

UNDERRATED CHANNELS

MATH

PHYSICS

AI

1
00:00:04,470 --> 00:00:02,230
there's a slew of content in the

2
00:00:07,909 --> 00:00:04,480
mathematics physics and consciousness

3
00:00:10,230 --> 00:00:07,919
space that gets unduly little attention

4
00:00:12,549 --> 00:00:10,240
i know what it's like to be a struggling

5
00:00:15,190 --> 00:00:12,559
creator putting almost everything into

6
00:00:18,150 --> 00:00:15,200
your channel without recognition from

7
00:00:20,630 --> 00:00:18,160
anyone publicly for years and that's in

8
00:00:22,790 --> 00:00:20,640
large part because it's a competitive

9
00:00:24,550 --> 00:00:22,800
landscape but it doesn't have to be the

10
00:00:26,310 --> 00:00:24,560
goal of toe that is the theories of

11
00:00:29,269 --> 00:00:26,320
everything channel is not just to be a

12
00:00:31,990 --> 00:00:29,279
channel or a podcast but a project and

13
00:00:34,150 --> 00:00:32,000

the project is that which furthers the

14

00:00:35,990 --> 00:00:34,160

explication of theories of everything

15

00:00:38,549 --> 00:00:36,000

including the ingredients that go into

16

00:00:40,950 --> 00:00:38,559

them thus for toe it's not a competition

17

00:00:43,990 --> 00:00:40,960

but a group effort now this sundry list

18

00:00:46,229 --> 00:00:44,000

has about four criteria number one their

19

00:00:48,229 --> 00:00:46,239

channels that if you enjoy the themes of

20

00:00:50,549 --> 00:00:48,239

the tow channel you're likely to enjoy

21

00:00:52,630 --> 00:00:50,559

them as well number two they're on

22

00:00:56,389 --> 00:00:52,640

youtube number three they have

23

00:00:58,709 --> 00:00:56,399

approximately 15 000 subscribers

24

00:00:59,990 --> 00:00:58,719

or less sometimes even a hundred and so

25

00:01:02,069 --> 00:01:00,000

this way you know you're truly

26

00:01:04,390 --> 00:01:02,079

supporting up and coming creators and

27

00:01:06,870 --> 00:01:04,400

number four they're active so for

28

00:01:08,469 --> 00:01:06,880

example they have recent publications

29

00:01:10,469 --> 00:01:08,479

none of the channels mentioned here have

30

00:01:12,789 --> 00:01:10,479

paid me in any way there's no

31

00:01:14,950 --> 00:01:12,799

sponsorship for this video from anyone

32

00:01:16,550 --> 00:01:14,960

in fact these people these channels

33

00:01:19,109 --> 00:01:16,560

don't even know that i'm mentioning them

34

00:01:20,789 --> 00:01:19,119

so if you like any of their videos go to

35

00:01:22,550 --> 00:01:20,799

one of them comment and say that you're

36

00:01:24,469 --> 00:01:22,560

from the theories of everything channel

37

00:01:27,670 --> 00:01:24,479

in order it will be physics

38

00:01:29,910 --> 00:01:27,680

consciousness mathematics psychology and

39

00:01:32,310 --> 00:01:29,920

outliers starting with physics this

40

00:01:34,149 --> 00:01:32,320

channel is tobias osborne as i said in

41

00:01:36,149 --> 00:01:34,159

the crash course on physics video which

42

00:01:37,990 --> 00:01:36,159

i'll link in the description as well as

43

00:01:40,230 --> 00:01:38,000

place a thumbnail here if you're lucky

44

00:01:42,789 --> 00:01:40,240

enough to get an instructor who writes

45

00:01:44,950 --> 00:01:42,799

clearly and explains each step then

46

00:01:48,789 --> 00:01:44,960

you're going to learn at a drastically

47

00:01:51,270 --> 00:01:48,799

faster rate tobias has that in spades

48

00:01:53,109 --> 00:01:51,280

many of his videos are in german however

49

00:01:55,350 --> 00:01:53,119

you can take a look at the playlist and

50

00:01:57,350 --> 00:01:55,360

you'll see he has conformal field theory

51
00:01:58,870 --> 00:01:57,360
and introduction to symplectic geometry

52
00:02:00,709 --> 00:01:58,880
advanced quantum field theory quantum

53
00:02:03,350 --> 00:02:00,719
field theory quantum noise and

54
00:02:05,749 --> 00:02:03,360
decoherence advanced quantum theory i'm

55
00:02:07,190 --> 00:02:05,759
a huge fan of tobias tobias if you're

56
00:02:09,510 --> 00:02:07,200
watching this thank you so much for your

57
00:02:11,589 --> 00:02:09,520
channel and i appreciate how you place

58
00:02:14,470 --> 00:02:11,599
so much emphasis on writing clearly and

59
00:02:16,949 --> 00:02:14,480
using a 4k camera that's rare next is

60
00:02:18,869 --> 00:02:16,959
professor m does science you'll see that

61
00:02:21,430 --> 00:02:18,879
they have many videos on undergraduate

62
00:02:24,390 --> 00:02:21,440
concepts in quantum mechanics for a

63
00:02:26,630 --> 00:02:24,400

spicy take on physics both physically

64

00:02:29,350 --> 00:02:26,640

and sociologically unzicker's real

65

00:02:31,110 --> 00:02:29,360

physics channel is a place to go he

66

00:02:33,350 --> 00:02:31,120

talks about why black holes are a

67

00:02:35,670 --> 00:02:33,360

misleading concept and

68

00:02:38,150 --> 00:02:35,680

variable speed of light theories his

69

00:02:40,229 --> 00:02:38,160

issues with string theory

70

00:02:42,790 --> 00:02:40,239

his issues with richard feynman keep in

71

00:02:44,070 --> 00:02:42,800

mind that unzicker so pictured here is

72

00:02:46,070 --> 00:02:44,080

going to be on the theories of

73

00:02:47,670 --> 00:02:46,080

everything channel sometime this year or

74

00:02:48,790 --> 00:02:47,680

next year if you have any questions for

75

00:02:51,110 --> 00:02:48,800

him

76
00:02:53,509 --> 00:02:51,120
note them or comment them below quantum

77
00:02:56,070 --> 00:02:53,519
sense only has two videos but they're

78
00:02:57,750 --> 00:02:56,080
masterfully done this is chapter one in

79
00:02:59,190 --> 00:02:57,760
the foundations of quantum mechanics

80
00:03:00,630 --> 00:02:59,200
many people want to know what's the

81
00:03:02,229 --> 00:03:00,640
minimum amount they need to know for

82
00:03:04,949 --> 00:03:02,239
quantum mechanics and it's linear

83
00:03:07,190 --> 00:03:04,959
algebra and if you want to be as a bit

84
00:03:09,990 --> 00:03:07,200
more advanced than representation theory

85
00:03:11,830 --> 00:03:10,000
but here he goes through linear algebra

86
00:03:13,509 --> 00:03:11,840
i don't know where chapter 2 is but

87
00:03:15,270 --> 00:03:13,519
that's a question for him

88
00:03:18,309 --> 00:03:15,280

zap physics is another channel that i

89

00:03:20,070 --> 00:03:18,319

enjoy and you can see some of the topics

90

00:03:22,309 --> 00:03:20,080

here there qft and then quantum

91

00:03:24,710 --> 00:03:22,319

mechanics as well he also covers why

92

00:03:27,030 --> 00:03:24,720

entropy is not about disorder which is

93

00:03:29,750 --> 00:03:27,040

something that i unsuccessfully tried to

94

00:03:31,670 --> 00:03:29,760

argue to thomas campbell and lee cronin

95

00:03:33,509 --> 00:03:31,680

another channel that many of you may

96

00:03:36,390 --> 00:03:33,519

like if you like the toe channel is

97

00:03:38,630 --> 00:03:36,400

stephen e robbins he's a huge proponent

98

00:03:41,350 --> 00:03:38,640

of henry berkson's theories and you'll

99

00:03:43,030 --> 00:03:41,360

see he covers sometimes even toe videos

100

00:03:45,270 --> 00:03:43,040

as well as other people's like sabine

101
00:03:47,830 --> 00:03:45,280
hostenfelder's videos and gives his

102
00:03:49,430 --> 00:03:47,840
opinion from a bergson perspective he

103
00:03:50,949 --> 00:03:49,440
also touches on consciousness which

104
00:03:53,589 --> 00:03:50,959
brings us to our next topic

105
00:03:55,990 --> 00:03:53,599
consciousness the demystifying science

106
00:03:56,789 --> 00:03:56,000
podcast has many interviews that if

107
00:03:58,309 --> 00:03:56,799
you're

108
00:04:00,550 --> 00:03:58,319
a regular of the toe channel you'll

109
00:04:03,750 --> 00:04:00,560
recognize some of these people here so

110
00:04:04,550 --> 00:04:03,760
me aryan is the next channel you'll see

111
00:04:06,470 --> 00:04:04,560
she

112
00:04:08,390 --> 00:04:06,480
touches on consciousness psychology and

113
00:04:09,990 --> 00:04:08,400

entrepreneurship she's particularly

114

00:04:12,390 --> 00:04:10,000

prolific in that she puts out a video

115

00:04:13,110 --> 00:04:12,400

once a week or so and i like her video

116

00:04:18,469 --> 00:04:13,120

with

117

00:04:20,390 --> 00:04:18,479

tevin naidu

118

00:04:22,950 --> 00:04:20,400

here you go there's chomsky there's mike

119

00:04:24,310 --> 00:04:22,960

11 there's donald hoffman now hey if you

120

00:04:27,350 --> 00:04:24,320

like this don't go switching brown

121

00:04:30,390 --> 00:04:27,360

people on me there's room for both

122

00:04:33,590 --> 00:04:30,400

the meaning code with karen wong again

123

00:04:35,670 --> 00:04:33,600

similar themes and interviewees as the

124

00:04:37,830 --> 00:04:35,680

toe channel so for example here there's

125

00:04:39,350 --> 00:04:37,840

jonathan verveichi and michael levin i

126

00:04:42,469 --> 00:04:39,360

also appreciate how generally she

127

00:04:44,070 --> 00:04:42,479

timestamps her videos

128

00:04:46,550 --> 00:04:44,080

reason with science is another channel

129

00:04:48,629 --> 00:04:46,560

you may enjoy and of course asking

130

00:04:52,070 --> 00:04:48,639

anything an upcoming channel that just

131

00:04:53,990 --> 00:04:52,080

started a few months ago with massive

132

00:04:56,390 --> 00:04:54,000

ask me anythings with bernardo castro

133

00:04:57,909 --> 00:04:56,400

and donald hoffman is a channel you may

134

00:05:00,310 --> 00:04:57,919

want to check out

135

00:05:02,629 --> 00:05:00,320

of course there's tyler goldstein that

136

00:05:04,870 --> 00:05:02,639

is theory of everyone with a zero

137

00:05:06,710 --> 00:05:04,880

instead of an o for everyone

138

00:05:09,670 --> 00:05:06,720

what makes tyler unique is that he has

139

00:05:11,430 --> 00:05:09,680

his own toe his own theory of everything

140

00:05:12,390 --> 00:05:11,440

and he also covers much like steven

141

00:05:14,390 --> 00:05:12,400

robbins

142

00:05:16,230 --> 00:05:14,400

other people's videos and gives his

143

00:05:18,710 --> 00:05:16,240

points of view on them so for example

144

00:05:20,629 --> 00:05:18,720

here he has his opinions on the

145

00:05:23,909 --> 00:05:20,639

interviews from the toe channel with

146

00:05:26,150 --> 00:05:23,919

stefan alexander or carl fristin noam

147

00:05:28,550 --> 00:05:26,160

chomsky the most recent one with carl

148

00:05:30,710 --> 00:05:28,560

fristin mike 11 and chris fields

149

00:05:32,550 --> 00:05:30,720

this is a channel i highly recommend

150

00:05:34,310 --> 00:05:32,560

that you check out the last one on the

151
00:05:36,230 --> 00:05:34,320
consciousness space is mathematical

152
00:05:38,070 --> 00:05:36,240
consciousness science

153
00:05:38,950 --> 00:05:38,080
these ones are more lecture based which

154
00:05:41,510 --> 00:05:38,960
means

155
00:05:43,270 --> 00:05:41,520
it's best not listened to but watched

156
00:05:48,870 --> 00:05:43,280
with a pen and paper because they're

157
00:05:54,390 --> 00:05:51,350
that brings us into a smooth transition

158
00:05:55,350 --> 00:05:54,400
into the mathematics side now

159
00:05:59,670 --> 00:05:55,360
chalk

160
00:06:02,150 --> 00:05:59,680
mix of mathematics but also what it's

161
00:06:04,710 --> 00:06:02,160
like to study mathematics at the phd

162
00:06:06,870 --> 00:06:04,720
level personally i would love to see

163
00:06:09,749 --> 00:06:06,880

this is from nathan and nathan if you're

164

00:06:12,070 --> 00:06:09,759

watching this i would love to see more

165

00:06:13,990 --> 00:06:12,080

material from your phd another channel

166

00:06:15,990 --> 00:06:14,000

is dietrich i can't even pronounce this

167

00:06:17,909 --> 00:06:16,000

diatrix labs again all the links are in

168

00:06:19,909 --> 00:06:17,919

the description what's great about this

169

00:06:22,469 --> 00:06:19,919

channel is that it gets into the

170

00:06:25,110 --> 00:06:22,479

equations of fairly advanced material so

171

00:06:27,350 --> 00:06:25,120

for example if you're interested in an

172

00:06:28,870 --> 00:06:27,360

introduction to string theory

173

00:06:30,950 --> 00:06:28,880

here is the easiest quote-unquote

174

00:06:33,270 --> 00:06:30,960

problem in string theory he goes through

175

00:06:34,629 --> 00:06:33,280

the complete standard model lagrangian

176

00:06:36,390 --> 00:06:34,639

which almost no one writes down because

177

00:06:38,070 --> 00:06:36,400

it's far too unwieldy but he goes

178

00:06:40,629 --> 00:06:38,080

through and explains the terms and this

179

00:06:42,309 --> 00:06:40,639

channel is by sam and personally i

180

00:06:44,629 --> 00:06:42,319

prefer the videos where he's not just

181

00:06:46,309 --> 00:06:44,639

reading from the powerpoint slide or his

182

00:06:47,670 --> 00:06:46,319

pdf and going through because going

183

00:06:51,029 --> 00:06:47,680

through the equations and writing them

184

00:06:53,029 --> 00:06:51,039

out in real time is more engaging but i

185

00:06:54,950 --> 00:06:53,039

highly recommend his channel anyhow he's

186

00:06:56,950 --> 00:06:54,960

the only one on youtube or one of the

187

00:07:00,230 --> 00:06:56,960

only ones that puts out content of this

188

00:07:02,230 --> 00:07:00,240

kind now there's cryo science

189

00:07:05,029 --> 00:07:02,240

if you've ever wanted a gentle

190

00:07:06,950 --> 00:07:05,039

introduction to qft this is it now there

191

00:07:09,909 --> 00:07:06,960

are different forms of qft like

192

00:07:11,670 --> 00:07:09,919

algebraic axiomatic constructive

193

00:07:13,830 --> 00:07:11,680

functional integrations and expansions

194

00:07:16,309 --> 00:07:13,840

vertex operator algebra approaches and

195

00:07:20,070 --> 00:07:16,319

so on the way that i like to think of

196

00:07:21,350 --> 00:07:20,080

cryosciences approaches asmr qft you'll

197

00:07:23,270 --> 00:07:21,360

see what i mean when you listen to a

198

00:07:25,350 --> 00:07:23,280

couple of them now if you wondered about

199

00:07:27,350 --> 00:07:25,360

some of the approaches i just spewed off

200

00:07:30,710 --> 00:07:27,360

for the rigorous treatments of quantum

201
00:07:32,309 --> 00:07:30,720
field theory then go to graduate physics

202
00:07:34,070 --> 00:07:32,319
now i know this is not mathematics but

203
00:07:35,909 --> 00:07:34,080
it borders on it it has recent

204
00:07:37,749 --> 00:07:35,919
developments in the field sometimes i

205
00:07:39,749 --> 00:07:37,759
get asked how does one stay current in a

206
00:07:42,230 --> 00:07:39,759
field well by subscribing to channels

207
00:07:45,510 --> 00:07:42,240
like this another mathematics channel i

208
00:07:47,990 --> 00:07:45,520
enjoy is kyle broders he's a phd student

209
00:07:49,909 --> 00:07:48,000
and similar to chalk you not only learn

210
00:07:51,749 --> 00:07:49,919
some mathematics but also what it's like

211
00:07:54,150 --> 00:07:51,759
to be a phd student

212
00:07:56,309 --> 00:07:54,160
and similar to chalk i would like to see

213
00:07:58,550 --> 00:07:56,319

more material from

214

00:08:01,029 --> 00:07:58,560

kyle's phd soon we'll be doing a dive

215

00:08:03,749 --> 00:08:01,039

into category theory and physics and so

216

00:08:06,230 --> 00:08:03,759

rooney's channel is a great introduction

217

00:08:08,629 --> 00:08:06,240

if you are unsure of what well deram

218

00:08:10,070 --> 00:08:08,639

cohomology is or homotopic theory or

219

00:08:12,710 --> 00:08:10,080

what the yonita

220

00:08:14,629 --> 00:08:12,720

lemma or theorem is it's the hallmark of

221

00:08:17,749 --> 00:08:14,639

category theory it's the first major

222

00:08:19,830 --> 00:08:17,759

result now this one sud guy lacmo i

223

00:08:22,550 --> 00:08:19,840

don't know how to pronounce that this is

224

00:08:24,550 --> 00:08:22,560

a brilliant brilliant channel

225

00:08:26,629 --> 00:08:24,560

this person is responsible for getting

226

00:08:28,469 --> 00:08:26,639

me interested in interviewing someone

227

00:08:30,309 --> 00:08:28,479

named david hestings on geometric

228

00:08:32,870 --> 00:08:30,319

algebra which is another field of

229

00:08:35,110 --> 00:08:32,880

mathematics that one can use in physics

230

00:08:36,790 --> 00:08:35,120

as a unifying language of physics where

231

00:08:38,230 --> 00:08:36,800

some of the equations of physics that

232

00:08:40,870 --> 00:08:38,240

seem baroque

233

00:08:42,790 --> 00:08:40,880

broken and baroque are made succinct and

234

00:08:44,870 --> 00:08:42,800

clear from the geometric algebraic

235

00:08:46,550 --> 00:08:44,880

perspective zetamath is a channel that

236

00:08:49,350 --> 00:08:46,560

i've recently come upon and you can

237

00:08:52,790 --> 00:08:49,360

learn about the riemann hypothesis here

238

00:08:55,910 --> 00:08:52,800

rigorously this is rare now this is just

239

00:08:57,110 --> 00:08:55,920

beautiful this is from manifold in

240

00:08:59,910 --> 00:08:57,120

Maryland

241

00:09:01,829 --> 00:08:59,920

this is a student who has wonderful

242

00:09:03,750 --> 00:09:01,839

drawings look at this this is just an

243

00:09:05,590 --> 00:09:03,760

explanation of what's called the lee

244

00:09:07,590 --> 00:09:05,600

derivative it looks like lie but it's

245

00:09:09,590 --> 00:09:07,600

pronounced li and i just found out about

246

00:09:11,509 --> 00:09:09,600

this channel yesterday moving on to

247

00:09:13,670 --> 00:09:11,519

psychology we have Greg Henrique's

248

00:09:16,550 --> 00:09:13,680

unified theory of knowledge

249

00:09:17,430 --> 00:09:16,560

podcast so for example i'm interviewed

250

00:09:19,030 --> 00:09:17,440

here

251
00:09:20,710 --> 00:09:19,040
and you'll see several others like john

252
00:09:23,590 --> 00:09:20,720
verveicky are interviewed

253
00:09:26,630 --> 00:09:23,600
charlotte fraser it's such a warmly

254
00:09:28,790 --> 00:09:26,640
informative sedulous channel i had to

255
00:09:31,110 --> 00:09:28,800
include it i just happened upon this

256
00:09:32,790 --> 00:09:31,120
about a week or two ago i was looking up

257
00:09:34,949 --> 00:09:32,800
the rudiments of computational

258
00:09:36,870 --> 00:09:34,959
neuroscience and she has videos

259
00:09:38,310 --> 00:09:36,880
dedicated to just that how do you self

260
00:09:40,230 --> 00:09:38,320
study the mathematics behind

261
00:09:42,790 --> 00:09:40,240
computational neural science or how do

262
00:09:46,070 --> 00:09:42,800
you read papers faster as a phd student

263
00:09:48,389 --> 00:09:46,080

next up is the bigger picture podcast

264

00:09:50,150 --> 00:09:48,399

which is also fluorescent and you'll

265

00:09:52,389 --> 00:09:50,160

recognize many of the people from toe

266

00:09:54,790 --> 00:09:52,399

and it's ringlets another podcast you

267

00:09:56,949 --> 00:09:54,800

may enjoy is called the anagogi podcast

268

00:09:59,430 --> 00:09:56,959

which has interviews with greg henriques

269

00:10:01,350 --> 00:09:59,440

and john verveicky which seems to be

270

00:10:03,350 --> 00:10:01,360

what one does as a default when starting

271

00:10:05,269 --> 00:10:03,360

a podcast you don't have a podcast until

272

00:10:06,550 --> 00:10:05,279

john viveki has been on i know there are

273

00:10:08,630 --> 00:10:06,560

plenty of people who are interested in

274

00:10:10,870 --> 00:10:08,640

the ufo topic and while that's not a

275

00:10:12,790 --> 00:10:10,880

focus of this channel of the tow channel

276

00:10:14,870 --> 00:10:12,800

it's certainly a motif and one of the

277

00:10:18,150 --> 00:10:14,880

channels i highly recommend is ross

278

00:10:21,670 --> 00:10:18,160

coldheart's need to know with zebel

279

00:10:24,069 --> 00:10:21,680

sober analyses seasoned individuals next

280

00:10:27,190 --> 00:10:24,079

is alien girl which usually comprises

281

00:10:29,829 --> 00:10:27,200

commentary on recent ufo events next

282

00:10:31,269 --> 00:10:29,839

there's of course that ufo podcast again

283

00:10:32,710 --> 00:10:31,279

links to all of these will be in the

284

00:10:34,710 --> 00:10:32,720

description they've interviewed

285

00:10:37,509 --> 00:10:34,720

virtually everyone george knapp luella

286

00:10:40,230 --> 00:10:37,519

sondo brandt cameron travis taylor ross

287

00:10:42,069 --> 00:10:40,240

coldheart then there's the extremely

288

00:10:44,790 --> 00:10:42,079

professional and cultivated and

289

00:10:46,150 --> 00:10:44,800

impassioned christina gomez you can take

290

00:10:48,630 --> 00:10:46,160

a look at some of the topics she has

291

00:10:50,150 --> 00:10:48,640

here and a link to her channel will be

292

00:10:51,670 --> 00:10:50,160

in the description i recommend you at

293

00:10:54,310 --> 00:10:51,680

least check it out and then there's of

294

00:10:56,470 --> 00:10:54,320

course red panda koala this is one of

295

00:10:58,870 --> 00:10:56,480

the best channels on the entire list he

296

00:11:01,350 --> 00:10:58,880

makes me want to weep he should be hired

297

00:11:03,750 --> 00:11:01,360

by netflix he produces these great

298

00:11:05,269 --> 00:11:03,760

documentaries so look here how the cia

299

00:11:07,509 --> 00:11:05,279

and air force have created the ufo

300

00:11:09,269 --> 00:11:07,519

stigma what are tom delong's views on

301

00:11:11,350 --> 00:11:09,279

the ufos and how did he get into this

302

00:11:13,190 --> 00:11:11,360

field it's astounding that this is even

303

00:11:15,430 --> 00:11:13,200

free because there's content that you

304

00:11:17,509 --> 00:11:15,440

pay for on other channels that isn't

305

00:11:19,670 --> 00:11:17,519

even a scintilla of the quality of this

306

00:11:21,430 --> 00:11:19,680

one now for some spicy takes from people

307

00:11:23,590 --> 00:11:21,440

who aren't afraid of offending perhaps

308

00:11:25,590 --> 00:11:23,600

they even enjoy offending just a bit i

309

00:11:27,269 --> 00:11:25,600

will list three here in quick succession

310

00:11:28,389 --> 00:11:27,279

because i'm running out of time there's

311

00:11:30,310 --> 00:11:28,399

gefon

312

00:11:32,550 --> 00:11:30,320

there's thomas fessler

313

00:11:34,389 --> 00:11:32,560

and there's truth seekers i'm shouting

314

00:11:36,150 --> 00:11:34,399

them out in part because i think many

315

00:11:37,829 --> 00:11:36,160

people are hesitant to even acknowledge

316

00:11:40,870 --> 00:11:37,839

them lastly there are a couple channels

317

00:11:43,670 --> 00:11:40,880

that don't fit nicole vanderhoven i find

318

00:11:45,430 --> 00:11:43,680

it beneficial to learn how others think

319

00:11:47,430 --> 00:11:45,440

regardless of whether or not those

320

00:11:48,710 --> 00:11:47,440

approaches diverge from my own mode as

321

00:11:51,110 --> 00:11:48,720

hearing them explain their own thought

322

00:11:53,430 --> 00:11:51,120

process helped me introspectively

323

00:11:55,430 --> 00:11:53,440

evaluate and critique my own manner of

324

00:11:57,110 --> 00:11:55,440

thinking you can see that she puts a

325

00:11:59,350 --> 00:11:57,120

tremendous amount of effort into her

326

00:12:01,509 --> 00:11:59,360

videos despite having a full-time job

327

00:12:04,230 --> 00:12:01,519

another channel i enjoy is joe auto

328

00:12:06,150 --> 00:12:04,240

hotkey guru joe glynes that is auto

329

00:12:07,910 --> 00:12:06,160

hotkey is a program on windows which

330

00:12:09,990 --> 00:12:07,920

helps you save time by automating

331

00:12:12,069 --> 00:12:10,000

monotonous tasks they even have a video

332

00:12:14,310 --> 00:12:12,079

where they covered a request from kurt

333

00:12:16,550 --> 00:12:14,320

from myself another small creator that i

334

00:12:18,629 --> 00:12:16,560

enjoy is sigma documentaries they put

335

00:12:19,910 --> 00:12:18,639

plenty of effort into their videos and

336

00:12:21,350 --> 00:12:19,920

it's staggering how small their

337

00:12:23,190 --> 00:12:21,360

subscriber count is they have

338

00:12:25,430 --> 00:12:23,200

documentaries on bacteria that eats

339

00:12:27,509 --> 00:12:25,440

plastic on fractals in nature on

340

00:12:29,350 --> 00:12:27,519

piezoelectric materials it's just

341

00:12:31,910 --> 00:12:29,360

staggering the last miscellaneous

342

00:12:33,590 --> 00:12:31,920

channel is thin reaper again all of

343

00:12:35,430 --> 00:12:33,600

these are in the description i happen to

344

00:12:37,350 --> 00:12:35,440

like video game essays i generally fall

345

00:12:39,030 --> 00:12:37,360

asleep to them and i enjoy the work of

346

00:12:40,949 --> 00:12:39,040

this creator and hopefully you will as

347

00:12:42,550 --> 00:12:40,959

well all right that's it visit the

348

00:12:44,550 --> 00:12:42,560

creators in the description and see if

349

00:12:46,069 --> 00:12:44,560

they're your cup of tea make sure to let

350

00:12:47,509 --> 00:12:46,079

them know that you came from the

351

00:12:49,190 --> 00:12:47,519

theories of everything channel so

352

00:12:51,269 --> 00:12:49,200

comment that hey this is from kurt's

353

00:12:53,750 --> 00:12:51,279

recommendation from toe or however you

354

00:12:55,590 --> 00:12:53,760

want to phrase it it will brighten their

355

00:12:57,110 --> 00:12:55,600

day will brighten mind to see some

356

00:12:59,110 --> 00:12:57,120

comments like that on these underrated

357

00:13:00,870 --> 00:12:59,120

channels thank you if you want to

358

00:13:03,949 --> 00:13:00,880

support the toad channel the theories of

359

00:13:07,470 --> 00:13:03,959

everything project then go to

360

00:13:10,230 --> 00:13:07,480

patreon.comgymongo that is c-u-r-t

361

00:13:12,150 --> 00:13:10,240

j-a-i-m-u-n-g-a-l your support helps

362

00:13:14,150 --> 00:13:12,160

every dollar helps tremendously you may

363

00:13:15,670 --> 00:13:14,160

not think it does but it helps it helps

364

00:13:18,470 --> 00:13:15,680

an extreme amount

365

00:13:19,910 --> 00:13:18,480

every time i get a patron it goes on my

366

00:13:21,910 --> 00:13:19,920

phone and i show my wife the

367

00:13:23,829 --> 00:13:21,920

notification and she's super

368

00:13:27,030 --> 00:13:23,839

appreciative as well she's oh my gosh

369

00:13:29,430 --> 00:13:27,040

that's so kind babe so my wife and i

370

00:13:30,470 --> 00:13:29,440

both thank you thank you so much click

371

00:13:32,870 --> 00:13:30,480

on some of the channels in the

372

00:13:40,470 --> 00:13:32,880

description and visit these underrated

373

00:13:44,150 --> 00:13:42,389

the podcast is now finished if you'd

374

00:13:47,269 --> 00:13:44,160

like to support conversations like this

375

00:13:50,190 --> 00:13:47,279

then do consider going to [patreon.com](https://www.patreon.com)

376

00:13:55,110 --> 00:13:53,269

j-a-i-m-u-n-g-a-l that is kurt jaimungle

377

00:13:56,710 --> 00:13:55,120

it's support from the patrons and from

378

00:13:58,230 --> 00:13:56,720

the sponsors that allow me to do this

379

00:14:05,150 --> 00:13:58,240

full-time every dollar helps
