

UFO
GARAGE
PODCAST

Matthew Derouen
UFO CON 2020

1
00:00:05,599 --> 00:00:01,670
what's up guys we're here with Matthew

2
00:00:07,820 --> 00:00:05,609
Dara Wan and we caught his his uh his

3
00:00:10,610 --> 00:00:07,830
speech earlier this morning and dude

4
00:00:13,759 --> 00:00:10,620
kind of just splattered our brains all

5
00:00:17,120 --> 00:00:13,769
over the floor pretty incredible stuff

6
00:00:19,939 --> 00:00:17,130
man so so Matthew if you don't mind just

7
00:00:21,349 --> 00:00:19,949
kind of introduce yourself and tell the

8
00:00:23,630 --> 00:00:21,359
people kind of what you're about man

9
00:00:24,410 --> 00:00:23,640
okay I think it's the first interview

10
00:00:28,089 --> 00:00:24,420
I've ever given

11
00:00:30,230 --> 00:00:28,099
all right maybe my life my first UFO

12
00:00:35,750 --> 00:00:30,240
convention ever been to where do I look

13
00:00:38,270 --> 00:00:35,760

just look yeah yeah it's not recording

14

00:00:40,190 --> 00:00:38,280

so yeah oh so a lot of stuff's going on

15

00:00:43,040 --> 00:00:40,200

in my life I've been over the world done

16

00:00:45,319 --> 00:00:43,050

a lot of things I do a lot of technology

17

00:00:48,549 --> 00:00:45,329

consulting I've worked with various

18

00:00:51,889 --> 00:00:48,559

governments integrating working on

19

00:00:55,610 --> 00:00:51,899

mining job in me and more yeah

20

00:00:57,709 --> 00:00:55,620

integrating for extraction and just

21

00:01:01,729 --> 00:00:57,719

endless endless work I do we own a

22

00:01:04,850 --> 00:01:01,739

couple of companies but anyway I've

23

00:01:06,530 --> 00:01:04,860

begun a company called matlab's I'm

24

00:01:09,980 --> 00:01:06,540

gonna be do doing research into

25

00:01:12,679 --> 00:01:09,990

high-tech along the UFO paranormal lines

26

00:01:16,880 --> 00:01:12,689

of work we call it Aiello's however

27

00:01:19,460 --> 00:01:16,890

which would refer to identified landed

28

00:01:24,620 --> 00:01:19,470

objects I would say generally you can

29

00:01:29,980 --> 00:01:24,630

call it that I think personally in my

30

00:01:32,359 --> 00:01:29,990

life we have had a very normal boring

31

00:01:34,609 --> 00:01:32,369

kind of I'm never looking for anything

32

00:01:37,609 --> 00:01:34,619

interesting life but stuff is tripped

33

00:01:40,999 --> 00:01:37,619

across me constantly that is just kind

34

00:01:44,240 --> 00:01:41,009

of crazy and so I've been in oculus just

35

00:01:47,480 --> 00:01:44,250

in the shadows but I some stuff happened

36

00:01:51,440 --> 00:01:47,490

last year maybe starting around May that

37

00:01:55,730 --> 00:01:51,450

was so severe and so intense and then

38

00:01:58,700 --> 00:01:55,740

again a different set of data in

39

00:02:00,889 --> 00:01:58,710

November it was like wow I I've got to

40

00:02:03,889 --> 00:02:00,899

write a book I've got to put this out

41

00:02:06,139 --> 00:02:03,899

I've been to law school I can help them

42

00:02:08,960 --> 00:02:06,149

I can really help society with some

43

00:02:11,400 --> 00:02:08,970

great ideas that I can put forward and

44

00:02:13,890 --> 00:02:11,410

that's pretty much where I'm at Oh

45

00:02:16,440 --> 00:02:13,900

you know yeah so what's what was the

46

00:02:19,790 --> 00:02:16,450

most recent you know a lot of weird

47

00:02:22,590 --> 00:02:19,800

stuff has happened to you well well I

48

00:02:26,730 --> 00:02:22,600

and and all of its provable and

49

00:02:29,760 --> 00:02:26,740

evidentiary and not not very abstract or

50

00:02:30,990 --> 00:02:29,770

spiritual and talking in non scientific

51

00:02:32,910 --> 00:02:31,000

time yeah

52

00:02:35,730 --> 00:02:32,920

tend to think in terms of thermal

53

00:02:37,470 --> 00:02:35,740

dynamics and precise physics and I'm

54

00:02:39,300 --> 00:02:37,480

much more of a physicist and a

55

00:02:41,250 --> 00:02:39,310

spiritualist but you see enough of this

56

00:02:44,910 --> 00:02:41,260

stuff and you began to be like the

57

00:02:46,680 --> 00:02:44,920

Ghostbusters yeah yeah but yeah you

58

00:02:48,360 --> 00:02:46,690

really were talking about like the the

59

00:02:50,550 --> 00:02:48,370

difference between this physics that

60

00:02:52,740 --> 00:02:50,560

were working with is just totally not

61

00:02:54,870 --> 00:02:52,750

like the thermodynamics that we're all

62

00:02:57,050 --> 00:02:54,880

used to like we know nothing I thought

63

00:03:00,960 --> 00:02:57,060

that was really interesting okay so

64

00:03:03,360 --> 00:03:00,970

there's a there's a spectrum of energy I

65

00:03:05,070 --> 00:03:03,370

should say it moves faster than light so

66

00:03:07,140 --> 00:03:05,080

particulate matter if moves faster than

67

00:03:09,960 --> 00:03:07,150

light theoretically like let's say a

68

00:03:12,180 --> 00:03:09,970

neutrino ghost particle has a tremendous

69

00:03:14,400 --> 00:03:12,190

amount of energy but because it moves at

70

00:03:16,380 --> 00:03:14,410

such a speed it doesn't really affect

71

00:03:18,120 --> 00:03:16,390

our particular dimension which is not

72

00:03:20,910 --> 00:03:18,130

necessarily third by the way it's got a

73

00:03:22,650 --> 00:03:20,920

crack in it at 361 degrees in our

74

00:03:25,320 --> 00:03:22,660

particular solar system but anyway

75

00:03:28,560 --> 00:03:25,330

precise that point of that particular

76

00:03:30,150 --> 00:03:28,570

energy cannot be accessed by us and

77

00:03:31,950 --> 00:03:30,160

there's a lot of it most of the universe

78

00:03:34,290 --> 00:03:31,960

most of the particles in matter moving

79

00:03:36,120 --> 00:03:34,300

fast was in light when it collides with

80

00:03:39,060 --> 00:03:36,130

something or when it just loses its

81

00:03:40,380 --> 00:03:39,070

vector trajectory that energy becomes

82

00:03:42,240 --> 00:03:40,390

available because now the particles have

83

00:03:44,580 --> 00:03:42,250

slowed down and it becomes interesting

84

00:03:46,710 --> 00:03:44,590

and what all of our physicists are

85

00:03:48,720 --> 00:03:46,720

trying to do in the Mewis military and

86

00:03:50,730 --> 00:03:48,730

all our high-tech companies is

87

00:03:53,160 --> 00:03:50,740

everybody's actually waiting for that

88

00:03:55,290 --> 00:03:53,170

moment where those particles cross lower

89

00:03:56,850 --> 00:03:55,300

floor than the speed of light now we can

90

00:03:58,410 --> 00:03:56,860

get that energy now we can get that

91

00:04:00,450 --> 00:03:58,420

matter now we can get that heavy metal

92

00:04:02,130 --> 00:04:00,460

yeah we can we can use this stuff and

93

00:04:05,490 --> 00:04:02,140

make my money that's what it's really

94

00:04:07,500 --> 00:04:05,500

about so just from that paradigm you can

95

00:04:10,650 --> 00:04:07,510

view the whole UFO phenomena you can

96

00:04:13,950 --> 00:04:10,660

drew the whole metamaterial phenomena as

97

00:04:16,890 --> 00:04:13,960

these things are now energies and forms

98

00:04:18,990 --> 00:04:16,900

that are soar than a suite of Lightner

99

00:04:21,170 --> 00:04:19,000

Nature has now changed to an accessible

100

00:04:23,210 --> 00:04:21,180

form to us to use

101
00:04:24,920 --> 00:04:23,220
to mankind's means I like the way you

102
00:04:26,600 --> 00:04:24,930
put it like it's interesting now that

103
00:04:28,580 --> 00:04:26,610
it's slower than the speed of light I

104
00:04:30,409 --> 00:04:28,590
like it turns out interesting yeah like

105
00:04:32,300 --> 00:04:30,419
we can use it in some way we could

106
00:04:35,689 --> 00:04:32,310
disperse that energy whether it be like

107
00:04:36,830 --> 00:04:35,699
moving a ship or creating energy to run

108
00:04:38,510 --> 00:04:36,840
lights correct

109
00:04:40,999 --> 00:04:38,520
you know one day I'll tell you about two

110
00:04:44,330 --> 00:04:41,009
scientists I meant I think it was around

111
00:04:46,820 --> 00:04:44,340
98 at conventions both were working on

112
00:04:48,170 --> 00:04:46,830
neutrino particles and didn't know what

113
00:04:49,279 --> 00:04:48,180

they were doing was government projects

114

00:04:51,620 --> 00:04:49,289

they didn't know each other and then

115

00:04:53,360 --> 00:04:51,630

working at two different facilities and

116

00:04:54,290 --> 00:04:53,370

I say we can't harness neutrinos yet we

117

00:04:55,640 --> 00:04:54,300

would have the wavelength that's

118

00:04:58,370 --> 00:04:55,650

ridiculous they said no no no that's

119

00:04:59,689 --> 00:04:58,380

what we do and where it's a secret

120

00:05:01,370 --> 00:04:59,699

government every one guy was

121

00:05:04,820 --> 00:05:01,380

transmitting him and the other guy was

122

00:05:07,670 --> 00:05:04,830

receiving him know each other and then I

123

00:05:09,439 --> 00:05:07,680

introduced him to each other and what

124

00:05:11,390 --> 00:05:09,449

was weird about it was when I was in

125

00:05:13,070 --> 00:05:11,400

high school I was doing projects on

126

00:05:15,290 --> 00:05:13,080

neutrinos the ghost particle it could

127

00:05:17,540 --> 00:05:15,300

transmute time when it would change his

128

00:05:19,909 --> 00:05:17,550

speed it would have a time dilation of

129

00:05:21,589 --> 00:05:19,919

fact theoretically of five seconds then

130

00:05:24,170 --> 00:05:21,599

they said maybe five minutes maybe days

131

00:05:26,450 --> 00:05:24,180

so if I was sending a neutrino from one

132

00:05:27,800 --> 00:05:26,460

spot to the Knux one scientist the other

133

00:05:30,110 --> 00:05:27,810

what do you think's happening they're

134

00:05:32,180 --> 00:05:30,120

sending Morse code back in time so I

135

00:05:33,920 --> 00:05:32,190

could tell you what what would happen

136

00:05:37,580 --> 00:05:33,930

three days ago I have to do was

137

00:05:39,260 --> 00:05:37,590

transmute or send a neutrino particle

138

00:05:43,040 --> 00:05:39,270

and if I hit it at the right angle in

139

00:05:45,080 --> 00:05:43,050

vector I could calculate how far back

140

00:05:47,060 --> 00:05:45,090

maybe and went you know with enough

141

00:05:49,070 --> 00:05:47,070

physicists enough mass maybe we could

142

00:05:50,930 --> 00:05:49,080

crunch those numbers so just a year

143

00:05:53,000 --> 00:05:50,940

later or two years later you had the

144

00:05:54,710 --> 00:05:53,010

George Bush election within 1,000 votes

145

00:05:56,120 --> 00:05:54,720

as if they'd done the election again and

146

00:05:59,210 --> 00:05:56,130

again and again that they shaved it down

147

00:06:01,460 --> 00:05:59,220

to 1000 and in 9/11 when reading a

148

00:06:03,830 --> 00:06:01,470

girlfriend of mine saw the buildings

149

00:06:05,330 --> 00:06:03,840

fall one than the other and then hours

150

00:06:07,490 --> 00:06:05,340

later we saw the show when they fell in

151
00:06:09,020 --> 00:06:07,500
the wrong order and she said to say the

152
00:06:10,610 --> 00:06:09,030
guy said that's not the order they fell

153
00:06:13,580 --> 00:06:10,620
in that's just I'm just throwing this at

154
00:06:14,839 --> 00:06:13,590
you guys I'm not know but I remember

155
00:06:16,640 --> 00:06:14,849
that they were in the wrong order and

156
00:06:18,050 --> 00:06:16,650
was like oh my god and that's when it

157
00:06:20,089 --> 00:06:18,060
occurred to me maybe they were actually

158
00:06:21,920 --> 00:06:20,099
using this stuff for nefarious purposes

159
00:06:24,439 --> 00:06:21,930
after I don't think they used it much I

160
00:06:26,450 --> 00:06:24,449
haven't really seen but I know around

161
00:06:28,189 --> 00:06:26,460
that time it was a hotbed you heard a

162
00:06:31,370 --> 00:06:28,199
lot of neutrino talk back then and now

163
00:06:33,410 --> 00:06:31,380

it just went like code dead like

164

00:06:35,690 --> 00:06:33,420

word on it and the reason is is likely

165

00:06:37,670 --> 00:06:35,700

you know they hornist it they got scared

166

00:06:40,520 --> 00:06:37,680

themselves they said no no no we're not

167

00:06:42,800 --> 00:06:40,530

gonna do anymore yeah it's not healthy

168

00:06:46,310 --> 00:06:42,810

so anyway coming back to the present

169

00:06:51,490 --> 00:06:46,320

time you asked what happened so I was at

170

00:06:56,090 --> 00:06:51,500

work doing work down in near Calistoga

171

00:06:57,290 --> 00:06:56,100

about mmm May last year they call me

172

00:07:00,050 --> 00:06:57,300

absent-minded professor so I was a

173

00:07:03,140 --> 00:07:00,060

little kid from a last year I was doing

174

00:07:05,840 --> 00:07:03,150

some work at one of my companies and

175

00:07:09,140 --> 00:07:05,850

then I was just driving home and I got

176

00:07:12,140 --> 00:07:09,150

home I think at 8:45 maybe later they

177

00:07:16,670 --> 00:07:12,150

know is I think it was 9:45 9:45 anyway

178

00:07:19,750 --> 00:07:16,680

um sometime around 7:30 and 8:00 my

179

00:07:21,680 --> 00:07:19,760

daughter who's 12 and kung-fu

180

00:07:24,080 --> 00:07:21,690

spending a couple of movies that won't

181

00:07:27,560 --> 00:07:24,090

names pretty hilarious she's very smart

182

00:07:29,780 --> 00:07:27,570

very intimate and in my wife who's who's

183

00:07:30,860 --> 00:07:29,790

Asian and extremely conservative you

184

00:07:33,470 --> 00:07:30,870

know doesn't leave any of this weird

185

00:07:37,640 --> 00:07:33,480

crap whatsoever no matter what and in

186

00:07:39,290 --> 00:07:37,650

her mom Lola was very sweet I was like

187

00:07:42,650 --> 00:07:39,300

banging on a tee and my son

188

00:07:43,790 --> 00:07:42,660

John he's like well he's yeah 3 he's

189

00:07:45,680 --> 00:07:43,800

running around a house there doing her

190

00:07:48,110 --> 00:07:45,690

own thing and my daughter's friend is

191

00:07:50,780 --> 00:07:48,120

visiting our house we're sitting in the

192

00:07:52,610 --> 00:07:50,790

living room watching TV mining our own

193

00:07:55,910 --> 00:07:52,620

business well their own business yeah

194

00:07:57,890 --> 00:07:55,920

and then she said a giant explosion

195

00:07:59,780 --> 00:07:57,900

sound and they play video games

196

00:08:01,790 --> 00:07:59,790

constantly unlike anything they've ever

197

00:08:03,980 --> 00:08:01,800

heard on this earth happened the

198

00:08:06,230 --> 00:08:03,990

metallic weird shrieking scream sound

199

00:08:09,680 --> 00:08:06,240

explosion shook the entire house and

200

00:08:11,630 --> 00:08:09,690

they saw a green or glowing so bright

201

00:08:13,340 --> 00:08:11,640

they could not look at it two feet in

202

00:08:15,680 --> 00:08:13,350

diameter come right up to the window of

203

00:08:17,150 --> 00:08:15,690

the living room right behind them she

204

00:08:19,130 --> 00:08:17,160

turned blue you guys doing what you guys

205

00:08:20,750 --> 00:08:19,140

watching yeah well she turned and looked

206

00:08:22,160 --> 00:08:20,760

at it I'm trying to recall exactly what

207

00:08:24,320 --> 00:08:22,170

happened yeah so I don't miss anything

208

00:08:26,780 --> 00:08:24,330

right is she turned and looked at at the

209

00:08:30,110 --> 00:08:26,790

corner of eyes she said and that green

210

00:08:31,880 --> 00:08:30,120

ball swooped around the east side of the

211

00:08:34,700 --> 00:08:31,890

house which was our your our main yard

212

00:08:36,830 --> 00:08:34,710

and and that side was out one of our

213

00:08:38,839 --> 00:08:36,840

bedroom was on our master bedroom which

214

00:08:44,309 --> 00:08:38,849

was the window and my wife was napping

215

00:08:46,710 --> 00:08:44,319

inside that room and so meanwhile

216

00:08:48,960 --> 00:08:46,720

my wife says she was laying in bed at

217

00:08:51,840 --> 00:08:48,970

that moment my son was laying on the

218

00:08:55,650 --> 00:08:51,850

side of her he saw it and run screaming

219

00:08:58,439 --> 00:08:55,660

out of the room and then it changed and

220

00:09:00,720 --> 00:08:58,449

it the one she saw one came and I was

221

00:09:02,550 --> 00:09:00,730

eight feet in diameter a flat machine

222

00:09:04,829 --> 00:09:02,560

she said it was a machine and heard the

223

00:09:06,480 --> 00:09:04,839

same explosion sound maybe a different

224

00:09:09,420 --> 00:09:06,490

one and it comes up against the window

225

00:09:11,100 --> 00:09:09,430

begins to change colors and she says and

226

00:09:11,910 --> 00:09:11,110

remembers she's like does not leave any

227

00:09:14,699 --> 00:09:11,920

of this crap

228

00:09:16,050 --> 00:09:14,709

yeah she says it was talking to her and

229

00:09:17,670 --> 00:09:16,060

it was telling her the future and she

230

00:09:19,769 --> 00:09:17,680

had nightmares odd destruction of the

231

00:09:21,780 --> 00:09:19,779

earth for the next two weeks which was

232

00:09:23,939 --> 00:09:21,790

very unlike her I might add she's a wee

233

00:09:25,319 --> 00:09:23,949

conservative yeah so that that's a side

234

00:09:26,850 --> 00:09:25,329

story but the main thing was like wow

235

00:09:29,910 --> 00:09:26,860

she she don't believe in any of this

236

00:09:32,759 --> 00:09:29,920

crap and here she is saw this so

237

00:09:35,960 --> 00:09:32,769

meanwhile angel runs from the living

238

00:09:37,889 --> 00:09:35,970

room into her bedroom to check on Beth

239

00:09:39,689 --> 00:09:37,899

Jean Johnson

240

00:09:41,129 --> 00:09:39,699

apparently already back in the room

241

00:09:46,730 --> 00:09:41,139

laying on the side of him so the

242

00:09:51,780 --> 00:09:49,650

she says everything okay it's left and

243

00:09:53,460 --> 00:09:51,790

it made an explosion sound and went

244

00:09:56,579 --> 00:09:53,470

straight up into the sky the whole

245

00:09:58,530 --> 00:09:56,589

machine whatever it was meanwhile my

246

00:10:01,019 --> 00:09:58,540

daughter's best friend is still sitting

247

00:10:03,869 --> 00:10:01,029

in the living room she says eighty green

248

00:10:06,749 --> 00:10:03,879

glowing tea shape came down like a

249

00:10:08,249 --> 00:10:06,759

century and began pacing six feet right

250

00:10:10,920 --> 00:10:08,259

in front of the entire house back and

251
00:10:13,379 --> 00:10:10,930
forth over the sidewalk and they're

252
00:10:14,610 --> 00:10:13,389
still lighted and before any of this

253
00:10:17,519 --> 00:10:14,620
happened I'm trying to get in the right

254
00:10:19,769 --> 00:10:17,529
order all the street lights went off for

255
00:10:21,210 --> 00:10:19,779
three blocks we know that because our

256
00:10:24,329 --> 00:10:21,220
friends of three walks away and there's

257
00:10:25,619 --> 00:10:24,339
went off too and then later on when

258
00:10:27,420 --> 00:10:25,629
those lights would come back on they

259
00:10:29,280 --> 00:10:27,430
said lightning bolts were shooting out

260
00:10:31,079 --> 00:10:29,290
of all the street lamps those were brand

261
00:10:33,090 --> 00:10:31,089
new street lamps and three were

262
00:10:35,100 --> 00:10:33,100
permanently broken so the city had to

263
00:10:38,639 --> 00:10:35,110

actually come and change them sucker now

264

00:10:40,860 --> 00:10:38,649

the real insult to this graph was it's

265

00:10:43,290 --> 00:10:40,870

really made me mad is it shaved off the

266

00:10:47,999 --> 00:10:43,300

top of my beautiful antique fence poles

267

00:10:53,129 --> 00:10:48,009

it's been there since 1915 and et owes

268

00:10:55,430 --> 00:10:53,139

me a really big amount of money yeah

269

00:10:58,850 --> 00:10:55,440

I'm still waiting for my check

270

00:11:00,019 --> 00:10:58,860

okay yeah rusty no maybe maybe he'll

271

00:11:02,119 --> 00:11:00,029

send it to you in the future

272

00:11:06,170 --> 00:11:02,129

yeah because I'll give my address and he

273

00:11:08,509 --> 00:11:06,180

can mail it MasterCard Visa I'm cool

274

00:11:11,210 --> 00:11:08,519

what everyone's do so anyway all this

275

00:11:13,210 --> 00:11:11,220

crap went down and more scared the

276
00:11:16,759 --> 00:11:13,220
absolute daylights out of everybody and

277
00:11:17,960 --> 00:11:16,769
when I got home the house is dark all

278
00:11:20,030 --> 00:11:17,970
the lights were off in front of the

279
00:11:22,100 --> 00:11:20,040
house and I go to the kitchen

280
00:11:24,350 --> 00:11:22,110
everybody's just whispering in the Galil

281
00:11:26,689 --> 00:11:24,360
really low I'm like hey what's up yeah

282
00:11:30,410 --> 00:11:26,699
and my wife's like something has

283
00:11:33,439 --> 00:11:30,420
happened and they're like freaked out

284
00:11:35,480 --> 00:11:33,449
beyond imagination and other I'm not

285
00:11:37,550 --> 00:11:35,490
catching everything that happened but a

286
00:11:38,990 --> 00:11:37,560
lot went down these people weren't

287
00:11:40,249 --> 00:11:39,000
easily scared they don't believe in

288
00:11:42,590 --> 00:11:40,259

superstitious crap

289

00:11:44,540 --> 00:11:42,600

none of that yeah to see them sitting in

290

00:11:46,040 --> 00:11:44,550

the back doing this with dead itself was

291

00:11:48,170 --> 00:11:46,050

shocking but what they described to me

292

00:11:50,329 --> 00:11:48,180

was really crazy right they saw these

293

00:11:52,040 --> 00:11:50,339

things up close and she was like well

294

00:11:54,079 --> 00:11:52,050

it's shot on a beam and was scanning us

295

00:11:56,179 --> 00:11:54,089

from behind we think I mean it's like

296

00:11:59,030 --> 00:11:56,189

the secrets of events doesn't make sense

297

00:12:01,189 --> 00:11:59,040

it looked like time stopped for maybe an

298

00:12:03,230 --> 00:12:01,199

hour and half of that house so from the

299

00:12:04,879 --> 00:12:03,240

time she she left that spot in the

300

00:12:06,920 --> 00:12:04,889

living room to the time she got to my

301

00:12:10,069 --> 00:12:06,930

wife's room apparently an hour and a

302

00:12:12,259 --> 00:12:10,079

half had trivet had passed some so some

303

00:12:13,999 --> 00:12:12,269

missing time is also involved big Chuck

304

00:12:16,189 --> 00:12:14,009

and the daylight was still kind of their

305

00:12:19,340 --> 00:12:16,199

dawning so kind of going down it was

306

00:12:20,509 --> 00:12:19,350

like daylight and I'm just driving so

307

00:12:22,879 --> 00:12:20,519

they're telling me all this crap and

308

00:12:24,530 --> 00:12:22,889

believe it or not I'm working hard it's

309

00:12:26,360 --> 00:12:24,540

California is expensive and I forget

310

00:12:29,300 --> 00:12:26,370

about the whole damn thing I don't care

311

00:12:33,350 --> 00:12:29,310

okay cuz it's hot it I work a lot yeah

312

00:12:34,249 --> 00:12:33,360

so now fast-forward and I'm trying to

313

00:12:38,569 --> 00:12:34,259

remember the month because I'm very

314

00:12:42,559 --> 00:12:38,579

forgetful I think it was October I had a

315

00:12:45,259 --> 00:12:42,569

Chinese security cam robot really

316

00:12:47,210 --> 00:12:45,269

advanced I put inside the house so I

317

00:12:48,620 --> 00:12:47,220

could watch the kids scream at them when

318

00:12:51,559 --> 00:12:48,630

they're not doing their homework it's

319

00:12:55,249 --> 00:12:51,569

beautiful it makes like this thunderous

320

00:12:56,780 --> 00:12:55,259

voice when I speak close to it like I

321

00:13:00,170 --> 00:12:56,790

get a lot of homework done with this

322

00:13:02,240 --> 00:13:00,180

little robot I love it so like like no

323

00:13:03,799 --> 00:13:02,250

she does not know all the animes that

324

00:13:06,319 --> 00:13:03,809

much anymore and it's to thank that

325

00:13:08,720 --> 00:13:06,329

Chinese little robot camera but the

326

00:13:13,340 --> 00:13:08,730

point is is it has

327

00:13:15,170 --> 00:13:13,350

on it and it was motion detection at

328

00:13:18,829 --> 00:13:15,180

certain hours whatever it just goes into

329

00:13:20,750 --> 00:13:18,839

this mode and it would kept going off so

330

00:13:23,540 --> 00:13:20,760

all year they've been going on yeah and

331

00:13:25,220 --> 00:13:23,550

I realized it's broken I gotta throw it

332

00:13:28,250 --> 00:13:25,230

away and I started tinkering when I

333

00:13:30,710 --> 00:13:28,260

realized first of all it's in a it goes

334

00:13:33,170 --> 00:13:30,720

it's been going into a mode I didn't

335

00:13:35,629 --> 00:13:33,180

know it had infrared oh no one had

336

00:13:37,400 --> 00:13:35,639

infrared interesting and so I was like

337

00:13:39,019 --> 00:13:37,410

wow this is crazy let me let me hold

338

00:13:40,730 --> 00:13:39,029

this up in the room here it was dark

339

00:13:44,660 --> 00:13:40,740

that night and I'm gonna hold this and

340

00:13:47,269 --> 00:13:44,670

I'm gonna see if it's working right mmm

341

00:13:49,430 --> 00:13:47,279

so I pass it around the room and ancient

342

00:13:51,980 --> 00:13:49,440

was sleeping on the sofa and above her

343

00:13:54,110 --> 00:13:51,990

was the coolest icons that the Chinese

344

00:13:55,759 --> 00:13:54,120

cam had generated it was like those

345

00:13:58,009 --> 00:13:55,769

football game little 3d things they

346

00:14:00,259 --> 00:13:58,019

insert and it was like these little orb

347

00:14:02,090 --> 00:14:00,269

like lights were circling over in a

348

00:14:03,680 --> 00:14:02,100

figure eight it was beautiful perfectly

349

00:14:05,750 --> 00:14:03,690

just like a video game it's like this is

350

00:14:08,480 --> 00:14:05,760

incredible like an augment into reality

351
00:14:12,199 --> 00:14:08,490
it's making augmented reality and then I

352
00:14:15,559 --> 00:14:12,209
realized a few minutes later this camera

353
00:14:17,900 --> 00:14:15,569
doesn't have a minute reality that these

354
00:14:20,750 --> 00:14:17,910
little things are actually doing a

355
00:14:25,730 --> 00:14:20,760
figure eight over my daughter not good

356
00:14:28,519 --> 00:14:25,740
and so I sat in the room almost half the

357
00:14:30,559 --> 00:14:28,529
night watching them on the camera and I

358
00:14:32,509 --> 00:14:30,569
realized I could record this and I said

359
00:14:34,639 --> 00:14:32,519
it to HD and I started trying to record

360
00:14:37,129 --> 00:14:34,649
him and they were sentient they would

361
00:14:39,230 --> 00:14:37,139
not allowed and you just get a blur

362
00:14:41,059 --> 00:14:39,240
above them or a little clear thing would

363
00:14:42,290 --> 00:14:41,069

pass that you could barely see then come

364

00:14:43,850 --> 00:14:42,300

up to the camera but you'd see right

365

00:14:46,040 --> 00:14:43,860

through it was kind of weird we saw the

366

00:14:48,050 --> 00:14:46,050

video that you well then I sat down I

367

00:14:50,180 --> 00:14:48,060

guess they were tired it was late night

368

00:14:52,759 --> 00:14:50,190

yeah and I was sitting out I said man

369

00:14:54,559 --> 00:14:52,769

I've taken so many Clips now I can't get

370

00:14:56,750 --> 00:14:54,569

these guys on camera I'm gonna sit here

371

00:14:58,250 --> 00:14:56,760

and raise my hand every time I take a

372

00:14:59,809 --> 00:14:58,260

clip and change my hand so I know which

373

00:15:01,400 --> 00:14:59,819

clip it is I'm taking because there's

374

00:15:03,559 --> 00:15:01,410

nothing else moving in the video that

375

00:15:05,480 --> 00:15:03,569

can identify that segment so I raised my

376

00:15:07,100 --> 00:15:05,490

hand put it down raised man a few times

377

00:15:09,350 --> 00:15:07,110

hit there then I went back and watched

378

00:15:12,949 --> 00:15:09,360

the clip and at the other end of the

379

00:15:13,610 --> 00:15:12,959

room near the camera four to six inches

380

00:15:16,730 --> 00:15:13,620

in diameter

381

00:15:19,639 --> 00:15:16,740

probably more like five inches a little

382

00:15:21,680 --> 00:15:19,649

orb bright like a Sun shot up and

383

00:15:24,050 --> 00:15:21,690

followed my hand right up to the roof

384

00:15:26,570 --> 00:15:24,060

and then it was such a perfect

385

00:15:29,030 --> 00:15:26,580

trajectory the labs that analyze it

386

00:15:31,160 --> 00:15:29,040

later said this is almost impossible how

387

00:15:33,260 --> 00:15:31,170

perfect a trajectory it moves and the

388

00:15:35,930 --> 00:15:33,270

amount of energy just to do the motion

389

00:15:37,970 --> 00:15:35,940

it did was incredible it kept perfect

390

00:15:39,860 --> 00:15:37,980

pace with the speed of my hand almost as

391

00:15:41,560 --> 00:15:39,870

if my hand was telling what to do my

392

00:15:44,660 --> 00:15:41,570

movement it was following was very weird

393

00:15:47,690 --> 00:15:44,670

so what's strange we took a bunch of

394

00:15:50,240 --> 00:15:47,700

clips of it da da da da we saw I thought

395

00:15:52,580 --> 00:15:50,250

was an orb I made a really good joke out

396

00:15:54,890 --> 00:15:52,590

of it it was already incredible just

397

00:15:56,540 --> 00:15:54,900

looking at the film so I text the

398

00:15:58,640 --> 00:15:56,550

version of it all my relatives and said

399

00:16:00,740 --> 00:15:58,650

our mom who had passed away still around

400

00:16:02,750 --> 00:16:00,750

and she's watching all you guys and you

401
00:16:08,150 --> 00:16:02,760
better behave and they cleaned up their

402
00:16:10,940 --> 00:16:08,160
operation real fast but then we sent it

403
00:16:13,910 --> 00:16:10,950
to a lab and they came back and they

404
00:16:15,560 --> 00:16:13,920
said it's not an orb we've scanned it

405
00:16:17,720 --> 00:16:15,570
we've we've got it at much higher

406
00:16:19,640 --> 00:16:17,730
resolution it's a little spacecraft in

407
00:16:21,710 --> 00:16:19,650
your house sir we can see through it we

408
00:16:23,510 --> 00:16:21,720
can see the machinery working in fact

409
00:16:25,130 --> 00:16:23,520
we've identified several materials we

410
00:16:27,590 --> 00:16:25,140
think we can make one I mean that's the

411
00:16:29,450 --> 00:16:27,600
response I got she had already brought

412
00:16:32,540 --> 00:16:29,460
in a communication to the military

413
00:16:35,510 --> 00:16:32,550

I don't even name the major universities

414

00:16:36,950 --> 00:16:35,520

right everybody has jumped on board they

415

00:16:38,810 --> 00:16:36,960

offered me a substantial amount of money

416

00:16:40,910 --> 00:16:38,820

for this footage and not to release any

417

00:16:44,480 --> 00:16:40,920

to the public and I said the beautiful

418

00:16:47,210 --> 00:16:44,490

words that I the capitalism II never

419

00:16:48,530 --> 00:16:47,220

thought I would hear which is no I'm

420

00:16:50,470 --> 00:16:48,540

keeping this for the good of the public

421

00:16:53,270 --> 00:16:50,480

I'm going to let the American people see

422

00:16:55,370 --> 00:16:53,280

this footage and freak the hell out just

423

00:16:56,930 --> 00:16:55,380

like everybody should awesome man

424

00:17:00,530 --> 00:16:56,940

because usually they bury this crap and

425

00:17:03,260 --> 00:17:00,540

they're not yeah so well thanks for not

426

00:17:09,340 --> 00:17:03,270

selling it yeah yeah can you can you

427

00:17:14,689 --> 00:17:09,350

talk about types of metamaterials

428

00:17:18,439 --> 00:17:14,699

embedded with with stuff that's heavier

429

00:17:20,590 --> 00:17:18,449

than uranium hmm interesting it's a

430

00:17:25,300 --> 00:17:20,600

lighter it's a lighter

431

00:17:27,590 --> 00:17:25,310

polymorph glass-like material embedded

432

00:17:30,020 --> 00:17:27,600

with particles heavier than uranium

433

00:17:33,290 --> 00:17:30,030

that's what I'll sell interest and that

434

00:17:34,240 --> 00:17:33,300

in itself is so freaky understand but

435

00:17:36,039 --> 00:17:34,250

anyways

436

00:17:39,399 --> 00:17:36,049

they did some experimentation

437

00:17:42,190 --> 00:17:39,409

calculation on many things about it and

438

00:17:44,919 --> 00:17:42,200

they have already discovered apparently

439

00:17:47,440 --> 00:17:44,929

reams of information and how it actually

440

00:17:50,770 --> 00:17:47,450

functions which is very fascinating yes

441

00:17:52,810 --> 00:17:50,780

this this object there were several and

442

00:17:56,049 --> 00:17:52,820

weird they were different right and we

443

00:17:58,990 --> 00:17:56,059

got 28 clips that time of them within

444

00:18:01,779 --> 00:17:59,000

two days some came right up to the

445

00:18:03,220 --> 00:18:01,789

camera day and they demonstrate these

446

00:18:04,810 --> 00:18:03,230

properties and I thought these were

447

00:18:07,210 --> 00:18:04,820

little balls of light they're not little

448

00:18:09,730 --> 00:18:07,220

balls of light they dropped their masks

449

00:18:11,380 --> 00:18:09,740

whatever they weren't hiding which is

450

00:18:13,810 --> 00:18:11,390

added or maybe they wanted us to see it

451

00:18:15,940 --> 00:18:13,820

they are not hiding they're actually

452

00:18:17,649 --> 00:18:15,950

coming right up and showing you this is

453

00:18:19,390 --> 00:18:17,659

how I work this is what's inside of me

454

00:18:22,899 --> 00:18:19,400

you can see through them it's awesome

455

00:18:24,250 --> 00:18:22,909

Wow moving very fast and we've got them

456

00:18:27,149 --> 00:18:24,260

but that's not the only thing that went

457

00:18:30,039 --> 00:18:27,159

down but that's that's a a big part of

458

00:18:33,580 --> 00:18:30,049

recently what it's going down when when

459

00:18:37,360 --> 00:18:33,590

I was a child at five years old we

460

00:18:41,560 --> 00:18:37,370

originally from Louisiana so I won't

461

00:18:43,450 --> 00:18:41,570

give to me names but my grandma's sister

462

00:18:44,770 --> 00:18:43,460

like we're real people work Asians from

463

00:18:48,340 --> 00:18:44,780

New Iberia Louisiana

464

00:18:50,789 --> 00:18:48,350

my grandma sister because I gotta turn

465

00:18:57,130 --> 00:18:50,799

off my phone here is Beyonce Knowles as

466

00:18:59,049 --> 00:18:57,140

grandma and we've related related to the

467

00:19:00,820 --> 00:18:59,059

Queen to many other people and I won't

468

00:19:02,950 --> 00:19:00,830

name the guy but several football

469

00:19:05,470 --> 00:19:02,960

players you've seen in a national view

470

00:19:07,779 --> 00:19:05,480

they're actually relatives of ours and

471

00:19:10,240 --> 00:19:07,789

then um with my brothers and sisters and

472

00:19:13,270 --> 00:19:10,250

CEOs and executives of major silicon

473

00:19:17,409 --> 00:19:13,280

firms right they probably assassinate me

474

00:19:23,409 --> 00:19:17,419

I was sitting that's a dick don't worry

475

00:19:25,240 --> 00:19:23,419

about Charlie because much inner Cajun

476

00:19:28,690 --> 00:19:25,250

sand we do have live alligators in our

477

00:19:31,539 --> 00:19:28,700

hometown oh yeah so yes so we're not

478

00:19:33,100 --> 00:19:31,549

like I have it you have full convention

479

00:19:35,710 --> 00:19:33,110

types anyway but you're you're

480

00:19:37,570 --> 00:19:35,720

interested in the technology and so when

481

00:19:39,940 --> 00:19:37,580

I was six we lived out by place called

482

00:19:44,750 --> 00:19:39,950

Avery island and we would visit my uncle

483

00:19:53,060 --> 00:19:48,320

I I we we had a family get the other 150

484

00:19:55,820 --> 00:19:53,070

people were in this house and I my job

485

00:19:57,620 --> 00:19:55,830

was to feed the Bulldog patches who was

486

00:20:00,110 --> 00:19:57,630

tied to a tree out back a weeping willow

487

00:20:02,570 --> 00:20:00,120

tree and about a hundred feet behind him

488

00:20:05,120 --> 00:20:02,580

was a couple acres of yard spread out

489

00:20:07,220 --> 00:20:05,130

and then a hundred feet from him going

490

00:20:08,659 --> 00:20:07,230

east was a barbed wire fence I was

491

00:20:11,600 --> 00:20:08,669

electrified on the other side they have

492

00:20:14,900 --> 00:20:11,610

cattle and old antique relic cars the

493

00:20:16,940 --> 00:20:14,910

year is like 1973 okay give you a

494

00:20:20,150 --> 00:20:16,950

perspective yeah how long is oh I was

495

00:20:26,390 --> 00:20:20,160

sick and so um I remember looking up at

496

00:20:28,640 --> 00:20:26,400

the sky and above the fence maybe 200

497

00:20:31,400 --> 00:20:28,650

feet above it oh hey basically a

498

00:20:33,740 --> 00:20:31,410

starship about it maybe 200 feet in

499

00:20:36,950 --> 00:20:33,750

diameter and then starts changing colors

500

00:20:39,980 --> 00:20:36,960

whoa and so I run screaming into the

501
00:20:41,659 --> 00:20:39,990
house nobody believes me he needs

502
00:20:46,850 --> 00:20:41,669
occasions yeah yeah man

503
00:20:48,680 --> 00:20:46,860
eat some crawfish and finally if I know

504
00:20:51,710 --> 00:20:48,690
something's freaky everybody comes

505
00:20:53,990 --> 00:20:51,720
outside it's still there oh my relatives

506
00:20:55,700 --> 00:20:54,000
aunts uncles sisters brothers it's all

507
00:20:56,780 --> 00:20:55,710
standing together yeah and we're

508
00:20:58,340 --> 00:20:56,790
watching this thing starts changing

509
00:21:00,530 --> 00:20:58,350
colors and I remember when I'm looking

510
00:21:03,289 --> 00:21:00,540
at it I saw colors I have never seen

511
00:21:04,520 --> 00:21:03,299
since I saw colors and Lee years later I

512
00:21:07,100 --> 00:21:04,530
realize almost have been seeing higher

513
00:21:08,900 --> 00:21:07,110

than the spectrum yeah frequency that

514

00:21:10,400 --> 00:21:08,910

humans are allowed to see but it I think

515

00:21:12,289 --> 00:21:10,410

it put a lot of messages in my head like

516

00:21:14,480 --> 00:21:12,299

find it which was weird for a

517

00:21:16,460 --> 00:21:14,490

six-year-old and then um what else

518

00:21:20,630 --> 00:21:16,470

happened so yeah I was standing next to

519

00:21:23,419 --> 00:21:20,640

Mike John Selma Teresa Steve all her

520

00:21:27,039 --> 00:21:23,429

other sisters are there and my mom said

521

00:21:29,299 --> 00:21:27,049

she told was holding my hand Mary and

522

00:21:31,010 --> 00:21:29,309

she's very religious he's very

523

00:21:34,760 --> 00:21:31,020

conservative Cajuns were hardcore

524

00:21:37,940 --> 00:21:34,770

Catholics yeah twice a week and this

525

00:21:40,520 --> 00:21:37,950

whole thing wrong family I mean wrong

526

00:21:43,280 --> 00:21:40,530

people wrong Cajun this is so weird

527

00:21:45,260 --> 00:21:43,290

for us to see any of this and anyway

528

00:21:48,919 --> 00:21:45,270

it's take quite a while and the last

529

00:21:50,900 --> 00:21:48,929

thing I remembered was my cousin Daniel

530

00:21:53,899 --> 00:21:50,910

running out of the house to my right

531

00:21:55,909 --> 00:21:53,909

maybe he was 250 feet away came out the

532

00:21:56,710 --> 00:21:55,919

back door with a shotgun a sword blast

533

00:22:00,310 --> 00:21:56,720

now

534

00:22:03,370 --> 00:22:00,320

and then I remember waking up standing

535

00:22:05,860 --> 00:22:03,380

up and we look out and it's flying

536

00:22:10,030 --> 00:22:05,870

straight up into outer space and it was

537

00:22:12,580 --> 00:22:10,040

like five hours later my mom with you

538

00:22:14,020 --> 00:22:12,590

I'm holding my hand just the way she was

539

00:22:15,520 --> 00:22:14,030

but I'm waking up and she's holding my

540

00:22:18,300 --> 00:22:15,530

hand that's what I remember I remember

541

00:22:20,320 --> 00:22:18,310

that yeah and and since that moment

542

00:22:23,290 --> 00:22:20,330

everybody changed my sisters and

543

00:22:25,390 --> 00:22:23,300

brothers began the study like crazy and

544

00:22:27,550 --> 00:22:25,400

had like photographic memories Sarina

545

00:22:31,480 --> 00:22:27,560

became I won't say the University of God

546

00:22:33,850 --> 00:22:31,490

she became the top student in maybe the

547

00:22:35,320 --> 00:22:33,860

top university in the United States and

548

00:22:37,360 --> 00:22:35,330

she became the fastest graduate in

549

00:22:39,850 --> 00:22:37,370

history of that university and got two

550

00:22:40,660 --> 00:22:39,860

degrees at the same time and was taken

551
00:22:43,510 --> 00:22:40,670
to the White House

552
00:22:45,250 --> 00:22:43,520
for just a graduation at university and

553
00:22:47,290 --> 00:22:45,260
then my brother became the top lawyer

554
00:22:49,870 --> 00:22:47,300
from that University the youngest lawyer

555
00:22:52,360 --> 00:22:49,880
in Silicon Valley history that was an

556
00:22:54,010 --> 00:22:52,370
executive at a software firm and then my

557
00:22:56,560 --> 00:22:54,020
brother Steve became a nuclear physicist

558
00:22:58,180 --> 00:22:56,570
for the Navy and like infinite on so

559
00:23:00,130 --> 00:22:58,190
everybody kind of became like it's

560
00:23:04,090 --> 00:23:00,140
goddamn just like Asians in the swamp

561
00:23:06,550 --> 00:23:04,100
yeah everybody became this kind of thing

562
00:23:08,530 --> 00:23:06,560
yeah this energy exploded out of the

563
00:23:11,440 --> 00:23:08,540

whole family yes they're still going

564

00:23:14,290 --> 00:23:11,450

today so it's incredible you guys got a

565

00:23:16,090 --> 00:23:14,300

downloader some kind of like upgrade or

566

00:23:18,280 --> 00:23:16,100

something like that you know my sister

567

00:23:19,870 --> 00:23:18,290

runs like like a multi-billion dollar

568

00:23:21,340 --> 00:23:19,880

hedge fund I mean come on from the

569

00:23:22,930 --> 00:23:21,350

swamps with alligators to there and

570

00:23:25,060 --> 00:23:22,940

she's still running it well and she's

571

00:23:27,070 --> 00:23:25,070

insane I mean so they've achieved things

572

00:23:29,980 --> 00:23:27,080

and I don't know it's because of that

573

00:23:32,260 --> 00:23:29,990

but then yeah a lot changed over the

574

00:23:36,880 --> 00:23:32,270

years so I seen stuff I saw stuff since

575

00:23:38,860 --> 00:23:36,890

then and it's been quite a trip man yeah

576

00:23:40,510 --> 00:23:38,870

it's been quite a trip your story is

577

00:23:44,560 --> 00:23:40,520

awesome so when this thing came to the

578

00:23:47,020 --> 00:23:44,570

house what really really alarmed me was

579

00:23:48,310 --> 00:23:47,030

the changing color thing in the window

580

00:23:50,380 --> 00:23:48,320

my wife told me I never talked about

581

00:23:52,180 --> 00:23:50,390

this stuff and the fact that she got a

582

00:23:54,550 --> 00:23:52,190

message from it this sounded awful

583

00:23:58,990 --> 00:23:54,560

familiar and it came when I wasn't there

584

00:24:01,810 --> 00:23:59,000

yeah so then now I was tripping and I

585

00:24:03,400 --> 00:24:01,820

was like hold SpaghettiOs so I've been

586

00:24:08,170 --> 00:24:03,410

all over the world though and I've seen

587

00:24:09,610 --> 00:24:08,180

um a lot of cool science stuff others

588

00:24:13,149 --> 00:24:09,620

don't get to see

589

00:24:14,890 --> 00:24:13,159

we we filmed the object again and the

590

00:24:17,680 --> 00:24:14,900

most recent stuff and now we're

591

00:24:19,960 --> 00:24:17,690

analyzing a lab and you can compare us

592

00:24:22,419 --> 00:24:19,970

to somebody right the TTS F tutors to

593

00:24:26,590 --> 00:24:22,429

the stars foundation I'm sure they play

594

00:24:29,710 --> 00:24:26,600

good guitar but TTS a most of their most

595

00:24:30,789 --> 00:24:29,720

of their technology is just the military

596

00:24:33,490 --> 00:24:30,799

looking for like the government's

597

00:24:35,169 --> 00:24:33,500

looking for a putz by law if I have

598

00:24:36,940 --> 00:24:35,179

let's say I had anyway technology on the

599

00:24:39,669 --> 00:24:36,950

US government okay which supposedly

600

00:24:41,350 --> 00:24:39,679

doesn't exist but if it did by law I'm

601
00:24:43,480 --> 00:24:41,360
supposed to give it first to hospitals

602
00:24:46,149 --> 00:24:43,490
with the first order of prescient of

603
00:24:47,799 --> 00:24:46,159
need the second one those universities

604
00:24:49,690 --> 00:24:47,809
that work with us was supposed to get

605
00:24:53,019 --> 00:24:49,700
that technology and other universities

606
00:24:55,870 --> 00:24:53,029
ok thirdly then private companies maybe

607
00:24:57,700 --> 00:24:55,880
that do social work and finally students

608
00:24:59,289 --> 00:24:57,710
and us the private citizens are supposed

609
00:25:00,460 --> 00:24:59,299
to be able to bid on that technology

610
00:25:02,169 --> 00:25:00,470
that the government is developed with

611
00:25:04,240 --> 00:25:02,179
your tax dollars right that's not what's

612
00:25:06,399 --> 00:25:04,250
happening they're getting on the golf

613
00:25:07,570 --> 00:25:06,409

course and they're giving their good

614

00:25:10,240 --> 00:25:07,580

time buddies yeah

615

00:25:14,850 --> 00:25:10,250

your tax dollars in the form of whatever

616

00:25:17,440 --> 00:25:14,860

they gave free patents and ESA gets this

617

00:25:19,000 --> 00:25:17,450

stuff it's already they're just looking

618

00:25:20,320 --> 00:25:19,010

for a punch to filter it through to

619

00:25:21,220 --> 00:25:20,330

legitimize the existence there's

620

00:25:24,370 --> 00:25:21,230

something that's not supposed to be

621

00:25:26,169 --> 00:25:24,380

around okay I played guitar and I get

622

00:25:27,940 --> 00:25:26,179

some metamaterials in six months later I

623

00:25:31,360 --> 00:25:27,950

have a contract with the US Army and

624

00:25:34,899 --> 00:25:31,370

funding by Vivaldi capital which is back

625

00:25:36,850 --> 00:25:34,909

to by I think it's coach State Street

626
00:25:39,940 --> 00:25:36,860
State something which has starting one

627
00:25:41,470 --> 00:25:39,950
trillion in assets Wow right and I've

628
00:25:44,680 --> 00:25:41,480
got an army contract and I played guitar

629
00:25:46,659 --> 00:25:44,690
so well it's a putt still looking for a

630
00:25:48,880 --> 00:25:46,669
party the same thing and it sounds

631
00:25:50,320 --> 00:25:48,890
insulting but it's not Bigelow just

632
00:25:53,049 --> 00:25:50,330
putts don't know anything about science

633
00:25:54,610 --> 00:25:53,059
they probably had inflatable alien

634
00:25:57,190 --> 00:25:54,620
technology they attract them somewhere

635
00:25:59,769 --> 00:25:57,200
it inflates it floats it goes around

636
00:26:01,779 --> 00:25:59,779
space it makes a good habitat hey we'll

637
00:26:04,360 --> 00:26:01,789
transfer it through this guy but we're

638
00:26:05,860 --> 00:26:04,370

supposed to be sitting at government

639

00:26:08,200 --> 00:26:05,870

auctions with little paddles in our

640

00:26:10,120 --> 00:26:08,210

little grubby furry hands all of us

641

00:26:11,529 --> 00:26:10,130

bidding on this stuff right and look

642

00:26:14,110 --> 00:26:11,539

nobody's paying attention my little

643

00:26:15,940 --> 00:26:14,120

paddle I'm still waving it and no one

644

00:26:17,500 --> 00:26:15,950

gave me even an opportunity to bid on

645

00:26:20,080 --> 00:26:17,510

this tech so what's going on here so

646

00:26:22,389 --> 00:26:20,090

there you have it yeah so yeah the

647

00:26:23,529 --> 00:26:22,399

pattern yeah so you you spoke about like

648

00:26:25,570 --> 00:26:23,539

okay so what do we do about

649

00:26:28,680 --> 00:26:25,580

this and and you said we we should write

650

00:26:31,960 --> 00:26:28,690

a write-up ability was the idea when

651
00:26:33,940 --> 00:26:31,970
Lorien who I meant I went and saw her at

652
00:26:35,950 --> 00:26:33,950
a MUFON meeting for the first time just

653
00:26:37,450 --> 00:26:35,960
three months ago yeah

654
00:26:38,739 --> 00:26:37,460
and I had to talk to somebody to get

655
00:26:42,009 --> 00:26:38,749
another perspective on what's going on

656
00:26:43,570 --> 00:26:42,019
my on this stuff yeah so it's like look

657
00:26:45,460 --> 00:26:43,580
why did these guys show up why am i

658
00:26:49,299 --> 00:26:45,470
allowed to see this stuff why is what

659
00:26:51,070 --> 00:26:49,309
what I'm just busy trying to do some

660
00:26:54,249 --> 00:26:51,080
career stuff and all this heavy so

661
00:26:56,979 --> 00:26:54,259
Laurie Ann oh so sweet I talked with her

662
00:27:01,299 --> 00:26:56,989
and then she said hey I'm going to storm

663
00:27:03,009 --> 00:27:01,309

area 51 what really that's cool man so I

664

00:27:04,779 --> 00:27:03,019

got on Facebook and I was watching the

665

00:27:07,269 --> 00:27:04,789

whole storm Mary 51 I was kind of upset

666

00:27:09,609 --> 00:27:07,279

I said all of these guys for the first

667

00:27:10,810 --> 00:27:09,619

time in American history do you have a

668

00:27:13,389 --> 00:27:10,820

significant amount of the population

669

00:27:15,580 --> 00:27:13,399

getting together in the UFO issue and

670

00:27:16,930 --> 00:27:15,590

acting together I don't care if you run

671

00:27:18,700 --> 00:27:16,940

through the desert naked or whatever you

672

00:27:21,430 --> 00:27:18,710

turn it at least we're all together in

673

00:27:23,169 --> 00:27:21,440

it and you're realizing we we're US

674

00:27:25,119 --> 00:27:23,179

citizens and we're together on something

675

00:27:27,820 --> 00:27:25,129

and this is an intellectual order not

676

00:27:29,560 --> 00:27:27,830

just fighting for better jobs we're not

677

00:27:31,779 --> 00:27:29,570

just fighting for lower taxes or

678

00:27:33,190 --> 00:27:31,789

retirement or healthcare we're actually

679

00:27:35,169 --> 00:27:33,200

fighting for something for the good of

680

00:27:36,669 --> 00:27:35,179

humankind it's like World War 2 all in

681

00:27:38,529 --> 00:27:36,679

it and it's due to running through the

682

00:27:39,759 --> 00:27:38,539

desert for ridiculous reason and it'll

683

00:27:42,369 --> 00:27:39,769

never happen but it's cool because

684

00:27:43,599 --> 00:27:42,379

they're highlighting maybe Annie so I

685

00:27:45,430 --> 00:27:43,609

was like this is cool

686

00:27:47,229 --> 00:27:45,440

and I was calling Laurie and I couldn't

687

00:27:48,639 --> 00:27:47,239

get to her in the desert so I got on

688

00:27:50,379 --> 00:27:48,649

Facebook and I started like just

689

00:27:51,729 --> 00:27:50,389

watching the Chad and it was ridiculing

690

00:27:53,560 --> 00:27:51,739

the whole thing the people it was like

691

00:27:55,450 --> 00:27:53,570

this Joe gonna sell t-shirts I was just

692

00:27:57,729 --> 00:27:55,460

like really upset so I made like this

693

00:27:59,139 --> 00:27:57,739

thing and it said you know I got a great

694

00:28:00,820 --> 00:27:59,149

deal why don't we just pass a fricking

695

00:28:02,229 --> 00:28:00,830

law cuz I've been the law school okay I

696

00:28:05,289 --> 00:28:02,239

was like why are we just passed a law

697

00:28:09,330 --> 00:28:05,299

that says all technology exude it from

698

00:28:12,009 --> 00:28:09,340

alien craft otherworldly technology

699

00:28:14,019 --> 00:28:12,019

alien biological entities anything

700

00:28:16,899 --> 00:28:14,029

that's unusual will pass a law and the

701
00:28:19,210 --> 00:28:16,909
law will state that all of that stuff

702
00:28:21,940 --> 00:28:19,220
anybody who's made money profit income

703
00:28:24,580 --> 00:28:21,950
any corporation from any of this stuff

704
00:28:26,680 --> 00:28:24,590
will have to succeed rights patents and

705
00:28:27,879 --> 00:28:26,690
intellectual property back to the

706
00:28:29,109 --> 00:28:27,889
government of the United States and the

707
00:28:31,720 --> 00:28:29,119
people of the United States whose

708
00:28:34,210 --> 00:28:31,730
property is going backwards reversible a

709
00:28:36,249 --> 00:28:34,220
hundred years let's just do it so I drew

710
00:28:36,780 --> 00:28:36,259
that up and a whole bunch of people sort

711
00:28:38,820 --> 00:28:36,790
of like

712
00:28:40,020 --> 00:28:38,830
step on it a little bit I said wow they

713
00:28:41,640 --> 00:28:40,030

reacted even though they were talking

714

00:28:43,650 --> 00:28:41,650

about crazy stuff like let's buy

715

00:28:45,300 --> 00:28:43,660

t-shirts and little green alien head

716

00:28:48,750 --> 00:28:45,310

everybody kind of thumbed up that idea

717

00:28:50,010 --> 00:28:48,760

yeah so I came today if one of my dears

718

00:28:51,750 --> 00:28:50,020

was just gonna tell you guys all the

719

00:28:53,460 --> 00:28:51,760

technology I've gotten things that's

720

00:28:54,810 --> 00:28:53,470

happened and I've gathered an incredible

721

00:28:56,970 --> 00:28:54,820

amount of information yeah

722

00:28:58,740 --> 00:28:56,980

with great efficacy very specific

723

00:29:01,230 --> 00:28:58,750

information and data that can teach

724

00:29:02,610 --> 00:29:01,240

people a lot here about their needs and

725

00:29:05,370 --> 00:29:02,620

what they don't understand I think I've

726

00:29:08,040 --> 00:29:05,380

got a lot of answers for people but the

727

00:29:11,070 --> 00:29:08,050

crazy part was people had picked up this

728

00:29:12,840 --> 00:29:11,080

legal idea I was like wow they wait for

729

00:29:14,370 --> 00:29:12,850

it so it's like I came here today and I

730

00:29:16,410 --> 00:29:14,380

mention it at the end of my speech and

731

00:29:18,990 --> 00:29:16,420

I've talked to a couple of senators

732

00:29:20,460 --> 00:29:19,000

quietly and friends of my sister and

733

00:29:22,110 --> 00:29:20,470

politics and stuff and they're kind of

734

00:29:24,120 --> 00:29:22,120

like yeah we'll introduce a bill of

735

00:29:26,970 --> 00:29:24,130

enough people want it and the bill will

736

00:29:29,970 --> 00:29:26,980

simply state and I've got it written out

737

00:29:31,590 --> 00:29:29,980

that yeah all rights to UFO check we

738

00:29:33,540 --> 00:29:31,600

don't care if UFOs are real not we don't

739

00:29:35,220 --> 00:29:33,550

care what we care about is you've made

740

00:29:36,960 --> 00:29:35,230

money off of this and this was public

741

00:29:38,670 --> 00:29:36,970

property that's what a lot of money

742

00:29:39,810 --> 00:29:38,680

you've taken the last hundred years and

743

00:29:42,540 --> 00:29:39,820

all the things you've done all the

744

00:29:44,070 --> 00:29:42,550

Funyuns had whoo party's over man you

745

00:29:45,990 --> 00:29:44,080

got to get cheaper golf clubs next year

746

00:29:48,450 --> 00:29:46,000

guess what you're gonna have to pay back

747

00:29:50,190 --> 00:29:48,460

the trillions of dollars you've taken

748

00:29:51,840 --> 00:29:50,200

from the American people everything you

749

00:29:53,460 --> 00:29:51,850

want to make America great again you

750

00:29:57,150 --> 00:29:53,470

need to elect Trump you need to get you

751
00:29:59,910 --> 00:29:57,160
you have full money back you gonna make

752
00:30:02,910 --> 00:29:59,920
you okay so there you have it so anyway

753
00:30:05,670 --> 00:30:02,920
I'm not saying don't vote for Trump and

754
00:30:07,200 --> 00:30:05,680
do vote for her nothing like that I'm

755
00:30:09,210 --> 00:30:07,210
saying that I think it's a bigger issue

756
00:30:10,590 --> 00:30:09,220
than even a presidential election the

757
00:30:12,210 --> 00:30:10,600
fact that you've got trillions of

758
00:30:13,860 --> 00:30:12,220
dollars of infrastructure in this

759
00:30:16,380 --> 00:30:13,870
country that was taken from the

760
00:30:18,630 --> 00:30:16,390
taxpayers Dole and it was given freely

761
00:30:22,110 --> 00:30:18,640
to corporations under the auspice that

762
00:30:24,480 --> 00:30:22,120
it doesn't exist Wow right so if you try

763
00:30:26,760 --> 00:30:24,490

to pass a bill like this the end result

764

00:30:28,860 --> 00:30:26,770

is incredible it's so easy to do it's so

765

00:30:30,720 --> 00:30:28,870

easy to do you just need maybe a few

766

00:30:32,490 --> 00:30:30,730

thousand people I don't know if you guys

767

00:30:34,110 --> 00:30:32,500

do this the whole nation of UFO

768

00:30:35,070 --> 00:30:34,120

believers gets together you are going to

769

00:30:36,780 --> 00:30:35,080

crash this party

770

00:30:39,210 --> 00:30:36,790

you don't even need to pass a law you

771

00:30:41,280 --> 00:30:39,220

pass the bill the question is who would

772

00:30:43,020 --> 00:30:41,290

oppose it whoever opposes this bill is

773

00:30:46,410 --> 00:30:43,030

admitting it's all real and guess who

774

00:30:48,390 --> 00:30:46,420

steps in the fortune 500 will step in so

775

00:30:50,670 --> 00:30:48,400

now they've answered the call of the

776

00:30:52,830 --> 00:30:50,680

question themselves and now the law

777

00:30:54,270 --> 00:30:52,840

even more urgent to pass because now you

778

00:30:55,800 --> 00:30:54,280

have all the covers in hey we're

779

00:30:58,260 --> 00:30:55,810

involved in it you go wait how are you

780

00:30:59,970 --> 00:30:58,270

and father's aliens so exist UFOs are

781

00:31:01,740 --> 00:30:59,980

ridiculous you guys are idiots

782

00:31:03,480 --> 00:31:01,750

you're just geeks in a desert but wait a

783

00:31:06,270 --> 00:31:03,490

minute by the way oh

784

00:31:08,040 --> 00:31:06,280

the Navy's just admitted or the tic tacs

785

00:31:09,990 --> 00:31:08,050

the real when all this is real but

786

00:31:11,880 --> 00:31:10,000

ignore that ignore the man behind the

787

00:31:13,530 --> 00:31:11,890

curtain and also we're involved in this

788

00:31:15,900 --> 00:31:13,540

lawsuit to stop this bill from passing

789

00:31:18,450 --> 00:31:15,910

we're paying senators off I mean in the

790

00:31:20,340 --> 00:31:18,460

whole nation SEC well if it doesn't

791

00:31:22,080 --> 00:31:20,350

exist why are you fighting this bill

792

00:31:24,000 --> 00:31:22,090

again can you please explain this to me

793

00:31:27,690 --> 00:31:24,010

I'm sure the shareholders of that

794

00:31:31,650 --> 00:31:27,700

company and the SEC wants to know why

795

00:31:33,900 --> 00:31:31,660

they filed in 1942 1956 said their

796

00:31:35,670 --> 00:31:33,910

company's equity was such and such that

797

00:31:38,580 --> 00:31:35,680

they had such an outlook on the stock

798

00:31:40,560 --> 00:31:38,590

market based on what data false data

799

00:31:42,810 --> 00:31:40,570

because they never invented the devices

800

00:31:44,130 --> 00:31:42,820

or came upon and where did they allocate

801
00:31:45,780 --> 00:31:44,140
the money they spent it to develop

802
00:31:48,230 --> 00:31:45,790
devices so there was a lot of crimes

803
00:31:51,120 --> 00:31:48,240
committed to introduce this technology

804
00:31:52,850 --> 00:31:51,130
into our society this goes deep this

805
00:31:55,170 --> 00:31:52,860
goes deep into the core of art our

806
00:31:57,390 --> 00:31:55,180
entire capitalist system this goes so

807
00:32:00,270 --> 00:31:57,400
deep to every corporation so wait you

808
00:32:01,890 --> 00:32:00,280
got this technology so let's go back in

809
00:32:04,380 --> 00:32:01,900
your books how did you come to this

810
00:32:06,330 --> 00:32:04,390
again and so we rolled a lot especially

811
00:32:08,070 --> 00:32:06,340
people with these UFO conventions

812
00:32:09,480 --> 00:32:08,080
they're risking a reputation they're

813
00:32:10,590 --> 00:32:09,490

taking off from word they're doing all

814

00:32:12,150 --> 00:32:10,600

kinds of crap there's been a lot of

815

00:32:13,530 --> 00:32:12,160

money the Sandia's hotel they did

816

00:32:15,000 --> 00:32:13,540

they're bleeding their hearts out to

817

00:32:16,680 --> 00:32:15,010

teach the public there's a higher level

818

00:32:18,450 --> 00:32:16,690

of things they're floating around in my

819

00:32:19,830 --> 00:32:18,460

house right now yeah you have to ask me

820

00:32:22,590 --> 00:32:19,840

about it yeah but here's the thing

821

00:32:24,870 --> 00:32:22,600

they're sacrificing and just yesterday I

822

00:32:27,480 --> 00:32:24,880

spent the whole morning with execs of

823

00:32:31,830 --> 00:32:27,490

Intel and watched him get box launches

824

00:32:33,590 --> 00:32:31,840

with filet mignon and lobsters and 15

825

00:32:37,050 --> 00:32:33,600

boxes they never even touched

826

00:32:38,700 --> 00:32:37,060

they got taught by a management company

827

00:32:40,080 --> 00:32:38,710

I paid five thousand a head to teach

828

00:32:44,010 --> 00:32:40,090

them how to beat up their employees

829

00:32:46,770 --> 00:32:44,020

better than 99% so I watched a 1% get

830

00:32:48,600 --> 00:32:46,780

learn at a convention get fed steak and

831

00:32:50,580 --> 00:32:48,610

lobster to learn how to beat up the 99%

832

00:32:52,140 --> 00:32:50,590

Here I am sitting with the 99%

833

00:32:53,940 --> 00:32:52,150

getting the hell beat out of us for

834

00:32:55,830 --> 00:32:53,950

believing in something that's real so

835

00:32:57,900 --> 00:32:55,840

think about that just think about the 1%

836

00:33:00,360 --> 00:32:57,910

and what this has done in our society

837

00:33:03,400 --> 00:33:00,370

and all of that wealth a big chunk of it

838

00:33:05,950 --> 00:33:03,410

came from your dole apostle

839

00:33:08,950 --> 00:33:05,960

an absolute UFO technology like the crap

840

00:33:11,470 --> 00:33:08,960

floating in my house right now okay this

841

00:33:13,930 --> 00:33:11,480

is very interesting this is a very

842

00:33:16,870 --> 00:33:13,940

insult if you try to pass that bill you

843

00:33:20,200 --> 00:33:16,880

are pushing a marble down an enormous

844

00:33:22,030 --> 00:33:20,210

ski slope and the snows gonna gather and

845

00:33:23,740 --> 00:33:22,040

your afternoon uh 'then you introduced

846

00:33:25,810 --> 00:33:23,750

that bill by the time it hits the bottom

847

00:33:28,780 --> 00:33:25,820

of that mountain it's gonna take out the

848

00:33:31,150 --> 00:33:28,790

mountain that's a lot of snow because

849

00:33:33,640 --> 00:33:31,160

you you how you gonna race them so you

850

00:33:36,010 --> 00:33:33,650

got this Navy thing going on you got T

851

00:33:38,170 --> 00:33:36,020

TSA coming up with patents in six months

852

00:33:39,880 --> 00:33:38,180

on metamaterials and army contracts yeah

853

00:33:42,640 --> 00:33:39,890

you got crazy stuff going on it's not a

854

00:33:45,130 --> 00:33:42,650

common for still to this day yeah this

855

00:33:47,350 --> 00:33:45,140

is real man yeah and the money's real

856

00:33:50,200 --> 00:33:47,360

yeah let me say something more rumen you

857

00:33:52,360 --> 00:33:50,210

own a Leone Israel you know like yeah

858

00:33:54,460 --> 00:33:52,370

root of really anything important you're

859

00:33:57,070 --> 00:33:54,470

always gonna find where the money's

860

00:34:01,990 --> 00:33:57,080

going and where is it coming from money

861

00:34:03,490 --> 00:34:02,000

oh yeah so I calculated I'm trying to

862

00:34:05,590 --> 00:34:03,500

still recalculate so I don't think it's

863

00:34:08,890 --> 00:34:05,600

it's but I calculated things that

864

00:34:13,330 --> 00:34:08,900

probably came from these type of

865

00:34:15,490 --> 00:34:13,340

technologies and I've estimated globally

866

00:34:18,570 --> 00:34:15,500

and it's gonna sound crazy but it's not

867

00:34:23,830 --> 00:34:18,580

I've done some pretty good numbers um

868

00:34:25,510 --> 00:34:23,840

possibly 380 mil trillion in wealth 380

869

00:34:29,080 --> 00:34:25,520

trillion in wealth has been generated

870

00:34:30,940 --> 00:34:29,090

since the 1940s from UFO technology Wow

871

00:34:34,120 --> 00:34:30,950

so we're talking about a lot of money

872

00:34:37,380 --> 00:34:34,130

owed yeah yeah you know look I'll take a

873

00:34:43,000 --> 00:34:37,390

discount I'll take what hey you know

874

00:34:47,260 --> 00:34:43,010

nice bike a new cell phone no I'll give

875

00:34:50,620 --> 00:34:47,270

you guys I'll give the fortune 500 a

876

00:34:53,560 --> 00:34:50,630

coupon program like the IRS digital

877

00:34:55,000 --> 00:34:53,570

coupons they can pay in installments and

878

00:34:58,810 --> 00:34:55,010

she's free yeah

879

00:35:01,120 --> 00:34:58,820

the 300 and so trillion dollars that

880

00:35:03,640 --> 00:35:01,130

they owe the US people plus interest

881

00:35:05,920 --> 00:35:03,650

don't forget the interest compounded so

882

00:35:07,900 --> 00:35:05,930

they owe a lot yes whole civilization

883

00:35:09,910 --> 00:35:07,910

may have been built on a force a lark

884

00:35:11,650 --> 00:35:09,920

and in fact that would mean and I'm not

885

00:35:14,140 --> 00:35:11,660

a socialist capitalism was built on a

886

00:35:16,250 --> 00:35:14,150

lark wasn't it so if the machinery that

887

00:35:18,859 --> 00:35:16,260

creates our form of capitalism

888

00:35:21,380 --> 00:35:18,869

in our system was built on the lore of

889

00:35:23,120 --> 00:35:21,390

another civilizations technology that

890

00:35:25,400 --> 00:35:23,130

means that they're probably socialized

891

00:35:27,740 --> 00:35:25,410

system created everything we're selling

892

00:35:29,210 --> 00:35:27,750

and that's really cold man so if those

893

00:35:30,589 --> 00:35:29,220

aliens ever walk into my house I'm

894

00:35:37,480 --> 00:35:30,599

drinking a beer with him we're gonna

895

00:35:39,290 --> 00:35:37,490

discuss this in great detail because a

896

00:35:42,050 --> 00:35:39,300

lot to think about

897

00:35:44,660 --> 00:35:42,060

I thought that you'd shoot down on yeah

898

00:35:46,910 --> 00:35:44,670

and oh we're sitting here you know and

899

00:35:48,109 --> 00:35:46,920

right between biotech goats the largest

900

00:35:50,540 --> 00:35:48,119

biotech industry in the world and

901
00:35:51,859 --> 00:35:50,550
Silicon Valley and while we're having

902
00:35:53,780 --> 00:35:51,869
this conversation trillions of dollars

903
00:35:56,540 --> 00:35:53,790
of wealth is still being created was the

904
00:35:58,160 --> 00:35:56,550
root of those even mathematical

905
00:36:00,589 --> 00:35:58,170
equations of fractals and compression

906
00:36:02,480 --> 00:36:00,599
even AI intelligence is this being

907
00:36:04,130 --> 00:36:02,490
extracted from this alien technology now

908
00:36:09,770 --> 00:36:04,140
here's a here's the next funny story

909
00:36:12,470 --> 00:36:09,780
it's cute so I was dealing with a

910
00:36:19,329 --> 00:36:12,480
consulting job and I was kind of on a

911
00:36:21,470 --> 00:36:19,339
tour with high up super high tech

912
00:36:23,690 --> 00:36:21,480
contracted companies working with the US

913
00:36:26,960 --> 00:36:23,700

government we actually went through some

914

00:36:30,710 --> 00:36:26,970

of the top universities and accompanying

915

00:36:33,770 --> 00:36:30,720

us was about 15 or 16 higher military

916

00:36:38,210 --> 00:36:33,780

officers some in uniform and we did this

917

00:36:40,880 --> 00:36:38,220

for three days several years ago and so

918

00:36:43,460 --> 00:36:40,890

at one evening we're traveling and

919

00:36:45,559 --> 00:36:43,470

everybody got to drink it I think too

920

00:36:47,900 --> 00:36:45,569

much and since I don't drink that's as

921

00:36:49,910 --> 00:36:47,910

clear advantage in that situation yeah

922

00:36:52,400 --> 00:36:49,920

so I turned that his dude who'd we'd

923

00:36:55,460 --> 00:36:52,410

been friends now and been chatting up so

924

00:36:56,630 --> 00:36:55,470

much older than me um I said man what do

925

00:36:58,250 --> 00:36:56,640

you think you know did you ever see

926

00:36:59,960 --> 00:36:58,260

anything really weird and way out and

927

00:37:02,329 --> 00:36:59,970

the work you're doing cuz he was telling

928

00:37:04,040 --> 00:37:02,339

me the facilities he works at Nate they

929

00:37:09,290 --> 00:37:04,050

do their job he's got like 200 employees

930

00:37:11,540 --> 00:37:09,300

he says yeah yep yep it's right there we

931

00:37:13,670 --> 00:37:11,550

got about several thousand of them and

932

00:37:14,930 --> 00:37:13,680

we had to drill through these chambers

933

00:37:16,280 --> 00:37:14,940

and I want to say what they were putting

934

00:37:18,170 --> 00:37:16,290

in and put something in those chambers

935

00:37:20,240 --> 00:37:18,180

and run it through and they were we were

936

00:37:23,120 --> 00:37:20,250

ordered to reseal it but in every

937

00:37:26,990 --> 00:37:23,130

chamber they had put apparently each

938

00:37:28,460 --> 00:37:27,000

craft or each artifact in these deep

939

00:37:29,690 --> 00:37:28,470

underground chambers I know where the

940

00:37:30,799 --> 00:37:29,700

facility is yeah

941

00:37:32,329 --> 00:37:30,809

and I know where they were doing the

942

00:37:34,579 --> 00:37:32,339

drilling and I saw the drilling

943

00:37:35,930 --> 00:37:34,589

equipment and we we drilled through and

944

00:37:37,970 --> 00:37:35,940

we had three cylinders we were laying

945

00:37:39,559 --> 00:37:37,980

this stuff and and we didn't know what

946

00:37:41,930 --> 00:37:39,569

was sayin tell us air but it's need to

947

00:37:43,339 --> 00:37:41,940

know we just saw it got scared some of

948

00:37:45,380 --> 00:37:43,349

our employees but everybody just kept

949

00:37:47,000 --> 00:37:45,390

working we went right through it my

950

00:37:49,579 --> 00:37:47,010

money was made out of granite right

951
00:37:53,210 --> 00:37:49,589
these chambers granite chambers and and

952
00:37:55,160 --> 00:37:53,220
there were he said in glass cases they

953
00:37:56,930 --> 00:37:55,170
were they were like just like the Louise

954
00:38:00,589 --> 00:37:56,940
there were some biological entities up

955
00:38:03,079 --> 00:38:00,599
in there and all the way who like in a

956
00:38:04,430 --> 00:38:03,089
glass - you know like tanks he said

957
00:38:06,589 --> 00:38:04,440
there were tanks and some were like

958
00:38:08,539 --> 00:38:06,599
steel tanks and stuff there was stuff in

959
00:38:10,460 --> 00:38:08,549
the tanks there's all kind of stuff

960
00:38:12,140 --> 00:38:10,470
but it's just buried it's like forgotten

961
00:38:14,150 --> 00:38:12,150
and left and what they do is they put in

962
00:38:16,880 --> 00:38:14,160
in these chambers and it goes deep and

963
00:38:18,770 --> 00:38:16,890

far 30 stories down and he says it goes

964

00:38:20,870 --> 00:38:18,780

on forever and every time they get one

965

00:38:22,880 --> 00:38:20,880

they just put it in there and and

966

00:38:26,210 --> 00:38:22,890

closing them on up that's their solution

967

00:38:27,920 --> 00:38:26,220

the other things they do I knew was they

968

00:38:30,079 --> 00:38:27,930

would take this stuff out in the 50s and

969

00:38:31,640 --> 00:38:30,089

60s to the desert and try to test them

970

00:38:34,039 --> 00:38:31,650

when they thought they'd have a military

971

00:38:35,750 --> 00:38:34,049

usage of it you end up blowing it up I

972

00:38:37,700 --> 00:38:35,760

said they blew up all these priceless

973

00:38:40,160 --> 00:38:37,710

artifacts and technology that we could

974

00:38:42,349 --> 00:38:40,170

have used because as I said before it's

975

00:38:43,819 --> 00:38:42,359

no slight but most military scientists

976

00:38:47,150 --> 00:38:43,829

are just wants there are people who

977

00:38:48,980 --> 00:38:47,160

could make billions or millions at a

978

00:38:50,539 --> 00:38:48,990

private corporation so they got the

979

00:38:52,640 --> 00:38:50,549

garbage sciences pretty much in the

980

00:38:55,549 --> 00:38:52,650

military you know we're already crashing

981

00:38:57,380 --> 00:38:55,559

jets and crap yeah what what it really

982

00:38:59,030 --> 00:38:57,390

is your garbage scientists end up

983

00:39:00,380 --> 00:38:59,040

spending trillions of dollars on

984

00:39:01,789 --> 00:39:00,390

weaponry and they're not the best

985

00:39:03,349 --> 00:39:01,799

scientists best scientists sitting there

986

00:39:04,700 --> 00:39:03,359

CEOs of companies they don't care about

987

00:39:07,099 --> 00:39:04,710

that crap we just want to make some

988

00:39:09,349 --> 00:39:07,109

serious money and they do that Society

989

00:39:11,150 --> 00:39:09,359

so second-tier scientists are blown up

990

00:39:13,730 --> 00:39:11,160

the most valuable relics in the history

991

00:39:15,400 --> 00:39:13,740

of humankind lovely and they're doing it

992

00:39:17,900 --> 00:39:15,410

under our watch right well you know

993

00:39:20,420 --> 00:39:17,910

thank God they put a bunch of it in

994

00:39:23,240 --> 00:39:20,430

these places that this guy's described

995

00:39:26,510 --> 00:39:23,250

to me and took me near and and I mean

996

00:39:28,180 --> 00:39:26,520

this is a real important people that are

997

00:39:31,819 --> 00:39:28,190

like reality not some fictitious

998

00:39:33,680 --> 00:39:31,829

abstract dream of UFO ology talks like

999

00:39:35,329 --> 00:39:33,690

whoa and I didn't really want to mention

1000

00:39:37,069 --> 00:39:35,339

this today but I think it's it's

1001

00:39:38,359 --> 00:39:37,079

important to mention it it's important

1002

00:39:40,339 --> 00:39:38,369

to mention I know where this stuff is

1003

00:39:41,809 --> 00:39:40,349

and I know exactly where it's located

1004

00:39:42,840 --> 00:39:41,819

yeah he got thousands of them they got

1005

00:39:44,250 --> 00:39:42,850

thousands of ships it

1006

00:39:46,050 --> 00:39:44,260

down there it's important to let the

1007

00:39:47,910 --> 00:39:46,060

public notice because nobody else will

1008

00:39:49,890 --> 00:39:47,920

and everybody talks in these ridiculous

1009

00:39:52,320 --> 00:39:49,900

riddles in this industry yeah it's a

1010

00:39:53,730 --> 00:39:52,330

joke so I want to be very direct and

1011

00:39:55,860 --> 00:39:53,740

tell you what I know and where I know

1012

00:39:58,020 --> 00:39:55,870

it's a hotel you know that but I know

1013

00:40:01,950 --> 00:39:58,030

where it's at yeah and these people who

1014

00:40:04,230 --> 00:40:01,960

trusted me to kind of like be a bro but

1015

00:40:06,870 --> 00:40:04,240

I was like wow this is better than TTS a

1016

00:40:08,760 --> 00:40:06,880

with all their weird talk and experience

1017

00:40:10,350 --> 00:40:08,770

and taking your capital from Varis and

1018

00:40:11,940 --> 00:40:10,360

we got thirty million we blew in six

1019

00:40:13,710 --> 00:40:11,950

months we don't know what on yeah I

1020

00:40:15,510 --> 00:40:13,720

haven't been hated on I haven't made a

1021

00:40:17,160 --> 00:40:15,520

dime why would I even mention it and I

1022

00:40:18,540 --> 00:40:17,170

know if my brothers sisters were to find

1023

00:40:20,310 --> 00:40:18,550

out I'll probably be dead they'll

1024

00:40:22,140 --> 00:40:20,320

probably bury me and grant it right

1025

00:40:26,010 --> 00:40:22,150

alongside them so you have to worry

1026

00:40:27,900 --> 00:40:26,020

about nothing okay so I'm saying this

1027

00:40:29,400 --> 00:40:27,910

today cuz I really want to help and I

1028

00:40:31,410 --> 00:40:29,410

really think we need to pass that bill I

1029

00:40:33,150 --> 00:40:31,420

really think everybody in UFO get the

1030

00:40:34,950 --> 00:40:33,160

Gary kick some serious ass you don't run

1031

00:40:36,810 --> 00:40:34,960

through a desert naked run the Congress

1032

00:40:38,010 --> 00:40:36,820

and pass its damn bill and get together

1033

00:40:39,690 --> 00:40:38,020

with that damn bill and kick some butt

1034

00:40:42,120 --> 00:40:39,700

and I guarantee you you want to take on

1035

00:40:43,860 --> 00:40:42,130

the fortune 500 you want to change the

1036

00:40:45,330 --> 00:40:43,870

world today you don't need to do nothing

1037

00:40:47,940 --> 00:40:45,340

would pass that bill you're gonna see

1038

00:40:49,890 --> 00:40:47,950

everything going to automatic everything

1039

00:40:51,780 --> 00:40:49,900

isn't gonna automatic you have to wait

1040

00:40:54,540 --> 00:40:51,790

for nothing during the actual movie

1041

00:40:57,660 --> 00:40:54,550

visceral and vicious it'll be beautiful

1042

00:41:08,940 --> 00:40:57,670

it's a Mona Lisa you know this was

1043

00:41:11,760 --> 00:41:08,950

beautiful man yeah I want to do a longer

1044

00:41:19,830 --> 00:41:11,770

a longer podcast you could do like a

1045

00:41:22,050 --> 00:41:19,840

call in or something hope you guys enjoy

1046

00:41:23,730 --> 00:41:22,060

that man and we'll catch up with y'all
