

100TH EPISODE JACQUES VALLEE

UAP STUDIES PODCAST

2022-09-11 11:30:09

1
00:00:05,630 --> 00:00:02,510
hey everybody Welcome to a very special

2
00:00:08,390 --> 00:00:05,640
episode this is the 100th episode of UAP

3
00:00:10,970 --> 00:00:08,400
studies podcast Jason at the time has

4
00:00:13,730 --> 00:00:10,980
flown by what a lot of work man it's

5
00:00:15,530 --> 00:00:13,740
been a ton of work and uh I can't

6
00:00:17,630 --> 00:00:15,540
believe that we've made it this far at

7
00:00:20,510 --> 00:00:17,640
100 episodes we were talking about

8
00:00:22,730 --> 00:00:20,520
earlier how uh you know most podcasts

9
00:00:25,189 --> 00:00:22,740
they start and if you could get past the

10
00:00:27,290 --> 00:00:25,199
seventh episode you're most likely to

11
00:00:28,790 --> 00:00:27,300
succeed in continuing podcasting but a

12
00:00:31,970 --> 00:00:28,800
lot of people quit at the seventh

13
00:00:34,069 --> 00:00:31,980

episode we perceive we've persevered and

14

00:00:35,690 --> 00:00:34,079

we made it to a hundred and I really

15

00:00:38,209 --> 00:00:35,700

hope we make it to another 100 because

16

00:00:40,790 --> 00:00:38,219

this has been a heck of a ride and we

17

00:00:43,670 --> 00:00:40,800

have a guest fitting of this ceremonial

18

00:00:45,170 --> 00:00:43,680

anniversary episode we're super excited

19

00:00:47,389 --> 00:00:45,180

to chat with him in just a moment here

20

00:00:49,790 --> 00:00:47,399

we're also going to raise a glass to all

21

00:00:51,950 --> 00:00:49,800

of our viewers and listeners and all the

22

00:00:54,290 --> 00:00:51,960

guests who've made UAP studies podcast a

23

00:00:57,770 --> 00:00:54,300

success so stay with us for a very

24

00:01:01,600 --> 00:00:57,780

special episode of UAP studies podcast

25

00:01:11,780 --> 00:01:09,730

[Music]

26

00:01:21,070 --> 00:01:11,790

[Applause]

27

00:01:26,810 --> 00:01:24,230

welcome back to our very special 100th

28

00:01:28,370 --> 00:01:26,820

episode my name is Louis Borges joining

29

00:01:30,410 --> 00:01:28,380

me as always my good friend in

30

00:01:32,330 --> 00:01:30,420

illustrious co-host Mr Jason gilmette

31

00:01:34,190 --> 00:01:32,340

how are you I'm doing great I can't

32

00:01:36,710 --> 00:01:34,200

believe that we made it to 100 episodes

33

00:01:38,929 --> 00:01:36,720

this is a lot of work man what a lot of

34

00:01:41,090 --> 00:01:38,939

work the average podcast fails in seven

35

00:01:43,490 --> 00:01:41,100

episodes or less that's right yeah you

36

00:01:45,109 --> 00:01:43,500

know nobody listens you get discouraged

37

00:01:46,969 --> 00:01:45,119

you figure what am I doing all this for

38

00:01:49,190 --> 00:01:46,979

you put your heart and soul into it as

39

00:01:51,469 --> 00:01:49,200

most podcasters do so it's very

40

00:01:53,149 --> 00:01:51,479

difficult to weather that storm and you

41

00:01:55,730 --> 00:01:53,159

know get good quality guests when you

42

00:01:57,289 --> 00:01:55,740

don't have any good quality guests and I

43

00:01:59,569 --> 00:01:57,299

think it comes down to the the guests

44

00:02:01,249 --> 00:01:59,579

the viewers and the hard work that went

45

00:02:03,950 --> 00:02:01,259

into it or we wouldn't be here right so

46

00:02:05,870 --> 00:02:03,960

yeah and I mean what a guest we have for

47

00:02:08,809 --> 00:02:05,880

a 100th episode we couldn't be any more

48

00:02:11,210 --> 00:02:08,819

honored uh to have somebody as esteemed

49

00:02:12,710 --> 00:02:11,220

as this gentleman here and um yeah I

50

00:02:14,270 --> 00:02:12,720

mean we want to introduce Mr Jacque

51
00:02:17,330 --> 00:02:14,280
Valley but I want everyone to understand

52
00:02:19,070 --> 00:02:17,340
that Jacques is not just a UFO author

53
00:02:21,470 --> 00:02:19,080
wrote A Few blogs here and there and

54
00:02:23,150 --> 00:02:21,480
even people that know him I think would

55
00:02:25,250 --> 00:02:23,160
be surprised at some of the things he's

56
00:02:27,710 --> 00:02:25,260
actually involved with uh and I have

57
00:02:30,290 --> 00:02:27,720
them here so obviously we know he was an

58
00:02:34,010 --> 00:02:30,300
early internet Pioneer a scientist an

59
00:02:36,170 --> 00:02:34,020
author an astronomer an inventor an

60
00:02:39,890 --> 00:02:36,180
engineer he developed one of the first

61
00:02:41,210 --> 00:02:39,900
computerized maps of Mars for NASA in a

62
00:02:43,250 --> 00:02:41,220
time where that's not an easy thing to

63
00:02:45,350 --> 00:02:43,260

do you know worked on an early

64

00:02:47,089 --> 00:02:45,360

information center called arpanet which

65

00:02:49,490 --> 00:02:47,099

is basically the precursor to the modern

66

00:02:51,949 --> 00:02:49,500

day internet and messaging As We Know It

67

00:02:54,070 --> 00:02:51,959

uh worked alongside people like Jay Alan

68

00:02:57,470 --> 00:02:54,080

heineck he was the chair of astronomy

69

00:03:00,550 --> 00:02:57,480

and Northwestern University early AI

70

00:03:03,470 --> 00:03:00,560

research these worked at the Stanford

71

00:03:05,809 --> 00:03:03,480

University's Plasma Research Institute

72

00:03:07,369 --> 00:03:05,819

later on became a venture capitalist and

73

00:03:09,470 --> 00:03:07,379

started helping companies with really

74

00:03:12,290 --> 00:03:09,480

crazy ideas to actually bring that to

75

00:03:14,089 --> 00:03:12,300

fruition and 14 of them went to IPO and

76

00:03:16,610 --> 00:03:14,099

became you know like publicly traded

77

00:03:19,089 --> 00:03:16,620

some of these inventions are insane like

78

00:03:21,830 --> 00:03:19,099

the CyberKnife which was used for cancer

79

00:03:24,850 --> 00:03:21,840

procedures Imaging Electronics

80

00:03:28,490 --> 00:03:24,860

nanotechnology for optic networks

81

00:03:30,649 --> 00:03:28,500

regeneration Technologies and even his

82

00:03:33,890 --> 00:03:30,659

lab handy Labs with their transformative

83

00:03:36,830 --> 00:03:33,900

oncology technology so not just a

84

00:03:39,710 --> 00:03:36,840

ufologist a man with a brain bigger than

85

00:03:41,690 --> 00:03:39,720

we can possibly tap and we're super

86

00:03:43,729 --> 00:03:41,700

stoked to have Mr Jacques Philly on the

87

00:03:46,490 --> 00:03:43,739

show so please welcome

88

00:03:48,350 --> 00:03:46,500

thank you very much but you know many of

89

00:03:50,750 --> 00:03:48,360

the things that you've mentioned

90

00:03:52,729 --> 00:03:50,760

um you know are true that they were it's

91

00:03:55,789 --> 00:03:52,739

always a team you know I think that's

92

00:03:58,130 --> 00:03:55,799

the lesson that I've learned in Silicon

93

00:04:00,649 --> 00:03:58,140

Valley you know the you have you have

94

00:04:04,130 --> 00:04:00,659

inventors you have people in the

95

00:04:06,710 --> 00:04:04,140

background who get the capital and put

96

00:04:10,070 --> 00:04:06,720

the structures together and so on and it

97

00:04:12,830 --> 00:04:10,080

it takes it it takes an entire team and

98

00:04:16,189 --> 00:04:12,840

you know that Cycles back to you know

99

00:04:20,270 --> 00:04:16,199

the study of UFOs or uaps you know where

100

00:04:23,330 --> 00:04:20,280

are the teams right we we need if we're

101
00:04:26,870 --> 00:04:23,340
serious in the next you know next uh

102
00:04:28,909 --> 00:04:26,880
step Next Generation we need to we need

103
00:04:31,749 --> 00:04:28,919
to do it not with a couple of bright

104
00:04:35,570 --> 00:04:31,759
people with ideas but we need to build

105
00:04:37,550 --> 00:04:35,580
to really build serious teams do you

106
00:04:40,189 --> 00:04:37,560
think with um because uh with the

107
00:04:42,469 --> 00:04:40,199
Galileo project this is sort of a shift

108
00:04:43,670 --> 00:04:42,479
in that mentality that we you know the

109
00:04:45,590 --> 00:04:43,680
scientists are starting to take it

110
00:04:49,310 --> 00:04:45,600
seriously and they're teaming up for it

111
00:04:52,189 --> 00:04:49,320
yes yes definitely but I'm you know

112
00:04:55,129 --> 00:04:52,199
certainly very grateful

113
00:04:57,650 --> 00:04:55,139

to have lived long enough to see to see

114

00:05:01,129 --> 00:04:57,660

that and to see the stigma removed

115

00:05:03,890 --> 00:05:01,139

because I think of you know what what Dr

116

00:05:06,230 --> 00:05:03,900

heineck would have given what uh Dr

117

00:05:09,530 --> 00:05:06,240

McDonald you know Jim McDonald would

118

00:05:12,050 --> 00:05:09,540

have given uh my old you know mentors or

119

00:05:14,689 --> 00:05:12,060

maybe Michelle and in France and so on

120

00:05:19,070 --> 00:05:14,699

would have given to see this day where

121

00:05:22,129 --> 00:05:19,080

the the subject is recognized as you

122

00:05:26,450 --> 00:05:22,139

know worthy of serious scientific

123

00:05:29,510 --> 00:05:26,460

research uh you know all my life uh you

124

00:05:33,469 --> 00:05:29,520

know I've been you know an outlaw it's

125

00:05:36,469 --> 00:05:33,479

not an outcast you know working with my

126

00:05:40,249 --> 00:05:36,479

own resources doing this and and in

127

00:05:43,310 --> 00:05:40,259

association with a number of people who

128

00:05:46,210 --> 00:05:43,320

taught me that Technologies I needed to

129

00:05:50,749 --> 00:05:46,220

to master to to do what I wanted to do

130

00:05:54,890 --> 00:05:50,759

but uh you know it's been pretty lonely

131

00:05:59,749 --> 00:05:54,900

in many of the these cases the the

132

00:06:02,270 --> 00:05:59,759

mainstream of ufology just thought I was

133

00:06:05,570 --> 00:06:02,280

crazy I mean look at I spoke to Magonia

134

00:06:08,090 --> 00:06:05,580

you know was was an example where people

135

00:06:11,510 --> 00:06:08,100

said you know valet has gone off the

136

00:06:13,010 --> 00:06:11,520

deep end with this this thing about the

137

00:06:15,710 --> 00:06:13,020

little people

138

00:06:18,430 --> 00:06:15,720

the legends from the Middle Ages but we

139

00:06:23,029 --> 00:06:18,440

now know that the subject didn't start

140

00:06:25,490 --> 00:06:23,039

you know at Roswell in 1947 that there

141

00:06:29,570 --> 00:06:25,500

were cases before as you know Trinity

142

00:06:32,870 --> 00:06:29,580

was two years before and people haven't

143

00:06:36,230 --> 00:06:32,880

realized that yet and of course we have

144

00:06:37,930 --> 00:06:36,240

other people have done research uh you

145

00:06:40,490 --> 00:06:37,940

know um

146

00:06:43,790 --> 00:06:40,500

observations that were made during the

147

00:06:46,850 --> 00:06:43,800

the early 20th century and the 19th

148

00:06:49,969 --> 00:06:46,860

century with with published a book

149

00:06:53,150 --> 00:06:49,979

called wonders in the sky that goes back

150

00:06:59,409 --> 00:06:53,160

through here at the middle of the 19th

151

00:07:03,110 --> 00:06:59,419

century with 500 unexplained cases okay

152

00:07:05,990 --> 00:07:03,120

where you know the fight has been and we

153

00:07:08,809 --> 00:07:06,000

we need to take the totality of this now

154

00:07:11,689 --> 00:07:08,819

that the subject is on and we have to

155

00:07:13,490 --> 00:07:11,699

move forward with that right and it's

156

00:07:15,650 --> 00:07:13,500

good that you guys are looking at at not

157

00:07:17,510 --> 00:07:15,660

only what's happening now but what's

158

00:07:19,070 --> 00:07:17,520

happened in the past what's you know

159

00:07:21,050 --> 00:07:19,080

because this phenomenon has been taking

160

00:07:23,089 --> 00:07:21,060

place for thousands of years like people

161

00:07:25,790 --> 00:07:23,099

have been seeing stuff in the sky

162

00:07:27,710 --> 00:07:25,800

and describing things Landing down and

163

00:07:29,870 --> 00:07:27,720

communicating with people for thousands

164

00:07:31,370 --> 00:07:29,880

of years so it's interesting now that

165

00:07:33,290 --> 00:07:31,380

we're it's almost like we're

166

00:07:36,110 --> 00:07:33,300

rediscovering something that maybe we've

167

00:07:37,850 --> 00:07:36,120

lost in the past you know we've we lost

168

00:07:39,589 --> 00:07:37,860

that connection or something so it's

169

00:07:42,290 --> 00:07:39,599

like we're rediscovering it because our

170

00:07:45,529 --> 00:07:42,300

lifespans are so short

171

00:07:49,550 --> 00:07:45,539

well and you know it takes hard work to

172

00:07:52,189 --> 00:07:49,560

go through the old connections uh

173

00:07:55,909 --> 00:07:52,199

because of course the social context has

174

00:07:58,430 --> 00:07:55,919

changed as civilization has evolved so

175

00:08:01,370 --> 00:07:58,440

you have to take everything pretty much

176

00:08:04,730 --> 00:08:01,380

in every Century Place it in in the

177

00:08:06,529 --> 00:08:04,740

context of what words meant you know you

178

00:08:10,670 --> 00:08:06,539

look at the Bible and there are

179

00:08:12,830 --> 00:08:10,680

descriptions in the Bible that remind us

180

00:08:16,909 --> 00:08:12,840

uh you know some of the things people

181

00:08:19,969 --> 00:08:16,919

see now but the the words and the the

182

00:08:23,150 --> 00:08:19,979

context are so different that we we

183

00:08:25,850 --> 00:08:23,160

can't just equate them so there is all

184

00:08:28,670 --> 00:08:25,860

that work needs to be done by historians

185

00:08:31,850 --> 00:08:28,680

and by Scholars and so on and that's

186

00:08:34,730 --> 00:08:31,860

what uh We've we've tried to drive to do

187

00:08:37,310 --> 00:08:34,740

but then even more recently

188

00:08:41,870 --> 00:08:37,320

you know look at the Nimitz I mean

189

00:08:44,930 --> 00:08:41,880

uh is that really unique uh were there

190

00:08:47,990 --> 00:08:44,940

cases like that before well if you if

191

00:08:50,690 --> 00:08:48,000

you look only at the American cases like

192

00:08:53,090 --> 00:08:50,700

uh Congress in say we shouldn't talk to

193

00:08:54,290 --> 00:08:53,100

other countries about this because we're

194

00:08:57,889 --> 00:08:54,300

going to be

195

00:09:00,050 --> 00:08:57,899

adding new things you know by

196

00:09:02,269 --> 00:09:00,060

um well I don't know if you spoke to

197

00:09:06,050 --> 00:09:02,279

other countries you would find that in

198

00:09:08,750 --> 00:09:06,060

the funds that we know about there have

199

00:09:13,389 --> 00:09:08,760

been cases like the Nimitz before

200

00:09:17,389 --> 00:09:13,399

you know with with uh with large vessels

201

00:09:22,570 --> 00:09:17,399

with aircraft carriers with

202

00:09:26,930 --> 00:09:22,580

um with uh icebreakers with who have uh

203

00:09:30,290 --> 00:09:26,940

not only detected but recorded uh

204

00:09:32,930 --> 00:09:30,300

observations so the big question I think

205

00:09:36,050 --> 00:09:32,940

now is going to be otherwise Congress

206

00:09:39,290 --> 00:09:36,060

gets involved nor fortunately and you

207

00:09:41,090 --> 00:09:39,300

know is going to be how much of an

208

00:09:44,750 --> 00:09:41,100

international

209

00:09:47,210 --> 00:09:44,760

friendly build and I think that's where

210

00:09:48,949 --> 00:09:47,220

you know we can uh the history of what

211

00:09:52,130 --> 00:09:48,959

I've done what other people have done

212

00:09:54,410 --> 00:09:52,140

but who have to to look forward we have

213

00:09:56,990 --> 00:09:54,420

to change the way we're doing things

214

00:09:59,810 --> 00:09:57,000

because now we're going to engage

215

00:10:02,030 --> 00:09:59,820

scientists you know seriously all over

216

00:10:04,550 --> 00:10:02,040

the world right to your point about the

217

00:10:06,949 --> 00:10:04,560

Nimitz and the Tic Tac video was that

218

00:10:09,130 --> 00:10:06,959

really an isolated event well Caroline

219

00:10:12,290 --> 00:10:09,140

Corey went out there and made a movie

220

00:10:14,509 --> 00:10:12,300

and uh basically they within three or

221

00:10:16,970 --> 00:10:14,519

four days they caught reigning Tic Tacs

222

00:10:19,130 --> 00:10:16,980

on their high-tech uh imagery and on

223

00:10:21,530 --> 00:10:19,140

their equipment so it was in the same

224

00:10:23,269 --> 00:10:21,540

area too just off of Catalina Island so

225

00:10:25,730 --> 00:10:23,279

if you can go with proper

226

00:10:27,769 --> 00:10:25,740

instrumentation and document that it

227

00:10:30,230 --> 00:10:27,779

can't be that you know

228

00:10:32,990 --> 00:10:30,240

um out there or that you know um minute

229

00:10:35,090 --> 00:10:33,000

of a chance it's fairly prevalent and

230

00:10:37,610 --> 00:10:35,100

maybe it's just you know our Spectrum as

231

00:10:39,769 --> 00:10:37,620

observers as biological creatures we

232

00:10:42,710 --> 00:10:39,779

only see certain waveforms we only hear

233

00:10:44,690 --> 00:10:42,720

certain frequencies were not designed to

234

00:10:46,430 --> 00:10:44,700

pick it all up I mean even a dog will

235

00:10:48,590 --> 00:10:46,440

hear a certain pitch of a whistle that

236

00:10:50,449 --> 00:10:48,600

we can't hear so maybe this has always

237

00:10:52,550 --> 00:10:50,459

been going on and we're just getting

238

00:10:55,550 --> 00:10:52,560

better at picking this up you know and

239

00:10:58,130 --> 00:10:55,560

with people having cameras and 1080p at

240

00:10:59,509 --> 00:10:58,140

fingertips it makes sense that there

241

00:11:01,250 --> 00:10:59,519

would be more

242

00:11:02,750 --> 00:11:01,260

um you know more of this stuff being

243

00:11:04,370 --> 00:11:02,760

able to be documented and I'm sure the

244

00:11:06,530 --> 00:11:04,380

government with all their technology has

245

00:11:14,230 --> 00:11:06,540

way more than the private sector will

246

00:11:20,990 --> 00:11:17,569

documenting this and sort of boxing it

247

00:11:23,329 --> 00:11:21,000

in terms of the physical parameters and

248

00:11:24,530 --> 00:11:23,339

I think that's that's tremendously

249

00:11:27,350 --> 00:11:24,540

important

250

00:11:31,069 --> 00:11:27,360

even talking with Kevin Day who was the

251
00:11:33,290 --> 00:11:31,079
radar operator on the Princeton he

252
00:11:34,790 --> 00:11:33,300
mentioned it was the new technology that

253
00:11:36,769 --> 00:11:34,800
they just had like the new radar

254
00:11:39,410 --> 00:11:36,779
technology they just had installed is

255
00:11:43,069 --> 00:11:39,420
actually what started picking up these

256
00:11:44,810 --> 00:11:43,079
um Tic Tac shaped objects on radar for

257
00:11:47,269 --> 00:11:44,820
two weeks he said it was just because of

258
00:11:49,610 --> 00:11:47,279
the upgrade so as our technology is

259
00:11:52,610 --> 00:11:49,620
getting better maybe our detection of

260
00:11:55,130 --> 00:11:52,620
these anomalies are getting better but

261
00:11:56,990 --> 00:11:55,140
one thing that for you which I always

262
00:11:59,569 --> 00:11:57,000
thought was amazing is that when it

263
00:12:01,970 --> 00:11:59,579

comes down to uaps or sightings you

264

00:12:03,790 --> 00:12:01,980

actually show up to the locations and

265

00:12:06,350 --> 00:12:03,800

it's funny with with that you can't

266

00:12:08,630 --> 00:12:06,360

obviously you can't reproduce what took

267

00:12:10,370 --> 00:12:08,640

place there but you always show up at

268

00:12:11,750 --> 00:12:10,380

these locations which to me is like I've

269

00:12:14,750 --> 00:12:11,760

always been fascinated by that that

270

00:12:16,430 --> 00:12:14,760

you've had a career of chasing

271

00:12:18,889 --> 00:12:16,440

these events especially when there's

272

00:12:21,829 --> 00:12:18,899

been really good documented uh you know

273

00:12:24,590 --> 00:12:21,839

Witnesses and and stuff like that what

274

00:12:27,170 --> 00:12:24,600

brought you to be that passionate about

275

00:12:28,850 --> 00:12:27,180

this subject that you would you know

276

00:12:31,550 --> 00:12:28,860

donate so much of your time and and

277

00:12:36,050 --> 00:12:31,560

money towards this research

278

00:12:42,310 --> 00:12:38,090

you know as you may know I mean I've

279

00:12:47,509 --> 00:12:42,320

never hidden the fact that I saw a UFO

280

00:12:50,449 --> 00:12:47,519

when I was a teenager I was about 15 in

281

00:12:51,430 --> 00:12:50,459

in France uh in broke daylight a

282

00:12:54,490 --> 00:12:51,440

beautiful

283

00:12:58,670 --> 00:12:54,500

Summer Afternoon Blue Sky

284

00:13:00,829 --> 00:12:58,680

uh not the cloud in the sky my mother

285

00:13:04,910 --> 00:13:00,839

called me she was working in the young

286

00:13:06,410 --> 00:13:04,920

she was working in the garden and uh I

287

00:13:09,710 --> 00:13:06,420

was doing some work with my father

288

00:13:12,170 --> 00:13:09,720

inside the house she called and I rushed

289

00:13:16,370 --> 00:13:12,180

out and when I saw it was essentially

290

00:13:22,910 --> 00:13:16,380

you know a flying saucer I mean it it

291

00:13:25,569 --> 00:13:22,920

was an oval silver object a disc with uh

292

00:13:28,670 --> 00:13:25,579

what I thought was a dome

293

00:13:31,970 --> 00:13:28,680

a transparent Dome on top

294

00:13:36,110 --> 00:13:31,980

it couldn't have been more than a

295

00:13:39,230 --> 00:13:36,120

kilometer away it seemed to be over the

296

00:13:42,590 --> 00:13:39,240

the steeple of the of a church that we

297

00:13:44,150 --> 00:13:42,600

could see from a male house and it was

298

00:13:49,610 --> 00:13:44,160

Motionless

299

00:13:52,009 --> 00:13:49,620

I had time to to to look at it uh the

300

00:13:54,590 --> 00:13:52,019

the next day I described it to a friend

301
00:13:57,710 --> 00:13:54,600
of mine from school whose house was up

302
00:14:00,110 --> 00:13:57,720
the hill another half kilometer and he

303
00:14:02,030 --> 00:14:00,120
said he had seen it and he had had time

304
00:14:04,730 --> 00:14:02,040
to get binoculars and look at it with

305
00:14:08,329 --> 00:14:04,740
binoculars so I got him to draw it and

306
00:14:12,350 --> 00:14:08,339
when he drew what he drew was exactly it

307
00:14:16,850 --> 00:14:12,360
was the shape I had seen so

308
00:14:20,030 --> 00:14:16,860
um I I never tried to hide that uh you

309
00:14:23,449 --> 00:14:20,040
know I've had a decent career in in

310
00:14:27,829 --> 00:14:23,459
science starting with uh with Paris

311
00:14:31,490 --> 00:14:27,839
Observatory uh where they they knew that

312
00:14:36,230 --> 00:14:31,500
uh I had you know seen this and called

313
00:14:38,030 --> 00:14:36,240

it a UFO at the time my father was a

314

00:14:38,829 --> 00:14:38,040

judge

315

00:14:45,490 --> 00:14:38,839

um

316

00:14:48,650 --> 00:14:45,500

understood technology said you know

317

00:14:51,889 --> 00:14:48,660

that's not first we can't report it

318

00:14:56,290 --> 00:14:53,629

um it didn't talk to you know judges

319

00:14:59,449 --> 00:14:56,300

don't get into the papers

320

00:15:01,970 --> 00:14:59,459

and he thought that there were so many

321

00:15:04,730 --> 00:15:01,980

new prototypes you know appearing those

322

00:15:08,389 --> 00:15:04,740

were the days of you know the early 50s

323

00:15:11,269 --> 00:15:08,399

mid 50s when the the new Jets were being

324

00:15:14,569 --> 00:15:11,279

demonstrated and so on and where the the

325

00:15:17,769 --> 00:15:14,579

fighters and so on and uh there were all

326

00:15:20,689 --> 00:15:17,779

kinds of things being tried so

327

00:15:22,689 --> 00:15:20,699

I added that and from a couple of years

328

00:15:25,790 --> 00:15:22,699

I really didn't

329

00:15:29,750 --> 00:15:25,800

didn't think much about it it remained

330

00:15:33,650 --> 00:15:29,760

In My Memory but then you know when I I

331

00:15:37,610 --> 00:15:33,660

my first job was at Paris Observatory

332

00:15:41,810 --> 00:15:37,620

uh tracking satellites and I was by then

333

00:15:44,629 --> 00:15:41,820

more you know Adept with technology and

334

00:15:45,769 --> 00:15:44,639

so on I also had people around me that I

335

00:15:49,490 --> 00:15:45,779

could ask

336

00:15:53,210 --> 00:15:49,500

uh advice and it was clear we still

337

00:15:55,610 --> 00:15:53,220

didn't have anything like it

338

00:15:58,430 --> 00:15:55,620

um I that's when I really became

339

00:16:01,310 --> 00:15:58,440

intrigued because then as I as I

340

00:16:04,790 --> 00:16:01,320

continued to work in technology and in

341

00:16:07,129 --> 00:16:04,800

astronomy I found that people had seen

342

00:16:09,110 --> 00:16:07,139

an awful lot of things that they

343

00:16:11,449 --> 00:16:09,120

wouldn't involve because they were

344

00:16:13,329 --> 00:16:11,459

afraid for a reputation they were afraid

345

00:16:18,470 --> 00:16:13,339

for their jobs

346

00:16:21,230 --> 00:16:18,480

what I had seen was uh was not terribly

347

00:16:25,129 --> 00:16:21,240

controversial except that there was no

348

00:16:27,670 --> 00:16:25,139

explanation for it so I could um you

349

00:16:31,189 --> 00:16:27,680

know go on with my career

350

00:16:33,769 --> 00:16:31,199

eventually a few years ago being

351

00:16:36,170 --> 00:16:33,779

selected with my partners to run a

352

00:16:40,970 --> 00:16:36,180

venture fund for

353

00:16:43,610 --> 00:16:40,980

that everybody who reviewed what what we

354

00:16:46,670 --> 00:16:43,620

did know that I was interested in UFOs

355

00:16:48,530 --> 00:16:46,680

I've I've never hidden it and by now I

356

00:16:51,889 --> 00:16:48,540

couldn't hide it anyway so it doesn't

357

00:16:54,230 --> 00:16:51,899

matter yeah no you can't uh if you type

358

00:16:56,569 --> 00:16:54,240

Jack valet in Google I mean

359

00:16:58,850 --> 00:16:56,579

you got how many pages that pop up of

360

00:17:00,650 --> 00:16:58,860

your work in in interest and even like

361

00:17:03,650 --> 00:17:00,660

Louie was mentioning earlier all your

362

00:17:05,210 --> 00:17:03,660

accolades and you're so humble and

363

00:17:06,949 --> 00:17:05,220

that's what I love about you is that

364

00:17:08,689 --> 00:17:06,959

you're so humble about everything that

365

00:17:10,610 --> 00:17:08,699

you do and you don't you know pat

366

00:17:12,949 --> 00:17:10,620

yourself on the back and it's it's you

367

00:17:15,350 --> 00:17:12,959

know really refreshing in this field

368

00:17:17,630 --> 00:17:15,360

ufology because there's a lot of people

369

00:17:20,150 --> 00:17:17,640

that are starting to you know form these

370

00:17:22,069 --> 00:17:20,160

egos around their work or their research

371

00:17:25,069 --> 00:17:22,079

and you know as if they're the only ones

372

00:17:28,429 --> 00:17:25,079

and you're like no we need teams we need

373

00:17:32,270 --> 00:17:28,439

to build large teams and that humbleness

374

00:17:34,370 --> 00:17:32,280

or is it's refreshing well you know

375

00:17:37,669 --> 00:17:34,380

there is no other way to do it I mean in

376

00:17:40,130 --> 00:17:37,679

science you'll never alone you're you're

377

00:17:43,370 --> 00:17:40,140

you know I I've had the privilege of

378

00:17:45,350 --> 00:17:43,380

working with a man named Paul Baron

379

00:17:48,770 --> 00:17:45,360

b-a-r-a-n

380

00:17:52,370 --> 00:17:48,780

uh who is not well known but he is

381

00:17:55,970 --> 00:17:52,380

really the the the the Pioneer who built

382

00:17:58,490 --> 00:17:55,980

the infrastructure for the internet uh

383

00:18:01,070 --> 00:17:58,500

namely he invented packets which a

384

00:18:03,169 --> 00:18:01,080

couple of other people contributed to to

385

00:18:08,450 --> 00:18:03,179

packet switching which is what we're

386

00:18:11,930 --> 00:18:08,460

using now to communicate and he always

387

00:18:14,150 --> 00:18:11,940

said you know all you do is bring one

388

00:18:18,710 --> 00:18:14,160

stone to the cathedral

389

00:18:20,690 --> 00:18:18,720

that's that's all you do and uh yes he

390

00:18:23,930 --> 00:18:20,700

made a big contribution but there were

391

00:18:25,630 --> 00:18:23,940

dozens of bright engineers and bright

392

00:18:28,490 --> 00:18:25,640

programmers working

393

00:18:31,250 --> 00:18:28,500

on all the different aspects of building

394

00:18:33,590 --> 00:18:31,260

even the Primitive structure for the

395

00:18:38,990 --> 00:18:33,600

alphabet that that became the internet

396

00:18:40,789 --> 00:18:39,000

so uh yeah there is no no way that you

397

00:18:44,090 --> 00:18:40,799

can make more than just

398

00:18:46,909 --> 00:18:44,100

a good contribution and and that's fine

399

00:18:49,610 --> 00:18:46,919

and then you have to you have to do it

400

00:18:52,490 --> 00:18:49,620

with a team they are very few very few

401
00:18:57,169 --> 00:18:52,500
things that have been done by just one

402
00:19:00,710 --> 00:18:57,179
man like Einstein or you know or Galileo

403
00:19:02,330 --> 00:19:00,720
um but uh even in the case of Galileo I

404
00:19:04,789 --> 00:19:02,340
mean there were other people who were

405
00:19:08,630 --> 00:19:04,799
inventing tennis courts around that time

406
00:19:12,470 --> 00:19:08,640
and and looking for the telescopes uh

407
00:19:16,610 --> 00:19:12,480
Galileo was unique because he was a

408
00:19:20,350 --> 00:19:16,620
great marketing genius uh in addition to

409
00:19:22,430 --> 00:19:20,360
being great scientific genes

410
00:19:23,990 --> 00:19:22,440
I'm just gonna say I find it really

411
00:19:26,150 --> 00:19:24,000
interesting that now we're getting

412
00:19:28,789 --> 00:19:26,160
better at inventing technology and

413
00:19:30,710 --> 00:19:28,799

things machines and you would think that

414

00:19:33,230 --> 00:19:30,720

if this was a nuts and bolts topic

415

00:19:35,210 --> 00:19:33,240

machine would find machine but the

416

00:19:37,850 --> 00:19:35,220

better machines we get the more it seems

417

00:19:39,950 --> 00:19:37,860

to be that this is interdimensional or

418

00:19:42,110 --> 00:19:39,960

it's not something that is always

419

00:19:44,270 --> 00:19:42,120

necessarily physical and we seem to be

420

00:19:46,010 --> 00:19:44,280

going more down the rabbit hole now the

421

00:19:49,789 --> 00:19:46,020

smarter we get we think we're getting

422

00:19:51,950 --> 00:19:49,799

closer to that actual finite answer the

423

00:19:53,930 --> 00:19:51,960

answer is way less finite and it's

424

00:19:56,029 --> 00:19:53,940

infinite you know in its uh

425

00:19:58,310 --> 00:19:56,039

possibilities really and nobody knows

426

00:20:00,110 --> 00:19:58,320

and good on you I really respect your

427

00:20:01,750 --> 00:20:00,120

humility and the fact that you said you

428

00:20:04,549 --> 00:20:01,760

know like when you switch from the

429

00:20:06,529 --> 00:20:04,559

Extraterrestrial hypothesis to more of

430

00:20:09,169 --> 00:20:06,539

like a multi-dimensional visitation

431

00:20:10,909 --> 00:20:09,179

hypothesis you've got a lot of flack and

432

00:20:13,070 --> 00:20:10,919

all of the prominent ufologists wanted

433

00:20:15,529 --> 00:20:13,080

to string you up and said you were crazy

434

00:20:16,970 --> 00:20:15,539

and I'm sure people like Galileo and

435

00:20:18,110 --> 00:20:16,980

inventors over the years have all gone

436

00:20:20,330 --> 00:20:18,120

through the same thing I'm sure people

437

00:20:22,490 --> 00:20:20,340

thought Isaac Newton was crazy and now

438

00:20:24,770 --> 00:20:22,500

you know even people like Tesla as of

439

00:20:27,650 --> 00:20:24,780

Fairly recently right so

440

00:20:29,090 --> 00:20:27,660

um yeah I find that very interesting

441

00:20:30,230 --> 00:20:29,100

well

442

00:20:32,810 --> 00:20:30,240

um

443

00:20:35,450 --> 00:20:32,820

you have to take everything into account

444

00:20:38,150 --> 00:20:35,460

we cannot just narrow it down to one

445

00:20:40,669 --> 00:20:38,160

thing we know or one thing we think we

446

00:20:41,890 --> 00:20:40,679

know this is a phenomenon that

447

00:20:49,430 --> 00:20:41,900

challenges

448

00:20:53,210 --> 00:20:49,440

Psychology in neuroanatomy you know I

449

00:20:57,529 --> 00:20:53,220

work now with Professor Nolan at

450

00:20:59,830 --> 00:20:57,539

Stanford you know and with other people

451

00:21:02,150 --> 00:20:59,840

who are starting to look at the

452

00:21:05,210 --> 00:21:02,160

neuroanatomy of the brain

453

00:21:08,450 --> 00:21:05,220

in terms of you know the current

454

00:21:11,390 --> 00:21:08,460

research on the brain and what it means

455

00:21:14,330 --> 00:21:11,400

in in the perception of extraordinary

456

00:21:18,110 --> 00:21:14,340

phenomena like like the the UFO

457

00:21:20,330 --> 00:21:18,120

phenomena so we need to cover all of

458

00:21:22,909 --> 00:21:20,340

that the problem is that the academy

459

00:21:25,789 --> 00:21:22,919

Community isn't quite ready for that you

460

00:21:28,430 --> 00:21:25,799

know the the psychology building is at

461

00:21:31,010 --> 00:21:28,440

one end of the campus and the physics

462

00:21:33,590 --> 00:21:31,020

building is at the other end yeah they

463

00:21:36,409 --> 00:21:33,600

really have no reason to get together

464

00:21:38,090 --> 00:21:36,419

except that the the Christmas party you

465

00:21:42,730 --> 00:21:38,100

know so

466

00:21:46,090 --> 00:21:42,740

um we we don't have the academic

467

00:21:50,029 --> 00:21:46,100

equipment or the academic architecture

468

00:21:52,190 --> 00:21:50,039

to deal with a problem of that

469

00:21:54,649 --> 00:21:52,200

so you know of that variety and

470

00:21:57,289 --> 00:21:54,659

amplitude

471

00:22:00,289 --> 00:21:57,299

um to some extent the military is better

472

00:22:01,450 --> 00:22:00,299

prepared because they have very good

473

00:22:04,130 --> 00:22:01,460

sensors

474

00:22:05,270 --> 00:22:04,140

that that are deployed in connection

475

00:22:10,610 --> 00:22:05,280

with

476

00:22:16,850 --> 00:22:10,620

whether it's a ship or or you know an

477

00:22:19,730 --> 00:22:16,860

F-18 uh and that's in uh in in the you

478

00:22:21,350 --> 00:22:19,740

know in the event of War

479

00:22:24,710 --> 00:22:21,360

um those

480

00:22:25,909 --> 00:22:24,720

but those sensors where I'm not designed

481

00:22:35,750 --> 00:22:25,919

to

482

00:22:39,049 --> 00:22:35,760

detect the exhaust of an enemy plane and

483

00:22:43,029 --> 00:22:39,059

locate it and find its distance and and

484

00:22:47,270 --> 00:22:43,039

aim you know ammunition at it so the

485

00:22:49,810 --> 00:22:47,280

it's difficult to extrapolate also from

486

00:22:51,830 --> 00:22:49,820

what they even the military is getting

487

00:22:58,190 --> 00:22:51,840

and uh

488

00:23:01,490 --> 00:22:58,200

so the the challenge now is to uh is to

489

00:23:04,010 --> 00:23:01,500

bridge those different disciplines in in

490

00:23:08,930 --> 00:23:04,020

a way that is

491

00:23:12,169 --> 00:23:08,940

um sober uh that is uh complete that is

492

00:23:15,710 --> 00:23:12,179

uh you know very carefully documented

493

00:23:19,549 --> 00:23:15,720

and and in my opinion to do it all over

494

00:23:22,970 --> 00:23:19,559

the world you know the US is uh 1.9

495

00:23:23,750 --> 00:23:22,980

percent of the habitable surface of the

496

00:23:26,390 --> 00:23:23,760

Earth

497

00:23:27,710 --> 00:23:26,400

uh you know what's going on in the other

498

00:23:30,590 --> 00:23:27,720

98 percent

499

00:23:33,950 --> 00:23:30,600

you know are we going to ignore that so

500

00:23:37,130 --> 00:23:33,960

I I think that's the next problem that

501
00:23:39,169 --> 00:23:37,140
uh Congress is going to have to address

502
00:23:41,350 --> 00:23:39,179
you know maybe the U.N should be

503
00:23:44,930 --> 00:23:41,360
involved and should

504
00:23:48,110 --> 00:23:44,940
open up the opportunity for countries to

505
00:23:50,870 --> 00:23:48,120
come forward with what they know

506
00:23:53,090 --> 00:23:50,880
um I know for a fact that there are a

507
00:23:56,330 --> 00:23:53,100
number of of countries because I've

508
00:23:59,510 --> 00:23:56,340
spoken to you know people who had

509
00:24:02,570 --> 00:23:59,520
executive roles uh in in several of

510
00:24:05,210 --> 00:24:02,580
those countries that they have that that

511
00:24:07,010 --> 00:24:05,220
has never been published and the reason

512
00:24:09,770 --> 00:24:07,020
it hasn't been published is that they're

513
00:24:12,710 --> 00:24:09,780

waiting for the U.S to create a

514

00:24:16,010 --> 00:24:12,720

framework that you know there is so much

515

00:24:18,710 --> 00:24:16,020

admiration and respect for U.S American

516

00:24:21,110 --> 00:24:18,720

Technology for Silicon Valley for

517

00:24:23,649 --> 00:24:21,120

inventions for you know the internet and

518

00:24:27,049 --> 00:24:23,659

everything else that

519

00:24:29,330 --> 00:24:27,059

people assume that you know if there is

520

00:24:32,330 --> 00:24:29,340

something unknown out there the us is

521

00:24:35,690 --> 00:24:32,340

going to deal with it first and they'll

522

00:24:38,289 --> 00:24:35,700

tell us well uh you know there has been

523

00:24:42,370 --> 00:24:38,299

so much secrecy over the years

524

00:24:47,270 --> 00:24:42,380

that other people have retreated and

525

00:24:49,490 --> 00:24:47,280

thought well you know why why aren't we

526

00:24:52,250 --> 00:24:49,500

sharing that data I mean we're sharing

527

00:24:54,470 --> 00:24:52,260

climate data we're sharing you know

528

00:24:56,570 --> 00:24:54,480

financial data we're sharing all kinds

529

00:25:01,490 --> 00:24:56,580

of things that's open between different

530

00:25:04,190 --> 00:25:01,500

countries to make the world work yeah so

531

00:25:07,669 --> 00:25:04,200

and how come we cannot communicate on

532

00:25:09,909 --> 00:25:07,679

this particular subject well uh maybe

533

00:25:13,250 --> 00:25:09,919

the first country that

534

00:25:17,690 --> 00:25:13,260

exploits that technology of you know

535

00:25:18,789 --> 00:25:17,700

whatever UFOs are when will gain

536

00:25:20,470 --> 00:25:18,799

something

537

00:25:23,690 --> 00:25:20,480

but

538

00:25:26,169 --> 00:25:23,700

if you don't have the observations uh

539

00:25:30,230 --> 00:25:26,179

you're you're in a desert by yourself

540

00:25:33,649 --> 00:25:30,240

you know and other people cannot help

541

00:25:36,230 --> 00:25:33,659

you they you know I'm in tomorrow I'm

542

00:25:39,230 --> 00:25:36,240

leaving for France there is a meeting

543

00:25:42,890 --> 00:25:39,240

next month organized by the French space

544

00:25:47,630 --> 00:25:42,900

agency which is the third largest in the

545

00:25:50,810 --> 00:25:47,640

world after uh behind Ross Cosmos in

546

00:25:52,730 --> 00:25:50,820

NASA uh that you know they launched the

547

00:25:58,549 --> 00:25:52,740

Kepler Telescope you know from chrome

548

00:26:00,350 --> 00:25:58,559

you know so uh they uh there is an

549

00:26:03,890 --> 00:26:00,360

international meeting with seven

550

00:26:05,269 --> 00:26:03,900

countries the US is not represented

551
00:26:09,110 --> 00:26:05,279
well

552
00:26:13,090 --> 00:26:09,120
you know uh Argentina is coming Holland

553
00:26:15,470 --> 00:26:13,100
is coming Norway is coming Italy the UK

554
00:26:19,490 --> 00:26:15,480
you know they're all making

555
00:26:23,590 --> 00:26:19,500
presentations about UFOs and and you

556
00:26:26,990 --> 00:26:23,600
know the science applied to ufology

557
00:26:30,049 --> 00:26:27,000
in the USA is one presentation by a

558
00:26:32,810 --> 00:26:30,059
friend of mine will present some of the

559
00:26:35,750 --> 00:26:32,820
work that has been done on pilot

560
00:26:38,810 --> 00:26:35,760
sightings you know that Dr Richard

561
00:26:41,630 --> 00:26:38,820
Haynes pioneered that and one of his

562
00:26:45,049 --> 00:26:41,640
friends is making the presentation but

563
00:26:48,169 --> 00:26:45,059

they the the the the the the pilot site

564

00:26:51,470 --> 00:26:48,179

in catalog was developed in France

565

00:26:55,190 --> 00:26:51,480

initially and then augmented by

566

00:26:56,990 --> 00:26:55,200

cooperation between Dr Haynes and the

567

00:27:00,529 --> 00:26:57,000

people who are doing it in France okay

568

00:27:03,169 --> 00:27:00,539

that's an example of a very good result

569

00:27:05,210 --> 00:27:03,179

you know from International cooperation

570

00:27:09,529 --> 00:27:05,220

but we need more of them

571

00:27:12,890 --> 00:27:09,539

why I proposed a list of you know

572

00:27:15,850 --> 00:27:12,900

American scientists who could contribute

573

00:27:20,450 --> 00:27:15,860

to the meetings in two runs next month

574

00:27:24,230 --> 00:27:20,460

and the the uh you know the reaction

575

00:27:26,930 --> 00:27:24,240

both from the U.S there was no push and

576
00:27:29,269 --> 00:27:26,940
the reaction was well you know let them

577
00:27:31,370 --> 00:27:29,279
publish what they have then we'll take

578
00:27:34,730 --> 00:27:31,380
it into account but the cooperation

579
00:27:36,830 --> 00:27:34,740
isn't isn't really working and that's my

580
00:27:39,649 --> 00:27:36,840
my main subject of frustration to me

581
00:27:44,149 --> 00:27:39,659
when I when I look at how much has been

582
00:27:46,730 --> 00:27:44,159
accomplished and where we go there is a

583
00:27:52,190 --> 00:27:46,740
valid argument

584
00:27:55,010 --> 00:27:52,200
that the the subject is so complex and

585
00:27:56,470 --> 00:27:55,020
the U.S has you know the leadership in

586
00:27:59,690 --> 00:27:56,480
technology

587
00:28:02,390 --> 00:27:59,700
uh and you can certainly argue with

588
00:28:05,390 --> 00:28:02,400

argue that it's not necessarily true in

589

00:28:07,330 --> 00:28:05,400

every field of Technology but you know

590

00:28:09,730 --> 00:28:07,340

overall

591

00:28:13,549 --> 00:28:09,740

electronic and physical

592

00:28:15,950 --> 00:28:13,559

chemical technology the US has a you

593

00:28:17,630 --> 00:28:15,960

know obvious leadership position

594

00:28:21,289 --> 00:28:17,640

so

595

00:28:22,750 --> 00:28:21,299

maybe we don't need the other countries

596

00:28:25,789 --> 00:28:22,760

but

597

00:28:27,529 --> 00:28:25,799

uh I think that's contradicted as we're

598

00:28:30,769 --> 00:28:27,539

talking about the limits by the fact

599

00:28:33,169 --> 00:28:30,779

that I know of data that should come out

600

00:28:35,390 --> 00:28:33,179

that would be important for the people

601
00:28:38,510 --> 00:28:35,400
who analyze what's what happened to the

602
00:28:42,169 --> 00:28:38,520
limits in the United States including

603
00:28:46,250 --> 00:28:42,179
the military if they knew about what is

604
00:28:50,630 --> 00:28:46,260
in the other files now uh it's not for

605
00:28:52,430 --> 00:28:50,640
me to you know when you on that or you

606
00:28:54,769 --> 00:28:52,440
know it's

607
00:28:57,769 --> 00:28:54,779
um you know speak speak to that because

608
00:29:00,590 --> 00:28:57,779
I don't have all the information uh

609
00:29:03,470 --> 00:29:00,600
those signs are official fines and they

610
00:29:05,510 --> 00:29:03,480
are properly you know managed just like

611
00:29:08,510 --> 00:29:05,520
the American funds are properly managed

612
00:29:11,990 --> 00:29:08,520
but maybe at some point we should all

613
00:29:14,470 --> 00:29:12,000

get into the same the same room uh the

614

00:29:17,450 --> 00:29:14,480

same thing as you go into history

615

00:29:20,870 --> 00:29:17,460

yes so Congress says we should look at

616

00:29:23,090 --> 00:29:20,880

everything you know in the last five

617

00:29:26,389 --> 00:29:23,100

years maybe that the because the

618

00:29:29,570 --> 00:29:26,399

military has had extraordinary sessions

619

00:29:31,909 --> 00:29:29,580

you know on all the platforms the ships

620

00:29:35,330 --> 00:29:31,919

the planes suddenly in the last five

621

00:29:38,990 --> 00:29:35,340

years has been a revolution with that

622

00:29:41,090 --> 00:29:39,000

but you know what about before I mean uh

623

00:29:44,990 --> 00:29:41,100

even the friends of project group

624

00:29:48,950 --> 00:29:45,000

uh you know are important and they have

625

00:29:52,430 --> 00:29:48,960

been studied mostly biometers but they

626
00:29:54,649 --> 00:29:52,440
have been studied well and uh well what

627
00:29:55,490 --> 00:29:54,659
about history what about what happened

628
00:29:57,789 --> 00:29:55,500
before

629
00:30:01,269 --> 00:29:57,799
so

630
00:30:04,490 --> 00:30:01,279
in science you can't just put little

631
00:30:07,730 --> 00:30:04,500
limits around little Windows around

632
00:30:12,310 --> 00:30:07,740
things you cannot just study you know

633
00:30:15,590 --> 00:30:12,320
cancer in the suburb of some of one city

634
00:30:19,549 --> 00:30:15,600
if you study cancer you want to study

635
00:30:23,090 --> 00:30:19,559
cancer on you know different cultures uh

636
00:30:25,970 --> 00:30:23,100
different races different geographical

637
00:30:28,130 --> 00:30:25,980
situations and so on and to to really

638
00:30:30,710 --> 00:30:28,140

understand all the parameters well

639

00:30:33,049 --> 00:30:30,720

here's the same thing

640

00:30:34,730 --> 00:30:33,059

yeah no you mentioned that

641

00:30:37,010 --> 00:30:34,740

um you know studying cancer you got

642

00:30:39,889 --> 00:30:37,020

steady cancer on its own terms and when

643

00:30:41,930 --> 00:30:39,899

it comes down to the UAP uh you know UFO

644

00:30:43,730 --> 00:30:41,940

problems that we have you got to study

645

00:30:45,049 --> 00:30:43,740

that on its own terms as well we're just

646

00:30:48,529 --> 00:30:45,059

trying to figure out what those terms

647

00:30:51,169 --> 00:30:48,539

are and uh you've done incredibly well

648

00:30:52,669 --> 00:30:51,179

throughout the years to basically write

649

00:30:56,389 --> 00:30:52,679

and expand

650

00:30:59,210 --> 00:30:56,399

our thoughts and ideas on what uaps may

651
00:31:02,029 --> 00:30:59,220
be we often talk about Louis and I on

652
00:31:03,950 --> 00:31:02,039
the podcast that you know it may be all

653
00:31:04,990 --> 00:31:03,960
the possibilities it may be that it's

654
00:31:08,210 --> 00:31:05,000
extraterrestrial that's

655
00:31:09,889 --> 00:31:08,220
inter-dimensional extra-term pastoral

656
00:31:11,510 --> 00:31:09,899
um that it's a variety of different

657
00:31:14,090 --> 00:31:11,520
things that's all happening at once

658
00:31:17,450 --> 00:31:14,100
that's why disclosure is so hard to

659
00:31:19,430 --> 00:31:17,460
do because it's complex it's frightening

660
00:31:21,230 --> 00:31:19,440
because there's you know the universe is

661
00:31:24,350 --> 00:31:21,240
the universe whatever its nature is

662
00:31:27,409 --> 00:31:24,360
we're still discovering that right so I

663
00:31:28,970 --> 00:31:27,419

you know again with your books

664

00:31:31,130 --> 00:31:28,980

um Dimensions was a good one

665

00:31:33,110 --> 00:31:31,140

confrontations which of course I read uh

666

00:31:35,470 --> 00:31:33,120

passport to I always mess this up

667

00:31:37,570 --> 00:31:35,480

Magnolia right

668

00:31:39,950 --> 00:31:37,580

yeah

669

00:31:42,889 --> 00:31:39,960

it's I don't know why I'm stuck with

670

00:31:44,330 --> 00:31:42,899

words uh but uh yeah no we've written it

671

00:31:46,690 --> 00:31:44,340

in French you'd have been good

672

00:31:51,710 --> 00:31:46,700

yeah

673

00:31:56,110 --> 00:31:51,720

Magonia was in the Middle Ages the realm

674

00:31:58,549 --> 00:31:56,120

uh above the clouds where there were

675

00:32:01,070 --> 00:31:58,559

there were things happening you know of

676

00:32:05,389 --> 00:32:01,080

course the angels are above the cloud

677

00:32:08,389 --> 00:32:05,399

and Sorcerers were building

678

00:32:13,490 --> 00:32:08,399

ships to sail above the clouds you know

679

00:32:14,870 --> 00:32:13,500

and uh so the uh there were stories

680

00:32:18,470 --> 00:32:14,880

about

681

00:32:21,409 --> 00:32:18,480

um entities or humanoids from above the

682

00:32:25,190 --> 00:32:21,419

clouds and came down in Cloud ships and

683

00:32:27,950 --> 00:32:25,200

were seen and they came from Magonia

684

00:32:30,470 --> 00:32:27,960

when it comes down for um because this

685

00:32:33,169 --> 00:32:30,480

podcast we educate a lot of new people

686

00:32:35,090 --> 00:32:33,179

that are new to the subject on uaps

687

00:32:36,710 --> 00:32:35,100

because as we're discovering and we're

688

00:32:40,250 --> 00:32:36,720

learning from people like yourself sir

689

00:32:42,169 --> 00:32:40,260

they're learning as well so for the new

690

00:32:43,610 --> 00:32:42,179

ufologists the new people that are

691

00:32:46,909 --> 00:32:43,620

getting involved

692

00:32:50,630 --> 00:32:46,919

um would you have any advice on how to

693

00:32:52,430 --> 00:32:50,640

proceed about this in a manner that is

694

00:32:54,409 --> 00:32:52,440

the way that you've presented it you

695

00:32:57,649 --> 00:32:54,419

know scientific and keep logical because

696

00:32:59,870 --> 00:32:57,659

I fell for many many hoax I'm not going

697

00:33:01,130 --> 00:32:59,880

to lie to you I fell for many videos and

698

00:33:02,690 --> 00:33:01,140

stuff like that and I always think you

699

00:33:05,870 --> 00:33:02,700

know what Jack Valley would have fallen

700

00:33:08,630 --> 00:33:05,880

for those uh how do you proceed and what

701
00:33:10,610 --> 00:33:08,640
what's your advice on not on just

702
00:33:13,070 --> 00:33:10,620
keeping your head above the water when

703
00:33:16,490 --> 00:33:13,080
it comes down to this subject

704
00:33:19,250 --> 00:33:16,500
um I I one advice I would give to the

705
00:33:23,210 --> 00:33:19,260
extent that I'm you know allowed to give

706
00:33:25,250 --> 00:33:23,220
advice is the suspend judgment you know

707
00:33:27,769 --> 00:33:25,260
don't don't say well this guy was

708
00:33:32,149 --> 00:33:27,779
obviously crazy because maybe he wasn't

709
00:33:34,610 --> 00:33:32,159
crazy uh and uh or you know this is

710
00:33:37,669 --> 00:33:34,620
obviously a balloon well maybe it wasn't

711
00:33:39,730 --> 00:33:37,679
developed you know so you have to really

712
00:33:44,450 --> 00:33:39,740
consider everything

713
00:33:47,149 --> 00:33:44,460

uh the the basis as uh Dr heineck taught

714

00:33:50,570 --> 00:33:47,159

me is the witness

715

00:33:53,389 --> 00:33:50,580

you know you have to go there and you

716

00:33:57,730 --> 00:33:53,399

have to to meet the witness or the

717

00:34:02,870 --> 00:33:57,740

witnesses uh including the children

718

00:34:06,710 --> 00:34:02,880

and listen to what they tell you and and

719

00:34:08,770 --> 00:34:06,720

you have to gain their trust because

720

00:34:11,829 --> 00:34:08,780

you know there is this great

721

00:34:15,589 --> 00:34:11,839

misunderstanding among scientists even

722

00:34:17,750 --> 00:34:15,599

that when somebody reports something

723

00:34:20,149 --> 00:34:17,760

they are going to give you the complete

724

00:34:23,450 --> 00:34:20,159

truth and so on you because you are

725

00:34:27,470 --> 00:34:23,460

after all you can sit there you know and

726

00:34:29,329 --> 00:34:27,480

as a judge and you know these Ordinary

727

00:34:31,369 --> 00:34:29,339

People are going to tell you what

728

00:34:32,930 --> 00:34:31,379

they've seen and you're going to ask

729

00:34:35,750 --> 00:34:32,940

them questions and they're going to

730

00:34:39,109 --> 00:34:35,760

answer those questions truthfully well

731

00:34:41,869 --> 00:34:39,119

that's not true uh that's not true

732

00:34:45,950 --> 00:34:41,879

because you know uh the farmer meeting

733

00:34:49,010 --> 00:34:45,960

an astronomer the farmer you know maybe

734

00:34:51,649 --> 00:34:49,020

just as smart as the astronomer I mean

735

00:34:53,629 --> 00:34:51,659

if farmers were not dressed as smart as

736

00:34:55,690 --> 00:34:53,639

astronomers we wouldn't have anything to

737

00:35:00,109 --> 00:34:55,700

eat you know so

738

00:35:03,109 --> 00:35:00,119

the when when people it's a it's a

739

00:35:04,630 --> 00:35:03,119

meeting that has to be

740

00:35:08,210 --> 00:35:04,640

um

741

00:35:12,829 --> 00:35:08,220

you you must gain the trust I I think

742

00:35:14,990 --> 00:35:12,839

trust is the coin of the realm here

743

00:35:17,230 --> 00:35:15,000

um you know I remember a case in

744

00:35:20,810 --> 00:35:17,240

Northern California it had been studied

745

00:35:23,329 --> 00:35:20,820

by by ushu people and they published the

746

00:35:24,910 --> 00:35:23,339

story that uh you know this family

747

00:35:29,810 --> 00:35:24,920

essentially

748

00:35:33,770 --> 00:35:29,820

an older couple had a uh a piece of

749

00:35:37,569 --> 00:35:33,780

property in a beautiful area up close to

750

00:35:41,329 --> 00:35:37,579

the Oregon border near the Klamath River

751

00:35:43,310 --> 00:35:41,339

and uh that's a seven hour drive from

752

00:35:47,930 --> 00:35:43,320

San Francisco you know it's not uh

753

00:35:51,170 --> 00:35:47,940

California is is huge as you know so

754

00:35:54,829 --> 00:35:51,180

um what they had seen was something that

755

00:35:59,390 --> 00:35:54,839

uh landed on their land on their uh

756

00:36:03,490 --> 00:35:59,400

their their little little ranch and uh

757

00:36:07,250 --> 00:36:03,500

then when it took off it took off uh

758

00:36:08,329 --> 00:36:07,260

straight up into the sky

759

00:36:11,390 --> 00:36:08,339

um

760

00:36:17,810 --> 00:36:11,400

well uh

761

00:36:19,930 --> 00:36:17,820

I went there and I I met this couple uh

762

00:36:23,870 --> 00:36:19,940

it turned out the the wife

763

00:36:27,230 --> 00:36:23,880

had French ancestry so she'd like to

764

00:36:30,349 --> 00:36:27,240

talk about France so so that was that

765

00:36:31,910 --> 00:36:30,359

was fun and we sat in there they they

766

00:36:34,609 --> 00:36:31,920

lived in a trailer

767

00:36:37,430 --> 00:36:34,619

so we sat in in the trailer and they

768

00:36:39,430 --> 00:36:37,440

gave me a cup of coffee and we we spoke

769

00:36:42,829 --> 00:36:39,440

for a couple of hours

770

00:36:46,069 --> 00:36:42,839

uh well

771

00:36:49,790 --> 00:36:46,079

um once we had and I asked them about

772

00:36:52,730 --> 00:36:49,800

their health I asked them about you know

773

00:36:54,650 --> 00:36:52,740

their dog how the dog had reacted to

774

00:36:56,930 --> 00:36:54,660

this thing being there they showed me

775

00:37:04,670 --> 00:36:56,940

where it took place

776

00:37:05,930 --> 00:37:04,680

uh you know there were trees around

777

00:37:09,410 --> 00:37:05,940

and

778

00:37:12,050 --> 00:37:09,420

the ufologists had said the thing took

779

00:37:14,390 --> 00:37:12,060

off you know in a certain direction and

780

00:37:15,349 --> 00:37:14,400

then if if it did that

781

00:37:17,630 --> 00:37:15,359

um

782

00:37:20,270 --> 00:37:17,640

it uh you know it would have gone

783

00:37:23,210 --> 00:37:20,280

through the trees

784

00:37:24,589 --> 00:37:23,220

well they said that well you know it

785

00:37:27,650 --> 00:37:24,599

kind of

786

00:37:29,569 --> 00:37:27,660

flew through the trees

787

00:37:31,310 --> 00:37:29,579

well

788

00:37:34,390 --> 00:37:31,320

now we're talking about something

789

00:37:37,670 --> 00:37:34,400

different right we're not talking about

790

00:37:39,589 --> 00:37:37,680

some Advanced you know spacecraft the

791

00:37:42,410 --> 00:37:39,599

way we think of spacecraft

792

00:37:46,630 --> 00:37:42,420

we're talking about something that can

793

00:37:50,810 --> 00:37:46,640

change shapes it can manipulate matter

794

00:37:53,270 --> 00:37:50,820

uh and manipulate space and time and of

795

00:37:55,310 --> 00:37:53,280

course you know scientists have thought

796

00:37:58,370 --> 00:37:55,320

about that

797

00:38:03,589 --> 00:37:58,380

um about what what forms of of matter

798

00:38:08,569 --> 00:38:03,599

you know plasma can can go through solid

799

00:38:12,770 --> 00:38:08,579

solid things for uh and what happens

800

00:38:15,849 --> 00:38:12,780

when you do that but the the report if

801
00:38:19,970 --> 00:38:15,859
you just go by the report was published

802
00:38:22,970 --> 00:38:19,980
uh the the the object just went up into

803
00:38:25,670 --> 00:38:22,980
the sky well it didn't go up into the

804
00:38:29,030 --> 00:38:25,680
sky and the only reason they told me

805
00:38:31,970 --> 00:38:29,040
that was that they knew by then that I

806
00:38:34,190 --> 00:38:31,980
wasn't going to ridicule them that I was

807
00:38:36,770 --> 00:38:34,200
going to take that seriously that I was

808
00:38:39,410 --> 00:38:36,780
you know that I really wanted to learn

809
00:38:42,770 --> 00:38:39,420
from them I wasn't there to tell them

810
00:38:46,609 --> 00:38:42,780
what I had seen I was there to add you

811
00:38:48,770 --> 00:38:46,619
know another data point to the overall

812
00:38:52,790 --> 00:38:48,780
database

813
00:38:55,370 --> 00:38:52,800

and when you do that then interesting

814

00:38:58,970 --> 00:38:55,380

things happen like you know in in

815

00:38:59,890 --> 00:38:58,980

Trinity which as as you know which I

816

00:39:07,609 --> 00:38:59,900

just

817

00:39:09,170 --> 00:39:07,619

Trinity in a new edition because we

818

00:39:10,910 --> 00:39:09,180

found new things

819

00:39:11,270 --> 00:39:10,920

and

820

00:39:12,109 --> 00:39:11,280

[Music]

821

00:39:14,990 --> 00:39:12,119

um

822

00:39:18,950 --> 00:39:15,000

people have said well Trinity you know

823

00:39:21,589 --> 00:39:18,960

two kids have seen this crash and yeah

824

00:39:23,750 --> 00:39:21,599

they were there for 10 days so this is

825

00:39:26,450 --> 00:39:23,760

you know in a way this is better than

826

00:39:30,410 --> 00:39:26,460

Roswell because they saw the thing alive

827

00:39:34,370 --> 00:39:30,420

the thing you know left traces in the

828

00:39:37,370 --> 00:39:34,380

ground on their property uh we have the

829

00:39:39,829 --> 00:39:37,380

testimony of a pilot who saw it at the

830

00:39:41,750 --> 00:39:39,839

same time so we have the pirate and we

831

00:39:44,150 --> 00:39:41,760

have the two you know you know in the

832

00:39:48,170 --> 00:39:44,160

air and the two kids on the ground and

833

00:39:51,710 --> 00:39:48,180

we have a complete scene there of the uh

834

00:39:55,190 --> 00:39:51,720

of the the arrival of that and then the

835

00:39:57,710 --> 00:39:55,200

the Army took 10 days to recover it and

836

00:40:00,829 --> 00:39:57,720

we know it must have waited you know

837

00:40:04,010 --> 00:40:00,839

between two and five tons so this is not

838

00:40:06,230 --> 00:40:04,020

just hopes that somebody invented but

839

00:40:08,930 --> 00:40:06,240

you know people I said how can you trust

840

00:40:09,890 --> 00:40:08,940

two kids I mean seven-year-old and a

841

00:40:12,950 --> 00:40:09,900

nine-year-old

842

00:40:16,370 --> 00:40:12,960

well number one you know those kids were

843

00:40:19,370 --> 00:40:16,380

very bright yeah this was the end of the

844

00:40:22,190 --> 00:40:19,380

war when the kids were in charge of the

845

00:40:24,829 --> 00:40:22,200

ranch because all the adults were out at

846

00:40:27,829 --> 00:40:24,839

war in the Pacific or in Europe and

847

00:40:30,770 --> 00:40:27,839

Germany and so on uh this was one month

848

00:40:34,790 --> 00:40:30,780

after the first bulb the first tattoo

849

00:40:37,910 --> 00:40:34,800

ball 20 miles from the first atom ball

850

00:40:40,210 --> 00:40:37,920

is that a coincidence I mean all of that

851
00:40:42,589 --> 00:40:40,220
happening together in one place

852
00:40:45,170 --> 00:40:42,599
this doesn't take anything out of

853
00:40:48,170 --> 00:40:45,180
raspberry I've been attacked by saying

854
00:40:51,109 --> 00:40:48,180
well you know you want to uh attack

855
00:40:53,089 --> 00:40:51,119
Roswell well this supports rise well

856
00:40:55,370 --> 00:40:53,099
yeah because there are a lot of

857
00:40:59,450 --> 00:40:55,380
questions about was well there was no

858
00:41:02,030 --> 00:40:59,460
witness that was man you know so here we

859
00:41:04,490 --> 00:41:02,040
have three people seeing the thing

860
00:41:06,670 --> 00:41:04,500
arrive and two of them are on the ground

861
00:41:09,829 --> 00:41:06,680
ready to

862
00:41:12,530 --> 00:41:09,839
go to the object and see if they could

863
00:41:14,990 --> 00:41:12,540

help this is at the time when there were

864

00:41:18,349 --> 00:41:15,000

no UFOs the term hadn't been invented

865

00:41:20,390 --> 00:41:18,359

there was no Air Force there was no CIA

866

00:41:23,150 --> 00:41:20,400

you know the Air Force is going to be

867

00:41:26,750 --> 00:41:23,160

established by Truman two years later in

868

00:41:29,510 --> 00:41:26,760

1947 the term Flying Saucer has not been

869

00:41:33,290 --> 00:41:29,520

invented it will be invented by Kenneth

870

00:41:35,810 --> 00:41:33,300

Arnold in 1947 you know there is no

871

00:41:38,210 --> 00:41:35,820

knowledge of any of that the kids think

872

00:41:40,370 --> 00:41:38,220

that it's an accident of an aircraft

873

00:41:43,130 --> 00:41:40,380

they are the first ones on the scene

874

00:41:45,589 --> 00:41:43,140

they know they are supposed to help and

875

00:41:48,349 --> 00:41:45,599

what they see is you know something

876

00:41:51,530 --> 00:41:48,359

that's completely out of anything they

877

00:41:54,050 --> 00:41:51,540

can imagine it's around oval they call

878

00:41:58,690 --> 00:41:54,060

it an avocado of course everybody was

879

00:42:02,690 --> 00:41:58,700

speaking Spanish right uh and

880

00:42:05,870 --> 00:42:02,700

they see three little creatures about

881

00:42:10,010 --> 00:42:05,880

their same size as with kids about three

882

00:42:12,410 --> 00:42:10,020

three feet tall they breathe out air

883

00:42:15,589 --> 00:42:12,420

they are not like the alien on the cover

884

00:42:19,190 --> 00:42:15,599

of communion they are not like you know

885

00:42:20,390 --> 00:42:19,200

the the aliens of Hollywood they are the

886

00:42:23,170 --> 00:42:20,400

humanoid

887

00:42:26,270 --> 00:42:23,180

with some

888

00:42:30,170 --> 00:42:26,280

gestures or behavior that suggests an

889

00:42:33,349 --> 00:42:30,180

insect you know so the the kids don't

890

00:42:36,290 --> 00:42:33,359

quite know what words to use but mostly

891

00:42:37,430 --> 00:42:36,300

they call them little men right and Okay

892

00:42:39,589 --> 00:42:37,440

so

893

00:42:41,210 --> 00:42:39,599

and you mentioned as well sir that they

894

00:42:43,430 --> 00:42:41,220

they were squealing sort of like

895

00:42:45,650 --> 00:42:43,440

jackrabbits because they seemed to be

896

00:42:47,569 --> 00:42:45,660

injured uh that's what the kids have

897

00:42:51,349 --> 00:42:47,579

noticed yeah yes

898

00:42:56,210 --> 00:42:51,359

uh and uh you know those kids are

899

00:42:58,970 --> 00:42:56,220

growing up on the ranch on the farm uh

900

00:43:01,490 --> 00:42:58,980

they they they've seen animals being

901
00:43:03,550 --> 00:43:01,500
butchered they've seen they're familiar

902
00:43:06,130 --> 00:43:03,560
with with all of that

903
00:43:10,730 --> 00:43:06,140
so the

904
00:43:13,970 --> 00:43:10,740
they uh tell us that story and the

905
00:43:17,750 --> 00:43:13,980
question is again here into the

906
00:43:19,910 --> 00:43:17,760
information scientists coming in

907
00:43:22,970 --> 00:43:19,920
um I look for patterns

908
00:43:26,690 --> 00:43:22,980
it turns out there are two other cases

909
00:43:29,530 --> 00:43:26,700
well-known that have been studied not by

910
00:43:33,349 --> 00:43:29,540
ufologists but have been studied by

911
00:43:34,270 --> 00:43:33,359
States you know one in France and one in

912
00:43:37,910 --> 00:43:34,280
the US

913
00:43:42,170 --> 00:43:37,920

the Socorro case

914

00:43:43,130 --> 00:43:42,180

then the Valentine case of 1965 in in

915

00:43:46,790 --> 00:43:43,140

France

916

00:43:50,270 --> 00:43:46,800

well in both of those cases there is no

917

00:43:52,910 --> 00:43:50,280

finer also the object is x-shaped the

918

00:43:55,970 --> 00:43:52,920

kids called it an avocado

919

00:43:57,970 --> 00:43:55,980

in Spanish but it's essentially a

920

00:44:01,970 --> 00:43:57,980

flattened egg

921

00:44:03,950 --> 00:44:01,980

the size of two trucks

922

00:44:07,910 --> 00:44:03,960

extremely strong

923

00:44:10,970 --> 00:44:07,920

but you find uh something like that in

924

00:44:14,569 --> 00:44:10,980

Socorro so-call wasn't a flying saucer

925

00:44:17,150 --> 00:44:14,579

it was a flying egg that landed on a

926

00:44:20,030 --> 00:44:17,160

very sophisticated landing gear with

927

00:44:23,210 --> 00:44:20,040

four legs in the part of the desert but

928

00:44:24,670 --> 00:44:23,220

I've I've gone several times I had the

929

00:44:30,670 --> 00:44:24,680

pleasure of taking

930

00:44:33,770 --> 00:44:30,680

Dr heinek's son there recently you know

931

00:44:37,130 --> 00:44:33,780

the site hasn't changed very much it's

932

00:44:38,589 --> 00:44:37,140

it's sort of a a piece of land that's

933

00:44:42,170 --> 00:44:38,599

left alone

934

00:44:46,490 --> 00:44:42,180

so it you know just a little a few

935

00:44:48,230 --> 00:44:46,500

Cactus and a few small plants and you

936

00:44:49,450 --> 00:44:48,240

can still see the place where the thing

937

00:44:52,550 --> 00:44:49,460

landed

938

00:44:54,950 --> 00:44:52,560

and of course valence all in France I'm

939

00:44:56,170 --> 00:44:54,960

very familiar with it I've gone there a

940

00:44:59,750 --> 00:44:56,180

couple of times

941

00:45:03,890 --> 00:44:59,760

I've spoken to the the main witness into

942

00:45:08,390 --> 00:45:03,900

other Witnesses who have never gone from

943

00:45:10,970 --> 00:45:08,400

forward with their testimony officially

944

00:45:12,829 --> 00:45:10,980

no sir we're not too familiar with that

945

00:45:16,730 --> 00:45:12,839

case do you mind just brushing us up a

946

00:45:19,069 --> 00:45:16,740

little bit on on what that was yes uh in

947

00:45:24,109 --> 00:45:19,079

that in Saul

948

00:45:26,870 --> 00:45:24,119

um the the witness is a a prominent uh

949

00:45:30,349 --> 00:45:26,880

Farmer in the area known several

950

00:45:33,650 --> 00:45:30,359

properties around valenzo is in a very

951
00:45:34,990 --> 00:45:33,660
beautiful area uh in the midi you know

952
00:45:40,609 --> 00:45:35,000
of France

953
00:45:46,930 --> 00:45:43,510
um on a it's a plateau

954
00:45:51,530 --> 00:45:46,940
where there are a number of crops uh

955
00:45:54,309 --> 00:45:51,540
grapes uh different cereals and lavender

956
00:45:57,290 --> 00:45:54,319
plants so it's a very beautiful

957
00:45:59,650 --> 00:45:57,300
landscape this is our first of August

958
00:46:03,910 --> 00:45:59,660
1965.

959
00:46:07,370 --> 00:46:03,920
he goes to his field to water the plants

960
00:46:09,470 --> 00:46:07,380
before the Sun is up so he's there at

961
00:46:11,930 --> 00:46:09,480
five o'clock in the morning because it's

962
00:46:14,390 --> 00:46:11,940
going to get very hot you know the south

963
00:46:17,870 --> 00:46:14,400

of France is very hot especially in

964

00:46:21,650 --> 00:46:17,880

August I mean they just had you know a

965

00:46:25,370 --> 00:46:21,660

big Heat Wave there uh you know last

966

00:46:28,430 --> 00:46:25,380

month the so he he goes there to take

967

00:46:32,270 --> 00:46:28,440

care of and he sees

968

00:46:33,829 --> 00:46:32,280

um an egg-shaped object in the in the

969

00:46:35,990 --> 00:46:33,839

field

970

00:46:38,089 --> 00:46:36,000

and where it shouldn't be because it's

971

00:46:40,849 --> 00:46:38,099

going to damage some plants okay so

972

00:46:42,770 --> 00:46:40,859

reflexes of the French farmer you know

973

00:46:45,050 --> 00:46:42,780

who are these guys who are landing on my

974

00:46:48,770 --> 00:46:45,060

property he thinks it must be some sort

975

00:46:52,670 --> 00:46:48,780

of helicopter but he creeps up to it

976
00:46:55,550 --> 00:46:52,680
through another field where he thinks

977
00:46:56,569 --> 00:46:55,560
he's he can do it you know without being

978
00:47:00,530 --> 00:46:56,579
noticed

979
00:47:04,010 --> 00:47:00,540
and he comes out within something like

980
00:47:06,589 --> 00:47:04,020
50 sheets of the 50 meters of that

981
00:47:08,390 --> 00:47:06,599
object and he sees it's not a helicopter

982
00:47:11,329 --> 00:47:08,400
for one thing it doesn't have a

983
00:47:14,510 --> 00:47:11,339
propeller uh it's sitting on a small

984
00:47:17,290 --> 00:47:14,520
landing gear and it's x-shaped and there

985
00:47:24,230 --> 00:47:21,250
humans short humans

986
00:47:27,770 --> 00:47:24,240
like the ones

987
00:47:31,690 --> 00:47:27,780
at Trinity there are about three feet

988
00:47:35,290 --> 00:47:31,700

tall they breed our air they don't have

989

00:47:38,150 --> 00:47:35,300

you know a helmet or breathing equipment

990

00:47:41,290 --> 00:47:38,160

and they are looking at it

991

00:47:45,950 --> 00:47:41,300

they have some sort of uniform

992

00:47:49,130 --> 00:47:45,960

and as he goes closer again trying to

993

00:47:51,770 --> 00:47:49,140

engage them I mean this is remedy so

994

00:47:54,950 --> 00:47:51,780

people will talk to strangers okay this

995

00:47:57,829 --> 00:47:54,960

is an open area and he's on his land you

996

00:48:00,829 --> 00:47:57,839

know so he wants to know what they are

997

00:48:03,470 --> 00:48:00,839

doing there so he's walking towards them

998

00:48:05,450 --> 00:48:03,480

he's not afraid he's not somebody who is

999

00:48:07,490 --> 00:48:05,460

likely to be afraid of very much because

1000

00:48:10,069 --> 00:48:07,500

he was one of the leaders of the

1001

00:48:12,770 --> 00:48:10,079

resistance during World War II in the

1002

00:48:16,069 --> 00:48:12,780

area so he knows his territory very well

1003

00:48:18,589 --> 00:48:16,079

the John Downs later when they uh

1004

00:48:22,250 --> 00:48:18,599

interrogate him are going to be very

1005

00:48:26,510 --> 00:48:22,260

very respectful of him because he's uh

1006

00:48:30,109 --> 00:48:26,520

his his wife is the mayor of the town

1007

00:48:34,309 --> 00:48:30,119

um so this is this is serious and

1008

00:48:36,410 --> 00:48:34,319

the one of the small guys uh take

1009

00:48:39,710 --> 00:48:36,420

something from his belt

1010

00:48:43,670 --> 00:48:39,720

and puts him at him and he's paralyzed

1011

00:48:46,130 --> 00:48:43,680

now I I asked various doctors you know

1012

00:48:48,650 --> 00:48:46,140

about what kind of priorities is that

1013

00:48:52,250 --> 00:48:48,660

would be because he doesn't fall he's

1014

00:48:55,609 --> 00:48:52,260

still standing he can see he can think

1015

00:48:59,030 --> 00:48:55,619

he just cannot move his muscles

1016

00:48:59,770 --> 00:48:59,040

and he's going to remain paralyzed for a

1017

00:49:03,050 --> 00:48:59,780

while

1018

00:49:05,690 --> 00:49:03,060

they they look at him they do a couple

1019

00:49:09,530 --> 00:49:05,700

of things around and then they go back

1020

00:49:11,990 --> 00:49:09,540

into the object and the object itself it

1021

00:49:13,370 --> 00:49:12,000

takes out at an angle very fast and

1022

00:49:17,750 --> 00:49:13,380

vanishes

1023

00:49:21,230 --> 00:49:17,760

in midair okay it doesn't go away to the

1024

00:49:24,109 --> 00:49:21,240

to the Horizon to a point in the sky it

1025

00:49:24,829 --> 00:49:24,119

just vanishes immediate

1026

00:49:29,150 --> 00:49:24,839

um

1027

00:49:32,450 --> 00:49:29,160

he's left in his field paralyzed

1028

00:49:35,270 --> 00:49:32,460

for about 20 minutes and over 20 minutes

1029

00:49:38,089 --> 00:49:35,280

is going to regain he thought he was

1030

00:49:40,670 --> 00:49:38,099

going to die right there okay by then he

1031

00:49:43,370 --> 00:49:40,680

understands this is not a helicopter

1032

00:49:45,530 --> 00:49:43,380

that's not you know a new a new

1033

00:49:46,990 --> 00:49:45,540

invention of the French Air Force or

1034

00:49:50,390 --> 00:49:47,000

anything like that

1035

00:49:53,690 --> 00:49:50,400

but slowly he regains control of these

1036

00:49:57,230 --> 00:49:53,700

muscles and goes back to the town and

1037

00:49:59,270 --> 00:49:57,240

reports it to the to the police that

1038

00:50:02,210 --> 00:49:59,280

triggers a whole series of

1039

00:50:06,589 --> 00:50:02,220

Investigations by uh of course the

1040

00:50:08,569 --> 00:50:06,599

police the Anderson Armory take the the

1041

00:50:11,569 --> 00:50:08,579

testimony

1042

00:50:13,790 --> 00:50:11,579

he doesn't tell them everything again

1043

00:50:16,809 --> 00:50:13,800

there is a feeling which maybe is

1044

00:50:20,450 --> 00:50:16,819

special to the south of France

1045

00:50:22,069 --> 00:50:20,460

that there are some things and and you

1046

00:50:24,470 --> 00:50:22,079

find that in a number of witnesses

1047

00:50:27,170 --> 00:50:24,480

contrary to again to what many

1048

00:50:28,849 --> 00:50:27,180

scientists think that you know you're

1049

00:50:31,069 --> 00:50:28,859

before a scientist you're going to tell

1050

00:50:33,770 --> 00:50:31,079

him everything well that's not true and

1051
00:50:35,950 --> 00:50:33,780
even when you're with your doctor you

1052
00:50:38,990 --> 00:50:35,960
may not tell everything to your doctor

1053
00:50:41,690 --> 00:50:39,000
uh it the conditions have to be right

1054
00:50:44,210 --> 00:50:41,700
and there has to be a lot of trust to

1055
00:50:49,089 --> 00:50:44,220
talk about intimate things this was

1056
00:50:51,950 --> 00:50:49,099
intimate to him because he now wants to

1057
00:50:55,130 --> 00:50:51,960
understand by himself

1058
00:50:57,470 --> 00:50:55,140
you know what what this is he wants to

1059
00:51:00,470 --> 00:50:57,480
see if it's going to happen again in

1060
00:51:03,349 --> 00:51:00,480
fact it will happen again and he's not

1061
00:51:06,410 --> 00:51:03,359
going to report it the second time

1062
00:51:09,170 --> 00:51:06,420
I know that because I I was there with

1063
00:51:11,750 --> 00:51:09,180

someone who has a house there who knows

1064

00:51:16,609 --> 00:51:11,760

the town very well and is well respected

1065

00:51:19,670 --> 00:51:16,619

in the community and who knew about the

1066

00:51:22,190 --> 00:51:19,680

other Witnesses and we could gain his

1067

00:51:23,809 --> 00:51:22,200

trust and there are some things but he

1068

00:51:27,309 --> 00:51:23,819

asked us not to

1069

00:51:30,109 --> 00:51:27,319

the published and we never published

1070

00:51:33,109 --> 00:51:30,119

but the

1071

00:51:35,390 --> 00:51:33,119

the the investigation by the gender

1072

00:51:37,849 --> 00:51:35,400

Murray and the police is going to

1073

00:51:40,190 --> 00:51:37,859

trigger other things the French Air

1074

00:51:41,630 --> 00:51:40,200

Force is going to come the French

1075

00:51:43,790 --> 00:51:41,640

customs

1076

00:51:46,130 --> 00:51:43,800

French intelligence

1077

00:51:48,589 --> 00:51:46,140

are going to come so it's going to be

1078

00:51:52,910 --> 00:51:48,599

interviewed by five different agencies

1079

00:51:55,849 --> 00:51:52,920

of the state okay so this is not the U.S

1080

00:51:58,569 --> 00:51:55,859

just the ordinary UFO story

1081

00:52:02,329 --> 00:51:58,579

in socovolution remember

1082

00:52:05,390 --> 00:52:02,339

lonely Zamora the officer Zamora is

1083

00:52:07,670 --> 00:52:05,400

going to be interrogated by first his

1084

00:52:10,790 --> 00:52:07,680

colleagues at the local police

1085

00:52:11,470 --> 00:52:10,800

department but that's going to trigger

1086

00:52:13,910 --> 00:52:11,480

um

1087

00:52:16,190 --> 00:52:13,920

investigations by other people they

1088

00:52:19,190 --> 00:52:16,200

there are three people from the FBI who

1089

00:52:21,710 --> 00:52:19,200

are in town who help in securing the

1090

00:52:23,750 --> 00:52:21,720

area they don't really help in the

1091

00:52:27,730 --> 00:52:23,760

investigation because they don't have

1092

00:52:31,370 --> 00:52:27,740

any uh you know any justification for

1093

00:52:35,809 --> 00:52:31,380

this is not a federal case this is this

1094

00:52:38,270 --> 00:52:35,819

is purely New Mexico police case but the

1095

00:52:41,390 --> 00:52:38,280

Air Force is of course it's reported to

1096

00:52:45,470 --> 00:52:41,400

Project Blue Book Project we're looking

1097

00:52:47,150 --> 00:52:45,480

like detail the story in in Trinity uh

1098

00:52:49,609 --> 00:52:47,160

project where books is going to send to

1099

00:52:52,490 --> 00:52:49,619

officers there they don't do a very good

1100

00:52:54,010 --> 00:52:52,500

job they antagonize everybody including

1101
00:52:58,190 --> 00:52:54,020
the police

1102
00:53:00,250 --> 00:52:58,200
but then white sense is going to send

1103
00:53:04,790 --> 00:53:00,260
somebody because they think it could be

1104
00:53:08,990 --> 00:53:04,800
one of their devices that has gone off

1105
00:53:11,690 --> 00:53:09,000
the reservation and it turns out very

1106
00:53:14,990 --> 00:53:11,700
quickly that has nothing to do with any

1107
00:53:17,230 --> 00:53:15,000
of the experiments going on inside White

1108
00:53:20,809 --> 00:53:17,240
Sands so

1109
00:53:23,109 --> 00:53:20,819
we have an abundance of observation

1110
00:53:29,870 --> 00:53:23,119
including material

1111
00:53:32,990 --> 00:53:29,880
the site so it's a very very rich

1112
00:53:36,109 --> 00:53:33,000
very rich story and some of the things

1113
00:53:39,470 --> 00:53:36,119

that I discovered and published here

1114

00:53:42,710 --> 00:53:39,480

have never been published before you

1115

00:53:46,549 --> 00:53:42,720

know and I think they they bring another

1116

00:53:49,069 --> 00:53:46,559

level of of clarity to the to the

1117

00:53:52,210 --> 00:53:49,079

Sapporo case that wasn't there before

1118

00:53:54,890 --> 00:53:52,220

it's certainly not a hoax

1119

00:53:58,730 --> 00:53:54,900

and there were things that happened

1120

00:54:03,049 --> 00:53:58,740

after all of this over white inside

1121

00:54:07,130 --> 00:54:03,059

White Sands where a car of a of an

1122

00:54:11,450 --> 00:54:07,140

officer than his family was stopped by

1123

00:54:14,270 --> 00:54:11,460

the light from an object that seems to

1124

00:54:16,790 --> 00:54:14,280

have been in this Coral object that flew

1125

00:54:19,069 --> 00:54:16,800

up exactly in that direction so this

1126

00:54:21,770 --> 00:54:19,079

happens a couple of hours later the

1127

00:54:25,089 --> 00:54:21,780

object is over the mountains over the

1128

00:54:27,250 --> 00:54:25,099

range uh that overlooks the

1129

00:54:30,530 --> 00:54:27,260

White Sands

1130

00:54:32,630 --> 00:54:30,540

military area so they that that

1131

00:54:38,150 --> 00:54:32,640

observation is hasn't been published

1132

00:54:40,910 --> 00:54:38,160

before and so again uh the creatures are

1133

00:54:44,089 --> 00:54:40,920

the same it's not a flying salsa there

1134

00:54:46,670 --> 00:54:44,099

is no flying salsa in the book it's uh

1135

00:54:50,150 --> 00:54:46,680

always an egg-shaped object with

1136

00:54:53,510 --> 00:54:50,160

extraordinary production properties that

1137

00:54:56,829 --> 00:54:53,520

that has you know the ability to move

1138

00:55:01,190 --> 00:54:56,839

without making a noise

1139

00:55:03,530 --> 00:55:01,200

uh and the creatures are the same they

1140

00:55:05,809 --> 00:55:03,540

are described in the same way they

1141

00:55:08,750 --> 00:55:05,819

breathe our air and they are essentially

1142

00:55:09,650 --> 00:55:08,760

three feet tall right and you mentioned

1143

00:55:13,849 --> 00:55:09,660

that

1144

00:55:16,430 --> 00:55:13,859

um after the two boys stole the Tesoro

1145

00:55:19,730 --> 00:55:16,440

the treasure I hope I'm pronouncing that

1146

00:55:22,190 --> 00:55:19,740

correctly uh and he hit it under the uh

1147

00:55:24,049 --> 00:55:22,200

Ranch hands house underneath the

1148

00:55:25,970 --> 00:55:24,059

floorboards and he wakes up in the

1149

00:55:27,950 --> 00:55:25,980

middle of the night and there's three

1150

00:55:29,630 --> 00:55:27,960

little entities in his room asking them

1151
00:55:32,150 --> 00:55:29,640
for the treasure and he's like what the

1152
00:55:33,829 --> 00:55:32,160
heck are you talking about uh that's

1153
00:55:35,569 --> 00:55:33,839
crazy that's that's something out of

1154
00:55:37,490 --> 00:55:35,579
like a movie or something you can't make

1155
00:55:40,130 --> 00:55:37,500
that stuff up that's you cannot make

1156
00:55:44,329 --> 00:55:40,140
that up no did he quit shortly after

1157
00:55:47,450 --> 00:55:44,339
that or did he he said Senor of course

1158
00:55:51,290 --> 00:55:47,460
speak Spanish uh you know I I don't want

1159
00:55:53,630 --> 00:55:51,300
to sleep here anymore you know and I I

1160
00:55:56,930 --> 00:55:53,640
don't want to to work on this Ranch

1161
00:55:59,809 --> 00:55:56,940
anymore well you can only get paid so

1162
00:56:01,490 --> 00:55:59,819
much to get abducted after a while I'm

1163
00:56:04,549 --> 00:56:01,500

out I think I don't need money that bad

1164

00:56:06,829 --> 00:56:04,559

I'm good yeah you know you you bring up

1165

00:56:10,370 --> 00:56:06,839

something important here I think the

1166

00:56:13,670 --> 00:56:10,380

reason is that he probably thought that

1167

00:56:17,390 --> 00:56:13,680

what he had seen was from the devil yeah

1168

00:56:21,950 --> 00:56:17,400

it reminds me it reminds me that Dr

1169

00:56:24,370 --> 00:56:21,960

heinek told me when he asked Lonnie

1170

00:56:28,569 --> 00:56:24,380

Zamora officers

1171

00:56:31,990 --> 00:56:28,579

uh you know to to give him his testimony

1172

00:56:35,690 --> 00:56:32,000

Zamora Zamora

1173

00:56:37,690 --> 00:56:35,700

didn't want to talk to heinet until he

1174

00:56:41,930 --> 00:56:37,700

had spoken to a priest

1175

00:56:44,930 --> 00:56:41,940

so he he went to see a priest to tell

1176

00:56:48,230 --> 00:56:44,940

him about what he had seen before he

1177

00:56:49,549 --> 00:56:48,240

would allow himself to be interviewed by

1178

00:56:51,470 --> 00:56:49,559

Dr Heinen

1179

00:56:53,930 --> 00:56:51,480

what are your thoughts on sort of the

1180

00:56:56,329 --> 00:56:53,940

religious or spiritual implications you

1181

00:56:59,030 --> 00:56:56,339

know throughout history have Angels

1182

00:57:00,589 --> 00:56:59,040

really been the same phenomenon just you

1183

00:57:02,450 --> 00:57:00,599

know described to the best of their

1184

00:57:04,490 --> 00:57:02,460

ability at their time I mean if you've

1185

00:57:07,069 --> 00:57:04,500

never seen a UFO you're not going to say

1186

00:57:10,069 --> 00:57:07,079

was a UFO you might say it was an egg or

1187

00:57:11,990 --> 00:57:10,079

you know an acorn or an avocado or

1188

00:57:14,510 --> 00:57:12,000

something so do you think there are

1189

00:57:17,089 --> 00:57:14,520

correlations between our sense of

1190

00:57:19,270 --> 00:57:17,099

spirituality things we've seen

1191

00:57:22,609 --> 00:57:19,280

um you know what's your Insight on that

1192

00:57:25,670 --> 00:57:22,619

in in many countries that's the first

1193

00:57:29,770 --> 00:57:25,680

thing that people may think about you

1194

00:57:37,730 --> 00:57:34,370

and this is so obviously different from

1195

00:57:40,309 --> 00:57:37,740

the ordinary reality and what they what

1196

00:57:43,430 --> 00:57:40,319

they've learned in school and so on that

1197

00:57:46,609 --> 00:57:43,440

it can only be uh something that they

1198

00:57:50,210 --> 00:57:46,619

would link to religion in some way now I

1199

00:57:51,770 --> 00:57:50,220

have no authority to speak on that on

1200

00:57:54,049 --> 00:57:51,780

that subject

1201
00:58:03,470 --> 00:57:54,059
the

1202
00:58:05,349 --> 00:58:03,480
know both both from a point of view of

1203
00:58:08,150 --> 00:58:05,359
uh

1204
00:58:09,890 --> 00:58:08,160
you know Christianity but also from the

1205
00:58:13,609 --> 00:58:09,900
point of view of other of other

1206
00:58:15,950 --> 00:58:13,619
religions uh the

1207
00:58:21,410 --> 00:58:15,960
uh you know

1208
00:58:27,170 --> 00:58:21,420
I I went to uh I I was I gave an address

1209
00:58:31,370 --> 00:58:27,180
to a financial meeting in Saudi Arabia a

1210
00:58:34,069 --> 00:58:31,380
few few years ago which was uh uh you

1211
00:58:36,250 --> 00:58:34,079
know a world meeting on technology and

1212
00:58:39,770 --> 00:58:36,260
investment

1213
00:58:43,510 --> 00:58:39,780

a little bit like the the the meetings

1214

00:58:46,309 --> 00:58:43,520

in Switzerland so there were a number of

1215

00:58:50,710 --> 00:58:46,319

dignitaries there and so on and there

1216

00:58:54,950 --> 00:58:50,720

was we had a a session about UFOs

1217

00:58:57,829 --> 00:58:54,960

that had been programmed just to inject

1218

00:58:59,930 --> 00:58:57,839

an idea about the technologies that were

1219

00:59:02,089 --> 00:58:59,940

at the frontier you know the things that

1220

00:59:03,589 --> 00:59:02,099

we still don't understand

1221

00:59:06,770 --> 00:59:03,599

so that triggered a number of

1222

00:59:07,490 --> 00:59:06,780

discussions with

1223

00:59:09,650 --> 00:59:07,500

um

1224

00:59:11,630 --> 00:59:09,660

people in Korea you know mostly

1225

00:59:14,930 --> 00:59:11,640

businessmen you have that businessmen

1226
00:59:17,210 --> 00:59:14,940
and entrepreneurs Financial people from

1227
00:59:20,809 --> 00:59:17,220
Saudi Arabia

1228
00:59:23,569 --> 00:59:20,819
who were you know very sophisticated in

1229
00:59:25,910 --> 00:59:23,579
in their fields and especially in

1230
00:59:28,390 --> 00:59:25,920
finance so and so they are obviously

1231
00:59:32,930 --> 00:59:28,400
interested in everything in the world

1232
00:59:37,789 --> 00:59:32,940
and they took me aside and one of them

1233
00:59:40,390 --> 00:59:37,799
actually became friendly with a young a

1234
00:59:43,370 --> 00:59:40,400
young man a young engineer

1235
00:59:45,650 --> 00:59:43,380
who had come to California I'd studied

1236
00:59:47,510 --> 00:59:45,660
in California and went back to his

1237
00:59:50,150 --> 00:59:47,520
country and

1238
00:59:52,069 --> 00:59:50,160

we were talking about that and I I said

1239

00:59:52,809 --> 00:59:52,079

but you know in

1240

00:59:56,150 --> 00:59:52,819

in

1241

00:59:59,270 --> 00:59:56,160

the Islamic tradition I mean you have

1242

01:00:01,490 --> 00:59:59,280

the gents you know the jinns come out of

1243

01:00:05,089 --> 01:00:01,500

nowhere and there they can be shot

1244

01:00:09,530 --> 01:00:05,099

appearance short people who do magical

1245

01:00:12,430 --> 01:00:09,540

things and manipulate things uh in in

1246

01:00:17,270 --> 01:00:12,440

the miraculous ways and

1247

01:00:21,650 --> 01:00:17,280

you had that in your old traditions

1248

01:00:24,890 --> 01:00:21,660

he says what all traditions

1249

01:00:28,490 --> 01:00:24,900

you know I mean the

1250

01:00:29,510 --> 01:00:28,500

what we're taught is that the Gen are

1251
01:00:33,069 --> 01:00:29,520
here now

1252
01:00:36,069 --> 01:00:33,079
yeah he told me a story from his family

1253
01:00:38,569 --> 01:00:36,079
and you know these are well-to-do people

1254
01:00:42,589 --> 01:00:38,579
well-educated people you know

1255
01:00:45,530 --> 01:00:42,599
sophisticated uh in technology uh his

1256
01:00:50,510 --> 01:00:45,540
father and his uncle had flown Jets you

1257
01:00:55,190 --> 01:00:50,520
know in Saudi Air Force you know and so

1258
01:00:59,170 --> 01:00:55,200
um he said that my house when they my

1259
01:01:04,910 --> 01:00:59,180
cousin wanted to uh

1260
01:01:08,089 --> 01:01:04,920
get some some water so from uh and he

1261
01:01:11,510 --> 01:01:08,099
there was a a recipient that was on the

1262
01:01:15,230 --> 01:01:11,520
stove uh that and he wanted to use the

1263
01:01:19,490 --> 01:01:15,240

stove to uh to heat his coffee or his

1264

01:01:22,190 --> 01:01:19,500

tea and he took the the recipients full

1265

01:01:24,710 --> 01:01:22,200

of hot water and emptied it out the door

1266

01:01:26,809 --> 01:01:24,720

you know in the yard

1267

01:01:29,809 --> 01:01:26,819

well of course what he didn't do was

1268

01:01:32,109 --> 01:01:29,819

that there was a gin there that was

1269

01:01:35,390 --> 01:01:32,119

invisible

1270

01:01:38,870 --> 01:01:35,400

but the you're not supposed to do this

1271

01:01:42,490 --> 01:01:38,880

you're you're supposed to say you know

1272

01:01:46,190 --> 01:01:42,500

if if there is a creature there or

1273

01:01:48,230 --> 01:01:46,200

something there you know that I may harm

1274

01:01:51,349 --> 01:01:48,240

you know please go away because I'm

1275

01:01:53,930 --> 01:01:51,359

going to empty this hot water okay

1276

01:01:55,970 --> 01:01:53,940

and he didn't say that he didn't think

1277

01:01:57,710 --> 01:01:55,980

that there could be you know an entity

1278

01:01:59,630 --> 01:01:57,720

there and there was a gin and the Jin

1279

01:02:03,289 --> 01:01:59,640

took him away over

1280

01:02:05,390 --> 01:02:03,299

so he started acting crazy he started

1281

01:02:07,490 --> 01:02:05,400

you know not making any sense he

1282

01:02:10,130 --> 01:02:07,500

couldn't speak he couldn't speak

1283

01:02:12,770 --> 01:02:10,140

intelligently and so on and the the

1284

01:02:16,789 --> 01:02:12,780

family called a special

1285

01:02:19,309 --> 01:02:16,799

um Iman you know who was specialized in

1286

01:02:23,510 --> 01:02:19,319

talking to the gym just like in the

1287

01:02:25,910 --> 01:02:23,520

Catholic church to have uh you know

1288

01:02:28,910 --> 01:02:25,920

special priests who are trained to talk

1289

01:02:31,010 --> 01:02:28,920

to uh demons

1290

01:02:32,530 --> 01:02:31,020

well we call them marriage counselors

1291

01:02:42,410 --> 01:02:32,540

yeah

1292

01:02:44,809 --> 01:02:42,420

so uh the Iman and you know says a

1293

01:02:49,309 --> 01:02:44,819

prayer over this old man and then

1294

01:02:50,870 --> 01:02:49,319

addresses a Jinn and says to the Jinn

1295

01:02:52,430 --> 01:02:50,880

now this is I couldn't believe that

1296

01:02:55,670 --> 01:02:52,440

conversation I mean this is a

1297

01:02:57,829 --> 01:02:55,680

conversation you know uh at the side of

1298

01:03:00,950 --> 01:02:57,839

the conference on international finance

1299

01:03:03,890 --> 01:03:00,960

with a very sophisticated young salary

1300

01:03:06,109 --> 01:03:03,900

he was going to the standard okay and he

1301
01:03:10,670 --> 01:03:06,119
says well they you know he wasn't funny

1302
01:03:14,210 --> 01:03:10,680
he was there uh the Imam asks talks to

1303
01:03:16,609 --> 01:03:14,220
the Gen and with a particular prayer

1304
01:03:20,089 --> 01:03:16,619
special prayer just like an exorcist

1305
01:03:22,130 --> 01:03:20,099
would do and begs him to leave the young

1306
01:03:25,069 --> 01:03:22,140
men because he says a young man didn't

1307
01:03:27,710 --> 01:03:25,079
mean harm he did something terrible in

1308
01:03:30,349 --> 01:03:27,720
throwing the hot water there but he

1309
01:03:34,010 --> 01:03:30,359
didn't realize that you were there so

1310
01:03:38,510 --> 01:03:34,020
please let let him go on with his rights

1311
01:03:41,450 --> 01:03:38,520
then you know that the young men seem to

1312
01:03:44,450 --> 01:03:41,460
wake up and was normal again

1313
01:03:47,390 --> 01:03:44,460

now this is contemporary this is not a

1314

01:03:51,349 --> 01:03:47,400

story from the Middle Ages this is not

1315

01:03:55,309 --> 01:03:51,359

the story from you know Arabia of you

1316

01:03:57,230 --> 01:03:55,319

know two centuries ago this is now

1317

01:04:00,849 --> 01:03:57,240

so

1318

01:04:04,030 --> 01:04:00,859

um yes I mean you cannot blame people

1319

01:04:10,430 --> 01:04:04,040

for relating

1320

01:04:13,430 --> 01:04:10,440

UFOs or uaps to you know to a religious

1321

01:04:16,190 --> 01:04:13,440

uh to you know to religious uh

1322

01:04:18,589 --> 01:04:16,200

imagination of their religious tradition

1323

01:04:20,329 --> 01:04:18,599

right and we did the same over that yeah

1324

01:04:21,950 --> 01:04:20,339

sorry people say you should never

1325

01:04:24,349 --> 01:04:21,960

discuss two things with your friends

1326

01:04:27,470 --> 01:04:24,359

religion and politics and the whole

1327

01:04:29,870 --> 01:04:27,480

topic of ufology delves into both of

1328

01:04:31,910 --> 01:04:29,880

those because there are religious you

1329

01:04:33,410 --> 01:04:31,920

know ramifications and if the government

1330

01:04:35,990 --> 01:04:33,420

knows and not telling us there's

1331

01:04:37,730 --> 01:04:36,000

political ramification so it's a very

1332

01:04:39,950 --> 01:04:37,740

fine line and that's why I think there's

1333

01:04:42,049 --> 01:04:39,960

so much infighting because those two

1334

01:04:44,270 --> 01:04:42,059

topics conjure up so much emotion from

1335

01:04:46,010 --> 01:04:44,280

people and you very quickly become

1336

01:04:48,230 --> 01:04:46,020

polarized when you're like oh I can't

1337

01:04:50,450 --> 01:04:48,240

believe you you believe in that like now

1338

01:04:52,609 --> 01:04:50,460

we're not friends it's very easy for

1339

01:04:54,230 --> 01:04:52,619

people to get fired up but essentially

1340

01:04:55,730 --> 01:04:54,240

if we're gonna find the answers here

1341

01:04:58,430 --> 01:04:55,740

like you said we need to suspend

1342

01:05:00,770 --> 01:04:58,440

judgment and not get so quick to just

1343

01:05:02,569 --> 01:05:00,780

jump because this isn't an old thing

1344

01:05:04,430 --> 01:05:02,579

some things are still happening right

1345

01:05:07,730 --> 01:05:04,440

now you know and some things have never

1346

01:05:09,650 --> 01:05:07,740

stopped and uh we just don't know and

1347

01:05:11,510 --> 01:05:09,660

it's maybe it's not Stranger than we

1348

01:05:14,150 --> 01:05:11,520

think it's stranger than we are ever

1349

01:05:16,309 --> 01:05:14,160

going to be able to think it may just be

1350

01:05:17,870 --> 01:05:16,319

above our pay grade and who knows we may

1351

01:05:21,410 --> 01:05:17,880

never know fully what's actually going

1352

01:05:26,210 --> 01:05:21,420

on and when you choose the scholarship

1353

01:05:29,170 --> 01:05:26,220

is is appropriate here you know uh one

1354

01:05:32,510 --> 01:05:29,180

of them all uh intense

1355

01:05:33,670 --> 01:05:32,520

studies is going on now at Rice

1356

01:05:38,750 --> 01:05:33,680

University

1357

01:05:41,990 --> 01:05:38,760

with Professor kreiber has that

1358

01:05:46,190 --> 01:05:42,000

have assembled probably the launches

1359

01:05:48,770 --> 01:05:46,200

collection of UFO archives I've done it

1360

01:05:51,289 --> 01:05:48,780

to all the archives that I'm not using

1361

01:05:55,010 --> 01:05:51,299

anymore other than I've used for my my

1362

01:05:58,069 --> 01:05:55,020

research to them with Chris trieber has

1363

01:05:59,990 --> 01:05:58,079

donated is very extensive correspondence

1364

01:06:03,410 --> 01:06:00,000

you know that he received after

1365

01:06:07,430 --> 01:06:03,420

communion that his wife you know helped

1366

01:06:08,450 --> 01:06:07,440

organize and so on it's there at rice in

1367

01:06:12,410 --> 01:06:08,460

Houston

1368

01:06:17,329 --> 01:06:12,420

you know a few a few miles from NASA and

1369

01:06:21,289 --> 01:06:17,339

uh the uh there is research going on and

1370

01:06:24,829 --> 01:06:21,299

that that pool of research is going to

1371

01:06:28,670 --> 01:06:24,839

be documented indexed and and actively

1372

01:06:32,569 --> 01:06:28,680

used in in research

1373

01:06:35,089 --> 01:06:32,579

Dr Haynes also after I donated my

1374

01:06:38,750 --> 01:06:35,099

Collections and which distributed the

1375

01:06:41,569 --> 01:06:38,760

same Dr Haynes also collected his

1376

01:06:44,450 --> 01:06:41,579

collection of course he was at Nasa and

1377

01:06:47,329 --> 01:06:44,460

has then the best analyzes of pilot

1378

01:06:50,750 --> 01:06:47,339

sightings you know in in the last 40

1379

01:06:53,630 --> 01:06:50,760

years and his uh his records are there

1380

01:06:56,750 --> 01:06:53,640

as well and they will be available they

1381

01:06:59,870 --> 01:06:56,760

will preserved and available for future

1382

01:07:02,029 --> 01:06:59,880

research so the the department that

1383

01:07:04,730 --> 01:07:02,039

holds on that collection is the

1384

01:07:08,809 --> 01:07:04,740

Department of religion at Rice

1385

01:07:11,930 --> 01:07:08,819

University the school of religion

1386

01:07:15,109 --> 01:07:11,940

um in the the department of humanities

1387

01:07:18,410 --> 01:07:15,119

which is great because there there is no

1388

01:07:23,750 --> 01:07:18,420

preconceived idea you know about what it

1389

01:07:25,910 --> 01:07:23,760

is you know uh it's it's not as you

1390

01:07:29,630 --> 01:07:25,920

don't get into the same

1391

01:07:32,569 --> 01:07:29,640

arguments as you do when you talk to you

1392

01:07:35,150 --> 01:07:32,579

know the department of physics uh yeah

1393

01:07:37,069 --> 01:07:35,160

because in the humanities you have to

1394

01:07:38,510 --> 01:07:37,079

consider everything and accept

1395

01:07:42,950 --> 01:07:38,520

everything

1396

01:07:46,250 --> 01:07:42,960

in in a scholar anyway so I I'm very uh

1397

01:07:49,309 --> 01:07:46,260

very happy that my collections are there

1398

01:07:50,270 --> 01:07:49,319

together with about 10 other collections

1399

01:07:54,349 --> 01:07:50,280

of other

1400

01:07:56,270 --> 01:07:54,359

researchers uh you know from the last 50

1401

01:07:58,849 --> 01:07:56,280

years

1402

01:08:00,890 --> 01:07:58,859

as far as um the threat narrative

1403

01:08:03,349 --> 01:08:00,900

because I we mentioned that quite a bit

1404

01:08:05,750 --> 01:08:03,359

and we asked clients or not clients

1405

01:08:07,690 --> 01:08:05,760

customers customers yeah that's a good

1406

01:08:10,029 --> 01:08:07,700

one yes yes

1407

01:08:13,190 --> 01:08:10,039

we're not making any money off of this

1408

01:08:15,109 --> 01:08:13,200

customers customers yeah uh but we asked

1409

01:08:16,849 --> 01:08:15,119

each guest um you know what do you think

1410

01:08:19,130 --> 01:08:16,859

about the threat narrative because we

1411

01:08:20,630 --> 01:08:19,140

keep hearing that quite a bit from the

1412

01:08:22,430 --> 01:08:20,640

military point of view saying you know

1413

01:08:23,570 --> 01:08:22,440

like if we disclose it's going to be

1414

01:08:26,930 --> 01:08:23,580

National

1415

01:08:28,970 --> 01:08:26,940

security risk or you know the threat

1416

01:08:31,849 --> 01:08:28,980

narrative is still there in your opinion

1417

01:08:33,110 --> 01:08:31,859

I haven't researched this for so long do

1418

01:08:35,809 --> 01:08:33,120

you think there's a threat narrative

1419

01:08:38,450 --> 01:08:35,819

here or do you think it seems to be an

1420

01:08:42,050 --> 01:08:38,460

okay uh you know sort of situation where

1421

01:08:42,060 --> 01:08:44,390

um

1422

01:08:50,510 --> 01:08:46,849

there is a lot in your questions I

1423

01:08:55,370 --> 01:08:50,520

remember going to Wright-Patterson Air

1424

01:08:58,370 --> 01:08:55,380

Force Base with no God in the 60s

1425

01:09:00,349 --> 01:08:58,380

um to to to to to look at The

1426

01:09:02,930 --> 01:09:00,359

Archives of the Blue Book archives which

1427

01:09:05,870 --> 01:09:02,940

by the way have always been unclassified

1428

01:09:08,329 --> 01:09:05,880

uh you know and every time you see uh

1429

01:09:10,789 --> 01:09:08,339

somebody does a documentary on it it's

1430

01:09:13,849 --> 01:09:10,799

the secret Trials of the United States

1431

01:09:16,130 --> 01:09:13,859

well you've got 20 000 cases there that

1432

01:09:17,630 --> 01:09:16,140

are open that anybody could have any

1433

01:09:20,150 --> 01:09:17,640

scientist could have asked to look at

1434

01:09:23,269 --> 01:09:20,160

and they never did you know including

1435

01:09:25,430 --> 01:09:23,279

Carl Sagan including all those guys uh

1436

01:09:28,729 --> 01:09:25,440

who couldn't ask for access to their

1437

01:09:30,349 --> 01:09:28,739

friends well

1438

01:09:30,890 --> 01:09:30,359

the

1439

01:09:31,789 --> 01:09:30,900

[Music]

1440

01:09:35,510 --> 01:09:31,799

um

1441

01:09:38,990 --> 01:09:35,520

the the phenomenon is provocative I mean

1442

01:09:42,470 --> 01:09:39,000

it is it comes close to aircraft

1443

01:09:44,329 --> 01:09:42,480

it comes close to civilian aircraft but

1444

01:09:47,809 --> 01:09:44,339

one of the things that the French

1445

01:09:52,910 --> 01:09:47,819

research has shown which isn't generally

1446

01:09:55,729 --> 01:09:52,920

known is that in that database

1447

01:09:58,070 --> 01:09:55,739

um the the behavior of the UFO is

1448

01:10:01,790 --> 01:09:58,080

different when it's a military aircraft

1449

01:10:04,610 --> 01:10:01,800

or a civilian aircraft so in the

1450

01:10:06,770 --> 01:10:04,620

database which is probably one of the

1451

01:10:10,930 --> 01:10:06,780

top one of the best

1452

01:10:14,390 --> 01:10:10,940

uh studied databases we have

1453

01:10:17,750 --> 01:10:14,400

now civilian aircraft there are

1454

01:10:20,030 --> 01:10:17,760

commercial commercial aircraft and there

1455

01:10:23,750 --> 01:10:20,040

are you know military aircrafts so you

1456

01:10:28,430 --> 01:10:23,760

have everything from uh B2 bombers and

1457

01:10:29,950 --> 01:10:28,440

f-18s to Piper cups okay and and of

1458

01:10:34,310 --> 01:10:29,960

course you know United

1459

01:10:37,430 --> 01:10:34,320

23 7 heavy uh going from New York to San

1460

01:10:40,010 --> 01:10:37,440

Francisco you have all of them but the

1461

01:10:42,110 --> 01:10:40,020

behavior of the phenomenon is different

1462

01:10:44,570 --> 01:10:42,120

and that's something that has not been

1463

01:10:47,510 --> 01:10:44,580

studied something that should be studied

1464

01:10:49,850 --> 01:10:47,520

that can be studied with good computer

1465

01:10:54,410 --> 01:10:49,860

science you know you can look at the

1466

01:10:56,270 --> 01:10:54,420

parameters with uh you know and that

1467

01:10:59,450 --> 01:10:56,280

that trial is available

1468

01:11:01,189 --> 01:10:59,460

and nobody's done that so you know where

1469

01:11:05,209 --> 01:11:01,199

is all that talk about we're going to

1470

01:11:08,950 --> 01:11:05,219

study that so on the the military fines

1471

01:11:12,709 --> 01:11:08,960

showed uh

1472

01:11:15,290 --> 01:11:12,719

seem to show hostility

1473

01:11:18,950 --> 01:11:15,300

after all we've we've also got

1474

01:11:20,630 --> 01:11:18,960

you know instances where missile silos

1475

01:11:24,470 --> 01:11:20,640

were turned off

1476

01:11:27,410 --> 01:11:24,480

and we know that happened in Russia it

1477

01:11:30,830 --> 01:11:27,420

happened before in the Soviet Union and

1478

01:11:31,669 --> 01:11:30,840

it's happened in the U.S several

1479

01:11:35,030 --> 01:11:31,679

times

1480

01:11:37,970 --> 01:11:35,040

where and there are also there's also at

1481

01:11:40,189 --> 01:11:37,980

least one case to my knowledge where a

1482

01:11:43,070 --> 01:11:40,199

large sequence was activated

1483

01:11:45,410 --> 01:11:43,080

you know the silo event and and the

1484

01:11:47,649 --> 01:11:45,420

launch sequence started well it's it's

1485

01:11:50,630 --> 01:11:47,659

not supposed to start by itself you know

1486

01:11:52,790 --> 01:11:50,640

that's concerning yeah and it can't be

1487

01:11:54,649 --> 01:11:52,800

stopped either once it starts it's

1488

01:11:56,450 --> 01:11:54,659

nothing you can do right if you're not

1489

01:11:58,250 --> 01:11:56,460
manually turning those keys and

1490

01:12:00,050 --> 01:11:58,260
initiating the sequence I think Jim

1491

01:12:03,950 --> 01:12:00,060
semivan actually talked about this when

1492

01:12:05,630 --> 01:12:03,960
he was on our episode yeah yeah uh you

1493

01:12:08,330 --> 01:12:05,640
know and that could mean any irrational

1494

01:12:10,450 --> 01:12:08,340
I mean pure and simple for sure it's not

1495

01:12:13,510 --> 01:12:10,460
just an American problem

1496

01:12:17,209 --> 01:12:13,520
so uh

1497

01:12:19,669 --> 01:12:17,219
the the phenomenon is seems to want to

1498

01:12:22,910 --> 01:12:19,679
get our attention

1499

01:12:26,090 --> 01:12:22,920
you know I think again uh you know think

1500

01:12:29,330 --> 01:12:26,100
about Trinity you know uh that the

1501

01:12:32,090 --> 01:12:29,340

Trinity one month after the first

1502

01:12:34,970 --> 01:12:32,100

nuclear explosion two days after the

1503

01:12:38,870 --> 01:12:34,980

capitulation of Japan this thing shows

1504

01:12:42,169 --> 01:12:38,880

up and it it is a it's not a crutch it's

1505

01:12:44,330 --> 01:12:42,179

it's a controlled crash the the thing is

1506

01:12:47,030 --> 01:12:44,340

intact you know an airplane would have

1507

01:12:49,790 --> 01:12:47,040

blown up into a thousand pieces when it

1508

01:12:55,270 --> 01:12:49,800

hit the communication tower that the

1509

01:12:58,850 --> 01:12:55,280

pilot reported uh the that the thing

1510

01:13:01,930 --> 01:12:58,860

digs a Boulevard down the hill makes a

1511

01:13:04,970 --> 01:13:01,940

turn and stops under power

1512

01:13:07,310 --> 01:13:04,980

uh but there is no visible source of

1513

01:13:10,430 --> 01:13:07,320

power there is no propeller there is no

1514

01:13:12,350 --> 01:13:10,440

there is nothing underneath and we we

1515

01:13:14,630 --> 01:13:12,360

know that from The Observers who were

1516

01:13:18,530 --> 01:13:14,640

there and you mentioned how how heavy is

1517

01:13:20,930 --> 01:13:18,540

this thing sir it's like thuds which no

1518

01:13:23,630 --> 01:13:20,940

propulsion no this is not cool this is

1519

01:13:26,630 --> 01:13:23,640

not a balloon okay yeah uh this is not

1520

01:13:30,229 --> 01:13:26,640

even an experimental Brew

1521

01:13:32,410 --> 01:13:30,239

you know so somebody is trying to get

1522

01:13:36,649 --> 01:13:32,420

our attention and

1523

01:13:39,050 --> 01:13:36,659

the the fact that I don't know what you

1524

01:13:42,950 --> 01:13:39,060

know another historian I I don't know

1525

01:13:46,790 --> 01:13:42,960

what it means but the the bomb has never

1526

01:13:50,390 --> 01:13:46,800

been used again in war

1527

01:13:53,870 --> 01:13:50,400

you know for since 1945.

1528

01:14:01,610 --> 01:13:57,250

um I don't know what it means but

1529

01:14:05,050 --> 01:14:01,620

you know it might mean that there was

1530

01:14:08,209 --> 01:14:05,060

a signal or warning given a trinity

1531

01:14:10,310 --> 01:14:08,219

uh the the people who've gone there and

1532

01:14:12,950 --> 01:14:10,320

have looked at the case

1533

01:14:15,290 --> 01:14:12,960

haven't noticed the correlation with the

1534

01:14:17,390 --> 01:14:15,300

atom bomb I mean how can you miss an

1535

01:14:19,729 --> 01:14:17,400

automotive you know and the number of

1536

01:14:22,370 --> 01:14:19,739

UFO groups have gone there they've

1537

01:14:25,070 --> 01:14:22,380

picked up a few plants you know they've

1538

01:14:26,570 --> 01:14:25,080

gone home with it and they've

1539

01:14:31,189 --> 01:14:26,580

interviewed the witness

1540

01:14:33,970 --> 01:14:31,199

and they they didn't notice her College

1541

01:14:38,390 --> 01:14:33,980

that they are standing within 20 miles

1542

01:14:41,330 --> 01:14:38,400

of the Trinity site of ground zero

1543

01:14:44,149 --> 01:14:41,340

and that you know a big part of doing

1544

01:14:46,850 --> 01:14:44,159

this book was reconstructing the history

1545

01:14:48,770 --> 01:14:46,860

of the end of World War II for me you

1546

01:14:52,970 --> 01:14:48,780

know I grew up in France

1547

01:14:56,830 --> 01:14:52,980

um yeah I was born in 1939 which is when

1548

01:15:00,590 --> 01:14:56,840

World War II started but by

1549

01:15:02,990 --> 01:15:00,600

1944-45 you know I was a toddler but I

1550

01:15:05,390 --> 01:15:03,000

knew what was happening and I could see

1551

01:15:07,750 --> 01:15:05,400

what was going on in the sky I could

1552

01:15:11,030 --> 01:15:07,760

hear the explosions I could see the

1553

01:15:13,970 --> 01:15:11,040

battles in the sky this is something

1554

01:15:17,689 --> 01:15:13,980

when you're four or five you know you

1555

01:15:20,209 --> 01:15:17,699

understand that my my parents you know

1556

01:15:23,689 --> 01:15:20,219

explained to me what was going on there

1557

01:15:26,209 --> 01:15:23,699

was no place to hide so I can relate to

1558

01:15:29,570 --> 01:15:26,219

that time I understand that it's hard

1559

01:15:32,930 --> 01:15:29,580

for someone who reads my book today who

1560

01:15:36,530 --> 01:15:32,940

is you know 25 or 45

1561

01:15:40,370 --> 01:15:36,540

to put himself or herself in the

1562

01:15:43,330 --> 01:15:40,380

conditions of you know New Mexico in

1563

01:15:46,790 --> 01:15:43,340

August 1945.

1564

01:15:49,610 --> 01:15:46,800

it psychologically sociologically it's

1565

01:15:54,110 --> 01:15:49,620

it's hard to do it's another

1566

01:15:56,110 --> 01:15:54,120

you know era but uh there are people who

1567

01:16:00,470 --> 01:15:56,120

remember fortunately

1568

01:16:04,130 --> 01:16:00,480

uh you know Mr Padilla Jose Padilla uh

1569

01:16:06,110 --> 01:16:04,140

wasn't you know an officer in the

1570

01:16:10,250 --> 01:16:06,120

hardware patrolling California for Metro

1571

01:16:13,310 --> 01:16:10,260

his life had fought in Korea he's still

1572

01:16:16,250 --> 01:16:13,320

alive very much alive and you know we've

1573

01:16:18,649 --> 01:16:16,260

become we've become friends and

1574

01:16:22,669 --> 01:16:18,659

um hearing members of that he has a very

1575

01:16:25,669 --> 01:16:22,679

good memory of of of all those all those

1576

01:16:28,850 --> 01:16:25,679

events so he has to come back to your

1577

01:16:32,390 --> 01:16:28,860

question the the behavior of the

1578

01:16:34,970 --> 01:16:32,400

Phenomenon with respect to the the

1579

01:16:37,970 --> 01:16:34,980

military is different now the the

1580

01:16:41,090 --> 01:16:37,980

military has sensors in our design

1581

01:16:44,470 --> 01:16:41,100

now in the case of the Nimitz there is a

1582

01:16:48,709 --> 01:16:44,480

memo that I've I've seen

1583

01:16:49,910 --> 01:16:48,719

uh you know five or six page Memo from

1584

01:16:52,669 --> 01:16:49,920

Raytheon

1585

01:16:56,330 --> 01:16:52,679

to the Navy

1586

01:16:58,250 --> 01:16:56,340

saying you know that tracking of that

1587

01:17:01,430 --> 01:16:58,260

object that you saw

1588

01:17:04,189 --> 01:17:01,440

that your Pilots described that tracking

1589

01:17:06,649 --> 01:17:04,199

was done with one of our cameras well

1590

01:17:09,050 --> 01:17:06,659

it's an infrared camera it's not a

1591

01:17:12,950 --> 01:17:09,060

visual account everybody talks about it

1592

01:17:15,709 --> 01:17:12,960

as if it was you know an ordinary camera

1593

01:17:17,830 --> 01:17:15,719

but it's a very very Advanced infrared

1594

01:17:22,550 --> 01:17:17,840

camera but they said

1595

01:17:24,050 --> 01:17:22,560

you know you we deliver it to you under

1596

01:17:26,870 --> 01:17:24,060

contract

1597

01:17:29,630 --> 01:17:26,880

to track enemy aircraft

1598

01:17:32,570 --> 01:17:29,640

you never said that you are going to

1599

01:17:35,330 --> 01:17:32,580

track UFOs with it okay I mean they

1600

01:17:38,090 --> 01:17:35,340

didn't say that but the the memo says

1601
01:17:40,430 --> 01:17:38,100
these are the characteristics these were

1602
01:17:43,070 --> 01:17:40,440
the parameters you gave us you will need

1603
01:17:46,570 --> 01:17:43,080
to track the exhaust of enemy Jets

1604
01:17:49,910 --> 01:17:46,580
essentially that's what we gave you

1605
01:17:52,970 --> 01:17:49,920
uh don't extrapolate from what we've

1606
01:17:55,910 --> 01:17:52,980
given you about what that device is

1607
01:17:58,430 --> 01:17:55,920
going to do in different conditions you

1608
01:18:00,350 --> 01:17:58,440
know you're not you can't do that you

1609
01:18:03,350 --> 01:18:00,360
have to take other things into account

1610
01:18:05,990 --> 01:18:03,360
now if you had radar I mean we don't

1611
01:18:08,270 --> 01:18:06,000
give you the distance okay people say

1612
01:18:10,850 --> 01:18:08,280
Well it busted me in so much well how do

1613
01:18:12,530 --> 01:18:10,860

they know well they they know because of

1614

01:18:16,310 --> 01:18:12,540

the radar they don't know because of the

1615

01:18:19,370 --> 01:18:16,320

camera okay in all of that probably the

1616

01:18:21,770 --> 01:18:19,380

eyes of the pilots are probably the best

1617

01:18:23,870 --> 01:18:21,780

detector you know because they are

1618

01:18:26,390 --> 01:18:23,880

they've been in combat they are used

1619

01:18:28,550 --> 01:18:26,400

they are professional they are used to

1620

01:18:31,250 --> 01:18:28,560

you know everything you can you can see

1621

01:18:34,250 --> 01:18:31,260

in the sky observers right yeah yes yeah

1622

01:18:37,250 --> 01:18:34,260

wonderful observers so I I would listen

1623

01:18:39,530 --> 01:18:37,260

to them first before going to what the

1624

01:18:42,050 --> 01:18:39,540

instruments say and there are ways of

1625

01:18:43,970 --> 01:18:42,060

fooling those instruments by the way an

1626

01:18:47,689 --> 01:18:43,980

instrument is just you know a piece of

1627

01:18:49,490 --> 01:18:47,699

hardware and a good engineer can come up

1628

01:18:52,490 --> 01:18:49,500

with ways of phoning any piece of

1629

01:18:54,470 --> 01:18:52,500

Hardware I certainly know that after you

1630

01:18:57,890 --> 01:18:54,480

know being around some some advanced

1631

01:19:00,050 --> 01:18:57,900

technology in in Silicon Valley so I

1632

01:19:03,729 --> 01:19:00,060

would first listen to the pilots and

1633

01:19:09,189 --> 01:19:03,739

they are extraordinary men and women so

1634

01:19:11,270 --> 01:19:09,199

but again they are in

1635

01:19:12,830 --> 01:19:11,280

surrounded with instruments in our

1636

01:19:15,410 --> 01:19:12,840

design for war

1637

01:19:19,729 --> 01:19:15,420

they are not designed for physics

1638

01:19:21,410 --> 01:19:19,739

and so there is an overlap there that we

1639

01:19:24,290 --> 01:19:21,420

must consider

1640

01:19:30,890 --> 01:19:28,610

as far as as far as um the Trinity is

1641

01:19:33,770 --> 01:19:30,900

concerned you were mentioning that it

1642

01:19:35,209 --> 01:19:33,780

was within the blast radius of well not

1643

01:19:38,209 --> 01:19:35,219

blast radius but at least there would be

1644

01:19:40,430 --> 01:19:38,219

effects um Jose Padilla I believe and

1645

01:19:42,410 --> 01:19:40,440

his mother had seen the bomb go off

1646

01:19:44,169 --> 01:19:42,420

actually his mom was blinded for a

1647

01:19:48,169 --> 01:19:44,179

little bit if I'm not mistaken

1648

01:19:51,470 --> 01:19:48,179

one eye oh wow so they were close he

1649

01:19:54,350 --> 01:19:51,480

lost Hearing in one ear one of his ears

1650

01:19:56,810 --> 01:19:54,360

started bleeding with the shock wave

1651

01:19:59,149 --> 01:19:56,820

right did they is the reason they didn't

1652

01:20:00,950 --> 01:19:59,159

evacuate everybody because they again as

1653

01:20:03,169 --> 01:20:00,960

you mentioned it was four times larger

1654

01:20:05,510 --> 01:20:03,179

of an explosion and they thought you

1655

01:20:10,130 --> 01:20:05,520

know no big deal but I you know is that

1656

01:20:12,169 --> 01:20:10,140

the reason it was a big deal uh but they

1657

01:20:14,990 --> 01:20:12,179

knew they were surrounded with with

1658

01:20:19,490 --> 01:20:15,000

spies that they had not detected you

1659

01:20:22,490 --> 01:20:19,500

know German and and Soviet and old spies

1660

01:20:25,250 --> 01:20:22,500

and maybe other countries as well uh

1661

01:20:28,070 --> 01:20:25,260

within the teams uh around Trinity

1662

01:20:31,310 --> 01:20:28,080

around the ball so

1663

01:20:36,950 --> 01:20:31,320

um they felt that they couldn't take the

1664

01:20:38,209 --> 01:20:36,960

the risk of uh the the the test being

1665

01:20:40,330 --> 01:20:38,219

compromised

1666

01:20:51,530 --> 01:20:40,340

the

1667

01:20:54,290 --> 01:20:51,540

that we found that that where we brought

1668

01:20:56,689 --> 01:20:54,300

on in this new edition is that they

1669

01:21:01,189 --> 01:20:56,699

didn't tell people even after the

1670

01:21:03,110 --> 01:21:01,199

explosion even after the war when you

1671

01:21:05,510 --> 01:21:03,120

know there was no more

1672

01:21:08,410 --> 01:21:05,520

secrecy about the actor Bob there was

1673

01:21:12,370 --> 01:21:08,420

about the fact that it existed I mean

1674

01:21:15,250 --> 01:21:12,380

Japanese who did that it existed

1675

01:21:18,610 --> 01:21:15,260

there were secrets about the physics but

1676

01:21:22,250 --> 01:21:18,620

they should have told the local people

1677

01:21:26,470 --> 01:21:22,260

you know don't drink the water from your

1678

01:21:28,010 --> 01:21:26,480

Reservoir that you know there was

1679

01:21:30,470 --> 01:21:28,020

it's

1680

01:21:37,930 --> 01:21:34,729

a really uh you know criminal that they

1681

01:21:41,090 --> 01:21:37,940

didn't tell people after the explosion

1682

01:21:44,149 --> 01:21:41,100

there there were strategic reasons for

1683

01:21:46,669 --> 01:21:44,159

hiding it until the point where they

1684

01:21:49,189 --> 01:21:46,679

were sure of what they had that they

1685

01:21:50,810 --> 01:21:49,199

that the bomb would work remember that

1686

01:21:54,850 --> 01:21:50,820

there were a number of physicists who

1687

01:21:57,890 --> 01:21:54,860

told them it will never work yeah and uh

1688

01:22:00,470 --> 01:21:57,900

yes and we confirmly computed that the

1689

01:22:04,669 --> 01:22:00,480

bomb was four times more powerful than

1690

01:22:08,149 --> 01:22:04,679

the equations had suggested but uh you

1691

01:22:11,330 --> 01:22:08,159

know the fact is it worked but it it

1692

01:22:14,750 --> 01:22:11,340

also not all the plutonium was used and

1693

01:22:17,649 --> 01:22:14,760

the plutonium fell on the farms all

1694

01:22:20,090 --> 01:22:17,659

around within within that area of Mexico

1695

01:22:22,729 --> 01:22:20,100

driven by the wind that was going

1696

01:22:25,010 --> 01:22:22,739

exactly in that direction you know to

1697

01:22:27,169 --> 01:22:25,020

the to the Northeast and then he turned

1698

01:22:30,169 --> 01:22:27,179

to the West which would have placed it

1699

01:22:32,149 --> 01:22:30,179

over that that area was that because it

1700

01:22:34,250 --> 01:22:32,159

was a ground level detonation like I

1701

01:22:35,930 --> 01:22:34,260

know even Nagasaki they detonated the

1702

01:22:38,090 --> 01:22:35,940

bomb two thousand feet above the ground

1703

01:22:40,490 --> 01:22:38,100

so that the plutonium would have a

1704

01:22:42,590 --> 01:22:40,500

chance to burn up it was almost a more

1705

01:22:45,530 --> 01:22:42,600

Humane atom bomb if there is such a

1706

01:22:48,169 --> 01:22:45,540

thing I mean it was designed to not have

1707

01:22:51,110 --> 01:22:48,179

that same effect I found that in a

1708

01:22:53,930 --> 01:22:51,120

little brochure that I bought for five

1709

01:22:56,030 --> 01:22:53,940

bucks when I went to the Trinity site I

1710

01:22:57,290 --> 01:22:56,040

bought it from you know the Army store

1711

01:23:00,110 --> 01:22:57,300

yeah

1712

01:23:02,090 --> 01:23:00,120

um but I had never understood that

1713

01:23:04,189 --> 01:23:02,100

before then

1714

01:23:06,950 --> 01:23:04,199

you know that you cannot test an

1715

01:23:09,350 --> 01:23:06,960

automobile but everybody says it was a

1716

01:23:12,350 --> 01:23:09,360

test you know the scientists didn't test

1717

01:23:14,930 --> 01:23:12,360

the Vietnam well that at the moment was

1718

01:23:17,510 --> 01:23:14,940

equivalent to the one that was used on

1719

01:23:20,630 --> 01:23:17,520

magazak you know and

1720

01:23:21,970 --> 01:23:20,640

18 or yeah 18 kilotons or something I

1721

01:23:24,770 --> 01:23:21,980

think was the same

1722

01:23:28,850 --> 01:23:24,780

there are different estimates it's

1723

01:23:32,030 --> 01:23:28,860

between 18 and 23 kilotons then it

1724

01:23:35,270 --> 01:23:32,040

flattened Nagasaki you know but ethnic

1725

01:23:39,189 --> 01:23:35,280

exactly and at Hiroshima after they

1726

01:23:42,370 --> 01:23:39,199

realized that the destruction at Trinity

1727

01:23:46,850 --> 01:23:42,380

including with civilian zones around

1728

01:23:49,910 --> 01:23:46,860

they reset the the altitude from above

1729

01:23:52,310 --> 01:23:49,920

to detonate as you said to over 2 000

1730

01:23:54,770 --> 01:23:52,320

feet in order to minimize the

1731

01:23:57,410 --> 01:23:54,780

radioactivity I mean the radioactivity

1732

01:24:00,590 --> 01:23:57,420

is a side effect of the vote yeah the

1733

01:24:03,770 --> 01:24:00,600

boob Works essentially by creating an

1734

01:24:06,169 --> 01:24:03,780

instant temperature that's equivalent to

1735

01:24:07,310 --> 01:24:06,179

the the the temperature at the surface

1736

01:24:11,030 --> 01:24:07,320

of the Sun

1737

01:24:13,970 --> 01:24:11,040

with an extraordinary wind that is going

1738

01:24:16,070 --> 01:24:13,980

to destroy any instruction okay that's

1739

01:24:18,770 --> 01:24:16,080

what it's designed to do it's not

1740

01:24:21,229 --> 01:24:18,780

designed to kill a lot of people by

1741

01:24:24,169 --> 01:24:21,239

radioactivity in the next you know

1742

01:24:26,510 --> 01:24:24,179

either right now or five years and 10

1743

01:24:29,649 --> 01:24:26,520

years and 20 years you know it's not

1744

01:24:32,209 --> 01:24:29,659

designed to do that so

1745

01:24:34,610 --> 01:24:32,219

I don't think the Japanese know that

1746

01:24:37,310 --> 01:24:34,620

they are going to discover that we just

1747

01:24:39,830 --> 01:24:37,320

signed a contract for uh which are very

1748

01:24:41,950 --> 01:24:39,840

problem for the Japanese edition of

1749

01:24:45,490 --> 01:24:41,960

Trinity and

1750

01:24:48,050 --> 01:24:45,500

I think that that is a very humbling

1751

01:24:50,649 --> 01:24:48,060

experience that the book will be read in

1752

01:24:54,110 --> 01:24:50,659

Japan yeah congratulations by the way

1753

01:24:55,850 --> 01:24:54,120

your your um as hard of a writer as you

1754

01:24:58,130 --> 01:24:55,860

are an investigator I know that you've

1755

01:25:01,070 --> 01:24:58,140

been writing books for a long time to

1756

01:25:02,810 --> 01:25:01,080

this Trinity yeah you love to write and

1757

01:25:04,610 --> 01:25:02,820

you'll be known for that definitely um

1758

01:25:08,149 --> 01:25:04,620

you mentioned earlier that you were an

1759

01:25:09,590 --> 01:25:08,159

outcast but you have become a Nikon and

1760

01:25:11,450 --> 01:25:09,600

that's that's something that you should

1761

01:25:13,910 --> 01:25:11,460

be proud of there's people like

1762

01:25:16,070 --> 01:25:13,920

ourselves that are huge fans of yours

1763

01:25:17,870 --> 01:25:16,080

that you know we've watched your career

1764

01:25:19,669 --> 01:25:17,880

and hope that they make a movie about

1765

01:25:22,189 --> 01:25:19,679

your life someday because I think it'd

1766

01:25:24,530 --> 01:25:22,199

be quite interesting uh you know yeah

1767

01:25:26,450 --> 01:25:24,540

you're you're a hero let's just put it

1768

01:25:28,490 --> 01:25:26,460

that way you are a person to look up to

1769

01:25:32,090 --> 01:25:28,500

and to emulate especially in this field

1770

01:25:34,729 --> 01:25:32,100

uh it's not like I said it's it's rare

1771

01:25:37,310 --> 01:25:34,739

to find somebody that has a humble view

1772

01:25:39,890 --> 01:25:37,320

of things and and humble personality as

1773

01:25:43,310 --> 01:25:39,900

well and it's refreshing you know the

1774

01:25:48,350 --> 01:25:43,320

real heroes are the the witnesses like

1775

01:25:51,410 --> 01:25:48,360

uh uh like Mr padillo like the the new

1776

01:25:56,990 --> 01:25:51,420

witness where we brought on and you know

1777

01:25:59,209 --> 01:25:57,000

and again uh you know I I went there to

1778

01:26:01,910 --> 01:25:59,219

interview a witness about what he had

1779

01:26:04,610 --> 01:26:01,920

seen especially what he had seen about

1780

01:26:07,129 --> 01:26:04,620

the the materials that were that were

1781

01:26:10,189 --> 01:26:07,139

left up to Trinity the fibers that were

1782

01:26:13,669 --> 01:26:10,199

growing in different different ways and

1783

01:26:16,070 --> 01:26:13,679

so on that we still don't understand I

1784

01:26:17,990 --> 01:26:16,080

mean it's not it's not an optical fiber

1785

01:26:21,310 --> 01:26:18,000

you know it's something else

1786

01:26:23,810 --> 01:26:21,320

and but when you go there people

1787

01:26:24,950 --> 01:26:23,820

yeah they are willing to talk about

1788

01:26:27,229 --> 01:26:24,960

Trinity

1789

01:26:30,709 --> 01:26:27,239

but they will tell you about what it did

1790

01:26:32,990 --> 01:26:30,719

to their families that they they opened

1791

01:26:36,890 --> 01:26:33,000

a drawer and they show you pictures of

1792

01:26:40,790 --> 01:26:36,900

the kids who died when they were 18 of

1793

01:26:43,750 --> 01:26:40,800

you know radioactivity radioactive you

1794

01:26:48,729 --> 01:26:43,760

know diseases uh

1795

01:26:51,610 --> 01:26:48,739

they and those families were decimated

1796

01:26:56,149 --> 01:26:51,620

for no reason

1797

01:26:59,169 --> 01:26:56,159

nobody wanted to admit it so uh you know

1798

01:27:02,689 --> 01:26:59,179

power Harris and I decided to

1799

01:27:06,290 --> 01:27:02,699

donate part of the wild things from this

1800

01:27:09,350 --> 01:27:06,300

book to an organization that supports

1801
01:27:13,189 --> 01:27:09,360
the victims of Trinity victims of the

1802
01:27:18,649 --> 01:27:13,199
you know radioactive fallout

1803
01:27:19,610 --> 01:27:18,659
um because this was just so powerful I

1804
01:27:23,810 --> 01:27:19,620
mean

1805
01:27:26,830 --> 01:27:23,820
and uh it's it's more powerful than the

1806
01:27:30,890 --> 01:27:26,840
UFO or whatever it was

1807
01:27:33,410 --> 01:27:30,900
now again I I'm an information scientist

1808
01:27:35,870 --> 01:27:33,420
I'm not I I should not call myself a

1809
01:27:38,810 --> 01:27:35,880
physicist because physics have changed

1810
01:27:41,990 --> 01:27:38,820
so much since I learned physics and I

1811
01:27:43,850 --> 01:27:42,000
haven't practiced you know physics in

1812
01:27:47,050 --> 01:27:43,860
the lab for a long time

1813
01:27:50,390 --> 01:27:47,060

but uh you know I I'm

1814

01:27:53,590 --> 01:27:50,400

as current as you can be in computer

1815

01:27:57,129 --> 01:27:53,600

science and Ai and information science

1816

01:28:00,950 --> 01:27:57,139

so what I look for are correlations

1817

01:28:04,250 --> 01:28:00,960

among different things you know

1818

01:28:07,310 --> 01:28:04,260

um and the here are the what's important

1819

01:28:11,209 --> 01:28:07,320

is to remember is a correlation between

1820

01:28:14,629 --> 01:28:11,219

Trinity Socorro and Valencia because

1821

01:28:18,410 --> 01:28:14,639

SoCo and valenzo are so

1822

01:28:21,709 --> 01:28:18,420

um so how I mean they are so so well

1823

01:28:23,950 --> 01:28:21,719

established you know again the witnesses

1824

01:28:27,169 --> 01:28:23,960

have been interviewed at the site

1825

01:28:29,149 --> 01:28:27,179

immediately after the observation when

1826

01:28:31,910 --> 01:28:29,159

the traces were there the traces could

1827

01:28:36,890 --> 01:28:31,920

be preserved they they were materials

1828

01:28:41,689 --> 01:28:36,900

recovered they were and in all or two

1829

01:28:44,990 --> 01:28:41,699

cases as in Trinity the object was oval

1830

01:28:47,870 --> 01:28:45,000

was about x-shaped or avocado shape and

1831

01:28:49,669 --> 01:28:47,880

the creatures were humanoid who could

1832

01:28:53,209 --> 01:28:49,679

breathe the air and they were pretty

1833

01:28:57,410 --> 01:28:53,219

tall now that you know there's a a

1834

01:29:02,330 --> 01:28:57,420

dollar of uh

1835

01:29:05,270 --> 01:29:02,340

what uh seven of them okay between the

1836

01:29:07,910 --> 01:29:05,280

three and Trinity and and the the the

1837

01:29:11,450 --> 01:29:07,920

two at sokolo and the two Advantage so

1838

01:29:13,850 --> 01:29:11,460

so you know we have we have a strong

1839

01:29:16,490 --> 01:29:13,860

correlation there and that's how we're

1840

01:29:19,310 --> 01:29:16,500

going to make progress with this no one

1841

01:29:21,830 --> 01:29:19,320

case is to convince the Academy of

1842

01:29:23,870 --> 01:29:21,840

Sciences you know there is no no way

1843

01:29:26,090 --> 01:29:23,880

they'll say Well there must be something

1844

01:29:28,550 --> 01:29:26,100

you know telling us or there must be

1845

01:29:31,250 --> 01:29:28,560

something that uh there must be some

1846

01:29:33,350 --> 01:29:31,260

other element that hasn't been captured

1847

01:29:35,750 --> 01:29:33,360

by the instrumental there must be

1848

01:29:38,090 --> 01:29:35,760

something here even the Nimitz I mean in

1849

01:29:40,490 --> 01:29:38,100

the Nimitz you know I've seen the

1850

01:29:41,450 --> 01:29:40,500

studies of the Nimitz I believe the

1851
01:29:44,629 --> 01:29:41,460
pilots

1852
01:29:46,790 --> 01:29:44,639
uh I know what the instruments did but

1853
01:29:50,030 --> 01:29:46,800
half of the data is missing

1854
01:29:52,250 --> 01:29:50,040
you know at the limits

1855
01:29:55,129 --> 01:29:52,260
after it was all done

1856
01:29:56,270 --> 01:29:55,139
there was a brain that landed on the

1857
01:29:59,270 --> 01:29:56,280
deck

1858
01:30:01,430 --> 01:29:59,280
two guys came out went to talk to the

1859
01:30:06,110 --> 01:30:01,440
captain

1860
01:30:10,490 --> 01:30:06,120
got all the data from all their radars

1861
01:30:13,850 --> 01:30:12,890
what what is that about where is the

1862
01:30:16,430 --> 01:30:13,860
data

1863
01:30:18,830 --> 01:30:16,440

I mean can we talk about the case

1864

01:30:21,590 --> 01:30:18,840

without that data you know I mean in

1865

01:30:24,290 --> 01:30:21,600

physics when he went to school the first

1866

01:30:29,330 --> 01:30:24,300

thing the teacher told you is you know

1867

01:30:32,149 --> 01:30:29,340

read them you know uh this story okay

1868

01:30:34,970 --> 01:30:32,159

read the wrong thing don't don't start

1869

01:30:38,390 --> 01:30:34,980

writing equations without reading what

1870

01:30:40,310 --> 01:30:38,400

we're asking you to do okay and that's

1871

01:30:42,830 --> 01:30:40,320

something you apply in science you want

1872

01:30:45,830 --> 01:30:42,840

all the data you can get well half of

1873

01:30:49,189 --> 01:30:45,840

the data is gone okay so it's gone

1874

01:30:53,390 --> 01:30:49,199

because in that I mean this there were

1875

01:30:56,510 --> 01:30:53,400

classified areas of Technology there so

1876

01:30:58,870 --> 01:30:56,520

I'm sure it's but there there are other

1877

01:31:00,590 --> 01:30:58,880

cases

1878

01:31:01,930 --> 01:31:00,600

where

1879

01:31:05,810 --> 01:31:01,940

um

1880

01:31:12,110 --> 01:31:08,750

and two officers show up

1881

01:31:14,870 --> 01:31:12,120

they show a credential to the the man

1882

01:31:16,970 --> 01:31:14,880

who was in charge at the time of the up

1883

01:31:19,610 --> 01:31:16,980

of the operation

1884

01:31:22,510 --> 01:31:19,620

they confiscate all the data and they

1885

01:31:27,890 --> 01:31:22,520

walk away with it well

1886

01:31:30,410 --> 01:31:27,900

data Above Top Secrets uh you do do it

1887

01:31:32,689 --> 01:31:30,420

like that you know it would be a little

1888

01:31:35,149 --> 01:31:32,699

too easy you know you and I could dress

1889

01:31:38,090 --> 01:31:35,159

up in some uniform and go there and

1890

01:31:42,709 --> 01:31:38,100

demand that the the data there are

1891

01:31:46,129 --> 01:31:42,719

papers to be signed by two people and to

1892

01:31:49,310 --> 01:31:46,139

be co-signed by the people who own the

1893

01:31:52,250 --> 01:31:49,320

data and are transmitting it and there

1894

01:31:55,310 --> 01:31:52,260

are credentials being shown okay

1895

01:31:58,189 --> 01:31:55,320

in those cases I don't know about the

1896

01:32:01,070 --> 01:31:58,199

limits but in the earlier cases I do

1897

01:32:04,010 --> 01:32:01,080

know that no credentials

1898

01:32:08,090 --> 01:32:04,020

I mean credentials were shown but no

1899

01:32:11,870 --> 01:32:08,100

paper Trace was left

1900

01:32:13,790 --> 01:32:11,880

okay this is incredible this is

1901

01:32:16,610 --> 01:32:13,800

impossible

1902

01:32:21,050 --> 01:32:16,620

you know so that means that there is a

1903

01:32:23,870 --> 01:32:21,060

structure somewhere that owns this

1904

01:32:25,729 --> 01:32:23,880

problem and when something happens that

1905

01:32:30,410 --> 01:32:25,739

relate to this problem

1906

01:32:33,729 --> 01:32:30,420

the the data goes somewhere where you

1907

01:32:37,550 --> 01:32:33,739

know uh suddenly people at my level

1908

01:32:41,450 --> 01:32:37,560

cannot cannot know what it is so

1909

01:32:44,510 --> 01:32:41,460

um you know I salute the fact that

1910

01:32:47,810 --> 01:32:44,520

Congress is going to look into all

1911

01:32:53,330 --> 01:32:47,820

aspects of that I hope they take into

1912

01:32:55,550 --> 01:32:53,340

account uh cases before 1947 because it

1913

01:32:56,870 --> 01:32:55,560

didn't start that was well

1914

01:32:58,910 --> 01:32:56,880

yeah

1915

01:33:00,530 --> 01:32:58,920

and you know you brought up a good point

1916

01:33:02,149 --> 01:33:00,540

which we've mentioned before on the

1917

01:33:03,770 --> 01:33:02,159

podcast that you know you have this

1918

01:33:06,350 --> 01:33:03,780

organizations

1919

01:33:07,550 --> 01:33:06,360

that have always showed up and taken you

1920

01:33:09,649 --> 01:33:07,560

know evidence and stuff like that

1921

01:33:11,750 --> 01:33:09,659

doesn't give credentials they've always

1922

01:33:15,290 --> 01:33:11,760

done that since the you know as far as

1923

01:33:17,450 --> 01:33:15,300

we know from 1947 on uh and now we have

1924

01:33:19,669 --> 01:33:17,460

Congress putting together these uh you

1925

01:33:22,010 --> 01:33:19,679

know panels and and these groups

1926

01:33:23,689 --> 01:33:22,020

are they going to be battling these

1927

01:33:25,370 --> 01:33:23,699

other organizations that have been doing

1928

01:33:27,050 --> 01:33:25,380

this for so long like are they going to

1929

01:33:28,669 --> 01:33:27,060

be competing against these guys to get

1930

01:33:30,709 --> 01:33:28,679

the information like are they going to

1931

01:33:33,530 --> 01:33:30,719

show up first and collect it before

1932

01:33:36,410 --> 01:33:33,540

Congress appointed committee comes up

1933

01:33:37,910 --> 01:33:36,420

and and investigates themselves so I

1934

01:33:40,070 --> 01:33:37,920

think that's something to watch out for

1935

01:33:43,010 --> 01:33:40,080

in the future as well but what's very

1936

01:33:45,709 --> 01:33:43,020

hopeful is the the fact that something

1937

01:33:49,850 --> 01:33:45,719

that Dr heineck had always recommended

1938

01:33:51,950 --> 01:33:49,860

you know let the witnesses free to to

1939

01:33:53,990 --> 01:33:51,960

talk about what they've seen of course

1940

01:33:56,450 --> 01:33:54,000

you have to put guidelines around that

1941

01:33:59,990 --> 01:33:56,460

because they may have seen a classified

1942

01:34:03,470 --> 01:34:00,000

experiment right uh that

1943

01:34:05,870 --> 01:34:03,480

um you know he's properly closer and you

1944

01:34:09,770 --> 01:34:05,880

know so you have to respect those

1945

01:34:12,950 --> 01:34:09,780

boundaries but when when we know that it

1946

01:34:16,790 --> 01:34:12,960

was not a you know like a classified

1947

01:34:19,850 --> 01:34:16,800

experiment uh that our confidential

1948

01:34:23,209 --> 01:34:19,860

experiment that belongs to a company I

1949

01:34:25,250 --> 01:34:23,219

mean you know companies have industrial

1950

01:34:29,149 --> 01:34:25,260

Secrets somebody could have seen

1951

01:34:32,330 --> 01:34:29,159

something and uh it legally and properly

1952

01:34:35,270 --> 01:34:32,340

has to be depicted and Congress I think

1953

01:34:39,590 --> 01:34:35,280

well are buying that that protection is

1954

01:34:42,229 --> 01:34:39,600

is valid but what about the cases where

1955

01:34:44,689 --> 01:34:42,239

you know one another case like glonnie

1956

01:34:48,410 --> 01:34:44,699

Zamora where obviously what he saw

1957

01:34:50,990 --> 01:34:48,420

wasn't one of ours and you know the the

1958

01:34:54,229 --> 01:34:51,000

Air Force came out and said well you

1959

01:34:57,430 --> 01:34:54,239

know yeah it's not it's not something we

1960

01:35:00,950 --> 01:34:57,440

can do yeah the pilots aren't even ours

1961

01:35:02,750 --> 01:35:00,960

right they were little guys yeah

1962

01:35:04,850 --> 01:35:02,760

uh Louis do you have any final questions

1963

01:35:06,530 --> 01:35:04,860

for our guest today no but I do want to

1964

01:35:08,270 --> 01:35:06,540

do something cool here I want to do a

1965

01:35:09,530 --> 01:35:08,280

little toast because it is our 100th

1966

01:35:11,149 --> 01:35:09,540

episode

1967

01:35:13,129 --> 01:35:11,159

um again we don't it's a lot of hard

1968

01:35:15,229 --> 01:35:13,139

work to get there and I think it's

1969

01:35:17,990 --> 01:35:15,239

because of our viewers and listeners

1970

01:35:19,970 --> 01:35:18,000

that have been dedicated followed us and

1971

01:35:22,129 --> 01:35:19,980

the caliber of the guests and gentlemen

1972

01:35:24,229 --> 01:35:22,139

like Monsieur Jacques valet they speak

1973

01:35:26,990 --> 01:35:24,239

for themselves and we pride ourselves

1974

01:35:30,169 --> 01:35:27,000

very highly on that uh it's easy to just

1975

01:35:32,570 --> 01:35:30,179

do a show easier it's very difficult to

1976

01:35:34,970 --> 01:35:32,580

consistently get people that are busy

1977

01:35:37,250 --> 01:35:34,980

and writing books and attending

1978

01:35:39,649 --> 01:35:37,260

conferences in Saudi Arabia so for them

1979

01:35:41,930 --> 01:35:39,659

to give us a little bit of their time it

1980

01:35:44,390 --> 01:35:41,940

touches us to our hearts so you got

1981

01:35:46,669 --> 01:35:44,400

something to drink Jay I do I do all

1982

01:35:49,990 --> 01:35:46,679

right we got a little champagne grade uh

1983

01:35:53,149 --> 01:35:50,000

um ginger ale here so

1984

01:35:55,669 --> 01:35:53,159

California sparkling water you love it

1985

01:35:58,550 --> 01:35:55,679

nice so this is to another 100 episodes

1986

01:36:00,890 --> 01:35:58,560

to all our fans all our guests and to Mr

1987

01:36:06,530 --> 01:36:00,900

valet cheers

1988

01:36:11,750 --> 01:36:08,410

Jacques you're welcome on this podcast

1989

01:36:13,129 --> 01:36:11,760

anytime you want you call us up at two

1990

01:36:16,310 --> 01:36:13,139

o'clock in the morning you want to do a

1991

01:36:18,470 --> 01:36:16,320

podcast we'll do it absolutely it's been

1992

01:36:20,510 --> 01:36:18,480

a pleasure for sure and thanks again and

1993

01:36:22,370 --> 01:36:20,520

Chuck where can people get your book uh

1994

01:36:25,570 --> 01:36:22,380

Trinity

1995

01:36:28,850 --> 01:36:25,580

um on Amazon Amazon

1996

01:36:32,990 --> 01:36:28,860

perfect on Amazon if you put the title

1997

01:36:35,510 --> 01:36:33,000

in my name uh and again it's co-authored

1998

01:36:39,050 --> 01:36:35,520

with power that Paula Harris who had

1999

01:36:42,830 --> 01:36:39,060

started that that study and brought me

2000

01:36:45,410 --> 01:36:42,840

in uh after three or four years of the

2001

01:36:48,530 --> 01:36:45,420

the initial study brought me in to look

2002

01:36:50,870 --> 01:36:48,540

at the more technical aspects and look

2003

01:36:52,850 --> 01:36:50,880

at the correlations as well nice we had

2004

01:36:54,950 --> 01:36:52,860

Paola on a few episodes back so it's

2005

01:36:56,990 --> 01:36:54,960

nice to have you both both on the

2006

01:36:58,310 --> 01:36:57,000

program it's awesome Jacques valet thank

2007

01:37:00,770 --> 01:36:58,320

you so much for your time and thank you

2008

01:37:02,030 --> 01:37:00,780

for coming on UAP studies today thank

2009

01:37:05,860 --> 01:37:02,040

you

2010

01:37:16,040 --> 01:37:13,990
