

UNITED NATIONS

this is Lou Elizondo and you are

2
00:00:10,070 --> 00:00:06,080
listening to that UFO podcast

3
00:00:12,169 --> 00:00:10,080
[Music]

4
00:00:14,270 --> 00:00:12,179
everyone and welcome back to that UFO

5
00:00:16,670 --> 00:00:14,280
podcast we've got a breakdown for you on

6
00:00:18,769 --> 00:00:16,680
the 20th of January joining me to

7
00:00:20,330 --> 00:00:18,779
discuss analyze and pick through some of

8
00:00:22,910 --> 00:00:20,340
the news stories from the last week or a

9
00:00:23,750 --> 00:00:22,920
couple of days is Dan how are we out in

10
00:00:25,550 --> 00:00:23,760
Mexico

11
00:00:27,230 --> 00:00:25,560
uh I'm great thank you so much I

12
00:00:30,349 --> 00:00:27,240
realized last time I didn't tell anyone

13
00:00:32,749 --> 00:00:30,359

the the movie quote solution uh so that

14

00:00:34,549 --> 00:00:32,759

was uh Pirates of the Caribbean the the

15

00:00:37,250 --> 00:00:34,559

second one uh when the cracking comes

16

00:00:38,810 --> 00:00:37,260

out of the water uh but for today I'll

17

00:00:40,430 --> 00:00:38,820

go for an easy one and just say good

18

00:00:43,970 --> 00:00:40,440

morning in Vietnam

19

00:00:46,490 --> 00:00:43,980

oh yeah okay it's Independence Day right

20

00:00:49,850 --> 00:00:46,500

yeah that was it the same Patch Adams

21

00:00:51,350 --> 00:00:49,860

yeah well speaking I was speaking of

22

00:00:52,850 --> 00:00:51,360

Vietnam it's not speaking of Vietnam I

23

00:00:54,290 --> 00:00:52,860

totally speaking of San Marino don't

24

00:00:55,369 --> 00:00:54,300

know why that came into my head totally

25

00:00:57,650 --> 00:00:55,379

put me off

26

00:00:59,270 --> 00:00:57,660

um project Titan will start there

27

00:01:00,950 --> 00:00:59,280

um Paolo gazzardi has been on the

28

00:01:03,650 --> 00:01:00,960

podcast a few times now talking about

29

00:01:06,289 --> 00:01:03,660

the efforts of project Titan and a group

30

00:01:08,570 --> 00:01:06,299

of international uh researchers

31

00:01:11,570 --> 00:01:08,580

enthusiasts investigators scientists

32

00:01:14,149 --> 00:01:11,580

academics who are looking to push the

33

00:01:16,789 --> 00:01:14,159

UFO subject into the UN the general

34

00:01:18,289 --> 00:01:16,799

assembly at the U.N and plan to do that

35

00:01:20,570 --> 00:01:18,299

if you've had those previous interviews

36

00:01:22,730 --> 00:01:20,580

with Paolo you should check them out

37

00:01:24,350 --> 00:01:22,740

um is using San Marino which is one of

38

00:01:27,469 --> 00:01:24,360

the smallest countries in the world but

39

00:01:30,050 --> 00:01:27,479

they have representation at the UN so

40

00:01:32,510 --> 00:01:30,060

that has now been approved which is

41

00:01:33,890 --> 00:01:32,520

fantastic so really really good news to

42

00:01:37,010 --> 00:01:33,900

be honest um

43

00:01:38,749 --> 00:01:37,020

came out of not nowhere but uh there was

44

00:01:40,010 --> 00:01:38,759

potential delays on it Paulo had

45

00:01:41,450 --> 00:01:40,020

mentioned a few days ago it might not

46

00:01:44,030 --> 00:01:41,460

even be March before we had anything

47

00:01:46,130 --> 00:01:44,040

back then all of a sudden and we got the

48

00:01:48,230 --> 00:01:46,140

news that I had been approved

49

00:01:49,730 --> 00:01:48,240

um Robert salastan had given some

50

00:01:52,010 --> 00:01:49,740

updates as well I'm going to throw some

51
00:01:56,090 --> 00:01:52,020
dates out at you that we're looking at

52
00:01:58,609 --> 00:01:56,100
the 23rd uh sorry mid-september of 2023

53
00:02:00,230 --> 00:01:58,619
uh the submission of San Marino's

54
00:02:02,749 --> 00:02:00,240
proposal because they'll now put that

55
00:02:05,630 --> 00:02:02,759
together to the UN secretary General's

56
00:02:07,670 --> 00:02:05,640
office somewhere from October 2023

57
00:02:10,010 --> 00:02:07,680
there'll be an examination by the U.N

58
00:02:11,510 --> 00:02:10,020
commission and then likely from November

59
00:02:13,430 --> 00:02:11,520
December right at the end of the year

60
00:02:16,010 --> 00:02:13,440
they will vote on it at the UN General

61
00:02:18,710 --> 00:02:16,020
Assembly ultimately are they going to

62
00:02:20,210 --> 00:02:18,720
create and maintain a UFO office at the

63
00:02:22,130 --> 00:02:20,220

United Nations something we've touched

64

00:02:24,290 --> 00:02:22,140

on before but it's nice to see we've got

65

00:02:27,229 --> 00:02:24,300

a bit of concrete there's a concrete yes

66

00:02:28,490 --> 00:02:27,239

on this now that the potential oh god

67

00:02:30,470 --> 00:02:28,500

I've said a concrete yes and then

68

00:02:32,390 --> 00:02:30,480

potential haven't I that you know we're

69

00:02:33,830 --> 00:02:32,400

definitely getting the the motion put

70

00:02:35,930 --> 00:02:33,840

through by San Marino so fantastic

71

00:02:38,270 --> 00:02:35,940

having them on board but it still has to

72

00:02:40,729 --> 00:02:38,280

go through the UN doesn't it yeah that's

73

00:02:41,449 --> 00:02:40,739

right so we're kind of at the first of

74

00:02:43,729 --> 00:02:41,459

like

75

00:02:46,190 --> 00:02:43,739

two main steps really

76

00:02:48,530 --> 00:02:46,200

um and if successful then we'll be back

77

00:02:50,150 --> 00:02:48,540

I guess where we were in 78 when it was

78

00:02:52,430 --> 00:02:50,160

brought to the the general assembly

79

00:02:53,990 --> 00:02:52,440

there and the interesting thing back

80

00:02:56,690 --> 00:02:54,000

then is that it was actually kind of

81

00:02:59,750 --> 00:02:56,700

Britain that downplayed it uh and voted

82

00:03:01,550 --> 00:02:59,760

against it and kind of they issued a

83

00:03:03,589 --> 00:03:01,560

statement saying that they remain firmly

84

00:03:05,449 --> 00:03:03,599

opposed to the Granada resolution on

85

00:03:07,430 --> 00:03:05,459

UFOs it didn't really go much deeper

86

00:03:08,990 --> 00:03:07,440

than that but they just thought that the

87

00:03:11,210 --> 00:03:09,000

UN should save face and not waste

88

00:03:12,589 --> 00:03:11,220

resources and things like that uh

89

00:03:15,649 --> 00:03:12,599

hopefully this time it'll be different

90

00:03:18,830 --> 00:03:15,659

but the UK haven't really spoken on the

91

00:03:21,470 --> 00:03:18,840

issue uh so though I would hope they

92

00:03:23,330 --> 00:03:21,480

support it uh I'm kind of nervous to be

93

00:03:26,149 --> 00:03:23,340

honest do you know what I would like to

94

00:03:28,910 --> 00:03:26,159

see a few journalists in the UK press

95

00:03:30,350 --> 00:03:28,920

comment on this or at least have it put

96

00:03:31,910 --> 00:03:30,360

to them maybe that's something some of

97

00:03:33,589 --> 00:03:31,920

the gents at UAP media can help get

98

00:03:34,850 --> 00:03:33,599

involved with just because that is one

99

00:03:36,770 --> 00:03:34,860

of the things that they're really good

100

00:03:38,690 --> 00:03:36,780

at is getting in touch with journalists

101
00:03:40,250 --> 00:03:38,700
and contacts and saying look did you

102
00:03:42,050 --> 00:03:40,260
know this had happened because most of

103
00:03:44,809 --> 00:03:42,060
the time there's like this totally

104
00:03:46,369 --> 00:03:44,819
bypasses the UK press it doesn't reach

105
00:03:47,809 --> 00:03:46,379
them and it has to be put in front of

106
00:03:49,550 --> 00:03:47,819
them to say this might be something you

107
00:03:52,130 --> 00:03:49,560
want to look at so it'd be interesting

108
00:03:54,289 --> 00:03:52,140
to hear this asked of some of the kind

109
00:03:55,970 --> 00:03:54,299
of higher ranking politicians

110
00:03:58,490 --> 00:03:55,980
um anyone involved at the UN from a

111
00:03:59,990 --> 00:03:58,500
United Kingdom perspective and just to

112
00:04:03,530 --> 00:04:00,000
see you know can we get some comments on

113
00:04:05,990 --> 00:04:03,540

that because it's a pretty interesting

114

00:04:07,550 --> 00:04:06,000

angle to attack I think I used angle of

115

00:04:10,550 --> 00:04:07,560

attack on Twitter when I was speaking to

116

00:04:12,350 --> 00:04:10,560

someone to get the UFO topic moving

117

00:04:13,729 --> 00:04:12,360

forward again in a different way where

118

00:04:15,649 --> 00:04:13,739

it's not just are we waiting on

119

00:04:17,270 --> 00:04:15,659

Congressional hearings in the U.S you

120

00:04:19,009 --> 00:04:17,280

know it's another place to at least have

121

00:04:22,790 --> 00:04:19,019

the conversation held

122

00:04:24,110 --> 00:04:22,800

yeah 100 and it's an international issue

123

00:04:26,810 --> 00:04:24,120

as we always say you know these

124

00:04:28,550 --> 00:04:26,820

sightings happen all around the world uh

125

00:04:30,050 --> 00:04:28,560

for decades and decades and decades now

126

00:04:32,930 --> 00:04:30,060

centuries if you want to go back that

127

00:04:34,550 --> 00:04:32,940

far so you should be a worldwide issue

128

00:04:36,290 --> 00:04:34,560

and all the countries should be involved

129

00:04:38,749 --> 00:04:36,300

and this is exactly where it should be

130

00:04:40,790 --> 00:04:38,759

so I've got my fingers crossed

131

00:04:43,010 --> 00:04:40,800

some of the comments uh Liberation times

132

00:04:44,570 --> 00:04:43,020

and Chris shot had put out on his

133

00:04:47,210 --> 00:04:44,580

website the links are in the description

134

00:04:48,409 --> 00:04:47,220

to the podcast uh pillow gazardi Who

135

00:04:50,090 --> 00:04:48,419

obviously deserves a lot of the credit

136

00:04:52,550 --> 00:04:50,100

here I'm sure he would he would point to

137

00:04:55,490 --> 00:04:52,560

others involved with with Isa and the

138

00:04:57,650 --> 00:04:55,500

Central ufological National of Italy

139

00:04:59,810 --> 00:04:57,660

um Polo says and I'll quote and I won't

140

00:05:01,430 --> 00:04:59,820

do his accent today at the nation of San

141

00:05:03,350 --> 00:05:01,440

Marino has made a momentous decision

142

00:05:04,909 --> 00:05:03,360

meaning the UFO phenomenon will now be

143

00:05:07,249 --> 00:05:04,919

discussed where it belongs at the United

144

00:05:09,230 --> 00:05:07,259

Nations the highest Council of humanity

145

00:05:11,570 --> 00:05:09,240

I once went to the toilet they're done

146

00:05:14,030 --> 00:05:11,580

and didn't realize in the U.N in New

147

00:05:15,950 --> 00:05:14,040

York and that's not part of the Court

148

00:05:18,050 --> 00:05:15,960

sorry for I actually put a podcast

149

00:05:20,210 --> 00:05:18,060

sticker outside of the UN in New York

150

00:05:21,530 --> 00:05:20,220

where maybe that's business it so uh so

151
00:05:23,090 --> 00:05:21,540
technically we're present though

152
00:05:25,790 --> 00:05:23,100
vandalism

153
00:05:27,950 --> 00:05:25,800
um I take no part in that uh and uh

154
00:05:29,810 --> 00:05:27,960
further the quote he says this project

155
00:05:31,790 --> 00:05:29,820
is hugely important in today's world

156
00:05:34,129 --> 00:05:31,800
when nations are observing trans medium

157
00:05:35,810 --> 00:05:34,139
objects and their skies and seas against

158
00:05:37,490 --> 00:05:35,820
the backdrop of conflicts like in

159
00:05:39,890 --> 00:05:37,500
Ukraine it is the topic which can

160
00:05:41,570 --> 00:05:39,900
promote positive cooperation so that we

161
00:05:43,670 --> 00:05:41,580
can help solve an enigma which we all

162
00:05:46,510 --> 00:05:43,680
face this one topic can unite our planet

163
00:05:50,390 --> 00:05:46,520

and counter our tendency for conflict

164

00:05:52,430 --> 00:05:50,400

quick side point on that then Dan does

165

00:05:55,850 --> 00:05:52,440

that argument still hold water with you

166

00:05:59,510 --> 00:05:55,860

that the UFO topic can unite the world

167

00:06:02,150 --> 00:05:59,520

because if it's true that the US Russia

168

00:06:04,189 --> 00:06:02,160

and China are all very aware of a

169

00:06:07,249 --> 00:06:04,199

non-human intelligence another presence

170

00:06:08,689 --> 00:06:07,259

be it aliens different dimensions it's

171

00:06:10,310 --> 00:06:08,699

certainly not United them to this point

172

00:06:12,890 --> 00:06:10,320

has it

173

00:06:15,890 --> 00:06:12,900

no it hasn't uh certainly no certainly

174

00:06:17,210 --> 00:06:15,900

not on this issue and and not in terms

175

00:06:18,529 --> 00:06:17,220

of taking a threat from outer space

176

00:06:20,270 --> 00:06:18,539

seriously

177

00:06:21,710 --> 00:06:20,280

um I say threaten kind of you know we're

178

00:06:24,650 --> 00:06:21,720

voted comments there you can't see me

179

00:06:26,150 --> 00:06:24,660

doing the money years uh it would be

180

00:06:27,050 --> 00:06:26,160

nice for us to come together over this

181

00:06:29,330 --> 00:06:27,060

but

182

00:06:30,409 --> 00:06:29,340

the the different kind of stories

183

00:06:31,730 --> 00:06:30,419

throughout history and the different

184

00:06:34,850 --> 00:06:31,740

factions and the different crash

185

00:06:37,129 --> 00:06:34,860

recoveries mean that probably a number

186

00:06:38,749 --> 00:06:37,139

of a number of countries have interest

187

00:06:41,450 --> 00:06:38,759

in kind of keeping this to themselves

188

00:06:42,890 --> 00:06:41,460

when this absolutely is a is an issue

189

00:06:44,689 --> 00:06:42,900

where different countries have different

190

00:06:46,370 --> 00:06:44,699

pieces of proposal we really need to

191

00:06:47,210 --> 00:06:46,380

work together to figure the whole thing

192

00:06:50,090 --> 00:06:47,220

out

193

00:06:52,309 --> 00:06:50,100

yeah a father quote from Louis zondo uh

194

00:06:54,290 --> 00:06:52,319

to Liberation time says by now it should

195

00:06:56,629 --> 00:06:54,300

be evident that the uep phenomenon is

196

00:06:57,950 --> 00:06:56,639

not only an issue for the us today I

197

00:06:59,510 --> 00:06:57,960

would like to congratulate the people of

198

00:07:01,610 --> 00:06:59,520

San Marino for another historic

199

00:07:03,409 --> 00:07:01,620

milestone in this discussion it should

200

00:07:05,510 --> 00:07:03,419

be no surprise that the world's longest

201
00:07:08,090 --> 00:07:05,520
standing Republic is now championing the

202
00:07:09,710 --> 00:07:08,100
UAP cause on behalf of the world I would

203
00:07:11,150 --> 00:07:09,720
also like to thank my dear friend Paola

204
00:07:13,430 --> 00:07:11,160
gazzardi and his colleagues for their

205
00:07:15,110 --> 00:07:13,440
tireless efforts he finishes we have

206
00:07:16,909 --> 00:07:15,120
been working this issue diligently for

207
00:07:19,730 --> 00:07:16,919
several years and consider this a big

208
00:07:21,409 --> 00:07:19,740
win for all of humanity 2023 is already

209
00:07:22,850 --> 00:07:21,419
turning out to be a Monumental year for

210
00:07:25,550 --> 00:07:22,860
this topic and I am proud to have been

211
00:07:28,730 --> 00:07:25,560
an integral part of project Titan from

212
00:07:30,529 --> 00:07:28,740
its Inception so yeah

213
00:07:31,969 --> 00:07:30,539

um interesting thanks to Chris sharp for

214

00:07:34,790 --> 00:07:31,979

getting those quotes as well from Paolo

215

00:07:36,350 --> 00:07:34,800

gazzardi and Louis zondo over at

216

00:07:38,689 --> 00:07:36,360

Liberation times

217

00:07:40,070 --> 00:07:38,699

Dan what do you expect to come of this

218

00:07:42,010 --> 00:07:40,080

because we know the dates now Robert

219

00:07:44,749 --> 00:07:42,020

Salas like I said put online the

220

00:07:47,150 --> 00:07:44,759

mid-september October November so we're

221

00:07:49,370 --> 00:07:47,160

looking at 2024 if this goes ahead but

222

00:07:50,990 --> 00:07:49,380

it would take effect do you see this

223

00:07:53,029 --> 00:07:51,000

coming to fruition or is it still very

224

00:07:55,370 --> 00:07:53,039

much up in the air for you

225

00:07:57,170 --> 00:07:55,380

up in the air for me I would say I

226

00:07:59,210 --> 00:07:57,180

really really want it to come to

227

00:08:01,550 --> 00:07:59,220

fruition uh the assertions of folks like

228

00:08:02,930 --> 00:08:01,560

macoass saying that San Marino is a

229

00:08:04,790 --> 00:08:02,940

small country and therefore it doesn't

230

00:08:07,790 --> 00:08:04,800

really deserve to be taken seriously

231

00:08:09,430 --> 00:08:07,800

here I I think is a little gross like no

232

00:08:12,050 --> 00:08:09,440

countries aren't

233

00:08:15,050 --> 00:08:12,060

defined by how many people they have

234

00:08:17,450 --> 00:08:15,060

right in the um policing population is

235

00:08:19,070 --> 00:08:17,460

the silly thing so yeah I think San

236

00:08:20,390 --> 00:08:19,080

Marino have a lot of credibility to take

237

00:08:22,189 --> 00:08:20,400

this forward it was a really good plan

238

00:08:23,570 --> 00:08:22,199

and I want to see this on the floor of

239

00:08:25,670 --> 00:08:23,580

the general assembly being discussed

240

00:08:28,790 --> 00:08:25,680

even if they don't establish a task

241

00:08:30,650 --> 00:08:28,800

force it's still getting kind of people

242

00:08:33,649 --> 00:08:30,660

further down the road in terms of the

243

00:08:35,029 --> 00:08:33,659

discussion of UAP UFOs yeah and maybe

244

00:08:36,949 --> 00:08:35,039

you get some of the mainstream media

245

00:08:38,630 --> 00:08:36,959

packing up that story and asking the

246

00:08:40,130 --> 00:08:38,640

questions probing on it as well and just

247

00:08:42,469 --> 00:08:40,140

seeing that you know UFOs are back in

248

00:08:44,630 --> 00:08:42,479

the conversation uh moving on Brian

249

00:08:46,550 --> 00:08:44,640

Bender I was going to say of political

250

00:08:49,190 --> 00:08:46,560

but it was his last piece of work for

251
00:08:51,290 --> 00:08:49,200
political uh he's since moved on uh made

252
00:08:54,170 --> 00:08:51,300
a report in their defense newsletter

253
00:08:56,509 --> 00:08:54,180
that NASA is hosting a two-day meeting

254
00:08:58,970 --> 00:08:56,519
with representatives from the Pentagon

255
00:09:00,650 --> 00:08:58,980
the Federal Aviation Administration and

256
00:09:02,150 --> 00:09:00,660
other agencies that Congress weren't

257
00:09:04,550 --> 00:09:02,160
involved in its ongoing UAP

258
00:09:07,250 --> 00:09:04,560
investigation essentially a two-day UFO

259
00:09:08,750 --> 00:09:07,260
conference for select individuals uh

260
00:09:11,570 --> 00:09:08,760
what your thoughts on this

261
00:09:12,610 --> 00:09:11,580
uh I'd love to go there's probably going

262
00:09:15,290 --> 00:09:12,620
to be some really good rapid

263
00:09:17,030 --> 00:09:15,300

presentations by people uh yeah they're

264

00:09:20,030 --> 00:09:17,040

going to be taking recommendations on

265

00:09:22,190 --> 00:09:20,040

how to study the phenomena with people

266

00:09:24,650 --> 00:09:22,200

like Abby loab being present project

267

00:09:26,150 --> 00:09:24,660

Galileo Enigma lamps too if you haven't

268

00:09:27,650 --> 00:09:26,160

heard of those uh they're a new

269

00:09:29,870 --> 00:09:27,660

york-based company kind of building

270

00:09:31,790 --> 00:09:29,880

databases and standardizing those we're

271

00:09:33,769 --> 00:09:31,800

going to get to them next year oh sure

272

00:09:36,050 --> 00:09:33,779

cool oh yeah yeah they've got their own

273

00:09:38,810 --> 00:09:36,060

section as well yeah

274

00:09:41,090 --> 00:09:38,820

um so yeah you know

275

00:09:43,370 --> 00:09:41,100

these these companies they're going to

276

00:09:44,990 --> 00:09:43,380

be gathering data or organizations let's

277

00:09:48,350 --> 00:09:45,000

just say Gathering data from all around

278

00:09:50,570 --> 00:09:48,360

the world so it makes sense that NASA or

279

00:09:52,910 --> 00:09:50,580

an arrow or people like that all want to

280

00:09:54,410 --> 00:09:52,920

be aware of that data

281

00:09:56,329 --> 00:09:54,420

um there's just a little bit of attach

282

00:09:57,650 --> 00:09:56,339

the issue in terms of privacy and things

283

00:09:59,630 --> 00:09:57,660

like that I think

284

00:10:01,910 --> 00:09:59,640

so getting these different organizations

285

00:10:03,470 --> 00:10:01,920

all in one place is something that

286

00:10:05,630 --> 00:10:03,480

sounds like the UAP task force has

287

00:10:07,190 --> 00:10:05,640

struggled to do and it's in its role

288

00:10:09,230 --> 00:10:07,200

because they've had to go all over to

289

00:10:11,389 --> 00:10:09,240

collect data NASA is obviously getting

290

00:10:13,370 --> 00:10:11,399

them on the one the one campus the one

291

00:10:16,190 --> 00:10:13,380

building so there'll hopefully be some

292

00:10:18,470 --> 00:10:16,200

people involved in the UFO topic and

293

00:10:20,570 --> 00:10:18,480

they're different Specialties maybe

294

00:10:22,250 --> 00:10:20,580

meeting for the first time especially

295

00:10:23,570 --> 00:10:22,260

face to face and having those kind of

296

00:10:25,730 --> 00:10:23,580

conversations so maybe some of that

297

00:10:27,530 --> 00:10:25,740

networking will be a positive for the

298

00:10:29,870 --> 00:10:27,540

subject moving forward maybe people with

299

00:10:31,610 --> 00:10:29,880

the uep task force and and Dr Sean

300

00:10:35,030 --> 00:10:31,620

Kirkpatrick are going to benefit from

301
00:10:37,370 --> 00:10:35,040
again having those individuals speaking

302
00:10:40,490 --> 00:10:37,380
to each other in some way shape or form

303
00:10:42,350 --> 00:10:40,500
would you expect Dr Kirkpatrick and

304
00:10:45,290 --> 00:10:42,360
others to be there from the task force

305
00:10:47,150 --> 00:10:45,300
yeah absolutely I would uh they would be

306
00:10:48,170 --> 00:10:47,160
a shame if they weren't because this is

307
00:10:56,150 --> 00:10:48,180
the

308
00:10:58,670 --> 00:10:56,160
seriously so uh yeah we we've heard so

309
00:11:01,250 --> 00:10:58,680
much about data silos and you know these

310
00:11:03,769 --> 00:11:01,260
separated data pools over the years that

311
00:11:05,930 --> 00:11:03,779
an event like this stands to just you

312
00:11:07,790 --> 00:11:05,940
know blow those data silos apart and and

313
00:11:08,990 --> 00:11:07,800

just establish an information sharing

314

00:11:12,530 --> 00:11:09,000

which I think is a really good thing

315

00:11:14,389 --> 00:11:12,540

data silos or so uh so 2021 I would say

316

00:11:15,530 --> 00:11:14,399

yeah it's a famous tee shot I'm sure

317

00:11:16,790 --> 00:11:15,540

with that one

318

00:11:18,590 --> 00:11:16,800

um but yeah I think obviously Bill

319

00:11:20,569 --> 00:11:18,600

Nelson has a big part to play in this as

320

00:11:22,730 --> 00:11:20,579

well NASA administrator who is a

321

00:11:24,290 --> 00:11:22,740

champion of the UFO subject for given

322

00:11:26,290 --> 00:11:24,300

his previous role and his previous

323

00:11:28,310 --> 00:11:26,300

briefings he's he's been pretty

324

00:11:30,170 --> 00:11:28,320

outspoken on it and he is very much

325

00:11:31,610 --> 00:11:30,180

determined I mean Bill Nelson's very

326

00:11:33,530 --> 00:11:31,620

much said in interviews that you know

327

00:11:34,670 --> 00:11:33,540

there's something else out there we need

328

00:11:37,009 --> 00:11:34,680

to be studying it we need to be looking

329

00:11:40,490 --> 00:11:37,019

for it and this is a guy who who has

330

00:11:42,650 --> 00:11:40,500

seen those longer classified briefings

331

00:11:45,350 --> 00:11:42,660

and presentations and I'm sure some

332

00:11:47,329 --> 00:11:45,360

wonderful pieces of video did you see on

333

00:11:49,130 --> 00:11:47,339

that the the video that was online a few

334

00:11:52,310 --> 00:11:49,140

days ago and for the love of me I can't

335

00:11:54,350 --> 00:11:52,320

think it was of a Russian ship that the

336

00:11:55,610 --> 00:11:54,360

US believes is data collecting

337

00:11:57,530 --> 00:11:55,620

apparently

338

00:11:59,930 --> 00:11:57,540

um office Shore somewhere I want to say

339

00:12:01,490 --> 00:11:59,940

Hawaii I'm not sure it may or may not be

340

00:12:03,710 --> 00:12:01,500

but the gist was a Russian version

341

00:12:05,090 --> 00:12:03,720

Hawaii is panicking now yeah oh God yeah

342

00:12:06,290 --> 00:12:05,100

not again after that alarm thing that

343

00:12:08,750 --> 00:12:06,300

happened there

344

00:12:10,550 --> 00:12:08,760

um yeah there's a Russian ship which

345

00:12:12,470 --> 00:12:10,560

they believe maybe intelligence

346

00:12:14,630 --> 00:12:12,480

gathering but they've got some very

347

00:12:16,310 --> 00:12:14,640

ideal of it and everyone in the UFO

348

00:12:18,769 --> 00:12:16,320

Community are picking up online that

349

00:12:21,350 --> 00:12:18,779

look how clear and wonderful the video

350

00:12:22,970 --> 00:12:21,360

is that they've got from a distance of

351
00:12:24,949 --> 00:12:22,980
this Russian ship and you can make out

352
00:12:27,050 --> 00:12:24,959
the detail on the ship and you know the

353
00:12:28,790 --> 00:12:27,060
boxes that have dropped and the expiry

354
00:12:31,069 --> 00:12:28,800
dates on the protein bars are lying on

355
00:12:32,870 --> 00:12:31,079
Deck pretty much and making the point

356
00:12:34,310 --> 00:12:32,880
that you know that's the kind of footage

357
00:12:36,290 --> 00:12:34,320
we want to see

358
00:12:37,910 --> 00:12:36,300
of these objects that you're managing to

359
00:12:39,650 --> 00:12:37,920
film that you can't tell us what they

360
00:12:41,210 --> 00:12:39,660
are that's so that was a little bit of a

361
00:12:43,430 --> 00:12:41,220
frustration online because you go ah

362
00:12:45,710 --> 00:12:43,440
there's there's some nice HD camera

363
00:12:47,930 --> 00:12:45,720

footage that isn't shaky or grainy so

364

00:12:49,490 --> 00:12:47,940

yeah we know they've got it we're only

365

00:12:51,530 --> 00:12:49,500

allowed to see the blurry stuff that

366

00:12:53,990 --> 00:12:51,540

that keeps us so argument online right

367

00:12:55,370 --> 00:12:54,000

instead of discussing the real issue um

368

00:12:57,470 --> 00:12:55,380

yeah you're right

369

00:12:59,090 --> 00:12:57,480

that footage has to exist we've been

370

00:13:01,009 --> 00:12:59,100

told it exists

371

00:13:02,810 --> 00:13:01,019

um we've been told that it probably

372

00:13:04,610 --> 00:13:02,820

isn't going to be released because of

373

00:13:07,670 --> 00:13:04,620

XYZ you know mostly to do with natural

374

00:13:10,370 --> 00:13:07,680

security and keep keeping the systems uh

375

00:13:11,810 --> 00:13:10,380

classified but you can sanitize this

376

00:13:13,430 --> 00:13:11,820

footage and you can get it out there as

377

00:13:14,810 --> 00:13:13,440

proven by you know things like the

378

00:13:16,610 --> 00:13:14,820

Russian Ship video you mentioned you

379

00:13:18,590 --> 00:13:16,620

know what things exist where you know

380

00:13:20,990 --> 00:13:18,600

what close-ups of tanks and things like

381

00:13:23,449 --> 00:13:21,000

that we've seen the coverage from you

382

00:13:25,670 --> 00:13:23,459

know the Russia Ukraine conflict

383

00:13:28,610 --> 00:13:25,680

um and and how you know we're

384

00:13:30,410 --> 00:13:28,620

essentially broadcasting a war 4K you

385

00:13:32,629 --> 00:13:30,420

know this is Vietnam all over again but

386

00:13:34,670 --> 00:13:32,639

with DVD quality

387

00:13:36,590 --> 00:13:34,680

um oh sorry 4K quality

388

00:13:39,110 --> 00:13:36,600

um so that footage exists and we we just

389

00:13:42,050 --> 00:13:39,120

want to see it and this is what the um

390

00:13:44,150 --> 00:13:42,060

issue is kind of you know tackling it's

391

00:13:45,829 --> 00:13:44,160

finally getting it to the grown-ups

392

00:13:47,629 --> 00:13:45,839

table and having a proper discussion

393

00:13:48,949 --> 00:13:47,639

about this instead of just that step up

394

00:13:51,710 --> 00:13:48,959

and there was no one shot I'll

395

00:13:54,530 --> 00:13:51,720

discussion UFOs yeah quick point before

396

00:13:57,230 --> 00:13:54,540

we move on to the next uh news piece a

397

00:13:59,990 --> 00:13:57,240

question from LMR and the Discord asked

398

00:14:02,030 --> 00:14:00,000

he's interested to know if or do we

399

00:14:03,530 --> 00:14:02,040

think any leaks might come from the

400

00:14:05,750 --> 00:14:03,540

classified briefings that are happening

401
00:14:07,910 --> 00:14:05,760
in Congress and again potentially any

402
00:14:10,069 --> 00:14:07,920
leaks from this NASA you know or a

403
00:14:12,230 --> 00:14:10,079
meeting as well and legislators in the

404
00:14:14,449 --> 00:14:12,240
United States are generally immune from

405
00:14:15,769 --> 00:14:14,459
Suits and prosecution for comments made

406
00:14:17,990 --> 00:14:15,779
well on the floor of the House and

407
00:14:19,670 --> 00:14:18,000
Senate so the potential for some very

408
00:14:21,290 --> 00:14:19,680
interesting species as they are

409
00:14:23,030 --> 00:14:21,300
definitely something to watch for here

410
00:14:25,129 --> 00:14:23,040
in the states what do you think the

411
00:14:26,389 --> 00:14:25,139
chances are over the course of this year

412
00:14:28,910 --> 00:14:26,399
if it's getting something leaking

413
00:14:31,069 --> 00:14:28,920

because I'll be honest that was maybe a

414

00:14:33,110 --> 00:14:31,079

disappointment of mine last year was the

415

00:14:34,910 --> 00:14:33,120

lack of a new video or or photograph

416

00:14:36,350 --> 00:14:34,920

kind of leaking from from any of those

417

00:14:38,810 --> 00:14:36,360

in the know

418

00:14:41,210 --> 00:14:38,820

yeah sure essentially we we want people

419

00:14:43,069 --> 00:14:41,220

like um Sam's Jello brand and people

420

00:14:45,170 --> 00:14:43,079

from the Committees to kind of speak up

421

00:14:46,730 --> 00:14:45,180

and give us these little teasers the the

422

00:14:48,949 --> 00:14:46,740

only people that seem to be talking in

423

00:14:51,410 --> 00:14:48,959

the way that we'd hope would be uh Tim

424

00:14:53,150 --> 00:14:51,420

burchett uh who who you know he's quite

425

00:14:55,430 --> 00:14:53,160

free flowing the way he speaks talking

426
00:14:57,350 --> 00:14:55,440
about cover-up and things like that he's

427
00:14:58,610 --> 00:14:57,360
been privy to some information but not

428
00:15:00,230 --> 00:14:58,620
all of it

429
00:15:01,910 --> 00:15:00,240
um and I would say that's as close as

430
00:15:04,189 --> 00:15:01,920
we've come to a league but yeah going

431
00:15:06,889 --> 00:15:04,199
forward I I would hope

432
00:15:08,810 --> 00:15:06,899
the thing is with leaks it means we get

433
00:15:10,730 --> 00:15:08,820
to see the information but it also means

434
00:15:11,990 --> 00:15:10,740
that we we don't get all of the

435
00:15:13,490 --> 00:15:12,000
information right we just get this

436
00:15:15,110 --> 00:15:13,500
little snippet and then there's there's

437
00:15:17,389 --> 00:15:15,120
a bunch of information back here that

438
00:15:19,790 --> 00:15:17,399

just gets filled with speculation so as

439

00:15:21,829 --> 00:15:19,800

much as I want leaks I more so want them

440

00:15:23,810 --> 00:15:21,839

to just treat us it's got that adults

441

00:15:25,670 --> 00:15:23,820

and have the conversation and show us

442

00:15:27,949 --> 00:15:25,680

this footage and go this is just what's

443

00:15:29,389 --> 00:15:27,959

up you know yeah I think for me I look

444

00:15:31,189 --> 00:15:29,399

at it as well that a little knowledge

445

00:15:33,410 --> 00:15:31,199

can be a dangerous thing and you can

446

00:15:35,389 --> 00:15:33,420

start to and that's a God isn't that

447

00:15:38,269 --> 00:15:35,399

just a UFO Topic in general though ever

448

00:15:42,350 --> 00:15:38,279

since since day one that you you create

449

00:15:44,569 --> 00:15:42,360

whole hypothesis and ideas and your firm

450

00:15:47,090 --> 00:15:44,579

resolutions on

451
00:15:48,290 --> 00:15:47,100
on part of a whole is having that kind

452
00:15:49,610 --> 00:15:48,300
of part of a jig so I wasn't thinking

453
00:15:50,870 --> 00:15:49,620
going well this must be the full picture

454
00:15:51,889 --> 00:15:50,880
but you don't know what else might be

455
00:15:53,389 --> 00:15:51,899
there

456
00:15:54,290 --> 00:15:53,399
um like I gave my catchphrase for those

457
00:15:55,610 --> 00:15:54,300
that might have seen that and you've

458
00:15:56,810 --> 00:15:55,620
only got a couple of squares revealed

459
00:15:58,550 --> 00:15:56,820
and you you're just kind of piecing

460
00:16:00,290 --> 00:15:58,560
together what it might be

461
00:16:01,610 --> 00:16:00,300
um I like your analogies do do a

462
00:16:04,730 --> 00:16:01,620
Christmas tree one again that one oh

463
00:16:05,389 --> 00:16:04,740

yeah for Ryan spread yeah

464

00:16:07,069 --> 00:16:05,399

um

465

00:16:09,470 --> 00:16:07,079

the

466

00:16:11,210 --> 00:16:09,480

it's great to get any information out

467

00:16:14,269 --> 00:16:11,220

but I can see why others get frustrated

468

00:16:16,730 --> 00:16:14,279

with it but also you'll speak to

469

00:16:18,410 --> 00:16:16,740

others who don't like the idea of leaks

470

00:16:21,650 --> 00:16:18,420

coming out because it's like in a

471

00:16:24,829 --> 00:16:21,660

failure of people to protect or serve

472

00:16:26,509 --> 00:16:24,839

Oaths or ndas or you know that

473

00:16:27,949 --> 00:16:26,519

information should be getting out so I

474

00:16:30,170 --> 00:16:27,959

get it's a kind of tightrope that gets

475

00:16:31,850 --> 00:16:30,180

walked but yeah I think for me I would

476

00:16:35,329 --> 00:16:31,860

still love whether it was a Gallagher

477

00:16:37,790 --> 00:16:35,339

Rubio gillibrand Warner budget or any

478

00:16:39,050 --> 00:16:37,800

other from any of these organizations to

479

00:16:40,129 --> 00:16:39,060

come out and give us a little bit of

480

00:16:42,230 --> 00:16:40,139

something you know some more information

481

00:16:44,389 --> 00:16:42,240

to get released ideally like you say

482

00:16:46,249 --> 00:16:44,399

that it comes out officially you know

483

00:16:48,650 --> 00:16:46,259

that would be it can you imagine that

484

00:16:50,150 --> 00:16:48,660

Susan Gough standing there on the podium

485

00:16:51,590 --> 00:16:50,160

and saying look right okay here you go

486

00:16:53,090 --> 00:16:51,600

here's a video

487

00:16:54,470 --> 00:16:53,100

um not that that's ever going to happen

488

00:16:56,749 --> 00:16:54,480

but that would be like oh yeah Christmas

489

00:16:58,550 --> 00:16:56,759

trees at once so for some reason at

490

00:17:00,590 --> 00:16:58,560

least uh it will be believable if she

491

00:17:03,769 --> 00:17:00,600

didn't know how to use VLC media player

492

00:17:05,510 --> 00:17:03,779

yeah shout out to VLC media player uh

493

00:17:06,650 --> 00:17:05,520

not one of the sponsors unless I want to

494

00:17:09,049 --> 00:17:06,660

get in touch

495

00:17:11,569 --> 00:17:09,059

um the guy that develops it does that

496

00:17:14,329 --> 00:17:11,579

does listen to the show so a big shout

497

00:17:16,130 --> 00:17:14,339

out for VLC High VLC media player the

498

00:17:18,470 --> 00:17:16,140

only media player if you want to use

499

00:17:20,090 --> 00:17:18,480

that yeah Dan do you use any other no we

500

00:17:21,650 --> 00:17:20,100

won't go into that listen so yeah you

501
00:17:23,689 --> 00:17:21,660
mentioned Dan Avila web is going to be

502
00:17:25,490 --> 00:17:23,699
an attendance as well as Enigma Labs

503
00:17:26,929 --> 00:17:25,500
Enigma Labs is another nose piece I've

504
00:17:27,949 --> 00:17:26,939
got just to discuss quickly because I

505
00:17:29,150 --> 00:17:27,959
know it's something you know a little

506
00:17:31,250 --> 00:17:29,160
bit about

507
00:17:33,710 --> 00:17:31,260
um Enigma labs are working on an app

508
00:17:35,210 --> 00:17:33,720
aren't they which is going to come into

509
00:17:36,470 --> 00:17:35,220
you so if you go into the website which

510
00:17:37,730 --> 00:17:36,480
will be in the description to the

511
00:17:40,850 --> 00:17:37,740
podcast

512
00:17:43,730 --> 00:17:40,860
um the it gives you an option to go into

513
00:17:45,289 --> 00:17:43,740

the iOS beta waiting list I think yeah

514

00:17:47,330 --> 00:17:45,299

that's right

515

00:17:49,010 --> 00:17:47,340

um so I'm going to be done Mission Dan

516

00:17:50,990 --> 00:17:49,020

and you can tell us a little bit more so

517

00:17:53,330 --> 00:17:51,000

their mission on their website uh which

518

00:17:55,190 --> 00:17:53,340

is pretty sparse at the moment for for

519

00:17:57,470 --> 00:17:55,200

reasons we can go into to advance

520

00:17:59,570 --> 00:17:57,480

progress on new AP using Cutting Edge

521

00:18:01,610 --> 00:17:59,580

technology and social intelligence only

522

00:18:03,950 --> 00:18:01,620

through thoughtful open-minded study or

523

00:18:06,169 --> 00:18:03,960

of unidentified phenomena can we get

524

00:18:08,870 --> 00:18:06,179

answers we are focused on building and

525

00:18:10,669 --> 00:18:08,880

keep our team low profile for privacy

526

00:18:12,110 --> 00:18:10,679

that might answer that last part is why

527

00:18:14,210 --> 00:18:12,120

some of it's a little bit sparse though

528

00:18:15,350 --> 00:18:14,220

on the Privacy side of things and so

529

00:18:16,370 --> 00:18:15,360

what do you know Dan about Enigma

530

00:18:19,549 --> 00:18:16,380

because you've mentioned them a few

531

00:18:22,070 --> 00:18:19,559

times before yeah so um Enigma seemed to

532

00:18:24,650 --> 00:18:22,080

be a company that sprang up with a bit

533

00:18:27,110 --> 00:18:24,660

of investor support the investors are a

534

00:18:28,909 --> 00:18:27,120

bit of a mystery uh some some people if

535

00:18:32,150 --> 00:18:28,919

you speak to them they mention a company

536

00:18:35,510 --> 00:18:32,160

called uh novastar and kind of

537

00:18:37,070 --> 00:18:35,520

overseeing the the arrow information and

538

00:18:39,650 --> 00:18:37,080

that these companies are now going to be

539

00:18:40,909 --> 00:18:39,660

feeding into that secure system yeah uh

540

00:18:41,810 --> 00:18:40,919

and it's making some people a little

541

00:18:44,630 --> 00:18:41,820

worried that some of the information

542

00:18:46,610 --> 00:18:44,640

being put into databases at Enigma and

543

00:18:48,830 --> 00:18:46,620

places like that are going to be kind of

544

00:18:50,750 --> 00:18:48,840

you know shoehorned into into a box

545

00:18:52,250 --> 00:18:50,760

never to be seen by the light of day I

546

00:18:54,289 --> 00:18:52,260

was going to ask you that because that's

547

00:18:55,850 --> 00:18:54,299

and again just to just to round that off

548

00:18:58,190 --> 00:18:55,860

that was one of the the things I've seen

549

00:18:59,570 --> 00:18:58,200

online about it is a few people on

550

00:19:02,270 --> 00:18:59,580

social media

551
00:19:04,370 --> 00:19:02,280
um when you go on to about us they say

552
00:19:05,930 --> 00:19:04,380
they are natural Global and professional

553
00:19:07,130 --> 00:19:05,940
that's three separate headings or some

554
00:19:09,110 --> 00:19:07,140
information under each which is

555
00:19:10,190 --> 00:19:09,120
fantastic some of the concerns you have

556
00:19:13,010 --> 00:19:10,200
mentioned online is about them

557
00:19:14,510 --> 00:19:13,020
partnering with arrow and NASA and some

558
00:19:16,970 --> 00:19:14,520
see that as going against the

559
00:19:18,110 --> 00:19:16,980
transparency angle because potentially

560
00:19:20,409 --> 00:19:18,120
the information then going into

561
00:19:24,289 --> 00:19:20,419
databases of private aerospace companies

562
00:19:26,990 --> 00:19:24,299
can be heading away and you can't for

563
00:19:29,029 --> 00:19:27,000

your request that you can't get at it

564

00:19:31,070 --> 00:19:29,039

um so again that seems to be one that

565

00:19:33,350 --> 00:19:31,080

there's a fence work to be done on it

566

00:19:35,690 --> 00:19:33,360

whether you are on the side side of it

567

00:19:37,430 --> 00:19:35,700

being right or wrong and it reminds me I

568

00:19:38,870 --> 00:19:37,440

suppose of tsa for example and maybe

569

00:19:41,690 --> 00:19:38,880

this is where people got their fingers

570

00:19:44,270 --> 00:19:41,700

burned a little bit where uh a company

571

00:19:45,650 --> 00:19:44,280

came out promised one thing you know we

572

00:19:47,570 --> 00:19:45,660

saw the picture of the anti-gravity

573

00:19:49,130 --> 00:19:47,580

craft and we heard of all these things

574

00:19:50,510 --> 00:19:49,140

that may or may not come out I suppose

575

00:19:53,570 --> 00:19:50,520

one of the things that we can point to

576

00:19:55,130 --> 00:19:53,580

that was realistic was the piece of

577

00:19:57,650 --> 00:19:55,140

material that they purchased from London

578

00:19:59,450 --> 00:19:57,660

molten how that then went to the US

579

00:20:00,830 --> 00:19:59,460

government under a crada agreement which

580

00:20:02,630 --> 00:20:00,840

apparently is still in the works we

581

00:20:04,610 --> 00:20:02,640

spoke to a few people about that and

582

00:20:05,810 --> 00:20:04,620

that's upset people that well there was

583

00:20:07,250 --> 00:20:05,820

something we had you had physical

584

00:20:08,510 --> 00:20:07,260

evidence you could have done the work

585

00:20:09,830 --> 00:20:08,520

but you gave it to the government and

586

00:20:11,630 --> 00:20:09,840

now it's gone

587

00:20:14,450 --> 00:20:11,640

and you can't really disagree with that

588

00:20:16,610 --> 00:20:14,460

can you that that does happen and

589

00:20:18,110 --> 00:20:16,620

what can be done so what what are your

590

00:20:19,430 --> 00:20:18,120

thoughts saying on the organizations

591

00:20:22,010 --> 00:20:19,440

like this

592

00:20:24,230 --> 00:20:22,020

who are looking to be transparent and do

593

00:20:28,190 --> 00:20:24,240

the work but one they still need funding

594

00:20:30,890 --> 00:20:28,200

which this helps them get but two it can

595

00:20:32,870 --> 00:20:30,900

compromise the overall idea of

596

00:20:34,909 --> 00:20:32,880

transparency

597

00:20:37,010 --> 00:20:34,919

yeah for sure so I think the the

598

00:20:38,570 --> 00:20:37,020

important thing to remember is the word

599

00:20:40,909 --> 00:20:38,580

collaborate

600

00:20:42,590 --> 00:20:40,919

um you know we've said that I I think I

601
00:20:44,150 --> 00:20:42,600
said earlier as well partnership but

602
00:20:45,770 --> 00:20:44,160
collaborate is the way it goes and when

603
00:20:47,750 --> 00:20:45,780
I collaborate with people I can appear

604
00:20:50,450 --> 00:20:47,760
in various forms right it can appear in

605
00:20:53,210 --> 00:20:50,460
a form where they do most of the work or

606
00:20:54,710 --> 00:20:53,220
you know it's a shared workload or you

607
00:20:56,390 --> 00:20:54,720
just share everything you've got with

608
00:20:56,990 --> 00:20:56,400
each other openly

609
00:20:59,570 --> 00:20:57,000
um

610
00:21:01,909 --> 00:20:59,580
Enigma NASA you know they're all working

611
00:21:03,650 --> 00:21:01,919
with arrow and they're in Galilee as

612
00:21:06,049 --> 00:21:03,660
well and they're all very dedicated to

613
00:21:08,570 --> 00:21:06,059

to transparency as they say

614

00:21:11,210 --> 00:21:08,580

the information flow to Arrow is going

615

00:21:14,570 --> 00:21:11,220

to be specifically about uh sensitive

616

00:21:16,490 --> 00:21:14,580

airspace and on one hand like yes okay

617

00:21:18,650 --> 00:21:16,500

you know that that information going to

618

00:21:20,450 --> 00:21:18,660

arrow means that we probably won't see

619

00:21:21,890 --> 00:21:20,460

that aside from in the reports and it

620

00:21:23,570 --> 00:21:21,900

won't even be specified you know we had

621

00:21:25,190 --> 00:21:23,580

50 cases from Enigma or something like

622

00:21:27,289 --> 00:21:25,200

that but

623

00:21:29,570 --> 00:21:27,299

on the other side of the coin you kind

624

00:21:31,610 --> 00:21:29,580

of want Arrow to have a full picture of

625

00:21:33,529 --> 00:21:31,620

everything that's happening so the more

626

00:21:35,570 --> 00:21:33,539

people that Arrow are collaborating with

627

00:21:38,210 --> 00:21:35,580

the more chance they've got have kind of

628

00:21:41,450 --> 00:21:38,220

seeing the whole picture so we we need

629

00:21:44,270 --> 00:21:41,460

that that cross-pollination to happen uh

630

00:21:46,070 --> 00:21:44,280

but people who certainly I think fair in

631

00:21:47,750 --> 00:21:46,080

being a little bit timid and I think

632

00:21:49,370 --> 00:21:47,760

you're probably right about the tsa

633

00:21:52,370 --> 00:21:49,380

kind of maybe burning some some people's

634

00:21:54,590 --> 00:21:52,380

fingers uh but I remain hopeful and

635

00:21:56,210 --> 00:21:54,600

positive that all these kind of groups

636

00:21:58,370 --> 00:21:56,220

are working together

637

00:21:59,930 --> 00:21:58,380

um and that a lot of them uh you know

638

00:22:01,970 --> 00:21:59,940

Galileo have always said we're not

639

00:22:04,549 --> 00:22:01,980

touching classified data because it

640

00:22:07,549 --> 00:22:04,559

means that we can't discuss it then so I

641

00:22:09,710 --> 00:22:07,559

would think that places like Galileo can

642

00:22:11,270 --> 00:22:09,720

discuss everything that they gather even

643

00:22:13,610 --> 00:22:11,280

if they can't specifically tell us what

644

00:22:15,049 --> 00:22:13,620

they've given to Arrow so it remains to

645

00:22:17,649 --> 00:22:15,059

be seen kind of How Deep The

646

00:22:20,750 --> 00:22:17,659

collaboration goes uh but but I'm

647

00:22:22,370 --> 00:22:20,760

cautiously optimistic I would say so so

648

00:22:23,450 --> 00:22:22,380

what's their app meant to do when it

649

00:22:25,610 --> 00:22:23,460

gets released

650

00:22:27,649 --> 00:22:25,620

so the app will contain access to the

651

00:22:29,990 --> 00:22:27,659

databases basically as well as a

652

00:22:33,909 --> 00:22:30,000

reporting tool so you would have on your

653

00:22:36,590 --> 00:22:33,919

phone essentially uh access to databases

654

00:22:39,590 --> 00:22:36,600

from you know we're talking like four

655

00:22:41,270 --> 00:22:39,600

five six decades all standardized in the

656

00:22:42,950 --> 00:22:41,280

same way so we can actually start

657

00:22:44,149 --> 00:22:42,960

looking at patterns and things like that

658

00:22:45,710 --> 00:22:44,159

you know we can see if there's any

659

00:22:47,690 --> 00:22:45,720

correlation with temperature all the

660

00:22:50,450 --> 00:22:47,700

time of year and things like that for

661

00:22:51,950 --> 00:22:50,460

UFO sightings as well as that there's a

662

00:22:54,590 --> 00:22:51,960

reporting portion of it so you can

663

00:22:55,909 --> 00:22:54,600

actually feed into that database I don't

664

00:22:58,850 --> 00:22:55,919

know if you've ever gone on to the move

665

00:23:01,789 --> 00:22:58,860

on website to report a UFO encounter but

666

00:23:03,590 --> 00:23:01,799

it's quite a long process and there's

667

00:23:06,490 --> 00:23:03,600

you know it's not really modernized I'd

668

00:23:09,649 --> 00:23:06,500

say so this is kind of a nice modern

669

00:23:11,149 --> 00:23:09,659

version to get with your smartphone

670

00:23:13,190 --> 00:23:11,159

um so that it's on you all the time so

671

00:23:14,690 --> 00:23:13,200

you can report it quicker you know the

672

00:23:16,430 --> 00:23:14,700

data capture can be better because your

673

00:23:18,830 --> 00:23:16,440

smartphone has a whole bunch of sensors

674

00:23:20,990 --> 00:23:18,840

like temperature atmosphere all those

675

00:23:24,289 --> 00:23:21,000

kind of things so all of that will feed

676

00:23:26,750 --> 00:23:24,299

into these databases is that similar to

677

00:23:28,850 --> 00:23:26,760

The Vault or Scout apps that were were

678

00:23:30,890 --> 00:23:28,860

talked about back in the day by two of

679

00:23:32,750 --> 00:23:30,900

the stars that went away

680

00:23:34,190 --> 00:23:32,760

that's not a bad way to think of them I

681

00:23:38,930 --> 00:23:34,200

think the the only difference would be

682

00:23:44,270 --> 00:23:42,409

a very the idea was that say you and I

683

00:23:48,130 --> 00:23:44,280

were in the same area and I saw a UFO

684

00:23:50,390 --> 00:23:48,140

and we both had Scout on our phones

685

00:23:51,950 --> 00:23:50,400

exactly so you could film and then we

686

00:23:53,930 --> 00:23:51,960

could triangulate and get distances and

687

00:23:55,010 --> 00:23:53,940

stuff I don't think this app is going to

688

00:23:56,270 --> 00:23:55,020

do that

689

00:23:57,950 --> 00:23:56,280

um it's just going to be a much more

690

00:24:01,370 --> 00:23:57,960

modern version of essentially you know

691

00:24:03,049 --> 00:24:01,380

the these balls input forms through

692

00:24:06,409 --> 00:24:03,059

places like move on and things like that

693

00:24:09,169 --> 00:24:06,419

so yeah I mean I I can't imagine the

694

00:24:11,510 --> 00:24:09,179

Young Generation going on to a website

695

00:24:13,730 --> 00:24:11,520

like move on and going and filing all

696

00:24:15,710 --> 00:24:13,740

those kind of different

697

00:24:17,450 --> 00:24:15,720

there are so many data points they want

698

00:24:20,270 --> 00:24:17,460

there it just takes about 30 minutes to

699

00:24:21,890 --> 00:24:20,280

file a to file a report uh whereas

700

00:24:23,570 --> 00:24:21,900

people just tend to write you know just

701
00:24:25,789 --> 00:24:23,580
a big paragraph and just make it with a

702
00:24:28,010 --> 00:24:25,799
picture or two that's more what Enigma

703
00:24:29,510 --> 00:24:28,020
is geared towards it's like any form

704
00:24:31,010 --> 00:24:29,520
these days the more clicks the more

705
00:24:33,409 --> 00:24:31,020
people drop off is to go through it and

706
00:24:35,870 --> 00:24:33,419
if a thousand people start filling out a

707
00:24:36,830 --> 00:24:35,880
form that's got 30 questions by the end

708
00:24:38,990 --> 00:24:36,840
of it

709
00:24:40,669 --> 00:24:39,000
so many of them were dropped off as it

710
00:24:41,990 --> 00:24:40,679
goes along and there's patterns and

711
00:24:43,130 --> 00:24:42,000
studies on that kind of stuff so I get

712
00:24:44,930 --> 00:24:43,140
it because we've all done it where you

713
00:24:46,130 --> 00:24:44,940

see this will only take five minutes and

714

00:24:48,230 --> 00:24:46,140

you go on and it's dropped down and

715

00:24:49,909 --> 00:24:48,240

click this and drop down and even just a

716

00:24:52,250 --> 00:24:49,919

layout of it the presentation of a

717

00:24:53,990 --> 00:24:52,260

survey can be really off-putting so yeah

718

00:24:55,850 --> 00:24:54,000

I can see why that happens and we miss

719

00:24:58,190 --> 00:24:55,860

out don't we I was listening to a

720

00:25:00,470 --> 00:24:58,200

podcast that I loved last night

721

00:25:02,149 --> 00:25:00,480

um I'll listen to I've got Dan onto them

722

00:25:04,070 --> 00:25:02,159

recently Plumbing the Death Star it's a

723

00:25:06,049 --> 00:25:04,080

group called Sans Pantry Sans pants

724

00:25:07,789 --> 00:25:06,059

radio Australia new zealand-based

725

00:25:09,230 --> 00:25:07,799

comedians are all very funny but they do

726

00:25:10,730 --> 00:25:09,240

a host of different podcasts and one of

727

00:25:13,490 --> 00:25:10,740

them is called Jackson Bailey's books

728

00:25:16,549 --> 00:25:13,500

America and they take a funny look at

729

00:25:18,950 --> 00:25:16,559

ghost cases you know and monsters

730

00:25:20,750 --> 00:25:18,960

werewolves all that kind of stuff and

731

00:25:22,669 --> 00:25:20,760

they they sometimes touch on new afos

732

00:25:24,289 --> 00:25:22,679

and if you're if you're protective or

733

00:25:26,210 --> 00:25:24,299

sensitive about the UFO topic maybe

734

00:25:28,250 --> 00:25:26,220

don't listen to it because they aren't

735

00:25:29,930 --> 00:25:28,260

really Believers themselves but they

736

00:25:31,430 --> 00:25:29,940

present the information that they gather

737

00:25:32,510 --> 00:25:31,440

and it can I I like them because they're

738

00:25:34,669 --> 00:25:32,520

really funny

739

00:25:37,310 --> 00:25:34,679

um but they were talking about UFO

740

00:25:39,769 --> 00:25:37,320

sightings and this was the got

741

00:25:41,149 --> 00:25:39,779

information from statista I think was

742

00:25:45,830 --> 00:25:41,159

the website or something like that or

743

00:25:48,289 --> 00:25:45,840

statisto and it was from 2015 or 20 2015

744

00:25:49,970 --> 00:25:48,299

or 2017 and it was something one of the

745

00:25:51,950 --> 00:25:49,980

guys on the show asked well how many UFO

746

00:25:54,110 --> 00:25:51,960

reports with modern technology actually

747

00:25:56,090 --> 00:25:54,120

get you know reported these days I bet

748

00:25:58,430 --> 00:25:56,100

it's quite low because everyone's got a

749

00:25:59,750 --> 00:25:58,440

camera and you know there's no UFOs in

750

00:26:01,250 --> 00:25:59,760

the sky is there really so no one's

751

00:26:03,110 --> 00:26:01,260

filling UFOs because they don't exist

752

00:26:05,630 --> 00:26:03,120

and one of the guys went on and was like

753

00:26:07,070 --> 00:26:05,640

yeah there was 8 000 reports and they

754

00:26:09,890 --> 00:26:07,080

they passed that off as being like a

755

00:26:11,570 --> 00:26:09,900

worldwide reporting sure and and we know

756

00:26:14,029 --> 00:26:11,580

for a fact whether that's right or wrong

757

00:26:15,169 --> 00:26:14,039

I imagine that number is far too low

758

00:26:17,330 --> 00:26:15,179

because I think they get more reports

759

00:26:19,669 --> 00:26:17,340

than that just in the us alone

760

00:26:21,409 --> 00:26:19,679

people just don't report because like

761

00:26:23,090 --> 00:26:21,419

you say the standardization isn't there

762

00:26:26,210 --> 00:26:23,100

they wouldn't phone the place to report

763

00:26:28,070 --> 00:26:26,220

a UFO they wouldn't phone you know the

764

00:26:31,490 --> 00:26:28,080

local government politicians to report a

765

00:26:32,990 --> 00:26:31,500

UFO I get questions to me how do I

766

00:26:34,730 --> 00:26:33,000

report a site and I've seen and usually

767

00:26:36,169 --> 00:26:34,740

I say to them going to move on or if

768

00:26:38,930 --> 00:26:36,179

it's in the UK you've got the guys at

769

00:26:40,789 --> 00:26:38,940

UFO identified to collect reports but

770

00:26:43,010 --> 00:26:40,799

there's such a lack of standardization

771

00:26:45,409 --> 00:26:43,020

isn't there that most of these reports

772

00:26:47,510 --> 00:26:45,419

got into the ether me myself with my two

773

00:26:49,370 --> 00:26:47,520

sightings that we've talked about plenty

774

00:26:51,950 --> 00:26:49,380

of times they've never been reported

775

00:26:53,690 --> 00:26:51,960

because what's the point

776

00:26:56,269 --> 00:26:53,700

yeah like what did they do with them

777

00:26:57,470 --> 00:26:56,279

right they don't follow up um I'm the

778

00:26:59,210 --> 00:26:57,480

same you know I think I've reported

779

00:27:00,710 --> 00:26:59,220

maybe two of the ones I've experienced

780

00:27:02,269 --> 00:27:00,720

and and then I was just like there's

781

00:27:04,250 --> 00:27:02,279

nothing happening with this even if

782

00:27:05,870 --> 00:27:04,260

someone picked up from mufon they would

783

00:27:07,250 --> 00:27:05,880

come and you know they would be

784

00:27:08,510 --> 00:27:07,260

interviews and then it wouldn't go

785

00:27:11,510 --> 00:27:08,520

forward

786

00:27:13,909 --> 00:27:11,520

um I'm much more encouraged by that kind

787

00:27:15,950 --> 00:27:13,919

of overall database analysis especially

788

00:27:18,049 --> 00:27:15,960

what we've got these days with AI kind

789

00:27:20,390 --> 00:27:18,059

of being able to identify patterns that

790

00:27:21,830 --> 00:27:20,400

humans can't we're already finding you

791

00:27:23,750 --> 00:27:21,840

know create an element of sorry no

792

00:27:25,370 --> 00:27:23,760

elements but materials that we we didn't

793

00:27:27,350 --> 00:27:25,380

think were possible because of these

794

00:27:29,930 --> 00:27:27,360

Technologies saying hey you know try try

795

00:27:32,029 --> 00:27:29,940

this combination yeah so I'm real

796

00:27:34,490 --> 00:27:32,039

hopeful for for a database like enigmas

797

00:27:35,690 --> 00:27:34,500

to shine some light uh where you know

798

00:27:38,149 --> 00:27:35,700

there's just going to be Darkness

799

00:27:40,430 --> 00:27:38,159

essentially and on that finally is there

800

00:27:42,049 --> 00:27:40,440

any dates proposed as to when their app

801
00:27:45,289 --> 00:27:42,059
maybe up and running

802
00:27:47,930 --> 00:27:45,299
uh not as far as I know but the IOS app

803
00:27:50,029 --> 00:27:47,940
being in beta means that it's decently

804
00:27:51,769 --> 00:27:50,039
far along so I would probably expect

805
00:27:53,990 --> 00:27:51,779
sometime in the next year

806
00:27:56,510 --> 00:27:54,000
cool that may have been useful if we had

807
00:27:59,630 --> 00:27:56,520
that app for the next nose piece from

808
00:28:01,789 --> 00:27:59,640
the FAA audio clips John Greenwald over

809
00:28:04,250 --> 00:28:01,799
at The Black Vault had fire requested an

810
00:28:07,070 --> 00:28:04,260
incident from the 11th of November 2022

811
00:28:09,830 --> 00:28:07,080
where a pilot reported two to three

812
00:28:11,870 --> 00:28:09,840
circling lights above their aircraft

813
00:28:14,210 --> 00:28:11,880

um on the audio clipping it goes about

814

00:28:17,870 --> 00:28:14,220

an hour John again the link is in the

815

00:28:19,909 --> 00:28:17,880

description John Greenwald mentions that

816

00:28:21,350 --> 00:28:19,919

the the much the recording was much

817

00:28:23,210 --> 00:28:21,360

longer but he's taking out the chat or

818

00:28:24,470 --> 00:28:23,220

the silence season anything non-ufo

819

00:28:26,210 --> 00:28:24,480

related

820

00:28:27,350 --> 00:28:26,220

um the pilot essentially asked the tower

821

00:28:29,390 --> 00:28:27,360

at the start is there any military

822

00:28:31,370 --> 00:28:29,400

activity going on locally they confirm

823

00:28:33,049 --> 00:28:31,380

nothing confirmed and the rest of is

824

00:28:34,789 --> 00:28:33,059

essentially the pilot talking about you

825

00:28:37,370 --> 00:28:34,799

know what he's kind of saying

826

00:28:38,930 --> 00:28:37,380

um Ben Hansen had reported similar a few

827

00:28:41,149 --> 00:28:38,940

months ago if people remember I had been

828

00:28:43,010 --> 00:28:41,159

on to talk about the the investigations

829

00:28:45,649 --> 00:28:43,020

he was doing and more of these Pilots

830

00:28:47,210 --> 00:28:45,659

are reporting seeing lights there were

831

00:28:49,370 --> 00:28:47,220

quite a few people though who are quite

832

00:28:52,130 --> 00:28:49,380

adamant that the pilots are just

833

00:28:53,810 --> 00:28:52,140

misidentifying starlink satellites let

834

00:28:56,350 --> 00:28:53,820

me put out there straight away I am not

835

00:28:58,610 --> 00:28:56,360

a pilot that might shock some people

836

00:29:00,610 --> 00:28:58,620

no actually no I never got my license

837

00:29:02,510 --> 00:29:00,620

I'm terrified

838

00:29:03,890 --> 00:29:02,520

whenever you tell me you're on your way

839

00:29:06,110 --> 00:29:03,900

to work I just assume you're in your

840

00:29:08,090 --> 00:29:06,120

personal plane absolutely I've been a

841

00:29:11,390 --> 00:29:08,100

very very low low height

842

00:29:13,909 --> 00:29:11,400

um so yeah not for me but listen there

843

00:29:15,409 --> 00:29:13,919

the annulation expert but I think when

844

00:29:17,029 --> 00:29:15,419

it comes to starlink satellites those

845

00:29:18,769 --> 00:29:17,039

are a very new phenomena for people to

846

00:29:20,210 --> 00:29:18,779

see in the skies

847

00:29:21,409 --> 00:29:20,220

um they have only been up there for a

848

00:29:23,269 --> 00:29:21,419

few years and we know the numbers are

849

00:29:25,430 --> 00:29:23,279

increasing all the time

850

00:29:27,230 --> 00:29:25,440

um it does seem like there's a chance

851
00:29:29,210 --> 00:29:27,240
they have may have been starlink

852
00:29:32,389 --> 00:29:29,220
satellites Mick West

853
00:29:34,370 --> 00:29:32,399
um did put up some information under the

854
00:29:36,409 --> 00:29:34,380
thread to say that there were starlink

855
00:29:38,690 --> 00:29:36,419
satellite flares

856
00:29:40,190 --> 00:29:38,700
um and it gave the possession of the sun

857
00:29:41,750 --> 00:29:40,200
he gave you know where the starlink

858
00:29:43,070 --> 00:29:41,760
satellites were at that time of the

859
00:29:46,250 --> 00:29:43,080
night where they were in the sky there

860
00:29:48,049 --> 00:29:46,260
was a lot of them and it it goes without

861
00:29:51,289 --> 00:29:48,059
saying that it could be that that's an

862
00:29:53,330 --> 00:29:51,299
explanation for it and what I'm grateful

863
00:29:54,710 --> 00:29:53,340

of though is that we're getting Pilots

864

00:29:56,570 --> 00:29:54,720

talking about these more and more

865

00:29:58,310 --> 00:29:56,580

they're not seeing strange lights in the

866

00:29:59,990 --> 00:29:58,320

sky and going all those look like UFOs

867

00:30:01,130 --> 00:30:00,000

I'm just going to ignore them that

868

00:30:03,289 --> 00:30:01,140

they're getting in touch with Towers

869

00:30:05,750 --> 00:30:03,299

they're filing reports and people like

870

00:30:08,570 --> 00:30:05,760

John are able to go in and fire request

871

00:30:10,850 --> 00:30:08,580

these that again similar to the the UFO

872

00:30:14,450 --> 00:30:10,860

report we had that just a few weeks ago

873

00:30:16,490 --> 00:30:14,460

or a week so I go 500 cases

874

00:30:17,570 --> 00:30:16,500

x amount explained it doesn't mean that

875

00:30:19,909 --> 00:30:17,580

more of them aren't going to have

876

00:30:21,590 --> 00:30:19,919

prosaic explanations but what it means

877

00:30:23,510 --> 00:30:21,600

is we can filter those out and we can

878

00:30:24,830 --> 00:30:23,520

get better at filtering those out to say

879

00:30:26,690 --> 00:30:24,840

oh yeah it was an aircraft it was

880

00:30:29,330 --> 00:30:26,700

clutter it was a drone it was something

881

00:30:30,590 --> 00:30:29,340

else but it leaves us that number that

882

00:30:32,450 --> 00:30:30,600

are still going to be truly

883

00:30:34,669 --> 00:30:32,460

unexplainable they exhibit five

884

00:30:36,950 --> 00:30:34,679

observables and that can only be a good

885

00:30:38,990 --> 00:30:36,960

thing as opposed to not getting reports

886

00:30:40,310 --> 00:30:39,000

and having almost nothing to work with

887

00:30:42,950 --> 00:30:40,320

that's the way I'm kind of looking at it

888

00:30:44,389 --> 00:30:42,960

then is that two glass half full no I I

889

00:30:45,769 --> 00:30:44,399

would completely agree with you you know

890

00:30:47,570 --> 00:30:45,779

it doesn't matter if these things are

891

00:30:49,490 --> 00:30:47,580

prosaic we have to solve them and take

892

00:30:51,889 --> 00:30:49,500

them off the table and and only by doing

893

00:30:54,409 --> 00:30:51,899

that can we say that's not a UFO like

894

00:30:55,909 --> 00:30:54,419

it's an ifo now and identified you know

895

00:30:57,590 --> 00:30:55,919

flying object

896

00:30:59,750 --> 00:30:57,600

um

897

00:31:01,730 --> 00:30:59,760

mix kind of assertion about starlink

898

00:31:03,950 --> 00:31:01,740

what I love about things like this is

899

00:31:05,389 --> 00:31:03,960

because those systems exist for us to

900

00:31:07,070 --> 00:31:05,399

you know just set a home fire up

901
00:31:09,049 --> 00:31:07,080
stellarium and look at where the sun was

902
00:31:10,490 --> 00:31:09,059
and where the styling was that means

903
00:31:12,710 --> 00:31:10,500
that that can be an automated system

904
00:31:15,049 --> 00:31:12,720
essentially so a company like a late

905
00:31:16,850 --> 00:31:15,059
Enigma if they wanted to could create

906
00:31:19,310 --> 00:31:16,860
this little thing in their app that if

907
00:31:21,529 --> 00:31:19,320
you are this specific degrees on the

908
00:31:22,970 --> 00:31:21,539
horizon from The Starlight satellite and

909
00:31:24,590 --> 00:31:22,980
you go to film something it could say

910
00:31:26,210 --> 00:31:24,600
hold on this could be a styling

911
00:31:29,690 --> 00:31:26,220
satellite let me cross-reference that

912
00:31:31,789 --> 00:31:29,700
without even asking anyone so this this

913
00:31:33,830 --> 00:31:31,799

kind of modern technological approach

914

00:31:35,269 --> 00:31:33,840

can help tackle things like this yeah

915

00:31:36,950 --> 00:31:35,279

and I think that's what we're going to

916

00:31:39,470 --> 00:31:36,960

see develop over the next few years so

917

00:31:42,289 --> 00:31:39,480

that low hanging fruit like the starlink

918

00:31:44,389 --> 00:31:42,299

stuff can just be dealt with we see

919

00:31:46,490 --> 00:31:44,399

people from the ground kind of filming

920

00:31:48,289 --> 00:31:46,500

starlink and you know posting videos of

921

00:31:49,850 --> 00:31:48,299

rocket launches as well just because

922

00:31:51,110 --> 00:31:49,860

it's outside of their wheelhouse of

923

00:31:52,430 --> 00:31:51,120

experience so they don't know what

924

00:31:55,190 --> 00:31:52,440

they're looking at

925

00:31:56,690 --> 00:31:55,200

um and yeah like I say an automated

926
00:31:58,430 --> 00:31:56,700
system that could just you know take the

927
00:32:01,370 --> 00:31:58,440
time and place of their video and just

928
00:32:03,649 --> 00:32:01,380
say hey you know it might be this within

929
00:32:05,510 --> 00:32:03,659
a degree of certainty it could take a

930
00:32:07,850 --> 00:32:05,520
lot of cases off the table and allow us

931
00:32:09,169 --> 00:32:07,860
to focus on the anomalous stuff yeah and

932
00:32:10,610 --> 00:32:09,179
that's not to say that there may not

933
00:32:12,470 --> 00:32:10,620
have been something there because it's

934
00:32:14,450 --> 00:32:12,480
just one explanation and I suppose

935
00:32:17,510 --> 00:32:14,460
there's still a lack a full lack of data

936
00:32:19,490 --> 00:32:17,520
sets from it including the I the

937
00:32:22,370 --> 00:32:19,500
eyewitness testimony of the pilot is is

938
00:32:24,289 --> 00:32:22,380

crucial because these these guys and

939

00:32:25,310 --> 00:32:24,299

these these women they know what they're

940

00:32:27,889 --> 00:32:25,320

seeing

941

00:32:30,590 --> 00:32:27,899

but they can still misidentify things

942

00:32:32,149 --> 00:32:30,600

sure but again the cameras never look as

943

00:32:33,289 --> 00:32:32,159

good as a naked eye and we've all done

944

00:32:35,029 --> 00:32:33,299

it it's the old thing I'm going to take

945

00:32:36,470 --> 00:32:35,039

a picture of the Moon and you go on your

946

00:32:38,510 --> 00:32:36,480

your phone that costs you a thousand

947

00:32:39,649 --> 00:32:38,520

pounds and it's a white dot in the sky

948

00:32:42,049 --> 00:32:39,659

and you're like oh that doesn't look

949

00:32:43,970 --> 00:32:42,059

like what I'm looking at so again and

950

00:32:45,710 --> 00:32:43,980

it's the frame rates isn't it where you

951
00:32:47,149 --> 00:32:45,720
see something dropping and out and that

952
00:32:48,889 --> 00:32:47,159
was one of the things on the Ben Hansen

953
00:32:50,690 --> 00:32:48,899
footage that I remember watching it down

954
00:32:52,610 --> 00:32:50,700
with you at one point before we recorded

955
00:32:53,810 --> 00:32:52,620
our show and I don't think we were sure

956
00:32:56,330 --> 00:32:53,820
what we were meant to be looking at

957
00:32:57,789 --> 00:32:56,340
because there was a star or several

958
00:32:59,930 --> 00:32:57,799
Stars wasn't there

959
00:33:02,029 --> 00:32:59,940
and I was like oh I've been looking at

960
00:33:03,649 --> 00:33:02,039
that and I think you were as well but it

961
00:33:05,690 --> 00:33:03,659
was just the star flashing in and out

962
00:33:07,250 --> 00:33:05,700
because of the frame rate yeah that's

963
00:33:09,409 --> 00:33:07,260

right and it kind of makes it look a

964

00:33:10,549 --> 00:33:09,419

little normal so yeah when when that

965

00:33:11,690 --> 00:33:10,559

person was looking back at the video

966

00:33:13,009 --> 00:33:11,700

they were kind of going oh that's

967

00:33:14,990 --> 00:33:13,019

flickering in and out that must have

968

00:33:17,210 --> 00:33:15,000

been what I saw but actually you know

969

00:33:19,070 --> 00:33:17,220

we'll pop further examination it wasn't

970

00:33:21,110 --> 00:33:19,080

um and and some debunkers use that to

971

00:33:22,850 --> 00:33:21,120

wipe that kind of video off the table

972

00:33:24,470 --> 00:33:22,860

when really the conversation should have

973

00:33:26,690 --> 00:33:24,480

been about that eyewitness testimony or

974

00:33:28,250 --> 00:33:26,700

you're absolutely right there are larger

975

00:33:29,630 --> 00:33:28,260

contexts to these things and it goes the

976
00:33:32,450 --> 00:33:29,640
other way as well I posted a video

977
00:33:35,389 --> 00:33:32,460
online from a volcano here in Mexico

978
00:33:36,950 --> 00:33:35,399
that's a bit of a hot spot for UFOs and

979
00:33:38,330 --> 00:33:36,960
there was an object just a black object

980
00:33:39,769 --> 00:33:38,340
kind of floating through the sky that

981
00:33:41,810 --> 00:33:39,779
when I was there I thought it was a

982
00:33:43,730 --> 00:33:41,820
balloon I I had people telling me it

983
00:33:45,110 --> 00:33:43,740
wasn't a balloon and I was just like

984
00:33:48,789 --> 00:33:45,120
this this is interesting this is going

985
00:33:53,570 --> 00:33:51,289
no it's just funny when you said UFO

986
00:33:56,029 --> 00:33:53,580
hotspot and volcano I was like yeah but

987
00:33:57,889 --> 00:33:56,039
yeah that's not what you meant

988
00:33:59,630 --> 00:33:57,899

um but listen yeah cool so um Good Luck

989

00:34:01,130 --> 00:33:59,640

from John Glenn mold on that one I will

990

00:34:02,149 --> 00:34:01,140

put the link in the description check it

991

00:34:04,070 --> 00:34:02,159

out folks see what you think for

992

00:34:06,409 --> 00:34:04,080

yourselves but thanks to John for doing

993

00:34:07,970 --> 00:34:06,419

that work and again it's one of those

994

00:34:09,829 --> 00:34:07,980

situations where you need people like

995

00:34:11,570 --> 00:34:09,839

Mike West to at least present here's a

996

00:34:13,669 --> 00:34:11,580

hypothesis and here's some work and at

997

00:34:15,589 --> 00:34:13,679

least they put in why he thinks that's

998

00:34:17,629 --> 00:34:15,599

what it could be which is not just

999

00:34:19,609 --> 00:34:17,639

here's what it is but here's why I think

1000

00:34:21,290 --> 00:34:19,619

that as well so so fair enough folks

1001

00:34:25,250 --> 00:34:21,300

we'll leave that one open and finally

1002

00:34:27,349 --> 00:34:25,260

from for me then uh the thehill.com uh

1003

00:34:29,930 --> 00:34:27,359

Marek Von Raymond Camp who puts out a

1004

00:34:32,690 --> 00:34:29,940

lot of good work on the hill put an

1005

00:34:34,849 --> 00:34:32,700

article out on the 19th of January uh

1006

00:34:36,470 --> 00:34:34,859

Louis Rondo Christopher melon and others

1007

00:34:40,669 --> 00:34:36,480

have followed up and retweeted as well

1008

00:34:42,649 --> 00:34:40,679

10 reasons to take UFOs seriously and I

1009

00:34:43,909 --> 00:34:42,659

like the issues UFOs and not UAP and

1010

00:34:46,250 --> 00:34:43,919

like a kind of serious serious

1011

00:34:47,930 --> 00:34:46,260

organization like uh the hill

1012

00:34:49,129 --> 00:34:47,940

um just fighting through them okay the

1013

00:34:51,050 --> 00:34:49,139

best way to do that stand because there

1014

00:34:52,609 --> 00:34:51,060

are 10 things on there but she would

1015

00:34:54,770 --> 00:34:52,619

just fire through and very very briefly

1016

00:34:56,210 --> 00:34:54,780

touch on each one yeah let's I think

1017

00:34:58,370 --> 00:34:56,220

they're fairly self-explanatory but yeah

1018

00:34:59,810 --> 00:34:58,380

let's go military pilot number one

1019

00:35:01,849 --> 00:34:59,820

military pilots and other service

1020

00:35:04,070 --> 00:35:01,859

members reported more than 500

1021

00:35:05,630 --> 00:35:04,080

additional UFO incidents some appear to

1022

00:35:07,370 --> 00:35:05,640

demonstrate highly advanced technology

1023

00:35:10,130 --> 00:35:07,380

so yeah just coming from the recent

1024

00:35:12,890 --> 00:35:10,140

report we had over 500 510 was a number

1025

00:35:14,990 --> 00:35:12,900

some of them obviously predated the

1026
00:35:17,150 --> 00:35:15,000
initial report just due to timings and

1027
00:35:18,950 --> 00:35:17,160
dates as to when they were submitted and

1028
00:35:20,329 --> 00:35:18,960
going through the system but again it's

1029
00:35:22,069 --> 00:35:20,339
good to get that what I would love to

1030
00:35:24,290 --> 00:35:22,079
see on the next report or the next

1031
00:35:26,210 --> 00:35:24,300
annual report even is that there are a

1032
00:35:29,210 --> 00:35:26,220
thousand or one and a half thousand

1033
00:35:30,470 --> 00:35:29,220
again of which many will be prosaic many

1034
00:35:32,329 --> 00:35:30,480
will be

1035
00:35:34,130 --> 00:35:32,339
um US tech Russian Tech all that kind of

1036
00:35:35,990 --> 00:35:34,140
stuff but there will still be a number

1037
00:35:37,910 --> 00:35:36,000
of truly anomalous ones in there and

1038
00:35:40,190 --> 00:35:37,920

what we need to get better at are what

1039

00:35:41,870 --> 00:35:40,200

the the US need to get better at is

1040

00:35:44,030 --> 00:35:41,880

filtering those out

1041

00:35:46,010 --> 00:35:44,040

to make sure that they can present their

1042

00:35:46,970 --> 00:35:46,020

anomalous stuff in a much more concise

1043

00:35:49,910 --> 00:35:46,980

fashion

1044

00:35:51,290 --> 00:35:49,920

absolutely and and arrow used a key

1045

00:35:52,970 --> 00:35:51,300

phrase in the report where they said

1046

00:35:55,430 --> 00:35:52,980

that they were characterizing sightings

1047

00:35:57,890 --> 00:35:55,440

as opposed to solving them which means

1048

00:35:59,690 --> 00:35:57,900

that you know within about 90 certainty

1049

00:36:02,210 --> 00:35:59,700

they'll think something is characterized

1050

00:36:04,250 --> 00:36:02,220

as a balloon for example uh I I think

1051

00:36:06,650 --> 00:36:04,260

this is an effort to filter those down

1052

00:36:08,990 --> 00:36:06,660

so that they're not even with so many

1053

00:36:12,290 --> 00:36:09,000

number two then Congress is taking UFOs

1054

00:36:15,950 --> 00:36:12,300

extremely seriously yes but I've got to

1055

00:36:18,650 --> 00:36:15,960

be honest and say I was disappointed by

1056

00:36:21,050 --> 00:36:18,660

the lateness of the report that was due

1057

00:36:23,870 --> 00:36:21,060

in October that landed in January so

1058

00:36:26,089 --> 00:36:23,880

while it's been taken seriously is the

1059

00:36:29,390 --> 00:36:26,099

pressure or

1060

00:36:31,130 --> 00:36:29,400

or demand for that that timeliness you

1061

00:36:32,510 --> 00:36:31,140

know we want this done and it wasn't

1062

00:36:35,450 --> 00:36:32,520

done

1063

00:36:37,670 --> 00:36:35,460

that that's a little bit

1064

00:36:39,410 --> 00:36:37,680

upsetting uh you know when you oh yeah

1065

00:36:41,150 --> 00:36:39,420

you're taking it seriously but are you

1066

00:36:43,609 --> 00:36:41,160

taking it that seriously

1067

00:36:45,710 --> 00:36:43,619

yeah exactly and I I think this kind of

1068

00:36:47,329 --> 00:36:45,720

goes along with point three as well in

1069

00:36:49,190 --> 00:36:47,339

America where he says the government

1070

00:36:51,470 --> 00:36:49,200

officials are making eyebrow raising

1071

00:36:53,329 --> 00:36:51,480

statements about UFOs I think the more

1072

00:36:55,130 --> 00:36:53,339

eyebrow raising statements are made by

1073

00:36:56,990 --> 00:36:55,140

officials the most stink is going to be

1074

00:36:58,849 --> 00:36:57,000

kicked up about things like late

1075

00:37:00,230 --> 00:36:58,859

reporting and things like that hopefully

1076
00:37:01,910 --> 00:37:00,240
going forward that won't happen again

1077
00:37:04,490 --> 00:37:01,920
you know we're not going to be reporting

1078
00:37:05,810 --> 00:37:04,500
through the dod now uh it's out from

1079
00:37:08,950 --> 00:37:05,820
under their wing

1080
00:37:11,210 --> 00:37:08,960
so yeah fingers crossed the the

1081
00:37:13,609 --> 00:37:11,220
seriousness does start kind of getting

1082
00:37:14,990 --> 00:37:13,619
hammered down and and as I like to say

1083
00:37:16,849 --> 00:37:15,000
that the next year is going to be full

1084
00:37:19,190 --> 00:37:16,859
of the stick not the carrot like this

1085
00:37:20,690 --> 00:37:19,200
year was full of yeah and you mentioned

1086
00:37:24,050 --> 00:37:20,700
those comments people like uh John

1087
00:37:26,329 --> 00:37:24,060
Ratcliffe and Bill Nelson really getting

1088
00:37:28,670 --> 00:37:26,339

into the not scurting around it but that

1089

00:37:30,410 --> 00:37:28,680

yeah we could be talking alien life you

1090

00:37:32,750 --> 00:37:30,420

know or I'm not willing to get into

1091

00:37:35,930 --> 00:37:32,760

talking about that in a way that's not

1092

00:37:39,370 --> 00:37:35,940

dismissive what was your thing said I I

1093

00:37:42,230 --> 00:37:39,380

can't I can't go further it's like yeah

1094

00:37:44,089 --> 00:37:42,240

exactly and I know that is then that's

1095

00:37:46,130 --> 00:37:44,099

fuel for those who want to nitpick at it

1096

00:37:48,290 --> 00:37:46,140

but that's kind of positive for me that

1097

00:37:50,870 --> 00:37:48,300

use of language number four scientists

1098

00:37:52,609 --> 00:37:50,880

are interested in the UFO phenomenon and

1099

00:37:54,950 --> 00:37:52,619

have been for decades well that's just a

1100

00:37:58,130 --> 00:37:54,960

fact but yes um but we're seeing that

1101

00:38:01,250 --> 00:37:58,140

with uh aviloeb the Galileo project uh

1102

00:38:02,930 --> 00:38:01,260

even Dan very relevant uh Neil deGrasse

1103

00:38:05,329 --> 00:38:02,940

Tyson seem to have done a little bit of

1104

00:38:07,010 --> 00:38:05,339

a year turn on his his comments it's

1105

00:38:09,470 --> 00:38:07,020

coming around around he's trying to be

1106

00:38:11,329 --> 00:38:09,480

get get on the cool kids train now with

1107

00:38:13,010 --> 00:38:11,339

this subject um it kind of speaks

1108

00:38:14,510 --> 00:38:13,020

volumes to where the subject is that

1109

00:38:16,490 --> 00:38:14,520

someone like him is trying to kind of

1110

00:38:18,530 --> 00:38:16,500

claw back and get in the good graces of

1111

00:38:20,150 --> 00:38:18,540

it uh all we ever wanted him to say was

1112

00:38:21,530 --> 00:38:20,160

science should tackle this and finally

1113

00:38:23,510 --> 00:38:21,540

that's what he's saying

1114

00:38:24,950 --> 00:38:23,520

do you know what Neil deGrasse Tyson

1115

00:38:27,470 --> 00:38:24,960

there'll be a good anagram in there and

1116

00:38:29,150 --> 00:38:27,480

the word alien is definitely there so if

1117

00:38:31,069 --> 00:38:29,160

someone wants to work that one out as to

1118

00:38:33,050 --> 00:38:31,079

what Neil deGrasse Tyson's anagram might

1119

00:38:34,849 --> 00:38:33,060

be to get the word alien in are we about

1120

00:38:36,650 --> 00:38:34,859

to find out he's reptilian is that what

1121

00:38:39,710 --> 00:38:36,660

yeah it's been there all along yeah

1122

00:38:41,750 --> 00:38:39,720

number five the public analyzes sorry

1123

00:38:44,089 --> 00:38:41,760

public analysis corroborate eyewitness

1124

00:38:45,950 --> 00:38:44,099

account of UFOs exhibiting remarkable

1125

00:38:47,210 --> 00:38:45,960

technology

1126

00:38:49,130 --> 00:38:47,220

um

1127

00:38:51,710 --> 00:38:49,140

yeah again

1128

00:38:53,150 --> 00:38:51,720

we've got the accounts where again the

1129

00:38:54,589 --> 00:38:53,160

lack of evidence towards the kind of

1130

00:38:56,270 --> 00:38:54,599

thing there isn't it we do see pictures

1131

00:38:58,190 --> 00:38:56,280

and videos which may turn out to be

1132

00:39:01,130 --> 00:38:58,200

balloons for example

1133

00:39:03,530 --> 00:39:01,140

um and without the surrounding data

1134

00:39:04,910 --> 00:39:03,540

they are just that eyewitness accounts

1135

00:39:06,230 --> 00:39:04,920

and it's I love an eyewitness account

1136

00:39:07,849 --> 00:39:06,240

you know I speak to people about them

1137

00:39:08,750 --> 00:39:07,859

you know I've had my own Dan you've had

1138

00:39:11,030 --> 00:39:08,760

your own

1139

00:39:13,550 --> 00:39:11,040

but the more data you get along with it

1140

00:39:15,829 --> 00:39:13,560

was it Sean K Hill in that room 101 a

1141

00:39:17,810 --> 00:39:15,839

couple of years ago put in one oh yes it

1142

00:39:19,790 --> 00:39:17,820

was when everything's got one source

1143

00:39:21,290 --> 00:39:19,800

it's useless whether it's testimony

1144

00:39:23,329 --> 00:39:21,300

whether it's just a video with no chain

1145

00:39:25,609 --> 00:39:23,339

of custody whether it's a photograph you

1146

00:39:28,310 --> 00:39:25,619

need multiple data points to really

1147

00:39:30,890 --> 00:39:28,320

really thicken it up so yeah fair enough

1148

00:39:33,770 --> 00:39:30,900

and number six number six the incredible

1149

00:39:35,510 --> 00:39:33,780

sources observed UFOs for decades so

1150

00:39:37,069 --> 00:39:35,520

credible sources are exactly what we're

1151

00:39:39,230 --> 00:39:37,079

relying on because we don't have that

1152

00:39:41,030 --> 00:39:39,240

data we're looking at people who who are

1153

00:39:42,589 --> 00:39:41,040

working in official positions of power

1154

00:39:45,050 --> 00:39:42,599

and are willing to talk about this We

1155

00:39:47,870 --> 00:39:45,060

Have astronauts we have Governors from

1156

00:39:49,670 --> 00:39:47,880

Canada from Brazil from you know all

1157

00:39:51,950 --> 00:39:49,680

over the world talking about this uh

1158

00:39:54,230 --> 00:39:51,960

it's about time we started listening

1159

00:39:56,329 --> 00:39:54,240

number seven an intra-government battle

1160

00:39:58,550 --> 00:39:56,339

over UFOs may be brewing and we hear a

1161

00:40:00,530 --> 00:39:58,560

lot about this don't we Pro and anti-ufo

1162

00:40:02,450 --> 00:40:00,540

factions whether it's the religious

1163

00:40:05,569 --> 00:40:02,460

reasons spiritual reasons or other

1164

00:40:07,430 --> 00:40:05,579

reasons uh that there's a bit of a tug

1165

00:40:09,829 --> 00:40:07,440

of war going on as to how much

1166

00:40:11,870 --> 00:40:09,839

information gets out on the topic at all

1167

00:40:14,150 --> 00:40:11,880

yeah and and I think the next point of

1168

00:40:15,950 --> 00:40:14,160

the the government's UFO hunt may have

1169

00:40:17,630 --> 00:40:15,960

already hit National Security pay dirt

1170

00:40:19,250 --> 00:40:17,640

kind of speaks to why that might be

1171

00:40:20,510 --> 00:40:19,260

taking place some of the government want

1172

00:40:22,490 --> 00:40:20,520

to keep this technology for themselves

1173

00:40:23,750 --> 00:40:22,500

and use it for a military Advantage are

1174

00:40:26,150 --> 00:40:23,760

the ones want it out in the world to

1175

00:40:27,650 --> 00:40:26,160

better mankind uh it remains to be seen

1176

00:40:29,510 --> 00:40:27,660

who's going to win out but uh it

1177

00:40:32,089 --> 00:40:29,520

certainly feels like the the people

1178

00:40:34,370 --> 00:40:32,099

Shining Light on this issue are chipping

1179

00:40:36,109 --> 00:40:34,380

away and winning yeah and you've touched

1180

00:40:38,390 --> 00:40:36,119

on number eight there haven't you uh

1181

00:40:40,430 --> 00:40:38,400

number nine UFOs are a fiercely bipart

1182

00:40:42,589 --> 00:40:40,440

is an issue yeah we seem to have seen

1183

00:40:44,870 --> 00:40:42,599

that don't we and I suppose folks I'm

1184

00:40:46,910 --> 00:40:44,880

talking to you here with Dan about an

1185

00:40:48,770 --> 00:40:46,920

issue where 55 of you that listen to

1186

00:40:50,329 --> 00:40:48,780

this are based in the United States and

1187

00:40:52,609 --> 00:40:50,339

we're talking about your politicians

1188

00:40:54,109 --> 00:40:52,619

your political system your taxpayers you

1189

00:40:56,150 --> 00:40:54,119

know these are your representatives

1190

00:40:57,230 --> 00:40:56,160

we're just gonna along for the ride in

1191

00:40:58,430 --> 00:40:57,240

the background looking to see what

1192

00:41:00,589 --> 00:40:58,440

you're doing

1193

00:41:02,630 --> 00:41:00,599

um but it does seem that a lot of

1194

00:41:04,069 --> 00:41:02,640

different politicians and regardless of

1195

00:41:05,569 --> 00:41:04,079

their politics which sometimes again

1196

00:41:06,770 --> 00:41:05,579

folks get in touch to say do you know

1197

00:41:09,109 --> 00:41:06,780

about this one do you know about this

1198

00:41:11,270 --> 00:41:09,119

one and understands on x y and z

1199

00:41:13,310 --> 00:41:11,280

we're just looking at the UFO topic here

1200

00:41:16,190 --> 00:41:13,320

and it does seem that it's bringing a

1201

00:41:18,230 --> 00:41:16,200

lot of very varied people together

1202

00:41:20,270 --> 00:41:18,240

yeah absolutely um you know over the

1203

00:41:22,490 --> 00:41:20,280

decades it's collected a lot of fans uh

1204

00:41:24,470 --> 00:41:22,500

I say decades again centuries but you

1205

00:41:25,310 --> 00:41:24,480

know the decades people are with us

1206

00:41:26,930 --> 00:41:25,320

still

1207

00:41:29,030 --> 00:41:26,940

um yeah it's collected a lot of fans and

1208

00:41:30,710 --> 00:41:29,040

a lot of people like Jack filet who have

1209

00:41:33,050 --> 00:41:30,720

had a big impact on the world through

1210

00:41:35,390 --> 00:41:33,060

things like the internet and other kind

1211

00:41:36,950 --> 00:41:35,400

of initiatives uh there are a lot of

1212

00:41:40,490 --> 00:41:36,960

people with their heads really switched

1213

00:41:43,910 --> 00:41:40,500

on now looking at this issue and uh it

1214

00:41:45,589 --> 00:41:43,920

has such huge implications uh no matter

1215

00:41:47,270 --> 00:41:45,599

which way you look at it whether you

1216

00:41:48,950 --> 00:41:47,280

think it's a Psy up or whether you think

1217

00:41:51,109 --> 00:41:48,960

it's you know there's something here in

1218

00:41:53,990 --> 00:41:51,119

the sky and we're being visited uh

1219

00:41:56,270 --> 00:41:54,000

wherever it may be from uh it's about

1220

00:41:58,190 --> 00:41:56,280

time we we started looking quite frankly

1221

00:42:00,470 --> 00:41:58,200

and you mentioned there are profound

1222

00:42:01,790 --> 00:42:00,480

implications number 10 yeah UFOs are an

1223

00:42:03,829 --> 00:42:01,800

intriguing mystery with potentially

1224

00:42:06,170 --> 00:42:03,839

profound implications I mean that's why

1225

00:42:08,810 --> 00:42:06,180

he doesn't whether you end up getting

1226
00:42:10,670 --> 00:42:08,820
far too far down the rabbit hole and the

1227
00:42:12,829 --> 00:42:10,680
topic gets frustrating or you seem

1228
00:42:15,349 --> 00:42:12,839
sometimes it's one step forward two

1229
00:42:17,690 --> 00:42:15,359
steps back I love talking about UFOs

1230
00:42:20,390 --> 00:42:17,700
past present future I love speculating

1231
00:42:22,670 --> 00:42:20,400
and I think if you can hold that can I

1232
00:42:24,230 --> 00:42:22,680
love of the mystery around it you know

1233
00:42:25,069 --> 00:42:24,240
that the topics of our present and

1234
00:42:26,450 --> 00:42:25,079
there's always going to be something

1235
00:42:27,109 --> 00:42:26,460
there for you

1236
00:42:28,910 --> 00:42:27,119
um

1237
00:42:30,470 --> 00:42:28,920
how have you found the last couple of

1238
00:42:32,870 --> 00:42:30,480

years then to ask you this to finish off

1239

00:42:36,410 --> 00:42:32,880

then in terms of the progress It's been

1240

00:42:37,910 --> 00:42:36,420

made but the setbacks as well

1241

00:42:40,190 --> 00:42:37,920

a lot of people like to say that

1242

00:42:41,750 --> 00:42:40,200

nothing's going on I think everything

1243

00:42:43,849 --> 00:42:41,760

we've discussed today the fact it's got

1244

00:42:46,190 --> 00:42:43,859

to the UN the fact that you know we've

1245

00:42:47,690 --> 00:42:46,200

got these organizations that are so

1246

00:42:50,030 --> 00:42:47,700

robust that the government are actually

1247

00:42:51,950 --> 00:42:50,040

trying to work with them now turn the

1248

00:42:54,530 --> 00:42:51,960

clock back before 2017 and we just

1249

00:42:57,829 --> 00:42:54,540

didn't have that even 2018 2019 you know

1250

00:42:59,569 --> 00:42:57,839

we're we're in a completely new area and

1251

00:43:01,250 --> 00:42:59,579

some of this feels familiar in terms of

1252

00:43:04,490 --> 00:43:01,260

the blue Booky way you know heinek was

1253

00:43:05,990 --> 00:43:04,500

part of that 1978 un initiative

1254

00:43:08,569 --> 00:43:06,000

um so were some of the astronauts like

1255

00:43:10,550 --> 00:43:08,579

golden Cooper yeah um but in other ways

1256

00:43:12,050 --> 00:43:10,560

it feels a little different uh you know

1257

00:43:13,490 --> 00:43:12,060

we're in the age of communication people

1258

00:43:15,470 --> 00:43:13,500

can pick up this information a lot

1259

00:43:18,890 --> 00:43:15,480

quicker now it can't be shut down as

1260

00:43:20,930 --> 00:43:18,900

fast uh if the UK try and you know veto

1261

00:43:22,670 --> 00:43:20,940

this I I can imagine a lot of ministers

1262

00:43:24,349 --> 00:43:22,680

getting annoyed by letters from A

1263

00:43:26,390 --> 00:43:24,359

constituent saying what the hell are we

1264

00:43:28,790 --> 00:43:26,400

doing this is an important issue

1265

00:43:30,410 --> 00:43:28,800

absolutely well done that's that's all

1266

00:43:31,550 --> 00:43:30,420

for this Roundup I don't suppose you've

1267

00:43:32,510 --> 00:43:31,560

got anything else you want to touch on

1268

00:43:34,849 --> 00:43:32,520

or

1269

00:43:36,109 --> 00:43:34,859

uh no just to say I love everyone and

1270

00:43:38,329 --> 00:43:36,119

have an awesome day

1271

00:43:39,770 --> 00:43:38,339

awesome and yes and for me too folks

1272

00:43:41,089 --> 00:43:39,780
