

TOE

shaped vehicles.

1  
00:00:04,730 --> 00:00:01,969  
is there a correlation between any of

2  
00:00:06,710 --> 00:00:04,740  
the characteristics of these uaps UFOs

3  
00:00:08,810 --> 00:00:06,720  
and some other characteristic for

4  
00:00:11,030 --> 00:00:08,820  
example let's say that the Tic Tac

5  
00:00:13,070 --> 00:00:11,040  
shaped ones are more violent or the

6  
00:00:14,690 --> 00:00:13,080  
pyramidal shaped ones are faster is

7  
00:00:16,369 --> 00:00:14,700  
there a classification of them and do

8  
00:00:18,410 --> 00:00:16,379  
they have some other characteristic

9  
00:00:22,310 --> 00:00:18,420  
associated with them what we tend to see

10  
00:00:25,070 --> 00:00:22,320  
are the the smaller Vehicles tend to be

11  
00:00:29,150 --> 00:00:25,080  
uh think of a sports car are you are

12  
00:00:31,550 --> 00:00:29,160  
your uh saucer shaped Vehicles whereas

13  
00:00:34,430 --> 00:00:31,560

the larger Vehicles let's say a school

14

00:00:36,470 --> 00:00:34,440

bus size is that of a of a cylindrical

15

00:00:38,630 --> 00:00:36,480

object or roughly that of a Tic Tac or

16

00:00:41,990 --> 00:00:38,640

even sometimes described as a telephone

17

00:00:44,930 --> 00:00:42,000

pole and then in shape so cylindrical

18

00:00:47,810 --> 00:00:44,940

and then the the tend to be the large

19

00:00:49,970 --> 00:00:47,820

ones where the large ones tend to be uh
