:48,780

review through different debrief

543

00:21:52,549 --> 00:21:50,880

articles it was really interesting so I

544

00:21:55,070 --> 00:21:52,559

want to ask you first before we look at

545

00:21:58,190 --> 00:21:55,080

2023 Chris what were some of your

546

00:21:59,870 --> 00:21:58,200

highlights of the past year I'll do

547

00:22:01,490 --> 00:21:59,880

that let me just jump in here real quick

548

00:22:03,590 --> 00:22:01,500

because you mentioned you're going to be

549

00:22:05,990 --> 00:22:03,600

going through this report with people uh

550

00:22:07,130 --> 00:22:06,000

with that I would you say Dr Clark I

551
00:22:10,330 --> 00:22:07,140
think you're going to be going through

552
00:22:15,289 --> 00:22:13,789
yeah so um towards that end and I

553
00:22:17,510 --> 00:22:15,299
mentioned this to you privately already

554
00:22:21,950 --> 00:22:17,520
but uh the debrief is going to be doing

555
00:22:23,510 --> 00:22:21,960
a uh a UFO Roundtable next week and it's

556
00:22:25,070 --> 00:22:23,520
something we've talked about doing for a

557
00:22:26,750 --> 00:22:25,080
while we thought the report wouldn't be

558
00:22:29,210 --> 00:22:26,760
out by then so one of the things we were

559
00:22:31,669 --> 00:22:29,220
going to cover is why is it delayed and

560
00:22:33,830 --> 00:22:31,679
what's going on as well but this is just

561
00:22:36,409 --> 00:22:33,840
a good time to sneak in and let you know

562
00:22:40,250 --> 00:22:36,419
that uh and let your audience know that

563
00:22:43,490 --> 00:22:40,260

uh I believe next uh Thursday so

564

00:22:46,909 --> 00:22:43,500

essentially a week from today around the

565

00:22:48,830 --> 00:22:46,919

around I think a 10 11 A.M Pacific time

566

00:22:51,830 --> 00:22:48,840

so about two Eastern here in the states

567

00:22:54,710 --> 00:22:51,840

uh we'll be jumping on I'll have Mike on

568

00:22:57,409 --> 00:22:54,720

I'll have Tim McMillan on of Chrissy

569

00:22:59,270 --> 00:22:57,419

Newton on and she's got lots of

570

00:23:02,510 --> 00:22:59,280

interesting stuff about Jacques Valley's

571

00:23:06,110 --> 00:23:02,520

new book and elizondo's book and James

572

00:23:07,970 --> 00:23:06,120

Fox's movie he's working on Micah has a

573

00:23:10,430 --> 00:23:07,980

lot and and I think that's what you just

574

00:23:12,289 --> 00:23:10,440

were kind of leading towards was stuff

575

00:23:13,669 --> 00:23:12,299

that the debrief has covered in the last

576

00:23:19,090 --> 00:23:13,679

year

577

00:23:22,070 --> 00:23:19,100

um which was uh you know uh FAA and uh

578

00:23:25,669 --> 00:23:22,080

aiaa and other organizations kind of

579

00:23:28,190 --> 00:23:25,679

getting involved in the process of at

580

00:23:30,529 --> 00:23:28,200

minimum Pilots having a way to report

581

00:23:32,570 --> 00:23:30,539

incidents that they're coming across and

582

00:23:35,029 --> 00:23:32,580

civilians and Military both have in a

583

00:23:38,570 --> 00:23:35,039

way so uh that's something we're going

584

00:23:40,430 --> 00:23:38,580

to do next week and hopefully by then uh

585

00:23:42,289 --> 00:23:40,440

there will be a little more clarity on

586

00:23:44,750 --> 00:23:42,299

this report and where things are going I

587

00:23:46,130 --> 00:23:44,760

know uh Micah was working on there

588

00:23:48,770 --> 00:23:46,140

should be a feature coming out in the

589

00:23:52,789 --> 00:23:48,780

debris here in the next couple hours and

590

00:23:55,190 --> 00:23:52,799

he was working on this uh for weeks now

591

00:23:57,230 --> 00:23:55,200

in anticipation the report coming out so

592

00:23:59,149 --> 00:23:57,240

I can tell you that he's got a big

593

00:24:02,570 --> 00:23:59,159

feature on this new report he's been

594

00:24:04,610 --> 00:24:02,580

reaching out to uh DOD and I believe

595

00:24:06,710 --> 00:24:04,620

melon and Elizondo and some of these

596

00:24:08,870 --> 00:24:06,720

people too so hopefully we have some

597

00:24:10,730 --> 00:24:08,880

some tasty quotes to serve the people

598

00:24:15,289 --> 00:24:10,740

from the debrief

599

00:24:17,270 --> 00:24:15,299

um as far as last year uh

600

00:24:19,010 --> 00:24:17,280

you know we really got our footing at

601
00:24:21,110 --> 00:24:19,020
the debrief in a very interesting way

602
00:24:22,970 --> 00:24:21,120
you know our numbers are up and you know

603
00:24:25,789 --> 00:24:22,980
the performance of the site in and of

604
00:24:26,510 --> 00:24:25,799
itself and we found a really interesting

605
00:24:30,049 --> 00:24:26,520
um

606
00:24:33,830 --> 00:24:30,059
really interesting uh process has taken

607
00:24:36,350 --> 00:24:33,840
place where the the science side and the

608
00:24:38,930 --> 00:24:36,360
UFO side have have started to meet each

609
00:24:41,570 --> 00:24:38,940
other in the middle a lot and I tell

610
00:24:43,490 --> 00:24:41,580
people this all the time I say you know

611
00:24:45,529 --> 00:24:43,500
I write a lot of articles about the

612
00:24:49,549 --> 00:24:45,539
search for life in the cosmos or whether

613
00:24:51,289 --> 00:24:49,559

it's a habitable exoplanets or a search

614

00:24:53,570 --> 00:24:51,299

for Life In The Clouds of Venus or

615

00:24:55,510 --> 00:24:53,580

things like that but as well as techno

616

00:24:58,490 --> 00:24:55,520

signatures the actual search for

617

00:25:01,370 --> 00:24:58,500

intelligent life with engineering and

618

00:25:02,990 --> 00:25:01,380

and equipment and uh one of the big

619

00:25:05,750 --> 00:25:03,000

highlights one of the things that came

620

00:25:09,230 --> 00:25:05,760

out right here at the end of the year uh

621

00:25:10,990 --> 00:25:09,240

was my piece on um uh the the group

622

00:25:14,750 --> 00:25:11,000

using the ligo

623

00:25:17,149 --> 00:25:14,760

telescope to look for uh warp Trails do

624

00:25:18,710 --> 00:25:17,159

you mind if I jump into that real quick

625

00:25:20,450 --> 00:25:18,720

no that was going to be my first one

626
00:25:21,350 --> 00:25:20,460
anyway so

627
00:25:22,789 --> 00:25:21,360
um

628
00:25:28,669 --> 00:25:22,799
it's really

629
00:25:32,390 --> 00:25:30,470
operating on their follow-up paper but

630
00:25:34,970 --> 00:25:32,400
for your for your listeners in short

631
00:25:38,510 --> 00:25:34,980
this is what's going on

632
00:25:39,950 --> 00:25:38,520
so way back in 1916 Albert Einstein

633
00:25:42,289 --> 00:25:39,960
predicted that there would be something

634
00:25:44,330 --> 00:25:42,299
called gravitational waves that things

635
00:25:46,490 --> 00:25:44,340
that were large enough had enough mass

636
00:25:49,310 --> 00:25:46,500
or things that were warping space-time

637
00:25:52,370 --> 00:25:49,320
like a warp drive uh although he wasn't

638
00:25:54,950 --> 00:25:52,380

thinking about warp drives in 1916 that

639

00:25:57,110 --> 00:25:54,960

would work space time and we should be

640

00:25:58,490 --> 00:25:57,120

able to detect that that using the right

641

00:26:01,430 --> 00:25:58,500

equipment we should be able to detect

642

00:26:06,049 --> 00:26:01,440

that it took a hundred years it wasn't

643

00:26:10,010 --> 00:26:06,059

until 2015 that this uh pair of lasers

644

00:26:12,950 --> 00:26:10,020

it's called the laser interferometer uh

645

00:26:14,930 --> 00:26:12,960

I forget uh I forget what Geo stands for

646

00:26:18,350 --> 00:26:14,940

always Observatory a gravitational

647

00:26:19,549 --> 00:26:18,360

Observatory so they have this laser all

648

00:26:22,010 --> 00:26:19,559

the way up in the northeast or

649

00:26:23,750 --> 00:26:22,020

Northwestern corner of the U.S in

650

00:26:28,010 --> 00:26:23,760

Washington they have one all the way

651
00:26:30,890 --> 00:26:28,020
down in the south east in Louisiana and

652
00:26:33,529 --> 00:26:30,900
they can point those at objects in space

653
00:26:34,850 --> 00:26:33,539
and by measuring differences and changes

654
00:26:40,250 --> 00:26:34,860
between those

655
00:26:42,409 --> 00:26:40,260
in 2015 they confirmed exactly what

656
00:26:44,930 --> 00:26:42,419
Einstein predicted a hundred years or in

657
00:26:47,990 --> 00:26:44,940
that case 99 years earlier

658
00:26:50,090 --> 00:26:48,000
the gravitational waves are a thing and

659
00:26:52,130 --> 00:26:50,100
they did it by looking at two black

660
00:26:54,649 --> 00:26:52,140
holes crashing into each other so a

661
00:26:56,870 --> 00:26:54,659
place where gravity was so extreme it's

662
00:26:59,690 --> 00:26:56,880
like okay if we're gonna pick it up

663
00:27:01,669 --> 00:26:59,700

we're gonna pick it up here but that

664

00:27:04,549 --> 00:27:01,679

actually won the researchers the uh

665

00:27:06,769 --> 00:27:04,559

Nobel Prize I mean it was a really uh in

666

00:27:09,110 --> 00:27:06,779

physics it was a really really huge

667

00:27:11,630 --> 00:27:09,120

Discovery and the reason it's

668

00:27:13,730 --> 00:27:11,640

significant for what for the search for

669

00:27:16,310 --> 00:27:13,740

extraterrestrial life and in particular

670

00:27:20,630 --> 00:27:16,320

the search for techno signatures like

671

00:27:23,570 --> 00:27:20,640

alien spacecraft uh is because it's a

672

00:27:25,789 --> 00:27:23,580

brand new tool that seems perfectly

673

00:27:26,690 --> 00:27:25,799

equipped to do this particular type of

674

00:27:31,250 --> 00:27:26,700

search

675

00:27:32,690 --> 00:27:31,260

and so and the reason is this

676
00:27:35,330 --> 00:27:32,700
so the the

677
00:27:39,230 --> 00:27:35,340
guy I spoke to is a guy named Johnny

678
00:27:43,669 --> 00:27:39,240
martire he's a runs a group called uh

679
00:27:45,769 --> 00:27:43,679
out of Sweden called uh applied physics

680
00:27:48,769 --> 00:27:45,779
and they're like a bell Labs they're a

681
00:27:50,350 --> 00:27:48,779
think tank that has over 30 physicists

682
00:27:54,370 --> 00:27:50,360
that work there

683
00:27:56,870 --> 00:27:54,380
and what they do is they analyze

684
00:27:58,730 --> 00:27:56,880
Technologies for for Venture Capital

685
00:28:00,950 --> 00:27:58,740
firms and things like that and determine

686
00:28:03,169 --> 00:28:00,960
the viability but one of the things

687
00:28:07,130 --> 00:28:03,179
Johnny the the founder and his partner

688
00:28:08,870 --> 00:28:07,140

Alexei bobrick did a year ago is they

689

00:28:10,310 --> 00:28:08,880

put out a paper on what they called a

690

00:28:11,870 --> 00:28:10,320

physical warp drive I know I'm giving

691

00:28:14,510 --> 00:28:11,880

you a lot of background here but this is

692

00:28:15,950 --> 00:28:14,520

gonna no so they put out on a paper on

693

00:28:19,549 --> 00:28:15,960

something called a physical warp drive

694

00:28:21,590 --> 00:28:19,559

and basically their goal was to take the

695

00:28:24,470 --> 00:28:21,600

theoretical warp drive that people like

696

00:28:26,710 --> 00:28:24,480

Sunny light white or Miguel alcubieri or

697

00:28:30,710 --> 00:28:26,720

some of these more famous uh uh

698

00:28:33,110 --> 00:28:30,720

mathematicians put together and say what

699

00:28:35,990 --> 00:28:33,120

would it take to build a real one like a

700

00:28:37,789 --> 00:28:36,000

physical is the term uh uh Johnny uses

701
00:28:38,570 --> 00:28:37,799
with me all the time a physical warp

702
00:28:41,390 --> 00:28:38,580
drive

703
00:28:44,269 --> 00:28:41,400
and they came up with a with a design

704
00:28:47,269 --> 00:28:44,279
that works at least from a mathematical

705
00:28:50,690 --> 00:28:47,279
and theoretical standpoint but also

706
00:28:53,510 --> 00:28:50,700
doesn't require any of the uh exotic

707
00:28:55,549 --> 00:28:53,520
matter or negative energy it doesn't

708
00:29:01,190 --> 00:28:55,559
have any of the what he calls the energy

709
00:29:03,769 --> 00:29:01,200
violations so it it's a sound plan

710
00:29:06,529 --> 00:29:03,779
if we have the engineering know-how

711
00:29:10,130 --> 00:29:06,539
to build a warp spacecraft and in

712
00:29:12,710 --> 00:29:10,140
particular a sound plan on how any

713
00:29:14,930 --> 00:29:12,720

civilization whether they're on another

714

00:29:18,169 --> 00:29:14,940

planet or here on Earth would build one

715

00:29:20,510 --> 00:29:18,179

because the physics constrained the way

716

00:29:23,510 --> 00:29:20,520

as he pointed out whether if there was

717

00:29:26,389 --> 00:29:23,520

water on Mars two billion years ago and

718

00:29:28,549 --> 00:29:26,399

you had a boat on Mars it would be

719

00:29:30,950 --> 00:29:28,559

shaped like boats on Earth because water

720

00:29:33,289 --> 00:29:30,960

is water and go traveling through water

721

00:29:35,149 --> 00:29:33,299

would have to be done with the shape of

722

00:29:37,850 --> 00:29:35,159

a boat you wouldn't you wouldn't have a

723

00:29:40,190 --> 00:29:37,860

square boat or a you know a boat that's

724

00:29:43,250 --> 00:29:40,200

a bunch of stick it would be shaped like

725

00:29:44,450 --> 00:29:43,260

a boat hole so in the physics constrains

726

00:29:46,730 --> 00:29:44,460

that

727

00:29:48,889 --> 00:29:46,740

so after they put out their warp drive

728

00:29:50,930 --> 00:29:48,899

paper

729

00:29:53,330 --> 00:29:50,940

they went about doing their business and

730

00:29:57,490 --> 00:29:53,340

living their life and a few months ago

731

00:30:01,970 --> 00:29:57,500

they got contacted uh by these two

732

00:30:04,669 --> 00:30:01,980

researchers from CERN and one of them is

733

00:30:07,250 --> 00:30:04,679

the associate dean of physics at

734

00:30:08,990 --> 00:30:07,260

Carnegie Mellon University so you know

735

00:30:11,510 --> 00:30:09,000

people that know Chris Mellon and know

736

00:30:13,010 --> 00:30:11,520

that family name that's as prestigious a

737

00:30:16,370 --> 00:30:13,020

university as there is in the U.S

738

00:30:19,250 --> 00:30:16,380

Carnegie Mellon and so these really high

739

00:30:22,730 --> 00:30:19,260

up researchers that work on the CERN uh

740

00:30:25,909 --> 00:30:22,740

you know super collider they reached out

741

00:30:29,570 --> 00:30:25,919

to Johnny and said hey we were reading

742

00:30:32,389 --> 00:30:29,580

your paper about the physical warp drive

743

00:30:34,730 --> 00:30:32,399

and it occurred to us that if some if

744

00:30:36,169 --> 00:30:34,740

some civilization was using this type of

745

00:30:38,930 --> 00:30:36,179

warp drive

746

00:30:41,510 --> 00:30:38,940

that we could detect it with ligo that

747

00:30:44,690 --> 00:30:41,520

the ligo observatory run by MIT and

748

00:30:47,269 --> 00:30:44,700

Caltech would actually pick it up and

749

00:30:49,970 --> 00:30:47,279

pick up the warp Trail

750

00:30:51,289 --> 00:30:49,980

um in space and then this this uh

751

00:30:52,789 --> 00:30:51,299

equipment we have would probably be

752

00:30:53,810 --> 00:30:52,799

strong have you ever thought about doing

753

00:30:56,029 --> 00:30:53,820

that

754

00:30:58,490 --> 00:30:56,039

and he was like no actually we haven't

755

00:31:00,350 --> 00:30:58,500

thought about that but they reached out

756

00:31:03,110 --> 00:31:00,360

to the people at ligo and they've been

757

00:31:06,549 --> 00:31:03,120

working behind the scenes and have had a

758

00:31:08,930 --> 00:31:06,559

positive reception and uh

759

00:31:10,909 --> 00:31:08,940

that's what they're in the process of

760

00:31:12,830 --> 00:31:10,919

doing now I can I can only say so much

761

00:31:15,230 --> 00:31:12,840

but the point is they had a paper come

762

00:31:17,750 --> 00:31:15,240

out and they have a part two paper and a

763

00:31:19,010 --> 00:31:17,760

part three paper showing the work that

764

00:31:22,789 --> 00:31:19,020

they're doing

765

00:31:25,490 --> 00:31:22,799

the data at ligo a lot of it is captured

766

00:31:27,110 --> 00:31:25,500

and stored so they don't even need to go

767

00:31:29,090 --> 00:31:27,120

in and say hey will you point the

768

00:31:31,789 --> 00:31:29,100

telescope here will you point it there

769

00:31:34,909 --> 00:31:31,799

they can just go in and dig through the

770

00:31:37,610 --> 00:31:34,919

recorded data and look through the signs

771

00:31:41,510 --> 00:31:37,620

for the the telltale signs of a warp

772

00:31:45,889 --> 00:31:41,520

signature or a warp spacecraft in that

773

00:31:48,769 --> 00:31:45,899

data across the entire Milky Way so as

774

00:31:52,149 --> 00:31:48,779

opposed to seti who's looking for radio

775

00:31:55,310 --> 00:31:52,159

waves or emissions and one little

776

00:31:56,930 --> 00:31:55,320

location in space at a time they got to

777

00:31:59,570 --> 00:31:56,940

point all the telescopes there and

778

00:32:01,549 --> 00:31:59,580

record the data and say did we see a

779

00:32:04,730 --> 00:32:01,559

radio transmission

780

00:32:07,970 --> 00:32:04,740

this has the ability to scan massive

781

00:32:11,510 --> 00:32:07,980

areas and if there are these Telltale

782

00:32:13,430 --> 00:32:11,520

signatures of a warp drive uh they

783

00:32:15,950 --> 00:32:13,440

believe they will pick it up they will

784

00:32:18,470 --> 00:32:15,960

they're actively going through that data

785

00:32:20,510 --> 00:32:18,480

now and the reason that's so exciting is

786

00:32:22,789 --> 00:32:20,520

because it's brand new we didn't you

787

00:32:26,570 --> 00:32:22,799

know that that paper that Nobel Prize

788

00:32:29,049 --> 00:32:26,580

was in 2017 the research was in 2015. it

789

00:32:33,169 --> 00:32:29,059

was published in 2016 and the paper was

790

00:32:35,690 --> 00:32:33,179

2017. so the ability to even use that

791

00:32:38,830 --> 00:32:35,700

tool and to look for something like this

792

00:32:42,350 --> 00:32:38,840

is a brand new ability it's a brand new

793

00:32:44,630 --> 00:32:42,360

uh hunt for techno signatures tool and

794

00:32:47,510 --> 00:32:44,640

system and the people that are talking

795

00:32:50,049 --> 00:32:47,520

to me about it that are doing it are

796

00:32:52,850 --> 00:32:50,059

legit high-end

797

00:32:54,470 --> 00:32:52,860

extremely reputable scientists as I said

798

00:32:56,289 --> 00:32:54,480

the one guy from Carnegie Mellon the

799

00:32:58,850 --> 00:32:56,299

other guy runs this massive Think Tank

800

00:33:00,889 --> 00:32:58,860

and they just happened to reach out to

801
00:33:03,529 --> 00:33:00,899
me to tell me about it because I wrote a

802
00:33:04,789 --> 00:33:03,539
paper on their work Theory a year and a

803
00:33:07,130 --> 00:33:04,799
half ago and he says I don't know if

804
00:33:09,169 --> 00:33:07,140
you'd be interested in this and of

805
00:33:10,730 --> 00:33:09,179
course you know obviously I did a whole

806
00:33:15,169 --> 00:33:10,740
feature on it and we've had multiple

807
00:33:17,810 --> 00:33:15,179
talks with them and uh uh he he he he

808
00:33:20,570 --> 00:33:17,820
won't give me anything concrete yet but

809
00:33:22,789 --> 00:33:20,580
he keeps teasing the possibility to me

810
00:33:25,909 --> 00:33:22,799
that when their next paper comes out

811
00:33:27,289 --> 00:33:25,919
sometime in the spring that they they're

812
00:33:28,909 --> 00:33:27,299
feeling like they might have some

813
00:33:31,190 --> 00:33:28,919

positive results

814

00:33:33,289 --> 00:33:31,200

and and

815

00:33:35,210 --> 00:33:33,299

the one thing I will add to this the

816

00:33:36,590 --> 00:33:35,220

example he used that I put in the

817

00:33:38,990 --> 00:33:36,600

article

818

00:33:41,990 --> 00:33:39,000

was imagine you're looking at a lake

819

00:33:45,830 --> 00:33:42,000

from overhead you're looking down at a

820

00:33:47,570 --> 00:33:45,840

cool Clear Lake and all of a sudden a

821

00:33:51,110 --> 00:33:47,580

boat goes by

822

00:33:52,310 --> 00:33:51,120

and a swimmer goes by and then a jet ski

823

00:33:54,889 --> 00:33:52,320

goes by

824

00:33:57,769 --> 00:33:54,899

they're gonna leave patterns in the

825

00:34:00,710 --> 00:33:57,779

water they're gonna leave a wake pattern

826

00:34:03,590 --> 00:34:00,720

behind them in the water that is water

827

00:34:06,830 --> 00:34:03,600

waves as opposed to gravitational waves

828

00:34:09,230 --> 00:34:06,840

but yeah using uh artificial

829

00:34:11,810 --> 00:34:09,240

intelligence and machine learning and

830

00:34:14,389 --> 00:34:11,820

with enough experience you could look at

831

00:34:17,990 --> 00:34:14,399

that and just look at the Wake pattern

832

00:34:20,990 --> 00:34:18,000

and go ah that was the boat that was the

833

00:34:23,450 --> 00:34:21,000

swimmer and that was the jet ski without

834

00:34:25,609 --> 00:34:23,460

actually seeing the boat the swimmer the

835

00:34:26,389 --> 00:34:25,619

jet ski but just the Wake pattern they

836

00:34:29,149 --> 00:34:26,399

leave

837

00:34:31,849 --> 00:34:29,159

so that's the exact way they're going to

838

00:34:35,089 --> 00:34:31,859

be looking or are currently looking for

839

00:34:38,270 --> 00:34:35,099

the telltale signs of either a massive

840

00:34:41,450 --> 00:34:38,280

spacecraft like the the they they term

841

00:34:44,149 --> 00:34:41,460

their uh thing ramadar because of Arthur

842

00:34:46,790 --> 00:34:44,159

C Clarke's rendezvous with Rama which

843

00:34:47,869 --> 00:34:46,800

had this massive spacecraft that's so

844

00:34:50,210 --> 00:34:47,879

big

845

00:34:51,889 --> 00:34:50,220

even if it's traveling five ten percent

846

00:34:54,649 --> 00:34:51,899

the speed of light

847

00:34:57,109 --> 00:34:54,659

it would create a gravitational wave

848

00:34:59,150 --> 00:34:57,119

behind it because of its size well if

849

00:35:01,970 --> 00:34:59,160

you have a little ship relatively little

850

00:35:04,970 --> 00:35:01,980

like the Starship Enterprise and it can

851
00:35:07,550 --> 00:35:04,980
go work Factor two work factor three and

852
00:35:09,589 --> 00:35:07,560
it's using a physical warp drive it's

853
00:35:13,790 --> 00:35:09,599
going to leave a wake pattern behind

854
00:35:15,310 --> 00:35:13,800
itself in gravitational waves so

855
00:35:18,550 --> 00:35:15,320
basically

856
00:35:22,310 --> 00:35:18,560
we've been looking for techno signatures

857
00:35:24,950 --> 00:35:22,320
with seti for 60 years and haven't

858
00:35:27,290 --> 00:35:24,960
picked them up this is a whole new tool

859
00:35:29,810 --> 00:35:27,300
to not just look for radio emissions but

860
00:35:33,290 --> 00:35:29,820
to really to look for hey is there a

861
00:35:35,870 --> 00:35:33,300
civilization out there using warp drive

862
00:35:39,050 --> 00:35:35,880
are they zooming around the stars with

863
00:35:41,810 --> 00:35:39,060

the warp drive spacecraft and if so they

864

00:35:44,390 --> 00:35:41,820

feel like they're going to pick them up

865

00:35:46,130 --> 00:35:44,400

yeah I think that's fascinating and that

866

00:35:47,930 --> 00:35:46,140

that's the way I thought of it was the

867

00:35:49,849 --> 00:35:47,940

the wake of a boat you know the Ripples

868

00:35:51,410 --> 00:35:49,859

and the water is that's what we're going

869

00:35:53,450 --> 00:35:51,420

to be able to actually pick up now from

870

00:35:54,890 --> 00:35:53,460

these craft it's like we have you know

871

00:35:56,630 --> 00:35:54,900

Jurassic Park when they've got the water

872

00:35:59,030 --> 00:35:56,640

to pick up the T-Rex we've now got the

873

00:35:59,690 --> 00:35:59,040

cup of water that we didn't have before

874

00:36:02,270 --> 00:35:59,700

um

875

00:36:04,430 --> 00:36:02,280

and I wonder though where we've got this

876

00:36:07,069 --> 00:36:04,440

capability now that we are looking out

877

00:36:09,530 --> 00:36:07,079

into the Milky Way and objects like

878

00:36:11,690 --> 00:36:09,540

omuumua that may have come past we can

879

00:36:13,730 --> 00:36:11,700

go in and dig into the the records and

880

00:36:14,870 --> 00:36:13,740

pick up where their gravitational waves

881

00:36:17,390 --> 00:36:14,880

detected

882

00:36:19,849 --> 00:36:17,400

how close to home then do you have any

883

00:36:21,589 --> 00:36:19,859

idea could that technology work and I'm

884

00:36:24,109 --> 00:36:21,599

thinking if there was a Phoenix Lights

885

00:36:27,650 --> 00:36:24,119

event could you appoint those lasers

886

00:36:30,950 --> 00:36:27,660

over Phoenix and check if there was

887

00:36:38,750 --> 00:36:30,960

gravitational waves left behind I my

888

00:36:45,349 --> 00:36:41,210

if they're looking for the ability of

889

00:36:48,109 --> 00:36:45,359

these two lasers uh but he did say as

890

00:36:50,109 --> 00:36:48,119

close as the moon in one part of our

891

00:36:52,970 --> 00:36:50,119

conversations which is

892

00:36:57,109 --> 00:36:52,980

220 000 miles not that far away at all

893

00:37:00,530 --> 00:36:57,119

so uh in astronomical terms so

894

00:37:02,690 --> 00:37:00,540

um you know the space station is 22 000

895

00:37:04,310 --> 00:37:02,700

miles out so it's about uh or you know

896

00:37:06,170 --> 00:37:04,320

I'm sorry the farthest geostationary

897

00:37:10,069 --> 00:37:06,180

satellite it's a space station is about

898

00:37:11,510 --> 00:37:10,079

220 miles out so about 10 of the way to

899

00:37:13,690 --> 00:37:11,520

the Moon is where our farthest

900

00:37:16,670 --> 00:37:13,700

satellites regularly Circle so

901
00:37:18,349 --> 00:37:16,680
astronomically close as far as looking

902
00:37:20,450 --> 00:37:18,359
for something right in the atmosphere

903
00:37:22,910 --> 00:37:20,460
that is a that's a good question that's

904
00:37:25,310 --> 00:37:22,920
something I will ask him I I do know

905
00:37:27,950 --> 00:37:25,320
that he's doing uh he's working on some

906
00:37:30,890 --> 00:37:27,960
other features for us as well and uh

907
00:37:33,589 --> 00:37:30,900
giving me some input on some other

908
00:37:37,490 --> 00:37:33,599
um I mentioned to you there was a very

909
00:37:41,990 --> 00:37:37,500
high profile UFO event in Chicago at the

910
00:37:44,510 --> 00:37:42,000
O'Hare Airport back in 2006 and he has

911
00:37:47,210 --> 00:37:44,520
some really interesting thoughts on what

912
00:37:47,890 --> 00:37:47,220
people saw there and what

913
00:37:50,930 --> 00:37:47,900

what

914

00:37:53,690 --> 00:37:50,940

could be a very realistic explanation

915

00:37:55,069 --> 00:37:53,700

and uh can you summarize though because

916

00:37:57,650 --> 00:37:55,079

some listeners might not be aware of

917

00:38:00,290 --> 00:37:57,660

what the Chicago Ohio incident is let's

918

00:38:01,910 --> 00:38:00,300

give us a brief so there was a my

919

00:38:03,950 --> 00:38:01,920

understanding of the incident it's not

920

00:38:05,569 --> 00:38:03,960

something I'm super expert on but I've

921

00:38:07,370 --> 00:38:05,579

discussed it with Micah Hanks to get a

922

00:38:11,329 --> 00:38:07,380

little more tuned up

923

00:38:13,970 --> 00:38:11,339

um basically uh people saw out over the

924

00:38:16,790 --> 00:38:13,980

runways they started getting calls up to

925

00:38:19,910 --> 00:38:16,800

the tower saying hey we're seeing

926
00:38:22,010 --> 00:38:19,920
something hover over one of the runways

927
00:38:26,150 --> 00:38:22,020
and it was a massive

928
00:38:28,370 --> 00:38:26,160
disc shaped object that looked like a

929
00:38:32,950 --> 00:38:28,380
you know like a classical bump on the

930
00:38:36,109 --> 00:38:32,960
top uh UFO disc sitting over the runway

931
00:38:39,470 --> 00:38:36,119
and initial reports were even that there

932
00:38:42,230 --> 00:38:39,480
was a picture taken or pictures taken by

933
00:38:44,050 --> 00:38:42,240
like some uh ground crew that were

934
00:38:46,550 --> 00:38:44,060
working on around some of the airplanes

935
00:38:48,829 --> 00:38:46,560
that again like a lot of these things

936
00:38:51,069 --> 00:38:48,839
has never surfaced and there's never

937
00:38:54,349 --> 00:38:51,079
been confirmation of it but

938
00:38:57,770 --> 00:38:54,359

then so people were seeing it they got

939

00:39:00,230 --> 00:38:57,780

number reports pilot reports crew

940

00:39:03,290 --> 00:39:00,240

reports civilian reports so there was

941

00:39:04,970 --> 00:39:03,300

this kind of sudden are you guys seeing

942

00:39:07,670 --> 00:39:04,980

that moment

943

00:39:09,770 --> 00:39:07,680

and then a huge percentage of the

944

00:39:14,150 --> 00:39:09,780

reports excuse me

945

00:39:18,890 --> 00:39:14,160

said that the the disk object suddenly

946

00:39:21,050 --> 00:39:18,900

shot straight up into the sky and like a

947

00:39:24,950 --> 00:39:21,060

Wiley Coyote running through the wall

948

00:39:28,430 --> 00:39:24,960

left a perfect circular hole in the

949

00:39:32,030 --> 00:39:28,440

dense cloud cover over Chicago and right

950

00:39:34,270 --> 00:39:32,040

where it had shot through so it's again

951

00:39:37,609 --> 00:39:34,280

it's an anecdotal

952

00:39:40,130 --> 00:39:37,619

observation only UFO event there's no

953

00:39:41,630 --> 00:39:40,140

radar there's no you know photos or

954

00:39:44,569 --> 00:39:41,640

anything we know of other than the

955

00:39:48,050 --> 00:39:44,579

allegations of some photos but

956

00:39:50,810 --> 00:39:48,060

um it was a huge event that had tons of

957

00:39:53,870 --> 00:39:50,820

uh tons of people react to it and had a

958

00:39:56,510 --> 00:39:53,880

lot of witnesses so it wasn't one of

959

00:39:59,089 --> 00:39:56,520

these you know uh two two guys out on a

960

00:40:02,990 --> 00:39:59,099

highway saw something this was over a

961

00:40:05,750 --> 00:40:03,000

big city over a big City airport and a

962

00:40:07,849 --> 00:40:05,760

very defined craft according to uh

963

00:40:09,670 --> 00:40:07,859

people that sought and then yeah it shot

964

00:40:13,130 --> 00:40:09,680

straight up and shot through the clouds

965

00:40:16,250 --> 00:40:13,140

uh almost like the the Calvin object

966

00:40:18,109 --> 00:40:16,260

right without the cloud part yes

967

00:40:20,150 --> 00:40:18,119

uh yeah and it was Daylight as well

968

00:40:22,310 --> 00:40:20,160

daytime it was like you say loads of

969

00:40:23,870 --> 00:40:22,320

witnesses airport I believe they shut

970

00:40:26,329 --> 00:40:23,880

the runway shut the airport for a short

971

00:40:27,829 --> 00:40:26,339

time so Chris obviously the article is

972

00:40:29,810 --> 00:40:27,839

due to come out have you got a rough

973

00:40:31,609 --> 00:40:29,820

date yet for release yeah I would say

974

00:40:33,349 --> 00:40:31,619

the end of the month so we're only a

975

00:40:36,170 --> 00:40:33,359

couple of weeks away

976
00:40:38,210 --> 00:40:36,180
um but yeah there's I don't want to come

977
00:40:41,030 --> 00:40:38,220
out and say definitively there's no

978
00:40:44,390 --> 00:40:41,040
evidence on that case but there's a new

979
00:40:46,670 --> 00:40:44,400
analysis of that case uh that may

980
00:40:48,950 --> 00:40:46,680
include some new evidence

981
00:40:51,650 --> 00:40:48,960
um that has an an interesting conclusion

982
00:40:54,410 --> 00:40:51,660
and again this is from a physics Think

983
00:40:56,410 --> 00:40:54,420
Tank that's that same group uh when I

984
00:40:58,910 --> 00:40:56,420
was working with them on their uh

985
00:41:01,010 --> 00:40:58,920
gravitational wave and looking for warp

986
00:41:02,810 --> 00:41:01,020
spacecraft he said you know I'd like to

987
00:41:05,089 --> 00:41:02,820
share something interesting with you uh

988
00:41:08,630 --> 00:41:05,099

since you guys do cover uaps and UFOs

989

00:41:11,569 --> 00:41:08,640

and uh and by the way something he's

990

00:41:13,130 --> 00:41:11,579

very interested in as well so I I tell

991

00:41:16,370 --> 00:41:13,140

people all the time

992

00:41:18,650 --> 00:41:16,380

this is the Dirty Little Secret uh among

993

00:41:21,470 --> 00:41:18,660

scientists is that uh they're all

994

00:41:24,109 --> 00:41:21,480

interested in UFOs and they all I mean

995

00:41:26,810 --> 00:41:24,119

the only time I've ever gotten

996

00:41:29,390 --> 00:41:26,820

resistance on it is people specifically

997

00:41:31,490 --> 00:41:29,400

like maybe an astrobiologist or two who

998

00:41:34,430 --> 00:41:31,500

their job is they're trying to find

999

00:41:36,230 --> 00:41:34,440

microbes on Mars and they get frustrated

1000

00:41:37,730 --> 00:41:36,240

when they hear people trying to jump to

1001
00:41:40,250 --> 00:41:37,740
the end of the book and go well what

1002
00:41:43,430 --> 00:41:40,260
about the the alien spacecraft hanging

1003
00:41:46,670 --> 00:41:43,440
out by the road so uh that's the only

1004
00:41:49,190 --> 00:41:46,680
but even astronomers astrophysicists a

1005
00:41:50,810 --> 00:41:49,200
lot of people that work in this area uh

1006
00:41:54,650 --> 00:41:50,820
it's something they're very interested

1007
00:41:56,750 --> 00:41:54,660
in and so uh yeah he's he's particularly

1008
00:41:59,750 --> 00:41:56,760
interested in that Chicago O'Hare

1009
00:42:02,150 --> 00:41:59,760
incident and has told me uh some pretty

1010
00:42:04,550 --> 00:42:02,160
interesting things about it is providing

1011
00:42:07,250 --> 00:42:04,560
me some new information and uh yeah I

1012
00:42:11,150 --> 00:42:07,260
would say the last week of January uh

1013
00:42:11,750 --> 00:42:11,160

I'll be putting out a feature about

1014

00:42:14,210 --> 00:42:11,760

um

1015

00:42:16,250 --> 00:42:14,220

some thoughts and some ideas and maybe

1016

00:42:19,849 --> 00:42:16,260

some new evidence regarding the Chicago

1017

00:42:22,849 --> 00:42:19,859

O'Hare UFO incident so and uh it's good

1018

00:42:24,470 --> 00:42:22,859

you know it's not uh it's it's not all

1019

00:42:25,970 --> 00:42:24,480

right he's looked at it he thinks it was

1020

00:42:28,310 --> 00:42:25,980

a weather balloon we'll we'll leave it

1021

00:42:29,990 --> 00:42:28,320

sure so I mean it could be a weather

1022

00:42:31,730 --> 00:42:30,000

balloon just from a different planet but

1023

00:42:34,670 --> 00:42:31,740

yeah that goes without saying you know

1024

00:42:38,450 --> 00:42:34,680

yep yep and I tell people all the time

1025

00:42:43,089 --> 00:42:38,460

since you went there uh uh I I do think

1026

00:42:46,130 --> 00:42:43,099

that it's very interesting to note that

1027

00:42:48,290 --> 00:42:46,140

scientists in particular and and people

1028

00:42:50,150 --> 00:42:48,300

that look for this this is where

1029

00:42:53,990 --> 00:42:50,160

everything is shifted you know Bill

1030

00:42:56,329 --> 00:42:54,000

Nelson NASA said when asked about UFOs

1031

00:42:59,329 --> 00:42:56,339

he said well this is what we do at Nasa

1032

00:43:03,050 --> 00:42:59,339

we look for alien life so why wouldn't

1033

00:43:04,849 --> 00:43:03,060

we look at UFOs and that's a major shift

1034

00:43:07,430 --> 00:43:04,859

I tell people all the time I say you

1035

00:43:10,370 --> 00:43:07,440

know when I grew up in the 70s and the

1036

00:43:12,829 --> 00:43:10,380

80s NASA was a space exploration

1037

00:43:15,710 --> 00:43:12,839

organization there may have been

1038

00:43:18,109 --> 00:43:15,720

somewhere in the charter there may have

1039

00:43:20,809 --> 00:43:18,119

been hey if you run into aliens go ahead

1040

00:43:22,790 --> 00:43:20,819

and report it but it wasn't it wasn't

1041

00:43:26,569 --> 00:43:22,800

expressly what they're looking for but

1042

00:43:28,069 --> 00:43:26,579

what they found is that not only is it

1043

00:43:30,050 --> 00:43:28,079

something The public's more interested

1044

00:43:33,109 --> 00:43:30,060

in but it's something their scientists

1045

00:43:35,569 --> 00:43:33,119

are more interested in so when they're

1046

00:43:37,910 --> 00:43:35,579

when the James Webb went up everybody

1047

00:43:39,950 --> 00:43:37,920

didn't go hey great is the James Webb

1048

00:43:44,230 --> 00:43:39,960

Telescope gonna find us some new Crab

1049

00:43:47,390 --> 00:43:44,240

Nebula or gonna find us uh you know a a

1050

00:43:49,370 --> 00:43:47,400

distant Galaxy no everyone's going hey

1051
00:43:52,069 --> 00:43:49,380
is that thing going to spot techno

1052
00:43:56,030 --> 00:43:52,079
signatures or bio signatures around

1053
00:44:00,109 --> 00:43:56,040
another Earth-like planet so that shift

1054
00:44:02,390 --> 00:44:00,119
is is real that shift is tangible NASA

1055
00:44:05,630 --> 00:44:02,400
and and the European European space

1056
00:44:09,770 --> 00:44:05,640
agency and groups like that there is a

1057
00:44:13,370 --> 00:44:09,780
massive internal shift towards hey let's

1058
00:44:16,730 --> 00:44:13,380
look for alien life because it seems so

1059
00:44:19,370 --> 00:44:16,740
far-fetched even in the 70s 80s

1060
00:44:21,710 --> 00:44:19,380
before the first exoplanets were found

1061
00:44:24,770 --> 00:44:21,720
and I tell people all the time there was

1062
00:44:27,710 --> 00:44:24,780
a you know I was 26 years old when the

1063
00:44:30,890 --> 00:44:27,720

first exoplanet was discovered and I was

1064

00:44:33,230 --> 00:44:30,900

past my college education and during

1065

00:44:36,349 --> 00:44:33,240

that time taking astronomy classes at

1066

00:44:38,390 --> 00:44:36,359

UCLA I had professors that were a

1067

00:44:41,089 --> 00:44:38,400

hundred percent sure there would be no

1068

00:44:43,670 --> 00:44:41,099

planets around other stars that our

1069

00:44:45,650 --> 00:44:43,680

solar system was and these are highly

1070

00:44:48,170 --> 00:44:45,660

credentialed UCLA is not an easy school

1071

00:44:49,790 --> 00:44:48,180

to get into much less get a job teaching

1072

00:44:52,490 --> 00:44:49,800

it and they were sure of it they were

1073

00:44:54,290 --> 00:44:52,500

like don't even fantasize about that it

1074

00:44:56,809 --> 00:44:54,300

doesn't exist and then I had other

1075

00:44:59,329 --> 00:44:56,819

professors that would say even if they

1076

00:45:00,890 --> 00:44:59,339

do exist we're not going to find a rocky

1077

00:45:03,190 --> 00:45:00,900

planets like Earth they're probably

1078

00:45:06,230 --> 00:45:03,200

extremely rare they're not going to be

1079

00:45:08,569 --> 00:45:06,240

uh the size of Earth and they're not

1080

00:45:10,370 --> 00:45:08,579

going to be in the habitable zone where

1081

00:45:12,290 --> 00:45:10,380

they could have water on the surface

1082

00:45:14,690 --> 00:45:12,300

which is the right distance from the the

1083

00:45:16,609 --> 00:45:14,700

their hosts star to have water well

1084

00:45:18,829 --> 00:45:16,619

guess what that's what we find all the

1085

00:45:22,309 --> 00:45:18,839

time time now I would literally put out

1086

00:45:25,010 --> 00:45:22,319

an article today about another Earth

1087

00:45:27,829 --> 00:45:25,020

size that is about 95 percent the size

1088

00:45:30,589 --> 00:45:27,839

of Earth rocky planet around a cool

1089

00:45:33,470 --> 00:45:30,599

mdorf star about a hundred light years

1090

00:45:35,870 --> 00:45:33,480

away that's in the habitable zone and

1091

00:45:37,370 --> 00:45:35,880

guess what there's three other planets

1092

00:45:39,890 --> 00:45:37,380

in that system

1093

00:45:42,470 --> 00:45:39,900

at least two of them are rocky planets

1094

00:45:45,349 --> 00:45:42,480

and at least one of those which is about

1095

00:45:49,190 --> 00:45:45,359

90 percent the size of Earth is in the

1096

00:45:51,650 --> 00:45:49,200

habitable zone so just the idea of

1097

00:45:53,930 --> 00:45:51,660

looking for Life on Mars looking for

1098

00:45:55,730 --> 00:45:53,940

Life In The Clouds of Venus but much

1099

00:45:58,250 --> 00:45:55,740

further looking for intelligent life

1100

00:46:01,190 --> 00:45:58,260

looking for societies on other planets

1101

00:46:05,030 --> 00:46:01,200

and technological societies is just

1102

00:46:06,950 --> 00:46:05,040

something that a strong modern day

1103

00:46:11,030 --> 00:46:06,960

scientists take for granted they are

1104

00:46:14,510 --> 00:46:11,040

just actively now looking for that so it

1105

00:46:17,329 --> 00:46:14,520

seems so far-fetched even 20 30 40 years

1106

00:46:18,650 --> 00:46:17,339

ago and now it's just something that

1107

00:46:20,390 --> 00:46:18,660

they're like oh no that's what we do

1108

00:46:22,430 --> 00:46:20,400

it's Bill Nielsen said oh that's what

1109

00:46:25,370 --> 00:46:22,440

NASA does why wouldn't we look for life

1110

00:46:27,470 --> 00:46:25,380

well that wasn't what NASA was doing in

1111

00:46:31,069 --> 00:46:27,480

the 70s and 80s when I was growing up

1112

00:46:33,710 --> 00:46:31,079

and they were particularly resistant to

1113

00:46:34,930 --> 00:46:33,720

talking about life on other planets now

1114

00:46:37,910 --> 00:46:34,940

they employ

1115

00:46:40,130 --> 00:46:37,920

astrobiologists people whose job it is

1116

00:46:41,809 --> 00:46:40,140

to look at environments on other planets

1117

00:46:45,170 --> 00:46:41,819

and say would this be a good place for

1118

00:46:47,930 --> 00:46:45,180

life at least as we know it you know so

1119

00:46:50,650 --> 00:46:47,940

that's something massive massive shift

1120

00:46:52,970 --> 00:46:50,660

and again it doesn't get into

1121

00:46:54,770 --> 00:46:52,980

trans-dimensional or time travel or some

1122

00:46:56,390 --> 00:46:54,780

of the other or Fantastical theories

1123

00:46:59,329 --> 00:46:56,400

that people are excited about for

1124

00:47:01,790 --> 00:46:59,339

possible explanation to UFOs none of

1125

00:47:04,910 --> 00:47:01,800

which I completely dismiss but I do

1126

00:47:06,470 --> 00:47:04,920

think it's it's important to note that

1127

00:47:10,069 --> 00:47:06,480

when they were talking about flying

1128

00:47:11,510 --> 00:47:10,079

saucers from another planet in 1947 they

1129

00:47:12,770 --> 00:47:11,520

didn't know there were other planets

1130

00:47:14,930 --> 00:47:12,780

they didn't know they would be earth

1131

00:47:15,950 --> 00:47:14,940

size or in the habitable zone and they

1132

00:47:17,510 --> 00:47:15,960

didn't know that they would be

1133

00:47:20,390 --> 00:47:17,520

everywhere everywhere we point

1134

00:47:21,530 --> 00:47:20,400

telescopes to look for planets we find

1135

00:47:24,410 --> 00:47:21,540

them

1136

00:47:26,270 --> 00:47:24,420

I wonder if some of these these

1137

00:47:28,370 --> 00:47:26,280

scientists and the changes in in the

1138

00:47:30,589 --> 00:47:28,380

viewers these were kids who were brought

1139

00:47:33,829 --> 00:47:30,599

up on the Star Trek series in the 60s

1140

00:47:35,630 --> 00:47:33,839

the 70s the Star Wars movies and now

1141

00:47:37,370 --> 00:47:35,640

we're getting the benefits of kids whose

1142

00:47:40,130 --> 00:47:37,380

maybe imaginations were sparked and

1143

00:47:42,589 --> 00:47:40,140

inspired by exploring planets on the

1144

00:47:44,750 --> 00:47:42,599

Enterprise and you know William Shatner

1145

00:47:46,670 --> 00:47:44,760

and Patrick Stewart and these guys that

1146

00:47:50,569 --> 00:47:46,680

they grew up with so they've taken that

1147

00:47:52,790 --> 00:47:50,579

into their adulthood that's that's

1148

00:47:55,609 --> 00:47:52,800

no more statement you have said has ever

1149

00:47:58,130 --> 00:47:55,619

been more true than that day that we

1150

00:48:00,109 --> 00:47:58,140

have an entire generation of scientists

1151

00:48:03,069 --> 00:48:00,119

or now multiple generations of

1152

00:48:05,809 --> 00:48:03,079

scientists who were raised on

1153

00:48:07,790 --> 00:48:05,819

forward-looking science fiction and who

1154

00:48:10,190 --> 00:48:07,800

are looking at it and I report on it

1155

00:48:13,550 --> 00:48:10,200

every day we're building laser beam

1156

00:48:16,910 --> 00:48:13,560

weapons we're building uh you know uh

1157

00:48:18,530 --> 00:48:16,920

all kinds of tractor beams all kinds of

1158

00:48:21,589 --> 00:48:18,540

stuff that you saw in science fiction

1159

00:48:23,630 --> 00:48:21,599

that would directly inspired researchers

1160

00:48:26,569 --> 00:48:23,640

that have directly inspired researchers

1161

00:48:28,190 --> 00:48:26,579

to say hey can we make a warp drive not

1162

00:48:30,170 --> 00:48:28,200

because it was something they sat around

1163

00:48:31,849 --> 00:48:30,180

thinking about on their own but because

1164

00:48:33,589 --> 00:48:31,859

they were watching Star Trek and went

1165

00:48:36,050 --> 00:48:33,599

hey warp drive I wonder if we could

1166

00:48:37,250 --> 00:48:36,060

build that a transporter I wonder if we

1167

00:48:39,410 --> 00:48:37,260

could build that

1168

00:48:41,750 --> 00:48:39,420

if there's Research into traveling by

1169

00:48:44,270 --> 00:48:41,760

wormles I guarantee people that research

1170

00:48:46,069 --> 00:48:44,280

traveling by wormholes watch Stargate

1171

00:48:47,450 --> 00:48:46,079

whether they admit it or not right

1172

00:48:48,589 --> 00:48:47,460

because people are traveling by

1173

00:48:50,569 --> 00:48:48,599

wormholes

1174

00:48:52,849 --> 00:48:50,579

so we have

1175

00:48:54,470 --> 00:48:52,859

more scientists than we've ever had just

1176

00:48:57,589 --> 00:48:54,480

by the sheer size of the Earth's

1177

00:49:00,410 --> 00:48:57,599

population we have a much broader base

1178

00:49:02,690 --> 00:49:00,420

of people because of diversity now in

1179

00:49:06,230 --> 00:49:02,700

those sort of stem programs so we have

1180

00:49:08,930 --> 00:49:06,240

just a whole wider range of perspectives

1181

00:49:13,210 --> 00:49:08,940

it's not just nerdy white guys with

1182

00:49:17,390 --> 00:49:13,220

calculators and glasses and we have

1183

00:49:20,030 --> 00:49:17,400

so many more tools and data and every

1184

00:49:23,030 --> 00:49:20,040

time we find more information

1185

00:49:24,890 --> 00:49:23,040

it seems to increase the chances for

1186

00:49:27,589 --> 00:49:24,900

life not decrease it we find more

1187

00:49:30,410 --> 00:49:27,599

planets more habitable zone planets we

1188

00:49:32,990 --> 00:49:30,420

found extremophiles here on Earth life

1189

00:49:36,349 --> 00:49:33,000

forms that live without sunlight or in

1190

00:49:38,630 --> 00:49:36,359

extreme environments so the the science

1191

00:49:41,630 --> 00:49:38,640

and the the body of human knowledge

1192

00:49:44,569 --> 00:49:41,640

scientifically continues to grow towards

1193

00:49:47,210 --> 00:49:44,579

Earth is not extraordinary in this sense

1194

00:49:48,650 --> 00:49:47,220

but Earth is ordinary I always tell

1195

00:49:51,650 --> 00:49:48,660

people I think it's funny that

1196

00:49:54,829 --> 00:49:51,660

scientists aren't more embracing of UFOs

1197

00:49:57,829 --> 00:49:54,839

or the idea of alien either craft or

1198

00:49:59,750 --> 00:49:57,839

probes coming here because that would be

1199

00:50:02,210 --> 00:49:59,760

consistent with the materialist point of

1200

00:50:04,430 --> 00:50:02,220

view you know the the magical thinking

1201
00:50:06,410 --> 00:50:04,440
point of view would say oh no Earth is

1202
00:50:08,329 --> 00:50:06,420
the only place with life because God

1203
00:50:10,849 --> 00:50:08,339
made us the center of the universe and

1204
00:50:12,890 --> 00:50:10,859
there's nothing like this anywhere the

1205
00:50:15,470 --> 00:50:12,900
materialist view which most scientists

1206
00:50:17,930 --> 00:50:15,480
the God is dead view would be exactly

1207
00:50:20,630 --> 00:50:17,940
the yeah there should be life everywhere

1208
00:50:23,569 --> 00:50:20,640
because the same elements the Earth are

1209
00:50:26,750 --> 00:50:23,579
made of are everywhere we spot

1210
00:50:28,730 --> 00:50:26,760
uh water around planets and the

1211
00:50:30,950 --> 00:50:28,740
atmospheres of planets all the time we

1212
00:50:32,990 --> 00:50:30,960
spot carbon dioxide it's all made of the

1213
00:50:35,390 --> 00:50:33,000

same stuff I tell people all the time

1214

00:50:37,550 --> 00:50:35,400

imagine you lived in a garden and there

1215

00:50:39,770 --> 00:50:37,560

were plants all around you and you found

1216

00:50:41,569 --> 00:50:39,780

out there are Gardens everywhere what

1217

00:50:43,490 --> 00:50:41,579

are the odds that none of those Gardens

1218

00:50:45,170 --> 00:50:43,500

have plants they have the same dirt they

1219

00:50:46,730 --> 00:50:45,180

have the same water they have the same

1220

00:50:51,109 --> 00:50:46,740

sunlight

1221

00:50:54,190 --> 00:50:51,119

so the idea that life is not only common

1222

00:50:56,569 --> 00:50:54,200

in the cosmos but but potentially

1223

00:51:00,650 --> 00:50:56,579

prevalent potentially at a very high

1224

00:51:03,049 --> 00:51:00,660

rate and that it is uh you know on the

1225

00:51:05,390 --> 00:51:03,059

grand scheme of time if we're just

1226

00:51:07,130 --> 00:51:05,400

you know launched into space really in

1227

00:51:10,730 --> 00:51:07,140

my lifetime I tell people all the time

1228

00:51:13,309 --> 00:51:10,740

we we walked on the moon 26 days after I

1229

00:51:16,609 --> 00:51:13,319

was born and I'm not that old you know

1230

00:51:19,069 --> 00:51:16,619

I'm 53 I'm not ancient yet and so just

1231

00:51:21,349 --> 00:51:19,079

in my lifetime we've seen so much

1232

00:51:24,829 --> 00:51:21,359

progress are we to believe that if the

1233

00:51:29,210 --> 00:51:24,839

cosmos is 13.8 billion years old and

1234

00:51:32,030 --> 00:51:29,220

we're 4.4 or whatever we are that in the

1235

00:51:34,130 --> 00:51:32,040

9 billion years leading up to Earth that

1236

00:51:36,890 --> 00:51:34,140

societies maybe haven't even come and

1237

00:51:39,650 --> 00:51:36,900

gone I mean when when George Lucas said

1238

00:51:41,690 --> 00:51:39,660

a long time ago in a galaxy far far away

1239

00:51:43,490 --> 00:51:41,700

I think that's something people people

1240

00:51:46,609 --> 00:51:43,500

would think about now it wouldn't seem

1241

00:51:48,109 --> 00:51:46,619

Fantastical at all to go societies may

1242

00:51:52,010 --> 00:51:48,119

have come and gone billions of times

1243

00:51:55,370 --> 00:51:52,020

across the cosmos much less exists with

1244

00:51:57,470 --> 00:51:55,380

us concurrently or contemporaneously or

1245

00:51:59,390 --> 00:51:57,480

much less send probes here to see what

1246

00:52:01,190 --> 00:51:59,400

we're doing or maybe even fly here if

1247

00:52:02,530 --> 00:52:01,200

they have the ability to exceed the the

1248

00:52:04,970 --> 00:52:02,540

speed of light

1249

00:52:06,710 --> 00:52:04,980

one more thing I want to mention on the

1250

00:52:09,530 --> 00:52:06,720

Chicago hair incident that really

1251

00:52:13,130 --> 00:52:09,540

interests me and why this event still

1252

00:52:15,349 --> 00:52:13,140

excites me it's not a Roswell which I've

1253

00:52:17,150 --> 00:52:15,359

said many times the the people involved

1254

00:52:19,670 --> 00:52:17,160

have passed on their grandchildren have

1255

00:52:21,349 --> 00:52:19,680

passed on the the records will be few

1256

00:52:23,750 --> 00:52:21,359

and far between the technology was

1257

00:52:25,069 --> 00:52:23,760

minimal for the time as well and it's

1258

00:52:27,170 --> 00:52:25,079

really one of those that's being

1259

00:52:29,750 --> 00:52:27,180

anecdotal and consigned to history until

1260

00:52:31,430 --> 00:52:29,760

such time we find out the truth and and

1261

00:52:34,970 --> 00:52:31,440

our government comes out and says here's

1262

00:52:37,910 --> 00:52:34,980

the documents Chicago here was 2005.

1263

00:52:41,809 --> 00:52:37,920

that's not long ago we had I'm right in

1264

00:52:44,750 --> 00:52:41,819

2005 yeah I think 2006 2006. it's within

1265

00:52:47,210 --> 00:52:44,760

you know the last 20 years and the

1266

00:52:49,130 --> 00:52:47,220

technology was good the satellites would

1267

00:52:51,290 --> 00:52:49,140

have been good the the radar would have

1268

00:52:52,549 --> 00:52:51,300

been good the the military technology

1269

00:52:54,109 --> 00:52:52,559

that would be protecting the United

1270

00:52:56,690 --> 00:52:54,119

States would be good

1271

00:52:58,910 --> 00:52:56,700

and would it have taken much at the time

1272

00:53:01,010 --> 00:52:58,920

or even now to go back and say on this

1273

00:53:02,750 --> 00:53:01,020

date at this time what do we have for

1274

00:53:04,370 --> 00:53:02,760

the Chicago area what did we pick up

1275

00:53:06,290 --> 00:53:04,380

entering the atmosphere what did we pick

1276
00:53:08,750 --> 00:53:06,300
up leaving you know that's something

1277
00:53:11,690 --> 00:53:08,760
that I'm sure at the time and on the day

1278
00:53:14,270 --> 00:53:11,700
there would be decent evidence for

1279
00:53:17,390 --> 00:53:14,280
and to bring it full circle to the new

1280
00:53:19,790 --> 00:53:17,400
report that came out today the aaro

1281
00:53:22,309 --> 00:53:19,800
report I think that's what people are

1282
00:53:24,109 --> 00:53:22,319
looking for I think that's what we want

1283
00:53:27,290 --> 00:53:24,119
to see we want to see them say okay

1284
00:53:30,170 --> 00:53:27,300
we've looked at Chicago in 2006 or or

1285
00:53:31,670 --> 00:53:30,180
the Nimitz incident in 2004 and we've

1286
00:53:33,290 --> 00:53:31,680
reached out to the Air Force and said

1287
00:53:35,150 --> 00:53:33,300
what satellites did you have pointed in

1288
00:53:37,730 --> 00:53:35,160

that area and we reached out to other

1289

00:53:39,829 --> 00:53:37,740

organizations and so what sensor systems

1290

00:53:42,589 --> 00:53:39,839

did you have looking at that area and

1291

00:53:44,990 --> 00:53:42,599

what did you see there and Chicago is a

1292

00:53:46,430 --> 00:53:45,000

perfect example because it's smack dab

1293

00:53:48,290 --> 00:53:46,440

in the middle of the continental United

1294

00:53:51,049 --> 00:53:48,300

States and the you know in the in the

1295

00:53:53,450 --> 00:53:51,059

Midwest and is somewhere where we should

1296

00:53:56,329 --> 00:53:53,460

have tons of coverage from weather

1297

00:53:58,790 --> 00:53:56,339

satellites to military satellites to

1298

00:54:01,910 --> 00:53:58,800

sensor systems on the ground to aerial

1299

00:54:04,490 --> 00:54:01,920

platforms flying around a-wax systems

1300

00:54:06,349 --> 00:54:04,500

things like that radar sonar and and

1301

00:54:08,750 --> 00:54:06,359

things we as we pointed out that we

1302

00:54:11,630 --> 00:54:08,760

don't know about there should be data

1303

00:54:14,510 --> 00:54:11,640

there should be the ability by an AAR

1304

00:54:16,849 --> 00:54:14,520

Pro to go back to an incident like that

1305

00:54:18,470 --> 00:54:16,859

and say all right we've narrowed it down

1306

00:54:20,809 --> 00:54:18,480

to this date and this time in this

1307

00:54:22,670 --> 00:54:20,819

location start reaching out to

1308

00:54:25,190 --> 00:54:22,680

organizations and saying what do you

1309

00:54:27,290 --> 00:54:25,200

have do you have anything from that date

1310

00:54:28,930 --> 00:54:27,300

and that type maybe a weather satellite

1311

00:54:31,130 --> 00:54:28,940

picked up some weird

1312

00:54:32,990 --> 00:54:31,140

electromagnetic anomaly there at the

1313

00:54:35,329 --> 00:54:33,000

time and it points towards it was an

1314

00:54:37,790 --> 00:54:35,339

atmospheric event or

1315

00:54:39,770 --> 00:54:37,800

who knows it doesn't have to you know

1316

00:54:41,809 --> 00:54:39,780

this is where we get into this military

1317

00:54:44,270 --> 00:54:41,819

secrecy issue and gets people so

1318

00:54:47,030 --> 00:54:44,280

frustrated because it feels like it's

1319

00:54:49,549 --> 00:54:47,040

something we should be very very easily

1320

00:54:51,829 --> 00:54:49,559

able to do we should be able to go back

1321

00:54:54,589 --> 00:54:51,839

pick a date and time and say what do we

1322

00:54:56,630 --> 00:54:54,599

have on file electronically what was

1323

00:54:59,030 --> 00:54:56,640

recorded at that date and that time in

1324

00:55:01,670 --> 00:54:59,040

that location from all these different

1325

00:55:02,870 --> 00:55:01,680

organizations that have observations in

1326
00:55:04,730 --> 00:55:02,880
that area

1327
00:55:06,109 --> 00:55:04,740
well Chris just before we finish up I've

1328
00:55:08,329 --> 00:55:06,119
got a couple more things I just want to

1329
00:55:09,650 --> 00:55:08,339
touch on one of the listeners Ryan he

1330
00:55:12,589 --> 00:55:09,660
asks if you've got any thoughts on

1331
00:55:14,569 --> 00:55:12,599
neuralink founded by Elon Musk and what

1332
00:55:16,309 --> 00:55:14,579
made me think this was particularly

1333
00:55:18,950 --> 00:55:16,319
relevant one you're obviously a science

1334
00:55:20,690 --> 00:55:18,960
guy in technology but Danny Sheehan's

1335
00:55:22,730 --> 00:55:20,700
comments on Coast to Coast about their

1336
00:55:25,730 --> 00:55:22,740
potentially having been a helmet

1337
00:55:28,670 --> 00:55:25,740
recovered in a crash retrieval that

1338
00:55:30,049 --> 00:55:28,680

helped telepathically pilot one of these

1339

00:55:31,730 --> 00:55:30,059

Craft

1340

00:55:35,089 --> 00:55:31,740

um and that's the kind of technology

1341

00:55:37,309 --> 00:55:35,099

that 10 15 20 years ago would have

1342

00:55:39,589 --> 00:55:37,319

sounded like still science fiction but

1343

00:55:42,170 --> 00:55:39,599

we're getting close to actually having

1344

00:55:44,329 --> 00:55:42,180

that sort of tech aren't we oh you know

1345

00:55:46,370 --> 00:55:44,339

I just wrote an article a few months ago

1346

00:55:47,870 --> 00:55:46,380

you know neurolink is evasive it's

1347

00:55:49,910 --> 00:55:47,880

something that they jammed the probe

1348

00:55:52,010 --> 00:55:49,920

down into your brain right but I was

1349

00:55:56,450 --> 00:55:52,020

writing about uh this group that

1350

00:55:58,130 --> 00:55:56,460

developed a helmet to let uh tetraplegic

1351
00:56:00,049 --> 00:55:58,140
so people that really can't even move

1352
00:56:02,809 --> 00:56:00,059
their shoulders or most of their neck or

1353
00:56:05,390 --> 00:56:02,819
anything but they can think about it

1354
00:56:08,089 --> 00:56:05,400
they put a helmet on them connect the

1355
00:56:09,710 --> 00:56:08,099
thing to their wheelchair use some

1356
00:56:11,569 --> 00:56:09,720
artificial intelligence software and

1357
00:56:13,670 --> 00:56:11,579
there's actually video on the debrief's

1358
00:56:16,309 --> 00:56:13,680
YouTube channel you can see this guy

1359
00:56:19,069 --> 00:56:16,319
it's from his point of view but he's

1360
00:56:22,370 --> 00:56:19,079
driving through an obstacle course his

1361
00:56:25,609 --> 00:56:22,380
wheelchair using his brain and that's

1362
00:56:27,530 --> 00:56:25,619
just again an external helmet not a not

1363
00:56:29,210 --> 00:56:27,540

a probe stuck down into your brain like

1364

00:56:31,490 --> 00:56:29,220

Elon Musk is doing

1365

00:56:33,950 --> 00:56:31,500

I think it's historically significant

1366

00:56:35,690 --> 00:56:33,960

you know uh there's a Clint Eastwood

1367

00:56:38,930 --> 00:56:35,700

movie from the 80s I can't remember the

1368

00:56:40,970 --> 00:56:38,940

name of it but he's flying a Russian air

1369

00:56:43,849 --> 00:56:40,980

airfighter airplane that has been

1370

00:56:46,849 --> 00:56:43,859

designed to you be controlled that way

1371

00:56:48,650 --> 00:56:46,859

he has a helmet on and he's flying the

1372

00:56:49,549 --> 00:56:48,660

plane and you control it with your

1373

00:56:51,710 --> 00:56:49,559

thoughts

1374

00:56:56,210 --> 00:56:51,720

that became

1375

00:56:58,069 --> 00:56:56,220

part of UFO lore when uh Colonel Corso

1376

00:57:00,109 --> 00:56:58,079

Philip Corso put out the book The Day

1377

00:57:01,970 --> 00:57:00,119

After Roswell and they talked about

1378

00:57:03,829 --> 00:57:01,980

something about that about potentially

1379

00:57:07,549 --> 00:57:03,839

this like strap they would wear around

1380

00:57:09,650 --> 00:57:07,559

their head and use it to control the the

1381

00:57:11,750 --> 00:57:09,660

spaceship I guess control the sauce or

1382

00:57:12,950 --> 00:57:11,760

whatever may or may not have crashed

1383

00:57:14,930 --> 00:57:12,960

there

1384

00:57:17,270 --> 00:57:14,940

so yeah I think we went from again

1385

00:57:19,069 --> 00:57:17,280

something that appeared in science

1386

00:57:21,290 --> 00:57:19,079

fiction appeared as like oh that's a

1387

00:57:23,630 --> 00:57:21,300

cool idea to

1388

00:57:25,250 --> 00:57:23,640

you know I I have doubts on Corso's

1389

00:57:27,109 --> 00:57:25,260

claims but nonetheless was something

1390

00:57:29,390 --> 00:57:27,119

that was being talked about even 30

1391

00:57:32,870 --> 00:57:29,400

years ago and now is something we're

1392

00:57:34,849 --> 00:57:32,880

doing something that Elon Musk has uh

1393

00:57:37,010 --> 00:57:34,859

monkeys playing pong with the neural

1394

00:57:40,849 --> 00:57:37,020

link I we have that video on the on the

1395

00:57:44,870 --> 00:57:40,859

YouTube as well so I not only do I think

1396

00:57:47,329 --> 00:57:44,880

it's uh do I think that the the we have

1397

00:57:48,770 --> 00:57:47,339

a crash saucer that they had a helmet

1398

00:57:50,630 --> 00:57:48,780

and that's what they were using or a

1399

00:57:52,790 --> 00:57:50,640

crash ship I don't know how it you know

1400

00:57:56,210 --> 00:57:52,800

I have no idea but I can tell you that

1401

00:58:00,230 --> 00:57:56,220

again it's a a technology associated

1402

00:58:02,030 --> 00:58:00,240

with the Mythos of UFOs that is real it

1403

00:58:05,170 --> 00:58:02,040

is something that we are working on now

1404

00:58:11,270 --> 00:58:05,180

I wrote about Johns Hopkins University

1405

00:58:13,309 --> 00:58:11,280

uh a year ago uh they uh they used uh

1406

00:58:15,470 --> 00:58:13,319

they connected a guy to like a neuralink

1407

00:58:17,630 --> 00:58:15,480

type device again he had no movement of

1408

00:58:21,349 --> 00:58:17,640

his arms or legs and he was able to

1409

00:58:23,930 --> 00:58:21,359

control robotic arms pick up a knife

1410

00:58:26,750 --> 00:58:23,940

put a Twinkie on a plate cut a piece of

1411

00:58:28,609 --> 00:58:26,760

it off stick the fork into it and put

1412

00:58:31,670 --> 00:58:28,619

the twinkie in his mouth and for this

1413

00:58:33,890 --> 00:58:31,680

guy it was a transformative event he

1414

00:58:35,930 --> 00:58:33,900

hadn't been able to feed himself in 30

1415

00:58:38,349 --> 00:58:35,940

years or something the buzz the the

1416

00:58:40,970 --> 00:58:38,359

patient and all of a sudden hearing was

1417

00:58:42,230 --> 00:58:40,980

controlling robotic arms to do it

1418

00:58:44,510 --> 00:58:42,240

through software and through an

1419

00:58:47,870 --> 00:58:44,520

interface so yeah I think

1420

00:58:49,670 --> 00:58:47,880

whether or not it's something that you

1421

00:58:52,250 --> 00:58:49,680

know it could be something she and again

1422

00:58:54,109 --> 00:58:52,260

like I say it was a in a movie in the in

1423

00:58:56,210 --> 00:58:54,119

the 70s or 80s the Clint Eastwood movie

1424

00:58:59,809 --> 00:58:56,220

was it was part of the Lord because of

1425

00:59:01,730 --> 00:58:59,819

uh Corso so whether she is just picking

1426
00:59:04,069 --> 00:59:01,740
through the lore and saying hey here's

1427
00:59:06,770 --> 00:59:04,079
something that cool that could exist I

1428
00:59:08,270 --> 00:59:06,780
don't know but if it did exist it would

1429
00:59:10,609 --> 00:59:08,280
be consistent with the way we understand

1430
00:59:12,890 --> 00:59:10,619
science and the way we understand brain

1431
00:59:15,109 --> 00:59:12,900
signals that you can interpret brain

1432
00:59:17,210 --> 00:59:15,119
signals and uh in the case the guy

1433
00:59:18,530 --> 00:59:17,220
driving the wheelchair if you want to

1434
00:59:20,510 --> 00:59:18,540
turn left he would just think about

1435
00:59:22,069 --> 00:59:20,520
moving his left arm and since his left

1436
00:59:24,770 --> 00:59:22,079
arm doesn't move

1437
00:59:27,410 --> 00:59:24,780
the chair would go left right and same

1438
00:59:29,210 --> 00:59:27,420

with his right arm or whatever so uh

1439

00:59:31,130 --> 00:59:29,220

yeah it's technologically viable and

1440

00:59:33,349 --> 00:59:31,140

something we're working on now

1441

00:59:35,089 --> 00:59:33,359

it makes me think that Elon Musk really

1442

00:59:37,970 --> 00:59:35,099

doesn't help himself does anyway you've

1443

00:59:39,650 --> 00:59:37,980

got these organizations have how to play

1444

00:59:42,349 --> 00:59:39,660

Jake's tetraplegics and people with

1445

00:59:44,030 --> 00:59:42,359

disabilities helping themselves and have

1446

00:59:46,430 --> 00:59:44,040

these experiences that we take for

1447

00:59:48,530 --> 00:59:46,440

granted and Elon musk's got chimps

1448

00:59:49,970 --> 00:59:48,540

playing Punk so you know sometimes

1449

00:59:51,770 --> 00:59:49,980

you've got to just take a look at that

1450

00:59:52,849 --> 00:59:51,780

Elon and you know are you doing the

1451

00:59:54,650 --> 00:59:52,859

right thing

1452

00:59:56,089 --> 00:59:54,660

um one thing I want to know before we

1453

00:59:57,650 --> 00:59:56,099

head off Chris you've been great with

1454

01:00:00,049 --> 00:59:57,660

your time and things changed so last

1455

01:00:05,089 --> 01:00:02,270

or whether any articles you are trying

1456

01:00:07,430 --> 01:00:05,099

to write in 2022 or leads you are

1457

01:00:09,589 --> 01:00:07,440

chasing for exciting stories that just

1458

01:00:11,870 --> 01:00:09,599

never quite came to fruition

1459

01:00:14,210 --> 01:00:11,880

yeah

1460

01:00:16,789 --> 01:00:14,220

um so we get a lot of leads you know one

1461

01:00:19,210 --> 01:00:16,799

of the unique things about being at the

1462

01:00:22,609 --> 01:00:19,220

debrief in the position we're in is

1463

01:00:25,789 --> 01:00:22,619

scientists send me things engineers send

1464

01:00:28,789 --> 01:00:25,799

me things UFO curious people send me

1465

01:00:31,130 --> 01:00:28,799

things and uh as well as to the the main

1466

01:00:35,510 --> 01:00:31,140

debrief account and sometimes we get

1467

01:00:38,510 --> 01:00:35,520

leads on video or UFO phone or something

1468

01:00:40,250 --> 01:00:38,520

like that or again like a a new piece of

1469

01:00:43,730 --> 01:00:40,260

technology that's being developed

1470

01:00:46,430 --> 01:00:43,740

secretly or something like that and it

1471

01:00:48,530 --> 01:00:46,440

doesn't pan out so

1472

01:00:51,530 --> 01:00:48,540

um I'm trying to think if I have a great

1473

01:00:54,470 --> 01:00:51,540

example of something you know or uh

1474

01:00:57,289 --> 01:00:54,480

sometimes you know we did a report in

1475

01:00:59,089 --> 01:00:57,299

May on uh we call it the border patrol

1476

01:01:02,150 --> 01:00:59,099

Bob story because that was the guy's

1477

01:01:04,430 --> 01:01:02,160

name but it was basically saying that

1478

01:01:07,730 --> 01:01:04,440

the people who work the borders in the

1479

01:01:09,250 --> 01:01:07,740

U.S the border patrol are seeing UFOs

1480

01:01:12,650 --> 01:01:09,260

they're seeing UAP

1481

01:01:14,450 --> 01:01:12,660

yeah yeah and they're they're heard a

1482

01:01:16,970 --> 01:01:14,460

number of reports in there of different

1483

01:01:18,109 --> 01:01:16,980

incidents and different witness claims

1484

01:01:20,210 --> 01:01:18,119

and stuff

1485

01:01:21,650 --> 01:01:20,220

but it had a really crappy piece of

1486

01:01:24,770 --> 01:01:21,660

video to go with it that was probably

1487

01:01:27,530 --> 01:01:24,780

just some birds right so being the UFO

1488

01:01:30,109 --> 01:01:27,540

Community everybody focused on the birds

1489

01:01:32,750 --> 01:01:30,119

and maybe lost sight of the fact that

1490

01:01:34,370 --> 01:01:32,760

not only is the Navy reporting they're

1491

01:01:35,870 --> 01:01:34,380

seeing things which is kind of what has

1492

01:01:38,930 --> 01:01:35,880

spurred everything in the last few years

1493

01:01:41,150 --> 01:01:38,940

to really gain steam but the the the

1494

01:01:43,250 --> 01:01:41,160

border patrol working with military

1495

01:01:44,329 --> 01:01:43,260

planes working with National Guard

1496

01:01:46,910 --> 01:01:44,339

planes

1497

01:01:49,010 --> 01:01:46,920

using these Advanced radar systems and

1498

01:01:51,589 --> 01:01:49,020

advanced techn you know data Gathering

1499

01:01:53,750 --> 01:01:51,599

systems are seeing things that they

1500

01:01:56,329 --> 01:01:53,760

can't explain that as border patrol Bob

1501
01:01:57,770 --> 01:01:56,339
told us he says I that's what I've been

1502
01:02:00,170 --> 01:01:57,780
doing for 30 years I've been looking at

1503
01:02:02,930 --> 01:02:00,180
this stuff through Radars and and uh

1504
01:02:05,210 --> 01:02:02,940
through cameras on these planes and I'm

1505
01:02:08,510 --> 01:02:05,220
seeing things that I go I don't know

1506
01:02:11,030 --> 01:02:08,520
what that is and I can't explain it so

1507
01:02:13,609 --> 01:02:11,040
sometimes we get a story that that we

1508
01:02:15,410 --> 01:02:13,619
feel is significant but if there's video

1509
01:02:17,809 --> 01:02:15,420
or a photo or something associated with

1510
01:02:20,630 --> 01:02:17,819
it that's completely underwhelming uh

1511
01:02:22,970 --> 01:02:20,640
maybe we lose the story there so that's

1512
01:02:24,710 --> 01:02:22,980
probably if I had a frustrating one from

1513
01:02:28,069 --> 01:02:24,720

this last year

1514

01:02:29,750 --> 01:02:28,079

I will say I have a story I've been

1515

01:02:31,670 --> 01:02:29,760

chasing down

1516

01:02:34,670 --> 01:02:31,680

for over a year

1517

01:02:36,530 --> 01:02:34,680

about a mainstream researcher who works

1518

01:02:41,270 --> 01:02:36,540

in nuclear fusion

1519

01:02:43,730 --> 01:02:41,280

um who in their high energy experiments

1520

01:02:46,069 --> 01:02:43,740

had some what he described to me as

1521

01:02:48,109 --> 01:02:46,079

interesting results when it came to

1522

01:02:49,490 --> 01:02:48,119

modifying gravity

1523

01:02:51,890 --> 01:02:49,500

and I said are you talking about

1524

01:02:55,130 --> 01:02:51,900

anti-gravity and he says yeah so we're

1525

01:02:56,990 --> 01:02:55,140

kind of loathed to use that term but we

1526
01:02:58,370 --> 01:02:57,000
have some interesting results and I said

1527
01:03:02,390 --> 01:02:58,380
well can you give me an example and he

1528
01:03:04,970 --> 01:03:02,400
says well we have video where we're

1529
01:03:07,309 --> 01:03:04,980
floating ping pong balls and floating

1530
01:03:09,849 --> 01:03:07,319
pieces of what and again like a main

1531
01:03:12,589 --> 01:03:09,859
main main mainstream college professor

1532
01:03:15,349 --> 01:03:12,599
scientist working on a big Grant who

1533
01:03:17,510 --> 01:03:15,359
works with NASA on nuclear fusion but

1534
01:03:19,010 --> 01:03:17,520
they work with really really ultra high

1535
01:03:21,589 --> 01:03:19,020
energy equipment

1536
01:03:23,630 --> 01:03:21,599
so because of that

1537
01:03:26,270 --> 01:03:23,640
they may have observed some interesting

1538
01:03:28,670 --> 01:03:26,280

things when it relates to gravity so

1539

01:03:30,410 --> 01:03:28,680

they've been because it wasn't part of

1540

01:03:31,849 --> 01:03:30,420

what they were doing with their research

1541

01:03:33,829 --> 01:03:31,859

and this is kind of what happened with

1542

01:03:36,109 --> 01:03:33,839

sunny white with the word bubble story I

1543

01:03:38,210 --> 01:03:36,119

put out a year ago because it was

1544

01:03:40,910 --> 01:03:38,220

something discovered while they were

1545

01:03:43,789 --> 01:03:40,920

working on other research they can't

1546

01:03:45,950 --> 01:03:43,799

quite make the stuff public yet so I

1547

01:03:47,870 --> 01:03:45,960

have yet to seen these videos he claims

1548

01:03:49,670 --> 01:03:47,880

to have but it's a really straight

1549

01:03:51,410 --> 01:03:49,680

shooter it's not the type of guy that

1550

01:03:53,450 --> 01:03:51,420

gets on the phone and makes something up

1551

01:03:55,130 --> 01:03:53,460

yeah the type of guy was interviewing

1552

01:03:58,190 --> 01:03:55,140

for a whole other story about his

1553

01:03:59,809 --> 01:03:58,200

nuclear stuff and at the end of the

1554

01:04:02,390 --> 01:03:59,819

interview he says hey can you turn off

1555

01:04:03,710 --> 01:04:02,400

the microphone and I said sure and he

1556

01:04:05,270 --> 01:04:03,720

says I got something really cool to tell

1557

01:04:07,789 --> 01:04:05,280

you about that'll be a story for you

1558

01:04:09,829 --> 01:04:07,799

guys in in the next few months

1559

01:04:13,670 --> 01:04:09,839

well that was over a year ago when he

1560

01:04:15,829 --> 01:04:13,680

told me about that and I know that

1561

01:04:18,170 --> 01:04:15,839

he's somebody I've talked to for other

1562

01:04:20,510 --> 01:04:18,180

stories since and we've talked to and

1563

01:04:22,730 --> 01:04:20,520

I'm still getting the yeah you will get

1564

01:04:25,370 --> 01:04:22,740

it at some point I'll be able to release

1565

01:04:27,950 --> 01:04:25,380

that to you at some point we will be

1566

01:04:30,710 --> 01:04:27,960

doing a paper on it at some point

1567

01:04:32,990 --> 01:04:30,720

but he won't give me anything more so

1568

01:04:35,630 --> 01:04:33,000

that's exciting yeah when I hear

1569

01:04:37,789 --> 01:04:35,640

something like that and I go you know

1570

01:04:40,970 --> 01:04:37,799

what are the implications of that high

1571

01:04:43,970 --> 01:04:40,980

energy manipulating gravity that starts

1572

01:04:46,609 --> 01:04:43,980

really getting into the or maybe some

1573

01:04:49,490 --> 01:04:46,619

UFOs are black projects and maybe people

1574

01:04:51,230 --> 01:04:49,500

in the power situations are keeping you

1575

01:04:53,510 --> 01:04:51,240

know maybe he's not allowed to talk

1576

01:04:56,030 --> 01:04:53,520

about it or or maybe it's something that

1577

01:04:58,069 --> 01:04:56,040

has been stumbled on before or or maybe

1578

01:04:59,870 --> 01:04:58,079

it is brand new maybe he has stumbled

1579

01:05:02,809 --> 01:04:59,880

onto something that hasn't been stumbled

1580

01:05:05,150 --> 01:05:02,819

on before but his team so I would say

1581

01:05:08,329 --> 01:05:05,160

that's the biggest carrot story I still

1582

01:05:11,870 --> 01:05:08,339

haven't I that I'm chasing that

1583

01:05:13,970 --> 01:05:11,880

there will be a point this year that if

1584

01:05:15,829 --> 01:05:13,980

I don't get it from him I will probably

1585

01:05:18,530 --> 01:05:15,839

just write the story and I will probably

1586

01:05:20,510 --> 01:05:18,540

say this is what I was told this is what

1587

01:05:22,130 --> 01:05:20,520

I've heard and at this point he's

1588

01:05:24,650 --> 01:05:22,140

unwilling to you know where I can't get

1589

01:05:26,750 --> 01:05:24,660

information or video so there there will

1590

01:05:28,250 --> 01:05:26,760

be a point where I out this person and

1591

01:05:30,589 --> 01:05:28,260

who they are and the projects they're

1592

01:05:33,170 --> 01:05:30,599

working on and uh I'll let the public

1593

01:05:34,670 --> 01:05:33,180

decide but yeah and uh that's probably

1594

01:05:37,309 --> 01:05:34,680

the biggest carrot I've been chasing

1595

01:05:40,849 --> 01:05:37,319

that hasn't turned into a real story yet

1596

01:05:42,589 --> 01:05:40,859

When you mention the the videos from

1597

01:05:44,089 --> 01:05:42,599

back in May that like you say were

1598

01:05:46,609 --> 01:05:44,099

potentially more than likely going to be

1599

01:05:49,010 --> 01:05:46,619

Birds but the actual bigger story

1600

01:05:51,109 --> 01:05:49,020

was that they are seeing UAP on these

1601
01:05:53,510 --> 01:05:51,119
border patrols or UFOs on these border

1602
01:05:55,069 --> 01:05:53,520
patrols it makes me think Phil Circle

1603
01:05:57,230 --> 01:05:55,079
back to the report being released today

1604
01:06:00,829 --> 01:05:57,240
that sometimes in the subject less can

1605
01:06:02,390 --> 01:06:00,839
be more because imagine we never knew

1606
01:06:04,849 --> 01:06:02,400
about these reports imagine we never

1607
01:06:06,890 --> 01:06:04,859
knew about the task force Arrow the dod

1608
01:06:08,930 --> 01:06:06,900
involvement the last couple of years and

1609
01:06:10,670 --> 01:06:08,940
imagine today that the debrief breaks a

1610
01:06:12,710 --> 01:06:10,680
story that there have been a couple of

1611
01:06:14,750 --> 01:06:12,720
reports out in the last few years we get

1612
01:06:16,370 --> 01:06:14,760
the reports as they've been released but

1613
01:06:17,270 --> 01:06:16,380

we had never seen them never heard of

1614

01:06:19,730 --> 01:06:17,280

them

1615

01:06:21,289 --> 01:06:19,740

the story would be huge oh the dods

1616

01:06:23,329 --> 01:06:21,299

investigating new Air Force look at the

1617

01:06:25,730 --> 01:06:23,339

people involved there's case numbers

1618

01:06:27,950 --> 01:06:25,740

Pilots are reporting stuff that would be

1619

01:06:30,170 --> 01:06:27,960

huge excitement and I think this comes

1620

01:06:33,170 --> 01:06:30,180

back to what I think we are spoiled for

1621

01:06:35,210 --> 01:06:33,180

what we do get people absolutely are

1622

01:06:37,069 --> 01:06:35,220

entitled to and should expect more and

1623

01:06:39,230 --> 01:06:37,079

want more that's the whole the whole

1624

01:06:41,329 --> 01:06:39,240

Drive of the UFO subject and the story

1625

01:06:43,250 --> 01:06:41,339

and the myth and the love of it

1626
01:06:44,569 --> 01:06:43,260
but again I've always said if you take a

1627
01:06:46,849 --> 01:06:44,579
step back and look at the bigger

1628
01:06:49,370 --> 01:06:46,859
timeline of History we're living in an

1629
01:06:51,230 --> 01:06:49,380
age where if you put pinpoints on the

1630
01:06:53,690 --> 01:06:51,240
years and months of when things actually

1631
01:06:56,029 --> 01:06:53,700
happened in the UFO topic it'd be so

1632
01:06:58,970 --> 01:06:56,039
sparse for decades and you would hit

1633
01:06:59,829 --> 01:06:58,980
2017 2018 and it's just bang bang bang

1634
01:07:02,089 --> 01:06:59,839
bang bang bang

1635
01:07:04,250 --> 01:07:02,099
sure some of it turns out to be a bit of

1636
01:07:05,930 --> 01:07:04,260
a dance squib but I think we're living

1637
01:07:07,430 --> 01:07:05,940
in a far more exciting time than people

1638
01:07:09,770 --> 01:07:07,440

maybe give it credit for at the minute

1639

01:07:11,990 --> 01:07:09,780

and maybe in the fullness of time these

1640

01:07:14,329 --> 01:07:12,000

reports will be a bit more interesting

1641

01:07:16,970 --> 01:07:14,339

or or newsworthy than they maybe are at

1642

01:07:18,770 --> 01:07:16,980

the moment I I couldn't agree more Andy

1643

01:07:20,870 --> 01:07:18,780

I tell people this all the time is that

1644

01:07:23,270 --> 01:07:20,880

I started following the UFO subject in

1645

01:07:25,190 --> 01:07:23,280

1977 when I had my own witness

1646

01:07:27,470 --> 01:07:25,200

experience and I would just before my

1647

01:07:29,690 --> 01:07:27,480

eighth birthday and ironically a few

1648

01:07:33,589 --> 01:07:29,700

months before Close Encounters and Star

1649

01:07:35,210 --> 01:07:33,599

Wars hit the theaters so uh

1650

01:07:37,370 --> 01:07:35,220

I it's been something I've been

1651
01:07:40,190 --> 01:07:37,380
following forever and we would go

1652
01:07:42,770 --> 01:07:40,200
decades with nothing or if you got

1653
01:07:44,809 --> 01:07:42,780
something it was Bob Lazar and it seemed

1654
01:07:46,309 --> 01:07:44,819
real and then you dug into it went uh

1655
01:07:48,770 --> 01:07:46,319
maybe this you know at least for my

1656
01:07:50,930 --> 01:07:48,780
opinion didn't really turn out to be

1657
01:07:52,549 --> 01:07:50,940
anything there and the same thing like

1658
01:07:54,410 --> 01:07:52,559
the Corso book you know day after

1659
01:07:56,329 --> 01:07:54,420
Roswell that would come out and be like

1660
01:07:58,370 --> 01:07:56,339
oh my God we have a whistleblower we

1661
01:07:59,990 --> 01:07:58,380
have new information and then it would

1662
01:08:01,730 --> 01:08:00,000
fizzle away

1663
01:08:03,770 --> 01:08:01,740

the things that have happened in the

1664

01:08:06,890 --> 01:08:03,780

last five years plus a little over five

1665

01:08:08,930 --> 01:08:06,900

years now and the momentum

1666

01:08:11,390 --> 01:08:08,940

you know I I tell people this all the

1667

01:08:13,370 --> 01:08:11,400

time we've been dreaming about NASA

1668

01:08:15,529 --> 01:08:13,380

jumping in on this and putting their hat

1669

01:08:17,630 --> 01:08:15,539

in the ring and looking for UFOs we've

1670

01:08:19,729 --> 01:08:17,640

been dreaming about a guy like avilo but

1671

01:08:21,590 --> 01:08:19,739

professor at Harvard jumping in on this

1672

01:08:23,269 --> 01:08:21,600

we've been dreaming about all these

1673

01:08:25,070 --> 01:08:23,279

things we've been dreaming about you

1674

01:08:27,829 --> 01:08:25,080

know hey ever since Project Blue Book

1675

01:08:30,829 --> 01:08:27,839

ended in 1969 again the year I was born

1676

01:08:32,870 --> 01:08:30,839

we went 50 years without the military at

1677

01:08:35,930 --> 01:08:32,880

least openly acknowledging and stunning

1678

01:08:38,390 --> 01:08:35,940

this and and maybe you know if the

1679

01:08:40,490 --> 01:08:38,400

criticisms of Elizondo were right maybe

1680

01:08:42,590 --> 01:08:40,500

it was just a portfolio he carried

1681

01:08:44,510 --> 01:08:42,600

around and it was a subset of off Swap

1682

01:08:47,510 --> 01:08:44,520

and so maybe there really wasn't that

1683

01:08:50,689 --> 01:08:47,520

much going on but whatever that is it's

1684

01:08:53,390 --> 01:08:50,699

led to this now this is real the arrow

1685

01:08:56,030 --> 01:08:53,400

is a real organization within the dod

1686

01:08:58,309 --> 01:08:56,040

who's actively talking to all these

1687

01:09:00,590 --> 01:08:58,319

different organizations saying give us

1688

01:09:02,209 --> 01:09:00,600

your reports give us your data we're

1689

01:09:04,249 --> 01:09:02,219

going to try and make heads or tails the

1690

01:09:05,930 --> 01:09:04,259

hit this whole thing so what has

1691

01:09:07,430 --> 01:09:05,940

happened in the last few years in the

1692

01:09:10,249 --> 01:09:07,440

last couple of years

1693

01:09:12,829 --> 01:09:10,259

I mean Ryan Graves is running this whole

1694

01:09:15,530 --> 01:09:12,839

group for the aiaa that's about Aviation

1695

01:09:18,289 --> 01:09:15,540

safety in UFOs and they're doing their

1696

01:09:20,809 --> 01:09:18,299

own efforts now the FAA is working on

1697

01:09:23,510 --> 01:09:20,819

ways for people to report that we may

1698

01:09:25,249 --> 01:09:23,520

have whistleblower legislation in place

1699

01:09:26,709 --> 01:09:25,259

now I mean

1700

01:09:29,570 --> 01:09:26,719

it's

1701

01:09:31,490 --> 01:09:29,580

anyone as you point out any one of these

1702

01:09:33,050 --> 01:09:31,500

would have been would have carried us

1703

01:09:34,789 --> 01:09:33,060

for years would have carried people that

1704

01:09:36,110 --> 01:09:34,799

were curious about UFOs and wanted to

1705

01:09:37,789 --> 01:09:36,120

know what was going on and what people

1706

01:09:39,070 --> 01:09:37,799

like me were seeing in the sky that we

1707

01:09:43,249 --> 01:09:39,080

couldn't explain

1708

01:09:46,090 --> 01:09:43,259

uh any one of these so uh yes I think we

1709

01:09:49,789 --> 01:09:46,100

get overloaded with tons of great stuff

1710

01:09:51,709 --> 01:09:49,799

but none of it given us exactly that one

1711

01:09:54,169 --> 01:09:51,719

magic thing we want which is an answer

1712

01:09:56,090 --> 01:09:54,179

even if the answer is uh it's secret

1713

01:09:58,010 --> 01:09:56,100

Tech that the US and the UK have been

1714

01:09:59,930 --> 01:09:58,020

working on together since before Calvin

1715

01:10:01,189 --> 01:09:59,940

and they just didn't want to let anyone

1716

01:10:03,350 --> 01:10:01,199

know because we haven't faced an

1717

01:10:05,030 --> 01:10:03,360

existential War since World War II so

1718

01:10:06,770 --> 01:10:05,040

we've just kind of been keeping this

1719

01:10:09,410 --> 01:10:06,780

secret weapon in the back pocket since

1720

01:10:11,689 --> 01:10:09,420

the late 40s and developing whatever the

1721

01:10:13,610 --> 01:10:11,699

or it's atmospheric phenomenon they're

1722

01:10:15,470 --> 01:10:13,620

all hesitolin lights and they just shape

1723

01:10:18,229 --> 01:10:15,480

themselves like saucers and look like

1724

01:10:20,510 --> 01:10:18,239

crafters shape themselves like a Tic Tac

1725

01:10:23,209 --> 01:10:20,520

and look like a craft but are really

1726

01:10:25,490 --> 01:10:23,219

just some natural occur whatever the

1727

01:10:28,130 --> 01:10:25,500

answer is I think that's the main

1728

01:10:30,169 --> 01:10:28,140

frustration will continue to be we're

1729

01:10:32,990 --> 01:10:30,179

getting more information we're getting

1730

01:10:34,970 --> 01:10:33,000

more activity we still feel like we're

1731

01:10:37,189 --> 01:10:34,980

short on answers

1732

01:10:38,630 --> 01:10:37,199

Chris you're never short on an answer

1733

01:10:40,370 --> 01:10:38,640

which is always good when I'm speaking

1734

01:10:41,870 --> 01:10:40,380

to you if people have enjoyed listening

1735

01:10:43,430 --> 01:10:41,880

to this they can check out our previous

1736

01:10:45,590 --> 01:10:43,440

interview where we're going a bit on

1737

01:10:47,090 --> 01:10:45,600

your background and things as well

1738

01:10:48,890 --> 01:10:47,100

um and obviously all your links will be

1739

01:10:50,390 --> 01:10:48,900

down below we've already covered with

1740

01:10:52,189 --> 01:10:50,400

Chris some of the things he's working on

1741

01:10:54,169 --> 01:10:52,199

and look out for those new articles

1742

01:10:56,689 --> 01:10:54,179

dropping in a couple of weeks time as

1743

01:10:58,130 --> 01:10:56,699

well on Chicago O'Hare Chris always a

1744

01:10:59,570 --> 01:10:58,140

pleasure speaking to you and I look

1745

01:11:01,490 --> 01:10:59,580

forward to doing so again in the near

1746

01:11:02,630 --> 01:11:01,500

future thanks for having me on Andy it's

1747

01:11:05,149 --> 01:11:02,640

always fun

1748

01:11:06,950 --> 01:11:05,159

that is all for this week's show thank

1749

01:11:08,750 --> 01:11:06,960

you very much for listening please

1750

01:11:11,510 --> 01:11:08,760

remember to leave the podcast a review

1751

01:11:13,970 --> 01:11:11,520

on your chosen platform you can like

1752

01:11:15,890 --> 01:11:13,980

retweet And subscribe that would all be

1753

01:11:17,930 --> 01:11:15,900

very much appreciated the shows are

1754

01:11:19,550 --> 01:11:17,940

being uploaded onto YouTube as we speak

1755

01:11:22,010 --> 01:11:19,560

more and more you can sign up at

1756

01:11:24,350 --> 01:11:22,020

patreon.com forward slash that UFO

1757

01:11:26,689 --> 01:11:24,360

podcast access shows ad free as well

1758

01:11:29,810 --> 01:11:26,699

please get in touch on Twitter Facebook

1759

01:11:33,350 --> 01:11:29,820

Instagram that UFO podcast of course on

1760

01:11:35,450 --> 01:11:33,360

Twitter it's at UFO UAP am and again

1761

01:11:39,169 --> 01:11:35,460

folks as always keep looking up you

1762

01:11:39,179 --> 01:11:43,570

foreign

1763

01:12:22,790 --> 01:12:05,040

[Music]

1764

01:12:22,800 --> 01:12:46,210

foreign

1765

01:13:39,250 --> 01:12:53,340

[Music]

1766

01:13:39,260 --> 01:13:46,030

can't sleep forever

1767

01:14:28,070 --> 01:13:52,260

[Music]

1768

01:14:42,110 --> 01:14:28,080

thank you
