DEVIL'S DEN
A TRUE STORY
TERRY LORRAINE
INCIDENT 11
DEVIL'S DEN

1
00:00:00,100 --> 00:00:08,310

[Music]

2
00:00:12,470 --> 00:00:10,390
with the apex of the triangle

3
00:00:14,230 --> 00:00:12,480
go down and then come back around so

4
00:00:16,150 --> 00:00:14,240
we'd see two lights and then

5
00:00:17,269 --> 00:00:16,160
three lights and then see it come swing

6
00:00:20,790 --> 00:00:17,279
back up

7
00:00:22,230 --> 00:00:20,800
and um i remember having the feeling

8
00:00:24,310 --> 00:00:22,240
you know this thing's moving with

9
00:00:27,509 --> 00:00:24,320
purpose this thing isn't just tumbling

10
00:00:30,390 --> 00:00:27,519
through the sky yeah and i don't know

11
00:00:31,990 --> 00:00:30,400
where that came from but and then once

12
00:00:32,950 --> 00:00:32,000
it reached the ceiling it started to

13
00:00:35,190 --> 00:00:32,960

descend

14

00:00:38,069 --> 00:00:35,200

um it was pretty obvious it was cut it

15

00:00:41,750 --> 00:00:38,079

was headed in our direction

16

00:00:42,470 --> 00:00:41,760

oh man what are these guys got bigger

17

00:00:45,270 --> 00:00:42,480

and bigger

18

00:00:47,029 --> 00:00:45,280

and you know they're very little

19

00:00:49,029 --> 00:00:47,039

conversation between the two of us while

20

00:00:50,310 --> 00:00:49,039

we're watching this thing

21

00:00:52,069 --> 00:00:50,320

yeah you know my friend made some

22

00:00:53,430 --> 00:00:52,079

comment like you know boy it's really

23

00:00:55,270 --> 00:00:53,440

moving now or

24

00:00:57,510 --> 00:00:55,280

or something like that i don't recall if

25

00:01:00,950 --> 00:00:57,520

i even answered him right

26

00:01:07,030 --> 00:01:00,960

um and we were both in the same

27

00:01:10,870 --> 00:01:08,469

and just we're just on these air

28

00:01:12,630 --> 00:01:10,880

mattresses watching this thing

29

00:01:13,910 --> 00:01:12,640

and the closer it gets the bigger it

30

00:01:17,030 --> 00:01:13,920

gets and

31

00:01:19,270 --> 00:01:17,040

we saw it we saw it move drop low

32

00:01:20,870 --> 00:01:19,280

and move across even with the lights on

33

00:01:22,789 --> 00:01:20,880

the apex of the triangle

34

00:01:23,990 --> 00:01:22,799

we could still see a shadow on the

35

00:01:27,590 --> 00:01:24,000

forest below us

36

00:01:31,270 --> 00:01:27,600

whoa oh a black shadow

37

00:01:35,350 --> 00:01:31,280

huh and it eventually

38

00:01:36,789 --> 00:01:35,360

came to a stop right over the metal

39

00:01:39,109 --> 00:01:36,799

and you can see that metal from the

40

00:01:39,990 --> 00:01:39,119

google earth photo is kind of triangular

41

00:01:43,109 --> 00:01:40,000

shaped

42

00:01:46,310 --> 00:01:43,119

yeah yeah it slid it slid

43

00:01:48,389 --> 00:01:46,320

right in there i mean and we we were

44

00:01:49,590 --> 00:01:48,399

camping just off to the side by the tree

45

00:01:52,830 --> 00:01:49,600

line

46

00:01:55,830 --> 00:01:52,840

okay and uh and this thing was huge

47

00:01:59,109 --> 00:01:55,840

yeah i was gonna say that's big

48

00:02:02,550 --> 00:01:59,119

it was it was like a walmart you know

49

00:02:03,510 --> 00:02:02,560

yeah and you know to this day i can't

50

00:02:05,990 --> 00:02:03,520

understand

51
00:02:06,870 --> 00:02:06,000
how how this thing wasn't seen in five

52
00:02:09,350 --> 00:02:06,880
counties

53
00:02:10,070 --> 00:02:09,360
yeah you know or how this thing wasn't

54
00:02:11,750 --> 00:02:10,080
seen by

55
00:02:13,350 --> 00:02:11,760
the people at the campgrounds that were

56
00:02:15,830 --> 00:02:13,360
just a couple miles away

57
00:02:16,949 --> 00:02:15,840
you recall any noise or anything coming

58
00:02:19,190 --> 00:02:16,959
out of it or

59
00:02:20,309 --> 00:02:19,200
i mean not it's just not at that time

60
00:02:23,350 --> 00:02:20,319
yeah that time it was

61
00:02:27,030 --> 00:02:23,360
dead silent now that would change later

62
00:02:29,990 --> 00:02:27,040
um but like i say the things about

63
00:02:32,630 --> 00:02:30,000

3 000 feet over our heads about about as

64

00:02:35,990 --> 00:02:32,640

far as the 30-story office building

65

00:02:38,470 --> 00:02:36,000

uh over our heads and uh it's just

66

00:02:40,630 --> 00:02:38,480

absolutely enormous and while we're

67

00:02:42,710 --> 00:02:40,640

looking at this thing

68

00:02:45,110 --> 00:02:42,720

from underneath all we can see

69

00:02:47,830 --> 00:02:45,120

underneath is black

70

00:02:49,750 --> 00:02:47,840

it's not illuminated in any way pardon

71

00:02:53,350 --> 00:02:49,760

me

72

00:02:55,670 --> 00:02:53,360

this thing

73

00:02:57,270 --> 00:02:55,680

right in the middle and in the center

74

00:02:59,910 --> 00:02:57,280

and it was um

75

00:03:02,070 --> 00:02:59,920

it was a solid beam of of light it was a

76

00:03:04,790 --> 00:03:02,080

like a cylinder of white light

77

00:03:06,869 --> 00:03:04,800

like if you uh if you ever seen a high

78

00:03:09,350 --> 00:03:06,879

power searchlight cut through fog

79

00:03:11,030 --> 00:03:09,360

yeah you can see a column of visible

80

00:03:14,470 --> 00:03:11,040

light that's what this was like

81

00:03:19,270 --> 00:03:14,480

whoa um and it was about six inches

82

00:03:20,790 --> 00:03:19,280

in diameter and it just bang popped on

83

00:03:23,350 --> 00:03:20,800

and landed square in the middle of our

84

00:03:25,670 --> 00:03:23,360

campfire oh

85

00:03:27,270 --> 00:03:25,680

and i look at toby he looks at me and we

86

00:03:31,430 --> 00:03:27,280

look at this thing

87

00:03:35,110 --> 00:03:31,440

and um you know

88

00:03:38,390 --> 00:03:37,430

almost disinterested i mean i'm watching

89

00:03:41,589 --> 00:03:38,400

it but i'm not

90

00:03:43,750 --> 00:03:41,599

uh i'm not reacting appropriately i mean

91

00:03:45,509 --> 00:03:43,760

you know we should have been in the car

92

00:03:47,190 --> 00:03:45,519

and with the tires screaming and getting

93

00:03:48,710 --> 00:03:47,200

out of there absolutely

94

00:03:50,630 --> 00:03:48,720

and you you said you kind of felt like

95

00:03:51,589 --> 00:03:50,640

an observer rather than a participant

96

00:03:54,149 --> 00:03:51,599

like yeah it's

97

00:03:55,830 --> 00:03:54,159

yeah interesting yeah we're both you

98

00:03:58,070 --> 00:03:55,840

know almost sedated

99

00:03:59,750 --> 00:03:58,080

kicked back watching this thing and that

100

00:04:02,070 --> 00:03:59,760

that light stayed on in the middle of
