

1

00:00:00,000 --> 00:00:23,520

The United States is unquestionably the prime candidate for potential disclosure of the

2

00:00:23,520 --> 00:00:26,640

hidden truth about UFOs.

3

00:00:26,640 --> 00:00:32,080

The UFO phenomenon has long been associated with the world's number one military superpower.

4

00:00:32,080 --> 00:00:38,440

But what if other countries have come in contact with extraterrestrials and have covered it

5

00:00:38,440 --> 00:00:41,560

up?

6

00:00:41,560 --> 00:00:47,240

For example, what secrets do the archives of the former Soviet Union hold?

7

00:00:47,240 --> 00:00:53,760

And what do the two bitter cold war rivals know about each other's UFO monitoring programs?

8

00:00:54,760 --> 00:00:58,280

I don't think the Americans have a monopoly of this secret.

9

00:00:58,280 --> 00:01:05,120

I firmly believe the Russians have had probably an equal amount of knowledge of this for about

10

00:01:05,120 --> 00:01:09,320

as long a time.

11

00:01:09,320 --> 00:01:13,120

United States is very much interested in Russian ufology.

12

00:01:13,120 --> 00:01:15,760

It was interested in Soviet ufology.

13

00:01:15,760 --> 00:01:21,440

You can see the classified files and just reading those files, you become amazed at

14

00:01:21,440 --> 00:01:23,640

what they wanted to know.

15

00:01:23,640 --> 00:01:29,320

And vice versa, they brought documents from the United States to Stalin and he wanted

16

00:01:29,320 --> 00:01:33,680

to know what is it that UFOs are.

17

00:01:33,680 --> 00:01:41,000

And of course, during the Reagan administration, Reagan said to Secretary General Gorbachev

18

00:01:41,000 --> 00:01:47,280

many times that there was a need for the Soviet Union and the United States to cooperate

19

00:01:47,280 --> 00:01:53,320

in face of an extraterrestrial threat because Reagan was given a briefing where he believed

20

00:01:53,320 --> 00:01:57,360

that some extraterrestrial groups were a real threat.

21

00:01:57,360 --> 00:02:05,680

There is this whole dogma of ridicule concerning UFOs and extraterrestrial life, which has

22

00:02:05,680 --> 00:02:12,760

in my opinion been carefully built up over the decades by some interested parties in

23

00:02:12,760 --> 00:02:19,480

the United States because they were afraid that the Soviet Union may use the UFO frenzy

24

00:02:19,480 --> 00:02:24,440

in the United States to cause some kind of a mass hysteria.

25

00:02:24,440 --> 00:02:30,960

And they were also actively thinking about using the UFO phenomenon as a means to do

26

00:02:30,960 --> 00:02:33,640

psychological warfare in the Soviet Union.

27

00:02:42,760 --> 00:03:08,320

Top Secret UFO Projects.

28

00:03:08,320 --> 00:03:10,200

Declassified.

29

00:03:10,200 --> 00:03:18,520

Soviet Secrets.

30

00:03:18,520 --> 00:03:21,120

Russia is becoming more secretive.

31

00:03:21,120 --> 00:03:23,920

Its military power is increasing.

32

00:03:23,920 --> 00:03:26,800

Putin has his own plans and you can see it.

33

00:03:26,800 --> 00:03:31,560

He's putting much more money into the Navy, into development of the Arctic and the other

34

00:03:31,560 --> 00:03:32,560

territories.

35

00:03:32,560 --> 00:03:38,320

But with this, somehow I see less information about UFOs.

36

00:03:38,320 --> 00:03:43,360

Less interest among Russian public simply because they're not getting any information.

37

00:03:43,360 --> 00:03:47,200

Yeah, they can read about Americans, but nothing about Russia.

38

00:03:47,200 --> 00:03:54,200

What UFO secrets do the Soviet archives hold?

39

00:03:54,200 --> 00:03:57,240

September 1977.

40

00:03:57,240 --> 00:04:04,600

Petrosovetsk Karylia, USSR.

41

00:04:04,600 --> 00:04:11,600

At 10.50 in the evening, Lev Nikolayevich Galkin, a doctor of geophysical sciences,

42

00:04:11,600 --> 00:04:21,200

was looking out the window of his apartment in Petrosovetsk, Russia.

43

00:04:21,200 --> 00:04:25,480

Suddenly he caught sight of something that took his breath away.

44

00:04:25,480 --> 00:04:30,800

Three luminous oval objects moving smoothly in a triangular formation.

45

00:04:30,800 --> 00:04:41,560

Glowing white, the vessels hovered noiselessly about 1 to 1.5 kilometers above the ground.

46

00:04:41,560 --> 00:04:50,440

Dr. Galkin called his wife and together they watched the craft for about a minute.

47

00:04:50,440 --> 00:04:55,000

Galkin went to the next room for binoculars only to miss the lightning disappearance of

48

00:04:55,000 --> 00:04:57,320

the flying objects.

49

00:04:58,320 --> 00:05:04,520

A glowing trail of light remained that reached Galkin's window.

50

00:05:04,520 --> 00:05:10,120

When they inhaled the mist, they immediately felt a burning sensation in their throats

51

00:05:10,120 --> 00:05:16,840

and subsequently for unknown reasons they both suffered from amnesia.

52

00:05:16,840 --> 00:05:24,240

At dawn the following morning, the now legendary UFO which was later nicknamed the jellyfish

53

00:05:24,240 --> 00:05:27,880

appeared over Petrosovetsk.

54

00:05:27,880 --> 00:05:34,000

A dark, amethyst-colored lenticular object surrounded by a semi-transparent ring.

55

00:05:34,000 --> 00:05:39,640

There were a number of plates around its perimeter from which pulsating radio tentacles reached

56

00:05:39,640 --> 00:05:40,840

towards the ground.

57

00:05:40,840 --> 00:05:58,960

After a while, it disappeared beyond the horizon and was later seen over nearby Oniega Lake.

58

00:05:58,960 --> 00:06:02,840

It glowed sharply and then vanished at tremendous speed.

59

00:06:02,840 --> 00:06:06,680

Hundreds of people witnessed the object in nearby residence reported that their window

60

00:06:06,680 --> 00:06:10,600

frames had melted.

61

00:06:10,600 --> 00:06:18,040

That case which took place in Petrosovetsk was a real one and that transformation which

62

00:06:18,040 --> 00:06:29,280

people reported when UFO took a different forms gave a lot of material for a thinking

63

00:06:29,280 --> 00:06:31,320

for discussion.

64

00:06:31,320 --> 00:06:37,560

People felt unusual psychological gloom the day before.

65

00:06:37,560 --> 00:06:42,160

This cannot be explained by Cosmos launching and the Soviets they tried to cover up after

66

00:06:42,160 --> 00:06:47,480

that but it's a very strange case and Petrosovetsk is in North Russia.

67

00:06:47,480 --> 00:06:48,920

It's very interesting territory.

68

00:06:48,920 --> 00:06:55,600

They have had UFO sightings for centuries.

69

00:06:55,600 --> 00:07:00,480

The Petrosovetsk incident prompted an extraordinary meeting at the Soviet Ministry of Defense in

70

00:07:00,480 --> 00:07:05,880

Moscow, the outcome of which was the creation of two new departments devoted to top secret

71

00:07:06,320 --> 00:07:08,200

UFO research.

72

00:07:08,200 --> 00:07:11,920

The first was completely controlled by the Soviet military.

73

00:07:11,920 --> 00:07:19,880

The second was at the Academy of Sciences under the acronym of SETKA.

74

00:07:19,880 --> 00:07:27,640

The program came about in 1978, SETKA, a net in Russia and it was a joint academic and

75

00:07:27,640 --> 00:07:29,800

military program working together.

76

00:07:29,800 --> 00:07:33,920

They were very much concerned military more concerned than scientists because they wanted

77

00:07:33,960 --> 00:07:40,200

to know who is messing with our nuclear silos, who is visiting our super secret submarine

78

00:07:40,200 --> 00:07:41,200

bases.

79

00:07:41,200 --> 00:07:43,440

They were conflicting orders in the armed forces.

80

00:07:43,440 --> 00:07:46,040

Do we shoot at UFOs or do we not?

81

00:07:46,040 --> 00:07:48,760

And they were shooting at UFOs and losing aircraft.

82

00:07:48,760 --> 00:07:51,800

It was on the border with Afghanistan.

83

00:07:51,800 --> 00:07:59,360

Six aircraft were shooting at UFOs and they were destroyed with 12 pilots, gun.

84

00:07:59,360 --> 00:08:04,840

At the same time as they were grappling with this new phenomenon, the Soviet military,

85

00:08:04,840 --> 00:08:10,000

like their U.S. counterparts, were trying to cover up and explain away the sightings

86

00:08:10,000 --> 00:08:16,160

of mysterious craft in places like Petrosovetsk, with claims that these were parts of the

87

00:08:16,160 --> 00:08:18,240

Soviet space program.

88

00:08:18,240 --> 00:08:25,680

This was actually a launch of a satellite, a cosmosatellite, which they said this is

89

00:08:25,680 --> 00:08:31,840

what caused the unusual object that was seen in Petrosovetsk.

90

00:08:31,840 --> 00:08:38,600

But UFOs were seen before, after and in North Russia and Finland.

91

00:08:38,600 --> 00:08:44,320

They couldn't explain the presence of the jellyfish like object over Petrosovetsk if

92

00:08:44,320 --> 00:08:49,400

it was only Soviet technology that they had mistaken.

93

00:08:49,400 --> 00:08:53,040

Why create a special program to study UFOs?

94

00:08:53,040 --> 00:08:57,760

But behind the scenes, the Soviet authorities were panicking.

95

00:08:57,760 --> 00:09:03,760

The sightings of UFOs near their nuclear bases played into their greatest fear, that forces

96

00:09:03,760 --> 00:09:09,800

beyond their control were tampering with their massive nuclear forces and hindering their

97

00:09:09,800 --> 00:09:14,920

ability to strike back in the event of an attack by the United States.

98

00:09:14,920 --> 00:09:19,480

Who, they wondered, could be capable of such a thing?

99

00:09:19,480 --> 00:09:25,760

Now the fact is, from 1945 until the end of the 20th century, there were detonations

100

00:09:25,760 --> 00:09:29,360

of over 2,000 nuclear weapons in this world.

101

00:09:29,360 --> 00:09:36,240

So if you're an extraterrestrial and you are aware that this is actually doing serious

102

00:09:36,240 --> 00:09:42,720

damage to our upper atmosphere, which I'll guarantee you it was, that would be an interest

103

00:09:42,720 --> 00:09:43,720

of theirs.

104

00:09:43,720 --> 00:09:50,000

We spoke at length to a retired U.S. Navy individual from the 1960s who was present

105

00:09:50,000 --> 00:09:55,240

when they were doing these types of tests detonating these high altitude weapons.

106

00:09:55,240 --> 00:09:59,920

He said, look, we had UFOs all the time during those tests, all the time.

107

00:09:59,920 --> 00:10:07,320

It's undeniable that American and Russian nuclear sites have been visited extensively

108

00:10:07,320 --> 00:10:13,200

by UFOs and documented very well, well above chance.

109

00:10:13,200 --> 00:10:19,200

One of the most important pieces of eyewitness evidence of this phenomenon was given by Professor

110

00:10:19,200 --> 00:10:24,720

Jacobs, who served in the United States Air Force in the 1960s.

111

00:10:24,720 --> 00:10:29,680

One of his tasks was filming ballistic missile tests carried out at Vandenberg Air Force Base

112

00:10:29,680 --> 00:10:31,360

in California.

113

00:10:31,360 --> 00:10:37,320

In 1964, there was an unprecedented event during a missile test.

114

00:10:37,320 --> 00:10:38,720

We watched that stage burn out.

115

00:10:38,720 --> 00:10:40,000

We watched the second stage burn out.

116

00:10:40,000 --> 00:10:42,680

We watched the third stage burn out.

117

00:10:42,680 --> 00:10:45,280

And into the frame came something else.

118

00:10:45,280 --> 00:10:49,880

It flew into the frame like this, and it shot a beam of light at the warhead, which is represented

119

00:10:49,880 --> 00:10:51,360

by my thumb here.

120

00:10:51,360 --> 00:10:55,360

Now, remember, all this stuff is flying at several thousand miles an hour.

121

00:10:55,360 --> 00:11:00,240

So this thing fires a beam of light at the warhead, hits it, and then this thing flies

122

00:11:00,240 --> 00:11:01,240

up like this.

123

00:11:01,240 --> 00:11:05,920

Meanwhile, we're all going like this, fires another beam of light, goes around like this,

124

00:11:05,920 --> 00:11:08,880

we're going like this, fires another beam of light, goes down like this, fires another

125

00:11:08,880 --> 00:11:12,480

beam of light, and then flies out the way it came in.

126

00:11:12,480 --> 00:11:17,000

And I said, it looks to me like we got a UFO.

127

00:11:17,000 --> 00:11:22,160

Now the thing that we saw, this object that flew in was circular, it was shaped like a

128

00:11:22,160 --> 00:11:27,000

two saucers cupped like this with a ping pong ball on top.

129

00:11:27,000 --> 00:11:29,760

The beam of light came out of the ping pong ball.

130

00:11:29,760 --> 00:11:31,080

That's what I saw on film.

131

00:11:31,080 --> 00:11:41,040

Now, Major Mansman said to me after some discussion about it, he said, you are never to speak

132

00:11:41,040 --> 00:11:42,680

of this again.

133

00:11:42,680 --> 00:11:49,280

As far as you're concerned, this never happened.

134

00:11:49,280 --> 00:11:57,880

All militaries who have been engaged in UFO research, they said always when we started

135

00:11:57,880 --> 00:12:08,040

kind of a military training, something like this, using the devices containing nuclear

136

00:12:08,040 --> 00:12:16,600

weapons, you would fall immediately, immediately, and they were controlling what's going on.

137

00:12:16,600 --> 00:12:21,760

The appearance of UFOs near military bases containing nuclear missiles or at nuclear

138

00:12:21,760 --> 00:12:28,120

test sites has been documented in a number of countries and appears to be no coincidence.

139

00:12:28,120 --> 00:12:34,400

One notorious case in the early 1980s, concerned not just the appearance of an unidentified

140

00:12:34,400 --> 00:12:42,480

flying object, but also a top secret nuclear near miss, when catastrophe on a massive scale

141

00:12:42,480 --> 00:12:46,480

was only narrowly averted.

142

00:12:46,480 --> 00:12:57,200

October 4th, 1982, nuclear missile base, Usamo, Ukraine, USSR.

143

00:12:57,200 --> 00:13:04,200

In the underground control room of the USO 52035 military unit, where battle stations

144

00:13:04,200 --> 00:13:10,080

to launch a first strike nuclear attack on the United States, Colonel Boris Sokolov and

145

00:13:10,080 --> 00:13:18,800

Lieutenant Colonel Vladimir Plutodov suddenly noticed an alarming regularity.

146

00:13:18,800 --> 00:13:27,600

A massive flying object in the night sky, which, as they put, they only knew from movies.

147

00:13:27,600 --> 00:13:34,840

No windows, a smooth surface, and a vessel that maneuvered silently in an unpredictable

148

00:13:34,840 --> 00:13:39,840

way.

149

00:13:39,840 --> 00:13:45,720

At the base, warning lights lit up on both panels, indicating that nuclear missiles were

150

00:13:45,720 --> 00:13:52,720

being ready for launch.

151

00:13:52,720 --> 00:13:57,760

But this would have to have been approved by command in Moscow, and Moscow knows nothing

152

00:13:57,760 --> 00:13:59,260

about it.

153

00:13:59,260 --> 00:14:05,480

At this moment, the world is one step away from World War III.

154

00:14:05,480 --> 00:14:12,800

For 15 seconds, the base completely loses control of its nuclear arsenal.

155

00:14:12,800 --> 00:14:19,960

Major Davidovich Kuttyman, commander of the control center, later said, I observe spontaneous

156

00:14:19,960 --> 00:14:23,280

illumination of all displays.

157

00:14:23,280 --> 00:14:29,960

Something had manipulated a series of activation codes and put nuclear missiles on standby.

158

00:14:29,960 --> 00:14:36,160

The soldiers present watched in horror, waiting for the devastation to come.

159

00:14:36,160 --> 00:14:41,760

After 15 terrifying seconds, everything returned to normal.

160

00:14:41,760 --> 00:14:46,960

The equipment was later disassembled piece by piece, but no anomalies or faults were

161

00:14:46,960 --> 00:14:47,960

found.

162

00:14:47,960 --> 00:14:54,320

Only with the collapse of the Soviet Union eight years later, would the world learn

163

00:14:54,320 --> 00:14:57,880

how close it came to nuclear holocaust.

164

00:14:57,880 --> 00:15:00,400

I went to Russia in the 90s.

165

00:15:00,400 --> 00:15:01,400

I got the documents.

166

00:15:01,400 --> 00:15:04,680

I interviewed the people who were in charge of that study.

167

00:15:04,680 --> 00:15:05,840

They thought it was a message.

168

00:15:05,840 --> 00:15:10,720

They thought that whoever was in the flying saucers was telling us that these may be your

169

00:15:10,720 --> 00:15:13,600

most powerful weapons, but we're not impressed.

170

00:15:13,600 --> 00:15:16,080

We can take control of them whenever we want.

171

00:15:16,080 --> 00:15:19,800

They turned them off, and then they let us turn them off.

172

00:15:19,800 --> 00:15:21,200

They didn't melt them down.

173

00:15:21,200 --> 00:15:22,560

They turned them on and let us take.

174

00:15:22,560 --> 00:15:23,560

It's a message.

175

00:15:23,560 --> 00:15:28,320

And that's what most of the witnesses think, was a message.

176

00:15:28,320 --> 00:15:33,440

According to the available SETKA documents, the second half of the 1980s was witness to

177

00:15:33,440 --> 00:15:37,880

extensive UFO activity over the Soviet Union.

178

00:15:37,880 --> 00:15:42,160

Mikhail Gorbachev became the general secretary of the Communist Party.

179

00:15:42,160 --> 00:15:46,200

The strategy of secrecy also changes.

180

00:15:46,200 --> 00:15:51,760

The leaders of Soviet space programs and military forces publicly confirm that they have had

181

00:15:51,760 --> 00:15:56,680

UFO research institutes for a long time.

182

00:15:56,680 --> 00:16:00,840

Gorbachev takes chains of the subject of UFOs in the Soviet Union.

183

00:16:00,840 --> 00:16:02,200

No more censorship.

184

00:16:02,200 --> 00:16:04,160

One year later, information comes out.

185

00:16:04,160 --> 00:16:06,240

For four years, incredible information came out.

186

00:16:06,360 --> 00:16:08,080

They wanted to know what's going on.

187

00:16:08,080 --> 00:16:12,560

SETKA collected, imagined Soviet armed forces.

188

00:16:12,560 --> 00:16:16,960

Every soldier has to report anything unusual he sees in the sky.

189

00:16:16,960 --> 00:16:18,480

Every sailor has to report.

190

00:16:18,480 --> 00:16:21,480

We still have forms from that program.

191

00:16:21,480 --> 00:16:24,080

Very interesting scientific descriptions.

192

00:16:24,080 --> 00:16:29,680

And you have to explain what angle the object was flying, what shape, what time, where it

193

00:16:29,680 --> 00:16:30,680

came from.

194

00:16:30,680 --> 00:16:31,680

Excellent.

195

00:16:31,680 --> 00:16:34,120

Because the United States did not have a program like this.

196

00:16:34,120 --> 00:16:39,120

With the collapse of the Soviet Union, a number of noticeable disclosures on UFO encounters

197

00:16:39,120 --> 00:16:43,400

came to light from other Eastern Bloc countries.

198

00:16:43,400 --> 00:16:49,400

UFOs were encountered by military pilots from Poland, Hungary, and Czechoslovakia.

199

00:16:49,400 --> 00:16:54,200

For example, the crew of a Czechoslovak army helicopter encountered something that the

200

00:16:54,200 --> 00:17:01,400

US military would encounter some 30 years later, the UFOs known as tiktaks.

201

00:17:04,120 --> 00:17:11,080

July 12, 1987, Vranov Dam, Czechoslovakia.

202

00:17:11,080 --> 00:17:18,080

The three-member Czechoslovak army crew of the MI-24D military combat helicopter were

203

00:17:18,080 --> 00:17:21,320

ordered to take off immediately that day in July.

204

00:17:21,320 --> 00:17:26,880

Radar had detected that the airspace border with Austria had been breached by an unknown

205

00:17:26,880 --> 00:17:28,160

object.

206

00:17:28,160 --> 00:17:37,160

The world was still divided politically and militarily into Eastern and Western blocks.

207

00:17:37,160 --> 00:17:41,720

We then saw something like a reflection of the cockpit of a plane.

208

00:17:41,720 --> 00:17:52,600

So we reported that the target looks like a fighter, but at a great distance.

209

00:17:52,600 --> 00:17:56,240

So after that, they started to guide us to it.

210

00:17:56,240 --> 00:18:00,880

They climbed up to 3,800 meters above the clouds.

211

00:18:00,880 --> 00:18:06,640

We still didn't see anything.

212

00:18:06,640 --> 00:18:11,480

We flew in those clouds and at the same altitude as the object.

213

00:18:11,480 --> 00:18:15,360

Then you say to yourself, it's just here somewhere.

214

00:18:15,360 --> 00:18:19,720

The impact is going to come in a second.

215

00:18:19,720 --> 00:18:24,440

These maneuvers against us were definitely dangerous, I think.

216

00:18:24,440 --> 00:18:30,080

When you're somewhere in a cloud in a helicopter that has no locator and you have to trust

217

00:18:30,080 --> 00:18:36,000

the guidance station, you feel pretty unsure in a situation like this.

218

00:18:36,000 --> 00:18:39,200

The onboard technician very quickly dressed in a parachute.

219

00:18:39,200 --> 00:18:43,360

I think he broke the record in dressing at that time.

220

00:18:43,360 --> 00:18:50,080

It was such an awkward situation.

221

00:18:50,080 --> 00:18:53,240

At some point, something flew above us.

222

00:18:53,240 --> 00:19:00,360

We saw a light object and we saw quite clearly it was an aircraft type object, but with no

223

00:19:00,360 --> 00:19:02,320

wings.

224

00:19:02,320 --> 00:19:07,520

Some kind of cigar of the color of reflection of aluminium.

225

00:19:07,520 --> 00:19:17,400

And it made such strange maneuvers, always moving as to the sun, a smart object.

226

00:19:17,400 --> 00:19:20,040

It looked like a wrapped cigar.

227

00:19:20,040 --> 00:19:22,200

No windows, nothing.

228

00:19:22,200 --> 00:19:24,640

I didn't see any wings.

229

00:19:24,640 --> 00:19:30,320

It was silver and the length was about 10 to 15 metres.

230

00:19:30,320 --> 00:19:35,960

We turned to follow him and then we just flew together like that.

231

00:19:35,960 --> 00:19:38,680

I was trying to get him in the indicator.

232

00:19:38,680 --> 00:19:44,320

It's flying like this and suddenly we're back in those clouds.

233

00:19:44,320 --> 00:19:51,120

It didn't make sense at all to me that they had put us on such a target at such heights.

234

00:19:51,160 --> 00:19:55,920

More than 30 years later, the crew members don't believe the aircraft they encountered

235

00:19:55,920 --> 00:19:58,000

was of this world.

236

00:19:58,000 --> 00:20:03,840

Nothing like that had such maneuverability at the time.

237

00:20:03,840 --> 00:20:09,200

The maximum speed of the 24 was 320 kilometres per hour.

238

00:20:09,200 --> 00:20:17,480

I think that pursuing something like that was completely out of reality.

239

00:20:17,480 --> 00:20:19,800

We didn't know what it was.

240

00:20:19,800 --> 00:20:23,160

We didn't identify any cognitive marks.

241

00:20:23,160 --> 00:20:25,200

We couldn't react or shoot at him.

242

00:20:25,200 --> 00:20:27,200

It wasn't possible.

243

00:20:31,080 --> 00:20:35,440

Below us, the Vranov Dam was full of people.

244

00:20:35,440 --> 00:20:40,080

When you realize that, you decide not to shoot very quickly.

245

00:20:40,080 --> 00:20:46,160

Even though we got an order to fire at this object at least twice.

246

00:20:46,160 --> 00:20:52,760

In 2004, a similar object appeared in newly released Pentagon videos taken by US Navy

247

00:20:52,760 --> 00:20:56,240

pilots from the aircraft carrier USS Nimitz.

248

00:20:56,240 --> 00:21:00,720

The object, nicknamed for its tic-tac shape, changed speed.

249

00:21:00,720 --> 00:21:07,360

Almost stood still for a while, only to fly off again at speeds of up to 2,700 kilometres

250

00:21:07,360 --> 00:21:09,160

per hour.

251

00:21:09,160 --> 00:21:14,120

I guess the technology is not advanced enough even today.

252

00:21:14,120 --> 00:21:18,240

Because in the video we've just watched, they had the F-18s and they wouldn't have

253

00:21:18,240 --> 00:21:19,920

been able to handle it either.

254

00:21:19,920 --> 00:21:21,440

That's not how that's done, is it?

255

00:21:21,440 --> 00:21:23,440

That's not how they do it, man.

256

00:21:23,440 --> 00:21:26,680

Well, if there's a real thing, it's a rocket.

257

00:21:26,680 --> 00:21:31,320

The unidentified object that the TECO Slovak flight crew encountered disappeared in the

258

00:21:31,320 --> 00:21:34,480

direction of the nearest nuclear power plant.

259

00:21:34,480 --> 00:21:39,400

The three-member crew then reassured each other that they hadn't imagined it and that

260

00:21:39,400 --> 00:21:41,840

they had all seen the same thing.

261

00:21:41,840 --> 00:21:47,280

Upon landing, they were all taken for briefing and special instructions by their military

262

00:21:47,280 --> 00:21:50,280

command.

263

00:21:50,280 --> 00:21:57,720

After landing, the guidance station ordered us to dispose of all materials involved, SARP

264

00:21:57,720 --> 00:22:02,240

and recording equipment, the tape recorder we had on board.

265

00:22:02,240 --> 00:22:07,120

So everything was erased and that was supposed to be the end of it.

266

00:22:07,120 --> 00:22:09,920

It was never meant to be published.

267

00:22:10,920 --> 00:22:16,920

However, the incident over Czechoslovakia in the late 1980s was not unique.

268

00:22:16,920 --> 00:22:21,920

The eastern block experienced similar encounters several times.

269

00:22:21,920 --> 00:22:27,920

One took place over the coastal territory of Poland four years earlier.

270

00:22:31,920 --> 00:22:38,920

There were also attempts of Soviet pilots to shoot down UFOs while flying over Soviet territory.

271

00:22:39,920 --> 00:22:45,720

A few months after the air chase in Czechoslovak airspace, an extraordinary incident occurred

272

00:22:45,720 --> 00:22:50,920

in the Soviet town of Delnegorsk, about 1,000 kilometers away.

273

00:22:50,920 --> 00:22:54,920

Delnegorsk was a very interesting case.

274

00:22:54,920 --> 00:23:03,920

What's most important is the silence of the Soviet government because if it was like some people say NATO,

275

00:23:03,920 --> 00:23:09,920

spy satellite or spy object, they would scream bloody murder.

276

00:23:09,920 --> 00:23:11,920

They would go to United Nations.

277

00:23:11,920 --> 00:23:13,920

They don't say one word.

278

00:23:13,920 --> 00:23:15,920

This was a very strange case.

279

00:23:15,920 --> 00:23:26,920

January 1986 to November 1987, Delnegorsk-Primorsky Krai, the far east region of Russia.

280

00:23:27,920 --> 00:23:35,920

Yevgeny Serebrov, a fifth grade elementary school student in Delnegorsk, Siberia, is returning home

281

00:23:35,920 --> 00:23:39,920

when he suddenly spots a low-flying, glowing object.

282

00:23:39,920 --> 00:23:44,920

It heads towards the nearby mountains, colliding with one of them.

283

00:23:44,920 --> 00:23:52,920

Other eyewitnesses also later confirm that the object hit a peak called Yveth Kovaya, or height 611.

284

00:23:53,920 --> 00:23:59,920

The fireball flies slowly parallel to the ground, accurately following the surface terrain.

285

00:23:59,920 --> 00:24:03,920

It rises and drops several times.

286

00:24:03,920 --> 00:24:11,920

There is no explosion on impact, only a resounding bang, followed by brief fires among the trees.

287

00:24:15,920 --> 00:24:20,920

And the metal that was left behind was of very unusual qualities.

288

00:24:20,920 --> 00:24:24,920

Some people say it doesn't exist and cannot exist.

289

00:24:29,920 --> 00:24:36,920

The event, which would later be dubbed the Soviet Roswell, was far from over.

290

00:24:36,920 --> 00:24:44,920

Eight days after the incident, at half past eight in the evening, two yellow glowing objects appear near the crash site.

291

00:24:44,920 --> 00:24:53,920

According to witnesses, after flying over height 611, they made four circuits and then disappeared in a flash.

292

00:24:53,920 --> 00:24:59,920

But it was only a prelude to what was about to take place in the sky.

293

00:24:59,920 --> 00:25:09,920

On Saturday, November 28, 1987, the airspace of Przemyorsky Krai was literally flooded with UFOs.

294

00:25:09,920 --> 00:25:18,920

According to eyewitness testimony, 32 flyers of UFOs were counted from 10 o'clock in the evening until the following morning.

295

00:25:18,920 --> 00:25:26,920

The shapes of the craft varied greatly. Some were estimated to be up to 200 meters in length.

296

00:25:28,920 --> 00:25:31,920

They were searching for this object. Why so many?

297

00:25:32,920 --> 00:25:41,920

Because probably, probably, the trace, informational trace, which had been left, was not fully informative.

298

00:25:41,920 --> 00:25:45,920

Because the UFO had a serious technical problem.

299

00:25:45,920 --> 00:25:51,920

First one, first spacecraft, moved into one dimension. The second one into another dimension.

300

00:25:51,920 --> 00:26:01,920

So, like this, from this point, they were trying to jump into parallel dimension, trying to find this spacecraft to help each other.

301

00:26:03,920 --> 00:26:12,920

A UFO crashed on this hilltop in 1986. The site, known only by its height, height 611, is littered with strange debris

302

00:26:12,920 --> 00:26:17,920

and is considered to be one of the most significant UFO locations in all of Russia.

303

00:26:18,920 --> 00:26:23,920

The sphere was red, it was flying straight, and then sharply fell down.

304

00:26:24,920 --> 00:26:34,920

The crash site of the unknown object became a pathogenic zone for three years after the incident, uninhabited and strictly off-limits to the public.

305

00:26:34,920 --> 00:26:45,920

The Ministry of Defense closely monitored the scientific investigation of the fragments found, which displayed technological properties for which there is no match, even today.

306

00:26:46,920 --> 00:26:55,920

In addition to UFOs, both the U.S. Pentagon and the Russian Defense Ministry have also been paying close attention to another unidentified phenomenon.

307

00:26:56,920 --> 00:27:03,920

U.S.Os, unidentified, submerged objects, which have been spotted in our oceans.

308

00:27:03,920 --> 00:27:13,920

The American Navy has apparently programmed to catalog these, not capture them, because they move way too fast and they're there and they're gone.

309

00:27:14,920 --> 00:27:20,920

I was invited to go out on a nuclear submarine because I had done some work for the Navy.

310

00:27:20,920 --> 00:27:32,920

And when I did, during that time, we actually had come through the sonar, basically, the eyes of the sub, a very fast-moving object.

311

00:27:32,920 --> 00:27:37,920

That fast-moving object was moving several hundred knots.

312

00:27:38,920 --> 00:27:40,920

Unlike anything, there's nothing like that on Earth.

313

00:27:41,920 --> 00:27:53,920

We've got cases from former Soviet Union of these 200-foot-long, bullet-shaped USOs, punching out of the ocean right next to our boomer-class Trident submarines.

314

00:27:53,920 --> 00:28:00,920

And this is the Russian version of it here, going right out into space, you know, probably 82, 83 timeframe.

315

00:28:00,920 --> 00:28:04,920

And these cases can't be denied, and there's hundreds of them like this.

316

00:28:05,920 --> 00:28:10,920

And that's one reason why the Navy is controlling the UFO research.

317

00:28:10,920 --> 00:28:18,920

It's not the Air Force. It's the Navy that's driving the whole thing, because the Navy has been reporting these things for a lot longer than the Air Force has.

318

00:28:19,920 --> 00:28:23,920

They go on spy missions to the United States or NATO areas.

319

00:28:23,920 --> 00:28:33,920

All of a sudden, some unusual objects, big, fast, incredible objects would appear by Soviet submarines.

320

00:28:33,920 --> 00:28:39,920

And they thought, what is it? Is it the Americans that are finding us? But it wasn't. It was no Americans.

321

00:28:39,920 --> 00:28:43,920

So they got very much concerned about it, too.

322

00:28:43,920 --> 00:28:48,920

I recently brought up information about Vice Admiral Matushkin.

323

00:28:48,920 --> 00:28:51,920

He passed away recently, but they speak out before they die.

324

00:28:51,920 --> 00:28:58,920

And he was a Vice Admiral, one of the top Soviet submarine commanders. Really knew his stuff.

325

00:28:58,920 --> 00:29:01,920

He let submarines under ice from one ocean to another.

326

00:29:02,920 --> 00:29:09,920

They were on a spy mission by Greenland, and they saw a UFO coming from the waters, shooting outwards.

327

00:29:12,920 --> 00:29:19,920

I believe in 2009, when there was a lot of rumors that, oh yeah, the Russian Navy is going to declassify USO files.

328

00:29:19,920 --> 00:29:21,920

And I kept saying, this is not going to happen.

329

00:29:21,920 --> 00:29:26,920

But the response was from the official representative of the Russian Navy.

330

00:29:26,920 --> 00:29:35,920

He said, listen, if we showed where we see USOs, you will find out itineraries of our submarines, where our submarines are.

331

00:29:35,920 --> 00:29:46,920

USO incidents, recorded by Soviet submarine fleets in the Baltic and Black Seas in the 1990s, are by no means isolated incidents.

332

00:29:46,920 --> 00:29:55,920

Over 20 years earlier, in 1977, similar sightings were recorded in South America.

333

00:29:55,920 --> 00:30:03,920

Brazil has actually officially released much of their information to the teams of, we'll say, UFO experts.

334

00:30:03,920 --> 00:30:11,920

Military pilots, even generals, have seen, while they're flying on airplanes or even on the ground, extraterrestrials.

335

00:30:11,920 --> 00:30:13,920

And the government is willing to release this.

336

00:30:13,920 --> 00:30:20,920

I think if something like a government disclosure would ever come from any government in the world, it would be from the Brazilian government.

337

00:30:20,920 --> 00:30:29,920

Because they have a lot of material. They had a very famous case on an island named Colares.

338

00:30:29,920 --> 00:30:43,920

August 1977. Colares, Amazon Delta, Brazil.

339

00:30:43,920 --> 00:30:58,920

Fisherman Manuel João de Oliveira Filho is getting ready to head out to sea with friends.

340

00:30:58,920 --> 00:31:10,920

But before they board the ship, they spot something extraordinary in the water.

341

00:31:13,920 --> 00:31:26,920

Not far from them, a beam of white light appears to be emanating from the bottom of the ocean, and communication with an object resembling a giant umbrella hovering quietly over the beach.

342

00:31:26,920 --> 00:31:36,920

After a while, the object begins to move and disappears soundlessly.

343

00:31:36,920 --> 00:31:40,920

The subsequent sightings in this area are chilling.

344

00:31:40,920 --> 00:31:50,920

For several months, craft of unknown origin in various shapes appear in the sky daily above part of the Amazon Delta.

345

00:31:50,920 --> 00:31:57,920

Some of them seek out locals, seemingly to observe them for inexplicable research.

346

00:31:57,920 --> 00:32:05,920

Most appeared from the north side near the town of Colares, with a population of 2,000.

347

00:32:05,920 --> 00:32:29,920

They often send a beam of light down on people which frequently causes stinging superficial injuries.

348

00:32:29,920 --> 00:32:39,920

When examined, they are diagnosed with a special form of anemia.

349

00:32:39,920 --> 00:32:49,920

The Brazilian military came in and there's a very good and famous researcher from Brazil, his name is Ajay Javad.

350

00:32:49,920 --> 00:33:08,920

He had found out that their original mission had been to establish the fact that there is something and then secondly try to get in touch with the alleged intelligence behind that phenomenon.

351

00:33:08,920 --> 00:33:18,920

35 people are reported injured and the locals begin to call these attacks chupa-chupa or suck-suck.

352

00:33:18,920 --> 00:33:25,920

The military operation is entered into the archive under the code name Operation Plate.

353

00:33:25,920 --> 00:33:30,920

During the investigation, it shoots four films at hundreds of photographs.

354

00:33:30,920 --> 00:33:37,920

The world learns much later that the army had reportedly managed to contact these unknown entities.

355

00:33:37,920 --> 00:33:47,920

Captain Urangue Holanda, commander of the operation, did not share his experience until 20 years later.

356

00:33:47,920 --> 00:33:58,920

He described how he was on a night river patrol near one of the villages, when a huge, unknown object fell from the sky on the opposite side of the river.

357

00:33:58,920 --> 00:34:03,920

It was a cylinder about 100 meters high with a smooth surface.

358

00:34:03,920 --> 00:34:09,920

After a while, an unknown figure separated from the foreign object.

359

00:34:09,920 --> 00:34:14,920

It moved slowly through the air to the captain on board the boat.

360

00:34:23,920 --> 00:34:31,920

Stopping just in front of him, before floating back to his vessel and vanishing, without a trace.

361

00:34:33,920 --> 00:34:49,920

The Brazilian military has reached their goal to get in touch with this intelligence.

362

00:34:49,920 --> 00:34:53,920

This is why it should have become interesting for the Brazilians.

363

00:34:53,920 --> 00:35:15,920

The most famous Brazilian case of all in 1996 was further evidence of the United States' control over these incidents.

364

00:35:15,920 --> 00:35:24,920

It was entered into the archives as the Varginha UFO incident, and although it was initially reported and followed by the media,

365

00:35:24,920 --> 00:35:32,920

it was later denied and covered up by the Brazilian military at the insistence of the United States.

366

00:35:32,920 --> 00:35:44,920

UFO crashed, a number of people witnessed it crashing, and then several hours later, two entities alive were wandering through the little village of Varginha, Brazil.

367

00:35:44,920 --> 00:35:49,920

Tons and tons of people face to face.

368

00:35:49,920 --> 00:35:52,920

I didn't believe it at first, but I've been there like three times.

369

00:35:52,920 --> 00:35:54,920

I'm sure there are pictures.

370

00:35:54,920 --> 00:36:03,920

If you have a really good photograph of a UFO, you're going to bet your ass that you're going to have man in suit showing up at your house.

371

00:36:04,920 --> 00:36:16,920

I heard stories for about 12 years before I transitioned over to realize that that really does happen, that they somehow monitor all forms of communication

372

00:36:16,920 --> 00:36:18,920

and people that have very definitive evidence.

373

00:36:18,920 --> 00:36:22,920

It just vanishes most of the time.

374

00:36:22,920 --> 00:36:32,920

Most secretive of all is what the world's most populous and most security conscious country, China, knows about the UFO phenomenon.

375

00:36:32,920 --> 00:36:42,920

What is happening in the secret programs of a state that aspires to be the world's number one economic and military superpower?

376

00:36:42,920 --> 00:36:47,920

When I was in China, there was a UFO organization that had the stamp of approval from the Chinese government.

377

00:36:47,920 --> 00:36:53,920

We had active military generals that were accompanying us as we're doing our research in China.

378

00:36:53,920 --> 00:36:57,920

This is kind of a tacit way of saying we approve of what you're doing.

379

00:36:57,920 --> 00:37:10,920

I did not encounter any pushback from the Chinese government, from the Chinese people on the topic of UFOs.

380

00:37:10,920 --> 00:37:24,920

In fact, I found a lot of parallels with the phenomenon and even more so with the evident messaging to the Chinese when they've come in contact with the phenomenon.

381

00:37:24,920 --> 00:37:29,920

Parallels that I found in Africa and other countries.

382

00:37:29,920 --> 00:37:36,920

China is a silent, very active country, but they study ufology to a great extent.

383

00:37:36,920 --> 00:37:40,920

Very organized. I was amazed at what I saw and heard.

384

00:37:40,920 --> 00:37:53,920

What I was told and what I found out myself is the extent of the research, tens of thousands of

people, government support, history of ufology going back for thousands of years, and very much dedication.

385

00:37:53,920 --> 00:37:57,920

They will use it to the needs that they have.

386

00:37:57,920 --> 00:38:04,920

China is working on its own expanding space program and has built the world's largest radio telescope.

387

00:38:04,920 --> 00:38:11,920

The 500 meter aperture spherical radio telescope, or FAST for short.

388

00:38:11,920 --> 00:38:17,920

The cost of building this tremendous telescope reached 184 million dollars.

389

00:38:17,920 --> 00:38:23,920

If the aliens don't want to show up officially, China could decipher their messages.

390

00:38:23,920 --> 00:38:41,920

Over the last 15, 20 years, China has been using all of their scientific resources, their ability

to be able to duplicate western technologies to try and catch up to what the Americans and what the Russians had done previously.

391

00:38:41,920 --> 00:38:52,920

So now China has made tremendous breakthroughs and are getting very close to what the Russians had secretly built as well as what the Americans have built.

392

00:38:52,920 --> 00:39:01,920

So, with the Russians, Chinese and United States were really circling each other, hoarding their own UFO data.

393

00:39:01,920 --> 00:39:08,920

How likely is it that their will at some stage be proper sharing of UFO and USO intelligence?

394

00:39:08,920 --> 00:39:18,920

And a joint disclosure concerning the extent of evidence surrounding UFO activity and monitoring programs on a worldwide scale.

395

00:39:18,920 --> 00:39:27,920

Back in 2007, 2008, 2009, you were seeing a global movement for government transparency on the topic of UFOs.

396

00:39:27,920 --> 00:39:34,920

You had the French government releasing stuff. You had South America governments in countries in South America releasing information.

397

00:39:34,920 --> 00:39:38,920

You had England releasing all their files.

398

00:39:38,920 --> 00:39:46,920

We need cooperation from other countries that actually end up knowing more than we do in recent years about aerial phenomena.

399

00:39:46,920 --> 00:39:51,920

It's unknown aerial phenomena. So, no, I think these are real.

400

00:39:51,920 --> 00:40:03,920

And I think there's a lot of people very interested. I've talked to them before, even just six years ago, when I go back to Congress, right after I was on,

401

00:40:03,920 --> 00:40:09,920

there's a closure committee. It was still being laughed at.

402

00:40:09,920 --> 00:40:13,920

Every country, I believe, is being contacted by these intelligences.

403

00:40:13,920 --> 00:40:17,920

And they are aware that everyone's got some of the technology as well.

404

00:40:17,920 --> 00:40:27,920

So, I think there is a kind of cooperation on another level between all the countries about disclosure, what they have, etc., etc.

405

00:40:27,920 --> 00:40:38,920

And I think these intelligences make sure of that because they don't want any particular country to call the tune and dictate to everyone else what should happen.

406

00:40:38,920 --> 00:40:47,920

The famous American astronomer Carl Sagan often said, extraordinary claims require extraordinary evidence.

407

00:40:47,920 --> 00:40:55,920

The paradox of the present is that this evidence exists, but the world behaves as if it didn't.

408

00:40:55,920 --> 00:41:02,920

Recent disclosures, however, indicate that better times may be on the horizon.

409

00:41:02,920 --> 00:41:13,920

There are many reasons for military secrecy, but that's the problem, actually, with the whole UFO phenomenon, that this phenomenon in itself,

410

00:41:13,920 --> 00:41:18,920

it should have been investigated from the very beginning by science.

411

00:41:19,920 --> 00:41:28,920

Why the UFO phenomenon has never been thoroughly investigated by science so far, as far as we know, at least,

412

00:41:28,920 --> 00:41:37,920

is because it ended up in black military channels, because the military just kept it secret.

413

00:41:37,920 --> 00:41:45,920

And if there is no knowledge publicly available, how would scientists be able to investigate this?

414

00:41:45,920 --> 00:41:49,920

Let us look beyond the politics of the old regime.

415

00:41:49,920 --> 00:41:55,920

The quantum shift is going to take place because consciousness is the hidden variable for quantum transitions.

416

00:41:55,920 --> 00:42:03,920

When the younger people begin to expand their consciousness and see their greater picture, then government authority will be, shall we say, secondary.

417

00:42:03,920 --> 00:42:07,920

Teaching authority or the social sciences will be primary.

418

00:42:07,920 --> 00:42:16,920

We'll have a worldwide internet of information that will download information quickly, so that everybody throughout the world will be a citizen diplomat,

419

00:42:16,920 --> 00:42:20,920

will have the opportunity to have contact without going to a military source.

420

00:42:22,920 --> 00:42:30,920

If some government authority is telling us something about extraterrestrial beings visiting us on Earth,

421

00:42:30,920 --> 00:42:37,920

you can be sure that it's not because they want the whole mankind to know about this.

422

00:42:37,920 --> 00:42:42,920

There must be another motivation behind this, and we don't know what this is for.

423

00:43:30,920 --> 00:43:32,920

you

424

00:44:00,920 --> 00:44:02,500

you
