FEATURED REVIEW

★ 3/10

I feel like I lost IQ points watching this.

Where do I start? The shown has Hollywood filming and vibes throughout. It seems highly scripted and seriously lacks credibility in an already questionable genre. These so called trackers and experts can't seem to make a single logical conclusion and immediately jump to the "aliens" narrative. This program is bad, even by reality tv standards. It's really sad to see that range riders can't distinguish the sound of a pig from something "alien." How can you be an expert in something you've never seen nor have a shred of proof that it's real. It's just a bunch of guys in cowboy hats getting scared by their own shadow. This might be the worst "alien" show yet.
