

1
00:01:38,830 --> 00:00:46,490

[Music]

2
00:01:38,840 --> 00:01:46,300

so

3
00:02:06,789 --> 00:01:55,040

[Music]

4
00:02:12,070 --> 00:02:09,910
well greetings and salutations uh

5
00:02:14,869 --> 00:02:12,080
tonight we are broadcasting once again

6
00:02:16,309 --> 00:02:14,879
live from the apocalypse cabin

7
00:02:17,910 --> 00:02:16,319
uh somewhere in the mountains of

8
00:02:20,229 --> 00:02:17,920
pennsylvania so

9
00:02:22,390 --> 00:02:20,239
tonight uh we're gonna get to unpack a

10
00:02:24,550 --> 00:02:22,400
great mystery

11
00:02:26,309 --> 00:02:24,560
and that is the mystery of the coral

12
00:02:29,910 --> 00:02:26,319
castle

13
00:02:33,830 --> 00:02:29,920

did a hundred pound man by himself

14

00:02:35,030 --> 00:02:33,840

build this huge monolithic structure

15

00:02:38,470 --> 00:02:35,040

now there's been all kinds of

16

00:02:40,630 --> 00:02:38,480

speculation conspiracy theories

17

00:02:42,630 --> 00:02:40,640

rumors that he had some sort of

18

00:02:43,830 --> 00:02:42,640

anti-gravity device after all that's the

19

00:02:45,110 --> 00:02:43,840

only way he could have been lifting

20

00:02:48,150 --> 00:02:45,120

these

21

00:02:51,509 --> 00:02:48,160

multi-ton blocks of stone

22

00:02:54,390 --> 00:02:51,519

so high i've uh

23

00:02:55,910 --> 00:02:54,400

followed this story of coral castle and

24

00:02:57,830 --> 00:02:55,920

it is now a museum

25

00:03:04,470 --> 00:02:57,840

that you can visit and see it for

26

00:03:07,270 --> 00:03:04,480

yourself it's quite a sight to behold um

27

00:03:09,350 --> 00:03:07,280

and we will uh share some images uh

28

00:03:11,190 --> 00:03:09,360

while we discuss this but

29

00:03:13,350 --> 00:03:11,200

i looked into these rumors and

30

00:03:14,710 --> 00:03:13,360

conspiracies and speculation concerning

31

00:03:17,430 --> 00:03:14,720

all the

32

00:03:18,229 --> 00:03:17,440

you know egypt technology lost

33

00:03:20,470 --> 00:03:18,239

technology

34

00:03:22,949 --> 00:03:20,480

that he used to build this thing and you

35

00:03:25,190 --> 00:03:22,959

know ultrasonic levitation device that

36

00:03:26,070 --> 00:03:25,200

he must have had a magnetic levitation

37

00:03:27,670 --> 00:03:26,080

device

38

00:03:29,990 --> 00:03:27,680

there's been all kinds of claims and

39

00:03:32,229 --> 00:03:30,000

rumors so i thought we could bring

40

00:03:34,470 --> 00:03:32,239

uh somebody who's already looked into it

41

00:03:36,149 --> 00:03:34,480

thoroughly and that is smoke king on as

42

00:03:36,710 --> 00:03:36,159

a special guest but tonight we're

43

00:03:39,350 --> 00:03:36,720

getting

44

00:03:41,509 --> 00:03:39,360

a extra special guest in the form of

45

00:03:44,149 --> 00:03:41,519

both the guys from paranormal hood

46

00:03:45,990 --> 00:03:44,159

both jiggy and smoke king are coming in

47

00:03:49,190 --> 00:03:46,000

so here we go

48

00:03:50,630 --> 00:03:49,200

and appropriately oh wait let's let's do

49

00:03:54,390 --> 00:03:50,640

that then we get jiggy too

50

00:03:57,429 --> 00:03:54,400

we got the wide shot i guess this is the

51

00:04:03,429 --> 00:04:01,030

for the show

52

00:04:04,949 --> 00:04:03,439

since 10 pm this is the first blood then

53

00:04:08,229 --> 00:04:04,959

yeah yeah

54

00:04:09,030 --> 00:04:08,239

well good for you so uh i've looked into

55

00:04:10,949 --> 00:04:09,040

this thing for

56

00:04:12,470 --> 00:04:10,959

a while i thought we could start with

57

00:04:18,629 --> 00:04:12,480

sharing there's a website

58

00:04:24,150 --> 00:04:22,069

and it's for the coral castle museum

59

00:04:25,510 --> 00:04:24,160

and i guess because of covid coral

60

00:04:28,469 --> 00:04:25,520

castle is closed until

61

00:04:29,749 --> 00:04:28,479

further notice but i like the text on

62

00:04:31,590 --> 00:04:29,759

their website

63

00:04:33,430 --> 00:04:31,600

uh if you had visited coral castle in

64

00:04:35,430 --> 00:04:33,440
the 1940s you would have been

65

00:04:38,070 --> 00:04:35,440
greeted enthusiastically by a man

66

00:04:40,629 --> 00:04:38,080
weighing a mere 100 pounds and standing

67

00:04:41,189 --> 00:04:40,639
just over five feet tall he would have

68

00:04:43,909 --> 00:04:41,199
asked you

69

00:04:44,710 --> 00:04:43,919
for 10 cents admission and introduced

70

00:04:48,790 --> 00:04:44,720
you

71

00:04:51,350 --> 00:04:48,800
the sculpture garden

72

00:04:51,830 --> 00:04:51,360
in stone and the significance of each

73

00:04:53,909 --> 00:04:51,840
piece

74

00:04:55,270 --> 00:04:53,919
was explained you would have been

75

00:04:58,629 --> 00:04:55,280
witness

76

00:05:00,310 --> 00:04:58,639

to the great pride it's

77

00:05:06,710 --> 00:05:00,320

oh geez i'm having a hard time with this

78

00:05:11,430 --> 00:05:09,909

in his work i guess yeah sorry

79

00:05:14,710 --> 00:05:11,440

i can't make out this let me see if i

80

00:05:22,150 --> 00:05:16,950

uh no can't see let me make this a

81

00:05:22,160 --> 00:05:28,070

oh it's okay uh

82

00:05:31,670 --> 00:05:30,629

so you can visit coral castle today and

83

00:05:34,629 --> 00:05:31,680

and see these

84

00:05:36,629 --> 00:05:34,639

monumental structures uh and here's a

85

00:05:38,710 --> 00:05:36,639

little bit about each of them

86

00:05:41,830 --> 00:05:38,720

that's a huge stone garden but then

87

00:05:44,550 --> 00:05:41,840

there's also like a castle portion

88

00:05:45,350 --> 00:05:44,560

built out of these huge huge blocks of

89

00:05:48,469 --> 00:05:45,360

stone

90

00:05:50,390 --> 00:05:48,479

all perfectly put in place and

91

00:05:51,990 --> 00:05:50,400

uh so there's been this major

92

00:05:56,469 --> 00:05:52,000

speculation that this guy

93

00:05:59,029 --> 00:05:56,479

could not have done this by himself uh

94

00:06:01,029 --> 00:05:59,039

what have you found about this or what

95

00:06:03,670 --> 00:06:01,039

do you think about this smoking

96

00:06:06,710 --> 00:06:03,680

the uh the rumors that he couldn't have

97

00:06:09,029 --> 00:06:06,720

done it by himself um

98

00:06:10,950 --> 00:06:09,039

well because he didn't do it by itself

99

00:06:12,870 --> 00:06:10,960

if you if you want to go back into that

100

00:06:15,909 --> 00:06:12,880

website there

101
00:06:18,870 --> 00:06:15,919
and go to the go to the um oh sure

102
00:06:19,510 --> 00:06:18,880
like the merchandise section and go to

103
00:06:23,029 --> 00:06:19,520
books

104
00:06:25,510 --> 00:06:23,039
there's a written by orville

105
00:06:27,029 --> 00:06:25,520
i can't remember his last name we'll

106
00:06:30,230 --> 00:06:27,039
bring it up in a second

107
00:06:32,469 --> 00:06:30,240
um and orville was

108
00:06:35,430 --> 00:06:32,479
neighbor and orville also owned a

109
00:06:37,270 --> 00:06:35,440
construction company

110
00:06:39,350 --> 00:06:37,280
so we could have got cranes and stuff

111
00:06:42,390 --> 00:06:39,360
then right and uh so

112
00:06:44,870 --> 00:06:42,400
uh people wrote this book and it tells

113
00:06:47,189 --> 00:06:44,880

them all about how he helped ed did do a

114

00:06:47,590 --> 00:06:47,199

a good majority of the work himself uh

115

00:06:49,430 --> 00:06:47,600

yeah

116

00:06:51,110 --> 00:06:49,440

at least galleon he was he was a

117

00:06:53,350 --> 00:06:51,120

brilliant man um

118

00:06:54,950 --> 00:06:53,360

he came from over here from this country

119

00:06:56,629 --> 00:06:54,960

his family background was

120

00:06:58,309 --> 00:06:56,639

loggers on one side of the family and

121

00:07:01,110 --> 00:06:58,319

stonemasons on the other

122

00:07:01,990 --> 00:07:01,120

so he he knew all this stuff but so ed

123

00:07:03,749 --> 00:07:02,000

had help

124

00:07:05,189 --> 00:07:03,759

as as much as people want to say he

125

00:07:07,270 --> 00:07:05,199

didn't have help and everything like

126
00:07:09,670 --> 00:07:07,280
that he had some help when he needed

127
00:07:11,909 --> 00:07:09,680
um coral castle today is not the

128
00:07:13,830 --> 00:07:11,919
original location of coral castle it was

129
00:07:14,710 --> 00:07:13,840
actually moved halfway through the build

130
00:07:16,469 --> 00:07:14,720
they're about

131
00:07:18,469 --> 00:07:16,479
maybe close to halfway through the build

132
00:07:20,790 --> 00:07:18,479
um because wait so how did they move

133
00:07:22,309 --> 00:07:20,800
all of this they moved and reassembled

134
00:07:24,309 --> 00:07:22,319
it yeah orville tells how

135
00:07:25,430 --> 00:07:24,319
he how he helped him do it all in the

136
00:07:26,790 --> 00:07:25,440
book and everything there's actually

137
00:07:28,230 --> 00:07:26,800
pictures and stuff in the book

138
00:07:29,670 --> 00:07:28,240

i remember correctly i haven't seen the

139

00:07:31,110 --> 00:07:29,680

book for a long time but yes there

140

00:07:32,870 --> 00:07:31,120

should be pictures in the book but you

141

00:07:34,070 --> 00:07:32,880

have to order it and everything

142

00:07:35,909 --> 00:07:34,080

and get it the only way you get it

143

00:07:38,309 --> 00:07:35,919

through is the website there um

144

00:07:40,230 --> 00:07:38,319

so and even even in even the coral

145

00:07:41,589 --> 00:07:40,240

castle museum people they they portray

146

00:07:43,350 --> 00:07:41,599

the whole mystery and stuff yet they

147

00:07:46,950 --> 00:07:43,360

sell this book that explains how

148

00:07:48,550 --> 00:07:46,960

everything happens so the first location

149

00:07:51,909 --> 00:07:48,560

it's a mystery buy the book we'll tell

150

00:07:55,430 --> 00:07:54,309

but and so he started out at the first

151
00:07:57,270 --> 00:07:55,440
location building

152
00:07:59,110 --> 00:07:57,280
you know this this stone structure and

153
00:08:00,150 --> 00:07:59,120
everything and somebody bought the land

154
00:08:01,830 --> 00:08:00,160
next to him

155
00:08:03,990 --> 00:08:01,840
to build condos and stuff and he didn't

156
00:08:06,230 --> 00:08:04,000
want that so he had

157
00:08:07,749 --> 00:08:06,240
he he had that with the help of his

158
00:08:09,350 --> 00:08:07,759
neighbor and everything who had all this

159
00:08:10,309 --> 00:08:09,360
construction equipment in the trucks to

160
00:08:12,710 --> 00:08:10,319
move it all

161
00:08:14,469 --> 00:08:12,720
and he helped him actually put it all on

162
00:08:16,309 --> 00:08:14,479
the the equipment and move it to the

163
00:08:18,390 --> 00:08:16,319

location where it is today

164

00:08:19,589 --> 00:08:18,400

and it was originally named this one is

165

00:08:24,469 --> 00:08:19,599

called the 30 ton

166

00:08:26,550 --> 00:08:24,479

stone is that really 30 tons

167

00:08:27,990 --> 00:08:26,560

i believe it is that one is probably the

168

00:08:29,830 --> 00:08:28,000

i believe it's the heaviest one there

169

00:08:32,550 --> 00:08:29,840

and it is 30 tons and yeah

170

00:08:33,829 --> 00:08:32,560

that one was used was used lifted the

171

00:08:36,870 --> 00:08:33,839

heaviest stones

172

00:08:37,430 --> 00:08:36,880

were used with uh machinery and stuff

173

00:08:39,029 --> 00:08:37,440

like that

174

00:08:41,509 --> 00:08:39,039

excavators you know cranes and stuff

175

00:08:43,430 --> 00:08:41,519

like that that that orville had

176

00:08:44,710 --> 00:08:43,440

and that that helped him put it up there

177

00:08:46,710 --> 00:08:44,720

but again you know

178

00:08:47,829 --> 00:08:46,720

um so so that's he didn't build it

179

00:08:50,150 --> 00:08:47,839

himself

180

00:08:51,590 --> 00:08:50,160

again the majority of it the work he did

181

00:08:54,150 --> 00:08:51,600

to himself but there was

182

00:08:55,990 --> 00:08:54,160

things where moving it from one place a

183

00:08:56,790 --> 00:08:56,000

few miles up the road to another place

184

00:08:58,310 --> 00:08:56,800

required

185

00:09:00,630 --> 00:08:58,320

you know what i mean people would have

186

00:09:03,110 --> 00:09:00,640

seen somebody levitating stones down the

187

00:09:05,990 --> 00:09:03,120

[h__\h] middle of the [h__\h] highway

188

00:09:06,790 --> 00:09:06,000

to their location you know what i mean

189

00:09:08,710 --> 00:09:06,800

if this was the

190

00:09:10,230 --> 00:09:08,720

i didn't know that they ever moved

191

00:09:12,389 --> 00:09:10,240

exactly that's right

192

00:09:13,670 --> 00:09:12,399

i never knew that they moved in some

193

00:09:16,710 --> 00:09:13,680

articles about this thing

194

00:09:18,550 --> 00:09:16,720

yeah is if you read this book

195

00:09:19,990 --> 00:09:18,560

that you can only get on the coral

196

00:09:20,710 --> 00:09:20,000

castle website now it used to be

197

00:09:22,550 --> 00:09:20,720

available on

198

00:09:23,990 --> 00:09:22,560

a few other places but now the only

199

00:09:24,710 --> 00:09:24,000

place i can find it now is on their

200

00:09:27,110 --> 00:09:24,720

website

201
00:09:28,550 --> 00:09:27,120
so yeah their first page says oh it's a

202
00:09:30,150 --> 00:09:28,560
mystery and all this stuff the center

203
00:09:31,670 --> 00:09:30,160
power man did all this work himself and

204
00:09:34,070 --> 00:09:31,680
stuff yet then you go to their

205
00:09:36,389 --> 00:09:34,080
merchandise thing and they sell the book

206
00:09:37,190 --> 00:09:36,399
and it explains how he didn't do it all

207
00:09:40,470 --> 00:09:37,200
himself and

208
00:09:41,269 --> 00:09:40,480
and actually i was waiting for the

209
00:09:44,310 --> 00:09:41,279
atlantean

210
00:09:47,030 --> 00:09:44,320
technology smoke king in the [h__h]

211
00:09:47,509 --> 00:09:47,040
ancient egyptian method of floating 30

212
00:09:51,750 --> 00:09:47,519
ton

213
00:09:53,829 --> 00:09:51,760

quarrying of all this stuff like well

214

00:09:55,590 --> 00:09:53,839

where did he get all the stones he was

215

00:09:59,590 --> 00:09:55,600

well it was built on top of

216

00:10:02,230 --> 00:09:59,600

uh um uh both sites were actually uh

217

00:10:03,670 --> 00:10:02,240

where coral like you know rock ledge or

218

00:10:04,389 --> 00:10:03,680

whatever and stuff so he was able to

219

00:10:05,829 --> 00:10:04,399

mine it there

220

00:10:08,230 --> 00:10:05,839

that's the other thing that most people

221

00:10:11,509 --> 00:10:08,240

don't realize because where it is today

222

00:10:12,870 --> 00:10:11,519

outside of it there took the stone from

223

00:10:15,590 --> 00:10:12,880

but if you look at

224

00:10:16,710 --> 00:10:15,600

that spot there's not enough stone taken

225

00:10:19,430 --> 00:10:16,720

out of that spot

226

00:10:20,389 --> 00:10:19,440

to be the whole entire coral castle oh

227

00:10:22,230 --> 00:10:20,399

so he had to get stones

228

00:10:23,509 --> 00:10:22,240

it's only the stone like truck well no

229

00:10:25,590 --> 00:10:23,519

it's because most of it

230

00:10:27,910 --> 00:10:25,600

the stone came from the original

231

00:10:29,430 --> 00:10:27,920

location okay so he brought it over from

232

00:10:31,110 --> 00:10:29,440

the original location and then whatever

233

00:10:32,630 --> 00:10:31,120

he needed left to finish it is what he

234

00:10:35,030 --> 00:10:32,640

cut there so that only about

235

00:10:36,550 --> 00:10:35,040

the last you know last half or third of

236

00:10:37,350 --> 00:10:36,560

it whatever however much he had to

237

00:10:39,509 --> 00:10:37,360

finish of it

238

00:10:40,470 --> 00:10:39,519

is you can see where he cut it out and

239

00:10:43,750 --> 00:10:40,480

everything like that

240

00:10:46,069 --> 00:10:43,760

so and in the book it also explains how

241

00:10:47,509 --> 00:10:46,079

this he was able to do the majority of

242

00:10:50,230 --> 00:10:47,519

the work himself

243

00:10:52,389 --> 00:10:50,240

um yeah i guess that's because the music

244

00:10:54,630 --> 00:10:52,399

oh no here they do have the store

245

00:10:55,990 --> 00:10:54,640

uh i was looking for the actual oh yeah

246

00:10:57,670 --> 00:10:56,000

i was looking for the title of the book

247

00:10:59,670 --> 00:10:57,680

so if anybody

248

00:11:01,350 --> 00:10:59,680

yeah the story and the word that i

249

00:11:01,910 --> 00:11:01,360

couldn't get because the the text was

250

00:11:05,430 --> 00:11:01,920

too small

251
00:11:06,230 --> 00:11:05,440
is this man's name ed scale lead scale

252
00:11:10,630 --> 00:11:06,240
man

253
00:11:13,190 --> 00:11:10,640
pronounce he was latvian or something

254
00:11:16,069 --> 00:11:13,200
like that from latvia i believe it is

255
00:11:16,470 --> 00:11:16,079
so is it's coral castle the story of ed

256
00:11:18,949 --> 00:11:16,480
uh

257
00:11:21,269 --> 00:11:18,959
luskalman and his american stone hedge

258
00:11:23,269 --> 00:11:21,279
by rusty mcclure and jeff

259
00:11:25,030 --> 00:11:23,279
having it's down a little bit more it's

260
00:11:26,550 --> 00:11:25,040
it's it's okay so that's so they have

261
00:11:27,509 --> 00:11:26,560
multiple books in this one there's

262
00:11:29,670 --> 00:11:27,519
multiple books

263
00:11:31,269 --> 00:11:29,680

those ones are go off of the myth and

264

00:11:32,550 --> 00:11:31,279

the legends and everything like that the

265

00:11:35,670 --> 00:11:32,560

one that you want to see

266

00:11:37,190 --> 00:11:35,680

i think it's mr right can't wrong is

267

00:11:40,949 --> 00:11:37,200

dead or something like that or mr

268

00:11:42,389 --> 00:11:40,959

mr yeah oh mr mr can is dead by or

269

00:11:44,949 --> 00:11:42,399

all right we're going to share that hold

270

00:11:46,790 --> 00:11:44,959

on now that i got it yeah so for

271

00:11:48,790 --> 00:11:46,800

this it doesn't give a it does that's

272

00:11:50,470 --> 00:11:48,800

the funny thing it doesn't give you a

273

00:11:52,230 --> 00:11:50,480

description a great description of the

274

00:11:53,990 --> 00:11:52,240

book you actually have to get the book

275

00:11:55,350 --> 00:11:54,000

and read the book to actually know what

276

00:11:57,110 --> 00:11:55,360

it is but because the

277

00:11:58,629 --> 00:11:57,120

again the coral castle museum wants it

278

00:12:00,389 --> 00:11:58,639

to be a big secret they want people to

279

00:12:03,590 --> 00:12:00,399

go there and everything mister

280

00:12:04,870 --> 00:12:03,600

is dead yes yeah for just 1895

281

00:12:06,790 --> 00:12:04,880

because that's the way that's what

282

00:12:07,590 --> 00:12:06,800

orville thought of this guy that this

283

00:12:09,910 --> 00:12:07,600

guy can't

284

00:12:11,190 --> 00:12:09,920

he there's nothing he can't do he's mr

285

00:12:15,190 --> 00:12:11,200

kent you can't he

286

00:12:16,949 --> 00:12:15,200

you know what i mean yeah

287

00:12:18,629 --> 00:12:16,959

so that book it also explains you know

288

00:12:20,230 --> 00:12:18,639

no matter how they built this thing it's

289

00:12:23,110 --> 00:12:20,240

still an interesting place and like

290

00:12:23,430 --> 00:12:23,120

an amazing kind of a project yeah he did

291

00:12:25,110 --> 00:12:23,440

do

292

00:12:27,350 --> 00:12:25,120

the majority of it himself and it

293

00:12:30,230 --> 00:12:27,360

explains in how he did the majority of

294

00:12:31,350 --> 00:12:30,240

himself it explains how the machine

295

00:12:34,069 --> 00:12:31,360

worked and everything

296

00:12:35,350 --> 00:12:34,079

it also shows um we also i can show you

297

00:12:37,430 --> 00:12:35,360

how it works because a

298

00:12:39,509 --> 00:12:37,440

replica that i've seen me and you've

299

00:12:42,230 --> 00:12:39,519

seen in person seen it working

300

00:12:43,750 --> 00:12:42,240

um he's the one who actually where i

301
00:12:46,790 --> 00:12:43,760
found out all this stuff and everything

302
00:12:50,230 --> 00:12:48,150
yeah interesting that they have all

303
00:12:51,829 --> 00:12:50,240
these books for sale about and then in

304
00:12:53,430 --> 00:12:51,839
one of them they spilled the beans

305
00:12:55,190 --> 00:12:53,440
that's interesting to me

306
00:12:57,590 --> 00:12:55,200
so yeah you got all these rumors that

307
00:12:59,509 --> 00:12:57,600
all the machine the flywheel machine his

308
00:13:00,310 --> 00:12:59,519
sweet 16 the machine that's up in his

309
00:13:03,990 --> 00:13:00,320
little

310
00:13:04,470 --> 00:13:04,000
up in the castle there and stuff was it

311
00:13:06,790 --> 00:13:04,480
was

312
00:13:07,910 --> 00:13:06,800
made made noises to levitate and it's

313
00:13:10,550 --> 00:13:07,920

not what it is at all

314

00:13:12,069 --> 00:13:10,560

and my friend scott he's the one before

315

00:13:13,670 --> 00:13:12,079

i even knew about the orville book and

316

00:13:15,110 --> 00:13:13,680

stuff he's the one he figured this out

317

00:13:17,509 --> 00:13:15,120

because he's a he was an

318

00:13:19,509 --> 00:13:17,519

he's a electrical engineer on a nuclear

319

00:13:22,870 --> 00:13:19,519

submarine

320

00:13:24,550 --> 00:13:22,880

okay so you know a little bit about

321

00:13:25,670 --> 00:13:24,560

electrical stuff and anybody he said

322

00:13:27,350 --> 00:13:25,680

anybody who's

323

00:13:28,949 --> 00:13:27,360

into electronics and stuff like that

324

00:13:33,030 --> 00:13:28,959

would know when you look at that

325

00:13:35,910 --> 00:13:33,040

it's a pmh a permanent magnet holder

326

00:13:37,350 --> 00:13:35,920

okay and or and all it does is once it

327

00:13:38,790 --> 00:13:37,360

starts spinning and stuff

328

00:13:40,949 --> 00:13:38,800

it will just keep spinning because the

329

00:13:42,230 --> 00:13:40,959

magnets they just keep the

330

00:13:43,430 --> 00:13:42,240

the way that it's set up they're off

331

00:13:44,710 --> 00:13:43,440

pulled and it will just keep pushing

332

00:13:46,629 --> 00:13:44,720

itself around

333

00:13:47,990 --> 00:13:46,639

so that machine had figured this out

334

00:13:49,269 --> 00:13:48,000

back then because you got to remember

335

00:13:51,269 --> 00:13:49,279

he was building this thing in like the

336

00:13:53,269 --> 00:13:51,279

30s and stuff or whatever it was long

337

00:13:55,030 --> 00:13:53,279

time ago

338

00:13:56,949 --> 00:13:55,040

he would use that and that would go

339

00:13:58,550 --> 00:13:56,959

around and it had relays on it

340

00:14:00,389 --> 00:13:58,560

and as it would go around it would hit

341

00:14:01,910 --> 00:14:00,399

the relay every time the magnet would go

342

00:14:04,150 --> 00:14:01,920

around it would send a little signal and

343

00:14:06,949 --> 00:14:04,160

a relay and he had a bank of batteries

344

00:14:08,230 --> 00:14:06,959

and that would one one relay would go on

345

00:14:11,509 --> 00:14:08,240

a wire and it would send it over

346

00:14:13,269 --> 00:14:11,519

to the missile that was cutting

347

00:14:14,710 --> 00:14:13,279

the coral back and forth he didn't even

348

00:14:15,829 --> 00:14:14,720

have to be there he just had to set it

349

00:14:18,150 --> 00:14:15,839

up he had a big the

350

00:14:19,590 --> 00:14:18,160

steel door there's a steel door there

351
00:14:20,550 --> 00:14:19,600
that has some numbers and stuff yeah so

352
00:14:22,470 --> 00:14:20,560
wait wait what

353
00:14:24,230 --> 00:14:22,480
slow down so what was he cutting this he

354
00:14:24,870 --> 00:14:24,240
was cutting the stone with the machine

355
00:14:26,389 --> 00:14:24,880
then

356
00:14:28,550 --> 00:14:26,399
with the machine yeah he used machines

357
00:14:31,509 --> 00:14:28,560
to cut it and stuff all by himself

358
00:14:32,710 --> 00:14:31,519
he he had this machine the flywheel

359
00:14:34,710 --> 00:14:32,720
machine set up

360
00:14:36,230 --> 00:14:34,720
that set up in the castle there that

361
00:14:37,910 --> 00:14:36,240
would set up he could set up the

362
00:14:39,509 --> 00:14:37,920
machines to do what he wanted to do he

363
00:14:41,750 --> 00:14:39,519

would go and turn this flywheel and then

364

00:14:42,949 --> 00:14:41,760

he could go to sleep

365

00:14:44,550 --> 00:14:42,959

he didn't even have to really do

366

00:14:45,910 --> 00:14:44,560

anything get up and check on things once

367

00:14:48,069 --> 00:14:45,920

yeah i guess it takes

368

00:14:49,750 --> 00:14:48,079

it could take 12 hours to cut one cut

369

00:14:51,910 --> 00:14:49,760

through some of that stuff right

370

00:14:54,150 --> 00:14:51,920

yeah it could take a long time so he had

371

00:14:56,069 --> 00:14:54,160

you know like i said he had one so this

372

00:14:57,430 --> 00:14:56,079

the sweet 16 the magnetic wheel and

373

00:14:58,870 --> 00:14:57,440

stuff that he had and stuff we'll show

374

00:15:01,189 --> 00:14:58,880

some video of it in a little bit and

375

00:15:02,389 --> 00:15:01,199

of how it works so it had little relays

376

00:15:05,030 --> 00:15:02,399

and stuff and it had

377

00:15:06,629 --> 00:15:05,040

a bank of battery and have charged up

378

00:15:08,310 --> 00:15:06,639

sending an electrical signal so every

379

00:15:09,829 --> 00:15:08,320

time the magnet got to that relay it

380

00:15:12,470 --> 00:15:09,839

would send a charge down to the hit and

381

00:15:14,230 --> 00:15:12,480

miss saw so that's so i would go

382

00:15:15,990 --> 00:15:14,240

every time this spins around the saw was

383

00:15:16,949 --> 00:15:16,000

going but then he had another relay

384

00:15:19,430 --> 00:15:16,959

going over to

385

00:15:20,470 --> 00:15:19,440

a chisel with a slug a slug chisel you

386

00:15:22,230 --> 00:15:20,480

know it'd be

387

00:15:24,710 --> 00:15:22,240

like a little hammer chisel so every

388

00:15:26,230 --> 00:15:24,720

time the thing would run out it go

389

00:15:27,910 --> 00:15:26,240

and it would start chiseling and it

390

00:15:29,189 --> 00:15:27,920

would chisel a hole down because that's

391

00:15:30,470 --> 00:15:29,199

where it would be breaking out something

392

00:15:31,350 --> 00:15:30,480

next so we had all these different

393

00:15:33,590 --> 00:15:31,360

things set up

394

00:15:35,269 --> 00:15:33,600

and this machine was running them all

395

00:15:37,990 --> 00:15:35,279

and that that's how we did it

396

00:15:38,629 --> 00:15:38,000

and like i said my friend scott russell

397

00:15:40,389 --> 00:15:38,639

um his

398

00:15:42,870 --> 00:15:40,399

channel youtube channel is made by one

399

00:15:44,550 --> 00:15:42,880

man he he is the one who i for when i

400

00:15:46,150 --> 00:15:44,560

was looking into all this i found him

401
00:15:47,990 --> 00:15:46,160
first and then i found out about the

402
00:15:49,509 --> 00:15:48,000
book and i told him about the book after

403
00:15:51,350 --> 00:15:49,519
about how it was moved and stuff

404
00:15:53,350 --> 00:15:51,360
he hadn't figured that part out yet but

405
00:15:55,350 --> 00:15:53,360
he figured out that ed's machine

406
00:15:57,189 --> 00:15:55,360
his flywheel that that machine that's up

407
00:15:58,629 --> 00:15:57,199
in the in the house that's still there

408
00:16:00,230 --> 00:15:58,639
and that's not that that's not the only

409
00:16:01,030 --> 00:16:00,240
one there is that's the final one yeah

410
00:16:03,430 --> 00:16:01,040
but

411
00:16:05,030 --> 00:16:03,440
i think it's weird to me it's like the

412
00:16:07,110 --> 00:16:05,040
one is 30 ton stone

413
00:16:08,550 --> 00:16:07,120

you can put that on a flatbed a 30 ton

414

00:16:10,389 --> 00:16:08,560

stone

415

00:16:11,990 --> 00:16:10,399

uh yeah you can you can you can move

416

00:16:14,949 --> 00:16:12,000

some pretty big stones uh

417

00:16:17,350 --> 00:16:14,959

he most of the ed's moving of the stones

418

00:16:20,150 --> 00:16:17,360

he i guess he could move up to a 20

419

00:16:20,870 --> 00:16:20,160

ton stone with a tripod um if you want

420

00:16:22,710 --> 00:16:20,880

to show

421

00:16:23,990 --> 00:16:22,720

there's a video the first video i sent

422

00:16:26,550 --> 00:16:24,000

to you if you want to play that

423

00:16:28,790 --> 00:16:26,560

video real quick start it from about

424

00:16:30,069 --> 00:16:28,800

maybe 10 seconds in

425

00:16:31,350 --> 00:16:30,079

and you can play about only like the

426

00:16:31,910 --> 00:16:31,360

first minute so you don't get the

427

00:16:33,509 --> 00:16:31,920

youtube's

428

00:16:35,189 --> 00:16:33,519

copyright strikes but we could stop

429

00:16:35,990 --> 00:16:35,199

every once in a while too let me get it

430

00:16:41,269 --> 00:16:36,000

up on my screen

431

00:16:41,279 --> 00:16:45,189

if you send them to his twitter

432

00:16:48,230 --> 00:16:47,430

yeah well this is like old news footage

433

00:17:00,550 --> 00:16:48,240

so i

434

00:17:04,380 --> 00:17:02,069

i'm having trouble hearing you smoking

435

00:17:12,150 --> 00:17:04,390

hold on

436

00:17:15,990 --> 00:17:14,949

gonna dm you some stuff some some clips

437

00:17:21,750 --> 00:17:16,000

from when we were

438

00:17:26,150 --> 00:17:24,230

this is the other thing about this they

439

00:17:27,510 --> 00:17:26,160

show people say oh there's no evidence

440

00:17:28,710 --> 00:17:27,520

of how he did this and stuff this is

441

00:17:30,549 --> 00:17:28,720

going to be that what he's going to show

442

00:17:32,390 --> 00:17:30,559

you guys here is news footage from back

443

00:17:33,990 --> 00:17:32,400

in the day an actual news

444

00:17:35,750 --> 00:17:34,000

crew went there and they watched ed

445

00:17:37,669 --> 00:17:35,760

working for the day

446

00:17:39,430 --> 00:17:37,679

okay and they they show all this and

447

00:17:42,310 --> 00:17:39,440

stuff yeah

448

00:17:44,390 --> 00:17:42,320

it's great and uh let me get my fair use

449

00:17:46,230 --> 00:17:44,400

and like you can't deny this

450

00:17:47,990 --> 00:17:46,240

how people still deny it after watching

451

00:17:51,190 --> 00:17:48,000

this i i can't believe it

452

00:17:52,789 --> 00:17:51,200

so so

453

00:17:54,390 --> 00:17:52,799

this we're going to cite fair use this

454

00:17:55,830 --> 00:17:54,400

is transformative work we're discussing

455

00:17:56,630 --> 00:17:55,840

and critiquing we're educating the

456

00:17:59,990 --> 00:17:56,640

public this

457

00:18:02,070 --> 00:18:00,000

is fair use friends

458

00:18:03,669 --> 00:18:02,080

an echo from some ancient stone age is

459

00:18:05,029 --> 00:18:03,679

the work of ed lee's calendar

460

00:18:07,350 --> 00:18:05,039

all right have you pause right there for

461

00:18:10,710 --> 00:18:07,360

a second mm-hmm

462

00:18:12,310 --> 00:18:10,720

now now what they did was a huge tripod

463

00:18:14,390 --> 00:18:12,320

right what they just showed was huge

464

00:18:16,549 --> 00:18:14,400

tripods and now he has block and tackle

465

00:18:19,830 --> 00:18:16,559

pulleys and everything like that

466

00:18:21,350 --> 00:18:19,840

and this is how he moved it okay in my

467

00:18:23,029 --> 00:18:21,360

like i said look at that stone that's

468

00:18:26,310 --> 00:18:23,039

right underneath that tripod right there

469

00:18:28,150 --> 00:18:26,320

that thing's gonna be at least 10 tons

470

00:18:30,230 --> 00:18:28,160

my buddy scott and jiggy's gonna send

471

00:18:32,310 --> 00:18:30,240

you the video clips we can play after

472

00:18:33,270 --> 00:18:32,320

he had tripods he made these tripods and

473

00:18:35,270 --> 00:18:33,280

he could move

474

00:18:37,110 --> 00:18:35,280

he didn't have any 10 ton stones but he

475

00:18:39,590 --> 00:18:37,120

was moving up to five ton stones no

476

00:18:41,190 --> 00:18:39,600

problem with these tripods

477

00:18:43,029 --> 00:18:41,200

and that's how he did it this is the

478

00:18:44,390 --> 00:18:43,039

this is the secrets because ed always

479

00:18:46,870 --> 00:18:44,400

used to joke around and said i

480

00:18:48,710 --> 00:18:46,880

i used the secrets of the egyptians this

481

00:18:52,390 --> 00:18:48,720

is the secrets that he used these are

482

00:18:58,070 --> 00:18:52,400

old old world stone stone moving

483

00:19:01,669 --> 00:19:00,230

right rollers and tripods that they use

484

00:19:03,590 --> 00:19:01,679

the tripod to pull it up out of there

485

00:19:05,190 --> 00:19:03,600

they put it on

486

00:19:08,470 --> 00:19:05,200

they had to have help from they had to

487

00:19:10,230 --> 00:19:08,480

have help from aliens too though right

488

00:19:12,630 --> 00:19:10,240

and this guy's doing it all by hand now

489

00:19:13,510 --> 00:19:12,640

egypt they had 20 000 people working on

490

00:19:16,710 --> 00:19:13,520

it

491

00:19:19,590 --> 00:19:16,720

now just think this guy one one guy

492

00:19:20,470 --> 00:19:19,600

did all this now that's how the pyramids

493

00:19:22,870 --> 00:19:20,480

were built

494

00:19:23,669 --> 00:19:22,880

the same methods yeah but they had 20

495

00:19:25,190 --> 00:19:23,679

000

496

00:19:26,950 --> 00:19:25,200

workers slaves yeah they had twenty

497

00:19:28,150 --> 00:19:26,960

thousand workers more blocking stuff

498

00:19:29,430 --> 00:19:28,160

faster that's why it's a bigger

499

00:19:30,950 --> 00:19:29,440

structure and everything you know what i

500

00:19:32,630 --> 00:19:30,960

mean millions of blocks and

501
00:19:34,070 --> 00:19:32,640
you know so they were able to do it and

502
00:19:35,590 --> 00:19:34,080
stuff and they did it without

503
00:19:37,350 --> 00:19:35,600
this guy had you know electricity and

504
00:19:38,789 --> 00:19:37,360
power tools and stuff primitive i mean

505
00:19:40,630 --> 00:19:38,799
it was early days of electricity and

506
00:19:42,789 --> 00:19:40,640
stuff and tools like that but

507
00:19:43,909 --> 00:19:42,799
you know so yeah you can play the video

508
00:19:46,230 --> 00:19:43,919
now you can show

509
00:19:48,390 --> 00:19:46,240
yeah maybe it's just because i've never

510
00:19:49,430 --> 00:19:48,400
i've never had to cut a stone in my life

511
00:19:52,150 --> 00:19:49,440
but just

512
00:19:52,549 --> 00:19:52,160
but isn't this coral stone easier to cut

513
00:19:56,150 --> 00:19:52,559

yeah

514

00:19:58,070 --> 00:19:56,160

it's really easy stuff to cut so this

515

00:19:58,710 --> 00:19:58,080

was a lot like i said it was easy a lot

516

00:20:00,390 --> 00:19:58,720

easier than

517

00:20:01,830 --> 00:20:00,400

the egyptians cutting granite and stuff

518

00:20:03,990 --> 00:20:01,840

that they were cut and well a lot of the

519

00:20:04,950 --> 00:20:04,000

egyptian is limestone only out of stuff

520

00:20:06,390 --> 00:20:04,960

was granite and

521

00:20:08,230 --> 00:20:06,400

special things was granted so the

522

00:20:11,190 --> 00:20:08,240

limestone's easy to cut too

523

00:20:12,310 --> 00:20:11,200

with primitive basic bronze copper tools

524

00:20:14,710 --> 00:20:12,320

and stuff like that you can cut

525

00:20:16,549 --> 00:20:14,720

limestone no problem

526

00:20:17,830 --> 00:20:16,559

yeah i've seen a demonstration online of

527

00:20:20,310 --> 00:20:17,840

somebody because people say

528

00:20:21,190 --> 00:20:20,320

they couldn't cop the coral and somebody

529

00:20:24,070 --> 00:20:21,200

made a copper

530

00:20:25,830 --> 00:20:24,080

tool and cut it so yeah that like i said

531

00:20:27,830 --> 00:20:25,840

the ooo light they call it is is

532

00:20:29,510 --> 00:20:27,840

just as similar as just the softest

533

00:20:30,149 --> 00:20:29,520

sandstone and limestone and stuff like

534

00:20:31,510 --> 00:20:30,159

that

535

00:20:43,510 --> 00:20:31,520

let's get a little further into the

536

00:20:47,590 --> 00:20:45,270

that he hopes will stand for thousands

537

00:20:49,190 --> 00:20:47,600

of years he works as the ancient

538

00:20:52,230 --> 00:20:49,200

egyptians did when they built the

539

00:20:57,909 --> 00:20:55,350

yeah roll here we have rollers pulleys

540

00:20:59,510 --> 00:20:57,919

yep logs that's it he's getting you see

541

00:21:02,390 --> 00:20:59,520

now he has come alongs the egyptians

542

00:21:04,470 --> 00:21:02,400

used manpower the four turn rock that

543

00:21:06,390 --> 00:21:04,480

serves as an entrance gate is so nicely

544

00:21:07,990 --> 00:21:06,400

balanced a slight push will move it

545

00:21:10,980 --> 00:21:08,000

but yeah that's interesting first of

546

00:21:14,830 --> 00:21:10,990

many wonders to be found in this strange

547

00:21:16,149 --> 00:21:14,840

[Music]

548

00:21:18,950 --> 00:21:16,159

place

549

00:21:20,390 --> 00:21:18,960

that's quite a door yep all right you

550

00:21:21,750 --> 00:21:20,400

can stop it now it's just gonna show

551
00:21:22,710 --> 00:21:21,760
people hanging out there and everything

552
00:21:24,390 --> 00:21:22,720
like that and stuff so

553
00:21:26,070 --> 00:21:24,400
it's the beginning and and now this is

554
00:21:27,029 --> 00:21:26,080
back then these people understood this

555
00:21:29,510 --> 00:21:27,039
back then that

556
00:21:30,070 --> 00:21:29,520
the egyptian pyramids weren't a mystery

557
00:21:32,070 --> 00:21:30,080
the guy

558
00:21:34,230 --> 00:21:32,080
the reporter guy who's here doing this

559
00:21:35,990 --> 00:21:34,240
news story was saying he uses the

560
00:21:37,590 --> 00:21:36,000
technology that the

561
00:21:39,110 --> 00:21:37,600
the ways of the ancient egyptians and

562
00:21:40,870 --> 00:21:39,120
stuff because they've known this for a

563
00:21:43,270 --> 00:21:40,880

long time they use [h__\h]

564

00:21:43,990 --> 00:21:43,280

tripods they use log sleds and stuff on

565

00:21:46,630 --> 00:21:44,000

log rollers

566

00:21:48,630 --> 00:21:46,640

and stuff it's it's all this is this is

567

00:21:50,630 --> 00:21:48,640

how people used to do things before we

568

00:21:52,549 --> 00:21:50,640

had technology and we've forgotten the

569

00:21:54,390 --> 00:21:52,559

old ways of woodworking

570

00:21:56,390 --> 00:21:54,400

and stone working and everything these

571

00:21:58,630 --> 00:21:56,400

are these are some of the oldest trades

572

00:22:00,230 --> 00:21:58,640

in the existence of humans you know what

573

00:22:01,750 --> 00:22:00,240

i mean outside of gathering food and

574

00:22:02,950 --> 00:22:01,760

hunting then you started woodworking

575

00:22:05,990 --> 00:22:02,960

stone working

576

00:22:08,789 --> 00:22:06,000

yeah yeah jesus was a kid yeah

577

00:22:10,470 --> 00:22:08,799

so after trying to get a education in

578

00:22:13,510 --> 00:22:10,480

some of that ancient

579

00:22:15,350 --> 00:22:13,520

working with and tools and stuff here so

580

00:22:17,110 --> 00:22:15,360

yeah exactly like look at what you're

581

00:22:19,510 --> 00:22:17,120

building there and everything so ed was

582

00:22:21,029 --> 00:22:19,520

ahead of his time he knew the old ways

583

00:22:22,710 --> 00:22:21,039

of working because it was from his

584

00:22:24,549 --> 00:22:22,720

family before he came over here

585

00:22:25,990 --> 00:22:24,559

like i said they were stone masons over

586

00:22:27,590 --> 00:22:26,000

in the old country and they were loggers

587

00:22:29,029 --> 00:22:27,600

and everything so he knew how to move

588

00:22:31,029 --> 00:22:29,039

big huge things

589

00:22:33,029 --> 00:22:31,039

cut stone and everything like that in

590

00:22:33,990 --> 00:22:33,039

the olden ways and then he came over

591

00:22:37,430 --> 00:22:34,000

here

592

00:22:38,789 --> 00:22:37,440

and we had electricity and a lot of

593

00:22:39,669 --> 00:22:38,799

stuff that he didn't have in the old

594

00:22:42,230 --> 00:22:39,679

country when

595

00:22:44,390 --> 00:22:42,240

he was there so he comes here and he was

596

00:22:45,750 --> 00:22:44,400

a very smart man he was into electronics

597

00:22:47,350 --> 00:22:45,760

all kinds of stuff he could take

598

00:22:48,950 --> 00:22:47,360

anything apart put it back together and

599

00:22:51,510 --> 00:22:48,960

stuff so he figured this stuff out he's

600

00:22:53,430 --> 00:22:51,520

like wow i could make this machine here

601
00:22:55,669 --> 00:22:53,440
and it will do the most of my work for

602
00:22:56,870 --> 00:22:55,679
me and i can do i'll build this amazing

603
00:22:58,789 --> 00:22:56,880
structure and everything all

604
00:23:00,710 --> 00:22:58,799
pretty much by myself like i said he had

605
00:23:02,149 --> 00:23:00,720
a lot of help he got the help moving it

606
00:23:03,029 --> 00:23:02,159
and stuff and some help with some of the

607
00:23:04,630 --> 00:23:03,039
bigger stuff

608
00:23:05,990 --> 00:23:04,640
setting in and everything and there is

609
00:23:06,870 --> 00:23:06,000
stuff that is concreted in and

610
00:23:08,390 --> 00:23:06,880
everything like that

611
00:23:09,990 --> 00:23:08,400
um you can't see it he did it so you

612
00:23:12,149 --> 00:23:10,000
couldn't see it but there is stuff that

613
00:23:14,230 --> 00:23:12,159

is concreted in so it's not just every

614

00:23:18,470 --> 00:23:14,240

not everything is freestanding and stuff

615

00:23:20,390 --> 00:23:18,480

um but yes it's that book explains what

616

00:23:22,230 --> 00:23:20,400

everything is in there why the bathtub

617

00:23:23,909 --> 00:23:22,240

has two different levels to it and stuff

618

00:23:26,630 --> 00:23:23,919

like that and

619

00:23:27,909 --> 00:23:26,640

exactly he has a bathtub in there and

620

00:23:29,190 --> 00:23:27,919

it's kind of like a sauna and stuff

621

00:23:30,630 --> 00:23:29,200

because the way the sun hits it and

622

00:23:31,830 --> 00:23:30,640

everything and it heats it up and stuff

623

00:23:34,070 --> 00:23:31,840

at different times a year

624

00:23:35,110 --> 00:23:34,080

and to get i think i believe it's at in

625

00:23:37,270 --> 00:23:35,120

the summertime

626
00:23:38,149 --> 00:23:37,280
he has more water so it doesn't get too

627
00:23:39,669 --> 00:23:38,159
hot

628
00:23:41,669 --> 00:23:39,679
and that's why it's got the higher level

629
00:23:42,630 --> 00:23:41,679
and then and the wintertime when it's

630
00:23:45,430 --> 00:23:42,640
cooler whatever it's

631
00:23:46,789 --> 00:23:45,440
it's it's it's lower so that it heats up

632
00:23:48,230 --> 00:23:46,799
faster because it's less water and stuff

633
00:23:55,029 --> 00:23:48,240
it doesn't get as hot in this in the

634
00:23:59,110 --> 00:23:57,430
original geeky nerdy type [h__h] guy

635
00:24:00,789 --> 00:23:59,120
and everything you know he he

636
00:24:02,390 --> 00:24:00,799
blended the old world with the new world

637
00:24:03,830 --> 00:24:02,400
and was able to do all the stuff he had

638
00:24:04,870 --> 00:24:03,840

the idea you know he knew how to move

639

00:24:05,510 --> 00:24:04,880

the stone and stuff and then he's like

640

00:24:06,710 --> 00:24:05,520

wait a minute

641

00:24:07,990 --> 00:24:06,720

i don't need a whole team of people to

642

00:24:09,669 --> 00:24:08,000

do it because they have these machines

643

00:24:11,350 --> 00:24:09,679

here in [h__h] america and everything

644

00:24:13,590 --> 00:24:11,360

that i can hook it up and i could do it

645

00:24:15,909 --> 00:24:13,600

all myself

646

00:24:17,830 --> 00:24:15,919

yeah it's pretty interesting pretty much

647

00:24:19,350 --> 00:24:17,840

did like i said moving the stuff to the

648

00:24:20,549 --> 00:24:19,360

other side that took a bit and some of

649

00:24:22,070 --> 00:24:20,559

the larger stones

650

00:24:24,070 --> 00:24:22,080

standing it up and getting up because he

651
00:24:25,590 --> 00:24:24,080
couldn't there's no trees big enough

652
00:24:27,190 --> 00:24:25,600
[h__\h] that he could get to build

653
00:24:28,870 --> 00:24:27,200
tripods high enough to get some of the

654
00:24:30,870 --> 00:24:28,880
stones up to the higher places

655
00:24:32,390 --> 00:24:30,880
where he got him that's why he used his

656
00:24:33,909 --> 00:24:32,400
friend helped him together

657
00:24:35,590 --> 00:24:33,919
i can imagine what you could do with

658
00:24:38,230 --> 00:24:35,600
some of the big gear because

659
00:24:39,269 --> 00:24:38,240
like my neighbor here just has a bobcat

660
00:24:41,510 --> 00:24:39,279
and like

661
00:24:43,750 --> 00:24:41,520
i can't believe the amount of stuff that

662
00:24:46,470 --> 00:24:43,760
you could do with that thing like oh

663
00:24:48,710 --> 00:24:46,480

he had to uh he had to re-mortar uh like

664

00:24:49,269 --> 00:24:48,720

a fireplace way high up in the fireplace

665

00:24:53,990 --> 00:24:49,279

like on

666

00:24:57,190 --> 00:24:54,000

house and he just lifted that thing up

667

00:24:59,669 --> 00:24:57,200

you know with all the materials

668

00:25:02,230 --> 00:24:59,679

and climbed up and mortar and that's

669

00:25:05,350 --> 00:25:02,240

just a bobcat like the smallest of

670

00:25:06,070 --> 00:25:05,360

heavy you know machines right exactly

671

00:25:07,830 --> 00:25:06,080

yeah

672

00:25:13,590 --> 00:25:07,840

so this guy who is his friend that would

673

00:25:16,310 --> 00:25:14,789

yeah toys know whatever type of

674

00:25:17,990 --> 00:25:16,320

equipment they had back then because i

675

00:25:19,669 --> 00:25:18,000

mean this is early days of that stuff

676

00:25:19,909 --> 00:25:19,679

too you know they have back hoes in

677

00:25:22,789 --> 00:25:19,919

there

678

00:25:23,269 --> 00:25:22,799

nothing like what we have today but he

679

00:25:25,269 --> 00:25:23,279

was still

680

00:25:26,950 --> 00:25:25,279

able to help ed do the stuff that ed

681

00:25:29,909 --> 00:25:26,960

wasn't able to do with the tripods and

682

00:25:31,029 --> 00:25:29,919

the tech that he had so yeah well that's

683

00:25:32,390 --> 00:25:31,039

interesting though because that

684

00:25:34,149 --> 00:25:32,400

connection is interesting because the

685

00:25:35,190 --> 00:25:34,159

story's always kind of been like this

686

00:25:37,430 --> 00:25:35,200

guy one man

687

00:25:39,430 --> 00:25:37,440

built this thing yeah one man with an

688

00:25:40,789 --> 00:25:39,440

incredible with access to incredible

689

00:25:43,029 --> 00:25:40,799

resources so that

690

00:25:44,710 --> 00:25:43,039

is impressive once you realize the

691

00:25:47,029 --> 00:25:44,720

resources he may have had

692

00:25:48,549 --> 00:25:47,039

you know again like like yeah he he did

693

00:25:50,710 --> 00:25:48,559

use machines like he had

694

00:25:52,470 --> 00:25:50,720

the missile he had the you know that

695

00:25:52,870 --> 00:25:52,480

like the kind of the jackhammer you know

696

00:25:55,990 --> 00:25:52,880

the

697

00:25:58,070 --> 00:25:56,000

chisel and stuff like that here

698

00:25:59,990 --> 00:25:58,080

he had his tools that he made but moving

699

00:26:02,310 --> 00:26:00,000

it did take

700

00:26:04,230 --> 00:26:02,320

trucks and and heavy equipment to move

701
00:26:04,710 --> 00:26:04,240
what he had already started down to to

702
00:26:06,310 --> 00:26:04,720
the next

703
00:26:07,590 --> 00:26:06,320
location and everything once it was set

704
00:26:09,029 --> 00:26:07,600
up and everything and then some of it

705
00:26:10,230 --> 00:26:09,039
setting it up and everything he had to

706
00:26:12,390 --> 00:26:10,240
have help with it

707
00:26:14,230 --> 00:26:12,400
so but again the majority of it yes it

708
00:26:15,510 --> 00:26:14,240
was built by this one man and his

709
00:26:17,190 --> 00:26:15,520
ingenuity of

710
00:26:18,470 --> 00:26:17,200
knowing how to use these machines and

711
00:26:19,990 --> 00:26:18,480
everything like that and getting

712
00:26:23,110 --> 00:26:20,000
everything to work him

713
00:26:25,029 --> 00:26:23,120

you know with just him so and you sent

714

00:26:27,110 --> 00:26:25,039

me another video which is a guy doing

715

00:26:30,390 --> 00:26:27,120

sort of a recreation of this tripod

716

00:26:31,990 --> 00:26:30,400

setup right and yeah yeah

717

00:26:33,590 --> 00:26:32,000

well this is the one this is actually

718

00:26:36,390 --> 00:26:33,600

from that's my friend scott

719

00:26:37,190 --> 00:26:36,400

russell um in vermont and he's the guy

720

00:26:38,789 --> 00:26:37,200

he was uh

721

00:26:40,789 --> 00:26:38,799

yeah we gotta share this because this is

722

00:26:42,230 --> 00:26:40,799

amazing he's an electrical engineer on a

723

00:26:44,310 --> 00:26:42,240

nuclear submarine for

724

00:26:46,630 --> 00:26:44,320

like 20 years i mean the guy ran the

725

00:26:48,549 --> 00:26:46,640

thing basically he's a brilliant guy i

726

00:26:50,549 --> 00:26:48,559

mean he's [\h__\h]

727

00:26:51,990 --> 00:26:50,559

amazing and when she heard this yeah

728

00:26:54,149 --> 00:26:52,000

this video is

729

00:26:55,909 --> 00:26:54,159

great because it's like mystery solved

730

00:26:57,669 --> 00:26:55,919

and then you can play this with stuff no

731

00:26:58,710 --> 00:26:57,679

copyright on this he doesn't mind if you

732

00:27:00,070 --> 00:26:58,720

play it you guys

733

00:27:01,590 --> 00:27:00,080

we're still going to say later on we're

734

00:27:03,029 --> 00:27:01,600

still going to cite fair use and we'll

735

00:27:05,190 --> 00:27:03,039

put it we can do that

736

00:27:06,549 --> 00:27:05,200

i'll put it i'll put the link in the

737

00:27:07,909 --> 00:27:06,559

description here so people can

738

00:27:09,669 --> 00:27:07,919

because he's got the electrical

739

00:27:12,070 --> 00:27:09,679

background and everything as soon as he

740

00:27:13,830 --> 00:27:12,080

saw that ed flywheel up in his jack up

741

00:27:15,269 --> 00:27:13,840

in the in the castle there he knew

742

00:27:16,870 --> 00:27:15,279

right away what it was and he set to

743

00:27:19,110 --> 00:27:16,880

recreate and it did prove that's what it

744

00:27:22,470 --> 00:27:19,120

was i mean this is the video of him

745

00:27:26,149 --> 00:27:24,549

um hold on one second i'm gonna i'm

746

00:27:26,389 --> 00:27:26,159

gonna get that i i screwed up though and

747

00:27:31,190 --> 00:27:26,399

i

748

00:27:33,990 --> 00:27:31,200

jump to

749

00:27:35,350 --> 00:27:34,000

i think i got i think i got it okay one

750

00:27:37,590 --> 00:27:35,360

second

751
00:27:39,430 --> 00:27:37,600
uh here we go yeah share audio i always

752
00:27:42,549 --> 00:27:39,440
forget to do that

753
00:27:45,269 --> 00:27:42,559
there we go so if you go to the first

754
00:27:47,830 --> 00:27:45,279
one in six minutes and five

755
00:27:49,750 --> 00:27:47,840
seconds it's not hard really the secret

756
00:27:53,029 --> 00:27:49,760
is knowing how well here we see that

757
00:27:54,950 --> 00:27:53,039
here we see the flywheel diameter see

758
00:27:56,070 --> 00:27:54,960
that's is my buddy scott up in vermont

759
00:27:58,149 --> 00:27:56,080
and he's got that's the small

760
00:28:04,630 --> 00:27:58,159
tripod he has a bigger one this is he

761
00:28:09,590 --> 00:28:06,870
that's interesting i climb that tripod

762
00:28:11,110 --> 00:28:09,600
every time you can erect a large tripod

763
00:28:13,590 --> 00:28:11,120

this way

764

00:28:15,029 --> 00:28:13,600

once this step is performed probably a

765

00:28:19,110 --> 00:28:15,039

max of 20 feet

766

00:28:22,149 --> 00:28:19,120

for stage two a third much larger 35 to

767

00:28:24,549 --> 00:28:22,159

40 foot tripod can be erected

768

00:28:27,590 --> 00:28:24,559

it will be done in exactly the same way

769

00:28:30,389 --> 00:28:27,600

as stage one to stage two

770

00:28:31,830 --> 00:28:30,399

you will now go from stage two to stage

771

00:28:34,710 --> 00:28:31,840

three so this guy's just hanging out in

772

00:28:37,110 --> 00:28:34,720

his backyard recreating this huh

773

00:28:38,630 --> 00:28:37,120

and come alongs accordingly to the much

774

00:28:40,070 --> 00:28:38,640

larger he's been like three years

775

00:28:43,190 --> 00:28:40,080

working on this

776

00:28:44,230 --> 00:28:43,200

that's pretty good tripod a shackle can

777

00:28:46,549 --> 00:28:44,240

be pre-assembled

778

00:28:50,070 --> 00:28:46,559

on the ground to provide a flat and

779

00:28:52,950 --> 00:28:50,080

reliable anchoring point on the top

780

00:28:54,149 --> 00:28:52,960

this will be lifted in the same way just

781

00:28:57,269 --> 00:28:54,159

described

782

00:28:59,269 --> 00:28:57,279

i don't know why he wouldn't be able to

783

00:29:01,350 --> 00:28:59,279

oh and then he's going to show us how he

784

00:29:04,070 --> 00:29:01,360

quarries in technique yep

785

00:29:05,669 --> 00:29:04,080

coral limestone can easily be cut with a

786

00:29:08,310 --> 00:29:05,679

wood saw by hand

787

00:29:09,430 --> 00:29:08,320

wow can also be cut with a machine doing

788

00:29:12,710 --> 00:29:09,440

the work

789

00:29:15,510 --> 00:29:12,720

to do this you need a large cutting edge

790

00:29:17,830 --> 00:29:15,520

at the museum today there's a giant iron

791

00:29:21,269 --> 00:29:17,840

door that has a 16-pole

792

00:29:24,830 --> 00:29:21,279

sun drawn on the face of it

793

00:29:25,990 --> 00:29:24,840

this large iron door was used to cut the

794

00:29:28,549 --> 00:29:26,000

blocks

795

00:29:31,430 --> 00:29:28,559

ignition the newly erected tripod over

796

00:29:33,350 --> 00:29:31,440

the area to be cut and quarry

797

00:29:34,470 --> 00:29:33,360

this is accomplished by using the

798

00:29:37,669 --> 00:29:34,480

wheelbarrow looking

799

00:29:38,310 --> 00:29:37,679

apparatus at the museum today this

800

00:29:41,269 --> 00:29:38,320

homemade

801
00:29:42,710 --> 00:29:41,279
counterbalanced contraption is actually

802
00:29:45,190 --> 00:29:42,720
a tripod he made one

803
00:29:46,789 --> 00:29:45,200
lifting oh interesting yeah that's just

804
00:29:48,310 --> 00:29:46,799
all off the pitches he's never even been

805
00:29:50,149 --> 00:29:48,320
to coral castle the walking

806
00:29:51,590 --> 00:29:50,159
of the large tripod that's pretty

807
00:29:55,190 --> 00:29:51,600
interesting at a time

808
00:29:59,669 --> 00:29:55,200
with minimal effort

809
00:30:03,110 --> 00:29:59,679
now gather the iron plate

810
00:30:06,470 --> 00:30:03,120
the hit and miss reciprocation engine

811
00:30:10,230 --> 00:30:06,480
a locomotion attachment

812
00:30:12,710 --> 00:30:10,240
a plate clevis or chain and a simple

813
00:30:15,029 --> 00:30:12,720

six foot stone chisel to break away the

814

00:30:17,830 --> 00:30:15,039

small chunks

815

00:30:18,470 --> 00:30:17,840

anchor the engine to the ground and

816

00:30:21,510 --> 00:30:18,480

assemble

817

00:30:23,510 --> 00:30:21,520

all the pieces for cutting

818

00:30:25,830 --> 00:30:23,520

lay out the first block pattern and

819

00:30:28,870 --> 00:30:25,840

start that this is so good

820

00:30:32,070 --> 00:30:28,880

so detail eight inches apart

821

00:30:34,710 --> 00:30:32,080

make the first two cuts in about a foot

822

00:30:36,070 --> 00:30:34,720

or so then break out the pieces and

823

00:30:39,830 --> 00:30:36,080

repeat to the desired

824

00:30:41,990 --> 00:30:39,840

depth then reorient the giant blade to

825

00:30:44,070 --> 00:30:42,000

cut all the required incisions as

826

00:30:47,110 --> 00:30:44,080

indicated by the diagram

827

00:30:49,430 --> 00:30:47,120

breaking out the small pieces as you go

828

00:30:50,710 --> 00:30:49,440

keep the rubble for wall filler later

829

00:30:53,909 --> 00:30:50,720

all right

830

00:30:57,029 --> 00:30:53,919

if you go to like go to about 13 minutes

831

00:30:59,590 --> 00:30:57,039

and 13 and a half minutes

832

00:31:02,830 --> 00:30:59,600

yeah right around yeah right around here

833

00:31:02,840 --> 00:31:08,230

okay

834

00:31:14,630 --> 00:31:12,230

now here's how the machine works

835

00:31:16,630 --> 00:31:14,640

a few batteries in the system reside

836

00:31:18,470 --> 00:31:16,640

inside the wheelhouse

837

00:31:20,230 --> 00:31:18,480

some of their current will turn the

838

00:31:24,389 --> 00:31:20,240

wheel which is a giant

839

00:31:27,669 --> 00:31:24,399

variable speed rotary switch

840

00:31:31,110 --> 00:31:27,679

there is a unit called a pmh that is

841

00:31:34,310 --> 00:31:31,120

actually the dc motors field stator

842

00:31:35,190 --> 00:31:34,320

that magnetically pulses the wheel

843

00:31:38,389 --> 00:31:35,200

around

844

00:31:41,350 --> 00:31:38,399

in one direction this

845

00:31:43,509 --> 00:31:41,360

in turn makes and breaks an electrical

846

00:31:48,789 --> 00:31:43,519

contact

847

00:31:49,750 --> 00:31:48,799

follower that rides on the four-leaf

848

00:31:53,669 --> 00:31:49,760

clover cam

849

00:31:54,710 --> 00:31:53,679

lobes this sends a signal from the same

850

00:31:57,590 --> 00:31:54,720

battery bank

851
00:32:01,669 --> 00:31:57,600
out to all the tripods on a third

852
00:32:04,789 --> 00:32:01,679
positive wire

853
00:32:07,029 --> 00:32:04,799
to summarize the machine's totality

854
00:32:09,830 --> 00:32:07,039
when that pulse of battery voltage is

855
00:32:12,549 --> 00:32:09,840
sent out on the grid's third wire

856
00:32:14,310 --> 00:32:12,559
it picks up a small relay like that of a

857
00:32:17,509 --> 00:32:14,320
car horn

858
00:32:19,509 --> 00:32:17,519
when that small relay pulls in it makes

859
00:32:21,830 --> 00:32:19,519
a larger contact

860
00:32:24,389 --> 00:32:21,840
sending bigger more local battery

861
00:32:25,990 --> 00:32:24,399
current down the tripod and into the

862
00:32:29,269 --> 00:32:26,000
actuating solenoid

863
00:32:31,990 --> 00:32:29,279

this is crazy pulls back

864

00:32:33,029 --> 00:32:32,000

an iron drive shaft or any other type of

865

00:32:35,110 --> 00:32:33,039

iron slug

866

00:32:37,669 --> 00:32:35,120

and then a spray and it's crazy that

867

00:32:40,710 --> 00:32:37,679

this guy rebuild all this stuff

868

00:32:43,110 --> 00:32:40,720

again yeah there can be multiple

869

00:32:44,310 --> 00:32:43,120

actuators cutting at the same time to

870

00:32:45,669 --> 00:32:44,320

really accomplish

871

00:32:47,269 --> 00:32:45,679

that basically right there it's just

872

00:32:48,549 --> 00:32:47,279

showing it all i mean if people want we

873

00:32:50,070 --> 00:32:48,559

can link the video and stuff for

874

00:32:52,870 --> 00:32:50,080

everybody they can go away yeah yeah you

875

00:32:55,509 --> 00:32:52,880

should watch this whole thing

876
00:32:57,110 --> 00:32:55,519
crazy rabbit hole this is a crazy

877
00:32:59,269 --> 00:32:57,120
[h__\h] rag

878
00:33:00,310 --> 00:32:59,279
it does help out scott a lot and

879
00:33:02,310 --> 00:33:00,320
everything like that

880
00:33:05,190 --> 00:33:02,320
yeah yeah we'll post a link this is this

881
00:33:07,190 --> 00:33:05,200
is amazing that he did all this

882
00:33:08,710 --> 00:33:07,200
like i said it took him a few years i

883
00:33:11,590 --> 00:33:08,720
never knew that you could cut

884
00:33:13,509 --> 00:33:11,600
you can cut coral rock with just a hand

885
00:33:14,549 --> 00:33:13,519
wood saw that's amazing i never knew

886
00:33:15,990 --> 00:33:14,559
that

887
00:33:17,909 --> 00:33:16,000
and he figured all this out and built

888
00:33:19,750 --> 00:33:17,919

this stuff all off of pitchers

889

00:33:21,750 --> 00:33:19,760
of course that's never been the

890

00:33:25,190 --> 00:33:21,760
crosstalk understood part of this

891

00:33:30,389 --> 00:33:27,269
and he knew what to do all through the

892

00:33:32,789 --> 00:33:30,399
years there's a legend about a girl

893

00:33:34,389 --> 00:33:32,799
i would never attempt to disclaim that

894

00:33:36,070 --> 00:33:34,399
oh yeah so the legend is that he built

895

00:33:38,870 --> 00:33:36,080
this whole place for a girl right it was

896

00:33:41,990 --> 00:33:38,880
like unrequited it's that's just

897

00:33:43,590 --> 00:33:42,000
we don't there's no there's no yeah

898

00:33:45,350 --> 00:33:43,600
it doesn't really mention a girl or

899

00:33:47,830 --> 00:33:45,360
anything and why ed was doing it it was

900

00:33:50,870 --> 00:33:49,269
it was yeah that's what the legend is

901

00:33:51,909 --> 00:33:50,880

that he did this for a girl out of love

902

00:33:53,350 --> 00:33:51,919

for a girl and

903

00:33:54,470 --> 00:33:53,360

you know hoping that she would come back

904

00:33:55,269 --> 00:33:54,480

and live there with him or something

905

00:33:57,110 --> 00:33:55,279

like that but

906

00:33:58,470 --> 00:33:57,120

i think that's just a story of legend he

907

00:33:58,870 --> 00:33:58,480

might have had a girlfriend at one point

908

00:34:00,310 --> 00:33:58,880

but

909

00:34:02,549 --> 00:34:00,320

in the orville book he doesn't really

910

00:34:04,230 --> 00:34:02,559

mention any girls ed with anybody

911

00:34:06,630 --> 00:34:04,240

like having a girlfriend or talking

912

00:34:08,230 --> 00:34:06,640

about a girlfriend so he just said that

913

00:34:09,750 --> 00:34:08,240

ed had a love for doing this type of

914

00:34:10,230 --> 00:34:09,760

stuff and he wanted to just build this

915

00:34:12,149 --> 00:34:10,240

thing and

916

00:34:14,149 --> 00:34:12,159

you know that's what he wanted to do

917

00:34:15,030 --> 00:34:14,159

basically so the girl thing again i

918

00:34:16,230 --> 00:34:15,040

don't know he might have had a

919

00:34:18,230 --> 00:34:16,240

girlfriend

920

00:34:19,510 --> 00:34:18,240

that he'd broken heart and he did this

921

00:34:22,069 --> 00:34:19,520

but so

922

00:34:23,270 --> 00:34:22,079

that's you know he did what what scott

923

00:34:24,710 --> 00:34:23,280

was trying to do was trying to figure

924

00:34:26,470 --> 00:34:24,720

out the whole mystery and trying to

925

00:34:28,069 --> 00:34:26,480

solve as much of it as he can and stuff

926

00:34:28,389 --> 00:34:28,079

what people say you know how it was done

927

00:34:30,470 --> 00:34:28,399

and

928

00:34:31,829 --> 00:34:30,480

all this because he talks about how you

929

00:34:33,430 --> 00:34:31,839

know

930

00:34:34,790 --> 00:34:33,440

ed would sing so people thought he was

931

00:34:35,909 --> 00:34:34,800

singing to the rocks and stuff what are

932

00:34:36,869 --> 00:34:35,919

you gonna do when you're sitting there

933

00:34:39,909 --> 00:34:36,879

working for [h__\h]

934

00:34:40,710 --> 00:34:39,919

12 hours a day and you got machines yeah

935

00:34:43,349 --> 00:34:40,720

i gotta have her

936

00:34:44,790 --> 00:34:43,359

i gotta have a radio as as amish as i

937

00:34:47,349 --> 00:34:44,800

like to get down here

938

00:34:48,069 --> 00:34:47,359

building crazy [h__h] i gotta have a radio

939

00:34:50,389 --> 00:34:48,079

or something

940

00:34:51,909 --> 00:34:50,399

yeah yeah you got it so you got the beat

941

00:34:53,510 --> 00:34:51,919

of these machines going and stuff so you

942

00:34:55,190 --> 00:34:53,520

just start singing and stuff and making

943

00:34:55,750 --> 00:34:55,200

up songs doing whatever and everything

944

00:34:58,550 --> 00:34:55,760

like that

945

00:35:00,390 --> 00:34:58,560

um he also figured and anybody who who's

946

00:35:00,950 --> 00:35:00,400

been to florida or worked in florida

947

00:35:02,630 --> 00:35:00,960

knows

948

00:35:04,310 --> 00:35:02,640

when when's the best time to work in

949

00:35:05,750 --> 00:35:04,320

florida at night

950

00:35:07,430 --> 00:35:05,760

because people like oh he did it he

951
00:35:09,030 --> 00:35:07,440
built it at night so nobody would know

952
00:35:09,829 --> 00:35:09,040
and nobody could see in anything like

953
00:35:14,950 --> 00:35:09,839
that

954
00:35:16,390 --> 00:35:14,960
he had to work most of the time during

955
00:35:18,150 --> 00:35:16,400
the day he had other little odd jobs and

956
00:35:19,750 --> 00:35:18,160
stuff that he did so he did that but at

957
00:35:22,390 --> 00:35:19,760
night it's cooler

958
00:35:22,950 --> 00:35:22,400
in florida yeah so we're getting people

959
00:35:24,310 --> 00:35:22,960
we're

960
00:35:25,910 --> 00:35:24,320
not going to get his cut and everything

961
00:35:28,310 --> 00:35:25,920
like that plus he would set the machines

962
00:35:31,510 --> 00:35:28,320
up and he could go to sleep

963
00:35:33,349 --> 00:35:31,520

his florida

964

00:35:35,270 --> 00:35:33,359

at night cause like during the day it is

965

00:35:36,390 --> 00:35:35,280

hot and muggy as [h__h] but at night it

966

00:35:38,310 --> 00:35:36,400

seems like you get a

967

00:35:39,670 --> 00:35:38,320

the sun goes down you get a cool breeze

968

00:35:41,510 --> 00:35:39,680

going and it's very nice

969

00:35:42,870 --> 00:35:41,520

it just makes perfect sense to work

970

00:35:44,069 --> 00:35:42,880

there at night

971

00:35:45,589 --> 00:35:44,079

you know what i mean yeah so you don't

972

00:35:47,349 --> 00:35:45,599

want to be on the floor of the sun

973

00:35:49,030 --> 00:35:47,359

trying to move heavy shed

974

00:35:50,870 --> 00:35:49,040

and we've already watched the video

975

00:35:52,150 --> 00:35:50,880

about you know as far as him never

976

00:35:53,750 --> 00:35:52,160

showing anybody what he did and

977

00:35:55,349 --> 00:35:53,760

everything like that we obviously he let

978

00:36:00,950 --> 00:35:55,359

the whole entire news crew go there and

979

00:36:05,589 --> 00:36:03,430

like this secretive guy that lives by

980

00:36:08,150 --> 00:36:05,599

himself he's all isolated and he's

981

00:36:08,630 --> 00:36:08,160

in here building this crazy thing but

982

00:36:11,990 --> 00:36:08,640

yeah he

983

00:36:14,950 --> 00:36:12,000

he sought publicity for it right

984

00:36:16,230 --> 00:36:14,960

well yeah he he wanted to do that he was

985

00:36:17,829 --> 00:36:16,240

still building he was still

986

00:36:19,589 --> 00:36:17,839

building it and he was allowing people

987

00:36:20,950 --> 00:36:19,599

to come there and have picnics and stuff

988

00:36:22,390 --> 00:36:20,960

as you see in the video

989

00:36:23,829 --> 00:36:22,400

the news crew was there as he was

990

00:36:25,510 --> 00:36:23,839

because the news crew found out this

991

00:36:25,990 --> 00:36:25,520

this crazy guy built this thing and then

992

00:36:28,150 --> 00:36:26,000

he moved

993

00:36:29,510 --> 00:36:28,160

it so this was after the move they had

994

00:36:30,950 --> 00:36:29,520

come there after it was

995

00:36:32,310 --> 00:36:30,960

and he had people were already going

996

00:36:33,750 --> 00:36:32,320

there and seeing it and stuff and he was

997

00:36:35,430 --> 00:36:33,760

still working on things and stuff that's

998

00:36:37,030 --> 00:36:35,440

why they were able to see him working on

999

00:36:43,030 --> 00:36:37,040

some of that

1000

00:36:48,550 --> 00:36:46,710

yep that's pretty crazy

1001
00:36:50,710 --> 00:36:48,560
and a big rocking chair made out of

1002
00:36:55,829 --> 00:36:50,720
rocks kids used to go and watch him

1003
00:36:57,430 --> 00:36:55,839
working and stuff like that you know

1004
00:36:59,349 --> 00:36:57,440
it's just another one of these urban

1005
00:37:01,990 --> 00:36:59,359
legends urban myths and stuff like that

1006
00:37:03,829 --> 00:37:02,000
and again ed like to do

1007
00:37:05,510 --> 00:37:03,839
ed would say himself that i use the the

1008
00:37:07,190 --> 00:37:05,520
magic of the egyptians and stuff like

1009
00:37:10,790 --> 00:37:07,200
that or the ways of the egyptians

1010
00:37:16,790 --> 00:37:10,800
because that's interesting you're here

1011
00:37:20,950 --> 00:37:19,430
i think that was the well down there

1012
00:37:22,950 --> 00:37:20,960
yeah that's the well

1013
00:37:24,870 --> 00:37:22,960

aka bathtub and stuff this there's a

1014

00:37:26,950 --> 00:37:24,880

whole like time dial

1015

00:37:28,150 --> 00:37:26,960

sun dial like clock thing yeah here's

1016

00:37:31,270 --> 00:37:28,160

the bathtub this

1017

00:37:32,870 --> 00:37:31,280

this chick's getting down in it that's

1018

00:37:36,230 --> 00:37:32,880

so funny

1019

00:37:39,270 --> 00:37:36,240

the sundial thing it shows the

1020

00:37:41,270 --> 00:37:39,280

all of like i forget what it is all the

1021

00:37:42,870 --> 00:37:41,280

seasons and it's it's a crazy it's not

1022

00:37:44,390 --> 00:37:42,880

your regular sundial that just tells you

1023

00:37:46,230 --> 00:37:44,400

the time and stuff it tells you the time

1024

00:37:48,550 --> 00:37:46,240

of the year and everything like that too

1025

00:37:49,990 --> 00:37:48,560

yeah the way it's a solar calendar yeah

1026

00:37:50,550 --> 00:37:50,000

yeah it's like a solo calendar and

1027

00:37:52,710 --> 00:37:50,560

everything and

1028

00:37:54,870 --> 00:37:52,720

i i i forgot all the stuff that it does

1029

00:37:58,230 --> 00:37:54,880

and stuff it's it's [h__\h] insane

1030

00:38:00,069 --> 00:37:58,240

and um well this guy was still amazing

1031

00:38:01,750 --> 00:38:00,079

for figuring out how to do all this [h__\h]

1032

00:38:03,510 --> 00:38:01,760

and getting this he wrote he wrote

1033

00:38:05,750 --> 00:38:03,520

his own books he wrote three books

1034

00:38:07,829 --> 00:38:05,760

himself one about magnets one

1035

00:38:09,109 --> 00:38:07,839

one about some other thing in here i i

1036

00:38:10,950 --> 00:38:09,119

forget one of that yeah it's about

1037

00:38:12,390 --> 00:38:10,960

electronic and magnetic currents and

1038

00:38:16,230 --> 00:38:12,400

stuff like that and

1039

00:38:18,870 --> 00:38:16,240

some of his weird crazy ideas so

1040

00:38:21,510 --> 00:38:18,880

yeah and six design is sharing your uh

1041

00:38:24,230 --> 00:38:21,520

youtube channel if if anybody

1042

00:38:25,190 --> 00:38:24,240

i think everybody already subscribed to

1043

00:38:26,630 --> 00:38:25,200

you but if not

1044

00:38:28,150 --> 00:38:26,640

yeah make sure that you guys go and

1045

00:38:29,589 --> 00:38:28,160

check out paranormal hood it's every

1046

00:38:32,069 --> 00:38:29,599

thursday night

1047

00:38:34,390 --> 00:38:32,079

i try to be there but sometimes jiggy i

1048

00:38:45,430 --> 00:38:34,400

get on cpt and i don't make it so i have

1049

00:38:45,440 --> 00:38:53,910

yeah i can hear you

1050

00:38:58,829 --> 00:38:56,630

yeah i can barely hear you really low

1051
00:39:00,710 --> 00:38:58,839
let's take

1052
00:39:02,630 --> 00:39:00,720
yeah well your mic's not all the way up

1053
00:39:05,430 --> 00:39:02,640
in like as mine

1054
00:39:06,550 --> 00:39:05,440
maybe that's what it is yeah oh there

1055
00:39:08,470 --> 00:39:06,560
was a moon dial

1056
00:39:13,670 --> 00:39:08,480
somebody said hold on i mean i can hear

1057
00:39:17,990 --> 00:39:16,550
did you know there was a moon dial yeah

1058
00:39:18,470 --> 00:39:18,000
and ellen fox shared some pictures of

1059
00:39:20,390 --> 00:39:18,480
yeah

1060
00:39:21,910 --> 00:39:20,400
there's a moon dial and a sundial thing

1061
00:39:23,589 --> 00:39:21,920
like i said it shows that the whole

1062
00:39:25,030 --> 00:39:23,599
procession of the sun and the moon

1063
00:39:27,349 --> 00:39:25,040

at the different times of the year and

1064

00:39:29,030 --> 00:39:27,359

stuff and it's inscribed on this

1065

00:39:30,630 --> 00:39:29,040

bowl that it goes around and it shows

1066

00:39:32,550 --> 00:39:30,640

the pattern how it makes like this weird

1067

00:39:34,310 --> 00:39:32,560

figure eight pattern that goes around it

1068

00:39:35,750 --> 00:39:34,320

and at the time of the day you can tell

1069

00:39:37,430 --> 00:39:35,760

where it is on the line what time of the

1070

00:39:38,230 --> 00:39:37,440

day is and count over the lines and

1071

00:39:39,430 --> 00:39:38,240

stuff and see what

1072

00:39:41,670 --> 00:39:39,440

what day of the year it is and

1073

00:39:43,190 --> 00:39:41,680

everything by these lines spiral lines

1074

00:39:45,829 --> 00:39:43,200

that go all the way around it

1075

00:39:46,630 --> 00:39:45,839

oh that's pretty crazy so he's got a

1076

00:39:49,670 --> 00:39:46,640

sundial

1077

00:39:51,750 --> 00:39:49,680

that tells the time and the calendar

1078

00:39:53,589 --> 00:39:51,760

yep it's on calendar and he's got a

1079

00:39:58,310 --> 00:39:53,599

movement dial as well

1080

00:40:05,109 --> 00:40:02,069

crazy weird genius i like that

1081

00:40:06,630 --> 00:40:05,119

i like crazy weird geniuses man you know

1082

00:40:09,510 --> 00:40:06,640

there's just something interesting about

1083

00:40:15,109 --> 00:40:09,520

guys like that just go off and create

1084

00:40:19,910 --> 00:40:17,910

okay let me see oh yeah there is some

1085

00:40:23,670 --> 00:40:19,920

new people here good good to see that

1086

00:40:27,750 --> 00:40:25,510

yeah and and ellen says it was a

1087

00:40:29,750 --> 00:40:27,760

separate dial used for each

1088

00:40:31,270 --> 00:40:29,760

so if you have any questions or comments

1089

00:40:35,990 --> 00:40:31,280

in the live chat please put them in

1090

00:40:37,430 --> 00:40:36,000

all caps uh that really helps

1091

00:40:39,030 --> 00:40:37,440

somebody said they couldn't hear you in

1092

00:40:41,829 --> 00:40:39,040

the live chat as well

1093

00:40:43,190 --> 00:40:41,839

can you hear me now there you go now now

1094

00:40:45,030 --> 00:40:43,200

you got that strong

1095

00:40:48,069 --> 00:40:45,040

black man voice there we go that's what

1096

00:40:51,750 --> 00:40:49,670

that was the weed stephen i sent you

1097

00:40:51,990 --> 00:40:51,760

some video in some pictures on twitter

1098

00:40:53,670 --> 00:40:52,000

which

1099

00:40:55,030 --> 00:40:53,680

are actually like live videos and

1100

00:40:56,390 --> 00:40:55,040

pictures we actually took when we were

1101

00:40:57,750 --> 00:40:56,400

up in vermont the last time

1102

00:40:59,589 --> 00:40:57,760

so those are recent stuff where you

1103

00:41:01,190 --> 00:40:59,599

actually see the pmh and most you see

1104

00:41:02,790 --> 00:41:01,200

the tripods and stuff that he actually

1105

00:41:04,630 --> 00:41:02,800

has on the property there

1106

00:41:05,990 --> 00:41:04,640

did you did you send them in dm and

1107

00:41:07,190 --> 00:41:06,000

twitter i don't see that no for some

1108

00:41:08,710 --> 00:41:07,200

reason all that i had to send them to

1109

00:41:10,309 --> 00:41:08,720

you live on twitter so they just tweet

1110

00:41:12,710 --> 00:41:10,319

but you i couldn't send them to you

1111

00:41:15,030 --> 00:41:12,720

okay but yeah so everybody can actually

1112

00:41:16,550 --> 00:41:15,040

take a look at them too

1113

00:41:18,069 --> 00:41:16,560

look at my notifications i should be

1114

00:41:20,069 --> 00:41:18,079

able to find these right

1115

00:41:21,430 --> 00:41:20,079

oh yeah i got him i'll just share my

1116

00:41:23,589 --> 00:41:21,440

i'll just share my twitter

1117

00:41:24,550 --> 00:41:23,599

yeah that's all in my notification feed

1118

00:41:26,309 --> 00:41:24,560

there we go

1119

00:41:27,990 --> 00:41:26,319

we had video of smoking actually

1120

00:41:29,109 --> 00:41:28,000

climbing one of the tripods but this is

1121

00:41:30,950 --> 00:41:29,119

when um

1122

00:41:32,470 --> 00:41:30,960

instagram first did those live what do

1123

00:41:33,910 --> 00:41:32,480

you become stories so i didn't know they

1124

00:41:35,030 --> 00:41:33,920

only lasted for 24 hours i didn't know

1125

00:41:36,950 --> 00:41:35,040

how to say yeah when they first

1126

00:41:39,030 --> 00:41:36,960

came out they only literally 24 hours it

1127

00:41:41,109 --> 00:41:39,040

was weird

1128

00:41:45,109 --> 00:41:41,119

that's interesting let me get rid of

1129

00:41:45,119 --> 00:41:52,870

there we go and go back to the

1130

00:41:55,990 --> 00:41:54,430

yeah and folks if you actually there's a

1131

00:41:58,710 --> 00:41:56,000

1961 film

1132

00:42:02,390 --> 00:41:58,720

nude on the moon was shot in coral

1133

00:42:05,430 --> 00:42:02,400

castle that's interesting

1134

00:42:07,190 --> 00:42:05,440

nude on the moon then we'll go see some

1135

00:42:09,030 --> 00:42:07,200

of these other pictures that you sent me

1136

00:42:13,670 --> 00:42:09,040

these are of the tripods

1137

00:42:15,829 --> 00:42:13,680

on this property tripod up close

1138

00:42:17,910 --> 00:42:15,839

that's very interesting and you'll see

1139

00:42:19,349 --> 00:42:17,920

the videos of him with the pmh actually

1140

00:42:21,030 --> 00:42:19,359

running for us which he hooked up the

1141

00:42:22,630 --> 00:42:21,040

car batteries which is exactly the same

1142

00:42:24,470 --> 00:42:22,640

stuff that ed was doing and using for

1143

00:42:25,349 --> 00:42:24,480

power sources and stuff old headlights

1144

00:42:28,390 --> 00:42:25,359

from car

1145

00:42:29,990 --> 00:42:28,400

and things a lot of stuff from scratch i

1146

00:42:32,069 --> 00:42:30,000

love this guy i love both

1147

00:42:33,190 --> 00:42:32,079

of them i love the recreator guy for

1148

00:42:35,109 --> 00:42:33,200

figuring this [h__h] out

1149

00:42:36,870 --> 00:42:35,119

and the original for figuring this [h__h]

1150

00:42:38,550 --> 00:42:36,880

out and even you would love it

1151
00:42:40,309 --> 00:42:38,560
he lives in a little cabin that he built

1152
00:42:41,109 --> 00:42:40,319
himself and his [h__h] property up in

1153
00:42:43,589 --> 00:42:41,119
vermont

1154
00:42:45,670 --> 00:42:43,599
out in the world yeah he uses to

1155
00:42:49,910 --> 00:42:45,680
generate power sometimes he's got solar

1156
00:42:53,430 --> 00:42:51,510
yeah you know what's interesting here is

1157
00:42:55,990 --> 00:42:53,440
that i we have power

1158
00:42:56,710 --> 00:42:56,000
because that was the only thing that the

1159
00:42:58,710 --> 00:42:56,720
locals

1160
00:43:00,309 --> 00:42:58,720
could could provide you know what i mean

1161
00:43:00,790 --> 00:43:00,319
and i know i would be building the cabin

1162
00:43:05,829 --> 00:43:00,800
so

1163
00:43:07,589 --> 00:43:05,839

got a wind turbine in a box that i never

1164

00:43:09,589 --> 00:43:07,599

hooked up oh he's got the wind turbine

1165

00:43:11,109 --> 00:43:09,599

too yeah and i got a bunch of batteries

1166

00:43:13,109 --> 00:43:11,119

and like somebody gave me a bunch of

1167

00:43:14,309 --> 00:43:13,119

golf cart batteries that i reconditioned

1168

00:43:15,990 --> 00:43:14,319

because the batteries are the most

1169

00:43:18,470 --> 00:43:16,000

expensive part of a solar setup

1170

00:43:19,829 --> 00:43:18,480

it's really crazy expensive let's uh

1171

00:43:23,349 --> 00:43:19,839

take a look at this guy

1172

00:43:23,990 --> 00:43:23,359

showing this crazy machine that's me and

1173

00:43:34,470 --> 00:43:24,000

him

1174

00:43:34,480 --> 00:43:47,750

that's so amazing

1175

00:43:52,150 --> 00:43:51,270

amazing let's uh let's see what is it oh

1176

00:43:54,309 --> 00:43:52,160

yeah there's other

1177

00:43:56,390 --> 00:43:54,319

you guys got another video yeah it shows

1178

00:43:58,630 --> 00:43:56,400

it working and stuff

1179

00:44:02,630 --> 00:43:58,640

okay let's share this one that's the

1180

00:44:05,910 --> 00:44:04,390

see it's just like a pie it's just a

1181

00:44:08,390 --> 00:44:05,920

power hammer just that's so

1182

00:44:09,670 --> 00:44:08,400

funny it sends a signal from the battery

1183

00:44:11,990 --> 00:44:09,680

and it just

1184

00:44:13,670 --> 00:44:12,000

didn't think there's a there's the metal

1185

00:44:15,349 --> 00:44:13,680

slug is in there with a spring in it so

1186

00:44:17,270 --> 00:44:15,359

think think think and chips away

1187

00:44:20,630 --> 00:44:17,280

he's literally chipped away his concrete

1188

00:44:24,390 --> 00:44:22,630

yeah that's funny i can imagine doing

1189

00:44:27,510 --> 00:44:24,400

that in my garage or something with my

1190

00:44:29,910 --> 00:44:27,520

my wife [h__\h] losing her [h__\h]

1191

00:44:31,510 --> 00:44:29,920

he's chill but he chiseled out like a

1192

00:44:32,309 --> 00:44:31,520

this stone bowl and everything that he

1193

00:44:34,550 --> 00:44:32,319

made [h__\h]

1194

00:44:35,910 --> 00:44:34,560

like this [h__\h] outdoor faucet with

1195

00:44:37,030 --> 00:44:35,920

and [h__\h] like you can go and get like an

1196

00:44:39,030 --> 00:44:37,040

outdoor bubbler

1197

00:44:40,470 --> 00:44:39,040

with this machine right here oh yeah i'd

1198

00:44:42,150 --> 00:44:40,480

like to send them pictures of that too

1199

00:44:44,390 --> 00:44:42,160

i need one of these man i want him to

1200

00:44:46,710 --> 00:44:44,400

make me one

1201

00:44:48,390 --> 00:44:46,720

uh he'll he will it's not he makes a

1202

00:44:49,829 --> 00:44:48,400

mini one that comes in a box and stuff

1203

00:44:51,030 --> 00:44:49,839

like that that you can actually use and

1204

00:44:52,470 --> 00:44:51,040

it will actually power stuff and

1205

00:44:54,390 --> 00:44:52,480

everything if you poke up power to and

1206

00:44:57,990 --> 00:44:54,400

stuff it's smaller than this

1207

00:45:00,550 --> 00:44:58,000

he'll make it for you i'll put you in

1208

00:45:02,069 --> 00:45:00,560

uh i don't i probably wouldn't know what

1209

00:45:04,230 --> 00:45:02,079

to do with it but

1210

00:45:07,349 --> 00:45:04,240

the geek in me is like wow i could

1211

00:45:09,349 --> 00:45:07,359

figure something out for this machine

1212

00:45:14,309 --> 00:45:09,359

and here we have another version another

1213

00:45:19,030 --> 00:45:17,349

oh i have to mute this because he's got

1214

00:45:23,750 --> 00:45:19,040

a

1215

00:45:27,990 --> 00:45:25,349

[h__\h] copyright strikes there's

1216

00:45:38,710 --> 00:45:28,000

youtube algorithm ai gods always know

1217

00:45:41,750 --> 00:45:40,309

and it will send power out as long as

1218

00:45:43,190 --> 00:45:41,760

the batteries have power

1219

00:45:47,750 --> 00:45:43,200

ed would charge it up he had an old

1220

00:45:50,950 --> 00:45:49,430

and because the batteries all all in

1221

00:45:51,750 --> 00:45:50,960

parallel and banked together and stuff

1222

00:45:53,510 --> 00:45:51,760

he would

1223

00:45:55,510 --> 00:45:53,520

charge the batteries all together with

1224

00:45:57,270 --> 00:45:55,520

his pickup truck and then he would

1225

00:45:59,990 --> 00:45:57,280

uh shut his truck off and stuff and he'd

1226
00:46:02,950 --> 00:46:00,000
start up this thing and it would just oh

1227
00:46:04,470 --> 00:46:02,960
this is pretty interesting

1228
00:46:06,630 --> 00:46:04,480
somebody would go to the lengths that

1229
00:46:07,270 --> 00:46:06,640
this gentleman has gone to to recreate

1230
00:46:09,750 --> 00:46:07,280
this stuff

1231
00:46:11,270 --> 00:46:09,760
yeah yeah if everybody wants to go and

1232
00:46:12,790 --> 00:46:11,280
check out his youtube channel later on

1233
00:46:14,309 --> 00:46:12,800
he has video where that thing is

1234
00:46:17,829 --> 00:46:14,319
spinning and running and just

1235
00:46:19,430 --> 00:46:17,839
hitting up the meta the slug for hours

1236
00:46:21,510 --> 00:46:19,440
yeah you know what i'm thinking what i'm

1237
00:46:22,870 --> 00:46:21,520
thinking about that i was thinking about

1238
00:46:25,109 --> 00:46:22,880

that big saw that

1239

00:46:27,510 --> 00:46:25,119

and the actuator boy if i could hook

1240

00:46:28,470 --> 00:46:27,520

that up on a log i could make some slabs

1241

00:46:32,390 --> 00:46:28,480

just let it run

1242

00:46:35,349 --> 00:46:32,400

24 7 who cares you know because it takes

1243

00:46:36,950 --> 00:46:35,359

dude i got a chainsaw mill thing and and

1244

00:46:39,430 --> 00:46:36,960

you know oh you can make your own

1245

00:46:40,710 --> 00:46:39,440

shelves and lumber live slabs but it

1246

00:46:42,550 --> 00:46:40,720

takes like a [h__\h]

1247

00:46:44,950 --> 00:46:42,560

hour and a half to get through a six

1248

00:46:46,630 --> 00:46:44,960

foot log or so you know with a chainsaw

1249

00:46:48,390 --> 00:46:46,640

run and at full bore

1250

00:46:50,309 --> 00:46:48,400

it's because it's not meant to cut that

1251

00:46:51,910 --> 00:46:50,319

way oh yeah something like this you

1252

00:46:52,470 --> 00:46:51,920

might if you just set it up and let it

1253

00:46:55,349 --> 00:46:52,480

go

1254

00:46:56,069 --> 00:46:55,359

well no that's three days now a day for

1255

00:46:58,470 --> 00:46:56,079

nowadays

1256

00:47:00,230 --> 00:46:58,480

four milling logs yeah they have big

1257

00:47:01,910 --> 00:47:00,240

band saws but they're way out of my

1258

00:47:04,150 --> 00:47:01,920

league yeah actually scott actually had

1259

00:47:05,829 --> 00:47:04,160

that three grand yeah i would love to

1260

00:47:07,430 --> 00:47:05,839

have it he had that stuff so

1261

00:47:09,589 --> 00:47:07,440

yeah he had all well i don't know for me

1262

00:47:11,589 --> 00:47:09,599

it's like i just made some shelves and

1263

00:47:13,109 --> 00:47:11,599

[h__h] so yeah whatever

1264

00:47:15,829 --> 00:47:13,119

but after i made a couple shelves i was

1265

00:47:16,150 --> 00:47:15,839

like yeah but back in ed's time this is

1266

00:47:18,150 --> 00:47:16,160

this

1267

00:47:19,430 --> 00:47:18,160

is you know that was like innovative and

1268

00:47:21,430 --> 00:47:19,440

stuff he took like these new

1269

00:47:22,630 --> 00:47:21,440

machines that are coming out he's like

1270

00:47:25,030 --> 00:47:22,640

this and he

1271

00:47:28,069 --> 00:47:25,040

put all together together and was able

1272

00:47:30,069 --> 00:47:28,079

to do all this [h__h] all by himself

1273

00:47:31,349 --> 00:47:30,079

yeah it's pretty amazing and it's

1274

00:47:33,190 --> 00:47:31,359

amazing that you went

1275

00:47:35,510 --> 00:47:33,200

that deep down the rabbit hole to figure

1276

00:47:37,109 --> 00:47:35,520

this stuff out well yeah

1277

00:47:38,390 --> 00:47:37,119

about well because i lived in florida i

1278

00:47:39,670 --> 00:47:38,400

never actually been there and stuff but

1279

00:47:40,870 --> 00:47:39,680

i heard about it and i was supposed to

1280

00:47:42,710 --> 00:47:40,880

go there and i

1281

00:47:44,230 --> 00:47:42,720

i just never got to go there when i was

1282

00:47:46,069 --> 00:47:44,240

living in florida and i was

1283

00:47:47,990 --> 00:47:46,079

always fascinated by it and because the

1284

00:47:49,829 --> 00:47:48,000

stories that are behind it and stuff and

1285

00:47:51,190 --> 00:47:49,839

eventually i finally got to really dig

1286

00:47:52,950 --> 00:47:51,200

into it and and

1287

00:47:54,790 --> 00:47:52,960

i stumbled across scott here and i was

1288

00:47:56,069 --> 00:47:54,800

like holy [\h__\h] i was like there it is

1289

00:47:57,750 --> 00:47:56,079

that's the [\h__\h] answer because i was

1290

00:47:59,510 --> 00:47:57,760

like there's no way that he was mad

1291

00:48:01,270 --> 00:47:59,520

levitating all this [\h__\h] and doing all

1292

00:48:02,870 --> 00:48:01,280

this other stuff i'm like yeah it sounds

1293

00:48:03,670 --> 00:48:02,880

[\h__\h] great and [\h__\h] like that but i'm

1294

00:48:05,430 --> 00:48:03,680

like it's not

1295

00:48:07,109 --> 00:48:05,440

it's not [\h__\h] real i was like look is

1296

00:48:08,549 --> 00:48:07,119

this funny though is like the way that

1297

00:48:10,470 --> 00:48:08,559

this left i knew that machine

1298

00:48:12,390 --> 00:48:10,480

was some type of an electronic machine

1299

00:48:14,870 --> 00:48:12,400

that was doing something that wasn't

1300

00:48:16,790 --> 00:48:14,880

levitation and [\h__\h] magical [\h__\h]

1301

00:48:19,670 --> 00:48:16,800

powers and [h__\h] like that

1302

00:48:19,990 --> 00:48:19,680

not an electronic electric engineer like

1303

00:48:21,510 --> 00:48:20,000

scott

1304

00:48:23,109 --> 00:48:21,520

is and stuff like that that i just

1305

00:48:24,950 --> 00:48:23,119

didn't know exactly what it was and how

1306

00:48:26,710 --> 00:48:24,960

it worked from looking at the old thing

1307

00:48:28,790 --> 00:48:26,720

because what you see in the pitches of

1308

00:48:30,390 --> 00:48:28,800

coral castle and stuff that's like

1309

00:48:32,230 --> 00:48:30,400

doesn't have everything on it most of

1310

00:48:33,510 --> 00:48:32,240

the pieces for it are hanging on the

1311

00:48:35,589 --> 00:48:33,520

wall

1312

00:48:37,270 --> 00:48:35,599

okay so that's just what you see there

1313

00:48:38,870 --> 00:48:37,280

is the wheel and just some of the

1314

00:48:40,390 --> 00:48:38,880

things attached to it it's not all the

1315

00:48:41,670 --> 00:48:40,400

pieces there so people like oh how's

1316

00:48:44,710 --> 00:48:41,680

this working stuff

1317

00:48:46,549 --> 00:48:44,720

so when scott saw that he's like that's

1318

00:48:48,309 --> 00:48:46,559

i know that and he saw the pieces on the

1319

00:48:50,309 --> 00:48:48,319

wall he's like if you put those pieces

1320

00:48:51,430 --> 00:48:50,319

on that he's like i know what that is i

1321

00:48:53,430 --> 00:48:51,440

know what that will do

1322

00:48:54,950 --> 00:48:53,440

he's like i can build this and he built

1323

00:48:55,910 --> 00:48:54,960

this up in vermont and he made the

1324

00:48:57,910 --> 00:48:55,920

replica and it's

1325

00:48:59,270 --> 00:48:57,920

that's what it is and it's like i said

1326

00:49:01,030 --> 00:48:59,280

if you look on his

1327

00:49:02,470 --> 00:49:01,040

on the wall in coral castle they have

1328

00:49:03,990 --> 00:49:02,480

his tools and these little things that

1329

00:49:05,990 --> 00:49:04,000

he made and stuff their pieces

1330

00:49:07,589 --> 00:49:06,000

for this depending on what he was doing

1331

00:49:09,670 --> 00:49:07,599

at the time he would just

1332

00:49:11,109 --> 00:49:09,680

okay that i need to do the sauce so that

1333

00:49:12,710 --> 00:49:11,119

required a different one made because it

1334

00:49:13,109 --> 00:49:12,720

sends a different signal and stuff like

1335

00:49:14,790 --> 00:49:13,119

that

1336

00:49:17,109 --> 00:49:14,800

so he could switch out these parts on

1337

00:49:18,790 --> 00:49:17,119

that but because it wasn't all together

1338

00:49:19,430 --> 00:49:18,800

and stuff most people looking at it were

1339

00:49:22,549 --> 00:49:19,440

like huh

1340

00:49:23,910 --> 00:49:22,559

what what do you got a glass bottle

1341

00:49:25,670 --> 00:49:23,920

hanging over here on the wall with

1342

00:49:26,309 --> 00:49:25,680

copper wire wrapped around it for you

1343

00:49:38,069 --> 00:49:26,319

know what i mean

1344

00:49:41,990 --> 00:49:40,950

oh my god what are we gonna do it's

1345

00:49:43,910 --> 00:49:42,000

magical so

1346

00:49:45,190 --> 00:49:43,920

they couldn't put it together but scott

1347

00:49:46,710 --> 00:49:45,200

being him and so

1348

00:49:48,710 --> 00:49:46,720

ingrained into all this [h__\h]

1349

00:49:49,109 --> 00:49:48,720

electronical technology and stuff and

1350

00:49:53,190 --> 00:49:49,119

he's

1351

00:49:55,190 --> 00:49:53,200

almost 70 now right

1352

00:49:56,950 --> 00:49:55,200

yeah he's in the 70s and stuff you know

1353

00:49:59,430 --> 00:49:56,960

he was working on nuclear subs back when

1354

00:50:00,309 --> 00:49:59,440

he was a [h__\h] teen in his 20s and

1355

00:50:03,750 --> 00:50:00,319

[h__\h]

1356

00:50:04,710 --> 00:50:03,760

the sub and then he was still in there

1357

00:50:06,870 --> 00:50:04,720

after that and stuff

1358

00:50:08,470 --> 00:50:06,880

long [h__\h] time that he was doing it

1359

00:50:10,470 --> 00:50:08,480

and so he knew

1360

00:50:12,230 --> 00:50:10,480

once he saw that and and he saw the

1361

00:50:13,829 --> 00:50:12,240

pieces on he started to put the puzzle

1362

00:50:15,270 --> 00:50:13,839

together and he figured it all out like

1363

00:50:16,710 --> 00:50:15,280

i said you saw him with the wheelbarrow

1364

00:50:17,829 --> 00:50:16,720

in the video there he could see from

1365

00:50:19,270 --> 00:50:17,839

just the little picture

1366

00:50:20,870 --> 00:50:19,280

that's it he's never been to coral

1367

00:50:21,589 --> 00:50:20,880

castle he's only looked at pictures of

1368

00:50:23,190 --> 00:50:21,599

this stuff

1369

00:50:24,950 --> 00:50:23,200

he could just see from the picture how

1370

00:50:25,510 --> 00:50:24,960

he made the wheelbarrow and he made one

1371

00:50:29,109 --> 00:50:25,520

just like

1372

00:50:30,790 --> 00:50:29,119

it that's so funny yeah

1373

00:50:32,950 --> 00:50:30,800

and it's starting to put that it's funny

1374

00:50:35,270 --> 00:50:32,960

to put that that level of

1375

00:50:36,950 --> 00:50:35,280

like time and energy into recreating

1376

00:50:38,710 --> 00:50:36,960

that stuff all the pitches and he knew

1377

00:50:39,430 --> 00:50:38,720

about the video he saw the videos and

1378

00:50:41,670 --> 00:50:39,440

stuff of

1379

00:50:43,430 --> 00:50:41,680

the tripod so he figured all that stuff

1380

00:50:44,390 --> 00:50:43,440

out and he knew how to recreate that

1381

00:50:46,710 --> 00:50:44,400

stuff with the

1382

00:50:48,309 --> 00:50:46,720

pulleys and block and tackle you know

1383

00:50:50,549 --> 00:50:48,319

come alongs and

1384

00:50:52,069 --> 00:50:50,559

he figured it all out and and so i got

1385

00:50:53,910 --> 00:50:52,079

in touch with scott we went up there a

1386

00:50:55,349 --> 00:50:53,920

few been up there a few times now and

1387

00:50:57,589 --> 00:50:55,359

stuff to hang out with them and stuff

1388

00:50:59,270 --> 00:50:57,599

watch the thing working we've got some

1389

00:51:00,950 --> 00:50:59,280

journeys up there

1390

00:51:03,190 --> 00:51:00,960

eating some mushrooms gone looking for

1391

00:51:04,470 --> 00:51:03,200

bigfoot [h__h] it we were up there

1392

00:51:06,230 --> 00:51:04,480

it was either i think it was the least

1393

00:51:08,390 --> 00:51:06,240

it would be cool if this you were in

1394

00:51:09,510 --> 00:51:08,400

coral castle and there was a bigfoot

1395

00:51:10,470 --> 00:51:09,520

because yeah and that would be like

1396

00:51:13,510 --> 00:51:10,480

there was a

1397

00:51:15,190 --> 00:51:13,520

interdimensional portal or something he

1398

00:51:17,190 --> 00:51:15,200

wants to actually build like coral

1399

00:51:18,309 --> 00:51:17,200

castle too like or whatever he has a

1400

00:51:20,230 --> 00:51:18,319

giant [h__h]

1401
00:51:21,750 --> 00:51:20,240
vein of quartz and granite and stuff

1402
00:51:23,990 --> 00:51:21,760
going through his property

1403
00:51:25,510 --> 00:51:24,000
that he wants to [h__h] do eventually

1404
00:51:26,710 --> 00:51:25,520
and make some kind of thing up there on

1405
00:51:28,309 --> 00:51:26,720
his property but

1406
00:51:31,030 --> 00:51:28,319
it's because it's granted it's not

1407
00:51:32,549 --> 00:51:31,040
[h__h] cut in that soft yes

1408
00:51:34,470 --> 00:51:32,559
yeah he's gonna have to figure out some

1409
00:51:36,390 --> 00:51:34,480
diamond songs or something [h__h]

1410
00:51:37,990 --> 00:51:36,400
he doesn't he's like that's just way

1411
00:51:39,430 --> 00:51:38,000
bigger project he's like if i had some

1412
00:51:40,230 --> 00:51:39,440
of that stuff he's like this thing i

1413
00:51:42,950 --> 00:51:40,240

would

1414

00:51:44,549 --> 00:51:42,960

get it done in no time but because it's

1415

00:51:46,069 --> 00:51:44,559

that he's only done small little

1416

00:51:47,510 --> 00:51:46,079

projects like he's like i said he made

1417

00:51:48,870 --> 00:51:47,520

like this bowl thing with a little

1418

00:51:51,670 --> 00:51:48,880

fountain you can get a drink at

1419

00:51:53,349 --> 00:51:51,680

[h__h] and little things and stuff but to

1420

00:51:55,190 --> 00:51:53,359

build the whole thing like that

1421

00:51:56,710 --> 00:51:55,200

out of actual granite and quartz and

1422

00:51:58,790 --> 00:51:56,720

stuff is gonna be some

1423

00:52:00,630 --> 00:51:58,800

some work but he can do it he can he had

1424

00:52:02,309 --> 00:52:00,640

the saw set up and everything and it

1425

00:52:03,670 --> 00:52:02,319

will cut granite he can cut granite

1426

00:52:06,069 --> 00:52:03,680

yeah but i don't know how you even move

1427

00:52:08,470 --> 00:52:06,079

like i have some i have some big

1428

00:52:09,829 --> 00:52:08,480

[h__h] boulder rocks in my yard here

1429

00:52:11,270 --> 00:52:09,839

that i got to figure out how to get rid

1430

00:52:14,390 --> 00:52:11,280

of

1431

00:52:17,109 --> 00:52:14,400

like yeah yeah maybe i

1432

00:52:18,549 --> 00:52:17,119

think i think we're going to try and no

1433

00:52:19,270 --> 00:52:18,559

i think we're going to try a bobcat

1434

00:52:22,069 --> 00:52:19,280

first

1435

00:52:22,950 --> 00:52:22,079

there you go tumble it down something

1436

00:52:26,549 --> 00:52:22,960

you know

1437

00:52:27,829 --> 00:52:26,559

into the wood there was some used rocks

1438

00:52:29,829 --> 00:52:27,839

on his property yeah he moved

1439

00:52:31,270 --> 00:52:29,839

he showed us some rocks that he moved up

1440

00:52:33,589 --> 00:52:31,280

on his property with this thing they

1441

00:52:36,630 --> 00:52:33,599

they had to be at least five tons

1442

00:52:39,190 --> 00:52:36,640

wow that's interesting yeah

1443

00:52:41,109 --> 00:52:39,200

and he's he's got that youtube channel

1444

00:52:41,990 --> 00:52:41,119

there's more than just a few videos of

1445

00:52:44,150 --> 00:52:42,000

him with all this

1446

00:52:45,910 --> 00:52:44,160

yeah he's got some other videos of him

1447

00:52:47,190 --> 00:52:45,920

doing some other stuff that he's made

1448

00:52:48,950 --> 00:52:47,200

actually i think it's got his water

1449

00:52:50,309 --> 00:52:48,960

wheel thing that he's made on there and

1450

00:52:51,030 --> 00:52:50,319

everything some other stuff that he's

1451

00:52:52,950 --> 00:52:51,040

messed around

1452

00:52:54,710 --> 00:52:52,960

that are kind of similar ideas on what

1453

00:52:55,990 --> 00:52:54,720

ed did with the magnets and stuff like

1454

00:52:57,589 --> 00:52:56,000

that and making

1455

00:53:00,069 --> 00:52:57,599

machines and things like that to do

1456

00:53:01,270 --> 00:53:00,079

other things yeah his property's crazy

1457

00:53:03,109 --> 00:53:01,280

he's got a couple like he's got his

1458

00:53:04,870 --> 00:53:03,119

cabin that he lives on

1459

00:53:06,630 --> 00:53:04,880

and then he's got like this other little

1460

00:53:08,390 --> 00:53:06,640

tree house thing and

1461

00:53:10,309 --> 00:53:08,400

he's got all kinds of stuff up there man

1462

00:53:15,589 --> 00:53:10,319

it's crazy that sounds like my kind of

1463

00:53:19,829 --> 00:53:17,430

he knows all the stuff that ed knows and

1464

00:53:21,589 --> 00:53:19,839

how to do all that stuff too because his

1465

00:53:23,430 --> 00:53:21,599

he grew up in vermont and everything and

1466

00:53:24,309 --> 00:53:23,440

his parents would did all that logging

1467

00:53:26,390 --> 00:53:24,319

and they cleared out

1468

00:53:28,230 --> 00:53:26,400

all the stuff up there his family lived

1469

00:53:31,589 --> 00:53:28,240

in the whole area all around there like

1470

00:53:33,349 --> 00:53:31,599

it's basically their own little town

1471

00:53:35,109 --> 00:53:33,359

yeah that's interesting i wish i had

1472

00:53:36,390 --> 00:53:35,119

more land because i could build a cord

1473

00:53:38,069 --> 00:53:36,400

wood castle here

1474

00:53:39,990 --> 00:53:38,079

once you figure out this cord wood [h__\h]

1475

00:53:40,549 --> 00:53:40,000

and it's just like wait you mean i could

1476

00:53:43,589 --> 00:53:40,559

just cut

1477

00:53:45,349 --> 00:53:43,599

logs and slap together like towers with

1478

00:53:46,710 --> 00:53:45,359

some cement and logs and stuff you're

1479

00:53:47,510 --> 00:53:46,720

like you could build anything out of

1480

00:53:50,549 --> 00:53:47,520

that [h__h]

1481

00:53:52,309 --> 00:53:50,559

yeah but i i'm running out of space we

1482

00:53:55,910 --> 00:53:52,319

like to keep enough as much woods

1483

00:53:56,309 --> 00:53:55,920

as we can you know yeah and resources

1484

00:53:58,069 --> 00:53:56,319

too

1485

00:54:00,230 --> 00:53:58,079

like when i first got here there was so

1486

00:54:00,870 --> 00:54:00,240

many rocks i built like this big stone

1487

00:54:03,430 --> 00:54:00,880

shower

1488

00:54:05,270 --> 00:54:03,440

and a big stone floor and and i'm

1489

00:54:06,710 --> 00:54:05,280

struggling to find enough to build the

1490

00:54:08,549 --> 00:54:06,720

next floor out of

1491

00:54:10,069 --> 00:54:08,559

or the easy ones are gone and now i

1492

00:54:11,589 --> 00:54:10,079

gotta go digging and stuff

1493

00:54:13,589 --> 00:54:11,599

you know before you just walk around

1494

00:54:17,030 --> 00:54:13,599

picking them up and carrying them over

1495

00:54:19,030 --> 00:54:17,040

you know yeah that's crazy

1496

00:54:20,549 --> 00:54:19,040

so what have you guys been up to on your

1497

00:54:23,030 --> 00:54:20,559

show recently and what do you have

1498

00:54:24,470 --> 00:54:23,040

coming up

1499

00:54:26,230 --> 00:54:24,480

we've just been trying not to step in

1500

00:54:29,750 --> 00:54:26,240

the [h__\h] yeah avoiding [h__\h]

1501

00:54:31,670 --> 00:54:29,760

yeah yeah i noticed the theme

1502

00:54:33,270 --> 00:54:31,680

yeah it just became the theme for most

1503

00:54:34,549 --> 00:54:33,280

of 2020 so we're just gonna ride it out

1504

00:54:36,150 --> 00:54:34,559

to the end of the year with that theme

1505

00:54:37,109 --> 00:54:36,160

and then maybe in 2021 we'll see what

1506

00:54:40,390 --> 00:54:37,119

happens maybe we'll just

1507

00:54:41,430 --> 00:54:40,400

like vomit or something who knows yeah

1508

00:54:42,870 --> 00:54:41,440

absolutely

1509

00:54:44,230 --> 00:54:42,880

it could become anything maybe it would

1510

00:54:44,710 --> 00:54:44,240

be the opposite maybe it would be like

1511

00:54:46,549 --> 00:54:44,720

you know

1512

00:54:48,069 --> 00:54:46,559

puppies and unicorns and rainbows and

1513

00:54:49,670 --> 00:54:48,079

[\h__\h] just so much [\h__\h]

1514

00:54:51,829 --> 00:54:49,680

everywhere i mean look at it's [\h__\h]

1515

00:54:53,670 --> 00:54:51,839

almost 100 years later after ed leads

1516

00:54:55,190 --> 00:54:53,680

gal then built coral castle and there's

1517

00:54:56,870 --> 00:54:55,200

still [\h__\h] idiots on the internet

1518

00:54:58,230 --> 00:54:56,880

telling people that [\h__\h] he used

1519

00:55:01,109 --> 00:54:58,240

magic and [\h__\h] to do it

1520

00:55:01,829 --> 00:55:01,119

when there's obviously no no no i've

1521

00:55:04,390 --> 00:55:01,839

never heard

1522

00:55:05,510 --> 00:55:04,400

anybody say he used magic no smoking

1523

00:55:10,069 --> 00:55:05,520

you're right never

1524

00:55:13,190 --> 00:55:10,079

magical manny lost atlantian technology

1525

00:55:16,549 --> 00:55:13,200

lost egyptian technology

1526

00:55:17,990 --> 00:55:16,559

and maybe alien technology yeah

1527

00:55:19,510 --> 00:55:18,000

all right i didn't mean to throw magic

1528

00:55:20,710 --> 00:55:19,520

there i didn't mean to offend you with

1529

00:55:23,670 --> 00:55:20,720

the word magic

1530

00:55:24,470 --> 00:55:23,680

but magic and the same internet has this

1531

00:55:27,430 --> 00:55:24,480

video

1532

00:55:28,470 --> 00:55:27,440

that shows how he did it for the same

1533

00:55:30,789 --> 00:55:28,480

amount

1534

00:55:32,630 --> 00:55:30,799

okay so all these people out here are

1535

00:55:33,670 --> 00:55:32,640

believing that this dude used some type

1536

00:55:35,670 --> 00:55:33,680

of [h__\h]

1537

00:55:37,990 --> 00:55:35,680

technology from [h__\h] aliens or

1538

00:55:40,309 --> 00:55:38,000

whatever it is some hooley [h__h]

1539

00:55:42,630 --> 00:55:40,319

whatever he's levitating stones by

1540

00:55:45,670 --> 00:55:42,640

humming and [h__h]

1541

00:55:47,990 --> 00:55:45,680

bumming a bimbo who knows and

1542

00:55:49,910 --> 00:55:48,000

an actual video that shows him lifting

1543

00:55:52,390 --> 00:55:49,920

the [h__h] stones up

1544

00:55:54,150 --> 00:55:52,400

sliding on the logs putting them into

1545

00:55:55,510 --> 00:55:54,160

place no but those were edited see what

1546

00:55:57,430 --> 00:55:55,520

happened was somebody got

1547

00:55:59,510 --> 00:55:57,440

cgi back then and they went and

1548

00:56:00,710 --> 00:55:59,520

recreated those videos to throw you off

1549

00:56:02,390 --> 00:56:00,720

from the real

1550

00:56:03,829 --> 00:56:02,400

technology he was using because they

1551
00:56:05,270 --> 00:56:03,839
took that technology and the government

1552
00:56:06,710 --> 00:56:05,280
is suppressing it and they don't want to

1553
00:56:08,230 --> 00:56:06,720
know what ed was really doing

1554
00:56:10,309 --> 00:56:08,240
but ask all those kids who are looking

1555
00:56:12,630 --> 00:56:10,319
over the hedges and watching him do that

1556
00:56:14,710 --> 00:56:12,640
yeah i i found that old video too before

1557
00:56:16,230 --> 00:56:14,720
i had found scott i've still once i saw

1558
00:56:17,670 --> 00:56:16,240
that video i was like okay that explains

1559
00:56:19,109 --> 00:56:17,680
a lot of it and stuff i said but what is

1560
00:56:20,789 --> 00:56:19,119
that [h__h] wheel and [h__h] and i was

1561
00:56:22,150 --> 00:56:20,799
still hunting the mystery of this wheel

1562
00:56:23,910 --> 00:56:22,160
i was like there's got to be something

1563
00:56:25,270 --> 00:56:23,920

here with this [h__h] wheel

1564

00:56:26,950 --> 00:56:25,280

and everything like that because i saw

1565

00:56:28,950 --> 00:56:26,960

it i was like that explains it he had

1566

00:56:30,230 --> 00:56:28,960

pulleys he could pull it up [h__h] yep

1567

00:56:31,670 --> 00:56:30,240

i get it tripods

1568

00:56:33,270 --> 00:56:31,680

when my dad was building his house and

1569

00:56:34,630 --> 00:56:33,280

we were moving stones and logs around

1570

00:56:38,150 --> 00:56:34,640

the [h__h] thing we built

1571

00:56:41,190 --> 00:56:38,160

a tripod yeah i that's the reason why

1572

00:56:43,589 --> 00:56:41,200

actually i didn't uh i didn't i knew

1573

00:56:45,829 --> 00:56:43,599

like typical log cabin construction you

1574

00:56:47,109 --> 00:56:45,839

got to lift these logs up and i was just

1575

00:56:48,789 --> 00:56:47,119

like

1576

00:56:52,150 --> 00:56:48,799

when i saw the weight of some of the

1577

00:56:54,630 --> 00:56:52,160

stuff that i'd be using i was like

1578

00:56:56,710 --> 00:56:54,640

now that i you know think about it but i

1579

00:57:00,870 --> 00:56:56,720

use this cord wood masonry because one

1580

00:57:03,430 --> 00:57:00,880

guy by himself can just do it you know

1581

00:57:04,069 --> 00:57:03,440

so yeah so i tried that and i was like

1582

00:57:05,670 --> 00:57:04,079

you know this

1583

00:57:07,349 --> 00:57:05,680

this old video that explains how he

1584

00:57:09,030 --> 00:57:07,359

moved it and stuff he lifted up with the

1585

00:57:10,549 --> 00:57:09,040

tripods and the pulleys and stuff and i

1586

00:57:12,470 --> 00:57:10,559

said but what is this wheel and it took

1587

00:57:13,990 --> 00:57:12,480

me a while but i found scott and once i

1588

00:57:15,589 --> 00:57:14,000

found scott that put all the pieces

1589

00:57:18,069 --> 00:57:15,599

together and everything and

1590

00:57:19,750 --> 00:57:18,079

solved the whole mystery of coral castle

1591

00:57:21,190 --> 00:57:19,760

it's not it's not really that big of a

1592

00:57:22,950 --> 00:57:21,200

mystery and stuff if you actually

1593

00:57:25,270 --> 00:57:22,960

research and take your time and

1594

00:57:26,390 --> 00:57:25,280

do what act researchers do and go

1595

00:57:28,470 --> 00:57:26,400

through everything

1596

00:57:30,069 --> 00:57:28,480

and like just the coral castle website

1597

00:57:31,030 --> 00:57:30,079

like i said if you go through that whole

1598

00:57:32,710 --> 00:57:31,040

website

1599

00:57:35,030 --> 00:57:32,720

it gives it everything away on the

1600

00:57:37,349 --> 00:57:35,040

website pretty much

1601
00:57:38,950 --> 00:57:37,359
well you gotta make you order the book

1602
00:57:40,870 --> 00:57:38,960
from him

1603
00:57:42,309 --> 00:57:40,880
that is that his family that owns that

1604
00:57:43,750 --> 00:57:42,319
nail or something like hell

1605
00:57:45,510 --> 00:57:43,760
it was it was somebody else bought it

1606
00:57:46,630 --> 00:57:45,520
right have any family or anything

1607
00:57:47,750 --> 00:57:46,640
somebody else bought it and then

1608
00:57:49,510 --> 00:57:47,760
somebody else

1609
00:57:50,870 --> 00:57:49,520
bought it and it's been in their family

1610
00:57:51,990 --> 00:57:50,880
now i guess and stuff and they run it

1611
00:57:53,510 --> 00:57:52,000
and it just became a

1612
00:57:55,270 --> 00:57:53,520
yeah it just becomes a good tourist

1613
00:57:57,589 --> 00:57:55,280

attraction because people pay 10 bucks

1614

00:57:59,750 --> 00:57:57,599

don't work at it yeah i think they do

1615

00:58:01,270 --> 00:57:59,760

charge money now yeah it was free to go

1616

00:58:02,630 --> 00:58:01,280

there for a year the longest [h__h]

1617

00:58:04,150 --> 00:58:02,640

time but i think they do actually charge

1618

00:58:06,069 --> 00:58:04,160

money to get in there now

1619

00:58:07,750 --> 00:58:06,079

i'm not sure about that part but i know

1620

00:58:08,549 --> 00:58:07,760

it was free and [h__h] i don't blame him

1621

00:58:10,470 --> 00:58:08,559

if i had that

1622

00:58:12,309 --> 00:58:10,480

i if i owned that thing i would double

1623

00:58:12,630 --> 00:58:12,319

the rates like and that would double the

1624

00:58:14,549 --> 00:58:12,640

woo

1625

00:58:15,829 --> 00:58:14,559

and the hype about it you know they did

1626
00:58:17,829 --> 00:58:15,839
that definitely was going on for the

1627
00:58:19,510 --> 00:58:17,839
longest time i mean

1628
00:58:21,270 --> 00:58:19,520
on its own legend i mean people create

1629
00:58:23,430 --> 00:58:21,280
[h__\h] out of thin air too so

1630
00:58:24,549 --> 00:58:23,440
yeah isn't that interesting too at how

1631
00:58:27,670 --> 00:58:24,559
this legend was

1632
00:58:29,910 --> 00:58:27,680
formed and then grew right

1633
00:58:32,630 --> 00:58:29,920
it grew with each generation and people

1634
00:58:34,150 --> 00:58:32,640
tacked on or added on to it

1635
00:58:36,230 --> 00:58:34,160
well it's like anything else even the

1636
00:58:36,950 --> 00:58:36,240
idea that this one little man who no one

1637
00:58:39,190 --> 00:58:36,960
could understand

1638
00:58:40,870 --> 00:58:39,200

he his brilliance came for what he

1639

00:58:42,069 --> 00:58:40,880

already knew but his family was doing

1640

00:58:44,230 --> 00:58:42,079

for a long time

1641

00:58:45,510 --> 00:58:44,240

he took south he was fred fred sanford

1642

00:58:47,670 --> 00:58:45,520

that's what he was and took those

1643

00:58:49,430 --> 00:58:47,680

random parts to put stuff together and

1644

00:58:50,710 --> 00:58:49,440

people don't want to ever give credit

1645

00:58:51,430 --> 00:58:50,720

that's where you got all this stuff out

1646

00:58:53,910 --> 00:58:51,440

of junkyards

1647

00:58:54,789 --> 00:58:53,920

exactly yeah they don't give people

1648

00:58:57,109 --> 00:58:54,799

enough credit

1649

00:58:58,549 --> 00:58:57,119

oh we couldn't have built those yeah we

1650

00:58:59,270 --> 00:58:58,559

couldn't have built those pyramids it

1651
00:59:02,470 --> 00:58:59,280
must have been

1652
00:59:05,190 --> 00:59:02,480
it's half of ancient alien theory is men

1653
00:59:07,190 --> 00:59:05,200
are [h__h] and uh you know monkeys

1654
00:59:09,109 --> 00:59:07,200
and our and our primitive monkey minds

1655
00:59:11,829 --> 00:59:09,119
couldn't have done this there's no way

1656
00:59:12,549 --> 00:59:11,839
we would have ancient alien theory

1657
00:59:13,990 --> 00:59:12,559
discrediting

1658
00:59:16,789 --> 00:59:14,000
the [h__h] great accomplishments of

1659
00:59:19,510 --> 00:59:16,799
humans for [h__h] decades now

1660
00:59:21,510 --> 00:59:19,520
yeah yeah i always thought it was funny

1661
00:59:23,190 --> 00:59:21,520
that it was on the history channel too

1662
00:59:25,270 --> 00:59:23,200
not even just ancient alien theory

1663
00:59:26,710 --> 00:59:25,280

[\h__\h] lost technology [\h__\h] theory

1664

00:59:30,789 --> 00:59:26,720

and [\h__\h] and [\h__\h]

1665

00:59:32,710 --> 00:59:30,799

or any theory that [\h__\h]

1666

00:59:34,870 --> 00:59:32,720

powers are being used and stuff like

1667

00:59:36,549 --> 00:59:34,880

that to do any of this stuff from aliens

1668

00:59:37,990 --> 00:59:36,559

or whatever it may be or somebody can

1669

00:59:40,230 --> 00:59:38,000

levitate and do this stuff

1670

00:59:41,910 --> 00:59:40,240

is completely just a slap in the face to

1671

00:59:42,870 --> 00:59:41,920

the ancient [\h__\h] people and cultures

1672

00:59:45,430 --> 00:59:42,880

of our of the

1673

00:59:46,870 --> 00:59:45,440

of our planet and of humanity and stuff

1674

00:59:47,910 --> 00:59:46,880

like that look at the great things that

1675

00:59:49,510 --> 00:59:47,920

they were able to do

1676

00:59:52,150 --> 00:59:49,520

with the little bit they had yes that

1677

00:59:55,750 --> 00:59:52,160

was advanced technology for them

1678

00:59:57,349 --> 00:59:55,760

what they used okay rocks stone hammers

1679

00:59:58,950 --> 00:59:57,359

[h__\h] you know once they got copper

1680

01:00:00,630 --> 00:59:58,960

chisels and stuff like that and metal

1681

01:00:02,309 --> 01:00:00,640

tools and whatever that was advanced

1682

01:00:04,150 --> 01:00:02,319

technology that's how the parents were

1683

01:00:04,549 --> 01:00:04,160

built that was advanced technology from

1684

01:00:06,390 --> 01:00:04,559

them

1685

01:00:08,069 --> 01:00:06,400

they went from a rock hammer to a

1686

01:00:10,470 --> 01:00:08,079

[h__\h] copper chisel

1687

01:00:12,309 --> 01:00:10,480

and copper saws and stuff like that

1688

01:00:13,349 --> 01:00:12,319

that's advanced technology people forget

1689

01:00:15,190 --> 01:00:13,359

man had to find

1690

01:00:16,789 --> 01:00:15,200

fire they didn't even know what fire was

1691

01:00:19,190 --> 01:00:16,799

advanced technology all over

1692

01:00:21,349 --> 01:00:19,200

egypt what we don't find is the advanced

1693

01:00:22,950 --> 01:00:21,359

technology that all these people think

1694

01:00:26,150 --> 01:00:22,960

and say was built oh they use

1695

01:00:28,069 --> 01:00:26,160

laser beams and they use saw diamond saw

1696

01:00:29,670 --> 01:00:28,079

blades and all this stuff and drill bits

1697

01:00:31,910 --> 01:00:29,680

and everything well

1698

01:00:33,829 --> 01:00:31,920

where's the evidence of that stuff

1699

01:00:35,349 --> 01:00:33,839

diamond saw blades are going to last a

1700

01:00:37,030 --> 01:00:35,359

long [h__h] time they're going to last

1701

01:00:38,549 --> 01:00:37,040

just as long as this cheap ass copper

1702

01:00:40,870 --> 01:00:38,559

chisel

1703

01:00:42,069 --> 01:00:40,880

where is it they've never found any any

1704

01:00:43,990 --> 01:00:42,079

avenues

1705

01:00:45,829 --> 01:00:44,000

it's just theories yeah they were

1706

01:00:47,990 --> 01:00:45,839

borrowed they were anal aliens who did

1707

01:00:49,990 --> 01:00:48,000

well we have the evidence to support the

1708

01:00:52,789 --> 01:00:50,000

theory that it was built by people with

1709

01:00:53,670 --> 01:00:52,799

pools of the time because there's

1710

01:00:55,430 --> 01:00:53,680

evidence of that

1711

01:00:57,109 --> 01:00:55,440

well yeah i like some of those

1712

01:00:59,030 --> 01:00:57,119

recreations that bought some of these

1713

01:01:01,030 --> 01:00:59,040

pyramid myths too like people get

1714

01:01:01,829 --> 01:01:01,040

together and 10 of them will move a 10

1715

01:01:04,390 --> 01:01:01,839

ton block

1716

01:01:05,109 --> 01:01:04,400

you know with rollers and pulleys and

1717

01:01:07,270 --> 01:01:05,119

levers

1718

01:01:09,030 --> 01:01:07,280

you know there's a guy in michigan you

1719

01:01:11,510 --> 01:01:09,040

can look them up on youtube

1720

01:01:12,470 --> 01:01:11,520

michigan guy moves [h__h] 10 ton stone

1721

01:01:15,270 --> 01:01:12,480

he moves the 10

1722

01:01:16,710 --> 01:01:15,280

stone stone by himself he [h__h] pries

1723

01:01:18,150 --> 01:01:16,720

up one corner he puts a pebble

1724

01:01:19,670 --> 01:01:18,160

underneath it and then the other corner

1725

01:01:21,430 --> 01:01:19,680

and he just moves this thing like this

1726

01:01:25,109 --> 01:01:21,440

dude it's on a pebble and i'm like what

1727

01:01:27,190 --> 01:01:25,119

the [h__\h] is this dude

1728

01:01:28,470 --> 01:01:27,200

it's not levitation or any anything

1729

01:01:30,710 --> 01:01:28,480

crazy like that he just

1730

01:01:33,030 --> 01:01:30,720

understands the principle of weight and

1731

01:01:35,030 --> 01:01:33,040

[h__\h] of engineering physics and stuff

1732

01:01:36,630 --> 01:01:35,040

like that and how you do this [h__\h]

1733

01:01:38,630 --> 01:01:36,640

another way that he moved the stone and

1734

01:01:40,630 --> 01:01:38,640

put it set up like how they set up

1735

01:01:42,230 --> 01:01:40,640

obelisk they would [h__\h] pivot it

1736

01:01:43,430 --> 01:01:42,240

they put it onto a thing and they put

1737

01:01:43,910 --> 01:01:43,440

weight on this end and they would go

1738

01:01:47,430 --> 01:01:43,920

group

1739

01:01:49,349 --> 01:01:47,440

and stand the [h__h] up and this guy

1740

01:01:50,950 --> 01:01:49,359

and he's not like you know like like me

1741

01:01:53,030 --> 01:01:50,960

and jiggy like a young dude he's like an

1742

01:01:54,549 --> 01:01:53,040

older guy like a bigger heavysset dude

1743

01:01:56,390 --> 01:01:54,559

and this dude's out there moving rocks

1744

01:01:58,230 --> 01:01:56,400

and doing all this [h__h] all by himself

1745

01:02:01,510 --> 01:01:58,240

he built stone by himself like a

1746

01:02:04,710 --> 01:02:01,520

replication of stonehenge

1747

01:02:07,670 --> 01:02:04,720

really yeah has he got rocks that big

1748

01:02:09,029 --> 01:02:07,680

well he he made concrete pillars himself

1749

01:02:10,549 --> 01:02:09,039

and stuff and then he moved them so he

1750

01:02:12,309 --> 01:02:10,559

knows exactly how much they weigh and

1751

01:02:14,309 --> 01:02:12,319

stuff instead of guesstimating and

1752

01:02:15,670 --> 01:02:14,319

whatever he'd like he again he owned a

1753

01:02:19,029 --> 01:02:15,680

construction company he's like i could

1754

01:02:22,309 --> 01:02:20,470

that's pretty interesting there's people

1755

01:02:24,150 --> 01:02:22,319

like that all over that do all kinds of

1756

01:02:25,589 --> 01:02:24,160

like i said but my father used a small

1757

01:02:27,109 --> 01:02:25,599

it wasn't a big huge one like the one

1758

01:02:28,789 --> 01:02:27,119

that scott had and stuff but we used a

1759

01:02:30,470 --> 01:02:28,799

tripod to move stuff and move certain

1760

01:02:31,829 --> 01:02:30,480

things on the property when he was

1761

01:02:33,829 --> 01:02:31,839

he was doing it because he cleared the

1762

01:02:35,510 --> 01:02:33,839

whole thing by himself without heavy

1763

01:02:36,150 --> 01:02:35,520

machinery yeah i mean it makes sense

1764

01:02:39,190 --> 01:02:36,160

like

1765

01:02:41,829 --> 01:02:39,200

engine

1766

01:02:42,870 --> 01:02:41,839

pulling things and if they can pull an

1767

01:02:46,069 --> 01:02:42,880

engine out with

1768

01:02:48,950 --> 01:02:46,079

one of the tripod kind of thing you know

1769

01:02:50,789 --> 01:02:48,960

it's all you know it's it's just human

1770

01:02:53,109 --> 01:02:50,799

ingenuity and stuff and the way that

1771

01:02:55,109 --> 01:02:53,119

they like to say that again pyramids are

1772

01:02:56,950 --> 01:02:55,119

a big subject by the way a lot of these

1773

01:02:58,150 --> 01:02:56,960

stone structures and stuff were built

1774

01:03:01,430 --> 01:02:58,160

back in a day that's

1775

01:03:03,029 --> 01:03:01,440

again it's stacking stones

1776

01:03:04,549 --> 01:03:03,039

yeah it's not rocket science it's

1777

01:03:06,069 --> 01:03:04,559

cutting and stacking stones

1778

01:03:08,069 --> 01:03:06,079

and people like that must have had some

1779

01:03:10,150 --> 01:03:08,079

kind of technology i'm like

1780

01:03:14,589 --> 01:03:10,160

i stacked [h__h] blocks when i was

1781

01:03:18,470 --> 01:03:17,029

yeah with my bottle you know what i mean

1782

01:03:19,750 --> 01:03:18,480

that's what kids start doing what's the

1783

01:03:22,630 --> 01:03:19,760

first thing you do when you get blocks

1784

01:03:24,950 --> 01:03:22,640

you make a [h__h] pyramid

1785

01:03:26,390 --> 01:03:24,960

so as people did but once they figured

1786

01:03:28,069 --> 01:03:26,400

out because

1787

01:03:29,270 --> 01:03:28,079

they had all this they're like oh wow we

1788

01:03:30,630 --> 01:03:29,280

could do this so we could make something

1789

01:03:32,150 --> 01:03:30,640

big but then they started to figure oh

1790

01:03:33,349 --> 01:03:32,160

we make it smaller we could support it

1791

01:03:34,230 --> 01:03:33,359

and we could do this and they found

1792

01:03:35,750 --> 01:03:34,240

woodworking

1793

01:03:37,430 --> 01:03:35,760

and that you could see the progression

1794

01:03:38,789 --> 01:03:37,440

of how we went from what the pyramids

1795

01:03:41,349 --> 01:03:38,799

were to where we are today

1796

01:03:42,309 --> 01:03:41,359

with real technology you know what i

1797

01:03:44,069 --> 01:03:42,319

mean you can see

1798

01:03:45,990 --> 01:03:44,079

all that through history that's it's

1799

01:03:46,470 --> 01:03:46,000

tracked it's proven you could find the

1800

01:03:51,270 --> 01:03:46,480

[h__\h]

1801

01:03:53,270 --> 01:03:51,280

aliens came here

1802

01:03:55,029 --> 01:03:53,280

the pyramids that's that's a that's a

1803

01:03:56,710 --> 01:03:55,039

landing beacon so they could find their

1804

01:03:58,470 --> 01:03:56,720

way back here i'm like they're aliens

1805

01:04:01,990 --> 01:03:58,480

flying through [h__h] space they don't

1806

01:04:05,109 --> 01:04:02,000

need a [h__h] beacon to find

1807

01:04:07,510 --> 01:04:05,119

yeah i love some of this stuff

1808

01:04:10,069 --> 01:04:07,520

like the nazca lines you know they can

1809

01:04:10,470 --> 01:04:10,079

fly from across the [h__h] galaxy and

1810

01:04:12,390 --> 01:04:10,480

find

1811

01:04:14,470 --> 01:04:12,400

earth i think they could fly around

1812

01:04:17,430 --> 01:04:14,480

earth and find egypt again they don't

1813

01:04:19,029 --> 01:04:17,440

need to put up a [\h__\h] pyramid

1814

01:04:20,230 --> 01:04:19,039

oh they tethered their spaceship to the

1815

01:04:21,510 --> 01:04:20,240

top i'm like they tethered their

1816

01:04:25,349 --> 01:04:21,520

spaceship to the top

1817

01:04:28,950 --> 01:04:27,430

yeah a lot of these theories just don't

1818

01:04:30,230 --> 01:04:28,960

make any sense whatsoever

1819

01:04:31,750 --> 01:04:30,240

and when you get it the deeper you get

1820

01:04:33,349 --> 01:04:31,760

into them the more you're like these

1821

01:04:35,270 --> 01:04:33,359

people are [\h__\h] [\h__\h] you're just

1822

01:04:36,870 --> 01:04:35,280

not thinking logically rationally and

1823

01:04:39,190 --> 01:04:36,880

critically you're like wait what

1824

01:04:40,150 --> 01:04:39,200

wait hold on you just completely [\h__\h]

1825

01:04:41,750 --> 01:04:40,160

lost me

1826

01:04:43,510 --> 01:04:41,760

so they built the pyramid and it was

1827

01:04:45,430 --> 01:04:43,520

flat on top so the spaceship could land

1828

01:04:50,309 --> 01:04:45,440

in a special place for this

1829

01:04:54,069 --> 01:04:52,230

you don't know maybe that was some kind

1830

01:04:56,470 --> 01:04:54,079

of docking bay like the keystone

1831

01:04:58,230 --> 01:04:56,480

at the top right right right they

1832

01:04:59,510 --> 01:04:58,240

refueled that was a refueling point

1833

01:05:00,549 --> 01:04:59,520

yeah the very tip of the top had a

1834

01:05:01,670 --> 01:05:00,559

little yeah because all the energy

1835

01:05:03,990 --> 01:05:01,680

because yeah

1836

01:05:04,789 --> 01:05:04,000

i'm sure that i've heard the pyramid

1837

01:05:08,069 --> 01:05:04,799

power plant

1838

01:05:11,029 --> 01:05:08,079

even a theory

1839

01:05:12,069 --> 01:05:11,039

that it was a grain elevator like like a

1840

01:05:13,270 --> 01:05:12,079

grain

1841

01:05:14,950 --> 01:05:13,280

of pillow yeah they said they kept

1842

01:05:16,789 --> 01:05:14,960

draining one yeah they were grain silos

1843

01:05:18,630 --> 01:05:16,799

pretty much inside of them yeah

1844

01:05:20,069 --> 01:05:18,640

and it doesn't align with well it does

1845

01:05:21,670 --> 01:05:20,079

kind of now but

1846

01:05:23,829 --> 01:05:21,680

when the pyramids were built and stuff

1847

01:05:26,950 --> 01:05:23,839

with the orion's belt and all that those

1848

01:05:35,029 --> 01:05:29,829

it wasn't aligned to anything that's the

1849

01:05:39,270 --> 01:05:37,510

it does now which is really crazy

1850

01:05:41,029 --> 01:05:39,280

because it lines up with some stuff now

1851
01:05:42,950 --> 01:05:41,039
if you want to say it lines up it kind

1852
01:05:45,109 --> 01:05:42,960
of fits

1853
01:05:46,069 --> 01:05:45,119
but it doesn't really truly line up with

1854
01:05:48,230 --> 01:05:46,079
any of these things

1855
01:05:50,150 --> 01:05:48,240
it just seems like they do but back in

1856
01:05:51,829 --> 01:05:50,160
the day these things weren't and those

1857
01:05:53,670 --> 01:05:51,839
those stars weren't in those positions

1858
01:05:55,910 --> 01:05:53,680
[h__\h] 3000 years ago

1859
01:05:57,109 --> 01:05:55,920
or [h__\h] you know what i mean 6 000

1860
01:05:58,549 --> 01:05:57,119
years ago

1861
01:06:00,470 --> 01:05:58,559
and people forget that and they're like

1862
01:06:01,190 --> 01:06:00,480
oh i built it for the [h__\h] orion and

1863
01:06:03,910 --> 01:06:01,200

the fellaini

1864

01:06:06,390 --> 01:06:03,920

whatever the [h__h] it is that's where the

1865

01:06:09,510 --> 01:06:06,400

aliens came from i'm like

1866

01:06:09,910 --> 01:06:09,520

absolutely because again once you know

1867

01:06:14,150 --> 01:06:09,920

about

1868

01:06:16,230 --> 01:06:14,160

real astronomy not astrology

1869

01:06:18,230 --> 01:06:16,240

astronomy and stuff and positions of the

1870

01:06:18,710 --> 01:06:18,240

stars and how they move through the sky

1871

01:06:23,589 --> 01:06:18,720

and stuff

1872

01:06:25,029 --> 01:06:23,599

actually go back and see where those

1873

01:06:26,549 --> 01:06:25,039

stars were and everything and the stars

1874

01:06:28,150 --> 01:06:26,559

that make up o'ryan did not make up

1875

01:06:30,470 --> 01:06:28,160

o'ryan's belt back then well it was a

1876

01:06:42,549 --> 01:06:30,480

future marker so when orion's belt did

1877

01:06:46,309 --> 01:06:44,549

went back to egypt they're like yo we

1878

01:06:50,549 --> 01:06:46,319

need to know how to get back here in the

1879

01:06:54,789 --> 01:06:53,190

yeah great great great great great great

1880

01:06:56,789 --> 01:06:54,799

great grand alien kids

1881

01:06:58,150 --> 01:06:56,799

to come find earth later and it was like

1882

01:06:59,589 --> 01:06:58,160

yo you're gonna go to treasure hunt and

1883

01:07:00,950 --> 01:06:59,599

earth is part of that treasure hunt see

1884

01:07:03,910 --> 01:07:00,960

that's right

1885

01:07:05,910 --> 01:07:03,920

yeah that makes total sense so all these

1886

01:07:08,309 --> 01:07:05,920

mysteries again like the coral castle

1887

01:07:10,150 --> 01:07:08,319

mystery once you do the research and

1888

01:07:11,349 --> 01:07:10,160

stuff and you put your bias beliefs and

1889

01:07:12,710 --> 01:07:11,359

stuff because i want to believe that

1890

01:07:14,309 --> 01:07:12,720

[\h__\h] aliens built this [\h__\h] too

1891

01:07:15,430 --> 01:07:14,319

that'd be [\h__\h] great you know what i

1892

01:07:17,190 --> 01:07:15,440

mean that'd be [\h__\h]

1893

01:07:19,670 --> 01:07:17,200

amazing you know what [\h__\h] amazing

1894

01:07:20,549 --> 01:07:19,680

and great too that human beings did this

1895

01:07:22,309 --> 01:07:20,559

[\h__\h]

1896

01:07:23,750 --> 01:07:22,319

so that's great too so i could put a

1897

01:07:25,589 --> 01:07:23,760

beside the fact that i would

1898

01:07:27,109 --> 01:07:25,599

like it to be aliens that would be cool

1899

01:07:28,710 --> 01:07:27,119

if it was aliens and everything

1900

01:07:30,309 --> 01:07:28,720

this were coming here but you know what

1901

01:07:32,069 --> 01:07:30,319

i mean but the facts and the evidence

1902

01:07:33,589 --> 01:07:32,079

when you do the actual research because

1903

01:07:35,589 --> 01:07:33,599

if you just type into google how are the

1904

01:07:37,190 --> 01:07:35,599

pyramids built you know aliens [h__h]

1905

01:07:38,950 --> 01:07:37,200

built the pyramids all this crazy stuff

1906

01:07:40,950 --> 01:07:38,960

pops up on top and everything

1907

01:07:43,430 --> 01:07:40,960

you got to really talk to archaeologists

1908

01:07:45,349 --> 01:07:43,440

and [h__h] actual egyptologists and

1909

01:07:47,190 --> 01:07:45,359

everything like that go to [h__h] do

1910

01:07:48,630 --> 01:07:47,200

actual study these books and stuff like

1911

01:07:50,150 --> 01:07:48,640

that astrophysicists

1912

01:07:52,309 --> 01:07:50,160

everything everything you can think of

1913

01:07:53,029 --> 01:07:52,319

an actual do again it's real research

1914

01:07:55,029 --> 01:07:53,039

people just

1915

01:07:56,870 --> 01:07:55,039

watching videos on youtube and clicking

1916

01:07:58,950 --> 01:07:56,880

the first two or three

1917

01:08:00,870 --> 01:07:58,960

links on [h__\h] google right now

1918

01:08:01,270 --> 01:08:00,880

researching doesn't get you very far

1919

01:08:02,950 --> 01:08:01,280

away

1920

01:08:04,710 --> 01:08:02,960

if you are clicking those links on

1921

01:08:06,309 --> 01:08:04,720

google you need to research that

1922

01:08:08,069 --> 01:08:06,319

[h__\h] what that link you just [h__\h]

1923

01:08:10,150 --> 01:08:08,079

read who wrote this

1924

01:08:11,430 --> 01:08:10,160

who runs this website where did this

1925

01:08:13,270 --> 01:08:11,440

information come from

1926

01:08:14,870 --> 01:08:13,280

what this is not at you know what i mean

1927

01:08:16,470 --> 01:08:14,880

you need to research all that [h__h] you

1928

01:08:18,149 --> 01:08:16,480

need to research both sides who's this

1929

01:08:19,990 --> 01:08:18,159

egyptologist

1930

01:08:22,309 --> 01:08:20,000

who's this hockey archaeologist no i i

1931

01:08:23,749 --> 01:08:22,319

love people that think something's true

1932

01:08:25,510 --> 01:08:23,759

just because it was published on a

1933

01:08:26,950 --> 01:08:25,520

website right too

1934

01:08:29,189 --> 01:08:26,960

you know you got you really got to look

1935

01:08:30,789 --> 01:08:29,199

at this source

1936

01:08:33,030 --> 01:08:30,799

[h__h] sources out there that will

1937

01:08:36,550 --> 01:08:33,040

post anything for questions

1938

01:08:38,470 --> 01:08:36,560

selling time author book

1939

01:08:40,870 --> 01:08:38,480

a name hey you watch it now buddy don't

1940

01:08:43,030 --> 01:08:40,880

get over there no i'm not just

1941

01:08:44,630 --> 01:08:43,040

tim it's graham hancock over here and

1942

01:08:45,269 --> 01:08:44,640

his [h__h] theories and everything like

1943

01:08:47,430 --> 01:08:45,279

that

1944

01:08:49,510 --> 01:08:47,440

dude you're you're a [h__h] you're

1945

01:08:51,189 --> 01:08:49,520

you're a writer you're a novelist

1946

01:08:52,950 --> 01:08:51,199

most of his work isn't even in the

1947

01:08:54,470 --> 01:08:52,960

subject he writes stories and stuff and

1948

01:08:55,030 --> 01:08:54,480

that's where he gets these fantastical

1949

01:08:57,189 --> 01:08:55,040

ideas

1950

01:08:58,149 --> 01:08:57,199

and the other the other thing is i i

1951

01:09:01,910 --> 01:08:58,159

don't know

1952

01:09:03,510 --> 01:09:01,920

if he who if nobody's ever told him this

1953

01:09:07,749 --> 01:09:03,520

but everything that he comes up with

1954

01:09:09,910 --> 01:09:07,759

it's because he's on [\h__\h] drugs

1955

01:09:11,829 --> 01:09:09,920

well after i took those psilocybin

1956

01:09:14,390 --> 01:09:11,839

mushrooms

1957

01:09:15,590 --> 01:09:14,400

that the history of man has been told

1958

01:09:18,870 --> 01:09:15,600

all wrong

1959

01:09:20,149 --> 01:09:18,880

and i've got the the truth about the

1960

01:09:21,590 --> 01:09:20,159

origins of man

1961

01:09:23,349 --> 01:09:21,600

you got to believe this stuff and he

1962

01:09:24,709 --> 01:09:23,359

just throws

1963

01:09:26,149 --> 01:09:24,719

all these people they just because they

1964

01:09:27,749 --> 01:09:26,159

just want to be it and then they know

1965

01:09:28,149 --> 01:09:27,759

that nobody's going to actually take the

1966

01:09:29,829 --> 01:09:28,159

time

1967

01:09:31,510 --> 01:09:29,839

to do this stuff and look into this

1968

01:09:32,229 --> 01:09:31,520

stuff and see that wait a minute some an

1969

01:09:34,070 --> 01:09:32,239

actual real

1970

01:09:35,990 --> 01:09:34,080

archaeologist has been here or real

1971

01:09:36,630 --> 01:09:36,000

egyptologists or real whatever whoever

1972

01:09:38,550 --> 01:09:36,640

stun

1973

01:09:40,149 --> 01:09:38,560

studies the stuff down in in you know

1974

01:09:41,910 --> 01:09:40,159

the mayan culture and everything i

1975

01:09:45,590 --> 01:09:41,920

forget what they call them

1976

01:09:47,829 --> 01:09:45,600

wherever it is and those people who have

1977

01:09:49,430 --> 01:09:47,839

been doing this for 20 30 [h__h] years

1978

01:09:51,269 --> 01:09:49,440

and they went to school for [h__h] 10

1979

01:09:53,269 --> 01:09:51,279

years and everything like that

1980

01:09:55,270 --> 01:09:53,279

and you find out oh wait a minute why am

1981

01:09:58,550 --> 01:09:55,280

i listening to this guy

1982

01:10:01,910 --> 01:09:58,560

because he's got a a new york best time

1983

01:10:03,510 --> 01:10:01,920

new york times best-selling [h__h] book

1984

01:10:05,189 --> 01:10:03,520

over here actually on the ground they

1985

01:10:06,229 --> 01:10:05,199

have actual evidence this guy is just

1986

01:10:07,830 --> 01:10:06,239

postulating

1987

01:10:09,990 --> 01:10:07,840

something that he thought of when he was

1988

01:10:11,430 --> 01:10:10,000

[h__h] taking ayahuasca

1989

01:10:14,149 --> 01:10:11,440

well you do have to admit this though

1990

01:10:16,310 --> 01:10:14,159

like if you read like scholarly articles

1991

01:10:17,830 --> 01:10:16,320

about this stuff it's boring as [h__h] the

1992

01:10:20,550 --> 01:10:17,840

scholarly articles by

1993

01:10:22,149 --> 01:10:20,560

real scientists are boring as [h__h] so

1994

01:10:25,189 --> 01:10:22,159

some of these guys have come

1995

01:10:27,030 --> 01:10:25,199

in and they give you a simplified sounds

1996

01:10:29,270 --> 01:10:27,040

great explanation for [h__h]

1997

01:10:30,550 --> 01:10:29,280

based on nothing like science but it's

1998

01:10:33,750 --> 01:10:30,560

easier to digest

1999

01:10:35,830 --> 01:10:33,760

it sounds good it's a good story so

2000

01:10:37,910 --> 01:10:35,840

i think that's where they find success

2001

01:10:39,750 --> 01:10:37,920

these these science types that write

2002

01:10:41,110 --> 01:10:39,760

these scholarly articles got to write

2003

01:10:43,030 --> 01:10:41,120

better

2004

01:10:45,189 --> 01:10:43,040

because scholarly articles like college

2005

01:10:47,350 --> 01:10:45,199

thesis papers and stuff

2006

01:10:48,630 --> 01:10:47,360

that people have written on like origins

2007

01:10:51,430 --> 01:10:48,640

of man and stuff it's

2008

01:10:53,270 --> 01:10:51,440

boring as [h__\h] it's long as [h__\h] too and

2009

01:10:55,110 --> 01:10:53,280

it takes yeah you read it and that's why

2010

01:10:56,470 --> 01:10:55,120

people's their attention span they can't

2011

01:10:57,990 --> 01:10:56,480

they like up i want to get through a

2012

01:10:59,990 --> 01:10:58,000

three minute [h__\h] 10-minute video

2013

01:11:01,030 --> 01:11:00,000

on youtube and click to the next one you

2014

01:11:02,310 --> 01:11:01,040

know what i mean

2015

01:11:03,510 --> 01:11:02,320

they can't sit there they're like i'm

2016

01:11:04,070 --> 01:11:03,520

just going to listen to this guy because

2017

01:11:07,189 --> 01:11:04,080

he's got

2018

01:11:09,110 --> 01:11:07,199

300 followers and everybody likes this

2019

01:11:09,510 --> 01:11:09,120

video so oh he must be telling me the

2020

01:11:10,310 --> 01:11:09,520

truth

2021

01:11:11,750 --> 01:11:10,320

they're not listening to the

2022

01:11:13,590 --> 01:11:11,760

archaeologists who have actually spent

2023

01:11:15,110 --> 01:11:13,600

the time to excavate the land and do it

2024

01:11:15,910 --> 01:11:15,120

properly and show you what the stuff is

2025

01:11:17,110 --> 01:11:15,920

there they don't know what they're

2026

01:11:18,470 --> 01:11:17,120

talking about i mean these are the

2027

01:11:19,669 --> 01:11:18,480

people been doing this forever and been

2028

01:11:20,390 --> 01:11:19,679

all over the world doing it they don't

2029

01:11:21,990 --> 01:11:20,400

know nothing

2030

01:11:23,510 --> 01:11:22,000

they don't know yeah one of my favorites

2031

01:11:25,270 --> 01:11:23,520

of these fake uh

2032

01:11:26,709 --> 01:11:25,280

fake rewriting history things is this

2033

01:11:30,149 --> 01:11:26,719

bosnian pyramid

2034

01:11:31,830 --> 01:11:30,159

which is a joke you know it's a big

2035

01:11:34,070 --> 01:11:31,840

[h__h] hill you dummy

2036

01:11:35,669 --> 01:11:34,080

it's a big [h__h] hill that's what it

2037

01:11:37,910 --> 01:11:35,679

is but they're digging

2038

01:11:39,189 --> 01:11:37,920

and you know swearing it was a pyramid

2039

01:11:41,910 --> 01:11:39,199

and it was in that

2040

01:11:42,550 --> 01:11:41,920

man-made structure yeah no there's

2041

01:11:45,189 --> 01:11:42,560

actually

2042

01:11:45,830 --> 01:11:45,199

it's not a pyramid it's a it's a form

2043

01:11:47,669 --> 01:11:45,840

and dry

2044

01:11:49,510 --> 01:11:47,679

it's a it's a former lake bed then

2045

01:11:51,030 --> 01:11:49,520

through time and stuff it's so peeved

2046

01:11:52,709 --> 01:11:51,040

into [h__h] mountains and stuff that's

2047

01:11:53,510 --> 01:11:52,719

why it has the layers and stuff the way

2048

01:11:55,350 --> 01:11:53,520

that they are

2049

01:11:56,790 --> 01:11:55,360

and there's examples of this all over

2050

01:11:58,470 --> 01:11:56,800

the world yeah

2051
01:12:00,149 --> 01:11:58,480
most geologists that have looked at it

2052
01:12:01,750 --> 01:12:00,159
said no that's a natural yeah exactly

2053
01:12:02,870 --> 01:12:01,760
actual geologists and archaeologists and

2054
01:12:04,470 --> 01:12:02,880
stuff have been there and stuff and

2055
01:12:05,590 --> 01:12:04,480
there's no nothing to it and the tunnels

2056
01:12:06,870 --> 01:12:05,600
that they're digging they're actually

2057
01:12:08,229 --> 01:12:06,880
just digging these tunnels out

2058
01:12:09,990 --> 01:12:08,239
themselves you could just make tunnels

2059
01:12:11,750 --> 01:12:10,000
anywhere down there i guess they say

2060
01:12:12,870 --> 01:12:11,760
um people have been there and and looked

2061
01:12:14,390 --> 01:12:12,880
into the air and stuff there is

2062
01:12:15,590 --> 01:12:14,400
underground rivers and stuff so a lot of

2063
01:12:16,709 --> 01:12:15,600

it they're just tapping into some of

2064

01:12:18,709 --> 01:12:16,719

these underground old

2065

01:12:20,229 --> 01:12:18,719

underground rivers and stuff that old

2066

01:12:21,030 --> 01:12:20,239

channels off of them and stuff you know

2067

01:12:23,590 --> 01:12:21,040

what i mean

2068

01:12:26,070 --> 01:12:23,600

um it's just like so there's evidence of

2069

01:12:27,830 --> 01:12:26,080

that archaeologically and geologically

2070

01:12:28,310 --> 01:12:27,840

all over the world it's just like people

2071

01:12:30,149 --> 01:12:28,320

saying

2072

01:12:31,669 --> 01:12:30,159

that there's pyramids in antarctica

2073

01:12:33,910 --> 01:12:31,679

because they see a mountain that has

2074

01:12:34,709 --> 01:12:33,920

somewhat of a pyramid shape but they

2075

01:12:36,790 --> 01:12:34,719

don't say that

2076
01:12:38,709 --> 01:12:36,800
the matahorn is a [h__h] pyramid built

2077
01:12:40,229 --> 01:12:38,719
by aliens even though that's a [h__h]

2078
01:12:40,630 --> 01:12:40,239
perfect pyramid at the top of [h__h]

2079
01:12:43,990 --> 01:12:40,640
that

2080
01:12:45,750 --> 01:12:44,000
other mountains and

2081
01:12:47,510 --> 01:12:45,760
other structures around the world that

2082
01:12:49,590 --> 01:12:47,520
people don't ever bring up even though

2083
01:12:51,270 --> 01:12:49,600
they look more like pyramids and

2084
01:12:53,270 --> 01:12:51,280
perfect pyramids compared to the ones in

2085
01:12:54,790 --> 01:12:53,280
antarctica but because antarctica is

2086
01:12:58,790 --> 01:12:54,800
antarctica and nobody can [h__h] go

2087
01:13:02,630 --> 01:13:00,630
you can go there but most people don't

2088
01:13:03,910 --> 01:13:02,640

want to go there

2089

01:13:06,149 --> 01:13:03,920

you know what i mean to find out and

2090

01:13:06,550 --> 01:13:06,159

show this stuff that's why they do that

2091

01:13:08,149 --> 01:13:06,560

and

2092

01:13:09,669 --> 01:13:08,159

people go to the matterhorn all the time

2093

01:13:11,189 --> 01:13:09,679

and there's tons and tons of really

2094

01:13:11,750 --> 01:13:11,199

close-up pictures of it so the people

2095

01:13:15,830 --> 01:13:11,760

like oh

2096

01:13:19,510 --> 01:13:17,590

but we could say this snow cover thing

2097

01:13:21,270 --> 01:13:19,520

here that you can't really tell is

2098

01:13:22,950 --> 01:13:21,280

actually we have a friend who's a neat

2099

01:13:25,030 --> 01:13:22,960

niece's uh

2100

01:13:26,390 --> 01:13:25,040

uh little guy's nieces in antarctica

2101
01:13:28,149 --> 01:13:26,400
right now doing research so i asked her

2102
01:13:29,750 --> 01:13:28,159
look out for the wall and for the

2103
01:13:31,030 --> 01:13:29,760
whole the admiral bird went down and see

2104
01:13:32,070 --> 01:13:31,040
if you can see the pyramids or anything

2105
01:13:33,669 --> 01:13:32,080
that's supposed to be there so we might

2106
01:13:35,669 --> 01:13:33,679
get some insights

2107
01:13:37,750 --> 01:13:35,679
and and you know what these are all

2108
01:13:40,229 --> 01:13:37,760
crazy rabbit holes in and of themselves

2109
01:13:42,630 --> 01:13:40,239
and we saw tonight a perfect example

2110
01:13:43,669 --> 01:13:42,640
of somebody crazy enough like smoke king

2111
01:13:45,990 --> 01:13:43,679
and jiggy to go

2112
01:13:46,950 --> 01:13:46,000
down the whole [h__h] rabbit hole and

2113
01:13:50,070 --> 01:13:46,960

get the whole

2114

01:13:52,070 --> 01:13:50,080

like deal of what's the reality and

2115

01:13:55,830 --> 01:13:52,080

that's a lot of time energy and

2116

01:13:56,870 --> 01:13:55,840

this rabbit is is partly was created by

2117

01:13:58,630 --> 01:13:56,880

ed himself he

2118

01:14:00,550 --> 01:13:58,640

he told people this stuff even though he

2119

01:14:02,310 --> 01:14:00,560

told people that a lot of people had

2120

01:14:04,070 --> 01:14:02,320

neighbors all around him and stuff knew

2121

01:14:05,910 --> 01:14:04,080

what he was doing and and he told them

2122

01:14:07,270 --> 01:14:05,920

and stuff like that but visitors that

2123

01:14:09,270 --> 01:14:07,280

came there and stuff would be like oh my

2124

01:14:09,910 --> 01:14:09,280

god this place is amazing be like yeah i

2125

01:14:11,669 --> 01:14:09,920

used to

2126

01:14:13,430 --> 01:14:11,679

i used the powers of the egyptians and

2127

01:14:15,669 --> 01:14:13,440

stuff and he fed it into the lore and

2128

01:14:17,430 --> 01:14:15,679

everything like that

2129

01:14:18,790 --> 01:14:17,440

he created the myth and everything of

2130

01:14:20,390 --> 01:14:18,800

this

2131

01:14:22,149 --> 01:14:20,400

you know so people would have fun and

2132

01:14:23,669 --> 01:14:22,159

stuff like that that was it but some of

2133

01:14:24,630 --> 01:14:23,679

these other myths and stuff like that

2134

01:14:27,030 --> 01:14:24,640

when you try and

2135

01:14:28,390 --> 01:14:27,040

track it down it's not as fun as this

2136

01:14:30,229 --> 01:14:28,400

one

2137

01:14:31,669 --> 01:14:30,239

like why would somebody even come up

2138

01:14:33,270 --> 01:14:31,679

with this stuff and you figure out

2139

01:14:35,430 --> 01:14:33,280

who it was there's some dude on his

2140

01:14:39,270 --> 01:14:35,440

[h__h] his [h__h] computer in his

2141

01:14:42,870 --> 01:14:41,590

we saw we saw one thing on the internet

2142

01:14:44,550 --> 01:14:42,880

over here and another thing on the

2143

01:14:46,229 --> 01:14:44,560

internet over here was like oh wow these

2144

01:14:48,550 --> 01:14:46,239

two things are

2145

01:14:49,910 --> 01:14:48,560

wow and they they join with all this and

2146

01:14:50,790 --> 01:14:49,920

here you go and you're like what the

2147

01:14:52,470 --> 01:14:50,800

[h__h]

2148

01:14:54,149 --> 01:14:52,480

where some of these stories come from

2149

01:14:56,870 --> 01:14:54,159

it's crazy

2150

01:14:57,430 --> 01:14:56,880

yeah absolutely well listen i think that

2151

01:15:01,590 --> 01:14:57,440

we're gonna

2152

01:15:03,430 --> 01:15:01,600

here i have to get up at like 5 30

2153

01:15:05,189 --> 01:15:03,440

tomorrow

2154

01:15:07,110 --> 01:15:05,199

i have to try to mac this [h__\h] gets

2155

01:15:09,830 --> 01:15:07,120

dark here at like 4 45

2156

01:15:11,750 --> 01:15:09,840

now so i have to like get up butt crack

2157

01:15:14,229 --> 01:15:11,760

early to kind of maximize i'm still

2158

01:15:16,709 --> 01:15:14,239

working outside on this sun room thing

2159

01:15:17,430 --> 01:15:16,719

so uh i'm trying to get that [h__\h]

2160

01:15:20,229 --> 01:15:17,440

buttoned up

2161

01:15:21,510 --> 01:15:20,239

before this like one or two more weeks

2162

01:15:22,709 --> 01:15:21,520

and we're gonna be in like you don't

2163

01:15:26,470 --> 01:15:22,719

want to be outside

2164

01:15:28,310 --> 01:15:26,480

at all good stuff

2165

01:15:31,910 --> 01:15:28,320

trying not to freeze to death it's going

2166

01:15:34,630 --> 01:15:31,920

down to 20 something tonight

2167

01:15:36,390 --> 01:15:34,640

enjoy well it's been actually it's been

2168

01:15:37,030 --> 01:15:36,400

a mild winter for here in the mountains

2169

01:15:39,189 --> 01:15:37,040

so far

2170

01:15:40,229 --> 01:15:39,199

like we had like one real cold night

2171

01:15:42,550 --> 01:15:40,239

where it was like 10

2172

01:15:43,830 --> 01:15:42,560

so far this year and the rest of the

2173

01:15:46,070 --> 01:15:43,840

time it's like

2174

01:15:47,030 --> 01:15:46,080

40 at night and 50 in the day so it's

2175

01:15:49,030 --> 01:15:47,040

not too bad but

2176

01:15:52,070 --> 01:15:49,040

that blast is coming in and i got to get

2177

01:15:53,990 --> 01:15:52,080

that [h__h] thing over there done

2178

01:15:55,510 --> 01:15:54,000

good luck yeah there you go i'll get it

2179

01:15:57,030 --> 01:15:55,520

yeah i can't i want to thank you for

2180

01:15:58,950 --> 01:15:57,040

doing this rabbit hole because when you

2181

01:16:00,870 --> 01:15:58,960

started telling me about all this stuff

2182

01:16:03,270 --> 01:16:00,880

it was like you cracked the code and i

2183

2186

01:16:12,630 --> 01:16:10,000

and summarizing it all beautifully so

2187

01:16:14,390 --> 01:16:12,640

2200

01:16:36,709 --> 01:16:35,360
