00:00:56,830 --> 00:00:24,760
[Music]

2
00:00:56,840 --> 00:01:01,070
so

3
00:02:11,430 --> 00:01:35,530
[Music]

4
00:02:18,470 --> 00:02:15,110
greetings and salutations

5
00:02:19,750 --> 00:02:18,480
welcome back uh we have been on a little

6
00:02:22,550 --> 00:02:19,760
bit of a break

7
00:02:23,910 --> 00:02:22,560
uh due to other responsibilities and

8
00:02:26,949 --> 00:02:23,920
things on my

9
00:02:28,309 --> 00:02:26,959
list of things to do but we're back

10
00:02:31,830 --> 00:02:28,319
tonight and hopefully

11
00:02:34,309 --> 00:02:31,840
back to a more regular schedule

12
00:02:36,470 --> 00:02:34,319
i appreciate the few of you who sent me

13
00:02:37,350 --> 00:02:36,480

messages asking when the next show was

14

00:02:40,710 --> 00:02:37,360

going to be

15

00:02:42,229 --> 00:02:40,720

i think we uh did five days without

16

00:02:44,150 --> 00:02:42,239

doing a show

17

00:02:46,390 --> 00:02:44,160

but the good news is i got a lot of

18

00:02:47,270 --> 00:02:46,400

things finished and accomplished in that

19

00:02:51,110 --> 00:02:47,280

five days

20

00:02:54,869 --> 00:02:51,120

of not worrying about this

21

00:02:56,550 --> 00:02:54,879

so i think i'm in a little better shape

22

00:02:59,190 --> 00:02:56,560

and a little better headspace to

23

00:03:02,949 --> 00:02:59,200

continue our journey

24

00:03:05,990 --> 00:03:02,959

here and now i've shown up

25

00:03:09,030 --> 00:03:06,000

to water this garden yet again

26

00:03:12,630 --> 00:03:09,040

for surely a water that is garden

27

00:03:16,070 --> 00:03:12,640

a garden that is watered daily

28

00:03:22,790 --> 00:03:19,670

we all have things uh

29

00:03:25,990 --> 00:03:22,800

things on our list of things to do

30

00:03:29,350 --> 00:03:26,000

unfortunately mine has been uh

31

00:03:32,229 --> 00:03:29,360

getting bigger not smaller most of that

32

00:03:33,670 --> 00:03:32,239

is my own fault i take on pretty big

33

00:03:38,070 --> 00:03:33,680

challenges

34

00:03:40,070 --> 00:03:38,080

i like to stay busy but sometimes i

35

00:03:42,550 --> 00:03:40,080

literally bite off more than i can chew

36

00:03:43,110 --> 00:03:42,560

and i'm in sort of that situation now

37

00:03:45,990 --> 00:03:43,120

with

38

00:03:47,430 --> 00:03:46,000

some very challenging obstacles to

39

00:03:49,670 --> 00:03:47,440

overcome

40

00:03:51,670 --> 00:03:49,680

but that's how i'm looking at things

41

00:03:54,390 --> 00:03:51,680

challenges in life are good

42

00:03:58,830 --> 00:03:54,400

but it's not good if you start feeling

43

00:04:03,110 --> 00:04:01,429

discouraged uh about how you're going to

44

00:04:05,509 --> 00:04:03,120

plow through things

45

00:04:06,630 --> 00:04:05,519

and that honestly is where i was at last

46

00:04:09,670 --> 00:04:06,640

week today

47

00:04:11,110 --> 00:04:09,680

i'm feeling much better got a lot

48

00:04:15,270 --> 00:04:11,120

accomplished over the five

49

00:04:18,390 --> 00:04:15,280

day break um

50

00:04:21,749 --> 00:04:18,400

and i'm hopeful and i'm even kind of uh

51
00:04:24,390 --> 00:04:21,759
thinking of changing some plans here uh

52
00:04:26,070 --> 00:04:24,400
it seems to me that i can look at the

53
00:04:28,469 --> 00:04:26,080
numbers and look at the math and see

54
00:04:31,510 --> 00:04:28,479
that every time i do a new show

55
00:04:36,070 --> 00:04:31,520
on average the subs jump up

56
00:04:42,710 --> 00:04:39,110
so i suppose the road to monetization is

57
00:04:45,030 --> 00:04:42,720
not to you know i thought about doing

58
00:04:45,909 --> 00:04:45,040
maybe i could just start doing a show

59
00:04:49,189 --> 00:04:45,919
once a week

60
00:04:50,310 --> 00:04:49,199
again because that's a lot a lot easier

61
00:04:51,990 --> 00:04:50,320
to handle

62
00:04:54,150 --> 00:04:52,000
uh but then when i think about the fact

63
00:04:57,510 --> 00:04:54,160

that it would take maybe a year

64

00:04:58,710 --> 00:04:57,520

to get to that magic youtube number of

65

00:05:01,590 --> 00:04:58,720

monetization

66

00:05:03,029 --> 00:05:01,600

if i do one show a week from here on in

67

00:05:06,070 --> 00:05:03,039

um

68

00:05:08,870 --> 00:05:06,080

yeah i don't want to wait a year uh

69

00:05:10,390 --> 00:05:08,880

to be able to monetize this project or

70

00:05:11,909 --> 00:05:10,400

any other project i mean

71

00:05:15,430 --> 00:05:11,919

nobody wants to work for free or

72

00:05:16,790 --> 00:05:15,440

virtually free for a year

73

00:05:18,790 --> 00:05:16,800

that being said i want to thank the

74

00:05:21,590 --> 00:05:18,800

patreon supporters and

75

00:05:22,230 --> 00:05:21,600

people who have sent donations via

76

00:05:25,909 --> 00:05:22,240

paypal

77

00:05:30,310 --> 00:05:25,919

to help us keep this thing going

78

00:05:36,790 --> 00:05:33,350

messages that i get are pretty nasty

79

00:05:39,510 --> 00:05:36,800

for example someone sent me a message

80

00:05:41,830 --> 00:05:39,520

about how unprofessional it was for

81

00:05:43,749 --> 00:05:41,840

children to be screaming or laughing or

82

00:05:45,270 --> 00:05:43,759

banging things or making noise in the

83

00:05:47,029 --> 00:05:45,280

background of my stream how

84

00:05:49,909 --> 00:05:47,039

unprofessional

85

00:05:50,550 --> 00:05:49,919

and i got to tell you that pissed me off

86

00:05:53,029 --> 00:05:50,560

a little bit

87

00:05:55,270 --> 00:05:53,039

because most people are watching what i

88

00:05:58,550 --> 00:05:55,280

do for free

89

00:06:00,629 --> 00:05:58,560

and uh i've never gotten

90

00:06:01,749 --> 00:06:00,639

nasty criticism from somebody that cared

91

00:06:04,870 --> 00:06:01,759

enough to give me

92

00:06:06,070 --> 00:06:04,880

the dollar a month uh you know if you

93

00:06:08,550 --> 00:06:06,080

like these kind of things

94

00:06:09,590 --> 00:06:08,560

and this kind of subjects we cover i

95

00:06:12,710 --> 00:06:09,600

don't think that

96

00:06:14,150 --> 00:06:12,720

uh you know getting the begging bowl out

97

00:06:16,710 --> 00:06:14,160

and saying hey give me a dollar a month

98

00:06:20,070 --> 00:06:16,720

and you get these extras on patreon

99

00:06:23,270 --> 00:06:20,080

is uh is too much really to ask for i'm

100

00:06:24,550 --> 00:06:23,280

literally asking people for a dollar and

101
00:06:27,029 --> 00:06:24,560
uh

102
00:06:28,390 --> 00:06:27,039
back to the the children situation as

103
00:06:30,870 --> 00:06:28,400
you know sometimes i have other

104
00:06:33,749 --> 00:06:30,880
responsibilities and other things to do

105
00:06:35,029 --> 00:06:33,759
and therefore you know i really liked it

106
00:06:36,950 --> 00:06:35,039
when we had like okay

107
00:06:38,230 --> 00:06:36,960
there's a show monday through thursday

108
00:06:41,350 --> 00:06:38,240
at 10 p.m

109
00:06:42,469 --> 00:06:41,360
say i really like having that schedule

110
00:06:44,150 --> 00:06:42,479
but

111
00:06:45,990 --> 00:06:44,160
the problem is sometimes the show's

112
00:06:48,150 --> 00:06:46,000
around two hours and then it takes me a

113
00:06:50,070 --> 00:06:48,160

few hours to kind of calm down relax

114

00:06:52,150 --> 00:06:50,080

after the streams finish to

115

00:06:54,070 --> 00:06:52,160

deal with messages from the stream or

116

00:06:57,189 --> 00:06:54,080

comments from the stream

117

00:06:59,270 --> 00:06:57,199

and uh yeah so we're looking at like a

118

00:07:01,430 --> 00:06:59,280

two o'clock in the morning bedtime

119

00:07:02,550 --> 00:07:01,440

and sometimes it's just not feasible to

120

00:07:05,589 --> 00:07:02,560

do this

121

00:07:08,070 --> 00:07:05,599

and uh back to the children you listen

122

00:07:09,830 --> 00:07:08,080

it is unprofessional it's incredibly

123

00:07:11,909 --> 00:07:09,840

unprofessional for me

124

00:07:14,309 --> 00:07:11,919

to not take those children out of the

125

00:07:15,909 --> 00:07:14,319

yard and like lock them in a cage for

126

00:07:16,710 --> 00:07:15,919

the hour and a half for the two hours

127

00:07:21,110 --> 00:07:16,720

that i need to do

128

00:07:21,749 --> 00:07:21,120

the stream i gotta say i got a big house

129

00:07:24,629 --> 00:07:21,759

here

130

00:07:25,670 --> 00:07:24,639

but you know my children are four and

131

00:07:28,710 --> 00:07:25,680

eight

132

00:07:30,950 --> 00:07:28,720

old to sit down

133

00:07:32,070 --> 00:07:30,960

and be quiet for two hours in the middle

134

00:07:34,469 --> 00:07:32,080

of the day

135

00:07:36,390 --> 00:07:34,479

it's just not gonna happen and uh you

136

00:07:36,790 --> 00:07:36,400

know i've done what i could i have uh

137

00:07:39,029 --> 00:07:36,800

you know

138

00:07:40,550 --> 00:07:39,039

the door closed i'm thinking about

139

00:07:43,110 --> 00:07:40,560

putting some kind of a

140

00:07:44,390 --> 00:07:43,120

like a big thick heavy curtain or a

141

00:07:46,230 --> 00:07:44,400

sleeping bag

142

00:07:47,589 --> 00:07:46,240

hanging on the back of the door to maybe

143

00:07:50,550 --> 00:07:47,599

muffle some of that

144

00:07:51,589 --> 00:07:50,560

sound coming from my home this is a home

145

00:07:54,070 --> 00:07:51,599

studio

146

00:07:55,670 --> 00:07:54,080

and i have children so if you don't want

147

00:07:57,990 --> 00:07:55,680

to hear children

148

00:08:00,150 --> 00:07:58,000

who may sometimes be laughing or you

149

00:08:03,189 --> 00:08:00,160

know screaming in the background then

150

00:08:06,550 --> 00:08:03,199

click off and quite honestly

151

00:08:09,510 --> 00:08:06,560

click off and [h__h] off i

152

00:08:11,270 --> 00:08:09,520

uh the total income of my show here is

153

00:08:12,230 --> 00:08:11,280

about a hundred dollars a month right

154

00:08:15,029 --> 00:08:12,240

now

155

00:08:15,430 --> 00:08:15,039

for uh what has been up until recently

156

00:08:18,790 --> 00:08:15,440

four

157

00:08:21,670 --> 00:08:18,800

shows a week for

158

00:08:22,309 --> 00:08:21,680

less than taco bell wages okay so you're

159

00:08:25,110 --> 00:08:22,319

right

160

00:08:26,790 --> 00:08:25,120

this is i i'm an unprofessional i'm not

161

00:08:29,029 --> 00:08:26,800

a professional if i was getting a

162

00:08:31,270 --> 00:08:29,039

full-time wage for this

163

00:08:33,350 --> 00:08:31,280

i could invest in a small studio

164

00:08:35,029 --> 00:08:33,360

somewhere

165

00:08:37,829 --> 00:08:35,039

away from my home where it would be

166

00:08:41,110 --> 00:08:37,839

quiet 24 7 and i can do

167

00:08:41,750 --> 00:08:41,120

two shows a day or 20 shows a week or

168

00:08:46,070 --> 00:08:41,760

whatever

169

00:08:48,630 --> 00:08:46,080

i decided to do at that point so

170

00:08:50,550 --> 00:08:48,640

if you'd like to help me make the show

171

00:08:52,230 --> 00:08:50,560

more professional instead of bitching

172

00:08:53,990 --> 00:08:52,240

about my children laughing in the

173

00:08:57,030 --> 00:08:54,000

background as children are gonna

174

00:08:59,030 --> 00:08:57,040

do you know like i said my only option

175

00:09:01,509 --> 00:08:59,040

is to like lock them in the garage

176

00:09:03,509 --> 00:09:01,519

for the two hours right i don't think my

177

00:09:06,550 --> 00:09:03,519

wife is gonna be okay with that

178

00:09:09,110 --> 00:09:06,560

and honestly neither am i their children

179

00:09:10,949 --> 00:09:09,120

they're gonna make some noise and i you

180

00:09:13,030 --> 00:09:10,959

know that there was a time

181

00:09:14,630 --> 00:09:13,040

when i was trying to do some different

182

00:09:17,750 --> 00:09:14,640

things like recording music

183

00:09:19,430 --> 00:09:17,760

and things i just it would piss me off

184

00:09:20,710 --> 00:09:19,440

that they're always so loud it sounds

185

00:09:22,310 --> 00:09:20,720

like i heard of elephants in here

186

00:09:23,030 --> 00:09:22,320

sometimes they're running around they're

187

00:09:24,790 --> 00:09:23,040

screaming

188

00:09:26,550 --> 00:09:24,800

and they're laughing you know but

189

00:09:27,110 --> 00:09:26,560

they're children and this is what

190

00:09:29,750 --> 00:09:27,120

children

191

00:09:31,509 --> 00:09:29,760

do you know so eventually i kind of

192

00:09:33,030 --> 00:09:31,519

surrendered to like

193

00:09:35,350 --> 00:09:33,040

it's just going to be noisy while

194

00:09:36,949 --> 00:09:35,360

they're here and awake

195

00:09:38,870 --> 00:09:36,959

and i try to do things when they're

196

00:09:41,590 --> 00:09:38,880

sleeping but like i said that issue with

197

00:09:43,990 --> 00:09:41,600

that is that the shows get too late

198

00:09:45,030 --> 00:09:44,000

so yeah i just want to address that bit

199

00:09:46,630 --> 00:09:45,040

of business

200

00:09:49,269 --> 00:09:46,640

and again if people have valid

201
00:09:51,910 --> 00:09:49,279
criticisms okay

202
00:09:53,829 --> 00:09:51,920
i'm constantly trying to improve what it

203
00:09:56,150 --> 00:09:53,839
is that we're doing here

204
00:09:57,350 --> 00:09:56,160
but you know if you're going to complain

205
00:09:58,630 --> 00:09:57,360
about children

206
00:10:01,430 --> 00:09:58,640
laughing in the background being

207
00:10:02,870 --> 00:10:01,440
unprofessional for a show that you are

208
00:10:04,790 --> 00:10:02,880
watching for free

209
00:10:07,509 --> 00:10:04,800
on the internet which i'm getting paid

210
00:10:10,389 --> 00:10:07,519
about twenty five dollars a week

211
00:10:13,190 --> 00:10:10,399
let's break that down if there's four

212
00:10:15,590 --> 00:10:13,200
shows a week that's about six dollars

213
00:10:16,630 --> 00:10:15,600

so for my hour and a half or two hours

214

00:10:19,190 --> 00:10:16,640

clocking just

215

00:10:20,389 --> 00:10:19,200

doing the stream i'm getting paid on

216

00:10:23,350 --> 00:10:20,399

average about

217

00:10:25,750 --> 00:10:23,360

six dollars you're right this is not a

218

00:10:28,230 --> 00:10:25,760

professional show not on a budget of six

219

00:10:31,030 --> 00:10:28,240

dollars a show

220

00:10:31,910 --> 00:10:31,040

if i had a huge budget i suppose i could

221

00:10:35,350 --> 00:10:31,920

soundproof

222

00:10:35,990 --> 00:10:35,360

my office here so that no matter what

223

00:10:38,389 --> 00:10:36,000

was going on

224

00:10:39,910 --> 00:10:38,399

outside you wouldn't hear anything but

225

00:10:41,990 --> 00:10:39,920

these that would take time

226
00:10:42,949 --> 00:10:42,000
money and resources which our show

227
00:10:47,590 --> 00:10:42,959
doesn't

228
00:10:49,110 --> 00:10:47,600
most of you have been incredibly kind

229
00:10:51,190 --> 00:10:49,120
and supportive

230
00:10:53,910 --> 00:10:51,200
um a boy there's always going to be an

231
00:10:57,190 --> 00:10:53,920
[h__h] saying something stupid

232
00:10:59,350 --> 00:10:57,200
and uh you know i get it okay

233
00:11:01,590 --> 00:10:59,360
you know i think is there just internet

234
00:11:02,389 --> 00:11:01,600
karen's now is that what we've devolved

235
00:11:05,350 --> 00:11:02,399
into

236
00:11:05,910 --> 00:11:05,360
like hey your show that i watch and the

237
00:11:08,310 --> 00:11:05,920
person

238
00:11:09,750 --> 00:11:08,320

even said i've been watching your show

239

00:11:12,870 --> 00:11:09,760

since you started it

240

00:11:14,790 --> 00:11:12,880

or something like that so this person

241

00:11:15,990 --> 00:11:14,800

and they did i know for a fact i had a

242

00:11:18,710 --> 00:11:16,000

check just to make sure

243

00:11:20,470 --> 00:11:18,720

this person never donated a penny to me

244

00:11:22,069 --> 00:11:20,480

they didn't sign up for patreon for the

245

00:11:23,990 --> 00:11:22,079

dollar a month

246

00:11:27,750 --> 00:11:24,000

and they've been watching the show since

247

00:11:29,670 --> 00:11:27,760

it started so we're now at episode 53.

248

00:11:31,750 --> 00:11:29,680

shows are usually an hour and a half

249

00:11:34,230 --> 00:11:31,760

almost two hours so that's

250

00:11:35,829 --> 00:11:34,240

i don't know let's just round it off and

251

00:11:39,030 --> 00:11:35,839

say this person got a hundred

252

00:11:39,670 --> 00:11:39,040

hours of entertainment out of me uh for

253

00:11:44,310 --> 00:11:39,680

free

254

00:11:46,630 --> 00:11:44,320

and then called me unprofessional and uh

255

00:11:47,670 --> 00:11:46,640

you know listen i try to not let these

256

00:11:50,629 --> 00:11:47,680

things bother me

257

00:11:51,269 --> 00:11:50,639

but they do uh when i br especially when

258

00:11:54,389 --> 00:11:51,279

i break down

259

00:11:56,389 --> 00:11:54,399

numbers here you know six dollars a show

260

00:11:59,670 --> 00:11:56,399

and it shows her an hour and a half or

261

00:12:03,350 --> 00:12:02,230

there is a 16 year old kid who just got

262

00:12:05,829 --> 00:12:03,360

his first job

263

00:12:07,670 --> 00:12:05,839

at mcdonald's or taco bell who is

264

00:12:11,509 --> 00:12:07,680

currently making more money on

265

00:12:13,750 --> 00:12:11,519

average than i am doing this show

266

00:12:16,069 --> 00:12:13,760

so you're right that guy working at taco

267

00:12:18,310 --> 00:12:16,079

bell or mcdonald's for minimum wage

268

00:12:21,269 --> 00:12:18,320

is a little more professional than me

269

00:12:23,829 --> 00:12:21,279

because i'm dumb enough to try to uh

270

00:12:24,310 --> 00:12:23,839

sort of grow something from a seed into

271

00:12:26,550 --> 00:12:24,320

a big

272

00:12:28,389 --> 00:12:26,560

garden and that's going to take time

273

00:12:30,389 --> 00:12:28,399

energy and dedication where i'm not

274

00:12:34,230 --> 00:12:30,399

going to be getting

275

00:12:36,710 --> 00:12:34,240

you know anywhere near decent

276

00:12:39,030 --> 00:12:36,720

compensation but of course this is a

277

00:12:42,949 --> 00:12:39,040

labor of love i didn't start the shaman

278

00:12:45,110 --> 00:12:42,959

you know like as oh let's cash in here

279

00:12:47,670 --> 00:12:45,120

i've been around conspiracy land enough

280

00:12:50,710 --> 00:12:47,680

to know what a niche market it is

281

00:12:52,629 --> 00:12:50,720

what a small group it is

282

00:12:53,829 --> 00:12:52,639

of people in the world what a strange

283

00:12:56,470 --> 00:12:53,839

subculture but

284

00:12:58,629 --> 00:12:56,480

it's not a huge group so uh those

285

00:13:04,550 --> 00:12:58,639

looking to cash in would probably be

286

00:13:10,550 --> 00:13:08,310

uh loose audio plug again

287

00:13:14,230 --> 00:13:10,560

let's try that hold on one second

288

00:13:29,910 --> 00:13:23,030

check one

289

00:13:33,509 --> 00:13:31,190

you know what we're gonna do we're gonna

290

00:13:56,069 --> 00:13:33,519

switch to the uh

291

00:13:56,079 --> 00:14:00,230

check one

292

00:14:05,670 --> 00:14:03,590

okay that's better all right

293

00:14:07,189 --> 00:14:05,680

and you know uh stream yard i don't i

294

00:14:09,189 --> 00:14:07,199

don't think it's the audio plug i don't

295

00:14:16,150 --> 00:14:09,199

know maybe it was

296

00:14:19,910 --> 00:14:16,160

they'll just light static geez gosh

297

00:14:27,189 --> 00:14:19,920

well one second friends let me check in

298

00:14:31,670 --> 00:14:28,629

this will be another one somebody can

299

00:14:37,509 --> 00:14:31,680

send me an email about unprofessional

300

00:14:55,269 --> 00:14:39,910

i've been checking too before uh before

301

00:14:55,279 --> 00:15:11,430

huh i got no headphones

302

00:15:11,440 --> 00:15:15,590

ugh

303

00:15:24,470 --> 00:15:17,590

i think we're going back to a laptop if

304

00:15:24,480 --> 00:15:29,110

one of the uh

305

00:15:33,030 --> 00:15:31,590

there we go yeah i hear that that's

306

00:15:34,870 --> 00:15:33,040

terrible

307

00:15:38,230 --> 00:15:34,880

hold on let me check i'm checking with

308

00:15:38,240 --> 00:15:47,990

with the stream now nothing

309

00:15:48,000 --> 00:16:06,829

okay sounds better now jeez

310

00:16:12,870 --> 00:16:08,710

uh

311

00:16:26,470 --> 00:16:12,880

one second friends bear with me now

312

00:16:44,389 --> 00:16:36,470

now i'm losing headphones here hold on

313

00:16:44,399 --> 00:16:53,430

come on

314

00:16:57,430 --> 00:16:55,509

there we go all right sorry about that

315

00:16:58,470 --> 00:16:57,440

friends so tonight we're going to be

316

00:17:02,629 --> 00:16:58,480

talking about

317

00:17:05,189 --> 00:17:02,639

victor schauburger uh and

318

00:17:09,110 --> 00:17:05,199

tonight i thought we were going to let

319

00:17:12,309 --> 00:17:10,949

so tonight i thought we're going to be

320

00:17:15,590 --> 00:17:12,319

talking about victor

321

00:17:18,630 --> 00:17:15,600

schauburger uh i'm sorry i thought that

322

00:17:22,230 --> 00:17:18,640

we could start a new sort of

323

00:17:24,710 --> 00:17:22,240

series of investigations into ufo

324

00:17:27,669 --> 00:17:24,720

propulsion systems

325

00:17:30,789 --> 00:17:27,679

uh and free energy devices for some

326

00:17:33,669 --> 00:17:30,799

reason these two things seem to be

327

00:17:34,390 --> 00:17:33,679

linked in a lot of ways and a lot of

328

00:17:36,470 --> 00:17:34,400

inventors

329

00:17:37,510 --> 00:17:36,480

claim that one device is both a free

330

00:17:40,710 --> 00:17:37,520

energy device

331

00:17:42,630 --> 00:17:40,720

and a propulsion system and such

332

00:17:44,830 --> 00:17:42,640

is the case with the victor

333

00:17:47,990 --> 00:17:44,840

schauberger's

334

00:17:49,990 --> 00:17:48,000

repulsing and uh i've heard that term so

335

00:17:52,870 --> 00:17:50,000

many times and i always thought it was

336

00:17:54,150 --> 00:17:52,880

just spelled like repulsing with the g

337

00:17:59,270 --> 00:17:54,160

at the end but it's

338

00:18:03,590 --> 00:17:59,280

repulse in r-e-p-u-l-s-i-n-e

339

00:18:06,789 --> 00:18:03,600

repulsing engine um

340

00:18:09,750 --> 00:18:06,799

boy i gotta say uh

341

00:18:11,510 --> 00:18:09,760

everyone has mentioned victor

342

00:18:14,630 --> 00:18:11,520

schauberger's repulsion

343

00:18:17,990 --> 00:18:14,640

engine from

344

00:18:23,669 --> 00:18:18,000

ufo documentaries to books

345

00:18:26,789 --> 00:18:23,679

uh any time a book gets into nazi ufos

346

00:18:29,590 --> 00:18:26,799

joseph p pharrell books mentions victor

347

00:18:31,830 --> 00:18:29,600

schauberger's repulsion engine

348

00:18:32,630 --> 00:18:31,840

i'm pretty sure michael sala has

349

00:18:36,710 --> 00:18:32,640

mentioned

350

00:18:37,350 --> 00:18:36,720

this repulsion engine many documentaries

351

00:18:41,270 --> 00:18:37,360

that i have

352

00:18:44,310 --> 00:18:41,280

witnessed anytime the

353

00:18:49,830 --> 00:18:48,070

uh centers on nazi ufo technology

354

00:18:52,310 --> 00:18:49,840

there's two things you always hear about

355

00:18:55,510 --> 00:18:52,320

the first is the nazi bell

356

00:18:57,990 --> 00:18:55,520

and the second is victor schauberger

357

00:18:59,350 --> 00:18:58,000

and his repulsion engine it's

358

00:19:01,590 --> 00:18:59,360

interesting to note

359

00:19:03,510 --> 00:19:01,600

that in the 1950s when all of these

360

00:19:06,789 --> 00:19:03,520

flying saucers began to be

361

00:19:08,470 --> 00:19:06,799

seen everywhere uh victor schauberger

362

00:19:11,669 --> 00:19:08,480

famously said that the

363

00:19:15,430 --> 00:19:11,679

americans must have gotten their

364

00:19:19,110 --> 00:19:15,440

repo his repulsion engine and built ufos

365

00:19:20,710 --> 00:19:19,120

because he sort of i don't know if he

366

00:19:24,230 --> 00:19:20,720

arrogantly is the right word

367

00:19:27,270 --> 00:19:24,240

claim that he invented a flying saucer

368

00:19:32,950 --> 00:19:30,789

but it's interesting i read everything

369

00:19:33,750 --> 00:19:32,960

that i could on the science of how this

370

00:19:37,590 --> 00:19:33,760

thing works

371

00:19:40,710 --> 00:19:37,600

and maybe i'm just a stupid monkey

372

00:19:43,110 --> 00:19:40,720

maybe i can't

373

00:19:44,150 --> 00:19:43,120

comprehend the physics of how this thing

374

00:19:47,990 --> 00:19:44,160

is supposed to work

375

00:19:51,990 --> 00:19:48,000

so i thought let's do some research and

376

00:19:55,430 --> 00:19:52,000

find out all that we can about it um

377

00:19:58,789 --> 00:19:55,440

i found an amazing uh documentary

378

00:19:59,510 --> 00:19:58,799

uh where a relative i believe it's the

379

00:20:02,789 --> 00:19:59,520

grandson

380

00:20:03,350 --> 00:20:02,799

of victor schauberger goes to the united

381

00:20:05,190 --> 00:20:03,360

states

382

00:20:06,390 --> 00:20:05,200

remember they're german victor

383

00:20:10,149 --> 00:20:06,400

schauberger

384

00:20:13,350 --> 00:20:10,159

you know and his family so

385

00:20:18,470 --> 00:20:13,360

the claims often made by ufo people

386

00:20:21,510 --> 00:20:20,789

first of all it's important that we

387

00:20:24,230 --> 00:20:21,520

remember

388

00:20:27,590 --> 00:20:24,240

that all of these stories about the

389

00:20:31,190 --> 00:20:27,600

nazis having ufos and ufo technology

390

00:20:34,870 --> 00:20:31,200

and the honey boo and this repulsion

391

00:20:37,029 --> 00:20:34,880

engine and the nazi bell all of that

392

00:20:40,710 --> 00:20:37,039

all of that the source of all of that

393

00:20:43,750 --> 00:20:40,720

was a german tabloid newspaper

394

00:20:48,070 --> 00:20:43,760

who published articles about nazi

395

00:20:49,510 --> 00:20:48,080

ufo technology in the 1960s the

396

00:20:52,789 --> 00:20:49,520

evidentiary support

397

00:20:55,669 --> 00:20:52,799

however for these stories is

398

00:20:56,310 --> 00:20:55,679

non-existent it doesn't stop people like

399

00:20:59,669 --> 00:20:56,320

joseph p

400

00:21:02,149 --> 00:20:59,679

pharrell and michael sala and many

401
00:21:04,310 --> 00:21:02,159
others from claiming that the nazis had

402
00:21:07,750 --> 00:21:04,320
flying saucers

403
00:21:10,390 --> 00:21:07,760
that's kind of one of my pet peeves

404
00:21:11,590 --> 00:21:10,400
i've heard various research so-called

405
00:21:13,830 --> 00:21:11,600
researchers

406
00:21:15,350 --> 00:21:13,840
claiming this but nobody can give us the

407
00:21:17,909 --> 00:21:15,360
actual proof what we get is

408
00:21:19,830 --> 00:21:17,919
drawings without uh prominence or

409
00:21:21,750 --> 00:21:19,840
without a chain of custody for us to be

410
00:21:24,549 --> 00:21:21,760
able to prove that they came from

411
00:21:26,549 --> 00:21:24,559
you know the nazi empire during its

412
00:21:30,230 --> 00:21:26,559
reign

413
00:21:33,669 --> 00:21:30,240

we get pictures that

414

00:21:33,990 --> 00:21:33,679

again nobody can really uh verify or

415

00:21:38,310 --> 00:21:34,000

from

416

00:21:41,669 --> 00:21:38,320

germany or any of that

417

00:21:45,270 --> 00:21:41,679

and this has been one of those things

418

00:21:46,870 --> 00:21:45,280

i uh looking into victor schauburger's

419

00:21:49,350 --> 00:21:46,880

background found a great deal of

420

00:21:51,110 --> 00:21:49,360

information about him seemed to be

421

00:21:53,430 --> 00:21:51,120

a very smart man who believed that we

422

00:21:55,190 --> 00:21:53,440

should copy nature

423

00:21:57,750 --> 00:21:55,200

if we wanted to know how things work he

424

00:21:59,750 --> 00:21:57,760

also believed that the airplane

425

00:22:01,669 --> 00:21:59,760

propeller was designed all wrong and

426
00:22:03,590 --> 00:22:01,679
that he could fix that and this is what

427
00:22:05,510 --> 00:22:03,600
his repulsion engine was supposed to be

428
00:22:07,270 --> 00:22:05,520
a propulsion device

429
00:22:08,870 --> 00:22:07,280
now there's various stories of the thing

430
00:22:11,830 --> 00:22:08,880
powering up and shooting through the

431
00:22:14,070 --> 00:22:11,840
roof so we had to build another one

432
00:22:16,950 --> 00:22:14,080
which by the way is a story echoed by

433
00:22:20,310 --> 00:22:16,960
john searle for his

434
00:22:22,549 --> 00:22:20,320
free energy and ufo propulsion device

435
00:22:24,470 --> 00:22:22,559
flying saucer engine

436
00:22:26,549 --> 00:22:24,480
he made the same exact claim which i

437
00:22:28,070 --> 00:22:26,559
found suspect

438
00:22:31,110 --> 00:22:28,080

but we're going to cite fair use and

439

00:22:33,510 --> 00:22:31,120

we're going to share this story of uh

440

00:22:35,029 --> 00:22:33,520

victor schauberger i found this video

441

00:22:37,669 --> 00:22:35,039

and it's uh

442

00:22:38,230 --> 00:22:37,679

called victor schauberger comprehend and

443

00:22:42,390 --> 00:22:38,240

copy

444

00:22:45,909 --> 00:22:43,909

victor schauerberger has a bunch of

445

00:22:48,789 --> 00:22:45,919

inventions he's got

446

00:22:50,789 --> 00:22:48,799

uh built some kind of uh water

447

00:22:53,350 --> 00:22:50,799

purification system he built

448

00:22:54,549 --> 00:22:53,360

and got patents for an improved water

449

00:22:57,669 --> 00:22:54,559

pump

450

00:23:00,710 --> 00:22:57,679

and a few other devices

451
00:23:03,750 --> 00:23:00,720
that we can see and know and

452
00:23:04,710 --> 00:23:03,760
understand actually work but the

453
00:23:08,230 --> 00:23:04,720
repulsion

454
00:23:10,549 --> 00:23:08,240
engine is kind of elusive

455
00:23:12,789 --> 00:23:10,559
there are incomplete models of them

456
00:23:15,430 --> 00:23:12,799
there are drawings that seem to be

457
00:23:17,190 --> 00:23:15,440
missing parts or pieces

458
00:23:18,630 --> 00:23:17,200
people have tried to recreate this

459
00:23:20,950 --> 00:23:18,640
repulsion engine

460
00:23:22,710 --> 00:23:20,960
in the united states and several other

461
00:23:24,470 --> 00:23:22,720
countries several people have tried to

462
00:23:27,430 --> 00:23:24,480
recreate this

463
00:23:28,070 --> 00:23:27,440

each with disappointing results but i

464

00:23:32,310 --> 00:23:28,080

thought we could

465

00:23:33,990 --> 00:23:32,320

uh let's uh i'm going to cite fair use

466

00:23:35,830 --> 00:23:34,000

we're educating the public about victor

467

00:23:39,029 --> 00:23:35,840

schauberger and his repulsion

468

00:23:41,430 --> 00:23:39,039

engine so this is a transformative work

469

00:23:42,789 --> 00:23:41,440

and it is covered under fair use for us

470

00:23:44,310 --> 00:23:42,799

to do this

471

00:23:46,549 --> 00:23:44,320

since we're educating the public we'll

472

00:23:47,029 --> 00:23:46,559

be stopping the video every once in a

473

00:23:51,190 --> 00:23:47,039

while

474

00:23:53,669 --> 00:23:51,200

just to sort of comment and uh

475

00:23:55,110 --> 00:23:53,679

and critique the information being

476
00:23:59,029 --> 00:23:55,120
presented

477
00:24:04,870 --> 00:23:59,039
so we're gonna cite fair use let's go

478
00:24:08,789 --> 00:24:04,880
on to this and here we are friends

479
00:24:11,029 --> 00:24:08,799
okay oh and i always do that one second

480
00:24:12,230 --> 00:24:11,039
again i'm so unprofessional look the

481
00:24:15,110 --> 00:24:12,240
wrong backdrop

482
00:24:16,830 --> 00:24:15,120
so send me you know send me your emails

483
00:24:20,149 --> 00:24:16,840
about how unprofessional i

484
00:24:22,149 --> 00:24:20,159
am well

485
00:24:24,390 --> 00:24:22,159
there we go that's the backdrop we

486
00:24:27,110 --> 00:24:24,400
wanted

487
00:24:28,950 --> 00:24:27,120
so uh you know basically this

488
00:24:31,190 --> 00:24:28,960

documentary covers a lot of

489

00:24:33,590 --> 00:24:31,200

information about victor schauerberger

490

00:24:36,070 --> 00:24:33,600

but we're 43 minutes in

491

00:24:37,029 --> 00:24:36,080

until we get really more information on

492

00:24:40,870 --> 00:24:37,039

this repulsion

493

00:24:43,350 --> 00:24:40,880

engine um the first 43 minutes is really

494

00:24:45,669 --> 00:24:43,360

an exploration of his water sort of

495

00:24:46,710 --> 00:24:45,679

inventions and his water pump and his

496

00:24:49,990 --> 00:24:46,720

ideas about

497

00:24:53,590 --> 00:24:50,000

vortexes in nature and how we can take

498

00:24:55,590 --> 00:24:53,600

the the you know the science of vortexes

499

00:24:56,870 --> 00:24:55,600

from nature and apply it to everyday

500

00:24:59,909 --> 00:24:56,880

problems

501
00:25:01,029 --> 00:24:59,919
interesting guy uh i have to say kind of

502
00:25:04,310 --> 00:25:01,039
a fascinating

503
00:25:07,750 --> 00:25:04,320
sort of inventive

504
00:25:09,110 --> 00:25:07,760
philosophical person uh who interests me

505
00:25:10,789 --> 00:25:09,120
very much

506
00:25:12,470 --> 00:25:10,799
and so of course i wanted to learn more

507
00:25:14,230 --> 00:25:12,480
about this repulsing engine we're going

508
00:25:16,870 --> 00:25:14,240
to cite fair use

509
00:25:21,110 --> 00:25:16,880
and let's take a listen trying to

510
00:25:26,070 --> 00:25:23,830
and uh what we get is some stories about

511
00:25:28,549 --> 00:25:26,080
some of his devices and

512
00:25:29,350 --> 00:25:28,559
again very little proof that they're

513
00:25:31,810 --> 00:25:29,360

working

514

00:25:31,820 --> 00:25:38,789

[Music]

515

00:25:38,799 --> 00:25:47,350

one second friends

516

00:25:47,360 --> 00:25:51,830

yeah again okay

517

00:25:55,190 --> 00:25:54,149

yeah we're gonna we're no that's fine

518

00:25:59,190 --> 00:25:55,200

we're done with that

519

00:26:01,830 --> 00:25:59,200

thank you thank you

520

00:26:03,350 --> 00:26:01,840

so this again policy violations because

521

00:26:05,909 --> 00:26:03,360

the youtube algorithm

522

00:26:06,870 --> 00:26:05,919

and listen friends it's a robot it's an

523

00:26:11,029 --> 00:26:06,880

ai

524

00:26:12,310 --> 00:26:11,039

that does this i'm still unsure how any

525

00:26:16,310 --> 00:26:12,320

of this works

526

00:26:19,909 --> 00:26:16,320

uh youtube being useless again

527

00:26:23,029 --> 00:26:19,919

yes so uh you know

528

00:26:25,430 --> 00:26:23,039

it's a youtube algorithm this is fair

529

00:26:25,909 --> 00:26:25,440

use every time they do this they put it

530

00:26:29,590 --> 00:26:25,919

back

531

00:26:32,310 --> 00:26:29,600

after the stream so nobody needs to uh

532

00:26:35,430 --> 00:26:32,320

to get upset over them doing this policy

533

00:26:39,269 --> 00:26:37,350

yes and i agree with sixth design it

534

00:26:41,190 --> 00:26:39,279

says fair use statement this video may

535

00:26:42,470 --> 00:26:41,200

contain transformative or derivative

536

00:26:45,510 --> 00:26:42,480

work for the purpose of

537

00:26:47,669 --> 00:26:45,520

education commentary and criticism

538

00:26:48,710 --> 00:26:47,679

yeah i really tried to stop it every few

539

00:26:51,990 --> 00:26:48,720
minutes or even

540

00:26:54,890 --> 00:26:52,000
every minute to uh to comment

541

00:26:59,430 --> 00:26:54,900
or whatever the case may be

542

00:27:04,870 --> 00:27:02,549
william pixley it's not a it's not a

543

00:27:05,990 --> 00:27:04,880
it's not a copyright strike it's a

544

00:27:07,990 --> 00:27:06,000
policy violation

545

00:27:09,510 --> 00:27:08,000
if they black it out it's a policy

546

00:27:11,909 --> 00:27:09,520
violation you're not supposed to

547

00:27:13,830 --> 00:27:11,919
restream somebody you know a large

548

00:27:16,870 --> 00:27:13,840
portion of somebody's video

549

00:27:18,070 --> 00:27:16,880
but again this is fair use you know i'm

550

00:27:19,909 --> 00:27:18,080
getting to the point where we're just

551
00:27:21,510 --> 00:27:19,919
going to stop using that stuff i'm just

552
00:27:25,909 --> 00:27:21,520
going to start making notes

553
00:27:29,830 --> 00:27:28,389
yeah i agree sixth design says it's

554
00:27:35,909 --> 00:27:29,840
cropped it's voiced over

555
00:27:41,909 --> 00:27:39,590
yeah so uh i guess we can just sort of

556
00:27:45,909 --> 00:27:41,919
end the presentation there i had an

557
00:27:47,830 --> 00:27:45,919
hour to do but uh you know

558
00:27:49,110 --> 00:27:47,840
uh well we weren't going to get an hour

559
00:27:51,350 --> 00:27:49,120
out of that video i have a few more

560
00:27:52,630 --> 00:27:51,360
things that we can talk about or that i

561
00:27:55,750 --> 00:27:52,640
can share

562
00:27:59,350 --> 00:27:55,760
that won't get youtube ai

563
00:28:01,110 --> 00:27:59,360

you know in a huff

564

00:28:03,750 --> 00:28:01,120

but i lost the one page that i was

565

00:28:08,070 --> 00:28:03,760

looking for

566

00:28:11,110 --> 00:28:08,080

let me see so from from the wikipedia

567

00:28:12,710 --> 00:28:11,120

uh it's very sparse actually i was

568

00:28:13,990 --> 00:28:12,720

surprised that the wikipedia is so

569

00:28:17,990 --> 00:28:14,000

sparse

570

00:28:22,470 --> 00:28:18,000

it says victor schauburger born 1885

571

00:28:26,389 --> 00:28:24,310

was an austrian okay so i was wrong he

572

00:28:29,430 --> 00:28:26,399

wasn't german he was austrian but

573

00:28:30,430 --> 00:28:29,440

close was an austrian forest caretaker

574

00:28:32,230 --> 00:28:30,440

naturalist

575

00:28:34,070 --> 00:28:32,240

pseudoscientist interesting they called

576

00:28:35,669 --> 00:28:34,080

him a pseudoscientist philosopher

577

00:28:38,789 --> 00:28:35,679

inventor

578

00:28:40,549 --> 00:28:38,799

and experimenter schauberger developed

579

00:28:42,870 --> 00:28:40,559

his own ideas based on what

580

00:28:44,070 --> 00:28:42,880

he observed in nature an implosion

581

00:28:46,149 --> 00:28:44,080

magazine a magazine

582

00:28:48,470 --> 00:28:46,159

released by schauberger's family he said

583

00:28:51,190 --> 00:28:48,480

that aeronautical and marine engineers

584

00:28:54,230 --> 00:28:51,200

had incorrectly designed the propeller

585

00:28:57,190 --> 00:28:54,240

he stated as best demonstrated by nature

586

00:28:59,190 --> 00:28:57,200

in the case of the aerofoil maple seed

587

00:29:01,110 --> 00:28:59,200

today's propeller is a pressure screw

588

00:29:02,630 --> 00:29:01,120

and therefore a breaking screw whose

589

00:29:05,669 --> 00:29:02,640

purpose is to allow

590

00:29:05,990 --> 00:29:05,679

the heavy maple seed to fall parachute

591

00:29:08,789 --> 00:29:06,000

like

592

00:29:10,789 --> 00:29:08,799

slowly towards the ground and to be

593

00:29:11,350 --> 00:29:10,799

carried away sideways by the wind in the

594

00:29:14,310 --> 00:29:11,360

process

595

00:29:15,029 --> 00:29:14,320

no bird has such a whirling thing on its

596

00:29:18,630 --> 00:29:15,039

head

597

00:29:21,750 --> 00:29:18,640

nor fish on its tail only man-made

598

00:29:23,430 --> 00:29:21,760

use of this natural break screw for for

599

00:29:25,269 --> 00:29:23,440

forward propulsion

600

00:29:27,430 --> 00:29:25,279

as the propeller rotates so does the

601
00:29:30,710 --> 00:29:27,440
resistance rise by the square

602
00:29:31,590 --> 00:29:30,720
of the rotational velocity that's why i

603
00:29:33,190 --> 00:29:31,600
said folks

604
00:29:34,630 --> 00:29:33,200
maybe this guy's just too smart for me

605
00:29:36,950 --> 00:29:34,640
to understand

606
00:29:38,710 --> 00:29:36,960
this is also a sign that was that this

607
00:29:39,990 --> 00:29:38,720
supposed propulsive device is

608
00:29:43,110 --> 00:29:40,000
unnaturally constructed

609
00:29:45,909 --> 00:29:43,120
and therefore out of place he wrote

610
00:29:50,230 --> 00:29:48,950
the water wizard nature as a teacher the

611
00:29:53,669 --> 00:29:50,240
fertile earth

612
00:29:54,230 --> 00:29:53,679
and energy evolution harnessing free

613
00:29:58,149 --> 00:29:54,240

energy

614

00:30:00,470 --> 00:29:58,159
from nature um yeah so a very

615

00:30:05,190 --> 00:30:00,480
interesting character but

616

00:30:08,149 --> 00:30:05,200
um the the disappointing part is that we

617

00:30:09,909 --> 00:30:08,159
don't get to see this engine work

618

00:30:11,990 --> 00:30:09,919
we don't get to see it create free

619

00:30:13,909 --> 00:30:12,000
energy and we don't get to see it have

620

00:30:15,350 --> 00:30:13,919
any propulsive force that could be

621

00:30:18,710 --> 00:30:15,360
measured

622

00:30:21,269 --> 00:30:18,720
but supporters and proponents of mr

623

00:30:23,269 --> 00:30:21,279
schauberger seem to claim that

624

00:30:25,750 --> 00:30:23,279
it's because we don't have the complete

625

00:30:31,510 --> 00:30:25,760
information of how these things work

626

00:30:35,669 --> 00:30:34,950

catalyst or the mean you know what is

627

00:30:39,750 --> 00:30:35,679

the

628

00:30:45,029 --> 00:30:43,510

it's a tantalizing it's a tantalizing

629

00:30:48,310 --> 00:30:45,039

device though

630

00:30:50,470 --> 00:30:48,320

and i have followed this probably

631

00:30:51,590 --> 00:30:50,480

for years i have seen this in many

632

00:30:54,630 --> 00:30:51,600

different books

633

00:30:57,909 --> 00:30:54,640

like i said every book that mentions ufo

634

00:31:00,470 --> 00:30:57,919

flying saucers uh nazi flying saucers

635

00:31:02,870 --> 00:31:00,480

mentions victor schauburger

636

00:31:03,590 --> 00:31:02,880

and then they sort of extrapolate and

637

00:31:07,110 --> 00:31:03,600

make huge

638

00:31:11,110 --> 00:31:07,120

and ridiculous claims from there

639

00:31:14,230 --> 00:31:11,120

the science is pretty clear however that

640

00:31:16,710 --> 00:31:14,240

nobody so far not no credible scientists

641

00:31:18,870 --> 00:31:16,720

have been able to show how this works

642

00:31:19,830 --> 00:31:18,880

have been able to demonstrate a working

643

00:31:25,750 --> 00:31:19,840

model

644

00:31:31,830 --> 00:31:30,389

yeah yeah and sixth design

645

00:31:34,230 --> 00:31:31,840

we're going to go to a live chat for

646

00:31:36,310 --> 00:31:34,240

comments and questions much the same

647

00:31:37,909 --> 00:31:36,320

as all free energy projects why don't

648

00:31:39,430 --> 00:31:37,919

the person who made them use them to

649

00:31:41,750 --> 00:31:39,440

power their house

650

00:31:43,430 --> 00:31:41,760

power their other projects uh we're

651
00:31:44,789 --> 00:31:43,440
going to be covering john searle here

652
00:31:46,389 --> 00:31:44,799
and john searle isn't interesting

653
00:31:47,909 --> 00:31:46,399
because he claimed that he did use it to

654
00:31:50,070 --> 00:31:47,919
power his house

655
00:31:52,230 --> 00:31:50,080
but then he got arrested for stealing

656
00:31:55,350 --> 00:31:52,240
power from the power company illegally

657
00:31:57,509 --> 00:31:55,360
so is the chat saved i believe it

658
00:31:59,430 --> 00:31:57,519
is so if you leave links you can they

659
00:32:02,870 --> 00:31:59,440
can be clicked on the replay but the

660
00:32:05,190 --> 00:32:02,880
but the the stream takes a while

661
00:32:06,389 --> 00:32:05,200
usually they put the stream up and then

662
00:32:09,110 --> 00:32:06,399
the live chat

663
00:32:10,470 --> 00:32:09,120

somehow gets added hours later not sure

664

00:32:12,310 --> 00:32:10,480

how that works but the chat is

665

00:32:14,710 --> 00:32:12,320

definitely being saved and

666

00:32:16,789 --> 00:32:14,720

for all eternity whatever you write in

667

00:32:19,830 --> 00:32:16,799

here should be preserved on

668

00:32:26,070 --> 00:32:19,840

our corporate overlords uh servers

669

00:32:29,350 --> 00:32:28,710

yeah and uh william pixley man mentioned

670

00:32:31,350 --> 00:32:29,360

that he

671

00:32:32,789 --> 00:32:31,360

was not a fan of the nazis i've heard

672

00:32:36,149 --> 00:32:32,799

that from several sources

673

00:32:37,190 --> 00:32:36,159

that he uh didn't want his devices to be

674

00:32:40,470 --> 00:32:37,200

used by the

675

00:32:43,110 --> 00:32:40,480

by the nazis in the third reich but

676

00:32:45,830 --> 00:32:43,120

uh had some involvement with research

677

00:32:53,190 --> 00:32:47,350

jeanette krazenko says right because

678

00:32:56,549 --> 00:32:54,789

and yes of course six design you can

679

00:32:59,669 --> 00:32:56,559

leave all the links that you want

680

00:33:01,430 --> 00:32:59,679

i trust your judgment

681

00:33:03,029 --> 00:33:01,440

yes friends so you know we're going to

682

00:33:04,549 --> 00:33:03,039

be starting this new series on these

683

00:33:08,070 --> 00:33:04,559

free energy devices

684

00:33:09,990 --> 00:33:08,080

and ufo propulsion systems see if we can

685

00:33:14,070 --> 00:33:10,000

get some clues as to how these

686

00:33:17,669 --> 00:33:16,389

as i said i have an interest in free

687

00:33:20,710 --> 00:33:17,679

energy devices but

688

00:33:21,190 --> 00:33:20,720

except for you know proven technology

689

00:33:25,029 --> 00:33:21,200

which is

690

00:33:28,070 --> 00:33:25,039

i call almost free energy solar panels

691

00:33:28,789 --> 00:33:28,080

is uh kind of like free energy but you

692

00:33:30,789 --> 00:33:28,799

know

693

00:33:31,830 --> 00:33:30,799

they cost a lot to make it cost a lot to

694

00:33:35,909 --> 00:33:31,840

purchase

695

00:33:39,590 --> 00:33:35,919

for a long long time

696

00:33:43,509 --> 00:33:39,600

and create energy for you um

697

00:33:45,750 --> 00:33:43,519

when turbines of course come to mind uh

698

00:33:46,630 --> 00:33:45,760

water turbines come to mind but these

699

00:33:49,509 --> 00:33:46,640

are the these are

700

00:33:50,070 --> 00:33:49,519

proven you know generators that actually

701
00:33:53,110 --> 00:33:50,080
generate

702
00:33:55,870 --> 00:33:53,120
power but again

703
00:33:58,310 --> 00:33:55,880
the first the first law of

704
00:34:00,149 --> 00:33:58,320
thermodynamics is of course at play with

705
00:34:02,070 --> 00:34:00,159
those because the energy is not being

706
00:34:03,990 --> 00:34:02,080
created from nowhere

707
00:34:05,990 --> 00:34:04,000
it's being transformed the mechanical

708
00:34:09,190 --> 00:34:06,000
force of the wind is transformed

709
00:34:12,310 --> 00:34:09,200
into electrical energy and

710
00:34:15,109 --> 00:34:12,320
uh the same for water wheels and things

711
00:34:17,109 --> 00:34:15,119
like that and in solar cells it's

712
00:34:19,270 --> 00:34:17,119
more of a chemical process but it's

713
00:34:20,790 --> 00:34:19,280

still you're transforming sunlight into

714

00:34:24,310 --> 00:34:20,800

electrical energy

715

00:34:26,069 --> 00:34:24,320

again the first law of thermodynamics

716

00:34:26,869 --> 00:34:26,079

energy can neither be created nor

717

00:34:30,149 --> 00:34:26,879

destroyed

718

00:34:30,869 --> 00:34:30,159

so these devices do not violate the

719

00:34:32,950 --> 00:34:30,879

first

720

00:34:33,909 --> 00:34:32,960

law of thermodynamics but a lot of these

721

00:34:37,190 --> 00:34:33,919

free energy

722

00:34:40,149 --> 00:34:37,200

devices

723

00:34:43,349 --> 00:34:40,159

the claim is that they do generate or

724

00:34:46,030 --> 00:34:43,359

excuse me the claim is that they do

725

00:34:50,950 --> 00:34:46,040

somehow violate the first law of

726

00:34:55,510 --> 00:34:54,069

it's impossible for that to be the case

727

00:34:57,349 --> 00:34:55,520

we'd have to throw out everything we

728

00:34:59,270 --> 00:34:57,359

know about physics but some people still

729

00:35:01,030 --> 00:34:59,280

make these claims

730

00:35:03,750 --> 00:35:01,040

i for one i mention these crystal

731

00:35:05,349 --> 00:35:03,760

batteries it's a john hutchinson

732

00:35:07,910 --> 00:35:05,359

invention and a few others have

733

00:35:09,750 --> 00:35:07,920

experimented with them

734

00:35:11,190 --> 00:35:09,760

those are fascinating to me because i

735

00:35:14,950 --> 00:35:11,200

don't know what's happening

736

00:35:16,950 --> 00:35:14,960

i i know that i you know

737

00:35:19,030 --> 00:35:16,960

if you get the mix right and you have a

738

00:35:21,829 --> 00:35:19,040

magnesium rod and a copper tube

739

00:35:23,109 --> 00:35:21,839

you can generate a tiny tiny tiny amount

740

00:35:26,150 --> 00:35:23,119

of

741

00:35:27,270 --> 00:35:26,160

free energy forever but it's like you

742

00:35:30,710 --> 00:35:27,280

know one volt

743

00:35:32,550 --> 00:35:30,720

at like you know point 20 milliamps or

744

00:35:35,670 --> 00:35:32,560

you know it's just a tiny

745

00:35:37,430 --> 00:35:35,680

you can't even light an one led from one

746

00:35:38,470 --> 00:35:37,440

of these things without some clever

747

00:35:42,069 --> 00:35:38,480

circuitry called

748

00:35:44,470 --> 00:35:42,079

a jewel thief to do so uh but

749

00:35:45,190 --> 00:35:44,480

it's still interesting to me because how

750

00:35:48,230 --> 00:35:45,200

you can

751

00:35:51,270 --> 00:35:48,240

pack a bunch of epsom salts and

752

00:35:53,510 --> 00:35:51,280

uh a few other ingredients into a copper

753

00:35:56,150 --> 00:35:53,520

tube with a magnesium rod and

754

00:35:58,630 --> 00:35:56,160

just it'll create a tiny bit of energy

755

00:35:59,430 --> 00:35:58,640

literally forever i don't know how it

756

00:36:00,950 --> 00:35:59,440

works

757

00:36:04,870 --> 00:36:00,960

and it's fascinating to me because what

758

00:36:08,630 --> 00:36:06,550

what if you could take that tiny bit of

759

00:36:10,390 --> 00:36:08,640

energy and you know bank them together

760

00:36:12,310 --> 00:36:10,400

so that you could make something usable

761

00:36:15,510 --> 00:36:12,320

like say 12 volts at an

762

00:36:17,750 --> 00:36:15,520

amp if you had 12 volts at an

763

00:36:19,190 --> 00:36:17,760

amp and you could feed that into a

764

00:36:21,589 --> 00:36:19,200

storage device

765

00:36:24,550 --> 00:36:21,599

it could do useful work and useful

766

00:36:27,910 --> 00:36:26,230

alien scientists had a great show the

767

00:36:30,150 --> 00:36:27,920

other day about this kind of thing yes

768

00:36:31,270 --> 00:36:30,160

and he's a smarter man than me he's an

769

00:36:33,589 --> 00:36:31,280

actual physicist

770

00:36:35,190 --> 00:36:33,599

or um i don't know if he would consider

771

00:36:36,550 --> 00:36:35,200

himself a physicist but he definitely

772

00:36:39,030 --> 00:36:36,560

has a degree in physics

773

00:36:41,109 --> 00:36:39,040

which uh i have tremendous respect for

774

00:36:43,430 --> 00:36:41,119

because for those that don't know

775

00:36:44,390 --> 00:36:43,440

the math classes required to get a

776

00:36:46,710 --> 00:36:44,400

degree in physics

777

00:36:48,470 --> 00:36:46,720

are ridiculous they're worse than

778

00:36:49,109 --> 00:36:48,480

computer science and computer science is

779

00:36:51,910 --> 00:36:49,119

pretty bad

780

00:36:52,390 --> 00:36:51,920

computer science degree classes are

781

00:36:55,270 --> 00:36:52,400

almost

782

00:36:55,589 --> 00:36:55,280

all math and i don't even know why that

783

00:36:58,870 --> 00:36:55,599

is

784

00:36:59,990 --> 00:36:58,880

because some of the best coders that i

785

00:37:03,030 --> 00:37:00,000

know

786

00:37:04,550 --> 00:37:03,040

aren't very good at math but it is what

787

00:37:08,550 --> 00:37:04,560

it is i think that the

788

00:37:10,390 --> 00:37:08,560

education system thinks if they can

789

00:37:13,030 --> 00:37:10,400

force you to take all these really

790

00:37:15,030 --> 00:37:13,040

really hard math classes they'll somehow

791

00:37:16,950 --> 00:37:15,040

you'll learn to think logically or

792

00:37:19,190 --> 00:37:16,960

scientifically or that you'll

793

00:37:20,390 --> 00:37:19,200

become good at problem solving i don't

794

00:37:22,870 --> 00:37:20,400

know

795

00:37:24,870 --> 00:37:22,880

six design is sharing some links on

796

00:37:26,310 --> 00:37:24,880

crystal cell battery technology yeah

797

00:37:27,109 --> 00:37:26,320

something fascinating to me and we're

798

00:37:29,109 --> 00:37:27,119

going to be sharing

799

00:37:31,190 --> 00:37:29,119

i'll share one of my devices and show

800

00:37:35,430 --> 00:37:31,200

you it lighting an led

801
00:37:38,710 --> 00:37:35,440
uh for literally years now

802
00:37:41,510 --> 00:37:38,720
and no you know

803
00:37:44,550 --> 00:37:41,520
there's no energy input well you do a

804
00:37:48,550 --> 00:37:44,560
small charge to get it started

805
00:37:50,710 --> 00:37:48,560
but crystal batteries to me are the only

806
00:37:53,270 --> 00:37:50,720
so called zero point of free energy

807
00:37:55,829 --> 00:37:53,280
technology that i've ever come across

808
00:37:57,349 --> 00:37:55,839
that show some promise to me and someday

809
00:37:58,470 --> 00:37:57,359
i'd like to get back to experimenting

810
00:37:59,829 --> 00:37:58,480
with them

811
00:38:01,270 --> 00:37:59,839
every once in a while i pull them out

812
00:38:02,150 --> 00:38:01,280
and start messing with them or trying to

813
00:38:04,630 --> 00:38:02,160

make them bigger

814

00:38:05,750 --> 00:38:04,640

try to make them generate more power

815

00:38:07,829 --> 00:38:05,760

there's a

816

00:38:09,990 --> 00:38:07,839

boy that's a whole rabbit hole if you go

817

00:38:12,069 --> 00:38:10,000

on youtube and search crystal cell

818

00:38:13,589 --> 00:38:12,079

batteries or you know crystal batteries

819

00:38:16,630 --> 00:38:13,599

you'll find hundreds of people

820

00:38:21,510 --> 00:38:16,640

experimenting with these things

821

00:38:25,750 --> 00:38:21,520

but as far of uh as far as

822

00:38:27,829 --> 00:38:25,760

some of these other devices uh

823

00:38:29,349 --> 00:38:27,839

as far as some of these other devices

824

00:38:31,510 --> 00:38:29,359

and claims made

825

00:38:32,630 --> 00:38:31,520

you know just once i'd like wanted them

826

00:38:34,390 --> 00:38:32,640

to be true

827

00:38:36,150 --> 00:38:34,400

it's kind of like the ufo rabbit hole

828

00:38:39,190 --> 00:38:36,160

these free energy rabbit holes

829

00:38:40,870 --> 00:38:39,200

like oh no this one really works and

830

00:38:43,750 --> 00:38:40,880

then you get into it and

831

00:38:45,750 --> 00:38:43,760

no it really doesn't or people can't

832

00:38:47,750 --> 00:38:45,760

prove that it does

833

00:38:49,109 --> 00:38:47,760

six of design i watch john hudson's a

834

00:38:50,230 --> 00:38:49,119

lot of this stuff is quite old but i

835

00:38:52,390 --> 00:38:50,240

like his ideas oh

836

00:38:53,589 --> 00:38:52,400

okay i can't say all his explanations

837

00:38:55,990 --> 00:38:53,599

are as he says

838

00:38:58,829 --> 00:38:56,000

yeah uh what i came away with after

839

00:39:02,150 --> 00:38:58,839

building a bunch of crystal batteries

840

00:39:04,870 --> 00:39:02,160

is i don't know why it works

841

00:39:05,589 --> 00:39:04,880

i'm not a physicist and you know i've

842

00:39:08,310 --> 00:39:05,599

even had

843

00:39:08,950 --> 00:39:08,320

physicists or showed it to physicists

844

00:39:10,870 --> 00:39:08,960

like how

845

00:39:11,990 --> 00:39:10,880

can you explain this to me how this

846

00:39:13,910 --> 00:39:12,000

works

847

00:39:15,430 --> 00:39:13,920

and there's various i don't know i have

848

00:39:17,270 --> 00:39:15,440

a friend that and he's sort of a

849

00:39:18,310 --> 00:39:17,280

computer science guy and he said no you

850

00:39:21,190 --> 00:39:18,320

don't understand

851

00:39:22,870 --> 00:39:21,200

it's what it is is just it's a tiny tiny

852

00:39:26,150 --> 00:39:22,880

bit of energy and it's releasing

853

00:39:27,990 --> 00:39:26,160

slow slow super slowly over time

854

00:39:29,910 --> 00:39:28,000

just like taking a double a battery and

855

00:39:32,550 --> 00:39:29,920

forcing it to

856

00:39:34,630 --> 00:39:32,560

slowly release its power over years

857

00:39:37,829 --> 00:39:34,640

instead of you know

858

00:39:42,150 --> 00:39:37,839

i'm not i'm still not convinced

859

00:39:44,310 --> 00:39:42,160

i'm not convinced either way um i'm not

860

00:39:47,430 --> 00:39:44,320

convinced

861

00:39:50,630 --> 00:39:47,440

there isn't something to it

862

00:39:55,430 --> 00:39:50,640

so far uh crystal batteries

863

00:39:57,349 --> 00:39:55,440

have been uh have been

864

00:39:58,870 --> 00:39:57,359

the most promising thing i've seen that

865

00:40:02,310 --> 00:39:58,880

may

866

00:40:04,550 --> 00:40:02,320

mean that zero point energy is possible

867

00:40:05,750 --> 00:40:04,560

have you researched joseph newman yes i

868

00:40:09,910 --> 00:40:05,760

believe i have

869

00:40:14,150 --> 00:40:09,920

and uh he had an uh interesting device

870

00:40:21,910 --> 00:40:18,309

the claims that he made could not be

871

00:40:24,309 --> 00:40:21,920

verified but then he had this epic

872

00:40:25,190 --> 00:40:24,319

he had an epic battle with the patent

873

00:40:29,109 --> 00:40:25,200

office

874

00:40:31,990 --> 00:40:29,119

and uh there's an excellent documentary

875

00:40:33,510 --> 00:40:32,000

on mr newman on netflix right now and i

876

00:40:35,670 --> 00:40:33,520

highly recommend it

877

00:40:37,829 --> 00:40:35,680

it's a shame uh it's kind of a tragic

878

00:40:39,589 --> 00:40:37,839

story that guy's story he's another one

879

00:40:43,030 --> 00:40:39,599

who

880

00:40:43,670 --> 00:40:43,040

he may have had something there and a

881

00:40:46,230 --> 00:40:43,680

lot of

882

00:40:47,510 --> 00:40:46,240

very scientific very smart people were

883

00:40:50,790 --> 00:40:47,520

totally convinced

884

00:40:52,870 --> 00:40:50,800

that the newman engine worked

885

00:40:55,270 --> 00:40:52,880

and that you could get more energy out

886

00:40:57,109 --> 00:40:55,280

of his device than you put in you could

887

00:40:59,270 --> 00:40:57,119

put it you know a very tiny bit of

888

00:41:03,030 --> 00:40:59,280

energy into it and get a larger amount

889

00:41:05,349 --> 00:41:03,040

out which is often called an over unity

890

00:41:08,390 --> 00:41:05,359

device

891

00:41:12,870 --> 00:41:08,400

which again it will violate the

892

00:41:14,710 --> 00:41:12,880

first the first law of thermodynamics

893

00:41:17,510 --> 00:41:14,720

william pixley get me in touch with that

894

00:41:19,109 --> 00:41:17,520

guy i seen him in the documentary i'd

895

00:41:22,230 --> 00:41:19,119

sure like an interview maybe you could

896

00:41:40,230 --> 00:41:24,470

jeanette kuzenko i know there's a way i

897

00:41:45,430 --> 00:41:44,150

oh okay so success i was a tinkerer as a

898

00:41:47,270 --> 00:41:45,440

child maybe that's why i can relate to

899

00:41:50,309 --> 00:41:47,280

the experiments like that

900

00:41:52,150 --> 00:41:50,319

we can find if we don't search or we

901
00:41:55,589 --> 00:41:52,160
can't find if we don't search yeah i

902
00:41:57,589 --> 00:41:55,599
spent a long time uh

903
00:41:59,109 --> 00:41:57,599
i spent a long time playing with magnets

904
00:42:01,030 --> 00:41:59,119
and i was convinced for a time that i

905
00:42:01,670 --> 00:42:01,040
can make a free energy device out of

906
00:42:04,069 --> 00:42:01,680
magnets

907
00:42:05,510 --> 00:42:04,079
and so have a lot of other people been

908
00:42:07,750 --> 00:42:05,520
convinced that you can make a free

909
00:42:11,030 --> 00:42:07,760
energy device of some sort or another

910
00:42:13,030 --> 00:42:11,040
out of magnets but uh

911
00:42:14,870 --> 00:42:13,040
i failed at every turn and i had a bunch

912
00:42:16,630 --> 00:42:14,880
that were like almost working

913
00:42:18,470 --> 00:42:16,640

but that's just it you can play with

914

00:42:20,870 --> 00:42:18,480

that thing for a year and it'll still be

915

00:42:24,230 --> 00:42:20,880

almost working but never quite make it

916

00:42:27,190 --> 00:42:24,240

to the working stage it's tantalizing

917

00:42:27,910 --> 00:42:27,200

it's tantalizing because you get you you

918

00:42:32,710 --> 00:42:27,920

get

919

00:42:34,470 --> 00:42:32,720

magnets to just turn a wheel

920

00:42:36,150 --> 00:42:34,480

and it seems like you could do it it

921

00:42:38,550 --> 00:42:36,160

really does you start

922

00:42:40,309 --> 00:42:38,560

experimenting and like okay i'm gonna

923

00:42:41,349 --> 00:42:40,319

i'm gonna glue these magnets around this

924

00:42:43,349 --> 00:42:41,359

bike spoke

925

00:42:44,710 --> 00:42:43,359

wheel you know and then we're gonna have

926

00:42:46,309 --> 00:42:44,720

another magnet that's gonna be the

927

00:42:47,589 --> 00:42:46,319

repulsing magnet it's gonna force the

928

00:42:51,670 --> 00:42:47,599

wheel to spin

929

00:42:53,910 --> 00:42:51,680

but the problem is it doesn't work

930

00:42:55,349 --> 00:42:53,920

you can play with magnets for two years

931

00:42:57,030 --> 00:42:55,359

and by the way cliff high is one of

932

00:42:58,790 --> 00:42:57,040

those guys that's playing with magnets

933

00:43:00,150 --> 00:42:58,800

sure that he can make a free energy

934

00:43:03,109 --> 00:43:00,160

device i think

935

00:43:04,950 --> 00:43:03,119

i've seen some of his posts i i it's on

936

00:43:06,630 --> 00:43:04,960

my list of things to do to watch some of

937

00:43:08,390 --> 00:43:06,640

his videos about his magnetic

938

00:43:10,309 --> 00:43:08,400

experiments because uh

939

00:43:13,190 --> 00:43:10,319

cliff's another he's a smart guy maybe

940

00:43:14,950 --> 00:43:13,200

he can figure it out

941

00:43:16,870 --> 00:43:14,960

yes and sixth design kind enough to

942

00:43:19,910 --> 00:43:16,880

share our patreon

943

00:43:21,030 --> 00:43:19,920

um oh that's another bit of business so

944

00:43:24,550 --> 00:43:21,040

there was supposed to be

945

00:43:26,550 --> 00:43:24,560

a uh a mind hack demo released last

946

00:43:29,109 --> 00:43:26,560

month to the patreon supporters

947

00:43:31,270 --> 00:43:29,119

and again got a little bit behind and

948

00:43:34,309 --> 00:43:31,280

what happened is that i

949

00:43:37,109 --> 00:43:34,319

did some voiceovers and did not

950

00:43:38,230 --> 00:43:37,119

proof them if that makes sense like the

951
00:43:42,069 --> 00:43:38,240
voiceovers were

952
00:43:45,109 --> 00:43:42,079
terrible maybe related to this

953
00:43:45,990 --> 00:43:45,119
pushing in that microphone to [h__h] in

954
00:43:48,309 --> 00:43:46,000
the

955
00:43:49,670 --> 00:43:48,319
input is like a little law off and you

956
00:43:52,069 --> 00:43:49,680
gotta

957
00:43:53,510 --> 00:43:52,079
and anyway i didn't want to release it

958
00:43:56,390 --> 00:43:53,520
release that demo with uh

959
00:43:57,990 --> 00:43:56,400
scratchy weird vocals with hissing all

960
00:44:00,550 --> 00:43:58,000
over it so

961
00:44:01,990 --> 00:44:00,560
it sounded f i guess i wasn't paying too

962
00:44:03,910 --> 00:44:02,000
close of attention and then when i went

963
00:44:05,349 --> 00:44:03,920

to mix it i went oh no i can't finish

964

00:44:07,190 --> 00:44:05,359

this so

965

00:44:08,950 --> 00:44:07,200

this month for sure the final mind hack

966

00:44:12,470 --> 00:44:08,960

demo is coming out

967

00:44:15,910 --> 00:44:12,480

i think it's five tracks

968

00:44:17,670 --> 00:44:15,920

or four tracks maybe four or five new

969

00:44:21,270 --> 00:44:17,680

mind hack tracks

970

00:44:23,190 --> 00:44:21,280

and then i'm going to master the entire

971

00:44:23,990 --> 00:44:23,200

mind hack project which will at that

972

00:44:27,349 --> 00:44:24,000

point be

973

00:44:30,710 --> 00:44:27,359

three hours and 30 minutes of audio

974

00:44:32,790 --> 00:44:30,720

once the completed mind hack master is

975

00:44:33,910 --> 00:44:32,800

done it will be released to the patreon

976
00:44:37,670 --> 00:44:33,920
supporters for

977
00:44:38,950 --> 00:44:37,680
free those who want to purchase that

978
00:44:41,750 --> 00:44:38,960
it'll be a 20

979
00:44:42,630 --> 00:44:41,760
product and i think that's really worth

980
00:44:53,829 --> 00:44:42,640
every penny

981
00:44:57,589 --> 00:44:55,829
yes charles unleashed coral castle had

982
00:44:58,790 --> 00:44:57,599
film in the guy building at just chains

983
00:45:02,069 --> 00:44:58,800
and pulleys

984
00:45:04,870 --> 00:45:02,079
you get to get the go to uh

985
00:45:07,109 --> 00:45:04,880
smoke king and uh paranormal jiggy on

986
00:45:08,950 --> 00:45:07,119
the coral castle they'll go off about

987
00:45:10,230 --> 00:45:08,960
how there's nothing to it and it was

988
00:45:14,710 --> 00:45:10,240

just

989

00:45:18,870 --> 00:45:16,309

we still may cover that story because

990

00:45:20,870 --> 00:45:18,880

it's still an interesting story

991

00:45:21,990 --> 00:45:20,880

william pixley says cliff is a little

992

00:45:23,589 --> 00:45:22,000

loopy yeah

993

00:45:25,510 --> 00:45:23,599

and he's a little busy lately because

994

00:45:27,750 --> 00:45:25,520

he's trying to upgrade his antiquated

995

00:45:31,430 --> 00:45:27,760

web bot to keep up with my web bot

996

00:45:34,069 --> 00:45:31,440

x you have no hope of doing that

997

00:45:35,190 --> 00:45:34,079

cliff just give up my web bot x is going

998

00:45:38,950 --> 00:45:35,200

to destroy

999

00:45:42,790 --> 00:45:38,960

your antiquated old technology

1000

00:45:46,870 --> 00:45:42,800

web bot uh and it's so far as its

1001

00:45:50,150 --> 00:45:46,880

accuracy and its

1002

00:45:51,670 --> 00:45:50,160

of that which it is absorbing i think

1003

00:45:53,750 --> 00:45:51,680

there's no contest cliff high

1004

00:45:58,829 --> 00:45:53,760

but you can try you can try to upgrade

1005

00:46:01,829 --> 00:46:00,069

mine

1006

00:46:13,430 --> 00:46:01,839

there we go patreon is experiencing

1007

00:46:17,109 --> 00:46:15,349

so if anybody has any more questions or

1008

00:46:18,230 --> 00:46:17,119

comments from me i'll stick around for a

1009

00:46:21,589 --> 00:46:18,240

little while

1010

00:46:24,870 --> 00:46:21,599

or we can call this one a show

1011

00:46:25,190 --> 00:46:24,880

um if anybody has any other free energy

1012

00:46:27,589 --> 00:46:25,200

or

1013

00:46:29,990 --> 00:46:27,599

ufo propulsion devices that we can look

1014

00:46:36,550 --> 00:46:30,000

into for fun

1015

00:46:39,829 --> 00:46:38,470

mario heat is he the guy who denies

1016

00:46:41,270 --> 00:46:39,839

racism is the thing

1017

00:46:43,349 --> 00:46:41,280

now i don't think i've ever heard him

1018

00:46:45,109 --> 00:46:43,359

talk like that so i don't i think he may

1019

00:46:50,550 --> 00:46:45,119

be confusing him with someone else

1020

00:46:54,630 --> 00:46:52,630

yeah somebody mentioned the sun room

1021

00:46:56,390 --> 00:46:54,640

that's another reason why i was off for

1022

00:46:59,910 --> 00:46:56,400

like you know

1023

00:47:03,349 --> 00:46:59,920

four days five days trying to get this

1024

00:47:05,589 --> 00:47:03,359

sun room done so we'll give a little uh

1025

00:47:06,470 --> 00:47:05,599

we'll give a little cabin update i

1026

00:47:09,030 --> 00:47:06,480

suppose

1027

00:47:10,390 --> 00:47:09,040

uh show you what's been going on there

1028

00:47:11,910 --> 00:47:10,400

but if you follow me on twitter you will

1029

00:47:12,309 --> 00:47:11,920

have already seen it but some people

1030

00:47:14,870 --> 00:47:12,319

don't

1031

00:47:16,870 --> 00:47:14,880

and uh and also for the benefit of

1032

00:47:18,150 --> 00:47:16,880

people watching on facebook i'm in a lot

1033

00:47:20,150 --> 00:47:18,160

of these

1034

00:47:22,549 --> 00:47:20,160

off-grid and cabin building groups on

1035

00:47:26,069 --> 00:47:22,559

facebook and some of them

1036

00:47:31,270 --> 00:47:26,079

watched our show occasionally on um

1037

00:47:31,280 --> 00:47:36,790

i am going to share

1038

00:47:40,309 --> 00:47:39,270

let me share this uh i'm just going to

1039

00:47:41,910 --> 00:47:40,319

share my twitter

1040

00:47:43,430 --> 00:47:41,920

and show you some pictures what i've

1041

00:47:45,030 --> 00:47:43,440

been busy with what have been worked

1042

00:47:49,589 --> 00:47:45,040

working on

1043

00:47:52,390 --> 00:47:49,599

this is our show okay so uh

1044

00:47:53,910 --> 00:47:52,400

first and foremost i'm i'm so happy

1045

00:47:56,309 --> 00:47:53,920

about this

1046

00:47:57,430 --> 00:47:56,319

i uh i have wanted one of these things

1047

00:48:00,470 --> 00:47:57,440

forever

1048

00:48:01,589 --> 00:48:00,480

this is a wood cook stove uh and it is

1049

00:48:04,549 --> 00:48:01,599

now installed

1050

00:48:05,349 --> 00:48:04,559

and working at the cabin uh which i'm

1051

00:48:10,390 --> 00:48:05,359

very

1052

00:48:15,190 --> 00:48:10,400

the most

1053

00:48:17,109 --> 00:48:15,200

appliance that you should have in an

1054

00:48:20,630 --> 00:48:17,119

off-grid cabin

1055

00:48:22,790 --> 00:48:20,640

the most useful and important would be a

1056

00:48:25,829 --> 00:48:22,800

wood cook stove

1057

00:48:28,790 --> 00:48:25,839

and here is why friends with the wood

1058

00:48:31,829 --> 00:48:28,800

cook stove you can heat your cabin

1059

00:48:34,069 --> 00:48:31,839

the whole cabin you can cook your food

1060

00:48:35,109 --> 00:48:34,079

on the top of it you know in pans or

1061

00:48:37,750 --> 00:48:35,119

pots or whatever

1062

00:48:38,150 --> 00:48:37,760

boil water you can boil water which is

1063

00:48:40,630 --> 00:48:38,160

going to be

1064

00:48:41,430 --> 00:48:40,640

important that would be incredibly

1065

00:48:43,670 --> 00:48:41,440

important

1066

00:48:45,270 --> 00:48:43,680

in a survival situation the ability to

1067

00:48:46,950 --> 00:48:45,280

boil water may be

1068

00:48:48,710 --> 00:48:46,960

the difference between life and death

1069

00:48:50,390 --> 00:48:48,720

you can always boil water on the top of

1070

00:48:52,470 --> 00:48:50,400

one of these

1071

00:48:55,589 --> 00:48:52,480

all right here we see the firebox and

1072

00:48:58,069 --> 00:48:55,599

there's another view here so

1073

00:49:00,150 --> 00:48:58,079

yeah and uh the hold up it took an extra

1074

00:49:04,069 --> 00:49:00,160

week because this is a weird

1075

00:49:06,710 --> 00:49:04,079

ovular flue over here and uh

1076

00:49:08,790 --> 00:49:06,720

it had to be adapted and so but the good

1077

00:49:11,430 --> 00:49:08,800

news is that the old wood stove

1078

00:49:12,069 --> 00:49:11,440

is a little tiny wood stove without an

1079

00:49:14,309 --> 00:49:12,079

oven

1080

00:49:15,270 --> 00:49:14,319

oh i i forgot to mention so also with

1081

00:49:18,309 --> 00:49:15,280

this thing you

1082

00:49:21,589 --> 00:49:18,319

it's an oven and on on you see on the

1083

00:49:25,030 --> 00:49:21,599

right side there there's a big metal box

1084

00:49:28,230 --> 00:49:25,040

that is either a warmer or a water tank

1085

00:49:30,069 --> 00:49:28,240

i have to test it uh with

1086

00:49:32,710 --> 00:49:30,079

water to see if it's going to be able to

1087

00:49:35,190 --> 00:49:32,720

do that but the firebox is always

1088

00:49:36,710 --> 00:49:35,200

already on the left side i'm not so sure

1089

00:49:39,670 --> 00:49:36,720

that this is going to work

1090

00:49:42,069 --> 00:49:39,680

as a water tank it may just be a warmer

1091

00:49:43,510 --> 00:49:42,079

i'd rather have a water tank

1092

00:49:45,750 --> 00:49:43,520

so you can have always have hot water

1093

00:49:47,990 --> 00:49:45,760

for dishes or shower or whatever

1094

00:49:51,030 --> 00:49:48,000

but it's only uh i think that's probably

1095

00:49:55,109 --> 00:49:51,040

only like five gallons but we'll see

1096

00:49:56,950 --> 00:49:55,119

um let's go to the next

1097

00:49:58,309 --> 00:49:56,960

let's go to the next thing and that is

1098

00:50:00,710 --> 00:49:58,319

the sun room

1099

00:50:02,390 --> 00:50:00,720

yeah so this is oh but this is another

1100

00:50:03,589 --> 00:50:02,400

just picture of it working and i got to

1101

00:50:04,790 --> 00:50:03,599

tell you i was so happy to get this

1102

00:50:10,230 --> 00:50:04,800

thing working

1103

00:50:12,309 --> 00:50:10,240

i uh went out and got some frozen pizzas

1104

00:50:14,390 --> 00:50:12,319

and so uh yeah here's the day of my life

1105

00:50:16,790 --> 00:50:14,400

i'll never ever get back i suddenly

1106

00:50:18,309 --> 00:50:16,800

realized that the doors that i got i got

1107

00:50:21,910 --> 00:50:18,319

two doors that are like

1108

00:50:24,390 --> 00:50:21,920

frosted glass uh really decorative doors

1109

00:50:24,950 --> 00:50:24,400

um from a neighbor but the doors were

1110

00:50:27,109 --> 00:50:24,960

really

1111

00:50:28,230 --> 00:50:27,119

skinny does that make sense and there's

1112

00:50:30,069 --> 00:50:28,240

going to be a door on the front of the

1113

00:50:31,670 --> 00:50:30,079

sunroom and on the side of it

1114

00:50:33,910 --> 00:50:31,680

and so you need two doors but then i

1115

00:50:35,670 --> 00:50:33,920

suddenly realized that those other doors

1116

00:50:37,190 --> 00:50:35,680

are so small you're not going to be able

1117

00:50:39,109 --> 00:50:37,200

to get a couch or

1118

00:50:40,870 --> 00:50:39,119

you know anything big in and out of that

1119

00:50:43,270 --> 00:50:40,880

sunroom and that could be a problem

1120

00:50:45,349 --> 00:50:43,280

so i had to spend the day building a big

1121

00:50:47,990 --> 00:50:45,359

door out of glass

1122

00:50:50,230 --> 00:50:48,000

well out of old windows and just scraps

1123

00:50:52,390 --> 00:50:50,240

from the woodshed

1124

00:50:56,309 --> 00:50:52,400

this took all day because i'm not a

1125

00:50:58,950 --> 00:50:56,319

carpenter uh and you can tell

1126
00:51:00,950 --> 00:50:58,960
but it works and uh so these this thing

1127
00:51:02,309 --> 00:51:00,960
was built out of some old wood windows

1128
00:51:03,910 --> 00:51:02,319
that i had in the woodshed

1129
00:51:05,910 --> 00:51:03,920
i've been saving windows for a while

1130
00:51:09,030 --> 00:51:05,920
knowing that i'm gonna build a sun room

1131
00:51:10,069 --> 00:51:09,040
and uh just some scraps but that got me

1132
00:51:12,230 --> 00:51:10,079
over the obstacle

1133
00:51:14,230 --> 00:51:12,240
and then we get to the actual sunroom

1134
00:51:16,630 --> 00:51:14,240
part and uh

1135
00:51:18,470 --> 00:51:16,640
it's going pretty good it's starting to

1136
00:51:21,750 --> 00:51:18,480
uh look like

1137
00:51:23,190 --> 00:51:21,760
look like a sun room the door's going

1138
00:51:25,750 --> 00:51:23,200

here

1139

00:51:27,270 --> 00:51:25,760

um and you know i have to fill in the

1140

00:51:29,030 --> 00:51:27,280

rest with windows

1141

00:51:30,790 --> 00:51:29,040

and then we're putting the roof on we're

1142

00:51:32,309 --> 00:51:30,800

gonna leave the front open and

1143

00:51:34,230 --> 00:51:32,319

unfinished so that we'll be able to get

1144

00:51:35,670 --> 00:51:34,240

the roof beams and the materials for the

1145

00:51:38,790 --> 00:51:35,680

roof in and out of there and it's going

1146

00:51:42,150 --> 00:51:38,800

to have a clear corrugated plastic roof

1147

00:51:43,270 --> 00:51:42,160

which will enable uh it's going to be a

1148

00:51:48,230 --> 00:51:43,280

huge greenhouse

1149

00:51:52,790 --> 00:51:51,349

it's 10 by 24 which is good-sized

1150

00:51:57,270 --> 00:51:52,800

greenhouse

1151
00:52:00,309 --> 00:51:57,280
this should uh speaking of free energy

1152
00:52:02,630 --> 00:52:00,319
this is one of my free energy devices i

1153
00:52:04,549 --> 00:52:02,640
suppose this greenhouse because

1154
00:52:06,309 --> 00:52:04,559
the winners at the cabin are incredibly

1155
00:52:08,630 --> 00:52:06,319
harsh and cold

1156
00:52:10,230 --> 00:52:08,640
and you burn through a [h__\h] ton of

1157
00:52:14,309 --> 00:52:10,240
firewood

1158
00:52:18,230 --> 00:52:14,319
so uh the greenhouse is an

1159
00:52:20,630 --> 00:52:18,240
attempt at least to get some free

1160
00:52:22,390 --> 00:52:20,640
heat in the form of you know it's

1161
00:52:23,349 --> 00:52:22,400
basically going to be a solar oven in

1162
00:52:26,790 --> 00:52:23,359
there

1163
00:52:30,630 --> 00:52:26,800

and uh i'm not an early riser so i think

1164

00:52:32,630 --> 00:52:30,640

if i were to wake up at 10 or 11 or noon

1165

00:52:34,069 --> 00:52:32,640

by 10 or 11 or noon even in the middle

1166

00:52:35,910 --> 00:52:34,079

of the winter

1167

00:52:37,349 --> 00:52:35,920

it's going to be really warm in that

1168

00:52:39,990 --> 00:52:37,359

greenhouse uh

1169

00:52:41,510 --> 00:52:40,000

if we have a good sunny day especially

1170

00:52:43,510 --> 00:52:41,520

so then there'll be a door between the

1171

00:52:46,230 --> 00:52:43,520

cabin and the greenhouse

1172

00:52:48,470 --> 00:52:46,240

once i get up if it's really warm in

1173

00:52:53,109 --> 00:52:48,480

that greenhouse then i open the door

1174

00:52:55,349 --> 00:52:53,119

and we get the benefits of the free heat

1175

00:52:57,589 --> 00:52:55,359

oh an alien scientist is here shout out

1176

00:53:00,710 --> 00:52:57,599

to alien scientists good old victor

1177

00:53:02,470 --> 00:53:00,720

schauberger yeah i'd like to we should

1178

00:53:05,750 --> 00:53:02,480

have i should have had you on

1179

00:53:07,990 --> 00:53:05,760

so that you can explain if you could

1180

00:53:09,109 --> 00:53:08,000

how this thing's supposed to work

1181

00:53:12,309 --> 00:53:09,119

because i don't get it

1182

00:53:12,950 --> 00:53:12,319

i just don't get it uh and you're a

1183

00:53:15,829 --> 00:53:12,960

physicist

1184

00:53:16,309 --> 00:53:15,839

you're smarter guy than me i think that

1185

00:53:19,349 --> 00:53:16,319

maybe

1186

00:53:22,150 --> 00:53:19,359

if this is a good concept that should or

1187

00:53:25,190 --> 00:53:22,160

could work you would know better than me

1188

00:53:26,230 --> 00:53:25,200

from what i've seen no it's just some

1189

00:53:29,190 --> 00:53:26,240

kind of idea

1190

00:53:29,589 --> 00:53:29,200

that it's like an unfinished prototype

1191

00:53:32,150 --> 00:53:29,599

that

1192

00:53:34,069 --> 00:53:32,160

never made it to the proof of concept or

1193

00:53:36,309 --> 00:53:34,079

working stage

1194

00:53:38,470 --> 00:53:36,319

and i gotta say in his defense i've got

1195

00:53:41,430 --> 00:53:38,480

five things that i tried to invent that

1196

00:53:44,630 --> 00:53:41,440

are still in a box in a garage somewhere

1197

00:53:46,710 --> 00:53:44,640

in my garage that i didn't get to the

1198

00:53:47,430 --> 00:53:46,720

working stage but were fascinating to

1199

00:53:58,870 --> 00:53:47,440

work on

1200

00:54:03,109 --> 00:54:01,109

jiggy covered coral castle yeah jiggy

1201
00:54:04,870 --> 00:54:03,119
and smoke king covered coral castle and

1202
00:54:06,230 --> 00:54:04,880
and basically debunked that it was

1203
00:54:08,630 --> 00:54:06,240
anything supernatural

1204
00:54:09,270 --> 00:54:08,640
because a lot of new age type goes

1205
00:54:15,910 --> 00:54:09,280
around

1206
00:54:17,589 --> 00:54:15,920
claim that this guy who built coral

1207
00:54:19,589 --> 00:54:17,599
castle had some kind of sonic

1208
00:54:21,589 --> 00:54:19,599
device that could lift heavy things and

1209
00:54:23,589 --> 00:54:21,599
make things levitate

1210
00:54:25,109 --> 00:54:23,599
and there's no proof of that so jiggy

1211
00:54:27,030 --> 00:54:25,119
and smoking did a good job

1212
00:54:29,910 --> 00:54:27,040
showing exactly how he built coral

1213
00:54:33,589 --> 00:54:31,589

yeah alien scientist that will cook

1214

00:54:35,990 --> 00:54:33,599

stove is amazing well

1215

00:54:38,150 --> 00:54:36,000

when you come and visit alien scientists

1216

00:54:40,870 --> 00:54:38,160

i will make sure that we have plenty of

1217

00:54:42,549 --> 00:54:40,880

pizza making materials or just some

1218

00:54:43,190 --> 00:54:42,559

frozen pizzas that's what i did last

1219

00:54:47,190 --> 00:54:43,200

weekend

1220

00:54:49,829 --> 00:54:47,200

and i gotta say uh they were delicious

1221

00:54:51,270 --> 00:54:49,839

i was so happy to be baking pizza while

1222

00:54:53,349 --> 00:54:51,280

i was heating the cabin

1223

00:54:55,349 --> 00:54:53,359

see the thing is this thing is all about

1224

00:54:56,390 --> 00:54:55,359

energy efficiency that would cook stove

1225

00:54:59,190 --> 00:54:56,400

because

1226
00:55:00,470 --> 00:54:59,200
you're already burning that wood to heat

1227
00:55:03,030 --> 00:55:00,480
the cabin

1228
00:55:03,829 --> 00:55:03,040
so it's very energy efficient to say i'm

1229
00:55:05,270 --> 00:55:03,839
also gonna

1230
00:55:06,630 --> 00:55:05,280
cook my dinner on and i'm going to cook

1231
00:55:08,630 --> 00:55:06,640
my breakfast on i'm going to cook my

1232
00:55:11,190 --> 00:55:08,640
lunch on and i'm going to boil my water

1233
00:55:13,670 --> 00:55:11,200
on it or i'm going to heat my bath water

1234
00:55:14,309 --> 00:55:13,680
i still have to do that i have a shower

1235
00:55:16,630 --> 00:55:14,319
stall

1236
00:55:18,710 --> 00:55:16,640
but we don't have a means of hot water

1237
00:55:21,589 --> 00:55:18,720
at least not a modern one

1238
00:55:23,589 --> 00:55:21,599

so i do it the amish way and i put a

1239

00:55:24,549 --> 00:55:23,599

huge 10 gallon pot on the top of the

1240

00:55:28,549 --> 00:55:24,559

wood stove

1241

00:55:31,910 --> 00:55:28,559

and it heats the water for me it's great

1242

00:55:32,470 --> 00:55:31,920

and you know then i take that pot into

1243

00:55:34,150 --> 00:55:32,480

the

1244

00:55:38,470 --> 00:55:34,160

shower stall and we have this sort of

1245

00:55:42,870 --> 00:55:41,030

everything uh there works pretty slow

1246

00:55:43,990 --> 00:55:42,880

and yeah please support alien scientists

1247

00:55:46,870 --> 00:55:44,000

youtube channel

1248

00:55:48,870 --> 00:55:46,880

i really like watching him ever i don't

1249

00:55:50,230 --> 00:55:48,880

get a chance to watch him as much as i'd

1250

00:55:51,910 --> 00:55:50,240

like but every once in a while when i

1251
00:55:52,470 --> 00:55:51,920
have time i catch up to what he's been

1252
00:55:55,670 --> 00:55:52,480
doing

1253
00:56:00,230 --> 00:55:55,680
and he's working on his own ideas

1254
00:56:01,510 --> 00:56:00,240
about uh let's just say anti-gravity

1255
00:56:09,190 --> 00:56:01,520
free energy

1256
00:56:13,589 --> 00:56:11,190
make a steam engine on the stove power

1257
00:56:23,109 --> 00:56:13,599
fan or something

1258
00:56:27,670 --> 00:56:25,030
i have a small wood stove in the box in

1259
00:56:29,990 --> 00:56:27,680
my shed from when my uncle died in 2001.

1260
00:56:31,750 --> 00:56:30,000
yeah they're good things to have i i

1261
00:56:33,589 --> 00:56:31,760
highly advise you to hook it up

1262
00:56:35,589 --> 00:56:33,599
you're gonna like it you know it's not

1263
00:56:38,230 --> 00:56:35,599

real hard you get some stove pipe you

1264

00:56:39,109 --> 00:56:38,240

break a hole in the wall get some elbows

1265

00:56:43,349 --> 00:56:39,119

you know

1266

00:56:45,030 --> 00:56:43,359

a flange i'm very lucky in that

1267

00:56:46,549 --> 00:56:45,040

i have a neighbor and i want to thank

1268

00:56:48,950 --> 00:56:46,559

him if he's listening

1269

00:56:50,390 --> 00:56:48,960

matt i have a neighbor at the cabin this

1270

00:56:54,309 --> 00:56:50,400

guy is just

1271

00:56:56,230 --> 00:56:54,319

i lucked out um i didn't know it when i

1272

00:56:59,430 --> 00:56:56,240

bought that cabin land and

1273

00:57:01,750 --> 00:56:59,440

uh started on this huge project but

1274

00:57:03,430 --> 00:57:01,760

right literally my closest neighbor

1275

00:57:05,109 --> 00:57:03,440

right across the street from me is this

1276

00:57:08,150 --> 00:57:05,119

amazing guy named matt

1277

00:57:11,589 --> 00:57:08,160

who uh can build anything he can

1278

00:57:14,069 --> 00:57:11,599

fix anything he's amazing

1279

00:57:16,309 --> 00:57:14,079

and uh so he has come and helped me at

1280

00:57:19,109 --> 00:57:16,319

various times with stuff like this

1281

00:57:20,630 --> 00:57:19,119

and he's putting a ton of wood stoves

1282

00:57:22,309 --> 00:57:20,640

and

1283

00:57:24,789 --> 00:57:22,319

considering it's something that goes on

1284

00:57:27,510 --> 00:57:24,799

fire you know

1285

00:57:29,270 --> 00:57:27,520

i do not feel confident in my abilities

1286

00:57:31,670 --> 00:57:29,280

to hook these things up

1287

00:57:33,510 --> 00:57:31,680

uh correctly i want to you know it's

1288

00:57:33,829 --> 00:57:33,520

important to me that that thing's hooked

1289

00:57:35,829 --> 00:57:33,839

up

1290

00:57:38,150 --> 00:57:35,839

the right way and isn't going to burn

1291

00:57:39,990 --> 00:57:38,160

the cabin down or anything so he

1292

00:57:42,470 --> 00:57:40,000

came over and helped me switch out the

1293

00:57:44,630 --> 00:57:42,480

old wood stove with a new wood stove

1294

00:57:45,990 --> 00:57:44,640

he's like macgyver too like if there's a

1295

00:57:49,109 --> 00:57:46,000

way to make it work he'll

1296

00:57:50,150 --> 00:57:49,119

figure it out and so and also he put the

1297

00:57:53,190 --> 00:57:50,160

roof on the

1298

00:57:55,910 --> 00:57:53,200

living room really i just i helped

1299

00:57:57,030 --> 00:57:55,920

uh he's a real carpenter he builds decks

1300

00:58:00,789 --> 00:57:57,040

uh for a living

1301
00:58:04,069 --> 00:58:00,799
you know he builds like decks and uh

1302
00:58:06,150 --> 00:58:04,079
i don't know he works at a at another

1303
00:58:07,109 --> 00:58:06,160
sort of resort community nearby the

1304
00:58:09,829 --> 00:58:07,119
cabin as

1305
00:58:11,829 --> 00:58:09,839
sort of general fix-it guy and so he'll

1306
00:58:12,950 --> 00:58:11,839
hook up people's propane stoves or

1307
00:58:15,270 --> 00:58:12,960
whatever

1308
00:58:17,349 --> 00:58:15,280
and build decks and you know but the

1309
00:58:17,670 --> 00:58:17,359
guy's just amazing so thanks to him he

1310
00:58:19,829 --> 00:58:17,680
came

1311
00:58:25,990 --> 00:58:19,839
over and got that thing working and i

1312
00:58:28,870 --> 00:58:27,510
if you use that stove as a hot water

1313
00:58:30,470 --> 00:58:28,880

tank it will rust badly you need to

1314

00:58:31,589 --> 00:58:30,480

separate hot water tank and a heat

1315

00:58:34,230 --> 00:58:31,599

exchanger

1316

00:58:35,670 --> 00:58:34,240

you're probably right an alien scientist

1317

00:58:38,309 --> 00:58:35,680

what i have plans to do

1318

00:58:39,589 --> 00:58:38,319

is there's space between the wall and

1319

00:58:41,349 --> 00:58:39,599

the back of the wood stove there's

1320

00:58:41,910 --> 00:58:41,359

plenty of space so i'm gonna see if i

1321

00:58:44,870 --> 00:58:41,920

can't get

1322

00:58:46,789 --> 00:58:44,880

a metal box made that goes on the back

1323

00:58:47,829 --> 00:58:46,799

of the wood stove that box on the side

1324

00:58:50,230 --> 00:58:47,839

of the wood stove is

1325

00:58:51,670 --> 00:58:50,240

probably a warmer because i don't think

1326

00:58:52,710 --> 00:58:51,680

that that enough heat is going to go

1327

00:58:54,069 --> 00:58:52,720

over there

1328

00:58:55,510 --> 00:58:54,079

when i saw it though i thought well we

1329

00:58:56,950 --> 00:58:55,520

could just drill a hole in that and put

1330

00:58:58,390 --> 00:58:56,960

a spigot on it and that could be a hot

1331

00:58:59,910 --> 00:58:58,400

water tank but i don't think it's going

1332

00:59:04,069 --> 00:58:59,920

to work that well

1333

00:59:06,470 --> 00:59:04,079

so my other plan is to get a metal box

1334

00:59:08,470 --> 00:59:06,480

sort of made and then weld it onto the

1335

00:59:10,069 --> 00:59:08,480

back of the wood stove that's what a lot

1336

00:59:12,470 --> 00:59:10,079

of people do

1337

00:59:13,990 --> 00:59:12,480

and some wood stoves like kitchen queens

1338

00:59:15,510 --> 00:59:14,000

come with that metal box

1339

00:59:17,109 --> 00:59:15,520

already on the back of the wood stove

1340

00:59:17,990 --> 00:59:17,119

this one doesn't have it and then you

1341

00:59:19,910 --> 00:59:18,000

put a spigot on

1342

00:59:22,950 --> 00:59:19,920

it you can even run plumbing to it like

1343

00:59:24,950 --> 00:59:22,960

over to the sink if you want

1344

00:59:28,950 --> 00:59:24,960

there's a lot of options with this thing

1345

00:59:31,990 --> 00:59:30,870

yes alien scientist builds custom

1346

00:59:34,069 --> 00:59:32,000

showers for

1347

00:59:36,549 --> 00:59:34,079

my day job and i gotta tell you uh

1348

00:59:38,470 --> 00:59:36,559

jeremy i gotta not i once in a while i

1349

00:59:40,069 --> 00:59:38,480

see some job that he did and i go wow

1350

00:59:42,390 --> 00:59:40,079

look at this time work is [h__h]

1351

00:59:44,309 --> 00:59:42,400

beautiful he does amazing work

1352

00:59:46,230 --> 00:59:44,319

and once a while i want to show my wife

1353

00:59:46,950 --> 00:59:46,240

like a bathroom that he did but i don't

1354

00:59:48,950 --> 00:59:46,960

want to do that

1355

00:59:50,390 --> 00:59:48,960

because then she's going to want some

1356

00:59:51,270 --> 00:59:50,400

she's going to want me to get you over

1357

00:59:56,470 --> 00:59:51,280

here man

1358

01:00:00,309 --> 00:59:58,470

yeah cast iron will rust probably a

1359

01:00:01,270 --> 01:00:00,319

steel box on the back of that thing i

1360

01:00:03,750 --> 01:00:01,280

don't know i don't know

1361

01:00:05,750 --> 01:00:03,760

anything about this this is just an idea

1362

01:00:09,190 --> 01:00:05,760

for nail i'm content with putting a big

1363

01:00:11,510 --> 01:00:09,200

10 gallon pot on the top of it i rarely

1364

01:00:14,390 --> 01:00:11,520

i got so used to cooking one

1365

01:00:16,630 --> 01:00:14,400

skillet meals or one pot meals because

1366

01:00:18,470 --> 01:00:16,640

the old wood stove was just this little

1367

01:00:19,750 --> 01:00:18,480

almost shoebox thing and you can only

1368

01:00:22,470 --> 01:00:19,760

put one pan or

1369

01:00:24,069 --> 01:00:22,480

pour frying pan or pot on top of it so i

1370

01:00:26,309 --> 01:00:24,079

got used to cooking one skill at

1371

01:00:28,549 --> 01:00:26,319

everything

1372

01:00:30,390 --> 01:00:28,559

one you know one pan meals so i doubt

1373

01:00:31,190 --> 01:00:30,400

i'll be using four burners at once and

1374

01:00:33,109 --> 01:00:31,200

putting that big

1375

01:00:34,309 --> 01:00:33,119

10 gallon pot up there just takes up one

1376

01:00:35,990 --> 01:00:34,319

burner so

1377

01:00:37,910 --> 01:00:36,000

i still have three burners left to cook

1378

01:00:39,190 --> 01:00:37,920

on while it's heating the water and

1379

01:00:43,270 --> 01:00:39,200

heating the cabin

1380

01:00:45,589 --> 01:00:43,280

and maybe baking a pie

1381

01:00:46,789 --> 01:00:45,599

yeah i'm i for some reason i have a

1382

01:00:48,390 --> 01:00:46,799

feeling that there's going to be a lot

1383

01:00:49,990 --> 01:00:48,400

of baking in my future i'm already

1384

01:00:53,990 --> 01:00:50,000

looking at pizza

1385

01:00:56,069 --> 01:00:54,000

pizza crust recipes and bread recipes i

1386

01:00:58,069 --> 01:00:56,079

used to make french paquettes

1387

01:00:59,349 --> 01:00:58,079

that's probably my favorite bread i'm

1388

01:01:00,390 --> 01:00:59,359

going to try making some of that at the

1389

01:01:01,670 --> 01:01:00,400

cabin

1390

01:01:03,270 --> 01:01:01,680

it's just great because that thing's

1391

01:01:04,789 --> 01:01:03,280

already going you might as well use the

1392

01:01:13,589 --> 01:01:04,799

oven while it's on

1393

01:01:16,470 --> 01:01:14,950

that's what's missing in today's heat

1394

01:01:17,990 --> 01:01:16,480

they used to have boilers and radiant

1395

01:01:19,109 --> 01:01:18,000

heat and those old homes kept the

1396

01:01:22,230 --> 01:01:19,119

humidity up

1397

01:01:23,190 --> 01:01:22,240

yeah i have to put a uh i normally keep

1398

01:01:25,670 --> 01:01:23,200

a pot

1399

01:01:26,630 --> 01:01:25,680

of water on that wood stove just because

1400

01:01:30,630 --> 01:01:26,640

things it

1401

01:01:35,670 --> 01:01:30,640

yeah it it gets dry if you don't do that

1402

01:01:39,829 --> 01:01:38,230

be careful what you wish for jeremy i'll

1403

01:01:41,190 --> 01:01:39,839

come down for a week and redo your

1404

01:01:43,030 --> 01:01:41,200

bathroom

1405

01:01:44,390 --> 01:01:43,040

you know my wife would probably like

1406

01:01:46,470 --> 01:01:44,400

that we have one

1407

01:01:48,230 --> 01:01:46,480

bathroom here her bathroom that's pretty

1408

01:01:50,069 --> 01:01:48,240

it's like they just

1409

01:01:51,910 --> 01:01:50,079

redid it a year or two before we moved

1410

01:01:52,630 --> 01:01:51,920

in here it's really nice but the other

1411

01:01:55,349 --> 01:01:52,640

one

1412

01:01:56,870 --> 01:01:55,359

it's like from the 1970s you know it's

1413

01:01:59,190 --> 01:01:56,880

really dated

1414

01:02:02,150 --> 01:01:59,200

um i'm going to try putting a floor in

1415

01:02:09,029 --> 01:02:02,160

that in the next few weeks i hope

1416

01:02:12,470 --> 01:02:11,109

the people who use jeremy's shower start

1417

01:02:15,510 --> 01:02:12,480

floating into space

1418

01:02:17,430 --> 01:02:15,520

that's like the bonus you get extra and

1419

01:02:19,190 --> 01:02:17,440

i you know what's funny is like

1420

01:02:21,270 --> 01:02:19,200

sometimes i think about him working on

1421

01:02:22,789 --> 01:02:21,280

somebody's bathroom and i can tell from

1422

01:02:23,750 --> 01:02:22,799

some of the bathrooms like he works for

1423

01:02:26,390 --> 01:02:23,760

some pretty

1424

01:02:28,950 --> 01:02:26,400

wealthy people and i wonder if they ever

1425

01:02:31,670 --> 01:02:28,960

realize that he's the alien scientist

1426

01:02:32,710 --> 01:02:31,680

you know like besides being this amazing

1427

01:02:36,309 --> 01:02:32,720

tile guy

1428

01:02:40,390 --> 01:02:38,309

when i had corporate day jobs i didn't

1429

01:02:43,430 --> 01:02:40,400

let them know that i did magic shows

1430

01:02:45,510 --> 01:02:43,440

because then you become like the freak

1431

01:02:47,190 --> 01:02:45,520

but once in a while somebody found out

1432

01:02:51,510 --> 01:02:47,200

and right about then is usually time to

1433

01:02:55,270 --> 01:02:53,270

alien scientist is going to help advise

1434

01:02:56,230 --> 01:02:55,280

me on my bathroom floor you know what i

1435

01:02:59,349 --> 01:02:56,240

think i'm doing

1436

01:03:01,270 --> 01:02:59,359

i did a vinyl gradable floor in my

1437

01:03:01,990 --> 01:03:01,280

kitchen in my old house and it held up

1438

01:03:04,069 --> 01:03:02,000

for like 12

1439

01:03:05,190 --> 01:03:04,079

years beautifully and i already know how

1440

01:03:07,510 --> 01:03:05,200

to do that

1441

01:03:08,390 --> 01:03:07,520

i don't have a tile cutter and my wife

1442

01:03:11,190 --> 01:03:08,400

doesn't like

1443

01:03:13,430 --> 01:03:11,200

hard tile she's always for some reason a

1444

01:03:15,430 --> 01:03:13,440

child can fall on a vinyl floor and be

1445

01:03:17,109 --> 01:03:15,440

fine but if you put a hard tile down

1446

01:03:18,870 --> 01:03:17,119

they'll break their head and die

1447

01:03:20,630 --> 01:03:18,880

so she doesn't want hard tile on the

1448

01:03:27,990 --> 01:03:20,640

floor i'm probably going to do vinyl

1449

01:03:32,789 --> 01:03:29,829

i told the customer once because his dad

1450

01:03:35,029 --> 01:03:32,799

was a physicist probably a mistake

1451

01:03:35,990 --> 01:03:35,039

yeah well just get the check before you

1452

01:03:41,589 --> 01:03:36,000

let them know

1453

01:03:44,789 --> 01:03:43,349

yeah friends so we're gonna do this

1454

01:03:47,109 --> 01:03:44,799

whole series on

1455

01:03:49,270 --> 01:03:47,119

anti-gravity devices or claimed

1456

01:03:50,230 --> 01:03:49,280

anti-gravity devices and claims free

1457

01:03:53,349 --> 01:03:50,240

energy devices

1458

01:03:54,710 --> 01:03:53,359

william pixley mentioned mr newman we're

1459

01:03:56,470 --> 01:03:54,720

going to be covering him we're probably

1460

01:03:59,510 --> 01:03:56,480

going to do an episode on

1461

01:04:02,789 --> 01:03:59,520

mr hutchinson and the hutchinson effect

1462

01:04:05,670 --> 01:04:02,799

and a few others jon searle

1463

01:04:05,910 --> 01:04:05,680

and a few other famous people that sort

1464

01:04:08,470 --> 01:04:05,920

of

1465

01:04:11,750 --> 01:04:08,480

made these amazing claims about having

1466

01:04:14,390 --> 01:04:11,760

free energy and ufo propulsion devices

1467

01:04:15,670 --> 01:04:14,400

and we'll see you know we'll see if

1468

01:04:22,470 --> 01:04:15,680

there is something

1469

01:04:25,589 --> 01:04:24,150

is there any propulsion systems that you

1470

01:04:28,309 --> 01:04:25,599

feel nobody covers but

1471

01:04:29,829 --> 01:04:28,319

actually seems workable well the aurora

1472

01:04:33,829 --> 01:04:29,839

is said to use some kind of

1473

01:04:35,510 --> 01:04:33,839

pulsed methane engine uh

1474

01:04:36,870 --> 01:04:35,520

i don't know if there's anything to that

1475

01:04:40,789 --> 01:04:36,880

but the science

1476

01:04:44,150 --> 01:04:40,799

when i heard somebody explain how the uh

1477

01:04:45,829 --> 01:04:44,160

how the aurora project propulsion system

1478

01:04:47,750 --> 01:04:45,839

is supposed to work

1479

01:04:49,029 --> 01:04:47,760

the science behind that sounded

1480

01:04:54,069 --> 01:04:49,039

plausible at least

1481

01:04:55,589 --> 01:04:54,079

so i think there's something to um i

1482

01:04:57,430 --> 01:04:55,599

can't remember the term for it maybe

1483

01:05:00,950 --> 01:04:57,440

jeremy can remind me

1484

01:05:02,069 --> 01:05:00,960

um it's some kind of pulse ramjet maybe

1485

01:05:08,230 --> 01:05:02,079

ramjet

1486

01:05:12,309 --> 01:05:08,240

i believe i got that right

1487

01:05:15,430 --> 01:05:12,319

that's a mouthful uh and uh

1488

01:05:18,230 --> 01:05:15,440

i like the uh i

1489

01:05:20,470 --> 01:05:18,240

i followed for lifters for a time you

1490

01:05:22,710 --> 01:05:20,480

could just look up lifters on ufo or

1491

01:05:24,069 --> 01:05:22,720

excuse me on youtube and you'll find a

1492

01:05:25,990 --> 01:05:24,079

ton of those but the problem with

1493

01:05:28,230 --> 01:05:26,000

lifters is that you need this super high

1494

01:05:31,190 --> 01:05:28,240

power

1495

01:05:33,270 --> 01:05:31,200

energy system and then you can only make

1496

01:05:34,150 --> 01:05:33,280

this little model that the power system

1497

01:05:35,990 --> 01:05:34,160

can't

1498

01:05:38,230 --> 01:05:36,000

also lift does that make sense so you

1499

01:05:39,829 --> 01:05:38,240

got this little device with like wires

1500

01:05:41,589 --> 01:05:39,839

going to it

1501

01:05:42,950 --> 01:05:41,599

usually they're like triangles or

1502

01:05:45,750 --> 01:05:42,960

whatever

1503

01:05:46,789 --> 01:05:45,760

and you got two wires going to it so

1504

01:05:50,710 --> 01:05:46,799

yeah it can

1505

01:05:54,390 --> 01:05:50,720

it's it can float and fly will float

1506

01:05:56,950 --> 01:05:54,400

but the the energy system that you need

1507

01:05:58,069 --> 01:05:56,960

would never also float on it so it's

1508

01:06:02,829 --> 01:05:58,079

kind of like

1509

01:06:02,839 --> 01:06:08,150

think

1510

01:06:11,190 --> 01:06:09,670

recently had a customer worked for the

1511

01:06:13,029 --> 01:06:11,200

defense department and his roommate was

1512

01:06:14,950 --> 01:06:13,039

telling me about his security clearances

1513

01:06:17,510 --> 01:06:14,960

and whatnot decided it was better not to

1514

01:06:21,670 --> 01:06:19,829

yeah prob sometimes it's better not to

1515

01:06:23,910 --> 01:06:21,680

mention i just didn't want people that i

1516

01:06:28,069 --> 01:06:23,920

worked with knowing because

1517

01:06:30,470 --> 01:06:28,079

corporations are strange like i even had

1518

01:06:34,390 --> 01:06:30,480

i worked for a very famous philadelphia

1519

01:06:38,870 --> 01:06:37,349

i'm not going to name them i had to

1520

01:06:40,789 --> 01:06:38,880

think about it should i name them no

1521

01:06:42,789 --> 01:06:40,799

probably not

1522

01:06:45,270 --> 01:06:42,799

and i didn't realize it but i signed an

1523

01:06:47,589 --> 01:06:45,280

employment contract that said

1524

01:06:48,390 --> 01:06:47,599

that i could not have any outside

1525

01:06:49,910 --> 01:06:48,400

employment

1526

01:06:51,510 --> 01:06:49,920

i could not work as a consultant

1527

01:06:54,950 --> 01:06:51,520

anywhere or have

1528

01:06:57,510 --> 01:06:54,960

any additional jobs in other words

1529

01:07:00,069 --> 01:06:57,520

if i worked for them i wasn't allowed to

1530

01:07:00,950 --> 01:07:00,079

work anywhere else in any capacity i

1531

01:07:04,870 --> 01:07:00,960

couldn't

1532

01:07:06,230 --> 01:07:04,880

drive uber

1533

01:07:08,470 --> 01:07:06,240

well back then we didn't that there

1534

01:07:09,109 --> 01:07:08,480

wasn't even uber but the point is that

1535

01:07:12,309 --> 01:07:09,119

you don't

1536

01:07:13,430 --> 01:07:12,319

they're going to react to you

1537

01:07:15,270 --> 01:07:13,440

and i don't believe that they have a

1538

01:07:15,670 --> 01:07:15,280

right to tell you what to do on your own

1539

01:07:18,390 --> 01:07:15,680

time

1540

01:07:19,910 --> 01:07:18,400

so i just kept it to myself that i was i

1541

01:07:21,190 --> 01:07:19,920

was literally while i was working there

1542

01:07:23,829 --> 01:07:21,200

i was doing shows like

1543

01:07:24,630 --> 01:07:23,839

in other cities all over the east coast

1544

01:07:29,349 --> 01:07:24,640

really

1545

01:07:33,190 --> 01:07:31,670

and they had no idea what i was doing

1546

01:07:35,029 --> 01:07:33,200

and then i was kind of getting nervous

1547

01:07:37,589 --> 01:07:35,039

because like i was on television on

1548

01:07:39,029 --> 01:07:37,599

these local tv stations like i went and

1549

01:07:43,029 --> 01:07:39,039

did one in rhode island

1550

01:07:44,710 --> 01:07:43,039

like like a you know like a local

1551

01:07:46,870 --> 01:07:44,720

saturday afternoon or something

1552

01:07:48,549 --> 01:07:46,880

television show and i did magic and i

1553

01:07:50,230 --> 01:07:48,559

went oh my god like

1554

01:07:51,750 --> 01:07:50,240

i gotta watch it because somebody might

1555

01:07:54,789 --> 01:07:51,760

see this that i work with and i

1556

01:07:57,750 --> 01:07:54,799

i could literally get fired for doing

1557

01:07:58,390 --> 01:07:57,760

a job outside of my corporate slave

1558

01:08:01,829 --> 01:07:58,400

owners

1559

01:08:03,190 --> 01:08:01,839

kind of thing you know brett gray says

1560

01:08:04,549 --> 01:08:03,200

great show the other night alien

1561

01:08:06,309 --> 01:08:04,559

scientist i'm going to have to catch up

1562

01:08:09,589 --> 01:08:06,319

on that

1563

01:08:10,870 --> 01:08:09,599

oh yeah nda or was that additional uh

1564

01:08:12,950 --> 01:08:10,880

yeah i had

1565

01:08:13,910 --> 01:08:12,960

i had an nda for that job too so they

1566

01:08:17,349 --> 01:08:13,920

owned me

1567

01:08:18,709 --> 01:08:17,359

not only did i wasn't in their ndi i

1568

01:08:23,990 --> 01:08:18,719

wasn't allowed to speak to

1569

01:08:26,550 --> 01:08:24,000

anyone they had a

1570

01:08:27,110 --> 01:08:26,560

i think they had sort of a pathological

1571

01:08:29,269 --> 01:08:27,120

fear

1572

01:08:30,229 --> 01:08:29,279

of somebody selling the customer list to

1573

01:08:33,189 --> 01:08:30,239

a competitor

1574

01:08:35,030 --> 01:08:33,199

so the hr i remember they talked to me

1575

01:08:36,149 --> 01:08:35,040

when i got hired about like here's the

1576

01:08:37,990 --> 01:08:36,159

nda

1577

01:08:40,070 --> 01:08:38,000

and you need to be sure that you never

1578

01:08:41,749 --> 01:08:40,080

share company documents especially

1579

01:08:43,749 --> 01:08:41,759

customer lists or anything like that

1580

01:08:45,510 --> 01:08:43,759

with anyone especially competitors

1581

01:08:47,829 --> 01:08:45,520

you'll be fired instantly

1582

01:08:49,510 --> 01:08:47,839

you'll be prosecuted for you know theft

1583

01:08:53,590 --> 01:08:49,520

of trade secrets and all this stuff

1584

01:08:56,309 --> 01:08:53,600

it was really oppressive and uh

1585

01:08:57,910 --> 01:08:56,319

you know that's how some companies and

1586

01:09:01,030 --> 01:08:57,920

corporations are though they

1587

01:09:02,470 --> 01:09:01,040

they kind of own you and uh especially

1588

01:09:03,349 --> 01:09:02,480

working in corporate america i think

1589

01:09:05,269 --> 01:09:03,359

it's better

1590

01:09:06,709 --> 01:09:05,279

really that they they should know

1591

01:09:08,470 --> 01:09:06,719

nothing about what you do outside of

1592

01:09:09,990 --> 01:09:08,480

work and i was always quiet about what i

1593

01:09:11,590 --> 01:09:10,000

did outside of work what are you doing

1594

01:09:12,309 --> 01:09:11,600

this weekend oh nothing i'm gonna watch

1595

01:09:15,430 --> 01:09:12,319

the movies

1596

01:09:17,030 --> 01:09:15,440

and meanwhile i was doing a stage magic

1597

01:09:19,510 --> 01:09:17,040

show at like

1598

01:09:20,390 --> 01:09:19,520

the manhattan arts center right in

1599

01:09:23,510 --> 01:09:20,400

manhattan

1600

01:09:25,910 --> 01:09:23,520

that weekend you know so clearly

1601
01:09:27,510 --> 01:09:25,920
there's double life you know but i kind

1602
01:09:28,870 --> 01:09:27,520
of felt like that was my clark kent and

1603
01:09:31,189 --> 01:09:28,880
they didn't have a right to know about

1604
01:09:33,269 --> 01:09:31,199
my superman unless they had to

1605
01:09:43,910 --> 01:09:33,279
and and plus they could fire me for

1606
01:09:48,070 --> 01:09:47,430
my wife's my boss's wife super into

1607
01:09:49,430 --> 01:09:48,080
conspiracy

1608
01:09:51,269 --> 01:09:49,440
she always asked me about what i think

1609
01:09:53,669 --> 01:09:51,279
about different topics

1610
01:09:55,030 --> 01:09:53,679
that's interesting my wife is zero into

1611
01:09:56,790 --> 01:09:55,040
all of this stuff but every once in a

1612
01:09:57,669 --> 01:09:56,800
while she'll send me a strange story or

1613
01:10:00,630 --> 01:09:57,679

something

1614

01:10:02,229 --> 01:10:00,640

like i guess especially if it's

1615

01:10:04,390 --> 01:10:02,239

something that she thinks i can make a

1616

01:10:07,830 --> 01:10:04,400

show topic out of lately or something

1617

01:10:11,270 --> 01:10:09,669

so friends we're going to continue in

1618

01:10:13,750 --> 01:10:11,280

our coverage of this

1619

01:10:15,430 --> 01:10:13,760

strange world of anti-gravity devices

1620

01:10:16,630 --> 01:10:15,440

and free energy devices

1621

01:10:18,870 --> 01:10:16,640

and we're just going to kind of see

1622

01:10:19,430 --> 01:10:18,880

where it goes if there's interest we'll

1623

01:10:24,790 --> 01:10:19,440

do

1624

01:10:26,870 --> 01:10:24,800

but we're going to be getting back to

1625

01:10:29,910 --> 01:10:26,880

some other things

1626

01:10:32,310 --> 01:10:29,920

oh i forgot we have that poll about

1627

01:10:35,510 --> 01:10:32,320

whether i should cover

1628

01:10:38,790 --> 01:10:35,520

a certain astro not fake

1629

01:10:39,669 --> 01:10:38,800

secret space program guy and it was

1630

01:10:42,229 --> 01:10:39,679

something like

1631

01:10:43,030 --> 01:10:42,239

i think i lost that gamble because i

1632

01:10:44,470 --> 01:10:43,040

thought

1633

01:10:47,030 --> 01:10:44,480

everybody keeps asking me to cover this

1634

01:10:48,630 --> 01:10:47,040

clown and i said well look i'll put it

1635

01:10:50,709 --> 01:10:48,640

in a twitter poll if people really want

1636

01:10:51,189 --> 01:10:50,719

me to i'll go back and cover them but if

1637

01:10:54,149 --> 01:10:51,199

not

1638

01:10:56,070 --> 01:10:54,159

i get out of it you know i don't have to

1639

01:10:58,390 --> 01:10:56,080

deal with that guy anymore

1640

01:11:00,950 --> 01:10:58,400

and uh of course everybody wants me to

1641

01:11:05,189 --> 01:11:00,960

cover it so uh

1642

01:11:06,390 --> 01:11:05,199

i have a uh i guess a monologue about

1643

01:11:08,390 --> 01:11:06,400

covering him

1644

01:11:09,990 --> 01:11:08,400

that i think covers some important

1645

01:11:12,709 --> 01:11:10,000

subjects that we need to cover

1646

01:11:14,790 --> 01:11:12,719

if we're gonna cover him and and people

1647

01:11:18,070 --> 01:11:14,800

know why

1648

01:11:19,990 --> 01:11:18,080

you know people should be allowed

1649

01:11:22,070 --> 01:11:20,000

to critique people who tell crazy

1650

01:11:24,470 --> 01:11:22,080

stories about you know visiting the moon

1651
01:11:25,750 --> 01:11:24,480
and battling reptilian aliens and time

1652
01:11:27,270 --> 01:11:25,760
traveling

1653
01:11:29,030 --> 01:11:27,280
if somebody's going on the internet and

1654
01:11:29,590 --> 01:11:29,040
saying that that really happened to them

1655
01:11:30,950 --> 01:11:29,600
then

1656
01:11:32,870 --> 01:11:30,960
you know i'm allowed to go on the

1657
01:11:35,510 --> 01:11:32,880
internet and make fun of that clown

1658
01:11:37,430 --> 01:11:35,520
and uh sort of analyze why he's lying

1659
01:11:40,310 --> 01:11:37,440
about all this [h__h]

1660
01:11:41,590 --> 01:11:40,320
without fear of uh legal repercussions

1661
01:11:44,709 --> 01:11:41,600
this is america where

1662
01:11:46,630 --> 01:11:44,719
we have you know freedom of speech here

1663
01:11:49,270 --> 01:11:46,640

and uh he thinks he should be able to

1664

01:11:51,030 --> 01:11:49,280

just spew all the [h__h] and the

1665

01:11:52,390 --> 01:11:51,040

internet he wants and nobody's allowed

1666

01:11:55,189 --> 01:11:52,400

to say that his fake

1667

01:11:57,270 --> 01:11:55,199

1671

01:12:15,120 --> 01:12:19,189

rick schalberger is an interesting guy

1672

01:12:23,830 --> 01:12:21,270

genocide says my niece worked for boeing

1673

01:12:25,189 --> 01:12:23,840

as an engineer and she said anti-gravity

1674

01:12:26,870 --> 01:12:25,199

is really interesting

1675

01:12:30,390 --> 01:12:26,880

i betcha boeing has done a bunch of

1676

01:12:38,950 --> 01:12:35,189

jeanette krazenko anything new about

1677

01:12:40,870 --> 01:12:38,960

fft i'm not sure what fft and then the

1678

01:12:42,470 --> 01:12:40,880

ddo challenge i think you mean dildo

1679

01:12:45,510 --> 01:12:42,480

1681

01:12:49,750 --> 01:12:46,480

1682

01:12:51,430 --> 01:12:49,760

and the box of dildos challenge i will

1683

01:12:54,870 --> 01:12:51,440

1684

01:12:55,510 --> 01:12:54,880

i've been uh you know waiting for

1685

01:13:00,390 --> 01:12:55,520

something

1686

01:13:02,229 --> 01:13:00,400

uh to do a show out of uh regarding him

1687

01:13:03,990 --> 01:13:02,239

i don't wanna sit through four hours of

1688

01:13:06,790 --> 01:13:04,000

him crying and uh making

1689

01:13:08,870 --> 01:13:06,800

up [h__h] so but we have some i have

1690

01:13:11,750 --> 01:13:08,880

something that we can talk about

1691

01:13:13,990 --> 01:13:11,760

with him so we'll do i guess it will be

1692

01:13:17,189 --> 01:13:14,000

1693

01:13:21,590 --> 01:13:17,199

1698

01:13:32,709 --> 01:13:32,239

financially there's a paypal donate

1699

01:13:34,390 --> 01:13:32,719

1700

01:13:36,709 --> 01:13:34,400

on the about section of our channel as

1701

01:13:39,270 --> 01:13:36,719

well as a button to join patreon for a

1702

01:13:40,790 --> 01:13:39,280

dollar and get those free benefits well

1703

01:13:43,669 --> 01:13:40,800

you're giving me a dollar they're not

1704

01:13:45,350 --> 01:13:43,679

free but the

1705

01:13:47,030 --> 01:13:45,360

for example the mind hack project that's

1706

01:13:49,830 --> 01:13:47,040

coming out is going to be a retail

1707

01:13:51,430 --> 01:13:49,840

product that's twenty dollars if you

1708

01:13:53,350 --> 01:13:51,440

are a patreon supporter you've been

1709

01:13:53,830 --> 01:13:53,360

getting pieces of this thing for months

1710

01:13:56,550 --> 01:13:53,840

now

1711

01:13:57,350 --> 01:13:56,560

and soon the entire finished three hour

1712

01:14:00,950 --> 01:13:57,360

and thirty

1713

01:14:03,189 --> 01:14:00,960

minute plus audio will be mastered

1714

01:14:05,430 --> 01:14:03,199

and completed and ready for sale but the

1715

01:14:06,870 --> 01:14:05,440

patreon supporters get it first

1716

01:14:09,270 --> 01:14:06,880

the other way that you can support me

1717

01:14:11,750 --> 01:14:09,280

costs nothing and that is to

1718

01:14:12,390 --> 01:14:11,760

1721

01:14:16,550 --> 01:14:16,000

1722

01:14:19,830 --> 01:14:16,560

strange

1723

01:14:23,189 --> 01:14:19,840

conspiracy conspiracy land ufos

1724

01:14:28,550 --> 01:14:26,310

forward we're still trying

1732

01:14:43,590 --> 01:14:41,600

very hard to get the show up to a

1733

01:14:46,470 --> 01:14:43,600

thousand

1734

01:14:48,390 --> 01:14:46,480

uh subscribers so that we can have super

1735

01:14:50,390 --> 01:14:48,400

chat donations instead of what we have

1736

01:14:52,470 --> 01:14:50,400

right now which is what we call our not

1737

01:14:54,310 --> 01:14:52,480

so super chat donations if you send me a

1738

01:14:54,790 --> 01:14:54,320

paypal donation and you want a shout out

1739

01:14:56,630 --> 01:14:54,800

1740

01:14:59,430 --> 01:14:56,640

1741

01:15:02,229 --> 01:14:59,440
