PODCAST

A black and white portrait of a middle-aged man with short, light-colored hair, wearing a dark jacket. He has a serious expression and is looking slightly to the right of the camera. The background is blurred. The image is framed by a black border with glowing blue circuit-like patterns on the left and right sides.

ZUKOWSKI**

1
00:00:05,870 --> 00:00:02,270

00:00:10,190 --> 00:00:07,799
legend UFO Hunter I mean this guy's a

4
00:00:12,350 --> 00:00:10,200
former police officer trained Observer

5
00:00:14,990 --> 00:00:12,360

6
00:00:17,450 --> 00:00:15,000
UFOs for 35 years he's had TV programs

7
00:00:19,310 --> 00:00:17,460

8
00:00:21,830 --> 00:00:19,320
he's got a cool blog we were chatting

9
00:00:24,230 --> 00:00:21,840
with the UFO nut himself Mr Chuck

10
00:00:25,970 --> 00:00:24,240
Zukowski and uh Jason you've chatted

11
00:00:29,150 --> 00:00:25,980
with him before right early on in UAP

12
00:00:31,189 --> 00:00:29,160
studies podcast life yeah uh early on he

13
00:00:33,590 --> 00:00:31,199

was actually gracious enough to uh join

14

00:00:36,110 --> 00:00:33,600

me when I first started the podcast I

15

00:00:37,729 --> 00:00:36,120

was by myself complete loser nobody was

16

00:00:40,130 --> 00:00:37,739

listening to me and he still came on the

17

00:00:42,709 --> 00:00:40,140

podcast and did I think two interviews

18

00:00:44,150 --> 00:00:42,719

with us at the time so it's great to you

19

00:00:46,430 --> 00:00:44,160

know come full circle now that

20

00:00:48,950 --> 00:00:46,440

everybody's here have him back on again

21

00:00:50,510 --> 00:00:48,960

and get to talk with him again for sure

22

00:00:51,889 --> 00:00:50,520

yeah and I'm sure it promises to be an

23

00:00:54,470 --> 00:00:51,899

interesting episode Chuck's always got

24

00:00:56,090 --> 00:00:54,480

lots to say and he's a fact-based guy he

25

00:00:58,189 --> 00:00:56,100

doesn't get too out there with opinion

26
00:01:00,350 --> 00:00:58,199
but goes where the evidence is he's our

27
00:01:07,270 --> 00:01:00,360
kind of guy so we'll be right back Mr

28
00:01:25,910 --> 00:01:21,080
[Music]

29
00:01:29,390 --> 00:01:27,530
all right welcome back everybody to

30
00:01:31,609 --> 00:01:29,400
another episode of UAP studies podcast

31
00:01:33,590 --> 00:01:31,619
my name is Louis Borges joining me as

32
00:01:35,929 --> 00:01:33,600
always my good friend and illustrious

33
00:01:38,630 --> 00:01:35,939
co-host Jason Gilman how are you good

34
00:01:40,609 --> 00:01:38,640
I'm doing very good how are you I'm good

35
00:01:42,710 --> 00:01:40,619
this is an evening recording which we

36
00:01:44,210 --> 00:01:42,720
don't usually do so it's kind of feels

37
00:01:46,550 --> 00:01:44,220
different it's dark outside in winter

38
00:01:48,350 --> 00:01:46,560

time but uh I'm a little thrown off yeah

39

00:01:49,730 --> 00:01:48,360

yeah exactly we're still doing what we

40

00:01:52,069 --> 00:01:49,740

do we're talking to big name people

41

00:01:54,289 --> 00:01:52,079

really intelligent Minds trained

42

00:01:56,929 --> 00:01:54,299

observers in fact no more train and

43

00:01:59,690 --> 00:01:56,939

zerber would be a police officer we have

44

00:02:01,429 --> 00:01:59,700

a former one who knows the stigma that

45

00:02:03,770 --> 00:02:01,439

you know is associated with discussing

46

00:02:05,510 --> 00:02:03,780

this topic or even researching this kind

47

00:02:07,730 --> 00:02:05,520

of thing and a lot of you might

48

00:02:09,830 --> 00:02:07,740

recognize them from shows like alien

49

00:02:12,410 --> 00:02:09,840

highway and books written about him like

50

00:02:14,449 --> 00:02:12,420

the 37 parallels so we're very excited

51
00:02:17,270 --> 00:02:14,459
to have back on the show again Mr Chuck

52
00:02:18,770 --> 00:02:17,280
Zukowski hey thank you very much thank

53
00:02:21,050 --> 00:02:18,780
you for having me on your show and

54
00:02:25,250 --> 00:02:21,060
thanks for pronouncing my last name

55
00:02:27,170 --> 00:02:25,260
correctly is it polish uh it is it's

56
00:02:29,630 --> 00:02:27,180
well actually it's Polish Russian

57
00:02:33,290 --> 00:02:29,640
depending on that time of a century

58
00:02:36,589 --> 00:02:33,300
where either Russia occupied Poland sure

59
00:02:39,710 --> 00:02:36,599
Poland occupied Poland but uh it's it's

60
00:02:42,410 --> 00:02:39,720
kind of I'm actually uh a Mexican

61
00:02:44,770 --> 00:02:42,420
Pollock so uh I heard the same joke

62
00:02:47,150 --> 00:02:44,780
twice yeah

63
00:02:49,550 --> 00:02:47,160

two Pollocks walk in the bar two

64

00:02:51,729 --> 00:02:49,560

Mexicans walking a bar it's an

65

00:02:56,509 --> 00:02:51,739

interesting thing my dad was polish and

66

00:02:59,270 --> 00:02:56,519

my mom about hispanic Mexican so uh uh

67

00:03:01,309 --> 00:02:59,280

you know kind of grew up in a kind of a

68

00:03:04,070 --> 00:03:01,319

rich environment you know Polish

69

00:03:08,390 --> 00:03:04,080

sausages rolled up in tortillas yeah oh

70

00:03:11,690 --> 00:03:08,400

nice hybrid food at its best yes colon

71

00:03:13,610 --> 00:03:11,700

blockers if anything right yes the UFOs

72

00:03:16,070 --> 00:03:13,620

and all this crazy stuff I mean you had

73

00:03:18,350 --> 00:03:16,080

a normal job you were a police officer a

74

00:03:19,910 --> 00:03:18,360

regular dude and then what happened

75

00:03:22,910 --> 00:03:19,920

actually

76

00:03:25,009 --> 00:03:22,920

um the the police officer stuff it was a

77

00:03:27,229 --> 00:03:25,019

volunteer I was the volunteer deputy

78

00:03:30,410 --> 00:03:27,239

sheriff for eight eight years

79

00:03:33,290 --> 00:03:30,420

um I've always been uh UFO investigator

80

00:03:37,009 --> 00:03:33,300

a researcher performance how about 35

81

00:03:39,350 --> 00:03:37,019

years uh my day job is uh I see Mass

82

00:03:41,030 --> 00:03:39,360

design engineer I design microchips

83

00:03:45,410 --> 00:03:41,040

so I've been doing that just over 30

84

00:03:47,990 --> 00:03:45,420

years and so as a UFO investigator uh

85

00:03:49,809 --> 00:03:48,000

being involved in microchip design and

86

00:03:55,009 --> 00:03:49,819

some of the projects I've been on from

87

00:03:57,170 --> 00:03:55,019

uh spy satellites DOD projects to lidar

88

00:03:59,630 --> 00:03:57,180

systems is something as simple as this

89

00:04:03,110 --> 00:03:59,640

traffic light controllers it gives me an

90

00:04:05,750 --> 00:04:03,120

opportunity of seeing what technology we

91

00:04:08,509 --> 00:04:05,760

should have and the technology we should

92

00:04:10,190 --> 00:04:08,519

have in the next you know decade or so

93

00:04:13,850 --> 00:04:10,200

compared to some of the technology

94

00:04:14,990 --> 00:04:13,860

that's flying around out there and uh so

95

00:04:17,810 --> 00:04:15,000

it's really interesting I get a little

96

00:04:20,210 --> 00:04:17,820

bit better perspective when I became a

97

00:04:22,550 --> 00:04:20,220

deputy

98

00:04:25,189 --> 00:04:22,560

um I learned other things too which was

99

00:04:27,350 --> 00:04:25,199

you know which was really helpful in the

100

00:04:31,270 --> 00:04:27,360

UFO Community which is basically

101
00:04:35,270 --> 00:04:31,280
learning to read people's uh you know uh

102
00:04:38,150 --> 00:04:35,280
faces and and voices and and the way

103
00:04:40,909 --> 00:04:38,160
they move their uh you know uh their

104
00:04:42,890 --> 00:04:40,919
body language basically uh it really

105
00:04:44,650 --> 00:04:42,900
helps out because in some cases when

106
00:04:49,010 --> 00:04:44,660
you're interviewing someone you can tell

107
00:04:51,590 --> 00:04:49,020
pretty pretty much if they're maybe not

108
00:04:54,650 --> 00:04:51,600
telling the whole truth or or you know

109
00:04:56,450 --> 00:04:54,660
or or just basically lying just just

110
00:05:00,050 --> 00:04:56,460
based on on you know their body

111
00:05:03,710 --> 00:05:00,060
movements and stuff but uh it also

112
00:05:06,350 --> 00:05:03,720
helped me out being a a deputy from

113
00:05:08,150 --> 00:05:06,360

being a UFO investigator because I've

114

00:05:11,030 --> 00:05:08,160

talked to so many people as an

115

00:05:14,030 --> 00:05:11,040

investigator uh I have that Gift of Gab

116

00:05:16,010 --> 00:05:14,040

so it was really easy for me as a deputy

117

00:05:17,870 --> 00:05:16,020

and I think out of the eight years I

118

00:05:20,090 --> 00:05:17,880

didn't really write a lot of tickets I

119

00:05:23,390 --> 00:05:20,100

was being a volunteer I was more

120

00:05:25,189 --> 00:05:23,400

concerned about enlightening and

121

00:05:28,430 --> 00:05:25,199

teaching people and unless they really

122

00:05:30,469 --> 00:05:28,440

did something you know really wrong you

123

00:05:32,570 --> 00:05:30,479

know I basically spend most of the time

124

00:05:35,870 --> 00:05:32,580

uh just telling you you know this is

125

00:05:38,330 --> 00:05:35,880

what you did wrong and trying to to uh

126

00:05:40,570 --> 00:05:38,340

you know correct things so

127

00:05:43,550 --> 00:05:40,580

not too bad

128

00:05:45,050 --> 00:05:43,560

and so basically the obsession well I

129

00:05:47,629 --> 00:05:45,060

wouldn't say well it is an obsession it

130

00:05:49,909 --> 00:05:47,639

has to be an obsession right to uh get

131

00:05:52,909 --> 00:05:49,919

this involved into it I mean you you

132

00:05:56,450 --> 00:05:52,919

were an investigator for over 30 35

133

00:05:57,890 --> 00:05:56,460

years now yeah um yeah so and you were

134

00:06:00,350 --> 00:05:57,900

doing this at a point where like the

135

00:06:02,090 --> 00:06:00,360

stigma was I mean it's okay for us now

136

00:06:04,850 --> 00:06:02,100

to come out as you know podcasters

137

00:06:06,529 --> 00:06:04,860

researchers investigators because it's

138

00:06:08,510 --> 00:06:06,539

safe you know because Pioneers like you

139

00:06:10,909 --> 00:06:08,520

guys are the ones that really took the

140

00:06:13,189 --> 00:06:10,919

brunt of you know the

141

00:06:17,150 --> 00:06:13,199

the cold shoulder that came with the

142

00:06:18,650 --> 00:06:17,160

territory of ufology right and uh how

143

00:06:20,510 --> 00:06:18,660

did that feel like how does that feel

144

00:06:22,370 --> 00:06:20,520

now like is there have you noticed that

145

00:06:25,189 --> 00:06:22,380

there's more of a warmth towards it now

146

00:06:27,110 --> 00:06:25,199

like is it getting better well it's uh

147

00:06:28,189 --> 00:06:27,120

it's you know what I first started doing

148

00:06:30,469 --> 00:06:28,199

this

149

00:06:34,370 --> 00:06:30,479

um actually I you know I got heavy into

150

00:06:35,390 --> 00:06:34,380

uh to UFO investigations well probably

151
00:06:39,650 --> 00:06:35,400
about

152
00:06:43,370 --> 00:06:39,660
ago

153
00:06:46,670 --> 00:06:43,380
um into uh you know getting a website uh

154
00:06:50,450 --> 00:06:46,680
my website UFO nuts been uh for about 24

155
00:06:53,510 --> 00:06:50,460
years and I picked UFO nut because when

156
00:06:55,189 --> 00:06:53,520
I first started doing this uh you know

157
00:06:56,890 --> 00:06:55,199
having the field investigations people

158
00:06:59,830 --> 00:06:56,900
were calling me a nut

159
00:07:03,350 --> 00:06:59,840
and instead of

160
00:07:06,469 --> 00:07:03,360
disregarding that and and not listening

161
00:07:08,870 --> 00:07:06,479
to the people and and getting all you

162
00:07:11,150 --> 00:07:08,880
know emotional about it I decided to

163
00:07:13,370 --> 00:07:11,160

what the hell you know I own it you know

164

00:07:15,230 --> 00:07:13,380

I'm you know I'm a Nut basically I you

165

00:07:17,390 --> 00:07:15,240

know I've investigated a lot of this

166

00:07:20,629 --> 00:07:17,400

stuff people think I'm crazy

167

00:07:23,930 --> 00:07:20,639

um so I created a website from it and

168

00:07:26,390 --> 00:07:23,940

and over the years the the UFO net

169

00:07:29,029 --> 00:07:26,400

became an acronym for unconventional

170

00:07:31,550 --> 00:07:29,039

flying objects uh non-human

171

00:07:35,029 --> 00:07:31,560

unrecognizable technology I had to throw

172

00:07:36,770 --> 00:07:35,039

together an acronym but you know when

173

00:07:38,570 --> 00:07:36,780

you own something like that my license

174

00:07:40,969 --> 00:07:38,580

plate even the ones I have from

175

00:07:44,029 --> 00:07:40,979

California I know yeah we can see them

176

00:07:46,249 --> 00:07:44,039

UFO lover UFO nuts

177

00:07:49,670 --> 00:07:46,259

best dated years ago when I lived in

178

00:07:52,309 --> 00:07:49,680

California over 20 24 years ago

179

00:07:53,990 --> 00:07:52,319

um you know I just I put myself out

180

00:07:56,210 --> 00:07:54,000

there and it's really interesting when

181

00:07:59,270 --> 00:07:56,220

you do the amount of people that'll come

182

00:08:02,210 --> 00:07:59,280

talk to you over the years now because

183

00:08:04,610 --> 00:08:02,220

of what's been happening in the past few

184

00:08:06,230 --> 00:08:04,620

years with the Pentagon pretty much

185

00:08:09,589 --> 00:08:06,240

getting serious and you know

186

00:08:12,110 --> 00:08:09,599

investigating UFOs it's more of that aha

187

00:08:13,309 --> 00:08:12,120

moment for me like I told you so you

188

00:08:15,710 --> 00:08:13,319

know I told you there was something

189

00:08:16,909 --> 00:08:15,720

flying around out here you know I told

190

00:08:19,550 --> 00:08:16,919

you there's a there's a lot of

191

00:08:21,830 --> 00:08:19,560

interesting things and phenomenal yeah

192

00:08:23,689 --> 00:08:21,840

things going on out of here and you guys

193

00:08:26,270 --> 00:08:23,699

kind of just laughed at me and now who's

194

00:08:28,730 --> 00:08:26,280

laughing the Vindication is kind of

195

00:08:30,529 --> 00:08:28,740

laughing back at you yeah

196

00:08:32,709 --> 00:08:30,539

because he even had the boots on the

197

00:08:34,850 --> 00:08:32,719

ground investigating cattle mutilations

198

00:08:36,529 --> 00:08:34,860

which you know it's not really common

199

00:08:39,050 --> 00:08:36,539

this side of the border on you know on

200

00:08:41,510 --> 00:08:39,060

the Canadian side but it does happen uh

201
00:08:44,449 --> 00:08:41,520
but it happens a lot on the you know you

202
00:08:46,250 --> 00:08:44,459
discover the 37th uh was it degree

203
00:08:47,630 --> 00:08:46,260
latitude parallel

204
00:08:50,030 --> 00:08:47,640
um that you discovered there was a trend

205
00:08:52,670 --> 00:08:50,040
there um is that still active

206
00:08:54,410 --> 00:08:52,680
it is I mean what's interesting is

207
00:08:58,130 --> 00:08:54,420
actually

208
00:09:01,750 --> 00:08:58,140
um I've kind of like uh taken that

209
00:09:06,050 --> 00:09:01,760
particular uh Ferry 37 degree latitude

210
00:09:09,290 --> 00:09:06,060
and matured more over the past few years

211
00:09:12,230 --> 00:09:09,300
uh because the more uh you know the more

212
00:09:14,389 --> 00:09:12,240
investigations I do the more I learn

213
00:09:16,130 --> 00:09:14,399

Ed a 37 degree latitude was one of those

214

00:09:18,530 --> 00:09:16,140

moments like

215

00:09:21,350 --> 00:09:18,540

um okay something's going on

216

00:09:24,590 --> 00:09:21,360

you know uh this this latitude shooting

217

00:09:27,710 --> 00:09:24,600

across the United States besides excuse

218

00:09:31,190 --> 00:09:27,720

me having that you know catalations UFO

219

00:09:33,470 --> 00:09:31,200

sightings underground bases Ferry 51 you

220

00:09:36,410 --> 00:09:33,480

know one of them uh a lot of military

221

00:09:39,410 --> 00:09:36,420

stuff a lot of Native American spiritual

222

00:09:40,970 --> 00:09:39,420

sites and I started looking at that

223

00:09:42,829 --> 00:09:40,980

going okay there's something going on

224

00:09:45,110 --> 00:09:42,839

here what is it

225

00:09:48,650 --> 00:09:45,120

and the more you look into the more you

226

00:09:51,590 --> 00:09:48,660

have to think okay why there

227

00:09:54,230 --> 00:09:51,600

now you know what's what's the common

228

00:09:56,570 --> 00:09:54,240

denominator now as a UFO investigator

229

00:09:58,130 --> 00:09:56,580

one of the things I've always learned is

230

00:10:00,050 --> 00:09:58,140

when you interview people and then this

231

00:10:03,110 --> 00:10:00,060

is the case too when you're when you're

232

00:10:06,170 --> 00:10:03,120

your top two but if you interview three

233

00:10:09,170 --> 00:10:06,180

separate people about the same crime

234

00:10:11,329 --> 00:10:09,180

that they they you know they saw or they

235

00:10:14,269 --> 00:10:11,339

witnessed or three people who actually

236

00:10:16,670 --> 00:10:14,279

saw UFO sighting you're gonna get

237

00:10:19,310 --> 00:10:16,680

basically three different sides of their

238

00:10:20,690 --> 00:10:19,320

stories okay it's not going to be one

239

00:10:23,030 --> 00:10:20,700

for one

240

00:10:26,030 --> 00:10:23,040

but what I learned as a UFO investigator

241

00:10:28,490 --> 00:10:26,040

that I had helped me you know with when

242

00:10:31,670 --> 00:10:28,500

I was in law enforcement is

243

00:10:33,230 --> 00:10:31,680

you don't take each story word for word

244

00:10:34,970 --> 00:10:33,240

if it's coming from two or three

245

00:10:36,410 --> 00:10:34,980

different people because it's going to

246

00:10:39,230 --> 00:10:36,420

be all slightly different but what you

247

00:10:41,570 --> 00:10:39,240

do is you find commonalities in every

248

00:10:43,370 --> 00:10:41,580

one of their stories and you focus on

249

00:10:45,050 --> 00:10:43,380

that with commonalities

250

00:10:47,690 --> 00:10:45,060

that's really a way that you can

251

00:10:49,490 --> 00:10:47,700

actually start investigating if it's a

252

00:10:52,009 --> 00:10:49,500

crime or you're investigating you know a

253

00:10:55,430 --> 00:10:52,019

UFO because you'd be all over the place

254

00:10:56,990 --> 00:10:55,440

you know someone said it was you know uh

255

00:10:58,910 --> 00:10:57,000

you know North and the other place the

256

00:11:01,250 --> 00:10:58,920

East and you know it was this color or

257

00:11:02,750 --> 00:11:01,260

that color but but when you look at the

258

00:11:03,949 --> 00:11:02,760

commonality there then you want to focus

259

00:11:05,210 --> 00:11:03,959

on that at least it gives you something

260

00:11:08,269 --> 00:11:05,220

to go on

261

00:11:11,389 --> 00:11:08,279

so um that's something that I've always

262

00:11:14,449 --> 00:11:11,399

been doing in nephology now with a 37th

263

00:11:18,050 --> 00:11:14,459

degree latitude I was looking at okay so

264

00:11:21,730 --> 00:11:18,060

what's common with all this besides the

265

00:11:24,710 --> 00:11:21,740

underground bases and and uh you know

266

00:11:26,870 --> 00:11:24,720

the UFO sightings and animal meets and

267

00:11:29,690 --> 00:11:26,880

stuff that's just the top part that's

268

00:11:32,990 --> 00:11:29,700

just the icing of the cake why is all

269

00:11:34,790 --> 00:11:33,000

that happening you know gone this 37

270

00:11:36,889 --> 00:11:34,800

it's actually a little bit in the 38th a

271

00:11:37,970 --> 00:11:36,899

little bit in 36.

272

00:11:41,449 --> 00:11:37,980

um

273

00:11:44,389 --> 00:11:41,459

I I start looking at the geology of of

274

00:11:47,410 --> 00:11:44,399

of that and soon found out that the

275

00:11:50,030 --> 00:11:47,420

majority of aquifers you know underwater

276

00:11:52,730 --> 00:11:50,040

uh you know containment

277

00:11:56,509 --> 00:11:52,740

places you know you can hit every one of

278

00:12:00,410 --> 00:11:56,519

our aquifers across the United States on

279

00:12:05,030 --> 00:12:00,420

the 37-3 latitude and then

280

00:12:05,630 --> 00:12:05,040

I've always thought that UFOs were

281

00:12:09,110 --> 00:12:05,640

um

282

00:12:11,210 --> 00:12:09,120

you know they like to water they they

283

00:12:13,190 --> 00:12:11,220

hung around water a lot

284

00:12:14,810 --> 00:12:13,200

for whatever reason and it didn't have

285

00:12:17,269 --> 00:12:14,820

to be deep it could be a couple of three

286

00:12:19,310 --> 00:12:17,279

inches deep you know if it's a stream or

287

00:12:20,810 --> 00:12:19,320

a water trough or something but seeing a

288

00:12:21,949 --> 00:12:20,820

lot of sightings were around water

289

00:12:24,590 --> 00:12:21,959

sources

290

00:12:27,230 --> 00:12:24,600

so I started thinking about hydrogen you

291

00:12:28,970 --> 00:12:27,240

know something that that easily you know

292

00:12:31,670 --> 00:12:28,980

accessible

293

00:12:33,590 --> 00:12:31,680

from uh you know from water and then

294

00:12:37,430 --> 00:12:33,600

then you start looking okay well you

295

00:12:40,250 --> 00:12:37,440

have water sources across 37 hydrogen is

296

00:12:42,769 --> 00:12:40,260

there because it's in the water then the

297

00:12:45,769 --> 00:12:42,779

next step you know as a more I matured

298

00:12:47,569 --> 00:12:45,779

more and more you know on that theory I

299

00:12:50,269 --> 00:12:47,579

learned that uh there's a lot of

300

00:12:53,210 --> 00:12:50,279

underground petroleum base

301

00:12:56,930 --> 00:12:53,220

uh reserves you know are just Pockets

302

00:12:59,629 --> 00:12:56,940

you know um and uh

303

00:13:02,150 --> 00:12:59,639

so now you have petroleum also now

304

00:13:04,730 --> 00:13:02,160

hydrogen can be extracted from petroleum

305

00:13:07,870 --> 00:13:04,740

and hydrogen can be extracted easily

306

00:13:10,970 --> 00:13:07,880

from uh water hydrogen can't be

307

00:13:13,250 --> 00:13:10,980

extracted from our oxygen or our air

308

00:13:15,710 --> 00:13:13,260

because we don't have that much hydrogen

309

00:13:17,750 --> 00:13:15,720

in our in our air that we breathe you

310

00:13:20,269 --> 00:13:17,760

know we have uh it's a lot of nitrogen

311

00:13:24,550 --> 00:13:20,279

it's a lot of oxygen but not hydrogen

312

00:13:28,129 --> 00:13:24,560

but so if an alien

313

00:13:31,490 --> 00:13:28,139

species needed a hydrogen for propulsion

314

00:13:34,550 --> 00:13:31,500

or to breathe or whatever they can't

315

00:13:36,829 --> 00:13:34,560

easily access it just from our

316

00:13:38,509 --> 00:13:36,839

atmosphere just from our from what we

317

00:13:40,850 --> 00:13:38,519

breathe so that means they'd have to get

318

00:13:44,170 --> 00:13:40,860

it from water and they could get it from

319

00:13:47,329 --> 00:13:44,180

uh you know natural resources you know

320

00:13:50,090 --> 00:13:47,339

petroleum-based resources so it's uh

321

00:13:52,250 --> 00:13:50,100

it's progressing more and more now and

322

00:13:55,129 --> 00:13:52,260

I've I'm either progressing beyond that

323

00:13:57,230 --> 00:13:55,139

too it makes a lot of sense though right

324

00:13:59,329 --> 00:13:57,240

like hydrogen being such a basic element

325

00:14:02,150 --> 00:13:59,339

it's like the number one on the periodic

326

00:14:03,949 --> 00:14:02,160

table it's probably the most abundant in

327

00:14:05,870 --> 00:14:03,959

the universe so if you were going to

328

00:14:08,210 --> 00:14:05,880

make a machine that went Interstellar

329

00:14:10,250 --> 00:14:08,220

you should base it on a fuel that you

330

00:14:11,810 --> 00:14:10,260

could get just about anywhere

331

00:14:13,670 --> 00:14:11,820

um so there's a lot of credence to that

332

00:14:17,269 --> 00:14:13,680

yeah absolutely matter of fact in the

333

00:14:19,310 --> 00:14:17,279

past couple years uh NASA has determined

334

00:14:20,690 --> 00:14:19,320

that there's more hydrogen space than

335

00:14:23,690 --> 00:14:20,700

they thought

336

00:14:25,430 --> 00:14:23,700

so space itself is just full of hydrogen

337

00:14:27,710 --> 00:14:25,440

and then when you come here to this

338

00:14:31,069 --> 00:14:27,720

planet you know it's really hard for

339

00:14:33,470 --> 00:14:31,079

people to to realize you know our

340

00:14:35,449 --> 00:14:33,480

um our planet is covered with water what

341

00:14:38,269 --> 00:14:35,459

70 over 70 percent right covered with

342

00:14:40,850 --> 00:14:38,279

water what they don't realize is there's

343

00:14:43,329 --> 00:14:40,860

more water underground than what we see

344

00:14:46,370 --> 00:14:43,339

above the ground

345

00:14:47,689 --> 00:14:46,380

what you know there's there's more I

346

00:14:49,009 --> 00:14:47,699

thought that's what we you know the

347

00:14:50,750 --> 00:14:49,019

oceans I thought that was that no

348

00:14:53,689 --> 00:14:50,760

there's there's more underground water

349

00:14:56,990 --> 00:14:53,699

than we see above ground so we're very

350

00:15:00,590 --> 00:14:57,000

very hydrogen enriched planet now when

351
00:15:03,470 --> 00:15:00,600
you look at our natural resources uh you

352
00:15:05,350 --> 00:15:03,480
know uh with with oil or you know any

353
00:15:07,430 --> 00:15:05,360
type of petroleum-based product or

354
00:15:10,970 --> 00:15:07,440
petroleum-based source

355
00:15:13,370 --> 00:15:10,980
if you you can extract hydrogen

356
00:15:16,550 --> 00:15:13,380
hydrocarbons from that

357
00:15:20,090 --> 00:15:16,560
and which led me to another theory back

358
00:15:20,990 --> 00:15:20,100
in November of last year that

359
00:15:25,790 --> 00:15:21,000
um

360
00:15:29,990 --> 00:15:25,800
I think we would be able to find

361
00:15:33,050 --> 00:15:30,000
skin walker type places or or paranormal

362
00:15:36,410 --> 00:15:33,060
properties if you will across the U.S

363
00:15:38,750 --> 00:15:36,420

just based on a couple of things first

364

00:15:41,750 --> 00:15:38,760

off you look at water or you look at

365

00:15:44,750 --> 00:15:41,760

petroleum uh your reserve areas where

366

00:15:47,569 --> 00:15:44,760

they're extracting oil from

367

00:15:50,389 --> 00:15:47,579

in those areas if we happen to have

368

00:15:53,810 --> 00:15:50,399

higher levels of EMF electromagnetic

369

00:15:57,710 --> 00:15:53,820

fields that means there's some type of

370

00:16:00,110 --> 00:15:57,720

of apparatus let's say that's extracting

371

00:16:03,590 --> 00:16:00,120

you know hydrogen from that increasing

372

00:16:06,290 --> 00:16:03,600

and creating an EMF field or EMF em

373

00:16:08,569 --> 00:16:06,300

filled excuse me yeah and

374

00:16:11,509 --> 00:16:08,579

so you look at those areas if you have a

375

00:16:13,990 --> 00:16:11,519

high level of electromagnetic field in a

376

00:16:17,509 --> 00:16:14,000

certain area and that certain areas got

377

00:16:20,810 --> 00:16:17,519

pockets of hydrogen or water or you know

378

00:16:23,750 --> 00:16:20,820

natural resources crude oil or you know

379

00:16:27,889 --> 00:16:23,760

natural gas that might be an area to

380

00:16:29,990 --> 00:16:27,899

look at especially if there's been UFO

381

00:16:31,610 --> 00:16:30,000

sightings in that area so you kind of

382

00:16:34,550 --> 00:16:31,620

tie the three together

383

00:16:37,610 --> 00:16:34,560

if if you if you have an area where

384

00:16:39,769 --> 00:16:37,620

there's high levels of UFO sightings and

385

00:16:42,110 --> 00:16:39,779

there's water there and there's natural

386

00:16:44,150 --> 00:16:42,120

resources there that might be an area

387

00:16:46,370 --> 00:16:44,160

where there could be a base so there

388

00:16:48,170 --> 00:16:46,380

could be a truck stop if you will or

389

00:16:50,870 --> 00:16:48,180

something and that would be one of the

390

00:16:54,970 --> 00:16:50,880

places to look at the Skinwalker Ranch

391

00:16:58,310 --> 00:16:54,980

in Utah sits right on oil Reserve

392

00:16:59,870 --> 00:16:58,320

San Luis Valley here in Colorado sits

393

00:17:03,350 --> 00:16:59,880

right on water

394

00:17:04,850 --> 00:17:03,360

you know uh there's there's you know

395

00:17:08,990 --> 00:17:04,860

Bradford Ranch

396

00:17:11,030 --> 00:17:09,000

in Arizona sits on water and oil I mean

397

00:17:12,829 --> 00:17:11,040

there's so there's there's areas where

398

00:17:14,510 --> 00:17:12,839

you and I know a couple other ones I

399

00:17:15,829 --> 00:17:14,520

can't I can't mention on this podcast

400

00:17:17,090 --> 00:17:15,839

but

401
00:17:20,270 --> 00:17:17,100
um

402
00:17:22,309 --> 00:17:20,280
that's something to look at but you know

403
00:17:23,990 --> 00:17:22,319
you people have to understand that that

404
00:17:25,789 --> 00:17:24,000
there's no books that are written on

405
00:17:29,090 --> 00:17:25,799
this we you know we're making this up as

406
00:17:32,270 --> 00:17:29,100
we go along and we're making it up based

407
00:17:35,870 --> 00:17:32,280
on our best guesses and all data and I

408
00:17:37,970 --> 00:17:35,880
like to look at data myself because that

409
00:17:40,610 --> 00:17:37,980
makes it a lot harder for debunkers and

410
00:17:43,070 --> 00:17:40,620
Skeptics to throw wrenches in your ideas

411
00:17:46,730 --> 00:17:43,080
where you say you know um

412
00:17:49,750 --> 00:17:46,740
in November 12 2021 I have a a Blog

413
00:17:52,789 --> 00:17:49,760

that's called alien hydrogen hypothesis

414

00:17:54,409 --> 00:17:52,799

the game changer and if you read that

415

00:17:58,190 --> 00:17:54,419

blog

416

00:18:00,770 --> 00:17:58,200

I show actual you know maps of where the

417

00:18:03,770 --> 00:18:00,780

water is and and where Oil reserves are

418

00:18:08,390 --> 00:18:03,780

and areas where where there's you know

419

00:18:10,190 --> 00:18:08,400

uh UFO sightings and bases and I just

420

00:18:13,130 --> 00:18:10,200

give it you know give it right after to

421

00:18:14,630 --> 00:18:13,140

the public and say look you know there's

422

00:18:17,930 --> 00:18:14,640

something to this

423

00:18:20,630 --> 00:18:17,940

uh and maybe we should look at that

424

00:18:22,549 --> 00:18:20,640

yeah and how about mines have you

425

00:18:25,010 --> 00:18:22,559

noticed any connection with Minds

426

00:18:27,890 --> 00:18:25,020

because I've spoken to a few people uh

427

00:18:29,570 --> 00:18:27,900

that worked at mines and said that

428

00:18:31,610 --> 00:18:29,580

they've seen some stuff you know at

429

00:18:34,310 --> 00:18:31,620

night uh they would see black triangles

430

00:18:36,110 --> 00:18:34,320

I've even putting a feel out there um

431

00:18:38,330 --> 00:18:36,120

you know when I was a kid I've lived in

432

00:18:39,590 --> 00:18:38,340

a mining town that's where I saw my

433

00:18:43,070 --> 00:18:39,600

first UFO

434

00:18:46,070 --> 00:18:43,080

and uh very up close and personal so it

435

00:18:47,750 --> 00:18:46,080

was you know to me always adamant on

436

00:18:49,070 --> 00:18:47,760

looking at Minds like what's the

437

00:18:51,470 --> 00:18:49,080

connection there because they seemed to

438

00:18:53,570 --> 00:18:51,480

be attracted to minerals as well so is

439

00:18:55,549 --> 00:18:53,580

there a lot of those along the uh the

440

00:18:58,789 --> 00:18:55,559

pathway as well like on the 37th

441

00:19:02,090 --> 00:18:58,799

parallel well not so much man-made

442

00:19:05,029 --> 00:19:02,100

you know the minds or crevices more like

443

00:19:07,430 --> 00:19:05,039

caves right underground water sources

444

00:19:09,169 --> 00:19:07,440

there's a lot you know especially when

445

00:19:12,289 --> 00:19:09,179

you get into Missouri when the Merrimack

446

00:19:13,669 --> 00:19:12,299

caverns and you know Joplin spook lights

447

00:19:17,210 --> 00:19:13,679

even that's in an area where there's a

448

00:19:21,350 --> 00:19:17,220

lot of caverns uh Dulce New Mexico you

449

00:19:23,870 --> 00:19:21,360

know there's Caverns there there's uh

450

00:19:26,690 --> 00:19:23,880

mines in particular that kind of falls

451
00:19:29,230 --> 00:19:26,700
into another Ferry

452
00:19:31,669 --> 00:19:29,240
um and that goes back to uh you know

453
00:19:32,690 --> 00:19:31,679
she's and I'm trying to remember his

454
00:19:35,289 --> 00:19:32,700
name

455
00:19:38,270 --> 00:19:35,299
who wrote the 12th Planet

456
00:19:40,730 --> 00:19:38,280
uh you know he goes back to the stories

457
00:19:42,110 --> 00:19:40,740
of the ancient Sumerians

458
00:19:45,049 --> 00:19:42,120
um

459
00:19:46,490 --> 00:19:45,059
in in in in in their writings they

460
00:19:48,710 --> 00:19:46,500
basically said

461
00:19:50,810 --> 00:19:48,720
and this is just crazy stuff you know

462
00:19:52,370 --> 00:19:50,820
yeah but you know but this is what the

463
00:19:54,470 --> 00:19:52,380

ancient civilians talked about that

464

00:19:56,810 --> 00:19:54,480

there was there were beings that came to

465

00:20:00,350 --> 00:19:56,820

this planet and at the time they were

466

00:20:01,909 --> 00:20:00,360

like these walking upright hominids you

467

00:20:05,510 --> 00:20:01,919

know sort of like a lot of Bigfoots you

468

00:20:09,049 --> 00:20:05,520

know running around and and uh they

469

00:20:11,870 --> 00:20:09,059

cross you know DNA with those guys and

470

00:20:14,570 --> 00:20:11,880

created kind of like slaves to to mine

471

00:20:17,510 --> 00:20:14,580

uh what we call Gold in what we call

472

00:20:19,610 --> 00:20:17,520

Africa now and ancient Sumerians talk

473

00:20:20,690 --> 00:20:19,620

about that

474

00:20:23,690 --> 00:20:20,700

um

475

00:20:25,549 --> 00:20:23,700

the reason why supposedly they mined the

476

00:20:29,029 --> 00:20:25,559

gold was

477

00:20:30,169 --> 00:20:29,039

to repair the atmosphere on their own

478

00:20:32,150 --> 00:20:30,179

planet

479

00:20:33,710 --> 00:20:32,160

and you know these are great stories and

480

00:20:38,090 --> 00:20:33,720

it's stuff that I've you know I've read

481

00:20:40,730 --> 00:20:38,100

25 30 years ago but I just I just so so

482

00:20:42,590 --> 00:20:40,740

sorry I just drew the complete block on

483

00:20:47,770 --> 00:20:42,600

the author but he wrote A Few books

484

00:20:53,150 --> 00:20:50,390

thank you very much my man he always

485

00:20:54,950 --> 00:20:53,160

knows the names yeah you know I met him

486

00:20:57,529 --> 00:20:54,960

and it got him to sign one of the books

487

00:20:59,750 --> 00:20:57,539

he's such a cool guy luckily I got to

488

00:21:02,150 --> 00:20:59,760

meet him before he passed but he

489

00:21:05,750 --> 00:21:02,160

basically was just looking at Scrolls

490

00:21:08,570 --> 00:21:05,760

that were you know dug up and he was

491

00:21:10,970 --> 00:21:08,580

just reading um decipherium Verbatim

492

00:21:13,310 --> 00:21:10,980

what they were saying uh the Skeptics

493

00:21:15,470 --> 00:21:13,320

were saying well those Scrolls were you

494

00:21:18,350 --> 00:21:15,480

know the stories were probably from a

495

00:21:21,049 --> 00:21:18,360

library where they just made stories up

496

00:21:23,690 --> 00:21:21,059

um the interesting thing is why would

497

00:21:27,549 --> 00:21:23,700

ancient Sumerians of the ancestors of of

498

00:21:30,470 --> 00:21:27,559

you know of the ancient Egyptians

499

00:21:33,470 --> 00:21:30,480

why would they even think about a story

500

00:21:36,110 --> 00:21:33,480

about space Travelers and and and

501
00:21:38,750 --> 00:21:36,120
meeting a particular type of mineral to

502
00:21:41,390 --> 00:21:38,760
to you know save their atmosphere now

503
00:21:43,789 --> 00:21:41,400
it's interesting because we were kind of

504
00:21:46,250 --> 00:21:43,799
toying with that here you know with harp

505
00:21:49,130 --> 00:21:46,260
a few years ago about seating remember

506
00:21:51,590 --> 00:21:49,140
that whole thing with Chemtrails that

507
00:21:53,990 --> 00:21:51,600
whole that whole phenomenon about

508
00:21:56,690 --> 00:21:54,000
Chemtrails and I've actually actually

509
00:21:59,090 --> 00:21:56,700
watched Jets lay down Chemtrails when I

510
00:22:01,610 --> 00:21:59,100
lived in California they were seating

511
00:22:05,450 --> 00:22:01,620
the atmosphere you know to try and and

512
00:22:08,149 --> 00:22:05,460
uh you know fix the ozone you know holes

513
00:22:10,010 --> 00:22:08,159

in the ozone layer and they were using

514

00:22:13,789 --> 00:22:10,020

different types of minerals now gold

515

00:22:16,850 --> 00:22:13,799

happens to uh you know be very very

516

00:22:19,310 --> 00:22:16,860

conductive and we use it in microchip

517

00:22:22,490 --> 00:22:19,320

design is one of the metals to conduct

518

00:22:25,370 --> 00:22:22,500

current so you know if you sprinkle the

519

00:22:28,850 --> 00:22:25,380

atmosphere with conductive metals like

520

00:22:31,730 --> 00:22:28,860

aluminum and gold and then you shoot uh

521

00:22:33,649 --> 00:22:31,740

you know microwaves towards them and and

522

00:22:35,390 --> 00:22:33,659

you know what they'll do is you know

523

00:22:37,850 --> 00:22:35,400

they'll excite the electrons or protons

524

00:22:39,770 --> 00:22:37,860

in the metals

525

00:22:41,570 --> 00:22:39,780

you know that was a theory that you know

526

00:22:43,789 --> 00:22:41,580

that's how they were kind of like fixing

527

00:22:47,090 --> 00:22:43,799

the ozone but it's really interesting

528

00:22:50,450 --> 00:22:47,100

when you hear 5 000 years ago you're

529

00:22:53,450 --> 00:22:50,460

reading about 5 000 years ago uh you

530

00:22:55,610 --> 00:22:53,460

know readings you know or or or you know

531

00:22:57,409 --> 00:22:55,620

these Scrolls that were deciphered to

532

00:23:00,049 --> 00:22:57,419

have basically talked about the same

533

00:23:01,850 --> 00:23:00,059

thing just makes you makes you wonder

534

00:23:05,330 --> 00:23:01,860

that's all I mean you can't

535

00:23:08,149 --> 00:23:05,340

you can't say that was fact you know

536

00:23:11,630 --> 00:23:08,159

unless you know for for a fact but you

537

00:23:13,850 --> 00:23:11,640

can like Stanton Freeman always said you

538

00:23:16,250 --> 00:23:13,860

put that information in your gray basket

539

00:23:19,130 --> 00:23:16,260

you leave it there because they may pop

540

00:23:20,810 --> 00:23:19,140

up in the future and you may need it you

541

00:23:23,690 --> 00:23:20,820

know like this conversation tonight

542

00:23:25,610 --> 00:23:23,700

right I wanted to ask you since you're a

543

00:23:26,810 --> 00:23:25,620

super techie guy in a microchip engineer

544

00:23:29,750 --> 00:23:26,820

and all the rest what do you think about

545

00:23:31,850 --> 00:23:29,760

like super conductors like these metals

546

00:23:33,230 --> 00:23:31,860

that have to be held at like minus 400

547

00:23:36,590 --> 00:23:33,240

and then they have these like crazy

548

00:23:38,270 --> 00:23:36,600

properties of propulsion or energy I

549

00:23:40,070 --> 00:23:38,280

just recently started reading about it

550

00:23:42,289 --> 00:23:40,080

and I think it's very cool are you

551
00:23:44,930 --> 00:23:42,299
familiar with much about these yeah yeah

552
00:23:46,610 --> 00:23:44,940
you know uh it's it's interesting

553
00:23:49,909 --> 00:23:46,620
technology and they're still kind of

554
00:23:51,950 --> 00:23:49,919
toying with it uh whether or not we can

555
00:23:54,950 --> 00:23:51,960
actually apply it without destroying

556
00:23:56,930 --> 00:23:54,960
ourselves you know it makes sense in in

557
00:23:59,510 --> 00:23:56,940
the like uh Universe if you were gonna

558
00:24:01,610 --> 00:23:59,520
travel I mean it's minus several hundred

559
00:24:03,830 --> 00:24:01,620
so having things that work really well

560
00:24:05,690 --> 00:24:03,840
at that temperature I I don't know it

561
00:24:07,070 --> 00:24:05,700
seemed to it jived a little bit I

562
00:24:09,049 --> 00:24:07,080
thought hey this is kind of cool I

563
00:24:11,870 --> 00:24:09,059

wonder if there's anything to it well I

564

00:24:16,070 --> 00:24:11,880

think um I've always thought that you

565

00:24:18,470 --> 00:24:16,080

know the problem with us humans is

566

00:24:20,870 --> 00:24:18,480

we always relate

567

00:24:23,630 --> 00:24:20,880

traveling to speed

568

00:24:25,669 --> 00:24:23,640

you know 186 000 miles an hour speed

569

00:24:27,289 --> 00:24:25,679

line or whatever right and we can never

570

00:24:31,149 --> 00:24:27,299

go past that

571

00:24:34,430 --> 00:24:31,159

but you know it's but yet

572

00:24:36,289 --> 00:24:34,440

there's craft that's coming into our

573

00:24:39,950 --> 00:24:36,299

atmosphere matter of fact I think it was

574

00:24:43,490 --> 00:24:39,960

the Pentagon reclassified the uaps and

575

00:24:46,430 --> 00:24:43,500

they added uh that type of vehicle that

576

00:24:49,010 --> 00:24:46,440

can travel from space in the air and

577

00:24:50,770 --> 00:24:49,020

then you know and underwater type of

578

00:24:53,590 --> 00:24:50,780

thing

579

00:24:56,149 --> 00:24:53,600

yeah so they're expanding the definition

580

00:24:59,630 --> 00:24:56,159

but these things you know they're

581

00:25:02,510 --> 00:24:59,640

traveling faster than than our you know

582

00:25:06,049 --> 00:25:02,520

best fighter jets can travel and moving

583

00:25:09,289 --> 00:25:06,059

on a dime you know uh making right angle

584

00:25:11,330 --> 00:25:09,299

type Maneuvers traveling extremely fast

585

00:25:14,390 --> 00:25:11,340

through the atmosphere and going right

586

00:25:16,730 --> 00:25:14,400

into the ocean at that same speed not

587

00:25:18,710 --> 00:25:16,740

even slowing down which means you know

588

00:25:21,950 --> 00:25:18,720

the metals the melody that they're

589

00:25:23,870 --> 00:25:21,960

using is far far beyond our uh you know

590

00:25:27,430 --> 00:25:23,880

our capability because it doesn't

591

00:25:29,990 --> 00:25:27,440

collapse who's ever inside that craft

592

00:25:32,930 --> 00:25:30,000

they don't have to worry about G-Force

593

00:25:36,370 --> 00:25:32,940

like we do there's something going on in

594

00:25:39,950 --> 00:25:36,380

there that doesn't crush them you know

595

00:25:42,409 --> 00:25:39,960

or whatever that craft is doing

596

00:25:45,169 --> 00:25:42,419

is an associated with G-Force like with

597

00:25:46,610 --> 00:25:45,179

us it's not a safe City with speed so

598

00:25:48,890 --> 00:25:46,620

when you start traveling through space

599

00:25:52,190 --> 00:25:48,900

are you warping space are you opening

600

00:25:56,210 --> 00:25:52,200

your wormholes or do or are you moving

601
00:25:58,130 --> 00:25:56,220
through folds of space I mean so we have

602
00:26:02,350 --> 00:25:58,140
to look at other things other than just

603
00:26:05,390 --> 00:26:02,360
speed the super semiconductor uh or

604
00:26:07,549 --> 00:26:05,400
superconductor is is one way of looking

605
00:26:09,950 --> 00:26:07,559
at but you know you're still strapped to

606
00:26:11,810 --> 00:26:09,960
speed with that other things they're

607
00:26:13,370 --> 00:26:11,820
looking at you know just utilizing the

608
00:26:16,730 --> 00:26:13,380
hydrogen itself

609
00:26:18,529 --> 00:26:16,740
and and slowly build up but then you

610
00:26:21,289 --> 00:26:18,539
have that whole

611
00:26:22,669 --> 00:26:21,299
you know uh Einstein's area you know the

612
00:26:26,510 --> 00:26:22,679
faster you go

613
00:26:28,850 --> 00:26:26,520

time slows and you know and if you build

614

00:26:31,909 --> 00:26:28,860

something fast now to go towards the end

615

00:26:32,930 --> 00:26:31,919

of uh of our you know of our solar

616

00:26:36,049 --> 00:26:32,940

system

617

00:26:38,750 --> 00:26:36,059

and it takes 10 years or 20 years to get

618

00:26:40,430 --> 00:26:38,760

there like Voyager right so and within

619

00:26:43,070 --> 00:26:40,440

the next 10 years we build something a

620

00:26:44,450 --> 00:26:43,080

little faster it'll pass that one up and

621

00:26:47,450 --> 00:26:44,460

then at 10 years we build something

622

00:26:49,730 --> 00:26:47,460

it'll pass that you know so it's uh it's

623

00:26:52,190 --> 00:26:49,740

one of those never-ending things uh as

624

00:26:53,930 --> 00:26:52,200

technology increases even speed of light

625

00:26:56,090 --> 00:26:53,940

I mean if something is hundreds of

626
00:26:58,010 --> 00:26:56,100
millions of light years away that's

627
00:26:59,990 --> 00:26:58,020
still many millions of years is a

628
00:27:02,570 --> 00:27:00,000
one-way trip right so nobody has that

629
00:27:04,789 --> 00:27:02,580
amount of time so we have if there is

630
00:27:07,010 --> 00:27:04,799
such a thing as these craft coming and

631
00:27:09,890 --> 00:27:07,020
going they're moving faster than the

632
00:27:12,529 --> 00:27:09,900
speed of light just yeah but you said

633
00:27:15,470 --> 00:27:12,539
they could they could actually still be

634
00:27:18,890 --> 00:27:15,480
within the realm of our physics by not

635
00:27:21,110 --> 00:27:18,900
actually moving fast for the speed of

636
00:27:23,330 --> 00:27:21,120
light yeah you know they're just they're

637
00:27:24,470 --> 00:27:23,340
just jumping from one spot to another

638
00:27:32,990 --> 00:27:24,480

you know

639

00:27:35,149 --> 00:27:33,000

through not not a wormhole or folding

640

00:27:37,789 --> 00:27:35,159

space but you take a bowling ball and

641

00:27:39,649 --> 00:27:37,799

you drop it on your bed and the edges of

642

00:27:41,810 --> 00:27:39,659

your bed get closer to close you'll get

643

00:27:43,970 --> 00:27:41,820

closer because you drop the bowling ball

644

00:27:46,070 --> 00:27:43,980

in the middle well you know you've had a

645

00:27:47,570 --> 00:27:46,080

bed that was just you know this long and

646

00:27:50,690 --> 00:27:47,580

now it's only this long you're only

647

00:27:53,870 --> 00:27:50,700

traveling that far by you know by

648

00:27:57,110 --> 00:27:53,880

altering that space and so once we can

649

00:27:58,789 --> 00:27:57,120

figure that out and just alter space you

650

00:28:00,409 --> 00:27:58,799

know um then we don't have to worry

651
00:28:03,590 --> 00:28:00,419
about the speed of light we don't have

652
00:28:06,110 --> 00:28:03,600
to worry about you know G-Force or

653
00:28:07,850 --> 00:28:06,120
affecting us or time or anything no

654
00:28:10,990 --> 00:28:07,860
matter of fact

655
00:28:13,430 --> 00:28:11,000
um it was until recently that I actually

656
00:28:15,769 --> 00:28:13,440
thoughts or actually realized that

657
00:28:17,990 --> 00:28:15,779
Albert Einstein was a real man

658
00:28:20,870 --> 00:28:18,000
you know because all my life I've only

659
00:28:26,269 --> 00:28:20,880
known him as a theoretical physicist

660
00:28:31,789 --> 00:28:29,870
in a second but so of all the years of

661
00:28:34,310 --> 00:28:31,799
that you've been doing this you've had

662
00:28:36,289 --> 00:28:34,320
people obviously criticizing you or you

663
00:28:37,850 --> 00:28:36,299

know saying you know opposite of what

664

00:28:40,789 --> 00:28:37,860

you're saying stent Friedman used to

665

00:28:42,950 --> 00:28:40,799

foam at the mouth at his critics because

666

00:28:45,529 --> 00:28:42,960

his critics you know would just judge

667

00:28:47,090 --> 00:28:45,539

him by all the work that he's done they

668

00:28:48,950 --> 00:28:47,100

haven't done anything they would just

669

00:28:51,049 --> 00:28:48,960

read through and go well I disagree with

670

00:28:52,310 --> 00:28:51,059

you uh well he was actually on the

671

00:28:54,049 --> 00:28:52,320

ground and you're one of those people

672

00:28:56,510 --> 00:28:54,059

that was on the ground you're you know

673

00:28:58,250 --> 00:28:56,520

you were elbow deep in it

674

00:28:59,930 --> 00:28:58,260

um how do you feel about the critics

675

00:29:02,210 --> 00:28:59,940

like how does that make you feel now

676

00:29:04,190 --> 00:29:02,220

that uh you know the truth is sort of

677

00:29:05,750 --> 00:29:04,200

coming out slowly through you know the

678

00:29:08,090 --> 00:29:05,760

Congress and stuff like how do you feel

679

00:29:10,909 --> 00:29:08,100

about that well you know um I always

680

00:29:13,310 --> 00:29:10,919

call them couch investigators right so

681

00:29:14,930 --> 00:29:13,320

yeah basically what they see on TV and

682

00:29:17,029 --> 00:29:14,940

then they just make the you know

683

00:29:18,769 --> 00:29:17,039

opinions and of some assumptions based

684

00:29:21,769 --> 00:29:18,779

on that with actually not even going in

685

00:29:24,830 --> 00:29:21,779

field uh now like I said it's just kind

686

00:29:29,210 --> 00:29:24,840

of like you know when it first came out

687

00:29:32,450 --> 00:29:29,220

that uh you know 144 uh sightings were

688

00:29:33,769 --> 00:29:32,460

investigated and only one you know they

689

00:29:37,130 --> 00:29:33,779

could figure out they could actually

690

00:29:40,549 --> 00:29:37,140

figure out it was a balloon and then 143

691

00:29:42,350 --> 00:29:40,559

were unknowns that was an aha moment for

692

00:29:45,049 --> 00:29:42,360

me because that kind of like throws it

693

00:29:48,529 --> 00:29:45,059

like okay look we have you know the NSA

694

00:29:52,010 --> 00:29:48,539

CIA Air Force Army Navy they were all

695

00:29:54,049 --> 00:29:52,020

involved in trying to uh you know figure

696

00:29:56,330 --> 00:29:54,059

out what the spider Pilots are seeing

697

00:29:59,269 --> 00:29:56,340

and and they can it became an unknown

698

00:30:01,850 --> 00:29:59,279

well they call it you know other you

699

00:30:04,370 --> 00:30:01,860

know the document they released but you

700

00:30:07,010 --> 00:30:04,380

know other is basically a UFO

701
00:30:10,310 --> 00:30:07,020
or are you AP and you would pay UAP

702
00:30:13,010 --> 00:30:10,320
isn't any any it's not a real act a real

703
00:30:15,889 --> 00:30:13,020
new acronym it's nothing that just came

704
00:30:18,710 --> 00:30:15,899
up this lab in UAP that acronym has been

705
00:30:20,870 --> 00:30:18,720
used back in the late 50s so it's just

706
00:30:23,269 --> 00:30:20,880
you know just coming around again but it

707
00:30:25,970 --> 00:30:23,279
basically means the same thing

708
00:30:29,090 --> 00:30:25,980
the the cool part is is you know being

709
00:30:31,430 --> 00:30:29,100
involved in microchip design like

710
00:30:34,549 --> 00:30:31,440
company I'm Contracting for I have a

711
00:30:36,649 --> 00:30:34,559
contractor I don't I don't work uh as a

712
00:30:38,450 --> 00:30:36,659
Sally person and the reason I don't work

713
00:30:41,029 --> 00:30:38,460

as a salary person is because as a

714

00:30:43,310 --> 00:30:41,039

contractor if I need to blow off to do

715

00:30:46,130 --> 00:30:43,320

an investigation or do something are you

716

00:30:49,190 --> 00:30:46,140

in a you know podcast or a daytime I can

717

00:30:52,549 --> 00:30:49,200

do that if your salary it's a little

718

00:30:54,529 --> 00:30:52,559

harder so about 20 years ago you know

719

00:30:56,690 --> 00:30:54,539

um I decided to just do a full-time

720

00:30:59,510 --> 00:30:56,700

Contracting and that way I had the time

721

00:31:02,029 --> 00:30:59,520

you know to uh to do what I need to do

722

00:31:05,630 --> 00:31:02,039

but when I with Contracting I've worked

723

00:31:08,810 --> 00:31:05,640

at so many different companies until you

724

00:31:10,190 --> 00:31:08,820

know Qualcomm and Rockwell and Western

725

00:31:11,810 --> 00:31:10,200

Digital I mean all these all these

726
00:31:13,850 --> 00:31:11,820
biggies yeah

727
00:31:14,750 --> 00:31:13,860
some of the projects I've been involved

728
00:31:18,529 --> 00:31:14,760
with

729
00:31:21,769 --> 00:31:18,539
uh it's it's it's it's interesting where

730
00:31:23,810 --> 00:31:21,779
you deal with the technology and you get

731
00:31:25,909 --> 00:31:23,820
this like a mentioned before you get

732
00:31:28,490 --> 00:31:25,919
this idea of you know what we really

733
00:31:31,389 --> 00:31:28,500
should have and what we could have

734
00:31:34,130 --> 00:31:31,399
uh based on you know uh

735
00:31:35,990 --> 00:31:34,140
what people are perceiving we might have

736
00:31:38,690 --> 00:31:36,000
and then some of these these couch

737
00:31:40,610 --> 00:31:38,700
investigators go well you know you can't

738
00:31:42,649 --> 00:31:40,620

do that I mean well actually we're kind

739

00:31:45,049 --> 00:31:42,659

of doing it now if you knew anything

740

00:31:47,570 --> 00:31:45,059

about technology it was really

741

00:31:50,029 --> 00:31:47,580

interesting years ago we interviewed a

742

00:31:53,090 --> 00:31:50,039

guy out of Missouri he's just way off

743

00:31:54,889 --> 00:31:53,100

the in The Boondocks and and

744

00:31:58,850 --> 00:31:54,899

um remember the Harrier jet remember

745

00:32:02,450 --> 00:31:58,860

those Yeah Yeah well yeah he had seen

746

00:32:06,049 --> 00:32:02,460

one on TV and it flipped him out he had

747

00:32:09,049 --> 00:32:06,059

no idea that we had that technology and

748

00:32:11,690 --> 00:32:09,059

Harry had been out for decades you know

749

00:32:13,909 --> 00:32:11,700

so then again too it's not his fault

750

00:32:16,190 --> 00:32:13,919

it's just that you know there's a lot of

751

00:32:18,470 --> 00:32:16,200

people out there that just never get

752

00:32:20,630 --> 00:32:18,480

introduced to you know the technical

753

00:32:23,510 --> 00:32:20,640

side of things

754

00:32:26,149 --> 00:32:23,520

and uh yeah when they see it uh another

755

00:32:28,450 --> 00:32:26,159

real quick one I have so we are at

756

00:32:31,490 --> 00:32:28,460

Disneyland over the last last weekend

757

00:32:34,190 --> 00:32:31,500

and uh they uh you know they have like a

758

00:32:37,430 --> 00:32:34,200

Marvel Studio section in California

759

00:32:38,870 --> 00:32:37,440

adventure and they have an animatronic

760

00:32:42,529 --> 00:32:38,880

Spider-Man

761

00:32:45,350 --> 00:32:42,539

you know they have like they they have a

762

00:32:47,149 --> 00:32:45,360

character you know actor that plays

763

00:32:49,909 --> 00:32:47,159

Spider-Man and he just kind of like

764

00:32:52,190 --> 00:32:49,919

jumping around and parkour doing things

765

00:32:54,289 --> 00:32:52,200

back and forth and he says okay now I'm

766

00:32:56,690 --> 00:32:54,299

really going to try this suit out and

767

00:32:59,029 --> 00:32:56,700

see what it really does and he kind of

768

00:33:01,490 --> 00:32:59,039

runs around a building and what people

769

00:33:03,889 --> 00:33:01,500

don't know is Disney's got this

770

00:33:07,490 --> 00:33:03,899

animatronic Spider-Man that they

771

00:33:10,010 --> 00:33:07,500

launched like 50 60 feet in the air and

772

00:33:12,009 --> 00:33:10,020

it and then it does flips it's a robot

773

00:33:15,169 --> 00:33:12,019

you know they launch it it's Free

774

00:33:16,789 --> 00:33:15,179

Falling it does all these flips and what

775

00:33:19,310 --> 00:33:16,799

the what the public doesn't see is it

776

00:33:21,889 --> 00:33:19,320

comes down on a net

777

00:33:24,289 --> 00:33:21,899

and I and I'm standing or watching this

778

00:33:26,990 --> 00:33:24,299

thing it was pretty cool but the people

779

00:33:29,750 --> 00:33:27,000

beside me on both sides oh my God oh my

780

00:33:32,210 --> 00:33:29,760

God and there's an app they're like how

781

00:33:33,889 --> 00:33:32,220

can that be done oh my God how can well

782

00:33:35,769 --> 00:33:33,899

you know if you watch Disney plus they

783

00:33:38,710 --> 00:33:35,779

they would have they would have known

784

00:33:40,909 --> 00:33:38,720

but but when you're in a technical

785

00:33:42,590 --> 00:33:40,919

aspect of things you're saying oh yeah

786

00:33:44,690 --> 00:33:42,600

yeah no human could do that because of

787

00:33:47,029 --> 00:33:44,700

the g-force of them watching it so it's

788

00:33:49,310 --> 00:33:47,039

got to be some type of animatronic and

789

00:33:51,649 --> 00:33:49,320

he did this real good with that once

790

00:33:53,630 --> 00:33:51,659

again that's those people who you know

791

00:33:54,950 --> 00:33:53,640

aren't familiar with technology just

792

00:33:56,810 --> 00:33:54,960

kind of flip out

793

00:33:58,669 --> 00:33:56,820

and that's just Disney so can you

794

00:34:00,409 --> 00:33:58,679

imagine if they saw a UFO what they

795

00:34:02,450 --> 00:34:00,419

would think yeah

796

00:34:05,389 --> 00:34:02,460

I like the theory too that uh it was a

797

00:34:07,789 --> 00:34:05,399

hell put off that um theorized that the

798

00:34:10,010 --> 00:34:07,799

they might be coexisting with us that we

799

00:34:11,570 --> 00:34:10,020

just don't know that they're here uh

800

00:34:13,669 --> 00:34:11,580

we're just starting now to pay attention

801
00:34:15,889 --> 00:34:13,679
to them or we now have the technology to

802
00:34:18,050 --> 00:34:15,899
detect them same way as uh you know some

803
00:34:20,270 --> 00:34:18,060
tribes in some countries that have no

804
00:34:22,310 --> 00:34:20,280
outside influences they're still living

805
00:34:23,329 --> 00:34:22,320
the way that they've lived for thousands

806
00:34:25,430 --> 00:34:23,339
of years

807
00:34:28,190 --> 00:34:25,440
and then all of a sudden they see drones

808
00:34:29,389 --> 00:34:28,200
or planes fly by like they're aware that

809
00:34:31,669 --> 00:34:29,399
something's going on in the outside

810
00:34:34,369 --> 00:34:31,679
world but it doesn't affect them

811
00:34:35,690 --> 00:34:34,379
directly until maybe they step out of

812
00:34:38,270 --> 00:34:35,700
their Zone and they start discovering

813
00:34:40,190 --> 00:34:38,280

that there's more to the world so I I

814

00:34:42,290 --> 00:34:40,200

think that's an interesting Theory like

815

00:34:44,450 --> 00:34:42,300

that's something else that I personally

816

00:34:46,369 --> 00:34:44,460

have not explored before and now that

817

00:34:49,129 --> 00:34:46,379

it's being brought forward I'm like

818

00:34:51,169 --> 00:34:49,139

it's possible you know it's it's very

819

00:34:52,790 --> 00:34:51,179

much a possibility that they're been

820

00:34:55,490 --> 00:34:52,800

living here for a long time oh

821

00:34:58,510 --> 00:34:55,500

absolutely I've had I've had the

822

00:35:00,950 --> 00:34:58,520

pleasure of uh interviewing and meeting

823

00:35:03,230 --> 00:35:00,960

Native Americans here in the four corner

824

00:35:05,990 --> 00:35:03,240

regions of Colorado not so much when I

825

00:35:09,650 --> 00:35:06,000

lived in California but out here in

826

00:35:13,370 --> 00:35:09,660

Colorado and and to hear some of their

827

00:35:16,550 --> 00:35:13,380

stories that have been told down through

828

00:35:18,470 --> 00:35:16,560

generations of the Star Travelers and

829

00:35:21,470 --> 00:35:18,480

all kinds of things I mean it goes back

830

00:35:23,750 --> 00:35:21,480

way before Europeans even migrated to

831

00:35:26,450 --> 00:35:23,760

North America some of the things not

832

00:35:29,750 --> 00:35:26,460

only just aliens but you know Sasquatch

833

00:35:32,750 --> 00:35:29,760

you know Bigfoot also so this is this is

834

00:35:33,829 --> 00:35:32,760

something that they've been aware of for

835

00:35:36,770 --> 00:35:33,839

you know

836

00:35:39,589 --> 00:35:36,780

centuries and that that we're just now

837

00:35:42,230 --> 00:35:39,599

getting introduced to in some cases but

838

00:35:44,450 --> 00:35:42,240

when you talk to Native Americans uh you

839

00:35:46,670 --> 00:35:44,460

know when I was we were doing our

840

00:35:49,130 --> 00:35:46,680

episode on skin you know that week well

841

00:35:52,790 --> 00:35:49,140

it was outside of Skinwalker Ranch in

842

00:35:55,430 --> 00:35:52,800

Utah for alien highway uh I had the

843

00:35:58,490 --> 00:35:55,440

pleasure of uh interviewing a Native

844

00:36:00,050 --> 00:35:58,500

American Elder with the u-tribe and you

845

00:36:02,270 --> 00:36:00,060

tribe is very

846

00:36:05,150 --> 00:36:02,280

prevalent and very common here in

847

00:36:07,730 --> 00:36:05,160

Colorado and then also in Utah

848

00:36:10,210 --> 00:36:07,740

and so I was interviewing him first

849

00:36:12,530 --> 00:36:10,220

before we went on camera

850

00:36:14,390 --> 00:36:12,540

unfortunately his interview never made

851
00:36:16,490 --> 00:36:14,400
it on the TV show because we had so much

852
00:36:18,470 --> 00:36:16,500
stuff but

853
00:36:21,589 --> 00:36:18,480
it was just so cool to talk to him

854
00:36:23,150 --> 00:36:21,599
because I said well you know uh Native

855
00:36:25,430 --> 00:36:23,160
Americans because I've talked to them I

856
00:36:27,650 --> 00:36:25,440
know that they have names for you know

857
00:36:29,270 --> 00:36:27,660
UFOs and the you know columnists have

858
00:36:31,310 --> 00:36:29,280
different names of you know depending on

859
00:36:33,829 --> 00:36:31,320
the tribe and then they have different

860
00:36:37,730 --> 00:36:33,839
names for Bigfoot he goes oh yeah yeah

861
00:36:39,170 --> 00:36:37,740
and I and I said but you know um the

862
00:36:41,810 --> 00:36:39,180
great aliens himself that's kind of

863
00:36:45,170 --> 00:36:41,820

interesting and he goes oh you mean you

864

00:36:46,370 --> 00:36:45,180

know and he plopped out a ute name for a

865

00:36:50,690 --> 00:36:46,380

gray alien

866

00:36:54,290 --> 00:36:50,700

and I'm going the youth tribe

867

00:36:56,569 --> 00:36:54,300

has a name for the gray alien

868

00:36:59,870 --> 00:36:56,579

he goes and he goes

869

00:37:02,450 --> 00:36:59,880

I wasn't supposed to say that like well

870

00:37:04,609 --> 00:37:02,460

you know it's okay I'll talk about it

871

00:37:07,069 --> 00:37:04,619

but you'll never you'll have to say it

872

00:37:09,290 --> 00:37:07,079

on camera uh certain things that they

873

00:37:12,109 --> 00:37:09,300

can't talk about but

874

00:37:15,170 --> 00:37:12,119

um that was that particular word that

875

00:37:18,470 --> 00:37:15,180

they used for gray aliens has been

876

00:37:21,890 --> 00:37:18,480

around for a long long time so it's

877

00:37:25,370 --> 00:37:21,900

nothing new it didn't mean gray alien

878

00:37:27,710 --> 00:37:25,380

basically it refers more like to ant

879

00:37:30,170 --> 00:37:27,720

people and not because they look like

880

00:37:34,790 --> 00:37:30,180

ants but because they come out of the

881

00:37:37,490 --> 00:37:34,800

ground okay underground bases let's say

882

00:37:41,510 --> 00:37:37,500

and matter of fact um

883

00:37:47,270 --> 00:37:44,510

Elder slash storytellers that kind of

884

00:37:50,210 --> 00:37:47,280

keep those stories going from generation

885

00:37:52,670 --> 00:37:50,220

to generation one was Apache one was

886

00:37:54,710 --> 00:37:52,680

Navajo uh both of them I talked to

887

00:37:58,010 --> 00:37:54,720

within a couple years apart so not

888

00:38:01,910 --> 00:37:58,020

together and I got about the same story

889

00:38:04,670 --> 00:38:01,920

from both of them okay that uh as far as

890

00:38:07,069 --> 00:38:04,680

they were concerned there's four species

891

00:38:09,890 --> 00:38:07,079

living on this planet beside us

892

00:38:12,349 --> 00:38:09,900

okay so uh

893

00:38:14,450 --> 00:38:12,359

I don't know their name but it kind of

894

00:38:17,089 --> 00:38:14,460

translates to the Blues

895

00:38:21,230 --> 00:38:17,099

and the blues are these little two feet

896

00:38:23,210 --> 00:38:21,240

guys that come out of mountains

897

00:38:25,730 --> 00:38:23,220

and you know they're more of the

898

00:38:28,490 --> 00:38:25,740

Protectors of the earth now I wrote a

899

00:38:31,310 --> 00:38:28,500

Blog about that not too long ago because

900

00:38:34,010 --> 00:38:31,320

as it turns out leprechauns

901
00:38:37,010 --> 00:38:34,020
you know out of Ireland uh

902
00:38:38,630 --> 00:38:37,020
do you have Tommyknockers that you know

903
00:38:43,849 --> 00:38:38,640
came out of

904
00:38:45,650 --> 00:38:43,859
oh uh out of old England area

905
00:38:48,230 --> 00:38:45,660
um I just forgot the name anyway and

906
00:38:50,510 --> 00:38:48,240
then you have the menahunis which came

907
00:38:52,970 --> 00:38:50,520
out you know which are in Hawaii they're

908
00:38:56,450 --> 00:38:52,980
all about the same height now the Native

909
00:38:58,190 --> 00:38:56,460
Americans also have names for these

910
00:39:00,530 --> 00:38:58,200
little guys that are about two feet tall

911
00:39:03,050 --> 00:39:00,540
and they've had names for them for

912
00:39:06,250 --> 00:39:03,060
centuries you know if you so

913
00:39:09,349 --> 00:39:06,260

that could be a species that not only

914

00:39:12,410 --> 00:39:09,359

derived here but you know people seeing

915

00:39:15,290 --> 00:39:12,420

Hawaii and Ireland and of course uh you

916

00:39:16,730 --> 00:39:15,300

know uh Europe with the Tommyknockers

917

00:39:19,190 --> 00:39:16,740

and we're still getting stories about it

918

00:39:20,510 --> 00:39:19,200

so those are the blues then you have the

919

00:39:22,609 --> 00:39:20,520

the

920

00:39:25,010 --> 00:39:22,619

and people which basically are degrees

921

00:39:27,829 --> 00:39:25,020

because they come out of the ground then

922

00:39:30,530 --> 00:39:27,839

they had a snake people which we refer

923

00:39:31,910 --> 00:39:30,540

to as the reptilians and they're taller

924

00:39:36,230 --> 00:39:31,920

and they call them snake people because

925

00:39:39,770 --> 00:39:36,240

they're very snake-like these guys now

926

00:39:41,030 --> 00:39:39,780

the the snake or the the ant people come

927

00:39:43,069 --> 00:39:41,040

out of the ground they have their own

928

00:39:44,690 --> 00:39:43,079

agenda so it wasn't like the Native

929

00:39:46,130 --> 00:39:44,700

Americans were afraid of them but they

930

00:39:50,810 --> 00:39:46,140

have their own agenda and you don't bug

931

00:39:55,190 --> 00:39:50,820

them because they they'll bug you back

932

00:39:59,329 --> 00:39:55,200

but the snake people basically were bad

933

00:40:01,250 --> 00:39:59,339

guys or maybe they still are and uh you

934

00:40:03,290 --> 00:40:01,260

know so much so that you know they were

935

00:40:06,650 --> 00:40:03,300

afraid of them and then they had what

936

00:40:08,690 --> 00:40:06,660

they call the Giants or or there's other

937

00:40:10,430 --> 00:40:08,700

names that they use form of you know

938

00:40:13,069 --> 00:40:10,440

Netflix or whatever you want to call

939

00:40:16,069 --> 00:40:13,079

tall blondes what you want to call it

940

00:40:17,690 --> 00:40:16,079

those guys basically had condos here on

941

00:40:19,490 --> 00:40:17,700

this planet and they come visit and they

942

00:40:22,730 --> 00:40:19,500

would keep everything in check

943

00:40:25,430 --> 00:40:22,740

and you know if the if the reptilians or

944

00:40:27,410 --> 00:40:25,440

the snake people were were being too

945

00:40:28,910 --> 00:40:27,420

aggressive or whatever you know they

946

00:40:32,089 --> 00:40:28,920

would put them in check because they

947

00:40:33,470 --> 00:40:32,099

seem to be the space cops you know type

948

00:40:36,170 --> 00:40:33,480

of thing but that's kind of how they

949

00:40:37,970 --> 00:40:36,180

they you know and that was just a four

950

00:40:40,310 --> 00:40:37,980

species

951
00:40:42,790 --> 00:40:40,320
um me in particular I'm just trying to

952
00:40:47,089 --> 00:40:45,470
I like the space cop idea I think that'd

953
00:40:49,250 --> 00:40:47,099
be a fantastic show wouldn't it be like

954
00:40:51,950 --> 00:40:49,260
cops but like space cops you know it's

955
00:40:54,170 --> 00:40:51,960
cops well you well you know um Travis

956
00:40:57,050 --> 00:40:54,180
Wall and you guys interview Travis

957
00:40:58,730 --> 00:40:57,060
Walden no not yet no not yet no yeah we

958
00:41:01,970 --> 00:40:58,740
got interviewed Travis Malton because

959
00:41:03,650 --> 00:41:01,980
back in 75 when he was abducted and he

960
00:41:06,670 --> 00:41:03,660
was gone for what five six days whatever

961
00:41:10,310 --> 00:41:06,680
it was he actually saw

962
00:41:11,829 --> 00:41:10,320
Grays and the tall box you saw two

963
00:41:14,750 --> 00:41:11,839

different species

964

00:41:17,930 --> 00:41:14,760

and uh I've been I've lectured with him

965

00:41:19,069 --> 00:41:17,940

a few times uh and you know got to talk

966

00:41:22,010 --> 00:41:19,079

to him about it

967

00:41:24,710 --> 00:41:22,020

and you know he's one of those guys

968

00:41:27,109 --> 00:41:24,720

where you know he I don't know how many

969

00:41:29,390 --> 00:41:27,119

polygraph either five or six times he's

970

00:41:33,290 --> 00:41:29,400

been polygraphed and he's never failed

971

00:41:35,750 --> 00:41:33,300

one yeah and the uh the guys that The

972

00:41:37,849 --> 00:41:35,760

Lumberjacks that he worked with

973

00:41:40,190 --> 00:41:37,859

um they've never failed a polygraph too

974

00:41:42,530 --> 00:41:40,200

there was a couple instances where they

975

00:41:44,690 --> 00:41:42,540

said that it was inconclusive because a

976

00:41:46,550 --> 00:41:44,700

couple of guys you know they didn't

977

00:41:49,069 --> 00:41:46,560

answer some of the questions because

978

00:41:50,750 --> 00:41:49,079

they were mad or whatever but uh or for

979

00:41:54,290 --> 00:41:50,760

whatever reason but they've never really

980

00:41:57,050 --> 00:41:54,300

you know failed a polygraph so there's

981

00:42:01,010 --> 00:41:57,060

some you know there's some validity to

982

00:42:02,210 --> 00:42:01,020

that at least with the tall bonds or the

983

00:42:04,310 --> 00:42:02,220

nephilims or whatever you want to call

984

00:42:05,810 --> 00:42:04,320

them and then you know the people of

985

00:42:08,510 --> 00:42:05,820

degrees

986

00:42:10,069 --> 00:42:08,520

and being somebody of Science and we're

987

00:42:13,370 --> 00:42:10,079

going to ask you this because Louis and

988

00:42:15,770 --> 00:42:13,380

I are huge fans of Bob Lazar so we

989

00:42:17,750 --> 00:42:15,780

believe Bob Lazar I believe his story is

990

00:42:19,609 --> 00:42:17,760

is true and the way he's describing the

991

00:42:21,589 --> 00:42:19,619

crafts and and you know being able to

992

00:42:23,450 --> 00:42:21,599

operate and all that so we huge

993

00:42:24,890 --> 00:42:23,460

supporters above us are what are your

994

00:42:27,170 --> 00:42:24,900

thoughts on Bob Lazar now that we're

995

00:42:29,210 --> 00:42:27,180

putting you on the spots but uh just no

996

00:42:32,150 --> 00:42:29,220

no I gotta I got a back of a background

997

00:42:36,650 --> 00:42:32,160

somewhere bubbles our ship the sport

998

00:42:40,310 --> 00:42:36,660

model back there nice you know um no I I

999

00:42:42,109 --> 00:42:40,320

I I actually I believe him yeah I know

1000

00:42:44,390 --> 00:42:42,119

um I had talked with Stanton Freeman

1001

00:42:47,210 --> 00:42:44,400

when he was you know when he was alive

1002

00:42:48,890 --> 00:42:47,220

we we lectured a few times at the same

1003

00:42:50,990 --> 00:42:48,900

time and I just you know at dinners and

1004

00:42:53,270 --> 00:42:51,000

stuff I just with them and he

1005

00:42:55,670 --> 00:42:53,280

wasn't really a Bob Lazar fan

1006

00:42:59,630 --> 00:42:55,680

but I think at one point towards the end

1007

00:43:01,670 --> 00:42:59,640

of he found a phone book or something or

1008

00:43:03,829 --> 00:43:01,680

somebody found a phone book at one of

1009

00:43:06,770 --> 00:43:03,839

the places he claimed he worked at that

1010

00:43:08,569 --> 00:43:06,780

they said he never did and at Rockwell

1011

00:43:10,670 --> 00:43:08,579

when I worked at Rockwell quarterly the

1012

00:43:11,930 --> 00:43:10,680

phone books will go out quarterly back

1013

00:43:13,790 --> 00:43:11,940

in the day

1014

00:43:16,069 --> 00:43:13,800

you know paper phone books oh wow

1015

00:43:17,690 --> 00:43:16,079

quarterly yeah about quarterly or so

1016

00:43:20,809 --> 00:43:17,700

because people are coming and going so

1017

00:43:22,309 --> 00:43:20,819

accordingly you know and then I remember

1018

00:43:24,829 --> 00:43:22,319

the first time I saw my name in the

1019

00:43:27,530 --> 00:43:24,839

phone book yeah you know like Steve Mark

1020

00:43:30,609 --> 00:43:27,540

I'm somebody I'm someone you know I'm

1021

00:43:34,790 --> 00:43:30,619

trying to call my own number it works

1022

00:43:37,190 --> 00:43:34,800

yeah but um so it was one of the

1023

00:43:39,829 --> 00:43:37,200

quarterly phone books that they found at

1024

00:43:42,050 --> 00:43:39,839

babazar's name of it at the place that

1025

00:43:44,870 --> 00:43:42,060

he claimed you worked at and they

1026

00:43:47,089 --> 00:43:44,880

claimed he never worked at so there was

1027

00:43:47,930 --> 00:43:47,099

you know finally a staff goes well you

1028

00:43:52,670 --> 00:43:47,940

know

1029

00:43:56,890 --> 00:43:52,680

nuclear physicist like me or whatever

1030

00:43:59,210 --> 00:43:56,900

but uh not me Stan Freeman but um

1031

00:44:01,130 --> 00:43:59,220

bizarre is pretty smart you know and

1032

00:44:02,410 --> 00:44:01,140

then he came out God what is that is it

1033

00:44:06,470 --> 00:44:02,420

was it Element

1034

00:44:09,470 --> 00:44:06,480

115 115 yeah yeah so he came out with

1035

00:44:11,510 --> 00:44:09,480

that a decade before the Russians

1036

00:44:13,670 --> 00:44:11,520

discovered it remember that's my biggest

1037

00:44:15,950 --> 00:44:13,680

sticking point how do you do that like

1038

00:44:18,349 --> 00:44:15,960

and okay you could guess if it was the

1039

00:44:19,490 --> 00:44:18,359

next one or two in line but he guessed

1040

00:44:21,050 --> 00:44:19,500

the properties of what that would

1041

00:44:24,349 --> 00:44:21,060

actually do that it would make good

1042

00:44:26,930 --> 00:44:24,359

nuclear fuel like maybe actually gas or

1043

00:44:29,329 --> 00:44:26,940

just did he know yeah yeah yeah yeah

1044

00:44:30,950 --> 00:44:29,339

that was the that was the issue so yeah

1045

00:44:33,290 --> 00:44:30,960

I put a lot of validity in what Bob

1046

00:44:35,990 --> 00:44:33,300

Lazar says and when I lived in

1047

00:44:37,970 --> 00:44:36,000

California I was a real stickler for uh

1048

00:44:41,390 --> 00:44:37,980

Area 51 anyway in the background too

1049

00:44:44,589 --> 00:44:41,400

there's some pictures oh over there

1050

00:44:48,470 --> 00:44:44,599

somewhere of the area 51 that I shot

1051
00:44:50,630 --> 00:44:48,480
26 years or so ago right right after

1052
00:44:52,430 --> 00:44:50,640
Freedom Ridge was taken I was going to

1053
00:44:54,230 --> 00:44:52,440
go to Freedom Ridge and take pictures of

1054
00:44:56,650 --> 00:44:54,240
very 51 but

1055
00:45:00,170 --> 00:44:56,660
um Freedom Bridge was taken

1056
00:45:02,750 --> 00:45:00,180
land grad by Nellis and I was like

1057
00:45:06,230 --> 00:45:02,760
probably one of the first three or four

1058
00:45:07,150 --> 00:45:06,240
people that cut the trail up to Cabo

1059
00:45:10,069 --> 00:45:07,160
Peak

1060
00:45:12,410 --> 00:45:10,079
which was this I think you can still get

1061
00:45:15,170 --> 00:45:12,420
to take a boutique now

1062
00:45:18,829 --> 00:45:15,180
um I hired a guide at uh you know out of

1063
00:45:21,349 --> 00:45:18,839

Rachel Nevada a lady and we drove like I

1064

00:45:23,030 --> 00:45:21,359

don't know 15 16 miles all around and

1065

00:45:24,650 --> 00:45:23,040

got to the backside of ticket boo Peak

1066

00:45:27,530 --> 00:45:24,660

and hiked up and it was really

1067

00:45:29,450 --> 00:45:27,540

interesting too because when I when when

1068

00:45:31,910 --> 00:45:29,460

I showed up there was two other

1069

00:45:36,589 --> 00:45:31,920

individuals one definitely was military

1070

00:45:38,270 --> 00:45:36,599

hell he was in camels you know and uh

1071

00:45:41,210 --> 00:45:38,280

and the other guy would look like a

1072

00:45:42,829 --> 00:45:41,220

surfer uh actually the surfer guy was

1073

00:45:44,569 --> 00:45:42,839

the one I was more concerned about than

1074

00:45:46,250 --> 00:45:44,579

the military guy because you know if

1075

00:45:47,750 --> 00:45:46,260

there's going to be a there's going to

1076

00:45:49,670 --> 00:45:47,760

be an undercover agent he's going to

1077

00:45:52,069 --> 00:45:49,680

come across as something yeah you know

1078

00:45:54,890 --> 00:45:52,079

some guy going hey dude

1079

00:45:57,410 --> 00:45:54,900

um but they wanted I happened to have a

1080

00:45:59,690 --> 00:45:57,420

four by four and I had enough room so I

1081

00:46:01,430 --> 00:45:59,700

took them to along with a guide and we

1082

00:46:03,890 --> 00:46:01,440

went to take a boutique and we hiked to

1083

00:46:05,210 --> 00:46:03,900

the top and and took pictures I took

1084

00:46:07,370 --> 00:46:05,220

pictures of it but I see you're still

1085

00:46:09,710 --> 00:46:07,380

still 18 19 miles away from

1086

00:46:11,329 --> 00:46:09,720

but out of the pictures I there's

1087

00:46:13,550 --> 00:46:11,339

there's one picture I took where

1088

00:46:16,069 --> 00:46:13,560

something was going across and I was

1089

00:46:18,710 --> 00:46:16,079

able to catch it you know going across

1090

00:46:20,630 --> 00:46:18,720

over well you know so it was pretty cool

1091

00:46:22,309 --> 00:46:20,640

the other cool thing about that was

1092

00:46:23,569 --> 00:46:22,319

about three o'clock or so while we were

1093

00:46:26,210 --> 00:46:23,579

up there

1094

00:46:28,730 --> 00:46:26,220

um there was a security change you know

1095

00:46:31,130 --> 00:46:28,740

that was that was the the one type of

1096

00:46:33,650 --> 00:46:31,140

the day where you know they changed

1097

00:46:36,349 --> 00:46:33,660

personnel and security and so you're

1098

00:46:38,750 --> 00:46:36,359

looking at this Barren desert right at

1099

00:46:40,609 --> 00:46:38,760

area 51's off the distance at a three

1100

00:46:41,930 --> 00:46:40,619

o'clock it just comes alive all these

1101

00:46:44,510 --> 00:46:41,940

vehicles are moving back and forth

1102

00:46:47,390 --> 00:46:44,520

coming and going out of nowhere so there

1103

00:46:50,089 --> 00:46:47,400

was these you know either of these uh

1104

00:46:52,370 --> 00:46:50,099

you know camouflage firms or whatever or

1105

00:46:55,010 --> 00:46:52,380

whatever but it just like they just

1106

00:46:56,950 --> 00:46:55,020

suddenly appeared moved back and forth

1107

00:47:00,470 --> 00:46:56,960

like oh that's awesome

1108

00:47:02,990 --> 00:47:00,480

I did talk to uh the military guy

1109

00:47:05,150 --> 00:47:03,000

afterwards uh

1110

00:47:06,890 --> 00:47:05,160

because you know every time I take a

1111

00:47:08,450 --> 00:47:06,900

picture he got out of the way you know

1112

00:47:10,250 --> 00:47:08,460

he would never get in I did he finally

1113

00:47:14,510 --> 00:47:10,260

got a frame over the back side of him in

1114

00:47:16,910 --> 00:47:14,520

it and uh we got back to uh to the

1115

00:47:21,170 --> 00:47:16,920

little alien in and right behind it

1116

00:47:23,450 --> 00:47:21,180

there was a trailer park or RV park and

1117

00:47:27,950 --> 00:47:23,460

I had an RV at the time small one

1118

00:47:29,990 --> 00:47:27,960

that I pulled my my 4x4 with and as he

1119

00:47:33,530 --> 00:47:30,000

took off and the surfer guy took off and

1120

00:47:35,990 --> 00:47:33,540

the guy took off I held back a little

1121

00:47:38,930 --> 00:47:36,000

bit and I walked around and watched to

1122

00:47:40,910 --> 00:47:38,940

see what he got into and he got into a

1123

00:47:43,309 --> 00:47:40,920

trailer that was being pulled by a blue

1124

00:47:46,309 --> 00:47:43,319

SUV like a Ford Explorer back in the day

1125

00:47:48,230 --> 00:47:46,319

now back in the day blue SUVs was what

1126
00:47:50,690 --> 00:47:48,240
the private security were using in area

1127
00:47:52,010 --> 00:47:50,700
51. so he got in the trailer and I

1128
00:47:53,390 --> 00:47:52,020
waited a couple minutes and then I

1129
00:47:56,050 --> 00:47:53,400
walked up and I knocked on the trailer

1130
00:47:59,089 --> 00:47:56,060
door and I said kept ground security

1131
00:48:01,730 --> 00:47:59,099
and then you opened the door and I

1132
00:48:03,170 --> 00:48:01,740
looked inside and he had his headlight

1133
00:48:05,450 --> 00:48:03,180
you know during the headlight look right

1134
00:48:07,849 --> 00:48:05,460
and he says and he looked at me and I go

1135
00:48:09,230 --> 00:48:07,859
oh just the duffel bag is all you had

1136
00:48:11,450 --> 00:48:09,240
there's nothing else the trailer was

1137
00:48:13,970 --> 00:48:11,460
empty right it's not camping he just had

1138
00:48:16,190 --> 00:48:13,980

a duffel bag and he looked at me and I

1139

00:48:17,450 --> 00:48:16,200

thought dude it's obvious I'm I'm no

1140

00:48:19,309 --> 00:48:17,460

threat everybody goes now you're no

1141

00:48:20,809 --> 00:48:19,319

threat you're just some UFO nut well

1142

00:48:23,150 --> 00:48:20,819

that's what I had on my plates

1143

00:48:25,130 --> 00:48:23,160

California place your phone up and I

1144

00:48:28,730 --> 00:48:25,140

said 15 minutes off the Record he goes

1145

00:48:30,890 --> 00:48:28,740

yeah yeah we I went in and he gave me a

1146

00:48:31,790 --> 00:48:30,900

beer we sat down for 15 minutes and we

1147

00:48:33,970 --> 00:48:31,800

totally

1148

00:48:36,950 --> 00:48:33,980

it for you know off the record

1149

00:48:38,510 --> 00:48:36,960

of what was going on the bottom line was

1150

00:48:41,870 --> 00:48:38,520

is you know

1151

00:48:43,730 --> 00:48:41,880

um he was there because

1152

00:48:46,010 --> 00:48:43,740

um they were

1153

00:48:49,550 --> 00:48:46,020

kind of well they they were monitoring

1154

00:48:52,309 --> 00:48:49,560

emails and the phones from from Rachel

1155

00:48:53,870 --> 00:48:52,319

Nevada area and eventually knew I was

1156

00:48:58,490 --> 00:48:53,880

coming in they wanted to find out what I

1157

00:49:02,150 --> 00:48:58,500

was all about and so he was there uh and

1158

00:49:04,430 --> 00:49:02,160

uh I asked him I said so uh is there

1159

00:49:07,910 --> 00:49:04,440

going to be a report written on this oh

1160

00:49:11,089 --> 00:49:07,920

yeah your name's gonna be all over it I

1161

00:49:13,069 --> 00:49:11,099

said oh boy Joy where's that going

1162

00:49:15,470 --> 00:49:13,079

Nellis where you know he goes I can't

1163

00:49:18,589 --> 00:49:15,480

tell you you know just I turn it in

1164

00:49:22,130 --> 00:49:18,599

the the the funny part of that story is

1165

00:49:24,650 --> 00:49:22,140

this one uh I did a polygraph for the

1166

00:49:26,870 --> 00:49:24,660

sheriff's department after I passed you

1167

00:49:29,329 --> 00:49:26,880

know uh the written and everything and

1168

00:49:31,849 --> 00:49:29,339

the verbal and now do the polygraph and

1169

00:49:33,950 --> 00:49:31,859

a polygraph tester you know he asked me

1170

00:49:37,910 --> 00:49:33,960

he says do you have any

1171

00:49:40,849 --> 00:49:37,920

any records on you you know he was like

1172

00:49:44,510 --> 00:49:40,859

criminal record is what he meant I said

1173

00:49:47,270 --> 00:49:44,520

while I might have a file on me

1174

00:49:50,270 --> 00:49:47,280

somewhere in the government and he stops

1175

00:49:53,510 --> 00:49:50,280

Mission he goes okay explain it I told

1176

00:49:55,490 --> 00:49:53,520

him the story and he goes and then so

1177

00:50:00,470 --> 00:49:55,500

um he turns the machine back and I says

1178

00:50:03,050 --> 00:50:00,480

okay other than that area 51 incident do

1179

00:50:05,809 --> 00:50:03,060

you have any type of

1180

00:50:07,309 --> 00:50:05,819

you know record with you know some type

1181

00:50:09,349 --> 00:50:07,319

of law enforcement meaning a criminal

1182

00:50:12,890 --> 00:50:09,359

record I said no I passed the polygraph

1183

00:50:16,250 --> 00:50:12,900

so it's funny how things come back later

1184

00:50:19,250 --> 00:50:16,260

on always a paper trail for sure there

1185

00:50:21,470 --> 00:50:19,260

is there is uh who knows who's got it

1186

00:50:23,150 --> 00:50:21,480

so where can people find you Chuck if

1187

00:50:24,349 --> 00:50:23,160

they want to follow your adventures and

1188

00:50:27,230 --> 00:50:24,359

what you're working on where can they

1189

00:50:30,290 --> 00:50:27,240

find you well oh ufoenet.com

1190

00:50:33,309 --> 00:50:30,300

uh that's UFO nut I come actually I own

1191

00:50:37,190 --> 00:50:33,319

it now so I own you a full nut

1192

00:50:40,069 --> 00:50:37,200

during covet I trademarked it uh the

1193

00:50:42,109 --> 00:50:40,079

websites on LLC so everything I put on

1194

00:50:43,970 --> 00:50:42,119

the website I just uh you know there's

1195

00:50:45,890 --> 00:50:43,980

no charge on my website I never charge

1196

00:50:47,990 --> 00:50:45,900

any fees or anything I just you know I

1197

00:50:49,970 --> 00:50:48,000

do an investigation and I put it out

1198

00:50:51,890 --> 00:50:49,980

there I'm working on an investigation

1199

00:50:54,290 --> 00:50:51,900

right now

1200

00:50:55,609 --> 00:50:54,300

um really cool really really cool it's

1201
00:50:57,950 --> 00:50:55,619
probably another one of these areas

1202
00:50:59,349 --> 00:50:57,960
that's sort of like a skin walker Ranch

1203
00:51:03,470 --> 00:50:59,359
type of area

1204
00:51:06,430 --> 00:51:03,480
over here in Colorado where uh they're

1205
00:51:10,549 --> 00:51:06,440
uh security cameras have picked up

1206
00:51:12,109 --> 00:51:10,559
metallic craft really cool I wish I

1207
00:51:15,230 --> 00:51:12,119
could share the pictures with you right

1208
00:51:17,450 --> 00:51:15,240
now but I can't unfortunately but you

1209
00:51:20,170 --> 00:51:17,460
can clearly see something going boom

1210
00:51:24,049 --> 00:51:20,180
boom bam just shooting off it is like

1211
00:51:26,150 --> 00:51:24,059
what and then I just got some more day

1212
00:51:28,970 --> 00:51:26,160
uh some more video from just not too

1213
00:51:31,370 --> 00:51:28,980

long ago where something flies by and it

1214

00:51:34,370 --> 00:51:31,380

disrupts via camera

1215

00:51:37,190 --> 00:51:34,380

so the camera goes you know so there's

1216

00:51:38,630 --> 00:51:37,200

an em field there's this and that's

1217

00:51:41,870 --> 00:51:38,640

something that I've always talked about

1218

00:51:44,650 --> 00:51:41,880

was you know these things the one thing

1219

00:51:47,530 --> 00:51:44,660

the one denominator with all this is

1220

00:51:49,790 --> 00:51:47,540

electromagnetic fields and we can use

1221

00:51:52,309 --> 00:51:49,800

electromagnetic fields because there's

1222

00:51:54,950 --> 00:51:52,319

enough evidence at least in the years

1223

00:51:58,609 --> 00:51:54,960

I've been doing this that we might be

1224

00:52:00,410 --> 00:51:58,619

able to track using EMF you know and

1225

00:52:03,230 --> 00:52:00,420

then if the EMF is coming from an area

1226

00:52:06,049 --> 00:52:03,240

where it's high in water or higher than

1227

00:52:09,829 --> 00:52:06,059

in you know natural resources and oil

1228

00:52:12,290 --> 00:52:09,839

and stuff then there may be a reason why

1229

00:52:15,349 --> 00:52:12,300

that EMF is there maybe they are

1230

00:52:16,970 --> 00:52:15,359

extracting the hydrogen uh it's kind of

1231

00:52:19,130 --> 00:52:16,980

interesting stuff you know it's just

1232

00:52:20,569 --> 00:52:19,140

like I said it's you know when you get

1233

00:52:22,549 --> 00:52:20,579

in law enforcement there's books and

1234

00:52:24,710 --> 00:52:22,559

books and books you can read about law

1235

00:52:27,230 --> 00:52:24,720

enforcement but when it comes to the

1236

00:52:29,809 --> 00:52:27,240

apology you know there's really not a

1237

00:52:32,870 --> 00:52:29,819

lot you know 37th parallel basically is

1238

00:52:34,609 --> 00:52:32,880

just you know about how I started off

1239

00:52:36,890 --> 00:52:34,619

and the things that I've done and the

1240

00:52:39,770 --> 00:52:36,900

people that I've worked with and and new

1241

00:52:43,730 --> 00:52:39,780

cases and stuff and the ending is kind

1242

00:52:46,730 --> 00:52:43,740

of Crypt them right yeah and I'll tell

1243

00:52:48,410 --> 00:52:46,740

you real quick the ending okay now uh

1244

00:52:49,790 --> 00:52:48,420

Ben masrick wrote that and he told me

1245

00:52:51,890 --> 00:52:49,800

about the ending

1246

00:52:56,089 --> 00:52:51,900

and the reason why it's kind of ended

1247

00:52:57,370 --> 00:52:56,099

that way is because at the time

1248

00:53:00,950 --> 00:52:57,380

um

1249

00:53:04,490 --> 00:53:00,960

I was referring to Bass you know the

1250

00:53:09,049 --> 00:53:04,500

billionaire that uh is in charge of of

1251
00:53:11,150 --> 00:53:09,059
bass and uh and there were some issues

1252
00:53:11,450 --> 00:53:11,160
at the time because

1253
00:53:12,410 --> 00:53:11,460
[Music]

1254
00:53:15,290 --> 00:53:12,420
um

1255
00:53:17,530 --> 00:53:15,300
you know I didn't want to get sued but I

1256
00:53:21,470 --> 00:53:17,540
knew he was part of

1257
00:53:23,329 --> 00:53:21,480
of the funding from the CIA or from

1258
00:53:25,910 --> 00:53:23,339
somewhere some of the thing what he was

1259
00:53:29,030 --> 00:53:25,920
doing he was working with the government

1260
00:53:31,849 --> 00:53:29,040
he just wasn't by himself and as it

1261
00:53:34,490 --> 00:53:31,859
turned out I think it was in 2017 it

1262
00:53:36,470 --> 00:53:34,500
came out that when the Pentagon released

1263
00:53:38,150 --> 00:53:36,480

documents that that they had a 22

1264

00:53:40,130 --> 00:53:38,160

million dollar project you know he was

1265

00:53:42,829 --> 00:53:40,140

his name was mentioned

1266

00:53:45,890 --> 00:53:42,839

so um but that's why some of that

1267

00:53:47,930 --> 00:53:45,900

cryptic stuff and then the sightings and

1268

00:53:49,309 --> 00:53:47,940

stuff I feel like just to clarify we're

1269

00:53:50,630 --> 00:53:49,319

talking about Robert Bigelow correct

1270

00:53:52,910 --> 00:53:50,640

we're talking about I didn't want to say

1271

00:53:56,450 --> 00:53:52,920

it but go ahead Robert I guess I'm gonna

1272

00:53:58,069 --> 00:53:56,460

get shot now great oh no dude well no

1273

00:53:59,690 --> 00:53:58,079

because it was reminiscent we chat with

1274

00:54:02,630 --> 00:53:59,700

George Knapp he tells us the same thing

1275

00:54:05,450 --> 00:54:02,640

right like he went from bass to nibs to

1276
00:54:07,370 --> 00:54:05,460
ASAP to atip and the 22 million dollar

1277
00:54:09,530 --> 00:54:07,380
budget was kind of a little bit

1278
00:54:11,870 --> 00:54:09,540
incorrectly reported by New York Times

1279
00:54:13,849 --> 00:54:11,880
and but nonetheless yeah he's been the

1280
00:54:15,530 --> 00:54:13,859
guy I think it was who did we talk to

1281
00:54:17,450 --> 00:54:15,540
recently Jay and we said who do you

1282
00:54:18,890 --> 00:54:17,460
think's behind all this and he said I'm

1283
00:54:20,510 --> 00:54:18,900
pretty sure Robert Bigelow is still

1284
00:54:23,390 --> 00:54:20,520
behind the scenes even though he's not

1285
00:54:25,790 --> 00:54:23,400
yeah I think so too yeah a lot of people

1286
00:54:28,190 --> 00:54:25,800
are saying to think that interestingly I

1287
00:54:30,049 --> 00:54:28,200
mean I crossed path of Bigelow when I

1288
00:54:30,950 --> 00:54:30,059

was with mufon and I was on the Star

1289

00:54:33,230 --> 00:54:30,960

team

1290

00:54:35,750 --> 00:54:33,240

and I had academic relation

1291

00:54:37,849 --> 00:54:35,760

investigation with the UFO sighting that

1292

00:54:40,190 --> 00:54:37,859

was going to be the very very first star

1293

00:54:43,730 --> 00:54:40,200

investigation for mufon and star teams

1294

00:54:45,230 --> 00:54:43,740

or you know those individuals who move

1295

00:54:47,390 --> 00:54:45,240

on that are highly experienced

1296

00:54:49,370 --> 00:54:47,400

investigators and so they're they're

1297

00:54:52,370 --> 00:54:49,380

part of an elite group called The Stark

1298

00:54:56,710 --> 00:54:52,380

stadium and Robert Bigelow was funding

1299

00:55:00,349 --> 00:54:56,720

that and I found out

1300

00:55:03,170 --> 00:55:00,359

just from being an investigator that uh

1301
00:55:05,710 --> 00:55:03,180
he won he was funding it but it wasn't

1302
00:55:08,690 --> 00:55:05,720
funding it with his own money

1303
00:55:10,970 --> 00:55:08,700
and uh just only because there was a lot

1304
00:55:16,370 --> 00:55:14,089
evidence that kind of pointed that way I

1305
00:55:17,690 --> 00:55:16,380
mean it didn't come out directly but it

1306
00:55:19,370 --> 00:55:17,700
just there was a lot of things that just

1307
00:55:21,890 --> 00:55:19,380
didn't make sense as an investigator

1308
00:55:23,630 --> 00:55:21,900
what was going on and then when I did

1309
00:55:25,069 --> 00:55:23,640
the Cattlemen relation it was the mic

1310
00:55:27,650 --> 00:55:25,079
Duran mutilation

1311
00:55:29,030 --> 00:55:27,660
and I put together a team and I funded

1312
00:55:31,670 --> 00:55:29,040
it we all went out there and did the

1313
00:55:34,069 --> 00:55:31,680

investigation and when we came back he

1314

00:55:36,470 --> 00:55:34,079

was supposed to reimburse me and my team

1315

00:55:37,490 --> 00:55:36,480

and he says no no I'm not going to do it

1316

00:55:39,470 --> 00:55:37,500

because

1317

00:55:41,750 --> 00:55:39,480

um I'm only going to do those cases

1318

00:55:43,970 --> 00:55:41,760

where there's actually evidence of a UFO

1319

00:55:45,829 --> 00:55:43,980

meaning physical evidence of a UFO I

1320

00:55:48,049 --> 00:55:45,839

mean yeah you're an idiot there's not

1321

00:55:50,690 --> 00:55:48,059

going to be evidence physical evidence I

1322

00:55:53,770 --> 00:55:50,700

have a dead cow for crying out loud much

1323

00:55:56,690 --> 00:55:53,780

more evidence than this we got a dead

1324

00:55:58,670 --> 00:55:56,700

cows samples and stuff and now you want

1325

00:56:02,569 --> 00:55:58,680

to be like and then later we found that

1326

00:56:05,510 --> 00:56:02,579

that that his his own investigative team

1327

00:56:09,230 --> 00:56:05,520

that worked for bass they were they were

1328

00:56:11,690 --> 00:56:09,240

jumping mufons teams there's only it's

1329

00:56:14,510 --> 00:56:11,700

like okay so every time there's a move

1330

00:56:16,250 --> 00:56:14,520

phone was sent out an investigator

1331

00:56:19,130 --> 00:56:16,260

um or anytime there was some type of

1332

00:56:20,930 --> 00:56:19,140

event if it's a star event it's one of

1333

00:56:23,030 --> 00:56:20,940

those events where something phenomenal

1334

00:56:26,329 --> 00:56:23,040

happened and so they send the Star team

1335

00:56:28,849 --> 00:56:26,339

up but they have to ask Robert Bigelow

1336

00:56:30,650 --> 00:56:28,859

first they had to send that sighting to

1337

00:56:32,930 --> 00:56:30,660

him this is not now but back in the day

1338

00:56:35,210 --> 00:56:32,940

and he would approve it meaning okay

1339

00:56:37,069 --> 00:56:35,220

I'll fund that but it would take a

1340

00:56:39,410 --> 00:56:37,079

couple of days for him to come back and

1341

00:56:41,990 --> 00:56:39,420

say okay we'll fund that well within

1342

00:56:44,390 --> 00:56:42,000

that couple days we found out and I was

1343

00:56:46,609 --> 00:56:44,400

uh you know at the time I think it was

1344

00:56:48,049 --> 00:56:46,619

assistant director of Colorado and I

1345

00:56:50,089 --> 00:56:48,059

knew all the other directors some of the

1346

00:56:52,250 --> 00:56:50,099

other directors in other states he was

1347

00:56:54,829 --> 00:56:52,260

sending his own team out there

1348

00:56:56,750 --> 00:56:54,839

and they would jump and move far because

1349

00:56:58,069 --> 00:56:56,760

couple of our guys would show up to

1350

00:57:00,470 --> 00:56:58,079

interview the witness and they'd say

1351

00:57:02,450 --> 00:57:00,480

well you're already here you guys are

1352

00:57:04,790 --> 00:57:02,460

already here you were here two days ago

1353

00:57:06,589 --> 00:57:04,800

no we weren't we were here now he was no

1354

00:57:08,870 --> 00:57:06,599

you guys are over here well Biggle it's

1355

00:57:10,430 --> 00:57:08,880

in his own guys out first keeping all

1356

00:57:12,650 --> 00:57:10,440

the juicy pieces for himself right

1357

00:57:16,250 --> 00:57:12,660

exactly are they going up pretending to

1358

00:57:18,589 --> 00:57:16,260

be MoveOn well I don't know I don't know

1359

00:57:20,329 --> 00:57:18,599

if that's a case or they just showed up

1360

00:57:22,130 --> 00:57:20,339

and and said they were you know the

1361

00:57:24,950 --> 00:57:22,140

investigative Society to it but I know

1362

00:57:28,609 --> 00:57:24,960

it happened at least well three times

1363

00:57:30,530 --> 00:57:28,619

and um and then I crossed path with him

1364

00:57:32,329 --> 00:57:30,540

again when

1365

00:57:34,790 --> 00:57:32,339

um my sister and I found a piece of

1366

00:57:38,150 --> 00:57:34,800

metal debris during a sanctioned

1367

00:57:40,549 --> 00:57:38,160

archeology at Roswell and the debris

1368

00:57:42,890 --> 00:57:40,559

side we were doing a show for a Sci-Fi

1369

00:57:44,990 --> 00:57:42,900

channel it's a real long story but the

1370

00:57:48,049 --> 00:57:45,000

bottom line is is they just wanted

1371

00:57:50,630 --> 00:57:48,059

volunteer investigate or uh uh volunteer

1372

00:57:53,510 --> 00:57:50,640

archaeologists there uh just for

1373

00:57:56,030 --> 00:57:53,520

background while they're shooting the TV

1374

00:57:57,950 --> 00:57:56,040

show and Debbie and I were actually my

1375

00:58:00,109 --> 00:57:57,960

sister Debbie is the on the board

1376

00:58:03,349 --> 00:58:00,119

directors for mufon and she's an uh

1377

00:58:06,589 --> 00:58:03,359

state director in mufon of Missouri and

1378

00:58:08,089 --> 00:58:06,599

so we were there and out of all the the

1379

00:58:11,630 --> 00:58:08,099

volunteers were the only two

1380

00:58:14,690 --> 00:58:11,640

investigators besides the hosts which

1381

00:58:15,890 --> 00:58:14,700

were Don Schmidt and Tom Kerry but we're

1382

00:58:17,930 --> 00:58:15,900

digging and we're doing a lot of stuff

1383

00:58:19,670 --> 00:58:17,940

and we realized that we were in the

1384

00:58:21,650 --> 00:58:19,680

wrong place and that where I wanted to

1385

00:58:23,329 --> 00:58:21,660

be and on and on because I l'd been

1386

00:58:27,109 --> 00:58:23,339

Roswell a few times matter of fact Glenn

1387

00:58:29,329 --> 00:58:27,119

Dennis I knew him uh back in the day

1388

00:58:32,750 --> 00:58:29,339

because I used to move Cloud Roswell was

1389

00:58:34,670 --> 00:58:32,760

was my deal man I was really you know he

1390

00:58:37,309 --> 00:58:34,680

lived in California I always hit Roswell

1391

00:58:39,230 --> 00:58:37,319

every time he went on vacation and uh

1392

00:58:41,390 --> 00:58:39,240

Glenn Dennis and Walter hot new me Glenn

1393

00:58:44,630 --> 00:58:41,400

Dennis gave me the GPS coordinates to

1394

00:58:46,190 --> 00:58:44,640

debrisa actually to the BLM marker that

1395

00:58:48,349 --> 00:58:46,200

was near the degree side and told me how

1396

00:58:51,349 --> 00:58:48,359

to get there but

1397

00:58:53,630 --> 00:58:51,359

so we found oh so the bottom line is is

1398

00:58:55,130 --> 00:58:53,640

I realized that we were in the right in

1399

00:58:59,690 --> 00:58:55,140

the wrong area

1400

00:59:02,089 --> 00:58:59,700

only based on erosion over you know 60

1401
00:59:04,789 --> 00:59:02,099
years or whatever it was and I wanted to

1402
00:59:07,849 --> 00:59:04,799
be over here the everybody in the TV

1403
00:59:10,190 --> 00:59:07,859
they wanted us over here and so when

1404
00:59:12,109 --> 00:59:10,200
they finally packed up to leave

1405
00:59:13,670 --> 00:59:12,119
um we asked Dr Bill Doman if we could

1406
00:59:15,829 --> 00:59:13,680
come back another day while he's out

1407
00:59:17,990 --> 00:59:15,839
there picking up stuff if we could do

1408
00:59:19,670 --> 00:59:18,000
our own dig in the place that I wanted

1409
00:59:23,690 --> 00:59:19,680
to dig where

1410
00:59:25,670 --> 00:59:23,700
we're over decades the water due to

1411
00:59:28,849 --> 00:59:25,680
erosion would move maybe some of the

1412
00:59:31,609 --> 00:59:28,859
debris why because that's logical

1413
00:59:33,049 --> 00:59:31,619

thinking yeah you just don't look at a

1414

00:59:34,849 --> 00:59:33,059

place where it came down you have to

1415

00:59:37,670 --> 00:59:34,859

think about what happened you know over

1416

00:59:38,930 --> 00:59:37,680

the decades with rain and you know high

1417

00:59:41,870 --> 00:59:38,940

winds and stuff

1418

00:59:45,710 --> 00:59:41,880

so um we did and I used a technique

1419

00:59:48,890 --> 00:59:45,720

called uh uh well it's it's basically uh

1420

00:59:51,470 --> 00:59:48,900

one by five meter uh skinning dirt off

1421

00:59:53,390 --> 00:59:51,480

of the top uh you only have to go down

1422

00:59:55,730 --> 00:59:53,400

that deep to get back down in the 40s

1423

00:59:57,410 --> 00:59:55,740

and they had us going down the Jurassic

1424

00:59:59,630 --> 00:59:57,420

period

1425

01:00:01,370 --> 00:59:59,640

um so I was strip digging is what I was

1426
01:00:04,370 --> 01:00:01,380
and so I was strip digging and my sister

1427
01:00:05,930 --> 01:00:04,380
Debbie was was uh you know she was

1428
01:00:07,750 --> 01:00:05,940
shaking the dirt and looking and we

1429
01:00:10,849 --> 01:00:07,760
found a little piece of metal

1430
01:00:12,829 --> 01:00:10,859
and uh had it bagged and then um we

1431
01:00:15,650 --> 01:00:12,839
tried to get sci-fi to analyze it more

1432
01:00:19,370 --> 01:00:15,660
we try to get the UFO Museum in Roswell

1433
01:00:21,170 --> 01:00:19,380
and they did it so I got a hold of Peace

1434
01:00:23,030 --> 01:00:21,180
um at the time I was Contracting at a

1435
01:00:25,910 --> 01:00:23,040
company over here that had electrons

1436
01:00:27,410 --> 01:00:25,920
County microscope downstairs and just so

1437
01:00:30,589 --> 01:00:27,420
happened the operator the electron

1438
01:00:32,750 --> 01:00:30,599

scanning microscope was an efos so after

1439

01:00:34,970 --> 01:00:32,760

hour I took a piece in there we you

1440

01:00:37,849 --> 01:00:34,980

checked it out as aluminum silicon alloy

1441

01:00:40,430 --> 01:00:37,859

with Trace elements of titanium

1442

01:00:42,490 --> 01:00:40,440

under eight inches of dirt out in the

1443

01:00:45,730 --> 01:00:42,500

middle of the desert right

1444

01:00:48,349 --> 01:00:45,740

so then I did a press release in Roswell

1445

01:00:50,210 --> 01:00:48,359

and who do you think answered the press

1446

01:00:52,609 --> 01:00:50,220

release to

1447

01:00:54,470 --> 01:00:52,619

do lab analysis on it

1448

01:00:59,990 --> 01:00:54,480

Robert Bigelow

1449

01:01:02,289 --> 01:01:00,000

and so he did or his lab did and I'm not

1450

01:01:05,349 --> 01:01:02,299

stupid all right

1451

01:01:08,809 --> 01:01:05,359

I had the the

1452

01:01:12,049 --> 01:01:08,819

museum and the in uh or the archeology

1453

01:01:13,370 --> 01:01:12,059

place in New Mexico had the debris

1454

01:01:15,530 --> 01:01:13,380

um I talked to them and we did a

1455

01:01:17,690 --> 01:01:15,540

documentation I had them cut a piece of

1456

01:01:20,030 --> 01:01:17,700

it off for Robert Bigelow so there's

1457

01:01:22,250 --> 01:01:20,040

still a piece left in archive

1458

01:01:24,950 --> 01:01:22,260

and so that piece went to Robert biglow

1459

01:01:27,410 --> 01:01:24,960

within one week I got an email from the

1460

01:01:29,170 --> 01:01:27,420

lab scientist saying it's an unknown

1461

01:01:33,349 --> 01:01:29,180

polymer

1462

01:01:35,870 --> 01:01:33,359

has

1463

01:01:38,270 --> 01:01:35,880

you know like the book of polymers or

1464

01:01:42,170 --> 01:01:38,280

whatever you know of known polymers but

1465

01:01:43,910 --> 01:01:42,180

it's an unknown power based on all our

1466

01:01:46,309 --> 01:01:43,920

just regular polymers that we use which

1467

01:01:49,190 --> 01:01:46,319

tells me now it's not anything that's

1468

01:01:52,250 --> 01:01:49,200

very common right it's it could still be

1469

01:01:55,069 --> 01:01:52,260

from this planet but it's not

1470

01:01:57,410 --> 01:01:55,079

you know backside of duct tape or it's

1471

01:01:59,030 --> 01:01:57,420

not the aluminum from a bubblegum

1472

01:02:00,890 --> 01:01:59,040

wrapper

1473

01:02:02,569 --> 01:02:00,900

it's not a conventional explanation

1474

01:02:04,490 --> 01:02:02,579

right yeah yeah but they just that's an

1475

01:02:08,990 --> 01:02:04,500

unknown polymer doesn't mean it's it's

1476

01:02:12,289 --> 01:02:09,000

you know that it's a UFO that's fine but

1477

01:02:13,910 --> 01:02:12,299

but still are huge because because it's

1478

01:02:16,910 --> 01:02:13,920

a piece of uh you know alone second

1479

01:02:19,309 --> 01:02:16,920

alloy it's an unknown polymer and that's

1480

01:02:21,289 --> 01:02:19,319

a lot more than most people would expect

1481

01:02:25,549 --> 01:02:21,299

that came out of eight inches of dirt in

1482

01:02:27,170 --> 01:02:25,559

the middle of the desert right so um

1483

01:02:28,849 --> 01:02:27,180

never heard from them again if you read

1484

01:02:31,069 --> 01:02:28,859

the book right

1485

01:02:33,289 --> 01:02:31,079

a year later I mean I even went over to

1486

01:02:35,390 --> 01:02:33,299

the bass over in Las Vegas

1487

01:02:37,130 --> 01:02:35,400

I didn't actually drive out there on

1488

01:02:39,230 --> 01:02:37,140

purpose I just happened to be in the

1489

01:02:41,569 --> 01:02:39,240

area and I went back to see if there was

1490

01:02:42,349 --> 01:02:41,579

any way to get into Basque

1491

01:02:44,690 --> 01:02:42,359

um

1492

01:02:47,510 --> 01:02:44,700

I got an email back about a year so the

1493

01:02:49,849 --> 01:02:47,520

latest thing oh it was nothing but you

1494

01:02:51,890 --> 01:02:49,859

told me it was not on polymer oh and the

1495

01:02:54,230 --> 01:02:51,900

answer told me when I asked him okay

1496

01:02:56,030 --> 01:02:54,240

what was next what type of analysis

1497

01:02:57,950 --> 01:02:56,040

you're going to do next and they said

1498

01:03:00,230 --> 01:02:57,960

well you know we're going to see if it's

1499

01:03:03,170 --> 01:03:00,240

you know from from this planet we're

1500

01:03:05,510 --> 01:03:03,180

going to do another analysis and see if

1501

01:03:06,170 --> 01:03:05,520

it's actually from this plant

1502

01:03:08,510 --> 01:03:06,180

um

1503

01:03:09,710 --> 01:03:08,520

anyway a year later you know I'd

1504

01:03:11,450 --> 01:03:09,720

probably get it back and you know

1505

01:03:13,549 --> 01:03:11,460

actually Museum got it back and it said

1506

01:03:16,250 --> 01:03:13,559

well it was nothing

1507

01:03:17,510 --> 01:03:16,260

the cool thing is though about that time

1508

01:03:19,849 --> 01:03:17,520

period

1509

01:03:22,190 --> 01:03:19,859

I know from what the Pentagon was saying

1510

01:03:24,470 --> 01:03:22,200

what they were funding but we knew that

1511

01:03:26,930 --> 01:03:24,480

they were funding before that because

1512

01:03:29,870 --> 01:03:26,940

I found

1513

01:03:31,370 --> 01:03:29,880

it's not hard evidence that that Bigelow

1514

01:03:33,349 --> 01:03:31,380

was being funded you know when the Star

1515

01:03:36,289 --> 01:03:33,359

team was going on

1516

01:03:40,069 --> 01:03:36,299

so I think that little piece of metal

1517

01:03:42,109 --> 01:03:40,079

might have been part of the Pentagon you

1518

01:03:43,789 --> 01:03:42,119

know money like in other words the

1519

01:03:45,170 --> 01:03:43,799

Pentagon was analyzing it through

1520

01:03:48,710 --> 01:03:45,180

Bigelow

1521

01:03:51,049 --> 01:03:48,720

it's pretty cool I think because now you

1522

01:03:55,370 --> 01:03:51,059

know it's like oh uh Pentagon knows

1523

01:04:00,170 --> 01:03:57,829

well you got to keep digging maybe

1524

01:04:02,270 --> 01:04:00,180

you'll find an actual craft one of these

1525

01:04:04,309 --> 01:04:02,280

days or something uh substantial you

1526

01:04:05,569 --> 01:04:04,319

know like that's the thing is you've

1527

01:04:07,849 --> 01:04:05,579

actually been there you've been on the

1528

01:04:09,470 --> 01:04:07,859

ground you've done this work and uh a

1529

01:04:11,750 --> 01:04:09,480

lot more than what we can say in an

1530

01:04:14,150 --> 01:04:11,760

hour's time uh for the amount of work

1531

01:04:15,710 --> 01:04:14,160

that you've done and uh no we thank you

1532

01:04:18,470 --> 01:04:15,720

so much for coming on the podcast today

1533

01:04:20,329 --> 01:04:18,480

Chuck it's thank you yeah it's it's

1534

01:04:21,650 --> 01:04:20,339

great to have you on here Louie do you

1535

01:04:23,569 --> 01:04:21,660

have any final questions for our guests

1536

01:04:25,910 --> 01:04:23,579

no just also big thanks again it's

1537

01:04:28,190 --> 01:04:25,920

always uh we're younger guys we've been

1538

01:04:29,990 --> 01:04:28,200

in this for a long time but only last

1539

01:04:32,510 --> 01:04:30,000

couple years doing shows interviewing

1540

01:04:34,370 --> 01:04:32,520

guys such as yourself and uh yeah it's

1541

01:04:36,410 --> 01:04:34,380

inspirational you know you piqued our

1542

01:04:38,690 --> 01:04:36,420

interest many years ago and it's great

1543

01:04:40,430 --> 01:04:38,700

to chat with you in person and uh find

1544

01:04:41,930 --> 01:04:40,440

out that you're still hard at it so uh

1545

01:04:43,789 --> 01:04:41,940

keep doing what you're doing a lot of

1546

01:04:45,650 --> 01:04:43,799

people appreciate it and you do a very

1547

01:04:48,230 --> 01:04:45,660

good job so thank you well thank you

1548

01:04:49,970 --> 01:04:48,240

thank you I mean just just you know

1549

01:04:51,770 --> 01:04:49,980

um you hit my website every now then

1550

01:04:53,750 --> 01:04:51,780

you'll find out anything that I find new

1551

01:04:55,309 --> 01:04:53,760

I mean I'm working on a couple of things

1552

01:04:58,130 --> 01:04:55,319

right now covet kind of like missed the

1553

01:04:59,809 --> 01:04:58,140

things up unfortunately you know for a

1554

01:05:02,030 --> 01:04:59,819

lot of people yeah yeah that I was

1555

01:05:04,010 --> 01:05:02,040

working on but like I said that one

1556

01:05:06,109 --> 01:05:04,020

investigation I'm kind of working on and

1557

01:05:09,230 --> 01:05:06,119

then I have something else now that just

1558

01:05:11,450 --> 01:05:09,240

popped up this last week and uh whatever

1559

01:05:14,030 --> 01:05:11,460

information I get you know I just put it

1560

01:05:15,289 --> 01:05:14,040

on my website for everybody to you know

1561

01:05:17,210 --> 01:05:15,299

read and then the bottom line is

1562

01:05:19,069 --> 01:05:17,220

everything anything on my website

1563

01:05:22,190 --> 01:05:19,079

challenge me you know I mean that's how

1564

01:05:23,930 --> 01:05:22,200

I learn too right if I'm going in the

1565

01:05:26,510 --> 01:05:23,940

wrong direction challenge me on it tell

1566

01:05:28,910 --> 01:05:26,520

me why'd you go there I mean I can't

1567

01:05:31,549 --> 01:05:28,920

know everything so that's why I do it

1568

01:05:33,890 --> 01:05:31,559

yeah you know the information is is not

1569

01:05:37,010 --> 01:05:33,900

to be etched in stone it's to be

1570

01:05:38,809 --> 01:05:37,020

discussed yeah well said Chuck Zukowski

1571

01:05:40,490 --> 01:05:38,819

thank you so much for your time and

1572

01:05:42,349 --> 01:05:40,500

thank you for joining us on uip studies

1573

01:05:45,289 --> 01:05:42,359

thank you very much thank you for having

1574

01:05:49,110 --> 01:05:45,299

me on your show thank you of course
