

**SECRET
SPACE
UFOS
FASTWALKERS**

DARCY WEIR

1
00:00:04,190 --> 00:00:00,850

[Music]

2
00:00:06,020 --> 00:00:04,200

this is David Marler UFO researcher and

3
00:00:10,070 --> 00:00:06,030

you're listening to that UFO podcast

4
00:00:14,450 --> 00:00:12,290

everyone and welcome back to that uh UFO

5
00:00:17,029 --> 00:00:14,460

podcast my name is Andy and joining me

6
00:00:19,790 --> 00:00:17,039

for a bonus episode after last month's

7
00:00:22,849 --> 00:00:19,800

popular interview on a secret space UFOs

8
00:00:24,710 --> 00:00:22,859

Apollo 1-11 documentary I said I would

9
00:00:26,570 --> 00:00:24,720

get them back on to discuss his new Fast

10
00:00:28,310 --> 00:00:26,580

Walkers documentary and it's now been

11
00:00:29,929 --> 00:00:28,320

out for a couple of weeks I've already

12
00:00:31,250 --> 00:00:29,939

heard from some of you listeners who

13
00:00:33,110 --> 00:00:31,260

have checked out and you've really

14

00:00:35,690 --> 00:00:33,120

enjoyed it so it was no further Ado

15

00:00:38,389 --> 00:00:35,700

welcome back to the podcast star CBR hi

16

00:00:41,030 --> 00:00:38,399

Darcy okay I'm great how you doing Andy

17

00:00:42,889 --> 00:00:41,040

I'm very well uh listen let's get into

18

00:00:45,650 --> 00:00:42,899

this uh it seems like it came out

19

00:00:47,569 --> 00:00:45,660

quickly but we discussed it your

20

00:00:49,729 --> 00:00:47,579

previous documentary right before the

21

00:00:52,250 --> 00:00:49,739

new one was due to come out so like I

22

00:00:54,110 --> 00:00:52,260

say I wanted to get you straight back on

23

00:00:56,090 --> 00:00:54,120

um we did speak last month and we've

24

00:00:58,189 --> 00:00:56,100

covered our background uh in more detail

25

00:01:00,590 --> 00:00:58,199

then but just for anyone joining in this

26

00:01:02,689 --> 00:01:00,600

time uh what is your your background

27

00:01:05,630 --> 00:01:02,699

quickly Darcy and also why do you make

28

00:01:09,289 --> 00:01:05,640

documentaries about the UFO phenomenon

29

00:01:12,950 --> 00:01:09,299

my background uh you know I actually

30

00:01:18,649 --> 00:01:12,960

was studying film and video production

31

00:01:20,929 --> 00:01:18,659

as a younger lad and uh I ended up

32

00:01:24,109 --> 00:01:20,939

pursuing a career in I.T for a little

33

00:01:26,810 --> 00:01:24,119

while and then uh was Moonlighting as a

34

00:01:29,570 --> 00:01:26,820

filmmaker on the side and

35

00:01:31,730 --> 00:01:29,580

um I've always been interested in Fringe

36

00:01:34,910 --> 00:01:31,740

theories and in ideas that were not

37

00:01:38,210 --> 00:01:34,920

alone you know and um

38

00:01:40,190 --> 00:01:38,220

when I started documenting stories like

39

00:01:43,609 --> 00:01:40,200

this I started with some pretty zany

40

00:01:45,649 --> 00:01:43,619

ideas some pretty woo and Fringe

41

00:01:48,469 --> 00:01:45,659

thinking stuff

42

00:01:52,310 --> 00:01:48,479

um but I've made my way

43

00:01:54,770 --> 00:01:52,320

back to a very sort of Centrist way of

44

00:01:58,850 --> 00:01:54,780

looking this very objective way of

45

00:02:02,510 --> 00:01:58,860

looking at the UFO phenomenon and that's

46

00:02:03,770 --> 00:02:02,520

how I started looking into NASA and all

47

00:02:07,670 --> 00:02:03,780

these anomalies that have happened

48

00:02:09,469 --> 00:02:07,680

throughout space history to do with UFOs

49

00:02:11,869 --> 00:02:09,479

and um

50

00:02:13,729 --> 00:02:11,879

you know strange things happening in

51
00:02:16,610 --> 00:02:13,739
space and uh

52
00:02:19,250 --> 00:02:16,620
this recent documentary which kind of

53
00:02:21,470 --> 00:02:19,260
comes off the back of the Apollo era

54
00:02:23,570 --> 00:02:21,480
stuff that we were covering in in the

55
00:02:27,589 --> 00:02:23,580
last conversation we had it's called

56
00:02:30,589 --> 00:02:27,599
secret space UFO's fast Walkers uh

57
00:02:33,350 --> 00:02:30,599
because I really wanted to show that

58
00:02:37,790 --> 00:02:33,360
there are these there's a history

59
00:02:40,369 --> 00:02:37,800
of space-based UFO encounters that have

60
00:02:43,430 --> 00:02:40,379
happened in which the Air Force

61
00:02:45,009 --> 00:02:43,440
documented these anomalies as fast

62
00:02:49,009 --> 00:02:45,019
Walkers as

63
00:02:51,290 --> 00:02:49,019

UFOs or unidentified objects that are

64

00:02:53,509 --> 00:02:51,300

looking like they move around with

65

00:02:56,210 --> 00:02:53,519

intelligent control ping-ponging in

66

00:03:00,229 --> 00:02:56,220

outer space around our planet sometimes

67

00:03:02,449 --> 00:03:00,239

entering the Earth's atmosphere and then

68

00:03:06,530 --> 00:03:02,459

leaving and uh

69

00:03:09,170 --> 00:03:06,540

you know we we start from 1973 after the

70

00:03:13,430 --> 00:03:09,180

Apollo manned missions had finished in

71

00:03:15,530 --> 00:03:13,440

1972 And we we start to cover the space

72

00:03:19,430 --> 00:03:15,540

uh Skylab

73

00:03:23,330 --> 00:03:19,440

incident Skylab 3 the first manned space

74

00:03:27,729 --> 00:03:23,340

station in which uh we have astronauts

75

00:03:31,190 --> 00:03:27,739

like Al Bean that witness a massive red

76

00:03:33,290 --> 00:03:31,200

glowing object that was two to three

77

00:03:37,009 --> 00:03:33,300

miles from the space station following

78

00:03:41,630 --> 00:03:37,019

them over Africa and um you know it was

79

00:03:45,589 --> 00:03:41,640

a a nine minute encounter and we cover

80

00:03:48,170 --> 00:03:45,599

the fact that the Air Force and these

81

00:03:49,670 --> 00:03:48,180

deep space satellite systems like the

82

00:03:53,030 --> 00:03:49,680

DSP

83

00:03:55,550 --> 00:03:53,040

have been tracking fast Walkers and

84

00:03:59,330 --> 00:03:55,560

um space-based UFOs

85

00:04:04,070 --> 00:03:59,340

from the 1970s until now

86

00:04:06,530 --> 00:04:04,080

and uh NASA has been privy to a lot of

87

00:04:08,630 --> 00:04:06,540

this information they've uh had

88

00:04:12,410 --> 00:04:08,640

astronauts comment on the things that

89

00:04:16,310 --> 00:04:12,420

they've saw saw above Earth orbit

90

00:04:19,969 --> 00:04:16,320

um and they sometimes say we have an

91

00:04:22,210 --> 00:04:19,979

alien spacecraft under observance or we

92

00:04:25,370 --> 00:04:22,220

have a UFO we have an unidentified

93

00:04:28,189 --> 00:04:25,380

flying object and

94

00:04:31,310 --> 00:04:28,199

then we have videos and strange

95

00:04:34,790 --> 00:04:31,320

recordings that come from STS based

96

00:04:37,610 --> 00:04:34,800

missions and the ISS missions all

97

00:04:39,530 --> 00:04:37,620

throughout history leading up until now

98

00:04:44,409 --> 00:04:39,540

where look

99

00:04:48,530 --> 00:04:44,419

we're at the precipice of this May 31st

100

00:04:50,330 --> 00:04:48,540

2023 live report that NASA is going to

101
00:04:52,670 --> 00:04:50,340
give on

102
00:04:55,249 --> 00:04:52,680
UAP

103
00:04:57,590 --> 00:04:55,259
in our day in our time

104
00:05:00,110 --> 00:04:57,600
you have just summarized about half my

105
00:05:01,490 --> 00:05:00,120
questions and that very succinct uh that

106
00:05:03,170 --> 00:05:01,500
piece so again it was in a bit more

107
00:05:05,990 --> 00:05:03,180
detail and to go back to the beginning

108
00:05:08,629 --> 00:05:06,000
that the term fast Walker for many is a

109
00:05:10,310 --> 00:05:08,639
newer term maybe from 2017 onwards you

110
00:05:12,890 --> 00:05:10,320
know New York Times articles and such

111
00:05:15,230 --> 00:05:12,900
but like you see it goes back decades

112
00:05:17,030 --> 00:05:15,240
it's documented as going back decades 50

113
00:05:18,830 --> 00:05:17,040

years and I think that's a great

114

00:05:21,830 --> 00:05:18,840

argument when when people look at the

115

00:05:23,210 --> 00:05:21,840

Modern UFO phenomenon it's so easy to

116

00:05:25,070 --> 00:05:23,220

dismiss everything is drones

117

00:05:27,290 --> 00:05:25,080

everything's drones our secret military

118

00:05:29,270 --> 00:05:27,300

Tech and I don't doubt a lot of it

119

00:05:30,710 --> 00:05:29,280

probably will be but it's a great

120

00:05:32,450 --> 00:05:30,720

argument to say that you know we never

121

00:05:34,430 --> 00:05:32,460

had these kind of drones 50 years ago

122

00:05:35,870 --> 00:05:34,440

you couldn't walk into your local kind

123

00:05:38,510 --> 00:05:35,880

of hardware store and pick up a drone

124

00:05:41,330 --> 00:05:38,520

for 50 or 100 pounds whatever it might

125

00:05:43,070 --> 00:05:41,340

be you know for a cheap drawing uh these

126

00:05:46,129 --> 00:05:43,080

things were going at incredible speeds

127

00:05:47,689 --> 00:05:46,139

doing incredible things long before even

128

00:05:51,170 --> 00:05:47,699

our best technology could get anywhere

129

00:05:53,930 --> 00:05:51,180

near that weren't they yeah I mean if

130

00:05:57,830 --> 00:05:53,940

you're thinking about fast Walker cases

131

00:06:00,350 --> 00:05:57,840

where an object definitely not a drone

132

00:06:02,210 --> 00:06:00,360

or at least an earth-based drone I mean

133

00:06:04,550 --> 00:06:02,220

there's an argument that some of the

134

00:06:07,610 --> 00:06:04,560

UFOs we see out there might be

135

00:06:10,310 --> 00:06:07,620

technology that's observing us from a

136

00:06:13,430 --> 00:06:10,320

civilization or intelligence

137

00:06:15,170 --> 00:06:13,440

far far from here and that's the way

138

00:06:18,409 --> 00:06:15,180

that they're carrying out the beginning

139

00:06:21,110 --> 00:06:18,419

of their missions yeah

140

00:06:22,730 --> 00:06:21,120

I think when you look at the cases that

141

00:06:25,430 --> 00:06:22,740

I put down at the starting the

142

00:06:30,230 --> 00:06:25,440

documentary the uh

143

00:06:33,230 --> 00:06:30,240

s the DSP defense satellite program in

144

00:06:36,409 --> 00:06:33,240

which was launched in 1970s and finished

145

00:06:40,249 --> 00:06:36,419

in 1991. these were old satellite

146

00:06:43,550 --> 00:06:40,259

systems by today's standards that have

147

00:06:46,010 --> 00:06:43,560

Optical baffles on them so cameras they

148

00:06:49,129 --> 00:06:46,020

have infrared sensors and all radio

149

00:06:53,150 --> 00:06:49,139

radio and radar detectors and they

150

00:06:56,629 --> 00:06:53,160

traced uh objects that came from deep

151
00:06:58,730 --> 00:06:56,639
space for example 1984 one came and

152
00:07:02,570 --> 00:06:58,740
parked within a couple miles of the DSP

153
00:07:06,230 --> 00:07:02,580
system and stayed within earth orbit

154
00:07:08,629 --> 00:07:06,240
and then left and researchers like Ron

155
00:07:11,150 --> 00:07:08,639
regare were responsible for this

156
00:07:15,290 --> 00:07:11,160
information being pulled out of the

157
00:07:18,650 --> 00:07:15,300
company that manufactured the DSP system

158
00:07:22,490 --> 00:07:18,660
it's called aérojet in California

159
00:07:24,830 --> 00:07:22,500
and over that those decades those three

160
00:07:28,969 --> 00:07:24,840
decades in which they recorded all of

161
00:07:31,309 --> 00:07:28,979
these deep space objects coming to Earth

162
00:07:33,770 --> 00:07:31,319
there are hundreds

163
00:07:37,430 --> 00:07:33,780

of fast Walker incidents that were

164

00:07:41,029 --> 00:07:37,440

recorded by the DSP system and these are

165

00:07:42,830 --> 00:07:41,039

only being recorded as fast Walkers

166

00:07:44,749 --> 00:07:42,840

because they're the most relevant

167

00:07:47,629 --> 00:07:44,759

they're the most

168

00:07:51,950 --> 00:07:47,639

um logical to be something that's real

169

00:07:54,290 --> 00:07:51,960

and um if you think about that

170

00:07:56,210 --> 00:07:54,300

and and the history in which those

171

00:07:57,790 --> 00:07:56,220

happened

172

00:07:59,589 --> 00:07:57,800

this is

173

00:08:02,689 --> 00:07:59,599

earth-shattering groundbreaking

174

00:08:04,610 --> 00:08:02,699

territory but no one's really pretty to

175

00:08:07,550 --> 00:08:04,620

this information and it also lends one

176

00:08:10,670 --> 00:08:07,560

to think that the the defense satellite

177

00:08:12,469 --> 00:08:10,680

program was an operation of the dod the

178

00:08:16,249 --> 00:08:12,479

Department of Defense in the United

179

00:08:18,529 --> 00:08:16,259

States what else do they have you know

180

00:08:22,210 --> 00:08:18,539

and Christopher Mellon recently coming

181

00:08:25,909 --> 00:08:22,220

out after the Aero Congressional meeting

182

00:08:28,270 --> 00:08:25,919

saying that there is satellite imagery

183

00:08:31,550 --> 00:08:28,280

out there that is so high resolution

184

00:08:34,070 --> 00:08:31,560

pictures and videos of these objects

185

00:08:36,469 --> 00:08:34,080

interacting with Earth

186

00:08:39,350 --> 00:08:36,479

you know he wouldn't say that unless we

187

00:08:41,990 --> 00:08:39,360

had tons of this information

188

00:08:43,490 --> 00:08:42,000

and I think they do I think it was um

189

00:08:46,670 --> 00:08:43,500

alluded to and rumored a few different

190

00:08:48,590 --> 00:08:46,680

times I had some uh some members of the

191

00:08:50,630 --> 00:08:48,600

Nimitz Princeton incident on a round

192

00:08:53,030 --> 00:08:50,640

table Kevin Day PJ Hughes and Gary

193

00:08:55,190 --> 00:08:53,040

Vorhees a couple of years ago now and

194

00:08:56,750 --> 00:08:55,200

they were talking about if if those

195

00:08:58,610 --> 00:08:56,760

objects those Tech tacks that were

196

00:09:01,130 --> 00:08:58,620

coming now reigning in and they were on

197

00:09:02,810 --> 00:09:01,140

radar and the the radar ceiling was 80

198

00:09:05,810 --> 00:09:02,820

000 feet and they were coming in from

199

00:09:07,790 --> 00:09:05,820

orbit then it would make sense that any

200

00:09:09,949 --> 00:09:07,800

any systems that were based along the

201
00:09:11,449 --> 00:09:09,959
coast to track missiles coming in from

202
00:09:13,370 --> 00:09:11,459
you know outside the atmosphere outside

203
00:09:15,650 --> 00:09:13,380
orbit whatever the language would be

204
00:09:18,110 --> 00:09:15,660
would also have caught those on their

205
00:09:19,730 --> 00:09:18,120
systems and sensors too so it's likely

206
00:09:22,190 --> 00:09:19,740
there was some very good data captured

207
00:09:24,170 --> 00:09:22,200
even for those types of incidents by all

208
00:09:26,570 --> 00:09:24,180
types of sensors that weren't just out

209
00:09:29,389 --> 00:09:26,580
on those ships and like you say even

210
00:09:31,070 --> 00:09:29,399
even in orbit as well and that's the

211
00:09:32,449 --> 00:09:31,080
modern stuff and you can imagine how

212
00:09:34,550 --> 00:09:32,459
good that will be if we've got

213
00:09:37,670 --> 00:09:34,560

satellites going back like you're saying

214

00:09:40,250 --> 00:09:37,680

to the 70s that have been manufactured

215

00:09:44,090 --> 00:09:40,260

probably in the 60s that managed to

216

00:09:46,250 --> 00:09:44,100

capture good data on UFOs in orbit in

217

00:09:48,350 --> 00:09:46,260

space and I think there's a lot of junk

218

00:09:50,030 --> 00:09:48,360

floating about in space for sure there's

219

00:09:52,670 --> 00:09:50,040

a lot of misidentifications we hear

220

00:09:55,310 --> 00:09:52,680

about ice crystals being reported all of

221

00:09:57,769 --> 00:09:55,320

that stuff is up there but there is very

222

00:10:00,710 --> 00:09:57,779

clear footage or as clear as it can be

223

00:10:03,769 --> 00:10:00,720

of objects moving at PACE slowing down

224

00:10:06,170 --> 00:10:03,779

speeding up changing direction and and

225

00:10:07,730 --> 00:10:06,180

keeping Pace or keeping track with other

226

00:10:10,190 --> 00:10:07,740

objects in space as well isn't there

227

00:10:10,910 --> 00:10:10,200

there's a lot of that tons

228

00:10:14,090 --> 00:10:10,920

um

229

00:10:16,310 --> 00:10:14,100

you know in the film we pick up after

230

00:10:18,470 --> 00:10:16,320

the Tehran incident which we try to

231

00:10:20,570 --> 00:10:18,480

document really well uh which was

232

00:10:24,410 --> 00:10:20,580

another fast Walker tracking that the

233

00:10:26,870 --> 00:10:24,420

Tehran UFO which ended up being two UFOs

234

00:10:30,350 --> 00:10:26,880

kind of terrorizing this Iranian City

235

00:10:32,110 --> 00:10:30,360

the capital city of the country uh you

236

00:10:35,750 --> 00:10:32,120

know hundreds thousands of people

237

00:10:38,810 --> 00:10:35,760

witnessing this Mass witness event and

238

00:10:41,449 --> 00:10:38,820

the Air Force recorded the American Air

239

00:10:43,370 --> 00:10:41,459

Force reportedly going over and actually

240

00:10:46,370 --> 00:10:43,380

debriefing and finding out what really

241

00:10:49,069 --> 00:10:46,380

happened and saying to the Iranians

242

00:10:51,949 --> 00:10:49,079

this is not ours this does not look like

243

00:10:53,389 --> 00:10:51,959

any technology that we know of on the

244

00:10:54,110 --> 00:10:53,399

planet

245

00:10:56,090 --> 00:10:54,120

um

246

00:10:59,090 --> 00:10:56,100

really interesting and then we go off

247

00:11:01,430 --> 00:10:59,100

the back of that to the STS missions and

248

00:11:04,730 --> 00:11:01,440

how that started up in the 1980s and

249

00:11:07,069 --> 00:11:04,740

went through to the thousands and

250

00:11:09,410 --> 00:11:07,079

all of the scientific implications of

251
00:11:12,350 --> 00:11:09,420
those missions because they were uh

252
00:11:15,470 --> 00:11:12,360
fantastic scientific Innovations for

253
00:11:19,190 --> 00:11:15,480
mankind and testing out things in in

254
00:11:21,590 --> 00:11:19,200
space uh for NASA but there were all

255
00:11:23,750 --> 00:11:21,600
these anomalies and objects that were

256
00:11:26,090 --> 00:11:23,760
recorded and reported on by the

257
00:11:28,670 --> 00:11:26,100
astronauts we talked about these voice

258
00:11:31,190 --> 00:11:28,680
recordings that we got from uh certain

259
00:11:34,970 --> 00:11:31,200
astronauts saying things on these

260
00:11:37,970 --> 00:11:34,980
Mission days during the STS missions and

261
00:11:41,710 --> 00:11:37,980
you know we start back at STS 29 where

262
00:11:45,290 --> 00:11:41,720
John Blaha is reportedly

263
00:11:49,370 --> 00:11:45,300

recorded saying we have an alien

264

00:11:50,930 --> 00:11:49,380

spacecraft under observance yep

265

00:11:53,810 --> 00:11:50,940

what the heck

266

00:11:55,730 --> 00:11:53,820

but uh you know Dr Jack Kasher who

267

00:11:58,490 --> 00:11:55,740

covered that with Dawn ratch the

268

00:12:01,490 --> 00:11:58,500

investigator who recorded that

269

00:12:03,710 --> 00:12:01,500

um you know because the thing is

270

00:12:05,930 --> 00:12:03,720

a lot of people are space enthusiasts

271

00:12:09,710 --> 00:12:05,940

there's many people that still watch the

272

00:12:12,350 --> 00:12:09,720

NASA uh live stream downlink footage and

273

00:12:14,150 --> 00:12:12,360

look for anomalies and stuff and and

274

00:12:15,590 --> 00:12:14,160

look at all their missions and stuff

275

00:12:18,710 --> 00:12:15,600

they're carrying out

276

00:12:21,889 --> 00:12:18,720

um and look at the fervor and interest

277

00:12:25,250 --> 00:12:21,899

in the public of SpaceX people just love

278

00:12:27,230 --> 00:12:25,260

space I we're ready to go you know if it

279

00:12:30,110 --> 00:12:27,240

becomes affordable and we can travel to

280

00:12:32,210 --> 00:12:30,120

space people will be doing it

281

00:12:35,050 --> 00:12:32,220

um that is

282

00:12:38,269 --> 00:12:35,060

an incredible new

283

00:12:40,610 --> 00:12:38,279

foreign territory for us all to get off

284

00:12:42,610 --> 00:12:40,620

planet and not everybody gets to do it

285

00:12:45,410 --> 00:12:42,620

and the people that have been privy to

286

00:12:48,290 --> 00:12:45,420

have witnessed really strange things

287

00:12:51,050 --> 00:12:48,300

when they have and we document in this

288

00:12:54,350 --> 00:12:51,060

documentary so many of these incidents

289

00:12:58,090 --> 00:12:54,360

where astronauts talk about and see and

290

00:13:03,949 --> 00:12:58,100

examine things and so we go from STS 29

291

00:13:05,750 --> 00:13:03,959

to STS 51 where we see this orb this

292

00:13:08,750 --> 00:13:05,760

metallic looking sphere that just kind

293

00:13:11,690 --> 00:13:08,760

of floats into view and it looks like

294

00:13:15,230 --> 00:13:11,700

it's analyzing what the astronaut is

295

00:13:16,790 --> 00:13:15,240

doing on the spacewalk retrieving a

296

00:13:22,970 --> 00:13:16,800

satellite

297

00:13:26,810 --> 00:13:22,980

them were launched on that mission

298

00:13:29,509 --> 00:13:26,820

and what we really find in these

299

00:13:33,590 --> 00:13:29,519

missions these STS videos which are

300

00:13:38,449 --> 00:13:33,600

recorded on space cameras that you know

301
00:13:40,190 --> 00:13:38,459
are extremely high tech extremely

302
00:13:42,829 --> 00:13:40,200
um

303
00:13:47,629 --> 00:13:42,839
robust camera systems that have to

304
00:13:50,750 --> 00:13:47,639
withstand the extreme environment of

305
00:13:54,910 --> 00:13:50,760
space right so extremely cold

306
00:13:57,470 --> 00:13:54,920
temperatures uh radiation exposure

307
00:13:59,750 --> 00:13:57,480
unfiltered light coming directly from

308
00:14:03,949 --> 00:13:59,760
the sun because there's no atmosphere to

309
00:14:07,250 --> 00:14:03,959
filter that stuff which were pretty too

310
00:14:10,069 --> 00:14:07,260
and they're shooting in a light spectrum

311
00:14:12,949 --> 00:14:10,079
often that cannot be seen by the human

312
00:14:14,269 --> 00:14:12,959
eye and I kind of relate to that in the

313
00:14:17,810 --> 00:14:14,279

film

314

00:14:21,050 --> 00:14:17,820

um to the Tic Tac or the Nimitz uh go

315

00:14:23,090 --> 00:14:21,060

fast gimbal UFO videos which you know

316

00:14:24,949 --> 00:14:23,100

you were talking about Kevin day they

317

00:14:28,610 --> 00:14:24,959

were saying that these objects came from

318

00:14:31,370 --> 00:14:28,620

above 80 000 you know feet so what's

319

00:14:36,009 --> 00:14:31,380

above that space right so maybe some of

320

00:14:41,269 --> 00:14:36,019

these objects are fast Walkers they did

321

00:14:43,250 --> 00:14:41,279

originate from space environments and

322

00:14:45,170 --> 00:14:43,260

that means that we have space agencies

323

00:14:48,790 --> 00:14:45,180

and satellites recording this stuff and

324

00:14:50,930 --> 00:14:48,800

with the STS missions they record in Far

325

00:14:54,290 --> 00:14:50,940

ultraviolet light

326

00:14:56,930 --> 00:14:54,300

Spectrum cameras which civilians usually

327

00:14:59,210 --> 00:14:56,940

don't even have that technology but NASA

328

00:15:03,230 --> 00:14:59,220

does and they're all over the craft

329

00:15:07,009 --> 00:15:03,240

they're Laden within the the uh NASA

330

00:15:10,069 --> 00:15:07,019

payload Bays on the multiple crafts that

331

00:15:13,430 --> 00:15:10,079

they have Atlantis Discovery Endeavor

332

00:15:16,009 --> 00:15:13,440

Columbia obviously two of those blew up

333

00:15:17,090 --> 00:15:16,019

uh Challenger was one of them that

334

00:15:19,009 --> 00:15:17,100

exploded

335

00:15:23,569 --> 00:15:19,019

um

336

00:15:26,569 --> 00:15:23,579

know led to loss of life and it's sad

337

00:15:28,970 --> 00:15:26,579

but these vehicles were high-tech they

338

00:15:31,970 --> 00:15:28,980

had amazing camera systems and they

339

00:15:34,850 --> 00:15:31,980

recorded all kinds of anomalies and in

340

00:15:38,150 --> 00:15:34,860

this documentary we're breaking down

341

00:15:41,870 --> 00:15:38,160

um you know the footage what happened

342

00:15:44,090 --> 00:15:41,880

throughout many decades of building the

343

00:15:46,730 --> 00:15:44,100

space station because really the STS

344

00:15:49,910 --> 00:15:46,740

missions their main goal was to launch

345

00:15:52,610 --> 00:15:49,920

satellites both military and

346

00:15:54,430 --> 00:15:52,620

um you know government satellites

347

00:15:57,889 --> 00:15:54,440

as well as

348

00:16:00,350 --> 00:15:57,899

outfitting and delivering new modules to

349

00:16:03,650 --> 00:16:00,360

build the ISS the International Space

350

00:16:06,410 --> 00:16:03,660

Station with those massive payload Bays

351
00:16:08,810 --> 00:16:06,420
would open up and they could take huge

352
00:16:10,850 --> 00:16:08,820
objects out of that

353
00:16:12,170 --> 00:16:10,860
and you mentioned just before we get

354
00:16:14,530 --> 00:16:12,180
enough other you mentioned a few

355
00:16:17,329 --> 00:16:14,540
different obviously uh incidents before

356
00:16:18,829 --> 00:16:17,339
Skylab what interested me with that one

357
00:16:20,629 --> 00:16:18,839
not just the instant but the language

358
00:16:23,090 --> 00:16:20,639
that was used by the astronauts I've got

359
00:16:24,410 --> 00:16:23,100
the quote was it was a satellite there

360
00:16:26,150 --> 00:16:24,420
were satellites like you would see on

361
00:16:28,430 --> 00:16:26,160
Earth and there's also satellites like

362
00:16:30,170 --> 00:16:28,440
you wouldn't see on Earth kind of

363
00:16:31,790 --> 00:16:30,180

dancing around the terminology and you

364

00:16:34,610 --> 00:16:31,800

hear that at times don't you almost like

365

00:16:36,470 --> 00:16:34,620

they're not sure what to say especially

366

00:16:38,689 --> 00:16:36,480

in some of those earlier missions where

367

00:16:41,150 --> 00:16:38,699

obviously you mentioned John Blaha who

368

00:16:43,370 --> 00:16:41,160

uses alien spacecraft is terminology but

369

00:16:44,749 --> 00:16:43,380

that is Skylab one where it's like

370

00:16:46,790 --> 00:16:44,759

there's a satellite like you would say

371

00:16:48,829 --> 00:16:46,800

on Earth but there's a satellite like

372

00:16:51,949 --> 00:16:48,839

you wouldn't see on Earth

373

00:16:54,170 --> 00:16:51,959

and that's it dancing around it's really

374

00:16:59,170 --> 00:16:54,180

interesting to me well what we try to

375

00:17:00,829 --> 00:16:59,180

document to in in this film is that

376

00:17:02,509 --> 00:17:00,839

obviously

377

00:17:04,549 --> 00:17:02,519

there needs to be some kind of

378

00:17:07,850 --> 00:17:04,559

coordination from NASA and their

379

00:17:11,090 --> 00:17:07,860

astronauts to be very cryptic and speak

380

00:17:13,909 --> 00:17:11,100

in a coded way when when dealing with

381

00:17:15,350 --> 00:17:13,919

public information regarding UFOs

382

00:17:18,230 --> 00:17:15,360

so

383

00:17:20,929 --> 00:17:18,240

um you you gave that example from 1973

384

00:17:23,390 --> 00:17:20,939

but we see all throughout the STS

385

00:17:24,230 --> 00:17:23,400

missions they say things like we have a

386

00:17:25,309 --> 00:17:24,240

fire

387

00:17:28,309 --> 00:17:25,319

right

388

00:17:29,990 --> 00:17:28,319

and then researchers or people that are

389

00:17:32,210 --> 00:17:30,000

listening to this or like there's a fire

390

00:17:33,890 --> 00:17:32,220

what you know if there's a fire on the

391

00:17:36,230 --> 00:17:33,900

space station that would be very

392

00:17:38,510 --> 00:17:36,240

distressing and you would hear all kinds

393

00:17:40,250 --> 00:17:38,520

of conversation back and forth between

394

00:17:42,529 --> 00:17:40,260

Ground Control and the astronauts right

395

00:17:45,890 --> 00:17:42,539

after but then there's a big dead space

396

00:17:47,049 --> 00:17:45,900

and later on you hear we have a UFO we

397

00:17:51,890 --> 00:17:47,059

have a

398

00:17:55,610 --> 00:17:51,900

unidentified uh or whatever but often a

399

00:17:58,430 --> 00:17:55,620

code word they'll say is like uh ice

400

00:18:01,850 --> 00:17:58,440

crystals right because that gives them

401
00:18:04,789 --> 00:18:01,860
an easy out to debunk what was caught on

402
00:18:08,390 --> 00:18:04,799
camera as ice crystals

403
00:18:09,950 --> 00:18:08,400
literally and and uh somebody who haunts

404
00:18:11,870 --> 00:18:09,960
me and follows me around he's probably

405
00:18:14,210 --> 00:18:11,880
in the comments from the last podcast

406
00:18:17,029 --> 00:18:14,220
That You released in which we had our

407
00:18:20,450 --> 00:18:17,039
interview about Apollo 1 to 11.

408
00:18:23,390 --> 00:18:20,460
um you'll find Jim oberg haunting the

409
00:18:26,750 --> 00:18:23,400
comments who's a former NASA employee

410
00:18:29,930 --> 00:18:26,760
and he came up with the thesis that what

411
00:18:33,590 --> 00:18:29,940
we're seeing in these videos is just ice

412
00:18:35,750 --> 00:18:33,600
space junk or other debris but it can't

413
00:18:37,610 --> 00:18:35,760

be in all the cases because especially

414

00:18:41,110 --> 00:18:37,620

when we look at these videos that he

415

00:18:44,210 --> 00:18:41,120

says that is you literally see objects

416

00:18:46,930 --> 00:18:44,220

descending down towards the Earth then

417

00:18:50,750 --> 00:18:46,940

going up above the Earth's Horizon

418

00:18:53,210 --> 00:18:50,760

moving into formations like a circle uh

419

00:18:56,029 --> 00:18:53,220

like space ice doesn't do that there's

420

00:18:58,610 --> 00:18:56,039

no way and Dr Jack Kasher a physicist

421

00:19:00,830 --> 00:18:58,620

and former NASA employee as well

422

00:19:04,789 --> 00:19:00,840

has been very argumentative with Jim

423

00:19:08,690 --> 00:19:04,799

oberg over his blanket statement that

424

00:19:10,070 --> 00:19:08,700

this is all just prosaic stuff

425

00:19:13,669 --> 00:19:10,080

so

426
00:19:15,650 --> 00:19:13,679
what NASA does to cover it up often with

427
00:19:17,630 --> 00:19:15,660
the astronauts so

428
00:19:19,190 --> 00:19:17,640
if you look at one of the later missions

429
00:19:22,789 --> 00:19:19,200
that we break down

430
00:19:26,990 --> 00:19:25,310
there's two different astronauts that

431
00:19:30,470 --> 00:19:27,000
report

432
00:19:35,930 --> 00:19:30,480
this UFO that seems to be flying in

433
00:19:37,310 --> 00:19:35,940
formation that's definitely not metallic

434
00:19:40,490 --> 00:19:37,320
uh

435
00:19:41,870 --> 00:19:40,500
possibly fabric

436
00:19:47,570 --> 00:19:41,880
in

437
00:19:50,330 --> 00:19:47,580
right a male voice says that and a

438
00:19:54,289 --> 00:19:50,340

female voice and they read it really

439

00:19:56,770 --> 00:19:54,299

slowly as if it is some kind of script

440

00:20:01,370 --> 00:19:56,780

that they are trying to

441

00:20:02,810 --> 00:20:01,380

relay information to Capcom or to

442

00:20:04,970 --> 00:20:02,820

Houston

443

00:20:07,190 --> 00:20:04,980

without giving away to the public on

444

00:20:10,310 --> 00:20:07,200

that channel that

445

00:20:12,470 --> 00:20:10,320

there is a metallic object yeah flying

446

00:20:15,710 --> 00:20:12,480

in formation over the shuttle and they

447

00:20:18,650 --> 00:20:15,720

don't know what it is you know so

448

00:20:21,289 --> 00:20:18,660

I think it's this cryptic code word

449

00:20:24,169 --> 00:20:21,299

methodology

450

00:20:26,450 --> 00:20:24,179

um that they they've been employing to

451

00:20:29,690 --> 00:20:26,460

cover up what they're seeing and fast

452

00:20:31,669 --> 00:20:29,700

Walkers is a code word you know UAP is a

453

00:20:34,490 --> 00:20:31,679

code word code words are always going to

454

00:20:37,330 --> 00:20:34,500

be in play when it comes to research and

455

00:20:40,970 --> 00:20:37,340

intelligence agencies that are

456

00:20:43,010 --> 00:20:40,980

strictly linked like NASA and the

457

00:20:45,409 --> 00:20:43,020

intelligence and defense agencies are

458

00:20:47,510 --> 00:20:45,419

linked they always have been

459

00:20:50,150 --> 00:20:47,520

um they're going to use code words and

460

00:20:52,490 --> 00:20:50,160

and uh you know I think we were talking

461

00:20:54,470 --> 00:20:52,500

about these space cameras before one

462

00:20:56,630 --> 00:20:54,480

thing I can say about the space cameras

463

00:21:00,049 --> 00:20:56,640

is that whenever we see this footage

464

00:21:01,570 --> 00:21:00,059

it's very often we see the same behavior

465

00:21:04,850 --> 00:21:01,580

of NASA

466

00:21:08,150 --> 00:21:04,860

recording these anomalies and sometimes

467

00:21:12,350 --> 00:21:08,160

quickly cutting the feed yep

468

00:21:15,470 --> 00:21:12,360

changing the camera uh direction to stop

469

00:21:17,570 --> 00:21:15,480

observing that object which you know any

470

00:21:18,710 --> 00:21:17,580

logical person would think why are they

471

00:21:21,890 --> 00:21:18,720

not

472

00:21:24,590 --> 00:21:21,900

like zooming in on it in some Mission

473

00:21:26,690 --> 00:21:24,600

footage we have seen them zoom in on the

474

00:21:28,669 --> 00:21:26,700

UFOs so they might have made a boo-boo

475

00:21:31,430 --> 00:21:28,679

and not followed the standard procedures

476
00:21:34,610 --> 00:21:31,440
but they also change to other cameras

477
00:21:36,110 --> 00:21:34,620
that don't have anything being recorded

478
00:21:38,690 --> 00:21:36,120
on them

479
00:21:42,470 --> 00:21:38,700
um and what

480
00:21:44,570 --> 00:21:42,480
Jeff Challenger an early NASA space

481
00:21:46,970 --> 00:21:44,580
footage researcher had done a UFO

482
00:21:51,710 --> 00:21:46,980
researcher

483
00:21:55,130 --> 00:21:51,720
he had realized that NASA had been

484
00:21:58,669 --> 00:21:55,140
putting a video filter basically adding

485
00:22:01,130 --> 00:21:58,679
Distortion over top of their clean Space

486
00:22:04,430 --> 00:22:01,140
video feed

487
00:22:07,130 --> 00:22:04,440
whenever they were recording stuff in in

488
00:22:09,049 --> 00:22:07,140

space yeah and that's that's another

489

00:22:11,590 --> 00:22:09,059

tactic too because then you can say oh

490

00:22:15,409 --> 00:22:11,600

you know it was just part of a video

491

00:22:19,250 --> 00:22:15,419

artifact or Distortion if people want to

492

00:22:21,950 --> 00:22:19,260

argue hey what was that on the footage

493

00:22:23,690 --> 00:22:21,960

do you know what the ace Crystal stuff I

494

00:22:26,450 --> 00:22:23,700

get sometimes that no doubt will be

495

00:22:27,890 --> 00:22:26,460

space junk absolutely there's loads of

496

00:22:29,810 --> 00:22:27,900

stuff in the atmosphere we see those

497

00:22:31,310 --> 00:22:29,820

images not even of satellites and where

498

00:22:33,110 --> 00:22:31,320

they are positioned around the earth and

499

00:22:34,310 --> 00:22:33,120

it's like it's a junkyard up there now

500

00:22:35,090 --> 00:22:34,320

as well

501
00:22:37,730 --> 00:22:35,100
um

502
00:22:42,470 --> 00:22:37,740
the tieran incident for example 1974

503
00:22:46,130 --> 00:22:42,480
like you say loads 1976 I believe

504
00:22:48,230 --> 00:22:46,140
we'll split the difference uh but if the

505
00:22:50,990 --> 00:22:48,240
pilots tried to shut down essentially a

506
00:22:53,570 --> 00:22:51,000
UFO and they lost their comms systems

507
00:22:55,730 --> 00:22:53,580
were garbled a smaller UFO come out of a

508
00:22:56,990 --> 00:22:55,740
larger object uh nothing happened when

509
00:23:00,049 --> 00:22:57,000
they tried to shut it down they couldn't

510
00:23:02,570 --> 00:23:00,059
even eject from their plane

511
00:23:04,130 --> 00:23:02,580
um that clearly wasn't a big Ice Crystal

512
00:23:05,930 --> 00:23:04,140
with a smaller lace Crystal coming out

513
00:23:08,750 --> 00:23:05,940

of it you mentioned the DSP satellite

514

00:23:10,909 --> 00:23:08,760

even picked up an infrared so there was

515

00:23:12,950 --> 00:23:10,919

Data backing it up as well there was a

516

00:23:14,029 --> 00:23:12,960

solid object and it was chased it was

517

00:23:16,789 --> 00:23:14,039

witnessed

518

00:23:19,610 --> 00:23:16,799

I I get though there must be times and

519

00:23:21,770 --> 00:23:19,620

I've seen loads of those incidents where

520

00:23:24,409 --> 00:23:21,780

the the NASA footage is filming a

521

00:23:26,450 --> 00:23:24,419

portion of the the ISS or some kind of

522

00:23:28,549 --> 00:23:26,460

portion of space and the camera points

523

00:23:30,409 --> 00:23:28,559

down and points away and zooms back and

524

00:23:32,870 --> 00:23:30,419

moves out of because some things came

525

00:23:35,750 --> 00:23:32,880

into range there are times though and

526

00:23:37,430 --> 00:23:35,760

I'm sure you'll agree maybe the US is a

527

00:23:40,370 --> 00:23:37,440

spy satellite or China has a spy

528

00:23:42,289 --> 00:23:40,380

satellite and that comes into view but

529

00:23:44,149 --> 00:23:42,299

that's not always the case and it's

530

00:23:46,610 --> 00:23:44,159

those interesting cases like you say

531

00:23:48,169 --> 00:23:46,620

where something shuts off or like you

532

00:23:51,350 --> 00:23:48,179

say you've got the footage where the

533

00:23:53,270 --> 00:23:51,360

circular objects form a circle and then

534

00:23:55,549 --> 00:23:53,280

another one comes into the middle and

535

00:23:57,350 --> 00:23:55,559

they're all staying still against the

536

00:23:59,210 --> 00:23:57,360

image of the camera and it starts

537

00:24:01,610 --> 00:23:59,220

lighting up and and it's not lighting

538

00:24:02,570 --> 00:24:01,620

anymore that's some fascinating stuff

539

00:24:03,890 --> 00:24:02,580

and

540

00:24:05,870 --> 00:24:03,900

I know we're going to get to talking

541

00:24:08,810 --> 00:24:05,880

about the the NASA study coming up as

542

00:24:11,390 --> 00:24:08,820

well but NASA's archive must be filled

543

00:24:13,490 --> 00:24:11,400

with with that kind of footage as well

544

00:24:15,649 --> 00:24:13,500

um and you must think what what have

545

00:24:18,710 --> 00:24:15,659

they managed to not have on there

546

00:24:19,730 --> 00:24:18,720

that we've not seen yeah

547

00:24:23,270 --> 00:24:19,740

um

548

00:24:26,810 --> 00:24:23,280

like what people have to realize too

549

00:24:28,450 --> 00:24:26,820

with these space cameras is that

550

00:24:32,149 --> 00:24:28,460

um

551
00:24:35,690 --> 00:24:32,159
they are recording all kinds of stuff to

552
00:24:39,590 --> 00:24:35,700
the NASA downlink and

553
00:24:42,169 --> 00:24:39,600
also on the space station and inside of

554
00:24:45,710 --> 00:24:42,179
the STS space shuttles

555
00:24:48,770 --> 00:24:45,720
um they have tons of high-powered

556
00:24:51,110 --> 00:24:48,780
cameras like Nikon cameras with amazing

557
00:24:53,149 --> 00:24:51,120
zoom lenses that the astronauts are

558
00:24:55,430 --> 00:24:53,159
taking photos and taking video

559
00:24:57,710 --> 00:24:55,440
recordings with and you know back in the

560
00:25:00,529 --> 00:24:57,720
day they even had camcorders you know

561
00:25:02,930 --> 00:25:00,539
big old like shoulder things

562
00:25:06,110 --> 00:25:02,940
so they're heavily outfitted with

563
00:25:10,250 --> 00:25:06,120

cameras where does all that data go you

564

00:25:13,070 --> 00:25:10,260

know that comes back to Earth and

565

00:25:15,350 --> 00:25:13,080

it is probably gone through by somebody

566

00:25:18,289 --> 00:25:15,360

at Nasa and

567

00:25:22,130 --> 00:25:18,299

I don't I I don't understand why NASA

568

00:25:25,370 --> 00:25:22,140

doesn't have a if it's truly just a

569

00:25:27,830 --> 00:25:25,380

public civilian research agency why

570

00:25:30,830 --> 00:25:27,840

isn't there an archive for every single

571

00:25:33,049 --> 00:25:30,840

second of that space footage that's been

572

00:25:35,510 --> 00:25:33,059

recorded from all the shuttle missions

573

00:25:37,370 --> 00:25:35,520

and the ISS missions is because

574

00:25:39,409 --> 00:25:37,380

some of that information needs to be

575

00:25:41,750 --> 00:25:39,419

safeguarded some of the stuff that's

576

00:25:45,769 --> 00:25:41,760

being recorded on it for sure

577

00:25:48,289 --> 00:25:45,779

might be foreign intelligence craft

578

00:25:52,070 --> 00:25:48,299

spy satellites

579

00:25:54,769 --> 00:25:52,080

um and in some cases UFOs from another

580

00:25:56,210 --> 00:25:54,779

origin and uh

581

00:25:58,370 --> 00:25:56,220

they're worried about that information

582

00:26:00,230 --> 00:25:58,380

being public so they keep it to

583

00:26:02,930 --> 00:26:00,240

themselves

584

00:26:07,370 --> 00:26:02,940

um it's it's also interesting if you

585

00:26:10,850 --> 00:26:07,380

think about just space in terms of these

586

00:26:14,950 --> 00:26:10,860

objects and how they move so the space

587

00:26:17,450 --> 00:26:14,960

station moves at 17

588

00:26:20,810 --> 00:26:17,460

150 miles per hour

589

00:26:22,970 --> 00:26:20,820

okay uh which is about

590

00:26:25,430 --> 00:26:22,980

five miles per second

591

00:26:28,130 --> 00:26:25,440

and if you're thinking of observations

592

00:26:30,289 --> 00:26:28,140

or videos being recorded by the space

593

00:26:34,070 --> 00:26:30,299

shuttle I think it it moves at around

594

00:26:36,710 --> 00:26:34,080

you know 14 000 to 17 000 miles per hour

595

00:26:39,710 --> 00:26:36,720

as well and

596

00:26:41,450 --> 00:26:39,720

you basically have objects that are

597

00:26:44,690 --> 00:26:41,460

moving past

598

00:26:47,450 --> 00:26:44,700

these the shuttle or the space station

599

00:26:50,990 --> 00:26:47,460

doing right angle turns

600

00:26:54,110 --> 00:26:51,000

um you know sometimes even stopping on a

601
00:26:56,269 --> 00:26:54,120
dime and moving into formation

602
00:26:59,930 --> 00:26:56,279
that has to be intelligently controlled

603
00:27:02,750 --> 00:26:59,940
that can't be just a prosaic object like

604
00:27:03,830 --> 00:27:02,760
Ice Space debris or junk

605
00:27:08,810 --> 00:27:03,840
um

606
00:27:11,510 --> 00:27:08,820
and uh and yeah I mean we were you were

607
00:27:13,610 --> 00:27:11,520
asking before like what else do they

608
00:27:15,409 --> 00:27:13,620
have that's what everybody's curious

609
00:27:19,430 --> 00:27:15,419
about and and

610
00:27:21,470 --> 00:27:19,440
um I wonder what this UAP research panel

611
00:27:24,649 --> 00:27:21,480
really was

612
00:27:28,130 --> 00:27:24,659
after and what they've been doing uh the

613
00:27:31,610 --> 00:27:28,140

15 scientists that were hired to look

614

00:27:34,190 --> 00:27:31,620

after and do a report on UAP

615

00:27:36,890 --> 00:27:34,200

uh when you listen to

616

00:27:38,269 --> 00:27:36,900

uh Sean Kirkpatrick who's the director

617

00:27:41,570 --> 00:27:38,279

of Vero

618

00:27:44,510 --> 00:27:41,580

he seems to say none of this seems to be

619

00:27:48,350 --> 00:27:44,520

anomalous enough to be like of ET origin

620

00:27:53,269 --> 00:27:48,360

right but he does hand pass the buck off

621

00:27:56,169 --> 00:27:53,279

to NASA and he does in some Reports say

622

00:27:57,830 --> 00:27:56,179

that NASA has

623

00:28:00,830 --> 00:27:57,840

more

624

00:28:02,730 --> 00:28:00,840

information than we have

625

00:28:04,730 --> 00:28:02,740

on these UAP

626
00:28:08,090 --> 00:28:04,740
[Music]

627
00:28:11,269 --> 00:28:08,100
issues and UAP reports

628
00:28:14,690 --> 00:28:11,279
what do they have and I think

629
00:28:16,370 --> 00:28:14,700
on May 31st 2023

630
00:28:18,289 --> 00:28:16,380
it's going to be really interesting to

631
00:28:21,649 --> 00:28:18,299
see what that ends up being and what

632
00:28:23,990 --> 00:28:21,659
they end up releasing just before we get

633
00:28:25,970 --> 00:28:24,000
to that you have a right 1976 for the

634
00:28:27,710 --> 00:28:25,980
Tehran incident I could go and edit out

635
00:28:29,510 --> 00:28:27,720
my mistake but I won't because you know

636
00:28:31,610 --> 00:28:29,520
mistakes are mistakes that happens but

637
00:28:33,710 --> 00:28:31,620
yeah 1970 I make them all the time trust

638
00:28:35,390 --> 00:28:33,720

me yeah for the purists out there let's

639

00:28:37,549 --> 00:28:35,400

get the information right

640

00:28:39,289 --> 00:28:37,559

um yeah Buzz Aldrin is one of the most

641

00:28:41,330 --> 00:28:39,299

famous names on the planet if you say

642

00:28:44,029 --> 00:28:41,340

Buzz Aldrin people think astronaut space

643

00:28:46,010 --> 00:28:44,039

you know is charismatic and is a very

644

00:28:49,070 --> 00:28:46,020

likable guy he has made some

645

00:28:52,310 --> 00:28:49,080

phenomenally incredible claims on UFOs

646

00:28:54,409 --> 00:28:52,320

and has time usually on live TV

647

00:28:56,029 --> 00:28:54,419

um of all the folks who know what he's

648

00:28:58,070 --> 00:28:56,039

talking about he he really should be one

649

00:29:00,169 --> 00:28:58,080

of them why do you think there are

650

00:29:02,990 --> 00:29:00,179

astronauts like Buzz Aldrin who are

651
00:29:05,210 --> 00:29:03,000
happy to discuss seeing various objects

652
00:29:07,549 --> 00:29:05,220
and crafts and he's talked about

653
00:29:11,269 --> 00:29:07,559
monoliths that are on other planets and

654
00:29:14,029 --> 00:29:11,279
moons yet others seem to tow the company

655
00:29:16,250 --> 00:29:14,039
line much better and are quite their

656
00:29:18,169 --> 00:29:16,260
isolated last for the UFOs object when

657
00:29:20,210 --> 00:29:18,179
I'm not saying everyone who goes into

658
00:29:22,789 --> 00:29:20,220
space sees a UFO and sees an alien

659
00:29:24,289 --> 00:29:22,799
spacecraft but there seems to be a

660
00:29:27,889 --> 00:29:24,299
massive disparity doesn't there between

661
00:29:30,950 --> 00:29:27,899
a Buzz Aldrin and you know a lot of them

662
00:29:33,470 --> 00:29:30,960
were modern astronauts shall we say

663
00:29:36,590 --> 00:29:33,480

well I think

664

00:29:39,289 --> 00:29:36,600

I think from this era where

665

00:29:41,269 --> 00:29:39,299

you tell the part party line but because

666

00:29:42,590 --> 00:29:41,279

he's considered such a celebrity and

667

00:29:45,590 --> 00:29:42,600

hero

668

00:29:48,830 --> 00:29:45,600

um he feels also conflicted with the

669

00:29:52,430 --> 00:29:48,840

things that he possibly witnessed which

670

00:29:56,870 --> 00:29:52,440

is he chased the UFO craft when he was a

671

00:29:59,149 --> 00:29:56,880

test pilot far before he went to space

672

00:30:02,029 --> 00:29:59,159

um according to testimony that I

673

00:30:03,110 --> 00:30:02,039

featured in one of my docs and he also

674

00:30:06,310 --> 00:30:03,120

um

675

00:30:08,870 --> 00:30:06,320

you know was part of the report of a UFO

676

00:30:10,909 --> 00:30:08,880

which the

677

00:30:13,789 --> 00:30:10,919

um Neil Armstrong reported you know

678

00:30:15,409 --> 00:30:13,799

asked if the s4b should be anywhere

679

00:30:19,130 --> 00:30:15,419

around them when they were on the way to

680

00:30:20,990 --> 00:30:19,140

the moon during Apollo 11. and uh that's

681

00:30:23,630 --> 00:30:21,000

a really well documented case and I

682

00:30:26,269 --> 00:30:23,640

think Buzz Aldrin has changed that story

683

00:30:27,769 --> 00:30:26,279

over time he wants to talk about what he

684

00:30:29,110 --> 00:30:27,779

really witnessed

685

00:30:31,789 --> 00:30:29,120

but

686

00:30:34,549 --> 00:30:31,799

he's conflicted and knows he can't

687

00:30:35,330 --> 00:30:34,559

because he swore an oath and

688

00:30:37,370 --> 00:30:35,340

um

689

00:30:38,570 --> 00:30:37,380

you just don't talk about those things

690

00:30:40,389 --> 00:30:38,580

unless

691

00:30:44,690 --> 00:30:40,399

your military

692

00:30:46,850 --> 00:30:44,700

you know uh leaders say you can

693

00:30:49,070 --> 00:30:46,860

um and he's a military guy essentially

694

00:30:51,110 --> 00:30:49,080

right so

695

00:30:54,730 --> 00:30:51,120

I think other astronauts have talked

696

00:30:58,850 --> 00:30:54,740

about things they said there's uh Leroy

697

00:31:01,909 --> 00:30:58,860

Chan who saw three flying lights when he

698

00:31:04,970 --> 00:31:01,919

was an STS astronaut

699

00:31:05,769 --> 00:31:04,980

um and uh there's

700

00:31:09,529 --> 00:31:05,779

um

701
00:31:13,250 --> 00:31:09,539
obviously story Musgrave that believes

702
00:31:14,990 --> 00:31:13,260
were being visited and has been uh very

703
00:31:17,810 --> 00:31:15,000
vocal about his theories on

704
00:31:18,730 --> 00:31:17,820
extraterrestrial Intelligence being out

705
00:31:22,310 --> 00:31:18,740
there

706
00:31:25,970 --> 00:31:22,320
but they have to be careful because I

707
00:31:27,769 --> 00:31:25,980
think it's still such a woo subject for

708
00:31:30,169 --> 00:31:27,779
a lot of the world they don't want to

709
00:31:32,090 --> 00:31:30,179
hurt their credibility and hurt their

710
00:31:34,909 --> 00:31:32,100
chances of

711
00:31:36,830 --> 00:31:34,919
um you know having a career or or being

712
00:31:40,210 --> 00:31:36,840
able to

713
00:31:43,850 --> 00:31:40,220

um be taken seriously by

714

00:31:45,830 --> 00:31:43,860

their peers so

715

00:31:48,529 --> 00:31:45,840

um I think that it's

716

00:31:50,510 --> 00:31:48,539

becoming more mainstream now and I would

717

00:31:51,350 --> 00:31:50,520

love to see other astronauts come

718

00:31:54,169 --> 00:31:51,360

forward

719

00:31:56,630 --> 00:31:54,179

and talk about what they know or what

720

00:31:58,970 --> 00:31:56,640

they experienced in space in terms of

721

00:32:01,430 --> 00:31:58,980

anomalies UFOs

722

00:32:04,130 --> 00:32:01,440

if any of them listen to your program

723

00:32:06,830 --> 00:32:04,140

please reach out to me I'm documenting

724

00:32:08,930 --> 00:32:06,840

this stuff like crazy and uh will

725

00:32:11,210 --> 00:32:08,940

continue to going forward

726

00:32:13,010 --> 00:32:11,220

you said in the doc in the documentary

727

00:32:16,430 --> 00:32:13,020

that the footage we see from the shuttle

728

00:32:18,409 --> 00:32:16,440

missions STS ISS is as compelling as the

729

00:32:20,269 --> 00:32:18,419

gimbal the Tic Tac and I can't disagree

730

00:32:22,490 --> 00:32:20,279

with that but why do you think it

731

00:32:24,830 --> 00:32:22,500

doesn't have the same impact why did

732

00:32:27,710 --> 00:32:24,840

that footage go viral yet the stuff

733

00:32:30,230 --> 00:32:27,720

that's been online for years decades you

734

00:32:32,750 --> 00:32:30,240

know on your YouTube on forums on on

735

00:32:34,490 --> 00:32:32,760

your VHS compilation tips from the 90s

736

00:32:36,169 --> 00:32:34,500

which I'm sure you'll be well aware of

737

00:32:38,690 --> 00:32:36,179

that used to sit on most video shelves

738

00:32:40,430 --> 00:32:38,700

why has that stuff not had the same

739

00:32:42,049 --> 00:32:40,440

public impact

740

00:32:46,250 --> 00:32:42,059

I think it's

741

00:32:50,510 --> 00:32:46,260

a matter of public opinion you know

742

00:32:53,870 --> 00:32:50,520

um it had a big impact on me and it had

743

00:32:57,049 --> 00:32:53,880

a big impact impact on parts of the UFO

744

00:32:58,610 --> 00:32:57,059

Community when that stuff was released

745

00:33:01,130 --> 00:32:58,620

um you know when I interviewed Martin

746

00:33:04,250 --> 00:33:01,140

Stubbs in this documentary who's a

747

00:33:06,950 --> 00:33:04,260

Canadian that was intercepting the NASA

748

00:33:11,029 --> 00:33:06,960

downlink with his cable satellite

749

00:33:14,090 --> 00:33:11,039

systems at the company he worked at

750

00:33:15,590 --> 00:33:14,100

um and recording that downlink footage

751
00:33:18,950 --> 00:33:15,600
over

752
00:33:22,430 --> 00:33:18,960
you know a long duration during years

753
00:33:23,990 --> 00:33:22,440
and years onto beta cam tapes and then

754
00:33:26,750 --> 00:33:24,000
he would go through on a traditional

755
00:33:29,870 --> 00:33:26,760
editing system a linear editing system

756
00:33:33,529 --> 00:33:29,880
frame by frame uh on his nights and

757
00:33:35,509 --> 00:33:33,539
weekends and find UFOs in space and that

758
00:33:37,370 --> 00:33:35,519
was groundbreaking to me and that's why

759
00:33:39,590 --> 00:33:37,380
I included him in the documentary as

760
00:33:42,830 --> 00:33:39,600
well to just show the history of this

761
00:33:45,889 --> 00:33:42,840
subject and people researching UFOs in

762
00:33:50,870 --> 00:33:45,899
space and um

763
00:33:53,630 --> 00:33:50,880

I think that you will always have an

764

00:33:55,850 --> 00:33:53,640

interest in space and it's uh incredibly

765

00:33:58,430 --> 00:33:55,860

important now for us to document this

766

00:34:03,110 --> 00:33:58,440

stuff and have it uh well scrutinized in

767

00:34:05,330 --> 00:34:03,120

the public now that UFOs are

768

00:34:11,030 --> 00:34:05,340

for lack of a better word mainstream

769

00:34:15,649 --> 00:34:11,040

since 2017 it's become more uh studied

770

00:34:19,010 --> 00:34:15,659

and of interest to the mainstream so

771

00:34:20,770 --> 00:34:19,020

um part of my job uh documenting this

772

00:34:22,790 --> 00:34:20,780

stuff is to

773

00:34:26,690 --> 00:34:22,800

reinvigorate that interest and

774

00:34:29,149 --> 00:34:26,700

reintroduce it to uh the public the UFO

775

00:34:32,450 --> 00:34:29,159

Community as well as you know hopefully

776

00:34:33,409 --> 00:34:32,460

get some eyes from the masses on this

777

00:34:35,089 --> 00:34:33,419

um

778

00:34:38,450 --> 00:34:35,099

because it is

779

00:34:41,750 --> 00:34:38,460

equally as interesting as the Nimitz and

780

00:34:44,389 --> 00:34:41,760

uh Tic Tac UFO footage for the fact that

781

00:34:47,750 --> 00:34:44,399

this is being recorded by space cameras

782

00:34:51,950 --> 00:34:47,760

by Harley highly

783

00:34:53,869 --> 00:34:51,960

um you know professional space research

784

00:34:57,770 --> 00:34:53,879

institutions

785

00:35:00,589 --> 00:34:57,780

a research institution and uh the

786

00:35:03,290 --> 00:35:00,599

technology is state of the art for the

787

00:35:04,450 --> 00:35:03,300

time and even today we you know farlight

788

00:35:08,390 --> 00:35:04,460

infrared

789

00:35:11,810 --> 00:35:08,400

ultraviolet camera technology is

790

00:35:14,210 --> 00:35:11,820

high high quality technology right you

791

00:35:16,190 --> 00:35:14,220

can't see in that light spectrum so

792

00:35:19,250 --> 00:35:16,200

they're looking into space for something

793

00:35:21,230 --> 00:35:19,260

that's hard to see and UFOs are things

794

00:35:23,510 --> 00:35:21,240

that are hard to see not everybody gets

795

00:35:26,410 --> 00:35:23,520

to see them some people see them and

796

00:35:29,270 --> 00:35:26,420

it's a life-changing incident right

797

00:35:33,770 --> 00:35:29,280

experiencers and and Personnel from

798

00:35:34,370 --> 00:35:33,780

military and and space agencies and so

799

00:35:37,790 --> 00:35:34,380

um

800

00:35:41,210 --> 00:35:37,800

these videos are not like doctored

801
00:35:44,150 --> 00:35:41,220
videos that are showing things that are

802
00:35:46,790 --> 00:35:44,160
created with computer Graphics you know

803
00:35:48,710 --> 00:35:46,800
they're not CGI

804
00:35:51,050 --> 00:35:48,720
um in these videos these are just

805
00:35:54,290 --> 00:35:51,060
objects that are being recorded on space

806
00:35:55,790 --> 00:35:54,300
cameras in in a different light spectrum

807
00:36:00,170 --> 00:35:55,800
sometimes and I think it's it's

808
00:36:02,750 --> 00:36:00,180
important to compare that to these gun

809
00:36:05,930 --> 00:36:02,760
cameras that we're recording Tic Tacs

810
00:36:10,069 --> 00:36:05,940
and gimbals uh the gimbal go fast uh

811
00:36:13,550 --> 00:36:10,079
gimbal UFO because that again is gun

812
00:36:17,530 --> 00:36:13,560
camera technology on state-of-the-art

813
00:36:20,150 --> 00:36:17,540

um aircraft that is recording in

814

00:36:22,130 --> 00:36:20,160

infrared you know in another light

815

00:36:24,349 --> 00:36:22,140

spectrum it's at the other end of the

816

00:36:26,990 --> 00:36:24,359

light spectrum that we can't see with

817

00:36:29,510 --> 00:36:27,000

our human eye and but the military uses

818

00:36:32,150 --> 00:36:29,520

that to see things that are hard to see

819

00:36:34,010 --> 00:36:32,160

which are UFOs

820

00:36:36,109 --> 00:36:34,020

so let's bring it right up to modern

821

00:36:37,790 --> 00:36:36,119

times right almost there ahead of

822

00:36:39,470 --> 00:36:37,800

ourselves because as we record this

823

00:36:41,630 --> 00:36:39,480

we're a couple of weeks away from that

824

00:36:44,089 --> 00:36:41,640

NASA study wrapping up when it was

825

00:36:46,609 --> 00:36:44,099

announced it was pretty low budget and

826

00:36:49,010 --> 00:36:46,619

seemingly a preliminary study to see if

827

00:36:50,690 --> 00:36:49,020

there was a further study to be had and

828

00:36:52,970 --> 00:36:50,700

the recent confirmation of that press

829

00:36:55,430 --> 00:36:52,980

called for the 31st of May says and I'll

830

00:36:57,530 --> 00:36:55,440

quote it's it is not a review or

831

00:37:00,770 --> 00:36:57,540

assessment of previous unidentifiable

832

00:37:03,290 --> 00:37:00,780

observations the report will inform NASA

833

00:37:05,450 --> 00:37:03,300

on what possible data could be collected

834

00:37:08,210 --> 00:37:05,460

in the future to shed light on the

835

00:37:09,530 --> 00:37:08,220

nature and origin of UAP so I think

836

00:37:11,930 --> 00:37:09,540

they're trying to set the stall out

837

00:37:14,030 --> 00:37:11,940

early that this was a look at what we

838

00:37:16,310 --> 00:37:14,040

should or could look at

839

00:37:18,770 --> 00:37:16,320

um what do you expect NASA's study at

840

00:37:22,250 --> 00:37:18,780

this point then to show and what do you

841

00:37:24,829 --> 00:37:22,260

hope it potentially lunges into

842

00:37:26,770 --> 00:37:24,839

well yeah I mean they even say you know

843

00:37:30,470 --> 00:37:26,780

it's in in accordance with the federal

844

00:37:33,650 --> 00:37:30,480

advisory committee act NASA will be uh

845

00:37:37,130 --> 00:37:33,660

looking at these anomalous phenomenon

846

00:37:39,890 --> 00:37:37,140

independent study uh team and they and

847

00:37:43,130 --> 00:37:39,900

they will be meeting on Wednesday May

848

00:37:47,210 --> 00:37:43,140

31st at 10 30 A.M

849

00:37:50,990 --> 00:37:47,220

to 2 30 PM eastern time and they will

850

00:37:52,150 --> 00:37:51,000

have the live broadcast on NASA dot go

851
00:37:55,010 --> 00:37:52,160
live

852
00:37:58,190 --> 00:37:55,020
and public participation is going to be

853
00:38:01,310 --> 00:37:58,200
available so the public people are going

854
00:38:03,410 --> 00:38:01,320
to be allowed to upvote questions to see

855
00:38:05,870 --> 00:38:03,420
if those could be asked and answered by

856
00:38:08,150 --> 00:38:05,880
this research group

857
00:38:13,069 --> 00:38:10,609
the agenda of the meeting and the slides

858
00:38:15,470 --> 00:38:13,079
will be presented and available on a web

859
00:38:18,050 --> 00:38:15,480
page as well so

860
00:38:20,990 --> 00:38:18,060
um I think we will find out more I think

861
00:38:22,370 --> 00:38:21,000
they will say some of the stuff that

862
00:38:24,470 --> 00:38:22,380
they've been looking at that's been

863
00:38:26,030 --> 00:38:24,480

coming from you know

864

00:38:30,470 --> 00:38:26,040

um

865

00:38:32,930 --> 00:38:30,480

UFO reports and then they're trying to

866

00:38:34,970 --> 00:38:32,940

interact with the public on this subject

867

00:38:38,390 --> 00:38:34,980

because they know that there is such a

868

00:38:41,030 --> 00:38:38,400

interest globally right now in this in

869

00:38:44,710 --> 00:38:41,040

this issue you know

870

00:38:49,310 --> 00:38:44,720

um and I hope that they're able to

871

00:38:52,190 --> 00:38:49,320

present details on the fact that some of

872

00:38:53,690 --> 00:38:52,200

this stuff is definitely anomalous

873

00:38:55,910 --> 00:38:53,700

enough

874

00:38:59,230 --> 00:38:55,920

that it can't be considered from a

875

00:39:03,290 --> 00:38:59,240

foreign adversary or from possible

876

00:39:05,450 --> 00:39:03,300

military uh programs that are being

877

00:39:10,310 --> 00:39:05,460

carried out by the American

878

00:39:15,650 --> 00:39:13,550

uh that's what I hope I'm I'm not quite

879

00:39:18,230 --> 00:39:15,660

sure like

880

00:39:20,569 --> 00:39:18,240

if you're

881

00:39:23,109 --> 00:39:20,579

if they're expecting it's supposed to be

882

00:39:27,410 --> 00:39:23,119

uh you know

883

00:39:29,510 --> 00:39:27,420

a private media based presentation first

884

00:39:31,910 --> 00:39:29,520

uh Chrissy Newton was saying that she's

885

00:39:34,069 --> 00:39:31,920

actually uh you know you're friends with

886

00:39:35,690 --> 00:39:34,079

Chrissy I am too she's part of the

887

00:39:37,849 --> 00:39:35,700

debrief and they're going to be actually

888

00:39:41,030 --> 00:39:37,859

brought into the initial session that's

889

00:39:43,490 --> 00:39:41,040

going to be a private media presentation

890

00:39:46,849 --> 00:39:43,500

and then they're going to go live to the

891

00:39:48,829 --> 00:39:46,859

public with uh the rest of it

892

00:39:50,930 --> 00:39:48,839

I don't know I mean

893

00:39:52,970 --> 00:39:50,940

um I think they're just trying to also

894

00:39:56,390 --> 00:39:52,980

present the idea that they're interested

895

00:39:57,829 --> 00:39:56,400

in UAP but in my series I'm trying to

896

00:40:00,650 --> 00:39:57,839

present the idea that they've always

897

00:40:01,790 --> 00:40:00,660

been interested in the UAP off the

898

00:40:03,829 --> 00:40:01,800

Record

899

00:40:05,150 --> 00:40:03,839

uh I think I think your series shows

900

00:40:06,890 --> 00:40:05,160

that they have to have been interested

901
00:40:08,990 --> 00:40:06,900
in UAP because these things are

902
00:40:10,910 --> 00:40:09,000
presenting themselves aren't they over

903
00:40:12,290 --> 00:40:10,920
and over and over again across the

904
00:40:15,230 --> 00:40:12,300
decades

905
00:40:17,390 --> 00:40:15,240
um Gary Nolan in the last 24 hours has

906
00:40:18,710 --> 00:40:17,400
gone viral whether he wanted to or not I

907
00:40:21,829 --> 00:40:18,720
don't know if you've seen this from the

908
00:40:23,870 --> 00:40:21,839
salt conference the salt conference and

909
00:40:25,310 --> 00:40:23,880
his comments about your APS

910
00:40:26,630 --> 00:40:25,320
um I want to know what do you think and

911
00:40:27,829 --> 00:40:26,640
I'm going to be covering this and people

912
00:40:29,569 --> 00:40:27,839
listening to this will have heard

913
00:40:31,970 --> 00:40:29,579

various shows on it by this point and

914

00:40:34,370 --> 00:40:31,980

seen the social media comments uh do you

915

00:40:36,349 --> 00:40:34,380

think we're building towards an

916

00:40:38,510 --> 00:40:36,359

explosion of information finally coming

917

00:40:40,609 --> 00:40:38,520

out from official channels the

918

00:40:43,250 --> 00:40:40,619

government NASA hearings officials

919

00:40:46,069 --> 00:40:43,260

military or are we going to be still

920

00:40:47,690 --> 00:40:46,079

here in 20 years time me running a

921

00:40:50,870 --> 00:40:47,700

podcast talking about disclosures coming

922

00:40:52,310 --> 00:40:50,880

you're on the Apollo 40 to 49 missions

923

00:40:54,650 --> 00:40:52,320

you know we're back on demand missions

924

00:40:56,329 --> 00:40:54,660

and we're seeing things what do you

925

00:40:59,329 --> 00:40:56,339

think where are we going to be Darcy

926

00:41:02,030 --> 00:40:59,339

yeah I think um you know I covered this

927

00:41:04,730 --> 00:41:02,040

also in fast Walkers Stephen Bassett

928

00:41:08,630 --> 00:41:04,740

profiles what developments are happening

929

00:41:11,030 --> 00:41:08,640

in Congress in terms of uh new laws to

930

00:41:16,370 --> 00:41:11,040

protect whistleblowers

931

00:41:18,770 --> 00:41:16,380

um new laws in in these uh

932

00:41:23,450 --> 00:41:18,780

basically

933

00:41:26,270 --> 00:41:23,460

trying to unify intelligence and defense

934

00:41:28,550 --> 00:41:26,280

organizations on the idea that their

935

00:41:31,069 --> 00:41:28,560

personnel can come forward with accounts

936

00:41:33,109 --> 00:41:31,079

that they've had or experiences that

937

00:41:35,690 --> 00:41:33,119

they've had with UAP

938

00:41:38,569 --> 00:41:35,700

and to protect those people so they can

939

00:41:41,270 --> 00:41:38,579

speak to organizations like arrow and

940

00:41:44,210 --> 00:41:41,280

apparently Arrow has had multiple people

941

00:41:46,370 --> 00:41:44,220

come forward from military backgrounds

942

00:41:49,550 --> 00:41:46,380

that have given their testimony on very

943

00:41:51,109 --> 00:41:49,560

credible UAP incidents that have

944

00:41:53,329 --> 00:41:51,119

happened in history

945

00:41:56,930 --> 00:41:53,339

and um

946

00:41:59,630 --> 00:41:56,940

I think if you have laws being passed

947

00:42:01,430 --> 00:41:59,640

and that type of uh whistleblower

948

00:42:02,810 --> 00:42:01,440

protection

949

00:42:06,829 --> 00:42:02,820

um

950

00:42:10,550 --> 00:42:06,839

information out there and a growing

951
00:42:12,589 --> 00:42:10,560
interest in the public and NASA being

952
00:42:14,630 --> 00:42:12,599
part of the

953
00:42:16,790 --> 00:42:14,640
um you know research of unidentified

954
00:42:20,109 --> 00:42:16,800
anomalous Phenomenon with their

955
00:42:25,670 --> 00:42:22,730
that points to me that this is going to

956
00:42:28,609 --> 00:42:25,680
go mainstream in a big way and there

957
00:42:31,670 --> 00:42:28,619
will be some kind of official disclosure

958
00:42:33,710 --> 00:42:31,680
I don't can't say for sure it's going to

959
00:42:37,430 --> 00:42:33,720
be this year you know I'm not as

960
00:42:40,030 --> 00:42:37,440
confident as John Ramirez on that uh

961
00:42:43,190 --> 00:42:40,040
topic but

962
00:42:45,710 --> 00:42:43,200
we're we seem to be going down a road of

963
00:42:49,010 --> 00:42:45,720

mainstream disclosure and uh whether

964

00:42:51,589 --> 00:42:49,020

that's later this year or next year or

965

00:42:53,089 --> 00:42:51,599

the year after I don't know but I think

966

00:42:56,589 --> 00:42:53,099

there could be

967

00:43:00,829 --> 00:42:56,599

um something especially you know if

968

00:43:04,490 --> 00:43:00,839

there there might be some kind of um

969

00:43:11,089 --> 00:43:08,089

um aggression happening between our

970

00:43:13,970 --> 00:43:11,099

foreign adversaries and

971

00:43:15,050 --> 00:43:13,980

uh North America and their allies you

972

00:43:17,870 --> 00:43:15,060

know

973

00:43:19,250 --> 00:43:17,880

well hopefully not but yeah there's a a

974

00:43:20,690 --> 00:43:19,260

lot of cards on the table right now

975

00:43:22,970 --> 00:43:20,700

potentially to be played in the

976

00:43:24,710 --> 00:43:22,980

geopolitical situation shall we say uh

977

00:43:26,990 --> 00:43:24,720

Darcy brilliant speaking with you again

978

00:43:28,609 --> 00:43:27,000

so soon um and just to finish up can I

979

00:43:31,190 --> 00:43:28,619

ask you what you're working on next if

980

00:43:33,050 --> 00:43:31,200

you've got anything in the pipeline I do

981

00:43:34,970 --> 00:43:33,060

have a couple projects in the pipeline

982

00:43:37,790 --> 00:43:34,980

which are you know I can't really talk

983

00:43:40,609 --> 00:43:37,800

about right now but I promise if people

984

00:43:43,370 --> 00:43:40,619

check out fast Walkers and uh they like

985

00:43:46,730 --> 00:43:43,380

that it's going to be more of the same

986

00:43:50,329 --> 00:43:46,740

you know very well documented factual

987

00:43:53,930 --> 00:43:50,339

information where we show as much

988

00:43:56,349 --> 00:43:53,940

um you know documents and videos and

989

00:43:59,569 --> 00:43:56,359

testimony that prove that something

990

00:44:02,569 --> 00:43:59,579

historically is going on uh with

991

00:44:04,790 --> 00:44:02,579

something very interesting that that has

992

00:44:06,470 --> 00:44:04,800

to do with UFOs so I'm working on two

993

00:44:09,890 --> 00:44:06,480

different projects

994

00:44:13,370 --> 00:44:09,900

um uh right now and uh I'm really

995

00:44:15,230 --> 00:44:13,380

excited to present more stuff uh later

996

00:44:17,990 --> 00:44:15,240

this year but thank you so much for

997

00:44:19,430 --> 00:44:18,000

having me on if people like my work I

998

00:44:21,650 --> 00:44:19,440

really appreciate

999

00:44:26,030 --> 00:44:21,660

1000

left on Amazon Prime and uh iTunes like

1001
00:44:31,190 --> 00:44:28,619
these types of platforms because it

1002
00:44:33,470 --> 00:44:31,200
helps others understand you know what

1003
00:44:37,309 --> 00:44:33,480
they're actually going to be observing

1004
00:44:39,530 --> 00:44:37,319
and uh yeah I really appreciate uh you

1005
00:44:41,809 --> 00:44:39,540
having me on and uh your audience is

1006
00:44:42,829 --> 00:44:41,819
really cool and uh really well informed

1007
00:44:44,809 --> 00:44:42,839

1008
00:44:46,609 --> 00:44:44,819
