

1

00:00:00,000 --> 00:00:17,500

There are about 77 million documents marked as top secret or classified by the United

2

00:00:17,500 --> 00:00:18,500

States government.

3

00:00:18,500 --> 00:00:24,180

Among the most sensitive of those relating to top secret UFO programs and in particular,

4

00:00:24,180 --> 00:00:30,780

the encounters by U.S. Air Force pilots with the so-called TIC-TAC UFO crafts in 2004 by

5

00:00:30,780 --> 00:00:37,220

releasing unclassified United States government reports in 2018 that include analysis regarding

6

00:00:37,220 --> 00:00:39,660

interactions with the TIC-TACs.

7

00:00:39,660 --> 00:00:41,820

Journalist George Knapp changed the game.

8

00:00:41,820 --> 00:00:48,240

I produced a document that was leaked from the government that did the first analysis

9

00:00:48,240 --> 00:00:49,240

of TIC-TAC.

10

00:00:49,240 --> 00:00:54,180

They leaked at all the sensor systems that were in the sky, from the ships under the

11

00:00:54,180 --> 00:00:59,460

sea, and they combined all that information to track the capabilities of the TIC-TAC craft,

12

00:00:59,460 --> 00:01:00,460

and they verified it.

13

00:01:00,460 --> 00:01:01,460

It was real.

14

00:01:01,460 --> 00:01:03,660

The same thing was true for the gimbal craft.

15

00:01:03,660 --> 00:01:06,900

This information was never meant to be released to the public.

16

00:01:06,900 --> 00:01:12,740

The military did this analysis behind the scenes, classified in a classified program.

17

00:01:12,740 --> 00:01:17,220

The fact that it is now leaked out has started the debate that we're having all over the

18

00:01:17,220 --> 00:01:25,160

world, but the proof is pretty solid.

19

00:01:25,160 --> 00:01:30,760

How the U.S. government will respond to these allegations remains to be seen.

20

00:01:30,760 --> 00:01:35,480

While in the first half of the 20th century, the government was still seeking an appropriate

21

00:01:35,480 --> 00:01:38,840

strategy to deal with UFO stories.

22

00:01:38,840 --> 00:01:43,120

By the end of the millennium, the way had become clear.

23

00:01:43,120 --> 00:01:49,020

To investigate the phenomenon in absolute secrecy and, if any information should leak

24

00:01:49,020 --> 00:01:51,340

out, it must be denied.

25

00:01:51,340 --> 00:02:00,260

The trail obliterated and evidence confiscated or discounted.

26

00:02:00,260 --> 00:02:04,740

The government insisted that it's not there, it's not there, it's not there.

27

00:02:04,740 --> 00:02:12,540

If some undeniable incident occurs, it's going to make them look very bad.

28

00:02:12,960 --> 00:02:23,760

The U.S. is great at making up false news stories and spreading them throughout the world.

29

00:02:23,760 --> 00:02:27,240

The CIA is a master of this, they've done this for decades.

30

00:02:27,240 --> 00:02:33,880

They're very good also at using the media to scare the public to engage in certain actions.

31

00:02:33,880 --> 00:02:35,600

They do this all the time.

32

00:02:35,600 --> 00:02:40,760

So they certainly would be able to do this about UFOs or UAP.

33

00:02:40,760 --> 00:02:46,620

They have the capability to, if they were to release information, they could do it in

34

00:02:46,620 --> 00:02:53,180

such a way to maximize fear to whatever level they want that would be useful for them.

35

00:03:10,760 --> 00:03:33,960

Top secret UFO projects, declassified, hacked and leaked.

36

00:03:33,960 --> 00:03:38,780

There are many testimonials from around the world that information leaks to the media

37

00:03:38,800 --> 00:03:44,000

about UFO incidents are undesirable and that they have been covered up.

38

00:03:44,000 --> 00:03:49,740

On the basis of these testimonies, it can be reasonably assumed that some of these countries

39

00:03:49,740 --> 00:03:56,300

will have secret agreements with U.S. intelligence services who assist them in suppressing reports

40

00:03:56,300 --> 00:03:58,840

of UFO sightings.

41

00:03:58,840 --> 00:04:06,320

I was every single significant case, no matter what country, whether I had asked them to

42

00:04:06,340 --> 00:04:10,940

travel to America or whether I traveled to their place, they said, it's really funny,

43

00:04:10,940 --> 00:04:14,340

right after the incident occurred there were two men in suits that showed up from some

44

00:04:14,340 --> 00:04:18,140

unknown agency in the U.S. government.

45

00:04:18,140 --> 00:04:24,620

They have men on sight at every one of these locations that I personally have been and

46

00:04:24,620 --> 00:04:28,140

they're making inquiries, they're trying to get an exchange of information, they're

47

00:04:28,140 --> 00:04:32,820

trying to either silence witnesses, get whatever evidence that was gathered in their country.

48

00:04:32,820 --> 00:04:35,060

So they played a very large role.

49

00:04:35,080 --> 00:04:42,080

A prime example is one of the most remarkable cases of UFO sightings in history.

50

00:04:45,080 --> 00:04:50,080

1966, Westall, Melbourne, Australia.

51

00:04:56,080 --> 00:05:00,880

During the mid-morning break at Westall High School in Melbourne, Australia, there were

52

00:05:00,880 --> 00:05:07,880

almost 200 children and school staff outside in the school grounds.

53

00:05:13,300 --> 00:05:17,620

Suddenly, there was a commotion among the children outside and those looking out the

54

00:05:17,620 --> 00:05:20,580

windows gazing at the sky.

55

00:05:20,580 --> 00:05:27,580

A disc-shaped UFO was hovering above them.

56

00:05:31,880 --> 00:05:38,880

A chemistry teacher quickly took photos. After some time, the vessel descended into

57

00:05:40,100 --> 00:05:43,040

a nearby pine grove.

58

00:05:43,040 --> 00:05:50,040

My whole vision was on trying to just look at what I was seeing in the sky and taking

59

00:05:50,300 --> 00:05:56,300

every single detail I could.

60

00:05:56,300 --> 00:06:01,300

There was a lot of noise apparently because the kids were excited, some were frightened,

61

00:06:01,300 --> 00:06:05,420

whatever but I can just remember standing there because I'd never seen anything like

62

00:06:05,420 --> 00:06:11,420

that before and I wanted to take in as much as I could because wow, this was just amazing,

63

00:06:11,420 --> 00:06:13,740

just amazing.

64

00:06:13,740 --> 00:06:20,020

Fourteen-year-old student Madeline Smith ran to the landing site. By the time she got there,

65

00:06:20,020 --> 00:06:22,620

the UFO had taken off.

66

00:06:22,620 --> 00:06:29,620

Marilyn's friend Tanya later fell unconscious and was taken away by an ambulance.

67

00:06:29,820 --> 00:06:35,660

Witnesses described one big flying disc and two smaller accompanying vessels, the larger

68

00:06:35,660 --> 00:06:39,620

vessel left behind a circle in the grass.

69

00:06:39,620 --> 00:06:43,100

TV crews quickly arrived on the scene.

70

00:06:43,100 --> 00:06:49,100

Channel 9 TV filmed interviews with students and journalists interviewed witnesses as well.

71

00:06:51,020 --> 00:06:54,300

And then came the cover-up.

72

00:06:54,300 --> 00:06:59,780

The Channel 9 TV report was never broadcast and no one ever saw the photographs that were

73

00:06:59,780 --> 00:07:01,140

taken.

74

00:07:01,140 --> 00:07:08,140

An interview with a student, Joy Tai, in which she described the UFOs, disappeared from the

75

00:07:08,180 --> 00:07:10,460

G-TV archive.

76

00:07:10,460 --> 00:07:16,460

All this after some mysterious plainclothes officials and soldiers arrived. When they

77

00:07:16,460 --> 00:07:20,820

left, a lot of the evidence vanished with them.

78

00:07:20,820 --> 00:07:25,580

The grass at the landing site was quickly cut and restored to normal.

79

00:07:25,580 --> 00:07:30,820

One week after the incident, the Dandanong Journal claimed that the situation could not

80

00:07:30,820 --> 00:07:37,820

be explained because there were no witnesses willing to speak about it.

81

00:07:40,940 --> 00:07:44,780

They weren't allowed to speak about it anymore, even the teachers were warned. There were

82

00:07:44,780 --> 00:07:49,300

government officials that came and told them they couldn't speak about it. And even the

83

00:07:49,300 --> 00:07:54,300

news media that followed the story, when they went back to look at the files, all the files

84

00:07:54,300 --> 00:07:58,780

were gone. They were taken.

85

00:07:58,780 --> 00:08:04,780

All we want is an answer. All we want is for someone to say to us that, yes, we know what

86

00:08:04,780 --> 00:08:11,100

that did happen that day. It was a very extraordinary experience, but something definitely did happen

87

00:08:11,100 --> 00:08:14,700

that day. It wasn't in your imagination. You weren't on drugs. You weren't on drugs.

88

00:08:15,620 --> 00:08:19,620

It happened.

89

00:08:19,620 --> 00:08:24,820

More than 50 years later, witnesses have preserved the images from the children's memory and

90

00:08:24,820 --> 00:08:30,700

about how government officials tried to erase all signs of the incident.

91

00:08:30,700 --> 00:08:36,140

The teacher who took the photographs had her camera confiscated and for a long time was

92

00:08:36,140 --> 00:08:42,140

threatened with having her career ruined if she ever spoke about the incident.

93

00:08:43,100 --> 00:08:48,940

So this was a government making sure that this wasn't talked about and even the headmaster

94

00:08:48,940 --> 00:08:54,100

was shut down. And that's what happened. And we know this happened. We know that.

95

00:08:54,100 --> 00:08:58,860

They were like flying saucers and that's what we used to call them in those days, you know,

96

00:08:58,860 --> 00:09:02,100

in comic books and all that sort of stuff. That's what they were. They were flying saucers.

97

00:09:02,100 --> 00:09:04,380

So we called them flying saucers.

98

00:09:04,380 --> 00:09:10,180

But the frontline effort to cover up the incident by deleting all records, silencing witnesses

99

00:09:10,220 --> 00:09:15,220

and confiscating photographs was not 100% successful.

100

00:09:15,220 --> 00:09:21,140

Well, there is actually evidence. There's a polaroid camera, a guy that shot a photograph

101

00:09:21,140 --> 00:09:26,540

of it two days prior, 17 kilometers away. And it was performed exactly like the children

102

00:09:26,540 --> 00:09:32,060

said it performed right down to the point where it pivots up like this and rockets away.

103

00:09:32,060 --> 00:09:38,700

A young engineer from the suburb of Balwin took the picture of the event from his garden.

104

00:09:38,700 --> 00:09:46,220

They show a metallic like UFO tipped vertically on its side. The Victorian flying saucer research

105

00:09:46,220 --> 00:09:54,260

society very carefully analyzed the photograph and they concluded the photo showed no sign

106

00:09:54,260 --> 00:10:00,580

of multiple exposure, montage or any other tampering.

107

00:10:00,580 --> 00:10:05,700

The strategy of rapid response to leaked information about UFO incidents was established in the

108

00:10:05,700 --> 00:10:12,140

1950s during Project Blue Book. Techniques of manipulation and cover-up were improved

109

00:10:12,140 --> 00:10:20,620

over time and have since been developed almost to perfection.

110

00:10:20,620 --> 00:10:25,100

So it's not surprising they were able to get people on board and the institutions. And

111

00:10:25,100 --> 00:10:31,380

then as things went forward, they had to deal with increasing developments and research

112

00:10:31,380 --> 00:10:38,300

and evidence and they developed more skills and they applied everything they had at their

113

00:10:38,300 --> 00:10:46,540

disposal to keep this issue from ever formally being confirmed. That's the truth embargo.

114

00:10:46,540 --> 00:10:52,260

However, a unique case of an uncontrollable information leak about UFO sightings is the

115

00:10:52,260 --> 00:10:59,100

Cash Landrum incident from 1980, which could not be entirely discredited because the witnesses

116

00:10:59,220 --> 00:11:08,220

took an unprecedented step of taking the matter to court. December 29, 1980, near the small

117

00:11:08,220 --> 00:11:13,580

town of Huffman, Texas.

118

00:11:13,580 --> 00:11:19,540

Betty Cash, Vicki Landrum and her seven-year-old grandson Colby are returning home along the

119

00:11:19,540 --> 00:11:35,100

road to Dayton, Texas at night, when suddenly a bright light appears among the trees. After

120

00:11:35,100 --> 00:11:42,180

a few bends further along the road, a diamond shape appears about 15 meters high at a level

121

00:11:42,180 --> 00:11:49,900

of the treetops. Vicki, a devout Christian, believes it is the second coming of Jesus

122

00:11:49,900 --> 00:12:00,380

Christ. She and Betty got out of the car to see the object and to welcome Christ. Flames

123

00:12:00,380 --> 00:12:05,860

are shooting from the bottom of the vessel and the car and surroundings become very hot.

124

00:12:12,860 --> 00:12:18,780

The object lit up the surrounding pine woods like it was daylight. I was burning, my skin

125

00:12:18,780 --> 00:12:24,020

was burning, fire was coming out of the bottom like a boat torch. It lifted up and then flew

126

00:12:24,020 --> 00:12:30,860

over the trees. That was when we saw the helicopters come out. The helicopters. Colby County, 23

127

00:12:30,860 --> 00:12:35,580

of them. Yes, it seemed that they were trying to escort the crash somewhere. It looked like

128

00:12:35,580 --> 00:12:41,740

they were about to collide. The roar sounded like a tornado. When we got home, I washed

129

00:12:41,740 --> 00:12:46,980

Colby off and put him to bed. When the water touched his skin, he cried out like he had

130

00:12:46,980 --> 00:12:56,100

been burned as if he had been in the sun too long. That evening, Betty, Vicki and Colby

131

00:12:56,100 --> 00:13:03,780

suffer from nausea, resembling symptoms of exposure to radiation. And I was too sick

132

00:13:03,860 --> 00:13:09,180

to work the next day. My eyes swell closed and welts appeared on my face and head. I

133

00:13:09,180 --> 00:13:14,500

thought it was going to die. Vicki came and took me to the emergency room of the hospital.

134

00:13:14,500 --> 00:13:19,860

They treated me like a burnt burn patient. Over the next few days, I kept losing big

135

00:13:19,860 --> 00:13:26,220

patches of skin on my face and about half my hair fell out. They kept me in the hospital

136

00:13:26,300 --> 00:13:35,940

over a month with no improvement. April 1981, a CH-47 helicopter landed in Dayton and was

137

00:13:35,940 --> 00:13:44,980

greeted by curious townspeople. The pilot mentions that he had been in Dayton a year

138

00:13:44,980 --> 00:13:50,660

earlier pursuing an unknown vessel. But as soon as he finds out that eyewitnesses to

139

00:13:50,740 --> 00:14:00,460

the event are among the crowd, he quickly ends the discussion. In this field that we're

140

00:14:00,460 --> 00:14:04,940

in, there couldn't be more witnesses. But it's still not enough. It's still not good enough.

141

00:14:04,940 --> 00:14:10,620

So it doesn't matter how much proof anybody has. It's not good enough if it's too mind-blowing

142

00:14:10,620 --> 00:14:15,780

or too difficult to accept as reality. In accord, a lot of it would work. Yeah, there's witnesses.

143

00:14:15,860 --> 00:14:20,740

Oh yeah, there's evidence. There's marks. There's places, locations, this and that. There's

144

00:14:20,740 --> 00:14:25,860

stories. There's books that have been written. There's more evidence than we can possibly imagine.

145

00:14:25,860 --> 00:14:30,980

What people have to stop doing is saying, where's the proof? Because the proof is already there.

146

00:14:30,980 --> 00:14:34,660

Has the government ever expressed a willingness to take responsibility for this thing?

147

00:14:34,660 --> 00:14:41,100

No. And I'm mad. I'm mad as hell and disappointed with the government of our United States.

148

00:14:42,100 --> 00:14:48,860

Betty Cash and Vicki Landrum eventually sued Berchturm Air Force Base for \$20 million in damages.

149

00:14:48,860 --> 00:14:56,300

But in 1986, a district court judge dismissed the lawsuit because the helicopters involved had not

150

00:14:56,300 --> 00:15:02,180

been proven as belonging to the U.S. government. Furthermore, military officers denied in court

151

00:15:02,180 --> 00:15:08,940

that the United States armed forces possessed a diamond-shaped aircraft of any kind. But many

152

00:15:09,020 --> 00:15:15,100

years later, Richard Dottie, a former government agent of the Office of Special Investigations,

153

00:15:15,100 --> 00:15:22,220

declared that it did exist. And it was a prototype vessel from a secret reverse engineering program

154

00:15:22,220 --> 00:15:28,860

experimenting with nuclear propulsion. A problem with the aircraft reportedly occurred in Cash and

155

00:15:28,860 --> 00:15:35,580

Landrum just happened to be in the wrong place at the wrong time. There's been numerous craft

156

00:15:35,980 --> 00:15:41,180

around the world. And I believe that that technology was something that they wanted to keep secret

157

00:15:41,180 --> 00:15:44,700

for their own purposes. And I think this is why they're doing it around the world,

158

00:15:44,700 --> 00:15:50,860

because that technology could change the way that we are living now. And I believe those

159

00:15:50,860 --> 00:15:56,060

that have this technology are only going to utilize it for their own benefit. So there's lots of

160

00:15:56,060 --> 00:16:02,220

reasons why it suits them to keep this quiet. Over the years, there have been a number of

161

00:16:02,300 --> 00:16:06,620

instances where leaks have come out, or at least what seem to be genuine leaks.

162

00:16:06,620 --> 00:16:08,300

One is the Gary McKinnon case.

163

00:16:11,340 --> 00:16:17,580

The case of the most infamous government database hacker, Gary McKinnon, is highly significant,

164

00:16:17,580 --> 00:16:23,900

since it is the most concrete information we have about the existence of a secret UFO program.

165

00:16:24,380 --> 00:16:34,940

He didn't exactly hack in. That's not quite accurate to say that he was a hacker. He created,

166

00:16:34,940 --> 00:16:42,940

I think he called it a pearl script, where he was able to find sites within that web that

167

00:16:42,940 --> 00:16:49,180

either had no password or had password as their password. Cyber security was really lax. But this

168

00:16:49,260 --> 00:16:56,140

is the late 1990s. This is why Gary McKinnon's attempt to download the photo was unsuccessful.

169

00:16:56,140 --> 00:17:02,780

His connection was able to be intercepted just in time by the government and the photo deleted.

170

00:17:02,780 --> 00:17:07,420

But that didn't prevent the story from breaking into a blaze of publicity.

171

00:17:11,820 --> 00:17:14,460

February 2001, London.

172

00:17:14,700 --> 00:17:21,820

When Gary McKinnon sat down at his computer in London in February of 2001,

173

00:17:22,380 --> 00:17:26,540

to launch what was later described as the greatest hack of the century,

174

00:17:27,180 --> 00:17:31,900

he was inspired by witnessing something in the night sky at the age of 13,

175

00:17:32,700 --> 00:17:39,660

something that had profoundly affected him. Gary had witnessed a glowing orange shape

176

00:17:39,660 --> 00:17:45,980

moving in a way that left him no doubt that he was not observing a natural phenomenon or

177

00:17:45,980 --> 00:17:52,300

terrestrial craft. A few months after the 9-11 terrorist attacks on the New York Twin Towers,

178

00:17:52,860 --> 00:17:56,540

the following message appeared on one of the Pentagon's computers.

179

00:17:57,660 --> 00:18:06,380

Your security system is crap. I am solo. I will continue to disrupt the highest levels.

180

00:18:07,020 --> 00:18:10,220

The Pentagon was suddenly on high alert.

181

00:18:12,780 --> 00:18:16,300

What I was doing was illegal, but at the time I felt it was morally right in view of getting

182

00:18:16,300 --> 00:18:20,700

hold of this technology, getting it out to the public. And it was actually easy getting into

183

00:18:20,700 --> 00:18:25,980

the Pentagon. I scanned for blank passwords. I'm not some great big computer criminal mastermind.

184

00:18:26,700 --> 00:18:33,340

Between February 2001 and March 2002, an unknown assailant calling himself solo,

185

00:18:33,900 --> 00:18:40,700

in fact, McKinnon's alias, managed to copy data from about 100 computers belonging to various

186

00:18:40,700 --> 00:18:45,500

departments of the U.S. military. He copied data and passwords four months.

187

00:18:46,780 --> 00:18:51,100

I was looking for evidence of UFO technology, and I know that's laughed out by a lot of people.

188

00:18:52,140 --> 00:18:55,900

But I was working from witness testimony of a group called the Disclosure Projects,

189

00:18:55,900 --> 00:18:59,820

400 military witnesses, some ex-military, some still current at the time.

190

00:19:00,540 --> 00:19:04,940

Anything all the way up from radar, air traffic controllers all the way up to strategic air

191

00:19:04,940 --> 00:19:10,220

command. You know, very credible people, and they all said that yes, UFOs were real, yes,

192

00:19:10,220 --> 00:19:15,180

they were extraterrestrial. And in addition to that, rogue elements of military and intelligence

193

00:19:16,380 --> 00:19:21,580

captured and reverse engineered some of the technology, and they had a free energy technology.

194

00:19:21,580 --> 00:19:24,620

And you know, in these days of oil crisis and stuff, I found that hugely interesting,

195

00:19:25,260 --> 00:19:29,100

and thought at the time was morally correct to break the law in order to get the technology out

196

00:19:29,660 --> 00:19:35,340

of it. Despite using an alias, Gary made no other attempts to cover his tracks.

197

00:19:35,900 --> 00:19:41,180

He wanted what he had learned to come out. He was arrested by the United Kingdom's National

198

00:19:41,180 --> 00:19:47,580

High-Tech Crime Unit in March of 2002. We learned that his primary goal was to discover

199

00:19:47,580 --> 00:19:53,180

classified information about UFOs from the U.S. Defense Department and NASA's servers.

200

00:19:53,260 --> 00:20:00,700

He successfully engaged some top secret files, and they were bigger than that. And it was

201

00:20:01,740 --> 00:20:10,060

strange what he was reporting. It should have been ridiculous, except some of this is coming out.

202

00:20:10,060 --> 00:20:14,860

It's just that in my own country, the punishment of final authorized access is,

203

00:20:14,860 --> 00:20:21,980

you know, six months in prison or I think a year maximum. And I think the U.S. authorities have

204

00:20:21,980 --> 00:20:28,060

been extremely heavy-handed. And even they've got to the point where I'm officially referenced to,

205

00:20:28,060 --> 00:20:36,700

as a terrorist, an official Army training manual for combating terrorism in the 21st century.

206

00:20:36,700 --> 00:20:43,100

I think Gary had it exactly right. So he saw ships connected to the U.S. Navy that were not part of

207

00:20:43,100 --> 00:20:47,820

the United States Navy of any inventory that we know of. And something called a ship of

208

00:20:48,620 --> 00:20:54,780

non-terrestrial officers, which was quite interesting. The real key to the Gary McKinnon

209

00:20:54,780 --> 00:21:02,300

case is how the U.S. tried to extradite him for more than a decade and really tried to ruin his life.

210

00:21:03,820 --> 00:21:08,220

Fortunately for Gary, he was not extradited and the British government

211

00:21:09,660 --> 00:21:14,700

was able to defend him against extradition. Clearly, there is a difference between hacking

212

00:21:14,700 --> 00:21:20,140

into government computer servers and databases and being in receipt of the same information

213

00:21:20,140 --> 00:21:27,260

from a trusted source within the secret programs themselves. Even then, we would be just talking

214

00:21:27,260 --> 00:21:33,500

about fragments since government departments are so skilled at compartmentalizing their activities

215

00:21:33,500 --> 00:21:40,940

and minimizing the risk of anyone potential source or employee being able to see the whole picture.

216

00:21:40,940 --> 00:21:46,700

When I had a clearance, there were programs I'd be in where I would have a lot of information

217

00:21:46,700 --> 00:21:52,140

about a certain thing. It's like a pyramid. The more you know, the farther up this pyramid you go.

218

00:21:52,140 --> 00:21:56,780

Okay? In clearance. When you're here, you see this much stuff. When you're here at the top,

219

00:21:56,780 --> 00:22:01,900

you only get this little tiny bit. Okay? And the next pyramid over of another program that might

220

00:22:01,900 --> 00:22:08,540

be looking at a similar thing such as a UFO system or that's flying around, they're up at the top too.

221

00:22:08,540 --> 00:22:13,420

They never see your top of your pyramid or so they don't know the big picture. That's one way

222

00:22:13,420 --> 00:22:18,140

they can compartmentalize it. They can keep a secret when they want to. So when they really

223

00:22:18,140 --> 00:22:23,420

want to keep a secret, they can do it and they compartmentalize it. When someone claims that

224

00:22:23,420 --> 00:22:29,500

he goes to Mars for 20 years and his time regressed and age regressed back, he's able to say that

225

00:22:29,500 --> 00:22:34,860

because it's clearly not true and he's making up a series of fantasies. So that's one thing.

226

00:22:34,940 --> 00:22:41,660

But for legitimate information, we have to ask, well, why does any of it come out? Well, in general,

227

00:22:41,660 --> 00:22:47,900

we have to say that most of it never comes out. So most of the information within that community

228

00:22:47,900 --> 00:22:54,380

is still very tightly controlled. Absolutely. In the same year that the British and American

229

00:22:54,380 --> 00:23:00,140

authorities are negotiating the extradition of Gary McKinnon, another information leak occurs.

230

00:23:00,780 --> 00:23:07,500

The world learns incredible facts from 15 pages of notes from a dialogue between a highly respected

231

00:23:07,500 --> 00:23:14,780

scientist and a high-ranking official in U.S. military and national security. Many refer to

232

00:23:14,780 --> 00:23:23,580

this autumn 2002 event as the most significant UFO leak ever. It all began when three men decided

233

00:23:23,580 --> 00:23:28,780

to draw the attention of a high-ranking Pentagon official to a secret UFO program.

234

00:23:29,500 --> 00:23:36,700

I came here to Washington with a Navy commander by the name of Will Miller and Dr. Stephen Greer

235

00:23:37,740 --> 00:23:42,780

and we were able to get an appointment at the Pentagon to talk about what we knew,

236

00:23:42,780 --> 00:23:50,300

or what we allegedly knew, what we thought we knew and went and told our story. The Admiral said,

237

00:23:50,300 --> 00:23:54,860

well, I don't know that story. I don't know that that's true, but I will find out.

238

00:23:54,940 --> 00:24:01,660

October 2002, Las Vegas.

239

00:24:04,220 --> 00:24:11,340

Physicist Eric Davis, a specialist among other things in advanced military technologies, arrives

240

00:24:11,340 --> 00:24:18,700

at the EG&G building near the intersection of Greer Drive and Paradise Road at exactly 10 o'clock

241

00:24:18,700 --> 00:24:25,020

in the morning. Another car then arrives with Admiral Thomas Wilson dressed in civilian clothes.

242

00:24:25,740 --> 00:24:31,260

Wilson, in his 50s, with an extraordinary career in the United States Navy behind him,

243

00:24:31,260 --> 00:24:36,620

and just a few months earlier, the director of the Defense Intelligence Agency.

244

00:24:37,580 --> 00:24:44,700

He is accompanied by two men in Navy uniforms. Wilson gets into Davis's car and they spend

245

00:24:44,700 --> 00:24:52,460

about an hour talking in the back seat. Later, Eric Davis reconstructs the dialogue into a 15-page

246

00:24:52,460 --> 00:24:59,020

document containing devastating evidence about the extent of government-led UFO cover-ups.

247

00:25:00,860 --> 00:25:05,580

They weren't going to let me in the door. They wouldn't accept my arguments that they fell

248

00:25:05,580 --> 00:25:11,180

under my statutory oversight and regulatory authority as Deputy Director, DIA.

249

00:25:11,500 --> 00:25:18,540

Wilson describes how he, an Admiral in the U.S. Navy, was denied access to all but a fragment

250

00:25:18,540 --> 00:25:24,300

of information about the top secret program and that on the list of people granted oversight,

251

00:25:24,300 --> 00:25:30,460

there was no one from the White House or even from Congress or any elected official.

252

00:25:31,100 --> 00:25:37,500

It was not a weapons program, nor an intelligence program. It was something entirely different.

253

00:25:41,660 --> 00:25:48,940

The private industry is very interested in UFO technology. Eric Davis being the employee of

254

00:25:48,940 --> 00:25:56,540

Robert Bigelow and Robert Bigelow is, of course, the famous billionaire who has been investigating

255

00:25:57,900 --> 00:26:06,060

strange paranormal phenomena for decades, also for the Pentagon. Eric Davis is an important

256

00:26:06,060 --> 00:26:13,660

scientist and they'd all been interested in what do the other corporations know.

257

00:26:15,180 --> 00:26:21,100

As the conversation progressed, Wilson revealed his concerns over the work within the top secret

258

00:26:21,100 --> 00:26:28,940

program. And what were they then? They were a reverse engineering program. Something recovered

259

00:26:28,940 --> 00:26:35,180

years ago in the past. Program managers said they didn't know where it was from. It was technology

260

00:26:35,180 --> 00:26:43,260

that was not of this earth, not made by man, not by human hands. So if it's true that private

261

00:26:43,260 --> 00:26:50,060

corporations are in the possession of extraterrestrial remnants of whatever origin, whatever kind,

262

00:26:50,620 --> 00:26:57,340

then it is also logical to assume that other private companies who want to build that stuff

263

00:26:57,340 --> 00:27:02,780

may also be interested in knowing what do they know, what, you know, it's just logical.

264

00:27:03,660 --> 00:27:09,100

Davis kept asking questions, but the more questions he asked, the less answers he got.

265

00:27:09,100 --> 00:27:13,740

Eventually, he began threatening the men, which ended the meeting prematurely.

266

00:27:14,940 --> 00:27:20,380

Did you deal with it somehow? Turned to special access program oversight committee. I was very

267

00:27:20,380 --> 00:27:27,260

angry. Result? If I didn't follow their suggestion, then I would not see director DIA promotion.

268

00:27:27,820 --> 00:27:31,740

Get early retirement, lose one or two stars along the way.

269

00:27:32,540 --> 00:27:38,300

And it was really difficult. He names the exact department where he got information about this

270

00:27:38,300 --> 00:27:44,220

program. Eventually, they invite him to their facility, but just to tell him that he has no

271

00:27:44,220 --> 00:27:50,540

access and that he is not in charge. And they didn't let him inspect the site. They didn't let

272

00:27:50,540 --> 00:27:58,780

him inspect the project. Although Wilson never got inside the program, this recording of the

273

00:27:58,780 --> 00:28:05,100

interview contains so many details and names that most UFO researchers and investigators

274

00:28:05,100 --> 00:28:12,460

consider it entirely credible. It confirms there is a deeply classified program hidden in the

275

00:28:12,460 --> 00:28:19,980

network of the Defense Department, whose purpose was, and perhaps still is, the study of extraterrestrial

276

00:28:19,980 --> 00:28:28,620

technology. I think there's some interesting evidence for this theory that within

277

00:28:28,700 --> 00:28:36,060

government there are different factions. So government is not a single entity moving with

278

00:28:36,060 --> 00:28:42,860

one single common purpose. So you have competing groups, I think, within the government. There may

279

00:28:42,860 --> 00:28:48,380

be one group that wants all this information to come out and they're being fought by another group.

280

00:28:48,940 --> 00:28:54,700

Governments and corporations don't mind me talking about extraterrestrials

281

00:28:55,260 --> 00:29:00,860

or the underground facilities and they really don't like me talking about over unity devices and

282

00:29:00,860 --> 00:29:08,060

zero point energy, which I had laboratories that were making these devices as well. So all day long,

283

00:29:08,060 --> 00:29:14,220

I could talk about ETs because there's no money being made talking about ETs for them. And they

284

00:29:14,220 --> 00:29:21,020

don't believe anyone's going to believe this anyway. They don't care what you know, they care

285

00:29:21,020 --> 00:29:28,060

what you can prove. That's how this game works. The insiders or whistleblowers are mostly former

286

00:29:28,060 --> 00:29:36,780

participants in these secret UFO programs. One such individual was Emery Smith. As a U.S. Air Force

287

00:29:36,780 --> 00:29:43,100

surgical assistant, he claims to have worked undercover on projects relating to the examination

288

00:29:43,100 --> 00:29:50,220

of extraterrestrial life. Smith described in detail how he participated in the autopsies of

289

00:29:50,220 --> 00:30:02,380

extraterrestrial corpses and how strictly the program was guarded. Emery Smith is a good example

290

00:30:02,380 --> 00:30:09,100

of someone who, when he joined the U.S. military, was given an option of becoming part of a Black

291

00:30:09,100 --> 00:30:16,220

program. And then when he did that Black program, he did that side by side with his normal military

292

00:30:16,220 --> 00:30:22,860

service because this is often the way which in the United States is done. Military recruits

293

00:30:22,860 --> 00:30:30,140

are basically given the option to do some additional work on top of their regular assignment,

294

00:30:30,140 --> 00:30:39,740

and that would involve extraterrestrials. Kirtland Air Force Base, New Mexico, 1990 through 1998.

295

00:30:39,820 --> 00:30:48,220

Base, there's a facility called Sandia Labs, and Sandia National Laboratories is another

296

00:30:50,380 --> 00:30:57,900

government-controlled corporation that does a lot of amazing things, but under that facility,

297

00:30:57,900 --> 00:31:07,260

and that's a base inside a military base. So it's like double security. And below that

298

00:31:07,500 --> 00:31:12,460

that building and that little base is a whole underground facility.

299

00:31:17,180 --> 00:31:21,340

Young Emery would enter the building through highly sensitive identification

300

00:31:21,340 --> 00:31:27,980

and security scanning gates. Specialty trained dogs were able to recognize if the person entering

301

00:31:27,980 --> 00:31:35,020

had an infectious or cancerous disease. Everyone who passed through the multi-stage screening

302

00:31:35,020 --> 00:31:41,100

received a special computer tablet containing all the information necessary to navigate the

303

00:31:41,100 --> 00:31:50,300

underground lab and to avoid any paper documents in or out. In the early 1990s at a special laboratory

304

00:31:50,300 --> 00:31:56,460

where Emery usually dissected biological tissues from humans and animal remains, an arm lay on the

305

00:31:56,460 --> 00:32:04,540

autopsy table. Emery was convinced that this arm didn't belong to a human or was of this planet.

306

00:32:05,420 --> 00:32:20,220

I was amazed to see this arm with this hand with color and this blue iridescent field. It was so

307

00:32:20,220 --> 00:32:26,220

beautiful and what was so interesting is they didn't even tell me what I was supposed to do

308

00:32:27,100 --> 00:32:32,380

until I got in there. They wanted to see how I was going to react and if I would be a good

309

00:32:32,380 --> 00:32:38,940

agent to keep my mouth shut and that's all that was for and then I found out later that that arm

310

00:32:41,020 --> 00:32:48,060

was synthetic. It was a fake. Emery, as he claims, passed the test and gradually became a specialist

311

00:32:48,060 --> 00:32:55,420

in autopsies, retrieving and analyzing tissue samples from extraterrestrial corpses. He became

312

00:32:55,420 --> 00:33:02,700

part of the government's inner sanctum of closely guarded secrets on extraterrestrials and UFOs.

313

00:33:03,660 --> 00:33:10,940

There's many different kinds of extraterrestrials out there with many different kinds of looks.

314

00:33:10,940 --> 00:33:18,060

The one thing they all have in common is they all have human DNA. The second thing is they all have

315

00:33:18,540 --> 00:33:25,500

a head, two arms and two legs, the five-star, you know, pointed system of the universe,

316

00:33:26,140 --> 00:33:33,660

which is very fascinating. He soon gained the trust of his superiors, receiving special permission

317

00:33:33,660 --> 00:33:40,780

to access the laboratory secret archive. As he describes it today, it was so extraordinary

318

00:33:40,780 --> 00:33:46,140

that he became addicted to going there and discovering information that was forbidden to others.

319

00:33:48,380 --> 00:33:56,300

This is a giant room made up of eight large pool like pool tables about that size and they were white

320

00:33:56,300 --> 00:34:03,260

and they, you can access this with your hand or your voice and the AI knows who you are and you

321

00:34:03,260 --> 00:34:09,020

have a band on you. They know where you're at all the time inside the facilities. They know if your

322

00:34:09,020 --> 00:34:16,780

heart rate goes up, they know everything. So when you're in the library, you can request anything

323

00:34:16,860 --> 00:34:23,260

that has to do with your project or a future project or extraterrestrial or craft or device

324

00:34:23,260 --> 00:34:28,940

that you're going to be working on. The library gave him access to all the sensitive and closely

325

00:34:28,940 --> 00:34:34,620

guarded information relating to extraterrestrial monitoring work and the secret space program,

326

00:34:34,620 --> 00:34:40,940

and it also offered a completely different perspective on what we perceive as established

327

00:34:40,940 --> 00:34:48,540

and unchanging in our solar system. He claims that he even saw the interstellar highway system

328

00:34:49,180 --> 00:34:58,300

in effect a map to the stars. So the library was just an amazing concept for me to get in

329

00:34:59,020 --> 00:35:06,300

and see things like the moon for instance. There was a great model of the moon three

330

00:35:06,300 --> 00:35:12,140

dimensionally that you can open up and look inside and you know the moon turned out being

331

00:35:12,140 --> 00:35:21,420

something I didn't realize what it really was. The question arises, how is it possible that a

332

00:35:21,420 --> 00:35:28,300

person can keep something so extraordinary to himself for so many years and why he has chosen

333

00:35:28,300 --> 00:35:34,220

to share it now? Well what had happened is I had to come forward just recently

334

00:35:34,940 --> 00:35:41,580

within the last couple of years because I was working with some over unity devices and someone

335

00:35:41,580 --> 00:35:49,900

leaked some information at the lab and it just got a little scary. So I have been kept behind the

336

00:35:49,900 --> 00:35:57,260

scenes for you know 27 years now but I've been coming to events and I've been an insider for

337

00:35:57,260 --> 00:36:03,660

many of my colleagues here for over a decade. I think not everyone within the military industrial

338

00:36:03,660 --> 00:36:09,020

complex supports disclosure. There are some groups that want to keep the secrecy for another 50 years.

339

00:36:10,300 --> 00:36:15,900

But will their attempts be successful or is the genie already out of the bottle?

340

00:36:16,940 --> 00:36:23,340

A completely different attempt this time not to obtain information but to declassify the content

341

00:36:23,340 --> 00:36:32,620

of secret programs was leaked to the public in March 2016. Russian hackers send a phishing email

342

00:36:32,620 --> 00:36:39,820

to John Podesta who was at the time Hillary Clinton's campaign chairman. Subsequent opening of the

343

00:36:39,820 --> 00:36:48,220

Podesta mail allows the hackers to access approximately 60,000 private emails. Many of these of course

344

00:36:48,780 --> 00:36:55,180

related to the Clinton presidential campaign but some of them related to something entirely different.

345

00:36:55,260 --> 00:37:04,540

When news emerged that John Podesta's email had been hacked obviously everyone was interested in

346

00:37:05,100 --> 00:37:11,580

you know all sorts of different aspects of it but the surprising aspect was apparent communication

347

00:37:11,580 --> 00:37:19,820

between Tom DeLong and John Podesta about UFOs. Private emails from Hillary Clinton's advisor posted

348

00:37:19,820 --> 00:37:27,980

on WikiLeaks proved that former Blink 182 singer Tom DeLong did contact Podesta undoubtedly with

349

00:37:27,980 --> 00:37:34,620

the purposeful intention of developing mutual cooperation on release of UFO information.

350

00:37:35,340 --> 00:37:42,060

Tom DeLong is a very nice guy. He is deeply involved in the UFO subject. He's also very familiar with

351

00:37:43,100 --> 00:37:48,860

virtually everything you need to know about it and he's had some very interesting contacts in the

352

00:37:48,860 --> 00:37:55,580

U.S. intelligence community. As well as being Hillary Clinton's presidential campaign manager

353

00:37:55,580 --> 00:38:02,140

John Podesta's abiding interest in the UFO phenomenon was so well known that he was nicknamed

354

00:38:02,140 --> 00:38:08,860

the X-Files man in Bill Clinton's White House. The discovery of these emails reinforced the

355

00:38:08,860 --> 00:38:14,300

impression that Podesta could have been an active link between the White House and the emerging

356

00:38:14,300 --> 00:38:20,300

group of government officials associated with the UFO phenomenon. I think what you can see from

357

00:38:20,300 --> 00:38:29,100

those WikiLeaks emails is that Tom DeLong had been preparing a huge thing together with John Podesta.

358

00:38:29,100 --> 00:38:37,260

How do you say there's a multi-channel marketing approach with books, series, TV, shows, feature

359

00:38:37,260 --> 00:38:44,780

film, stuff like that and he had the interest of John Podesta. With Hillary Clinton's defeat to

360

00:38:44,780 --> 00:38:51,180

Donald Trump in the 2016 presidential election, the proposed link between DeLong and the two

361

00:38:51,180 --> 00:38:58,460

the stars Academy and the Clinton White House was no longer achievable. They therefore had to select

362

00:38:58,460 --> 00:39:06,940

an alternative plan to get the information out via the United States Congress. Have guided Congress

363

00:39:07,340 --> 00:39:12,300

with getting all the data, all the briefings and all the people in various parts of the government

364

00:39:12,300 --> 00:39:18,540

to brief the senators and congressmen. We did all that. It actually leaked on a handful of weeks ago

365

00:39:18,540 --> 00:39:22,140

when you saw these articles in the New York Times and wherever where it said the Navy is creating

366

00:39:22,140 --> 00:39:27,340

formal mechanisms for reporting UFOs. That was us. That was to the stars Academy. That was our show.

367

00:39:27,340 --> 00:39:32,140

It's on the show. It's really just following around what we do at to the stars Academy. We

368

00:39:32,140 --> 00:39:38,940

deal with the US government every single day. I think Tom DeLong said in a tweet shortly after

369

00:39:38,940 --> 00:39:46,620

WikiLeaks published those files, those emails. He said, you don't know what you have just destroyed,

370

00:39:46,620 --> 00:39:51,740

the whole mess you have created. And I think they had a completely different plan in the beginning.

371

00:39:52,300 --> 00:39:57,260

I think their plan was that Hillary Clinton would become president and that this would somehow

372

00:39:58,220 --> 00:40:05,180

they would somehow work together. Maybe the intelligence community is using this as a way

373

00:40:06,140 --> 00:40:13,020

to disclose but through the back door. And what I'm trying to say is that maybe politically,

374

00:40:13,020 --> 00:40:18,780

the president can't say my fellow Americans, people of the world, we're not alone because the

375

00:40:18,780 --> 00:40:24,780

implication is that governments have known about this and lied for it for 70 years. But maybe

376

00:40:24,780 --> 00:40:33,740

there's a way to just slip it out piece by piece so that the end result is the same. People end up

377

00:40:33,740 --> 00:40:42,380

knowing that this is real and and the information is out there. But it's done through this third party.

378

00:40:44,860 --> 00:40:51,820

In recent years, it has become clear that the effort to publicize information on UFOs has generated

379

00:40:51,820 --> 00:40:57,420

new momentum since the WikiLeaks scandal, despite the results of the 2016 election.

380

00:40:58,300 --> 00:41:04,540

In 2017, the Academy of Arts and Sciences with Tom DeLong and former Pentagon

381

00:41:04,540 --> 00:41:11,020

point men on UFOs Luis Elizondo released three videos from the Pentagon's secret program archive.

382

00:41:12,300 --> 00:41:18,220

These videos have provided fascinating new insight into the extent of contact with and

383

00:41:18,220 --> 00:41:27,340

research on the infamous Tic Tac UFO craft. So far, this initiative presents UFOs renamed UAPs

384

00:41:27,980 --> 00:41:35,980

as a threat. But is it not more possible that technologically unsurpassable craft that have

385

00:41:35,980 --> 00:41:42,140

been flying overhead for centuries, perhaps even millennia, are more of a hope than a threat?

386

00:41:43,020 --> 00:41:49,820

The world is bracing itself for further revelations, perhaps a formal acknowledgement from the highest

387

00:41:49,820 --> 00:41:57,500

ranks in government that top secret UFO programs do exist and that they have shown, as so many have

388

00:41:57,500 --> 00:42:08,700

suspected, that we are not alone in the universe. We're going to have to help push along a process

389

00:42:08,700 --> 00:42:15,340

in which the people in the world and government start to get more information and engage this thing

390

00:42:15,980 --> 00:42:21,580

until eventually they have no choice but to acknowledge, yes, there's extra trust

391

00:42:21,580 --> 00:42:27,900

with here and probably even say, and there's not a damn thing we can do about it. Firstly,

392

00:42:27,900 --> 00:42:36,140

we know that there are more videos, photographs and videos, like the videos that we've seen of the

393

00:42:36,140 --> 00:42:43,020

Navy jets chasing UFOs. So we go to see more of those sorts of videos, I think. Secondly,

394

00:42:43,020 --> 00:42:51,020

I think we'll see more documents and I think the other thing we will see is that more people who

395

00:42:51,020 --> 00:42:59,260

have been involved in this, either as witnesses or as people who have been involved in the program,

396

00:42:59,260 --> 00:43:05,260

they are going to come forward and speak out. I think that we're seeing what we're seeing now

397

00:43:05,260 --> 00:43:11,020

because of social media and the digital age, that everybody is sharing information at a rapid rate.

398

00:43:11,020 --> 00:43:15,420

So if something seems like it's changing, it's because the information is flowing in a different

399

00:43:15,420 --> 00:43:21,260

way now. This phenomenon is ancient as far as we can tell from the beginning of recorded human

400

00:43:21,260 --> 00:43:27,660

history. So we'll see what happens. So the military is always looking for money and they will use that,

401

00:43:27,660 --> 00:43:33,340

the public opinion, to scare the public so we can get more money to do this. We need a space

402

00:43:33,340 --> 00:43:40,140

force. Let's scare the public into thinking we need to protect them from your choice here, A, B or C,

403

00:43:40,140 --> 00:43:50,620

asteroids, aliens, anything. So that's something that does happen. This is a road and we're not at

404

00:43:50,620 --> 00:43:53,900

the end of that road. Yeah.
