

# Russian Yeti? Or ALIENS?

**BOBB**  
PODCAST

1  
00:00:00,100 --> 00:00:08,150

[Music]

2  
00:00:11,509 --> 00:00:09,830

okay yeah so here's some pictures of

3  
00:00:13,030 --> 00:00:11,519

like the actual

4  
00:00:15,589 --> 00:00:13,040

the size of the holes in this thing at

5  
00:00:18,150 --> 00:00:15,599

first okay the whole side is basically

6  
00:00:19,269 --> 00:00:18,160

gone right but so this is the case that

7  
00:00:20,230 --> 00:00:19,279

they found it in so they didn't think

8  
00:00:21,429 --> 00:00:20,240

much of it right they weren't really

9  
00:00:22,550 --> 00:00:21,439

looking at it they're like holy crap

10  
00:00:23,349 --> 00:00:22,560

something to demolish this thing and

11  
00:00:24,550 --> 00:00:23,359

then whatever

12  
00:00:26,390 --> 00:00:24,560

but now you slide down a little bit

13  
00:00:28,150 --> 00:00:26,400

further and it starts showing how there

14

00:00:29,910 --> 00:00:28,160

were individual little slits

15

00:00:31,509 --> 00:00:29,920

all these little slits were made from

16

00:00:33,590 --> 00:00:31,519

the inside

17

00:00:34,709 --> 00:00:33,600

all of these slits were facing towards

18

00:00:37,670 --> 00:00:34,719

the wood line

19

00:00:38,709 --> 00:00:37,680

so they were looking towards the woods

20

00:00:40,869 --> 00:00:38,719

specifically

21

00:00:41,990 --> 00:00:40,879

cut these little slits along the tops

22

00:00:43,510 --> 00:00:42,000

and if you slide down a little bit

23

00:00:47,350 --> 00:00:43,520

farther here the diagram shows how they

24

00:00:49,350 --> 00:00:47,360

were cut near the tops on the same side

25

00:00:50,709 --> 00:00:49,360

so i find that very interesting that

26  
00:00:52,470 --> 00:00:50,719  
they were cutting what was keeping them

27  
00:00:54,549 --> 00:00:52,480  
safe and warm and protected like why

28  
00:00:55,670 --> 00:00:54,559  
would you it was like minus 25 degrees i

29  
00:00:56,470 --> 00:00:55,680  
want to say something like that at this

30  
00:00:58,790 --> 00:00:56,480  
point in time

31  
00:01:00,549 --> 00:00:58,800  
for them to be cutting this tent open

32  
00:01:01,990 --> 00:01:00,559  
and then obviously the the two giant

33  
00:01:03,910 --> 00:01:02,000  
gashes in it which is pretty much opened

34  
00:01:06,630 --> 00:01:03,920  
it wide open and then they ran out

35  
00:01:07,910 --> 00:01:06,640  
um that but that's that's what throws me

36  
00:01:09,109 --> 00:01:07,920  
off you see that first picture of that

37  
00:01:10,310 --> 00:01:09,119  
tent right like how it looks just

38  
00:01:11,990 --> 00:01:10,320

demolished

39

00:01:13,429 --> 00:01:12,000

but then it says that they watch in an

40

00:01:16,550 --> 00:01:13,439

orderly line

41

00:01:18,070 --> 00:01:16,560

like what like it doesn't make sense you

42

00:01:19,990 --> 00:01:18,080

know what i mean part it doesn't

43

00:01:21,190 --> 00:01:20,000

add up necessarily i just wanted to

44

00:01:23,030 --> 00:01:21,200

point that out though that

45

00:01:24,710 --> 00:01:23,040

the the tent was cut from the inside and

46

00:01:26,630 --> 00:01:24,720

it was cut looking towards the tree line

47

00:01:28,070 --> 00:01:26,640

only on the one side

48

00:01:30,550 --> 00:01:28,080

i find that unique because then that

49

00:01:32,149 --> 00:01:30,560

applies to me i feel that they're

50

00:01:34,630 --> 00:01:32,159

trying to get an eye to look out at

51  
00:01:37,270 --> 00:01:34,640  
something right without going outside

52  
00:01:38,950 --> 00:01:37,280  
i could be wrong i mean that's just me

53  
00:01:41,109 --> 00:01:38,960  
repeating also things that others have

54  
00:01:43,270 --> 00:01:41,119  
said but i i

55  
00:01:44,550 --> 00:01:43,280  
i find it unique and i find it at least

56  
00:01:47,429 --> 00:01:44,560  
worth noting

57  
00:01:48,710 --> 00:01:47,439  
um i think yeah i mean that's some of

58  
00:01:51,670 --> 00:01:48,720  
this in a nutshell sorry

59  
00:01:53,190 --> 00:01:51,680  
sorry that took so long guys uh no i

60  
00:01:55,749 --> 00:01:53,200  
mean you did a fantastic

61  
00:01:57,429 --> 00:01:55,759  
job i think i think what we often do on

62  
00:01:59,990 --> 00:01:57,439  
our show we kind of skip over a lot of

63  
00:02:03,030 --> 00:02:00,000

details so i feel like that was very

64

00:02:06,149 --> 00:02:03,040

valuable so that was awesome dude

65

00:02:08,150 --> 00:02:06,159

i man i just keep i keep going back and

66

00:02:10,469 --> 00:02:08,160

forth is it aliens or is it bigfoot

67

00:02:12,869 --> 00:02:10,479

because like when you forget about the

68

00:02:15,350 --> 00:02:12,879

tent and these little details and

69

00:02:17,110 --> 00:02:15,360

uh you think okay well it was obviously

70

00:02:18,790 --> 00:02:17,120

some kind of animal attack trying to get

71

00:02:20,309 --> 00:02:18,800

in but then you think oh well it was cut

72

00:02:22,710 --> 00:02:20,319

from the inside so they were running

73

00:02:24,550 --> 00:02:22,720

from something they wanted to get out

74

00:02:25,910 --> 00:02:24,560

i mean they're basically in like a like

75

00:02:29,270 --> 00:02:25,920

a uh

76

00:02:30,309 --> 00:02:29,280

uh they're like in a hot pocket right

77

00:02:32,630 --> 00:02:30,319

like they're very

78

00:02:34,150 --> 00:02:32,640

they're like all in one space and one

79

00:02:35,430 --> 00:02:34,160

animal is trying to get at them you

80

00:02:36,790 --> 00:02:35,440

always think like

81

00:02:38,550 --> 00:02:36,800

all right well how the [h\_\_h] am i gonna

82

00:02:40,550 --> 00:02:38,560

get out of here yeah and

83

00:02:41,910 --> 00:02:40,560

for them to like take the time to in the

84

00:02:43,509 --> 00:02:41,920

diagram it shows like a little razor

85

00:02:45,589 --> 00:02:43,519

blade but how would you have like a

86

00:02:48,470 --> 00:02:45,599

single razor blade ready but

87

00:02:48,949 --> 00:02:48,480

yeah like i'm thinking somebody said

88

00:02:51,110 --> 00:02:48,959

okay

89

00:02:53,270 --> 00:02:51,120

well it's coming from the opposite side

90

00:02:55,350 --> 00:02:53,280

so we want to go towards the woods

91

00:02:56,470 --> 00:02:55,360

let's not take the time to undo all the

92

00:02:58,630 --> 00:02:56,480

fastenings on the

93

00:03:00,790 --> 00:02:58,640

on the the opening and the exit or

94

00:03:03,509 --> 00:03:00,800

whatever and just [h\_\_\h] go

95

00:03:04,550 --> 00:03:03,519

let's go well but the issue there is

96

00:03:07,430 --> 00:03:04,560

they would have been like

97

00:03:09,509 --> 00:03:07,440

okay when i cut this tint we're all

98

00:03:10,309 --> 00:03:09,519

going to walk in an orderly fashion down

99

00:03:12,869 --> 00:03:10,319

to this tree

100

00:03:13,589 --> 00:03:12,879

yeah that is not happening that's so

101  
00:03:17,030 --> 00:03:13,599  
weird

102  
00:03:17,910 --> 00:03:17,040  
so this was just what i just said to you

103  
00:03:18,790 --> 00:03:17,920  
guys it's just

104  
00:03:19,990 --> 00:03:18,800  
not something we have to stop talking

105  
00:03:21,110 --> 00:03:20,000  
about but this was another theory that's

106  
00:03:24,789 --> 00:03:21,120  
put out there that

107  
00:03:26,630 --> 00:03:24,799  
the soviet union in the ussr was testing

108  
00:03:30,070 --> 00:03:26,640  
this thing called a parachute

109  
00:03:32,309 --> 00:03:30,080  
mine it was like a two-part stage rocket

110  
00:03:34,070 --> 00:03:32,319  
and they were testing it in remote areas

111  
00:03:35,910 --> 00:03:34,080  
so some people hypothesized that this is

112  
00:03:38,309 --> 00:03:35,920  
it i personally think this is ridiculous

113  
00:03:39,270 --> 00:03:38,319

as a plausible thing because if a rocket

114

00:03:42,309 --> 00:03:39,280

exploded

115

00:03:45,350 --> 00:03:42,319

they would have had

116

00:03:47,110 --> 00:03:45,360

massive in my opinion external damage of

117

00:03:49,830 --> 00:03:47,120

some sort yeah yeah now

118

00:03:51,430 --> 00:03:49,840

mike micah you had mentioned though from

119

00:03:52,630 --> 00:03:51,440

back in our days of watching you guys

120

00:03:54,710 --> 00:03:52,640

remember anybody remember that show from

121

00:03:57,990 --> 00:03:54,720

activity what was that um

122

00:04:01,350 --> 00:03:58,000

island are you afraid of the dark gummy

123

00:04:02,550 --> 00:04:01,360

clothes good guesses um the

124

00:04:04,149 --> 00:04:02,560

thing where they would test it out and

125

00:04:04,869 --> 00:04:04,159

they were scientists myth busters do

126

00:04:14,470 --> 00:04:04,879

these experiments
