

A man in a space suit is seated in a space station, looking through a large telescope. The view outside the window shows a satellite in orbit, a UFO, and a triangular object in the sky. The Earth's horizon is visible below. The background is a vibrant, colorful nebula.

**UAP STUDIES  
PODCAST**

1  
00:00:05,809 --> 00:00:01,850  
hey everybody hope you're having a great

2  
00:00:09,470 --> 00:00:05,819  
day NASA Jason nobody seems to be able

3  
00:00:11,150 --> 00:00:09,480  
to comment educated on NASA because we

4  
00:00:13,009 --> 00:00:11,160  
don't know right like I don't work for

5  
00:00:15,890 --> 00:00:13,019  
NASA I don't know anybody who works for

6  
00:00:18,170 --> 00:00:15,900  
NASA and we basically as far as we can

7  
00:00:20,210 --> 00:00:18,180  
go on the topic is I'm sure they know

8  
00:00:22,490 --> 00:00:20,220  
more than they're telling us which we

9  
00:00:24,109 --> 00:00:22,500  
all of them yeah like which we all agree

10  
00:00:26,210 --> 00:00:24,119  
but then we kind of leave it there and

11  
00:00:27,529 --> 00:00:26,220  
go about our daily lives so today is

12  
00:00:31,250 --> 00:00:27,539  
going to be a little refreshing where we

13  
00:00:33,770 --> 00:00:31,260

have Darcy Weir uh a filmmaker young guy

14

00:00:36,049 --> 00:00:33,780

also proud Canadian like we are but he

15

00:00:39,410 --> 00:00:36,059

has done a deep dive on what NASA has

16

00:00:42,229 --> 00:00:39,420

collected sensors videos even their own

17

00:00:44,030 --> 00:00:42,239

personnel and if you're like us where

18

00:00:46,670 --> 00:00:44,040

you thought the buck stopped with well

19

00:00:48,410 --> 00:00:46,680

NASA knows but we'll never know I think

20

00:00:50,569 --> 00:00:48,420

you might learn something that there is

21

00:00:52,850 --> 00:00:50,579

a lot of information out there you did a

22

00:00:53,810 --> 00:00:52,860

fabulous job compiling it all and we

23

00:00:55,670 --> 00:00:53,820

want to ask him some of the big

24

00:00:58,850 --> 00:00:55,680

questions you know like what does all

25

00:01:00,170 --> 00:00:58,860

this mean military wise politics wise

26

00:01:02,389 --> 00:01:00,180

how does this involve the experience

27

00:01:04,070 --> 00:01:02,399

answer phenomenon I think it'll be a

28

00:01:06,710 --> 00:01:04,080

cool show and one that we haven't done

29

00:01:08,929 --> 00:01:06,720

before Jay I know no for me anyway yeah

30

00:01:11,510 --> 00:01:08,939

I don't think that we've ever covered uh

31

00:01:13,789 --> 00:01:11,520

well the fast Walkers the uh you know

32

00:01:15,289 --> 00:01:13,799

crafts are coming from outer space that

33

00:01:17,330 --> 00:01:15,299

are entering the atmospheres we haven't

34

00:01:19,250 --> 00:01:17,340

covered that we covered everything else

35

00:01:21,830 --> 00:01:19,260

from the atmosphere to inside the water

36

00:01:23,990 --> 00:01:21,840

but this is an interesting subject

37

00:01:26,030 --> 00:01:24,000

because it proves that at least some of

38

00:01:29,030 --> 00:01:26,040

the visitors or visitations that we have

39

00:01:31,249 --> 00:01:29,040

are coming from off-world they're not

40

00:01:32,690 --> 00:01:31,259

from here yeah good point yeah good

41

00:01:35,090 --> 00:01:32,700

point a lot of people say that you know

42

00:01:37,429 --> 00:01:35,100

they're already on Earth they somehow

43

00:01:39,410 --> 00:01:37,439

manifest or they they transition through

44

00:01:41,390 --> 00:01:39,420

Dimensions however that would work but

45

00:01:43,910 --> 00:01:41,400

yeah it's pretty amazing when NASA has

46

00:01:46,609 --> 00:01:43,920

actual footage of things coming from out

47

00:01:48,890 --> 00:01:46,619

of orbit into that and then into the

48

00:01:50,330 --> 00:01:48,900

atmosphere of the earth it does back

49

00:01:52,609 --> 00:01:50,340

that up so it's going to be an

50

00:01:54,170 --> 00:01:52,619

interesting show not too deep of a dive

51  
00:01:55,670 --> 00:01:54,180  
we want to get to a lot of little

52  
00:01:57,770 --> 00:01:55,680  
Snippets so we're going to cover a lot

53  
00:01:59,389 --> 00:01:57,780  
of material we'll keep it fast flowing

54  
00:02:01,670 --> 00:01:59,399  
and we'll learn a little bit more about

55  
00:02:03,109 --> 00:02:01,680  
today's guest our see where so with that

56  
00:02:05,030 --> 00:02:03,119  
we'll be right back we'll play some

57  
00:02:07,069 --> 00:02:05,040  
fancy music here Jay you got her cued up

58  
00:02:08,749 --> 00:02:07,079  
I love it and uh we'll be right back

59  
00:02:11,150 --> 00:02:08,759  
with Darcy Weir right here on UAP

60  
00:02:15,030 --> 00:02:11,160  
studies podcast

61  
00:02:15,040 --> 00:02:33,430  
[Music]

62  
00:02:37,610 --> 00:02:35,690  
welcome back to another episode of UAP

63  
00:02:39,350 --> 00:02:37,620

studies podcast my name is Louis Borges

64  
00:02:42,290 --> 00:02:39,360  
joining me as always my best buddy Jason

65  
00:02:44,210 --> 00:02:42,300  
Gilman I'm excited for today Louie we're

66  
00:02:46,970 --> 00:02:44,220  
doing two interviews this is our second

67  
00:02:49,250 --> 00:02:46,980  
interview of the day we got Darcy and

68  
00:02:51,650 --> 00:02:49,260  
I'm gonna admit something to you Darcy I

69  
00:02:53,690 --> 00:02:51,660  
have seen your films I did not put your

70  
00:02:54,890 --> 00:02:53,700  
name to those films when uh Louis put

71  
00:02:57,650 --> 00:02:54,900  
your name on the calendar I'm like oh

72  
00:02:59,869 --> 00:02:57,660  
cool this guy did a documentary on Space

73  
00:03:02,089 --> 00:02:59,879  
UFOs that's so cool I did not put the

74  
00:03:03,949 --> 00:03:02,099  
two and two together until uh I saw all

75  
00:03:05,990 --> 00:03:03,959  
the information I'm like I've seen a lot

76

00:03:07,850 --> 00:03:06,000

of these movies I know who this guy is

77

00:03:10,430 --> 00:03:07,860

so I'm sorry I didn't recognize you from

78

00:03:11,750 --> 00:03:10,440

the start it's uh it's it's amazing and

79

00:03:14,210 --> 00:03:11,760

humbling experience at the same time

80

00:03:17,089 --> 00:03:14,220

it's great to have you on man hey thanks

81

00:03:18,470 --> 00:03:17,099

I honestly hear that a lot believe it or

82

00:03:21,470 --> 00:03:18,480

not we're gonna fix that today brother

83

00:03:24,710 --> 00:03:21,480

so many people are just like who is this

84

00:03:26,930 --> 00:03:24,720

guy like what many thousands of people

85

00:03:29,030 --> 00:03:26,940

more will now know who you are at the

86

00:03:30,229 --> 00:03:29,040

end of this so uh and it's cool because

87

00:03:32,390 --> 00:03:30,239

we're talking about something we don't

88

00:03:33,530 --> 00:03:32,400

talk about often which is NASA and I

89

00:03:35,449 --> 00:03:33,540

think everybody kind of says

90

00:03:38,030 --> 00:03:35,459

tongue-in-cheek you know we all agree

91

00:03:39,530 --> 00:03:38,040

NASA knows more than they allude but

92

00:03:41,690 --> 00:03:39,540

that's about as far as the conversation

93

00:03:43,130 --> 00:03:41,700

can go because we don't work for NASA we

94

00:03:45,170 --> 00:03:43,140

don't know anybody who works for NASA

95

00:03:46,729 --> 00:03:45,180

they're not talking so it's really a

96

00:03:48,649 --> 00:03:46,739

moot point so it's good that you've put

97

00:03:52,070 --> 00:03:48,659

so much time and energy researching this

98

00:03:53,270 --> 00:03:52,080

getting actual evidence and proof and

99

00:03:54,890 --> 00:03:53,280

putting it together in a really well

100

00:03:56,390 --> 00:03:54,900

made film so

101  
00:03:58,670 --> 00:03:56,400  
um welcome to the show first of all it's

102  
00:04:00,770 --> 00:03:58,680  
great to have you here fellow Canadian

103  
00:04:03,350 --> 00:04:00,780  
glad to have you buddy you bet thanks

104  
00:04:06,589 --> 00:04:03,360  
for having me both here Louie and Jason

105  
00:04:08,869 --> 00:04:06,599  
yeah and secret space UFOs fast Walkers

106  
00:04:11,570 --> 00:04:08,879  
is the name of the film uh Darcy has

107  
00:04:14,030 --> 00:04:11,580  
produced over 15 full length feature

108  
00:04:15,890 --> 00:04:14,040  
films uh he's traveled worldwide doing

109  
00:04:17,629 --> 00:04:15,900  
this type of thing and he's even gone so

110  
00:04:19,189 --> 00:04:17,639  
far as to say it is his mission to make

111  
00:04:21,650 --> 00:04:19,199  
this more accessible for the general

112  
00:04:23,930 --> 00:04:21,660  
public by just shedding light on it

113  
00:04:25,730 --> 00:04:23,940

through film and other projects so

114

00:04:27,830 --> 00:04:25,740

you're very much like us we're not doing

115

00:04:30,110 --> 00:04:27,840

this for the notoriety the fame the

116

00:04:33,890 --> 00:04:30,120

money we're doing it for the topic and

117

00:04:36,469 --> 00:04:33,900

and uh so why let me ask you why NASA

118

00:04:38,570 --> 00:04:36,479

what specifically about this

119

00:04:40,249 --> 00:04:38,580

um became the topic of your your next

120

00:04:44,210 --> 00:04:40,259

project so to speak

121

00:04:48,110 --> 00:04:44,220

well yeah uh I'm

122

00:04:50,749 --> 00:04:48,120

very interested in the UAP Topic in UFOs

123

00:04:53,390 --> 00:04:50,759

and I have been for

124

00:04:54,290 --> 00:04:53,400

about 20 years now

125

00:04:58,370 --> 00:04:54,300

um

126

00:05:00,950 --> 00:04:58,380

and I started looking into this

127

00:05:05,950 --> 00:05:00,960

um topic because I was friends with this

128

00:05:10,550 --> 00:05:05,960

guy named Jose escamilla a former UFO

129

00:05:12,530 --> 00:05:10,560

researcher and documentarian he made he

130

00:05:13,070 --> 00:05:12,540

was actually famous for making

131

00:05:16,249 --> 00:05:13,080

um

132

00:05:18,710 --> 00:05:16,259

UFOs The Greatest Story Ever denied

133

00:05:21,170 --> 00:05:18,720

uh it's an oldie but a goodie and I

134

00:05:22,610 --> 00:05:21,180

think I watched that in University after

135

00:05:24,710 --> 00:05:22,620

I started

136

00:05:26,689 --> 00:05:24,720

kind of looking into the idea that maybe

137

00:05:30,590 --> 00:05:26,699

we're not alone in the universe

138

00:05:33,110 --> 00:05:30,600

and Jose was making

139

00:05:37,730 --> 00:05:33,120

this documentary

140

00:05:40,430 --> 00:05:37,740

um sort of Spacey documentary series he

141

00:05:42,710 --> 00:05:40,440

did want two on the moon I think one of

142

00:05:45,469 --> 00:05:42,720

them was called Moon Rising

143

00:05:46,790 --> 00:05:45,479

and it was all about anomalies on the

144

00:05:49,490 --> 00:05:46,800

moon and stuff and he was actually

145

00:05:51,409 --> 00:05:49,500

working with another Canadian guy that

146

00:05:53,330 --> 00:05:51,419

I'm friends with that I have

147

00:05:55,850 --> 00:05:53,340

collaborated with on this series his

148

00:05:59,629 --> 00:05:55,860

name is Carrie martinuk

149

00:06:02,210 --> 00:05:59,639

um who you know went by Luna cognita

150

00:06:06,110 --> 00:06:02,220

and um

151  
00:06:08,990 --> 00:06:06,120  
he's out in Ontario uh but anyways this

152  
00:06:11,469 --> 00:06:09,000  
guy and I got together started chatting

153  
00:06:14,870 --> 00:06:11,479  
and I said look I want to like really

154  
00:06:16,249 --> 00:06:14,880  
dedicate some time to fleshing out some

155  
00:06:18,110 --> 00:06:16,259  
of the material you've collected

156  
00:06:20,270 --> 00:06:18,120  
combining it with some of the history

157  
00:06:22,129 --> 00:06:20,280  
and research I've done and the

158  
00:06:26,330 --> 00:06:22,139  
interviews I've done with uh subject

159  
00:06:31,129 --> 00:06:26,340  
matter experts in the UFO field and just

160  
00:06:34,490 --> 00:06:31,139  
really make a a strong thesis of

161  
00:06:39,469 --> 00:06:34,500  
um you know the fact that NASA

162  
00:06:42,350 --> 00:06:39,479  
has been suppressing UFO events and UFO

163  
00:06:44,689 --> 00:06:42,360

encounters the whole phenomenon from the

164

00:06:45,770 --> 00:06:44,699

public for a long time and I think it's

165

00:06:48,770 --> 00:06:45,780

Timely

166

00:06:52,730 --> 00:06:48,780

that this uh documentary series is out

167

00:06:55,370 --> 00:06:52,740

because as you both may know NASA is

168

00:06:58,969 --> 00:06:55,380

currently embroiled in investigating UAP

169

00:07:01,850 --> 00:06:58,979

officially publicly they have a research

170

00:07:04,129 --> 00:07:01,860

research group of 15 dedicated

171

00:07:06,650 --> 00:07:04,139

scientists from different fields and

172

00:07:08,629 --> 00:07:06,660

backgrounds and um

173

00:07:12,969 --> 00:07:08,639

we can talk more on that but I just

174

00:07:16,430 --> 00:07:12,979

think that whatever comes out from that

175

00:07:19,790 --> 00:07:16,440

research group better be

176

00:07:23,089 --> 00:07:19,800

UFO Pro in my opinion just considering

177

00:07:26,330 --> 00:07:23,099

the history that I've kind of uncovered

178

00:07:29,270 --> 00:07:26,340

of certain anomalous events that have uh

179

00:07:30,110 --> 00:07:29,280

transpired throughout NASA's

180

00:07:33,529 --> 00:07:30,120

um

181

00:07:37,790 --> 00:07:33,539

existence and and their exploration of

182

00:07:40,249 --> 00:07:37,800

space uh as a scientific group on behalf

183

00:07:42,830 --> 00:07:40,259

of the American public on behalf of

184

00:07:43,670 --> 00:07:42,840

mankind really and

185

00:07:45,110 --> 00:07:43,680

um

186

00:07:47,990 --> 00:07:45,120

you know some people don't really

187

00:07:53,689 --> 00:07:48,000

realize but not NASA was originally

188

00:07:55,550 --> 00:07:53,699

started as NACA in 1958 and uh that

189

00:07:58,969 --> 00:07:55,560

stood for National advisory committee

190

00:08:01,850 --> 00:07:58,979

for Aeronautics and soon after not too

191

00:08:04,070 --> 00:08:01,860

long after it it like within a year it

192

00:08:07,550 --> 00:08:04,080

became NASA which is National

193

00:08:09,850 --> 00:08:07,560

Aeronautics and Space Administration and

194

00:08:12,170 --> 00:08:09,860

um they were

195

00:08:15,230 --> 00:08:12,180

extricably linked from the very starting

196

00:08:17,870 --> 00:08:15,240

to the Air Force

197

00:08:19,969 --> 00:08:17,880

um and later on very connected to the

198

00:08:22,369 --> 00:08:19,979

Navy and I think all of the intelligence

199

00:08:25,010 --> 00:08:22,379

agencies in the United States

200

00:08:26,570 --> 00:08:25,020

use NASA to some degree when they need

201  
00:08:28,850 --> 00:08:26,580  
to

202  
00:08:31,790 --> 00:08:28,860  
um you know they're the the greatest

203  
00:08:34,370 --> 00:08:31,800  
science Geeks that the United States has

204  
00:08:36,409 --> 00:08:34,380  
to offer and they know everything about

205  
00:08:37,850 --> 00:08:36,419  
Aerospace

206  
00:08:41,449 --> 00:08:37,860  
um and that

207  
00:08:45,530 --> 00:08:41,459  
is the greatest Frontier for mankind in

208  
00:08:49,210 --> 00:08:45,540  
terms of dominating or exerting military

209  
00:08:53,990 --> 00:08:49,220  
Supremacy if you rule that theater

210  
00:08:56,930 --> 00:08:54,000  
Aerospace outer space and you know our

211  
00:08:59,449 --> 00:08:56,940  
uh airspace then you're going to do

212  
00:09:01,990 --> 00:08:59,459  
pretty well uh in terms of getting what

213  
00:09:05,389 --> 00:09:02,000

you want as a

214

00:09:09,850 --> 00:09:05,399

economy as a society so on and so forth

215

00:09:13,310 --> 00:09:09,860

and so I think just

216

00:09:17,650 --> 00:09:13,320

originally when I started making this

217

00:09:24,710 --> 00:09:20,949

and I had been looking into

218

00:09:26,389 --> 00:09:24,720

an individual named Dr Jack Kasher who

219

00:09:29,329 --> 00:09:26,399

is featured in this documentary you'll

220

00:09:31,790 --> 00:09:29,339

recognize him for like the kind of funky

221

00:09:33,829 --> 00:09:31,800

uh science lab with like a little

222

00:09:36,530 --> 00:09:33,839

monitor that has like a green blip going

223

00:09:38,350 --> 00:09:36,540

across it in the background and like a

224

00:09:40,130 --> 00:09:38,360

sort of like pink light

225

00:09:40,970 --> 00:09:40,140

tinge to it

226

00:09:46,250 --> 00:09:40,980

um

227

00:09:50,690 --> 00:09:46,260

so Dr Jack Kasher was a NASA employee at

228

00:09:54,710 --> 00:09:50,700

one point he worked with uh them doing

229

00:10:00,410 --> 00:09:54,720

um research on the nuclear

230

00:10:04,550 --> 00:10:00,420

sort of nuclear physics of the Sun and

231

00:10:06,829 --> 00:10:04,560

uh possibly some classified studies

232

00:10:09,290 --> 00:10:06,839

around energy effects

233

00:10:12,410 --> 00:10:09,300

he wouldn't talk about that but

234

00:10:15,470 --> 00:10:12,420

he talked a lot to me when I reached out

235

00:10:20,810 --> 00:10:15,480

to him in 2017 and interviewed him in

236

00:10:27,350 --> 00:10:24,530

um about UFOs and a lot of the stuff

237

00:10:31,730 --> 00:10:27,360

that NASA had been doing for many years

238

00:10:33,350 --> 00:10:31,740

at that point that he knew of because he

239

00:10:37,449 --> 00:10:33,360  
would reach out to NASA to get

240

00:10:41,269 --> 00:10:37,459  
clarification regarding certain UAP

241

00:10:42,050 --> 00:10:41,279  
events that happened in space

242

00:10:43,630 --> 00:10:42,060  
um

243

00:10:46,730 --> 00:10:43,640  
and

244

00:10:50,870 --> 00:10:46,740  
originally I collected a lot of that

245

00:10:53,389 --> 00:10:50,880  
interview data and I

246

00:10:59,030 --> 00:10:55,550  
was planning to just have it in one

247

00:11:01,550 --> 00:10:59,040  
documentary but I I ended up you know

248

00:11:05,329 --> 00:11:01,560  
putting it into this greater documentary

249

00:11:07,069 --> 00:11:05,339  
series that uh you guys have now seen a

250

00:11:09,769 --> 00:11:07,079  
bit of and um

251  
00:11:10,430 --> 00:11:09,779  
and here we are today talking about you

252  
00:11:16,250 --> 00:11:10,440  
know

253  
00:11:18,050 --> 00:11:16,260  
NASA and and secret space UFO encounters

254  
00:11:21,650 --> 00:11:18,060  
do you know what I love about this as

255  
00:11:23,750 --> 00:11:21,660  
well Darcy is we've covered a lot from

256  
00:11:26,090 --> 00:11:23,760  
the aspects of you know when they're

257  
00:11:27,769 --> 00:11:26,100  
underwater when they're in our

258  
00:11:29,630 --> 00:11:27,779  
atmosphere when they land on the ground

259  
00:11:32,329 --> 00:11:29,640  
when there's an interaction between the

260  
00:11:34,670 --> 00:11:32,339  
occupants of these crafts and civilians

261  
00:11:36,650 --> 00:11:34,680  
or military personnel

262  
00:11:39,949 --> 00:11:36,660  
what fascinates me about this is that

263  
00:11:42,530 --> 00:11:39,959

from the get-go NASA must have already

264

00:11:44,389 --> 00:11:42,540

had some sort of contingency plan in the

265

00:11:46,490 --> 00:11:44,399

event that they're astronauts when they

266

00:11:49,069 --> 00:11:46,500

send to the Moon would encounter

267

00:11:51,710 --> 00:11:49,079

something that's not from here and they

268

00:11:54,170 --> 00:11:51,720

executed that by the sounds of it when

269

00:11:55,850 --> 00:11:54,180

they landed and we got Buzz Aldrin that

270

00:11:58,009 --> 00:11:55,860

mentioned that he saw something they

271

00:12:00,710 --> 00:11:58,019

switched over to the medical or the

272

00:12:02,030 --> 00:12:00,720

private Channel and communicated so from

273

00:12:04,310 --> 00:12:02,040

the get-go

274

00:12:06,230 --> 00:12:04,320

NASA was aware that this is a

275

00:12:08,690 --> 00:12:06,240

possibility when you go into space and

276

00:12:10,069 --> 00:12:08,700

they had planned for that it still

277

00:12:11,690 --> 00:12:10,079

surprised them still surprised the

278

00:12:13,850 --> 00:12:11,700

astronauts but what what do you think

279

00:12:15,829 --> 00:12:13,860

you know from the get-go from the word

280

00:12:18,170 --> 00:12:15,839

go when we first went to the moon and we

281

00:12:20,690 --> 00:12:18,180

encountered these entities what do you

282

00:12:22,370 --> 00:12:20,700

think happened at Nasa to to make him

283

00:12:24,530 --> 00:12:22,380

all of a sudden take interest in this

284

00:12:28,370 --> 00:12:24,540

and and to keep it quiet

285

00:12:29,990 --> 00:12:28,380

well uh if you take a look at some of

286

00:12:32,930 --> 00:12:30,000

the previous documentaries I've done in

287

00:12:33,829 --> 00:12:32,940

this series secret space UFOs

288

00:12:36,829 --> 00:12:33,839

um

289

00:12:39,410 --> 00:12:36,839

in the beginning or uh secret space UFOs

290

00:12:40,610 --> 00:12:39,420

NASA's first missions we basically break

291

00:12:44,629 --> 00:12:40,620

down

292

00:12:47,329 --> 00:12:44,639

the very first NASA designated

293

00:12:51,350 --> 00:12:47,339

um astronaut missions which is the X-15

294

00:12:55,310 --> 00:12:51,360

which was a rocket propelled

295

00:12:58,069 --> 00:12:55,320

jet that was uh mounted to a modified B2

296

00:13:02,150 --> 00:12:58,079

bomber to the wing of it and it would

297

00:13:05,569 --> 00:13:02,160

take off when it was high up uh fly into

298

00:13:07,670 --> 00:13:05,579

low earth orbit and you know these are

299

00:13:10,850 --> 00:13:07,680

the first Pilots to be designated

300

00:13:13,430 --> 00:13:10,860

astronauts and two of those Pilots Joe

301  
00:13:15,009 --> 00:13:13,440  
Walker and uh

302  
00:13:20,690 --> 00:13:15,019  
uh

303  
00:13:27,470 --> 00:13:20,700  
they both

304  
00:13:31,509 --> 00:13:27,480  
UFOs and one of their reports went into

305  
00:13:33,949 --> 00:13:31,519  
Life magazine in 1961

306  
00:13:36,230 --> 00:13:33,959  
and talked about you know how he thought

307  
00:13:39,170 --> 00:13:36,240  
it would just be something prosaic at

308  
00:13:42,110 --> 00:13:39,180  
first like uh something that had come

309  
00:13:46,370 --> 00:13:42,120  
off a tank or something on the craft or

310  
00:13:48,350 --> 00:13:46,380  
maybe a a piece of metal or whatever it

311  
00:13:50,810 --> 00:13:48,360  
was but it wasn't it seemed to be

312  
00:13:54,110 --> 00:13:50,820  
keeping Pace with the craft and moving

313  
00:13:57,590 --> 00:13:54,120

alongside of him and so that really you

314

00:14:01,310 --> 00:13:57,600

know stuck with him as a anomalous event

315

00:14:05,269 --> 00:14:01,320

and it you know looked

316

00:14:07,910 --> 00:14:05,279

like a typical UFO of the time would be

317

00:14:11,389 --> 00:14:07,920

I guess some kind of disc shape

318

00:14:14,629 --> 00:14:11,399

um the other pilot said that

319

00:14:18,650 --> 00:14:14,639

he had seen three or five of these

320

00:14:21,829 --> 00:14:18,660

crafts flying above his X-15 when he

321

00:14:23,870 --> 00:14:21,839

went up and he set at a conference that

322

00:14:27,889 --> 00:14:23,880

he was speaking at where he leaked some

323

00:14:31,490 --> 00:14:27,899

photos of a craft that he had taken

324

00:14:33,470 --> 00:14:31,500

that was in space out of Earth warbit

325

00:14:36,110 --> 00:14:33,480

are in Earth orbit

326

00:14:39,829 --> 00:14:36,120

um he said that you know this is one of

327

00:14:43,790 --> 00:14:39,839

many photos that I've uh that I took and

328

00:14:45,290 --> 00:14:43,800

actually NASA had tasked us with taking

329

00:14:49,310 --> 00:14:45,300

photos

330

00:14:51,530 --> 00:14:49,320

and this is the 1961 1962 like this is

331

00:14:53,389 --> 00:14:51,540

since the Inception of NASA and they

332

00:14:55,730 --> 00:14:53,399

first started going to space

333

00:14:58,250 --> 00:14:55,740

and if you look at um

334

00:15:00,710 --> 00:14:58,260

the idea that NASA is connected to the

335

00:15:04,610 --> 00:15:00,720

Air Force connected to the Navy and

336

00:15:07,550 --> 00:15:04,620

intelligence agencies they also most

337

00:15:10,670 --> 00:15:07,560

likely follow the same classification

338

00:15:13,490 --> 00:15:10,680

and safeguarding methodologies when it

339

00:15:17,329 --> 00:15:13,500

comes to information not reaching the

340

00:15:20,350 --> 00:15:17,339

public so uh you know Dr uh

341

00:15:23,949 --> 00:15:20,360

President Eisenhower Dwight D Eisenhower

342

00:15:29,210 --> 00:15:23,959

enacted uh executive order

343

00:15:30,290 --> 00:15:29,220

10501 back in 1951 you know post-world

344

00:15:33,110 --> 00:15:30,300

War II

345

00:15:36,230 --> 00:15:33,120

at the end of 1951 they wrote it up I

346

00:15:39,050 --> 00:15:36,240

think it went through in 1952 and

347

00:15:42,170 --> 00:15:39,060

essentially what that said that was the

348

00:15:44,269 --> 00:15:42,180

the first legal free framework for

349

00:15:46,189 --> 00:15:44,279

academic institutions linked to the

350

00:15:49,670 --> 00:15:46,199

government

351  
00:15:52,670 --> 00:15:49,680  
um scientific institutions like NASA and

352  
00:15:55,189 --> 00:15:52,680  
Military and intelligence agencies to

353  
00:15:57,650 --> 00:15:55,199  
legally Safeguard information from the

354  
00:15:59,269 --> 00:15:57,660  
public meaning classify

355  
00:16:03,069 --> 00:15:59,279  
information

356  
00:16:07,370 --> 00:16:03,079  
so I think from the get-go NASA has been

357  
00:16:11,329 --> 00:16:07,380  
legally allowed to cooperate with

358  
00:16:13,430 --> 00:16:11,339  
intelligence and Military agencies to

359  
00:16:15,530 --> 00:16:13,440  
safeguard information from the public

360  
00:16:16,850 --> 00:16:15,540  
they've been allowed to classify

361  
00:16:19,250 --> 00:16:16,860  
information

362  
00:16:21,710 --> 00:16:19,260  
and if you look at some of the documents

363  
00:16:23,990 --> 00:16:21,720

that we got out of NASA and in some of

364

00:16:26,269 --> 00:16:24,000

our previous documentaries you look at

365

00:16:30,710 --> 00:16:26,279

for example the transcripts

366

00:16:34,550 --> 00:16:30,720

from uh the astronauts Black Box flight

367

00:16:37,310 --> 00:16:34,560

recorder that they either had on the VTR

368

00:16:40,370 --> 00:16:37,320

during the Gemini missions

369

00:16:41,990 --> 00:16:40,380

the bridge to the Moon missions or the

370

00:16:45,410 --> 00:16:42,000

actual Apollo missions where they went

371

00:16:46,790 --> 00:16:45,420

to the moon they had the dsea flight

372

00:16:50,210 --> 00:16:46,800

recorder

373

00:16:52,189 --> 00:16:50,220

and they talk about anomalous stuff that

374

00:16:54,470 --> 00:16:52,199

they're seeing up there and you know

375

00:16:56,389 --> 00:16:54,480

researchers like Carrie martinuk and

376

00:16:59,689 --> 00:16:56,399

many others have poured through these

377

00:17:01,689 --> 00:16:59,699

documents since they were released and

378

00:17:05,390 --> 00:17:01,699

it says on the very front page

379

00:17:06,770 --> 00:17:05,400

classified now Declassified after 12

380

00:17:09,949 --> 00:17:06,780

years

381

00:17:12,409 --> 00:17:09,959

so why would NASA have to classify

382

00:17:15,829 --> 00:17:12,419

transcripts

383

00:17:18,049 --> 00:17:15,839

if they were worried you know about some

384

00:17:20,569 --> 00:17:18,059

you know censoring something from the

385

00:17:23,929 --> 00:17:20,579

public in the first place it just means

386

00:17:26,569 --> 00:17:23,939

that uh you know information is

387

00:17:28,130 --> 00:17:26,579

controlled in our in our society

388

00:17:31,010 --> 00:17:28,140

especially when it comes to space

389

00:17:33,890 --> 00:17:31,020

related matters because certain things

390

00:17:37,730 --> 00:17:33,900

that were seen or done up there might be

391

00:17:40,430 --> 00:17:37,740

of a National Defense concern and if you

392

00:17:43,430 --> 00:17:40,440

listen to the lore of UFOs

393

00:17:46,310 --> 00:17:43,440

um in you know many different statements

394

00:17:49,669 --> 00:17:46,320

and documents that have come out from

395

00:17:52,070 --> 00:17:49,679

memos and Communications between the

396

00:17:54,529 --> 00:17:52,080

military uh you know multiple different

397

00:17:57,890 --> 00:17:54,539

Military Officers and departments

398

00:18:01,669 --> 00:17:57,900

throughout history we always see the

399

00:18:04,850 --> 00:18:01,679

same pattern of UFOs being Above Top

400

00:18:07,430 --> 00:18:04,860

Secret you know being uh

401  
00:18:12,010 --> 00:18:07,440  
more top secret than the atomic bomb

402  
00:18:15,650 --> 00:18:12,020  
studies of uh Oppenheimer days so

403  
00:18:19,669 --> 00:18:15,660  
I think from the get-go NASA

404  
00:18:22,490 --> 00:18:19,679  
has been in on the secret to some extent

405  
00:18:24,770 --> 00:18:22,500  
to do with UFOs I think they have

406  
00:18:26,270 --> 00:18:24,780  
procedures to cover that up

407  
00:18:28,850 --> 00:18:26,280  
and

408  
00:18:31,010 --> 00:18:28,860  
um I've been documenting

409  
00:18:31,909 --> 00:18:31,020  
that they've been doing that to some

410  
00:18:34,610 --> 00:18:31,919  
degree

411  
00:18:36,890 --> 00:18:34,620  
for

412  
00:18:39,830 --> 00:18:36,900  
more than five decades at this point

413  
00:18:44,750 --> 00:18:39,840

since their Inception and this latest

414

00:18:46,850 --> 00:18:44,760

documentary covers from 1973 until now

415

00:18:49,970 --> 00:18:46,860

and um

416

00:18:50,810 --> 00:18:49,980

multiple UFO events that have started in

417

00:18:54,230 --> 00:18:50,820

space

418

00:18:57,169 --> 00:18:54,240

we find out you know the word that the

419

00:18:58,250 --> 00:18:57,179

word fast Walker originates from the Air

420

00:19:01,029 --> 00:18:58,260

Force

421

00:19:03,169 --> 00:19:01,039

from NORAD

422

00:19:04,909 --> 00:19:03,179

and uh

423

00:19:08,270 --> 00:19:04,919

John Greenwald

424

00:19:12,549 --> 00:19:08,280

who's a really intelligent researcher in

425

00:19:14,990 --> 00:19:12,559

the UAP UAP UFO phenomenon Community

426  
00:19:19,370 --> 00:19:15,000  
originally did Freedom of Information

427  
00:19:22,330 --> 00:19:19,380  
Act requests and tried to get uh

428  
00:19:24,010 --> 00:19:22,340  
fast Walker documents and such from

429  
00:19:27,529 --> 00:19:24,020  
NORAD

430  
00:19:30,169 --> 00:19:27,539  
but we saw that term come up in many of

431  
00:19:32,590 --> 00:19:30,179  
their manuals in the Air Force manuals

432  
00:19:35,450 --> 00:19:32,600  
as well as NORAD

433  
00:19:38,510 --> 00:19:35,460  
manuals and documents and they refer to

434  
00:19:41,090 --> 00:19:38,520  
fast Walker events so events where

435  
00:19:43,210 --> 00:19:41,100  
space-based

436  
00:19:47,150 --> 00:19:43,220  
objects

437  
00:19:48,770 --> 00:19:47,160  
are anomalous anomalously moving very

438  
00:19:50,990 --> 00:19:48,780

fast

439

00:19:53,390 --> 00:19:51,000

um obviously with some kind of

440

00:19:54,289 --> 00:19:53,400

intelligent

441

00:19:56,810 --> 00:19:54,299

um

442

00:20:00,169 --> 00:19:56,820

design meaning

443

00:20:02,510 --> 00:20:00,179

they're operating with intelligence uh

444

00:20:05,390 --> 00:20:02,520

dropping into our atmosphere moving

445

00:20:07,549 --> 00:20:05,400

around Earth or just staying above the

446

00:20:09,350 --> 00:20:07,559

Earth's atmosphere and moving around in

447

00:20:12,110 --> 00:20:09,360

space

448

00:20:13,549 --> 00:20:12,120

um they also note slow Walkers which are

449

00:20:16,190 --> 00:20:13,559

a known object

450

00:20:18,350 --> 00:20:16,200

that are of little concern and those

451  
00:20:21,049 --> 00:20:18,360  
would be your typical satellite because

452  
00:20:24,650 --> 00:20:21,059  
a satellite just moves across

453  
00:20:26,270 --> 00:20:24,660  
space Gliding Over the Earth you know

454  
00:20:27,169 --> 00:20:26,280  
and

455  
00:20:30,230 --> 00:20:27,179  
um

456  
00:20:32,990 --> 00:20:30,240  
so we covered fast Walker events in this

457  
00:20:36,049 --> 00:20:33,000  
documentary we cover space-based UFO

458  
00:20:38,450 --> 00:20:36,059  
anomalies that have been caught on

459  
00:20:40,669 --> 00:20:38,460  
satellite technology

460  
00:20:44,090 --> 00:20:40,679  
that have been caught on ground-based

461  
00:20:45,710 --> 00:20:44,100  
radar and tracked with you know radio

462  
00:20:48,650 --> 00:20:45,720  
telescope

463  
00:20:51,830 --> 00:20:48,660

um technology and then we cover like

464

00:20:55,430 --> 00:20:51,840

actual cameras recording these anomalies

465

00:21:00,230 --> 00:20:55,440

in space off of NASA's

466

00:21:02,570 --> 00:21:00,240

space cameras and astronauts cameras

467

00:21:04,370 --> 00:21:02,580

yeah they always seem to you know point

468

00:21:06,049 --> 00:21:04,380

at all it's whenever there's like a live

469

00:21:08,150 --> 00:21:06,059

feed or a video something to do with

470

00:21:10,669 --> 00:21:08,160

NASA and something's flying through it's

471

00:21:12,650 --> 00:21:10,679

always oh that's ice even if it looks

472

00:21:14,810 --> 00:21:12,660

like diamond dust in a formation of

473

00:21:17,210 --> 00:21:14,820

things that's just a whole lot of ice or

474

00:21:19,909 --> 00:21:17,220

it's a spent rocket booster or that's

475

00:21:22,430 --> 00:21:19,919

just space junk or in your film you

476  
00:21:24,289 --> 00:21:22,440  
featured quite a few videos that were

477  
00:21:26,029 --> 00:21:24,299  
amazing like and I want you to talk a

478  
00:21:28,610 --> 00:21:26,039  
little bit about some of those the one

479  
00:21:29,990 --> 00:21:28,620  
that I think for me was craziest was a

480  
00:21:33,110 --> 00:21:30,000  
formation it looked like a formation

481  
00:21:34,789 --> 00:21:33,120  
that spanned half of the planet with one

482  
00:21:36,230 --> 00:21:34,799  
in the middle finally lighting up and

483  
00:21:38,510 --> 00:21:36,240  
you can tell these things are moving

484  
00:21:40,130 --> 00:21:38,520  
intelligently you've tracked some of

485  
00:21:43,130 --> 00:21:40,140  
them that are going one way they stop

486  
00:21:45,049 --> 00:21:43,140  
and then go the other like non-Newtonian

487  
00:21:47,390 --> 00:21:45,059  
physics these things are under some kind

488  
00:21:49,010 --> 00:21:47,400

of intelligent control so maybe touch a

489

00:21:51,049 --> 00:21:49,020

little bit on some of the video uh

490

00:21:54,529 --> 00:21:51,059

footage that you have in your film sure

491

00:21:58,970 --> 00:21:54,539

so the one you're talking about with the

492

00:22:02,570 --> 00:21:58,980

formation Over the Horizon of Earth

493

00:22:05,090 --> 00:22:02,580

um it's also in black and white color

494

00:22:07,549 --> 00:22:05,100

that we explained earlier in the film

495

00:22:10,310 --> 00:22:07,559

that that's actually a technology called

496

00:22:13,310 --> 00:22:10,320

far light ultraviolet camera technology

497

00:22:15,049 --> 00:22:13,320

so it's literally being recorded in a

498

00:22:17,750 --> 00:22:15,059

light spectrum that the human eye can't

499

00:22:19,850 --> 00:22:17,760

even see in

500

00:22:22,610 --> 00:22:19,860

um and the reason why they would be

501  
00:22:23,510 --> 00:22:22,620  
doing that again I think is for them to

502  
00:22:26,810 --> 00:22:23,520  
have

503  
00:22:28,669 --> 00:22:26,820  
excellent view of any anomalies or

504  
00:22:29,690 --> 00:22:28,679  
strange things that are out there in

505  
00:22:32,270 --> 00:22:29,700  
space

506  
00:22:34,310 --> 00:22:32,280  
otherwise you would just record in

507  
00:22:36,710 --> 00:22:34,320  
regular light spectrum that our normal

508  
00:22:41,029 --> 00:22:36,720  
cameras can do

509  
00:22:44,210 --> 00:22:41,039  
um so that's sts80 that's where that uh

510  
00:22:45,649 --> 00:22:44,220  
video clip comes from and that was over

511  
00:22:48,890 --> 00:22:45,659  
Africa

512  
00:22:51,110 --> 00:22:48,900  
and you see I think about eight objects

513  
00:22:53,049 --> 00:22:51,120

that are uh

514

00:22:57,529 --> 00:22:53,059

forming a circle

515

00:23:00,169 --> 00:22:57,539

and then one object kind of starts off

516

00:23:01,789 --> 00:23:00,179

opaque near the camera so obviously is

517

00:23:05,029 --> 00:23:01,799

traveling past

518

00:23:07,970 --> 00:23:05,039

the uh view of the camera past the crap

519

00:23:11,450 --> 00:23:07,980

the spacecraft and then goes into the

520

00:23:14,630 --> 00:23:11,460

middle of that formation and illuminates

521

00:23:17,090 --> 00:23:14,640

um highly anomalous you know very weird

522

00:23:17,810 --> 00:23:17,100

looking and

523

00:23:19,750 --> 00:23:17,820

um

524

00:23:23,029 --> 00:23:19,760

to me

525

00:23:25,250 --> 00:23:23,039

so for people to understand when it

526  
00:23:26,450 --> 00:23:25,260  
comes to space and any spacecraft being

527  
00:23:29,690 --> 00:23:26,460  
up there if you're talking about let's

528  
00:23:32,149 --> 00:23:29,700  
say the shuttle for example I think just

529  
00:23:36,470 --> 00:23:32,159  
the shuttle being up there and drifting

530  
00:23:40,549 --> 00:23:36,480  
it's traveling at about uh 14

531  
00:23:43,630 --> 00:23:40,559  
000 miles per hour okay so if you see

532  
00:23:48,110 --> 00:23:43,640  
something passing the shuttle and then

533  
00:23:51,409 --> 00:23:48,120  
uh stopping and remaining in one place

534  
00:23:53,450 --> 00:23:51,419  
in a formation that is also sort of

535  
00:23:57,590 --> 00:23:53,460  
staying in a

536  
00:23:59,570 --> 00:23:57,600  
synchronous pattern and moving those

537  
00:24:02,330 --> 00:23:59,580  
objects are moving down into the

538  
00:24:03,890 --> 00:24:02,340

atmosphere and possibly back up it looks

539

00:24:06,049 --> 00:24:03,900

like because you can actually see the

540

00:24:07,909 --> 00:24:06,059

layer of the atmosphere above the

541

00:24:09,890 --> 00:24:07,919

Horizon of the Earth in the distance so

542

00:24:11,630 --> 00:24:09,900

you have all these indications of what

543

00:24:13,610 --> 00:24:11,640

these objects are doing

544

00:24:15,409 --> 00:24:13,620

possibly

545

00:24:18,049 --> 00:24:15,419

you have to imagine that this thing is

546

00:24:22,970 --> 00:24:18,059

traveling faster than 14 000 miles per

547

00:24:26,210 --> 00:24:22,980

hour and then stopping and you know

548

00:24:27,770 --> 00:24:26,220

being part of a formation it's very odd

549

00:24:31,490 --> 00:24:27,780

so

550

00:24:35,330 --> 00:24:31,500

um what you could explain that to be if

551  
00:24:37,610 --> 00:24:35,340  
you are just using conventional terms is

552  
00:24:41,570 --> 00:24:37,620  
maybe this is like some kind of top

553  
00:24:44,450 --> 00:24:41,580  
secret satellite system that NASA is

554  
00:24:49,130 --> 00:24:44,460  
recording on behalf of you know an

555  
00:24:51,950 --> 00:24:49,140  
intelligence or military agency uh that

556  
00:24:54,529 --> 00:24:51,960  
that video will be later reviewed by

557  
00:24:57,409 --> 00:24:54,539  
them or something but

558  
00:25:01,490 --> 00:24:57,419  
um you know when you when this video is

559  
00:25:04,130 --> 00:25:01,500  
speculated upon in in the past guys like

560  
00:25:05,810 --> 00:25:04,140  
Jim oberg have remarked that that was

561  
00:25:09,230 --> 00:25:05,820  
simply space ice

562  
00:25:11,690 --> 00:25:09,240  
and space ice doesn't operate like that

563  
00:25:12,770 --> 00:25:11,700

um so I don't know what it is it could

564

00:25:15,350 --> 00:25:12,780

have been

565

00:25:16,730 --> 00:25:15,360

you know UFOs as we conventionally think

566

00:25:20,270 --> 00:25:16,740

it could have been some kind of top

567

00:25:22,850 --> 00:25:20,280

secret technology also I don't know but

568

00:25:25,730 --> 00:25:22,860

I know that it's not space ice in my

569

00:25:28,490 --> 00:25:25,740

logic there's no way Jim said that that

570

00:25:30,890 --> 00:25:28,500

one that moved into the middle was space

571

00:25:34,870 --> 00:25:30,900

ice because it only becomes fully

572

00:25:38,450 --> 00:25:34,880

observed later due to uh near-earth

573

00:25:40,430 --> 00:25:38,460

conditions and probably like burning up

574

00:25:44,210 --> 00:25:40,440

or something like that right

575

00:25:46,070 --> 00:25:44,220

right I don't buy it yeah yeah and what

576  
00:25:49,070 --> 00:25:46,080  
what fascinates me in your documentaries

577  
00:25:51,529 --> 00:25:49,080  
you point out exactly how many freaking

578  
00:25:53,510 --> 00:25:51,539  
cameras there are in space like whenever

579  
00:25:54,890 --> 00:25:53,520  
we see space image from you know the

580  
00:25:56,930 --> 00:25:54,900  
satellites we got like Hubble and now

581  
00:25:58,490 --> 00:25:56,940  
James Webb but the ones that are

582  
00:25:59,930 --> 00:25:58,500  
pointing back at the Earth we don't

583  
00:26:02,630 --> 00:25:59,940  
normally see those pictures of

584  
00:26:04,850 --> 00:26:02,640  
occasionally a few from astronauts but

585  
00:26:06,769 --> 00:26:04,860  
there are so many cameras and you're

586  
00:26:09,230 --> 00:26:06,779  
talking about the DSP satellites and

587  
00:26:11,870 --> 00:26:09,240  
there's over I think you mentioned 283

588  
00:26:14,330 --> 00:26:11,880

fast Walkers that were detected by these

589

00:26:16,070 --> 00:26:14,340

satellites the activity in these

590

00:26:17,630 --> 00:26:16,080

satellites are all over the planet I

591

00:26:19,610 --> 00:26:17,640

mean it's not just localized this is

592

00:26:21,350 --> 00:26:19,620

everywhere that's picking up the amount

593

00:26:24,649 --> 00:26:21,360

of activity that has taken place

594

00:26:28,190 --> 00:26:24,659

globally on any given day

595

00:26:30,049 --> 00:26:28,200

is uh I don't know how this I would say

596

00:26:32,390 --> 00:26:30,059

astronomical but it's a lot of activity

597

00:26:34,010 --> 00:26:32,400

the plan is like a beehive they come and

598

00:26:35,330 --> 00:26:34,020

go as they wish and there's nothing we

599

00:26:38,269 --> 00:26:35,340

can do about it

600

00:26:41,810 --> 00:26:38,279

with NASA and the Army sort of merging

601  
00:26:43,850 --> 00:26:41,820  
together now and creating space force in

602  
00:26:45,769 --> 00:26:43,860  
your opinion having studied this you

603  
00:26:48,110 --> 00:26:45,779  
know NASA in the military's interests

604  
00:26:50,630 --> 00:26:48,120  
and what's going on in space

605  
00:26:53,029 --> 00:26:50,640  
are we picking a fight or are we just

606  
00:26:55,250 --> 00:26:53,039  
trying to give ourselves a bit of

607  
00:26:57,710 --> 00:26:55,260  
comfort by saying we can control what's

608  
00:27:00,529 --> 00:26:57,720  
above our atmosphere if we have military

609  
00:27:02,210 --> 00:27:00,539  
personnel there is it is that like are

610  
00:27:05,810 --> 00:27:02,220  
we out of our depths here

611  
00:27:07,789 --> 00:27:05,820  
yeah I mean like the space force which

612  
00:27:10,730 --> 00:27:07,799  
which is the sixth

613  
00:27:13,070 --> 00:27:10,740

branch of the military now and

614

00:27:16,370 --> 00:27:13,080

apparently they're supposed to be you

615

00:27:19,430 --> 00:27:16,380

know uh sit above all others at this

616

00:27:21,830 --> 00:27:19,440

point it it signifies

617

00:27:25,250 --> 00:27:21,840

some somewhat what you're saying that

618

00:27:28,130 --> 00:27:25,260

they're they're trying to create this

619

00:27:31,610 --> 00:27:28,140

perspective probably for adversaries as

620

00:27:34,789 --> 00:27:31,620

well as Citizens here in North America

621

00:27:37,909 --> 00:27:34,799

that they got this covered right like

622

00:27:39,769 --> 00:27:37,919

they're going to have Supreme Supremacy

623

00:27:43,310 --> 00:27:39,779

in space

624

00:27:45,830 --> 00:27:43,320

um and Alara who's in the documentary uh

625

00:27:46,610 --> 00:27:45,840

covers space force really well she

626  
00:27:48,769 --> 00:27:46,620  
actually

627  
00:27:50,330 --> 00:27:48,779  
um has like a segment at the very end

628  
00:27:50,990 --> 00:27:50,340  
and

629  
00:27:52,610 --> 00:27:51,000  
um

630  
00:27:54,590 --> 00:27:52,620  
I definitely wanted to bring her in

631  
00:27:57,830 --> 00:27:54,600  
because we were talking for like years

632  
00:27:59,390 --> 00:27:57,840  
about her Research into space force and

633  
00:28:02,149 --> 00:27:59,400  
um how

634  
00:28:04,250 --> 00:28:02,159  
she'd been speaking with a high-ranking

635  
00:28:05,870 --> 00:28:04,260  
military official that worked for the

636  
00:28:08,210 --> 00:28:05,880  
space force and was finding out really

637  
00:28:11,450 --> 00:28:08,220  
what they're doing

638  
00:28:15,590 --> 00:28:11,460

um and essentially

639

00:28:18,350 --> 00:28:15,600

it comes down to getting better

640

00:28:22,130 --> 00:28:18,360

data so they will be like releasing

641

00:28:26,510 --> 00:28:22,140

satellites and uh enabling artificial

642

00:28:29,210 --> 00:28:26,520

intelligence and monitoring airspace and

643

00:28:32,090 --> 00:28:29,220

outer space like never before in the

644

00:28:34,010 --> 00:28:32,100

public eye probably somewhat too but

645

00:28:35,169 --> 00:28:34,020

then they're also going to be like

646

00:28:37,909 --> 00:28:35,179

probably

647

00:28:39,830 --> 00:28:37,919

putting up some kind of weapon systems

648

00:28:40,970 --> 00:28:39,840

in the future

649

00:28:43,370 --> 00:28:40,980

um

650

00:28:45,649 --> 00:28:43,380

I think

651  
00:28:47,570 --> 00:28:45,659  
that theater of war is the ultimate

652  
00:28:49,669 --> 00:28:47,580  
theater of war if you

653  
00:28:52,730 --> 00:28:49,679  
command that theater then you command

654  
00:28:54,890 --> 00:28:52,740  
the planet somewhat right yeah yeah and

655  
00:28:56,690 --> 00:28:54,900  
people are all afraid of Russia that has

656  
00:28:58,789 --> 00:28:56,700  
these new types of missiles that kind of

657  
00:29:01,130 --> 00:28:58,799  
come down as fast as an asteroid right

658  
00:29:05,570 --> 00:29:01,140  
and there's like literally no detection

659  
00:29:09,049 --> 00:29:05,580  
systems supposedly that could prevent or

660  
00:29:11,690 --> 00:29:09,059  
stop these from striking a country right

661  
00:29:13,549 --> 00:29:11,700  
which is scary if you think about where

662  
00:29:16,310 --> 00:29:13,559  
we're at this flash point right now

663  
00:29:18,649 --> 00:29:16,320

between Russia China and the US you

664

00:29:21,710 --> 00:29:18,659

don't want one of those coming down so

665

00:29:23,990 --> 00:29:21,720

space force could be one of these uh

666

00:29:26,870 --> 00:29:24,000

defense agencies that's preparing to

667

00:29:29,630 --> 00:29:26,880

protect away from that protect

668

00:29:33,230 --> 00:29:29,640

uh the country and North America from

669

00:29:35,630 --> 00:29:33,240

these types of uh arms

670

00:29:37,070 --> 00:29:35,640

reaching

671

00:29:39,950 --> 00:29:37,080

uh

672

00:29:40,789 --> 00:29:39,960

the countries right so

673

00:29:44,210 --> 00:29:40,799

um

674

00:29:48,350 --> 00:29:44,220

I think space force

675

00:29:50,570 --> 00:29:48,360

is good to some degree and I think

676  
00:29:54,710 --> 00:29:50,580  
um obviously if we're going to become a

677  
00:29:57,830 --> 00:29:54,720  
space-faring nation uh civilization and

678  
00:30:02,269 --> 00:29:57,840  
we're going to be following the

679  
00:30:04,970 --> 00:30:02,279  
direction of NASA by putting bases on

680  
00:30:09,169 --> 00:30:04,980  
the far side of the moon and uh publicly

681  
00:30:11,690 --> 00:30:09,179  
and also going to Mars with Elon musk's

682  
00:30:14,389 --> 00:30:11,700  
Endeavors you're probably going to want

683  
00:30:15,769 --> 00:30:14,399  
a space force backing them up right

684  
00:30:18,889 --> 00:30:15,779  
you're going to want some kind of

685  
00:30:22,730 --> 00:30:18,899  
military presence that's able to escort

686  
00:30:28,070 --> 00:30:22,740  
observe and protect and defend these

687  
00:30:30,470 --> 00:30:28,080  
American or uh American Allies interests

688  
00:30:34,130 --> 00:30:30,480

right and Canada for example we're all

689

00:30:38,090 --> 00:30:34,140

Canadians on this this uh show

690

00:30:40,610 --> 00:30:38,100

um we've been active in space with NASA

691

00:30:42,710 --> 00:30:40,620

for a very long time right especially

692

00:30:45,529 --> 00:30:42,720

with the Canadian space arm a lot of

693

00:30:48,230 --> 00:30:45,539

those robotic arms and stuff you see on

694

00:30:51,830 --> 00:30:48,240

the uh shuttles

695

00:30:54,649 --> 00:30:51,840

are they those are our inventions and uh

696

00:30:57,529 --> 00:30:54,659

we're constantly aiding

697

00:30:59,750 --> 00:30:57,539

um NASA in their Endeavors in space

698

00:31:02,210 --> 00:30:59,760

yeah and in terms of those inventions

699

00:31:04,730 --> 00:31:02,220

and sort of machinery and Personnel in

700

00:31:07,310 --> 00:31:04,740

space that Nasa owns I mean you had

701  
00:31:09,289 --> 00:31:07,320  
Skylab in 1973 right the first

702  
00:31:12,529 --> 00:31:09,299  
scientific Observer observation

703  
00:31:15,649 --> 00:31:12,539  
laboratory space station yeah station

704  
00:31:18,049 --> 00:31:15,659  
yeah and then ISS but yeah that's right

705  
00:31:20,510 --> 00:31:18,059  
way before the ISS and then DSP this

706  
00:31:22,730 --> 00:31:20,520  
sort of aerojet company spy satellites

707  
00:31:25,190 --> 00:31:22,740  
that are very specifically looking for

708  
00:31:27,250 --> 00:31:25,200  
things coming into and out of orbit like

709  
00:31:30,110 --> 00:31:27,260  
they would be the greatest UFO tracking

710  
00:31:32,029 --> 00:31:30,120  
satellite you could have and then you

711  
00:31:34,970 --> 00:31:32,039  
know the ISS and even shuttle missions

712  
00:31:37,430 --> 00:31:34,980  
so maybe give us some thoughts on NASA's

713  
00:31:38,990 --> 00:31:37,440

own people that have seen this and their

714

00:31:40,970 --> 00:31:39,000

own Hardware that's picking this stuff

715

00:31:42,529 --> 00:31:40,980

up what do you think like how can you

716

00:31:44,570 --> 00:31:42,539

say no when it's your own people that

717

00:31:45,769 --> 00:31:44,580

are saying yeah I've seen this and you

718

00:31:47,149 --> 00:31:45,779

know even going back to the guys who

719

00:31:49,789 --> 00:31:47,159

went to the moon some of them have

720

00:31:51,350 --> 00:31:49,799

openly said they either believe or they

721

00:31:54,230 --> 00:31:51,360

have proof and that's the reason they

722

00:31:56,570 --> 00:31:54,240

believe right I mean

723

00:31:59,090 --> 00:31:56,580

a lot of the astronauts that did go to

724

00:32:00,649 --> 00:31:59,100

the Moon do not

725

00:32:01,490 --> 00:32:00,659

talk about

726

00:32:05,330 --> 00:32:01,500

um

727

00:32:08,450 --> 00:32:05,340

their encounters with UFOs in space

728

00:32:11,049 --> 00:32:08,460

I know that uh Neil Armstrong and Buzz

729

00:32:14,570 --> 00:32:11,059

Aldrin kind of talked about their

730

00:32:16,850 --> 00:32:14,580

encounter with Apollo 11 something kind

731

00:32:18,289 --> 00:32:16,860

of following them to the Moon that they

732

00:32:21,289 --> 00:32:18,299

were tracking they thought it was the

733

00:32:24,649 --> 00:32:21,299

s4b which is a upper stage of the rocket

734

00:32:28,190 --> 00:32:24,659

that got them into space but uh

735

00:32:29,750 --> 00:32:28,200

obviously it wasn't it should not have

736

00:32:32,990 --> 00:32:29,760

been that

737

00:32:35,149 --> 00:32:33,000

um but uh there there haven't been a lot

738

00:32:37,730 --> 00:32:35,159

of astronauts and most of them deny it

739

00:32:41,990 --> 00:32:37,740

you know if you even look at um

740

00:32:45,289 --> 00:32:42,000

the Gemini missions uh Frank

741

00:32:47,450 --> 00:32:45,299

Gemini 7 Frank

742

00:32:49,130 --> 00:32:47,460

uh Borman

743

00:32:52,549 --> 00:32:49,140

I'm thinking

744

00:32:56,090 --> 00:32:52,559

I'm horrible with names darcyak yeah he

745

00:32:58,909 --> 00:32:56,100

he you know reported a bogey during

746

00:33:01,669 --> 00:32:58,919

Gemini 7 and that kind of hit the news

747

00:33:04,430 --> 00:33:01,679

and uh was being reported in all these

748

00:33:05,990 --> 00:33:04,440

magazines and stuff and Frank Borman

749

00:33:08,870 --> 00:33:06,000

uh

750

00:33:10,730 --> 00:33:08,880

did a lot of work to debunk that and in

751

00:33:13,070 --> 00:33:10,740

fact you know there's a C-SPAN interview

752

00:33:14,269 --> 00:33:13,080

I included in NASA's first missions

753

00:33:16,909 --> 00:33:14,279

where

754

00:33:18,590 --> 00:33:16,919

it seemed like the reporter had like

755

00:33:20,330 --> 00:33:18,600

pretty much finished her line of

756

00:33:24,350 --> 00:33:20,340

questioning but didn't want to leave out

757

00:33:26,090 --> 00:33:24,360

that UFO encounter uh and make sure that

758

00:33:29,630 --> 00:33:26,100

he mentioned that and debunked that

759

00:33:31,850 --> 00:33:29,640

because UFOs have always been sort of an

760

00:33:33,529 --> 00:33:31,860

interest to people in the public and he

761

00:33:36,649 --> 00:33:33,539

said it was silly and it was just a

762

00:33:39,470 --> 00:33:36,659

rumor but why would you refer to

763

00:33:40,730 --> 00:33:39,480

something in space as a bogey right he

764

00:33:43,549 --> 00:33:40,740  
said that well we were trying to

765

00:33:46,009 --> 00:33:43,559  
identify the Gina stage for the

766

00:33:48,110 --> 00:33:46,019  
spacecraft

767

00:33:50,149 --> 00:33:48,120  
um it was like a rocket system that you

768

00:33:51,289 --> 00:33:50,159  
could link up with in space once they

769

00:33:55,070 --> 00:33:51,299  
were in orbit

770

00:33:57,049 --> 00:33:55,080  
uh their capsule could and

771

00:33:59,810 --> 00:33:57,059  
it just does it didn't make any sense

772

00:34:02,029 --> 00:33:59,820  
logically but he claims that oh they

773

00:34:03,769 --> 00:34:02,039  
were just trying to find that

774

00:34:06,049 --> 00:34:03,779  
um and when they found it they called

775

00:34:08,810 --> 00:34:06,059  
their bogey but bogey

776

00:34:14,810 --> 00:34:08,820

historically means an adversary or

777

00:34:17,149 --> 00:34:14,820

unknown in space in airspace right so

778

00:34:19,369 --> 00:34:17,159

um there's there's been little sort of

779

00:34:22,909 --> 00:34:19,379

like things like that and

780

00:34:24,409 --> 00:34:22,919

um many instances where astronauts seem

781

00:34:27,710 --> 00:34:24,419

to cover it up and I think it's because

782

00:34:34,669 --> 00:34:31,070

have to they they probably have sworn to

783

00:34:37,149 --> 00:34:34,679

some kind of secrecy about this

784

00:34:40,190 --> 00:34:37,159

um you do get little leaks like Clark

785

00:34:43,609 --> 00:34:40,200

mcclellan's talked about something I

786

00:34:45,169 --> 00:34:43,619

don't know if he was completely crazy or

787

00:34:48,409 --> 00:34:45,179

um you know

788

00:34:50,389 --> 00:34:48,419

maybe uh wanted some kind of attention

789

00:34:52,730 --> 00:34:50,399

but he he said that there was like an

790

00:34:56,329 --> 00:34:52,740

alien Encounter like an alien astronaut

791

00:34:59,210 --> 00:34:56,339

meeting in space during his

792

00:35:03,230 --> 00:34:59,220

um time at Nasa there's all these like

793

00:35:05,510 --> 00:35:03,240

little anecdotal stories but

794

00:35:08,089 --> 00:35:05,520

when you got video of it

795

00:35:10,490 --> 00:35:08,099

when you've got imagery of it like we

796

00:35:12,770 --> 00:35:10,500

have in this documentary and some of the

797

00:35:16,609 --> 00:35:12,780

other documentaries in this series

798

00:35:19,370 --> 00:35:16,619

you can't like it it's one thing for

799

00:35:21,650 --> 00:35:19,380

people to really speculate hard on

800

00:35:26,510 --> 00:35:21,660

um to not just brush it away and dismiss

801  
00:35:30,230 --> 00:35:26,520  
it as bogus right and uh they

802  
00:35:32,270 --> 00:35:30,240  
the videos and the imagery that come up

803  
00:35:34,190 --> 00:35:32,280  
on these missions come in all shapes of

804  
00:35:37,069 --> 00:35:34,200  
sizes of UFOs that people have typically

805  
00:35:40,250 --> 00:35:37,079  
seen in the atmosphere on earth like

806  
00:35:44,750 --> 00:35:40,260  
this little sphere that's you know over

807  
00:35:48,050 --> 00:35:44,760  
my shoulder here and triangles and disc

808  
00:35:48,890 --> 00:35:48,060  
shapes UFOs right so

809  
00:35:52,970 --> 00:35:48,900  
um

810  
00:35:55,609 --> 00:35:52,980  
it just seems to be a continuity of the

811  
00:35:58,130 --> 00:35:55,619  
same sort of UFOs that we see in outer

812  
00:35:59,870 --> 00:35:58,140  
space that we've also seen on Earth

813  
00:36:02,930 --> 00:35:59,880

reported by multiple different

814

00:36:05,089 --> 00:36:02,940

experiencers military personnel

815

00:36:06,349 --> 00:36:05,099

and the list goes on

816

00:36:08,630 --> 00:36:06,359

um

817

00:36:10,849 --> 00:36:08,640

so

818

00:36:14,030 --> 00:36:10,859

to answer your question

819

00:36:16,849 --> 00:36:14,040

you know if we've got these satellite

820

00:36:18,050 --> 00:36:16,859

systems that are picking up so much of

821

00:36:22,790 --> 00:36:18,060

this data

822

00:36:24,950 --> 00:36:22,800

from the 1970s until now and you know in

823

00:36:28,490 --> 00:36:24,960

in the documentary fast Walkers were

824

00:36:31,670 --> 00:36:28,500

essentially covering a small sliver of

825

00:36:34,010 --> 00:36:31,680

information and you said it was 283

826

00:36:35,210 --> 00:36:34,020

sightings right yeah

827

00:36:38,170 --> 00:36:35,220

so

828

00:36:41,510 --> 00:36:38,180

imagine and that's just from the DSP

829

00:36:42,829 --> 00:36:41,520

satellite system invented by aerojet in

830

00:36:45,530 --> 00:36:42,839

California

831

00:36:48,730 --> 00:36:45,540

and only up till 1991. that was from

832

00:36:51,650 --> 00:36:48,740

1973 to 91 where there was

833

00:36:54,109 --> 00:36:51,660

283. so the number is far greater than

834

00:36:57,050 --> 00:36:54,119

that up until today's date just even off

835

00:36:58,910 --> 00:36:57,060

that one satellite right so

836

00:37:00,470 --> 00:36:58,920

um fast forward to today for example

837

00:37:01,670 --> 00:37:00,480

right

838

00:37:04,849 --> 00:37:01,680

um that

839

00:37:08,630 --> 00:37:04,859

infamous second congressional hearing on

840

00:37:11,150 --> 00:37:08,640

UFOs just happened uh Sean Kirkpatrick

841

00:37:13,550 --> 00:37:11,160

was heading it up said some

842

00:37:16,190 --> 00:37:13,560

disappointing things the UFO crowd a lot

843

00:37:18,770 --> 00:37:16,200

of people were up in arms about that

844

00:37:21,589 --> 00:37:18,780

um and what happens subsequently after

845

00:37:22,609 --> 00:37:21,599

that Christopher Mellon comes out and

846

00:37:27,230 --> 00:37:22,619

says

847

00:37:29,030 --> 00:37:27,240

we have satellite imagery that is super

848

00:37:31,430 --> 00:37:29,040

high resolution

849

00:37:34,490 --> 00:37:31,440

excuse me of

850

00:37:36,589 --> 00:37:34,500

many different UAP sightings

851  
00:37:39,770 --> 00:37:36,599  
and what is he referring to he's

852  
00:37:41,450 --> 00:37:39,780  
referring to probably all kinds of

853  
00:37:45,050 --> 00:37:41,460  
Defense satellites

854  
00:37:47,569 --> 00:37:45,060  
that are far superior to the DSP system

855  
00:37:49,730 --> 00:37:47,579  
that ended in 1991

856  
00:37:51,890 --> 00:37:49,740  
that have been picking up super high

857  
00:37:55,310 --> 00:37:51,900  
resolution video

858  
00:38:00,069 --> 00:37:55,320  
still imagery of these objects

859  
00:38:02,390 --> 00:38:00,079  
interacting with our planet and uh

860  
00:38:05,930 --> 00:38:02,400  
obviously Christopher melon knows about

861  
00:38:07,730 --> 00:38:05,940  
that and again this documentary is kind

862  
00:38:11,770 --> 00:38:07,740  
of timely because we're

863  
00:38:16,390 --> 00:38:11,780

we're at this precipice where uh NASA

864

00:38:20,210 --> 00:38:16,400

is about to reveal in June of this year

865

00:38:21,950 --> 00:38:20,220

their findings on their UAP research

866

00:38:23,690 --> 00:38:21,960

group's efforts

867

00:38:26,810 --> 00:38:23,700

what are they going to say I mean I was

868

00:38:29,210 --> 00:38:26,820

talking to Richard Dolan the other day

869

00:38:31,849 --> 00:38:29,220

and I said

870

00:38:34,609 --> 00:38:31,859

why would you like put together a panel

871

00:38:37,970 --> 00:38:34,619

of 15 scientists unless you were really

872

00:38:39,550 --> 00:38:37,980

going to put something out there in the

873

00:38:43,069 --> 00:38:39,560

public

874

00:38:46,730 --> 00:38:43,079

that serves to push

875

00:38:49,069 --> 00:38:46,740

some kind of narrative or

876

00:38:52,849 --> 00:38:49,079

um to validate

877

00:38:54,829 --> 00:38:52,859

an existing narrative right so

878

00:38:57,050 --> 00:38:54,839

I think

879

00:39:01,310 --> 00:38:57,060

I'm hopeful that they're going to say

880

00:39:03,609 --> 00:39:01,320

something about uaps being real

881

00:39:09,650 --> 00:39:03,619

um and apparently they've been getting

882

00:39:13,010 --> 00:39:09,660

documentation and access to content

883

00:39:14,150 --> 00:39:13,020

far greater than Arrow has even had

884

00:39:17,270 --> 00:39:14,160

right

885

00:39:19,130 --> 00:39:17,280

um so there's hope in the idea that

886

00:39:21,290 --> 00:39:19,140

these scientists are going to look at

887

00:39:25,609 --> 00:39:21,300

this data and be like okay this is

888

00:39:28,609 --> 00:39:25,619

anomalous this is not ours or maybe it's

889

00:39:31,670 --> 00:39:28,619

an adversaries or

890

00:39:34,790 --> 00:39:31,680

maybe it's extraterrestrial maybe it's

891

00:39:37,970 --> 00:39:34,800

interdimensional who knows right

892

00:39:40,670 --> 00:39:37,980

um the fact is that we have

893

00:39:43,910 --> 00:39:40,680

lots of evidence to date that

894

00:39:47,150 --> 00:39:43,920

space-based UFOs are a thing

895

00:39:48,650 --> 00:39:47,160

and NASA probably knows about it I hope

896

00:39:50,450 --> 00:39:48,660

that

897

00:39:53,810 --> 00:39:50,460

um they come clean about some of this

898

00:39:55,490 --> 00:39:53,820

stuff that's happened throughout history

899

00:39:57,470 --> 00:39:55,500

yeah and it's fascinating because we're

900

00:39:59,510 --> 00:39:57,480

all putting this phenomenon together

901  
00:40:01,670 --> 00:39:59,520  
we're realizing that these things are

902  
00:40:04,430 --> 00:40:01,680  
coming from somewhere else in the

903  
00:40:06,710 --> 00:40:04,440  
universe or our galaxy they are entering

904  
00:40:09,230 --> 00:40:06,720  
our atmosphere then they fly through our

905  
00:40:10,670 --> 00:40:09,240  
air they go in our water sometimes

906  
00:40:12,650 --> 00:40:10,680  
people see them go through freaking

907  
00:40:15,410 --> 00:40:12,660  
mountains or solid objects it's it's

908  
00:40:16,609 --> 00:40:15,420  
just weird but it is happening and when

909  
00:40:18,290 --> 00:40:16,619  
you start seeing it it's not just

910  
00:40:20,030 --> 00:40:18,300  
compartmentalizing like oh let's just

911  
00:40:24,410 --> 00:40:20,040  
investigate it when they're in her air

912  
00:40:26,390 --> 00:40:24,420  
over our Air Zone and flight patterns uh

913  
00:40:28,190 --> 00:40:26,400

it's they're everywhere like it's not

914

00:40:29,870 --> 00:40:28,200

just a planet it's outside the planet

915

00:40:31,790 --> 00:40:29,880

they're monitoring the whole system I

916

00:40:33,950 --> 00:40:31,800

think the whole concept of space force

917

00:40:36,470 --> 00:40:33,960

is try to control the distance between

918

00:40:40,130 --> 00:40:36,480

the Moon and the Earth and control the

919

00:40:42,109 --> 00:40:40,140

inner uh outer you know comings and

920

00:40:44,870 --> 00:40:42,119

goings of these entities yeah whatever

921

00:40:46,550 --> 00:40:44,880

the CIS lunar space is the area that

922

00:40:47,690 --> 00:40:46,560

you're talking about okay I didn't know

923

00:40:49,130 --> 00:40:47,700

that so can you explain that a little

924

00:40:51,650 --> 00:40:49,140

bit for me

925

00:40:54,589 --> 00:40:51,660

um in between Earth and the Moon that's

926  
00:40:56,569 --> 00:40:54,599  
called CIS lunar space okay so it's it's

927  
00:40:58,630 --> 00:40:56,579  
the space between

928  
00:41:02,569 --> 00:40:58,640  
are to

929  
00:41:05,089 --> 00:41:02,579  
uh astral bodies right okay and

930  
00:41:07,069 --> 00:41:05,099  
um so you're you're theorizing that

931  
00:41:09,650 --> 00:41:07,079  
space force would be protecting that

932  
00:41:11,390 --> 00:41:09,660  
space that's all they could I think be

933  
00:41:13,550 --> 00:41:11,400  
able to control is maybe that distance

934  
00:41:15,050 --> 00:41:13,560  
if they even have that technology you

935  
00:41:16,310 --> 00:41:15,060  
know uh we know they're recruiting

936  
00:41:18,230 --> 00:41:16,320  
people but do they already have the

937  
00:41:19,970 --> 00:41:18,240  
ships or is the ships already built now

938  
00:41:21,230 --> 00:41:19,980

they're recruiting the people like it's

939

00:41:23,630 --> 00:41:21,240

kind of like the chicken in the egg

940

00:41:26,329 --> 00:41:23,640

question you know yeah but we know that

941

00:41:27,730 --> 00:41:26,339

they have an autonomous shuttle they've

942

00:41:30,170 --> 00:41:27,740

been using the

943

00:41:33,710 --> 00:41:30,180

X-37B for

944

00:41:36,589 --> 00:41:33,720

many years now and that can go into

945

00:41:39,170 --> 00:41:36,599

space for a year

946

00:41:41,630 --> 00:41:39,180

that's crazy wow that's that's an Air

947

00:41:43,670 --> 00:41:41,640

Force Space vehicle right that's a

948

00:41:47,270 --> 00:41:43,680

shuttle that the Air Force doesn't even

949

00:41:49,550 --> 00:41:47,280

have to put Personnel on it goes up goes

950

00:41:51,890 --> 00:41:49,560

around looks at things comes back down

951  
00:41:53,630 --> 00:41:51,900  
right what has it been doing up there

952  
00:41:56,810 --> 00:41:53,640  
what has it found

953  
00:41:58,970 --> 00:41:56,820  
we don't know it's all classified

954  
00:42:00,230 --> 00:41:58,980  
and it would have to be drones I'm

955  
00:42:01,970 --> 00:42:00,240  
thinking that we'd have to put up there

956  
00:42:04,069 --> 00:42:01,980  
because they would have to move fast you

957  
00:42:05,990 --> 00:42:04,079  
couldn't have a body in there because of

958  
00:42:08,329 --> 00:42:06,000  
the limitations and the complications of

959  
00:42:10,010 --> 00:42:08,339  
having a living breathing being and

960  
00:42:13,370 --> 00:42:10,020  
there's a it would have to be drone or

961  
00:42:15,890 --> 00:42:13,380  
AI well that that thing is a giant drone

962  
00:42:18,230 --> 00:42:15,900  
yeah you know it's a shuttle-sized drone

963  
00:42:19,790 --> 00:42:18,240

does it go to the Moon does it go beyond

964

00:42:24,530 --> 00:42:19,800

we don't know

965

00:42:26,510 --> 00:42:24,540

wait I mean we may never know that's the

966

00:42:28,250 --> 00:42:26,520

Air Force's Intel

967

00:42:29,930 --> 00:42:28,260

yeah and the Air Force is so good at

968

00:42:32,349 --> 00:42:29,940

talking right they've been saying so

969

00:42:34,370 --> 00:42:32,359

much for 75 years yeah

970

00:42:36,710 --> 00:42:34,380

I wanted to ask you something I've

971

00:42:39,109 --> 00:42:36,720

always been stuck on in terms of sort of

972

00:42:41,810 --> 00:42:39,119

global efforts in space and there's a

973

00:42:43,849 --> 00:42:41,820

lot of work between Russia and the USA

974

00:42:46,310 --> 00:42:43,859

there always have been right they they

975

00:42:48,829 --> 00:42:46,320

dock together in space they shake hands

976  
00:42:50,750 --> 00:42:48,839  
they're on missions I think you know um

977  
00:42:53,089 --> 00:42:50,760  
Mir and all that stuff it's always very

978  
00:42:55,010 --> 00:42:53,099  
close relationship but when we talk UFO

979  
00:42:56,690 --> 00:42:55,020  
and UAP we're like Russia and China we

980  
00:42:59,390 --> 00:42:56,700  
got to watch out but yet we're

981  
00:43:01,130 --> 00:42:59,400  
collaborating in space so uh you know

982  
00:43:03,349 --> 00:43:01,140  
better than me are they still doing that

983  
00:43:05,870 --> 00:43:03,359  
as far as Russia goes and if they are

984  
00:43:08,030 --> 00:43:05,880  
how do you keep your secrets yours but

985  
00:43:10,609 --> 00:43:08,040  
yet try to find theirs at the same time

986  
00:43:12,890 --> 00:43:10,619  
like that seems awful complicated to be

987  
00:43:15,130 --> 00:43:12,900  
fighting a space race but yet working

988  
00:43:19,730 --> 00:43:15,140

together on the same project

989

00:43:21,470 --> 00:43:19,740

well two weeks before Russia invaded the

990

00:43:24,109 --> 00:43:21,480

Ukraine

991

00:43:25,790 --> 00:43:24,119

there was Announcement by the United

992

00:43:27,890 --> 00:43:25,800

States that they were ending the

993

00:43:32,210 --> 00:43:27,900

International Space Station space

994

00:43:34,069 --> 00:43:32,220

station program okay so I knew like I

995

00:43:36,410 --> 00:43:34,079

know it sounds like

996

00:43:38,690 --> 00:43:36,420

I guess narcissistic to some degree but

997

00:43:42,050 --> 00:43:38,700

I had a hunch that something was coming

998

00:43:45,109 --> 00:43:42,060

when I read that headline

999

00:43:45,710 --> 00:43:45,119

um I can send you the article but

1000

00:43:48,829 --> 00:43:45,720

um

1001  
00:43:51,349 --> 00:43:48,839  
yeah I don't think the space relations

1002  
00:43:53,270 --> 00:43:51,359  
are very positive right now I mean

1003  
00:43:56,809 --> 00:43:53,280  
astronauts are not shooting each other

1004  
00:43:59,870 --> 00:43:56,819  
like in Ad Astra yet

1005  
00:44:02,809 --> 00:43:59,880  
um they're not running around in Moon

1006  
00:44:04,550 --> 00:44:02,819  
buggies shooting machine guns at each

1007  
00:44:06,050 --> 00:44:04,560  
other that was a great sequence though

1008  
00:44:09,230 --> 00:44:06,060  
that was a great sequence it was cool

1009  
00:44:13,670 --> 00:44:09,240  
maybe that will be a possible future you

1010  
00:44:17,450 --> 00:44:13,680  
know uh low gravity space wars but I

1011  
00:44:20,690 --> 00:44:17,460  
hope not could be pretty pretty uh

1012  
00:44:22,430 --> 00:44:20,700  
hard to clean up that mess but um

1013  
00:44:24,770 --> 00:44:22,440

look you've got

1014

00:44:27,309 --> 00:44:24,780

the announcement that they're ending the

1015

00:44:33,050 --> 00:44:27,319

the International Space Station

1016

00:44:33,890 --> 00:44:33,060

agreement so I mean but I just saw that

1017

00:44:37,250 --> 00:44:33,900

um

1018

00:44:40,069 --> 00:44:37,260

Russia was doing a spacewalk at the ISS

1019

00:44:42,470 --> 00:44:40,079

just like yesterday or something so

1020

00:44:44,750 --> 00:44:42,480

they're still up there whether they

1021

00:44:48,710 --> 00:44:44,760

agree and work together that's another

1022

00:44:53,390 --> 00:44:48,720

thing and will will become hostile at

1023

00:44:55,370 --> 00:44:53,400

one point I I'd say so if you know we do

1024

00:44:57,829 --> 00:44:55,380

end up start getting

1025

00:45:00,890 --> 00:44:57,839

missile launches coming from China or

1026

00:45:03,890 --> 00:45:00,900

Russia that type of thing will quickly

1027

00:45:07,370 --> 00:45:03,900

turn the theater of space into also a

1028

00:45:08,150 --> 00:45:07,380

war zone so that's just my logic

1029

00:45:11,690 --> 00:45:08,160

um

1030

00:45:14,150 --> 00:45:11,700

how much they like I don't know how they

1031

00:45:15,710 --> 00:45:14,160

operate together in a space station

1032

00:45:17,750 --> 00:45:15,720

that's connected

1033

00:45:19,790 --> 00:45:17,760

maybe they're going to decouple it at

1034

00:45:20,809 --> 00:45:19,800

one point you know maybe that's just

1035

00:45:23,150 --> 00:45:20,819

something they're trying to get around

1036

00:45:25,790 --> 00:45:23,160

to so but I do know that the United

1037

00:45:28,250 --> 00:45:25,800

States has a project to build a space

1038

00:45:31,730 --> 00:45:28,260

station like

1039

00:45:35,030 --> 00:45:31,740

two times the size of the ISS

1040

00:45:38,990 --> 00:45:35,040

further into CIS lunar space so between

1041

00:45:42,190 --> 00:45:39,000

the Moon and and Earth uh right now the

1042

00:45:45,170 --> 00:45:42,200

space station just sits above the Earth

1043

00:45:47,390 --> 00:45:45,180

it's one of the further out objects

1044

00:45:49,670 --> 00:45:47,400

although there's probably all kinds of

1045

00:45:51,970 --> 00:45:49,680

classified satellites that the

1046

00:45:55,970 --> 00:45:51,980

Department of Defense has launched into

1047

00:45:57,950 --> 00:45:55,980

outer reaches of the solar system to

1048

00:45:59,510 --> 00:45:57,960

monitor things coming in in and out and

1049

00:46:02,329 --> 00:45:59,520

Richard Doty mentioned that in the

1050

00:46:05,150 --> 00:46:02,339

documentary that there is a track record

1051

00:46:06,710 --> 00:46:05,160

of that apparently happening

1052

00:46:10,250 --> 00:46:06,720

but uh

1053

00:46:12,410 --> 00:46:10,260

a official station that's deep space

1054

00:46:15,109 --> 00:46:12,420

that's in between the Moon and Earth

1055

00:46:19,250 --> 00:46:15,119

that's coming another one and that'll

1056

00:46:21,290 --> 00:46:19,260

probably be solely American or uh you

1057

00:46:23,569 --> 00:46:21,300

know a collaboration of

1058

00:46:25,250 --> 00:46:23,579

allies with the United States working

1059

00:46:27,349 --> 00:46:25,260

there

1060

00:46:29,390 --> 00:46:27,359

yeah and I think with um

1061

00:46:31,790 --> 00:46:29,400

even disclosure that brings about two

1062

00:46:34,370 --> 00:46:31,800

situations it's either we play nice in

1063

00:46:37,550 --> 00:46:34,380

space as a species that we go because

1064

00:46:39,770 --> 00:46:37,560

obviously when we start mining for uh

1065

00:46:42,710 --> 00:46:39,780

gold and gold and everything else energy

1066

00:46:44,630 --> 00:46:42,720

on the moon silicon whatever right it's

1067

00:46:46,069 --> 00:46:44,640

gonna be crazy and we have a very

1068

00:46:48,050 --> 00:46:46,079

competitive nature we don't like to

1069

00:46:50,270 --> 00:46:48,060

share there's an abundance in space but

1070

00:46:51,770 --> 00:46:50,280

the resources of us being able to go out

1071

00:46:53,990 --> 00:46:51,780

there and get it is going to be a costly

1072

00:46:55,309 --> 00:46:54,000

Venture and that's what I'm worried

1073

00:46:57,829 --> 00:46:55,319

about is that it's going to create War

1074

00:46:59,450 --> 00:46:57,839

like you mentioned having ships go to

1075

00:47:01,309 --> 00:46:59,460

and from let's say the moon to harvest

1076

00:47:03,530 --> 00:47:01,319

things and you would have

1077

00:47:05,270 --> 00:47:03,540

ships that would protect them obviously

1078

00:47:06,589 --> 00:47:05,280

that makes sense but if we're all doing

1079

00:47:08,930 --> 00:47:06,599

that competing with each other there

1080

00:47:10,730 --> 00:47:08,940

would be some battles in space amongst

1081

00:47:12,050 --> 00:47:10,740

because we're so stupid right we just

1082

00:47:14,329 --> 00:47:12,060

can't get along we're like a bunch of

1083

00:47:16,190 --> 00:47:14,339

ants and uh you know what do you always

1084

00:47:18,170 --> 00:47:16,200

say Jay we have all these weapons in

1085

00:47:20,270 --> 00:47:18,180

space but they're pointed back at us not

1086

00:47:21,829 --> 00:47:20,280

exactly outer space yeah everything's

1087

00:47:23,329 --> 00:47:21,839

pointing back at us we're so stupid it's

1088

00:47:25,849 --> 00:47:23,339

like holding guns to our heads like you

1089

00:47:29,329 --> 00:47:25,859

move I shoot you shoot I shoot it's so

1090

00:47:32,809 --> 00:47:29,339

dumb but it's it is that you know like

1091

00:47:34,370 --> 00:47:32,819

let's say uh disclosure comes about the

1092

00:47:35,990 --> 00:47:34,380

government says these things are real we

1093

00:47:39,470 --> 00:47:36,000

need to work

1094

00:47:41,630 --> 00:47:39,480

as a species together for space

1095

00:47:44,030 --> 00:47:41,640

exploration for you know at least

1096

00:47:46,849 --> 00:47:44,040

establishing that we all agree we're

1097

00:47:49,490 --> 00:47:46,859

getting visited by one or several

1098

00:47:51,950 --> 00:47:49,500

civilizations and the implications that

1099

00:47:53,809 --> 00:47:51,960

it means there but at the point that

1100

00:47:57,050 --> 00:47:53,819

we're at right now Darcy do you think

1101  
00:47:58,970 --> 00:47:57,060  
there's any chance for a global

1102  
00:48:00,950 --> 00:47:58,980  
like working together globally on this

1103  
00:48:03,349 --> 00:48:00,960  
issue because it still seems like it's

1104  
00:48:06,589 --> 00:48:03,359  
compartmentalized you're Canadian you're

1105  
00:48:08,089 --> 00:48:06,599  
studying a United States project you

1106  
00:48:09,470 --> 00:48:08,099  
know for space and you're an expert on

1107  
00:48:11,930 --> 00:48:09,480  
that you know you don't even live in the

1108  
00:48:14,210 --> 00:48:11,940  
states so the fact that everything's

1109  
00:48:15,470 --> 00:48:14,220  
compartmentalized even within the

1110  
00:48:16,910 --> 00:48:15,480  
country of the United States you've got

1111  
00:48:18,710 --> 00:48:16,920  
all these different departments that do

1112  
00:48:19,910 --> 00:48:18,720  
these different tasks none of them talk

1113  
00:48:21,950 --> 00:48:19,920

to each other

1114

00:48:23,390 --> 00:48:21,960

what's our chance like where are we

1115

00:48:27,170 --> 00:48:23,400

sitting right now do you think with

1116

00:48:28,670 --> 00:48:27,180

disclosure and Unity on this matter

1117

00:48:31,430 --> 00:48:28,680

wow

1118

00:48:34,069 --> 00:48:31,440

um I think that that's

1119

00:48:35,150 --> 00:48:34,079

something I couldn't really predict like

1120

00:48:41,150 --> 00:48:35,160

I

1121

00:48:44,150 --> 00:48:41,160

could work together with other nations

1122

00:48:47,630 --> 00:48:44,160

but right now is

1123

00:48:50,329 --> 00:48:47,640

um it's probably gonna be really hard

1124

00:48:51,290 --> 00:48:50,339

just considering that

1125

00:48:54,530 --> 00:48:51,300

um

1126

00:48:57,050 --> 00:48:54,540

tensions between the East and the West

1127

00:48:59,329 --> 00:48:57,060

are at like the highest they've ever

1128

00:49:03,230 --> 00:48:59,339

been we're in uh

1129

00:49:06,589 --> 00:49:03,240

a warm War not a cold war you know not

1130

00:49:08,510 --> 00:49:06,599

an outright War just yet

1131

00:49:10,910 --> 00:49:08,520

um but we're sending ships over there

1132

00:49:12,410 --> 00:49:10,920

and stuff that's looking kind of bad

1133

00:49:17,390 --> 00:49:12,420

right

1134

00:49:24,890 --> 00:49:20,270

look at the relationship souring and

1135

00:49:27,490 --> 00:49:24,900

even Canada recently stating that the um

1136

00:49:32,150 --> 00:49:27,500

Diplomat from China I can't remember

1137

00:49:39,470 --> 00:49:35,089

politician from China was persona non

1138

00:49:42,589 --> 00:49:39,480

grata meaning like not welcome yeah

1139

00:49:44,990 --> 00:49:42,599

yeah like that's not looking good guys

1140

00:49:47,630 --> 00:49:45,000

it looks like we're

1141

00:49:51,530 --> 00:49:47,640

enhancing our hostilities more and more

1142

00:49:53,990 --> 00:49:51,540

as every day goes by in 2023.

1143

00:49:58,130 --> 00:49:54,000

so if they did announce

1144

00:50:01,130 --> 00:49:58,140

that UFOs exist

1145

00:50:02,510 --> 00:50:01,140

um it's kind of like a situation where

1146

00:50:04,849 --> 00:50:02,520

you know

1147

00:50:08,089 --> 00:50:04,859

you were just mentioning Jason we got

1148

00:50:09,950 --> 00:50:08,099

guns to each other's heads right and you

1149

00:50:13,069 --> 00:50:09,960

know you've got these guns to each

1150

00:50:16,130 --> 00:50:13,079

other's heads and somebody walks up at

1151

00:50:19,849 --> 00:50:16,140

this uh like Showdown that's in the

1152

00:50:22,370 --> 00:50:19,859

background guys goes hey guys uh I know

1153

00:50:24,050 --> 00:50:22,380

you're about to shoot each other but um

1154

00:50:26,089 --> 00:50:24,060

there's aliens

1155

00:50:28,970 --> 00:50:26,099

aliens are here

1156

00:50:30,710 --> 00:50:28,980

and they're like uh-huh

1157

00:50:32,450 --> 00:50:30,720

what do you want us to do about it we're

1158

00:50:34,809 --> 00:50:32,460

about to shoot each other

1159

00:50:38,329 --> 00:50:34,819

I mean it might be a situation like that

1160

00:50:41,990 --> 00:50:38,339

or I mean Ronald Reagan did that famous

1161

00:50:44,390 --> 00:50:42,000

U.N speech and he States uh

1162

00:50:47,569 --> 00:50:44,400

sometimes I think

1163

00:50:50,870 --> 00:50:47,579

how quickly we would unite as a

1164

00:50:55,069 --> 00:50:50,880

civilization as like uh

1165

00:50:57,890 --> 00:50:55,079

uh a group uh on Earth

1166

00:51:01,549 --> 00:50:57,900

if we found out that there was uh

1167

00:51:04,250 --> 00:51:01,559

extraterrestrial uh threat

1168

00:51:05,990 --> 00:51:04,260

out there that resolve our differences

1169

00:51:08,630 --> 00:51:06,000

right it would solve our differences

1170

00:51:11,569 --> 00:51:08,640

right so it's like would that actually

1171

00:51:12,710 --> 00:51:11,579

go go down would that be the play I

1172

00:51:14,809 --> 00:51:12,720

don't know

1173

00:51:16,730 --> 00:51:14,819

a lot of people believe a lot of people

1174

00:51:18,890 --> 00:51:16,740

believe that the entities have something

1175

00:51:20,030 --> 00:51:18,900

to do with this as well yeah I've got

1176

00:51:21,589 --> 00:51:20,040

that was the first question I had

1177

00:51:23,990 --> 00:51:21,599

written down to ask you and now is a

1178

00:51:27,650 --> 00:51:24,000

perfect time so does disclosure come

1179

00:51:29,809 --> 00:51:27,660

from us or the sort of heads of Earth or

1180

00:51:31,970 --> 00:51:29,819

does it come from them whoever the hell

1181

00:51:34,309 --> 00:51:31,980

they are like are do you think that

1182

00:51:36,770 --> 00:51:34,319

there is some involvement where we are

1183

00:51:38,390 --> 00:51:36,780

only doing as much as we are allowed to

1184

00:51:42,349 --> 00:51:38,400

be doing and they are ultimately in

1185

00:51:44,569 --> 00:51:42,359

control I don't I don't know I I you

1186

00:51:47,990 --> 00:51:44,579

know you hear about stories anecdotally

1187

00:51:50,450 --> 00:51:48,000

like the Holloman Air Force Base Landing

1188

00:51:53,930 --> 00:51:50,460

where apparently an extraterrestrial got

1189

00:51:57,049 --> 00:51:53,940

out of a craft and met a high-ranking

1190

00:52:00,230 --> 00:51:57,059

official on the landing strip there and

1191

00:52:01,549 --> 00:52:00,240

they walked off to have a chat right

1192

00:52:03,950 --> 00:52:01,559

um

1193

00:52:07,849 --> 00:52:03,960

and and that's that's a contact incident

1194

00:52:09,710 --> 00:52:07,859

if it's real that's amazing and it means

1195

00:52:10,790 --> 00:52:09,720

that we've had conversations with off

1196

00:52:12,010 --> 00:52:10,800

planet

1197

00:52:14,030 --> 00:52:12,020

well

1198

00:52:16,630 --> 00:52:14,040

non-human intelligence I don't know

1199

00:52:20,530 --> 00:52:16,640

whether they're off planet or crypto or

1200

00:52:22,790 --> 00:52:20,540

uh you know Ultra terrestrial or or even

1201  
00:52:25,250 --> 00:52:22,800  
interdimensional beings who knows but

1202  
00:52:28,730 --> 00:52:25,260  
scientifically the possibilities for

1203  
00:52:30,349 --> 00:52:28,740  
those types of things existing in our

1204  
00:52:34,609 --> 00:52:30,359  
galaxy

1205  
00:52:35,630 --> 00:52:34,619  
is real and uh if we've had these

1206  
00:52:39,049 --> 00:52:35,640  
meetings

1207  
00:52:43,190 --> 00:52:39,059  
with uh certain

1208  
00:52:45,650 --> 00:52:43,200  
leaders from certain countries that um

1209  
00:52:48,410 --> 00:52:45,660  
have brokered a deal or something it's

1210  
00:52:50,990 --> 00:52:48,420  
totally possible that

1211  
00:52:53,390 --> 00:52:51,000  
um disclosure is a rolled out event

1212  
00:52:55,990 --> 00:52:53,400  
that's agreed upon mutually by two

1213  
00:52:59,990 --> 00:52:56,000

different parties that could benefit

1214

00:53:01,010 --> 00:53:00,000

maybe one or the other or both at the

1215

00:53:03,829 --> 00:53:01,020

same time

1216

00:53:05,990 --> 00:53:03,839

again this is a possibility I don't know

1217

00:53:08,329 --> 00:53:06,000

for sure that this is certain

1218

00:53:10,549 --> 00:53:08,339

but I would be getting in some serious

1219

00:53:14,150 --> 00:53:10,559

Stephen Greer hot water when I mention

1220

00:53:16,910 --> 00:53:14,160

the next possibility that maybe not all

1221

00:53:19,490 --> 00:53:16,920

of them are good out there sure and

1222

00:53:22,849 --> 00:53:19,500

maybe you can't pray or meditate to

1223

00:53:25,790 --> 00:53:22,859

bring all positivity or positive

1224

00:53:28,910 --> 00:53:25,800

extraterrestrial contacts to you

1225

00:53:31,430 --> 00:53:28,920

it's possible that

1226

00:53:35,809 --> 00:53:31,440

you know as on Earth there's a mixed bag

1227

00:53:39,230 --> 00:53:35,819

up there in in space or just in uh

1228

00:53:42,349 --> 00:53:39,240

existence around our planet uh and

1229

00:53:45,170 --> 00:53:42,359

outside of it to to deal you know in in

1230

00:53:49,370 --> 00:53:45,180

nature and uh

1231

00:53:56,930 --> 00:53:52,750

if it came that way like Ronald Reagan

1232

00:54:00,950 --> 00:53:56,940

uh spoke about you know saying it would

1233

00:54:03,530 --> 00:54:00,960

unite humanity and give us something to

1234

00:54:05,390 --> 00:54:03,540

fear outside of our planet instead of

1235

00:54:07,370 --> 00:54:05,400

fearing each other

1236

00:54:10,190 --> 00:54:07,380

I actually don't see a problem with that

1237

00:54:12,170 --> 00:54:10,200

yeah Stephen grierson is a problem with

1238

00:54:15,950 --> 00:54:12,180

that

1239

00:54:18,770 --> 00:54:15,960

but yeah are they us you know like I

1240

00:54:19,970 --> 00:54:18,780

think about it kind of like this like

1241

00:54:23,210 --> 00:54:19,980

um

1242

00:54:25,910 --> 00:54:23,220

if somebody walked into your home and

1243

00:54:28,970 --> 00:54:25,920

said this is how you should live and you

1244

00:54:30,770 --> 00:54:28,980

say wait a second this is my home I've

1245

00:54:33,770 --> 00:54:30,780

been living here for a long time and I'm

1246

00:54:35,630 --> 00:54:33,780

comfortable with my lifestyle

1247

00:54:38,750 --> 00:54:35,640

um you know that would be kind of the

1248

00:54:39,470 --> 00:54:38,760

appropriate answer but

1249

00:54:41,329 --> 00:54:39,480

um

1250

00:54:49,490 --> 00:54:41,339

if

1251  
00:54:52,609 --> 00:54:49,500  
as a civilization and we're you know

1252  
00:54:54,890 --> 00:54:52,619  
making our own rules as we go I think

1253  
00:54:57,589 --> 00:54:54,900  
that's more beneficial to our own

1254  
00:55:00,589 --> 00:54:57,599  
sovereignty to our own

1255  
00:55:02,270 --> 00:55:00,599  
um you know growth as a species so we

1256  
00:55:03,290 --> 00:55:02,280  
can figure out what's good and what's

1257  
00:55:06,230 --> 00:55:03,300  
not

1258  
00:55:08,569 --> 00:55:06,240  
um just being told something never works

1259  
00:55:11,089 --> 00:55:08,579  
I mean do you guys have kids have you

1260  
00:55:13,430 --> 00:55:11,099  
seen your friends that have kids when

1261  
00:55:16,130 --> 00:55:13,440  
you when a kid is told to do something

1262  
00:55:18,589 --> 00:55:16,140  
their first reaction is to figure it out

1263  
00:55:21,589 --> 00:55:18,599

on their own and not to listen and I

1264

00:55:25,450 --> 00:55:21,599

think as a species we are kids and if we

1265

00:55:28,490 --> 00:55:25,460

go into space uh you know as a premature

1266

00:55:30,230 --> 00:55:28,500

civilization we're probably going to

1267

00:55:32,930 --> 00:55:30,240

make mistakes and we're probably going

1268

00:55:34,549 --> 00:55:32,940

to be you know somebody tells us not to

1269

00:55:36,770 --> 00:55:34,559

do something we're gonna try and do it

1270

00:55:40,309 --> 00:55:36,780

anyways right that's just our nature we

1271

00:55:41,089 --> 00:55:40,319

need to learn from our own mistakes so

1272

00:55:45,589 --> 00:55:41,099

um

1273

00:55:47,809 --> 00:55:45,599

I think disclosure is good if it if it

1274

00:55:49,549 --> 00:55:47,819

happens a certain way

1275

00:55:51,530 --> 00:55:49,559

you know

1276

00:55:53,450 --> 00:55:51,540

um this is just going to be part of our

1277

00:55:56,690 --> 00:55:53,460

human evolution and I don't know if it's

1278

00:56:00,829 --> 00:55:56,700

going to go down uh a certain way or or

1279

00:56:05,089 --> 00:56:02,569

we'll see

1280

00:56:06,170 --> 00:56:05,099

there's a new documentary on Netflix I

1281

00:56:08,569 --> 00:56:06,180

don't know if you guys have seen it it's

1282

00:56:11,089 --> 00:56:08,579

on chimps it's really fascinating like

1283

00:56:12,890 --> 00:56:11,099

the imagery the the I think it's in 4k

1284

00:56:15,710 --> 00:56:12,900

and they study these Champs they follow

1285

00:56:18,170 --> 00:56:15,720

them around and it's fascinating because

1286

00:56:20,750 --> 00:56:18,180

they they they're so like us the way

1287

00:56:21,410 --> 00:56:20,760

that they socialize that they have you

1288

00:56:23,329 --> 00:56:21,420

know

1289

00:56:25,430 --> 00:56:23,339

um each one of them has a role to play

1290

00:56:27,049 --> 00:56:25,440

they're they're very valuable

1291

00:56:28,910 --> 00:56:27,059

and you have these people that spend

1292

00:56:30,890 --> 00:56:28,920

months with them recording them in the

1293

00:56:32,150 --> 00:56:30,900

woods the the Apes don't know what the

1294

00:56:34,430 --> 00:56:32,160

humans are doing they don't know what

1295

00:56:35,510 --> 00:56:34,440

the camera is they're oblivious to it

1296

00:56:36,890 --> 00:56:35,520

they're just living their lives and

1297

00:56:39,890 --> 00:56:36,900

doing their own socializing things

1298

00:56:41,870 --> 00:56:39,900

accepting that these entities or beings

1299

00:56:44,510 --> 00:56:41,880

are there and obviously doing their own

1300

00:56:47,030 --> 00:56:44,520

thing but to us as a species the homo

1301  
00:56:48,650 --> 00:56:47,040  
sapiens the surviving humans there was

1302  
00:56:51,710 --> 00:56:48,660  
other humans we are the only surviving

1303  
00:56:53,870 --> 00:56:51,720  
ones uh we have a hard time grasping the

1304  
00:56:55,670 --> 00:56:53,880  
concept that maybe that we are the Apes

1305  
00:56:57,829 --> 00:56:55,680  
in this situation and that we are being

1306  
00:56:59,329 --> 00:56:57,839  
observed by something else that is

1307  
00:57:01,609 --> 00:56:59,339  
smarter with than us and has better

1308  
00:57:03,770 --> 00:57:01,619  
technology that we don't understand way

1309  
00:57:05,450 --> 00:57:03,780  
above our pay grade it's just the

1310  
00:57:07,670 --> 00:57:05,460  
admittance of that just to be able to

1311  
00:57:09,109 --> 00:57:07,680  
say hey wait a minute let's hear what

1312  
00:57:10,609 --> 00:57:09,119  
they have to say because obviously the

1313  
00:57:12,890 --> 00:57:10,619

way we're doing things is not working

1314

00:57:15,710 --> 00:57:12,900

out you know we're constantly at War

1315

00:57:17,750 --> 00:57:15,720

think about how much Misery the the bulk

1316

00:57:20,630 --> 00:57:17,760

of human misery is caused by humans

1317

00:57:22,670 --> 00:57:20,640

right so it's it's why not try it their

1318

00:57:24,349 --> 00:57:22,680

way now why not just listen to what they

1319

00:57:26,390 --> 00:57:24,359

have to say maybe we'll find a better

1320

00:57:28,069 --> 00:57:26,400

way of being on this planet

1321

00:57:30,290 --> 00:57:28,079

Consciousness is always being brought

1322

00:57:31,870 --> 00:57:30,300

about a lot of people that we talk to it

1323

00:57:33,829 --> 00:57:31,880

keeps bringing down about Consciousness

1324

00:57:34,849 --> 00:57:33,839

Consciousness also makes you aware of

1325

00:57:38,809 --> 00:57:34,859

other people

1326  
00:57:40,910 --> 00:57:38,819  
causes you to see things from their

1327  
00:57:43,790 --> 00:57:40,920  
point of view makes you

1328  
00:57:45,170 --> 00:57:43,800  
you know appreciate another person and I

1329  
00:57:47,470 --> 00:57:45,180  
think that's what we're getting more

1330  
00:57:50,270 --> 00:57:47,480  
nowadays is people

1331  
00:57:51,410 --> 00:57:50,280  
validating other people and I think

1332  
00:57:52,910 --> 00:57:51,420  
that's important

1333  
00:57:54,470 --> 00:57:52,920  
I think it's a step in the right

1334  
00:57:56,569 --> 00:57:54,480  
direction we're still stupid as a

1335  
00:57:59,329 --> 00:57:56,579  
species we still are self-destructive

1336  
00:58:02,030 --> 00:57:59,339  
but we're beginning to become aware that

1337  
00:58:03,770 --> 00:58:02,040  
other people are entities as well the

1338  
00:58:05,870 --> 00:58:03,780

same as us and we're more than just

1339

00:58:08,329 --> 00:58:05,880

physical bodies this is just operate on

1340

00:58:10,910 --> 00:58:08,339

this plane only five senses that's very

1341

00:58:13,569 --> 00:58:10,920

limited you know we're trying to solve a

1342

00:58:15,710 --> 00:58:13,579

big problem you know like a big Lego

1343

00:58:17,390 --> 00:58:15,720

Masterpiece castle and we only have a

1344

00:58:18,829 --> 00:58:17,400

few blocks right and we're trying to

1345

00:58:20,569 --> 00:58:18,839

figure out how the whole thing works so

1346

00:58:22,790 --> 00:58:20,579

uh

1347

00:58:25,490 --> 00:58:22,800

this level of

1348

00:58:28,010 --> 00:58:25,500

investigations that you've done for you

1349

00:58:30,650 --> 00:58:28,020

know on NASA and about net is as crucial

1350

00:58:32,809 --> 00:58:30,660

as any other aspect of ufology and if

1351

00:58:34,910 --> 00:58:32,819

not more important because we are seeing

1352

00:58:37,609 --> 00:58:34,920

that this activity is coming from space

1353

00:58:39,530 --> 00:58:37,619

that these things are entering from a

1354

00:58:42,170 --> 00:58:39,540

different location into our atmosphere

1355

00:58:44,270 --> 00:58:42,180

and then we have another branch of study

1356

00:58:46,190 --> 00:58:44,280

which is about what they're doing in the

1357

00:58:48,370 --> 00:58:46,200

sky what they're doing with people

1358

00:58:50,569 --> 00:58:48,380

because obviously it's a big operation

1359

00:58:53,030 --> 00:58:50,579

Darcy I don't know about you but I know

1360

00:58:55,430 --> 00:58:53,040

for us we keep we're blown away by the

1361

00:58:57,530 --> 00:58:55,440

cost of this operation for them because

1362

00:58:59,630 --> 00:58:57,540

these crafts are designed to come here

1363

00:59:00,410 --> 00:58:59,640

they have rooms inside of them that are

1364

00:59:02,990 --> 00:59:00,420

like

1365

00:59:05,690 --> 00:59:03,000

hospital rooms designed for a human to

1366

00:59:07,250 --> 00:59:05,700

be on to have these you know gadgets

1367

00:59:09,349 --> 00:59:07,260

come out and do experiments on people

1368

00:59:12,049 --> 00:59:09,359

it's a costly Venture for them this

1369

00:59:14,510 --> 00:59:12,059

would cost us trillions of dollars to to

1370

00:59:16,549 --> 00:59:14,520

execute so it's interesting that they're

1371

00:59:18,349 --> 00:59:16,559

here and it don't seem to be causing us

1372

00:59:22,730 --> 00:59:18,359

any issues right now so that's kind of

1373

00:59:25,069 --> 00:59:22,740

positive yeah I wonder if uh like costs

1374

00:59:28,309 --> 00:59:25,079

or economy or even a thing to some of

1375

00:59:31,609 --> 00:59:28,319

these future Advanced societies that is

1376

00:59:34,190 --> 00:59:31,619

a human construct for sure right

1377

00:59:36,589 --> 00:59:34,200

um and it it creates a pyramid of power

1378

00:59:39,970 --> 00:59:36,599

it creates uh

1379

00:59:42,230 --> 00:59:39,980

essentially leaders and servers

1380

00:59:45,049 --> 00:59:42,240

surfs but

1381

00:59:47,510 --> 00:59:45,059

um yeah I mean

1382

00:59:49,549 --> 00:59:47,520

there's a whole range of phenomenon

1383

00:59:51,470 --> 00:59:49,559

happening here and if you believe in

1384

00:59:53,089 --> 00:59:51,480

abductions which I've I made a

1385

00:59:55,730 --> 00:59:53,099

documentary on that I believe that

1386

00:59:58,329 --> 00:59:55,740

there's truth to some of that

1387

01:00:00,829 --> 00:59:58,339

um you know certain leaders in this

1388

01:00:04,370 --> 01:00:00,839

research field will say oh that's all

1389

01:00:06,950 --> 01:00:04,380

just my labs and human uh LED

1390

01:00:10,010 --> 01:00:06,960

experiments and stuff to trick people

1391

01:00:11,930 --> 01:00:10,020

all aliens are good I don't know

1392

01:00:16,549 --> 01:00:11,940

but um

1393

01:00:21,410 --> 01:00:16,559

there's lots of reports of these types

1394

01:00:24,650 --> 01:00:21,420

of things happening uh even today and so

1395

01:00:29,450 --> 01:00:24,660

it makes one wonder what you know

1396

01:00:31,970 --> 01:00:29,460

what is this all about is this a opt-in

1397

01:00:33,950 --> 01:00:31,980

uh system you know are these people

1398

01:00:38,210 --> 01:00:33,960

being warned before they're being taken

1399

01:00:40,430 --> 01:00:38,220

no you know it's very intrusive it's uh

1400

01:00:43,430 --> 01:00:40,440

it doesn't sound like

1401

01:00:46,430 --> 01:00:43,440

it sounds more hostile and advantageous

1402

01:00:49,010 --> 01:00:46,440

to one side to one of the parties than

1403

01:00:52,970 --> 01:00:49,020

to the person that's taken aboard a

1404

01:00:53,510 --> 01:00:52,980

craft or something right right so

1405

01:00:56,809 --> 01:00:53,520

um

1406

01:00:58,849 --> 01:00:56,819

I I think there's some really

1407

01:01:01,370 --> 01:00:58,859

interesting implications to do with that

1408

01:01:04,309 --> 01:01:01,380

and uh perhaps

1409

01:01:06,589 --> 01:01:04,319

you know the American Military knows

1410

01:01:10,670 --> 01:01:06,599

about that and other militaries around

1411

01:01:13,430 --> 01:01:10,680

the world you got to realize that

1412

01:01:16,010 --> 01:01:13,440

all over the even China has had

1413

01:01:19,130 --> 01:01:16,020

uh UFO experiences where they've had to

1414

01:01:21,710 --> 01:01:19,140

shut down airports because

1415

01:01:24,289 --> 01:01:21,720

unidentified flying objects are flying

1416

01:01:26,750 --> 01:01:24,299

right within the flight path of Landing

1417

01:01:28,370 --> 01:01:26,760

aircraft and you know taking off

1418

01:01:30,170 --> 01:01:28,380

aircraft

1419

01:01:34,069 --> 01:01:30,180

um that's happened in history we have

1420

01:01:36,950 --> 01:01:34,079

had West all 66 in Russia we've had the

1421

01:01:39,950 --> 01:01:36,960

bent Waters base you know rendelshim

1422

01:01:41,690 --> 01:01:39,960

incident in the UK in Africa the Ariel

1423

01:01:45,710 --> 01:01:41,700

school

1424

01:01:49,190 --> 01:01:45,720

um in Peru we had a pilot Chase and

1425

01:01:52,930 --> 01:01:49,200

shoot at a object with their Sukhoi

1426

01:02:00,289 --> 01:01:56,990

Iran yeah we covered the 1976 Iran Mass

1427

01:02:02,089 --> 01:02:00,299

witness event at night where you know

1428

01:02:03,109 --> 01:02:02,099

there was rolling blackouts in the city

1429

01:02:08,329 --> 01:02:03,119

and

1430

01:02:10,309 --> 01:02:08,339

frightened of this two objects that were

1431

01:02:13,250 --> 01:02:10,319

flying over that City this happens

1432

01:02:15,950 --> 01:02:13,260

everywhere you know so

1433

01:02:17,210 --> 01:02:15,960

it leads one to believe that we're not

1434

01:02:19,130 --> 01:02:17,220

in control

1435

01:02:23,030 --> 01:02:19,140

and I think

1436

01:02:25,370 --> 01:02:23,040

um the militaries of the world want to

1437

01:02:28,730 --> 01:02:25,380

allude to the idea to their citizens

1438

01:02:29,809 --> 01:02:28,740

that they have control and

1439

01:02:34,309 --> 01:02:29,819

um

1440

01:02:36,170 --> 01:02:34,319

I think the UFO incidents either are our

1441

01:02:39,829 --> 01:02:36,180

tests

1442

01:02:42,349 --> 01:02:39,839

um from you know Advanced parts of

1443

01:02:45,230 --> 01:02:42,359

certain militaries around the world

1444

01:02:47,990 --> 01:02:45,240

checking out other countries and and

1445

01:02:50,630 --> 01:02:48,000

possibly testing their capabilities

1446

01:02:53,329 --> 01:02:50,640

or they could be from

1447

01:02:56,329 --> 01:02:53,339

beyond Earth you know they could be from

1448

01:02:58,309 --> 01:02:56,339

some extraterrestrial source and that's

1449

01:03:00,470 --> 01:02:58,319

really interesting both implications are

1450

01:03:02,450 --> 01:03:00,480

really interesting to me and it could be

1451

01:03:05,030 --> 01:03:02,460

a hybrid of the two as well right it may

1452

01:03:08,030 --> 01:03:05,040

not be 100 one or the other and I think

1453

01:03:10,069 --> 01:03:08,040

opinion and experience plays a lot into

1454

01:03:11,510 --> 01:03:10,079

how you look at the phenomenon you had a

1455

01:03:14,089 --> 01:03:11,520

good friend of ours on your movie Jimmy

1456

01:03:16,970 --> 01:03:14,099

Blanchette who as we know is using moon

1457

01:03:19,549 --> 01:03:16,980

bounce technology broadcasting basically

1458

01:03:21,410 --> 01:03:19,559

a radio Canon into space way more

1459

01:03:23,150 --> 01:03:21,420

wattage than you would need and when we

1460

01:03:24,349 --> 01:03:23,160

had him on our show I said Jimmy isn't

1461

01:03:25,430 --> 01:03:24,359

that kind of like you don't know what

1462

01:03:27,289 --> 01:03:25,440

the hell you're doing man you're making

1463

01:03:29,270 --> 01:03:27,299

noise in the woods you don't know who's

1464

01:03:31,430 --> 01:03:29,280

out there and he said never had a bad

1465

01:03:33,650 --> 01:03:31,440

experience none of our ce5 groups have

1466

01:03:36,650 --> 01:03:33,660

ever had a bad experience because we're

1467

01:03:38,450 --> 01:03:36,660

inviting loving entities into our life

1468

01:03:40,789 --> 01:03:38,460

and I've chatted with somebody who's a

1469

01:03:42,470 --> 01:03:40,799

trained remote viewer who says that

1470

01:03:44,569 --> 01:03:42,480

these things can be downright evil and

1471

01:03:46,250 --> 01:03:44,579

will mess with your head and sometimes

1472

01:03:48,829 --> 01:03:46,260

You observe things and they're aware of

1473

01:03:51,230 --> 01:03:48,839

themselves being observed then the

1474

01:03:53,390 --> 01:03:51,240

energies are there and you know so so I

1475

01:03:55,190 --> 01:03:53,400

guess opinion plays a role in it but

1476

01:03:56,569 --> 01:03:55,200

also experience if you had an abduction

1477

01:03:58,789 --> 01:03:56,579

experience and it was really

1478

01:04:00,890 --> 01:03:58,799

traumatizing you may not think they're

1479

01:04:03,109 --> 01:04:00,900

so friendly but if you've had somebody

1480

01:04:05,630 --> 01:04:03,119

who's had like a Kundalini experience or

1481

01:04:07,609 --> 01:04:05,640

like a spiritual awakening it's like

1482

01:04:10,010 --> 01:04:07,619

Nirvana on planet Earth and there's

1483

01:04:11,569 --> 01:04:10,020

nothing but love and good so I

1484

01:04:13,549 --> 01:04:11,579

definitely think opinion plays a lot

1485

01:04:15,890 --> 01:04:13,559

into this and yeah you know your movie

1486

01:04:17,390 --> 01:04:15,900

did a good job of not taking a side you

1487

01:04:19,309 --> 01:04:17,400

presented all the evidence and you left

1488

01:04:20,809 --> 01:04:19,319

it there for you know intelligent people

1489

01:04:22,370 --> 01:04:20,819

to make their own opinion and that's

1490

01:04:24,230 --> 01:04:22,380

essentially what we try to do with this

1491

01:04:26,690 --> 01:04:24,240

show and I think he did a very good job

1492

01:04:29,450 --> 01:04:26,700

with your films I appreciate that guys

1493

01:04:31,910 --> 01:04:29,460

yeah uh Jimmy Blanchette really

1494

01:04:33,490 --> 01:04:31,920

interesting researcher

1495

01:04:35,569 --> 01:04:33,500

um scientist

1496

01:04:37,730 --> 01:04:35,579

uh you know

1497

01:04:40,609 --> 01:04:37,740

somebody who's actually testing out

1498

01:04:42,530 --> 01:04:40,619

their own technology and trying to see

1499

01:04:44,690 --> 01:04:42,540

what happens

1500

01:04:46,670 --> 01:04:44,700

um you know we had Seth trostack in the

1501

01:04:48,950 --> 01:04:46,680

documentary and kind of comparing

1502

01:04:50,089 --> 01:04:48,960

contrast look this guy's looking for

1503

01:04:54,650 --> 01:04:50,099

signals

1504

01:04:56,870 --> 01:04:54,660

uh that are coming from light years away

1505

01:04:59,990 --> 01:04:56,880

um that we probably will only ever see

1506

01:05:02,690 --> 01:05:00,000

once because the way that a light year

1507

01:05:05,329 --> 01:05:02,700

works is it's thousands of human years

1508

01:05:08,390 --> 01:05:05,339

away and

1509

01:05:11,030 --> 01:05:08,400

by the time we probably send a response

1510

01:05:13,309 --> 01:05:11,040

back we're you know they're either going

1511

01:05:17,329 --> 01:05:13,319

to be dead or maybe we're dead before

1512

01:05:20,930 --> 01:05:17,339

they respond to that second response but

1513

01:05:22,490 --> 01:05:20,940

um their whole protocol when I asked

1514

01:05:25,069 --> 01:05:22,500

Seth

1515

01:05:27,230 --> 01:05:25,079

um you know what if you do get a signal

1516

01:05:30,470 --> 01:05:27,240

that seems to be highly anomalous and

1517

01:05:33,470 --> 01:05:30,480

could be from another uh solar system

1518

01:05:35,690 --> 01:05:33,480

with intelligence behind it he said well

1519

01:05:38,510 --> 01:05:35,700

we have to

1520

01:05:41,690 --> 01:05:38,520

once we rule out that it's not from

1521

01:05:46,609 --> 01:05:41,700

Earth or not from some you know Quasar

1522

01:05:51,349 --> 01:05:46,619

or prosaic uh explanation then we have

1523

01:05:54,049 --> 01:05:51,359

to decide whether we reach out and reply

1524

01:05:57,710 --> 01:05:54,059

uh because there's implications that

1525

01:06:00,049 --> 01:05:57,720

maybe there's dangers to that you know

1526

01:06:02,150 --> 01:06:00,059

that you're inviting somebody that may

1527

01:06:04,069 --> 01:06:02,160

have nefarious

1528

01:06:05,510 --> 01:06:04,079

um interests right

1529

01:06:06,950 --> 01:06:05,520

but

1530

01:06:09,710 --> 01:06:06,960

um

1531

01:06:12,109 --> 01:06:09,720

but yeah Jimmy all of his Communications

1532

01:06:15,950 --> 01:06:12,119

are positive I hope that he's only

1533

01:06:17,630 --> 01:06:15,960

inviting positivity I'm sure you know if

1534

01:06:22,490 --> 01:06:17,640

you're a human and you send out a bunch

1535

01:06:24,109 --> 01:06:22,500

of uh positive postcards to strangers

1536

01:06:26,270 --> 01:06:24,119

you're gonna get a couple creeps and

1537

01:06:27,890 --> 01:06:26,280

that uh sorry you can bleep

1538

01:06:30,410 --> 01:06:27,900

that out you can get it okay we're

1539

01:06:32,089 --> 01:06:30,420

leaving all right you can get it we used

1540

01:06:33,770 --> 01:06:32,099

to swear a lot and now we don't swear

1541

01:06:36,049 --> 01:06:33,780

enough so it's refreshing we like it

1542

01:06:37,490 --> 01:06:36,059

yeah might kill your algorithm with

1543

01:06:40,609 --> 01:06:37,500

YouTube though but

1544

01:06:43,390 --> 01:06:40,619

um you'll get some creeps that will come

1545

01:06:47,029 --> 01:06:43,400

to the party you know uh some

1546

01:06:50,390 --> 01:06:47,039

know-it-alls that are blowhards that

1547

01:06:54,230 --> 01:06:50,400

um want to control the the conversation

1548

01:06:56,990 --> 01:06:54,240

and uh totally punch down and treat

1549

01:06:59,270 --> 01:06:57,000

everybody like they're idiots and

1550

01:07:01,670 --> 01:06:59,280

um State absolutes that's the part that

1551

01:07:03,770 --> 01:07:01,680

that state absolutes yeah some of those

1552

01:07:06,349 --> 01:07:03,780

creeps will stay absolute since some of

1553

01:07:10,309 --> 01:07:06,359

them will just outright hurt people you

1554

01:07:14,089 --> 01:07:10,319

know and uh I worry about that happening

1555

01:07:17,510 --> 01:07:14,099

to Jimmy but so far it hasn't

1556

01:07:18,890 --> 01:07:17,520

um and he's a good guy's friend and uh I

1557

01:07:21,950 --> 01:07:18,900

wish him all the luck with his research

1558

01:07:24,890 --> 01:07:21,960

and I hope that um you know somebody

1559

01:07:27,470 --> 01:07:24,900

from a academic institution watches my

1560

01:07:30,170 --> 01:07:27,480

documentaries sees what he's doing and

1561

01:07:32,809 --> 01:07:30,180

they rule in on that and they even help

1562

01:07:34,730 --> 01:07:32,819

him understand what these messages are

1563

01:07:39,470 --> 01:07:34,740

that he's getting on his walkie-talkies

1564

01:07:42,349 --> 01:07:39,480

and why they seem to defy physics in a

1565

01:07:44,390 --> 01:07:42,359

certain way I I would invite that you

1566

01:07:46,370 --> 01:07:44,400

know and I hope that Jimmy has the

1567

01:07:48,049 --> 01:07:46,380

opportunity to get certain folks to

1568

01:07:50,150 --> 01:07:48,059

reach out to him after seeing my

1569

01:07:51,410 --> 01:07:50,160

documentary so

1570

01:07:53,690 --> 01:07:51,420

um yeah

1571

01:07:55,010 --> 01:07:53,700

I think it's Nikola Tesla again our boy

1572

01:07:56,510 --> 01:07:55,020

that I always quote but he says

1573

01:07:59,650 --> 01:07:56,520

something to the effect I'm paraphrasing

1574

01:08:01,730 --> 01:07:59,660

here that one Humanity starts

1575

01:08:05,809 --> 01:08:01,740

discovering or investigating or

1576

01:08:08,029 --> 01:08:05,819

researching uh the non-physical World it

1577

01:08:10,250 --> 01:08:08,039

will do more advancements in one decade

1578

01:08:12,470 --> 01:08:10,260

than it has in the last hundred years

1579

01:08:15,589 --> 01:08:12,480

and I absolutely believe that this guy

1580

01:08:17,030 --> 01:08:15,599

was on a different level right just you

1581

01:08:19,490 --> 01:08:17,040

know some somebody that we all should

1582

01:08:22,010 --> 01:08:19,500

admire because he contributed to

1583

01:08:24,349 --> 01:08:22,020

humanity in such a huge way and got zero

1584

01:08:25,910 --> 01:08:24,359

out of it you know what I mean it was a

1585

01:08:28,490 --> 01:08:25,920

selfless act and we needed to be more

1586

01:08:30,110 --> 01:08:28,500

like him and these days uh you know we

1587

01:08:31,849 --> 01:08:30,120

mentioned this a few times but science

1588

01:08:34,610 --> 01:08:31,859

and philosophy need to merge back

1589

01:08:36,229 --> 01:08:34,620

together at some point they took their

1590

01:08:37,970 --> 01:08:36,239

own separate ways but I think they need

1591

01:08:38,870 --> 01:08:37,980

to merge back together especially in

1592

01:08:40,669 --> 01:08:38,880

this

1593

01:08:42,590 --> 01:08:40,679

phenomenon which is not really a

1594

01:08:44,809 --> 01:08:42,600

phenomenon it's in happening right it's

1595

01:08:47,749 --> 01:08:44,819

it's no longer strange we're realizing

1596

01:08:49,669 --> 01:08:47,759

that it's a daily occurrence so we have

1597

01:08:51,289 --> 01:08:49,679

to merge those two back together to

1598

01:08:52,130 --> 01:08:51,299

understand what's our place in all of

1599

01:08:54,169 --> 01:08:52,140

this

1600

01:08:56,030 --> 01:08:54,179

where are we at what does it mean on

1601

01:08:58,910 --> 01:08:56,040

many different levels and it takes

1602

01:09:00,590 --> 01:08:58,920

people like yourself that puts this on

1603

01:09:02,209 --> 01:09:00,600

the map puts it out there for people to

1604

01:09:03,650 --> 01:09:02,219

say hey just pay attention to this for

1605

01:09:07,189 --> 01:09:03,660

two seconds

1606

01:09:09,590 --> 01:09:07,199

and listen to what I have to say and you

1607

01:09:11,930 --> 01:09:09,600

bring pieces of the puzzle together for

1608

01:09:13,309 --> 01:09:11,940

people and that's great Darcy where can

1609

01:09:15,050 --> 01:09:13,319

people find you

1610

01:09:17,229 --> 01:09:15,060

oh thanks man

1611

01:09:19,729 --> 01:09:17,239

um they can find me on Instagram

1612

01:09:23,689 --> 01:09:19,739

darcyware films you can find me on

1613

01:09:25,610 --> 01:09:23,699

Twitter uh occult Journeys

1614

01:09:29,870 --> 01:09:25,620

um and

1619

01:09:38,630 --> 01:09:36,900

01:09:49,789 --> 01:09:45,960

it out anywhere in the world by just

1624

01:09:53,269 --> 01:09:49,799

clicking one link uh and a lot of my

1625

01:09:56,870 --> 01:09:53,279

previous films are available on 2B TV

1626  
01:10:00,830 --> 01:09:56,880  
Amazon Prime iTunes Apple TV that type

1627  
01:10:03,229 --> 01:10:00,840  
of thing 2btv is completely free and

1628  
01:10:05,330 --> 01:10:03,239

1629  
01:10:06,770 --> 01:10:05,340  
available in Canada so if you have a lot

1630  
01:10:08,990 --> 01:10:06,780  
of Canadian listeners and they want to

1631  
01:10:12,530 --> 01:10:09,000  
check out my back catalog there I think

1632  
01:10:15,410 --> 01:10:12,540  
there's about 12 films that are free on

1633  
01:10:18,229 --> 01:10:15,420  
2B TV so feel free to check that out I

1634  
01:10:22,669 --> 01:10:18,239  
really appreciate you supporting me as a

1635  
01:10:25,790 --> 01:10:22,679  
uh you know theorist and researcher and

1636  
01:10:28,790 --> 01:10:25,800  
uh just a filmmaker as well you know uh

1637  
01:10:31,130 --> 01:10:28,800  
by having me on and letting me speak my

1638  
01:10:32,870 --> 01:10:31,140

piece to this stuff yeah we really

1639

01:10:35,270 --> 01:10:32,880

appreciate it man you're a smart guy

1640

01:10:37,610 --> 01:10:35,280

well spoken you're open-minded you don't

1641

01:10:39,530 --> 01:10:37,620

have uh you're not hardened and chiseled

1642

01:10:41,270 --> 01:10:39,540

like a lot of people that you know have

1643

01:10:42,830 --> 01:10:41,280

formed their opinion 30 years ago and

1644

01:10:44,810 --> 01:10:42,840

have a hard time getting out of that so

1645

01:10:47,450 --> 01:10:44,820

you're doing good work and I mean let's

1646

01:10:49,310 --> 01:10:47,460

be let's be honest since 2017 a lot of

1647

01:10:51,290 --> 01:10:49,320

new people are starting to look up and

1648

01:10:52,910 --> 01:10:51,300

starting to read feed and they don't

1649

01:10:55,130 --> 01:10:52,920

know all the stories going back to

1650

01:10:56,810 --> 01:10:55,140

Roswell and Randall Shum and you know

1651

01:10:58,729 --> 01:10:56,820

all the deep dark stuff so you did a

1652

01:11:02,229 --> 01:10:58,739

very good job taking a complicated

1653

01:11:04,970 --> 01:11:02,239

subject breaking it down into digestible

1654

01:11:06,830 --> 01:11:04,980

format that people can watch and

1655

01:11:08,270 --> 01:11:06,840

learn something from and we'd love to

1656

01:11:10,610 --> 01:11:08,280

have you back again sometime in the

1657

01:11:13,070 --> 01:11:10,620

future for sure yeah so you're always

1658

01:11:14,810 --> 01:11:13,080

1659

01:11:16,729 --> 01:11:14,820
