

1

00:00:00,000 --> 00:00:17,520

A shocking surgery to remove an alien implant caught on tape.

2

00:00:17,520 --> 00:00:20,200

A flying saucer fragment found.

3

00:00:20,200 --> 00:00:26,560

UFO landing sites located all the work of a special breed of investigator.

4

00:00:26,560 --> 00:00:31,040

I have seen an overwhelming amount of physical evidence.

5

00:00:31,040 --> 00:00:34,560

I'm absolutely convinced that UFOs are real.

6

00:00:34,560 --> 00:00:38,160

These real-life exfilers believe the truth is out there.

7

00:00:38,160 --> 00:00:44,200

And their goal is to discover if science fiction may actually be science fact.

8

00:00:44,200 --> 00:00:46,080

They are UFO hunters.

9

00:00:46,080 --> 00:01:02,000

The job of a UFO hunter is the quest for ultimate truth.

10

00:01:02,000 --> 00:01:05,680

They seek proof that we are not alone in the universe.

11

00:01:05,680 --> 00:01:11,360

They present evidence that we are being visited by beings from other worlds.

12

00:01:11,360 --> 00:01:14,280

But does proof of such visits exist?

13

00:01:14,280 --> 00:01:21,000

If so, would that change people's opinions of UFOs and UFO hunters?

14

00:01:21,000 --> 00:01:30,200

In 1985, one man, Bob White, claimed that he'd found a fragment of a UFO.

15

00:01:30,200 --> 00:01:36,600

I was traveling from Denver to Las Vegas with a young lady named Jan.

16

00:01:36,600 --> 00:01:41,080

And in the high desert, if it's a bright, clear night, the stars are shining, which it was,

17

00:01:41,080 --> 00:01:43,000

you could see forever.

18

00:01:43,000 --> 00:01:50,600

I was asleep when she woke me up and asked me what this strange light was.

19

00:01:50,600 --> 00:01:52,000

I didn't know.

20

00:01:52,000 --> 00:01:54,200

So I stayed awake and we watched it.

21

00:01:54,200 --> 00:02:00,240

As we got closer to the light, it got bigger.

22

00:02:00,240 --> 00:02:05,080

We stopped the car to look at it.

23

00:02:05,080 --> 00:02:11,040

The light was so bright, I had to shield my eyes like this to look at it.

24

00:02:11,040 --> 00:02:13,840

She turned the headlights on for some reason, and when she did this thing, it just shot

25

00:02:13,840 --> 00:02:17,280

up in the air that fast.

26

00:02:17,280 --> 00:02:22,000

And when it got up in the sky, it connected to another light, and then this object was

27

00:02:22,000 --> 00:02:32,520

ejected from it.

28

00:02:32,520 --> 00:02:36,320

When I first saw it, it was glowing red and it just looked like a glob of something.

29

00:02:36,320 --> 00:02:38,840

And it was too hot to touch.

30

00:02:38,840 --> 00:02:44,160

My first thought was, what in the world could it possibly be?

31

00:02:44,160 --> 00:02:48,680

What could this be?

32

00:02:48,680 --> 00:02:53,720

Once the object cooled, white placed it in the trunk.

33

00:02:53,720 --> 00:02:56,680

What you are seeing is the actual object white recovered.

34

00:02:56,680 --> 00:03:00,200

This is what it looked like after it cooled down.

35

00:03:00,200 --> 00:03:07,720

The only difference is the end piece on here was rounded, and that was cut off for an analysis

36

00:03:07,720 --> 00:03:11,360

by Los Alamos.

37

00:03:11,360 --> 00:03:16,320

The jagged fragment measuring 9 inches in length and weighing over a pound and a half was subjected

38

00:03:16,320 --> 00:03:22,520

to isotopic ratio and other elemental composition tests at the US government's Los Alamos National

39

00:03:22,520 --> 00:03:25,560

Laboratory.

40

00:03:25,560 --> 00:03:30,400

After several weeks of testing, white finally talked to a technician.

41

00:03:30,400 --> 00:03:31,840

He was very excited about it.

42

00:03:31,840 --> 00:03:34,680

He said, this is definitely extraterrestrial.

43

00:03:34,680 --> 00:03:38,280

It's something I've been looking for all my life.

44

00:03:38,280 --> 00:03:39,960

And I said, that's wonderful.

45

00:03:39,960 --> 00:03:46,760

So I told newspaper columnist Michael Bryan that he called and talked to the same scientist.

46

00:03:46,760 --> 00:03:50,040

And the same scientist told him that he didn't say that.

47

00:03:50,040 --> 00:03:54,560

And he said, my bosses have instructed me not to talk to anyone about this.

48

00:03:54,560 --> 00:03:57,440

And that was the end of the conversation.

49

00:03:57,440 --> 00:04:02,480

Los Alamos would not return phone calls or respond to inquiries for this program regarding

50

00:04:02,480 --> 00:04:04,480

the unusual sample.

51

00:04:04,480 --> 00:04:09,680

They sent the object to eight different labs, including MIT, New Mexico Tech, and Scripps

52

00:04:09,680 --> 00:04:10,680

Laboratories.

53

00:04:10,680 --> 00:04:15,440

While they all concluded that the complex structure was mostly aluminum, white feels

54

00:04:15,440 --> 00:04:20,920

that its origin may have been revealed in the results of one of the tests.

55

00:04:20,920 --> 00:04:26,840

One that I've considered to be the most important was done by a scientist that was on a team

56

00:04:26,840 --> 00:04:33,200

of scientists that found a meteorite in Antarctica, and they found a meteorite in India.

57

00:04:33,200 --> 00:04:39,520

And they measured the isotopes in strontium and determined that they were from Mars.

58

00:04:39,520 --> 00:04:45,160

Well, the same people that did the analysis on those things did the analysis of the object

59

00:04:45,160 --> 00:04:46,520

that I have.

60

00:04:46,520 --> 00:04:53,840

And the measurement falls right in between the two from Mars.

61

00:04:53,840 --> 00:05:00,400

Another anomalous fragment, nearly identical to whites, was found some 40 years earlier.

62

00:05:00,400 --> 00:05:06,560

The story was confirmed by declassified U.S. government documents.

63

00:05:06,560 --> 00:05:13,840

They have an object almost identical to this one that was recovered by the CIC, the Counterintelligent

64

00:05:13,840 --> 00:05:18,120

Corps, in the 1940s in Denmark.

65

00:05:18,120 --> 00:05:26,160

And their words, not mine, their words, is as a piece of a flying saucer.

66

00:05:26,160 --> 00:05:31,240

In 2004, white passed three separate polygraph tests administered by both law enforcement

67

00:05:31,240 --> 00:05:36,320

officers and a certified polygraph examiner to further authenticate his claim.

68

00:05:36,320 --> 00:05:40,440

But still, he found no help getting his story out.

69

00:05:40,440 --> 00:05:43,720

The journey drained his savings and his spirit.

70

00:05:43,720 --> 00:05:45,560

I didn't ask for this to happen to me.

71

00:05:45,560 --> 00:05:46,560

I didn't need this.

72

00:05:46,560 --> 00:05:48,060

I didn't want it.

73

00:05:48,060 --> 00:05:50,360

They want people to call me a UFO nut.

74

00:05:50,360 --> 00:05:53,560

And I didn't even believe in anything like this.

75

00:05:53,560 --> 00:05:59,120

But once you see it, once it happens to you, you have to be a believer.

76

00:05:59,120 --> 00:06:03,120

Bob White's quest for the truth defines the modern-day UFO hunter.

77

00:06:03,120 --> 00:06:06,080

But what exactly does that mean?

78

00:06:06,080 --> 00:06:10,480

The term UFO hunter is a rather peculiar one because it covers an awful lot of ground.

79

00:06:10,480 --> 00:06:14,520

You can hunt sightings, you can hunt people, you can hunt documents.

80

00:06:14,520 --> 00:06:19,520

For me, it's a combination of those plus hunting an audience to talk to.

81

00:06:19,520 --> 00:06:26,600

In the past, I've tried to focus on the government cover-up and we'll talk about the FBI, the

82

00:06:26,600 --> 00:06:29,000

CIA, the Air Force, the NNA.

83

00:06:29,000 --> 00:06:33,960

I'm convinced that this whole question of alien visitations is the biggest story of

84

00:06:33,960 --> 00:06:36,760

the millennium.

85

00:06:36,760 --> 00:06:38,640

And Stanton Friedman would know.

86

00:06:38,640 --> 00:06:43,360

A nuclear physicist from the University of Chicago, he has spent more than 40 years in

87

00:06:43,360 --> 00:06:45,160

the UFO field.

88

00:06:45,160 --> 00:06:49,120

Friedman is considered one of the most knowledgeable UFO hunters.

89

00:06:49,120 --> 00:06:53,760

A relentless pursuit of the truth and a passion for answers is the link between the UFO hunters

90

00:06:53,760 --> 00:06:57,200

of today and those of yesterday.

91

00:06:57,200 --> 00:07:02,760

Our UFOs Reel was a question frequently asked by the man regarded as the original UFO hunter,

92

00:07:02,760 --> 00:07:05,080

Dr. J. Allen Heineck.

93

00:07:05,080 --> 00:07:10,640

J. Allen Heineck is indeed the godfather of UFO research.

94

00:07:10,640 --> 00:07:17,600

This man had more experience, more knowledge and more contacts in the field of UFO research

95

00:07:17,600 --> 00:07:23,000

than anyone and I suspect more than anyone ever will have.

96

00:07:23,000 --> 00:07:30,520

J. Allen Heineck was an astronomer with Northwestern University and early on when Project Bluebook

97

00:07:30,520 --> 00:07:37,120

had been set up by the U.S. government, they had hired J. Allen Heineck as their scientific

98

00:07:37,120 --> 00:07:39,920

consultant.

99

00:07:39,920 --> 00:07:45,080

Project Bluebook was developed in 1947 by the U.S. Air Force to scientifically investigate

100

00:07:45,080 --> 00:07:46,800

the UFO riddle.

101

00:07:46,800 --> 00:07:50,360

Heineck was its chief civilian consultant and he went in as a skeptic.

102

00:07:50,360 --> 00:07:57,360

To this time there is no proof that I would consider valid scientific proof that we have

103

00:07:57,360 --> 00:08:00,000

been visited by patients.

104

00:08:00,000 --> 00:08:04,760

Heineck eventually realized that he was not given full access to the data.

105

00:08:04,760 --> 00:08:10,000

One example of this is the investigation of the 1968 UFO sighting over Minot Air Force

106

00:08:10,000 --> 00:08:12,240

Base in North Dakota.

107

00:08:12,240 --> 00:08:17,080

He was asked by the Air Force to go there and investigate the case and when he arrived

108

00:08:17,080 --> 00:08:22,120

in North Dakota he was prevented from talking with the witnesses.

109

00:08:22,120 --> 00:08:27,520

So it was the fact that some of the cases, the very good cases, were indeed going somewhere

110

00:08:27,520 --> 00:08:30,040

else.

111

00:08:30,040 --> 00:08:37,040

After 21 years of working with the government, Heineck's opinion on the reality of UFOs changed.

112

00:08:37,040 --> 00:08:41,520

With Project Bluebook ending, Heineck concluded that there was need for further study of the

113

00:08:41,520 --> 00:08:43,520

UFO phenomena.

114

00:08:43,520 --> 00:08:46,000

UFO hunter John Schusler agreed.

115

00:08:46,000 --> 00:08:53,760

He co-founded the Mutual UFO Network or MUFON which continues today to investigate UFO sightings.

116

00:08:53,760 --> 00:08:58,420

The mystery UFO network began because there was no place for people to report UFOs.

117

00:08:58,420 --> 00:09:01,420

We became a reporting spot.

118

00:09:01,420 --> 00:09:04,660

Schusler and Heineck garnered respect in the UFO community.

119

00:09:04,660 --> 00:09:09,900

However, another UFO hunter emerged from the University of Arizona's Institute of Atmospheric

120

00:09:09,900 --> 00:09:14,820

Physics who used his credentials as a scientist to revolutionize the way his colleagues viewed

121

00:09:14,820 --> 00:09:16,780

UFOs.

122

00:09:16,780 --> 00:09:23,140

Before James McDonnell entered our field publicly, the scientific community was completely ignoring

123

00:09:23,140 --> 00:09:26,220

the UFO phenomenon.

124

00:09:26,220 --> 00:09:35,180

McDonnell was the first prestigious scientist to openly declare his interest in this phenomenon.

125

00:09:35,180 --> 00:09:42,620

He startled his colleagues because scientists at that time did not go public with any interest

126

00:09:42,620 --> 00:09:44,100

in UFOs.

127

00:09:44,100 --> 00:09:49,740

It was a no-brainer, shall we say.

128

00:09:49,740 --> 00:09:53,820

And Ruffle has been investigating UFOs for more than 57 years.

129

00:09:53,820 --> 00:09:58,260

She has uncovered Dr. James McDonnell's personal journals and has written the only biography

130

00:09:58,260 --> 00:10:02,340

of McDonnell titled Firestore.

131

00:10:02,340 --> 00:10:09,260

He gave hundreds of talks to scientific groups on UFOs and he would express in his journal

132

00:10:09,260 --> 00:10:15,620

that he had concentrated on the fact that the UFO phenomenon was a serious scientific

133

00:10:15,620 --> 00:10:17,860

problem.

134

00:10:17,860 --> 00:10:22,660

He was the top hunter, shall we say.

135

00:10:22,820 --> 00:10:28,180

Jim McDonnell, because he was so convinced that this was a major subject, managed to

136

00:10:28,180 --> 00:10:33,220

get a congressman to sponsor hearings back in 1968.

137

00:10:33,220 --> 00:10:38,220

Six scientists testified in person, including McDonald's and Heineck, and six more of us

138

00:10:38,220 --> 00:10:43,580

submitted written submissions only.

139

00:10:43,580 --> 00:10:48,300

Following the examples set by McDonnell was UFO hunter Dr. Frank Drake, a professor of

140

00:10:48,300 --> 00:10:50,340

astronomy at Cornell.

141

00:10:50,340 --> 00:10:54,300

He helped create one of the most recognized names in the study of life in the universe,

142

00:10:54,300 --> 00:10:59,220

the Search for Extra-Terrestrial Intelligence, or CETI program.

143

00:10:59,220 --> 00:11:06,460

The CETI program looks at the issue of other planets around other stars and if so, then

144

00:11:06,460 --> 00:11:10,300

what is the easiest way for them to communicate with us?

145

00:11:10,300 --> 00:11:15,620

With radio telescopes worldwide, CETI searches the skies for radio waves from other intelligent

146

00:11:15,620 --> 00:11:17,660

life in the universe.

147

00:11:18,540 --> 00:11:23,380

Dr. Rudy Schild, research scientist at the Harvard Smithsonian Center for Astrophysics,

148

00:11:23,380 --> 00:11:27,140

believes that CETI has its flaws.

149

00:11:27,140 --> 00:11:34,220

In my view, CETI is an approach taken by people who are very smart and who think that they

150

00:11:34,220 --> 00:11:39,740

understand alien technology well enough to be able to exploit it and to give us direct

151

00:11:39,740 --> 00:11:42,380

evidence of alien civilizations.

152

00:11:42,380 --> 00:11:47,020

Whereas UFO hunters are people who are also smart, but doing the obvious thing that we

153

00:11:47,020 --> 00:11:49,620

always do when we see something we can't understand.

154

00:11:49,620 --> 00:11:55,300

We get out our cameras, our Geiger counters and whatever we've got and just make observations

155

00:11:55,300 --> 00:12:02,500

and I congratulate the UFO hunters because I think they're going to get there first.

156

00:12:02,500 --> 00:12:08,260

Have UFO hunters finally found a smoking gun, proof of alien life here on Earth or even

157

00:12:08,260 --> 00:12:10,380

under the sea?

158

00:12:10,380 --> 00:12:14,540

And later, are humans being abducted and tracked by aliens?

159

00:12:14,540 --> 00:12:20,700

The footage of a surgery to remove alien implants may just change your mind about UFOs.

160

00:12:20,700 --> 00:12:24,700

These objects contain metals which are not from this Earth.

161

00:12:35,700 --> 00:12:41,140

April 24th, 1964, Socorro, New Mexico.

162

00:12:41,220 --> 00:12:46,420

Police officer Lonnie Zamora witnesses an oval object on four legs with two humanoids,

163

00:12:46,420 --> 00:12:50,780

less than 100 feet away in broad daylight.

164

00:12:50,780 --> 00:12:56,980

The object quickly ascends, leaving burnt bushes and four imprints on the ground.

165

00:12:56,980 --> 00:13:02,380

Two days later, a nearly identical object is witnessed 150 miles away in La Madera, New

166

00:13:02,380 --> 00:13:03,900

Mexico.

167

00:13:03,900 --> 00:13:09,100

Both cases are investigated by the original UFO hunter, Jay Allen Heineck and his student,

168

00:13:09,100 --> 00:13:11,100

Ted Phillips.

169

00:13:11,100 --> 00:13:19,860

I did start out as a skeptic and I was kind of a convert after Socorro, New Mexico.

170

00:13:19,860 --> 00:13:28,060

There were four imprints in the ground where the landing legs had gone in and some small

171

00:13:28,060 --> 00:13:31,220

what appeared to be footprints.

172

00:13:31,220 --> 00:13:38,540

And this is truly one of the good cases, the very good cases.

173

00:13:38,540 --> 00:13:42,380

We have looked at the work of Ted Phillips for years.

174

00:13:42,380 --> 00:13:44,620

We have respected what he's done.

175

00:13:44,620 --> 00:13:49,340

He's a person that before it was popular went out and started collecting evidence of landings

176

00:13:49,340 --> 00:13:53,020

of UFOs, what do you call landing trace effects.

177

00:13:53,020 --> 00:13:57,020

This is physical evidence that something's going on.

178

00:13:58,020 --> 00:14:09,020

As a UFO hunter, my job really is simply to gather the hard evidence to support UFO sightings.

179

00:14:09,020 --> 00:14:16,020

Over the past 36 years, I've been involved with or personally investigated somewhere

180

00:14:16,020 --> 00:14:19,900

around 600 cases.

181

00:14:19,900 --> 00:14:23,820

Because of the amount of trace evidence, the Socorro, New Mexico case was a turning point

182

00:14:23,820 --> 00:14:28,020

for many UFO hunters, including Jay Allen Heineck.

183

00:14:28,020 --> 00:14:30,620

Allen talked about this case.

184

00:14:30,620 --> 00:14:37,140

He told me later that he began to see that something in fact was taking place because

185

00:14:37,140 --> 00:14:43,620

this was a daylight sighting by a police officer with other witnesses and the finding of physical

186

00:14:43,620 --> 00:14:47,580

traces at the landing site.

187

00:14:47,580 --> 00:14:56,260

So this is why then four years later he suggested to me to specialize in landing cases, especially

188

00:14:56,260 --> 00:14:59,540

with physical evidence.

189

00:14:59,540 --> 00:15:05,020

For the simple reason that you can look at a million lights in the sky and it produces

190

00:15:05,020 --> 00:15:09,820

really nothing except a million reports of visual observation.

191

00:15:09,820 --> 00:15:13,660

Dr. Heineck always suggested that people specialize.

192

00:15:13,660 --> 00:15:18,980

He did listen and he did specialize and that's why he became so well known for trace-effect

193

00:15:18,980 --> 00:15:21,940

investigations.

194

00:15:21,940 --> 00:15:29,020

To this day, the Socorro landing is still listed in government files as unexplained.

195

00:15:29,020 --> 00:15:33,820

Phillips archives are filled with cases that he calls significant.

196

00:15:33,820 --> 00:15:40,300

Significant case would be one in which we have multiple witnesses, good-seeing conditions,

197

00:15:40,300 --> 00:15:48,900

close range, plenty of time for the individuals to figure out what they're looking at and

198

00:15:48,900 --> 00:15:51,900

resulting physical residue of some kind.

199

00:15:51,900 --> 00:15:59,140

In other words, the object is at that site and it generates physical traces on the plants,

200

00:15:59,140 --> 00:16:01,980

on the soil, tree damage.

201

00:16:01,980 --> 00:16:06,620

It can go several ways.

202

00:16:06,620 --> 00:16:10,260

Some of the cases he's investigated couldn't have been done in normal ways.

203

00:16:10,260 --> 00:16:12,100

You couldn't have faked it, for instance.

204

00:16:12,100 --> 00:16:14,100

It had to be something unusual, unconventional.

205

00:16:14,100 --> 00:16:16,380

It flew in, landed.

206

00:16:16,380 --> 00:16:21,860

It actually changed the environment and then it left.

207

00:16:21,860 --> 00:16:27,220

I believe that we're dealing with constructed devices under some kind of intelligent control

208

00:16:27,220 --> 00:16:33,140

and that's based on the data, the facts, period.

209

00:16:33,140 --> 00:16:40,380

While Phillips may lead the way in land investigations, other UFO hunters are looking to the sea.

210

00:16:40,380 --> 00:16:45,020

Considering the fact that water covers about 70% of our planet, a significant part of the

211

00:16:45,020 --> 00:16:48,300

UFO research occurs at sea.

212

00:16:48,300 --> 00:16:54,020

UFO hunter Paul Stonehill has spent more than a decade examining declassified Soviet documents

213

00:16:54,020 --> 00:16:58,300

that detail such sightings.

214

00:16:58,300 --> 00:17:06,020

When the Soviet Union started this integrating, I decided to form a so-called Russian UFO

215

00:17:06,020 --> 00:17:15,060

research center to be a bridge between Soviet ufologists and their American counterparts.

216

00:17:15,060 --> 00:17:22,340

The Soviets knew that there were objects and phenomena that they could not explain, grasp,

217

00:17:22,340 --> 00:17:23,340

or capture.

218

00:17:23,340 --> 00:17:28,260

So they wanted to study it.

219

00:17:28,260 --> 00:17:35,100

Some of the most interesting cases took place in the 1960s and the 1970s when Soviet submarine

220

00:17:35,100 --> 00:17:42,340

commanders would encounter gigantic objects chasing them in deep waters.

221

00:17:42,340 --> 00:17:49,340

Huge objects would ascend from the ocean.

222

00:17:49,340 --> 00:17:58,100

Cigar shaped objects would hover over Soviet ships, observe, move about at great speeds.

223

00:17:58,100 --> 00:18:02,980

Stonehill specializes in what researchers call USO encounters.

224

00:18:02,980 --> 00:18:08,820

A USO is unidentified submersible object.

225

00:18:08,820 --> 00:18:13,660

A UFO is unidentified flying object.

226

00:18:13,660 --> 00:18:21,060

The Soviet military intelligence and especially naval intelligence had been very much interested

227

00:18:21,060 --> 00:18:27,060

in the USOs simply because they wanted to assess the threat presented.

228

00:18:27,060 --> 00:18:31,900

They had examples.

229

00:18:31,900 --> 00:18:38,100

Even back in 1982, for example, in Lake Baikal, when local commanders tried to capture one

230

00:18:38,100 --> 00:18:46,100

of the so-called gigantic swimmers, a machinery was destroyed.

231

00:18:46,100 --> 00:18:53,700

People died, human beings died while trying to capture the unknown phenomenon.

232

00:18:53,700 --> 00:18:57,100

And the Soviet high command decided not to lose any more people.

233

00:18:57,100 --> 00:19:06,140

There was nothing they could do about the so-called observers.

234

00:19:06,140 --> 00:19:15,420

It's not easy to study the UFO and USO phenomena as it pertains to the Soviet Union and Russia.

235

00:19:15,420 --> 00:19:22,220

The Soviet military has always been in fashion, whether in Russia or the Soviet Union.

236

00:19:22,220 --> 00:19:30,220

I truly believe that whatever is hidden in the files is fascinating to an extent that

237

00:19:30,220 --> 00:19:37,420

when it comes available, if it ever does, it would change the course of history of our

238

00:19:37,420 --> 00:19:41,420

planet.

239

00:19:41,420 --> 00:19:46,820

But while some scour archives and documents, other UFO hunters explore well beyond the

240

00:19:46,820 --> 00:19:49,460

physical environment.

241

00:19:49,460 --> 00:19:54,700

A lot of people that investigate UFOs eventually broaden their horizons, so to say.

242

00:19:54,700 --> 00:19:57,260

They get into metaphysics as well.

243

00:19:57,260 --> 00:20:00,500

I think they do that because they didn't get all the answers they wanted.

244

00:20:00,500 --> 00:20:03,940

And they feel that there's something bigger out there than the physical science that we've

245

00:20:03,940 --> 00:20:07,380

been dealing with.

246

00:20:07,380 --> 00:20:11,260

One such UFO hunter is John Rixie Moore.

247

00:20:11,260 --> 00:20:16,020

Throughout the 1990s, he traveled the globe investigating a phenomenon commonly associated

248

00:20:16,020 --> 00:20:20,140

with UFOs, crop circles.

249

00:20:20,140 --> 00:20:24,180

A fresh one definitely is a physiological experience.

250

00:20:24,180 --> 00:20:30,220

It's something that makes your hair stand up.

251

00:20:30,220 --> 00:20:36,020

When you're walking in one, it's very interesting to note that normally the center of the vortex

252

00:20:36,020 --> 00:20:40,420

that formed it is not necessarily the center of the image, of the glyph.

253

00:20:40,420 --> 00:20:41,820

It's off-centered.

254

00:20:41,820 --> 00:20:46,740

If you walk with the lie of the plants, you get the feeling that you're walking downhill.

255

00:20:46,740 --> 00:20:48,660

You can get going too fast.

256

00:20:48,660 --> 00:20:50,260

That's the sensation you get.

257

00:20:50,260 --> 00:20:54,220

When you turn around and walk against the lie of the plants, you have the exact opposite

258

00:20:54,220 --> 00:20:55,220

sensation.

259

00:20:55,220 --> 00:20:56,220

You become breathless.

260

00:20:56,220 --> 00:21:00,020

It feels like you're walking uphill.

261

00:21:00,020 --> 00:21:04,820

Some people react so dramatically to them that they begin to get nauseous as they approach

262

00:21:05,820 --> 00:21:06,820

the surface.

263

00:21:06,820 --> 00:21:11,620

UFO hunter Ruben Uriarte has also experienced firsthand the physiological effects that

264

00:21:11,620 --> 00:21:13,500

Moore has encountered.

265

00:21:13,500 --> 00:21:18,540

Over the years that I've had the opportunity to walk in into crop circles, I've noticed

266

00:21:18,540 --> 00:21:23,460

from a number of other people who are also in information sharing their bodily sensations,

267

00:21:23,460 --> 00:21:27,340

some of them feeling very dehydrated, some feeling nauseated.

268

00:21:27,340 --> 00:21:31,460

Sometimes that has happened to me too, where I feel nausea.

269

00:21:31,460 --> 00:21:37,340

It's a sense that there's some sort of sensation that's going on with you.

270

00:21:37,340 --> 00:21:40,060

I'm a UFO hunter because I want to know what's going on.

271

00:21:40,060 --> 00:21:42,100

I want to know what's going on in this planet.

272

00:21:42,100 --> 00:21:45,980

I want to know how it connects, how it affects us.

273

00:21:45,980 --> 00:21:48,140

I want to solve the mystery.

274

00:21:48,140 --> 00:21:51,900

Through that, I'll do whatever it takes to get there.

275

00:21:51,900 --> 00:21:58,300

That's why it's important for me to continue on this hunt for the truth.

276

00:21:58,300 --> 00:22:03,020

Is this video proof that aliens are inserting implants into humans?

277

00:22:03,020 --> 00:22:08,540

We looked and certainly there was a foreign body there, which appeared to be metallic.

278

00:22:08,540 --> 00:22:17,060

Can this tiny object really be evidence of an alien abduction?

279

00:22:17,060 --> 00:22:28,260

Nightmares.

280

00:22:28,260 --> 00:22:30,980

Strange recurring images.

281

00:22:30,980 --> 00:22:32,780

And missing time.

282

00:22:32,780 --> 00:22:36,420

UFO hunters say these are signs of alien abductions.

283

00:22:36,420 --> 00:22:42,340

Skeptics, on the other hand, argue these experiences can generally be explained by modern science.

284

00:22:43,060 --> 00:22:48,180

Still, much of what UFO hunters know about alleged alien abductions is based on eyewitness

285

00:22:48,180 --> 00:22:49,700

accounts.

286

00:22:49,700 --> 00:22:54,980

In some cases, however, there is evidence, but the abductee has no recollection of how

287

00:22:54,980 --> 00:22:56,420

it got there.

288

00:22:56,420 --> 00:23:03,020

At that point, UFO hunters, like certified hypnotherapist Barbara Lamb, stop looking outside the body

289

00:23:03,020 --> 00:23:06,020

and turn their search inward.

290

00:23:06,020 --> 00:23:10,500

Lamb uses hypnotic regression as a technique to help subjects recall and understand their

291

00:23:10,500 --> 00:23:11,500

experiences.

292

00:23:11,500 --> 00:23:17,980

Hypnotic regression is really a very simple thing to achieve.

293

00:23:17,980 --> 00:23:24,860

It's leading somebody into a nice state of deep relaxation.

294

00:23:24,860 --> 00:23:31,620

And in that state of deep relaxation, with the attention focused entirely on the inside,

295

00:23:31,620 --> 00:23:38,980

the person is asked to go back to the source of whatever the subject is that they're interested

296

00:23:38,980 --> 00:23:39,980

in.

297

00:23:39,980 --> 00:23:49,820

The use of regressive hypnosis in the induction part of this mystery is a very necessary thing

298

00:23:49,820 --> 00:23:50,820

to do.

299

00:23:50,820 --> 00:23:51,820

It's a useful tool.

300

00:23:51,820 --> 00:23:55,300

If it's done correctly, it's very valuable.

301

00:23:55,300 --> 00:23:58,220

You have to know more about the human psyche to do that.

302

00:23:58,220 --> 00:24:03,060

Barbara Lamb is one of those people.

303

00:24:03,060 --> 00:24:09,340

I have regressed 480 different individuals.

304

00:24:09,340 --> 00:24:17,020

A person typically will come to me for hypnotic regression because they have a strong clue,

305

00:24:17,020 --> 00:24:22,540

or maybe several clues, that something very unusual has happened to them.

306

00:24:22,540 --> 00:24:27,980

Under regression, these abductees frequently describe terrifying interactions with aliens.

307

00:24:27,980 --> 00:24:36,780

There's a tremendous variety of experiences that people have with extraterrestrial beings.

308

00:24:36,780 --> 00:24:44,380

Those beings tend to do medical experiments on people, taking tissue samples, fluid samples,

309

00:24:44,380 --> 00:24:46,540

maybe taking hair samples.

310

00:24:46,540 --> 00:24:55,740

And in many cases, they actually insert implants into the person who's having this experience.

311

00:24:55,740 --> 00:24:59,860

Would physical evidence of implants exist inside the human body?

312

00:24:59,860 --> 00:25:05,220

UFO hunter Dr. Roger Lear takes the leap from the psychological world and studies the physical

313

00:25:05,220 --> 00:25:09,220

objects being extracted from the body.

314

00:25:09,220 --> 00:25:16,620

I am a UFO hunter, and my job is to pursue research in this very tiny slice of a very

315

00:25:16,620 --> 00:25:20,820

strange phenomena.

316

00:25:20,820 --> 00:25:25,500

I've been a practicing podiatric surgeon for 41 years.

317

00:25:25,500 --> 00:25:31,620

I have performed research in a number of medical fields, and now I've applied my skills and

318

00:25:31,620 --> 00:25:35,780

science to the alien abduction physical evidence phenomena.

319

00:25:35,780 --> 00:25:42,380

And one of the prime examples of this is the Tim Cullen story.

320

00:25:42,380 --> 00:25:44,580

May 30th, 1978.

321

00:25:44,580 --> 00:25:49,220

Tim Cullen and his wife, Janet, were driving north near Highway 59 in Colorado, when they

322

00:25:49,220 --> 00:25:54,820

encountered what they believed was a UFO.

323

00:25:54,820 --> 00:25:58,940

Although they only recall staying at the scene for a few minutes, the Cullens arrived home

324

00:25:58,940 --> 00:26:02,540

an hour later than expected.

325

00:26:02,540 --> 00:26:08,580

Twenty years later, a routine x-ray revealed an unexplained piece of metal in Tim's arm.

326

00:26:08,580 --> 00:26:13,140

Cullen traced it back to that spring night in 1978.

327

00:26:13,140 --> 00:26:18,460

First contact was just telling me who he was and that he thought he might be associated

328

00:26:18,580 --> 00:26:25,460

with the abduction phenomena, and that he had a metallic object in his arm.

329

00:26:25,460 --> 00:26:30,260

So we had him send the x-rays, and we looked, and certainly there was a foreign body there,

330

00:26:30,260 --> 00:26:33,060

which appeared to be metallic.

331

00:26:33,060 --> 00:26:40,540

What you are seeing is the actual surgery, which took place on February 5th, 2000.

332

00:26:40,540 --> 00:26:45,740

Dr. Lear supervised the procedure to remove the foreign object from Tim Cullen's arm.

333

00:26:45,820 --> 00:26:51,060

Although there was no original entry scar, a six millimeter metallic object was found

334

00:26:51,060 --> 00:26:54,540

under the skin.

335

00:26:54,540 --> 00:26:59,660

Once the object was removed, we find two very surprising things.

336

00:26:59,660 --> 00:27:04,900

One is that there is absolutely no inflammatory response by the body to the object, which

337

00:27:04,900 --> 00:27:08,220

is quote, unquote impossible.

338

00:27:08,220 --> 00:27:14,140

And number two, we find that there is a large number of nerve cells there that really don't

339

00:27:14,140 --> 00:27:20,220

belong in that particular area, and these nerve cells are called proprioceptors.

340

00:27:20,220 --> 00:27:23,100

Proprioceptors are an active living cluster of nerve endings.

341

00:27:23,100 --> 00:27:27,420

They are normally located in the hands and feet and respond to touch, temperature, and

342

00:27:27,420 --> 00:27:28,420

pressure.

343

00:27:28,420 --> 00:27:32,580

According to Dr. Lear, there is no medical explanation for them to be connected to a

344

00:27:32,580 --> 00:27:34,700

foreign piece of metal in the human body.

345

00:27:34,700 --> 00:27:41,700

When we look at what happens in the body after the object goes in, the body does not like

346

00:27:41,700 --> 00:27:43,780

foreign things inside.

347

00:27:43,780 --> 00:27:45,740

So it reacts to it.

348

00:27:45,740 --> 00:27:51,140

Now, if it's, let's say, lead from a pencil or something like that, we get an immediate

349

00:27:51,140 --> 00:27:52,780

inflammatory reaction.

350

00:27:52,780 --> 00:27:55,260

But when we look at these things, there's nothing.

351

00:27:55,260 --> 00:27:56,260

Zip.

352

00:27:56,260 --> 00:27:57,260

Zero.

353

00:27:57,260 --> 00:28:02,780

So just from that alone, you can say these are drastically different than any kind of

354

00:28:02,780 --> 00:28:07,020

typical foreign body that we get inside.

355

00:28:07,020 --> 00:28:13,100

I believe that these nerve cells are sort of the plug where this thing is plugged in at,

356

00:28:13,220 --> 00:28:17,540

and it's using neural energy from the body to operate.

357

00:28:17,540 --> 00:28:22,860

On one case, not Tim's, but on another case, we fortunately had a piece of equipment which

358

00:28:22,860 --> 00:28:28,380

was a radio frequency detector, and we actually detected two oscillating frequencies that

359

00:28:28,380 --> 00:28:30,940

were being emitted from the object.

360

00:28:30,940 --> 00:28:33,660

When they are removed, they don't do anything.

361

00:28:33,660 --> 00:28:40,140

So obviously plugging them in somewhere into the body gives them some kind of energy that

362

00:28:40,180 --> 00:28:42,500

makes them do whatever it is they do.

363

00:28:42,500 --> 00:28:48,460

Dr. Lear has supervised more than 10 of these operations.

364

00:28:48,460 --> 00:28:52,540

Each surgery has produced strange foreign objects from the body, all of which can be

365

00:28:52,540 --> 00:28:55,500

found safely locked in his personal archive.

366

00:28:55,500 --> 00:29:01,020

The evidence collected by Dr. Lear seems to defy scientific logic.

367

00:29:01,020 --> 00:29:07,500

We find that these objects contain metals which are not from this earth.

368

00:29:07,500 --> 00:29:14,260

The abundant amount of physical evidence available leads me to believe that this planet is being

369

00:29:14,260 --> 00:29:20,020

visited by intelligences from somewhere else.

370

00:29:20,020 --> 00:29:24,940

That is why I'm a UFO hunter.

371

00:29:24,940 --> 00:29:30,300

Coming up, UFO hunters put their evidence to the test, and the results may surprise you.

372

00:29:30,300 --> 00:29:36,060

My job is to separate the outright hoaxes from the cases which can't be explained.

373

00:29:36,140 --> 00:29:40,900

And is there a worldwide cover-up to hide the truth about UFOs?

374

00:29:40,900 --> 00:29:45,420

One government official finally tells his story from the inside.

375

00:29:45,420 --> 00:29:48,420

Pay attention, listen up, this is going on.

376

00:29:48,420 --> 00:29:55,420

Ultimately, validating the hard evidence accumulated by UFO hunters is just as important as recovering artifacts.

377

00:29:55,420 --> 00:30:02,420

Whether the substantiation comes from science, metaphysics, documentation, or imagery,

378

00:30:02,420 --> 00:30:05,420

UFO hunters will not risk being found.

379

00:30:05,420 --> 00:30:10,420

The evidence is not only available to the public, but also to the public.

380

00:30:10,420 --> 00:30:13,420

The evidence is also available to the public.

381

00:30:13,420 --> 00:30:20,420

Since many UFO sightings are allegedly caught on film and video, attempts to verify or validate the images comes down to researchers like

382

00:30:20,420 --> 00:30:23,420

naval optical physicist Dr. Bruce McAvie.

383

00:30:23,420 --> 00:30:29,420

I'm a UFO hunter, and my job is to separate the wheat from the chaff.

384

00:30:29,420 --> 00:30:35,900

For example, in the photographic cases to be able to separate the

385

00:30:35,900 --> 00:30:40,900

cases which are mistakes or outright hoaxes from the cases which can't be explained.

386

00:30:40,900 --> 00:30:48,900

Dr. McAvie has authored three dozen technical articles and more than a hundred UFO research papers over the last two and a half decades.

387

00:30:48,900 --> 00:30:51,900

I've known Bruce for over 30 years.

388

00:30:51,900 --> 00:30:56,900

I find that he is persistent in his work, and I think he's a very good man.

389

00:30:56,900 --> 00:30:59,900

I think he's a very good man.

390

00:30:59,900 --> 00:31:03,900

I've known Bruce for over 30 years.

391

00:31:03,900 --> 00:31:06,900

I find that he is persistent.

392

00:31:06,900 --> 00:31:08,900

He is consistent.

393

00:31:08,900 --> 00:31:13,900

He is scientific, and he doesn't let opinions come in so much as science.

394

00:31:13,900 --> 00:31:18,900

In my opinion, Dr. Bruce McAvie is indeed a true UFO hunter.

395

00:31:18,900 --> 00:31:26,900

Dr. McAvie uses computer analysis systems to actually feed in and analyze each frame of a video, for instance,

396

00:31:26,900 --> 00:31:30,900

or to feed in a photograph as a result.

397

00:31:30,900 --> 00:31:34,900

He has done investigations that stand the test of time.

398

00:31:34,900 --> 00:31:41,900

I have done not only photographic research, but also historical research into the subject of UFOs.

399

00:31:41,900 --> 00:31:45,900

Dr. McAvie is convinced that photos alone can't tell the entire story.

400

00:31:45,900 --> 00:31:50,900

He believes that the U.S. government is withholding vital information.

401

00:31:50,900 --> 00:31:56,900

I was one of the first people to try beating down the doors of the government by getting information out about the FBI.

402

00:31:56,900 --> 00:32:05,900

J. Edgar Hoover himself says it is not now nor was it ever the role of the FBI to be involved in UFO investigations.

403

00:32:05,900 --> 00:32:10,900

Dr. Bruce McAvie filed a Freedom of Information Act request. This is back in the 70s.

404

00:32:10,900 --> 00:32:13,900

It got 1,600 pages of material.

405

00:32:13,900 --> 00:32:20,900

When I got it and read through the documents, I could see that there was information in the FBI file that was nowhere else,

406

00:32:20,900 --> 00:32:26,900

including comments by Air Force people that were stored in the FBI file that you can't find in the Air Force file.

407

00:32:26,900 --> 00:32:37,900

UFO hunter Nick Redfern sifts through thousands of government documents from around the world to seek hidden information about these UFO claims.

408

00:32:38,900 --> 00:32:47,900

My background is largely looking at things from an official level, trying to determine what has been learned about the subject,

409

00:32:47,900 --> 00:32:53,900

what has been uncovered by, for example, the British military, the British Royal Air Force, the Ministry of Defence,

410

00:32:53,900 --> 00:32:59,900

and over here the Central Intelligence Agency, FBI, National Security Agency.

411

00:33:00,900 --> 00:33:07,900

What drives me to investigate UFOs is basically I think that an official restricted level,

412

00:33:07,900 --> 00:33:10,900

there are people who know the truth about this particular subject,

413

00:33:10,900 --> 00:33:18,900

and I feel that if something so important and potentially mind-blowing and life-changing as visitors from another world actually coming here,

414

00:33:18,900 --> 00:33:21,900

I think that all of us have a right to know this.

415

00:33:22,900 --> 00:33:29,900

Based on my research, I'm convinced that UFOs are real, they're coming from somewhere else, and they're visiting us,

416

00:33:29,900 --> 00:33:31,900

and that's why I became a UFO researcher.

417

00:33:32,900 --> 00:33:35,900

But are there government officials who will admit to what they are hiding?

418

00:33:35,900 --> 00:33:43,900

When Nick Pope, an employee of the British Ministry of Defence, began exposing the ongoing UFO investigations within the British government,

419

00:33:43,900 --> 00:33:46,900

a crack in their wall of secrecy appeared.

420

00:33:47,900 --> 00:33:55,900

We got into it in 1950 on the basis of the fact that we were seeing UFO sightings in our country,

421

00:33:55,900 --> 00:34:02,900

and that there was considerable public and media interest and interest from senior establishment figures.

422

00:34:04,900 --> 00:34:07,900

Pay attention, listen up, this is going on.

423

00:34:08,900 --> 00:34:12,900

We believe that the UFO phenomenon is real.

424

00:34:13,900 --> 00:34:20,900

The significance of an M.O.D. employee actually coming out with a statement that they believe some UFOs are alien spacecraft,

425

00:34:20,900 --> 00:34:28,900

I think is to really get across to the media and the public that these things are taken seriously at an official level,

426

00:34:28,900 --> 00:34:31,900

and that there are people investigating these things.

427

00:34:32,900 --> 00:34:39,900

Dr. Robert Wood, former aerospace engineer and associate of J. Allen Heineck,

428

00:34:39,900 --> 00:34:45,900

analyzes documentation from the 1950s that alleges the existence of extraterrestrial visitation.

429

00:34:46,900 --> 00:34:54,900

Obviously controversial, these papers represent one of the most difficult tasks to UFO hunters, document authentication.

430

00:34:54,900 --> 00:35:01,900

When you attempt to determine and question documents validity, you approach this in an orderly manner.

431

00:35:01,900 --> 00:35:05,900

If you have an original, you do the things you can do, like look at the paper.

432

00:35:05,900 --> 00:35:14,900

If you don't, then you look at the shape of the letters and you go into the printing subtleties.

433

00:35:14,900 --> 00:35:21,900

Dr. Wood is one of the leading people in this field, and the work he does in the forensic examination of documentation,

434

00:35:21,900 --> 00:35:23,900

I'd say he's probably the leading person.

435

00:35:24,900 --> 00:35:31,900

The documents that I've been exposed to include 4,000 pages of mostly unclassified material,

436

00:35:31,900 --> 00:35:35,900

somebody cleaning out his file door who used to work in some intelligence agency,

437

00:35:35,900 --> 00:35:40,900

but a lot of them, maybe 500 or 2,000 of the pages are top secret.

438

00:35:42,900 --> 00:35:46,900

Some of those top secret files detail the Majestic 12 organization,

439

00:35:46,900 --> 00:35:52,900

a group allegedly established by President Truman to maintain the secrecy on extraterrestrials.

440

00:35:52,900 --> 00:35:55,900

Dr. Wood had the documents analyzed.

441

00:35:55,900 --> 00:36:04,900

I have taken those to a typewriter expert and have determined that they were typed on an Underwood 1940 typewriter, so it's consistent.

442

00:36:04,900 --> 00:36:09,900

Based on this analysis of the typewriter model, the paper and ink content,

443

00:36:09,900 --> 00:36:14,900

Dr. Wood believes the documents are genuine and may blow the lid off of a UFO cover-up.

444

00:36:15,900 --> 00:36:23,900

The large number of documents that I've been able to accumulate very clearly show that we have a covert program to keep from the public

445

00:36:23,900 --> 00:36:29,900

the recovery of a large number of crashes that include the recovery of extraterrestrials.

446

00:36:30,900 --> 00:36:35,900

Dr. Wood is definitely a UFO hunter, a good UFO hunter.

447

00:36:37,900 --> 00:36:40,900

But do you have what it takes to become a UFO hunter?

448

00:36:40,900 --> 00:36:47,900

The goal is to get the truth out there. Whatever it takes to do that, you've got to do it.

449

00:37:00,900 --> 00:37:05,900

Though UFO hunters are gaining visibility around the globe, they have a perceived PR problem.

450

00:37:05,900 --> 00:37:08,900

They're simply not taken seriously.

451

00:37:08,900 --> 00:37:13,900

Establishing credible standards for UFO investigation has fallen upon MUFON,

452

00:37:13,900 --> 00:37:17,900

the Mutual UFO Network based in Denver, Colorado.

453

00:37:17,900 --> 00:37:22,900

This is the largest scientific research organization on UFOs anywhere in the world.

454

00:37:22,900 --> 00:37:28,900

They have developed a program to train those interested in the field to do a thorough investigation.

455

00:37:28,900 --> 00:37:36,900

The job of the investigator is not to express an opinion, not to influence witnesses,

456

00:37:36,900 --> 00:37:41,900

but basically to keep his mouth shut, listen to what they have to tell him,

457

00:37:41,900 --> 00:37:45,900

and put that together in some kind of meaningful form.

458

00:37:45,900 --> 00:37:50,900

And you have to have some training to be able to approach the subject in the right way.

459

00:37:50,900 --> 00:37:53,900

How are you going to go about doing the investigation?

460

00:37:53,900 --> 00:38:03,900

The MUFON Field Investigator training program trains members of MUFON who wish to volunteer

461

00:38:03,900 --> 00:38:08,900

to become field investigators for the organization.

462

00:38:10,900 --> 00:38:14,900

Kathleen Martin is the director of MUFON's field investigation program

463

00:38:14,900 --> 00:38:20,900

and oversees the training and progress of over 1,000 UFO hunters across the nation.

464

00:38:21,900 --> 00:38:30,900

We currently have no formal government-sponsored organization that does this kind of work.

465

00:38:30,900 --> 00:38:36,900

And people feel that there is a real need for this kind of work to be done.

466

00:38:36,900 --> 00:38:38,900

Yeah, that's a good point.

467

00:38:38,900 --> 00:38:42,900

Peter Jeremiah is one of the many trainers involved in the MUFON program

468

00:38:42,900 --> 00:38:46,900

and a skill that determining who could cut it, who is serious-minded,

469

00:38:46,900 --> 00:38:49,900

and who should be weeded out from the ranks.

470

00:38:51,900 --> 00:38:58,900

My goal for teaching others to become certified is to try to get a quality investigator out there doing the work.

471

00:38:58,900 --> 00:39:03,900

I don't want to see true believers out there that every little thing that happens is a definite UFO.

472

00:39:03,900 --> 00:39:05,900

I don't want to see that happen.

473

00:39:05,900 --> 00:39:10,900

If they follow the investigators manual and do the research the way they should,

474

00:39:10,900 --> 00:39:15,900

the unknowns will show up and the other cases will fall by the wayside.

475

00:39:15,900 --> 00:39:22,900

A verbal, my goal is to keep good quality investigators out in the field.

476

00:39:22,900 --> 00:39:26,900

You need to use your Bible when you're doing your investigation

477

00:39:26,900 --> 00:39:29,900

because this is where all the information is.

478

00:39:30,900 --> 00:39:34,900

Their Bible is the MUFON Field Investigators Manual.

479

00:39:34,900 --> 00:39:43,900

MUFON field investigators treat their UFO cases in the tradition of original UFO hunters like Dr. J. Alan Heineck and Dr. James McDonald.

480

00:39:43,900 --> 00:39:49,900

The organization has created a package of forms to help facilitate the documentation process

481

00:39:49,900 --> 00:39:53,900

and also a field investigators kit with specific tools for the right job.

482

00:39:53,900 --> 00:39:58,900

The equipment includes a tape recorder, compass, maps and a camera.

483

00:39:58,900 --> 00:40:03,900

MUFON director John Schusler has a vision for the continued advances of MUFON.

484

00:40:03,900 --> 00:40:09,900

But a new investigator enters the field, he wants to make sure the level of credibility is maintained.

485

00:40:09,900 --> 00:40:16,900

We require all field investigators to study that and to take an exam to show they have been through it

486

00:40:16,900 --> 00:40:19,900

and they understand the way of doing things.

487

00:40:19,900 --> 00:40:22,900

This doesn't mean we limit how much they do in the field.

488

00:40:22,900 --> 00:40:27,900

What it means is we give them some criteria so when we get done everybody's talking the same language.

489

00:40:27,900 --> 00:40:29,900

And then have them put it in writing.

490

00:40:29,900 --> 00:40:34,900

After the training is over, the UFO hunters head out into the field.

491

00:40:34,900 --> 00:40:37,900

Basically what happens is you'll get a report.

492

00:40:37,900 --> 00:40:41,900

First thing I do is call the witness, set up a meeting.

493

00:40:41,900 --> 00:40:45,900

I like to go to their place, I like to talk to them face to face, not so much on the phone.

494

00:40:46,900 --> 00:40:48,900

We'll go out to the field with them.

495

00:40:48,900 --> 00:40:56,900

If they have any photographic evidence like camcorders or still pictures or any of that, we take

that under account.

496

00:40:56,900 --> 00:41:03,900

By the end our main goal is to produce a summary, a report, which then goes to the National MUFON headquarters.

497

00:41:03,900 --> 00:41:12,900

Every year MUFON investigates more than a thousand cases, of which 20% fall into the category of unexplained.

498

00:41:12,900 --> 00:41:22,900

We have some 300 consultants and research specialists in every possible field of endeavor that are able to look at this material.

499

00:41:22,900 --> 00:41:24,900

Those are scientists.

500

00:41:24,900 --> 00:41:27,900

And we go everything from astrophysics to religion.

501

00:41:27,900 --> 00:41:31,900

Back in the days when Dr. Heineck was doing this, he had an invisible college.

502

00:41:31,900 --> 00:41:37,900

These were people that were scientists that didn't want anybody to know they were doing it, but they would help him.

503

00:41:37,900 --> 00:41:39,900

Today we have a visible college.

504

00:41:39,900 --> 00:41:44,900

People are saying, I don't care, I'm going to look into it because I am a scientist.

505

00:41:44,900 --> 00:41:47,900

And that's truly what science is all about.

506

00:41:48,900 --> 00:41:56,900

Information is discussed and debated at annual UFO conventions, like the National UFO Conference in Los Angeles, California.

507

00:41:56,900 --> 00:42:00,900

I do believe UFO hunters come to conferences to learn more.

508

00:42:01,900 --> 00:42:08,900

They're looking for answers to what maybe they've seen, maybe they've heard about, or maybe they're just curious about.

509

00:42:08,900 --> 00:42:13,900

So I believe that some of the attendees are UFO hunters. They're seeking out the truth for themselves.

510

00:42:13,900 --> 00:42:18,900

Symposiums, conferences, gatherings are always very important.

511

00:42:18,900 --> 00:42:22,900

I like to add that it's more the networking that's very important.

512

00:42:22,900 --> 00:42:27,900

It's important to hear what's the latest from the different researchers that are out there.

513

00:42:27,900 --> 00:42:37,900

But there's a lot behind the scenes and these conferences provide the avenue for people to get together and to share notes, to share what's going on.

514

00:42:37,900 --> 00:42:41,900

And believe me, I've learned more from behind the scenes many times.

515

00:42:42,900 --> 00:42:48,900

Regardless of their reasons for investigating UFOs, these hunters have one common goal.

516

00:42:48,900 --> 00:42:50,900

I think it's definitely my job to tell the truth.

517

00:42:50,900 --> 00:42:51,900

What is the truth?

518

00:42:51,900 --> 00:42:55,900

That is the prime goal, to find out what the truth is behind us.

519

00:42:55,900 --> 00:43:00,900

I think we are mature enough now to take whatever the truth might be.

520

00:43:00,900 --> 00:43:06,900

The goal is to get the truth out there. Whatever it takes to do that, you've got to do it.

521

00:43:10,900 --> 00:43:19,900

As they look to the stars, the earth or within the human body, UFO hunters feel their cases strong and the evidence irrefutable.

522

00:43:20,900 --> 00:43:26,900

As new technology, like the Hubble Space Telescope, identifies undiscovered earth-like planets,

523

00:43:26,900 --> 00:43:32,900

one must wonder if the mysteries of the universe have, or ever will be, solved.

524

00:43:32,900 --> 00:43:38,900

But one fact remains, UFO hunters feel they are on to something big.

525

00:43:38,900 --> 00:43:43,900

These people, their testimony could send a guy to the electric chair.

526

00:43:43,900 --> 00:43:48,900

And yet they report a UFO and they're no longer credible.

527

00:43:48,900 --> 00:43:53,900

And that's the double standard in this country that I simply can't understand.

528

00:43:55,900 --> 00:44:02,900

When someone says to me, there's no physical evidence, I look at them with a dismayed look

529

00:44:02,900 --> 00:44:06,900

and would tell them that I'm very, very sorry for them.

530

00:44:06,900 --> 00:44:11,900

And they would say, why? And I would say, because you're so misinformed.

531

00:44:12,900 --> 00:44:17,900

The evidence is overwhelming in the form of large-scale scientific studies, physical trace cases,

532

00:44:17,900 --> 00:44:21,900

multiple witness radar visual sightings, abduction cases.

533

00:44:21,900 --> 00:44:27,900

There's an enormous amount of data and what I find is that the people that don't agree with me are people who haven't studied that data.

534

00:44:28,900 --> 00:44:34,900

I think we have seen through the UFO mystery the glimpse of the future.

535

00:44:34,900 --> 00:44:41,900

We're seeing devices in our atmosphere that operate in ways that we can't and haven't been able to operate.

536

00:44:41,900 --> 00:44:46,900

If we could harness any one of these, it'll change the future of humanity.

537

00:44:46,900 --> 00:44:52,900

And that's really why I'm in it. That's why I'm a UFO hunter.
