[https://youtu.be/fYpWGhQnN\\_w](https://youtu.be/fYpWGhQnN_w) Jessica Jones, in search of monsters in the the portals

Jessica Jones is the host of "Into the Portal" on KGRA digital broadcasting network. She is a paranormal investigator and remote viewer based in northwest Georgia. She is an active field researcher and member of Enigma Research Group (ERG), Anomalous Studies and Observation Group (ASOG), and North Georgia Cryptid Researchers (NGCR). All are action-oriented research groups which conduct field research associated with all things paranormal, particularly Bigfoot.

These groups have obtained ground-breaking evidence at several paranormal hot-spot hubs in the southeastern United States, comparable to the infamous Skinwalker Ranch. What sets her team apart from other groups is they are all trained in remote viewing (RV). In addition to utilizing RV in the research field, Jessica assists in missing persons/cold cases. She recently presented her field research at Camp Disclosure and is often interviewed on podcasts and radio shows across the globe.

Jessica has been a very switched-on human since childhood. She saw the world from a different perspective than most of her friends and family. Her interests included studying ghosts and the afterlife, cryptids, watching the sky for UFOs at night, and astrology, which led her to be a tarot and oracle card reader. Jessica spent nearly twenty years as the Executive Director of the Georgia Commission on Women, a state agency advocating for women across the state of Georgia. She owns a small business, War Woman Goods. Jessica posts videos of her adventures on her YouTube channel, The Cryptid Huntress. You can watch her live show on cryptids and paranormal field research, "Into the Portal," every Saturday night at 8:00 p.m.

#uforesearch  
Smiles served as facilitator for Austin’s UFO Experienter Support Group for nearly ten years and has spoken to local and national radio / TV / print media. In 1995 he spoke at the national Society for the Anthropology of Consciousness conference on the subject of UFOs as a transformative paradigm. His interests in both the physical and folkloric research of parapsychology and ufology have led to his collecting and archiving of over 3000 books on these and other topics relevant to consciousness research and the founding of the Anomaly Archives, lending library of the Scientific Anomaly Institute.

My guest for this evening is almost as elusive as the Red Panda itself, but nearly as well known if not more so then the no famous Red Panda.  
Little is known about the man behind the documentaries and perhaps this is not by accident. I for one am genuinely curios as to what lead our fine guest for this evening down the path he is currently pursuing.  
If you have not had the chance or pleasure of checking out any of they documentaries that Red Panda Koala has produced, you are missing out and in for a treat.  
So let us embark upon tonight's travels and see where it takes us as we dive deep into the unknown, come what may.

My guest taking a ride in Old Blue tonight to travel the cosmos and beyond with us, is the one and only Sev Tok. Sev Tok was born in Istanbul, Turkey and came to the U.S. as a little girl. Growing up in the Washington DC/VA suburbs, she began having supernatural experiences and ET contact at a young age, which continues today. Spending a lifetime refusing to accept the reality of these events, she "came out" three years ago prompted by her face-to-face contact with a Grey who burned two X marks into her lower back. Tonight in the Garage Mr. Muzic will be taking a spin in Old Blue as we discuss the phenomenon known as Ufology as a whole. John brings a great attitude and approach to the subject. Not only does he show incredible support to the community of Ufology, he is an exemplary model of what we all should be striving to do, to make a difference and bring about true change within the community.

He educates himself on subject matters he finds intriguing, and as a result brings an intellect with the questions he poses that is rivaled by few and far between.

So buckle up as we take Old Blue into the cosmos and beyond once again.

Ron Felber, the Mojave incident.

In my first episode back in almost two months I bring you a guest that I am both excited to hear from and share with you. Ron Felber is an accomplished author and has written many books, my personal favorite among these is the Mojave incident! Here is a small glimpse of what we will cover this fine evening.

[Transcript Link](#)

Elise and Tom Gifford say they were held captive in their camper by nonhuman creatures--and through love and prayer were able to live through psychological torment as their captors manipulated their minds with telepathic power. The Watchers hovered over them for a day and a night, they say, stealing their thoughts and emotions, making them relive their most painful and intimate memories, bringing them to the brink of madness.

So buckle up as we take Old Blue into the cosmos and beyond once again.

As always, stay curious and keep it WEIRD!

Calvin Parker with BigWilly on the weekends.

Tonight we jump into Old Blue, joined by a VERY special guest. Mr. Parker to tell his legacy. On October 11th, 1973 nineteen year old Calvin Parker and his friend forty two year old Charles Hickson were spending a frustrating evening fishing on the Pascagoula River in Mississippi. Both men loved to fish but tonight's fishing trip would turn out to be one they would never forget. In the early evening both men were startled when a strange craft descended and hovered a few feet above the ground and just a few yards from their location. Before they had any chance to run an opening appeared in this craft and out 'floated' three humanoid creatures. Both men were absolutely terrified when these creatures grabbed them and took them aboard the craft. On the craft both men were subjected to an examination and at one point they were so terrified as they believed they were about to die. Minutes later both Calvin Parker and Charles Hickson were deposited back on the riverbank and the craft departed. Taking off in their car the two terrified witnesses eventually located a public telephone box and phoned the local sheriff. A short time later they were being interviewed at their local sheriff's office. These two disorientated witnesses told their story of their close encounter and abduction by these strange creatures. The next day all hell was let loose as the press descended on this unsuspecting Mississippi town. Calvin Parker, seriously disturbed by these events, has largely remained in the background without ever detailing the full account of what happened that night, how it affected him and his life, and other close encounters he has experienced down the years.

2021 10 14 UFO Garage <https://youtu.be/GAPFyFRyMiA> Joshua Casey - Skeptic turned believer after experience

LIVE Chat with Joshua Casey in the Garage.

Guest Bio:  
My name is Joshua Casey, former skeptic turned believer/experiercer. 11 years ago I had a near death experience with a close friend. This same friend and I witnessed a UFO in 2015 at the Cape Fear River Fayetteville, NC. I stayed in denial of what I saw until early 2021, after seeing the Pentagon UAP reports. After having ongoing unbelievable, synchronisities/premonitions. I reached out to the father of a friend I had in high school, Chris Bledsoe. Speaking with the Bledsoes, my fascination with quantum physics and studying the metaphysical aspects of this phenomenon, changed my life forever. As I have fallen far down this rabbit hole, and have begun seeing orbs and craft myself. Every bit of the skeptic in me is gone, and I can never look at the world the same.. I'm honored to be accepted into this community. I have become relentless about studying the many layers and history of this subject.. as well as sharing my story and helping in any way I can.

[https://youtu.be/tAp8c9pL\\_hw](https://youtu.be/tAp8c9pL_hw) Cristina Gomez joins BigWilly in the Van to travel the cosmos and beyond.

In this weeks episode Cristina and I will chat about keeping our eyes on the skies and the importance of asking the right questions. Will be sharing the mystery and history behind the Colares encounter! In 1977, numerous UFOs were reported in the Brazilian city of Colares, Pará. Local residents claimed that scars on their bodies were caused by the lights in the sky, and named the lights "Chupa Chupa" (literally SuckerSucker). Believing it would keep the lights away, residents of Colares organized night vigils, lit fires, and ignited fireworks. Mayor José Ildone Favacho Soeiro requested help from the Air Force. Come join us and hope in at the end if you would like to be a hitch hiker that is picked up in the BigWilly van as we head back to the garage at the end of the show.
