2
00:00:09,950 --> 00:00:07,560

this is another episode of UFO garage

3
00:00:14,049 --> 00:00:09,960

I'm Ben I'm Joe and this is where we

4
00:00:16,519 --> 00:00:14,059

talk about UFOs aliens in all things we

5
00:00:17,570 --> 00:00:16,529

the planet Earth is being visited by

6
00:00:21,050 --> 00:00:17,580

intelligently controlled

7
00:00:23,570 --> 00:00:21,060

extraterrestrial spacecraft some UFOs

8
00:00:25,009 --> 00:00:23,580

underline to some 36 times one of the

9
00:00:27,050 --> 00:00:25,019

things that characterizes most of the

10
00:00:29,839 --> 00:00:27,060

attacks from the noisy negative is as I

11
00:00:31,880 --> 00:00:29,849

call them is they ignore the data and

12
00:00:34,490 --> 00:00:31,890

I'll say there is no UFO evidence but

13
00:00:35,100 --> 00:00:34,500

you never find any references to the

14

00:00:36,130 --> 00:00:35,110

evidence

15

00:00:38,400 --> 00:00:36,140

[Applause]

16

00:00:40,810 --> 00:00:38,410

[Music]

17

00:00:42,160 --> 00:00:40,820

anybody who's close to it really need

18

00:00:44,319 --> 00:00:42,170

stuff let's look at the next slide

19

00:00:46,360 --> 00:00:44,329

hundred million dollars a year in 1958

20

00:00:48,700 --> 00:00:46,370

next slide let's look at the next one

21

00:00:51,040 --> 00:00:48,710

the Flying Saucer if you will this is

22

00:00:53,139 --> 00:00:51,050

back in 57 in the next slide you'll see

23

00:00:54,700 --> 00:00:53,149

a very exciting document listen to the

24

00:00:55,840 --> 00:00:54,710

enlargement of that it's pretty neat

25

00:00:59,240 --> 00:00:55,850

next slide please

26
00:01:03,500 --> 00:01:01,250
the next slide we are being visited

27
00:01:06,590 --> 00:01:03,510
there really are applying sausage

28
00:01:10,010 --> 00:01:06,600
Virginia no la dude

29
00:01:12,320 --> 00:01:10,020
not a lot dope dope dude yeah how's your

30
00:01:14,150 --> 00:01:12,330
day being today dude it's been pretty

31
00:01:16,660 --> 00:01:14,160
awesome I've been basically just

32
00:01:20,690 --> 00:01:16,670
watching a bunch of staunton Friedman's

33
00:01:22,400 --> 00:01:20,700
lectures it's been really fun like I saw

34
00:01:24,890 --> 00:01:22,410
some stuff on Amazon Prime obviously did

35
00:01:27,620 --> 00:01:24,900
a bunch of like YouTube stuff the guy is

36
00:01:29,690 --> 00:01:27,630
just a legend I mean I knew of him and I

37
00:01:32,359 --> 00:01:29,700
knew about him but not near as much as I

38
00:01:34,280 --> 00:01:32,369

do now and man like I just respect the

39

00:01:36,469 --> 00:01:34,290

guy so much after looking into him after

40

00:01:38,030 --> 00:01:36,479

you know like we saw I saw that article

41

00:01:40,460 --> 00:01:38,040

that you know he passed away couple

42

00:01:43,580 --> 00:01:40,470

months ago and I've been interested in

43

00:01:47,180 --> 00:01:43,590

this you know this whole thing with the

44

00:01:49,609 --> 00:01:47,190

archivist that has has I guess been

45

00:01:52,249 --> 00:01:49,619

given all of his research documents this

46

00:01:53,900 --> 00:01:52,259

article came out on the CBC and I just

47

00:01:55,640 --> 00:01:53,910

kind of thought about text deals like

48

00:02:00,190 --> 00:01:55,650

I'm thinking about maybe just reaching

49

00:02:05,000 --> 00:02:00,200

out to Joanna a tinkerer who's the

50

00:02:07,700 --> 00:02:05,010

archivist in New Brunswick Canada and so

51
00:02:09,710 --> 00:02:07,710
I just sent out that email just dude I

52
00:02:11,270 --> 00:02:09,720
had no expectation I thought you know

53
00:02:12,710 --> 00:02:11,280
this is gonna go in the wind that's

54
00:02:14,479 --> 00:02:12,720
right I just googled her name and found

55
00:02:16,550 --> 00:02:14,489
that she's a part of this you know this

56
00:02:19,070 --> 00:02:16,560
organization and I mean I didn't do that

57
00:02:21,199 --> 00:02:19,080
much of digging and I found her email

58
00:02:23,150 --> 00:02:21,209
right yeah yeah shot her an email she

59
00:02:25,430 --> 00:02:23,160
was super nice got back so fast

60
00:02:27,680 --> 00:02:25,440
ladies and gentlemen yeah that's right

61
00:02:30,199 --> 00:02:27,690
we've got a very special guest for you

62
00:02:32,330 --> 00:02:30,209
tonight very special yeah it is the

63
00:02:35,030 --> 00:02:32,340

Joanna 8 and Kurt

64

00:02:38,600 --> 00:02:35,040

yep yep so here in a little bit we'll be

65

00:02:40,550 --> 00:02:38,610

bringing her on and yeah dude super

66

00:02:42,320 --> 00:02:40,560

excited about that and that was such a

67

00:02:44,120 --> 00:02:42,330

good interview like I really didn't know

68

00:02:46,250 --> 00:02:44,130

what to expect I mean obviously you're

69

00:02:53,539 --> 00:02:46,260

like this this person is probably way

70

00:02:55,340 --> 00:02:53,549

more intelligent than we are super nice

71

00:02:57,050 --> 00:02:55,350

and like super down-to-earth yeah I

72

00:03:00,410 --> 00:02:57,060

think all your questions were really

73

00:03:02,630 --> 00:03:00,420

good to like just I liked how you just

74

00:03:06,199 --> 00:03:02,640

kind of focus not really it's like super

75

00:03:09,440 --> 00:03:06,209

much on a super a lot on on Stanton but

76
00:03:10,850 --> 00:03:09,450
more on the process and what she does

77
00:03:13,140 --> 00:03:10,860
for a living which is super interesting

78
00:03:15,510 --> 00:03:13,150
I think like everybody that's in this

79
00:03:18,300 --> 00:03:15,520
this community or is a UFO researcher

80
00:03:20,760 --> 00:03:18,310
maybe maybe not so many people that are

81
00:03:23,130 --> 00:03:20,770
just new to this stuff know that you can

82
00:03:26,070 --> 00:03:23,140
go physically to places to find research

83
00:03:28,080 --> 00:03:26,080
you like the good stuff is at these

84
00:03:29,700 --> 00:03:28,090
physical places yeah these archives

85
00:03:32,280 --> 00:03:29,710
because it hasn't been digitized and put

86
00:03:35,760 --> 00:03:32,290
online yet yeah yeah yeah definitely do

87
00:03:40,830 --> 00:03:35,770
super awesome dude yeah it's super sick

88
00:03:44,840 --> 00:03:40,840

super sick so yeah man I mean yeah I

89

00:03:47,490 --> 00:03:44,850

mean what is it a stand I said be a

90

00:03:50,760 --> 00:03:47,500

unapologetic you have apologist oh I

91

00:03:53,090 --> 00:03:50,770

wrote down yeah exactly no he always

92

00:03:56,070 --> 00:03:53,100

said like don't ever apologize for being

93

00:04:00,390 --> 00:03:56,080

interested in this subject oh absolutely

94

00:04:02,940 --> 00:04:00,400

he also dude he also said let's see oh

95

00:04:06,390 --> 00:04:02,950

he always always said always have facts

96

00:04:07,920 --> 00:04:06,400

in hand before putting mouth to ear yeah

97

00:04:11,100 --> 00:04:07,930

mouth in ear which is totally awesome

98

00:04:12,900 --> 00:04:11,110

like start with the facts and then start

99

00:04:14,520 --> 00:04:12,910

talking about it yeah exactly just

100

00:04:16,289 --> 00:04:14,530

talking about it and then having having

101
00:04:20,940 --> 00:04:16,299
a look back which is like not really our

102
00:04:23,370 --> 00:04:20,950
style we try to we try to do as much

103
00:04:25,170 --> 00:04:23,380
research as we can and then just have

104
00:04:27,060 --> 00:04:25,180
like a normal conversation this is

105
00:04:28,380 --> 00:04:27,070
absolutely that's not our man you know

106
00:04:30,540 --> 00:04:28,390
like that's not our format we're just

107
00:04:31,710 --> 00:04:30,550
two dudes just hanging out talking about

108
00:04:33,450 --> 00:04:31,720
this stuff having a good time

109
00:04:35,219 --> 00:04:33,460
this is not like something that you're

110
00:04:37,050 --> 00:04:35,229
you know it's not an audio book all

111
00:04:38,909 --> 00:04:37,060
right well researched as some other

112
00:04:42,180 --> 00:04:38,919
shows but you know we have a good time

113
00:04:46,650 --> 00:04:42,190

yeah it's fun it's just having fun yeah

114

00:04:49,020 --> 00:04:46,660

but yeah it was super fun looking into

115

00:04:51,750 --> 00:04:49,030

Stanton Friedman a lot this week

116

00:04:53,969 --> 00:04:51,760

yeah the guy is just an impeccable

117

00:04:59,400 --> 00:04:53,979

researcher his whole career I mean he's

118

00:05:01,320 --> 00:04:59,410

born in 30s he was a nuclear physicist

119

00:05:04,710 --> 00:05:01,330

worked at Westinghouse a bunch of other

120

00:05:09,510 --> 00:05:04,720

places worked on the nuclear bomb back

121

00:05:12,030 --> 00:05:09,520

in the day this this company what was it

122

00:05:13,320 --> 00:05:12,040

Douglas McDonnell Douglas yeah hired him

123

00:05:16,050 --> 00:05:13,330

after he was out of job for a little

124

00:05:19,380 --> 00:05:16,060

while working in nuclear physics hired

125

00:05:23,400 --> 00:05:19,390

him to figure out how UFOs fly and work

126

00:05:25,680 --> 00:05:23,410

like why they hired him yeah it says he

127

00:05:26,490 --> 00:05:25,690

says he shows up to McDonnell Douglas

128

00:05:29,580 --> 00:05:26,500

and

129

00:05:31,020 --> 00:05:29,590

the the person at the front said oh if

130

00:05:33,660 --> 00:05:31,030

you haven't heard we just laid off like

131

00:05:35,160 --> 00:05:33,670

3,000 people he was like well I have the

132

00:05:37,700 --> 00:05:35,170

acceptance letter in my hand I'm like

133

00:05:40,290 --> 00:05:37,710

hey come work for us

134

00:05:42,570 --> 00:05:40,300

yeah but he said he like worked there

135

00:05:45,090 --> 00:05:42,580

for three months and he didn't really go

136

00:05:48,600 --> 00:05:45,100

into you know too much on one I wonder

137

00:05:50,340 --> 00:05:48,610

what he ended up figuring but anyway

138

00:05:51,720 --> 00:05:50,350

super super interesting guy if you guys

139

00:05:55,500 --> 00:05:51,730

are new the podcast new to this

140

00:05:56,880 --> 00:05:55,510

community and are new to Stanton Freeman

141

00:05:57,420 --> 00:05:56,890

please look him up because he's awesome

142

00:05:59,400 --> 00:05:57,430

dude

143

00:06:01,470 --> 00:05:59,410

yeah definitely definitely you know you

144

00:06:03,210 --> 00:06:01,480

know I was listening to him talk about

145

00:06:06,240 --> 00:06:03,220

something and it really kind of like

146

00:06:09,270 --> 00:06:06,250

stuck with me and I think it's really

147

00:06:13,580 --> 00:06:09,280

just this whole like kind of newer

148

00:06:20,820 --> 00:06:13,590

generation of you know ufology I guess

149

00:06:22,950 --> 00:06:20,830

how every time he would go and do some

150

00:06:25,620 --> 00:06:22,960

sort of you know conference or whatever

151
00:06:27,390 --> 00:06:25,630
or just go speak to a group of people

152
00:06:30,480 --> 00:06:27,400
you know he would always ask you know

153
00:06:32,460 --> 00:06:30,490
how many people were like into this type

154
00:06:34,800 --> 00:06:32,470
of thing or how many people have had

155
00:06:37,200 --> 00:06:34,810
seen some sort of lights or had some

156
00:06:39,840 --> 00:06:37,210
sort of experience and he said you know

157
00:06:41,940 --> 00:06:39,850
quite a few people would always raise

158
00:06:43,860 --> 00:06:41,950
their hand yeah and then he would say

159
00:06:47,490 --> 00:06:43,870
you know how many of you have ever

160
00:06:51,390 --> 00:06:47,500
talked about it and usually about like

161
00:06:53,880 --> 00:06:51,400
maybe 10% of the 10% of the people that

162
00:06:55,530 --> 00:06:53,890
like rose their hand like right you know

163
00:06:57,360 --> 00:06:55,540

would raise their hand again it's like

164

00:06:59,460 --> 00:06:57,370

one out of a hundred yeah and he's like

165

00:07:01,500 --> 00:06:59,470

you know like with this whole thing you

166

00:07:04,290 --> 00:07:01,510

know people were so afraid of being

167

00:07:06,720 --> 00:07:04,300

ridiculed yeah and you know I mean it's

168

00:07:09,810 --> 00:07:06,730

it's it's very apparent like you know in

169

00:07:11,909 --> 00:07:09,820

the past you know people's lives have

170

00:07:14,310 --> 00:07:11,919

been ruined people's jobs have been lost

171

00:07:17,790 --> 00:07:14,320

you know they've been made out to be

172

00:07:18,120 --> 00:07:17,800

quacks and and you know it that's a real

173

00:07:23,340 --> 00:07:18,130

bummer

174

00:07:27,720 --> 00:07:23,350

of like I'm not telling anybody what to

175

00:07:29,850 --> 00:07:27,730

do but I would say now Joe Joe Papa Bear

176

00:07:33,540 --> 00:07:29,860

here Joe Papa Bear I got some knowledge

177

00:07:37,890 --> 00:07:33,550

for you guys I would say talk about it

178

00:07:40,080 --> 00:07:37,900

yeah talk about it speak up you know

179

00:07:43,110 --> 00:07:40,090

yeah I recently just had

180

00:07:45,750 --> 00:07:43,120

an interesting event happen at my work

181

00:07:48,600 --> 00:07:45,760

Joe you already know about this but you

182

00:07:52,050 --> 00:07:48,610

know I I did this kind of presentation

183

00:07:54,210 --> 00:07:52,060

on UFO Congress to my company and that's

184

00:07:55,440 --> 00:07:54,220

a tech company no one's really into this

185

00:07:58,530 --> 00:07:55,450

stuff you know at the at the beginning

186

00:08:00,480 --> 00:07:58,540

of the the presentation I asked it like

187

00:08:02,760 --> 00:08:00,490

if anybody's into UFOs we've ever seen

188

00:08:04,650 --> 00:08:02,770

anything and maybe one person who's one

189

00:08:06,750 --> 00:08:04,660

of my buddies that were yeah like raise

190

00:08:09,960 --> 00:08:06,760

their hand just out of like you know not

191

00:08:11,970 --> 00:08:09,970

make me feel so long but yeah like I put

192

00:08:14,490 --> 00:08:11,980

myself out there I talked about UFOs and

193

00:08:16,200 --> 00:08:14,500

I just said hey I'm sure everybody

194

00:08:18,240 --> 00:08:16,210

thinks I'm crazy right now but you know

195

00:08:19,469 --> 00:08:18,250

whatever I like this stuff and people

196

00:08:21,120 --> 00:08:19,479

came up to me afterwards and we're like

197

00:08:22,080 --> 00:08:21,130

thanks for being so vulnerable and like

198

00:08:23,490 --> 00:08:22,090

talking about stuff that you're

199

00:08:24,210 --> 00:08:23,500

interested in like I hope you didn't

200

00:08:25,800 --> 00:08:24,220

feel judged

201
00:08:27,270 --> 00:08:25,810
yeah like cuz no one judged you like

202
00:08:28,620 --> 00:08:27,280
you're fine like no one thinks you're

203
00:08:30,600 --> 00:08:28,630
crazy like that was really interesting

204
00:08:32,820 --> 00:08:30,610
exactly and loved it and I think that's

205
00:08:34,980 --> 00:08:32,830
kind of the mindset of today is like you

206
00:08:36,750 --> 00:08:34,990
know like man just be what you're into

207
00:08:39,690 --> 00:08:36,760
yeah you know like who cares if you're

208
00:08:41,969 --> 00:08:39,700
into UFOs or aliens you know like I mean

209
00:08:43,950 --> 00:08:41,979
you literally have people like dressing

210
00:08:46,170 --> 00:08:43,960
up as ponies now and like having a pony

211
00:08:48,450 --> 00:08:46,180
weekend like who gives a [h__h] that

212
00:08:51,150 --> 00:08:48,460
you're into aliens like that's now

213
00:08:53,130 --> 00:08:51,160

there's nowhere near as you know that's

214

00:08:55,530 --> 00:08:53,140

a good point there's so much more weird

215

00:08:58,650 --> 00:08:55,540

stuff out there now yes that's a good

216

00:09:00,690 --> 00:08:58,660

point yeah people walk around with like

217

00:09:02,880 --> 00:09:00,700

foxtail butt plugs in and stuff like

218

00:09:06,210 --> 00:09:02,890

that like and it's like you're out in

219

00:09:08,940 --> 00:09:06,220

public and it's like well yeah the butt

220

00:09:10,500 --> 00:09:08,950

plug in okay we're like like all of a

221

00:09:12,510 --> 00:09:10,510

sudden I'm the [ʌ__\h] weirdo because I

222

00:09:14,220 --> 00:09:12,520

like aliens and UFOs like get out of

223

00:09:16,470 --> 00:09:14,230

here you don't say like nowadays like

224

00:09:18,390 --> 00:09:16,480

culture has shifted so much that like if

225

00:09:20,520 --> 00:09:18,400

that's what you're into man be into that

226

00:09:22,949 --> 00:09:20,530

like don't be afraid to say anything

227

00:09:25,290 --> 00:09:22,959

about it you know and it is really they

228

00:09:27,660 --> 00:09:25,300

like that shift of consciousness on on

229

00:09:30,150 --> 00:09:27,670

just uh you know like just the whole

230

00:09:31,890 --> 00:09:30,160

topic in general like I don't like I

231

00:09:33,660 --> 00:09:31,900

said we've said this a million times on

232

00:09:36,960 --> 00:09:33,670

the podcast like I don't think people

233

00:09:39,510 --> 00:09:36,970

think it's as weird as people used to

234

00:09:42,240 --> 00:09:39,520

think it is yeah and it's really not so

235

00:09:44,040 --> 00:09:42,250

you know like be proud man you know what

236

00:09:46,199 --> 00:09:44,050

I'm saying like be proud about it you

237

00:09:47,790 --> 00:09:46,209

know cuz like really I mean now if

238

00:09:50,400 --> 00:09:47,800

you're in it and you're like talking

239

00:09:52,530 --> 00:09:50,410

about it I mean I'm not saying that like

240

00:09:53,470 --> 00:09:52,540

you know it's like you're on the cutting

241

00:09:55,180 --> 00:09:53,480

edge or anything

242

00:09:58,720 --> 00:09:55,190

but I mean you definitely are eyes on

243

00:10:00,430 --> 00:09:58,730

this new wave of think you are of people

244

00:10:02,680 --> 00:10:00,440

who are like expressing themselves

245

00:10:04,569 --> 00:10:02,690

through this you know I mean don't be a

246

00:10:07,000 --> 00:10:04,579

[h__h] liar and make [h__h] up yeah I

247

00:10:09,639 --> 00:10:07,010

mean like if you you know if that's what

248

00:10:11,199 --> 00:10:09,649

you're into then like be cool about it

249

00:10:13,389 --> 00:10:11,209

like everybody else like I don't think

250

00:10:15,850 --> 00:10:13,399

anybody else's is like really like gonna

251
00:10:17,470 --> 00:10:15,860
judge you anymore right now yeah I think

252
00:10:18,310 --> 00:10:17,480
that time has come and passed man oh

253
00:10:20,019 --> 00:10:18,320
yeah definitely

254
00:10:22,210 --> 00:10:20,029
I think it's over for sure I think

255
00:10:24,100 --> 00:10:22,220
people are just just curious about it

256
00:10:27,610 --> 00:10:24,110
and more open-minded and again there's

257
00:10:29,439 --> 00:10:27,620
much way worse like weirder [h__\h] going

258
00:10:32,170 --> 00:10:29,449
on yeah I saw this me me there today

259
00:10:34,750 --> 00:10:32,180
speaking of the tail but bug-free tail

260
00:10:37,120 --> 00:10:34,760
yeah I saw this photo of somebody in

261
00:10:46,750 --> 00:10:37,130
Walmart and it's this girl she has nine

262
00:11:00,370 --> 00:10:46,760
tails coming out like Pokemon it was

263
00:11:03,460 --> 00:11:00,380

just nine tails yeah things we yeah man

264

00:11:06,550 --> 00:11:03,470

I mean you know and and honestly like

265

00:11:09,160 --> 00:11:06,560

when I wear my hat or I wear my shirt

266

00:11:12,910 --> 00:11:09,170

you know yeah I have some of the best

267

00:11:15,970 --> 00:11:12,920

conversations that I could ever have

268

00:11:17,379 --> 00:11:15,980

yeah dude so I started driving uber on

269

00:11:19,150 --> 00:11:17,389

the weekends just because I think it'd

270

00:11:22,750 --> 00:11:19,160

be fun and it'd be a cool way to like

271

00:11:24,910 --> 00:11:22,760

know have cool conversations i anyway

272

00:11:26,559 --> 00:11:24,920

personally whatever i'm i'm doing i'm

273

00:11:28,569 --> 00:11:26,569

doing over every now and then it's not

274

00:11:30,069 --> 00:11:28,579

something i have a day job whatever but

275

00:11:32,470 --> 00:11:30,079

dude i've been wearing my hat backwards

276

00:11:34,389 --> 00:11:32,480

so it has the logo on the back and like

277

00:11:37,329 --> 00:11:34,399

maybe three my passengers have asked

278

00:11:38,559 --> 00:11:37,339

about it and we're so stoked Hey gave

279

00:11:41,259 --> 00:11:38,569

them stickers I've been riding around

280

00:11:43,030 --> 00:11:41,269

with stickers in my car nice so nice a

281

00:11:44,439 --> 00:11:43,040

lot of it's like dude like if they're

282

00:11:47,710 --> 00:11:44,449

interested they'll ask you about it and

283

00:11:49,710 --> 00:11:47,720

I've had the best conversations about it

284

00:11:51,759 --> 00:11:49,720

just just the people are just

285

00:11:54,370 --> 00:11:51,769

automatically really interested they see

286

00:11:56,139 --> 00:11:54,380

the word UFO yeah and they're like well

287

00:11:59,050 --> 00:11:56,149

what is your hat mean it so says podcast

288

00:12:00,970 --> 00:11:59,060

oh yeah that's my podcast nah so it's

289

00:12:03,550 --> 00:12:00,980

been pretty cool to see that yeah yeah

290

00:12:06,490 --> 00:12:03,560

and you know I mean just doing this

291

00:12:08,920 --> 00:12:06,500

podcast has been so much fun dude

292

00:12:12,220 --> 00:12:08,930

I mean it's it's out there for the world

293

00:12:14,290 --> 00:12:12,230

to hear and I think that's okay yeah

294

00:12:15,670 --> 00:12:14,300

yeah I think that's okay I'm having a

295

00:12:18,250 --> 00:12:15,680

good time yeah like we said before I

296

00:12:19,840 --> 00:12:18,260

mean more people want to talk about it I

297

00:12:21,970 --> 00:12:19,850

think everybody's just kind of breaking

298

00:12:23,080 --> 00:12:21,980

out of their shell right now yeah so you

299

00:12:24,700 --> 00:12:23,090

know that's what we're here for

300

00:12:26,140 --> 00:12:24,710

you gotta stretch you out of that goo

301
00:12:28,810 --> 00:12:26,150
you know yeah that's right dude you got

302
00:12:31,210 --> 00:12:28,820
a lot of that that egg that ectoplasmic

303
00:12:33,340 --> 00:12:31,220
you know yeah yeah it's it make it make

304
00:12:35,350 --> 00:12:33,350
might smell a little bit know you've

305
00:12:38,350 --> 00:12:35,360
been in there for a while yeah most your

306
00:12:44,980 --> 00:12:38,360
life it's probably state lots of farts

307
00:12:47,830 --> 00:12:44,990
in there thanks ol Spang case yeah and

308
00:12:49,960 --> 00:12:47,840
it kind of reminds me of a video that

309
00:12:51,490 --> 00:12:49,970
somebody posted on our was a Joseph that

310
00:12:53,830 --> 00:12:51,500
posted that video or who was it that

311
00:12:57,160 --> 00:12:53,840
posed of the video the the the bad

312
00:12:58,750 --> 00:12:57,170
acting one yeah Joseph yeah yeah yeah

313
00:13:03,040 --> 00:12:58,760

the what would you do show what would

314

00:13:05,350 --> 00:13:03,050

you do do you believe in aliens like he

315

00:13:07,360 --> 00:13:05,360

was famous it was sooo funny like oh I

316

00:13:09,640 --> 00:13:07,370

reckon I wonder if they went back like

317

00:13:11,860 --> 00:13:09,650

post editing like hey will you act like

318

00:13:13,210 --> 00:13:11,870

you're surprised when comes about I mean

319

00:13:18,580 --> 00:13:13,220

if that will ever walked out of a room

320

00:13:21,460 --> 00:13:18,590

I'd be like oh hello on TV I'm gonna say

321

00:13:23,440 --> 00:13:21,470

anything bad also if you look at the

322

00:13:25,840 --> 00:13:23,450

background there's like 30 people behind

323

00:13:27,970 --> 00:13:25,850

everybody like okay all of a sudden

324

00:13:32,560 --> 00:13:27,980

there's a crowd full of people yeah like

325

00:13:34,480 --> 00:13:32,570

everybody's looking at me yeah yeah but

326

00:13:37,090 --> 00:13:34,490

yeah I mean there I mean and there

327

00:13:39,190 --> 00:13:37,100

definitely are people out there like the

328

00:13:41,200 --> 00:13:39,200

lady that's portrayed in this video is

329

00:13:42,970 --> 00:13:41,210

like that's ridiculous

330

00:13:46,390 --> 00:13:42,980

yeah there's nothing else out there

331

00:13:48,940 --> 00:13:46,400

right there's no annek and it's teens

332

00:13:51,670 --> 00:13:48,950

their own no biggie no biggie you say

333

00:13:54,310 --> 00:13:51,680

there is no evidence I say the evidence

334

00:13:56,560 --> 00:13:54,320

is overwhelming yeah um you just really

335

00:13:58,120 --> 00:13:56,570

gotta look for it yeah you know that's

336

00:13:59,530 --> 00:13:58,130

the thing I mean we've been saying that

337

00:14:01,170 --> 00:13:59,540

since the beginning of the podcast like

338

00:14:03,790 --> 00:14:01,180

this stuff is just kind of hard to see

339

00:14:05,980 --> 00:14:03,800

or kind of hard to see if you're not

340

00:14:08,430 --> 00:14:05,990

looking for it or wanting to dig right I

341

00:14:11,650 --> 00:14:08,440

made this point in my presentation like

342

00:14:13,570 --> 00:14:11,660

I realized that my newsfeed is a

343

00:14:17,260 --> 00:14:13,580

probably a lot different than everyone

344

00:14:19,780 --> 00:14:17,270

else's here like I see a lot a lot of

345

00:14:22,660 --> 00:14:19,790

news stories and people posting you

346

00:14:25,450 --> 00:14:22,670

then then they will ever see so I

347

00:14:27,970 --> 00:14:25,460

realized that my perception of reality

348

00:14:30,520 --> 00:14:27,980

and news is a little skewed towards the

349

00:14:32,710 --> 00:14:30,530

UFO phenomenon yeah things like that so

350

00:14:34,180 --> 00:14:32,720

yeah it's just because I've been diggin

351
00:14:35,830 --> 00:14:34,190
and stuff and once the internet knows

352
00:14:42,910 --> 00:14:35,840
you're digging for stuff then it's just

353
00:14:44,560 --> 00:14:42,920
kind of absolutely yeah yeah but yeah

354
00:14:46,120 --> 00:14:44,570
the show what would you do what would

355
00:14:48,550 --> 00:14:46,130
you do yeah that was such an awesome

356
00:14:50,920 --> 00:14:48,560
video Joseph thanks for posting that

357
00:14:52,990 --> 00:14:50,930
that was interesting yeah dude if you

358
00:14:55,540 --> 00:14:53,000
haven't seen it check out UFO garage

359
00:14:57,130 --> 00:14:55,550
podcast group check out the group if

360
00:14:58,840 --> 00:14:57,140
you're not a part of a group get in the

367

00:15:20,020 --> 00:15:17,260

yes deric posted this China this Chinese

368

00:15:22,060 --> 00:15:20,030

UFO looking thing and I mean this isn't

369

00:15:28,780 --> 00:15:22,070

some blurry photo this is an actual

370

00:15:30,520 --> 00:15:28,790

photo of a aerial vehicle I mean what

371

00:15:35,740 --> 00:15:30,530

I'm trying to say is lying fortune

372

00:15:38,950 --> 00:15:35,750

cookie it's like this off gray pewter

373

00:15:40,540 --> 00:15:38,960

color with the is that right that's not

374

00:15:42,820 --> 00:15:40,550

China's logo that's like maybe they're

375

00:15:46,390 --> 00:15:42,830

Air Force I don't know yeah the star and

376

00:15:48,430 --> 00:15:46,400

the wings on it looks like Top Gun but

377

00:15:50,350 --> 00:15:48,440

it the the title is China builds 400

378

00:15:52,060 --> 00:15:50,360

mile per hour flying saucer attack

379

00:15:55,420 --> 00:15:52,070

helicopter with stealth coating and

380

00:15:57,520 --> 00:15:55,430

missile system 400 miles dude that mile

381

00:15:59,800 --> 00:15:57,530

per hour that's pretty fast yeah I mean

382

00:16:02,020 --> 00:15:59,810

I bet if you flew that [h__h] over America

383

00:16:05,920 --> 00:16:02,030

our tr-3b would blow it out of the sky

384

00:16:09,490 --> 00:16:05,930

oh yeah oh for sure we'll probably you

385

00:16:11,710 --> 00:16:09,500

know point at Brown missile Adam I know

386

00:16:18,310 --> 00:16:11,720

the brown missile is right is somebody's

387

00:16:20,140 --> 00:16:18,320

but it's that it's that sonic that sonic

388

00:16:21,940 --> 00:16:20,150

weapon where they shoot sound waves that

389

00:16:26,170 --> 00:16:21,950

you make you poop your pants yeah brown

390

00:16:30,880 --> 00:16:26,180

brown oh yeah I think kind of looks like

391

00:16:32,860 --> 00:16:30,890

a brown now what else we got Oh Andy

392

00:16:36,970 --> 00:16:32,870

395

00:16:42,820 --> 00:16:40,820

that's freaking perfect I'm sure it

396

00:16:45,370 --> 00:16:42,830

grill is better than it flies Yeah right

397

00:16:47,020 --> 00:16:45,380

yeah but it's sick I love that thing

398

00:16:51,360 --> 00:16:47,030

dude that is so awesome

399

00:16:58,480 --> 00:16:56,820

official UFO garage yeah I do a grill

400

00:17:02,110 --> 00:16:58,490

love it dude

401
00:17:03,790 --> 00:17:02,120
I love it that's it for Facebook in

402
00:17:06,750 --> 00:17:03,800

this stuff is uh we love to do this and

411
00:17:27,880 --> 00:17:26,090
in these donations really go to just

412
00:17:29,770 --> 00:17:27,890
kind of bettering the podcast what we're

413
00:17:32,080 --> 00:17:29,780

really saving up for right now is buying

414

00:17:35,320 --> 00:17:32,090

a couple of GoPros and we want a

415

00:17:37,780 --> 00:17:35,330

videotape our our show and put it up put

416

00:17:39,610 --> 00:17:37,790

it up on YouTube so that's what we've

417

00:17:42,550 --> 00:17:39,620

really been kind of saving up for and

418

00:17:45,340 --> 00:17:42,560

we're so actually no we're past we're

419

00:17:47,200 --> 00:17:45,350

past the point of buying the GoPros I

420

00:17:49,000 --> 00:17:47,210

think we're right around the time or

421

00:17:50,410 --> 00:17:49,010

right around the amount we're you know

422

00:17:52,510 --> 00:17:50,420

taxes and all that stuff and we were

423

00:17:54,730 --> 00:17:52,520

gonna we're looking into some lights for

424

00:17:58,030 --> 00:17:54,740

the room because the lighting in my

425

00:17:59,410 --> 00:17:58,040

Studios [h__\h] so yeah the GoPros and the

426

00:18:02,530 --> 00:17:59,420

light so that's what we're saving up for

427

00:18:05,980 --> 00:18:02,540

and we also are using it to go to these

428

00:18:08,890 --> 00:18:05,990

conferences and and I guess the next one

429

00:18:11,080 --> 00:18:08,900

that we're going to is the UFO Con is it

430

00:18:14,140 --> 00:18:11,090

you it's am I saying that wrong the

431

00:18:17,110 --> 00:18:14,150

Lorien fentons one is a UFO con not you

432

00:18:19,180 --> 00:18:17,120

yeah UFO Con in San Francisco yeah San

433

00:18:20,800 --> 00:18:19,190

Francisco so we're gonna be you putting

434

00:18:23,500 --> 00:18:20,810

some of that if if we make anymore

435

00:18:25,060 --> 00:18:23,510

between now and February going towards

436

00:18:27,640 --> 00:18:25,070

that it's gonna help us get there and

437

00:18:31,390 --> 00:18:27,650

not have to you know empty out our whole

438

00:18:32,530 --> 00:18:31,400

wall let's just stuff really help cuz

439

00:18:34,300 --> 00:18:32,540

we're kind of just paying for all this

440

00:18:36,850 --> 00:18:34,310

stuff ourselves no I know I know

441

00:18:39,100 --> 00:18:36,860

dude we met so many awesome people on

442

00:18:40,960 --> 00:18:39,110

the first one yeah and you were having

443

00:18:43,480 --> 00:18:40,970

them on it's guess rands dude it was

444

00:18:46,150 --> 00:18:43,490

such a good investment yeah and you know

445

00:18:47,980 --> 00:18:46,160

if you guys are enjoying that dude

446

00:18:50,350 --> 00:18:47,990

we're going to another conference with

447

00:18:51,670 --> 00:18:50,360

completely different speakers yes so I

448

00:18:54,430 --> 00:18:51,680

want to hear more people on the podcast

449

00:18:57,060 --> 00:18:54,440

instead of just like have more awesome

450

00:18:59,680 --> 00:18:57,070

gas talk about sea-monkeys and dumps

451
00:19:04,390 --> 00:18:59,690
we're way more prepared this week I feel

452
00:19:06,610 --> 00:19:04,400
like yeah but go to those conferences

453
00:19:08,500 --> 00:19:06,620
like you meet people we have more guest

454
00:19:10,300 --> 00:19:08,510
makes the podcast better it gives you

455
00:19:12,100 --> 00:19:10,310
more you know interesting stuff to

456
00:19:14,680 --> 00:19:12,110
listen to on the podcast stuff you've

457
00:19:16,360 --> 00:19:14,690
never heard I mean dude I mean like

458
00:19:17,950 --> 00:19:16,370
we've been doing this for a long time

459
00:19:20,620 --> 00:19:17,960
ago I mean we've been into the subject

460
00:19:23,200 --> 00:19:20,630
for a long time and man these people

461
00:19:25,990 --> 00:19:23,210
will say stuff that it blows your mind

462
00:19:29,710 --> 00:19:26,000
like whoa I've never even thought about

463
00:19:31,540 --> 00:19:29,720

that definite right so fresh perspective

464

00:19:34,120 --> 00:19:31,550

and it's I think it's a good ear to the

465

00:19:36,520 --> 00:19:34,130

ground if you're you know if you're on

466

00:19:38,470 --> 00:19:36,530

the tertiary part of just getting into

467

00:19:41,020 --> 00:19:38,480

the the subject you're only hearing

468

00:19:43,090 --> 00:19:41,030

about a couple of people and then if you

469

00:19:46,630 --> 00:19:43,100

really want to get into the ground level

470

00:19:49,090 --> 00:19:46,640

of well then degree the gravy they need

471

00:19:50,740 --> 00:19:49,100

and I feel like I want this podcast to

472

00:19:52,810 --> 00:19:50,750

kind of be where people can kind of go

473

00:19:55,330 --> 00:19:52,820

and not only just listen to us be

474

00:19:57,490 --> 00:19:55,340

dumbasses but like oh get some awesome

475

00:20:00,430 --> 00:19:57,500

information yeah like you can have fun

476

00:20:01,840 --> 00:20:00,440

but also get the need agree Nathan gravy

477

00:20:10,210 --> 00:20:01,850

without it being so boring and yeah

478

00:20:16,690 --> 00:20:10,220

exact standard oaring stuff yeah right

479

00:20:18,370 --> 00:20:16,700

make it fun and interesting so that is

480

00:20:25,090 --> 00:20:18,380

that's all I got for the donations in

481

00:20:26,770 --> 00:20:25,100

that in that you have sweet dude so what

482

00:20:30,220 --> 00:20:26,780

else we got man I mean we got the the

483

00:20:32,580 --> 00:20:30,230

conference coming up I'm super stoked we

484

00:20:35,650 --> 00:20:32,590

got our plane tickets were going uh-huh

485

00:20:37,720 --> 00:20:35,660

what else is new man dude hey so I heard

486

00:20:39,460 --> 00:20:37,730

something the other day that was kind of

487

00:20:40,590 --> 00:20:39,470

interesting wanting to get your thoughts

488

00:20:45,130 --> 00:20:40,600

on it

489

00:20:49,390 --> 00:20:45,140

alien abduction okay yes that's new

490

00:20:52,570 --> 00:20:49,400

right alien abduction no no okay so okay

491

00:20:57,580 --> 00:20:52,580

so I heard an interesting theory on it

492

00:21:01,720 --> 00:20:57,590

was a it was kind of about consciousness

493

00:21:05,500 --> 00:21:01,730

and how your DNA carries more

494

00:21:08,440 --> 00:21:05,510

information than anything could write

495

00:21:11,410 --> 00:21:08,450

okay and so part of this breeding

496

00:21:15,520 --> 00:21:11,420

program or some of the reasons that

497

00:21:20,560 --> 00:21:15,530

they're abducting us and and kind of

498

00:21:23,560 --> 00:21:20,570

mixing that genetic material yeah is for

499

00:21:26,590 --> 00:21:23,570

the consciousness so they've been

500

00:21:29,650 --> 00:21:26,600

abducting people over the years and as

501
00:21:32,530 --> 00:21:29,660
it goes on more and more people will

502
00:21:34,510 --> 00:21:32,540
have that DNA in them and they will pass

503
00:21:38,350 --> 00:21:34,520
that DNA down to the next generation

504
00:21:40,120 --> 00:21:38,360
also so up leveled consciousness is also

505
00:21:44,190 --> 00:21:40,130
brought through the DNA also brought

506
00:21:47,110 --> 00:21:44,200
through the DNA and so whether it be

507
00:21:49,450 --> 00:21:47,120
reptilian whether it be the greys the

508
00:21:53,190 --> 00:21:49,460
tall whites the Nordics whatever it is

509
00:21:55,990 --> 00:21:53,200
they're mixing this genetic material and

510
00:21:58,320 --> 00:21:56,000
eventually you'll come to a point to

511
00:22:01,330 --> 00:21:58,330
where your consciousness is the same as

512
00:22:05,860 --> 00:22:01,340
what their their level base you what if

513
00:22:07,840 --> 00:22:05,870

it's like it's like like an iOS or an OS

514

00:22:09,280 --> 00:22:07,850

an operating system for a computer we're

515

00:22:15,640 --> 00:22:09,290

like I was gonna say was head like a

516

00:22:21,900 --> 00:22:15,650

show or something on independent

517

00:22:26,880 --> 00:22:25,060

Ohio s is what Apple uses I don't really

518

00:22:28,570 --> 00:22:26,890

know what the eye means but anyway

519

00:22:30,130 --> 00:22:28,580

independent don't they have them

520

00:22:32,500 --> 00:22:30,140

innovate maybe that's what independent

521

00:22:34,360 --> 00:22:32,510

operating system I have no idea I just

522

00:22:35,440 --> 00:22:34,370

took a shot in the dark or I love that I

523

00:22:45,100 --> 00:22:35,450

thought you're gonna say it to the [h__\h]

524

00:22:47,470 --> 00:22:45,110

in the dark a tech company but operating

525

00:22:49,990 --> 00:22:47,480

system we're like just one species of

526

00:22:52,480 --> 00:22:50,000

alien is kind of like the windows right

527

00:22:55,090 --> 00:22:52,490

and then other species is like Mac yeah

528

00:22:59,680 --> 00:22:55,100

and others is like Linux you know right

529

00:23:02,800 --> 00:22:59,690

yeah yeah yeah but but eventually enough

530

00:23:05,350 --> 00:23:02,810

people will be on that that level of

531

00:23:08,920 --> 00:23:05,360

consciousness that they are also on that

532

00:23:11,350 --> 00:23:08,930

then and only then you will be able to

533

00:23:13,720 --> 00:23:11,360

understand and

534

00:23:16,299 --> 00:23:13,730

receive the information yeah right

535

00:23:18,789 --> 00:23:16,309

because because everybody is like right

536

00:23:22,299 --> 00:23:18,799

now we're like dude how come aliens

537

00:23:24,310 --> 00:23:22,309

don't talk to us right well we can't

538

00:23:26,680 --> 00:23:24,320

talked about this with Chris and how

539

00:23:29,440 --> 00:23:26,690

when he was on the podcast and how if

540

00:23:31,780 --> 00:23:29,450

you receive the information would you

541

00:23:34,720 --> 00:23:31,790

even know what to do with it you even be

542

00:23:37,960 --> 00:23:34,730

able to process it or kind of break it

543

00:23:40,180 --> 00:23:37,970

down would it right but if you were on

544

00:23:42,490 --> 00:23:40,190

the same level of consciousness as them

545

00:23:45,549 --> 00:23:42,500

and understood kind of what they

546

00:23:48,970 --> 00:23:45,559

understand only then will you be able to

547

00:23:52,150 --> 00:23:48,980

receive that information and so these

548

00:23:53,919 --> 00:23:52,160

abductees that are being taken they say

549

00:23:56,230 --> 00:23:53,929

when they come back they're not the same

550

00:23:59,440 --> 00:23:56,240

right their brains are operating

551

00:24:02,110 --> 00:23:59,450

different their IQ is like super high

552

00:24:04,900 --> 00:24:02,120

you know they almost can't cope with

553

00:24:07,270 --> 00:24:04,910

normal society because they're operating

554

00:24:10,180 --> 00:24:07,280

at such a high level now right right and

555

00:24:11,470 --> 00:24:10,190

so I think you know maybe that's a big

556

00:24:15,159 --> 00:24:11,480

part of it they're like swapping out

557

00:24:17,049 --> 00:24:15,169

hardware pretty much yeah they're just

558

00:24:20,020 --> 00:24:17,059

getting an upgrade their hardware is

559

00:24:22,990 --> 00:24:20,030

getting an upgrade dude yeah that's a

560

00:24:25,690 --> 00:24:23,000

really cool thought yeah I love that

561

00:24:27,580 --> 00:24:25,700

yeah that's really cool and so when they

562

00:24:30,669 --> 00:24:27,590

come back you know that's why they have

563

00:24:32,740 --> 00:24:30,679

such a hard time with normal society is

564

00:24:35,950 --> 00:24:32,750

because now they've been upgraded and

565

00:24:38,350 --> 00:24:35,960

they kind of understand some of this

566

00:24:40,960 --> 00:24:38,360

information it's being processed and

567

00:24:43,480 --> 00:24:40,970

just not enough of us have haven't had

568

00:24:45,549 --> 00:24:43,490

that happen to us yet not enough of us

569

00:24:49,720 --> 00:24:45,559

have had that contact not enough of us

570

00:24:52,810 --> 00:24:49,730

have you know been abducted or even can

571

00:24:54,669 --> 00:24:52,820

conceive the information on which they

572

00:24:58,539 --> 00:24:54,679

have to give us in the first place yeah

573

00:25:02,680 --> 00:24:58,549

I wonder like a lot of the abduction

574

00:25:04,240 --> 00:25:02,690

stories kind of talked about you know

575

00:25:06,070 --> 00:25:04,250

there's this there's this commonality

576

00:25:08,200 --> 00:25:06,080

between them that they that the aliens

577

00:25:10,330 --> 00:25:08,210

always communicate that to them telepak

578

00:25:13,840 --> 00:25:10,340

telepathically right and I wonder if

579

00:25:16,960 --> 00:25:13,850

that's that's a native offering

580

00:25:18,760 --> 00:25:16,970

operating system part of our brain that

581

00:25:21,100 --> 00:25:18,770

we can understand telepathic

582

00:25:23,830 --> 00:25:21,110

communication or if that's part of the

583

00:25:25,390 --> 00:25:23,840

upgrade so they're like they may be the

584

00:25:27,310 --> 00:25:25,400

era on the table and they

585

00:25:28,900 --> 00:25:27,320

upgrade you or whatever they put

586

00:25:31,900 --> 00:25:28,910

something in your DNA that just kind of

587

00:25:34,930 --> 00:25:31,910

rapidly spreads out and then now you can

588

00:25:36,400 --> 00:25:34,940

receive telepathic communication or

589

00:25:38,650 --> 00:25:36,410

something like that if that makes it

590

00:25:42,070 --> 00:25:38,660

yeah might be I mean it may be something

591

00:25:45,820 --> 00:25:42,080

that you know

592

00:25:49,420 --> 00:25:45,830

Lorien had talked about how the Grays

593

00:25:52,990 --> 00:25:49,430

have actually put a lock on our genetic

594

00:25:55,810 --> 00:25:53,000

code and so we're kind of stuck in this

595

00:26:01,510 --> 00:25:55,820

this where we are now

596

00:26:05,350 --> 00:26:01,520

yeah but you somehow you can unlock this

597

00:26:07,990 --> 00:26:05,360

right and so some of these people man I

598

00:26:12,340 --> 00:26:08,000

can't remember her name but she was in

599

00:26:15,100 --> 00:26:12,350

the in the seating the documentary of

600

00:26:16,570 --> 00:26:15,110

the seating Melinda no no is it it was a

601
00:26:21,220 --> 00:26:16,580
different lady it was the it was the

602
00:26:26,730 --> 00:26:21,230
younger girl right I forget her name but

603
00:26:30,490 --> 00:26:26,740
she was talking about being able to

604
00:26:33,580 --> 00:26:30,500
cleanse your DNA or basically like reset

605
00:26:35,500 --> 00:26:33,590
it through like certain like meditation

606
00:26:38,230 --> 00:26:35,510
practices and things like that which

607
00:26:40,570 --> 00:26:38,240
makes me wonder if you look at like the

608
00:26:42,250 --> 00:26:40,580
you know the monks and things like that

609
00:26:44,740 --> 00:26:42,260
and how they meditate and how they're

610
00:26:47,110 --> 00:26:44,750
able to do this astral traveling how

611
00:26:50,470 --> 00:26:47,120
they've actually learned how to cleanse

612
00:26:52,120 --> 00:26:50,480
their DNA or cleanse their whatever it

613
00:26:55,419 --> 00:26:52,130

is their consciousness their soul their

614

00:26:57,790 --> 00:26:55,429

body of this this locked

615

00:27:00,990 --> 00:26:57,800

you know mechanism that they have on us

616

00:27:04,720 --> 00:27:01,000

so they were actually able to find

617

00:27:06,490 --> 00:27:04,730

source and unlock this Wow you know but

618

00:27:10,270 --> 00:27:06,500

that's what they do they practice this

619

00:27:13,090 --> 00:27:10,280

meditation every day constantly some of

620

00:27:16,510 --> 00:27:13,100

these monks all they do is meditate for

621

00:27:18,549 --> 00:27:16,520

hours after emptying their trash exactly

622

00:27:20,740 --> 00:27:18,559

and exactly on their computer and so

623

00:27:24,340 --> 00:27:20,750

they're connecting to source directly

624

00:27:28,060 --> 00:27:24,350

hmm and so that's a way to unlock this

625

00:27:31,990 --> 00:27:28,070

this this you know whatever it is but

626
00:27:33,669 --> 00:27:32,000
yeah I mean so going back to I just had

627
00:27:35,169 --> 00:27:33,679
a thought and and this might be just

628
00:27:36,700 --> 00:27:35,179
taking it a told if totally different

629
00:27:38,200 --> 00:27:36,710
direction but

630
00:27:41,680 --> 00:27:38,210
I had to thought the other day we were

631
00:27:45,129 --> 00:27:41,690
talking about altering your DNA to be

632
00:27:47,080 --> 00:27:45,139
able to understand telepathy and tell

633
00:27:48,430 --> 00:27:47,090
them telepathic communication uh-huh and

634
00:27:50,289 --> 00:27:48,440
I was thinking like okay what's the

635
00:27:52,810 --> 00:27:50,299
difference between like the chimpanzee

636
00:27:55,600 --> 00:27:52,820
the bonobo chimp and the human they're

637
00:27:56,169 --> 00:27:55,610
pretty close like they're so smart those

638
00:27:58,389 --> 00:27:56,179

animals

639

00:28:01,419 --> 00:27:58,399

yeah and a lot of apes too like the

640

00:28:04,359 --> 00:28:01,429

gorilla and the other chimpanzees new

641

00:28:05,050 --> 00:28:04,369

orangutan of thanks I don't know why I

642

00:28:07,619 --> 00:28:05,060

said that

643

00:28:11,109 --> 00:28:07,629

[Laughter]

644

00:28:15,159 --> 00:28:11,119

thanks but the difference is a lot of it

645

00:28:17,259 --> 00:28:15,169

is just communication and not being able

646

00:28:20,289 --> 00:28:17,269

to speak so there's that there's that

647

00:28:24,460 --> 00:28:20,299

speech element of it just imagine if you

648

00:28:27,700 --> 00:28:24,470

could give an orangutan or a bonobos

649

00:28:29,980 --> 00:28:27,710

chimp the ability to speak you know yeah

650

00:28:32,049 --> 00:28:29,990

and not only just like a vocal chords

651

00:28:34,659 --> 00:28:32,059

but the the part of your brain that

652

00:28:37,619 --> 00:28:34,669

allows you to speak maybe that's kind of

653

00:28:40,419 --> 00:28:37,629

what these abduction in these these uh

654

00:28:42,879 --> 00:28:40,429

these upgrades are about like being able

655

00:28:45,009 --> 00:28:42,889

to I'm just kind of equated to yeah

656

00:28:47,739 --> 00:28:45,019

totally that way that would be us trying

657

00:28:50,259 --> 00:28:47,749

to do this to a chimp right so they're

658

00:28:52,090 --> 00:28:50,269

doing that to us us right so they're

659

00:28:53,710 --> 00:28:52,100

like they're so smart they're so close

660

00:28:55,509 --> 00:28:53,720

look how cute they are like they're so

661

00:28:57,249 --> 00:28:55,519

smart what if we just took him in like

662

00:28:59,619 --> 00:28:57,259

upgrade them a little bit so they can

663

00:29:01,419 --> 00:28:59,629

communicate with us yeah absolutely that

664

00:29:03,999 --> 00:29:01,429

maybe that's kind of the same idea

665

00:29:05,289 --> 00:29:04,009

Africa I forget who said it I don't

666

00:29:08,350 --> 00:29:05,299

remember where I heard it but they were

667

00:29:10,659 --> 00:29:08,360

talking about like we look at gorillas

668

00:29:13,180 --> 00:29:10,669

and monkeys and things right look this

669

00:29:16,239 --> 00:29:13,190

this gorilla can paint and he can sign

670

00:29:18,340 --> 00:29:16,249

language right well that's like the

671

00:29:21,879 --> 00:29:18,350

smartest gorilla on the planet right

672

00:29:24,220 --> 00:29:21,889

right to us but if we if like to an

673

00:29:26,049 --> 00:29:24,230

alien that would be like wheeling in

674

00:29:28,899 --> 00:29:26,059

like Stephen Hawking and being like oh

675

00:29:30,820 --> 00:29:28,909

look this guy can do physics in his head

676

00:29:32,710 --> 00:29:30,830

wrong math problems in his head and

677

00:29:34,989 --> 00:29:32,720

Stephen Hawking is one of the smartest

678

00:29:36,820 --> 00:29:34,999

guys on the entire was one of the

679

00:29:38,769 --> 00:29:36,830

smartest guys on the entire planet so

680

00:29:41,230 --> 00:29:38,779

that's the equivalent on like they're so

681

00:29:43,720 --> 00:29:41,240

smart that Stephen Hawking is basically

682

00:29:45,820 --> 00:29:43,730

just the smartest monkey right right

683

00:29:47,739 --> 00:29:45,830

just like to us that gorillas who can

684

00:29:50,170 --> 00:29:47,749

paint in sign language is just the

685

00:29:51,940 --> 00:29:50,180

smartest gorilla you know yeah

686

00:29:54,880 --> 00:29:51,950

yeah dude that's that's a really good

687

00:29:56,200 --> 00:29:54,890

point yeah you gotta believe that that

688

00:29:58,270 --> 00:29:56,210

there's some truth to that

689

00:30:00,580 --> 00:29:58,280

yeah absolutely dude I don't see why not

690

00:30:03,870 --> 00:30:00,590

why not I mean that would be the most

691

00:30:07,900 --> 00:30:03,880

logical explanation I mean just putting

692

00:30:10,000 --> 00:30:07,910

our reality and equating it to what a

693

00:30:11,680 --> 00:30:10,010

higher being I mean I don't think

694

00:30:13,090 --> 00:30:11,690

there's anything wrong with that I think

695

00:30:14,560 --> 00:30:13,100

a lot of people would say oh just

696

00:30:16,810 --> 00:30:14,570

because you think that doesn't mean that

697

00:30:19,480 --> 00:30:16,820

the aliens think the same way you do

698

00:30:21,400 --> 00:30:19,490

right right yeah I mean there's a bunch

699

00:30:24,280 --> 00:30:21,410

of different art arguments surrounding

700

00:30:26,190 --> 00:30:24,290

that I'm sure but yeah that's really

701

00:30:29,260 --> 00:30:26,200

interesting I love that idea

702

00:30:33,130 --> 00:30:29,270

you said wheeling in you got a wheel

703

00:30:38,530 --> 00:30:33,140

that guy yeah you know he doesn't walk

704

00:30:41,110 --> 00:30:38,540

very good very good yeah yeah yeah it's

705

00:30:43,030 --> 00:30:41,120

kind of the equivalent I saw this this

706

00:30:46,470 --> 00:30:43,040

thing about this experiment going on

707

00:30:49,660 --> 00:30:46,480

where the they had this research

708

00:30:51,210 --> 00:30:49,670

facility had a bunch maybe like it was

709

00:30:53,260 --> 00:30:51,220

like three different chimpanzees and

710

00:30:54,970 --> 00:30:53,270

they would plate they had this little

711

00:30:57,160 --> 00:30:54,980

scream that they could access these

712

00:31:01,230 --> 00:30:57,170

chimpanzees you know and they would show

713

00:31:03,820 --> 00:31:01,240

them for like a second the this

714

00:31:04,450 --> 00:31:03,830

organization of blocks with numbers in

715

00:31:07,840 --> 00:31:04,460

them

716

00:31:09,190 --> 00:31:07,850

Numerical from one to ten and they were

717

00:31:10,870 --> 00:31:09,200

all in different places on the screen

718

00:31:12,190 --> 00:31:10,880

and they would show it for a second and

719

00:31:14,530 --> 00:31:12,200

then they would get rid of the numbers

720

00:31:17,440 --> 00:31:14,540

and they would ask the monkey you know

721

00:31:20,320 --> 00:31:17,450

if you if you tap the boxes in order

722

00:31:21,760 --> 00:31:20,330

from one to ten you get food yeah so

723

00:31:24,430 --> 00:31:21,770

they would show it for a second and they

724

00:31:25,840 --> 00:31:24,440

would memorize where those numbers were

725

00:31:31,750 --> 00:31:25,850

perfectly every time

726

00:31:37,760 --> 00:31:31,760

yes but get that to a human a second

727

00:31:37,770 --> 00:31:42,180

[Applause]

728

00:31:52,090 --> 00:31:49,300

those grapes yeah starve but that's like

729

00:31:53,470 --> 00:31:52,100

but so the point of the experiment is

730

00:31:55,600 --> 00:31:53,480

that their brains are just wired a

731

00:31:57,520 --> 00:31:55,610

different way yeah and it's because they

732

00:31:59,320 --> 00:31:57,530

can't communicate the same way we do

733

00:32:01,330 --> 00:31:59,330

they they they don't process information

734

00:32:03,190 --> 00:32:01,340

the same way we do I'm not gonna go in

735

00:32:04,930 --> 00:32:03,200

as details because I'm not a

736

00:32:06,460 --> 00:32:04,940

I don't know what the hell I'm talking I

737

00:32:07,780 --> 00:32:06,470

mean we're just doctor signs just doctor

738

00:32:10,120 --> 00:32:07,790

scientists hey speaking of doctor

739

00:32:13,030 --> 00:32:10,130

scientists yeah we got doctor scientists

740

00:32:16,150 --> 00:32:13,040

shirts maybe we do in our store dude and

741

00:32:23,080 --> 00:32:16,160

sedimentary sedimentary doll

742

00:32:24,940 --> 00:32:23,090

we got cinnamon Tara sure go to a UFO

743

00:32:29,940 --> 00:32:24,950

garage PC dot-com check out our new

744

00:32:34,270 --> 00:32:29,950

shirts they're soaked up love it love it

745

00:32:35,500 --> 00:32:34,280

but yeah man I mean I don't do you have

746

00:32:38,200 --> 00:32:35,510

anything else before we kind of jump

747

00:32:40,300 --> 00:32:38,210

into this this interview no not really

748

00:32:42,190 --> 00:32:40,310

man I think we should get into it yeah

749

00:32:44,080 --> 00:32:42,200

let's do it we've been good Gavin for a

750

00:32:45,160 --> 00:32:44,090

while I'm sure people already if they

751
00:32:48,520 --> 00:32:45,170
haven't skipped through this part

752
00:32:51,190 --> 00:32:48,530
already stoked to hear it let's do it so

753
00:32:54,430 --> 00:32:51,200
check it out guys we got Joanna 8 encour

754
00:32:57,010 --> 00:32:54,440
here she's the archivist that was put in

755
00:32:59,140 --> 00:32:57,020
charge of or well well donated to by

756
00:33:01,300 --> 00:32:59,150
Stanton Friedman all of his research for

757
00:33:04,540 --> 00:33:01,310
60 plus years he donated this his

758
00:33:07,570 --> 00:33:04,550
research she said it was a three rooms

759
00:33:10,000 --> 00:33:07,580
full of papers and documents stacked yes

760
00:33:12,540 --> 00:33:10,010
stacked on stacked on stacked and they

761
00:33:15,910 --> 00:33:12,550
came in on trucks yeah that's how much

762
00:33:17,830 --> 00:33:15,920
information he had yeah and and I mean

763
00:33:19,900 --> 00:33:17,840

if you guys know about Stanton Friedman

764

00:33:24,060 --> 00:33:19,910

he was a really big researcher really

765

00:33:27,610 --> 00:33:24,070

really in-depth he kept everything so

766

00:33:31,030 --> 00:33:27,620

Joanna and her team in New Brunswick

767

00:33:32,560 --> 00:33:31,040

Canada are archiving these things

768

00:33:37,420 --> 00:33:32,570

putting the putting these documents

769

00:33:39,760 --> 00:33:37,430

since January of 2019 categorizing

770

00:33:42,070 --> 00:33:39,770

things it's almost been a year she says

771

00:33:43,390 --> 00:33:42,080

there's still more to go it's such an

772

00:33:46,990 --> 00:33:43,400

interesting topic she's such a nice

773

00:33:48,760 --> 00:33:47,000

woman and I just again great time so

774

00:33:52,000 --> 00:33:48,770

glad that she was able to come on the

775

00:33:53,380 --> 00:33:52,010

podcast and yeah it was it was a good it

776

00:33:54,850 --> 00:33:53,390

was a good conversation yeah do let's

777

00:33:57,100 --> 00:33:54,860

bring her on yeah

778

00:33:58,630 --> 00:33:57,110

all right hey Joanna this has been a Joe

779

00:34:01,030 --> 00:33:58,640

from the UFO garage podcast how you

780

00:34:02,950 --> 00:34:01,040

doing this evening I'm doing just fine

781

00:34:04,630 --> 00:34:02,960

how are you we're doing great

782

00:34:07,060 --> 00:34:04,640

so sorry about the technical

783

00:34:09,070 --> 00:34:07,070

difficulties we've done the phone call

784

00:34:12,250 --> 00:34:09,080

three ways now so we're it's it's a

785

00:34:14,980 --> 00:34:12,260

troubleshoot every every time okay

786

00:34:16,390 --> 00:34:14,990

that's fine sorry about that thank you

787

00:34:18,130 --> 00:34:16,400

so much for taking our call

788

00:34:19,960 --> 00:34:18,140

and hanging out with us tonight in

789

00:34:22,990 --> 00:34:19,970

chit-chattin we've we're really really

790

00:34:24,970 --> 00:34:23,000

stoked to talk to you and just kind of

791

00:34:27,940 --> 00:34:24,980

get to know you and and and what what

792

00:34:30,130 --> 00:34:27,950

you do and you know this is all in light

793

00:34:34,060 --> 00:34:30,140

of the Stanton Friedman documents that

794

00:34:36,040 --> 00:34:34,070

were handed over to be archived and yeah

795

00:34:38,550 --> 00:34:36,050

we just we we just want to say what's up

796

00:34:41,620 --> 00:34:38,560

and thanks for being on the podcast and

797

00:34:44,400 --> 00:34:41,630

I guess let our listeners know a little

798

00:34:49,690 --> 00:34:44,410

bit of about you and and what you do

799

00:34:51,400 --> 00:34:49,700

okay so my name is Joanna I am an

800

00:34:55,050 --> 00:34:51,410

archivist with the provincial archives

801
00:34:58,810 --> 00:34:55,060
and New Brunswick which is in Canada and

802
00:35:02,290 --> 00:34:58,820
we have had these phantom freedmen

803
00:35:04,140 --> 00:35:02,300
archives as research records since um I

804
00:35:08,050 --> 00:35:04,150
guess we started picking them up in

805
00:35:11,740 --> 00:35:08,060
January of this past year and we picked

806
00:35:15,820 --> 00:35:11,750
up the last cargo van full mm I guess it

807
00:35:20,650 --> 00:35:15,830
was about two weeks ago now Wow yeah

808
00:35:24,550 --> 00:35:20,660
yeah it was all right oh sorry they're

809
00:35:27,880 --> 00:35:24,560
all in cargo vans cargo vans yeah ended

810
00:35:29,890 --> 00:35:27,890
up being about five cargo vans worth of

811
00:35:33,850 --> 00:35:29,900
Records and total so we are talking

812
00:35:36,940 --> 00:35:33,860
about a fairly fairly large fairly large

813
00:35:39,430 --> 00:35:36,950

collection of records that we are that

814

00:35:43,180 --> 00:35:39,440

we are slowly making our way through but

815

00:35:45,670 --> 00:35:43,190

it's uh it's it's fascinating stuff it's

816

00:35:47,980 --> 00:35:45,680

it's probably it was definitely the most

817

00:35:53,010 --> 00:35:47,990

unique collection that I have worked on

818

00:35:56,790 --> 00:35:53,020

in my 20 years of being an archivist so

819

00:35:59,260 --> 00:35:56,800

an exciting exciting year for me

820

00:36:01,800 --> 00:35:59,270

yeah did you have like what what types

821

00:36:04,900 --> 00:36:01,810

of questions would you like me to answer

822

00:36:06,700 --> 00:36:04,910

I mean the so the article that we were

823

00:36:09,700 --> 00:36:06,710

reading through it it says that there's

824

00:36:14,170 --> 00:36:09,710

about 300 boxes so I guess that thing is

825

00:36:16,300 --> 00:36:14,180

way bigger than just 300 boxes huh yeah

826

00:36:19,570 --> 00:36:16,310

it's definitely going to be more than

827

00:36:21,610 --> 00:36:19,580

that so at the time that I would have

828

00:36:25,060 --> 00:36:21,620

given the initial interview for that we

829

00:36:27,650 --> 00:36:25,070

hadn't picked up the last load and so

830

00:36:29,750 --> 00:36:27,660

it's definitely a clone

831

00:36:32,960 --> 00:36:29,760

I'm not sure how big it's going to be by

832

00:36:35,650 --> 00:36:32,970

the time we're done with everything Stan

833

00:36:39,560 --> 00:36:35,660

we might span a couple of times before

834

00:36:41,630 --> 00:36:39,570

before he passed and every time we went

835

00:36:44,000 --> 00:36:41,640

to the house to pick up you know cargo

836

00:36:46,430 --> 00:36:44,010

van or so worth of Records you kind of

837

00:36:51,530 --> 00:36:46,440

look around the basement and say well I

838

00:36:57,130 --> 00:36:51,540

don't have a secretary like yes we can

839

00:37:00,230 --> 00:36:57,140

tell secretary so we're talking about

840

00:37:04,610 --> 00:37:00,240

records dating way back to the beginning

841

00:37:07,760 --> 00:37:04,620

of his years of interest in in UFO

842

00:37:10,760 --> 00:37:07,770

research and they're really not in any

843

00:37:12,980 --> 00:37:10,770

order there were filing cabinet around

844

00:37:14,720 --> 00:37:12,990

the perimeter of one of the rooms we're

845

00:37:15,380 --> 00:37:14,730

talking about three rooms worth of

846

00:37:19,550 --> 00:37:15,390

Records

847

00:37:22,370 --> 00:37:19,560

but even if suppon filing cabinets not

848

00:37:25,910 --> 00:37:22,380

really in any particular order so it is

849

00:37:29,420 --> 00:37:25,920

literally going through boxes of

850

00:37:32,930 --> 00:37:29,430

material where you may find one piece of

851
00:37:35,210 --> 00:37:32,940
a letter and then you may never see that

852
00:37:37,730 --> 00:37:35,220
like the second or third pages of a

853
00:37:39,620 --> 00:37:37,740
letter until you get you know 20 boxes

854
00:37:41,870 --> 00:37:39,630
further in so it's not a matter of

855
00:37:44,240 --> 00:37:41,880
trying to it's like a jigsaw puzzle

856
00:37:45,890 --> 00:37:44,250
we're piecing things back together Wow

857
00:37:49,730 --> 00:37:45,900
that's got to be pretty pretty

858
00:37:52,370 --> 00:37:49,740
labor-intensive yeah yeah it's going to

859
00:37:54,890 --> 00:37:52,380
be quite a long time it's going to be a

860
00:37:58,400 --> 00:37:54,900
long time unless unless by some miracle

861
00:38:00,980 --> 00:37:58,410
we can dedicate some more staff time to

862
00:38:02,300 --> 00:38:00,990
it but we're plowing through it as

863
00:38:05,030 --> 00:38:02,310

quickly as we can because there's

864

00:38:07,220 --> 00:38:05,040

certainly been a demand and a lot of

865

00:38:10,310 --> 00:38:07,230

interest in the collection brightly so I

866

00:38:12,230 --> 00:38:10,320

mean it's great stuff oh yeah yeah I bet

867

00:38:13,760 --> 00:38:12,240

it has been but you know I like you were

868

00:38:15,740 --> 00:38:13,770

saying earlier it's definitely like an

869

00:38:17,930 --> 00:38:15,750

interesting collection so you know I

870

00:38:19,550 --> 00:38:17,940

mean that's got to be that's got to be a

871

00:38:21,410 --> 00:38:19,560

lot of fun like even though it's a lot

872

00:38:23,270 --> 00:38:21,420

of work it's got to be a lot of fun to

873

00:38:25,220 --> 00:38:23,280

be able to get your hands on on certain

874

00:38:28,370 --> 00:38:25,230

documents and things that you know that

875

00:38:31,460 --> 00:38:28,380

Friedman did and just be able to read

876

00:38:33,260 --> 00:38:31,470

through his work you know oh yeah yeah

877

00:38:35,180 --> 00:38:33,270

so actually it's a way that we've been

878

00:38:37,880 --> 00:38:35,190

trying to do it because I mean we aren't

879

00:38:40,130 --> 00:38:37,890

we're a provincial archives in small

880

00:38:41,329 --> 00:38:40,140

province in Canada and so this is just

881

00:38:43,190 --> 00:38:41,339

one

882

00:38:45,920 --> 00:38:43,200

collection of records that we are

883

00:38:49,789 --> 00:38:45,930

working on right so a lot of the records

884

00:38:52,249 --> 00:38:49,799

that I deal with and my usual sorts of

885

00:38:55,640 --> 00:38:52,259

activities at the archives would be

886

00:38:59,959 --> 00:38:55,650

things like Oh family letters from the

887

00:39:03,769 --> 00:38:59,969

first and second floor or diaries or you

888

00:39:06,950 --> 00:39:03,779

know business records community records

889

00:39:11,089 --> 00:39:06,960

church records so this is completely out

890

00:39:13,489 --> 00:39:11,099

of the ordinary for us so what we've

891

00:39:16,930 --> 00:39:13,499

been doing is we've designated Fridays

892

00:39:20,059 --> 00:39:16,940

as we call them Friedman Friday

893

00:39:23,209 --> 00:39:20,069

group group of us get together and we

894

00:39:25,219 --> 00:39:23,219

just spend definitely the afternoon more

895

00:39:28,789 --> 00:39:25,229

time if we can going through the boxes

896

00:39:32,299 --> 00:39:28,799

together and we're starting to separate

897

00:39:35,269 --> 00:39:32,309

things into categories and because Stan

898

00:39:37,579 --> 00:39:35,279

had a fantastic sense of humor we're

899

00:39:39,829 --> 00:39:37,589

incorporating that humor we can

900

00:39:43,279 --> 00:39:39,839

Institute the categories that we're

901
00:39:46,759 --> 00:39:43,289
going through so for example you go

902
00:39:50,989 --> 00:39:46,769
through a box and we'll find no half a

903
00:39:54,650 --> 00:39:50,999
dozen letters attend mail and it be fan

904
00:39:57,620 --> 00:39:54,660
mail maybe with the individual

905
00:40:00,769 --> 00:39:57,630
elaborating on an encounter that they

906
00:40:02,749 --> 00:40:00,779
had either an abduction story or

907
00:40:05,229 --> 00:40:02,759
something that they thought their window

908
00:40:09,170 --> 00:40:05,239
one day so we're calling that group

909
00:40:12,650 --> 00:40:09,180
stands fans so like that sort of thing

910
00:40:16,099 --> 00:40:12,660
independent fans record and then we have

911
00:40:18,019 --> 00:40:16,109
what we call promo Stan so it's any

912
00:40:21,950 --> 00:40:18,029
promotional events that Stan

913
00:40:26,420 --> 00:40:21,960

participated in so his lectures lots of

914

00:40:28,789 --> 00:40:26,430

great posters programs his talk so that

915

00:40:30,650 --> 00:40:28,799

sort of goes into promo Stan then we

916

00:40:33,589 --> 00:40:30,660

have friends and foes

917

00:40:36,229 --> 00:40:33,599

so his regular correspondence some some

918

00:40:38,239 --> 00:40:36,239

of the big names there or just you know

919

00:40:40,969 --> 00:40:38,249

people who he would have lively

920

00:40:43,910 --> 00:40:40,979

discussions with so that sort of

921

00:40:47,839 --> 00:40:43,920

categorizing into one into one section

922

00:40:51,019 --> 00:40:47,849

and this is just really the first sort

923

00:40:53,150 --> 00:40:51,029

through so after we've gone through all

924

00:40:55,310 --> 00:40:53,160

of that stuff we're going to have to

925

00:40:57,860 --> 00:40:55,320

keep going through the category

926
00:41:00,230 --> 00:40:57,870
to put it in some sort of order whether

927
00:41:03,110 --> 00:41:00,240
that's going to be chronological or a

928
00:41:04,790 --> 00:41:03,120
thematic I don't know yet the record

929
00:41:06,470 --> 00:41:04,800
still sort of the records will tell us

930
00:41:08,120 --> 00:41:06,480
what we have to do because the whole

931
00:41:10,280 --> 00:41:08,130
purpose of this is to make it available

932
00:41:12,620 --> 00:41:10,290
to the public as quickly as possible

933
00:41:15,470 --> 00:41:12,630
right oh that's what we're trying to do

934
00:41:18,950 --> 00:41:15,480
that's awesome so it so is his Stannis

935
00:41:23,060 --> 00:41:18,960
collection like is it one of the largest

936
00:41:28,760 --> 00:41:23,070
I guess single person archives that that

937
00:41:31,670 --> 00:41:28,770
you've had to do yeah it's probably it's

938
00:41:34,460 --> 00:41:31,680

probably up there some of the larger

939

00:41:37,100 --> 00:41:34,470
collections that I have dealt with

940

00:41:39,260 --> 00:41:37,110
personally would be things like the

941

00:41:41,930 --> 00:41:39,270
records of the Anglican Church in the

942

00:41:43,880 --> 00:41:41,940
province and that would be that would be

943

00:41:45,650 --> 00:41:43,890
with a finding aid for that one is over

944

00:41:47,720 --> 00:41:45,660
a thousand pages but that's the whole

945

00:41:50,060 --> 00:41:47,730
organization an institution that's been

946

00:41:53,480 --> 00:41:50,070
around since the 1700s in the bottom

947

00:41:56,690 --> 00:41:53,490
right so that's pretty extensive yeah

948

00:42:00,560 --> 00:41:56,700
there there are others but this one is

949

00:42:05,090 --> 00:42:00,570
unique not just because of the content

950

00:42:08,570 --> 00:42:05,100
but also it's a complete lack of

951
00:42:13,250 --> 00:42:08,580
organization of course wait so we're

952
00:42:15,680 --> 00:42:13,260
trying it's really challenging because

953
00:42:17,990 --> 00:42:15,690
of that but no question it's going to be

954
00:42:20,570 --> 00:42:18,000
worth the effort awesome yeah yeah they

955
00:42:23,930 --> 00:42:20,580
said who was more of a stacker than a

956
00:42:27,740 --> 00:42:23,940
filer right definitely a stacker

957
00:42:29,870 --> 00:42:27,750
definitely a stacker and it's great fun

958
00:42:32,420 --> 00:42:29,880
when we're going through the records and

959
00:42:37,190 --> 00:42:32,430
like will find say like a little vial of

960
00:42:40,340 --> 00:42:37,200
something okay what is nothing yes it's

961
00:42:42,440 --> 00:42:40,350
there any documentation with this was it

962
00:42:44,810 --> 00:42:42,450
attached to a letter maybe that could

963
00:42:47,360 --> 00:42:44,820

give us some context sometimes we're

964

00:42:49,700 --> 00:42:47,370

lucky and we can find a letter like with

965

00:42:52,010 --> 00:42:49,710

that um I don't know if it was in that

966

00:42:54,680 --> 00:42:52,020

particular article that you saw but it's

967

00:42:56,990 --> 00:42:54,690

just a one loose-leaf sheet of paper and

968

00:42:58,880 --> 00:42:57,000

it says and here is the fragment from

969

00:43:02,120 --> 00:42:58,890

the walk Roswell incident that I told

970

00:43:04,550 --> 00:43:02,130

you about those are okay yes that's what

971

00:43:07,100 --> 00:43:04,560

that's what this person was sending to

972

00:43:08,990 --> 00:43:07,110

him but some of the files like their

973

00:43:13,670 --> 00:43:09,000

liquid or there's some sort of

974

00:43:16,220 --> 00:43:13,680

powder-like do we always know you guys

975

00:43:19,640 --> 00:43:16,230

putting those things aside for now so

976

00:43:21,680 --> 00:43:19,650

you guys archive the like the material

977

00:43:22,910 --> 00:43:21,690

like the physical material as well or do

978

00:43:25,430 --> 00:43:22,920

you all have likes in that too like a

979

00:43:27,110 --> 00:43:25,440

you know a separate Museum or something

980

00:43:28,880 --> 00:43:27,120

like that like the metals or the liquids

981

00:43:32,300 --> 00:43:28,890

and stuff or do you all hold on to those

982

00:43:35,180 --> 00:43:32,310

as well yes and normally normally we

983

00:43:36,920 --> 00:43:35,190

wouldn't do that sort of thing in the

984

00:43:38,930 --> 00:43:36,930

way it's set up a New Brunswick and in

985

00:43:41,380 --> 00:43:38,940

most provinces in Canada is you have

986

00:43:44,540 --> 00:43:41,390

archives and they deal with the

987

00:43:47,210 --> 00:43:44,550

documentation and medium deal with the

988

00:43:48,920 --> 00:43:47,220

artifacts but in this case and in some

989

00:43:51,190 --> 00:43:48,930

other cases we're going to keep it

990

00:43:53,450 --> 00:43:51,200

together we'll we'll figure out how to

991

00:43:56,060 --> 00:43:53,460

store it we have a professional

992

00:43:58,100 --> 00:43:56,070

conservator on staff and I'm sure he's

993

00:44:00,040 --> 00:43:58,110

up for the challenge so even though we

994

00:44:02,630 --> 00:44:00,050

might not know what these things are

995

00:44:04,930 --> 00:44:02,640

we'll we'll figure it out we've got a

996

00:44:08,240 --> 00:44:04,940

really nice repository that's

997

00:44:10,730 --> 00:44:08,250

climate-controlled and he can make some

998

00:44:12,530 --> 00:44:10,740

whatever boxes are needed to store it

999

00:44:14,330 --> 00:44:12,540

and we'll make sure that it that it

1000

00:44:15,800 --> 00:44:14,340

stays with the rest of the collection I

1001

00:44:18,860 --> 00:44:15,810

think that's important oh absolutely

1002

00:44:21,740 --> 00:44:18,870

absolutely man I mean it's yeah I don't

1003

00:44:24,260 --> 00:44:21,750

know like that's just so lucky that you

1004

00:44:26,870 --> 00:44:24,270

know Stanton would decide to you know

1005

00:44:27,980 --> 00:44:26,880

donate his collection to you guys you

1006

00:44:30,020 --> 00:44:27,990

know because it's kind of one of those

1007

00:44:32,480 --> 00:44:30,030

things we're like it almost seems like

1008

00:44:33,650 --> 00:44:32,490

you know like you know like here in

1009

00:44:35,330 --> 00:44:33,660

America something like that happened

1010

00:44:37,430 --> 00:44:35,340

like the military would immediately rush

1011

00:44:39,230 --> 00:44:37,440

in take all these boxes hide it and

1012

00:44:41,660 --> 00:44:39,240

nobody would ever see it again you know

1013

00:44:42,950 --> 00:44:41,670

so yeah I think that's why yeah you're

1014

00:44:45,020 --> 00:44:42,960

not the first person you're not the

1015

00:44:47,660 --> 00:44:45,030

first person could say that to me but

1016

00:44:50,030 --> 00:44:47,670

for us it was just really sort of kind

1017

00:44:52,970 --> 00:44:50,040

of like routine in a way so there was

1018

00:44:55,370 --> 00:44:52,980

another another archivist that is

1019

00:44:57,170 --> 00:44:55,380

different archives in the same city who

1020

00:44:59,540 --> 00:44:57,180

sort of mentioned it to us like hey I

1021

00:45:01,520 --> 00:44:59,550

heard Stanton Friedman is retiring and

1022

00:45:04,150 --> 00:45:01,530

he's looking for a place to take his

1023

00:45:06,650 --> 00:45:04,160

records with us we'll go take a look so

1024

00:45:10,430 --> 00:45:06,660

one of my colleagues went to take a look

1025

00:45:12,470 --> 00:45:10,440

and he said on Johanna you know that's a

1026
00:45:15,530 --> 00:45:12,480
lot of stuff like Wow you know we have

1027
00:45:19,010 --> 00:45:15,540
to take it and we can't not take this so

1028
00:45:20,890 --> 00:45:19,020
that's where we decided to do yes so you

1029
00:45:24,339 --> 00:45:20,900
guys approached him

1030
00:45:26,559 --> 00:45:24,349
about take taking care of these records

1031
00:45:28,029 --> 00:45:26,569
it wasn't like hey you know they didn't

1032
00:45:29,620 --> 00:45:28,039
he didn't leave the records in his will

1033
00:45:32,890 --> 00:45:29,630
or anything like that to you guys is

1034
00:45:36,670 --> 00:45:32,900
that what you're saying yeah no we we

1035
00:45:38,710 --> 00:45:36,680
had we had approached him because

1036
00:45:40,720 --> 00:45:38,720
somebody had told us he was looking for

1037
00:45:44,289 --> 00:45:40,730
a place to deposit it so one of our

1038
00:45:47,499 --> 00:45:44,299

staff members went over and we chatted

1039

00:45:49,989 --> 00:45:47,509

with them and we have like a formal

1040

00:45:52,180 --> 00:45:49,999

donation form and he had signed that I

1041

00:45:54,759 --> 00:45:52,190

think it was in I think it was in

1042

00:45:57,430 --> 00:45:54,769

January of this past year so we had

1043

00:45:59,980 --> 00:45:57,440

already started collecting the material

1044

00:46:01,120 --> 00:45:59,990

we'd made two or three trips before he

1045

00:46:04,420 --> 00:46:01,130

before he passed away

1046

00:46:07,749 --> 00:46:04,430

Wow yeah that's incredible so did you

1047

00:46:11,079 --> 00:46:07,759

know really anything about Staunton

1048

00:46:13,720 --> 00:46:11,089

before before his you know his stuff was

1049

00:46:15,190 --> 00:46:13,730

about to be archived or you know is that

1050

00:46:17,079 --> 00:46:15,200

anything you've ever been interested in

1051
00:46:20,339 --> 00:46:17,089
like the subject that you know he's into

1052
00:46:23,559 --> 00:46:20,349
the ufology type thing or you know oh

1053
00:46:26,380 --> 00:46:23,569
yeah I mean of course I knew he was I

1054
00:46:34,299 --> 00:46:26,390
mean he kind of had to live under a rock

1055
00:46:37,599 --> 00:46:34,309
tonight he was and yeah I I've I mean

1056
00:46:39,729 --> 00:46:37,609
I'm not I'm not somebody who spends a

1057
00:46:42,279 --> 00:46:39,739
lot of time you know it's studying or

1058
00:46:44,979 --> 00:46:42,289
into the conspiracy theories or anything

1059
00:46:46,839 --> 00:46:44,989
like that but I mean if someone were to

1060
00:46:49,120 --> 00:46:46,849
ask me if you believe in life on another

1061
00:46:51,489 --> 00:46:49,130
planet let me yes how could there how

1062
00:46:55,960 --> 00:46:51,499
could there not be and then the part the

1063
00:46:58,420 --> 00:46:55,970

more I read in these records it's just

1064

00:47:01,420 --> 00:46:58,430

so fascinating to read the stories that

1065

00:47:03,819 --> 00:47:01,430

people sent to him at all this is the

1066

00:47:05,589 --> 00:47:03,829

same thing this is the same thing over

1067

00:47:07,299 --> 00:47:05,599

and over again there are different parts

1068

00:47:09,549 --> 00:47:07,309

of the world but they're telling the

1069

00:47:10,329 --> 00:47:09,559

same story so it's pretty fascinating

1070

00:47:12,819 --> 00:47:10,339

stuff

1071

00:47:14,229 --> 00:47:12,829

yeah it all follows some sort of pattern

1072

00:47:17,890 --> 00:47:14,239

you know you start to notice that

1073

00:47:20,589 --> 00:47:17,900

pattern going on yeah and like with any

1074

00:47:23,109 --> 00:47:20,599

with any archival collection that a

1075

00:47:25,359 --> 00:47:23,119

person works on as an archivist works on

1076

00:47:27,759 --> 00:47:25,369

even if you don't have much of a

1077

00:47:30,130 --> 00:47:27,769

background in that subject you learn as

1078

00:47:33,069 --> 00:47:30,140

you go so my first job as an archivist

1079

00:47:34,080 --> 00:47:33,079

was actually with nuns with an order of

1080

00:47:36,060 --> 00:47:34,090

nuns

1081

00:47:37,950 --> 00:47:36,070

and I didn't I've never met a nun before

1082

00:47:39,900 --> 00:47:37,960

in my life I didn't know anything about

1083

00:47:42,660 --> 00:47:39,910

the types of records that a religious

1084

00:47:45,240 --> 00:47:42,670

organization like that kept but after a

1085

00:47:47,220 --> 00:47:45,250

year or so like oh yeah like you really

1086

00:47:49,380 --> 00:47:47,230

get to understand the topic and how the

1087

00:47:52,020 --> 00:47:49,390

records are created and how they can be

1088

00:47:54,030 --> 00:47:52,030

used in all sorts of different ways

1089

00:47:57,090 --> 00:47:54,040

that's what our guides are about it's

1090

00:47:59,880 --> 00:47:57,100

about documenting all aspects of society

1091

00:48:02,580 --> 00:47:59,890

and at the provincial archives it's all

1092

00:48:05,580 --> 00:48:02,590

aspects of society in New Brunswick and

1093

00:48:09,000 --> 00:48:05,590

Stan lived here for what thirty thirty

1094

00:48:12,510 --> 00:48:09,010

plus years yeah oh yeah we claimed him

1095

00:48:15,390 --> 00:48:12,520

as our own I feel like you have to be a

1096

00:48:17,280 --> 00:48:15,400

very curious person to be an archivist I

1097

00:48:20,540 --> 00:48:17,290

mean that sounds like a lot of fun you

1098

00:48:23,160 --> 00:48:20,550

get to learn a bunch of different

1099

00:48:25,470 --> 00:48:23,170

aspects of culture and and just really

1100

00:48:28,320 --> 00:48:25,480

dig in to read the actual documents I

1101

00:48:31,440 --> 00:48:28,330

mean a lot of people yeah yeah in the

1102

00:48:33,510 --> 00:48:31,450

UFO community would would you know love

1103

00:48:35,910 --> 00:48:33,520

to have their hands on these documents I

1104

00:48:38,160 --> 00:48:35,920

know that you know I'm just really glad

1105

00:48:41,040 --> 00:48:38,170

that an organization exists that you

1106

00:48:44,840 --> 00:48:41,050

know officially takes care of this stuff

1107

00:48:47,070 --> 00:48:44,850

you know instead of somebody you know in

1108

00:48:51,480 --> 00:48:47,080

Wyoming or something putting it all

1109

00:48:54,960 --> 00:48:51,490

together yeah it's definitely it's the

1110

00:48:57,030 --> 00:48:54,970

best job in the world I mean it's I I

1111

00:48:59,040 --> 00:48:57,040

think as myself as being interested in

1112

00:49:02,700 --> 00:48:59,050

many things but an expert at nothing and

1113

00:49:04,740 --> 00:49:02,710

so being an archivist really gives me

1114

00:49:06,810 --> 00:49:04,750

the opportunity to learn a lot about a

1115

00:49:08,580 --> 00:49:06,820

whole lot of different things but

1116

00:49:10,380 --> 00:49:08,590

there's no pressure to be an expert at

1117

00:49:12,510 --> 00:49:10,390

anything because I'm just helping other

1118

00:49:14,190 --> 00:49:12,520

people find information about the

1119

00:49:19,520 --> 00:49:14,200

conflict but they're interested in so

1120

00:49:27,450 --> 00:49:24,830

so so what if not the the Stan Freedman

1121

00:49:30,060 --> 00:49:27,460

archive what what's been your favorite

1122

00:49:33,090 --> 00:49:30,070

what's been your favorite project to

1123

00:49:35,160 --> 00:49:33,100

work on so far ooh

1124

00:49:39,720 --> 00:49:35,170

other than other than Stanton Friedman

1125

00:49:48,350 --> 00:49:39,730

let me think gosh there's there's so

1126

00:49:53,820 --> 00:49:51,150

let me think about that I mean if people

1127

00:49:57,270 --> 00:49:53,830

usually ask me what my favorite document

1128

00:49:58,860 --> 00:49:57,280

is or like sitting out with it yeah yeah

1129

00:50:00,390 --> 00:49:58,870

well it's and then they're usually

1130

00:50:02,580 --> 00:50:00,400

disappointed when I tell them the answer

1131

00:50:06,060 --> 00:50:02,590

but it's literally it's just a

1132

00:50:10,560 --> 00:50:06,070

photograph of a little girl taken

1133

00:50:12,540 --> 00:50:10,570

probably right around 1890 and a

1134

00:50:15,000 --> 00:50:12,550

colleague of mine had been processing

1135

00:50:17,340 --> 00:50:15,010

this collection she's unidentified we

1136

00:50:19,530 --> 00:50:17,350

don't know who she is but she is the

1137

00:50:24,690 --> 00:50:19,540

spitting image of my daughter at that

1138

00:50:28,860 --> 00:50:24,700

age so it's the most fun good years

1139

00:50:31,110 --> 00:50:28,870

before she was born but I was laughing

1140

00:50:33,090 --> 00:50:31,120

it makes you think like I don't know if

1141

00:50:34,590 --> 00:50:33,100

you're in there like reincarnation but

1142

00:50:36,300 --> 00:50:34,600

it's got to make you think when you see

1143

00:50:38,460 --> 00:50:36,310

the spitting image so yeah or somebody

1144

00:50:44,520 --> 00:50:38,470

everybody has like a doppelganger I know

1145

00:50:47,430 --> 00:50:44,530

yeah well that was her yeah yeah I have

1146

00:50:49,500 --> 00:50:47,440

fun for things like probably because I

1147

00:50:53,160 --> 00:50:49,510

got my start as an archivist in

1148

00:50:55,560 --> 00:50:53,170

religious archives and I've worked quite

1149

00:50:58,740 --> 00:50:55,570

a bit both with those both nuns that I

1150

00:51:02,460 --> 00:50:58,750

talked about earlier but also Anglican

1151

00:51:04,680 --> 00:51:02,470

Church records I just I find the history

1152

00:51:08,040 --> 00:51:04,690

of the church and how it how it formed

1153

00:51:10,050 --> 00:51:08,050

our province in many ways really

1154

00:51:12,450 --> 00:51:10,060

interesting and those records also get a

1155

00:51:15,030 --> 00:51:12,460

lot of use the archives are super busy

1156

00:51:17,670 --> 00:51:15,040

we we hire a lot of summer students and

1157

00:51:19,320 --> 00:51:17,680

interns and I'm involved in the

1158

00:51:21,530 --> 00:51:19,330

interviewing for that and one of the

1159

00:51:23,670 --> 00:51:21,540

questions that we always ask for these

1160

00:51:25,770 --> 00:51:23,680

university students is well what do you

1161

00:51:29,010 --> 00:51:25,780

think the challenges are that archives

1162

00:51:31,680 --> 00:51:29,020

face today and so many of them said well

1163

00:51:34,530 --> 00:51:31,690

nobody really knows what our eyes are

1164

00:51:36,330 --> 00:51:34,540

about so you need to talk about archives

1165

00:51:38,640 --> 00:51:36,340

more so that people understand how

1166

00:51:41,220 --> 00:51:38,650

important they are and then I look

1167

00:51:44,460 --> 00:51:41,230

around at the people that I work with

1168

00:51:47,520 --> 00:51:44,470

and like we are flat out busy all of the

1169

00:51:50,640 --> 00:51:47,530

time because we get used so much yeah so

1170

00:51:53,460 --> 00:51:50,650

even though I suppose there is a large

1171

00:51:57,450 --> 00:51:53,470

segment of society that doesn't know

1172

00:52:01,050 --> 00:51:57,460

what archives are those who know sure

1173

00:52:03,090 --> 00:52:01,060

sure make cookies chocolate on oh yeah

1174

00:52:04,320 --> 00:52:03,100

I bet I bet because because when I was

1175

00:52:05,970 --> 00:52:04,330

reading through the article I was like

1176
00:52:08,550 --> 00:52:05,980
you know I never even thought about that

1177
00:52:11,250 --> 00:52:08,560
like I never even thought about like you

1178
00:52:12,810 --> 00:52:11,260
know going and finding our own archive

1179
00:52:15,090 --> 00:52:12,820
somewhere cuz you know you always just

1180
00:52:17,580 --> 00:52:15,100
think like oh I can google it right way

1181
00:52:21,240 --> 00:52:17,590
to library but but also we write those

1182
00:52:23,690 --> 00:52:21,250
are yeah exactly come from stuff that

1183
00:52:27,360 --> 00:52:23,700
you do is like it's it's extremely

1184
00:52:31,560 --> 00:52:27,370
useful and you people would go there all

1185
00:52:34,140 --> 00:52:31,570
the time I mean you know yeah that we

1186
00:52:36,270 --> 00:52:34,150
would think so but there is the

1187
00:52:39,890 --> 00:52:36,280
expectation like it's the Google age

1188
00:52:42,180 --> 00:52:39,900

right and so lots of people think that

1189

00:52:44,370 --> 00:52:42,190

anything that an archive requires

1190

00:52:47,220 --> 00:52:44,380

they're just going to digitize it and

1191

00:52:49,740 --> 00:52:47,230

put it online but it is definitely not

1192

00:52:53,100 --> 00:52:49,750

that simple not that straightforward and

1193

00:52:55,530 --> 00:52:53,110

I bet you just though any archive

1194

00:52:57,090 --> 00:52:55,540

certainly in Canada would tell you that

1195

00:53:00,570 --> 00:52:57,100

in their collections they would have

1196

00:53:02,940 --> 00:53:00,580

less than 1% of things digitized more

1197

00:53:05,720 --> 00:53:02,950

things are always coming in and a lot of

1198

00:53:08,760 --> 00:53:05,730

work has to go in to a collection before

1199

00:53:10,920 --> 00:53:08,770

it's been good enough order to actually

1200

00:53:13,200 --> 00:53:10,930

put it online you digitize a mess all

1201

00:53:14,250 --> 00:53:13,210

you have is a digital mess right it's no

1202

00:53:17,970 --> 00:53:14,260

new to anybody

1203

00:53:20,610 --> 00:53:17,980

it's the archivist job to build the

1204

00:53:23,400 --> 00:53:20,620

context and write the archival

1205

00:53:24,780 --> 00:53:23,410

descriptions for that people our point

1206

00:53:27,780 --> 00:53:24,790

is in the right direction when we're

1207

00:53:29,850 --> 00:53:27,790

researching a topic so there's little

1208

00:53:32,460 --> 00:53:29,860

bit to it yeah that makes me think of

1209

00:53:34,380 --> 00:53:32,470

you know my reading up on Stanton he had

1210

00:53:36,630 --> 00:53:34,390

he was really respected in the community

1211

00:53:38,760 --> 00:53:36,640

because he was the person that would go

1212

00:53:40,260 --> 00:53:38,770

out into the field and you know

1213

00:53:42,480 --> 00:53:40,270

physically go somewhere to do his

1214

00:53:44,790 --> 00:53:42,490

research instead of you know just buying

1215

00:53:46,920 --> 00:53:44,800

a book or a reading stuff online and he

1216

00:53:50,400 --> 00:53:46,930

would actually go to these places and

1217

00:53:52,260 --> 00:53:50,410

look up actual photos actual newspaper

1218

00:53:54,810 --> 00:53:52,270

clippings actual interviews listen to

1219

00:53:56,400 --> 00:53:54,820

audios so he was a really good research

1220

00:53:59,160 --> 00:53:56,410

in that aspect too which kind of brings

1221

00:54:01,020 --> 00:53:59,170

it full circle as to why he entrusted

1222

00:54:03,080 --> 00:54:01,030

you know all of his research to to

1223

00:54:06,240 --> 00:54:03,090

somebody that does this for a profession

1224

00:54:08,730 --> 00:54:06,250

yeah yeah you're right yeah and we're

1225

00:54:11,940 --> 00:54:08,740

seeing so much of I mean I've heard I've

1226
00:54:13,860 --> 00:54:11,950
heard exactly what you said from people

1227
00:54:14,940 --> 00:54:13,870
who have contacted us know that their

1228
00:54:17,450 --> 00:54:14,950
interest in the record

1229
00:54:20,549 --> 00:54:17,460
people knew Stanton who knew Stanton and

1230
00:54:23,460 --> 00:54:20,559
it's so interesting as an archivist to

1231
00:54:26,400 --> 00:54:23,470
see all of the correspondence with other

1232
00:54:29,490 --> 00:54:26,410
archivists in the collection - they

1233
00:54:31,710 --> 00:54:29,500
could he was but this was it was before

1234
00:54:34,079 --> 00:54:31,720
email of course and so he's writing okay

1235
00:54:35,190 --> 00:54:34,089
if you have anything on this topic and

1236
00:54:37,260 --> 00:54:35,200
they would write back

1237
00:54:39,329 --> 00:54:37,270
sometimes they provide documents other

1238
00:54:40,620 --> 00:54:39,339

times it would be Stanton we have

1239

00:54:47,130 --> 00:54:40,630

already given you everything that we

1240

00:54:50,069 --> 00:54:47,140

have yeah pretty great that's great yeah

1241

00:54:53,640 --> 00:54:50,079

I would imagine I mean just the the

1242

00:54:56,339 --> 00:54:53,650

tidal wave of information in documents I

1243

00:54:58,020 --> 00:54:56,349

mean having to if someone were to tell

1244

00:55:00,630 --> 00:54:58,030

you oh you have to digitize all of this

1245

00:55:02,309 --> 00:55:00,640

how overwhelming that would be I mean it

1246

00:55:05,880 --> 00:55:02,319

makes sense that only a small portion of

1247

00:55:07,109 --> 00:55:05,890

it is digitized I wonder like if if you

1248

00:55:09,240 --> 00:55:07,119

were I'm just maybe I'm jumping the gun

1249

00:55:10,829 --> 00:55:09,250

but like if you were to digitize stuff

1250

00:55:12,660 --> 00:55:10,839

what would be the easiest stuff - is it

1251

00:55:16,230 --> 00:55:12,670

more like government documents that he's

1252

00:55:19,319 --> 00:55:16,240

in possession of or like Declassified

1253

00:55:20,819 --> 00:55:19,329

things for Stanton records what would be

1254

00:55:22,880 --> 00:55:20,829

the most what would be the easiest to

1255

00:55:26,130 --> 00:55:22,890

digitize yeah yeah I'm just curious ooh

1256

00:55:31,700 --> 00:55:26,140

let me think probably some of the

1257

00:55:35,819 --> 00:55:31,710

research material we also just acquired

1258

00:55:37,620 --> 00:55:35,829

a back like at the back up of his hard

1259

00:55:39,539 --> 00:55:37,630

drive he had had a computer backed up

1260

00:55:42,089 --> 00:55:39,549

and no we have that as well so that's

1261

00:55:42,660 --> 00:55:42,099

already digital but we haven't looked at

1262

00:55:44,760 --> 00:55:42,670

it yet

1263

00:55:48,510 --> 00:55:44,770

so I don't know I don't know what's on

1264

00:55:50,309 --> 00:55:48,520

there yet I have a good idea but it's

1265

00:55:52,410 --> 00:55:50,319

not probably not stuff that we would

1266

00:55:54,539 --> 00:55:52,420

just put up online right away just

1267

00:55:59,760 --> 00:55:54,549

because it's already digital probably a

1268

00:56:04,620 --> 00:55:59,770

lot of vacation photos maybe certainly

1269

00:56:06,839 --> 00:56:04,630

travel I mean you spoke and every 50 you

1270

00:56:09,329 --> 00:56:06,849

know in all 50 states you know and over

1271

00:56:11,730 --> 00:56:09,339

like what 600 colleges or something like

1272

00:56:14,670 --> 00:56:11,740

that yeah oh yeah some of the United

1273

00:56:17,400 --> 00:56:14,680

States you smoke everywhere so all over

1274

00:56:20,549 --> 00:56:17,410

the world yeah I think yeah yeah and and

1275

00:56:23,280 --> 00:56:20,559

and not just not just at conferences but

1276

00:56:25,020 --> 00:56:23,290

there's letters from school kids you

1277

00:56:27,660 --> 00:56:25,030

know thanking him for coming to their

1278

00:56:28,770 --> 00:56:27,670

classroom and speaking oh that's so cool

1279

00:56:34,350 --> 00:56:28,780

yeah

1280

00:56:39,090 --> 00:56:34,360

got to meet Stan before you pass right

1281

00:56:41,610 --> 00:56:39,100

or yes yes yes yes I - two or three

1282

00:56:45,720 --> 00:56:41,620

times yes yeah he would come downstairs

1283

00:56:48,240 --> 00:56:45,730

and chat away with us as we were packing

1284

00:56:51,960 --> 00:56:48,250

up the boxes and if we had questions he

1285

00:56:55,620 --> 00:56:51,970

would he would answer and just a real

1286

00:56:58,440 --> 00:56:55,630

gentleman and very funny like just a

1287

00:57:02,640 --> 00:56:58,450

fantastic sense of humor no it was yeah

1288

00:57:04,020 --> 00:57:02,650

he's a joker yeah yeah there's some I

1289

00:57:07,170 --> 00:57:04,030

don't know if this picture within the

1290

00:57:13,230 --> 00:57:07,180

article but there was a paper mache mask

1291

00:57:17,040 --> 00:57:13,240

that somebody had made for him yeah so

1292

00:57:18,750 --> 00:57:17,050

it's it's made to look like an alien but

1293

00:57:23,760 --> 00:57:18,760

you can also tell that it's supposed to

1294

00:57:25,590 --> 00:57:23,770

be stand so I wasn't there when this

1295

00:57:27,270 --> 00:57:25,600

happened but one of my colleagues picked

1296

00:57:29,880 --> 00:57:27,280

it up and said okay mr. Freeman do you

1297

00:57:32,940 --> 00:57:29,890

want us to take this or if it happened

1298

00:57:34,890 --> 00:57:32,950

to one he just looked at it and rolled

1299

00:57:38,580 --> 00:57:34,900

his eyes and said well you know I don't

1300

00:57:41,460 --> 00:57:38,590

wear it very often we pass it up and

1301

00:57:43,680 --> 00:57:41,470

took it and so that's actually hanging

1302

00:57:45,690 --> 00:57:43,690

on the wall in my office but I should

1303

00:57:48,660 --> 00:57:45,700

box it up and put it in the repository

1304

00:57:49,230 --> 00:57:48,670

like a like a good architect that's so

1305

00:57:51,780 --> 00:57:49,240

great

1306

00:57:53,520 --> 00:57:51,790

I would put that last box definitely

1307

00:57:56,520 --> 00:57:53,530

that that sounds like a pretty awesome

1308

00:58:00,540 --> 00:57:56,530

piece to have yeah yeah that's pretty

1309

00:58:03,270 --> 00:58:00,550

great yeah we were so he was supposed to

1310

00:58:05,910 --> 00:58:03,280

speaking at a at a UFO Congress that that

1311

00:58:08,310 --> 00:58:05,920

may have been intended and unfortunately

1312

00:58:11,280 --> 00:58:08,320

he had he had passed away a couple

1313

00:58:13,890 --> 00:58:11,290

months right before I would go see him

1314

00:58:16,170 --> 00:58:13,900

and man I was really really bummed cuz

1315

00:58:19,590 --> 00:58:16,180

he was one of the main guys that I

1316

00:58:21,270 --> 00:58:19,600

really wanted to see but yeah it was it

1317

00:58:22,800 --> 00:58:21,280

was a real bummer it was a real bummer I

1318

00:58:24,660 --> 00:58:22,810

wish we would have had the chance to

1319

00:58:30,960 --> 00:58:24,670

meet him no yeah guy had the best

1320

00:58:33,240 --> 00:58:30,970

eyebrows I've ever seen yes yes so many

1321

00:58:35,820 --> 00:58:33,250

of the letters that we come across are

1322

00:58:37,920 --> 00:58:35,830

just from people who saw him speak and

1323

00:58:40,920 --> 00:58:37,930

they just wrote the full little two or

1324

00:58:42,150 --> 00:58:40,930

three line letters you know I saw you in

1325

00:58:42,550 --> 00:58:42,160

such and such a place

1326

00:58:45,070 --> 00:58:42,560

thank you

1327

00:58:46,840 --> 00:58:45,080

very much I was though I was the

1328

00:58:48,730 --> 00:58:46,850

gentleman wearing the yellow sweater and

1329

00:58:50,830 --> 00:58:48,740

we had a nice chat and I just wanted to

1330

00:58:52,360 --> 00:58:50,840

to know their what I wanted you know how

1331

00:58:54,850 --> 00:58:52,370

much that meant to me just you know

1332

00:58:57,730 --> 00:58:54,860

little short letters like that so I

1333

00:59:01,900 --> 00:58:57,740

think that's a real indication of his

1334

00:59:04,030 --> 00:59:01,910

character yeah yeah indicative of his

1335

00:59:06,070 --> 00:59:04,040

his character definitely like I mean who

1336

00:59:07,540 --> 00:59:06,080

would keep keep that stuff other than

1337

00:59:09,520 --> 00:59:07,550

you know somebody that really cared

1338

00:59:10,840 --> 00:59:09,530

about somebody that tried to reach out

1339

00:59:23,530 --> 00:59:10,850

and communicate with them that's that's

1340

00:59:24,730 --> 00:59:23,540

really cool to hear he got it so so as

1341

00:59:26,830 --> 00:59:24,740

you guys are going through these

1342

00:59:29,260 --> 00:59:26,840

archives you know I assume you have a

1343

00:59:31,090 --> 00:59:29,270

team that's going through these archives

1344

00:59:35,140 --> 00:59:31,100

you know everybody kind of has their own

1345

00:59:39,730 --> 00:59:35,150

little section but you kind of managing

1346

00:59:41,440 --> 00:59:39,740

I guess the the team you everybody kind

1347

00:59:44,110 --> 00:59:41,450

of reads through like a portion of it so

1348

00:59:46,120 --> 00:59:44,120

I would assume what maybe like everybody

1349

00:59:48,880 --> 00:59:46,130

kind of reads through like ten maybe

1350

00:59:51,520 --> 00:59:48,890

twenty percent of the total archive but

1351

00:59:54,340 --> 00:59:51,530

you as a as a manager I mean do you end

1352

00:59:58,330 --> 00:59:54,350

up like reading through all of this

1353

01:00:02,140 --> 00:59:58,340

stuff that's not going to be possible no

1354

01:00:03,940 --> 01:00:02,150

so the way I wish if I did nothing else

1355

01:00:06,460 --> 01:00:03,950

that I could do that but the way that we

1356

01:00:08,320 --> 01:00:06,470

do it is we're all together in a room

1357

01:00:10,960 --> 01:00:08,330

that used to be it used to be my work

1358

01:00:16,270 --> 01:00:10,970

room for all sorts of things now it's

1359

01:00:19,020 --> 01:00:16,280

just it's all fans also the fan room we

1360

01:00:22,060 --> 01:00:19,030

have posters up and everything and so we

1361

01:00:24,280 --> 01:00:22,070

sort of sit around a bunch of tables and

1362

01:00:27,070 --> 01:00:24,290

we each get a box and we just we just

1363

01:00:29,890 --> 01:00:27,080

talk about what we're seeing so it's

1364

01:00:32,920 --> 01:00:29,900

just all of us communicating like okay I

1365

01:00:35,950 --> 01:00:32,930

have this I have this this publication

1366

01:00:37,900 --> 01:00:35,960

and you can see this before yes okay so

1367

01:00:40,450 --> 01:00:37,910

then we put it in a pile of duplicates

1368

01:00:43,200 --> 01:00:40,460

nope that's new okay it goes in for this

1369

01:00:46,000 --> 01:00:43,210

pile we literally have Tupperware bins

1370

01:00:48,280 --> 01:00:46,010

going across the length of the room like

1371

01:00:50,410 --> 01:00:48,290

we're talking about sorting things into

1372

01:00:51,640 --> 01:00:50,420

buckets that's the only way that we're

1373

01:00:55,030 --> 01:00:51,650

going to be able to get through the

1374

01:00:56,670 --> 01:00:55,040

first Wow categories so after we've gone

1375

01:01:00,790 --> 01:00:56,680

through everything

1376

01:01:03,880 --> 01:01:00,800

then we'll have maybe one team of people

1377

01:01:06,640 --> 01:01:03,890

looking through all the fan mail again

1378

01:01:09,490 --> 01:01:06,650

and starting to put that into order then

1379

01:01:11,830 --> 01:01:09,500

another group of people might look at

1380

01:01:14,680 --> 01:01:11,840

all of the research and starting to

1381

01:01:18,180 --> 01:01:14,690

categorize that and after we get through

1382

01:01:21,100 --> 01:01:18,190

that section maybe it's a matter of okay

1383

01:01:23,380 --> 01:01:21,110

you're gonna look after all the Roswell

1384

01:01:25,600 --> 01:01:23,390

you're gonna look after all the Barney

1385

01:01:29,320 --> 01:01:25,610

and Betty Hill you know because it's

1386

01:01:31,210 --> 01:01:29,330

important for the same pair of eyes to

1387

01:01:33,400 --> 01:01:31,220

look through everything because there's

1388

01:01:37,060 --> 01:01:33,410

a lot of people occasion he loved to

1389

01:01:39,850 --> 01:01:37,070

print things over and over but you also

1390

01:01:41,770 --> 01:01:39,860

have to make sure that they are exact

1391

01:01:44,080 --> 01:01:41,780

duplicates because notations are

1392

01:01:46,870 --> 01:01:44,090

important so you just want to make sure

1393

01:01:50,290 --> 01:01:46,880

that it's the same people going through

1394

01:01:51,850 --> 01:01:50,300

because you you know you you understand

1395

01:01:54,220 --> 01:01:51,860

the records you understand the

1396

01:01:56,230 --> 01:01:54,230

connections some more the more you look

1397

01:01:59,770 --> 01:01:56,240

at it and so you don't want different

1398

01:02:01,630 --> 01:01:59,780

people jumping in at different stages

1399

01:02:03,700 --> 01:02:01,640

you want to have some continuity there

1400

01:02:06,520 --> 01:02:03,710

yeah absolutely absolutely

1401

01:02:08,620 --> 01:02:06,530

so I mean I saw how long have you guys

1402

01:02:11,830 --> 01:02:08,630

been going going through this stuff so

1403

01:02:16,420 --> 01:02:11,840

far well we did the first pickup in

1404

01:02:18,580 --> 01:02:16,430

January and because we have limited

1405

01:02:20,860 --> 01:02:18,590

space to actually do the pros I think

1406

01:02:22,900 --> 01:02:20,870

that's why we picked it up in stages so

1407

01:02:24,940 --> 01:02:22,910

we picked up a cargo van go through the

1408

01:02:27,100 --> 01:02:24,950

cargo van okay we've got floor space

1409

01:02:29,050 --> 01:02:27,110

again let's go get another cargo van

1410

01:02:31,750 --> 01:02:29,060

that's the way that we've been doing it

1411

01:02:34,270 --> 01:02:31,760

but now that we have everything I keep

1412

01:02:38,440 --> 01:02:34,280

trying to do an estimate in my head as

1413

01:02:41,050 --> 01:02:38,450

to how long it would take to get

1414

01:02:43,390 --> 01:02:41,060

everything perfect and an archive barely

1415

01:02:47,200 --> 01:02:43,400

know perfection you just you just want

1416

01:02:49,660 --> 01:02:47,210

it to be available so in good order so

1417

01:02:51,130 --> 01:02:49,670

that people can use it and find find

1418

01:02:53,380 --> 01:02:51,140

things that they're interested in I

1419

01:02:56,020 --> 01:02:53,390

think it would probably take say there

1420

01:02:58,570 --> 01:02:56,030

were two people dedicated on it full

1421

01:03:01,210 --> 01:02:58,580

time so like 9:00 to 5:00 every day

1422

01:03:05,010 --> 01:03:01,220

every working day it would probably take

1423

01:03:08,200 --> 01:03:05,020

two people four or five years usually

1424

01:03:10,089 --> 01:03:08,210

there's that much stuff yeah and that

1425

01:03:13,089 --> 01:03:10,099

might be conservative

1426

01:03:16,120 --> 01:03:13,099

must've had a huge lseman there were

1427

01:03:20,289 --> 01:03:16,130

three rooms all around he said that yeah

1428

01:03:22,509 --> 01:03:20,299

three rooms and there would be filing

1429

01:03:25,120 --> 01:03:22,519

cabinets and we'd clear a filing cabinet

1430

01:03:30,099 --> 01:03:25,130

like oh there's a filing cabinet behind

1431

01:03:33,039 --> 01:03:30,109

that finally happens yeah pretty great

1432

01:03:34,599 --> 01:03:33,049

yeah we would we were then like I don't

1433

01:03:38,109 --> 01:03:34,609

know we're not we're not done we're not

1434

01:03:39,880 --> 01:03:38,119

done well I'll tell you what you know if

1435

01:03:52,239 --> 01:03:39,890

you need two people full-time for four

1436

01:03:54,370 --> 01:03:52,249

or five years so I kind of want I need

1437

01:03:56,319 --> 01:03:54,380

to get this this question out there I I

1438

01:03:59,109 --> 01:03:56,329

know I need to kind of feed my

1439

01:04:00,489 --> 01:03:59,119

conspiracy conspiratorial part of my

1440

01:04:01,809 --> 01:04:00,499

brain and I'm sure there's a lot of our

1441

01:04:03,910 --> 01:04:01,819

listeners that are wondering kind of the

1442

01:04:05,890 --> 01:04:03,920

same thing but you know in the UFO

1443

01:04:08,140 --> 01:04:05,900

community when their speakers or people

1444

01:04:09,489 --> 01:04:08,150

in the community that are really big

1445

01:04:12,809 --> 01:04:09,499

researchers sometimes they get their

1446

01:04:14,559 --> 01:04:12,819

hands on Declassified or maybe some

1447

01:04:16,959 --> 01:04:14,569

documents that are have to have not been

1448

01:04:19,269 --> 01:04:16,969

classified and they're kind of you know

1449

01:04:21,430 --> 01:04:19,279

what would would be seen as dangerous to

1450

01:04:23,469 --> 01:04:21,440

the US government has and and I'm

1451

01:04:27,400 --> 01:04:23,479

curious as my question is has there ever

1452

01:04:36,249 --> 01:04:27,410

been a minimum and a black suit show up

1453

01:04:38,469 --> 01:04:36,259

at any point and kind of to see yeah no

1454

01:04:42,279 --> 01:04:38,479

that's nothing like that at all it's

1455

01:04:45,309 --> 01:04:42,289

been it's just been a lot of fun

1456

01:04:47,440 --> 01:04:45,319

no nobody nobody has I mean I've had

1457

01:04:51,999 --> 01:04:47,450

lots of phone calls about it but nothing

1458

01:04:54,069 --> 01:04:52,009

of that nature at all yeah I mean that's

1459

01:04:56,589 --> 01:04:54,079

good to hear actually I mean the kind of

1460

01:04:58,630 --> 01:04:56,599

maybe puts out the fire of a lot of

1461

01:04:59,859 --> 01:04:58,640

people they're like oh yeah I'm sure the

1462

01:05:01,959 --> 01:04:59,869

minim black are gonna show up in any

1463

01:05:04,690 --> 01:05:01,969

moment it's not it's it's almost been a

1464

01:05:06,489 --> 01:05:04,700

year and no weirdness I mean it sounds

1465

01:05:08,319 --> 01:05:06,499

like there hasn't been any weirdness or

1466

01:05:10,989 --> 01:05:08,329

surrounding all of these these documents

1467

01:05:13,180 --> 01:05:10,999

I mean the guy without interested in in

1468

01:05:15,999 --> 01:05:13,190

Roswell brought Roswell back into the

1469

01:05:19,180 --> 01:05:16,009

public eye with all these documents and

1470

01:05:21,509 --> 01:05:19,190

research and proof and testimony and

1471

01:05:23,650 --> 01:05:21,519

you'd think that would be a very an

1472

01:05:25,170 --> 01:05:23,660

interesting thing to to the

1473

01:05:27,520 --> 01:05:25,180

US government to kind of if they were

1474

01:05:29,890 --> 01:05:27,530

trying to cover this whole thing up they

1475

01:05:31,930 --> 01:05:29,900

would want to see that you know maybe if

1476

01:05:33,460 --> 01:05:31,940

there is some documents out there that

1477

01:05:35,260 --> 01:05:33,470

Stanton got his hands on like maybe that

1478

01:05:36,789 --> 01:05:35,270

would never see the light of day oh yeah

1479

01:05:38,079 --> 01:05:36,799

absolutely because he's got stuff on

1480

01:05:40,359 --> 01:05:38,089

like mj-12

1481

01:05:43,000 --> 01:05:40,369

yeah ant project Bluebook you know and

1482

01:05:45,250 --> 01:05:43,010

documents from Roswell and these are

1483

01:05:48,609 --> 01:05:45,260

things that the government guarded very

1484

01:05:53,380 --> 01:05:48,619

very closely yeah you know and did not

1485

01:05:55,690 --> 01:05:53,390

want people to know about yeah yes yeah

1486

01:05:59,049 --> 01:05:55,700

no I can absolutely say that there had

1487

01:06:01,240 --> 01:05:59,059

nobody has nobody has contacted us with

1488

01:06:02,799 --> 01:06:01,250

anything other than hey this is amazing

1489

01:06:05,380 --> 01:06:02,809

that you guys took all of this stuff

1490

01:06:08,559 --> 01:06:05,390

when can i when can I research and it

1491

01:06:16,200 --> 01:06:08,569

certainly certainly not it's no US

1492

01:06:21,450 --> 01:06:16,210

government men in black know the link

1493

01:06:25,809 --> 01:06:21,460

and somebody will show up but not yet

1494

01:06:27,970 --> 01:06:25,819

yeah so the little the little metal

1495

01:06:30,549 --> 01:06:27,980

fragment that that was supposedly from

1496

01:06:34,150 --> 01:06:30,559

from the Roswell incident have you have

1497

01:06:38,279 --> 01:06:34,160

you held it have you touched it yes I

1498

01:06:42,760 --> 01:06:38,289

have held it I have touched it I I have

1499

01:06:46,529 --> 01:06:42,770

yeah it's a it's a quick small maybe

1500

01:06:50,740 --> 01:06:46,539

just maybe just over a centimeter and

1501

01:06:55,029 --> 01:06:50,750

fairly light it looks like a piece of

1502

01:06:56,349 --> 01:06:55,039

melted something and yeah it sort of

1503

01:06:58,510 --> 01:06:56,359

it's shiny

1504

01:07:00,839 --> 01:06:58,520

I don't know how else to describe it but

1505

01:07:03,600 --> 01:07:00,849

it's it's a light little fragment of

1506

01:07:06,300 --> 01:07:03,610

melted something oh wow

1507

01:07:08,220 --> 01:07:06,310

I'm so interested was there was there

1508

01:07:10,650 --> 01:07:08,230

any well I guess you guys are gonna have

1509

01:07:12,540 --> 01:07:10,660

to go through all the documents to find

1510

01:07:14,700 --> 01:07:12,550

out but I'm curious to know if he ever

1511

01:07:17,520 --> 01:07:14,710

got that tested and if there's any

1512

01:07:20,160 --> 01:07:17,530

paperwork that goes along with it so I

1513

01:07:23,040 --> 01:07:20,170

haven't seen anything at all to indicate

1514

01:07:24,870 --> 01:07:23,050

that that he had it tested but we're

1515

01:07:26,910 --> 01:07:24,880

certainly keeping an eye out for that I

1516

01:07:29,460 --> 01:07:26,920

mean people sent things like charred

1517

01:07:31,680 --> 01:07:29,470

fragments of wood too and saying okay I

1518

01:07:34,860 --> 01:07:31,690

picked up this piece of wood after I saw

1519

01:07:37,170 --> 01:07:34,870

something hovering in the wooded area in

1520

01:07:39,630 --> 01:07:37,180

my backyard and my brother-in-law went

1521

01:07:43,320 --> 01:07:39,640

oh he bought this but there's no

1522

01:07:45,150 --> 01:07:43,330

indication that like that I have seen so

1523

01:07:48,150 --> 01:07:45,160

far but he got any of these things past

1524

01:07:50,520 --> 01:07:48,160

this yeah I'm curious as to like what if

1525

01:07:52,530 --> 01:07:50,530

there were to be somebody to contact you

1526

01:07:54,450 --> 01:07:52,540

and ask you hey can I borrow this I mean

1527

01:07:55,890 --> 01:07:54,460

I think there's there's something along

1528

01:07:58,410 --> 01:07:55,900

the lines of when they do test these

1529

01:08:00,330 --> 01:07:58,420

elements they do have to dissolve part

1530

01:08:03,900 --> 01:08:00,340

of it or maybe sometimes in some cases

1531

01:08:05,400 --> 01:08:03,910

all of it so I mean in that case what

1532

01:08:14,430 --> 01:08:05,410

would you say this to something not that

1533

01:08:17,160 --> 01:08:14,440

we're asking you right now he donated

1534

01:08:20,430 --> 01:08:17,170

the material to the archives and so it

1535

01:08:22,230 --> 01:08:20,440

is now it's it's the property of the

1536

01:08:25,890 --> 01:08:22,240

provincial archives and we don't let

1537

01:08:27,960 --> 01:08:25,900

things go out yeah so once it's there

1538

01:08:29,820 --> 01:08:27,970

people can come in they can use it they

1539

01:08:32,370 --> 01:08:29,830

can photograph it they can use it for

1540

01:08:35,460 --> 01:08:32,380

whatever purpose they want we don't

1541

01:08:36,870 --> 01:08:35,470

discriminate in any way about that but

1542

01:08:38,910 --> 01:08:36,880

to have something like that tested I

1543

01:08:40,920 --> 01:08:38,920

mean obviously honestly you've never had

1544

01:08:43,320 --> 01:08:40,930

anything like this before no one has

1545

01:08:45,870 --> 01:08:43,330

ever asked to test anything that we've

1546

01:08:50,340 --> 01:08:45,880

had in Paris before so I guess that's

1547

01:08:53,789 --> 01:08:50,350

something we have to consider but I knew

1548

01:08:55,890 --> 01:08:53,799

I I don't know it would be with great

1549

01:08:58,559 --> 01:08:55,900

hesitation that I would let it yeah we

1550

01:09:00,660 --> 01:08:58,569

would let oh yeah for it that way I'm

1551

01:09:02,309 --> 01:09:00,670

glad you feel that way yeah definitely

1552

01:09:03,870 --> 01:09:02,319

it things kinda like the Mona Lisa you

1553

01:09:06,269 --> 01:09:03,880

got a yeah you got a hold on to that

1554

01:09:08,280 --> 01:09:06,279

definitely because right now there's a

1555

01:09:11,220 --> 01:09:08,290

piece of metal that's circulating it's

1556

01:09:13,930 --> 01:09:11,230

it's it was a apparently sentient to art

1557

01:09:16,150 --> 01:09:13,940

Bell a long time ago and then

1558

01:09:18,370 --> 01:09:16,160

Linda Moulton Howe who's another

1559

01:09:20,800 --> 01:09:18,380

ufologist she got her hands on it and

1560

01:09:23,829 --> 01:09:20,810

and now there's a group and they're

1561

01:09:25,690 --> 01:09:23,839

called to the stars Academy and they

1562

01:09:27,670 --> 01:09:25,700

have this piece of metal and they've

1563

01:09:30,190 --> 01:09:27,680

done tests on this metal and it's it's

1564

01:09:35,020 --> 01:09:30,200

down to the molecular structure it's

1565

01:09:37,840 --> 01:09:35,030

it's layered in a way that we we can't

1566

01:09:41,020 --> 01:09:37,850

layer it so it like our material science

1567

01:09:42,910 --> 01:09:41,030

hasn't advanced to the level that it

1568

01:09:44,950 --> 01:09:42,920

would take to be able to make this type

1569

01:09:47,980 --> 01:09:44,960

of metal and some of the metals that

1570

01:09:51,160 --> 01:09:47,990

they have have found in this metal piece

1571

01:09:52,960 --> 01:09:51,170

are actually metals that aren't found in

1572

01:09:57,100 --> 01:09:52,970

the Milky Way galaxy

1573

01:09:59,230 --> 01:09:57,110

they're from a neighboring galaxy that

1574

01:10:02,680 --> 01:09:59,240

that's the only place that you can find

1575

01:10:05,020 --> 01:10:02,690

that metal so so it's I'm curious now to

1576

01:10:07,570 --> 01:10:05,030

know about this piece of metal and if

1577

01:10:09,070 --> 01:10:07,580

Stan really did get it tested or

1578

01:10:13,990 --> 01:10:09,080

something because that would be

1579

01:10:16,780 --> 01:10:14,000

incredible yeah if I see anything I can

1580

01:10:19,600 --> 01:10:16,790

let you know but as far as far as I have

1581

01:10:22,540 --> 01:10:19,610

seen so far it was Pisa loose-leaf

1582

01:10:24,640 --> 01:10:22,550

little baggie stapled to it and a pile

1583

01:10:27,730 --> 01:10:24,650

with a bunch of other with a bunch of

1584

01:10:29,890 --> 01:10:27,740

other letter it seems a little hazard

1585

01:10:35,650 --> 01:10:29,900

just kind of know when to send it

1586

01:10:37,570 --> 01:10:35,660

through the mail I don't trust the

1587

01:10:43,930 --> 01:10:37,580

United States Postal Service to deliver

1588

01:10:46,420 --> 01:10:43,940

anything much less a fragment from it

1589

01:10:48,400 --> 01:10:46,430

gotten to attend somehow anyway as to

1590

01:10:51,300 --> 01:10:48,410

what it is I wouldn't even hazard a

1591

01:10:55,000 --> 01:10:51,310

guess but I have held it and nothing

1592

01:10:57,430 --> 01:10:55,010

nothing happened to me so it's not half

1593

01:10:59,890 --> 01:10:57,440

of it anyway in an obvious way anyway

1594

01:11:06,600 --> 01:10:59,900

right how is the how is the Canadian

1595

01:11:13,110 --> 01:11:10,300

yeah yeah down here man stuff just goes

1596

01:11:15,160 --> 01:11:13,120

missing all the time they still have

1597

01:11:16,450 --> 01:11:15,170

something from Amazon and they still

1598

01:11:18,130 --> 01:11:16,460

have it they won't give it to me every

1599

01:11:19,840 --> 01:11:18,140

time I go they're like oh we can't find

1600

01:11:21,100 --> 01:11:19,850

it yeah they want you to go you know and

1601

01:11:22,930 --> 01:11:21,110

then I go to pick it up and they're like

1602

01:11:24,340 --> 01:11:22,940

they'll spend like 30 minutes back there

1603

01:11:25,870 --> 01:11:24,350

in the in the warehouse and there they

1604

01:11:26,899 --> 01:11:25,880

come back and they're like what size is

1605

01:11:30,280 --> 01:11:26,909

the box again

1606

01:11:32,629 --> 01:11:30,290

I don't know you're the one that got it

1607

01:11:37,970 --> 01:11:32,639

yeah you called me to come pick this

1608

01:11:45,080 --> 01:11:37,980

thing up yes that is not a fun thing I

1609

01:11:49,640 --> 01:11:45,090

can help you with so so I know you uh

1610

01:11:51,830 --> 01:11:49,650

you uh you went to college and you know

1611

01:11:54,200 --> 01:11:51,840

you studied history and like you have

1612

01:11:56,689 --> 01:11:54,210

your master's in archival studies right

1613

01:11:59,840 --> 01:11:56,699

if so is there anything that you were

1614

01:12:02,959 --> 01:11:59,850

like I don't know like I I kind of like

1615

01:12:04,729 --> 01:12:02,969

as a kid I never thought ooh I'm gonna

1616

01:12:07,160 --> 01:12:04,739

be an archivist you know what I'm saying

1617

01:12:10,280 --> 01:12:07,170

but it's it's also such a cool thing to

1618

01:12:12,530 --> 01:12:10,290

end up doing like what was what was your

1619

01:12:15,169 --> 01:12:12,540

goal like what was your your thing like

1620

01:12:18,890 --> 01:12:15,179

as a young girl did you dream yeah you

1621

01:12:21,260 --> 01:12:18,900

know I just I actually I was I was a kid

1622

01:12:25,040 --> 01:12:21,270

and that's that's not the norm at all

1623

01:12:27,590 --> 01:12:25,050

but my family had a friend who was an

1624

01:12:31,160 --> 01:12:27,600

archivist at a university and on summer

1625

01:12:33,620 --> 01:12:31,170

vacation we stopped in to see her and

1626

01:12:36,320 --> 01:12:33,630

the archives was actually in the

1627

01:12:39,350 --> 01:12:36,330

basement of a university library behind

1628

01:12:41,930 --> 01:12:39,360

an actual cage and I thought as a kid

1629

01:12:45,290 --> 01:12:41,940

that was just the coolest thing ever and

1630

01:12:48,830 --> 01:12:45,300

I'm yeah and the smell like just the

1631

01:12:50,330 --> 01:12:48,840

smell of old paper and the boxes of

1632

01:12:54,229 --> 01:12:50,340

things that you don't know what's inside

1633

01:12:55,760 --> 01:12:54,239

so I started working there as a

1634

01:12:57,320 --> 01:12:55,770

university student I went to that

1635

01:13:00,379 --> 01:12:57,330

University and did my history degree

1636

01:13:01,850 --> 01:13:00,389

there and there's a few schools in

1637

01:13:04,370 --> 01:13:01,860

Canada where you can do a master's in

1638

01:13:09,379 --> 01:13:04,380

archival study so I went to one of those

1639

01:13:12,530 --> 01:13:09,389

and I've been hooked ever since I guess

1640

01:13:15,470 --> 01:13:12,540

it's a lot of fun it's just it's it's a

1641

01:13:17,510 --> 01:13:15,480

really fun career yeah I I can totally

1642

01:13:18,979 --> 01:13:17,520

relate to the the bottom like what's

1643

01:13:20,750 --> 01:13:18,989

inside the boxes I think that's

1644

01:13:23,270 --> 01:13:20,760

something that that sparked me and Jonas

1645

01:13:24,770 --> 01:13:23,280

even start this podcast is like we want

1646

01:13:26,390 --> 01:13:24,780

to know these questions these little

1647

01:13:28,040 --> 01:13:26,400

boxes that are everywhere we want to

1648

01:13:29,899 --> 01:13:28,050

know what's inside of it so bad that we

1649

01:13:31,459 --> 01:13:29,909

did we loved it so much so we just want

1650

01:13:33,110 --> 01:13:31,469

to talk about it and start a podcast so

1651

01:13:35,149 --> 01:13:33,120

I definitely get that that sentiment

1652

01:13:38,030 --> 01:13:35,159

where there's this this mystery and

1653

01:13:39,790 --> 01:13:38,040

although your topic is probably a lot

1654

01:13:42,340 --> 01:13:39,800

usually a lot more grounded

1655

01:13:44,770 --> 01:13:42,350

the reality sometimes than some of the

1656

01:13:46,840 --> 01:13:44,780

things that I'm usually interested in

1657

01:13:50,350 --> 01:13:46,850

but yeah I definitely just that

1658

01:13:52,420 --> 01:13:50,360

curiosity curiosity yeah absolutely yeah

1659

01:13:54,190 --> 01:13:52,430

well sometimes you open up a box and

1660

01:13:55,840 --> 01:13:54,200

then you shut it really fast because

1661

01:13:58,210 --> 01:13:55,850

it's stuff that you just don't want to

1662

01:13:59,830 --> 01:13:58,220

deal with but you know it was a book

1663

01:14:05,380 --> 01:13:59,840

that still they're lurking in the corner

1664

01:14:07,900 --> 01:14:05,390

so yeah yeah well we're so we're slowly

1665

01:14:09,460 --> 01:14:07,910

opening this box of the UFO subject and

1666

01:14:11,140 --> 01:14:09,470

it yeah it's one of those things where

1667

01:14:14,050 --> 01:14:11,150

sometimes I have had to close the box

1668

01:14:15,430 --> 01:14:14,060

because it's become so real

1669

01:14:18,580 --> 01:14:15,440

a lot of the stuff that we've uncovered

1670

01:14:19,660 --> 01:14:18,590

since we started this podcast in June I

1671

01:14:21,220 --> 01:14:19,670

mean me and Joe have always been

1672

01:14:22,690 --> 01:14:21,230

interested in the subject but when we

1673

01:14:24,280 --> 01:14:22,700

really started doing this podcast and

1674

01:14:26,620 --> 01:14:24,290

talking to people and looking and doing

1675

01:14:29,050 --> 01:14:26,630

more research it's it's just becoming

1676

01:14:33,280 --> 01:14:29,060

this this phenomenon is becoming so so

1677

01:14:34,960 --> 01:14:33,290

real and just rooted in reality and yeah

1678

01:14:37,420 --> 01:14:34,970

it's it's been it's been really fun to

1679

01:14:40,150 --> 01:14:37,430

learn everything that goes along with it

1680

01:14:42,580 --> 01:14:40,160

including this this thing with Stanton

1681

01:14:43,840 --> 01:14:42,590

and and and the archive and I just want

1682

01:14:46,330 --> 01:14:43,850

to thank you so much for talking to us

1683

01:14:47,800 --> 01:14:46,340

today like this is this has been so I

1684

01:14:52,120 --> 01:14:47,810

know it's been it's been really really

1685

01:14:54,940 --> 01:14:52,130

awesome 100% yeah no happy to do it and

1686

01:14:57,070 --> 01:14:54,950

if you're if you want to follow up in a

1687

01:14:59,410 --> 01:14:57,080

few months to see how the progress is

1688

01:15:02,410 --> 01:14:59,420

going then I'm more than happy to chat

1689

01:15:04,210 --> 01:15:02,420

to you again actually absolutely that

1690

01:15:05,560 --> 01:15:04,220

would be so great and and again I just

1691

01:15:08,080 --> 01:15:05,570

kind of want to tell our visitor or our

1692

01:15:10,570 --> 01:15:08,090

listeners that I just have I didn't

1693

01:15:12,100 --> 01:15:10,580

really expect you Joanna to get back to

1694

01:15:13,570 --> 01:15:12,110

me so soon and and I just really

1695

01:15:15,490 --> 01:15:13,580

appreciate that and a lot of times I

1696

01:15:16,510 --> 01:15:15,500

kind of reach out to people and see if

1697

01:15:18,190 --> 01:15:16,520

they'd be interested in being on the

1698

01:15:21,580 --> 01:15:18,200

podcast so I just really appreciate your

1699

01:15:23,290 --> 01:15:21,590

your willingness to go on the podcast

1700

01:15:25,900 --> 01:15:23,300

and just have a cool conversation with

1701

01:15:27,430 --> 01:15:25,910

us tonight oh yeah now happy I never

1702

01:15:31,840 --> 01:15:27,440

miss an opportunity to talk about

1703

01:15:33,850 --> 01:15:31,850

archives what you know I know I've got

1704

01:15:36,820 --> 01:15:33,860

one more question yeah yeah I've got one

1705

01:15:38,800 --> 01:15:36,830

more question so obviously right you

1706

01:15:41,500 --> 01:15:38,810

know we sit around and we ponder the

1707

01:15:44,830 --> 01:15:41,510

universe and we really think you know

1708

01:15:49,630 --> 01:15:44,840

like yeah there's there's life out there

1709

01:15:51,880 --> 01:15:49,640

right but but we never really kind of

1710

01:15:53,470 --> 01:15:51,890

take it to heart right it's just kind of

1711

01:15:57,250 --> 01:15:53,480

a thought that we have

1712

01:15:59,590 --> 01:15:57,260

so as you've been going through these

1713

01:16:04,830 --> 01:15:59,600

documents and everything that Friedman

1714

01:16:09,880 --> 01:16:04,840

had does it kind of take it to another

1715

01:16:15,510 --> 01:16:09,890

step of reality for you like as you're

1716

01:16:21,070 --> 01:16:15,520

going through this oh geez

1717

01:16:24,010 --> 01:16:21,080

maybe that'll probably happen after I

1718

01:16:28,090 --> 01:16:24,020

feel like the collection is in some

1719

01:16:30,070 --> 01:16:28,100

state of control so when when I'm going

1720

01:16:31,990 --> 01:16:30,080

through this stuff right now or working

1721

01:16:36,310 --> 01:16:32,000

with my colleagues working on this stuff

1722

01:16:38,530 --> 01:16:36,320

a lot of the time it's like okay we need

1723

01:16:43,210 --> 01:16:38,540

to get through ten boxes we need to get

1724

01:16:46,840 --> 01:16:43,220

ten boxes today so I'm not I'm not in

1725

01:16:53,200 --> 01:16:46,850

that particular headspace right but

1726

01:16:56,470 --> 01:16:53,210

problem as we start to get past that big

1727

01:16:58,450 --> 01:16:56,480

bucket sorting yeah I expect especially

1728

01:17:02,800 --> 01:16:58,460

going especially going through things

1729

01:17:04,870 --> 01:17:02,810

like the fan mail we read a lot of that

1730

01:17:07,660 --> 01:17:04,880

aloud as we're going through like hey

1731

01:17:10,390 --> 01:17:07,670

this one's from me on my hometown and so

1732

01:17:13,210 --> 01:17:10,400

we read through I like oh man I mean

1733

01:17:16,000 --> 01:17:13,220

that person started the letter with I'm

1734

01:17:19,870 --> 01:17:16,010

a retired nurse I have never believed in

1735

01:17:22,690 --> 01:17:19,880

UFOs and this is what I saw so when when

1736

01:17:26,230 --> 01:17:22,700

you start to read that over and over and

1737

01:17:30,190 --> 01:17:26,240

over again sort of certainty like oh wow

1738

01:17:36,250 --> 01:17:30,200

that's um it's the same story so it's

1739

01:17:38,530 --> 01:17:36,260

yeah maybe maybe once I stop having to

1740

01:17:40,450 --> 01:17:38,540

think about okay Dan wanted this stuff

1741

01:17:42,460 --> 01:17:40,460

available to the public we've got to get

1742

01:17:45,400 --> 01:17:42,470

it out there as fast as possible what's

1743

01:17:49,360 --> 01:17:45,410

that level of oh yeah we could do this

1744

01:17:52,900 --> 01:17:49,370

then then I'll ponder a bit more awesome

1745

01:17:54,040 --> 01:17:52,910

awesome well hey man that was that was

1746

01:17:57,090 --> 01:17:54,050

that was really good

1747

01:18:00,580 --> 01:17:57,100

again thank you very very much for

1748

01:18:02,140 --> 01:18:00,590

responding and in getting back to us and

1749

01:18:04,600 --> 01:18:02,150

we definitely want to stay in contact

1750

01:18:06,100 --> 01:18:04,610

with you in the next couple months and

1751

01:18:06,920 --> 01:18:06,110

kind of see you know we want to follow

1752

01:18:09,410 --> 01:18:06,930

the

1753

01:18:12,710 --> 01:18:09,420

and we want to let people know what you

1754

01:18:15,020 --> 01:18:12,720

guys are doing and you know it's it's so

1755

01:18:16,970 --> 01:18:15,030

important like we think this is so so

1756

01:18:19,670 --> 01:18:16,980

important and even if people don't

1757

01:18:22,400 --> 01:18:19,680

understand like what an archivist does

1758

01:18:23,990 --> 01:18:22,410

or you know what you guys are doing over

1759

01:18:26,180 --> 01:18:24,000

there we want to get the word out

1760

01:18:27,800 --> 01:18:26,190

because this is this is incredible and

1761

01:18:30,320 --> 01:18:27,810

it's really really awesome that you guys

1762

01:18:33,410 --> 01:18:30,330

took on this this massive project and

1763

01:18:36,230 --> 01:18:33,420

I'm so happy that that's what's

1764

01:18:38,740 --> 01:18:36,240

happening with all of his material well

1765

01:18:41,780 --> 01:18:38,750

well thank you thanks it's great beer

1766

01:18:44,150 --> 01:18:41,790

yes ma'am thank you thank you alright

1767

01:18:45,860 --> 01:18:44,160

baby any more questions I'm good I can't

1768

01:18:48,110 --> 01:18:45,870

wait to follow up with you I mean yeah

1769

01:18:49,550 --> 01:18:48,120

it's just so exciting and I just did out

1770

01:18:51,140 --> 01:18:49,560

of what Joe said I mean this is like

1771

01:18:53,000 --> 01:18:51,150

super important everything that goes

1772

01:18:54,710 --> 01:18:53,010

into this this culture and this the

1773

01:18:56,000 --> 01:18:54,720

research it starts here it starts with

1774

01:18:57,890 --> 01:18:56,010

the people that really care about the

1775

01:18:59,420 --> 01:18:57,900

subject and want to preserve it so again

1776

01:19:01,910 --> 01:18:59,430

I just wanted to thank you Joanna so

1777

01:19:05,210 --> 01:19:01,920

much thank you

1778

01:19:09,050 --> 01:19:05,220

I I will extend your thanks to them on

1779

01:19:11,480 --> 01:19:09,060

Friedmann Friday thank you very much

1780

01:19:16,180 --> 01:19:11,490

we'll talk to you later all right

1781

01:19:19,490 --> 01:19:16,190

bye now my little dude that was sick

1782

01:19:23,090 --> 01:19:19,500

sick yes I'm so glad that she was able

1783

01:19:26,000 --> 01:19:23,100

to come be on the podcast with us man

1784

01:19:27,500 --> 01:19:26,010

again like it's crazy how this this

1785

01:19:29,960 --> 01:19:27,510

whole thing worked out I remember I

1786

01:19:31,820 --> 01:19:29,970

texted you I wanted to reach out to the

1787

01:19:34,340 --> 01:19:31,830

archive archivists that was in charge of

1788

01:19:36,410 --> 01:19:34,350

Stanton Friedman's research and send out

1789

01:19:39,320 --> 01:19:36,420

that email not expecting anything and

1790

01:19:40,700 --> 01:19:39,330

she got back to me super quick yeah I

1791

01:19:44,060 --> 01:19:40,710

didn't think she was ever gonna get back

1792

01:19:46,310 --> 01:19:44,070

to us like you said like months man she

1793

01:19:48,350 --> 01:19:46,320

was gonna blow it off yeah so that was

1794

01:19:49,520 --> 01:19:48,360

super cool of her to do that man that

1795

01:19:53,570 --> 01:19:49,530

was so awesome

1796

01:19:56,090 --> 01:19:53,580

such a nice lady man you know yeah and I

1797

01:19:57,710 --> 01:19:56,100

can't wait to keep in touch with her

1798

01:19:59,180 --> 01:19:57,720

through this entire process

1799

01:20:01,460 --> 01:19:59,190

yeah the keeping in touch is gonna be

1800

01:20:04,340 --> 01:20:01,470

fun I'm glad that she invited us to like

1801

01:20:06,020 --> 01:20:04,350

you know follow up and in color again

1802

01:20:08,300 --> 01:20:06,030

I'm sure we're gonna have her on the

1803

01:20:10,010 --> 01:20:08,310

podcast and maybe a couple couple

1804

01:20:10,760 --> 01:20:10,020

episodes from now or maybe couple months

1805

01:20:13,250 --> 01:20:10,770

or something like that

1806

01:20:14,930 --> 01:20:13,260

yeah I'd love to kind of follow up and

1807

01:20:16,790 --> 01:20:14,940

think of questions we should have asked

1808

01:20:18,140 --> 01:20:16,800

things like that yeah we're gonna we're

1809

01:20:19,520 --> 01:20:18,150

gonna think about stuff that we should

1810

01:20:20,570 --> 01:20:19,530

have asked yeah if you guys have any

1811

01:20:22,850 --> 01:20:20,580

questions that you

1812

01:20:25,580 --> 01:20:22,860

we have fur for johanna let us know and

1813

01:20:27,320 --> 01:20:25,590

we'll totally ask her well ask her you

1814

01:20:30,620 --> 01:20:27,330

know any questions you guys got

1815

01:20:32,300 --> 01:20:30,630

definitely Illi think in a you know like

1816

01:20:35,600 --> 01:20:32,310

maybe in like a year or two we should

1817

01:20:37,760 --> 01:20:35,610

take a trip up to Canada yeah dude

1818

01:20:40,130 --> 01:20:37,770

that'd be so and go visit and maybe have

1819

01:20:41,660 --> 01:20:40,140

her kind of show us around show us the

1820

01:20:42,980 --> 01:20:41,670

place you think we get in trouble for

1821

01:20:49,160 --> 01:20:42,990

touching too many things and probably

1822

01:20:51,680 --> 01:20:49,170

should be like touching things hopefully

1823

01:20:53,240 --> 01:20:51,690

after like two or three of these she'll

1824

01:20:54,710 --> 01:20:53,250

kind of she'll kind of start to come

1825

01:20:56,540 --> 01:20:54,720

around to like what kind of people we

1826

01:20:59,930 --> 01:20:56,550

are yeah you know what I'm saying yeah I

1827

01:21:02,180 --> 01:20:59,940

think I'm I'm sure she's from academia

1828

01:21:05,750 --> 01:21:02,190

and I mean obviously very intelligent

1829

01:21:08,870 --> 01:21:05,760

person I think the the dissonance was a

1830

01:21:10,670 --> 01:21:08,880

little that we all loosened up and it's

1831

01:21:13,790 --> 01:21:10,680

always yeah we're meeting people for the

1832

01:21:15,170 --> 01:21:13,800

first time person ever so yeah I think

1833

01:21:18,260 --> 01:21:15,180

yeah next time we call her we're gonna

1834

01:21:22,220 --> 01:21:18,270

be like girl I think we all handled it

1835

01:21:24,380 --> 01:21:22,230

pretty well she was like yeah she was

1836

01:21:26,000 --> 01:21:24,390

super respectful I'm glad she didn't be

1837

01:21:29,300 --> 01:21:26,010

like yeah I'm glad she wasn't like

1838

01:21:30,800 --> 01:21:29,310

alright these guys are idiots so I had

1839

01:21:32,840 --> 01:21:30,810

to contain myself a little bit because

1840

01:21:35,600 --> 01:21:32,850

when she was like you know it was just

1841

01:21:37,550 --> 01:21:35,610

something about like opening a box with

1842

01:21:38,930 --> 01:21:37,560

you know a surprise decided I want to be

1843

01:21:41,210 --> 01:21:38,940

like you be you mean like when you open

1844

01:21:44,540 --> 01:21:41,220

cereal and like you get the

1845

01:21:46,990 --> 01:21:44,550

color-changing spoon inside I'm glad I

1846

01:21:49,550 --> 01:21:47,000

didn't say that but I was thinking it

1847

01:21:54,800 --> 01:21:49,560

because I totally thought about that was

1848

01:21:57,170 --> 01:21:54,810

like yeah just like cereal box yeah I

1849

01:21:58,400 --> 01:21:57,180

did has that ever happened to you where

1850

01:21:59,690 --> 01:21:58,410

you bought a cereal box thinking that

1851
01:22:01,250 --> 01:21:59,700
there was something inside but then you

1852
01:22:03,080 --> 01:22:01,260
open it up and you were like oh god

1853
01:22:04,610 --> 01:22:03,090
damn it dude this is like with proof of

1854
01:22:07,190 --> 01:22:04,620
purchase and you have to sit in the tops

1855
01:22:08,630 --> 01:22:07,200
yeah I was like used to happen all the

1856
01:22:10,250 --> 01:22:08,640
time when I was a kid you'd open up a

1857
01:22:13,900 --> 01:22:10,260
cereal box and there'd be something in

1858
01:22:17,130 --> 01:22:13,910
there because you could not be good yeah

1859
01:22:18,570 --> 01:22:17,140
it was always like a little toy or

1860
01:22:21,510 --> 01:22:18,580
some kind of thing you can cover or

1861
01:22:23,910 --> 01:22:21,520
color like in the Trix boxes I remember

1862
01:22:30,990 --> 01:22:23,920
there being something in the cereal box

1863
01:22:42,330 --> 01:22:39,690

the Happy Meal poster putting him like

1864

01:22:46,410 --> 01:22:42,340

in a specific place like a little shrine

1865

01:22:48,990 --> 01:22:46,420

yes Happy Meal toy shrine but yeah dude

1866

01:22:51,060 --> 01:22:49,000

that was sick man super happy super

1867

01:22:53,370 --> 01:22:51,070

happy that that she reached out to us

1868

01:22:54,930 --> 01:22:53,380

cuz that's that's super important dude

1869

01:22:57,330 --> 01:22:54,940

yeah kind of makes me feel like we're

1870

01:22:59,250 --> 01:22:57,340

part of the team yeah I feel like we're

1871

01:23:01,710 --> 01:22:59,260

we're like yeah we're part of the posse

1872

01:23:04,710 --> 01:23:01,720

now I think we wishes sin Johanna an are

1873

01:23:06,780 --> 01:23:04,720

1874

01:23:08,850 --> 01:23:06,790

she needs one we need to send her some

1875

01:23:12,390 --> 01:23:08,860

shirts for sure is it polite to ask a

1876

01:23:15,360 --> 01:23:12,400

lady what size she wears yes wait no

1877

01:23:17,040 --> 01:23:15,370

let's just send her wait I don't know

1878

01:23:18,900 --> 01:23:17,050

how to answer that question well maybe

1879

01:23:21,210 --> 01:23:18,910

we could send her a whole bunch of

1880

01:23:22,470 --> 01:23:21,220

smalls and she would be like actually

1881

01:23:27,960 --> 01:23:22,480

these are too small for me and they'd be

1882

01:23:31,710 --> 01:23:27,970

like oh my bad you seem so petite which

1883

01:23:33,090 --> 01:23:31,720

like never seen her matter she looks

1884

01:23:37,740 --> 01:23:33,100

like like through the internet stuff

1885

01:23:39,150 --> 01:23:37,750

like yeah oh well then what size do you

1886

01:23:47,130 --> 01:23:39,160

wear maybe she'll just be like well I'm

1887

01:23:48,810 --> 01:23:47,140

a medium there we go most many oh yeah

1888

01:23:50,220 --> 01:23:48,820

it's in the center team like just a

1889

01:23:52,200 --> 01:23:50,230

bunch of different shirts that'd be cool

1890

01:23:56,010 --> 01:23:52,210

1891

01:23:57,870 --> 01:23:56,020
