1
00:00:12,080 --> 00:00:07,849
hey what's up fellow believers a minute

2
00:00:15,320 --> 00:00:12,090
I'm Joe and we are the UFO rose and we

3
00:00:18,439 --> 00:00:15,330
are chatting with you live tonight from

4
00:00:21,529 --> 00:00:18,449
the compound the facility of cell a and

5
00:00:24,019 --> 00:00:21,539
we are indeed being patrolled again

6
00:00:26,990 --> 00:00:24,029
you'll hear the trucks drive by

7
00:00:29,870 --> 00:00:27,000
periodically so we do apologize we only

8
00:00:32,179 --> 00:00:29,880
get about what about half an hour play a

9
00:00:34,610 --> 00:00:32,189
night so we get to be up for a half an

10
00:00:36,799 --> 00:00:34,620
hour so thank God Spreaker has a free

11
00:00:40,520 --> 00:00:36,809
trial but unfortunately the only little

12
00:00:43,880 --> 00:00:40,530
testify if we can't get everything in we

13
00:00:45,319 --> 00:00:43,890

might just have to do two episodes and

14

00:00:51,110 --> 00:00:45,329

that's okay because there's a lot to

15

00:00:52,340 --> 00:00:51,120

talk about tonight Joe um Bob Lazar you

16

00:00:54,529 --> 00:00:52,350

know what made me think of talking about

17

00:00:56,959 --> 00:00:54,539

Bob Lazar today what article tonight is

18

00:00:59,180 --> 00:00:56,969

in the last podcast you couldn't

19

00:01:02,000 --> 00:00:59,190

distinguish the difference between Bob

20

00:01:05,710 --> 00:01:02,010

Lazar and I Steve just even career yeah

21

00:01:08,480 --> 00:01:05,720

and so I thought hey you know what let's

22

00:01:11,450 --> 00:01:08,490

enlighten our listeners and followers as

23

00:01:12,500 --> 00:01:11,460

well as you my brother Joe maybe it's

24

00:01:19,990 --> 00:01:12,510

time for you to learn a little bit about

25

00:01:22,130 --> 00:01:20,000

Bob Lazar so Bob Lazar is Lazar yes

26

00:01:23,600 --> 00:01:22,140

we're gonna kind of try to keep this as

27

00:01:24,740 --> 00:01:23,610

short as possible about Bob Lazar

28

00:01:26,830 --> 00:01:24,750

because I also do want to talk about

29

00:01:28,219 --> 00:01:26,840

element 115 which is gonna have a bigger

30

00:01:30,469 --> 00:01:28,229

bombshell

31

00:01:34,429 --> 00:01:30,479

I think in the ufology kind of circles

32

00:01:38,090 --> 00:01:34,439

so Bob Lazar is essentially a nuclear

33

00:01:39,920 --> 00:01:38,100

physicist of sorts his background and

34

00:01:40,460 --> 00:01:39,930

credentials are questionable which is

35

00:01:42,289 --> 00:01:40,470

why

36

00:01:45,170 --> 00:01:42,299

Stanton Freeman I guess has some

37

00:01:49,010 --> 00:01:45,180

friction about Bob Lazar story but

38

00:01:53,330 --> 00:01:49,020

nonetheless he was recruited in a

39

00:01:56,300 --> 00:01:53,340

special program which funny enough dr.

40

00:01:59,359 --> 00:01:56,310

Steven Greer calls them you know usaps

41

00:02:00,950 --> 00:01:59,369

which are unacknowledged special access

42

00:02:05,510 --> 00:02:00,960

programs so it was basically a situation

43

00:02:08,150 --> 00:02:05,520

where he was brought in briefed on the

44

00:02:11,150 --> 00:02:08,160

fact that we are not alone

45

00:02:13,130 --> 00:02:11,160

short briefing funny enough Bob I guess

46

00:02:17,150 --> 00:02:13,140

wasn't really that affected by the

47

00:02:19,460 --> 00:02:17,160

briefing he was wondering kind of what

48

00:02:21,530 --> 00:02:19,470

this whole deal was about but they were

49

00:02:26,780 --> 00:02:21,540

really interested in his knowledge about

50

00:02:27,860 --> 00:02:26,790

engines and propulsion and physics so as

51
00:02:33,730 --> 00:02:27,870
he's kind of getting into this facility

52
00:02:36,080 --> 00:02:33,740
he's learning by observation that these

53
00:02:43,750 --> 00:02:36,090
that he's that he's in a situation that

54
00:02:46,520 --> 00:02:43,760
is very very deep and secretive he is oh

55
00:02:48,920 --> 00:02:46,530
by the way guys we're on snapchat he's

56
00:02:50,660 --> 00:02:48,930
started be up topic here that's Joe is

57
00:02:52,880 --> 00:02:50,670
snapping me right now so I've got a

58
00:02:55,460 --> 00:02:52,890
little bit lost but coming back to bob

59
00:02:57,530 --> 00:02:55,470
lazar who there he goes

60
00:03:03,730 --> 00:02:57,540
yep I got my finger up yep check us out

61
00:03:12,589 --> 00:03:03,740
on snapchat at UFO Bros TV so DJ Joe

62
00:03:23,190 --> 00:03:19,069
so Joe here he is in this briefing room

63
00:03:26,089 --> 00:03:23,200

documents we file folders I guess

64

00:03:30,179 --> 00:03:26,099

probably about a hundred or so that

65

00:03:33,300 --> 00:03:30,189

explain these beings where they come

66

00:03:36,240 --> 00:03:33,310

from which is the Zeta Reticuli star

67

00:03:42,929 --> 00:03:36,250

system this is according to bob lazar

68

00:03:46,800 --> 00:03:42,939

testimony and that this disc that he

69

00:03:49,289 --> 00:03:46,810

will later on see is gonna be from

70

00:03:55,379 --> 00:03:49,299

apparently technology from this star

71

00:03:57,990 --> 00:03:55,389

system so they show him what he later

72

00:03:59,909 --> 00:03:58,000

calls the sport model this beautiful UFO

73

00:04:04,289 --> 00:03:59,919

what we would call a UFO but it's a

74

00:04:06,420 --> 00:04:04,299

flying saucer and his job is to back

75

00:04:10,199 --> 00:04:06,430

engineer the flight and propulsion

76

00:04:12,240 --> 00:04:10,209

systems of this UFO or at this flying

77

00:04:13,770 --> 00:04:12,250

saucer so he's basically going in and

78

00:04:16,860 --> 00:04:13,780

taking it apart that second every piece

79

00:04:18,750 --> 00:04:16,870

his job was his job was to work on an

80

00:04:23,370 --> 00:04:18,760

exotic propulsion system into

81

00:04:25,500 --> 00:04:23,380

back-engineered essentially and so here

82

00:04:31,920 --> 00:04:25,510

he is seeing this flying saucer this

83

00:04:34,560 --> 00:04:31,930

giant disc and not knowing essentially

84

00:04:37,589 --> 00:04:34,570

where it was from until he went inside

85

00:04:40,020 --> 00:04:37,599

of it it wasn't until he stepped inside

86

00:04:42,450 --> 00:04:40,030

or I guess crawled inside more the less

87

00:04:44,490 --> 00:04:42,460

this is flying discs that he realized

88

00:04:49,589 --> 00:04:44,500

that it wasn't from his planet and the

89

00:04:53,250 --> 00:04:49,599

reason being is I guess inside the all

90

00:04:56,460 --> 00:04:53,260

of the interior including the seats the

91

00:04:59,850 --> 00:04:56,470

control panels the walls were all very

92

00:05:01,980 --> 00:04:59,860

seamless there were no seams he said it

93

00:05:04,379 --> 00:05:01,990

was almost like it was why was it a news

94

00:05:08,219 --> 00:05:04,389

P in a piece of metal base yeah just

95

00:05:11,460 --> 00:05:08,229

like one giant mold essentially there

96

00:05:13,469 --> 00:05:11,470

was no like beginning or end it was very

97

00:05:15,990 --> 00:05:13,479

much like it was injected objection

98

00:05:18,060 --> 00:05:16,000

molded or something like that and he

99

00:05:19,680 --> 00:05:18,070

said he got like a really honest feeling

100

00:05:23,140 --> 00:05:19,690

in there like he's not supposed to be in

101

00:05:26,290 --> 00:05:23,150

there just he could feel like

102

00:05:29,050 --> 00:05:26,300

this is not for human beings this is for

103

00:05:31,780 --> 00:05:29,060

smaller creatures these are small seats

104

00:05:34,570 --> 00:05:31,790

maybe these are for children or maybe

105

00:05:38,950 --> 00:05:34,580

these are for you know aliens about 9

106

00:05:41,920 --> 00:05:38,960

feet tall so for about I think it's 4 to

107

00:05:46,300 --> 00:05:41,930

6 months he continues to make I guess

108

00:05:48,790 --> 00:05:46,310

progress on back engineering this crafts

109

00:05:52,000 --> 00:05:48,800

propulsion and find out that these

110

00:05:54,100 --> 00:05:52,010

crafts fly well I guess fly is probably

111

00:05:57,750 --> 00:05:54,110

a bad word but not a bad word but an

112

00:06:02,970 --> 00:05:57,760

incorrect term they use gravity and

113

00:06:06,670 --> 00:06:02,980

manipulate gravity they are able to

114

00:06:10,420 --> 00:06:06,680

essentially manipulate gravity waves to

115

00:06:12,460 --> 00:06:10,430

make the disk fly but it doesn't really

116

00:06:16,390 --> 00:06:12,470

fly it's hard to explain you guys if you

117

00:06:18,700 --> 00:06:16,400

get a minute on YouTube because I myself

118

00:06:20,380 --> 00:06:18,710

I am NOT a nuclear physicist nor am i a

119

00:06:25,750 --> 00:06:20,390

science teacher or anything like that so

120

00:06:29,820 --> 00:06:25,760

purple ray so get a chance go on YouTube

121

00:06:32,800 --> 00:06:29,830

check out what Bob Lazar it is very

122

00:06:34,660 --> 00:06:32,810

interesting yet scientific explanation

123

00:06:37,810 --> 00:06:34,670

of how the disks fly it's really super

124

00:06:41,020 --> 00:06:37,820

cool interesting stuff but the heart at

125

00:06:44,650 --> 00:06:41,030

the heart of it is element 115 so

126

00:06:48,910 --> 00:06:44,660

there's this reactor and inside it is a

127

00:06:52,120 --> 00:06:48,920

wedge of an element called 115 the funny

128

00:06:54,550 --> 00:06:52,130

thing is back in the 80s when Bob Lazar

129

00:06:58,690 --> 00:06:54,560

made his first testimony about working

130

00:07:03,240 --> 00:06:58,700

at area 51 about working at s4 by the

131

00:07:05,680 --> 00:07:03,250

way which is 15 miles south of area 51

132

00:07:10,290 --> 00:07:05,690

in Groom Lake there yeah that's where he

133

00:07:13,840 --> 00:07:10,300

actually technically work was s4 so

134

00:07:14,890 --> 00:07:13,850

where was I going with it I told you he

135

00:07:23,140 --> 00:07:14,900

showed me something totally

136

00:07:25,570 --> 00:07:23,150

inappropriate Joe what's your thoughts

137

00:07:27,130 --> 00:07:25,580

on this guy's testimony because I was

138

00:07:33,580 --> 00:07:27,140

telling you about it earlier do you have

139

00:07:35,440 --> 00:07:33,590

any feedback or no I have got cuz I know

140

00:07:37,090 --> 00:07:35,450

you said it sounds kind of like crazy

141

00:07:40,330 --> 00:07:37,100

but to be honest with you

142

00:07:43,360 --> 00:07:40,340

a story hasn't changed in like since the

143

00:07:45,330 --> 00:07:43,370

80s his story is very hot his story get

144

00:07:49,000 --> 00:07:45,340

out how was he no safe enough to say hey

145

00:07:52,000 --> 00:07:49,010

I'm gonna spill my beans and roll that

146

00:07:55,600 --> 00:07:52,010

beautiful bean footage well listening to

147

00:08:00,460 --> 00:07:55,610

some of his YouTube videos I've learned

148

00:08:04,030 --> 00:08:00,470

that he put the information out so that

149

00:08:05,620 --> 00:08:04,040

a in some ways he feel like the American

150

00:08:09,880 --> 00:08:05,630

public was being defrauded and lied to

151

00:08:11,560 --> 00:08:09,890

and that was totally true but also he

152

00:08:14,410 --> 00:08:11,570

knew that by putting that information

153

00:08:17,830 --> 00:08:14,420

out there it would also potentially save

154

00:08:19,060 --> 00:08:17,840

his life because if you know he puts the

155

00:08:21,340 --> 00:08:19,070

information out there and then

156

00:08:24,070 --> 00:08:21,350

disappears it essentially corroborates

157

00:08:25,930 --> 00:08:24,080

you know what he's saying so in a in

158

00:08:27,690 --> 00:08:25,940

some ways it's a way to save himself if

159

00:08:30,970 --> 00:08:27,700

you get what I'm saying

160

00:08:32,980 --> 00:08:30,980

so that is initially why he put this

161

00:08:35,320 --> 00:08:32,990

story out there but it's been the same

162

00:08:37,150 --> 00:08:35,330

story even up until recently he did an

163

00:08:41,080 --> 00:08:37,160

interview and nothing has changed it's

164

00:08:44,860 --> 00:08:41,090

he was hired his supervisor name was

165

00:08:47,550 --> 00:08:44,870

Dennis they worked on the the the

166

00:08:51,660 --> 00:08:47,560

reactor that was powered by element 115

167

00:08:55,000 --> 00:08:51,670

which at the time was not on the

168

00:08:57,610 --> 00:08:55,010

periodic table it wasn't on the periodic

169

00:09:00,220 --> 00:08:57,620

periodic table and Bob Lazar talked

170

00:09:02,950 --> 00:09:00,230

about how element 115 was crucial to the

171

00:09:05,440 --> 00:09:02,960

flight and the propulsion and the

172

00:09:07,570 --> 00:09:05,450

gravity amplification of the ship and it

173

00:09:11,700 --> 00:09:07,580

was a crucial they may actually mean an

174

00:09:14,350 --> 00:09:11,710

element well I guess this element is

175

00:09:16,300 --> 00:09:14,360

wherever they're from in the Zeta

176

00:09:20,680 --> 00:09:16,310

Reticuli star system it may be it's a

177

00:09:24,880 --> 00:09:20,690

natural element but for us we were able

178

00:09:30,250 --> 00:09:24,890

to recently I think it was in 2003 in

179

00:09:32,710 --> 00:09:30,260

Russia in a in a in a science lab they

180

00:09:35,200 --> 00:09:32,720

were able to create element 115 but it

181

00:09:39,520 --> 00:09:35,210

was only for like a smidge

182

00:09:42,580 --> 00:09:39,530

there's only for a split second what we

183

00:09:45,960 --> 00:09:42,590

were I guess that it still corroborates

184

00:09:48,579 --> 00:09:45,970

the fact that there is an element 115

185

00:09:49,749 --> 00:09:48,589

Bob Lazar his explanation as to why it

186

00:09:52,239 --> 00:09:49,759

just

187

00:09:55,179 --> 00:09:52,249

poofed rather than you know becoming

188

00:09:58,509 --> 00:09:55,189

some kind of millibar piece of metal or

189

00:10:02,710 --> 00:09:58,519

whatnot is there are different isotopes

190

00:10:05,439 --> 00:10:02,720

of elements and somewhere within these

191

00:10:08,439 --> 00:10:05,449

different isotopes of element 115 there

192

00:10:11,650 --> 00:10:08,449

is a stable place where the element is

193

00:10:13,530 --> 00:10:11,660

proposed to be solid so he believes that

194

00:10:16,150 --> 00:10:13,540

sometime in our pretty near future

195

00:10:20,739 --> 00:10:16,160

scientists will stumble upon that that

196

00:10:23,499 --> 00:10:20,749

that isotope of element 115 proving the

197

00:10:25,809 --> 00:10:23,509

fact that it is indeed real and that his

198

00:10:28,030 --> 00:10:25,819

story is real because I'll tell you any

199

00:10:31,239 --> 00:10:28,040

new science information that has come

200

00:10:35,079 --> 00:10:31,249

out has only validated his story he

201
00:10:36,639 --> 00:10:35,089
talks about gravity waves in the 80s

202
00:10:40,569 --> 00:10:36,649
they didn't even know if there was a

203
00:10:44,789 --> 00:10:40,579
gravity wave wave they also proposed

204
00:10:47,229 --> 00:10:44,799
that gravity was a Gravitron

205
00:10:49,359 --> 00:10:47,239
which I guess is nonsense because

206
00:10:53,799 --> 00:10:49,369
recently oh just a couple I think was

207
00:10:56,470 --> 00:10:53,809
last year Joe that they validated that

208
00:10:58,989 --> 00:10:56,480
gravity is indeed a wave they were able

209
00:11:01,059 --> 00:10:58,999
to measure it so that further again I

210
00:11:04,379 --> 00:11:01,069
just think for me corroborates bob lazar

211
00:11:06,340 --> 00:11:04,389
story the fact that in the 80s we were

212
00:11:07,439 --> 00:11:06,350
manipulating gravity waves by

213
00:11:11,979 --> 00:11:07,449

back-engineering

214

00:11:14,349 --> 00:11:11,989

alien technology hello dr. Greer talks

215

00:11:16,689 --> 00:11:14,359

about in the 50s we were able to have

216

00:11:20,949 --> 00:11:16,699

full total control over gravity that was

217

00:11:25,359 --> 00:11:20,959

in the 50s yeah and here we are in the

218

00:11:28,029 --> 00:11:25,369

80s back engineering gravity control

219

00:11:32,799 --> 00:11:28,039

devices it just goes to show how

220

00:11:36,869 --> 00:11:32,809

compartmentalized the black operations

221

00:11:40,509 --> 00:11:36,879

are the way they work they bring you in

222

00:11:42,759 --> 00:11:40,519

you work in such a micro limited scope

223

00:11:44,679 --> 00:11:42,769

you don't get a chance to really work

224

00:11:46,629 --> 00:11:44,689

with other people you don't share your

225

00:11:48,729 --> 00:11:46,639

knowledge it's just a few people

226

00:11:52,749 --> 00:11:48,739

literally working on a very specific

227

00:11:55,869 --> 00:11:52,759

sort of thing and nobody gets to share

228

00:11:58,179 --> 00:11:55,879

anything so this amazing exotic

229

00:12:01,190 --> 00:11:58,189

otherworldly technology isn't getting

230

00:12:04,860 --> 00:12:01,200

the type of scientific analysis it needs

231

00:12:07,950 --> 00:12:04,870

does that make sense yeah what do you

232

00:12:09,870 --> 00:12:07,960

guys think we're on patreon if you want

233

00:12:11,550 --> 00:12:09,880

to support us but we're also chatting on

234

00:12:13,770 --> 00:12:11,560

Spreaker right now so you can log into

235

00:12:16,620 --> 00:12:13,780

the app come chat with us we are on here

236

00:12:20,940 --> 00:12:16,630

say hello we're talking about bob lazar

237

00:12:23,100 --> 00:12:20,950

element 151 115 excuse me and other

238

00:12:25,590 --> 00:12:23,110

things related to that so like gravity

239

00:12:27,150 --> 00:12:25,600

waves for example blows my mind the fact

240

00:12:29,790 --> 00:12:27,160

that we were able to identify

241

00:12:31,410 --> 00:12:29,800

gravity waves back in the 80s back in

242

00:12:33,450 --> 00:12:31,420

the 90s we didn't know what it was now

243

00:12:35,240 --> 00:12:33,460

we know gravity is indeed away but the

244

00:12:38,580 --> 00:12:35,250

one thing too is that we'll be able

245

00:12:42,060 --> 00:12:38,590

technology you know here in the future

246

00:12:42,420 --> 00:12:42,070

we'll be able to easily dissect it you

247

00:12:44,900 --> 00:12:42,430

know

248

00:12:46,770 --> 00:12:44,910

the future because of all the technology

249

00:12:48,900 --> 00:12:46,780

advances and everything you know maybe

250

00:12:51,990 --> 00:12:48,910

make another 10 years might be easier to

251
00:12:56,150 --> 00:12:52,000
dissect that down into something that we

252
00:12:57,780 --> 00:12:56,160
can maybe well I'm waiting for them to

253
00:13:00,000 --> 00:12:57,790
look here's the thing

254
00:13:03,840 --> 00:13:00,010
that's where technology is already been

255
00:13:08,070 --> 00:13:03,850
dispersed among like the military

256
00:13:10,470 --> 00:13:08,080
industrial type complex now it needs to

257
00:13:13,050 --> 00:13:10,480
be distributed to the masses to the

258
00:13:14,190 --> 00:13:13,060
people that sort of technology and I

259
00:13:15,660 --> 00:13:14,200
think I was the thing that bugged Bob

260
00:13:18,300 --> 00:13:15,670
Lazar the most I think that was a thing

261
00:13:21,150 --> 00:13:18,310
that pushing to come out with george

262
00:13:26,280 --> 00:13:21,160
knapp back in the 80s say what he had to

263
00:13:28,230 --> 00:13:26,290

say on you know local news at first he

264

00:13:30,080 --> 00:13:28,240

did it like incognito but then he came

265

00:13:32,940 --> 00:13:30,090

out again and validated his story so

266

00:13:35,760 --> 00:13:32,950

thanks guys so much for listening to us

267

00:13:37,020 --> 00:13:35,770

tonight we're at like less than a minute

268

00:13:39,780 --> 00:13:37,030

and a half so we want to make sure that

269

00:13:43,440 --> 00:13:39,790

we wrap this up letting you know that we

270

00:13:45,270 --> 00:13:43,450

are only limited to 15 minutes so thanks

271

00:13:48,710 --> 00:13:45,280

for listening you can find us on

272

00:13:53,810 --> 00:13:48,720

instagram at UFO Bros TV twitter is at

273

00:13:56,310 --> 00:13:53,820

uf0 bros TV because twitter is in a hole

274

00:13:58,800 --> 00:13:56,320

facebook.com forward slash UFO Bros TV

275

00:14:01,710 --> 00:13:58,810

and now on snapchat at UFO Bros TV so

276

00:14:03,000 --> 00:14:01,720

thank you guys so much for hanging out

277

00:14:05,370 --> 00:14:03,010

with us tonight we hope you have a great

278

00:14:09,000 --> 00:14:05,380

evening and we will chat you up at the
