

BOB LAZAR

**EXCERPTS
FROM THE
GOVERNMENT BIBLE**

"...It is the right of every person on earth to know that there is physical evidence which proves that there is life elsewhere!"

-BOB LAZAR

1
00:00:23,790 --> 00:01:32,310

[Music]

2
00:01:37,270 --> 00:01:34,149

hi i'm bob lazar

3
00:01:38,710 --> 00:01:37,280

during late 1988 and early 89 i worked

4
00:01:40,630 --> 00:01:38,720

on the propulsion systems of

5
00:01:41,990 --> 00:01:40,640

extraterrestrial vehicles for the united

6
00:01:43,670 --> 00:01:42,000

states government

7
00:01:45,030 --> 00:01:43,680

the hardware and technology i was

8
00:01:47,190 --> 00:01:45,040

exposed to should be placed in the

9
00:01:49,030 --> 00:01:47,200

proper hands of the scientific community

10
00:01:50,950 --> 00:01:49,040

and it is the right of every person on

11
00:01:52,870 --> 00:01:50,960

earth to know that there is physical

12
00:01:54,950 --> 00:01:52,880

evidence which proves that there is life

13
00:01:56,630 --> 00:01:54,960

elsewhere and that at least one form of

14

00:01:58,389 --> 00:01:56,640

that life has been here

15

00:02:00,310 --> 00:01:58,399

for those of you whose information about

16

00:02:06,149 --> 00:02:00,320

me is limited to this video i'll give

17

00:02:10,949 --> 00:02:08,469

i'm a physicist i have degrees in

18

00:02:12,309 --> 00:02:10,959

physics and electronics technology i've

19

00:02:14,229 --> 00:02:12,319

worked in a number of scientific

20

00:02:16,309 --> 00:02:14,239

programs some of which require top

21

00:02:18,710 --> 00:02:16,319

secret and above top secret security

22

00:02:21,830 --> 00:02:18,720

clearances of which the most easily

23

00:02:24,070 --> 00:02:21,840

verifiable is my early 1980s job here at

24

00:02:27,030 --> 00:02:24,080

the los alamos maison physics facility

25

00:02:29,510 --> 00:02:27,040

in los alamos new mexico

26
00:02:31,350 --> 00:02:29,520
between december of 88 and april of 89 i

27
00:02:33,030 --> 00:02:31,360
worked as a senior staff physicist in

28
00:02:35,110 --> 00:02:33,040
what has to be the most secret project

29
00:02:37,750 --> 00:02:35,120
in history my place of work was a

30
00:02:40,470 --> 00:02:37,760
facility at an area known as s4 on the

31
00:02:43,190 --> 00:02:40,480
nellis air force range in central nevada

32
00:02:45,830 --> 00:02:43,200
area s4 is located approximately 15

33
00:02:47,750 --> 00:02:45,840
miles south of the infamous area 51

34
00:02:50,550 --> 00:02:47,760
installation at groom lake

35
00:02:52,710 --> 00:02:50,560
where the u-2 and sr-71 spy planes were

36
00:02:54,550 --> 00:02:52,720
developed for the duration of my

37
00:02:56,869 --> 00:02:54,560
employment at s4 i was paid by the

38
00:02:58,390 --> 00:02:56,879

united states navy

39

00:03:00,070 --> 00:02:58,400

for the purpose of this video i'm going

40

00:03:02,309 --> 00:03:00,080

to segregate the information contained

41

00:03:03,509 --> 00:03:02,319

here into two separate parts

42

00:03:05,430 --> 00:03:03,519

the first part will deal with

43

00:03:08,070 --> 00:03:05,440

information with which i've had hands-on

44

00:03:09,830 --> 00:03:08,080

experience and personal instruction

45

00:03:11,509 --> 00:03:09,840

in other words not only did i read

46

00:03:13,589 --> 00:03:11,519

briefings and not only was i taught the

47

00:03:15,270 --> 00:03:13,599

theories of these technologies but they

48

00:03:17,030 --> 00:03:15,280

were demonstrated for me and i know they

49

00:03:18,710 --> 00:03:17,040

are true and accurate

50

00:03:21,270 --> 00:03:18,720

some of the points covered in this first

51
00:03:23,430 --> 00:03:21,280
section will be

52
00:03:25,190 --> 00:03:23,440
how vast distances of space are traveled

53
00:03:28,309 --> 00:03:25,200
by virtue of an intense gravitational

54
00:03:33,509 --> 00:03:29,910
how this gravitational field is

55
00:03:38,229 --> 00:03:35,110
what the power source is and how it

56
00:03:43,830 --> 00:03:40,309
and general information about disks and

57
00:03:47,430 --> 00:03:45,430
the second part of this will deal with

58
00:03:49,430 --> 00:03:47,440
subjects on which i've read supporting

59
00:03:50,949 --> 00:03:49,440
information yet for the most part i had

60
00:03:53,670 --> 00:03:50,959
no other way to corroborate the

61
00:03:56,070 --> 00:03:53,680
information or ascertain its accuracy

62
00:03:57,670 --> 00:03:56,080
when we get to part two it'll be obvious

63
00:03:59,429 --> 00:03:57,680

why proof of some of this information

64

00:04:01,110 --> 00:03:59,439

could not be conclusive

65

00:04:03,509 --> 00:04:01,120

some of the points covered in the second

66

00:04:05,110 --> 00:04:03,519

section will be

67

00:04:09,190 --> 00:04:05,120

information about the beings that

68

00:04:13,830 --> 00:04:10,949

and how these beings have historically

69

00:04:15,910 --> 00:04:13,840

interacted with man

70

00:04:17,110 --> 00:04:15,920

been prudent in selecting what to expose

71

00:04:18,949 --> 00:04:17,120

here and i think that some of this

72

00:04:20,629 --> 00:04:18,959

information should not be made available

73

00:04:22,310 --> 00:04:20,639

to the general public

74

00:04:24,390 --> 00:04:22,320

this information is being conveyed to

75

00:04:26,150 --> 00:04:24,400

you as it was to me with the exception

76

00:04:27,110 --> 00:04:26,160

that in most cases i've simplified

77

00:04:28,950 --> 00:04:27,120

things for those of you with

78

00:04:33,430 --> 00:04:28,960

non-scientific and non-technological

79

00:04:35,990 --> 00:04:34,950

at the beginning of this first section

80

00:04:37,670 --> 00:04:36,000

i'm going to give you three short

81

00:04:39,510 --> 00:04:37,680

science lessons and once you've learned

82

00:04:41,270 --> 00:04:39,520

them you'll not only know more about

83

00:04:42,870 --> 00:04:41,280

interstellar travel than almost anyone

84

00:04:45,110 --> 00:04:42,880

else in the world but you'll know the

85

00:04:46,950 --> 00:04:45,120

actual method another civilization is

86

00:04:48,469 --> 00:04:46,960

used to travel from another star system

87

00:04:49,990 --> 00:04:48,479

to the planet earth

88

00:04:51,590 --> 00:04:50,000

now during the course of this i'm going

89

00:04:53,990 --> 00:04:51,600

to have to relate information that i've

90

00:04:56,310 --> 00:04:54,000

learned at s4 to information that we're

91

00:04:58,469 --> 00:04:56,320

already aware of and when i say we i

92

00:05:00,790 --> 00:04:58,479

mean the general mainstream scientific

93

00:05:01,670 --> 00:05:00,800

community so it's not to waste too much

94

00:05:03,749 --> 00:05:01,680

time

95

00:05:05,990 --> 00:05:03,759

explaining established scientific facts

96

00:05:07,990 --> 00:05:06,000

and theories when i say we know this or

97

00:05:10,070 --> 00:05:08,000

we know that please feel free to consult

98

00:05:12,310 --> 00:05:10,080

any qualified scientist professor or

99

00:05:14,070 --> 00:05:12,320

science teacher to have them explain my

100

00:05:15,590 --> 00:05:14,080

statements to you

101

00:05:18,230 --> 00:05:15,600

one of the most predominantly asked

102

00:05:20,550 --> 00:05:18,240

questions is how is it possible to cross

103

00:05:22,870 --> 00:05:20,560

vast expanses of space without exceeding

104

00:05:24,870 --> 00:05:22,880

the speed of light

105

00:05:26,469 --> 00:05:24,880

or how can you travel in reasonable time

106

00:05:28,150 --> 00:05:26,479

and economy between points that are

107

00:05:30,310 --> 00:05:28,160

light years apart

108

00:05:33,590 --> 00:05:30,320

now keep in mind that the speed of light

109

00:05:35,870 --> 00:05:33,600

is 186 000 miles a second which

110

00:05:40,070 --> 00:05:35,880

translates into roughly

111

00:05:42,550 --> 00:05:40,080

669 million miles an hour

112

00:05:44,870 --> 00:05:42,560

and a light year is a distance traveled

113

00:05:46,950 --> 00:05:44,880

in one year at the speed of light

114

00:05:48,950 --> 00:05:46,960

proxima centauri which is the star

115

00:05:50,870 --> 00:05:48,960

system nearest ours would take four

116

00:05:54,150 --> 00:05:50,880

years to reach traveling at the speed of

117

00:05:55,830 --> 00:05:54,160

light so up until now when we've

118

00:05:57,510 --> 00:05:55,840

examined the requirements to travel

119

00:05:59,270 --> 00:05:57,520

these distances we've always had to

120

00:06:01,510 --> 00:05:59,280

consider the problems of traveling at a

121

00:06:03,909 --> 00:06:01,520

speed near the speed of light this poses

122

00:06:06,790 --> 00:06:03,919

problems with propulsion navigation fuel

123

00:06:08,629 --> 00:06:06,800

capacities and even when you consider

124

00:06:11,189 --> 00:06:08,639

the effects of acceleration on space

125

00:06:13,670 --> 00:06:11,199

time which include time dilation mass

126
00:06:15,350 --> 00:06:13,680
increase lane contraction and a whole

127
00:06:17,670 --> 00:06:15,360
host of other things

128
00:06:19,430 --> 00:06:17,680
it quickly becomes evident that this

129
00:06:22,469 --> 00:06:19,440
type of travel would require a level of

130
00:06:24,230 --> 00:06:22,479
technology that man has not yet achieved

131
00:06:26,790 --> 00:06:24,240
the truth of the matter is that

132
00:06:28,790 --> 00:06:26,800
traveling these distances does require a

133
00:06:30,950 --> 00:06:28,800
level of technology that man has not yet

134
00:06:33,110 --> 00:06:30,960
achieved but it has nothing to do with

135
00:06:34,629 --> 00:06:33,120
flying in a linear mode near the speed

136
00:06:36,070 --> 00:06:34,639
of light

137
00:06:38,150 --> 00:06:36,080
we know that the shortest distance

138
00:06:39,909 --> 00:06:38,160

between two points is a straight line so

139

00:06:41,749 --> 00:06:39,919

in our universe we've always assumed

140

00:06:43,430 --> 00:06:41,759

that the fastest way from point a to b

141

00:06:44,790 --> 00:06:43,440

was to travel in a straight line at the

142

00:06:46,230 --> 00:06:44,800

speed of light

143

00:06:47,670 --> 00:06:46,240

well the fact is that when you're

144

00:06:49,589 --> 00:06:47,680

dealing with space space-time and you

145

00:06:51,990 --> 00:06:49,599

enjoy the capability of generating an

146

00:06:54,070 --> 00:06:52,000

intense gravitational field the fastest

147

00:06:56,070 --> 00:06:54,080

way from point a to b is to distort or

148

00:06:58,070 --> 00:06:56,080

warp or bend the space time between

149

00:06:59,830 --> 00:06:58,080

point a and b bringing point a and b

150

00:07:01,350 --> 00:06:59,840

closer together the more intense the

151

00:07:03,189 --> 00:07:01,360

gravitational field the greater the

152

00:07:05,909 --> 00:07:03,199

distortion of space time and the shorter

153

00:07:07,990 --> 00:07:05,919

the distance between points a and b

154

00:07:10,150 --> 00:07:08,000

most of us think of space-time as the

155

00:07:11,990 --> 00:07:10,160

void or as nothing and remember it

156

00:07:14,230 --> 00:07:12,000

wasn't that long ago that man considered

157

00:07:16,309 --> 00:07:14,240

the air in our atmosphere to be nothing

158

00:07:18,070 --> 00:07:16,319

yet with time we've become aware of the

159

00:07:19,110 --> 00:07:18,080

elements and properties of the urinary

160

00:07:22,070 --> 00:07:19,120

atmosphere

161

00:07:23,749 --> 00:07:22,080

well indeed space-time is an entity and

162

00:07:26,230 --> 00:07:23,759

one of its properties is that it can be

163

00:07:27,350 --> 00:07:26,240

distorted or bent by a gravitational

164

00:07:29,270 --> 00:07:27,360

field

165

00:07:31,350 --> 00:07:29,280

we know that gravity bends or distorts

166

00:07:33,350 --> 00:07:31,360

space time and light by virtue of the

167

00:07:34,870 --> 00:07:33,360

fact that we're able to see stars which

168

00:07:36,469 --> 00:07:34,880

we know should be blocked from our view

169

00:07:38,550 --> 00:07:36,479

by the sun

170

00:07:40,710 --> 00:07:38,560

referring to the graphic here

171

00:07:43,029 --> 00:07:40,720

the solid line denotes the position of a

172

00:07:44,390 --> 00:07:43,039

star that's located behind the sun and

173

00:07:47,270 --> 00:07:44,400

the dotted line

174

00:07:49,270 --> 00:07:47,280

shows its position as viewed from earth

175

00:07:51,430 --> 00:07:49,280

this is made possible because the sun's

176

00:07:53,350 --> 00:07:51,440

gravitational field distorts the space

177

00:07:55,029 --> 00:07:53,360

time and light around the sun allowing

178

00:07:56,550 --> 00:07:55,039

us to view stars which should be hidden

179

00:07:58,629 --> 00:07:56,560

from view

180

00:08:00,629 --> 00:07:58,639

we know that gravity distorts time by

181

00:08:02,710 --> 00:08:00,639

virtue of the fact that if we take two

182

00:08:04,550 --> 00:08:02,720

identical atomic clocks

183

00:08:06,869 --> 00:08:04,560

and keep one at sea level and take the

184

00:08:08,869 --> 00:08:06,879

other one up to a high altitude when we

185

00:08:11,189 --> 00:08:08,879

bring them both back together they

186

00:08:12,950 --> 00:08:11,199

reflect different times

187

00:08:14,309 --> 00:08:12,960

the difference in this passage of time

188

00:08:16,309 --> 00:08:14,319

is caused by the fact that a

189

00:08:18,150 --> 00:08:16,319

gravitational field weakens the further

190

00:08:19,589 --> 00:08:18,160

you get from the source so the atomic

191

00:08:21,830 --> 00:08:19,599

clock which was taken to the high

192

00:08:23,990 --> 00:08:21,840

altitude was exposed to a less powerful

193

00:08:26,710 --> 00:08:24,000

gravitational field than the clock which

194

00:08:28,629 --> 00:08:26,720

we kept at sea level the effect of a

195

00:08:30,150 --> 00:08:28,639

gravitational field on space time is

196

00:08:32,949 --> 00:08:30,160

something that we've been able to

197

00:08:34,870 --> 00:08:32,959

observe but not to experiment with this

198

00:08:37,110 --> 00:08:34,880

is due to our inability to generate a

199

00:08:39,190 --> 00:08:37,120

gravitational field and up until this

200

00:08:41,509 --> 00:08:39,200

point in time great mass such as a star

201
00:08:43,190 --> 00:08:41,519
planet or moon was the only source of a

202
00:08:45,030 --> 00:08:43,200
discernible gravitational field that

203
00:08:46,870 --> 00:08:45,040
we're aware of

204
00:08:48,630 --> 00:08:46,880
so just as the gravitational field

205
00:08:50,710 --> 00:08:48,640
around great mass such as a planet

206
00:08:52,949 --> 00:08:50,720
distorts space and time any

207
00:08:55,670 --> 00:08:52,959
gravitational field whether naturally

208
00:08:57,990 --> 00:08:55,680
occurring or generated distort space and

209
00:08:59,990 --> 00:08:58,000
time in a similar manner now the great

210
00:09:02,230 --> 00:09:00,000
benefit of generating an intense

211
00:09:05,190 --> 00:09:02,240
gravitational field is not only can you

212
00:09:06,949 --> 00:09:05,200
turn it on but you can turn it off

213
00:09:09,269 --> 00:09:06,959

if we refer back to our original

214

00:09:11,110 --> 00:09:09,279

illustration of space-time distortion we

215

00:09:13,430 --> 00:09:11,120

can see that when we generate an intense

216

00:09:15,509 --> 00:09:13,440

gravitational field we can distort the

217

00:09:17,030 --> 00:09:15,519

space time and in turn the distance

218

00:09:18,949 --> 00:09:17,040

between the point where we are and the

219

00:09:20,710 --> 00:09:18,959

point where we want to be we can then

220

00:09:22,790 --> 00:09:20,720

position ourselves at the point where we

221

00:09:25,750 --> 00:09:22,800

want to be and then stop generating the

222

00:09:29,750 --> 00:09:25,760

gravitational field allowing space time

223

00:09:33,829 --> 00:09:31,350

in this manner we can travel great

224

00:09:35,829 --> 00:09:33,839

distances with little linear movement

225

00:09:38,470 --> 00:09:35,839

and this is how space distortion

226

00:09:40,550 --> 00:09:38,480

translates into reduced distance

227

00:09:42,870 --> 00:09:40,560

now back to our original question how is

228

00:09:44,630 --> 00:09:42,880

it possible to cross the vast expanses

229

00:09:46,550 --> 00:09:44,640

of space required for interstellar

230

00:09:47,590 --> 00:09:46,560

travel without exceeding the speed of

231

00:09:49,590 --> 00:09:47,600

light

232

00:09:52,389 --> 00:09:49,600

this is accomplished by generating an

233

00:09:54,389 --> 00:09:52,399

intense gravitational field distorting

234

00:09:56,389 --> 00:09:54,399

space time and allowing you to cross

235

00:09:58,710 --> 00:09:56,399

many light years of space in little or

236

00:10:01,509 --> 00:09:58,720

no time and without traveling in a

237

00:10:03,110 --> 00:10:01,519

linear mode near the speed of light

238

00:10:04,790 --> 00:10:03,120

the next question is how do you generate

239

00:10:06,870 --> 00:10:04,800

a gravitational field

240

00:10:08,389 --> 00:10:06,880

up until this point in time i've used

241

00:10:10,550 --> 00:10:08,399

the term generate to describe the

242

00:10:12,389 --> 00:10:10,560

capability of producing a gravitational

243

00:10:14,150 --> 00:10:12,399

field but since i'm not aware of any way

244

00:10:16,389 --> 00:10:14,160

of creating a gravitational field from

245

00:10:19,110 --> 00:10:16,399

nothing a more accurate term might be to

246

00:10:20,470 --> 00:10:19,120

access and amplify a gravitational field

247

00:10:22,870 --> 00:10:20,480

and this is what i mean when i use the

248

00:10:25,590 --> 00:10:22,880

term generate to understand how gravity

249

00:10:27,750 --> 00:10:25,600

is generated or accessed and amplified

250

00:10:29,910 --> 00:10:27,760

you must first know what gravity is

251

00:10:31,750 --> 00:10:29,920

there are two main theories the wave

252

00:10:34,230 --> 00:10:31,760

theory which states that gravity is a

253

00:10:36,870 --> 00:10:34,240

wave and the currently accepted theory

254

00:10:39,590 --> 00:10:36,880

of gravitons which are alleged subatomic

255

00:10:43,269 --> 00:10:39,600

particles that perform as gravity which

256

00:10:44,949 --> 00:10:43,279

is total nonsense well gravity is a wave

257

00:10:48,550 --> 00:10:44,959

and there are two specific different

258

00:10:51,190 --> 00:10:48,560

types of gravity gravity a and gravity b

259

00:10:53,829 --> 00:10:51,200

gravity a works on a smaller micro scale

260

00:10:55,670 --> 00:10:53,839

while gravity b works on a larger macro

261

00:10:57,590 --> 00:10:55,680

scale

262

00:10:59,590 --> 00:10:57,600

we are familiar with gravity b it is the

263

00:11:01,269 --> 00:10:59,600

big gravity wave that holds the earth as

264

00:11:02,870 --> 00:11:01,279

well as the rest of the planets in orbit

265

00:11:04,790 --> 00:11:02,880

around the sun and holds the moon as

266

00:11:06,949 --> 00:11:04,800

well as man-made satellites in orbit

267

00:11:09,750 --> 00:11:06,959

around the earth

268

00:11:11,829 --> 00:11:09,760

we are not familiar with gravity as it is

269

00:11:13,910 --> 00:11:11,839

a small gravity wave which is the major

270

00:11:15,670 --> 00:11:13,920

contributory force it holds together the

271

00:11:16,790 --> 00:11:15,680

mass that makes up all protons and

272

00:11:18,790 --> 00:11:16,800

neutrons

273

00:11:20,790 --> 00:11:18,800

gravity as is what is currently being

274

00:11:23,030 --> 00:11:20,800

labeled as the strong nuclear force in

275

00:11:25,350 --> 00:11:23,040

mainstream physics and gravity as is the

276

00:11:27,350 --> 00:11:25,360

wave that you need to access and amplify

277

00:11:30,550 --> 00:11:27,360

it to enable you to cause space-time

278

00:11:32,230 --> 00:11:30,560

distortion for interstellar travel

279

00:11:33,590 --> 00:11:32,240

to keep them straight just remember that

280

00:11:36,150 --> 00:11:33,600

gravity a

281

00:11:38,069 --> 00:11:36,160

works on an atomic scale and gravity b

282

00:11:40,150 --> 00:11:38,079

is the big gravity wave that works on a

283

00:11:41,990 --> 00:11:40,160

stellar or planetary level

284

00:11:43,829 --> 00:11:42,000

however don't mistake the size of these

285

00:11:46,790 --> 00:11:43,839

waves for their strength because gravity

286

00:11:48,949 --> 00:11:46,800

a is a much stronger force in gravity b

287

00:11:50,790 --> 00:11:48,959

you can momentarily break the gravity b

288

00:11:52,150 --> 00:11:50,800

field of the earth simply by jumping in

289

00:11:54,150 --> 00:11:52,160

the air

290

00:11:55,750 --> 00:11:54,160

so this is not an intense gravitational

291

00:11:57,910 --> 00:11:55,760

field

292

00:12:00,230 --> 00:11:57,920

locating gravity a is no problem because

293

00:12:02,150 --> 00:12:00,240

it is found in the nucleus of every atom

294

00:12:05,829 --> 00:12:02,160

of all matter here on earth and all

295

00:12:07,910 --> 00:12:05,839

matter anywhere else in our universe

296

00:12:09,590 --> 00:12:07,920

however accessing gravity a with the

297

00:12:11,990 --> 00:12:09,600

naturally occurring elements found on

298

00:12:13,750 --> 00:12:12,000

earth is a big problem actually i'm not

299

00:12:16,150 --> 00:12:13,760

aware of any way of accessing the

300

00:12:17,829 --> 00:12:16,160

gravity a wave using any earth elements

301

00:12:21,190 --> 00:12:17,839

whether naturally occurring or

302

00:12:23,030 --> 00:12:21,200

synthesized and here's why

303

00:12:24,790 --> 00:12:23,040

we've already learned that gravity a is

304

00:12:27,350 --> 00:12:24,800

the major force that holds together the

305

00:12:29,430 --> 00:12:27,360

mass that makes up protons and neutrons

306

00:12:30,949 --> 00:12:29,440

this means the gravity a wave we are

307

00:12:33,509 --> 00:12:30,959

trying to access is virtually

308

00:12:35,509 --> 00:12:33,519

inaccessible as it is located within

309

00:12:37,590 --> 00:12:35,519

matter or at least within the matter

310

00:12:39,430 --> 00:12:37,600

that we have here on earth

311

00:12:41,350 --> 00:12:39,440

however the earth is not representative

312

00:12:43,190 --> 00:12:41,360

of all matter within our universe the

313

00:12:45,030 --> 00:12:43,200

residual matter which remains after the

314

00:12:46,710 --> 00:12:45,040

creation of a solar system is totally

315

00:12:48,310 --> 00:12:46,720

dependent on the contributing factors

316

00:12:50,389 --> 00:12:48,320

which were present during the creation

317

00:12:51,670 --> 00:12:50,399

of the solar system

318

00:12:53,269 --> 00:12:51,680

this is true whether you believe that

319

00:12:55,670 --> 00:12:53,279

the origin of the universe was an

320

00:12:58,230 --> 00:12:55,680

evolutionary event or that a supreme

321

00:13:00,150 --> 00:12:58,240

being caused this event to happen

322

00:13:02,230 --> 00:13:00,160

the two main factors which determine

323

00:13:04,310 --> 00:13:02,240

what residual matter remains after the

324

00:13:06,470 --> 00:13:04,320

creation of a solar system are the

325

00:13:08,710 --> 00:13:06,480

amount of electromagnetic energy and the

326

00:13:11,269 --> 00:13:08,720

amount of mass present during the solar

327

00:13:13,350 --> 00:13:11,279

system's creation

328

00:13:15,110 --> 00:13:13,360

our solar system has one star which is

329

00:13:16,949 --> 00:13:15,120

our sun but the majority of solar

330

00:13:19,990 --> 00:13:16,959

systems in our milky way galaxy are

331

00:13:21,990 --> 00:13:20,000

binary and multiple star systems in fact

332

00:13:23,670 --> 00:13:22,000

many single star systems have stars that

333

00:13:27,269 --> 00:13:23,680

are so large that our sun would appear

334

00:13:29,030 --> 00:13:27,279

to be a dwarf by comparison

335

00:13:31,590 --> 00:13:29,040

keeping all this in mind it should be

336

00:13:33,750 --> 00:13:31,600

obvious that a large single star system

337

00:13:35,430 --> 00:13:33,760

binary star system or multiple star

338

00:13:37,670 --> 00:13:35,440

system would have had more of the

339

00:13:40,230 --> 00:13:37,680

prerequisite mass and electromagnetic

340

00:13:42,230 --> 00:13:40,240

energy present during their creations

341

00:13:43,990 --> 00:13:42,240

this makes it possible for these systems

342

00:13:46,069 --> 00:13:44,000

to possess elements which are not native

343

00:13:47,910 --> 00:13:46,079

to the earth scientists have long

344

00:13:50,150 --> 00:13:47,920

theorized that there are potential

345

00:13:51,829 --> 00:13:50,160

combinations of protons and neutrons

346

00:13:53,750 --> 00:13:51,839

which should provide stable elements

347

00:13:55,990 --> 00:13:53,760

with atomic numbers higher than any

348

00:13:57,350 --> 00:13:56,000

which appear in our periodic chart

349

00:13:59,350 --> 00:13:57,360

though none of these heavy elements

350

00:14:01,350 --> 00:13:59,360

occur naturally on earth

351

00:14:03,750 --> 00:14:01,360

88 of the first 92 elements on the

352

00:14:05,829 --> 00:14:03,760

periodic chart occur naturally on earth

353

00:14:07,350 --> 00:14:05,839

some heavy elements do occur in trace

354

00:14:09,030 --> 00:14:07,360

amounts but for the most part we

355

00:14:10,949 --> 00:14:09,040

synthesize these heavier elements in

356

00:14:12,710 --> 00:14:10,959

laboratories generally speaking the

357

00:14:14,470 --> 00:14:12,720

stability of these synthesized heavy

358

00:14:16,710 --> 00:14:14,480

elements decreases as their atomic

359

00:14:18,629 --> 00:14:16,720

number increases but experiments the lab

360

00:14:20,389 --> 00:14:18,639

for heavy ion research in germany have

361

00:14:22,150 --> 00:14:20,399

shown that this may only be true up to a

362

00:14:24,069 --> 00:14:22,160

certain point as the half-life for

363

00:14:28,470 --> 00:14:24,079

element 109 is longer than that of

364

00:14:32,310 --> 00:14:30,150

the point is that our observations and

365

00:14:34,470 --> 00:14:32,320

theories are accurate the fact is that

366

00:14:36,389 --> 00:14:34,480

heavier stable elements with higher

367

00:14:38,310 --> 00:14:36,399

atomic numbers which have more protons

368

00:14:41,110 --> 00:14:38,320

neutrons and electrons than any earth

369

00:14:42,790 --> 00:14:41,120

elements do exist however up until this

370

00:14:45,189 --> 00:14:42,800

point in history there has been no

371

00:14:47,269 --> 00:14:45,199

physical evidence to prove this but now

372

00:14:48,949 --> 00:14:47,279

that proof is here

373

00:14:50,629 --> 00:14:48,959

the most important attribute of these

374

00:14:52,790 --> 00:14:50,639

heavier stable elements is that the

375

00:14:54,470 --> 00:14:52,800

gravity a wave is so abundant that it

376

00:14:55,509 --> 00:14:54,480

actually extends past the perimeter of

377

00:14:57,590 --> 00:14:55,519

the atom

378

00:14:59,509 --> 00:14:57,600

these heavier stable elements literally

379

00:15:01,590 --> 00:14:59,519

have their own gravity a field around

380

00:15:05,990 --> 00:15:01,600

them in addition to the gravity b field

381

00:15:09,910 --> 00:15:07,990

no naturally occurring atoms on earth

382

00:15:12,389 --> 00:15:09,920

have enough protons and neutrons for the

383

00:15:13,829 --> 00:15:12,399

cumulative gravity a wave to extend past

384

00:15:15,189 --> 00:15:13,839

the perimeter of the atom so you can

385

00:15:16,949 --> 00:15:15,199

access it

386

00:15:19,750 --> 00:15:16,959

even though the distance that the

387

00:15:22,629 --> 00:15:19,760

gravity a wave extends is infinitesimal

388

00:15:24,870 --> 00:15:22,639

it is accessible and it has amplitude

389

00:15:26,389 --> 00:15:24,880

wavelength and frequency just like any

390

00:15:27,829 --> 00:15:26,399

other wave in the electromagnetic

391

00:15:30,069 --> 00:15:27,839

spectrum

392

00:15:32,870 --> 00:15:30,079

once you can access the gravity a wave

393

00:15:35,990 --> 00:15:32,880

you can amplify it just like we amplify

394

00:16:39,670 --> 00:15:36,000

any other electromagnetic wave

395

00:16:43,509 --> 00:16:41,670

to complete our three science lessons

396

00:16:47,189 --> 00:16:43,519

the last question is what is the power

397

00:16:50,870 --> 00:16:48,710

well for those of you with limited

398

00:16:52,629 --> 00:16:50,880

knowledge about power sources i'm sure

399

00:16:54,310 --> 00:16:52,639

you can probably imagine the enormous

400

00:16:56,230 --> 00:16:54,320

amount of power required to cause a

401
00:16:59,350 --> 00:16:56,240
space-time distortion for this type of

402
00:17:01,670 --> 00:16:59,360
travel after all we're amplifying a wave

403
00:17:03,590 --> 00:17:01,680
that barely extends past the perimeter

404
00:17:06,470 --> 00:17:03,600
of an atom until it's large enough to

405
00:17:07,909 --> 00:17:06,480
distort vast amounts of space time

406
00:17:10,069 --> 00:17:07,919
for those of you with extensive

407
00:17:12,230 --> 00:17:10,079
knowledge about power sources i'm sure

408
00:17:14,069 --> 00:17:12,240
it's probably even more puzzling as to

409
00:17:16,309 --> 00:17:14,079
how it's possible to have a compact

410
00:17:18,710 --> 00:17:16,319
lightweight onboard power source that

411
00:17:20,390 --> 00:17:18,720
can provide this much power for everyone

412
00:17:22,309 --> 00:17:20,400
to understand that i need to further

413
00:17:24,870 --> 00:17:22,319

explain a couple of things we've briefly

414

00:17:26,710 --> 00:17:24,880

touched upon in the last question

415

00:17:29,029 --> 00:17:26,720

if you remember i said that for the most

416

00:17:30,870 --> 00:17:29,039

part we synthesize or create heavier

417

00:17:33,110 --> 00:17:30,880

elements in accelerators and their

418

00:17:35,190 --> 00:17:33,120

stability decreases as their atomic

419

00:17:37,110 --> 00:17:35,200

number increases so what does this all

420

00:17:38,870 --> 00:17:37,120

mean

421

00:17:41,110 --> 00:17:38,880

well we synthesize these heavier

422

00:17:42,710 --> 00:17:41,120

unstable elements by using more stable

423

00:17:44,950 --> 00:17:42,720

elements as targets and a particle

424

00:17:46,549 --> 00:17:44,960

accelerator we then bombard the target

425

00:17:48,710 --> 00:17:46,559

element with various atomic and

426

00:17:50,710 --> 00:17:48,720

subatomic particles at this point

427

00:17:53,190 --> 00:17:50,720

transmutation occurs making the target

428

00:17:55,350 --> 00:17:53,200

element a different heavier element this

429

00:17:57,270 --> 00:17:55,360

element now has a higher atomic number

430

00:17:59,029 --> 00:17:57,280

as the atomic number simply indicates

431

00:18:01,029 --> 00:17:59,039

the number of protons in the nucleus of

432

00:18:04,789 --> 00:18:01,039

the atom so this is what i mean when i

433

00:18:07,909 --> 00:18:04,799

say their atomic number increases

434

00:18:09,590 --> 00:18:07,919

what does their stability decreases mean

435

00:18:11,590 --> 00:18:09,600

the length of time which an element

436

00:18:12,870 --> 00:18:11,600

exists before it decays determines its

437

00:18:15,270 --> 00:18:12,880

stability

438

00:18:17,110 --> 00:18:15,280

atoms of some elements decay faster than

439

00:18:19,190 --> 00:18:17,120

atoms of other elements so the faster an

440

00:18:21,110 --> 00:18:19,200

element decays the more unstable that

441

00:18:22,950 --> 00:18:21,120

element is considered to be

442

00:18:25,510 --> 00:18:22,960

when an atom decays it releases or

443

00:18:27,110 --> 00:18:25,520

radiates subatomic particles and energy

444

00:18:28,549 --> 00:18:27,120

which is the radiation that a geiger

445

00:18:30,230 --> 00:18:28,559

counter detects

446

00:18:31,909 --> 00:18:30,240

as you can see this geiger counter is

447

00:18:34,070 --> 00:18:31,919

detecting the radiation from this

448

00:18:35,990 --> 00:18:34,080

uranium which literally means that the

449

00:18:38,070 --> 00:18:36,000

geiger counter is sensing the subatomic

450

00:18:42,470 --> 00:18:38,080

particles which are being released or

451

00:18:43,990 --> 00:18:42,480

radiated as the uranium decays

452

00:18:46,549 --> 00:18:44,000

those elements in which nuclear

453

00:18:48,630 --> 00:18:46,559

radiation can be consistently detected

454

00:18:50,789 --> 00:18:48,640

are radioactive elements

455

00:18:52,710 --> 00:18:50,799

these heavy elements which we synthesize

456

00:18:55,029 --> 00:18:52,720

in particle accelerators are of the

457

00:18:56,390 --> 00:18:55,039

radioactive variety and they decay very

458

00:18:57,830 --> 00:18:56,400

rapidly

459

00:18:59,590 --> 00:18:57,840

since we're only able to make a few

460

00:19:02,070 --> 00:18:59,600

atoms of these elements and because they

461

00:19:04,150 --> 00:19:02,080

decay so rapidly we're not able to

462

00:19:05,909 --> 00:19:04,160

observe much about them this is what i

463

00:19:09,190 --> 00:19:05,919

mean when i say their stability

464

00:19:24,870 --> 00:19:09,200

decreases however there are elements

465

00:19:29,669 --> 00:19:27,110

the elements become unstable again and

466

00:19:30,950 --> 00:19:29,679

in fact element 116 decays in fractions

467

00:19:32,710 --> 00:19:30,960

of a second

468

00:19:34,390 --> 00:19:32,720

this finally brings us to the power

469

00:20:18,950 --> 00:19:34,400

source

470

00:20:22,549 --> 00:20:20,789

and remember the rapid conversion of

471

00:20:24,710 --> 00:20:22,559

matter to energy is what we generally

472

00:20:26,870 --> 00:20:24,720

call an explosion to demonstrate the

473

00:20:28,870 --> 00:20:26,880

explosive power of antimatter let's pick

474

00:20:29,830 --> 00:20:28,880

a random area where an atomic bomb might

475

00:20:32,390 --> 00:20:29,840

explode

476

00:20:34,310 --> 00:20:32,400

oh let's say iraq

477

00:20:35,830 --> 00:20:34,320

and for demonstration purposes let's say

478

00:20:40,470 --> 00:20:35,840

an atomic bomb would explode for

479

00:20:44,789 --> 00:20:42,470

well if one of our older atomic bombs

480

00:20:46,789 --> 00:20:44,799

exploded in baghdad the area of total

481

00:20:48,149 --> 00:20:46,799

devastation which is indicated by the

482

00:20:50,390 --> 00:20:48,159

red dot on the map would be

483

00:20:52,230 --> 00:20:50,400

approximately two miles this would be

484

00:20:53,830 --> 00:20:52,240

caused by a fission reaction in which

485

00:20:57,110 --> 00:20:53,840

less than one percent of the nuclear

486

00:20:58,470 --> 00:20:57,120

material is converted to energy

487

00:21:00,470 --> 00:20:58,480

most of you are familiar with the bombs

488

00:21:02,390 --> 00:21:00,480

that were dropped on japan in world war

489

00:21:07,430 --> 00:21:02,400

two this is the same bomb that was

490

00:21:10,630 --> 00:21:09,590

about the same time dr edward teller

491

00:21:12,870 --> 00:21:10,640

who's known as the father of the

492

00:21:15,190 --> 00:21:12,880

hydrogen bomb figured out that a nuclear

493

00:21:17,029 --> 00:21:15,200

fusion bomb was possible fusion would

494

00:21:18,630 --> 00:21:17,039

release even more energy and cause an

495

00:21:21,110 --> 00:21:18,640

even bigger explosion from the same

496

00:21:23,430 --> 00:21:21,120

amount of nuclear material much to dr

497

00:21:25,190 --> 00:21:23,440

teller's dismay the japanese surrendered

498

00:21:27,029 --> 00:21:25,200

we never dropped the hydrogen bomb and

499

00:21:29,190 --> 00:21:27,039

dr teller has been in a bad mood ever

500

00:21:30,950 --> 00:21:29,200

since

501
00:21:32,710 --> 00:21:30,960
but if a hydrogen bomb containing the

502
00:21:35,510 --> 00:21:32,720
same amount of nuclear material as the

503
00:21:37,590 --> 00:21:35,520
nagasaki bomb were to explode in baghdad

504
00:21:39,990 --> 00:21:37,600
the area of total devastation would be

505
00:21:42,149 --> 00:21:40,000
approximately 20 miles this would be

506
00:21:44,149 --> 00:21:42,159
caused by a nuclear fusion reaction

507
00:21:46,230 --> 00:21:44,159
which again less than one percent of the

508
00:21:49,190 --> 00:21:46,240
nuclear material actually converts to

509
00:21:51,750 --> 00:21:49,200
energy or explodes

510
00:21:53,590 --> 00:21:51,760
the other 99 of the nuclear material on

511
00:21:55,350 --> 00:21:53,600
this type of bomb is dispersed but is

512
00:21:58,070 --> 00:21:55,360
not involved in the actual nuclear

513
00:21:59,830 --> 00:21:58,080

fusion reaction

514

00:22:01,510 --> 00:21:59,840

now if a bomb was made with the same

515

00:22:03,750 --> 00:22:01,520

amount of nuclear material as the

516

00:22:06,310 --> 00:22:03,760

nagasaki bomb and that material was

517

00:22:08,870 --> 00:22:06,320

anti-matter when that bomb exploded in

518

00:22:11,110 --> 00:22:08,880

baghdad the area of total devastation

519

00:22:13,350 --> 00:22:11,120

would include parts of africa europe and

520

00:22:15,350 --> 00:22:13,360

asia with the exact area of total

521

00:22:17,750 --> 00:22:15,360

devastation being very difficult to

522

00:22:19,190 --> 00:22:17,760

calculate

523

00:22:21,029 --> 00:22:19,200

this would be caused by a total

524

00:22:23,270 --> 00:22:21,039

annihilation reaction which is the

525

00:22:24,870 --> 00:22:23,280

complete conversion of matter to energy

526

00:24:33,350 --> 00:22:24,880

a hundred percent of the nuclear

527

00:24:37,350 --> 00:24:34,870

so we've learned how space time is

528

00:24:39,590 --> 00:24:37,360

distorted by a gravitational field we've

529

00:24:41,750 --> 00:24:39,600

learned how that gravitational field is

530

00:24:43,510 --> 00:24:41,760

generated and we've also learned where

531

00:24:45,750 --> 00:24:43,520

you get the power to accomplish all of

532

00:24:47,350 --> 00:24:45,760

this

533

00:24:48,950 --> 00:24:47,360

now it's time to link all we've learned

534

00:24:51,269 --> 00:24:48,960

in our science lessons to the vehicle

535

00:24:52,950 --> 00:24:51,279

that utilizes all this technology and a

536

00:24:54,710 --> 00:24:52,960

few years ago i never thought i'd hear

537

00:24:56,789 --> 00:24:54,720

myself say this but that vehicle is a

538

00:24:58,149 --> 00:24:56,799

disc which is generally referred to as a

539

00:24:59,909 --> 00:24:58,159

flying saucer

540

00:25:02,390 --> 00:24:59,919

i had at least partial views of nine

541

00:25:04,470 --> 00:25:02,400

different discs out at area s4 but the

542

00:25:06,149 --> 00:25:04,480

one i'm going to describe to you now is

543

00:25:08,630 --> 00:25:06,159

the one in which i not only saw two of

544

00:25:10,870 --> 00:25:08,640

the three interior levels but i also saw

545

00:25:13,269 --> 00:25:10,880

it fully functional in flight

546

00:25:16,390 --> 00:25:13,279

and no unfortunately i didn't get to go

547

00:25:19,990 --> 00:25:18,230

this particular disc appeared to be in

548

00:25:21,590 --> 00:25:20,000

excellent condition and because of its

549

00:25:22,950 --> 00:25:21,600

sleek appearance i nicknamed it the

550

00:25:27,750 --> 00:25:22,960

sport model

551
00:25:29,510 --> 00:25:27,760
and 40 feet in diameter the exterior

552
00:25:31,830 --> 00:25:29,520
skin of the disc is metal which is the

553
00:25:33,750 --> 00:25:31,840
color of unpolished stainless steel the

554
00:25:35,830 --> 00:25:33,760
sport model sits on its belly when it's

555
00:25:37,830 --> 00:25:35,840
not energized

556
00:25:39,669 --> 00:25:37,840
as you can see the hatch is located on

557
00:25:41,350 --> 00:25:39,679
the upper half of the disc with just the

558
00:25:44,310 --> 00:25:41,360
bottom portion of the door wrapping

559
00:25:46,070 --> 00:25:44,320
around the center lip of the disc

560
00:25:48,230 --> 00:25:46,080
the interior level of the disc is

561
00:25:49,909 --> 00:25:48,240
divided into three levels

562
00:25:52,070 --> 00:25:49,919
the lower level is where the three

563
00:25:54,230 --> 00:25:52,080

gravity amplifiers and amplifier guides

564

00:25:56,390 --> 00:25:54,240

are located these are the things used to

565

00:25:57,830 --> 00:25:56,400

amplify and focus the gravity a wave

566

00:25:59,029 --> 00:25:57,840

that we learned about in our science

567

00:26:01,269 --> 00:25:59,039

lessons

568

00:26:02,950 --> 00:26:01,279

the reactor is located directly above

569

00:26:04,710 --> 00:26:02,960

the three gravity amplifiers on the

570

00:26:06,950 --> 00:26:04,720

center level and is in fact centered

571

00:26:08,710 --> 00:26:06,960

between them

572

00:26:11,590 --> 00:26:08,720

the reactor is similar to this half

573

00:26:13,430 --> 00:26:11,600

scale model the element 115 is machined

574

00:26:15,750 --> 00:26:13,440

into triangles like this and is then

575

00:26:18,149 --> 00:26:15,760

inserted into the reactor this piece of

576
00:26:19,909 --> 00:26:18,159
element 115 is the source of the gravity

577
00:26:21,669 --> 00:26:19,919
a wave as well as the target that is

578
00:26:23,590 --> 00:26:21,679
bombarded with protons to release the

579
00:26:27,029 --> 00:26:23,600
antimatter both of which we learned

580
00:26:30,789 --> 00:26:28,710
the center level of this disc also

581
00:26:32,630 --> 00:26:30,799
houses the control consoles and seats

582
00:26:34,470 --> 00:26:32,640
both of which were too small and too low

583
00:26:36,549 --> 00:26:34,480
to the floor to be functional for adult

584
00:26:37,990 --> 00:26:36,559
human beings

585
00:26:40,149 --> 00:26:38,000
the walls of the center level are all

586
00:26:42,310 --> 00:26:40,159
divided into archways at one point in

587
00:26:44,149 --> 00:26:42,320
time when the disc was energized one of

588
00:26:46,070 --> 00:26:44,159

the archways became transparent and you

589

00:26:48,230 --> 00:26:46,080

could see the area outside of it just as

590

00:26:50,070 --> 00:26:48,240

if the archway was a window after the

591

00:26:52,230 --> 00:26:50,080

panel had been transparent for a while a

592

00:26:54,230 --> 00:26:52,240

form of writing which was unlike any

593

00:26:56,070 --> 00:26:54,240

alphabetic scientific or mathematical

594

00:26:57,990 --> 00:26:56,080

symbols i've ever seen began to appear

595

00:26:59,909 --> 00:26:58,000

in the transparent archway and i was

596

00:27:01,750 --> 00:26:59,919

never informed as to how all of this was

597

00:27:05,269 --> 00:27:01,760

achieved not that any of that would have

598

00:27:07,110 --> 00:27:05,279

required alien technology

599

00:27:09,190 --> 00:27:07,120

i was never given access to the upper

600

00:27:11,350 --> 00:27:09,200

level of the disk so i can enlighten you

601
00:27:12,870 --> 00:27:11,360
as to what the porthole-like areas are

602
00:27:15,190 --> 00:27:12,880
other than i can assure you that they're

603
00:27:16,789 --> 00:27:15,200
not portholes

604
00:27:18,789 --> 00:27:16,799
now before i go any further about the

605
00:27:21,590 --> 00:27:18,799
disk i'm going to show you where and

606
00:27:23,430 --> 00:27:21,600
under what circumstances i saw it tested

607
00:27:25,669 --> 00:27:23,440
my job in this program was to be part of

608
00:27:27,510 --> 00:27:25,679
a back engineering team back engineering

609
00:27:28,870 --> 00:27:27,520
is the act of taking a finished product

610
00:27:31,029 --> 00:27:28,880
and tearing it apart to find out what

611
00:27:32,870 --> 00:27:31,039
makes it tick the goal in this program

612
00:27:36,470 --> 00:27:32,880
was to see if the technology of the disc

613
00:27:37,990 --> 00:27:36,480

could be duplicated with earth materials

614

00:27:41,350 --> 00:27:38,000

when i went to work i was flown from

615

00:27:43,350 --> 00:27:41,360

mccarran airport in las vegas to area 51

616

00:27:45,990 --> 00:27:43,360

which is a highly secure government base

617

00:27:48,630 --> 00:27:46,000

on the nevada test site area 51 is

618

00:27:50,310 --> 00:27:48,640

located about 125 miles north of las

619

00:27:51,909 --> 00:27:50,320

vegas near the grew mountains in the

620

00:27:54,149 --> 00:27:51,919

groomed dry lake bed

621

00:27:56,070 --> 00:27:54,159

from area 51 i was bussed to an even

622

00:27:58,789 --> 00:27:56,080

more highly secure facility located

623

00:28:01,669 --> 00:27:58,799

about 15 miles south of area 51 called

624

00:28:03,909 --> 00:28:01,679

s4 s4 is situated at the base of the

625

00:28:05,750 --> 00:28:03,919

papoose mountains by the papu's dry lake

626

00:28:07,990 --> 00:28:05,760

bed

627

00:28:10,070 --> 00:28:08,000

the airspace around s4 is restricted and

628

00:28:11,990 --> 00:28:10,080

if any unwelcome aircraft strays into

629

00:28:14,149 --> 00:28:12,000

the outer sector they radio the pilot

630

00:28:15,909 --> 00:28:14,159

and instruct him or her to leave if that

631

00:28:17,909 --> 00:28:15,919

pilot continues and strays into the

632

00:28:20,470 --> 00:28:17,919

middle sector jets will be scrambled to

633

00:28:22,310 --> 00:28:20,480

escort the intruding aircraft out

634

00:28:24,149 --> 00:28:22,320

if for any reason whatsoever that

635

00:28:25,909 --> 00:28:24,159

aircraft penetrates into the inside

636

00:28:27,669 --> 00:28:25,919

sector before jets can be airborne

637

00:28:29,590 --> 00:28:27,679

ground-to-air missiles will neutralize

638

00:28:31,510 --> 00:28:29,600

the intruder

639

00:28:33,750 --> 00:28:31,520

the moral of this story is don't try and

640

00:28:35,830 --> 00:28:33,760

fly into s4

641

00:28:37,590 --> 00:28:35,840

the s4 installation is built into the

642

00:28:39,830 --> 00:28:37,600

mountain and the nine hanger doors are

643

00:28:41,510 --> 00:28:39,840

angled at about 60 degrees

644

00:28:43,110 --> 00:28:41,520

these doors are covered with a sand

645

00:28:44,789 --> 00:28:43,120

textured coating to blend in with the

646

00:28:46,149 --> 00:28:44,799

side of the mountain and the desert

647

00:28:48,230 --> 00:28:46,159

floor

648

00:28:50,470 --> 00:28:48,240

as you can see in this representation my

649

00:28:52,310 --> 00:28:50,480

id badge had a white background with one

650

00:28:54,549 --> 00:28:52,320

light blue and one dark blue diagonal

651
00:28:55,909 --> 00:28:54,559
stripe in the upper left hand corner at

652
00:28:57,909 --> 00:28:55,919
the bottom of the badge there were

653
00:29:00,870 --> 00:28:57,919
letters and numbers designating various

654
00:29:03,350 --> 00:29:00,880
areas including s4 on my badge there was

655
00:29:05,350 --> 00:29:03,360
a star punch through s4 the back of the

656
00:29:09,269 --> 00:29:05,360
id badge was dark blue with a vertical

657
00:29:12,710 --> 00:29:10,950
the hanger that housed the sport model

658
00:29:14,470 --> 00:29:12,720
was like a typical airplane hangar with

659
00:29:16,630 --> 00:29:14,480
the exception of the angled doors that i

660
00:29:18,310 --> 00:29:16,640
mentioned before the hangar was equipped

661
00:29:20,470 --> 00:29:18,320
with typical tools and extensive

662
00:29:22,310 --> 00:29:20,480
electronic equipment it also had a

663
00:29:23,909 --> 00:29:22,320

machine with an x-ray emblem on it and

664

00:29:25,430 --> 00:29:23,919

an overhead crane rated at twenty

665

00:29:27,110 --> 00:29:25,440

thousand pounds

666

00:29:29,430 --> 00:29:27,120

equipment in this hangar was marked with

667

00:29:31,909 --> 00:29:29,440

a black number 41 with a white circle

668

00:29:33,750 --> 00:29:31,919

around it

669

00:29:35,510 --> 00:29:33,760

it was outside of this hanger that i saw

670

00:29:37,190 --> 00:29:35,520

the sport model tested

671

00:29:38,950 --> 00:29:37,200

now when the disc travels near another

672

00:29:41,029 --> 00:29:38,960

source of gravity such as a planet or

673

00:29:42,389 --> 00:29:41,039

moon it doesn't use the same mode of

674

00:29:44,070 --> 00:29:42,399

travel that we learned about in our

675

00:29:45,590 --> 00:29:44,080

science lessons

676
00:29:48,230 --> 00:29:45,600
when a disc is near another source of

677
00:29:50,470 --> 00:29:48,240
gravity like earth the gravity a wave

678
00:29:52,549 --> 00:29:50,480
which propagates outward from the disk

679
00:29:54,549 --> 00:29:52,559
is phase shifted into the gravity b wave

680
00:29:56,230 --> 00:29:54,559
which propagates outward from the earth

681
00:29:58,149 --> 00:29:56,240
and this creates lift

682
00:29:59,909 --> 00:29:58,159
the gravity amplifiers of the disc can

683
00:30:02,470 --> 00:29:59,919
be focused independently and they are

684
00:30:04,070 --> 00:30:02,480
pulsed and do not stay on continuously

685
00:30:05,510 --> 00:30:04,080
when all three of these amplifiers are

686
00:30:07,990 --> 00:30:05,520
being used for travel they're in the

687
00:30:09,190 --> 00:30:08,000
delta configuration and when only one is

688
00:30:11,990 --> 00:30:09,200

being used for travel it's in the

689

00:30:13,669 --> 00:30:12,000

omicron configuration as the intensity

690

00:30:16,149 --> 00:30:13,679

of the gravitational field around the

691

00:30:18,630 --> 00:30:16,159

disk increases the distortion of space

692

00:30:20,070 --> 00:30:18,640

time around the disk also increases

693

00:30:23,110 --> 00:30:20,080

and if you could see the space-time

694

00:30:24,950 --> 00:30:23,120

distortion this is how it would look

695

00:30:27,110 --> 00:30:24,960

as you can see as the output of the

696

00:30:29,830 --> 00:30:27,120

gravitational field from the amplifiers

697

00:30:31,990 --> 00:30:29,840

becomes more intense the form of space

698

00:30:34,470 --> 00:30:32,000

time around the disc not only bends

699

00:30:36,710 --> 00:30:34,480

upward but at maximum distortion

700

00:30:39,669 --> 00:30:36,720

actually folds over into almost a heart

701
00:30:42,230 --> 00:30:39,679
shape around the top of the disc

702
00:30:44,950 --> 00:30:42,240
now remember this space-time distortion

703
00:30:45,830 --> 00:30:44,960
is taking place 360 degrees around the

704
00:30:49,830 --> 00:30:45,840
disc

705
00:30:53,430 --> 00:30:49,840
the top the space-time distortion would

706
00:30:57,350 --> 00:30:55,269
when the gravitational field around the

707
00:30:59,029 --> 00:30:57,360
disc is so intense that the space-time

708
00:31:01,509 --> 00:30:59,039
distortion around the disc achieves

709
00:31:03,669 --> 00:31:01,519
maximum distortion and is folded up into

710
00:31:05,669 --> 00:31:03,679
this heart-shaped form the disc can't be

711
00:31:08,070 --> 00:31:05,679
seen from any vantage point and for all

712
00:31:09,750 --> 00:31:08,080
practical purposes is invisible all you

713
00:31:11,190 --> 00:31:09,760

could see would be the sky surrounding

714

00:31:13,590 --> 00:31:11,200

it

715

00:31:16,630 --> 00:31:13,600

the program out at area s4 consisted of

716

00:31:20,549 --> 00:31:16,640

three projects project galileo project

717

00:31:22,630 --> 00:31:20,559

sidekick and project looking glass

718

00:31:24,389 --> 00:31:22,640

project galileo dealt with gravity

719

00:31:26,149 --> 00:31:24,399

propulsion and was the source of all the

720

00:31:27,029 --> 00:31:26,159

information you've learned in this first

721

00:31:28,710 --> 00:31:27,039

section

722

00:31:30,630 --> 00:31:28,720

project sidekick dealt with a beam

723

00:31:32,470 --> 00:31:30,640

weapon that had a neutron source and was

724

00:31:33,990 --> 00:31:32,480

focused by a gravity lens

725

00:31:36,310 --> 00:31:34,000

project looking glass dealt with the

726

00:31:38,149 --> 00:31:36,320

physics of seeing back in time

727

00:31:39,909 --> 00:31:38,159

now i was not personally involved with

728

00:31:41,830 --> 00:31:39,919

the hardware of project sidekick or

729

00:31:43,750 --> 00:31:41,840

looking glass and those projects are

730

00:31:45,190 --> 00:31:43,760

beyond the scope of this video

731

00:31:46,630 --> 00:31:45,200

so this brings us to the end of this

732

00:31:49,190 --> 00:31:46,640

first part in which i'm presenting to

733

00:31:51,029 --> 00:31:49,200

you is fact

734

00:31:52,549 --> 00:31:51,039

at this point we begin our second part

735

00:31:54,070 --> 00:31:52,559

which is the section that contains what

736

00:31:55,029 --> 00:31:54,080

i call excerpts from the government

737

00:31:56,630 --> 00:31:55,039

bible

738

00:31:58,389 --> 00:31:56,640

i call it that because as you can tell

739

00:31:59,990 --> 00:31:58,399

from part one there's a small segment of

740

00:32:01,990 --> 00:32:00,000

the united states government that makes

741

00:32:03,190 --> 00:32:02,000

scientific and technological judgments

742

00:32:05,430 --> 00:32:03,200

from a knowledge base that is not

743

00:32:07,350 --> 00:32:05,440

available to the general public

744

00:32:09,110 --> 00:32:07,360

if the following information is true the

745

00:32:11,590 --> 00:32:09,120

united states government also makes

746

00:32:13,350 --> 00:32:11,600

judgments on a historical philosophical

747

00:32:15,029 --> 00:32:13,360

and even theological level from a

748

00:32:17,190 --> 00:32:15,039

knowledge base that is not available to

749

00:32:19,669 --> 00:32:17,200

the general public these are excerpts

750

00:32:21,509 --> 00:32:19,679

from some of that information

751
00:32:23,509 --> 00:32:21,519
as part of my indoctrination into the

752
00:32:25,190 --> 00:32:23,519
program at s4 i would randomly be taken

753
00:32:28,310 --> 00:32:25,200
into a small room which contained a

754
00:32:30,549 --> 00:32:28,320
table a chair and 120 or so briefings in

755
00:32:32,230 --> 00:32:30,559
blue folders i'd be left there to read

756
00:32:34,710 --> 00:32:32,240
for varying amounts of time usually

757
00:32:36,149 --> 00:32:34,720
about half an hour

758
00:32:38,230 --> 00:32:36,159
these briefings contained a wide

759
00:32:41,190 --> 00:32:38,240
spectrum of information mostly relating

760
00:32:42,950 --> 00:32:41,200
to aliens and alien technology

761
00:32:44,789 --> 00:32:42,960
these reports appear to be an overview

762
00:32:46,630 --> 00:32:44,799
of alien information which can be used

763
00:32:48,470 --> 00:32:46,640

to brief scientists from any field about

764

00:32:50,789 --> 00:32:48,480

the scope of the whole project and not

765

00:32:52,630 --> 00:32:50,799

just their specific field of endeavor

766

00:32:54,789 --> 00:32:52,640

the overview of project galileo was

767

00:32:56,470 --> 00:32:54,799

accurate i read the overview and later

768

00:32:57,669 --> 00:32:56,480

witnessed evidence which proved it to be

769

00:32:59,590 --> 00:32:57,679

accurate

770

00:33:01,590 --> 00:32:59,600

so it is possible that scientists

771

00:33:03,509 --> 00:33:01,600

involved with other projects could have

772

00:33:05,669 --> 00:33:03,519

seen evidence that these other overviews

773

00:33:06,789 --> 00:33:05,679

were also accurate but i can't make that

774

00:33:08,870 --> 00:33:06,799

assertion

775

00:33:11,110 --> 00:33:08,880

to me these reports were simply words on

776

00:33:13,590 --> 00:33:11,120

paper so to keep from saying allegedly

777

00:33:15,990 --> 00:33:13,600

and supposedly in every sentence i'll

778

00:33:17,590 --> 00:33:16,000

relay this information to you as i read

779

00:33:19,509 --> 00:33:17,600

it since i've already put this

780

00:33:20,950 --> 00:33:19,519

disclaimer on it

781

00:33:22,710 --> 00:33:20,960

this technology that you've learned

782

00:33:24,870 --> 00:33:22,720

about thus far was brought here by some

783

00:33:26,549 --> 00:33:24,880

alien beings from the zeta reticuli 1

784

00:33:27,909 --> 00:33:26,559

and 2 star system

785

00:33:29,669 --> 00:33:27,919

these stars are located in the

786

00:33:30,789 --> 00:33:29,679

constellation of reticulum which can

787

00:33:32,230 --> 00:33:30,799

only be seen from the southern

788

00:33:34,389 --> 00:33:32,240

hemisphere

789

00:33:36,230 --> 00:33:34,399

zeta reticuli is a binary star system

790

00:33:38,149 --> 00:33:36,240

which means it has two stars and is

791

00:33:39,269 --> 00:33:38,159

located approximately 30 light years

792

00:33:41,190 --> 00:33:39,279

from earth

793

00:33:43,029 --> 00:33:41,200

these beings are from reticulum four

794

00:33:44,470 --> 00:33:43,039

which is the fourth planet out from zeta

795

00:33:45,990 --> 00:33:44,480

reticulite ii

796

00:33:48,070 --> 00:33:46,000

this is the way star systems were

797

00:33:50,149 --> 00:33:48,080

referred to in these reports they simply

798

00:33:51,909 --> 00:33:50,159

designate the name of the star and the

799

00:33:54,230 --> 00:33:51,919

number of planets from the nearest to

800

00:33:56,549 --> 00:33:54,240

the furthest from the star for instance

801
00:33:58,870 --> 00:33:56,559
our sun was designated as seoul and the

802
00:34:01,190 --> 00:33:58,880
earth was referred to as soul 3 because

803
00:34:04,830 --> 00:34:01,200
we're the third planet out from the sun

804
00:34:07,350 --> 00:34:04,840
a day on reticulum 4 is 90 earth hours

805
00:34:09,750 --> 00:34:07,360
long the beings are three to four feet

806
00:34:11,990 --> 00:34:09,760
tall and weigh 25 to 50 pounds they have

807
00:34:14,069 --> 00:34:12,000
grayish skin and large heads with almond

808
00:34:16,149 --> 00:34:14,079
shaped wraparound eyes they have very

809
00:34:18,230 --> 00:34:16,159
slight nose mouth and ear positions and

810
00:34:20,069 --> 00:34:18,240
are hairless

811
00:34:21,829 --> 00:34:20,079
any dates in the information regarding

812
00:34:24,629 --> 00:34:21,839
these beings were written in a six digit

813
00:34:26,550 --> 00:34:24,639

number which began with 1623 since i had

814

00:34:28,069 --> 00:34:26,560

no idea what the six digit number was

815

00:34:30,310 --> 00:34:28,079

for the present year i had no way of

816

00:34:32,230 --> 00:34:30,320

calculating when these beings arrived or

817

00:34:33,430 --> 00:34:32,240

at least arrived this time

818

00:34:35,030 --> 00:34:33,440

these beings said that they had been

819

00:34:36,790 --> 00:34:35,040

visiting earth for a long time and

820

00:34:39,510 --> 00:34:36,800

presented photographic evidence which

821

00:34:41,030 --> 00:34:39,520

they contended was over 10 000 years old

822

00:34:43,829 --> 00:34:41,040

there was an exchange of hardware and

823

00:34:45,589 --> 00:34:43,839

information in central nevada until 1979

824

00:34:47,589 --> 00:34:45,599

at which time there was a conflict which

825

00:34:49,909 --> 00:34:47,599

brought the program to an abrupt halt

826

00:34:51,909 --> 00:34:49,919

the beings left but were to return at a

827

00:34:52,950 --> 00:34:51,919

1623 date and i don't know what that

828

00:34:54,230 --> 00:34:52,960

date is

829

00:34:56,069 --> 00:34:54,240

with the remaining hardware and

830

00:34:58,550 --> 00:34:56,079

information the us government started

831

00:35:01,109 --> 00:34:58,560

the back engineering program

832

00:35:02,950 --> 00:35:01,119

in may of 1987 some scientists took an

833

00:35:05,109 --> 00:35:02,960

antimatter reactor to an underground

834

00:35:07,510 --> 00:35:05,119

blast facility on the nevada test site

835

00:35:09,270 --> 00:35:07,520

to perform an experiment

836

00:35:11,190 --> 00:35:09,280

unfortunately for them their experiment

837

00:35:13,349 --> 00:35:11,200

required them to cut the reactor open

838

00:35:15,109 --> 00:35:13,359

which resulted in their deaths

839

00:35:16,630 --> 00:35:15,119

this explosion was explained to others

840

00:35:18,710 --> 00:35:16,640

at the test site as a previously

841

00:35:21,670 --> 00:35:18,720

unannounced low-yield underground nuke

842

00:35:23,349 --> 00:35:21,680

test i was hired in december of 1988 to

843

00:35:25,270 --> 00:35:23,359

replace one of these men

844

00:35:27,270 --> 00:35:25,280

these beings conveyed information about

845

00:35:30,710 --> 00:35:27,280

the capability of affecting the human

846

00:35:32,310 --> 00:35:30,720

brain to anesthetize the human body

847

00:35:34,630 --> 00:35:32,320

this is done without any physical

848

00:35:36,310 --> 00:35:34,640

contact from a remote source

849

00:35:37,910 --> 00:35:36,320

for this anesthesia to be accomplished

850

00:35:39,910 --> 00:35:37,920

the brain has to be in a relaxed state

851
00:35:41,750 --> 00:35:39,920
similar to that required for hypnosis if

852
00:35:44,150 --> 00:35:41,760
the brain is subject to any external

853
00:35:46,470 --> 00:35:44,160
stimulation like stimulant drugs or loud

854
00:35:49,670 --> 00:35:46,480
music this manipulation of the nervous

855
00:35:52,790 --> 00:35:51,270
these beings said that man was the

856
00:35:54,790 --> 00:35:52,800
product of externally corrected

857
00:35:57,349 --> 00:35:54,800
evolution they said that man as a

858
00:35:59,829 --> 00:35:57,359
species had been genetically altered 65

859
00:36:01,589 --> 00:35:59,839
times they refer to humans as containers

860
00:36:03,030 --> 00:36:01,599
yet i don't know what we're containers

861
00:36:04,470 --> 00:36:03,040
of

862
00:36:06,230 --> 00:36:04,480
as i'm sure you now know it was

863
00:36:08,550 --> 00:36:06,240

impossible for me to corroborate the

864

00:36:10,230 --> 00:36:08,560

information in the second section and

865

00:36:12,150 --> 00:36:10,240

obviously if this information is true

866

00:36:13,910 --> 00:36:12,160

the ramifications are far-reaching and

867

00:36:15,910 --> 00:36:13,920

you don't have to be a nuclear physicist

868

00:36:17,270 --> 00:36:15,920

to figure that out so before i bring

869

00:36:19,270 --> 00:36:17,280

this to an end there are a couple of

870

00:36:20,870 --> 00:36:19,280

questions i should address for you

871

00:36:23,030 --> 00:36:20,880

the first one is how did i get into this

872

00:36:25,109 --> 00:36:23,040

program

873

00:36:27,510 --> 00:36:25,119

while working at los alamos national lab

874

00:36:29,670 --> 00:36:27,520

in 1982 the local newspaper did a front

875

00:36:32,150 --> 00:36:29,680

page story on a jet car i had built

876

00:36:35,510 --> 00:36:32,160

coincidentally dr teller was giving a

877

00:36:37,030 --> 00:36:35,520

speech in los alamos that same day

878

00:36:38,550 --> 00:36:37,040

we met and had a short chat about the

879

00:36:41,109 --> 00:36:38,560

jet car and i later listened to his

880

00:36:43,349 --> 00:36:41,119

speech i never met dr teller again but

881

00:36:45,270 --> 00:36:43,359

in 1988 when i decided to re-enter the

882

00:36:47,270 --> 00:36:45,280

scientific community i sent him a resume

883

00:36:49,270 --> 00:36:47,280

and inquired about a job

884

00:36:51,430 --> 00:36:49,280

dr teller responded by telephone and

885

00:36:53,750 --> 00:36:51,440

told me that he was no longer active but

886

00:36:55,670 --> 00:36:53,760

just functioned in a consultant capacity

887

00:36:57,109 --> 00:36:55,680

he gave me the name of a contact to call

888

00:36:58,950 --> 00:36:57,119

in las vegas

889

00:37:01,190 --> 00:36:58,960

i made that call and things progressed

890

00:37:03,190 --> 00:37:01,200

from there until i got into the program

891

00:37:05,270 --> 00:37:03,200

i never got a chance to ask dr taylor if

892

00:37:07,430 --> 00:37:05,280

he remembered me from los alamos so i

893

00:37:11,510 --> 00:37:07,440

don't know if that was a factor or not

894

00:37:13,910 --> 00:37:11,520

if you use nuclear fuel and not that

895

00:37:17,109 --> 00:37:13,920

possible

896

00:37:20,630 --> 00:37:17,119

nuclear fuel is peaceful

897

00:37:24,630 --> 00:37:23,030

which are interesting if you ever want

898

00:37:27,430 --> 00:37:24,640

to get another star

899

00:37:30,630 --> 00:37:27,440

that is an important question and that's

900

00:37:35,670 --> 00:37:32,310

all i have time

901
00:37:37,990 --> 00:37:35,680
and what specifically i will be

902
00:37:40,150 --> 00:37:38,000
i think it might be

903
00:37:41,829 --> 00:37:40,160
more of a refuge

904
00:37:43,510 --> 00:37:41,839
in the world

905
00:37:45,990 --> 00:37:43,520
is there any other nuclear reaction

906
00:37:48,870 --> 00:37:46,000
besides vision and fusion

907
00:37:51,109 --> 00:37:48,880
that you know of no

908
00:37:55,190 --> 00:37:51,990
please

909
00:37:57,829 --> 00:37:55,200
you try to explore the things

910
00:37:59,910 --> 00:37:57,839
about which i only will have to tell you

911
00:38:00,870 --> 00:37:59,920
it is not interesting it's a waste of

912
00:38:02,069 --> 00:38:00,880
time

913
00:38:06,470 --> 00:38:02,079

about

914

00:38:07,910 --> 00:38:06,480

the time i look it is in my opinion not

915

00:38:10,550 --> 00:38:07,920

interesting

916

00:38:12,950 --> 00:38:10,560

i don't intend to answer it if you ask

917

00:38:15,829 --> 00:38:12,960

me that question on camera i will shut

918

00:38:17,750 --> 00:38:15,839

up i will sit silent

919

00:38:19,270 --> 00:38:17,760

you're not going to get an answer for me

920

00:38:21,589 --> 00:38:19,280

on that

921

00:38:23,109 --> 00:38:21,599

okay

922

00:38:26,310 --> 00:38:23,119

and if i ask you on camera if you know

923

00:38:36,150 --> 00:38:26,320

bob lazar can you just say no

924

00:38:39,750 --> 00:38:37,910

the second question is

925

00:38:41,349 --> 00:38:39,760

that if all i've just presented to you

926
00:38:43,109 --> 00:38:41,359
is true and the government is keeping

927
00:38:44,630 --> 00:38:43,119
this a secret how can i make a video

928
00:38:46,870 --> 00:38:44,640
telling you about it

929
00:38:48,710 --> 00:38:46,880
well the bottom line is if there are any

930
00:38:50,390 --> 00:38:48,720
repercussions for making this video

931
00:38:51,670 --> 00:38:50,400
would simply confirm that what i told

932
00:38:53,349 --> 00:38:51,680
you is true

933
00:39:00,069 --> 00:38:53,359
so what you do with this information is

934
00:39:04,550 --> 00:39:02,310
remember not everyone who sees a disc in

935
00:39:06,710 --> 00:39:04,560
the sky is crazy so keep your eye on the

936
00:39:13,420 --> 00:39:06,720
sky especially here in central nevada
