episode I've said before on ad set

6
00:00:18,769 --> 00:00:16,859

looking after yourself financially gets

7
00:00:20,750 --> 00:00:18,779

harder and harder with the cost of

8
00:00:22,609 --> 00:00:20,760

everything going up being a tight

9
00:00:24,590 --> 00:00:22,619

Scotsman I use every method I can

price hi everyone and welcome back to a

41

00:01:41,749 --> 00:01:39,299

special bonus episode of that UFO

42

00:01:44,390 --> 00:01:41,759

podcast a couple of months ago I spoke

43

00:01:46,249 --> 00:01:44,400

to Chief science editor head science

44

00:01:49,249 --> 00:01:46,259

writer and I'm going to quote a friend

45

00:01:50,990 --> 00:01:49,259

of ours um Ryan Sprague who called him a

46

00:01:52,910 --> 00:01:51,000

guy who really loves his warp drives

47

00:01:55,310 --> 00:01:52,920

I've got Christopher playing back with

48

00:01:58,010 --> 00:01:55,320

me on the podcast Chris welcome back

49

00:02:00,770 --> 00:01:58,020

Andy thanks for having me on and Ryan is

50

00:02:02,749 --> 00:02:00,780

correct I do love my warp drives that is

51
00:02:04,069 --> 00:02:02,759
a direct quote uh I'm not going to hold

52
00:02:05,870 --> 00:02:04,079
the paper up because I've got some notes

53
00:02:08,089 --> 00:02:05,880
on it but that dude loves his warp

54
00:02:10,370 --> 00:02:08,099
drives Ryan sprig so yeah that is the

55
00:02:12,949 --> 00:02:10,380
quote from today the 3rd of May as we

56
00:02:15,050 --> 00:02:12,959
record this listen Chris when we spoke a

57
00:02:17,270 --> 00:02:15,060
few months ago you teased an article was

58
00:02:19,430 --> 00:02:17,280
coming on the debrief that was going to

59
00:02:23,630 --> 00:02:19,440
be directly linked to the Chicago O'Hare

60
00:02:25,490 --> 00:02:23,640
UFO incident from 2006. before we get to

61
00:02:27,770 --> 00:02:25,500
the the new article co-authored by

62
00:02:29,210 --> 00:02:27,780
yourself and Micah Hanks let's just

63
00:02:31,070 --> 00:02:29,220

remind the listeners a little bit if you

64

00:02:32,809 --> 00:02:31,080

don't mind about that event itself and

65

00:02:36,170 --> 00:02:32,819

what's known about it

66

00:02:38,270 --> 00:02:36,180

yeah so uh the reason it was co-authored

67

00:02:40,910 --> 00:02:38,280

by Micah and myself is he's the UFO

68

00:02:43,070 --> 00:02:40,920

historian at the debris so I might have

69

00:02:47,089 --> 00:02:43,080

a few facts off here but my general

70

00:02:49,610 --> 00:02:47,099

understanding is is that in 2006 at a

71

00:02:51,229 --> 00:02:49,620

large Airport in Chicago which is the

72

00:02:53,809 --> 00:02:51,239

third largest city in the U.S by

73

00:02:59,449 --> 00:02:53,819

population so it's not a small City by

74

00:03:02,030 --> 00:02:59,459

any means and uh there I guess a baggage

75

00:03:04,550 --> 00:03:02,040

crew or baggage handlers or somebody

76

00:03:08,630 --> 00:03:04,560

working down around the airplanes

77

00:03:12,110 --> 00:03:08,640

saw an object over one of the runways

78

00:03:16,369 --> 00:03:12,120

and he described the object as being

79

00:03:19,490 --> 00:03:16,379

round or maybe even disc shaped and

80

00:03:22,850 --> 00:03:19,500

massive like like bigger than airplanes

81

00:03:27,470 --> 00:03:22,860

and just hovering in place over the

82

00:03:29,509 --> 00:03:27,480

runway and as that event evolved and as

83

00:03:31,309 --> 00:03:29,519

it got reported later and got researched

84

00:03:34,009 --> 00:03:31,319

later we found out that there were some

85

00:03:36,229 --> 00:03:34,019

other people that saw it maybe a pilot

86

00:03:38,110 --> 00:03:36,239

that was coming in on another plane saw

87

00:03:41,390 --> 00:03:38,120

something hovering in the same spot

88

00:03:43,789 --> 00:03:41,400

maybe some other crew because there was

89

00:03:46,190 --> 00:03:43,799

some research done by a Chicago Tribune

90

00:03:48,890 --> 00:03:46,200

writer back at the time and he reached

91

00:03:51,110 --> 00:03:48,900

out and was able to confirm I think half

92

00:03:53,750 --> 00:03:51,120

a dozen witnesses that more or less saw

93

00:03:55,670 --> 00:03:53,760

the same thing and all people that had

94

00:03:58,430 --> 00:03:55,680

nothing to do with each other so they

95

00:04:00,170 --> 00:03:58,440

were completely other than being there

96

00:04:02,690 --> 00:04:00,180

at that time

97

00:04:05,330 --> 00:04:02,700

were completely independent Witnesses

98

00:04:07,070 --> 00:04:05,340

and what they all described was more or

99

00:04:10,490 --> 00:04:07,080

less the same object this first guy

100

00:04:12,530 --> 00:04:10,500

described and then they describe

101
00:04:15,050 --> 00:04:12,540
something that people that are familiar

102
00:04:19,069 --> 00:04:15,060
with like for instance the Calvin photo

103
00:04:22,069 --> 00:04:19,079
incident in Scotland is this shooting

104
00:04:23,689 --> 00:04:22,079
straight up into the air that the craft

105
00:04:25,790 --> 00:04:23,699
at some point or whatever it was this

106
00:04:28,430 --> 00:04:25,800
thing that was hovering there shot

107
00:04:32,030 --> 00:04:28,440
straight up through the clouds there was

108
00:04:35,030 --> 00:04:32,040
a heavy Cloud bank and uh it left a

109
00:04:38,090 --> 00:04:35,040
perfect hole in the clouds what you know

110
00:04:41,270 --> 00:04:38,100
a atmospheric scientist referred to as a

111
00:04:43,249 --> 00:04:41,280
false Drake hole or a false recall and

112
00:04:47,090 --> 00:04:43,259
uh it's something that can happen

113
00:04:49,370 --> 00:04:47,100

naturally but uh and does from time to

114

00:04:52,189 --> 00:04:49,380

time happen around airports because of

115

00:04:53,810 --> 00:04:52,199

crafts going through them but in

116

00:04:55,790 --> 00:04:53,820

conjunction with the description of the

117

00:04:58,310 --> 00:04:55,800

craft the fact that it was hovering and

118

00:05:00,770 --> 00:04:58,320

all of that uh that so that's kind of

119

00:05:03,650 --> 00:05:00,780

the background of the incident there

120

00:05:06,650 --> 00:05:03,660

were some rumors that there might be a

121

00:05:09,050 --> 00:05:06,660

photo I remember I heard Andy I heard a

122

00:05:11,510 --> 00:05:09,060

Ryan Sprague do a show on this back when

123

00:05:14,629 --> 00:05:11,520

I first met him a few years ago

124

00:05:17,030 --> 00:05:14,639

and they had a tape of a woman who was

125

00:05:19,550 --> 00:05:17,040

in the tower I think who was talking to

126

00:05:21,890 --> 00:05:19,560

one of the people and you can hear her

127

00:05:24,110 --> 00:05:21,900

saying something to the effect of I

128

00:05:26,810 --> 00:05:24,120

understand the crew has some photos or

129

00:05:29,749 --> 00:05:26,820

have taken a photo of it so those photos

130

00:05:31,670 --> 00:05:29,759

have never come to light and no photos

131

00:05:34,670 --> 00:05:31,680

as far as we know of the hole in the

132

00:05:38,029 --> 00:05:34,680

clouds have come to light so like a lot

133

00:05:40,010 --> 00:05:38,039

of the history of the UFO subject we

134

00:05:42,830 --> 00:05:40,020

have an incredible story

135

00:05:45,129 --> 00:05:42,840

told by multiple Witnesses some of which

136

00:05:47,210 --> 00:05:45,139

are you know really respectable

137

00:05:49,670 --> 00:05:47,220

professional witnesses that would know

138

00:05:53,090 --> 00:05:49,680

the difference between a 747 and the

139

00:05:55,790 --> 00:05:53,100

flying disc and they all told of

140

00:05:57,170 --> 00:05:55,800

something that pretty much uh resembles

141

00:05:58,790 --> 00:05:57,180

something we're all used to hearing

142

00:06:01,909 --> 00:05:58,800

about those of us that follow the

143

00:06:03,710 --> 00:06:01,919

subject that sounded like a you know for

144

00:06:06,409 --> 00:06:03,720

lack of a better term a flying saucer or

145

00:06:08,990 --> 00:06:06,419

a flying disc and uh that shot through

146

00:06:11,749 --> 00:06:09,000

the clouds and left a hole in the clouds

147

00:06:14,510 --> 00:06:11,759

there are I was going to say there are

148

00:06:16,249 --> 00:06:14,520

some pictures floating about online none

149

00:06:18,469 --> 00:06:16,259

of them have ever been verified as being

150

00:06:20,930 --> 00:06:18,479

genuine so if anyone does see this is a

151
00:06:23,749 --> 00:06:20,940
picture of the Chicago O'Hare UFO it was

152
00:06:26,570 --> 00:06:23,759
November 7 2006 4 15 in the afternoon

153
00:06:28,430 --> 00:06:26,580
broad daylight the pictures nothing has

154
00:06:30,409 --> 00:06:28,440
ever been verified that's not to say

155
00:06:33,170 --> 00:06:30,419
that maybe one of the pictures is

156
00:06:34,850 --> 00:06:33,180
genuine but no one knows has never been

157
00:06:37,189 --> 00:06:34,860
said so it's one of those things that we

158
00:06:38,749 --> 00:06:37,199
have to go with right now none of that

159
00:06:41,390 --> 00:06:38,759
has been leaked out just in case anyone

160
00:06:43,189 --> 00:06:41,400
does see anything yeah and the uh we'll

161
00:06:48,290 --> 00:06:43,199
get into the folks that did the analysis

162
00:06:52,909 --> 00:06:51,050
to people trying to track down if there

163
00:06:55,189 --> 00:06:52,919

was anyone anywhere that could

164

00:06:58,370 --> 00:06:55,199

authenticate any one of these photos and

165

00:06:59,870 --> 00:06:58,380

there was just nothing to show that as

166

00:07:01,969 --> 00:06:59,880

you said the handful that are online

167

00:07:04,249 --> 00:07:01,979

either of the hole in the clouds I I

168

00:07:06,650 --> 00:07:04,259

even think there's a a photo or two of

169

00:07:09,710 --> 00:07:06,660

potentially of the object but yeah yeah

170

00:07:11,689 --> 00:07:09,720

I think none of that I think it's best

171

00:07:13,969 --> 00:07:11,699

to err on the the fact that none of

172

00:07:15,110 --> 00:07:13,979

those are authentic and just thinking

173

00:07:17,809 --> 00:07:15,120

back to that time and you're gonna take

174

00:07:20,570 --> 00:07:17,819

guy as well Chris we know that um 2006

175

00:07:23,629 --> 00:07:20,580

November 2006 camera phones were popular

176

00:07:26,089 --> 00:07:23,639

I remember I had one as a kid the

177

00:07:27,589 --> 00:07:26,099

picture quality though was it was

178

00:07:30,950 --> 00:07:27,599

lacking if people want to complain about

179

00:07:33,350 --> 00:07:30,960

the phone quality in 2023 2006 it was

180

00:07:35,390 --> 00:07:33,360

Pixel City population New

181

00:07:37,309 --> 00:07:35,400

um so you weren't getting a high quality

182

00:07:40,070 --> 00:07:37,319

picture were you you're on your standard

183

00:07:42,290 --> 00:07:40,080

camera phone no not at all as a matter

184

00:07:45,950 --> 00:07:42,300

of fact I remember you know up until and

185

00:07:47,510 --> 00:07:45,960

before iPhones and was that 2008 2009

186

00:07:50,870 --> 00:07:47,520

somewhere in there

187

00:07:52,790 --> 00:07:50,880

um I knew many people that had phones

188

00:07:54,529 --> 00:07:52,800

with a camera on it that still carried a

189

00:07:55,909 --> 00:07:54,539

digital camera especially if they were

190

00:07:57,409 --> 00:07:55,919

on vacation or going somewhere they

191

00:07:59,749 --> 00:07:57,419

wanted to shoot photos because if you

192

00:08:01,490 --> 00:07:59,759

wanted a high quality image uh you

193

00:08:04,070 --> 00:08:01,500

either needed a traditional film camera

194

00:08:07,969 --> 00:08:04,080

or a high quality digital camera the the

195

00:08:10,790 --> 00:08:07,979

phone photos were uh you know uh like a

196

00:08:12,589 --> 00:08:10,800

a grainy security uh film you know not

197

00:08:15,110 --> 00:08:12,599

quite that bad but but pretty basic

198

00:08:17,210 --> 00:08:15,120

pretty fundamental okay for doing a

199

00:08:18,529 --> 00:08:17,220

close-up selfie but not not for shooting

200

00:08:20,270 --> 00:08:18,539

something in the air that you wouldn't

201
00:08:22,969 --> 00:08:20,280
want any detail on

202
00:08:25,249 --> 00:08:22,979
absolutely so here we are 2006 November

203
00:08:28,129 --> 00:08:25,259
7th like you've said the crew

204
00:08:29,689 --> 00:08:28,139
um some Pilots reportedly some workers

205
00:08:30,950 --> 00:08:29,699
um I don't know whether any civilians in

206
00:08:32,269 --> 00:08:30,960
the airport are rumored to have seen

207
00:08:35,149 --> 00:08:32,279
anything is that something that was

208
00:08:37,310 --> 00:08:35,159
mentioned uh you know what again so I I

209
00:08:39,589 --> 00:08:37,320
hate to keep defaulting here I I should

210
00:08:41,209 --> 00:08:39,599
have read my own article but uh that's

211
00:08:42,469 --> 00:08:41,219
why I partnered up with Mike on this

212
00:08:44,870 --> 00:08:42,479
when I was reached out by the

213
00:08:46,730 --> 00:08:44,880

researchers who have this new uh uh

214

00:08:48,650 --> 00:08:46,740

Theory and Analysis they wanted to put

215

00:08:50,329 --> 00:08:48,660

forward on the incident I reached out to

216

00:08:52,790 --> 00:08:50,339

Mike and said hey can you do all the

217

00:08:54,350 --> 00:08:52,800

backstory of Chicago it's like their

218

00:08:56,090 --> 00:08:54,360

voice Chris honestly I don't think there

219

00:08:58,610 --> 00:08:56,100

was it's largely always been commented

220

00:09:00,650 --> 00:08:58,620

that it was crew in in baggage and

221

00:09:02,150 --> 00:09:00,660

whatnot so and that's that's the folks

222

00:09:03,829 --> 00:09:02,160

I've talked about officially and the

223

00:09:05,090 --> 00:09:03,839

main thing is in the article like you've

224

00:09:07,310 --> 00:09:05,100

done the work here with the researchers

225

00:09:09,290 --> 00:09:07,320

and Mica they have done a lot of

226

00:09:11,150 --> 00:09:09,300

extensive research in the background to

227

00:09:13,430 --> 00:09:11,160

try and dig to see if there was anything

228

00:09:15,290 --> 00:09:13,440

else that they could bring up as well so

229

00:09:17,990 --> 00:09:15,300

that's totally fair it's a fascinating

230

00:09:20,750 --> 00:09:18,000

incident and for me it's just on the

231

00:09:22,670 --> 00:09:20,760

cusp of we had cameras but but they

232

00:09:23,810 --> 00:09:22,680

weren't that great so any images would

233

00:09:26,210 --> 00:09:23,820

have to have been from something more

234

00:09:28,370 --> 00:09:26,220

than likely handheld and we'll get to of

235

00:09:31,130 --> 00:09:28,380

course any of the data that may or may

236

00:09:32,449 --> 00:09:31,140

not exist as well and so the the article

237

00:09:33,829 --> 00:09:32,459

comes how does article come about

238

00:09:36,889 --> 00:09:33,839

because like you see it's a group of

239

00:09:38,630 --> 00:09:36,899

physicists physicists easy for me to say

240

00:09:40,850 --> 00:09:38,640

um Applied Physics around 30 of them

241

00:09:44,210 --> 00:09:40,860

have come together to run a scientific

242

00:09:45,949 --> 00:09:44,220

eye over this incident yeah so Applied

243

00:09:48,530 --> 00:09:45,959

Physics is a group I've written about a

244

00:09:50,750 --> 00:09:48,540

couple of times and uh I first met them

245

00:09:52,370 --> 00:09:50,760

as you know that I write about warp

246

00:09:54,590 --> 00:09:52,380

drive and it's one of the I write about

247

00:09:57,470 --> 00:09:54,600

exotic propulsion alternative propulsion

248

00:09:59,150 --> 00:09:57,480

em drives hall effect thrusters you name

249

00:10:02,389 --> 00:09:59,160

it if there's something in the The

250

00:10:05,329 --> 00:10:02,399

Cutting Edge of propulsion or or uh uh

251

00:10:08,630 --> 00:10:05,339

Aerospace I try and cover it so I had

252

00:10:10,910 --> 00:10:08,640

actually written uh the the founder two

253

00:10:12,889 --> 00:10:10,920

of the founders of Applied Physics a

254

00:10:15,470 --> 00:10:12,899

guy's name Johnny mertire who's an

255

00:10:20,210 --> 00:10:15,480

American and Alexi bobrick who I believe

256

00:10:23,389 --> 00:10:20,220

is uh lives in Sweden they

257

00:10:26,329 --> 00:10:23,399

partnered on a paper laying out what

258

00:10:28,730 --> 00:10:26,339

they called a physical warp drive and

259

00:10:31,009 --> 00:10:28,740

without getting too much into the weeds

260

00:10:32,690 --> 00:10:31,019

of warp drive Theory and then the stuff

261

00:10:33,710 --> 00:10:32,700

that's been laid out in the last 30

262

00:10:36,170 --> 00:10:33,720

years

263

00:10:39,350 --> 00:10:36,180

they think they've solved a lot of the

264

00:10:41,350 --> 00:10:39,360

issues that plague Sunny White from NASA

265

00:10:44,449 --> 00:10:41,360

his famous warp drive or the original

266

00:10:47,269 --> 00:10:44,459

alcubiere warp driver any of those with

267

00:10:49,130 --> 00:10:47,279

the with the caveat that their warp

268

00:10:51,530 --> 00:10:49,140

drive design was something that would go

269

00:10:56,030 --> 00:10:51,540

just shy of the speed of light so it

270

00:10:58,009 --> 00:10:56,040

could get up to 99 the speed of light by

271

00:11:01,550 --> 00:10:58,019

warping time and you know by warping

272

00:11:03,170 --> 00:11:01,560

space space time to uh travel to distant

273

00:11:04,550 --> 00:11:03,180

stars but if the star was a you know

274

00:11:05,990 --> 00:11:04,560

five light years away it would take them

275

00:11:10,430 --> 00:11:06,000

five years to get there you know air

276

00:11:13,310 --> 00:11:10,440

over that to get there so but uh so so

277

00:11:15,710 --> 00:11:13,320

they're a physicist and that was a fun

278

00:11:17,449 --> 00:11:15,720

paper they did what they do in a

279

00:11:19,610 --> 00:11:17,459

practical sense

280

00:11:22,730 --> 00:11:19,620

I don't know if you're familiar with the

281

00:11:24,650 --> 00:11:22,740

think tank called Bell Labs but it

282

00:11:26,509 --> 00:11:24,660

doesn't have the name similar it's a

283

00:11:29,509 --> 00:11:26,519

name you will hear from time to time and

284

00:11:31,790 --> 00:11:29,519

basically government organizations or

285

00:11:34,250 --> 00:11:31,800

large financial institutions or Venture

286

00:11:36,290 --> 00:11:34,260

capitalists that are looking into new

287

00:11:38,509 --> 00:11:36,300

technology that they just don't

288

00:11:40,370 --> 00:11:38,519

understand these are basically the way

289

00:11:42,110 --> 00:11:40,380

you would hire a law firm to look over

290

00:11:44,569 --> 00:11:42,120

the contracts of something that you're

291

00:11:46,850 --> 00:11:44,579

thinking about doing Venture capitalists

292

00:11:50,150 --> 00:11:46,860

higher applied physicists Applied

293

00:11:51,889 --> 00:11:50,160

Physics to you know have guys on their

294

00:11:54,410 --> 00:11:51,899

team and they have men and women from

295

00:11:56,990 --> 00:11:54,420

around the world I say over 30 is the

296

00:11:59,030 --> 00:11:57,000

term I use all the time they they have

297

00:12:01,069 --> 00:11:59,040

some affiliate members and other

298

00:12:03,889 --> 00:12:01,079

part-time but their full-time crew is

299

00:12:06,410 --> 00:12:03,899

over 30 physicists from around the world

300

00:12:09,170 --> 00:12:06,420

and they look at projects and they look

301
00:12:11,870 --> 00:12:09,180
at uh you know a VC might come to them

302
00:12:14,329 --> 00:12:11,880
and say hey there's this whole new cell

303
00:12:15,590 --> 00:12:14,339
phone technology that you know is 10

304
00:12:17,810 --> 00:12:15,600
times better a whole new battery

305
00:12:20,269 --> 00:12:17,820
technology or whatever that they're

306
00:12:21,889 --> 00:12:20,279
thinking about investing in and this

307
00:12:24,350 --> 00:12:21,899
group does all the due diligence for

308
00:12:25,970 --> 00:12:24,360
them and so they will between their

309
00:12:28,490 --> 00:12:25,980
physicists they'll look at the research

310
00:12:31,250 --> 00:12:28,500
they'll study the history they speak

311
00:12:34,130 --> 00:12:31,260
multiple languages just as a side note

312
00:12:36,050 --> 00:12:34,140
here the founder Johnny told me one of

313
00:12:38,990 --> 00:12:36,060

the things that happens to them a lot is

314

00:12:41,449 --> 00:12:39,000

they will find Venture capitalists who

315

00:12:44,090 --> 00:12:41,459

have been presented with an investment

316

00:12:46,970 --> 00:12:44,100

opportunity and a technology that seems

317

00:12:48,650 --> 00:12:46,980

really amazing and really incredible and

318

00:12:52,970 --> 00:12:48,660

they'll find out it was something that

319

00:12:56,449 --> 00:12:52,980

was worked on in Russia in the 1990s or

320

00:12:58,670 --> 00:12:56,459

in Japan in the early 2000s or somewhere

321

00:13:01,730 --> 00:12:58,680

else and ultimately became a dead end

322

00:13:04,430 --> 00:13:01,740

got ruled out was put on the invention

323

00:13:06,350 --> 00:13:04,440

garbage heap and these con men kind of

324

00:13:08,509 --> 00:13:06,360

come across are using it to try and

325

00:13:11,150 --> 00:13:08,519

raise money right but if you don't speak

326

00:13:13,730 --> 00:13:11,160

Japanese or you don't speak Russian even

327

00:13:16,250 --> 00:13:13,740

the best physicists might not find these

328

00:13:17,750 --> 00:13:16,260

original uh you know pieces of

329

00:13:19,250 --> 00:13:17,760

information might not find these

330

00:13:23,030 --> 00:13:19,260

original patents or this original

331

00:13:25,370 --> 00:13:23,040

research that this is based on so they

332

00:13:28,009 --> 00:13:25,380

they represent a really unique skill set

333

00:13:30,050 --> 00:13:28,019

a really unique group a set of talents

334

00:13:31,790 --> 00:13:30,060

that has some really big money clients

335

00:13:34,370 --> 00:13:31,800

not people I can mention but they're

336

00:13:37,430 --> 00:13:34,380

really successful at what they do

337

00:13:39,710 --> 00:13:37,440

as it turns out uh I wrote about their

338

00:13:42,050 --> 00:13:39,720

warp drive Theory a couple years ago the

339

00:13:44,810 --> 00:13:42,060

two Founders and they became fans of the

340

00:13:46,370 --> 00:13:44,820

debrief and followed our writings and

341

00:13:47,990 --> 00:13:46,380

I've written a couple other stories on

342

00:13:49,610 --> 00:13:48,000

Research they've done but they reached

343

00:13:50,810 --> 00:13:49,620

out to me on this one back when you and

344

00:13:53,269 --> 00:13:50,820

I talked about it I think was about

345

00:13:55,910 --> 00:13:53,279

November or December of last year

346

00:13:58,009 --> 00:13:55,920

and he said you know Chris I know you

347

00:14:00,410 --> 00:13:58,019

guys write about UFOs from time to time

348

00:14:02,810 --> 00:14:00,420

and he says a couple of my physicists

349

00:14:05,030 --> 00:14:02,820

and I were sitting around talking about

350

00:14:07,370 --> 00:14:05,040

some famous UFO incidents because this

351
00:14:10,190 --> 00:14:07,380
is what we do for fun as scientists we

352
00:14:12,350 --> 00:14:10,200
try and figure out like you know what

353
00:14:14,509 --> 00:14:12,360
what was the Tic Tac what sort of

354
00:14:16,610 --> 00:14:14,519
propulsion in the in the Nimitz incident

355
00:14:18,290 --> 00:14:16,620
or what sort of things would would these

356
00:14:21,769 --> 00:14:18,300
Technologies represent how would they

357
00:14:24,470 --> 00:14:21,779
work and he said we keep coming back to

358
00:14:27,470 --> 00:14:24,480
this Chicago O'Hare incident for a

359
00:14:29,870 --> 00:14:27,480
couple of reasons one for the shape of

360
00:14:32,690 --> 00:14:29,880
the craft two for just the downright

361
00:14:34,790 --> 00:14:32,700
credibility of the witnesses that were

362
00:14:38,449 --> 00:14:34,800
all seem to be independent of each other

363
00:14:40,670 --> 00:14:38,459

and then three and and and foremost is

364

00:14:43,250 --> 00:14:40,680

that hole in the clouds the fact that

365

00:14:45,230 --> 00:14:43,260

the things shot straight up and left

366

00:14:47,689 --> 00:14:45,240

that perfect symmetrical hole in the

367

00:14:51,470 --> 00:14:47,699

clouds and he said to me you go you know

368

00:14:53,090 --> 00:14:51,480

it in warp Theory which is one of the

369

00:14:56,990 --> 00:14:53,100

things we work on

370

00:14:59,930 --> 00:14:57,000

that's a well-described phenomenon and

371

00:15:02,629 --> 00:14:59,940

something that you know it all tripped

372

00:15:05,449 --> 00:15:02,639

in our minds of hey you know this this

373

00:15:09,350 --> 00:15:05,459

of the options of what this could be

374

00:15:11,269 --> 00:15:09,360

this could have been a warp craft

375

00:15:13,850 --> 00:15:11,279

whether or not it was a human craft I'll

376

00:15:16,370 --> 00:15:13,860

talk about later but yeah and they do

377

00:15:18,470 --> 00:15:16,380

address that actually in the article uh

378

00:15:20,030 --> 00:15:18,480

but he said you know it occurred to us

379

00:15:22,129 --> 00:15:20,040

this could be a warp craft and I said

380

00:15:24,050 --> 00:15:22,139

okay well that's I write about warp

381

00:15:25,850 --> 00:15:24,060

drive so we got into the physics of it

382

00:15:28,370 --> 00:15:25,860

he sent me some of their basic

383

00:15:30,050 --> 00:15:28,380

information and everything and we talked

384

00:15:32,150 --> 00:15:30,060

about the pros and cons you know when

385

00:15:34,250 --> 00:15:32,160

you come into the UFO world with a new

386

00:15:35,629 --> 00:15:34,260

story or new analysis what everybody

387

00:15:38,269 --> 00:15:35,639

would really like is new information

388

00:15:40,129 --> 00:15:38,279

they would like yeah a new photo or a

389

00:15:42,410 --> 00:15:40,139

new video or an explanation and of

390

00:15:44,930 --> 00:15:42,420

course we didn't have any of that we had

391

00:15:47,750 --> 00:15:44,940

an analysis so we kind of went back and

392

00:15:50,870 --> 00:15:47,760

forth on is this of value and you know

393

00:15:53,329 --> 00:15:50,880

that oh Harrison is covered so much it

394

00:15:56,269 --> 00:15:53,339

is talked about so much and here I have

395

00:15:59,090 --> 00:15:56,279

a group of really successful mainstream

396

00:16:01,550 --> 00:15:59,100

scientists who are willing to engage on

397

00:16:05,150 --> 00:16:01,560

the topic and I thought for that benefit

398

00:16:07,910 --> 00:16:05,160

alone it is worth going ahead and taking

399

00:16:09,889 --> 00:16:07,920

these guys analysis having them put it

400

00:16:13,069 --> 00:16:09,899

all down together and in plain English

401
00:16:14,750 --> 00:16:13,079
for me as much as they could and then I

402
00:16:16,189 --> 00:16:14,760
work with Micah and between his

403
00:16:18,290 --> 00:16:16,199
knowledge of the history of the incident

404
00:16:20,930 --> 00:16:18,300
and my understanding of work drive and

405
00:16:23,750 --> 00:16:20,940
work mechanics we put together their

406
00:16:26,090 --> 00:16:23,760
analysis I had multiple interviews with

407
00:16:28,670 --> 00:16:26,100
the researchers involved at various

408
00:16:31,069 --> 00:16:28,680
steps along the way obviously uh

409
00:16:32,449 --> 00:16:31,079
multiple interactions with Johnny the

410
00:16:35,150 --> 00:16:32,459
founder on it

411
00:16:37,189 --> 00:16:35,160
and what you see that that written piece

412
00:16:39,769 --> 00:16:37,199
that came out earlier this week or

413
00:16:41,990 --> 00:16:39,779

yesterday or whenever that is the uh

414

00:16:43,910 --> 00:16:42,000

that is the culmination of a lot of the

415

00:16:46,490 --> 00:16:43,920

smart work by a lot of smart people

416

00:16:48,530 --> 00:16:46,500

trying to analyze something that has

417

00:16:51,829 --> 00:16:48,540

very little information

418

00:16:54,590 --> 00:16:51,839

but has enough unique qualities about

419

00:16:56,689 --> 00:16:54,600

the incident that they as he said we

420

00:16:59,329 --> 00:16:56,699

keep coming back to it is work theorists

421

00:17:01,249 --> 00:16:59,339

and going it would answer you know in in

422

00:17:03,949 --> 00:17:01,259

theoretical physics

423

00:17:06,949 --> 00:17:03,959

things like string theory or dark matter

424

00:17:09,470 --> 00:17:06,959

the reason those ideas exist is because

425

00:17:12,890 --> 00:17:09,480

they explain a phenomenon that we see

426

00:17:15,710 --> 00:17:12,900

but we don't understand so that was

427

00:17:18,169 --> 00:17:15,720

their idea was it's just Theory but so

428

00:17:20,270 --> 00:17:18,179

is dark matter and so is string theory

429

00:17:21,530 --> 00:17:20,280

and so are supersymmetry and M Theory

430

00:17:23,569 --> 00:17:21,540

and a lot of these other things in

431

00:17:25,010 --> 00:17:23,579

physics so you said as theoretical

432

00:17:26,990 --> 00:17:25,020

physicists

433

00:17:28,789 --> 00:17:27,000

sure could there have just been a

434

00:17:30,409 --> 00:17:28,799

natural hole in the clouds and a bunch

435

00:17:32,630 --> 00:17:30,419

of people made up a story about a disc

436

00:17:35,270 --> 00:17:32,640

in the sky of course

437

00:17:36,650 --> 00:17:35,280

but if you take a circumstance where

438

00:17:38,830 --> 00:17:36,660

these people don't seem to know each

439

00:17:40,909 --> 00:17:38,840

other you do seem to have some skilled

440

00:17:43,669 --> 00:17:40,919

observers in there including at least

441

00:17:45,169 --> 00:17:43,679

one pilot who can be heard in the tape

442

00:17:47,330 --> 00:17:45,179

talking to the people on the tower

443

00:17:50,210 --> 00:17:47,340

saying yeah we saw it when we were

444

00:17:51,529 --> 00:17:50,220

coming in too we saw the same object so

445

00:17:54,529 --> 00:17:51,539

when you mix in the quality of the

446

00:17:55,970 --> 00:17:54,539

witnesses the the weather phenomenon the

447

00:17:57,950 --> 00:17:55,980

fact that the temperature wasn't really

448

00:17:59,750 --> 00:17:57,960

right for that day for this hole in the

449

00:18:01,010 --> 00:17:59,760

clouds to have happened naturally that

450

00:18:03,950 --> 00:18:01,020

there should have been some sort of

451
00:18:05,750 --> 00:18:03,960
artificial object the movement of the

452
00:18:07,850 --> 00:18:05,760
craft as far as shooting straight up

453
00:18:11,150 --> 00:18:07,860
vertically and then the shape of the

454
00:18:14,870 --> 00:18:11,160
crap all of those things are answered if

455
00:18:16,850 --> 00:18:14,880
the answer is a warp uh spacecraft so it

456
00:18:19,549 --> 00:18:16,860
doesn't mean that is the answer but it

457
00:18:21,770 --> 00:18:19,559
means of the proposed answers that one

458
00:18:23,930 --> 00:18:21,780
answers all the questions it matches all

459
00:18:26,630 --> 00:18:23,940
the witness testimony and evidence that

460
00:18:28,610 --> 00:18:26,640
is available including the fact and not

461
00:18:31,430 --> 00:18:28,620
limited to that it didn't show up on

462
00:18:33,770 --> 00:18:31,440
radar that the FAA and the airport says

463
00:18:35,750 --> 00:18:33,780

it doesn't show up on radar and as

464

00:18:37,549 --> 00:18:35,760

pointed out in the article a warp craft

465

00:18:38,990 --> 00:18:37,559

would not show up on radar because the

466

00:18:41,029 --> 00:18:39,000

way it would bend the radar signal

467

00:18:43,130 --> 00:18:41,039

around it it would just dissipate just

468

00:18:45,230 --> 00:18:43,140

like a stealth crap

469

00:18:47,150 --> 00:18:45,240

it's interesting timing Chris because

470

00:18:48,890 --> 00:18:47,160

speaking to Ryan Sprague today and those

471

00:18:51,409 --> 00:18:48,900

interviews are going to be what kind of

472

00:18:53,390 --> 00:18:51,419

a day or so apart from each other his

473

00:18:54,950 --> 00:18:53,400

new book stories from somewhere in the

474

00:18:57,169 --> 00:18:54,960

skies give it another plug

475

00:18:59,390 --> 00:18:57,179

um it's about testimony and people's

476

00:19:01,370 --> 00:18:59,400

sightings people's experiences there's

477

00:19:03,049 --> 00:19:01,380

no data behind it there's no evidence

478

00:19:05,330 --> 00:19:03,059

other than people have got in touch with

479

00:19:07,190 --> 00:19:05,340

Ryan including myself and shared their

480

00:19:10,130 --> 00:19:07,200

story and Ryan puts out there for others

481

00:19:11,810 --> 00:19:10,140

to digest and analyze in their own time

482

00:19:14,450 --> 00:19:11,820

this is interesting that the Chicago

483

00:19:17,870 --> 00:19:14,460

O'Hare incident as far as we know like

484

00:19:20,029 --> 00:19:17,880

you say no FAA data no radar data no

485

00:19:21,230 --> 00:19:20,039

photographic or video evidence is purely

486

00:19:24,590 --> 00:19:21,240

testimony

487

00:19:27,230 --> 00:19:24,600

does it show a bit of a shift in

488

00:19:29,810 --> 00:19:27,240

scientific and academic thinking that a

489

00:19:32,210 --> 00:19:29,820

group as serious as this are willing to

490

00:19:36,350 --> 00:19:32,220

look at an incident based purely on

491

00:19:37,909 --> 00:19:36,360

testimony I think this is why this is so

492

00:19:40,490 --> 00:19:37,919

exciting and I can tell you that I know

493

00:19:42,529 --> 00:19:40,500

behind the scenes uh the scientific

494

00:19:44,270 --> 00:19:42,539

Coalition for UAP studies which is

495

00:19:46,730 --> 00:19:44,280

another group of scientists they've

496

00:19:48,710 --> 00:19:46,740

actually saw the article we put out and

497

00:19:50,390 --> 00:19:48,720

they actually have reached out to us and

498

00:19:52,330 --> 00:19:50,400

we've put them in touch with this group

499

00:19:55,250 --> 00:19:52,340

and because they want to coordinate

500

00:19:57,350 --> 00:19:55,260

efforts and collaborate because they saw

501
00:19:58,909 --> 00:19:57,360
a lot of exciting things in there here's

502
00:20:00,470 --> 00:19:58,919
what I'd like to do for your viewers

503
00:20:02,630 --> 00:20:00,480
without trying to win listeners without

504
00:20:04,610 --> 00:20:02,640
trying to bore them is Andy let's go

505
00:20:09,130 --> 00:20:04,620
back to 1947.

506
00:20:12,950 --> 00:20:09,140
and before and the start of military

507
00:20:15,590 --> 00:20:12,960
scientific UFO investigations up to in

508
00:20:18,549 --> 00:20:15,600
about let's say 1952 or so where Blue

509
00:20:20,690 --> 00:20:18,559
Book just kind of became a a a

510
00:20:23,029 --> 00:20:20,700
misinformation campaign to just get

511
00:20:25,549 --> 00:20:23,039
people to not pay attention but in those

512
00:20:28,070 --> 00:20:25,559
early years what you would hear about

513
00:20:31,070 --> 00:20:28,080

and we historically hear about oh there

514

00:20:33,650 --> 00:20:31,080

was a a sighting in Michigan and Jay

515

00:20:36,470 --> 00:20:33,660

Allen heineck flew out there and

516

00:20:38,810 --> 00:20:36,480

analyzed the scene and looked at data

517

00:20:42,409 --> 00:20:38,820

and so forth and would try and determine

518

00:20:45,650 --> 00:20:42,419

what people were seeing before there was

519

00:20:48,289 --> 00:20:45,660

stigma before people were afraid to talk

520

00:20:52,130 --> 00:20:48,299

about it that's exactly what those

521

00:20:54,890 --> 00:20:52,140

scientists on uh project sign and even

522

00:20:57,230 --> 00:20:54,900

project Grudge to a smaller degree after

523

00:21:00,169 --> 00:20:57,240

that that's what they were doing you

524

00:21:02,450 --> 00:21:00,179

know the Twining memo came even before

525

00:21:05,150 --> 00:21:02,460

all of that General Nathan Twining was

526
00:21:07,549 --> 00:21:05,160
the first one who got the job they said

527
00:21:09,830 --> 00:21:07,559
hey go grab a bunch of scientists and

528
00:21:12,590 --> 00:21:09,840
figure out if these reports of disks are

529
00:21:14,510 --> 00:21:12,600
real or not and what they would do was

530
00:21:16,070 --> 00:21:14,520
talk to Witnesses because they didn't

531
00:21:17,870 --> 00:21:16,080
have a lot of film they didn't have a

532
00:21:21,529 --> 00:21:17,880
lot of radar data they didn't have a lot

533
00:21:23,930 --> 00:21:21,539
of forensic data so they had to rely on

534
00:21:26,510 --> 00:21:23,940
the determination of how credible are

535
00:21:28,370 --> 00:21:26,520
the witnesses that we're talking to

536
00:21:30,289 --> 00:21:28,380
how independent is their information

537
00:21:31,490 --> 00:21:30,299
from each other

538
00:21:33,470 --> 00:21:31,500

and then what does their information

539

00:21:36,649 --> 00:21:33,480

sound like if we add it all up together

540

00:21:39,049 --> 00:21:36,659

can we go uh you know it probably was uh

541

00:21:41,029 --> 00:21:39,059

swap gas and that would be consistent

542

00:21:42,950 --> 00:21:41,039

with the environment and where the

543

00:21:44,810 --> 00:21:42,960

angles people saw it from and the color

544

00:21:46,850 --> 00:21:44,820

and things like that that's what

545

00:21:47,930 --> 00:21:46,860

scientists have done with UFOs from the

546

00:21:50,210 --> 00:21:47,940

very beginning

547

00:21:52,549 --> 00:21:50,220

so we went through the whole period

548

00:21:55,610 --> 00:21:52,559

since you know my entire lifetime I was

549

00:21:59,029 --> 00:21:55,620

born in 1969 the year that blue book

550

00:22:02,029 --> 00:21:59,039

shut down and so my entire lifetime

551
00:22:04,690 --> 00:22:02,039
there's pretty much been this we don't

552
00:22:08,090 --> 00:22:04,700
look at UFO cases from a scientific

553
00:22:09,830 --> 00:22:08,100
angle because it'll associate you with

554
00:22:12,230 --> 00:22:09,840
Supernatural thinking or magical

555
00:22:14,930 --> 00:22:12,240
thinking or it's just not scientific

556
00:22:17,510 --> 00:22:14,940
I can tell you that

557
00:22:20,029 --> 00:22:17,520
that has changed so much in the last few

558
00:22:22,130 --> 00:22:20,039
years and my time at the debrief I just

559
00:22:23,990 --> 00:22:22,140
that's what I do my job is to talk to

560
00:22:26,570 --> 00:22:24,000
scientists I talk to multiple scientists

561
00:22:29,710 --> 00:22:26,580
a week from a range of different fields

562
00:22:34,370 --> 00:22:29,720
and a range of different topics and

563
00:22:38,510 --> 00:22:34,380

universally the attitude about UFOs is I

564

00:22:40,310 --> 00:22:38,520

would say is reset to that original we

565

00:22:42,649 --> 00:22:40,320

don't give a about that we don't we

566

00:22:45,350 --> 00:22:42,659

don't care about the negativity we don't

567

00:22:48,289 --> 00:22:45,360

care about the stigma we're scientists

568

00:22:50,690 --> 00:22:48,299

and we're curious and we want to know so

569

00:22:55,190 --> 00:22:50,700

they are more than willing like

570

00:22:58,370 --> 00:22:55,200

scientists in 1947 and 1948 and and and

571

00:23:00,230 --> 00:22:58,380

now are finally willing to look at this

572

00:23:03,470 --> 00:23:00,240

thing objectively and go let's just

573

00:23:06,649 --> 00:23:03,480

forget about any crazy magical thinking

574

00:23:10,310 --> 00:23:06,659

let's set all that aside what are people

575

00:23:12,830 --> 00:23:10,320

saying they saw and what what could that

576

00:23:14,870 --> 00:23:12,840

be what you know if we could argue all

577

00:23:17,750 --> 00:23:14,880

day if David fraver and Alex Dietrich

578

00:23:20,210 --> 00:23:17,760

and their other pilot made up the Tic

579

00:23:21,830 --> 00:23:20,220

Tac incident or where are the tapes of

580

00:23:24,590 --> 00:23:21,840

that information we could argue about

581

00:23:27,169 --> 00:23:24,600

that forever and we may never know or we

582

00:23:29,510 --> 00:23:27,179

can say here's really three trained

583

00:23:31,669 --> 00:23:29,520

observers who are pilots who should be

584

00:23:33,649 --> 00:23:31,679

familiar with things in the air let's go

585

00:23:35,930 --> 00:23:33,659

ahead and assume we're taking them at

586

00:23:37,909 --> 00:23:35,940

their word and for a scientific purpose

587

00:23:40,669 --> 00:23:37,919

let's look at it and see what they saw

588

00:23:43,430 --> 00:23:40,679

so the Chicago coherence and I think is

589

00:23:46,669 --> 00:23:43,440

a perfect one for scientists to do

590

00:23:48,169 --> 00:23:46,679

exactly that and yeah this is a it's

591

00:23:49,789 --> 00:23:48,179

just completely different it's just I

592

00:23:52,010 --> 00:23:49,799

tell people all the time I followed this

593

00:23:56,149 --> 00:23:52,020

topic throughout the 80s the 90s the

594

00:23:57,770 --> 00:23:56,159

2000s and the attitude of 21st century

595

00:23:59,990 --> 00:23:57,780

scientists

596

00:24:02,990 --> 00:24:00,000

space doesn't seem magical the way it

597

00:24:05,090 --> 00:24:03,000

did in the 1950s or the 1960s other

598

00:24:07,850 --> 00:24:05,100

dimensions don't seem magical the way

599

00:24:09,470 --> 00:24:07,860

they did at that time uh even even the

600

00:24:12,289 --> 00:24:09,480

idea of time travel although it's not

601
00:24:14,270 --> 00:24:12,299
one of my favorites uh it's something

602
00:24:17,990 --> 00:24:14,280
that scientists are open to and talk

603
00:24:19,970 --> 00:24:18,000
about so uh I I don't think we're stuck

604
00:24:22,549 --> 00:24:19,980
in that position anymore I think we're

605
00:24:24,289 --> 00:24:22,559
now in a position where again these

606
00:24:27,049 --> 00:24:24,299
people make a living off their

607
00:24:29,750 --> 00:24:27,059
scientific credentials huge Venture

608
00:24:32,930 --> 00:24:29,760
capitalists and big Financial firms hire

609
00:24:35,990 --> 00:24:32,940
them to look at real world things and

610
00:24:38,890 --> 00:24:36,000
say is this viable or not so to have a

611
00:24:42,289 --> 00:24:38,900
group like Applied Physics who's written

612
00:24:45,230 --> 00:24:42,299
research papers and and and really are

613
00:24:47,210 --> 00:24:45,240

accomplished scientists uh to come

614

00:24:50,630 --> 00:24:47,220

forward and say you know what would be

615

00:24:52,810 --> 00:24:50,640

fun is to look in an incident that is

616

00:24:56,210 --> 00:24:52,820

popular in the culture that we think

617

00:24:59,090 --> 00:24:56,220

really seems to match something specific

618

00:25:00,230 --> 00:24:59,100

that we know a lot about which is warp

619

00:25:02,810 --> 00:25:00,240

drive

620

00:25:04,549 --> 00:25:02,820

well Chris time travel is possible and

621

00:25:06,529 --> 00:25:04,559

happening right now because while I talk

622

00:25:08,270 --> 00:25:06,539

to you the listener listening to this

623

00:25:09,770 --> 00:25:08,280

hasn't even heard it yet it's not even

624

00:25:12,529 --> 00:25:09,780

put out yet so they are listening to it

625

00:25:14,990 --> 00:25:12,539

in the future so hello to the Future

626

00:25:17,690 --> 00:25:15,000

um your point though you mentioned

627

00:25:19,909 --> 00:25:17,700

earlier about the conclusion

628

00:25:22,789 --> 00:25:19,919

the conclusion is that probability of

629

00:25:24,230 --> 00:25:22,799

this being an ET craft is low well they

630

00:25:26,269 --> 00:25:24,240

talk about what Drive is completely

631

00:25:27,890 --> 00:25:26,279

serious and the physics and the

632

00:25:30,830 --> 00:25:27,900

propulsion it may be behind it they do

633

00:25:32,990 --> 00:25:30,840

stress that it's unlikely given the

634

00:25:35,630 --> 00:25:33,000

whole chance of everything that this is

635

00:25:38,210 --> 00:25:35,640

an extraterrestrial craft however

636

00:25:40,370 --> 00:25:38,220

is that just because we as a species

637

00:25:41,930 --> 00:25:40,380

still forget you're a fan of the UFO

638

00:25:45,169 --> 00:25:41,940

topic listening to this I'm like myself

639

00:25:48,350 --> 00:25:45,179

Andrew Chris we've never confirmed a

640

00:25:50,330 --> 00:25:48,360

single visitation yet that 100 is out in

641

00:25:53,690 --> 00:25:50,340

public this happened we were visited

642

00:25:56,330 --> 00:25:53,700

once and say we do say say tonight after

643

00:25:57,649 --> 00:25:56,340

we record this they catch a glimpse of

644

00:25:59,990 --> 00:25:57,659

something

645

00:26:01,789 --> 00:26:00,000

out in space flying past the moon and it

646

00:26:03,529 --> 00:26:01,799

goes past we don't even get to see it

647

00:26:06,649 --> 00:26:03,539

okay so just imagine hypothetical

648

00:26:09,409 --> 00:26:06,659

situation for some reason Elon Musk

649

00:26:12,529 --> 00:26:09,419

SpaceX is launching up and it catches on

650

00:26:14,570 --> 00:26:12,539

camera proper E.T looking craft and wow

651
00:26:16,370 --> 00:26:14,580
the world goes mad we've got confirmed

652
00:26:19,490 --> 00:26:16,380
existence we are not alone

653
00:26:21,529 --> 00:26:19,500
does that then Force every scientist to

654
00:26:23,690 --> 00:26:21,539
go back to every single incident and

655
00:26:26,390 --> 00:26:23,700
look and go actually do we now have to

656
00:26:29,690 --> 00:26:26,400
run the ETI over this and look at it in

657
00:26:31,669 --> 00:26:29,700
a totally different way well so I think

658
00:26:33,470 --> 00:26:31,679
this is already happening so this is

659
00:26:35,210 --> 00:26:33,480
this is one of my favorite things that's

660
00:26:37,310 --> 00:26:35,220
happening in science about this topic

661
00:26:40,490 --> 00:26:37,320
and I think exactly what you're saying

662
00:26:43,010 --> 00:26:40,500
is is what is bound to happen

663
00:26:47,450 --> 00:26:43,020

I tell people this all the time say we

664

00:26:49,850 --> 00:26:47,460

uh forget about a UFO say we caught uh

665

00:26:51,890 --> 00:26:49,860

evidence of a civilization on another

666

00:26:54,830 --> 00:26:51,900

planet with the telescope Saint James

667

00:26:56,750 --> 00:26:54,840

Webb looks at a planet and looks at

668

00:26:59,570 --> 00:26:56,760

pollution in the atmosphere of that

669

00:27:02,029 --> 00:26:59,580

planet looks at light signatures or em

670

00:27:05,330 --> 00:27:02,039

signatures and they go there is a

671

00:27:07,190 --> 00:27:05,340

civilization there our first impulse

672

00:27:08,810 --> 00:27:07,200

would be to figure out how do we send a

673

00:27:11,630 --> 00:27:08,820

probe there how do we send something

674

00:27:13,789 --> 00:27:11,640

there to go take a look at it the second

675

00:27:15,890 --> 00:27:13,799

question I would think we would ask is

676

00:27:17,450 --> 00:27:15,900

if we're seeing them have they already

677

00:27:19,909 --> 00:27:17,460

seen us

678

00:27:21,890 --> 00:27:19,919

how long have they been seeing us and

679

00:27:24,110 --> 00:27:21,900

have they sent someone to check out have

680

00:27:26,630 --> 00:27:24,120

they sent a probe to us already just

681

00:27:28,549 --> 00:27:26,640

because we're just now finding them and

682

00:27:30,049 --> 00:27:28,559

I think this is a point I make to people

683

00:27:32,390 --> 00:27:30,059

all the time and I think this is an

684

00:27:37,850 --> 00:27:32,400

important point to make

685

00:27:39,710 --> 00:27:37,860

I don't if there had never been one UFO

686

00:27:41,690 --> 00:27:39,720

sighting in the history of the world if

687

00:27:43,610 --> 00:27:41,700

it just didn't exist it was something we

688

00:27:44,990 --> 00:27:43,620

never talked about it just wasn't a

689

00:27:46,909 --> 00:27:45,000

subject ever the idea of

690

00:27:49,669 --> 00:27:46,919

extraterrestrial all of that

691

00:27:52,610 --> 00:27:49,679

it would still be the materialist

692

00:27:54,789 --> 00:27:52,620

scientist point of view that there

693

00:27:57,590 --> 00:27:54,799

should be life throughout the cosmos

694

00:27:59,510 --> 00:27:57,600

that much of that life should be more

695

00:28:01,789 --> 00:27:59,520

advanced than us just based on the fact

696

00:28:04,130 --> 00:28:01,799

that the cosmos is 14 billion years

697

00:28:05,810 --> 00:28:04,140

older just shy of it and our planet's

698

00:28:09,289 --> 00:28:05,820

only been here for the last four billion

699

00:28:12,830 --> 00:28:09,299

and change so just based on time and

700

00:28:14,690 --> 00:28:12,840

space and the fact that the cosmos is

701

00:28:17,029 --> 00:28:14,700

made of ordinary stuff it's not

702

00:28:18,710 --> 00:28:17,039

Supernatural in any way other planets

703

00:28:20,930 --> 00:28:18,720

are made out of the same carbon that

704

00:28:22,789 --> 00:28:20,940

we're made out of in the same oxygen we

705

00:28:26,330 --> 00:28:22,799

see water around Planet we see water

706

00:28:29,750 --> 00:28:26,340

around Stars we see all the same stuff

707

00:28:32,570 --> 00:28:29,760

so if there are a thousand yards in your

708

00:28:34,669 --> 00:28:32,580

neighborhood and yours has grass and

709

00:28:36,649 --> 00:28:34,679

every other yard has the same sort of

710

00:28:39,289 --> 00:28:36,659

dirt the same sort of whatever dude

711

00:28:42,950 --> 00:28:39,299

chances are of most of those yards have

712

00:28:45,649 --> 00:28:42,960

grass that's just a materialistic

713

00:28:48,710 --> 00:28:45,659

scientist point of view so scientists

714

00:28:51,710 --> 00:28:48,720

have avoided the UFO topic for so long

715

00:28:55,010 --> 00:28:51,720

because it's connected to visitations

716

00:28:57,649 --> 00:28:55,020

and crop circles and abductions and and

717

00:28:59,269 --> 00:28:57,659

again like Supernatural maybe it's

718

00:29:00,830 --> 00:28:59,279

paranormal or maybe they're coming from

719

00:29:03,710 --> 00:29:00,840

the future maybe they're From Another

720

00:29:06,110 --> 00:29:03,720

Dimension and that is Chase scientists

721

00:29:09,230 --> 00:29:06,120

away from that but if you ask scientists

722

00:29:12,370 --> 00:29:09,240

what their position was about are is

723

00:29:15,649 --> 00:29:12,380

there life on other planets almost

724

00:29:18,049 --> 00:29:15,659

universally now scientists say life

725

00:29:20,810 --> 00:29:18,059

should be common throughout the cosmos

726

00:29:22,370 --> 00:29:20,820

it's the it's it's more or less a

727

00:29:25,250 --> 00:29:22,380

universally accepted thing if you ask

728

00:29:27,590 --> 00:29:25,260

scientists and they all fall back on the

729

00:29:29,870 --> 00:29:27,600

I just don't think it's visited us yet

730

00:29:32,210 --> 00:29:29,880

or I don't think it's come here to which

731

00:29:33,710 --> 00:29:32,220

I often say so you're willing to believe

732

00:29:37,010 --> 00:29:33,720

in science you're willing to believe

733

00:29:39,409 --> 00:29:37,020

that if matter is ordinary and the if

734

00:29:41,870 --> 00:29:39,419

the cosmos is not Supernatural but is a

735

00:29:44,149 --> 00:29:41,880

natural phenomenon and the materialist

736

00:29:45,889 --> 00:29:44,159

interpretation is that there should just

737

00:29:47,810 --> 00:29:45,899

be life everywhere and a lot of it

738

00:29:50,389 --> 00:29:47,820

should have come before just based on

739

00:29:51,950 --> 00:29:50,399

the age of the cosmos then you're

740

00:29:54,470 --> 00:29:51,960

telling me that you don't believe in

741

00:29:57,350 --> 00:29:54,480

evolution because evolution is a

742

00:30:00,230 --> 00:29:57,360

reaction to Natural Forces so on other

743

00:30:01,190 --> 00:30:00,240

planets if there's Evolution guess what

744

00:30:04,130 --> 00:30:01,200

you're going to end up with

745

00:30:06,409 --> 00:30:04,140

technologically modern uh beings they

746

00:30:08,389 --> 00:30:06,419

may not be humans per se but you're

747

00:30:10,789 --> 00:30:08,399

going to end up with with creatures that

748

00:30:12,470 --> 00:30:10,799

can use technology that can travel into

749

00:30:14,630 --> 00:30:12,480

space that can do the things that we're

750

00:30:16,909 --> 00:30:14,640

doing and probably did that a long time

751
00:30:18,909 --> 00:30:16,919
before us so I think we're going to

752
00:30:21,049 --> 00:30:18,919
reach a point where

753
00:30:25,250 --> 00:30:21,059
scientists are going to find signs of

754
00:30:28,190 --> 00:30:25,260
microscopic life in in Mars or the gases

755
00:30:32,870 --> 00:30:28,200
of Jupiter we may find more complex life

756
00:30:35,029 --> 00:30:32,880
in the oceans of Europa and the uh IO

757
00:30:37,909 --> 00:30:35,039
and some of these other locations I

758
00:30:40,310 --> 00:30:37,919
think we will find bio signatures in the

759
00:30:44,450 --> 00:30:40,320
atmospheres of exoplanets planets around

760
00:30:47,149 --> 00:30:44,460
other stars and this idea that life is

761
00:30:49,669 --> 00:30:47,159
everywhere that life is natural not

762
00:30:51,529 --> 00:30:49,679
Supernatural that there's only only

763
00:30:53,870 --> 00:30:51,539

intelligent creatures on Earth you know

764

00:30:55,310 --> 00:30:53,880

it's almost this you look at scientists

765

00:30:57,350 --> 00:30:55,320

and you go you know in the old days they

766

00:30:59,870 --> 00:30:57,360

would laugh at this the Earth is the

767

00:31:02,149 --> 00:30:59,880

center of the universe and God makes all

768

00:31:04,130 --> 00:31:02,159

the decisions and humans are at the top

769

00:31:05,990 --> 00:31:04,140

of the pyramid and we find out well

770

00:31:08,210 --> 00:31:06,000

humans are just animals like every other

771

00:31:09,909 --> 00:31:08,220

animal used to say when you ascribed

772

00:31:12,049 --> 00:31:09,919

emotions to an animal that you were

773

00:31:14,210 --> 00:31:12,059

anthropomorphizing it as it turns out

774

00:31:16,789 --> 00:31:14,220

all animals have emotions oh they all

775

00:31:18,590 --> 00:31:16,799

have personalities just like us we're

776

00:31:20,330 --> 00:31:18,600

just one of the animals we're not that

777

00:31:22,130 --> 00:31:20,340

spectacular tackler we're just a little

778

00:31:23,810 --> 00:31:22,140

bit smarter and more ingenious than the

779

00:31:27,110 --> 00:31:23,820

other ones so we can build stuff and

780

00:31:29,389 --> 00:31:27,120

shoot stuff and fly in the sky so this

781

00:31:30,710 --> 00:31:29,399

idea that scientists are coming around

782

00:31:34,310 --> 00:31:30,720

to

783

00:31:37,190 --> 00:31:34,320

not only should the ET hypothesis be a

784

00:31:39,049 --> 00:31:37,200

valid one just in the sense that it's

785

00:31:41,570 --> 00:31:39,059

just the way the nature should be it's

786

00:31:43,310 --> 00:31:41,580

just there should be life everywhere it

787

00:31:45,470 --> 00:31:43,320

should evolve there should be

788

00:31:47,029 --> 00:31:45,480

technological species and I can tell you

789

00:31:48,110 --> 00:31:47,039

a lot of scientists think this way

790

00:31:50,810 --> 00:31:48,120

already

791

00:31:53,210 --> 00:31:50,820

that resistance was so strong at the

792

00:31:54,769 --> 00:31:53,220

dawn of the UFO phenomenon because we

793

00:31:57,230 --> 00:31:54,779

hadn't even been to space we didn't know

794

00:31:59,510 --> 00:31:57,240

if you could fly in space in the 40s we

795

00:32:02,090 --> 00:31:59,520

hadn't been to the Moon we didn't hadn't

796

00:32:03,529 --> 00:32:02,100

never imaged another planet I had a

797

00:32:07,130 --> 00:32:03,539

professor I think I've told you this

798

00:32:09,350 --> 00:32:07,140

before but I started UCLA in 1987 and I

799

00:32:12,409 --> 00:32:09,360

had an astronomy Professor who told me

800

00:32:14,690 --> 00:32:12,419

he would bet his retirement that we will

801
00:32:16,990 --> 00:32:14,700
never find a planet around another star

802
00:32:20,090 --> 00:32:17,000
because at that point we hadn't

803
00:32:21,710 --> 00:32:20,100
scientists were sure there's not well

804
00:32:23,450 --> 00:32:21,720
guess what they're not going to find

805
00:32:25,130 --> 00:32:23,460
plants around other stars we found it

806
00:32:26,269 --> 00:32:25,140
we're not going to find Rocky ones we

807
00:32:27,769 --> 00:32:26,279
found them they're not going to be your

808
00:32:29,269 --> 00:32:27,779
size we found them they're not going to

809
00:32:30,649 --> 00:32:29,279
have water we found them they're not

810
00:32:32,690 --> 00:32:30,659
going to be in the habitable zone we

811
00:32:36,169 --> 00:32:32,700
found them the next thing to find is

812
00:32:38,450 --> 00:32:36,179
life and I think it will not only be it

813
00:32:41,450 --> 00:32:38,460

will be huge for us because we're waking

814

00:32:42,830 --> 00:32:41,460

up to that knowledge but cosmically I

815

00:32:44,990 --> 00:32:42,840

don't think it's a big deal at all I

816

00:32:46,370 --> 00:32:45,000

just think life is everywhere and I tell

817

00:32:49,669 --> 00:32:46,380

people all the time if there had never

818

00:32:51,529 --> 00:32:49,679

been a UFO ever reported I still think

819

00:32:53,029 --> 00:32:51,539

aliens are watching us because I think

820

00:32:55,070 --> 00:32:53,039

they've been around longer than we have

821

00:32:57,529 --> 00:32:55,080

and I think there's civilizations on

822

00:32:59,990 --> 00:32:57,539

planets that were within 100 light years

823

00:33:02,149 --> 00:33:00,000

200 light years or less that have the

824

00:33:02,990 --> 00:33:02,159

ability to observe us that evolved to

825

00:33:04,970 --> 00:33:03,000

the point that they're either

826

00:33:08,389 --> 00:33:04,980

technological civilizations meaning

827

00:33:10,850 --> 00:33:08,399

their AIS or their super biological

828

00:33:13,310 --> 00:33:10,860

situation uh civilizations meaning they

829

00:33:16,009 --> 00:33:13,320

can live to 2 000 years 3000 years old

830

00:33:19,370 --> 00:33:16,019

and Andy if you and I can live to 2 000

831

00:33:21,350 --> 00:33:19,380

years suddenly a ship that goes half the

832

00:33:23,509 --> 00:33:21,360

speed of light that's got to go to a

833

00:33:26,630 --> 00:33:23,519

star 20 light years away it's going to

834

00:33:29,990 --> 00:33:28,310

right like yeah

835

00:33:32,090 --> 00:33:30,000

when we set them

836

00:33:34,370 --> 00:33:32,100

set the Furs up the more recently in the

837

00:33:36,049 --> 00:33:34,380

90s I remember watching those go I

838

00:33:37,610 --> 00:33:36,059

remember watching them land doing their

839

00:33:40,250 --> 00:33:37,620

whole mission spirit and opportunity

840

00:33:41,690 --> 00:33:40,260

going through that whole process so I

841

00:33:44,810 --> 00:33:41,700

know I'm going in a lot of directions

842

00:33:47,870 --> 00:33:44,820

here but this is where I think we're at

843

00:33:50,750 --> 00:33:47,880

I think we are at the point where the

844

00:33:55,669 --> 00:33:50,760

conventional wisdom for science

845

00:33:56,810 --> 00:33:55,679

should be and is becoming that E.T life

846

00:34:03,529 --> 00:33:56,820

exists

847

00:34:05,029 --> 00:34:03,539

last hurdle for them to admit is as I

848

00:34:06,889 --> 00:34:05,039

said well I just don't think they've

849

00:34:08,149 --> 00:34:06,899

come to visit us because if they say

850

00:34:10,190 --> 00:34:08,159

that

851

00:34:12,109 --> 00:34:10,200

then they have to get into the UFO

852

00:34:13,970 --> 00:34:12,119

conversation and they don't want to get

853

00:34:16,609 --> 00:34:13,980

into the UFO conversation because of

854

00:34:18,409 --> 00:34:16,619

crop circles abductions Supernatural

855

00:34:20,030 --> 00:34:18,419

thinking and the things that go with

856

00:34:21,829 --> 00:34:20,040

that they still want to feel like I'm a

857

00:34:23,690 --> 00:34:21,839

credible scientist and I need evidence

858

00:34:26,750 --> 00:34:23,700

and this is the way I look at things

859

00:34:29,510 --> 00:34:26,760

when it comes to the philosophy of life

860

00:34:31,430 --> 00:34:29,520

NASA has astrobiologists now they didn't

861

00:34:34,190 --> 00:34:31,440

have astrobiologists there's people

862

00:34:35,930 --> 00:34:34,200

employed by NASA whose job it is to

863

00:34:38,329 --> 00:34:35,940

study something we haven't even found

864

00:34:40,669 --> 00:34:38,339

yet to study life on another planet

865

00:34:43,250 --> 00:34:40,679

whether it's microscopic organisms or

866

00:34:44,930 --> 00:34:43,260

complex life those jobs exist because

867

00:34:46,669 --> 00:34:44,940

it's just something we know we're gonna

868

00:34:49,190 --> 00:34:46,679

find the same way when they were

869

00:34:51,109 --> 00:34:49,200

searching for the Higgs Bosa at the

870

00:34:53,030 --> 00:34:51,119

certain collider it was just something

871

00:34:55,129 --> 00:34:53,040

we knew we were going to find because it

872

00:34:58,010 --> 00:34:55,139

had to exist because of the way science

873

00:34:59,630 --> 00:34:58,020

works because the way physics works so I

874

00:35:03,170 --> 00:34:59,640

think the way physics and chemistry and

875

00:35:05,990 --> 00:35:03,180

those things were life is going to be

876

00:35:08,210 --> 00:35:06,000

cross the cosmos across billions of

877

00:35:10,250 --> 00:35:08,220

Worlds and we're going to see it at all

878

00:35:12,349 --> 00:35:10,260

levels of development from societies

879

00:35:15,349 --> 00:35:12,359

that have completely gone extinct

880

00:35:17,810 --> 00:35:15,359

billions of years ago to societies that

881

00:35:19,550 --> 00:35:17,820

planets that are just like we were three

882

00:35:22,810 --> 00:35:19,560

four five hundred thousand years after

883

00:35:24,950 --> 00:35:22,820

our formation were those first little

884

00:35:27,829 --> 00:35:24,960

microscopic cells were starting to

885

00:35:30,829 --> 00:35:27,839

create amino acids and go from inert

886

00:35:33,530 --> 00:35:30,839

objects into life so I think that's

887

00:35:35,569 --> 00:35:33,540

that's the path we're on just because

888

00:35:39,109 --> 00:35:35,579

we're so much more modern than we were

889

00:35:41,690 --> 00:35:39,119

When the UFO phenomenon happened so that

890

00:35:44,690 --> 00:35:41,700

that that's my my long shirt version

891

00:35:45,950 --> 00:35:44,700

there on that subject you know and the

892

00:35:47,329 --> 00:35:45,960

week that Jerry Springers passed away

893

00:35:49,190 --> 00:35:47,339

that would have been a wonderful final

894

00:35:51,170 --> 00:35:49,200

thought to wrap up on Chris and you

895

00:35:53,089 --> 00:35:51,180

explained it eloquently and the science

896

00:35:54,410 --> 00:35:53,099

behind it and all the magical ways we

897

00:35:56,810 --> 00:35:54,420

could discover

898

00:35:58,970 --> 00:35:56,820

ET life out there I was so well put you

899

00:36:00,770 --> 00:35:58,980

did miss one you missed one really

900

00:36:02,690 --> 00:36:00,780

obvious one though and I think when we

901
00:36:05,870 --> 00:36:02,700
start spending sending space tourists

902
00:36:08,329 --> 00:36:05,880
like Kanye West up with an iPhone 14. I

903
00:36:10,990 --> 00:36:08,339
hope Kanye's window just takes that

904
00:36:13,609 --> 00:36:11,000
picture uh but no in all seriousness

905
00:36:15,290 --> 00:36:13,619
that's for me as so many opportunities

906
00:36:17,870 --> 00:36:15,300
and I've got so much great technology

907
00:36:20,030 --> 00:36:17,880
like the James Webb like

908
00:36:21,470 --> 00:36:20,040
Elon Musk pushing it with SpaceX is

909
00:36:22,970 --> 00:36:21,480
whatever people think of them you know

910
00:36:26,030 --> 00:36:22,980
putting more and more stuff into space

911
00:36:27,470 --> 00:36:26,040
he's he seems to have pushed NASA a

912
00:36:29,150 --> 00:36:27,480
little bit more as well into the

913
00:36:31,430 --> 00:36:29,160

conversation and I wonder without any

914

00:36:34,069 --> 00:36:31,440

Elon Musk in his kind of decade attitude

915

00:36:36,470 --> 00:36:34,079

you know would NASA even be pushing the

916

00:36:38,690 --> 00:36:36,480

way they are missions on Mars we'd still

917

00:36:40,550 --> 00:36:38,700

be flying in Russian capsules to the

918

00:36:41,810 --> 00:36:40,560

space station the Boeing capsule still

919

00:36:43,910 --> 00:36:41,820

isn't done the one that was supposed to

920

00:36:46,069 --> 00:36:43,920

be done like a decade ago still isn't

921

00:36:48,230 --> 00:36:46,079

done the fact that SpaceX jumped in the

922

00:36:50,450 --> 00:36:48,240

race did it for half the price got it

923

00:36:52,010 --> 00:36:50,460

done 10 years earlier and now our

924

00:36:54,470 --> 00:36:52,020

astronauts go back and forth to the

925

00:36:56,390 --> 00:36:54,480

space station on the SpaceX capsule as

926
00:36:58,790 --> 00:36:56,400
opposed to a Russian capsule that we

927
00:37:00,710 --> 00:36:58,800
gotta pay 10 times as much to fly up on

928
00:37:03,710 --> 00:37:00,720
because we're essentially subsidizing

929
00:37:06,589 --> 00:37:03,720
their space program forget about it I I

930
00:37:07,609 --> 00:37:06,599
have a lot of frustration with Elon Musk

931
00:37:09,349 --> 00:37:07,619
when it comes to talking about world

932
00:37:11,450 --> 00:37:09,359
population and economics and stuff

933
00:37:13,849 --> 00:37:11,460
because he's a wealthy people that wants

934
00:37:16,430 --> 00:37:13,859
people to constantly want Society to

935
00:37:18,290 --> 00:37:16,440
grow because it uh risks the economy

936
00:37:21,470 --> 00:37:18,300
when Society shrink and there are Japan

937
00:37:23,329 --> 00:37:21,480
and there are good cases for that but uh

938
00:37:26,270 --> 00:37:23,339

as far as his accomplishments in space

939

00:37:28,069 --> 00:37:26,280

they're unequaled in my lifetime

940

00:37:29,150 --> 00:37:28,079

well Chris is there anything else you're

941

00:37:31,270 --> 00:37:29,160

working on at the minute that you want

942

00:37:33,829 --> 00:37:31,280

to talk about

943

00:37:35,569 --> 00:37:33,839

uh nothing that I can share that I

944

00:37:37,250 --> 00:37:35,579

overly want to tease I will tell you one

945

00:37:39,770 --> 00:37:37,260

thing I would always like to tell people

946

00:37:41,810 --> 00:37:39,780

when talking about this subject the last

947

00:37:43,730 --> 00:37:41,820

thought I would give you is I'm not

948

00:37:45,650 --> 00:37:43,740

against time travelers from the past

949

00:37:49,430 --> 00:37:45,660

just time travelers from the future

950

00:37:52,390 --> 00:37:49,440

because traveling from the past is from

951
00:37:56,150 --> 00:37:52,400
a scientific standpoint it's very simple

952
00:37:58,790 --> 00:37:56,160
if I uh got in a rocket ship and I

953
00:38:01,190 --> 00:37:58,800
wanted to go to a thousand years in the

954
00:38:04,250 --> 00:38:01,200
future right now I just cruise up to

955
00:38:06,109 --> 00:38:04,260
about 90 99 the speed of light I hold it

956
00:38:09,829 --> 00:38:06,119
for a couple of years and when I land

957
00:38:11,510 --> 00:38:09,839
because of uh Einstein relativity a

958
00:38:14,150 --> 00:38:11,520
thousand years or 500 years or whatever

959
00:38:16,010 --> 00:38:14,160
the the speed I went and the amount of

960
00:38:18,050 --> 00:38:16,020
time I went would have passed on Earth

961
00:38:20,750 --> 00:38:18,060
so I tell people all the time if there

962
00:38:22,790 --> 00:38:20,760
was an advanced civilization a million

963
00:38:24,890 --> 00:38:22,800

years ago 100 million years ago a

964

00:38:26,450 --> 00:38:24,900

billion years ago on our planet on

965

00:38:29,829 --> 00:38:26,460

another planet whatever

966

00:38:33,530 --> 00:38:29,839

the idea that they would send

967

00:38:37,190 --> 00:38:33,540

explorers into the future

968

00:38:39,109 --> 00:38:37,200

simply by going really fast is is very

969

00:38:41,390 --> 00:38:39,119

fundamentally and scientifically sound

970

00:38:43,730 --> 00:38:41,400

and it's a proven principle we've proven

971

00:38:45,170 --> 00:38:43,740

that relativity they've put clocks on an

972

00:38:47,030 --> 00:38:45,180

airplane and put one on the ground some

973

00:38:48,710 --> 00:38:47,040

to the same town and the one at the

974

00:38:51,050 --> 00:38:48,720

airplane was a little bit behind because

975

00:38:53,329 --> 00:38:51,060

the clock didn't move as as fast because

976

00:38:56,210 --> 00:38:53,339

it was on the airplane so time on the

977

00:38:59,810 --> 00:38:56,220

ground moved fast that is a proven basic

978

00:39:01,550 --> 00:38:59,820

fundamental physics uh phenomenon so I

979

00:39:02,870 --> 00:39:01,560

am open to because I get a lot of

980

00:39:05,089 --> 00:39:02,880

questions about time travel it's

981

00:39:07,750 --> 00:39:05,099

probably the most common email question

982

00:39:11,930 --> 00:39:07,760

I get about because I'm such a pro ET

983

00:39:13,970 --> 00:39:11,940

hypothesis guy and I just say you know I

984

00:39:16,430 --> 00:39:13,980

don't mind the idea of trans-dimensional

985

00:39:17,990 --> 00:39:16,440

beings and from other dimensions it's

986

00:39:20,329 --> 00:39:18,000

just nothing that

987

00:39:22,430 --> 00:39:20,339

we don't know if other dimensions exist

988

00:39:25,730 --> 00:39:22,440

that's something within supersymmetry

989

00:39:28,010 --> 00:39:25,740

and M Theory and M Theory and and string

990

00:39:29,630 --> 00:39:28,020

theory they fail a lot of tests in the

991

00:39:32,210 --> 00:39:29,640

lab a lot so there's not a lot of good

992

00:39:33,950 --> 00:39:32,220

backing for them and time travel from

993

00:39:35,450 --> 00:39:33,960

the future to the Past again there's not

994

00:39:37,430 --> 00:39:35,460

really a lot supporting that other than

995

00:39:38,930 --> 00:39:37,440

maybe in the quantum realm there's a

996

00:39:40,730 --> 00:39:38,940

little bit of backwards time travel I've

997

00:39:43,069 --> 00:39:40,740

written about that

998

00:39:47,329 --> 00:39:43,079

but yeah I think uh forwards time travel

999

00:39:48,829 --> 00:39:47,339

uh is uh not only uh valid it's real and

1000

00:39:49,849 --> 00:39:48,839

it's something that we'll probably do at

1001
00:39:52,250 --> 00:39:49,859
some point you know there will probably

1002
00:39:55,069 --> 00:39:52,260
be a point in the future where humans

1003
00:39:57,050 --> 00:39:55,079
are able to go fast enough that the idea

1004
00:39:59,630 --> 00:39:57,060
of hey do we want to send an astronaut

1005
00:40:02,390 --> 00:39:59,640
or astronauts into the future by sending

1006
00:40:04,010 --> 00:40:02,400
them in a really fast Arc for a year and

1007
00:40:07,370 --> 00:40:04,020
coming back to Earth

1008
00:40:08,990 --> 00:40:07,380
500 years from now and uh so it's you

1009
00:40:11,750 --> 00:40:09,000
know if we have visitors that are

1010
00:40:13,190 --> 00:40:11,760
non-human that people say oh well I'm

1011
00:40:15,170 --> 00:40:13,200
not sure if they're from another planet

1012
00:40:17,870 --> 00:40:15,180
or another time or another dimension

1013
00:40:20,290 --> 00:40:17,880

they could just be from the past

1014

00:40:22,490 --> 00:40:20,300

I've always said that also helps explain

1015

00:40:25,010 --> 00:40:22,500

multi-generational abductions when

1016

00:40:28,010 --> 00:40:25,020

people say why would a family 100 years

1017

00:40:30,109 --> 00:40:28,020

or 150 years of family lineage be so

1018

00:40:32,990 --> 00:40:30,119

interesting to another species or an

1019

00:40:35,030 --> 00:40:33,000

advanced species if for them that 150

1020

00:40:37,130 --> 00:40:35,040

years was 10 minutes that they were

1021

00:40:39,170 --> 00:40:37,140

dropping into Chris's father and Chris's

1022

00:40:40,790 --> 00:40:39,180

father's father and then Chris and then

1023

00:40:42,829 --> 00:40:40,800

you know I hope not that your kids and

1024

00:40:45,050 --> 00:40:42,839

and down the line for them that could

1025

00:40:47,050 --> 00:40:45,060

just be a small amount of time but for

1026

00:40:49,790 --> 00:40:47,060

us it was hundreds of years

1027

00:40:52,250 --> 00:40:49,800

absolutely yeah no but yeah I completely

1028

00:40:54,589 --> 00:40:52,260

agree and I I do think

1029

00:40:57,530 --> 00:40:54,599

I'm not a I'm not a big believer in the

1030

00:40:59,329 --> 00:40:57,540

abduction phenomenon just because of you

1031

00:41:01,310 --> 00:40:59,339

know there have been too many Travis

1032

00:41:04,069 --> 00:41:01,320

Waltons and too many fake cases that

1033

00:41:07,370 --> 00:41:04,079

have come along that you know

1034

00:41:09,050 --> 00:41:07,380

showed nefarious intent uh I I had a

1035

00:41:11,390 --> 00:41:09,060

science fiction writer a fellow science

1036

00:41:13,190 --> 00:41:11,400

fiction writer tell me years ago that uh

1037

00:41:15,109 --> 00:41:13,200

if he didn't sell a novel he was going

1038

00:41:17,150 --> 00:41:15,119

to do a Whitley strieber right which was

1039

00:41:20,270 --> 00:41:17,160

Whitley was a science fiction writer who

1040

00:41:22,490 --> 00:41:20,280

didn't sell that well and uh and so he

1041

00:41:25,069 --> 00:41:22,500

said hey you know what if I write a real

1042

00:41:27,349 --> 00:41:25,079

science fiction so that's my take on him

1043

00:41:29,510 --> 00:41:27,359

but doesn't mean that's true or false

1044

00:41:31,010 --> 00:41:29,520

that's just my take on it but his whole

1045

00:41:32,150 --> 00:41:31,020

opinion which is totally fair you're

1046

00:41:33,950 --> 00:41:32,160

gonna lose your opinion don't worry

1047

00:41:35,930 --> 00:41:33,960

about that yeah and again that's what's

1048

00:41:37,430 --> 00:41:35,940

the where we're still at you know as I

1049

00:41:39,170 --> 00:41:37,440

think Mick West said about my story

1050

00:41:41,450 --> 00:41:39,180

yesterday it still lives in the low

1051
00:41:43,910 --> 00:41:41,460
information Zone and as much as I don't

1052
00:41:45,770 --> 00:41:43,920
like when people write snarky comments

1053
00:41:47,690 --> 00:41:45,780
or derisive comments and I commented

1054
00:41:49,130 --> 00:41:47,700
about that on Twitter because I do think

1055
00:41:51,349 --> 00:41:49,140
we're just people trying to understand

1056
00:41:53,210 --> 00:41:51,359
something here and I think that's the

1057
00:41:54,890 --> 00:41:53,220
the value of these scientists I'm

1058
00:41:57,109 --> 00:41:54,900
working with are trying to bring to this

1059
00:42:00,050 --> 00:41:57,119
and the yeah so the one thing I'll leave

1060
00:42:03,650 --> 00:42:00,060
people with is uh were interesting times

1061
00:42:06,410 --> 00:42:03,660
uh you know Andy with the

1062
00:42:08,810 --> 00:42:06,420
there's a lot of talk

1063
00:42:10,910 --> 00:42:08,820

I get this behind the scenes too and you

1064

00:42:13,190 --> 00:42:10,920

know the people I work at with at the

1065

00:42:15,589 --> 00:42:13,200

debrief there's a lot of talk of

1066

00:42:19,490 --> 00:42:15,599

whistleblowers lately there's a lot of

1067

00:42:22,430 --> 00:42:19,500

talk of Crash retrievals of reverse

1068

00:42:24,710 --> 00:42:22,440

engineering of uh I think Ross Coulter

1069

00:42:25,790 --> 00:42:24,720

calls it the program

1070

00:42:28,069 --> 00:42:25,800

um

1071

00:42:29,450 --> 00:42:28,079

and I think we're at a point where

1072

00:42:32,150 --> 00:42:29,460

something very interesting is going to

1073

00:42:34,670 --> 00:42:32,160

break with that and it's either gonna be

1074

00:42:37,130 --> 00:42:34,680

we're gonna get the list of these

1075

00:42:39,829 --> 00:42:37,140

whistleblower Witnesses and we're gonna

1076

00:42:41,510 --> 00:42:39,839

roll our eyes and go it's all here say

1077

00:42:43,190 --> 00:42:41,520

Witnesses it's all people saying well I

1078

00:42:45,589 --> 00:42:43,200

knew a guy who said he worked on the

1079

00:42:47,510 --> 00:42:45,599

program or I was in a building once and

1080

00:42:49,670 --> 00:42:47,520

somebody told me behind that door as a

1081

00:42:51,589 --> 00:42:49,680

saucer I didn't see it but you know

1082

00:42:54,230 --> 00:42:51,599

we're either going to find that

1083

00:42:57,530 --> 00:42:54,240

or we're gonna hear what the people are

1084

00:42:59,089 --> 00:42:57,540

claiming to us and to me and people I

1085

00:43:00,650 --> 00:42:59,099

talk to behind the scenes that that's

1086

00:43:01,970 --> 00:43:00,660

not what we're gonna hear that we're

1087

00:43:05,809 --> 00:43:01,980

gonna hear

1088

00:43:08,150 --> 00:43:05,819

I worked on it I had my hands on alien

1089

00:43:10,670 --> 00:43:08,160

craft my job was to attempt to reverse

1090

00:43:13,430 --> 00:43:10,680

engineer and in the article we wrote

1091

00:43:16,069 --> 00:43:13,440

about the O'Hare incident the reason my

1092

00:43:19,010 --> 00:43:16,079

guys Applied Physics said they didn't

1093

00:43:21,050 --> 00:43:19,020

think it was a human-made warp craft and

1094

00:43:23,329 --> 00:43:21,060

if it was a work craft it would have to

1095

00:43:25,910 --> 00:43:23,339

be non-human

1096

00:43:29,569 --> 00:43:25,920

is because Science and Technology are

1097

00:43:31,849 --> 00:43:29,579

incremental so that progress to a

1098

00:43:34,130 --> 00:43:31,859

full-blown work drive has a lot of steps

1099

00:43:36,530 --> 00:43:34,140

along the way and the handful of people

1100

00:43:38,390 --> 00:43:36,540

that are working on that science are all

1101
00:43:40,010 --> 00:43:38,400
people he and his team know I know a lot

1102
00:43:42,410 --> 00:43:40,020
of them too because I've written so many

1103
00:43:44,690 --> 00:43:42,420
Eric Lance and sunny white and all these

1104
00:43:46,790 --> 00:43:44,700
other people in the warp Community but

1105
00:43:49,609 --> 00:43:46,800
they look at technology and they look at

1106
00:43:52,069 --> 00:43:49,619
advancement and they say if it can do

1107
00:43:53,630 --> 00:43:52,079
this we didn't build it because we

1108
00:43:55,130 --> 00:43:53,640
didn't do the steps to you know people

1109
00:43:58,790 --> 00:43:55,140
talk about it all the time if you found

1110
00:44:01,670 --> 00:43:58,800
the 747 in the desert 3000 years ago

1111
00:44:03,470 --> 00:44:01,680
yeah the technology to make the seats

1112
00:44:05,750 --> 00:44:03,480
the technology to make the little

1113
00:44:07,910 --> 00:44:05,760

plastic knobs the technology to make all

1114

00:44:10,370 --> 00:44:07,920

the gauges the technology to refine the

1115

00:44:11,930 --> 00:44:10,380

fuel that it flew all those incremental

1116

00:44:15,109 --> 00:44:11,940

technologies that are all working

1117

00:44:17,030 --> 00:44:15,119

together for that thing to do so I think

1118

00:44:18,109 --> 00:44:17,040

we're at an interesting time where we

1119

00:44:19,670 --> 00:44:18,119

may

1120

00:44:21,829 --> 00:44:19,680

you know the bubble is going to burst

1121

00:44:24,170 --> 00:44:21,839

one way or the other either we're gonna

1122

00:44:26,690 --> 00:44:24,180

hear you guys aren't getting any of it

1123

00:44:28,970 --> 00:44:26,700

there's no disclosure no photos no

1124

00:44:30,589 --> 00:44:28,980

videos all the things that Elizondo and

1125

00:44:33,170 --> 00:44:30,599

melon and all these people have teased

1126
00:44:35,390 --> 00:44:33,180
Gary Nolan that oh there's better Harry

1127
00:44:37,130 --> 00:44:35,400
Reid it's all there he said all those

1128
00:44:39,230 --> 00:44:37,140
photos and videos all there

1129
00:44:41,210 --> 00:44:39,240
some of that is either going to come out

1130
00:44:42,950 --> 00:44:41,220
via and I don't think it's going to be

1131
00:44:44,329 --> 00:44:42,960
government I do think it will ultimately

1132
00:44:46,130 --> 00:44:44,339
be

1133
00:44:48,609 --> 00:44:46,140
a whistleblower

1134
00:44:50,870 --> 00:44:48,619
who worked on a crowd if it exists

1135
00:44:52,970 --> 00:44:50,880
standing in front of it that's what we

1136
00:44:55,130 --> 00:44:52,980
need we need a photo of an engineer

1137
00:44:55,910 --> 00:44:55,140
standing in front of a flying saucer

1138
00:44:58,069 --> 00:44:55,920

going

1139

00:45:00,170 --> 00:44:58,079

Tada and then he says here's a picture

1140

00:45:02,990 --> 00:45:00,180

of me 20 years ago when I worked on the

1141

00:45:04,910 --> 00:45:03,000

craft and I'm willing to name names say

1142

00:45:07,010 --> 00:45:04,920

where I work say the names of the other

1143

00:45:09,530 --> 00:45:07,020

scientists I work with the people who

1144

00:45:11,930 --> 00:45:09,540

paid my paycheck and all that so I think

1145

00:45:13,790 --> 00:45:11,940

we're at a point where that's going to

1146

00:45:15,589 --> 00:45:13,800

break one way or the other and I think

1147

00:45:17,569 --> 00:45:15,599

the negative people always ah we'll

1148

00:45:20,450 --> 00:45:17,579

never learn anything and the positive

1149

00:45:22,370 --> 00:45:20,460

people will say it's a matter of time I

1150

00:45:24,050 --> 00:45:22,380

think we don't know but we are in the

1151

00:45:26,450 --> 00:45:24,060

most interesting time of the UFO

1152

00:45:27,950 --> 00:45:26,460

phenomenon there's no doubt about it and

1153

00:45:29,630 --> 00:45:27,960

something's going to break one way or

1154

00:45:31,370 --> 00:45:29,640

the other so I'll I'll leave it at that

1155

00:45:32,990 --> 00:45:31,380

but everything I'm hearing Something's

1156

00:45:34,790 --> 00:45:33,000

Gonna Break I feel like we're within a

1157

00:45:36,710 --> 00:45:34,800

year or something break that is all for

1158

00:45:38,750 --> 00:45:36,720

this week's show thank you very much for

1159

00:45:40,550 --> 00:45:38,760

listening please remember to leave the

1160

00:45:43,430 --> 00:45:40,560

podcast out of you on your chosen

1161

00:45:45,170 --> 00:45:43,440

platform you can like retweet And

1162

00:45:47,270 --> 00:45:45,180

subscribe that would all be very much

1163

00:45:49,370 --> 00:45:47,280

appreciated the shows are being uploaded

1164

00:45:51,530 --> 00:45:49,380

onto YouTube as we speak more and more

1165

00:45:54,530 --> 00:45:51,540

you can sign up at patreon.com forward

1166

00:45:56,809 --> 00:45:54,540

slash that UFO podcast access shows ad

1167

00:45:59,089 --> 00:45:56,819

free as well please get in touch on

1168

00:46:02,150 --> 00:45:59,099

Twitter Facebook Instagram that UFO

1169

00:46:05,569 --> 00:46:02,160

podcast of course on Twitter it's at UFO

1170

00:46:07,190 --> 00:46:05,579

UAP am and again folks as always keep

1171

00:46:15,530 --> 00:46:07,200

looking up you never know what you might

1172

00:46:15,540 --> 00:46:35,040

champagne

1173

00:47:09,550 --> 00:46:51,790

[Music]

1174

00:47:09,560 --> 00:47:17,030

they thought this was noise
