[Music]

2
00:02:21,750 --> 00:02:17,589
the pope is a lizard

3
00:02:21,760 --> 00:02:26,070
who murdered diana

4
00:02:26,080 --> 00:02:30,350
and got away clean

5
00:02:38,710 --> 00:02:34,470
obama's a kenyan

6
00:02:42,949 --> 00:02:38,720
and reagan caused aids

7
00:02:42,959 --> 00:02:47,110
or so people say

8
00:02:55,670 --> 00:02:51,430
they knocked norma china

9
00:03:19,270 --> 00:02:59,910
who got shot and poisoned

10
00:03:47,540 --> 00:03:27,990
[Music]

11
00:03:47,550 --> 00:03:50,710
[Applause]

12
00:04:07,200 --> 00:03:53,720
to hide what they did

13
00:06:07,350 --> 00:04:20,470

[Music]

14

00:06:13,430 --> 00:06:10,150

greetings and salutations old friends

15

00:06:16,070 --> 00:06:13,440

and hopefully some new friends

16

00:06:18,070 --> 00:06:16,080

welcome to truth seekers i am your host

17

00:06:22,870 --> 00:06:18,080

stephen cambion

18

00:06:25,510 --> 00:06:22,880

as always with you ready to delve into

19

00:06:27,270 --> 00:06:25,520

some strange mystery

20

00:06:30,469 --> 00:06:27,280

tonight uh we're going to be talking

21

00:06:32,710 --> 00:06:30,479

about alchemy which is uh

22

00:06:35,510 --> 00:06:32,720

something that i will readily admit i

23

00:06:38,790 --> 00:06:35,520

don't know an incredible amount about i

24

00:06:41,189 --> 00:06:38,800

think i may have two or three books

25

00:06:42,550 --> 00:06:41,199

total on alchemy and the history of

26

00:06:44,950 --> 00:06:42,560

alchemy

27

00:06:47,430 --> 00:06:44,960

it's interesting to me even just the

28

00:06:49,110 --> 00:06:47,440

history of this thing is steeped in

29

00:06:50,629 --> 00:06:49,120

mystery

30

00:06:53,029 --> 00:06:50,639

some of these

31

00:06:55,510 --> 00:06:53,039

little known

32

00:06:57,749 --> 00:06:55,520

formulas or recipes have been handed

33

00:06:59,110 --> 00:06:57,759

down

34

00:07:01,189 --> 00:06:59,120

from

35

00:07:02,469 --> 00:07:01,199

generation to generation

36

00:07:06,150 --> 00:07:02,479

taught

37

00:07:08,629 --> 00:07:06,160

in secret societies and mystery schools

38

00:07:11,430 --> 00:07:08,639

and the

39

00:07:14,390 --> 00:07:11,440

history continues i was quite

40

00:07:17,189 --> 00:07:14,400

shocked i'm not shocked but definitely a

41

00:07:20,950 --> 00:07:17,199

little surprised to hear

42

00:07:24,870 --> 00:07:22,550

people are still

43

00:07:26,790 --> 00:07:24,880

interested in this ancient art form

44

00:07:31,270 --> 00:07:26,800

people are still digging

45

00:07:33,670 --> 00:07:31,280

through this ancient art form and

46

00:07:36,070 --> 00:07:33,680

trying to make new discoveries

47

00:07:39,029 --> 00:07:36,080

trying to sift through old manuscripts

48

00:07:41,749 --> 00:07:39,039

and find those secrets

49

00:07:45,189 --> 00:07:41,759

secrets like the ability to transmute

50

00:07:47,270 --> 00:07:45,199

one metal into another one can imagine

51
00:07:48,869 --> 00:07:47,280
what a secret like that could be worth

52
00:07:50,790 --> 00:07:48,879
after all if you could take

53
00:07:53,029 --> 00:07:50,800
the most famous example of course is

54
00:07:55,350 --> 00:07:53,039
turning lead into gold

55
00:07:57,350 --> 00:07:55,360
the most

56
00:08:00,230 --> 00:07:57,360
i would say

57
00:08:03,270 --> 00:08:00,240
famous example of alchemy is that many

58
00:08:06,150 --> 00:08:03,280
alchemists were looking for this secret

59
00:08:08,950 --> 00:08:06,160
the secret of turning lead into gold

60
00:08:10,150 --> 00:08:08,960
many claimed that they had that secret

61
00:08:11,510 --> 00:08:10,160
but the

62
00:08:14,550 --> 00:08:11,520
actual

63
00:08:16,869 --> 00:08:14,560

proof of claims like that that go back

64

00:08:18,629 --> 00:08:16,879

out throughout history for thousands of

65

00:08:20,550 --> 00:08:18,639

years

66

00:08:22,629 --> 00:08:20,560

it's very scarce

67

00:08:26,070 --> 00:08:22,639

uh what we get is an awful lot of

68

00:08:28,710 --> 00:08:26,080

tantalizing evidence of secret knowledge

69

00:08:30,710 --> 00:08:28,720

but some things from alchemy sure have

70

00:08:34,230 --> 00:08:30,720

uh

71

00:08:39,110 --> 00:08:37,029

shown to have validity

72

00:08:42,870 --> 00:08:39,120

things like electroplating and other

73

00:08:45,590 --> 00:08:42,880

things that became real sciences

74

00:08:47,910 --> 00:08:45,600

came from alchemy

75

00:08:50,550 --> 00:08:47,920

so we have our guest tonight

76

00:08:52,470 --> 00:08:50,560

uh bernard the alchemist i'm gonna bring

77

00:08:54,550 --> 00:08:52,480

him in here

78

00:08:56,870 --> 00:08:54,560

how you doing tonight bernard hello

79

00:08:59,509 --> 00:08:56,880

hello i'm uh

80

00:09:01,590 --> 00:08:59,519

doing all right uh injured myself a bit

81

00:09:05,590 --> 00:09:01,600

last night while moving one of my silk

82

00:09:07,430 --> 00:09:05,600

screen presses but uh yeah i am here and

83

00:09:09,269 --> 00:09:07,440

i am alive so

84

00:09:11,590 --> 00:09:09,279

well i thought tonight i thought tonight

85

00:09:13,030 --> 00:09:11,600

we can do a quick one since uh you're

86

00:09:14,310 --> 00:09:13,040

not

87

00:09:16,870 --> 00:09:14,320

i think what did you break your

88

00:09:18,710 --> 00:09:16,880

collarbone or something i i might have i

89

00:09:20,470 --> 00:09:18,720

i don't know i can't really put weight

90

00:09:21,910 --> 00:09:20,480

on it i have yeah like five minutes

91

00:09:23,350 --> 00:09:21,920

before the show he's like yeah maybe i

92

00:09:27,990 --> 00:09:23,360

had to go to the hospital i think i

93

00:09:31,590 --> 00:09:30,630

so you know i guess i where i would

94

00:09:33,350 --> 00:09:31,600

begin

95

00:09:35,350 --> 00:09:33,360

because i'm not hugely knowledgeable

96

00:09:37,430 --> 00:09:35,360

about this subject read a few books you

97

00:09:39,590 --> 00:09:37,440

know and i'm fascinated with the history

98

00:09:41,110 --> 00:09:39,600

but i thought that we could begin since

99

00:09:42,949 --> 00:09:41,120

you're probably more knowledgeable than

100

00:09:46,230 --> 00:09:42,959

me on on this subject

101
00:09:48,630 --> 00:09:46,240
is to talk about some of the history and

102
00:09:51,829 --> 00:09:48,640
where this thing came from and what it

103
00:09:53,190 --> 00:09:51,839
was about back in the day versus

104
00:09:55,590 --> 00:09:53,200
my shock

105
00:09:57,430 --> 00:09:55,600
that there's still people trying to

106
00:10:00,150 --> 00:09:57,440
do this today

107
00:10:01,350 --> 00:10:00,160
so let's start with the history yeah

108
00:10:04,069 --> 00:10:01,360
from uh

109
00:10:06,470 --> 00:10:04,079
what i've been reading now and i've only

110
00:10:09,110 --> 00:10:06,480
i've been in it about four or five years

111
00:10:11,990 --> 00:10:09,120
now really into the alchemy

112
00:10:14,630 --> 00:10:12,000
and it seems the more i look into it the

113
00:10:17,350 --> 00:10:14,640

more i discover that it was an extremely

114

00:10:19,829 --> 00:10:17,360

advanced science it

115

00:10:22,750 --> 00:10:19,839

was all-encompassing and it was

116

00:10:24,550 --> 00:10:22,760

extremely extremely suppressed

117

00:10:26,630 --> 00:10:24,560

compartmentalized

118

00:10:28,710 --> 00:10:26,640

and um

119

00:10:30,790 --> 00:10:28,720

yeah like it it's never really been

120

00:10:32,870 --> 00:10:30,800

declassified and

121

00:10:35,670 --> 00:10:32,880

a good place to start and where i

122

00:10:38,310 --> 00:10:35,680

basically started was with uh sir isaac

123

00:10:39,350 --> 00:10:38,320

newton's recently declassified alchemy

124

00:10:42,069 --> 00:10:39,360

writings

125

00:10:44,389 --> 00:10:42,079

and he wrote over a million uh pages or

126

00:10:46,790 --> 00:10:44,399

a million words i guess it was on uh i

127

00:10:49,430 --> 00:10:46,800

think it's smoking words yeah yeah but

128

00:10:52,389 --> 00:10:49,440

how fascinating that that stuff was just

129

00:10:53,190 --> 00:10:52,399

recently released for people to peruse

130

00:10:54,790 --> 00:10:53,200

through

131

00:10:56,710 --> 00:10:54,800

wasn't it in the hands of a private

132

00:10:58,550 --> 00:10:56,720

collector i believe uh yeah it was in

133

00:11:00,949 --> 00:10:58,560

the hands of a private collector i think

134

00:11:02,470 --> 00:11:00,959

since uh the early 1900s when they

135

00:11:03,590 --> 00:11:02,480

bought it at auction and then they had

136

00:11:05,509 --> 00:11:03,600

finally

137

00:11:07,670 --> 00:11:05,519

uh just made it public or it might have

138

00:11:08,630 --> 00:11:07,680

been resold maybe yeah i think i have

139

00:11:13,190 --> 00:11:08,640

something

140

00:11:16,150 --> 00:11:13,200

120 plus years for somebody to actually

141

00:11:17,910 --> 00:11:16,160

make these writings public and

142

00:11:19,910 --> 00:11:17,920

it's it's interesting just to know that

143

00:11:21,750 --> 00:11:19,920

sir isaac newton was so into this that

144

00:11:24,790 --> 00:11:21,760

he would write a million words on on

145

00:11:27,269 --> 00:11:24,800

this and the fact of the matter is and

146

00:11:29,990 --> 00:11:27,279

they still try to claim like oh it's all

147

00:11:32,150 --> 00:11:30,000

esoteric he writes all about god and

148

00:11:34,230 --> 00:11:32,160

angels in it and stuff and it's like

149

00:11:37,030 --> 00:11:34,240

there are parts of that but that's

150

00:11:39,190 --> 00:11:37,040

completely separate section

151

00:11:40,710 --> 00:11:39,200

that i believe they call his

152

00:11:43,910 --> 00:11:40,720

prophecy

153

00:11:47,110 --> 00:11:43,920

writings and the alchemy is actually all

154

00:11:49,509 --> 00:11:47,120

real science that uh involves light

155

00:11:51,269 --> 00:11:49,519

energy electricity

156

00:11:53,150 --> 00:11:51,279

and um

157

00:11:56,550 --> 00:11:53,160

the chemistry as well as the

158

00:11:59,269 --> 00:11:56,560

transmutational states of metals and it

159

00:12:03,030 --> 00:11:59,279

has to do with plasma physics

160

00:12:05,670 --> 00:12:03,040

and that the monoatomic state of metals

161

00:12:07,190 --> 00:12:05,680

is actually their plasma state the force

162

00:12:08,949 --> 00:12:07,200

state of matter

163

00:12:11,670 --> 00:12:08,959

and that

164

00:12:14,310 --> 00:12:11,680

your gas atoms when they're in plasma

165

00:12:16,150 --> 00:12:14,320

state they call it ionized gas but

166

00:12:18,389 --> 00:12:16,160

they're monotonous guys

167

00:12:19,990 --> 00:12:18,399

these guys know about things like plasma

168

00:12:22,949 --> 00:12:20,000

before

169

00:12:24,949 --> 00:12:22,959

we knew they were discovered as far as

170

00:12:27,829 --> 00:12:24,959

mainstream science goes and they know

171

00:12:29,750 --> 00:12:27,839

about electricity before

172

00:12:31,670 --> 00:12:29,760

and there's historical the thing that's

173

00:12:34,150 --> 00:12:31,680

interesting to me about some of alchemy

174

00:12:36,550 --> 00:12:34,160

is that there's historical you know

175

00:12:38,389 --> 00:12:36,560

proof that they knew some of the the

176
00:12:41,350 --> 00:12:38,399
things like you know

177
00:12:42,550 --> 00:12:41,360
their understanding or or uh

178
00:12:47,590 --> 00:12:42,560
belief

179
00:12:49,590 --> 00:12:47,600
things like electricity

180
00:12:51,269 --> 00:12:49,600
predate

181
00:12:53,990 --> 00:12:51,279
what would we call modern or real

182
00:12:55,590 --> 00:12:54,000
science date of discovery so you you

183
00:12:57,670 --> 00:12:55,600
were talking about this before like you

184
00:13:00,470 --> 00:12:57,680
know we get that story of ben franklin

185
00:13:02,629 --> 00:13:00,480
flying uh you know a kite and a with a

186
00:13:03,829 --> 00:13:02,639
key on it and and he discovers

187
00:13:07,750 --> 00:13:03,839
electricity

188
00:13:10,069 --> 00:13:07,760

in the 1700s but we have

189

00:13:13,110 --> 00:13:10,079

proof that there was others that were

190

00:13:13,990 --> 00:13:13,120

using this before the before that

191

00:13:16,230 --> 00:13:14,000

and

192

00:13:18,949 --> 00:13:16,240

looking back uh any

193

00:13:22,710 --> 00:13:18,959

french or german science book from the

194

00:13:25,910 --> 00:13:22,720

1600s or older literally have chapters

195

00:13:28,550 --> 00:13:25,920

dedicated to atmospheric electricity

196

00:13:31,750 --> 00:13:28,560

what level you're at from the ground and

197

00:13:34,150 --> 00:13:31,760

the charge potential between where you

198

00:13:36,150 --> 00:13:34,160

are in the sky to the ground and the

199

00:13:38,710 --> 00:13:36,160

hertz between it so they fully were

200

00:13:41,590 --> 00:13:38,720

aware of electricity and studying it and

201
00:13:42,790 --> 00:13:41,600
using it throughout europe at least 500

202
00:13:44,629 --> 00:13:42,800
years ago

203
00:13:46,550 --> 00:13:44,639
oh let me stop you there

204
00:13:49,110 --> 00:13:46,560
oh no i don't want to stop you there i

205
00:13:51,350 --> 00:13:49,120
gotta find it oh no i can't find it we

206
00:13:52,470 --> 00:13:51,360
got a kind and generous super sticker

207
00:13:54,470 --> 00:13:52,480
here

208
00:13:56,470 --> 00:13:54,480
from welcome to the show but i think

209
00:13:58,790 --> 00:13:56,480
thank you for subscribing

210
00:14:01,030 --> 00:13:58,800
yeah thank you for supporting the cause

211
00:14:03,030 --> 00:14:01,040
and let me just

212
00:14:07,420 --> 00:14:03,040
give them a proper thank you if i could

213
00:14:15,670 --> 00:14:14,310

[Music]

214

00:14:17,590 --> 00:14:15,680

so thank you for your kindness your

215

00:14:19,350 --> 00:14:17,600

generosity and your support

216

00:14:20,870 --> 00:14:19,360

uh there's a money button down there if

217

00:14:24,069 --> 00:14:20,880

you feel like throwing money at me

218

00:14:26,150 --> 00:14:24,079

friends that is uh the primary income

219

00:14:27,910 --> 00:14:26,160

source of the show uh that helps us keep

220

00:14:30,389 --> 00:14:27,920

the ball moving forward

221

00:14:32,949 --> 00:14:30,399

and uh bernard keeps disappearing i

222

00:14:35,430 --> 00:14:32,959

don't know i'm just connecting my other

223

00:14:38,069 --> 00:14:35,440

computer here to the link

224

00:14:42,790 --> 00:14:40,629

yeah so uh you got quite a room going

225

00:14:44,550 --> 00:14:42,800

there what is this is this your artwork

226

00:14:48,310 --> 00:14:44,560

or

227

00:14:51,189 --> 00:14:48,320

uh so i own uh a clothing uh two

228

00:14:52,550 --> 00:14:51,199

clothing lines uh burn kron and honor

229

00:14:55,110 --> 00:14:52,560

the culture

230

00:14:57,590 --> 00:14:55,120

as well as i do my own silk screening

231

00:15:00,550 --> 00:14:57,600

and uh this is uh our part of my art

232

00:15:03,030 --> 00:15:00,560

collection i own a 350

233

00:15:05,110 --> 00:15:03,040

piece painting art collection that i'm

234

00:15:09,030 --> 00:15:05,120

actually now working on

235

00:15:15,990 --> 00:15:09,040

digitizing and turning into crypto nfts

236

00:15:21,430 --> 00:15:18,230

every nft is unique and

237

00:15:23,829 --> 00:15:21,440

exactly so i'm about to

238

00:15:26,710 --> 00:15:23,839

make them into some nfts where there'll

239

00:15:29,590 --> 00:15:26,720

be some one-offs so if you really like a

240

00:15:32,790 --> 00:15:29,600

piece let me know and i can sell you the

241

00:15:34,949 --> 00:15:32,800

original and only nft copies of them and

242

00:15:37,269 --> 00:15:34,959

then some of them i will make for really

243

00:15:38,230 --> 00:15:37,279

cheap but make like an unlimited amount

244

00:15:40,389 --> 00:15:38,240

of but

245

00:15:41,829 --> 00:15:40,399

you'll be able to buy a copy for a

246

00:15:43,269 --> 00:15:41,839

dollar so

247

00:15:45,910 --> 00:15:43,279

why not

248

00:15:48,629 --> 00:15:45,920

so back to electricity so we have these

249

00:15:50,870 --> 00:15:48,639

alchemists are messing with electricity

250

00:15:53,749 --> 00:15:50,880

discovering things about it trying to

251

00:15:57,189 --> 00:15:53,759

understand it and trying to use it

252

00:15:59,350 --> 00:15:57,199

for a much longer period than we're told

253

00:16:01,350 --> 00:15:59,360

through regular history as far as

254

00:16:03,749 --> 00:16:01,360

science discovering electricity and

255

00:16:04,550 --> 00:16:03,759

trying to use it

256

00:16:06,389 --> 00:16:04,560

yeah

257

00:16:07,590 --> 00:16:06,399

absolutely and

258

00:16:10,030 --> 00:16:07,600

so

259

00:16:12,550 --> 00:16:10,040

alchem it's

260

00:16:14,790 --> 00:16:12,560

electrochemistry it's electricity and

261

00:16:15,590 --> 00:16:14,800

chemistry combined that's what alchemy

262

00:16:18,230 --> 00:16:15,600

is

263

00:16:21,269 --> 00:16:18,240

and it's it's in the root of the word

264

00:16:23,749 --> 00:16:21,279

so right there it's like okay well when

265

00:16:25,829 --> 00:16:23,759

was that word first invented in english

266

00:16:28,389 --> 00:16:25,839

because that's uh they had elite

267

00:16:29,749 --> 00:16:28,399

electricity at least then

268

00:16:32,150 --> 00:16:29,759

but um

269

00:16:35,350 --> 00:16:32,160

what i really started to notice was i

270

00:16:37,030 --> 00:16:35,360

was doing these gans and plasma

271

00:16:39,670 --> 00:16:37,040

experiments from

272

00:16:40,949 --> 00:16:39,680

uh the keshie foundation about eight

273

00:16:44,150 --> 00:16:40,959

years ago

274

00:16:46,629 --> 00:16:44,160

i started and then uh i guess five years

275

00:16:49,350 --> 00:16:46,639

ago now that i started reading right

276

00:16:50,550 --> 00:16:49,360

when isaac newton's works were uh

277

00:16:51,509 --> 00:16:50,560

published

278

00:16:52,710 --> 00:16:51,519

and

279

00:16:54,550 --> 00:16:52,720

these things

280

00:16:56,710 --> 00:16:54,560

i got that stuff and i started reading

281

00:16:58,550 --> 00:16:56,720

through it and i got bored and i i got

282

00:17:00,069 --> 00:16:58,560

started well to the average person it

283

00:17:03,189 --> 00:17:00,079

makes no it sounds pretty like it's

284

00:17:06,230 --> 00:17:03,199

pretty the center is live when the metal

285

00:17:08,150 --> 00:17:06,240

is in it's esoteric and hard to read

286

00:17:10,390 --> 00:17:08,160

right but it's actually always it's not

287

00:17:13,110 --> 00:17:10,400

that many pages and you you can read it

288

00:17:13,990 --> 00:17:13,120

but it's like it's like it's just so

289

00:17:15,590 --> 00:17:14,000

dense

290

00:17:17,270 --> 00:17:15,600

it's kind of like the urantia book in

291

00:17:19,510 --> 00:17:17,280

that way and that like you got to read a

292

00:17:21,510 --> 00:17:19,520

sentence and stop and think about it for

293

00:17:23,829 --> 00:17:21,520

10 minutes before you read the next

294

00:17:25,189 --> 00:17:23,839

sentence or you're not going to get

295

00:17:27,829 --> 00:17:25,199

you're not going to get anything out of

296

00:17:29,510 --> 00:17:27,839

it and i i kind of it beat me up that

297

00:17:31,029 --> 00:17:29,520

that whole collection beat me up and i

298

00:17:32,390 --> 00:17:31,039

didn't get through it just like the

299

00:17:36,549 --> 00:17:32,400

urantia book i've never gotten through

300

00:17:40,390 --> 00:17:38,470

i can't seem to make it through some of

301
00:17:43,190 --> 00:17:40,400
this stuff it gets too complicated and

302
00:17:45,590 --> 00:17:43,200
my brain starts hurting or maybe i lack

303
00:17:46,710 --> 00:17:45,600
the understanding to uh

304
00:17:48,230 --> 00:17:46,720
you know

305
00:17:49,990 --> 00:17:48,240
actually

306
00:17:51,750 --> 00:17:50,000
comprehend this stuff

307
00:17:53,669 --> 00:17:51,760
i'll show right

308
00:17:58,390 --> 00:17:53,679
here

309
00:17:59,669 --> 00:17:58,400
you have

310
00:18:00,870 --> 00:17:59,679
earth

311
00:18:01,750 --> 00:18:00,880
water

312
00:18:05,990 --> 00:18:01,760
air

313
00:18:06,950 --> 00:18:06,000

fire well that's actually solid liquid

314

00:18:09,909 --> 00:18:06,960

gas

315

00:18:12,070 --> 00:18:09,919

plasma that's the four states of matter

316

00:18:14,789 --> 00:18:12,080

right there we

317

00:18:16,710 --> 00:18:14,799

it's completely

318

00:18:18,710 --> 00:18:16,720

steve where'd you go

319

00:18:20,390 --> 00:18:18,720

no no i'm here oh you're still here okay

320

00:18:21,669 --> 00:18:20,400

here i just soloed you so you could show

321

00:18:23,590 --> 00:18:21,679

that so you could say yeah getting

322

00:18:25,590 --> 00:18:23,600

better yeah sorry sometimes i like

323

00:18:27,590 --> 00:18:25,600

accidentally exit the stream so i didn't

324

00:18:29,750 --> 00:18:27,600

know

325

00:18:31,029 --> 00:18:29,760

um but yeah so i want to leave you alone

326

00:18:33,350 --> 00:18:31,039

you know what i ought to do i have to

327

00:18:35,270 --> 00:18:33,360

leave you alone here for 75 minutes

328

00:18:37,990 --> 00:18:35,280

everybody's talking to 75 minutes

329

00:18:39,669 --> 00:18:38,000

without me you know yeah i have half of

330

00:18:41,669 --> 00:18:39,679

mine i got other things i could do i'll

331

00:18:44,230 --> 00:18:41,679

just drop out and you can explain

332

00:18:46,390 --> 00:18:44,240

everything now i do have some questions

333

00:18:48,230 --> 00:18:46,400

though and we're joking about bernard

334

00:18:51,909 --> 00:18:48,240

didn't make it one time and i was on air

335

00:18:53,830 --> 00:18:51,919

frantically trying to fill 75 minutes

336

00:18:56,710 --> 00:18:53,840

here we'll put this we'll put whistle

337

00:19:00,870 --> 00:18:56,720

later again there you go that's solid

338

00:19:04,630 --> 00:19:00,880

liquid gas plasma that they knew

339

00:19:07,830 --> 00:19:04,640

and plus elements well that's plus the

340

00:19:10,630 --> 00:19:07,840

periodic table of elements and they're

341

00:19:13,830 --> 00:19:10,640

four states of matter right there is

342

00:19:15,190 --> 00:19:13,840

knowledge that uh we are just beginning

343

00:19:16,870 --> 00:19:15,200

to figure out

344

00:19:19,430 --> 00:19:16,880

right now and

345

00:19:22,470 --> 00:19:19,440

uh one of isaac newton's main things he

346

00:19:26,390 --> 00:19:22,480

says is that all metals can be broken

347

00:19:29,270 --> 00:19:26,400

down into he calls it their mercurial

348

00:19:32,870 --> 00:19:29,280

which i believe is molecular

349

00:19:35,990 --> 00:19:32,880

or atomic monoatomic state and that they

350

00:19:37,669 --> 00:19:36,000

turn into this white powder when they

351

00:19:40,070 --> 00:19:37,679

get into this state

352

00:19:43,350 --> 00:19:40,080

and right there that confirms and goes

353

00:19:45,750 --> 00:19:43,360

along with david hudson's talk about uh

354

00:19:48,390 --> 00:19:45,760

monoatomic gold and all elements going

355

00:19:50,310 --> 00:19:48,400

into their monoatomic state and that

356

00:19:53,029 --> 00:19:50,320

it's that i believe when they're in this

357

00:19:56,070 --> 00:19:53,039

monoatomic state that that's their

358

00:19:57,510 --> 00:19:56,080

plasma state and they're uh since

359

00:20:00,150 --> 00:19:57,520

they're a single atom there's no

360

00:20:03,029 --> 00:20:00,160

convenient bonds that's what gets rid of

361

00:20:05,190 --> 00:20:03,039

that quantum locking with all other

362

00:20:07,990 --> 00:20:05,200

particles so that

363

00:20:10,950 --> 00:20:08,000

that's how you're uh accessing this

364

00:20:12,630 --> 00:20:10,960

fourth higher dimensional plasma and

365

00:20:15,270 --> 00:20:12,640

where you're gonna get this super

366

00:20:16,390 --> 00:20:15,280

conductivity in your nano structures in

367

00:20:18,470 --> 00:20:16,400

your

368

00:20:21,110 --> 00:20:18,480

new technology that they're actually

369

00:20:23,430 --> 00:20:21,120

getting the over unity super conducting

370

00:20:24,310 --> 00:20:23,440

and it's because they're using fraud

371

00:20:27,590 --> 00:20:24,320

i think

372

00:20:30,070 --> 00:20:27,600

thinking the jury is still out about

373

00:20:36,149 --> 00:20:30,080

whether anybody has done it but well i

374

00:20:41,990 --> 00:20:38,789

and the military knows lots about plasma

375

00:20:43,430 --> 00:20:42,000

and mono atomics and super conductors

376

00:20:45,029 --> 00:20:43,440

yeah i would think that they certainly

377

00:20:46,310 --> 00:20:45,039

know more than we do they're they're

378

00:20:47,750 --> 00:20:46,320

worlds ahead with the trillions of

379

00:20:49,750 --> 00:20:47,760

dollars in black budget money that

380

00:20:51,990 --> 00:20:49,760

they're spending on research but let's

381

00:20:53,029 --> 00:20:52,000

get back to this sort of ancient art of

382

00:20:54,870 --> 00:20:53,039

alchemy

383

00:20:57,350 --> 00:20:54,880

because i find it fascinating that like

384

00:20:59,909 --> 00:20:57,360

secret knowledge knowledge is power and

385

00:21:01,830 --> 00:20:59,919

any man that wielded knowledge another

386

00:21:03,830 --> 00:21:01,840

didn't have had an advantage like for

387

00:21:05,430 --> 00:21:03,840

example you know like let's say the

388

00:21:06,390 --> 00:21:05,440

first guys who learned how to work

389

00:21:07,190 --> 00:21:06,400

metals

390

00:21:08,950 --> 00:21:07,200

right

391

00:21:11,190 --> 00:21:08,960

they had a huge advantage and so did

392

00:21:13,430 --> 00:21:11,200

their tribes because now we're not gonna

393

00:21:14,870 --> 00:21:13,440

fight with sticks sharpened off on a

394

00:21:17,350 --> 00:21:14,880

rock we're gonna

395

00:21:19,190 --> 00:21:17,360

we're gonna make spears and swords and

396

00:21:20,789 --> 00:21:19,200

knives and armor

397

00:21:23,350 --> 00:21:20,799

and alchemists

398

00:21:25,590 --> 00:21:23,360

or those knowledgeable men shamans of

399

00:21:27,669 --> 00:21:25,600

the tribe have always had a place there

400

00:21:31,909 --> 00:21:27,679

right to be the

401
00:21:37,510 --> 00:21:35,110
and even in isaac newton's as well as

402
00:21:40,470 --> 00:21:37,520
every other alchemy writing that i've

403
00:21:41,270 --> 00:21:40,480
since read every single one starts off

404
00:21:46,789 --> 00:21:41,280
with

405
00:21:49,510 --> 00:21:46,799
is punishable by death if you understand

406
00:21:52,230 --> 00:21:49,520
this go immediately to your monarch to

407
00:21:54,710 --> 00:21:52,240
your king or queen and only work for

408
00:21:57,669 --> 00:21:54,720
them and that that is the briefing that

409
00:21:59,909 --> 00:21:57,679
starts every single alternative

410
00:22:01,110 --> 00:21:59,919
so it seems that the rich and the

411
00:22:03,430 --> 00:22:01,120
powerful

412
00:22:05,029 --> 00:22:03,440
and the elite ruling class having access

413
00:22:07,909 --> 00:22:05,039

to technology above and beyond the

414

00:22:10,230 --> 00:22:07,919

common man is not anything new right

415

00:22:11,190 --> 00:22:10,240

yeah exactly

416

00:22:13,590 --> 00:22:11,200

and

417

00:22:15,669 --> 00:22:13,600

um so it's like you have you look back

418

00:22:18,149 --> 00:22:15,679

to like the beginning of what we're told

419

00:22:19,430 --> 00:22:18,159

is electricity and you have these laden

420

00:22:22,070 --> 00:22:19,440

jars

421

00:22:24,070 --> 00:22:22,080

and stuff like that and then you look

422

00:22:26,149 --> 00:22:24,080

now at the findings of the baghdad

423

00:22:27,990 --> 00:22:26,159

battery which was been around for

424

00:22:30,950 --> 00:22:28,000

thousands of years

425

00:22:33,190 --> 00:22:30,960

and it's actually pretty identical to

426

00:22:36,230 --> 00:22:33,200

what keshi is teaching with his cup of

427

00:22:38,390 --> 00:22:36,240

life and what i started out with of just

428

00:22:42,230 --> 00:22:38,400

literally salt water and anode and a

429

00:22:44,789 --> 00:22:42,240

cathode and that is your plasma battery

430

00:22:46,549 --> 00:22:44,799

that is what can cau create electricity

431

00:22:48,390 --> 00:22:46,559

that's what can

432

00:22:51,430 --> 00:22:48,400

create this um

433

00:22:53,510 --> 00:22:51,440

fountain of youth water the monoatomics

434

00:22:56,710 --> 00:22:53,520

the colloidal silver

435

00:23:00,070 --> 00:22:56,720

your structured water as well as if you

436

00:23:01,990 --> 00:23:00,080

attach it to an antenna and to a ground

437

00:23:03,830 --> 00:23:02,000

it's giving you current

438

00:23:04,789 --> 00:23:03,840

so

439

00:23:07,110 --> 00:23:04,799

it's

440

00:23:08,870 --> 00:23:07,120

who really knows what the true history

441

00:23:11,669 --> 00:23:08,880

is and how long

442

00:23:14,070 --> 00:23:11,679

it's been around but i encourage people

443

00:23:16,710 --> 00:23:14,080

to look into these french and german

444

00:23:18,549 --> 00:23:16,720

books from the 1500s because

445

00:23:20,070 --> 00:23:18,559

even the pictures in it like i've looked

446

00:23:21,430 --> 00:23:20,080

through them i can't read it obviously i

447

00:23:23,510 --> 00:23:21,440

don't know ancient

448

00:23:25,510 --> 00:23:23,520

you're gonna get a translator to try to

449

00:23:27,430 --> 00:23:25,520

figure it out yeah but the pictures

450

00:23:28,310 --> 00:23:27,440

themselves it's like they have the lines

451
00:23:29,830 --> 00:23:28,320
of like

452
00:23:31,990 --> 00:23:29,840
it's like um

453
00:23:34,549 --> 00:23:32,000
uh what do you call it the

454
00:23:36,390 --> 00:23:34,559
oh man in paris the eiffel tower and

455
00:23:38,390 --> 00:23:36,400
that then they have the waves going up

456
00:23:40,149 --> 00:23:38,400
above it and there's like several of

457
00:23:42,870 --> 00:23:40,159
them and each one they have the hurts

458
00:23:44,149 --> 00:23:42,880
frequency and it's like this is 500

459
00:23:46,710 --> 00:23:44,159
years old

460
00:23:50,070 --> 00:23:46,720
how were they able to measure these hurt

461
00:23:51,750 --> 00:23:50,080
frequencies and know what they were and

462
00:23:53,830 --> 00:23:51,760
have that all right yeah

463
00:23:55,590 --> 00:23:53,840

yeah so this is what i love this this

464

00:23:56,549 --> 00:23:55,600

ancient this is this

465

00:23:58,710 --> 00:23:56,559

this

466

00:24:00,950 --> 00:23:58,720

revelation really when you get into some

467

00:24:02,789 --> 00:24:00,960

of this stuff that they that that

468

00:24:04,470 --> 00:24:02,799

primitive man may not have been so

469

00:24:06,710 --> 00:24:04,480

primitive and maybe they have some

470

00:24:08,870 --> 00:24:06,720

secrets that have been lost to history

471

00:24:10,870 --> 00:24:08,880

throughout this this whole thing but one

472

00:24:13,110 --> 00:24:10,880

of the most famous of course

473

00:24:14,470 --> 00:24:13,120

these things in alchemy is transmuting

474

00:24:16,630 --> 00:24:14,480

metals

475

00:24:17,510 --> 00:24:16,640

and yeah i know we get electroplating

476

00:24:20,549 --> 00:24:17,520

and

477

00:24:23,430 --> 00:24:20,559

some things from electricity

478

00:24:25,990 --> 00:24:23,440

and magnetism from alchemy but this

479

00:24:28,549 --> 00:24:26,000

transmutation of metals it's always

480

00:24:30,710 --> 00:24:28,559

fascinated me but also kind of went

481

00:24:32,710 --> 00:24:30,720

i don't know that this works or i don't

482

00:24:34,870 --> 00:24:32,720

think this works

483

00:24:36,710 --> 00:24:34,880

you know not unless you have a uh not

484

00:24:39,269 --> 00:24:36,720

unless you have like a nuclear power

485

00:24:41,669 --> 00:24:39,279

plant at your disposal to uh

486

00:24:45,750 --> 00:24:41,679

to transmute elements i think i figured

487

00:24:48,230 --> 00:24:45,760

it out and it has to do with cold fusion

488

00:24:49,269 --> 00:24:48,240

not hot fusion

489

00:24:53,669 --> 00:24:49,279

and

490

00:24:56,710 --> 00:24:53,679

has to do

491

00:25:00,070 --> 00:24:56,720

with measuring the hertz frequency so

492

00:25:02,390 --> 00:25:00,080

your resonant frequency of the actual

493

00:25:03,990 --> 00:25:02,400

metals that you're using on your anode

494

00:25:07,110 --> 00:25:04,000

cathode side

495

00:25:10,630 --> 00:25:07,120

as well as the resonant frequency of the

496

00:25:13,430 --> 00:25:10,640

metal that you want to transmutate into

497

00:25:17,269 --> 00:25:13,440

and when you put in the voltage on your

498

00:25:19,830 --> 00:25:17,279

anode cathode sides of the metals that

499

00:25:23,750 --> 00:25:19,840

you want to transmute it into and you're

500

00:25:26,789 --> 00:25:23,760

using um one metal off so like gold

501
00:25:30,789 --> 00:25:26,799
you'd have tungsten on the cathode side

502
00:25:33,029 --> 00:25:30,799
or tungsten on the anode side and um

503
00:25:35,350 --> 00:25:33,039
the metal on the cathode side it

504
00:25:38,310 --> 00:25:35,360
producing through electrolysis your

505
00:25:40,710 --> 00:25:38,320
atomic hydrogen and then by having the

506
00:25:44,390 --> 00:25:40,720
resonant frequency going through of the

507
00:25:46,710 --> 00:25:44,400
gold that that atomic hydrogen

508
00:25:50,310 --> 00:25:46,720
bonds or not just bonds it

509
00:25:53,590 --> 00:25:51,430
fuses

510
00:25:55,909 --> 00:25:53,600
with the tungsten once you have the

511
00:25:58,149 --> 00:25:55,919
tungsten in what isaac newton calls the

512
00:26:00,470 --> 00:25:58,159
seventh state of transmutation which is

513
00:26:03,269 --> 00:26:00,480

the crystalline state and that's where

514

00:26:05,269 --> 00:26:03,279

they turn pink and they glisten and i've

515

00:26:07,830 --> 00:26:05,279

gotten like eight different metals into

516

00:26:09,430 --> 00:26:07,840

this state now and that uh i've

517

00:26:11,590 --> 00:26:09,440

theorized if you have that right

518

00:26:13,830 --> 00:26:11,600

frequency going through it that the

519

00:26:16,710 --> 00:26:13,840

atomic hydrogen being produced in that

520

00:26:19,029 --> 00:26:16,720

electrolysis fuses with the tungsten and

521

00:26:20,230 --> 00:26:19,039

actually produces the gas

522

00:26:23,110 --> 00:26:20,240

and

523

00:26:25,350 --> 00:26:23,120

i need a couple of variacs to be able to

524

00:26:28,630 --> 00:26:25,360

test this and i also need a better lab

525

00:26:31,029 --> 00:26:28,640

than my backyard as it is cold fusion

526

00:26:33,350 --> 00:26:31,039

there is possibilities of radiation

527

00:26:35,909 --> 00:26:33,360

coming out uh that's why like martin

528

00:26:38,870 --> 00:26:35,919

fleischmann the original adventurer of

529

00:26:41,029 --> 00:26:38,880

cold fusion died of radiation poisoning

530

00:26:43,590 --> 00:26:41,039

and it's also why i believe so many of

531

00:26:46,230 --> 00:26:43,600

these ancient alchemists randomly died

532

00:26:47,830 --> 00:26:46,240

of these sicknesses is that they

533

00:26:49,909 --> 00:26:47,840

didn't didn't a lot of them die from

534

00:26:51,190 --> 00:26:49,919

mercury poisoning too a lot of them were

535

00:26:54,070 --> 00:26:51,200

with mercury

536

00:26:57,029 --> 00:26:54,080

they say mercury um who who knows if it

537

00:26:59,990 --> 00:26:57,039

was or not it's quite quite probable

538

00:27:01,830 --> 00:27:00,000

and um one of the transmutations that

539

00:27:04,710 --> 00:27:01,840

seems to happen a lot in this

540

00:27:07,110 --> 00:27:04,720

electrolysis alchemy process

541

00:27:10,230 --> 00:27:07,120

and all the ancient alchemists claim

542

00:27:12,149 --> 00:27:10,240

it's making mercury but i get these red

543

00:27:14,070 --> 00:27:12,159

powders the and it's

544

00:27:15,830 --> 00:27:14,080

what looks like it's a mercury oxide

545

00:27:17,909 --> 00:27:15,840

that's forming but it's coming from

546

00:27:20,549 --> 00:27:17,919

copper it's coming from aluminum it's

547

00:27:22,950 --> 00:27:20,559

coming from gold silver and zinc and

548

00:27:25,190 --> 00:27:22,960

iron yet they all produce this red

549

00:27:26,389 --> 00:27:25,200

liquidy stuff while it's in the water at

550

00:27:28,310 --> 00:27:26,399

the bottom

551
00:27:30,310 --> 00:27:28,320
so

552
00:27:32,549 --> 00:27:30,320
have you had that material tested though

553
00:27:34,389 --> 00:27:32,559
i have yet to i'm trying to find places

554
00:27:36,630 --> 00:27:34,399
that i can send it to you because i

555
00:27:38,549 --> 00:27:36,640
would absolutely love to and then

556
00:27:41,430 --> 00:27:38,559
there's also the yellow state that they

557
00:27:44,389 --> 00:27:41,440
say is the sulfur state and they say

558
00:27:45,830 --> 00:27:44,399
when a metal is live so someone's like

559
00:27:48,310 --> 00:27:45,840
what the hell does that mean oh no what

560
00:27:51,269 --> 00:27:48,320
it means is when it's live with current

561
00:27:53,350 --> 00:27:51,279
going through it so they had electricity

562
00:27:56,230 --> 00:27:53,360
and i've had it several times that when

563
00:27:58,950 --> 00:27:56,240

you break the anode off

564

00:28:01,110 --> 00:27:58,960

while it's live it starts producing it's

565

00:28:03,110 --> 00:28:01,120

like it's bleeding yellow it's pretty it

566

00:28:05,190 --> 00:28:03,120

bleeds sulfur so it's like where does

567

00:28:07,510 --> 00:28:05,200

this sulfur come from and it just starts

568

00:28:09,510 --> 00:28:07,520

shooting out yellow sulfur nano

569

00:28:11,750 --> 00:28:09,520

in fairness you're you're equating

570

00:28:13,350 --> 00:28:11,760

colors to

571

00:28:14,950 --> 00:28:13,360

different metals right

572

00:28:16,549 --> 00:28:14,960

yes

573

00:28:20,549 --> 00:28:16,559

so that's copper

574

00:28:24,070 --> 00:28:20,559

well no no green blue is oxidization

575

00:28:24,950 --> 00:28:24,080

so it's when uh what copper

576

00:28:26,549 --> 00:28:24,960

blue

577

00:28:28,470 --> 00:28:26,559

i'm just trying to establish that just

578

00:28:31,909 --> 00:28:28,480

because you're getting like colored goop

579

00:28:35,110 --> 00:28:31,919

in the jars we get you know i still like

580

00:28:36,230 --> 00:28:35,120

to see mass spectrometry done on me too

581

00:28:39,830 --> 00:28:36,240

material

582

00:28:41,669 --> 00:28:39,840

um here steve give me um like about four

583

00:28:43,510 --> 00:28:41,679

or five minutes here to hook up my other

584

00:28:45,430 --> 00:28:43,520

computer and camera so i can start

585

00:28:47,269 --> 00:28:45,440

showing you uh some of the examples i'm

586

00:28:49,029 --> 00:28:47,279

talking about okay sure sure i'll take

587

00:28:51,269 --> 00:28:49,039

some questions and comments on live chat

588

00:28:53,590 --> 00:28:51,279

in the meantime although i'm saying it

589

00:28:56,630 --> 00:28:53,600

with like authority that this color is

590

00:29:06,149 --> 00:28:56,640

this metal i'm getting the reference

591

00:29:11,029 --> 00:29:08,549

so i haven't tested it i i want to get

592

00:29:13,350 --> 00:29:11,039

it tested i would love to get it tested

593

00:29:14,710 --> 00:29:13,360

to see if it's the actual case or not

594

00:29:16,310 --> 00:29:14,720

but that's where i'm getting the

595

00:29:18,149 --> 00:29:16,320

reference from is from the ancient

596

00:29:20,870 --> 00:29:18,159

writings and then it's the results that

597

00:29:23,669 --> 00:29:20,880

i'm get making with my own experiments

598

00:29:25,750 --> 00:29:23,679

just for the audio sure sure figure and

599

00:29:27,430 --> 00:29:25,760

i'll take some comments and questions uh

600

00:29:29,669 --> 00:29:27,440

in the meantime until you're able to

601
00:29:31,990 --> 00:29:29,679
come back so comments questions

602
00:29:33,909 --> 00:29:32,000
suggestions

603
00:29:35,830 --> 00:29:33,919
i will dedicate my full and total

604
00:29:38,549 --> 00:29:35,840
attention to the live chat

605
00:29:41,110 --> 00:29:38,559
and i heard matthew ryan asked that is

606
00:29:42,870 --> 00:29:41,120
he claiming he's achieved

607
00:29:45,990 --> 00:29:42,880
uh

608
00:29:47,990 --> 00:29:46,000
cold fusion and we can get back to that

609
00:29:50,389 --> 00:29:48,000
uh you know these are strange fringe

610
00:29:51,990 --> 00:29:50,399
sciences with strange

611
00:29:54,630 --> 00:29:52,000
sometimes strange

612
00:29:57,750 --> 00:29:54,640
fringe researchers uh

613
00:30:00,389 --> 00:29:57,760

trying to make uh some new discoveries

614

00:30:02,149 --> 00:30:00,399

in ancient art forms like these and

615

00:30:04,789 --> 00:30:02,159

digging into we've heard that he's

616

00:30:07,190 --> 00:30:04,799

digging into all these old texts

617

00:30:09,990 --> 00:30:07,200

trying to find some clues to point him

618

00:30:11,909 --> 00:30:10,000

in the right direction towards

619

00:30:13,909 --> 00:30:11,919

what i suppose is the goal of his is to

620

00:30:15,909 --> 00:30:13,919

prove the transmutation of one metal

621

00:30:17,909 --> 00:30:15,919

into another is

622

00:30:20,870 --> 00:30:17,919

not only possible but

623

00:30:22,549 --> 00:30:20,880

repeatable i think it would take that

624

00:30:25,029 --> 00:30:22,559

for for proof it would have to be an

625

00:30:27,350 --> 00:30:25,039

experiment and you know uh

626

00:30:30,389 --> 00:30:27,360

the person would show this is what i did

627

00:30:33,190 --> 00:30:30,399

to achieve this transmutation and then

628

00:30:35,830 --> 00:30:33,200

other people uh

629

00:30:43,909 --> 00:30:35,840

other people can repeat the same

630

00:30:47,190 --> 00:30:45,590

matthew wright says i respect the

631

00:30:48,789 --> 00:30:47,200

ancient art forms and it's fascinating

632

00:30:51,510 --> 00:30:48,799

he may be at the beginning an excitable

633

00:30:52,950 --> 00:30:51,520

learning stage yeah and our lord

634

00:30:54,310 --> 00:30:52,960

ludacris platt is asking are you going

635

00:30:56,149 --> 00:30:54,320

to do a show on the lady speaking

636

00:30:57,509 --> 00:30:56,159

tomorrow to washington monument that

637

00:30:59,350 --> 00:30:57,519

it's going to take scientists to meet

638

00:31:01,509 --> 00:30:59,360

the aliens in a cave

639

00:31:03,430 --> 00:31:01,519

sure we are sure

640

00:31:05,750 --> 00:31:03,440

chris because

641

00:31:07,110 --> 00:31:05,760

that's what we do here right do i have

642

00:31:08,950 --> 00:31:07,120

to cover that

643

00:31:09,909 --> 00:31:08,960

is that something that people want me to

644

00:31:12,070 --> 00:31:09,919

cover

645

00:31:14,549 --> 00:31:12,080

because i i'm gonna tell you right now

646

00:31:16,470 --> 00:31:14,559

that it's probably a nothing burger i'm

647

00:31:18,230 --> 00:31:16,480

pretty sure there's no aliens in a cave

648

00:31:19,269 --> 00:31:18,240

that she's gonna go show the scientists

649

00:31:21,190 --> 00:31:19,279

but

650

00:31:23,269 --> 00:31:21,200

stranger things have happened after all

651

00:31:24,710 --> 00:31:23,279

it's 20 21 right

652

00:31:26,789 --> 00:31:24,720

look at the strange things that have

653

00:31:27,830 --> 00:31:26,799

happened in the past year

654

00:31:29,029 --> 00:31:27,840

um

655

00:31:30,350 --> 00:31:29,039

yeah and while we're waiting i just

656

00:31:32,789 --> 00:31:30,360

wanted to mention

657

00:31:35,190 --> 00:31:32,799

a lot of people concerned with in

658

00:31:37,669 --> 00:31:35,200

tweeting about uh what's going on in

659

00:31:41,110 --> 00:31:37,679

afghanistan and i consider the entire

660

00:31:43,509 --> 00:31:41,120

event from beginning to end and one huge

661

00:31:46,549 --> 00:31:43,519

tragedy um both for the people of

662

00:31:50,630 --> 00:31:46,559

afghanistan and for our own people we've

663

00:31:52,230 --> 00:31:50,640

wasted countless countless lives there

664

00:31:55,430 --> 00:31:52,240

we've wasted

665

00:31:57,190 --> 00:31:55,440

i thought it was 880 billion dollars but

666

00:31:59,430 --> 00:31:57,200

the president today said we've spent

667

00:32:00,870 --> 00:31:59,440

over a trillion

668

00:32:03,029 --> 00:32:00,880

on that war

669

00:32:06,789 --> 00:32:03,039

and i'd just like to ask you

670

00:32:08,870 --> 00:32:06,799

what is it that we got for it right

671

00:32:13,430 --> 00:32:08,880

you know it's like that song war

672

00:32:16,389 --> 00:32:14,789

yeah so

673

00:32:17,909 --> 00:32:16,399

it's kind of where i'm at with it i

674

00:32:19,909 --> 00:32:17,919

think it was a waste of money and

675

00:32:22,070 --> 00:32:19,919

certainly a waste of american lives and

676

00:32:23,669 --> 00:32:22,080

and not to mention all of those

677

00:32:26,149 --> 00:32:23,679

soldiers that did return but were

678

00:32:28,070 --> 00:32:26,159

psychologically scarred for life

679

00:32:30,149 --> 00:32:28,080

unable to function in society and we

680

00:32:32,789 --> 00:32:30,159

have to take care of them we sent them

681

00:32:34,870 --> 00:32:32,799

off to that terrible war

682

00:32:36,389 --> 00:32:34,880

and uh

683

00:32:38,950 --> 00:32:36,399

you know people are talking about what

684

00:32:41,350 --> 00:32:38,960

this means and i i said on twitter

685

00:32:43,269 --> 00:32:41,360

jokingly that this means that cia has

686

00:32:45,909 --> 00:32:43,279

lost the

687

00:32:47,830 --> 00:32:45,919

opium trade that has been so profitable

688

00:32:51,669 --> 00:32:47,840

for them for the last what

689

00:32:53,590 --> 00:32:51,679

how long have we been there 20 years

690

00:32:55,590 --> 00:32:53,600

and now i predict that we'll see an

691

00:32:56,630 --> 00:32:55,600

increase in

692

00:32:57,990 --> 00:32:56,640

the

693

00:33:01,509 --> 00:32:58,000

fentanyl

694

00:33:03,509 --> 00:33:01,519

pouring into the united states

695

00:33:05,269 --> 00:33:03,519

people who want to use those things are

696

00:33:07,190 --> 00:33:05,279

going to use them

697

00:33:08,870 --> 00:33:07,200

if they can't get heroin they'll take

698

00:33:11,430 --> 00:33:08,880

fentanyl

699

00:33:13,590 --> 00:33:11,440

couldn't agree more with you let's bring

700

00:33:15,190 --> 00:33:13,600

them back here here we go

701
00:33:18,630 --> 00:33:15,200
there we go and

702
00:33:20,950 --> 00:33:18,640
i myself uh i've uh recovered from an

703
00:33:23,750 --> 00:33:20,960
oxycontin opiate addiction that was

704
00:33:25,269 --> 00:33:23,760
caused by a doctor prescription

705
00:33:27,590 --> 00:33:25,279
i was uh

706
00:33:29,830 --> 00:33:27,600
i was addicted i never got too deep into

707
00:33:33,269 --> 00:33:29,840
them but i had prescriptions because of

708
00:33:34,549 --> 00:33:33,279
my brain aneurysm and my paralyzed eye

709
00:33:35,990 --> 00:33:34,559
a lot of people don't know this but if

710
00:33:38,789 --> 00:33:36,000
you have a brain aneurysm and it leaves

711
00:33:40,789 --> 00:33:38,799
an eye paralyzed you get this weird pain

712
00:33:42,789 --> 00:33:40,799
behind your eye it's like somebody's

713
00:33:45,190 --> 00:33:42,799

stabbing you with a needle from behind

714

00:33:47,909 --> 00:33:45,200

your eye because the nerves died

715

00:33:49,830 --> 00:33:47,919

and that necropolis is very painful and

716

00:33:51,029 --> 00:33:49,840

it just never stops so they give you

717

00:33:52,870 --> 00:33:51,039

they load you up you're like what do you

718

00:33:55,430 --> 00:33:52,880

want percocet you want oxycodone what do

719

00:33:57,909 --> 00:33:55,440

you want you know and not and and does

720

00:34:00,070 --> 00:33:57,919

it work not really it's just it makes

721

00:34:03,590 --> 00:34:00,080

you unable to function so

722

00:34:04,630 --> 00:34:03,600

i see natural alternatives and i have

723

00:34:07,350 --> 00:34:04,640

stuff

724

00:34:10,069 --> 00:34:07,360

gaps in my spine now that cause slip

725

00:34:12,950 --> 00:34:10,079

discs so that's why a doctor

726

00:34:15,750 --> 00:34:12,960

prescribed to me at the age of 22

727

00:34:18,149 --> 00:34:15,760

oxycontin and it was uh

728

00:34:20,550 --> 00:34:18,159

yeah 10 years of my life uh i'm lucky to

729

00:34:21,750 --> 00:34:20,560

be alive at one point

730

00:34:25,109 --> 00:34:21,760

two years

731

00:34:27,750 --> 00:34:25,119

the prescription the doctor was

732

00:34:32,710 --> 00:34:27,760

prescribing me and i was taking

733

00:34:35,190 --> 00:34:32,720

18 80 milligram oxycontin a day wow

734

00:34:37,829 --> 00:34:35,200

that's like cancer patient levels right

735

00:34:40,550 --> 00:34:37,839

like that that's enough to kill a horse

736

00:34:42,869 --> 00:34:40,560

and it's like every time i she'd give me

737

00:34:44,710 --> 00:34:42,879

three months prescription like since it

738

00:34:46,149 --> 00:34:44,720

started out and i'd take it in a month

739

00:34:47,589 --> 00:34:46,159

and then i'd go back and she'd be like

740

00:34:49,430 --> 00:34:47,599

oh this is how much you need and then

741

00:34:51,349 --> 00:34:49,440

she'd write three months more but like

742

00:34:53,349 --> 00:34:51,359

what i had just taken in that month and

743

00:34:57,270 --> 00:34:53,359

like kept going up and up and up to that

744

00:34:59,589 --> 00:34:57,280

point where i was at 18 80s a day

745

00:35:01,990 --> 00:34:59,599

and then uh i ran out and i couldn't get

746

00:35:03,829 --> 00:35:02,000

a doctor's prescription it was the first

747

00:35:05,829 --> 00:35:03,839

time i had ever run out and faced the

748

00:35:08,150 --> 00:35:05,839

withdrawal over a weekend and i damn

749

00:35:10,310 --> 00:35:08,160

near died and that's when i was like

750

00:35:12,870 --> 00:35:10,320

what the heck

751

00:35:15,349 --> 00:35:12,880

and like uh started like trying to wean

752

00:35:18,150 --> 00:35:15,359

myself down and whatnot and it was like

753

00:35:21,030 --> 00:35:18,160

uh six months uh or sorry two months

754

00:35:24,150 --> 00:35:21,040

after that i had gotten from 18 down to

755

00:35:25,910 --> 00:35:24,160

10 so i was still doing 800 milligrams a

756

00:35:27,750 --> 00:35:25,920

day yeah somebody in the live chat is

757

00:35:29,910 --> 00:35:27,760

mentioning

758

00:35:31,270 --> 00:35:29,920

uh or kratom people call the united

759

00:35:33,190 --> 00:35:31,280

states but i think yeah you know i've

760

00:35:34,230 --> 00:35:33,200

heard that works and uh but i just want

761

00:35:35,349 --> 00:35:34,240

to mention

762

00:35:39,829 --> 00:35:35,359

uh

763

00:35:41,430 --> 00:35:39,839

consult your doctor or don't if they

764

00:35:43,349 --> 00:35:41,440

want to prescribe you

765

00:35:44,630 --> 00:35:43,359

yeah yeah i might agree with that

766

00:35:48,630 --> 00:35:44,640

because i think

767

00:35:50,550 --> 00:35:48,640

natural remedies and kratom has shown uh

768

00:35:54,950 --> 00:35:50,560

some incredible promise for people that

769

00:36:03,349 --> 00:35:54,960

were once uh using opioids and

770

00:36:07,990 --> 00:36:05,190

i've been clean now for two and a half

771

00:36:10,310 --> 00:36:08,000

years and uh that is why i'm finally

772

00:36:13,510 --> 00:36:10,320

doing something with my life again and

773

00:36:14,390 --> 00:36:13,520

uh not just a walking zombie

774

00:36:18,470 --> 00:36:14,400

yeah

775

00:36:20,790 --> 00:36:18,480

people are quick to to jump to medicine

776

00:36:22,790 --> 00:36:20,800

you know especially for things that

777

00:36:24,790 --> 00:36:22,800

i don't think that a pill can solve like

778

00:36:27,430 --> 00:36:24,800

depression and you know but again

779

00:36:29,109 --> 00:36:27,440

consult your doctor you know so back to

780

00:36:31,510 --> 00:36:29,119

the back to alchemy we were talking

781

00:36:33,750 --> 00:36:31,520

about some of the history of this stuff

782

00:36:34,950 --> 00:36:33,760

and you were talking about cold fusion

783

00:36:36,710 --> 00:36:34,960

so

784

00:36:38,390 --> 00:36:36,720

am i understanding you're right in that

785

00:36:41,349 --> 00:36:38,400

you believe that the secret to these

786

00:36:43,190 --> 00:36:41,359

transmuting metals maybe may lie in cold

787

00:36:45,670 --> 00:36:43,200

fusion process yes

788

00:36:49,349 --> 00:36:45,680

a hundred percent and it has to do with

789

00:36:52,470 --> 00:36:49,359

like tesla's uh vibration frequency

790

00:36:54,870 --> 00:36:52,480

energy um resonance model and that it's

791

00:36:57,510 --> 00:36:54,880

when you're resonating a molecule so

792

00:36:59,990 --> 00:36:57,520

like the hertz frequency of it

793

00:37:02,630 --> 00:37:00,000

and every single atom every single

794

00:37:04,790 --> 00:37:02,640

element every single being like your dna

795

00:37:08,390 --> 00:37:04,800

that's your resonant frequency and what

796

00:37:09,430 --> 00:37:08,400

your dna is adding up every single um

797

00:37:16,390 --> 00:37:09,440

atom

798

00:37:19,829 --> 00:37:16,400

and the mass of that is your actual

799

00:37:22,310 --> 00:37:19,839

uh resonant frequency so metals

800

00:37:24,470 --> 00:37:22,320

uh pure element metals their resonant

801
00:37:26,230 --> 00:37:24,480
frequency is obviously a lot easier

802
00:37:27,750 --> 00:37:26,240
because it's just a single

803
00:37:29,990 --> 00:37:27,760
uh adding up

804
00:37:32,870 --> 00:37:30,000
yeah it's and it's just adding up uh the

805
00:37:34,790 --> 00:37:32,880
mass of the electrons neutrons and

806
00:37:37,270 --> 00:37:34,800
protons within the atom

807
00:37:40,310 --> 00:37:37,280
and when you're putting that resonant

808
00:37:41,990 --> 00:37:40,320
frequency as your voltage through the

809
00:37:43,829 --> 00:37:42,000
anode cathode

810
00:37:46,230 --> 00:37:43,839
into the reaction

811
00:37:49,270 --> 00:37:46,240
um that's how it's cold is that you're

812
00:37:52,069 --> 00:37:49,280
making it vibrate at that same like

813
00:37:54,630 --> 00:37:52,079

universal frequency as it's naturally

814

00:37:57,670 --> 00:37:54,640

vibrating at so you're not trying to

815

00:38:01,030 --> 00:37:57,680

like force through pressure like a hot

816

00:38:04,550 --> 00:38:01,040

fusion is of like heating it up melting

817

00:38:08,310 --> 00:38:04,560

it and pressurizing it in and forcing it

818

00:38:09,750 --> 00:38:08,320

into a new fused molecule it's just like

819

00:38:11,910 --> 00:38:09,760

just vibrating

820

00:38:15,750 --> 00:38:11,920

like it naturally is and that they just

821

00:38:15,760 --> 00:38:19,150

entertainment at the same

822

00:38:23,349 --> 00:38:20,710

[Music]

823

00:38:25,510 --> 00:38:23,359

okay so so we vibrate we vibrate the

824

00:38:28,230 --> 00:38:25,520

metal at at its natural

825

00:38:32,310 --> 00:38:28,240

resonance frequency and that will cause

826

00:38:35,990 --> 00:38:32,320

what though so then that's causing it to

827

00:38:38,150 --> 00:38:36,000

um resonate at what it naturally is so

828

00:38:39,829 --> 00:38:38,160

think of like tuning forks and how if

829

00:38:42,150 --> 00:38:39,839

you hit a tuning fork at the same

830

00:38:43,109 --> 00:38:42,160

frequency everything in that area then

831

00:38:47,109 --> 00:38:43,119

starts

832

00:38:49,589 --> 00:38:47,119

of that same frequency magically sort of

833

00:38:51,349 --> 00:38:49,599

simultaneously energy

834

00:38:53,910 --> 00:38:51,359

from where right but it's like that's

835

00:38:56,710 --> 00:38:53,920

something that's over unity that's also

836

00:38:59,270 --> 00:38:56,720

um action at a distance that isn't

837

00:39:01,670 --> 00:38:59,280

explained in modern science and it has

838

00:39:04,230 --> 00:39:01,680

to do with resonance and that when you

839

00:39:06,950 --> 00:39:04,240

have something resonating at its

840

00:39:09,589 --> 00:39:06,960

resonant frequency that's the natural

841

00:39:12,790 --> 00:39:09,599

harmony of it and just

842

00:39:16,230 --> 00:39:12,800

i i can't like fully explain it but

843

00:39:18,310 --> 00:39:16,240

basically that when you have the other

844

00:39:20,230 --> 00:39:18,320

metal that you're trying to transmutate

845

00:39:22,150 --> 00:39:20,240

you have to have it also in this

846

00:39:24,790 --> 00:39:22,160

crystalline state

847

00:39:27,030 --> 00:39:24,800

and it's something to do with that

848

00:39:30,069 --> 00:39:27,040

and that in the electrolysis you're

849

00:39:33,829 --> 00:39:30,079

producing atomic hydrogen out of that

850

00:39:36,230 --> 00:39:33,839

water and that atomic hydrogen is a key

851

00:39:37,910 --> 00:39:36,240

part of all fusion

852

00:39:39,829 --> 00:39:37,920

as well as

853

00:39:42,870 --> 00:39:39,839

you're producing deuterium in this

854

00:39:45,510 --> 00:39:42,880

reaction as well so there's actual cold

855

00:39:48,069 --> 00:39:45,520

fusion going on and somehow through that

856

00:39:50,710 --> 00:39:48,079

aligning it with its resonant frequency

857

00:39:53,349 --> 00:39:50,720

while it's in this transmutational state

858

00:39:57,109 --> 00:39:53,359

it's just how nature i guess works and

859

00:39:57,910 --> 00:39:57,119

it's how you produce it um do you want

860

00:40:00,069 --> 00:39:57,920

to

861

00:40:01,589 --> 00:40:00,079

write in that other camera there yeah so

862

00:40:05,430 --> 00:40:01,599

i can

863

00:40:09,030 --> 00:40:05,440

okay um just give me another minute here

864

00:40:11,510 --> 00:40:09,040

and i will grab some samples to show

865

00:40:13,270 --> 00:40:11,520

and uh better illustrate what we are

866

00:40:14,950 --> 00:40:13,280

talking about yeah and in the meantime

867

00:40:18,069 --> 00:40:14,960

i'll give them a better look at this

868

00:40:21,109 --> 00:40:18,079

this is some of uh bernard

869

00:40:24,710 --> 00:40:21,119

experiments here that he's going to

870

00:40:30,230 --> 00:40:24,720

try to explain to uh

871

00:40:33,190 --> 00:40:31,430

looks like

872

00:40:35,990 --> 00:40:33,200

my high school

873

00:40:43,510 --> 00:40:36,000

chemistry lab in my basement when i was

874

00:40:48,550 --> 00:40:45,270

except after a while i would forget what

875

00:40:48,560 --> 00:40:53,109

that would be a problem

876

00:40:58,150 --> 00:40:56,150

yeah i definitely uh label them so uh

877

00:41:00,150 --> 00:40:58,160

we're good

878

00:41:01,829 --> 00:41:00,160

i just remember this it's like it's like

879

00:41:03,750 --> 00:41:01,839

when i was a kid i had like a bunch of

880

00:41:07,190 --> 00:41:03,760

weird jars in the basement with like you

881

00:41:09,510 --> 00:41:07,200

know different chemicals and and uh i

882

00:41:11,510 --> 00:41:09,520

don't know i was real big on

883

00:41:15,349 --> 00:41:11,520

on on a few different chemicals for

884

00:41:20,470 --> 00:41:17,829

um sorry so i'm just gonna run upstairs

885

00:41:22,630 --> 00:41:20,480

here to grab some of the white mono

886

00:41:23,670 --> 00:41:22,640

atomic and uh

887

00:41:25,829 --> 00:41:23,680

go outside

888

00:41:28,230 --> 00:41:25,839

hey we've only got 18 minutes so don't

889

00:41:30,470 --> 00:41:28,240

you know oh well we can stay longer we

890

00:41:32,630 --> 00:41:30,480

can do more than just the one hour we

891

00:41:35,030 --> 00:41:32,640

can do the full two hours i'm surviving

892

00:41:36,470 --> 00:41:35,040

here my arm's not falling off yeah i got

893

00:41:38,550 --> 00:41:36,480

many other things we've got to do maybe

894

00:41:40,710 --> 00:41:38,560

we could do it part two we can no of

895

00:41:43,750 --> 00:41:40,720

course we will do a part two

896

00:41:45,670 --> 00:41:43,760

okay explain some of these to us

897

00:41:47,670 --> 00:41:45,680

okay give me 30 seconds because the

898

00:41:50,230 --> 00:41:47,680

white one is essential so what the white

899

00:41:53,829 --> 00:41:50,240

one is essential

900

00:41:56,870 --> 00:41:53,839

all right we're gonna have uh

901
00:41:59,829 --> 00:41:56,880
oh let me see here

902
00:42:02,550 --> 00:41:59,839
waiting on bernard here to get another

903
00:42:05,030 --> 00:42:02,560
jar full of uh

904
00:42:07,030 --> 00:42:05,040
science stuff

905
00:42:07,990 --> 00:42:07,040
i don't know what this is

906
00:42:09,910 --> 00:42:08,000
uh

907
00:42:12,150 --> 00:42:09,920
yeah he's gonna explain it i think these

908
00:42:21,430 --> 00:42:12,160
are some of his transmutation

909
00:42:26,069 --> 00:42:24,230
the white one seems essential yes yes

910
00:42:31,510 --> 00:42:26,079
the white one is essential i don't know

911
00:42:36,150 --> 00:42:33,270
yeah and i hear you rebecca it's good

912
00:42:38,470 --> 00:42:36,160
i'm glad that you've got a way to become

913
00:42:39,990 --> 00:42:38,480

you know get off of that stuff and

914

00:42:42,309 --> 00:42:40,000

be healthy i

915

00:42:43,990 --> 00:42:42,319

i grew up in kensington in philadelphia

916

00:42:45,589 --> 00:42:44,000

look it up it's the heroin capital of

917

00:42:47,829 --> 00:42:45,599

the east coast

918

00:42:51,030 --> 00:42:47,839

so uh i have many friends and family

919

00:42:51,040 --> 00:42:59,109

okay

920

00:43:03,270 --> 00:43:00,630

for those just joining us we're talking

921

00:43:06,390 --> 00:43:03,280

with bernard the alchemist

922

00:43:08,150 --> 00:43:06,400

the strange science guy and he's uh

923

00:43:10,069 --> 00:43:08,160

we've discussed some things about

924

00:43:11,990 --> 00:43:10,079

alchemy and history and the

925

00:43:14,230 --> 00:43:12,000

transmutation of metals now he's going

926
00:43:16,950 --> 00:43:14,240
to show us some of his experiments and

927
00:43:20,309 --> 00:43:16,960
what he's been working on

928
00:43:25,910 --> 00:43:23,109
so in those two jars right there you

929
00:43:28,790 --> 00:43:25,920
have one that's pure white at the bottom

930
00:43:30,870 --> 00:43:28,800
one that's pure blue at the bottom

931
00:43:34,790 --> 00:43:30,880
the white one

932
00:43:38,150 --> 00:43:34,800
that is pure monoatomic copper

933
00:43:39,589 --> 00:43:38,160
and the blue one is copper

934
00:43:41,510 --> 00:43:39,599
can you explain the difference for

935
00:43:43,349 --> 00:43:41,520
people i'm aware of what that is but

936
00:43:47,190 --> 00:43:43,359
yeah what is the difference between

937
00:43:50,710 --> 00:43:47,200
monotonic copper and and regular copper

938
00:43:52,069 --> 00:43:50,720

well okay so monoatomic is a single atom

939

00:43:54,470 --> 00:43:52,079

and it's what i

940

00:43:57,750 --> 00:43:54,480

theorized is copper

941

00:43:58,870 --> 00:43:57,760

element in its plasma state

942

00:44:01,990 --> 00:43:58,880

and

943

00:44:03,910 --> 00:44:02,000

um copper the metal copper that's copper

944

00:44:06,790 --> 00:44:03,920

in its solid state

945

00:44:08,470 --> 00:44:06,800

and when you get any metal into its

946

00:44:09,910 --> 00:44:08,480

monoatomic state

947

00:44:12,790 --> 00:44:09,920

it loses

948

00:44:15,910 --> 00:44:12,800

all of its solid properties

949

00:44:18,150 --> 00:44:15,920

and it gains these new plasma properties

950

00:44:20,069 --> 00:44:18,160

just like gases do when they're ionized

951
00:44:21,190 --> 00:44:20,079
in their plasma state

952
00:44:23,670 --> 00:44:21,200
the same

953
00:44:24,710 --> 00:44:23,680
sorry is true for these plasma state

954
00:44:27,430 --> 00:44:24,720
ones

955
00:44:30,470 --> 00:44:27,440
and so the copper oxide this blue one

956
00:44:33,109 --> 00:44:30,480
right next to it all it was was changing

957
00:44:35,670 --> 00:44:33,119
the frequency slightly going into the

958
00:44:38,470 --> 00:44:35,680
electrolysis reaction and it was just

959
00:44:41,430 --> 00:44:38,480
copper on copper copper anode copper

960
00:44:43,910 --> 00:44:41,440
uh cathode for both of these reactions

961
00:44:46,790 --> 00:44:43,920
and just changing the frequency it went

962
00:44:48,950 --> 00:44:46,800
from the pure white to then bonding with

963
00:44:51,829 --> 00:44:48,960

the oxygen that's being produced in the

964

00:44:54,790 --> 00:44:51,839

electrolysis and creating copper oxide

965

00:44:57,430 --> 00:44:54,800

which is then a diatomic not monoatomic

966

00:44:59,910 --> 00:44:57,440

but die because it's then got a covalent

967

00:45:02,390 --> 00:44:59,920

bond formed with one of the oxygens

968

00:45:04,950 --> 00:45:02,400

that's being made in the electrolysis

969

00:45:07,670 --> 00:45:04,960

out of the water instead of just the

970

00:45:11,270 --> 00:45:07,680

pure copper itself so this even though

971

00:45:15,190 --> 00:45:11,280

it's a powder and a triton or a diatomic

972

00:45:19,109 --> 00:45:15,200

it could still possibly be plasma

973

00:45:21,030 --> 00:45:19,119

but it or a plasmoid is more likely and

974

00:45:24,390 --> 00:45:21,040

then it's uh when several of them form

975

00:45:27,829 --> 00:45:24,400

together into plasmoids but it's that it

976

00:45:30,309 --> 00:45:27,839

doesn't have the same properties as uh

977

00:45:31,750 --> 00:45:30,319

when it's the pure white mono single

978

00:45:34,630 --> 00:45:31,760

atom

979

00:45:37,430 --> 00:45:34,640

formation and it's isaac newton that

980

00:45:40,470 --> 00:45:37,440

talks about uh every metal being able to

981

00:45:41,349 --> 00:45:40,480

be broken down into its purest form of

982

00:45:44,069 --> 00:45:41,359

these

983

00:45:46,710 --> 00:45:44,079

monoatomics connecting it with david

984

00:45:51,030 --> 00:45:46,720

hudson's work he calls it ormus so

985

00:45:53,109 --> 00:45:51,040

orbitally rearranged electron molecule

986

00:45:55,510 --> 00:45:53,119

which creates that superconductivity

987

00:45:58,150 --> 00:45:55,520

that he talks about when it's monoatomic

988

00:46:02,390 --> 00:45:58,160

and then keshi calls it gans

989

00:46:04,630 --> 00:46:02,400

gas atom nano solid state so they're all

990

00:46:06,470 --> 00:46:04,640

acronyms for the exact same i don't

991

00:46:07,829 --> 00:46:06,480

understand so first you're saying that

992

00:46:11,030 --> 00:46:07,839

this is mono

993

00:46:13,670 --> 00:46:11,040

mono atomic the white is mono atomic the

994

00:46:14,870 --> 00:46:13,680

white is the diatomic so is that like uh

995

00:46:17,109 --> 00:46:14,880

is that does this mean there's a

996

00:46:18,230 --> 00:46:17,119

multi-step process to get it to the mono

997

00:46:20,550 --> 00:46:18,240

atomic

998

00:46:21,990 --> 00:46:20,560

uh yes

999

00:46:23,670 --> 00:46:22,000

well no okay so

1000

00:46:26,550 --> 00:46:23,680

it just like i was talking about that

1001
00:46:28,550 --> 00:46:26,560
resonant frequency sort of thing it's uh

1002
00:46:30,870 --> 00:46:28,560
you have to have the right uh

1003
00:46:33,030 --> 00:46:30,880
electromagnetic field in the reaction or

1004
00:46:35,990 --> 00:46:33,040
the right current in the reaction

1005
00:46:37,829 --> 00:46:36,000
between whether it will produce the uh

1006
00:46:39,589 --> 00:46:37,839
single atom or whether it's going to

1007
00:46:42,550 --> 00:46:39,599
bond with the

1008
00:46:44,630 --> 00:46:42,560
oxygen and create the oxide

1009
00:46:45,829 --> 00:46:44,640
blue and then it can also there's a

1010
00:46:46,950 --> 00:46:45,839
third state

1011
00:46:49,910 --> 00:46:46,960
that uh

1012
00:46:53,589 --> 00:46:49,920
the same reaction it'll go red and then

1013
00:46:56,470 --> 00:46:53,599

it's two oxygens and one copper

1014

00:46:58,550 --> 00:46:56,480

as opposed to the blue that is just one

1015

00:47:01,190 --> 00:46:58,560

oxygen and one copper or the white that

1016

00:47:03,430 --> 00:47:01,200

is just copper and

1017

00:47:05,829 --> 00:47:03,440

is this is this reproducible like you

1018

00:47:07,910 --> 00:47:05,839

can oh yes a hundred percent and there's

1019

00:47:09,910 --> 00:47:07,920

actually thousands of people online

1020

00:47:11,190 --> 00:47:09,920

especially through keshi's stuff doing

1021

00:47:12,069 --> 00:47:11,200

these ones

1022

00:47:13,109 --> 00:47:12,079

and

1023

00:47:13,910 --> 00:47:13,119

um

1024

00:47:20,069 --> 00:47:13,920

it

1025

00:47:23,270 --> 00:47:20,079

do these uh pure monoatomic as well as

1026

00:47:26,069 --> 00:47:23,280

the other six states colors that uh

1027

00:47:26,950 --> 00:47:26,079

so the alchemists talk about white blue

1028

00:47:28,069 --> 00:47:26,960

red

1029

00:47:30,470 --> 00:47:28,079

yellow

1030

00:47:31,430 --> 00:47:30,480

um

1031

00:47:33,990 --> 00:47:31,440

green

1032

00:47:35,910 --> 00:47:34,000

and black i believe

1033

00:47:39,109 --> 00:47:35,920

and so the

1034

00:47:42,230 --> 00:47:39,119

pink is the crystalline state

1035

00:47:45,829 --> 00:47:42,240

red i theorize is uh mercury

1036

00:47:48,630 --> 00:47:45,839

oxide produced yellow fluorides is

1037

00:47:50,150 --> 00:47:48,640

sulfur oxide produced in it

1038

00:47:51,430 --> 00:47:50,160

green

1039

00:47:53,990 --> 00:47:51,440

is

1040

00:47:55,430 --> 00:47:54,000

ox or yeah oxidized

1041

00:47:58,230 --> 00:47:55,440

and

1042

00:48:00,790 --> 00:47:58,240

blue is like double oxidized

1043

00:48:03,030 --> 00:48:00,800

but um they have done tests and just

1044

00:48:04,470 --> 00:48:03,040

just so i understand too like you know

1045

00:48:06,870 --> 00:48:04,480

there's a whole lot of people that make

1046

00:48:09,349 --> 00:48:06,880

an awful lot of claims about mono

1047

00:48:11,750 --> 00:48:09,359

mono atomic gold and silver and people

1048

00:48:14,470 --> 00:48:11,760

are selling it as a snake oil

1049

00:48:16,630 --> 00:48:14,480

to me it's snake oil sometimes it's so

1050

00:48:18,950 --> 00:48:16,640

it's like you know what what else they

1051
00:48:21,270 --> 00:48:18,960
don't cure you and and then certainly

1052
00:48:23,349 --> 00:48:21,280
there is scientific proof that that

1053
00:48:25,430 --> 00:48:23,359
silver can be used it's used in

1054
00:48:27,990 --> 00:48:25,440
colloidal storage yeah it's used in

1055
00:48:31,750 --> 00:48:28,000
hospitals but as a disinfectant

1056
00:48:33,910 --> 00:48:31,760
really not as an internal medicine right

1057
00:48:35,510 --> 00:48:33,920
so aren't some people pushing this to

1058
00:48:37,750 --> 00:48:35,520
take internally

1059
00:48:40,549 --> 00:48:37,760
there's a lot of it that is snake oil

1060
00:48:43,190 --> 00:48:40,559
and it's like they'll call it monoatomic

1061
00:48:46,150 --> 00:48:43,200
gold or monoatomic silver

1062
00:48:49,349 --> 00:48:46,160
and really they're making ormus out of

1063
00:48:50,390 --> 00:48:49,359

just salt water so it's literally every

1064

00:48:52,710 --> 00:48:50,400

atom

1065

00:48:54,470 --> 00:48:52,720

in the salt water in the ocean water

1066

00:48:56,230 --> 00:48:54,480

that they're using they'll use ocean

1067

00:48:58,230 --> 00:48:56,240

water call it monoatomic gold but it's

1068

00:49:00,710 --> 00:48:58,240

like anything that was dissolved in that

1069

00:49:03,510 --> 00:49:00,720

ocean water is now in its plasma state

1070

00:49:04,630 --> 00:49:03,520

so it's not gold and it's not silver

1071

00:49:07,589 --> 00:49:04,640

it's just

1072

00:49:10,630 --> 00:49:07,599

ocean water that's now plasmatized

1073

00:49:11,510 --> 00:49:10,640

and the monoatomic gold that i make it's

1074

00:49:15,270 --> 00:49:11,520

got

1075

00:49:16,630 --> 00:49:15,280

pure gold bar anode pure gold bar

1076

00:49:19,829 --> 00:49:16,640

cathode

1077

00:49:22,710 --> 00:49:19,839

gold on gold going in making this pure

1078

00:49:25,510 --> 00:49:22,720

white monoatomic gold and when i call it

1079

00:49:30,069 --> 00:49:25,520

monoatomic gold it's literally

1080

00:49:32,950 --> 00:49:30,079

gold turning into its single atom gold

1081

00:49:36,710 --> 00:49:32,960

and i do the same with silver and those

1082

00:49:37,589 --> 00:49:36,720

are real monoatomic golds and silvers

1083

00:49:39,589 --> 00:49:37,599

and

1084

00:49:42,069 --> 00:49:39,599

um what

1085

00:49:43,910 --> 00:49:42,079

there is evidence that those actually

1086

00:49:45,750 --> 00:49:43,920

will heal you and then there's the

1087

00:49:47,829 --> 00:49:45,760

ancient legends that if you eat

1088

00:49:50,630 --> 00:49:47,839

monoatomic gold it'll turn you into a

1089

00:49:52,870 --> 00:49:50,640

demigod but every person i've heard that

1090

00:49:55,349 --> 00:49:52,880

has actually done that usually ends up

1091

00:49:57,510 --> 00:49:55,359

in a mental asylum because it overwhelms

1092

00:50:00,309 --> 00:49:57,520

them and there's an actual process of

1093

00:50:01,990 --> 00:50:00,319

doing it i have not do it done it i

1094

00:50:04,630 --> 00:50:02,000

don't know and we don't recommend that

1095

00:50:07,510 --> 00:50:04,640

here we don't recommend people to do it

1096

00:50:10,950 --> 00:50:07,520

whatsoever and if any like if the

1097

00:50:12,390 --> 00:50:10,960

science that needs to be researched like

1098

00:50:15,030 --> 00:50:12,400

thoroughly through and through the

1099

00:50:17,750 --> 00:50:15,040

chances are there is something to it i'm

1100

00:50:19,190 --> 00:50:17,760

not gonna make any claims or like i

1101

00:50:22,150 --> 00:50:19,200

haven't uh

1102

00:50:25,349 --> 00:50:22,160

i won't verify any of the results like

1103

00:50:28,470 --> 00:50:25,359

or claim that i have but i have made the

1104

00:50:30,950 --> 00:50:28,480

mono atomics that they talk about right

1105

00:50:33,589 --> 00:50:30,960

so that is reproducible that i have

1106

00:50:35,670 --> 00:50:33,599

definitely done anybody can reproduce so

1107

00:50:38,230 --> 00:50:35,680

i can show you how and i've done it out

1108

00:50:40,309 --> 00:50:38,240

of several different metals every single

1109

00:50:42,790 --> 00:50:40,319

one of them will turn into the white one

1110

00:50:45,349 --> 00:50:42,800

every single one of them will also uh

1111

00:50:47,910 --> 00:50:45,359

turn into like the dye or the tioronics

1112

00:50:50,069 --> 00:50:47,920

where they bond with the oxygen or they

1113

00:50:52,870 --> 00:50:50,079

bond with other metals or different

1114

00:50:55,430 --> 00:50:52,880

stuff right so there are these different

1115

00:50:56,630 --> 00:50:55,440

states and what the alchemists used in

1116

00:50:59,990 --> 00:50:56,640

these color

1117

00:51:02,390 --> 00:51:00,000

coding states and it is actual chemistry

1118

00:51:03,430 --> 00:51:02,400

and it is reproducible and that's what

1119

00:51:04,470 --> 00:51:03,440

i'm going to that's what i was going to

1120

00:51:06,470 --> 00:51:04,480

say like

1121

00:51:08,950 --> 00:51:06,480

i mean this is somewhat interesting to

1122

00:51:10,549 --> 00:51:08,960

me but it's also to me it seems like

1123

00:51:14,150 --> 00:51:10,559

okay well this is just some basic

1124

00:51:15,190 --> 00:51:14,160

chemistry like if you if you were to

1125

00:51:17,349 --> 00:51:15,200

you know

1126

00:51:20,150 --> 00:51:17,359

put a put a metal into a certain

1127

00:51:22,710 --> 00:51:20,160

compound it might change form slightly

1128

00:51:24,470 --> 00:51:22,720

but it's still the same metal so

1129

00:51:26,790 --> 00:51:24,480

um but where

1130

00:51:28,870 --> 00:51:26,800

this is claimed to be part of the

1131

00:51:31,030 --> 00:51:28,880

transmutation process into something

1132

00:51:32,630 --> 00:51:31,040

else though right when it's in this

1133

00:51:35,829 --> 00:51:32,640

white the plot what i'm saying is a

1134

00:51:39,990 --> 00:51:35,839

plasma state it loses

1135

00:51:42,549 --> 00:51:40,000

every single property of its solid state

1136

00:51:43,910 --> 00:51:42,559

like iron in this white state no longer

1137

00:51:46,390 --> 00:51:43,920

magnetic

1138

00:51:48,549 --> 00:51:46,400

and uh oh that's interesting yeah so

1139

00:51:49,670 --> 00:51:48,559

there's a lot of huge things to it but

1140

00:51:52,630 --> 00:51:49,680

then

1141

00:51:53,910 --> 00:51:52,640

the the white stuff is what

1142

00:51:56,150 --> 00:51:53,920

can be

1143

00:51:58,549 --> 00:51:56,160

medically used so this i've flushed the

1144

00:52:01,750 --> 00:51:58,559

salt water out i've cleaned it uh over

1145

00:52:04,470 --> 00:52:01,760

nine times and you always wait you never

1146

00:52:07,109 --> 00:52:04,480

consume the bottom stuff but it's what

1147

00:52:09,270 --> 00:52:07,119

charges this is colloidal or monoatomic

1148

00:52:11,190 --> 00:52:09,280

gold silver copper zinc at the bottom

1149

00:52:13,270 --> 00:52:11,200

those four are in this one

1150

00:52:15,750 --> 00:52:13,280

and then your colloidal gold or

1151

00:52:19,190 --> 00:52:15,760

colloidal silver is water that then

1152

00:52:20,069 --> 00:52:19,200

dissolves some of this into it so uh i

1153

00:52:23,510 --> 00:52:20,079

drink

1154

00:52:27,670 --> 00:52:23,520

it

1155

00:52:31,030 --> 00:52:28,870

that is

1156

00:52:33,910 --> 00:52:31,040

you're braver than me

1157

00:52:37,270 --> 00:52:33,920

colloidal gold coil zinc colloidal

1158

00:52:39,270 --> 00:52:37,280

copper water i you never ingest this

1159

00:52:41,190 --> 00:52:39,280

stuff you always wait for it to

1160

00:52:43,270 --> 00:52:41,200

completely sell because

1161

00:52:44,950 --> 00:52:43,280

when it's milky like that that will kill

1162

00:52:47,910 --> 00:52:44,960

you that will poison you that will give

1163

00:52:49,910 --> 00:52:47,920

you heavy metal poisoning you never ever

1164

00:52:52,150 --> 00:52:49,920

consumed the mono atomic

1165

00:52:54,710 --> 00:52:52,160

good question from matthew i was a bit

1166

00:52:57,349 --> 00:52:54,720

of a skeptic tonight but it's okay like

1167

00:52:59,510 --> 00:52:57,359

everybody's welcome here and matthew is

1168

00:53:01,829 --> 00:52:59,520

asking so has he ever had anything

1169

00:53:03,990 --> 00:53:01,839

tested to see if he actually achieved

1170

00:53:07,270 --> 00:53:04,000

said change

1171

00:53:11,190 --> 00:53:07,280

uh i have not but the keshie foundation

1172

00:53:13,430 --> 00:53:11,200

you go on to kff or kfss and you're

1173

00:53:15,510 --> 00:53:13,440

using similar methods to that

1174

00:53:17,829 --> 00:53:15,520

exactly and they actually have they've

1175

00:53:18,870 --> 00:53:17,839

got lots of university studies they've

1176

00:53:27,589 --> 00:53:18,880

got

1177

00:53:30,309 --> 00:53:27,599

studies in china through several

1178

00:53:34,069 --> 00:53:30,319

different institutes and universities

1179

00:53:36,790 --> 00:53:34,079

now so it there is actual real

1180

00:53:38,390 --> 00:53:36,800

um lab science going on

1181

00:53:39,109 --> 00:53:38,400

in parallel to this

1182

00:53:41,430 --> 00:53:39,119

so

1183

00:53:42,790 --> 00:53:41,440

if you for instance your reaction you

1184

00:53:45,190 --> 00:53:42,800

ever get any of your metals the

1185

00:53:48,630 --> 00:53:45,200

monoatomic turning into this dye or

1186

00:53:50,470 --> 00:53:48,640

tiatronic blue green any color but white

1187

00:53:52,790 --> 00:53:50,480

you drink this water you're going to

1188

00:53:54,549 --> 00:53:52,800

poison yourself and give yourself heavy

1189

00:53:56,549 --> 00:53:54,559

metal poisoning and die i don't

1190

00:53:58,390 --> 00:53:56,559

recommend personally i don't recommend

1191

00:54:00,790 --> 00:53:58,400

anybody drinks any of this stuff and

1192

00:54:03,510 --> 00:54:00,800

consult your doctor i agree with you i

1193

00:54:05,990 --> 00:54:03,520

honestly agree with you because it is so

1194

00:54:08,630 --> 00:54:06,000

easy to mess up and poison yourself and

1195

00:54:11,750 --> 00:54:08,640

kill yourself and do stuff if you don't

1196

00:54:14,549 --> 00:54:11,760

get it precisely down and that's why

1197

00:54:16,549 --> 00:54:14,559

there needs to be so much more research

1198

00:54:18,870 --> 00:54:16,559

and work done in this field because

1199

00:54:21,829 --> 00:54:18,880

there are real possibility there's real

1200

00:54:23,510 --> 00:54:21,839

stuff to it but there's also a lot of

1201

00:54:25,270 --> 00:54:23,520

harm and then like you say there's a lot

1202

00:54:26,470 --> 00:54:25,280

of these snake charmers oh there's a lot

1203

00:54:28,309 --> 00:54:26,480

of snakes

1204

00:54:30,309 --> 00:54:28,319

salesmen yeah don't know what they're

1205

00:54:33,190 --> 00:54:30,319

doing and they are selling you stuff

1206

00:54:36,150 --> 00:54:33,200

that will harm you not cure you and that

1207

00:54:37,030 --> 00:54:36,160

is a huge huge aspect of it

1208

00:54:38,710 --> 00:54:37,040

and

1209

00:54:41,270 --> 00:54:38,720

um

1210

00:54:44,069 --> 00:54:41,280

lost my train of thought there but yes i

1211

00:54:45,589 --> 00:54:44,079

know it's quite all right so you know i

1212

00:54:48,789 --> 00:54:45,599

think that we've done an excellent

1213

00:54:51,030 --> 00:54:48,799

introduction and and uh and

1214

00:54:53,430 --> 00:54:51,040

given people some idea of some of these

1215

00:54:56,069 --> 00:54:53,440

things and and you said that this so

1216

00:54:58,069 --> 00:54:56,079

this turning these metals into their

1217

00:55:00,390 --> 00:54:58,079

monoatomic forms

1218

00:55:02,870 --> 00:55:00,400

is part of the process of

1219

00:55:05,750 --> 00:55:02,880

the the total transformation of metals

1220

00:55:07,990 --> 00:55:05,760

right so this is somehow part of the you

1221

00:55:09,750 --> 00:55:08,000

know first you make it monoatomic and

1222

00:55:11,750 --> 00:55:09,760

then you could somehow transmute it to

1223

00:55:12,950 --> 00:55:11,760

another element

1224

00:55:16,069 --> 00:55:12,960

um

1225

00:55:18,549 --> 00:55:16,079

so it it's all part of the transmutation

1226

00:55:20,789 --> 00:55:18,559

process it's not necessarily that you

1227

00:55:23,190 --> 00:55:20,799

have to turn it into the monoatomic

1228

00:55:25,510 --> 00:55:23,200

first it's that you can

1229

00:55:28,309 --> 00:55:25,520

either turn it into the monoatomic you

1230

00:55:30,870 --> 00:55:28,319

can turn it into the crystal form the

1231

00:55:33,190 --> 00:55:30,880

crystalline form or like the five other

1232

00:55:35,990 --> 00:55:33,200

different states in between

1233

00:55:37,990 --> 00:55:36,000

to actually get the real transmutation

1234

00:55:40,549 --> 00:55:38,000

back into a solid you have to get it

1235

00:55:43,589 --> 00:55:40,559

into that crystalline form then put in

1236

00:55:46,230 --> 00:55:43,599

the high current then have the atomic

1237

00:55:49,030 --> 00:55:46,240

hydrogen through that electrolysis

1238

00:55:51,030 --> 00:55:49,040

fuse into it and you have to have enough

1239

00:55:54,150 --> 00:55:51,040

current going through that it creates a

1240

00:55:57,270 --> 00:55:54,160

spark gap where the purple blue plasma

1241

00:55:59,670 --> 00:55:57,280

actually forms within the water between

1242

00:56:02,230 --> 00:55:59,680

the two there'll be a spark gap plasma

1243

00:56:04,470 --> 00:56:02,240

forming and that that will actually

1244

00:56:06,870 --> 00:56:04,480

cause the fusion reaction of the metals

1245

00:56:08,710 --> 00:56:06,880

and get the hydrogen to bond in with

1246

00:56:12,309 --> 00:56:08,720

your crystalline states

1247

00:56:14,789 --> 00:56:12,319

model into the reproducing the solid uh

1248

00:56:17,109 --> 00:56:14,799

another claim that i've heard and i've

1249

00:56:19,270 --> 00:56:17,119

seen on youtube a lot i've never tried

1250

00:56:21,270 --> 00:56:19,280

it i would like to but i need a lab i'm

1251

00:56:23,990 --> 00:56:21,280

not going to do it in my backyard but

1252

00:56:26,789 --> 00:56:24,000

you can take these different monoatomic

1253

00:56:30,069 --> 00:56:26,799

diatomic triatomic particles put them

1254

00:56:32,710 --> 00:56:30,079

into a microwave and the microwaves will

1255

00:56:35,270 --> 00:56:32,720

actually cause them um like a medium

1256

00:56:38,230 --> 00:56:35,280

fusion and it'll turn from the powders

1257

00:56:40,870 --> 00:56:38,240

into solid-state metals that are a

1258

00:56:43,349 --> 00:56:40,880

fusion of the two molecules or all of

1259

00:56:45,109 --> 00:56:43,359

the molecules in there like say you have

1260

00:56:48,789 --> 00:56:45,119

copper and

1261

00:56:52,069 --> 00:56:48,799

um iron or whatever it's an addition you

1262

00:56:54,630 --> 00:56:52,079

add the copper and the iron together and

1263

00:56:55,430 --> 00:56:54,640

your new metal is a combination of those

1264

00:56:58,549 --> 00:56:55,440

two

1265

00:57:01,270 --> 00:56:58,559

regular amalgam from regular metallurgy

1266

00:57:04,309 --> 00:57:01,280

yeah well it's actual medium fusion like

1267

00:57:07,670 --> 00:57:04,319

the solid metal coming out is those two

1268

00:57:09,589 --> 00:57:07,680

atoms fused together so okay

1269

00:57:11,589 --> 00:57:09,599

yeah so that is another one and that has

1270

00:57:14,710 --> 00:57:11,599

more to do along the experiments with

1271

00:57:18,950 --> 00:57:14,720

john hutchinson and stuff like that and

1272

00:57:20,069 --> 00:57:18,960

uh dan winters talks about a lot of it

1273

00:57:21,670 --> 00:57:20,079

for a while

1274

00:57:23,109 --> 00:57:21,680

i like his crystal batteries and

1275

00:57:25,270 --> 00:57:23,119

actually that's the last question i'm

1276
00:57:27,670 --> 00:57:25,280
going to ask you about is these crystal

1277
00:57:29,990 --> 00:57:27,680
batteries uh you know i made a bunch of

1278
00:57:32,230 --> 00:57:30,000
them and i don't quite understand it

1279
00:57:34,630 --> 00:57:32,240
where is the power coming from but you

1280
00:57:39,190 --> 00:57:34,640
can get a tiny bit of power out of these

1281
00:57:41,670 --> 00:57:39,200
crystal batteries for the fisa electric

1282
00:57:44,950 --> 00:57:41,680
that again is doing with the resonance

1283
00:57:46,630 --> 00:57:44,960
and the resonant frequency of

1284
00:57:48,630 --> 00:57:46,640
crystal um

1285
00:57:51,670 --> 00:57:48,640
that when they're in a crystal state i

1286
00:57:54,470 --> 00:57:51,680
believe crystal is actually active

1287
00:57:56,710 --> 00:57:54,480
uh crystal is like a sixth or seventh

1288
00:57:59,349 --> 00:57:56,720

dimension where plasma is your fourth

1289

00:58:02,230 --> 00:57:59,359

state of matter i believe crystals are

1290

00:58:05,190 --> 00:58:02,240

actually even higher up state of matter

1291

00:58:06,829 --> 00:58:05,200

than plasma and that it's that

1292

00:58:09,510 --> 00:58:06,839

pyroelectric that

1293

00:58:11,270 --> 00:58:09,520

vibration of the crystal and you're

1294

00:58:13,349 --> 00:58:11,280

that's where that electricity is then

1295

00:58:16,069 --> 00:58:13,359

coming from the movement of

1296

00:58:17,910 --> 00:58:16,079

the crystal itself like sports crystals

1297

00:58:20,230 --> 00:58:17,920

sure of course

1298

00:58:21,670 --> 00:58:20,240

yeah yeah and that also is over unity

1299

00:58:23,990 --> 00:58:21,680

that's not really explained or talked

1300

00:58:26,069 --> 00:58:24,000

about but it's actual that these

1301
00:58:28,390 --> 00:58:26,079
crystals you're harnessing the physical

1302
00:58:30,789 --> 00:58:28,400
movement the vibration of them and

1303
00:58:31,510 --> 00:58:30,799
turning that into electricity

1304
00:58:33,430 --> 00:58:31,520
so

1305
00:58:36,230 --> 00:58:33,440
that's where it's coming from in a lot

1306
00:58:39,990 --> 00:58:36,240
of his crystal batteries and that's

1307
00:58:41,190 --> 00:58:40,000
another aspect of these monoatomic stuff

1308
00:58:44,789 --> 00:58:41,200
that um

1309
00:58:47,750 --> 00:58:44,799
there's a a guy from mit that has the

1310
00:58:51,349 --> 00:58:47,760
patent for liquid state batteries and

1311
00:58:54,309 --> 00:58:51,359
it's metals you uh created through

1312
00:58:57,349 --> 00:58:54,319
electrolysis thus these monoatomic

1313
00:59:00,710 --> 00:58:57,359

particles and diatomic particles are

1314

00:59:03,510 --> 00:59:00,720

your superconductors and that um you can

1315

00:59:05,750 --> 00:59:03,520

actually put a differential anode

1316

00:59:07,910 --> 00:59:05,760

cathode through these jars that's what

1317

00:59:10,230 --> 00:59:07,920

those laden jars were back in the day

1318

00:59:12,309 --> 00:59:10,240

and that having a coil going down into

1319

00:59:14,630 --> 00:59:12,319

the monoatomic on one side and then

1320

00:59:17,030 --> 00:59:14,640

having a coil that's just above like

1321

00:59:19,190 --> 00:59:17,040

just in the water on the other side that

1322

00:59:21,109 --> 00:59:19,200

creates enough differential that i

1323

00:59:23,510 --> 00:59:21,119

measured a 7 volt

1324

00:59:25,510 --> 00:59:23,520

coming out of it for uh like six months

1325

00:59:27,990 --> 00:59:25,520

one time and i'm going to do some new

1326

00:59:29,589 --> 00:59:28,000

experiments now i've got a little tiny

1327

00:59:33,190 --> 00:59:29,599

capacitors that i've gotten for the

1328

00:59:35,109 --> 00:59:33,200

circuits for little leds the dog will be

1329

00:59:36,789 --> 00:59:35,119

helped a lot with that yeah you know

1330

00:59:37,510 --> 00:59:36,799

that's like a jewel thief

1331

00:59:39,510 --> 00:59:37,520

so

1332

00:59:40,710 --> 00:59:39,520

you le i mean

1333

00:59:42,390 --> 00:59:40,720

circuit

1334

00:59:43,589 --> 00:59:42,400

a lot of people use these jewel thief

1335

00:59:46,309 --> 00:59:43,599

circuits and they kind of use a

1336

00:59:48,789 --> 00:59:46,319

capacitor and a couple other things to

1337

00:59:51,349 --> 00:59:48,799

to pulse the to pulse the power coming

1338

00:59:53,190 --> 00:59:51,359

out of experiments oh yes okay

1339

00:59:55,190 --> 00:59:53,200

so you could use a

1340

00:59:57,349 --> 00:59:55,200

hutchison crystal little battery to

1341

00:59:59,589 --> 00:59:57,359

power an led or something like that yeah

1342

01:00:01,190 --> 00:59:59,599

with the dual thief circuit involved

1343

01:00:02,950 --> 01:00:01,200

so that's what i'm going to try to do

1344

01:00:05,430 --> 01:00:02,960

with a couple of my monoatomic and

1345

01:00:06,710 --> 01:00:05,440

tri-atomic jars to show that there can

1346

01:00:09,030 --> 01:00:06,720

also be

1347

01:00:13,030 --> 01:00:11,270

hutchinson style crystal batteries these

1348

01:00:15,349 --> 01:00:13,040

same monoatomic

1349

01:00:17,190 --> 01:00:15,359

superconducting liquid liquid metal

1350

01:00:18,710 --> 01:00:17,200

batteries as well

1351

01:00:20,630 --> 01:00:18,720

and that'll be something i'd sure like

1352

01:00:21,990 --> 01:00:20,640

to see so listen i think we did a good

1353

01:00:23,510 --> 01:00:22,000

introduction and i don't want to go too

1354

01:00:25,670 --> 01:00:23,520

much i don't want to go any deeper

1355

01:00:28,069 --> 01:00:25,680

tonight and i especially want to again

1356

01:00:30,150 --> 01:00:28,079

caution everybody

1357

01:00:31,430 --> 01:00:30,160

i don't recommend drinking anything that

1358

01:00:33,670 --> 01:00:31,440

you're not

1359

01:00:36,549 --> 01:00:33,680

don't try doctor

1360

01:00:38,630 --> 01:00:36,559

don't don't do what i'm doing like i've

1361

01:00:40,549 --> 01:00:38,640

been doing this for eight years like

1362

01:00:43,109 --> 01:00:40,559

i've been drinking certain waters for

1363

01:00:44,710 --> 01:00:43,119

four but i also there's a huge list of

1364

01:00:47,750 --> 01:00:44,720

things i know that i will never go

1365

01:00:49,750 --> 01:00:47,760

around or try or anything

1366

01:00:52,710 --> 01:00:49,760

like if you use the wrong i don't know

1367

01:00:54,549 --> 01:00:52,720

you're the braver man than me

1368

01:00:56,150 --> 01:00:54,559

radiation poisoning you're gonna cause

1369

01:00:57,829 --> 01:00:56,160

yourself cancer you're going to kill

1370

01:01:00,230 --> 01:00:57,839

yourself

1371

01:01:01,829 --> 01:01:00,240

folks don't try this at home

1372

01:01:04,630 --> 01:01:01,839

don't try this at home

1373

01:01:06,069 --> 01:01:04,640

yeah should not try it

1374

01:01:07,910 --> 01:01:06,079

so i'm going to throw you out here now

1375

01:01:10,150 --> 01:01:07,920

and do a quick wrap-up all right i

1376

01:01:13,109 --> 01:01:10,160

appreciate you making it here and we'll

1377

01:01:15,190 --> 01:01:13,119

see if we can't do it again uh sure let

1378

01:01:16,710 --> 01:01:15,200

me throw out for oh wait a minute no

1379

01:01:19,750 --> 01:01:16,720

we're gonna

1380

01:01:21,670 --> 01:01:19,760

all

1381

01:01:24,630 --> 01:01:21,680

we'll see you thanks for doing this i

1382

01:01:26,230 --> 01:01:24,640

must say steve i love your work uh i got

1383

01:01:28,950 --> 01:01:26,240

all the respect in the world for you

1384

01:01:32,870 --> 01:01:28,960

because although you're a skeptic you're

1385

01:01:34,470 --> 01:01:32,880

a investigator i'm a skeptical believer

1386

01:01:37,589 --> 01:01:34,480

journalist though right and you

1387

01:01:39,589 --> 01:01:37,599

everybody needs a healthy level of

1388

01:01:41,349 --> 01:01:39,599

skepticism to be able to wear a lot of

1389

01:01:43,910 --> 01:01:41,359

hats around here to understand if

1390

01:01:44,950 --> 01:01:43,920

everyone just believes everything like

1391

01:01:47,270 --> 01:01:44,960

um

1392

01:01:49,670 --> 01:01:47,280

without dissertation without looking

1393

01:01:51,510 --> 01:01:49,680

into it you're leaving your mind your

1394

01:01:53,510 --> 01:01:51,520

brain on the ground you know like you

1395

01:01:55,270 --> 01:01:53,520

have to do the research you have to do

1396

01:01:57,670 --> 01:01:55,280

the hard asking questions you have to

1397

01:01:59,829 --> 01:01:57,680

look into it and you do that and you've

1398

01:02:01,670 --> 01:01:59,839

discovered so much [h__h] out there

1399

01:02:03,589 --> 01:02:01,680

and i have a

1400

01:02:05,270 --> 01:02:03,599

world for you for doing well thank you i

1401

01:02:06,630 --> 01:02:05,280

appreciate that all right you have a

1402

01:02:08,470 --> 01:02:06,640

good evening

1403

01:02:10,950 --> 01:02:08,480

all right friends what can i say we've

1404

01:02:13,670 --> 01:02:10,960

had an introduction into this some of

1405

01:02:15,270 --> 01:02:13,680

the strange science and the ancient art

1406

01:02:16,630 --> 01:02:15,280

of alchemy

1407

01:02:19,589 --> 01:02:16,640

i'm not sure

1408

01:02:21,670 --> 01:02:19,599

you know i am

1409

01:02:24,470 --> 01:02:21,680

i don't know i'm still fascinated by it

1410

01:02:26,150 --> 01:02:24,480

all and the possibilities of it right

1411

01:02:28,630 --> 01:02:26,160

wouldn't it be great if we could do cold

1412

01:02:30,309 --> 01:02:28,640

fusion and transmute metals

1413

01:02:32,230 --> 01:02:30,319

wouldn't it be great if we could find

1414

01:02:34,950 --> 01:02:32,240

room temperature

1415

01:02:36,549 --> 01:02:34,960

superconductors that would make amazing

1416

01:02:38,870 --> 01:02:36,559

things possible

1417

01:02:41,829 --> 01:02:38,880

wouldn't it be amazing if uh we could

1418

01:02:45,990 --> 01:02:41,839

transmute lead into gold or platinum

1419

01:02:51,029 --> 01:02:46,000

right and uh or lithium and stop the

1420

01:02:53,750 --> 01:02:51,039

lithium slave trade right or

1421

01:02:56,069 --> 01:02:53,760

any any combination of

1422

01:02:58,069 --> 01:02:56,079

incredible things could be possible if

1423

01:03:03,349 --> 01:02:58,079

some of this stuff was

1424

01:03:08,710 --> 01:03:06,710

though alchemy like ufos has been

1425

01:03:09,510 --> 01:03:08,720

filled with people that have made a lot

1426

01:03:11,589 --> 01:03:09,520

of

1427

01:03:13,750 --> 01:03:11,599

weird claims some throughout history

1428

01:03:16,470 --> 01:03:13,760

would claim for their king or queen that

1429

01:03:18,549 --> 01:03:16,480

they would transmute led into gold and

1430

01:03:21,270 --> 01:03:18,559

then they weren't able to do it and they

1431

01:03:24,789 --> 01:03:21,280

got hung for it

1432

01:03:27,029 --> 01:03:24,799

so it's a strange and murky

1433

01:03:29,029 --> 01:03:27,039

you know viewing glass that we have to

1434

01:03:29,829 --> 01:03:29,039

view these things through

1435

01:03:31,910 --> 01:03:29,839

and

1436

01:03:33,430 --> 01:03:31,920

even these things in history

1437

01:03:35,750 --> 01:03:33,440

but still

1438

01:03:39,190 --> 01:03:35,760

i'm i'm looking in that looking glass

1439

01:03:42,549 --> 01:03:39,200

anyway to see uh what it is that we can

1440

01:03:45,270 --> 01:03:42,559

learn from these ancient things

1441

01:03:48,150 --> 01:03:45,280

so friends uh i want to thank our guest

1442

01:03:49,589 --> 01:03:48,160

tonight bernard the alchemist uh if let

1443

01:03:53,029 --> 01:03:49,599

us know in the comments do you want to

1444

01:03:56,069 --> 01:03:53,039

hear more from him or people like him

1445

01:03:57,349 --> 01:03:56,079

uh let us know in the comments

1446

01:03:59,270 --> 01:03:57,359

uh

1447

01:04:01,510 --> 01:03:59,280

i gotta tell you friends i'm always

1448

01:04:03,829 --> 01:04:01,520

happy when there's an audience and

1449

01:04:05,829 --> 01:04:03,839

tonight we had a great one and i want to

1450

01:04:07,750 --> 01:04:05,839

thank my guest once again

1451

01:04:11,190 --> 01:04:07,760

uh you know we had to try this a few

1452

01:04:16,069 --> 01:04:13,670

uh so until next time friends my name is

1453

01:04:19,020 --> 01:04:16,079

stephen campion good night and god bless

1454

01:04:33,829 --> 01:04:19,030

all of you

1455

01:04:33,839 --> 01:04:37,750

so

1456

01:04:37,760 --> 01:05:26,069

[Music]

1457

01:05:26,079 --> 01:05:30,320

so

1458

01:06:02,830 --> 01:06:01,460

[Music]
