To be clear, Third Phase of Moon did not use an AI Image generator, but I do strongly believe based on all available evidence that they used AI image generator images in their latest video. They did not do the least little bit of work before running with these likely fake images. This should be unacceptable. The usual excuses abound, but it is still wrong in my opinion to publish and profit from these images.

2022 09 28 Truthseekers <https://youtu.be/fOUGxZlLnzc> Jimmy Church, Richard Dolan, Ross Coulthart, Grant Cameron Wilson notes profiteers!

Jimmy Church, Richard Dolan, Ross Coulthart, Grant Cameron Wilson notes profiteers!

Lue Angele's video shared under fair use : <https://www.youtube.com/watch?v=7C5ixyAS9E0>

Ross Coulthart apparently caught lying about "Conclusive proof of alien technology" : <https://www.youtube.com/watch?v=WpxA15SUymQ&t=396s>

Jimmy Church pushed the absolutely ridiculous fake "Doctor" Reed alien story as true : <https://www.youtube.com/watch?v=gFpn22rLUI0&t=756s>

Correction : Language is important, at about 1:17 in I said David Wilcock promoted and advertised a gofundme scam and a paypal donation scam on Jimmy Church's show. I did not mean to imply that David Wilcock paid for ads to promote these things on Jimmy's show. Rather it is more accurate to say he talked about them on Jimmy's show and encouraged people to donate to these things on Jimmy's Show. He used Jimmy's show and audience to make money off of these things which were based on lies and deceptions to entice people to donate.

Richard Dolan apparently lying about having "classified information" : <https://www.youtube.com/watch?v=DvYQFRFjWWs&t=83s>

CORRECTION : during this live broadcast, I estimated that Jimmy Church had made around 850.00\$ in YouTube ad revenue for helping this fake "Doctor" Reed tell his fake stories. I got the decimal point wrong, its more like he made about 85.00 given his videos current views In my view that makes it even worse, but that is just one man's opinion. Would you help a fake doctor with a fake work history and fake fabricated evidence tell your audience a provably fake alien story for just 85.00\$? Let me know what you think in the comments here!

Linda is right now profiting from yet ANOTHER cgi fake alien picture claiming it is a genuine picture of an alien. She's also COPYRIGHTED a photo a Brazilian artist created in 2008 that she does not own.

Clips from Linda's youtube channel used under fair use. This is a transformative work. We are educating the public about people using fake alien pictures. We discussed and critiqued the clips being shared here. This is fair use.

The opioid epidemic with Art Levine.

Art Levine is an author and investigative journalist whose work has been featured in major news outlets across the United States. He is the author of Mental Health Inc: How Corruption, Lax Oversight and Failed Reforms Endanger Our Most Vulnerable Citizens. (Available on Amazon, see link below) Recently, he has turned his talents and attention towards investigating the opioid epidemic in the United States. His shocking revelations and conclusions cast new light into a dark story about money, power, influence and corruption. His shocking conclusions are not only a cause for concern, but also a call to action and a major wake up call. His conclusions cast a bright new spotlight on the failings of our drug laws, policies, and regulations surrounding the drug and rehab industries in the United States. Art Levine's work is essential in understanding this crisis and how we may just may solve these major problems we have so far failed so miserably at. Art Levine's work on the opioid epidemic shows us that we have already lost the war on drugs. His work focuses our attention on what we should do next instead of continuing on this already failed mission. He also looks at the collateral damage to millions of chronic pain patients facing draconian cutbacks in legitimate opioid prescribing leading to increases in suicides and street use of drugs, while worsening their disabilities.

Art Levine is a contributing editor of The Washington Monthly, and author of the well-received book, Mental Health, Inc.: How

TRUTHSEEKERS is produced by Spectral International, LLC</p> <p>During this stream, host Steven Cambian mentioned he would wipe his ass with any legal threat letters sent by David Wilcock and send it back to him. This was a joke, or a way to display Steven's resolve not to be intimidated by legal threats for bringing people the truth.</p> <p>In truth, yes, Steven may wipe his ass with any legal threat letters David Wilcock sends him, but he will not return any shit stained legal threat letters back to David Wilcock. Doing that could complicate any legal matters. Instead, Steven will most likely just wipe his ass with any legal threat letters David Wilcock sends him, and post pictures of the shit stained legal threat letters on twitter and facebook.</p> <p>Thank you for allowing us to clarify our show hosts wiping his ass with legal threat letters official policy going forward.</p>	Transcript Link

Email us at : Truthseekersshow@gmail.com Clarifications & Corrections : 1) I mistakenly kept saying 180 degree IQ many times, I of course mean 180 IQ. The only explanation for this I can think of is I've been using 180 degrees in computer code lately. David Wilcock however, did indeed claim to have a 180 IQ. 2) The child molester "insider" I mentioned? Wilcock did not take that source on any network to my knowledge, but rather interviewed him and used him as an "insider" and trusted source of information, I believe this was back when he was working with Kerry Cassidy of Project Camelot. I misspoke there confusing two of his fake "insiders" or "whistle blowers" and how he utilized each. He has had so many fake sources its easy to get confused, my apologies. The actual child molester and David Wilcock source I was thinking of was Bill Wood aka Bill Brockbrader. He had a history of child related sexual offenses. David Wilcock is such a terrible researcher he didn't vet a child molester. Instead, he ran with that child molesters fantastical stories. 3) In this video, I said Pete Peterson claimed to be a science and technology adviser to Ronald Reagan.. That may be inaccurate. I believe it was actually David Wilcock who made this claim.	Transcript Link
