[Music]

hi everyone and welcome back to that UFO

7  
00:00:17,570 --> 00:00:15,299  
podcast soon to be rebranded as that

8  
00:00:19,670 --> 00:00:17,580  
balloon podcast my name is Andy and

9  
00:00:22,250 --> 00:00:19,680  
joining me for a breakdown with a couple

10  
00:00:23,450 --> 00:00:22,260  
of guests joining in later on too is Dan

11  
00:00:25,370 --> 00:00:23,460  
Dan welcome

12  
00:00:28,790 --> 00:00:25,380  
hello Andy hello room hello high

13  
00:00:31,009 --> 00:00:28,800

altitude spy balloon yeah hello to any

14

00:00:34,370 --> 00:00:31,019

of our foreign adversarial overlords

15

00:00:36,229 --> 00:00:34,380

listening podcast hovering 60 to 80 000

16

00:00:37,549 --> 00:00:36,239

feet above my home

17

00:00:39,350 --> 00:00:37,559

um I mentioned there's going to be some

18

00:00:41,150 --> 00:00:39,360

guests on this one too we won't be with

19

00:00:43,369 --> 00:00:41,160

you for too long we're going to be

20

00:00:45,650 --> 00:00:43,379

joined by Tim McMillan who is coming in

21

00:00:46,910 --> 00:00:45,660

I spoke to him a few days ago on the

22

00:00:48,770 --> 00:00:46,920

whole situation which we're large

23

00:00:51,470 --> 00:00:48,780

looking at in terms of Chinese spy

24

00:00:53,270 --> 00:00:51,480

balloons adversarial drones you will be

25

00:00:55,790 --> 00:00:53,280

well aware probably of everything that's

26

00:00:58,970 --> 00:00:55,800

going on in the US in the last week in

27

00:01:01,549 --> 00:00:58,980

terms of was it drones was it UFOs UAP

28

00:01:03,110 --> 00:01:01,559

in the news all that good stuff Tim

29

00:01:05,450 --> 00:01:03,120

McMillan joined us to break that down

30

00:01:06,770 --> 00:01:05,460

and have a really interesting not

31

00:01:08,750 --> 00:01:06,780

discussion he was making all the good

32

00:01:10,969 --> 00:01:08,760

points though about you know what this

33

00:01:13,010 --> 00:01:10,979

could be why they are what they are um

34

00:01:15,170 --> 00:01:13,020

and then at the end there's a 14 15

35

00:01:16,670 --> 00:01:15,180

minute piece with Chris stratkovsky you

36

00:01:19,250 --> 00:01:16,680

may remember him as the Canadian

37

00:01:21,530 --> 00:01:19,260

civilian UFO researcher who was on the

38

00:01:24,230 --> 00:01:21,540

podcast last year the Canadian UFO

39

00:01:25,730 --> 00:01:24,240

report was just released for 2022 and he

40

00:01:27,350 --> 00:01:25,740

joined me just for a very short

41

00:01:29,330 --> 00:01:27,360

breakdown of that as well so stick

42

00:01:30,890 --> 00:01:29,340

around for that at the end folks but Dan

43

00:01:33,050 --> 00:01:30,900

and I will be talking about the the kind

44

00:01:35,210 --> 00:01:33,060

of last crazy week in in the news

45

00:01:36,950 --> 00:01:35,220

because it's been

46

00:01:39,050 --> 00:01:36,960

it's not been about UFOs but it has been

47

00:01:41,390 --> 00:01:39,060

about UFOs isn't it done and that's all

48

00:01:43,370 --> 00:01:41,400

started with that Chinese spyballing

49

00:01:44,990 --> 00:01:43,380

being shot down and let me start off

50

00:01:46,910 --> 00:01:45,000

asking you because I think most folks

51  
00:01:48,770 --> 00:01:46,920  
are going to know about their story

52  
00:01:51,350 --> 00:01:48,780  
because it's been worldwide news

53  
00:01:52,190 --> 00:01:51,360  
do you think all of this would have

54  
00:01:55,370 --> 00:01:52,200  
happened

55  
00:01:57,889 --> 00:01:55,380  
if that Chinese Spider-Man hadn't been

56  
00:02:00,649 --> 00:01:57,899  
filmed by members of the public first

57  
00:02:02,030 --> 00:02:00,659  
would we know about all of this that is

58  
00:02:04,730 --> 00:02:02,040  
exactly what seems to have kicked this

59  
00:02:06,830 --> 00:02:04,740  
off isn't it yeah balloon may have gone

60  
00:02:08,510 --> 00:02:06,840  
over without anybody noticing and the

61  
00:02:10,550 --> 00:02:08,520  
News not picking it up but the second it

62  
00:02:12,530 --> 00:02:10,560  
was filmed in you know good resolution

63  
00:02:15,110 --> 00:02:12,540

we had a good video of it for some

64

00:02:16,369 --> 00:02:15,120

reason the media went crazy over it at

65

00:02:17,750 --> 00:02:16,379

the Department of Defense started

66

00:02:19,850 --> 00:02:17,760

addressing it to the point where now

67

00:02:21,589 --> 00:02:19,860

we've got calls for a formation address

68

00:02:24,229 --> 00:02:21,599

from the president

69

00:02:26,150 --> 00:02:24,239

yeah um Sunday and then the last kind of

70

00:02:28,729 --> 00:02:26,160

week in a bit three more objects were

71

00:02:30,650 --> 00:02:28,739

spotted and I'm going to say shut down

72

00:02:32,750 --> 00:02:30,660

but I don't even think we've got full

73

00:02:35,690 --> 00:02:32,760

confirmation yet that the other objects

74

00:02:38,270 --> 00:02:35,700

were definitely shot down we know some

75

00:02:41,750 --> 00:02:38,280

of them were we've heard that they were

76  
00:02:44,030 --> 00:02:41,760  
shot at but disappeared or you know the

77  
00:02:46,309 --> 00:02:44,040  
missiles missed we've heard objects were

78  
00:02:48,170 --> 00:02:46,319  
destroyed we've heard there is debris

79  
00:02:50,390 --> 00:02:48,180  
we've heard there is debris but it can't

80  
00:02:52,309 --> 00:02:50,400  
be recovered we have heard there may be

81  
00:02:55,070 --> 00:02:52,319  
debris but it won't be recovered is it

82  
00:02:56,990 --> 00:02:55,080  
quantum debris is this it's getting a

83  
00:02:59,869 --> 00:02:57,000  
little bit ridiculous isn't it and I've

84  
00:03:01,490 --> 00:02:59,879  
seen some of the um Senator John Kennedy

85  
00:03:03,410 --> 00:03:01,500  
was on Twitter and I saw him just

86  
00:03:06,050 --> 00:03:03,420  
swatting a fly folks uh if you're on

87  
00:03:10,550 --> 00:03:06,060  
YouTube you get to see me swatting a fly

88  
00:03:12,290 --> 00:03:10,560

um I'll put your 3D glasses on now

89

00:03:13,850 --> 00:03:12,300

um yeah so sorry say that John Kennedy

90

00:03:16,009 --> 00:03:13,860

had mentioned I don't even know who he

91

00:03:18,710 --> 00:03:16,019

is other than I saw him on Twitter that

92

00:03:20,869 --> 00:03:18,720

if you are confused with this situation

93

00:03:22,970 --> 00:03:20,879

then you understand the situation

94

00:03:24,290 --> 00:03:22,980

completely getting at the fact that

95

00:03:25,970 --> 00:03:24,300

they're they're having these classified

96

00:03:27,710 --> 00:03:25,980

briefings

97

00:03:29,990 --> 00:03:27,720

um the the Senators congressmen and

98

00:03:31,970 --> 00:03:30,000

women and such and there's a lot of

99

00:03:33,589 --> 00:03:31,980

mixed messages going about and I think

100

00:03:36,229 --> 00:03:33,599

that seems to be the whole play of the

101  
00:03:38,990 --> 00:03:36,239  
day here which is feeding into all kinds

102  
00:03:40,910 --> 00:03:39,000  
of conspiracy but also I think points to

103  
00:03:43,670 --> 00:03:40,920  
what was said many times and many folks

104  
00:03:45,289 --> 00:03:43,680  
have said that it's not as well oiled a

105  
00:03:47,869 --> 00:03:45,299  
machine or will run a machine as people

106  
00:03:49,430 --> 00:03:47,879  
might think you know the government and

107  
00:03:51,110 --> 00:03:49,440  
this is one of those situations that

108  
00:03:53,809 --> 00:03:51,120  
really shows the left hand doesn't even

109  
00:03:56,449 --> 00:03:53,819  
know what the right hand doesn't know

110  
00:03:57,830 --> 00:03:56,459  
yeah absolutely they I've had so many

111  
00:03:59,930 --> 00:03:57,840  
different angles on this over the past

112  
00:04:01,910 --> 00:03:59,940  
week you know some people kind of saying

113  
00:04:03,589 --> 00:04:01,920

that it's alien straight up uh other

114

00:04:05,690 --> 00:04:03,599

ones kind of saying nope definitely not

115

00:04:07,089 --> 00:04:05,700

it's just very prosaic stuff

116

00:04:10,309 --> 00:04:07,099

and then you get everything in between

117

00:04:11,869 --> 00:04:10,319

where uh people are saying that this is

118

00:04:13,970 --> 00:04:11,879

being used in the news to distract from

119

00:04:15,649 --> 00:04:13,980

the Ohio train disaster and things like

120

00:04:17,569 --> 00:04:15,659

that when really you know we just had

121

00:04:19,490 --> 00:04:17,579

the earthquake the train disaster and

122

00:04:21,890 --> 00:04:19,500

this happen in a week so you've got kind

123

00:04:23,450 --> 00:04:21,900

of competing stories and and I would say

124

00:04:24,770 --> 00:04:23,460

you know the fact we're talking about

125

00:04:26,570 --> 00:04:24,780

those things means that they weren't

126  
00:04:28,670 --> 00:04:26,580  
hidden very well if they were hidden you

127  
00:04:29,930 --> 00:04:28,680  
know so I don't tend to subscribe to

128  
00:04:32,090 --> 00:04:29,940  
that one

129  
00:04:34,490 --> 00:04:32,100  
um but there are just a whole bunch of

130  
00:04:37,189 --> 00:04:34,500  
questions around this where

131  
00:04:39,710 --> 00:04:37,199  
the less information they give the more

132  
00:04:43,790 --> 00:04:39,720  
speculation is going to fill this Gap so

133  
00:04:45,469 --> 00:04:43,800  
they could do with um with really

134  
00:04:48,050 --> 00:04:45,479  
just just putting everything on the

135  
00:04:49,430 --> 00:04:48,060  
table you know if they have pictures of

136  
00:04:50,810 --> 00:04:49,440  
these objects so they've shut down which

137  
00:04:52,730 --> 00:04:50,820  
they should because they went in with

138  
00:04:54,710 --> 00:04:52,740

sniper pods we know that the they've got

139

00:04:56,930 --> 00:04:54,720

infrared pods and they can film these

140

00:04:59,749 --> 00:04:56,940

things that means they should be able to

141

00:05:02,210 --> 00:04:59,759

give us high definition imagery by these

142

00:05:04,010 --> 00:05:02,220

objects how do you mean why why should

143

00:05:05,749 --> 00:05:04,020

they email to I suppose for a start

144

00:05:07,490 --> 00:05:05,759

we're and I'm going to be a bit devil's

145

00:05:08,870 --> 00:05:07,500

advocate here but I also this is a

146

00:05:10,370 --> 00:05:08,880

conversation we've had a few times and

147

00:05:13,010 --> 00:05:10,380

I've had to guess and you'll remember

148

00:05:14,629 --> 00:05:13,020

this Dan that we're talking about the US

149

00:05:16,129 --> 00:05:14,639

here so it's the US government they

150

00:05:18,950 --> 00:05:16,139

don't owe us they are talking obviously

151

00:05:20,390 --> 00:05:18,960

to their taxpayer their citizens right

152

00:05:22,909 --> 00:05:20,400

um so I appreciate that but that's more

153

00:05:25,189 --> 00:05:22,919

than half the audience listening

154

00:05:27,110 --> 00:05:25,199

what do they owe people

155

00:05:28,430 --> 00:05:27,120

you know why should they give that

156

00:05:31,249 --> 00:05:28,440

because they're going to be looking at

157

00:05:33,830 --> 00:05:31,259

this being a military operation

158

00:05:36,290 --> 00:05:33,840

um National Security so whenever we hear

159

00:05:37,790 --> 00:05:36,300

about that kind of stuff days gone by

160

00:05:39,550 --> 00:05:37,800

they don't come out with the pictures

161

00:05:42,409 --> 00:05:39,560

and videos afterwards of anything else

162

00:05:44,930 --> 00:05:42,419

so why why would we get it and I think

163

00:05:47,689 --> 00:05:44,940

it was Ryan Robbins last night you know

164

00:05:49,310 --> 00:05:47,699

um UFO Jesus yeah who said the same

165

00:05:50,689 --> 00:05:49,320

thing and I just commented saying but

166

00:05:52,370 --> 00:05:50,699

we're not going to get that they never

167

00:05:54,290 --> 00:05:52,380

do that and I think there's that

168

00:05:56,990 --> 00:05:54,300

entitled thing of and it's a bit of a

169

00:05:58,249 --> 00:05:57,000

UFO Twitter thing but you know we should

170

00:06:00,110 --> 00:05:58,259

get the pictures we should get the

171

00:06:02,930 --> 00:06:00,120

videos and I would like to see them I'm

172

00:06:04,670 --> 00:06:02,940

not saying I wouldn't but I'm realistic

173

00:06:06,290 --> 00:06:04,680

I think and logical and this approach

174

00:06:09,469 --> 00:06:06,300

that they're not going to because they

175

00:06:11,930 --> 00:06:09,479

never do you know where's where's Bin

176

00:06:14,330 --> 00:06:11,940

Laden's body for example

177

00:06:16,850 --> 00:06:14,340

you know you're not wrong at all on that

178

00:06:18,890 --> 00:06:16,860

it's like the the point that I'm going

179

00:06:20,930 --> 00:06:18,900

for is more that they should as opposed

180

00:06:22,550 --> 00:06:20,940

to that they have to you know

181

00:06:24,950 --> 00:06:22,560

um and they have so many kind of

182

00:06:26,870 --> 00:06:24,960

conflating statements from from them and

183

00:06:29,270 --> 00:06:26,880

it's sucked all the air out of the room

184

00:06:31,610 --> 00:06:29,280

over the last week in the media that

185

00:06:34,309 --> 00:06:31,620

some transparency wouldn't go amiss here

186

00:06:36,290 --> 00:06:34,319

you know yeah but again flip side we've

187

00:06:37,670 --> 00:06:36,300

had the same argument know that and

188

00:06:40,309 --> 00:06:37,680

again I would like to see this stuff

189

00:06:43,309 --> 00:06:40,319

folks that's point point a but point B

190

00:06:45,650 --> 00:06:43,319

is we should be able to see the the HD

191

00:06:48,110 --> 00:06:45,660

video of the Tic Tac beside the gosh yes

192

00:06:49,490 --> 00:06:48,120

Pilot's cockpit and we should be able to

193

00:06:51,590 --> 00:06:49,500

see all these other videos they've got

194

00:06:54,170 --> 00:06:51,600

and pictures and people say just remove

195

00:06:56,830 --> 00:06:54,180

the detail in the background for the

196

00:07:00,730 --> 00:06:56,840

love of God right say they had a full HD

197

00:07:03,529 --> 00:07:00,740

4K video of a Tic Tac setting alongside

198

00:07:04,909 --> 00:07:03,539

uh a Russian warship in the US have

199

00:07:06,590 --> 00:07:04,919

filmed it with this incredible piece of

200

00:07:08,330 --> 00:07:06,600

Kit right

201  
00:07:09,830 --> 00:07:08,340  
you could you could just literally

202  
00:07:11,390 --> 00:07:09,840  
Photoshop all the crap out the

203  
00:07:12,770 --> 00:07:11,400  
background and blur it out so you didn't

204  
00:07:15,170 --> 00:07:12,780  
even know what was being looked at or

205  
00:07:17,689 --> 00:07:15,180  
where it was and just shows that that

206  
00:07:18,950 --> 00:07:17,699  
Tech Tac they could do that they're not

207  
00:07:21,290 --> 00:07:18,960  
going to though

208  
00:07:23,510 --> 00:07:21,300  
so I just I just don't see why with this

209  
00:07:24,950 --> 00:07:23,520  
they would do it I think and it links in

210  
00:07:26,930 --> 00:07:24,960  
a little bit you'd probably you're going

211  
00:07:29,089 --> 00:07:26,940  
to mention this probably anyway then the

212  
00:07:31,189 --> 00:07:29,099  
the classified UFO report unclassified

213  
00:07:33,710 --> 00:07:31,199

UFO report that came out and it had the

214

00:07:34,730 --> 00:07:33,720

the heavily redacted page with the UFO

215

00:07:37,370 --> 00:07:34,740

shapes

216

00:07:39,529 --> 00:07:37,380

this is the kind of stuff that I'm sure

217

00:07:43,010 --> 00:07:39,539

on that page there were going to be some

218

00:07:44,390 --> 00:07:43,020

truly anomalous objects I bet there was

219

00:07:46,850 --> 00:07:44,400

a lot of this stuff on there as well

220

00:07:49,370 --> 00:07:46,860

yeah so we heard there would have been

221

00:07:50,870 --> 00:07:49,380

billions but it's not just the balloons

222

00:07:52,370 --> 00:07:50,880

it's the payloads that are underneath

223

00:07:54,770 --> 00:07:52,380

the balloons as well and the equipment

224

00:07:57,350 --> 00:07:54,780

that the balloons are carrying we've had

225

00:07:59,990 --> 00:07:57,360

that one of the objects was um octagon

226

00:08:04,430 --> 00:08:00,000

shaped octagonal that doesn't mean

227

00:08:07,010 --> 00:08:04,440

that's a UAP or UFO it's probably some

228

00:08:09,110 --> 00:08:07,020

kind of drone or object that's being

229

00:08:11,210 --> 00:08:09,120

held up there that might be lighter than

230

00:08:12,830 --> 00:08:11,220

air is being held up by a gas but has

231

00:08:14,450 --> 00:08:12,840

some kind of like payload in it with all

232

00:08:17,270 --> 00:08:14,460

these co-sensors whatever it might be

233

00:08:20,570 --> 00:08:17,280

and it's still capable of being shot

234

00:08:22,369 --> 00:08:20,580

down strange shape but I think I said to

235

00:08:23,689 --> 00:08:22,379

you privately Dan a text message or

236

00:08:25,369 --> 00:08:23,699

whatever it was

237

00:08:27,350 --> 00:08:25,379

no it was a phone call the other night

238

00:08:31,730 --> 00:08:27,360

when I spoke here and I said yeah it's

239

00:08:33,949 --> 00:08:31,740

not a good chance that F China and the

240

00:08:35,690 --> 00:08:33,959

US and let's just include Russia in this

241

00:08:37,610 --> 00:08:35,700

as badly as they're doing right now in

242

00:08:39,350 --> 00:08:37,620

Ukraine we should These are nice

243

00:08:41,930 --> 00:08:39,360

accessible platforms so let's include

244

00:08:43,790 --> 00:08:41,940

like Uzbekistan and and places like that

245

00:08:47,150 --> 00:08:43,800

you know Scotland yeah the Scottish

246

00:08:48,530 --> 00:08:47,160

military yeah so any any any you know

247

00:08:50,750 --> 00:08:48,540

Nation or superpower whatever you want

248

00:08:53,449 --> 00:08:50,760

to call it if they are aware that these

249

00:08:54,530 --> 00:08:53,459

other countries are having truly you

250

00:08:57,110 --> 00:08:54,540

know I'm just going to say UFO

251  
00:08:59,570 --> 00:08:57,120  
encounters proper non-human alien UFO

252  
00:09:01,670 --> 00:08:59,580  
encounters why wouldn't you hide your

253  
00:09:04,490 --> 00:09:01,680  
own Tech in a way that makes it look

254  
00:09:07,130 --> 00:09:04,500  
like something anomalous just to confuse

255  
00:09:08,810 --> 00:09:07,140  
them and that has meant that these

256  
00:09:11,090 --> 00:09:08,820  
things have probably Jeremy Corbell said

257  
00:09:12,769 --> 00:09:11,100  
on on a news report it was on these

258  
00:09:14,930 --> 00:09:12,779  
things have probably been up there for

259  
00:09:18,590 --> 00:09:14,940  
decades spying whether that's balloons

260  
00:09:20,930 --> 00:09:18,600  
or drone type objects and Pilots have

261  
00:09:23,329 --> 00:09:20,940  
been so scared to report on them because

262  
00:09:25,430 --> 00:09:23,339  
they're going oh crap is that one of

263  
00:09:27,110 --> 00:09:25,440

those you fours I can't talk about this

264

00:09:29,690 --> 00:09:27,120

but actually it's been some kind of

265

00:09:30,949 --> 00:09:29,700

Chinese drone what we're not seeing and

266

00:09:33,110 --> 00:09:30,959

I'm not going to speak for you Dan but

267

00:09:35,509 --> 00:09:33,120

I'm 100 sure you'll see the same thing

268

00:09:37,250 --> 00:09:35,519

that doesn't mean all these UFO reports

269

00:09:39,290 --> 00:09:37,260

were all balloons and drones and spy

270

00:09:42,230 --> 00:09:39,300

Tech but like we have said all along and

271

00:09:44,990 --> 00:09:42,240

it's on various numerous episodes a lot

272

00:09:47,150 --> 00:09:45,000

of these reports including the 50 odd

273

00:09:49,850 --> 00:09:47,160

percent that are unexplained in the UFO

274

00:09:52,370 --> 00:09:49,860

report from the US from Arrow from the

275

00:09:54,350 --> 00:09:52,380

Canadian UFO report and such

276

00:09:55,850 --> 00:09:54,360

a lot of these unexplained are still

277

00:09:58,430 --> 00:09:55,860

going to be those types of objects

278

00:10:00,650 --> 00:09:58,440

foreign Tech really cool Tech really

279

00:10:02,750 --> 00:10:00,660

basic Tech being unidentified and

280

00:10:04,250 --> 00:10:02,760

everything in between there's still a

281

00:10:06,230 --> 00:10:04,260

small number that are really anomalous

282

00:10:07,610 --> 00:10:06,240

and unexplainable and that's the the

283

00:10:09,530 --> 00:10:07,620

stuff that we're really interested in

284

00:10:11,570 --> 00:10:09,540

but I think this has just highlighted it

285

00:10:12,970 --> 00:10:11,580

because now and I'm you're going to

286

00:10:16,250 --> 00:10:12,980

probably summarize this better than me

287

00:10:17,750 --> 00:10:16,260

now that the the reporting has changed

288

00:10:19,490 --> 00:10:17,760

and becoming more frequent now the

289

00:10:22,070 --> 00:10:19,500

parameters of what they're looking for

290

00:10:24,050 --> 00:10:22,080

has increased all of a sudden they've

291

00:10:25,250 --> 00:10:24,060

opened their eyes a little bit more and

292

00:10:27,050 --> 00:10:25,260

went ah

293

00:10:28,430 --> 00:10:27,060

there's stuff in our skies we didn't

294

00:10:30,590 --> 00:10:28,440

know was there that we should have known

295

00:10:32,750 --> 00:10:30,600

was there and what they're going to find

296

00:10:35,570 --> 00:10:32,760

is a whole load more of this kind of

297

00:10:38,269 --> 00:10:35,580

stuff but hopefully along with that

298

00:10:39,889 --> 00:10:38,279

they're gonna also I think Tim McMillan

299

00:10:42,290 --> 00:10:39,899

in the interview with them speaks about

300

00:10:43,970 --> 00:10:42,300

you know fishing for tuna if you cast a

301  
00:10:45,350 --> 00:10:43,980  
bigger net you're going to get more tuna

302  
00:10:47,329 --> 00:10:45,360  
but you're also getting a whole lot more

303  
00:10:48,230 --> 00:10:47,339  
crapping along with it as well and this

304  
00:10:50,690 --> 00:10:48,240  
is what you're going to kind of sift

305  
00:10:52,550 --> 00:10:50,700  
through that's a good analogy yeah

306  
00:10:53,810 --> 00:10:52,560  
um because yeah we heard that the the

307  
00:10:55,130 --> 00:10:53,820  
whole reason that they're seeing these

308  
00:10:57,490 --> 00:10:55,140  
things is because they opened up the

309  
00:11:00,829 --> 00:10:57,500  
filters which just means that basically

310  
00:11:03,230 --> 00:11:00,839  
everything that that we know about has a

311  
00:11:04,850 --> 00:11:03,240  
fingerprint so like an IC ABM launch you

312  
00:11:07,310 --> 00:11:04,860  
know that that flash of the initial

313  
00:11:09,050 --> 00:11:07,320

launch of the missile that will be a

314

00:11:10,970 --> 00:11:09,060

signature and a satellite we'll see that

315

00:11:12,889 --> 00:11:10,980

and kind of go hey that's an ICBM and in

316

00:11:15,050 --> 00:11:12,899

fact that that very signature has been

317

00:11:16,730 --> 00:11:15,060

to blame for a whole bunch of like false

318

00:11:20,210 --> 00:11:16,740

alerts and things like that over the

319

00:11:22,550 --> 00:11:20,220

decades but unless that fingerprint is

320

00:11:23,930 --> 00:11:22,560

in the database they won't be able to

321

00:11:26,509 --> 00:11:23,940

identify it with their various

322

00:11:29,210 --> 00:11:26,519

satellites and systems and and we've

323

00:11:31,490 --> 00:11:29,220

heard before people tell us that certain

324

00:11:35,030 --> 00:11:31,500

Radars can pick up things the size of

325

00:11:36,769 --> 00:11:35,040

baseballs you know miles away and I've

326

00:11:38,150 --> 00:11:36,779

got to say I think I think they toot

327

00:11:40,850 --> 00:11:38,160

their own horn a little bit too hard

328

00:11:44,090 --> 00:11:40,860

because these these things are bigger

329

00:11:46,069 --> 00:11:44,100

than that and they went they they went

330

00:11:47,389 --> 00:11:46,079

under the radar like literally you know

331

00:11:49,250 --> 00:11:47,399

they were missed

332

00:11:51,910 --> 00:11:49,260

um I think you're absolutely right and

333

00:11:54,410 --> 00:11:51,920

and we we have discussed it before that

334

00:11:55,970 --> 00:11:54,420

the data that's outside of those

335

00:11:57,410 --> 00:11:55,980

signatures tends to get discarded

336

00:11:59,269 --> 00:11:57,420

because they'll kind of go eh it's a

337

00:12:01,790 --> 00:11:59,279

bird air it's a child's birthday party

338

00:12:03,470 --> 00:12:01,800

balloon and they'll ignore them so if

339

00:12:06,050 --> 00:12:03,480

you know that filters exist why wouldn't

340

00:12:08,150 --> 00:12:06,060

you lean into the outer edges of those

341

00:12:11,150 --> 00:12:08,160

filters if you're an adversary and

342

00:12:13,190 --> 00:12:11,160

especially at this kind of cheap level

343

00:12:15,290 --> 00:12:13,200

as well you know you're not gonna

344

00:12:17,269 --> 00:12:15,300

compete with America on how much it

345

00:12:19,430 --> 00:12:17,279

spends on its defense budget with all of

346

00:12:20,870 --> 00:12:19,440

these really high-tech gadgets so you go

347

00:12:22,850 --> 00:12:20,880

the other way and you play a little kind

348

00:12:24,769 --> 00:12:22,860

of Moneyball with it right and you kind

349

00:12:27,530 --> 00:12:24,779

of go okay I can't do that I don't have

350

00:12:29,870 --> 00:12:27,540

the you know beiruth of baseball so I'm

351  
00:12:31,730 --> 00:12:29,880  
gonna get 10 guys who can kind have come

352  
00:12:34,250 --> 00:12:31,740  
near that track record

353  
00:12:37,069 --> 00:12:34,260  
um and they won't even notice them and

354  
00:12:38,930 --> 00:12:37,079  
the startling thing here is that yeah

355  
00:12:40,670 --> 00:12:38,940  
they seem to be you know they could have

356  
00:12:41,990 --> 00:12:40,680  
been over America for decades and

357  
00:12:43,970 --> 00:12:42,000  
decades so this could be a worldwide

358  
00:12:46,670 --> 00:12:43,980  
spying campaign and then that's been

359  
00:12:48,829 --> 00:12:46,680  
alluded to as well who these belong to

360  
00:12:51,530 --> 00:12:48,839  
they have them fast up so far you know

361  
00:12:53,269 --> 00:12:51,540  
they'll probably be Associated fines and

362  
00:12:54,889 --> 00:12:53,279  
things like that if they're civilians or

363  
00:12:56,509 --> 00:12:54,899

you know private entities building these

364

00:12:58,190 --> 00:12:56,519

things but

365

00:13:00,110 --> 00:12:58,200

thus far

366

00:13:02,629 --> 00:13:00,120

they they were just some

367

00:13:05,569 --> 00:13:02,639

all of the confusion that's happened is

368

00:13:07,129 --> 00:13:05,579

a really effective DDOS attack against

369

00:13:09,710 --> 00:13:07,139

the American people in the American

370

00:13:12,170 --> 00:13:09,720

Media we've seen this eat all the air in

371

00:13:15,949 --> 00:13:12,180

the room so it's an effective strategy

372

00:13:17,990 --> 00:13:15,959

so someone in an adversary adversarial

373

00:13:19,430 --> 00:13:18,000

country is getting a pat on the back and

374

00:13:21,350 --> 00:13:19,440

a medal and a promotion this week

375

00:13:24,050 --> 00:13:21,360

because they've caused America to just

376

00:13:25,910 --> 00:13:24,060

almost implode over a bunch of balloons

377

00:13:28,310 --> 00:13:25,920

essentially right or maybe balloons I'll

378

00:13:29,629 --> 00:13:28,320

say just to kind of play Devil's

379

00:13:31,910 --> 00:13:29,639

advocates for the other side a little

380

00:13:34,250 --> 00:13:31,920

bit um the the missing missile or should

381

00:13:35,990 --> 00:13:34,260

I say that the missile really put in

382

00:13:37,790 --> 00:13:36,000

Miss in missile

383

00:13:39,889 --> 00:13:37,800

um they shot two of the one over Lake

384

00:13:42,889 --> 00:13:39,899

Huron I think it is

385

00:13:44,810 --> 00:13:42,899

um and one apparently missed and I've

386

00:13:47,750 --> 00:13:44,820

seen some people kind of go huh did it

387

00:13:49,550 --> 00:13:47,760

did it move or are we talking more that

388

00:13:51,230 --> 00:13:49,560

the radar wasn't able to pick it up so

389

00:13:53,090 --> 00:13:51,240

it didn't really have a lock so it kind

390

00:13:56,150 --> 00:13:53,100

of missed in that way that's a really

391

00:13:58,610 --> 00:13:56,160

curious question I I think if they turn

392

00:14:00,829 --> 00:13:58,620

out to be completely mundane and just

393

00:14:02,210 --> 00:14:00,839

civilian drones or something like that I

394

00:14:05,269 --> 00:14:02,220

think we'll probably hear more about it

395

00:14:07,150 --> 00:14:05,279

if it's more sensitive than that you

396

00:14:09,410 --> 00:14:07,160

know like you were saying about the the

397

00:14:11,150 --> 00:14:09,420

adversary platforms like drones and

398

00:14:13,310 --> 00:14:11,160

things like that if it's something that

399

00:14:15,590 --> 00:14:13,320

they don't want the enemies to know that

400

00:14:18,530 --> 00:14:15,600

they know about then they won't say

401  
00:14:20,930 --> 00:14:18,540  
anything more so you can kind of see

402  
00:14:23,269 --> 00:14:20,940  
what it is by how they're acting but

403  
00:14:25,129 --> 00:14:23,279  
again they're playing into all of these

404  
00:14:28,190 --> 00:14:25,139  
conspiracy theories by just not talking

405  
00:14:29,870 --> 00:14:28,200  
to us about it so yeah there's a there's

406  
00:14:31,790 --> 00:14:29,880  
a little bit of transparency they could

407  
00:14:34,009 --> 00:14:31,800  
do better with but this is unprecedented

408  
00:14:35,990 --> 00:14:34,019  
you know 10 years ago we'd never forget

409  
00:14:37,850 --> 00:14:36,000  
this conversation or this level of

410  
00:14:40,069 --> 00:14:37,860  
conversation just goes to show how far

411  
00:14:41,930 --> 00:14:40,079  
we've come should I send Tom Cruise up

412  
00:14:43,370 --> 00:14:41,940  
because if you watch top gun Maverick he

413  
00:14:45,710 --> 00:14:43,380

was pretty pretty Dead Eye wasn't it

414

00:14:47,269 --> 00:14:45,720

yeah

415

00:14:49,430 --> 00:14:47,279

um so

416

00:14:51,230 --> 00:14:49,440

on that we talk about these objects

417

00:14:52,970 --> 00:14:51,240

being shot down whether they wear

418

00:14:54,949 --> 00:14:52,980

Balloons with a payload hanging off of

419

00:14:57,350 --> 00:14:54,959

them and I'm guessing you wouldn't fight

420

00:14:58,730 --> 00:14:57,360

a missile at a balloon but what's

421

00:15:00,769 --> 00:14:58,740

hanging off of the balloon or

422

00:15:02,329 --> 00:15:00,779

potentially inside the balloon if that's

423

00:15:05,030 --> 00:15:02,339

how they were working depending on what

424

00:15:07,550 --> 00:15:05,040

they were they that's I think I fired

425

00:15:09,110 --> 00:15:07,560

them without kind of the Warhead on so

426

00:15:10,970 --> 00:15:09,120

there were no explosions it was more

427

00:15:12,530 --> 00:15:10,980

about you know just making a hole in the

428

00:15:14,689 --> 00:15:12,540

thing and making it a ball kind of just

429

00:15:16,970 --> 00:15:14,699

like a bugatto um well these things came

430

00:15:18,250 --> 00:15:16,980

down I've heard from someone one of them

431

00:15:20,810 --> 00:15:18,260

came down

432

00:15:23,030 --> 00:15:20,820

broken up and it was like glass-like

433

00:15:24,949 --> 00:15:23,040

material

434

00:15:26,990 --> 00:15:24,959

um again that's at the moment hearsay

435

00:15:28,670 --> 00:15:27,000

though uh same yeah we've heard that

436

00:15:30,650 --> 00:15:28,680

they've been broken up we've heard that

437

00:15:32,750 --> 00:15:30,660

they have disappeared or lost the

438

00:15:34,730 --> 00:15:32,760

wreckage how much that's true we don't

439

00:15:36,410 --> 00:15:34,740

know and I would say it's just as likely

440

00:15:38,750 --> 00:15:36,420

that they've actually absolutely found a

441

00:15:39,949 --> 00:15:38,760

wreckage and say it's China's stuff they

442

00:15:41,870 --> 00:15:39,959

just don't want China when they've

443

00:15:43,610 --> 00:15:41,880

recovered it so that would that would

444

00:15:45,350 --> 00:15:43,620

make sense to me but it's equally as

445

00:15:47,329 --> 00:15:45,360

likely the friend we don't know when it

446

00:15:50,150 --> 00:15:47,339

came down maybe it was too small to find

447

00:15:51,710 --> 00:15:50,160

maybe it's gone into ice underwater you

448

00:15:54,230 --> 00:15:51,720

know and in that case it's just really

449

00:15:55,490 --> 00:15:54,240

really difficult and just on that front

450

00:15:56,990 --> 00:15:55,500

I just wanted to touch on because I've

451  
00:15:58,430 --> 00:15:57,000  
seen a lot of people kind of say how how

452  
00:16:01,009 --> 00:15:58,440  
can they be tracking it and then not

453  
00:16:02,569 --> 00:16:01,019  
know where it lands and even when

454  
00:16:04,910 --> 00:16:02,579  
meteors are coming into the atmosphere

455  
00:16:07,129 --> 00:16:04,920  
there's a there's a debris field that's

456  
00:16:08,150 --> 00:16:07,139  
kind of mapped out and depending on a

457  
00:16:09,829 --> 00:16:08,160  
whole bunch of different factors

458  
00:16:11,870 --> 00:16:09,839  
including whether it just hits a burn on

459  
00:16:14,210 --> 00:16:11,880  
the way down or something it can go

460  
00:16:15,350 --> 00:16:14,220  
anywhere in that area you know there are

461  
00:16:17,870 --> 00:16:15,360  
still plane crashes that we haven't

462  
00:16:19,970 --> 00:16:17,880  
found so it's hard to find things and

463  
00:16:21,710 --> 00:16:19,980

it's hard to find small things and and I

464

00:16:23,389 --> 00:16:21,720

have read that the one in Alaska at the

465

00:16:25,790 --> 00:16:23,399

very least landed on an ice sheet that's

466

00:16:28,250 --> 00:16:25,800

actually moving so they're having to

467

00:16:30,170 --> 00:16:28,260

kind of model how the ice sheets move

468

00:16:32,329 --> 00:16:30,180

and break up to try and figure out where

469

00:16:34,009 --> 00:16:32,339

it landed and where it will be now uh

470

00:16:35,810 --> 00:16:34,019

it's a remote control a sheet heading

471

00:16:39,769 --> 00:16:35,820

back to China

472

00:16:41,269 --> 00:16:39,779

yeah nice I like it

473

00:16:42,949 --> 00:16:41,279

um I wrote a comic like that when I was

474

00:16:44,930 --> 00:16:42,959

a kid you know but yeah anyway that's

475

00:16:46,189 --> 00:16:44,940

that's by the by so the media coverage

476

00:16:47,870 --> 00:16:46,199

on it has been really interesting like

477

00:16:48,829 --> 00:16:47,880

you see the Pentagon and the White House

478

00:16:50,870 --> 00:16:48,839

are all coming out with different

479

00:16:52,749 --> 00:16:50,880

statements various generals the White

480

00:16:55,009 --> 00:16:52,759

House Press Secretary yesterday

481

00:16:56,269 --> 00:16:55,019

commented on on Valentine's Day I

482

00:16:57,889 --> 00:16:56,279

believe it was

483

00:16:59,749 --> 00:16:57,899

um that I think her name's Karine

484

00:17:01,310 --> 00:16:59,759

Jean-Pierre

485

00:17:03,410 --> 00:17:01,320

um that it was better to ask the

486

00:17:05,990 --> 00:17:03,420

Pentagon but as far as the White House

487

00:17:07,370 --> 00:17:06,000

understands it there is debris but they

488

00:17:09,409 --> 00:17:07,380

can't really comment any further on that

489

00:17:10,970 --> 00:17:09,419

that's the pentagon's job to do we've

490

00:17:13,069 --> 00:17:10,980

heard that they may recover it they

491

00:17:14,809 --> 00:17:13,079

might not be able to recover it this has

492

00:17:16,130 --> 00:17:14,819

obviously been something that the the

493

00:17:17,689 --> 00:17:16,140

mainstream media has picked up on

494

00:17:19,789 --> 00:17:17,699

massively they've seen the word UFO

495

00:17:22,010 --> 00:17:19,799

being thrown around we have seen various

496

00:17:24,409 --> 00:17:22,020

statements from people mentioning that

497

00:17:26,090 --> 00:17:24,419

there are there is no confirmation or

498

00:17:28,490 --> 00:17:26,100

they've not ruled out that it's aliens

499

00:17:29,690 --> 00:17:28,500

or you know non-humans we've seen the

500

00:17:32,270 --> 00:17:29,700

laughing in the background but I've

501  
00:17:34,310 --> 00:17:32,280  
heard that mentioned more seriously I

502  
00:17:36,350 --> 00:17:34,320  
don't think honestly and bear in mind

503  
00:17:38,690 --> 00:17:36,360  
it's called that UFO podcast and started

504  
00:17:40,370 --> 00:17:38,700  
it to talk about UFOs and aliens I'm not

505  
00:17:43,490 --> 00:17:40,380  
just pooing it for the sake of it but

506  
00:17:46,310 --> 00:17:43,500  
for me this wasn't UFOs this wasn't

507  
00:17:48,710 --> 00:17:46,320  
aliens it wasn't non-human this was some

508  
00:17:50,510 --> 00:17:48,720  
foreign Tech that was picked up I even

509  
00:17:52,730 --> 00:17:50,520  
saw at one point Tim McMillan mentioned

510  
00:17:55,610 --> 00:17:52,740  
he had heard one of the objects was

511  
00:17:57,590 --> 00:17:55,620  
potentially U.S tech but it was

512  
00:17:59,630 --> 00:17:57,600  
monitoring weather situation something

513  
00:18:02,090 --> 00:17:59,640

like that whatever it may have been

514

00:18:04,130 --> 00:18:02,100

um and we don't know so I don't think

515

00:18:06,830 --> 00:18:04,140

it's anything Sinister in that sense

516

00:18:08,630 --> 00:18:06,840

that that would be so DOD wouldn't it to

517

00:18:10,190 --> 00:18:08,640

be like one of these objects so actually

518

00:18:12,230 --> 00:18:10,200

we blow up and because of the stove

519

00:18:13,730 --> 00:18:12,240

piping and not talking to each other

520

00:18:16,070 --> 00:18:13,740

that they actually blew up something

521

00:18:17,510 --> 00:18:16,080

Advanced that belonged to the US yeah

522

00:18:18,830 --> 00:18:17,520

the way that office scored none of that

523

00:18:20,570 --> 00:18:18,840

was one of ours

524

00:18:22,010 --> 00:18:20,580

um so yeah it's been interesting when I

525

00:18:23,450 --> 00:18:22,020

think what the positives are going to be

526  
00:18:27,049 --> 00:18:23,460  
and I speak to Tim McMillan about this

527  
00:18:28,730 --> 00:18:27,059  
is that it's made one more folks poke

528  
00:18:30,049 --> 00:18:28,740  
their head in the UFO door so if you're

529  
00:18:32,750 --> 00:18:30,059  
just listening to this and just getting

530  
00:18:35,029 --> 00:18:32,760  
an interest in the UFO subject hi don't

531  
00:18:36,409 --> 00:18:35,039  
let it scare you off because there is a

532  
00:18:38,630 --> 00:18:36,419  
lot of really interesting data out there

533  
00:18:40,490 --> 00:18:38,640  
and and more and more to come but I

534  
00:18:41,870 --> 00:18:40,500  
think this is the beginning of what

535  
00:18:46,010 --> 00:18:41,880  
we've been talking about now for years

536  
00:18:48,049 --> 00:18:46,020  
more pilots more Personnel more not

537  
00:18:49,669 --> 00:18:48,059  
transparency necessarily but more

538  
00:18:51,650 --> 00:18:49,679

willing to talk willingness to talk

539

00:18:53,570 --> 00:18:51,660

about and investigate the subject which

540

00:18:56,390 --> 00:18:53,580

means more reports are going to come in

541

00:18:57,890 --> 00:18:56,400

like we heard about on the US and the

542

00:19:00,950 --> 00:18:57,900

Canadian reports

543

00:19:03,230 --> 00:19:00,960

and we're going to see more clutter more

544

00:19:04,610 --> 00:19:03,240

debris more misidentifications that's

545

00:19:06,049 --> 00:19:04,620

something I spoke to Chris later about

546

00:19:08,990 --> 00:19:06,059

which is out just now

547

00:19:10,730 --> 00:19:09,000

um and and he's a pilot who himself I

548

00:19:13,310 --> 00:19:10,740

asked him you know how often do pilots

549

00:19:16,130 --> 00:19:13,320

misidentify things and he said the best

550

00:19:18,650 --> 00:19:16,140

Pilots regularly misidentify things and

551  
00:19:20,210 --> 00:19:18,660  
if they're honest they will say that

552  
00:19:21,529 --> 00:19:20,220  
um which is which was really interesting

553  
00:19:23,330 --> 00:19:21,539  
to hear he wasn't you know just being

554  
00:19:26,210 --> 00:19:23,340  
you know pig-headed and saying no the

555  
00:19:28,909 --> 00:19:26,220  
the trendola cream Top Guns don't

556  
00:19:30,950 --> 00:19:28,919  
but I think this means that we're more

557  
00:19:33,850 --> 00:19:30,960  
likely to get

558  
00:19:37,310 --> 00:19:33,860  
proper UFOs as we know and love them

559  
00:19:40,610 --> 00:19:37,320  
being reported and potentially captured

560  
00:19:42,169 --> 00:19:40,620  
and discussed more openly that's going

561  
00:19:44,330 --> 00:19:42,179  
to be the big positive for this for me

562  
00:19:46,549 --> 00:19:44,340  
not that's not in this occasion it's not

563  
00:19:47,870 --> 00:19:46,559

UFOs but I don't know what your thoughts

564

00:19:50,090 --> 00:19:47,880

on that Dan

565

00:19:50,990 --> 00:19:50,100

yeah I would agree this whole thing is

566

00:19:53,090 --> 00:19:51,000

going to be really interesting because

567

00:19:55,250 --> 00:19:53,100

we're going to see the kind of the myth

568

00:19:57,409 --> 00:19:55,260

making that happens in this kind of

569

00:19:58,789 --> 00:19:57,419

subject you know we're in 10 years time

570

00:20:00,049 --> 00:19:58,799

we're going to look back on a lot of the

571

00:20:01,310 --> 00:20:00,059

subtleties of this moment are going to

572

00:20:03,590 --> 00:20:01,320

be lost and people are just going to

573

00:20:05,750 --> 00:20:03,600

call them UFOs unless unless we kind of

574

00:20:08,210 --> 00:20:05,760

get more of them but I think ultimately

575

00:20:13,010 --> 00:20:08,220

you're right like these these seem to be

576

00:20:15,169 --> 00:20:13,020

prosaic but the conversation is now huge

577

00:20:17,210 --> 00:20:15,179

you know we're talking we've had like 15

578

00:20:19,070 --> 00:20:17,220

different definitions of UFO and UAP

579

00:20:20,630 --> 00:20:19,080

from different Senators over the past

580

00:20:22,730 --> 00:20:20,640

few days it's hard to keep up with them

581

00:20:24,650 --> 00:20:22,740

but it's really exciting to hear them

582

00:20:26,150 --> 00:20:24,660

talking about them and when I say

583

00:20:27,650 --> 00:20:26,160

exciting that might not be exact you

584

00:20:28,909 --> 00:20:27,660

know in Independence Day when the guy's

585

00:20:30,169 --> 00:20:28,919

like it's been an exciting week and

586

00:20:31,850 --> 00:20:30,179

they're like really is exciting the

587

00:20:34,190 --> 00:20:31,860

words you would use yeah

588

00:20:36,409 --> 00:20:34,200

um but it's it's great that the

589

00:20:38,090 --> 00:20:36,419

attention is on this because we we know

590

00:20:40,549 --> 00:20:38,100

there's something there we know this has

591

00:20:42,230 --> 00:20:40,559

gone back to you know decades centuries

592

00:20:44,210 --> 00:20:42,240

but I'll say decades because that's what

593

00:20:45,950 --> 00:20:44,220

we have radar readings for

594

00:20:47,750 --> 00:20:45,960

um we've had various generals throughout

595

00:20:49,070 --> 00:20:47,760

those decades kind of saying this is a

596

00:20:50,510 --> 00:20:49,080

real phenomena there's something there

597

00:20:52,610 --> 00:20:50,520

you know China weren't sending up

598

00:20:54,289 --> 00:20:52,620

balloons in the 40s for example or they

599

00:20:55,490 --> 00:20:54,299

might have been you know someone will

600

00:20:56,390 --> 00:20:55,500

probably write in and educate me a

601  
00:20:59,510 --> 00:20:56,400  
little

602  
00:21:01,850 --> 00:20:59,520  
um but point is there's a lot of data

603  
00:21:04,010 --> 00:21:01,860  
here to discuss it's not just there's

604  
00:21:07,370 --> 00:21:04,020  
nothing else here like there is

605  
00:21:09,770 --> 00:21:07,380  
something other that we're not sure what

606  
00:21:11,450 --> 00:21:09,780  
it is you know Obama has spoken about it

607  
00:21:13,250 --> 00:21:11,460  
without great quote where he says you

608  
00:21:15,049 --> 00:21:13,260  
know there are objects so we don't know

609  
00:21:17,990 --> 00:21:15,059  
the the movements and the signatures

610  
00:21:19,730 --> 00:21:18,000  
they kind of elude

611  
00:21:21,590 --> 00:21:19,740  
um they're not these balloons they're

612  
00:21:23,450 --> 00:21:21,600  
more what we see think of when we look

613  
00:21:24,890 --> 00:21:23,460

at the Tic Tac with the movement the the

614

00:21:29,210 --> 00:21:24,900

kind of the ping pong ball movement that

615

00:21:31,010 --> 00:21:29,220

Dave described yeah so we've got a lot

616

00:21:34,370 --> 00:21:31,020

of these odd objects that are about to

617

00:21:36,470 --> 00:21:34,380

get a lot more attention so

618

00:21:38,029 --> 00:21:36,480

all conversation about this subject is

619

00:21:39,950 --> 00:21:38,039

good because it just brings more people

620

00:21:42,669 --> 00:21:39,960

into the ring and this week people have

621

00:21:45,289 --> 00:21:42,679

seen in a much more subtle real-life way

622

00:21:47,390 --> 00:21:45,299

how these things can be present and how

623

00:21:49,250 --> 00:21:47,400

this might all play out if in fact you

624

00:21:50,390 --> 00:21:49,260

know we discover something spectacular

625

00:21:52,850 --> 00:21:50,400

is here

626

00:21:55,330 --> 00:21:52,860

well that'll take us nicely on to Tim

627

00:21:58,130 --> 00:21:55,340

McMillan Tim McMillan co-founder of the

628

00:22:00,890 --> 00:21:58,140

debrief.org along with Micah Hanks MJ

629

00:22:03,590 --> 00:22:00,900

benais and many others now involved over

630

00:22:05,450 --> 00:22:03,600

there too uh Tim joined me a couple of

631

00:22:08,149 --> 00:22:05,460

days ago as we knew about the photo

632

00:22:09,830 --> 00:22:08,159

object to discuss what was going on what

633

00:22:12,230 --> 00:22:09,840

was being said more of the statements

634

00:22:14,570 --> 00:22:12,240

coming out from various aspects of the

635

00:22:16,370 --> 00:22:14,580

US government and Military and also has

636

00:22:18,409 --> 00:22:16,380

thoughts on what might be going on from

637

00:22:20,810 --> 00:22:18,419

a national security point of view but

638

00:22:23,029 --> 00:22:20,820

also generally from an unknown anomalous

639

00:22:25,070 --> 00:22:23,039

point of view as well uh Dan you'll be

640

00:22:26,570 --> 00:22:25,080

back with me next week probably and

641

00:22:28,610 --> 00:22:26,580

we'll be looking at some of the news

642

00:22:30,649 --> 00:22:28,620

items the follow-up and the Fallout from

643

00:22:32,210 --> 00:22:30,659

this and some other bits and pieces that

644

00:22:34,190 --> 00:22:32,220

are coming out as well yeah yeah

645

00:22:36,049 --> 00:22:34,200

absolutely you know we've got a couple

646

00:22:37,850 --> 00:22:36,059

of episodes of merch to discuss some

647

00:22:39,350 --> 00:22:37,860

some cool things from the weaponized

648

00:22:41,450 --> 00:22:39,360

podcast as well

649

00:22:43,370 --> 00:22:41,460

um and as well as that Leslie Kane's new

650

00:22:46,010 --> 00:22:43,380

series UFOs like investigate in the

651  
00:22:47,630 --> 00:22:46,020  
unknown uh that started yesterday for

652  
00:22:49,669 --> 00:22:47,640  
people in America that will be on Hulu

653  
00:22:50,870 --> 00:22:49,679  
now um that's a fun word to say isn't it

654  
00:22:52,970 --> 00:22:50,880  
but

655  
00:22:54,950 --> 00:22:52,980  
um we don't have access yet being UK

656  
00:22:56,930 --> 00:22:54,960  
dwellers but I'm sure we will soon I've

657  
00:22:58,370 --> 00:22:56,940  
heard very good things about it and it's

658  
00:23:00,890 --> 00:22:58,380  
perfectly timed with all this balloon

659  
00:23:02,210 --> 00:23:00,900  
stuff going on absolutely yeah and any

660  
00:23:03,770 --> 00:23:02,220  
other news that kind of drops in the

661  
00:23:05,990 --> 00:23:03,780  
meantime once Tim McMillan is finished

662  
00:23:08,330 --> 00:23:06,000  
we'll go straight into the kind of

663  
00:23:10,549 --> 00:23:08,340

14-minute piece with Chris Krakowski and

664

00:23:12,770 --> 00:23:10,559

Chris joined me uh civilian researcher

665

00:23:15,169 --> 00:23:12,780

from Canada to talk about the recently

666

00:23:17,750 --> 00:23:15,179

released Canadian UFO report covering

667

00:23:20,090 --> 00:23:17,760

UFO reports in Canada as it says on the

668

00:23:21,529 --> 00:23:20,100

tin from the year 2022 so really

669

00:23:23,690 --> 00:23:21,539

interesting one there to finish off to

670

00:23:26,090 --> 00:23:23,700

so Dan thanks for joining me

671

00:23:28,070 --> 00:23:26,100

thank you and uh to anyone going to

672

00:23:30,110 --> 00:23:28,080

watch it enjoy Quantum mania this week

673

00:23:32,090 --> 00:23:30,120

I'm very excited as a Marvel fan to

674

00:23:33,890 --> 00:23:32,100

watch this one yes I've got my tickets

675

00:23:35,930 --> 00:23:33,900

for Saturday morning so yeah looking

676  
00:23:37,250 --> 00:23:35,940  
forward to seeing that Ant-Man on the

677  
00:23:40,909 --> 00:23:37,260  
big screen

678  
00:23:42,230 --> 00:23:40,919  
some kind of joke there and I've messed

679  
00:23:44,870 --> 00:23:42,240  
up leave it in though here's Tim

680  
00:23:47,210 --> 00:23:44,880  
McMillan joining me to discuss the

681  
00:23:49,490 --> 00:23:47,220  
latest on the unidentified objects being

682  
00:23:51,830 --> 00:23:49,500  
shot down over various parts of the US

683  
00:23:54,070 --> 00:23:51,840  
and Canada and potentially outside of

684  
00:23:56,630 --> 00:23:54,080  
which I have co-founder of the

685  
00:23:58,789 --> 00:23:56,640  
debrief.org and journalist Tim McMillan

686  
00:24:00,470 --> 00:23:58,799  
Tim welcome back to the podcast hey Andy

687  
00:24:04,310 --> 00:24:00,480  
always good to be here man thanks thanks

688  
00:24:05,810 --> 00:24:04,320

for having me on weird time yeah very

689

00:24:08,210 --> 00:24:05,820

strange times and I've just said to you

690

00:24:09,770 --> 00:24:08,220

I'm glad you think so too now we're

691

00:24:11,810 --> 00:24:09,780

discussing and I've just been discussing

692

00:24:14,870 --> 00:24:11,820

with Dan if I get this edited correctly

693

00:24:16,370 --> 00:24:14,880

the reports of well it's not even

694

00:24:18,950 --> 00:24:16,380

reports I've seen the video haven't made

695

00:24:20,750 --> 00:24:18,960

this all started a week ago or so with a

696

00:24:23,270 --> 00:24:20,760

balloon hovering over the United States

697

00:24:25,190 --> 00:24:23,280

it was filmed by a few people they saw

698

00:24:27,230 --> 00:24:25,200

the object sitting in the sky good

699

00:24:30,649 --> 00:24:27,240

camera zoom they managed to get a good

700

00:24:32,450 --> 00:24:30,659

picture of uh quote unquote UFO and we

701  
00:24:34,970 --> 00:24:32,460  
quickly found out it was a Chinese

702  
00:24:35,990 --> 00:24:34,980  
spyball and and it was floating up there

703  
00:24:37,190 --> 00:24:36,000  
didn't we

704  
00:24:39,830 --> 00:24:37,200  
um what were your thoughts at the time

705  
00:24:42,350 --> 00:24:39,840  
first saw that story breaking yeah it

706  
00:24:44,270 --> 00:24:42,360  
wasn't that really wasn't surprising so

707  
00:24:46,190 --> 00:24:44,280  
the first one is intriguing I think the

708  
00:24:48,470 --> 00:24:46,200  
most intriguing thing is the fact that

709  
00:24:50,810 --> 00:24:48,480  
uh you know this was a very substantial

710  
00:24:53,330 --> 00:24:50,820  
uh spot alone there's a potential

711  
00:24:55,730 --> 00:24:53,340  
massive payload very massive and it was

712  
00:24:57,710 --> 00:24:55,740  
relatively low I mean it was about 60

713  
00:25:00,909 --> 00:24:57,720

000 feet so it was above air traffic

714

00:25:03,169 --> 00:25:00,919

civil air traffic but in terms of for

715

00:25:05,029 --> 00:25:03,179

surveillance reconnaissance platforms

716

00:25:06,890 --> 00:25:05,039

which is what we it is believed to be

717

00:25:08,930 --> 00:25:06,900

that's pretty low because it was

718

00:25:10,610 --> 00:25:08,940

detectable from the ground from the

719

00:25:12,770 --> 00:25:10,620

naked eye people include good clear

720

00:25:14,630 --> 00:25:12,780

visibility people could see it people

721

00:25:17,510 --> 00:25:14,640

were taking pictures of it so that's a

722

00:25:19,669 --> 00:25:17,520

little surreal uh and and I'm inclined

723

00:25:21,409 --> 00:25:19,679

to believe that that something got

724

00:25:22,970 --> 00:25:21,419

screwed up there I mean there's been a

725

00:25:25,070 --> 00:25:22,980

lot of speculation I think some people

726

00:25:27,409 --> 00:25:25,080

have speculated it was an intentional

727

00:25:30,710 --> 00:25:27,419

provocation from China

728

00:25:32,750 --> 00:25:30,720

um that would really cut against Chinese

729

00:25:34,850 --> 00:25:32,760

Doctrine and how they go about things

730

00:25:38,450 --> 00:25:34,860

typically they really try to be a lot

731

00:25:40,850 --> 00:25:38,460

more subtle and they try to deal back a

732

00:25:42,649 --> 00:25:40,860

lot of the the pressure they'd rather

733

00:25:44,510 --> 00:25:42,659

kind of you know you let them in the

734

00:25:46,070 --> 00:25:44,520

front door and they rob you that then

735

00:25:49,070 --> 00:25:46,080

scare you into breaking the door down

736

00:25:51,289 --> 00:25:49,080

and so that was odd it was odd

737

00:25:53,090 --> 00:25:51,299

um and then you know when they shot it

738

00:25:55,010 --> 00:25:53,100

down off the coast of Carolina so you

739

00:25:56,990 --> 00:25:55,020

know they let this thing Traverse the

740

00:26:00,130 --> 00:25:57,000

entire U.S they gathered all this Intel

741

00:26:03,169 --> 00:26:00,140

from it then shot it down uh a pretty

742

00:26:05,570 --> 00:26:03,179

unique event I think that was you know

743

00:26:08,510 --> 00:26:05,580

kind of exciting event I think the the

744

00:26:10,070 --> 00:26:08,520

shoot down was really probably uh

745

00:26:11,930 --> 00:26:10,080

politically motivated because that point

746

00:26:14,930 --> 00:26:11,940

it was it was getting ready to leave the

747

00:26:17,149 --> 00:26:14,940

U.S territory you know there wasn't

748

00:26:19,669 --> 00:26:17,159

what benefit did you get other than

749

00:26:20,990 --> 00:26:19,679

capturing the the platform itself and

750

00:26:22,549 --> 00:26:21,000

the payload and learning whatever you

751

00:26:23,990 --> 00:26:22,559

could from it

752

00:26:25,430 --> 00:26:24,000

um and so it did I think from that

753

00:26:27,830 --> 00:26:25,440

regard it served its purpose as well

754

00:26:30,049 --> 00:26:27,840

because I know a lot of people in the

755

00:26:31,970 --> 00:26:30,059

states were yeah we shot it down it was

756

00:26:32,750 --> 00:26:31,980

kind of moral Victory like you've done

757

00:26:35,690 --> 00:26:32,760

something

758

00:26:36,409 --> 00:26:35,700

so that first incident

759

00:26:39,710 --> 00:26:36,419

um

760

00:26:41,690 --> 00:26:39,720

was intriguing it but not on you know

761

00:26:43,490 --> 00:26:41,700

not totally out of the room it's not

762

00:26:45,110 --> 00:26:43,500

unprecedented we know everybody spies on

763

00:26:48,110 --> 00:26:45,120

each other and frankly this idea of

764

00:26:50,330 --> 00:26:48,120

using high altitudes Babylons is uh it's

765

00:26:53,210 --> 00:26:50,340

smart there's very good reasons why uh

766

00:26:55,490 --> 00:26:53,220

nations would do that and certainly do

767

00:26:59,269 --> 00:26:55,500

clearly do that to each other so this

768

00:27:00,649 --> 00:26:59,279

first one is fun to watch it gave a

769

00:27:02,990 --> 00:27:00,659

little hoop a lot a little excitement

770

00:27:06,289 --> 00:27:03,000

not nearly as weird as what we're seeing

771

00:27:08,149 --> 00:27:06,299

now in recent days well yeah so

772

00:27:10,190 --> 00:27:08,159

consequently and like you say we saw

773

00:27:12,470 --> 00:27:10,200

that play out in the media it was pecked

774

00:27:13,730 --> 00:27:12,480

up and I've had a few chats with various

775

00:27:17,029 --> 00:27:13,740

people and

776

00:27:19,610 --> 00:27:17,039

I'm guessing this kind of stuff happens

777

00:27:21,590 --> 00:27:19,620

maybe not so publicly but more more

778

00:27:24,230 --> 00:27:21,600

often than we think that some kind of

779

00:27:27,649 --> 00:27:24,240

spy technology is picked up by another

780

00:27:29,930 --> 00:27:27,659

country and it's either ignored or is

781

00:27:32,630 --> 00:27:29,940

dealt with but it doesn't happen live on

782

00:27:34,850 --> 00:27:32,640

Fox live on CNN you know live around the

783

00:27:36,289 --> 00:27:34,860

world would that be correct or is it

784

00:27:38,990 --> 00:27:36,299

still unusual for that kind of thing to

785

00:27:40,850 --> 00:27:39,000

happen no it's still unusual and I I

786

00:27:42,769 --> 00:27:40,860

think the idea of countries spying on

787

00:27:44,330 --> 00:27:42,779

each other isn't okay so we know we do

788

00:27:47,149 --> 00:27:44,340

that we know you know whether it's

789

00:27:48,950 --> 00:27:47,159

high-flying man platforms or satellites

790

00:27:51,529 --> 00:27:48,960

we know this goes on

791

00:27:53,450 --> 00:27:51,539

um but the idea that it go I guess what

792

00:27:55,430 --> 00:27:53,460

is an unusual is this idea that it goes

793

00:27:57,110 --> 00:27:55,440

on undetected or excuse me it goes

794

00:27:59,870 --> 00:27:57,120

undetected quite frequently and we don't

795

00:28:03,549 --> 00:27:59,880

hear about it when you know in reality

796

00:28:05,990 --> 00:28:03,559

uh it's extremely difficult to detect

797

00:28:07,730 --> 00:28:06,000

balloons especially these high altitude

798

00:28:09,529 --> 00:28:07,740

balloons or even some of the ones I'm

799

00:28:11,690 --> 00:28:09,539

sure we'll get into more recently yeah

800

00:28:14,750 --> 00:28:11,700

they've been down

801  
00:28:16,370 --> 00:28:14,760  
it is not easy to detect these systems

802  
00:28:17,870 --> 00:28:16,380  
even from your ground-based radar

803  
00:28:20,330 --> 00:28:17,880  
systems even from your Airborne even

804  
00:28:22,669 --> 00:28:20,340  
from your fancy military uh Doppler

805  
00:28:26,450 --> 00:28:22,679  
radar systems I think people to a

806  
00:28:28,070 --> 00:28:26,460  
certain extent have a an idea of any

807  
00:28:29,930 --> 00:28:28,080  
radar capability so it doesn't matter

808  
00:28:31,190 --> 00:28:29,940  
the United States but anybody's Nation

809  
00:28:33,110 --> 00:28:31,200  
this beliefs that they have this

810  
00:28:34,430 --> 00:28:33,120  
omnipotent view of their sky and they're

811  
00:28:36,169 --> 00:28:34,440  
like oh yeah of course this stuff

812  
00:28:37,610 --> 00:28:36,179  
probably floats in all the time they

813  
00:28:40,549 --> 00:28:37,620

just ignore it they don't shoot it down

814

00:28:42,890 --> 00:28:40,559

it doesn't make news when in reality in

815

00:28:44,630 --> 00:28:42,900

particular in these instances we're

816

00:28:46,370 --> 00:28:44,640

talking about now where we're talking

817

00:28:50,029 --> 00:28:46,380

about something that is extremely slow

818

00:28:52,190 --> 00:28:50,039

moving so balloon like and movement uh

819

00:28:54,769 --> 00:28:52,200

you know in in the case of the the first

820

00:28:57,830 --> 00:28:54,779

instance definitely a balloon these are

821

00:29:00,110 --> 00:28:57,840

very slow moving objects uh and so these

822

00:29:02,690 --> 00:29:00,120

are objects that that your Doppler radar

823

00:29:05,630 --> 00:29:02,700

systems you know which Doppler radar

824

00:29:07,610 --> 00:29:05,640

accounts for 99.9 of all the radar

825

00:29:09,590 --> 00:29:07,620

systems whether it's civil or military

826  
00:29:11,750 --> 00:29:09,600  
so even you you would be your phased

827  
00:29:13,549 --> 00:29:11,760  
array like the fancy Radars in the F-18

828  
00:29:15,409 --> 00:29:13,559  
did you hear about and all this time oh

829  
00:29:17,390 --> 00:29:15,419  
they had the phased array

830  
00:29:20,210 --> 00:29:17,400  
um those are still Doppler radar systems

831  
00:29:22,610 --> 00:29:20,220  
and one of the principal components that

832  
00:29:25,130 --> 00:29:22,620  
you need for it to pick up anything is

833  
00:29:27,049 --> 00:29:25,140  
movement so it needs that movement to

834  
00:29:28,850 --> 00:29:27,059  
relay back velocity direction and travel

835  
00:29:29,870 --> 00:29:28,860  
that kind of stuff so balloons and these

836  
00:29:33,409 --> 00:29:29,880  
types of things that are moving

837  
00:29:35,269 --> 00:29:33,419  
exceptionally slow are uh ignored that

838  
00:29:36,950 --> 00:29:35,279

they're you know discriminated against

839

00:29:39,889 --> 00:29:36,960

it comes out in the chatter and they're

840

00:29:42,190 --> 00:29:39,899

just ignored by those systems so uh you

841

00:29:44,570 --> 00:29:42,200

know this idea that we regularly

842

00:29:47,510 --> 00:29:44,580

encounter balloons and just don't make

843

00:29:49,010 --> 00:29:47,520

it public it's not necessarily true you

844

00:29:51,470 --> 00:29:49,020

know I I don't know that that's that's

845

00:29:53,810 --> 00:29:51,480

the case we probably do

846

00:29:55,789 --> 00:29:53,820

but it's not nearly as frequently as

847

00:29:57,830 --> 00:29:55,799

people assume

848

00:29:59,389 --> 00:29:57,840

okay now that makes me think straight

849

00:30:01,970 --> 00:29:59,399

away and before we get to those other

850

00:30:03,590 --> 00:30:01,980

three uh cases that have kind of

851  
00:30:08,090 --> 00:30:03,600  
happened recently

852  
00:30:11,330 --> 00:30:08,100  
I said a good chance then that Pilots

853  
00:30:13,730 --> 00:30:11,340  
flying at speed and altitude not seeing

854  
00:30:16,610 --> 00:30:13,740  
these things on their equipment from a

855  
00:30:18,769 --> 00:30:16,620  
cockpit could whiz past one of these and

856  
00:30:21,889 --> 00:30:18,779  
it gets snapped on a cell phone like we

857  
00:30:24,590 --> 00:30:21,899  
saw pictures last year or so or we hear

858  
00:30:28,070 --> 00:30:24,600  
reports of and they come back as UAP or

859  
00:30:30,470 --> 00:30:28,080  
UFOs is that then likely to account for

860  
00:30:32,029 --> 00:30:30,480  
at least some of these other reports

861  
00:30:35,510 --> 00:30:32,039  
that are getting filtered into UAP

862  
00:30:38,750 --> 00:30:35,520  
reports sure no I think that's I think I

863  
00:30:40,730 --> 00:30:38,760

think that has always been uh you know a

864

00:30:43,549 --> 00:30:40,740

leading hypothesis for a lot of the the

865

00:30:45,830 --> 00:30:43,559

that's a lot let me walk that back for

866

00:30:47,570 --> 00:30:45,840

at least some of these UAP reports that

867

00:30:50,090 --> 00:30:47,580

you've heard about particularly kind of

868

00:30:52,490 --> 00:30:50,100

the scenario you just uh you just

869

00:30:54,649 --> 00:30:52,500

mentioned we're a pilot excuse me

870

00:30:57,110 --> 00:30:54,659

is flying along and suddenly there's an

871

00:30:58,610 --> 00:30:57,120

object whoa where did that come from I

872

00:31:00,769 --> 00:30:58,620

never saw on the radar that type of

873

00:31:03,889 --> 00:31:00,779

thing absolutely I think that those are

874

00:31:05,450 --> 00:31:03,899

scenarios that that fit uh that balloon

875

00:31:07,430 --> 00:31:05,460

all the characteristics of a balloon

876  
00:31:09,529 --> 00:31:07,440  
object so slow moving not being picked

877  
00:31:12,049 --> 00:31:09,539  
up even by the phased array and it

878  
00:31:13,010 --> 00:31:12,059  
doesn't matter then it's important it

879  
00:31:15,409 --> 00:31:13,020  
doesn't matter if you've got the whole

880  
00:31:17,149 --> 00:31:15,419  
Carrier Group around you there's just

881  
00:31:19,190 --> 00:31:17,159  
certain characteristics of Doppler radar

882  
00:31:21,950 --> 00:31:19,200  
that are meant to ignore slow-moving

883  
00:31:23,690 --> 00:31:21,960  
balloons and so nobody's picking it up

884  
00:31:25,730 --> 00:31:23,700  
and so that you could just pop in and

885  
00:31:27,769 --> 00:31:25,740  
pass it absolutely I think that

886  
00:31:31,070 --> 00:31:27,779  
certainly could account for it I think

887  
00:31:33,350 --> 00:31:31,080  
that the uh photo of the silver object

888  
00:31:35,149 --> 00:31:33,360

that that made it into the UAP task

889

00:31:37,549 --> 00:31:35,159

force report you know we released on the

890

00:31:39,409 --> 00:31:37,559

debrief and then later uh George Knapp

891

00:31:41,630 --> 00:31:39,419

and Jeremy Corbell released more

892

00:31:43,730 --> 00:31:41,640

photographs of that same series I think

893

00:31:46,190 --> 00:31:43,740

even when we first reported that we said

894

00:31:47,630 --> 00:31:46,200

it looks like a balloon everybody we

895

00:31:50,510 --> 00:31:47,640

don't know we don't know what was weird

896

00:31:52,370 --> 00:31:50,520

about it that kind of thing and um I

897

00:31:55,730 --> 00:31:52,380

think it it certainly was included in

898

00:31:58,130 --> 00:31:55,740

the reports as objects that are in

899

00:32:00,409 --> 00:31:58,140

restricted airspace that are indeed

900

00:32:01,909 --> 00:32:00,419

unidentified and and that that

901  
00:32:03,350 --> 00:32:01,919  
particular series with those photographs

902  
00:32:04,970 --> 00:32:03,360  
I think there may have been some some

903  
00:32:07,250 --> 00:32:04,980  
other characteristics with it but it

904  
00:32:09,049 --> 00:32:07,260  
made it odd as well

905  
00:32:11,029 --> 00:32:09,059  
um it could be consistent with some type

906  
00:32:13,610 --> 00:32:11,039  
of surveillance or spot alone so that

907  
00:32:15,289 --> 00:32:13,620  
odd characteristics could be uh you know

908  
00:32:17,690 --> 00:32:15,299  
that it was putting off some emissions I

909  
00:32:19,669 --> 00:32:17,700  
don't know but but uh that doesn't

910  
00:32:22,010 --> 00:32:19,679  
necessarily mean that there's anything

911  
00:32:24,350 --> 00:32:22,020  
beyond that per se so I think that that

912  
00:32:26,990 --> 00:32:24,360  
definitely could account for that on the

913  
00:32:29,630 --> 00:32:27,000

flip side of that the the the the

914

00:32:31,370 --> 00:32:29,640

otter thing is where you you exactly

915

00:32:33,649 --> 00:32:31,380

flip that scenario and we heard that

916

00:32:34,690 --> 00:32:33,659

same thing with a lot of the pilots the

917

00:32:38,090 --> 00:32:34,700

the

918

00:32:39,649 --> 00:32:38,100

2014-2015 East Coast where you had um

919

00:32:41,870 --> 00:32:39,659

you know Ryan Graves has spoken to this

920

00:32:44,870 --> 00:32:41,880

where you're they were getting radar

921

00:32:46,730 --> 00:32:44,880

returns but not seeing them visually so

922

00:32:48,710 --> 00:32:46,740

that's the opposite you know balloon's

923

00:32:50,570 --> 00:32:48,720

very slow moving objects you wouldn't

924

00:32:52,430 --> 00:32:50,580

pick up on radar but you would see

925

00:32:54,769 --> 00:32:52,440

visually so that's a little bit interest

926

00:32:56,750 --> 00:32:54,779

thing in I think in those cases that's

927

00:32:59,269 --> 00:32:56,760

that's much more difficult to just

928

00:33:02,389 --> 00:32:59,279

automatically say oh put in that balloon

929

00:33:04,130 --> 00:33:02,399

category and so but yeah I think I think

930

00:33:06,470 --> 00:33:04,140

certainly there's plenty of instances

931

00:33:08,450 --> 00:33:06,480

where that certainly could have happened

932

00:33:10,190 --> 00:33:08,460

I think there's been a if anyone's on

933

00:33:12,049 --> 00:33:10,200

the social media chat the last week or

934

00:33:14,330 --> 00:33:12,059

so there's a lot of people on both

935

00:33:16,130 --> 00:33:14,340

extremes of the camp of look this

936

00:33:18,350 --> 00:33:16,140

explains that all UFO sightings are

937

00:33:19,850 --> 00:33:18,360

balloons and there's also the folks who

938

00:33:21,830 --> 00:33:19,860

are very set in their ways that know

939

00:33:23,389 --> 00:33:21,840

these are definitely alien spacecraft of

940

00:33:24,710 --> 00:33:23,399

some type and the governments are

941

00:33:26,930 --> 00:33:24,720

keeping this all secret and using

942

00:33:28,310 --> 00:33:26,940

balloons and it's been difficult to Wade

943

00:33:30,049 --> 00:33:28,320

through that and find that logical

944

00:33:32,269 --> 00:33:30,059

discussion in the discussion in the

945

00:33:34,130 --> 00:33:32,279

middle at times where to say look you

946

00:33:37,190 --> 00:33:34,140

can't account for either or for these

947

00:33:39,230 --> 00:33:37,200

all being one thing so that first one we

948

00:33:41,570 --> 00:33:39,240

definitely know was a Chinese spibelin

949

00:33:43,310 --> 00:33:41,580

it moved on though didn't it that all of

950

00:33:45,350 --> 00:33:43,320

a sudden another object was picked up

951  
00:33:47,029 --> 00:33:45,360  
and then another and then another so

952  
00:33:49,190 --> 00:33:47,039  
we're at the point now as we record this

953  
00:33:51,769 --> 00:33:49,200  
it's the 13th of February and in the

954  
00:33:53,810 --> 00:33:51,779  
last what 12 hours or so a fourth object

955  
00:33:55,669 --> 00:33:53,820  
has been tracked confirmed

956  
00:33:57,110 --> 00:33:55,679  
what is going on in term that we've now

957  
00:33:59,509 --> 00:33:57,120  
got three if you want to just show your

958  
00:34:02,570 --> 00:33:59,519  
thoughts with with these now it is

959  
00:34:05,330 --> 00:34:02,580  
getting weird you know it really is this

960  
00:34:07,430 --> 00:34:05,340  
is strange and I will say at this point

961  
00:34:08,450 --> 00:34:07,440  
what we know right now

962  
00:34:10,190 --> 00:34:08,460  
um you know and I've seen those same

963  
00:34:12,470 --> 00:34:10,200

extremes that you mentioned on on social

964

00:34:15,349 --> 00:34:12,480

media and Twitter like aha this all

965

00:34:19,129 --> 00:34:15,359

proves their balloons I think that it's

966

00:34:20,750 --> 00:34:19,139

uh extremely early and presumptuous to

967

00:34:23,869 --> 00:34:20,760

to say that even the three and four

968

00:34:26,869 --> 00:34:23,879

objects uh you know in recent days so

969

00:34:28,369 --> 00:34:26,879

past the Chinese balloon to conclude

970

00:34:31,250 --> 00:34:28,379

that those are balloons I think that

971

00:34:34,550 --> 00:34:31,260

that's too early to conclude in fact uh

972

00:34:38,089 --> 00:34:34,560

the Pentagon has uh has been very

973

00:34:39,829 --> 00:34:38,099

strangely and forcefully uh refused to

974

00:34:43,010 --> 00:34:39,839

describe these as balloons and continues

975

00:34:44,990 --> 00:34:43,020

to call them objects and and you know we

976  
00:34:47,149 --> 00:34:45,000  
we had norad's Commander do a press

977  
00:34:49,609 --> 00:34:47,159  
conference last night during the middle

978  
00:34:51,169 --> 00:34:49,619  
of the Super Bowl of all things you know

979  
00:34:52,669 --> 00:34:51,179  
saying that he would not categorize

980  
00:34:54,470 --> 00:34:52,679  
these as balloons so I think it's early

981  
00:34:56,810 --> 00:34:54,480  
there you know these are these are

982  
00:34:58,270 --> 00:34:56,820  
objects and so a couple of things that

983  
00:35:01,310 --> 00:34:58,280  
are strange here

984  
00:35:02,630 --> 00:35:01,320  
first that we're picking them up so

985  
00:35:05,030 --> 00:35:02,640  
everything I just described before about

986  
00:35:06,950 --> 00:35:05,040  
how difficult it is to pick up slow

987  
00:35:08,770 --> 00:35:06,960  
moving objects or balloons so the fact

988  
00:35:11,390 --> 00:35:08,780

that we're picking them up is intriguing

989

00:35:13,370 --> 00:35:11,400

uh the fact that we're picking them up

990

00:35:15,890 --> 00:35:13,380

with a frequency we have seen in the

991

00:35:18,109 --> 00:35:15,900

last couple days suggests to me that

992

00:35:19,910 --> 00:35:18,119

that perhaps after the first five

993

00:35:23,510 --> 00:35:19,920

balloon case

994

00:35:25,250 --> 00:35:23,520

um NORAD has at least put some of their

995

00:35:28,250 --> 00:35:25,260

radar systems some of their air defense

996

00:35:31,069 --> 00:35:28,260

systems they've they've dialed up the

997

00:35:32,569 --> 00:35:31,079

frequency and the best way to explain it

998

00:35:34,790 --> 00:35:32,579

is they discern it so you're spinning

999

00:35:37,370 --> 00:35:34,800

out these Doppler radar radio frequency

1000

00:35:39,290 --> 00:35:37,380

waves if you spin out too many of them

1001  
00:35:41,030 --> 00:35:39,300  
you're gonna get they're going to be

1002  
00:35:42,950 --> 00:35:41,040  
absorbed and returned to you from every

1003  
00:35:44,089 --> 00:35:42,960  
object encounter so mountains so you're

1004  
00:35:45,589 --> 00:35:44,099  
talking about Canada and everything it's

1005  
00:35:48,349 --> 00:35:45,599  
bringing back mountains you're going to

1006  
00:35:51,050 --> 00:35:48,359  
get clutter you hear that term and so

1007  
00:35:53,750 --> 00:35:51,060  
really you you fine-tune these systems

1008  
00:35:55,550 --> 00:35:53,760  
to look for objects that move consist

1009  
00:35:57,170 --> 00:35:55,560  
with aircraft obviously smooth

1010  
00:35:59,390 --> 00:35:57,180  
consistent with planes that type of

1011  
00:36:02,690 --> 00:35:59,400  
stuff it would appear the fact that

1012  
00:36:04,609 --> 00:36:02,700  
we've had you know three or four of

1013  
00:36:07,250 --> 00:36:04,619

these instances come up in the last

1014

00:36:09,589 --> 00:36:07,260

couple days that at least some of these

1015

00:36:12,470 --> 00:36:09,599

systems have now been kind of opened up

1016

00:36:15,050 --> 00:36:12,480

the filters and so they're able to pick

1017

00:36:17,630 --> 00:36:15,060

up these slower moving objects

1018

00:36:19,670 --> 00:36:17,640

and then you know in these instances so

1019

00:36:23,030 --> 00:36:19,680

we have the the first one coming uh

1020

00:36:24,710 --> 00:36:23,040

Friday afternoon off the coast of Alaska

1021

00:36:26,810 --> 00:36:24,720

where and I think they actually picked

1022

00:36:29,270 --> 00:36:26,820

it up Thursday evening where Pilots are

1023

00:36:31,250 --> 00:36:29,280

being sent up to interrogate it you know

1024

00:36:33,829 --> 00:36:31,260

investigate what it is determine what it

1025

00:36:35,089 --> 00:36:33,839

is and then uh they're they're working

1026  
00:36:36,710 --> 00:36:35,099  
together a mission package we're

1027  
00:36:40,730 --> 00:36:36,720  
actually taking these objects down

1028  
00:36:45,170 --> 00:36:43,790  
it's weird okay I mean I I don't even

1029  
00:36:47,089 --> 00:36:45,180  
know where to begin on the kind of

1030  
00:36:50,390 --> 00:36:47,099  
weirdness scale of what we're seeing

1031  
00:36:53,270 --> 00:36:50,400  
right now down to the fact that

1032  
00:36:55,790 --> 00:36:53,280  
um the Pentagon is being really open

1033  
00:36:58,730 --> 00:36:55,800  
about you know they're giving a lot of

1034  
00:37:01,490 --> 00:36:58,740  
information about nothing you know it's

1035  
00:37:02,630 --> 00:37:01,500  
very odd for me to see the Pentagon in

1036  
00:37:04,910 --> 00:37:02,640  
the white house

1037  
00:37:06,770 --> 00:37:04,920  
um you know with the Friday's Alaskan

1038  
00:37:08,270 --> 00:37:06,780

balloon shoot down

1039

00:37:10,310 --> 00:37:08,280

um I think I pointed this out on social

1040

00:37:12,290 --> 00:37:10,320

media because I got the Press advisor

1041

00:37:14,990 --> 00:37:12,300

the the Department of Defense sent me a

1042

00:37:17,450 --> 00:37:15,000

press advisory uh

1043

00:37:19,910 --> 00:37:17,460

at about 10 30 in the morning

1044

00:37:21,770 --> 00:37:19,920

Washington time saying hey we're having

1045

00:37:23,210 --> 00:37:21,780

a live press conference today I thought

1046

00:37:23,990 --> 00:37:23,220

this is weird you know they usually

1047

00:37:26,510 --> 00:37:24,000

don't

1048

00:37:27,650 --> 00:37:26,520

schedule out you know it was unexpected

1049

00:37:28,790 --> 00:37:27,660

so I'm like this is interesting

1050

00:37:30,770 --> 00:37:28,800

something's going on you always know

1051  
00:37:31,970 --> 00:37:30,780  
then usually it's we've done some kind

1052  
00:37:34,550 --> 00:37:31,980  
of terrorist Mission there's something

1053  
00:37:36,109 --> 00:37:34,560  
we've killed a an Isis leader so I was

1054  
00:37:38,510 --> 00:37:36,119  
like all right so I better stick up you

1055  
00:37:41,450 --> 00:37:38,520  
know stick around to watch this and uh

1056  
00:37:43,490 --> 00:37:41,460  
it was supposed to happen at 2PM

1057  
00:37:44,990 --> 00:37:43,500  
and by 2 pm it didn't come on I'm like

1058  
00:37:47,630 --> 00:37:45,000  
what is going on so I texted some people

1059  
00:37:49,430 --> 00:37:47,640  
I knew at the Pentagon and that's when

1060  
00:37:51,710 --> 00:37:49,440  
they text me back and said we shot down

1061  
00:37:54,050 --> 00:37:51,720  
another object over Alaska and then

1062  
00:37:55,490 --> 00:37:54,060  
simultaneously uh it turned out the

1063  
00:37:56,569 --> 00:37:55,500

White House was doing a press conference

1064

00:37:59,510 --> 00:37:56,579

for it

1065

00:38:02,089 --> 00:37:59,520

but they had shot this object down at 1

1066

00:38:03,230 --> 00:38:02,099

pm and so it's this weird they announced

1067

00:38:05,270 --> 00:38:03,240

the press conference that they were

1068

00:38:08,210 --> 00:38:05,280

going before they shot it down so it's

1069

00:38:09,890 --> 00:38:08,220

like what it was odd to see that level

1070

00:38:11,990 --> 00:38:09,900

of transparency you know putting that

1071

00:38:13,670 --> 00:38:12,000

perspective that it's like announcing

1072

00:38:15,410 --> 00:38:13,680

the press conference for the bin Laden

1073

00:38:17,390 --> 00:38:15,420

raid before you've ever even landed and

1074

00:38:20,150 --> 00:38:17,400

taken Bin Laden out now you know what if

1075

00:38:22,450 --> 00:38:20,160

something goes wrong why and so it's

1076

00:38:26,870 --> 00:38:22,460

interesting that level of transparency

1077

00:38:29,270 --> 00:38:26,880

and then the fact it's it that their um

1078

00:38:33,050 --> 00:38:29,280

they're shooting these objects down is

1079

00:38:34,609 --> 00:38:33,060

really strange I mean this is uh I can't

1080

00:38:36,890 --> 00:38:34,619

stress enough that that's something that

1081

00:38:38,329 --> 00:38:36,900

is certainly not normal you know this

1082

00:38:39,290 --> 00:38:38,339

idea all this happens all the time but

1083

00:38:40,670 --> 00:38:39,300

you don't hear about it we're hearing

1084

00:38:43,250 --> 00:38:40,680

about it now

1085

00:38:45,349 --> 00:38:43,260

um I can't think and I've spoken to to

1086

00:38:47,569 --> 00:38:45,359

numerous other people in the military

1087

00:38:50,870 --> 00:38:47,579

outside the military defense and nobody

1088

00:38:52,849 --> 00:38:50,880

can think of a a similar uh set of

1089

00:38:56,630 --> 00:38:52,859

circumstances where we've started

1090

00:38:58,670 --> 00:38:56,640

shooting down objects uh even over the

1091

00:39:02,089 --> 00:38:58,680

continental United States which

1092

00:39:03,470 --> 00:39:02,099

um apparently by by Nora had to own you

1093

00:39:05,030 --> 00:39:03,480

know norad's Commander at least as

1094

00:39:07,010 --> 00:39:05,040

recently as last night his press

1095

00:39:08,089 --> 00:39:07,020

conference that apparently posed no

1096

00:39:11,150 --> 00:39:08,099

threat

1097

00:39:12,670 --> 00:39:11,160

physical safety military safety and I

1098

00:39:15,109 --> 00:39:12,680

saw that quote Yeah

1099

00:39:18,710 --> 00:39:15,119

they don't seem to know what they are

1100

00:39:21,829 --> 00:39:18,720

that is super strange so it's it's it's

1101

00:39:23,329 --> 00:39:21,839

it's really strange I mean it it's the

1102

00:39:25,069 --> 00:39:23,339

equivalent of of you seeing someone

1103

00:39:26,270 --> 00:39:25,079

walking through your neighborhood doing

1104

00:39:27,890 --> 00:39:26,280

nothing but walking down the road

1105

00:39:29,089 --> 00:39:27,900

whistling but you're like I don't

1106

00:39:31,550 --> 00:39:29,099

recognize them

1107

00:39:33,470 --> 00:39:31,560

I'm gonna shoot them you know I'm gonna

1108

00:39:35,750 --> 00:39:33,480

kill him and then I'm never gonna find

1109

00:39:38,089 --> 00:39:35,760

out who they are like it's just weird to

1110

00:39:40,970 --> 00:39:38,099

see that kind of level of force you know

1111

00:39:42,589 --> 00:39:40,980

even uh even if these were were known

1112

00:39:43,970 --> 00:39:42,599

spy balloons

1113

00:39:46,190 --> 00:39:43,980

um but shoot them down is kind of

1114

00:39:48,530 --> 00:39:46,200

provocative anyway that's a pretty

1115

00:39:50,210 --> 00:39:48,540

usually when you escalate to lethal

1116

00:39:52,790 --> 00:39:50,220

Force like that it it leads to more

1117

00:39:55,790 --> 00:39:52,800

escalation in one way or another and so

1118

00:39:57,410 --> 00:39:55,800

the decision to be made to shoot them

1119

00:39:59,329 --> 00:39:57,420

down and continue to shoot them down

1120

00:40:02,030 --> 00:39:59,339

they may shoot some more down today you

1121

00:40:04,550 --> 00:40:02,040

know after we record this it's really

1122

00:40:07,190 --> 00:40:04,560

strange and it's weird to see what's

1123

00:40:09,770 --> 00:40:07,200

going on here so do you think there's a

1124

00:40:12,349 --> 00:40:09,780

sense of confusion from coming with from

1125

00:40:15,710 --> 00:40:12,359

within the military or is this something

1126  
00:40:18,050 --> 00:40:15,720  
that is playing out publicly one way but

1127  
00:40:20,089 --> 00:40:18,060  
maybe they do know what's going on and

1128  
00:40:22,250 --> 00:40:20,099  
this is a bit of a distraction tactic on

1129  
00:40:24,950 --> 00:40:22,260  
both sides what what's Your Gut telling

1130  
00:40:27,530 --> 00:40:24,960  
you I I that is you know there's so many

1131  
00:40:29,630 --> 00:40:27,540  
levels of weirdness to this but but that

1132  
00:40:31,790 --> 00:40:29,640  
another level of that weirdness is that

1133  
00:40:33,109 --> 00:40:31,800  
legitimately everyone that I've spoken

1134  
00:40:35,089 --> 00:40:33,119  
to

1135  
00:40:36,530 --> 00:40:35,099  
um you know down from from from people

1136  
00:40:38,390 --> 00:40:36,540  
who are inside the Pentagon who are

1137  
00:40:40,550 --> 00:40:38,400  
inside the intelligence community

1138  
00:40:42,109 --> 00:40:40,560

to even people who who work in and

1139

00:40:43,130 --> 00:40:42,119

around the White House and everybody's

1140

00:40:45,710 --> 00:40:43,140

like

1141

00:40:47,870 --> 00:40:45,720

we don't know what's going on and so

1142

00:40:50,210 --> 00:40:47,880

it's this really strange thing that so

1143

00:40:53,569 --> 00:40:50,220

now we're you know almost three days

1144

00:40:57,170 --> 00:40:53,579

past uh the the shoot down of the object

1145

00:40:58,790 --> 00:40:57,180

in Alaska and I I do not believe you

1146

00:41:00,950 --> 00:40:58,800

know based on everything that I've heard

1147

00:41:03,109 --> 00:41:00,960

at this point I do not believe that they

1148

00:41:05,089 --> 00:41:03,119

still or they still do not know what

1149

00:41:07,329 --> 00:41:05,099

they shot down they have not recovered

1150

00:41:10,490 --> 00:41:07,339

that object they don't know what it is

1151

00:41:12,530 --> 00:41:10,500

and I think it's even more intriguing

1152

00:41:14,569 --> 00:41:12,540

that you're seeing that you're seeing

1153

00:41:16,430 --> 00:41:14,579

these shoot downs and you and and they

1154

00:41:18,710 --> 00:41:16,440

don't seem to know what they are and

1155

00:41:22,310 --> 00:41:18,720

there's obviously some characteristics

1156

00:41:24,950 --> 00:41:22,320

about them uh that are causing them not

1157

00:41:26,450 --> 00:41:24,960

to label them any one specific thing

1158

00:41:29,030 --> 00:41:26,460

because they've been very cautious I

1159

00:41:31,910 --> 00:41:29,040

know we did see some reports uh out from

1160

00:41:34,010 --> 00:41:31,920

uh U.S senator Chuck Schumer and then

1161

00:41:36,349 --> 00:41:34,020

you know somebody else uh you know said

1162

00:41:39,650 --> 00:41:36,359

attributed that Biden had said these

1163

00:41:42,230 --> 00:41:39,660

three objects were balloons but uh you

1164

00:41:44,390 --> 00:41:42,240

know the Pentagon rather forcefully

1165

00:41:46,750 --> 00:41:44,400

pushed back on that with their most

1166

00:41:49,670 --> 00:41:46,760

recent press conference uh you know

1167

00:41:52,010 --> 00:41:49,680

explicitly saying I would not categorize

1168

00:41:55,010 --> 00:41:52,020

these as balloons right now and so

1169

00:41:57,170 --> 00:41:55,020

that's that to me suggests there were

1170

00:41:59,510 --> 00:41:57,180

definitely characteristics or aspects

1171

00:42:01,609 --> 00:41:59,520

about them whenever these objects were

1172

00:42:03,530 --> 00:42:01,619

interrogated by the pilots which which

1173

00:42:05,690 --> 00:42:03,540

what I mean by that is you sent other

1174

00:42:08,870 --> 00:42:05,700

fighter aircraft up there to get close

1175

00:42:12,430 --> 00:42:08,880

look at it see what it is there were

1176

00:42:15,109 --> 00:42:12,440

aspects about them that um

1177

00:42:16,910 --> 00:42:15,119

went against what you would expect to

1178

00:42:19,970 --> 00:42:16,920

see with a balloon I thought another

1179

00:42:22,310 --> 00:42:19,980

really intriguing comment from norad's

1180

00:42:24,410 --> 00:42:22,320

Commander was when he he did push back

1181

00:42:27,349 --> 00:42:24,420

on that and say you know I'm calling the

1182

00:42:28,970 --> 00:42:27,359

these things objects for a reason I

1183

00:42:31,609 --> 00:42:28,980

would not categorize them as balloons

1184

00:42:34,310 --> 00:42:31,619

they may be they may be some type of

1185

00:42:36,710 --> 00:42:34,320

objects that uh you know have some

1186

00:42:38,329 --> 00:42:36,720

gaseous substance so helium something

1187

00:42:41,569 --> 00:42:38,339

you know lighter than air that lives on

1188

00:42:43,370 --> 00:42:41,579

your balloon uh inside a structure

1189

00:42:46,250 --> 00:42:43,380

and so when he you know that common

1190

00:42:49,609 --> 00:42:46,260

alone suggests that there's something on

1191

00:42:52,010 --> 00:42:49,619

the exterior of these that is acting

1192

00:42:54,050 --> 00:42:52,020

unlike what you would see with just a

1193

00:42:56,150 --> 00:42:54,060

normal balloon and so when you start

1194

00:42:57,170 --> 00:42:56,160

considering what does that mean

1195

00:42:59,329 --> 00:42:57,180

um you know there's a couple of things

1196

00:43:00,710 --> 00:42:59,339

you know for for example your normal

1197

00:43:03,770 --> 00:43:00,720

balloon is not going to show up on

1198

00:43:06,290 --> 00:43:03,780

infrared sensors so IR sensors that type

1199

00:43:08,750 --> 00:43:06,300

of stuff is not going to produce a

1200

00:43:10,730 --> 00:43:08,760

return uh normal balloons are not going

1201  
00:43:12,170 --> 00:43:10,740  
to be very radio or excuse me radar

1202  
00:43:14,030 --> 00:43:12,180  
reflected so you're not going to get

1203  
00:43:16,130 --> 00:43:14,040  
good radar Returns on them that type of

1204  
00:43:18,190 --> 00:43:16,140  
thing so when they've gone to

1205  
00:43:21,650 --> 00:43:18,200  
interrogate these objects potentially

1206  
00:43:22,970 --> 00:43:21,660  
they have displayed IR characteristics

1207  
00:43:28,550 --> 00:43:22,980  
or

1208  
00:43:29,870 --> 00:43:28,560  
consistent with a solid craft rather

1209  
00:43:33,530 --> 00:43:29,880  
than some type of lighter than air

1210  
00:43:35,150 --> 00:43:33,540  
helium balloon Propel I don't know you

1211  
00:43:38,150 --> 00:43:35,160  
know but that's we're having to kind of

1212  
00:43:42,170 --> 00:43:38,160  
interpret through uh what we're hearing

1213  
00:43:44,089 --> 00:43:42,180

here and the fact that um I genuinely at

1214

00:43:46,730 --> 00:43:44,099

this point think that there is some

1215

00:43:48,890 --> 00:43:46,740

mystery surrounding all of it even for

1216

00:43:51,370 --> 00:43:48,900

the Pentagon and everybody involved I

1217

00:43:54,170 --> 00:43:51,380

don't really think that anybody

1218

00:43:55,849 --> 00:43:54,180

conclusively knows what it is and I

1219

00:43:59,270 --> 00:43:55,859

think if it was a

1220

00:44:00,829 --> 00:43:59,280

you know if it was a rogue car lot

1221

00:44:02,750 --> 00:44:00,839

balloons or something you know some

1222

00:44:05,150 --> 00:44:02,760

giant Car Lot balloon that somebody let

1223

00:44:06,650 --> 00:44:05,160

go and went in the air these that would

1224

00:44:08,329 --> 00:44:06,660

it would possess characteristics that

1225

00:44:11,089 --> 00:44:08,339

when they went to interrogate it would

1226

00:44:14,030 --> 00:44:11,099

be pretty obvious that it's a balloon

1227

00:44:15,950 --> 00:44:14,040

and so for some reason there's aspects

1228

00:44:17,569 --> 00:44:15,960

about you know the objects that we've

1229

00:44:20,569 --> 00:44:17,579

heard about in recent days that don't

1230

00:44:21,890 --> 00:44:20,579

seem to fit that you know I I even it

1231

00:44:23,690 --> 00:44:21,900

was reported in the New York Times and

1232

00:44:26,150 --> 00:44:23,700

then another person uh out of the

1233

00:44:27,530 --> 00:44:26,160

Pentagon told me confirmed what had the

1234

00:44:30,910 --> 00:44:27,540

New York Times was told that at least

1235

00:44:34,250 --> 00:44:30,920

with the Alaskan object it broke apart

1236

00:44:37,490 --> 00:44:34,260

and so when it land it broke apart like

1237

00:44:38,870 --> 00:44:37,500

you would expect the example I got uh I

1238

00:44:40,910 --> 00:44:38,880

think the New York Times said broken to

1239

00:44:42,589 --> 00:44:40,920

pieces I was told it broke like glass so

1240

00:44:45,109 --> 00:44:42,599

like if you drop the glass cup and

1241

00:44:47,150 --> 00:44:45,119

that's obviously not something you would

1242

00:44:48,829 --> 00:44:47,160

expect with a rubberized balloon or

1243

00:44:50,390 --> 00:44:48,839

balloon materials so I don't know what

1244

00:44:52,730 --> 00:44:50,400

we're looking at here

1245

00:44:54,589 --> 00:44:52,740

yeah I was a few people mentioned online

1246

00:44:56,569 --> 00:44:54,599

maybe some of the more skeptical folks

1247

00:44:58,190 --> 00:44:56,579

let's just say that this kind of

1248

00:44:59,809 --> 00:44:58,200

shatters the illusion for many others

1249

00:45:00,950 --> 00:44:59,819

with their interest in the UFO subject

1250

00:45:02,690 --> 00:45:00,960

and we're going to talk about the more

1251  
00:45:03,890 --> 00:45:02,700  
kind of ET side of things in just a

1252  
00:45:07,309 --> 00:45:03,900  
second

1253  
00:45:08,930 --> 00:45:07,319  
um but many of us including myself so if

1254  
00:45:11,329 --> 00:45:08,940  
folks want to go back and I don't know

1255  
00:45:12,890 --> 00:45:11,339  
why they would care to but you know 2023

1256  
00:45:15,050 --> 00:45:12,900  
and all that uh listen to some of those

1257  
00:45:17,630 --> 00:45:15,060  
reports recently when the task force

1258  
00:45:19,250 --> 00:45:17,640  
report came out um I said myself that

1259  
00:45:21,829 --> 00:45:19,260  
I'm sure a lot of this stuff that's

1260  
00:45:23,690 --> 00:45:21,839  
still unexplained as an ET craft but is

1261  
00:45:26,630 --> 00:45:23,700  
still going to be top secret Tech US

1262  
00:45:28,670 --> 00:45:26,640  
tech Russian Tech Chinese Tech that they

1263  
00:45:32,150 --> 00:45:28,680

just don't know and will be critical

1264

00:45:33,950 --> 00:45:32,160

stuff that's 20 30 40 50 years ahead and

1265

00:45:35,569 --> 00:45:33,960

maybe some of that is kind of what we're

1266

00:45:36,290 --> 00:45:35,579

seeing now

1267

00:45:38,210 --> 00:45:36,300

um

1268

00:45:39,890 --> 00:45:38,220

so unfortunately yeah I have kind of

1269

00:45:41,390 --> 00:45:39,900

covered my own backside with that in the

1270

00:45:42,710 --> 00:45:41,400

past because it just makes sense doesn't

1271

00:45:44,089 --> 00:45:42,720

it that there's going to be some tech up

1272

00:45:45,589 --> 00:45:44,099

there that we don't know and this stuff

1273

00:45:47,390 --> 00:45:45,599

does certainly have those kind of

1274

00:45:50,329 --> 00:45:47,400

strange characteristics that doesn't

1275

00:45:52,609 --> 00:45:50,339

mean it's ET or non-human but it means

1276

00:45:54,890 --> 00:45:52,619

it's some pretty Advanced or strange

1277

00:45:58,550 --> 00:45:54,900

stuff to evade the more conventional

1278

00:46:00,650 --> 00:45:58,560

tracking their stencils yeah it could be

1279

00:46:02,870 --> 00:46:00,660

very mundane conventional things that

1280

00:46:04,790 --> 00:46:02,880

are just cleverly employed we just don't

1281

00:46:06,589 --> 00:46:04,800

know you know that's the thing is you

1282

00:46:09,650 --> 00:46:06,599

just don't know and we're acting on low

1283

00:46:12,829 --> 00:46:09,660

information and I think that it would be

1284

00:46:16,250 --> 00:46:12,839

it's just a it's wrong to make any snap

1285

00:46:18,290 --> 00:46:16,260

assumptions that uh you know any that

1286

00:46:20,569 --> 00:46:18,300

these are any one thing yet based on

1287

00:46:22,550 --> 00:46:20,579

what we have here and in fact at least

1288

00:46:24,410 --> 00:46:22,560

in the description of the last three

1289

00:46:26,450 --> 00:46:24,420

objects that were shot down appear to be

1290

00:46:28,670 --> 00:46:26,460

relatively different so we you know

1291

00:46:30,829 --> 00:46:28,680

that's all I I have uh you know

1292

00:46:33,650 --> 00:46:30,839

privately chats with friends I've often

1293

00:46:36,410 --> 00:46:33,660

said that you know that's a detriment in

1294

00:46:38,450 --> 00:46:36,420

examining the UAP or UFO phenomena is

1295

00:46:40,670 --> 00:46:38,460

the idea that it's all or nothing we see

1296

00:46:42,770 --> 00:46:40,680

that quite frequently so it's like uh

1297

00:46:45,410 --> 00:46:42,780

you know if somebody brings up any

1298

00:46:47,809 --> 00:46:45,420

criticisms for the the 2019 let's say

1299

00:46:50,329 --> 00:46:47,819

West Coast events or or you know the

1300

00:46:52,190 --> 00:46:50,339

2016 events and you go well there's a

1301  
00:46:54,109 --> 00:46:52,200  
lot of evidence that suggests you know

1302  
00:46:58,010 --> 00:46:54,119  
that was foreign spy drones or foreign

1303  
00:47:01,609 --> 00:46:58,020  
balloons spy uh okay you know that's

1304  
00:47:03,470 --> 00:47:01,619  
okay even if that reality is true that

1305  
00:47:05,630 --> 00:47:03,480  
doesn't like wipe out all the other

1306  
00:47:07,490 --> 00:47:05,640  
cases so the exact same thing when

1307  
00:47:09,829 --> 00:47:07,500  
you're looking at the uh the task force

1308  
00:47:13,490 --> 00:47:09,839  
report I think it would be at best

1309  
00:47:16,010 --> 00:47:13,500  
wishful thinking uh perhaps fool-hearted

1310  
00:47:18,410 --> 00:47:16,020  
to to assume that when you see oh

1311  
00:47:20,750 --> 00:47:18,420  
they've got 1200 unknowns whatever that

1312  
00:47:23,510 --> 00:47:20,760  
number is and to go all 1200 of those

1313  
00:47:26,450 --> 00:47:23,520

have to be something truly spectacular

1314

00:47:29,089 --> 00:47:26,460

or exotic I think that that's that's not

1315

00:47:31,609 --> 00:47:29,099

going to be the case and I think if

1316

00:47:33,609 --> 00:47:31,619

there is anything in that those data

1317

00:47:36,109 --> 00:47:33,619

sets that is truly

1318

00:47:37,970 --> 00:47:36,119

really anomalous exotic can't be

1319

00:47:40,370 --> 00:47:37,980

explained I think we're talking about a

1320

00:47:42,230 --> 00:47:40,380

very minute margin in there but I think

1321

00:47:43,849 --> 00:47:42,240

that's where you kind of want to focus

1322

00:47:45,410 --> 00:47:43,859

so that's the good side of what we're

1323

00:47:47,809 --> 00:47:45,420

seeing here even if they recover these

1324

00:47:49,790 --> 00:47:47,819

and they do discover uh you know these

1325

00:47:51,770 --> 00:47:49,800

are just cleverly designed spot balloons

1326

00:47:54,290 --> 00:47:51,780

that added some components to confuse

1327

00:47:58,550 --> 00:47:54,300

sensors or whatever okay good we're

1328

00:48:00,950 --> 00:47:58,560

clearing out that data set and so uh you

1329

00:48:03,710 --> 00:48:00,960

know you want to focus on the really

1330

00:48:06,589 --> 00:48:03,720

weird stuff the really anomalous stuff

1331

00:48:08,150 --> 00:48:06,599

I know you tweet out this uh comment

1332

00:48:10,309 --> 00:48:08,160

that I saw as well and you use my

1333

00:48:13,010 --> 00:48:10,319

favorite meme of the Boomer Tom DeLong

1334

00:48:15,470 --> 00:48:13,020

what the I don't say the word there

1335

00:48:18,410 --> 00:48:15,480

so yeah I won't bleep that out but yeah

1336

00:48:20,930 --> 00:48:18,420

um reporter asks uh NORAD Commander

1337

00:48:23,150 --> 00:48:20,940

General Glenn van hurk uh have you

1338

00:48:25,670 --> 00:48:23,160

rolled out aliens or extraterrestrials

1339

00:48:27,650 --> 00:48:25,680

and his reply was I'll let the Intel

1340

00:48:29,390 --> 00:48:27,660

Intel community and County intelligence

1341

00:48:32,030 --> 00:48:29,400

Community figure that out I haven't

1342

00:48:35,089 --> 00:48:32,040

ruled out anything at this point is that

1343

00:48:37,490 --> 00:48:35,099

just an off the cough remark or do you

1344

00:48:39,050 --> 00:48:37,500

think there's anything to that in the

1345

00:48:40,970 --> 00:48:39,060

sense and then maybe going to try and

1346

00:48:43,609 --> 00:48:40,980

twist this a little bit that the work

1347

00:48:46,550 --> 00:48:43,619

that Chris melon Loyola and others have

1348

00:48:49,670 --> 00:48:46,560

done that have gotten us to a level

1349

00:48:52,010 --> 00:48:49,680

where reporting stigma is reduced so

1350

00:48:54,530 --> 00:48:52,020

Pilots are happier or more comfortable

1351  
00:48:56,270 --> 00:48:54,540  
reporting means we're seeing things like

1352  
00:48:58,550 --> 00:48:56,280  
this and this may become a little bit

1353  
00:49:01,309 --> 00:48:58,560  
more the norm but also it gives us a

1354  
00:49:04,309 --> 00:49:01,319  
greater chance of getting better data on

1355  
00:49:07,250 --> 00:49:04,319  
truly anomalous objects sure I mean this

1356  
00:49:09,050 --> 00:49:07,260  
this is what your if nothing else what

1357  
00:49:11,089 --> 00:49:09,060  
you're seeing as odd as it seems in the

1358  
00:49:13,309 --> 00:49:11,099  
past couple of days I mean this is what

1359  
00:49:16,130 --> 00:49:13,319  
you want to see in the fruits of that

1360  
00:49:17,870 --> 00:49:16,140  
labor of whether the the now the arrow

1361  
00:49:20,450 --> 00:49:17,880  
or the UAP task force whatever you want

1362  
00:49:22,550 --> 00:49:20,460  
to call it but the idea of taking uh

1363  
00:49:24,530 --> 00:49:22,560

incidences where you're seeing unknown

1364

00:49:26,150 --> 00:49:24,540

unidentified and potentially anomalous

1365

00:49:27,530 --> 00:49:26,160

objects in the sky you're taking those

1366

00:49:28,970 --> 00:49:27,540

seriously you're encouraging that

1367

00:49:31,010 --> 00:49:28,980

reporting and you're encouraging

1368

00:49:33,349 --> 00:49:31,020

follow-up investigation interrogation of

1369

00:49:36,109 --> 00:49:33,359

those things this is what you want to

1370

00:49:38,930 --> 00:49:36,119

see and so yes I think that that's a

1371

00:49:40,849 --> 00:49:38,940

overwhelmingly a good thing because just

1372

00:49:42,770 --> 00:49:40,859

like I said if we're if we're opening up

1373

00:49:44,450 --> 00:49:42,780

that those Doppler filters right now

1374

00:49:46,730 --> 00:49:44,460

we're bringing in stuff we normally

1375

00:49:48,530 --> 00:49:46,740

wouldn't so slow especially slow moving

1376

00:49:50,930 --> 00:49:48,540

objects you know those are the kind of

1377

00:49:52,609 --> 00:49:50,940

those extreme mediums where oftentimes

1378

00:49:54,710 --> 00:49:52,619

when it comes to UAP people describe

1379

00:49:56,089 --> 00:49:54,720

they're hovering for extended periods of

1380

00:49:58,130 --> 00:49:56,099

time and they're not moving that's

1381

00:50:00,109 --> 00:49:58,140

invisible to Doppler now but now if

1382

00:50:01,910 --> 00:50:00,119

we're getting those reports we're or if

1383

00:50:03,050 --> 00:50:01,920

we're opening up those Doppler shifts

1384

00:50:05,750 --> 00:50:03,060

now we're picking up that we're

1385

00:50:08,089 --> 00:50:05,760

extremely fast moving can equally be

1386

00:50:10,069 --> 00:50:08,099

discounted you know the Doppler radar is

1387

00:50:12,230 --> 00:50:10,079

not going to pick up a

1388

00:50:13,910 --> 00:50:12,240

meteor coming in you know it's moving

1389

00:50:15,710 --> 00:50:13,920

too fast it's like Ah that's a meteor

1390

00:50:17,270 --> 00:50:15,720

but now if you're opening up those

1391

00:50:20,630 --> 00:50:17,280

filters and and you're looking for

1392

00:50:23,089 --> 00:50:20,640

things that are moving faster than than

1393

00:50:25,370 --> 00:50:23,099

craft should or or their stationary or

1394

00:50:27,170 --> 00:50:25,380

moving slower than craft should now you

1395

00:50:28,670 --> 00:50:27,180

have the potential to pick up some of

1396

00:50:30,829 --> 00:50:28,680

those really unusual things and so I

1397

00:50:33,589 --> 00:50:30,839

think that that's it's all a good thing

1398

00:50:35,630 --> 00:50:33,599

and I think that you're definitely going

1399

00:50:38,510 --> 00:50:35,640

to as you go through that process you're

1400

00:50:40,550 --> 00:50:38,520

going to get a lot more uh mundane

1401  
00:50:42,050 --> 00:50:40,560  
things that that aren't weird now that

1402  
00:50:43,849 --> 00:50:42,060  
you're looking into it but the only way

1403  
00:50:45,290 --> 00:50:43,859  
that you're going to get the weird is

1404  
00:50:47,750 --> 00:50:45,300  
you've got to open it you got to open up

1405  
00:50:50,690 --> 00:50:47,760  
that net and see what you get you're not

1406  
00:50:52,250 --> 00:50:50,700  
all going to catch tuna but but uh you

1407  
00:50:54,530 --> 00:50:52,260  
know what you don't throw back you may

1408  
00:50:56,030 --> 00:50:54,540  
very well catch some big trophy fish

1409  
00:50:59,450 --> 00:50:56,040  
here and I think that's what people are

1410  
00:51:01,190 --> 00:50:59,460  
looking for it's a really interesting

1411  
00:51:02,630 --> 00:51:01,200  
um it's interesting it's been

1412  
00:51:04,370 --> 00:51:02,640  
interesting watching it you're talking

1413  
00:51:07,370 --> 00:51:04,380

about it from the UFO perspective

1414

00:51:09,230 --> 00:51:07,380

because I uh you know I've mentioned

1415

00:51:11,030 --> 00:51:09,240

this to friends yesterday it's so weird

1416

00:51:13,030 --> 00:51:11,040

because I've heard for like five years

1417

00:51:16,190 --> 00:51:13,040

people saying you know some of these

1418

00:51:17,870 --> 00:51:16,200

objects are non-human crafts these are

1419

00:51:20,089 --> 00:51:17,880

extraterrestrials these are some there's

1420

00:51:22,609 --> 00:51:20,099

something going on even down to the fact

1421

00:51:25,490 --> 00:51:22,619

that the belief that the government is

1422

00:51:27,470 --> 00:51:25,500

is preparing to disclose that they've

1423

00:51:29,270 --> 00:51:27,480

recovered wreckage of crashed

1424

00:51:31,010 --> 00:51:29,280

extraterrestrial materials it's like

1425

00:51:32,390 --> 00:51:31,020

I've heard this for years like now the

1426

00:51:33,710 --> 00:51:32,400

government's shooting down stuff you're

1427

00:51:35,930 --> 00:51:33,720

going I don't know what it is we don't

1428

00:51:37,309 --> 00:51:35,940

know what it is NORAD Commander's like I

1429

00:51:39,109 --> 00:51:37,319

don't know maybe it's aliens I don't

1430

00:51:41,690 --> 00:51:39,119

know and I was like but the same people

1431

00:51:44,030 --> 00:51:41,700

who were telling me it was aliens and we

1432

00:51:45,589 --> 00:51:44,040

have crash materials alive no it's

1433

00:51:47,510 --> 00:51:45,599

nothing weird you know this is going to

1434

00:51:48,530 --> 00:51:47,520

be normal they're screwing us over and

1435

00:51:50,809 --> 00:51:48,540

I'm like

1436

00:51:52,010 --> 00:51:50,819

wait a minute was that the same

1437

00:51:54,349 --> 00:51:52,020

government that was supposed to disclose

1438

00:51:58,430 --> 00:51:54,359

it to you so you know I don't know it's

1439

00:52:00,530 --> 00:51:58,440

uh it's an interesting scenario uh all

1440

00:52:03,049 --> 00:52:00,540

the way across the board down to this we

1441

00:52:05,390 --> 00:52:03,059

have this we have this bizarre reverse

1442

00:52:06,950 --> 00:52:05,400

Roswell going on now where instead of

1443

00:52:10,130 --> 00:52:06,960

the government coming out saying hey

1444

00:52:11,990 --> 00:52:10,140

we've we've recovered we've crashed

1445

00:52:13,730 --> 00:52:12,000

something and you know here's what it is

1446

00:52:15,770 --> 00:52:13,740

oh never mind it's just a balloon now

1447

00:52:17,089 --> 00:52:15,780

they're they're coming out going hey man

1448

00:52:19,030 --> 00:52:17,099

we're shooting stuff down and we don't

1449

00:52:21,650 --> 00:52:19,040

know what it is

1450

00:52:23,690 --> 00:52:21,660

you know I want to wrap up temperature

1451  
00:52:26,150 --> 00:52:23,700  
been really good for your time and just

1452  
00:52:28,309 --> 00:52:26,160  
my own thought being that if this

1453  
00:52:30,470 --> 00:52:28,319  
technology has say China spying on the

1454  
00:52:32,990 --> 00:52:30,480  
United States and they know for a fact

1455  
00:52:35,390 --> 00:52:33,000  
the United States tends to ignore or

1456  
00:52:37,849 --> 00:52:35,400  
avoid objects it may be truly anomalous

1457  
00:52:39,589 --> 00:52:37,859  
in terms of reporting or tracking

1458  
00:52:41,990 --> 00:52:39,599  
um and be a bit more evasive with it

1459  
00:52:44,569 --> 00:52:42,000  
then you might as well hide your own spy

1460  
00:52:46,970 --> 00:52:44,579  
equipment in some kind of form like

1461  
00:52:49,370 --> 00:52:46,980  
Michael Hanks reported just 16 hours ago

1462  
00:52:52,010 --> 00:52:49,380  
according to his tweet uh octagon-shaped

1463  
00:52:53,630 --> 00:52:52,020

you know spiraling because they're just

1464

00:52:55,069 --> 00:52:53,640

going to ignore that or it'll be laughed

1465

00:52:57,290 --> 00:52:55,079

off or you know it won't be picked up on

1466

00:52:58,730 --> 00:52:57,300

radar so it would make sense to me yours

1467

00:53:00,349 --> 00:52:58,740

use that kind of against him a little

1468

00:53:02,569 --> 00:53:00,359

bit I just want to ask you one last

1469

00:53:04,190 --> 00:53:02,579

thing um how do you see this playing out

1470

00:53:06,109 --> 00:53:04,200

over the next few days and weeks is this

1471

00:53:07,190 --> 00:53:06,119

going to fizzle out or go out with a

1472

00:53:09,710 --> 00:53:07,200

bang

1473

00:53:11,690 --> 00:53:09,720

I I you know that one's hard to predict

1474

00:53:13,609 --> 00:53:11,700

because it's one of those things where

1475

00:53:15,710 --> 00:53:13,619

you when they shot the object down over

1476

00:53:17,150 --> 00:53:15,720

Alaska I thought man this is really

1477

00:53:18,890 --> 00:53:17,160

strange you know what are we going on

1478

00:53:20,390 --> 00:53:18,900

here and then it wasn't you know 12

1479

00:53:23,329 --> 00:53:20,400

hours later they're like hey we shot

1480

00:53:26,089 --> 00:53:23,339

another one down in Canada I'm going

1481

00:53:28,549 --> 00:53:26,099

uh what in fact I I originally when I

1482

00:53:30,890 --> 00:53:28,559

heard that they were tracking a object

1483

00:53:33,530 --> 00:53:30,900

an unknown object over Canada I made the

1484

00:53:34,849 --> 00:53:33,540

joke that uh you know the US was over

1485

00:53:36,650 --> 00:53:34,859

there saying you want us to kill them

1486

00:53:38,390 --> 00:53:36,660

you know we'll come shoot them and then

1487

00:53:41,750 --> 00:53:38,400

it wasn't 10 minutes later that they

1488

00:53:43,250 --> 00:53:41,760

announced yeah yeah F20 usf22 shot it

1489

00:53:46,490 --> 00:53:43,260

down I'm going oh my God they did that

1490

00:53:50,809 --> 00:53:48,950

watching it kind of live play down last

1491

00:53:52,609 --> 00:53:50,819

night I was in a good position uh

1492

00:53:54,170 --> 00:53:52,619

yesterday where I was able to to watch

1493

00:53:57,170 --> 00:53:54,180

the no Tams and kind of watch the

1494

00:53:59,329 --> 00:53:57,180

flights as they took down the object

1495

00:54:01,490 --> 00:53:59,339

um yesterday it's surreal so I wouldn't

1496

00:54:03,109 --> 00:54:01,500

have thought any one of those would have

1497

00:54:04,910 --> 00:54:03,119

continued to play out so it's hard to

1498

00:54:07,730 --> 00:54:04,920

say when it's gonna stop

1499

00:54:10,089 --> 00:54:07,740

I'm extremely intrigued

1500

00:54:12,770 --> 00:54:10,099

because to my knowledge

1501  
00:54:14,809 --> 00:54:12,780  
they have not announced and nobody's

1502  
00:54:18,109 --> 00:54:14,819  
acted like they have recovered the

1503  
00:54:20,690 --> 00:54:18,119  
wreckage from any of the last three

1504  
00:54:22,549 --> 00:54:20,700  
shoot down and so that's going to be a

1505  
00:54:25,010 --> 00:54:22,559  
really interesting thing to kind of look

1506  
00:54:28,309 --> 00:54:25,020  
out for and watch and I think that's um

1507  
00:54:30,230 --> 00:54:28,319  
you know that's where the odd immediate

1508  
00:54:31,309 --> 00:54:30,240  
transparency of saying we did this we

1509  
00:54:33,710 --> 00:54:31,319  
shot these things down we don't know

1510  
00:54:35,510 --> 00:54:33,720  
what it is that comes back to haunt you

1511  
00:54:37,069 --> 00:54:35,520  
if they don't recover them you know

1512  
00:54:39,109 --> 00:54:37,079  
let's say you know when Alaska

1513  
00:54:40,849 --> 00:54:39,119

supposedly went down a really icy frozen

1514

00:54:43,430 --> 00:54:40,859

water

1515

00:54:45,710 --> 00:54:43,440

you know what do you do if you don't

1516

00:54:48,170 --> 00:54:45,720

recover these you know what is that same

1517

00:54:49,490 --> 00:54:48,180

with Lake Michigan so it's this weird

1518

00:54:51,530 --> 00:54:49,500

I'm I'm

1519

00:54:53,990 --> 00:54:51,540

it's a great time to be alive Andy I'm

1520

00:54:55,910 --> 00:54:54,000

sitting here wondering what what's going

1521

00:54:58,670 --> 00:54:55,920

on you know whether we're looking at the

1522

00:55:00,770 --> 00:54:58,680

birth of new Roswell myths if they don't

1523

00:55:03,710 --> 00:55:00,780

recover these or are we looking at

1524

00:55:06,290 --> 00:55:03,720

legitimate Roswell realities type thing

1525

00:55:09,049 --> 00:55:06,300

are we just talking about uh we live in

1526  
00:55:11,569 --> 00:55:09,059  
an age of unprecedented surveillance and

1527  
00:55:13,309 --> 00:55:11,579  
uh in an age when countries are now

1528  
00:55:15,710 --> 00:55:13,319  
being more aggressive and provocative

1529  
00:55:17,930 --> 00:55:15,720  
for each other and so we know that the

1530  
00:55:19,849 --> 00:55:17,940  
latter there is true it's just

1531  
00:55:23,150 --> 00:55:19,859  
interesting it's very very interesting

1532  
00:55:24,710 --> 00:55:23,160  
time well I hope Dr Sean Kirkpatrick has

1533  
00:55:26,329 --> 00:55:24,720  
a little bit more funding to employ some

1534  
00:55:28,609 --> 00:55:26,339  
more staff for Arrow because I imagine

1535  
00:55:31,190 --> 00:55:28,619  
their emails and fax machines if they

1536  
00:55:33,230 --> 00:55:31,200  
still use those are going to be busy I

1537  
00:55:36,049 --> 00:55:33,240  
think you know that you could definitely

1538  
00:55:39,049 --> 00:55:36,059

see you know I think if anything else I

1539

00:55:40,370 --> 00:55:39,059

think that the this Arrow the UAP task

1540

00:55:41,750 --> 00:55:40,380

force everything that Chris melon and

1541

00:55:43,849 --> 00:55:41,760

Louis Elizondo and these other people

1542

00:55:45,710 --> 00:55:43,859

have been pushing for and saying needed

1543

00:55:47,930 --> 00:55:45,720

I think it's definitely Justified itself

1544

00:55:50,390 --> 00:55:47,940

in the past two weeks because you know

1545

00:55:53,390 --> 00:55:50,400

you know with the Chinese balloon just

1546

00:55:55,609 --> 00:55:53,400

the the observation of it we later found

1547

00:55:57,650 --> 00:55:55,619

out that they were able to take some of

1548

00:55:59,030 --> 00:55:57,660

the data that was so the emissions data

1549

00:56:00,349 --> 00:55:59,040

some of the signals data they're able to

1550

00:56:02,630 --> 00:56:00,359

take what they collected from that

1551

00:56:05,630 --> 00:56:02,640

Chinese balloon put it back to stuff

1552

00:56:07,309 --> 00:56:05,640

that they had collected for the UAP task

1553

00:56:09,470 --> 00:56:07,319

force and realized oh wait those were

1554

00:56:11,870 --> 00:56:09,480

Chinese balloons too so we're already

1555

00:56:14,390 --> 00:56:11,880

seeing were the rewards from that I

1556

00:56:15,410 --> 00:56:14,400

think hopefully we'll see that that uh

1557

00:56:17,890 --> 00:56:15,420

you're right you're absolutely right

1558

00:56:21,290 --> 00:56:17,900

they'll they will increase funding and

1559

00:56:22,670 --> 00:56:21,300

realize that the stigma of looking at

1560

00:56:23,990 --> 00:56:22,680

something because it's an unknown or

1561

00:56:27,770 --> 00:56:24,000

unidentified

1562

00:56:29,750 --> 00:56:27,780

um there's significant benefits to that

1563

00:56:31,430 --> 00:56:29,760

absolutely Tim thank you very much for

1564

00:56:33,589 --> 00:56:31,440

your time and I encourage everyone as

1565

00:56:35,630 --> 00:56:33,599

always check out the [debrief.org](http://debrief.org) and the

1570

00:56:45,589 --> 00:56:43,020

always a pleasure I am joined at this

1571

00:56:48,470 --> 00:56:45,599

time by former guest he is a researcher

1572

00:56:50,809 --> 00:56:48,480

and author Chris rockowski Chris welcome

1573

00:56:52,130 --> 00:56:50,819

back to the podcast glad to be here

1574

00:56:53,870 --> 00:56:52,140

thanks

1575

00:56:55,970 --> 00:56:53,880

it's very good to have you and you've

1576

00:57:00,950 --> 00:56:55,980

joined me very last minute for this show

1577

00:57:02,750 --> 00:57:00,960

now the Canadian UFO report for 2022 has

1578

00:57:04,309 --> 00:57:02,760

dropped and I thought it'd be a good

1579

00:57:06,290 --> 00:57:04,319

time to get you on you've been a very

1580

00:57:08,089 --> 00:57:06,300

busy man today doing all kinds of media

1581

00:57:10,670 --> 00:57:08,099

so I thought let's get this out fresh

1582

00:57:12,109 --> 00:57:10,680

while it's relevant and uh it's a good

1583

00:57:14,270 --> 00:57:12,119

thing to chat about I think as we kind

1584

00:57:16,010 --> 00:57:14,280

of head into the weekend very quickly

1585

00:57:18,589 --> 00:57:16,020

Chris in case people haven't heard of

1586

00:57:20,630 --> 00:57:18,599

you or our previous interview that goes

1587

00:57:22,990 --> 00:57:20,640

into a lot more detail can you give us a

1588

00:57:26,150 --> 00:57:23,000

quick bit of your own background please

1589

00:57:27,589 --> 00:57:26,160

sure I have been studying the UFO

1590

00:57:29,750 --> 00:57:27,599

phenomenon and investigating and

1591

00:57:34,430 --> 00:57:29,760

researching and writing about it since

1592

00:57:37,130 --> 00:57:34,440

the 1970s uh and I have 10 books out the

1593

00:57:40,430 --> 00:57:37,140

most recent is Canadian sorry Canada's

1594

00:57:44,150 --> 00:57:40,440

UFOs Declassified which details uh

1595

00:57:45,770 --> 00:57:44,160

reports in government files by RCMP

1596

00:57:49,970 --> 00:57:45,780

Royal Canadian rounded police officers

1597

00:57:51,410 --> 00:57:49,980

uh Pilots military personnel and shows

1598

00:57:53,569 --> 00:57:51,420

that there's a bit of significant

1599

00:57:57,290 --> 00:57:53,579

interest in Canada at the official level

1600

00:58:00,890 --> 00:57:59,329

well if people haven't heard that I

1601  
00:58:02,630 --> 00:58:00,900  
suggest you do go back and have a listen

1602  
00:58:04,609 --> 00:58:02,640  
to our first interview we go into that

1603  
00:58:05,569 --> 00:58:04,619  
in a lot of detail and cover the book

1604  
00:58:07,010 --> 00:58:05,579  
too

1605  
00:58:09,470 --> 00:58:07,020  
um but Chris we're here to talk about

1606  
00:58:12,349 --> 00:58:09,480  
the the breaking report I believe this

1607  
00:58:14,630 --> 00:58:12,359  
was published on Monday just gone which

1608  
00:58:16,370 --> 00:58:14,640  
would have been the 5th of February 5th

1609  
00:58:18,589 --> 00:58:16,380  
or 6th of February

1610  
00:58:21,650 --> 00:58:18,599  
right yeah and the other thing that I do

1611  
00:58:23,809 --> 00:58:21,660  
is that I uh I analyze all the UFO

1612  
00:58:26,390 --> 00:58:23,819  
sightings that have been reported in

1613  
00:58:30,770 --> 00:58:26,400

Canada every year I've been doing this

1614

00:58:35,089 --> 00:58:33,589

um and we have something like 24

1615

00:58:37,130 --> 00:58:35,099

000 more than 24

1616

00:58:40,849 --> 00:58:37,140

000 uh separate sightings have been

1617

00:58:42,170 --> 00:58:40,859

reported since 1989. I started it uh to

1618

00:58:43,730 --> 00:58:42,180

get a better idea what was being

1619

00:58:46,609 --> 00:58:43,740

reported so not just what was being

1620

00:58:48,710 --> 00:58:46,619

reported in the media on on TV or in

1621

00:58:50,270 --> 00:58:48,720

radio and the tabloids what were people

1622

00:58:52,609 --> 00:58:50,280

actually seeing so these are cases that

1623

00:58:55,730 --> 00:58:52,619

have been reported to uh UFO

1624

00:58:58,130 --> 00:58:55,740

organizations directly to astronomers to

1625

00:59:00,170 --> 00:58:58,140

me to the Canadian government and I

1626  
00:59:02,270 --> 00:59:00,180  
bring them all together and do some

1627  
00:59:04,670 --> 00:59:02,280  
number crunching on them and publish the

1628  
00:59:07,609 --> 00:59:04,680  
results in the 2022 version was just

1629  
00:59:13,130 --> 00:59:10,609  
now just to get folks on the right path

1630  
00:59:15,530 --> 00:59:13,140  
this isn't like the US congress's

1631  
00:59:18,170 --> 00:59:15,540  
mandated UAP report this isn't something

1632  
00:59:20,049 --> 00:59:18,180  
that's come down from senators and

1633  
00:59:22,490 --> 00:59:20,059  
congressmen and women who have demanded

1634  
00:59:26,030 --> 00:59:22,500  
reforms and looking into the topic is it

1635  
00:59:27,890 --> 00:59:26,040  
it's much more much more personal and

1636  
00:59:28,789 --> 00:59:27,900  
it's much smaller scale is that fair to

1637  
00:59:30,650 --> 00:59:28,799  
say

1638  
00:59:32,569 --> 00:59:30,660

well it's smaller scale in the sense

1639

00:59:35,210 --> 00:59:32,579

that you know Canada is a smaller

1640

00:59:37,370 --> 00:59:35,220

population we get uh smaller numbers of

1641

00:59:40,010 --> 00:59:37,380

UFOs than the United States but at the

1642

00:59:42,349 --> 00:59:40,020

same time there were 768 reports that

1643

00:59:43,809 --> 00:59:42,359

were filed in Canada last year which is

1644

00:59:47,030 --> 00:59:43,819

nothing to sneeze at

1645

00:59:50,450 --> 00:59:47,040

and these reports do come from a variety

1646

00:59:53,630 --> 00:59:50,460

of uh people from lay citizens to Pilots

1647

00:59:55,370 --> 00:59:53,640

to really good observers and it gives us

1648

00:59:57,349 --> 00:59:55,380

a good snapshot of what people are

1649

00:59:59,690 --> 00:59:57,359

seeing now this doesn't come down from a

1650

01:00:01,730 --> 00:59:59,700

mandate this is something that I began

1651

01:00:03,289 --> 01:00:01,740

doing to as I say to get a better idea

1652

01:00:05,809 --> 01:00:03,299

what was being reported as opposed to

1653

01:00:08,030 --> 01:00:05,819

General Impressions I mean you we've

1654

01:00:11,210 --> 01:00:08,040

heard these stories about how UFO report

1655

01:00:13,490 --> 01:00:11,220

numbers are way up this year and and you

1656

01:00:15,770 --> 01:00:13,500

know it's it's you know tremendous if

1657

01:00:17,809 --> 01:00:15,780

you actually look at the data they're

1658

01:00:19,789 --> 01:00:17,819

not up as much this year there may be a

1659

01:00:21,410 --> 01:00:19,799

slight amount but we're fairly flat in

1660

01:00:24,650 --> 01:00:21,420

fact the numbers have been going down in

1661

01:00:26,329 --> 01:00:24,660

Canada uh for the past little while and

1662

01:00:28,069 --> 01:00:26,339

you know Canada is I suppose a

1663

01:00:30,890 --> 01:00:28,079

Bellwether for what's going on elsewhere

1664

01:00:32,870 --> 01:00:30,900

in the world because we do have a very

1665

01:00:35,329 --> 01:00:32,880

good cross-section of cases not only

1666

01:00:37,849 --> 01:00:35,339

from uh citizens but from government

1667

01:00:39,650 --> 01:00:37,859

sources military sources and Pilots so

1668

01:00:41,809 --> 01:00:39,660

we do have a fairly good idea of what's

1669

01:00:43,730 --> 01:00:41,819

been going on and the fact that we've

1670

01:00:45,829 --> 01:00:43,740

been monitoring this for many years

1671

01:00:49,010 --> 01:00:45,839

shows that you know we can see some

1672

01:00:50,870 --> 01:00:49,020

Trends we can see some some specific uh

1673

01:00:53,870 --> 01:00:50,880

types of information that can be teased

1674

01:00:59,170 --> 01:00:55,789

why do you think those support numbers

1675

01:01:02,210 --> 01:00:59,180

have have trended downwards rather than

1676

01:01:04,730 --> 01:01:02,220

with the kind of global focus on the UFO

1677

01:01:07,130 --> 01:01:04,740

issue maybe an all-time high or at least

1678

01:01:08,930 --> 01:01:07,140

a modern day high that were found Canada

1679

01:01:11,210 --> 01:01:08,940

has gone down the way

1680

01:01:13,430 --> 01:01:11,220

well I and I think uh it's not just

1681

01:01:15,410 --> 01:01:13,440

Canada I think uh early indications show

1682

01:01:17,210 --> 01:01:15,420

that numbers all around the world have

1683

01:01:19,250 --> 01:01:17,220

actually gone down a little bit and that

1684

01:01:20,569 --> 01:01:19,260

may be because people might have the

1685

01:01:23,089 --> 01:01:20,579

impression that the United States

1686

01:01:24,710 --> 01:01:23,099

government the Pentagon is sort of in

1687

01:01:27,770 --> 01:01:24,720

charge of things now and we should leave

1688

01:01:29,329 --> 01:01:27,780

things up to them but at the core uh the

1689

01:01:30,710 --> 01:01:29,339

sightings themselves the reports are

1690

01:01:31,970 --> 01:01:30,720

what is needed

1691

01:01:34,789 --> 01:01:31,980

um and whereas the United States

1692

01:01:36,470 --> 01:01:34,799

government is looking mostly at things

1693

01:01:39,230 --> 01:01:36,480

that have been reported by its own

1694

01:01:41,270 --> 01:01:39,240

military personnel uh you know the

1695

01:01:43,130 --> 01:01:41,280

citizens uh who are reporting have no

1696

01:01:45,349 --> 01:01:43,140

place to go other than you know UFO

1697

01:01:48,230 --> 01:01:45,359

organizations like mufon and newfork and

1698

01:01:50,870 --> 01:01:48,240

and before and places like that so the

1699

01:01:54,049 --> 01:01:50,880

idea is that there is this this volume

1700

01:01:57,530 --> 01:01:54,059

of UFO data that needs to be mined and

1701

01:02:00,650 --> 01:01:57,540

organizations are taking a look at the

1702

01:02:03,589 --> 01:02:00,660

typical UFO uh report from Years Gone by

1703

01:02:05,510 --> 01:02:03,599

to mine them to try and see if something

1704

01:02:07,970 --> 01:02:05,520

can be obtained in terms of

1705

01:02:09,890 --> 01:02:07,980

understanding the UFO phenomenon or

1706

01:02:11,930 --> 01:02:09,900

winnowing out those cases which aren't

1707

01:02:14,329 --> 01:02:11,940

as interesting and keeping closer track

1708

01:02:16,370 --> 01:02:14,339

of the Unexplained cases which then

1709

01:02:20,750 --> 01:02:16,380

could be used to supplement what we're

1710

01:02:25,309 --> 01:02:20,760

learning through the observations by uh

1711

01:02:31,690 --> 01:02:28,030

now you call out the number there

1712

01:02:34,370 --> 01:02:31,700

768 reports were filed in the year 2022

1713

01:02:36,230 --> 01:02:34,380

now eight percent of those remain

1714

01:02:39,349 --> 01:02:36,240

unexplained so are talking around the

1715

01:02:42,109 --> 01:02:39,359

high 60s uh remain unexplained what

1716

01:02:44,150 --> 01:02:42,119

exactly within this report does that

1717

01:02:45,829 --> 01:02:44,160

mean no it doesn't mean of course it's

1718

01:02:48,109 --> 01:02:45,839

aliens does it

1719

01:02:49,549 --> 01:02:48,119

no it doesn't mean aliens what it does

1720

01:02:51,710 --> 01:02:49,559

say is that there's enough information

1721

01:02:54,410 --> 01:02:51,720

in the report to suggest that it's not

1722

01:02:56,870 --> 01:02:54,420

an ordinary aircraft plane satellite and

1723

01:02:58,069 --> 01:02:56,880

so forth uh it suggests that this is

1724

01:03:00,109 --> 01:02:58,079

something that should be looked at a

1725

01:03:02,329 --> 01:03:00,119

little more carefully maybe uh there's

1726

01:03:04,490 --> 01:03:02,339

uh there's some evidence or some details

1727

01:03:08,049 --> 01:03:04,500

that are a little unusual

1728

01:03:10,910 --> 01:03:08,059

um and we also go through the trouble of

1729

01:03:12,430 --> 01:03:10,920

classifying the various levels it's sort

1730

01:03:14,930 --> 01:03:12,440

of a grayscale

1731

01:03:18,710 --> 01:03:14,940

we use the heinek strangeness and

1732

01:03:20,870 --> 01:03:18,720

reliability uh scale of of UFOs where a

1733

01:03:22,309 --> 01:03:20,880

high strangeness report is a something a

1734

01:03:24,890 --> 01:03:22,319

little more substantial than just an

1735

01:03:26,809 --> 01:03:24,900

ordinary light in the sky reliability is

1736

01:03:29,750 --> 01:03:26,819

more than just an anonymous phone call

1737

01:03:32,030 --> 01:03:29,760

it's somebody who uh has maybe filled

1738

01:03:33,589 --> 01:03:32,040

out a form or has had the time to talk

1739

01:03:35,289 --> 01:03:33,599

with an investigator or perhaps

1740

01:03:38,150 --> 01:03:35,299

somebody's visited the site themselves

1741

01:03:40,609 --> 01:03:38,160

and if you look at that we're we're down

1742

01:03:43,250 --> 01:03:40,619

to maybe a dozen or two really

1743

01:03:45,950 --> 01:03:43,260

interesting higher quality UFOs for

1744

01:03:48,770 --> 01:03:45,960

example there is a a report last year

1745

01:03:52,069 --> 01:03:48,780

where uh a commercial pilot was flying

1746

01:03:56,390 --> 01:03:52,079

over Canada and uh reported what was

1747

01:03:58,910 --> 01:03:56,400

described as a a Batwing suit somebody

1748

01:04:01,490 --> 01:03:58,920

in a one of these batwing suits that you

1749

01:04:02,870 --> 01:04:01,500

sometimes see in documentaries who uh

1750

01:04:04,609 --> 01:04:02,880

you know they look like a flying

1751  
01:04:07,490 --> 01:04:04,619  
squirrel with the arms outstretched and

1752  
01:04:09,289 --> 01:04:07,500  
so forth flying over Toronto at an

1753  
01:04:12,470 --> 01:04:09,299  
altitude something like fifteen thousand

1754  
01:04:13,970 --> 01:04:12,480  
feet and that's classified as unusual

1755  
01:04:15,890 --> 01:04:13,980  
and the pilot reported it to the

1756  
01:04:18,890 --> 01:04:15,900  
Canadian government and the Canadian

1757  
01:04:20,930 --> 01:04:18,900  
government classified it as a UFO and so

1758  
01:04:25,190 --> 01:04:20,940  
that's one of the higher quality reports

1759  
01:04:29,450 --> 01:04:27,710  
you mentioned with an uh one of the

1760  
01:04:32,030 --> 01:04:29,460  
articles I read that while there's been

1761  
01:04:33,950 --> 01:04:32,040  
an increase in photographs attached to

1762  
01:04:36,589 --> 01:04:33,960  
these reports the quality of the

1763  
01:04:38,450 --> 01:04:36,599

photographs hasn't necessarily increased

1764

01:04:40,849 --> 01:04:38,460

what are we looking at in terms of

1765

01:04:42,950 --> 01:04:40,859

photographic evidence

1766

01:04:44,750 --> 01:04:42,960

yeah you know a lot of people will post

1767

01:04:46,490 --> 01:04:44,760

photos or send in photos they've taken

1768

01:04:48,650 --> 01:04:46,500

with their cell phone cameras and

1769

01:04:51,470 --> 01:04:48,660

unfortunately cell phone cameras are not

1770

01:04:53,030 --> 01:04:51,480

designed to take images of distant

1771

01:04:55,670 --> 01:04:53,040

lights in the night sky they're great

1772

01:04:57,670 --> 01:04:55,680

for taking photos of cats for example

1773

01:05:00,049 --> 01:04:57,680

really good at taking pictures of my cat

1774

01:05:01,490 --> 01:05:00,059

and I could share some with you if you

1775

01:05:03,650 --> 01:05:01,500

want but

1776

01:05:05,270 --> 01:05:03,660

um in terms of UFOs they're really not

1777

01:05:07,309 --> 01:05:05,280

that good you end up getting a black

1778

01:05:09,710 --> 01:05:07,319

screen with a tiny pinpoint of light

1779

01:05:11,690 --> 01:05:09,720

without any kind of reference and even

1780

01:05:13,670 --> 01:05:11,700

if you zoom in you you tend to distort

1781

01:05:16,010 --> 01:05:13,680

the image itself so unfortunately the

1782

01:05:18,410 --> 01:05:16,020

photos themselves even though they are

1783

01:05:20,030 --> 01:05:18,420

in about one-third of all cases that are

1784

01:05:21,470 --> 01:05:20,040

reported now

1785

01:05:25,430 --> 01:05:21,480

um you know they don't really add as

1786

01:05:30,349 --> 01:05:28,250

what might be interesting there is the

1787

01:05:32,870 --> 01:05:30,359

and I'm not sponsored by them God I wish

1788

01:05:36,109 --> 01:05:32,880

I was Samsung please get in touch but um

1789

01:05:38,450 --> 01:05:36,119

Samsung's s23 Ultra is about to be

1790

01:05:40,910 --> 01:05:38,460

released and the big Point some of the

1791

01:05:43,849 --> 01:05:40,920

reviewers are pointing out online is

1792

01:05:46,490 --> 01:05:43,859

that the the 100 times zoom on the 200

1793

01:05:48,950 --> 01:05:46,500

megapixel camera seems to pick up the

1794

01:05:50,510 --> 01:05:48,960

moon and fantastic quality we're used to

1795

01:05:52,370 --> 01:05:50,520

seeing the moon through a camera phone

1796

01:05:53,750 --> 01:05:52,380

as like you say that little ball of

1797

01:05:56,150 --> 01:05:53,760

light and you can't really make out any

1798

01:05:58,670 --> 01:05:56,160

detail and it looks like this this shift

1799

01:06:01,190 --> 01:05:58,680

in camera quality is quite a big one so

1800

01:06:02,569 --> 01:06:01,200

hopefully with that sort of leap we

1801

01:06:04,789 --> 01:06:02,579

could maybe potentially get some of

1802

01:06:08,150 --> 01:06:04,799

those kind of better quality images of

1803

01:06:10,010 --> 01:06:08,160

UFOs Chris you you've done 30 plus years

1804

01:06:12,049 --> 01:06:10,020

now with investigations and research in

1805

01:06:14,390 --> 01:06:12,059

this subject do you have any advice for

1806

01:06:16,370 --> 01:06:14,400

anyone who is going to take a picture of

1807

01:06:18,650 --> 01:06:16,380

a UFO where it is a light in the night

1808

01:06:20,870 --> 01:06:18,660

sky and their cameras maybe just not up

1809

01:06:22,690 --> 01:06:20,880

to the the job of capturing it and all

1810

01:06:25,309 --> 01:06:22,700

its quality

1811

01:06:28,069 --> 01:06:25,319

well I I would certainly not uh

1812

01:06:30,109 --> 01:06:28,079

disregard the basics too uh what time

1813

01:06:32,510 --> 01:06:30,119

was it taken what direction in the sky

1814

01:06:35,329 --> 01:06:32,520

are you looking was it in reference to

1815

01:06:37,010 --> 01:06:35,339

another light in the sky uh Planet how

1816

01:06:39,890 --> 01:06:37,020

was the moon in the sky at the time how

1817

01:06:41,870 --> 01:06:39,900

far away uh the compass direction is

1818

01:06:43,910 --> 01:06:41,880

there a building that you could uh

1819

01:06:45,770 --> 01:06:43,920

maneuver in the frame of you to to get

1820

01:06:47,990 --> 01:06:45,780

it in relation to all of this will help

1821

01:06:50,029 --> 01:06:48,000

in us trying to better understand where

1822

01:06:52,069 --> 01:06:50,039

this thing was what was seen and how it

1823

01:06:54,589 --> 01:06:52,079

was moving the idea is to get in in

1824

01:06:56,809 --> 01:06:54,599

terms of a frame of reference and all of

1825

01:07:00,230 --> 01:06:56,819

that helps to uh to better understand

1826  
01:07:03,770 --> 01:07:02,210  
and I wonder are we getting an increase

1827  
01:07:07,910 --> 01:07:03,780  
in the number of Canadian military

1828  
01:07:12,890 --> 01:07:09,910  
well um

1829  
01:07:15,950 --> 01:07:12,900  
we we do have some information on

1830  
01:07:18,829 --> 01:07:15,960  
Canadian military cases in fact I was uh

1831  
01:07:21,710 --> 01:07:18,839  
receiving uh Canadian military reports

1832  
01:07:22,970 --> 01:07:21,720  
since uh about 1999 uh through an

1833  
01:07:24,650 --> 01:07:22,980  
arrangement I had with the Canadian

1834  
01:07:26,569 --> 01:07:24,660  
government we continue to get cases

1835  
01:07:28,190 --> 01:07:26,579  
through Transport Canada including

1836  
01:07:31,490 --> 01:07:28,200  
Pilots

1837  
01:07:33,650 --> 01:07:31,500  
um and uh so we have some information uh

1838  
01:07:35,750 --> 01:07:33,660

it's misleading to say I think that

1839

01:07:39,049 --> 01:07:35,760

there's an increase in the UFO Reporting

1840

01:07:42,589 --> 01:07:39,059

by military uh observers in the United

1841

01:07:45,829 --> 01:07:42,599

States what the most recent uh uh all

1842

01:07:49,809 --> 01:07:45,839

domain anomaly uh resolution office

1843

01:07:52,789 --> 01:07:49,819

report says is that since they

1844

01:07:56,029 --> 01:07:52,799

encouraged Pilots to report UFOs without

1845

01:07:58,490 --> 01:07:56,039

fear of uh of damage their reputation

1846

01:07:59,750 --> 01:07:58,500

and and fear of ridicule they had an

1847

01:08:01,970 --> 01:07:59,760

increase in the number of reports

1848

01:08:04,010 --> 01:08:01,980

received that's not saying that the

1849

01:08:06,470 --> 01:08:04,020

reports themselves increased matter of

1850

01:08:09,289 --> 01:08:06,480

fact many of the cases are reported uh

1851

01:08:11,089 --> 01:08:09,299

are from a long time ago so we don't

1852

01:08:13,010 --> 01:08:11,099

have a good handle on where these are

1853

01:08:16,370 --> 01:08:13,020

from in fact I would not be surprised if

1854

01:08:19,669 --> 01:08:16,380

some Canadian military Pilots or British

1855

01:08:22,010 --> 01:08:19,679

Pilots reported them through uh the

1856

01:08:23,990 --> 01:08:22,020

office as well so we don't know exactly

1857

01:08:26,209 --> 01:08:24,000

what the data looks like and that's one

1858

01:08:28,789 --> 01:08:26,219

thing we're waiting to see we don't have

1859

01:08:30,890 --> 01:08:28,799

the data and that's why uh supplementary

1860

01:08:33,229 --> 01:08:30,900

studies such as the Canadian UFO survey

1861

01:08:36,410 --> 01:08:33,239

there was a Swedish study that was also

1862

01:08:40,490 --> 01:08:36,420

released this week that out of 241

1863

01:08:42,229 --> 01:08:40,500

reports it had one unexplained case so

1864

01:08:44,510 --> 01:08:42,239

it shows that the number of really

1865

01:08:46,309 --> 01:08:44,520

interesting cases is still fairly low

1866

01:08:48,349 --> 01:08:46,319

despite the number of cases that are

1867

01:08:50,209 --> 01:08:48,359

being reported and I think looking at

1868

01:08:53,709 --> 01:08:50,219

the data is the only way to better

1869

01:08:59,390 --> 01:08:56,749

ultimately what is this report and

1870

01:09:01,550 --> 01:08:59,400

others like it coming from Canada going

1871

01:09:04,189 --> 01:09:01,560

to do to help or is it going to help

1872

01:09:06,530 --> 01:09:04,199

progress the UFO topic

1873

01:09:08,990 --> 01:09:06,540

well I think it advances the idea that

1874

01:09:10,669 --> 01:09:09,000

people are still reporting UFOs and uh

1875

01:09:12,950 --> 01:09:10,679

the the

1876

01:09:15,289 --> 01:09:12,960

um the information that someone gives

1877

01:09:17,689 --> 01:09:15,299

when reporting a UFO is not lost forever

1878

01:09:20,450 --> 01:09:17,699

uh they uh they don't go into a black

1879

01:09:22,669 --> 01:09:20,460

hole they're being used and uh there's

1880

01:09:25,249 --> 01:09:22,679

some move right now for using uh

1881

01:09:28,370 --> 01:09:25,259

artificial intelligence to parse

1882

01:09:30,829 --> 01:09:28,380

information out of UFO reports that have

1883

01:09:34,010 --> 01:09:30,839

been filed by people to try and you know

1884

01:09:35,930 --> 01:09:34,020

weed out the the dress and collect up

1885

01:09:39,410 --> 01:09:35,940

all the good stuff all the interesting

1886

01:09:40,610 --> 01:09:39,420

cases so that studies on UFO data you

1887

01:09:42,709 --> 01:09:40,620

know setting up cameras and

1888

01:09:44,829 --> 01:09:42,719

magnetometers and so forth will be set

1889

01:09:48,470 --> 01:09:44,839

up in the correct places and be able to

1890

01:09:52,729 --> 01:09:48,480

distinguish between real UFOs and the

1891

01:09:56,270 --> 01:09:54,770

Chris you've been a busy man today and I

1892

01:09:58,189 --> 01:09:56,280

1895

01:10:04,310 --> 01:10:01,260

the listeners how they can get a hold of

1896

01:10:07,250 --> 01:10:04,320

you and also a copy of your work as well

1897
