

1  
00:00:04,070 --> 00:00:01,990  
because i am working on hover car

2  
00:00:05,510 --> 00:00:04,080  
technology right now i'm not joking i'm

3  
00:00:07,510 --> 00:00:05,520  
not going to talk about it until we've

4  
00:00:08,950 --> 00:00:07,520  
got something for you but we're getting

5  
00:00:10,870 --> 00:00:08,960  
pretty close

6  
00:00:12,870 --> 00:00:10,880  
um once we get to that point i can talk

7  
00:00:14,310 --> 00:00:12,880  
a lot more but uh

8  
00:00:15,910 --> 00:00:14,320  
several of pete peterson's former

9  
00:00:17,990 --> 00:00:15,920  
associates i'm working with on this and

10  
00:00:20,630 --> 00:00:18,000  
it's very very real

11  
00:00:21,670 --> 00:00:20,640  
uh we expect that once we get financed

12  
00:00:23,269 --> 00:00:21,680  
hopefully

13  
00:00:25,349 --> 00:00:23,279

that we'll have an operational working

14

00:00:26,870 --> 00:00:25,359

prototype within one year and that we

15

00:00:28,950 --> 00:00:26,880

could go into mass production within

16

00:00:30,470 --> 00:00:28,960

four years where you will have a hover

17

00:00:32,709 --> 00:00:30,480

car in your garage

18

00:00:34,470 --> 00:00:32,719

at an affordable price um the company

19

00:00:36,630 --> 00:00:34,480

that i'm working with is one of about

20

00:00:38,069 --> 00:00:36,640

five that i've been briefed on

21

00:00:39,590 --> 00:00:38,079

that are all working on this and we're

22

00:00:41,510 --> 00:00:39,600

all in kind of like a little race with

23

00:00:42,790 --> 00:00:41,520

each other of who's going to do it first

24

00:00:45,590 --> 00:00:42,800

as i've talked about in other videos i'm

25

00:00:47,270 --> 00:00:45,600

not going to run through all of it again

26

00:00:49,910 --> 00:00:47,280

there have been these declassified

27

00:00:52,150 --> 00:00:49,920

patents filed by a man apparently named

28

00:00:55,910 --> 00:00:52,160

salvatore pius

29

00:00:57,590 --> 00:00:55,920

and they are for a device called the

30

00:00:58,389 --> 00:00:57,600

hawk hauc

31

00:01:00,790 --> 00:00:58,399

hybrid

32

00:01:01,990 --> 00:01:00,800

air underwater craft

33

00:01:03,349 --> 00:01:02,000

and it's basically a flying black

34

00:01:05,830 --> 00:01:03,359

triangle

35

00:01:07,030 --> 00:01:05,840

and the patent describes exactly how to

36

00:01:08,469 --> 00:01:07,040

build it and says that it is

37

00:01:10,310 --> 00:01:08,479

anti-gravity

38

00:01:11,910 --> 00:01:10,320

and in the other videos i've done we we

39

00:01:13,350 --> 00:01:11,920

have compelling evidence that they

40

00:01:15,350 --> 00:01:13,360

they've already built these they know

41

00:01:17,109 --> 00:01:15,360

how they work um one of the designs that

42

00:01:18,710 --> 00:01:17,119

we have i have schematics of it the

43

00:01:21,109 --> 00:01:18,720

wings fold up like this so you can get

44

00:01:23,030 --> 00:01:21,119

it into the garage because you do

45

00:01:25,030 --> 00:01:23,040

actually need some wings

46

00:01:27,429 --> 00:01:25,040

for like these ionic type of propulsion

47

00:01:29,510 --> 00:01:27,439

systems you're shooting an ion cannon

48

00:01:32,069 --> 00:01:29,520

out the back you have the anti-gravity

49

00:01:33,830 --> 00:01:32,079

but you need thrust so the wings kind of

50

00:01:35,590 --> 00:01:33,840

allow you to be what they call a flux

51  
00:01:38,830 --> 00:01:35,600  
liner you're riding the gravitational

52  
00:01:41,270 --> 00:01:38,840  
flux instead of an airliner that uses

53  
00:01:43,270 --> 00:01:41,280  
air and because it's hybrid air under

54  
00:01:45,109 --> 00:01:43,280  
watercraft you can also fly underwater

55  
00:01:48,149 --> 00:01:45,119  
with these at much much greater rate of

56  
00:01:50,950 --> 00:01:48,159  
speed than would normally be possible

57  
00:01:53,190 --> 00:01:50,960  
with that kind of a system so

58  
00:01:54,950 --> 00:01:53,200  
i'm very very excited about the the

59  
00:01:57,190 --> 00:01:54,960  
technology that we're going to have and

60  
00:01:59,510 --> 00:01:57,200  
again it's been handed to us the

61  
00:02:02,230 --> 00:01:59,520  
military is handed to us and as i've

62  
00:02:03,270 --> 00:02:02,240  
said before salvatore pious translates

63  
00:02:06,389 --> 00:02:03,280

as

64

00:02:07,990 --> 00:02:06,399

savior of our nation salvatore

65

00:02:09,109 --> 00:02:08,000

savior pious i'm not sure how to

66

00:02:11,430 --> 00:02:09,119

pronounce it i'm sorry i'm probably

67

00:02:12,790 --> 00:02:11,440

mangling it pious means nation or

68

00:02:14,949 --> 00:02:12,800

country

69

00:02:16,550 --> 00:02:14,959

so why would the military save our

70

00:02:18,150 --> 00:02:16,560

country by releasing these patents well

71

00:02:20,390 --> 00:02:18,160

i think it's pretty obvious

72

00:02:22,790 --> 00:02:20,400

we've talked about space force i've done

73

00:02:24,630 --> 00:02:22,800

a lot of other videos suggesting that

74

00:02:25,910 --> 00:02:24,640

this forbidden technology is going to be

75

00:02:29,750 --> 00:02:25,920

part of what

76

00:02:33,670 --> 00:02:31,110

when you get into

77

00:02:36,150 --> 00:02:33,680

the work of dr kenneth shoulders and his

78

00:02:37,670 --> 00:02:36,160

amazing charge cluster technology which

79

00:02:39,270 --> 00:02:37,680

is probably

80

00:02:41,750 --> 00:02:39,280

it's one of the main contenders of what

81

00:02:43,430 --> 00:02:41,760

we're going to use to build hover cars

82

00:02:45,110 --> 00:02:43,440

because you can create anti-gravity with

83

00:02:47,190 --> 00:02:45,120

these little things it turns out that if

84

00:02:48,869 --> 00:02:47,200

you send electrical current sorry i'm

85

00:02:51,270 --> 00:02:48,879

jumping around a little bit but hang in

86

00:02:52,550 --> 00:02:51,280

with me if you send electrical current

87

00:02:54,150 --> 00:02:52,560

down a needle

88

00:02:56,790 --> 00:02:54,160

and it comes off the point of the needle

89

00:02:58,550 --> 00:02:56,800

you get this little ball of energy

90

00:03:00,630 --> 00:02:58,560

and the ball of energy

91

00:03:03,550 --> 00:03:00,640

has all these very strange properties

92

00:03:05,750 --> 00:03:03,560

that shouldn't happen it has way more

93

00:03:07,190 --> 00:03:05,760

electrostatic charge than it normally

94

00:03:09,190 --> 00:03:07,200

would

95

00:03:10,790 --> 00:03:09,200

so it's got much much greater energy in

96

00:03:12,869 --> 00:03:10,800

a much smaller package than it normally

97

00:03:14,390 --> 00:03:12,879

would and it repels gravity

98

00:03:15,750 --> 00:03:14,400

plus if you generate these charge

99

00:03:18,149 --> 00:03:15,760

clusters and you pass them through

100

00:03:19,350 --> 00:03:18,159

radioactive material you de-radiate the

101  
00:03:21,030 --> 00:03:19,360  
material

102  
00:03:23,910 --> 00:03:21,040  
so when we start using charge cluster

103  
00:03:25,670 --> 00:03:23,920  
technology we get free energy

104  
00:03:27,910 --> 00:03:25,680  
because these things if you generate a

105  
00:03:29,910 --> 00:03:27,920  
whole bunch of them you get a lot of

106  
00:03:31,670 --> 00:03:29,920  
free energy out of it you know more than

107  
00:03:33,110 --> 00:03:31,680  
it seems to take to generate which is

108  
00:03:34,630 --> 00:03:33,120  
really true

109  
00:03:36,470 --> 00:03:34,640  
that's just the nature of how charge

110  
00:03:38,149 --> 00:03:36,480  
clusters form they attract more energy

111  
00:03:40,550 --> 00:03:38,159  
than it takes to make them

112  
00:03:42,550 --> 00:03:40,560  
and then they emanate that energy

113  
00:03:44,869 --> 00:03:42,560

so they they generate

114

00:03:47,110 --> 00:03:44,879

energy they generate a gravitational

115

00:03:48,470 --> 00:03:47,120

pull that they you can either push or

116

00:03:49,990 --> 00:03:48,480

pull with it

117

00:03:51,670 --> 00:03:50,000

and they uh

118

00:03:54,149 --> 00:03:51,680

they also

119

00:03:56,550 --> 00:03:54,159

are again

120

00:03:59,030 --> 00:03:56,560

de-radiating radioactive material when

121

00:04:00,789 --> 00:03:59,040

you pass it through the material so

122

00:04:01,990 --> 00:04:00,799

the the uh as i've talked about in other

123

00:04:03,350 --> 00:04:02,000

videos i'm not going to run through all

124

00:04:05,670 --> 00:04:03,360

of it again

125

00:04:08,309 --> 00:04:05,680

um there have been these declassified

126  
00:04:10,229 --> 00:04:08,319  
patents filed by a man apparently named

127  
00:04:13,830 --> 00:04:10,239  
salvatore pius

128  
00:04:16,150 --> 00:04:13,840  
patented

129  
00:04:17,590 --> 00:04:16,160  
a compact fusion reactor

130  
00:04:19,030 --> 00:04:17,600  
that's all these little needles that

131  
00:04:21,349 --> 00:04:19,040  
whirl around which is how you make

132  
00:04:23,830 --> 00:04:21,359  
charge clusters okay

133  
00:04:25,670 --> 00:04:23,840  
and and that is the that is the power

134  
00:04:27,590 --> 00:04:25,680  
system you could drop in the thing the

135  
00:04:29,270 --> 00:04:27,600  
other thing i talked about before is

136  
00:04:31,510 --> 00:04:29,280  
that the hawk craft

137  
00:04:33,350 --> 00:04:31,520  
is like a peanut so there's a nut inside

138  
00:04:35,830 --> 00:04:33,360

and then a shell on the outside and that

139

00:04:37,909 --> 00:04:35,840

hollow area between the interior hull

140

00:04:39,270 --> 00:04:37,919

and the exterior hull there's all these

141

00:04:41,590 --> 00:04:39,280

little needles where they can generate

142

00:04:43,189 --> 00:04:41,600

the charge clusters so you generate them

143

00:04:45,270 --> 00:04:43,199

and then you steer them

144

00:04:46,469 --> 00:04:45,280

and by first generating them you then

145

00:04:48,629 --> 00:04:46,479

point them where you want to go and

146

00:04:50,150 --> 00:04:48,639

that's how you get anti-gravity so

147

00:04:52,310 --> 00:04:50,160

because i am working on hover car

148

00:04:53,670 --> 00:04:52,320

technology right now i'm not joking i'm

149

00:04:55,670 --> 00:04:53,680

not going to talk about it until we've

150

00:04:57,590 --> 00:04:55,680

got something for you but we're getting

151

00:04:59,110 --> 00:04:57,600

pretty close

152

00:05:01,029 --> 00:04:59,120

once we get to that point i can talk a

153

00:05:02,469 --> 00:05:01,039

lot more but uh

154

00:05:04,230 --> 00:05:02,479

several of pete peterson's former

155

00:05:06,230 --> 00:05:04,240

associates i'm working with on this and

156

00:05:08,870 --> 00:05:06,240

it's very very real

157

00:05:11,270 --> 00:05:08,880

uh we expect that once we get financed

158

00:05:13,270 --> 00:05:11,280

hopefully that we'll have an operational

159

00:05:14,710 --> 00:05:13,280

working prototype within one year and

160

00:05:16,870 --> 00:05:14,720

that we could go into mass production

161

00:05:19,029 --> 00:05:16,880

within four years where you will have a
