

TOE

ANY POSSIBLE
THEORY

1
00:00:03,470 --> 00:00:01,790
what is it to say that something is real

2
00:00:06,110 --> 00:00:03,480
or to say that one thing is more real

3
00:00:07,909 --> 00:00:06,120
than another and I think that is an

4
00:00:09,770 --> 00:00:07,919
important question and I think that

5
00:00:11,930 --> 00:00:09,780
question can't be decided by just

6
00:00:13,910 --> 00:00:11,940
looking within any particular theory for

7
00:00:15,890 --> 00:00:13,920
its particular fundamentals because what

8
00:00:17,330 --> 00:00:15,900
we're asking I think I would argue when

9
00:00:19,670 --> 00:00:17,340
we're asking questions about reality is

10
00:00:21,710 --> 00:00:19,680
what what makes possible any and all

11
00:00:23,630 --> 00:00:21,720
such intelligibility what makes possible

12
00:00:25,910 --> 00:00:23,640
any possible theory that might turn out

13
00:00:29,570 --> 00:00:25,920

to be true there has to be some aspect

14

00:00:32,990 --> 00:00:29,580

because we take it I think that reality

15

00:00:35,270 --> 00:00:33,000

in some sense corresponds to our ability

16

00:00:38,870 --> 00:00:35,280

to make our claim to find our claims

17

00:00:40,310 --> 00:00:38,880

true or our skills applying or a

18

00:00:42,889 --> 00:00:40,320

perspectives present

19

00:00:44,869 --> 00:00:42,899

Etc so I I'm waving over with that with

20

00:00:47,090 --> 00:00:44,879

my hand because that's a big thorny knot

21

00:00:48,709 --> 00:00:47,100

but I'm trying to pull apart I think

22

00:00:50,630 --> 00:00:48,719

there's reductionism which we put aside

23

00:00:51,830 --> 00:00:50,640

there's fundamentality and I will I

24

00:00:53,330 --> 00:00:51,840

agree with Donald what he just said

25

00:00:54,950 --> 00:00:53,340

about that and but I think we have an
