

BREAKING NEWS:
UAP HEARINGS

Dr. Irvin

1
00:00:06,190 --> 00:00:03,590
this is Lou Elizondo and you are

2
00:00:10,009 --> 00:00:06,200
listening to that UFO podcast

3
00:00:12,650 --> 00:00:10,019
[Music]

4
00:00:14,749 --> 00:00:12,660
hi everyone and welcome back to that UFO

5
00:00:16,849 --> 00:00:14,759
podcast my name is Andy and this is a

6
00:00:19,070 --> 00:00:16,859
look at the UFO hearings that just

7
00:00:21,590 --> 00:00:19,080
happened today in the United States

8
00:00:22,609 --> 00:00:21,600
joining me I didn't know they were I

9
00:00:25,730 --> 00:00:22,619
didn't know they were taking place today

10
00:00:26,689 --> 00:00:25,740
well that's done and joining me from the

11
00:00:28,790 --> 00:00:26,699
UK

12
00:00:30,890 --> 00:00:28,800
um is back temporarily

13
00:00:32,210 --> 00:00:30,900

um well yes they were out today

14

00:00:33,350 --> 00:00:32,220

um depending on when you listen to this

15

00:00:34,670 --> 00:00:33,360

then there might be tomorrow there might

16

00:00:36,410 --> 00:00:34,680

have been a few days ago they might have

17

00:00:37,430 --> 00:00:36,420

been weeks ago could have been years ago

18

00:00:39,350 --> 00:00:37,440

if you're listening to this in the

19

00:00:40,790 --> 00:00:39,360

future and our alien overlords have

20

00:00:43,190 --> 00:00:40,800

landed and taken over and these are

21

00:00:45,110 --> 00:00:43,200

totally a waste of time but um yeah

22

00:00:48,350 --> 00:00:45,120

we're going to give some very well

23

00:00:50,029 --> 00:00:48,360

unfleshed out thoughts instant reaction

24

00:00:52,069 --> 00:00:50,039

um our opinion may change in a few days

25

00:00:53,029 --> 00:00:52,079

so don't get angry don't send us a lot

26

00:00:55,310 --> 00:00:53,039

of hate

27

00:00:56,930 --> 00:00:55,320

um but yeah the committee on armed

28

00:00:58,549 --> 00:00:56,940

services subcommittee on emerging

29

00:01:00,830 --> 00:00:58,559

threats and capabilities Dan rolls off

30

00:01:02,689 --> 00:01:00,840

the tongue had its UFO hearings

31

00:01:06,230 --> 00:01:02,699

essentially today for the Layman

32

00:01:09,950 --> 00:01:06,240

um no one get angry UAP UFO hearings

33

00:01:12,109 --> 00:01:09,960

um SCP yeah scpm will get to why it's SC

34

00:01:13,850 --> 00:01:12,119

P but I like that actually that yeah

35

00:01:16,910 --> 00:01:13,860

we'll get to why I like that

36

00:01:18,710 --> 00:01:16,920

um we were met on the the build up with

37

00:01:20,510 --> 00:01:18,720

a lovely screen for about half an hour

38

00:01:22,490 --> 00:01:20,520

saying hearing on the mission activities

39

00:01:24,230 --> 00:01:22,500

oversight and budget of the old domain

40

00:01:26,330 --> 00:01:24,240

anomaly resolution office coverage

41

00:01:28,370 --> 00:01:26,340

begins momentarily that was the first

42

00:01:30,649 --> 00:01:28,380

lie because it took about 45 minutes to

43

00:01:33,170 --> 00:01:30,659

an hour before it started indeed yeah I

44

00:01:34,910 --> 00:01:33,180

was on a bus from London to Wales and

45

00:01:36,469 --> 00:01:34,920

like the whole time I was like okay I

46

00:01:38,330 --> 00:01:36,479

can watch this on the bus and make my

47

00:01:40,429 --> 00:01:38,340

notes and actually the hearing started

48

00:01:41,810 --> 00:01:40,439

as I got off the bus brilliant yeah I

49

00:01:43,910 --> 00:01:41,820

did see that too didn't I was like I'll

50

00:01:46,550 --> 00:01:43,920

probably start late a bit of time but it

51
00:01:48,770 --> 00:01:46,560
came it kicks off because as some folks

52
00:01:51,230 --> 00:01:48,780
may or may not know there were the two

53
00:01:53,749 --> 00:01:51,240
healings today the first one uh that

54
00:01:56,510 --> 00:01:53,759
happened before this was the closed

55
00:01:59,330 --> 00:01:56,520
section so classified security clearance

56
00:02:01,910 --> 00:01:59,340
is required and as we normally see and

57
00:02:03,590 --> 00:02:01,920
it is pure speculation but probably the

58
00:02:05,810 --> 00:02:03,600
some of the good stuff was talked about

59
00:02:07,910 --> 00:02:05,820
that even if it's to do with foreign

60
00:02:10,309 --> 00:02:07,920
adversarial Tech or the truly unknown

61
00:02:12,290 --> 00:02:10,319
stuff interesting systems and and

62
00:02:14,210 --> 00:02:12,300
sensory arrays they have we don't get to

63
00:02:16,430 --> 00:02:14,220

hear about that and that was discussed

64

00:02:18,350 --> 00:02:16,440

in the earlier portion that then

65

00:02:20,270 --> 00:02:18,360

potentially overran when that finish to

66

00:02:22,430 --> 00:02:20,280

take a break came back in and then had

67

00:02:24,170 --> 00:02:22,440

the open section

68

00:02:26,930 --> 00:02:24,180

um what's really good about that part

69

00:02:28,309 --> 00:02:26,940

taking place first is it means that a

70

00:02:30,770 --> 00:02:28,319

bunch of the questions that we heard

71

00:02:32,390 --> 00:02:30,780

probably uh agilebrand kind of trying to

72

00:02:33,949 --> 00:02:32,400

Clue the public into a little bit more

73

00:02:36,050 --> 00:02:33,959

than than we would have known had they

74

00:02:37,850 --> 00:02:36,060

been the other way around you know well

75

00:02:39,830 --> 00:02:37,860

chatting it if that's the right phrase

76

00:02:41,630 --> 00:02:39,840

was a Senator Kirsten gillibrand that

77

00:02:44,150 --> 00:02:41,640

many folks will know as a sort of

78

00:02:46,070 --> 00:02:44,160

advocate for the UAP subject within the

79

00:02:48,589 --> 00:02:46,080

political walls of the United States

80

00:02:51,470 --> 00:02:48,599

governmental system and also Senator

81

00:02:53,570 --> 00:02:51,480

Johnny Ernst and if I'm right Kirsten

82

00:02:55,790 --> 00:02:53,580

gillibran's a Democrat Johnny Ernst is a

83

00:02:57,110 --> 00:02:55,800

republican so sitting side by side you

84

00:02:58,670 --> 00:02:57,120

had the kind of bipartisan

85

00:03:00,890 --> 00:02:58,680

representation of the UFO subject

86

00:03:02,089 --> 00:03:00,900

subject right there and there which was

87

00:03:05,509 --> 00:03:02,099

great

88

00:03:08,570 --> 00:03:05,519

um they both had kind of opening gambits

89

00:03:10,729 --> 00:03:08,580

opening statements uh custom Jilla

90

00:03:12,589 --> 00:03:10,739

Brands was very much as we sort of

91

00:03:14,750 --> 00:03:12,599

expected she has a strong Keen interest

92

00:03:17,449 --> 00:03:14,760

in this topic in this Arena she's been a

93

00:03:19,610 --> 00:03:17,459

big advocate for it and Johnny Ernst I

94

00:03:20,509 --> 00:03:19,620

got the feeling not knowing Senator

95

00:03:22,309 --> 00:03:20,519

Ernst

96

00:03:24,830 --> 00:03:22,319

um lent towards it being foreign

97

00:03:26,690 --> 00:03:24,840

adversarial technology conversation that

98

00:03:29,089 --> 00:03:26,700

she was looking at very much China

99

00:03:30,890 --> 00:03:29,099

Russia you know what China and Russia

100

00:03:32,690 --> 00:03:30,900

have What are China and Russia doing and

101
00:03:34,070 --> 00:03:32,700
that's how our questions were presented

102
00:03:36,350 --> 00:03:34,080
as it went on yeah

103
00:03:40,550 --> 00:03:36,360
um early on then don't know if it struck

104
00:03:42,589 --> 00:03:40,560
you but I expected uh a bigger setting a

105
00:03:44,809 --> 00:03:42,599
bigger room more people and I think

106
00:03:47,750 --> 00:03:44,819
others did online as well

107
00:03:49,430 --> 00:03:47,760
yeah we we last time we were actually

108
00:03:50,869 --> 00:03:49,440
you know in one of the main Chambers

109
00:03:52,789 --> 00:03:50,879
whereas this one just kind of seemed

110
00:03:53,649 --> 00:03:52,799
like a room off to the side

111
00:03:55,910 --> 00:03:53,659
um

112
00:03:58,009 --> 00:03:55,920
before you go to the main chamber yeah

113
00:03:59,509 --> 00:03:58,019

exactly the the kind of place that I

114

00:04:01,610 --> 00:03:59,519

would expect the closed portion of the

115

00:04:03,289 --> 00:04:01,620

hearings take place I guess

116

00:04:05,390 --> 00:04:03,299

um so so that was interesting to see but

117

00:04:07,490 --> 00:04:05,400

it wasn't as you know at least the table

118

00:04:08,869 --> 00:04:07,500

wasn't as long as Putin's table you know

119

00:04:10,070 --> 00:04:08,879

in those pictures that could have been a

120

00:04:12,350 --> 00:04:10,080

bit extreme but yeah you had everyone

121

00:04:14,330 --> 00:04:12,360

kind of down one end and around the side

122

00:04:16,069 --> 00:04:14,340

and then Chun Kirkpatrick just kind of

123

00:04:17,330 --> 00:04:16,079

right down the other end of the tables

124

00:04:19,610 --> 00:04:17,340

kind of where everyone could see him

125

00:04:21,349 --> 00:04:19,620

yeah and and that smaller setting we

126

00:04:23,210 --> 00:04:21,359

didn't have too many players as as you

127

00:04:26,090 --> 00:04:23,220

mentioned Dr Sean Patrick who is the

128

00:04:28,249 --> 00:04:26,100

director of Arrow essentially the the

129

00:04:29,930 --> 00:04:28,259

main guy in the UFO office right now for

130

00:04:33,350 --> 00:04:29,940

the United States

131

00:04:35,150 --> 00:04:33,360

um he largely made up who we heard from

132

00:04:37,850 --> 00:04:35,160

and that's that's kind of out in 10

133

00:04:40,010 --> 00:04:37,860

minute session it was very much and I

134

00:04:41,210 --> 00:04:40,020

think some of the confusion online with

135

00:04:42,770 --> 00:04:41,220

people discussing and debating

136

00:04:44,749 --> 00:04:42,780

expectations and what was going to

137

00:04:46,430 --> 00:04:44,759

happen was around

138

00:04:47,870 --> 00:04:46,440

the setting and who was going to be

139

00:04:50,450 --> 00:04:47,880

there and what was going to be discussed

140

00:04:52,909 --> 00:04:50,460

this was largely Dr Sean Kirkpatrick

141

00:04:54,950 --> 00:04:52,919

sitting there giving a presentation on

142

00:04:56,689 --> 00:04:54,960

like it said in that early screen the

143

00:04:59,270 --> 00:04:56,699

mission activities oversight and budget

144

00:05:01,010 --> 00:04:59,280

of Arrow and then there was room for

145

00:05:03,110 --> 00:05:01,020

some follow-up which we'll get to from

146

00:05:04,610 --> 00:05:03,120

Senator brand Center Ernst and other

147

00:05:07,370 --> 00:05:04,620

Senator that was asking questions I

148

00:05:09,770 --> 00:05:07,380

missed her name uh Jackie Jackie Rosen

149

00:05:11,330 --> 00:05:09,780

okay um senator for Nevada she was

150

00:05:13,010 --> 00:05:11,340

talking about like the the safety of him

151
00:05:15,830 --> 00:05:13,020
and in Nevada and yeah you know things

152
00:05:17,990 --> 00:05:15,840
like that yeah again some lot of Johnny

153
00:05:20,030 --> 00:05:18,000
ernstor very much aimed at the

154
00:05:22,850 --> 00:05:20,040
terrestrial prosaic military point of

155
00:05:24,950 --> 00:05:22,860
view yeah so again we are watching this

156
00:05:26,870 --> 00:05:24,960
like any of you listening to this will

157
00:05:28,909 --> 00:05:26,880
unlikely just be military enthusiasts

158
00:05:30,830 --> 00:05:28,919
and you know public servants you have

159
00:05:32,090 --> 00:05:30,840
got an interest in the UFO topic so

160
00:05:33,529 --> 00:05:32,100
that's why we have an interest in

161
00:05:35,870 --> 00:05:33,539
watching this

162
00:05:38,390 --> 00:05:35,880
um however Dr Sean Kirkpatrick came in

163
00:05:40,070 --> 00:05:38,400

with uh opening comments

164

00:05:43,189 --> 00:05:40,080

um he mentions it's been nine months

165

00:05:44,689 --> 00:05:43,199

since Arrow started and I I don't know

166

00:05:47,029 --> 00:05:44,699

if you can understand you'd probably do

167

00:05:48,890 --> 00:05:47,039

but it's not necessarily a very very

168

00:05:51,230 --> 00:05:48,900

common knowledge I don't think but Sean

169

00:05:53,450 --> 00:05:51,240

Kirkpatrick's team has only recently

170

00:05:55,370 --> 00:05:53,460

been fully assembled as well he hasn't

171

00:05:58,310 --> 00:05:55,380

had that team in place for nine months

172

00:05:59,870 --> 00:05:58,320

yeah that's right in fact I think the

173

00:06:01,730 --> 00:05:59,880

number thrown around was like maybe

174

00:06:03,890 --> 00:06:01,740

three people for the majority of it

175

00:06:06,170 --> 00:06:03,900

whereas today we heard that he has three

176

00:06:08,270 --> 00:06:06,180

dozen experts that are kind of part of

177

00:06:09,710 --> 00:06:08,280

Arrow which is you know it's a lot more

178

00:06:11,870 --> 00:06:09,720

than what you thought that's encouraging

179

00:06:13,730 --> 00:06:11,880

and it's the early days it's baby steps

180

00:06:16,550 --> 00:06:13,740

and I I put out online that folks should

181

00:06:18,050 --> 00:06:16,560

remember and again this isn't this isn't

182

00:06:20,450 --> 00:06:18,060

me giving across opinion which I always

183

00:06:22,909 --> 00:06:20,460

like to warn when I'm doing back during

184

00:06:24,290 --> 00:06:22,919

the the early days before the task force

185

00:06:26,570 --> 00:06:24,300

report was coming out I remember getting

186

00:06:29,270 --> 00:06:26,580

all that build up and we had Louis zondo

187

00:06:31,550 --> 00:06:29,280

on TV Chris Merlin on TV Sean Cahill on

188

00:06:33,770 --> 00:06:31,560

TV and a whole host of others other

189

00:06:35,330 --> 00:06:33,780

Talking Heads talking about what could

190

00:06:37,790 --> 00:06:35,340

and couldn't come from the task force

191

00:06:40,129 --> 00:06:37,800

report the main message that kept coming

192

00:06:41,749 --> 00:06:40,139

out was they had not had enough time to

193

00:06:43,249 --> 00:06:41,759

compel the report they were being

194

00:06:44,689 --> 00:06:43,259

hamstrung they were doing it with one

195

00:06:46,790 --> 00:06:44,699

hand tied behind their back and one hand

196

00:06:48,770 --> 00:06:46,800

and over one eye and the pen was running

197

00:06:51,050 --> 00:06:48,780

out of ink that was largely what was

198

00:06:52,850 --> 00:06:51,060

being said and I think Chris melon kept

199

00:06:55,010 --> 00:06:52,860

saying it was three to four years would

200

00:06:56,510 --> 00:06:55,020

have been a more realistic timeline to

201
00:06:58,850 --> 00:06:56,520
actually get together

202
00:07:01,689 --> 00:06:58,860
not even perfect but a good amount of

203
00:07:03,469 --> 00:07:01,699
data a lot of knowledge a lot of

204
00:07:04,850 --> 00:07:03,479
compartmentalization to be brought

205
00:07:06,110 --> 00:07:04,860
together different people to work

206
00:07:07,189 --> 00:07:06,120
together different parts of the

207
00:07:09,230 --> 00:07:07,199
government

208
00:07:11,270 --> 00:07:09,240
Dr Sean Kirkpatrick no matter what you

209
00:07:12,710 --> 00:07:11,280
think of him before or after this has

210
00:07:14,450 --> 00:07:12,720
been in charge of idol for nine months

211
00:07:16,430 --> 00:07:14,460
and his team has only recently assembled

212
00:07:18,110 --> 00:07:16,440
that's not a lot of time that's less

213
00:07:21,529 --> 00:07:18,120

than a quarter of the time

214

00:07:23,930 --> 00:07:21,539

Chris Merlin and others said would be

215

00:07:25,850 --> 00:07:23,940

required for this sort of thing to

216

00:07:28,490 --> 00:07:25,860

really work properly and I think that's

217

00:07:31,070 --> 00:07:28,500

that's fair to say that much for the

218

00:07:33,529 --> 00:07:31,080

get-go then yeah yeah I would agree

219

00:07:35,510 --> 00:07:33,539

um it's still shocking to me that

220

00:07:38,390 --> 00:07:35,520

you know data should have been handed

221

00:07:40,010 --> 00:07:38,400

over from uaptf to aimsog to Arrow you

222

00:07:42,589 --> 00:07:40,020

know all these incarnations of this

223

00:07:44,029 --> 00:07:42,599

office over the past very few years but

224

00:07:46,129 --> 00:07:44,039

in fact it doesn't seem like they had

225

00:07:48,050 --> 00:07:46,139

much of a database previously and and

226

00:07:49,070 --> 00:07:48,060

that you know during these hearings Sean

227

00:07:51,110 --> 00:07:49,080

was saying that they're kind of

228

00:07:53,330 --> 00:07:51,120

normalizing the reporting and the

229

00:07:55,129 --> 00:07:53,340

databases that they have and this is

230

00:07:57,830 --> 00:07:55,139

great but it kind of made me feel like

231

00:07:58,909 --> 00:07:57,840

we'd maybe wasted two years you know

232

00:08:01,070 --> 00:07:58,919

kind of

233

00:08:02,570 --> 00:08:01,080

with more speculative approaches and

234

00:08:05,510 --> 00:08:02,580

things like that

235

00:08:07,850 --> 00:08:05,520

um so I I was encouraged by Sean's kind

236

00:08:09,469 --> 00:08:07,860

of scientific rigorous approach uh that

237

00:08:11,749 --> 00:08:09,479

he was kind of walking us through today

238

00:08:15,770 --> 00:08:11,759

how did you find it

239

00:08:17,510 --> 00:08:15,780

yeah I'm in general I didn't mind how

240

00:08:19,909 --> 00:08:17,520

his character came across that is just

241

00:08:21,830 --> 00:08:19,919

opinion I know it it divided some folk

242

00:08:23,450 --> 00:08:21,840

said it was typically boring to have

243

00:08:25,070 --> 00:08:23,460

people lose interest in the topic I

244

00:08:26,749 --> 00:08:25,080

thought he spoke all right there were

245

00:08:28,550 --> 00:08:26,759

glimpses of actually a personality

246

00:08:29,869 --> 00:08:28,560

coming across as well yeah did they want

247

00:08:32,209 --> 00:08:29,879

like flashing lights or something I

248

00:08:34,370 --> 00:08:32,219

don't know yeah they'd only be asking

249

00:08:35,029 --> 00:08:34,380

why they didn't rap yeah

250

00:08:37,630 --> 00:08:35,039

um

251
00:08:40,490 --> 00:08:37,640
it was better than Brian Moultrie by far

252
00:08:42,589 --> 00:08:40,500
uh and I think

253
00:08:44,570 --> 00:08:42,599
I think what how he came across to me

254
00:08:47,990 --> 00:08:44,580
not to jump too far ahead but he was

255
00:08:49,070 --> 00:08:48,000
reasonable and I I understand and I

256
00:08:51,590 --> 00:08:49,080
shared a few texts with people

257
00:08:55,430 --> 00:08:51,600
afterwards just saying you know what I

258
00:08:57,889 --> 00:08:55,440
get a lot of his position I get how he

259
00:08:59,810 --> 00:08:57,899
came across I don't agree with all of it

260
00:09:02,509 --> 00:08:59,820
and actually there's someone who isn't

261
00:09:04,130 --> 00:09:02,519
Dr Sean Kirkpatrick I'm a small bit

262
00:09:05,030 --> 00:09:04,140
disappointed in and we'll come to that

263
00:09:06,470 --> 00:09:05,040

in a minute

264

00:09:09,889 --> 00:09:06,480

um in terms of how things came across

265

00:09:11,389 --> 00:09:09,899

interesting um but yeah the he mentioned

266

00:09:14,090 --> 00:09:11,399

implementing Frameworks for better

267

00:09:16,790 --> 00:09:14,100

scientific analysis it very much sounded

268

00:09:19,430 --> 00:09:16,800

like you know it's a start but we need

269

00:09:21,769 --> 00:09:19,440

more money more people more time you

270

00:09:23,630 --> 00:09:21,779

know more backing

271

00:09:25,329 --> 00:09:23,640

um and more help in a lot of different

272

00:09:27,949 --> 00:09:25,339

ways and I don't think that's unfair

273

00:09:31,009 --> 00:09:27,959

given given where they're at you know

274

00:09:33,350 --> 00:09:31,019

it's it's it the begging bowls out a

275

00:09:35,990 --> 00:09:33,360

little bit in one hand and I don't think

276

00:09:38,690 --> 00:09:36,000

that necessarily was was wrong because

277

00:09:41,509 --> 00:09:38,700

Senator gillibrand seemed to be quite

278

00:09:43,070 --> 00:09:41,519

open to supporting and you know do you

279

00:09:44,570 --> 00:09:43,080

need this yep then we can write a letter

280

00:09:46,730 --> 00:09:44,580

to your superiors I thought it is to

281

00:09:48,470 --> 00:09:46,740

help you get that and I wonder does that

282

00:09:50,449 --> 00:09:48,480

come from the classified briefing

283

00:09:52,610 --> 00:09:50,459

happening first that she's heard enough

284

00:09:54,530 --> 00:09:52,620

that and maybe I am looking at this

285

00:09:55,730 --> 00:09:54,540

glass half Phil she's had enough in

286

00:09:58,210 --> 00:09:55,740

those early

287

00:10:01,790 --> 00:09:58,220

conversations that we don't hear to go

288

00:10:04,250 --> 00:10:01,800

enough's being done that I can I can be

289

00:10:06,710 --> 00:10:04,260

comfortable not hauling this guy over

290

00:10:08,389 --> 00:10:06,720

hot coals here and offering the backing

291

00:10:10,490 --> 00:10:08,399

and support required

292

00:10:12,410 --> 00:10:10,500

yeah I think that's totally fair to say

293

00:10:14,930 --> 00:10:12,420

you know we heard her at several points

294

00:10:17,269 --> 00:10:14,940

say you know do you need more access do

295

00:10:19,130 --> 00:10:17,279

you need us to chase up like the for

296

00:10:20,630 --> 00:10:19,140

example the the secure system where

297

00:10:23,509 --> 00:10:20,640

people can

298

00:10:26,449 --> 00:10:23,519

send uh Arrow information on Legacy

299

00:10:29,030 --> 00:10:26,459

programs and things like that uh she

300

00:10:30,050 --> 00:10:29,040

asked him when that was going to be

301

00:10:31,430 --> 00:10:30,060

established and he said you know we

302

00:10:33,110 --> 00:10:31,440

submitted our plan before Christmas and

303

00:10:34,490 --> 00:10:33,120

we haven't heard anything so then she

304

00:10:37,130 --> 00:10:34,500

responded with okay fine we're gonna

305

00:10:38,269 --> 00:10:37,140

help you trace that up then yeah so it

306

00:10:39,889 --> 00:10:38,279

seems like

307

00:10:41,690 --> 00:10:39,899

at the very least they they all view

308

00:10:43,310 --> 00:10:41,700

each other as on the same side instead

309

00:10:44,810 --> 00:10:43,320

of adversarial it wasn't like Moultrie

310

00:10:47,090 --> 00:10:44,820

and Bray last time like you said where

311

00:10:49,190 --> 00:10:47,100

it felt like a kind of dog and pony show

312

00:10:51,590 --> 00:10:49,200

that that wasn't the case at all here it

313

00:10:53,870 --> 00:10:51,600

felt more collaborative you know yeah

314

00:10:56,389 --> 00:10:53,880

and he um

315

00:10:58,970 --> 00:10:56,399

I've made a note to say I think some of

316

00:11:01,790 --> 00:10:58,980

the issue is that there are some folks

317

00:11:04,310 --> 00:11:01,800

and it's not it's not unfair okay but

318

00:11:06,110 --> 00:11:04,320

they want a Richard Dolan or Linda

319

00:11:08,210 --> 00:11:06,120

Moulton Howe type personality or

320

00:11:10,069 --> 00:11:08,220

character in the position of Dr Sean

321

00:11:11,389 --> 00:11:10,079

Kirkpatrick you're not going to get that

322

00:11:15,290 --> 00:11:11,399

and the highest levels of government

323

00:11:18,230 --> 00:11:15,300

even the most staunch of UFO or UAP

324

00:11:20,569 --> 00:11:18,240

Advocates maybe like a Jilla brand or a

325

00:11:21,889 --> 00:11:20,579

barchette would I don't think would go

326

00:11:23,449 --> 00:11:21,899

that far

327

00:11:25,190 --> 00:11:23,459

um and that can frustrate a lot of

328

00:11:28,370 --> 00:11:25,200

people I think what you've got is

329

00:11:29,930 --> 00:11:28,380

someone who looks like they want to do

330

00:11:32,569 --> 00:11:29,940

like you said Implement better

331

00:11:34,430 --> 00:11:32,579

Frameworks for scientific analysis

332

00:11:36,470 --> 00:11:34,440

um and this is where something I think's

333

00:11:37,490 --> 00:11:36,480

been really misconstrued and this is

334

00:11:39,290 --> 00:11:37,500

something that might change in the

335

00:11:41,269 --> 00:11:39,300

coming days as I read other people's

336

00:11:42,829 --> 00:11:41,279

analysis now in my opinion to be fluid

337

00:11:43,610 --> 00:11:42,839

like I've said sure

338

00:11:46,009 --> 00:11:43,620

um but

339

00:11:48,769 --> 00:11:46,019

he said and this was kind of about the

340

00:11:52,190 --> 00:11:48,779

human touch that Adam's mission is to

341

00:11:53,870 --> 00:11:52,200

turn up into SCP that's someone else's

342

00:11:55,670 --> 00:11:53,880

problem or somebody else's problem

343

00:11:56,930 --> 00:11:55,680

that's funny I like that you know about

344

00:11:58,790 --> 00:11:56,940

humor

345

00:12:01,210 --> 00:11:58,800

um what that means for me is that all

346

00:12:03,949 --> 00:12:01,220

they would be doing an arrow as

347

00:12:07,009 --> 00:12:03,959

identifying what an object is what one

348

00:12:08,810 --> 00:12:07,019

of those cases is and then they they

349

00:12:10,430 --> 00:12:08,820

don't have the authority to act on that

350

00:12:12,769 --> 00:12:10,440

there's no they're in the military wing

351

00:12:15,710 --> 00:12:12,779

of Arrow unless I'm mistaken that then

352

00:12:17,630 --> 00:12:15,720

goes out and finds whatever it is or you

353

00:12:19,430 --> 00:12:17,640

know tries to shoot it down or they

354

00:12:21,889 --> 00:12:19,440

don't then order the Navy to send out

355

00:12:23,750 --> 00:12:21,899

you know Jets from a fleet that's not

356

00:12:26,329 --> 00:12:23,760

what happens they're just there to stay

357

00:12:28,069 --> 00:12:26,339

together and hand it off to someone else

358

00:12:30,230 --> 00:12:28,079

and that's that's what he means by that

359

00:12:33,769 --> 00:12:30,240

isn't it because it then needs to go to

360

00:12:35,990 --> 00:12:33,779

the Air Force the Navy the CIA the FBI

361

00:12:37,850 --> 00:12:36,000

whoever it might be and they then deal

362

00:12:39,769 --> 00:12:37,860

with that from there yeah that's

363

00:12:41,930 --> 00:12:39,779

absolutely right uh the the bit I liked

364

00:12:44,449 --> 00:12:41,940

is where he said you know if we were

365

00:12:46,129 --> 00:12:44,459

ever to find something that was provably

366

00:12:49,250 --> 00:12:46,139

extraterrestrial then they would engage

367

00:12:50,990 --> 00:12:49,260

with NASA and NASA has a remit to be

368

00:12:54,230 --> 00:12:51,000

public facing and to talk to the public

369

00:12:56,269 --> 00:12:54,240

so I like that Sean is using those tools

370

00:13:00,050 --> 00:12:56,279

in a specific way you know he's building

371

00:13:01,250 --> 00:13:00,060

the database out and as we know 99 of

372

00:13:03,170 --> 00:13:01,260

things that people see in the sky that

373

00:13:05,269 --> 00:13:03,180

they think are strange probably aren't

374

00:13:07,190 --> 00:13:05,279

but it's that one percent that we're

375

00:13:09,110 --> 00:13:07,200

kind of interested in and and it's nice

376
00:13:10,910 --> 00:13:09,120
that Sean kind of almost has a workflow

377
00:13:13,009 --> 00:13:10,920
for any possibility even though he

378
00:13:15,290 --> 00:13:13,019
hasn't come across it he still knows

379
00:13:17,329 --> 00:13:15,300
what he would do if he came across it

380
00:13:19,370 --> 00:13:17,339
which tells me that he's a little more

381
00:13:21,590 --> 00:13:19,380
open-minded than you know Bray and

382
00:13:22,970 --> 00:13:21,600
Moultrie like you were the last time and

383
00:13:25,190 --> 00:13:22,980
you know hats off to Sean as well there

384
00:13:26,150 --> 00:13:25,200
were no technical mishaps no mucking

385
00:13:27,889 --> 00:13:26,160
about with

386
00:13:29,509 --> 00:13:27,899
three second videos trying to kind of

387
00:13:31,490 --> 00:13:29,519
pause it in the middle you know he was

388
00:13:33,050 --> 00:13:31,500

really well prepared and it came across

389

00:13:34,970 --> 00:13:33,060

as a well-prepared presentation yeah

390

00:13:36,230 --> 00:13:34,980

we'll get we'll get to the videos and

391

00:13:38,210 --> 00:13:36,240

listen if anyone's listening to this

392

00:13:40,250 --> 00:13:38,220

first 12 minutes and going oh here they

393

00:13:42,050 --> 00:13:40,260

go being overly praiseworthy of Sean

394

00:13:43,850 --> 00:13:42,060

Kirkpatrick we'll get to the issues and

395

00:13:46,250 --> 00:13:43,860

there are there are plenty of them

396

00:13:48,050 --> 00:13:46,260

um but I thought when he said only a

397

00:13:49,730 --> 00:13:48,060

small portion of objects that they have

398

00:13:51,410 --> 00:13:49,740

looked at truly give off anomalous

399

00:13:53,690 --> 00:13:51,420

readings most are present clutter

400

00:13:56,210 --> 00:13:53,700

balloons that's that's fair and expected

401
00:13:57,769 --> 00:13:56,220
because that that is still true you know

402
00:13:59,150 --> 00:13:57,779
when they say half the cases and we say

403
00:14:01,310 --> 00:13:59,160
this at the time when Julian Barnes

404
00:14:02,629 --> 00:14:01,320
article dropped way back when talking

405
00:14:04,430 --> 00:14:02,639
about the number of cases that were

406
00:14:07,250 --> 00:14:04,440
going to come out in that report and

407
00:14:08,870 --> 00:14:07,260
they said half of them were prosaic but

408
00:14:10,250 --> 00:14:08,880
that doesn't mean the other half are all

409
00:14:13,310 --> 00:14:10,260
extraterrestrial that means the rest

410
00:14:15,290 --> 00:14:13,320
haven't been you know identified and we

411
00:14:17,569 --> 00:14:15,300
said or I think a lot of people said to

412
00:14:20,389 --> 00:14:17,579
be fair a lot of those will still be

413
00:14:22,490 --> 00:14:20,399

prosaic as in Chinese Russian U.S

414

00:14:23,990 --> 00:14:22,500

technology balloons hobby balloons all

415

00:14:25,550 --> 00:14:24,000

that kind of good stuff but they're

416

00:14:27,949 --> 00:14:25,560

still then the small percentage of those

417

00:14:29,509 --> 00:14:27,959

that are there the ET stuff the

418

00:14:30,650 --> 00:14:29,519

non-human stuff the anti-dimensional

419

00:14:32,750 --> 00:14:30,660

stuff whatever you want to call it

420

00:14:34,850 --> 00:14:32,760

that's what we're really interested and

421

00:14:36,290 --> 00:14:34,860

excited about that's not going to going

422

00:14:39,230 --> 00:14:36,300

to get mentioned in a hearing like this

423

00:14:41,750 --> 00:14:39,240

for me and it was as dismissive to the

424

00:14:43,550 --> 00:14:41,760

ET hypothesis as I expected and and to

425

00:14:45,110 --> 00:14:43,560

quote what he actually said

426

00:14:46,490 --> 00:14:45,120

um only a small percentage of UAP

427

00:14:48,590 --> 00:14:46,500

reports have signatures that are

428

00:14:51,590 --> 00:14:48,600

anomalous most demonstrate mundane

429

00:14:53,629 --> 00:14:51,600

characteristics and arrow has quote

430

00:14:56,389 --> 00:14:53,639

unquote No credible evidence of

431

00:14:59,389 --> 00:14:56,399

extraterrestrial origins of objects let

432

00:15:01,490 --> 00:14:59,399

me annoy some folks just now done so he

433

00:15:04,850 --> 00:15:01,500

could have and should have said if he

434

00:15:06,710 --> 00:15:04,860

meant what he said no evidence of

435

00:15:08,329 --> 00:15:06,720

extraterrestrial origin of objects he

436

00:15:10,550 --> 00:15:08,339

said no credible evidence of

437

00:15:13,670 --> 00:15:10,560

extraterrestrial origin of objects now

438

00:15:15,710 --> 00:15:13,680

what he views as credible and what you

439

00:15:18,050 --> 00:15:15,720

and I or listeners or anyone else feels

440

00:15:21,829 --> 00:15:18,060

as credible are going to differ wildly

441

00:15:25,730 --> 00:15:21,839

so that's not to say there may be some

442

00:15:28,129 --> 00:15:25,740

evidence maybe might be a weak evidence

443

00:15:29,870 --> 00:15:28,139

might be evidence that right now they

444

00:15:31,370 --> 00:15:29,880

don't even know can they class it as

445

00:15:34,730 --> 00:15:31,380

evidence because they don't know what it

446

00:15:36,230 --> 00:15:34,740

is but he said no credible evidence and

447

00:15:38,389 --> 00:15:36,240

these are people that are usually pretty

448

00:15:39,829 --> 00:15:38,399

careful with their wording and are you

449

00:15:42,949 --> 00:15:39,839

generally reading things off about paper

450

00:15:45,949 --> 00:15:42,959

for the most part as well so I

451

00:15:47,569 --> 00:15:45,959

I I'm choosing to go with when he says

452

00:15:48,949 --> 00:15:47,579

no credible evidence that doesn't mean

453

00:15:50,689 --> 00:15:48,959

no evidence

454

00:15:52,730 --> 00:15:50,699

I I think you're exactly right on that

455

00:15:55,730 --> 00:15:52,740

you know they they said that they've had

456

00:15:58,250 --> 00:15:55,740

about uh 12 people passed on to to them

457

00:16:00,769 --> 00:15:58,260

to kind of testify and in another part

458

00:16:02,870 --> 00:16:00,779

Sean alluded to the fact that single

459

00:16:05,569 --> 00:16:02,880

Source kind of data so like eyewitness

460

00:16:07,310 --> 00:16:05,579

accounts on their own don't really make

461

00:16:09,650 --> 00:16:07,320

up for evidence it's interesting but

462

00:16:11,329 --> 00:16:09,660

they can't really do much with that

463

00:16:12,650 --> 00:16:11,339

um he wants the hard data and the

464

00:16:14,509 --> 00:16:12,660

multiple data points and things like

465

00:16:16,129 --> 00:16:14,519

that so yeah I think I think that's what

466

00:16:18,410 --> 00:16:16,139

he's getting at you know so for example

467

00:16:21,710 --> 00:16:18,420

Robert Salas we know that he testified

468

00:16:24,350 --> 00:16:21,720

to Arrow do they have access to to what

469

00:16:26,569 --> 00:16:24,360

Robert Salas kind of experienced to the

470

00:16:28,970 --> 00:16:26,579

data from that event probably not it was

471

00:16:31,189 --> 00:16:28,980

a while ago right so he would probably

472

00:16:33,829 --> 00:16:31,199

put that in the it's hard to kind of

473

00:16:35,569 --> 00:16:33,839

hold this up as a credible case

474

00:16:38,329 --> 00:16:35,579

um not to say that you know I'm not

475

00:16:39,410 --> 00:16:38,339

saying at all that it didn't happen uh

476

00:16:40,850 --> 00:16:39,420

I'm just trying to think if I'm sure on

477

00:16:42,110 --> 00:16:40,860

the point of view in terms of you know

478

00:16:43,490 --> 00:16:42,120

the amount of data points that they have

479

00:16:46,249 --> 00:16:43,500

in the amount of sensors and things like

480

00:16:47,870 --> 00:16:46,259

that single Source stories what we'll

481

00:16:50,090 --> 00:16:47,880

put into Room 101 when we did that by

482

00:16:52,249 --> 00:16:50,100

Sean Cahill and and we're kind of just

483

00:16:53,810 --> 00:16:52,259

seeing that you know on a government

484

00:16:55,850 --> 00:16:53,820

level to kind of say yeah you know these

485

00:16:57,470 --> 00:16:55,860

are interesting they might help inform

486

00:17:00,530 --> 00:16:57,480

the trends and patterns when we're kind

487

00:17:02,449 --> 00:17:00,540

of applying uh language learning models

488

00:17:03,949 --> 00:17:02,459

to these things which is just chat GPT

489

00:17:04,850 --> 00:17:03,959

basically

490

00:17:07,669 --> 00:17:04,860

um

491

00:17:10,490 --> 00:17:07,679

But ultimately we can't prove anything

492

00:17:12,590 --> 00:17:10,500

with that one bit of testimony

493

00:17:14,329 --> 00:17:12,600

okay let me get frustrated now and for

494

00:17:16,309 --> 00:17:14,339

those who think I've been too kind on Dr

495

00:17:18,650 --> 00:17:16,319

Sean Kirkpatrick and also the

496

00:17:20,990 --> 00:17:18,660

disappointing Senator gillibrand

497

00:17:23,510 --> 00:17:21,000

um let me tell you why and I'll share

498

00:17:24,409 --> 00:17:23,520

some of those other other issues as well

499

00:17:27,110 --> 00:17:24,419

um

500

00:17:29,450 --> 00:17:27,120

that's fair 100 I imagine maybe they've

501
00:17:31,669 --> 00:17:29,460
had some folks come forward and go yeah

502
00:17:34,010 --> 00:17:31,679
so who are you yeah I am pilot I am

503
00:17:36,230 --> 00:17:34,020
wingman I am this I am that and I saw

504
00:17:38,870 --> 00:17:36,240
this object at this place at this time

505
00:17:40,370 --> 00:17:38,880
brilliant amazing testimony and but

506
00:17:41,750 --> 00:17:40,380
there's no data we didn't really pick

507
00:17:44,330 --> 00:17:41,760
anything up we didn't collect anything

508
00:17:46,430 --> 00:17:44,340
okay that's great thanks he looks at

509
00:17:47,810 --> 00:17:46,440
that and goes this is the stuff that he

510
00:17:50,510 --> 00:17:47,820
mentions later to send out Jilla brand

511
00:17:52,430 --> 00:17:50,520
I've not been sent the best stuff as he

512
00:17:54,230 --> 00:17:52,440
can I put it okay I'll paraphrase

513
00:17:56,029 --> 00:17:54,240

um however let's look at David forever

514

00:17:58,970 --> 00:17:56,039

Alex Dietrich

515

00:18:01,490 --> 00:17:58,980

um and those events so where's the data

516

00:18:03,590 --> 00:18:01,500

from those where's the video of the Tic

517

00:18:06,650 --> 00:18:03,600

Tac because

518

00:18:08,810 --> 00:18:06,660

F what they are saying is correct why

519

00:18:10,669 --> 00:18:08,820

hasn't he seen that and I'm I'm assuming

520

00:18:12,710 --> 00:18:10,679

he has because surely for the love of

521

00:18:14,510 --> 00:18:12,720

God those were some of the first bits of

522

00:18:17,029 --> 00:18:14,520

evidence he looked at

523

00:18:18,409 --> 00:18:17,039

um what about the the 23 minute video of

524

00:18:20,570 --> 00:18:18,419

pure sci-fi you know what we hear about

525

00:18:22,669 --> 00:18:20,580

what about the videos and the evidence

526

00:18:25,190 --> 00:18:22,679

that Senators like verchette Warner

527

00:18:28,730 --> 00:18:25,200

Rubio Gallagher Jella brand and Co are

528

00:18:30,830 --> 00:18:28,740

seeing in different you know briefings

529

00:18:32,630 --> 00:18:30,840

um as he's saying he's not seen that or

530

00:18:34,850 --> 00:18:32,640

is he saying he's seen that and none of

531

00:18:36,169 --> 00:18:34,860

that is at all interesting remind me who

532

00:18:38,810 --> 00:18:36,179

is it that said about the 23 minute

533

00:18:41,750 --> 00:18:38,820

video uh I think that exact quote is

534

00:18:43,850 --> 00:18:41,760

from is it Bob McGuire so yeah but yeah

535

00:18:45,590 --> 00:18:43,860

right okay I guess the media right yes

536

00:18:47,390 --> 00:18:45,600

yes yes yes however so but even if you

537

00:18:49,430 --> 00:18:47,400

remove that there's still tons of stuff

538

00:18:51,590 --> 00:18:49,440

so right yeah so scratch that remove

539

00:18:53,029 --> 00:18:51,600

that the the 23 minute video not to say

540

00:18:55,010 --> 00:18:53,039

it doesn't exist because that was

541

00:18:57,049 --> 00:18:55,020

something that's been plucked out and

542

00:18:58,970 --> 00:18:57,059

injected into something that may or may

543

00:19:02,690 --> 00:18:58,980

not be correct however we're still

544

00:19:05,870 --> 00:19:02,700

hearing that senators are and Congress

545

00:19:09,289 --> 00:19:05,880

men and women are seeing evidence

546

00:19:11,570 --> 00:19:09,299

that is blowing them away so where is

547

00:19:14,270 --> 00:19:11,580

where is that amongst this conversation

548

00:19:16,610 --> 00:19:14,280

you know what is a Timber chat getting

549

00:19:18,770 --> 00:19:16,620

so upset about that he has seen and

550

00:19:20,930 --> 00:19:18,780

heard that isn't being said here

551
00:19:23,029 --> 00:19:20,940
and for me

552
00:19:24,590 --> 00:19:23,039
and again this might change it's an

553
00:19:26,750 --> 00:19:24,600
instant reaction and I'm a nobody I

554
00:19:28,010 --> 00:19:26,760
don't know right so Sarah brand if she

555
00:19:30,350 --> 00:19:28,020
ever heard this would be like what a

556
00:19:33,350 --> 00:19:30,360
dick and she'd be right but

557
00:19:35,930 --> 00:19:33,360
I expected more from Senator custom

558
00:19:38,330 --> 00:19:35,940
gillibrand on this I don't think the

559
00:19:40,789 --> 00:19:38,340
pushback was anywhere near what I

560
00:19:44,029 --> 00:19:40,799
expected I don't think the follow-ups

561
00:19:46,250 --> 00:19:44,039
were anywhere near is as powerful as

562
00:19:47,690 --> 00:19:46,260
they could have been and the only thing

563
00:19:50,630 --> 00:19:47,700

I'm holding on to

564

00:19:53,210 --> 00:19:50,640

and I hope this is the case as that she

565

00:19:56,210 --> 00:19:53,220

heard enough and that closed briefing

566

00:19:57,890 --> 00:19:56,220

enclosed session that satisfied what she

567

00:20:00,950 --> 00:19:57,900

wants to get out of all of this in terms

568

00:20:03,289 --> 00:20:00,960

of a long game that she needs to support

569

00:20:06,110 --> 00:20:03,299

Sean Kirkpatrick and his team going

570

00:20:07,909 --> 00:20:06,120

forward and to to maybe push anything

571

00:20:10,010 --> 00:20:07,919

like that and this setting wasn't the

572

00:20:11,990 --> 00:20:10,020

time and place and that it's one of

573

00:20:14,390 --> 00:20:12,000

those that let's lose the war but we'll

574

00:20:15,770 --> 00:20:14,400

lose the battle but win the war so today

575

00:20:17,390 --> 00:20:15,780

we take one on the channel and we have

576

00:20:19,549 --> 00:20:17,400

to move it down the line

577

00:20:21,590 --> 00:20:19,559

because ultimately I'll be honest I was

578

00:20:23,930 --> 00:20:21,600

a little bit disappointed with that

579

00:20:26,210 --> 00:20:23,940

um Sean Kirkpatrick performed and said

580

00:20:28,070 --> 00:20:26,220

what I pretty much thought he would

581

00:20:30,350 --> 00:20:28,080

yeah same you know it was very similar

582

00:20:32,210 --> 00:20:30,360

to that transport kind of meeting slide

583

00:20:33,650 --> 00:20:32,220

thing that he did not not too long ago I

584

00:20:35,570 --> 00:20:33,660

think it was just a few days before the

585

00:20:37,370 --> 00:20:35,580

report you know very analytical very

586

00:20:38,930 --> 00:20:37,380

data driven kind of presented what what

587

00:20:40,970 --> 00:20:38,940

he was given

588

00:20:42,590 --> 00:20:40,980

um but yeah I I would say the same as

589

00:20:45,350 --> 00:20:42,600

you you know some of the pushback I

590

00:20:47,270 --> 00:20:45,360

literally have a note here where I've

591

00:20:48,770 --> 00:20:47,280

just written drill down on anomalies and

592

00:20:50,090 --> 00:20:48,780

stop sucking up to show on it almost

593

00:20:52,010 --> 00:20:50,100

felt like they were patting him on the

594

00:20:55,370 --> 00:20:52,020

back for for some things that hadn't

595

00:20:56,870 --> 00:20:55,380

been done yet and I just wanted them you

596

00:20:58,010 --> 00:20:56,880

know every time it handed to a new

597

00:20:59,570 --> 00:20:58,020

person they were like ah thank you for

598

00:21:01,730 --> 00:20:59,580

your work blah blah blah blah blah blah

599

00:21:03,890 --> 00:21:01,740

blah and I was just like that easily you

600

00:21:05,990 --> 00:21:03,900

know almost 15 minutes was just them

601
00:21:09,169 --> 00:21:06,000
praising each other a little bit like at

602
00:21:10,789 --> 00:21:09,179
the the Oscars or the MTV Music stand on

603
00:21:12,289 --> 00:21:10,799
stage and it's like Beyonce giving

604
00:21:15,350 --> 00:21:12,299
Rihanna and what award and they just

605
00:21:16,909 --> 00:21:15,360
they gush over each other yeah okay it's

606
00:21:18,409 --> 00:21:16,919
not really the place for it like I know

607
00:21:19,970 --> 00:21:18,419
they're being professional and I know

608
00:21:21,830 --> 00:21:19,980
that you know there's an order to these

609
00:21:23,930 --> 00:21:21,840
things but the second that he said

610
00:21:25,370 --> 00:21:23,940
anomalies I wanted Jilla brand to just

611
00:21:26,870 --> 00:21:25,380
talk onto that and just be like okay

612
00:21:28,610 --> 00:21:26,880
cool let's talk about these anomalies

613
00:21:30,230 --> 00:21:28,620

you know we'll give as much space to

614

00:21:32,990 --> 00:21:30,240

this as we're gonna give to the Chinese

615

00:21:35,690 --> 00:21:33,000

balloons for example okay so something I

616

00:21:37,250 --> 00:21:35,700

kept seeing notable voices in people and

617

00:21:38,930 --> 00:21:37,260

it's not wrong

618

00:21:40,310 --> 00:21:38,940

um go on about for a long time now on

619

00:21:42,529 --> 00:21:40,320

Twitter was that they're going to bring

620

00:21:44,690 --> 00:21:42,539

up crash retrieval programs and that's

621

00:21:46,930 --> 00:21:44,700

going to blow everything wide open

622

00:21:49,909 --> 00:21:46,940

um why didn't they

623

00:21:51,409 --> 00:21:49,919

yeah it's a good question

624

00:21:53,090 --> 00:21:51,419

um you know the closest we got to it was

625

00:21:56,450 --> 00:21:53,100

talking about that

626

00:21:58,490 --> 00:21:56,460

you know secure submission system uh

627

00:21:59,990 --> 00:21:58,500

that the people would be able to use and

628

00:22:01,250 --> 00:22:00,000

they said you know we've had 12 people

629

00:22:03,230 --> 00:22:01,260

testifying and stuff we didn't really

630

00:22:05,630 --> 00:22:03,240

hear anything about them we didn't hear

631

00:22:07,669 --> 00:22:05,640

any details you know the most detail we

632

00:22:10,010 --> 00:22:07,679

got were from the two presentations on

633

00:22:11,990 --> 00:22:10,020

those two videos that Sean showed and

634

00:22:13,930 --> 00:22:12,000

beyond that yeah nothing was really

635

00:22:16,789 --> 00:22:13,940

pushed it was a very comfortable

636

00:22:18,890 --> 00:22:16,799

chatting space you know yeah I kind of

637

00:22:20,270 --> 00:22:18,900

as much as I love Sean's approach in

638

00:22:21,770 --> 00:22:20,280

terms of you know we have to come up

639

00:22:23,270 --> 00:22:21,780

with new science sometimes to kind of

640

00:22:25,549 --> 00:22:23,280

explain things

641

00:22:27,649 --> 00:22:25,559

um I really wanted them to drill down on

642

00:22:29,390 --> 00:22:27,659

those anomalies the second that he said

643

00:22:31,490 --> 00:22:29,400

somebody else's problem they should have

644

00:22:33,110 --> 00:22:31,500

said okay everything that's SCP we're

645

00:22:35,149 --> 00:22:33,120

not talking about here because it's not

646

00:22:37,130 --> 00:22:35,159

relevant to this discussion your remit

647

00:22:38,990 --> 00:22:37,140

is for the more anomalous stuff it's in

648

00:22:41,630 --> 00:22:39,000

your name you know yeah all domain

649

00:22:43,430 --> 00:22:41,640

anomaly that's let's let's touch on

650

00:22:45,770 --> 00:22:43,440

those slides okay um because I think

651
00:22:47,330 --> 00:22:45,780
half of Twitter work um snipping tooling

652
00:22:49,630 --> 00:22:47,340
them as they as they popped up on the

653
00:22:52,130 --> 00:22:49,640
screen and so shapes

654
00:22:54,049 --> 00:22:52,140
yeah we did

655
00:22:58,190 --> 00:22:54,059
um so the first one was UAP report and

656
00:23:00,049 --> 00:22:58,200
Trends 96 to 2023 uh interesting day any

657
00:23:03,110 --> 00:23:00,059
reason for the 27 year

658
00:23:05,090 --> 00:23:03,120
time frame and you know like I've just

659
00:23:07,549 --> 00:23:05,100
noticed I don't think so I I haven't I

660
00:23:09,710 --> 00:23:07,559
you know nothing being told I I guess

661
00:23:11,990 --> 00:23:09,720
maybe there's like a sensor that came in

662
00:23:13,730 --> 00:23:12,000
on multiple senses yeah that's when they

663
00:23:15,289 --> 00:23:13,740

get the best data from you know uh but

664

00:23:16,610 --> 00:23:15,299

yeah so fair enough could be we'll find

665

00:23:18,710 --> 00:23:16,620

out more I'm sure I gave you some

666

00:23:20,149 --> 00:23:18,720

information on your AP altitudes and it

667

00:23:22,130 --> 00:23:20,159

was pretty dismissive from the offset

668

00:23:23,810 --> 00:23:22,140

here because it says most of them are

669

00:23:25,310 --> 00:23:23,820

seen at this height because this is

670

00:23:27,350 --> 00:23:25,320

where commercial airlines are that's

671

00:23:28,549 --> 00:23:27,360

pretty much it fair enough yeah that I

672

00:23:30,289 --> 00:23:28,559

mean that's speaking of the bias right

673

00:23:31,330 --> 00:23:30,299

you you can only detect things where

674

00:23:34,190 --> 00:23:31,340

you've got

675

00:23:35,630 --> 00:23:34,200

also facts isn't it as well that yeah

676

00:23:37,789 --> 00:23:35,640

people are going to see things at a

677

00:23:39,049 --> 00:23:37,799

certain height which me looking up in

678

00:23:40,970 --> 00:23:39,059

the sky and going oh there's a satellite

679

00:23:42,470 --> 00:23:40,980

I don't know it's a satellite it could

680

00:23:43,850 --> 00:23:42,480

actually be a really high altitude jet

681

00:23:45,409 --> 00:23:43,860

I'm just saying because I'm not a

682

00:23:46,789 --> 00:23:45,419

trained Observer and sure I'm

683

00:23:48,049 --> 00:23:46,799

guesstimating it

684

00:23:50,330 --> 00:23:48,059

um it also had on the same page

685

00:23:53,210 --> 00:23:50,340

typically reported uep characteristics

686

00:23:55,250 --> 00:23:53,220

wasn't a whole lot instantly interesting

687

00:23:57,529 --> 00:23:55,260

on that to be honest um color white

688

00:23:59,210 --> 00:23:57,539

silver translucent I believe he also

689

00:24:02,029 --> 00:23:59,220

said metallic when he was reading that

690

00:24:04,250 --> 00:24:02,039

bit but that's not on yeah yeah

691

00:24:06,110 --> 00:24:04,260

um but again

692

00:24:08,270 --> 00:24:06,120

maybe looking into it too much but he

693

00:24:10,850 --> 00:24:08,280

did see it's not on the side hey ho

694

00:24:12,470 --> 00:24:10,860

um reported UAP morphology

695

00:24:15,770 --> 00:24:12,480

um interesting there and it talks about

696

00:24:17,750 --> 00:24:15,780

basically the shapes of UAP 50 or brown

697

00:24:19,430 --> 00:24:17,760

sphere as you would expect that is going

698

00:24:21,049 --> 00:24:19,440

to account as well and no doubt for

699

00:24:23,390 --> 00:24:21,059

stars

700

00:24:24,649 --> 00:24:23,400

um satellites starlinks satellites you

701
00:24:26,810 --> 00:24:24,659
know all that kind of stuff people see

702
00:24:29,510 --> 00:24:26,820
jets planes at night

703
00:24:32,330 --> 00:24:29,520
um and also real orbs for those out

704
00:24:34,370 --> 00:24:32,340
there who are orb fans uh so this stuff

705
00:24:36,470 --> 00:24:34,380
would be the stuff from the report that

706
00:24:38,630 --> 00:24:36,480
was like redacted right

707
00:24:40,909 --> 00:24:38,640
um so all of these shapes they'd spoken

708
00:24:43,730 --> 00:24:40,919
about before but the polygon avoided it

709
00:24:51,950 --> 00:24:43,740
polygon isn't interesting polygon five

710
00:24:55,750 --> 00:24:53,870
um yeah but it's got sphere rectangle

711
00:24:58,789 --> 00:24:55,760
triangle

712
00:25:00,710 --> 00:24:58,799
cylinder Tech tax on there as well which

713
00:25:02,090 --> 00:25:00,720

is you know nice use of language

714

00:25:03,710 --> 00:25:02,100

um but yeah that was that was pretty

715

00:25:06,890 --> 00:25:03,720

much the first one and reported uep

716

00:25:08,450 --> 00:25:06,900

hotspots uh that aren't surprising it's

717

00:25:10,370 --> 00:25:08,460

the places that normally come up because

718

00:25:11,750 --> 00:25:10,380

it's the the kind of Western places with

719

00:25:13,970 --> 00:25:11,760

or

720

00:25:15,770 --> 00:25:13,980

um that UAP hotspot I can't remember who

721

00:25:17,690 --> 00:25:15,780

it was but a general said a few days

722

00:25:20,029 --> 00:25:17,700

back that it's a worldwide issue and

723

00:25:21,470 --> 00:25:20,039

everyone hooked on to it that map says

724

00:25:23,210 --> 00:25:21,480

that it's a worldwide issue because the

725

00:25:24,289 --> 00:25:23,220

US have bases and they have sensors and

726

00:25:25,789 --> 00:25:24,299

they're detecting them all over the

727

00:25:27,529 --> 00:25:25,799

world doesn't mean that there are aliens

728

00:25:29,029 --> 00:25:27,539

covering the planet not saying that

729

00:25:30,529 --> 00:25:29,039

they're not I'm just being careful to

730

00:25:32,450 --> 00:25:30,539

interpret what Sean's kind of saying

731

00:25:33,769 --> 00:25:32,460

there you know are they though then are

732

00:25:36,049 --> 00:25:33,779

they covering the planet they're

733

00:25:38,210 --> 00:25:36,059

everywhere yeah

734

00:25:39,769 --> 00:25:38,220

um so the next two slides it wasn't a

735

00:25:41,390 --> 00:25:39,779

big presentation the next two slides

736

00:25:43,669 --> 00:25:41,400

contained videos and here's where some

737

00:25:45,649 --> 00:25:43,679

folks again no doubt we'll read into

738

00:25:47,330 --> 00:25:45,659

this how how they want to which is

739

00:25:48,830 --> 00:25:47,340

totally fair and it's been left open to

740

00:25:50,450 --> 00:25:48,840

interpretation

741

00:25:54,230 --> 00:25:50,460

um very quickly there were two videos

742

00:25:55,970 --> 00:25:54,240

played the first one was of uh um an orb

743

00:25:57,649 --> 00:25:55,980

flying over the Middle East Street it'll

744

00:25:58,909 --> 00:25:57,659

be I think a lot of us thought and if

745

00:26:00,409 --> 00:25:58,919

you're watching on YouTube you've just

746

00:26:02,990 --> 00:26:00,419

got an orb flying across down the screen

747

00:26:04,669 --> 00:26:03,000

and you've uh

748

00:26:05,750 --> 00:26:04,679

God that's often

749

00:26:08,570 --> 00:26:05,760

um even though I knew you were going to

750

00:26:10,430 --> 00:26:08,580

do it the the Middle Eastern orb looked

751

00:26:13,190 --> 00:26:10,440

at a glance like it was the Jenny

752

00:26:15,710 --> 00:26:13,200

mccorbell George not mosul orb and but

753

00:26:17,810 --> 00:26:15,720

the video of it now I asked Jeremy

754

00:26:19,850 --> 00:26:17,820

Corbell and he said no it's not and and

755

00:26:21,710 --> 00:26:19,860

the video it's not the same

756

00:26:23,090 --> 00:26:21,720

um landscape either I just wondered was

757

00:26:25,010 --> 00:26:23,100

it a different bit of the video maybe

758

00:26:26,990 --> 00:26:25,020

that still it came from that Jeremy had

759

00:26:29,330 --> 00:26:27,000

got but he says it's not so but for all

760

00:26:30,470 --> 00:26:29,340

we know that video could be designed to

761

00:26:31,730 --> 00:26:30,480

kind of say you know what some of the

762

00:26:34,250 --> 00:26:31,740

videos are anomalous but it doesn't

763

00:26:35,810 --> 00:26:34,260

really mean anything well um that was

764

00:26:38,330 --> 00:26:35,820

that isn't it because it says on it

765

00:26:40,549 --> 00:26:38,340

unresolved inactive archive so he gave

766

00:26:42,649 --> 00:26:40,559

this uh Dr Sean cut Patrick gave this as

767

00:26:45,289 --> 00:26:42,659

an example of here as an orb metallic

768

00:26:47,330 --> 00:26:45,299

looking flying across uh we don't know

769

00:26:49,370 --> 00:26:47,340

what it is and we're still looking into

770

00:26:52,070 --> 00:26:49,380

it that's it we don't have enough data

771

00:26:54,049 --> 00:26:52,080

to to really find out what it is right

772

00:26:56,690 --> 00:26:54,059

now so exactly

773

00:26:57,950 --> 00:26:56,700

um but that that that isn't necessarily

774

00:27:00,769 --> 00:26:57,960

A Bad Thing what they're saying is we've

775

00:27:02,930 --> 00:27:00,779

got a video can't identify it so we need

776
00:27:04,909 --> 00:27:02,940
more need more settings for all we know

777
00:27:06,409 --> 00:27:04,919
in a few years time they could kind of

778
00:27:07,730 --> 00:27:06,419
go okay one of the trends is that there

779
00:27:10,130 --> 00:27:07,740
are definitely metallic orbs flying

780
00:27:12,350 --> 00:27:10,140
around and then this active archive orb

781
00:27:13,789 --> 00:27:12,360
becomes something that you know maybe

782
00:27:16,070 --> 00:27:13,799
fits that Trend and they kind of go cool

783
00:27:18,470 --> 00:27:16,080
that's that then yeah uh the second one

784
00:27:21,649 --> 00:27:18,480
was an example of uh here's something

785
00:27:24,950 --> 00:27:21,659
that's been identified looks um looks so

786
00:27:26,390 --> 00:27:24,960
uh sagari shaped however you can kind of

787
00:27:27,769 --> 00:27:26,400
see the trail coming off it and I think

788
00:27:30,049 --> 00:27:27,779

whenever these things are posted online

789

00:27:31,430 --> 00:27:30,059

people tend to straight away say signs

790

00:27:33,649 --> 00:27:31,440

of propulsion it's the blood in the

791

00:27:35,750 --> 00:27:33,659

video and they basically identify and

792

00:27:38,149 --> 00:27:35,760

show you quite quickly how it's the

793

00:27:40,130 --> 00:27:38,159

camera software artifacts being created

794

00:27:41,210 --> 00:27:40,140

and it's a Southeast Asian passenger

795

00:27:43,430 --> 00:27:41,220

chip

796

00:27:45,830 --> 00:27:43,440

um that's it and that that's fair and

797

00:27:47,810 --> 00:27:45,840

again it's great that this reminds me

798

00:27:49,070 --> 00:27:47,820

and people know I'm I'm a fan of Jeremy

799

00:27:51,470 --> 00:27:49,080

Corbell not that he gets everything

800

00:27:53,269 --> 00:27:51,480

right but the video they put out a few

801
00:27:54,649 --> 00:27:53,279
weeks ago on weaponized

802
00:27:56,269 --> 00:27:54,659
um definitely looked like a missile to

803
00:27:58,070 --> 00:27:56,279
me and until they can provide other data

804
00:27:59,810 --> 00:27:58,080
for that I would go with it so missile

805
00:28:01,970 --> 00:27:59,820
same way this shows you it's a plane

806
00:28:03,590 --> 00:28:01,980
however it gives you the example of

807
00:28:05,269 --> 00:28:03,600
there are some stuff identify and some

808
00:28:06,950 --> 00:28:05,279
stuff that hasn't identified they don't

809
00:28:08,690 --> 00:28:06,960
have enough data to fully say what

810
00:28:10,310 --> 00:28:08,700
everything is that was it that was the

811
00:28:12,830 --> 00:28:10,320
the summation of the slides Dan yeah

812
00:28:14,690 --> 00:28:12,840
yeah exactly that second one as well uh

813
00:28:16,130 --> 00:28:14,700

it's pen and peer review so it's not

814

00:28:18,649 --> 00:28:16,140

like Sean's just saying this in a vacuum

815

00:28:20,210 --> 00:28:18,659

he's putting it 2p review in a paper so

816

00:28:21,529 --> 00:28:20,220

again just just like people refuted

817

00:28:23,090 --> 00:28:21,539

Abby's work you know when they were

818

00:28:24,529 --> 00:28:23,100

looking at the conventional physics of

819

00:28:26,510 --> 00:28:24,539

things and they submitted peer review

820

00:28:27,950 --> 00:28:26,520

papers people can do this with this one

821

00:28:29,570 --> 00:28:27,960

as well if they if they feel that

822

00:28:31,549 --> 00:28:29,580

they're wrong you know that this is the

823

00:28:33,409 --> 00:28:31,559

process

824

00:28:36,710 --> 00:28:33,419

um chunker Patrick mentions that the

825

00:28:38,750 --> 00:28:36,720

quarterly uh report is due very soon and

826

00:28:40,430 --> 00:28:38,760

that the annual report schedule was due

827

00:28:41,810 --> 00:28:40,440

around June July and he says it'll be

828

00:28:44,390 --> 00:28:41,820

out around that time and that will

829

00:28:45,950 --> 00:28:44,400

Encompass several reports as well so we

830

00:28:47,690 --> 00:28:45,960

don't have too long to wait before we've

831

00:28:49,370 --> 00:28:47,700

got the quarterly report and then we'll

832

00:28:51,409 --> 00:28:49,380

get that bigger report around the June

833

00:28:53,149 --> 00:28:51,419

in July we won't see the quarterly

834

00:28:55,070 --> 00:28:53,159

report oh yeah that's not a

835

00:28:56,510 --> 00:28:55,080

public-facing one but what we get will

836

00:28:58,669 --> 00:28:56,520

kind of be a summation of all those

837

00:29:01,430 --> 00:28:58,679

costly reports over the uh it's going to

838

00:29:03,710 --> 00:29:01,440

be really interesting seeing it because

839

00:29:07,430 --> 00:29:03,720

the last report that Sean produced was

840

00:29:09,890 --> 00:29:07,440

from the remit given to amsog as opposed

841

00:29:11,990 --> 00:29:09,900

to you know the legislation that's most

842

00:29:13,310 --> 00:29:12,000

current so there should be a bit of

843

00:29:14,750 --> 00:29:13,320

difference in there in a bit more detail

844

00:29:16,310 --> 00:29:14,760

and if those slides are anything to go

845

00:29:18,649 --> 00:29:16,320

by you know few more graphics and things

846

00:29:20,149 --> 00:29:18,659

like that he seems intent on

847

00:29:22,250 --> 00:29:20,159

communicating this stuff properly and

848

00:29:23,870 --> 00:29:22,260

effectively yeah

849

00:29:25,490 --> 00:29:23,880

um gillibrand asked about the website

850

00:29:27,049 --> 00:29:25,500

portal being available for folks to

851
00:29:29,029 --> 00:29:27,059
report and that was essentially what you

852
00:29:30,710 --> 00:29:29,039
mentioned before about whistleblowers

853
00:29:33,110 --> 00:29:30,720
are able to come forward without fear of

854
00:29:35,210 --> 00:29:33,120
reprisal or you know condemnation from

855
00:29:38,330 --> 00:29:35,220
the roles that are in now

856
00:29:41,389 --> 00:29:38,340
um did you notice he he said that um a

857
00:29:43,070 --> 00:29:41,399
lot of the unclassified things so uh you

858
00:29:44,389 --> 00:29:43,080
know a non-anomalous case that they've

859
00:29:46,789 --> 00:29:44,399
solved they're going to start posting

860
00:29:48,470 --> 00:29:46,799
those to a web portal where we can see

861
00:29:50,570 --> 00:29:48,480
the workings and and stuff like that

862
00:29:52,190 --> 00:29:50,580
which I think is great it you know it's

863
00:29:53,630 --> 00:29:52,200

transparency where we've wanted it you

864

00:29:55,610 --> 00:29:53,640

know yeah

865

00:29:58,549 --> 00:29:55,620

um after that then it seemed to me like

866

00:30:02,090 --> 00:29:58,559

it was largely wrapping up and

867

00:30:04,130 --> 00:30:02,100

yeah I cannot I was disappointed in the

868

00:30:06,409 --> 00:30:04,140

follow-up questions and when something

869

00:30:08,149 --> 00:30:06,419

was asked I was waiting for Senator

870

00:30:10,669 --> 00:30:08,159

LeBron to hit him with something that

871

00:30:14,090 --> 00:30:10,679

was going to make him either I have to

872

00:30:15,950 --> 00:30:14,100

say I can't talk about that or

873

00:30:17,810 --> 00:30:15,960

give us something

874

00:30:20,210 --> 00:30:17,820

to say we can't answer that you know

875

00:30:21,529 --> 00:30:20,220

fully or and it just didn't come

876

00:30:23,450 --> 00:30:21,539

um so yeah that's that's the point in

877

00:30:24,950 --> 00:30:23,460

part for me massively at one point

878

00:30:26,510 --> 00:30:24,960

someone said you know I have a million

879

00:30:29,870 --> 00:30:26,520

questions and then actually they maybe

880

00:30:30,950 --> 00:30:29,880

had like two so you know I agree with

881

00:30:32,930 --> 00:30:30,960

you the follow-ups could have been

882

00:30:34,909 --> 00:30:32,940

better and

883

00:30:36,889 --> 00:30:34,919

this is a long game we've spoken about

884

00:30:40,730 --> 00:30:36,899

this before this is going until 2026

885

00:30:41,870 --> 00:30:40,740

2027. so this for me going into it I

886

00:30:44,029 --> 00:30:41,880

expected

887

00:30:45,769 --> 00:30:44,039

them to use this to kind of go okay this

888

00:30:47,210 --> 00:30:45,779

is going to inform legislation this year

889

00:30:49,010 --> 00:30:47,220

now the defense Bill we're going to put

890

00:30:52,010 --> 00:30:49,020

more stuff in to help Arrow to kind of

891

00:30:53,990 --> 00:30:52,020

get this further down the the field and

892

00:30:55,610 --> 00:30:54,000

that seems to be what what happened you

893

00:30:56,870 --> 00:30:55,620

know as we were watching it she kept

894

00:30:58,970 --> 00:30:56,880

referencing okay we'll put this in the

895

00:31:00,950 --> 00:30:58,980

bill we'll put this at that in the bill

896

00:31:03,590 --> 00:31:00,960

um just just to kind of help out so yeah

897

00:31:05,630 --> 00:31:03,600

like the work is ahead of us but it's

898

00:31:08,090 --> 00:31:05,640

it's clear that he's trying to set up a

899

00:31:11,330 --> 00:31:08,100

very data-driven system but like you say

900

00:31:14,690 --> 00:31:11,340

ignoring that pile of anomalous stuff uh

901
00:31:17,029 --> 00:31:14,700
is is a little disheartening yeah

902
00:31:18,409 --> 00:31:17,039
um from there it finishes up it seems

903
00:31:20,149 --> 00:31:18,419
like they had the time of about an hour

904
00:31:21,649 --> 00:31:20,159
to run to and I think that's why it

905
00:31:23,210 --> 00:31:21,659
could have ended there didn't it um

906
00:31:25,730 --> 00:31:23,220
there wasn't a whole lot much more

907
00:31:27,950 --> 00:31:25,740
followed up on and I think at this point

908
00:31:29,930 --> 00:31:27,960
if you're asking me right after the

909
00:31:31,190 --> 00:31:29,940
event maybe I'll change my mind in a few

910
00:31:33,350 --> 00:31:31,200
days

911
00:31:35,389 --> 00:31:33,360
um Treading Water a little bit I don't

912
00:31:36,950 --> 00:31:35,399
think we've gone back but I don't think

913
00:31:39,350 --> 00:31:36,960

we've gone forward

914

00:31:41,389 --> 00:31:39,360

um yeah it kind of felt like a mid-year

915

00:31:43,430 --> 00:31:41,399

review for Arrow you know like yeah

916

00:31:44,389 --> 00:31:43,440

nothing too crazy was given no one's

917

00:31:46,549 --> 00:31:44,399

getting fired no one's getting

918

00:31:47,990 --> 00:31:46,559

promotions it was just yeah this is

919

00:31:50,570 --> 00:31:48,000

going

920

00:31:53,210 --> 00:31:50,580

thing

921

00:31:54,769 --> 00:31:53,220

um but yeah what we'll do is we'll give

922

00:31:56,389 --> 00:31:54,779

a couple of these if you want to get in

923

00:31:58,250 --> 00:31:56,399

touch and let us know your thoughts do

924

00:32:02,389 --> 00:31:58,260

it on the usual channels post on social

925

00:32:04,190 --> 00:32:02,399

media ideally email UFO UAP am gmail.com

926
00:32:06,590 --> 00:32:04,200
and I get it all in one place which is

927
00:32:08,269 --> 00:32:06,600
nice and we'll look at for some reaction

928
00:32:10,430 --> 00:32:08,279
at that point as well there's not been

929
00:32:11,750 --> 00:32:10,440
too much so far from and they kind of

930
00:32:14,210 --> 00:32:11,760
bigger names that we're looking for to

931
00:32:15,710 --> 00:32:14,220
comment on this and then yeah and

932
00:32:17,690 --> 00:32:15,720
they'll be no doubt over the next year

933
00:32:19,310 --> 00:32:17,700
to a couple of blogs and articles and

934
00:32:21,049 --> 00:32:19,320
we'll look to get something else out on

935
00:32:23,090 --> 00:32:21,059
Friday but this has just been more of an

936
00:32:25,130 --> 00:32:23,100
instant reaction we've not went back

937
00:32:28,549 --> 00:32:25,140
over it and listened to it again

938
00:32:30,590 --> 00:32:28,559

um but yeah honest thoughts interesting

939

00:32:42,110 --> 00:32:30,600

um

940

00:32:44,149 --> 00:32:42,120

Mania than end game would we say yeah

941

00:32:46,850 --> 00:32:44,159

yeah definitely

942

00:32:48,649 --> 00:32:46,860

um yeah five and a half like and that's

943

00:32:51,110 --> 00:32:48,659

more of a I'm glad they happened I would

944

00:32:52,549 --> 00:32:51,120

rather these happen than don't but I

945

00:32:54,049 --> 00:32:52,559

completely get the side of the

946

00:32:55,549 --> 00:32:54,059

frustration on this one

947

00:32:57,769 --> 00:32:55,559

but

948

00:32:59,990 --> 00:32:57,779

yeah there's like a couple of really I'd

949

00:33:02,029 --> 00:33:00,000

almost rather he said no evidence of

950

00:33:03,590 --> 00:33:02,039

extraterrestrial origin rather than no

951
00:33:08,029 --> 00:33:03,600
credible evidence because I will argue

952
00:33:09,710 --> 00:33:08,039
that one because he said yeah where he's

953
00:33:12,169 --> 00:33:09,720
kind of saying no no this is data driven

954
00:33:14,509 --> 00:33:12,179
and yeah then but but what I'll do is

955
00:33:16,130 --> 00:33:14,519
I'll speak to you know the person I know

956
00:33:17,330 --> 00:33:16,140
that knows Sean and kind of just try and

957
00:33:18,710 --> 00:33:17,340
get a little bit of light shed on that

958
00:33:20,269 --> 00:33:18,720
because it might be totally innocuous

959
00:33:21,590 --> 00:33:20,279
and we're just taking it in the wrong

960
00:33:24,169 --> 00:33:21,600
way you know

961
00:33:26,810 --> 00:33:24,179
um but yeah for now I guess burn him no

962
00:33:28,130 --> 00:33:26,820
I'm kidding like six times for me yeah I

963
00:33:30,049 --> 00:33:28,140

might I might pay for our LinkedIn

964

00:33:34,610 --> 00:33:30,059

premium again tonight and be like come

965

00:33:36,169 --> 00:33:34,620

on Sean Patrick just come on do it do

966

00:33:37,789 --> 00:33:36,179

non-human intelligence just say it just

967

00:33:39,230 --> 00:33:37,799

say it once for it yeah just say it once

968

00:33:41,330 --> 00:33:39,240

we can take it off on our Bingo cards

969

00:33:42,590 --> 00:33:41,340

then and then the ball starts rolling

970

00:33:43,549 --> 00:33:42,600

and the conversation starts happening

971

00:33:46,070 --> 00:33:43,559

you know because people will go what's

972

00:33:48,409 --> 00:33:46,080

on hi yeah absolutely but lesson we'll

973

00:33:50,570 --> 00:33:48,419

be back on Friday and with a bit more of

974

00:33:52,850 --> 00:33:50,580

a rounded update on on what people have

975

00:33:54,710 --> 00:33:52,860

thought about this it's happened share

976

00:33:56,810 --> 00:33:54,720

your thoughts thanks for listening Dan

977

00:33:59,090 --> 00:33:56,820

welcome back to the UK and the quality

978

00:34:00,409 --> 00:33:59,100

sound again thank you so much thank you

979

00:34:02,149 --> 00:34:00,419

for having me and it's uh it's nice to

980

00:34:03,130 --> 00:34:02,159

be back however long that last thought

981

00:34:05,930 --> 00:34:03,140

of course

982

00:34:07,730 --> 00:34:05,940

that is all for this week's show thank

983

00:34:09,589 --> 00:34:07,740

you very much for listening please

984

00:34:12,290 --> 00:34:09,599
