

JASON CARIGNAN

1
00:00:23,910 --> 00:00:21,910

[Music]

2
00:00:26,390 --> 00:00:23,920

welcome back to another episode of uap

3
00:00:28,070 --> 00:00:26,400

studies i'm jason and uh joining us

4
00:00:29,669 --> 00:00:28,080

again is louis borges how are you doing

5
00:00:31,509 --> 00:00:29,679

louie i'm doing really good brother

6
00:00:33,430 --> 00:00:31,519

thanks for having me again and uh super

7
00:00:35,430 --> 00:00:33,440

excited about our guest he's proudly

8
00:00:37,270 --> 00:00:35,440

canadian guest

9
00:00:39,830 --> 00:00:37,280

got a big resume of things he's involved

10
00:00:41,510 --> 00:00:39,840

with all very noble and uh positive

11
00:00:43,670 --> 00:00:41,520

things and he's a really good source of

12
00:00:46,790 --> 00:00:43,680

information especially being a member of

13
00:00:48,310 --> 00:00:46,800

mufon so uh uh yeah we'll toss it back

14

00:00:50,310 --> 00:00:48,320

to you let's intro our guess and let's

15

00:00:52,310 --> 00:00:50,320

get right into it perfect jason has been

16

00:00:54,950 --> 00:00:52,320

somebody uh that i've become friends

17

00:00:57,670 --> 00:00:54,960

with uh but long distance and uh

18

00:01:00,229 --> 00:00:57,680

supposedly not supposedly he helped me

19

00:01:02,470 --> 00:01:00,239

initially uh when i first joined mufon

20

00:01:05,429 --> 00:01:02,480

he's trained me he's uh my source

21

00:01:07,190 --> 00:01:05,439

whenever i get stuck on anything and as

22

00:01:09,030 --> 00:01:07,200

of late i've been really behind on my

23

00:01:11,190 --> 00:01:09,040

investigations with

24

00:01:13,190 --> 00:01:11,200

i've been really mad at that so i need

25

00:01:15,270 --> 00:01:13,200

to get my butt back in shape uh but

26

00:01:17,429 --> 00:01:15,280

jason was also one of my first guests on

27

00:01:19,350 --> 00:01:17,439

the podcast and um

28

00:01:21,590 --> 00:01:19,360

when i asked him you know i got a

29

00:01:23,350 --> 00:01:21,600

podcast would you be honest sir he's

30

00:01:25,030 --> 00:01:23,360

like absolutely

31

00:01:27,590 --> 00:01:25,040

that's how i felt when i first started

32

00:01:30,469 --> 00:01:27,600

just this uh puny little dude trying to

33

00:01:32,230 --> 00:01:30,479

do a podcast uh and jason was gracious

34

00:01:34,630 --> 00:01:32,240

enough to uh come on and be one of my

35

00:01:36,069 --> 00:01:34,640

first guests and he's come on since uh a

36

00:01:38,390 --> 00:01:36,079

few times i think this is your third

37

00:01:41,910 --> 00:01:38,400

time jason on the podcast

38

00:01:44,069 --> 00:01:41,920

that's right yeah and uh so jason i one

39

00:01:45,749 --> 00:01:44,079

of the things that i always get into

40

00:01:47,590 --> 00:01:45,759

with any investigators and this is for

41

00:01:49,109 --> 00:01:47,600

the people that haven't uh heard your

42

00:01:51,350 --> 00:01:49,119

other episodes yet

43

00:01:53,830 --> 00:01:51,360

but what got you initially interested in

44

00:01:55,510 --> 00:01:53,840

the topic of of

45

00:01:56,310 --> 00:01:55,520

uaps

46

00:01:58,950 --> 00:01:56,320

what

47

00:02:00,709 --> 00:01:58,960

initiated that for you

48

00:02:03,429 --> 00:02:00,719

it all started with a book i found in

49

00:02:04,950 --> 00:02:03,439

the library at school when i was a kid

50

00:02:06,789 --> 00:02:04,960

there was a

51
00:02:09,029 --> 00:02:06,799
book on the shelf i was really into

52
00:02:09,830 --> 00:02:09,039
mysterious things like

53
00:02:17,110 --> 00:02:09,840
that

54
00:02:19,910 --> 00:02:17,120
the loch ness monster or the bermuda

55
00:02:22,630 --> 00:02:19,920
triangle things like that that really

56
00:02:24,710 --> 00:02:22,640
captured my imagination and it was like

57
00:02:26,470 --> 00:02:24,720
public school i i don't i can't remember

58
00:02:28,949 --> 00:02:26,480
exactly what grade i was in i think i

59
00:02:31,270 --> 00:02:28,959
was like grade three maybe grade two

60
00:02:32,949 --> 00:02:31,280
maybe even grade four i'm not 100 sure

61
00:02:35,670 --> 00:02:32,959
but i was right young

62
00:02:37,750 --> 00:02:35,680
and there was a section in our school

63
00:02:40,630 --> 00:02:37,760

library and had all these different

64

00:02:41,750 --> 00:02:40,640

types of books and one was about ufos

65

00:02:43,589 --> 00:02:41,760

and

66

00:02:46,949 --> 00:02:43,599

i picked that up

67

00:02:48,550 --> 00:02:46,959

and it's become a lifelong obsession

68

00:02:49,589 --> 00:02:48,560

ever since really

69

00:02:53,589 --> 00:02:49,599

i haven't

70

00:02:54,790 --> 00:02:53,599

down since then

71

00:02:56,949 --> 00:02:54,800

and what was it about the book

72

00:02:59,830 --> 00:02:56,959

specifically that that triggered it for

73

00:03:02,630 --> 00:02:59,840

you that sort of cemented it for you

74

00:03:06,149 --> 00:03:02,640

it was the thought that there's other

75

00:03:06,949 --> 00:03:06,159

life out there because

76

00:03:10,309 --> 00:03:06,959

when

77

00:03:11,509 --> 00:03:10,319

overactive imagination

78

00:03:13,830 --> 00:03:11,519

and

79

00:03:16,710 --> 00:03:13,840

something like that

80

00:03:20,309 --> 00:03:16,720

it was in a book so it seemed like it

81

00:03:21,830 --> 00:03:20,319

had to be real so it was um

82

00:03:26,949 --> 00:03:21,840

maybe

83

00:03:28,390 --> 00:03:26,959

like that that this is real so

84

00:03:30,789 --> 00:03:28,400

it just

85

00:03:33,110 --> 00:03:30,799

catapulted through that and i just

86

00:03:35,430 --> 00:03:33,120

became you could say obsessed with it

87

00:03:36,869 --> 00:03:35,440

afterwards trying to find if i could

88

00:03:40,149 --> 00:03:36,879

figure out

89

00:03:41,589 --> 00:03:40,159

if it was real or not

90

00:03:43,589 --> 00:03:41,599

how did that lead into you're getting

91

00:03:46,390 --> 00:03:43,599

interested in mufon and eventually

92

00:03:48,070 --> 00:03:46,400

becoming a member and now like chief you

93

00:03:50,229 --> 00:03:48,080

know investigator for mufon how did you

94

00:03:54,149 --> 00:03:50,239

transition from one to the other

95

00:03:57,429 --> 00:03:54,159

so i was doing my own investigations

96

00:04:00,550 --> 00:03:57,439

i would take out the library books and i

97

00:04:03,190 --> 00:04:00,560

would contact other libraries asking if

98

00:04:06,550 --> 00:04:03,200

they had newspapers from that area and

99

00:04:08,470 --> 00:04:06,560

this was before the internet was a thing

100

00:04:11,350 --> 00:04:08,480

in people's homes so it was a very

101
00:04:13,830 --> 00:04:11,360
tedious process and my mom would help me

102
00:04:15,190 --> 00:04:13,840
and it was just a matter of reaching out

103
00:04:16,550 --> 00:04:15,200
to these places to try to get

104
00:04:18,390 --> 00:04:16,560
information

105
00:04:20,469 --> 00:04:18,400
and i would keep all these little

106
00:04:21,990 --> 00:04:20,479
clippings i would get an envelope from

107
00:04:24,550 --> 00:04:22,000
some place and

108
00:04:26,870 --> 00:04:24,560
it would have whatever information they

109
00:04:29,189 --> 00:04:26,880
had or a photocopy of a page or

110
00:04:31,590 --> 00:04:29,199
something and

111
00:04:34,070 --> 00:04:31,600
i just kept doing that i just kept it

112
00:04:35,030 --> 00:04:34,080
sort of like a hobby as a child

113
00:04:36,870 --> 00:04:35,040

and

114

00:04:38,710 --> 00:04:36,880

as i got older that's when the internet

115

00:04:41,430 --> 00:04:38,720

became a thing and i was able to start

116

00:04:43,590 --> 00:04:41,440

looking into things for myself

117

00:04:45,909 --> 00:04:43,600

and i was doing my own full-on

118

00:04:48,310 --> 00:04:45,919

investigations just over the internet

119

00:04:49,749 --> 00:04:48,320

with the tools that we had then

120

00:04:52,870 --> 00:04:49,759

and uh

121

00:04:54,150 --> 00:04:52,880

it wasn't until about five years ago so

122

00:04:55,749 --> 00:04:54,160

that i actually

123

00:04:57,590 --> 00:04:55,759

got a hold of mufon

124

00:05:00,310 --> 00:04:57,600

i did so because

125

00:05:03,749 --> 00:05:00,320

i figured i'd have a more steady stream

126

00:05:06,070 --> 00:05:03,759

of access to these types of cases

127

00:05:08,390 --> 00:05:06,080

and i'd be able to come up with a better

128

00:05:12,230 --> 00:05:08,400

conclusion i would have more tools at my

129

00:05:15,990 --> 00:05:12,240

disposal disposal to use to find the

130

00:05:17,590 --> 00:05:16,000

secrets is so i thought

131

00:05:19,430 --> 00:05:17,600

but like

132

00:05:21,749 --> 00:05:19,440

crazy interesting stories like things

133

00:05:23,909 --> 00:05:21,759

that would just you know we all heard

134

00:05:25,830 --> 00:05:23,919

like the famous abduction cases and

135

00:05:28,390 --> 00:05:25,840

things like that that most people are

136

00:05:30,469 --> 00:05:28,400

aware of but being in a regional part of

137

00:05:33,029 --> 00:05:30,479

the world right you're you're in canada

138

00:05:34,710 --> 00:05:33,039

so it's mufon specifically here like i

139

00:05:37,029 --> 00:05:34,720

bet you you know a lot of our canadian

140

00:05:38,310 --> 00:05:37,039

listeners have no clue about half the

141

00:05:40,790 --> 00:05:38,320

stuff that's gone down in our own

142

00:05:42,790 --> 00:05:40,800

country so do you have anything uh that

143

00:05:45,350 --> 00:05:42,800

comes to mind in that regard well

144

00:05:47,350 --> 00:05:45,360

there's so many there's so many like

145

00:05:49,350 --> 00:05:47,360

it's not canadian specific but i

146

00:05:50,469 --> 00:05:49,360

remember the first time i read project

147

00:05:51,510 --> 00:05:50,479

serpo

148

00:05:59,510 --> 00:05:51,520

and

149

00:06:02,629 --> 00:05:59,520

encounters of the third kind was based

150

00:06:05,270 --> 00:06:02,639

off of this and it just

151
00:06:06,550 --> 00:06:05,280
your imagination runs wild you have to

152
00:06:09,590 --> 00:06:06,560
learn how to

153
00:06:12,150 --> 00:06:09,600
to dig through all of that kind of muck

154
00:06:14,790 --> 00:06:12,160
in this field and for sure decipher

155
00:06:16,790 --> 00:06:14,800
what's actually science fiction compared

156
00:06:17,510 --> 00:06:16,800
to what could be science fact

157
00:06:18,870 --> 00:06:17,520
but

158
00:06:21,510 --> 00:06:18,880
as for

159
00:06:23,029 --> 00:06:21,520
cases that like captivated me you could

160
00:06:25,189 --> 00:06:23,039
actually find most of them on the

161
00:06:27,510 --> 00:06:25,199
government of canada's website they have

162
00:06:28,710 --> 00:06:27,520
a good selection on there that you could

163
00:06:30,790 --> 00:06:28,720

review and

164

00:06:32,230 --> 00:06:30,800

you know they've been looked into by the

165

00:06:33,430 --> 00:06:32,240

rcmp

166

00:06:38,469 --> 00:06:33,440

and

167

00:06:39,510 --> 00:06:38,479

investigation outlets across the country

168

00:06:43,749 --> 00:06:39,520

so

169

00:06:44,710 --> 00:06:43,759

looking into these and if they still

170

00:06:46,469 --> 00:06:44,720

weren't able to come up with a

171

00:06:47,430 --> 00:06:46,479

conclusion then

172

00:06:48,629 --> 00:06:47,440

you know

173

00:06:51,670 --> 00:06:48,639

it gives you

174

00:06:54,469 --> 00:06:51,680

i thought i uh printed off the uh all

175

00:06:56,790 --> 00:06:54,479

the canadian ufos and stuff like that uh

176
00:06:58,950 --> 00:06:56,800
documentation that they released

177
00:07:01,270 --> 00:06:58,960
and i put it all in the books just to

178
00:07:02,710 --> 00:07:01,280
yeah they actually have some really good

179
00:07:05,909 --> 00:07:02,720
information there

180
00:07:08,469 --> 00:07:05,919
yeah absolutely um i think my favorite

181
00:07:11,430 --> 00:07:08,479
has to be clan lake

182
00:07:12,870 --> 00:07:11,440
clan lake north northwestern uh

183
00:07:13,990 --> 00:07:12,880
territories

184
00:07:16,230 --> 00:07:14,000
it was

185
00:07:16,950 --> 00:07:16,240
like i can't remember the exact date now

186
00:07:18,710 --> 00:07:16,960
but

187
00:07:21,830 --> 00:07:18,720
these two prospects where this

188
00:07:23,990 --> 00:07:21,840

prospector was out at the lake and some

189

00:07:26,070 --> 00:07:24,000

an object touched down but it hit the

190

00:07:27,990 --> 00:07:26,080

water and it did like this big spinning

191

00:07:28,950 --> 00:07:28,000

effect and there was spokes coming off

192

00:07:30,629 --> 00:07:28,960

of it

193

00:07:31,589 --> 00:07:30,639

and

194

00:07:32,870 --> 00:07:31,599

um

195

00:07:35,270 --> 00:07:32,880

he tried to

196

00:07:37,029 --> 00:07:35,280

go to where the the object crashed but

197

00:07:37,990 --> 00:07:37,039

he couldn't find anything in there and

198

00:07:43,510 --> 00:07:38,000

then

199

00:07:47,510 --> 00:07:43,520

investigation came about of it and

200

00:07:48,469 --> 00:07:47,520

you fast forward half a century to now

201
00:07:51,350 --> 00:07:48,479
and

202
00:07:52,629 --> 00:07:51,360
one of my friends mikey mcbrian he was

203
00:07:53,990 --> 00:07:52,639
part of that show

204
00:07:56,869 --> 00:07:54,000
ice pilots

205
00:07:58,869 --> 00:07:56,879
well he has his own plane and

206
00:08:00,869 --> 00:07:58,879
he actually went and flew out there he

207
00:08:03,350 --> 00:08:00,879
got a hold of me asking if i knew the

208
00:08:05,670 --> 00:08:03,360
exact crash landing area so

209
00:08:07,909 --> 00:08:05,680
i didn't know the exact area but he went

210
00:08:10,869 --> 00:08:07,919
out he went and scouted he touched down

211
00:08:12,710 --> 00:08:10,879
he went camping there and did a drone

212
00:08:14,469 --> 00:08:12,720
survey of the area and got all these

213
00:08:16,629 --> 00:08:14,479

pretty cool pictures and

214

00:08:19,270 --> 00:08:16,639

we were supposed to go up together me

215

00:08:21,830 --> 00:08:19,280

and him to go on to the site but then

216

00:08:23,189 --> 00:08:21,840

kovid hit and everything had to take a

217

00:08:26,469 --> 00:08:23,199

back burner

218

00:08:28,070 --> 00:08:26,479

nice and this was fairly recent then

219

00:08:30,150 --> 00:08:28,080

that me and him were going to go up

220

00:08:32,070 --> 00:08:30,160

there yeah or that does that yeah yeah

221

00:08:33,589 --> 00:08:32,080

this was fairly recent like within the

222

00:08:35,750 --> 00:08:33,599

last two years

223

00:08:37,670 --> 00:08:35,760

okay we were supposed to go up there but

224

00:08:38,550 --> 00:08:37,680

yeah this sighting actually took place

225

00:08:41,269 --> 00:08:38,560

like

226

00:08:42,790 --> 00:08:41,279

i want to say the late 50s i'm not

227

00:08:45,750 --> 00:08:42,800

entirely sure i can't recall off the top

228

00:08:48,550 --> 00:08:45,760

of my head but it's pretty interesting

229

00:08:50,870 --> 00:08:48,560

yeah because canada's had some pretty uh

230

00:08:51,990 --> 00:08:50,880

good cases as well i mean we

231

00:08:53,829 --> 00:08:52,000

a lot of us

232

00:08:55,430 --> 00:08:53,839

fixate on what took place in the states

233

00:08:57,509 --> 00:08:55,440

because the states let's face it has had

234

00:08:58,870 --> 00:08:57,519

a lot of activity and they're trying to

235

00:09:00,470 --> 00:08:58,880

keep it secret they're doing a horrible

236

00:09:03,030 --> 00:09:00,480

job at it because you know all that

237

00:09:04,949 --> 00:09:03,040

information is out there but canada uh

238

00:09:08,389 --> 00:09:04,959

you know the falcon lake incident was is

239

00:09:10,550 --> 00:09:08,399

pretty big uh that was kind of like our

240

00:09:12,630 --> 00:09:10,560

you know roswell of canada

241

00:09:16,070 --> 00:09:12,640

pretty much case right and then the one

242

00:09:18,230 --> 00:09:16,080

in was it shag harbor uh yeah yeah

243

00:09:20,150 --> 00:09:18,240

nova scotia that one was witnessed by

244

00:09:22,470 --> 00:09:20,160

you know hundreds of people so

245

00:09:24,710 --> 00:09:22,480

we've had you know our own cases in

246

00:09:26,389 --> 00:09:24,720

canada that uh rival some of what took

247

00:09:28,630 --> 00:09:26,399

place in the states

248

00:09:30,949 --> 00:09:28,640

and still till today we still have what

249

00:09:33,670 --> 00:09:30,959

norad and stuff like that that trace

250

00:09:35,829 --> 00:09:33,680

uaps coming from the north you know from

251
00:09:38,949 --> 00:09:35,839
alaska traveling all the way down to the

252
00:09:41,509 --> 00:09:38,959
states so uh you know they cross canada

253
00:09:43,910 --> 00:09:41,519
canada is a very active place so yeah

254
00:09:47,590 --> 00:09:43,920
there's even one in the the new uh

255
00:09:50,310 --> 00:09:47,600
2021 canadian ufo survey that that that

256
00:09:52,790 --> 00:09:50,320
exact trajectory from alaska towards

257
00:09:55,350 --> 00:09:52,800
minnesota that it was reported by a

258
00:09:58,230 --> 00:09:55,360
pilot right

259
00:09:59,110 --> 00:09:58,240
no um the other question that i wanted

260
00:10:01,750 --> 00:09:59,120
to

261
00:10:04,870 --> 00:10:01,760
sort of look at as well is the canadian

262
00:10:07,190 --> 00:10:04,880
ufo survey 2021 which you just uh told

263
00:10:07,910 --> 00:10:07,200

me about yesterday got released

264

00:10:11,430 --> 00:10:07,920

so

265

00:10:13,509 --> 00:10:11,440

anything juicy about this uh survey

266

00:10:16,630 --> 00:10:13,519

well there was

267

00:10:18,949 --> 00:10:16,640

i think 700 i got it right here

268

00:10:20,350 --> 00:10:18,959

let me just dig into this here

269

00:10:22,949 --> 00:10:20,360

i think it's

270

00:10:25,910 --> 00:10:22,959

722 cases

271

00:10:28,949 --> 00:10:25,920

reported all across canada for last year

272

00:10:30,470 --> 00:10:28,959

and that that that's a big undertaking

273

00:10:32,630 --> 00:10:30,480

itself having to collect that

274

00:10:34,550 --> 00:10:32,640

information you know because there's all

275

00:10:35,910 --> 00:10:34,560

these little satellite groups across the

276
00:10:36,710 --> 00:10:35,920
country

277
00:10:40,150 --> 00:10:36,720
that

278
00:10:43,190 --> 00:10:40,160
don't post

279
00:10:45,430 --> 00:10:43,200
exactly uh the report they just give

280
00:10:47,509 --> 00:10:45,440
like a quick synopsis of what took place

281
00:10:51,430 --> 00:10:47,519
or there's people that post something on

282
00:10:54,630 --> 00:10:51,440
facebook and a guy's hobby as collecting

283
00:10:57,110 --> 00:10:54,640
ufo reports takes the report so

284
00:10:58,790 --> 00:10:57,120
trying to go across and contact all

285
00:11:00,710 --> 00:10:58,800
these different

286
00:11:02,069 --> 00:11:00,720
research organizations across the

287
00:11:06,069 --> 00:11:02,079
country is a huge

288
00:11:08,870 --> 00:11:06,079

uh undertaking in itself right and

289

00:11:10,310 --> 00:11:08,880

having to compile all that data as well

290

00:11:12,230 --> 00:11:10,320

is another

291

00:11:13,110 --> 00:11:12,240

big undertaking

292

00:11:15,350 --> 00:11:13,120

but

293

00:11:19,829 --> 00:11:15,360

for what was reported to these agencies

294

00:11:20,790 --> 00:11:19,839

there were 722 cases that were reported

295

00:11:22,630 --> 00:11:20,800

and

296

00:11:24,470 --> 00:11:22,640

the survey is actually saying that that

297

00:11:27,030 --> 00:11:24,480

is a 42

298

00:11:29,750 --> 00:11:27,040

decrease from the year before

299

00:11:32,150 --> 00:11:29,760

and that the number of ufo sightings

300

00:11:35,110 --> 00:11:32,160

reported in canada for 2021 is the

301
00:11:36,630 --> 00:11:35,120
lowest since 20 uh or sorry

302
00:11:39,030 --> 00:11:36,640
2003

303
00:11:40,790 --> 00:11:39,040
so 20 years ago almost oh really

304
00:11:43,110 --> 00:11:40,800
yeah so

305
00:11:44,389 --> 00:11:43,120
let's go ahead sorry jay i i was going

306
00:11:46,949 --> 00:11:44,399
to say there's

307
00:11:49,269 --> 00:11:46,959
it's been a major drop then from 2020

308
00:11:51,350 --> 00:11:49,279
because that when we first had the uh

309
00:11:53,670 --> 00:11:51,360
kovid there was a lot more reports i

310
00:11:56,629 --> 00:11:53,680
guess people were at home more outside

311
00:11:58,470 --> 00:11:56,639
more and then it totally dropped is

312
00:12:00,230 --> 00:11:58,480
that relevant at all

313
00:12:01,750 --> 00:12:00,240

absolutely 100

314

00:12:04,150 --> 00:12:01,760

it was also

315

00:12:06,710 --> 00:12:04,160

a lot to do with starlink

316

00:12:08,790 --> 00:12:06,720

with our reports to mufon

317

00:12:13,590 --> 00:12:08,800

i'm going to say within the first year

318

00:12:15,670 --> 00:12:13,600

but by 2020 yeah 2020 to 2021

319

00:12:16,949 --> 00:12:15,680

i'm gonna say close to 40 percent of our

320

00:12:20,550 --> 00:12:16,959

reports

321

00:12:23,030 --> 00:12:22,069

which was huge

322

00:12:26,629 --> 00:12:23,040

yeah

323

00:12:28,710 --> 00:12:26,639

even on the move on site we have it

324

00:12:29,430 --> 00:12:28,720

right there when you first go on

325

00:12:31,110 --> 00:12:29,440

yeah

326

00:12:32,310 --> 00:12:31,120

how the satellites look like and if

327

00:12:34,790 --> 00:12:32,320

you've seen this you don't need to make

328

00:12:35,829 --> 00:12:34,800

a report uh we know what it is yeah

329

00:12:37,829 --> 00:12:35,839

exactly

330

00:12:40,389 --> 00:12:37,839

yeah i haven't actually seen them for

331

00:12:42,870 --> 00:12:40,399

myself yet i i've really yeah i haven't

332

00:12:44,470 --> 00:12:42,880

actually seen them oh wow yeah i used to

333

00:12:46,790 --> 00:12:44,480

do night watches i haven't done a night

334

00:12:49,110 --> 00:12:46,800

watch in like a year and a half but

335

00:12:51,509 --> 00:12:49,120

i i i was hoping to see them but i've

336

00:12:54,870 --> 00:12:51,519

never had is it a is it a collection of

337

00:12:57,670 --> 00:12:54,880

uh satellites or just one yeah up to 40.

338

00:12:59,670 --> 00:12:57,680

40. yeah all in a row so it was like a

339

00:13:02,150 --> 00:12:59,680

crosstalk belt just ripping through the

340

00:13:04,470 --> 00:13:02,160

sky kind of thing yeah pretty much wow

341

00:13:06,230 --> 00:13:04,480

that's awesome yeah yes pissing off a

342

00:13:07,990 --> 00:13:06,240

lot of astronomers though because it's

343

00:13:10,230 --> 00:13:08,000

ruining their view of the night sky

344

00:13:12,949 --> 00:13:10,240

right or your time lapse that you've got

345

00:13:15,110 --> 00:13:12,959

eight hours into you know yeah yeah and

346

00:13:16,790 --> 00:13:15,120

then your friend used to do a streak

347

00:13:18,629 --> 00:13:16,800

yeah everybody used to do time lapses

348

00:13:20,629 --> 00:13:18,639

and like if i even as much as close the

349

00:13:22,230 --> 00:13:20,639

door in the house he said it would do

350

00:13:24,389 --> 00:13:22,240

something to the image and it wouldn't

351

00:13:26,470 --> 00:13:24,399

be like you literally had to set it and

352

00:13:28,310 --> 00:13:26,480

then like leave the house and don't open

353

00:13:30,150 --> 00:13:28,320

a window don't close the door

354

00:13:32,790 --> 00:13:30,160

no movement whatsoever if you want to

355

00:13:35,110 --> 00:13:32,800

have that proper long exposure right so

356

00:13:36,389 --> 00:13:35,120

wow yeah it would piss those guys off

357

00:13:38,150 --> 00:13:36,399

for sure because he was a bit of not

358

00:13:39,670 --> 00:13:38,160

with that so

359

00:13:41,350 --> 00:13:39,680

and not to mention

360

00:13:43,750 --> 00:13:41,360

these satellites aren't following all

361

00:13:45,590 --> 00:13:43,760

the same trajectory so there's times in

362

00:13:48,470 --> 00:13:45,600

the little crisscross

363

00:13:51,590 --> 00:13:48,480

and it'll make it look like something is

364

00:13:54,069 --> 00:13:51,600

exploding in the sky slowly but you got

365

00:13:56,069 --> 00:13:54,079

four objects descending from a center

366

00:13:58,470 --> 00:13:56,079

point all taking off in its own

367

00:14:00,150 --> 00:13:58,480

direction so it really tricks people's

368

00:14:01,509 --> 00:14:00,160

minds at the same time as to what

369

00:14:03,590 --> 00:14:01,519

they're seeing

370

00:14:05,590 --> 00:14:03,600

especially if there's cloud cover

371

00:14:07,189 --> 00:14:05,600

and you're just seeing this object

372

00:14:09,269 --> 00:14:07,199

popping in and out then all of a sudden

373

00:14:12,550 --> 00:14:09,279

there's another one beside it

374

00:14:14,949 --> 00:14:12,560

it really really trips people out

375

00:14:16,310 --> 00:14:14,959

do you have um like any advice for

376

00:14:17,910 --> 00:14:16,320

people that want to start doing night

377

00:14:19,030 --> 00:14:17,920

watches on not getting tricked by

378

00:14:20,389 --> 00:14:19,040

satellites

379

00:14:22,069 --> 00:14:20,399

because that's the one thing that get

380

00:14:25,269 --> 00:14:22,079

the people get tricked on do you have

381

00:14:27,269 --> 00:14:25,279

any advice or tips to kind of

382

00:14:29,829 --> 00:14:27,279

know when you're looking at one

383

00:14:32,230 --> 00:14:29,839

yeah anybody that's doing a night watch

384

00:14:34,230 --> 00:14:32,240

or eve or even just

385

00:14:37,430 --> 00:14:34,240

observing the night sky and they want to

386

00:14:39,670 --> 00:14:37,440

be more familiar download stellarium

387

00:14:41,829 --> 00:14:39,680

it's a free app you can put on your

388

00:14:44,150 --> 00:14:41,839

phone your ipad whatever

389

00:14:45,670 --> 00:14:44,160

and it's in real time you just point it

390

00:14:47,430 --> 00:14:45,680

at whatever you're seeing and it tells

391

00:14:49,590 --> 00:14:47,440

you what it is

392

00:14:50,949 --> 00:14:49,600

yeah i've used the app myself i think

393

00:14:53,030 --> 00:14:50,959

it's brilliant

394

00:14:55,590 --> 00:14:53,040

yeah and sometimes

395

00:14:56,790 --> 00:14:55,600

you know there there's satellites that

396

00:14:59,670 --> 00:14:56,800

aren't

397

00:15:02,629 --> 00:14:59,680

named on there so they could be like

398

00:15:05,430 --> 00:15:02,639

secret usa satellites or russian even

399

00:15:08,069 --> 00:15:05,440

who knows but yeah they're supposed to

400

00:15:10,230 --> 00:15:08,079

be disguised or whatnot but so it won't

401
00:15:11,670 --> 00:15:10,240
come up with a name but it's still a

402
00:15:14,470 --> 00:15:11,680
satellite you can still tell it's a

403
00:15:17,430 --> 00:15:14,480
satellite right that's another thing too

404
00:15:19,750 --> 00:15:17,440
is satellites don't you know go directly

405
00:15:21,829 --> 00:15:19,760
left straight up straight to the right

406
00:15:23,750 --> 00:15:21,839
again and then like they don't make 90

407
00:15:25,430 --> 00:15:23,760
degree turns they don't stop on a dime

408
00:15:27,430 --> 00:15:25,440
and go the opposite direction they have

409
00:15:29,990 --> 00:15:27,440
a trajectory it's just you know whatever

410
00:15:31,749 --> 00:15:30,000
the speed is it's it's consistent it's

411
00:15:34,550 --> 00:15:31,759
not it's like you know they're not going

412
00:15:36,949 --> 00:15:34,560
to go fast and stop and then drop down

413
00:15:39,509 --> 00:15:36,959

and then rip out again right so no no

414

00:15:40,629 --> 00:15:39,519

exactly the right time it's a giveaway

415

00:15:42,870 --> 00:15:40,639

yeah the only time that you're going to

416

00:15:46,629 --> 00:15:42,880

see a trajectory change is pretty much

417

00:15:48,870 --> 00:15:46,639

with starlink when after they deploy

418

00:15:49,829 --> 00:15:48,880

there's like the string of like up to 40

419

00:15:52,069 --> 00:15:49,839

of them

420

00:15:54,790 --> 00:15:52,079

and once they start breaking out from

421

00:15:58,069 --> 00:15:54,800

that string they're heading off to their

422

00:16:00,150 --> 00:15:58,079

final orbit so you might see some

423

00:16:02,150 --> 00:16:00,160

slowly breaking off from the chain or

424

00:16:06,230 --> 00:16:02,160

whatnot but

425

00:16:10,870 --> 00:16:08,389

so as far as the canadian survey is

426

00:16:13,590 --> 00:16:10,880

concerned we've had a major drop then uh

427

00:16:15,910 --> 00:16:13,600

last year in sightings out of the 700

428

00:16:19,269 --> 00:16:15,920

has there been really good cases or is

429

00:16:21,749 --> 00:16:19,279

this basically just everything from afar

430

00:16:24,550 --> 00:16:21,759

um well we have some some really

431

00:16:27,350 --> 00:16:24,560

credible witness reports from pilots

432

00:16:29,829 --> 00:16:27,360

which is which are always interesting

433

00:16:31,590 --> 00:16:29,839

always interesting cases because

434

00:16:32,550 --> 00:16:31,600

it comes down to the whole tic tac

435

00:16:35,030 --> 00:16:32,560

sighting

436

00:16:35,990 --> 00:16:35,040

you got a trained observer reporting

437

00:16:39,509 --> 00:16:36,000

this

438

00:16:41,829 --> 00:16:39,519

and he has real-time access to the air

439

00:16:43,590 --> 00:16:41,839

traffic control to confirm if they can

440

00:16:45,829 --> 00:16:43,600

see anything as well

441

00:16:47,749 --> 00:16:45,839

and when they tell you yeah no we're not

442

00:16:48,710 --> 00:16:47,759

seeing anything then you know there's

443

00:16:51,990 --> 00:16:48,720

something

444

00:16:54,069 --> 00:16:52,000

at

445

00:16:56,629 --> 00:16:54,079

right and you mentioned there was a case

446

00:16:59,030 --> 00:16:56,639

here in langley i think

447

00:17:00,790 --> 00:16:59,040

two years ago where a pilot had seen

448

00:17:02,949 --> 00:17:00,800

something in the sky as well reported it

449

00:17:05,270 --> 00:17:02,959

to the tower tower said they didn't see

450

00:17:07,909 --> 00:17:05,280

anything on it but it was quite close in

451

00:17:09,909 --> 00:17:07,919

proximity to this uh pilot and i forgot

452

00:17:10,789 --> 00:17:09,919

if it was an orb of some kind that he

453

00:17:13,110 --> 00:17:10,799

saw

454

00:17:15,590 --> 00:17:13,120

but i remember that being a big case

455

00:17:17,429 --> 00:17:15,600

here in bc and i wanted to look into it

456

00:17:19,669 --> 00:17:17,439

i didn't i was again people i've been

457

00:17:22,309 --> 00:17:19,679

lazy on my investigation so if you think

458

00:17:24,069 --> 00:17:22,319

that i'm active i am not i haven't been

459

00:17:26,870 --> 00:17:24,079

for a little bit so

460

00:17:30,310 --> 00:17:26,880

bad on me shame on me but uh i i'm still

461

00:17:32,789 --> 00:17:30,320

uh interested in in local cases for sure

462

00:17:33,990 --> 00:17:32,799

yeah i had one last october actually i

463

00:17:35,990 --> 00:17:34,000

didn't even know what the hell was going

464

00:17:37,830 --> 00:17:36,000

on i sent jason the pictures like is

465

00:17:39,990 --> 00:17:37,840

this legit like we have a windstorm

466

00:17:41,590 --> 00:17:40,000

right now i can barely hold my phone

467

00:17:44,070 --> 00:17:41,600

planes are grounded and there's an

468

00:17:46,390 --> 00:17:44,080

orange orb that stayed in the same spot

469

00:17:48,870 --> 00:17:46,400

for 45 minutes he used all the apps and

470

00:17:50,230 --> 00:17:48,880

checked for air traffic and so we had

471

00:17:51,909 --> 00:17:50,240

we've got pictures and video and this

472

00:17:54,789 --> 00:17:51,919

was last october out in the fraser

473

00:17:55,830 --> 00:17:54,799

valley in british columbia so oh wow oh

474

00:17:59,430 --> 00:17:55,840

yeah

475

00:18:02,230 --> 00:17:59,440

question for you jay because you are a

476

00:18:04,230 --> 00:18:02,240

drone expert pretty much at this point

477

00:18:06,950 --> 00:18:04,240

uh that that's what you do you work with

478

00:18:09,590 --> 00:18:06,960

drones you work at the mines you do uh

479

00:18:10,870 --> 00:18:09,600

surveying if i'm not mistaken of the

480

00:18:11,590 --> 00:18:10,880

land uh

481

00:18:14,549 --> 00:18:11,600

so

482

00:18:16,630 --> 00:18:14,559

really get pissed off when people say

483

00:18:17,909 --> 00:18:16,640

that uh it's a drone

484

00:18:19,350 --> 00:18:17,919

because in the conditions that uh

485

00:18:21,750 --> 00:18:19,360

louie's talking about because we live

486

00:18:23,669 --> 00:18:21,760

close to each other it was so windy that

487

00:18:25,750 --> 00:18:23,679

night there was no way the planes could

488

00:18:28,150 --> 00:18:25,760

fly everybody hold my phone like to get

489

00:18:30,230 --> 00:18:28,160

a still image was really really tough

490

00:18:32,150 --> 00:18:30,240

yeah i was using like street lights in

491

00:18:34,630 --> 00:18:32,160

the city down below i live on top of a

492

00:18:36,230 --> 00:18:34,640

mountain so my view is a couple hundred

493

00:18:38,390 --> 00:18:36,240

kilometers from end to end like i can

494

00:18:40,390 --> 00:18:38,400

see well into the us and about four

495

00:18:43,190 --> 00:18:40,400

different cities on the border part of

496

00:18:45,190 --> 00:18:43,200

canada here and uh yeah like it didn't

497

00:18:47,029 --> 00:18:45,200

move i was using lights down below as a

498

00:18:48,549 --> 00:18:47,039

reference point and it wasn't directly

499

00:18:50,470 --> 00:18:48,559

above it was like

500

00:18:53,669 --> 00:18:50,480

it wouldn't be 12 o'clock it would be

501
00:18:56,070 --> 00:18:53,679
like 11 55 it would just slightly askew

502
00:18:57,830 --> 00:18:56,080
to the left of the lower light and i

503
00:19:00,070 --> 00:18:57,840
kept using that as the reference and it

504
00:19:02,070 --> 00:19:00,080
didn't move at all and i mean even

505
00:19:04,390 --> 00:19:02,080
helicopters don't stay in the same spot

506
00:19:06,710 --> 00:19:04,400
for 45 minutes they're gonna search and

507
00:19:08,390 --> 00:19:06,720
there's no pulsing lights and i i got

508
00:19:10,710 --> 00:19:08,400
some up close footage i use night

509
00:19:12,789 --> 00:19:10,720
filters on my phone some pictures it

510
00:19:15,669 --> 00:19:12,799
just looks like a plasma it seems to

511
00:19:17,029 --> 00:19:15,679
have a different aspect every photo

512
00:19:18,070 --> 00:19:17,039
and when you use the night vision

513
00:19:20,230 --> 00:19:18,080

filters

514

00:19:23,750 --> 00:19:20,240

it looked like saturn it looked like a

515

00:19:25,750 --> 00:19:23,760

round orb with like a hazy energy around

516

00:19:28,630 --> 00:19:25,760

it and like clearly defined it looked

517

00:19:30,470 --> 00:19:28,640

like a flying saucer in the sky

518

00:19:32,470 --> 00:19:30,480

wow it's pretty i would like to see

519

00:19:34,230 --> 00:19:32,480

those jason you guys gotta

520

00:19:36,390 --> 00:19:34,240

i'll hook you up for sure i didn't know

521

00:19:38,150 --> 00:19:36,400

what it was my wife is uh she gets

522

00:19:39,110 --> 00:19:38,160

scared of the ufo phenomena she thinks

523

00:19:40,789 --> 00:19:39,120

they are

524

00:19:42,870 --> 00:19:40,799

if they do come that we're all screwed

525

00:19:44,549 --> 00:19:42,880

so she didn't like it and i made a

526

00:19:46,150 --> 00:19:44,559

fleeting remark hey honey looks like a

527

00:19:47,669 --> 00:19:46,160

ufo because i'm always looking and

528

00:19:50,470 --> 00:19:47,679

jason's always telling me you live in a

529

00:19:51,990 --> 00:19:50,480

hot spot keep your eyes out and sure

530

00:19:54,230 --> 00:19:52,000

enough 20 minutes later it's still there

531

00:19:56,870 --> 00:19:54,240

and i thought that's bizarre like what

532

00:19:58,789 --> 00:19:56,880

plane and so i called jason gilman and

533

00:20:00,150 --> 00:19:58,799

i'm like buddy i'm not crazy right now

534

00:20:02,549 --> 00:20:00,160

but i think there's something going on

535

00:20:04,310 --> 00:20:02,559

so he's like take video take pictures

536

00:20:05,830 --> 00:20:04,320

like get off the phone with me

537

00:20:07,350 --> 00:20:05,840

i'm gonna see if there's any other air

538

00:20:09,750 --> 00:20:07,360

traffic right we ruled out all the

539

00:20:10,789 --> 00:20:09,760

obvious suspects right off the bat

540

00:20:12,230 --> 00:20:10,799

and uh

541

00:20:14,630 --> 00:20:12,240

i mean you're the expert jay what do you

542

00:20:18,230 --> 00:20:14,640

think man is that a uap or what

543

00:20:25,430 --> 00:20:20,950

no um i'll tell you this

544

00:20:27,990 --> 00:20:25,440

a good app to use is called windy.com

545

00:20:31,029 --> 00:20:28,000

it'll tell you your wind speeds and and

546

00:20:35,029 --> 00:20:31,039

that'll give you a good gauge to tell if

547

00:20:37,510 --> 00:20:35,039

a drone can be in the air because on

548

00:20:39,909 --> 00:20:37,520

that app you have the ability to check

549

00:20:42,549 --> 00:20:39,919

not only the surface wind

550

00:20:43,270 --> 00:20:42,559

but at elevations as well you could

551
00:20:45,830 --> 00:20:43,280
check

552
00:20:47,669 --> 00:20:45,840
it's up to 20 000 feet or

553
00:20:49,669 --> 00:20:47,679
where the planes are flying you could

554
00:20:51,270 --> 00:20:49,679
check what the wind speed is up there

555
00:20:52,470 --> 00:20:51,280
wow so

556
00:20:54,310 --> 00:20:52,480
if it's

557
00:20:56,470 --> 00:20:54,320
screaming wind down here it doesn't

558
00:20:58,149 --> 00:20:56,480
necessarily mean that it's screaming

559
00:20:59,430 --> 00:20:58,159
when up there

560
00:21:01,029 --> 00:20:59,440
you know

561
00:21:05,029 --> 00:21:01,039
so that's something i always take a look

562
00:21:08,310 --> 00:21:05,039
into but as far as it being a drone

563
00:21:10,390 --> 00:21:08,320

so the capabilities right right now

564

00:21:12,870 --> 00:21:10,400

i have one drone

565

00:21:13,990 --> 00:21:12,880

that can stay in the sky for close to

566

00:21:17,190 --> 00:21:14,000

two hours

567

00:21:19,110 --> 00:21:17,200

that's a fixed wing drone it can't hover

568

00:21:20,870 --> 00:21:19,120

it's always got to move so it's

569

00:21:23,350 --> 00:21:20,880

basically just using wind current to

570

00:21:25,270 --> 00:21:23,360

stay afloat yeah

571

00:21:27,190 --> 00:21:25,280

that is

572

00:21:29,590 --> 00:21:27,200

like industrial

573

00:21:33,029 --> 00:21:29,600

level of technology

574

00:21:35,270 --> 00:21:33,039

for consumer level technology

575

00:21:37,909 --> 00:21:35,280

the best that we were seeing was

576
00:21:40,549 --> 00:21:37,919
probably around 25 minutes for what's

577
00:21:43,270 --> 00:21:40,559
called a dji phantom

578
00:21:45,669 --> 00:21:43,280
and they can handle wins it says up to

579
00:21:47,750 --> 00:21:45,679
70 kilometers per hour

580
00:21:49,750 --> 00:21:47,760
well i've flown in 70 kilometers per

581
00:21:51,750 --> 00:21:49,760
hour and that drone wasn't moving so i

582
00:21:54,149 --> 00:21:51,760
brought it i had to take it straight

583
00:21:56,470 --> 00:21:54,159
back down again in order to get below

584
00:22:00,230 --> 00:21:56,480
the wind and bring it back to me

585
00:22:01,990 --> 00:22:00,240
so i'd say up to 45

586
00:22:03,990 --> 00:22:02,000
50 pushing it

587
00:22:06,310 --> 00:22:04,000
the drone can stay

588
00:22:08,630 --> 00:22:06,320

relatively still

589

00:22:10,070 --> 00:22:08,640

in about yeah about 50 50 kilometer at

590

00:22:13,430 --> 00:22:10,080

winds

591

00:22:15,750 --> 00:22:13,440

for a normal normal-sized consumer drone

592

00:22:17,990 --> 00:22:15,760

now i have a really big drone it's

593

00:22:19,909 --> 00:22:18,000

called a matrice 300

594

00:22:20,789 --> 00:22:19,919

it could stay in the air for up to an

595

00:22:24,149 --> 00:22:20,799

hour

596

00:22:27,029 --> 00:22:24,159

and it can also combat winds up to about

597

00:22:30,549 --> 00:22:27,039

70 maybe 80 kilometers per hour

598

00:22:31,830 --> 00:22:30,559

and it has an internal gps

599

00:22:33,750 --> 00:22:31,840

that will

600

00:22:36,070 --> 00:22:33,760

hold it basically

601
00:22:38,390 --> 00:22:36,080
stationary like a statue pretty much the

602
00:22:39,669 --> 00:22:38,400
wind like it's going to be fighting so

603
00:22:40,950 --> 00:22:39,679
you're going to be able to see if you're

604
00:22:42,470 --> 00:22:40,960
physically looking at the drone you're

605
00:22:45,430 --> 00:22:42,480
going to be able to see

606
00:22:47,830 --> 00:22:45,440
it leaning towards but it's basically

607
00:22:50,310 --> 00:22:47,840
going to be staying right where you left

608
00:22:53,190 --> 00:22:50,320
it in the sky

609
00:22:55,350 --> 00:22:53,200
in order for a drone to do that it takes

610
00:22:57,909 --> 00:22:55,360
a lot of battery power to be fighting

611
00:23:02,390 --> 00:22:57,919
these winds to hold itself stationary

612
00:23:04,789 --> 00:23:02,400
right so if a drone has about an hour

613
00:23:06,390 --> 00:23:04,799

battery life and it's screaming wind

614

00:23:09,430 --> 00:23:06,400

outside and it's fighting the wind you

615

00:23:11,350 --> 00:23:09,440

can count that to be about half that

616

00:23:13,029 --> 00:23:11,360

battery life after

617

00:23:15,350 --> 00:23:13,039

you know it's not going to be able to

618

00:23:17,669 --> 00:23:15,360

stay up there the whole time well we we

619

00:23:19,750 --> 00:23:17,679

timed it as well i think uh

620

00:23:22,310 --> 00:23:19,760

well first of all it was probably

621

00:23:24,710 --> 00:23:22,320

25 kilometers away from where i was

622

00:23:27,590 --> 00:23:24,720

right it wasn't right in front of me and

623

00:23:30,070 --> 00:23:27,600

the size of it light emission wise it

624

00:23:32,310 --> 00:23:30,080

would have to be the size of like

625

00:23:34,310 --> 00:23:32,320

i don't know it's probably 30 40 feet

626
00:23:36,549 --> 00:23:34,320
because i mean i had houses and street

627
00:23:38,310 --> 00:23:36,559
lights down below as a reference point

628
00:23:40,070 --> 00:23:38,320
and it was probably

629
00:23:42,470 --> 00:23:40,080
you know if a street light was a pin

630
00:23:44,710 --> 00:23:42,480
prick it was probably 40 pin pricks you

631
00:23:45,990 --> 00:23:44,720
know so it was always substantial enough

632
00:23:48,710 --> 00:23:46,000
that the

633
00:23:50,149 --> 00:23:48,720
luminosity went that far you know i

634
00:23:51,990 --> 00:23:50,159
think if he was even uh because there

635
00:23:54,070 --> 00:23:52,000
was a helicopter that jason tracked and

636
00:23:56,070 --> 00:23:54,080
i could see it as he was tracking it and

637
00:23:58,470 --> 00:23:56,080
you could see the flashing light this

638
00:24:00,149 --> 00:23:58,480

tiny tiny flashing what a light compared

639

00:24:02,549 --> 00:24:00,159

to this orange so

640

00:24:04,390 --> 00:24:02,559

even um as far as what it was giving out

641

00:24:06,390 --> 00:24:04,400

in terms of lumens

642

00:24:08,390 --> 00:24:06,400

it was quite bright so and that's

643

00:24:11,350 --> 00:24:08,400

another thing i was going to say

644

00:24:13,830 --> 00:24:11,360

most drones don't have like standard

645

00:24:15,750 --> 00:24:13,840

consumer grade drones don't have high

646

00:24:16,870 --> 00:24:15,760

powered lights on it because it kills

647

00:24:17,669 --> 00:24:16,880

the battery

648

00:24:18,630 --> 00:24:17,679

yeah

649

00:24:22,870 --> 00:24:18,640

that

650

00:24:24,549 --> 00:24:22,880

or it adds weight to the drone as well

651
00:24:28,950 --> 00:24:24,559
and

652
00:24:31,590 --> 00:24:28,960
i have these third-party lights

653
00:24:33,830 --> 00:24:31,600
they're called loom cubes and you can

654
00:24:35,029 --> 00:24:33,840
control them from the ground

655
00:24:37,029 --> 00:24:35,039
from an app

656
00:24:39,909 --> 00:24:37,039
so you could have them as strobing or

657
00:24:42,310 --> 00:24:39,919
you can increase the luminosity all the

658
00:24:45,350 --> 00:24:42,320
way up to 3000 lumen

659
00:24:47,190 --> 00:24:45,360
so i have two of those which equals

660
00:24:49,269 --> 00:24:47,200
6000 lumen

661
00:24:51,990 --> 00:24:49,279
this thing looks like

662
00:24:53,350 --> 00:24:52,000
i don't know like a a spotlight coming

663
00:24:55,590 --> 00:24:53,360

down on you

664

00:24:58,390 --> 00:24:55,600

but even with light

665

00:25:01,350 --> 00:24:58,400

you you know it it washes out over a

666

00:25:04,070 --> 00:25:01,360

significant distance i'm not entirely

667

00:25:05,590 --> 00:25:04,080

sure what a landing light for a plane

668

00:25:07,830 --> 00:25:05,600

would be but it's going to be

669

00:25:09,830 --> 00:25:07,840

significantly higher than

670

00:25:12,070 --> 00:25:09,840

6000 lumen

671

00:25:14,630 --> 00:25:12,080

you know so to be able to see it that

672

00:25:16,789 --> 00:25:14,640

far of a distance is that's a lot of

673

00:25:19,110 --> 00:25:16,799

output that's a lot of energy being

674

00:25:20,470 --> 00:25:19,120

pushed out from that bulb if it's a

675

00:25:22,630 --> 00:25:20,480

light bulb

676

00:25:24,549 --> 00:25:22,640

yeah and the way that it was just

677

00:25:26,710 --> 00:25:24,559

fixated in the sky

678

00:25:28,310 --> 00:25:26,720

with the windy conditions that we had if

679

00:25:30,470 --> 00:25:28,320

it was a plane that plane would have

680

00:25:31,430 --> 00:25:30,480

shifted and i mean we timed it it was a

681

00:25:33,830 --> 00:25:31,440

good

682

00:25:35,990 --> 00:25:33,840

45 minutes and there's no strobing

683

00:25:38,630 --> 00:25:36,000

either it's just a fixed orange light

684

00:25:40,070 --> 00:25:38,640

didn't move just a big enough orange

685

00:25:41,990 --> 00:25:40,080

light where you look at it and you're

686

00:25:43,909 --> 00:25:42,000

like that doesn't look right you know it

687

00:25:46,070 --> 00:25:43,919

doesn't belong there didn't do anything

688

00:25:48,710 --> 00:25:46,080

and then finally at the very end here's

689

00:25:49,430 --> 00:25:48,720

and you know what capped it for me was

690

00:25:51,350 --> 00:25:49,440

it

691

00:25:53,510 --> 00:25:51,360

started to move ever so slightly and

692

00:25:55,750 --> 00:25:53,520

then just very slowly blinked out it

693

00:25:57,430 --> 00:25:55,760

wasn't like a fast like a light switch

694

00:25:59,590 --> 00:25:57,440

it was just like okay good night and

695

00:26:01,510 --> 00:25:59,600

then it just slowly disappeared

696

00:26:03,750 --> 00:26:01,520

and stayed relatively in that same space

697

00:26:05,510 --> 00:26:03,760

but that the only time it ever deviated

698

00:26:07,510 --> 00:26:05,520

off that spot was at the end when it

699

00:26:09,430 --> 00:26:07,520

just seemed to go and south they seemed

700

00:26:11,750 --> 00:26:09,440

to be heading south at that point and

701
00:26:14,230 --> 00:26:11,760
just phasing out of your eyesight yeah

702
00:26:15,430 --> 00:26:14,240
yeah wow yeah it never lost intensity

703
00:26:17,350 --> 00:26:15,440
like it's not like it was getting

704
00:26:18,950 --> 00:26:17,360
smaller smaller smaller it just

705
00:26:20,470 --> 00:26:18,960
literally like you know when you're in a

706
00:26:22,549 --> 00:26:20,480
room with a bright light and you shut it

707
00:26:24,950 --> 00:26:22,559
off or an incandescent bulb you could

708
00:26:26,470 --> 00:26:24,960
still see a bit of the filament for

709
00:26:29,029 --> 00:26:26,480
half a second after it was just like

710
00:26:30,549 --> 00:26:29,039
that it was like okay time to go now and

711
00:26:32,630 --> 00:26:30,559
you can just

712
00:26:35,190 --> 00:26:32,640
extinguish like a candle right it wasn't

713
00:26:38,630 --> 00:26:35,200

like a light switch like bang instant it

714

00:26:40,310 --> 00:26:38,640

had a gradient it had a half a second of

715

00:26:41,830 --> 00:26:40,320

it just seemed very peaceful that's the

716

00:26:44,230 --> 00:26:41,840

only way i could say it like it just

717

00:26:46,549 --> 00:26:44,240

seemed like it was nice it had a nice

718

00:26:48,789 --> 00:26:46,559

way of disappearing

719

00:26:51,350 --> 00:26:48,799

wow wow i thought it was super cool

720

00:26:52,390 --> 00:26:51,360

sometimes because i live right by

721

00:26:54,310 --> 00:26:52,400

lake superior

722

00:26:56,710 --> 00:26:54,320

the harbor here and

723

00:26:59,110 --> 00:26:56,720

all the flights coming from toronto area

724

00:27:01,350 --> 00:26:59,120

up towards thunder bay they fly over the

725

00:27:02,630 --> 00:27:01,360

lake and i could see them from where i

726

00:27:05,669 --> 00:27:02,640

live

727

00:27:09,029 --> 00:27:05,679

and i can track planes as far as 80

728

00:27:10,310 --> 00:27:09,039

kilometers out visibly by seeing their

729

00:27:12,310 --> 00:27:10,320

front light

730

00:27:14,630 --> 00:27:12,320

on it and it looks like that it's just a

731

00:27:17,510 --> 00:27:14,640

stationary light in the sky from such a

732

00:27:19,990 --> 00:27:17,520

far distance it looks like it's hovering

733

00:27:22,310 --> 00:27:20,000

yeah but really it's coming towards us

734

00:27:24,149 --> 00:27:22,320

at the same time but staying on that

735

00:27:25,909 --> 00:27:24,159

elevation that it doesn't look to be

736

00:27:27,430 --> 00:27:25,919

moving it could be mistaken as a very

737

00:27:29,350 --> 00:27:27,440

bright star

738

00:27:31,590 --> 00:27:29,360

and then once it gets closer to the

739

00:27:33,110 --> 00:27:31,600

harbor that's when it starts to drift

740

00:27:35,750 --> 00:27:33,120

out to the side

741

00:27:37,909 --> 00:27:35,760

and you can visibly see

742

00:27:39,990 --> 00:27:37,919

that the light is moving and then once

743

00:27:42,870 --> 00:27:40,000

it makes that full turn then you can see

744

00:27:44,230 --> 00:27:42,880

its navigation lights blinking yeah

745

00:27:45,830 --> 00:27:44,240

so you weren't able to see any

746

00:27:47,430 --> 00:27:45,840

navigation lights

747

00:27:50,230 --> 00:27:47,440

there was no strobing there was no

748

00:27:52,630 --> 00:27:50,240

lights again jason checked air traffic

749

00:27:54,549 --> 00:27:52,640

uh nothing he and then as we were on the

750

00:27:56,630 --> 00:27:54,559

phone he goes hey there is a helicopter

751
00:27:58,149 --> 00:27:56,640
going through that plane right now and i

752
00:28:00,310 --> 00:27:58,159
could see it i'm like yeah i could see

753
00:28:01,750 --> 00:28:00,320
it's directly to the south you know it's

754
00:28:03,669 --> 00:28:01,760
over abbotsford heading towards

755
00:28:06,630 --> 00:28:03,679
aldergrove that type of thing

756
00:28:08,630 --> 00:28:06,640
and uh yeah we i i could track the the

757
00:28:10,070 --> 00:28:08,640
air traffic but it was nowhere near

758
00:28:11,830 --> 00:28:10,080
where this thing was

759
00:28:14,149 --> 00:28:11,840
so and it wasn't very high like i would

760
00:28:16,310 --> 00:28:14,159
say if i had to guess maybe a thousand

761
00:28:18,950 --> 00:28:16,320
feet it wasn't like i'm looking straight

762
00:28:21,029 --> 00:28:18,960
up in the air i was looking out my view

763
00:28:23,590 --> 00:28:21,039

and it was over in that kind of two

764

00:28:25,750 --> 00:28:23,600

o'clock position for me and you know

765

00:28:28,310 --> 00:28:25,760

first i saw it thought nothing of it saw

766

00:28:30,789 --> 00:28:28,320

it 20 minutes later commented my wife

767

00:28:32,950 --> 00:28:30,799

then started filming taking pictures and

768

00:28:36,149 --> 00:28:32,960

it was there another 25 minutes or so

769

00:28:38,310 --> 00:28:36,159

and then it just very slowly disappeared

770

00:28:40,149 --> 00:28:38,320

wow blinked out yeah i definitely want

771

00:28:42,070 --> 00:28:40,159

to take a look at that yeah

772

00:28:44,950 --> 00:28:42,080

and like i said i've got stills of it

773

00:28:46,710 --> 00:28:44,960

with filters without filters uh and then

774

00:28:48,310 --> 00:28:46,720

all every single picture it seems to

775

00:28:50,630 --> 00:28:48,320

have a different

776

00:28:52,389 --> 00:28:50,640

a different image you know and the ones

777

00:28:55,430 --> 00:28:52,399

that are unfiltered it just looks like a

778

00:28:58,310 --> 00:28:55,440

like a white plasma with like greenish

779

00:29:00,149 --> 00:28:58,320

orange color gradient around it and

780

00:29:01,830 --> 00:29:00,159

every image that gradient's a little

781

00:29:03,430 --> 00:29:01,840

different and it's like almost like a

782

00:29:05,350 --> 00:29:03,440

ball of energy

783

00:29:07,110 --> 00:29:05,360

just shifting every single time you get

784

00:29:10,549 --> 00:29:07,120

a still it looks a little different

785

00:29:14,149 --> 00:29:10,559

because it's never been static right see

786

00:29:18,389 --> 00:29:16,470

oh did we lose jason

787

00:29:20,789 --> 00:29:18,399

oh am i uh am i frozen

788

00:29:22,870 --> 00:29:20,799

no no you're good i'm good

789

00:29:24,149 --> 00:29:22,880

our guest is uh i guess our guest is

790

00:29:28,149 --> 00:29:24,159

frozen

791

00:29:33,430 --> 00:29:29,590

how about now

792

00:29:37,990 --> 00:29:35,510

but yeah um

793

00:29:40,630 --> 00:29:38,000

what was i saying there

794

00:29:42,950 --> 00:29:40,640

when you're when you're looking at say a

795

00:29:44,950 --> 00:29:42,960

bright object like venus and you're

796

00:29:46,870 --> 00:29:44,960

looking at it through your camera you'll

797

00:29:49,430 --> 00:29:46,880

still see that

798

00:29:52,310 --> 00:29:49,440

that that distortion field it looks like

799

00:29:54,230 --> 00:29:52,320

it's a ball spinning in there yeah but

800

00:29:56,310 --> 00:29:54,240

what it really is is just it's due to

801
00:29:57,830 --> 00:29:56,320
the aperture of your camera so

802
00:30:00,310 --> 00:29:57,840
when people say

803
00:30:03,190 --> 00:30:00,320
it looked like a plasma ball rotating

804
00:30:05,190 --> 00:30:03,200
around and whatnot

805
00:30:06,950 --> 00:30:05,200
a good explanation half the time is is

806
00:30:09,430 --> 00:30:06,960
just because the aperture on on your

807
00:30:12,630 --> 00:30:09,440
camera yeah for sure yeah

808
00:30:13,990 --> 00:30:12,640
and jay we we had a case once that uh i

809
00:30:16,389 --> 00:30:14,000
don't know if you remember this one just

810
00:30:17,190 --> 00:30:16,399
took place about two years ago but

811
00:30:19,590 --> 00:30:17,200
uh

812
00:30:22,470 --> 00:30:19,600
we had a case where somebody in alberta

813
00:30:25,190 --> 00:30:22,480

was going for a walk and they saw

814

00:30:26,870 --> 00:30:25,200

a light near the water

815

00:30:29,110 --> 00:30:26,880

and it freaked them out and then as they

816

00:30:31,669 --> 00:30:29,120

walked back they saw another light in

817

00:30:32,630 --> 00:30:31,679

the sky pass over them

818

00:30:34,549 --> 00:30:32,640

and

819

00:30:36,310 --> 00:30:34,559

another light sort of like crisscross

820

00:30:38,070 --> 00:30:36,320

and and they were worried that they was

821

00:30:39,590 --> 00:30:38,080

might be ufos and i thought oh that's a

822

00:30:41,350 --> 00:30:39,600

curious case

823

00:30:43,110 --> 00:30:41,360

but when i asked you because this took

824

00:30:46,070 --> 00:30:43,120

place a while back i asked you can you

825

00:30:48,230 --> 00:30:46,080

look on i think was flight radar uh at

826

00:30:50,710 --> 00:30:48,240

this specific date over the specific

827

00:30:53,110 --> 00:30:50,720

lake and you found out it was a uh one

828

00:30:54,389 --> 00:30:53,120

of those planes that lands grabs water

829

00:30:56,630 --> 00:30:54,399

and then flies back out one of those

830

00:30:59,029 --> 00:30:56,640

firefighter planes yeah that that's what

831

00:31:01,350 --> 00:30:59,039

they saw and then when they walked back

832

00:31:03,029 --> 00:31:01,360

uh i figured out on stellarium that what

833

00:31:05,750 --> 00:31:03,039

they saw was the international space

834

00:31:07,430 --> 00:31:05,760

station flying reflecting the sun

835

00:31:09,029 --> 00:31:07,440

so it looked huge to them it looked like

836

00:31:10,549 --> 00:31:09,039

this thing in the sky that just passed

837

00:31:12,389 --> 00:31:10,559

them by and there was a commercial

838

00:31:15,190 --> 00:31:12,399

airline a little bit further away so but

839

00:31:16,549 --> 00:31:15,200

just the perfect timing yeah and yeah

840

00:31:18,310 --> 00:31:16,559

that just goes to show you that

841

00:31:20,710 --> 00:31:18,320

sometimes these experiences have a

842

00:31:22,310 --> 00:31:20,720

logical explanation but in this case

843

00:31:24,630 --> 00:31:22,320

they just happened to see two things

844

00:31:26,310 --> 00:31:24,640

that you know in close proximity to each

845

00:31:28,389 --> 00:31:26,320

other that gave the illusion that there

846

00:31:30,789 --> 00:31:28,399

was something flying over the lake that

847

00:31:33,350 --> 00:31:30,799

day right yeah yeah and that happens

848

00:31:35,430 --> 00:31:33,360

that happens like a lot actually it

849

00:31:37,830 --> 00:31:35,440

happens quite often when there's these

850

00:31:40,950 --> 00:31:37,840

serious series of coincidences take

851
00:31:42,789 --> 00:31:40,960
place and they hop at the same time in

852
00:31:45,190 --> 00:31:42,799
the same area yeah

853
00:31:47,750 --> 00:31:45,200
just perfect perfect combination to give

854
00:31:50,149 --> 00:31:47,760
that that illusion for sure right that's

855
00:31:51,110 --> 00:31:50,159
right but then when you write it out

856
00:31:52,870 --> 00:31:51,120
uh

857
00:31:56,230 --> 00:31:52,880
it looks like it's somebody's trying to

858
00:31:59,350 --> 00:31:56,240
give off some [h__h] explanation right

859
00:32:01,029 --> 00:31:59,360
swamp gas yeah exactly i always feel

860
00:32:02,710 --> 00:32:01,039
like that when i would write to the

861
00:32:04,549 --> 00:32:02,720
person like hey this is what you saw

862
00:32:06,149 --> 00:32:04,559
whatever i always felt like oh man they

863
00:32:07,909 --> 00:32:06,159

think i'm just pulling a high neck on

864

00:32:09,669 --> 00:32:07,919

them right now for the government you're

865

00:32:12,149 --> 00:32:09,679

just trying to downplay my experience

866

00:32:14,389 --> 00:32:12,159

exactly i i totally disagree with what

867

00:32:16,149 --> 00:32:14,399

you say is the conclusion to this uh

868

00:32:17,909 --> 00:32:16,159

investigation but

869

00:32:20,789 --> 00:32:17,919

yeah have you had that jay have you had

870

00:32:25,110 --> 00:32:20,799

people like probably bounce back on you

871

00:32:26,710 --> 00:32:25,120

i've gotten hate mail i hate me

872

00:32:28,789 --> 00:32:26,720

i've been told i've been a paid

873

00:32:31,350 --> 00:32:28,799

government shill i've been i've been

874

00:32:33,110 --> 00:32:31,360

called a lot of things

875

00:32:34,630 --> 00:32:33,120

because

876

00:32:37,110 --> 00:32:34,640

as you know

877

00:32:38,789 --> 00:32:37,120

it takes a lot to impress me and it's

878

00:32:41,350 --> 00:32:38,799

mainly because i've been in this field

879

00:32:44,310 --> 00:32:41,360

for so long and i've seen

880

00:32:46,149 --> 00:32:44,320

how a lot of like 99 of these cases

881

00:32:48,230 --> 00:32:46,159

usually play out as something

882

00:32:50,310 --> 00:32:48,240

explainable under these different types

883

00:32:52,950 --> 00:32:50,320

of circumstances which make it seem

884

00:32:55,669 --> 00:32:52,960

extraordinary at the time

885

00:32:56,710 --> 00:32:55,679

and i've seen that happen so many times

886

00:32:59,350 --> 00:32:56,720

that

887

00:33:01,190 --> 00:32:59,360

i can usually piece it together pretty

888

00:33:02,070 --> 00:33:01,200

fast what they saw

889

00:33:04,549 --> 00:33:02,080

and

890

00:33:05,990 --> 00:33:04,559

when i try to explain that to them they

891

00:33:07,990 --> 00:33:06,000

get very upset

892

00:33:10,870 --> 00:33:08,000

there's a lot of people that that

893

00:33:12,950 --> 00:33:10,880

need to believe that though everything

894

00:33:16,070 --> 00:33:12,960

in the night sky every airplane every

895

00:33:17,990 --> 00:33:16,080

satellite is a ufo for some reason it

896

00:33:19,750 --> 00:33:18,000

gives them comfort so i'm not no one to

897

00:33:20,710 --> 00:33:19,760

take that comfort away from anybody i'm

898

00:33:23,110 --> 00:33:20,720

just

899

00:33:26,149 --> 00:33:23,120

there to give you the scientific facts

900

00:33:27,830 --> 00:33:26,159

that's just the way it goes yeah now one

901
00:33:30,230 --> 00:33:27,840
of the things that we i want to talk

902
00:33:31,830 --> 00:33:30,240
about is if somebody wanted to become a

903
00:33:33,590 --> 00:33:31,840
ufo investigator let's say they want to

904
00:33:36,070 --> 00:33:33,600
get off the couch and they want to

905
00:33:37,750 --> 00:33:36,080
become active with mufon what are the

906
00:33:39,350 --> 00:33:37,760
steps for that what what do they need to

907
00:33:42,549 --> 00:33:39,360
do

908
00:33:45,110 --> 00:33:42,559
stop watching these youtube videos that

909
00:33:48,310 --> 00:33:45,120
show all these

910
00:33:50,310 --> 00:33:48,320
ufo videos these compilation of ufo

911
00:33:51,430 --> 00:33:50,320
videos of something

912
00:33:53,430 --> 00:33:51,440
like

913
00:33:56,389 --> 00:33:53,440

there's there's a bunch of ufo channels

914

00:33:59,029 --> 00:33:56,399

out there i'm not going to name them but

915

00:34:00,149 --> 00:33:59,039

they're majority of host hoax pushers

916

00:34:01,909 --> 00:34:00,159

right

917

00:34:03,990 --> 00:34:01,919

stop watching those

918

00:34:06,230 --> 00:34:04,000

and

919

00:34:08,950 --> 00:34:06,240

come into it with an open mind but

920

00:34:12,310 --> 00:34:08,960

realize that

921

00:34:13,669 --> 00:34:12,320

the phenomenon is more rare than it is

922

00:34:15,669 --> 00:34:13,679

open

923

00:34:18,629 --> 00:34:15,679

if that makes sense like

924

00:34:21,349 --> 00:34:18,639

you're going to see for every ufo case

925

00:34:22,550 --> 00:34:21,359

that you investigate a hundred of them

926
00:34:24,470 --> 00:34:22,560
are

927
00:34:27,510 --> 00:34:24,480
absolutely explainable

928
00:34:29,349 --> 00:34:27,520
and there's that one just that one that

929
00:34:30,950 --> 00:34:29,359
can teeter on well maybe it could have

930
00:34:33,990 --> 00:34:30,960
been this or it could have been that but

931
00:34:36,629 --> 00:34:34,000
we got no explanation for it right now

932
00:34:39,030 --> 00:34:36,639
so if you have a mind like that

933
00:34:41,349 --> 00:34:39,040
and you're willing to accept that not

934
00:34:43,669 --> 00:34:41,359
everything in the sky is a ufo then

935
00:34:47,589 --> 00:34:43,679
absolutely we want you to come take a

936
00:34:49,349 --> 00:34:47,599
look into mufon and you could do that by

937
00:34:50,470 --> 00:34:49,359
going onto the website

938
00:34:51,829 --> 00:34:50,480

and

939

00:34:53,270 --> 00:34:51,839

become a member

940

00:34:54,710 --> 00:34:53,280

from there you're going to

941

00:34:56,470 --> 00:34:54,720

fill out the

942

00:34:58,069 --> 00:34:56,480

quick questionnaire kind of a thing and

943

00:34:59,030 --> 00:34:58,079

then you're going to be sent a test to

944

00:35:00,150 --> 00:34:59,040

do

945

00:35:02,630 --> 00:35:00,160

and

946

00:35:04,470 --> 00:35:02,640

test is going to have i'm not sure if

947

00:35:06,150 --> 00:35:04,480

it's a hundred questions

948

00:35:07,510 --> 00:35:06,160

i can't remember what it is i think i

949

00:35:09,589 --> 00:35:07,520

think it's a hundred questions and you

950

00:35:11,589 --> 00:35:09,599

gotta get seventy percent or or better

951
00:35:12,790 --> 00:35:11,599
yeah yeah yeah and your goal our goal we

952
00:35:15,109 --> 00:35:12,800
want

953
00:35:17,430 --> 00:35:15,119
people to be able to

954
00:35:19,829 --> 00:35:17,440
have a higher percentile correct in

955
00:35:22,550 --> 00:35:19,839
those so

956
00:35:26,390 --> 00:35:22,560
take a look at the resource material

957
00:35:29,589 --> 00:35:26,400
that's provided through mufon and

958
00:35:31,750 --> 00:35:29,599
just come into it knowing that

959
00:35:33,910 --> 00:35:31,760
your entire

960
00:35:36,150 --> 00:35:33,920
perception of the phenomenon could be

961
00:35:37,349 --> 00:35:36,160
shifted once you start looking into

962
00:35:38,150 --> 00:35:37,359
these cases

963
00:35:41,349 --> 00:35:38,160

like

964

00:35:43,750 --> 00:35:41,359

there was a time that i didn't see any

965

00:35:46,470 --> 00:35:43,760

anything unexplainable for probably six

966

00:35:48,310 --> 00:35:46,480

months and it gets really jading after

967

00:35:51,030 --> 00:35:48,320

that because you're just seeing the same

968

00:35:53,190 --> 00:35:51,040

old thing over and over again it's okay

969

00:35:56,310 --> 00:35:53,200

well they saw a meteor this person saw

970

00:35:58,870 --> 00:35:56,320

an airplane this person saw starlink and

971

00:36:01,510 --> 00:35:58,880

these other 50 people saw starlink

972

00:36:03,510 --> 00:36:01,520

and but when you get that one case

973

00:36:05,750 --> 00:36:03,520

that's unexplainable

974

00:36:09,190 --> 00:36:05,760

that's what brings it back it sparks

975

00:36:11,190 --> 00:36:09,200

that magic for you again

976

00:36:12,630 --> 00:36:11,200

yeah i think one of the first cases that

977

00:36:14,790 --> 00:36:12,640

i had and i mentioned this before on the

978

00:36:15,990 --> 00:36:14,800

podcast is one of the very first i think

979

00:36:19,910 --> 00:36:16,000

it's

980

00:36:21,750 --> 00:36:19,920

two second clip

981

00:36:23,349 --> 00:36:21,760

it's just two seconds because this kid

982

00:36:25,589 --> 00:36:23,359

had a horseshoe up his butt because he

983

00:36:28,150 --> 00:36:25,599

captured this within two seconds before

984

00:36:29,589 --> 00:36:28,160

his phone takes a picture it records for

985

00:36:34,069 --> 00:36:29,599

two seconds

986

00:36:37,190 --> 00:36:34,079

about the size of a ford pickup truck

987

00:36:40,710 --> 00:36:37,200

emerge quickly out of the fraser river

988

00:36:43,190 --> 00:36:40,720

and into the sky and i think uh

989

00:36:45,990 --> 00:36:43,200

david palacek um

990

00:36:47,910 --> 00:36:46,000

calculated something like

991

00:36:50,230 --> 00:36:47,920

three point something mock

992

00:36:52,069 --> 00:36:50,240

out of the water never made a splash or

993

00:36:53,510 --> 00:36:52,079

anything like that and we calculated the

994

00:36:56,310 --> 00:36:53,520

size because it was right by a train

995

00:36:58,950 --> 00:36:56,320

track with a train carts on it

996

00:37:00,550 --> 00:36:58,960

it's amazing that this is actually in

997

00:37:01,750 --> 00:37:00,560

the waters

998

00:37:04,069 --> 00:37:01,760

this

999

00:37:06,069 --> 00:37:04,079

phenomenon happens in the water as much

1000

00:37:08,470 --> 00:37:06,079

as it does in the sky probably

1001
00:37:09,910 --> 00:37:08,480
predominantly in underwater more than it

1002
00:37:12,230 --> 00:37:09,920
is in the sky

1003
00:37:14,150 --> 00:37:12,240
so i i found that to be the case anyways

1004
00:37:16,550 --> 00:37:14,160
that there's always water sources or

1005
00:37:18,150 --> 00:37:16,560
mines near these areas you work near

1006
00:37:19,829 --> 00:37:18,160
mines have you found that to be the case

1007
00:37:21,510 --> 00:37:19,839
like have you had any reports from

1008
00:37:22,550 --> 00:37:21,520
anybody there saying they see something

1009
00:37:25,109 --> 00:37:22,560
strange

1010
00:37:25,860 --> 00:37:25,119
i got first-hand account of one there oh

1011
00:37:27,670 --> 00:37:25,870
please do tell

1012
00:37:29,910 --> 00:37:27,680
[Laughter]

1013
00:37:32,630 --> 00:37:29,920

i it was summer day

1014

00:37:34,710 --> 00:37:32,640

and i think it was it had to be about 10

1015

00:37:37,589 --> 00:37:34,720

o'clock in the morning and i was headed

1016

00:37:40,069 --> 00:37:37,599

out out to do a a tour of one of our

1017

00:37:42,390 --> 00:37:40,079

tailings impoundments and as i was

1018

00:37:44,630 --> 00:37:42,400

coming down the hill something shiny in

1019

00:37:45,589 --> 00:37:44,640

the sky caught my eye

1020

00:37:47,430 --> 00:37:45,599

and

1021

00:37:49,750 --> 00:37:47,440

as i go down the hill

1022

00:37:52,710 --> 00:37:49,760

it gets blocked out by

1023

00:37:55,430 --> 00:37:52,720

the the slope of one of our dams so i

1024

00:37:56,550 --> 00:37:55,440

come around and fully expecting it to be

1025

00:37:58,470 --> 00:37:56,560

a bird

1026

00:38:00,390 --> 00:37:58,480

i come up to the bottom of this other

1027

00:38:03,510 --> 00:38:00,400

hill and straight up

1028

00:38:06,470 --> 00:38:03,520

is this object it's a metallic object

1029

00:38:08,630 --> 00:38:06,480

and it's just sitting there and it has a

1030

00:38:11,030 --> 00:38:08,640

cigar shape to it

1031

00:38:13,430 --> 00:38:11,040

i get up to the top of the hill i park

1032

00:38:16,069 --> 00:38:13,440

my truck and i happen to have my camera

1033

00:38:18,310 --> 00:38:16,079

on me as well i start taking pictures

1034

00:38:19,030 --> 00:38:18,320

and i even got had enough time to set up

1035

00:38:24,069 --> 00:38:19,040

the

1036

00:38:26,150 --> 00:38:24,079

i wouldn't be screwing around with it

1037

00:38:28,390 --> 00:38:26,160

and i was able to take video

1038

00:38:30,230 --> 00:38:28,400

of it basically being stabilized because

1039

00:38:33,270 --> 00:38:30,240

of the hood of my truck and i just

1040

00:38:34,390 --> 00:38:33,280

recorded it and this object just

1041

00:38:37,270 --> 00:38:34,400

sat there

1042

00:38:39,990 --> 00:38:37,280

and i recorded it for about 15 minutes

1043

00:38:42,310 --> 00:38:40,000

before it suddenly started moving off to

1044

00:38:44,230 --> 00:38:42,320

the to the west

1045

00:38:47,430 --> 00:38:44,240

it started going off to the west very

1046

00:38:51,270 --> 00:38:47,440

slowly and it's clear everything is blue

1047

00:38:53,190 --> 00:38:51,280

from the ground up the whole sky is blue

1048

00:38:55,510 --> 00:38:53,200

and i recorded it and

1049

00:38:57,670 --> 00:38:55,520

i don't know how big it was but i

1050

00:38:59,349 --> 00:38:57,680

checked flight radar there was nothing

1051
00:39:00,870 --> 00:38:59,359
on the flight radar

1052
00:39:03,270 --> 00:39:00,880
and

1053
00:39:05,990 --> 00:39:03,280
out there it's entirely possible it

1054
00:39:08,310 --> 00:39:06,000
could be a plane because not every plane

1055
00:39:10,870 --> 00:39:08,320
uh broadcasts

1056
00:39:12,630 --> 00:39:10,880
the eight what is that

1057
00:39:14,790 --> 00:39:12,640
i can't remember the signal name but

1058
00:39:16,630 --> 00:39:14,800
yeah not every plane broadcasts that

1059
00:39:18,310 --> 00:39:16,640
frequency to be able to pick up on

1060
00:39:20,150 --> 00:39:18,320
flight radar

1061
00:39:22,550 --> 00:39:20,160
and uh

1062
00:39:24,790 --> 00:39:22,560
i still hope it was a ufo though because

1063
00:39:26,150 --> 00:39:24,800

i got pictures of it as pure white and

1064

00:39:28,550 --> 00:39:26,160

it's it's just

1065

00:39:30,310 --> 00:39:28,560

it was enough to stump me anyway

1066

00:39:32,470 --> 00:39:30,320

it was that one that was over on mine

1067

00:39:34,230 --> 00:39:32,480

site yeah and you're a trained observer

1068

00:39:36,950 --> 00:39:34,240

so that uh

1069

00:39:38,710 --> 00:39:36,960

kind of goes to show that even to

1070

00:39:40,550 --> 00:39:38,720

people and mufon that

1071

00:39:41,910 --> 00:39:40,560

so sometimes poo poo in other people's

1072

00:39:43,430 --> 00:39:41,920

cases because it happens to be

1073

00:39:45,670 --> 00:39:43,440

explainable can actually have something

1074

00:39:47,750 --> 00:39:45,680

happen to them that is unexplainable

1075

00:39:49,829 --> 00:39:47,760

which that's right yeah and that only

1076
00:39:52,710 --> 00:39:49,839
cements the the further questioning and

1077
00:39:54,790 --> 00:39:52,720
all that and sort of perpetuates our

1078
00:39:57,270 --> 00:39:54,800
need to keep investigating as well right

1079
00:39:59,430 --> 00:39:57,280
so that's right exactly right that's

1080
00:40:00,790 --> 00:39:59,440
good

1081
00:40:03,190 --> 00:40:00,800
i wanted to ask you what do you think

1082
00:40:05,190 --> 00:40:03,200
about you know all the current uap news

1083
00:40:07,750 --> 00:40:05,200
you know like hot topics right now on

1084
00:40:10,069 --> 00:40:07,760
ufo twitter and all the rest basically

1085
00:40:12,870 --> 00:40:10,079
like they you know the a-tip program the

1086
00:40:14,309 --> 00:40:12,880
tic tac video 2017 until now

1087
00:40:15,750 --> 00:40:14,319
what do you think about the last five

1088
00:40:17,750 --> 00:40:15,760

years and kind of where do you see it

1089

00:40:20,230 --> 00:40:17,760

going

1090

00:40:22,870 --> 00:40:20,240

i i truly believe that we are in the

1091

00:40:26,150 --> 00:40:22,880

midst of a disclosure right now a drip

1092

00:40:27,829 --> 00:40:26,160

disclosure yeah so

1093

00:40:30,470 --> 00:40:27,839

we're we're getting these little tidbits

1094

00:40:32,230 --> 00:40:30,480

of information and then it goes radio

1095

00:40:33,750 --> 00:40:32,240

silence for a couple months and then a

1096

00:40:35,990 --> 00:40:33,760

little bit more will come out and

1097

00:40:38,390 --> 00:40:36,000

somebody else will do uh an interview

1098

00:40:39,829 --> 00:40:38,400

with something with somebody and a

1099

00:40:41,910 --> 00:40:39,839

little bit more information will be

1100

00:40:45,030 --> 00:40:41,920

learned about something i think

1101

00:40:48,069 --> 00:40:45,040

right now we're absolutely in

1102

00:40:49,510 --> 00:40:48,079

a disclosure period but it's a very slow

1103

00:40:50,630 --> 00:40:49,520

drip one

1104

00:40:53,829 --> 00:40:50,640

and

1105

00:40:55,430 --> 00:40:53,839

i'm really excited for what's going to

1106

00:40:58,150 --> 00:40:55,440

be as

1107

00:41:00,150 --> 00:40:58,160

in the realm of science fact in the next

1108

00:41:03,030 --> 00:41:00,160

five years

1109

00:41:04,790 --> 00:41:03,040

i'm really looking forward to

1110

00:41:06,870 --> 00:41:04,800

seeing

1111

00:41:09,829 --> 00:41:06,880

what we think now

1112

00:41:12,950 --> 00:41:09,839

versus what we know then in the next

1113

00:41:14,470 --> 00:41:12,960

five years because it can be a pretty

1114

00:41:18,150 --> 00:41:14,480

exciting

1115

00:41:19,990 --> 00:41:18,160

going to happen and what more

1116

00:41:22,069 --> 00:41:20,000

information is going to come out

1117

00:41:23,990 --> 00:41:22,079

especially when

1118

00:41:27,030 --> 00:41:24,000

you have these prominent government

1119

00:41:27,829 --> 00:41:27,040

officials backing these stories up

1120

00:41:29,510 --> 00:41:27,839

and

1121

00:41:33,109 --> 00:41:29,520

when it comes down to it they have

1122

00:41:35,910 --> 00:41:33,119

really no reason or justification to

1123

00:41:37,990 --> 00:41:35,920

want to be lying about this because it's

1124

00:41:41,109 --> 00:41:38,000

going to hurt them in the end for them

1125

00:41:42,790 --> 00:41:41,119

even coming out about it but

1126

00:41:45,270 --> 00:41:42,800

i just think it's a really interesting

1127

00:41:48,470 --> 00:41:45,280

time very interesting time and probably

1128

00:41:49,990 --> 00:41:48,480

the most interesting for this phenomenon

1129

00:41:51,109 --> 00:41:50,000

to date

1130

00:41:52,390 --> 00:41:51,119

our guests have been telling us

1131

00:41:54,150 --> 00:41:52,400

basically the same thing you know we

1132

00:41:57,109 --> 00:41:54,160

interviewed guys like sean cahill and

1133

00:41:59,270 --> 00:41:57,119

george knapp and uh you know the moore

1134

00:42:01,190 --> 00:41:59,280

and colin kelleher a scientist and

1135

00:42:02,790 --> 00:42:01,200

microbiologist and the more we talk

1136

00:42:05,430 --> 00:42:02,800

about it these were what you know quote

1137

00:42:07,109 --> 00:42:05,440

unquote nuts and bolts ufo guys and

1138

00:42:09,829 --> 00:42:07,119

they're all now saying no man this is

1139

00:42:12,470 --> 00:42:09,839

like about consciousness and you know uh

1140

00:42:15,349 --> 00:42:12,480

inter-dimensional type ideas this is a

1141

00:42:17,349 --> 00:42:15,359

quantum physics this is not necessarily

1142

00:42:19,829 --> 00:42:17,359

just craft this the breadth of

1143

00:42:21,430 --> 00:42:19,839

phenomenon um you know even like skin

1144

00:42:23,109 --> 00:42:21,440

walker ranch and everything associated

1145

00:42:24,790 --> 00:42:23,119

with that too it's he's like the more

1146

00:42:27,190 --> 00:42:24,800

we're going down the rabbit hole the

1147

00:42:28,150 --> 00:42:27,200

more obscure it's becoming and we really

1148

00:42:30,309 --> 00:42:28,160

don't

1149

00:42:31,750 --> 00:42:30,319

have a a grasp of it because i asked him

1150

00:42:32,950 --> 00:42:31,760

too you know why doesn't it feel like

1151

00:42:34,630 --> 00:42:32,960

disclosure

1152

00:42:35,750 --> 00:42:34,640

they you know the government finally

1153

00:42:37,829 --> 00:42:35,760

admits something that they've never

1154

00:42:39,109 --> 00:42:37,839

admitted before they release video why

1155

00:42:41,430 --> 00:42:39,119

are we not jumping up and down the

1156

00:42:42,870 --> 00:42:41,440

streets and i totally agree with you it

1157

00:42:44,390 --> 00:42:42,880

feels like we're getting it but we're

1158

00:42:45,990 --> 00:42:44,400

getting it in little bits

1159

00:42:47,670 --> 00:42:46,000

yeah we're also getting it from the same

1160

00:42:48,950 --> 00:42:47,680

people that told us for the last 70

1161

00:42:51,270 --> 00:42:48,960

years hey there's nothing here don't

1162

00:42:53,109 --> 00:42:51,280

worry about it so it's kind of hard to

1163

00:42:55,109 --> 00:42:53,119

just you know be a sheep all of a sudden

1164

00:42:57,190 --> 00:42:55,119

and be like oh okay yeah now they're

1165

00:43:00,470 --> 00:42:57,200

leveling with us i'm still skeptic at

1166

00:43:01,670 --> 00:43:00,480

mine for sure oh for damn sure and and

1167

00:43:03,670 --> 00:43:01,680

having that

1168

00:43:05,910 --> 00:43:03,680

that that being a skeptic is probably

1169

00:43:07,030 --> 00:43:05,920

the absolute best approach in this field

1170

00:43:11,109 --> 00:43:07,040

yeah

1171

00:43:13,030 --> 00:43:11,119

like that and to uh because i've been i

1172

00:43:14,790 --> 00:43:13,040

i got caught

1173

00:43:16,710 --> 00:43:14,800

you know being suckered into cases that

1174

00:43:19,109 --> 00:43:16,720

were completely false

1175

00:43:21,270 --> 00:43:19,119

and i feel ashamed because i'm like is

1176

00:43:23,349 --> 00:43:21,280

it me it's just it's just you want to

1177

00:43:25,430 --> 00:43:23,359

believe it's true you really want to

1178

00:43:27,030 --> 00:43:25,440

be a part of it if it is something legit

1179

00:43:28,630 --> 00:43:27,040

you don't want to miss it if it is too

1180

00:43:30,550 --> 00:43:28,640

right yeah yeah

1181

00:43:32,069 --> 00:43:30,560

and that's the thing like even for me

1182

00:43:34,309 --> 00:43:32,079

back in you know i

1183

00:43:36,550 --> 00:43:34,319

believe bob lazar 100

1184

00:43:38,309 --> 00:43:36,560

and i know some people don't but just

1185

00:43:40,069 --> 00:43:38,319

putting yourself out there now like even

1186

00:43:41,670 --> 00:43:40,079

on twitter which is another thing jason

1187

00:43:44,710 --> 00:43:41,680

like you you are on twitter now you're

1188

00:43:46,870 --> 00:43:44,720

not big on social media usually but you

1189

00:43:49,030 --> 00:43:46,880

are on twitter which is yeah which is

1190

00:43:50,870 --> 00:43:49,040

great uh we'll tell the people where

1191

00:43:52,390 --> 00:43:50,880

where to look that up um

1192

00:43:54,150 --> 00:43:52,400

before we close here but what do you

1193

00:43:55,910 --> 00:43:54,160

think about the whole twitter war and

1194

00:43:57,270 --> 00:43:55,920

what's taking place like you know a lot

1195

00:43:59,109 --> 00:43:57,280

of people have been attacking louis

1196

00:44:01,190 --> 00:43:59,119

elizondo as of late

1197

00:44:03,349 --> 00:44:01,200

lou's been quite quiet on twitter and

1198

00:44:05,589 --> 00:44:03,359

people keep fighting on there under uh

1199

00:44:08,309 --> 00:44:05,599

ufo twitter so what are your thoughts on

1200

00:44:09,990 --> 00:44:08,319

what's going on there like why we all

1201
00:44:13,990 --> 00:44:10,000
fighting each other and calling each

1202
00:44:17,910 --> 00:44:15,640
that is so [h__h] true

1203
00:44:20,710 --> 00:44:17,920
[Laughter]

1204
00:44:23,349 --> 00:44:20,720
the world of trolls man yeah

1205
00:44:25,829 --> 00:44:23,359
yeah ufo twitter is it can be quite the

1206
00:44:27,829 --> 00:44:25,839
cesspool sometimes but

1207
00:44:28,870 --> 00:44:27,839
yeah i love it though i love it there

1208
00:44:34,230 --> 00:44:28,880
there's

1209
00:44:38,150 --> 00:44:34,240
straight up wackos and

1210
00:44:40,230 --> 00:44:38,160
the amount of people that fall for

1211
00:44:42,710 --> 00:44:40,240
these

1212
00:44:45,349 --> 00:44:42,720
i i i don't want to give out names but

1213
00:44:47,430 --> 00:44:45,359

there's this one kid on there

1214

00:44:49,190 --> 00:44:47,440

that he's

1215

00:44:50,950 --> 00:44:49,200

the son of a [h__h] acts like he's some

1216

00:44:53,030 --> 00:44:50,960

[h__h] prophet or something like that

1217

00:44:55,190 --> 00:44:53,040

and he knows all the answers and he's

1218

00:44:57,829 --> 00:44:55,200

telling people you gotta open your mind

1219

00:44:59,750 --> 00:44:57,839

and and love one another and this once

1220

00:45:01,829 --> 00:44:59,760

you accept this then they'll start

1221

00:45:03,670 --> 00:45:01,839

appearing in your home like

1222

00:45:05,270 --> 00:45:03,680

shut the [h__h] up kid you don't know what

1223

00:45:07,109 --> 00:45:05,280

the hell you're talking about you're 18

1224

00:45:09,030 --> 00:45:07,119

years old not saying that age has a

1225

00:45:11,030 --> 00:45:09,040

factor of it but

1226
00:45:12,390 --> 00:45:11,040
he he just read a couple books and now

1227
00:45:14,950 --> 00:45:12,400
he's just

1228
00:45:16,950 --> 00:45:14,960
verbal diarrheating this [h__h] out and

1229
00:45:19,109 --> 00:45:16,960
he's got all these followers about it

1230
00:45:20,950 --> 00:45:19,119
that are that are hooked into this type

1231
00:45:24,710 --> 00:45:20,960
of garbage

1232
00:45:27,910 --> 00:45:24,720
i just want people to be able to

1233
00:45:31,190 --> 00:45:27,920
not take everything they read on ufo

1234
00:45:33,349 --> 00:45:31,200
twitter as a fact and look into it for

1235
00:45:35,270 --> 00:45:33,359
themselves yeah don't be a sheep don't

1236
00:45:37,589 --> 00:45:35,280
believe everything you read

1237
00:45:40,069 --> 00:45:37,599
even if it seems like wow that that's

1238
00:45:41,670 --> 00:45:40,079

incredible look into it for yourself

1239

00:45:43,349 --> 00:45:41,680

like i don't know how many hearts i've

1240

00:45:45,270 --> 00:45:43,359

had to break and how many bubbles i've

1241

00:45:47,750 --> 00:45:45,280

had to pop on that thing

1242

00:45:49,190 --> 00:45:47,760

but usually once i provide the evidence

1243

00:45:51,430 --> 00:45:49,200

and show them

1244

00:45:52,870 --> 00:45:51,440

then they okay yeah no we see yeah but

1245

00:45:54,470 --> 00:45:52,880

then there's other people that will try

1246

00:45:57,349 --> 00:45:54,480

to say something

1247

00:45:59,670 --> 00:45:57,359

and they get flamed right away they get

1248

00:46:01,990 --> 00:45:59,680

they get torched or even trying to say

1249

00:46:05,270 --> 00:46:02,000

that something's not a ufo on there or

1250

00:46:07,030 --> 00:46:05,280

something it's it's crazy at times

1251
00:46:09,109 --> 00:46:07,040
and it all depends on how you approach

1252
00:46:10,309 --> 00:46:09,119
people too like it's hard to convey an

1253
00:46:12,470 --> 00:46:10,319
emotion

1254
00:46:15,030 --> 00:46:12,480
in however many characters twitter

1255
00:46:16,550 --> 00:46:15,040
allows you to to type out there

1256
00:46:18,390 --> 00:46:16,560
and text

1257
00:46:20,790 --> 00:46:18,400
text is the worst kind of form of

1258
00:46:23,829 --> 00:46:20,800
communication right yes because it could

1259
00:46:25,190 --> 00:46:23,839
be just misconstrued in so many ways

1260
00:46:27,270 --> 00:46:25,200
how many times do you get in a text

1261
00:46:29,349 --> 00:46:27,280
fight with your wife or girlfriend and

1262
00:46:31,910 --> 00:46:29,359
you mean it with a certain inflection in

1263
00:46:33,589 --> 00:46:31,920

your voice and she takes it as what's

1264

00:46:35,349 --> 00:46:33,599

that supposed to mean and then it's like

1265

00:46:37,190 --> 00:46:35,359

you have this massive argument that's

1266

00:46:40,710 --> 00:46:37,200

based on nothing just because there was

1267

00:46:42,390 --> 00:46:40,720

no sense smiley face at the end yeah

1268

00:46:44,309 --> 00:46:42,400

yeah you don't know is it a sarcastic

1269

00:46:45,829 --> 00:46:44,319

smiley now are you poking the bear you

1270

00:46:48,069 --> 00:46:45,839

try to make him mad

1271

00:46:50,230 --> 00:46:48,079

you go forever with that see i have a

1272

00:46:51,510 --> 00:46:50,240

rule i never fight over the phone

1273

00:46:53,910 --> 00:46:51,520

i i try

1274

00:46:56,390 --> 00:46:53,920

so we'll talk about it later so i try to

1275

00:46:58,309 --> 00:46:56,400

limit that because it's it's true like

1276

00:47:00,710 --> 00:46:58,319

you know even i wrote stuff on the

1277

00:47:02,230 --> 00:47:00,720

internet a few times and it's come back

1278

00:47:04,790 --> 00:47:02,240

and bit me in the butt

1279

00:47:06,870 --> 00:47:04,800

so i'm like no i know not to to poke the

1280

00:47:09,510 --> 00:47:06,880

bear or even put anything out there

1281

00:47:11,589 --> 00:47:09,520

really uh without having some sort of

1282

00:47:13,510 --> 00:47:11,599

criticism and even this podcast i was

1283

00:47:15,589 --> 00:47:13,520

talking to louis i'm like even this

1284

00:47:17,109 --> 00:47:15,599

podcast so far we haven't had bad

1285

00:47:19,829 --> 00:47:17,119

criticism everybody's been really

1286

00:47:21,990 --> 00:47:19,839

positive but it's coming and that's if i

1287

00:47:23,670 --> 00:47:22,000

name drop or date drop or talk about a

1288

00:47:25,270 --> 00:47:23,680

fact you better believe i have it

1289

00:47:27,670 --> 00:47:25,280

written here and i double check cause

1290

00:47:29,430 --> 00:47:27,680

some idiot with nothing better to do is

1291

00:47:33,030 --> 00:47:29,440

gonna tell me how stupid i am that it

1292

00:47:34,710 --> 00:47:33,040

was 1991 not 1990. and i just don't have

1293

00:47:36,790 --> 00:47:34,720

any patience for that so i checked my

1294

00:47:38,470 --> 00:47:36,800

[h__\h] because i don't want to hear it

1295

00:47:40,790 --> 00:47:38,480

and you know what that that is awesome

1296

00:47:43,349 --> 00:47:40,800

that you do that and at the same time

1297

00:47:45,349 --> 00:47:43,359

it's also awesome that there are people

1298

00:47:47,750 --> 00:47:45,359

that are willing to

1299

00:47:49,270 --> 00:47:47,760

look into these things and correct them

1300

00:47:50,470 --> 00:47:49,280

that's remember when i always said to

1301
00:47:52,870 --> 00:47:50,480
you jason

1302
00:47:54,549 --> 00:47:52,880
fill out these reports

1303
00:47:58,470 --> 00:47:54,559
like

1304
00:48:00,630 --> 00:47:58,480
for a scientist to be looking over them

1305
00:48:02,870 --> 00:48:00,640
have as much detail as you can leave

1306
00:48:04,710 --> 00:48:02,880
nothing to their imagination leave no

1307
00:48:07,030 --> 00:48:04,720
doubt that you've checked and looked

1308
00:48:08,710 --> 00:48:07,040
into everything over and over again

1309
00:48:10,950 --> 00:48:08,720
because there always is somebody that's

1310
00:48:12,390 --> 00:48:10,960
going to come by and take a look yeah

1311
00:48:17,510 --> 00:48:12,400
and

1312
00:48:19,750 --> 00:48:17,520
you know so you just got to be prepared

1313
00:48:22,710 --> 00:48:19,760

for stuff like that but we need those

1314

00:48:24,790 --> 00:48:22,720

types of people at the same time because

1315

00:48:26,230 --> 00:48:24,800

a lot of things get solved that way too

1316

00:48:28,870 --> 00:48:26,240

because they're they're taking the

1317

00:48:31,190 --> 00:48:28,880

second look the third look into it but

1318

00:48:32,790 --> 00:48:31,200

their approach sometimes of hey [\h__\h]

1319

00:48:35,670 --> 00:48:32,800

you did this wrong like you know it

1320

00:48:37,670 --> 00:48:35,680

could be a little bit nicer come across

1321

00:48:38,870 --> 00:48:37,680

a little better

1322

00:48:39,829 --> 00:48:38,880

but yeah

1323

00:48:41,190 --> 00:48:39,839

yeah

1324

00:48:42,870 --> 00:48:41,200

people are still people at the end of

1325

00:48:45,030 --> 00:48:42,880

the day and like you mentioned on a

1326
00:48:46,549 --> 00:48:45,040
previous show jason that if anybody can

1327
00:48:48,390 --> 00:48:46,559
call you an idiot or say they don't

1328
00:48:49,270 --> 00:48:48,400
value your opinion or i don't like your

1329
00:48:51,430 --> 00:48:49,280
show

1330
00:48:52,710 --> 00:48:51,440
um but i guess it's good that it's

1331
00:48:54,390 --> 00:48:52,720
getting out there anyway right if you're

1332
00:48:56,230 --> 00:48:54,400
hitting a nerve you're probably doing it

1333
00:48:58,309 --> 00:48:56,240
right so yeah that's right that's

1334
00:49:00,390 --> 00:48:58,319
[h__\h] right you either like it or you

1335
00:49:02,309 --> 00:49:00,400
don't that's pretty much uh the way it

1336
00:49:04,069 --> 00:49:02,319
is with podcasts is if you don't like it

1337
00:49:05,510 --> 00:49:04,079
don't listen to it i find it funny when

1338
00:49:06,630 --> 00:49:05,520

somebody's just trolling all the

1339

00:49:07,670 --> 00:49:06,640

episodes it's like you're still

1340

00:49:09,910 --> 00:49:07,680

listening

1341

00:49:13,270 --> 00:49:09,920

you're still a listener of this podcast

1342

00:49:15,910 --> 00:49:13,280

so yeah i'll send you a t-shirt bruh

1343

00:49:18,470 --> 00:49:15,920

we get very little if any hate mail it's

1344

00:49:20,230 --> 00:49:18,480

mainly been all love and uh positive

1345

00:49:21,829 --> 00:49:20,240

yeah on our social media pages people

1346

00:49:24,069 --> 00:49:21,839

saying like this is the kind of show

1347

00:49:27,430 --> 00:49:24,079

more people need to hear fact-based

1348

00:49:29,589 --> 00:49:27,440

science-minded skeptical but open and

1349

00:49:30,870 --> 00:49:29,599

let's investigate guys like george knapp

1350

00:49:32,790 --> 00:49:30,880

you know people who've made 30-year

1351

00:49:35,270 --> 00:49:32,800

career out of it and people that work

1352

00:49:37,990 --> 00:49:35,280

for the government and scientists and

1353

00:49:39,829 --> 00:49:38,000

people that aren't into fringe stuff

1354

00:49:42,230 --> 00:49:39,839

and let's just get you know don't leave

1355

00:49:43,589 --> 00:49:42,240

anything out give us everything

1356

00:49:45,349 --> 00:49:43,599

and let people make their own decision

1357

00:49:46,710 --> 00:49:45,359

based on what they're gonna believe or

1358

00:49:48,470 --> 00:49:46,720

not at the end of the day they probably

1359

00:49:50,710 --> 00:49:48,480

got their mind formed five minutes in

1360

00:49:52,470 --> 00:49:50,720

but if somebody learns a new fact or it

1361

00:49:54,549 --> 00:49:52,480

kind of sparks up that interest for them

1362

00:49:56,549 --> 00:49:54,559

to go out and do some good work then

1363

00:49:59,109 --> 00:49:56,559

we're accomplishing our mission that's

1364

00:50:00,549 --> 00:49:59,119

exactly right and jason before we close

1365

00:50:02,470 --> 00:50:00,559

here uh do you have any book

1366

00:50:05,349 --> 00:50:02,480

recommendation for somebody who wants to

1367

00:50:07,109 --> 00:50:05,359

be an investigator anything that for you

1368

00:50:09,030 --> 00:50:07,119

has been

1369

00:50:10,950 --> 00:50:09,040

an important not just a book when you

1370

00:50:12,950 --> 00:50:10,960

were a kid in a library but like a book

1371

00:50:15,349 --> 00:50:12,960

for investigators you once made a

1372

00:50:17,270 --> 00:50:15,359

suggestion to me and i uh was wondering

1373

00:50:18,790 --> 00:50:17,280

if you can make the same suggestion to

1374

00:50:23,270 --> 00:50:18,800

the listeners

1375

00:50:29,030 --> 00:50:26,390

damn it it's a it's a very good book

1376

00:50:32,549 --> 00:50:29,040

and we just don't know the title

1377

00:50:33,750 --> 00:50:32,559

yeah i can't remember the name of it now

1378

00:50:36,230 --> 00:50:33,760

damn it

1379

00:50:37,430 --> 00:50:36,240

okay it's okay it's okay i got a book

1380

00:50:38,710 --> 00:50:37,440

and

1381

00:50:40,230 --> 00:50:38,720

i can

1382

00:50:43,190 --> 00:50:40,240

put it in the comment section or

1383

00:50:45,910 --> 00:50:43,200

something afterwards but

1384

00:50:48,390 --> 00:50:45,920

the canadian ufo report by chris

1385

00:50:49,910 --> 00:50:48,400

rutkowski is a really good place for

1386

00:50:53,030 --> 00:50:49,920

people to start

1387

00:50:54,950 --> 00:50:53,040

there there's a lot of classic cases in

1388

00:50:57,349 --> 00:50:54,960

that book that

1389

00:50:59,190 --> 00:50:57,359

people should take a look at

1390

00:51:01,750 --> 00:50:59,200

it's uh

1391

00:51:02,790 --> 00:51:01,760

who was it by chris kratowski and jeff

1392

00:51:04,309 --> 00:51:02,800

dittman

1393

00:51:07,109 --> 00:51:04,319

okay

1394

00:51:08,630 --> 00:51:07,119

yeah the canadian ufo report the best

1395

00:51:10,390 --> 00:51:08,640

cases

1396

00:51:12,549 --> 00:51:10,400

revealed is something something along

1397

00:51:15,589 --> 00:51:12,559

those lines and

1398

00:51:17,430 --> 00:51:15,599

that has a lot of canadian history cases

1399

00:51:18,549 --> 00:51:17,440

in it with some explanations in it as

1400

00:51:20,230 --> 00:51:18,559

well

1401

00:51:23,270 --> 00:51:20,240

and

1402

00:51:25,670 --> 00:51:23,280

it it covers a very broad spectrum from

1403

00:51:27,829 --> 00:51:25,680

basically from the 40s till

1404

00:51:29,910 --> 00:51:27,839

until most recently like in the 2000s i

1405

00:51:33,030 --> 00:51:29,920

think it was right

1406

00:51:35,349 --> 00:51:33,040

now canada needs a louis lozando

1407

00:51:37,750 --> 00:51:35,359

and i think i'd vote for you to become

1408

00:51:38,549 --> 00:51:37,760

you know a candidate for that at least

1409

00:51:42,549 --> 00:51:38,559

yeah

1410

00:51:45,030 --> 00:51:42,559

because uh we you know recently we've

1411

00:51:47,670 --> 00:51:45,040

had uh a politician i think it's larry

1412

00:51:49,030 --> 00:51:47,680

mcguire that's been pushing for did i

1413

00:51:50,870 --> 00:51:49,040

get that right or i'm saying that's

1414

00:51:52,870 --> 00:51:50,880

right mixing jerry maguire with larry

1415

00:51:54,309 --> 00:51:52,880

mcguire

1416

00:51:55,510 --> 00:51:54,319

but he's come out and he said you know

1417

00:51:57,990 --> 00:51:55,520

he would like to know more about

1418

00:52:00,549 --> 00:51:58,000

canadian events with ufos near our

1419

00:52:02,549 --> 00:52:00,559

nuclear facilities and near our military

1420

00:52:04,870 --> 00:52:02,559

facilities as well which i thought oh

1421

00:52:06,470 --> 00:52:04,880

that's great momentum and then it just

1422

00:52:08,549 --> 00:52:06,480

went silent

1423

00:52:10,230 --> 00:52:08,559

and i don't know if he's gotten you know

1424

00:52:13,510 --> 00:52:10,240

some people say hey maybe lay off the

1425

00:52:15,910 --> 00:52:13,520

uap stuff but yeah the states is sort of

1426
00:52:18,069 --> 00:52:15,920
you know they're priming themselves up

1427
00:52:19,829 --> 00:52:18,079
right now to for disclosure and canada

1428
00:52:20,710 --> 00:52:19,839
just seems so

1429
00:52:25,910 --> 00:52:20,720
quiet

1430
00:52:28,309 --> 00:52:25,920
need a louis lozando in canada for sure

1431
00:52:31,510 --> 00:52:28,319
yeah we do we absolutely do

1432
00:52:35,589 --> 00:52:31,520
jason where can people find you online

1433
00:52:36,549 --> 00:52:35,599
so you could reach me on twitter at uap

1434
00:52:38,390 --> 00:52:36,559
bay

1435
00:52:40,390 --> 00:52:38,400
that's u a p

1436
00:52:43,750 --> 00:52:40,400
b a y

1437
00:52:45,109 --> 00:52:43,760
or you could drop me an email at t bay

1438
00:52:47,030 --> 00:52:45,119

mufon

1439

00:52:48,630 --> 00:52:47,040

at outlook.com

1440

00:52:50,549 --> 00:52:48,640

perfect

1441

00:52:51,670 --> 00:52:50,559

louie have any final questions for you i

1442

00:52:53,030 --> 00:52:51,680

just want to thank you very much for

1443

00:52:55,109 --> 00:52:53,040

coming on our show it's been a pleasure

1444

00:52:57,750 --> 00:52:55,119

chatting with you uh you represented

1445

00:52:59,109 --> 00:52:57,760

mufon and particularly canada really

1446

00:53:00,870 --> 00:52:59,119

really well so

1447

00:53:02,710 --> 00:53:00,880

we're proud to have some good minds uh

1448

00:53:05,589 --> 00:53:02,720

not only on the show but just in our

1449

00:53:07,670 --> 00:53:05,599

collective uh and as being canadians

1450

00:53:10,069 --> 00:53:07,680

we're just as into this as the americans

1451

00:53:12,230 --> 00:53:10,079

or the british or australians and this

1452

00:53:14,549 --> 00:53:12,240

is not a uh it's not a phenomenon that

1453

00:53:16,630 --> 00:53:14,559

has boundaries or borders and it's good

1454

00:53:19,190 --> 00:53:16,640

for people to keep that momentum going

1455

00:53:21,510 --> 00:53:19,200

if they're in germany doing this go hard

1456

00:53:23,349 --> 00:53:21,520

if you're in canada the u.s keep going

1457

00:53:24,870 --> 00:53:23,359

keep consuming the media let's get more

1458

00:53:26,790 --> 00:53:24,880

and more intelligent people hooked on

1459

00:53:28,150 --> 00:53:26,800

this we have people all the time tell us

1460

00:53:30,470 --> 00:53:28,160

that they're now into this because of

1461

00:53:31,910 --> 00:53:30,480

the show we put it in digestible little

1462

00:53:34,069 --> 00:53:31,920

snippets that everybody can take

1463

00:53:36,230 --> 00:53:34,079

something from so uh so thanks for being

1464

00:53:37,190 --> 00:53:36,240

a part of that and uh glad to have you

1465

00:53:39,910 --> 00:53:37,200

on the show

1466

00:53:42,549 --> 00:53:39,920

thanks very much for having me again and

1467

00:53:44,150 --> 00:53:42,559

uh we'll do it again sometime yo you got

1468

00:53:46,150 --> 00:53:44,160

it thanks jay

1469

00:53:47,589 --> 00:53:46,160

right on have a great one guys and

1470

00:53:51,030 --> 00:53:47,599

before we go

1471

00:53:52,950 --> 00:53:51,040
