

**CHRIS LEHTO**  
**A PILOT'S PERSPECTIVE**

1  
00:00:05,020 --> 00:00:02,869  
this is Jim semivan and you are

2  
00:00:09,770 --> 00:00:05,030  
listening to that UFO podcast

3  
00:00:14,450 --> 00:00:12,410  
hi everyone and welcome back to that UFO

4  
00:00:16,670 --> 00:00:14,460  
podcast my name is Andy and I am

5  
00:00:18,590 --> 00:00:16,680  
delighted to be joined as February rolls

6  
00:00:21,650 --> 00:00:18,600  
on with his second appearance on the

7  
00:00:23,810 --> 00:00:21,660  
podcast a former F-16 pilot and the host

8  
00:00:25,730 --> 00:00:23,820  
and creator of his fantastic YouTube

9  
00:00:27,650 --> 00:00:25,740  
channel you can find that link in the

10  
00:00:29,089 --> 00:00:27,660  
description to the podcast Chris later

11  
00:00:31,490 --> 00:00:29,099  
or Chris welcome back to the podcast

12  
00:00:33,229 --> 00:00:31,500  
thank you Andy it's great to be here

13  
00:00:35,450 --> 00:00:33,239

well do you know what I thought you had

14

00:00:36,889 --> 00:00:35,460

been on the podcast a lot more recently

15

00:00:40,130 --> 00:00:36,899

than you had and when I looked it was

16

00:00:41,330 --> 00:00:40,140

September 2021 so we'll skip the whole a

17

00:00:43,010 --> 00:00:41,340

whole year and my plan was always to

18

00:00:44,990 --> 00:00:43,020

have you back on a lot more regular than

19

00:00:46,729 --> 00:00:45,000

that it's been busy though

20

00:00:49,250 --> 00:00:46,739

um it seems like a lifetime ago you've

21

00:00:51,229 --> 00:00:49,260

thrown yourself head first into the UFO

22

00:00:52,369 --> 00:00:51,239

topic it's it's your life it seems at

23

00:00:54,290 --> 00:00:52,379

the moment and you're a busy guy you're

24

00:00:56,630 --> 00:00:54,300

a family man as well and that later

25

00:00:58,549 --> 00:00:56,640

files over in YouTube's got almost 80

26

00:01:00,529 --> 00:00:58,559

000 subscribers they've got a fantastic

27

00:01:02,150 --> 00:01:00,539

patreon I'm a member of that as well so

28

00:01:04,130 --> 00:01:02,160

I'm fairly paid up

29

00:01:05,090 --> 00:01:04,140

um what's that last 15 months been like

30

00:01:07,429 --> 00:01:05,100

for you

31

00:01:10,070 --> 00:01:07,439

it like you said it's just been a

32

00:01:13,850 --> 00:01:10,080

whirlwind so many things yeah even right

33

00:01:16,190 --> 00:01:13,860

now like today uh I have two more kind

34

00:01:18,230 --> 00:01:16,200

of videos to edit you know and you know

35

00:01:21,109 --> 00:01:18,240

one on Mount Wilson another Mount Wilson

36

00:01:23,210 --> 00:01:21,119

episode and that's from last uh November

37

00:01:27,050 --> 00:01:23,220

and then an interview I did with the sky

38

00:01:29,149 --> 00:01:27,060

360 developer uh another video I need to

39

00:01:31,070 --> 00:01:29,159

uh to edit and get out there so it just

40

00:01:33,770 --> 00:01:31,080

feels like like you said just so much

41

00:01:35,990 --> 00:01:33,780

going on so many uh so many Avenues to

42

00:01:38,330 --> 00:01:36,000

to to leak to go after you know somebody

43

00:01:40,249 --> 00:01:38,340

leads I guess what kind of folks do you

44

00:01:42,469 --> 00:01:40,259

get following you so like I'm a nobody

45

00:01:44,030 --> 00:01:42,479

so I started this podcast and I still do

46

00:01:46,730 --> 00:01:44,040

it and I shared right it's not changed

47

00:01:49,130 --> 00:01:46,740

very much but you've got that Pilot's

48

00:01:51,350 --> 00:01:49,140

background so do you find you get a lot

49

00:01:53,510 --> 00:01:51,360

of folks from that Community looking at

50

00:01:55,730 --> 00:01:53,520

you because of your credentials and you

51  
00:01:57,590 --> 00:01:55,740  
also get a lot of the UFO community and

52  
00:01:59,149 --> 00:01:57,600  
what's that mix of people like that get

53  
00:02:01,130 --> 00:01:59,159  
in touch

54  
00:02:03,530 --> 00:02:01,140  
yeah it seems like there's kind of a mix

55  
00:02:05,870 --> 00:02:03,540  
around three people or three types of

56  
00:02:08,150 --> 00:02:05,880  
people you know you have the the UFO

57  
00:02:09,050 --> 00:02:08,160  
dedicated people they're just excited to

58  
00:02:11,330 --> 00:02:09,060  
see

59  
00:02:13,010 --> 00:02:11,340  
action I guess just anything sort of

60  
00:02:14,930 --> 00:02:13,020  
different which I think I kind of bring

61  
00:02:16,309 --> 00:02:14,940  
to the table

62  
00:02:18,350 --> 00:02:16,319  
um so you do have that just dedicated

63  
00:02:21,110 --> 00:02:18,360

UAP enthusiasts you know such as

64

00:02:22,910 --> 00:02:21,120

yourself and then you get uh I do get a

65

00:02:24,229 --> 00:02:22,920

little bit of the aviation enthusiasts

66

00:02:26,809 --> 00:02:24,239

so there are a lot of people that just

67

00:02:29,270 --> 00:02:26,819

love Aviation yeah they love they love

68

00:02:31,910 --> 00:02:29,280

flying they love you know fighter jets

69

00:02:33,229 --> 00:02:31,920

Etc that's less you know I don't tend to

70

00:02:35,930 --> 00:02:33,239

make too many videos

71

00:02:38,690 --> 00:02:35,940

about that when I didn't when I do make

72

00:02:41,150 --> 00:02:38,700

videos about it it seems like uh my main

73

00:02:43,850 --> 00:02:41,160

audience doesn't really uh listen you

74

00:02:46,250 --> 00:02:43,860

know they're not so interested sure so a

75

00:02:48,410 --> 00:02:46,260

little smaller swath of that and then

76

00:02:50,210 --> 00:02:48,420

the third I would say is kind of uh the

77

00:02:52,550 --> 00:02:50,220

other Avenue I've been pursuing which is

78

00:02:55,190 --> 00:02:52,560

this uh nature of the universe you know

79

00:02:57,470 --> 00:02:55,200

kind of scalar theory of the Universe I

80

00:02:59,930 --> 00:02:57,480

have my own Theory of Everything and so

81

00:03:00,770 --> 00:02:59,940

that uh that that Avenue is kind of the

82

00:03:04,490 --> 00:03:00,780

Third

83

00:03:06,170 --> 00:03:04,500

balance those three

84

00:03:08,570 --> 00:03:06,180

um so I try and put out a video on on

85

00:03:10,490 --> 00:03:08,580

the theory I really enjoy looking into

86

00:03:11,809 --> 00:03:10,500

the physics the science you know I think

87

00:03:13,070 --> 00:03:11,819

there's so much we still don't know

88

00:03:14,750 --> 00:03:13,080

about the universe and I think we're

89

00:03:17,390 --> 00:03:14,760

going to find out just so much in the

90

00:03:19,729 --> 00:03:17,400

next like five years I'm just so excited

91

00:03:21,890 --> 00:03:19,739

and so so I do try and put out videos on

92

00:03:24,710 --> 00:03:21,900

that but it seems like about once maybe

93

00:03:26,930 --> 00:03:24,720

twice a month I get out of video on uh

94

00:03:28,790 --> 00:03:26,940

on the physics stuff so that's a well

95

00:03:30,710 --> 00:03:28,800

folks want to hear about of that we

96

00:03:32,210 --> 00:03:30,720

touched on some of your theories in the

97

00:03:33,710 --> 00:03:32,220

last interview the first one we've done

98

00:03:35,330 --> 00:03:33,720

people can go back and check that one

99

00:03:37,369 --> 00:03:35,340

out this is going to be more head into

100

00:03:40,009 --> 00:03:37,379

it your opinions your thoughts on on

101  
00:03:42,050 --> 00:03:40,019  
some of the goings on now you mentioned

102  
00:03:44,149 --> 00:03:42,060  
that Aviation community and more and

103  
00:03:46,490 --> 00:03:44,159  
more pilots it seems have begun to come

104  
00:03:48,410 --> 00:03:46,500  
out and Report sightings we see more

105  
00:03:50,690 --> 00:03:48,420  
recordings and fire requests being done

106  
00:03:53,089 --> 00:03:50,700  
by your John greenwalds and such and

107  
00:03:55,070 --> 00:03:53,099  
we're hearing these back and forwards

108  
00:03:57,410 --> 00:03:55,080  
with radar towers and the long

109  
00:03:59,149 --> 00:03:57,420  
Communications did you expect this to

110  
00:04:00,649 --> 00:03:59,159  
happen as quickly as it had that more

111  
00:04:04,910 --> 00:04:00,659  
and more folks are comfortable to

112  
00:04:08,210 --> 00:04:06,470  
um yeah I'm not sure I guess I guess I

113  
00:04:10,009 --> 00:04:08,220

was expecting more data to come from the

114

00:04:12,589 --> 00:04:10,019

government you know I was expecting at

115

00:04:14,630 --> 00:04:12,599

least more than one crappy video

116

00:04:16,849 --> 00:04:14,640

to be put out you know I thought they

117

00:04:19,009 --> 00:04:16,859

would give us a little bit more and and

118

00:04:20,870 --> 00:04:19,019

I guess that's naive you know obviously

119

00:04:22,909 --> 00:04:20,880

naive looking back

120

00:04:24,469 --> 00:04:22,919

so I would have hoped more pilots would

121

00:04:26,150 --> 00:04:24,479

have spoken out to be honest but I am

122

00:04:28,010 --> 00:04:26,160

very excited yeah it

123

00:04:29,390 --> 00:04:28,020

overall I have to be very happy with it

124

00:04:31,550 --> 00:04:29,400

you know you have Ben Hansen and

125

00:04:34,730 --> 00:04:31,560

hypocenter 101 he's investigating this

126

00:04:36,170 --> 00:04:34,740

so he's another pilot and so he gets all

127

00:04:38,390 --> 00:04:36,180

the the radio

128

00:04:39,890 --> 00:04:38,400

um basically the audio tapes he's been

129

00:04:42,350 --> 00:04:39,900

working with that then you have Ryan

130

00:04:45,290 --> 00:04:42,360

Graves so he just had another pilot Mark

131

00:04:47,090 --> 00:04:45,300

Hulsey on his uh new podcast so Ryan

132

00:04:48,650 --> 00:04:47,100

Graves has a new podcast everybody has a

133

00:04:50,450 --> 00:04:48,660

new podcast Jeremy Corbell is a new

134

00:04:52,249 --> 00:04:50,460

podcast yeah so they're coming after us

135

00:04:54,469 --> 00:04:52,259

Andy

136

00:04:55,610 --> 00:04:54,479

um so yeah I I was excited to see that

137

00:04:57,530 --> 00:04:55,620

definitely

138

00:05:01,010 --> 00:04:57,540

um and it's great because when another

139

00:05:02,330 --> 00:05:01,020

pilot talks to him I feel like um they

140

00:05:03,890 --> 00:05:02,340

are asking the questions that I that I

141

00:05:06,050 --> 00:05:03,900

would want asked

142

00:05:07,730 --> 00:05:06,060

you know for the most part and so when

143

00:05:09,110 --> 00:05:07,740

another pilot interviews like Mark

144

00:05:10,790 --> 00:05:09,120

Hulsey

145

00:05:12,710 --> 00:05:10,800

that's good enough for me you know I can

146

00:05:14,390 --> 00:05:12,720

just watch that interview and now I can

147

00:05:16,490 --> 00:05:14,400

just analyze the things that he says

148

00:05:18,530 --> 00:05:16,500

from that you know so I really think

149

00:05:20,629 --> 00:05:18,540

this is where we're we're using

150

00:05:22,610 --> 00:05:20,639

decentralized investigation you know

151  
00:05:23,749 --> 00:05:22,620  
that and that's why I put out a video we

152  
00:05:26,930 --> 00:05:23,759  
talked a little bit beforehand about

153  
00:05:28,909 --> 00:05:26,940  
mosul orb and and basically

154  
00:05:30,770 --> 00:05:28,919  
you know I basically can analyze it this

155  
00:05:33,590 --> 00:05:30,780  
week and put out a video immediately so

156  
00:05:35,050 --> 00:05:33,600  
the same week I can get my analysis out

157  
00:05:38,450 --> 00:05:35,060  
there

158  
00:05:40,969 --> 00:05:38,460  
right this isn't a scientifically

159  
00:05:42,890 --> 00:05:40,979  
peer-reviewed paper you know but those

160  
00:05:44,450 --> 00:05:42,900  
take months you know look at at the

161  
00:05:46,730 --> 00:05:44,460  
information that came out of uapx after

162  
00:05:47,990 --> 00:05:46,740  
they're tearing the sky the movie I

163  
00:05:49,550 --> 00:05:48,000

thought the actual tear in the sky movie

164

00:05:51,469 --> 00:05:49,560

was excellent you know and unfortunately

165

00:05:53,270 --> 00:05:51,479

I didn't watch it right when it came out

166

00:05:54,890 --> 00:05:53,280

I don't know why I was turned off I

167

00:05:56,990 --> 00:05:54,900

think a lot of people maybe some for

168

00:05:58,850 --> 00:05:57,000

some reason turned off to the initial

169

00:06:00,950 --> 00:05:58,860

hype on it maybe there's so much hype on

170

00:06:02,390 --> 00:06:00,960

it and and it couldn't deliver or

171

00:06:04,550 --> 00:06:02,400

something happened but I ended up

172

00:06:07,790 --> 00:06:04,560

watching it finally and that was a great

173

00:06:09,189 --> 00:06:07,800

great movie you know amazing and so I

174

00:06:11,510 --> 00:06:09,199

think it's great that we have so many

175

00:06:13,730 --> 00:06:11,520

decentralized Avenues you know Ryan

176

00:06:15,170 --> 00:06:13,740

Graves interviews somebody I don't talk

177

00:06:16,370 --> 00:06:15,180

really with Ryan gray you know once in a

178

00:06:18,290 --> 00:06:16,380

while we commute I'm trying to get him

179

00:06:20,810 --> 00:06:18,300

to come on my show he said he would have

180

00:06:22,309 --> 00:06:20,820

seen yeah we'll see what happened uh so

181

00:06:23,809 --> 00:06:22,319

hopefully it comes on I think it'd be

182

00:06:25,790 --> 00:06:23,819

great to talk with him but even if he

183

00:06:27,170 --> 00:06:25,800

doesn't you know I'm fine with it as

184

00:06:29,749 --> 00:06:27,180

long as he is

185

00:06:32,090 --> 00:06:29,759

doing his his work right as long as he's

186

00:06:35,029 --> 00:06:32,100

putting out those interviews that really

187

00:06:36,710 --> 00:06:35,039

helps it helps the cause you know so I

188

00:06:38,990 --> 00:06:36,720

can't complain so I'm very happy to see

189

00:06:42,170 --> 00:06:39,000

all these pilots pilots talking out and

190

00:06:44,390 --> 00:06:42,180

and I talked to Eric Delgado uh my most

191

00:06:47,390 --> 00:06:44,400

popular recent video he was basically

192

00:06:49,850 --> 00:06:47,400

flight 82 uh Captain you know he had 31

193

00:06:51,710 --> 00:06:49,860

he has 31 years flying 10 years as an

194

00:06:54,050 --> 00:06:51,720

Air Force tanker pilot and then 21 years

195

00:06:57,409 --> 00:06:54,060

as a as a Fedex pilot and he has that

196

00:06:59,029 --> 00:06:57,419

great video of an orb and when I when I

197

00:07:00,110 --> 00:06:59,039

asked him did you have any negative

198

00:07:02,210 --> 00:07:00,120

effects

199

00:07:04,790 --> 00:07:02,220

he said nothing you know no negative

200

00:07:05,990 --> 00:07:04,800

effects in fact it's been positive for

201  
00:07:08,330 --> 00:07:06,000  
him you know his family was able to

202  
00:07:09,770 --> 00:07:08,340  
watch him on on TV he said they had a

203  
00:07:12,710 --> 00:07:09,780  
great time watching watching the show

204  
00:07:14,570 --> 00:07:12,720  
yep so I think it can be that's great

205  
00:07:16,189 --> 00:07:14,580  
news that Pilots are coming out there's

206  
00:07:17,870 --> 00:07:16,199  
no negative effects and they're having a

207  
00:07:19,909 --> 00:07:17,880  
good time so I hope we see more of that

208  
00:07:21,350 --> 00:07:19,919  
in the future do you know I've never had

209  
00:07:22,790 --> 00:07:21,360  
an issue and it's funny some people get

210  
00:07:24,890 --> 00:07:22,800  
in touch and they'll see oh all these

211  
00:07:26,510 --> 00:07:24,900  
podcasts are too many but the way I see

212  
00:07:27,830 --> 00:07:26,520  
it is like going to the supermarket and

213  
00:07:29,689 --> 00:07:27,840

complaining there's too many brands of

214

00:07:31,370 --> 00:07:29,699

pasta you know like you can you can mix

215

00:07:32,930 --> 00:07:31,380

and match there's you don't have to

216

00:07:35,330 --> 00:07:32,940

listen to all of them you can choose

217

00:07:37,730 --> 00:07:35,340

what you like and there's room for

218

00:07:39,290 --> 00:07:37,740

everyone and if if all of us and a few

219

00:07:40,670 --> 00:07:39,300

are different the same person you can

220

00:07:42,710 --> 00:07:40,680

hear five different interviews with the

221

00:07:44,450 --> 00:07:42,720

same person and that's that's what I

222

00:07:46,010 --> 00:07:44,460

enjoy with your channel and but you

223

00:07:47,930 --> 00:07:46,020

listen to Ryan you hear Jeremy and

224

00:07:49,189 --> 00:07:47,940

George and what they have done people

225

00:07:50,809 --> 00:07:49,199

get different things from different

226

00:07:52,370 --> 00:07:50,819

interviews that's what I enjoy and it's

227

00:07:54,409 --> 00:07:52,380

down to the Kinder presentation and the

228

00:07:55,909 --> 00:07:54,419

way the shows are formatted so for me

229

00:07:57,350 --> 00:07:55,919

it's the more the merrier it doesn't it

230

00:07:59,150 --> 00:07:57,360

doesn't clog up you can pick and choose

231

00:08:01,550 --> 00:07:59,160

what you want so I've I've really

232

00:08:03,050 --> 00:08:01,560

enjoyed and especially heating like you

233

00:08:04,790 --> 00:08:03,060

see it's it's not just another podcast

234

00:08:06,650 --> 00:08:04,800

for me it's another Avenue of

235

00:08:09,110 --> 00:08:06,660

information that comes out especially

236

00:08:10,189 --> 00:08:09,120

when it comes to to Jerry mccorbell and

237

00:08:11,629 --> 00:08:10,199

George Knapp that we'll get up to a

238

00:08:13,790 --> 00:08:11,639

little bit later on their muscle orb

239

00:08:16,070 --> 00:08:13,800

stuff but for me these are people that

240

00:08:17,990 --> 00:08:16,080

they drop information and it can be hard

241

00:08:20,150 --> 00:08:18,000

to chase up and that's just even your

242

00:08:22,850 --> 00:08:20,160

average person on Twitter looking for

243

00:08:24,770 --> 00:08:22,860

more information on a video data sources

244

00:08:26,990 --> 00:08:24,780

and unless you get a direct reply from

245

00:08:29,450 --> 00:08:27,000

Jeremy or George there's nothing for

246

00:08:31,610 --> 00:08:29,460

months whereas now they've got a conduit

247

00:08:33,589 --> 00:08:31,620

where on a weekly basis they can come

248

00:08:35,510 --> 00:08:33,599

back on statements they can come back on

249

00:08:37,130 --> 00:08:35,520

the criticisms and they can give you

250

00:08:39,469 --> 00:08:37,140

extra information and people like

251  
00:08:42,050 --> 00:08:39,479  
yourself like you say can get videos out

252  
00:08:43,790 --> 00:08:42,060  
very high production value videos very

253  
00:08:45,769 --> 00:08:43,800  
quickly summarizing this kind of stuff

254  
00:08:48,110 --> 00:08:45,779  
as well so I think it's a really rich

255  
00:08:49,550 --> 00:08:48,120  
database that's being created just for

256  
00:08:51,650 --> 00:08:49,560  
for your average person with an interest

257  
00:08:54,230 --> 00:08:51,660  
in UFOs

258  
00:08:56,150 --> 00:08:54,240  
yeah the way I think about it is as a

259  
00:08:59,150 --> 00:08:56,160  
neural network you know if you look now

260  
00:09:01,310 --> 00:08:59,160  
how does a normal neural network work is

261  
00:09:03,829 --> 00:09:01,320  
basically you have a neuron like

262  
00:09:05,509 --> 00:09:03,839  
considering your brain and it gets all

263  
00:09:06,829 --> 00:09:05,519

these signals right it gets information

264

00:09:09,590 --> 00:09:06,839

in

265

00:09:11,810 --> 00:09:09,600

and then it processes it and then it

266

00:09:14,090 --> 00:09:11,820

sends on you know one maybe one signal

267

00:09:16,790 --> 00:09:14,100

right to the right area and that's how I

268

00:09:18,710 --> 00:09:16,800

kind of think of myself or or you or any

269

00:09:20,930 --> 00:09:18,720

of us is I'm receiving all the

270

00:09:22,610 --> 00:09:20,940

information you know I watch Jeremy

271

00:09:25,490 --> 00:09:22,620

corbell's you know I watched his mosul

272

00:09:27,710 --> 00:09:25,500

orb brief you know live as close as I

273

00:09:29,570 --> 00:09:27,720

could be to live you know and then I I

274

00:09:30,949 --> 00:09:29,580

talk to you and I and I watch all these

275

00:09:32,690 --> 00:09:30,959

other things and I bring in like those

276

00:09:36,110 --> 00:09:32,700

three main kind of thoughts that I that

277

00:09:37,670 --> 00:09:36,120

I consider and then I create my own you

278

00:09:39,889 --> 00:09:37,680

know I'm processing it and then I send

279

00:09:42,590 --> 00:09:39,899

it out as a video right back into the

280

00:09:44,630 --> 00:09:42,600

network and so now Jeremy Corbell like

281

00:09:46,490 --> 00:09:44,640

if he comes across my video maybe he'll

282

00:09:48,889 --> 00:09:46,500

learn something from how I analyzed it

283

00:09:51,170 --> 00:09:48,899

you know yeah and that allows the

284

00:09:52,370 --> 00:09:51,180

thousands of people you know tens of

285

00:09:54,290 --> 00:09:52,380

thousands hundreds of thousands of

286

00:09:56,150 --> 00:09:54,300

people out there smart people

287

00:09:58,610 --> 00:09:56,160

to look at this stuff and say no that's

288

00:10:00,410 --> 00:09:58,620

wrong you know like um on the on the

289

00:10:02,090 --> 00:10:00,420

Eric Delgado orb capture you know

290

00:10:04,009 --> 00:10:02,100

basically there's an autofocus issue you

291

00:10:06,410 --> 00:10:04,019

can see it coming in as a sec every

292

00:10:09,230 --> 00:10:06,420

second it seems to there's a just an orb

293

00:10:11,930 --> 00:10:09,240

essentially a light and it expands and

294

00:10:13,670 --> 00:10:11,940

and and then goes back to a point source

295

00:10:15,710 --> 00:10:13,680

about every second you know it's

296

00:10:17,870 --> 00:10:15,720

probably the audio focus

297

00:10:20,630 --> 00:10:17,880

but you know I'm not a camera expert in

298

00:10:22,550 --> 00:10:20,640

that in that instance by any means so

299

00:10:24,590 --> 00:10:22,560

putting that video out there now I get

300

00:10:26,509 --> 00:10:24,600

thousands and thousands of people to to

301  
00:10:28,970 --> 00:10:26,519  
review it so I I see it as a process

302  
00:10:31,009 --> 00:10:28,980  
yeah and I think what I find is like

303  
00:10:31,730 --> 00:10:31,019  
newer YouTubers

304  
00:10:34,550 --> 00:10:31,740  
um

305  
00:10:35,449 --> 00:10:34,560  
they seem like we're in competition I

306  
00:10:38,150 --> 00:10:35,459  
feel like we're more in direct

307  
00:10:40,130 --> 00:10:38,160  
competition it and so they're they seem

308  
00:10:42,470 --> 00:10:40,140  
hesitant to like want to come on my show

309  
00:10:45,110 --> 00:10:42,480  
or to want to work with me

310  
00:10:47,030 --> 00:10:45,120  
um and I that's that's fine but I think

311  
00:10:48,290 --> 00:10:47,040  
you you're just they're just hurting

312  
00:10:50,210 --> 00:10:48,300  
themselves

313  
00:10:51,590 --> 00:10:50,220

because like you said I think

314

00:10:53,870 --> 00:10:51,600

collaboration is a better way to go

315

00:10:55,850 --> 00:10:53,880

right so people that are interested you

316

00:10:57,650 --> 00:10:55,860

know my followers those 80 000 people

317

00:11:00,590 --> 00:10:57,660

now

318

00:11:02,630 --> 00:11:00,600

hopefully some of them will look at

319

00:11:04,790 --> 00:11:02,640

watch this interview and so they'll see

320

00:11:07,670 --> 00:11:04,800

you you know and so you'll get some

321

00:11:10,190 --> 00:11:07,680

exposure to to my audience right and the

322

00:11:12,829 --> 00:11:10,200

same thing is your followers now if I

323

00:11:15,110 --> 00:11:12,839

can provide any value to them now I'm

324

00:11:16,610 --> 00:11:15,120

going to benefit as well and and so yeah

325

00:11:19,009 --> 00:11:16,620

I really think of it as a rising ship

326

00:11:20,750 --> 00:11:19,019

and and those of us in the trenches you

327

00:11:23,569 --> 00:11:20,760

know the UAP like like you said living

328

00:11:25,009 --> 00:11:23,579

living UAP basically

329

00:11:26,449 --> 00:11:25,019

um it it appears like it's still

330

00:11:28,190 --> 00:11:26,459

mainstream and you know everybody's

331

00:11:29,630 --> 00:11:28,200

talking about it but then just you know

332

00:11:32,449 --> 00:11:29,640

walk outside to someone you don't know

333

00:11:33,710 --> 00:11:32,459

and ask them about uaps yeah and chances

334

00:11:35,509 --> 00:11:33,720

are they're going to look at you with a

335

00:11:37,430 --> 00:11:35,519

straight blank face okay because they

336

00:11:38,870 --> 00:11:37,440

have no idea if you look at how many

337

00:11:40,730 --> 00:11:38,880

people are still spending hundreds of

338

00:11:42,470 --> 00:11:40,740

millions of dollars on just watching

339

00:11:43,970 --> 00:11:42,480

other people throw balls through you

340

00:11:45,590 --> 00:11:43,980

know Nets

341

00:11:47,329 --> 00:11:45,600

um doing things that I think are are

342

00:11:48,530 --> 00:11:47,339

very I love sports and I love watching

343

00:11:50,150 --> 00:11:48,540

all this stuff but it's not going to

344

00:11:51,829 --> 00:11:50,160

move the needle for civilization you

345

00:11:53,690 --> 00:11:51,839

know it's not gonna and that's what I

346

00:11:54,710 --> 00:11:53,700

want I want to move I want to move the

347

00:11:58,009 --> 00:11:54,720

needle

348

00:11:59,509 --> 00:11:58,019

uh big time and so that's why we're I

349

00:12:01,550 --> 00:11:59,519

want to aim for the fences with UAP

350

00:12:03,230 --> 00:12:01,560

Society I don't want to do like little

351

00:12:05,030 --> 00:12:03,240

donations here we're going to do this

352

00:12:07,850 --> 00:12:05,040

you know we're aiming for

353

00:12:10,069 --> 00:12:07,860

changing the system at a base level you

354

00:12:11,810 --> 00:12:10,079

know so anyway I'm excited I'm I'm

355

00:12:13,790 --> 00:12:11,820

looking for collaboration I think the

356

00:12:15,530 --> 00:12:13,800

more people on the team the better it

357

00:12:17,329 --> 00:12:15,540

helps and everybody's going to make

358

00:12:20,090 --> 00:12:17,339

mistakes we just keep aiming for the

359

00:12:22,370 --> 00:12:20,100

final solution and we'll get there well

360

00:12:24,470 --> 00:12:22,380

you mentioned Ben Hansen before and Ben

361

00:12:26,329 --> 00:12:24,480

was on the podcast with myself a little

362

00:12:27,650 --> 00:12:26,339

later last year talking about some of

363

00:12:29,930 --> 00:12:27,660

those videos he's been getting through

364

00:12:33,530 --> 00:12:29,940

from pilots and we are getting reports

365

00:12:35,090 --> 00:12:33,540

of UFOs circling above Pilots one of the

366

00:12:36,650 --> 00:12:35,100

issues being they're filming them with

367

00:12:38,990 --> 00:12:36,660

their cell phones which is great getting

368

00:12:40,910 --> 00:12:39,000

any film but the quality can be really

369

00:12:42,110 --> 00:12:40,920

low and poor because we've all been

370

00:12:43,970 --> 00:12:42,120

there where you see something with the

371

00:12:45,290 --> 00:12:43,980

naked eye and I was just talking with

372

00:12:46,730 --> 00:12:45,300

one of the Mifflin directors from

373

00:12:48,889 --> 00:12:46,740

Southern California last night on the

374

00:12:50,150 --> 00:12:48,899

podcast what you see with your naked eye

375

00:12:52,190 --> 00:12:50,160

and then what you film on your phone

376

00:12:54,530 --> 00:12:52,200

tend to be through very different things

377

00:12:56,990 --> 00:12:54,540

so you go off with a testimony and any

378

00:12:59,150 --> 00:12:57,000

extra data we can get the Ben Hansen

379

00:13:02,269 --> 00:12:59,160

videos early skepticism put these down

380

00:13:05,329 --> 00:13:02,279

to misidentified starlink satellites and

381

00:13:08,210 --> 00:13:05,339

I wonder have starlink satellites become

382

00:13:10,610 --> 00:13:08,220

an issue for Pilots because of the sheer

383

00:13:14,030 --> 00:13:10,620

volume of them in the sky when they are

384

00:13:16,009 --> 00:13:14,040

trying to identify what's out there

385

00:13:19,310 --> 00:13:16,019

yeah this is one of the big key points

386

00:13:22,069 --> 00:13:19,320

is is there a safety incident and for

387

00:13:24,170 --> 00:13:22,079

for over four years I was a safety

388

00:13:27,470 --> 00:13:24,180

investigator you know basically I went

389

00:13:29,930 --> 00:13:27,480

to crash safety investigation School

390

00:13:32,509 --> 00:13:29,940

and I I loved it you know and that was

391

00:13:34,550 --> 00:13:32,519

really where I started where I first was

392

00:13:37,069 --> 00:13:34,560

able to investigate something you know

393

00:13:38,629 --> 00:13:37,079

basically to go out find data

394

00:13:40,670 --> 00:13:38,639

um and I think of it kind of in a

395

00:13:42,889 --> 00:13:40,680

scientific terms find data about

396

00:13:46,250 --> 00:13:42,899

something figure out what's wrong

397

00:13:48,290 --> 00:13:46,260

and then implement the solution right

398

00:13:50,569 --> 00:13:48,300

and and usually the best solution is not

399

00:13:52,670 --> 00:13:50,579

procedural right best solution is you

400

00:13:54,410 --> 00:13:52,680

you engineer out the part you know

401  
00:13:56,569 --> 00:13:54,420  
that's a scent you engineer out the

402  
00:13:58,850 --> 00:13:56,579  
issue if that's the best way you can get

403  
00:14:00,410 --> 00:13:58,860  
but that's very difficult to happen so

404  
00:14:02,870 --> 00:14:00,420  
initially at the beginning it's all just

405  
00:14:04,610 --> 00:14:02,880  
procedural right so if there's lights in

406  
00:14:05,990 --> 00:14:04,620  
the sky you know don't crash into the

407  
00:14:08,509 --> 00:14:06,000  
you know they'll just tell you something

408  
00:14:10,610 --> 00:14:08,519  
as far as the star link

409  
00:14:12,949 --> 00:14:10,620  
um for safety reporting

410  
00:14:14,629 --> 00:14:12,959  
I think the best thing is like you kind

411  
00:14:16,190 --> 00:14:14,639  
of mentioned with Jeremy Corbell and

412  
00:14:17,509 --> 00:14:16,200  
getting information out right is is

413  
00:14:19,670 --> 00:14:17,519

really about

414

00:14:21,949 --> 00:14:19,680

speeding up the information flow between

415

00:14:24,230 --> 00:14:21,959

the reporters and you know the pilots

416

00:14:27,410 --> 00:14:24,240

that are out there and

417

00:14:29,750 --> 00:14:27,420

uh and all the ATC situations everyone

418

00:14:31,610 --> 00:14:29,760

involved the more INF the faster that

419

00:14:34,310 --> 00:14:31,620

information gets dispersed then the

420

00:14:35,569 --> 00:14:34,320

safer it will be right in this case I

421

00:14:37,490 --> 00:14:35,579

don't think you have any real safety

422

00:14:40,790 --> 00:14:37,500

issues because the starlink satellites

423

00:14:41,629 --> 00:14:40,800

are you know hundreds of miles above the

424

00:14:44,210 --> 00:14:41,639

Earth

425

00:14:46,009 --> 00:14:44,220

and so there's no actual immediate

426

00:14:47,569 --> 00:14:46,019

threat there's no deconfliction issue

427

00:14:49,370 --> 00:14:47,579

right that's your main problem in

428

00:14:50,810 --> 00:14:49,380

Airlines is running into something else

429

00:14:53,389 --> 00:14:50,820

or hitting the ground that's that's your

430

00:14:55,850 --> 00:14:53,399

biggest issue like you know 95 of the

431

00:14:57,230 --> 00:14:55,860

time is just avoiding hitting anything

432

00:14:58,850 --> 00:14:57,240

in this case you're never going to hit

433

00:15:00,829 --> 00:14:58,860

the starlink satellites okay with an

434

00:15:03,470 --> 00:15:00,839

aircraft so there's no immediate safety

435

00:15:06,230 --> 00:15:03,480

threat the only possible threat could be

436

00:15:08,090 --> 00:15:06,240

the pilot essentially

437

00:15:10,069 --> 00:15:08,100

I don't know thinks he's gonna get hit

438

00:15:12,530 --> 00:15:10,079

by another plane or something and then

439

00:15:14,930 --> 00:15:12,540

does some aggressive reactionary

440

00:15:16,850 --> 00:15:14,940

maneuver I mean in a commercial plane

441

00:15:18,650 --> 00:15:16,860

you can't even do that initially right I

442

00:15:20,750 --> 00:15:18,660

mean in a fighter very quickly yeah you

443

00:15:22,910 --> 00:15:20,760

can run the plane into the ground or do

444

00:15:25,370 --> 00:15:22,920

something dangerous but for for that

445

00:15:27,350 --> 00:15:25,380

reason fighter pilots like for me I

446

00:15:30,110 --> 00:15:27,360

don't move like if some if I hear a loud

447

00:15:32,629 --> 00:15:30,120

noise I freeze you know literally I've

448

00:15:34,550 --> 00:15:32,639

just been trained not to not to do

449

00:15:35,810 --> 00:15:34,560

anything without thinking you know

450

00:15:37,670 --> 00:15:35,820

that's kind of the fighter pilot

451  
00:15:40,430 --> 00:15:37,680  
training so in this case I don't think

452  
00:15:41,990 --> 00:15:40,440  
there's any safety issue right so what I

453  
00:15:44,210 --> 00:15:42,000  
see is the pilots would actually be

454  
00:15:45,710 --> 00:15:44,220  
looking outside more right because what

455  
00:15:47,150 --> 00:15:45,720  
are your normal commercial pilots doing

456  
00:15:48,530 --> 00:15:47,160  
is probably just reading a book or

457  
00:15:50,389 --> 00:15:48,540  
watching a movie or something up there

458  
00:15:52,250 --> 00:15:50,399  
you know I hate to I hate to break

459  
00:15:54,350 --> 00:15:52,260  
everybody's bubble but everyone's bubble

460  
00:15:56,629 --> 00:15:54,360  
but you know the planes fly themselves

461  
00:15:58,310 --> 00:15:56,639  
the pilots are there as safety observers

462  
00:15:59,930 --> 00:15:58,320  
essentially and to do the taxing on the

463  
00:16:01,610 --> 00:15:59,940

ground right the AI hasn't really solved

464

00:16:04,850 --> 00:16:01,620

It On The Ground

465

00:16:07,069 --> 00:16:04,860

um taxing answering Radio Calls Etc

466

00:16:08,269 --> 00:16:07,079

but as far as just the plane making sure

467

00:16:09,470 --> 00:16:08,279

it doesn't hit anything it's going to

468

00:16:11,930 --> 00:16:09,480

take care of itself as long as the

469

00:16:13,730 --> 00:16:11,940

pilots don't do something crazy so the

470

00:16:16,730 --> 00:16:13,740

whole starlink thing in summary I think

471

00:16:18,230 --> 00:16:16,740

it's good I really think it's good that

472

00:16:19,550 --> 00:16:18,240

our Pilots are interested in looking

473

00:16:20,689 --> 00:16:19,560

outside

474

00:16:22,730 --> 00:16:20,699

because that's what you want because

475

00:16:24,710 --> 00:16:22,740

that all the time like we made fun of

476

00:16:26,329 --> 00:16:24,720

the new uh F-15 Pilots when they came on

477

00:16:28,189 --> 00:16:26,339

board because they would just head down

478

00:16:29,990 --> 00:16:28,199

they had this amazing radar but they

479

00:16:31,730 --> 00:16:30,000

would just be looking down into the into

480

00:16:33,710 --> 00:16:31,740

the cockpit right and you could see

481

00:16:35,930 --> 00:16:33,720

their plane with your eyes and you would

482

00:16:38,150 --> 00:16:35,940

just go and shoot them you know so

483

00:16:40,009 --> 00:16:38,160

I think uh it's it's good that they're

484

00:16:42,350 --> 00:16:40,019

looking outside more reporting is better

485

00:16:44,870 --> 00:16:42,360

so what will happen is and I've seen

486

00:16:47,629 --> 00:16:44,880

this multiple times right let's say you

487

00:16:50,629 --> 00:16:47,639

have a safety issue okay so I had to go

488

00:16:53,749 --> 00:16:50,639

I had to investigate uh bird strikes and

489

00:16:56,269 --> 00:16:53,759

there was an Airfield in southern Spain

490

00:16:59,150 --> 00:16:56,279

um and so I went to the investigate

491

00:17:00,350 --> 00:16:59,160

right they had um c5s so heavy aircraft

492

00:17:02,090 --> 00:17:00,360

would come through and they were getting

493

00:17:03,590 --> 00:17:02,100

bird strikes

494

00:17:06,049 --> 00:17:03,600

but what was happening is it wasn't

495

00:17:08,270 --> 00:17:06,059

being reported so they weren't being

496

00:17:10,189 --> 00:17:08,280

reported the issue was there but it

497

00:17:11,990 --> 00:17:10,199

wasn't being reported right so on on

498

00:17:14,449 --> 00:17:12,000

paper everything's fine

499

00:17:16,010 --> 00:17:14,459

right everything's fine on paper but

500

00:17:19,309 --> 00:17:16,020

once you start investigating it what

501  
00:17:20,809 --> 00:17:19,319  
happens is the number of reports goes up

502  
00:17:21,890 --> 00:17:20,819  
obviously right because now you're

503  
00:17:23,809 --> 00:17:21,900  
counting so that you're actually

504  
00:17:26,270 --> 00:17:23,819  
assessing okay now the reports went up

505  
00:17:28,309 --> 00:17:26,280  
so on paper what happens oh man

506  
00:17:31,010 --> 00:17:28,319  
look at this issue where we're having a

507  
00:17:33,110 --> 00:17:31,020  
rapid increase in bird strikes

508  
00:17:34,909 --> 00:17:33,120  
um no you're just actually seeing what's

509  
00:17:37,310 --> 00:17:34,919  
out there you're actually taking account

510  
00:17:39,650 --> 00:17:37,320  
of what's actually out there

511  
00:17:41,210 --> 00:17:39,660  
so that could be the more pilots that

512  
00:17:43,430 --> 00:17:41,220  
know about these starlink the more

513  
00:17:46,130 --> 00:17:43,440

pilots that are actually looking outside

514

00:17:49,070 --> 00:17:46,140

then we should expect more accounts

515

00:17:51,289 --> 00:17:49,080

right we should expect more accounts of

516

00:17:53,450 --> 00:17:51,299

these lights in the sky okay so we will

517

00:17:55,490 --> 00:17:53,460

have more people reporting starlink

518

00:17:58,010 --> 00:17:55,500

satellites as unknowns

519

00:17:59,630 --> 00:17:58,020

but this is a good thing so that is a

520

00:18:01,730 --> 00:17:59,640

good thing that's how you raise your

521

00:18:03,169 --> 00:18:01,740

numbers raising your safety numbers is

522

00:18:05,210 --> 00:18:03,179

looked down upon by people that don't

523

00:18:07,370 --> 00:18:05,220

understand the system right but the

524

00:18:09,590 --> 00:18:07,380

first thing to to solving a problem and

525

00:18:12,590 --> 00:18:09,600

to reducing the the accident potential

526

00:18:15,350 --> 00:18:12,600

is is getting data about it right

527

00:18:16,909 --> 00:18:15,360

understanding the problem and so I think

528

00:18:18,650 --> 00:18:16,919

you'll see our numbers go up which

529

00:18:20,990 --> 00:18:18,660

people say oh you know we're wasting

530

00:18:22,490 --> 00:18:21,000

Pilots time it's like no man Pilots have

531

00:18:24,169 --> 00:18:22,500

plenty of time up there they have plenty

532

00:18:26,510 --> 00:18:24,179

of time we need them looking outside

533

00:18:28,970 --> 00:18:26,520

maybe taking photos so you mentioned One

534

00:18:30,830 --> 00:18:28,980

camera even a crappy camera right

535

00:18:34,010 --> 00:18:30,840

but if you get two cameras so if there's

536

00:18:35,990 --> 00:18:34,020

another plane and they also film it now

537

00:18:38,090 --> 00:18:36,000

even with two crappy cameras we can get

538

00:18:40,789 --> 00:18:38,100

an angle and now we can start actually

539

00:18:42,529 --> 00:18:40,799

figuring out so any data is good I'd say

540

00:18:45,289 --> 00:18:42,539

use cell phone cameras that's great

541

00:18:46,909 --> 00:18:45,299

amazing if any you know actual

542

00:18:48,830 --> 00:18:46,919

photographers out there are pilots then

543

00:18:50,830 --> 00:18:48,840

you know bring some better Zoom cameras

544

00:18:53,390 --> 00:18:50,840

and share the information

545

00:18:55,730 --> 00:18:53,400

what's that like being a pilot and

546

00:18:57,890 --> 00:18:55,740

seeing ordinary folks critiquing

547

00:18:59,750 --> 00:18:57,900

critiquing Pilot's ability to observe

548

00:19:01,430 --> 00:18:59,760

what they're saying because you see a

549

00:19:02,090 --> 00:19:01,440

lot of that online

550

00:19:05,270 --> 00:19:02,100

um

551

00:19:06,710 --> 00:19:05,280

what what is fair criticism because is

552

00:19:09,950 --> 00:19:06,720

it easier for a pilot to still

553

00:19:12,770 --> 00:19:09,960

misidentify so much in the sky I think

554

00:19:14,450 --> 00:19:12,780

myself I've always had the idea that you

555

00:19:16,130 --> 00:19:14,460

know watching Top Gun Top Gun Maverick

556

00:19:18,289 --> 00:19:16,140

great movie by the way

557

00:19:19,549 --> 00:19:18,299

um people like yourself are the creme de

558

00:19:22,610 --> 00:19:19,559

La Creme of you know what you're looking

559

00:19:24,230 --> 00:19:22,620

at and if a balloon flies past you or

560

00:19:26,810 --> 00:19:24,240

it's you know a satellite in the sky

561

00:19:30,430 --> 00:19:26,820

you're gonna know but is that always the

562

00:19:30,440 --> 00:19:34,370

no I guess

563

00:19:39,169 --> 00:19:36,590

kind of what I mentioned on on being a

564

00:19:40,789 --> 00:19:39,179

pilot is that you I'm trained as a

565

00:19:43,190 --> 00:19:40,799

fighter pilot in particular right I was

566

00:19:45,409 --> 00:19:43,200

trained to not move and it's funny

567

00:19:48,049 --> 00:19:45,419

because you know and I've kind of broken

568

00:19:50,330 --> 00:19:48,059

it after a couple years but a glass will

569

00:19:52,130 --> 00:19:50,340

fall off the counter and my wife will

570

00:19:54,590 --> 00:19:52,140

just boom catch it immediately like

571

00:19:58,070 --> 00:19:54,600

quick reaction and I don't I just watch

572

00:19:59,450 --> 00:19:58,080

it you know and so that went away and

573

00:20:01,490 --> 00:19:59,460

now I can catch you know I've kind of

574

00:20:03,830 --> 00:20:01,500

broken that habit

575

00:20:06,529 --> 00:20:03,840

um but the point is is that you it's

576

00:20:07,789 --> 00:20:06,539

humans flying planes right so a good

577

00:20:09,470 --> 00:20:07,799

pilot

578

00:20:11,210 --> 00:20:09,480

I think they're good because they

579

00:20:13,909 --> 00:20:11,220

understand and they've been trained over

580

00:20:16,130 --> 00:20:13,919

years and years tons of training that

581

00:20:18,650 --> 00:20:16,140

they are human and that they have all of

582

00:20:21,289 --> 00:20:18,660

those limitations yep that's the biggest

583

00:20:23,990 --> 00:20:21,299

thing so on every flight I misidentified

584

00:20:26,810 --> 00:20:24,000

something every flight and the other

585

00:20:28,490 --> 00:20:26,820

thing is I never trust my eyes fully and

586

00:20:29,990 --> 00:20:28,500

I also learned that and I never trust my

587

00:20:32,090 --> 00:20:30,000

flight lead fully

588

00:20:34,250 --> 00:20:32,100

this is the other thing is

589

00:20:36,049 --> 00:20:34,260

you know everybody wanted to be like the

590

00:20:38,150 --> 00:20:36,059

best pilot I want to be the guy that no

591

00:20:39,529 --> 00:20:38,160

one's afraid to leave to follow right no

592

00:20:42,110 --> 00:20:39,539

one's afraid to follow that guy in a

593

00:20:43,789 --> 00:20:42,120

comment and for my part I'm like no no I

594

00:20:45,830 --> 00:20:43,799

don't want that you know I want you to

595

00:20:47,330 --> 00:20:45,840

be afraid right I want you to be

596

00:20:49,250 --> 00:20:47,340

slightly afraid I don't want you to

597

00:20:51,890 --> 00:20:49,260

trust everything I do or say why would

598

00:20:53,690 --> 00:20:51,900

you possibly do that what if I run us

599

00:20:56,330 --> 00:20:53,700

into a wall

600

00:20:58,310 --> 00:20:56,340

um and that happens so the the point is

601  
00:20:59,930 --> 00:20:58,320  
that and that's what and you will see

602  
00:21:02,510 --> 00:20:59,940  
that happen you can look back at many

603  
00:21:03,950 --> 00:21:02,520  
plane crashes and because again I was a

604  
00:21:06,710 --> 00:21:03,960  
safety officer and what will happen is

605  
00:21:08,810 --> 00:21:06,720  
the crew usually if it's a crew they

606  
00:21:11,870 --> 00:21:08,820  
will just trust the the lead pilot and

607  
00:21:13,909 --> 00:21:11,880  
not uh not question his actions right

608  
00:21:16,130 --> 00:21:13,919  
and that lead pilot if he believes

609  
00:21:18,169 --> 00:21:16,140  
everything he says if he believes

610  
00:21:20,870 --> 00:21:18,179  
everything is biological systems telling

611  
00:21:22,850 --> 00:21:20,880  
them that can lead to you know all these

612  
00:21:25,370 --> 00:21:22,860  
terrible crashes you see

613  
00:21:28,549 --> 00:21:25,380

so I would say um

614

00:21:30,770 --> 00:21:28,559

I think their words are should be uh

615

00:21:33,289 --> 00:21:30,780

listened to you know people do

616

00:21:34,070 --> 00:21:33,299

misidentify things Pilots do misidentify

617

00:21:36,770 --> 00:21:34,080

things

618

00:21:37,909 --> 00:21:36,780

we're all human at the end of the day

619

00:21:40,490 --> 00:21:37,919

but

620

00:21:44,149 --> 00:21:40,500

you should take the aggregate of

621

00:21:46,669 --> 00:21:44,159

at some point it there's so many Pilots

622

00:21:48,770 --> 00:21:46,679

saying it and all these Pilots have been

623

00:21:50,570 --> 00:21:48,780

trained in all those things so we should

624

00:21:53,450 --> 00:21:50,580

take into account the the seasoned

625

00:21:55,370 --> 00:21:53,460

Pilots the experienced Pilots know

626  
00:21:56,750 --> 00:21:55,380  
that they misidentified things just

627  
00:21:59,029 --> 00:21:56,760  
because they've done it so many times

628  
00:22:00,950 --> 00:21:59,039  
you know is that plane turning towards

629  
00:22:02,450 --> 00:22:00,960  
me no it's turning away okay thank you

630  
00:22:03,890 --> 00:22:02,460  
is that playing that plane's turning

631  
00:22:05,029 --> 00:22:03,900  
away oh my God it's turning towards me

632  
00:22:07,010 --> 00:22:05,039  
I'm going to die you know that's

633  
00:22:08,750 --> 00:22:07,020  
literally uh what it is so after a few

634  
00:22:10,190 --> 00:22:08,760  
of those enough of those incidents you

635  
00:22:11,930 --> 00:22:10,200  
learn to not trust what you're seeing

636  
00:22:14,390 --> 00:22:11,940  
and so I would say the good Pilots are

637  
00:22:16,190 --> 00:22:14,400  
very hesitant to say I know exactly what

638  
00:22:18,590 --> 00:22:16,200

that was

639

00:22:20,630 --> 00:22:18,600

um so yeah and what we need to be aware

640

00:22:22,730 --> 00:22:20,640

of as well is it's better to have Pilots

641

00:22:25,669 --> 00:22:22,740

reporting

642

00:22:27,529 --> 00:22:25,679

more and more cases that we can solve

643

00:22:29,870 --> 00:22:27,539

and can put down to bersaic explanations

644

00:22:32,090 --> 00:22:29,880

to get to the ones that aren't as easily

645

00:22:33,830 --> 00:22:32,100

explained otherwise we get them going

646

00:22:35,810 --> 00:22:33,840

back into the shadows and people not

647

00:22:38,330 --> 00:22:35,820

wanting to report you know the the whole

648

00:22:40,130 --> 00:22:38,340

stigma being reduced seems to be really

649

00:22:41,810 --> 00:22:40,140

a real thing we don't want that to go

650

00:22:44,029 --> 00:22:41,820

back do we because like you say then we

651  
00:22:46,310 --> 00:22:44,039  
don't get the volume of reports so it's

652  
00:22:48,289 --> 00:22:46,320  
all very well the UFO report came out in

653  
00:22:50,090 --> 00:22:48,299  
I know with Julian Barnes and his New

654  
00:22:52,669 --> 00:22:50,100  
York Times article focused heavily on

655  
00:22:56,149 --> 00:22:52,679  
well 53 of those were actually solved

656  
00:22:59,810 --> 00:22:56,159  
negating the fact 47 weren't and even

657  
00:23:02,390 --> 00:22:59,820  
even that 47 let's be fair 40 of those

658  
00:23:04,490 --> 00:23:02,400  
again probably still can be solved down

659  
00:23:06,470 --> 00:23:04,500  
the line with something much more

660  
00:23:09,049 --> 00:23:06,480  
terrestrial we're still probably looking

661  
00:23:11,149 --> 00:23:09,059  
at a five or seven percent of wow that

662  
00:23:13,070 --> 00:23:11,159  
really is unexplainable and that's the

663  
00:23:15,890 --> 00:23:13,080

interesting stuff isn't it

664

00:23:18,890 --> 00:23:15,900

exactly yeah in order to actually find

665

00:23:22,370 --> 00:23:18,900

the cause of of an accident is you need

666

00:23:24,049 --> 00:23:22,380

to start increasing your numbers

667

00:23:27,169 --> 00:23:24,059

you need to actually start Gathering

668

00:23:30,350 --> 00:23:27,179

data so so higher numbers is indicative

669

00:23:32,810 --> 00:23:30,360

of more investigation right that the

670

00:23:34,549 --> 00:23:32,820

more people that know about starlink and

671

00:23:36,289 --> 00:23:34,559

the more people that can accurately

672

00:23:38,029 --> 00:23:36,299

identify it you know the more pilots

673

00:23:39,169 --> 00:23:38,039

that know hey oh wait what are those

674

00:23:40,850 --> 00:23:39,179

crazy lights over there oh that's

675

00:23:41,630 --> 00:23:40,860

starlink because I watch this video on

676

00:23:47,870 --> 00:23:41,640

it

677

00:23:50,630 --> 00:23:47,880

you know so the more of those events

678

00:23:52,370 --> 00:23:50,640

the better and and again I think that's

679

00:23:55,610 --> 00:23:52,380

decentralized

680

00:23:57,230 --> 00:23:55,620

science you know you know I'm not

681

00:23:58,730 --> 00:23:57,240

talking to Ben at all you know once in a

682

00:24:01,370 --> 00:23:58,740

while we we commute but he's

683

00:24:02,990 --> 00:24:01,380

investigating Pilots he's asking about

684

00:24:04,130 --> 00:24:03,000

these and he's putting it online you

685

00:24:06,890 --> 00:24:04,140

know so that's another data point

686

00:24:08,510 --> 00:24:06,900

another data point so yeah I think it's

687

00:24:09,950 --> 00:24:08,520

great to get more data points what we

688

00:24:12,529 --> 00:24:09,960

need we need the Pilots looking outside

689

00:24:14,870 --> 00:24:12,539

they're they're out there the most

690

00:24:16,190 --> 00:24:14,880

right you know there you have thousands

691

00:24:17,930 --> 00:24:16,200

and thousands and thousands you know

692

00:24:19,490 --> 00:24:17,940

Matt if you look at flight radar how

693

00:24:21,770 --> 00:24:19,500

many little planes are flying around at

694

00:24:24,169 --> 00:24:21,780

any one point any time it's it's amazing

695

00:24:25,549 --> 00:24:24,179

so if you think about those are trained

696

00:24:27,049 --> 00:24:25,559

observers up there

697

00:24:29,270 --> 00:24:27,059

and most of the time they're just

698

00:24:30,770 --> 00:24:29,280

watching TV it would be awesome if they

699

00:24:32,930 --> 00:24:30,780

were looking outside I think it'd be

700

00:24:34,730 --> 00:24:32,940

great if we could you know mobilize that

701  
00:24:37,010 --> 00:24:34,740  
I hope no one's listening to that right

702  
00:24:38,810 --> 00:24:37,020  
now on a flight and they're looking down

703  
00:24:40,310 --> 00:24:38,820  
down the aisle towards the cockpit

704  
00:24:42,289 --> 00:24:40,320  
thinking is my pilot watching a movie

705  
00:24:45,230 --> 00:24:42,299  
well we're up here and like you're

706  
00:24:47,210 --> 00:24:45,240  
saying Chris they probably are so

707  
00:24:50,149 --> 00:24:47,220  
same with me I was looking outside more

708  
00:24:51,649 --> 00:24:50,159  
for you now I look outside on this last

709  
00:24:53,810 --> 00:24:51,659  
flights I was on you know I'm still

710  
00:24:55,669 --> 00:24:53,820  
reading but then I look outside for a

711  
00:24:56,990 --> 00:24:55,679  
while you know and I'm trying to see so

712  
00:24:58,549 --> 00:24:57,000  
just think about

713  
00:25:00,950 --> 00:24:58,559

the more people that know about this

714

00:25:01,909 --> 00:25:00,960

stuff now we have you know hundreds of

715

00:25:04,669 --> 00:25:01,919

thousands of people on commercial

716

00:25:06,950 --> 00:25:04,679

flights now we have tons of Observers

717

00:25:08,690 --> 00:25:06,960

you know so once the data gets up high

718

00:25:11,570 --> 00:25:08,700

enough and then if we're still like

719

00:25:13,430 --> 00:25:11,580

still not finding anything anomalous

720

00:25:15,590 --> 00:25:13,440

then it'd be like okay you know we need

721

00:25:18,110 --> 00:25:15,600

to dial down maybe there is nothing I

722

00:25:20,029 --> 00:25:18,120

you know I'd be surprised but

723

00:25:21,710 --> 00:25:20,039

I'll tell you about F anytime in the

724

00:25:23,149 --> 00:25:21,720

future someone is listening to this and

725

00:25:24,470 --> 00:25:23,159

they're on a flight send me a picture of

726

00:25:26,149 --> 00:25:24,480

you on the flight and I'll send you a

727

00:25:27,710 --> 00:25:26,159

t-shirt for the podcast right no matter

728

00:25:29,630 --> 00:25:27,720

how far in a future that is if this

729

00:25:31,010 --> 00:25:29,640

podcast even still going

730

00:25:32,450 --> 00:25:31,020

um a story that broke now we're

731

00:25:34,370 --> 00:25:32,460

recording this Chris and it's not going

732

00:25:37,430 --> 00:25:34,380

to go out till closer to mid-February

733

00:25:39,590 --> 00:25:37,440

it's the 3rd of February and just last

734

00:25:42,769 --> 00:25:39,600

night overnight a story broke that there

735

00:25:45,409 --> 00:25:42,779

was a first a UFO sighting over Montana

736

00:25:46,669 --> 00:25:45,419

I don't know if you've seen this

737

00:25:48,230 --> 00:25:46,679

um basically there's a video of someone

738

00:25:50,090 --> 00:25:48,240

filming the moon and saying no there's

739

00:25:51,950 --> 00:25:50,100

the moon and they put the camera way

740

00:25:54,590 --> 00:25:51,960

over to the left and there's a very big

741

00:25:57,289 --> 00:25:54,600

bright light just sitting in the sky

742

00:26:00,110 --> 00:25:57,299

it turns out and the Pentagon has

743

00:26:02,330 --> 00:26:00,120

confirmed it was a Chinese spyballing

744

00:26:03,890 --> 00:26:02,340

so this has basically came out in the

745

00:26:05,630 --> 00:26:03,900

last eight to ten hours during the night

746

00:26:07,250 --> 00:26:05,640

here in the UK you're based on Portugal

747

00:26:09,169 --> 00:26:07,260

so we're on the same time zone so it was

748

00:26:11,510 --> 00:26:09,179

like early early morning and I just

749

00:26:14,090 --> 00:26:11,520

wonder we've now got some very close

750

00:26:17,029 --> 00:26:14,100

images of it how common is it do you

751  
00:26:19,190 --> 00:26:17,039  
think that we have not just in the UK or

752  
00:26:20,450 --> 00:26:19,200  
Portugal or particularly I'm guessing

753  
00:26:22,490 --> 00:26:20,460  
the US

754  
00:26:24,710 --> 00:26:22,500  
Ford and Technology

755  
00:26:26,210 --> 00:26:24,720  
in the skies that people just

756  
00:26:28,310 --> 00:26:26,220  
potentially misidentify but how common

757  
00:26:30,529 --> 00:26:28,320  
is that they've got these spy balloons

758  
00:26:33,049 --> 00:26:30,539  
and whatnot just there

759  
00:26:35,090 --> 00:26:33,059  
I mean over the mainland of U.S I

760  
00:26:38,149 --> 00:26:35,100  
haven't heard of anything

761  
00:26:41,029 --> 00:26:38,159  
honestly because there's satellites

762  
00:26:44,210 --> 00:26:41,039  
you know so you can't stop a satellite

763  
00:26:45,590 --> 00:26:44,220

from overflying the U.S yep you know and

764

00:26:48,649 --> 00:26:45,600

it's legal

765

00:26:52,490 --> 00:26:48,659

so it seems much easier to do that

766

00:26:54,169 --> 00:26:52,500

rather than fly in a Chinese uh balloon

767

00:26:56,149 --> 00:26:54,179

space balloon that can be obviously

768

00:26:58,490 --> 00:26:56,159

picked up and identified you know so

769

00:27:00,289 --> 00:26:58,500

this I actually I do as we as I was

770

00:27:01,909 --> 00:27:00,299

walking in I saw a headline for that you

771

00:27:03,649 --> 00:27:01,919

know the Chinese uh

772

00:27:07,130 --> 00:27:03,659

uh spibelin

773

00:27:09,289 --> 00:27:07,140

which makes sense right I'm sure we have

774

00:27:10,730 --> 00:27:09,299

systems you know nor again you have

775

00:27:12,769 --> 00:27:10,740

satellites so

776  
00:27:14,029 --> 00:27:12,779  
what would this five balloon do that you

777  
00:27:15,769 --> 00:27:14,039  
know a satellite could it's going to

778  
00:27:16,789 --> 00:27:15,779  
give you continuous coverage in that

779  
00:27:18,590 --> 00:27:16,799  
area

780  
00:27:20,810 --> 00:27:18,600  
you know sustained coverage rather than

781  
00:27:23,750 --> 00:27:20,820  
just just flying by so

782  
00:27:25,549 --> 00:27:23,760  
I've actually curious now look as we La

783  
00:27:27,070 --> 00:27:25,559  
we launched a space balloon you know for

784  
00:27:30,950 --> 00:27:27,080  
the UAP society

785  
00:27:32,450 --> 00:27:30,960  
and as a it was a weather balloon and

786  
00:27:34,549 --> 00:27:32,460  
basically

787  
00:27:37,250 --> 00:27:34,559  
from what I understand every kind of

788  
00:27:39,470 --> 00:27:37,260

medium-sized weather facility in the

789

00:27:42,710 --> 00:27:39,480

world I'm guessing releases weather

790

00:27:43,850 --> 00:27:42,720

balloons almost every day yep so so

791

00:27:45,769 --> 00:27:43,860

you're going to have a lot of these

792

00:27:47,750 --> 00:27:45,779

weather balloons out there flying around

793

00:27:49,850 --> 00:27:47,760

thousands of them

794

00:27:52,789 --> 00:27:49,860

which is surprising I didn't see more as

795

00:27:54,590 --> 00:27:52,799

a pilot you know I did yeah I did see a

796

00:27:56,630 --> 00:27:54,600

couple but but that's it

797

00:27:58,549 --> 00:27:56,640

so there are thousands of thousands of

798

00:27:59,990 --> 00:27:58,559

these flying around so it would make

799

00:28:03,169 --> 00:28:00,000

sense if you were you know foreign

800

00:28:05,630 --> 00:28:03,179

adversary to make a a weather balloon

801  
00:28:07,190 --> 00:28:05,640  
but it has other sensors on it and and

802  
00:28:08,870 --> 00:28:07,200  
then just disguise it as a weather

803  
00:28:10,909 --> 00:28:08,880  
balloon you know I'm sure that's been

804  
00:28:13,130 --> 00:28:10,919  
done

805  
00:28:14,990 --> 00:28:13,140  
um so yeah I don't know off the borders

806  
00:28:16,430 --> 00:28:15,000  
for sure I think off the borders you you

807  
00:28:18,049 --> 00:28:16,440  
know there's always but we always we're

808  
00:28:20,390 --> 00:28:18,059  
told that there's you know Chinese

809  
00:28:22,370 --> 00:28:20,400  
fishing vessels Etc anything could be

810  
00:28:24,409 --> 00:28:22,380  
over the oceans so in international

811  
00:28:26,330 --> 00:28:24,419  
waters but that's the first time I've

812  
00:28:27,169 --> 00:28:26,340  
heard Overland some sort of foreign

813  
00:28:29,330 --> 00:28:27,179

system

814

00:28:31,010 --> 00:28:29,340

and it seems like a old-school

815

00:28:33,289 --> 00:28:31,020

technology is available in but like you

816

00:28:35,269 --> 00:28:33,299

say it does have its advantages

817

00:28:38,330 --> 00:28:35,279

um over a satellite but you'd think in

818

00:28:40,250 --> 00:28:38,340

2023 we keep hearing what our technology

819

00:28:41,990 --> 00:28:40,260

that we see is 30 years behind what

820

00:28:43,730 --> 00:28:42,000

they've actually got so to thank the

821

00:28:44,930 --> 00:28:43,740

Chinese are still putting balloons above

822

00:28:46,970 --> 00:28:44,940

the US

823

00:28:49,250 --> 00:28:46,980

but you say that doesn't surprise you

824

00:28:51,409 --> 00:28:49,260

that that technology is deployed because

825

00:28:53,630 --> 00:28:51,419

it's pretty useful

826

00:28:55,789 --> 00:28:53,640

yeah that's what I found is it's quite

827

00:28:56,450 --> 00:28:55,799

cheap

828

00:28:59,210 --> 00:28:56,460

um

829

00:29:00,590 --> 00:28:59,220

and you can put it up to a very high if

830

00:29:02,529 --> 00:29:00,600

you can get it to a high altitude it's

831

00:29:05,269 --> 00:29:02,539

very difficult to detect

832

00:29:07,370 --> 00:29:05,279

especially with radar because it's not

833

00:29:09,769 --> 00:29:07,380

moving and that's what we've seen a lot

834

00:29:12,350 --> 00:29:09,779

is off the east coast you have the range

835

00:29:15,169 --> 00:29:12,360

Fowler reports and basically they they

836

00:29:16,610 --> 00:29:15,179

have uh these box orbs and everyone you

837

00:29:18,830 --> 00:29:16,620

know they say oh it's obviously a

838

00:29:19,789 --> 00:29:18,840

balloon Etc well unless there's high

839

00:29:21,889 --> 00:29:19,799

winds

840

00:29:23,029 --> 00:29:21,899

you know that that is a huge negative of

841

00:29:24,350 --> 00:29:23,039

your balloons

842

00:29:27,169 --> 00:29:24,360

is

843

00:29:30,649 --> 00:29:27,179

you know at least I don't know how to

844

00:29:32,990 --> 00:29:30,659

keep a large balloon stable in high

845

00:29:34,190 --> 00:29:33,000

winds yeah so that that's probably your

846

00:29:37,190 --> 00:29:34,200

biggest negative is how do you control

847

00:29:39,710 --> 00:29:37,200

these systems but I have no doubt that

848

00:29:42,529 --> 00:29:39,720

the US has some you know classified

849

00:29:44,570 --> 00:29:42,539

space balloon observation program it

850

00:29:45,889 --> 00:29:44,580

just seems like you know we have low

851  
00:29:47,930 --> 00:29:45,899  
earth orbit

852  
00:29:50,389 --> 00:29:47,940  
and then we have aircraft

853  
00:29:52,430 --> 00:29:50,399  
you know with your with your spy planes

854  
00:29:54,769 --> 00:29:52,440  
Etc like your Predators your MC12 that

855  
00:29:56,450 --> 00:29:54,779  
you saw at the mosul orb those are low

856  
00:29:59,210 --> 00:29:56,460  
altitude though you know air breathers

857  
00:30:01,130 --> 00:29:59,220  
in between that low earth orbit and down

858  
00:30:02,510 --> 00:30:01,140  
at the ground is you know hundreds of

859  
00:30:04,850 --> 00:30:02,520  
miles

860  
00:30:07,549 --> 00:30:04,860  
so that whole area

861  
00:30:09,230 --> 00:30:07,559  
you could put in vehicles some sort of

862  
00:30:11,210 --> 00:30:09,240  
vehicles in that case I would see it as

863  
00:30:12,950 --> 00:30:11,220

some sort of dirigible so

864

00:30:16,070 --> 00:30:12,960

I don't know it's definitely possible

865

00:30:18,289 --> 00:30:16,080

but my big thing against that is if you

866

00:30:20,210 --> 00:30:18,299

have high winds then your whole balloon

867

00:30:21,649 --> 00:30:20,220

idea this whole idea that all these

868

00:30:23,450 --> 00:30:21,659

things are just balloons you can make

869

00:30:25,310 --> 00:30:23,460

anything in the shape of you can make a

870

00:30:26,990 --> 00:30:25,320

balloon into any shape by the way you

871

00:30:30,110 --> 00:30:27,000

know balloon animals exist for a reason

872

00:30:32,870 --> 00:30:30,120

Batman yeah yeah anything you can make

873

00:30:34,070 --> 00:30:32,880

it again there's balloon animals okay if

874

00:30:35,690 --> 00:30:34,080

you're curious if you can make a balloon

875

00:30:38,210 --> 00:30:35,700

in anything just YouTube you know

876

00:30:39,529 --> 00:30:38,220

interesting balloon animals

877

00:30:41,630 --> 00:30:39,539

um so you can make a balloon into any

878

00:30:43,010 --> 00:30:41,640

shape right so they obviously even a

879

00:30:44,450 --> 00:30:43,020

flying saucer that's going to be a

880

00:30:46,669 --> 00:30:44,460

balloon right everything can be a

881

00:30:48,350 --> 00:30:46,679

balloon unless it's in high winds

882

00:30:51,409 --> 00:30:48,360

and then the question is how do you

883

00:30:53,210 --> 00:30:51,419

maneuver a balloon right in in high

884

00:30:55,190 --> 00:30:53,220

winds I don't know how

885

00:30:57,529 --> 00:30:55,200

remember George Knapp had released those

886

00:30:59,269 --> 00:30:57,539

pictures now the last couple of years

887

00:31:00,590 --> 00:30:59,279

have been a blush so last year or the

888

00:31:03,350 --> 00:31:00,600

year before

889

00:31:05,450 --> 00:31:03,360

um the three snaps from the the pilot

890

00:31:07,070 --> 00:31:05,460

yeah and one of them did look well we

891

00:31:09,350 --> 00:31:07,080

had the famous Batman villain didn't we

892

00:31:10,850 --> 00:31:09,360

which was everyone said it was and you

893

00:31:11,990 --> 00:31:10,860

know that's still up in there for debate

894

00:31:14,510 --> 00:31:12,000

literally

895

00:31:17,990 --> 00:31:14,520

um but one of them did look like a big

896

00:31:20,570 --> 00:31:18,000

kind of blimp balloon and I wonder does

897

00:31:23,149 --> 00:31:20,580

this sort of Discovery overnight of this

898

00:31:25,310 --> 00:31:23,159

Chinese Bible and above the us maybe

899

00:31:27,590 --> 00:31:25,320

help point to that previous one more

900

00:31:29,930 --> 00:31:27,600

than likely being some kind of foreign

901  
00:31:33,049 --> 00:31:29,940  
Tech balloon that was placed there or is

902  
00:31:35,330 --> 00:31:33,059  
that still unlikely do you think

903  
00:31:37,010 --> 00:31:35,340  
yeah it's definitely likely I mean

904  
00:31:38,810 --> 00:31:37,020  
they've been that's been the main

905  
00:31:40,430 --> 00:31:38,820  
argument right is that this is some sort

906  
00:31:42,409 --> 00:31:40,440  
of balloon

907  
00:31:46,430 --> 00:31:42,419  
and if you look at that that's the acorn

908  
00:31:48,889 --> 00:31:46,440  
uh sphere blimp video that actually my

909  
00:31:49,909 --> 00:31:48,899  
most popular short by far is is on that

910  
00:31:51,830 --> 00:31:49,919  
okay

911  
00:31:53,870 --> 00:31:51,840  
if you look at it too that blimp looking

912  
00:31:56,210 --> 00:31:53,880  
thing at the end it actually does look

913  
00:31:59,630 --> 00:31:56,220

like a Tic Tac actually if you consider

914

00:32:02,930 --> 00:31:59,640

what a Tic Tac uh if you consider the

915

00:32:05,690 --> 00:32:02,940

shape to me it looks like a Tic Tac

916

00:32:07,250 --> 00:32:05,700

so I would say that is the best mundane

917

00:32:09,350 --> 00:32:07,260

argument that's literally the only

918

00:32:11,810 --> 00:32:09,360

mundane kind of argument I can consider

919

00:32:13,430 --> 00:32:11,820

is that it's some sort of advanced

920

00:32:15,590 --> 00:32:13,440

dirigible

921

00:32:16,730 --> 00:32:15,600

the the biggest question is again in all

922

00:32:19,970 --> 00:32:16,740

those in a lot of those East Coast

923

00:32:21,950 --> 00:32:19,980

sightings is they would say high winds

924

00:32:24,350 --> 00:32:21,960

um but the problem is I've never been

925

00:32:26,690 --> 00:32:24,360

able to correlate okay those pictures

926

00:32:29,090 --> 00:32:26,700

with them also saying high winds they

927

00:32:31,010 --> 00:32:29,100

haven't said the date of the pictures uh

928

00:32:32,870 --> 00:32:31,020

we don't know yeah so I can't get any

929

00:32:34,430 --> 00:32:32,880

more data all I have is those three kind

930

00:32:36,889 --> 00:32:34,440

of crappy picture four four kind of

931

00:32:38,510 --> 00:32:36,899

crappy pictures with no correlating data

932

00:32:41,810 --> 00:32:38,520

but if we can correlate it to the same

933

00:32:44,210 --> 00:32:41,820

day and that day has high winds

934

00:32:46,190 --> 00:32:44,220

uh and you have those Pilots saying that

935

00:32:49,010 --> 00:32:46,200

yeah it was like 150 knot winds out

936

00:32:51,830 --> 00:32:49,020

there at 27 000 feet then there's no way

937

00:32:53,870 --> 00:32:51,840

this like you know this Chinese space

938

00:32:55,789 --> 00:32:53,880

blimper or whatever balloon they're

939

00:32:57,889 --> 00:32:55,799

talking about unless it has

940

00:32:59,990 --> 00:32:57,899

engines on it there's no way it's going

941

00:33:02,090 --> 00:33:00,000

to stay in the same position in 150 knot

942

00:33:03,590 --> 00:33:02,100

winds it's just that would be

943

00:33:06,169 --> 00:33:03,600

breakthrough technology and either way

944

00:33:07,730 --> 00:33:06,179

it's interesting yeah and well one thing

945

00:33:09,230 --> 00:33:07,740

that we have got a little bit more data

946

00:33:11,870 --> 00:33:09,240

on and you've mentioned and I've

947

00:33:13,549 --> 00:33:11,880

mentioned is the muscle orb that came

948

00:33:15,649 --> 00:33:13,559

out from Jeremy Corbell and George

949

00:33:17,450 --> 00:33:15,659

Knapp's first episode of weaponized

950

00:33:18,230 --> 00:33:17,460

their new podcast

951  
00:33:20,210 --> 00:33:18,240  
um

952  
00:33:21,649 --> 00:33:20,220  
I should start a podcast about weaponize

953  
00:33:23,210 --> 00:33:21,659  
the podcast and understood like podcast

954  
00:33:25,669 --> 00:33:23,220  
Inception

955  
00:33:27,710 --> 00:33:25,679  
um the it caused a lot of debate a lot

956  
00:33:29,450 --> 00:33:27,720  
of discussion and I just wonder what are

957  
00:33:31,669 --> 00:33:29,460  
your thoughts from saying the initial

958  
00:33:33,169 --> 00:33:31,679  
still frame to the work you've done on

959  
00:33:35,990 --> 00:33:33,179  
it since and as we record this you've

960  
00:33:38,149 --> 00:33:36,000  
got a video coming out later today uh on

961  
00:33:39,590 --> 00:33:38,159  
the orb itself so not to spoil it but

962  
00:33:41,210 --> 00:33:39,600  
it'll have been a week and a half since

963  
00:33:43,430 --> 00:33:41,220

when this gets released

964

00:33:45,169 --> 00:33:43,440

I think it's really exciting

965

00:33:47,210 --> 00:33:45,179

yeah I'm really I'm really happy with it

966

00:33:48,889 --> 00:33:47,220

you know because I was on tonanza those

967

00:33:51,169 --> 00:33:48,899

theories of everything his eight hour

968

00:33:54,049 --> 00:33:51,179

long live cast and I was on that Israel

969

00:33:56,330 --> 00:33:54,059

yep yeah I saw Jeremy Corbell and and

970

00:33:58,250 --> 00:33:56,340

George Knapp they teased in January

971

00:34:00,769 --> 00:33:58,260

they'd have some big release coming

972

00:34:03,049 --> 00:34:00,779

and they delivered you know so he lives

973

00:34:05,990 --> 00:34:03,059

in Vegas Vegas is a you know the the

974

00:34:07,490 --> 00:34:06,000

center of the U.S Air Force tactical

975

00:34:08,990 --> 00:34:07,500

Aviation that's where our weapon school

976

00:34:11,869 --> 00:34:09,000

is you know that's where our the Air

977

00:34:14,329 --> 00:34:11,879

Force Top Gun is in Las Vegas so I think

978

00:34:16,430 --> 00:34:14,339

he just has good connections there yeah

979

00:34:19,490 --> 00:34:16,440

in Vegas he's able to to bring out these

980

00:34:22,070 --> 00:34:19,500

uh these amazing uh releases so the the

981

00:34:24,290 --> 00:34:22,080

mosul orb I think

982

00:34:25,310 --> 00:34:24,300

it first off it's a clear picture you

983

00:34:27,710 --> 00:34:25,320

know everybody's like what about those

984

00:34:29,510 --> 00:34:27,720

clear pictures you know I mean it's sort

985

00:34:31,010 --> 00:34:29,520

of fuzzy around the outer edges but I

986

00:34:32,570 --> 00:34:31,020

think that could be just from motion

987

00:34:35,450 --> 00:34:32,580

blur um

988

00:34:38,329 --> 00:34:35,460

and then you look at based on the focus

989

00:34:40,430 --> 00:34:38,339

I don't think it can be a water droplet

990

00:34:43,430 --> 00:34:40,440

because it's so zoomed in it's zoomed in

991

00:34:45,889 --> 00:34:43,440

almost to one degree okay and so it's

992

00:34:48,050 --> 00:34:45,899

it's like a telezoom if you think about

993

00:34:49,609 --> 00:34:48,060

it so four and a half miles away is is

994

00:34:51,349 --> 00:34:49,619

basically what I analyzed I was able to

995

00:34:53,089 --> 00:34:51,359

you can watch my video later on but I

996

00:34:55,070 --> 00:34:53,099

the slant range is about four and a half

997

00:34:56,450 --> 00:34:55,080

nautical miles

998

00:34:58,190 --> 00:34:56,460

and

999

00:34:59,870 --> 00:34:58,200

we don't know the size of this thing

1000

00:35:03,410 --> 00:34:59,880

obviously right if it's an unidentified

1001

00:35:05,150 --> 00:35:03,420

object but if it's a meter if it's a

1002

00:35:07,550 --> 00:35:05,160

meter across

1003

00:35:09,710 --> 00:35:07,560

uh then it would be about halfway

1004

00:35:10,849 --> 00:35:09,720

between the jet and the ground in that

1005

00:35:12,670 --> 00:35:10,859

picture

1006

00:35:15,290 --> 00:35:12,680

so that that's what I was able to find

1007

00:35:17,569 --> 00:35:15,300

so we'll learn more they said there's a

1008

00:35:19,069 --> 00:35:17,579

four second video yep so it really

1009

00:35:20,870 --> 00:35:19,079

depend on

1010

00:35:23,089 --> 00:35:20,880

how long is that thing in the video for

1011

00:35:24,710 --> 00:35:23,099

you know does it does it just like fly

1012

00:35:26,510 --> 00:35:24,720

by the video because if that'll tell me

1013

00:35:27,829 --> 00:35:26,520

it's it's close to the plane right it's

1014

00:35:28,910 --> 00:35:27,839

close to the camera if it goes by

1015

00:35:31,310 --> 00:35:28,920

quickly

1016

00:35:33,470 --> 00:35:31,320

but what I've seen like

1017

00:35:35,750 --> 00:35:33,480

um watching a target with a turning pod

1018

00:35:37,790 --> 00:35:35,760

like if a helicopter comes in right the

1019

00:35:39,230 --> 00:35:37,800

helicopter is close to the building so

1020

00:35:41,030 --> 00:35:39,240

you'll see the helicopter for a while

1021

00:35:42,650 --> 00:35:41,040

which makes sense you know if you think

1022

00:35:44,510 --> 00:35:42,660

about it you're far away really zoomed

1023

00:35:46,730 --> 00:35:44,520

in to a point

1024

00:35:48,950 --> 00:35:46,740

the longer that object is in the frame

1025

00:35:50,450 --> 00:35:48,960

that means the closer it is to to the

1026  
00:35:52,250 --> 00:35:50,460  
buildings

1027  
00:35:53,750 --> 00:35:52,260  
and so in that case that would make it

1028  
00:35:55,730 --> 00:35:53,760  
larger

1029  
00:35:57,410 --> 00:35:55,740  
um one of the other arguments you've

1030  
00:35:58,790 --> 00:35:57,420  
mentioned the water droplet but the

1031  
00:36:00,650 --> 00:35:58,800  
other argument was that it was

1032  
00:36:03,770 --> 00:36:00,660  
potentially a large puddle

1033  
00:36:05,930 --> 00:36:03,780  
someone had looked at Google Maps and in

1034  
00:36:07,670 --> 00:36:05,940  
that exact spot which it may just be

1035  
00:36:10,370 --> 00:36:07,680  
coincidence and isn't this just typical

1036  
00:36:12,770 --> 00:36:10,380  
of the UFO subject the object appears to

1037  
00:36:16,190 --> 00:36:12,780  
be over what is like a big indentation

1038  
00:36:18,770 --> 00:36:16,200

in the ground so if there had been rain

1039

00:36:20,870 --> 00:36:18,780

that's where it would have been but

1040

00:36:22,609 --> 00:36:20,880

again from your calculations and the

1041

00:36:26,150 --> 00:36:22,619

work you have done is it unlikely to be

1042

00:36:28,130 --> 00:36:26,160

a large body of water on the ground

1043

00:36:31,670 --> 00:36:28,140

yeah I'm not uh you know an Optics

1044

00:36:34,130 --> 00:36:31,680

expert I'm told a lot uh but you know I

1045

00:36:35,990 --> 00:36:34,140

went to uh metabunk and according to

1046

00:36:37,790 --> 00:36:36,000

Mick West it can't be towards the ground

1047

00:36:40,670 --> 00:36:37,800

you know he says basically it's 1500

1048

00:36:43,790 --> 00:36:40,680

millimeter zoomed in

1049

00:36:45,829 --> 00:36:43,800

um and so the focus is different if you

1050

00:36:48,050 --> 00:36:45,839

look at the focus around the objects on

1051  
00:36:51,290 --> 00:36:48,060  
the ground right they're they're in kind

1052  
00:36:53,690 --> 00:36:51,300  
of a more accurate Focus if you will the

1053  
00:36:56,349 --> 00:36:53,700  
line is less fuzzy on the outside and if

1054  
00:36:58,609 --> 00:36:56,359  
you look at the object it's more fuzzy

1055  
00:37:01,010 --> 00:36:58,619  
so meaning that

1056  
00:37:03,410 --> 00:37:01,020  
it's it's closer to the camera it's not

1057  
00:37:05,089 --> 00:37:03,420  
in the same Focus plane of view right

1058  
00:37:06,589 --> 00:37:05,099  
it's not the same distance from the lens

1059  
00:37:09,230 --> 00:37:06,599  
from the sensor

1060  
00:37:11,450 --> 00:37:09,240  
as uh the objects on the ground

1061  
00:37:13,490 --> 00:37:11,460  
yeah right so if it was on the ground

1062  
00:37:15,109 --> 00:37:13,500  
and it was a puddle then you should see

1063  
00:37:17,569 --> 00:37:15,119

the puddle

1064

00:37:19,130 --> 00:37:17,579

clearly outlined right so I guess their

1065

00:37:21,950 --> 00:37:19,140

their only argument would be is that

1066

00:37:24,349 --> 00:37:21,960

that fuzziness is somehow optically an

1067

00:37:26,390 --> 00:37:24,359

illusion from this puddle on the ground

1068

00:37:28,430 --> 00:37:26,400

I looked at Google Earth as well I

1069

00:37:30,650 --> 00:37:28,440

looked at Google Maps and there's it's

1070

00:37:32,930 --> 00:37:30,660

just a regular Street there's

1071

00:37:34,790 --> 00:37:32,940

you know there's nothing there

1072

00:37:36,829 --> 00:37:34,800

so I don't know according to Mick West

1073

00:37:39,230 --> 00:37:36,839

it's not a puddle on the ground

1074

00:37:41,450 --> 00:37:39,240

and I believe also it can't be a water

1075

00:37:44,210 --> 00:37:41,460

droplet just because of so far how far

1076  
00:37:47,089 --> 00:37:44,220  
zoomed in the camera is so I think this

1077  
00:37:48,950 --> 00:37:47,099  
one is is truly anomalous unless you

1078  
00:37:51,170 --> 00:37:48,960  
know the best I can think of is a like

1079  
00:37:52,550 --> 00:37:51,180  
silver balloon you know they're going to

1080  
00:37:54,530 --> 00:37:52,560  
come with a balloon it's gonna be a

1081  
00:37:56,089 --> 00:37:54,540  
balloon if it's flying in the air and

1082  
00:37:57,470 --> 00:37:56,099  
they can't identify it then the best

1083  
00:37:59,990 --> 00:37:57,480  
argument is

1084  
00:38:02,150 --> 00:38:00,000  
a balloon

1085  
00:38:05,930 --> 00:38:02,160  
do we need the video though to really

1086  
00:38:08,150 --> 00:38:05,940  
make a concrete decision on what this

1087  
00:38:09,770 --> 00:38:08,160  
object is and where it is and I've

1088  
00:38:12,349 --> 00:38:09,780

actually heard Jeremy or George say

1089

00:38:14,510 --> 00:38:12,359

directly and I did watch weaponized have

1090

00:38:16,490 --> 00:38:14,520

they seen the four second video or have

1091

00:38:18,650 --> 00:38:16,500

they just said there is a four second

1092

00:38:20,510 --> 00:38:18,660

video

1093

00:38:23,270 --> 00:38:20,520

I I don't know

1094

00:38:25,490 --> 00:38:23,280

um I didn't hear exactly what he said

1095

00:38:27,109 --> 00:38:25,500

all I know is that from what I

1096

00:38:29,270 --> 00:38:27,119

understand is the four second video is

1097

00:38:31,730 --> 00:38:29,280

classified right

1098

00:38:33,349 --> 00:38:31,740

so if it's classified as far as I know

1099

00:38:34,849 --> 00:38:33,359

they don't have security clearances they

1100

00:38:36,710 --> 00:38:34,859

shouldn't they shouldn't be seeing it

1101  
00:38:38,329 --> 00:38:36,720  
they shouldn't have seen it so that that

1102  
00:38:39,710 --> 00:38:38,339  
was my impression is that the video is

1103  
00:38:41,210 --> 00:38:39,720  
classified so they obviously they

1104  
00:38:43,730 --> 00:38:41,220  
couldn't have seen it now

1105  
00:38:45,109 --> 00:38:43,740  
the picture that was released was just

1106  
00:38:46,910 --> 00:38:45,119  
unclassified

1107  
00:38:49,490 --> 00:38:46,920  
because there's nothing actually

1108  
00:38:50,750 --> 00:38:49,500  
classified on it that they can say a

1109  
00:38:52,069 --> 00:38:50,760  
hundred percent you know I think they'll

1110  
00:38:53,750 --> 00:38:52,079  
still get in trouble it'll still be the

1111  
00:38:55,550 --> 00:38:53,760  
same thing because you can

1112  
00:38:57,170 --> 00:38:55,560  
you know I was able to find out the

1113  
00:38:59,150 --> 00:38:57,180

plane is four and a half miles away we

1114

00:39:01,490 --> 00:38:59,160

know exactly where the target is so you

1115

00:39:03,589 --> 00:39:01,500

can tell the the sensor

1116

00:39:05,230 --> 00:39:03,599

you get data on the systems they're

1117

00:39:07,970 --> 00:39:05,240

using right and you can determine

1118

00:39:09,230 --> 00:39:07,980

operations you know okay you know if

1119

00:39:10,849 --> 00:39:09,240

they're looking at Target maybe they'll

1120

00:39:12,589 --> 00:39:10,859

be this far away see you can find the

1121

00:39:13,970 --> 00:39:12,599

sort of things that obviously our

1122

00:39:15,230 --> 00:39:13,980

government the military doesn't doesn't

1123

00:39:17,270 --> 00:39:15,240

want to give out

1124

00:39:19,490 --> 00:39:17,280

this was also from seven years ago right

1125

00:39:21,890 --> 00:39:19,500

and we're not fighting there anymore

1126

00:39:24,890 --> 00:39:21,900

so how long do we need to keep this

1127

00:39:26,870 --> 00:39:24,900

stuff keep this stuff secret but from my

1128

00:39:29,450 --> 00:39:26,880

point of view I need the video you know

1129

00:39:31,010 --> 00:39:29,460

I'm limited now to like I analyze as far

1130

00:39:33,470 --> 00:39:31,020

as I think I could do it

1131

00:39:35,270 --> 00:39:33,480

and that basically what I said is if

1132

00:39:37,849 --> 00:39:35,280

it's a meter long it would be in this

1133

00:39:39,650 --> 00:39:37,859

location well if we get more data points

1134

00:39:40,790 --> 00:39:39,660

if we get the video now we can determine

1135

00:39:42,589 --> 00:39:40,800

okay

1136

00:39:44,810 --> 00:39:42,599

it is

1137

00:39:47,030 --> 00:39:44,820

within this range you know then I then I

1138

00:39:49,970 --> 00:39:47,040

could say okay it is within

1139

00:39:51,410 --> 00:39:49,980

you know a half meter to 10 meters or

1140

00:39:54,050 --> 00:39:51,420

something you know I could actually give

1141

00:39:55,370 --> 00:39:54,060

a range there but whereas of now is

1142

00:39:56,930 --> 00:39:55,380

you know we don't really know so I'm

1143

00:39:58,970 --> 00:39:56,940

very excited to get more data more

1144

00:40:01,370 --> 00:39:58,980

images in the full video

1145

00:40:04,190 --> 00:40:01,380

and again like we've said the beauty of

1146

00:40:05,990 --> 00:40:04,200

weaponized now being a thing is George

1147

00:40:08,750 --> 00:40:06,000

and Jeremy are there for that kind of

1148

00:40:11,390 --> 00:40:08,760

regular contact and you would expect and

1149

00:40:13,130 --> 00:40:11,400

hope and I speak to that doesn't mean

1150

00:40:14,810 --> 00:40:13,140

God dropping names right I'm never the

1151  
00:40:17,329 --> 00:40:14,820  
type but I speak to Jeremy pretty

1152  
00:40:19,130 --> 00:40:17,339  
regular via text and he always seems to

1153  
00:40:21,530 --> 00:40:19,140  
type this really up for being held

1154  
00:40:23,569 --> 00:40:21,540  
accountable and I think this I would be

1155  
00:40:25,910 --> 00:40:23,579  
disappointed if they didn't address it

1156  
00:40:28,370 --> 00:40:25,920  
regularly on the podcast and come back

1157  
00:40:31,790 --> 00:40:28,380  
to drops to say this is what we said

1158  
00:40:33,050 --> 00:40:31,800  
last week and whether it was debunked or

1159  
00:40:34,849 --> 00:40:33,060  
actually here's something that's been

1160  
00:40:37,130 --> 00:40:34,859  
brought up let's answer these things

1161  
00:40:38,630 --> 00:40:37,140  
first and then move on because that is

1162  
00:40:40,790 --> 00:40:38,640  
the opportunity that I've got with the

1163  
00:40:42,650 --> 00:40:40,800

platform that they have which is already

1164

00:40:45,109 --> 00:40:42,660

a massive success but I think that for

1165

00:40:47,750 --> 00:40:45,119

me is the the key to being a continued

1166

00:40:52,970 --> 00:40:50,089

yeah definitely I think

1167

00:40:55,910 --> 00:40:52,980

you know whatever you think about Jeremy

1168

00:40:57,950 --> 00:40:55,920

Corbell his releases have been

1169

00:41:01,010 --> 00:40:57,960

you know approved by the government

1170

00:41:02,450 --> 00:41:01,020

meaning whatever he releases

1171

00:41:03,950 --> 00:41:02,460

the US government has come around and

1172

00:41:05,630 --> 00:41:03,960

said yes that is legitimate you know

1173

00:41:07,370 --> 00:41:05,640

those are real they've they haven't come

1174

00:41:09,650 --> 00:41:07,380

out yet and been like no that's not true

1175

00:41:12,470 --> 00:41:09,660

you know or that video wasn't

1176

00:41:13,430 --> 00:41:12,480

uh wasn't realistic so I would take it

1177

00:41:15,050 --> 00:41:13,440

as

1178

00:41:17,329 --> 00:41:15,060

yeah it looks like it's a realistic

1179

00:41:19,550 --> 00:41:17,339

capture and also interesting that it's

1180

00:41:21,410 --> 00:41:19,560

this it's this round orb thing that

1181

00:41:23,810 --> 00:41:21,420

keeps seems like it keeps coming up you

1182

00:41:27,290 --> 00:41:23,820

know Ross Coulter he initially had the

1183

00:41:29,690 --> 00:41:27,300

like the BET sphere kind of idea but

1184

00:41:33,349 --> 00:41:29,700

I've also had many videos

1185

00:41:36,530 --> 00:41:33,359

one one's from Nigel Benton he's in the

1186

00:41:39,589 --> 00:41:36,540

UK actually in England and he was he had

1187

00:41:42,770 --> 00:41:39,599

separated by 50 I think 15 years he

1188

00:41:44,270 --> 00:41:42,780

videoed just a white orb it looks like I

1189

00:41:46,250 --> 00:41:44,280

don't know a planet that's maybe too

1190

00:41:49,370 --> 00:41:46,260

bright during the day

1191

00:41:51,410 --> 00:41:49,380

and it actually passes a plane passes

1192

00:41:53,510 --> 00:41:51,420

behind it so you can actually see it's

1193

00:41:54,770 --> 00:41:53,520

nearer to the

1194

00:41:56,510 --> 00:41:54,780

um

1195

00:41:58,310 --> 00:41:56,520

and no one's really talked about those

1196

00:42:00,710 --> 00:41:58,320

you know I bring it up I brought I've

1197

00:42:02,690 --> 00:42:00,720

made a couple videos on it but you know

1198

00:42:04,910 --> 00:42:02,700

those those sort of captures just kind

1199

00:42:06,770 --> 00:42:04,920

of go by the wayside what was his name

1200

00:42:08,450 --> 00:42:06,780

just I'll put the link for your video in

1201  
00:42:10,810 --> 00:42:08,460  
the description but for people who may

1202  
00:42:13,849 --> 00:42:10,820  
have heard Batman oh what did I say

1203  
00:42:15,770 --> 00:42:13,859  
Nigel Benton

1204  
00:42:17,390 --> 00:42:15,780  
I'll stack that link again in the

1205  
00:42:20,210 --> 00:42:17,400  
description Focus yourself yeah he has

1206  
00:42:22,790 --> 00:42:20,220  
two videos he went out um I think in

1207  
00:42:24,290 --> 00:42:22,800  
2008 he captured the first one just by

1208  
00:42:25,910 --> 00:42:24,300  
accident he was sitting back in his in

1209  
00:42:28,550 --> 00:42:25,920  
his on his guard in his garden looking

1210  
00:42:30,710 --> 00:42:28,560  
up and he saw like a star during the day

1211  
00:42:32,030 --> 00:42:30,720  
he's like that's weird and so he ended

1212  
00:42:34,730 --> 00:42:32,040  
up videoing it

1213  
00:42:36,230 --> 00:42:34,740

I ended up seeing the video he asked me

1214

00:42:37,790 --> 00:42:36,240

what I should do with it I said hey put

1215

00:42:41,030 --> 00:42:37,800

it on YouTube you know so he throws it

1216

00:42:44,030 --> 00:42:41,040

on YouTube this was in uh 2020 I believe

1217

00:42:47,270 --> 00:42:44,040

and then it that same year he sees it

1218

00:42:50,089 --> 00:42:47,280

again and so he recorded it again uh the

1219

00:42:51,230 --> 00:42:50,099

same location and he posted it posted

1220

00:42:53,870 --> 00:42:51,240

another video

1221

00:42:55,550 --> 00:42:53,880

so yeah I think something on with these

1222

00:42:57,950 --> 00:42:55,560

something going on with these orbs you

1223

00:43:00,410 --> 00:42:57,960

know is this like some AI

1224

00:43:03,109 --> 00:43:00,420

super drone you know that it's basically

1225

00:43:05,450 --> 00:43:03,119

here monitoring or is this

1226

00:43:07,250 --> 00:43:05,460

a metallic balloon that we don't know

1227

00:43:08,089 --> 00:43:07,260

about flying around or is it some sort

1228

00:43:10,069 --> 00:43:08,099

of

1229

00:43:11,809 --> 00:43:10,079

drone it just seems weird you'd have in

1230

00:43:13,250 --> 00:43:11,819

Afghanistan you'd have this silver drone

1231

00:43:15,530 --> 00:43:13,260

what do you think is more likely because

1232

00:43:17,930 --> 00:43:15,540

it seems the type of shape that

1233

00:43:19,550 --> 00:43:17,940

as technology improves that maybe it

1234

00:43:21,650 --> 00:43:19,560

would be it's not particularly

1235

00:43:23,510 --> 00:43:21,660

aerodynamic is it that's that's one of

1236

00:43:25,849 --> 00:43:23,520

the issues and we see a lot of the

1237

00:43:27,470 --> 00:43:25,859

drones are our craft being used all

1238

00:43:30,109 --> 00:43:27,480

different kinds of altitudes

1239

00:43:31,970 --> 00:43:30,119

a big ball no matter what size doesn't

1240

00:43:33,349 --> 00:43:31,980

seem to be the best one to be throwing

1241

00:43:35,150 --> 00:43:33,359

up in the air regardless of the

1242

00:43:37,430 --> 00:43:35,160

technology you're deploying to move it

1243

00:43:39,109 --> 00:43:37,440

so is it more likely and I've said

1244

00:43:41,390 --> 00:43:39,119

before just because they're drones

1245

00:43:44,569 --> 00:43:41,400

doesn't mean they're human drones

1246

00:43:46,790 --> 00:43:44,579

right we put big cubes up on Mars to

1247

00:43:48,349 --> 00:43:46,800

grown up Rove about the planet with big

1248

00:43:50,450 --> 00:43:48,359

tracks underneath them and they move a

1249

00:43:52,309 --> 00:43:50,460

couple of feet in a day and I've always

1250

00:43:54,109 --> 00:43:52,319

said you know if anyone thinks why would

1251

00:43:55,730 --> 00:43:54,119

I use this argument with people I work

1252

00:43:57,650 --> 00:43:55,740

with who have no interest in the UFO

1253

00:43:59,930 --> 00:43:57,660

topic who who find out I've got a

1254

00:44:01,670 --> 00:43:59,940

podcast on it and they'll say why would

1255

00:44:04,430 --> 00:44:01,680

the civilization come millions of miles

1256

00:44:06,650 --> 00:44:04,440

and fly their spaceships about here and

1257

00:44:09,230 --> 00:44:06,660

well we've just put a big robot on Mars

1258

00:44:10,670 --> 00:44:09,240

and it roves about it collects samples

1259

00:44:12,890 --> 00:44:10,680

and then every so often it's got a

1260

00:44:14,809 --> 00:44:12,900

little helicopter Which flies up off of

1261

00:44:17,030 --> 00:44:14,819

the robot goes a couple of feet away

1262

00:44:19,309 --> 00:44:17,040

from it and comes back is that not

1263

00:44:20,930 --> 00:44:19,319

really strange and there's no real

1264

00:44:22,490 --> 00:44:20,940

argument there sir because we do the

1265

00:44:26,109 --> 00:44:22,500

same

1266

00:44:30,410 --> 00:44:26,119

yeah it's it's just funny that um

1267

00:44:33,109 --> 00:44:30,420

we just uh we think we know everything I

1268

00:44:35,270 --> 00:44:33,119

find it it just it's the human nature

1269

00:44:37,370 --> 00:44:35,280

right you have to be confident

1270

00:44:39,349 --> 00:44:37,380

to take a step you know you have to be

1271

00:44:41,870 --> 00:44:39,359

confident to eat that

1272

00:44:43,130 --> 00:44:41,880

you know food or you're never gonna eat

1273

00:44:45,050 --> 00:44:43,140

you're never gonna walk anywhere you

1274

00:44:46,430 --> 00:44:45,060

wouldn't exist yeah so there's a

1275

00:44:47,630 --> 00:44:46,440

confidence that we have to have as

1276

00:44:50,809 --> 00:44:47,640

humans

1277

00:44:52,430 --> 00:44:50,819

that I think they hide the true nature

1278

00:44:55,069 --> 00:44:52,440

of reality which is we don't know the

1279

00:44:58,069 --> 00:44:55,079

true nature of reality we don't know

1280

00:45:00,770 --> 00:44:58,079

really much past our own planetary

1281

00:45:01,910 --> 00:45:00,780

borders right we we think we can see so

1282

00:45:03,710 --> 00:45:01,920

far

1283

00:45:06,170 --> 00:45:03,720

um but you know look just last month it

1284

00:45:08,809 --> 00:45:06,180

was a what was it a comment the size of

1285

00:45:10,670 --> 00:45:08,819

a large uh 18-wheeler you know came

1286

00:45:12,710 --> 00:45:10,680

underneath our lower satellites and we

1287

00:45:15,410 --> 00:45:12,720

didn't see that comment um I mean we

1288

00:45:17,750 --> 00:45:15,420

didn't see that that meteor right so

1289

00:45:19,370 --> 00:45:17,760

we could easily be impacted by a meteor

1290

00:45:21,230 --> 00:45:19,380

at any minute I mean we really aren't

1291

00:45:23,210 --> 00:45:21,240

looking you know there's this idea that

1292

00:45:25,910 --> 00:45:23,220

we have there's a few programs right but

1293

00:45:28,010 --> 00:45:25,920

but just as an example that one that one

1294

00:45:30,170 --> 00:45:28,020

meteor so I think there's so much we

1295

00:45:32,470 --> 00:45:30,180

don't know what I think about with the

1296

00:45:36,309 --> 00:45:32,480

the Spheres is you mentioned something

1297

00:45:41,089 --> 00:45:36,319

you said that the the shape doesn't seem

1298

00:45:43,370 --> 00:45:41,099

realistic giving how it would maneuver

1299

00:45:45,650 --> 00:45:43,380

uh or some something to that end yeah

1300

00:45:47,930 --> 00:45:45,660

yeah but I think the shape of it would

1301  
00:45:49,309 --> 00:45:47,940  
would give us Clues to exactly how it

1302  
00:45:52,250 --> 00:45:49,319  
would maneuver

1303  
00:45:54,050 --> 00:45:52,260  
right so if I think of

1304  
00:45:55,790 --> 00:45:54,060  
if this is possible what are some

1305  
00:45:58,309 --> 00:45:55,800  
possible Technologies for this right

1306  
00:46:01,670 --> 00:45:58,319  
what could possibly happen I think in

1307  
00:46:02,870 --> 00:46:01,680  
terms of gravidics magnetics right

1308  
00:46:05,589 --> 00:46:02,880  
there's still so much we don't know

1309  
00:46:08,990 --> 00:46:05,599  
about the Earth's magnetic field

1310  
00:46:10,730 --> 00:46:09,000  
we still don't know how gravity

1311  
00:46:12,829 --> 00:46:10,740  
actually works we don't really

1312  
00:46:14,450 --> 00:46:12,839  
understand gravity we don't really

1313  
00:46:16,550 --> 00:46:14,460

understand electricity and we don't

1314

00:46:18,609 --> 00:46:16,560

really understand magnetism and I think

1315

00:46:20,750 --> 00:46:18,619

those three things are are really

1316

00:46:23,270 --> 00:46:20,760

interrelated they could be the same

1317

00:46:25,069 --> 00:46:23,280

thing actually the same thing we just

1318

00:46:27,530 --> 00:46:25,079

see it it comes out in different uh

1319

00:46:29,870 --> 00:46:27,540

perspectives so what if like this metal

1320

00:46:31,970 --> 00:46:29,880

ball right what if it's shaped like that

1321

00:46:33,170 --> 00:46:31,980

for a particular reason involving some

1322

00:46:35,450 --> 00:46:33,180

sort of

1323

00:46:38,030 --> 00:46:35,460

magnetics right if you're trying to

1324

00:46:39,589 --> 00:46:38,040

maneuver if inside you have some sort of

1325

00:46:42,710 --> 00:46:39,599

uh

1326  
00:46:46,730 --> 00:46:42,720  
some sort of electromagnetic system

1327  
00:46:48,770 --> 00:46:46,740  
that can just hold itself in a uh in a

1328  
00:46:50,510 --> 00:46:48,780  
geodesic a magnetic line with the Earth

1329  
00:46:52,010 --> 00:46:50,520  
right because the Earth is a giant

1330  
00:46:54,050 --> 00:46:52,020  
magnet if you think about it giant

1331  
00:46:56,569 --> 00:46:54,060  
magnet interacting with the solar wind

1332  
00:47:00,050 --> 00:46:56,579  
right so you have and actually millions

1333  
00:47:01,730 --> 00:47:00,060  
of tons of electrons solar wind are

1334  
00:47:04,309 --> 00:47:01,740  
hitting the earth from the sun I believe

1335  
00:47:06,170 --> 00:47:04,319  
every day so I mean you just have tons

1336  
00:47:08,089 --> 00:47:06,180  
of actual emotion going on there's tons

1337  
00:47:09,410 --> 00:47:08,099  
of energy hitting the Earth there's tons

1338  
00:47:10,550 --> 00:47:09,420

of magnetic fields that we don't

1339

00:47:12,470 --> 00:47:10,560

understand

1340

00:47:14,390 --> 00:47:12,480

could a ball

1341

00:47:15,530 --> 00:47:14,400

you know could have just moved and

1342

00:47:17,450 --> 00:47:15,540

that's where I think about these Tic

1343

00:47:19,130 --> 00:47:17,460

Tacs when you think of the Tic Tacs on

1344

00:47:21,109 --> 00:47:19,140

the west coast you know when they came

1345

00:47:23,150 --> 00:47:21,119

in at 80 000 feet then they went right

1346

00:47:24,890 --> 00:47:23,160

down to 28 000 feet

1347

00:47:28,490 --> 00:47:24,900

and then they just held and actually

1348

00:47:30,770 --> 00:47:28,500

they they tracked on uh I think um Kevin

1349

00:47:33,170 --> 00:47:30,780

Dave and said like East West they were

1350

00:47:35,390 --> 00:47:33,180

tracking on like longitude lines and

1351

00:47:37,130 --> 00:47:35,400

then it goes down to the surface

1352

00:47:39,829 --> 00:47:37,140

immediate you know the only thing I I

1353

00:47:40,930 --> 00:47:39,839

think of that is like discrete jumps if

1354

00:47:43,010 --> 00:47:40,940

you're thinking of solid state

1355

00:47:44,510 --> 00:47:43,020

Electronics how does solid state

1356

00:47:47,450 --> 00:47:44,520

Electronics work is it actually goes

1357

00:47:49,550 --> 00:47:47,460

through these discrete jumps

1358

00:47:52,250 --> 00:47:49,560

um so I I don't know I think

1359

00:47:54,890 --> 00:47:52,260

my own belief and again it's it's like a

1360

00:47:56,329 --> 00:47:54,900

guesstimate is that it that's where it

1361

00:47:58,490 --> 00:47:56,339

kind of Lies where the answer kind of

1362

00:48:00,230 --> 00:47:58,500

Lies is our understanding of the actual

1363

00:48:02,390 --> 00:48:00,240

Earth the environment that the Earth is

1364

00:48:05,030 --> 00:48:02,400

actually in the magnetic environment how

1365

00:48:07,550 --> 00:48:05,040

does magnetic how does magnetism and an

1366

00:48:11,030 --> 00:48:07,560

electrical how does the electromagnetic

1367

00:48:13,130 --> 00:48:11,040

spectrum actually work and how will that

1368

00:48:15,170 --> 00:48:13,140

interact with gravity and I and I think

1369

00:48:17,089 --> 00:48:15,180

it leans towards that direction

1370

00:48:18,530 --> 00:48:17,099

that's really interesting nice way to

1371

00:48:20,030 --> 00:48:18,540

think about it and give me people like

1372

00:48:21,710 --> 00:48:20,040

me something to think about as well in

1373

00:48:24,230 --> 00:48:21,720

terms of how these things may be moving

1374

00:48:26,290 --> 00:48:24,240

operating I think it also gives you the

1375

00:48:29,930 --> 00:48:26,300

idea that say these things do come from

1376

00:48:31,790 --> 00:48:29,940

from space and then into the atmosphere

1377

00:48:32,510 --> 00:48:31,800

and then they can operate underwater as

1378

00:48:34,670 --> 00:48:32,520

well

1379

00:48:36,349 --> 00:48:34,680

maybe they're using different systems to

1380

00:48:37,730 --> 00:48:36,359

operate in those different places and

1381

00:48:39,589 --> 00:48:37,740

again that could

1382

00:48:41,510 --> 00:48:39,599

also make them a little bit fallible we

1383

00:48:43,130 --> 00:48:41,520

hear these objects can sometimes crash

1384

00:48:45,230 --> 00:48:43,140

and people say well how can this great

1385

00:48:46,670 --> 00:48:45,240

technology crash here but maybe even

1386

00:48:48,650 --> 00:48:46,680

it's moving from one thing to another

1387

00:48:50,569 --> 00:48:48,660

thing to another thing there's maybe

1388

00:48:53,030 --> 00:48:50,579

moments where

1389

00:48:54,410 --> 00:48:53,040

there's a weakness and that's why what

1390

00:48:56,270 --> 00:48:54,420

happens to them happens but then maybe

1391

00:48:57,770 --> 00:48:56,280

not maybe that's not how it works but I

1392

00:49:01,010 --> 00:48:57,780

like that I like good idea

1393

00:49:04,010 --> 00:49:01,020

well it depends how many there are

1394

00:49:06,829 --> 00:49:04,020

you know imagine you have um

1395

00:49:10,250 --> 00:49:06,839

you have these these devices

1396

00:49:12,530 --> 00:49:10,260

and they're invisible you know for

1397

00:49:14,870 --> 00:49:12,540

whatever reason I mean there could be

1398

00:49:17,329 --> 00:49:14,880

like literally millions of these things

1399

00:49:19,309 --> 00:49:17,339

on the earth you know if you look in how

1400

00:49:21,050 --> 00:49:19,319

many objects are in orbit right now if

1401  
00:49:23,390 --> 00:49:21,060  
you look at how much junk and trash do

1402  
00:49:25,849 --> 00:49:23,400  
we have in orbit there's like hundreds

1403  
00:49:28,309 --> 00:49:25,859  
of thousands of of objects up there yeah

1404  
00:49:30,730 --> 00:49:28,319  
you know the Earth is is a big place you

1405  
00:49:32,870 --> 00:49:30,740  
know we like to think that

1406  
00:49:34,309 --> 00:49:32,880  
that it's not right but you could have

1407  
00:49:35,450 --> 00:49:34,319  
you could literally have millions of

1408  
00:49:37,910 --> 00:49:35,460  
these objects

1409  
00:49:40,069 --> 00:49:37,920  
and you just have a very small

1410  
00:49:42,290 --> 00:49:40,079  
percentage of them that fails or crashes

1411  
00:49:45,109 --> 00:49:42,300  
or doesn't work or we're able to detect

1412  
00:49:46,970 --> 00:49:45,119  
just such a small percentage

1413  
00:49:48,950 --> 00:49:46,980

um that it that it comes out that way

1414

00:49:51,349 --> 00:49:48,960

you know

1415

00:49:52,849 --> 00:49:51,359

nah pretty cool I like that uh I want to

1416

00:49:54,890 --> 00:49:52,859

know Chris moving on very slightly

1417

00:49:56,630 --> 00:49:54,900

what's been some of the most compelling

1418

00:49:57,950 --> 00:49:56,640

evidence you've looked at over the last

1419

00:49:59,390 --> 00:49:57,960

year now you've put out a lot of videos

1420

00:50:01,490 --> 00:49:59,400

and I would encourage folks to go and

1421

00:50:02,870 --> 00:50:01,500

look at those is there anything though

1422

00:50:06,410 --> 00:50:02,880

that you've worked on that you've

1423

00:50:11,329 --> 00:50:06,420

thought that that to you

1424

00:50:16,910 --> 00:50:15,290

oh man like a case or yeah I mean I

1425

00:50:18,589 --> 00:50:16,920

might be like the most alarm for example

1426

00:50:20,750 --> 00:50:18,599

where you think I would love more on

1427

00:50:23,690 --> 00:50:20,760

that that's the one or has it been one

1428

00:50:26,870 --> 00:50:23,700

of the pilot sightings or

1429

00:50:30,770 --> 00:50:26,880

I've been most surprised I guess by the

1430

00:50:34,670 --> 00:50:30,780

the amount of data

1431

00:50:36,530 --> 00:50:34,680

I guess proving or proclaiming to prove

1432

00:50:37,250 --> 00:50:36,540

that there is

1433

00:50:39,170 --> 00:50:37,260

um

1434

00:50:42,109 --> 00:50:39,180

telepathic communication

1435

00:50:44,329 --> 00:50:42,119

okay that's probably then the biggest I

1436

00:50:46,190 --> 00:50:44,339

guess surprise for me as far as the

1437

00:50:47,990 --> 00:50:46,200

Smoking Gun you know for me I try and

1438

00:50:50,170 --> 00:50:48,000

put out everything immediately you know

1439

00:50:52,370 --> 00:50:50,180

I don't like holding information at all

1440

00:50:55,130 --> 00:50:52,380

I don't know why if it's like an

1441

00:50:57,530 --> 00:50:55,140

excitement to try and publish it or not

1442

00:51:00,109 --> 00:50:57,540

um so I don't have anything really that

1443

00:51:01,910 --> 00:51:00,119

I'm not you could watch my channel and

1444

00:51:03,530 --> 00:51:01,920

basically you would have kind of an

1445

00:51:04,670 --> 00:51:03,540

understanding of all the things I'm

1446

00:51:06,290 --> 00:51:04,680

looking at

1447

00:51:09,290 --> 00:51:06,300

the thing that's probably surprised me

1448

00:51:12,230 --> 00:51:09,300

the most though is this from Dean Raiden

1449

00:51:13,670 --> 00:51:12,240

he has done all these apparent

1450

00:51:15,470 --> 00:51:13,680

scientific

1451

00:51:17,089 --> 00:51:15,480

experiments right everybody's asking

1452

00:51:18,410 --> 00:51:17,099

where's the data where's the data well

1453

00:51:20,750 --> 00:51:18,420

he's this guy's done all these

1454

00:51:23,930 --> 00:51:20,760

scientific experiments Dean Rayden has

1455

00:51:27,130 --> 00:51:23,940

done them uh according to him proving

1456

00:51:30,770 --> 00:51:27,140

this non-locality so basically

1457

00:51:33,470 --> 00:51:30,780

telepathic uh effects specifically on

1458

00:51:37,069 --> 00:51:33,480

the double set experiment

1459

00:51:39,530 --> 00:51:37,079

and for me if if that's true I mean I

1460

00:51:40,849 --> 00:51:39,540

think that would just blow blow our

1461

00:51:43,609 --> 00:51:40,859

current understanding of physics out of

1462

00:51:45,470 --> 00:51:43,619

the water can you explain that you

1463

00:51:46,910 --> 00:51:45,480

mentioned double experiment is that the

1464

00:51:49,130 --> 00:51:46,920

one that I've seen the picture or the

1465

00:51:52,790 --> 00:51:49,140

graphic where you're looking at the two

1466

00:51:54,770 --> 00:51:52,800

lines yeah yeah but yeah can you explain

1467

00:51:56,690 --> 00:51:54,780

that because an idiot like me sees it

1468

00:51:59,390 --> 00:51:56,700

and goes I think I've got a rough idea

1469

00:52:01,370 --> 00:51:59,400

what's going on but dumb it down for me

1470

00:52:04,190 --> 00:52:01,380

I'm I don't know if anyone can explain

1471

00:52:05,930 --> 00:52:04,200

it you know but I will say it comes from

1472

00:52:08,809 --> 00:52:05,940

the double experiment that was Thomas

1473

00:52:11,049 --> 00:52:08,819

Young in in 1809

1474

00:52:13,250 --> 00:52:11,059

so I guess the biggest

1475

00:52:15,470 --> 00:52:13,260

evidence I can point to is that it's

1476

00:52:16,609 --> 00:52:15,480

been over 200 years since this

1477

00:52:18,770 --> 00:52:16,619

experiment

1478

00:52:21,170 --> 00:52:18,780

and the scientists are still talking

1479

00:52:23,870 --> 00:52:21,180

about it on different on opposing sides

1480

00:52:26,030 --> 00:52:23,880

right you can go you can you can look uh

1481

00:52:28,130 --> 00:52:26,040

on YouTube

1482

00:52:31,849 --> 00:52:28,140

um and you'll find YouTubers saying that

1483

00:52:34,549 --> 00:52:31,859

the double slit experiment is is is not

1484

00:52:36,530 --> 00:52:34,559

there's there's no they're there right

1485

00:52:39,349 --> 00:52:36,540

it's explained it's obviously explained

1486

00:52:41,450 --> 00:52:39,359

and then you can find on the same in the

1487

00:52:43,490 --> 00:52:41,460

same area the opposite explanation that

1488

00:52:46,309 --> 00:52:43,500

the double slit is mind-bending and it

1489

00:52:48,170 --> 00:52:46,319

proves non-locality right so the biggest

1490

00:52:50,210 --> 00:52:48,180

thing I would suggest is over 200 years

1491

00:52:52,309 --> 00:52:50,220

they're still talking about it okay and

1492

00:52:54,829 --> 00:52:52,319

so that should give some sort of idea

1493

00:52:56,690 --> 00:52:54,839

that that there is something there so as

1494

00:52:59,870 --> 00:52:56,700

far as the actual experiment that Dean

1495

00:53:02,809 --> 00:52:59,880

raden did is the double slit experiment

1496

00:53:05,329 --> 00:53:02,819

uh is is basically when you shine a

1497

00:53:07,309 --> 00:53:05,339

light through a hole okay when you shine

1498

00:53:09,470 --> 00:53:07,319

a light through a hole what we found is

1499

00:53:12,470 --> 00:53:09,480

it acts like water so the same thing is

1500

00:53:15,049 --> 00:53:12,480

if you know in a pool waves around a

1501  
00:53:17,450 --> 00:53:15,059  
pool if you have a little hole in a pool

1502  
00:53:19,609 --> 00:53:17,460  
and you and you put it you Splash on one

1503  
00:53:23,030 --> 00:53:19,619  
side right it'll you'll have a a pattern

1504  
00:53:25,370 --> 00:53:23,040  
go out you know and waves

1505  
00:53:27,589 --> 00:53:25,380  
proving that shows that water at least

1506  
00:53:30,170 --> 00:53:27,599  
when you impact it acts like a wave like

1507  
00:53:31,849 --> 00:53:30,180  
a compression wave and so the same thing

1508  
00:53:34,250 --> 00:53:31,859  
happens with light and they were very

1509  
00:53:36,890 --> 00:53:34,260  
very surprised right to find that light

1510  
00:53:38,809 --> 00:53:36,900  
actually works as a wave because if if

1511  
00:53:41,329 --> 00:53:38,819  
it's acting as a wave then you have to

1512  
00:53:44,150 --> 00:53:41,339  
ask well what is it what is waving

1513  
00:53:46,250 --> 00:53:44,160

right what is wavy because in water I

1514

00:53:48,589 --> 00:53:46,260

hit the water right the water is itself

1515

00:53:50,270 --> 00:53:48,599

waving right yeah so that makes simple

1516

00:53:52,069 --> 00:53:50,280

sense to me okay when they did the same

1517

00:53:53,329 --> 00:53:52,079

thing with light they shine light

1518

00:53:55,250 --> 00:53:53,339

through

1519

00:53:58,069 --> 00:53:55,260

what they notice is the light itself is

1520

00:53:59,750 --> 00:53:58,079

waving in in the question and I think it

1521

00:54:01,849 --> 00:53:59,760

still is not answered is what is it

1522

00:54:04,670 --> 00:54:01,859

waving through like what is physically

1523

00:54:07,250 --> 00:54:04,680

moving up and down right if it's if it's

1524

00:54:08,870 --> 00:54:07,260

uh the light so outside and why is it

1525

00:54:10,790 --> 00:54:08,880

not just going in a straight line

1526

00:54:13,549 --> 00:54:10,800

yes yeah okay

1527

00:54:14,990 --> 00:54:13,559

exactly and so that's the two so if it

1528

00:54:16,670 --> 00:54:15,000

goes in a straight line and they're able

1529

00:54:17,870 --> 00:54:16,680

to measure this it behaves like a

1530

00:54:20,270 --> 00:54:17,880

particle

1531

00:54:20,990 --> 00:54:20,280

like a bullet you know so they shoot the

1532

00:54:23,870 --> 00:54:21,000

light

1533

00:54:25,670 --> 00:54:23,880

imagine a little hole here if it behaves

1534

00:54:27,170 --> 00:54:25,680

like a particle it'll go straight and

1535

00:54:29,329 --> 00:54:27,180

hit right in the front you know right

1536

00:54:31,730 --> 00:54:29,339

where you aim you know

1537

00:54:33,950 --> 00:54:31,740

the problem is and that's when you when

1538

00:54:36,470 --> 00:54:33,960

you look okay but when you don't look

1539

00:54:38,089 --> 00:54:36,480

when you're not looking and you Shine

1540

00:54:40,010 --> 00:54:38,099

the Light it just acts like a normal

1541

00:54:42,770 --> 00:54:40,020

wave and so what you'll get on the wall

1542

00:54:44,569 --> 00:54:42,780

is a wave pattern it'll look like water

1543

00:54:46,910 --> 00:54:44,579

hitting a wave rather than a little

1544

00:54:49,370 --> 00:54:46,920

bullet hitting the wall

1545

00:54:51,109 --> 00:54:49,380

and that's it so the what's freaking out

1546

00:54:52,549 --> 00:54:51,119

everybody and it again they haven't

1547

00:54:54,049 --> 00:54:52,559

answered it and they keep saying they

1548

00:54:56,990 --> 00:54:54,059

answered it but they haven't for 200

1549

00:54:59,390 --> 00:54:57,000

years is that when you watch it

1550

00:55:01,790 --> 00:54:59,400

when you watch it that bullet hits the

1551  
00:55:03,290 --> 00:55:01,800  
wall and when you're not watching it it

1552  
00:55:05,210 --> 00:55:03,300  
doesn't it acts like a way it's like

1553  
00:55:07,970 --> 00:55:05,220  
it's saving energy like the system it's

1554  
00:55:09,770 --> 00:55:07,980  
like in a video game you know uh if

1555  
00:55:11,930 --> 00:55:09,780  
you're in a mass video game

1556  
00:55:13,430 --> 00:55:11,940  
uh and you look say you turn and you're

1557  
00:55:15,290 --> 00:55:13,440  
looking in the distance it takes a while

1558  
00:55:16,609 --> 00:55:15,300  
for that to render right you'll see it's

1559  
00:55:19,490 --> 00:55:16,619  
kind of blurry at the beginning but then

1560  
00:55:21,049 --> 00:55:19,500  
it goes high def yeah right because your

1561  
00:55:23,690 --> 00:55:21,059  
computer is only rendering what you're

1562  
00:55:25,430 --> 00:55:23,700  
looking at because it has to use all

1563  
00:55:27,530 --> 00:55:25,440

that processing so when it looks over

1564

00:55:29,329 --> 00:55:27,540

here it's like okay it hasn't rendered

1565

00:55:30,290 --> 00:55:29,339

yet and then it fills in and that's kind

1566

00:55:32,630 --> 00:55:30,300

of what we're seeing with the double

1567

00:55:35,690 --> 00:55:32,640

slit experiment is that if we don't look

1568

00:55:37,670 --> 00:55:35,700

over there it's a wave but when we now

1569

00:55:40,069 --> 00:55:37,680

when we look it renders in it fills in

1570

00:55:41,450 --> 00:55:40,079

and goes to a specific point and behaves

1571

00:55:44,210 --> 00:55:41,460

like a particle

1572

00:55:46,849 --> 00:55:44,220

and and what's even one step ahead of

1573

00:55:48,290 --> 00:55:46,859

that is Dean Rayden what he found is you

1574

00:55:51,109 --> 00:55:48,300

don't even have to look with your eyes

1575

00:55:54,049 --> 00:55:51,119

if he he got meditators these guys who

1576  
00:55:56,510 --> 00:55:54,059  
were just good at meditating and if they

1577  
00:55:59,030 --> 00:55:56,520  
just think about it right he was he he

1578  
00:56:00,829 --> 00:55:59,040  
says proven if you just think about it

1579  
00:56:02,630 --> 00:56:00,839  
it will render

1580  
00:56:04,609 --> 00:56:02,640  
it's like you're looking at it and it

1581  
00:56:07,549 --> 00:56:04,619  
doesn't matter how far away it is

1582  
00:56:08,990 --> 00:56:07,559  
it doesn't matter when it happened

1583  
00:56:10,910 --> 00:56:09,000  
so it's

1584  
00:56:12,829 --> 00:56:10,920  
that's the biggest surprise to me is

1585  
00:56:15,890 --> 00:56:12,839  
that we have evidence

1586  
00:56:19,790 --> 00:56:15,900  
that space and time can be bypassed

1587  
00:56:22,010 --> 00:56:19,800  
simply by mental uh processes

1588  
00:56:24,349 --> 00:56:22,020

and if that's true

1589

00:56:26,690 --> 00:56:24,359

then it means it opens up the venue on

1590

00:56:27,710 --> 00:56:26,700

what this UAP phenomena could be right

1591

00:56:30,109 --> 00:56:27,720

because

1592

00:56:32,690 --> 00:56:30,119

if I can think about something anywhere

1593

00:56:34,849 --> 00:56:32,700

in the universe and affect it

1594

00:56:36,890 --> 00:56:34,859

then theoretically you could have anyone

1595

00:56:40,309 --> 00:56:36,900

in the universe or anything thinking

1596

00:56:43,609 --> 00:56:40,319

about us right and somehow affecting us

1597

00:56:45,650 --> 00:56:43,619

so it means there could be a reverse

1598

00:56:48,049 --> 00:56:45,660

um and so that would be like the woo you

1599

00:56:49,309 --> 00:56:48,059

know because I keep hitting against I'm

1600

00:56:51,109 --> 00:56:49,319

nuts and balls I came from nuts and

1601  
00:56:52,849 --> 00:56:51,119  
bolts world

1602  
00:56:55,370 --> 00:56:52,859  
um but it's just the Woo is there you

1603  
00:56:57,410 --> 00:56:55,380  
know it's like this big gorilla like

1604  
00:57:01,849 --> 00:56:57,420  
this weird looking

1605  
00:57:03,650 --> 00:57:01,859  
you know a Bigfoot gorilla that's a nice

1606  
00:57:05,450 --> 00:57:03,660  
little segue

1607  
00:57:07,609 --> 00:57:05,460  
um but I was going to say Chris we've

1608  
00:57:09,049 --> 00:57:07,619  
started vetting up some books and it's

1609  
00:57:11,589 --> 00:57:09,059  
kind of gone up and up and up and got

1610  
00:57:14,210 --> 00:57:11,599  
into spheres and orbs and

1611  
00:57:16,609 --> 00:57:14,220  
non-localities and I was going to ask

1612  
00:57:18,950 --> 00:57:16,619  
you before we come back down to UFO

1613  
00:57:20,450 --> 00:57:18,960

reports and whistleblowers while we're

1614

00:57:22,790 --> 00:57:20,460

at the peak of the mountain you've done

1615

00:57:25,370 --> 00:57:22,800

some work uh on your YouTube channel on

1616

00:57:26,870 --> 00:57:25,380

the Mount Wilson Ranch and I noticed

1617

00:57:29,150 --> 00:57:26,880

that in one of the videos you actually

1618

00:57:31,490 --> 00:57:29,160

called out very fairly that you you lost

1619

00:57:32,450 --> 00:57:31,500

some viewers some subscribers not a

1620

00:57:34,730 --> 00:57:32,460

whole lot but you know there were some

1621

00:57:36,589 --> 00:57:34,740

people who didn't like that you were

1622

00:57:38,750 --> 00:57:36,599

going in that direction with that

1623

00:57:41,150 --> 00:57:38,760

particular chat uh because it was too

1624

00:57:43,010 --> 00:57:41,160

War so maybe that's your more nuts and

1625

00:57:44,750 --> 00:57:43,020

bolts Aviation enthusiasts who are

1626  
00:57:47,030 --> 00:57:44,760  
dipping their toe in the UFO water in

1627  
00:57:48,950 --> 00:57:47,040  
the sea well this is just a step too far

1628  
00:57:50,930 --> 00:57:48,960  
but can you tell us a little bit about

1629  
00:57:52,309 --> 00:57:50,940  
the Mount Wilson Ranch and the work

1630  
00:57:54,410 --> 00:57:52,319  
you've done there and what's ongoing

1631  
00:57:55,549 --> 00:57:54,420  
with it yeah definitely thanks for

1632  
00:57:58,790 --> 00:57:55,559  
asking

1633  
00:58:00,710 --> 00:57:58,800  
um so Coral Vibe I met him at uh blind

1634  
00:58:02,750 --> 00:58:00,720  
frog ranch when I went there for UFO

1635  
00:58:05,329 --> 00:58:02,760  
disclosure so we went

1636  
00:58:07,370 --> 00:58:05,339  
um and they let Carl Vibe all over that

1637  
00:58:08,510 --> 00:58:07,380  
blind frog Ranch and he wasn't really

1638  
00:58:11,569 --> 00:58:08,520

impressed he didn't think there was

1639

00:58:13,069 --> 00:58:11,579

anything there to to really investigate

1640

00:58:15,470 --> 00:58:13,079

um but he did think there was something

1641

00:58:17,349 --> 00:58:15,480

at Mount Wilson Ranch and so this is

1642

00:58:20,329 --> 00:58:17,359

Mount Wilson Ranch it was bought by

1643

00:58:21,589 --> 00:58:20,339

Bigelow so Bob Bigelow purchased it

1644

00:58:24,049 --> 00:58:21,599

around the same time he purchased

1645

00:58:26,690 --> 00:58:24,059

Skinwalker Ranch and so Skinwalker Ranch

1646

00:58:31,250 --> 00:58:26,700

is well known that's where they had all

1647

00:58:33,349 --> 00:58:31,260

the uh the ASAP programs going but he

1648

00:58:35,270 --> 00:58:33,359

also had Mount Wilson Ranch

1649

00:58:37,130 --> 00:58:35,280

and they invited the same team so we

1650

00:58:40,430 --> 00:58:37,140

have pictures Carl has pictures there's

1651  
00:58:43,069 --> 00:58:40,440  
also pictures in Jacques valet's book on

1652  
00:58:45,770 --> 00:58:43,079  
them in Mount Wilson Ranch so Eric Davis

1653  
00:58:47,630 --> 00:58:45,780  
you know Hal putoff Bob Bigelow that

1654  
00:58:49,670 --> 00:58:47,640  
whole team the nids team

1655  
00:58:51,770 --> 00:58:49,680  
did for some reason thought it was

1656  
00:58:53,270 --> 00:58:51,780  
interesting you know so that alone makes

1657  
00:58:55,670 --> 00:58:53,280  
it made it interesting

1658  
00:58:58,130 --> 00:58:55,680  
um for me second thing is there's a lot

1659  
00:59:00,470 --> 00:58:58,140  
of Shaman crazy stories you know your

1660  
00:59:03,289 --> 00:59:00,480  
woo stories just pervade that whole area

1661  
00:59:06,490 --> 00:59:03,299  
you know which is also interesting and

1662  
00:59:09,950 --> 00:59:06,500  
then finally is we we partnered with sky

1663  
00:59:12,170 --> 00:59:09,960

360. and so their camera systems are

1664

00:59:13,730 --> 00:59:12,180

almost ready I I just saw I'm I'm

1665

00:59:16,430 --> 00:59:13,740

editing a video now with one of the

1666

00:59:19,190 --> 00:59:16,440

developers but the tracking system works

1667

00:59:20,990 --> 00:59:19,200

so they use chat GPT and it just

1668

00:59:24,049 --> 00:59:21,000

accelerated our coding right because he

1669

00:59:26,030 --> 00:59:24,059

he can just tell chappy T or ask it to

1670

00:59:28,190 --> 00:59:26,040

um code these things these tools that

1671

00:59:30,170 --> 00:59:28,200

they need and so it works now so the

1672

00:59:32,030 --> 00:59:30,180

object tracking software is working uh

1673

00:59:34,609 --> 00:59:32,040

the hardware has been finalized so I

1674

00:59:36,770 --> 00:59:34,619

think we'll be ready to go back this

1675

00:59:40,730 --> 00:59:36,780

spring and I want to put three systems

1676

00:59:42,349 --> 00:59:40,740

in in a triangle of the sky 360 uh Sky

1677

00:59:44,630 --> 00:59:42,359

searching systems

1678

00:59:46,609 --> 00:59:44,640

and get them up and running and I hope

1679

00:59:48,349 --> 00:59:46,619

to just have them streaming as best we

1680

00:59:50,930 --> 00:59:48,359

can so that's the whole idea of Mount

1681

00:59:53,510 --> 00:59:50,940

Wilson Ranch it's exciting there it's

1682

00:59:54,829 --> 00:59:53,520

definitely an exciting place there's

1683

00:59:56,750 --> 00:59:54,839

I think you'll hear about it in the

1684

00:59:58,970 --> 00:59:56,760

future what are you hoping to see though

1685

01:00:00,289 --> 00:59:58,980

are you hoping to find some artists can

1686

01:00:02,270 --> 01:00:00,299

walk around should be here there's the

1687

01:00:05,210 --> 01:00:02,280

activity in the sky we hear about the

1688

01:00:08,150 --> 01:00:05,220

activity on the ranch portals opening up

1689

01:00:11,690 --> 01:00:08,160

dire wolves cattle being moved from one

1690

01:00:14,329 --> 01:00:11,700

location to like inside small cabins and

1691

01:00:16,490 --> 01:00:14,339

then bursting out in catatonic steps is

1692

01:00:18,109 --> 01:00:16,500

that all the same type of activity that

1693

01:00:20,990 --> 01:00:18,119

you're hoping and expecting to find at

1694

01:00:26,990 --> 01:00:23,390

yeah I hope to find anything anomalous I

1695

01:00:29,150 --> 01:00:27,000

mean for me personally is it's at 8 000

1696

01:00:31,370 --> 01:00:29,160

feet so Mount Wilson there's an

1697

01:00:32,990 --> 01:00:31,380

observatory right right nearby

1698

01:00:35,210 --> 01:00:33,000

because it has clear skies you know it's

1699

01:00:36,829 --> 01:00:35,220

in Nevada has super clear skies it up

1700

01:00:39,470 --> 01:00:36,839

it's up at eight out eight thousand feet

1701

01:00:41,210 --> 01:00:39,480

and then it's I think 60 miles from Area

1702

01:00:43,730 --> 01:00:41,220

51

1703

01:00:44,990 --> 01:00:43,740

so for me is it's a interesting location

1704

01:00:47,510 --> 01:00:45,000

where

1705

01:00:50,329 --> 01:00:47,520

other investigators are going you know

1706

01:00:52,670 --> 01:00:50,339

so UAP Society the idea was to make a

1707

01:00:55,130 --> 01:00:52,680

formal integration so use web3

1708

01:00:57,109 --> 01:00:55,140

technology but get these people like

1709

01:01:00,109 --> 01:00:57,119

Carl Carl's perfect man he's a UAP

1710

01:01:02,450 --> 01:01:00,119

Society basically founding member and so

1711

01:01:05,750 --> 01:01:02,460

what he did is he found Mount Wilson

1712

01:01:07,609 --> 01:01:05,760

uh he convinced me at least that it's

1713

01:01:09,289 --> 01:01:07,619

that it's an interesting place and then

1714

01:01:11,089 --> 01:01:09,299

he worked with the owner Jeff McBurney

1715

01:01:12,170 --> 01:01:11,099

and so now we can make a headquarters

1716

01:01:14,390 --> 01:01:12,180

there

1717

01:01:17,690 --> 01:01:14,400

so for me is setting up a permanent

1718

01:01:19,849 --> 01:01:17,700

research station so my own interest is

1719

01:01:22,309 --> 01:01:19,859

in the sky so looking to these Sky 360

1720

01:01:24,230 --> 01:01:22,319

systems but I I mean also I'm very

1721

01:01:26,210 --> 01:01:24,240

interested in these other kind of

1722

01:01:27,530 --> 01:01:26,220

aspects you talked about you know the

1723

01:01:28,730 --> 01:01:27,540

the weird

1724

01:01:31,250 --> 01:01:28,740

um

1725

01:01:34,130 --> 01:01:31,260

mental aspects could there be some sort

1726  
01:01:37,010 --> 01:01:34,140  
of telepathic communication you know

1727  
01:01:39,049 --> 01:01:37,020  
through time through space I it sounds

1728  
01:01:41,510 --> 01:01:39,059  
ridiculous you know a year ago I would

1729  
01:01:43,730 --> 01:01:41,520  
have said that's ridiculous to myself

1730  
01:01:45,829 --> 01:01:43,740  
right but you said you ask him what's

1731  
01:01:48,109 --> 01:01:45,839  
the biggest thing that changed and

1732  
01:01:51,049 --> 01:01:48,119  
surprising is that I I would consider

1733  
01:01:53,329 --> 01:01:51,059  
that possible right we have scientists

1734  
01:01:55,370 --> 01:01:53,339  
saying here's the evidence it's possible

1735  
01:01:57,589 --> 01:01:55,380  
he has more science he has a

1736  
01:01:58,970 --> 01:01:57,599  
uh it's like a mass double slit

1737  
01:02:00,289 --> 01:01:58,980  
experiment coming out this year he's

1738  
01:02:03,470 --> 01:02:00,299

building his own little technical

1739

01:02:05,630 --> 01:02:03,480

devices that's Dean Raiden so we should

1740

01:02:08,089 --> 01:02:05,640

see more evidence of this

1741

01:02:10,609 --> 01:02:08,099

space and time not being local Mental

1742

01:02:12,470 --> 01:02:10,619

effects at the same time at Mount Wilson

1743

01:02:13,910 --> 01:02:12,480

Ranch you have Carl Vibe who's gone

1744

01:02:16,849 --> 01:02:13,920

through the Gateway program so he's

1745

01:02:19,609 --> 01:02:16,859

basically studied the cias uh mental

1746

01:02:21,370 --> 01:02:19,619

Gateway program I think from

1747

01:02:24,890 --> 01:02:21,380

uh

1748

01:02:27,410 --> 01:02:24,900

the 70s it's actually been changed now

1749

01:02:29,809 --> 01:02:27,420

so he's been doing all the hardcore

1750

01:02:31,849 --> 01:02:29,819

meditation going to the end you know

1751

01:02:33,289 --> 01:02:31,859

solving it to the end I think that's

1752

01:02:35,150 --> 01:02:33,299

what I don't want to do I don't want to

1753

01:02:37,490 --> 01:02:35,160

spread myself too thin and maybe that's

1754

01:02:38,569 --> 01:02:37,500

what the audience is thinking and for

1755

01:02:41,750 --> 01:02:38,579

good reason

1756

01:02:43,549 --> 01:02:41,760

is I want to investigate these these

1757

01:02:45,530 --> 01:02:43,559

threads if you will these interesting

1758

01:02:47,690 --> 01:02:45,540

threads but I want to investigate them

1759

01:02:49,190 --> 01:02:47,700

all the way to the end right I want to

1760

01:02:51,530 --> 01:02:49,200

get to an end where there's an end and

1761

01:02:53,870 --> 01:02:51,540

we can be like nope you know like that's

1762

01:02:55,789 --> 01:02:53,880

off the list because I think

1763

01:02:57,710 --> 01:02:55,799

up until now we don't you know I think a

1764

01:02:59,390 --> 01:02:57,720

lot of people just dabble you know I

1765

01:03:01,569 --> 01:02:59,400

don't want to dabble in the loo you know

1766

01:03:04,430 --> 01:03:01,579

I want to get into the woo I want to

1767

01:03:06,349 --> 01:03:04,440

gather the mud of the wool dig through

1768

01:03:07,730 --> 01:03:06,359

it and find something real and chop its

1769

01:03:08,750 --> 01:03:07,740

head off you know that's what I want to

1770

01:03:17,990 --> 01:03:08,760

do

1771

01:03:20,030 --> 01:03:18,000

long term serious and so that's that's

1772

01:03:21,049 --> 01:03:20,040

what I'm aiming to to aim for the woo

1773

01:03:22,970 --> 01:03:21,059

and that's what I'm aiming for Mount

1774

01:03:25,250 --> 01:03:22,980

Wilson is to set up set up a nuts and

1775

01:03:27,170 --> 01:03:25,260

bolts operation but it's at the place

1776

01:03:28,849 --> 01:03:27,180

where all the supposed Wu happens as

1777

01:03:30,950 --> 01:03:28,859

well so we'll be there with the cameras

1778

01:03:33,349 --> 01:03:30,960

if anything we'll video it and so that

1779

01:03:36,349 --> 01:03:33,359

that's the main goal I get that though

1780

01:03:38,630 --> 01:03:36,359

with people who have a strong

1781

01:03:40,370 --> 01:03:38,640

disdain or dislike for one side of the

1782

01:03:42,109 --> 01:03:40,380

UFO topic or the other where they're

1783

01:03:45,109 --> 01:03:42,119

very nuts and bolts and they hate the

1784

01:03:46,549 --> 01:03:45,119

were or they're very much more worse

1785

01:03:48,109 --> 01:03:46,559

spiritual whatever you want to call it

1786

01:03:50,210 --> 01:03:48,119

not in a bad way but that's you know

1787

01:03:52,309 --> 01:03:50,220

that that sort of area and they're much

1788

01:03:53,690 --> 01:03:52,319

less nuts and bolts because I've I've

1789

01:03:56,210 --> 01:03:53,700

got the same thing sometimes I'll

1790

01:03:57,650 --> 01:03:56,220

mention oh like guilty pleasures I

1791

01:03:59,690 --> 01:03:57,660

remember I used to watch YouTube videos

1792

01:04:01,309 --> 01:03:59,700

about Andrew basiajo and he would talk

1793

01:04:03,349 --> 01:04:01,319

about being part of the Mars JUMP

1794

01:04:06,349 --> 01:04:03,359

program apparently with President Obama

1795

01:04:08,809 --> 01:04:06,359

and as kids they would go and it was

1796

01:04:10,789 --> 01:04:08,819

crazy but you know just to let your

1797

01:04:13,069 --> 01:04:10,799

imagination go I wonder same talking

1798

01:04:14,990 --> 01:04:13,079

about you know other alien bases out in

1799

01:04:16,609 --> 01:04:15,000

Antarctica and there's some folks who

1800

01:04:18,170 --> 01:04:16,619

just have no interest or time for that

1801  
01:04:20,270 --> 01:04:18,180  
maybe some of the lindemolton house

1802  
01:04:22,069 --> 01:04:20,280  
stuff that she goes into where you know

1803  
01:04:24,349 --> 01:04:22,079  
I've got this anonymous source and here

1804  
01:04:26,210 --> 01:04:24,359  
it's a a 50-page monologue from them

1805  
01:04:28,849 --> 01:04:26,220  
about where they they fought aliens

1806  
01:04:30,470 --> 01:04:28,859  
under the ice in Antarctica and there's

1807  
01:04:31,910 --> 01:04:30,480  
people who love that but then there's

1808  
01:04:33,650 --> 01:04:31,920  
people who are like no what's going on

1809  
01:04:35,150 --> 01:04:33,660  
with U.S Congress you know what

1810  
01:04:37,490 --> 01:04:35,160  
politicians right now are talking about

1811  
01:04:39,109 --> 01:04:37,500  
the UFO subject what's happening with

1812  
01:04:40,910 --> 01:04:39,119  
the Navy right now what are they seeing

1813  
01:04:42,289 --> 01:04:40,920

and that's their stuff and it's like you

1814

01:04:44,450 --> 01:04:42,299

say there's people like yourself who

1815

01:04:46,190 --> 01:04:44,460

you're finding more of an interest in

1816

01:04:47,750 --> 01:04:46,200

the kind of wider aspects of it and

1817

01:04:49,250 --> 01:04:47,760

there's something for everyone in the

1818

01:04:50,450 --> 01:04:49,260

subject and I think you're playing it

1819

01:04:52,430 --> 01:04:50,460

off really well and whatever I've

1820

01:04:54,589 --> 01:04:52,440

watched of yours Chris

1821

01:04:56,510 --> 01:04:54,599

you're not getting ridiculous with it

1822

01:04:58,010 --> 01:04:56,520

and you're not completely throwing your

1823

01:05:00,049 --> 01:04:58,020

guns down and saying actually do you

1824

01:05:01,490 --> 01:05:00,059

know what what the Navy Tic Tacs blah

1825

01:05:02,990 --> 01:05:01,500

blah could be anything I'm really

1826

01:05:04,609 --> 01:05:03,000

interested in this stuff out here that I

1827

01:05:06,890 --> 01:05:04,619

can't do anything about can't see can't

1828

01:05:09,049 --> 01:05:06,900

prove you want to go and do the science

1829

01:05:11,510 --> 01:05:09,059

because as a science they are to be done

1830

01:05:13,490 --> 01:05:11,520

do the experiments do the work boots on

1831

01:05:14,870 --> 01:05:13,500

the ground research and I think there's

1832

01:05:16,849 --> 01:05:14,880

there's a big audience for that still

1833

01:05:18,349 --> 01:05:16,859

but I get where the oddpr thing goes nah

1834

01:05:20,210 --> 01:05:18,359

not for me

1835

01:05:22,010 --> 01:05:20,220

yeah the same and there's different

1836

01:05:24,170 --> 01:05:22,020

content and you know that's longer form

1837

01:05:27,049 --> 01:05:24,180

it's like Vlog content so I'm putting it

1838

01:05:28,910 --> 01:05:27,059

on uh the second Channel UAP Society

1839

01:05:31,609 --> 01:05:28,920

which is where it it deserves to be

1840

01:05:34,010 --> 01:05:31,619

anyway it's it's a UAP Society project

1841

01:05:35,930 --> 01:05:34,020

you know and the other thing I hope is

1842

01:05:39,829 --> 01:05:35,940

that it motivates people

1843

01:05:41,630 --> 01:05:39,839

to take part I just I don't like

1844

01:05:43,130 --> 01:05:41,640

sitting there and waiting for handouts

1845

01:05:45,530 --> 01:05:43,140

from the government

1846

01:05:47,270 --> 01:05:45,540

when it hasn't come for 80 years you

1847

01:05:49,069 --> 01:05:47,280

know like well

1848

01:05:51,170 --> 01:05:49,079

it's hard to not get our hopes up but

1849

01:05:52,309 --> 01:05:51,180

look at the past experience like there's

1850

01:05:54,109 --> 01:05:52,319

no way

1851  
01:05:57,410 --> 01:05:54,119  
we're going to get the information that

1852  
01:05:59,690 --> 01:05:57,420  
we want uh you know apart from

1853  
01:06:02,089 --> 01:05:59,700  
aliens appearing over every major city

1854  
01:06:03,950 --> 01:06:02,099  
and saying yes we are here

1855  
01:06:06,470 --> 01:06:03,960  
and obviously they haven't done it up

1856  
01:06:08,690 --> 01:06:06,480  
until now so if they exist there doesn't

1857  
01:06:09,950 --> 01:06:08,700  
appear to be any major benefit to them

1858  
01:06:11,210 --> 01:06:09,960  
doing that

1859  
01:06:13,250 --> 01:06:11,220  
so I don't think that's going to happen

1860  
01:06:14,990 --> 01:06:13,260  
so it'll be the government on it out of

1861  
01:06:16,670 --> 01:06:15,000  
its own good gracious

1862  
01:06:18,530 --> 01:06:16,680  
you know handing us the information I'd

1863  
01:06:20,030 --> 01:06:18,540

rather I want to pressure the government

1864

01:06:21,289 --> 01:06:20,040

to release the information but you

1865

01:06:24,710 --> 01:06:21,299

pressure it by

1866

01:06:26,150 --> 01:06:24,720

evidence right so if we find you know if

1867

01:06:28,670 --> 01:06:26,160

we have dedicated

1868

01:06:31,609 --> 01:06:28,680

videos from Mount Wilson Ranch you know

1869

01:06:32,870 --> 01:06:31,619

of a try system three cameras picking up

1870

01:06:34,250 --> 01:06:32,880

some orb

1871

01:06:35,690 --> 01:06:34,260

that puts a lot of pressure on the

1872

01:06:37,490 --> 01:06:35,700

government just by the quality of our

1873

01:06:39,950 --> 01:06:37,500

evidence right so now we can say look

1874

01:06:41,690 --> 01:06:39,960

this is what's flying over our skies

1875

01:06:44,150 --> 01:06:41,700

this is what's flying over America it's

1876

01:06:47,089 --> 01:06:44,160

not a Chinese it's not a Chinese space

1877

01:06:48,410 --> 01:06:47,099

balloon right it you can't identify this

1878

01:06:49,910 --> 01:06:48,420

that puts a lot of pressure on the

1879

01:06:51,529 --> 01:06:49,920

government and so that's my aim is not

1880

01:06:54,890 --> 01:06:51,539

to go and bang on the government's door

1881

01:06:58,849 --> 01:06:54,900

my aim is to go motivate the people

1882

01:07:01,849 --> 01:06:58,859

right Mass interest use web3 technology

1883

01:07:04,190 --> 01:07:01,859

to to swing for the fences right I don't

1884

01:07:06,289 --> 01:07:04,200

want some half-assed program I want it

1885

01:07:08,930 --> 01:07:06,299

to be Global worldwide I'm not just

1886

01:07:10,490 --> 01:07:08,940

aiming at the us we went web three we

1887

01:07:12,589 --> 01:07:10,500

went with ethereum because it's a Global

1888

01:07:14,870 --> 01:07:12,599

Network it takes you know no government

1889

01:07:15,950 --> 01:07:14,880

can needs to approve your ethereum

1890

01:07:17,690 --> 01:07:15,960

transaction

1891

01:07:19,730 --> 01:07:17,700

so that that's why we went we went

1892

01:07:21,650 --> 01:07:19,740

Global you know and I haven't mentioned

1893

01:07:23,390 --> 01:07:21,660

the web 3 stuff I I put it on the back

1894

01:07:25,370 --> 01:07:23,400

burner for now because people obviously

1895

01:07:26,930 --> 01:07:25,380

not ready for it but they're going to be

1896

01:07:28,430 --> 01:07:26,940

ready for it right this is like like

1897

01:07:30,289 --> 01:07:28,440

five years ago everybody's electric

1898

01:07:31,490 --> 01:07:30,299

vehicles not the way to go you look at

1899

01:07:33,890 --> 01:07:31,500

it now

1900

01:07:35,210 --> 01:07:33,900

ice cars are dead they're dead as of

1901

01:07:36,289 --> 01:07:35,220

this year everything's going to be

1902

01:07:37,609 --> 01:07:36,299

electric and you're going to see because

1903

01:07:40,130 --> 01:07:37,619

it's a better technology it's a

1904

01:07:40,970 --> 01:07:40,140

digitized technology it has one tenth of

1905

01:07:42,950 --> 01:07:40,980

the parts

1906

01:07:44,210 --> 01:07:42,960

it's the same thing this web3 technology

1907

01:07:45,230 --> 01:07:44,220

the stuff I'm not even going to mention

1908

01:07:47,089 --> 01:07:45,240

the n-word

1909

01:07:48,470 --> 01:07:47,099

the web 3 technology digital

1910

01:07:50,390 --> 01:07:48,480

collectibles

1911

01:07:52,730 --> 01:07:50,400

they're better you know they're faster

1912

01:07:54,170 --> 01:07:52,740

it's cheaper it's going to cut out a lot

1913

01:07:56,329 --> 01:07:54,180

of these middlemen that are just taking

1914

01:07:59,750 --> 01:07:56,339

your money for no and not providing any

1915

01:08:01,250 --> 01:07:59,760

actual value so for us UAP Society we're

1916

01:08:03,710 --> 01:08:01,260

doing the background work on the tech

1917

01:08:05,750 --> 01:08:03,720

now right I'm not advertising it because

1918

01:08:07,789 --> 01:08:05,760

people freak out when I advertise it but

1919

01:08:09,410 --> 01:08:07,799

we're building it and so I'm working on

1920

01:08:11,510 --> 01:08:09,420

weekends everything building that stuff

1921

01:08:13,250 --> 01:08:11,520

in the background for when people come

1922

01:08:15,710 --> 01:08:13,260

around okay they will come around it

1923

01:08:16,849 --> 01:08:15,720

will be the future without a doubt it's

1924

01:08:18,590 --> 01:08:16,859

going to be the future because it's

1925

01:08:20,329 --> 01:08:18,600

better it's cheaper it's faster I mean

1926

01:08:22,070 --> 01:08:20,339

it's so it's a new innovation so we'll

1927

01:08:23,329 --> 01:08:22,080

be there we're ready we'll be we'll be

1928

01:08:24,410 --> 01:08:23,339

the experts when people show up and

1929

01:08:26,570 --> 01:08:24,420

they'll be like have you heard about

1930

01:08:29,150 --> 01:08:26,580

this uh nft stuff and be like no we call

1931

01:08:30,950 --> 01:08:29,160

it digital Collectibles uh but we do we

1932

01:08:34,010 --> 01:08:30,960

will know it so that that's the idea and

1933

01:08:35,809 --> 01:08:34,020

then to use that aim it at the problem

1934

01:08:37,849 --> 01:08:35,819

but we're coming back down from the word

1935

01:08:40,189 --> 01:08:37,859

so let's get back into the kind of last

1936

01:08:41,990 --> 01:08:40,199

part of the the podcast the delayed UAP

1937

01:08:44,930 --> 01:08:42,000

report was due out on the 31st of

1938

01:08:47,390 --> 01:08:44,940

October 2023. uh what were your thoughts

1939

01:08:49,010 --> 01:08:47,400

on what actually came out uh and were

1940

01:08:50,510 --> 01:08:49,020

you surprised you know it was even

1941

01:08:52,490 --> 01:08:50,520

delayed in the first place for as long

1942

01:08:54,289 --> 01:08:52,500

as it was

1943

01:08:56,329 --> 01:08:54,299

yeah the report that came out was kind

1944

01:08:59,630 --> 01:08:56,339

of what I expected

1945

01:09:02,030 --> 01:08:59,640

it was so late it was surprising I was

1946

01:09:04,789 --> 01:09:02,040

quite surprised I mean that

1947

01:09:06,709 --> 01:09:04,799

yeah again and there was no real

1948

01:09:07,910 --> 01:09:06,719

nothing happened

1949

01:09:10,269 --> 01:09:07,920

you know

1950

01:09:12,769 --> 01:09:10,279

there's no late fee

1951

01:09:14,749 --> 01:09:12,779

there was nothing nothing happened to

1952

01:09:16,430 --> 01:09:14,759

them they're just like yeah we'll get

1953

01:09:18,590 --> 01:09:16,440

out this before whenever we want you

1954

01:09:21,530 --> 01:09:18,600

know it's just I don't know I was more

1955

01:09:23,510 --> 01:09:21,540

disappointed that it just wasn't taken

1956

01:09:26,570 --> 01:09:23,520

more serious you know like they couldn't

1957

01:09:28,249 --> 01:09:26,580

get that level of report I mean

1958

01:09:30,349 --> 01:09:28,259

yeah it's not like they gave any

1959

01:09:31,910 --> 01:09:30,359

breakthrough information right they had

1960

01:09:34,130 --> 01:09:31,920

to report the numbers there's actually a

1961

01:09:36,289 --> 01:09:34,140

lot of numbers they didn't even report

1962

01:09:38,630 --> 01:09:36,299

you know maybe they reported it to the

1963

01:09:40,789 --> 01:09:38,640

classified yeah uh to the classified but

1964

01:09:42,590 --> 01:09:40,799

there's a list you know in the in the

1965

01:09:45,470 --> 01:09:42,600

ndaa there's a list of what they're

1966

01:09:46,970 --> 01:09:45,480

required to report it in all of those

1967

01:09:48,110 --> 01:09:46,980

things were not in the report that came

1968

01:09:49,849 --> 01:09:48,120

out

1969

01:09:52,249 --> 01:09:49,859

so I mean all they gave us was the

1970

01:09:54,530 --> 01:09:52,259

numbers but they did give numbers and

1971

01:09:57,770 --> 01:09:54,540

like I said having higher numbers at

1972

01:09:59,270 --> 01:09:57,780

least is indicative of a system that's

1973

01:10:01,669 --> 01:09:59,280

getting information right at least

1974

01:10:03,830 --> 01:10:01,679

they're getting some data and it sounds

1975

01:10:04,970 --> 01:10:03,840

like that the mosul orb came from this

1976

01:10:06,590 --> 01:10:04,980

UAP

1977

01:10:08,990 --> 01:10:06,600

area you know it sounds like the Aero

1978

01:10:10,970 --> 01:10:09,000

office has this the Aero office the

1979

01:10:12,770 --> 01:10:10,980

arrow I mean don't put office in the

1980

01:10:15,350 --> 01:10:12,780

name of your yeah you know like that's

1981

01:10:18,470 --> 01:10:15,360

like pen number yeah what's your PIN

1982

01:10:20,570 --> 01:10:18,480

number number yeah yeah so they're all

1983

01:10:22,370 --> 01:10:20,580

all domain that that's great I'm glad

1984

01:10:25,850 --> 01:10:22,380

they made it all domain so that means

1985

01:10:28,910 --> 01:10:25,860

water space air great and it's still an

1986

01:10:30,590 --> 01:10:28,920

A so that's great all domain anomaly

1987

01:10:32,450 --> 01:10:30,600

resolution office

1988

01:10:34,490 --> 01:10:32,460

so Arrow that's a great name actually

1989

01:10:36,590 --> 01:10:34,500

just because it sounds good you know

1990

01:10:37,970 --> 01:10:36,600

sounds like it has a direction it sounds

1991

01:10:40,130 --> 01:10:37,980

quite cool the kids can get on board

1992

01:10:41,750 --> 01:10:40,140

with it on Tech talk yeah

1993

01:10:44,510 --> 01:10:41,760

so I guess that that's all I would say

1994

01:10:48,110 --> 01:10:44,520

is I was the report was as I thought it

1995

01:10:49,970 --> 01:10:48,120

would be I wasn't blown away either way

1996

01:10:52,189 --> 01:10:49,980

um but it was just so late I just

1997

01:10:54,410 --> 01:10:52,199

couldn't believe it though yeah I think

1998

01:10:55,669 --> 01:10:54,420

um Blockbuster took late fees more uh

1999

01:10:57,290 --> 01:10:55,679

seriously than than the government

2000

01:10:59,570 --> 01:10:57,300

seemed to but there'll be reasons for

2001

01:11:02,630 --> 01:10:59,580

that I am sure but I wonder then looking

2002

01:11:05,270 --> 01:11:02,640

more positively what do you hope we can

2003

01:11:07,970 --> 01:11:05,280

see in future reports because what I'll

2004

01:11:10,189 --> 01:11:07,980

and I hate to BS you know sympathetic to

2005

01:11:12,169 --> 01:11:10,199

it being so late and maybe it being as

2006

01:11:13,790 --> 01:11:12,179

lacking as it was but it was what I

2007

01:11:16,130 --> 01:11:13,800

expected as well

2008

01:11:18,470 --> 01:11:16,140

they've now had several changes of

2009

01:11:20,750 --> 01:11:18,480

office we've had you know aim song and

2010

01:11:22,370 --> 01:11:20,760

then arrow and we've had to change from

2011

01:11:25,250 --> 01:11:22,380

who originally was drafting the report

2012

01:11:27,410 --> 01:11:25,260

and then changed we've now got Dr Sean

2013

01:11:28,550 --> 01:11:27,420

Patrick in team who only had really a

2014

01:11:31,729 --> 01:11:28,560

couple of months to put it together

2015

01:11:33,830 --> 01:11:31,739

properly they now have had extra time

2016

01:11:37,010 --> 01:11:33,840

they had that initial delayed report

2017

01:11:39,770 --> 01:11:37,020

should we be expecting more from the

2018

01:11:41,450 --> 01:11:39,780

unclassified verses going forward or is

2019

01:11:44,870 --> 01:11:41,460

this just a standard we're going to see

2020

01:11:47,510 --> 01:11:44,880

from any unclassified report

2021

01:11:49,970 --> 01:11:47,520

I mean I I hope not because again if you

2022

01:11:51,530 --> 01:11:49,980

look into that what was required I mean

2023

01:11:52,850 --> 01:11:51,540

this first report I get it yeah it was a

2024

01:11:54,470 --> 01:11:52,860

couple months

2025

01:11:56,450 --> 01:11:54,480

all they had to do was get the numbers

2026

01:11:57,410 --> 01:11:56,460

out there and say some basic stuff which

2027

01:11:59,390 --> 01:11:57,420

is what they said we're starting

2028

01:12:00,830 --> 01:11:59,400

essentially I think they could have done

2029

01:12:02,990 --> 01:12:00,840

it on time

2030

01:12:05,209 --> 01:12:03,000

but no there should be a lot more so if

2031

01:12:08,030 --> 01:12:05,219

you look at what's required there should

2032

01:12:10,070 --> 01:12:08,040

be some analysis you know analysis of of

2033

01:12:12,649 --> 01:12:10,080

the unknowns is what I would like to see

2034

01:12:14,930 --> 01:12:12,659

is how many of these and for this report

2035

01:12:17,330 --> 01:12:14,940

they focused on what they knew right

2036

01:12:20,390 --> 01:12:17,340

they focus on well we've identified 53

2037

01:12:22,430 --> 01:12:20,400

you know 53 of the reports now I want to

2038

01:12:24,649 --> 01:12:22,440

see just on okay

2039

01:12:26,750 --> 01:12:24,659

what have we not identified you know and

2040

01:12:28,790 --> 01:12:26,760

then a breakout of what is identified of

2041

01:12:30,350 --> 01:12:28,800

course but then focusing on those

2042

01:12:32,270 --> 01:12:30,360

unidentifieds

2043

01:12:34,130 --> 01:12:32,280

yeah it's like going through an exam at

2044

01:12:37,010 --> 01:12:34,140

school and your teacher telling you look

2045

01:12:38,510 --> 01:12:37,020

30 of the exam you got wrong oh but I

2046

01:12:41,390 --> 01:12:38,520

passed you're dead yeah but there's 30

2047

01:12:42,649 --> 01:12:41,400

you failed yeah but 70 let's focus on

2048

01:12:44,270 --> 01:12:42,659

the good stuff and then I can work on

2049

01:12:46,189 --> 01:12:44,280

the rest and they've obviously done that

2050

01:12:48,110 --> 01:12:46,199

at the flip side so

2051

01:12:49,910 --> 01:12:48,120

the the numbers were also already

2052

01:12:51,890 --> 01:12:49,920

clearly available somewhere because

2053

01:12:55,430 --> 01:12:51,900

Julian Barnes wrote his New York Times

2054

01:12:57,890 --> 01:12:55,440

article now back in November I think

2055

01:13:00,290 --> 01:12:57,900

so he was privy to what those numbers

2056

01:13:02,390 --> 01:13:00,300

were going to be it just didn't then

2057

01:13:05,390 --> 01:13:02,400

come out and it's kind of full

2058

01:13:07,130 --> 01:13:05,400

full version until the till the January

2059

01:13:08,450 --> 01:13:07,140

I mean God I say this is the third of

2060

01:13:11,270 --> 01:13:08,460

February so it's only been out a couple

2061

01:13:12,890 --> 01:13:11,280

of weeks but for me I'm hopeful that you

2062

01:13:14,450 --> 01:13:12,900

see those future reports give us

2063

01:13:16,610 --> 01:13:14,460

something more and like you say it was

2064

01:13:18,530 --> 01:13:16,620

part of the requirements something else

2065

01:13:20,630 --> 01:13:18,540

that we're hopeful for this year and we

2066

01:13:23,030 --> 01:13:20,640

keep hearing we'll hear a lot in this

2067

01:13:26,630 --> 01:13:23,040

topic is that there will hopefully be

2068

01:13:28,490 --> 01:13:26,640

whistleblowers lining up to testify and

2069

01:13:31,070 --> 01:13:28,500

again Jeremy Corby I would George nap

2070

01:13:32,990 --> 01:13:31,080

and others have alluded to there are

2071

01:13:34,250 --> 01:13:33,000

people ready to go is that something you

2072

01:13:36,169 --> 01:13:34,260

have heard yourself from anyone you

2073

01:13:37,550 --> 01:13:36,179

talked to and again what what do you

2074

01:13:39,470 --> 01:13:37,560

hope could come from what subblowers

2075

01:13:41,450 --> 01:13:39,480

coming forward

2076

01:13:44,090 --> 01:13:41,460

I've tried to get more info on on

2077

01:13:46,790 --> 01:13:44,100

whistleblowers you know I know of

2078

01:13:49,130 --> 01:13:46,800

just a couple people in my network that

2079

01:13:50,870 --> 01:13:49,140

have been asked to go speak I don't know

2080

01:13:52,729 --> 01:13:50,880

if they're going to I hope I hope they

2081

01:13:58,550 --> 01:13:52,739

do

2082

01:14:00,649 --> 01:13:58,560

that the government trusts us

2083

01:14:03,110 --> 01:14:00,659

a little bit more you know it's it

2084

01:14:04,910 --> 01:14:03,120

doesn't need to be this we can't share

2085

01:14:07,070 --> 01:14:04,920

anything and and they don't know

2086

01:14:09,830 --> 01:14:07,080

everything right obviously they could

2087

01:14:11,209 --> 01:14:09,840

save a lot of time and effort by

2088

01:14:13,189 --> 01:14:11,219

throwing this information out to the

2089

01:14:16,130 --> 01:14:13,199

community and let us do the analysis

2090

01:14:18,890 --> 01:14:16,140

right you don't have the resources great

2091

01:14:20,450 --> 01:14:18,900

publish the information and guess who's

2092

01:14:22,910 --> 01:14:20,460

very interested in finding this stuff

2093

01:14:24,709 --> 01:14:22,920

out and analyzing it you know is the

2094

01:14:27,290 --> 01:14:24,719

community right so maybe they could also

2095

01:14:29,870 --> 01:14:27,300

consider the community as not just the

2096

01:14:31,910 --> 01:14:29,880

the enemy okay we're not just

2097

01:14:35,149 --> 01:14:31,920

they could also consider us as part of

2098

01:14:37,070 --> 01:14:35,159

the team right that we we want to find

2099

01:14:39,470 --> 01:14:37,080

the issue and I just went to the

2100

01:14:42,530 --> 01:14:39,480

European space conference that was last

2101  
01:14:44,209 --> 01:14:42,540  
last week EU space conference and the

2102  
01:14:46,610 --> 01:14:44,219  
big thing there is about this this

2103  
01:14:49,070 --> 01:14:46,620  
threat narrative again you know because

2104  
01:14:51,110 --> 01:14:49,080  
how do governments get people interested

2105  
01:14:53,990 --> 01:14:51,120  
how do governments get people involved

2106  
01:14:56,090 --> 01:14:54,000  
and it's usually through emotion you

2107  
01:14:57,950 --> 01:14:56,100  
know if you look at it and they're going

2108  
01:15:00,530 --> 01:14:57,960  
with the fear emotion because it's it's

2109  
01:15:01,669 --> 01:15:00,540  
the easiest okay yeah you Russia is

2110  
01:15:03,350 --> 01:15:01,679  
right there Russia is going to attack

2111  
01:15:05,990 --> 01:15:03,360  
Europe they they knock down our

2112  
01:15:08,990 --> 01:15:06,000  
satellite system this is a great fear

2113  
01:15:11,090 --> 01:15:09,000

tactic to get people talking about space

2114

01:15:13,250 --> 01:15:11,100

investing in space they even mentioned

2115

01:15:15,050 --> 01:15:13,260

it at the at the conference they said

2116

01:15:17,149 --> 01:15:15,060

hey fear is a great motivator great

2117

01:15:18,950 --> 01:15:17,159

emotion we need people interested

2118

01:15:21,050 --> 01:15:18,960

and I just think this is not the right

2119

01:15:23,750 --> 01:15:21,060

way to go okay we it doesn't need to be

2120

01:15:26,270 --> 01:15:23,760

a threat narrative I so I propose is

2121

01:15:28,610 --> 01:15:26,280

what about a collaborative narrative

2122

01:15:30,530 --> 01:15:28,620

okay we all want to know what this

2123

01:15:32,689 --> 01:15:30,540

unidentified area you know what these

2124

01:15:34,790 --> 01:15:32,699

anomalous objects are we all want to

2125

01:15:36,410 --> 01:15:34,800

know what the phenomena is every country

2126  
01:15:38,810 --> 01:15:36,420  
uh would like to know if you look in the

2127  
01:15:41,930 --> 01:15:38,820  
U.S it's bipartisan it's like the one

2128  
01:15:43,910 --> 01:15:41,940  
bipartisan kind of issue right where it

2129  
01:15:46,250 --> 01:15:43,920  
hasn't been taken over by the left or

2130  
01:15:48,110 --> 01:15:46,260  
the right so I think

2131  
01:15:50,270 --> 01:15:48,120  
I would hope they would consider it more

2132  
01:15:51,950 --> 01:15:50,280  
of a collaboration whereas look you're

2133  
01:15:52,790 --> 01:15:51,960  
in the government that I worked in the

2134  
01:15:55,250 --> 01:15:52,800  
government

2135  
01:15:58,189 --> 01:15:55,260  
but you want the best for the citizens

2136  
01:16:00,470 --> 01:15:58,199  
and the Earth ultimately right I as

2137  
01:16:03,229 --> 01:16:00,480  
Citizens as members of Earth I want the

2138  
01:16:04,370 --> 01:16:03,239

best as well why not consider us as part

2139

01:16:06,050 --> 01:16:04,380  
of the team so I think they could

2140

01:16:07,370 --> 01:16:06,060  
release a little bit more I mean they

2141

01:16:10,189 --> 01:16:07,380  
didn't release one

2142

01:16:12,950 --> 01:16:10,199  
out of those 563 or whatever reports it

2143

01:16:16,130 --> 01:16:12,960  
was they didn't release one freaking

2144

01:16:18,290 --> 01:16:16,140  
report you know nothing no data no

2145

01:16:20,510 --> 01:16:18,300  
information nothing they just set up

2146

01:16:23,209 --> 01:16:20,520  
there in their Ivory Tower they released

2147

01:16:25,250 --> 01:16:23,219  
their report two months late with no

2148

01:16:27,530 --> 01:16:25,260  
apologies or anything like here you go

2149

01:16:28,910 --> 01:16:27,540  
and they told us no information you know

2150

01:16:31,550 --> 01:16:28,920  
so I guess

2151

01:16:33,830 --> 01:16:31,560

another reason I just don't

2152

01:16:35,630 --> 01:16:33,840

they're not even kind of in my venue you

2153

01:16:37,310 --> 01:16:35,640

know I I look at it or research the

2154

01:16:39,470 --> 01:16:37,320

stuff they're at and I'm glad people

2155

01:16:41,030 --> 01:16:39,480

like Jeremy Corbell and them are out

2156

01:16:43,610 --> 01:16:41,040

there doing it because I'm not I'm not

2157

01:16:46,010 --> 01:16:43,620

going you know I'm like I said I want to

2158

01:16:48,410 --> 01:16:46,020

go build the systems put them out Mount

2159

01:16:50,450 --> 01:16:48,420

Wilson Ranch put it right under you know

2160

01:16:52,010 --> 01:16:50,460

put it out at Catalina Islands you know

2161

01:16:54,830 --> 01:16:52,020

put a camera right there all the hot

2162

01:16:56,810 --> 01:16:54,840

spots and then just post it online and

2163

01:16:59,030 --> 01:16:56,820

then you know text that link to the

2164

01:17:01,010 --> 01:16:59,040

government and be like here you go you

2165

01:17:02,630 --> 01:17:01,020

know like what about this you know

2166

01:17:04,490 --> 01:17:02,640

that's what I would rather show I would

2167

01:17:06,189 --> 01:17:04,500

rather show evidence and be like why

2168

01:17:08,330 --> 01:17:06,199

don't we look at this as a group

2169

01:17:10,430 --> 01:17:08,340

collaboratively you know can we work

2170

01:17:12,590 --> 01:17:10,440

together and I I presented that to the

2171

01:17:14,810 --> 01:17:12,600

European space conference and the direct

2172

01:17:17,750 --> 01:17:14,820

right to the esa director of Industry

2173

01:17:20,209 --> 01:17:17,760

that I just talked to him and man he was

2174

01:17:22,490 --> 01:17:20,219

not interested you know yeah it does

2175

01:17:24,229 --> 01:17:22,500

to them it's

2176

01:17:26,330 --> 01:17:24,239

it's something that couldn't possibly

2177

01:17:28,310 --> 01:17:26,340

happen if I don't

2178

01:17:31,550 --> 01:17:28,320

so and I think that's why it's important

2179

01:17:33,830 --> 01:17:31,560

groups like like UAP Society individuals

2180

01:17:35,570 --> 01:17:33,840

corporations whether it's the Galileo

2181

01:17:36,610 --> 01:17:35,580

project whether it's MoveOn I was

2182

01:17:38,810 --> 01:17:36,620

talking to

2183

01:17:40,430 --> 01:17:38,820

uapx and what they're trying to do

2184

01:17:42,590 --> 01:17:40,440

through like a tear in the sky and

2185

01:17:45,950 --> 01:17:42,600

whatnot that these things are happening

2186

01:17:48,070 --> 01:17:45,960

because as much as I see some folks on

2187

01:17:50,510 --> 01:17:48,080

social media some some kind of bigger

2188

01:17:52,250 --> 01:17:50,520

thinkers or influencers or whoever you

2189

01:17:54,530 --> 01:17:52,260

want to see and they do some great work

2190

01:17:56,030 --> 01:17:54,540

but the idea that this can't go we ever

2191

01:17:58,790 --> 01:17:56,040

again we're on the precipice of

2192

01:18:00,649 --> 01:17:58,800

disclosure and it's like well I don't

2193

01:18:02,330 --> 01:18:00,659

see the evidence for that not to say

2194

01:18:04,490 --> 01:18:02,340

we're not making a lot of progress but

2195

01:18:07,370 --> 01:18:04,500

this could get shut down because the

2196

01:18:09,169 --> 01:18:07,380

public swell of Interest isn't there for

2197

01:18:11,390 --> 01:18:09,179

like you say that that mainstream public

2198

01:18:13,490 --> 01:18:11,400

interest while it gathers Pace at times

2199

01:18:16,430 --> 01:18:13,500

it goes up and down it's like people

2200

01:18:18,229 --> 01:18:16,440

always classically say wrestling WWF has

2201

01:18:20,209 --> 01:18:18,239

its swings in popularity where you had

2202

01:18:21,890 --> 01:18:20,219

like the Hulk Hogan era and then it goes

2203

01:18:23,750 --> 01:18:21,900

away then like Steve Austin in the Rock

2204

01:18:26,270 --> 01:18:23,760

and then it goes away then John Cena and

2205

01:18:28,070 --> 01:18:26,280

it goes away in the UFO topic I've seen

2206

01:18:29,990 --> 01:18:28,080

not just in the last couple of years

2207

01:18:31,910 --> 01:18:30,000

where there's Peaks and troughs of

2208

01:18:33,530 --> 01:18:31,920

interest for the mainstream and it

2209

01:18:35,270 --> 01:18:33,540

doesn't hold on we had a couple of

2210

01:18:37,850 --> 01:18:35,280

months back when the initial report was

2211

01:18:41,750 --> 01:18:37,860

due to come out we had the HBO series

2212

01:18:43,729 --> 01:18:41,760

with um our JJ Abrams put out the UFO

2213

01:18:45,590 --> 01:18:43,739

documentary series and there was a

2214

01:18:47,090 --> 01:18:45,600

couple of things and it went away again

2215

01:18:48,709 --> 01:18:47,100

and I think that's why it's important

2216

01:18:51,350 --> 01:18:48,719

people keep it at the Forefront of

2217

01:18:53,090 --> 01:18:51,360

conversation and keep doing the work as

2218

01:18:54,950 --> 01:18:53,100

well because

2219

01:18:57,229 --> 01:18:54,960

I don't see the evidence at the public

2220

01:18:58,610 --> 01:18:57,239

interest as they are especially from a

2221

01:19:00,110 --> 01:18:58,620

UK point of view

2222

01:19:02,149 --> 01:19:00,120

um it's still not there

2223

01:19:03,950 --> 01:19:02,159

um and from Portugal I know you're doing

2224

01:19:05,330 --> 01:19:03,960

some work with the Portuguese one of the

2225

01:19:07,610 --> 01:19:05,340

newspapers aren't you locally you write

2226

01:19:10,669 --> 01:19:07,620

articles for them how do you find them

2227

01:19:14,090 --> 01:19:10,679

Portugal the UFO topic is right now

2228

01:19:15,590 --> 01:19:14,100

it seems like well Portugal is is uh

2229

01:19:17,270 --> 01:19:15,600

kind of in the Latin Market with

2230

01:19:19,070 --> 01:19:17,280

Portuguese you know with the Brazilian

2231

01:19:20,689 --> 01:19:19,080

Spanish yeah and they're much more into

2232

01:19:22,430 --> 01:19:20,699

ovens

2233

01:19:25,490 --> 01:19:22,440

you know they call it of nice instead of

2234

01:19:27,169 --> 01:19:25,500

UFOs it just seems like a

2235

01:19:30,229 --> 01:19:27,179

more open part of their culture actually

2236

01:19:32,630 --> 01:19:30,239

in South America and even in Portugal

2237

01:19:35,510 --> 01:19:32,640

Spain you know they have a long-running

2238

01:19:38,510 --> 01:19:35,520

at least Spain has long-running uh UFO

2239

01:19:40,490 --> 01:19:38,520

shows you know weekly UFO shows so I

2240

01:19:44,330 --> 01:19:40,500

think in the English-speaking

2241

01:19:46,910 --> 01:19:44,340

countries it's still kind of late uh so

2242

01:19:48,649 --> 01:19:46,920

it is more advanced I think in um in

2243

01:19:50,390 --> 01:19:48,659

Latin America and in

2244

01:19:51,470 --> 01:19:50,400

at least Spain here in Europe and

2245

01:19:53,209 --> 01:19:51,480

Portugal

2246

01:19:55,610 --> 01:19:53,219

which is always really good to hear and

2247

01:19:56,870 --> 01:19:55,620

hola to anyone in Portugal Spain or

2248

01:19:58,970 --> 01:19:56,880

Latin American countries who are

2249

01:20:01,370 --> 01:19:58,980

listening that's the extent of my any of

2250

01:20:03,950 --> 01:20:01,380

my kind of Spanish language ability I

2251

01:20:05,390 --> 01:20:03,960

barely speak English to be fair so Chris

2252

01:20:06,709 --> 01:20:05,400

I want to finish off because you've been

2253

01:20:08,270 --> 01:20:06,719

really good with your time and with a

2254

01:20:10,370 --> 01:20:08,280

couple of listener questions both of

2255

01:20:12,709 --> 01:20:10,380

them quite different I'll start with um

2256

01:20:15,649 --> 01:20:12,719

Gary Gary wants to know does Chris have

2257

01:20:18,410 --> 01:20:15,659

any thoughts on why UF UFOs are

2258

01:20:20,450 --> 01:20:18,420

sometimes reported to fly information we

2259

01:20:22,070 --> 01:20:20,460

had we've touched on Ryan Graves and he

2260

01:20:22,970 --> 01:20:22,080

talks about those spheres inside of

2261

01:20:24,890 --> 01:20:22,980

Cubes

2262

01:20:27,470 --> 01:20:24,900

that were in front of their gimbal

2263

01:20:30,110 --> 01:20:27,480

apparently and a v-like formation any

2264

01:20:32,330 --> 01:20:30,120

thoughts on that

2265

01:20:34,910 --> 01:20:32,340

yeah I guess I have two different ideas

2266

01:20:36,229 --> 01:20:34,920

or thoughts that came to mind um the

2267

01:20:38,149 --> 01:20:36,239

first is if you think of like Phoenix

2268

01:20:39,709 --> 01:20:38,159

Lights

2269

01:20:42,950 --> 01:20:39,719

um that's an interesting case because

2270

01:20:45,530 --> 01:20:42,960

you have these wide like balls of light

2271

01:20:47,870 --> 01:20:45,540

essentially but flying in a locked

2272

01:20:50,090 --> 01:20:47,880

formation you know basically just lock

2273

01:20:52,370 --> 01:20:50,100

step together almost like a part of the

2274

01:20:54,649 --> 01:20:52,380

same giant craft and so that's what a

2275

01:20:57,169 --> 01:20:54,659

lot of people reported is that it was a

2276

01:20:59,570 --> 01:20:57,179

big V and we could see the lights but

2277

01:21:03,410 --> 01:20:59,580

but actually around the lights was a

2278

01:21:05,270 --> 01:21:03,420

craft a giant Boomerang shaped craft so

2279

01:21:07,970 --> 01:21:05,280

the first thought would be

2280

01:21:10,250 --> 01:21:07,980

you know are these parts of the engines

2281

01:21:13,189 --> 01:21:10,260

that we could see is it some sort of

2282

01:21:15,890 --> 01:21:13,199

part of the technology that you know

2283

01:21:17,750 --> 01:21:15,900

moves the craft envelops The Craft

2284

01:21:19,189 --> 01:21:17,760

same thing with turkey UFO they seem to

2285

01:21:20,330 --> 01:21:19,199

have like these kind of weird lights

2286

01:21:22,669 --> 01:21:20,340

because you always hear about these

2287

01:21:23,810 --> 01:21:22,679

balls of light like we like we talked

2288

01:21:27,169 --> 01:21:23,820

about earlier

2289

01:21:29,810 --> 01:21:27,179

and that goes back to also Berkshire UFO

2290

01:21:31,550 --> 01:21:29,820

Berkshire UFO Martin Willis did a great

2291

01:21:33,649 --> 01:21:31,560

great show on that one of the first ones

2292

01:21:35,930 --> 01:21:33,659

I kind of looked into

2293

01:21:37,910 --> 01:21:35,940

on that there's a case where this guy's

2294

01:21:40,430 --> 01:21:37,920

he's Crossing like a bridge with his car

2295

01:21:43,070 --> 01:21:40,440

and he looks over as a family this is

2296

01:21:45,290 --> 01:21:43,080

before they get abducted essentially

2297

01:21:47,149 --> 01:21:45,300

and he sees just a light there's just

2298

01:21:49,250 --> 01:21:47,159

like a ball of light following them you

2299

01:21:51,229 --> 01:21:49,260

know along with their car right

2300

01:21:52,910 --> 01:21:51,239

and then he stops and he looks over

2301

01:21:55,430 --> 01:21:52,920

again instead of a ball of light being

2302

01:21:57,649 --> 01:21:55,440

there there is this giant ship you know

2303

01:21:59,570 --> 01:21:57,659

like a giant spaceship

2304

01:22:02,209 --> 01:21:59,580

so like stories like that again

2305

01:22:03,709 --> 01:22:02,219

anecdotal all this stuff you know with a

2306

01:22:05,510 --> 01:22:03,719

grain of salt Etc

2307

01:22:08,630 --> 01:22:05,520

but stories like that show that maybe

2308

01:22:10,910 --> 01:22:08,640

it's it's just what we see is the the

2309

01:22:13,010 --> 01:22:10,920

orb so we just see that ball of light

2310

01:22:14,930 --> 01:22:13,020

but it's really kind of like a portal or

2311

01:22:16,669 --> 01:22:14,940

it's like a door

2312

01:22:18,770 --> 01:22:16,679

um or it's or it's just like the engine

2313

01:22:20,750 --> 01:22:18,780

you know like we only see the exhaust of

2314

01:22:22,610 --> 01:22:20,760

the engine yeah yeah you can only see an

2315

01:22:24,470 --> 01:22:22,620

infrared or something

2316

01:22:26,390 --> 01:22:24,480

and so like the next of the CR the rest

2317

01:22:28,970 --> 01:22:26,400

of the craft is being is being hidden

2318

01:22:30,950 --> 01:22:28,980

that's the first thought and then

2319

01:22:33,590 --> 01:22:30,960

the second thought you hear about is

2320

01:22:35,209 --> 01:22:33,600

these things seem to fly almost like

2321

01:22:37,310 --> 01:22:35,219

organic entities

2322

01:22:40,550 --> 01:22:37,320

you know if I've thought before if you

2323

01:22:41,450 --> 01:22:40,560

had life if you could have plasma based

2324

01:22:48,470 --> 01:22:41,460

life

2325

01:22:50,630 --> 01:22:48,480

chemistry Etc but based on plasma energy

2326

01:22:52,790 --> 01:22:50,640

right the fourth state of matter

2327

01:22:55,570 --> 01:22:52,800

then could these be some sort of just

2328

01:22:57,890 --> 01:22:55,580

space life forms you know like a space

2329

01:22:59,990 --> 01:22:57,900

insect you know something flying around

2330

01:23:02,209 --> 01:23:00,000

and that's really fast seem to fly like

2331

01:23:04,610 --> 01:23:02,219

insects together

2332

01:23:06,470 --> 01:23:04,620

interesting yeah I know Dan who comes on

2333

01:23:07,970 --> 01:23:06,480

the podcast regular and the work he's

2334

01:23:10,430 --> 01:23:07,980

doing with Vinnie Adams and Ash Kelly

2335

01:23:12,169 --> 01:23:10,440

and others and uh phenomenology they're

2336

01:23:14,209 --> 01:23:12,179

going back out to Colombia this April

2337

01:23:16,250 --> 01:23:14,219

where they're looking at you know uh

2338

01:23:17,450 --> 01:23:16,260

potential these these balls of lightning

2339

01:23:20,149 --> 01:23:17,460

and

2340

01:23:22,130 --> 01:23:20,159

are these similar forms of life you know

2341

01:23:24,229 --> 01:23:22,140

is this what part of this phenomena

2342

01:23:26,630 --> 01:23:24,239

could be and like you say it's just we

2343

01:23:28,010 --> 01:23:26,640

we stick to life being our chemistry and

2344

01:23:29,990 --> 01:23:28,020

I always wonder we hear about other

2345

01:23:31,850 --> 01:23:30,000

planets being inhospitable to life you

2346

01:23:34,189 --> 01:23:31,860

know oh it's a gas planet or its lesson

2347

01:23:36,590 --> 01:23:34,199

yeah well for us maybe but what about

2348

01:23:38,689 --> 01:23:36,600

like you say other forms of potential

2349

01:23:40,430 --> 01:23:38,699

life being being formed on those planets

2350

01:23:43,610 --> 01:23:40,440

so yeah interesting thanks for the

2351  
01:23:44,990 --> 01:23:43,620  
answer and uh bikir asks and you touched

2352  
01:23:46,790 --> 01:23:45,000  
on this a little bit before to be honest

2353  
01:23:49,070 --> 01:23:46,800  
Chris what does Chris think about the

2354  
01:23:52,010 --> 01:23:49,080  
idea of humans being the neural network

2355  
01:23:53,390 --> 01:23:52,020  
of a bigger organism's brain call it the

2356  
01:23:55,490 --> 01:23:53,400  
brain of God or the brain of the

2357  
01:23:57,110 --> 01:23:55,500  
universe and he says um Andy I'm sure

2358  
01:23:58,189 --> 01:23:57,120  
you can word it better but I've left it

2359  
01:24:00,709 --> 01:23:58,199  
in his own words because I think that's

2360  
01:24:02,990 --> 01:24:00,719  
perfectly fine big here so thank you

2361  
01:24:05,689 --> 01:24:03,000  
excellent yeah I love that idea like I

2362  
01:24:09,050 --> 01:24:05,699  
said that's um the third part of my

2363  
01:24:10,729 --> 01:24:09,060

kind of uh show uh my channel is on the

2364

01:24:12,709 --> 01:24:10,739

theory of everything and it's really a

2365

01:24:16,490 --> 01:24:12,719

scalar view of the universe

2366

01:24:17,689 --> 01:24:16,500

that we are it's basically that patterns

2367

01:24:20,149 --> 01:24:17,699

uh

2368

01:24:22,130 --> 01:24:20,159

emerge at different sizes if you can

2369

01:24:25,669 --> 01:24:22,140

think of it that way it's not that

2370

01:24:28,669 --> 01:24:25,679

necessarily we're inside of a larger

2371

01:24:31,490 --> 01:24:28,679

brain I guess it is that

2372

01:24:33,709 --> 01:24:31,500

the structure that allows our brain to

2373

01:24:36,709 --> 01:24:33,719

that allows us to think the physical

2374

01:24:39,290 --> 01:24:36,719

structure that we see is very similar to

2375

01:24:41,930 --> 01:24:39,300

the physical structure we see for the

2376

01:24:44,209 --> 01:24:41,940

greater Universe right so I I think of

2377

01:24:45,290 --> 01:24:44,219

it more as a

2378

01:24:49,070 --> 01:24:45,300

um

2379

01:24:53,090 --> 01:24:49,080

uh what they do in basically

2380

01:24:55,189 --> 01:24:53,100

by by action we we relate to neurons in

2381

01:24:58,070 --> 01:24:55,199

your brain right we we fulfill the same

2382

01:25:00,229 --> 01:24:58,080

role as a neuron in your brain so in

2383

01:25:02,570 --> 01:25:00,239

that in that sense to me it seems very

2384

01:25:06,470 --> 01:25:02,580

obvious that we are in a much larger

2385

01:25:09,050 --> 01:25:06,480

system right and we terms you know we

2386

01:25:11,990 --> 01:25:09,060

call systems organized systems of Life

2387

01:25:13,550 --> 01:25:12,000

organisms so in that case it seems very

2388

01:25:16,790 --> 01:25:13,560

obvious to me that

2389

01:25:18,649 --> 01:25:16,800

where each in our own systems and since

2390

01:25:21,229 --> 01:25:18,659

everything on Earth at least I know

2391

01:25:23,930 --> 01:25:21,239

about is organic uh I would also call it

2392

01:25:26,510 --> 01:25:23,940

an organism so to me it seems like

2393

01:25:28,850 --> 01:25:26,520

everything's living and breathing on the

2394

01:25:30,890 --> 01:25:28,860

planet we just if it's not human we

2395

01:25:33,530 --> 01:25:30,900

don't think it's really alive or that we

2396

01:25:35,330 --> 01:25:33,540

uh that it's that it's nature but I

2397

01:25:41,510 --> 01:25:35,340

think that's yeah totally agree with

2398

01:25:45,350 --> 01:25:44,149

noodle network of a bigger organism and

2399

01:25:46,669 --> 01:25:45,360

what's the point in coming into work

2400

01:25:48,890 --> 01:25:46,679

nine to five tomorrow I'm going to take

2401  
01:25:50,270 --> 01:25:48,900  
the day just to chill and and be a be a

2402  
01:25:52,250 --> 01:25:50,280  
neuron

2403  
01:25:55,970 --> 01:25:52,260  
that's one of the arguments for you know

2404  
01:25:57,649 --> 01:25:55,980  
of existence is that if you have a

2405  
01:26:00,169 --> 01:25:57,659  
system right

2406  
01:26:02,689 --> 01:26:00,179  
then it would make sense at all

2407  
01:26:03,890 --> 01:26:02,699  
different levels of organization to have

2408  
01:26:08,090 --> 01:26:03,900  
feedback

2409  
01:26:11,149 --> 01:26:08,100  
and so you can make an argument that

2410  
01:26:13,310 --> 01:26:11,159  
that is what Consciousness is is that

2411  
01:26:17,209 --> 01:26:13,320  
it's the entire system

2412  
01:26:20,030 --> 01:26:17,219  
uh having Observer feedback loops so

2413  
01:26:21,770 --> 01:26:20,040

like you and me we're here in a

2414

01:26:23,870 --> 01:26:21,780

conscious environment

2415

01:26:26,030 --> 01:26:23,880

seeing around and saying this sucks you

2416

01:26:28,430 --> 01:26:26,040

know like this is messed up I want to

2417

01:26:30,470 --> 01:26:28,440

fix this system uh why I want to make it

2418

01:26:32,510 --> 01:26:30,480

more efficient I want to remove evil I

2419

01:26:35,810 --> 01:26:32,520

want to remove pain and suffering

2420

01:26:37,790 --> 01:26:35,820

so I think it could be argued that we

2421

01:26:41,689 --> 01:26:37,800

are like um

2422

01:26:44,450 --> 01:26:41,699

Observer observers for a larger feedback

2423

01:26:49,550 --> 01:26:47,629

and that would be where Consciousness is

2424

01:26:51,169 --> 01:26:49,560

well Crest we have went around the

2425

01:26:52,910 --> 01:26:51,179

houses on this one which has been great

2426

01:26:55,189 --> 01:26:52,920

it's been been all over but I love that

2427

01:26:56,810 --> 01:26:55,199

and I've crammed a lot into almost an

2428

01:26:58,490 --> 01:26:56,820

hour and a half is there anything you

2429

01:26:59,870 --> 01:26:58,500

want to plug that you're working on all

2430

01:27:01,550 --> 01:26:59,880

the links for your stuff are going to be

2431

01:27:03,950 --> 01:27:01,560

in the description to the podcast anyway

2432

01:27:06,169 --> 01:27:03,960

but watch to come on your channel over

2433

01:27:08,390 --> 01:27:06,179

the next coming weeks and months

2434

01:27:10,850 --> 01:27:08,400

I wanted to just relay one last point

2435

01:27:12,950 --> 01:27:10,860

was I think the key difference now

2436

01:27:15,050 --> 01:27:12,960

between the past you know so why why

2437

01:27:16,189 --> 01:27:15,060

should we keep doing this why why am I

2438

01:27:19,370 --> 01:27:16,199

optimistic that we'll get any

2439

01:27:20,629 --> 01:27:19,380

information is it the technology right

2440

01:27:23,510 --> 01:27:20,639

we're at a totally different time now

2441

01:27:26,270 --> 01:27:23,520

I'm talking to you real time right oh

2442

01:27:28,129 --> 01:27:26,280

you know for free essentially video chat

2443

01:27:30,050 --> 01:27:28,139

and you'll publish this out within a

2444

01:27:32,629 --> 01:27:30,060

week essentially

2445

01:27:34,370 --> 01:27:32,639

so we have this now new access to

2446

01:27:36,169 --> 01:27:34,380

technology where I'm linked directly to

2447

01:27:37,250 --> 01:27:36,179

you I don't have to go to anyone else I

2448

01:27:39,350 --> 01:27:37,260

don't have to go the government we do

2449

01:27:43,390 --> 01:27:39,360

have YouTube or whatever uh whatever

2450

01:27:50,750 --> 01:27:48,530

yeah it seems to be working well and so

2451  
01:27:52,550 --> 01:27:50,760  
I would say now we have decentralized

2452  
01:27:54,290 --> 01:27:52,560  
technology you know and that's the big

2453  
01:27:56,750 --> 01:27:54,300  
thing so for me I'm working on building

2454  
01:27:59,390 --> 01:27:56,760  
that web3 how can we

2455  
01:28:01,790 --> 01:27:59,400  
how can we use that technology the the

2456  
01:28:04,129 --> 01:28:01,800  
best like on the bleeding edge right up

2457  
01:28:05,330 --> 01:28:04,139  
ahead of government right we're gonna I

2458  
01:28:08,090 --> 01:28:05,340  
want to be ahead of what the government

2459  
01:28:10,669 --> 01:28:08,100  
people can even understand

2460  
01:28:12,649 --> 01:28:10,679  
um so that we can leverage that and and

2461  
01:28:15,830 --> 01:28:12,659  
so for that it's Mount Wilson Ranch it's

2462  
01:28:18,169 --> 01:28:15,840  
Sky 360 and UAP Society so that's really

2463  
01:28:19,430 --> 01:28:18,179

what what I'm focusing on uh but yeah

2464

01:28:21,770 --> 01:28:19,440

they can just watch it the YouTube

2465

01:28:23,450 --> 01:28:21,780

channel check out our other UAP Society

2466

01:28:26,030 --> 01:28:23,460

Channel we're trying to grow that to its

2467

01:28:27,350 --> 01:28:26,040

own kind of organization and yeah it's

2468

01:28:29,030 --> 01:28:27,360

great thanks for having me on Andy

2469

01:28:31,189 --> 01:28:29,040

anytime and please if you haven't

2470

01:29:16,270 --> 01:29:12,960

Twitter Facebook Instagram that UFO

2491

01:29:19,010 --> 01:29:16,280

podcast of course on Twitter it's at

2492

01:29:20,810 --> 01:29:19,020

ufo-u-a-p-a-m and again folks as always

2493

01:29:26,209 --> 01:29:20,820

keep looking up you never know what you

2494

01:29:26,219 --> 01:29:49,710

me

2495

01:30:23,350 --> 01:30:12,260

[Music]

2496

01:30:23,360 --> 01:30:33,470

they thought this was noise

2497

01:31:20,169 --> 01:30:53,260

[Music]

2498

01:31:41,180 --> 01:31:22,580

once that is awesome

2499

01:31:41,190 --> 01:31:48,790

[Music]

2500

01:31:55,730 --> 01:31:51,790

thank you

2501

01:32:18,070 --> 01:32:01,810

[Music]

2502

01:32:18,080 --> 01:32:21,820

thank you
