

**UAP STUDIES  
PODCAST**

**THOMAS WINTERTON**

**HISTORY**

1  
00:00:05,170 --> 00:00:20,790

[Music]

2  
00:00:24,790 --> 00:00:22,790

all right here we go welcome to its uap

3  
00:00:26,950 --> 00:00:24,800

studies podcast a very special guest

4  
00:00:29,429 --> 00:00:26,960

today thomas winterton from skinwalker

5  
00:00:32,310 --> 00:00:29,439

ranch uh he's the second time returning

6  
00:00:34,549 --> 00:00:32,320

to the show so uh um joining me as usual

7  
00:00:36,470 --> 00:00:34,559

is uh jason gilmatt my uh studios

8  
00:00:38,709 --> 00:00:36,480

co-host how are you buddy oh i'm very

9  
00:00:40,549 --> 00:00:38,719

good i like your your choice of words uh

10  
00:00:42,549 --> 00:00:40,559

yeah very polite yeah it's uh it's a

11  
00:00:45,190 --> 00:00:42,559

complimentary day today so everybody's

12  
00:00:46,630 --> 00:00:45,200

everyone's gonna get pats on the back

13  
00:00:48,389 --> 00:00:46,640

so um for those of you that don't know

14

00:00:50,709 --> 00:00:48,399

about skinwalker ranch we're gonna cover

15

00:00:52,549 --> 00:00:50,719

what it is um you know briefly some of

16

00:00:54,389 --> 00:00:52,559

the phenomenon that's happened there the

17

00:00:57,189 --> 00:00:54,399

the rise in popularity which has

18

00:00:59,349 --> 00:00:57,199

obviously led to the show um and thomas

19

00:01:01,349 --> 00:00:59,359

can kind of explain sort of what brought

20

00:01:03,590 --> 00:01:01,359

him to the ranch and uh the first couple

21

00:01:05,189 --> 00:01:03,600

seasons and now uh what we can expect

22

00:01:07,350 --> 00:01:05,199

from season three so welcome to show

23

00:01:09,750 --> 00:01:07,360

thomas welcome back

24

00:01:11,910 --> 00:01:09,760

hey great thanks uh it's great to be

25

00:01:13,750 --> 00:01:11,920

back awesome so tell us a little bit

26

00:01:16,870 --> 00:01:13,760

about yourself uh sort of before the

27

00:01:18,550 --> 00:01:16,880

ranch and uh what led to you uh you know

28

00:01:19,830 --> 00:01:18,560

going there in the first place and then

29

00:01:22,070 --> 00:01:19,840

you know leading up to your position

30

00:01:24,550 --> 00:01:22,080

that you hold now

31

00:01:26,630 --> 00:01:24,560

uh yeah so before the ranch i was just

32

00:01:28,390 --> 00:01:26,640

uh as general contractor in the state of

33

00:01:30,310 --> 00:01:28,400

utah um

34

00:01:31,749 --> 00:01:30,320

specialized in building high-end custom

35

00:01:32,630 --> 00:01:31,759

homes like commercials that kind of

36

00:01:35,109 --> 00:01:32,640

stuff

37

00:01:38,149 --> 00:01:35,119

then built a couple small boutique

38

00:01:41,190 --> 00:01:38,159

hotels uh two here in the basin and one

39

00:01:43,109 --> 00:01:41,200

up north dakota and um

40

00:01:45,749 --> 00:01:43,119

that's how i came to be on the ranch was

41

00:01:47,670 --> 00:01:45,759

uh my wife and i were actually running

42

00:01:49,270 --> 00:01:47,680

one of those hotels here in roosevelt

43

00:01:51,030 --> 00:01:49,280

when brandon purchased the ranch in

44

00:01:52,710 --> 00:01:51,040

2016.

45

00:01:55,830 --> 00:01:52,720

and that first week that he had it he

46

00:01:58,230 --> 00:01:55,840

sent his uh close confidante friend jim

47

00:02:00,230 --> 00:01:58,240

morse out to help start figuring out you

48

00:02:03,990 --> 00:02:00,240

know exactly what they got

49

00:02:06,389 --> 00:02:04,000

jim actually checked into my uh hotel

50

00:02:08,790 --> 00:02:06,399

we got visiting he found out i was a

51  
00:02:10,309 --> 00:02:08,800  
licensed general contractor asked me if

52  
00:02:12,229 --> 00:02:10,319  
i would like to come out and do a

53  
00:02:14,630 --> 00:02:12,239  
property inspection form

54  
00:02:16,710 --> 00:02:14,640  
uh being the famous skinwalker ranch

55  
00:02:18,309 --> 00:02:16,720  
that was mysterious nobody comes on

56  
00:02:20,869 --> 00:02:18,319  
nobody goes off

57  
00:02:22,390 --> 00:02:20,879  
you know it's it's been the

58  
00:02:23,910 --> 00:02:22,400  
source of legends around here in the

59  
00:02:26,790 --> 00:02:23,920  
basin for

60  
00:02:28,550 --> 00:02:26,800  
for decades now and so uh i got that

61  
00:02:31,030 --> 00:02:28,560  
invitation to come out and do a property

62  
00:02:32,309 --> 00:02:31,040  
inspection form and grab uh gladly

63  
00:02:35,110 --> 00:02:32,319

accepted and

64

00:02:37,750 --> 00:02:35,120

went out and found that the ranch was in

65

00:02:38,869 --> 00:02:37,760

a pretty sad state of disrepair there

66

00:02:39,910 --> 00:02:38,879

were a lot of things that needed

67

00:02:40,869 --> 00:02:39,920

attention

68

00:02:42,470 --> 00:02:40,879

um

69

00:02:45,270 --> 00:02:42,480

there were some that were very very

70

00:02:47,990 --> 00:02:45,280

urgent needed immediate attention uh the

71

00:02:50,630 --> 00:02:48,000

waste water system now the sewer was not

72

00:02:52,229 --> 00:02:50,640

working properly and we had some legal

73

00:02:53,030 --> 00:02:52,239

issues with the county and the easement

74

00:02:53,990 --> 00:02:53,040

that went through the middle of the

75

00:02:56,869 --> 00:02:54,000

ranch

76

00:02:58,630 --> 00:02:56,879

so i helped brandon uh get those taken

77

00:03:00,550 --> 00:02:58,640

care of and fixed and brandon asked me

78

00:03:02,790 --> 00:03:00,560

if i would stay on and

79

00:03:05,190 --> 00:03:02,800

run the ranch seeing how i live here in

80

00:03:08,550 --> 00:03:05,200

roosevelt which is uh the closest

81

00:03:10,949 --> 00:03:08,560

city uh to the ranch and so

82

00:03:13,110 --> 00:03:10,959

been on helping ever since

83

00:03:14,790 --> 00:03:13,120

yeah and for those of us who don't uh or

84

00:03:16,869 --> 00:03:14,800

for those who haven't heard uh about

85

00:03:19,270 --> 00:03:16,879

sort of the ranch itself uh real quick

86

00:03:21,990 --> 00:03:19,280

so it's 480 acres it's in the uintah

87

00:03:24,390 --> 00:03:22,000

basin uh in utah uh purchased by a

88

00:03:27,030 --> 00:03:24,400

rancher family and in 1994 i believe it

89

00:03:28,789 --> 00:03:27,040

was uh they started having weird

90

00:03:31,030 --> 00:03:28,799

paranormal phenomena happen and things

91

00:03:32,949 --> 00:03:31,040

to kind of freak them out and two years

92

00:03:35,430 --> 00:03:32,959

later it was subsequently sold to robert

93

00:03:37,910 --> 00:03:35,440

bigelow um you know the creator of nids

94

00:03:40,710 --> 00:03:37,920

and obviously bigelow aerospace so he's

95

00:03:42,390 --> 00:03:40,720

a big enough name in itself and uh he uh

96

00:03:44,470 --> 00:03:42,400

he was the first one to actually spend

97

00:03:45,910 --> 00:03:44,480

some money and try to do some research

98

00:03:47,350 --> 00:03:45,920

and figure out like what's actually

99

00:03:49,509 --> 00:03:47,360

going on with this place and all the

100

00:03:50,789 --> 00:03:49,519

weird phenomenon that's happening and as

101  
00:03:54,470 --> 00:03:50,799  
you said subsequently it's been

102  
00:03:56,229 --> 00:03:54,480  
purchased by um brendan fogle in 2016 so

103  
00:03:58,390 --> 00:03:56,239  
the thing i find amazing about this

104  
00:04:01,509 --> 00:03:58,400  
ranch and again it predates this in

105  
00:04:04,070 --> 00:04:01,519  
legend too um the local native tribes

106  
00:04:06,229 --> 00:04:04,080  
believe that the land is cursed and the

107  
00:04:08,710 --> 00:04:06,239  
term skinwalker for them

108  
00:04:10,789 --> 00:04:08,720  
covers a large array of

109  
00:04:13,670 --> 00:04:10,799  
you know phenomenon whether it's lights

110  
00:04:16,949 --> 00:04:13,680  
or sightings or creatures or whatever it

111  
00:04:18,550 --> 00:04:16,959  
was all just chalked up to skinwalker um

112  
00:04:20,710 --> 00:04:18,560  
but some of the things that even our

113  
00:04:23,189 --> 00:04:20,720

previous guest george knapp uh mentioned

114

00:04:25,350 --> 00:04:23,199

in his book skin work is the pentagon

115

00:04:26,550 --> 00:04:25,360

you know it's ufos

116

00:04:28,469 --> 00:04:26,560

cryptids

117

00:04:32,230 --> 00:04:28,479

there's been temperature drops reported

118

00:04:34,629 --> 00:04:32,240

blue orbs bipedal wolf hybrid or skin

119

00:04:37,350 --> 00:04:34,639

walker type animals poltergeist

120

00:04:39,590 --> 00:04:37,360

phenomenon cattle mutilations uh even

121

00:04:42,150 --> 00:04:39,600

holes in the sky in portals which you

122

00:04:44,390 --> 00:04:42,160

know the show that you're on um uh

123

00:04:46,310 --> 00:04:44,400

highlighted as well so maybe uh take us

124

00:04:48,469 --> 00:04:46,320

through season one of uh of that show

125

00:04:49,909 --> 00:04:48,479

with brendan fugle and yourself and

126  
00:04:51,510 --> 00:04:49,919  
travis taylor and all the rest of those

127  
00:04:53,189 --> 00:04:51,520  
guys

128  
00:04:58,629 --> 00:04:53,199  
yeah you know it's interesting it seemed

129  
00:05:04,230 --> 00:05:01,189  
we all at least all of our team came on

130  
00:05:05,990 --> 00:05:04,240  
as really healthy skeptics um

131  
00:05:07,110 --> 00:05:06,000  
we'd heard a lot of these stories you

132  
00:05:10,790 --> 00:05:07,120  
know many of the things you just

133  
00:05:13,430 --> 00:05:10,800  
mentioned and came on and

134  
00:05:15,510 --> 00:05:13,440  
really was just observing to see is

135  
00:05:16,390 --> 00:05:15,520  
there really anything strange going on

136  
00:05:18,629 --> 00:05:16,400  
here

137  
00:05:21,029 --> 00:05:18,639  
it didn't take very long before

138  
00:05:23,510 --> 00:05:21,039

uh i you know we all started having our

139

00:05:25,749 --> 00:05:23,520

own experiences there i i personally

140

00:05:28,950 --> 00:05:25,759

started having experiences there brandon

141

00:05:31,189 --> 00:05:28,960

uh in a group had their sightings there

142

00:05:33,430 --> 00:05:31,199

and so very quickly

143

00:05:35,909 --> 00:05:33,440

the question turned from is there

144

00:05:37,510 --> 00:05:35,919

something happening to the ranch or at

145

00:05:39,590 --> 00:05:37,520

the ranch to

146

00:05:41,830 --> 00:05:39,600

wow there is something happening here

147

00:05:42,710 --> 00:05:41,840

you know what what do we do

148

00:05:44,870 --> 00:05:42,720

um

149

00:05:47,029 --> 00:05:44,880

a lot of a lot of discussions about

150

00:05:48,629 --> 00:05:47,039

whether to to share with the public the

151  
00:05:50,950 --> 00:05:48,639  
things that we were witnessing whether

152  
00:05:52,790 --> 00:05:50,960  
we kept it private you know uh to this

153  
00:05:55,510 --> 00:05:52,800  
day we've still not received any data

154  
00:05:56,790 --> 00:05:55,520  
from uh the bigelow era

155  
00:06:00,550 --> 00:05:56,800  
and so

156  
00:06:02,070 --> 00:06:00,560  
we were the pros and cons and and

157  
00:06:04,790 --> 00:06:02,080  
you know the right time at the right

158  
00:06:07,029 --> 00:06:04,800  
place i guess we got cj allard uh that

159  
00:06:08,710 --> 00:06:07,039  
comes and and

160  
00:06:11,270 --> 00:06:08,720  
goes through with us and finally

161  
00:06:13,749 --> 00:06:11,280  
convinces brandon to to do

162  
00:06:15,189 --> 00:06:13,759  
a show and uh and so we started to

163  
00:06:17,670 --> 00:06:15,199

season one and

164

00:06:18,950 --> 00:06:17,680

and we bring you know as part of the

165

00:06:20,790 --> 00:06:18,960

show

166

00:06:22,390 --> 00:06:20,800

the agreement really was is look we're

167

00:06:23,830 --> 00:06:22,400

going to do this but we're not casting

168

00:06:25,430 --> 00:06:23,840

like you're going to come and follow our

169

00:06:28,309 --> 00:06:25,440

investigation that means we're using our

170

00:06:30,550 --> 00:06:28,319

team members we're using

171

00:06:32,390 --> 00:06:30,560

you know we're not casting this and and

172

00:06:34,870 --> 00:06:32,400

it's a pretty big risk for the network

173

00:06:36,790 --> 00:06:34,880

uh you have a bunch of individuals that

174

00:06:38,070 --> 00:06:36,800

are unknown i mean it's one thing to be

175

00:06:40,870 --> 00:06:38,080

out there doing science but can you

176

00:06:43,029 --> 00:06:40,880

carry a television show you know ratings

177

00:06:45,830 --> 00:06:43,039

ratings are the name of the game

178

00:06:47,909 --> 00:06:45,840

and and it's amazing how many people get

179

00:06:49,749 --> 00:06:47,919

out there and turn the cameras on and

180

00:06:51,589 --> 00:06:49,759

they freeze or they

181

00:06:54,230 --> 00:06:51,599

you know they they're not acting like

182

00:06:57,029 --> 00:06:54,240

normal and so i can imagine from the

183

00:06:58,710 --> 00:06:57,039

network side there's a there's a fairly

184

00:07:00,070 --> 00:06:58,720

substantial risk there you don't know

185

00:07:02,469 --> 00:07:00,080

how these individuals are going to

186

00:07:05,830 --> 00:07:02,479

translate on camera

187

00:07:08,390 --> 00:07:05,840

and uh they really wanted to have

188

00:07:09,830 --> 00:07:08,400

an additional scientist there uh that

189

00:07:11,589 --> 00:07:09,840

they knew

190

00:07:13,830 --> 00:07:11,599

would translate right and so you have

191

00:07:17,670 --> 00:07:13,840

travis taylor who's done rocket city

192

00:07:20,629 --> 00:07:17,680

rednecks the tesla files and and uh

193

00:07:22,629 --> 00:07:20,639

and travis i mean he he he flat out just

194

00:07:25,589 --> 00:07:22,639

told us straight up he thought we were

195

00:07:26,629 --> 00:07:25,599

all bat [\h\_\_\h] crazy

196

00:07:27,990 --> 00:07:26,639

um

197

00:07:29,749 --> 00:07:28,000

and he didn't think there was anything

198

00:07:31,830 --> 00:07:29,759

happening on that ranch that couldn't be

199

00:07:33,909 --> 00:07:31,840

explained in under two weeks

200

00:07:35,589 --> 00:07:33,919

so we get travis out there you know you

201  
00:07:37,990 --> 00:07:35,599  
see in season one we get travis out

202  
00:07:41,909 --> 00:07:38,000  
there and and immediately things start

203  
00:07:44,469 --> 00:07:41,919  
to happen we start seeing rf and

204  
00:07:46,230 --> 00:07:44,479  
and signals that we can't figure out you

205  
00:07:49,670 --> 00:07:46,240  
know where they're coming from

206  
00:07:52,390 --> 00:07:49,680  
we end up triangulating uh i think big

207  
00:07:54,710 --> 00:07:52,400  
takeaway in season one was is that uh

208  
00:07:57,029 --> 00:07:54,720  
yes there are some things going on here

209  
00:07:59,029 --> 00:07:57,039  
that are strange and we we started to

210  
00:08:02,550 --> 00:07:59,039  
identify some areas

211  
00:08:04,629 --> 00:08:02,560  
i i say we started to identify we had we

212  
00:08:06,309 --> 00:08:04,639  
caught some things during the show that

213  
00:08:08,469 --> 00:08:06,319

that indicated there may be something

214

00:08:11,510 --> 00:08:08,479

happening above the triangle

215

00:08:13,589 --> 00:08:11,520

um we had triangulated some signals that

216

00:08:14,869 --> 00:08:13,599

that seem to be coming from about a mile

217

00:08:16,230 --> 00:08:14,879

high

218

00:08:19,029 --> 00:08:16,240

um

219

00:08:22,150 --> 00:08:19,039

which really took us kind of into

220

00:08:23,830 --> 00:08:22,160

uh season two yeah season one i you know

221

00:08:26,309 --> 00:08:23,840

you don't i don't want to forget too we

222

00:08:28,230 --> 00:08:26,319

had i had a scare where i started to

223

00:08:29,670 --> 00:08:28,240

have a little bit of a reoccurrence on

224

00:08:31,430 --> 00:08:29,680

my head injury

225

00:08:32,949 --> 00:08:31,440

travis

226

00:08:36,230 --> 00:08:32,959

see i get the seasons mixed up now i

227

00:08:37,670 --> 00:08:36,240

think it was season one when travis yeah

228

00:08:41,589 --> 00:08:37,680

radiation

229

00:08:43,190 --> 00:08:41,599

equipment going off and see that was a

230

00:08:44,550 --> 00:08:43,200

big concern when we started this show

231

00:08:46,310 --> 00:08:44,560

the network was

232

00:08:48,230 --> 00:08:46,320

everything is about liability i mean

233

00:08:50,630 --> 00:08:48,240

everybody's trying to cover their butts

234

00:08:52,470 --> 00:08:50,640

and so here we are touting how dangerous

235

00:08:55,350 --> 00:08:52,480

this ranch is and of course i've had

236

00:08:57,590 --> 00:08:55,360

this head injury almost cost me my life

237

00:08:59,829 --> 00:08:57,600

so the network came on very cautious and

238

00:09:02,630 --> 00:08:59,839

before we even started filming we

239

00:09:05,350 --> 00:09:02,640

brought falltech out of uh idaho

240

00:09:07,750 --> 00:09:05,360

down they do a lot of testing

241

00:09:10,310 --> 00:09:07,760

for the military for the government

242

00:09:11,990 --> 00:09:10,320

they're experts in radiation and that

243

00:09:13,750 --> 00:09:12,000

kind of stuff so they came down did a

244

00:09:16,150 --> 00:09:13,760

sweep of the ranch

245

00:09:18,150 --> 00:09:16,160

and we got a clean bill of health right

246

00:09:19,829 --> 00:09:18,160

not a not a trace

247

00:09:22,070 --> 00:09:19,839

so

248

00:09:25,269 --> 00:09:22,080

here comes travis and he's getting

249

00:09:27,910 --> 00:09:25,279

radiation burns and our equipment's just

250

00:09:29,350 --> 00:09:27,920

going crazy uh we had multiple meters

251  
00:09:30,150 --> 00:09:29,360  
indicating that there had been a high

252  
00:09:33,269 --> 00:09:30,160  
level

253  
00:09:34,790 --> 00:09:33,279  
uh high dose of uh radiation

254  
00:09:37,030 --> 00:09:34,800  
where did it come from i mean we we

255  
00:09:39,110 --> 00:09:37,040  
swept the ranch so immediately you know

256  
00:09:40,710 --> 00:09:39,120  
we shut everything down we bring

257  
00:09:43,190 --> 00:09:40,720  
qualtech back down

258  
00:09:45,590 --> 00:09:43,200  
they go and they do a complete thorough

259  
00:09:46,870 --> 00:09:45,600  
uh search and analysis of the areas that

260  
00:09:47,910 --> 00:09:46,880  
we were in

261  
00:09:49,990 --> 00:09:47,920  
nothing

262  
00:09:51,590 --> 00:09:50,000  
well you know anybody that knows about

263  
00:09:52,630 --> 00:09:51,600

that just knows that doesn't just come

264

00:09:55,910 --> 00:09:52,640

and go

265

00:09:58,310 --> 00:09:55,920

yeah and so that really

266

00:10:00,550 --> 00:09:58,320

you know those couple of instances

267

00:10:02,630 --> 00:10:00,560

um

268

00:10:05,190 --> 00:10:02,640

i'll never forget after qualtech comes

269

00:10:07,430 --> 00:10:05,200

down and sweeps you know they just did

270

00:10:09,269 --> 00:10:07,440

their second sweep after travis gets

271

00:10:10,870 --> 00:10:09,279

radiated we bring him down they do the

272

00:10:11,829 --> 00:10:10,880

second sweep we're down there filming

273

00:10:13,670 --> 00:10:11,839

around the

274

00:10:15,829 --> 00:10:13,680

homestead 2 area

275

00:10:17,430 --> 00:10:15,839

we can't find anything the cameras are

276

00:10:18,949 --> 00:10:17,440

going down for the day travis walks out

277

00:10:21,350 --> 00:10:18,959

of homestead too and he's all y'all i

278

00:10:22,870 --> 00:10:21,360

think i'm going bat [\h\_\_\h] crazy and and

279

00:10:24,870 --> 00:10:22,880

really that was the highlight of season

280

00:10:26,949 --> 00:10:24,880

one for all of us was

281

00:10:29,030 --> 00:10:26,959

making a believer out of travis i mean

282

00:10:31,110 --> 00:10:29,040

him having his own experiences and we

283

00:10:33,269 --> 00:10:31,120

come into season two and and we start

284

00:10:35,670 --> 00:10:33,279

drilling down a little bit more

285

00:10:38,150 --> 00:10:35,680

uh we we did the big holes there

286

00:10:40,150 --> 00:10:38,160

in uh the triangle

287

00:10:42,470 --> 00:10:40,160

um

288

00:10:45,110 --> 00:10:42,480

again just had a lot of

289

00:10:46,870 --> 00:10:45,120

unexplainable things happen and uh you

290

00:10:48,550 --> 00:10:46,880

poured some water down

291

00:10:50,069 --> 00:10:48,560

an opening as well did you not and put

292

00:10:51,910 --> 00:10:50,079

some dye in it just to see where it

293

00:10:54,230 --> 00:10:51,920

would potentially be draining out if

294

00:10:55,990 --> 00:10:54,240

anywhere and the water just disappeared

295

00:10:59,110 --> 00:10:56,000

never never went anywhere right was

296

00:11:01,750 --> 00:10:59,120

never never found after the fact

297

00:11:04,230 --> 00:11:01,760

yeah so you know

298

00:11:06,150 --> 00:11:04,240

look we inherited a narrative so that's

299

00:11:07,670 --> 00:11:06,160

really what we got from the bigelow era

300

00:11:10,150 --> 00:11:07,680

we didn't get data we didn't get any

301  
00:11:11,910 --> 00:11:10,160  
details really we we inherited a

302  
00:11:13,670 --> 00:11:11,920  
narrative and part of this narrative

303  
00:11:15,990 --> 00:11:13,680  
that we received is that there's large

304  
00:11:18,310 --> 00:11:16,000  
caverns there's there's an underground

305  
00:11:20,550 --> 00:11:18,320  
base right there's tunnels inside the

306  
00:11:24,630 --> 00:11:20,560  
mesa there's a report that the mesa

307  
00:11:25,590 --> 00:11:24,640  
opened up and a craft flew into the mesa

308  
00:11:26,949 --> 00:11:25,600  
so

309  
00:11:28,550 --> 00:11:26,959  
we're looking all over the property

310  
00:11:29,590 --> 00:11:28,560  
trying to find these caverns these

311  
00:11:31,910 --> 00:11:29,600  
tunnels

312  
00:11:34,230 --> 00:11:31,920  
any type of evidence that would indicate

313  
00:11:35,190 --> 00:11:34,240

that yes there's some type of cavernous

314

00:11:36,870 --> 00:11:35,200

void

315

00:11:38,069 --> 00:11:36,880

you know whether it's under the ranch or

316

00:11:40,310 --> 00:11:38,079

mesa

317

00:11:42,150 --> 00:11:40,320

and uh in in just my regular

318

00:11:44,870 --> 00:11:42,160

responsibilities one of the things i do

319

00:11:46,389 --> 00:11:44,880

is irrigate the ranch we have to water

320

00:11:49,990 --> 00:11:46,399

it to keep it green

321

00:11:52,550 --> 00:11:50,000

and uh there's there by homestead two

322

00:11:55,269 --> 00:11:52,560

uh between season one and scene two i'm

323

00:11:57,990 --> 00:11:55,279

i'm irrigating and and uh there's this

324

00:11:59,990 --> 00:11:58,000

pit off to the side of homestead two

325

00:12:02,310 --> 00:12:00,000

and it's filled with trees and brush and

326

00:12:04,230 --> 00:12:02,320

all kinds of stuff

327

00:12:06,310 --> 00:12:04,240

that makes it impossible to see just how

328

00:12:08,470 --> 00:12:06,320

deep this pit is

329

00:12:10,389 --> 00:12:08,480

well my thought was is that if i

330

00:12:12,230 --> 00:12:10,399

diverted there you know my

331

00:12:13,670 --> 00:12:12,240

irrigation canal ran right to the side

332

00:12:15,430 --> 00:12:13,680

of it and i thought well

333

00:12:17,030 --> 00:12:15,440

and i had a pretty good stream of water

334

00:12:19,509 --> 00:12:17,040

i thought well maybe if i just divert

335

00:12:21,670 --> 00:12:19,519

that in you know how fast it fills up

336

00:12:23,590 --> 00:12:21,680

will tell me how deep it is so i

337

00:12:26,550 --> 00:12:23,600

diverted the water

338

00:12:29,030 --> 00:12:26,560

and it took a long time to fill that up

339

00:12:31,750 --> 00:12:29,040

i forget now i've got it written down

340

00:12:33,590 --> 00:12:31,760

somewhere but i want to say it took like

341

00:12:37,350 --> 00:12:33,600

three hours to fill that thing up this

342

00:12:40,310 --> 00:12:37,360

is a pretty good stream of water yeah so

343

00:12:41,670 --> 00:12:40,320

i'm thinking okay so i cut the water off

344

00:12:43,910 --> 00:12:41,680

to it

345

00:12:45,110 --> 00:12:43,920

and within 15 minutes the water's out of

346

00:12:46,230 --> 00:12:45,120

sight

347

00:12:47,430 --> 00:12:46,240

which

348

00:12:49,590 --> 00:12:47,440

told me

349

00:12:51,350 --> 00:12:49,600

maybe it's not deep maybe the water is

350

00:12:53,350 --> 00:12:51,360

traveling somewhere i mean for the water

351  
00:12:54,310 --> 00:12:53,360  
disappear that quick and and the other

352  
00:12:56,870 --> 00:12:54,320  
thing

353  
00:12:58,949 --> 00:12:56,880  
important uh detail to note in this is

354  
00:13:00,470 --> 00:12:58,959  
right there in that area if you look all

355  
00:13:01,350 --> 00:13:00,480  
the way around the homestead there it's

356  
00:13:05,590 --> 00:13:01,360  
clay

357  
00:13:07,910 --> 00:13:05,600  
line our pawns and stuff play around

358  
00:13:10,790 --> 00:13:07,920  
here to keep the water from leaching

359  
00:13:13,750 --> 00:13:10,800  
down through so clay is not a good

360  
00:13:15,190 --> 00:13:13,760  
uh soil to be absorbing water so it had

361  
00:13:16,629 --> 00:13:15,200  
to be going somewhere

362  
00:13:19,269 --> 00:13:16,639  
and so

363  
00:13:22,550 --> 00:13:19,279

uh as you saw on tv we

364

00:13:23,910 --> 00:13:22,560

we redid that exercise where um we

365

00:13:25,509 --> 00:13:23,920

diverted the water in there and we

366

00:13:28,150 --> 00:13:25,519

poured the dye in

367

00:13:31,190 --> 00:13:28,160

so that we could see where it was going

368

00:13:33,509 --> 00:13:31,200

and we watched matter of fact see that

369

00:13:36,629 --> 00:13:33,519

that dye glows with uh you can hit it

370

00:13:39,269 --> 00:13:36,639

with blacklight at night and it'll glow

371

00:13:41,350 --> 00:13:39,279

and so we poured it in there

372

00:13:43,350 --> 00:13:41,360

i think we put either 30 or 40 000

373

00:13:46,310 --> 00:13:43,360

gallons of water in there

374

00:13:47,990 --> 00:13:46,320

and that's a lot of water you know

375

00:13:49,670 --> 00:13:48,000

you know the funny thing this little bit

376

00:13:51,269 --> 00:13:49,680

of behind the scenes

377

00:13:52,629 --> 00:13:51,279

uh

378

00:13:54,710 --> 00:13:52,639

filming is such

379

00:13:57,590 --> 00:13:54,720

sometimes filming with science is

380

00:13:58,790 --> 00:13:57,600

frustrating uh i was gonna sell that

381

00:14:04,150 --> 00:13:58,800

yeah

382

00:14:06,629 --> 00:14:04,160

of filming and so we started that day

383

00:14:08,629 --> 00:14:06,639

that we started to fill that

384

00:14:10,310 --> 00:14:08,639

that the deal was is that the production

385

00:14:12,870 --> 00:14:10,320

everybody's going to be there and i

386

00:14:14,870 --> 00:14:12,880

don't quite remember what happened we

387

00:14:16,629 --> 00:14:14,880

started filling this pit

388

00:14:18,629 --> 00:14:16,639

and then all of a sudden we got the we

389

00:14:21,110 --> 00:14:18,639

got the signal like hey hang on there's

390

00:14:23,430 --> 00:14:21,120

a delay so we shut the water off

391

00:14:26,790 --> 00:14:23,440

so all that water disappeared

392

00:14:29,030 --> 00:14:26,800

and and it was probably i mean we

393

00:14:31,189 --> 00:14:29,040

we'd filled up pretty good amounts and

394

00:14:33,670 --> 00:14:31,199

then we had to stop it right to wait for

395

00:14:35,750 --> 00:14:33,680

production so now we get film guys over

396

00:14:37,910 --> 00:14:35,760

there and we start over again so what

397

00:14:41,590 --> 00:14:37,920

you see on tv we already dumped a ton of

398

00:14:45,030 --> 00:14:41,600

water in there before we even got to

399

00:14:48,069 --> 00:14:45,040

the filming park right and so um we put

400

00:14:49,910 --> 00:14:48,079

30 or 40 000 gallons down this hole

401  
00:14:51,590 --> 00:14:49,920  
we watched it for a couple weeks because

402  
00:14:55,030 --> 00:14:51,600  
we thought maybe there you know maybe it

403  
00:14:57,030 --> 00:14:55,040  
would surface someplace even at night

404  
00:14:58,389 --> 00:14:57,040  
after after we were done filming then a

405  
00:15:00,629 --> 00:14:58,399  
couple of us guys

406  
00:15:01,990 --> 00:15:00,639  
get on the utvs ride down through the

407  
00:15:03,189 --> 00:15:02,000  
there's a

408  
00:15:05,509 --> 00:15:03,199  
creek that runs through the middle of

409  
00:15:07,189 --> 00:15:05,519  
the ranch we take the black lights down

410  
00:15:08,870 --> 00:15:07,199  
there we were scanning along the edges

411  
00:15:12,069 --> 00:15:08,880  
looking for traces

412  
00:15:14,069 --> 00:15:12,079  
uh we have no idea where it went

413  
00:15:15,670 --> 00:15:14,079

well yeah what what is it about the

414

00:15:16,949 --> 00:15:15,680

disturbing the ground because i know in

415

00:15:18,230 --> 00:15:16,959

season one

416

00:15:19,910 --> 00:15:18,240

you know when you were sort of

417

00:15:22,230 --> 00:15:19,920

introducing the ranch and the phenomenon

418

00:15:24,790 --> 00:15:22,240

to everybody and i think it was dragon

419

00:15:26,629 --> 00:15:24,800

who was super against like digging we're

420

00:15:28,069 --> 00:15:26,639

not doing any digging you know the

421

00:15:29,910 --> 00:15:28,079

belief being that that's what kind of

422

00:15:31,829 --> 00:15:29,920

spooks on this phenomenon and makes

423

00:15:33,749 --> 00:15:31,839

things go nuts is when you start messing

424

00:15:35,829 --> 00:15:33,759

with the ground so what was it about

425

00:15:38,790 --> 00:15:35,839

that maybe you could elaborate on that

426

00:15:40,629 --> 00:15:38,800

uh you know the fear behind digging

427

00:15:42,230 --> 00:15:40,639

there was there was a lot of different

428

00:15:43,430 --> 00:15:42,240

fears and and

429

00:15:44,629 --> 00:15:43,440

um

430

00:15:46,710 --> 00:15:44,639

so

431

00:15:48,389 --> 00:15:46,720

we again going back to this narrative

432

00:15:49,910 --> 00:15:48,399

that we inherited it is one of the first

433

00:15:52,629 --> 00:15:49,920

things that was told to me when i

434

00:15:54,790 --> 00:15:52,639

started working on the ranch uh bigelow

435

00:15:56,629 --> 00:15:54,800

security team they either use their own

436

00:15:58,629 --> 00:15:56,639

vehicle to drive across the little road

437

00:15:59,509 --> 00:15:58,639

that crosses the ranch or they were on

438

00:16:01,350 --> 00:15:59,519

foot

439

00:16:03,269 --> 00:16:01,360

and and that little road that crosses

440

00:16:04,310 --> 00:16:03,279

the ranch just goes east to west but it

441

00:16:05,509 --> 00:16:04,320

doesn't

442

00:16:07,269 --> 00:16:05,519

i mean it kind of takes you through the

443

00:16:10,629 --> 00:16:07,279

middle of a property

444

00:16:11,670 --> 00:16:10,639

so if we wanted to traverse the the

445

00:16:15,269 --> 00:16:11,680

property

446

00:16:18,389 --> 00:16:15,279

it was either by foot or i mean we got

447

00:16:21,110 --> 00:16:18,399

utvs but we the brush was so thick and

448

00:16:22,949 --> 00:16:21,120

and so one of the first things that um i

449

00:16:25,749 --> 00:16:22,959

decided when brandon turned the place

450

00:16:28,230 --> 00:16:25,759

over to me and speaking with eric and

451  
00:16:29,829 --> 00:16:28,240  
and dragon was we need a way to be able

452  
00:16:32,790 --> 00:16:29,839  
to get these utvs around the perimeter

453  
00:16:34,790 --> 00:16:32,800  
of the property it's it's hard to secure

454  
00:16:38,710 --> 00:16:34,800  
512 acres

455  
00:16:41,990 --> 00:16:38,720  
on foot and so um i went to i went to

456  
00:16:43,509 --> 00:16:42,000  
town starting to blaze the roads and my

457  
00:16:45,590 --> 00:16:43,519  
intention was to build a road around the

458  
00:16:48,629 --> 00:16:45,600  
entire perimeter so we could get the

459  
00:16:50,230 --> 00:16:48,639  
utvs around quickly and

460  
00:16:51,670 --> 00:16:50,240  
you know i was just on the very

461  
00:16:53,749 --> 00:16:51,680  
beginning stages of that when i got

462  
00:16:56,069 --> 00:16:53,759  
pulled aside um

463  
00:16:58,470 --> 00:16:56,079

and told hey

464

00:17:00,550 --> 00:16:58,480

just so you know you know the bigelow

465

00:17:01,670 --> 00:17:00,560

the scientists they actually didn't say

466

00:17:04,789 --> 00:17:01,680

scientists they just said the people

467

00:17:06,710 --> 00:17:04,799

from the bigelow era said that um bad

468

00:17:08,710 --> 00:17:06,720

things happen when you dig that there

469

00:17:10,789 --> 00:17:08,720

shouldn't be any digging

470

00:17:12,549 --> 00:17:10,799

and of course my first reaction is

471

00:17:13,829 --> 00:17:12,559

that's the dumbest thing i've ever heard

472

00:17:16,069 --> 00:17:13,839

like

473

00:17:17,909 --> 00:17:16,079

naturally

474

00:17:19,669 --> 00:17:17,919

ranch i mean that's what we do we dig

475

00:17:22,470 --> 00:17:19,679

ditches i'm looking around i'm seeing

476  
00:17:23,990 --> 00:17:22,480  
the ditches obviously the ranch house

477  
00:17:25,590 --> 00:17:24,000  
has a basement

478  
00:17:28,390 --> 00:17:25,600  
i mean there's all kinds of signs of

479  
00:17:30,710 --> 00:17:28,400  
digging on the place right

480  
00:17:33,510 --> 00:17:30,720  
and so i just shrugged it off that's

481  
00:17:35,190 --> 00:17:33,520  
absurd and i went about my business

482  
00:17:36,390 --> 00:17:35,200  
building these roads

483  
00:17:39,430 --> 00:17:36,400  
and

484  
00:17:41,990 --> 00:17:39,440  
i had so many things happen

485  
00:17:43,830 --> 00:17:42,000  
to both myself and the equipment in the

486  
00:17:45,190 --> 00:17:43,840  
process of building those roads i'll

487  
00:17:48,470 --> 00:17:45,200  
tell you right now

488  
00:17:51,270 --> 00:17:48,480

uh there's a there's a specific section

489

00:17:52,310 --> 00:17:51,280

of ranch that i have not finished yet

490

00:17:53,350 --> 00:17:52,320

uh

491

00:17:57,830 --> 00:17:53,360

my

492

00:17:59,110 --> 00:17:57,840

which would ran i mean it was basically

493

00:18:02,390 --> 00:17:59,120

brand new when i took it out to the

494

00:18:04,789 --> 00:18:02,400

ranch i had 400 hours on it

495

00:18:07,750 --> 00:18:04,799

um when i took it out there so anybody

496

00:18:10,390 --> 00:18:07,760

else equipment knows it was a case for

497

00:18:11,590 --> 00:18:10,400

a case 440 skid steer

498

00:18:14,390 --> 00:18:11,600

and uh

499

00:18:15,830 --> 00:18:14,400

400 hours on it so i mean it's basically

500

00:18:16,950 --> 00:18:15,840

brand new

501  
00:18:19,510 --> 00:18:16,960  
and

502  
00:18:22,710 --> 00:18:19,520  
just from the things that happened to it

503  
00:18:25,110 --> 00:18:22,720  
there on the ranch within within

504  
00:18:27,510 --> 00:18:25,120  
what is it two years

505  
00:18:30,070 --> 00:18:27,520  
the thing that it shot a rock rod

506  
00:18:32,310 --> 00:18:30,080  
straight out the side of the motor and

507  
00:18:35,750 --> 00:18:32,320  
like i maintain my equipment

508  
00:18:38,870 --> 00:18:37,029  
there are just so many things i'll give

509  
00:18:41,029 --> 00:18:38,880  
you an example one day i did a pretty

510  
00:18:42,630 --> 00:18:41,039  
deep cut going down into the creek on

511  
00:18:44,630 --> 00:18:42,640  
the south side of the ranch

512  
00:18:46,710 --> 00:18:44,640  
and the next morning when i come to get

513  
00:18:48,549 --> 00:18:46,720

in my skid steer to start working

514

00:18:51,110 --> 00:18:48,559

batteries were dead

515

00:18:52,630 --> 00:18:51,120

well that's we we have battery loss all

516

00:18:54,789 --> 00:18:52,640

the time out there

517

00:18:57,110 --> 00:18:54,799

so i got my tr i had a diesel pickup of

518

00:18:59,029 --> 00:18:57,120

the time you know heavy duty batteries

519

00:19:01,750 --> 00:18:59,039

and i had the great big industrial heavy

520

00:19:03,270 --> 00:19:01,760

duty jumper cables put it on there i've

521

00:19:05,270 --> 00:19:03,280

had dead battery on that skid steer

522

00:19:07,190 --> 00:19:05,280

before i forgot to turn the key off and

523

00:19:09,669 --> 00:19:07,200

it would run dead well the key wasn't

524

00:19:11,270 --> 00:19:09,679

turned off so whatever ran dead

525

00:19:12,549 --> 00:19:11,280

didn't come from me leaving the key

526

00:19:14,549 --> 00:19:12,559

turned on

527

00:19:16,710 --> 00:19:14,559

put the jumper cables on go to start

528

00:19:18,310 --> 00:19:16,720

truck or go to start it and it won't

529

00:19:19,750 --> 00:19:18,320

even click

530

00:19:20,950 --> 00:19:19,760

like i mean

531

00:19:22,549 --> 00:19:20,960

it's almost as if i'm not making

532

00:19:24,630 --> 00:19:22,559

connections so i sit there and fiddle

533

00:19:26,950 --> 00:19:24,640

around for 30 minutes trying to get

534

00:19:29,350 --> 00:19:26,960

these jumper cables finally i go over to

535

00:19:32,549 --> 00:19:29,360

the the command center and grab the

536

00:19:35,270 --> 00:19:32,559

uh got a big commercial um

537

00:19:39,430 --> 00:19:35,280

battery jumper there like that you know

538

00:19:42,230 --> 00:19:41,029

and uh this is the kind you plug into

539

00:19:43,669 --> 00:19:42,240

the wall

540

00:19:45,590 --> 00:19:43,679

and uh

541

00:19:49,029 --> 00:19:45,600

you know i i put it on the engine starts

542

00:19:50,870 --> 00:19:49,039

like 225 amps or whatever to start it so

543

00:19:54,789 --> 00:19:50,880

i left the jumper cables on from my

544

00:19:56,549 --> 00:19:54,799

truck and i put the thing on the the

545

00:19:58,630 --> 00:19:56,559

charger cables on it

546

00:20:00,789 --> 00:19:58,640

and it's still nothing i mean i couldn't

547

00:20:02,470 --> 00:20:00,799

get it to register so i ended what i

548

00:20:05,029 --> 00:20:02,480

ended up doing is i took the batteries

549

00:20:07,029 --> 00:20:05,039

out took them in got got them replaced

550

00:20:08,950 --> 00:20:07,039

brought them out and it fired right up

551  
00:20:11,110 --> 00:20:08,960  
so whatever drain those batteries drain

552  
00:20:13,110 --> 00:20:11,120  
them to a point that they couldn't be

553  
00:20:14,870 --> 00:20:13,120  
uh they couldn't be

554  
00:20:16,549 --> 00:20:14,880  
maybe flatlined basically you can't

555  
00:20:18,310 --> 00:20:16,559  
charge them up again

556  
00:20:20,710 --> 00:20:18,320  
yep they were ruined

557  
00:20:21,590 --> 00:20:20,720  
how often does your cell phone go out as

558  
00:20:22,950 --> 00:20:21,600  
well

559  
00:20:24,549 --> 00:20:22,960  
like how often do you get those

560  
00:20:27,669 --> 00:20:24,559  
occurrences

561  
00:20:29,909 --> 00:20:27,679  
that that happens a lot and it happens

562  
00:20:32,310 --> 00:20:29,919  
you know season one and two i'll tell

563  
00:20:34,070 --> 00:20:32,320

you right now uh

564

00:20:36,070 --> 00:20:34,080

i'm i'm trying to think if there was

565

00:20:37,909 --> 00:20:36,080

ever an exception to this

566

00:20:40,310 --> 00:20:37,919

um you know a lot of these a lot of

567

00:20:42,149 --> 00:20:40,320

these companies we bringing on these

568

00:20:44,149 --> 00:20:42,159

experts

569

00:20:45,990 --> 00:20:44,159

i mean this this is really a huge

570

00:20:47,430 --> 00:20:46,000

opportunity for them to showcase their

571

00:20:50,390 --> 00:20:47,440

company and what they do i mean they're

572

00:20:52,950 --> 00:20:50,400

on international television and so a lot

573

00:20:55,510 --> 00:20:52,960

of them are very excited to be there

574

00:20:57,350 --> 00:20:55,520

to come to to be able to showcase their

575

00:20:58,630 --> 00:20:57,360

company and what they're doing and they

576  
00:21:00,710 --> 00:20:58,640  
don't want to come and look like a bunch

577  
00:21:02,870 --> 00:21:00,720  
of idiots and so

578  
00:21:05,350 --> 00:21:02,880  
you know these people come on they're

579  
00:21:08,149 --> 00:21:05,360  
well prepared and it's funny because

580  
00:21:10,470 --> 00:21:08,159  
every time uh for example the gpr people

581  
00:21:11,830 --> 00:21:10,480  
i remember

582  
00:21:14,630 --> 00:21:11,840  
zach and

583  
00:21:16,870 --> 00:21:14,640  
phil they come out to do gpr

584  
00:21:19,190 --> 00:21:16,880  
and they pull their equipment out and we

585  
00:21:21,590 --> 00:21:19,200  
go to turn it on and the battery's dead

586  
00:21:23,990 --> 00:21:21,600  
and and phil was so

587  
00:21:25,990 --> 00:21:24,000  
so flustered by that he's like i had i

588  
00:21:27,669 --> 00:21:26,000

charged these overnight they were full

589

00:21:30,789 --> 00:21:27,679

when we left the hotel in vernal this

590

00:21:32,950 --> 00:21:30,799

morning you know the vernals 15 minute

591

00:21:34,549 --> 00:21:32,960

20 minutes away from their ranch

592

00:21:35,669 --> 00:21:34,559

and uh

593

00:21:38,230 --> 00:21:35,679

and you can just see they're so

594

00:21:40,549 --> 00:21:38,240

perplexed and and i'm trying to think if

595

00:21:42,710 --> 00:21:40,559

we ever had a contractor that came on

596

00:21:45,029 --> 00:21:42,720

that didn't have battery failures at

597

00:21:47,350 --> 00:21:45,039

some point during their time there the

598

00:21:49,909 --> 00:21:47,360

the cell phone batteries like that is a

599

00:21:51,750 --> 00:21:49,919

common occurrence of all the time who

600

00:21:53,830 --> 00:21:51,760

was the one guy on the show where not

601  
00:21:57,190 --> 00:21:53,840  
only was his phone going nuts it was

602  
00:21:58,789 --> 00:21:57,200  
unlocking his iphone and opening up like

603  
00:22:00,630 --> 00:21:58,799  
every single app on the phone at the

604  
00:22:03,430 --> 00:22:00,640  
exact same time and it was literally

605  
00:22:05,750 --> 00:22:03,440  
just like his phone had gone insane and

606  
00:22:06,549 --> 00:22:05,760  
i think travis had first noticed it and

607  
00:22:07,909 --> 00:22:06,559  
um

608  
00:22:10,549 --> 00:22:07,919  
i don't i can't recall the gentleman's

609  
00:22:12,470 --> 00:22:10,559  
name but caleb caleb yeah

610  
00:22:14,310 --> 00:22:12,480  
like more than just dying battery it was

611  
00:22:16,870 --> 00:22:14,320  
like typing weird things it was pulling

612  
00:22:18,789 --> 00:22:16,880  
up searches on his uh safari it was

613  
00:22:22,149 --> 00:22:18,799

scrolling through all of his apps

614

00:22:24,870 --> 00:22:22,159

literally it wasn't it was going nuts

615

00:22:26,470 --> 00:22:24,880

yeah and and you know caleb got a lot of

616

00:22:27,990 --> 00:22:26,480

crap about that because he had a cracked

617

00:22:28,870 --> 00:22:28,000

screen on that phone

618

00:22:30,870 --> 00:22:28,880

um

619

00:22:32,390 --> 00:22:30,880

but the whole point of that was is that

620

00:22:34,549 --> 00:22:32,400

yes you're right there are some times

621

00:22:37,350 --> 00:22:34,559

when that phone turned itself on

622

00:22:38,470 --> 00:22:37,360

bypassed his security his keypad

623

00:22:39,990 --> 00:22:38,480

security

624

00:22:42,310 --> 00:22:40,000

and went in and started going through

625

00:22:45,350 --> 00:22:42,320

the apps he's had that phone calling

626

00:22:46,470 --> 00:22:45,360

making phone calls dialing 9-1-1

627

00:22:48,470 --> 00:22:46,480

um

628

00:22:50,470 --> 00:22:48,480

doing all kinds of crazy things and and

629

00:22:52,549 --> 00:22:50,480

i i tell people you know what if that's

630

00:22:54,070 --> 00:22:52,559

all i got to do to bypass somebody's

631

00:22:55,110 --> 00:22:54,080

security on their phone has cracked the

632

00:22:58,470 --> 00:22:55,120

screen

633

00:23:00,630 --> 00:22:58,480

then uh that's a pretty lousy software

634

00:23:04,230 --> 00:23:00,640

right i you know i'm positive that the

635

00:23:06,630 --> 00:23:04,240

apple phone is is not built for that so

636

00:23:09,190 --> 00:23:06,640

and there's a one time uh i believe it

637

00:23:11,190 --> 00:23:09,200

was when the cow died

638

00:23:12,710 --> 00:23:11,200

there's a time when both my phone and

639

00:23:15,350 --> 00:23:12,720

his phone were doing the same thing at

640

00:23:17,830 --> 00:23:15,360

the same time and we had both phones up

641

00:23:20,230 --> 00:23:17,840

and they were both going crazy so and

642

00:23:22,789 --> 00:23:20,240

and and i'm an android guy so i i think

643

00:23:24,950 --> 00:23:22,799

at the time i had an htc phone and he

644

00:23:26,390 --> 00:23:24,960

had his iphone and they're both going

645

00:23:27,990 --> 00:23:26,400

crazy

646

00:23:30,549 --> 00:23:28,000

android is the way to go i'm just going

647

00:23:32,630 --> 00:23:30,559

to say it i'm not a knife i'm a fan

648

00:23:34,390 --> 00:23:32,640

definitely a fan

649

00:23:36,870 --> 00:23:34,400

i've tried i've tried to tried with

650

00:23:39,350 --> 00:23:36,880

apple i'm sorry i'm an android guy as

651  
00:23:41,669 --> 00:23:39,360  
far as like the animal mutilations it

652  
00:23:42,789 --> 00:23:41,679  
seems like it quieted down a bit on the

653  
00:23:45,269 --> 00:23:42,799  
ranch

654  
00:23:46,950 --> 00:23:45,279  
uh but how often do you guys get those

655  
00:23:48,870 --> 00:23:46,960  
cases i mean you know a season was it

656  
00:23:51,430 --> 00:23:48,880  
season two that there was a i believe so

657  
00:23:53,590 --> 00:23:51,440  
yeah it was a uap or some type of weird

658  
00:23:55,430 --> 00:23:53,600  
orb caught and next thing you know the

659  
00:23:57,590 --> 00:23:55,440  
animals are frightened as hell they all

660  
00:23:59,190 --> 00:23:57,600  
take off and then you know subsequently

661  
00:24:01,669 --> 00:23:59,200  
when they checked it out they find this

662  
00:24:03,029 --> 00:24:01,679  
dead cow yeah i don't know what cows did

663  
00:24:10,950 --> 00:24:03,039

to

664

00:24:12,549 --> 00:24:10,960

leave the cows alone just leave the cows

665

00:24:13,430 --> 00:24:12,559

alone they have rights

666

00:24:15,110 --> 00:24:13,440

um

667

00:24:16,310 --> 00:24:15,120

no your thoughts on that thomas what do

668

00:24:18,230 --> 00:24:16,320

you think about the whole cattle

669

00:24:20,310 --> 00:24:18,240

mutilation thing is that related

670

00:24:22,390 --> 00:24:20,320

unrelated i mean it's it happens in many

671

00:24:24,149 --> 00:24:22,400

places so it's not just isolated to the

672

00:24:26,470 --> 00:24:24,159

ranch but do you have any thoughts on

673

00:24:27,909 --> 00:24:26,480

that phenomenon

674

00:24:29,190 --> 00:24:27,919

um

675

00:24:32,310 --> 00:24:29,200

you know it's interesting that

676

00:24:35,190 --> 00:24:32,320

particular cow that died on season one

677

00:24:38,310 --> 00:24:35,200

um we had we did a necropsy on it that

678

00:24:40,070 --> 00:24:38,320

said it died from um rapid onset acute

679

00:24:41,269 --> 00:24:40,080

pneumonia i believe

680

00:24:42,630 --> 00:24:41,279

um

681

00:24:46,070 --> 00:24:42,640

which there's something that stressed

682

00:24:48,149 --> 00:24:46,080

the animals that caused that rapid uh

683

00:24:50,390 --> 00:24:48,159

pneumonia to come on the interesting

684

00:24:52,870 --> 00:24:50,400

thing is is that um

685

00:24:53,990 --> 00:24:52,880

nothing touched that cow for a year now

686

00:24:54,789 --> 00:24:54,000

i will tell you

687

00:24:56,549 --> 00:24:54,799

that

688

00:24:57,269 --> 00:24:56,559

um

689

00:25:00,470 --> 00:24:57,279

we

690

00:25:01,590 --> 00:25:00,480

down there

691

00:25:03,110 --> 00:25:01,600

uh

692

00:25:04,630 --> 00:25:03,120

i want to say it was the first summer

693

00:25:07,350 --> 00:25:04,640

that i was there working i was there on

694

00:25:08,710 --> 00:25:07,360

my skid steer scared out a mountain lion

695

00:25:11,909 --> 00:25:08,720

mountain lion jumped out on the trail

696

00:25:13,430 --> 00:25:11,919

right in front of me and took off um

697

00:25:15,190 --> 00:25:13,440

three years ago when we were gathering

698

00:25:17,750 --> 00:25:15,200

the cows up to get them off the ranch

699

00:25:20,470 --> 00:25:17,760

there was bear tracks and bear scat down

700

00:25:22,230 --> 00:25:20,480

there in the in the trees so we got a

701  
00:25:24,149 --> 00:25:22,240  
lot of predators out there not to

702  
00:25:26,710 --> 00:25:24,159  
mention you know we got a lot of tribal

703  
00:25:30,149 --> 00:25:26,720  
dogs that are running around out there

704  
00:25:31,990 --> 00:25:30,159  
a lot of predators and and so when these

705  
00:25:34,070 --> 00:25:32,000  
there there's animals that have died on

706  
00:25:35,190 --> 00:25:34,080  
the ranch and

707  
00:25:37,190 --> 00:25:35,200  
um

708  
00:25:38,950 --> 00:25:37,200  
or we're in surrounding properties

709  
00:25:40,470 --> 00:25:38,960  
around us and

710  
00:25:42,870 --> 00:25:40,480  
they're picked over

711  
00:25:44,950 --> 00:25:42,880  
i'm i've seen i saw one animal after the

712  
00:25:46,710 --> 00:25:44,960  
cow died i saw one animal that got

713  
00:25:47,590 --> 00:25:46,720

picked over was gone in in under two

714

00:25:50,710 --> 00:25:47,600

days

715

00:25:53,830 --> 00:25:50,720

okay so here's this cow that dies

716

00:25:56,230 --> 00:25:53,840

not a single predator no birds no

717

00:25:58,149 --> 00:25:56,240

coyotes nothing touched this thing it

718

00:25:59,830 --> 00:25:58,159

was still intact and perfect a year

719

00:26:02,230 --> 00:25:59,840

later so we bring

720

00:26:03,909 --> 00:26:02,240

dr taylor out from uh

721

00:26:05,510 --> 00:26:03,919

he's with the

722

00:26:07,269 --> 00:26:05,520

state of utah

723

00:26:09,990 --> 00:26:07,279

and uh

724

00:26:11,750 --> 00:26:10,000

he they that we actually sawed off a leg

725

00:26:13,590 --> 00:26:11,760

and they sent it into the lab they're

726

00:26:15,830 --> 00:26:13,600

actually under the pres they told us

727

00:26:17,430 --> 00:26:15,840

they didn't think it died from pneumonia

728

00:26:18,870 --> 00:26:17,440

which is interesting

729

00:26:20,149 --> 00:26:18,880

um so

730

00:26:21,750 --> 00:26:20,159

you know i don't know what to think

731

00:26:22,710 --> 00:26:21,760

although i will tell you that

732

00:26:24,470 --> 00:26:22,720

since

733

00:26:27,029 --> 00:26:24,480

that aired

734

00:26:29,110 --> 00:26:27,039

i've had a number of ranchers come

735

00:26:32,230 --> 00:26:29,120

forward and share with me

736

00:26:34,789 --> 00:26:32,240

both pictures and experiences uh matter

737

00:26:37,430 --> 00:26:34,799

of fact just a month ago i had a very

738

00:26:39,350 --> 00:26:37,440

uh well-respected grounded individual

739

00:26:42,390 --> 00:26:39,360

who has a ranch

740

00:26:44,549 --> 00:26:42,400

uh it's north of skinwalker ranch but

741

00:26:46,390 --> 00:26:44,559

uh he he was telling me about two calves

742

00:26:49,029 --> 00:26:46,400

of his that were mutilated

743

00:26:50,789 --> 00:26:49,039

and uh the sex organs were gone the eye

744

00:26:52,950 --> 00:26:50,799

facing the sky you know all the telltale

745

00:26:56,070 --> 00:26:52,960

things you hear from mutilations

746

00:26:59,110 --> 00:26:56,080

uh and and he he didn't want me to

747

00:27:01,190 --> 00:26:59,120

tell anybody his name or share that but

748

00:27:02,789 --> 00:27:01,200

um you get people to

749

00:27:04,950 --> 00:27:02,799

you get people's confidence and then

750

00:27:07,430 --> 00:27:04,960

they start sharing things with you

751  
00:27:08,230 --> 00:27:07,440  
and it i think it happens a lot more

752  
00:27:12,149 --> 00:27:08,240  
than

753  
00:27:14,310 --> 00:27:12,159  
it's a worldwide phenomenon for sure

754  
00:27:16,789 --> 00:27:14,320  
because it happens in every country and

755  
00:27:19,029 --> 00:27:16,799  
even here in canada we found bison

756  
00:27:20,950 --> 00:27:19,039  
in the same state as

757  
00:27:22,630 --> 00:27:20,960  
some of the horses and cows found in

758  
00:27:24,630 --> 00:27:22,640  
other places but

759  
00:27:26,870 --> 00:27:24,640  
seems like skinwalker ranch and that

760  
00:27:29,190 --> 00:27:26,880  
whole area tends to have a lot more

761  
00:27:30,630 --> 00:27:29,200  
mutilation cases than uh

762  
00:27:31,830 --> 00:27:30,640  
than up here but we have them

763  
00:27:34,549 --> 00:27:31,840

occasionally there was even one that

764

00:27:35,750 --> 00:27:34,559

took place in alberta back in 2004 or

765

00:27:37,909 --> 00:27:35,760

something like that

766

00:27:39,750 --> 00:27:37,919

and the couple that were you know

767

00:27:41,669 --> 00:27:39,760

interviewed said flat out we think it's

768

00:27:43,590 --> 00:27:41,679

aliens like if you saw the way that this

769

00:27:44,950 --> 00:27:43,600

thing was on the ground

770

00:27:46,630 --> 00:27:44,960

there's no way a human could have done

771

00:27:49,830 --> 00:27:46,640

this there's no way an animal could have

772

00:27:51,909 --> 00:27:49,840

done this it's it has to be so

773

00:27:54,230 --> 00:27:51,919

again we have to link mutilations

774

00:27:57,029 --> 00:27:54,240

abductions and all that with uaps but

775

00:27:58,870 --> 00:27:57,039

that comes over with time i think

776

00:28:00,389 --> 00:27:58,880

once people can accept one they're going

777

00:28:03,350 --> 00:28:00,399

to be able to accept the other stuff as

778

00:28:04,389 --> 00:28:03,360

well right not just cows too though i

779

00:28:05,830 --> 00:28:04,399

remember when we were speaking with

780

00:28:07,909 --> 00:28:05,840

george knapp and he was talking about

781

00:28:10,070 --> 00:28:07,919

the rancher family that used to own it

782

00:28:12,070 --> 00:28:10,080

and they heard their dogs take off after

783

00:28:13,909 --> 00:28:12,080

some strange phenomenon and they heard

784

00:28:15,510 --> 00:28:13,919

crazy yelp sounds and they went out and

785

00:28:17,669 --> 00:28:15,520

these dogs were like

786

00:28:19,350 --> 00:28:17,679

vaporized into the dirt right there was

787

00:28:23,430 --> 00:28:19,360

just literally an outline of where these

788

00:28:25,909 --> 00:28:23,440

dogs once were so and it wasn't a a case

789

00:28:28,070 --> 00:28:25,919

of removing a parts or anything but some

790

00:28:31,110 --> 00:28:28,080

force or some type of energy literally

791

00:28:32,230 --> 00:28:31,120

squished these dogs into nothingness on

792

00:28:32,950 --> 00:28:32,240

the ranch

793

00:28:35,029 --> 00:28:32,960

so

794

00:28:36,950 --> 00:28:35,039

you know try figuring out what could

795

00:28:38,789 --> 00:28:36,960

possibly do something like that and you

796

00:28:40,389 --> 00:28:38,799

know if something's going after a cow

797

00:28:42,870 --> 00:28:40,399

there's a predatory response you would

798

00:28:44,710 --> 00:28:42,880

think but domestic dogs you know unless

799

00:28:46,630 --> 00:28:44,720

it's something massive but then there

800

00:28:47,990 --> 00:28:46,640

would be predation like you said right

801  
00:28:51,430 --> 00:28:48,000  
so

802  
00:28:53,430 --> 00:28:51,440  
well and i i actually had an individual

803  
00:28:54,470 --> 00:28:53,440  
i've had too many individuals and and

804  
00:28:56,149 --> 00:28:54,480  
that's a good thing for them because

805  
00:28:58,230 --> 00:28:56,159  
mostly people always start off by

806  
00:28:59,909 --> 00:28:58,240  
telling me you tell anybody i said this

807  
00:29:01,350 --> 00:28:59,919  
i'll call you a liar like they don't

808  
00:29:02,710 --> 00:29:01,360  
want people to know that these things

809  
00:29:05,669 --> 00:29:02,720  
have happened to them

810  
00:29:06,950 --> 00:29:05,679  
um and and i hope that that stigma with

811  
00:29:08,710 --> 00:29:06,960  
everything that's going on with

812  
00:29:10,470 --> 00:29:08,720  
congressional hearings and the world

813  
00:29:12,310 --> 00:29:10,480

we're living in right now i hope that

814

00:29:13,990 --> 00:29:12,320

that stigma is following where people

815

00:29:15,029 --> 00:29:14,000

feel more comfortable to to share these

816

00:29:16,789 --> 00:29:15,039

things but

817

00:29:19,029 --> 00:29:16,799

i had um

818

00:29:20,389 --> 00:29:19,039

some individuals and i want to say i

819

00:29:22,230 --> 00:29:20,399

can't remember if it was caleb that was

820

00:29:23,350 --> 00:29:22,240

showing me the pictures may have been

821

00:29:25,510 --> 00:29:23,360

caleb

822

00:29:26,389 --> 00:29:25,520

but maybe i i forget but

823

00:29:29,029 --> 00:29:26,399

um

824

00:29:31,830 --> 00:29:29,039

deer and elk that have been mutilated

825

00:29:33,830 --> 00:29:31,840

that that hunters or people uh hikers

826

00:29:38,070 --> 00:29:33,840

are finding up in the forest

827

00:29:39,990 --> 00:29:38,080

that are mutilated in a way that again

828

00:29:41,110 --> 00:29:40,000

defies what you would find with

829

00:29:43,830 --> 00:29:41,120

predators

830

00:29:45,990 --> 00:29:43,840

an elk that's cut cleanly in half and

831

00:29:46,870 --> 00:29:46,000

and the halves are separated

832

00:29:48,070 --> 00:29:46,880

um

833

00:29:49,269 --> 00:29:48,080

so

834

00:29:51,190 --> 00:29:49,279

you know it

835

00:29:52,630 --> 00:29:51,200

and if if it's happening to deer and elk

836

00:29:54,549 --> 00:29:52,640

i mean there's a chance that you'd never

837

00:29:56,230 --> 00:29:54,559

even have a

838

00:29:57,190 --> 00:29:56,240

clue how many of those are happening

839

00:29:59,269 --> 00:29:57,200

because

840

00:30:01,669 --> 00:29:59,279

you know predators will clean those up

841

00:30:03,909 --> 00:30:01,679

right we i think we've been so long not

842

00:30:05,110 --> 00:30:03,919

linking or putting the links together

843

00:30:07,269 --> 00:30:05,120

you know we used to think that the

844

00:30:08,310 --> 00:30:07,279

mutilation cases were something that was

845

00:30:09,669 --> 00:30:08,320

apart

846

00:30:11,430 --> 00:30:09,679

but now we're starting to understand

847

00:30:14,149 --> 00:30:11,440

actually no there's whenever there's uap

848

00:30:17,029 --> 00:30:14,159

activity tends to be mutilation cases

849

00:30:19,190 --> 00:30:17,039

that follow shortly afterwards right

850

00:30:21,029 --> 00:30:19,200

even the black helicopters that we've

851

00:30:22,870 --> 00:30:21,039

i've heard quite a bit about it had a

852

00:30:25,110 --> 00:30:22,880

few guests on there talking about how

853

00:30:26,710 --> 00:30:25,120

they have black helicopters almost

854

00:30:28,630 --> 00:30:26,720

scouting the

855

00:30:30,710 --> 00:30:28,640

farm before the mutilation actually

856

00:30:31,830 --> 00:30:30,720

happens so just weird things like that

857

00:30:33,750 --> 00:30:31,840

that you hear

858

00:30:35,750 --> 00:30:33,760

occasionally you're kind of like yeah it

859

00:30:38,149 --> 00:30:35,760

is a weird phenomenon but it is linked

860

00:30:40,389 --> 00:30:38,159

with the uap unfortunately the the two

861

00:30:41,750 --> 00:30:40,399

are linked at this point i still think

862

00:30:43,990 --> 00:30:41,760

we were talking about i don't know if

863

00:30:46,470 --> 00:30:44,000

you know much about the dialotov's past

864

00:30:47,909 --> 00:30:46,480

is how you pronounce it love pass yeah

865

00:30:49,269 --> 00:30:47,919

lost past let me get it right one of

866

00:30:51,269 --> 00:30:49,279

these times now i'm gonna get it right

867

00:30:52,950 --> 00:30:51,279

eventually i butcher names but uh we we

868

00:30:54,630 --> 00:30:52,960

tend to think that's the same thing as a

869

00:30:55,830 --> 00:30:54,640

cattle mutilation except this time it

870

00:30:58,149 --> 00:30:55,840

was humans that got caught in the

871

00:31:00,310 --> 00:30:58,159

crossfire because the way those people

872

00:31:02,630 --> 00:31:00,320

were found is very similar to some of

873

00:31:04,149 --> 00:31:02,640

the stuff that happens to these cows so

874

00:31:05,750 --> 00:31:04,159

yeah this is uh definitely an

875

00:31:07,590 --> 00:31:05,760

interesting case for sure

876

00:31:09,909 --> 00:31:07,600

as far as um you were mentioning that

877

00:31:11,830 --> 00:31:09,919

you had dynamics on the show that are

878

00:31:13,830 --> 00:31:11,840

kind of hard because you're trying to do

879

00:31:15,830 --> 00:31:13,840

science and experiments

880

00:31:19,269 --> 00:31:15,840

while trying to film a show and i've

881

00:31:20,870 --> 00:31:19,279

been on just a documentary recently and

882

00:31:23,029 --> 00:31:20,880

i thought you know the whole process of

883

00:31:24,710 --> 00:31:23,039

it is hard enough with the camera

884

00:31:26,470 --> 00:31:24,720

setting and you got to be at a certain

885

00:31:27,350 --> 00:31:26,480

angle and you know they got to capture

886

00:31:28,789 --> 00:31:27,360

things

887

00:31:30,230 --> 00:31:28,799

when you're trying to do a scientific

888

00:31:32,070 --> 00:31:30,240

experiment like that though and you got

889

00:31:34,310 --> 00:31:32,080

to work with the production like you

890

00:31:36,070 --> 00:31:34,320

mentioned it's a nightmare what was your

891

00:31:39,750 --> 00:31:36,080

worst like what was the the biggest

892

00:31:42,070 --> 00:31:39,760

hurdle for you uh doing this

893

00:31:44,470 --> 00:31:42,080

well i want to be careful about saying

894

00:31:46,230 --> 00:31:44,480

nightmare because uh i have to say we

895

00:31:49,269 --> 00:31:46,240

work with the group of professionals

896

00:31:52,149 --> 00:31:49,279

that are just top shelf i mean

897

00:31:53,830 --> 00:31:52,159

uh i can't i can't speak enough to the

898

00:31:55,509 --> 00:31:53,840

quality of individuals that prometheus

899

00:31:58,149 --> 00:31:55,519

has put out there with us

900

00:32:00,789 --> 00:31:58,159

and just a high level professionalism so

901  
00:32:03,269 --> 00:32:00,799  
i appreciate them and

902  
00:32:05,750 --> 00:32:03,279  
it's a nightmare in the fact that

903  
00:32:07,750 --> 00:32:05,760  
science and tv just don't mesh well when

904  
00:32:10,070 --> 00:32:07,760  
you're trying to you know what i mean

905  
00:32:12,710 --> 00:32:10,080  
like and i'll give you a perfect example

906  
00:32:15,830 --> 00:32:12,720  
uh one of the things that we observe all

907  
00:32:16,950 --> 00:32:15,840  
the time is these rf

908  
00:32:19,029 --> 00:32:16,960  
signals

909  
00:32:20,950 --> 00:32:19,039  
well the problem is

910  
00:32:22,710 --> 00:32:20,960  
is each one of us is wearing a

911  
00:32:23,669 --> 00:32:22,720  
microphone pack

912  
00:32:27,669 --> 00:32:23,679  
that is

913  
00:32:31,110 --> 00:32:27,679

transmitting our audio to the audio bag

914

00:32:33,509 --> 00:32:31,120

each camera is also transmitting both

915

00:32:34,870 --> 00:32:33,519

audio and video back to their little

916

00:32:38,549 --> 00:32:34,880

monitors

917

00:32:40,310 --> 00:32:38,559

we're broadcasting a lot of rf ourselves

918

00:32:41,350 --> 00:32:40,320

so

919

00:32:45,750 --> 00:32:41,360

when

920

00:32:48,389 --> 00:32:45,760

isolate these rf signals

921

00:32:50,870 --> 00:32:48,399

and you're creating so much noise in

922

00:32:53,669 --> 00:32:50,880

your with just your equipment

923

00:32:56,549 --> 00:32:53,679

it makes it really hard to ascertain

924

00:32:59,190 --> 00:32:56,559

what is us and what is

925

00:33:00,310 --> 00:32:59,200

the ranch right and and so there are

926  
00:33:02,070 --> 00:33:00,320  
times

927  
00:33:04,470 --> 00:33:02,080  
where we'll start seeing something and

928  
00:33:06,549 --> 00:33:04,480  
we make we're like okay

929  
00:33:07,750 --> 00:33:06,559  
you guys got to take everything down

930  
00:33:09,350 --> 00:33:07,760  
there have been a couple times where

931  
00:33:11,029 --> 00:33:09,360  
like you have to shut everything off

932  
00:33:13,029 --> 00:33:11,039  
we're turning our microphones off turn

933  
00:33:15,750 --> 00:33:13,039  
the cameras off everything's got to go

934  
00:33:17,350 --> 00:33:15,760  
down and the compromise there is is if

935  
00:33:20,070 --> 00:33:17,360  
we find something

936  
00:33:21,909 --> 00:33:20,080  
then we get we get to figure out what we

937  
00:33:23,350 --> 00:33:21,919  
need to figure out with it because

938  
00:33:26,470 --> 00:33:23,360

um

939

00:33:27,350 --> 00:33:26,480

so and then we'll bring the cameras back

940

00:33:29,269 --> 00:33:27,360

up

941

00:33:30,149 --> 00:33:29,279

and we'll go through what just happened

942

00:33:31,190 --> 00:33:30,159

and

943

00:33:32,789 --> 00:33:31,200

you know

944

00:33:33,750 --> 00:33:32,799

and do it again

945

00:33:35,590 --> 00:33:33,760

but

946

00:33:37,190 --> 00:33:35,600

there's sometimes where we have to have

947

00:33:38,789 --> 00:33:37,200

equipment go down because we're creating

948

00:33:41,509 --> 00:33:38,799

so much noise

949

00:33:43,350 --> 00:33:41,519

that it's almost impossible to get

950

00:33:45,590 --> 00:33:43,360

through that and so those are the kind

951  
00:33:48,149 --> 00:33:45,600  
of things like that

952  
00:33:49,430 --> 00:33:48,159  
that you don't see and and prometheus

953  
00:33:51,350 --> 00:33:49,440  
and i don't know how it is on other

954  
00:33:52,389 --> 00:33:51,360  
production companies i've never been on

955  
00:33:54,710 --> 00:33:52,399  
other

956  
00:33:57,669 --> 00:33:54,720  
film shoots

957  
00:33:59,830 --> 00:33:57,679  
but they have this fourth wall that they

958  
00:34:02,149 --> 00:33:59,840  
call it and that is the invisible wall

959  
00:34:03,830 --> 00:34:02,159  
between us and production

960  
00:34:05,190 --> 00:34:03,840  
like they don't exist

961  
00:34:08,310 --> 00:34:05,200  
okay and

962  
00:34:09,669 --> 00:34:08,320  
sometimes it's frustrating because

963  
00:34:11,349 --> 00:34:09,679

i i mean

964

00:34:14,710 --> 00:34:11,359

i think one of the biggest criticisms i

965

00:34:16,869 --> 00:34:14,720

see repeatedly on social media is well

966

00:34:19,190 --> 00:34:16,879

that drone's not connecting and yet the

967

00:34:20,550 --> 00:34:19,200

television network drone was working

968

00:34:23,349 --> 00:34:20,560

just fine

969

00:34:25,510 --> 00:34:23,359

and and my answer to that is

970

00:34:26,550 --> 00:34:25,520

i mean it's pretty simple first of all

971

00:34:28,310 --> 00:34:26,560

um

972

00:34:31,030 --> 00:34:28,320

that is one of the things that makes the

973

00:34:33,190 --> 00:34:31,040

ranch special is that we witness so many

974

00:34:35,349 --> 00:34:33,200

times when things are targeted we can

975

00:34:37,589 --> 00:34:35,359

have a group of people standing in a

976  
00:34:39,510 --> 00:34:37,599  
tight circle one person in the middle

977  
00:34:41,909 --> 00:34:39,520  
can be affected while the rest of

978  
00:34:42,629 --> 00:34:41,919  
everybody else is fine we can we can

979  
00:34:43,510 --> 00:34:42,639  
have

980  
00:34:45,270 --> 00:34:43,520  
six

981  
00:34:47,669 --> 00:34:45,280  
cell phones sitting there on the table

982  
00:34:48,629 --> 00:34:47,679  
and one cell phone specifically will

983  
00:34:50,470 --> 00:34:48,639  
react

984  
00:34:52,389 --> 00:34:50,480  
so there are times when it's very

985  
00:34:54,950 --> 00:34:52,399  
targeted but there's other times where

986  
00:34:56,389 --> 00:34:54,960  
the production has a hell of a time with

987  
00:34:58,470 --> 00:34:56,399  
their own equipment

988  
00:35:00,230 --> 00:34:58,480

i i've lost track of the number of

989

00:35:02,630 --> 00:35:00,240

drones that production has crashed out

990

00:35:05,829 --> 00:35:02,640

there oh

991

00:35:08,230 --> 00:35:05,839

not by lack of i mean our drone operator

992

00:35:10,950 --> 00:35:08,240

is this guy

993

00:35:12,550 --> 00:35:10,960

he that guy could

994

00:35:13,829 --> 00:35:12,560

all he needs is a half inch clearance on

995

00:35:16,390 --> 00:35:13,839

both sides and that guy can get it

996

00:35:18,870 --> 00:35:16,400

through i mean he's just a pro but we we

997

00:35:20,550 --> 00:35:18,880

had one drone just sitting there flying

998

00:35:22,230 --> 00:35:20,560

um we were down on the south end of the

999

00:35:24,390 --> 00:35:22,240

ranch we're all standing there and it's

1000

00:35:26,950 --> 00:35:24,400

like all of a sudden this thing just

1001

00:35:29,109 --> 00:35:26,960

tipped and went right at i forget which

1002

00:35:31,030 --> 00:35:29,119

one of the production guys

1003

00:35:34,230 --> 00:35:31,040

and almost hit him and then plowed in

1004

00:35:36,790 --> 00:35:34,240

the dirt and was destroyed um

1005

00:35:38,630 --> 00:35:36,800

and so we do have production does have a

1006

00:35:40,310 --> 00:35:38,640

lot of problems with their their cameras

1007

00:35:43,510 --> 00:35:40,320

their batteries their batteries are

1008

00:35:45,109 --> 00:35:43,520

going dead all the time just like ours

1009

00:35:46,790 --> 00:35:45,119

so we're all struggling and it's

1010

00:35:48,790 --> 00:35:46,800

sometimes it's frustrating for us as a

1011

00:35:50,390 --> 00:35:48,800

team because we're like this is all part

1012

00:35:51,349 --> 00:35:50,400

of the science whether you guys like it

1013

00:35:52,790 --> 00:35:51,359

or not

1014

00:35:54,710 --> 00:35:52,800

you're part of it

1015

00:35:56,630 --> 00:35:54,720

the second you enter on the ranch and

1016

00:35:58,630 --> 00:35:56,640

stuff starts happening to you

1017

00:36:01,589 --> 00:35:58,640

you're part of the science your your

1018

00:36:03,190 --> 00:36:01,599

data point and yet we can't

1019

00:36:05,670 --> 00:36:03,200

up to this point we really haven't

1020

00:36:07,190 --> 00:36:05,680

acknowledged that that's taking place

1021

00:36:08,710 --> 00:36:07,200

as far as the

1022

00:36:10,790 --> 00:36:08,720

i was going to say as far as i just said

1023

00:36:12,470 --> 00:36:10,800

for effect um i know that you've had a

1024

00:36:15,030 --> 00:36:12,480

bit of of that

1025

00:36:17,589 --> 00:36:15,040

uh i know george knapp's had it and

1026

00:36:20,150 --> 00:36:17,599

colin keller mentioned it as well but

1027

00:36:21,990 --> 00:36:20,160

does the production crew at all

1028

00:36:23,349 --> 00:36:22,000

experience any of those effects as well

1029

00:36:24,870 --> 00:36:23,359

like have you heard any stories from the

1030

00:36:26,710 --> 00:36:24,880

production crew about the hitchhiker

1031

00:36:29,430 --> 00:36:26,720

effect

1032

00:36:30,790 --> 00:36:29,440

that's a great question um

1033

00:36:32,069 --> 00:36:30,800

i do have something i could add to that

1034

00:36:33,910 --> 00:36:32,079

because when we chatted with colin

1035

00:36:35,670 --> 00:36:33,920

kelleher who's the co-author of that

1036

00:36:38,630 --> 00:36:35,680

book skinwalkers at the pentagon with

1037

00:36:39,470 --> 00:36:38,640

george knapp he had said um that there

1038

00:36:41,670 --> 00:36:39,480

was a

1039

00:36:43,349 --> 00:36:41,680

biotechnologist again this is pre

1040

00:36:45,910 --> 00:36:43,359

brendan fugle days but they had a

1041

00:36:47,510 --> 00:36:45,920

biotech guy who was out there and uh he

1042

00:36:49,109 --> 00:36:47,520

wind up taking home an event where he

1043

00:36:51,990 --> 00:36:49,119

was driving with his daughters in the

1044

00:36:54,150 --> 00:36:52,000

car and they had like orbs

1045

00:36:56,470 --> 00:36:54,160

penetrating the car these blue lights

1046

00:36:58,950 --> 00:36:56,480

and uh people had like physical

1047

00:37:01,270 --> 00:36:58,960

illnesses as a result um so there have

1048

00:37:02,790 --> 00:37:01,280

been other scientists and now back in

1049

00:37:04,710 --> 00:37:02,800

the day when bigelow owned it they had

1050

00:37:06,790 --> 00:37:04,720

different intelligence agencies that had

1051  
00:37:08,310 --> 00:37:06,800  
people that were there and all i think

1052  
00:37:10,470 --> 00:37:08,320  
there was five of them and all five

1053  
00:37:13,589 --> 00:37:10,480  
reported that they took home strange

1054  
00:37:15,270 --> 00:37:13,599  
phenomenon george knapp said uh and it

1055  
00:37:16,870 --> 00:37:15,280  
was almost like an intimate detail he

1056  
00:37:18,630 --> 00:37:16,880  
said look at my wife had some weird

1057  
00:37:20,069 --> 00:37:18,640  
stuff happen i don't want to get into

1058  
00:37:22,069 --> 00:37:20,079  
the nitty-gritty like even he didn't

1059  
00:37:23,589 --> 00:37:22,079  
want to talk about the specifics but you

1060  
00:37:25,430 --> 00:37:23,599  
know big name guys that have written

1061  
00:37:26,150 --> 00:37:25,440  
books about it or spent a lot of time

1062  
00:37:28,390 --> 00:37:26,160  
there

1063  
00:37:30,790 --> 00:37:28,400

pretty well everybody has reported that

1064

00:37:32,870 --> 00:37:30,800

something has come home with them right

1065

00:37:34,790 --> 00:37:32,880

so i'm sure there's got to be

1066

00:37:36,230 --> 00:37:34,800

you know so we have a couple

1067

00:37:37,670 --> 00:37:36,240

we have a couple team members that

1068

00:37:39,829 --> 00:37:37,680

haven't

1069

00:37:42,630 --> 00:37:39,839

to this point knock on wood had it

1070

00:37:44,230 --> 00:37:42,640

follow him home

1071

00:37:46,150 --> 00:37:44,240

you know i don't know why

1072

00:37:47,589 --> 00:37:46,160

um i was just thinking you know the

1073

00:37:48,710 --> 00:37:47,599

reason why i say i'm not the best person

1074

00:37:50,390 --> 00:37:48,720

to ask is

1075

00:37:51,750 --> 00:37:50,400

uh look i'm i'm good friends with the

1076

00:37:52,950 --> 00:37:51,760

production guys you work around each

1077

00:37:54,950 --> 00:37:52,960

other that much you could be friends but

1078

00:38:00,470 --> 00:37:54,960

i'm not a big

1079

00:38:02,470 --> 00:38:00,480

reaching out and asking and and there's

1080

00:38:04,550 --> 00:38:02,480

just not a lot of interaction outside of

1081

00:38:06,470 --> 00:38:04,560

filming between me and them

1082

00:38:08,790 --> 00:38:06,480

um you know maybe some of the other guys

1083

00:38:09,589 --> 00:38:08,800

that are better at getting i i will say

1084

00:38:11,190 --> 00:38:09,599

that

1085

00:38:12,310 --> 00:38:11,200

uh and like there's not a lot i can say

1086

00:38:14,230 --> 00:38:12,320

here because

1087

00:38:16,069 --> 00:38:14,240

i have to honor my nda with production

1088

00:38:18,390 --> 00:38:16,079

company and and i haven't gotten

1089

00:38:20,950 --> 00:38:18,400

permission to to speak about this but i

1090

00:38:23,910 --> 00:38:20,960

do know that like there have been crew

1091

00:38:25,190 --> 00:38:23,920

members um

1092

00:38:26,069 --> 00:38:25,200

that

1093

00:38:29,510 --> 00:38:26,079

i

1094

00:38:32,150 --> 00:38:29,520

had some

1095

00:38:33,750 --> 00:38:32,160

experiences with things um i'm just

1096

00:38:35,829 --> 00:38:33,760

gonna leave it at that but

1097

00:38:37,510 --> 00:38:35,839

um does that include people on the show

1098

00:38:38,790 --> 00:38:37,520

with you like people that we see on

1099

00:38:39,910 --> 00:38:38,800

television or are we just talking about

1100

00:38:41,829 --> 00:38:39,920

production

1101

00:38:43,990 --> 00:38:41,839

well no i mean

1102

00:38:46,470 --> 00:38:44,000

look um

1103

00:38:50,150 --> 00:38:46,480

we call bro we call uh dragon you know

1104

00:38:52,230 --> 00:38:50,160

he's our our ufo repellent our our

1105

00:38:53,990 --> 00:38:52,240

paranormal repellent because

1106

00:38:56,390 --> 00:38:54,000

he seems to like not have anything

1107

00:38:59,270 --> 00:38:56,400

happen to him right knock on wood i'm

1108

00:39:01,349 --> 00:38:59,280

not wishing it pawning um but i know the

1109

00:39:03,510 --> 00:39:01,359

rest of the team members

1110

00:39:05,349 --> 00:39:03,520

uh to my knowledge all the rest of us

1111

00:39:07,270 --> 00:39:05,359

have had experience

1112

00:39:09,670 --> 00:39:07,280

scary experiences

1113

00:39:11,030 --> 00:39:09,680

uh serious things i'll tell you the last

1114

00:39:12,150 --> 00:39:11,040

two weeks

1115

00:39:13,670 --> 00:39:12,160

um

1116

00:39:16,069 --> 00:39:13,680

the last two weeks

1117

00:39:18,230 --> 00:39:16,079

have been extremely scary for me and my

1118

00:39:19,910 --> 00:39:18,240

family we had a we had a night a week

1119

00:39:21,910 --> 00:39:19,920

and a half ago

1120

00:39:22,870 --> 00:39:21,920

where we were literally

1121

00:39:25,109 --> 00:39:22,880

just

1122

00:39:28,550 --> 00:39:25,119

all sitting there in my bedroom

1123

00:39:31,589 --> 00:39:28,560

and it was not

1124

00:39:33,030 --> 00:39:31,599

we were what we were awoken

1125

00:39:36,390 --> 00:39:33,040

uh

1126

00:39:39,030 --> 00:39:36,400

just right before 1 a.m and

1127

00:39:42,710 --> 00:39:39,040

some pretty terrifying things taking

1128

00:39:44,550 --> 00:39:42,720

place and uh and it just continued uh

1129

00:39:46,390 --> 00:39:44,560

started that night and it continued

1130

00:39:49,589 --> 00:39:46,400

through and continued through and

1131

00:39:53,750 --> 00:39:51,829

things that

1132

00:39:56,470 --> 00:39:53,760

are hard to get your mind wrapped around

1133

00:39:58,069 --> 00:39:56,480

my my poor kids you know they we just

1134

00:39:59,589 --> 00:39:58,079

start getting that stuff in the back

1135

00:40:01,750 --> 00:39:59,599

rearview mirror and then something else

1136

00:40:02,790 --> 00:40:01,760

happens and it's it's pretty traumatic

1137

00:40:05,349 --> 00:40:02,800

so

1138

00:40:08,950 --> 00:40:05,359

um and and look um

1139

00:40:10,390 --> 00:40:08,960

we're trying to document this stuff um

1140

00:40:11,750 --> 00:40:10,400

matter of fact we just we just launched

1141

00:40:14,630 --> 00:40:11,760

our new website uh

1142

00:40:17,510 --> 00:40:14,640

skinwalkerdashranch.com

1143

00:40:18,710 --> 00:40:17,520

and we've got uh the skinwalker ranch

1144

00:40:21,670 --> 00:40:18,720

insider

1145

00:40:24,309 --> 00:40:21,680

uh uh where you can you can sign up and

1146

00:40:26,470 --> 00:40:24,319

uh we're trying to document this stuff

1147

00:40:28,870 --> 00:40:26,480

that's going to be our outlet

1148

00:40:30,630 --> 00:40:28,880

uh for these things that are happening

1149

00:40:32,790 --> 00:40:30,640

when we're not filming

1150

00:40:34,710 --> 00:40:32,800

um you know the investigation once

1151  
00:40:36,870 --> 00:40:34,720  
cameras go down we're done filming the

1152  
00:40:39,109 --> 00:40:36,880  
investigation continues the ranch

1153  
00:40:41,589 --> 00:40:39,119  
doesn't take a break

1154  
00:40:43,910 --> 00:40:41,599  
and so some of these things that are

1155  
00:40:45,829 --> 00:40:43,920  
happening uh we've we've got the last

1156  
00:40:46,950 --> 00:40:45,839  
month's been very very active i don't

1157  
00:40:48,790 --> 00:40:46,960  
know why

1158  
00:40:51,589 --> 00:40:48,800  
but a lot of things and and the

1159  
00:40:53,030 --> 00:40:51,599  
hitchhiker being one of those and i know

1160  
00:40:54,390 --> 00:40:53,040  
speaking to some of the team members i'm

1161  
00:40:56,550 --> 00:40:54,400  
not the only one that has been

1162  
00:40:58,230 --> 00:40:56,560  
experiencing that stuff so right so

1163  
00:41:00,230 --> 00:40:58,240

what's going on with the season three

1164

00:41:01,670 --> 00:41:00,240

this year can you give us a teaser or

1165

00:41:03,270 --> 00:41:01,680

anything that's already been aired that

1166

00:41:06,309 --> 00:41:03,280

you're safe to talk about what can we

1167

00:41:08,630 --> 00:41:06,319

look forward to uh anything that's

1168

00:41:10,470 --> 00:41:08,640

anything that's been on tv is fair game

1169

00:41:12,390 --> 00:41:10,480

so if you guys have questions about

1170

00:41:14,230 --> 00:41:12,400

things you've already seen i'm happy to

1171

00:41:15,670 --> 00:41:14,240

answer about that um

1172

00:41:18,790 --> 00:41:15,680

i think

1173

00:41:21,109 --> 00:41:18,800

i'll give you a teaser for this week um

1174

00:41:23,190 --> 00:41:21,119

i haven't i have this year is different

1175

00:41:25,190 --> 00:41:23,200

so the last couple years i've i've

1176

00:41:27,670 --> 00:41:25,200

cheated and i've watched the episodes

1177

00:41:28,390 --> 00:41:27,680

before they aired um i was able to see

1178

00:41:31,349 --> 00:41:28,400

them

1179

00:41:33,589 --> 00:41:31,359

and so i knew it was coming up this year

1180

00:41:35,829 --> 00:41:33,599

the only thing i've seen is the previews

1181

00:41:38,150 --> 00:41:35,839

like everybody else yeah so i haven't

1182

00:41:39,589 --> 00:41:38,160

seen i haven't seen any of the episodes

1183

00:41:41,270 --> 00:41:39,599

i'm watching them for the first time

1184

00:41:43,750 --> 00:41:41,280

with everybody else at home

1185

00:41:45,589 --> 00:41:43,760

and uh based on the previews that i'm

1186

00:41:46,950 --> 00:41:45,599

watching for this week

1187

00:41:49,270 --> 00:41:46,960

uh

1188

00:41:50,790 --> 00:41:49,280

i've gotten a few questions on podcasts

1189

00:41:52,150 --> 00:41:50,800

last little bit like what's the most

1190

00:41:53,750 --> 00:41:52,160

disturbing thing that's happened to you

1191

00:41:54,630 --> 00:41:53,760

on skinwalker ranch

1192

00:41:57,109 --> 00:41:54,640

and

1193

00:41:58,790 --> 00:41:57,119

i've had to tell the last couple well i

1194

00:42:00,710 --> 00:41:58,800

can't talk about it it hasn't aired on

1195

00:42:03,190 --> 00:42:00,720

tv yet um

1196

00:42:05,349 --> 00:42:03,200

so the most disturbing thing that i

1197

00:42:08,950 --> 00:42:05,359

witnessed on the ranch this year i

1198

00:42:10,069 --> 00:42:08,960

believe is gonna be on this next episode

1199

00:42:15,589 --> 00:42:10,079

um

1200

00:42:20,790 --> 00:42:18,630

i mean it was eerie when it happened

1201  
00:42:21,589 --> 00:42:20,800  
but the implications of what it could

1202  
00:42:24,390 --> 00:42:21,599  
mean

1203  
00:42:27,510 --> 00:42:24,400  
are are absolutely frightening

1204  
00:42:29,270 --> 00:42:27,520  
and terrifying and so uh

1205  
00:42:31,430 --> 00:42:29,280  
that's that's coming up this week i

1206  
00:42:33,270 --> 00:42:31,440  
believe um it was probably one of the

1207  
00:42:35,270 --> 00:42:33,280  
craziest

1208  
00:42:36,470 --> 00:42:35,280  
uh

1209  
00:42:38,309 --> 00:42:36,480  
craziest

1210  
00:42:40,870 --> 00:42:38,319  
experiments that we've done

1211  
00:42:43,750 --> 00:42:40,880  
and uh so i'm really excited for that to

1212  
00:42:45,990 --> 00:42:43,760  
air the bottle drop i mean that right

1213  
00:42:48,870 --> 00:42:46,000

out of the gate that was really strange

1214

00:42:54,309 --> 00:42:49,670

we

1215

00:42:56,230 --> 00:42:54,319

he put so

1216

00:42:59,190 --> 00:42:56,240

many i mean

1217

00:43:00,069 --> 00:42:59,200

tens and tens and tens of hours into

1218

00:43:02,470 --> 00:43:00,079

uh

1219

00:43:03,990 --> 00:43:02,480

testing each one of those gps units him

1220

00:43:06,230 --> 00:43:04,000

and i took those units and actually

1221

00:43:09,109 --> 00:43:06,240

literally walked down the uh to give you

1222

00:43:11,750 --> 00:43:09,119

an idea he kept the little base receiver

1223

00:43:13,910 --> 00:43:11,760

that they were reporting to

1224

00:43:15,910 --> 00:43:13,920

so these gps units they have a scandal

1225

00:43:18,550 --> 00:43:15,920

or you put a memory card into them they

1226

00:43:21,430 --> 00:43:18,560

data log onto the card but they also

1227

00:43:24,390 --> 00:43:21,440

have a transmitter receiver so they can

1228

00:43:26,790 --> 00:43:24,400

be transmitting real time and we left

1229

00:43:28,870 --> 00:43:26,800

the receiver at the command center and

1230

00:43:32,230 --> 00:43:28,880

we went and walked around along the

1231

00:43:36,870 --> 00:43:34,790

the mesa out on the edge of it so that

1232

00:43:38,870 --> 00:43:36,880

we could overlay it on the map

1233

00:43:40,390 --> 00:43:38,880

and see just how accurate the

1234

00:43:42,230 --> 00:43:40,400

information was getting

1235

00:43:44,069 --> 00:43:42,240

we went and did that with all the

1236

00:43:46,069 --> 00:43:44,079

receivers eric had all the receivers

1237

00:43:47,109 --> 00:43:46,079

laid out in a box we walked along the

1238

00:43:48,630 --> 00:43:47,119

mesa

1239

00:43:52,309 --> 00:43:48,640

perfect data

1240

00:43:53,109 --> 00:43:52,319

and we we tested them multiple times so

1241

00:43:56,150 --> 00:43:53,119

then

1242

00:43:58,870 --> 00:43:56,160

comes the day with the the experiment

1243

00:44:01,190 --> 00:43:58,880

and we we drop these bottles out and

1244

00:44:03,589 --> 00:44:01,200

first of all they take off the receiver

1245

00:44:06,710 --> 00:44:03,599

stop transmitting

1246

00:44:08,630 --> 00:44:06,720

so we are we're getting no real time and

1247

00:44:09,829 --> 00:44:08,640

and our only hopes of salvaging this is

1248

00:44:11,670 --> 00:44:09,839

be able to reach

1249

00:44:13,349 --> 00:44:11,680

retrieve the gps sensors and get the

1250

00:44:14,870 --> 00:44:13,359

memory disk out and then we at least

1251

00:44:16,950 --> 00:44:14,880

still have the data logged

1252

00:44:17,990 --> 00:44:16,960

and we we didn't we only found half of

1253

00:44:18,870 --> 00:44:18,000

them

1254

00:44:20,870 --> 00:44:18,880

um

1255

00:44:23,109 --> 00:44:20,880

and the crazy thing is is they dropped

1256

00:44:25,190 --> 00:44:23,119

all of these out from the same location

1257

00:44:27,670 --> 00:44:25,200

and yet we were finding bottles as far

1258

00:44:30,230 --> 00:44:27,680

as a quarter to half a mile north

1259

00:44:32,230 --> 00:44:30,240

and i want to say three quarters to a

1260

00:44:34,710 --> 00:44:32,240

mile to the south

1261

00:44:36,550 --> 00:44:34,720

so that is the distance apart that we're

1262

00:44:38,790 --> 00:44:36,560

finding these bottles

1263

00:44:39,990 --> 00:44:38,800

uh we we found them clear

1264

00:44:41,109 --> 00:44:40,000

uh

1265

00:44:43,349 --> 00:44:41,119

hun

1266

00:44:45,829 --> 00:44:43,359

100 200 yards

1267

00:44:47,910 --> 00:44:45,839

south of the creek down there on the on

1268

00:44:49,190 --> 00:44:47,920

the eastern part of the ranch

1269

00:44:51,349 --> 00:44:49,200

so

1270

00:44:53,349 --> 00:44:51,359

how those ended up that way with just a

1271

00:44:54,870 --> 00:44:53,359

slight little breeze i don't know

1272

00:44:57,190 --> 00:44:54,880

yeah we only

1273

00:44:59,190 --> 00:44:57,200

but then you guys saw the data gps

1274

00:45:00,950 --> 00:44:59,200

diving into the hill as if the

1275

00:45:02,390 --> 00:45:00,960

helicopter crashed in

1276

00:45:05,349 --> 00:45:02,400

um

1277

00:45:06,630 --> 00:45:05,359

you know we're we like i say we only

1278

00:45:08,950 --> 00:45:06,640

recovered half

1279

00:45:10,710 --> 00:45:08,960

so what's your favorite

1280

00:45:14,150 --> 00:45:10,720

experimentation that you guys have done

1281

00:45:15,270 --> 00:45:14,160

so far like what's your favorite one

1282

00:45:17,589 --> 00:45:15,280

uh

1283

00:45:21,109 --> 00:45:17,599

favorite is in data gleaned or favored

1284

00:45:22,790 --> 00:45:21,119

as in uh fun to do just the fun one to

1285

00:45:25,270 --> 00:45:22,800

do just there's got to be one in there

1286

00:45:27,670 --> 00:45:25,280

that lisa's oh really eh yeah

1287

00:45:29,829 --> 00:45:27,680

yeah i mean yeah especially season two

1288

00:45:32,390 --> 00:45:29,839

those rockets that we blasted off i mean

1289

00:45:33,430 --> 00:45:32,400

some of those were like 12 foot tall

1290

00:45:35,430 --> 00:45:33,440

um

1291

00:45:37,030 --> 00:45:35,440

and it was like an amateur rocket club

1292

00:45:37,990 --> 00:45:37,040

or something wasn't it like an advanced

1293

00:45:39,589 --> 00:45:38,000

level

1294

00:45:42,630 --> 00:45:39,599

was it a company that had those things

1295

00:45:45,109 --> 00:45:42,640

or were they just like crazy hobbyists

1296

00:45:47,430 --> 00:45:45,119

no these these guys are professionals

1297

00:45:48,950 --> 00:45:47,440

i'm gonna get their name wrong and i

1298

00:45:51,510 --> 00:45:48,960

i apologize to them right now it's

1299

00:45:54,150 --> 00:45:51,520

either lock precision or precision lock

1300

00:45:55,829 --> 00:45:54,160

okay um but that's what they do and and

1301

00:45:57,910 --> 00:45:55,839

they build these for people

1302

00:46:01,990 --> 00:45:57,920

and they've been absolutely great they

1303

00:46:05,109 --> 00:46:03,510

yeah season two they came out and helped

1304

00:46:07,430 --> 00:46:05,119

us blast off those

1305

00:46:08,630 --> 00:46:07,440

those big ones and i mean

1306

00:46:10,230 --> 00:46:08,640

uh

1307

00:46:11,750 --> 00:46:10,240

that's a lot of fun

1308

00:46:13,510 --> 00:46:11,760

it's probably as close as i'll get to

1309

00:46:15,670 --> 00:46:13,520

watching the space shuttle launches ever

1310

00:46:17,109 --> 00:46:15,680

but i mean it's it's impressive it's a

1311

00:46:18,790 --> 00:46:17,119

lot of fun you guys were trying to get

1312

00:46:21,030 --> 00:46:18,800

the data as you mentioned earlier you

1313

00:46:23,030 --> 00:46:21,040

know that triangulation where so many

1314

00:46:24,550 --> 00:46:23,040

feet off the ground that's where weird

1315

00:46:25,910 --> 00:46:24,560

phenomenon seems to happen that's where

1316

00:46:28,790 --> 00:46:25,920

you pick up the gamma rays and stuff

1317

00:46:30,950 --> 00:46:28,800

like that so was the intent to measure

1318

00:46:33,030 --> 00:46:30,960

at a higher altitude or was the intent

1319

00:46:35,270 --> 00:46:33,040

to try to cause something spooky to

1320

00:46:37,910 --> 00:46:35,280

happen by shooting stuff up through that

1321

00:46:40,230 --> 00:46:37,920

vortex zone

1322

00:46:41,750 --> 00:46:40,240

well yeah i mean there is that there is

1323

00:46:43,910 --> 00:46:41,760

that line of thought that by shooting

1324

00:46:45,349 --> 00:46:43,920

the rocket off we're going to stimulate

1325

00:46:47,990 --> 00:46:45,359

something right

1326

00:46:50,390 --> 00:46:48,000

um the bigger the bigger rockets though

1327

00:46:53,270 --> 00:46:50,400

was one we could get a bigger payload on

1328

00:46:55,270 --> 00:46:53,280

it so we can add more instrumentation um

1329

00:46:56,870 --> 00:46:55,280

the other thing that we're looking at is

1330

00:46:59,030 --> 00:46:56,880

getting higher and trying to get more

1331

00:47:01,109 --> 00:46:59,040

dwel time up high

1332

00:47:03,109 --> 00:47:01,119

and and see it coming down like that

1333

00:47:05,109 --> 00:47:03,119

last rocket we blasted off i think went

1334

00:47:06,230 --> 00:47:05,119

up 13 000 feet

1335

00:47:08,390 --> 00:47:06,240

and so

1336

00:47:11,109 --> 00:47:08,400

the whole idea of getting more hang time

1337

00:47:12,870 --> 00:47:11,119

up in the air uh

1338

00:47:14,630 --> 00:47:12,880

that was one thing that we were trying

1339

00:47:16,470 --> 00:47:14,640

to accomplish with the with the bigger

1340

00:47:18,470 --> 00:47:16,480

rockets

1341

00:47:20,150 --> 00:47:18,480

the question this elusive

1342

00:47:21,990 --> 00:47:20,160

yeah space

1343

00:47:23,510 --> 00:47:22,000

question on the uh on the side because

1344

00:47:26,150 --> 00:47:23,520

i've always wondered when people show up

1345

00:47:27,670 --> 00:47:26,160

because people are all different but you

1346

00:47:29,190 --> 00:47:27,680

have a lot of people that show up on the

1347

00:47:31,190 --> 00:47:29,200

on the ranch some of them might be more

1348

00:47:32,870 --> 00:47:31,200

spiritual than others have you found

1349

00:47:35,349 --> 00:47:32,880

that the spiritual people have more of

1350

00:47:36,870 --> 00:47:35,359

an effect on the ranch or walk away with

1351  
00:47:39,670 --> 00:47:36,880  
more of an effect or is it even the

1352  
00:47:41,829 --> 00:47:39,680  
skeptics that walk away with a profound

1353  
00:47:44,870 --> 00:47:41,839  
change in the way that they are once

1354  
00:47:49,910 --> 00:47:46,230  
um

1355  
00:47:53,670 --> 00:47:50,829  
up

1356  
00:47:56,069 --> 00:47:53,680  
until there's an asterisk next to this

1357  
00:47:59,430 --> 00:47:56,079  
and this would be uh i believe

1358  
00:48:02,230 --> 00:47:59,440  
last episode when we had uapx out and

1359  
00:48:04,470 --> 00:48:02,240  
jason we had to put jason in the silo

1360  
00:48:07,670 --> 00:48:04,480  
um i didn't see that episode i'm sorry i

1361  
00:48:09,829 --> 00:48:07,680  
missed that one oh okay

1362  
00:48:11,430 --> 00:48:09,839  
um yeah so

1363  
00:48:14,470 --> 00:48:11,440

like i don't know what his attitude was

1364

00:48:16,710 --> 00:48:14,480

coming on branch so i can't speak to him

1365

00:48:18,470 --> 00:48:16,720

but you know in this whole process one

1366

00:48:19,670 --> 00:48:18,480

thing we're trying to identify is

1367

00:48:21,670 --> 00:48:19,680

patterns

1368

00:48:23,829 --> 00:48:21,680

what you know it's happening when it's

1369

00:48:26,790 --> 00:48:23,839

cold was it hot is it when it's a full

1370

00:48:28,549 --> 00:48:26,800

moon no moon this is a calendar day like

1371

00:48:30,790 --> 00:48:28,559

what is it right

1372

00:48:33,670 --> 00:48:30,800

and we've we've had a hard time

1373

00:48:35,670 --> 00:48:33,680

identifying any patterns

1374

00:48:37,670 --> 00:48:35,680

there's there's a couple small minor

1375

00:48:40,150 --> 00:48:37,680

ones and one of them is is that we look

1376  
00:48:41,510 --> 00:48:40,160  
at the individuals who have been injured

1377  
00:48:42,710 --> 00:48:41,520  
on the ranch

1378  
00:48:44,230 --> 00:48:42,720  
and

1379  
00:48:46,870 --> 00:48:44,240  
like again

1380  
00:48:48,630 --> 00:48:46,880  
without speaking jason i i not sure what

1381  
00:48:50,069 --> 00:48:48,640  
his mindset was when he came on the

1382  
00:48:52,230 --> 00:48:50,079  
ranch but

1383  
00:48:53,750 --> 00:48:52,240  
the rest of us

1384  
00:48:56,150 --> 00:48:53,760  
um

1385  
00:48:57,670 --> 00:48:56,160  
it almost seems like the more

1386  
00:49:00,829 --> 00:48:57,680  
belligerent

1387  
00:49:03,430 --> 00:49:00,839  
blizzard is probably not the right word

1388  
00:49:05,990 --> 00:49:03,440

skeptical um

1389

00:49:09,990 --> 00:49:06,000

that you come on the ranch the more

1390

00:49:12,710 --> 00:49:10,000

negative effect it has on you okay um if

1391

00:49:13,670 --> 00:49:12,720

it's underestimated get get surprised

1392

00:49:15,109 --> 00:49:13,680

the most

1393

00:49:17,190 --> 00:49:15,119

we get humbled

1394

00:49:19,829 --> 00:49:17,200

yep and the people that come on with a

1395

00:49:20,950 --> 00:49:19,839

level of respect and a lever a level of

1396

00:49:23,270 --> 00:49:20,960

reverence

1397

00:49:24,309 --> 00:49:23,280

um they seem to be okay

1398

00:49:26,230 --> 00:49:24,319

and

1399

00:49:27,829 --> 00:49:26,240

uh you know i don't know how

1400

00:49:30,230 --> 00:49:27,839

how like

1401

00:49:31,430 --> 00:49:30,240

hard that is as far as a pattern but we

1402

00:49:33,589 --> 00:49:31,440

look at the individuals that have been

1403

00:49:35,190 --> 00:49:33,599

hurt and as we start looking at the ones

1404

00:49:36,390 --> 00:49:35,200

that have suffered the most severe

1405

00:49:38,069 --> 00:49:36,400

injuries

1406

00:49:39,670 --> 00:49:38,079

we were the ones that came on and were

1407

00:49:41,510 --> 00:49:39,680

like oh that's stupid but there's

1408

00:49:43,270 --> 00:49:41,520

nothing here that's going to hurt me i

1409

00:49:45,750 --> 00:49:43,280

i'll throw myself in that right there i

1410

00:49:48,069 --> 00:49:45,760

mean i had that attitude

1411

00:49:49,030 --> 00:49:48,079

you know this is stupid don't bother me

1412

00:49:51,109 --> 00:49:49,040

with it

1413

00:49:52,630 --> 00:49:51,119

and uh and i and i got humbled really

1414

00:49:55,109 --> 00:49:52,640

quick and i've watched other individuals

1415

00:49:56,950 --> 00:49:55,119

with that same attitude that had an

1416

00:49:58,470 --> 00:49:56,960

individual

1417

00:50:01,030 --> 00:49:58,480

i don't know

1418

00:50:02,790 --> 00:50:01,040

a year ago nine months ago

1419

00:50:05,910 --> 00:50:02,800

uh had that attitude

1420

00:50:08,069 --> 00:50:05,920

and had a severe medical episode

1421

00:50:10,309 --> 00:50:08,079

and uh i yeah i thought that dude was

1422

00:50:11,589 --> 00:50:10,319

having like cardiac arrest

1423

00:50:12,790 --> 00:50:11,599

um

1424

00:50:14,790 --> 00:50:12,800

started

1425

00:50:17,109 --> 00:50:14,800

his face flushed up completely red he

1426

00:50:19,270 --> 00:50:17,119

started pouring sweat like this this is

1427

00:50:21,109 --> 00:50:19,280

in a matter of seconds

1428

00:50:22,950 --> 00:50:21,119

starts sweating grasping his chest

1429

00:50:24,829 --> 00:50:22,960

having a hard time breathing i thought

1430

00:50:27,670 --> 00:50:24,839

that dude was having a full-on heart

1431

00:50:30,470 --> 00:50:27,680

attack got him off the ranch

1432

00:50:32,630 --> 00:50:30,480

and within but like i was rushing him

1433

00:50:35,109 --> 00:50:32,640

straight to the hospital by the time we

1434

00:50:36,710 --> 00:50:35,119

got to the fort duchesne grocery store

1435

00:50:38,069 --> 00:50:36,720

he was sitting back up he's like i'm not

1436

00:50:39,270 --> 00:50:38,079

going to the hospital i don't want to go

1437

00:50:40,390 --> 00:50:39,280

to the hospital

1438

00:50:43,030 --> 00:50:40,400

and uh

1439

00:50:44,309 --> 00:50:43,040

and wouldn't let me take him and and

1440

00:50:46,870 --> 00:50:44,319

you know

1441

00:50:50,309 --> 00:50:46,880

but but again his whole attitude was

1442

00:50:52,549 --> 00:50:50,319

there's nothing here this is all yes and

1443

00:50:55,109 --> 00:50:52,559

right and uh so you approach it with

1444

00:50:58,950 --> 00:50:55,119

that yeah you got to prove something to

1445

00:51:02,630 --> 00:51:01,270

yeah and you know it's tough because uh

1446

00:51:04,870 --> 00:51:02,640

there's things that have to take place

1447

00:51:07,270 --> 00:51:04,880

on this ranch you know we for example

1448

00:51:09,750 --> 00:51:07,280

when we did the wastewater permit well i

1449

00:51:11,430 --> 00:51:09,760

have to get a contractor you know the tr

1450

00:51:12,710 --> 00:51:11,440

the health department requires me to get

1451  
00:51:14,950 --> 00:51:12,720  
a licensed

1452  
00:51:15,910 --> 00:51:14,960  
uh a contractor that's licensed to put

1453  
00:51:16,950 --> 00:51:15,920  
that in

1454  
00:51:19,430 --> 00:51:16,960  
so

1455  
00:51:20,950 --> 00:51:19,440  
uh it's hard to say tell the contractor

1456  
00:51:24,390 --> 00:51:20,960  
well you can't bring that employee or

1457  
00:51:25,910 --> 00:51:24,400  
that employee on you have to you know

1458  
00:51:27,030 --> 00:51:25,920  
you have to let these people do their

1459  
00:51:28,630 --> 00:51:27,040  
work so

1460  
00:51:30,549 --> 00:51:28,640  
same with uh we've got the right of way

1461  
00:51:33,349 --> 00:51:30,559  
for the canal going through there i have

1462  
00:51:35,109 --> 00:51:33,359  
zero say in who the canal company brings

1463  
00:51:37,829 --> 00:51:35,119

on that ranch to go clean out the

1464

00:51:40,069 --> 00:51:37,839

ditches or do that maintain the canal i

1465

00:51:41,750 --> 00:51:40,079

i don't get to say in that so you see

1466

00:51:43,750 --> 00:51:41,760

some of these the best we can do is

1467

00:51:45,510 --> 00:51:43,760

accompany them right right and so we get

1468

00:51:47,990 --> 00:51:45,520

some of these individuals on there for

1469

00:51:49,829 --> 00:51:48,000

which we we really have no legal control

1470

00:51:51,829 --> 00:51:49,839

over

1471

00:51:53,670 --> 00:51:51,839

that and and and you start seeing these

1472

00:51:55,109 --> 00:51:53,680

things happen and i i just don't know

1473

00:51:57,270 --> 00:51:55,119

how to stress more to people like you've

1474

00:51:59,829 --> 00:51:57,280

got to come on with a level of respect

1475

00:52:01,910 --> 00:51:59,839

and reverence i know it sounds corny

1476

00:52:05,190 --> 00:52:01,920

but from what we've seen that's one of

1477

00:52:06,950 --> 00:52:05,200

the few things we can say uh that if you

1478

00:52:09,109 --> 00:52:06,960

if you come on with a level of respect

1479

00:52:10,549 --> 00:52:09,119

and reverence you're much

1480

00:52:13,829 --> 00:52:10,559

the odds say you're going to be much

1481

00:52:15,270 --> 00:52:13,839

more likely to come off in

1482

00:52:17,990 --> 00:52:15,280

good shape

1483

00:52:19,910 --> 00:52:18,000

approach it with uh respect and nothing

1484

00:52:21,829 --> 00:52:19,920

will happen to you type thing

1485

00:52:23,829 --> 00:52:21,839

do you guys have a lot of issues with

1486

00:52:25,430 --> 00:52:23,839

fans trying to find the ranch and trying

1487

00:52:29,750 --> 00:52:25,440

to come onto the ranch because i figured

1488

00:52:34,710 --> 00:52:32,309

it was getting i mean that it was an

1489

00:52:36,950 --> 00:52:34,720

issue before the show i mean it was an

1490

00:52:39,510 --> 00:52:36,960

issue before we went worldwide and then

1491

00:52:41,589 --> 00:52:39,520

we went worldwide and it became a

1492

00:52:44,069 --> 00:52:41,599

massive issue right um

1493

00:52:45,030 --> 00:52:44,079

i mean dragon caleb and the security

1494

00:52:47,670 --> 00:52:45,040

team

1495

00:52:50,470 --> 00:52:47,680

uh have their work cut out for them i

1496

00:52:52,230 --> 00:52:50,480

will say though um i'm gonna put a plug

1497

00:52:54,069 --> 00:52:52,240

in for these guys live view technologies

1498

00:52:57,190 --> 00:52:54,079

that brought out these sophisticated

1499

00:53:00,470 --> 00:52:57,200

camera systems that you saw on uh

1500

00:53:02,790 --> 00:53:00,480

episode one this year

1501  
00:53:06,390 --> 00:53:02,800  
that has that has cut down on our

1502  
00:53:08,470 --> 00:53:06,400  
problems by like 95 i can't even i can't

1503  
00:53:11,030 --> 00:53:08,480  
even begin to tell you

1504  
00:53:12,390 --> 00:53:11,040  
just what those units have done so a

1505  
00:53:15,190 --> 00:53:12,400  
huge shout out for live view

1506  
00:53:17,349 --> 00:53:15,200  
technologies for for their equipment

1507  
00:53:19,430 --> 00:53:17,359  
it's been a game changer

1508  
00:53:21,270 --> 00:53:19,440  
i mean they're highly sophisticated and

1509  
00:53:22,790 --> 00:53:21,280  
it's also given us a lot more control

1510  
00:53:25,109 --> 00:53:22,800  
over trying to

1511  
00:53:28,069 --> 00:53:25,119  
you can't physically cover 512 acres

1512  
00:53:31,270 --> 00:53:28,079  
easily and so we've had to rely on both

1513  
00:53:34,069 --> 00:53:31,280

manpower and on technology and live view

1514

00:53:35,990 --> 00:53:34,079

bringing us out those units has been

1515

00:53:38,390 --> 00:53:36,000

night and day difference yeah not to

1516

00:53:40,549 --> 00:53:38,400

mention the liability issues of people

1517

00:53:42,390 --> 00:53:40,559

on your land right like if anything

1518

00:53:43,829 --> 00:53:42,400

happens to them you can get sued like i

1519

00:53:45,750 --> 00:53:43,839

don't know if it's the same as

1520

00:53:47,430 --> 00:53:45,760

it isn't a state citizen canada but you

1521

00:53:49,670 --> 00:53:47,440

could get sued for practically anything

1522

00:53:52,470 --> 00:53:49,680

so uh somebody's on your land to get

1523

00:53:54,630 --> 00:53:52,480

injured that's a liability right

1524

00:53:56,309 --> 00:53:54,640

true story yep

1525

00:53:57,990 --> 00:53:56,319

perfect uh before we close louie do you

1526  
00:53:59,829 --> 00:53:58,000  
have any final questions for a guest no

1527  
00:54:01,670 --> 00:53:59,839  
i just want to say that uh um it was

1528  
00:54:03,829 --> 00:54:01,680  
really awesome having you on the show uh

1529  
00:54:05,910 --> 00:54:03,839  
i'm a huge personal fan of not only the

1530  
00:54:08,230 --> 00:54:05,920  
phenomenon the ranch but the show itself

1531  
00:54:10,230 --> 00:54:08,240  
i think you guys do a really good job it

1532  
00:54:12,549 --> 00:54:10,240  
doesn't as you mentioned you don't cast

1533  
00:54:14,309 --> 00:54:12,559  
the show so there's no actors and even

1534  
00:54:16,470 --> 00:54:14,319  
though some of that footage is captured

1535  
00:54:18,710 --> 00:54:16,480  
after the phenomenon it still has a

1536  
00:54:21,030 --> 00:54:18,720  
genuine feel to it uh it feels like you

1537  
00:54:22,710 --> 00:54:21,040  
guys treat it with a level of sincerity

1538  
00:54:24,549 --> 00:54:22,720

you're not trying to make a joke of it

1539

00:54:27,190 --> 00:54:24,559

or a horror movie out of it you know you

1540

00:54:28,549 --> 00:54:27,200

have that scientific mind and the ranch

1541

00:54:30,230 --> 00:54:28,559

is weird enough that it's giving you

1542

00:54:31,990 --> 00:54:30,240

what you're looking for so

1543

00:54:33,829 --> 00:54:32,000

season one and two was great beginning

1544

00:54:35,109 --> 00:54:33,839

of season three is awesome

1545

00:54:36,870 --> 00:54:35,119

and we look forward to seeing the rest

1546

00:54:38,710 --> 00:54:36,880

of it so just want to say on behalf of

1547

00:54:40,789 --> 00:54:38,720

jason myself thanks very much thomas for

1548

00:54:42,390 --> 00:54:40,799

coming on our show again

1549

00:54:47,800 --> 00:54:42,400

hey it's been great to visit with you
