

1
00:00:56,830 --> 00:00:47,010
[Music]

2
00:01:13,940 --> 00:01:10,830
so

3
00:02:06,830 --> 00:01:48,730
[Music]

4
00:02:19,190 --> 00:02:09,629
so

5
00:02:26,150 --> 00:02:22,390
greetings and salutations friends we

6
00:02:29,990 --> 00:02:26,160
are live uh once again

7
00:02:33,030 --> 00:02:30,000
we are live here at the cabin

8
00:02:36,150 --> 00:02:33,040
uh we are expecting a big

9
00:02:39,430 --> 00:02:36,160
thunderstorm and i have been warned

10
00:02:41,190 --> 00:02:39,440
that um it's pretty often that the

11
00:02:44,390 --> 00:02:41,200
internet goes wonky

12
00:02:47,750 --> 00:02:44,400
if there's a thunderstorm here

13
00:02:49,910 --> 00:02:47,760

uh yeah and i see this even the video

14

00:02:51,990 --> 00:02:49,920

here is a little shaky i'm not sure if

15

00:02:56,790 --> 00:02:52,000

you guys are getting that

16

00:03:01,030 --> 00:02:56,800

and here i will give some shout outs

17

00:03:03,430 --> 00:03:01,040

to the early people

18

00:03:04,070 --> 00:03:03,440

entering the live chat we have water

19

00:03:08,229 --> 00:03:04,080

bowl

20

00:03:11,350 --> 00:03:08,239

hairy toes sixes designs restricted utah

21

00:03:16,869 --> 00:03:14,790

professor fez uh jean claude from beyond

22

00:03:17,270 --> 00:03:16,879

mystic hello jean-claude enjoyed your

23

00:03:19,910 --> 00:03:17,280

stream

24

00:03:21,350 --> 00:03:19,920

earlier but i came in at a really weird

25

00:03:23,910 --> 00:03:21,360

time and uh the

26
00:03:26,070 --> 00:03:23,920
bronzer oh man that was not a good time

27
00:03:32,309 --> 00:03:26,080
to jump into that stream

28
00:03:36,710 --> 00:03:32,319
it got a little weird genocide is here

29
00:03:39,830 --> 00:03:36,720
and yeah so

30
00:03:43,910 --> 00:03:39,840
i did one show from the cabin

31
00:03:46,470 --> 00:03:43,920
about why you need an apocalypse cabin

32
00:03:47,910 --> 00:03:46,480
and uh lately i've been thinking a lot

33
00:03:50,470 --> 00:03:47,920
about this

34
00:03:52,309 --> 00:03:50,480
some people like john claude are already

35
00:03:54,710 --> 00:03:52,319
very fortunate i talked to him very

36
00:03:55,509 --> 00:03:54,720
briefly about his setup and he's got a

37
00:03:58,710 --> 00:03:55,519
whole bunch of

38
00:04:01,750 --> 00:03:58,720

acres right and uh like a farm sort of

39

00:04:04,470 --> 00:04:01,760

in canada he's very fortunate

40

00:04:06,949 --> 00:04:04,480

the safest place to be where the coming

41

00:04:10,550 --> 00:04:10,070

becoming turmoil is going to be in the

42

00:04:13,589 --> 00:04:10,560

most

43

00:04:16,469 --> 00:04:13,599

rural of places

44

00:04:17,030 --> 00:04:16,479

now i hear the rain starting already

45

00:04:20,069 --> 00:04:17,040

okay

46

00:04:25,670 --> 00:04:23,350

i built this place literally

47

00:04:27,430 --> 00:04:25,680

piece by piece you can see behind me

48

00:04:31,990 --> 00:04:27,440

part of this puzzle

49

00:04:34,469 --> 00:04:32,000

uh it's basically a 10 000 piece puzzle

50

00:04:35,749 --> 00:04:34,479

but i built this place so that myself

51
00:04:38,150 --> 00:04:35,759
and my family

52
00:04:40,310 --> 00:04:38,160
would have someplace safe to escape to

53
00:04:43,030 --> 00:04:40,320
in the event of

54
00:04:44,070 --> 00:04:43,040
really big problems in the city where we

55
00:04:46,390 --> 00:04:44,080
were living i

56
00:04:48,150 --> 00:04:46,400
was living in philadelphia actually when

57
00:04:50,950 --> 00:04:48,160
i started the cabin

58
00:04:52,950 --> 00:04:50,960
um two years ago i moved from

59
00:04:55,430 --> 00:04:52,960
philadelphia full-time to

60
00:04:56,550 --> 00:04:55,440
like the philadelphia suburbs but still

61
00:04:58,790 --> 00:04:56,560
felt

62
00:05:03,270 --> 00:04:58,800
i had this premonition almost that

63
00:05:08,950 --> 00:05:06,629

some people you know may consider that

64

00:05:10,390 --> 00:05:08,960

paranoia i consider it heightened

65

00:05:14,629 --> 00:05:10,400

awareness

66

00:05:16,550 --> 00:05:14,639

and so even after moving to the suburbs

67

00:05:18,150 --> 00:05:16,560

and feeling a little safer i continue to

68

00:05:21,830 --> 00:05:18,160

work on this cabin

69

00:05:29,029 --> 00:05:25,590

a good place to go to in the event of

70

00:05:29,830 --> 00:05:29,039

problems and all around us friends we

71

00:05:34,950 --> 00:05:29,840

are seeing

72

00:05:39,350 --> 00:05:36,950

when those changes will be good or bad

73

00:05:40,469 --> 00:05:39,360

remains to be seen but knowing what i

74

00:05:43,670 --> 00:05:40,479

know

75

00:05:46,790 --> 00:05:43,680

about human nature i'm not very hopeful

76
00:05:47,830 --> 00:05:46,800
that the changes coming will be good for

77
00:05:51,670 --> 00:05:47,840
our society

78
00:05:56,309 --> 00:05:51,680
and especially for myself and my family

79
00:06:01,430 --> 00:05:56,319
we as individuals must prepare ourselves

80
00:06:05,110 --> 00:06:01,440
for uh what may be coming shitstorm

81
00:06:08,070 --> 00:06:05,120
the coveted lockdowns have created

82
00:06:09,350 --> 00:06:08,080
an incredible amount of stress anxiety

83
00:06:12,070 --> 00:06:09,360
and turmoil

84
00:06:13,029 --> 00:06:12,080
throughout the worldwide populations

85
00:06:14,390 --> 00:06:13,039
really

86
00:06:17,029 --> 00:06:14,400
but i think we're seeing it in the

87
00:06:19,350 --> 00:06:17,039
united states uh

88
00:06:21,189 --> 00:06:19,360

and what we are seeing are signs

89

00:06:23,990 --> 00:06:21,199

upcoming turmoil

90

00:06:25,350 --> 00:06:24,000

all over the writing is getting worse

91

00:06:28,309 --> 00:06:25,360

not better

92

00:06:31,029 --> 00:06:28,319

the mainstream media is not reporting

93

00:06:34,950 --> 00:06:32,870

much of what i've seen on the mainstream

94

00:06:38,070 --> 00:06:34,960

media have called

95

00:06:40,790 --> 00:06:38,080

these events peaceful protests who are

96

00:06:43,749 --> 00:06:40,800

mostly peaceful protests

97

00:06:44,469 --> 00:06:43,759

i even saw one uh where there was

98

00:06:47,670 --> 00:06:44,479

literally

99

00:06:50,790 --> 00:06:47,680

a building burning behind the reporter

100

00:06:52,309 --> 00:06:50,800

and the headline read fiery but peaceful

101
00:06:54,870 --> 00:06:52,319
protests

102
00:06:56,629 --> 00:06:54,880
no friends ask anybody that lives in any

103
00:06:57,909 --> 00:06:56,639
of the cities that this rioting is

104
00:06:59,589 --> 00:06:57,919
taking place

105
00:07:02,790 --> 00:06:59,599
things aren't getting better there

106
00:07:05,589 --> 00:07:02,800
they're getting worse

107
00:07:07,189 --> 00:07:05,599
more cities will begin to erupt into

108
00:07:11,990 --> 00:07:07,199
this kind of chaos

109
00:07:14,150 --> 00:07:12,000
in the coming months more cities

110
00:07:15,749 --> 00:07:14,160
this my friends is why i believe that

111
00:07:18,710 --> 00:07:15,759
the safest place to be

112
00:07:19,589 --> 00:07:18,720
to ride out the coming storm is

113
00:07:23,510 --> 00:07:19,599

someplace

114

00:07:26,950 --> 00:07:23,520

remote here i built this cabin

115

00:07:29,510 --> 00:07:26,960

uh basically at the top of a mountain

116

00:07:30,309 --> 00:07:29,520

and it sounds crazy but we really are in

117

00:07:33,110 --> 00:07:30,319

the highest

118

00:07:33,749 --> 00:07:33,120

we are like a mile or two there's a big

119

00:07:37,110 --> 00:07:33,759

sign

120

00:07:39,749 --> 00:07:37,120

highest elevation in pennsylvania so

121

00:07:42,830 --> 00:07:39,759

i'm basically at the top of a mountain

122

00:07:45,350 --> 00:07:42,840

uh that's where i chose to build the

123

00:07:49,110 --> 00:07:45,360

cabin the more remote

124

00:07:49,670 --> 00:07:49,120

and harder to get to your safe location

125

00:07:52,790 --> 00:07:49,680

is

126

00:07:55,270 --> 00:07:52,800

the better off you will be

127

00:07:55,909 --> 00:07:55,280

i also chose this location because there

128

00:07:57,990 --> 00:07:55,919

is an

129

00:07:59,430 --> 00:07:58,000

incredible amount of protein just

130

00:08:02,869 --> 00:07:59,440

walking around

131

00:08:05,110 --> 00:08:02,879

and though i am not usually a hunter if

132

00:08:06,869 --> 00:08:05,120

put in a position that i had to hunt to

133

00:08:09,670 --> 00:08:06,879

feed my family i would

134

00:08:11,670 --> 00:08:09,680

overnight i have hunting arrows and

135

00:08:14,390 --> 00:08:11,680

hunting bows here

136

00:08:16,950 --> 00:08:14,400

and have a great shot with the bow and

137

00:08:20,070 --> 00:08:19,430

another reason is because there is

138

00:08:24,070 --> 00:08:20,080

regional

139

00:08:27,110 --> 00:08:24,080

food distribution hubs

140

00:08:28,710 --> 00:08:27,120

right near the cabin which means if

141

00:08:31,670 --> 00:08:28,720

there was some kind of societal

142

00:08:33,029 --> 00:08:31,680

breakdown there's warehouses of food not

143

00:08:35,350 --> 00:08:33,039

far from here

144

00:08:36,949 --> 00:08:35,360

and as luck would have it there's also a

145

00:08:40,310 --> 00:08:36,959

propane company

146

00:08:44,389 --> 00:08:40,320

like three miles from here with this

147

00:08:46,630 --> 00:08:44,399

huge stockpile of propane tanks

148

00:08:48,070 --> 00:08:46,640

and i saw that once and sort of smiled

149

00:08:49,910 --> 00:08:48,080

to myself and said well

150

00:08:52,470 --> 00:08:49,920

if anything happens i know where i'm

151

00:08:55,350 --> 00:08:52,480

going to go for propane

152

00:08:57,430 --> 00:08:55,360

there's a lot of resources here in and

153

00:08:59,509 --> 00:08:57,440

around the cabin

154

00:09:01,509 --> 00:08:59,519

and i hope that you guys for tonight

155

00:09:02,389 --> 00:09:01,519

will indulge me that we deviate from our

156

00:09:08,070 --> 00:09:02,399

normal course

157

00:09:10,870 --> 00:09:08,080

because i consider uh sort of this

158

00:09:11,829 --> 00:09:10,880

call it a warning a public service

159

00:09:15,350 --> 00:09:11,839

announcement

160

00:09:17,910 --> 00:09:15,360

right and i may be crazy and i may be

161

00:09:21,269 --> 00:09:17,920

paranoid and nothing may happen

162

00:09:23,750 --> 00:09:21,279

but just in case it does i think it's

163

00:09:25,750 --> 00:09:23,760

good to talk about what we can all do to

164

00:09:28,310 --> 00:09:25,760

prepare

165

00:09:29,509 --> 00:09:28,320

one thing that i have done recently is

166

00:09:31,110 --> 00:09:29,519

uh

167

00:09:32,790 --> 00:09:31,120

well i haven't even done it yet i'm

168

00:09:36,230 --> 00:09:32,800

planning to do it is

169

00:09:39,269 --> 00:09:36,240

to uh increase the stockpiles

170

00:09:43,910 --> 00:09:39,279

of on-hand food here

171

00:09:46,630 --> 00:09:43,920

and by that i mean i want food that is

172

00:09:48,710 --> 00:09:46,640

doesn't require any refrigeration can be

173

00:09:52,470 --> 00:09:48,720

stored long-term

174

00:09:56,790 --> 00:09:55,670

i guess nutrient rich you know pound per

175

00:10:00,230 --> 00:09:56,800

pound

176

00:10:03,430 --> 00:10:00,240

so i'm talking about things like stock

177

00:10:04,790 --> 00:10:03,440

huge bags of like 50 pound bags of rice

178

00:10:09,269 --> 00:10:04,800

50 pound bags of

179

00:10:11,030 --> 00:10:09,279

dried kidney beans pasta

180

00:10:12,630 --> 00:10:11,040

spaghetti sauce things that don't need

181

00:10:13,910 --> 00:10:12,640

any refrigeration you can just put on a

182

00:10:19,430 --> 00:10:13,920

shelf and they'll be there

183

00:10:22,870 --> 00:10:19,440

and be good for a long period of time

184

00:10:25,030 --> 00:10:22,880

and some other things

185

00:10:25,990 --> 00:10:25,040

that i've been preparing is the ability

186

00:10:29,350 --> 00:10:26,000

to fish

187

00:10:32,150 --> 00:10:29,360

more i have fishing rods here

188

00:10:34,710 --> 00:10:32,160

and i have a little tackle box with few

189

00:10:39,509 --> 00:10:34,720

odds and ends and some books and things

190

00:10:41,269 --> 00:10:39,519

but there's a big difference between

191

00:10:43,590 --> 00:10:41,279

needing to fish for recreational

192

00:10:44,710 --> 00:10:43,600

purposes and needing to fish to feed

193

00:10:46,949 --> 00:10:44,720

your family

194

00:10:48,550 --> 00:10:46,959

there's a huge i mentioned resources

195

00:10:51,670 --> 00:10:48,560

around here there is

196

00:10:54,790 --> 00:10:51,680

25 lakes within

197

00:10:56,790 --> 00:10:54,800

a hike i can literally walk to 25

198

00:10:58,870 --> 00:10:56,800

lakes from here some of them are a

199

00:11:01,750 --> 00:10:58,880

little bit of a hike a few miles but

200

00:11:03,430 --> 00:11:01,760

if i had to i could walk to a lot of

201
00:11:06,870 --> 00:11:03,440
lakes around here

202
00:11:09,269 --> 00:11:06,880
but i mentioned fishing gear i am making

203
00:11:13,509 --> 00:11:09,279
this checklist and along with increased

204
00:11:17,269 --> 00:11:13,519
food storage i want a more fishing rods

205
00:11:20,790 --> 00:11:17,279
more tackle more hooks more bobbers

206
00:11:21,829 --> 00:11:20,800
more lures all things that you need to

207
00:11:23,110 --> 00:11:21,839
fish

208
00:11:25,030 --> 00:11:23,120
but like i said there's a huge

209
00:11:28,069 --> 00:11:25,040
difference between having

210
00:11:31,269 --> 00:11:28,079
sort of a supply of uh you know

211
00:11:33,030 --> 00:11:31,279
i'm gonna go fishing today for fun and

212
00:11:35,670 --> 00:11:33,040
gee i need to go fishing to feed my

213
00:11:38,550 --> 00:11:35,680

family so i'm intending to

214

00:11:39,110 --> 00:11:38,560

really stock up on fishing here i think

215

00:11:41,190 --> 00:11:39,120

i have

216

00:11:42,790 --> 00:11:41,200

five or six rods here but i'm gonna get

217

00:11:45,910 --> 00:11:42,800

more and i'm going to get more

218

00:11:46,710 --> 00:11:45,920

fishing gear along with that hunting

219

00:11:49,509 --> 00:11:46,720

gear

220

00:11:52,389 --> 00:11:49,519

i'm not a gun guy but i'm going to break

221

00:11:58,870 --> 00:11:57,030

in the event of some kind of a

222

00:12:00,150 --> 00:11:58,880

societal breakdown you're gonna want a

223

00:12:03,670 --> 00:12:00,160

weapon and

224

00:12:06,870 --> 00:12:03,680

uh you're gonna wanna fire on

225

00:12:11,430 --> 00:12:06,880

i have children uh

226

00:12:13,910 --> 00:12:11,440

i'm i'm not a big gun person

227

00:12:16,629 --> 00:12:13,920

there's a lot of reasons i just don't

228

00:12:19,269 --> 00:12:16,639

prefer to not have to have a gun

229

00:12:21,430 --> 00:12:19,279

but considering what may be coming

230

00:12:22,069 --> 00:12:21,440

you're gonna want some weapons to defend

231

00:12:25,590 --> 00:12:22,079

yourself

232

00:12:29,110 --> 00:12:25,600

and your family

233

00:12:32,550 --> 00:12:29,120

if there is a food shortage hunger

234

00:12:35,269 --> 00:12:32,560

is going to create a lot of problems

235

00:12:36,949 --> 00:12:35,279

what would you do to feed your family if

236

00:12:38,629 --> 00:12:36,959

they were starving to death

237

00:12:40,470 --> 00:12:38,639

and you knew that one of your neighbors

238

00:12:43,670 --> 00:12:40,480

had plenty of food

239

00:12:47,030 --> 00:12:46,550

now we'd all prefer to think that we

240

00:12:50,790 --> 00:12:47,040

would

241

00:12:54,870 --> 00:12:50,800

try to barter make a deal i don't know

242

00:12:57,509 --> 00:12:54,880

but it's very easy to see how

243

00:12:58,870 --> 00:12:57,519

thousands of people starving unable to

244

00:13:01,990 --> 00:12:58,880

feed their family

245

00:13:05,670 --> 00:13:02,000

might try to come and take your food

246

00:13:08,949 --> 00:13:05,680

from you for this reason

247

00:13:12,550 --> 00:13:08,959

i think it is imperative to have weapons

248

00:13:15,590 --> 00:13:12,560

to defend yourself for your family

249

00:13:17,350 --> 00:13:15,600

not an expert on guns but everybody

250

00:13:20,710 --> 00:13:17,360

tells me shotguns

251
00:13:23,430 --> 00:13:20,720
that's the perfect home defense weapon

252
00:13:24,710 --> 00:13:23,440
why because you just aim at whatever the

253
00:13:27,670 --> 00:13:24,720
problem is and you

254
00:13:29,430 --> 00:13:27,680
pull the trigger and you're gonna take

255
00:13:31,509 --> 00:13:29,440
care of that problem

256
00:13:32,710 --> 00:13:31,519
big spray you don't have to be an

257
00:13:35,750 --> 00:13:32,720
excellent marksman

258
00:13:36,629 --> 00:13:35,760
you know i prefer something a little

259
00:13:40,389 --> 00:13:36,639
more precise

260
00:13:47,430 --> 00:13:40,399
but that'll get the job done

261
00:13:51,590 --> 00:13:49,590
yeah i'm monitoring the live chat though

262
00:13:54,710 --> 00:13:51,600
i haven't pulled up any uh

263
00:13:56,870 --> 00:13:54,720

i haven't pulled up any comments yet uh

264

00:13:58,389 --> 00:13:56,880

somebody mentioned solar power you're

265

00:14:01,990 --> 00:13:58,399

gonna want a solar power

266

00:14:05,430 --> 00:14:02,000

system shortwave

267

00:14:08,069 --> 00:14:05,440

for weather radio uh

268

00:14:09,910 --> 00:14:08,079

they're gonna want a radio plenty of

269

00:14:13,030 --> 00:14:09,920

batteries

270

00:14:14,310 --> 00:14:13,040

if there's a big event uh things are

271

00:14:17,590 --> 00:14:14,320

gonna break down

272

00:14:22,949 --> 00:14:17,600

your power is going to go out power

273

00:14:22,959 --> 00:14:27,110

next

274

00:14:33,509 --> 00:14:31,430

other utilities water so

275

00:14:36,230 --> 00:14:33,519

i have a backup solar system here which

276

00:14:38,550 --> 00:14:36,240

is probably uh

277

00:14:42,310 --> 00:14:38,560

i think it's 400 watts and we have a

278

00:14:45,509 --> 00:14:42,320

bunch of golf cart batteries here

279

00:14:48,550 --> 00:14:45,519

in the event of having zero power here

280

00:14:50,949 --> 00:14:48,560

we would still have basic

281

00:14:52,310 --> 00:14:50,959

uh we could run a small refrigerator

282

00:14:56,310 --> 00:14:52,320

that we have here

283

00:14:59,670 --> 00:14:56,320

we could uh run laptops charge phones

284

00:15:03,430 --> 00:14:59,680

things that we're not running any major

285

00:15:06,629 --> 00:15:03,440

you know we have a very conservative

286

00:15:09,430 --> 00:15:06,639

movie on a bigger tv once in a while

287

00:15:11,509 --> 00:15:09,440

um then again i think the biggest tv

288

00:15:11,750 --> 00:15:11,519

that we have here is like 32 inch like

289

00:15:15,670 --> 00:15:11,760

an

290

00:15:17,829 --> 00:15:15,680

old 32 inch um

291

00:15:19,829 --> 00:15:17,839

but power will be important just to

292

00:15:21,110 --> 00:15:19,839

maintain some kind of sanity in your

293

00:15:24,069 --> 00:15:21,120

life you're going to want to watch a

294

00:15:25,990 --> 00:15:24,079

movie you're going to want to

295

00:15:28,790 --> 00:15:26,000

look you know still do some of the

296

00:15:30,310 --> 00:15:28,800

things that you used to enjoy

297

00:15:32,230 --> 00:15:30,320

it's going to be a stressful time people

298

00:15:33,829 --> 00:15:32,240

are going to want to escape even more so

299

00:15:35,430 --> 00:15:33,839

than usual i think so

300

00:15:36,870 --> 00:15:35,440

for me it's important to have the power

301
00:15:40,550 --> 00:15:36,880
available

302
00:15:42,949 --> 00:15:40,560
also the power is not just to live

303
00:15:44,790 --> 00:15:42,959
the power is to work you may need to

304
00:15:47,910 --> 00:15:44,800
charge tools or

305
00:15:50,470 --> 00:15:47,920
run a power saw something to work on

306
00:15:54,310 --> 00:15:50,480
your property or your place

307
00:15:56,150 --> 00:15:54,320
so power is very important equally

308
00:15:57,110 --> 00:15:56,160
important water we covered that last

309
00:16:01,430 --> 00:15:57,120
time

310
00:16:03,590 --> 00:16:01,440
we have a berkey water filter here

311
00:16:06,829 --> 00:16:03,600
it can basically take mud water and turn

312
00:16:09,430 --> 00:16:06,839
it into clean drinking water

313
00:16:10,150 --> 00:16:09,440

so um people don't think about these

314

00:16:13,269 --> 00:16:10,160

things but

315

00:16:15,509 --> 00:16:13,279

if tomorrow someone turned all the

316

00:16:18,069 --> 00:16:15,519

switches to your house off

317

00:16:19,910 --> 00:16:18,079

what would you do you have to think

318

00:16:23,749 --> 00:16:19,920

about these things right now while you

319

00:16:26,870 --> 00:16:23,759

have time to think about these things

320

00:16:28,069 --> 00:16:26,880

i mentioned radio i think that if

321

00:16:29,990 --> 00:16:28,079

everything breaks down

322

00:16:32,550 --> 00:16:30,000

radio will still be available there will

323

00:16:34,629 --> 00:16:32,560

still be people broadcasting and

324

00:16:35,990 --> 00:16:34,639

this will be important to have so that

325

00:16:39,030 --> 00:16:36,000

you will know what's

326

00:16:43,829 --> 00:16:39,040

going on during this

327

00:16:43,839 --> 00:16:48,230

communications is important so

328

00:16:55,749 --> 00:16:52,790

you know here uh

329

00:16:56,550 --> 00:16:55,759

we have each member of my family has a

330

00:17:00,389 --> 00:16:56,560

cell phone

331

00:17:02,870 --> 00:17:00,399

and the wi-fi network uh

332

00:17:04,069 --> 00:17:02,880

some things and it's basically goes

333

00:17:07,189 --> 00:17:04,079

through our whole property

334

00:17:08,870 --> 00:17:07,199

here so we could communicate

335

00:17:12,549 --> 00:17:08,880

with the cell phones even if there was

336

00:17:18,309 --> 00:17:12,559

no cell network or whatever

337

00:17:24,470 --> 00:17:18,319

i uh also think that

338

00:17:28,069 --> 00:17:26,069

what would you do and if this is going

339

00:17:31,270 --> 00:17:28,079

to be a it's not going to be

340

00:17:35,510 --> 00:17:31,280

a week it's going to be months

341

00:17:40,070 --> 00:17:35,520

some sort of turmoil like this comes

342

00:17:44,230 --> 00:17:40,080

so long-term lighting

343

00:17:47,029 --> 00:17:44,240

camping lanterns work good we have

344

00:17:48,630 --> 00:17:47,039

all kinds of things here i have some i

345

00:17:51,750 --> 00:17:48,640

meant to bring one in and show you

346

00:17:53,830 --> 00:17:51,760

i have these solar lanterns which have a

347

00:17:56,230 --> 00:17:53,840

solar panel on the top and the light

348

00:17:57,909 --> 00:17:56,240

is underneath and you can just put them

349

00:18:00,150 --> 00:17:57,919

out in the sun

350

00:18:02,470 --> 00:18:00,160

for a few hours and they will stay on

351

00:18:04,390 --> 00:18:02,480

all night they're not super bright

352

00:18:06,630 --> 00:18:04,400

they'd be bright enough to read from if

353

00:18:08,630 --> 00:18:06,640

they put it right next to you

354

00:18:09,990 --> 00:18:08,640

but it's a light and we have six or

355

00:18:14,310 --> 00:18:10,000

eight of them here

356

00:18:16,870 --> 00:18:14,320

um we have we have oil lanterns

357

00:18:17,350 --> 00:18:16,880

oil lambs are great because they can

358

00:18:20,630 --> 00:18:17,360

provide

359

00:18:22,150 --> 00:18:20,640

light from any kind of oil uh well not

360

00:18:25,110 --> 00:18:22,160

any kind but

361

00:18:27,590 --> 00:18:25,120

i did not know this but uh i found out

362

00:18:30,310 --> 00:18:27,600

that you can just put olive oil in

363

00:18:32,789 --> 00:18:30,320

you can put vegetable oil in them and

364

00:18:35,909 --> 00:18:32,799

they'll make light you don't need

365

00:18:38,950 --> 00:18:35,919

lamp oil but that's ideal

366

00:18:41,909 --> 00:18:38,960

they will also use kerosene

367

00:18:42,870 --> 00:18:41,919

i don't like kerosene smells and it

368

00:18:46,870 --> 00:18:42,880

makes the

369

00:18:49,430 --> 00:18:46,880

cabin smell like kerosene lamp oil

370

00:18:51,110 --> 00:18:49,440

actually most of the time i burn when we

371

00:18:53,190 --> 00:18:51,120

use them here i use

372

00:18:55,590 --> 00:18:53,200

olive oil because we have a big thing of

373

00:18:57,270 --> 00:18:55,600

olive oil in there

374

00:18:59,990 --> 00:18:57,280

but it's good to have a light source

375

00:19:02,230 --> 00:19:00,000

you're going to need that

376

00:19:03,750 --> 00:19:02,240

now i wanted to share some things about

377

00:19:07,190 --> 00:19:03,760

the mass exodus

378

00:19:11,990 --> 00:19:07,200

of the cities i have been

379

00:19:14,470 --> 00:19:12,000

getting more and more concerned about my

380

00:19:15,750 --> 00:19:14,480

let's call it premonition upcoming

381

00:19:19,830 --> 00:19:15,760

turmoil

382

00:19:23,270 --> 00:19:19,840

because uh there's a lot of news

383

00:19:27,190 --> 00:19:23,280

about people fleeing the cities

384

00:19:29,750 --> 00:19:27,200

there is a mass exodus from the cities

385

00:19:31,430 --> 00:19:29,760

uh especially new york city but it's

386

00:19:34,150 --> 00:19:31,440

happening everywhere

387

00:19:35,350 --> 00:19:34,160

i grew up and moved not long ago from

388

00:19:38,390 --> 00:19:35,360

philadelphia which is

389

00:19:41,669 --> 00:19:38,400

of course it's not it's

390

00:19:44,310 --> 00:19:41,679

a big huge city uh and there is equally

391

00:19:46,150 --> 00:19:44,320

a mass exodus of going on out of

392

00:19:49,909 --> 00:19:46,160

philadelphia

393

00:19:53,029 --> 00:19:49,919

there there is huge amounts

394

00:19:56,630 --> 00:19:53,039

of homes for sale in philadelphia

395

00:20:01,270 --> 00:19:56,640

right now that no one's buying

396

00:20:03,510 --> 00:20:01,280

and conversely in the suburbs

397

00:20:06,710 --> 00:20:03,520

everybody's buying into the suburbs

398

00:20:13,029 --> 00:20:09,830

but in new york uh

399

00:20:16,230 --> 00:20:13,039

there is a lot of signs

400

00:20:18,149 --> 00:20:16,240

that the city is literally emptying out

401
00:20:19,990 --> 00:20:18,159
because of the high crime rate because

402
00:20:22,390 --> 00:20:20,000
of covered restrictions

403
00:20:24,630 --> 00:20:22,400
because of the lack of anybody being

404
00:20:28,470 --> 00:20:24,640
able to make a living there

405
00:20:37,430 --> 00:20:28,480
uh it's getting bad it's getting bad

406
00:20:37,440 --> 00:20:45,430
of course

407
00:20:45,440 --> 00:20:57,830
one second friends

408
00:21:06,710 --> 00:21:03,350
okay i should mention that i'm on linux

409
00:21:10,789 --> 00:21:06,720
and for once i'm having a problem while

410
00:21:13,669 --> 00:21:10,799
doing something with the linux computer

411
00:21:15,750 --> 00:21:13,679
i don't know why but my browser blocked

412
00:25:44,870 --> 00:21:15,760
my screen

413
00:25:44,880 --> 00:25:48,070

check one

414

00:25:54,310 --> 00:25:51,110

hello gee

415

00:25:57,350 --> 00:25:54,320

uh is it fixed

416

00:26:00,470 --> 00:25:57,360

okay good gee man that was weird

417

00:26:03,029 --> 00:26:00,480

that was very weird

418

00:26:04,230 --> 00:26:03,039

okay so i'm sorry friends i don't know

419

00:26:07,590 --> 00:26:04,240

what happened it just

420

00:26:10,149 --> 00:26:07,600

like blinked off right now so uh

421

00:26:12,070 --> 00:26:10,159

yeah but we blinked back so here we are

422

00:26:13,909 --> 00:26:12,080

this is a live show we're up here in the

423

00:26:18,230 --> 00:26:13,919

middle of the mountains

424

00:26:20,390 --> 00:26:18,240

uh these things are going to happen

425

00:26:21,909 --> 00:26:20,400

and now i completely and totally lost my

426

00:26:24,070 --> 00:26:21,919

train of thought

427

00:26:25,510 --> 00:26:24,080

i don't even know where i was oh we were

428

00:26:29,510 --> 00:26:25,520

gonna share the uh

429

00:26:39,990 --> 00:26:29,520

okay yeah we're gonna share but

430

00:26:44,230 --> 00:26:41,510

there's some articles that i've been

431

00:26:44,240 --> 00:26:47,830

and uh

432

00:26:52,630 --> 00:26:51,190

it's really uh it's really disturbing to

433

00:26:55,669 --> 00:26:52,640

see

434

00:26:57,990 --> 00:26:55,679

the signs of this coming turmoil

435

00:26:59,990 --> 00:26:58,000

and the mass exodus from the cities that

436

00:27:03,669 --> 00:27:00,000

is taking place

437

00:27:06,950 --> 00:27:03,679

so uh let's see if this is gonna

438

00:27:09,110 --> 00:27:06,960

let me this time yes it will okay so now

439

00:27:13,029 --> 00:27:09,120

we fixed our other issue too i'm sorry

440

00:27:18,950 --> 00:27:17,029

okay fleet of moving trucks mark exodus

441

00:27:21,510 --> 00:27:18,960

from manhattan's troubled upper west

442

00:27:24,070 --> 00:27:21,520

side moving trucks were out in force on

443

00:27:25,510 --> 00:27:24,080

manhattan's upper west side on saturday

444

00:27:27,830 --> 00:27:25,520

leaving guardian angels found their

445

00:27:28,470 --> 00:27:27,840

curvis silhouette practically tripping

446

00:27:30,870 --> 00:27:28,480

over them

447

00:27:31,750 --> 00:27:30,880

the mass evacuation of upper west siders

448

00:27:35,269 --> 00:27:31,760

from new york city

449

00:27:37,750 --> 00:27:35,279

is in full effect silva who lives

450

00:27:39,430 --> 00:27:37,760

on west 87th street lamented blaming the

451
00:27:40,710 --> 00:27:39,440
city's decision this summer

452
00:27:42,149 --> 00:27:40,720
to house hundreds of emotionally

453
00:27:44,549 --> 00:27:42,159
disturbed homeless and recovering

454
00:27:46,230 --> 00:27:44,559
addicts in neighborhood hotels

455
00:27:48,470 --> 00:27:46,240
the mayoral candidate silver has been

456
00:27:51,029 --> 00:27:48,480
organizing an getting various patrols in

457
00:27:58,789 --> 00:27:55,269
so this is but this is just one story

458
00:28:01,830 --> 00:27:58,799
if you google mass exodus or

459
00:28:14,870 --> 00:28:01,840
exodus from new york city

460
00:28:21,590 --> 00:28:18,549
the demand for movers in new york city

461
00:28:24,630 --> 00:28:21,600
is through the roof

462
00:28:27,269 --> 00:28:24,640
and that is because there is literally a

463
00:28:30,549 --> 00:28:27,279

mass exodus going on

464

00:28:34,310 --> 00:28:30,559

uh people are moving out

465

00:28:38,310 --> 00:28:34,320

of the city in droves

466

00:28:38,320 --> 00:28:42,389

one second now i've got we are going

467

00:28:47,029 --> 00:28:44,950

i wanted a certain one there's an

468

00:28:50,149 --> 00:28:47,039

article

469

00:28:53,990 --> 00:28:50,159

okay this is definitely the one yeah

470

00:28:55,590 --> 00:28:54,000

but let me uh let me just hold for a

471

00:28:57,190 --> 00:28:55,600

second because there's a stupid ad

472

00:29:05,909 --> 00:28:57,200

on this page and i hate playing their

473

00:29:10,149 --> 00:29:08,389

yeah so i'm gonna just read this rich

474

00:29:11,669 --> 00:29:10,159

manhattanites are playing the city so

475

00:29:13,029 --> 00:29:11,679

fast because they're pandemic and

476

00:29:15,669 --> 00:29:13,039

deteriorating

477

00:29:17,430 --> 00:29:15,679

quality of light in the big apple that

478

00:29:18,230 --> 00:29:17,440

moving companies can barely keep up with

479

00:29:20,310 --> 00:29:18,240

them

480

00:29:23,190 --> 00:29:20,320

it's nuts every chance of show-off

481

00:29:25,110 --> 00:29:23,200

movers told the coast on sunday we have

482

00:29:26,549 --> 00:29:25,120

four of our own trucks but we have so

483

00:29:29,350 --> 00:29:26,559

many books

484

00:29:31,190 --> 00:29:29,360

that we had to start using u-haul trucks

485

00:29:31,669 --> 00:29:31,200

the volume has increased by at least 70

486

00:29:33,590 --> 00:29:31,679

percent

487

00:29:35,190 --> 00:29:33,600

in the past few months you said clients

488

00:29:36,789 --> 00:29:35,200

are mostly moving out of luxury

489

00:29:37,669 --> 00:29:36,799

buildings people say the rich are

490

00:29:40,710 --> 00:29:37,679

leaving new york

491

00:29:42,389 --> 00:29:40,720

well they are tan said 25 percent of the

492

00:29:44,310 --> 00:29:42,399

company's customers are heading from

493

00:29:45,669 --> 00:29:44,320

city to state such as connecticut and

494

00:29:47,350 --> 00:29:45,679

pennsylvania

495

00:29:49,190 --> 00:29:47,360

another five percent are moving

496

00:29:53,430 --> 00:29:49,200

elsewhere in the apple

497

00:29:57,269 --> 00:29:53,440

i'm assuming that's elsewhere in uh

498

00:29:59,669 --> 00:29:57,279

elsewhere in the state of new york

499

00:30:02,470 --> 00:29:59,679

i know there's a lot of camping land and

500

00:30:05,909 --> 00:30:02,480

recreational land in new york state

501
00:30:08,470 --> 00:30:05,919
um so can i also hear that a lot of

502
00:30:11,029 --> 00:30:08,480
rich new york people are buying up

503
00:30:13,830 --> 00:30:11,039
cabins and properties in rural new york

504
00:30:20,389 --> 00:30:17,269
and you can't buy

505
00:30:22,549 --> 00:30:20,399
a cabin right now you can't buy a you

506
00:30:24,389 --> 00:30:22,559
know like a vacation home right now

507
00:30:27,029 --> 00:30:24,399
at least not easily because they're all

508
00:30:30,070 --> 00:30:27,039
being bought up

509
00:30:31,909 --> 00:30:30,080
and that's a strange thing

510
00:30:33,430 --> 00:30:31,919
and it's not just only the wealthy who

511
00:30:35,269 --> 00:30:33,440
are trading big city life for the

512
00:30:35,990 --> 00:30:35,279
suburbs when they have an office on park

513
00:30:37,669 --> 00:30:36,000

that avenue

514

00:30:39,350 --> 00:30:37,679

and you don't see anyone but the less

515

00:30:41,350 --> 00:30:39,360

fortunate the homeless

516

00:30:43,350 --> 00:30:41,360

no more day-to-day workers the high rent

517

00:30:44,230 --> 00:30:43,360

makes no sense explain to small business

518

00:30:46,710 --> 00:30:44,240

owner

519

00:30:48,630 --> 00:30:46,720

u-haul truck rental sentinel unless 2030

520

00:30:50,389 --> 00:30:48,640

chelsea has to prepare for a move to

521

00:30:52,070 --> 00:30:50,399

long island

522

00:30:53,909 --> 00:30:52,080

i have 10 people who just moved out of

523

00:30:55,590 --> 00:30:53,919

the city of manhattan businessmen said

524

00:30:59,750 --> 00:30:55,600

two of my business partners and eight

525

00:31:04,070 --> 00:31:02,389

stephen vasagnago a 41 year old

526
00:31:05,430 --> 00:31:04,080
insurance underwriter said he is moving

527
00:31:07,029 --> 00:31:05,440
out with his wife and two-year-old

528
00:31:10,310 --> 00:31:07,039
daughter from murray hill

529
00:31:12,310 --> 00:31:10,320
in manhattan to upstate kipsie in the

530
00:31:15,750 --> 00:31:12,320
birds it feels more normal put a mask on

531
00:31:20,470 --> 00:31:18,549
so ghana told the post here all the

532
00:31:22,950 --> 00:31:20,480
stress and posturing by the

533
00:31:25,190 --> 00:31:22,960
bosnia de blasio administration it just

534
00:31:28,870 --> 00:31:25,200
adds to the stress on us

535
00:31:30,630 --> 00:31:28,880
john romero 28 pro house trombone player

536
00:31:32,070 --> 00:31:30,640
for the metropolitan opera in manhattan

537
00:31:33,590 --> 00:31:32,080
said he's moving from the upper west

538
00:31:35,110 --> 00:31:33,600

side to texas

539

00:31:36,710 --> 00:31:35,120

i don't know why but a lot of people are

540

00:31:38,630 --> 00:31:36,720

moving to texas

541

00:31:40,549 --> 00:31:38,640

there is not much work here for

542

00:31:41,909 --> 00:31:40,559

musicians he said i'm from texas and i

543

00:31:43,590 --> 00:31:41,919

have friends and family there

544

00:31:45,430 --> 00:31:43,600

plus teaching is a part of my business

545

00:31:45,990 --> 00:31:45,440

and people there will be more willing

546

00:31:49,830 --> 00:31:46,000

less scared

547

00:31:53,029 --> 00:31:51,669

guardian angels founder and current

548

00:31:55,190 --> 00:31:53,039

memorial hopeful chris

549

00:31:56,789 --> 00:31:55,200

silva told the post on saturday that he

550

00:31:58,950 --> 00:31:56,799

has seen a huge wave of people moving

551
00:32:01,909 --> 00:31:58,960
from his neighborhood around west 87th

552
00:32:03,509 --> 00:32:01,919
street the mass evacuation of upper west

553
00:32:05,029 --> 00:32:03,519
siders from new york city is in full

554
00:32:07,669 --> 00:32:05,039
effect

555
00:32:09,750 --> 00:32:07,679
the moment i walked out on my block near

556
00:32:11,269 --> 00:32:09,760
central park west there was a moving

557
00:32:12,789 --> 00:32:11,279
truck he said i asked where are you

558
00:32:14,710 --> 00:32:12,799
going and they said virginia

559
00:32:17,110 --> 00:32:14,720
they told me curtis first the pandemic

560
00:32:19,029 --> 00:32:17,120
hit us now the quality of life is so bad

561
00:32:20,789 --> 00:32:19,039
the woman was always crying last month

562
00:32:23,190 --> 00:32:20,799
there was a 44

563
00:32:24,070 --> 00:32:23,200

jump in home sales in new york city's

564

00:32:27,990 --> 00:32:24,080

suburbs

565

00:32:29,909 --> 00:32:28,000

including 112 hike in westchester county

566

00:32:33,750 --> 00:32:29,919

compared to the same month last year

567

00:32:39,909 --> 00:32:37,590

so i'm i'm seeing not just

568

00:32:41,029 --> 00:32:39,919

you know there's not just a few articles

569

00:32:44,149 --> 00:32:41,039

about this this is

570

00:32:47,830 --> 00:32:44,159

a big event a mass exodus

571

00:32:54,630 --> 00:32:51,269

and it's not just new york um

572

00:32:57,830 --> 00:32:54,640

philadelphia is emptying out every it's

573

00:33:02,630 --> 00:32:57,840

here's the thing too it's kind of like

574

00:33:06,549 --> 00:33:02,640

everyone needs and the opportunity

575

00:33:10,789 --> 00:33:06,559

to go someplace safer is doing

576

00:33:13,750 --> 00:33:10,799

exactly that and what scares me is

577

00:33:14,870 --> 00:33:13,760

what's going to be left of the cities

578

00:33:18,549 --> 00:33:14,880

after

579

00:33:19,909 --> 00:33:18,559

all the people that still have decent

580

00:33:22,870 --> 00:33:19,919

paying jobs or some

581

00:33:24,070 --> 00:33:22,880

sort of income have escaped what's going

582

00:33:27,909 --> 00:33:24,080

to be left in the city

583

00:33:31,029 --> 00:33:27,919

are going to be people with no jobs

584

00:33:35,669 --> 00:33:31,039

people with no income

585

00:33:39,350 --> 00:33:35,679

people who may be hopeless and hurting

586

00:33:42,470 --> 00:33:39,360

so the cities i believe will quickly

587

00:33:45,909 --> 00:33:42,480

or could quickly deteriorate into not a

588

00:33:51,269 --> 00:33:49,430

i don't think that staying in the city

589

00:33:53,669 --> 00:33:51,279

if you live in a major city is a good

590

00:33:55,590 --> 00:33:53,679

idea for anyone right now and i would

591

00:33:56,710 --> 00:33:55,600

recommend that if you do have the news

592

00:33:59,750 --> 00:33:56,720

and the opportunity

593

00:34:03,590 --> 00:33:59,760

to find a safer place you do

594

00:34:09,589 --> 00:34:06,950

so friends for all these reasons

595

00:34:10,230 --> 00:34:09,599

i'm here at my apocalypse cabin getting

596

00:34:13,430 --> 00:34:10,240

ready

597

00:34:14,550 --> 00:34:13,440

for something uh this weekend i'm going

598

00:34:16,310 --> 00:34:14,560

to be starting on

599

00:34:18,950 --> 00:34:16,320

there is going to be an attached

600

00:34:23,270 --> 00:34:18,960

greenhouse on the other side of

601
00:34:25,349 --> 00:34:23,280
the cabin uh which will be good because

602
00:34:26,869 --> 00:34:25,359
it's crazy winners here so it'll extend

603
00:34:27,829 --> 00:34:26,879
the growing season and we'll be able to

604
00:34:31,109 --> 00:34:27,839
grow

605
00:34:34,069 --> 00:34:31,119
small amounts of food in that year-round

606
00:34:36,310 --> 00:34:34,079
and also it will help provide free heat

607
00:34:38,389 --> 00:34:36,320
for the cabin

608
00:34:40,950 --> 00:34:38,399
on a good sunny day i can open the door

609
00:34:41,750 --> 00:34:40,960
between what will be the greenhouse room

610
00:34:45,109 --> 00:34:41,760
in the cabin

611
00:34:49,589 --> 00:34:45,119
and free heat will flood

612
00:34:53,190 --> 00:34:49,599
in here which means we'll burn less ford

613
00:34:54,389 --> 00:34:53,200

more propane uh just use less energy to

614

00:34:56,389 --> 00:34:54,399

keep the place

615

00:34:57,510 --> 00:34:56,399

i've designed this place to be as energy

616

00:35:00,550 --> 00:34:57,520

efficient as possible

617

00:35:02,790 --> 00:35:00,560

we have and safe as possible

618

00:35:04,630 --> 00:35:02,800

the walls here in the room that i'm in

619

00:35:08,150 --> 00:35:04,640

are two foot thick

620

00:35:09,270 --> 00:35:08,160

the outer balls anyway and these are two

621

00:35:13,109 --> 00:35:09,280

foot pick logs

622

00:35:20,150 --> 00:35:17,109

sawdust to act as insulation so

623

00:35:23,910 --> 00:35:20,160

um this room you

624

00:35:26,710 --> 00:35:23,920

heat for only about a half of the day

625

00:35:28,310 --> 00:35:26,720

and then it just holds the heat uh

626

00:35:30,390 --> 00:35:28,320

really really well you don't have to

627

00:35:32,150 --> 00:35:30,400

just keep the burner going constantly

628

00:35:36,310 --> 00:35:32,160

here

629

00:35:38,390 --> 00:35:36,320

i kind of just i basically just

630

00:35:39,349 --> 00:35:38,400

get it going really good in the morning

631

00:35:41,030 --> 00:35:39,359

and

632

00:35:42,710 --> 00:35:41,040

i don't know by after lunchtime i'm just

633

00:35:45,270 --> 00:35:42,720

throwing one long game every once in a

634

00:35:48,310 --> 00:35:45,280

while to keep a fire in there

635

00:35:49,109 --> 00:35:48,320

but the room is here is incredibly

636

00:35:54,950 --> 00:35:49,119

efficient

637

00:35:59,990 --> 00:35:58,470

i uh just i'm glad to have a place like

638

00:36:03,430 --> 00:36:00,000

this

639

00:36:04,150 --> 00:36:03,440

i hope i won't need it and in the event

640

00:36:06,870 --> 00:36:04,160

that i don't

641

00:36:08,069 --> 00:36:06,880

it's a hell of a vacation house and a

642

00:36:11,510 --> 00:36:08,079

good place to go

643

00:36:12,230 --> 00:36:11,520

for example and go work on a writing

644

00:36:15,829 --> 00:36:12,240

project

645

00:36:19,030 --> 00:36:15,839

it's so quiet here and basically

646

00:36:21,750 --> 00:36:19,040

desolate in the winter nobody is here

647

00:36:23,910 --> 00:36:21,760

uh in the summer there are a lot of

648

00:36:26,630 --> 00:36:23,920

people around here with summer cabins

649

00:36:27,910 --> 00:36:26,640

so it's a little busy sometimes in the

650

00:36:30,390 --> 00:36:27,920

summer but

651
00:36:31,349 --> 00:36:30,400
in the winter there's nothing here no

652
00:36:35,349 --> 00:36:31,359
one

653
00:36:37,990 --> 00:36:35,359
uh it's just a good thing to have

654
00:36:39,589 --> 00:36:38,000
especially in an event of a problem i

655
00:36:40,870 --> 00:36:39,599
feel pretty safe where we are in the

656
00:36:44,069 --> 00:36:40,880
suburbs

657
00:36:47,270 --> 00:36:44,079
people try to do the sort of uh let's

658
00:36:48,390 --> 00:36:47,280
do a protest and then you know loot the

659
00:36:52,829 --> 00:36:48,400
stores but

660
00:36:55,430 --> 00:36:52,839
in where i live uh people would

661
00:36:58,310 --> 00:36:55,440
basically standing with long guns

662
00:36:59,670 --> 00:36:58,320
like we're going to protect the stores

663
00:37:00,790 --> 00:36:59,680

we're not going to have violence and

664

00:37:03,589 --> 00:37:00,800

moving and

665

00:37:04,069 --> 00:37:03,599

you know we're not going to have that

666

00:37:06,550 --> 00:37:04,079

here

667

00:37:08,150 --> 00:37:06,560

and then basically they back down so

668

00:37:10,790 --> 00:37:08,160

they realized that there would be armed

669

00:37:15,190 --> 00:37:13,829

didn't come up to where i live from the

670

00:37:17,430 --> 00:37:15,200

city

671

00:37:19,510 --> 00:37:17,440

but in the event of a problem a big

672

00:37:20,829 --> 00:37:19,520

problem like a food shortage they sure

673

00:37:22,310 --> 00:37:20,839

as hell are going to come up to the

674

00:37:26,069 --> 00:37:22,320

suburbs

675

00:37:30,069 --> 00:37:26,079

and so i guess the cabin is

676

00:37:32,150 --> 00:37:30,079

even further removed i mentioned

677

00:37:35,030 --> 00:37:32,160

that your safe location should be

678

00:37:38,230 --> 00:37:35,040

someplace that's kind of hard to get to

679

00:37:39,510 --> 00:37:38,240

uh i just don't see people from

680

00:37:41,750 --> 00:37:39,520

philadelphia

681

00:37:43,829 --> 00:37:41,760

traveling 100 miles to come up here and

682

00:37:45,510 --> 00:37:43,839

steal anything from me

683

00:37:47,430 --> 00:37:45,520

in the event that they don't have

684

00:37:49,829 --> 00:37:47,440

anything uh no

685

00:37:50,630 --> 00:37:49,839

they're gonna go the of distance they

686

00:37:52,470 --> 00:37:50,640

have to

687

00:37:54,150 --> 00:37:52,480

to get whatever it is that they need

688

00:37:57,270 --> 00:37:54,160

from whoever has it

689

00:37:59,670 --> 00:37:57,280

they're not making it up here

690

00:38:01,589 --> 00:37:59,680

and if they do you know it's kind of

691

00:38:04,069 --> 00:38:01,599

like everybody here

692

00:38:05,990 --> 00:38:04,079

i will say this everybody in my area the

693

00:38:07,270 --> 00:38:06,000

neighbors that i do know everybody here

694

00:38:10,950 --> 00:38:07,280

looks out for each other

695

00:38:13,990 --> 00:38:10,960

and it's kind of like uh i feel safe

696

00:38:15,829 --> 00:38:14,000

you know if somebody's uh if there's a

697

00:38:17,270 --> 00:38:15,839

problem around here the neighbors will

698

00:38:20,310 --> 00:38:17,280

let me know about it

699

00:38:21,430 --> 00:38:20,320

and kind of just deal with it but we

700

00:38:24,950 --> 00:38:21,440

don't really have

701
00:38:26,870 --> 00:38:24,960
crime or anything here like i was amazed

702
00:38:29,109 --> 00:38:26,880
when i got this place because i was

703
00:38:31,190 --> 00:38:29,119
doing things like locking everything up

704
00:38:32,790 --> 00:38:31,200
like crazy even if i went to the store

705
00:38:34,790 --> 00:38:32,800
for you know

706
00:38:36,390 --> 00:38:34,800
you don't have to do that here nobody

707
00:38:37,829 --> 00:38:36,400
goes on anybody else's land

708
00:38:39,910 --> 00:38:37,839
unless there's some kind of problem and

709
00:38:41,750 --> 00:38:39,920
they really have to you know like if the

710
00:38:43,349 --> 00:38:41,760
neighbor were to see a tree fall on my

711
00:38:45,109 --> 00:38:43,359
cabin while i'm not here

712
00:38:47,109 --> 00:38:45,119
i bet you a neighbor would go over and

713
00:38:48,550 --> 00:38:47,119

get that tree off or whatever and call

714

00:38:51,430 --> 00:38:48,560

me and let me know

715

00:38:52,550 --> 00:38:51,440

but nobody goes on your land nobody

716

00:38:55,670 --> 00:38:52,560

takes anything

717

00:38:57,910 --> 00:38:55,680

we don't really have you know druggies

718

00:38:58,470 --> 00:38:57,920

stealing power tools from your shed at

719

00:38:59,829 --> 00:38:58,480

night or

720

00:39:01,510 --> 00:38:59,839

we don't have anything like that it's

721

00:39:04,550 --> 00:39:01,520

just so remote here

722

00:39:06,150 --> 00:39:04,560

everybody keeps themselves uh

723

00:39:08,710 --> 00:39:06,160

for the most part but people are

724

00:39:09,990 --> 00:39:08,720

friendly i think this is a very safe

725

00:39:13,670 --> 00:39:10,000

place

726

00:39:14,150 --> 00:39:13,680

and uh i feel that the safest i've ever

727

00:39:17,510 --> 00:39:14,160

felt

728

00:39:24,870 --> 00:39:20,630

and uh i'm glad to have that

729

00:39:26,790 --> 00:39:24,880

for for my family really um

730

00:39:27,990 --> 00:39:26,800

it's something about being a man right

731

00:39:33,510 --> 00:39:28,000

we have to

732

00:39:33,520 --> 00:39:37,670

charged with protecting our family

733

00:39:41,349 --> 00:39:39,430

we are charged with protecting our

734

00:39:45,190 --> 00:39:41,359

family and

735

00:39:48,230 --> 00:39:45,200

no matter what comes we have to do that

736

00:39:52,150 --> 00:39:48,240

we have to make sure

737

00:39:55,829 --> 00:39:52,160

that our family is

738

00:39:59,190 --> 00:39:55,839

safe warm and fed

739

00:40:01,270 --> 00:39:59,200

uh i don't know maybe i worry maybe i

740

00:40:03,750 --> 00:40:01,280

worry too much

741

00:40:05,349 --> 00:40:03,760

and this place though helps me worry a

742

00:40:09,990 --> 00:40:05,359

little bit less

743

00:40:12,150 --> 00:40:10,000

about those kind of things

744

00:40:13,349 --> 00:40:12,160

there's a lot of things and works here

745

00:40:16,710 --> 00:40:13,359

to do

746

00:40:19,750 --> 00:40:16,720

um i uh

747

00:40:20,630 --> 00:40:19,760

really do like a good challenge so one

748

00:40:25,910 --> 00:40:20,640

of the

749

00:40:26,790 --> 00:40:25,920

some money set aside and we were going

750

00:40:30,950 --> 00:40:26,800

to build the

751
00:40:33,910 --> 00:40:30,960
that money

752
00:40:35,109 --> 00:40:33,920
but then covered it and all the

753
00:40:38,150 --> 00:40:35,119
materials

754
00:40:40,870 --> 00:40:38,160
especially lumber is twice as much

755
00:40:43,190 --> 00:40:40,880
as it was before covered so now the

756
00:40:46,230 --> 00:40:43,200
money that i put aside and budgeted

757
00:40:48,470 --> 00:40:46,240
and was pretty sure was going to pay for

758
00:40:52,870 --> 00:40:48,480
all the materials that i needed

759
00:40:55,349 --> 00:40:52,880
is nowhere near enough to do it

760
00:40:56,630 --> 00:40:55,359
so you know i kind of thought about it

761
00:40:57,670 --> 00:40:56,640
and how am i going to overcome this

762
00:41:01,270 --> 00:40:57,680
challenge and

763
00:41:04,470 --> 00:41:01,280

i started looking around and uh

764

00:41:06,550 --> 00:41:04,480

there's wood everywhere it's just trees

765

00:41:09,670 --> 00:41:06,560

not lumber

766

00:41:14,470 --> 00:41:09,680

so i'm gonna figure it out i'm gonna use

767

00:41:19,270 --> 00:41:14,480

natural trees small round

768

00:41:23,750 --> 00:41:21,670

do whatever i can do i've already got

769

00:41:25,589 --> 00:41:23,760

enough windows to build all the walls

770

00:41:28,150 --> 00:41:25,599

all the way around

771

00:41:28,870 --> 00:41:28,160

more than enough windows but then we're

772

00:41:31,109 --> 00:41:28,880

gonna need

773

00:41:34,870 --> 00:41:31,119

the only thing i can't avoid buying from

774

00:41:37,990 --> 00:41:34,880

like lowe's or home depot is the plastic

775

00:41:38,870 --> 00:41:38,000

sort of uh it's kind of like metal roof

776

00:41:41,510 --> 00:41:38,880

sheeting but it's

777

00:41:42,790 --> 00:41:41,520

plastic and it's clear for the top you

778

00:41:46,390 --> 00:41:42,800

know for the roof

779

00:41:48,630 --> 00:41:46,400

section um can't avoid that

780

00:41:50,470 --> 00:41:48,640

but everything else i think we've got

781

00:41:54,069 --> 00:41:50,480

all these windows

782

00:41:58,230 --> 00:41:54,079

um making a floor out of blog rounds

783

00:42:02,550 --> 00:41:58,240

and mortar mix um

784

00:42:04,710 --> 00:42:02,560

yeah so that can overcome because i just

785

00:42:06,390 --> 00:42:04,720

it would be so easy though that's what

786

00:42:07,990 --> 00:42:06,400

kind of kills me it would be so easy to

787

00:42:10,470 --> 00:42:08,000

just go to home depot

788

00:42:11,670 --> 00:42:10,480

buy all the whole bunch of two by fours

789

00:42:15,109 --> 00:42:11,680

and frame this thing out

790

00:42:16,870 --> 00:42:15,119

slap it together in like one or two days

791

00:42:18,390 --> 00:42:16,880

but now since i kind of have to make

792

00:42:21,510 --> 00:42:18,400

each beam out of a tree

793

00:42:23,349 --> 00:42:21,520

or tree pieces or tree branches uh it's

794

00:42:25,430 --> 00:42:23,359

going to take a little longer

795

00:42:26,710 --> 00:42:25,440

but i do have this fascination with

796

00:42:29,030 --> 00:42:26,720

building with

797

00:42:30,550 --> 00:42:29,040

natural materials as much natural

798

00:42:33,670 --> 00:42:30,560

materials as possible

799

00:42:35,910 --> 00:42:33,680

and i kind of think yeah

800

00:42:37,670 --> 00:42:35,920

i think i could go to home depot or

801
00:42:41,510 --> 00:42:37,680
lowe's and buy the stuff

802
00:42:43,829 --> 00:42:41,520
buy the lumber or i can use what we have

803
00:42:44,550 --> 00:42:43,839
here on our land which is substantial

804
00:42:47,270 --> 00:42:44,560
there's

805
00:42:48,790 --> 00:42:47,280
all in trees and fallen huge fallen tree

806
00:42:51,190 --> 00:42:48,800
branches

807
00:42:52,390 --> 00:42:51,200
all around and i also have permission

808
00:42:55,270 --> 00:42:52,400
from the community here

809
00:42:58,069 --> 00:42:55,280
that anything that's public land i can

810
00:43:00,390 --> 00:42:58,079
go on and take anything i want uh

811
00:43:01,750 --> 00:43:00,400
as long as i'm respectful so like you

812
00:43:03,349 --> 00:43:01,760
know they don't want me cutting down any

813
00:43:04,550 --> 00:43:03,359

huge trees and making a mess or

814

00:43:07,829 --> 00:43:04,560

something but i

815

00:43:09,990 --> 00:43:07,839

i can go in there i call it my off-grid

816

00:43:11,510 --> 00:43:10,000

hardware store well really it's the

817

00:43:14,630 --> 00:43:11,520

off-grid lumber store

818

00:43:17,990 --> 00:43:14,640

some assembly is however required

819

00:43:19,750 --> 00:43:18,000

so you know these are the challenges

820

00:43:20,870 --> 00:43:19,760

that i'm facing with this place i gotta

821

00:43:24,550 --> 00:43:20,880

build this greenhouse

822

00:43:27,670 --> 00:43:24,560

we need it and uh and and i want it

823

00:43:30,870 --> 00:43:27,680

and it's part of the major plan of the

824

00:43:33,990 --> 00:43:30,880

cabin is to have this greenhouse

825

00:43:37,430 --> 00:43:34,000

to help with the heat situation here

826

00:43:40,069 --> 00:43:37,440

and also grow food in

827

00:43:42,150 --> 00:43:40,079

the summers here are too short that

828

00:43:44,630 --> 00:43:42,160

greenhouse will

829

00:43:46,630 --> 00:43:44,640

it's going to be 10 by uh it's only 12

830

00:43:50,069 --> 00:43:46,640

by 24.

831

00:43:52,150 --> 00:43:50,079

so that's a pretty big greenhouse

832

00:43:54,630 --> 00:43:52,160

besides just starting plants i think we

833

00:43:58,309 --> 00:43:54,640

may have a few you know

834

00:44:01,270 --> 00:43:58,319

deep garden boxes that will have

835

00:44:02,790 --> 00:44:01,280

things like uh tomatoes and peppers and

836

00:44:05,510 --> 00:44:02,800

things that

837

00:44:07,270 --> 00:44:05,520

are will just continue to bear fruit

838

00:44:09,190 --> 00:44:07,280

those species that continue to bear

839

00:44:14,950 --> 00:44:09,200

fruit you just leave them

840

00:44:21,030 --> 00:44:18,950

so here at the apocalypse cabin

841

00:44:22,230 --> 00:44:21,040

you know and that's another thing i feel

842

00:44:25,430 --> 00:44:22,240

like i'm rushing

843

00:44:27,270 --> 00:44:25,440

everything here just in case and i

844

00:44:30,230 --> 00:44:27,280

feel like i'm a little obsessed with

845

00:44:34,309 --> 00:44:30,240

like taking things here

846

00:44:36,790 --> 00:44:34,319

just in case and uh

847

00:44:37,670 --> 00:44:36,800

this week i brought a bluetooth speaker

848

00:44:40,550 --> 00:44:37,680

here

849

00:44:42,309 --> 00:44:40,560

uh which is great but not just a

850

00:44:45,829 --> 00:44:42,319

bluetooth speaker you can

851
00:44:47,349 --> 00:44:45,839
charge your phone on it and uh

852
00:44:49,030 --> 00:44:47,359
and you can charge this bluetooth

853
00:44:49,990 --> 00:44:49,040
speaker i can easily charge this

854
00:44:53,190 --> 00:44:50,000
bluetooth speaker

855
00:44:56,870 --> 00:44:53,200
from from solar so

856
00:44:57,990 --> 00:44:56,880
i'll always have music i've got a huge

857
00:45:00,069 --> 00:44:58,000
collection of music

858
00:45:03,109 --> 00:45:00,079
in my phone at least i did but i just

859
00:45:05,990 --> 00:45:03,119
got a new phone so i have to do that but

860
00:45:07,510 --> 00:45:06,000
uh yeah that's another thing make sure

861
00:45:10,710 --> 00:45:07,520
that you have cds

862
00:45:13,829 --> 00:45:10,720
records cassettes mp3s

863
00:45:16,870 --> 00:45:13,839

and a way to play them you're gonna want

864

00:45:22,150 --> 00:45:16,880

music in your life skill if

865

00:45:27,510 --> 00:45:25,030

imagine our children if the internet

866

00:45:30,630 --> 00:45:27,520

just goes off for a few months

867

00:45:33,190 --> 00:45:30,640

everybody is so spoiled now with

868

00:45:35,349 --> 00:45:33,200

being able to play literally anything

869

00:45:39,910 --> 00:45:35,359

you want

870

00:45:42,309 --> 00:45:39,920

goes down

871

00:45:43,109 --> 00:45:42,319

you're going to need something like

872

00:45:46,150 --> 00:45:43,119

music

873

00:45:50,309 --> 00:45:46,160

on cds remember those

874

00:45:53,829 --> 00:45:50,319

so all physical medium

875

00:45:55,829 --> 00:45:53,839

goes here to the cabin and we've all got

876

00:45:57,670 --> 00:45:55,839

that right a lot of people still have

877

00:46:01,510 --> 00:45:57,680

that box of cds

878

00:46:05,910 --> 00:46:01,520

tapes you know i just take them off here

879

00:46:10,309 --> 00:46:08,710

i've also uh you know like i said i'm

880

00:46:12,550 --> 00:46:10,319

just kind of crazy trying to bring

881

00:46:15,670 --> 00:46:12,560

everything i can here i got these

882

00:46:17,829 --> 00:46:15,680

about the glass doors for the for the

883

00:46:21,030 --> 00:46:17,839

greenhouse this weekend

884

00:46:22,710 --> 00:46:21,040

um my wife's not here tonight she's

885

00:46:25,589 --> 00:46:22,720

coming

886

00:46:27,990 --> 00:46:25,599

friday so i have a day tomorrow to get

887

00:46:32,470 --> 00:46:28,000

started on this

888

00:46:34,710 --> 00:46:32,480

greenhouse you know

889

00:46:36,150 --> 00:46:34,720

i'm trying to think of other things that

890

00:46:39,190 --> 00:46:36,160

i would suggest

891

00:46:42,550 --> 00:46:39,200

prepare

892

00:46:44,790 --> 00:46:42,560

be able to just imagine

893

00:46:45,990 --> 00:46:44,800

if someone flipped the switch and

894

00:46:47,589 --> 00:46:46,000

everything in your house went off

895

00:46:50,630 --> 00:46:47,599

tomorrow

896

00:46:53,430 --> 00:46:50,640

and it was all going to be off for

897

00:46:53,990 --> 00:46:53,440

months what would you do you know you're

898

00:46:56,390 --> 00:46:54,000

going to need

899

00:46:58,069 --> 00:46:56,400

food that doesn't spoil that's why i

900

00:47:00,630 --> 00:46:58,079

recommend food

901
00:47:02,950 --> 00:47:00,640
like bulk food that you can just store

902
00:47:05,109 --> 00:47:02,960
and doesn't need any refrigeration

903
00:47:06,550 --> 00:47:05,119
you're gonna need a source of water

904
00:47:09,030 --> 00:47:06,560
you're gonna have probably one

905
00:47:13,589 --> 00:47:09,040
source of power we have a small solar

906
00:47:17,190 --> 00:47:15,750
you're going to need a food source

907
00:47:20,630 --> 00:47:17,200
you're going to need a

908
00:47:22,549 --> 00:47:20,640
means of hunting and fishing

909
00:47:24,390 --> 00:47:22,559
to provide protein for you and your

910
00:47:25,589 --> 00:47:24,400
family and this is going to be an

911
00:47:27,990 --> 00:47:25,599
important skill so

912
00:47:29,750 --> 00:47:28,000
if you don't have those skills now it's

913
00:47:30,870 --> 00:47:29,760

a good time to try to learn some of that

914

00:47:33,349 --> 00:47:30,880

stuff

915

00:47:34,790 --> 00:47:33,359

get some books i have a lot of books

916

00:47:37,030 --> 00:47:34,800

here at the cabin too they're sort of

917

00:47:41,030 --> 00:47:37,040

survival based like

918

00:47:43,430 --> 00:47:41,040

edible plant guides and things like that

919

00:47:45,270 --> 00:47:43,440

i've even got my old boy scout manuals

920

00:47:47,349 --> 00:47:45,280

really i found them

921

00:47:50,230 --> 00:47:47,359

and i thought after hundreds and

922

00:47:53,829 --> 00:47:50,240

hundreds of boy scale camping trips

923

00:47:54,790 --> 00:47:53,839

with my father and brother i got kind of

924

00:47:58,390 --> 00:47:54,800

emotional

925

00:47:59,910 --> 00:47:58,400

i put the i got you know the cub scout

926
00:48:01,510 --> 00:47:59,920
manual the boy scout manual and the

927
00:48:03,910 --> 00:48:01,520
weeblo manual

928
00:48:05,190 --> 00:48:03,920
these are the three you know first you

929
00:48:06,309 --> 00:48:05,200
get the cub scout manual when you're a

930
00:48:07,589 --> 00:48:06,319
little one and then you

931
00:48:09,270 --> 00:48:07,599
get a little older and you get the wii

932
00:48:10,790 --> 00:48:09,280
blow manual and you get a little older

933
00:48:11,190 --> 00:48:10,800
and you're in the boy scouts so you get

934
00:48:13,190 --> 00:48:11,200
that

935
00:48:14,470 --> 00:48:13,200
you know but it's got a lot of good

936
00:48:16,950 --> 00:48:14,480
information

937
00:48:17,510 --> 00:48:16,960
i kept them though for nostalgia and i

938
00:48:20,069 --> 00:48:17,520

thought

939

00:48:21,349 --> 00:48:20,079

how appropriate that after hundreds of

940

00:48:25,270 --> 00:48:21,359

camping trips

941

00:48:28,150 --> 00:48:25,280

with my father my brother

942

00:48:29,349 --> 00:48:28,160

i got emotional i put those i hadn't

943

00:48:31,109 --> 00:48:29,359

seen them in a long since

944

00:48:32,549 --> 00:48:31,119

you know since i was a kids but i put

945

00:48:34,150 --> 00:48:32,559

them on the bookshelf here

946

00:48:36,470 --> 00:48:34,160

and i got kind of emotional thinking

947

00:48:39,589 --> 00:48:36,480

about all the camping trips that so

948

00:48:42,230 --> 00:48:39,599

to get to here and the luxurious

949

00:48:44,150 --> 00:48:42,240

cabin that i built here compared to some

950

00:48:44,549 --> 00:48:44,160

of the camping that my father made us do

951
00:48:46,150 --> 00:48:44,559
like

952
00:48:47,990 --> 00:48:46,160
winter camping in the middle of winter

953
00:48:54,630 --> 00:48:48,000
with no wood stove just with

954
00:48:59,670 --> 00:48:57,750
that wasn't fun but uh

955
00:49:01,349 --> 00:48:59,680
you know he would say like you're uh

956
00:49:04,470 --> 00:49:01,359
it's only 40 out tonight

957
00:49:05,030 --> 00:49:04,480
and your sleeping bag says it's good to

958
00:49:09,030 --> 00:49:05,040
zero

959
00:49:11,670 --> 00:49:09,040
so you're you'll be fine no

960
00:49:14,549 --> 00:49:11,680
you know but uh yeah we did when my

961
00:49:18,069 --> 00:49:14,559
father made us do survival camping trip

962
00:49:19,750 --> 00:49:18,079
too and uh that was like

963
00:49:21,589 --> 00:49:19,760

okay you're gonna build a shelter and

964

00:49:24,069 --> 00:49:21,599

all this stuff so

965

00:49:26,150 --> 00:49:24,079

but it was fun to me to put those books

966

00:49:26,630 --> 00:49:26,160

on a shelf here in my cabin that i had

967

00:49:28,230 --> 00:49:26,640

built

968

00:49:30,630 --> 00:49:28,240

i wish to god that my father could see

969

00:49:33,510 --> 00:49:30,640

this cabin uh it's quite a step

970

00:49:35,750 --> 00:49:33,520

up from the tent camping we always did

971

00:49:37,430 --> 00:49:35,760

and later we had a tent trailer which it

972

00:49:41,190 --> 00:49:37,440

wasn't even a pop-up trailer it was like

973

00:49:44,150 --> 00:49:41,200

a trailer that you put a tent on top of

974

00:49:46,470 --> 00:49:44,160

kind of crazy but like i said here we

975

00:49:49,109 --> 00:49:46,480

have a really good setup for

976
00:49:50,790 --> 00:49:49,119
what is essentially long-term camping

977
00:49:52,710 --> 00:49:50,800
it's just as comfortable to me as a

978
00:49:54,950 --> 00:49:52,720
house

979
00:49:56,549 --> 00:49:54,960
the i mean the only real difference is

980
00:49:58,069 --> 00:49:56,559
we don't have flush floor here we have a

981
00:49:59,349 --> 00:49:58,079
composting toilet

982
00:50:00,870 --> 00:49:59,359
if you don't know what that is look it

983
00:50:01,670 --> 00:50:00,880
up you're probably going to want one of

984
00:50:04,390 --> 00:50:01,680
those

985
00:50:05,349 --> 00:50:04,400
too if everything goes down you have a

986
00:50:07,589 --> 00:50:05,359
way to deal with that

987
00:50:08,790 --> 00:50:07,599
and that's the easiest way in a remote

988
00:50:11,589 --> 00:50:08,800

situation

989

00:50:13,430 --> 00:50:11,599

to deal with that and honestly i thought

990

00:50:15,270 --> 00:50:13,440

that was going to be

991

00:50:17,829 --> 00:50:15,280

a lot harder to deal with but it's

992

00:50:20,230 --> 00:50:17,839

pretty it's pretty easy

993

00:50:21,670 --> 00:50:20,240

yeah and it doesn't need any water or

994

00:50:23,750 --> 00:50:21,680

sewer line or anything

995

00:50:25,589 --> 00:50:23,760

you can put one of those anywhere people

996

00:50:28,950 --> 00:50:25,599

use them on sailboats

997

00:50:32,150 --> 00:50:28,960

in rvs and cabins you know

998

00:50:34,309 --> 00:50:32,160

you're gonna want one so uh yeah

999

00:50:37,190 --> 00:50:34,319

this is the old camping that i did with

1000

00:50:40,710 --> 00:50:37,200

my father we used to dig a trench

1001
00:50:43,910 --> 00:50:40,720
and we had this like seat it was gross

1002
00:50:45,990 --> 00:50:43,920
yeah so these are my notes from my

1003
00:50:48,470 --> 00:50:46,000
apocalypse cabin

1004
00:50:49,430 --> 00:50:48,480
these are things that i'm trying to do

1005
00:50:52,710 --> 00:50:49,440
to prepare

1006
00:50:55,670 --> 00:50:52,720
for what may be coming turmoil

1007
00:50:57,589 --> 00:50:55,680
it's good to have a place uh that you

1008
00:50:58,630 --> 00:50:57,599
can sort of stockpile supplies and

1009
00:51:02,630 --> 00:50:58,640
things

1010
00:51:06,230 --> 00:51:02,640
and it's just in case

1011
00:51:09,270 --> 00:51:06,240
otherwise it sure is a fun vacation home

1012
00:51:11,510 --> 00:51:09,280
and this this summer

1013
00:51:12,390 --> 00:51:11,520

my family and i probably spent more

1014

00:51:14,309 --> 00:51:12,400

weekends

1015

00:51:15,910 --> 00:51:14,319

here at the cabin than we had in the

1016

00:51:19,349 --> 00:51:15,920

last two years

1017

00:51:21,030 --> 00:51:19,359

um and i'm thankful also that we had the

1018

00:51:24,309 --> 00:51:21,040

cabin because we didn't have the cap

1019

00:51:27,109 --> 00:51:24,319

and my kids would have had zero to do

1020

00:51:29,270 --> 00:51:27,119

all summer there's just nothing to do

1021

00:51:32,069 --> 00:51:29,280

with this lockdown and everything

1022

00:51:33,190 --> 00:51:32,079

but the cabin gave us you know a nice

1023

00:51:35,349 --> 00:51:33,200

place to go to

1024

00:51:37,109 --> 00:51:35,359

and something to do with the kids take

1025

00:51:40,950 --> 00:51:37,119

them to the lake swimming

1026

00:51:42,630 --> 00:51:40,960

all day they got their fill the lake

1027

00:51:44,230 --> 00:51:42,640

and i guess this weekend will be the

1028

00:51:47,430 --> 00:51:44,240

last sort of swimming

1029

00:51:51,990 --> 00:51:47,440

week so uh i was thankful

1030

00:51:55,990 --> 00:51:54,950

so uh with all this being said i will

1031

00:51:59,910 --> 00:51:56,000

turn my attention

1032

00:52:03,109 --> 00:51:59,920

to the live chat sorry rainbow so long

1033

00:52:04,950 --> 00:52:03,119

uh i had notes and sort of set plan and

1034

00:52:07,190 --> 00:52:04,960

then

1035

00:52:09,430 --> 00:52:07,200

sometimes things don't go as plain as

1036

00:52:11,430 --> 00:52:09,440

really friends

1037

00:52:13,109 --> 00:52:11,440

so uh if there's any questions or

1038

00:52:16,230 --> 00:52:13,119

comments for me in the live chat

1039

00:52:18,309 --> 00:52:16,240

please put them in all caps and uh

1040

00:52:19,990 --> 00:52:18,319

yeah we're trying this new setup here

1041

00:52:23,190 --> 00:52:20,000

for the first time

1042

00:52:24,870 --> 00:52:23,200

uh but the usb mic did not work so i'm

1043

00:52:28,069 --> 00:52:24,880

using tonight the microphone

1044

00:52:33,190 --> 00:52:28,079

on the webcam if it's not so good uh

1045

00:52:39,270 --> 00:52:33,200

that would be why

1046

00:52:43,270 --> 00:52:41,109

william pixley ever started a fire from

1047

00:52:46,549 --> 00:52:43,280

scratch friction method

1048

00:52:49,829 --> 00:52:46,559

yes my father made us learn uh

1049

00:52:53,190 --> 00:52:49,839

to start fire with magnesium rods

1050

00:52:56,549 --> 00:52:53,200

with our shoelaces making that

1051

00:53:00,069 --> 00:52:56,559

you know the bow and

1052

00:53:03,430 --> 00:53:00,079

you know he may just learn that

1053

00:53:05,510 --> 00:53:03,440

with pocket knife and her shoelaces so

1054

00:53:06,630 --> 00:53:05,520

could i do that with the friction method

1055

00:53:07,670 --> 00:53:06,640

i think that's what you're talking about

1056

00:53:10,230 --> 00:53:07,680

with the bow

1057

00:53:10,870 --> 00:53:10,240

you know and you have some tinder at the

1058

00:53:14,790 --> 00:53:10,880

bottom

1059

00:53:17,030 --> 00:53:14,800

real real fine or wood chips

1060

00:53:18,390 --> 00:53:17,040

whatever you can that's really really

1061

00:53:21,829 --> 00:53:18,400

fine to make it

1062

00:53:22,870 --> 00:53:21,839

you know a spark to make a an ember out

1063

00:53:27,190 --> 00:53:22,880

of

1064

00:53:29,109 --> 00:53:27,200

i uh use these magnesium fire starters

1065

00:53:31,109 --> 00:53:29,119

i use those a lot instead of using a

1066

00:53:32,950 --> 00:53:31,119

lighter

1067

00:53:34,150 --> 00:53:32,960

and i've got a whole bunch of the

1068

00:53:38,230 --> 00:53:34,160

magnesium

1069

00:53:39,589 --> 00:53:38,240

you hit it with a knife or something to

1070

00:53:42,790 --> 00:53:39,599

make the spark

1071

00:53:45,990 --> 00:53:42,800

and you just got to pick some

1072

00:53:47,829 --> 00:53:46,000

easily lit on fire material and throw

1073

00:53:48,950 --> 00:53:47,839

those sparks on and generally you'll get

1074

00:53:51,589 --> 00:53:48,960

a fire out of that

1075

00:53:53,349 --> 00:53:51,599

and those last forever so uh if i was in

1076

00:53:55,750 --> 00:53:53,359

a survival situation and i didn't have a

1077

00:53:57,829 --> 00:53:55,760

layer i would probably use that method

1078

00:53:59,109 --> 00:53:57,839

and then the secondary method would be

1079

00:54:01,750 --> 00:53:59,119

to keep the fire

1080

00:54:02,390 --> 00:54:01,760

in the wood stove always going i didn't

1081

00:54:04,549 --> 00:54:02,400

know this

1082

00:54:05,670 --> 00:54:04,559

until we had two wood stoves and this is

1083

00:54:06,870 --> 00:54:05,680

an interesting thing we have a wood

1084

00:54:08,630 --> 00:54:06,880

stove in the other room

1085

00:54:11,270 --> 00:54:08,640

with heater you know they throw wood

1086

00:54:12,950 --> 00:54:11,280

into and we have a bigger one in here

1087

00:54:14,870 --> 00:54:12,960

and i didn't realize until my neighbor

1088

00:54:17,270 --> 00:54:14,880

mentioned it but you can just take

1089

00:54:18,309 --> 00:54:17,280

coals from the one that's lit and put it

1090

00:54:20,630 --> 00:54:18,319

in the one that's not

1091

00:54:21,910 --> 00:54:20,640

lit and then just throw wood in there

1092

00:54:23,750 --> 00:54:21,920

and it'll it'll go

1093

00:54:26,309 --> 00:54:23,760

you don't have to start a whole separate

1094

00:54:28,630 --> 00:54:26,319

fire in it

1095

00:54:30,069 --> 00:54:28,640

it's good to have two we can keep both

1096

00:54:31,829 --> 00:54:30,079

rooms separately if you're just going to

1097

00:54:33,589 --> 00:54:31,839

be in that room all day

1098

00:54:34,790 --> 00:54:33,599

the other room all day i would use that

1099

00:54:35,510 --> 00:54:34,800

here if i'm just going to be in this

1100

00:54:39,510 --> 00:54:35,520

room all day

1101
00:54:41,829 --> 00:54:39,520
use this heater

1102
00:54:42,710 --> 00:54:41,839
sixth design some of us wish we had what

1103
00:54:44,789 --> 00:54:42,720
you built

1104
00:54:46,710 --> 00:54:44,799
i always joke to people especially when

1105
00:54:48,789 --> 00:54:46,720
they see the outside of this place and

1106
00:54:50,150 --> 00:54:48,799
like the hundreds and hundreds of snap

1107
00:54:52,069 --> 00:54:50,160
logs

1108
00:54:53,589 --> 00:54:52,079
anybody can have a cabin like this

1109
00:54:55,430 --> 00:54:53,599
anybody can do it

1110
00:54:57,349 --> 00:54:55,440
i don't i didn't know anything about

1111
00:54:59,750 --> 00:54:57,359
this stuff when i started

1112
00:55:02,150 --> 00:54:59,760
and i just keep saying this anybody can

1113
00:55:03,349 --> 00:55:02,160

do this it's just that some assembly is

1114

00:55:05,510 --> 00:55:03,359

required

1115

00:55:07,349 --> 00:55:05,520

you know it's just trees and trash i

1116

00:55:09,430 --> 00:55:07,359

built this whole room at a trees and

1117

00:55:11,349 --> 00:55:09,440

trash with the wood for that door

1118

00:55:13,270 --> 00:55:11,359

was picked out of the trash somebody

1119

00:55:15,190 --> 00:55:13,280

threw out a bunch of old lumber

1120

00:55:18,230 --> 00:55:15,200

once you put some stain on it you know

1121

00:55:20,950 --> 00:55:18,240

it looks it looks brand new

1122

00:55:22,230 --> 00:55:20,960

and uh and the the siding on this wall

1123

00:55:27,349 --> 00:55:22,240

is all just

1124

00:55:30,069 --> 00:55:27,359

chopped up trees and the windows here

1125

00:55:30,470 --> 00:55:30,079

how many logs were used for the walls

1126

00:55:33,190 --> 00:55:30,480

hey

1127

00:55:33,990 --> 00:55:33,200

jim daly is here you know i'm i'm not

1128

00:55:37,190 --> 00:55:34,000

even kill myself

1129

00:55:42,470 --> 00:55:40,789

close up hold on here let's see if we

1130

00:56:01,030 --> 00:55:42,480

can't get a better view

1131

00:56:07,349 --> 00:56:04,470

oh start cam there we go

1132

00:56:12,549 --> 00:56:07,359

oh we got the wrong camera though boy

1133

00:56:18,630 --> 00:56:15,589

usb camera there we go

1134

00:56:21,270 --> 00:56:18,640

let's see if we can't try that again jim

1135

00:56:24,549 --> 00:56:21,280

daley my old magician friend is here

1136

00:56:26,789 --> 00:56:24,559

so you can do this without a problem

1137

00:56:27,670 --> 00:56:26,799

yeah i don't know jim hundreds and

1138

00:56:30,789 --> 00:56:27,680

hundreds

1139

00:56:34,390 --> 00:56:30,799

of logs were used here

1140

00:56:36,710 --> 00:56:34,400

uh this is the back wall

1141

00:56:38,150 --> 00:56:36,720

and there's the uh wood stove part in

1142

00:56:41,589 --> 00:56:38,160

the mess

1143

00:56:42,390 --> 00:56:41,599

and see if we can't poke around to this

1144

00:56:45,589 --> 00:56:42,400

side

1145

00:56:47,589 --> 00:56:45,599

it's a little dark over there but

1146

00:56:49,670 --> 00:56:47,599

i don't know jim i lost track after a

1147

00:56:54,309 --> 00:56:49,680

few hundred but i could tell you this

1148

00:56:58,069 --> 00:56:54,319

mr daley it was um

1149

00:57:03,510 --> 00:56:58,079

it was all

1150

00:57:05,030 --> 00:57:03,520

in other words trees that have fallen on

1151

00:57:08,309 --> 00:57:05,040

our land

1152

00:57:10,870 --> 00:57:08,319

and it was standing

1153

00:57:12,549 --> 00:57:10,880

after i thought that the fallen trees

1154

00:57:13,349 --> 00:57:12,559

were gonna be plenty to build this thing

1155

00:57:16,710 --> 00:57:13,359

right

1156

00:57:18,470 --> 00:57:16,720

and then i uh

1157

00:57:20,150 --> 00:57:18,480

sorry friends let me just better address

1158

00:57:24,230 --> 00:57:20,160

this thing

1159

00:57:26,230 --> 00:57:24,240

so i got all the living trees

1160

00:57:27,750 --> 00:57:26,240

there we go so i got all the living

1161

00:57:30,470 --> 00:57:27,760

trees or i'm sorry

1162

00:57:31,670 --> 00:57:30,480

all of the the trees that were dead and

1163

00:57:33,589 --> 00:57:31,680

already fell

1164

00:57:36,230 --> 00:57:33,599

and i started chopping them all up and i

1165

00:57:38,710 --> 00:57:36,240

made this huge pile of two foot

1166

00:57:40,710 --> 00:57:38,720

thick logs and then i thought that's got

1167

00:57:42,789 --> 00:57:40,720

to be enough to build this thing and i

1168

00:57:45,270 --> 00:57:42,799

only got about a third of the way up

1169

00:57:46,630 --> 00:57:45,280

of these walls with that so then we

1170

00:57:48,950 --> 00:57:46,640

looked around the land and

1171

00:57:51,030 --> 00:57:48,960

and my neighbor helped me and he showed

1172

00:57:52,230 --> 00:57:51,040

me all these standing dead trees that

1173

00:57:53,990 --> 00:57:52,240

were already dead

1174

00:57:55,589 --> 00:57:54,000

but they were still standing and some of

1175

00:57:56,549 --> 00:57:55,599

them were like a hazard and i've got

1176
00:57:58,470 --> 00:57:56,559
children so

1177
00:58:00,069 --> 00:57:58,480
we chopped all those down and then we

1178
00:58:02,309 --> 00:58:00,079
chopped them into two foot

1179
00:58:03,829 --> 00:58:02,319
sections and it made this huge pile of

1180
00:58:06,789 --> 00:58:03,839
wood and then we got

1181
00:58:08,069 --> 00:58:06,799
only about another three quarters maybe

1182
00:58:11,270 --> 00:58:08,079
three quarters of the way up

1183
00:58:13,670 --> 00:58:11,280
the walls then my neighbor uh

1184
00:58:16,069 --> 00:58:13,680
we were pretty much out of usable

1185
00:58:17,990 --> 00:58:16,079
material and i didn't want to thin

1186
00:58:19,109 --> 00:58:18,000
we have more woods next door but i

1187
00:58:21,190 --> 00:58:19,119
didn't really i like

1188
00:58:22,549 --> 00:58:21,200

that there's woods so i wanted to leave

1189

00:58:25,430 --> 00:58:22,559

that he got me

1190

00:58:26,950 --> 00:58:25,440

two dump truck loads of logs and we

1191

00:58:28,549 --> 00:58:26,960

chopped those up and that's about what

1192

00:58:31,349 --> 00:58:28,559

it took to finish all this

1193

00:58:34,789 --> 00:58:31,359

so i don't know how many jim it was a

1194

00:58:42,230 --> 00:58:37,109

this is sixth design fire sticks are

1195

00:58:45,910 --> 00:58:43,829

william pixley you don't have to use a

1196

00:58:47,990 --> 00:58:45,920

box even you can make a charcoal and

1197

00:58:54,230 --> 00:58:48,000

aggregate good videos on youtube yeah

1198

00:58:57,910 --> 00:58:55,829

curious question how's everyone feel

1199

00:59:00,390 --> 00:58:57,920

about arming yourself in these times

1200

00:59:02,829 --> 00:59:00,400

my hubby has many guns hobby but i hate

1201

00:59:06,630 --> 00:59:04,710

wow

1202

00:59:08,309 --> 00:59:06,640

my wife i think that it's a necessity in

1203

00:59:11,190 --> 00:59:08,319

today's times to have a weapon

1204

00:59:13,109 --> 00:59:11,200

and uh let me ask you a question as much

1205

00:59:15,190 --> 00:59:13,119

as you hate those guns right

1206

00:59:17,430 --> 00:59:15,200

if there is people rioting in your

1207

00:59:18,150 --> 00:59:17,440

neighborhood and breaking into people's

1208

00:59:21,990 --> 00:59:18,160

houses

1209

00:59:23,510 --> 00:59:22,000

the stores what if they were done with

1210

00:59:24,390 --> 00:59:23,520

the stores and they started looting the

1211

00:59:28,710 --> 00:59:24,400

neighborhood

1212

00:59:29,510 --> 00:59:28,720

you be happy that your husband had all

1213

00:59:37,910 --> 00:59:29,520

those

1214

00:59:44,150 --> 00:59:41,829

okay just because i'm getting out some

1215

00:59:45,750 --> 00:59:44,160

links of course grant survival yeah we

1216

00:59:48,069 --> 00:59:45,760

all need a little bit of bushcraft's

1217

00:59:52,470 --> 00:59:48,079

survival professor fez says depends on

1218

00:59:58,150 --> 00:59:55,910

jim daley says nice tim daley

1219

01:00:00,150 --> 00:59:58,160

guys look at his crazy uh look at his

1220

01:00:02,710 --> 01:00:00,160

crazy bearded mustache

1221

01:00:03,430 --> 01:00:02,720

this is a magician friend of mine and he

1222

01:00:06,309 --> 01:00:03,440

uh

1223

01:00:06,950 --> 01:00:06,319

is is like what is it he's like the

1224

01:00:09,349 --> 01:00:06,960

national

1225

01:00:11,430 --> 01:00:09,359

champion in beard contest beard and

1226

01:00:14,390 --> 01:00:11,440

mustache competitions

1227

01:00:15,829 --> 01:00:14,400

he does them all over the country and uh

1228

01:00:18,309 --> 01:00:15,839

hey jim you've got a

1229

01:00:19,990 --> 01:00:18,319

cabin right near me i think you

1230

01:00:21,589 --> 01:00:20,000

mentioned the name of the lake right

1231

01:00:23,109 --> 01:00:21,599

it's right near here i think it's like

1232

01:00:24,630 --> 01:00:23,119

20 minutes away maybe

1233

01:00:26,549 --> 01:00:24,640

i could be wrong but you're always

1234

01:00:29,430 --> 01:00:26,559

welcome to come and check it out

1235

01:00:31,270 --> 01:00:29,440

uh you know everything is a work in

1236

01:00:32,069 --> 01:00:31,280

progress here though i tell everybody

1237

01:00:34,470 --> 01:00:32,079

that like

1238

01:00:35,109 --> 01:00:34,480

it's a construction zone all around here

1239

01:00:37,349 --> 01:00:35,119

i got

1240

01:00:38,870 --> 01:00:37,359

all kinds of materials laying around and

1241

01:00:40,950 --> 01:00:38,880

uh

1242

01:00:42,309 --> 01:00:40,960

but i'm gonna build this cabin it will

1243

01:00:47,829 --> 01:00:42,319

be done eventually

1244

01:00:50,870 --> 01:00:49,190

the good news is if you're going to

1245

01:00:52,630 --> 01:00:50,880

shoot out in the cabin you won't have to

1246

01:00:54,630 --> 01:00:52,640

worry about repairs

1247

01:00:56,230 --> 01:00:54,640

well i guess unless somebody breaks

1248

01:00:59,589 --> 01:00:56,240

windows or something

1249

01:01:01,270 --> 01:00:59,599

yeah yeah and this also is very easy to

1250

01:01:03,109 --> 01:01:01,280

repair a lot of people made

1251

01:01:05,750 --> 01:01:03,119

a lot of comments about like both that

1252

01:01:07,750 --> 01:01:05,760

rot and no it won't rot

1253

01:01:09,430 --> 01:01:07,760

there's cabins built this way it's

1254

01:01:10,950 --> 01:01:09,440

called cordwood masonry

1255

01:01:12,870 --> 01:01:10,960

there's cabins built with cordwood

1256

01:01:14,710 --> 01:01:12,880

masonry this method

1257

01:01:16,390 --> 01:01:14,720

in europe that are a thousand years old

1258

01:01:17,030 --> 01:01:16,400

they're still in use people are still

1259

01:01:19,430 --> 01:01:17,040

using them

1260

01:01:21,670 --> 01:01:19,440

the secret is a big overhang so that

1261

01:01:22,309 --> 01:01:21,680

water doesn't run down the walls on the

1262

01:01:24,230 --> 01:01:22,319

outside

1263

01:01:27,270 --> 01:01:24,240

so you put a big roof overhang and the

1264

01:01:30,710 --> 01:01:29,349

porch a covered porch over it so the

1265

01:01:32,870 --> 01:01:30,720

water won't hit that

1266

01:01:35,109 --> 01:01:32,880

and then i'm just putting a little eve

1267

01:01:37,190 --> 01:01:35,119

or i'm not sure what you call it

1268

01:01:38,470 --> 01:01:37,200

just an overhang or an awning over the

1269

01:01:40,710 --> 01:01:38,480

back wall

1270

01:01:41,670 --> 01:01:40,720

which will also serve as a secondary

1271

01:01:44,309 --> 01:01:41,680

sort of uh

1272

01:01:45,349 --> 01:01:44,319

firewood shed because there's a window

1273

01:01:48,470 --> 01:01:45,359

right here so

1274

01:01:50,390 --> 01:01:48,480

in the back here if there was an awning

1275

01:01:51,990 --> 01:01:50,400

and the wood was all stacked up i could

1276

01:01:57,029 --> 01:01:52,000

just open the window and throw

1277

01:02:00,950 --> 01:01:57,039

it that's what people do around here

1278

01:02:03,109 --> 01:02:00,960

it'll work yeah jim daly that's

1279

01:02:05,270 --> 01:02:03,119

that's what it is arrowhead lakes yeah

1280

01:02:07,990 --> 01:02:05,280

that's a really nice place

1281

01:02:08,549 --> 01:02:08,000

we don't have a lake here at where we're

1282

01:02:10,789 --> 01:02:08,559

at

1283

01:02:11,750 --> 01:02:10,799

but we have a fishing pond and we're

1284

01:02:14,470 --> 01:02:11,760

right next to

1285

01:02:16,309 --> 01:02:14,480

goldsboro state park and that's a lake

1286

01:02:19,589 --> 01:02:16,319

so that's where we've been going most of

1287

01:02:23,349 --> 01:02:21,910

arrowhead lakes is private so we've we

1288

01:02:26,710 --> 01:02:23,359

have never been to that one

1289

01:02:29,829 --> 01:02:26,720

but we've been to toby hanna hickory run

1290

01:02:33,270 --> 01:02:29,839

and a few others around here uh

1291

01:02:37,589 --> 01:02:33,280

oh what's the other one called

1292

01:02:40,069 --> 01:02:37,599

it's like uh promised land state park

1293

01:02:41,829 --> 01:02:40,079

i found this place jim and i looked at

1294

01:02:44,950 --> 01:02:41,839

the satellite map and i just saw

1295

01:02:46,870 --> 01:02:44,960

lakes all around where we were where we

1296

01:02:50,870 --> 01:02:46,880

were looking to buy the cabin

1297

01:02:54,390 --> 01:02:50,880

or cabin land really and uh

1298

01:02:56,549 --> 01:02:54,400

i saw all these lakes all around the

1299

01:02:58,069 --> 01:02:56,559

all around what would eventually be here

1300

01:03:00,390 --> 01:02:58,079

at the cabin so i said

1301

01:03:05,109 --> 01:03:00,400

this is great and they're mostly state

1302

01:03:17,109 --> 01:03:09,109

professor fez asks jim daly does the

1303

01:03:20,150 --> 01:03:17,119

does the beard have its own name

1304

01:03:21,510 --> 01:03:20,160

yeah yeah so you know tomorrow i get

1305

01:03:25,349 --> 01:03:21,520

started on this uh

1306

01:03:28,789 --> 01:03:25,359

i get started on the greenhouse edition

1307

01:03:30,549 --> 01:03:28,799

so uh i don't have i don't have the

1308

01:03:32,309 --> 01:03:30,559

funds for the lumber

1309

01:03:35,349 --> 01:03:32,319

that we were gonna buy because it's

1310

01:03:38,710 --> 01:03:35,359

twice as much now so i'm just gonna

1311

01:03:40,710 --> 01:03:38,720

do everything with trees and uh

1312

01:03:42,150 --> 01:03:40,720

i'm not quite sure how that's gonna work

1313

01:03:45,270 --> 01:03:42,160

out but

1314

01:03:47,270 --> 01:03:45,280

i you know whatever i gotta do uh

1315

01:03:49,510 --> 01:03:47,280

so basically instead of using two by

1316

01:03:51,750 --> 01:03:49,520

fours i'm going to be using small tree

1317

01:03:53,109 --> 01:03:51,760

pieces that are about the size of a two

1318

01:03:54,870 --> 01:03:53,119

by four

1319

01:03:56,390 --> 01:03:54,880

i haven't decided if i'm going to try to

1320

01:03:59,270 --> 01:03:56,400

mill them down into

1321

01:04:00,470 --> 01:03:59,280

four square i will if i have to maybe

1322

01:04:03,029 --> 01:04:00,480

i'll make some rough cut

1323

01:04:03,990 --> 01:04:03,039

sort of two by fours out of trees i

1324

01:04:07,670 --> 01:04:04,000

don't know

1325

01:04:10,069 --> 01:04:07,680

idea i just know that we don't we're not

1326

01:04:13,990 --> 01:04:10,079

i'm not gonna have the money for lumber

1327

01:04:17,270 --> 01:04:14,000

so uh i have to get creative and uh

1328

01:04:17,670 --> 01:04:17,280

the uh the off-grid lumber store is all

1329

01:04:20,069 --> 01:04:17,680

around

1330

01:04:24,549 --> 01:04:20,079

me it's just like i said some assembly

1331

01:04:28,309 --> 01:04:26,710

oh it's bug wipe of course but i hate

1332

01:04:33,029 --> 01:04:28,319

them i have a permit and carry a loaded

1333

01:04:37,029 --> 01:04:34,549

i understand i would never want to use

1334

01:04:39,670 --> 01:04:37,039

it either but if i have the choice

1335

01:04:45,990 --> 01:04:43,109

the choice between using it defending

1336

01:04:50,870 --> 01:04:46,000

myself or my family and not using it

1337

01:04:54,069 --> 01:04:52,390

bailey says when i was competing the

1338

01:04:54,549 --> 01:04:54,079

styling was always different yeah this

1339

01:04:57,670 --> 01:04:54,559

is just

1340

01:05:02,069 --> 01:04:57,680

one of his amazing

1341

01:05:05,109 --> 01:05:02,079

beard and mustache sort of uh sort of

1342

01:05:06,789 --> 01:05:05,119

styles he had all different ones and

1343

01:05:09,190 --> 01:05:06,799

and i think through time he just had a

1344

01:05:11,109 --> 01:05:09,200

handle when i met you jim daley you just

1345

01:05:11,510 --> 01:05:11,119

had a handlebar mustache and a little

1346

01:05:15,190 --> 01:05:11,520

thing

1347

01:05:16,870 --> 01:05:15,200

then later it got

1348

01:05:21,109 --> 01:05:16,880

i guess as he got more and more into the

1349

01:05:24,710 --> 01:05:23,589

john claude i'm aware uh jean-claude

1350

01:05:26,069 --> 01:05:24,720

says you could buy an attachment for

1351

01:05:29,109 --> 01:05:26,079

your chainsaw to mill board

1352

01:05:31,349 --> 01:05:29,119

i'm aware of that uh

1353

01:05:32,549 --> 01:05:31,359

but everyone that i know that bought

1354

01:05:35,670 --> 01:05:32,559

like the 200

1355

01:05:39,270 --> 01:05:35,680

chainsaw mill was very unhappy with

1356

01:05:42,710 --> 01:05:39,280

what it does it's just not uh

1357

01:05:45,589 --> 01:05:42,720

you know and you run through chains like

1358

01:05:48,950 --> 01:05:45,599

crazy and it's slow as [h__h]

1359

01:05:50,309 --> 01:05:48,960

my neighbor i got to see his and i was

1360

01:05:53,430 --> 01:05:50,319

so excited to buy one and

1361

01:05:56,390 --> 01:05:53,440

then i saw his maybe

1362

01:05:58,150 --> 01:05:56,400

uh he doesn't have a ripping chain maybe

1363

01:05:58,789 --> 01:05:58,160

a lot of different factors but to make

1364

01:06:02,630 --> 01:05:58,799

like one

1365

01:06:05,829 --> 01:06:02,640

live slab that was like i don't know

1366

01:06:09,829 --> 01:06:05,839

uh you know 20 inches wide by eight feet

1367

01:06:14,789 --> 01:06:13,349

you know so it's just not i don't think

1368

01:06:17,349 --> 01:06:14,799

it's a

1369

01:06:18,150 --> 01:06:17,359

i did see these mini mills that you can

1370

01:06:20,870 --> 01:06:18,160

make square

1371

01:06:22,470 --> 01:06:20,880

boards out of or make beams out of trees

1372

01:06:26,390 --> 01:06:22,480

i'm going to look into one of those

1373

01:06:28,870 --> 01:06:26,400

and also i have uh just an i have a

1374

01:06:31,029 --> 01:06:28,880

uh an 80 volt electric chainsaw that's

1375

01:06:32,710 --> 01:06:31,039

my best chainsaw i had a gas chainsaw

1376

01:06:34,069 --> 01:06:32,720

stopped working i took it to somebody to

1377

01:06:35,589 --> 01:06:34,079

fix it and they could never get the

1378

01:06:38,870 --> 01:06:35,599

parts and just

1379

01:06:41,029 --> 01:06:38,880

kept it i don't know and then we have a

1380

01:06:43,510 --> 01:06:41,039

i have a smaller gas chainsaw here and

1381

01:06:46,710 --> 01:06:43,520

two other plug-in electrics powerful

1382

01:06:50,069 --> 01:06:46,720

uh gas

1383

01:06:52,470 --> 01:06:50,079

still or you know one of the good brands

1384

01:06:53,670 --> 01:06:52,480

really really powerful with like a 24

1385

01:06:55,190 --> 01:06:53,680

inch blade

1386

01:07:01,109 --> 01:06:55,200

that's something i would really like i

1387

01:07:03,029 --> 01:07:01,119

use a chainsaw a lot around here

1388

01:07:05,029 --> 01:07:03,039

yeah jim daly says look up my name on

1389

01:07:07,750 --> 01:07:05,039

google you'll see different pictures

1390

01:07:08,390 --> 01:07:07,760

so yeah he's got a he's got a ton of

1391

01:07:10,309 --> 01:07:08,400

them

1392

01:07:11,910 --> 01:07:10,319

and uh jim bailey's you know what's

1393

01:07:14,150 --> 01:07:11,920

funny he's one of the best

1394

01:07:15,670 --> 01:07:14,160

he's one of the best comedy magicians

1395

01:07:19,829 --> 01:07:15,680

ever on planet earth

1396

01:07:22,630 --> 01:07:19,839

and uh uh i miss seeing him i gotta go

1397

01:07:23,750 --> 01:07:22,640

hopefully jim this this coded nonsense

1398

01:07:27,589 --> 01:07:23,760

will be over and

1399

01:07:30,150 --> 01:07:27,599

shows will begin again so uh

1400

01:07:30,950 --> 01:07:30,160

yeah i wanna i wanna come out i know

1401

01:07:33,029 --> 01:07:30,960

that you

1402

01:07:34,870 --> 01:07:33,039

you still do some comedy shows once in a

1403

01:07:39,029 --> 01:07:34,880

while and we all need to laugh

1404

01:07:42,470 --> 01:07:40,630

you know beyond mystic says you do need

1405

01:07:44,309 --> 01:07:42,480

a specific chain yeah generally it's

1406

01:07:46,230 --> 01:07:44,319

called a ripping chain

1407

01:07:48,390 --> 01:07:46,240

uh and he didn't have a ripping chain

1408

01:07:50,150 --> 01:07:48,400

for one reason or another but then

1409

01:07:51,589 --> 01:07:50,160

he did get the ripping chain and it was

1410

01:07:53,750 --> 01:07:51,599

only slightly better

1411

01:07:54,789 --> 01:07:53,760

or faster after he got the ripping chain

1412

01:07:57,349 --> 01:07:54,799

he's got a good

1413

01:07:59,829 --> 01:07:57,359

still chainsaw with i think a 20 inch

1414

01:08:02,549 --> 01:07:59,839

bar on it so

1415

01:08:04,390 --> 01:08:02,559

you know i think that more likely than

1416

01:08:05,029 --> 01:08:04,400

not though jean claude i'm not going to

1417

01:08:08,549 --> 01:08:05,039

square

1418

01:08:12,069 --> 01:08:08,559

use the natural round

1419

01:08:14,870 --> 01:08:12,079

wood i do have a draw knife here

1420

01:08:16,470 --> 01:08:14,880

so if i need to level them out i can use

1421

01:08:17,749 --> 01:08:16,480

the draw knife for that and i will

1422

01:08:20,229 --> 01:08:17,759

default

1423

01:08:21,349 --> 01:08:20,239

you know i'm going to be probably using

1424

01:08:24,470 --> 01:08:21,359

you know

1425

01:08:27,669 --> 01:08:24,480

trees that are like this thick or small

1426

01:08:29,749 --> 01:08:27,679

like this thick you know as beans i need

1427

01:08:31,829 --> 01:08:29,759

to make a bunch of beans that i can nail

1428

01:08:33,669 --> 01:08:31,839

these windows in between

1429

01:08:36,390 --> 01:08:33,679

on the walls and then there's got to be

1430

01:08:39,590 --> 01:08:36,400

some beams for that plastic to go

1431

01:08:41,669 --> 01:08:39,600

to form a loop so

1432

01:08:44,470 --> 01:08:41,679

i'll figure it out i'm starting on the

1433

01:08:47,910 --> 01:08:44,480

floor because i know how i'm doing that

1434

01:08:55,430 --> 01:08:47,920

and uh i shared earlier but i'll i

1435

01:08:55,440 --> 01:09:09,269

if it lets me

1436

01:09:14,470 --> 01:09:11,749

and it will let me let me go to my i'm

1437

01:09:16,309 --> 01:09:14,480

just going to my twitter

1438

01:09:17,829 --> 01:09:16,319

i'll show you what the floor will be

1439

01:09:20,229 --> 01:09:17,839

made out of that i can

1440

01:09:21,590 --> 01:09:20,239

that i know so we're starting with that

1441

01:09:26,470 --> 01:09:21,600

because i know

1442

01:09:28,870 --> 01:09:26,480

how to do this or well no i don't

1443

01:09:30,229 --> 01:09:28,880

but i have a plan for the flooring for

1444

01:09:34,229 --> 01:09:30,239

both the porch

1445

01:09:35,990 --> 01:09:34,239

and the so the porch and the

1446

01:09:37,749 --> 01:09:36,000

sunroom are going to have a floor that's

1447

01:09:40,709 --> 01:09:37,759

made up like

1448

01:09:42,229 --> 01:09:40,719

all these kind of things but you know

1449

01:09:44,070 --> 01:09:42,239

here in the middle there'd be a smaller

1450

01:09:45,990 --> 01:09:44,080

one if that makes any sense so we'll put

1451

01:09:47,829 --> 01:09:46,000
smaller ones where we have to

1452

01:09:49,510 --> 01:09:47,839
and they'll be just cement in between

1453

01:09:52,070 --> 01:09:49,520
all of these i saw

1454

01:09:53,189 --> 01:09:52,080
a friend of mine in georgia do this and

1455

01:10:02,390 --> 01:09:53,199
uh

1456

01:10:04,310 --> 01:10:02,400
so you put these down and then cement in

1457

01:10:06,550 --> 01:10:04,320
between maybe a little cement on the

1458

01:10:09,110 --> 01:10:06,560
you know like an inch layer before you

1459

01:10:12,310 --> 01:10:09,120
put these down and then cement around

1460

01:10:14,709 --> 01:10:12,320
like grouting tile but here again

1461

01:10:16,390 --> 01:10:14,719
is something that is just in the forest

1462

01:10:19,110 --> 01:10:16,400
over there and it's free

1463

01:10:20,630 --> 01:10:19,120

some assembly required but a friend of

1464

01:10:22,550 --> 01:10:20,640

mine did this kind of floor

1465

01:10:24,149 --> 01:10:22,560

and it really turned out great when he

1466

01:10:25,430 --> 01:10:24,159

was done with the cementing and

1467

01:10:27,750 --> 01:10:25,440

everything

1468

01:10:29,669 --> 01:10:27,760

and it dried really good he went over

1469

01:10:32,390 --> 01:10:29,679

everything with a belt sander

1470

01:10:34,310 --> 01:10:32,400

the wood and the cement parts to sort of

1471

01:10:36,149 --> 01:10:34,320

beat it down if there was any high spots

1472

01:10:38,229 --> 01:10:36,159

and then they just polyurethaned over it

1473

01:10:40,229 --> 01:10:38,239

and it's a beautiful floor

1474

01:10:41,990 --> 01:10:40,239

uh i think it's a good choice for us

1475

01:10:43,110 --> 01:10:42,000

here because i got a bunch of trees

1476

01:10:45,350 --> 01:10:43,120

around here

1477

01:10:47,910 --> 01:10:45,360

and my neighbor has a huge log pile that

1478

01:10:50,870 --> 01:10:47,920

he said i can take whatever i want from

1479

01:10:53,590 --> 01:10:50,880

so uh this is how you build a cabin for

1480

01:10:55,750 --> 01:10:53,600

pennies i guess

1481

01:10:57,270 --> 01:10:55,760

so i know this is what the floor is

1482

01:11:00,630 --> 01:10:57,280

going to be so we're going to start

1483

01:11:04,630 --> 01:11:02,070

jim bailey thank you for the compliment

1484

01:11:06,229 --> 01:11:04,640

i still want to stop up your cabin

1485

01:11:08,070 --> 01:11:06,239

sometime soon

1486

01:11:09,990 --> 01:11:08,080

you're always welcome to just give me

1487

01:11:11,830 --> 01:11:10,000

notice because i like to uh

1488

01:11:13,110 --> 01:11:11,840

i like to make sure that i have plenty

1489

01:11:16,390 --> 01:11:13,120

of food for guests

1490

01:11:18,070 --> 01:11:16,400

that come around or whatever and uh

1491

01:11:20,229 --> 01:11:18,080

or do like a cooking out if you're gonna

1492

01:11:21,270 --> 01:11:20,239

come or something or maybe we'll just go

1493

01:11:24,070 --> 01:11:21,280

fishing and uh

1494

01:11:26,790 --> 01:11:24,080

i'll take you to the local uh we have

1495

01:11:28,390 --> 01:11:26,800

this place called uh

1496

01:11:29,750 --> 01:11:28,400

well there's a place called hammer jacks

1497

01:11:30,470 --> 01:11:29,760

and there's another place called the

1498

01:11:32,709 --> 01:11:30,480

dutchman

1499

01:11:37,669 --> 01:11:32,719

both of them have amazing food we'll

1500

01:11:42,550 --> 01:11:39,350

two secrets the floor is nice showing it

1501

01:11:44,229 --> 01:11:42,560

myself reliance it's a good channel

1502

01:11:45,669 --> 01:11:44,239

joan claude i know him well i don't know

1503

01:11:50,390 --> 01:11:45,679

him but i talked to him

1504

01:11:52,790 --> 01:11:50,400

uh probably about 20 different times

1505

01:11:54,470 --> 01:11:52,800

and uh he's amazing and he's one of my

1506

01:11:57,830 --> 01:11:54,480

inspirations for doing this stuff

1507

01:12:00,950 --> 01:11:57,840

because it's kind of like uh i

1508

01:12:02,870 --> 01:12:00,960

i think though that i'm jealous of that

1509

01:12:03,590 --> 01:12:02,880

guy because he does stuff with just hand

1510

01:12:05,590 --> 01:12:03,600

tools

1511

01:12:07,030 --> 01:12:05,600

all day long but he's got more time than

1512

01:12:09,350 --> 01:12:07,040

me so i

1513

01:12:10,790 --> 01:12:09,360

i caved on the hand tools and said i'm

1514

01:12:12,870 --> 01:12:10,800

going to need power tools because i'm

1515

01:12:13,430 --> 01:12:12,880

only here for short times every week you

1516

01:12:15,030 --> 01:12:13,440

know

1517

01:12:16,950 --> 01:12:15,040

this week is a rarity i'm going to be

1518

01:12:19,430 --> 01:12:16,960

here wednesday

1519

01:12:20,390 --> 01:12:19,440

i'm going to hear tonight until monday i

1520

01:12:22,390 --> 01:12:20,400

think

1521

01:12:23,910 --> 01:12:22,400

so i'm going to try to really get going

1522

01:12:25,910 --> 01:12:23,920

on this

1523

01:12:27,750 --> 01:12:25,920

seems to me like with the big projects

1524

01:12:30,149 --> 01:12:27,760

if i could see progress

1525

01:12:31,990 --> 01:12:30,159

on it right away i stay excited i stay

1526

01:12:35,189 --> 01:12:32,000

on it and i keep going until

1527

01:12:37,990 --> 01:12:35,199

i get somewhere with it so yeah

1528

01:12:39,830 --> 01:12:38,000

he's good channel yeah now he's doing

1529

01:12:47,590 --> 01:12:39,840

all that gardening stuff which i love

1530

01:12:52,630 --> 01:12:50,310

yeah success design posted the link to

1531

01:12:59,270 --> 01:12:52,640

my twitter so you can see that picture

1532

01:13:03,750 --> 01:13:01,350

yeah i heard yeah he said he's in he's

1533

01:13:06,070 --> 01:13:03,760

in canada you guys got some uh

1534

01:13:07,830 --> 01:13:06,080

i'll give you canadians this you got

1535

01:13:11,910 --> 01:13:07,840

some manly men up there

1536

01:13:15,110 --> 01:13:11,920

right and here we have

1537

01:13:17,990 --> 01:13:15,120

i don't know city people are are

1538

01:13:19,750 --> 01:13:18,000

just lazy to make like these guys that

1539

01:13:21,510 --> 01:13:19,760

live out in the country man they know

1540

01:13:24,630 --> 01:13:21,520

how to take care of things and do

1541

01:13:25,590 --> 01:13:24,640

things and fix everything and like eat

1542

01:13:27,590 --> 01:13:25,600

their houses

1543

01:13:29,750 --> 01:13:27,600

without paying somebody get their own

1544

01:13:30,310 --> 01:13:29,760

water source without paying somebody to

1545

01:13:40,310 --> 01:13:30,320

do that

1546

01:13:43,510 --> 01:13:42,070

funny to ask if anybody has seen it out

1547

01:13:45,189 --> 01:13:43,520

of mine and jeanette lately

1548

01:13:53,750 --> 01:13:45,199

i have i think they were here in the

1549

01:13:56,790 --> 01:13:55,350

oh i thought i thought that you said he

1550

01:13:59,590 --> 01:13:56,800

is the hero of ontario

1551

01:14:00,470 --> 01:13:59,600

if you say he's here in ontario yeah

1552

01:14:01,750 --> 01:14:00,480

friends so

1553

01:14:03,830 --> 01:14:01,760

you know i wanted something to be kind

1554

01:14:04,630 --> 01:14:03,840

of light-hearted and not so serious

1555

01:14:07,590 --> 01:14:04,640

because i got

1556

01:14:08,790 --> 01:14:07,600

uh man i got a big day tomorrow and i'm

1557

01:14:11,110 --> 01:14:08,800

sort of planning things

1558

01:14:12,149 --> 01:14:11,120

earlier today i was like sharpening the

1559

01:14:15,910 --> 01:14:12,159

chainsaw

1560

01:14:16,229 --> 01:14:15,920

and uh i'm uh i'm going to show up in

1561

01:14:20,149 --> 01:14:16,239

the

1562

01:14:21,669 --> 01:14:20,159

that's kind of what i do at night here

1563

01:14:22,310 --> 01:14:21,679

like i like to listen to music and

1564

01:14:26,070 --> 01:14:22,320

sharpen

1565

01:14:26,390 --> 01:14:26,080

things it sounds crazy but i'm telling

1566

01:14:28,229 --> 01:14:26,400

you

1567

01:14:29,990 --> 01:14:28,239

it's good because then tomorrow when i

1568

01:14:31,510 --> 01:14:30,000

go start cut it'll take half

1569

01:14:33,430 --> 01:14:31,520

the time if you really sharpen a

1570

01:14:35,030 --> 01:14:33,440

chainsaw blade good it takes half the

1571

01:14:35,350 --> 01:14:35,040

time to get through the work you need to

1572

01:14:38,470 --> 01:14:35,360

do

1573

01:14:40,950 --> 01:14:38,480

so so we really uh

1574

01:14:43,990 --> 01:14:40,960

i like sharp i like sharp tools

1575

01:14:48,310 --> 01:14:47,510

yeah so jim daly uh he's got a cabin not

1576

01:14:50,390 --> 01:14:48,320

far from me

1577

01:14:51,350 --> 01:14:50,400

a place called arrowhead lakes there's

1578

01:14:54,470 --> 01:14:51,360

just lakes

1579

01:14:56,470 --> 01:14:54,480

everywhere here so that's why i'm

1580

01:14:58,950 --> 01:14:56,480

stocking up on fishing equipment

1581

01:15:01,750 --> 01:14:58,960

because in the event of a big problem uh

1582

01:15:04,709 --> 01:15:01,760

this is gonna be important

1583

01:15:06,709 --> 01:15:04,719

and uh i don't know me my and my both of

1584

01:15:07,830 --> 01:15:06,719

my boys will eat fish my wife won't eat

1585

01:15:10,149 --> 01:15:07,840

any fish so

1586

01:15:11,189 --> 01:15:10,159

i'm gonna have to find alternate protein

1587

01:15:17,189 --> 01:15:11,199

sources for her

1588

01:15:20,470 --> 01:15:18,950

now some success design is pushing the

1589

01:15:25,510 --> 01:15:20,480

patreon

1590

01:15:27,030 --> 01:15:25,520

want to mention for a bit of business

1591

01:15:29,750 --> 01:15:27,040

that i want to thank everybody because

1592

01:15:31,430 --> 01:15:29,760

we've just passed 500 subscribers and i

1593

01:15:32,709 --> 01:15:31,440

want to especially thanks john claude

1594

01:15:33,910 --> 01:15:32,719

because

1595

01:15:35,750 --> 01:15:33,920

john claude i don't know if you know

1596

01:15:38,229 --> 01:15:35,760

this but every time you do

1597

01:15:40,229 --> 01:15:38,239

i come in your chat and you say hey

1598

01:15:42,470 --> 01:15:40,239

steve from truth seekers is here go

1599

01:15:43,590 --> 01:15:42,480

subscribe we get like 10 people

1600

01:15:46,310 --> 01:15:43,600

subscribe and that's

1601
01:15:47,990 --> 01:15:46,320
awesome so thank you i really appreciate

1602
01:15:49,510 --> 01:15:48,000
you helping me out like that and i'm

1603
01:15:51,430 --> 01:15:49,520
going to do we'll do that guest

1604
01:15:54,550 --> 01:15:51,440
appearance on your show so

1605
01:15:55,590 --> 01:15:54,560
so that i can uh you know take more of

1606
01:15:58,870 --> 01:15:55,600
your viewers

1607
01:16:03,110 --> 01:16:01,750
yeah so 500 subs jean-claude i don't

1608
01:16:05,030 --> 01:16:03,120
know how you're doing it man

1609
01:16:07,110 --> 01:16:05,040
because i gotta talk to you and figure

1610
01:16:09,350 --> 01:16:07,120
out how you did it because you went

1611
01:16:10,470 --> 01:16:09,360
and it's almost the same amount of time

1612
01:16:13,030 --> 01:16:10,480
you don't like you had

1613
01:16:14,310 --> 01:16:13,040

maybe a month or two head start on me

1614

01:16:17,669 --> 01:16:14,320

and you're up to like 8

1615

01:16:19,350 --> 01:16:17,679

000 and uh i'm at 500 so i don't know

1616

01:16:20,630 --> 01:16:19,360

what you're doing right that i'm doing

1617

01:16:24,470 --> 01:16:20,640

wrong but

1618

01:16:26,070 --> 01:16:24,480

uh yeah cool i'm happy love your show

1619

01:16:28,070 --> 01:16:26,080

more people she's up to you

1620

01:16:29,669 --> 01:16:28,080

yeah i appreciate that i've been

1621

01:16:31,590 --> 01:16:29,679

watching your show

1622

01:16:33,430 --> 01:16:31,600

and you know like i don't agree with a

1623

01:16:35,430 --> 01:16:33,440

lot of this stuff on your show i just

1624

01:16:38,310 --> 01:16:35,440

don't but it's still entertaining

1625

01:16:39,910 --> 01:16:38,320

and uh it's fun to check in it depends

1626

01:16:42,070 --> 01:16:39,920

on the guests that you have

1627

01:16:43,990 --> 01:16:42,080

too like right to see what are you going

1628

01:16:47,430 --> 01:16:44,000

to be talking about

1629

01:16:48,870 --> 01:16:47,440

and uh who's who's going to be on

1630

01:16:50,310 --> 01:16:48,880

some of those people i've never seen you

1631

01:16:51,669 --> 01:16:50,320

before so i don't even know what they're

1632

01:16:53,510 --> 01:16:51,679

going to talk about but it's

1633

01:16:55,350 --> 01:16:53,520

good to sit in and see what's going on

1634

01:16:56,870 --> 01:16:55,360

on your show

1635

01:16:58,870 --> 01:16:56,880

and the kind of direction that you're

1636

01:17:01,110 --> 01:16:58,880

going it's got a great

1637

01:17:03,110 --> 01:17:01,120

uh great platform and it just keeps

1638

01:17:06,709 --> 01:17:03,120

growing god bless him

1639

01:17:07,110 --> 01:17:06,719

we need more growth oh so his own club i

1640

01:17:09,030 --> 01:17:07,120

thought

1641

01:17:10,550 --> 01:17:09,040

i hadn't this is a brand new youtube

1642

01:17:12,229 --> 01:17:10,560

channel for me my old youtube channel

1643

01:17:15,270 --> 01:17:12,239

got over a million views but

1644

01:17:15,990 --> 01:17:15,280

i think i started in like 2008 or

1645

01:17:17,990 --> 01:17:16,000

something

1646

01:17:20,149 --> 01:17:18,000

and it was a hodgepodge of all different

1647

01:17:22,870 --> 01:17:20,159

creative projects not just for my show

1648

01:17:25,430 --> 01:17:22,880

so i wanted to start a new one i had no

1649

01:17:27,189 --> 01:17:25,440

idea how hard it was to uh

1650

01:17:28,790 --> 01:17:27,199

how hard it was to get to a thousand

1651

01:17:30,229 --> 01:17:28,800

subs i just thought i'll get to a

1652

01:17:31,430 --> 01:17:30,239

thousand subs in a month and then we'll

1653

01:17:33,510 --> 01:17:31,440

be monetized and

1654

01:17:35,830 --> 01:17:33,520

we'll be fine so we had to sort of find

1655

01:17:38,630 --> 01:17:35,840

alternate forms of monetization like the

1656

01:17:41,910 --> 01:17:38,640

not so super chat donations

1657

01:17:45,030 --> 01:17:41,920

and those are basically you just pay

1658

01:17:48,229 --> 01:17:45,040

you know you make a paypal donation

1659

01:17:50,070 --> 01:17:48,239

and then uh i will read out whatever you

1660

01:17:51,990 --> 01:17:50,080

put in the note line

1661

01:17:53,510 --> 01:17:52,000

so that's the not so super chat

1662

01:17:56,550 --> 01:17:53,520

donations

1663

01:17:56,560 --> 01:18:10,470

let me

1664

01:18:14,070 --> 01:18:12,390

you know i've never even been a computer

1665

01:18:17,669 --> 01:18:14,080

guy i've never come up with a good

1666

01:18:26,310 --> 01:18:20,149

they want to do a security check to make

1667

01:18:29,590 --> 01:18:26,320

a collection paypal

1668

01:18:30,950 --> 01:18:29,600

it's great and by the way uh i did get a

1669

01:18:34,550 --> 01:18:30,960

new phone so we can

1670

01:18:40,470 --> 01:18:34,560

begin to do we can begin to do the open

1671

01:18:45,270 --> 01:18:40,480

lines again soon

1672

01:18:45,280 --> 01:18:49,669

sorry about this friends

1673

01:19:00,229 --> 01:18:52,870

i don't know what it is but well i do

1674

01:19:07,430 --> 01:19:03,510

paypal ebay amazon

1675

01:19:10,870 --> 01:19:07,440

all the major sites do not like

1676

01:19:11,350 --> 01:19:10,880

linux not one bit so if you try to log

1677

01:19:18,229 --> 01:19:11,360

in

1678

01:19:18,239 --> 01:19:27,030

passwords are not enough

1679

01:19:27,040 --> 01:19:32,229

oh

1680

01:19:38,630 --> 01:19:36,790

i think that's it i can't see

1681

01:19:40,470 --> 01:19:38,640

you know you're gonna tell like these

1682

01:19:41,910 --> 01:19:40,480

companies ought to know that like really

1683

01:19:43,830 --> 01:19:41,920

some people

1684

01:19:48,830 --> 01:19:43,840

are visually impaired so it's not this

1685

01:19:56,390 --> 01:19:54,310

okay identity confirmed

1686

01:19:58,070 --> 01:19:56,400

yeah so they don't like linux one bit so

1687

01:19:58,870 --> 01:19:58,080

what they do is they make you do some

1688

01:20:02,390 --> 01:19:58,880

kind of uh

1689

01:20:05,030 --> 01:20:02,400

verification okay so

1690

01:20:08,070 --> 01:20:05,040

we didn't have any uh donations today

1691

01:20:10,070 --> 01:20:08,080

but our last donation was from celtry

1692

01:20:11,510 --> 01:20:10,080

with a kind donation of ten dollars he

1693

01:20:13,110 --> 01:20:11,520

says hey stephen appreciate all your

1694

01:20:14,629 --> 01:20:13,120

hard work to help bring us the truth

1695

01:20:18,149 --> 01:20:14,639

much appreciated thanks

1696

01:20:19,990 --> 01:20:18,159

kel and uh yeah so those are the not so

1697

01:20:22,470 --> 01:20:20,000

super chat donations

1698

01:20:24,390 --> 01:20:22,480

there's a paypal donate button in our

1699

01:20:26,390 --> 01:20:24,400

about section or you can sign up on

1700

01:20:27,510 --> 01:20:26,400

patreon which i'm happy to see so many

1701

01:20:30,830 --> 01:20:27,520

people doing

1702

01:20:36,070 --> 01:20:30,840

that enables us to continue moving

1703

01:20:40,070 --> 01:20:38,229

i miss hate on this last night's show

1704

01:20:42,149 --> 01:20:40,080

listen today i'm an ex captain too got

1705

01:20:43,669 --> 01:20:42,159

several rosary beads holy works ever

1706

01:20:49,030 --> 01:20:43,679

been to lords

1707

01:20:52,790 --> 01:20:51,350

yeah i'm a recovering catholic myself

1708

01:20:56,070 --> 01:20:52,800

and i

1709

01:21:00,790 --> 01:20:58,470

six design part of the linux defense

1710

01:21:03,910 --> 01:21:00,800

system make sure you are you

1711

01:21:06,149 --> 01:21:03,920

yeah listen i love i

1712

01:21:08,149 --> 01:21:06,159

absolutely love linux i have since it

1713

01:21:08,709 --> 01:21:08,159

came out i was an early adopter i think

1714

01:21:12,870 --> 01:21:08,719

with like

1715

01:21:15,590 --> 01:21:12,880

red hat 3.0 or maybe even 2.0

1716

01:21:16,709 --> 01:21:15,600

as soon as you could like buy it on a cd

1717

01:21:19,430 --> 01:21:16,719

and install it

1718

01:21:20,870 --> 01:21:19,440

i did on a spare computer and i've been

1719

01:21:23,350 --> 01:21:20,880

using it ever since

1720

01:21:25,030 --> 01:21:23,360

um for most of my needs but then you

1721

01:21:26,550 --> 01:21:25,040

know i started the windows computer for

1722

01:21:28,709 --> 01:21:26,560

some things

1723

01:21:30,470 --> 01:21:28,719

anyway the only complaint that i really

1724

01:21:33,590 --> 01:21:30,480

have about linux is that

1725

01:21:37,510 --> 01:21:33,600

it really the security is sometimes uh

1726

01:21:39,510 --> 01:21:37,520

too much you know like you can't write

1727

01:21:40,950 --> 01:21:39,520

files to here unless you're the super

1728

01:21:43,030 --> 01:21:40,960

user or the root or

1729

01:21:45,590 --> 01:21:43,040

you know it gets annoying sometimes with

1730

01:21:47,590 --> 01:21:45,600

some of this stuff

1731

01:21:49,750 --> 01:21:47,600

by the way my confirmation name is

1732

01:21:50,709 --> 01:21:49,760

bernadette do you know this is terrible

1733

01:21:54,070 --> 01:21:50,719

i don't remember

1734

01:21:56,390 --> 01:21:54,080

what my confirmation name is

1735

01:21:57,189 --> 01:21:56,400

i wish i did both my parents are gone so

1736

01:21:58,709 --> 01:21:57,199

i'll probably

1737

01:22:00,229 --> 01:21:58,719

never remember unless my brother

1738

01:22:01,430 --> 01:22:00,239

remembers but i doubt he does she

1739

01:22:02,629 --> 01:22:01,440

doesn't pay attention to these kind of

1740

01:22:05,590 --> 01:22:02,639

things

1741

01:22:10,870 --> 01:22:05,600

maybe it was peter after saint peter i

1742

01:22:13,110 --> 01:22:10,880

think it was

1743

01:22:14,310 --> 01:22:13,120

just don't pseudo everything mistake

1744

01:22:17,510 --> 01:22:14,320

actually six is

1745

01:22:18,870 --> 01:22:17,520

in my altos you are the root so yeah

1746

01:22:21,270 --> 01:22:18,880

everything is pseudo

1747

01:22:22,390 --> 01:22:21,280

but it still makes you pseudo for some

1748

01:22:24,550 --> 01:22:22,400

things but

1749

01:22:26,629 --> 01:22:24,560

it's the root user account and i've had

1750

01:22:28,310 --> 01:22:26,639

some people complain to me and say

1751
01:22:29,750 --> 01:22:28,320
that shouldn't be the default account

1752
01:22:31,510 --> 01:22:29,760
and my

1753
01:22:33,590 --> 01:22:31,520
my response is just create another

1754
01:22:36,470 --> 01:22:33,600
account and it's not

1755
01:22:37,510 --> 01:22:36,480
that that's not a super account uh if

1756
01:22:38,950 --> 01:22:37,520
you're scared you're gonna screw

1757
01:22:41,030 --> 01:22:38,960
something up

1758
01:22:42,229 --> 01:22:41,040
but the other good thing about my linux

1759
01:22:46,070 --> 01:22:42,239
system is that it's one

1760
01:22:47,030 --> 01:22:46,080
file backup so you just i just copy the

1761
01:22:50,550 --> 01:22:47,040
entire

1762
01:22:53,110 --> 01:22:50,560
copied in one file

1763
01:22:53,910 --> 01:22:53,120

more or less and then if you screw

1764

01:22:56,229 --> 01:22:53,920

something up

1765

01:23:02,629 --> 01:22:56,239

you just go to yesterday's backup or

1766

01:23:06,149 --> 01:23:04,629

i really should use my linux more often

1767

01:23:07,270 --> 01:23:06,159

i also love it and i feel much more

1768

01:23:09,830 --> 01:23:07,280

secure using it

1769

01:23:10,950 --> 01:23:09,840

yeah i uh i have this old imac that

1770

01:23:13,189 --> 01:23:10,960

somebody gave me

1771

01:23:15,270 --> 01:23:13,199

and it's like it's only a few years old

1772

01:23:16,229 --> 01:23:15,280

it's an eight core machine and it was

1773

01:23:19,430 --> 01:23:16,239

free

1774

01:23:21,750 --> 01:23:19,440

and it's got i don't know yeah eight

1775

01:23:25,189 --> 01:23:21,760

gigs of ram i think

1776

01:23:28,229 --> 01:23:25,199

or maybe more i don't even know

1777

01:23:31,110 --> 01:23:28,239

i don't remember and uh it runs

1778

01:23:31,750 --> 01:23:31,120

great with linux i don't like osx so i

1779

01:23:35,189 --> 01:23:31,760

just slap

1780

01:23:37,830 --> 01:23:35,199

my linux on it and here we go

1781

01:23:39,350 --> 01:23:37,840

yeah friends so today's sort of this

1782

01:23:40,790 --> 01:23:39,360

informal show

1783

01:23:42,870 --> 01:23:40,800

i think that we're just gonna wrap

1784

01:23:46,629 --> 01:23:42,880

things up here i gotta

1785

01:23:48,870 --> 01:23:46,639

get some rest and go back at it tomorrow

1786

01:23:50,629 --> 01:23:48,880

tomorrow night we'll have more formal

1787

01:23:52,470 --> 01:23:50,639

show with the formal topic and

1788

01:23:55,669 --> 01:23:52,480

presentation but for tonight

1789

01:23:59,270 --> 01:23:55,679

we get notes from the apocalypse academy

1790

01:24:01,030 --> 01:23:59,280

part two uh if anybody does

1791

01:24:02,550 --> 01:24:01,040

any of my friends especially from the

1792

01:24:05,830 --> 01:24:02,560

show here if you do have

1793

01:24:08,070 --> 01:24:05,840

any specific questions about sort of

1794

01:24:09,590 --> 01:24:08,080

off grids and survival stuff and what

1795

01:24:11,350 --> 01:24:09,600

you should be stocking up on

1796

01:24:13,189 --> 01:24:11,360

feel free to email me i'd be happy to

1797

01:24:15,110 --> 01:24:13,199

help any of you guys it's kind of why

1798

01:24:17,110 --> 01:24:15,120

i'm talking about this because

1799

01:24:19,590 --> 01:24:17,120

i really do think that we're on the

1800

01:24:20,629 --> 01:24:19,600

verge of some major turmoil and i don't

1801

01:24:23,189 --> 01:24:20,639

want to feel like

1802

01:24:24,629 --> 01:24:23,199

later like i should have said something

1803

01:24:26,070 --> 01:24:24,639

if nothing happens

1804

01:24:28,229 --> 01:24:26,080

people just have some extra food and

1805

01:24:29,830 --> 01:24:28,239

batteries laying around maybe right

1806

01:24:32,950 --> 01:24:29,840

you'll be a little more prepared for the

1807

01:24:39,030 --> 01:24:32,960

next tornado or

1808

01:24:42,390 --> 01:24:40,950

so i think we're going to call it a show

1809

01:24:44,310 --> 01:24:42,400

here and

1810

01:24:46,709 --> 01:24:44,320

again we'll be back tomorrow night i'm

1811

01:24:48,629 --> 01:24:46,719

not sure what time yet it depends on

1812

01:24:52,070 --> 01:24:48,639

how things go tomorrow with the build

1813

01:24:55,510 --> 01:24:52,080

process but tomorrow we're going to be

1814

01:25:00,070 --> 01:24:55,520

uh yeah tomorrow we're going to be

1815

01:25:01,669 --> 01:25:00,080

starting at least on a major another

1816

01:25:04,790 --> 01:25:01,679

major renovation here

1817

01:25:09,189 --> 01:25:04,800

which is to add in yet another room

1818

01:25:15,910 --> 01:25:09,199

which should bring us up to around uh

1819

01:25:21,830 --> 01:25:19,910

probably around 750 square feet

1820

01:25:24,070 --> 01:25:21,840

that the cabin will be when this third

1821

01:25:25,669 --> 01:25:24,080

room is finished

1822

01:25:27,430 --> 01:25:25,679

so i'm looking forward to that because

1823

01:25:29,189 --> 01:25:27,440

besides a greenhouse it's just going to

1824

01:25:30,709 --> 01:25:29,199

be like a sun room you know like a

1825

01:25:32,709 --> 01:25:30,719

secondary living room

1826

01:25:34,709 --> 01:25:32,719

and uh basically three season room

1827

01:25:36,390 --> 01:25:34,719

unless we throw another wood burner in

1828

01:25:38,149 --> 01:25:36,400

there which i probably will because i

1829

01:25:40,070 --> 01:25:38,159

love wood burning stoves

1830

01:25:41,270 --> 01:25:40,080

i'll put a tiny one in there and between

1831

01:25:44,470 --> 01:25:41,280

the sun and that

1832

01:25:47,590 --> 01:25:44,480

it'll be fine to be a four season room

1833

01:25:49,189 --> 01:25:47,600

i guess i don't know we'll see

1834

01:25:51,350 --> 01:25:49,199

so friends i want to thank you for

1835

01:25:55,110 --> 01:25:51,360

joining me here

1836

01:25:57,510 --> 01:25:55,120

here really is this is my uh happy place

1837

01:25:59,510 --> 01:25:57,520

here no that's another thing i highly

1838

01:26:01,110 --> 01:25:59,520

recommend that everybody build a cabin

1839

01:26:03,350 --> 01:26:01,120

because even if you don't need it for

1840

01:26:06,830 --> 01:26:03,360

survival reasons

1841

01:26:08,070 --> 01:26:06,840

you need it for spiritual survival

1842

01:26:11,189 --> 01:26:08,080

reasons

1843

01:26:13,270 --> 01:26:11,199

i have never had a bad

1844

01:26:14,870 --> 01:26:13,280

week that could not be fixed by a good

1845

01:26:17,590 --> 01:26:14,880

weekend here

1846

01:26:18,470 --> 01:26:17,600

uh and that's important in life so for

1847

01:26:22,149 --> 01:26:18,480

many reasons

1848

01:26:23,350 --> 01:26:22,159

i highly suggest you build a cabin buy a

1849

01:26:25,910 --> 01:26:23,360

cabin

1850

01:26:27,110 --> 01:26:25,920

find some place to get away to i have a

1851
01:26:30,629 --> 01:26:27,120
friend that has just a

1852
01:26:32,070 --> 01:26:30,639
you know like a trailer in a uh camping

1853
01:26:34,310 --> 01:26:32,080
ground that is

1854
01:26:35,189 --> 01:26:34,320
you know seasonal and they're right near

1855
01:26:38,390 --> 01:26:35,199
the ocean

1856
01:26:42,229 --> 01:26:38,400
that's another great option

1857
01:26:42,239 --> 01:26:45,510
so friends uh

1858
01:26:51,270 --> 01:26:48,550
it looks like actually i can hear that

1859
01:26:53,110 --> 01:26:51,280
huge storm is rolling in now so now is a

1860
01:26:55,110 --> 01:26:53,120
good time to wrap things up here before

1861
01:26:55,830 --> 01:26:55,120
the internet decides to wrap things up

1862
01:26:57,030 --> 01:26:55,840
for me

1863
01:26:59,350 --> 01:26:57,040

i'm sorry about the technical

1864

01:27:02,550 --> 01:26:59,360

difficulties we had earlier

1865

01:27:05,430 --> 01:27:02,560

hopefully uh the internet will be fine

1866

01:27:08,629 --> 01:27:05,440

the storm should pass before tomorrow

1867

01:27:10,149 --> 01:27:08,639

night for tomorrow night's show

1868

01:27:12,550 --> 01:27:10,159

so i want to thank each and every one of

1869

01:27:15,350 --> 01:27:12,560

you for joining me

1870

01:27:16,470 --> 01:27:15,360

tomorrow will be interesting that i

1871

01:27:17,189 --> 01:27:16,480

guarantee you don't want to miss

1872

01:27:18,790 --> 01:27:17,199

tomorrow

1873

01:27:20,550 --> 01:27:18,800

we're going to have some fun and

1874

01:27:22,550 --> 01:27:20,560

surprises

1875

01:27:23,750 --> 01:27:22,560

so until next time friends my name is

1876

01:27:41,220 --> 01:27:23,760

stephen cambion

1877

01:28:59,520 --> 01:27:58,830
