1  
00:00:22,870 --> 00:00:19,400

[Music]

2  
00:00:27,509 --> 00:00:24,710

welcome back to another fantastic

3  
00:00:29,429 --> 00:00:27,519

episode of uap studies i'm joined by

4  
00:00:30,710 --> 00:00:29,439

louis borges louis how you doing my man

5  
00:00:32,790 --> 00:00:30,720

i'm doing really good brother how are

6  
00:00:35,590 --> 00:00:32,800

you i'm doing very good we got a

7  
00:00:38,709 --> 00:00:35,600

fantastic guest today uh makai matthew

8  
00:00:40,229 --> 00:00:38,719

morin is joining us and uh basically

9  
00:00:42,069 --> 00:00:40,239

we're just gonna get right into it if

10  
00:00:44,709 --> 00:00:42,079

that's okay with you makai

11  
00:00:46,790 --> 00:00:44,719

sounds great great so basically tell us

12  
00:00:48,549 --> 00:00:46,800

just a little bit about yourself um we'd

13  
00:00:49,910 --> 00:00:48,559

like to know basically when we have

14

00:00:52,630 --> 00:00:49,920

somebody on

15

00:00:53,510 --> 00:00:52,640

what is your experience with uaps as a

16

00:00:55,590 --> 00:00:53,520

kid

17

00:00:56,389 --> 00:00:55,600

what got you into the subject because it

18

00:00:58,549 --> 00:00:56,399

is

19

00:01:00,549 --> 00:00:58,559

still kind of a niche subject right now

20

00:01:01,750 --> 00:01:00,559

um a small community

21

00:01:04,869 --> 00:01:01,760

but a community that's growing

22

00:01:06,870 --> 00:01:04,879

nonetheless so um without uh you know uh

23

00:01:08,710 --> 00:01:06,880

further ado if you will

24

00:01:10,469 --> 00:01:08,720

yeah teach us a little bit about your

25

00:01:12,710 --> 00:01:10,479

your background well thanks thanks for

26

00:01:16,310 --> 00:01:12,720

asking i don't generally talk about you

27

00:01:19,670 --> 00:01:16,320

know my my my youth and interests uh

28

00:01:22,149 --> 00:01:19,680

proceeding to today

29

00:01:24,789 --> 00:01:22,159

my childhood i was

30

00:01:27,030 --> 00:01:24,799

i have high functioning asperger's when

31

00:01:29,590 --> 00:01:27,040

i was a child it wasn't

32

00:01:32,069 --> 00:01:29,600

a really documented thing i'm sure many

33

00:01:34,550 --> 00:01:32,079

other children had it as well

34

00:01:35,350 --> 00:01:34,560

but it was just kind of seen as

35

00:02:05,990 --> 00:01:35,360

a

36

00:02:08,469 --> 00:02:06,000

sort of

37

00:02:10,469 --> 00:02:08,479

experience you start to learn

38

00:02:12,630 --> 00:02:10,479

more things about the universe and how

39

00:02:15,110 --> 00:02:12,640

the universe operates at fundamental

40

00:02:17,110 --> 00:02:15,120

levels and it's a really interesting

41

00:02:19,750 --> 00:02:17,120

topic for me

42

00:02:21,990 --> 00:02:19,760

as a kid i i loved

43

00:02:24,229 --> 00:02:22,000

taking things apart

44

00:02:26,630 --> 00:02:24,239

i was always fascinated with space i i

45

00:02:28,390 --> 00:02:26,640

wanted to be an astronaut

46

00:02:30,229 --> 00:02:28,400

to the extent that

47

00:02:32,470 --> 00:02:30,239

i ended up

48

00:02:34,949 --> 00:02:32,480

you know studying

49

00:02:38,790 --> 00:02:34,959

science and physics and

50

00:02:40,869 --> 00:02:38,800

really dove into astrophysics i started

51  
00:02:42,550 --> 00:02:40,879  
college early

52  
00:02:45,110 --> 00:02:42,560  
i even took

53  
00:02:46,150 --> 00:02:45,120  
flying lessons my father had planes he

54  
00:02:50,790 --> 00:02:46,160  
was

55  
00:02:52,949 --> 00:02:50,800  
in the green beret and had retired and

56  
00:02:55,430 --> 00:02:52,959  
carried on his interest in flying and

57  
00:02:56,949 --> 00:02:55,440  
had had planes so we flew together and i

58  
00:02:59,509 --> 00:02:56,959  
took lessons

59  
00:03:02,309 --> 00:02:59,519  
hoping one day i could

60  
00:03:04,710 --> 00:03:02,319  
join the air force or navy and work

61  
00:03:08,630 --> 00:03:04,720  
toward becoming an astronaut

62  
00:03:11,350 --> 00:03:08,640  
unfortunately due to not not only my

63  
00:03:13,270 --> 00:03:11,360

uh i guess they call it a disability i

64

00:03:16,309 --> 00:03:13,280

don't consider it

65

00:03:18,309 --> 00:03:16,319

as such personally for myself but also

66

00:03:19,350 --> 00:03:18,319

i'm colorblind

67

00:03:21,589 --> 00:03:19,360

so

68

00:03:23,350 --> 00:03:21,599

that doesn't help no

69

00:03:24,949 --> 00:03:23,360

that derailed my

70

00:03:28,070 --> 00:03:24,959

my

71

00:03:30,710 --> 00:03:28,080

plan uh quite substantially

72

00:03:32,789 --> 00:03:30,720

so i left college and i kind of

73

00:03:35,110 --> 00:03:32,799

backpacked europe and the middle east

74

00:03:36,710 --> 00:03:35,120

for for a while and then came back to

75

00:03:39,110 --> 00:03:36,720

the states

76

00:03:42,229 --> 00:03:39,120

and then lived as a young adult

77

00:03:44,869 --> 00:03:42,239

uh in that in that time i

78

00:03:48,149 --> 00:03:44,879

found i had a knack for

79

00:03:50,470 --> 00:03:48,159

um understanding trends

80

00:03:52,390 --> 00:03:50,480

based on my knowledge of

81

00:03:55,110 --> 00:03:52,400

science and technology

82

00:03:57,030 --> 00:03:55,120

i could see where things were heading

83

00:03:58,470 --> 00:03:57,040

and

84

00:04:00,630 --> 00:03:58,480

eventually

85

00:04:02,789 --> 00:04:00,640

talking and meeting new people i was

86

00:04:04,630 --> 00:04:02,799

giving advice and that turned into

87

00:04:06,869 --> 00:04:04,640

advisory roles

88

00:04:07,589 --> 00:04:06,879

and then from there i met other people

89

00:04:09,670 --> 00:04:07,599

and

90

00:04:11,670 --> 00:04:09,680

i started doing consulting

91

00:04:14,070 --> 00:04:11,680

um

92

00:04:15,429 --> 00:04:14,080

and so it all kind of just kind of grew

93

00:04:16,390 --> 00:04:15,439

upon itself

94

00:04:18,710 --> 00:04:16,400

i

95

00:04:21,430 --> 00:04:18,720

started a consultancy where we

96

00:04:24,230 --> 00:04:21,440

specialize in helping

97

00:04:26,710 --> 00:04:24,240

new tech ventures and science fact

98

00:04:29,670 --> 00:04:26,720

ventures procure funding

99

00:04:32,550 --> 00:04:29,680

so what happens is you have a lot of

100

00:04:35,909 --> 00:04:32,560

these startups who have disruptive

101  
00:04:38,710 --> 00:04:35,919  
technologies or services

102  
00:04:40,550 --> 00:04:38,720  
but they lack the knowledge of how to

103  
00:04:43,830 --> 00:04:40,560  
navigate the

104  
00:04:46,070 --> 00:04:43,840  
financing world or or don't understand

105  
00:04:49,030 --> 00:04:46,080  
how to

106  
00:04:51,510 --> 00:04:49,040  
market their product or service and

107  
00:04:53,670 --> 00:04:51,520  
what my business does is we help

108  
00:04:57,189 --> 00:04:53,680  
we help them get to that point

109  
00:04:59,189 --> 00:04:57,199  
and that's actually how i met deep and

110  
00:05:00,070 --> 00:04:59,199  
ryan graves and

111  
00:05:02,790 --> 00:05:00,080  
um

112  
00:05:05,749 --> 00:05:02,800  
so yeah that's what i do with my company

113  
00:05:07,540 --> 00:05:05,759

on the side i do a lot of these podcasts

114

00:05:09,189 --> 00:05:07,550

i do tech talks

115

00:05:12,310 --> 00:05:09,199

[Music]

116

00:05:13,670 --> 00:05:12,320

discussing uh futurism uh

117

00:05:15,029 --> 00:05:13,680

automation

118

00:05:15,909 --> 00:05:15,039

ai

119

00:05:20,230 --> 00:05:15,919

uh

120

00:05:23,110 --> 00:05:20,240

also do private consulting for

121

00:05:25,990 --> 00:05:23,120

executives and administrative teams for

122

00:05:29,510 --> 00:05:26,000

companies and that's more

123

00:05:30,629 --> 00:05:29,520

uh depending on situational

124

00:05:32,390 --> 00:05:30,639

so if

125

00:05:33,990 --> 00:05:32,400

it's a specific product or service

126

00:05:36,230 --> 00:05:34,000

they're looking at or they're looking

127

00:05:39,350 --> 00:05:36,240

looking at where a market might be in so

128

00:05:40,550 --> 00:05:39,360

many years we sit down and look at the

129

00:05:42,870 --> 00:05:40,560

data

130

00:05:45,189 --> 00:05:42,880

so that's what i do professionally i

131

00:05:47,430 --> 00:05:45,199

enjoy these topics because i've always

132

00:05:51,270 --> 00:05:47,440

had a knack

133

00:05:51,280 --> 00:05:55,390

i never had any

134

00:05:59,920 --> 00:05:58,469

uap-related experiences as a child i did

135

00:06:02,909 --> 00:05:59,930

have interesting

136

00:06:06,110 --> 00:06:02,919

[Music]

137

00:06:08,390 --> 00:06:06,120

experiences that were

138

00:06:10,469 --> 00:06:08,400

non-scientific because i i couldn't

139

00:06:12,390 --> 00:06:10,479

explain them scientifically

140

00:06:15,430 --> 00:06:12,400

uh more

141

00:06:17,029 --> 00:06:15,440

serendipitous or coincidental to the ex

142

00:06:18,070 --> 00:06:17,039

to the extreme

143

00:06:21,110 --> 00:06:18,080

right

144

00:06:23,590 --> 00:06:21,120

yeah very interesting um

145

00:06:26,230 --> 00:06:23,600

however i i haven't i haven't told

146

00:06:29,510 --> 00:06:26,240

anybody this uh except for two other

147

00:06:32,550 --> 00:06:29,520

people and my wife but there was a uh i

148

00:06:35,670 --> 00:06:32,560

did have an experience

149

00:06:38,150 --> 00:06:35,680

six eight months ago um

150

00:06:41,830 --> 00:06:38,160

i was sleeping

151  
00:06:44,309 --> 00:06:41,840  
sent quite soundly with my wife uh and i

152  
00:06:45,590 --> 00:06:44,319  
was having this really really vivid

153  
00:06:48,390 --> 00:06:45,600  
dream

154  
00:06:54,309 --> 00:06:48,400  
uh that i was

155  
00:06:59,029 --> 00:06:56,469  
sounds insane we were flying through the

156  
00:07:01,670 --> 00:06:59,039  
cosmos and they were showing me this

157  
00:07:03,430 --> 00:07:01,680  
this immense battle that was occurring

158  
00:07:07,189 --> 00:07:03,440  
and then they were showing

159  
00:07:09,110 --> 00:07:07,199  
flash i say they was this uh

160  
00:07:12,629 --> 00:07:09,120  
formless kind of

161  
00:07:15,029 --> 00:07:12,639  
uh being entities in my subconscious i

162  
00:07:16,870 --> 00:07:15,039  
kind of labeled them as

163  
00:07:18,629 --> 00:07:16,880

uh quote-unquote aliens and i'm not

164

00:07:20,550 --> 00:07:18,639

saying this occurred right i'm just

165

00:07:25,189 --> 00:07:20,560

saying this is what i dreamt

166

00:07:27,670 --> 00:07:25,199

and uh very very vivid

167

00:07:29,510 --> 00:07:27,680

almost uh lucid i don't know if you've

168

00:07:32,070 --> 00:07:29,520

ever had a lucid dream

169

00:07:33,909 --> 00:07:32,080

i've had a few in my life not many but i

170

00:07:35,749 --> 00:07:33,919

know what a lucid dream is it's when

171

00:07:37,430 --> 00:07:35,759

you're you're consciously aware and you

172

00:07:39,029 --> 00:07:37,440

can actually control the outcomes of

173

00:07:41,909 --> 00:07:39,039

your dreams which are great i've always

174

00:07:44,710 --> 00:07:41,919

wished i could have had more but the the

175

00:07:47,430 --> 00:07:44,720

reality in this dream was that lucidity

176  
00:07:48,710 --> 00:07:47,440  
level i couldn't control it but it was

177  
00:07:51,909 --> 00:07:48,720  
so real

178  
00:07:55,990 --> 00:07:51,919  
that it could have been uh reality

179  
00:07:58,469 --> 00:07:56,000  
anyway i i woke up at a start

180  
00:08:00,230 --> 00:07:58,479  
because we i heard a noise and i was

181  
00:08:03,990 --> 00:08:00,240  
just soaked with sweat

182  
00:08:06,309 --> 00:08:04,000  
and i have a off network alarm system in

183  
00:08:09,909 --> 00:08:06,319  
my house which means that it's not

184  
00:08:12,710 --> 00:08:09,919  
connected to any outside network

185  
00:08:14,950 --> 00:08:12,720  
for security reasons i do a lot of

186  
00:08:17,270 --> 00:08:14,960  
nda stuff and i have to maintain a

187  
00:08:18,790 --> 00:08:17,280  
certain level of security

188  
00:08:20,230 --> 00:08:18,800

anyway

189

00:08:23,589 --> 00:08:20,240

my panel

190

00:08:25,589 --> 00:08:23,599

was completely lit up so that means

191

00:08:27,510 --> 00:08:25,599

every sensor had been

192

00:08:30,230 --> 00:08:27,520

triggered at the same time because they

193

00:08:33,430 --> 00:08:30,240

were blinking in sync with each other

194

00:08:34,630 --> 00:08:33,440

which up until that point had never

195

00:08:37,589 --> 00:08:34,640

occurred

196

00:08:39,750 --> 00:08:37,599

and again this could be coincidental

197

00:08:41,029 --> 00:08:39,760

that it occurred with with this strange

198

00:08:43,750 --> 00:08:41,039

dream i had

199

00:08:45,829 --> 00:08:43,760

but i had this compulsion not only to

200

00:08:47,430 --> 00:08:45,839

appease my wife who was like what the

201  
00:08:47,920 --> 00:08:47,440  
hell is going on

202  
00:08:49,269 --> 00:08:47,930  
um

203  
00:08:51,509 --> 00:08:49,279  
[Music]

204  
00:08:55,590 --> 00:08:51,519  
i also felt like i had to check on you

205  
00:08:57,350 --> 00:08:55,600  
know my house so i got up put on my robe

206  
00:08:59,110 --> 00:08:57,360  
and kind of poked around the house and i

207  
00:09:01,829 --> 00:08:59,120  
had this compulsion

208  
00:09:03,030 --> 00:09:01,839  
which has never happened before

209  
00:09:04,949 --> 00:09:03,040  
to

210  
00:09:08,470 --> 00:09:04,959  
go out my back door

211  
00:09:09,670 --> 00:09:08,480  
and not look around at ground level but

212  
00:09:12,550 --> 00:09:09,680  
look up

213  
00:09:15,430 --> 00:09:12,560

and i looked up at the night sky

214

00:09:19,430 --> 00:09:15,440

and i didn't see anything of interest

215

00:09:23,190 --> 00:09:19,440

until one of these stars in my periphery

216

00:09:26,389 --> 00:09:23,200

kind of just faded out

217

00:09:29,190 --> 00:09:26,399

and i look back and where that spot was

218

00:09:31,910 --> 00:09:29,200

was just an empty void

219

00:09:34,230 --> 00:09:31,920

that experience was

220

00:09:37,590 --> 00:09:34,240

probably one of the strangest things

221

00:09:38,870 --> 00:09:37,600

i've ever experienced um and your

222

00:09:41,430 --> 00:09:38,880

viewers can

223

00:09:43,750 --> 00:09:41,440

take it as it is a series of strange

224

00:09:46,470 --> 00:09:43,760

coincidence perhaps

225

00:09:49,740 --> 00:09:46,480

i have no idea it's an interesting story

226

00:09:51,750 --> 00:09:49,750

nonetheless and that's really my only

227

00:09:54,389 --> 00:09:51,760

[Music]

228

00:09:57,190 --> 00:09:54,399

occurrence with the phenomenon that i'm

229

00:10:00,710 --> 00:09:57,200

aware of do you have any

230

00:10:03,030 --> 00:10:00,720

sensation of being pulled or rush

231

00:10:04,710 --> 00:10:03,040

of of being pulled you know upwards or

232

00:10:07,670 --> 00:10:04,720

downwards really fast like have you had

233

00:10:11,110 --> 00:10:07,680

any sensation well before i woke up i

234

00:10:16,790 --> 00:10:14,389

thrown at a at a tremendous velocity

235

00:10:19,030 --> 00:10:16,800

into my bed um

236

00:10:20,870 --> 00:10:19,040

obviously that didn't happen otherwise i

237

00:10:23,430 --> 00:10:20,880

would have gone through the floor

238

00:10:25,030 --> 00:10:23,440

but i did have that physical sensation

239

00:10:26,389 --> 00:10:25,040  
of being

240

00:10:30,470 --> 00:10:26,399  
just

241

00:10:33,750 --> 00:10:30,480  
my

242

00:10:36,310 --> 00:10:33,760  
conscious awareness and i woke up and

243

00:10:38,710 --> 00:10:36,320  
uh laying on my back just soaked with

244

00:10:41,190 --> 00:10:38,720  
sweat and my sensor panel

245

00:10:43,269 --> 00:10:41,200  
going off so it was a strange instance

246

00:10:45,350 --> 00:10:43,279  
and it feels funny to share that i've

247

00:10:47,190 --> 00:10:45,360  
held that quite privately

248

00:10:49,590 --> 00:10:47,200  
but thank you for sharing that's yeah

249

00:10:52,150 --> 00:10:49,600  
that's what this is all about right

250

00:10:54,790 --> 00:10:52,160  
um and having talked louie and i haven't

251

00:10:57,670 --> 00:10:54,800

talked with a few of these uh

252

00:11:00,389 --> 00:10:57,680

past abductees like kathleen martin

253

00:11:02,630 --> 00:11:00,399

that sensation is something that is

254

00:11:05,269 --> 00:11:02,640

occurring in abductions that people feel

255

00:11:07,430 --> 00:11:05,279

that sensation so that's that's curious

256

00:11:09,590 --> 00:11:07,440

that happened to you as well yeah it

257

00:11:11,590 --> 00:11:09,600

could be from my my

258

00:11:14,310 --> 00:11:11,600

recollection of

259

00:11:15,590 --> 00:11:14,320

learning and hearing others and somehow

260

00:11:18,389 --> 00:11:15,600

i i

261

00:11:21,670 --> 00:11:18,399

wove that into my subconscious narrative

262

00:11:23,990 --> 00:11:21,680

i'm not sure i hesitate to say that i

263

00:11:25,350 --> 00:11:24,000

was abducted because i have no evidence

264

00:11:27,350 --> 00:11:25,360

of such

265

00:11:31,509 --> 00:11:27,360

i have no physical markings i have no

266

00:11:33,670 --> 00:11:31,519

memories other than my very vivid dream

267

00:11:34,870 --> 00:11:33,680

again we'll leave that up to your

268

00:11:36,470 --> 00:11:34,880

viewers

269

00:11:39,590 --> 00:11:36,480

nice and

270

00:11:41,190 --> 00:11:39,600

on the subject of uap so what got you

271

00:11:42,870 --> 00:11:41,200

initially interested in the subject

272

00:11:44,630 --> 00:11:42,880

because before this point you've never

273

00:11:45,670 --> 00:11:44,640

really had any

274

00:11:47,350 --> 00:11:45,680

sightings or anything like that you

275

00:11:49,430 --> 00:11:47,360

mentioned as a kid so something must

276

00:11:50,790 --> 00:11:49,440

have triggered that interest for you so

277

00:11:54,389 --> 00:11:50,800

i've always had a

278

00:11:57,190 --> 00:11:54,399

cursory interest in in the topic mostly

279

00:11:59,190 --> 00:11:57,200

stemming from technological capabilities

280

00:12:01,750 --> 00:11:59,200

i wasn't so much interested

281

00:12:04,069 --> 00:12:01,760

in the nuances spiritualism

282

00:12:06,069 --> 00:12:04,079

consciousness i mean that's always been

283

00:12:08,550 --> 00:12:06,079

a topic that's interested me but it was

284

00:12:11,190 --> 00:12:08,560

really the technology i mean that's at

285

00:12:12,069 --> 00:12:11,200

the heart of what i do it's the heart of

286

00:12:14,470 --> 00:12:12,079

my

287

00:12:17,190 --> 00:12:14,480

uh core interests

288

00:12:18,710 --> 00:12:17,200

and uh so during

289

00:12:21,190 --> 00:12:18,720

one of

290

00:12:23,110 --> 00:12:21,200

my meetings it was wasn't during it was

291

00:12:25,430 --> 00:12:23,120

after a meeting i had

292

00:12:26,389 --> 00:12:25,440

when i started my career i worked with a

293

00:12:28,629 --> 00:12:26,399

couple

294

00:12:29,829 --> 00:12:28,639

aerospace companies i thought i was

295

00:12:32,550 --> 00:12:29,839

doing

296

00:12:35,910 --> 00:12:32,560

amazing in my career here i was finally

297

00:12:37,110 --> 00:12:35,920

getting the big contracts and

298

00:12:40,870 --> 00:12:37,120

working with

299

00:12:44,389 --> 00:12:40,880

these aerospace and defense companies

300

00:12:46,710 --> 00:12:44,399

anyway after one of the meetings you

301  
00:12:48,949 --> 00:12:46,720  
occasionally will just casually shoot

302  
00:12:50,790 --> 00:12:48,959  
the with some of the other

303  
00:12:53,190 --> 00:12:50,800  
people who were present

304  
00:12:56,629 --> 00:12:53,200  
back then this was pre-covered so we

305  
00:13:01,590 --> 00:12:57,509  
and

306  
00:13:05,269 --> 00:13:01,600  
more than once i had spoken to

307  
00:13:09,590 --> 00:13:07,590  
not just interests but

308  
00:13:13,910 --> 00:13:09,600  
firsthand

309  
00:13:16,470 --> 00:13:13,920  
accounts of technologies relating to

310  
00:13:17,509 --> 00:13:16,480  
the phenomenon which obviously that i

311  
00:13:20,069 --> 00:13:17,519  
found that

312  
00:13:22,230 --> 00:13:20,079  
very fascinating i've always been

313  
00:13:24,710 --> 00:13:22,240

interested in researching

314

00:13:27,269 --> 00:13:24,720

uh electrogravitic

315

00:13:30,470 --> 00:13:27,279

field generation field propulsion

316

00:13:33,030 --> 00:13:30,480

uh because that's honestly that's not

317

00:13:35,670 --> 00:13:33,040

pseudoscience i know a lot of people

318

00:13:37,110 --> 00:13:35,680

you know don't trust the science there

319

00:13:38,949 --> 00:13:37,120

there's a tremendous amount of

320

00:13:41,990 --> 00:13:38,959

legitimacy in

321

00:13:43,829 --> 00:13:42,000

electrogravity propulsion

322

00:13:45,910 --> 00:13:43,839

the science says so

323

00:13:46,829 --> 00:13:45,920

the physics say so

324

00:13:48,949 --> 00:13:46,839

the

325

00:13:51,829 --> 00:13:48,959

engineering could

326

00:13:55,030 --> 00:13:51,839

it is certainly possible we don't have

327

00:13:58,230 --> 00:13:55,040

the power uh distribution or storage

328

00:14:01,910 --> 00:13:58,240

capabilities at present public knowledge

329

00:14:04,230 --> 00:14:01,920

uh to to generate voltages that would be

330

00:14:05,910 --> 00:14:04,240

required to have such an effect that

331

00:14:08,230 --> 00:14:05,920

does not mean it's impossible so i've

332

00:14:11,189 --> 00:14:08,240

always been interested in researching it

333

00:14:12,310 --> 00:14:11,199

um and then just having a talk with with

334

00:14:13,990 --> 00:14:12,320

one of these

335

00:14:17,509 --> 00:14:14,000

engineers who's

336

00:14:19,750 --> 00:14:17,519

later years he's i would say mid to late

337

00:14:21,269 --> 00:14:19,760

60s so he had been

338

00:14:22,629 --> 00:14:21,279

around for a long time he probably

339

00:14:25,750 --> 00:14:22,639

should have retired

340

00:14:28,230 --> 00:14:25,760

a long time ago but he was telling me

341

00:14:30,629 --> 00:14:28,240

he had worked for these other companies

342

00:14:32,629 --> 00:14:30,639

so in the aerospace sector

343

00:14:36,110 --> 00:14:32,639

what's happened over the last

344

00:14:37,910 --> 00:14:36,120

40 years has been a tremendous amount of

345

00:14:41,829 --> 00:14:37,920

consolidations

346

00:14:45,189 --> 00:14:41,839

patent trading ip hoarding

347

00:14:47,829 --> 00:14:45,199

so all the companies that exist now are

348

00:14:50,710 --> 00:14:47,839

really conglomerates of

349

00:14:54,509 --> 00:14:50,720

aerospace companies that were around

350

00:14:57,110 --> 00:14:54,519

prior so this goes back to the early

351  
00:14:58,550 --> 00:14:57,120  
1900s 1900s

352  
00:15:01,350 --> 00:14:58,560  
and

353  
00:15:03,430 --> 00:15:01,360  
so this guy had worked uh at a couple

354  
00:15:04,949 --> 00:15:03,440  
other companies

355  
00:15:06,870 --> 00:15:04,959  
and

356  
00:15:08,870 --> 00:15:06,880  
he started telling me some things that i

357  
00:15:10,870 --> 00:15:08,880  
found extremely interesting because it

358  
00:15:13,829 --> 00:15:10,880  
had actually correlated with some of the

359  
00:15:16,870 --> 00:15:13,839  
research i i read a lot of scientific

360  
00:15:18,629 --> 00:15:16,880  
publications that are really dry really

361  
00:15:20,870 --> 00:15:18,639  
boring that really don't make the light

362  
00:15:22,710 --> 00:15:20,880  
of day

363  
00:15:24,629 --> 00:15:22,720

sometimes because they're

364

00:15:26,150 --> 00:15:24,639

so out there that

365

00:15:28,389 --> 00:15:26,160

people just don't want to touch them

366

00:15:29,509 --> 00:15:28,399

from the scientific or intellectual

367

00:15:30,550 --> 00:15:29,519

community

368

00:15:33,430 --> 00:15:30,560

um

369

00:15:35,430 --> 00:15:33,440

but he had made a statement uh that i

370

00:15:37,749 --> 00:15:35,440

told somebody recently

371

00:15:38,949 --> 00:15:37,759

he he told me to follow the mercury and

372

00:15:40,710 --> 00:15:38,959

at the time

373

00:15:42,870 --> 00:15:40,720

i i didn't realize there was such a

374

00:15:45,990 --> 00:15:42,880

breath of uh

375

00:15:48,870 --> 00:15:46,000

information on the on mercury relating

376

00:15:49,910 --> 00:15:48,880

to the phenomena so naturally i went

377

00:15:53,110 --> 00:15:49,920

back and

378

00:15:56,069 --> 00:15:53,120

started my research on that topic

379

00:15:58,310 --> 00:15:56,079

and i started to see some interesting

380

00:16:01,030 --> 00:15:58,320

patterns and started to

381

00:16:02,150 --> 00:16:01,040

look up research pertaining to

382

00:16:04,069 --> 00:16:02,160

um

383

00:16:05,189 --> 00:16:04,079

high vertices

384

00:16:07,749 --> 00:16:05,199

mercury

385

00:16:09,749 --> 00:16:07,759

different types of

386

00:16:12,150 --> 00:16:09,759

vaporized mercury and some of the

387

00:16:15,910 --> 00:16:12,160

effects that occur from that and they

388

00:16:18,389 --> 00:16:15,920

correlate with uh a lot of these

389

00:16:20,470 --> 00:16:18,399

gravitic stranges that that we see from

390

00:16:23,749 --> 00:16:20,480

the phenomenon and then you start to see

391

00:16:26,790 --> 00:16:23,759

historic accounts pertaining to

392

00:16:28,790 --> 00:16:26,800

mercury being either a associated with

393

00:16:30,870 --> 00:16:28,800

the phenomena or b

394

00:16:33,829 --> 00:16:30,880

somehow

395

00:16:37,829 --> 00:16:35,670

collected

396

00:16:40,230 --> 00:16:37,839

by governments so we saw

397

00:16:42,389 --> 00:16:40,240

the the nazis were extremely interested

398

00:16:45,430 --> 00:16:42,399

after the war happened

399

00:16:46,550 --> 00:16:45,440

we were finding u-boats filled with uh

400

00:16:48,150 --> 00:16:46,560

mercury

401  
00:16:51,749 --> 00:16:48,160  
and some people have claimed that the

402  
00:16:55,110 --> 00:16:51,759  
mercury is used for industrial use

403  
00:16:57,670 --> 00:16:55,120  
sure but you don't need mercury in the

404  
00:17:00,069 --> 00:16:57,680  
amounts that we were finding and

405  
00:17:03,110 --> 00:17:00,079  
certainly you wouldn't have that as top

406  
00:17:05,590 --> 00:17:03,120  
priority on some of the best u-boats

407  
00:17:08,390 --> 00:17:05,600  
hidden away and kind of

408  
00:17:10,390 --> 00:17:08,400  
found in all sorts of areas argentina

409  
00:17:12,949 --> 00:17:10,400  
antarctica i think somewhere in the

410  
00:17:15,909 --> 00:17:12,959  
philippines as well so there's this

411  
00:17:18,390 --> 00:17:15,919  
interesting uh relation to mercury and

412  
00:17:20,390 --> 00:17:18,400  
this guy turned me on to it and that

413  
00:17:23,750 --> 00:17:20,400

kind of started my whole analysis i

414

00:17:25,669 --> 00:17:23,760

started to look at the phenomena as a

415

00:17:27,990 --> 00:17:25,679

as a trend as

416

00:17:30,789 --> 00:17:28,000

so i looked up the history and then i

417

00:17:33,270 --> 00:17:30,799

don't know if you saw my presentation on

418

00:17:38,230 --> 00:17:33,280

project unity's podcast where i kind of

419

00:17:43,350 --> 00:17:40,950

5 000 years of uap

420

00:17:44,710 --> 00:17:43,360

historical accounts and chronological

421

00:17:46,950 --> 00:17:44,720

order

422

00:17:49,590 --> 00:17:46,960

if you haven't seen it uh please take a

423

00:17:51,750 --> 00:17:49,600

look at it it's it's really

424

00:17:53,909 --> 00:17:51,760

uh has a lot of information that i was

425

00:17:55,430 --> 00:17:53,919

able to collect

426

00:17:57,270 --> 00:17:55,440

and what that's like a thousand years

427

00:17:58,390 --> 00:17:57,280

that's that's quite a bit

428

00:18:01,270 --> 00:17:58,400

yeah yeah

429

00:18:04,150 --> 00:18:01,280

yeah and and uh the pattern is there

430

00:18:06,549 --> 00:18:04,160

there's just a statistically significant

431

00:18:07,750 --> 00:18:06,559

pattern of observation so what that

432

00:18:09,029 --> 00:18:07,760

means is

433

00:18:11,350 --> 00:18:09,039

the

434

00:18:14,070 --> 00:18:11,360

written and oral accounts that were

435

00:18:17,190 --> 00:18:14,080

recovered and and all the references i

436

00:18:19,990 --> 00:18:17,200

use are cited and and shown

437

00:18:21,110 --> 00:18:20,000

uh in the presentation so people can

438

00:18:22,549 --> 00:18:21,120

review it

439

00:18:25,110 --> 00:18:22,559

um

440

00:18:26,950 --> 00:18:25,120

and the jock filet had several but i

441

00:18:31,270 --> 00:18:26,960

expanded upon that

442

00:18:32,310 --> 00:18:31,280

and what it shows is there's a clear

443

00:18:35,830 --> 00:18:32,320

clear

444

00:18:38,150 --> 00:18:35,840

significance in what is being observed

445

00:18:40,710 --> 00:18:38,160

over the course of a thousand years up

446

00:18:43,510 --> 00:18:40,720

until the last hundred years when the

447

00:18:44,710 --> 00:18:43,520

observations get more muddled and i i

448

00:18:47,430 --> 00:18:44,720

think that's

449

00:18:48,549 --> 00:18:47,440

probably merely due to the

450

00:18:51,029 --> 00:18:48,559

purposeful

451  
00:18:53,270 --> 00:18:51,039  
obfuscation of governments trying to

452  
00:18:55,430 --> 00:18:53,280  
control the narrative which didn't

453  
00:18:56,390 --> 00:18:55,440  
happen pre-circa

454  
00:18:58,789 --> 00:18:56,400  
you know

455  
00:19:01,270 --> 00:18:58,799  
20th century

456  
00:19:04,150 --> 00:19:01,280  
so everything before that is almost more

457  
00:19:07,830 --> 00:19:04,160  
legitimate in terms of

458  
00:19:10,789 --> 00:19:07,840  
accounting of what is being seen

459  
00:19:12,470 --> 00:19:10,799  
than to today where people have

460  
00:19:15,750 --> 00:19:12,480  
alternative

461  
00:19:19,510 --> 00:19:15,760  
means and reasons to

462  
00:19:21,909 --> 00:19:19,520  
portray uap and the phenomenon

463  
00:19:23,669 --> 00:19:21,919

when you mention anti-gravity devices

464

00:19:25,590 --> 00:19:23,679

and things like that it reminds me of

465

00:19:28,789 --> 00:19:25,600

what lou elizondo came up with the you

466

00:19:31,029 --> 00:19:28,799

know quote unquote five observables um

467

00:19:33,590 --> 00:19:31,039

positive lift or anti-gravity

468

00:19:36,830 --> 00:19:33,600

instantaneous acceleration hypersonic

469

00:19:39,430 --> 00:19:36,840

velocities uh low observability or

470

00:19:40,870 --> 00:19:39,440

cloaking and trans-medium travel you

471

00:19:42,870 --> 00:19:40,880

know it doesn't seem to matter if it's

472

00:19:44,630 --> 00:19:42,880

air or space or water

473

00:19:46,950 --> 00:19:44,640

um you know some of the things the navy

474

00:19:49,510 --> 00:19:46,960

has has caught anything that's going 4

475

00:19:51,510 --> 00:19:49,520

or 500 miles an hour underwater

476  
00:19:52,390 --> 00:19:51,520  
is like double the greatest torpedo that

477  
00:19:54,549 --> 00:19:52,400  
we know

478  
00:19:56,950 --> 00:19:54,559  
exists right and you know it's a lot

479  
00:19:58,310 --> 00:19:56,960  
more viscous being in water medium

480  
00:19:59,990 --> 00:19:58,320  
and you know we know the challenges of

481  
00:20:02,470 --> 00:20:00,000  
going deep because that's why we haven't

482  
00:20:04,230 --> 00:20:02,480  
really explored much of our ocean it's

483  
00:20:07,909 --> 00:20:04,240  
just such a hostile and almost

484  
00:20:09,590 --> 00:20:07,919  
impossible place to go um yeah so like

485  
00:20:10,950 --> 00:20:09,600  
you know do you have any thoughts on the

486  
00:20:13,110 --> 00:20:10,960  
other observables you mentioned

487  
00:20:15,270 --> 00:20:13,120  
anti-gravity technology but can you

488  
00:20:17,590 --> 00:20:15,280

contribute maybe to some other uh parts

489

00:20:20,230 --> 00:20:17,600

of that yeah yeah they they're all

490

00:20:22,310 --> 00:20:20,240

attributed to electro electrogravitic

491

00:20:26,070 --> 00:20:22,320

field generation so all of these

492

00:20:28,549 --> 00:20:26,080

observables are natural byproducts of

493

00:20:30,630 --> 00:20:28,559

uh extremely

494

00:20:33,430 --> 00:20:30,640

high and intense

495

00:20:37,110 --> 00:20:33,440

uh electrogravitic fields or at least

496

00:20:38,710 --> 00:20:37,120

that's what is theorized based on actual

497

00:20:41,110 --> 00:20:38,720

physics models

498

00:20:43,990 --> 00:20:41,120

of what would occur

499

00:20:44,950 --> 00:20:44,000

with these gravitic fields so you would

500

00:20:47,909 --> 00:20:44,960

have

501  
00:20:51,029 --> 00:20:47,919  
trans-medium travel no problem because

502  
00:20:52,630 --> 00:20:51,039  
the bubble that surrounds the the craft

503  
00:20:55,190 --> 00:20:52,640  
or object

504  
00:20:57,430 --> 00:20:55,200  
uh doesn't

505  
00:20:59,830 --> 00:20:57,440  
it it isn't interacting with the

506  
00:21:02,470 --> 00:20:59,840  
physical world as we know it so there is

507  
00:21:04,149 --> 00:21:02,480  
no friction there would be no sound

508  
00:21:06,070 --> 00:21:04,159  
there would be no

509  
00:21:09,270 --> 00:21:06,080  
difference between traveling through

510  
00:21:12,149 --> 00:21:09,280  
water or air other than water has a

511  
00:21:14,390 --> 00:21:12,159  
higher density perhaps

512  
00:21:16,950 --> 00:21:14,400  
it still wouldn't wouldn't matter

513  
00:21:19,430 --> 00:21:16,960

perhaps pressure but i don't think so

514

00:21:20,630 --> 00:21:19,440

enough voltage could overcome any

515

00:21:23,190 --> 00:21:20,640

obstacle

516

00:21:25,510 --> 00:21:23,200

so you'd have um

517

00:21:26,710 --> 00:21:25,520

you'd have bending of light

518

00:21:30,470 --> 00:21:26,720

which is

519

00:21:31,430 --> 00:21:30,480

that's also a product of it so when when

520

00:21:34,470 --> 00:21:31,440

you

521

00:21:35,830 --> 00:21:34,480

are looking at these bubbles in

522

00:21:40,310 --> 00:21:35,840

space-time

523

00:21:42,149 --> 00:21:40,320

example so let's let's say we have a

524

00:21:45,190 --> 00:21:42,159

craft operating

525

00:21:47,510 --> 00:21:45,200

with uh electrogravitic field

526

00:21:49,270 --> 00:21:47,520

um propulsion is also a byproduct

527

00:21:51,990 --> 00:21:49,280

because it's not being propulsed it's

528

00:21:54,870 --> 00:21:52,000

slipping it's slipping through our

529

00:21:59,669 --> 00:21:54,880

space-time so space-time is is

530

00:22:02,149 --> 00:21:59,679

it sounds nuanced and and pseudoscience

531

00:22:04,630 --> 00:22:02,159

only by definition but it that's how you

532

00:22:06,710 --> 00:22:04,640

would accurately describe it and so as

533

00:22:08,950 --> 00:22:06,720

they slip through our

534

00:22:11,830 --> 00:22:08,960

reality or space time

535

00:22:14,390 --> 00:22:11,840

any light waves would just

536

00:22:17,669 --> 00:22:14,400

bend right around it unless they alter

537

00:22:19,750 --> 00:22:17,679

the the frequency or voltage of the

538

00:22:20,549 --> 00:22:19,760

field to allow

539

00:22:23,110 --> 00:22:20,559

some

540

00:22:25,350 --> 00:22:23,120

visual change in dynamic

541

00:22:28,310 --> 00:22:25,360

or if the

542

00:22:30,510 --> 00:22:28,320

another byproduct could be glowing uh we

543

00:22:33,350 --> 00:22:30,520

talked about that last time the

544

00:22:35,350 --> 00:22:33,360

ionization of the air around it just

545

00:22:38,310 --> 00:22:35,360

from the strong field

546

00:22:40,310 --> 00:22:38,320

uh and as our atmosphere is made up of

547

00:22:42,950 --> 00:22:40,320

different gases

548

00:22:45,350 --> 00:22:42,960

the color the ionization

549

00:22:47,110 --> 00:22:45,360

is would naturally change also the

550

00:22:49,990 --> 00:22:47,120

doppler effect there's a number of

551  
00:22:52,710 --> 00:22:50,000  
reasons why the color could change aside

552  
00:22:54,470 --> 00:22:52,720  
from choice it could be there simply

553  
00:22:56,950 --> 00:22:54,480  
just a choice

554  
00:22:59,430 --> 00:22:56,960  
why they choose to have different

555  
00:23:01,830 --> 00:22:59,440  
uh spectra emitting from from their

556  
00:23:03,830 --> 00:23:01,840  
craft it's like a neon light you know

557  
00:23:05,590 --> 00:23:03,840  
you put neon in a tube you charge it and

558  
00:23:07,510 --> 00:23:05,600  
you get a certain color but if you were

559  
00:23:09,909 --> 00:23:07,520  
to use you know nitrogen or some other

560  
00:23:11,590 --> 00:23:09,919  
gas or correct some combination of gases

561  
00:23:14,230 --> 00:23:11,600  
that's how you could vary the color just

562  
00:23:16,470 --> 00:23:14,240  
based on its elemental properties anyway

563  
00:23:19,430 --> 00:23:16,480

right right and i'm not an engineer or a

564

00:23:22,310 --> 00:23:19,440

physicist so i just want to put that out

565

00:23:24,870 --> 00:23:22,320

there so if i do make mistakes your

566

00:23:27,190 --> 00:23:24,880

viewers hold me to a level

567

00:23:29,350 --> 00:23:27,200

that is understanding you mentioned

568

00:23:30,950 --> 00:23:29,360

propulsion and um you know what are your

569

00:23:33,270 --> 00:23:30,960

thoughts on for example like when you

570

00:23:35,590 --> 00:23:33,280

see the gimbal video it doesn't seem to

571

00:23:38,549 --> 00:23:35,600

have any heat um you know it doesn't

572

00:23:40,549 --> 00:23:38,559

seem to have any uh control surfaces or

573

00:23:41,590 --> 00:23:40,559

evident propulsion there is kind of a

574

00:23:44,710 --> 00:23:41,600

fuzzy

575

00:23:46,870 --> 00:23:44,720

almost like an electromagnetic static or

576  
00:23:48,870 --> 00:23:46,880  
haze around it maybe that's the envelope

577  
00:23:50,950 --> 00:23:48,880  
that it travels through but what are

578  
00:23:53,590 --> 00:23:50,960  
your thoughts on lack of heat you know

579  
00:23:55,830 --> 00:23:53,600  
no sonic boom no control surfaces no

580  
00:23:58,470 --> 00:23:55,840  
propulsion what do you think

581  
00:24:01,110 --> 00:23:58,480  
i think that um

582  
00:24:06,470 --> 00:24:01,120  
obviously there's there's higher quality

583  
00:24:10,310 --> 00:24:06,480  
videos of of that footage yeah also the

584  
00:24:12,549 --> 00:24:10,320  
so the the way a bubble works is that

585  
00:24:13,430 --> 00:24:12,559  
no radiation

586  
00:24:17,269 --> 00:24:13,440  
whether

587  
00:24:19,669 --> 00:24:17,279  
light or infrared or whatever

588  
00:24:22,870 --> 00:24:19,679

could be observed if if

589

00:24:25,110 --> 00:24:22,880

the occupants didn't want it to be

590

00:24:27,909 --> 00:24:25,120

so you know if they're using infrared

591

00:24:29,669 --> 00:24:27,919

cameras and they didn't want to be seen

592

00:24:31,990 --> 00:24:29,679

they would just use the ambient

593

00:24:33,990 --> 00:24:32,000

temperature around them so what that's

594

00:24:36,789 --> 00:24:34,000

telling me is that this

595

00:24:39,110 --> 00:24:36,799

object a

596

00:24:42,789 --> 00:24:39,120

didn't care if it was being observed so

597

00:24:46,310 --> 00:24:42,799

it had no sense of danger or two

598

00:24:47,990 --> 00:24:46,320

it wanted to be seen in whatever spectra

599

00:24:51,350 --> 00:24:48,000

it was displaying

600

00:24:53,110 --> 00:24:51,360

or allowing to pass through

601  
00:24:56,310 --> 00:24:53,120  
and those are the only options i can

602  
00:24:58,230 --> 00:24:56,320  
think of worth three it's uh

603  
00:25:01,029 --> 00:24:58,240  
illegitimate which i actually i don't

604  
00:25:03,990 --> 00:25:01,039  
believe that to be the case just because

605  
00:25:06,549 --> 00:25:04,000  
i've spoken to um

606  
00:25:07,750 --> 00:25:06,559  
some of the pilots that witnessed these

607  
00:25:08,789 --> 00:25:07,760  
crafts

608  
00:25:09,830 --> 00:25:08,799  
so i know

609  
00:25:11,909 --> 00:25:09,840  
i know

610  
00:25:12,830 --> 00:25:11,919  
based on my own accounting that that

611  
00:25:15,669 --> 00:25:12,840  
they are

612  
00:25:18,630 --> 00:25:15,679  
real the gimbal footage

613  
00:25:23,110 --> 00:25:19,990

we need better

614

00:25:24,149 --> 00:25:23,120

spectra uh uh camera systems because

615

00:25:27,269 --> 00:25:24,159

right now

616

00:25:30,789 --> 00:25:27,279

on the on the planes and other craft we

617

00:25:34,070 --> 00:25:30,799

utilize to perceive targets and threats

618

00:25:35,430 --> 00:25:34,080

we mainly use infrared

619

00:25:37,669 --> 00:25:35,440

visual

620

00:25:39,669 --> 00:25:37,679

and

621

00:25:40,390 --> 00:25:39,679

not from my knowledge i don't believe we

622

00:25:43,830 --> 00:25:40,400

use

623

00:25:45,990 --> 00:25:43,840

ultraviolet cameras much uh perhaps we

624

00:25:49,510 --> 00:25:46,000

do but i think we really need to start

625

00:25:53,029 --> 00:25:49,520

focusing on extreme spectral imaging

626

00:25:55,990 --> 00:25:53,039

which covers a much much larger gamut of

627

00:25:57,750 --> 00:25:56,000

the visual spectra or non-visual spectra

628

00:25:59,510 --> 00:25:57,760

for that matter i i think we should go

629

00:26:02,149 --> 00:25:59,520

from x-ray to

630

00:26:03,430 --> 00:26:02,159

ultraviolet and so on

631

00:26:07,510 --> 00:26:03,440

that's the only way we're going to see

632

00:26:10,230 --> 00:26:07,520

these things also we need to focus on

633

00:26:11,269 --> 00:26:10,240

high frequency gravity waves because

634

00:26:14,789 --> 00:26:11,279

right now

635

00:26:17,269 --> 00:26:14,799

in astrophysics what they do to perceive

636

00:26:18,470 --> 00:26:17,279

black holes is we have these very

637

00:26:21,990 --> 00:26:18,480

primitive

638

00:26:24,710 --> 00:26:22,000

of the most sophisticated

639

00:26:26,630 --> 00:26:24,720

instrumentation on the planet but

640

00:26:29,750 --> 00:26:26,640

we we look for

641

00:26:33,669 --> 00:26:29,760

low frequency gravity waves that are

642

00:26:35,269 --> 00:26:33,679

emitted from black holes or supernova or

643

00:26:38,070 --> 00:26:35,279

anything of that sort

644

00:26:39,789 --> 00:26:38,080

so these these crafts as a as a

645

00:26:42,230 --> 00:26:39,799

byproduct of

646

00:26:45,269 --> 00:26:42,240

electrogravitic fields

647

00:26:47,029 --> 00:26:45,279

they would be emanating

648

00:26:49,750 --> 00:26:47,039

and i don't think you could

649

00:26:51,750 --> 00:26:49,760

subvert this it's just a natural law of

650

00:26:54,390 --> 00:26:51,760

functioning in our universe is that it

651  
00:26:57,190 --> 00:26:54,400  
would emit high frequency gravity waves

652  
00:26:58,789 --> 00:26:57,200  
like little ripples in a pond right

653  
00:27:00,470 --> 00:26:58,799  
right and we're not looking for the

654  
00:27:02,870 --> 00:27:00,480  
little ripples we're looking for the

655  
00:27:05,350 --> 00:27:02,880  
tidal waves you'll never see a ripple if

656  
00:27:07,350 --> 00:27:05,360  
you're just focused on tidal waves so i

657  
00:27:09,190 --> 00:27:07,360  
think the the best approach that we

658  
00:27:10,310 --> 00:27:09,200  
could start to

659  
00:27:12,310 --> 00:27:10,320  
really

660  
00:27:14,710 --> 00:27:12,320  
uh pick these up i think we would pick

661  
00:27:17,669 --> 00:27:14,720  
them up quite quickly

662  
00:27:20,230 --> 00:27:17,679  
is if we turned our focus on on high

663  
00:27:22,549 --> 00:27:20,240

frequency gravity waves right because

664

00:27:25,430 --> 00:27:22,559

we're limited on on what we can see

665

00:27:28,070 --> 00:27:25,440

we're limited on what we can hear

666

00:27:28,789 --> 00:27:28,080

if these things or these entities know

667

00:27:30,950 --> 00:27:28,799

are

668

00:27:32,470 --> 00:27:30,960

or you know how we're made up then they

669

00:27:33,590 --> 00:27:32,480

know how to hide from us because they

670

00:27:35,750 --> 00:27:33,600

know certain

671

00:27:37,669 --> 00:27:35,760

you know uh lights we can't see so

672

00:27:39,830 --> 00:27:37,679

they'll hide in that frequency so that

673

00:27:41,909 --> 00:27:39,840

makes sense um they're probably a lot

674

00:27:43,830 --> 00:27:41,919

more prevalent through our airspace at

675

00:27:44,950 --> 00:27:43,840

all times than we actually assume that

676

00:27:47,590 --> 00:27:44,960

they are

677

00:27:49,750 --> 00:27:47,600

if they're hiding it within that yeah

678

00:27:51,029 --> 00:27:49,760

i i do think they are and i think that

679

00:27:53,029 --> 00:27:51,039

they're

680

00:27:54,549 --> 00:27:53,039

and i've i've used this

681

00:27:56,710 --> 00:27:54,559

i always confuse

682

00:27:59,510 --> 00:27:56,720

analogy and metaphor but i've always

683

00:28:01,510 --> 00:27:59,520

used this analogy that um

684

00:28:03,830 --> 00:28:01,520

if you're you know a biologist and

685

00:28:07,110 --> 00:28:03,840

you're in the jungle and you are you're

686

00:28:09,669 --> 00:28:07,120

studying a primitive ape species right

687

00:28:12,070 --> 00:28:09,679

uh you want to stay hidden in the trees

688

00:28:13,110 --> 00:28:12,080

you don't want to disrupt the the life

689

00:28:15,590 --> 00:28:13,120

of the

690

00:28:16,630 --> 00:28:15,600

primitive species however if they see

691

00:28:19,990 --> 00:28:16,640

you

692

00:28:21,669 --> 00:28:20,000

they'd offer no

693

00:28:24,149 --> 00:28:21,679

immediate threat unless you're real

694

00:28:26,549 --> 00:28:24,159

close and they can physically attack you

695

00:28:28,870 --> 00:28:26,559

but if you had a stun gun or something

696

00:28:31,669 --> 00:28:28,880

you they offer no threat so if they see

697

00:28:34,389 --> 00:28:31,679

you a big deal in general purpose you

698

00:28:36,310 --> 00:28:34,399

want us you want to remain hidden right

699

00:28:39,029 --> 00:28:36,320

and i think that's what we're observing

700

00:28:40,950 --> 00:28:39,039

with the phenomena i think in in

701  
00:28:42,470 --> 00:28:40,960  
practice they want to stay hidden

702  
00:28:45,110 --> 00:28:42,480  
however if

703  
00:28:46,549 --> 00:28:45,120  
whatever function they're they're doing

704  
00:28:48,789 --> 00:28:46,559  
uh

705  
00:28:50,389 --> 00:28:48,799  
creates them to to have moments of

706  
00:28:53,190 --> 00:28:50,399  
perception

707  
00:28:55,990 --> 00:28:53,200  
what do they care yeah honestly

708  
00:28:58,789 --> 00:28:56,000  
yes not like we can do anything about it

709  
00:29:00,389 --> 00:28:58,799  
right yeah

710  
00:29:03,029 --> 00:29:00,399  
i wanted to ask you about the uh the

711  
00:29:04,950 --> 00:29:03,039  
scientific coalition for uap studies uh

712  
00:29:06,870 --> 00:29:04,960  
jason and i were chatting about it last

713  
00:29:08,870 --> 00:29:06,880

night before the show and uh yeah i

714

00:29:10,630 --> 00:29:08,880

understand you're a valued contributor

715

00:29:13,190 --> 00:29:10,640

and part of that group and for those of

716

00:29:15,430 --> 00:29:13,200

our listeners i'm not a formal member no

717

00:29:18,310 --> 00:29:15,440

no you're you're sorry if i misled you

718

00:29:19,990 --> 00:29:18,320

jason oh i'm sorry yeah my my apologies

719

00:29:22,310 --> 00:29:20,000

i thought you were part of the coalition

720

00:29:25,029 --> 00:29:22,320

no no okay you wanna do you wanna cancel

721

00:29:26,870 --> 00:29:25,039

the interview no no no tell us about it

722

00:29:28,789 --> 00:29:26,880

anyway i'm intrigued and most of our

723

00:29:30,950 --> 00:29:28,799

listeners may not have heard of it so

724

00:29:32,870 --> 00:29:30,960

what is it what's its function and is it

725

00:29:34,470 --> 00:29:32,880

making any progress

726

00:29:35,269 --> 00:29:34,480

uh it is

727

00:29:43,950 --> 00:29:35,279

it

728

00:29:45,669 --> 00:29:43,960

of salt but they're they're working on

729

00:29:46,470 --> 00:29:45,679

methodologies

730

00:29:48,710 --> 00:29:46,480

and

731

00:29:51,430 --> 00:29:48,720

creating a

732

00:29:52,230 --> 00:29:51,440

intellectual network to

733

00:29:55,430 --> 00:29:52,240

help

734

00:29:57,909 --> 00:29:55,440

research the phenomena outside of

735

00:30:01,269 --> 00:29:57,919

agency so outside of government

736

00:30:03,909 --> 00:30:01,279

oversight this is more of a

737

00:30:08,070 --> 00:30:03,919

public kind of domain

738

00:30:09,590 --> 00:30:08,080

research think tank group of individuals

739

00:30:11,350 --> 00:30:09,600

who are

740

00:30:12,389 --> 00:30:11,360

generally quite acclaimed in their

741

00:30:14,950 --> 00:30:12,399

fields

742

00:30:15,990 --> 00:30:14,960

uh have overcome the

743

00:30:17,350 --> 00:30:16,000

uh

744

00:30:19,510 --> 00:30:17,360

fear of

745

00:30:21,590 --> 00:30:19,520

discussing the topic you know that

746

00:30:23,830 --> 00:30:21,600

they've removed the giggle factor and

747

00:30:24,870 --> 00:30:23,840

they see it as a as a

748

00:30:27,909 --> 00:30:24,880

interest

749

00:30:28,950 --> 00:30:27,919

and pursuit of scientific endeavor which

750

00:30:31,830 --> 00:30:28,960

it is

751  
00:30:33,830 --> 00:30:31,840  
and uh that that's

752  
00:30:35,750 --> 00:30:33,840  
put simply that's what they're doing and

753  
00:30:38,230 --> 00:30:35,760  
they're right now they're still working

754  
00:30:40,630 --> 00:30:38,240  
on means and practice and methodology

755  
00:30:41,990 --> 00:30:40,640  
instrumentation there's a lot to

756  
00:30:44,310 --> 00:30:42,000  
a lot to do

757  
00:30:46,710 --> 00:30:44,320  
with the eventual goal to

758  
00:30:48,549 --> 00:30:46,720  
wholeheartedly study the phenomenon in

759  
00:30:50,710 --> 00:30:48,559  
the best scientific

760  
00:30:52,950 --> 00:30:50,720  
possible way

761  
00:30:54,710 --> 00:30:52,960  
and actually that actually leads me to a

762  
00:30:56,630 --> 00:30:54,720  
question because i've always just

763  
00:30:57,750 --> 00:30:56,640

discussed this but uh get more

764

00:31:00,389 --> 00:30:57,760

intellects

765

00:31:01,669 --> 00:31:00,399

involved into the uap

766

00:31:03,909 --> 00:31:01,679

subject

767

00:31:06,310 --> 00:31:03,919

and so people like yourself uh people

768

00:31:08,470 --> 00:31:06,320

like the scientific coalition uh you

769

00:31:10,310 --> 00:31:08,480

know government officials so

770

00:31:13,190 --> 00:31:10,320

what's it gonna take for the rest of the

771

00:31:17,029 --> 00:31:13,200

intellect um world to sort of start

772

00:31:23,509 --> 00:31:19,750

well you you have to consider what

773

00:31:25,029 --> 00:31:23,519

intellectuals hold dear the most

774

00:31:26,630 --> 00:31:25,039

what's the most prized thing an

775

00:31:29,269 --> 00:31:26,640

intellectual has

776

00:31:31,830 --> 00:31:29,279

that's their credibility right

777

00:31:34,870 --> 00:31:31,840

their credibility is their number one

778

00:31:35,830 --> 00:31:34,880

resource it's their tradable commodity

779

00:31:38,149 --> 00:31:35,840

and

780

00:31:41,750 --> 00:31:38,159

you know up until recently the risk

781

00:31:44,470 --> 00:31:41,760

versus reward on even coming

782

00:31:47,350 --> 00:31:44,480

close to the topic of discussion

783

00:31:50,470 --> 00:31:47,360

uh wasn't worth it wasn't worth risking

784

00:31:52,310 --> 00:31:50,480

your credibility in your specific or

785

00:31:54,470 --> 00:31:52,320

respective field

786

00:31:55,669 --> 00:31:54,480

however that's changing

787

00:31:58,789 --> 00:31:55,679

thankfully

788

00:32:01,669 --> 00:31:58,799

um and that's changing because uh

789

00:32:03,029 --> 00:32:01,679

i think the interest in uaps from the

790

00:32:05,990 --> 00:32:03,039

media is

791

00:32:08,149 --> 00:32:06,000

it look it they don't want to cover it

792

00:32:10,389 --> 00:32:08,159

any more than then the government wants

793

00:32:11,509 --> 00:32:10,399

to cover it however media it's a

794

00:32:15,110 --> 00:32:11,519

business

795

00:32:19,590 --> 00:32:15,120

and a company can only get by on an

796

00:32:22,789 --> 00:32:19,600

unchanged product or service for so long

797

00:32:25,990 --> 00:32:22,799

if the consumer market demands a change

798

00:32:28,070 --> 00:32:26,000

in the goods or services

799

00:32:30,710 --> 00:32:28,080

a company would be foolish to ignore it

800

00:32:33,509 --> 00:32:30,720

it just is bad business right so when

801  
00:32:36,630 --> 00:32:33,519  
you have a consumer market which is the

802  
00:32:39,190 --> 00:32:36,640  
general public who consumes the media

803  
00:32:42,230 --> 00:32:39,200  
is now gaining in

804  
00:32:43,269 --> 00:32:42,240  
acceptance that the phenomena is in fact

805  
00:32:46,230 --> 00:32:43,279  
real

806  
00:32:49,190 --> 00:32:46,240  
um the media has to you know drag its

807  
00:32:51,830 --> 00:32:49,200  
feet and come around to it and involve

808  
00:32:54,389 --> 00:32:51,840  
it into their product and service

809  
00:32:58,149 --> 00:32:54,399  
uh this you know this is this is general

810  
00:33:00,630 --> 00:32:58,159  
business with with most monopolistic

811  
00:33:03,269 --> 00:33:00,640  
uh business mentalities you know your

812  
00:33:05,669 --> 00:33:03,279  
car market you don't want to change your

813  
00:33:08,149 --> 00:33:05,679

process and and

814

00:33:10,870 --> 00:33:08,159

the way you design cars but if the

815

00:33:13,110 --> 00:33:10,880

consumer market is banging on the door

816

00:33:15,430 --> 00:33:13,120

and refusing to purchase cars because

817

00:33:17,990 --> 00:33:15,440

you're not adding a seat belt or you're

818

00:33:20,230 --> 00:33:18,000

not you know electrifying

819

00:33:21,990 --> 00:33:20,240

the only way you can remain competitive

820

00:33:24,070 --> 00:33:22,000

is to

821

00:33:26,710 --> 00:33:24,080

heed to the whims of the the market and

822

00:33:29,990 --> 00:33:26,720

that's what media is doing so media is

823

00:33:31,830 --> 00:33:30,000

picking up on the uap phenomenon and

824

00:33:34,070 --> 00:33:31,840

starting to cover it a little more it's

825

00:33:35,190 --> 00:33:34,080

been slow they still have the giggle

826  
00:33:38,870 --> 00:33:35,200  
factor

827  
00:33:41,190 --> 00:33:38,880  
which is really hardwired into news

828  
00:33:42,230 --> 00:33:41,200  
sources

829  
00:33:44,470 --> 00:33:42,240  
but

830  
00:33:45,990 --> 00:33:44,480  
so that's that's really allowing

831  
00:33:49,750 --> 00:33:46,000  
intellectuals

832  
00:33:53,509 --> 00:33:49,760  
uh to come out and feel okay about

833  
00:33:56,549 --> 00:33:53,519  
risking their credibility

834  
00:33:58,549 --> 00:33:56,559  
the risk now is much much lower so the

835  
00:33:59,669 --> 00:33:58,559  
risk versus reward

836  
00:34:01,830 --> 00:33:59,679  
is now

837  
00:34:03,430 --> 00:34:01,840  
more balanced right

838  
00:34:06,070 --> 00:34:03,440

that might be some of the reason why you

839

00:34:07,750 --> 00:34:06,080

don't hear much from the air force navy

840

00:34:09,909 --> 00:34:07,760

seems to be more you know forthcoming

841

00:34:11,909 --> 00:34:09,919

with information videos and whatever but

842

00:34:13,829 --> 00:34:11,919

that stigma must still be there i mean

843

00:34:17,030 --> 00:34:13,839

if you're in the air force you need to

844

00:34:18,470 --> 00:34:17,040

be a sharp thinker you know battle ready

845

00:34:20,790 --> 00:34:18,480

you're operating very expensive

846

00:34:22,550 --> 00:34:20,800

equipment reaction times all that you

847

00:34:24,149 --> 00:34:22,560

know airline pilots for years and years

848

00:34:26,869 --> 00:34:24,159

have said it's a big deal to bring that

849

00:34:28,869 --> 00:34:26,879

up can you imagine being a fighter pilot

850

00:34:30,869 --> 00:34:28,879

you said risk versus reward

851  
00:34:33,430 --> 00:34:30,879  
either there's a big hush on the whole

852  
00:34:35,190 --> 00:34:33,440  
department or it's just still commonly

853  
00:34:36,950 --> 00:34:35,200  
accepted that don't talk about this or

854  
00:34:39,190 --> 00:34:36,960  
you'll never fly again

855  
00:34:40,310 --> 00:34:39,200  
the numbers would prove that anyway

856  
00:34:42,950 --> 00:34:40,320  
yeah i

857  
00:34:45,750 --> 00:34:42,960  
you know i i don't disagree with you i i

858  
00:34:47,589 --> 00:34:45,760  
i would actually say that the

859  
00:34:50,550 --> 00:34:47,599  
the the

860  
00:34:55,589 --> 00:34:52,310  
the level of um

861  
00:34:57,910 --> 00:34:55,599  
ingenuity intellectualism talent uh

862  
00:35:00,069 --> 00:34:57,920  
actually exists in all the branches of

863  
00:35:01,190 --> 00:35:00,079

them oh for sure yes they do different

864

00:35:03,910 --> 00:35:01,200

things

865

00:35:06,630 --> 00:35:03,920

the air force is traditionally more on

866

00:35:09,670 --> 00:35:06,640

information technologies but the navy

867

00:35:13,190 --> 00:35:09,680

certainly does its fair share of

868

00:35:16,790 --> 00:35:13,200

designing technologies

869

00:35:19,589 --> 00:35:16,800

i think the air force is uh more

870

00:35:22,310 --> 00:35:19,599

push hush on it because

871

00:35:25,430 --> 00:35:22,320

i think they have a lot more to to hide

872

00:35:27,670 --> 00:35:25,440

to be quite frank and i think the navy

873

00:35:30,710 --> 00:35:27,680

so this is my hypothesis i'll put this

874

00:35:33,109 --> 00:35:30,720

out there do not take this as as fact

875

00:35:36,069 --> 00:35:33,119

everything i'm saying here is just my

876

00:35:38,950 --> 00:35:36,079

hypothesis it's my opinion i have

877

00:35:40,550 --> 00:35:38,960

opinions based on years of thought about

878

00:35:42,230 --> 00:35:40,560

this subject

879

00:35:45,030 --> 00:35:42,240

you know working professionally with

880

00:35:47,430 --> 00:35:45,040

some topics surrounding this

881

00:35:49,990 --> 00:35:47,440

but i think that

882

00:35:53,510 --> 00:35:50,000

traditionally

883

00:35:54,470 --> 00:35:53,520

within the military branches all of them

884

00:35:57,030 --> 00:35:54,480

um

885

00:36:00,069 --> 00:35:57,040

at the at the mid management level so

886

00:36:03,030 --> 00:36:00,079

we're talking captains rear admirals

887

00:36:05,030 --> 00:36:03,040

colonels brigadier generals no higher

888

00:36:08,069 --> 00:36:05,040

and certainly no lower

889

00:36:10,230 --> 00:36:08,079

uh that these secrets have existed and

890

00:36:13,190 --> 00:36:10,240

why why is it that i think that it's

891

00:36:14,550 --> 00:36:13,200

because once you get higher in rank

892

00:36:20,790 --> 00:36:14,560

you're more public

893

00:36:22,470 --> 00:36:20,800

directly to other more public people and

894

00:36:23,990 --> 00:36:22,480

when you're kind of sitting in that

895

00:36:25,990 --> 00:36:24,000

medium

896

00:36:27,589 --> 00:36:26,000

not only do you have longer careers

897

00:36:30,069 --> 00:36:27,599

traditionally

898

00:36:32,310 --> 00:36:30,079

and you ha also have a a tremendous

899

00:36:35,030 --> 00:36:32,320

amount of

900

00:36:39,190 --> 00:36:35,040

authority within your given you know

901  
00:36:44,150 --> 00:36:41,750  
i i truly believe that's where a lot of

902  
00:36:47,430 --> 00:36:44,160  
these secrets are held so

903  
00:36:48,390 --> 00:36:47,440  
when you have um officials coming from

904  
00:36:53,349 --> 00:36:48,400  
these

905  
00:36:55,030 --> 00:36:53,359  
military saying you know i don't know

906  
00:36:57,430 --> 00:36:55,040  
what the hell you guys are talking about

907  
00:36:59,589 --> 00:36:57,440  
we don't have anything on here

908  
00:37:01,109 --> 00:36:59,599  
because that's it's a built-in plausible

909  
00:37:05,109 --> 00:37:01,119  
deniability

910  
00:37:08,310 --> 00:37:05,119  
it is intended to to to be that way

911  
00:37:11,349 --> 00:37:08,320  
and has been that way for a long time so

912  
00:37:12,870 --> 00:37:11,359  
this has been passed on for decades this

913  
00:37:16,150 --> 00:37:12,880

practice of

914

00:37:17,750 --> 00:37:16,160

utilizing the classification system as a

915

00:37:19,190 --> 00:37:17,760

means to

916

00:37:22,550 --> 00:37:19,200

maintain

917

00:37:23,670 --> 00:37:22,560

uh secrecy on the topic and so what we

918

00:37:25,190 --> 00:37:23,680

have here

919

00:37:28,550 --> 00:37:25,200

and

920

00:37:32,150 --> 00:37:28,560

disagree that these congressional

921

00:37:34,310 --> 00:37:32,160

hearings and these senators and even

922

00:37:39,270 --> 00:37:34,320

officials military officials generals

923

00:37:44,950 --> 00:37:42,470

i i don't doubt that they have separate

924

00:37:46,630 --> 00:37:44,960

studies that they have kind of slap

925

00:37:48,710 --> 00:37:46,640

stick together to figure out what the

926  
00:37:51,910 --> 00:37:48,720  
hell is going on meanwhile within their

927  
00:37:54,069 --> 00:37:51,920  
own branches these secrets and this

928  
00:37:57,190 --> 00:37:54,079  
research is conducted

929  
00:37:59,270 --> 00:37:57,200  
uh and it cannot be touched at all

930  
00:38:02,310 --> 00:37:59,280  
legally it can't be

931  
00:38:06,150 --> 00:38:02,320  
and and it's just been operating in that

932  
00:38:08,550 --> 00:38:06,160  
kind of limbo of these branches these

933  
00:38:12,790 --> 00:38:08,560  
these captains colonels rear animals

934  
00:38:16,950 --> 00:38:12,800  
brigadier generals and whatever you know

935  
00:38:19,750 --> 00:38:16,960  
ssp or super black project and they work

936  
00:38:21,190 --> 00:38:19,760  
they're tied closely with with aerospace

937  
00:38:24,550 --> 00:38:21,200  
companies who

938  
00:38:26,630 --> 00:38:24,560

produce the widgets that go into these

939

00:38:30,230 --> 00:38:26,640

uh

940

00:38:32,950 --> 00:38:30,240

kind of think tanks or research projects

941

00:38:34,470 --> 00:38:32,960

and a lot of times these tech companies

942

00:38:35,750 --> 00:38:34,480

don't really even know what they're

943

00:38:38,069 --> 00:38:35,760

doing

944

00:38:40,470 --> 00:38:38,079

right they they're they're told we have

945

00:38:42,150 --> 00:38:40,480

to produce this real sophisticated

946

00:38:44,630 --> 00:38:42,160

instrument or this real

947

00:38:46,390 --> 00:38:44,640

uh sophisticated material

948

00:38:48,390 --> 00:38:46,400

the aerospace company

949

00:38:51,670 --> 00:38:48,400

knows the drill don't ask questions you

950

00:38:54,550 --> 00:38:51,680

just do it and get paid a boat tone

951  
00:38:57,109 --> 00:38:54,560  
a ton of money right yeah and

952  
00:38:58,870 --> 00:38:57,119  
the money goes comes from these black

953  
00:39:01,430 --> 00:38:58,880  
programs that don't have any

954  
00:39:04,310 --> 00:39:01,440  
accountability that exists in this

955  
00:39:06,069 --> 00:39:04,320  
nether world and they legally do so so

956  
00:39:08,710 --> 00:39:06,079  
we can't sit here and say

957  
00:39:10,870 --> 00:39:08,720  
you know these people are villains

958  
00:39:13,270 --> 00:39:10,880  
they're criminals they're operating

959  
00:39:15,910 --> 00:39:13,280  
within a legal structure that has been

960  
00:39:19,109 --> 00:39:15,920  
created over decades and decades to

961  
00:39:20,870 --> 00:39:19,119  
perpetuate this obfuscation through the

962  
00:39:23,190 --> 00:39:20,880  
classification system i don't think

963  
00:39:26,390 --> 00:39:23,200

that's right and a lot of military

964

00:39:29,430 --> 00:39:26,400

officials also think that this process

965

00:39:32,790 --> 00:39:29,440

is broken yeah but you can't really do

966

00:39:35,589 --> 00:39:32,800

anything about it you can't just

967

00:39:36,950 --> 00:39:35,599

demand so you say you have a two three

968

00:39:39,270 --> 00:39:36,960

star general

969

00:39:41,670 --> 00:39:39,280

go to one of these uh colonels or

970

00:39:45,030 --> 00:39:41,680

brigadier generals who's been read in on

971

00:39:47,030 --> 00:39:45,040

these projects they can't make them

972

00:39:49,109 --> 00:39:47,040

tell them no matter what it's against

973

00:39:51,910 --> 00:39:49,119

the it's against the the rules and

974

00:39:54,470 --> 00:39:51,920

regulations of that branch so the

975

00:39:56,470 --> 00:39:54,480

general would actually be the one who

976  
00:39:58,310 --> 00:39:56,480  
would be breaking the rules

977  
00:40:01,829 --> 00:39:58,320  
and so that's how this stuff has

978  
00:40:04,230 --> 00:40:01,839  
remained hidden from you know congress

979  
00:40:06,950 --> 00:40:04,240  
has been hidden from the administrations

980  
00:40:10,550 --> 00:40:06,960  
that have come and gone over time

981  
00:40:14,630 --> 00:40:10,560  
and uh it exists in this real nebulous

982  
00:40:17,270 --> 00:40:14,640  
area and i think that the senators now

983  
00:40:18,950 --> 00:40:17,280  
are really trying to devise who these

984  
00:40:19,910 --> 00:40:18,960  
gatekeepers are

985  
00:40:21,670 --> 00:40:19,920  
because

986  
00:40:24,069 --> 00:40:21,680  
a lot of times

987  
00:40:26,230 --> 00:40:24,079  
people will say well there's no grand

988  
00:40:28,950 --> 00:40:26,240

government cover-up you're right there

989

00:40:31,349 --> 00:40:28,960

isn't it's slightly more insidious right

990

00:40:33,750 --> 00:40:31,359

it's not a grand cover-up in that the

991

00:40:35,430 --> 00:40:33,760

people at the top have no idea and

992

00:40:38,309 --> 00:40:35,440

they've been trying to figure this out

993

00:40:40,790 --> 00:40:38,319

for decades and they can't access that

994

00:40:43,670 --> 00:40:40,800

information so they put together their

995

00:40:45,670 --> 00:40:43,680

own crappy little programs

996

00:40:47,990 --> 00:40:45,680

right right they put together their own

997

00:40:50,390 --> 00:40:48,000

programs with limited information and

998

00:40:52,150 --> 00:40:50,400

they're trying to get budgeted through

999

00:40:53,750 --> 00:40:52,160

you know congress and trying to get

1000

00:40:55,910 --> 00:40:53,760

these sap

1001  
00:40:56,950 --> 00:40:55,920  
titles on the program so they can get

1002  
00:40:59,589 --> 00:40:56,960  
funding

1003  
00:41:01,670 --> 00:40:59,599  
but no you know no congressman is going

1004  
00:41:04,870 --> 00:41:01,680  
to be caught dead

1005  
00:41:07,829 --> 00:41:04,880  
up until recently funding these programs

1006  
00:41:08,950 --> 00:41:07,839  
thank thank harry reid

1007  
00:41:11,430 --> 00:41:08,960  
so

1008  
00:41:13,510 --> 00:41:11,440  
that's that's where i think it exists

1009  
00:41:15,430 --> 00:41:13,520  
it's the accountability right there's

1010  
00:41:17,670 --> 00:41:15,440  
nobody to hold accountable for the

1011  
00:41:20,390 --> 00:41:17,680  
information or who owns the information

1012  
00:41:22,950 --> 00:41:20,400  
it's designed that way yeah so it's very

1013  
00:41:25,510 --> 00:41:22,960

clever you know

1014

00:41:28,309 --> 00:41:25,520

when when this was put together i don't

1015

00:41:31,190 --> 00:41:28,319

know i suspect it was

1016

00:41:33,510 --> 00:41:31,200

it was during the time of eisenhower

1017

00:41:35,990 --> 00:41:33,520

to be quite frank maybe it was being

1018

00:41:38,870 --> 00:41:36,000

constructed before him

1019

00:41:41,190 --> 00:41:38,880

but this means of classification

1020

00:41:43,270 --> 00:41:41,200

really is uh

1021

00:41:46,069 --> 00:41:43,280

was a stroke of genius

1022

00:41:48,550 --> 00:41:46,079

the way they constructed this

1023

00:41:50,630 --> 00:41:48,560

because there's no way you can access it

1024

00:41:52,950 --> 00:41:50,640

there's no way that the

1025

00:41:54,870 --> 00:41:52,960

any military branch has to

1026

00:41:57,990 --> 00:41:54,880

take accountability because they have

1027

00:42:00,390 --> 00:41:58,000

none right they have no accountability

1028

00:42:02,390 --> 00:42:00,400

because they don't know what's happening

1029

00:42:05,430 --> 00:42:02,400

they use the term need to know

1030

00:42:07,430 --> 00:42:05,440

uh as convenient as it needs to be used

1031

00:42:09,349 --> 00:42:07,440

and let's be honest there's factions of

1032

00:42:11,190 --> 00:42:09,359

people in the government in the military

1033

00:42:12,790 --> 00:42:11,200

they're not changing hands every time

1034

00:42:16,230 --> 00:42:12,800

there's a new leader of the political

1035

00:42:18,390 --> 00:42:16,240

party no no these people have 30 40-year

1036

00:42:19,990 --> 00:42:18,400

because that stuff is very top secret

1037

00:42:21,589 --> 00:42:20,000

they're trustworthy they're one of a

1038

00:42:23,190 --> 00:42:21,599

handful of people correct you're not

1039

00:42:25,910 --> 00:42:23,200

going to replace these people with any

1040

00:42:28,829 --> 00:42:25,920

real frequency so to your point of these

1041

00:42:32,630 --> 00:42:28,839

secrets are locked up in that sort of

1042

00:42:34,470 --> 00:42:32,640

generation i 100 agree with that yep

1043

00:42:36,790 --> 00:42:34,480

yeah i would say with certainty that's

1044

00:42:39,349 --> 00:42:36,800

where that's where it lies and you you

1045

00:42:41,510 --> 00:42:39,359

get the wilson memo leagues you get

1046

00:42:43,349 --> 00:42:41,520

senators you get generals you get

1047

00:42:45,349 --> 00:42:43,359

presidents who say that they've been

1048

00:42:47,910 --> 00:42:45,359

told they don't have a need to know what

1049

00:42:48,710 --> 00:42:47,920

no one ever asks

1050

00:42:50,390 --> 00:42:48,720

is

1051  
00:42:53,829 --> 00:42:50,400  
who who says

1052  
00:42:54,950 --> 00:42:53,839  
who says this not people focus on the

1053  
00:42:56,390 --> 00:42:54,960  
what

1054  
00:42:58,790 --> 00:42:56,400  
and the why

1055  
00:42:59,589 --> 00:42:58,800  
no one ever says

1056  
00:43:03,990 --> 00:42:59,599  
who

1057  
00:43:07,190 --> 00:43:04,000  
need to know right and that's where i

1058  
00:43:09,670 --> 00:43:07,200  
think the investigations are starting to

1059  
00:43:12,710 --> 00:43:09,680  
find these i i refer to them as

1060  
00:43:15,670 --> 00:43:12,720  
gatekeepers you call them whatever

1061  
00:43:17,750 --> 00:43:15,680  
i think that these gatekeepers are

1062  
00:43:19,750 --> 00:43:17,760  
deeply entrenched they have a lot of

1063  
00:43:21,270 --> 00:43:19,760

clout they've probably spent

1064

00:43:24,390 --> 00:43:21,280

decades

1065

00:43:26,870 --> 00:43:24,400

developing defense tactics to any

1066

00:43:27,829 --> 00:43:26,880

intrusion or incursion into their little

1067

00:43:29,750 --> 00:43:27,839

world

1068

00:43:31,270 --> 00:43:29,760

and that's not hard in the intelligence

1069

00:43:33,349 --> 00:43:31,280

world we all know

1070

00:43:35,990 --> 00:43:33,359

you know you can build a dossier on

1071

00:43:38,950 --> 00:43:36,000

people who are looking into you and

1072

00:43:41,750 --> 00:43:38,960

easily create some fictitious thing to

1073

00:43:43,990 --> 00:43:41,760

either get them kicked out ousted bad

1074

00:43:45,109 --> 00:43:44,000

press you know throw them off it's not

1075

00:43:47,990 --> 00:43:45,119

hard this

1076

00:43:48,790 --> 00:43:48,000

this is basic counter intelligence this

1077

00:43:53,829 --> 00:43:48,800

is

1078

00:43:55,910 --> 00:43:53,839

reality and even outside influences like

1079

00:43:58,390 --> 00:43:55,920

let's say the cold war and trying to

1080

00:43:59,990 --> 00:43:58,400

defend yourself against espionage those

1081

00:44:02,230 --> 00:44:00,000

tactics and things that they would have

1082

00:44:04,470 --> 00:44:02,240

picked up and learned they also

1083

00:44:07,349 --> 00:44:04,480

infiltrate everything else in military

1084

00:44:09,430 --> 00:44:07,359

as well so whether it's the uap topic or

1085

00:44:12,230 --> 00:44:09,440

other classified stuff they're using

1086

00:44:14,470 --> 00:44:12,240

that same practice that has been tried

1087

00:44:17,190 --> 00:44:14,480

and true for other times where it was

1088

00:44:19,589 --> 00:44:17,200

important you know war times or

1089

00:44:21,510 --> 00:44:19,599

potential threat thereof yeah um you

1090

00:44:23,589 --> 00:44:21,520

know that's just how that has kind of

1091

00:44:25,589 --> 00:44:23,599

it's it's gone into everything and

1092

00:44:27,430 --> 00:44:25,599

that's why they're so good at it

1093

00:44:28,470 --> 00:44:27,440

but it begs the question though

1094

00:44:30,790 --> 00:44:28,480

because we're talking about the

1095

00:44:33,190 --> 00:44:30,800

gatekeepers so they're still around and

1096

00:44:34,550 --> 00:44:33,200

now you have this new uap task force

1097

00:44:36,870 --> 00:44:34,560

that's supposed to be

1098

00:44:39,030 --> 00:44:36,880

investigating this are they going to

1099

00:44:40,870 --> 00:44:39,040

eventually cross path at some point

1100

00:44:42,870 --> 00:44:40,880

there's got to be some sort of event

1101

00:44:44,390 --> 00:44:42,880

that's going to take place where

1102

00:44:46,230 --> 00:44:44,400

you know the gatekeepers get there

1103

00:44:47,910 --> 00:44:46,240

because you know we hear about that

1104

00:44:50,550 --> 00:44:47,920

incident on the ship

1105

00:44:52,950 --> 00:44:50,560

and 20 minutes later a helicopter lands

1106

00:44:55,109 --> 00:44:52,960

civilian looking men come out they grab

1107

00:44:57,190 --> 00:44:55,119

all the tapes and take off again so

1108

00:44:59,430 --> 00:44:57,200

obviously there's already a group in

1109

00:45:01,109 --> 00:44:59,440

place doing this stuff yeah they weren't

1110

00:45:03,270 --> 00:45:01,119

held accountable back then nobody knew

1111

00:45:04,470 --> 00:45:03,280

who they were now you got the uap task

1112

00:45:06,390 --> 00:45:04,480

force that's going to be trying to do

1113

00:45:07,910 --> 00:45:06,400

the same thing but eventually they're

1114

00:45:09,270 --> 00:45:07,920

going to something's going to happen

1115

00:45:11,109 --> 00:45:09,280

they're going to bump into each other

1116

00:45:12,710 --> 00:45:11,119

right because you got the old school

1117

00:45:14,630 --> 00:45:12,720

guys that are still doing this and then

1118

00:45:15,670 --> 00:45:14,640

you got the the new guys on the block

1119

00:45:17,589 --> 00:45:15,680

trying to figure out what the hell's

1120

00:45:18,710 --> 00:45:17,599

going on

1121

00:45:24,630 --> 00:45:18,720

turf war

1122

00:45:31,430 --> 00:45:26,309

uh early on

1123

00:45:34,630 --> 00:45:31,440

when the cia and fbi kind of were

1124

00:45:35,910 --> 00:45:34,640

kind of one thing back in the day right

1125

00:45:38,630 --> 00:45:35,920

so

1126

00:45:41,910 --> 00:45:38,640

god the year's eluding me but there was

1127

00:45:44,230 --> 00:45:41,920

a time when a lot of the same roles

1128

00:45:47,349 --> 00:45:44,240

overlapped and this was i can't remember

1129

00:45:51,430 --> 00:45:47,359

if it was the before the cia i believe

1130

00:45:52,790 --> 00:45:51,440

it was the oss or osa or something and

1131

00:45:56,710 --> 00:45:52,800

then eventually

1132

00:45:59,270 --> 00:45:56,720

uh the cia or fbi they broke apart but

1133

00:46:01,270 --> 00:45:59,280

you see a lot of turf war that happens

1134

00:46:02,550 --> 00:46:01,280

in these uh

1135

00:46:04,630 --> 00:46:02,560

intellectual

1136

00:46:06,950 --> 00:46:04,640

intelligence communities and that's

1137

00:46:09,589 --> 00:46:06,960

what's going to happen here but you

1138

00:46:12,630 --> 00:46:09,599

you're going against an entrenched

1139

00:46:15,109 --> 00:46:12,640

deeply secretive

1140

00:46:16,150 --> 00:46:15,119

militaristic and intelligence group who

1141

00:46:19,589 --> 00:46:16,160

has

1142

00:46:20,550 --> 00:46:19,599

decades and decades of experience in how

1143

00:46:24,550 --> 00:46:20,560

to

1144

00:46:25,910 --> 00:46:24,560

uh

1145

00:46:28,150 --> 00:46:25,920

obtain it

1146

00:46:29,510 --> 00:46:28,160

quickly and and put the fires out

1147

00:46:31,030 --> 00:46:29,520

rapidly

1148

00:46:33,670 --> 00:46:31,040

um

1149

00:46:36,230 --> 00:46:33,680

you know i i suspect these committee

1150

00:46:38,230 --> 00:46:36,240

members and chairs while they have

1151  
00:46:39,990 --> 00:46:38,240  
plausible deniability because you know

1152  
00:46:41,990 --> 00:46:40,000  
they they really don't know what's going

1153  
00:46:44,390 --> 00:46:42,000  
on they put people there who've never

1154  
00:46:47,510 --> 00:46:44,400  
been truly

1155  
00:46:50,230 --> 00:46:47,520  
briefed on the deep and richness of the

1156  
00:46:52,230 --> 00:46:50,240  
the phenomenon i'm talking going back

1157  
00:46:53,190 --> 00:46:52,240  
you know the last hundred years

1158  
00:46:54,630 --> 00:46:53,200  
um

1159  
00:46:57,030 --> 00:46:54,640  
they don't know

1160  
00:46:59,109 --> 00:46:57,040  
what's going on but i bet i bet you they

1161  
00:47:01,510 --> 00:46:59,119  
know who the gatekeepers are

1162  
00:47:04,309 --> 00:47:01,520  
right and they can't say anything

1163  
00:47:05,910 --> 00:47:04,319

because of the classification so they're

1164

00:47:11,109 --> 00:47:05,920

still tied

1165

00:47:13,270 --> 00:47:11,119

so it's it's this really strange kind of

1166

00:47:16,550 --> 00:47:13,280

insidious knot

1167

00:47:18,309 --> 00:47:16,560

within the military branches that is

1168

00:47:20,309 --> 00:47:18,319

keeping

1169

00:47:23,190 --> 00:47:20,319

more of the information from trickling

1170

00:47:26,150 --> 00:47:23,200

up i'm not saying that the us as general

1171

00:47:28,230 --> 00:47:26,160

people will ever get that information

1172

00:47:29,270 --> 00:47:28,240

but it's keeping that information from

1173

00:47:30,390 --> 00:47:29,280

reaching

1174

00:47:33,750 --> 00:47:30,400

higher

1175

00:47:35,190 --> 00:47:33,760

uh authorities on people that were voted

1176

00:47:36,069 --> 00:47:35,200

in on

1177

00:47:36,790 --> 00:47:36,079

you know

1178

00:47:38,870 --> 00:47:36,800

so

1179

00:47:39,990 --> 00:47:38,880

i i don't know if the committees are

1180

00:47:43,030 --> 00:47:40,000

really

1181

00:47:45,589 --> 00:47:43,040

bring

1182

00:47:47,910 --> 00:47:45,599

uh more awareness to it and and they're

1183

00:47:50,230 --> 00:47:47,920

not going to find anything because i

1184

00:47:52,470 --> 00:47:50,240

don't think it's in their interest to to

1185

00:47:54,309 --> 00:47:52,480

find anything that's why these coal at

1186

00:47:57,109 --> 00:47:54,319

this this coalition

1187

00:47:59,109 --> 00:47:57,119

uh is important

1188

00:48:01,030 --> 00:47:59,119

yeah even we were commenting uh we were

1189

00:48:03,349 --> 00:48:01,040

talking to jimmy church on the last

1190

00:48:05,270 --> 00:48:03,359

episode and we were commenting on the

1191

00:48:07,750 --> 00:48:05,280

video that they selected

1192

00:48:10,549 --> 00:48:07,760

at the congress hearing to show them

1193

00:48:12,549 --> 00:48:10,559

what a video of a uap is and it was

1194

00:48:14,230 --> 00:48:12,559

probably one of the shittiest videos

1195

00:48:16,230 --> 00:48:14,240

that could have possibly been selected

1196

00:48:20,069 --> 00:48:16,240

right intentionally yeah they also

1197

00:48:22,710 --> 00:48:20,079

didn't edit the the video clip to you

1198

00:48:25,190 --> 00:48:22,720

know frame when the object would be in

1199

00:48:27,589 --> 00:48:25,200

it that you know this is

1200

00:48:30,150 --> 00:48:27,599

this is a major hearing they knew it

1201

00:48:32,630 --> 00:48:30,160

would be publicized and viewed

1202

00:48:34,390 --> 00:48:32,640

by millions and millions of people it

1203

00:48:36,390 --> 00:48:34,400

would be covered via media

1204

00:48:39,109 --> 00:48:36,400

and you're telling me that they didn't

1205

00:48:41,670 --> 00:48:39,119

have the foresight our military who's

1206

00:48:43,589 --> 00:48:41,680

like one of the greatest

1207

00:48:44,870 --> 00:48:43,599

entities the world has ever seen in

1208

00:48:46,710 --> 00:48:44,880

terms of

1209

00:48:49,349 --> 00:48:46,720

strategic foresight

1210

00:48:52,390 --> 00:48:49,359

didn't have the foresight to edit a

1211

00:48:55,030 --> 00:48:52,400

video that is completely

1212

00:48:57,589 --> 00:48:55,040

uh related to the topic of the

1213

00:49:00,069 --> 00:48:57,599

commission hearing right so i you know

1214

00:49:02,710 --> 00:49:00,079

that that type of stuff shows me

1215

00:49:06,230 --> 00:49:02,720

loud enough that one they're not taking

1216

00:49:07,670 --> 00:49:06,240

it seriously two uh they have no real

1217

00:49:08,870 --> 00:49:07,680

interest

1218

00:49:10,630 --> 00:49:08,880

they're trying to downplay they're

1219

00:49:12,950 --> 00:49:10,640

trying to make it seem like hey you know

1220

00:49:15,190 --> 00:49:12,960

you guys wanted this hearing yep here's

1221

00:49:17,190 --> 00:49:15,200

this grainy little video and oh you see

1222

00:49:19,510 --> 00:49:17,200

that that was it everybody so they think

1223

00:49:21,829 --> 00:49:19,520

it's like one frame they have to admit

1224

00:49:23,990 --> 00:49:21,839

that there is a phenomenon now they they

1225

00:49:26,390 --> 00:49:24,000

have to admit it begrudgingly yeah and

1226

00:49:28,309 --> 00:49:26,400

they're gonna do so in in the manner

1227

00:49:30,470 --> 00:49:28,319

that makes it look as

1228

00:49:32,069 --> 00:49:30,480

sure benign is possible they're not

1229

00:49:33,430 --> 00:49:32,079

going to subpoena people that they can't

1230

00:49:35,349 --> 00:49:33,440

control and don't know what their

1231

00:49:37,510 --> 00:49:35,359

answers are going to be and they're not

1232

00:49:39,990 --> 00:49:37,520

going to take cletus from oklahoma who

1233

00:49:41,109 --> 00:49:40,000

got abducted out of a cornfield and put

1234

00:49:42,790 --> 00:49:41,119

them on the stand because you don't know

1235

00:49:44,630 --> 00:49:42,800

what they're going to say and that's

1236

00:49:46,870 --> 00:49:44,640

dangerous like you said they have the

1237

00:49:48,950 --> 00:49:46,880

foresight they're not going to slip up

1238

00:49:51,829 --> 00:49:48,960

and and shoot themselves in the foot it

1239

00:49:54,390 --> 00:49:51,839

was staged not staged in a

1240

00:49:55,910 --> 00:49:54,400

bad way per se but they knew we're going

1241

00:49:56,710 --> 00:49:55,920

to discuss this this is how it's going

1242

00:49:58,470 --> 00:49:56,720

to go

1243

00:50:00,870 --> 00:49:58,480

they covered the bases before the thing

1244

00:50:03,589 --> 00:50:00,880

got started and they made sure that they

1245

00:50:04,390 --> 00:50:03,599

kept as much of it on a not a big deal

1246

00:50:07,109 --> 00:50:04,400

level

1247

00:50:08,710 --> 00:50:07,119

absolutely absolutely and you know

1248

00:50:10,870 --> 00:50:08,720

they picked people who find it

1249

00:50:13,510 --> 00:50:10,880

interesting but at the end of the day

1250

00:50:16,470 --> 00:50:13,520

their job isn't tied to the success or

1251  
00:50:18,950 --> 00:50:16,480  
failure of whether or not this committee

1252  
00:50:21,270 --> 00:50:18,960  
presents anything of of note that's

1253  
00:50:24,870 --> 00:50:21,280  
right it doesn't matter to them so this

1254  
00:50:28,069 --> 00:50:24,880  
is you know this is just a temporary

1255  
00:50:30,230 --> 00:50:28,079  
step for their careers and going back to

1256  
00:50:33,750 --> 00:50:30,240  
what you're saying about subpoena you

1257  
00:50:36,630 --> 00:50:33,760  
can't legally subpoena these uh

1258  
00:50:38,470 --> 00:50:36,640  
these gatekeepers because they're doing

1259  
00:50:40,470 --> 00:50:38,480  
their legal duty

1260  
00:50:43,750 --> 00:50:40,480  
under uh the

1261  
00:50:45,589 --> 00:50:43,760  
classification system uh and you can't

1262  
00:50:48,630 --> 00:50:45,599  
you can't break that you can't break

1263  
00:50:51,270 --> 00:50:48,640

breach their security um because you

1264

00:50:53,109 --> 00:50:51,280

have a interest at least not yet they

1265

00:50:55,910 --> 00:50:53,119

don't have the legal that's what we

1266

00:50:56,790 --> 00:50:55,920

really need jag to

1267

00:50:58,069 --> 00:50:56,800

really

1268

00:51:01,109 --> 00:50:58,079

start

1269

00:51:02,870 --> 00:51:01,119

attacking this this system so we can get

1270

00:51:04,069 --> 00:51:02,880

more information

1271

00:51:06,950 --> 00:51:04,079

it's like you look at how

1272

00:51:08,549 --> 00:51:06,960

compartmentalized the aerospace world is

1273

00:51:10,710 --> 00:51:08,559

the government's the same thing

1274

00:51:13,030 --> 00:51:10,720

everything is in a box you only have one

1275

00:51:14,309 --> 00:51:13,040

piece of the puzzle and there's very few

1276

00:51:16,390 --> 00:51:14,319

people like you call them the

1277

00:51:19,190 --> 00:51:16,400

gatekeepers very few that know the whole

1278

00:51:20,710 --> 00:51:19,200

picture and maybe like you said even

1279

00:51:23,829 --> 00:51:20,720

presidents themselves need to have

1280

00:51:26,549 --> 00:51:23,839

plausible deniability in the event of

1281

00:51:29,829 --> 00:51:26,559

absolutely i think i think probably the

1282

00:51:32,150 --> 00:51:29,839

last president who had

1283

00:51:34,790 --> 00:51:32,160

probably the most access would have been

1284

00:51:36,870 --> 00:51:34,800

george bush senior yeah because he was

1285

00:51:39,589 --> 00:51:36,880

from the cia right

1286

00:51:42,309 --> 00:51:39,599

right and he came yeah he came from the

1287

00:51:44,870 --> 00:51:42,319

early day earlier days

1288

00:51:46,950 --> 00:51:44,880

uh when it was probably spoken about

1289

00:51:49,549 --> 00:51:46,960

more open in the intelligence

1290

00:51:52,309 --> 00:51:49,559

communities before it got

1291

00:51:54,470 --> 00:51:52,319

compartmentalized away completely

1292

00:51:57,430 --> 00:51:54,480

uh he may have had a hand in how that

1293

00:52:00,150 --> 00:51:57,440

was uh structured but i'm i'm not sure i

1294

00:52:02,549 --> 00:52:00,160

i just my hypothesis i think he probably

1295

00:52:05,589 --> 00:52:02,559

was one of the last presidents who were

1296

00:52:06,390 --> 00:52:05,599

more thoroughly read in on on the topic

1297

00:52:08,230 --> 00:52:06,400

yeah

1298

00:52:09,750 --> 00:52:08,240

and there's a reason obviously why they

1299

00:52:11,270 --> 00:52:09,760

don't fill in any

1300

00:52:12,390 --> 00:52:11,280

you know presidents as you mentioned

1301

00:52:13,910 --> 00:52:12,400

louis is just you know they're

1302

00:52:16,309 --> 00:52:13,920

short-term they're not going to be there

1303

00:52:18,069 --> 00:52:16,319

forever right they're also morons i mean

1304

00:52:21,349 --> 00:52:18,079

let's let's be honest here they're just

1305

00:52:26,230 --> 00:52:24,630

yeah i mean come on the last

1306

00:52:27,990 --> 00:52:26,240

i mean the last

1307

00:52:29,270 --> 00:52:28,000

four or five presidents

1308

00:52:30,710 --> 00:52:29,280

says everything

1309

00:52:33,510 --> 00:52:30,720

i think obama was the most

1310

00:52:35,910 --> 00:52:33,520

intellectually sound but even him like

1311

00:52:38,470 --> 00:52:35,920

he wasn't the best option in the united

1312

00:52:40,470 --> 00:52:38,480

states to serve as a president right

1313

00:52:41,990 --> 00:52:40,480

yeah this is you know this

1314

00:52:43,910 --> 00:52:42,000

and this is what paul

1315

00:52:45,109 --> 00:52:43,920

the political parties do they they

1316

00:52:48,309 --> 00:52:45,119

present you

1317

00:52:51,829 --> 00:52:48,319

with their option not your option

1318

00:52:54,950 --> 00:52:51,839

it's their option for you to choose from

1319

00:52:57,109 --> 00:52:54,960

and it's always somebody who's you know

1320

00:52:58,549 --> 00:52:57,119

not going to really change change the

1321

00:53:00,710 --> 00:52:58,559

way things are done

1322

00:53:02,710 --> 00:53:00,720

yeah keep status quo do you think we're

1323

00:53:04,549 --> 00:53:02,720

gonna get to a point where um

1324

00:53:07,190 --> 00:53:04,559

politicians run

1325

00:53:09,670 --> 00:53:07,200

campaigns based on disclosure like

1326  
00:53:11,670 --> 00:53:09,680  
mentioning you know if i get elected i'm

1327  
00:53:13,750 --> 00:53:11,680  
gonna really push for this well clinton

1328  
00:53:15,750 --> 00:53:13,760  
tried that and he said like if i get in

1329  
00:53:17,430 --> 00:53:15,760  
i'm gonna make him tell me and then even

1330  
00:53:19,589 --> 00:53:17,440  
towards the end of his term he's like i

1331  
00:53:21,430 --> 00:53:19,599  
asked and they didn't tell me either you

1332  
00:53:22,630 --> 00:53:21,440  
know if they do exist they didn't let me

1333  
00:53:24,390 --> 00:53:22,640  
in on it did he mention there's a

1334  
00:53:26,390 --> 00:53:24,400  
government within the government and he

1335  
00:53:28,470 --> 00:53:26,400  
doesn't control that like something

1336  
00:53:30,309 --> 00:53:28,480  
along those lines like there's just

1337  
00:53:33,109 --> 00:53:30,319  
well several presidents have mentioned

1338  
00:53:35,349 --> 00:53:33,119

that i mean kennedy yeah you get killed

1339

00:53:36,309 --> 00:53:35,359

and stuff like that yeah yeah yeah you

1340

00:53:37,510 --> 00:53:36,319

do

1341

00:53:39,430 --> 00:53:37,520

for sure

1342

00:53:40,390 --> 00:53:39,440

um

1343

00:53:42,630 --> 00:53:40,400

so

1344

00:53:44,470 --> 00:53:42,640

yeah you know i don't think politicians

1345

00:53:46,470 --> 00:53:44,480

will ever use that as their

1346

00:53:48,630 --> 00:53:46,480

quote-unquote platform they may use it

1347

00:53:50,950 --> 00:53:48,640

as one of their talking points

1348

00:53:52,870 --> 00:53:50,960

i think what we'll see pretty soon here

1349

00:53:54,829 --> 00:53:52,880

is politicians

1350

00:53:57,910 --> 00:53:54,839

campaigning on

1351

00:54:01,349 --> 00:53:57,920

uh you know i'd be real happy to see

1352

00:54:02,230 --> 00:54:01,359

term limits used for yeah as a platform

1353

00:54:04,390 --> 00:54:02,240

uh

1354

00:54:06,790 --> 00:54:04,400

but most of the time it's it's the

1355

00:54:09,670 --> 00:54:06,800

social points the social talking points

1356

00:54:11,910 --> 00:54:09,680

that really don't change the economy or

1357

00:54:14,630 --> 00:54:11,920

how people's day-to-day lives is they're

1358

00:54:18,309 --> 00:54:14,640

just the emotional hot buttons that the

1359

00:54:20,630 --> 00:54:18,319

populace likes to discuss it's never

1360

00:54:22,870 --> 00:54:20,640

anything i mean look at andrew yang i i

1361

00:54:25,829 --> 00:54:22,880

believe he was probably one of the

1362

00:54:28,230 --> 00:54:25,839

better presidential candidates and they

1363

00:54:29,750 --> 00:54:28,240

literally didn't cover him in the media

1364

00:54:30,950 --> 00:54:29,760

and when they did they

1365

00:54:32,870 --> 00:54:30,960

intentionally

1366

00:54:33,990 --> 00:54:32,880

mispronounced his name put up wrong

1367

00:54:36,950 --> 00:54:34,000

pictures

1368

00:54:41,510 --> 00:54:36,960

why because he didn't focus on the

1369

00:54:43,990 --> 00:54:41,520

uh social divide he focused on actual

1370

00:54:46,549 --> 00:54:44,000

solutions to the economy

1371

00:54:50,549 --> 00:54:46,559

actual solutions we don't want that

1372

00:54:52,789 --> 00:54:50,559

well you know it's it sounds it sounds

1373

00:54:55,589 --> 00:54:52,799

negative and it sounds

1374

00:54:58,630 --> 00:54:55,599

pessimistic and it sounds like i just

1375

00:55:00,630 --> 00:54:58,640

hate government and but

1376

00:55:03,270 --> 00:55:00,640

unfortunately that's that's the reality

1377

00:55:06,309 --> 00:55:03,280

this is this is the reality we've come

1378

00:55:08,309 --> 00:55:06,319

to live in and and i don't blame any one

1379

00:55:11,829 --> 00:55:08,319

politician for this because

1380

00:55:14,230 --> 00:55:11,839

it has been the creation of hundreds of

1381

00:55:17,270 --> 00:55:14,240

politicians over the course of the last

1382

00:55:18,549 --> 00:55:17,280

50 60 years that have created this

1383

00:55:21,109 --> 00:55:18,559

environment

1384

00:55:23,270 --> 00:55:21,119

um and it you know

1385

00:55:25,670 --> 00:55:23,280

so this is where we are money drives

1386

00:55:28,150 --> 00:55:25,680

politics what drives money corporate

1387

00:55:30,710 --> 00:55:28,160

interests what drives corporate interest

1388

00:55:33,670 --> 00:55:30,720

the the you know the interests of those

1389

00:55:35,190 --> 00:55:33,680

who own the corporations right

1390

00:55:37,829 --> 00:55:35,200

disclosure's gonna come from the

1391

00:55:40,630 --> 00:55:37,839

civilians you know private groups people

1392

00:55:42,710 --> 00:55:40,640

you know we tatted with um caroline cory

1393

00:55:44,230 --> 00:55:42,720

about her movie of tear in the sky and

1394

00:55:46,630 --> 00:55:44,240

one of the guys in the movie was michael

1395

00:55:48,950 --> 00:55:46,640

mason or david mason and he's like a

1396

00:55:51,349 --> 00:55:48,960

genius you know he took machines that

1397

00:55:53,349 --> 00:55:51,359

can see a light in the sky turn it into

1398

00:55:55,510 --> 00:55:53,359

a wave form and give it a unique

1399

00:55:58,069 --> 00:55:55,520

identifier so after a while you're like

1400

00:56:00,150 --> 00:55:58,079

yeah that's a 747 that we don't know

1401

00:56:02,309 --> 00:56:00,160

what it is so you have people that are

1402

00:56:04,230 --> 00:56:02,319

now using their brains and getting money

1403

00:56:06,789 --> 00:56:04,240

in the private sector

1404

00:56:08,630 --> 00:56:06,799

and doing their own research and again

1405

00:56:10,630 --> 00:56:08,640

there's a lot of these experiments that

1406

00:56:11,990 --> 00:56:10,640

bear fruit you don't have to sit there

1407

00:56:14,069 --> 00:56:12,000

for months and months and months to see

1408

00:56:15,430 --> 00:56:14,079

something weird happen so i think rather

1409

00:56:18,069 --> 00:56:15,440

than waiting for the government to

1410

00:56:20,470 --> 00:56:18,079

miraculously open these doors we need to

1411

00:56:22,150 --> 00:56:20,480

build a body of evidence ourselves and

1412

00:56:24,549 --> 00:56:22,160

then have them try to refute the

1413

00:56:27,910 --> 00:56:24,559

evidence that's clearly there you know

1414

00:56:30,470 --> 00:56:27,920

the government will will never

1415

00:56:33,190 --> 00:56:30,480

have a formalized disclosure that that

1416

00:56:36,950 --> 00:56:33,200

doesn't exist what has happened is

1417

00:56:39,430 --> 00:56:36,960

a type of disclosure in that

1418

00:56:41,510 --> 00:56:39,440

we now have social acceptance

1419

00:56:43,670 --> 00:56:41,520

right how did that happen well that

1420

00:56:45,750 --> 00:56:43,680

happened through several different

1421

00:56:50,230 --> 00:56:45,760

channels it happened through

1422

00:56:52,950 --> 00:56:50,240

you know the release of tsa's uh

1423

00:56:55,510 --> 00:56:52,960

introduction of louisando

1424

00:56:56,710 --> 00:56:55,520

new york times picking up tom delong's

1425

00:56:59,750 --> 00:56:56,720

research

1426

00:57:02,390 --> 00:56:59,760

with tsa and publishing that then it

1427

00:57:05,510 --> 00:57:02,400

was senators coming forward then it was

1428

00:57:08,630 --> 00:57:05,520

uh pilots and then it was intellectual

1429

00:57:11,349 --> 00:57:08,640

scientists avi loeb so it's been all of

1430

00:57:15,510 --> 00:57:11,359

these things that have kind of coalesced

1431

00:57:18,950 --> 00:57:15,520

to create this uh natural

1432

00:57:21,510 --> 00:57:18,960

threshold of belief right this populist

1433

00:57:23,430 --> 00:57:21,520

belief now is

1434

00:57:25,670 --> 00:57:23,440

so when i was a kid if you talked about

1435

00:57:27,349 --> 00:57:25,680

ufos

1436

00:57:28,870 --> 00:57:27,359

eight times out of ten people would

1437

00:57:30,549 --> 00:57:28,880

laugh at you

1438

00:57:32,950 --> 00:57:30,559

that's that's ridiculous

1439

00:57:35,589 --> 00:57:32,960

i honestly even people

1440

00:57:38,309 --> 00:57:35,599

with little scientific knowledge or

1441

00:57:40,390 --> 00:57:38,319

interest in the subject matter

1442

00:57:41,829 --> 00:57:40,400

most people will say yeah yeah they're

1443

00:57:49,510 --> 00:57:41,839

real

1444

00:57:52,069 --> 00:57:49,520

were never allowed that moment of awe

1445

00:57:54,470 --> 00:57:52,079

the the moment of awe that we always

1446

00:57:56,390 --> 00:57:54,480

have dreamt about

1447

00:58:02,309 --> 00:57:56,400

never happened

1448

00:58:03,349 --> 00:58:02,319

still are stuck in this

1449

00:58:05,750 --> 00:58:03,359

notion

1450

00:58:07,990 --> 00:58:05,760

that disclosure hasn't happened but

1451  
00:58:11,349 --> 00:58:08,000  
that's not true disclosure has happened

1452  
00:58:13,829 --> 00:58:11,359  
and woven into the populist narrative

1453  
00:58:15,829 --> 00:58:13,839  
it's why we're speaking about this now

1454  
00:58:18,390 --> 00:58:15,839  
it's why publications it's why

1455  
00:58:21,990 --> 00:58:18,400  
scientists are creating coalitions it's

1456  
00:58:24,870 --> 00:58:22,000  
why government is creating committees

1457  
00:58:26,390 --> 00:58:24,880  
it's here we need to all allow the off

1458  
00:58:28,870 --> 00:58:26,400  
for ourselves

1459  
00:58:31,190 --> 00:58:28,880  
to really accept the fact we are not

1460  
00:58:33,109 --> 00:58:31,200  
alone in this universe whether or not

1461  
00:58:35,430 --> 00:58:33,119  
these entities are

1462  
00:58:38,230 --> 00:58:35,440  
mechanical or a.i

1463  
00:58:41,190 --> 00:58:38,240

stemming from some sort of weird ai

1464

00:58:42,630 --> 00:58:41,200

sentience or biological and it doesn't

1465

00:58:45,349 --> 00:58:42,640

really matter

1466

00:58:48,069 --> 00:58:45,359

it truly doesn't matter we're not alone

1467

00:58:51,190 --> 00:58:48,079

what it is they want clearly it's pretty

1468

00:58:52,150 --> 00:58:51,200

benign i mean aside from people saying

1469

00:58:53,510 --> 00:58:52,160

that they

1470

00:58:54,950 --> 00:58:53,520

you know were

1471

00:58:57,510 --> 00:58:54,960

abducted

1472

00:58:58,789 --> 00:58:57,520

uh the fact that they came back alive i

1473

00:59:00,390 --> 00:58:58,799

mean yeah

1474

00:59:02,230 --> 00:59:00,400

yeah they never throw them out the

1475

00:59:04,390 --> 00:59:02,240

airlock i've said that for two years on

1476

00:59:06,309 --> 00:59:04,400

the podcast right they don't and that's

1477

00:59:08,390 --> 00:59:06,319

if you believe everybody and i

1478

00:59:11,670 --> 00:59:08,400

personally am i'm a i'm a staunch

1479

00:59:15,190 --> 00:59:11,680

skeptic and i still am a believer but i

1480

00:59:16,549 --> 00:59:15,200

always take the route of initial healthy

1481

00:59:19,589 --> 00:59:16,559

skepticism

1482

00:59:21,190 --> 00:59:19,599

i try really hard not to be a cynic and

1483

00:59:23,030 --> 00:59:21,200

that's what happens to a lot of

1484

00:59:26,630 --> 00:59:23,040

intellectuals who

1485

00:59:28,710 --> 00:59:26,640

get uh rooted in a belief system

1486

00:59:30,230 --> 00:59:28,720

and neil degrasse tyson is a perfect

1487

00:59:35,109 --> 00:59:30,240

example of this

1488

00:59:38,549 --> 00:59:35,119

uh at once heralded as a great uh

1489

00:59:41,829 --> 00:59:38,559

voice for the scientific endeavor has

1490

00:59:43,109 --> 00:59:41,839

now become a laughingstock because he

1491

00:59:44,549 --> 00:59:43,119

cannot

1492

00:59:47,270 --> 00:59:44,559

allow

1493

00:59:49,030 --> 00:59:47,280

his cynicism

1494

00:59:51,750 --> 00:59:49,040

to to let it go

1495

00:59:53,990 --> 00:59:51,760

healthy skepticism is an important part

1496

00:59:55,910 --> 00:59:54,000

of this topic

1497

00:59:58,230 --> 00:59:55,920

you cannot believe everything you read

1498

01:00:00,309 --> 00:59:58,240

i'm sure both of you are extremely well

1499

01:00:02,549 --> 01:00:00,319

read on the topic if you believed

1500

01:00:04,870 --> 01:00:02,559

everything you read we'd have lizard

1501  
01:00:08,630 --> 01:00:04,880  
people knocking on our door at every

1502  
01:00:11,589 --> 01:00:08,640  
moment yeah uh right and

1503  
01:00:12,470 --> 01:00:11,599  
but if you deny everything as a cynic

1504  
01:00:16,390 --> 01:00:12,480  
your

1505  
01:00:18,710 --> 01:00:16,400  
well he was a

1506  
01:00:20,789 --> 01:00:18,720  
pupil of uh carl sagan and carl sagan

1507  
01:00:22,870 --> 01:00:20,799  
was a strong adamant

1508  
01:00:25,510 --> 01:00:22,880  
uh person that you know it's impossible

1509  
01:00:29,270 --> 01:00:25,520  
for civilization to come see us i have a

1510  
01:00:32,630 --> 01:00:29,280  
i have a hypothesis and carl sagan

1511  
01:00:36,230 --> 01:00:32,640  
actually was not always

1512  
01:00:37,510 --> 01:00:36,240  
he early in his career he was a a big

1513  
01:00:38,950 --> 01:00:37,520

proponent

1514

01:00:41,910 --> 01:00:38,960

in the

1515

01:00:44,630 --> 01:00:41,920

universe was propagated with life and

1516

01:00:47,270 --> 01:00:44,640

complex life and intelligent life and

1517

01:00:50,069 --> 01:00:47,280

then at some point he made a pivot

1518

01:00:51,990 --> 01:00:50,079

and so what we've seen is

1519

01:00:54,230 --> 01:00:52,000

neil degrasse tyson and some other

1520

01:00:56,390 --> 01:00:54,240

people have done similar things

1521

01:00:58,870 --> 01:00:56,400

and what this tells me

1522

01:00:59,829 --> 01:00:58,880

i may be wrong here but my knowledge of

1523

01:01:02,870 --> 01:00:59,839

how

1524

01:01:05,670 --> 01:01:02,880

these things work and operate as someone

1525

01:01:08,309 --> 01:01:05,680

who's signed ndas

1526

01:01:10,069 --> 01:01:08,319

once you're read into something

1527

01:01:11,910 --> 01:01:10,079

they have you

1528

01:01:14,069 --> 01:01:11,920

you no longer can talk about it you

1529

01:01:17,030 --> 01:01:14,079

can't infer about it

1530

01:01:18,309 --> 01:01:17,040

uh unless you're like given some sort of

1531

01:01:19,270 --> 01:01:18,319

leeway

1532

01:01:20,390 --> 01:01:19,280

uh

1533

01:01:21,750 --> 01:01:20,400

so

1534

01:01:23,430 --> 01:01:21,760

he you know

1535

01:01:25,910 --> 01:01:23,440

it

1536

01:01:28,390 --> 01:01:25,920

who knows maybe carl sagan was read into

1537

01:01:31,589 --> 01:01:28,400

it and sat on a think tank about the

1538

01:01:32,870 --> 01:01:31,599

phenomenon and due to that he could no

1539

01:01:35,510 --> 01:01:32,880

longer

1540

01:01:37,190 --> 01:01:35,520

advocate for it or you know perhaps that

1541

01:01:38,630 --> 01:01:37,200

was part of it perhaps that's what

1542

01:01:40,950 --> 01:01:38,640

happened with neil degrasse tyson

1543

01:01:43,270 --> 01:01:40,960

because who do these administrators go

1544

01:01:46,069 --> 01:01:43,280

to when they need assistance on the

1545

01:01:48,630 --> 01:01:46,079

greatest scientific problems they go to

1546

01:01:51,589 --> 01:01:48,640

the most public scientists yeah the

1547

01:01:53,270 --> 01:01:51,599

people who are the most intelligent who

1548

01:01:56,230 --> 01:01:53,280

what you know the presidents went to

1549

01:01:57,589 --> 01:01:56,240

einstein when they they needed questions

1550

01:01:58,549 --> 01:01:57,599

uh answered

1551

01:02:01,029 --> 01:01:58,559

and

1552

01:02:04,470 --> 01:02:01,039

it's not far-fetched that some of these

1553

01:02:07,190 --> 01:02:04,480

scientists were read in to something

1554

01:02:09,109 --> 01:02:07,200

yeah and due to that can no longer no

1555

01:02:12,789 --> 01:02:09,119

matter what

1556

01:02:14,150 --> 01:02:12,799

discuss it in terms of a reality

1557

01:02:15,990 --> 01:02:14,160

uh

1558

01:02:18,230 --> 01:02:16,000

so you know that's possible or it's

1559

01:02:21,829 --> 01:02:18,240

possible he's just

1560

01:02:24,390 --> 01:02:21,839

so foolish that he he will not allow

1561

01:02:26,950 --> 01:02:24,400

for the logic to sink in

1562

01:02:29,349 --> 01:02:26,960

well even on his tv show he's on a

1563

01:02:30,390 --> 01:02:29,359

spaceship going through space and other

1564

01:02:33,589 --> 01:02:30,400

planets

1565

01:02:37,750 --> 01:02:33,599

i mean that's that's quite hypocritical

1566

01:02:40,710 --> 01:02:37,760

is that spaceship in that cgi is very

1567

01:02:43,270 --> 01:02:40,720

accurate to how a

1568

01:02:45,670 --> 01:02:43,280

craft operating this these type of

1569

01:02:46,470 --> 01:02:45,680

fields would might look

1570

01:02:48,950 --> 01:02:46,480

right

1571

01:02:49,910 --> 01:02:48,960

you'd have a seamless uh

1572

01:02:54,549 --> 01:02:49,920

very

1573

01:02:58,150 --> 01:02:56,549

so just uh in closing here i had a

1574

01:03:00,870 --> 01:02:58,160

question for you what

1575

01:03:03,510 --> 01:03:00,880

is what can you tell us about the buzz

1576

01:03:04,950 --> 01:03:03,520

behind the scenes right now in the ufo

1577

01:03:06,789 --> 01:03:04,960

world like i know there's certain things

1578

01:03:09,670 --> 01:03:06,799

you're not allowed to talk about

1579

01:03:11,349 --> 01:03:09,680

but uh is there anything coming up that

1580

01:03:13,349 --> 01:03:11,359

we get to look forward to is there a

1581

01:03:14,950 --> 01:03:13,359

momentum going on behind the scenes that

1582

01:03:17,349 --> 01:03:14,960

we're not aware of

1583

01:03:19,430 --> 01:03:17,359

where are they keeping the aliens man

1584

01:03:20,950 --> 01:03:19,440

where are they keeping them if i knew i

1585

01:03:22,309 --> 01:03:20,960

wouldn't be doing it

1586

01:03:26,630 --> 01:03:22,319

i wouldn't be doing what i'm doing

1587

01:03:33,349 --> 01:03:29,750

the the the buzz is really you know what

1588

01:03:35,430 --> 01:03:33,359

you see what what is being propagated on

1589

01:03:36,470 --> 01:03:35,440

all these podcasts all the interviews

1590

01:03:38,230 --> 01:03:36,480

you read

1591

01:03:40,789 --> 01:03:38,240

there's really nothing

1592

01:03:44,870 --> 01:03:40,799

in the background aside from

1593

01:03:47,270 --> 01:03:44,880

you know the these committees and

1594

01:03:48,870 --> 01:03:47,280

the coalition which i told you what you

1595

01:03:52,870 --> 01:03:48,880

know kind of what they're doing what

1596

01:03:56,870 --> 01:03:54,549

you do have

1597

01:04:00,069 --> 01:03:56,880

james webb and you have some other

1598

01:04:03,109 --> 01:04:00,079

instrumentation that's being

1599

01:04:05,029 --> 01:04:03,119

pointed to to the celestial bodies to

1600

01:04:08,069 --> 01:04:05,039

kind of search for

1601  
01:04:11,270 --> 01:04:08,079  
things nasa's just come on board

1602  
01:04:13,190 --> 01:04:11,280  
there really isn't anything

1603  
01:04:17,190 --> 01:04:13,200  
secretive right now

1604  
01:04:18,789 --> 01:04:17,200  
that that i'm aware of uh or or being

1605  
01:04:21,349 --> 01:04:18,799  
held back from

1606  
01:04:24,230 --> 01:04:21,359  
discussing outside of my ndas and work

1607  
01:04:25,270 --> 01:04:24,240  
with with corporations in the past

1608  
01:04:28,390 --> 01:04:25,280  
uh

1609  
01:04:31,190 --> 01:04:28,400  
people to really keep an eye on

1610  
01:04:35,190 --> 01:04:32,789  
yeah are

1611  
01:04:36,150 --> 01:04:35,200  
are the pilots that have witnessed these

1612  
01:04:38,230 --> 01:04:36,160  
things

1613  
01:04:41,829 --> 01:04:38,240

uh the scientists that are involving

1614

01:04:44,750 --> 01:04:41,839

themselves with the coalition

1615

01:04:46,630 --> 01:04:44,760

companies that are working on

1616

01:04:49,109 --> 01:04:46,640

[Music]

1617

01:04:52,390 --> 01:04:49,119

advanced technologies so quantum

1618

01:04:54,710 --> 01:04:52,400

computing material science

1619

01:04:56,230 --> 01:04:54,720

propulsion techniques

1620

01:04:59,349 --> 01:04:56,240

um

1621

01:05:01,430 --> 01:04:59,359

these are all things that i believe so

1622

01:05:03,670 --> 01:05:01,440

you know

1623

01:05:06,029 --> 01:05:03,680

i really think that

1624

01:05:09,349 --> 01:05:06,039

we're going to see a trend in

1625

01:05:12,630 --> 01:05:09,359

government-backed research of reverse

1626  
01:05:14,069 --> 01:05:12,640  
engineering the observed phenomenon so

1627  
01:05:19,190 --> 01:05:14,079  
since we

1628  
01:05:21,990 --> 01:05:19,200  
the technologies that we're observing

1629  
01:05:25,109 --> 01:05:22,000  
what's going to happen is that programs

1630  
01:05:28,069 --> 01:05:25,119  
and even companies with high amounts of

1631  
01:05:30,950 --> 01:05:28,079  
financial backing are going to attempt

1632  
01:05:33,510 --> 01:05:30,960  
to reverse engineer what is being

1633  
01:05:35,589 --> 01:05:33,520  
observed so you start with an

1634  
01:05:37,349 --> 01:05:35,599  
observation and you say

1635  
01:05:38,470 --> 01:05:37,359  
how could that be done

1636  
01:05:40,710 --> 01:05:38,480  
okay

1637  
01:05:42,630 --> 01:05:40,720  
so what you know it would take this type

1638  
01:05:44,950 --> 01:05:42,640

of material how do we obtain that type

1639

01:05:46,549 --> 01:05:44,960

of material okay

1640

01:05:49,109 --> 01:05:46,559

where do we get our power generation

1641

01:05:52,230 --> 01:05:49,119

okay how do we do this so this kind of

1642

01:05:53,589 --> 01:05:52,240

uh reverse engineering through

1643

01:05:55,190 --> 01:05:53,599

the market

1644

01:05:57,510 --> 01:05:55,200

i think is going to take place and i

1645

01:06:01,349 --> 01:05:57,520

think we'll see like government-backed

1646

01:06:04,390 --> 01:06:01,359

grants for companies that are willing to

1647

01:06:06,630 --> 01:06:04,400

kind of tackle these problems that's

1648

01:06:08,309 --> 01:06:06,640

that's kind of my forecast for what's to

1649

01:06:10,069 --> 01:06:08,319

come in the next 10

1650

01:06:12,390 --> 01:06:10,079

10 15 years

1651

01:06:15,589 --> 01:06:12,400

almost like a darpa extension

1652

01:06:18,230 --> 01:06:15,599

yeah well you see that the air force

1653

01:06:20,789 --> 01:06:18,240

in in the last handful of years has done

1654

01:06:23,349 --> 01:06:20,799

it's called the af works where they

1655

01:06:25,510 --> 01:06:23,359

directly

1656

01:06:28,710 --> 01:06:25,520

work with

1657

01:06:30,150 --> 01:06:28,720

companies and ventures who

1658

01:06:33,029 --> 01:06:30,160

are either

1659

01:06:35,270 --> 01:06:33,039

providing a service or a technology that

1660

01:06:37,190 --> 01:06:35,280

may benefit the air force so they're

1661

01:06:38,950 --> 01:06:37,200

interfacing directly now with

1662

01:06:41,029 --> 01:06:38,960

entrepreneurs

1663

01:06:44,309 --> 01:06:41,039

which i believe is a really intelligent

1664

01:06:48,150 --> 01:06:44,319

way it used to be just backhand lobbying

1665

01:06:50,549 --> 01:06:48,160

was the only means and they they quickly

1666

01:06:54,230 --> 01:06:50,559

saw that in the 21st century that they

1667

01:06:57,190 --> 01:06:54,240

were missing out on a ton of uh

1668

01:06:59,430 --> 01:06:57,200

technologies and goods and services and

1669

01:07:01,510 --> 01:06:59,440

intellectual property that they could

1670

01:07:04,069 --> 01:07:01,520

access more if they just went public

1671

01:07:05,109 --> 01:07:04,079

with their interests so you get these

1672

01:07:09,910 --> 01:07:05,119

the

1673

01:07:12,829 --> 01:07:09,920

does a similar type of event

1674

01:07:17,029 --> 01:07:12,839

where they host for

1675

01:07:18,470 --> 01:07:17,039

um companies to kind of pitch ideas

1676  
01:07:23,109 --> 01:07:18,480  
and stuff so

1677  
01:07:24,950 --> 01:07:23,119  
yeah it really is kind of uh

1678  
01:07:31,829 --> 01:07:24,960  
to

1679  
01:07:33,990 --> 01:07:31,839  
what they're observing right really

1680  
01:07:35,510 --> 01:07:34,000  
boils down to that and puts them ahead

1681  
01:07:37,349 --> 01:07:35,520  
of the game right that's another thing

1682  
01:07:38,230 --> 01:07:37,359  
about this technology

1683  
01:07:41,029 --> 01:07:38,240  
yeah

1684  
01:07:44,069 --> 01:07:41,039  
and anyone who's anyone i'm sorry to

1685  
01:07:45,349 --> 01:07:44,079  
interrupt time no no or unlimited time

1686  
01:07:48,069 --> 01:07:45,359  
anyone

1687  
01:07:50,950 --> 01:07:48,079  
who is

1688  
01:07:52,470 --> 01:07:50,960

high up in a military branch or in an

1689

01:07:56,069 --> 01:07:52,480

administration

1690

01:07:58,470 --> 01:07:56,079

who makes a claim that these are uh

1691

01:08:01,190 --> 01:07:58,480

could even even the claim that they

1692

01:08:02,470 --> 01:08:01,200

could be foreign technologies they're

1693

01:08:05,670 --> 01:08:02,480

lying

1694

01:08:08,549 --> 01:08:05,680

because they're exposed to more

1695

01:08:11,349 --> 01:08:08,559

cutting edge technology than i am and i

1696

01:08:13,990 --> 01:08:11,359

have a great deal of exposure and what i

1697

01:08:16,229 --> 01:08:14,000

can say is that no

1698

01:08:18,470 --> 01:08:16,239

company or government has the

1699

01:08:19,749 --> 01:08:18,480

capabilities to do this it's not

1700

01:08:23,829 --> 01:08:19,759

possible

1701

01:08:26,149 --> 01:08:23,839

wouldn't make sense in a strategic

1702

01:08:29,749 --> 01:08:26,159

economic sense because they would be

1703

01:08:32,789 --> 01:08:29,759

utilizing this so anybody who's saying

1704

01:08:34,309 --> 01:08:32,799

that this is could be adversarial

1705

01:08:37,269 --> 01:08:34,319

it's nonsense

1706

01:08:39,269 --> 01:08:37,279

it's absolute nonsense

1707

01:08:41,430 --> 01:08:39,279

and they're lying through their teeth

1708

01:08:43,910 --> 01:08:41,440

and they know it because they know what

1709

01:08:46,470 --> 01:08:43,920

the capabilities of current technology

1710

01:08:49,110 --> 01:08:46,480

is doesn't matter what country there are

1711

01:08:51,349 --> 01:08:49,120

limitations based on just

1712

01:08:53,749 --> 01:08:51,359

pure

1713

01:08:55,110 --> 01:08:53,759

science and engineering that

1714

01:08:57,269 --> 01:08:55,120

you know are

1715

01:08:58,630 --> 01:08:57,279

are unable to be done

1716

01:09:00,630 --> 01:08:58,640

right they would have to be so

1717

01:09:02,550 --> 01:09:00,640

significantly

1718

01:09:06,070 --> 01:09:02,560

further advanced that they would not

1719

01:09:07,189 --> 01:09:06,080

even resemble the society that is alive

1720

01:09:08,870 --> 01:09:07,199

today

1721

01:09:12,789 --> 01:09:08,880

right right so

1722

01:09:14,709 --> 01:09:12,799

it's just a it's a it's a smoke screen

1723

01:09:15,829 --> 01:09:14,719

they don't know what it is well they do

1724

01:09:17,510 --> 01:09:15,839

when they don't

1725

01:09:20,309 --> 01:09:17,520

if we're dealing with the class two

1726

01:09:21,590 --> 01:09:20,319

civilization to them to us whatever it

1727

01:09:23,669 --> 01:09:21,600

is that they do

1728

01:09:26,070 --> 01:09:23,679

appears like magic we can't figure it

1729

01:09:28,950 --> 01:09:26,080

out it's just you know it's amazing you

1730

01:09:31,510 --> 01:09:28,960

know we can we have an idea right i

1731

01:09:33,829 --> 01:09:31,520

don't think anything is is

1732

01:09:36,149 --> 01:09:33,839

magical i don't think we need to induce

1733

01:09:38,070 --> 01:09:36,159

time travel or time dilation i don't

1734

01:09:40,550 --> 01:09:38,080

think we need to induce

1735

01:09:42,630 --> 01:09:40,560

higher states of

1736

01:09:45,030 --> 01:09:42,640

consciousness while that may be part of

1737

01:09:47,590 --> 01:09:45,040

it i think that everything can be

1738

01:09:50,870 --> 01:09:47,600

explained through sufficiently advanced

1739

01:09:53,910 --> 01:09:50,880

technologies yeah given enough time

1740

01:09:56,229 --> 01:09:53,920

technology and material science can

1741

01:09:59,030 --> 01:09:56,239

perform every single one of these

1742

01:10:01,750 --> 01:09:59,040

observables right we can theorize on

1743

01:10:05,030 --> 01:10:01,760

that we know how this could work

1744

01:10:05,830 --> 01:10:05,040

just because we don't have the

1745

01:10:10,470 --> 01:10:05,840

the

1746

01:10:13,270 --> 01:10:10,480

materials right now it does not mean

1747

01:10:15,750 --> 01:10:13,280

they knew we could fly

1748

01:10:18,070 --> 01:10:15,760

400 years ago they tried they knew it

1749

01:10:20,790 --> 01:10:18,080

would be possible we just hadn't kind of

1750

01:10:22,709 --> 01:10:20,800

stumbled upon the right formula yet

1751

01:10:23,590 --> 01:10:22,719

right until the wright brothers figured

1752

01:10:25,430 --> 01:10:23,600

it out

1753

01:10:28,630 --> 01:10:25,440

but we knew we could do it

1754

01:10:32,790 --> 01:10:28,640

and back then you know we wouldn't say

1755

01:10:35,990 --> 01:10:32,800

that flying was you know only for

1756

01:10:37,750 --> 01:10:36,000

gods or maybe some people would but i i

1757

01:10:39,110 --> 01:10:37,760

i don't think everyone would they see

1758

01:10:44,630 --> 01:10:39,120

birds flying

1759

01:10:46,390 --> 01:10:44,640

anyway my point is that uh

1760

01:10:48,310 --> 01:10:46,400

it's happening quickly

1761

01:10:50,470 --> 01:10:48,320

people are

1762

01:10:52,870 --> 01:10:50,480

researching this stuff money is being

1763

01:10:54,550 --> 01:10:52,880

spent in the background on this and i

1764

01:10:56,550 --> 01:10:54,560

kind of leave with the same statement

1765

01:10:57,510 --> 01:10:56,560

every time right

1766

01:10:59,910 --> 01:10:57,520

people

1767

01:11:02,470 --> 01:10:59,920

governments companies they're spending

1768

01:11:04,070 --> 01:11:02,480

money on this stuff this this is real

1769

01:11:07,030 --> 01:11:04,080

this is uh

1770

01:11:09,910 --> 01:11:07,040

real anyone who's telling you that

1771

01:11:12,310 --> 01:11:09,920

they don't think it's it's a phenomenon

1772

01:11:16,310 --> 01:11:12,320

they're either lying to you or they're

1773

01:11:18,070 --> 01:11:16,320

just rooted in cynicism which is sad

1774

01:11:20,870 --> 01:11:18,080

because they're not allowing themselves

1775

01:11:23,590 --> 01:11:20,880

the moment of awe so i wish we could all

1776

01:11:27,350 --> 01:11:23,600

take that collective moment and and

1777

01:11:30,390 --> 01:11:27,360

embrace our reality and move on and move

1778

01:11:31,510 --> 01:11:30,400

forward to a much better future

1779

01:11:32,870 --> 01:11:31,520

well said

1780

01:11:34,550 --> 01:11:32,880

louis do you have any final questions

1781

01:11:36,790 --> 01:11:34,560

for our guest today oh we'll uh we'll

1782

01:11:38,630 --> 01:11:36,800

wish mackay morin a very warm welcome

1783

01:11:40,390 --> 01:11:38,640

again and thanks for being on our show

1784

01:11:42,310 --> 01:11:40,400

it's nice to have somebody with the

1785

01:11:43,990 --> 01:11:42,320

breadth of knowledge that you have

1786

01:11:45,590 --> 01:11:44,000

firsthand because of obviously your

1787

01:11:47,910 --> 01:11:45,600

training but what you do on a day-to-day

1788

01:11:49,350 --> 01:11:47,920

basis people you speak to

1789

01:11:51,430 --> 01:11:49,360

and when you're an enthusiast you're

1790

01:11:53,750 --> 01:11:51,440

motivated to kind of feed that right you

1791

01:11:55,430 --> 01:11:53,760

thirst for it you're like a sponge so i

1792

01:11:56,870 --> 01:11:55,440

think the movement is better because of

1793

01:11:58,390 --> 01:11:56,880

people like yourself

1794

01:12:00,390 --> 01:11:58,400

and you're definitely

1795

01:12:02,229 --> 01:12:00,400

yeah you're contributing to the uh to

1796

01:12:03,830 --> 01:12:02,239

the common good and you're one of the

1797

01:12:05,910 --> 01:12:03,840

good guys so thanks for being on our

1798

01:12:08,070 --> 01:12:05,920

show thank you gentlemen i sincerely

1799

01:12:09,669 --> 01:12:08,080

appreciate it let's let's do it again in

1800

01:12:11,990 --> 01:12:09,679

the future and maybe

1801

01:12:13,830 --> 01:12:12,000

touch base on some new material that's

1802

01:12:16,390 --> 01:12:13,840

come come true that was good you are

1803

01:12:17,810 --> 01:12:16,400

always welcome on this podcast my friend
