

UFO
GARAGE
PODCAST

Jim Goodall
UFO CON 2020

1
00:00:04,430 --> 00:00:03,050
what's up UFO garage good morning this

2
00:00:06,650 --> 00:00:04,440
is gonna be our first little interview

3
00:00:08,780 --> 00:00:06,660
of the day we've got mr. Jim Goodall

4
00:00:10,339 --> 00:00:08,790
here with us and uh I'm gonna be

5
00:00:13,100 --> 00:00:10,349
chit-chatting with them a little bit and

6
00:00:16,970 --> 00:00:13,110
uh just kind of seeing what he's all

7
00:00:17,210 --> 00:00:16,980
about Jim yeah I'm glad to be here thank

8
00:00:24,500 --> 00:00:17,220
you

9
00:00:25,910 --> 00:00:24,510
this is Wayne's World yes yes yeah just

10
00:00:28,640 --> 00:00:25,920
tell the people a little bit about who

11
00:00:31,009 --> 00:00:28,650
you are and in yeah how you got into

12
00:00:33,979 --> 00:00:31,019
this whole thing I've been doing this

13
00:00:35,959 --> 00:00:33,989

and for fun and this that's what I do it

14

00:00:39,110 --> 00:00:35,969

for us for fun I don't like anybody at

15

00:00:41,600 --> 00:00:39,120

it this is my first UFO conference that

16

00:00:44,240 --> 00:00:41,610

I've actually been a speaker oh wow I've

17

00:00:46,160 --> 00:00:44,250

only been to two other ones the one in

18

00:00:50,150 --> 00:00:46,170

Phoenix last year and then doc Skinner

19

00:00:53,360 --> 00:00:50,160

had his function up the disclosure con

20

00:00:56,209 --> 00:00:53,370

up and Pinetop oh cool last year and

21

00:00:59,150 --> 00:00:56,219

he's no I'm gonna be a speaker at his

22

00:01:02,150 --> 00:00:59,160

one for this year but I'm I'm uh I'm a

23

00:01:05,390 --> 00:01:02,160

hardware guy I'm an airplane guy I saw

24

00:01:09,770 --> 00:01:05,400

my first Blackbird I not quite nineteen

25

00:01:12,109 --> 00:01:09,780

years old I mean that was 1964 Wow I saw

26

00:01:13,730 --> 00:01:12,119

I saw for the general public and I've

27

00:01:16,850 --> 00:01:13,740

never been the same since so I've been

28

00:01:20,710 --> 00:01:16,860

in 2spooky airplanes area 51 things that

29

00:01:23,929 --> 00:01:20,720

go bump in the night yes and because of

30

00:01:27,649 --> 00:01:23,939

my passion for spooky airplanes

31

00:01:30,499 --> 00:01:27,659

it also has led into you know people who

32

00:01:33,920 --> 00:01:30,509

were also into the UFO community now I

33

00:01:36,980 --> 00:01:33,930

was at just recently in the last four or

34

00:01:38,840 --> 00:01:36,990

five years I was a docent at ket Peak

35

00:01:41,539 --> 00:01:38,850

National Observatory is outside of

36

00:01:44,780 --> 00:01:41,549

Tucson okay they have 22 optical

37

00:01:46,520 --> 00:01:44,790

telescopes and one of them the the two

38

00:01:51,170 --> 00:01:46,530

point one meter which was operated by

39

00:01:54,679 --> 00:01:51,180

Caltech using adaptive optics over a

40

00:01:57,980 --> 00:01:54,689

five year period in a small area of our

41

00:02:03,440 --> 00:01:57,990

galaxy the Milky Way they identified

42

00:02:05,090 --> 00:02:03,450

over 8,000 exoplanets wow that's awesome

43

00:02:07,520 --> 00:02:05,100

and there's more and more that we find

44

00:02:08,180 --> 00:02:07,530

and although just just before just

45

00:02:10,669 --> 00:02:08,190

before I

46

00:02:11,449 --> 00:02:10,679

I quit volunteering I didn't care for

47

00:02:14,360 --> 00:02:11,459

the butt

48

00:02:15,949 --> 00:02:14,370

the new volunteer coordinator I don't I

49

00:02:16,819 --> 00:02:15,959

have no tolerance for people who talk

50

00:02:21,050 --> 00:02:16,829

down to me

51
00:02:26,569 --> 00:02:21,060
all right yeah yeah don't talk down to

52
00:02:27,890 --> 00:02:26,579
me especially when you're a volunteer we

53
00:02:31,550 --> 00:02:27,900
had a thing with the National Science

54
00:02:33,309 --> 00:02:31,560
Foundation with a lead astronomer it

55
00:02:37,069 --> 00:02:33,319
just come back from a conference and

56
00:02:39,319 --> 00:02:37,079
these are all the astronomers that have

57
00:02:42,949 --> 00:02:39,329
been looking for exoplanets I mean from

58
00:02:44,780 --> 00:02:42,959
all around the world and based on based

59
00:02:47,140 --> 00:02:44,790
on those numbers of what they have found

60
00:02:50,420 --> 00:02:47,150
in different segments of the universe

61
00:02:52,610 --> 00:02:50,430
they figure that there are for every

62
00:02:53,990 --> 00:02:52,620
star in the universe and that's a number

63
00:02:56,990 --> 00:02:54,000

you can't cram in your head

64

00:02:59,089 --> 00:02:57,000

not at all many zeroes but for every

65

00:03:02,599 --> 00:02:59,099

star in the universe they calculate this

66

00:03:06,020 --> 00:03:02,609

one and a half planets and out of that

67

00:03:09,440 --> 00:03:06,030

incredible number of planets exoplanets

68

00:03:12,379 --> 00:03:09,450

they calculate it at least two billion

69

00:03:16,939 --> 00:03:12,389

and that's with a B two billion

70

00:03:19,759 --> 00:03:16,949

earth-like planets orbiting a brown

71

00:03:24,280 --> 00:03:19,769

dwarf similar to our star in an

72

00:03:27,679 --> 00:03:24,290

inhabitable zone with liquid water Wow a

73

00:03:29,119 --> 00:03:27,689

billion now our galaxy is four billion

74

00:03:32,270 --> 00:03:29,129

years old right

75

00:03:35,149 --> 00:03:32,280

the universe is 14 point five billion

76

00:03:37,969 --> 00:03:35,159
years old yeah and 2-quart Jodie

77

00:03:44,869 --> 00:03:37,979
Foster's character in contact if we're

78

00:03:46,369 --> 00:03:44,879
the only ones what a waste of space yeah

79

00:03:48,409 --> 00:03:46,379
over the over the years i've been doing

80

00:03:50,240 --> 00:03:48,419
i've been doing this digging up stuff on

81

00:03:53,929 --> 00:03:50,250
spooky airplanes things that go bump in

82

00:03:57,830 --> 00:03:53,939
the night for almost 50 years right it

83

00:03:59,420 --> 00:03:57,840
makes me an old guy i've been there i've

84

00:04:02,119 --> 00:03:59,430
been in the field i've been the area the

85

00:04:05,469 --> 00:04:02,129
fence landed area 51 and Tonopah test

86

00:04:07,610 --> 00:04:05,479
range over 80 times in the last 40 years

87

00:04:10,520 --> 00:04:07,620
that is quite a bit

88

00:04:13,819 --> 00:04:10,530

you think you hold the record on most

89

00:04:15,020 --> 00:04:13,829

visits uh well no I think Glen Campbell

90

00:04:19,099 --> 00:04:15,030

okay

91

00:04:22,430 --> 00:04:19,109

he's now he's gone he's sort of a I

92

00:04:23,810 --> 00:04:22,440

can't I won't say he's no he's no longer

93

00:04:27,200 --> 00:04:23,820

in the picture right

94

00:04:30,350 --> 00:04:27,210

lived in Reichle for I think five years

95

00:04:32,300 --> 00:04:30,360

and he was out every day so he's been to

96

00:04:47,540 --> 00:04:32,310

the fence line he's been all over the

97

00:04:49,970 --> 00:04:47,550

desert many many times so it's it's

98

00:04:52,460 --> 00:04:49,980

something that's fun it's it's something

99

00:04:54,560 --> 00:04:52,470

that no one else was doing right right

100

00:04:59,090 --> 00:04:54,570

the first time I went to the little

101
00:05:03,200 --> 00:04:59,100
alien I decided to drive around the

102
00:05:05,690 --> 00:05:03,210
Nevada Test Site it was 1987 Joe and Pat

103
00:05:07,250 --> 00:05:05,700
Travis had just bought the little alien

104
00:05:09,830 --> 00:05:07,260
it was I don't think it wasn't called

105
00:05:12,620 --> 00:05:09,840
that yet but I got gas there there was a

106
00:05:15,230 --> 00:05:12,630
gas station at one time and at one time

107
00:05:19,730 --> 00:05:15,240
the population was about 85 hangs down

108
00:05:23,090 --> 00:05:19,740
to about 40 now yeah but it's the places

109
00:05:27,020 --> 00:05:23,100
I've been drawn to it I've I haven't

110
00:05:30,620 --> 00:05:27,030
seen any UFOs I've seen things seem

111
00:05:32,840 --> 00:05:30,630
strange airplanes maybe something that

112
00:05:35,330 --> 00:05:32,850
we weren't working on right yeah and be

113
00:05:39,320 --> 00:05:35,340

and because because of my my strong

114

00:05:41,540 --> 00:05:39,330

interest in spooky airplanes I sort of

115

00:05:42,380 --> 00:05:41,550

align myself with people with similar

116

00:05:46,160 --> 00:05:42,390

interests

117

00:05:48,530 --> 00:05:46,170

uh-huh and in 1972 I met John where I

118

00:05:51,790 --> 00:05:48,540

met John through John Andrews from

119

00:05:55,220 --> 00:05:51,800

testers right he was the day I met John

120

00:05:58,400 --> 00:05:55,230

Andrews I knew he was my he had been my

121

00:06:00,230 --> 00:05:58,410

best friend for life and he was on till

122

00:06:01,760 --> 00:06:00,240

the day he died and you know you know

123

00:06:03,620 --> 00:06:01,770

you run into people and you just know

124

00:06:06,080 --> 00:06:03,630

that yeah yeah yeah thank you

125

00:06:10,880 --> 00:06:06,090

everything everything disorder congeals

126
00:06:15,620 --> 00:06:10,890
and because of John Andrews I met John

127
00:06:18,890 --> 00:06:15,630
Lear and because of John Lear I met Bob

128
00:06:21,110 --> 00:06:18,900
Lazar and I met Bob before he had gone

129
00:06:24,050 --> 00:06:21,120
to work out in the desert right right

130
00:06:27,500 --> 00:06:24,060
and I had the day I met him John Lear

131
00:06:29,840 --> 00:06:27,510
and I had we're going up u.s. 95 heading

132
00:06:31,130 --> 00:06:29,850
toward Scotty's Junction heading George

133
00:06:33,680 --> 00:06:31,140
Tonopah uh-huh

134
00:06:37,490 --> 00:06:33,690
and this the world had not seen the

135
00:06:40,810 --> 00:06:37,500
f-117 yet and an f-117 flew over us

136
00:06:43,930 --> 00:06:40,820
about 1,500 feet we bout crashed the car

137
00:06:47,120 --> 00:06:43,940
and that's the stealth looking plane

138
00:06:51,530 --> 00:06:47,130

boomerang hooking yeah it looks like an

139

00:06:53,780 --> 00:06:51,540

arrowhead yeah okay yeah and I asked I

140

00:06:55,400 --> 00:06:53,790

asked Leary said do you have any idea

141

00:06:58,850 --> 00:06:55,410

where there's things flying out of yeah

142

00:07:01,850 --> 00:06:58,860

I heard about there's a new complex at

143

00:07:06,050 --> 00:07:01,860

Tonopah so we go to the town of Tonopah

144

00:07:10,340 --> 00:07:06,060

then we head out u.s. six you know about

145

00:07:14,330 --> 00:07:10,350

14 miles it's a big sign with a a dummy

146

00:07:17,600 --> 00:07:14,340

nuclear weapon it was a B for teeth B 43

147

00:07:21,290 --> 00:07:17,610

nuke with a Nike Ajax booster on it the

148

00:07:22,610 --> 00:07:21,300

big sign Tonopah test range so that must

149

00:07:24,740 --> 00:07:22,620

be what we're talking about so we headed

150

00:07:28,340 --> 00:07:24,750

down the roads about you go 18 miles

151
00:07:30,590 --> 00:07:28,350
then you get the main gate in and so we

152
00:07:33,440 --> 00:07:30,600
just rode along the fence line on the on

153
00:07:35,240 --> 00:07:33,450
the BLM side the public land side and

154
00:07:36,530 --> 00:07:35,250
we're you know we're sitting there

155
00:07:38,360 --> 00:07:36,540
waiting for something to happen you can

156
00:07:40,969 --> 00:07:38,370
see the entire base it's eight miles

157
00:07:44,120 --> 00:07:40,979
away all right on and all of a sudden we

158
00:07:46,880 --> 00:07:44,130
see an f-117 coming in and it was like

159
00:07:50,870 --> 00:07:46,890
me that maybe a 10 or 11 year old boy

160
00:07:54,409 --> 00:07:50,880
seeing your first naked woman my cameras

161
00:07:56,920 --> 00:07:54,419
my cameras literally trembling I mean it

162
00:08:03,200 --> 00:07:56,930
was like getting laid for the first time

163
00:08:06,409 --> 00:08:03,210

over my head I hit print film because

164

00:08:07,640 --> 00:08:06,419

this is before digital yeah you know

165

00:08:11,840 --> 00:08:07,650

people doesn't mean there's things

166

00:08:13,460 --> 00:08:11,850

before digital yeah I was called film I

167

00:08:15,770 --> 00:08:13,470

didn't want it I did I wasn't shooting

168

00:08:17,360 --> 00:08:15,780

code or am i shooting kodacolor print

169

00:08:21,710 --> 00:08:17,370

film yeah so I can get it processed

170

00:08:23,270 --> 00:08:21,720

locally and we finished I went through

171

00:08:25,870 --> 00:08:23,280

the whole roll of film it was only the

172

00:08:29,150 --> 00:08:25,880

only f-117 it was followed by a t-38

173

00:08:33,589 --> 00:08:29,160

chase plane again the world hadn't seen

174

00:08:35,329 --> 00:08:33,599

the airplane yet right so John said well

175

00:08:37,719 --> 00:08:35,339

let's head back to my place I have a

176
00:08:41,740 --> 00:08:37,729
bunny wine coming over by 9:30 tonight

177
00:08:44,480 --> 00:08:41,750
so we head out a rate we head out of

178
00:08:47,440 --> 00:08:44,490
Tonopah test range we head up to Warm

179
00:08:49,970 --> 00:08:47,450
Springs head south on the

180
00:08:53,570 --> 00:08:49,980
extra-terrestrial highway wasn't called

181
00:08:57,889 --> 00:08:53,580
that yet right when it had a quick bite

182
00:09:00,530 --> 00:08:57,899
at little alien and Rachel Joe Travis

183
00:09:01,670 --> 00:09:00,540
was still alive at the time and they

184
00:09:04,310 --> 00:09:01,680
were as we're heading out through

185
00:09:05,990 --> 00:09:04,320
typical Valley and we see this road

186
00:09:07,519 --> 00:09:06,000
heading into the debt you know heading

187
00:09:10,699 --> 00:09:07,529
towards the mountains that were shitless

188
00:09:14,389 --> 00:09:10,709

let's go down it so we drive all the way

189

00:09:16,699 --> 00:09:14,399

down we go through the foothills were

190

00:09:22,550 --> 00:09:16,709

actually about three-quarters of mile

191

00:09:25,880 --> 00:09:22,560

inside area 51 and the we come up to a

192

00:09:28,040 --> 00:09:25,890

guard shack and you can see the base we

193

00:09:30,889 --> 00:09:28,050

were up and over and it's right there

194

00:09:33,860 --> 00:09:30,899

and a nice-looking young man came out he

195

00:09:40,190 --> 00:09:33,870

has black utilities on his fort an m16

196

00:09:41,510 --> 00:09:40,200

but he was just hanging and the we're

197

00:09:44,350 --> 00:09:41,520

talking to say what are you guys doing

198

00:09:46,550 --> 00:09:44,360

here I said yeah we're bird watchers

199

00:09:50,949 --> 00:09:46,560

metal Birds snowbirds

200

00:09:53,120 --> 00:09:50,959

so you didn't have to specify right so

201
00:09:54,650 --> 00:09:53,130
we're just chatting a little bit and

202
00:09:57,230 --> 00:09:54,660
then another guard comes out of the

203
00:10:00,530 --> 00:09:57,240
guard shack now he's a reject from the

204
00:10:03,350 --> 00:10:00,540
NFL because he's too big no net I was

205
00:10:05,720 --> 00:10:03,360
about like this that's huge as he's

206
00:10:08,960 --> 00:10:05,730
coming out he's put in his 30 round

207
00:10:11,449 --> 00:10:08,970
magazine into his m16 and he pulls it

208
00:10:13,579 --> 00:10:11,459
back put a chamber you know put a round

209
00:10:16,970 --> 00:10:13,589
in the chamber so we know this guy's

210
00:10:20,480 --> 00:10:16,980
serious and later who's a character and

211
00:10:22,370 --> 00:10:20,490
a half he said right if we just took a

212
00:10:24,470 --> 00:10:22,380
picture of your guard shack I mean you

213
00:10:30,079 --> 00:10:24,480

took a bunch of guard shack I'm you can

214

00:10:32,840 --> 00:10:30,089

see all that area and the big the big

215

00:10:36,500 --> 00:10:32,850

guy looked at Lear and he said well if

216

00:10:39,319 --> 00:10:36,510

you do you're gonna be interviewed by

217

00:10:41,980 --> 00:10:39,329

some very very unfriendly people right

218

00:10:46,040 --> 00:10:41,990

right they're gonna want that photo back

219

00:10:47,020 --> 00:10:46,050

I looked at me I said time to go we

220

00:10:51,460 --> 00:10:47,030

turned around and

221

00:10:55,510 --> 00:10:51,470

on out and we get we get to John Lee's

222

00:10:59,470 --> 00:10:55,520

house he lives near the Mormon temple in

223

00:11:01,920 --> 00:10:59,480

the north in the north end of Vegas get

224

00:11:04,840 --> 00:11:01,930

to his place and about 9:15 at night

225

00:11:08,680 --> 00:11:04,850

there's a back in the day in the early

226

00:11:11,140 --> 00:11:08,690

and late 80s and through the 70s also

227

00:11:13,150 --> 00:11:11,150

there was a thing called photo man if

228

00:11:17,140 --> 00:11:13,160

you had print film you need it processed

229

00:11:19,480 --> 00:11:17,150

it's like the coffee baristas now yeah a

230

00:11:21,130 --> 00:11:19,490

little shack in an in a parking lot

231

00:11:24,730 --> 00:11:21,140

you drop your film off come back the

232

00:11:26,980 --> 00:11:24,740

next day in this process they were all

233

00:11:30,250 --> 00:11:26,990

closed so I here I have these this film

234

00:11:33,370 --> 00:11:30,260

of the f-117 I need a process that's

235

00:11:35,410 --> 00:11:33,380

cool and Blair said hey I've got a buddy

236

00:11:36,970 --> 00:11:35,420

mind coming over by 9:30 he just moved

237

00:11:40,180 --> 00:11:36,980

here from Albuquerque I think you'll

238

00:11:44,370 --> 00:11:40,190

find him interesting designs nuclear

239

00:11:47,740 --> 00:11:44,380

weapons okay so

240

00:11:52,170 --> 00:11:47,750

doorbell rings John goes the front door

241

00:11:55,660 --> 00:11:52,180

and in comes a guy named Bob Lazar

242

00:11:58,360 --> 00:11:55,670

this weekend we're talking and Bob said

243

00:12:03,160 --> 00:11:58,370

hey I have a c41 processor unit at home

244

00:12:04,690 --> 00:12:03,170

on the west side of town I said it's go

245

00:12:07,180 --> 00:12:04,700

to my place off process and print the

246

00:12:08,860 --> 00:12:07,190

film see what you got cool name awesome

247

00:12:11,920 --> 00:12:08,870

so we jumped we jumped in his car we're

248

00:12:15,660 --> 00:12:11,930

heading we're heading down West

249

00:12:18,310 --> 00:12:15,670

Charleston and Lazar looks at me he said

250

00:12:21,190 --> 00:12:18,320

because I feel sorry for Lehrer I

251
00:12:22,840 --> 00:12:21,200
Sweeney feel sorry for earlier he sees

252
00:12:26,890 --> 00:12:22,850
from this world-famous family his dad

253
00:12:29,230 --> 00:12:26,900
brought Learjet to the world and the

254
00:12:32,980 --> 00:12:29,240
dumb sumbitch believes in UFOs how

255
00:12:38,260 --> 00:12:32,990
stupid is that to much later he got

256
00:12:40,960 --> 00:12:38,270
employed at s4 so I have the distinction

257
00:12:43,510 --> 00:12:40,970
of being one of the very few people that

258
00:12:46,009 --> 00:12:43,520
knew Bob Lazar before he went to work

259
00:12:47,989 --> 00:12:46,019
out in the desert right

260
00:12:51,049 --> 00:12:47,999
and you could put a gun to his head and

261
00:12:53,030 --> 00:12:51,059
convince some UFOs were real Wow Wow he

262
00:12:55,759 --> 00:12:53,040
said I'm a nuclear physicist if I can't

263
00:12:58,600 --> 00:12:55,769

prove it mathematically or put my hands

264

00:13:02,059 --> 00:12:58,610

on it it doesn't exist right yeah yeah

265

00:13:03,979 --> 00:13:02,069

have you spoke to him after or you still

266

00:13:05,869 --> 00:13:03,989

still in contact with him in all harmony

267

00:13:09,769 --> 00:13:05,879

I mean I'm a visitor this summer

268

00:13:13,999 --> 00:13:09,779

okay on my way to Seattle I I talked to

269

00:13:17,269 --> 00:13:14,009

his wife and I said I said it's Bob what

270

00:13:20,059 --> 00:13:17,279

is Bob's cell phone numbers

271

00:13:21,919 --> 00:13:20,069

such-and-such yeah that's it and oh by

272

00:13:24,859 --> 00:13:21,929

the way here's mine in case you can't

273

00:13:26,629 --> 00:13:24,869

get her Bob doesn't answer the phone and

274

00:13:30,999 --> 00:13:26,639

he said this is email the same yeah it

275

00:13:35,869 --> 00:13:31,009

hasn't changed so ya know I've kept him

276

00:13:40,280 --> 00:13:35,879

in touch Bob off and on for 30 over 30

277

00:13:44,749 --> 00:13:40,290

years did the grace years that's great

278

00:13:47,629 --> 00:13:44,759

to know Bob before he was Bob yeah when

279

00:13:51,319 --> 00:13:47,639

David Darlington did a book called the

280

00:13:54,470 --> 00:13:51,329

dreamland Chronicles there's a chapter

281

00:13:58,819 --> 00:13:54,480

called the elders and it's about John

282

00:14:01,999 --> 00:13:58,829

and Rose and me and I talked about bob

283

00:14:04,309 --> 00:14:02,009

lazar his story has never changed even

284

00:14:08,239 --> 00:14:04,319

when financially it would have been a

285

00:14:11,030 --> 00:14:08,249

huge boom right right yeah it did he

286

00:14:13,879 --> 00:14:11,040

didn't he didn't change his stomach he

287

00:14:17,480 --> 00:14:13,889

didn't he didn't exaggerate his story

288

00:14:19,970 --> 00:14:17,490

has been consistent the other thing when

289

00:14:22,160 --> 00:14:19,980

george knapp went to investigate them

290

00:14:27,169 --> 00:14:22,170

and in georgia NAB's a friend of mine as

291

00:14:29,470 --> 00:14:27,179

well right on it's you know it's you

292

00:14:33,619 --> 00:14:29,480

know criminals hang together

293

00:14:40,970 --> 00:14:33,629

dopers hang together UFO bump of the

294

00:14:43,340 --> 00:14:40,980

night guys yeah so I know I've I've I've

295

00:14:45,769 --> 00:14:43,350

cherished my friendship with Bob I've

296

00:14:50,419 --> 00:14:45,779

supported them and I stand behind him I

297

00:14:52,460 --> 00:14:50,429

believe everything he said because the

298

00:14:53,759 --> 00:14:52,470

story hasn't changed he's been

299

00:14:56,579 --> 00:14:53,769

consistent

300

00:14:59,369 --> 00:14:56,589

and I knew what he did before yeah yeah

301
00:15:02,939 --> 00:14:59,379
and the thing is when when George Knapp

302
00:15:04,819 --> 00:15:02,949
was investigating Bob's background he

303
00:15:08,579 --> 00:15:04,829
said that he worked at Sandia Labs

304
00:15:11,579 --> 00:15:08,589
there's no record of it right right but

305
00:15:14,129 --> 00:15:11,589
in the Albuquerque newspaper because Bob

306
00:15:17,429 --> 00:15:14,139
had a 300 mile an hour jet car they take

307
00:15:20,069 --> 00:15:17,439
the drag race yeah and here's a pitcher

308
00:15:22,499 --> 00:15:20,079
said Professor Bob Lazar from Sandia

309
00:15:25,350 --> 00:15:22,509
Labs has a fun thing he doesn't weekend

310
00:15:28,609 --> 00:15:25,360
he drives it 300 miles an hour and the

311
00:15:32,519 --> 00:15:28,619
pitcher Bob and his he had a jet-powered

312
00:15:36,329 --> 00:15:32,529
motorcycle dragster with a Lamborghini

313
00:15:37,859 --> 00:15:36,339

Countach body on it and he's gone 300

314

00:15:40,829 --> 00:15:37,869

miles an hour in the quarter mile that's

315

00:15:43,019 --> 00:15:40,839

cool did they use that the shoot

316

00:15:44,759 --> 00:15:43,029

fireworks off in the desert too and why

317

00:15:48,539 --> 00:15:44,769

was he caught it was called desert blast

318

00:15:51,030 --> 00:15:48,549

he did he did 13 of them he made his own

319

00:15:55,979 --> 00:15:51,040

he made his own fireworks uh-huh he has

320

00:15:58,679 --> 00:15:55,989

a master fireworks license really other

321

00:16:01,619 --> 00:15:58,689

words he is he is he is certified to

322

00:16:03,389 --> 00:16:01,629

build commercial fireworks and I can

323

00:16:05,970 --> 00:16:03,399

remember in his garage I don't think in

324

00:16:08,069 --> 00:16:05,980

his neighbors knew he probably had three

325

00:16:13,289 --> 00:16:08,079

or four thousand pounds of explosives

326

00:16:14,939 --> 00:16:13,299

and I was here with my son and you know

327

00:16:17,269 --> 00:16:14,949

you started out with you put babies in

328

00:16:20,129 --> 00:16:17,279

you throw some alcohol in you throw

329

00:16:21,689 --> 00:16:20,139

whatever the color is yeah and you swirl

330

00:16:23,759 --> 00:16:21,699

it around like you're panning for gold

331

00:16:25,679 --> 00:16:23,769

yeah put that it and you're done with

332

00:16:27,869 --> 00:16:25,689

that when it gets to a certain size and

333

00:16:30,689 --> 00:16:27,879

then you may have different colors you

334

00:16:35,600 --> 00:16:30,699

put into it and you know he had some of

335

00:16:40,079 --> 00:16:35,610

the mortar rounds were 4 inches 8 inches

336

00:16:41,730 --> 00:16:40,089

damage was across a big fire I never

337

00:16:44,340 --> 00:16:41,740

made it to desert blast cos it was

338

00:16:46,590 --> 00:16:44,350

always when I I was either in here I had

339

00:16:49,949 --> 00:16:46,600

I traveled a lot for business I was

340

00:16:53,069 --> 00:16:49,959

either in Europe or somewhere else but

341

00:16:58,609 --> 00:16:53,079

he has his company United nuclear he

342

00:17:02,309 --> 00:16:58,619

ordered a five-gallon bucket of

343

00:17:04,600 --> 00:17:02,319

hydrazine now that's a Class A plus plus

344

00:17:07,449 --> 00:17:04,610

plus explosive right

345

00:17:11,710 --> 00:17:07,459

and the semi pulls up in front of his

346

00:17:13,539 --> 00:17:11,720

residential house said this United

347

00:17:16,410 --> 00:17:13,549

nuclear Bob said yes well I got a

348

00:17:19,900 --> 00:17:16,420

delivery for you he opens up as his

349

00:17:25,329 --> 00:17:19,910

truck his big trailer I mean this is not

350

00:17:27,910 --> 00:17:25,339

it's not a a Hertz rent-a-car type track

351

00:17:31,510 --> 00:17:27,920

this is a semi it opens a thing up

352

00:17:35,799 --> 00:17:31,520

there's one five-gallon container on a

353

00:17:37,720 --> 00:17:35,809

pallet and that was all that was so he

354

00:17:40,240 --> 00:17:37,730

unloaded it I mean this stuff this stuff

355

00:17:43,289 --> 00:17:40,250

is is nasty stuff these different drag

356

00:17:46,360 --> 00:17:43,299

racers and dragsters back in the day and

357

00:17:51,220 --> 00:17:46,370

you can go from 2,000 horsepower to

358

00:17:52,360 --> 00:17:51,230

3,000 or spiralled by just in there so

359

00:17:53,409 --> 00:17:52,370

he didn't know he didn't know what he

360

00:17:55,630 --> 00:17:53,419

was gonna do with it

361

00:17:58,960 --> 00:17:55,640

sorry one of the desert blasts they put

362

00:18:01,210 --> 00:17:58,970

it in a 55-gallon drum they felt they

363

00:18:04,360 --> 00:18:01,220

filled it with gasoline I think it was

364

00:18:09,930 --> 00:18:04,370

do it as far as I did igniter and they

365

00:18:13,240 --> 00:18:09,940

said they they detonated like that and

366

00:18:14,470 --> 00:18:13,250

it it was made a very big boom and

367

00:18:16,900 --> 00:18:14,480

another thing you did this is right

368

00:18:22,150 --> 00:18:16,910

after this is right after Timothy

369

00:18:26,289 --> 00:18:22,160

Timothy McVeigh had blown up the Federal

370

00:18:28,930 --> 00:18:26,299

Building in Oklahoma City John Lear had

371

00:18:34,169 --> 00:18:28,940

a friend who worked for ATS ATF

372

00:18:38,169 --> 00:18:34,179

they said we're going to simulate what

373

00:18:42,430 --> 00:18:38,179

the guys that blow up the federal Center

374

00:18:45,190 --> 00:18:42,440

in Oklahoma City Boronia used one so

375

00:18:49,900 --> 00:18:45,200

they got one of your your cardboard

376

00:18:52,270 --> 00:18:49,910

barrels what 55 gallinger's good size

377

00:18:54,610 --> 00:18:52,280

they felt it with fertilizer and they

378

00:18:57,370 --> 00:18:54,620

filled it with diesel fuel they put it

379

00:18:59,919 --> 00:18:57,380

nighter in it there about him there a

380

00:19:02,169 --> 00:18:59,929

mile away and they detonated and

381

00:19:06,310 --> 00:19:02,179

everybody was standing got knocked on

382

00:19:07,500 --> 00:19:06,320

their ass and I think McVeigh had 10 of

383

00:19:09,960 --> 00:19:07,510

those in the

384

00:19:11,400 --> 00:19:09,970

and the rental truck oh my god that is

385

00:19:14,010 --> 00:19:11,410

Lots that's pretty that's pretty

386

00:19:18,120 --> 00:19:14,020

powerful so so I hate I hang around with

387

00:19:21,090 --> 00:19:18,130

a lot of crazy but and I've been married

388

00:19:23,580 --> 00:19:21,100

a whole bunch of times yeah am i all my

389

00:19:24,120 --> 00:19:23,590

wives I said you don't have any normal

390

00:19:27,050 --> 00:19:24,130

friends

391

00:19:29,760 --> 00:19:27,060

I said well normal people are boring I

392

00:19:31,650 --> 00:19:29,770

mean I have two that I know and are

393

00:19:33,600 --> 00:19:31,660

normal and they're there like they come

394

00:19:37,080 --> 00:19:33,610

in a white box with black lettering I

395

00:19:39,900 --> 00:19:37,090

mean they have no personality but

396

00:19:40,830 --> 00:19:39,910

they're dear friends yeah I'm not I'm

397

00:19:42,680 --> 00:19:40,840

not like that

398

00:19:45,510 --> 00:19:42,690

keeps it keeps things interesting yeah

399

00:19:48,810 --> 00:19:45,520

and I get I get a lot of trouble I've

400

00:19:55,410 --> 00:19:48,820

pissed off a lot of people I have what

401
00:19:58,140 --> 00:19:55,420
you call Stefan your dick moment but I'm

402
00:20:00,270 --> 00:19:58,150
75 years old I know I don't we don't

403
00:20:03,660 --> 00:20:00,280
give a [\h__\h] what people think of me yeah

404
00:20:08,160 --> 00:20:03,670
well that's good yeah thing is I never

405
00:20:10,200 --> 00:20:08,170
have it dries it's driven my wife's nuts

406
00:20:11,880 --> 00:20:10,210
I mean my first wife said but what do

407
00:20:14,400 --> 00:20:11,890
the neighbors think I said I don't give

408
00:20:16,170 --> 00:20:14,410
a [\h__\h] they don't mean my MA my lon they

409
00:20:19,200 --> 00:20:16,180
don't pay my bills they don't shovel my

410
00:20:21,360 --> 00:20:19,210
driveway I don't give a [\h__\h] matter of

411
00:20:24,540 --> 00:20:21,370
fact I do things to embarrass these

412
00:20:26,160 --> 00:20:24,550
people yeah there's there's a couple I

413
00:20:29,490 --> 00:20:26,170

won't give their name moszer's

414

00:20:33,780 --> 00:20:29,500

distillery vibrant a very good Catholic

415

00:20:37,350 --> 00:20:33,790

couple very pro-life as I mind but very

416

00:20:38,970 --> 00:20:37,360

pro-life every year at the Minnesota

417

00:20:42,180 --> 00:20:38,980

State Fair I would go to Planned

418

00:20:45,510 --> 00:20:42,190

Parenthood give him ten dollars and then

419

00:20:47,660 --> 00:20:45,520

right this is from Bob and Sharon and

420

00:20:50,850 --> 00:20:47,670

I'd write their name their address

421

00:20:54,300 --> 00:20:50,860

stickers weren't looking I would stick

422

00:20:55,470 --> 00:20:54,310

it on their back they get all this

423

00:20:57,630 --> 00:20:55,480

literature there you know they go to

424

00:21:00,030 --> 00:20:57,640

they go to Catholic Mass and they get

425

00:21:01,800 --> 00:21:00,040

they get accosted by their neighbors you

426

00:21:05,580 --> 00:21:01,810

have a Planned Parenthood stick or in

427

00:21:07,890 --> 00:21:05,590

the back they didn't know how it would

428

00:21:13,320 --> 00:21:07,900

happen every year after the State Fair

429

00:21:17,180 --> 00:21:13,330

so your your prankster do you have to

430

00:21:19,910 --> 00:21:17,190

you have to you have to

431

00:21:22,850 --> 00:21:19,920

smile you have you definitely you can't

432

00:21:23,540 --> 00:21:22,860

be doom and gloom yeah life is way way

433

00:21:25,550 --> 00:21:23,550

too short

434

00:21:27,740 --> 00:21:25,560

yeah well it's probably that attitude

435

00:21:29,780 --> 00:21:27,750

that allowed you to go down that path of

436

00:21:32,870 --> 00:21:29,790

doing so many interesting things you

437

00:21:36,680 --> 00:21:32,880

know a good example and I mentioned it

438

00:21:39,260 --> 00:21:36,690

last night and in my talk I'm at the

439

00:21:41,510 --> 00:21:39,270

fence language on Lear it's 11 o'clock

440

00:21:43,520 --> 00:21:41,520

at night we have our lawn chairs because

441

00:21:44,810 --> 00:21:43,530

that's what you do when you're on the

442

00:21:46,760 --> 00:21:44,820

desert you don't want to sit in the

443

00:21:49,670 --> 00:21:46,770

ground the scorpions in general isn't

444

00:21:51,500 --> 00:21:49,680

[h__h] and we're sitting there we ever

445

00:21:55,640 --> 00:21:51,510

feet up in the Bob wire we're in public

446

00:21:57,800 --> 00:21:55,650

lands and I know exactly where we are

447

00:21:59,780 --> 00:21:57,810

and we see three armored personnel

448

00:22:04,310 --> 00:21:59,790

carriers coming towards us lights are

449

00:22:06,830 --> 00:22:04,320

off we have our MPGs so I get up they

450

00:22:11,060 --> 00:22:06,840

wave and I yell hey and we're good guys

451
00:22:13,190 --> 00:22:11,070
were taxpayers and all of a sudden it's

452
00:22:15,080 --> 00:22:13,200
alright LED lights little red dots of my

453
00:22:19,280 --> 00:22:15,090
chest little red dots and John Lear's

454
00:22:21,650 --> 00:22:19,290
chest there's a there's a another

455
00:22:24,020 --> 00:22:21,660
vehicle coming down the beyond inside of

456
00:22:26,930 --> 00:22:24,030
the fence guy gets out he's in desert

457
00:22:29,810 --> 00:22:26,940
camouflage he has his hand on his

458
00:22:33,500 --> 00:22:29,820
9-millimeter why am i 357 and John head

459
00:22:38,030 --> 00:22:33,510
is 45 this is for critters yeah after

460
00:22:39,470 --> 00:22:38,040
shooting bad guys and he said you're in

461
00:22:41,390 --> 00:22:39,480
a restricted area and I'm warden you

462
00:22:43,400 --> 00:22:41,400
believe and I said sir I don't know who

463
00:22:45,830 --> 00:22:43,410

you are but we're in public lands we

464

00:22:47,900 --> 00:22:45,840

don't have to go anywhere yes you do

465

00:22:49,460 --> 00:22:47,910

you're in a restricted area and I pulled

466

00:22:51,080 --> 00:22:49,470

out the aeronautical map on my back

467

00:22:53,810 --> 00:22:51,090

pocket it gives the longitude and

468

00:22:55,460 --> 00:22:53,820

latitude to the second uh-huh I said

469

00:22:57,260 --> 00:22:55,470

according to this official government

470

00:23:00,740 --> 00:22:57,270

document this is the longitude and

471

00:23:02,530 --> 00:23:00,750

latitude and if you look at the base of

472

00:23:04,940 --> 00:23:02,540

that fence post you'll see a USGS

473

00:23:07,970 --> 00:23:04,950

medallion that gives the longitude

474

00:23:10,340 --> 00:23:07,980

latitude to the second we're in public

475

00:23:12,380 --> 00:23:10,350

lands lands

476

00:23:15,560 --> 00:23:12,390

and we can be here for 15 consecutive

477

00:23:18,470 --> 00:23:15,570

days without asking anybody's permission

478

00:23:22,190 --> 00:23:18,480

right yeah I want to see some ID and I

479

00:23:24,890 --> 00:23:22,200

said who are you yeah give me your ID

480

00:23:27,740 --> 00:23:24,900

right I'm captain so-and-so with ASI

481

00:23:29,060 --> 00:23:27,750

which is advanced security Inc I said

482

00:23:30,529 --> 00:23:29,070

well you're a rent-a-cop you don't have

483

00:23:32,840 --> 00:23:30,539

any jurisdiction on this side of the

484

00:23:37,039 --> 00:23:32,850

fence you can just see his jaws just you

485

00:23:40,400 --> 00:23:37,049

know man he says I've been deputized by

486

00:23:42,860 --> 00:23:40,410

lincoln nye and Esmerelda County to

487

00:23:44,750 --> 00:23:42,870

uphold the laws the state of Nevada and

488

00:23:49,490 --> 00:23:44,760

the federal government I said well good

489

00:23:51,529 --> 00:23:49,500

for you and he's getting more pissed as

490

00:23:53,659 --> 00:23:51,539

it goes on he said I said I tell you

491

00:23:56,690 --> 00:23:53,669

what you show me yours I'll show you

492

00:23:58,940 --> 00:23:56,700

mine so he hands me his asi badge

493

00:24:01,880 --> 00:23:58,950

advanced security ain't bad I said

494

00:24:03,470 --> 00:24:01,890

that's not a valid form of ID yeah I

495

00:24:05,419 --> 00:24:03,480

need something issued by the state a

496

00:24:06,880 --> 00:24:05,429

federal government and he's getting more

497

00:24:13,580 --> 00:24:06,890

pissed

498

00:24:15,260 --> 00:24:13,590

this is 1996 by the way yeah so I had

499

00:24:17,450 --> 00:24:15,270

you know he handy handles

500

00:24:18,980 --> 00:24:17,460

hands me his Nevada driver's license I

501
00:24:21,350 --> 00:24:18,990
didn't have my glasses on my reading

502
00:24:23,149 --> 00:24:21,360
glasses on sir

503
00:24:24,590 --> 00:24:23,159
so I hand him my good I live in

504
00:24:27,620 --> 00:24:24,600
Minnesota at the time I hand him my

505
00:24:29,000 --> 00:24:27,630
driver's license John Blair hands his he

506
00:24:33,260 --> 00:24:29,010
still has his feet up on the Thunder

507
00:24:34,789 --> 00:24:33,270
from the fence and he hands him to the

508
00:24:38,450 --> 00:24:34,799
guy in the south side of the fans who

509
00:24:40,730 --> 00:24:38,460
goes to the supervisor hands is a

510
00:24:43,370 --> 00:24:40,740
supervisor he turns his light on I hear

511
00:24:47,510 --> 00:24:43,380
it I hear him say oh [h__h] it's good on

512
00:24:50,470 --> 00:24:47,520
one layer and they just came back and

513
00:24:55,490 --> 00:24:50,480

stuff and dispersed so they knew like

514

00:24:57,980 --> 00:24:55,500

you're already a thing well I had a five

515

00:25:00,169 --> 00:24:57,990

years active duty I had a ten year break

516

00:25:03,680 --> 00:25:00,179

and I spent 21 years with a Minnesota

517

00:25:07,310 --> 00:25:03,690

Air National Guard as the wing historian

518

00:25:09,139 --> 00:25:07,320

and my boss is a two-star I worked

519

00:25:12,769 --> 00:25:09,149

directly for him was at a generals

520

00:25:16,100 --> 00:25:12,779

conference in the Pentagon fortissimo

521

00:25:18,619 --> 00:25:16,110

general officers there for a whole week

522

00:25:22,549 --> 00:25:18,629

and somewhere in the middle of this

523

00:25:27,499 --> 00:25:22,559

conference my name came up and jeremiah

524

00:25:31,399 --> 00:25:27,509

broman actually with time he almost like

525

00:25:33,680 --> 00:25:31,409

stopwatch on his watch time did and i

526

00:25:36,649 --> 00:25:33,690

was a subject of conversation for 43

527

00:25:39,440 --> 00:25:36,659

minutes Oh Ben and Jessa's jump the

528

00:25:40,909 --> 00:25:39,450

generating stories general john Vesey

529

00:25:45,259 --> 00:25:40,919

who is the chairman of the Joint Chiefs

530

00:25:49,220 --> 00:25:45,269

who's also from Minnesota he said he

531

00:25:51,440 --> 00:25:49,230

told my boss he said most of us said

532

00:25:54,590 --> 00:25:51,450

Joint Chiefs appreciate what your

533

00:25:56,389 --> 00:25:54,600

sergeant good-old does says there's a

534

00:25:58,789 --> 00:25:56,399

there's a couple of the younger officers

535

00:26:01,759 --> 00:25:58,799

would like to have them whacked but

536

00:26:04,070 --> 00:26:01,769

that's not gonna happen and we've given

537

00:26:08,869 --> 00:26:04,080

in my hand oh we we just refer to your

538

00:26:10,970 --> 00:26:08,879

sergeant Goodall as Agent Orange I got I

539

00:26:12,830 --> 00:26:10,980

got a handle from the chairman of the

540

00:26:17,960 --> 00:26:12,840

Joint Chiefs of Staff all that's gray as

541

00:26:21,080 --> 00:26:17,970

a general and it's it's gone on from

542

00:26:25,850 --> 00:26:21,090

there I mean I was I was first guy to

543

00:26:30,049 --> 00:26:25,860

photograph the f-117 in March in 94

544

00:26:34,519 --> 00:26:30,059

there was a issue of popular science on

545

00:26:36,129 --> 00:26:34,529

area 51 it's written by snoop Brown dear

546

00:26:39,139 --> 00:26:36,139

friend of mine is one of the original

547

00:26:42,470 --> 00:26:39,149

interceptors cool and I'm the one of

548

00:26:45,740 --> 00:26:42,480

convention to do it and it's six million

549

00:26:47,629 --> 00:26:45,750

people read the read the article Wow

550

00:26:50,419 --> 00:26:47,639

either purchased a magazine there read

551

00:26:51,830 --> 00:26:50,429

it the other thing I did for the article

552

00:26:54,200 --> 00:26:51,840

and you may have seen that last night

553

00:26:57,590 --> 00:26:54,210

when I'm on my slide presentation the

554

00:27:00,889 --> 00:26:57,600

area 51 patch mm-hm that's my design oh

555

00:27:05,330 --> 00:27:00,899

cool that's awesome and Glen Campbell

556

00:27:07,129 --> 00:27:05,340

and I ended up selling some my ten

557

00:27:10,820 --> 00:27:07,139

thousand of them it was even they were

558

00:27:14,110 --> 00:27:10,830

even in the Pentagon gift shop

559

00:27:18,050 --> 00:27:14,120

really yeah I think that's awesome so

560

00:27:19,220 --> 00:27:18,060

and again I remember one the Minnesota

561

00:27:21,920 --> 00:27:19,230

Air Guard when I was getting ready to

562

00:27:25,520 --> 00:27:21,930

recover the Blackbird that our museum

563

00:27:27,950 --> 00:27:25,530

was was given I go and I go into the

564

00:27:30,590 --> 00:27:27,960

skunkworks their Palmdale uh after they

565

00:27:32,480 --> 00:27:30,600

moved from Burbank and the security

566

00:27:35,660 --> 00:27:32,490

person wasn't out front yeah and I hit

567

00:27:37,850 --> 00:27:35,670

the bell and I heard the late in the

568

00:27:41,290 --> 00:27:37,860

back he said who's there and they said

569

00:27:43,430 --> 00:27:41,300

Jim good always said I know that name

570

00:27:46,670 --> 00:27:43,440

she comes to around her name's Glenn a

571

00:27:50,140 --> 00:27:46,680

far away he said so well you're not the

572

00:27:52,880 --> 00:27:50,150

800-pound gorilla everybody says you are

573

00:27:55,370 --> 00:27:52,890

they said you know I've been here I've

574

00:27:58,430 --> 00:27:55,380

been here at security at ADP for 21

575

00:28:02,570 --> 00:27:58,440

years I heard your name the first week I

576

00:28:05,030 --> 00:28:02,580

was here and you were in the nor the

577

00:28:08,720 --> 00:28:05,040

legend you were mentioned about once a

578

00:28:12,350 --> 00:28:08,730

quarter said he's a good guy he's a good

579

00:28:14,750 --> 00:28:12,360

historian he writes good books but

580

00:28:16,370 --> 00:28:14,760

anytime any of you were contacted by Jim

581

00:28:23,950 --> 00:28:16,380

Goodall you have to report it to

582

00:28:26,210 --> 00:28:23,960

security so security measured and

583

00:28:29,170 --> 00:28:26,220

because of my passion for Lockheed

584

00:28:31,880 --> 00:28:29,180

airplanes I became friends with Ben rich

585

00:28:33,530 --> 00:28:31,890

all right which is the President started

586

00:28:36,650 --> 00:28:33,540

nightly I

587

00:28:38,510 --> 00:28:36,660

I built a quarter-inch model of a d-21

588

00:28:41,230 --> 00:28:38,520

drone informant and the world didn't

589

00:28:44,270 --> 00:28:41,240

even know about the drone at the time

590

00:28:46,070 --> 00:28:44,280

and I I called him up said band I'm

591

00:28:48,560 --> 00:28:46,080

gonna be in LA next week I have

592

00:28:50,570 --> 00:28:48,570

something for you can I come by and give

593

00:28:52,040 --> 00:28:50,580

it to you and he said sure I'll make

594

00:28:54,710 --> 00:28:52,050

sure its security knows let you in the

595

00:28:57,620 --> 00:28:54,720

parking lot and just coming into the

596

00:29:01,420 --> 00:28:57,630

lobby of discomforts and tell them who

597

00:29:03,490 --> 00:29:01,430

you are and you're here to see Ben rich

598

00:29:06,760 --> 00:29:03,500

so I get in there and I have this open

599

00:29:09,610 --> 00:29:06,770

box with his d21 model that they can't

600

00:29:11,110 --> 00:29:09,620

talk about it was still I mean when they

601
00:29:13,810 --> 00:29:11,120
were designing it was more classified

602
00:29:16,960 --> 00:29:13,820
than the Manhattan Project Wow because

603
00:29:18,430 --> 00:29:16,970
we're flying an unmanned drone over them

604
00:29:19,480 --> 00:29:18,440
we were gonna flight over the Soviet

605
00:29:23,080 --> 00:29:19,490
Union never did

606
00:29:24,790 --> 00:29:23,090
Oh meal over China yeah but I figured he

607
00:29:28,470 --> 00:29:24,800
was that I was just gonna leave it there

608
00:29:33,910 --> 00:29:28,480
he was gonna get it later

609
00:29:35,710 --> 00:29:33,920
God gave me eyes I can't help it so Ben

610
00:29:37,420 --> 00:29:35,720
rich comes out here all these engineers

611
00:29:39,970 --> 00:29:37,430
are walkin they're seeing this model and

612
00:29:42,490 --> 00:29:39,980
their eyes are getting really big and

613
00:29:44,710 --> 00:29:42,500

Ben said now come with me should we go

614

00:29:47,910 --> 00:29:44,720

in - we used to be Kelly Johnson's

615

00:29:51,280 --> 00:29:47,920

office I mean here this is this is

616

00:29:54,730 --> 00:29:51,290

nirvana this is you know you can't other

617

00:29:56,830 --> 00:29:54,740

than working at the skunk works you

618

00:29:58,990 --> 00:29:56,840

can't you can't get it you can't get it

619

00:30:00,810 --> 00:29:59,000

any better that's awesome so I'm sitting

620

00:30:02,910 --> 00:30:00,820

in there and this is the early 70s and

621

00:30:05,590 --> 00:30:02,920

he opens up his file

622

00:30:08,230 --> 00:30:05,600

finally box on this credenza and there's

623

00:30:10,630 --> 00:30:08,240

a file about three to four inches thick

624

00:30:13,330 --> 00:30:10,640

from John Andrews my buddy from tester

625

00:30:14,860 --> 00:30:13,340

and he pulls it out and says this is

626
00:30:17,020 --> 00:30:14,870
from that son of a [h__h] from testers

627
00:30:20,110 --> 00:30:17,030
and but he said it with love in his eyes

628
00:30:21,190 --> 00:30:20,120
and put it down and and then he said I

629
00:30:24,490 --> 00:30:21,200
got to show you something so he goes

630
00:30:26,740 --> 00:30:24,500
into the room just out next to inside

631
00:30:29,740 --> 00:30:26,750
this office but a storage room he brings

632
00:30:32,280 --> 00:30:29,750
out a 20 by 30 frame print of the ten

633
00:30:34,570 --> 00:30:32,290
blackbirds there at the ramp at area 51

634
00:30:36,220 --> 00:30:34,580
and it's the first time I'd seen that he

635
00:30:39,850 --> 00:30:36,230
said this is just to show you there were

636
00:30:41,260 --> 00:30:39,860
more than two Wow Wow that photo was

637
00:30:44,350 --> 00:30:41,270
pretty awesome that he showed last night

638
00:30:50,560 --> 00:30:44,360

yeah I didn't know they made that many

639

00:30:51,760 --> 00:30:50,570

and I said I'm just looking at it and he

640

00:30:53,620 --> 00:30:51,770

picked it up and puts it back in the

641

00:30:57,580 --> 00:30:53,630

room and I said no I want to see it some

642

00:31:00,550 --> 00:30:57,590

more ice well now you've seen enough so

643

00:31:03,310 --> 00:31:00,560

so we were just chatting Ben and peek

644

00:31:05,539 --> 00:31:03,320

because of I think because of that now

645

00:31:08,479 --> 00:31:05,549

this is the early 70s

646

00:31:11,840 --> 00:31:08,489

I ended up either he called me or I

647

00:31:15,499 --> 00:31:11,850

called him once a quarter for 25 years

648

00:31:19,639 --> 00:31:15,509

right and I talked to him 10 days before

649

00:31:21,680 --> 00:31:19,649

he died he was at USC Medical Center he

650

00:31:25,700 --> 00:31:21,690

was died of esophageal cancer probably

651
00:31:27,619 --> 00:31:25,710
smelling the fumes from what makes

652
00:31:29,810 --> 00:31:27,629
stealth work right

653
00:31:31,850 --> 00:31:29,820
and I asked we're talking about all

654
00:31:33,080 --> 00:31:31,860
sorts of stuff and that's when he told

655
00:31:35,299 --> 00:31:33,090
me he said Jim

656
00:31:37,100 --> 00:31:35,309
we have things out in the desert and he

657
00:31:38,810 --> 00:31:37,110
wasn't referring to area 51

658
00:31:42,409 --> 00:31:38,820
he said we have things out in the desert

659
00:31:44,899 --> 00:31:42,419
that's 50 years beyond what you can

660
00:31:47,419 --> 00:31:44,909
comprehend not what you think you can

661
00:31:49,549 --> 00:31:47,429
build in 50 years but what you can

662
00:31:52,009 --> 00:31:49,559
comprehend and I can comprehend a whole

663
00:31:54,139 --> 00:31:52,019

yeah that's a big difference

664

00:31:57,580 --> 00:31:54,149

yeah and he said if you see movies like

665

00:32:00,680 --> 00:31:57,590

Star Trek or Star Wars we've been there

666

00:32:02,930 --> 00:32:00,690

done that or decided it wasn't worth the

667

00:32:05,930 --> 00:32:02,940

effort that's incredible and that's from

668

00:32:08,149 --> 00:32:05,940

some president of I mean yeah and I I

669

00:32:12,289 --> 00:32:08,159

have the the honor and the privilege of

670

00:32:14,690 --> 00:32:12,299

knowing these guys firsthand and

671

00:32:19,099 --> 00:32:14,700

interview him and talking to him like

672

00:32:22,039 --> 00:32:19,109

I'm talking to you guy yeah it's I was I

673

00:32:25,879 --> 00:32:22,049

was blessed I don't know how I gained

674

00:32:28,310 --> 00:32:25,889

that distinction of being on I could

675

00:32:30,519 --> 00:32:28,320

call Ben rich he could be in a meeting

676

00:32:33,919 --> 00:32:30,529

with a group of his senior engineers

677

00:32:36,830 --> 00:32:33,929

June his secretary would put me right

678

00:32:38,960 --> 00:32:36,840

through and make it you know connected

679

00:32:40,460 --> 00:32:38,970

with mr. rich he'd put it on

680

00:32:42,680 --> 00:32:40,470

speakerphone and I can hear a

681

00:32:44,090 --> 00:32:42,690

half-a-dozen guys in the back yeah

682

00:32:47,119 --> 00:32:44,100

and we're sitting there just shooting

683

00:32:49,190 --> 00:32:47,129

the [h__\h] he's my buddy and I'm just you

684

00:32:51,830 --> 00:32:49,200

know casual conversation about things

685

00:32:53,389 --> 00:32:51,840

spooky stuff yeah he said it always

686

00:32:56,599 --> 00:32:53,399

amazed him that like look through a

687

00:33:02,029 --> 00:32:56,609

crack about like that and be able to see

688

00:33:03,970 --> 00:33:02,039

90% of the picture John John Andrews

689

00:33:06,400 --> 00:33:03,980

like we're really really good

690

00:33:09,940 --> 00:33:06,410

that and I get John when John passed

691

00:33:12,190 --> 00:33:09,950

away this is John Andrews he's the one

692

00:33:15,760 --> 00:33:12,200

who came up with the 30-second scale

693

00:33:18,940 --> 00:33:15,770

f-117 model the quarter inch sr-71 model

694

00:33:20,860 --> 00:33:18,950

the quarter inch c-130 model which is a

695

00:33:26,230 --> 00:33:20,870

Minnesota Air Guard markings by the way

696

00:33:28,690 --> 00:33:26,240

thanks to yours truly I did I just when

697

00:33:30,940 --> 00:33:28,700

John passed away it was it was he was

698

00:33:33,190 --> 00:33:30,950

one of my dearest friends - rad is one

699

00:33:35,440 --> 00:33:33,200

of those kids guys Joe Michael Mary very

700

00:33:37,210 --> 00:33:35,450

close yeah we just saw him just a bit

701
00:33:43,419 --> 00:33:37,220
he's staying with me oh right oh yeah

702
00:33:47,560 --> 00:33:43,429
yeah nice and you know John John asked

703
00:33:50,110 --> 00:33:47,570
me when because he he died of he got

704
00:33:53,140 --> 00:33:50,120
liver cancer and metastasized to his

705
00:33:55,870 --> 00:33:53,150
lungs he was sick and he wouldn't tell

706
00:33:59,650 --> 00:33:55,880
anybody how sick he was and his in the

707
00:34:01,240 --> 00:33:59,660
27 years I knew John Andrews I'd never

708
00:34:03,190 --> 00:34:01,250
seen him with his hair messed up even

709
00:34:04,600 --> 00:34:03,200
sleeping on the desert for two or three

710
00:34:07,649 --> 00:34:04,610
days he'd wake up and his hair was

711
00:34:10,030 --> 00:34:07,659
perfectly great perfectly concrete here

712
00:34:12,040 --> 00:34:10,040
summer in the hospital is here is every

713
00:34:17,020 --> 00:34:12,050

whichway hit and he may had a stroke in

714

00:34:17,919 --> 00:34:17,030

the process he said do me a favor said

715

00:34:20,710 --> 00:34:17,929

when I die

716

00:34:24,129 --> 00:34:20,720

will you take my ashes and dump them

717

00:34:27,040 --> 00:34:24,139

over area 51 somehow I said I would be

718

00:34:29,740 --> 00:34:27,050

honored his wife Darlene just a sweetie

719

00:34:33,010 --> 00:34:29,750

pie you know she took half his ashes and

720

00:34:34,750 --> 00:34:33,020

putting them in a container for me and I

721

00:34:37,359 --> 00:34:34,760

don't go to funerals pretty much the

722

00:34:40,720 --> 00:34:37,369

funerals I've gone to yeah yeah there

723

00:34:42,940 --> 00:34:40,730

was a participant right but his son Paul

724

00:34:46,869 --> 00:34:42,950

said anybody want to talk about my dad

725

00:34:47,950 --> 00:34:46,879

and I got up and cross it took me wild

726

00:34:50,830 --> 00:34:47,960

it you know dating you know wipe the

727

00:34:55,090 --> 00:34:50,840

tears out of my eyes and I was choked up

728

00:34:58,510 --> 00:34:55,100

cuz in your life you may meet one or two

729

00:35:00,820 --> 00:34:58,520

people that you can find no one who has

730

00:35:03,490 --> 00:35:00,830

anything bad to say about him right

731

00:35:07,750 --> 00:35:03,500

Johnny Anna's was one of those guys yeah

732

00:35:10,540 --> 00:35:07,760

no one could say anything bad about John

733

00:35:11,440 --> 00:35:10,550

so I'm with John Lear and this is a

734

00:35:14,170 --> 00:35:11,450

Wednesday

735

00:35:17,140 --> 00:35:14,180

so funeral was over we jump in the car

736

00:35:19,980 --> 00:35:17,150

we head back to Vegas I said tomorrow

737

00:35:23,920 --> 00:35:19,990

we're gonna we're gonna just distribute

738

00:35:27,220 --> 00:35:23,930

Johnny Andrews ashes so we're had had

739

00:35:29,920 --> 00:35:27,230

arranged with there at the executive

740

00:35:34,660 --> 00:35:29,930

terminal to go get on a jet ranger he

741

00:35:37,720 --> 00:35:34,670

certified it fly it but he but he had he

742

00:35:39,670 --> 00:35:37,730

had a pilot to do it sorry

743

00:35:42,760 --> 00:35:39,680

John's in the right seat files in the

744

00:35:45,220 --> 00:35:42,770

left seat I'm in the back we take off

745

00:35:47,230 --> 00:35:45,230

and if you if you've been to Las Vegas

746

00:35:49,120 --> 00:35:47,240

have you been heading towards area 51 as

747

00:35:51,070 --> 00:35:49,130

you're going up 15 there's a ridge line

748

00:35:53,530 --> 00:35:51,080

I'm it's sharp it goes straight up and

749

00:35:54,790 --> 00:35:53,540

the other side is apex uh-huh and the

750

00:35:57,160 --> 00:35:54,800

wind's hitting that thing I mean you

751

00:36:00,270 --> 00:35:57,170

you're all over the skies so we take off

752

00:36:03,700 --> 00:36:00,280

from McCarran right we're heading over

753

00:36:05,680 --> 00:36:03,710

towards apex and we hit some turbulence

754

00:36:08,620 --> 00:36:05,690

and we're doing everything but being

755

00:36:12,310 --> 00:36:08,630

upside down and I'm sitting there scared

756

00:36:14,680 --> 00:36:12,320

shitless but I'm looking at layer and

757

00:36:16,150 --> 00:36:14,690

he's just you know no change in

758

00:36:18,070 --> 00:36:16,160

expressing the pilot well [h__h] if

759

00:36:19,690 --> 00:36:18,080

they're not worried I'm not worried yeah

760

00:36:21,070 --> 00:36:19,700

another day in an airplane yeah I'm not

761

00:36:23,680 --> 00:36:21,080

Kobe Bryant I'm not worried about

762

00:36:24,340 --> 00:36:23,690

crashing into a mountain that was that

763

00:36:29,770 --> 00:36:24,350

was tragic

764

00:36:34,810 --> 00:36:29,780

yeah so we're about two-thirds of the

765

00:36:38,349 --> 00:36:34,820

way to typical Valley and the pilot says

766

00:36:39,910 --> 00:36:38,359

I got a P Blair said me too and I say

767

00:36:41,830 --> 00:36:39,920

well me three so we stopped at like

768

00:36:45,340 --> 00:36:41,840

after the middle to desert three guys

769

00:36:49,359 --> 00:36:45,350

get out we water the plants we get back

770

00:36:51,280 --> 00:36:49,369

in and as as and we're following we're

771

00:36:54,460 --> 00:36:51,290

following the road pretty much as we go

772

00:36:56,200 --> 00:36:54,470

over Hancock Summit into typical Valley

773

00:37:00,280 --> 00:36:56,210

almost as soon as we went over the

774

00:37:03,040 --> 00:37:00,290

summit an a7 Corsair - they call them

775

00:37:07,750 --> 00:37:03,050

Slough stubby little ugly you know where

776

00:37:10,349 --> 00:37:07,760

the rest of his right takes off and he's

777

00:37:13,550 --> 00:37:10,359

circling us as we're as we're flying up

778

00:37:16,520 --> 00:37:13,560

375 we got over

779

00:37:18,050 --> 00:37:16,530

the summit they're going into Rachel and

780

00:37:21,230 --> 00:37:18,060

we head due west and you can see the

781

00:37:24,190 --> 00:37:21,240

fence line area 51 State Patrol it so

782

00:37:27,790 --> 00:37:24,200

that's very very visible so we're about

783

00:37:32,210 --> 00:37:27,800

3,000 feet above ground level

784

00:37:36,470 --> 00:37:32,220

they sent a the a seven headed back and

785

00:37:41,480 --> 00:37:36,480

now a beach 1900 I think they're called

786

00:37:43,910 --> 00:37:41,490

a CC set C 19 I think it is it took off

787

00:37:44,780 --> 00:37:43,920

and it's circling us to have military

788

00:37:47,900 --> 00:37:44,790

escort

789

00:37:50,840 --> 00:37:47,910

oh dang Lear gets on there gets on the

790

00:37:53,600 --> 00:37:50,850

radio I said dreamland dreamland this is

791

00:37:55,580 --> 00:37:53,610

John Lear and Jim Goodall announcing

792

00:37:58,940 --> 00:37:55,590

that John Andrews on final approach to

793

00:38:02,360 --> 00:37:58,950

runway 1 4 right with that inch about a

794

00:38:04,370 --> 00:38:02,370

30 mile now wind from the north I open I

795

00:38:10,250 --> 00:38:04,380

opened the door and poured it out and

796

00:38:18,440 --> 00:38:10,260

just sheis so he scattered he's half of

797

00:38:22,820 --> 00:38:18,450

them is scattered all over area 51 I'm a

798

00:38:26,450 --> 00:38:22,830

published author I have 27 books 25 are

799

00:38:27,050 --> 00:38:26,460

in print my 27th one just went off to my

800

00:38:31,130 --> 00:38:27,060

publisher

801
00:38:32,870 --> 00:38:31,140
it's a pictorial history on that on the

802
00:38:33,560 --> 00:38:32,880
first 75 years of the Lockheed

803
00:38:35,720 --> 00:38:33,570
skunkworks

804
00:38:40,070 --> 00:38:35,730
ah salute should be about three hundred

805
00:38:42,020 --> 00:38:40,080
and forty pages 11 hundred photos of

806
00:38:44,090 --> 00:38:42,030
which two-thirds have never been never

807
00:38:45,290 --> 00:38:44,100
been in print Wow this is your most

808
00:38:48,020 --> 00:38:45,300
recent book that you're coming out with

809
00:38:49,790 --> 00:38:48,030
okay also might and it'll it'll be my

810
00:38:52,520 --> 00:38:49,800
crowning glory I don't there's no way I

811
00:38:56,120 --> 00:38:52,530
could I can top that there anything that

812
00:38:58,100 --> 00:38:56,130
came close is my twenty-fifth book which

813
00:39:02,260 --> 00:38:58,110

is a pictorial history of the Blackbirds

814

00:39:04,290 --> 00:39:02,270

alright I mean I'm a Blackbird fanatic I

815

00:39:06,390 --> 00:39:04,300

acquired more

816

00:39:07,590 --> 00:39:06,400

I have a distinction of being the only

817

00:39:10,910 --> 00:39:07,600

guy in the world have been in the

818

00:39:14,820 --> 00:39:10,920

cockpit of a blackbird at 33,000 feet

819

00:39:17,670 --> 00:39:14,830

inside a c5 Wow that's how we moved it

820

00:39:19,650 --> 00:39:17,680

from Palmdale to Minnesota really we

821

00:39:21,240 --> 00:39:19,660

rolled it up on his own wheels better

822

00:39:23,820 --> 00:39:21,250

cut the wings off we had an inch and a

823

00:39:29,280 --> 00:39:23,830

half of clearance and later day I'll

824

00:39:31,350 --> 00:39:29,290

bring my laptop cool yeah yeah yeah so

825

00:39:32,670 --> 00:39:31,360

how can we find the the new book that's

826

00:39:34,530 --> 00:39:32,680

coming out is it gonna go in different

827

00:39:36,780 --> 00:39:34,540

or is gonna be like on Amazon oh it's

828

00:39:42,750 --> 00:39:36,790

it's it's gonna be from Osprey out of

829

00:39:46,280 --> 00:39:42,760

England 300 about 340 pages about and I

830

00:39:49,230 --> 00:39:46,290

say 1100 photos and be hardbound

831

00:39:52,620 --> 00:39:49,240

my current book if you go and de Amazon

832

00:39:56,280 --> 00:39:52,630

and you look up James sea good books by

833

00:39:58,650 --> 00:39:56,290

James sea good all my my los

834

00:40:02,880 --> 00:39:58,660

angeles-class 688 book will show up as

835

00:40:04,290 --> 00:40:02,890

hardbound okay my b2 book but you're a

836

00:40:06,450 --> 00:40:04,300

pictorial history of the stealth bomber

837

00:40:09,900 --> 00:40:06,460

is in there they let me fly this

838

00:40:14,490 --> 00:40:09,910

simulator that's cool it's a ninety

839

00:40:17,070 --> 00:40:14,500

million dollar video game it's it's

840

00:40:19,590 --> 00:40:17,080

better than did anything Microsoft can

841

00:40:21,150 --> 00:40:19,600

come up with and I thought they were

842

00:40:23,610 --> 00:40:21,160

just gonna show it to me I'd been there

843

00:40:26,420 --> 00:40:23,620

for two days it was the end of the

844

00:40:29,760 --> 00:40:26,430

second day so I one more place to go so

845

00:40:32,430 --> 00:40:29,770

we head off to this building off the

846

00:40:34,950 --> 00:40:32,440

flight line and there's a cipher lock to

847

00:40:38,130 --> 00:40:34,960

get into the building to get in there go

848

00:40:39,660 --> 00:40:38,140

upstairs shooting a [h__h] about this and

849

00:40:42,210 --> 00:40:39,670

that whatever and then it there's a

850

00:40:47,490 --> 00:40:42,220

there's a combination lock on another

851
00:40:50,160 --> 00:40:47,500
door to go down this hallway and there

852
00:40:53,910 --> 00:40:50,170
was three doors and almost like the

853
00:40:57,660 --> 00:40:53,920
price was right I guess an East door has

854
00:41:00,150 --> 00:40:57,670
a cipher lock on it right so they opened

855
00:41:01,830 --> 00:41:00,160
the door up and it's a b2 simulator I

856
00:41:07,800 --> 00:41:01,840
thought they were gonna show it to me

857
00:41:12,330 --> 00:41:07,810
ding so we go in there and the IP says

858
00:41:14,610 --> 00:41:12,340
you're in the left seat I've been in the

859
00:41:15,849 --> 00:41:14,620
cockpit of a b2 uh-huh I've walked on

860
00:41:18,430 --> 00:41:15,859
top of it I looked there

861
00:41:20,529 --> 00:41:18,440
the inlet and shut the whole airplane so

862
00:41:25,779 --> 00:41:20,539
everything to do we said we're gonna go

863
00:41:29,019 --> 00:41:25,789

bomb something so we take off the

864

00:41:31,239 --> 00:41:29,029

airplane takes off it at 27 knots I mean

865

00:41:34,029 --> 00:41:31,249

it's always it's all Lifting circles and

866

00:41:35,680 --> 00:41:34,039

that's a it's a stick but if you Bank

867

00:41:38,049 --> 00:41:35,690

like this you have to go back the other

868

00:41:39,640 --> 00:41:38,059

way to counteract as you'll start going

869

00:41:42,400 --> 00:41:39,650

and if you don't go you'll keep going

870

00:41:44,650 --> 00:41:42,410

okay so you have to go like this and go

871

00:41:47,920 --> 00:41:44,660

like this so we're flying and we're

872

00:41:49,680 --> 00:41:47,930

gonna go in for an air refueling I'm not

873

00:41:51,430 --> 00:41:49,690

a pilot

874

00:41:53,620 --> 00:41:51,440

but I have a good head on my shoulders

875

00:41:56,229 --> 00:41:53,630

we come up he only took me about three

876

00:42:00,430 --> 00:41:56,239

tries to get into the envelope to air

877

00:42:03,640 --> 00:42:00,440

refuel now I'm an airplane guy and I I'm

878

00:42:06,279 --> 00:42:03,650

a numbers person at one time in my life

879

00:42:09,819 --> 00:42:06,289

I could I can remember hundreds of phone

880

00:42:12,309 --> 00:42:09,829

numbers without you looking him up today

881

00:42:14,829 --> 00:42:12,319

I get lost when I turned him in my own

882

00:42:21,849 --> 00:42:14,839

address but that's the age we'll do that

883

00:42:23,140 --> 00:42:21,859

too so I hope you know I I finally get

884

00:42:25,809 --> 00:42:23,150

to a point where a place where I can

885

00:42:27,940 --> 00:42:25,819

hook up and the instructor pilot says

886

00:42:30,190 --> 00:42:27,950

you know I've been flying heavies for

887

00:42:33,279 --> 00:42:30,200

six years before I came to the b2

888

00:42:36,190 --> 00:42:33,289

program it took me six tries the first

889

00:42:37,979 --> 00:42:36,200

time you did it and to G I said

890

00:42:41,499 --> 00:42:37,989

beginner's luck

891

00:42:45,609 --> 00:42:41,509

so as I'm looking at as I'm looking at

892

00:42:48,430 --> 00:42:45,619

the kc-135r tanker I look at the serial

893

00:42:52,029 --> 00:42:48,440

number and it's a correct serial number

894

00:42:53,319 --> 00:42:52,039

for kc-135 it's an epic that please me

895

00:42:55,420 --> 00:42:53,329

at least the élysée are doing that

896

00:42:57,430 --> 00:42:55,430

homework and you could see the face of

897

00:43:01,329 --> 00:42:57,440

the boom operator you couldn't make out

898

00:43:03,039 --> 00:43:01,339

if if you know his ethnicity but you can

899

00:43:04,839 --> 00:43:03,049

tell you can see the boom operator there

900

00:43:07,509 --> 00:43:04,849

one two boom and I was a boom operator

901
00:43:09,160 --> 00:43:07,519
for a short time in the Air Force I lost

902
00:43:10,599 --> 00:43:09,170
three friends in two weeks I said put me

903
00:43:15,910 --> 00:43:10,609
on the ground oh man

904
00:43:17,800 --> 00:43:15,920
but it's fate so so so we're gonna go do

905
00:43:21,310 --> 00:43:17,810
a touching though

906
00:43:23,230 --> 00:43:21,320
so off we go and coming in we're 18

907
00:43:25,120 --> 00:43:23,240
miles out it said just you know just

908
00:43:27,340 --> 00:43:25,130
keep the you know keep the ball here and

909
00:43:28,750 --> 00:43:27,350
keep the little black dot in the center

910
00:43:31,750 --> 00:43:28,760
and you're gonna fly down the glide

911
00:43:34,870 --> 00:43:31,760
slope we're gonna do a touch-and-go and

912
00:43:37,930 --> 00:43:34,880
then we're gonna take off we're about 80

913
00:43:42,010 --> 00:43:37,940

miles hour and all of a sudden boom boom

914

00:43:45,040 --> 00:43:42,020

boom five or six 10 Megaton hydrogen

915

00:43:46,840 --> 00:43:45,050

bombs went off just Frank up in the

916

00:43:48,670 --> 00:43:46,850

control room was screwing with me

917

00:43:50,380 --> 00:43:48,680

there and the city there's going

918

00:43:51,610 --> 00:43:50,390

bouncing all over the place the screen

919

00:43:54,940 --> 00:43:51,620

goes black

920

00:43:57,430 --> 00:43:54,950

that's a simulate the the flash shield

921

00:44:00,100 --> 00:43:57,440

you put on your face which looks like

922

00:44:02,140 --> 00:44:00,110

the stormtroopers from Star Wars huh

923

00:44:06,150 --> 00:44:02,150

because the guy who designed it is a

924

00:44:08,710 --> 00:44:06,160

Star Wars fan that's cool that's good so

925

00:44:11,080 --> 00:44:08,720

so we go to where we meet Lee pull away

926
00:44:13,240 --> 00:44:11,090
don't full-throttle me are you hit

927
00:44:15,430 --> 00:44:13,250
getting out of Dodge so I looked at the

928
00:44:18,250 --> 00:44:15,440
IP and I said can I drop one

929
00:44:21,040 --> 00:44:18,260
he said no it's a it's a classified

930
00:44:21,760 --> 00:44:21,050
system yeah but if you were to drop one

931
00:44:25,450 --> 00:44:21,770
where would it be

932
00:44:28,420 --> 00:44:25,460
that's just 2015 I said how about 1600

933
00:44:30,730 --> 00:44:28,430
and it's gonna head now you say

934
00:44:33,760 --> 00:44:30,740
Pennsylvania said no no you can't say

935
00:44:39,460 --> 00:44:33,770
that what you think about no you can't

936
00:44:42,280 --> 00:44:39,470
say that so the official official

937
00:44:44,350 --> 00:44:42,290
certificate I have said two hours in the

938
00:44:47,620 --> 00:44:44,360

b2 simulator when in fact I was two and

939

00:44:49,330 --> 00:44:47,630

a half but it was fun it was just a kick

940

00:44:51,040 --> 00:44:49,340

in the butt now that was cool

941

00:44:54,610 --> 00:44:51,050

and that's what I do know that what I do

942

00:44:57,040 --> 00:44:54,620

you know when I when I secured the

943

00:44:59,650 --> 00:44:57,050

Blackbird for the Minnesota air guard

944

00:45:05,740 --> 00:44:59,660

Museum and it wasn't an sr-71 it was a

945

00:45:10,420 --> 00:45:05,750

CIA a12 and the way it the way I that

946

00:45:14,590 --> 00:45:10,430

that started been rich calls me at home

947

00:45:16,420 --> 00:45:14,600

in August of 89 and he said Jim I know

948

00:45:19,330 --> 00:45:16,430

for a fact the black birds aren't gonna

949

00:45:21,610 --> 00:45:19,340

make it through Congress and if anybody

950

00:45:24,440 --> 00:45:21,620

can scrounge one you can

951

00:45:26,210 --> 00:45:24,450

so I sell case like I get on the phone

952

00:45:29,420 --> 00:45:26,220

the next day I called the adjutant

953

00:45:31,190 --> 00:45:29,430

general of the state of New York I said

954

00:45:34,070 --> 00:45:31,200

general Riva is a sergeant good on with

955

00:45:36,800 --> 00:45:34,080

the 133rd what can I do for you Sarge

956

00:45:38,780 --> 00:45:36,810

I said how'd your New York air guard

957

00:45:41,770 --> 00:45:38,790

like to move the world's fastest

958

00:45:44,240 --> 00:45:41,780

airplane in a couple years see fives

959

00:45:47,210 --> 00:45:44,250

quiet for a few seconds said you mean

960

00:45:50,150 --> 00:45:47,220

the Blackbird I said yes sir when you're

961

00:45:52,670 --> 00:45:50,160

ready you call will halt all right now

962

00:45:54,500 --> 00:45:52,680

to put in proper perspective pratt &

963

00:45:57,260 --> 00:45:54,510

whitney was trying to get one as well

964

00:46:02,930 --> 00:45:57,270

and they had cut and I and I had worked

965

00:46:05,300 --> 00:46:02,940

with arnie gunderson who's mr. j58

966

00:46:06,440 --> 00:46:05,310

for the Blackbird program okay and his

967

00:46:09,860 --> 00:46:06,450

was trying to get it they're gonna put

968

00:46:12,170 --> 00:46:09,870

her on a wit on a wind vane at West Palm

969

00:46:15,590 --> 00:46:12,180

Beach so even during hurricanes it would

970

00:46:19,730 --> 00:46:15,600

all be pointing into the wind and he

971

00:46:25,210 --> 00:46:19,740

contacted air force it said would the

972

00:46:28,550 --> 00:46:25,220

air force lease us a c5 I said sure

973

00:46:31,130 --> 00:46:28,560

so how much nine hundred and sixty seven

974

00:46:32,300 --> 00:46:31,140

thousand dollars a day plus gas good

975

00:46:41,720 --> 00:46:32,310

lord

976
00:46:43,520 --> 00:46:41,730
nice grounds two of them Daisy what

977
00:46:45,320 --> 00:46:43,530
solves a lot of Girl Scout cookies so I

978
00:46:47,090 --> 00:46:45,330
go to my boss who's a two-star and it's

979
00:46:48,500 --> 00:46:47,100
a journalist general Schwab I'm gonna

980
00:46:53,810 --> 00:46:48,510
get I want to get a blackford for our

981
00:46:55,160 --> 00:46:53,820
museum he starts laughing at me and I

982
00:46:57,920 --> 00:46:55,170
said sir

983
00:47:01,220 --> 00:46:57,930
rather than laugh at me give me the

984
00:47:02,720 --> 00:47:01,230
opportunity to fail should I write

985
00:47:04,970 --> 00:47:02,730
smartass are you gonna get it here

986
00:47:08,450 --> 00:47:04,980
doesn't it fly I said I got that covered

987
00:47:10,850 --> 00:47:08,460
I mean I said I talked to general Weaver

988
00:47:13,520 --> 00:47:10,860

at tag at New York Air Guard he said

989

00:47:15,230 --> 00:47:13,530

when you're ready you call will halt and

990

00:47:18,920 --> 00:47:15,240

it would be training for moving outside

991

00:47:20,270 --> 00:47:18,930

scar go right so it'd be no cost to the

992

00:47:22,490 --> 00:47:20,280

museum how cool

993

00:47:26,480 --> 00:47:22,500

and I got the Dayton Hudson corporation

994

00:47:31,970 --> 00:47:26,490

to hire a documentary film crew there's

995

00:47:35,090 --> 00:47:31,980

a 29 28 minute 45 second VIP

996

00:47:36,730 --> 00:47:35,100

professionally VIP video on the recovery

997

00:47:40,190 --> 00:47:36,740

of the Blackbird that was on public TV

998

00:47:41,000 --> 00:47:40,200

for 15 years in Minneapolis Tiffany I

999

00:47:44,660 --> 00:47:41,010

have it at home

1000

00:47:47,150 --> 00:47:44,670

dang check that out but when we loaded

1001
00:47:51,710 --> 00:47:47,160
when we loaded it onto the c5 it was

1002
00:47:54,170 --> 00:47:51,720
October 27th 1991 we flew from Palmdale

1003
00:47:57,590 --> 00:47:54,180
to Travis they didn't have fuel or

1004
00:47:59,900 --> 00:47:57,600
Palmdale spent the night next day we

1005
00:48:03,770 --> 00:47:59,910
take off heading to Minnesota we're

1006
00:48:05,240 --> 00:48:03,780
about 45 minutes out and the load master

1007
00:48:08,030 --> 00:48:05,250
was the chief master sergeants going

1008
00:48:13,040 --> 00:48:08,040
down to check the load I said can I go

1009
00:48:15,560 --> 00:48:13,050
with you and in most cases can't whew

1010
00:48:18,140 --> 00:48:15,570
it's pressurized but he said well

1011
00:48:21,680 --> 00:48:18,150
normally I would have to say no but

1012
00:48:23,930 --> 00:48:21,690
since this is your project go ahead cool

1013
00:48:25,820 --> 00:48:23,940

so I went down I climbed up the landing

1014

00:48:27,440 --> 00:48:25,830

gear and down the chimes I had a chart

1015

00:48:29,480 --> 00:48:27,450

holding the canopy open because the

1016

00:48:32,540 --> 00:48:29,490

counterbalance was out of nitrogen open

1017

00:48:34,580 --> 00:48:32,550

that up I had a five-gallon bucket and

1018

00:48:37,250 --> 00:48:34,590

the bottom of the ejection seat with a

1019

00:48:40,670 --> 00:48:37,260

cushion came in there close to canopy

1020

00:48:45,770 --> 00:48:40,680

I'm in your buffer 45 minutes going zoom

1021

00:48:48,860 --> 00:48:45,780

zoom I mean what am I 12 and finally I

1022

00:48:52,640 --> 00:48:48,870

hear a rap on the bottom this is boss

1023

00:48:56,060 --> 00:48:52,650

said we got to go up okay so open the

1024

00:48:58,160 --> 00:48:56,070

canopy put the wheel chock back in climb

1025

00:49:00,530 --> 00:48:58,170

down we go upstairs now there's two

1026

00:49:03,470 --> 00:49:00,540

parts of the upper level is c5 you have

1027

00:49:05,750 --> 00:49:03,480

room for 75 passengers behind the wing

1028

00:49:07,370 --> 00:49:05,760

box and then you have the flight crew

1029

00:49:12,020 --> 00:49:07,380

and everything forward of the wing box

1030

00:49:14,540 --> 00:49:12,030

I'm for the wing box area and the we're

1031

00:49:17,810 --> 00:49:14,550

about 40 minutes out of Minneapolis and

1032

00:49:20,600 --> 00:49:17,820

the chief master sergeant comes back and

1033

00:49:22,760 --> 00:49:20,610

he said Jim bus said you can you can

1034

00:49:25,250 --> 00:49:22,770

right in the cockpit when we land well

1035

00:49:26,360 --> 00:49:25,260

I'm already up there he said no no the

1036

00:49:29,270 --> 00:49:26,370

one downstairs

1037

00:49:29,780 --> 00:49:29,280

oh so I go downstairs I get in the

1038

00:49:31,940 --> 00:49:29,790

cockpit

1039

00:49:34,289 --> 00:49:31,950

I'm not restrained or anything and I'm

1040

00:49:37,709 --> 00:49:34,299

there when the lands so my

1041

00:49:40,289 --> 00:49:37,719

my no-one will top this I don't care

1042

00:49:44,249 --> 00:49:40,299

what who they are even Edmund he'll on

1043

00:49:47,669 --> 00:49:44,259

musk or Bill Gates or whatever will ever

1044

00:49:52,380 --> 00:49:47,679

be top it I I've been in the cockpit of

1045

00:49:56,339 --> 00:49:52,390

a blackbird at 33,000 feet at Mach point

1046

00:49:57,929 --> 00:49:56,349

7 to inside another airplane and I

1047

00:50:01,529 --> 00:49:57,939

landed it as well

1048

00:50:03,660 --> 00:50:01,539

inside another airplane you could you

1049

00:50:06,299 --> 00:50:03,670

couldn't have slapped a grin off my face

1050

00:50:08,039 --> 00:50:06,309

with the 2x4 with nails in it it was

1051
00:50:11,539 --> 00:50:08,049
like winning the Stanley Cup the World

1052
00:50:15,209 --> 00:50:11,549
Series in the Superbowl all on the same

1053
00:50:15,509 --> 00:50:15,219
somebody awesome stories that's what I

1054
00:50:19,499 --> 00:50:15,519
do

1055
00:50:22,109 --> 00:50:19,509
oh you you're here for the money [h__h] if

1056
00:50:24,239 --> 00:50:22,119
you break down - all the hardware I've

1057
00:50:28,259 --> 00:50:24,249
had to buy - all the transportation

1058
00:50:31,559 --> 00:50:28,269
costs everything else associated just my

1059
00:50:33,380 --> 00:50:31,569
time with my writing my books maybe I

1060
00:50:35,729 --> 00:50:33,390
make 2 cents an hour

1061
00:50:37,859 --> 00:50:35,739
thanks I don't do it for money I don't

1062
00:50:40,529 --> 00:50:37,869
even do it for fame I do it because I

1063
00:50:43,739 --> 00:50:40,539

enjoy it yes [h__h] we enjoy you being

1064

00:50:46,229 --> 00:50:43,749

here man and I enjoy people and I I have

1065

00:50:48,539 --> 00:50:46,239

I've had the honor and the privilege I

1066

00:50:50,669 --> 00:50:48,549

mean I interviewed loose shock the first

1067

00:50:52,979 --> 00:50:50,679

guy to fly Blackbird a12

1068

00:50:55,279 --> 00:50:52,989

interviewed Jimmy Stan first got to fly

1069

00:50:58,709 --> 00:50:55,289

the yf-12 the first guy to do an aerial

1070

00:51:01,499 --> 00:50:58,719

refueling I've interviewed Bob Gilliland

1071

00:51:03,779 --> 00:51:01,509

first got to find the sr-71 he was in

1072

00:51:06,439 --> 00:51:03,789

the he was up in the mountaintop second

1073

00:51:09,509 --> 00:51:06,449

from the second from the right

1074

00:51:11,130 --> 00:51:09,519

he was in the blue jacket I've

1075

00:51:12,870 --> 00:51:11,140

interviewed virtually everybody who's

1076

00:51:15,749 --> 00:51:12,880

crashed a blackbird well I've

1077

00:51:18,900 --> 00:51:15,759

interviewed pretty much everybody who

1078

00:51:22,109 --> 00:51:18,910

built and designed specific parts of the

1079

00:51:26,720 --> 00:51:22,119

airplane Arnie Gunderson from Pratt &

1080

00:51:31,609 --> 00:51:31,160

kimber Jim Jim's last name but it's not

1081

00:51:33,950 --> 00:51:31,619

fun

1082

00:51:36,259 --> 00:51:33,960

yeah he was from Honeywell they did the

1083

00:51:38,599 --> 00:51:36,269

avionics of this the saving of this

1084

00:51:40,849 --> 00:51:38,609

stabilization augmentation system the

1085

00:51:43,099 --> 00:51:40,859

autopilot me in my control system I

1086

00:51:48,680 --> 00:51:43,109

talked to the guys from Wyman Gordon who

1087

00:51:50,120 --> 00:51:48,690

produce the the titanium for genes all

1088

00:51:53,150 --> 00:51:50,130

these guys and this is what I've done

1089

00:51:57,289 --> 00:51:53,160

because it's what I enjoy doing yeah

1090

00:51:58,999 --> 00:51:57,299

yeah and one of the fun ones I won't I

1091

00:52:03,710 --> 00:51:59,009

won't give his name cuz he's still alive

1092

00:52:07,220 --> 00:52:03,720

and he's been talked to who but a friend

1093

00:52:10,549 --> 00:52:07,230

of mine who's an sr-71 pilot flying out

1094

00:52:13,269 --> 00:52:10,559

of Kadena Okinawa this is the 1960 1970

1095

00:52:16,970 --> 00:52:13,279

to timeframe vietnam war still going

1096

00:52:20,890 --> 00:52:16,980

full-bore it's about 11 o'clock at night

1097

00:52:24,230 --> 00:52:20,900

he's flying straight and level about

1098

00:52:26,990 --> 00:52:24,240

78,000 feet a Mach two point seven two

1099

00:52:29,269 --> 00:52:27,000

point seven is the ideal cruising speed

1100

00:52:31,910 --> 00:52:29,279

for the Blackbird it's still pretty good

1101
00:52:33,890 --> 00:52:31,920
on fuel consumption but you're not

1102
00:52:35,450 --> 00:52:33,900
thermally stressing anything on the

1103
00:52:38,359 --> 00:52:35,460
airplane it's not until you go above

1104
00:52:42,620 --> 00:52:38,369
Mach three that the the friction and the

1105
00:52:46,940 --> 00:52:42,630
thermal heating builds up 11 o'clock at

1106
00:52:49,130 --> 00:52:46,950
night 3/4 moon he gets a glint off

1107
00:52:53,900 --> 00:52:49,140
something metallic about five or six

1108
00:52:56,900 --> 00:52:53,910
miles away about 85,000 feet straight

1109
00:52:59,599 --> 00:52:56,910
contacts the contacts Kadena that the

1110
00:53:01,700 --> 00:52:59,609
SRS are flying out of till we get

1111
00:53:05,240 --> 00:53:01,710
another bird up know you're up there by

1112
00:53:08,299 --> 00:53:05,250
yourself no I'm not I'll go take a look

1113
00:53:12,170 --> 00:53:08,309

so advances dis rattles you know Mach

1114

00:53:14,539 --> 00:53:12,180

2.7 at seventy eight thousand feet the

1115

00:53:18,259 --> 00:53:14,549

the engines are an absolute minimum

1116

00:53:20,720 --> 00:53:18,269

burner the airplane wants to fly fast

1117

00:53:23,120 --> 00:53:20,730

it'll it'll fly it is a way to

1118

00:53:24,890 --> 00:53:23,130

destruction if you let it you blow the

1119

00:53:29,150 --> 00:53:24,900

engine inlets out first before you do

1120

00:53:30,980 --> 00:53:29,160

anything but so Dave pushes the

1121

00:53:32,539 --> 00:53:30,990

throttles forward there's about a 10

1122

00:53:35,210 --> 00:53:32,549

degree Bank and he's climbing

1123

00:53:37,009 --> 00:53:35,220

accelerating he's going to try to get

1124

00:53:39,380 --> 00:53:37,019

close to this thing and he figured he

1125

00:53:41,390 --> 00:53:39,390

was a but still a mile or so away

1126
00:53:44,450 --> 00:53:41,400
there may be a thousand or so feet below

1127
00:53:46,880 --> 00:53:44,460
it not taking his eye off of it and this

1128
00:53:50,599 --> 00:53:46,890
thing takes off at about a 30-degree

1129
00:53:51,799 --> 00:53:50,609
angle of attack and left him like it was

1130
00:53:56,029 --> 00:53:51,809
hit in the other direction

1131
00:53:58,370 --> 00:53:56,039
that's doesn't say he doesn't know what

1132
00:54:04,970 --> 00:53:58,380
what kind of it's not like he's going

1133
00:54:10,250 --> 00:54:04,980
slow so he he retires from the Air Force

1134
00:54:13,039 --> 00:54:10,260
as an sr-71 pilot in 1980 and those guys

1135
00:54:15,920 --> 00:54:13,049
those guys are in that community in the

1136
00:54:17,450 --> 00:54:15,930
black world if you want to stay in it he

1137
00:54:20,480 --> 00:54:17,460
already cleared you know most of the

1138
00:54:23,660 --> 00:54:20,490

people so he ended up being the facility

1139

00:54:25,630 --> 00:54:23,670

man injured area 51 Wow he was the one

1140

00:54:28,430 --> 00:54:25,640

that guy in charge of every single

1141

00:54:31,220 --> 00:54:28,440

building there and I asked him any

1142

00:54:34,220 --> 00:54:31,230

underground facilities at area 51 said

1143

00:54:36,859 --> 00:54:34,230

none there was I would I would have to

1144

00:54:38,930 --> 00:54:36,869

it seen him yeah and she said but the

1145

00:54:43,460 --> 00:54:38,940

technology exists there's a Nevada Test

1146

00:54:47,390 --> 00:54:43,470

Site right and they said his job his job

1147

00:54:50,299 --> 00:54:47,400

was a facility manager and to maintain

1148

00:54:52,359 --> 00:54:50,309

the maintenance on all the non-program

1149

00:54:58,249 --> 00:54:52,369

aircraft primarily the chase airplanes

1150

00:55:01,880 --> 00:54:58,259

the f-86 is the f100 f-14s and stuff and

1151
00:55:04,279 --> 00:55:01,890
he was there for six years and he had

1152
00:55:05,779 --> 00:55:04,289
after he was here for a while he he he

1153
00:55:07,220 --> 00:55:05,789
knew pretty much everybody but when

1154
00:55:09,230 --> 00:55:07,230
everybody was comfortable with him we

1155
00:55:11,210 --> 00:55:09,240
started to ask him hey did we build and

1156
00:55:18,339 --> 00:55:11,220
develop an in-flight test something that

1157
00:55:20,960 --> 00:55:18,349
goes maybe Mach 20 not area 51 no no no

1158
00:55:23,269 --> 00:55:20,970
and Ben rich told me in his in his

1159
00:55:24,589 --> 00:55:23,279
office he said he said you know every

1160
00:55:28,640 --> 00:55:24,599
car that comes into this parking lot

1161
00:55:31,970 --> 00:55:28,650
photographed not by US by Russian agents

1162
00:55:33,140 --> 00:55:31,980
Soviet agents before the fall of the

1163
00:55:36,829 --> 00:55:33,150

Soviet Union

1164

00:55:40,039 --> 00:55:36,839

he said we said I know we there's

1165

00:55:42,289 --> 00:55:40,049

probably a handful of Russian spies

1166

00:55:44,359 --> 00:55:42,299

working at the skunk works

1167

00:55:47,959 --> 00:55:44,369

and there's nothing we can do about it

1168

00:55:49,669 --> 00:55:47,969

until until it in until we they do

1169

00:55:52,099 --> 00:55:49,679

something wrong right right so one

1170

00:55:55,249 --> 00:55:52,109

helmet how nail is that possible I said

1171

00:55:59,630 --> 00:55:55,259

said our intelligent guys are in for the

1172

00:56:04,689 --> 00:55:59,640

short term Soviets Chinese they're in

1173

00:56:08,929 --> 00:56:04,699

for the long term so there's a smart kid

1174

00:56:12,679 --> 00:56:08,939

11 10 11 years old single mom they're

1175

00:56:14,529 --> 00:56:12,689

struggling but the kids growing up and

1176

00:56:17,620 --> 00:56:14,539

out of the blue

1177

00:56:20,509 --> 00:56:17,630

uncle EEP Igor comes into their life and

1178

00:56:23,779 --> 00:56:20,519

saves the family gets it he gets mom a

1179

00:56:30,160 --> 00:56:23,789

job at maybe at Lockheed or some other

1180

00:56:32,120 --> 00:56:30,170

defense contractor he tutors the kid on

1181

00:56:35,209 --> 00:56:32,130

mathematics and stuff like that and

1182

00:56:37,759 --> 00:56:35,219

guides him to he wants to go finally

1183

00:56:39,140 --> 00:56:37,769

they you know he graduates to finally

1184

00:56:42,499 --> 00:56:39,150

graduate from high school with good

1185

00:56:46,929 --> 00:56:42,509

grades he has a shoo-in to some maybe

1186

00:56:49,759 --> 00:56:46,939

Caltech or any rental with some other

1187

00:56:53,599 --> 00:56:49,769

university that specializes and aviation

1188

00:56:57,049 --> 00:56:53,609

you know helps pay his tuition gets them

1189

00:56:58,699 --> 00:56:57,059

all the way through it and just I just

1190

00:57:01,549 --> 00:56:58,709

happen to know some guy in personnel at

1191

00:57:05,439 --> 00:57:01,559

skunk works nearly a job as a junior

1192

00:57:09,189 --> 00:57:05,449

engineer kid goes in there he's in there

1193

00:57:13,789 --> 00:57:11,299

Christmas time Thanksgiving time

1194

00:57:16,249 --> 00:57:13,799

birthday time whatever he's over at the

1195

00:57:18,169 --> 00:57:16,259

house and he's part of the family he's

1196

00:57:21,410 --> 00:57:18,179

been in family's insignia bit for the

1197

00:57:23,439 --> 00:57:21,420

last 20-some odd years and finally uncle

1198

00:57:26,689 --> 00:57:23,449

Egor gets down with the kid and he said

1199

00:57:28,549 --> 00:57:26,699

what do you what do you do walk in and

1200

00:57:31,189 --> 00:57:28,559

the kids I can't tell you he said look

1201

00:57:33,079 --> 00:57:31,199

I've known you your whole life I've

1202

00:57:35,929 --> 00:57:33,089

helped you get to where you are you can

1203

00:57:40,579 --> 00:57:35,939

tell uncle Edgar where God looks around

1204

00:57:42,919 --> 00:57:40,589

it starts telling some stuff hey uncle

1205

00:57:45,709 --> 00:57:42,929

Egor starts digging a little bit deeper

1206

00:57:48,049 --> 00:57:45,719

now this guy is clean as far as his

1207

00:57:49,880 --> 00:57:48,059

background and security check I mean he

1208

00:57:53,179 --> 00:57:49,890

looked up as but they even he had found

1209

00:57:54,740 --> 00:57:53,189

his [h__h] nothing his his clean as the

1210

00:57:57,780 --> 00:57:54,750

freshly driven snow

1211

00:58:00,990 --> 00:57:57,790

so now uncle igor's is pushing him

1212

00:58:03,540 --> 00:58:01,000

pushing him and finally he brings some

1213

00:58:04,950 --> 00:58:03,550

stuff home misclassified his top-secret

1214

00:58:08,790 --> 00:58:04,960

whatever uh-huh

1215

00:58:13,260 --> 00:58:08,800

then uncle Egor now he has his hook yeah

1216

00:58:15,150 --> 00:58:13,270

all right he says next week or next

1217

00:58:16,830 --> 00:58:15,160

month I want you to I want you to bring

1218

00:58:19,350 --> 00:58:16,840

home some stuff on this program or

1219

00:58:24,150 --> 00:58:19,360

surprise it so I can get fired I can go

1220

00:58:25,560 --> 00:58:24,160

to jail he said I got you oh no you

1221

00:58:29,280 --> 00:58:25,570

either do what I say or I'm gonna turn

1222

00:58:33,180 --> 00:58:29,290

you into security and that's how they

1223

00:58:35,280 --> 00:58:33,190

work now here's a guy was innocent he

1224

00:58:38,670 --> 00:58:35,290

didn't have an evil thought in his body

1225

00:58:40,380 --> 00:58:38,680

and uncle Egor helped his family I mean

1226

00:58:43,650 --> 00:58:40,390

how are you gonna say no to a guy that

1227

00:58:46,890 --> 00:58:43,660

that pulled you out of poverty saved

1228

00:58:48,900 --> 00:58:46,900

them you know save your mom from jumping

1229

00:58:50,610 --> 00:58:48,910

off a bridge or you going to jail

1230

00:58:52,530 --> 00:58:50,620

because you're a jubilant delinquent

1231

00:58:54,930 --> 00:58:52,540

right and that's what they do Wow

1232

00:58:56,820 --> 00:58:54,940

Chinese do the same thing but really the

1233

00:59:00,690 --> 00:58:56,830

Russians the Russians are the best at it

1234

00:59:06,170 --> 00:59:00,700

dang you know say I hate to cut it off

1235

00:59:13,110 --> 00:59:11,400

the camera yeah we're about to run out I

1236

00:59:14,400 --> 00:59:13,120

just don't want it to stop and they're

1237

00:59:20,400 --> 00:59:14,410

like you're in the middle of a story and

1238

00:59:23,010 --> 00:59:20,410

it shuts down yeah let's charge oh no

1239

00:59:24,950 --> 00:59:23,020

it's good good for you yeah yeah that

1240

00:59:34,320 --> 00:59:24,960

was great

1241

00:59:36,810 --> 00:59:34,330

where your note I don't need like I

1242

00:59:37,620 --> 00:59:36,820

liked you guys I mean you just its

1243

00:59:43,230 --> 00:59:37,630

Wayne's World

1244

00:59:46,110 --> 00:59:43,240

yeah Austin pretty much it's pretty much

1245

00:59:49,290 --> 00:59:46,120

it all right guys thanks for tuning in

1246

00:59:51,000 --> 00:59:49,300

and we'll get updated on this yeah again
