

UFGARRAGE

LIVE

7:45PM CST

1
00:00:06,309 --> 00:00:03,830
oh and we're live

2
00:00:07,030 --> 00:00:06,319
hey this is another episode of ufo

3
00:00:09,030 --> 00:00:07,040
garage

4
00:00:10,390 --> 00:00:09,040
i'm ben and i'm joe and this is where we

5
00:00:13,910 --> 00:00:10,400
talk about ufos

6
00:00:16,710 --> 00:00:13,920
aliens and all things weird

7
00:00:18,310 --> 00:00:16,720
what's up man dude how you doing i'm

8
00:00:20,710 --> 00:00:18,320
doing fantastic

9
00:00:21,429 --> 00:00:20,720
man how are you doing uh not too bad not

10
00:00:23,269 --> 00:00:21,439
too bad

11
00:00:24,550 --> 00:00:23,279
i uh i noticed something about you when

12
00:00:26,790 --> 00:00:24,560
you walked into the room today

13
00:00:28,710 --> 00:00:26,800

i just wanted to tell you what was that

14

00:00:34,549 --> 00:00:28,720

your shirt's looking real good dude

15

00:00:37,910 --> 00:00:36,229

is that an all-over print it's an

16

00:00:38,630 --> 00:00:37,920

all-over print that's what's up dude

17

00:00:40,709 --> 00:00:38,640

yeah dude

18

00:00:41,990 --> 00:00:40,719

i don't know is it i so that shirt if

19

00:00:43,270 --> 00:00:42,000

you didn't know this there's a little

20

00:00:43,990 --> 00:00:43,280

thing that you could drop down it's like

21

00:00:47,029 --> 00:00:44,000

a little

22

00:00:48,790 --> 00:00:47,039

butt crack and it's also like

23

00:00:50,790 --> 00:00:48,800

just like a butt crack covering and it

24

00:00:53,830 --> 00:00:50,800

also has a logo there

25

00:00:54,630 --> 00:00:53,840

so that's also uh the all over print yes

26

00:00:57,510 --> 00:00:54,640

dude

27

00:00:59,510 --> 00:00:57,520

yes uh well what's up y'all we've got

28

00:01:03,270 --> 00:00:59,520

greg in the house

29

00:01:04,789 --> 00:01:03,280

in the house valro in the house oh my

30

00:01:08,469 --> 00:01:04,799

gosh we got renee

31

00:01:12,630 --> 00:01:08,479

in the house that was too good

32

00:01:16,630 --> 00:01:12,640

that was really it was really good okay

33

00:01:17,749 --> 00:01:16,640

christopher what's up dan how's it going

34

00:01:21,749 --> 00:01:17,759

grand master

35

00:01:25,429 --> 00:01:21,759

what's up oh dave's here dave is first

36

00:01:27,190 --> 00:01:25,439

for davis first yes hell yeah

37

00:01:29,270 --> 00:01:27,200

dave from space out radio y'all check

38

00:01:31,429 --> 00:01:29,280

them out

39

00:01:32,630 --> 00:01:31,439

uh hell yeah well thanks for hanging out

40

00:01:37,830 --> 00:01:32,640

with us tonight you guys

41

00:01:40,870 --> 00:01:37,840

dude uh so today is the first

42

00:01:42,630 --> 00:01:40,880

july 1st july 1st you know what that

43

00:01:44,630 --> 00:01:42,640

means dude

44

00:01:45,749 --> 00:01:44,640

absolutely nothing we're getting sexy in

45

00:01:51,590 --> 00:01:45,759

here

46

00:01:53,990 --> 00:01:51,600

like we usually do man like we usually i

47

00:01:57,350 --> 00:01:54,000

mean we usually get pretty sexy

48

00:02:01,910 --> 00:01:57,360

we're gonna get extra sexy tonight

49

00:02:03,670 --> 00:02:01,920

we're gonna read we're gonna read

50

00:02:05,749 --> 00:02:03,680

we're gonna we're gonna we're gonna read

51
00:02:08,949 --> 00:02:05,759
yeah that's that's ultimate sex appeal

52
00:02:09,910 --> 00:02:08,959
yeah yeah just nobody can uh turn down a

53
00:02:13,110 --> 00:02:09,920
guy they can read

54
00:02:19,670 --> 00:02:16,390
uh shane what's up sup guys yeah

55
00:02:22,790 --> 00:02:19,680
what's up dude valro uh

56
00:02:25,910 --> 00:02:22,800
uh by yeah so the ufo garage

57
00:02:28,070 --> 00:02:25,920
uh the garage band album that's

58
00:02:30,550 --> 00:02:28,080
we were on uh ucr the unidentified

59
00:02:31,270 --> 00:02:30,560
celebrity celebrity review on monday

60
00:02:32,949 --> 00:02:31,280
they kept

61
00:02:35,270 --> 00:02:32,959
michael kept slipping and calling us the

62
00:02:36,550 --> 00:02:35,280
ufo garage band

63
00:02:38,309 --> 00:02:36,560

that's good that should be like an

64

00:02:38,869 --> 00:02:38,319

endeavor that happens though i know

65

00:02:41,589 --> 00:02:38,879

because

66

00:02:43,270 --> 00:02:41,599

i mean we actually play music yeah look

67

00:02:44,309 --> 00:02:43,280

i'm all i'm saying is dude i've got your

68

00:02:46,710 --> 00:02:44,319

lead vocals

69

00:02:47,509 --> 00:02:46,720

your bass yeah dave scott on on guitar

70

00:02:51,750 --> 00:02:47,519

tom delong

71

00:02:53,430 --> 00:02:51,760

on league guitar lou elizondo on drums

72

00:02:54,869 --> 00:02:53,440

i mean anybody out there that plays

73

00:02:57,110 --> 00:02:54,879

keyboard or

74

00:02:58,550 --> 00:02:57,120

i'm thinking dude like a theremin if

75

00:03:03,910 --> 00:02:58,560

anybody knows how to play there

76

00:03:05,110 --> 00:03:03,920

there i mean a little there at work yeah

77

00:03:06,149 --> 00:03:05,120

let's hit him up let's hit up blue and

78

00:03:08,630 --> 00:03:06,159

be like hey you want to be a part of the

79

00:03:10,309 --> 00:03:08,640

ufo garage man

80

00:03:11,670 --> 00:03:10,319

we want to we just want to cut like a

81

00:03:13,830 --> 00:03:11,680

six-song ep

82

00:03:15,750 --> 00:03:13,840

and put it out there yeah and see what

83

00:03:18,790 --> 00:03:15,760

happens yeah that's all i want to do

84

00:03:21,350 --> 00:03:18,800

yeah dude hell yeah so it's been

85

00:03:23,110 --> 00:03:21,360

it's been about a week since the report

86

00:03:26,070 --> 00:03:23,120

came out

87

00:03:28,630 --> 00:03:26,080

you know uh the preliminary assessment

88

00:03:31,910 --> 00:03:28,640

unidentified aerial phenomena

89

00:03:33,350 --> 00:03:31,920

report yeah yeah so i mean i've seen a

90

00:03:34,869 --> 00:03:33,360

whole bunch of stuff i've seen a bunch

91

00:03:36,229 --> 00:03:34,879

of people like giving their opinions on

92

00:03:38,229 --> 00:03:36,239

the report and whatnot

93

00:03:40,149 --> 00:03:38,239

you know ben and i we read through it we

94

00:03:43,350 --> 00:03:40,159

we looked at it but tonight

95

00:03:44,470 --> 00:03:43,360

tonight in case in case you weren't able

96

00:03:46,630 --> 00:03:44,480

to understand it

97

00:03:47,910 --> 00:03:46,640

right yeah i think me and ben we're

98

00:03:49,750 --> 00:03:47,920

gonna put our heads together

99

00:03:51,509 --> 00:03:49,760

yeah and we're gonna make some sense of

100

00:03:53,429 --> 00:03:51,519

this jargon i i know that everybody's

101
00:03:55,910 --> 00:03:53,439
talking about this report okay yeah

102
00:03:56,949 --> 00:03:55,920
you've all seen it it's like everybody's

103
00:04:00,149 --> 00:03:56,959
talking about it but

104
00:04:00,789 --> 00:04:00,159
nobody's like reading it word like going

105
00:04:02,789 --> 00:04:00,799
through it

106
00:04:04,550 --> 00:04:02,799
i would i think it'd be fun to go in

107
00:04:07,429 --> 00:04:04,560
between the chat

108
00:04:08,869 --> 00:04:07,439
and also me and joe and like kind of

109
00:04:11,910 --> 00:04:08,879
break this thing down

110
00:04:14,149 --> 00:04:11,920
yeah definitely so i i mean it was

111
00:04:15,830 --> 00:04:14,159
joe's idea i thought it was brilliant i

112
00:04:18,550 --> 00:04:15,840
think it's great

113
00:04:20,150 --> 00:04:18,560

uh so i mean dude how do you want to

114

00:04:21,749 --> 00:04:20,160

start this thing do we want to start

115

00:04:22,550 --> 00:04:21,759

about do we want to screen should we

116

00:04:26,629 --> 00:04:22,560

screen share

117

00:04:29,749 --> 00:04:26,639

if you want man let's do it all right

118

00:04:33,350 --> 00:04:29,759

hi tammy tammy there we go

119

00:04:35,110 --> 00:04:33,360

hey shane's a drummer shane yes

120

00:04:36,550 --> 00:04:35,120

well the thing is about the ufo garage

121

00:04:38,629 --> 00:04:36,560

band is that like it's

122

00:04:39,990 --> 00:04:38,639

a much like spinal tap whereas like we

123

00:04:41,590 --> 00:04:40,000

go through drummers like

124

00:04:44,550 --> 00:04:41,600

like candy so we're going to need

125

00:04:47,990 --> 00:04:47,430

thing kevin has a recording studio oh

126
00:04:51,110 --> 00:04:48,000
snap

127
00:04:52,629 --> 00:04:51,120
kevin we're at kevin i mean don't give

128
00:04:53,670 --> 00:04:52,639
us your address but like is it close to

129
00:04:57,830 --> 00:04:53,680
texas or like

130
00:05:00,550 --> 00:04:57,840
where he's is it like france

131
00:05:02,150 --> 00:05:00,560
yeah all right we're gonna shine our

132
00:05:05,110 --> 00:05:02,160
scrawn

133
00:05:07,670 --> 00:05:05,120
oh okay sweet the report cannot be

134
00:05:09,830 --> 00:05:07,680
bigger than the host of the show

135
00:05:10,950 --> 00:05:09,840
trying to make it smaller it's not sexy

136
00:05:14,629 --> 00:05:10,960
should we

137
00:05:18,469 --> 00:05:17,189
you can make it smaller that's fine you

138
00:05:20,070 --> 00:05:18,479

guys want to see how small you would see

139

00:05:22,120 --> 00:05:20,080

the report small

140

00:05:26,629 --> 00:05:22,130

you're like wanna see you small

141

00:05:29,909 --> 00:05:26,639

[Laughter]

142

00:05:32,469 --> 00:05:29,919

i love that hell yeah oh okay cool

143

00:05:33,270 --> 00:05:32,479

luke says the report is boring yeah well

144

00:05:35,029 --> 00:05:33,280

that's how we're

145

00:05:36,390 --> 00:05:35,039

we're gonna we're gonna we're gonna turn

146

00:05:38,150 --> 00:05:36,400

it on its head tonight we're gonna make

147

00:05:40,390 --> 00:05:38,160

it unborn we've got some ideas

148

00:05:41,990 --> 00:05:40,400

so stick with us don't leave hang out

149

00:05:43,270 --> 00:05:42,000

with us and contribute because we need

150

00:05:46,390 --> 00:05:43,280

your your input because

151
00:05:48,790 --> 00:05:46,400
i've got some ideas about a few things

152
00:05:51,110 --> 00:05:48,800
and i'm going to pittsburgh piss boy

153
00:05:53,430 --> 00:05:51,120
kids boy

154
00:05:55,110 --> 00:05:53,440
all right yeah mule that's that's the

155
00:05:56,710 --> 00:05:55,120
hey i

156
00:05:59,029 --> 00:05:56,720
everybody's saying that it's boring and

157
00:05:59,270 --> 00:05:59,039
it's the same old same old i totally get

158
00:06:07,830 --> 00:05:59,280
it

159
00:06:11,350 --> 00:06:07,840
you know i know that not as many people

160
00:06:13,270 --> 00:06:11,360
have read this thing you know

161
00:06:14,950 --> 00:06:13,280
as as have claimed they've read it so

162
00:06:16,469 --> 00:06:14,960
let's go let's go through it together

163
00:06:18,469 --> 00:06:16,479

and see what's up because you know

164

00:06:20,070 --> 00:06:18,479

like the first two days i was like oh

165

00:06:22,870 --> 00:06:20,080

hell yeah i read that [\h__\h]

166

00:06:24,469 --> 00:06:22,880

and i did it i just read the highlights

167

00:06:25,670 --> 00:06:24,479

i just wanted to see like what everybody

168

00:06:28,870 --> 00:06:25,680

was saying about it

169

00:06:30,230 --> 00:06:28,880

like i skimmed it you know but you know

170

00:06:32,230 --> 00:06:30,240

then i kind of read through it it was

171

00:06:33,430 --> 00:06:32,240

like okay i get it i get it you know

172

00:06:35,270 --> 00:06:33,440

there was some interesting stuff in

173

00:06:37,510 --> 00:06:35,280

there that i decided to pick out but

174

00:06:38,629 --> 00:06:37,520

the report itself is boring but let's

175

00:06:41,430 --> 00:06:38,639

break down some of like

176

00:06:43,029 --> 00:06:41,440

what they're saying yeah and you know we

177

00:06:43,749 --> 00:06:43,039

can get to the bottom of why it's so

178

00:06:45,670 --> 00:06:43,759

boring yeah

179

00:06:47,189 --> 00:06:45,680

i do that i think it'll be it will be a

180

00:06:49,510 --> 00:06:47,199

fun bit it doesn't have to last too long

181

00:06:50,870 --> 00:06:49,520

but i mean it's only what six pages

182

00:06:52,710 --> 00:06:50,880

minus a couple of things i think it's

183

00:06:54,309 --> 00:06:52,720

like nine isn't it uh well

184

00:06:55,909 --> 00:06:54,319

there's like the the cover page cover

185

00:06:56,550 --> 00:06:55,919

page doesn't count yeah and then there's

186

00:06:59,430 --> 00:06:56,560

like a couple

187

00:07:01,110 --> 00:06:59,440

there's like two pages of like if you

188

00:07:01,589 --> 00:07:01,120

have questions or something and then

189

00:07:05,350 --> 00:07:01,599

there's

190

00:07:06,790 --> 00:07:05,360

there and the joker doesn't count what

191

00:07:09,909 --> 00:07:06,800

okay all right we'll get to it we'll get

192

00:07:11,510 --> 00:07:09,919

to that soon all right so first off

193

00:07:13,110 --> 00:07:11,520

i i would just like to say that this

194

00:07:16,390 --> 00:07:13,120

logo like there's

195

00:07:18,390 --> 00:07:16,400

a lot going on man yeah dude office of

196

00:07:19,749 --> 00:07:18,400

the director of national intelligence

197

00:07:21,830 --> 00:07:19,759

united states of america

198

00:07:23,589 --> 00:07:21,840

that's that's some american [h__h] that's

199

00:07:24,950 --> 00:07:23,599

all i wanted to say free americans right

200

00:07:28,830 --> 00:07:24,960

that's all i wanted to say

201
00:07:31,589 --> 00:07:28,840
also okay first thing to note is

202
00:07:35,029 --> 00:07:31,599
preliminary

203
00:07:37,100 --> 00:07:35,039
tell us

204
00:07:41,990 --> 00:07:37,110
that's what we needed mo

205
00:07:45,990 --> 00:07:42,000
[Laughter]

206
00:07:48,710 --> 00:07:46,000
so preliminary assessment which means

207
00:07:49,270 --> 00:07:48,720
the this is the first one of many yeah

208
00:07:52,550 --> 00:07:49,280
yeah

209
00:07:55,270 --> 00:07:52,560
uh and there's gonna be a lot more also

210
00:07:56,830 --> 00:07:55,280
this is the first one uap unidentified

211
00:07:59,510 --> 00:07:56,840
aerial

212
00:08:01,909 --> 00:07:59,520
phenomena so

213
00:08:02,790 --> 00:08:01,919

i okay so here's something that i have a

214

00:08:06,390 --> 00:08:02,800

question of just

215

00:08:09,510 --> 00:08:06,400

right in the title right uap

216

00:08:12,790 --> 00:08:09,520

uh we've heard unidentified air

217

00:08:14,950 --> 00:08:12,800

aerospace phenomena right yeah so

218

00:08:16,230 --> 00:08:14,960

like isn't that like something specific

219

00:08:18,309 --> 00:08:16,240

that you have to say

220

00:08:20,230 --> 00:08:18,319

like if you're wanting documents and

221

00:08:23,270 --> 00:08:20,240

stuff like that like if you were to

222

00:08:25,749 --> 00:08:23,280

file like a foia you'd want it to be you

223

00:08:28,070 --> 00:08:25,759

know unidentified aerospace funding

224

00:08:29,749 --> 00:08:28,080

who was who's speaking at ufo congress

225

00:08:30,950 --> 00:08:29,759

the first year that we went

226

00:08:33,269 --> 00:08:30,960

there's a lot of people that were

227

00:08:36,149 --> 00:08:33,279

speaking it may have been like

228

00:08:37,269 --> 00:08:36,159

like uh he spoke like specifically about

229

00:08:39,110 --> 00:08:37,279

that it was like

230

00:08:40,469 --> 00:08:39,120

you have to be very specific with your

231

00:08:42,389 --> 00:08:40,479

nomenclature yeah

232

00:08:44,230 --> 00:08:42,399

and how you say things or requests from

233

00:08:47,990 --> 00:08:44,240

the foia like if you say

234

00:08:50,550 --> 00:08:48,000

you unidentified uh uh

235

00:08:51,430 --> 00:08:50,560

what was the other one start with an a

236

00:08:54,550 --> 00:08:51,440

or

237

00:08:55,590 --> 00:08:54,560

uh aerobic phenomenon oh he has like

238

00:08:57,269 --> 00:08:55,600

another acrobatic

239

00:08:59,269 --> 00:08:57,279

acrobat but like you had to be very

240

00:09:00,389 --> 00:08:59,279

specific and that brings to mind

241

00:09:01,750 --> 00:09:00,399

i mean i know we're just getting the

242

00:09:02,630 --> 00:09:01,760

title i promise this is not going to

243

00:09:05,269 --> 00:09:02,640

take forever you guys

244

00:09:06,389 --> 00:09:05,279

this is well just a second but like you

245

00:09:08,550 --> 00:09:06,399

have to be so specific

246

00:09:09,509 --> 00:09:08,560

and it brings to the light that yes this

247

00:09:12,630 --> 00:09:09,519

whole thing

248

00:09:16,150 --> 00:09:12,640

the uap the 70 years of of data

249

00:09:17,829 --> 00:09:16,160

and stories and people that have so much

250

00:09:20,310 --> 00:09:17,839

to do with this there's books there's

251
00:09:23,430 --> 00:09:20,320
movies like come on guys we know this

252
00:09:26,550 --> 00:09:23,440
but they all say ufo so

253
00:09:29,829 --> 00:09:26,560
it's totally different uap is not

254
00:09:31,190 --> 00:09:29,839
counting for everything from the ninth

255
00:09:33,190 --> 00:09:31,200
really from the beginning of time we can

256
00:09:34,710 --> 00:09:33,200
go back to the bible but

257
00:09:39,990 --> 00:09:34,720
in an american history are you saying

258
00:09:43,509 --> 00:09:41,990
i could see why you would ask that i did

259
00:09:46,150 --> 00:09:43,519
say that

260
00:09:47,509 --> 00:09:46,160
from the book because that's the time

261
00:09:50,550 --> 00:09:47,519
for the bible when books were made

262
00:09:53,590 --> 00:09:50,560
that's when time started

263
00:09:53,829 --> 00:09:53,600

okay so yeah my question is an idea is

264

00:09:57,350 --> 00:09:53,839

it

265

00:10:00,470 --> 00:09:57,360

unidentified

266

00:10:02,870 --> 00:10:00,480

aerospace phenomena that's see

267

00:10:04,790 --> 00:10:02,880

yeah aerospace phenomenon that was the i

268

00:10:07,350 --> 00:10:04,800

feel

269

00:10:08,069 --> 00:10:07,360

aerospace phenomena like i've heard many

270

00:10:11,750 --> 00:10:08,079

people say

271

00:10:13,509 --> 00:10:11,760

it's actually aerospace phenomena so if

272

00:10:14,790 --> 00:10:13,519

right out of the gate the government

273

00:10:17,190 --> 00:10:14,800

[h__h] this up and called it

274

00:10:18,790 --> 00:10:17,200

unidentified aerial phenomena when it's

275

00:10:20,630 --> 00:10:18,800

actually supposed to be aerospace does

276

00:10:22,790 --> 00:10:20,640

that mean that this entire report is a

277

00:10:26,630 --> 00:10:22,800

lie

278

00:10:29,750 --> 00:10:26,640

uh we have to be specific shouldn't they

279

00:10:32,630 --> 00:10:29,760

shouldn't should they not have said ufos

280

00:10:33,750 --> 00:10:32,640

and uaps and all the acronyms should

281

00:10:35,990 --> 00:10:33,760

they have spelled it out

282

00:10:37,910 --> 00:10:36,000

well no because their directive was in

283

00:10:40,069 --> 00:10:37,920

the covid bill that was

284

00:10:42,389 --> 00:10:40,079

snuck into the covet bill to to make

285

00:10:46,310 --> 00:10:42,399

this whole report in the first place

286

00:10:48,069 --> 00:10:46,320

was specific to uap and and and

287

00:10:49,430 --> 00:10:48,079

in the bill it said you have to tell us

288

00:10:52,550 --> 00:10:49,440

all the stuff about uab

289

00:10:55,190 --> 00:10:52,560

not ufos dude

290

00:10:56,310 --> 00:10:55,200

so all they had to actually do is do

291

00:10:58,230 --> 00:10:56,320

some research on

292

00:10:59,350 --> 00:10:58,240

whenever that acronym started yeah

293

00:11:00,790 --> 00:10:59,360

whenever they started

294

00:11:02,790 --> 00:11:00,800

if i'm wrong in that please somebody

295

00:11:05,190 --> 00:11:02,800

help me out there but that's that's

296

00:11:06,069 --> 00:11:05,200

uh the the research that i did that's

297

00:11:08,389 --> 00:11:06,079

why

298

00:11:09,750 --> 00:11:08,399

they only say there's only been 144

299

00:11:13,670 --> 00:11:09,760

reports it's because of

300

00:11:17,430 --> 00:11:13,680

that specific uh term uap

301
00:11:18,710 --> 00:11:17,440
yeah yeah so that's why there's only 144

302
00:11:21,190 --> 00:11:18,720
cases that they

303
00:11:21,990 --> 00:11:21,200
uh whatever so anything from project

304
00:11:24,470 --> 00:11:22,000
blue book

305
00:11:26,550 --> 00:11:24,480
totally out the [\h__\h] window yeah

306
00:11:32,230 --> 00:11:26,560
everything before 2004

307
00:11:35,509 --> 00:11:34,790
all right so dude so scope and

308
00:11:37,829 --> 00:11:35,519
assumptions

309
00:11:39,110 --> 00:11:37,839
yeah this prelim preliminary report is

310
00:11:41,269 --> 00:11:39,120
provided by the office

311
00:11:42,870 --> 00:11:41,279
of the director of national intelligence

312
00:11:48,389 --> 00:11:42,880
in response to the provision

313
00:11:49,990 --> 00:11:48,399

in senate report 116-233

314

00:11:52,629 --> 00:11:50,000
accompanying the intelligence

315

00:11:56,150 --> 00:11:52,639
authorization act for fiscal year

316

00:11:58,550 --> 00:11:56,160
2021 super fiscal superficial so

317

00:12:01,030 --> 00:11:58,560
physical right now

318

00:12:03,030 --> 00:12:01,040
that the dni in consultation with the

319

00:12:05,190 --> 00:12:03,040
secretary of defense

320

00:12:07,990 --> 00:12:05,200
is to submit an intelligence assessment

321

00:12:10,230 --> 00:12:08,000
of the threat posed by unif identified

322

00:12:12,069 --> 00:12:10,240
aerial phenomena there it is there it is

323

00:12:14,069 --> 00:12:12,079
again so i i answered that question of

324

00:12:15,269 --> 00:12:14,079
like it's it's stating why are we doing

325

00:12:18,150 --> 00:12:15,279
this yeah so

326

00:12:19,030 --> 00:12:18,160

it does specify uap it doesn't say ufo

327

00:12:21,829 --> 00:12:19,040

it says uav

328

00:12:23,750 --> 00:12:21,839

so we're only going to go back to 2000

329

00:12:25,990 --> 00:12:23,760

fo

330

00:12:28,230 --> 00:12:26,000

i'm just i'm just really like hung up on

331

00:12:31,430 --> 00:12:28,240

this on like what the a

332

00:12:34,470 --> 00:12:31,440

what the a stands for

333

00:12:36,829 --> 00:12:34,480

yeah so what do we know is it aerospace

334

00:12:38,870 --> 00:12:36,839

scenario they don't spell it out here at

335

00:12:41,590 --> 00:12:38,880

all

336

00:12:43,350 --> 00:12:41,600

but they also want to know the progress

337

00:12:46,310 --> 00:12:43,360

uh the department of defense

338

00:12:47,110 --> 00:12:46,320

unidentified aerial phenomena task force

339

00:12:50,629 --> 00:12:47,120

has made in

340

00:12:51,910 --> 00:12:50,639

understanding this threat so so

341

00:12:53,829 --> 00:12:51,920

what you're looking at over there oh i'm

342

00:12:56,389 --> 00:12:53,839

just saying uh kevin uh

343

00:12:58,870 --> 00:12:56,399

says that there's a uh an fbi document

344

00:12:59,670 --> 00:12:58,880

on black vault from 1947 which was the

345

00:13:02,389 --> 00:12:59,680

same year as the

346

00:13:03,990 --> 00:13:02,399

roswell crash that uses the term uap

347

00:13:07,590 --> 00:13:04,000

interesting did not know that thank you

348

00:13:10,150 --> 00:13:07,600

very interesting oh yeah i love that

349

00:13:10,710 --> 00:13:10,160

so okay sweet so it's not just a clever

350

00:13:12,389 --> 00:13:10,720

name

351

00:13:14,150 --> 00:13:12,399

yeah it's not something new it's like

352

00:13:15,269 --> 00:13:14,160

all right awesome so we're building this

353

00:13:16,629 --> 00:13:15,279

is a community we're all learning

354

00:13:20,150 --> 00:13:16,639

together awesome

355

00:13:22,150 --> 00:13:20,160

uh so oh that opens up so many different

356

00:13:23,750 --> 00:13:22,160

windows it's gonna take forever

357

00:13:25,670 --> 00:13:23,760

oh okay we'll come back to that dude

358

00:13:29,670 --> 00:13:25,680

thank you for that kevin um

359

00:13:32,069 --> 00:13:29,680

yeah so u a p t f

360

00:13:33,269 --> 00:13:32,079

task force man yeah still they're not

361

00:13:35,509 --> 00:13:33,279

spell well they did spare

362

00:13:36,629 --> 00:13:35,519

well okay so uap they kind of did spell

363

00:13:40,310 --> 00:13:36,639

it out there so

364

00:13:40,949 --> 00:13:40,320

later unidentified aerial phenomena task

365

00:13:43,110 --> 00:13:40,959

force so

366

00:13:45,110 --> 00:13:43,120

they know that it's not it's not

367

00:13:46,949 --> 00:13:45,120

aeronautical it's ariel

368

00:13:48,870 --> 00:13:46,959

right what was the aerospace aerospace

369

00:13:50,550 --> 00:13:48,880

yeah i don't know i can't remember that

370

00:13:53,509 --> 00:13:50,560

because like ariel is just in the sky

371

00:14:02,550 --> 00:13:53,519

but aerospace is like

372

00:14:05,750 --> 00:14:02,560

system of a down it's in space

373

00:14:07,670 --> 00:14:05,760

uh okay so report uh provides an

374

00:14:09,110 --> 00:14:07,680

overview of policy makers

375

00:14:10,710 --> 00:14:09,120

of the challenges associated with

376

00:14:11,829 --> 00:14:10,720

characterizing the potential threat

377

00:14:14,230 --> 00:14:11,839

posed by uap

378

00:14:16,150 --> 00:14:14,240

while also providing a means to develop

379

00:14:18,150 --> 00:14:16,160

relevant processes

380

00:14:20,230 --> 00:14:18,160

policies technologies and training for

381

00:14:22,790 --> 00:14:20,240

the u.s military

382

00:14:23,350 --> 00:14:22,800

and other u.s governments usg personnel

383

00:14:24,870 --> 00:14:23,360

if

384

00:14:26,150 --> 00:14:24,880

you come on dude and when they're

385

00:14:27,350 --> 00:14:26,160

encountered uap so i'm going to

386

00:14:29,269 --> 00:14:27,360

detention

387

00:14:30,949 --> 00:14:29,279

a community i see ability to understand

388

00:14:32,629 --> 00:14:30,959

the threat you were doing a terrible job

389

00:14:33,990 --> 00:14:32,639

at reading this you just you just scan

390

00:14:35,829 --> 00:14:34,000

through like he did the first time i'm

391

00:14:38,550 --> 00:14:35,839

just saying that's a run-on sentence

392

00:14:39,350 --> 00:14:38,560

it is very much so that's a lot bro it's

393

00:14:41,430 --> 00:14:39,360

a lot

394

00:14:42,550 --> 00:14:41,440

it's almost like a paragraph it's a line

395

00:14:45,430 --> 00:14:42,560

man

396

00:14:47,110 --> 00:14:45,440

okay so the data sets describes in the

397

00:14:48,069 --> 00:14:47,120

report uh described in the report is

398

00:14:49,829 --> 00:14:48,079

currently limited

399

00:14:51,910 --> 00:14:49,839

primarily to u.s government reporting on

400

00:14:52,710 --> 00:14:51,920

incidents occurring from november 2004

401
00:14:55,430 --> 00:14:52,720
to march

402
00:14:55,829 --> 00:14:55,440
uh 2021 data continues to be collected

403
00:14:59,430 --> 00:14:55,839
and

404
00:15:00,710 --> 00:14:59,440
analyzed so it's starting from 2004 to

405
00:15:03,990 --> 00:15:00,720
march

406
00:15:06,870 --> 00:15:04,000
now dude

407
00:15:08,150 --> 00:15:06,880
oh my god dude yeah there's been a lot

408
00:15:11,430 --> 00:15:08,160
of stuff that's happened

409
00:15:12,389 --> 00:15:11,440
i mean like so in the first in the first

410
00:15:16,230 --> 00:15:12,399
little line

411
00:15:19,590 --> 00:15:16,240
right they're saying uh

412
00:15:23,189 --> 00:15:19,600
let's see the report is provided by the

413
00:15:24,389 --> 00:15:23,199

office of the director of national

414

00:15:27,829 --> 00:15:24,399

intelligence

415

00:15:33,030 --> 00:15:27,839

okay yeah and they're responding

416

00:15:36,470 --> 00:15:33,040

to the senate asking for this uh

417

00:15:39,350 --> 00:15:36,480

so who's it so who's who's

418

00:15:41,110 --> 00:15:39,360

who's providing it provided by provided

419

00:15:44,150 --> 00:15:41,120

by provided by

420

00:15:47,350 --> 00:15:44,160

the unidentified aerial

421

00:15:49,990 --> 00:15:47,360

phenomena task force

422

00:15:51,829 --> 00:15:50,000

so the task force was initiated when the

423

00:15:54,870 --> 00:15:51,839

bill was signed and like approved

424

00:15:57,910 --> 00:15:54,880

no no no so it sounds like the senate is

425

00:16:00,949 --> 00:15:57,920

requesting this stuff

426

00:16:04,790 --> 00:16:02,389

national intelligence provided the

427

00:16:07,350 --> 00:16:04,800

report because the senate asked for it

428

00:16:08,069 --> 00:16:07,360

but the national intelligence is getting

429

00:16:10,629 --> 00:16:08,079

their stuff

430

00:16:12,629 --> 00:16:10,639

from the uap task force okay so they had

431

00:16:13,829 --> 00:16:12,639

to like go and ask the task force like

432

00:16:15,910 --> 00:16:13,839

hey

433

00:16:18,710 --> 00:16:15,920

let me see all that cool stuff you have

434

00:16:22,670 --> 00:16:18,720

they were like okay here's some [h__\h]

435

00:16:25,590 --> 00:16:22,680

right yeah so when did the ua uh

436

00:16:27,749 --> 00:16:25,600

uaptf when was that

437

00:16:29,269 --> 00:16:27,759

do we know when that was we do put

438

00:16:32,230 --> 00:16:29,279

together i mean we don't

439

00:16:33,749 --> 00:16:32,240

but we do know that okay that is a real

440

00:16:36,710 --> 00:16:33,759

it's got like a number to it i think

441

00:16:37,189 --> 00:16:36,720

okay like an actual date i i know i'm

442

00:16:40,230 --> 00:16:37,199

i'm just

443

00:16:42,150 --> 00:16:40,240

like uh so i'm thinking like

444

00:16:44,150 --> 00:16:42,160

who put it together i know you probably

445

00:16:45,749 --> 00:16:44,160

already answered that but i still am

446

00:16:48,230 --> 00:16:45,759

unclear about where do they get their

447

00:16:50,470 --> 00:16:48,240

information from so the uap task force

448

00:16:52,310 --> 00:16:50,480

has all this information

449

00:16:54,310 --> 00:16:52,320

when did that happen like when did the

450

00:16:57,590 --> 00:16:54,320

unit be 2004

451
00:17:01,829 --> 00:16:57,600
to now so they they've had it since 2004

452
00:17:05,029 --> 00:17:01,839
the uap task force believe so okay so

453
00:17:08,150 --> 00:17:05,039
the atip is a totally different thing it

454
00:17:09,669 --> 00:17:08,160
that's well no i so i think i think that

455
00:17:12,710 --> 00:17:09,679
came before the uap

456
00:17:13,029 --> 00:17:12,720
task force like isn't that isn't that

457
00:17:15,110 --> 00:17:13,039
like

458
00:17:17,590 --> 00:17:15,120
the new thing that they call it the uap

459
00:17:20,549 --> 00:17:17,600
task force but it used to be called

460
00:17:21,669 --> 00:17:20,559
atip oh maybe that's the difference it

461
00:17:25,350 --> 00:17:21,679
was advanced

462
00:17:28,230 --> 00:17:25,360
aerospace threat identification program

463
00:17:29,990 --> 00:17:28,240

that changed to the unidentified aerial

464

00:17:34,000 --> 00:17:30,000

phenomena

465

00:17:35,669 --> 00:17:34,010

task force that's what it was

466

00:17:38,390 --> 00:17:35,679

[Music]

467

00:17:40,230 --> 00:17:38,400

mule said text load have him dissect the

468

00:17:42,390 --> 00:17:40,240

language in simple language

469

00:17:44,710 --> 00:17:42,400

uh i would but i think he's having

470

00:17:46,870 --> 00:17:44,720

dinner right now

471

00:17:48,549 --> 00:17:46,880

no no no no because he's in a different

472

00:17:51,190 --> 00:17:48,559

time zone oh yeah we should text it it's

473

00:17:55,190 --> 00:17:51,200

only like 6 30 there i think

474

00:17:57,830 --> 00:17:55,200

hey lou lou you're live on the podcast

475

00:18:00,390 --> 00:17:57,840

what are you doing what are you doing

476
00:18:01,750 --> 00:18:00,400
what do you have for dinner but we can

477
00:18:05,510 --> 00:18:01,760
have some

478
00:18:08,549 --> 00:18:07,350
have you seen the like the the people

479
00:18:11,190 --> 00:18:08,559
that like roasted a whole

480
00:18:11,590 --> 00:18:11,200
ostrich leg have you like people did

481
00:18:14,549 --> 00:18:11,600
that

482
00:18:15,510 --> 00:18:14,559
like de-feathered it and like rotisserie

483
00:18:18,470 --> 00:18:15,520
did an ostrich

484
00:18:20,870 --> 00:18:18,480
i've seen an ostrich leg bigger than

485
00:18:22,630 --> 00:18:20,880
that dude yeah

486
00:18:24,630 --> 00:18:22,640
i mean it didn't look very good i don't

487
00:18:26,150 --> 00:18:24,640
know oh i bet it's amazing

488
00:18:28,070 --> 00:18:26,160

it didn't look very good have you had

489

00:18:30,310 --> 00:18:28,080

ostrich egg nah

490

00:18:31,510 --> 00:18:30,320

it's delicious i bet it would have you

491

00:18:34,630 --> 00:18:31,520

have you really yeah

492

00:18:36,230 --> 00:18:34,640

no way yeah it's massive you know how

493

00:18:37,430 --> 00:18:36,240

like in taylor like on the loop

494

00:18:39,590 --> 00:18:37,440

there's those people that have that

495

00:18:41,510 --> 00:18:39,600

ostrich farm yes yeah

496

00:18:43,810 --> 00:18:41,520

do that's where you got the egg no i'm

497

00:18:47,029 --> 00:18:43,820

just saying like it's possible though

498

00:18:48,630 --> 00:18:47,039

[Laughter]

499

00:18:50,870 --> 00:18:48,640

i'm sure that's brought to you by that

500

00:18:54,150 --> 00:18:50,880

ostrich farm on the loop outside of

501

00:19:00,549 --> 00:18:57,590

yes and the koch brothers

502

00:19:00,870 --> 00:19:00,559

oh so we broke down that first half

503

00:19:02,789 --> 00:19:00,880

right

504

00:19:04,070 --> 00:19:02,799

okay so we know we don't really know

505

00:19:05,750 --> 00:19:04,080

which came first

506

00:19:07,190 --> 00:19:05,760

if anybody in the chat knows which came

507

00:19:09,750 --> 00:19:07,200

first the u a p

508

00:19:10,710 --> 00:19:09,760

t f the chicken or the ostrich or or

509

00:19:13,990 --> 00:19:10,720

atif

510

00:19:16,390 --> 00:19:14,000

let us know but so we do it we're given

511

00:19:19,350 --> 00:19:16,400

a a date which is 2004.

512

00:19:20,390 --> 00:19:19,360

because wasn't eight tips shut down

513

00:19:21,029 --> 00:19:20,400

they're like we're not doing this

514

00:19:25,190 --> 00:19:21,039

anymore

515

00:19:28,470 --> 00:19:25,200

was it we're gonna call it the uaptf now

516

00:19:30,150 --> 00:19:28,480

uh-huh wasn't it yeah yeah i then i just

517

00:19:32,310 --> 00:19:30,160

i don't know i'm going based off of

518

00:19:34,870 --> 00:19:32,320

hearsay i don't know we

519

00:19:35,590 --> 00:19:34,880

i don't know gary would know gary gary's

520

00:19:38,630 --> 00:19:35,600

always down

521

00:19:38,950 --> 00:19:38,640

hey hey so we broke down the first one

522

00:19:41,190 --> 00:19:38,960

right

523

00:19:42,470 --> 00:19:41,200

the senate was like yo we want to know

524

00:19:44,870 --> 00:19:42,480

about the ufos

525

00:19:46,390 --> 00:19:44,880

and the intelligence community was like

526

00:19:49,590 --> 00:19:46,400

okay well we have to talk to

527

00:19:51,350 --> 00:19:49,600

you a ptf uatf was like okay we'll give

528

00:19:53,750 --> 00:19:51,360

you all the stuff from 2004

529

00:19:54,390 --> 00:19:53,760

on and they were like okay cool that's

530

00:19:56,470 --> 00:19:54,400

all we need

531

00:19:57,669 --> 00:19:56,480

yeah well it's always it's like it was

532

00:20:00,150 --> 00:19:57,679

like a search and find

533

00:20:01,350 --> 00:20:00,160

only things that pertain to you uap it

534

00:20:05,029 --> 00:20:01,360

wasn't ufo

535

00:20:09,510 --> 00:20:05,039

or or disc or flying saucer or

536

00:20:12,789 --> 00:20:09,520

cigar-shaped or uh uso

537

00:20:15,029 --> 00:20:12,799

anything like that shane yeah asap was

538

00:20:16,230 --> 00:20:15,039

first i i do remember something about

539

00:20:18,830 --> 00:20:16,240

that like

540

00:20:20,630 --> 00:20:18,840

uh a-u-s-a-e-p no i think it was

541

00:20:23,029 --> 00:20:20,640

a-w-s-a-p

542

00:20:24,789 --> 00:20:23,039

who was what it was man i wish i could

543

00:20:27,190 --> 00:20:24,799

remember who was giving that speech

544

00:20:28,230 --> 00:20:27,200

or that talk at ufo congress talking

545

00:20:30,390 --> 00:20:28,240

about that uh

546

00:20:31,909 --> 00:20:30,400

dude it was are you sure it wasn't nap

547

00:20:34,070 --> 00:20:31,919

are you sure it was george knapp

548

00:20:35,590 --> 00:20:34,080

he was there okay that was george knapp

549

00:20:37,110 --> 00:20:35,600

talking about that talking about that

550

00:20:38,470 --> 00:20:37,120

and he also showed us that picture of

551

00:20:41,669 --> 00:20:38,480

some really crazy like

552

00:20:48,630 --> 00:20:44,870

uh that was awesome but yeah so

553

00:20:51,430 --> 00:20:48,640

um so maybe we just text him and see

554

00:20:53,350 --> 00:20:51,440

hey hey george george george what are

555

00:20:56,630 --> 00:20:53,360

you doing

556

00:20:58,230 --> 00:20:56,640

i mean dinner are you having ostrich too

557

00:20:59,990 --> 00:20:58,240

and he's like no and you're like okay

558

00:21:02,310 --> 00:21:00,000

bye

559

00:21:03,750 --> 00:21:02,320

you like forget like and then hang out

560

00:21:10,070 --> 00:21:03,760

with us and we're like that dude was

561

00:21:14,870 --> 00:21:11,590

i want a picture of george knapp eating

562

00:21:17,909 --> 00:21:16,070

someone out there has got to know

563

00:21:19,110 --> 00:21:17,919

photoshop well enough to do that but

564

00:21:20,549 --> 00:21:19,120

don't be weird about it okay

565

00:21:22,470 --> 00:21:20,559

don't be weird don't be like all right

566

00:21:23,909 --> 00:21:22,480

just put all right all right

567

00:21:25,990 --> 00:21:23,919

all right we're going to call on ufo

568

00:21:27,029 --> 00:21:26,000

twitter hashtag it's a hot dog but it's

569

00:21:29,029 --> 00:21:27,039

a tic tac in the middle

570

00:21:30,230 --> 00:21:29,039

instead of the hot dog the weenie

571

00:21:37,830 --> 00:21:30,240

hashtag

572

00:21:39,430 --> 00:21:37,840

eating up eating hot ducks yeah nothing

573

00:21:41,350 --> 00:21:39,440

sexual about that statement i just think

574

00:21:42,789 --> 00:21:41,360

like that's that's a random food that

575

00:21:44,390 --> 00:21:42,799

would be kind of funny

576
00:21:47,029 --> 00:21:44,400
dude it's about to be america's day so

577
00:21:50,710 --> 00:21:47,039
hot dogs are on the brain bro

578
00:21:53,909 --> 00:21:50,720
yeah full of them

579
00:21:56,390 --> 00:21:53,919
bob lazar is hiding in a cave oh yeah

580
00:21:58,149 --> 00:21:56,400
yeah kind of seeing it i don't know he

581
00:22:01,510 --> 00:21:58,159
did just post on uh on

582
00:22:01,830 --> 00:22:01,520
on instagram a uh an interesting post

583
00:22:04,870 --> 00:22:01,840
where

584
00:22:06,470 --> 00:22:04,880
he's selling some some blueprints some

585
00:22:09,909 --> 00:22:06,480
some handwritten

586
00:22:11,750 --> 00:22:09,919
blueprints or hand-drawn blueprints of

587
00:22:13,029 --> 00:22:11,760
the sports model i don't know if you

588
00:22:15,270 --> 00:22:13,039

guys follow him on

589

00:22:17,110 --> 00:22:15,280

on instagram do you follow uh bob lazar

590

00:22:20,149 --> 00:22:17,120

on instagram

591

00:22:22,470 --> 00:22:20,159

uh i don't actually uh i should i

592

00:22:23,510 --> 00:22:22,480

i i assumed he was like such a recluse

593

00:22:25,909 --> 00:22:23,520

that he wouldn't have an

594

00:22:27,350 --> 00:22:25,919

instagram yeah i guess he does he's on

595

00:22:28,950 --> 00:22:27,360

instagram since i don't know who's

596

00:22:31,750 --> 00:22:28,960

posting for him but it's definitely like

597

00:22:33,590 --> 00:22:31,760

he's signing uh the these these

598

00:22:35,590 --> 00:22:33,600

blueprints of of his

599

00:22:37,190 --> 00:22:35,600

his memory and it's it's a lot more

600

00:22:38,630 --> 00:22:37,200

in-depth than than what they show in the

601
00:22:39,990 --> 00:22:38,640
documentary in jeremy corbell's

602
00:22:41,510 --> 00:22:40,000
documentary it's pretty cool

603
00:22:43,270 --> 00:22:41,520
i don't know that's pretty sweet i kind

604
00:22:46,470 --> 00:22:43,280
of want one dude

605
00:22:49,430 --> 00:22:46,480
i want to see all the damn cia's ufo

606
00:22:52,710 --> 00:22:51,430
yeah i want to see it too yeah you know

607
00:22:54,549 --> 00:22:52,720
what would be hilarious though

608
00:22:55,160 --> 00:22:54,559
is if they're just as shitty as all of

609
00:22:56,470 --> 00:22:55,170
ours

610
00:23:00,390 --> 00:22:56,480
[Music]

611
00:23:04,070 --> 00:23:00,400
yeah they're all going to be bad because

612
00:23:05,510 --> 00:23:04,080
like what i think what our our idea of

613
00:23:06,789 --> 00:23:05,520

it is this first second we'll take a

614

00:23:10,630 --> 00:23:06,799

break is that

615

00:23:14,230 --> 00:23:12,870

i know i know we'll get past it you guys

616

00:23:16,390 --> 00:23:14,240

uh but like

617

00:23:18,230 --> 00:23:16,400

taking a photo like that was one of our

618

00:23:20,390 --> 00:23:18,240

of our first episodes

619

00:23:22,230 --> 00:23:20,400

two years ago by the way we haven't even

620

00:23:23,750 --> 00:23:22,240

uh said anything it's been our two year

621

00:23:24,710 --> 00:23:23,760

anniversary for like a couple like a

622

00:23:27,190 --> 00:23:24,720

month now

623

00:23:28,870 --> 00:23:27,200

yeah it has been so we're two years old

624

00:23:32,230 --> 00:23:28,880

yay yay

625

00:23:34,470 --> 00:23:32,240

uh but yeah like we're so adorable twos

626

00:23:36,870 --> 00:23:34,480

yeah get ready it's pretty bad it's

627

00:23:38,870 --> 00:23:36,880

gonna get worse i'm gonna bite we're

628

00:23:41,750 --> 00:23:38,880

gonna start biting

629

00:23:43,110 --> 00:23:41,760

uh but yeah like uh if you try to take a

630

00:23:45,669 --> 00:23:43,120

photo of something that's

631

00:23:46,710 --> 00:23:45,679

that's that's defying the laws of

632

00:23:49,830 --> 00:23:46,720

gravity

633

00:23:51,430 --> 00:23:49,840

can it not be okay that it's not easy to

634

00:23:53,590 --> 00:23:51,440

take a photo of that thing

635

00:23:54,549 --> 00:23:53,600

like if it's vibrating let's say in a

636

00:23:57,269 --> 00:23:54,559

different

637

00:23:57,990 --> 00:23:57,279

frequency of of matter like if

638

00:24:00,470 --> 00:23:58,000

something's

639

00:24:01,990 --> 00:24:00,480

moving without any signs of of

640

00:24:05,590 --> 00:24:02,000

traditional

641

00:24:07,830 --> 00:24:05,600

propulsion uh it makes sense in my mind

642

00:24:10,789 --> 00:24:07,840

that they're doing something weird

643

00:24:11,669 --> 00:24:10,799

with with frequency of like atoms and

644

00:24:13,510 --> 00:24:11,679

when you start

645

00:24:15,350 --> 00:24:13,520

vibrating things like yeah they can get

646

00:24:17,350 --> 00:24:15,360

hot but like then i think about

647

00:24:18,789 --> 00:24:17,360

like heat waves and how they can me they

648

00:24:20,630 --> 00:24:18,799

can mess with

649

00:24:22,310 --> 00:24:20,640

with the the light spectrum and how they

650

00:24:24,310 --> 00:24:22,320

can kind of wave

651

00:24:25,909 --> 00:24:24,320

things away it's not like you think of

652

00:24:26,950 --> 00:24:25,919

like gravity waves and how they can bend

653

00:24:28,870 --> 00:24:26,960

light but also

654

00:24:30,070 --> 00:24:28,880

heat can bend light in a way you know

655

00:24:31,269 --> 00:24:30,080

like heat waves

656

00:24:33,190 --> 00:24:31,279

i don't know if i sound like complete

657

00:24:34,870 --> 00:24:33,200

dumb ass by saying that but no

658

00:24:36,390 --> 00:24:34,880

i'm just saying like maybe it affects it

659

00:24:37,909 --> 00:24:36,400

maybe i'm just not so easy to take a

660

00:24:41,110 --> 00:24:37,919

photo of something that's

661

00:24:43,590 --> 00:24:41,120

defying the laws of gravity i don't know

662

00:24:45,350 --> 00:24:43,600

it i would i would say that's true

663

00:24:47,029 --> 00:24:45,360

because it seems to be pretty hard to

664

00:24:48,950 --> 00:24:47,039

get a photo of one

665

00:24:50,950 --> 00:24:48,960

i'm trying i mean we've all got like

666

00:24:52,390 --> 00:24:50,960

these like random little photos but it's

667

00:24:54,710 --> 00:24:52,400

like

668

00:24:55,830 --> 00:24:54,720

it's it's hard to it's hard to have a

669

00:24:57,909 --> 00:24:55,840

good camera

670

00:24:59,110 --> 00:24:57,919

what at the right time in the right

671

00:25:01,350 --> 00:24:59,120

place so

672

00:25:02,630 --> 00:25:01,360

so what do you okay so the the clearest

673

00:25:06,070 --> 00:25:02,640

photo i've ever seen

674

00:25:07,510 --> 00:25:06,080

is what jocelyn buckner showed us

675

00:25:08,950 --> 00:25:07,520

yeah so what do you what that shit's

676
00:25:09,830 --> 00:25:08,960
crazy that's in the documentary you're

677
00:25:11,669 --> 00:25:09,840
putting together

678
00:25:13,430 --> 00:25:11,679
what do you i showed i showed luke that

679
00:25:14,470 --> 00:25:13,440
and he was he didn't really have the

680
00:25:17,190 --> 00:25:14,480
best

681
00:25:17,909 --> 00:25:17,200
reaction he it really wasn't like an

682
00:25:20,789 --> 00:25:17,919
astounding

683
00:25:22,070 --> 00:25:20,799
he was like okay well okay i've seen

684
00:25:24,390 --> 00:25:22,080
that so what do you think is that are

685
00:25:26,870 --> 00:25:24,400
you telling me that that's real

686
00:25:28,390 --> 00:25:26,880
that's the reaction i got so i don't

687
00:25:32,230 --> 00:25:28,400
know what do you think you're like

688
00:25:36,149 --> 00:25:32,240

yeah it's a polaroid from like the 1970s

689

00:25:42,149 --> 00:25:36,159

yeah uh and it's got the sample on it

690

00:25:43,830 --> 00:25:42,159

man so is that an actual ufo

691

00:25:46,230 --> 00:25:43,840

it's the most clear you've it's it's the

692

00:25:49,909 --> 00:25:46,240

most clear picture i've ever seen

693

00:25:51,269 --> 00:25:49,919

what's that one um damn it it's like uh

694

00:25:52,310 --> 00:25:51,279

there's like the it's all black and

695

00:25:53,909 --> 00:25:52,320

white photo

696

00:25:55,510 --> 00:25:53,919

andrew gnomes what's up brother sorry i

697

00:25:55,990 --> 00:25:55,520

had to say what's up there's like this

698

00:25:58,230 --> 00:25:56,000

uh i think

699

00:25:59,590 --> 00:25:58,240

there's like a lady standing outside and

700

00:26:01,110 --> 00:25:59,600

there's been a photo being taken and

701
00:26:01,990 --> 00:26:01,120
there's like a saucer like up in the

702
00:26:03,750 --> 00:26:02,000
corner

703
00:26:05,750 --> 00:26:03,760
i forget the name of the photo but

704
00:26:08,950 --> 00:26:05,760
that's a pretty good one too

705
00:26:11,029 --> 00:26:08,960
you know um one is this related

706
00:26:11,990 --> 00:26:11,039
i'm not i'm not remembering is is it one

707
00:26:14,630 --> 00:26:12,000
that jocelyn

708
00:26:15,350 --> 00:26:14,640
shared just another random photo oh god

709
00:26:19,590 --> 00:26:15,360
yeah

710
00:26:22,950 --> 00:26:19,600
i don't remember uh i mean

711
00:26:24,549 --> 00:26:22,960
so i kind of want to show people it but

712
00:26:26,390 --> 00:26:24,559
it's like i have to like scrub through

713
00:26:28,070 --> 00:26:26,400

our trailer i don't want to show our

714

00:26:30,789 --> 00:26:28,080

trailer again

715

00:26:31,909 --> 00:26:30,799

uh we'll we'll we'll show it at the end

716

00:26:33,430 --> 00:26:31,919

after we're getting through

717

00:26:35,029 --> 00:26:33,440

we'll show it after we get through

718

00:26:37,190 --> 00:26:35,039

through this little segment yeah

719

00:26:38,390 --> 00:26:37,200

yeah yeah well maybe people know what it

720

00:26:40,149 --> 00:26:38,400

is maybe

721

00:26:41,669 --> 00:26:40,159

they've seen it okay well let's pull it

722

00:26:42,630 --> 00:26:41,679

up we can pull it up let's do it we

723

00:26:43,990 --> 00:26:42,640

don't have to you know

724

00:26:45,750 --> 00:26:44,000

show the whole trailer but we can just

725

00:26:48,230 --> 00:26:45,760

skin through that little that little

726
00:26:50,549 --> 00:26:48,240
piece of it yeah let's do that

727
00:26:53,350 --> 00:26:50,559
and see if anybody knows if anybody's

728
00:26:58,149 --> 00:26:53,360
seen it

729
00:26:58,159 --> 00:27:02,390
no it's before that it is i think okay

730
00:27:13,540 --> 00:27:06,710
um hi i'm melinda it's me

731
00:27:13,550 --> 00:27:17,269
[Music]

732
00:27:21,510 --> 00:27:20,630
is it uh see it's hard to scrub in this

733
00:27:25,750 --> 00:27:21,520
this

734
00:27:29,750 --> 00:27:27,590
i think it's even i think it's before

735
00:27:32,950 --> 00:27:29,760
that oh there it is

736
00:27:37,029 --> 00:27:32,960
okay boom

737
00:27:42,549 --> 00:27:39,460
well no wait no no

738
00:27:44,549 --> 00:27:42,559

[Laughter]

739

00:27:46,149 --> 00:27:44,559

what are you doing what are you doing

740

00:27:50,230 --> 00:27:46,159

dude

741

00:27:52,470 --> 00:27:50,240

all right uh it's so complicated there's

742

00:27:55,590 --> 00:27:52,480

so many buttons i don't know what i'm

743

00:27:58,310 --> 00:27:55,600

doing there we go yeah there

744

00:27:58,950 --> 00:27:58,320

that's it yeah so that's the photo we're

745

00:28:02,230 --> 00:27:58,960

talking about

746

00:28:04,389 --> 00:28:02,240

i mean it's pretty interesting jocelyn

747

00:28:05,750 --> 00:28:04,399

buckner has this photo it's a polaroid

748

00:28:09,990 --> 00:28:05,760

on the back of it it's

749

00:28:13,029 --> 00:28:10,000

it's it's it's legit it says 1971

750

00:28:16,149 --> 00:28:13,039

kodak yeah it's like printed

751

00:28:16,870 --> 00:28:16,159

i know we say polaroid but like i don't

752

00:28:20,230 --> 00:28:16,880

know man

753

00:28:23,830 --> 00:28:20,240

i'm thinking it's like if it's not right

754

00:28:28,070 --> 00:28:23,840

maybe it's one of those old-school

755

00:28:30,310 --> 00:28:28,080

like street lamps that used to screw in

756

00:28:32,149 --> 00:28:30,320

to the top of the pole and then it's got

757

00:28:34,870 --> 00:28:32,159

these two lights on the bottom

758

00:28:35,350 --> 00:28:34,880

yeah and that's like the top of the

759

00:28:38,710 --> 00:28:35,360

light

760

00:28:41,269 --> 00:28:38,720

you know could be this so this here

761

00:28:43,750 --> 00:28:41,279

this so we see these two circles here

762

00:28:45,669 --> 00:28:43,760

and then this one's a little a little

763

00:28:47,669 --> 00:28:45,679

different i don't know if that's the

764

00:28:49,669 --> 00:28:47,679

middle or

765

00:28:52,070 --> 00:28:49,679

maybe because this one's a little bigger

766

00:28:53,430 --> 00:28:52,080

uh it's covering up that third one

767

00:28:56,630 --> 00:28:53,440

but i don't know i'm just seeing like a

768

00:28:58,070 --> 00:28:56,640

triangular pattern but i don't know

769

00:29:01,190 --> 00:28:58,080

you know what i mean why is it floating

770

00:29:04,310 --> 00:29:01,200

in the air i don't know

771

00:29:06,389 --> 00:29:04,320

i don't know you know

772

00:29:07,830 --> 00:29:06,399

so i don't know that's the photo we were

773

00:29:10,230 --> 00:29:07,840

talking about just a second ago

774

00:29:11,269 --> 00:29:10,240

um that's the clearest photo that i've

775

00:29:13,510 --> 00:29:11,279

seen of of

776

00:29:15,510 --> 00:29:13,520

of somebody who says this is a ufo i

777

00:29:18,070 --> 00:29:15,520

mean that's

778

00:29:19,590 --> 00:29:18,080

that's the clearest one so so luke was

779

00:29:22,070 --> 00:29:19,600

like i don't know like

780

00:29:23,430 --> 00:29:22,080

are you saying that's a real ufo yeah

781

00:29:24,870 --> 00:29:23,440

and i didn't know how to answer that

782

00:29:26,630 --> 00:29:24,880

because like

783

00:29:28,710 --> 00:29:26,640

it's so strange it's like we've always

784

00:29:29,590 --> 00:29:28,720

talked about is if anybody were to ever

785

00:29:35,669 --> 00:29:29,600

give

786

00:29:37,669 --> 00:29:35,679

and like would you even believe it like

787

00:29:41,510 --> 00:29:37,679

nothing's ever gonna be good enough

788

00:29:43,909 --> 00:29:41,520

unless they like show up and say

789

00:29:45,510 --> 00:29:43,919

wake up dude we're [h__h] here like

790

00:29:48,630 --> 00:29:45,520

yeah you know

791

00:29:49,750 --> 00:29:48,640

or yeah that that thing where you show

792

00:29:52,070 --> 00:29:49,760

up on the

793

00:29:52,789 --> 00:29:52,080

white house lawn i don't know man i

794

00:29:57,669 --> 00:29:52,799

don't know man

795

00:30:00,789 --> 00:29:57,679

ah william's here what is up brother

796

00:30:02,950 --> 00:30:00,799

good to have you man oh yeah

797

00:30:04,549 --> 00:30:02,960

but uh okay all right so we got off

798

00:30:05,830 --> 00:30:04,559

track um

799

00:30:07,590 --> 00:30:05,840

anyway so let's go back you want to go

800

00:30:11,669 --> 00:30:07,600

back to the yeah back to the

801
00:30:14,870 --> 00:30:11,679
chile so the next part is the

802
00:30:16,630 --> 00:30:14,880
the uh there we go official department

803
00:30:18,710 --> 00:30:16,640
of national intelligence prepared this

804
00:30:21,350 --> 00:30:18,720
report for congressional intelligence

805
00:30:22,950 --> 00:30:21,360
and armed service committees

806
00:30:24,710 --> 00:30:22,960
so they've already said the word threat

807
00:30:26,310 --> 00:30:24,720
three times in it and we haven't even

808
00:30:29,350 --> 00:30:26,320
gotten past like the

809
00:30:30,149 --> 00:30:29,360
just the the scope yeah right right this

810
00:30:35,190 --> 00:30:30,159
is still

811
00:30:39,029 --> 00:30:35,200
this is the scope so the uapf and the

812
00:30:41,269 --> 00:30:39,039
odni uh national intelligence manager

813
00:30:44,389 --> 00:30:41,279

for aviation drafted this report

814

00:30:47,669 --> 00:30:44,399
with input from usd

815

00:30:51,510 --> 00:30:47,679
ins dia fbi

816

00:30:55,350 --> 00:30:51,520
nro nga nsa air force

817

00:30:59,110 --> 00:30:55,360
army navy navy on i

818

00:31:02,830 --> 00:30:59,120
darpa faa noah nga

819

00:31:04,070 --> 00:31:02,840
odni and i am emergency and disruptive

820

00:31:06,789 --> 00:31:04,080
technology

821

00:31:07,430 --> 00:31:06,799
oh dni national they could have like

822

00:31:09,269 --> 00:31:07,440
really

823

00:31:10,470 --> 00:31:09,279
figured out a way to short shorten all

824

00:31:12,389 --> 00:31:10,480
this stuff they tried with the

825

00:31:15,990 --> 00:31:12,399
acquisitions

826
00:31:18,870 --> 00:31:16,000
but but it's like so they had

827
00:31:20,470 --> 00:31:18,880
inputs from i don't know how many that

828
00:31:23,909 --> 00:31:20,480
is i mean

829
00:31:26,230 --> 00:31:23,919
uh well the national intelligence they

830
00:31:27,430 --> 00:31:26,240
they prepared the report for all of

831
00:31:29,830 --> 00:31:27,440
these people

832
00:31:30,470 --> 00:31:29,840
so the odni national intelligence

833
00:31:34,470 --> 00:31:30,480
manager

834
00:31:37,590 --> 00:31:34,480
drafted this report with input from

835
00:31:41,350 --> 00:31:37,600
all of these people so 1 2

836
00:31:45,029 --> 00:31:41,360
3 4 5 6 7 8 9

837
00:31:48,750 --> 00:31:45,039
10 11 12 13 14

838
00:31:51,750 --> 00:31:48,760

15 16

839

00:31:55,430 --> 00:31:51,760

17. that's a lot

840

00:31:57,430 --> 00:31:55,440

dude so a lot of hands

841

00:31:58,789 --> 00:31:57,440

a lot of a lot of spatulas in the

842

00:32:00,950 --> 00:31:58,799

kitchen

843

00:32:04,870 --> 00:32:00,960

uh what it sounds like to me the biggest

844

00:32:09,430 --> 00:32:07,430

yeah because that's been like the the

845

00:32:13,430 --> 00:32:09,440

the main

846

00:32:15,430 --> 00:32:13,440

uh vein of this this conspiracy of like

847

00:32:16,470 --> 00:32:15,440

for so long of like they control the

848

00:32:17,990 --> 00:32:16,480

weather

849

00:32:19,350 --> 00:32:18,000

and i always thought like man that

850

00:32:21,110 --> 00:32:19,360

sounds so crazy when you say but when

851
00:32:22,470 --> 00:32:21,120
you start looking into like what darpa

852
00:32:23,909 --> 00:32:22,480
does dude

853
00:32:25,750 --> 00:32:23,919
you can get like just go to their

854
00:32:27,669 --> 00:32:25,760
website they talk about what they're

855
00:32:27,990 --> 00:32:27,679
doing they're like okay there's ufos

856
00:32:30,470 --> 00:32:28,000
right

857
00:32:33,110 --> 00:32:30,480
over the west coast let's uh try and

858
00:32:36,549 --> 00:32:33,120
create some crazy like electromagnetic

859
00:32:39,830 --> 00:32:36,559
system in the area fire up the

860
00:32:42,470 --> 00:32:39,840
antennas i mean

861
00:32:43,990 --> 00:32:42,480
they talk about the [h__\h] that they do

862
00:32:47,909 --> 00:32:44,000
like

863
00:32:50,230 --> 00:32:47,919

our research uh it's it's it's a lot

864

00:32:51,990 --> 00:32:50,240

planned oh that's kind of creepy plan x

865

00:32:54,549 --> 00:32:52,000

what is that about what is plan

866

00:32:55,590 --> 00:32:54,559

x fundamental research voices our

867

00:32:59,830 --> 00:32:55,600

programs let's

868

00:33:04,549 --> 00:32:59,840

look at the programs you brain

869

00:33:08,870 --> 00:33:04,559

oh no accelerated molecular discovery

870

00:33:14,070 --> 00:33:12,389

uh yeah man there's a lot of stuff

871

00:33:15,590 --> 00:33:14,080

and it's it's like kind of the basis for

872

00:33:17,350 --> 00:33:15,600

a lot of these conspiracy theories but

873

00:33:18,710 --> 00:33:17,360

as we're finding out i think in this age

874

00:33:20,470 --> 00:33:18,720

is that a lot of these conspiracy

875

00:33:22,389 --> 00:33:20,480

theories that used to sound crazy are

876

00:33:25,029 --> 00:33:22,399

not sounding crazy anymore dude

877

00:33:27,430 --> 00:33:25,039

right right so anyway i just wanted to

878

00:33:32,389 --> 00:33:27,440

point that out that darpa was included

879

00:33:35,430 --> 00:33:32,399

as as an authority figure to put input

880

00:33:38,310 --> 00:33:35,440

on this report so if

881

00:33:40,310 --> 00:33:38,320

they were so say like one draft of this

882

00:33:43,750 --> 00:33:40,320

was 17 pages

883

00:33:45,509 --> 00:33:43,760

one page per entity and they're like

884

00:33:47,269 --> 00:33:45,519

cut that down cut that down we're not

885

00:33:47,990 --> 00:33:47,279

ready for people to know about this cut

886

00:33:51,190 --> 00:33:48,000

that down

887

00:33:54,549 --> 00:33:51,200

and now it's six pages long

888

00:33:55,669 --> 00:33:54,559

and each little entity the out of the 17

889

00:33:57,669 --> 00:33:55,679

entities

890

00:33:59,990 --> 00:33:57,679

has at the end of it like a sentence

891

00:34:03,029 --> 00:34:00,000

that's okay to show the public the

892

00:34:05,430 --> 00:34:03,039

the the unclassified version right right

893

00:34:07,029 --> 00:34:05,440

you know it's there like i've worked for

894

00:34:10,069 --> 00:34:07,039

so many tech companies like

895

00:34:13,589 --> 00:34:10,079

that trade secret aspect is so like

896

00:34:16,149 --> 00:34:13,599

people are so [h__h] like scared about

897

00:34:17,750 --> 00:34:16,159

people copying their research uh not

898

00:34:20,629 --> 00:34:17,760

just to make money but in this case

899

00:34:22,389 --> 00:34:20,639

like a government uh entity i can i can

900

00:34:23,829 --> 00:34:22,399

see where they're coming from it's like

901
00:34:25,990 --> 00:34:23,839
not only can you get your research

902
00:34:29,270 --> 00:34:26,000
stolen or like an idea

903
00:34:31,109 --> 00:34:29,280
uh expressed you know like ideas are so

904
00:34:34,710 --> 00:34:31,119
contagious like it only takes

905
00:34:36,869 --> 00:34:34,720
one little moment right yeah to to spark

906
00:34:38,790 --> 00:34:36,879
an imagination of somebody else that is

907
00:34:39,829 --> 00:34:38,800
just as smart if not smarter than you so

908
00:34:41,589 --> 00:34:39,839
i can see where they're coming from

909
00:34:43,430 --> 00:34:41,599
trying to protect some of that stuff

910
00:34:45,829 --> 00:34:43,440
and i'm not saying this is a bad thing

911
00:34:46,790 --> 00:34:45,839
uh but you know when it comes down to

912
00:34:49,990 --> 00:34:46,800
like

913
00:34:51,750 --> 00:34:50,000

making what it probably is which we may

914

00:34:53,750 --> 00:34:51,760

know that it's a lot more than the

915

00:34:55,750 --> 00:34:53,760

six pages except nine pages that we know

916

00:34:59,109 --> 00:34:55,760

of uh what it was

917

00:35:00,790 --> 00:34:59,119

now what it is uh

918

00:35:03,349 --> 00:35:00,800

it's just weird seeing like what

919

00:35:05,510 --> 00:35:03,359

sentences they were allowed to put in

920

00:35:07,910 --> 00:35:05,520

so i guess i don't it's also interesting

921

00:35:09,270 --> 00:35:07,920

to think about the fact that

922

00:35:11,030 --> 00:35:09,280

you know everybody's only been talking

923

00:35:11,349 --> 00:35:11,040

about like the navy and stuff lately but

924

00:35:15,430 --> 00:35:11,359

they

925

00:35:19,190 --> 00:35:15,440

obviously listed 17 different

926

00:35:20,550 --> 00:35:19,200

uh agencies you know that are in the

927

00:35:23,670 --> 00:35:20,560

government which means that

928

00:35:27,190 --> 00:35:23,680

every single one of these people has

929

00:35:30,710 --> 00:35:27,200

their their own little piece of data

930

00:35:34,390 --> 00:35:30,720

right and how compartmentalized within

931

00:35:36,630 --> 00:35:34,400

each one of those 17 programs

932

00:35:38,390 --> 00:35:36,640

do they keep that stuff and so when they

933

00:35:40,710 --> 00:35:38,400

went and asked all of them i can only

934

00:35:42,550 --> 00:35:40,720

imagine like

935

00:35:44,710 --> 00:35:42,560

they were probably like oh well we don't

936

00:35:47,349 --> 00:35:44,720

want the dia to know about this

937

00:35:48,390 --> 00:35:47,359

you know like the fbi is like well we

938

00:35:50,550 --> 00:35:48,400

don't want the nsa

939

00:35:52,390 --> 00:35:50,560

treading on our territory the nsa is

940

00:35:54,550 --> 00:35:52,400

like well we don't need the nga

941

00:35:56,470 --> 00:35:54,560

poking around here you know so like i

942

00:35:58,630 --> 00:35:56,480

wonder how much like

943

00:36:00,150 --> 00:35:58,640

other cool [h__\h] that they have that like

944

00:36:02,150 --> 00:36:00,160

nobody just wanted to give up the

945

00:36:06,069 --> 00:36:02,160

information on on certain things

946

00:36:09,109 --> 00:36:06,079

exactly 17 different

947

00:36:11,349 --> 00:36:09,119

little outlets yeah also uh

948

00:36:12,950 --> 00:36:11,359

within the community of of these uh

949

00:36:14,630 --> 00:36:12,960

alphabet agencies

950

00:36:16,710 --> 00:36:14,640

don't you know that it's totally

951

00:36:18,630 --> 00:36:16,720

probably a real thing where

952

00:36:20,230 --> 00:36:18,640

the reason why they say the things they

953

00:36:21,990 --> 00:36:20,240

say oh i don't want the fbi to know

954

00:36:24,390 --> 00:36:22,000

about this because so and so

955

00:36:27,030 --> 00:36:24,400

is because probably years and years have

956

00:36:29,270 --> 00:36:27,040

gone by where there's been double agents

957

00:36:30,390 --> 00:36:29,280

yeah that has been like you really have

958

00:36:33,829 --> 00:36:30,400

to keep your

959

00:36:35,430 --> 00:36:33,839

your information close because maybe all

960

00:36:37,750 --> 00:36:35,440

of them have been infiltrated at one

961

00:36:39,430 --> 00:36:37,760

point and that's why they're so like

962

00:36:40,790 --> 00:36:39,440

traumatized by that and that's why they

963

00:36:43,910 --> 00:36:40,800

don't that's why they

964

00:36:45,829 --> 00:36:43,920

compartmentalize stuff so again i i

965

00:36:47,430 --> 00:36:45,839

love to think about this as a human

966

00:36:49,349 --> 00:36:47,440

nature thing not like as a government

967

00:36:50,950 --> 00:36:49,359

all-seeing eye kind of thing

968

00:36:52,550 --> 00:36:50,960

you know i love to think about that

969

00:36:54,390 --> 00:36:52,560

because that's fun but like breaking it

970

00:36:56,310 --> 00:36:54,400

down into a human thing

971

00:36:57,430 --> 00:36:56,320

it it can make sense if you think about

972

00:37:00,069 --> 00:36:57,440

it as is

973

00:37:01,910 --> 00:37:00,079

is five people in a room you know one

974

00:37:04,470 --> 00:37:01,920

one person's kind of

975

00:37:05,910 --> 00:37:04,480

always you know talking about drama or

976
00:37:07,670 --> 00:37:05,920
whatever you don't really want to like

977
00:37:09,109 --> 00:37:07,680
tell that person all your secrets you

978
00:37:09,829 --> 00:37:09,119
kind of want to hold a little bit to

979
00:37:13,109 --> 00:37:09,839
your chest

980
00:37:13,670 --> 00:37:13,119
no now scale that up to you know times a

981
00:37:15,750 --> 00:37:13,680
thousand

982
00:37:16,790 --> 00:37:15,760
yeah you don't want to be jabber into

983
00:37:19,190 --> 00:37:16,800
just anybody

984
00:37:21,030 --> 00:37:19,200
yeah unless it's unless it's on purpose

985
00:37:22,390 --> 00:37:21,040
absolutely but yeah 17 different

986
00:37:25,030 --> 00:37:22,400
entities were

987
00:37:25,670 --> 00:37:25,040
gave input on this entire thing i think

988
00:37:28,069 --> 00:37:25,680

that's

989

00:37:30,470 --> 00:37:28,079

something to be said dude yeah yeah this

990

00:37:33,750 --> 00:37:30,480

next little piece is kind of strange

991

00:37:36,470 --> 00:37:33,760

because it's under assumptions ass

992

00:37:37,109 --> 00:37:36,480

various forms of sensors that register

993

00:37:39,589 --> 00:37:37,119

uap

994

00:37:40,230 --> 00:37:39,599

generally operate correctly and capture

995

00:37:43,030 --> 00:37:40,240

enough

996

00:37:44,630 --> 00:37:43,040

real data to allow initial assessments

997

00:37:47,829 --> 00:37:44,640

but some uap

998

00:37:51,430 --> 00:37:47,839

may be attributable nice

999

00:37:52,790 --> 00:37:51,440

to sensor anomalies so

1000

00:37:54,550 --> 00:37:52,800

oh that's not really okay that's the

1001
00:37:56,950 --> 00:37:54,560
only assumption they made or is that

1002
00:37:58,230 --> 00:37:56,960
is that okay yeah no so this whole thing

1003
00:38:00,310 --> 00:37:58,240
is an assumption

1004
00:38:01,589 --> 00:38:00,320
executive summary so this is this is the

1005
00:38:04,550 --> 00:38:01,599
first thing

1006
00:38:06,069 --> 00:38:04,560
so they're saying various forms of okay

1007
00:38:06,390 --> 00:38:06,079
this is this is why we're doing this

1008
00:38:08,069 --> 00:38:06,400
right

1009
00:38:09,750 --> 00:38:08,079
like let's go back and actually break

1010
00:38:12,150 --> 00:38:09,760
this down yeah yeah

1011
00:38:14,069 --> 00:38:12,160
but is that so is that just an

1012
00:38:17,510 --> 00:38:14,079
assumption

1013
00:38:18,870 --> 00:38:17,520

did they did 17 of these organizations

1014

00:38:21,510 --> 00:38:18,880

not confirm

1015

00:38:24,069 --> 00:38:21,520

that there are various forms of sensors

1016

00:38:25,750 --> 00:38:24,079

that register uaps

1017

00:38:27,270 --> 00:38:25,760

yeah like how is what do you mean

1018

00:38:29,670 --> 00:38:27,280

assumption like are

1019

00:38:31,349 --> 00:38:29,680

we're assuming there's various forms of

1020

00:38:33,670 --> 00:38:31,359

sensors that register your

1021

00:38:35,750 --> 00:38:33,680

generally operate correctly shouldn't be

1022

00:38:38,310 --> 00:38:35,760

shouldn't they be informed by this time

1023

00:38:40,230 --> 00:38:38,320

after 17 different entities confirmed it

1024

00:38:41,430 --> 00:38:40,240

like there should be some kind of like

1025

00:38:43,270 --> 00:38:41,440

venn diagram

1026

00:38:45,190 --> 00:38:43,280

yeah yeah should confirm some of this

1027

00:38:49,109 --> 00:38:45,200

[h__h] i don't understand what assumptions

1028

00:38:51,910 --> 00:38:49,119

means like that doesn't make any sense

1029

00:38:53,349 --> 00:38:51,920

but that's also a cool statement if it's

1030

00:38:55,349 --> 00:38:53,359

not just an assumption

1031

00:38:56,710 --> 00:38:55,359

if that's really what's happening that

1032

00:38:58,710 --> 00:38:56,720

they do have

1033

00:38:59,990 --> 00:38:58,720

various forms of sensors that register

1034

00:39:02,710 --> 00:39:00,000

uap yeah

1035

00:39:03,750 --> 00:39:02,720

and they usually operate correctly yeah

1036

00:39:06,710 --> 00:39:03,760

enough to

1037

00:39:07,670 --> 00:39:06,720

get real data i i love that i love this

1038

00:39:09,990 --> 00:39:07,680

sentence dude

1039

00:39:11,030 --> 00:39:10,000
like it's so it's so dope whoever

1040

00:39:15,730 --> 00:39:11,040
whoever wrote this

1041

00:39:20,150 --> 00:39:17,030
[Music]

1042

00:39:23,430 --> 00:39:20,160
like they did it well man but

1043

00:39:24,470 --> 00:39:23,440
some uap may be attributable to sensor

1044

00:39:26,790 --> 00:39:24,480
anomalies

1045

00:39:29,750 --> 00:39:26,800
so there's a there's a couple of of

1046

00:39:33,109 --> 00:39:29,760
trigger words is various

1047

00:39:35,670 --> 00:39:33,119
generally and

1048

00:39:36,310 --> 00:39:35,680
anomalies we've seen that but like

1049

00:39:40,550 --> 00:39:36,320
various

1050

00:39:43,190 --> 00:39:40,560
that's so broad come on right like

1051
00:39:44,470 --> 00:39:43,200
what do you mean okay you could go in

1052
00:39:46,390 --> 00:39:44,480
detail but it would maybe

1053
00:39:47,910 --> 00:39:46,400
be repetitive and they don't want you

1054
00:39:49,670 --> 00:39:47,920
know it's already kind of

1055
00:39:50,870 --> 00:39:49,680
boring at this point right you're not if

1056
00:39:52,390 --> 00:39:50,880
you're looking for the good stuff you

1057
00:39:53,510 --> 00:39:52,400
look for that brown sugar like you're

1058
00:39:55,990 --> 00:39:53,520
ready

1059
00:39:58,870 --> 00:39:56,000
all right uh what's this it feels like

1060
00:40:01,589 --> 00:39:58,880
the chat's going crazy right now

1061
00:40:02,150 --> 00:40:01,599
don't forget the plastic bags the

1062
00:40:05,430 --> 00:40:02,160
subject

1063
00:40:15,430 --> 00:40:05,440

assumption yes

1064

00:40:19,030 --> 00:40:18,150

yeah yeah good point will and and tammy

1065

00:40:20,630 --> 00:40:19,040

yeah

1066

00:40:22,870 --> 00:40:20,640

well i could be pilots while training

1067

00:40:24,950 --> 00:40:22,880

now if you're seeing what they want

1068

00:40:27,109 --> 00:40:24,960

it to be something explainable yeah i

1069

00:40:29,589 --> 00:40:27,119

know i agree like

1070

00:40:30,950 --> 00:40:29,599

i feel like these pilots are are ready

1071

00:40:32,790 --> 00:40:30,960

to

1072

00:40:35,349 --> 00:40:32,800

tell what they've been seeing but but

1073

00:40:36,870 --> 00:40:35,359

also like

1074

00:40:38,790 --> 00:40:36,880

they would love it to be something they

1075

00:40:40,390 --> 00:40:38,800

can explain for sure

1076

00:40:41,910 --> 00:40:40,400

yeah yeah they don't want to make

1077

00:40:45,750 --> 00:40:41,920

assumptions

1078

00:40:50,069 --> 00:40:45,760

but but the uh

1079

00:40:53,270 --> 00:40:50,079

the the the national intelligence

1080

00:40:57,190 --> 00:40:55,990

yeah exactly it seems like it would be

1081

00:40:57,670 --> 00:40:57,200

the other way around like they would be

1082

00:40:59,910 --> 00:40:57,680

like

1083

00:41:01,510 --> 00:40:59,920

look i assume that this is what i saw

1084

00:41:02,309 --> 00:41:01,520

i'm telling you and then they would be

1085

00:41:04,790 --> 00:41:02,319

like okay

1086

00:41:06,309 --> 00:41:04,800

well from what we know but it's not it's

1087

00:41:07,430 --> 00:41:06,319

like the pilots are like look i know

1088

00:41:10,630 --> 00:41:07,440

what that was

1089

00:41:13,190 --> 00:41:10,640

now yes the intelligence council is like

1090

00:41:15,670 --> 00:41:13,200

well we're assuming

1091

00:41:16,470 --> 00:41:15,680

you know no the guy's like no no no

1092

00:41:19,349 --> 00:41:16,480

we're not that's

1093

00:41:21,109 --> 00:41:19,359

what it was [h__h] told you what i saw

1094

00:41:22,790 --> 00:41:21,119

like oh so you're telling me that this

1095

00:41:26,390 --> 00:41:22,800

is a fact

1096

00:41:30,309 --> 00:41:27,750

that's going to be so frustrating it's

1097

00:41:33,430 --> 00:41:30,319

got to be so frustrating

1098

00:41:35,670 --> 00:41:33,440

oh my gosh okay so all right

1099

00:41:37,030 --> 00:41:35,680

anyway my favorite sentence i think thus

1100

00:41:40,390 --> 00:41:37,040

far various for

1101

00:41:41,030 --> 00:41:40,400

all right sensors that may register so

1102

00:41:43,670 --> 00:41:41,040

they're talking about

1103

00:41:44,790 --> 00:41:43,680

sensors here yeah generally operate

1104

00:41:49,670 --> 00:41:44,800

correctly so

1105

00:41:51,910 --> 00:41:49,680

generally our st our [h__h] works well um

1106

00:41:53,109 --> 00:41:51,920

and capture enough real data to allow

1107

00:41:54,950 --> 00:41:53,119

initial assessment so

1108

00:41:56,390 --> 00:41:54,960

it's good enough to usually do some like

1109

00:41:59,670 --> 00:41:56,400

initial test work like

1110

00:42:02,470 --> 00:41:59,680

hey your toilet is flushing like we got

1111

00:42:03,990 --> 00:42:02,480

that that's cool but some toilets but we

1112

00:42:06,710 --> 00:42:04,000

want to know where does it go

1113

00:42:07,750 --> 00:42:06,720

like so some toilets may attribute uh

1114

00:42:11,190 --> 00:42:07,760

may be attributed to

1115

00:42:14,390 --> 00:42:11,200

uh attributes attributable

1116

00:42:16,470 --> 00:42:14,400

to uh flushing anomalies sensor

1117

00:42:18,950 --> 00:42:16,480

anomalies so i don't know

1118

00:42:20,950 --> 00:42:18,960

so is that like okay the sensor picked

1119

00:42:23,430 --> 00:42:20,960

it up here but then

1120

00:42:25,510 --> 00:42:23,440

did the sensor stop working or did that

1121

00:42:27,109 --> 00:42:25,520

thing really just go from here to over

1122

00:42:29,510 --> 00:42:27,119

here without tracking

1123

00:42:30,309 --> 00:42:29,520

right it's it's movement so they're

1124

00:42:32,390 --> 00:42:30,319

talking like

1125

00:42:33,670 --> 00:42:32,400

is it is it the the equipment that's

1126

00:42:35,190 --> 00:42:33,680

malfunctioning

1127

00:42:36,790 --> 00:42:35,200

because that could mean two things

1128

00:42:38,950 --> 00:42:36,800

number one maybe our

1129

00:42:41,589 --> 00:42:38,960

our equipment is isn't as good as we

1130

00:42:44,390 --> 00:42:41,599

think we it is

1131

00:42:46,470 --> 00:42:44,400

or it could be that whatever this is

1132

00:42:49,030 --> 00:42:46,480

this anomaly is affecting

1133

00:42:49,750 --> 00:42:49,040

the effectiveness of that is better than

1134

00:42:52,150 --> 00:42:49,760

our equipment

1135

00:42:53,030 --> 00:42:52,160

is better and can fool it it can like

1136

00:42:56,710 --> 00:42:53,040

hey

1137

00:42:59,990 --> 00:42:56,720

up over here yeah okay so here is

1138

00:43:02,550 --> 00:43:00,000

my favorite sentence of the report

1139

00:43:04,710 --> 00:43:02,560

the limited amount of high quality

1140

00:43:05,589 --> 00:43:04,720

reporting on unidentified aerial

1141

00:43:08,150 --> 00:43:05,599

phenomena

1142

00:43:10,230 --> 00:43:08,160

hampers our ability to draw firm

1143

00:43:13,589 --> 00:43:10,240

conclusions about the nature

1144

00:43:15,270 --> 00:43:13,599

or intent of uap then

1145

00:43:17,190 --> 00:43:15,280

okay what what do you like most about

1146

00:43:19,430 --> 00:43:17,200

that sentence

1147

00:43:24,829 --> 00:43:19,440

the limited amount of high quality

1148

00:43:29,109 --> 00:43:25,990

and

1149

00:43:30,390 --> 00:43:29,119

probably that whole sentence dude but

1150

00:43:32,470 --> 00:43:30,400

the first half of it

1151

00:43:34,550 --> 00:43:32,480

is kind of like the kicker so the

1152

00:43:35,750 --> 00:43:34,560

limited okay so what do they mean by

1153

00:43:39,030 --> 00:43:35,760

high quality

1154

00:43:39,510 --> 00:43:39,040

yeah like what's the who's better who's

1155

00:43:42,790 --> 00:43:39,520

better at

1156

00:43:43,349 --> 00:43:42,800

giving you the the information than the

1157

00:43:46,950 --> 00:43:43,359

people that

1158

00:43:49,030 --> 00:43:46,960

saw it right yeah who what's your

1159

00:43:50,950 --> 00:43:49,040

other [h__\h] option dude you just said

1160

00:43:52,790 --> 00:43:50,960

that your sensors may suck

1161

00:43:54,230 --> 00:43:52,800

so therefore the humans might be better

1162

00:43:57,190 --> 00:43:54,240

than your sensors am i not

1163

00:43:57,670 --> 00:43:57,200

correct what's more like we're talking

1164

00:44:01,190 --> 00:43:57,680

about the

1165

00:44:02,390 --> 00:44:01,200

the pres like the the the anatomy of

1166

00:44:03,910 --> 00:44:02,400

truth here

1167

00:44:05,750 --> 00:44:03,920

if you if that's what you're saying the

1168

00:44:07,349 --> 00:44:05,760

high quality reporting

1169

00:44:08,790 --> 00:44:07,359

so if it's not your sensors it's not

1170

00:44:10,950 --> 00:44:08,800

your your technology

1171

00:44:12,150 --> 00:44:10,960

and it's you can't rely on people's

1172

00:44:15,270 --> 00:44:12,160

memories like what

1173

00:44:16,069 --> 00:44:15,280

can you rely on dude like get like be

1174

00:44:19,190 --> 00:44:16,079

real with us

1175

00:44:20,710 --> 00:44:19,200

like it's you you gotta you gotta choose

1176

00:44:23,910 --> 00:44:20,720

one there

1177

00:44:26,230 --> 00:44:23,920

but they stay they stay completely

1178

00:44:27,030 --> 00:44:26,240

a third party about it they're not like

1179

00:44:29,510 --> 00:44:27,040

giving

1180

00:44:30,950 --> 00:44:29,520

up anything yeah which i think is very

1181

00:44:31,270 --> 00:44:30,960

smart honestly i think this whole thing

1182

00:44:33,109 --> 00:44:31,280

was

1183

00:44:34,630 --> 00:44:33,119

really well written honestly like i'm

1184

00:44:35,750 --> 00:44:34,640

not sitting here talking [h__\h] about this

1185

00:44:37,829 --> 00:44:35,760

thing i'm just like

1186

00:44:39,510 --> 00:44:37,839

whoo well that's why nobody likes it

1187

00:44:40,950 --> 00:44:39,520

there's some nuggets in here that like

1188

00:44:42,790 --> 00:44:40,960

this is why we're doing this we're

1189

00:44:45,109 --> 00:44:42,800

questioning it right

1190

00:44:47,109 --> 00:44:45,119

yep like going through it like you have

1191

00:44:49,510 --> 00:44:47,119

to do it so the unidentified aerial

1192

00:44:49,750 --> 00:44:49,520

phenomena task force considered a range

1193

00:44:52,230 --> 00:44:49,760

of

1194

00:44:53,109 --> 00:44:52,240

information on uap described in u.s

1195

00:44:55,430 --> 00:44:53,119

military

1196

00:44:56,790 --> 00:44:55,440

and intelligence community reporting but

1197

00:45:00,230 --> 00:44:56,800

because the reporting

1198

00:45:03,750 --> 00:45:00,240

lacks efficiency specif

1199

00:45:04,790 --> 00:45:03,760

sufficient specificity nice ultimately

1200

00:45:07,510 --> 00:45:04,800

recognized

1201
00:45:09,910 --> 00:45:07,520
that a unique tailored reporting process

1202
00:45:12,150 --> 00:45:09,920
was required to provide sufficient data

1203
00:45:16,630 --> 00:45:12,160
for analysis of uap events

1204
00:45:20,550 --> 00:45:18,950
i i see why they worded it that way like

1205
00:45:23,430 --> 00:45:20,560
it sounds smart dude like

1206
00:45:25,750 --> 00:45:23,440
just say that we don't know okay like

1207
00:45:29,510 --> 00:45:25,760
considering the range of information

1208
00:45:31,670 --> 00:45:29,520
like what you gave us uh

1209
00:45:33,270 --> 00:45:31,680
we don't know enough to know what that

1210
00:45:36,550 --> 00:45:33,280
means that's what they're saying right

1211
00:45:37,829 --> 00:45:36,560
yeah like tailored reporting process

1212
00:45:40,390 --> 00:45:37,839
that means like we don't even know what

1213
00:45:41,510 --> 00:45:40,400

to look for to provide you the

1214

00:45:44,150 --> 00:45:41,520

sufficient data

1215

00:45:45,990 --> 00:45:44,160

so this is like hey bro you came to us

1216

00:45:48,390 --> 00:45:46,000

asking how to make an italian

1217

00:45:49,349 --> 00:45:48,400

meatball sub we don't even know what

1218

00:45:51,510 --> 00:45:49,359

italy is

1219

00:45:53,510 --> 00:45:51,520

or what's italian like what's a meatball

1220

00:45:55,030 --> 00:45:53,520

sub we don't know where to go from

1221

00:45:57,030 --> 00:45:55,040

we can make it i've heard of a sandwich

1222

00:45:59,910 --> 00:45:57,040

before but we don't know how to make

1223

00:46:00,390 --> 00:45:59,920

meatballs we don't know your grandmother

1224

00:46:03,430 --> 00:46:00,400

yeah

1225

00:46:05,349 --> 00:46:03,440

like they don't know where is italy so

1226
00:46:06,710 --> 00:46:05,359
that begs the question i'm going back to

1227
00:46:08,390 --> 00:46:06,720
the very beginning of this thing like

1228
00:46:09,270 --> 00:46:08,400
who are they getting their information

1229
00:46:12,630 --> 00:46:09,280
from

1230
00:46:12,950 --> 00:46:12,640
those 17 different people still didn't

1231
00:46:15,030 --> 00:46:12,960
give

1232
00:46:17,510 --> 00:46:15,040
sufficient information for them to say a

1233
00:46:19,430 --> 00:46:17,520
coherent thought

1234
00:46:21,750 --> 00:46:19,440
that they understand so either that

1235
00:46:25,109 --> 00:46:21,760
means that none of the 17

1236
00:46:28,069 --> 00:46:25,119
entities know what the [h__\h] it is right

1237
00:46:32,230 --> 00:46:28,079
and they don't know what's going on or

1238
00:46:34,950 --> 00:46:32,240

who is making them meatball subs

1239

00:46:35,990 --> 00:46:34,960

i don't know seems fishy to me it seems

1240

00:46:37,589 --> 00:46:36,000

mean bali to me

1241

00:46:43,270 --> 00:46:37,599

it definitely seems a little fishy i

1242

00:46:45,510 --> 00:46:43,280

mean it seems like they're saying uh

1243

00:46:47,829 --> 00:46:45,520

okay so they ultimately recognize that a

1244

00:46:50,230 --> 00:46:47,839

unique tailored reporting process

1245

00:46:51,750 --> 00:46:50,240

was required to provide sufficient data

1246

00:46:55,349 --> 00:46:51,760

for analysis of uap

1247

00:46:57,910 --> 00:46:55,359

events does that mean that like

1248

00:47:00,069 --> 00:46:57,920

so we asked all these people these

1249

00:47:01,109 --> 00:47:00,079

questions and realized that we weren't

1250

00:47:04,630 --> 00:47:01,119

getting [h__h]

1251
00:47:06,069 --> 00:47:04,640
um but we know these guys that are like

1252
00:47:09,030 --> 00:47:06,079
part of the

1253
00:47:10,470 --> 00:47:09,040
the my labs program and that's a very

1254
00:47:13,670 --> 00:47:10,480
unique tailored

1255
00:47:18,069 --> 00:47:13,680
uh reporting process yeah you know

1256
00:47:21,349 --> 00:47:19,670
and i'm just i'm just sounds like a

1257
00:47:23,270 --> 00:47:21,359
circle man i'm going way out in left

1258
00:47:25,430 --> 00:47:23,280
field no i love it i'm saying i'm saying

1259
00:47:26,710 --> 00:47:25,440
some mylab [h__h] but like you know how

1260
00:47:27,270 --> 00:47:26,720
come they weren't mentioned in the

1261
00:47:29,670 --> 00:47:27,280
report

1262
00:47:30,470 --> 00:47:29,680
yeah where's my labs at yeah that's an

1263
00:47:32,230 --> 00:47:30,480

acronym

1264

00:47:34,309 --> 00:47:32,240

yeah a government act that should what

1265

00:47:37,510 --> 00:47:34,319

if it was dude what if it was in there

1266

00:47:38,150 --> 00:47:37,520

what if my labs was in that [\h__\h] oh oh

1267

00:47:41,750 --> 00:47:38,160

my god

1268

00:47:42,390 --> 00:47:41,760

melinda leslie would have a she would go

1269

00:47:44,790 --> 00:47:42,400

crazy

1270

00:47:46,150 --> 00:47:44,800

oh my gosh which hey we might show y'all

1271

00:47:48,309 --> 00:47:46,160

a video of melinda

1272

00:47:49,829 --> 00:47:48,319

uh well melinda leslie took jonah on sky

1273

00:47:51,670 --> 00:47:49,839

watch and we saw some [\h__\h]

1274

00:47:53,829 --> 00:47:51,680

he might show it i don't know if enough

1275

00:47:55,670 --> 00:47:53,839

people want us to show y'all some [\h__\h]

1276

00:47:57,510 --> 00:47:55,680

we saw in the sky we'll show it

1277

00:47:59,430 --> 00:47:57,520

um it's pretty cool it's pretty cool

1278

00:48:01,510 --> 00:47:59,440

it's pretty cool we're

1279

00:48:02,710 --> 00:48:01,520

we we posted a little bit we we posted

1280

00:48:04,710 --> 00:48:02,720

it on twitter i think but

1281

00:48:06,710 --> 00:48:04,720

um we can we can we could show it live

1282

00:48:09,190 --> 00:48:06,720

if we want you can hear melinda

1283

00:48:11,589 --> 00:48:09,200

in the background um dude that was so

1284

00:48:14,230 --> 00:48:11,599

much fun oh my god that was crazy

1285

00:48:15,589 --> 00:48:14,240

so dope dude she's such a great oh my

1286

00:48:17,910 --> 00:48:15,599

gosh yeah like

1287

00:48:19,430 --> 00:48:17,920

just knowing what to look for like i

1288

00:48:19,990 --> 00:48:19,440

could go on a whole tangent i don't i

1289

00:48:21,109 --> 00:48:20,000

just

1290

00:48:22,710 --> 00:48:21,119

i know we're like in the middle of

1291

00:48:23,430 --> 00:48:22,720

looking through all right let's go back

1292

00:48:26,150 --> 00:48:23,440

to it

1293

00:48:26,549 --> 00:48:26,160

so so what we're saying is is they're

1294

00:48:29,109 --> 00:48:26,559

saying

1295

00:48:30,549 --> 00:48:29,119

hey this needs to be a specific thing in

1296

00:48:32,710 --> 00:48:30,559

a specific

1297

00:48:35,670 --> 00:48:32,720

uh set of rules of how we look at this

1298

00:48:37,589 --> 00:48:35,680

thing but it doesn't exist yet

1299

00:48:38,950 --> 00:48:37,599

is that kind of what you get from it

1300

00:48:40,470 --> 00:48:38,960

like no

1301

00:48:42,549 --> 00:48:40,480

rules have been put in place they're

1302

00:48:44,390 --> 00:48:42,559

like yeah so we got all this information

1303

00:48:45,829 --> 00:48:44,400

but after going over all this

1304

00:48:47,750 --> 00:48:45,839

information we realized that there needs

1305

00:48:50,870 --> 00:48:47,760

to be like a different way

1306

00:48:52,870 --> 00:48:50,880

to file this report it and

1307

00:48:55,030 --> 00:48:52,880

and for us to be able to collect more

1308

00:48:58,069 --> 00:48:55,040

data there's just not like a

1309

00:49:00,470 --> 00:48:58,079

uh enough right because

1310

00:49:01,670 --> 00:49:00,480

even even if you see something right

1311

00:49:03,270 --> 00:49:01,680

some people are like

1312

00:49:05,750 --> 00:49:03,280

dude it was up there i saw it for like

1313

00:49:06,950 --> 00:49:05,760

eight seconds like you can only describe

1314

00:49:10,390 --> 00:49:06,960

eight seconds

1315

00:49:13,750 --> 00:49:10,400

so much right you know yeah

1316

00:49:15,990 --> 00:49:13,760

yeah so does that mean that they

1317

00:49:17,430 --> 00:49:16,000

are going to like that's the thing at

1318

00:49:18,549 --> 00:49:17,440

the end of this thing they don't really

1319

00:49:20,549 --> 00:49:18,559

say next steps

1320

00:49:22,069 --> 00:49:20,559

which means okay again this is a

1321

00:49:24,790 --> 00:49:22,079

preliminary report

1322

00:49:26,069 --> 00:49:24,800

it's just hey here's our baseline which

1323

00:49:27,030 --> 00:49:26,079

i think we have to keep in mind this

1324

00:49:28,790 --> 00:49:27,040

whole time like

1325

00:49:29,990 --> 00:49:28,800

i can make fun of this whole thing you

1326

00:49:30,630 --> 00:49:30,000

and you and me can make fun of this

1327

00:49:33,030 --> 00:49:30,640

whole thing

1328

00:49:33,670 --> 00:49:33,040

all night dude yeah how dumb it is but

1329

00:49:35,910 --> 00:49:33,680

like

1330

00:49:37,349 --> 00:49:35,920

look it's actually kind of dope right

1331

00:49:39,270 --> 00:49:37,359

like what they gave us

1332

00:49:40,470 --> 00:49:39,280

is [h__h] dope if you read between the

1333

00:49:42,390 --> 00:49:40,480

lines uh-huh

1334

00:49:44,069 --> 00:49:42,400

so what we're understanding from this

1335

00:49:47,750 --> 00:49:44,079

now is that they actually

1336

00:49:50,710 --> 00:49:47,760

do have a process right yeah as a result

1337

00:49:52,790 --> 00:49:50,720

the uaptf concentrated its reviews on

1338

00:49:53,829 --> 00:49:52,800

reports that occurred between 2004 and

1339

00:49:56,390 --> 00:49:53,839

2001

1340

00:49:58,549 --> 00:49:56,400

the majority of which are a result of

1341

00:50:00,790 --> 00:49:58,559

this new tailored process

1342

00:50:02,630 --> 00:50:00,800

to better capture uap events through

1343

00:50:05,109 --> 00:50:02,640

formalizing report

1344

00:50:05,750 --> 00:50:05,119

reporting so what's the this new what

1345

00:50:09,349 --> 00:50:05,760

does that mean

1346

00:50:11,349 --> 00:50:09,359

exactly what is the process like

1347

00:50:12,470 --> 00:50:11,359

that would have been kind of cool right

1348

00:50:15,030 --> 00:50:12,480

yeah

1349

00:50:15,670 --> 00:50:15,040

most of the uap reported probably do not

1350

00:50:18,069 --> 00:50:15,680

represent

1351
00:50:19,349 --> 00:50:18,079
physical objects given that they are a

1352
00:50:23,030 --> 00:50:19,359
majority of

1353
00:50:26,069 --> 00:50:23,040
registered across

1354
00:50:29,510 --> 00:50:26,079
multiple sensors to include radar

1355
00:50:30,230 --> 00:50:29,520
infrared electro optical weapon seekers

1356
00:50:33,750 --> 00:50:30,240
and visual

1357
00:50:36,150 --> 00:50:33,760
observation so damn

1358
00:50:37,270 --> 00:50:36,160
right that uh i think will has the the

1359
00:50:40,630 --> 00:50:37,280
answer to that

1360
00:50:43,670 --> 00:50:40,640
uh it's giant big giant balls

1361
00:50:44,790 --> 00:50:43,680
oh it's now picture and now it's big

1362
00:50:48,549 --> 00:50:44,800
giant condoms

1363
00:50:55,910 --> 00:50:51,829

the bgb for the bgc

1364

00:51:00,390 --> 00:50:58,309

uh oh my gosh i'm so behind on on the

1365

00:51:01,910 --> 00:51:00,400

the comments i'm sorry you guys

1366

00:51:03,910 --> 00:51:01,920

uh it's hard for me to read it from over

1367

00:51:05,829 --> 00:51:03,920

there

1368

00:51:07,270 --> 00:51:05,839

should i and you just basically i was

1369

00:51:09,270 --> 00:51:07,280

trying to like hear it this is what i

1370

00:51:11,750 --> 00:51:09,280

was trying to do there you go

1371

00:51:12,870 --> 00:51:11,760

it's you gotta you gotta select and then

1372

00:51:14,710 --> 00:51:12,880

hit shift and

1373

00:51:16,790 --> 00:51:14,720

slight then effect it's right collected

1374

00:51:20,309 --> 00:51:16,800

effect see the grasshopper is now

1375

00:51:22,069 --> 00:51:20,319

the teacher joe's been learning graphic

1376

00:51:24,470 --> 00:51:22,079

design people oh my gosh

1377

00:51:26,150 --> 00:51:24,480

did you see the the the thumbnail joe

1378

00:51:27,990 --> 00:51:26,160

created that

1379

00:51:30,150 --> 00:51:28,000

i'm teaching joe some graphic designer

1380

00:51:32,549 --> 00:51:30,160

he's a fast learner

1381

00:51:33,670 --> 00:51:32,559

he must have gotten you know some i

1382

00:51:36,630 --> 00:51:33,680

don't know some downloads

1383

00:51:37,190 --> 00:51:36,640

sweet ass thumbnail no no i said i had

1384

00:51:38,950 --> 00:51:37,200

to it's

1385

00:51:40,470 --> 00:51:38,960

it said i had to like wheelbarrow two

1386

00:51:44,150 --> 00:51:40,480

tons of of

1387

00:51:46,470 --> 00:51:44,160

blocks today like 70 yards

1388

00:51:47,270 --> 00:51:46,480

every trip so that your will your will

1389

00:51:50,069 --> 00:51:47,280

power to

1390

00:51:50,309 --> 00:51:50,079

to not do that yeah it's like i'm going

1391

00:51:52,309 --> 00:51:50,319

to

1392

00:51:54,069 --> 00:51:52,319

remember this as best as possible and

1393

00:51:57,520 --> 00:51:54,079

learn it as quick as possible

1394

00:52:00,150 --> 00:51:57,530

so i don't have to do this anymore

1395

00:52:01,829 --> 00:52:00,160

[Laughter]

1396

00:52:03,589 --> 00:52:01,839

technically i didn't have to i was just

1397

00:52:07,589 --> 00:52:03,599

being nice and helping out but [h__h]

1398

00:52:10,549 --> 00:52:07,599

you know like he's a nice guy i'm gonna

1399

00:52:12,069 --> 00:52:10,559

if i ever like get super rich i'm gonna

1400

00:52:13,829 --> 00:52:12,079

buy my landscape company

1401
00:52:16,069 --> 00:52:13,839
and you know what we're not even gonna

1402
00:52:19,109 --> 00:52:16,079
do landscaping

1403
00:52:20,870 --> 00:52:19,119
dude if i ever ever ever get rich enough

1404
00:52:23,109 --> 00:52:20,880
i'm gonna like purchase a landscaping

1405
00:52:26,309 --> 00:52:23,119
company for the day and be like hey

1406
00:52:29,510 --> 00:52:26,319
let's party

1407
00:52:31,190 --> 00:52:29,520
and i will pay them double hey

1408
00:52:32,549 --> 00:52:31,200
you want a landscape or do you want me

1409
00:52:36,549 --> 00:52:32,559
to pay you double the party

1410
00:52:37,750 --> 00:52:36,559
hard today yeah really hard

1411
00:52:39,990 --> 00:52:37,760
don't forget they disclosed an

1412
00:52:43,750 --> 00:52:40,000
additional 70 plus pages

1413
00:52:44,230 --> 00:52:43,760

and 18 to 20 videos to congress before

1414

00:52:46,230 --> 00:52:44,240

they

1415

00:52:48,950 --> 00:52:46,240

recessed until the beginning of

1416

00:52:49,430 --> 00:52:48,960

september so no one can call them up and

1417

00:52:51,910 --> 00:52:49,440

ask

1418

00:52:53,589 --> 00:52:51,920

questions right so william you're right

1419

00:52:54,309 --> 00:52:53,599

they are sons of [h__h] so they

1420

00:52:56,390 --> 00:52:54,319

recessed

1421

00:52:58,150 --> 00:52:56,400

meaning that they can't whoever was in

1422

00:53:00,069 --> 00:52:58,160

congress cannot speak about anything

1423

00:53:01,750 --> 00:53:00,079

while the process of recess is going

1424

00:53:03,829 --> 00:53:01,760

on like yeah just due to the just this

1425

00:53:04,710 --> 00:53:03,839

is just sure they need to stop playing

1426

00:53:06,790 --> 00:53:04,720

on the playground

1427

00:53:07,910 --> 00:53:06,800

come back from recess get off the damn

1428

00:53:10,309 --> 00:53:07,920

slide already

1429

00:53:11,990 --> 00:53:10,319

just playing around on the on the on the

1430

00:53:13,829 --> 00:53:12,000

on the merry-go-rounds

1431

00:53:16,470 --> 00:53:13,839

oh [h__h] night nightgazer just asked

1432

00:53:20,230 --> 00:53:16,480

about our branding oh my god

1433

00:53:24,549 --> 00:53:20,240

oh my god thank you for reminding me oh

1434

00:53:27,430 --> 00:53:24,559

dude we forget about that all the time

1435

00:53:28,309 --> 00:53:27,440

we're so good we're so good at branding

1436

00:53:31,990 --> 00:53:28,319

that we forget

1437

00:53:39,030 --> 00:53:35,510

uh still they don't know the intention

1438

00:53:42,790 --> 00:53:39,040

and nature of these ufo condoms man

1439

00:53:49,510 --> 00:53:46,470

ufo column oh my gosh

1440

00:53:51,750 --> 00:53:49,520

yes yeah night gazer thanks brother

1441

00:53:52,950 --> 00:53:51,760

for or sister i don't know it's not i

1442

00:53:56,390 --> 00:53:52,960

can't tell gender but

1443

00:53:58,870 --> 00:53:56,400

uh the uh they guess when i see a dude

1444

00:54:01,750 --> 00:53:58,880

i'm like wait are you dude

1445

00:54:03,750 --> 00:54:01,760

wait but dude dude is i think it's it's

1446

00:54:05,270 --> 00:54:03,760

cry it doesn't matter the gender i think

1447

00:54:08,710 --> 00:54:05,280

it's cross gender no dude

1448

00:54:12,549 --> 00:54:08,720

dude is completely dude no

1449

00:54:14,470 --> 00:54:12,559

dude yes dude dudes and do that dude

1450

00:54:16,950 --> 00:54:14,480

well now what am i gonna tell people

1451

00:54:18,790 --> 00:54:16,960

that i don't know

1452

00:54:20,230 --> 00:54:18,800

what their gender is maybe don't talk to

1453

00:54:23,190 --> 00:54:20,240

people you don't know

1454

00:54:24,230 --> 00:54:23,200

i can't avoid that sometimes it happens

1455

00:54:33,030 --> 00:54:24,240

hey

1456

00:54:41,670 --> 00:54:36,829

oh yeah uh why say oh no

1457

00:54:45,190 --> 00:54:44,630

the [h__h] that's awesome so in a limited

1458

00:54:47,750 --> 00:54:45,200

number of

1459

00:54:50,870 --> 00:54:47,760

incidents uap reportedly appeared to

1460

00:54:53,910 --> 00:54:50,880

exhibit unusual flight characteristics

1461

00:54:55,750 --> 00:54:53,920

no [h__h] the observations could be the

1462

00:54:58,910 --> 00:54:55,760

result of sensor errors

1463

00:55:00,789 --> 00:54:58,920

spoofing or over or observer

1464

00:55:03,430 --> 00:55:00,799

misinterpretation and require

1465

00:55:05,190 --> 00:55:03,440

additional rigorous analysis dude

1466

00:55:06,069 --> 00:55:05,200

spoofing is the most hilarious thing

1467

00:55:08,789 --> 00:55:06,079

i've ever seen

1468

00:55:10,069 --> 00:55:08,799

in a government document somebody was

1469

00:55:10,789 --> 00:55:10,079

like should we keep that in there they

1470

00:55:14,870 --> 00:55:10,799

were like

1471

00:55:16,870 --> 00:55:14,880

yeah yeah keep the spoofing in there

1472

00:55:19,589 --> 00:55:16,880

this is those highly qualified people

1473

00:55:23,109 --> 00:55:19,599

that you spend all your tax money on

1474

00:55:26,309 --> 00:55:23,119

they spoof a lot spoof arena

1475

00:55:29,430 --> 00:55:26,319

they're basically saying like

1476

00:55:31,670 --> 00:55:29,440

you know i mean honestly honestly

1477

00:55:33,349 --> 00:55:31,680

our equipment could suck some of these

1478

00:55:35,430 --> 00:55:33,359

people are spoofing

1479

00:55:36,549 --> 00:55:35,440

or maybe like these highly trained

1480

00:55:39,829 --> 00:55:36,559

people just

1481

00:55:42,069 --> 00:55:39,839

it's just a misperception you know maybe

1482

00:55:42,870 --> 00:55:42,079

maybe these people require some

1483

00:55:45,910 --> 00:55:42,880

additional

1484

00:55:49,910 --> 00:55:45,920

uh rigorous analysis or or

1485

00:55:51,750 --> 00:55:49,920

observer yeah so like rigorous analysis

1486

00:55:53,190 --> 00:55:51,760

so let's break that down what is that

1487

00:55:55,589 --> 00:55:53,200

what would that entail so

1488

00:55:56,470 --> 00:55:55,599

you're you are a a highly trained

1489

00:55:59,670 --> 00:55:56,480

fighter

1490

00:56:02,390 --> 00:55:59,680

pilot that flies the most expensive

1491

00:56:03,190 --> 00:56:02,400

raptor jet you know i i have a buddy

1492

00:56:05,030 --> 00:56:03,200

that flies

1493

00:56:06,630 --> 00:56:05,040

he calls it the raptor i don't know

1494

00:56:10,150 --> 00:56:06,640

there's a there's a term for it

1495

00:56:10,549 --> 00:56:10,160

but he's so smart and i've been trying

1496

00:56:12,789 --> 00:56:10,559

to get

1497

00:56:16,150 --> 00:56:12,799

alien information out of him for years

1498

00:56:21,349 --> 00:56:18,950

i just see a bunch of sky up there dude

1499

00:56:23,750 --> 00:56:21,359

he gives me such [\h__\h] answers

1500

00:56:24,710 --> 00:56:23,760

anyway i [\h__\h] love him uh anyway i'm

1501
00:56:27,829 --> 00:56:24,720
not gonna say anything

1502
00:56:28,230 --> 00:56:27,839
anyway but okay so you're a pilot yes i

1503
00:56:29,910 --> 00:56:28,240
am

1504
00:56:31,349 --> 00:56:29,920
and then you tell me what the [h__h] you

1505
00:56:33,910 --> 00:56:31,359
saw okay

1506
00:56:35,829 --> 00:56:33,920
and then i'm like yeah well i sit down

1507
00:56:38,870 --> 00:56:35,839
at dusk all day

1508
00:56:40,309 --> 00:56:38,880
i've never seen anything

1509
00:56:42,230 --> 00:56:40,319
i'm trying to sound like a dumb person

1510
00:56:44,150 --> 00:56:42,240
that's terrible all right listen

1511
00:56:45,910 --> 00:56:44,160
i i'm just going to talk like myself i'm

1512
00:56:47,349 --> 00:56:45,920
dumb i'll talk like myself

1513
00:56:49,349 --> 00:56:47,359

okay i i don't know what you see but

1514

00:56:51,750 --> 00:56:49,359

i've never seen anything like that

1515

00:56:52,630 --> 00:56:51,760

how is that an argument right like oh

1516

00:56:55,829 --> 00:56:52,640

you know what

1517

00:56:56,230 --> 00:56:55,839

you you require more uh uh uh what does

1518

00:56:58,950 --> 00:56:56,240

it say

1519

00:57:00,870 --> 00:56:58,960

more rigorous analysis how that's so

1520

00:57:01,270 --> 00:57:00,880

[h__\h] lame for somebody who sits at a

1521

00:57:04,789 --> 00:57:01,280

desk

1522

00:57:06,630 --> 00:57:04,799

all day who doesn't who's never even

1523

00:57:08,150 --> 00:57:06,640

who's been on a commercial flight once

1524

00:57:10,309 --> 00:57:08,160

on their way to grandma's house

1525

00:57:11,910 --> 00:57:10,319

right right that says you need more

1526

00:57:13,030 --> 00:57:11,920

rigorous analysis yeah they're they're

1527

00:57:16,309 --> 00:57:13,040

telling they're telling

1528

00:57:18,549 --> 00:57:16,319

top gun pilots and astronauts bro

1529

00:57:19,430 --> 00:57:18,559

that maybe you just didn't see what you

1530

00:57:22,789 --> 00:57:19,440

think you saw

1531

00:57:24,789 --> 00:57:22,799

that old ball i was at chipotle and the

1532

00:57:26,309 --> 00:57:24,799

line was really long so maybe that has

1533

00:57:29,190 --> 00:57:26,319

something to do with it

1534

00:57:30,390 --> 00:57:29,200

let me grab another brewski man oh yeah

1535

00:57:31,829 --> 00:57:30,400

dude you gotta you gotta

1536

00:57:33,510 --> 00:57:31,839

tell the chat what you're drinking too

1537

00:57:36,630 --> 00:57:33,520

though oh it's uh

1538

00:57:38,390 --> 00:57:36,640

it's uh it's more native texas native

1539

00:57:41,589 --> 00:57:38,400

jackson

1540

00:57:42,950 --> 00:57:41,599

we're not sponsored in any way but we

1541

00:57:45,950 --> 00:57:42,960

could be

1542

00:57:47,589 --> 00:57:45,960

so that's kind of cool

1543

00:57:49,990 --> 00:57:47,599

[Music]

1544

00:57:51,430 --> 00:57:50,000

oh tammy good point it does allow for a

1545

00:57:52,309 --> 00:57:51,440

nice budget for another government

1546

00:57:55,190 --> 00:57:52,319

department

1547

00:57:55,990 --> 00:57:55,200

so i know i don't know what in which

1548

00:57:59,190 --> 00:57:56,000

direction but

1549

00:58:02,390 --> 00:57:59,200

you mean by that but i'm taking that as

1550

00:58:03,030 --> 00:58:02,400

tammy as as maybe that allows a little

1551
00:58:05,270 --> 00:58:03,040
bit of

1552
00:58:06,630 --> 00:58:05,280
of budget to go towards that rigorous

1553
00:58:08,710 --> 00:58:06,640
analysis of like

1554
00:58:10,470 --> 00:58:08,720
hey let's maybe not put the person who

1555
00:58:12,950 --> 00:58:10,480
doesn't know anything about

1556
00:58:14,069 --> 00:58:12,960
flying a plane in charge of that

1557
00:58:16,230 --> 00:58:14,079
rigorous analysis

1558
00:58:17,589 --> 00:58:16,240
maybe we do that because hopefully

1559
00:58:18,150 --> 00:58:17,599
that's kind of what you mean that would

1560
00:58:21,270 --> 00:58:18,160
be cool

1561
00:58:23,589 --> 00:58:21,280
yeah like have some people

1562
00:58:25,190 --> 00:58:23,599
know what the [h__h] they're talking about

1563
00:58:28,390 --> 00:58:25,200

like dude like i

1564

00:58:30,950 --> 00:58:28,400

uh in the the tech industry of

1565

00:58:33,349 --> 00:58:30,960

like my my experience is so diluted it's

1566

00:58:35,510 --> 00:58:33,359

not like i'm not a developer but i did

1567

00:58:36,630 --> 00:58:35,520

work on the same team as as web

1568

00:58:40,069 --> 00:58:36,640

developers

1569

00:58:40,470 --> 00:58:40,079

and uh my i i managed a team and i was

1570

00:58:43,750 --> 00:58:40,480

like

1571

00:58:48,069 --> 00:58:43,760

trying to communicate with you know my

1572

00:58:50,950 --> 00:58:48,079

uh my my employee i guess

1573

00:58:52,470 --> 00:58:50,960

you know my my person i was managing and

1574

00:58:53,750 --> 00:58:52,480

i'm like trying to like communicate

1575

00:58:55,430 --> 00:58:53,760

these ideas and i just don't know what

1576

00:58:57,190 --> 00:58:55,440

the [h__\h] i'm talking about

1577

00:58:58,789 --> 00:58:57,200

like the web development is it's just

1578

00:59:00,630 --> 00:58:58,799

like way over my head and i'm like

1579

00:59:02,390 --> 00:59:00,640

dude i don't know even know why i'm your

1580

00:59:03,589 --> 00:59:02,400

manager dude you don't even know what i

1581

00:59:05,670 --> 00:59:03,599

don't even know what i'm talking about

1582

00:59:07,670 --> 00:59:05,680

i can't i can't represent you i feel so

1583

00:59:08,789 --> 00:59:07,680

dumb i'm only here because there was

1584

00:59:11,829 --> 00:59:08,799

nobody else

1585

00:59:12,789 --> 00:59:11,839

exactly exactly that's exactly the point

1586

00:59:15,349 --> 00:59:12,799

man yes dude

1587

00:59:16,630 --> 00:59:15,359

you're speaking a different language i

1588

00:59:18,710 --> 00:59:16,640

am not

1589

00:59:20,150 --> 00:59:18,720

uh i should not be allowed to be your

1590

00:59:21,349 --> 00:59:20,160

manager you should have somebody who

1591

00:59:23,670 --> 00:59:21,359

knows

1592

00:59:25,109 --> 00:59:23,680

all the intricacies of of your everyday

1593

00:59:27,270 --> 00:59:25,119

life like same goes with

1594

00:59:29,349 --> 00:59:27,280

with with with pilots i mean talking

1595

00:59:31,109 --> 00:59:29,359

about rigorous

1596

00:59:33,030 --> 00:59:31,119

the fact that the word spoofing is

1597

00:59:35,910 --> 00:59:33,040

involved so

1598

00:59:36,710 --> 00:59:35,920

this little this little uh section right

1599

00:59:40,309 --> 00:59:36,720

here

1600

00:59:44,390 --> 00:59:40,319

to me it also is saying

1601
00:59:47,750 --> 00:59:44,400
hey in a limited number of

1602
00:59:49,829 --> 00:59:47,760
incidents hey this is the crazy [h__h]

1603
00:59:50,950 --> 00:59:49,839
right here they're saying this is the

1604
00:59:52,470 --> 00:59:50,960
crazy [h__h]

1605
00:59:54,309 --> 00:59:52,480
and we're just gonna tell you that it

1606
00:59:55,349 --> 00:59:54,319
could be sensor errors or like people

1607
00:59:57,829 --> 00:59:55,359
are [h__h] up

1608
00:59:58,549 --> 00:59:57,839
but this is only a limited number of

1609
01:00:01,510 --> 00:59:58,559
incidents

1610
01:00:01,910 --> 01:00:01,520
these are the ones that we can't explain

1611
01:00:04,950 --> 01:00:01,920
at

1612
01:00:07,109 --> 01:00:04,960
all okay so we're reading it as like

1613
01:00:08,470 --> 01:00:07,119

oh these people just think everybody's

1614

01:00:11,030 --> 01:00:08,480

idiots but

1615

01:00:12,390 --> 01:00:11,040

when we dig into it and we read between

1616

01:00:14,870 --> 01:00:12,400

the lines a little bit

1617

01:00:17,990 --> 01:00:14,880

they're really saying yo there's some

1618

01:00:20,470 --> 01:00:18,000

crazy [h__\h] that we cannot explain right

1619

01:00:22,630 --> 01:00:20,480

i think it's gonna require some more

1620

01:00:26,470 --> 01:00:22,640

rigorous analysis because

1621

01:00:29,510 --> 01:00:26,480

it's so wild that we can't even

1622

01:00:32,069 --> 01:00:29,520

it doesn't even register for us yeah

1623

01:00:34,950 --> 01:00:32,079

also you made a good point so you were

1624

01:00:36,470 --> 01:00:34,960

saying that out of all of these reports

1625

01:00:37,990 --> 01:00:36,480

this is the only thing we're talking

1626

01:00:42,630 --> 01:00:38,000

about but what they actually

1627

01:00:44,470 --> 01:00:42,640

said dude is that out of the 144

1628

01:00:46,309 --> 01:00:44,480

i might be let me just make sure because

1629

01:00:47,829 --> 01:00:46,319

yeah [h__h]

1630

01:00:49,670 --> 01:00:47,839

what they actually they didn't say out

1631

01:00:52,309 --> 01:00:49,680

of the 1000 you know 10

1632

01:00:52,789 --> 01:00:52,319

000 reports there was only you know 12

1633

01:00:55,030 --> 01:00:52,799

that was

1634

01:00:56,390 --> 01:00:55,040

right it was something like hey help us

1635

01:00:59,190 --> 01:00:56,400

out in the chat if y'all remember

1636

01:01:00,990 --> 01:00:59,200

um i'm just i'm really bad at skimming

1637

01:01:03,829 --> 01:01:01,000

but it was out of the

1638

01:01:04,789 --> 01:01:03,839

144 there was one that they could

1639

01:01:06,309 --> 01:01:04,799

explain

1640

01:01:07,990 --> 01:01:06,319

so it's not you know what i'm saying

1641

01:01:11,109 --> 01:01:08,000

like it's not that they're saying

1642

01:01:12,789 --> 01:01:11,119

that that everything that they

1643

01:01:15,270 --> 01:01:12,799

were reporting on there was a small

1644

01:01:17,510 --> 01:01:15,280

number out of everything that they

1645

01:01:19,190 --> 01:01:17,520

are reporting on in this report which is

1646

01:01:22,710 --> 01:01:19,200

that number 144

1647

01:01:24,710 --> 01:01:22,720

somebody help me out but uh only one of

1648

01:01:28,150 --> 01:01:24,720

them so they're talking about

1649

01:01:30,870 --> 01:01:28,160

all of them are unidentified right

1650

01:01:31,349 --> 01:01:30,880

that's [h__\h] cool what's up steven but

1651
01:01:33,510 --> 01:01:31,359
again

1652
01:01:34,990 --> 01:01:33,520
that goes back to the the whole idea is

1653
01:01:38,069 --> 01:01:35,000
that this is about

1654
01:01:40,630 --> 01:01:38,079
unidentified uap so that

1655
01:01:42,150 --> 01:01:40,640
negates everything that could be

1656
01:01:45,030 --> 01:01:42,160
identified

1657
01:01:46,950 --> 01:01:45,040
yeah so does that ask okay so that maybe

1658
01:01:50,470 --> 01:01:46,960
maybe opening up a different window

1659
01:01:53,589 --> 01:01:50,480
where where's that line crossed in this

1660
01:01:56,549 --> 01:01:53,599
this this report those 144 those were

1661
01:01:58,710 --> 01:01:56,559
the best of the best

1662
01:02:00,390 --> 01:01:58,720
that seems pretty black and white to me

1663
01:02:04,470 --> 01:02:00,400

yeah so

1664

01:02:07,029 --> 01:02:04,480

what rigorous uh analysis was done

1665

01:02:09,190 --> 01:02:07,039

out of the millions and millions and

1666

01:02:12,710 --> 01:02:09,200

millions and millions of stories

1667

01:02:14,789 --> 01:02:12,720

to dwindle it down to those 144.

1668

01:02:15,829 --> 01:02:14,799

well that also makes you think like okay

1669

01:02:19,750 --> 01:02:15,839

well they started

1670

01:02:22,950 --> 01:02:19,760

from 2004 and on okay how many happened

1671

01:02:26,630 --> 01:02:22,960

in that span of time that there was only

1672

01:02:28,710 --> 01:02:26,640

144 that they chose from

1673

01:02:30,150 --> 01:02:28,720

okay but they didn't they didn't mention

1674

01:02:32,390 --> 01:02:30,160

that they don't mention that they don't

1675

01:02:32,870 --> 01:02:32,400

mention that but they only go from 2004

1676
01:02:34,309 --> 01:02:32,880
to

1677
01:02:36,069 --> 01:02:34,319
i kind of liked that they didn't mention

1678
01:02:38,789 --> 01:02:36,079
that because

1679
01:02:40,309 --> 01:02:38,799
they're it's that's again it's on theme

1680
01:02:41,829 --> 01:02:40,319
with this report that's why i think this

1681
01:02:44,870 --> 01:02:41,839
reports badass i think it's

1682
01:02:45,270 --> 01:02:44,880
awesome like it's almost what they don't

1683
01:02:48,549 --> 01:02:45,280
say

1684
01:02:51,270 --> 01:02:48,559
it's so specific and just so

1685
01:02:52,069 --> 01:02:51,280
like cut the [h__\h] fat out i love it i

1686
01:02:55,430 --> 01:02:52,079
love it

1687
01:02:58,470 --> 01:02:55,440
it's almost like this report is like a a

1688
01:03:00,069 --> 01:02:58,480

a paper version of luella's honda where

1689

01:03:02,470 --> 01:03:00,079

it says a bunch of stuff

1690

01:03:03,910 --> 01:03:02,480

without saying a bunch of stuff oh you

1691

01:03:04,789 --> 01:03:03,920

kind of read that through the lines

1692

01:03:07,510 --> 01:03:04,799

you're like

1693

01:03:09,190 --> 01:03:07,520

okay i see what you're saying i'm

1694

01:03:11,190 --> 01:03:09,200

picking up what you're putting down

1695

01:03:12,390 --> 01:03:11,200

yeah well that's a theme in our

1696

01:03:15,349 --> 01:03:12,400

interview i thought

1697

01:03:17,190 --> 01:03:15,359

we i was like i feel like lou didn't say

1698

01:03:19,109 --> 01:03:17,200

but also said a lot in our interview but

1699

01:03:21,670 --> 01:03:19,119

i went and like started because

1700

01:03:23,029 --> 01:03:21,680

prior to actually having him on our show

1701

01:03:25,910 --> 01:03:23,039

i went and

1702

01:03:27,510 --> 01:03:25,920

i like specifically didn't watch him on

1703

01:03:35,349 --> 01:03:27,520

other shows just because i didn't want

1704

01:03:38,549 --> 01:03:37,670

but like i didn't want that to influence

1705

01:03:40,309 --> 01:03:38,559

how

1706

01:03:41,910 --> 01:03:40,319

we interacted with him or i interacted

1707

01:03:43,349 --> 01:03:41,920

with him so i purposely didn't even

1708

01:03:46,390 --> 01:03:43,359

watch a lot of and

1709

01:03:49,510 --> 01:03:46,400

yeah anyway but

1710

01:03:53,349 --> 01:03:49,520

he does do that on almost every single

1711

01:03:55,510 --> 01:03:53,359

interview is is that he uh

1712

01:03:56,789 --> 01:03:55,520

you have to pay attention to what he's

1713

01:03:59,109 --> 01:03:56,799

not saying um i

1714

01:03:59,910 --> 01:03:59,119

i think that's that's the catch all

1715

01:04:01,430 --> 01:03:59,920

there

1716

01:04:03,829 --> 01:04:01,440

maybe that's not the word catch all like

1717

01:04:05,990 --> 01:04:03,839

my mind's thinking i'm trying not to say

1718

01:04:08,789 --> 01:04:06,000

the thing i'm actually wanting to say

1719

01:04:10,309 --> 01:04:08,799

mule's saying there's 2 600 cases of

1720

01:04:13,670 --> 01:04:10,319

ufos reported

1721

01:04:17,270 --> 01:04:13,680

in paw last year dude so

1722

01:04:18,630 --> 01:04:17,280

if there's 2 600 cases reported in

1723

01:04:22,150 --> 01:04:18,640

pennsylvania

1724

01:04:24,150 --> 01:04:22,160

yeah and that's what was reported

1725

01:04:25,990 --> 01:04:24,160

how many cases you think there actually

1726

01:04:29,349 --> 01:04:26,000

are but if that was just last

1727

01:04:31,829 --> 01:04:29,359

year right

1728

01:04:32,630 --> 01:04:31,839

there's got to be they've got to have

1729

01:04:35,190 --> 01:04:32,640

that's why i see

1730

01:04:36,230 --> 01:04:35,200

that's why i say millions yeah each year

1731

01:04:38,549 --> 01:04:36,240

because that's one

1732

01:04:40,069 --> 01:04:38,559

that's that's one stage that's one state

1733

01:04:41,910 --> 01:04:40,079

that's one state

1734

01:04:43,750 --> 01:04:41,920

and the fact that they just not

1735

01:04:47,270 --> 01:04:43,760

everybody's reporting it they let

1736

01:04:49,190 --> 01:04:47,280

yeah and great point there that's just

1737

01:04:53,829 --> 01:04:49,200

the cases that were reported

1738

01:04:55,109 --> 01:04:53,839

yep yep tammy

1739

01:04:57,029 --> 01:04:55,119

are you talking about like we're on the

1740

01:04:59,109 --> 01:04:57,039

right track because that's cool but also

1741

01:05:02,950 --> 01:04:59,119

it could be

1742

01:05:04,230 --> 01:05:02,960

the right track what does william say

1743

01:05:05,990 --> 01:05:04,240

i want to see what he says plus if

1744

01:05:07,829 --> 01:05:06,000

they're uh plus if they're

1745

01:05:09,430 --> 01:05:07,839

operating with physics that we have yet

1746

01:05:15,029 --> 01:05:09,440

to discover it would

1747

01:05:18,230 --> 01:05:17,349

mine freak you heard that on jeopardy

1748

01:05:20,069 --> 01:05:18,240

bro they're

1749

01:05:22,069 --> 01:05:20,079

operating in another dimension that

1750

01:05:22,950 --> 01:05:22,079

would not register with our high tech

1751

01:05:26,470 --> 01:05:22,960

equipment

1752

01:05:28,950 --> 01:05:26,480

yes great point too yup yup yeah so

1753

01:05:29,510 --> 01:05:28,960

back to that first statement of this

1754

01:05:33,190 --> 01:05:29,520

report

1755

01:05:34,870 --> 01:05:33,200

is from what we are our limited

1756

01:05:36,230 --> 01:05:34,880

technology this is what they said dude

1757

01:05:38,390 --> 01:05:36,240

like this is why we we have to break

1758

01:05:41,510 --> 01:05:38,400

this down together it's like

1759

01:05:44,870 --> 01:05:41,520

what they actually said in like fences

1760

01:05:47,910 --> 01:05:44,880

yeah is look here's what we have

1761

01:05:49,829 --> 01:05:47,920

and we just don't know and we don't our

1762

01:05:51,349 --> 01:05:49,839

[h__\h] is not sophisticated enough to

1763

01:05:54,549 --> 01:05:51,359

understand it that's what they said

1764

01:05:55,109 --> 01:05:54,559

yeah is it am i am i no i think i can

1765

01:05:58,069 --> 01:05:55,119

bounce

1766

01:05:59,990 --> 01:05:58,079

exactly what they're saying so william

1767

01:06:02,470 --> 01:06:00,000

you have a great point there brother

1768

01:06:03,190 --> 01:06:02,480

hell yeah so the next part is there are

1769

01:06:05,910 --> 01:06:03,200

probably

1770

01:06:07,750 --> 01:06:05,920

multiple types of uap requiring

1771

01:06:09,510 --> 01:06:07,760

different explanations based on the

1772

01:06:10,710 --> 01:06:09,520

range of appearances and behaviors

1773

01:06:14,470 --> 01:06:10,720

described

1774

01:06:18,950 --> 01:06:17,670

so wait wait say it again or

1775

01:06:20,789 --> 01:06:18,960

don't say it again but i was just trying

1776

01:06:23,750 --> 01:06:20,799

to find where it was right there

1777

01:06:26,069 --> 01:06:23,760

oh it's the bold the bold sentence oh

1778

01:06:28,710 --> 01:06:26,079

they're probably

1779

01:06:30,309 --> 01:06:28,720

oh yeah sorry i was like i was focusing

1780

01:06:33,510 --> 01:06:30,319

on this because i love this idea

1781

01:06:34,950 --> 01:06:33,520

uh luke 99 sorry uap task force and atip

1782

01:06:37,029 --> 01:06:34,960

are only able to do so much

1783

01:06:38,150 --> 01:06:37,039

in my opinion the truth is hidden in

1784

01:06:40,309 --> 01:06:38,160

elitist groups

1785

01:06:42,309 --> 01:06:40,319

deep state and that's where my mind

1786

01:06:45,670 --> 01:06:42,319

wants it's like mind candy like i

1787

01:06:46,630 --> 01:06:45,680

want oh it's so sweet it's so sweet i

1788

01:06:50,230 --> 01:06:46,640

want to get into it

1789

01:06:53,910 --> 01:06:50,240

so bad like the deep state

1790

01:06:56,950 --> 01:06:53,920

oh my gosh i love it i know but uh

1791

01:06:57,349 --> 01:06:56,960

i i i'm not a voice of of knowledge on

1792

01:07:00,390 --> 01:06:57,359

that

1793

01:07:01,750 --> 01:07:00,400

um i definitely luke i i there's a

1794

01:07:03,990 --> 01:07:01,760

reason why i highlighted that

1795

01:07:05,349 --> 01:07:04,000

i love that but i just don't know enough

1796

01:07:08,470 --> 01:07:05,359

about it

1797

01:07:09,750 --> 01:07:08,480

but uh sorry yeah joe uh

1798

01:07:11,670 --> 01:07:09,760

so what they're saying is there's

1799

01:07:14,069 --> 01:07:11,680

multiple probably

1800

01:07:14,950 --> 01:07:14,079

multiple types we've identified enough

1801
01:07:16,710 --> 01:07:14,960
stuff

1802
01:07:18,150 --> 01:07:16,720
to make the assumption that there's

1803
01:07:21,270 --> 01:07:18,160
probably multiple

1804
01:07:24,950 --> 01:07:21,280
types of uap

1805
01:07:26,789 --> 01:07:24,960
so just taking that face value

1806
01:07:28,390 --> 01:07:26,799
there's two things that that says to me

1807
01:07:31,910 --> 01:07:28,400
is that they've

1808
01:07:34,390 --> 01:07:31,920
they have knowledge of

1809
01:07:35,750 --> 01:07:34,400
so many reports that coincide to each

1810
01:07:37,270 --> 01:07:35,760
other right so you say you have a

1811
01:07:41,349 --> 01:07:37,280
thousand reports

1812
01:07:44,710 --> 01:07:41,359
and 30 of them have something in common

1813
01:07:47,910 --> 01:07:44,720

though out of that 30 percent there's

1814

01:07:48,470 --> 01:07:47,920

three main categories and those totally

1815

01:07:52,230 --> 01:07:48,480

fit in

1816

01:07:55,510 --> 01:07:52,240

and by the end of it you get like

1817

01:07:57,270 --> 01:07:55,520

10 actual like oh my gosh

1818

01:07:59,029 --> 01:07:57,280

everything's the exact same like this

1819

01:08:01,430 --> 01:07:59,039

person saw that craft do

1820

01:08:03,109 --> 01:08:01,440

this at this time they saw this dude

1821

01:08:04,309 --> 01:08:03,119

like interact with the water there was

1822

01:08:05,990 --> 01:08:04,319

no splash it was

1823

01:08:07,750 --> 01:08:06,000

whatever that's what that tells me it's

1824

01:08:11,029 --> 01:08:07,760

like

1825

01:08:13,589 --> 01:08:11,039

probably multiple types yeah

1826

01:08:15,029 --> 01:08:13,599

um but it also could mean on the flip

1827

01:08:16,229 --> 01:08:15,039

side of that it could also mean that

1828

01:08:18,789 --> 01:08:16,239

this one type

1829

01:08:19,669 --> 01:08:18,799

that it's capable of multiple different

1830

01:08:22,470 --> 01:08:19,679

scenarios

1831

01:08:23,990 --> 01:08:22,480

yeah that's what that means to me this

1832

01:08:26,630 --> 01:08:24,000

next sentence is pretty

1833

01:08:28,630 --> 01:08:26,640

pretty interesting our analysis of the

1834

01:08:31,829 --> 01:08:28,640

data supports the construct that

1835

01:08:35,430 --> 01:08:31,839

if and when individual uap incidents

1836

01:08:37,990 --> 01:08:35,440

are resolved they will fall into

1837

01:08:38,950 --> 01:08:38,000

one of five potential explanatory

1838

01:08:40,309 --> 01:08:38,960

categories

1839

01:08:42,309 --> 01:08:40,319

so before we even talk about the

1840

01:08:42,870 --> 01:08:42,319

explanatory category yes let's break

1841

01:08:44,950 --> 01:08:42,880

that down

1842

01:08:46,070 --> 01:08:44,960

our analysis of the data supports the

1843

01:08:49,349 --> 01:08:46,080

construct that

1844

01:08:51,990 --> 01:08:49,359

if and when individual uap

1845

01:08:53,030 --> 01:08:52,000

incidents are resolved what does that

1846

01:08:55,430 --> 01:08:53,040

mean

1847

01:08:57,349 --> 01:08:55,440

so when this stuff happens if and when

1848

01:08:59,829 --> 01:08:57,359

it does happen

1849

01:09:01,749 --> 01:08:59,839

and they are resolved which means that

1850

01:09:04,870 --> 01:09:01,759

there has been some that are resolved

1851

01:09:08,070 --> 01:09:04,880

let's just get rid of that that if

1852

01:09:10,950 --> 01:09:08,080

it means supports the construct that win

1853

01:09:12,550 --> 01:09:10,960

do you wouldn't put that win if it

1854

01:09:15,110 --> 01:09:12,560

wasn't a possibility and

1855

01:09:15,829 --> 01:09:15,120

also a probability dude like a high

1856

01:09:18,070 --> 01:09:15,839

probability

1857

01:09:20,229 --> 01:09:18,080

right and i love that they gave us the

1858

01:09:21,349 --> 01:09:20,239

option i love that so much this thing

1859

01:09:22,709 --> 01:09:21,359

was written i think this thing was

1860

01:09:25,990 --> 01:09:22,719

written very well

1861

01:09:26,789 --> 01:09:26,000

but okay the categories are airborne

1862

01:09:30,470 --> 01:09:26,799

clutter

1863

01:09:31,430 --> 01:09:30,480

natural atmospheric phenomena farts usg

1864

01:09:34,309 --> 01:09:31,440

or us

1865

01:09:36,870 --> 01:09:34,319

industry developmental programs a

1866

01:09:40,630 --> 01:09:36,880

foreign adversary system

1867

01:09:45,510 --> 01:09:40,640

and a catch-all other bin

1868

01:09:49,030 --> 01:09:47,669

so that's [h__\h] cool so that's

1869

01:09:52,070 --> 01:09:49,040

interesting to think that

1870

01:09:55,990 --> 01:09:52,080

okay yeah they've seen you aps and

1871

01:10:02,390 --> 01:09:59,270

through these five different categories

1872

01:10:03,510 --> 01:10:02,400

but the most interesting to us is the

1873

01:10:06,630 --> 01:10:03,520

other bin

1874

01:10:08,790 --> 01:10:06,640

right i'm a ben that means that there is

1875

01:10:10,870 --> 01:10:08,800

definitely [h__\h]

1876
01:10:12,550 --> 01:10:10,880
in the other category so what they're

1877
01:10:14,070 --> 01:10:12,560
talking about it

1878
01:10:16,470 --> 01:10:14,080
basically they're they're giving us

1879
01:10:18,229 --> 01:10:16,480
backstory this isn't about

1880
01:10:20,310 --> 01:10:18,239
the things that i've highlighted this

1881
01:10:21,590 --> 01:10:20,320
whole report is not about the industry

1882
01:10:26,070 --> 01:10:21,600
development

1883
01:10:27,990 --> 01:10:26,080
systems it's not about that

1884
01:10:29,669 --> 01:10:28,000
the reason why they left this catch all

1885
01:10:32,790 --> 01:10:29,679
been at the end is because

1886
01:10:33,669 --> 01:10:32,800
that's what this report is about dude

1887
01:10:36,229 --> 01:10:33,679
yeah

1888
01:10:38,149 --> 01:10:36,239

that's what it's about absolutely it's

1889

01:10:41,110 --> 01:10:38,159

not about

1890

01:10:41,510 --> 01:10:41,120

all this and the industry development

1891

01:10:43,189 --> 01:10:41,520

yeah

1892

01:10:44,709 --> 01:10:43,199

because we already know that [h__h]

1893

01:10:47,550 --> 01:10:44,719

happened we already know

1894

01:10:48,870 --> 01:10:47,560

we already know what that is we have

1895

01:10:52,790 --> 01:10:48,880

telemetries

1896

01:10:54,630 --> 01:10:52,800

and mathematical and dots that go boom

1897

01:10:55,910 --> 01:10:54,640

and then the lights to go queenbank and

1898

01:11:03,910 --> 01:10:55,920

then math you know

1899

01:11:07,270 --> 01:11:05,430

so yeah that's what this whole thing is

1900

01:11:10,229 --> 01:11:07,280

about this catch-all bin um

1901

01:11:11,350 --> 01:11:10,239

the other bin yeah yeah man i love it i

1902

01:11:13,030 --> 01:11:11,360

love it

1903

01:11:14,470 --> 01:11:13,040

okay the uh you've been reading a lot

1904

01:11:16,390 --> 01:11:14,480

you're so good at reading though i'm not

1905

01:11:19,910 --> 01:11:16,400

very good at reading how loud

1906

01:11:22,709 --> 01:11:19,920

i'll read this one okay uap clearly pose

1907

01:11:23,750 --> 01:11:22,719

a safety of flight issue and may pose a

1908

01:11:26,390 --> 01:11:23,760

challenge to u.s

1909

01:11:27,510 --> 01:11:26,400

national security safety concerns

1910

01:11:30,630 --> 01:11:27,520

preliminary

1911

01:11:33,590 --> 01:11:30,640

uh center of av aviators contending with

1912

01:11:36,630 --> 01:11:33,600

an increasingly cluttered air domain

1913

01:11:39,910 --> 01:11:36,640

all right okay so

1914

01:11:41,030 --> 01:11:39,920

go ahead these uap if they have existed

1915

01:11:43,990 --> 01:11:41,040

long before

1916

01:11:44,550 --> 01:11:44,000

we existed are they cluttering the air

1917

01:11:48,550 --> 01:11:44,560

domain

1918

01:11:52,149 --> 01:11:48,560

if that's the case

1919

01:11:56,550 --> 01:11:52,159

how many ufos are flying into airplanes

1920

01:12:03,110 --> 01:12:00,070

how cluttered is the air domain and what

1921

01:12:05,990 --> 01:12:03,120

what does it mean by air d can

1922

01:12:09,110 --> 01:12:06,000

air technically mean low earth orbit or

1923

01:12:12,390 --> 01:12:09,120

it's jesus crimes

1924

01:12:14,709 --> 01:12:12,400

sherbet low earth sherbet

1925

01:12:17,189 --> 01:12:14,719

could there be a tiny could there be a

1926

01:12:20,390 --> 01:12:17,199

tiny ufo floating in front of us

1927

01:12:21,270 --> 01:12:20,400

i mean that's air right this is air

1928

01:12:24,070 --> 01:12:21,280

domain

1929

01:12:24,950 --> 01:12:24,080

yeah i just realized i need to turn my

1930

01:12:28,149 --> 01:12:24,960

ac on dude

1931

01:12:29,590 --> 01:12:28,159

i'm like i'm hot as [ʌ__ʌ] nice dude

1932

01:12:34,870 --> 01:12:29,600

i like it when you turn the ac i'm

1933

01:12:40,070 --> 01:12:38,790

makes my pants tight i love the ac

1934

01:12:42,229 --> 01:12:40,080

all the girl all the ladies are going

1935

01:12:45,110 --> 01:12:42,239

crazy in the chat hey

1936

01:12:47,270 --> 01:12:45,120

uh so we learned a weird thing like a

1937

01:12:48,470 --> 01:12:47,280

few months ago that not everybody has ac

1938

01:12:50,630 --> 01:12:48,480

we learned that these people in

1939

01:12:52,870 --> 01:12:50,640

california didn't have ac

1940

01:12:54,550 --> 01:12:52,880

what the [h__h] is that a thing how many

1941

01:12:57,270 --> 01:12:54,560

of y'all out there in the chat

1942

01:12:59,270 --> 01:12:57,280

don't have an ac i'm i'm really curious

1943

01:13:02,630 --> 01:12:59,280

to know this because this is like a

1944

01:13:05,110 --> 01:13:02,640

like a a mind-bending revelation for me

1945

01:13:06,149 --> 01:13:05,120

that uh yeah the actual people don't

1946

01:13:08,950 --> 01:13:06,159

have acs

1947

01:13:09,750 --> 01:13:08,960

like people well we learned from our

1948

01:13:11,590 --> 01:13:09,760

buddy at the

1949

01:13:13,110 --> 01:13:11,600

the corner store that people in like

1950

01:13:15,830 --> 01:13:13,120

washington state are

1951

01:13:18,630 --> 01:13:15,840

dying yeah because they don't have acs

1952

01:13:20,790 --> 01:13:18,640

what a bunch of dummies right

1953

01:13:21,910 --> 01:13:20,800

i i thought it was the weirdest thing

1954

01:13:24,550 --> 01:13:21,920

that uh the

1955

01:13:25,350 --> 01:13:24,560

calif uh people in california are um

1956

01:13:27,910 --> 01:13:25,360

they don't

1957

01:13:28,630 --> 01:13:27,920

not a lot of houses have ac i know it's

1958

01:13:31,990 --> 01:13:28,640

kind of wild

1959

01:13:34,550 --> 01:13:32,000

weird weird weird greg i'm 100

1960

01:13:35,350 --> 01:13:34,560

on board with that i'd love to hear what

1961

01:13:38,070 --> 01:13:35,360

clown vis

1962

01:13:38,870 --> 01:13:38,080

dude yeah i know as well yeah just

1963

01:13:42,149 --> 01:13:38,880

watching his

1964

01:13:42,950 --> 01:13:42,159

uh recent episode today we're big fans

1965

01:13:45,189 --> 01:13:42,960

of clown this

1966

01:13:46,310 --> 01:13:45,199

yeah i like it y'all y'all need to check

1967

01:13:47,990 --> 01:13:46,320

out clown this yeah

1968

01:13:50,630 --> 01:13:48,000

i was watching this [h__\h] today it's got

1969

01:13:51,910 --> 01:13:50,640

like not enough views and he puts on

1970

01:13:53,750 --> 01:13:51,920

such a great show

1971

01:13:58,830 --> 01:13:53,760

every time

1972

01:14:05,590 --> 01:14:01,990

amazon prime paul stanley

1973

01:14:08,709 --> 01:14:05,600

amazon prize paul stanley

1974

01:14:10,950 --> 01:14:08,719

cool shoe cam

1975

01:14:13,669 --> 01:14:10,960

so we're going to get a shoe cam as soon

1976

01:14:15,910 --> 01:14:13,679

as our ufo garage sneakers come in

1977

01:14:18,310 --> 01:14:15,920

so that's gonna happen yeah yeah we got

1978

01:14:21,110 --> 01:14:18,320

some sneakers up on the website oh yeah

1979

01:14:21,590 --> 01:14:21,120

they're they're in china so the borders

1980

01:14:23,030 --> 01:14:21,600

have

1981

01:14:25,030 --> 01:14:23,040

i don't know when you're gonna get them

1982

01:14:26,790 --> 01:14:25,040

if you buy them but um

1983

01:14:28,630 --> 01:14:26,800

we didn't have one person buy them so

1984

01:14:30,709 --> 01:14:28,640

that's [h__\h] cool dope

1985

01:14:32,229 --> 01:14:30,719

i i need to oh my gosh i need a shout

1986

01:14:35,510 --> 01:14:32,239

out hold on i'm going to look up

1987

01:14:44,229 --> 01:14:39,430

mom it was it was my name

1988

01:14:44,239 --> 01:14:49,830

that would be about right actually

1989

01:14:55,590 --> 01:14:53,669

thanks i mean these are my shoes david

1990

01:14:56,870 --> 01:14:55,600

david yeah what's up david david thank

1991

01:14:59,510 --> 01:14:56,880

you for buying uh

1992

01:15:00,950 --> 01:14:59,520

some hey some merch you guys david

1993

01:15:01,990 --> 01:15:00,960

you're supporting the podcast and it

1994

01:15:04,149 --> 01:15:02,000

means a lot

1995

01:15:05,030 --> 01:15:04,159

you know it's like you get a shirt you

1996

01:15:07,110 --> 01:15:05,040

wear the brand

1997

01:15:08,870 --> 01:15:07,120

[h__h] badass people ask you about it

1998

01:15:10,470 --> 01:15:08,880

like oh cool and then you get to tell

1999

01:15:12,070 --> 01:15:10,480

them about these goofy dudes

2000

01:15:13,910 --> 01:15:12,080

that talk about ufos and aliens and all

2001

01:15:16,149 --> 01:15:13,920

things weird also

2002

01:15:17,990 --> 01:15:16,159

the shoes sorry bud i told you i emailed

2003

01:15:20,870 --> 01:15:18,000

you i was like dude i'm sorry but like

2004

01:15:22,630 --> 01:15:20,880

it it's things coming from china i

2005

01:15:24,070 --> 01:15:22,640

didn't realize that the producer of the

2006

01:15:26,310 --> 01:15:24,080

production was from china

2007

01:15:28,630 --> 01:15:26,320

and it's gonna take a long time dude

2008

01:15:31,669 --> 01:15:28,640

aren't all the producers from china

2009

01:15:35,270 --> 01:15:31,679

yeah dude dj khaled

2010

01:15:37,669 --> 01:15:35,280

he's not chinese are you sure

2011

01:15:39,400 --> 01:15:37,679

i'm positive okay he may have been made

2012

01:15:43,910 --> 01:15:39,410

in china

2013

01:15:46,070 --> 01:15:43,920

[Laughter]

2014

01:15:47,510 --> 01:15:46,080

oh i want to hear about the ac stuff oh

2015

01:15:50,709 --> 01:15:47,520

yeah yeah

2016

01:15:54,070 --> 01:15:52,709

only 20 percent of places have ac in the

2017

01:15:59,830 --> 01:15:54,080

seattle area

2018

01:16:03,510 --> 01:16:02,390

rather be squinting dude what's up dude

2019

01:16:06,550 --> 01:16:03,520

what's up bro oh

2020

01:16:09,189 --> 01:16:06,560

hell yeah how you doing man

2021

01:16:10,149 --> 01:16:09,199

he uh he's the introduction he's the the

2022

01:16:13,430 --> 01:16:10,159

uh the host

2023

01:16:14,630 --> 01:16:13,440

of the ucr man an identified celebrity

2024

01:16:16,550 --> 01:16:14,640

review

2025

01:16:18,310 --> 01:16:16,560

hell yeah what's up man that's pretty

2026

01:16:22,229 --> 01:16:18,320

wild thank you for hanging out

2027

01:16:24,550 --> 01:16:22,239

why has dmt that's kind of like ac

2028

01:16:26,229 --> 01:16:24,560

yeah dude dmt you don't you don't feel

2029

01:16:28,390 --> 01:16:26,239

whole

2030

01:16:30,950 --> 01:16:28,400

you're like everything's blue and it

2031

01:16:34,950 --> 01:16:30,960

tasted and it it's amazing and it smells

2032

01:16:36,870 --> 01:16:34,960

no that's acid oh that's right

2033

01:16:38,630 --> 01:16:36,880

i haven't done dmt yet i would like to

2034

01:16:40,550 --> 01:16:38,640

eat them i'm in florida some folks don't

2035

01:16:43,750 --> 01:16:40,560

have heat

2036

01:16:46,709 --> 01:16:43,760

oh well right now for real

2037

01:16:47,590 --> 01:16:46,719

like heaters well like is it cold in

2038

01:16:50,870 --> 01:16:47,600

florida right now

2039

01:16:56,470 --> 01:16:54,470

rarely that's why nobody has heat

2040

01:16:58,070 --> 01:16:56,480

i don't know man maybe they'll need it

2041

01:16:58,950 --> 01:16:58,080

with what's going on with darpa right

2042

01:17:02,149 --> 01:16:58,960

now

2043

01:17:03,590 --> 01:17:02,159

they might dude they might

2044

01:17:05,990 --> 01:17:03,600

i'm not like trying to tell the future

2045

01:17:08,470 --> 01:17:06,000

or anything

2046

01:17:09,830 --> 01:17:08,480

um okay what else let's let's let's go

2047

01:17:10,149 --> 01:17:09,840

through the little comments here let's

2048

01:17:13,910 --> 01:17:10,159

see

2049

01:17:16,790 --> 01:17:13,920

um do spacecraft have ac

2050

01:17:17,910 --> 01:17:16,800

dude that's a great question oh my god

2051

01:17:19,750 --> 01:17:17,920

if i get

2052

01:17:21,430 --> 01:17:19,760

if i'm abducted and put on a spacecraft

2053

01:17:24,390 --> 01:17:21,440

and it's not a freaking

2054

01:17:26,149 --> 01:17:24,400

73 degrees fahrenheit i'm gonna be in a

2055

01:17:28,630 --> 01:17:26,159

grumpy ass mood

2056

01:17:29,189 --> 01:17:28,640

oh yeah for sure sweat oh yeah i'm gonna

2057

01:17:31,110 --> 01:17:29,199

be i'm

2058

01:17:32,310 --> 01:17:31,120

not gonna be nice you can show me you

2059

01:17:34,470 --> 01:17:32,320

can show me

2060

01:17:36,229 --> 01:17:34,480

the universe and if i'm hot and sweating

2061

01:17:36,630 --> 01:17:36,239

ask my wife i'm in a terrible mood i'm a

2062

01:17:39,430 --> 01:17:36,640

terrible

2063

01:17:41,910 --> 01:17:39,440

person definitely not i'm gonna tear i'm

2064

01:17:44,870 --> 01:17:41,920

a terrible person when i'm hot

2065

01:17:47,030 --> 01:17:44,880

i get grump grump a good grump butt you

2066

01:17:48,310 --> 01:17:47,040

ever had grump butt

2067

01:17:49,750 --> 01:17:48,320

yeah that's when you're like really

2068

01:17:51,830 --> 01:17:49,760

sweaty and your butt cracks start

2069

01:17:56,950 --> 01:17:51,840

sweating and you get grumpy

2070

01:17:56,960 --> 01:18:03,590

my cat has eat

2071

01:18:06,709 --> 01:18:05,910

oh my gosh mike great hanging out with

2072

01:18:10,070 --> 01:18:06,719

you brother

2073

01:18:11,590 --> 01:18:10,080

hell yeah the legendary gamer the future

2074

01:18:14,630 --> 01:18:11,600

of gaming

2075

01:18:17,669 --> 01:18:14,640

hell yeah that's what's up

2076

01:18:20,229 --> 01:18:17,679

uh okay so secret society dude

2077

01:18:21,510 --> 01:18:20,239

preschool and everything in minnesota so

2078

01:18:23,030 --> 01:18:21,520

okay that's not what i thought i was

2079

01:18:23,990 --> 01:18:23,040

gonna say but mike i love that thought

2080

01:18:26,709 --> 01:18:24,000

process

2081

01:18:28,470 --> 01:18:26,719

uh have you seen mike uh and everybody

2082

01:18:29,750 --> 01:18:28,480

else have you seen glitch in the matrix

2083

01:18:32,070 --> 01:18:29,760

i texted you about it

2084

01:18:33,430 --> 01:18:32,080

i just watched glitch in the matrix oh i

2085

01:18:35,510 --> 01:18:33,440

saw that come up

2086

01:18:37,189 --> 01:18:35,520

and i was gonna watch it all right so i

2087

01:18:38,550 --> 01:18:37,199

haven't seen it yet we'll talk about it

2088

01:18:38,870 --> 01:18:38,560

after we get through this report we're

2089

01:18:40,630 --> 01:18:38,880

on

2090

01:18:42,310 --> 01:18:40,640

page three we have three more pages

2091

01:18:44,630 --> 01:18:42,320

let's get to the report because

2092

01:18:45,669 --> 01:18:44,640

i have some i have some stuff to talk

2093

01:18:48,070 --> 01:18:45,679

about

2094

01:18:48,950 --> 01:18:48,080

with that movie called glitch in the

2095

01:18:52,310 --> 01:18:48,960

matrix

2096

01:18:54,790 --> 01:18:52,320

oh my god dude

2097

01:18:56,470 --> 01:18:54,800

and and all right we'll save it we'll

2098

01:19:00,709 --> 01:18:56,480

save it

2099

01:19:04,630 --> 01:19:00,719

what if aliens demand all her women

2100

01:19:07,750 --> 01:19:06,310

dude yeah no that's gonna happen for

2101

01:19:10,630 --> 01:19:07,760

sure that happens like every night for

2102

01:19:15,030 --> 01:19:12,950

oh yeah i would hell yeah would you

2103

01:19:17,110 --> 01:19:15,040

smoke weed with an alien i'm kidding

2104

01:19:18,470 --> 01:19:17,120

while exploring the universe yeah it

2105

01:19:21,430 --> 01:19:18,480

doesn't happen for me every night

2106

01:19:22,149 --> 01:19:21,440

i'm devil's a joke but oh yeah i would

2107

01:19:23,669 --> 01:19:22,159

totally

2108

01:19:25,430 --> 01:19:23,679

well would you how would you even like

2109

01:19:26,950 --> 01:19:25,440

pose the question like hey you guys got

2110

01:19:29,430 --> 01:19:26,960

any smoke or what dude

2111

01:19:31,030 --> 01:19:29,440

like they're already showing you like

2112

01:19:32,870 --> 01:19:31,040

blowing your mind with the universe and

2113

01:19:34,630 --> 01:19:32,880

it's like still not enough like

2114

01:19:37,430 --> 01:19:34,640

i wish i was high for this i don't have

2115

01:19:40,709 --> 01:19:37,440

any weed

2116

01:19:43,110 --> 01:19:40,719

there'd be like we do but like it would

2117

01:19:44,709 --> 01:19:43,120

you wouldn't exist anymore if you smoke

2118

01:19:48,830 --> 01:19:44,719

there we dude

2119

01:19:48,840 --> 01:19:52,310

okay um

2120

01:19:57,110 --> 01:19:54,630

yeah dope all right let's let's get back

2121

01:20:01,830 --> 01:19:57,120

to let's get back to the little chingaro

2122

01:20:03,270 --> 01:20:01,840

uh the the report we're on page three

2123

01:20:04,950 --> 01:20:03,280

um and we were only in the first

2124

01:20:08,070 --> 01:20:04,960

sentence in this uap

2125

01:20:09,430 --> 01:20:08,080

clearly poses a safety a flight issue

2126

01:20:12,629 --> 01:20:09,440

and may pose a challenge

2127

01:20:15,110 --> 01:20:12,639

to u.s national security now this is the

2128

01:20:16,149 --> 01:20:15,120

the the polarizing aspect of this whole

2129

01:20:21,030 --> 01:20:16,159

topic

2130

01:20:23,030 --> 01:20:21,040

need to give this enough

2131

01:20:25,189 --> 01:20:23,040

space and time for for people in the

2132

01:20:27,510 --> 01:20:25,199

chat to to talk with us and

2133

01:20:28,950 --> 01:20:27,520

you know let us know what you think but

2134

01:20:31,910 --> 01:20:28,960

i i'm a pacifist

2135

01:20:33,430 --> 01:20:31,920

you know i i feel like love is going to

2136

01:20:36,070 --> 01:20:33,440

conquer all

2137

01:20:36,470 --> 01:20:36,080

and at a certain point yeah you do need

2138

01:20:38,870 --> 01:20:36,480

to

2139

01:20:40,550 --> 01:20:38,880

defend yourself yeah there's like this

2140

01:20:40,950 --> 01:20:40,560

like love and light kind of vibe that

2141

01:20:42,470 --> 01:20:40,960

i've

2142

01:20:44,870 --> 01:20:42,480

i would love to believe in and i think

2143

01:20:45,270 --> 01:20:44,880

that's true to your core too man like

2144

01:20:46,629 --> 01:20:45,280

yeah

2145

01:20:48,310 --> 01:20:46,639

you know you're a lover not a fighter

2146

01:20:50,870 --> 01:20:48,320

but unless you're i've seen you

2147

01:20:51,350 --> 01:20:50,880

pushed before yeah you know not like

2148

01:20:53,750 --> 01:20:51,360

physic

2149

01:20:54,390 --> 01:20:53,760

like push beyond your edge where you're

2150

01:20:57,350 --> 01:20:54,400

like in

2151
01:20:58,709 --> 01:20:57,360
complete protection mode like you will

2152
01:21:00,390 --> 01:20:58,719
literally

2153
01:21:02,070 --> 01:21:00,400
you know protect the ones you love i'm

2154
01:21:03,990 --> 01:21:02,080
the same way man i just

2155
01:21:05,110 --> 01:21:04,000
i i don't know if you've seen me in that

2156
01:21:07,350 --> 01:21:05,120
aspect

2157
01:21:10,390 --> 01:21:07,360
i think a lot of us listening now that

2158
01:21:13,510 --> 01:21:10,400
if yeah we we're into this this topic

2159
01:21:14,470 --> 01:21:13,520
um and it seems to to sway in this this

2160
01:21:15,830 --> 01:21:14,480
vibe of

2161
01:21:18,149 --> 01:21:15,840
if you're into aliens in the

2162
01:21:20,070 --> 01:21:18,159
spirituality aspect that you're just

2163
01:21:21,830 --> 01:21:20,080

you know a pacifist completely to the

2164

01:21:24,550 --> 01:21:21,840

fullest but i don't think that's true

2165

01:21:26,870 --> 01:21:24,560

no it's not true yeah so definitely so

2166

01:21:28,470 --> 01:21:26,880

like this this idea that the the threat

2167

01:21:30,070 --> 01:21:28,480

is like something that i'm against i'm

2168

01:21:31,750 --> 01:21:30,080

not like

2169

01:21:33,910 --> 01:21:31,760

when when people are like it's not a

2170

01:21:36,550 --> 01:21:33,920

threat okay

2171

01:21:37,350 --> 01:21:36,560

i hear that argument and i get that

2172

01:21:39,990 --> 01:21:37,360

right

2173

01:21:41,590 --> 01:21:40,000

but also i've had we've talked to people

2174

01:21:44,310 --> 01:21:41,600

that have had terrible

2175

01:21:46,709 --> 01:21:44,320

terrible terrible transformative

2176
01:21:49,830 --> 01:21:46,719
experiences that have ruined their lives

2177
01:21:52,950 --> 01:21:49,840
yeah it was painful that was

2178
01:21:56,149 --> 01:21:52,960
just man it's it's it's a threatening

2179
01:21:56,709 --> 01:21:56,159
scenario to be in right and that's just

2180
01:22:01,510 --> 01:21:56,719
the

2181
01:22:04,790 --> 01:22:01,520
leslie said something

2182
01:22:06,070 --> 01:22:04,800
to us that like completely like blew my

2183
01:22:11,830 --> 01:22:06,080
mind right

2184
01:22:14,629 --> 01:22:11,840
she remember when she said imagine

2185
01:22:16,550 --> 01:22:14,639
you know you're taken by these et's and

2186
01:22:19,430 --> 01:22:16,560
occasionally

2187
01:22:20,550 --> 01:22:19,440
they heal you imagine going to the

2188
01:22:22,950 --> 01:22:20,560

dentist

2189

01:22:23,669 --> 01:22:22,960

and your teeth are all messed up and

2190

01:22:26,950 --> 01:22:23,679

they do

2191

01:22:29,590 --> 01:22:26,960

all the work at once right oh yeah

2192

01:22:31,910 --> 01:22:29,600

they love them wants it pull all the

2193

01:22:34,870 --> 01:22:31,920

teeth they fix you up

2194

01:22:35,990 --> 01:22:34,880

that's very traumatizing it definitely

2195

01:22:39,430 --> 01:22:36,000

hurts

2196

01:22:40,550 --> 01:22:39,440

but they fixed you right i loved that so

2197

01:22:42,149 --> 01:22:40,560

much so like yeah

2198

01:22:44,390 --> 01:22:42,159

that's gonna be in the documentary but

2199

01:22:47,830 --> 01:22:44,400

yeah at first you're like

2200

01:22:49,990 --> 01:22:47,840

ow that hurt i was knocked out i don't

2201

01:22:52,629 --> 01:22:50,000

really remember but now i woke up i'm in

2202

01:22:54,470 --> 01:22:52,639

so much pain um

2203

01:22:55,990 --> 01:22:54,480

because i didn't get anything for the

2204

01:22:59,270 --> 01:22:56,000

pain i just hurt now

2205

01:23:01,270 --> 01:22:59,280

yeah but realistically

2206

01:23:03,430 --> 01:23:01,280

later on down the line like they you're

2207

01:23:06,310 --> 01:23:03,440

actually better yeah like you're healed

2208

01:23:06,709 --> 01:23:06,320

right it just happened all at once right

2209

01:23:09,110 --> 01:23:06,719

that

2210

01:23:11,030 --> 01:23:09,120

blew my mind i'm so glad you remembered

2211

01:23:12,070 --> 01:23:11,040

that because i totally forgot about that

2212

01:23:15,189 --> 01:23:12,080

dude like

2213

01:23:18,310 --> 01:23:15,199

like that was so

2214

01:23:19,990 --> 01:23:18,320

altering with my perception of this this

2215

01:23:23,830 --> 01:23:20,000

entire thing and i think we're we're

2216

01:23:26,550 --> 01:23:23,840

both just and all of us i mean

2217

01:23:28,229 --> 01:23:26,560

constantly learning and we've talked to

2218

01:23:30,310 --> 01:23:28,239

melinda what like

2219

01:23:31,590 --> 01:23:30,320

like like a hundred hours at this point

2220

01:23:34,310 --> 01:23:31,600

like after knowing her

2221

01:23:36,629 --> 01:23:34,320

yeah i love melinda leslie oh my god

2222

01:23:40,950 --> 01:23:36,639

melinda's talked for a hundred hours

2223

01:23:42,470 --> 01:23:40,960

we've talked for like 18 minutes yeah

2224

01:23:44,709 --> 01:23:42,480

i could just sit back and listen to her

2225

01:23:47,910 --> 01:23:44,719

stories though yeah dude i

2226

01:23:49,350 --> 01:23:47,920

dude yes but like i've never heard her

2227

01:23:52,390 --> 01:23:49,360

say that specific thing

2228

01:23:55,270 --> 01:23:52,400

and it totally totally clicked like

2229

01:23:55,669 --> 01:23:55,280

yeah if you were to go in to a dentist's

2230

01:23:57,750 --> 01:23:55,679

office

2231

01:23:59,270 --> 01:23:57,760

you got one little pain problem and you

2232

01:24:00,790 --> 01:23:59,280

might not even know it like today i was

2233

01:24:04,390 --> 01:24:00,800

at the dentist and they were like

2234

01:24:06,070 --> 01:24:04,400

bro your teeth are [h__h] like

2235

01:24:07,750 --> 01:24:06,080

i have no pain in my teeth but they're

2236

01:24:10,070 --> 01:24:07,760

like you got a couple cavities we got to

2237

01:24:11,990 --> 01:24:10,080

take care of them and i'm like

2238

01:24:13,430 --> 01:24:12,000

okay well let's do it before it hurts

2239

01:24:14,629 --> 01:24:13,440

let's do it fort hurts and they were

2240

01:24:16,310 --> 01:24:14,639

like okay we're gonna do it

2241

01:24:17,830 --> 01:24:16,320

in steps and i said well can we do it

2242

01:24:21,030 --> 01:24:17,840

all at once and it

2243

01:24:24,709 --> 01:24:21,040

and and they were like no

2244

01:24:26,790 --> 01:24:24,719

you can't and then pear is exactly what

2245

01:24:28,390 --> 01:24:26,800

well honestly i'm telling you i'm not

2246

01:24:30,310 --> 01:24:28,400

making this up dude like i literally

2247

01:24:31,910 --> 01:24:30,320

said that like an idiot like you just do

2248

01:24:35,590 --> 01:24:31,920

all of them they're like no

2249

01:24:37,510 --> 01:24:35,600

dude no but what you should regret that

2250

01:24:38,950 --> 01:24:37,520

yeah but what she said is totally right

2251

01:24:41,430 --> 01:24:38,960

like

2252

01:24:44,070 --> 01:24:41,440

is it is it in the the present moment

2253

01:24:45,830 --> 01:24:44,080

that you do feel that it is a threat and

2254

01:24:46,470 --> 01:24:45,840

and it is hurting your your physical

2255

01:24:49,270 --> 01:24:46,480

body or

2256

01:24:49,990 --> 01:24:49,280

or your spiritual body but in the long

2257

01:24:51,750 --> 01:24:50,000

run

2258

01:24:53,830 --> 01:24:51,760

you realize that it was actually helping

2259

01:24:56,629 --> 01:24:53,840

you right i feel like that's such an

2260

01:24:57,510 --> 01:24:56,639

it's an important part but still dude i

2261

01:25:00,229 --> 01:24:57,520

mean you get

2262

01:25:01,270 --> 01:25:00,239

you get some stories that people have

2263

01:25:04,550 --> 01:25:01,280

been messed with

2264

01:25:07,030 --> 01:25:04,560

in bad ways for a long time yeah

2265

01:25:07,669 --> 01:25:07,040

yeah so okay so on the flip side of that

2266

01:25:13,910 --> 01:25:07,679

there

2267

01:25:14,550 --> 01:25:13,920

relate so it's passed down apparently

2268

01:25:18,550 --> 01:25:14,560

from

2269

01:25:22,950 --> 01:25:18,560

experiencing

2270

01:25:25,350 --> 01:25:22,960

aliens uh abductions or sightings

2271

01:25:26,070 --> 01:25:25,360

somewhere down the line you are related

2272

01:25:29,110 --> 01:25:26,080

it

2273

01:25:30,629 --> 01:25:29,120

you if you're having abduction

2274

01:25:33,270 --> 01:25:30,639

experiences or crazy

2275

01:25:34,149 --> 01:25:33,280

dreams of being abducted like chances

2276

01:25:35,750 --> 01:25:34,159

are your mother

2277

01:25:37,510 --> 01:25:35,760

or your father has experienced that

2278

01:25:38,149 --> 01:25:37,520

exact same thing if you try to talk to

2279

01:25:40,790 --> 01:25:38,159

them

2280

01:25:42,310 --> 01:25:40,800

and they make you feel like you're crazy

2281

01:25:43,990 --> 01:25:42,320

don't feel like you're crazy because

2282

01:25:46,550 --> 01:25:44,000

they're just covering up because they

2283

01:25:48,790 --> 01:25:46,560

know what you're talking about man

2284

01:25:50,470 --> 01:25:48,800

that's what i've been able to conclude

2285

01:25:52,070 --> 01:25:50,480

why says

2286

01:26:00,229 --> 01:25:52,080

wish my girlfriend would have all her

2287

01:26:06,390 --> 01:26:03,350

ah why

2288

01:26:07,270 --> 01:26:06,400

oh dude yeah you know little little gum

2289

01:26:11,750 --> 01:26:07,280

action

2290

01:26:15,750 --> 01:26:14,149

i mean that's that's cruel you just wait

2291

01:26:21,110 --> 01:26:15,760

till she gets old

2292

01:26:24,790 --> 01:26:21,120

and her teeth fall out oh god

2293

01:26:29,430 --> 01:26:24,800

that's y'all are [\h__\h] crazy all right

2294

01:26:31,830 --> 01:26:29,440

so anyway chris goes you know why

2295

01:26:33,669 --> 01:26:31,840

uh but yeah anyway so what i was saying

2296

01:26:35,189 --> 01:26:33,679

is yeah we've had these

2297

01:26:37,030 --> 01:26:35,199

we've talked to people that have

2298

01:26:38,870 --> 01:26:37,040

terrible terrible experiences

2299

01:26:40,310 --> 01:26:38,880

but we've also had people that have had

2300

01:26:44,229 --> 01:26:40,320

beautiful experiences

2301

01:26:46,709 --> 01:26:44,239

yeah our good buddy ryan bledsoe like

2302

01:26:48,629 --> 01:26:46,719

his experience have all been pretty damn

2303

01:26:51,669 --> 01:26:48,639

cool like

2304

01:26:52,149 --> 01:26:51,679

not in a sense not in the moment not in

2305

01:26:55,750 --> 01:26:52,159

the mo

2306

01:26:57,910 --> 01:26:55,760

yeah okay retrospectively like okay

2307

01:26:58,950 --> 01:26:57,920

this all happened to us it's pretty wild

2308

01:27:00,790 --> 01:26:58,960

i don't know if like

2309

01:27:03,270 --> 01:27:00,800

everything that's gone on has been

2310

01:27:04,870 --> 01:27:03,280

[h__\h] you know peaches and cream

2311

01:27:06,310 --> 01:27:04,880

right thank you for clearing that up

2312

01:27:08,310 --> 01:27:06,320

yeah yeah

2313

01:27:10,070 --> 01:27:08,320

i'm not saying his life has been easy

2314

01:27:12,390 --> 01:27:10,080

but because of this experience but

2315

01:27:13,189 --> 01:27:12,400

there has been some incredible things

2316

01:27:16,790 --> 01:27:13,199

happen

2317

01:27:19,669 --> 01:27:16,800

yeah that were pretty awesome

2318

01:27:20,310 --> 01:27:19,679

yeah like his i don't mean to tell his

2319

01:27:22,310 --> 01:27:20,320

story

2320

01:27:25,030 --> 01:27:22,320

also y'all should check out bledsoe said

2321

01:27:26,709 --> 01:27:25,040

so it's an amazing podcast

2322

01:27:28,470 --> 01:27:26,719

ryan bledsoe just put out it's [h__h]

2323

01:27:29,590 --> 01:27:28,480

awesome but yeah like i mean

2324

01:27:31,430 --> 01:27:29,600

if we're talking about trauma like

2325

01:27:33,189 --> 01:27:31,440

mental trauma like growing up with that

2326

01:27:35,430 --> 01:27:33,199

like that's a totally different

2327

01:27:36,390 --> 01:27:35,440

aspect of what i guess i was referring

2328

01:27:39,110 --> 01:27:36,400

to like right

2329

01:27:39,910 --> 01:27:39,120

like a threat meaning like maybe that

2330

01:27:43,510 --> 01:27:39,920

does

2331

01:27:46,629 --> 01:27:43,520

encompass uh uh a a

2332

01:27:48,070 --> 01:27:46,639

a spirituality threat a a because when

2333

01:27:48,470 --> 01:27:48,080

you're affected with something and

2334

01:27:51,910 --> 01:27:48,480

you're

2335

01:27:55,110 --> 01:27:51,920

presented with trauma as a child like

2336

01:27:57,270 --> 01:27:55,120

you can learn to adapt but you're always

2337

01:27:58,310 --> 01:27:57,280

going to be affected by that trauma

2338

01:28:00,550 --> 01:27:58,320

right and i

2339

01:28:02,550 --> 01:28:00,560

he talks about himself i'm not like

2340

01:28:04,790 --> 01:28:02,560

telling secrets on like ryan bledsoe is

2341

01:28:06,390 --> 01:28:04,800

very open about his experiences

2342

01:28:08,629 --> 01:28:06,400

and by the way y'all should check out

2343

01:28:11,830 --> 01:28:08,639

his show it's so freaking good

2344

01:28:13,750 --> 01:28:11,840

um bledsoe said so uh but

2345

01:28:15,110 --> 01:28:13,760

you know it what i guess what i'm

2346

01:28:16,950 --> 01:28:15,120

getting at is there's like

2347

01:28:18,149 --> 01:28:16,960

maybe there's a spectrum where this

2348

01:28:20,550 --> 01:28:18,159

threat thing

2349

01:28:21,669 --> 01:28:20,560

isn't so negative there are some

2350

01:28:23,910 --> 01:28:21,679

positives

2351
01:28:25,590 --> 01:28:23,920
and i kind of wanted to talk about some

2352
01:28:29,030 --> 01:28:25,600
positive things too

2353
01:28:29,590 --> 01:28:29,040
you know like and you know it's so hard

2354
01:28:32,310 --> 01:28:29,600
to

2355
01:28:33,270 --> 01:28:32,320
just talk about positives because a lot

2356
01:28:35,830 --> 01:28:33,280
of the stories we

2357
01:28:36,950 --> 01:28:35,840
and the people that we've talked to it's

2358
01:28:38,709 --> 01:28:36,960
always like

2359
01:28:40,550 --> 01:28:38,719
this thing was positive and there was

2360
01:28:41,350 --> 01:28:40,560
also some really negative things about

2361
01:28:48,550 --> 01:28:41,360
it

2362
01:28:52,310 --> 01:28:48,560
is

2363
01:28:54,310 --> 01:28:52,320

like i i would say that joe you and i

2364

01:28:55,350 --> 01:28:54,320

our experiences we're not i don't i

2365

01:28:58,709 --> 01:28:55,360

don't consider us

2366

01:29:01,990 --> 01:28:58,719

experiencers in the traditional uh

2367

01:29:04,709 --> 01:29:02,000

sense but right in the sense of this

2368

01:29:06,709 --> 01:29:04,719

idea that i've i've newly kind of

2369

01:29:08,470 --> 01:29:06,719

constructed in my brain that anybody

2370

01:29:11,669 --> 01:29:08,480

who's experienced something

2371

01:29:13,350 --> 01:29:11,679

that's out of the ordinary and something

2372

01:29:14,709 --> 01:29:13,360

they can't explain and something that

2373

01:29:16,070 --> 01:29:14,719

felt supernatural

2374

01:29:18,149 --> 01:29:16,080

it could be ghosts it could be

2375

01:29:20,149 --> 01:29:18,159

poltergeists it could be

2376

01:29:22,550 --> 01:29:20,159

hearing voices in your head or it could

2377

01:29:23,990 --> 01:29:22,560

be experienced a loved one in a dream

2378

01:29:25,990 --> 01:29:24,000

like very vividly

2379

01:29:27,189 --> 01:29:26,000

i think that we're all experiencers in

2380

01:29:30,790 --> 01:29:27,199

that sense

2381

01:29:32,390 --> 01:29:30,800

lights in the sky but

2382

01:29:33,830 --> 01:29:32,400

we're not contacting we're not

2383

01:29:37,030 --> 01:29:33,840

contactees yeah

2384

01:29:38,070 --> 01:29:37,040

exactly yeah but we can kind of

2385

01:29:42,390 --> 01:29:38,080

understand

2386

01:29:45,590 --> 01:29:42,400

like look dude it can get kind of dark

2387

01:29:46,149 --> 01:29:45,600

and we've only just been tickled with

2388

01:29:48,870 --> 01:29:46,159

that

2389

01:29:50,310 --> 01:29:48,880

and it can it can feel very strange and

2390

01:29:52,470 --> 01:29:50,320

not comfortable

2391

01:29:53,510 --> 01:29:52,480

like not knowing what the [h__h] going

2392

01:29:56,229 --> 01:29:53,520

on

2393

01:29:56,870 --> 01:29:56,239

you know it's not all rainbows and

2394

01:29:58,709 --> 01:29:56,880

sunshine

2395

01:30:00,709 --> 01:29:58,719

definitely not definitely not there's

2396

01:30:02,790 --> 01:30:00,719

there's definitely a big

2397

01:30:04,870 --> 01:30:02,800

definitely a spectrum that it runs on

2398

01:30:07,910 --> 01:30:04,880

for sure yeah

2399

01:30:11,030 --> 01:30:07,920

uh okay so anyway let's get back to

2400

01:30:13,750 --> 01:30:11,040

uh the report william hey brother hey

2401
01:30:15,910 --> 01:30:13,760
uh dude let me know what uh i want to

2402
01:30:19,350 --> 01:30:15,920
join you for a dnd game soon

2403
01:30:23,030 --> 01:30:19,360
thanks for hanging out man hell yeah

2404
01:30:26,470 --> 01:30:23,040
uh okay so where were we

2405
01:30:30,950 --> 01:30:26,480
uap clearly pose a oh let me

2406
01:30:33,990 --> 01:30:33,030
pose a safety of flight issue and may

2407
01:30:37,910 --> 01:30:34,000
pose a challenge to

2408
01:30:41,030 --> 01:30:37,920
u.s national security safety concerns

2409
01:30:43,510 --> 01:30:41,040
preliminary preliminarily

2410
01:30:46,229 --> 01:30:43,520
center on aviators contending with an

2411
01:30:49,430 --> 01:30:46,239
increasingly cluttered air domain

2412
01:30:51,830 --> 01:30:49,440
uap uh would also represent

2413
01:30:53,030 --> 01:30:51,840

a national security uh challenge if

2414

01:30:55,590 --> 01:30:53,040

they're

2415

01:30:56,870 --> 01:30:55,600

if they are foreign adversary collection

2416

01:30:59,590 --> 01:30:56,880

platforms

2417

01:31:00,870 --> 01:30:59,600

or provide evidence of potential

2418

01:31:04,149 --> 01:31:00,880

adversary

2419

01:31:06,709 --> 01:31:04,159

has developed either a breakthrough or

2420

01:31:08,470 --> 01:31:06,719

disruptive technology dude there's a lot

2421

01:31:10,310 --> 01:31:08,480

of like i tripped up a lot

2422

01:31:13,669 --> 01:31:10,320

in that like what do you take away from

2423

01:31:18,870 --> 01:31:16,629

they're considering it a national

2424

01:31:23,189 --> 01:31:18,880

security issue

2425

01:31:25,270 --> 01:31:23,199

because if they can't identify it

2426

01:31:26,950 --> 01:31:25,280

the uap okay so the uap would also

2427

01:31:27,669 --> 01:31:26,960

represent a national security challenge

2428

01:31:31,270 --> 01:31:27,679

that they are

2429

01:31:33,669 --> 01:31:31,280

for an adversary collection platforms

2430

01:31:34,709 --> 01:31:33,679

so if these things are from a different

2431

01:31:37,910 --> 01:31:34,719

country

2432

01:31:39,189 --> 01:31:37,920

we need to figure that out right now

2433

01:31:42,870 --> 01:31:39,199

they're uap

2434

01:31:43,510 --> 01:31:42,880

but it's a possibility we don't think it

2435

01:31:45,669 --> 01:31:43,520

is

2436

01:31:47,270 --> 01:31:45,679

but there's always a possibility that

2437

01:31:48,950 --> 01:31:47,280

their collection platforms they're

2438

01:31:49,430 --> 01:31:48,960

they're they're getting evidence and

2439

01:31:51,510 --> 01:31:49,440

data

2440

01:31:53,669 --> 01:31:51,520

on on all the stuff that we're doing and

2441

01:31:55,510 --> 01:31:53,679

using yeah and we can't do anything

2442

01:32:01,030 --> 01:31:55,520

about it

2443

01:32:05,590 --> 01:32:01,040

right so they're saying that these uaps

2444

01:32:09,030 --> 01:32:05,600

could be evidence of potential adversary

2445

01:32:10,830 --> 01:32:09,040

that they have developed uh some sort of

2446

01:32:12,310 --> 01:32:10,840

new technology that we know nothing

2447

01:32:14,790 --> 01:32:12,320

about

2448

01:32:16,629 --> 01:32:14,800

so does that not explain the thing i've

2449

01:32:20,709 --> 01:32:16,639

been we've been talking about

2450

01:32:23,189 --> 01:32:20,719

for like years dude is that there's

2451
01:32:25,189 --> 01:32:23,199
the possibility of a civilization that

2452
01:32:27,030 --> 01:32:25,199
we just don't know about that's already

2453
01:32:29,510 --> 01:32:27,040
on earth

2454
01:32:31,270 --> 01:32:29,520
can that not explain that well it could

2455
01:32:32,229 --> 01:32:31,280
be yeah you're right it doesn't have to

2456
01:32:35,110 --> 01:32:32,239
be china

2457
01:32:37,270 --> 01:32:35,120
potential russia or anything like that

2458
01:32:40,149 --> 01:32:37,280
it could be somebody we don't know about

2459
01:32:40,950 --> 01:32:40,159
dude the potential adversary all right

2460
01:32:44,149 --> 01:32:40,960
like

2461
01:32:45,189 --> 01:32:44,159
all that i think of when i i see that

2462
01:32:48,229 --> 01:32:45,199
term

2463
01:32:51,030 --> 01:32:48,239

a breakthrough potential adversary

2464

01:32:52,629 --> 01:32:51,040

disruptive technology well disruptive i

2465

01:32:55,189 --> 01:32:52,639

think of the the kid who played

2466

01:32:56,550 --> 01:32:55,199

uh mark zuckerberg in that movie but

2467

01:32:58,470 --> 01:32:56,560

like

2468

01:33:01,030 --> 01:32:58,480

all i'm seeing dude in my head and i

2469

01:33:05,110 --> 01:33:01,040

can't stop this vision is that

2470

01:33:07,669 --> 01:33:05,120

there is a s a civilization on earth

2471

01:33:11,030 --> 01:33:07,679

that we just don't know about man

2472

01:33:13,110 --> 01:33:11,040

think about this there's this let's say

2473

01:33:14,470 --> 01:33:13,120

a thousand years ago

2474

01:33:16,550 --> 01:33:14,480

that's a good that's a good amount of

2475

01:33:19,510 --> 01:33:16,560

time maybe 2000 years ago

2476

01:33:20,950 --> 01:33:19,520

people were smart as [h__h] dude pyramids

2477

01:33:24,149 --> 01:33:20,960

actually made power

2478

01:33:26,550 --> 01:33:24,159

okay and they were like all right

2479

01:33:28,310 --> 01:33:26,560

this is this is too much we gotta go and

2480

01:33:29,590 --> 01:33:28,320

be on our own there's like a small

2481

01:33:32,470 --> 01:33:29,600

number of people like

2482

01:33:34,229 --> 01:33:32,480

200 people let's say yeah and they had

2483

01:33:34,870 --> 01:33:34,239

their children or whatever and they they

2484

01:33:38,709 --> 01:33:34,880

said

2485

01:33:41,350 --> 01:33:38,719

look let's just go and we can stave off

2486

01:33:42,950 --> 01:33:41,360

anybody because we're on this island and

2487

01:33:44,310 --> 01:33:42,960

nobody can reach us because nobody knows

2488

01:33:45,350 --> 01:33:44,320

how to build ships because we used to

2489

01:33:46,149 --> 01:33:45,360

build their ships because we're the

2490

01:33:50,149 --> 01:33:46,159

smart ones

2491

01:33:53,990 --> 01:33:50,159

yeah so a few thousand years went by

2492

01:33:55,030 --> 01:33:54,000

and civilization caught up that gene

2493

01:33:57,830 --> 01:33:55,040

passed on

2494

01:33:59,669 --> 01:33:57,840

somehow and now we're catching up to

2495

01:34:02,070 --> 01:33:59,679

this smart civilization that has been

2496

01:34:03,750 --> 01:34:02,080

protected for thousands of years

2497

01:34:05,590 --> 01:34:03,760

that's always been there they were just

2498

01:34:07,350 --> 01:34:05,600

like hey y'all are [h__h] dumb

2499

01:34:09,030 --> 01:34:07,360

and like aggro and i don't like your

2500

01:34:10,950 --> 01:34:09,040

vibe and i like this masculine

2501
01:34:12,550 --> 01:34:10,960
whatever yeah they're like we're gonna

2502
01:34:13,350 --> 01:34:12,560
do our own thing we're gonna do our own

2503
01:34:16,229 --> 01:34:13,360
thing

2504
01:34:17,110 --> 01:34:16,239
and like for like ever they've been just

2505
01:34:19,430 --> 01:34:17,120
telling us we'd

2506
01:34:21,030 --> 01:34:19,440
like like and i don't know antarctica or

2507
01:34:23,910 --> 01:34:21,040
like the entire

2508
01:34:25,910 --> 01:34:23,920
atlantic ocean isn't just water maybe

2509
01:34:27,669 --> 01:34:25,920
there's like a continent out there

2510
01:34:29,430 --> 01:34:27,679
and it's this whole conspiracy theory i

2511
01:34:30,310 --> 01:34:29,440
mean we want to go we can't see it we

2512
01:34:33,030 --> 01:34:30,320
can't do it

2513
01:34:34,709 --> 01:34:33,040

have you been in a spaceship no what can

2514

01:34:36,149 --> 01:34:34,719

you do oh you can go on google maps okay

2515

01:34:37,830 --> 01:34:36,159

well what did google maps do

2516

01:34:39,990 --> 01:34:37,840

it was a satellite who controls the

2517

01:34:40,950 --> 01:34:40,000

satellite well corporation that was

2518

01:34:43,109 --> 01:34:40,960

controlled by the

2519

01:34:44,790 --> 01:34:43,119

rockefellers is there a european company

2520

01:34:48,149 --> 01:34:44,800

that makes many satellites

2521

01:34:50,870 --> 01:34:48,159

that you can purchase like it's just

2522

01:34:51,270 --> 01:34:50,880

you can purchase uh like the setup and

2523

01:34:52,790 --> 01:34:51,280

they

2524

01:34:54,709 --> 01:34:52,800

build these little mini satellites and

2525

01:34:57,590 --> 01:34:54,719

it's yours i don't know

2526

01:34:59,109 --> 01:34:57,600

somebody somebody sent that to us i

2527

01:34:59,990 --> 01:34:59,119

remember seeing that i think it's a

2528

01:35:02,790 --> 01:35:00,000

european company

2529

01:35:03,189 --> 01:35:02,800

that will build you a tiny satellite

2530

01:35:06,870 --> 01:35:03,199

what

2531

01:35:11,669 --> 01:35:08,870

i want one yeah because then you could

2532

01:35:13,830 --> 01:35:11,679

actually like maybe fly over those areas

2533

01:35:16,070 --> 01:35:13,840

and see what you can see

2534

01:35:17,430 --> 01:35:16,080

uh you call your restrictions on like

2535

01:35:19,750 --> 01:35:17,440

what they're allowed to put on it

2536

01:35:21,030 --> 01:35:19,760

well if it's a tiny island like you

2537

01:35:23,189 --> 01:35:21,040

might not be able to see it

2538

01:35:24,229 --> 01:35:23,199

it would only so let's think about this

2539

01:35:26,149 --> 01:35:24,239

so how much

2540

01:35:27,270 --> 01:35:26,159

land would it take to have three million

2541

01:35:30,790 --> 01:35:27,280

people

2542

01:35:33,750 --> 01:35:30,800

which is the population of austin texas

2543

01:35:34,950 --> 01:35:33,760

i think i i don't don't fact me just

2544

01:35:37,430 --> 01:35:34,960

[h__\h] believe me

2545

01:35:38,070 --> 01:35:37,440

just believe me don't fact-check me just

2546

01:35:40,629 --> 01:35:38,080

say that

2547

01:35:42,070 --> 01:35:40,639

austin is three million people that's

2548

01:35:43,189 --> 01:35:42,080

not right i know that's not right just

2549

01:35:45,109 --> 01:35:43,199

say that

2550

01:35:46,310 --> 01:35:45,119

but like that's not a lot of land

2551
01:35:48,629 --> 01:35:46,320
comparative like

2552
01:35:49,830 --> 01:35:48,639
out of the the vastness of the ocean you

2553
01:35:52,390 --> 01:35:49,840
could easily

2554
01:35:54,470 --> 01:35:52,400
it could be blotted out by a cloud oh

2555
01:35:56,790 --> 01:35:54,480
absolutely how many satellite images

2556
01:35:57,910 --> 01:35:56,800
have you seen of a clear ocean there's

2557
01:35:58,790 --> 01:35:57,920
always clouds there's always

2558
01:36:00,629 --> 01:35:58,800
precipitation

2559
01:36:02,229 --> 01:36:00,639
something right so it'd be pretty

2560
01:36:05,189 --> 01:36:02,239
[h__\h] easy

2561
01:36:07,669 --> 01:36:05,199
even if you had a little you know back

2562
01:36:10,870 --> 01:36:07,679
back door into that satellite like

2563
01:36:11,990 --> 01:36:10,880

hey this this area like just don't show

2564

01:36:15,590 --> 01:36:12,000

that

2565

01:36:17,669 --> 01:36:15,600

satellite for google and google may not

2566

01:36:19,910 --> 01:36:17,679

even even know

2567

01:36:22,310 --> 01:36:19,920

that's how smart they are well all

2568

01:36:25,189 --> 01:36:22,320

somebody in one of those 17 agencies

2569

01:36:28,550 --> 01:36:25,199

works for google

2570

01:36:29,350 --> 01:36:28,560

probably two of them yeah more than more

2571

01:36:32,310 --> 01:36:29,360

than one

2572

01:36:33,830 --> 01:36:32,320

for sure yeah all right all right well

2573

01:36:35,189 --> 01:36:33,840

let's let's keep going we're on page

2574

01:36:37,350 --> 01:36:35,199

three let's keep going i love that

2575

01:36:38,870 --> 01:36:37,360

combo though consistent consolidation of

2576

01:36:40,870 --> 01:36:38,880

reports from across the federal

2577

01:36:43,109 --> 01:36:40,880

government standardized reporting

2578

01:36:45,109 --> 01:36:43,119

increased collection and analysis and a

2579

01:36:47,030 --> 01:36:45,119

streamlined process for screening all

2580

01:36:48,870 --> 01:36:47,040

such reports against a broad range of

2581

01:36:50,950 --> 01:36:48,880

relevant usg data

2582

01:36:52,629 --> 01:36:50,960

will allow for more sophisticated

2583

01:36:54,070 --> 01:36:52,639

analysis of uap

2584

01:36:56,390 --> 01:36:54,080

that is likely to deepen our

2585

01:36:59,189 --> 01:36:56,400

understanding some of these steps

2586

01:37:01,270 --> 01:36:59,199

are resource intensive and would require

2587

01:37:02,709 --> 01:37:01,280

additional investment

2588

01:37:04,470 --> 01:37:02,719

so we're going to call it a threat so we

2589

01:37:07,109 --> 01:37:04,480

can get more investment

2590

01:37:09,669 --> 01:37:07,119

from you so that way we can go in and

2591

01:37:12,950 --> 01:37:09,679

collect more data

2592

01:37:15,030 --> 01:37:12,960

so all of that which was i mean uh

2593

01:37:17,510 --> 01:37:15,040

you know well constructed sentence was

2594

01:37:20,070 --> 01:37:17,520

all [h__h] all they had to say is like

2595

01:37:20,629 --> 01:37:20,080

hey we need more [h__h] money and like

2596

01:37:24,149 --> 01:37:20,639

give us

2597

01:37:25,910 --> 01:37:24,159

people that are good at what they do

2598

01:37:27,350 --> 01:37:25,920

like we can't just we can just make

2599

01:37:28,790 --> 01:37:27,360

things like you can't just throw money

2600

01:37:30,550 --> 01:37:28,800

into government and say just [h__h] do

2601
01:37:33,109 --> 01:37:30,560
it you have to like hire people that are

2602
01:37:34,310 --> 01:37:33,119
good at what they do

2603
01:37:36,229 --> 01:37:34,320
which isn't exactly because i know

2604
01:37:39,669 --> 01:37:36,239
exactly i know everything about

2605
01:37:40,629 --> 01:37:39,679
the government they love hiring people

2606
01:37:42,950 --> 01:37:40,639
that know what are

2607
01:37:43,990 --> 01:37:42,960
what they're doing right that's what i

2608
01:37:46,629 --> 01:37:44,000
love about the movie

2609
01:37:48,790 --> 01:37:46,639
uh a rival is they're like they reach

2610
01:37:51,910 --> 01:37:48,800
out to

2611
01:37:52,950 --> 01:37:51,920
what's up girl what's up girl

2612
01:37:54,709 --> 01:37:52,960
i'm trying to think of her name i can't

2613
01:37:56,310 --> 01:37:54,719

think of it i thought i was gonna like i

2614

01:37:59,430 --> 01:37:56,320

don't know her name either anyway

2615

01:37:59,990 --> 01:37:59,440

she's hot anyway but reach out to the

2616

01:38:03,510 --> 01:38:00,000

scientist

2617

01:38:05,189 --> 01:38:03,520

lady lady and she knows what she's doing

2618

01:38:07,189 --> 01:38:05,199

she doesn't work for the government but

2619

01:38:10,390 --> 01:38:07,199

that's how i would love it to happen

2620

01:38:11,750 --> 01:38:10,400

like hey some weird shit's going on

2621

01:38:14,830 --> 01:38:11,760

would you like to figure this out

2622

01:38:17,430 --> 01:38:14,840

they're private contractors

2623

01:38:20,870 --> 01:38:17,440

privates contractors

2624

01:38:24,149 --> 01:38:20,880

oh

2625

01:38:26,070 --> 01:38:24,159

got it but like that's how it should be

2626

01:38:28,550 --> 01:38:26,080

i don't know maybe that's how it already

2627

01:38:30,950 --> 01:38:28,560

is um

2628

01:38:32,550 --> 01:38:30,960

yeah so yeah we need funding to pay

2629

01:38:34,629 --> 01:38:32,560

these people to leave their job their

2630

01:38:37,910 --> 01:38:34,639

steady job to work on this one project

2631

01:38:40,070 --> 01:38:37,920

yeah imagine being told like oh no no we

2632

01:38:41,750 --> 01:38:40,080

love your work but you have to quit

2633

01:38:42,310 --> 01:38:41,760

everything you've ever worked for your

2634

01:38:45,350 --> 01:38:42,320

tenure

2635

01:38:47,430 --> 01:38:45,360

you're working for harvard or yale

2636

01:38:48,629 --> 01:38:47,440

and and we need you to quit and someone

2637

01:38:49,990 --> 01:38:48,639

else is going to take your place and you

2638

01:38:51,910 --> 01:38:50,000

can never have that job back

2639

01:38:53,430 --> 01:38:51,920

to work on this one [h__h] project yeah

2640

01:38:56,229 --> 01:38:53,440

imagine how hard that could be

2641

01:38:57,350 --> 01:38:56,239

it has to be for for uh someone who

2642

01:38:59,350 --> 01:38:57,360

knows

2643

01:39:00,390 --> 01:38:59,360

the science like have you ever thought

2644

01:39:03,430 --> 01:39:00,400

about that like

2645

01:39:04,790 --> 01:39:03,440

yeah like collegiate people like smart

2646

01:39:07,910 --> 01:39:04,800

people

2647

01:39:11,510 --> 01:39:07,920

i sound so job talking about it

2648

01:39:12,790 --> 01:39:11,520

like people but like

2649

01:39:14,950 --> 01:39:12,800

i would imagine that's how it would

2650

01:39:17,270 --> 01:39:14,960

happen unless they would to say like

2651
01:39:18,709 --> 01:39:17,280
aren't yale like you can't hire somebody

2652
01:39:19,590 --> 01:39:18,719
else to take her position or his

2653
01:39:21,750 --> 01:39:19,600
position

2654
01:39:22,790 --> 01:39:21,760
if we like borrow her him for a little

2655
01:39:24,550 --> 01:39:22,800
while right

2656
01:39:25,990 --> 01:39:24,560
yeah but what they're saying is like we

2657
01:39:29,270 --> 01:39:26,000
need more we need money

2658
01:39:32,709 --> 01:39:29,280
to get get more data we need some monies

2659
01:39:36,390 --> 01:39:34,790
available reporting so this is where it

2660
01:39:39,990 --> 01:39:36,400
gets this is where it gets

2661
01:39:43,430 --> 01:39:40,000
uh in the page three is really where it

2662
01:39:44,070 --> 01:39:43,440
kind of it gets interesting because

2663
01:39:47,990 --> 01:39:44,080

there's ooh

2664

01:39:50,629 --> 01:39:48,000

there's a there's a different color cool

2665

01:39:53,030 --> 01:39:50,639

but i think we've already gone through

2666

01:39:54,950 --> 01:39:53,040

the most interesting part of it dude

2667

01:39:56,310 --> 01:39:54,960

yeah i mean we could we're gonna go

2668

01:39:59,109 --> 01:39:56,320

through it

2669

01:40:00,070 --> 01:39:59,119

um but i don't know man what do you

2670

01:40:02,950 --> 01:40:00,080

think about this

2671

01:40:05,189 --> 01:40:02,960

the limited data leaves most uap

2672

01:40:08,149 --> 01:40:05,199

unexplained

2673

01:40:09,830 --> 01:40:08,159

dot dot dot that's such a such a boomer

2674

01:40:14,310 --> 01:40:09,840

[h__\h] thing to do

2675

01:40:19,669 --> 01:40:16,070

i think they're are you mad at me now

2676
01:40:25,189 --> 01:40:22,870
available reporting largely inconclusive

2677
01:40:26,950 --> 01:40:25,199
all right after everything you just said

2678
01:40:29,030 --> 01:40:26,960
all right so obviously on page four

2679
01:40:30,709 --> 01:40:29,040
someone else is writing this

2680
01:40:32,149 --> 01:40:30,719
because because everything they just

2681
01:40:37,270 --> 01:40:32,159
said was pretty dope

2682
01:40:39,430 --> 01:40:37,280
and then oh wait all available reporting

2683
01:40:41,750 --> 01:40:39,440
largely in conclusion somebody was like

2684
01:40:42,550 --> 01:40:41,760
all right who who was fired from the

2685
01:40:46,310 --> 01:40:42,560
times

2686
01:40:48,629 --> 01:40:46,320
years ago

2687
01:40:50,390 --> 01:40:48,639
let's come up with a a a newspaper

2688
01:40:50,790 --> 01:40:50,400

article it's like it's like the guys

2689

01:40:54,870 --> 01:40:50,800

that

2690

01:40:57,189 --> 01:40:54,880

wrote the first

2691

01:40:58,870 --> 01:40:57,199

few pages and then the last people that

2692

01:40:59,590 --> 01:40:58,880

directed game of thrones wrote the last

2693

01:41:01,910 --> 01:40:59,600

few pages

2694

01:41:02,790 --> 01:41:01,920

yes yeah exactly like wait what's

2695

01:41:05,750 --> 01:41:02,800

happening now

2696

01:41:06,229 --> 01:41:05,760

yeah they were like they're like they

2697

01:41:10,070 --> 01:41:06,239

had an

2698

01:41:11,590 --> 01:41:10,080

offer for a better a better report

2699

01:41:13,430 --> 01:41:11,600

it'd be hilarious if on this page they

2700

01:41:14,149 --> 01:41:13,440

say do not refer to pages one through

2701
01:41:17,669 --> 01:41:14,159
three

2702
01:41:20,229 --> 01:41:17,679
yeah yeah

2703
01:41:22,229 --> 01:41:20,239
so limited data and inconsistency in

2704
01:41:23,270 --> 01:41:22,239
reporting are key challenges to

2705
01:41:26,590 --> 01:41:23,280
evaluating

2706
01:41:29,390 --> 01:41:26,600
uap limited data and

2707
01:41:30,709 --> 01:41:29,400
inconsistency i i want to know what the

2708
01:41:33,669 --> 01:41:30,719
inconsistencies are

2709
01:41:34,229 --> 01:41:33,679
i mean is it radar inconsistencies right

2710
01:41:38,550 --> 01:41:34,239
probably

2711
01:41:42,149 --> 01:41:38,560
inconsistencies

2712
01:41:44,870 --> 01:41:42,159
in uh the uap

2713
01:41:47,430 --> 01:41:44,880

themselves right they you know their

2714

01:41:50,709 --> 01:41:47,440

means of tracking these things may not

2715

01:41:52,870 --> 01:41:50,719

all work if we refer back to page two

2716

01:41:54,470 --> 01:41:52,880

they may not all work on different types

2717

01:41:57,270 --> 01:41:54,480

of uap

2718

01:41:57,669 --> 01:41:57,280

so it's hard to collect data from that

2719

01:41:59,669 --> 01:41:57,679

which

2720

01:42:01,990 --> 01:41:59,679

i yeah i mean i guess i i could

2721

01:42:03,350 --> 01:42:02,000

understand that

2722

01:42:05,590 --> 01:42:03,360

yeah i mean they're talking about

2723

01:42:07,669 --> 01:42:05,600

reporting they're they're specifying

2724

01:42:08,310 --> 01:42:07,679

that the inconsistency in the limited

2725

01:42:11,669 --> 01:42:08,320

data

2726

01:42:14,790 --> 01:42:11,679

is based on reporting so

2727

01:42:17,350 --> 01:42:14,800

not that it didn't happen it's just the

2728

01:42:20,229 --> 01:42:17,360

way that it's being reported

2729

01:42:20,950 --> 01:42:20,239

or the inconsistency in reporting where

2730

01:42:22,950 --> 01:42:20,960

like

2731

01:42:24,149 --> 01:42:22,960

he was saying earlier i forgot who said

2732

01:42:27,990 --> 01:42:24,159

it but there was 2

2733

01:42:30,310 --> 01:42:28,000

600 cases reported in pennsylvania

2734

01:42:32,550 --> 01:42:30,320

well that's just what was reported if

2735

01:42:34,629 --> 01:42:32,560

there was more consistent reporting we'd

2736

01:42:37,590 --> 01:42:34,639

have a better idea of how many

2737

01:42:39,510 --> 01:42:37,600

and who all this is affecting right so

2738

01:42:41,669 --> 01:42:39,520

we don't have that information

2739

01:42:43,109 --> 01:42:41,679

so yeah like what is that what does that

2740

01:42:45,189 --> 01:42:43,119

mean in consistency

2741

01:42:46,550 --> 01:42:45,199

last month there was 20 this month

2742

01:42:48,390 --> 01:42:46,560

there's five

2743

01:42:50,390 --> 01:42:48,400

next month there's a hundred why would

2744

01:42:54,149 --> 01:42:50,400

that have a factor in any of this

2745

01:42:55,910 --> 01:42:54,159

the the frequency of of of sightings or

2746

01:42:57,270 --> 01:42:55,920

why would that have a factor in it well

2747

01:42:57,830 --> 01:42:57,280

they would have a factor because they

2748

01:43:00,229 --> 01:42:57,840

want to know

2749

01:43:01,590 --> 01:43:00,239

how often do these things show up what

2750

01:43:03,910 --> 01:43:01,600

is this an inconsistency in the

2751
01:43:06,070 --> 01:43:03,920
reporting of how much stuff is actually

2752
01:43:08,390 --> 01:43:06,080
there and showing up then how are they

2753
01:43:11,750 --> 01:43:08,400
supposed to have like correct data

2754
01:43:14,870 --> 01:43:11,760
so are they presuming that if if this

2755
01:43:16,950 --> 01:43:14,880
whole thing were to be this phenomena

2756
01:43:18,149 --> 01:43:16,960
were to be legitimate there needs to be

2757
01:43:22,070 --> 01:43:18,159
a consistent like

2758
01:43:24,070 --> 01:43:22,080
fa uh uh faa

2759
01:43:25,590 --> 01:43:24,080
timed blinking like well it's the

2760
01:43:27,430 --> 01:43:25,600
government it needs to be

2761
01:43:29,109 --> 01:43:27,440
it needs to be on a cadence like the

2762
01:43:31,990 --> 01:43:29,119
government wants to say

2763
01:43:32,950 --> 01:43:32,000

every month there's roughly 3 000

2764

01:43:36,310 --> 01:43:32,960

sightings

2765

01:43:38,870 --> 01:43:36,320

for this yeah but they can't because

2766

01:43:39,590 --> 01:43:38,880

it's so inconsistent while people report

2767

01:43:41,430 --> 01:43:39,600

it

2768

01:43:42,870 --> 01:43:41,440

so they they don't just don't like that

2769

01:43:44,310 --> 01:43:42,880

like that's yeah they just can't put

2770

01:43:47,189 --> 01:43:44,320

that in in a in a

2771

01:43:47,990 --> 01:43:47,199

data sheet and say here you go right you

2772

01:43:50,950 --> 01:43:48,000

know they can't

2773

01:43:52,870 --> 01:43:50,960

so so they're they're uh their values

2774

01:43:56,149 --> 01:43:52,880

that they uh

2775

01:43:59,510 --> 01:43:56,159

that this whatever entity places on

2776

01:44:00,550 --> 01:43:59,520

truth relies on a couple of pillars and

2777

01:44:04,070 --> 01:44:00,560

one of those pillars

2778

01:44:04,870 --> 01:44:04,080

is con consistency so consistency of

2779

01:44:12,310 --> 01:44:04,880

reporting

2780

01:44:14,070 --> 01:44:12,320

whatever so that that threshold has to

2781

01:44:17,189 --> 01:44:14,080

be

2782

01:44:19,030 --> 01:44:17,199

like unless i guess i'm trying to

2783

01:44:20,470 --> 01:44:19,040

look at the look at the what is it south

2784

01:44:22,790 --> 01:44:20,480

africa or australia

2785

01:44:23,510 --> 01:44:22,800

the the schoolyard kids yeah where the

2786

01:44:25,750 --> 01:44:23,520

ufo

2787

01:44:27,750 --> 01:44:25,760

landed and all those kids from school

2788

01:44:29,590 --> 01:44:27,760

saw it can you imagine going through the

2789

01:44:31,430 --> 01:44:29,600

reports of those kids they all saw

2790

01:44:33,590 --> 01:44:31,440

something different but they all saw

2791

01:44:34,950 --> 01:44:33,600

the same thing right how inconsistent

2792

01:44:38,310 --> 01:44:34,960

that report must be

2793

01:44:40,470 --> 01:44:38,320

right and then it never happened again

2794

01:44:42,550 --> 01:44:40,480

so that's very inconsistent so what

2795

01:44:46,070 --> 01:44:42,560

attribute are they applying to that

2796

01:44:48,070 --> 01:44:46,080

in inconsistency too is it the uh number

2797

01:44:49,510 --> 01:44:48,080

uh based on years what's the timeline

2798

01:44:52,790 --> 01:44:49,520

what's the x act

2799

01:44:54,790 --> 01:44:52,800

the x y ratio you know like

2800

01:44:56,709 --> 01:44:54,800

is it the amount or is it the amount of

2801
01:44:57,270 --> 01:44:56,719
people i don't i don't think that really

2802
01:45:00,830 --> 01:44:57,280
plays

2803
01:45:02,470 --> 01:45:00,840
a a factor i think the inconsistency in

2804
01:45:04,950 --> 01:45:02,480
reporting

2805
01:45:05,990 --> 01:45:04,960
so if these kids all reported something

2806
01:45:08,149 --> 01:45:06,000
that happened

2807
01:45:10,070 --> 01:45:08,159
but everybody's story was completely

2808
01:45:11,430 --> 01:45:10,080
different that's very inconsistent

2809
01:45:13,430 --> 01:45:11,440
it didn't have anything to do with

2810
01:45:13,910 --> 01:45:13,440
timelines okay it didn't have anything

2811
01:45:17,270 --> 01:45:13,920
to do

2812
01:45:19,030 --> 01:45:17,280
with when where right it's just the

2813
01:45:21,750 --> 01:45:19,040

reporting of what people are seeing

2814

01:45:22,310 --> 01:45:21,760

gosh right maybe commander fravor saw

2815

01:45:23,990 --> 01:45:22,320

something

2816

01:45:25,350 --> 01:45:24,000

right but a different pilot saw

2817

01:45:27,270 --> 01:45:25,360

something a little bit different that

2818

01:45:28,550 --> 01:45:27,280

makes sense i know that makes more sense

2819

01:45:31,189 --> 01:45:28,560

it doesn't visually

2820

01:45:32,950 --> 01:45:31,199

seem the same to everybody else there's

2821

01:45:35,590 --> 01:45:32,960

a general idea of what

2822

01:45:36,390 --> 01:45:35,600

happened but the way people report it

2823

01:45:38,390 --> 01:45:36,400

and what they

2824

01:45:40,470 --> 01:45:38,400

saw is completely different so it's hard

2825

01:45:42,229 --> 01:45:40,480

to gather any data off of something that

2826

01:45:44,070 --> 01:45:42,239

everybody saw something different right

2827

01:45:44,870 --> 01:45:44,080

which may just be a part of the

2828

01:45:46,870 --> 01:45:44,880

phenomenon

2829

01:45:49,030 --> 01:45:46,880

right in the way that it appears to you

2830

01:45:51,510 --> 01:45:49,040

yeah yeah sammy said

2831

01:45:52,950 --> 01:45:51,520

uh they're only counting reports made to

2832

01:45:56,470 --> 01:45:52,960

them so

2833

01:45:56,870 --> 01:45:56,480

i mean yeah i i guess i for some reason

2834

01:45:59,510 --> 01:45:56,880

i i

2835

01:46:00,149 --> 01:45:59,520

went too granular with that but like i

2836

01:46:01,910 --> 01:46:00,159

think

2837

01:46:03,590 --> 01:46:01,920

i don't know i can't be the only one

2838

01:46:05,430 --> 01:46:03,600

maybe i am but

2839

01:46:07,109 --> 01:46:05,440

the inconsis okay that makes a lot more

2840

01:46:09,990 --> 01:46:07,119

sense so let's see

2841

01:46:11,590 --> 01:46:10,000

one mass sighting happened and everybody

2842

01:46:13,189 --> 01:46:11,600

says something differently that's an

2843

01:46:15,430 --> 01:46:13,199

inconsistency in reporting

2844

01:46:16,470 --> 01:46:15,440

right okay exactly got you exactly thank

2845

01:46:19,750 --> 01:46:16,480

you for clearing that up

2846

01:46:20,470 --> 01:46:19,760

you're smart guys smart i'm reading a

2847

01:46:26,629 --> 01:46:20,480

document

2848

01:46:27,990 --> 01:46:26,639

no standardized reporting mechanism

2849

01:46:31,990 --> 01:46:28,000

existed until the

2850

01:46:34,550 --> 01:46:32,000

navy established one in march 2019

2851
01:46:35,510 --> 01:46:34,560
that's it that's very strange to just

2852
01:46:39,270 --> 01:46:35,520
make that statement

2853
01:46:40,790 --> 01:46:39,280
okay the air force subsequently adopted

2854
01:46:43,750 --> 01:46:40,800
that mechanism

2855
01:46:44,070 --> 01:46:43,760
in november 2020 but it remains limited

2856
01:46:47,350 --> 01:46:44,080
to

2857
01:46:51,189 --> 01:46:47,360
the usg reporting we all know usg is the

2858
01:46:58,870 --> 01:46:55,189
uh the utap regularly heard

2859
01:47:00,470 --> 01:46:58,880
anecdote anecdotally during its research

2860
01:47:02,790 --> 01:47:00,480
about other observations

2861
01:47:04,470 --> 01:47:02,800
that occurred but which were never

2862
01:47:08,070 --> 01:47:04,480
captured in formal or

2863
01:47:10,709 --> 01:47:08,080

informal reporting by the observers

2864

01:47:12,390 --> 01:47:10,719

so people seeing it and not reporting it

2865

01:47:15,590 --> 01:47:12,400

yeah that's exactly what they're saying

2866

01:47:17,189 --> 01:47:15,600

like yeah like [h__h] happened but like

2867

01:47:19,350 --> 01:47:17,199

there's a reason why people have been

2868

01:47:21,830 --> 01:47:19,360

reporting because of you

2869

01:47:22,790 --> 01:47:21,840

yeah mr government obviously they just

2870

01:47:26,470 --> 01:47:22,800

established

2871

01:47:28,790 --> 01:47:26,480

a mechanism in 2019 and 2020 so

2872

01:47:31,750 --> 01:47:28,800

for the past two years there's been a

2873

01:47:33,590 --> 01:47:31,760

way for you to report a ufo sighting

2874

01:47:35,189 --> 01:47:33,600

yeah out of all these years they've been

2875

01:47:37,109 --> 01:47:35,199

looking at this [h__h] they finally

2876

01:47:41,030 --> 01:47:37,119

establish something that won't get

2877

01:47:44,629 --> 01:47:41,040

people fired and their lives ruined yeah

2878

01:47:45,270 --> 01:47:44,639

i yeah that's a mud stain on them for

2879

01:47:50,229 --> 01:47:45,280

sure

2880

01:47:52,390 --> 01:47:50,239

big poop man

2881

01:47:53,669 --> 01:47:52,400

grandma said i'm glad you guys are still

2882

01:47:56,790 --> 01:47:53,679

a lot

2883

01:47:58,470 --> 01:47:56,800

still live oh i think you said uh a lie

2884

01:48:00,470 --> 01:47:58,480

i was like wait is there an impending

2885

01:48:07,590 --> 01:48:00,480

doom

2886

01:48:11,350 --> 01:48:09,189

if we smoke now we'll never get through

2887

01:48:11,910 --> 01:48:11,360

this report dude we should smoke now

2888

01:48:15,109 --> 01:48:11,920

though

2889

01:48:18,310 --> 01:48:15,119

you want to what

2890

01:48:20,629 --> 01:48:18,320

we're halfway through why not dude

2891

01:48:22,950 --> 01:48:20,639

let's see here you go where are we at

2892

01:48:26,629 --> 01:48:25,030

uh after carefully considering this

2893

01:48:29,510 --> 01:48:26,639

information the

2894

01:48:30,390 --> 01:48:29,520

uap task force focused on reports that

2895

01:48:33,430 --> 01:48:30,400

involve

2896

01:48:35,189 --> 01:48:33,440

uap largely witnessed firsthand by

2897

01:48:37,270 --> 01:48:35,199

military aviators

2898

01:48:39,270 --> 01:48:37,280

that were collected from systems we

2899

01:48:41,270 --> 01:48:39,280

consider to be reliable

2900

01:48:43,189 --> 01:48:41,280

these reports described incidents that

2901

01:48:46,470 --> 01:48:43,199
occurred between 2004

2902

01:48:48,229 --> 01:48:46,480
and 2021 with the majority coming in the

2903

01:48:50,070 --> 01:48:48,239
last two years as the new reporting

2904

01:48:52,550 --> 01:48:50,080
mechanism became better known to the

2905

01:48:54,790 --> 01:48:52,560
military aviation community

2906

01:48:56,790 --> 01:48:54,800
we were able to identify one reported

2907

01:48:59,270 --> 01:48:56,800
uap with high confidence

2908

01:49:00,149 --> 01:48:59,280
in that case we identified the object as

2909

01:49:03,669 --> 01:49:00,159
large

2910

01:49:07,109 --> 01:49:03,679
remained

2911

01:49:10,390 --> 01:49:07,119
unexplained yeah

2912

01:49:12,550 --> 01:49:10,400
i love that they they added that like

2913

01:49:15,350 --> 01:49:12,560

deflating balloon they didn't just say

2914

01:49:18,550 --> 01:49:15,360

balloon they said deflating balloon

2915

01:49:22,310 --> 01:49:18,560

a large how large large

2916

01:49:25,350 --> 01:49:22,320

condom how large large deflated balloon

2917

01:49:28,629 --> 01:49:25,360

that jesus christ

2918

01:49:29,030 --> 01:49:28,639

okay so we're getting to that moment

2919

01:49:30,550 --> 01:49:29,040

where

2920

01:49:33,189 --> 01:49:30,560

it's it's this is what i was looking for

2921

01:49:35,430 --> 01:49:33,199

earlier so out of the

2922

01:49:37,189 --> 01:49:35,440

okay wait should we skip over the

2923

01:49:39,030 --> 01:49:37,199

deflating balloon part or

2924

01:49:41,270 --> 01:49:39,040

is everybody get the picture everybody

2925

01:49:44,790 --> 01:49:41,280

gets that all right that's [h__h] dumb

2926

01:49:47,030 --> 01:49:44,800

uh also i think

2927

01:49:48,470 --> 01:49:47,040

i think that's a trigger word here

2928

01:49:51,189 --> 01:49:48,480

deflating balloon

2929

01:49:52,709 --> 01:49:51,199

like that's purpose purposefully put in

2930

01:49:55,750 --> 01:49:52,719

there

2931

01:49:59,270 --> 01:49:55,760

because the ones that

2932

01:50:00,390 --> 01:49:59,280

the people that know know what that

2933

01:50:03,109 --> 01:50:00,400

means like that's

2934

01:50:05,109 --> 01:50:03,119

total [h__\h] dude well and they're not

2935

01:50:07,510 --> 01:50:05,119

make i hope that their intent is not to

2936

01:50:08,470 --> 01:50:07,520

make us feel dumb i i think their intent

2937

01:50:09,910 --> 01:50:08,480

is to like

2938

01:50:11,669 --> 01:50:09,920

come on guys you know what we're talking

2939

01:50:13,109 --> 01:50:11,679

about you know we're not

2940

01:50:15,109 --> 01:50:13,119

we're not telling you you're stupid we

2941

01:50:15,750 --> 01:50:15,119

know if we look at it though they're

2942

01:50:19,830 --> 01:50:15,760

saying out of

2943

01:50:22,390 --> 01:50:19,840

all these cases we identified one

2944

01:50:24,149 --> 01:50:22,400

that actually was a deflating balloon

2945

01:50:26,870 --> 01:50:24,159

out of all the cases there was

2946

01:50:27,669 --> 01:50:26,880

one yes that we just were able to

2947

01:50:29,990 --> 01:50:27,679

identify

2948

01:50:31,030 --> 01:50:30,000

exactly that's like and it just so

2949

01:50:32,390 --> 01:50:31,040

happened to be a deflating

2950

01:50:33,750 --> 01:50:32,400

right between the lines like they're

2951

01:50:34,870 --> 01:50:33,760

being funny like i think that's

2952

01:50:37,990 --> 01:50:34,880

hilarious

2953

01:50:40,550 --> 01:50:38,000

144 reports originated from the united

2954

01:50:41,430 --> 01:50:40,560

states gnome sources i think that's so

2955

01:50:44,149 --> 01:50:41,440

funny they're like

2956

01:50:44,870 --> 01:50:44,159

all right guys how can we sound

2957

01:50:46,790 --> 01:50:44,880

professional

2958

01:50:48,709 --> 01:50:46,800

and also like make a little funny like

2959

01:50:51,430 --> 01:50:48,719

because i think that's hilarious out of

2960

01:50:53,350 --> 01:50:51,440

all of the ones the one we could say a

2961

01:50:56,470 --> 01:50:53,360

big wicked identity

2962

01:50:59,109 --> 01:50:56,480

was not one large balloon it was one

2963

01:51:00,709 --> 01:50:59,119

large deflating balloon

2964

01:51:02,310 --> 01:51:00,719

i think that's funny i think somebody

2965

01:51:02,629 --> 01:51:02,320

knew what the [h__h] they were saying and

2966

01:51:06,709 --> 01:51:02,639

it

2967

01:51:11,109 --> 01:51:06,719

yeah i don't know uh

2968

01:51:13,189 --> 01:51:11,119

so 80 of the reports out of the 144

2969

01:51:14,390 --> 01:51:13,199

involved observation with multiple

2970

01:51:19,750 --> 01:51:14,400

sensors

2971

01:51:22,149 --> 01:51:19,760

okay grandmaster said uh how large

2972

01:51:24,390 --> 01:51:22,159

just a regular magnum man you'd be

2973

01:51:27,350 --> 01:51:24,400

surprised how large they can get

2974

01:51:29,189 --> 01:51:27,360

you just put some water in them well it

2975

01:51:30,709 --> 01:51:29,199

better be a colored condom because if

2976

01:51:31,189 --> 01:51:30,719

it's just a clear one you're not gonna

2977

01:51:34,709 --> 01:51:31,199

see it

2978

01:51:37,510 --> 01:51:34,719

no matter how big it is our

2979

01:51:38,870 --> 01:51:37,520

our technology is not uh made to

2980

01:51:42,629 --> 01:51:38,880

perceive

2981

01:51:44,149 --> 01:51:42,639

clear so 80 reports involved in the

2982

01:51:46,950 --> 01:51:44,159

observation

2983

01:51:48,629 --> 01:51:46,960

had multiple sensors out of 144 there

2984

01:51:53,109 --> 01:51:48,639

were 80 of them

2985

01:51:56,149 --> 01:51:53,119

which is kind of a small number but also

2986

01:51:59,430 --> 01:51:56,159

a big number if we're talking about 144.

2987

01:52:02,790 --> 01:51:59,440

okay so so 144 reports originated from

2988

01:52:05,589 --> 01:52:02,800

usg sources of these

2989

01:52:06,790 --> 01:52:05,599

80 reports involved observation with

2990

01:52:11,669 --> 01:52:06,800

multiple sensors so

2991

01:52:17,750 --> 01:52:15,030

hold on i could do it other

2992

01:52:19,350 --> 01:52:17,760

uh i purposely avoided the math and you

2993

01:52:23,189 --> 01:52:19,360

walked right into the math i

2994

01:52:27,350 --> 01:52:23,199

know hold on dude 144

2995

01:52:30,629 --> 01:52:27,360

minus 80. i'm not doing the math so

2996

01:52:36,229 --> 01:52:30,639

don't expect any help from me dude

2997

01:52:44,950 --> 01:52:41,109

okay 20 plus 80 is 100. so 64. 64.

2998

01:52:48,390 --> 01:52:44,960

uh so i mean there out of that many

2999

01:52:51,669 --> 01:52:48,400

like i don't know like

3000

01:52:54,950 --> 01:52:51,679

that's a lot observations

3001

01:52:57,750 --> 01:52:54,960

multiple sensors that means that

3002

01:52:59,589 --> 01:52:57,760

60 of those did not have sensors i mean

3003

01:53:02,950 --> 01:52:59,599

that's not that many

3004

01:53:04,390 --> 01:53:02,960

like well i guess it's reports i was

3005

01:53:09,189 --> 01:53:04,400

gonna say well then how did they

3006

01:53:11,990 --> 01:53:09,199

find out about the other 64 but

3007

01:53:13,270 --> 01:53:12,000

eyewitness right nintendo says

3008

01:53:16,790 --> 01:53:13,280

testimonies

3009

01:53:21,589 --> 01:53:16,800

timmy yes

3010

01:53:26,149 --> 01:53:21,599

tammy i love you yes whoops yeah

3011

01:53:29,669 --> 01:53:26,159

oh she said 62 originally uh yeah

3012

01:53:30,790 --> 01:53:29,679

two down three i love this chat you guys

3013

01:53:33,189 --> 01:53:30,800

are awesome

3014

01:53:34,790 --> 01:53:33,199

i love you all you all are great thanks

3015

01:53:36,310 --> 01:53:34,800

for being thanks for not making fun of

3016

01:53:39,589 --> 01:53:36,320

us y'all are great

3017

01:53:44,149 --> 01:53:39,599

um yeah so i don't know again we

3018

01:53:47,030 --> 01:53:44,159

talked about like okay wow 144

3019

01:53:47,669 --> 01:53:47,040

uh reports that's what they're they're

3020

01:53:51,030 --> 01:53:47,679

they're

3021

01:53:57,270 --> 01:53:51,040

their whole

3022

01:53:58,390 --> 01:53:57,280

it's not a lot but i'm i kind of i'm

3023

01:54:01,109 --> 01:53:58,400

glad they did

3024

01:54:02,070 --> 01:54:01,119

because it makes it it makes it uh

3025

01:54:04,709 --> 01:54:02,080

digestible

3026

01:54:05,510 --> 01:54:04,719

for people who are not into this if you

3027

01:54:09,430 --> 01:54:05,520

were to

3028

01:54:13,430 --> 01:54:09,440

like this is another uh

3029

01:54:15,189 --> 01:54:13,440

data point you can easily 144 is a very

3030

01:54:16,870 --> 01:54:15,199

easy number to remember

3031

01:54:19,109 --> 01:54:16,880

to tell people like people are

3032

01:54:20,709 --> 01:54:19,119

interested now people are asking us

3033

01:54:22,709 --> 01:54:20,719

all the time like hey did you see that

3034

01:54:24,950 --> 01:54:22,719

[h__\h] about that pounding on monk

3035

01:54:26,470 --> 01:54:24,960

paying and we're like actually yeah the

3036

01:54:28,070 --> 01:54:26,480

uh the government actually reported on

3037

01:54:29,830 --> 01:54:28,080

144 different

3038

01:54:31,109 --> 01:54:29,840

signings and out of those 104 there was

3039

01:54:33,510 --> 01:54:31,119

any reports involving

3040

01:54:34,229 --> 01:54:33,520

observable multiple sensors and now we

3041

01:54:39,430 --> 01:54:34,239

sound smart

3042

01:54:43,830 --> 01:54:41,990

there's like 80 good ones but they're

3043

01:54:44,550 --> 01:54:43,840

also saying well within the past two

3044

01:54:47,189 --> 01:54:44,560

years

3045

01:54:49,109 --> 01:54:47,199

that have been reported we've allowed

3046

01:54:50,709 --> 01:54:49,119

people to talk about it yeah

3047

01:54:52,550 --> 01:54:50,719

well we don't we just we still don't

3048

01:54:54,629 --> 01:54:52,560

know the criteria and

3049

01:54:56,310 --> 01:54:54,639

that they allowed it to get into this

3050

01:54:58,870 --> 01:54:56,320

report it's just crazy that

3051
01:55:00,709 --> 01:54:58,880
these guys are like look we're trying to

3052
01:55:03,669 --> 01:55:00,719
figure out what's going on too

3053
01:55:04,229 --> 01:55:03,679
okay but like exactly what they're

3054
01:55:06,149 --> 01:55:04,239
saying

3055
01:55:07,510 --> 01:55:06,159
but really you cannot they can really

3056
01:55:09,189 --> 01:55:07,520
only claim the past

3057
01:55:10,790 --> 01:55:09,199
two years trying to figure out what the

3058
01:55:12,550 --> 01:55:10,800
hell is actually going on

3059
01:55:13,910 --> 01:55:12,560
don't sit here and try and make it sound

3060
01:55:15,750 --> 01:55:13,920
like we've been trying to figure this

3061
01:55:19,750 --> 01:55:15,760
out for a long time yeah okay

3062
01:55:22,070 --> 01:55:19,760
especially from 2004 to 2021 17 years

3063
01:55:23,910 --> 01:55:22,080

but out of those 17 years we've only

3064

01:55:26,550 --> 01:55:23,920

allowed people to talk about it for

3065

01:55:27,189 --> 01:55:26,560

two of those right you know yeah and

3066

01:55:28,470 --> 01:55:27,199

it's like

3067

01:55:31,109 --> 01:55:28,480

you're talking about all this

3068

01:55:32,950 --> 01:55:31,119

inconsistent data and how we can't

3069

01:55:35,430 --> 01:55:32,960

really tell what it is

3070

01:55:37,510 --> 01:55:35,440

and it's like it's all your fault like

3071

01:55:39,510 --> 01:55:37,520

this is all your fault

3072

01:55:41,830 --> 01:55:39,520

that's kind of what this report says as

3073

01:55:46,149 --> 01:55:41,840

well like yeah hey they're admitting it

3074

01:55:48,390 --> 01:55:46,159

like look we [h__\h] up for 70 plus years

3075

01:55:50,229 --> 01:55:48,400

by making people just sound crazy within

3076

01:55:52,149 --> 01:55:50,239

the past two years we've allowed people

3077

01:55:53,589 --> 01:55:52,159

to talk about it but we just want to let

3078

01:55:54,229 --> 01:55:53,599

you know that we don't have enough data

3079

01:55:57,430 --> 01:55:54,239

to really

3080

01:55:59,109 --> 01:55:57,440

you know kind of go into it too too much

3081

01:56:01,109 --> 01:55:59,119

right which we know is [h__h] because

3082

01:56:03,270 --> 01:56:01,119

they do have a lot of damage they do

3083

01:56:05,990 --> 01:56:03,280

have a lot but i think this is just a

3084

01:56:06,870 --> 01:56:06,000

soft way of breaking it to everybody on

3085

01:56:10,149 --> 01:56:06,880

like

3086

01:56:13,990 --> 01:56:10,159

hey yeah well i i i

3087

01:56:18,390 --> 01:56:14,000

see it as uh so if you were given a

3088

01:56:22,550 --> 01:56:18,400

an abc scenario in 2020

3089

01:56:24,550 --> 01:56:22,560

and what to say joe you're in ufos right

3090

01:56:25,589 --> 01:56:24,560

well i don't i know you don't know

3091

01:56:29,109 --> 01:56:25,599

enough about

3092

01:56:32,390 --> 01:56:29,119

this [h__h] to like be you know on [h__h]

3093

01:56:35,830 --> 01:56:32,400

the news you know same with me like like

3094

01:56:39,510 --> 01:56:35,840

we know enough to talk about it but

3095

01:56:42,149 --> 01:56:39,520

would you rather no information come out

3096

01:56:43,510 --> 01:56:42,159

and not talk about the 70s or anything

3097

01:56:45,990 --> 01:56:43,520

or would you rather

3098

01:56:47,270 --> 01:56:46,000

a rebranding of the uap let's just talk

3099

01:56:50,390 --> 01:56:47,280

about let's just

3100

01:56:51,430 --> 01:56:50,400

talk about the last seven years eight

3101

01:56:57,669 --> 01:56:51,440

years

3102

01:56:59,910 --> 01:56:57,679

anything i i think that's what

3103

01:57:02,870 --> 01:56:59,920

may be happening is because a lot of

3104

01:57:05,270 --> 01:57:02,880

people that are in power in congress

3105

01:57:06,870 --> 01:57:05,280

are are are picking up that slack of

3106

01:57:08,310 --> 01:57:06,880

people that have been in power for so

3107

01:57:10,070 --> 01:57:08,320

long that have been covering up this

3108

01:57:11,109 --> 01:57:10,080

[h__\h] thing that everybody knows is

3109

01:57:12,790 --> 01:57:11,119

[h__\h] fake

3110

01:57:14,550 --> 01:57:12,800

everybody knows it's a cover up come on

3111

01:57:17,669 --> 01:57:14,560

like even the people that are like

3112

01:57:21,510 --> 01:57:17,679

on the fence no dude you know it's like

3113

01:57:25,109 --> 01:57:21,520

everybody's lying so let's just like

3114

01:57:28,870 --> 01:57:25,119

maybe refresh and start again with uap

3115

01:57:31,189 --> 01:57:28,880

right are they i mean but so also is

3116

01:57:32,790 --> 01:57:31,199

this kind of like a slap in the face in

3117

01:57:35,510 --> 01:57:32,800

the sense of like

3118

01:57:39,109 --> 01:57:35,520

hey we think you're all so dumb that you

3119

01:57:41,990 --> 01:57:39,119

probably won't ask questions about the

3120

01:57:43,030 --> 01:57:42,000

previous 100 years that's a pessimistic

3121

01:57:46,229 --> 01:57:43,040

way to look at it

3122

01:57:48,149 --> 01:57:46,239

i think but it's also i get it because i

3123

01:57:49,669 --> 01:57:48,159

thought of that exact same thing at the

3124

01:57:52,229 --> 01:57:49,679

beginning i was like

3125

01:57:53,030 --> 01:57:52,239

what the [h__\h] like like maybe you look

3126

01:57:54,950 --> 01:57:53,040

like an idiot

3127

01:57:56,550 --> 01:57:54,960

yeah they're dumb enough to not ask

3128

01:57:57,350 --> 01:57:56,560

questions right they're gonna be just

3129

01:58:00,149 --> 01:57:57,360

happy enough

3130

01:58:01,830 --> 01:58:00,159

that we're starting here and we're

3131

01:58:03,510 --> 01:58:01,840

actually gonna start talking about it

3132

01:58:04,950 --> 01:58:03,520

it's gonna you know what i'm saying like

3133

01:58:09,350 --> 01:58:04,960

that's how i felt in the beginning

3134

01:58:11,430 --> 01:58:09,360

it's like it's like i don't know

3135

01:58:12,790 --> 01:58:11,440

i mean like like tammy you you've been

3136

01:58:15,589 --> 01:58:12,800

into this [h__h] for like

3137

01:58:16,390 --> 01:58:15,599

ever like tammy i mean were you like

3138

01:58:18,470 --> 01:58:16,400

frustrated

3139

01:58:20,229 --> 01:58:18,480

at all with i mean i'm just asking you

3140

01:58:23,430 --> 01:58:20,239

personally in the chat like

3141

01:58:25,109 --> 01:58:23,440

i i know that you'd be like hey this is

3142

01:58:25,430 --> 01:58:25,119

[h__\h] the way that they're like kind

3143

01:58:27,669 --> 01:58:25,440

of

3144

01:58:29,030 --> 01:58:27,679

starting over what was your experience

3145

01:58:30,470 --> 01:58:29,040

you know i'd like to

3146

01:58:32,310 --> 01:58:30,480

you know yeah definitely because you and

3147

01:58:34,629 --> 01:58:32,320

i are like

3148

01:58:35,750 --> 01:58:34,639

oh man all of our friends thought we

3149

01:58:37,750 --> 01:58:35,760

were crazy

3150

01:58:38,870 --> 01:58:37,760

and then oh we're vindicated but it's

3151

01:58:41,109 --> 01:58:38,880

very a bit of a very

3152

01:58:42,229 --> 01:58:41,119

quick turnaround it varies you know what

3153

01:58:44,310 --> 01:58:42,239

i mean like very quick

3154

01:58:46,310 --> 01:58:44,320

but for maybe for people like tammy who

3155

01:58:49,109 --> 01:58:46,320

have been in this for a while

3156

01:58:50,390 --> 01:58:49,119

it's like yeah you [h__\h] are

3157

01:58:52,629 --> 01:58:50,400

seeing vindication

3158

01:58:54,629 --> 01:58:52,639

like immediate gratification whereas

3159

01:58:57,669 --> 01:58:54,639

she's been like staying true to her

3160

01:59:00,950 --> 01:58:57,679

beliefs for [h__\h] ever yeah

3161

01:59:03,430 --> 01:59:00,960

and it's like at this point it's like

3162

01:59:04,310 --> 01:59:03,440

you can't just accept this this new

3163

01:59:08,310 --> 01:59:04,320

thing it's like

3164

01:59:10,870 --> 01:59:08,320

no no i want you to admit that

3165

01:59:12,709 --> 01:59:10,880

that ups and ufos are the same [h__h]

3166

01:59:15,270 --> 01:59:12,719

thing we're just not talking about it

3167

01:59:15,990 --> 01:59:15,280

yeah yeah definitely i mean the

3168

01:59:19,189 --> 01:59:16,000

rebranding

3169

01:59:20,950 --> 01:59:19,199

is cool and all right uh but are you

3170

01:59:22,950 --> 01:59:20,960

gonna keep doing the same thing

3171

01:59:25,189 --> 01:59:22,960

you know it's kind of it's kind of like

3172

01:59:27,350 --> 01:59:25,199

how like what was it like

3173

01:59:29,109 --> 01:59:27,360

like you know they talk about like

3174

01:59:30,550 --> 01:59:29,119

roundup and like how it's like really

3175

01:59:32,870 --> 01:59:30,560

bad for everything

3176
01:59:33,830 --> 01:59:32,880
and then they talk about like monsanto

3177
01:59:35,750 --> 01:59:33,840
and like the

3178
01:59:37,109 --> 01:59:35,760
the branding and [h__h] of it and it just

3179
01:59:38,629 --> 01:59:37,119
like wasn't working

3180
01:59:40,229 --> 01:59:38,639
and it seemed like people were starting

3181
01:59:45,030 --> 01:59:40,239
to shy away from it

3182
01:59:48,070 --> 01:59:45,040
but like now it's all

3183
01:59:49,910 --> 01:59:48,080
owned by bayer it's the same [h__h]

3184
01:59:52,629 --> 01:59:49,920
but it's just rebranded the paint

3185
01:59:55,669 --> 01:59:52,639
company bear aspirin

3186
01:59:58,629 --> 01:59:55,679
oh like the yeah no

3187
01:59:58,950 --> 01:59:58,639
you're thinking of bear oh bear paint

3188
02:00:01,189 --> 01:59:58,960

yeah

3189

02:00:02,790 --> 02:00:01,199

no like bayer like it's a rebranding

3190

02:00:06,790 --> 02:00:02,800

it's like taking on a new

3191

02:00:08,709 --> 02:00:06,800

like face and it's like yeah hey hey

3192

02:00:10,229 --> 02:00:08,719

forget about all that messed up [h__h] we

3193

02:00:12,550 --> 02:00:10,239

did back in the in the day

3194

02:00:14,149 --> 02:00:12,560

and lied about and then it comes out

3195

02:00:18,070 --> 02:00:14,159

like that it all was

3196

02:00:20,229 --> 02:00:18,080

true right and when now we're this

3197

02:00:21,189 --> 02:00:20,239

grown by this we don't even know and

3198

02:00:23,270 --> 02:00:21,199

then they're like they're

3199

02:00:24,870 --> 02:00:23,280

targeting their new management like

3200

02:00:28,870 --> 02:00:24,880

talking [h__h] about their own

3201

02:00:32,550 --> 02:00:28,880

like monsanto used to say

3202

02:00:34,950 --> 02:00:32,560

you used to say that nap time wasn't uh

3203

02:00:36,470 --> 02:00:34,960

when you wanted to take a nap and now us

3204

02:00:38,790 --> 02:00:36,480

is nap corp

3205

02:00:39,990 --> 02:00:38,800

nap nap at napcorp we believe you should

3206

02:00:42,790 --> 02:00:40,000

take a nap anytime

3207

02:00:43,589 --> 02:00:42,800

you would like if you feel sleepy take a

3208

02:00:46,790 --> 02:00:43,599

nap

3209

02:00:48,950 --> 02:00:46,800

whenever i [h__\h] want

3210

02:00:50,550 --> 02:00:48,960

yeah yeah and and you're still doing the

3211

02:00:52,149 --> 02:00:50,560

exact same job

3212

02:00:53,589 --> 02:00:52,159

the difference is you just get to nap

3213

02:00:55,910 --> 02:00:53,599

whenever you want to like

3214

02:00:57,350 --> 02:00:55,920

you know what we're going to go with

3215

02:01:01,109 --> 02:00:57,360

this because i can have one

3216

02:01:06,830 --> 02:01:04,470

so nap corp we're starting it anybody

3217

02:01:08,310 --> 02:01:06,840

what is it what's the sign up for

3218

02:01:10,550 --> 02:01:08,320

napcorp

3219

02:01:11,990 --> 02:01:10,560

all right so we're past the 144. we're

3220

02:01:15,430 --> 02:01:12,000

talking about that all right

3221

02:01:18,629 --> 02:01:15,440

cool most describe uaps

3222

02:01:20,790 --> 02:01:18,639

uh as objects that interrupt

3223

02:01:22,229 --> 02:01:20,800

pre-planned training or military

3224

02:01:25,270 --> 02:01:22,239

activity like

3225

02:01:27,510 --> 02:01:25,280

guys we've been planning this

3226

02:01:28,629 --> 02:01:27,520

we have we had flat we have a we had a

3227

02:01:31,750 --> 02:01:28,639

florist

3228

02:01:32,229 --> 02:01:31,760

we had we had a planner come in and and

3229

02:01:34,709 --> 02:01:32,239

we had

3230

02:01:37,589 --> 02:01:34,719

all this air space so clean and then you

3231

02:01:38,790 --> 02:01:37,599

come in with your drunken butt

3232

02:01:40,470 --> 02:01:38,800

and you come in talking about your

3233

02:01:42,149 --> 02:01:40,480

ex-girlfriend being there and like look

3234

02:01:42,790 --> 02:01:42,159

we invited her because she's tammy's

3235

02:01:46,070 --> 02:01:42,800

cousin

3236

02:01:52,709 --> 02:01:49,189

uh anyway this guy like like

3237

02:01:54,470 --> 02:01:52,719

like basically we plan this

3238

02:01:56,310 --> 02:01:54,480

and these things are just showing up

3239

02:01:59,430 --> 02:01:56,320

right so either one

3240

02:02:01,030 --> 02:01:59,440

somebody has to know about our plans to

3241

02:02:03,830 --> 02:02:01,040

even be there in the first place

3242

02:02:04,950 --> 02:02:03,840

yeah or two these things are just

3243

02:02:10,310 --> 02:02:04,960

[h__\h] with us

3244

02:02:17,350 --> 02:02:13,750

jennifer yes dude like like uh

3245

02:02:17,990 --> 02:02:17,360

so think about this okay so can i go on

3246

02:02:19,990 --> 02:02:18,000

a little tangent

3247

02:02:21,910 --> 02:02:20,000

really quick so this could this could

3248

02:02:23,430 --> 02:02:21,920

all be like everything that we've ever

3249

02:02:24,470 --> 02:02:23,440

dreamed of everything that's happening

3250

02:02:27,510 --> 02:02:24,480

but it also

3251

02:02:28,950 --> 02:02:27,520

what if it was it was just this dude

3252

02:02:31,910 --> 02:02:28,960

that's like a part of the navy

3253

02:02:32,950 --> 02:02:31,920

that was in charge of like planning like

3254

02:02:36,790 --> 02:02:32,960

like uh uh

3255

02:02:38,390 --> 02:02:36,800

of practice uh fighting thingies or like

3256

02:02:40,709 --> 02:02:38,400

practice thingies

3257

02:02:42,229 --> 02:02:40,719

i don't know gary i'm sorry i'm not

3258

02:02:43,510 --> 02:02:42,239

starting i'm

3259

02:02:45,910 --> 02:02:43,520

not trying to offend anybody in the

3260

02:02:48,149 --> 02:02:45,920

military military training i

3261

02:02:49,830 --> 02:02:48,159

practice military training somebody who

3262

02:02:50,709 --> 02:02:49,840

plans that it's like it's like one

3263

02:02:52,790 --> 02:02:50,719

person right

3264

02:02:54,629 --> 02:02:52,800

scenarios and they're like thank you why

3265

02:02:56,390 --> 02:02:54,639

didn't you pick up syrup i'm sorry

3266

02:02:58,709 --> 02:02:56,400

i don't know you should speak when i

3267

02:03:08,550 --> 02:02:58,719

speak

3268

02:03:08,950 --> 02:03:08,560

just this one dude that [h__h] up one

3269

02:03:10,870 --> 02:03:08,960

time

3270

02:03:14,390 --> 02:03:10,880

and he's just like totally covering up

3271

02:03:18,229 --> 02:03:14,400

for the one mistake

3272

02:03:20,790 --> 02:03:18,239

it's like this whole thing oh

3273

02:03:21,990 --> 02:03:20,800

that that was like oh they totally knew

3274

02:03:25,669 --> 02:03:22,000

where we were going

3275

02:03:29,030 --> 02:03:27,990

and he's like i'm gonna be in the cape

3276

02:03:32,390 --> 02:03:29,040

cod i'm gonna be

3277

02:03:35,750 --> 02:03:32,400

on uh oh what is that

3278

02:03:38,870 --> 02:03:35,760

uh uh what's the island the the

3279

02:03:41,910 --> 02:03:38,880

uh the helicopter on the coast no

3280

02:03:43,510 --> 02:03:41,920

the uh madagascar uh the hillary clinton

3281

02:03:47,270 --> 02:03:43,520

islands the uh what is it

3282

02:03:47,669 --> 02:03:47,280

uh [h__h] uh oh she cooks she cooks food

3283

02:03:50,390 --> 02:03:47,679

uh

3284

02:03:50,870 --> 02:03:50,400

mary mary somebody help me out in the

3285

02:03:53,830 --> 02:03:50,880

chat

3286

02:03:56,390 --> 02:03:53,840

uh damn it pioneer woman dude there's an

3287

02:03:59,830 --> 02:03:56,400

island off of california dude

3288

02:04:02,470 --> 02:03:59,840

and mary's is like an m someone help me

3289

02:04:07,830 --> 02:04:02,480

out mary island

3290

02:04:11,669 --> 02:04:10,069

the cayman it's in this uh step brothers

3291

02:04:16,870 --> 02:04:11,679

it's in step brothers

3292

02:04:24,550 --> 02:04:20,149

um no it's off of california

3293

02:04:27,830 --> 02:04:24,560

england ah [h__h] all right the the

3294

02:04:30,390 --> 02:04:27,840

ah all right i'm i'm gonna

3295

02:04:32,229 --> 02:04:30,400

it's it's an island that all the ufos

3296

02:04:32,870 --> 02:04:32,239

have been happening forever martha

3297

02:04:34,790 --> 02:04:32,880

stewart

3298

02:04:36,390 --> 02:04:34,800

thank you oh my god that's who i was

3299

02:04:37,030 --> 02:04:36,400

thinking about but that's a stewart

3300

02:04:40,310 --> 02:04:37,040

island

3301

02:04:42,470 --> 02:04:40,320

[h__\h] no it's not oh my god

3302

02:04:44,149 --> 02:04:42,480

i've never heard of martin you're

3303

02:04:46,069 --> 02:04:44,159

totally right uh that is

3304

02:04:47,270 --> 02:04:46,079

exactly the person i was thinking about

3305

02:04:48,390 --> 02:04:47,280

bun uh bonzi fan

3306

02:04:50,069 --> 02:04:48,400

what does that have to do with the name

3307

02:04:50,629 --> 02:04:50,079

of the island oh my god somebody help me

3308

02:04:54,910 --> 02:04:50,639

out

3309

02:05:00,390 --> 02:04:54,920

catalina

3310

02:05:01,990 --> 02:05:00,400

[Laughter]

3311

02:05:03,589 --> 02:05:02,000

was that was that your connection to

3312

02:05:06,229 --> 02:05:03,599

martha stewart

3313

02:05:08,310 --> 02:05:06,239

catalina wine mixer it was a woman's

3314

02:05:10,229 --> 02:05:08,320

name

3315

02:05:12,149 --> 02:05:10,239

um where does martha stewart come in

3316

02:05:14,069 --> 02:05:12,159

though she lives she has a house in

3317

02:05:16,229 --> 02:05:14,079

colleen island oh

3318

02:05:17,109 --> 02:05:16,239

i didn't know that i didn't know that

3319

02:05:18,709 --> 02:05:17,119

god

3320

02:05:21,990 --> 02:05:18,719

how did you know that i felt like i like

3321

02:05:25,430 --> 02:05:23,430

how did you know that she lives on

3322

02:05:27,750 --> 02:05:25,440

martha stewart she lives on catalina

3323

02:05:30,870 --> 02:05:27,760

island she has a place

3324

02:05:33,589 --> 02:05:30,880

anyway i'm sorry that like they're so

3325

02:05:34,870 --> 02:05:33,599

confident about that ass fact i just i

3326

02:05:37,189 --> 02:05:34,880

just needed to know

3327

02:05:38,470 --> 02:05:37,199

you can't walk past that anyway i'm not

3328

02:05:40,470 --> 02:05:38,480

gonna let you so

3329

02:05:42,550 --> 02:05:40,480

all like there's someone living it's

3330

02:05:43,589 --> 02:05:42,560

it's someone living on catalina martha

3331

02:05:45,589 --> 02:05:43,599

stewart island

3332

02:05:47,270 --> 02:05:45,599

that [h__h] up the plans and then now

3333

02:05:48,229 --> 02:05:47,280

they're like trying to like cover their

3334

02:05:49,990 --> 02:05:48,239

tracks

3335

02:05:51,910 --> 02:05:50,000

and they're like no dude i promise it

3336

02:05:53,430 --> 02:05:51,920

was aliens it wasn't me i promise i sent

3337

02:05:55,109 --> 02:05:53,440

the email and i thought it was like to

3338

02:05:56,950 --> 02:05:55,119

hillary's like for private thing and

3339

02:06:01,109 --> 02:05:56,960

like

3340

02:06:05,189 --> 02:06:01,119

on catalina island on thursday at

3341

02:06:06,470 --> 02:06:05,199

5 22. [h__h] can we pretend like i didn't

3342

02:06:08,790 --> 02:06:06,480

say that i forgot what i was supposed to

3343

02:06:12,870 --> 02:06:08,800

tell you guys

3344

02:06:19,669 --> 02:06:16,149

yes oh my god we lost like

3345

02:06:19,990 --> 02:06:19,679

20 views just then oh my god thanks for

3346

02:06:23,030 --> 02:06:20,000

st

3347

02:06:26,550 --> 02:06:23,040

hanging out with us you guys

3348

02:06:29,189 --> 02:06:26,560

uh okay all right now that catalina

3349

02:06:31,910 --> 02:06:29,199

salad dressing is the [h__h]

3350

02:06:35,430 --> 02:06:31,920

it's so good what is that what is it

3351

02:06:35,440 --> 02:06:38,870

sounds salty

3352

02:06:44,069 --> 02:06:41,510

hey y'all i like i like the lady that

3353

02:06:47,589 --> 02:06:44,079

talks like this and she likes to lose

3354

02:06:53,750 --> 02:06:47,599

a lot of better so he likes to put

3355

02:06:58,709 --> 02:06:55,350

okay so joe's going to the bathroom i'm

3356

02:07:01,510 --> 02:06:58,719

going to do a little bit of a cup

3357

02:07:03,189 --> 02:07:01,520

oh i thought you were in the bathroom um

3358

02:07:09,510 --> 02:07:03,199

i'm going to do a little bit of chad

3359

02:07:14,870 --> 02:07:13,350

uh so i don't know i i i feel like i

3360

02:07:16,069 --> 02:07:14,880

derailed this entire thing with the

3361

02:07:19,350 --> 02:07:16,079

martha stewart

3362

02:07:20,550 --> 02:07:19,360

island thing but um i want to get back

3363

02:07:22,790 --> 02:07:20,560

on track because we were talking about

3364

02:07:25,189 --> 02:07:22,800

some smart [h__h] dude we sounded really

3365

02:07:27,030 --> 02:07:25,199

smart for a little bit

3366

02:07:28,390 --> 02:07:27,040

and i feel like i ruined it so let's go

3367

02:07:32,390 --> 02:07:28,400

back to the smart stuff

3368

02:07:35,510 --> 02:07:32,400

let's go back to smart stuff

3369

02:07:37,669 --> 02:07:35,520

all right okay so now we're now

3370

02:07:38,550 --> 02:07:37,679

oh now we're at like the really the

3371

02:07:41,589 --> 02:07:38,560

really like

3372

02:07:42,390 --> 02:07:41,599

visual part of it the the pink box part

3373

02:07:44,229 --> 02:07:42,400

the pink

3374

02:07:45,830 --> 02:07:44,239

box dude this is the most important part

3375

02:07:48,629 --> 02:07:45,840

that's why they highlight it yeah

3376

02:07:50,069 --> 02:07:48,639

dude let's let's let's see what it says

3377

02:07:54,709 --> 02:07:50,079

should we

3378

02:07:58,669 --> 02:07:54,719

before no okay all right

3379

02:08:06,870 --> 02:08:01,510

sociocultural stigmas and sensors

3380

02:08:11,910 --> 02:08:09,669

why are you laughing i'm just you've

3381

02:08:14,229 --> 02:08:11,920

never heard me say sociocultural before

3382

02:08:16,069 --> 02:08:14,239

have you you sound so smart

3383

02:08:17,430 --> 02:08:16,079

this is the smart part i thought that's

3384

02:08:18,950 --> 02:08:17,440

what we were doing right we're doing the

3385

02:08:23,350 --> 02:08:18,960

smart part smart

3386

02:08:25,189 --> 02:08:23,360

[h__h] all right sociocultural stigmas and

3387

02:08:28,069 --> 02:08:25,199

sensors limitations remain

3388

02:08:30,149 --> 02:08:28,079

obstacles to collecting data on uap

3389

02:08:32,950 --> 02:08:30,159

although some technical challenges

3390

02:08:35,750 --> 02:08:32,960

such as how to appropriately filter out

3391

02:08:38,149 --> 02:08:35,760

radar clutter to ensure safety of flight

3392

02:08:39,669 --> 02:08:38,159

for military and civilian aircraft are

3393

02:08:42,870 --> 02:08:39,679

long standing

3394

02:08:45,669 --> 02:08:42,880

long in the aviation community

3395

02:08:47,270 --> 02:08:45,679

while others are unique to the uap

3396

02:08:49,750 --> 02:08:47,280

problem set

3397

02:08:51,350 --> 02:08:49,760

so they're saying like yeah there's like

3398

02:08:54,390 --> 02:08:51,360

some weird [h__h] that happens

3399

02:08:56,390 --> 02:08:54,400

but like this is sp specifically

3400

02:08:57,629 --> 02:08:56,400

to this uh i kind of feel like i kind of

3401

02:09:00,790 --> 02:08:57,639

feel like we have to google

3402

02:09:09,270 --> 02:09:00,800

sociocultural mm-hmm i think i think

3403

02:09:13,830 --> 02:09:10,790

i hear so many words that start with the

3404

02:09:15,350 --> 02:09:13,840

word socio and i and i don't even think

3405

02:09:18,390 --> 02:09:15,360

i don't know what that means social

3406

02:09:20,069 --> 02:09:18,400

cultural differences between the sexes

3407

02:09:22,550 --> 02:09:20,079

hell yeah dude we're getting freaking

3408

02:09:26,709 --> 02:09:22,560

hot and heavy in here baby

3409

02:09:29,910 --> 02:09:26,719

wait what that was it was an example

3410

02:09:31,270 --> 02:09:29,920

cognitive development

3411

02:09:32,870 --> 02:09:31,280

no i just want i want like an

3412

02:09:34,069 --> 02:09:32,880

explanation like what does it mean i

3413

02:09:37,270 --> 02:09:34,079

don't know what the word means

3414

02:09:41,589 --> 02:09:37,280

defo death defy

3415

02:09:45,750 --> 02:09:44,470

mining social and cultural factors well

3416

02:09:48,470 --> 02:09:45,760

i guess i could have just

3417

02:09:49,350 --> 02:09:48,480

used context clues then that's like

3418

02:09:50,709 --> 02:09:49,360

exactly what it says

3419

02:09:52,950 --> 02:09:50,719

i was hoping it was gonna be something

3420

02:09:58,830 --> 02:09:52,960

smarter no you're just

3421

02:10:09,510 --> 02:10:01,030

so

3422

02:10:11,350 --> 02:10:09,520

anybody in the chat help me out because

3423

02:10:12,550 --> 02:10:11,360

social cultural stigmas

3424

02:10:14,790 --> 02:10:12,560

are they talking about like people's

3425

02:10:16,870 --> 02:10:14,800

belief systems yeah and like

3426
02:10:18,390 --> 02:10:16,880
they're talking about their and sensor

3427
02:10:21,830 --> 02:10:18,400
limitations remain

3428
02:10:24,950 --> 02:10:21,840
obstacles so they're like it's it's

3429
02:10:29,669 --> 02:10:24,960
it's the dogma it's the stigma of

3430
02:10:31,830 --> 02:10:29,679
ufos so aliens so we're saying remained

3431
02:10:33,589 --> 02:10:31,840
they're saying it's not just one thing

3432
02:10:34,550 --> 02:10:33,599
it's literally everything from people's

3433
02:10:36,790 --> 02:10:34,560
beliefs

3434
02:10:38,790 --> 02:10:36,800
to our equipment boom and everything in

3435
02:10:39,709 --> 02:10:38,800
between that's exactly what they say

3436
02:10:42,390 --> 02:10:39,719
here

3437
02:10:43,030 --> 02:10:42,400
socio-cultural stigmas and sensor

3438
02:10:46,229 --> 02:10:43,040

limiting

3439

02:10:49,750 --> 02:10:46,239

so it's not just our cog uh

3440

02:10:53,669 --> 02:10:49,760

consciousness but it's also the

3441

02:10:56,790 --> 02:10:53,679

the uh hardware that we use so

3442

02:10:59,910 --> 02:10:56,800

they're i that's why i love this dude

3443

02:11:03,189 --> 02:10:59,920

um they are literally saying

3444

02:11:06,149 --> 02:11:03,199

that they are they're lumping those two

3445

02:11:06,950 --> 02:11:06,159

into the same category that they're the

3446

02:11:11,030 --> 02:11:06,960

same

3447

02:11:14,149 --> 02:11:11,040

level of importance that's [\h__\h] dope

3448

02:11:16,470 --> 02:11:14,159

that's huge or

3449

02:11:17,589 --> 02:11:16,480

is it or is it i'm just playing devil's

3450

02:11:20,950 --> 02:11:17,599

advocate here

3451

02:11:21,830 --> 02:11:20,960

or is it just filler words i don't know

3452

02:11:24,709 --> 02:11:21,840

phil

3453

02:11:25,910 --> 02:11:24,719

so sociocultural stigmas and sensor

3454

02:11:28,390 --> 02:11:25,920

limitations remain

3455

02:11:29,830 --> 02:11:28,400

obstacles to collecting data on your ap

3456

02:11:31,990 --> 02:11:29,840

so like why would you

3457

02:11:33,510 --> 02:11:32,000

put the two together that's like saying

3458

02:11:36,629 --> 02:11:33,520

you know what clouds

3459

02:11:39,510 --> 02:11:36,639

and pop tarts remain obsolete we don't

3460

02:11:44,069 --> 02:11:42,470

you just like said two two words exactly

3461

02:11:45,510 --> 02:11:44,079

like yeah sensors are probably

3462

02:11:48,950 --> 02:11:45,520

limitations

3463

02:11:52,149 --> 02:11:48,960

probably people's sociocultural whatever

3464

02:11:55,189 --> 02:11:52,159

stigmas are are limitations yeah but

3465

02:11:56,229 --> 02:11:55,199

sore clouds yeah covering all bases so

3466

02:11:59,350 --> 02:11:56,239

suspicious

3467

02:12:02,950 --> 02:11:59,360

absolutely yeah jennifer like

3468

02:12:03,430 --> 02:12:02,960

it's they are but also i love that those

3469

02:12:07,669 --> 02:12:03,440

two

3470

02:12:10,310 --> 02:12:07,679

concepts are put in the same sentence

3471

02:12:12,069 --> 02:12:10,320

i think it's [h__h] cool man also it's

3472

02:12:13,189 --> 02:12:12,079

got a great background

3473

02:12:15,109 --> 02:12:13,199

look at this look at this text

3474

02:12:16,790 --> 02:12:15,119

background it's got them back that means

3475

02:12:19,270 --> 02:12:16,800

it's important i think

3476

02:12:21,270 --> 02:12:19,280

it's highlighted honestly i don't see

3477

02:12:23,750 --> 02:12:21,280

pink i see beige like a beige color

3478

02:12:24,629 --> 02:12:23,760

yeah you're tacky like a christmas khaki

3479

02:12:26,390 --> 02:12:24,639

right it is

3480

02:12:27,669 --> 02:12:26,400

it was like those pants that your

3481

02:12:29,910 --> 02:12:27,679

parents only made you wear

3482

02:12:31,589 --> 02:12:29,920

on like christmas like when you go to go

3483

02:12:33,910 --> 02:12:31,599

to uh church on christmas

3484

02:12:34,790 --> 02:12:33,920

christmas uh christmas church and

3485

02:12:36,790 --> 02:12:34,800

funeral

3486

02:12:41,830 --> 02:12:36,800

yeah those are the pants you wear i wore

3487

02:12:45,270 --> 02:12:44,790

although some technical challenges such

3488

02:12:47,350 --> 02:12:45,280

as

3489

02:12:49,350 --> 02:12:47,360

how to appropriately filter out radar

3490

02:12:51,350 --> 02:12:49,360

clutter to ensure safety of fighting

3491

02:12:53,030 --> 02:12:51,360

military and civilian aircraft

3492

02:12:55,109 --> 02:12:53,040

are long-standing in the aviation

3493

02:12:55,830 --> 02:12:55,119

community while others are unique to the

3494

02:13:00,229 --> 02:12:55,840

uap

3495

02:13:06,229 --> 02:13:02,229

okay so although some technical

3496

02:13:10,550 --> 02:13:08,629

filter all right filter out radar

3497

02:13:11,910 --> 02:13:10,560

clutter all right well how much clutter

3498

02:13:14,790 --> 02:13:11,920

are we dealing with

3499

02:13:16,069 --> 02:13:14,800

and and why wouldn't those challenges

3500

02:13:19,109 --> 02:13:16,079

why would they be different

3501

02:13:21,270 --> 02:13:19,119

than other um challenges

3502

02:13:23,510 --> 02:13:21,280

i i feel like you would be able to know

3503

02:13:23,990 --> 02:13:23,520

i mean speaking to gary voorhees who who

3504

02:13:27,270 --> 02:13:24,000

is a

3505

02:13:31,030 --> 02:13:27,280

cur he was in the military working

3506

02:13:32,790 --> 02:13:31,040

on the uss princeton right

3507

02:13:35,830 --> 02:13:32,800

he's a radar technician he knows the

3508

02:13:40,149 --> 02:13:35,840

difference between seagulls

3509

02:13:42,550 --> 02:13:40,159

and what he saw so

3510

02:13:43,510 --> 02:13:42,560

filtering out radar clutter so what's

3511

02:13:46,310 --> 02:13:43,520

clutter

3512

02:13:46,790 --> 02:13:46,320

like is that is that like somebody salt

3513

02:13:52,550 --> 02:13:46,800

bang

3514

02:13:57,189 --> 02:13:55,109

just a [h__\h] with us it's like what if

3515

02:13:59,589 --> 02:13:57,199

the aliens send out salt

3516

02:14:00,950 --> 02:13:59,599

they're like hey so we're we're gonna be

3517

02:14:02,229 --> 02:14:00,960

[h__\h] with these ships today i'm gonna

3518

02:14:02,870 --> 02:14:02,239

need you to go there he's how are you

3519

02:14:04,390 --> 02:14:02,880

gonna do it

3520

02:14:05,830 --> 02:14:04,400

and then like a ufo shows up and they're

3521

02:14:07,669 --> 02:14:05,840

like wait we've got something and salt

3522

02:14:11,430 --> 02:14:07,679

bay shows up and he sprinkles salt

3523

02:14:14,790 --> 02:14:13,910

is that salt bay or was that a ufo hold

3524

02:14:17,510 --> 02:14:14,800

on look

3525

02:14:18,709 --> 02:14:17,520

either either it's ufos aliens or salt

3526

02:14:20,709 --> 02:14:18,719

bay we don't know

3527

02:14:22,229 --> 02:14:20,719

they look exactly and that's why the

3528

02:14:22,550 --> 02:14:22,239

intelligence community is like that's

3529

02:14:24,830 --> 02:14:22,560

why

3530

02:14:26,149 --> 02:14:24,840

it's so they're so inconsistent in the

3531

02:14:29,189 --> 02:14:26,159

reports

3532

02:14:31,669 --> 02:14:29,199

some people see salt there

3533

02:14:33,189 --> 02:14:31,679

some people see ufos yeah some people

3534

02:14:35,669 --> 02:14:33,199

see somebody

3535

02:14:37,510 --> 02:14:35,679

and and the radar is all fuzzy and

3536

02:14:39,030 --> 02:14:37,520

everybody's hungry afterwards which

3537

02:14:42,069 --> 02:14:39,040

is the only consistent thing we can

3538

02:14:44,790 --> 02:14:42,079

think of you know we're assuming

3539

02:14:45,189 --> 02:14:44,800

we're assuming that uh there's there's

3540

02:14:48,149 --> 02:14:45,199

there's

3541

02:14:48,470 --> 02:14:48,159

probably uh more than one type oh all

3542

02:14:50,709 --> 02:14:48,480

right

3543

02:14:52,950 --> 02:14:50,719

looks like this sounds smart as hell

3544

02:14:55,109 --> 02:14:52,960

that does sound smart mr gray

3545

02:14:57,430 --> 02:14:55,119

clutter is predetermined set of

3546

02:14:59,030 --> 02:14:57,440

variables programmed to be screened out

3547

02:15:02,950 --> 02:14:59,040

of the radar reporting okay

3548

02:15:06,709 --> 02:15:02,960

cool cool nice no thanks brother um

3549

02:15:08,470 --> 02:15:06,719

it is okay so

3550

02:15:10,149 --> 02:15:08,480

so a uap isn't something that's

3551

02:15:13,669 --> 02:15:10,159

predetermined yeah

3552

02:15:15,270 --> 02:15:13,679

right wait what or

3553

02:15:16,950 --> 02:15:15,280

uap is something that's not in the

3554

02:15:18,950 --> 02:15:16,960

system so what he's saying is that

3555

02:15:20,709 --> 02:15:18,960

there are predetermined set of variables

3556

02:15:23,910 --> 02:15:20,719

right so so like let's say

3557

02:15:25,669 --> 02:15:23,920

speed or or uh altitude or

3558

02:15:27,030 --> 02:15:25,679

that change in between speed and

3559

02:15:31,030 --> 02:15:27,040

altitude

3560

02:15:31,589 --> 02:15:31,040

uh that is a a device in which you know

3561

02:15:34,870 --> 02:15:31,599

that it's

3562

02:15:38,149 --> 02:15:34,880

it's it's a bird it's the size uh

3563

02:15:39,910 --> 02:15:38,159

okay so like a bird can only change from

3564

02:15:41,510 --> 02:15:39,920

the size stays the same right like

3565

02:15:43,830 --> 02:15:41,520

that's one attribute yeah

3566

02:15:44,709 --> 02:15:43,840

but two things that can change is the

3567

02:15:46,709 --> 02:15:44,719

altitude

3568

02:15:47,910 --> 02:15:46,719

and the speed so it can change from

3569

02:15:51,030 --> 02:15:47,920

altitude to like

3570

02:15:52,310 --> 02:15:51,040

from 10 feet to zero feet in the matter

3571

02:15:54,069 --> 02:15:52,320

of a couple seconds but

3572

02:15:56,069 --> 02:15:54,079

if something changed from altitude of

3573

02:15:58,550 --> 02:15:56,079

3000 feet to zero feet

3574

02:15:59,990 --> 02:15:58,560

uh sea level that's something to pay

3575

02:16:03,109 --> 02:16:00,000

attention to

3576

02:16:03,990 --> 02:16:03,119

yeah but clutter is like this thing

3577

02:16:06,470 --> 02:16:04,000

that's like hey

3578

02:16:08,310 --> 02:16:06,480

don't pay attention to that maybe am i

3579

02:16:10,470 --> 02:16:08,320

maybe on the right track with that

3580

02:16:11,510 --> 02:16:10,480

like hey these are the known variables

3581

02:16:13,270 --> 02:16:11,520

this is rain

3582

02:16:15,270 --> 02:16:13,280

yeah this is a bunch of birds this is a

3583

02:16:18,709 --> 02:16:15,280

buzzer bird it's a bunch of poopos

3584

02:16:21,669 --> 02:16:18,719

somebody's pooping these are ufos

3585

02:16:23,109 --> 02:16:21,679

these are ufos and ufos poop too they do

3586

02:16:24,310 --> 02:16:23,119

that's what a lot of people don't know

3587

02:16:27,430 --> 02:16:24,320

they don't realize it

3588

02:16:30,550 --> 02:16:27,440

is that ufos maybe real live

3589

02:16:33,429 --> 02:16:30,560

things mr grace's yeppers got it yeah

3590

02:16:34,629 --> 02:16:33,439

duper smart ew was he talking to us

3591

02:16:35,030 --> 02:16:34,639

though he could be talking to somebody

3592

02:16:38,070 --> 02:16:35,040

else

3593

02:16:45,349 --> 02:16:38,080

he could have you gotta yeah all right

3594

02:16:52,150 --> 02:16:48,950

uh anyway let's go back um

3595

02:16:54,870 --> 02:16:52,160

so we stopped it here um

3596

02:16:55,669 --> 02:16:54,880

such as how appropriate appropriately

3597

02:16:58,950 --> 02:16:55,679

filter out

3598

02:17:00,150 --> 02:16:58,960

radar clutter to ensure uh safety of

3599

02:17:02,950 --> 02:17:00,160

flight for military

3600

02:17:04,549 --> 02:17:02,960

and civilian aircraft are long-standing

3601

02:17:07,669 --> 02:17:04,559

in the aviation community

3602

02:17:11,190 --> 02:17:07,679

which others are unique to the uap

3603

02:17:13,509 --> 02:17:11,200

problem set so the problem set is those

3604

02:17:14,950 --> 02:17:13,519

unknowns which we just talked about like

3605

02:17:16,709 --> 02:17:14,960

everything we know what was go

3606

02:17:19,349 --> 02:17:16,719

what's going in the sky we have a pretty

3607

02:17:20,070 --> 02:17:19,359

good idea this thing is not one of those

3608

02:17:23,110 --> 02:17:20,080

things

3609

02:17:24,230 --> 02:17:23,120

so it's unique that's the uap problem

3610

02:17:28,309 --> 02:17:24,240

set

3611

02:17:32,709 --> 02:17:28,319

uh interesting again they say problem

3612

02:17:37,509 --> 02:17:35,429

problem i don't know yeah is that me

3613

02:17:39,750 --> 02:17:37,519

being negative or

3614

02:17:41,190 --> 02:17:39,760

uh unidentified is already in the

3615

02:17:45,190 --> 02:17:41,200

acronym but it's like they have to

3616

02:17:48,950 --> 02:17:48,070

yeah i mean it definitely could be taken

3617

02:17:52,150 --> 02:17:48,960

as just like

3618

02:17:56,150 --> 02:17:52,160

in general a situation using the word

3619

02:17:57,990 --> 02:17:56,160

problem but i don't use the word

3620

02:18:00,150 --> 02:17:58,000

problem unless i'm talking about

3621

02:18:03,990 --> 02:18:00,160

something negative

3622

02:18:05,509 --> 02:18:04,000

you know boom yep yep

3623

02:18:07,990 --> 02:18:05,519

so they're saying that like there's a

3624

02:18:09,990 --> 02:18:08,000

potential goal where there's just like a

3625

02:18:12,309 --> 02:18:10,000

like a speed bump in the way a little

3626

02:18:14,950 --> 02:18:12,319

bit but if it's negative you're gonna be

3627

02:18:18,389 --> 02:18:14,960

like yeah this is a problem

3628

02:18:19,429 --> 02:18:18,399

yeah like they they don't use that word

3629

02:18:21,589 --> 02:18:19,439

lightly

3630

02:18:22,549 --> 02:18:21,599

every word in this whole entire report

3631

02:18:24,469 --> 02:18:22,559

is on purpose

3632

02:18:26,870 --> 02:18:24,479

so yeah they use the problem for a

3633

02:18:28,950 --> 02:18:26,880

reason they that's just not like

3634

02:18:31,589 --> 02:18:28,960

oh well we meant this very intense you

3635

02:18:33,750 --> 02:18:31,599

know what you mean yeah for sure yeah

3636

02:18:35,750 --> 02:18:33,760

okay so dude all right let's get through

3637

02:18:37,190 --> 02:18:35,760

these little bullet points and we'll be

3638

02:18:40,070 --> 02:18:37,200

done and we have some

3639

02:18:40,469 --> 02:18:40,080

footage to show you guys uh that i'm

3640

02:18:47,110 --> 02:18:40,479

pretty

3641

02:18:48,870 --> 02:18:47,120

uh narratives from aviators in the

3642

02:18:52,070 --> 02:18:48,880

operational community and

3643

02:18:53,270 --> 02:18:52,080

analysis from the military and i see

3644

02:18:56,309 --> 02:18:53,280

describe

3645

02:18:58,950 --> 02:18:56,319

uh disparagement associated with

3646

02:18:59,509 --> 02:18:58,960

observing uap reporting it or attempting

3647

02:19:01,910 --> 02:18:59,519

to

3648

02:19:03,589 --> 02:19:01,920

discuss it with colleagues so that's

3649

02:19:06,629 --> 02:19:03,599

talking about like this

3650

02:19:08,230 --> 02:19:06,639

this uh faux pas this uh taboo of

3651

02:19:10,309 --> 02:19:08,240

talking about it

3652

02:19:11,990 --> 02:19:10,319

that's what i believe from that although

3653

02:19:13,349 --> 02:19:12,000

the effects of these stigmas have

3654

02:19:15,990 --> 02:19:13,359

licensed

3655

02:19:17,509 --> 02:19:16,000

as senior member or lessened uh as

3656

02:19:19,990 --> 02:19:17,519

senior members of the scientific

3657

02:19:22,549 --> 02:19:20,000

community police policy military and

3658

02:19:24,950 --> 02:19:22,559

intelligent uh communities engage on the

3659

02:19:28,870 --> 02:19:24,960

topic seriously in the public

3660

02:19:31,669 --> 02:19:28,880

and in public uh reputational risk may

3661

02:19:33,429 --> 02:19:31,679

keep many observers silent complicating

3662

02:19:36,150 --> 02:19:33,439

scientific pursuit of the topic

3663

02:19:37,270 --> 02:19:36,160

so there i love that they they spelled

3664

02:19:38,629 --> 02:19:37,280

that out like

3665

02:19:40,549 --> 02:19:38,639

if you don't talk about it the

3666

02:19:44,070 --> 02:19:40,559

reputational risk

3667

02:19:46,549 --> 02:19:44,080

it's like it keeps it it keeps observer

3668

02:19:48,070 --> 02:19:46,559

uh observers silent like com it's

3669

02:19:49,910 --> 02:19:48,080

complicating that

3670

02:19:51,190 --> 02:19:49,920

scientific pursuit right they're

3671

02:19:52,950 --> 02:19:51,200

acknowledging it

3672

02:19:54,469 --> 02:19:52,960

as the higher up you go it doesn't

3673

02:19:56,630 --> 02:19:54,479

matter what level you are

3674

02:19:57,830 --> 02:19:56,640

even up to the highest rank if you don't

3675

02:20:00,309 --> 02:19:57,840

talk about it you

3676

02:20:02,230 --> 02:20:00,319

are complicating this scientific pursuit

3677

02:20:03,349 --> 02:20:02,240

yeah yeah it's almost like they have to

3678

02:20:06,070 --> 02:20:03,359

talk about it to

3679

02:20:07,750 --> 02:20:06,080

acquire the information yeah like maybe

3680

02:20:09,510 --> 02:20:07,760

like maybe this whole thing is just like

3681

02:20:10,870 --> 02:20:09,520

they came to a roadblock and they were

3682

02:20:11,910 --> 02:20:10,880

like look

3683

02:20:13,590 --> 02:20:11,920

we're probably gonna get more

3684

02:20:15,349 --> 02:20:13,600

information if we talk about it let's

3685

02:20:16,710 --> 02:20:15,359

talk about it let's start talking about

3686

02:20:17,990 --> 02:20:16,720

it and see what happens

3687

02:20:19,910 --> 02:20:18,000

and now they're going to be getting

3688

02:20:22,790 --> 02:20:19,920

massive amounts of data

3689

02:20:23,990 --> 02:20:22,800

to really go in and take a look at this

3690

02:20:25,910 --> 02:20:24,000

but like

3691

02:20:28,070 --> 02:20:25,920

yeah they kind of helped create the

3692

02:20:28,550 --> 02:20:28,080

stigma that you're crazy if you believe

3693

02:20:31,270 --> 02:20:28,560

in it

3694

02:20:32,950 --> 02:20:31,280

right so nobody is saying anything let's

3695

02:20:33,349 --> 02:20:32,960

talk about that for a sec let's let's

3696

02:20:40,710 --> 02:20:33,359

take it

3697

02:20:43,670 --> 02:20:40,720

let's talk about the fact that for

3698

02:20:43,990 --> 02:20:43,680

70 years talking about this even even as

3699

02:20:50,070 --> 02:20:44,000

a

3700

02:20:53,270 --> 02:20:50,080

your job

3701

02:20:56,230 --> 02:20:53,280

yeah your

3702

02:20:58,870 --> 02:20:56,240

your fellow uh military officers think

3703

02:21:01,750 --> 02:20:58,880

you're crazy and your your higher ups

3704

02:21:03,670 --> 02:21:01,760

say look you can't talk about that it's

3705

02:21:03,990 --> 02:21:03,680

been such a stigma that's the word it's

3706

02:21:06,309 --> 02:21:04,000

like

3707

02:21:07,510 --> 02:21:06,319

something you just can't talk about it's

3708

02:21:08,950 --> 02:21:07,520

such a taboo

3709

02:21:10,950 --> 02:21:08,960

and that's what they're addressing

3710

02:21:14,469 --> 02:21:10,960

that's why i think it's so important

3711

02:21:16,070 --> 02:21:14,479

it's in such bland language

3712

02:21:17,750 --> 02:21:16,080

and the fact that they included it in

3713

02:21:21,110 --> 02:21:17,760

their preliminary

3714

02:21:23,510 --> 02:21:21,120

right is great i love that but

3715

02:21:25,270 --> 02:21:23,520

you need to like most people read past

3716

02:21:27,110 --> 02:21:25,280

that and i think

3717

02:21:29,030 --> 02:21:27,120

this is so important because they're

3718

02:21:30,230 --> 02:21:29,040

acknowledging that this has been a

3719

02:21:32,550 --> 02:21:30,240

problem

3720

02:21:34,150 --> 02:21:32,560

they're acknowledging that like dude

3721

02:21:36,790 --> 02:21:34,160

people been saying [h__h]

3722

02:21:37,590 --> 02:21:36,800

for [h__h] ever and it's it's a problem

3723

02:21:40,469 --> 02:21:37,600

and it's

3724

02:21:41,190 --> 02:21:40,479

it's obstructing science yeah that's

3725

02:21:44,070 --> 02:21:41,200

what they're saying

3726

02:21:45,270 --> 02:21:44,080

yeah that's huge i think that's i think

3727

02:21:48,389 --> 02:21:45,280

that's pretty important

3728

02:21:50,150 --> 02:21:48,399

yeah for sure for sure

3729

02:21:52,830 --> 02:21:50,160

yeah these guys can't and i just want to

3730

02:22:01,429 --> 02:21:52,840

zoom in on your face while you say this

3731

02:22:06,309 --> 02:22:04,469

i felt weird about like taking like just

3732

02:22:08,710 --> 02:22:06,319

focusing on us and i was like trying to

3733

02:22:10,630 --> 02:22:08,720

double down on the joke

3734

02:22:15,030 --> 02:22:10,640

and then it made things worse so i'm

3735

02:22:20,710 --> 02:22:18,389

oh geez this is a great show okay

3736

02:22:22,870 --> 02:22:20,720

second bullet point the sensor's mounted

3737

02:22:24,790 --> 02:22:22,880

on u.s military platforms are typically

3738

02:22:25,750 --> 02:22:24,800

designed to fulfill specific missions

3739

02:22:28,469 --> 02:22:25,760

fulfill

3740

02:22:29,590 --> 02:22:28,479

as a result those sensors are not

3741

02:22:33,750 --> 02:22:29,600

generally suited for

3742

02:22:35,910 --> 02:22:33,760

identifying uap so

3743

02:22:36,870 --> 02:22:35,920

so i'll mount a sensor dude so put some

3744

02:22:38,630 --> 02:22:36,880

sensors on there

3745

02:22:41,190 --> 02:22:38,640

i'll mount that sensor dude that are

3746

02:22:42,469 --> 02:22:41,200

suited for identifying you ap put a suit

3747

02:22:45,510 --> 02:22:42,479

on my mounted center

3748

02:22:45,990 --> 02:22:45,520

sensor dude i don't think so i don't

3749

02:22:58,150 --> 02:22:46,000

know

3750

02:22:59,590 --> 02:22:58,160

physically

3751
02:23:01,270 --> 02:22:59,600
i don't think they don't even know what

3752
02:23:03,110 --> 02:23:01,280
the words you said i don't even know if

3753
02:23:05,510 --> 02:23:03,120
there's a tailor in town they can make

3754
02:23:08,550 --> 02:23:05,520
that happen

3755
02:23:10,710 --> 02:23:08,560
hey can you put this

3756
02:23:12,870 --> 02:23:10,720
can you put this telescope camera on my

3757
02:23:15,590 --> 02:23:12,880
chest

3758
02:23:17,510 --> 02:23:15,600
no but like like attach it to my my

3759
02:23:19,830 --> 02:23:17,520
flash

3760
02:23:22,230 --> 02:23:19,840
okay i i just work with suits man i

3761
02:23:26,389 --> 02:23:22,240
thought this was like this is

3762
02:23:29,990 --> 02:23:28,070
this thing makes a special bag because

3763
02:23:30,790 --> 02:23:30,000

yours has like a mini observatory on the

3764

02:23:32,630 --> 02:23:30,800

back

3765

02:23:34,630 --> 02:23:32,640

it just pops out and it like observes

3766

02:23:35,429 --> 02:23:34,640

the sky whenever you're standing outside

3767

02:23:38,630 --> 02:23:35,439

waiting for the bus

3768

02:23:41,750 --> 02:23:38,640

there's like a big hood and like nose

3769

02:23:42,870 --> 02:23:41,760

comes off dude it has a badass like cool

3770

02:23:44,389 --> 02:23:42,880

screen on the inside

3771

02:23:46,630 --> 02:23:44,399

oh my see everything through the

3772

02:23:48,870 --> 02:23:46,640

telescope this went from a stupid idea

3773

02:23:50,790 --> 02:23:48,880

to an amazing idea really fast [\h__\h]

3774

02:23:52,469 --> 02:23:50,800

love that

3775

02:23:53,910 --> 02:23:52,479

it's like a giant helmet that comes over

3776

02:23:55,510 --> 02:23:53,920

you yes and you're inside the

3777

02:23:57,110 --> 02:23:55,520

observatory with this telescope

3778

02:23:59,750 --> 02:23:57,120

and it shows you everything it's you're

3779

02:24:01,429 --> 02:23:59,760

looking at oh dude

3780

02:24:02,870 --> 02:24:01,439

we need to have one of those hey we

3781

02:24:05,429 --> 02:24:02,880

should talk to the guy from sky hub and

3782

02:24:08,389 --> 02:24:05,439

be like hey

3783

02:24:10,150 --> 02:24:08,399

we have some ideas we have this idea

3784

02:24:12,550 --> 02:24:10,160

we'll bring the hoodies

3785

02:24:13,429 --> 02:24:12,560

you bring all the expensive [h__h] dude

3786

02:24:16,309 --> 02:24:13,439

you actually

3787

02:24:16,710 --> 02:24:16,319

we have the idea you make it okay dope

3788

02:24:20,550 --> 02:24:16,720

like

3789

02:24:23,349 --> 02:24:20,560

put the hoodie over your face uh uh

3790

02:24:24,230 --> 02:24:23,359

uh 3d what do you call it augmented

3791

02:24:27,429 --> 02:24:24,240

reality

3792

02:24:29,750 --> 02:24:27,439

you know it's big screen big screen big

3793

02:24:31,190 --> 02:24:29,760

bigger bigger than all of every biggest

3794

02:24:33,190 --> 02:24:31,200

screen i've ever seen

3795

02:24:35,270 --> 02:24:33,200

the biggest hoodies the biggest and i

3796

02:24:38,469 --> 02:24:35,280

don't know

3797

02:24:42,469 --> 02:24:38,479

i'm terrible uh yeah uh

3798

02:24:43,830 --> 02:24:42,479

all right cool so sensors

3799

02:24:45,910 --> 02:24:43,840

it's funny how many times they talk

3800

02:24:48,950 --> 02:24:45,920

about sensors

3801
02:24:52,070 --> 02:24:48,960
and and notice that sensors

3802
02:24:53,910 --> 02:24:52,080
is a word of of evidence or proof like

3803
02:24:56,950 --> 02:24:53,920
this is our

3804
02:24:59,349 --> 02:24:56,960
in a sense the end-all be-all

3805
02:25:00,469 --> 02:24:59,359
sensors we have the sensors sensors make

3806
02:25:04,389 --> 02:25:00,479
proof make

3807
02:25:09,270 --> 02:25:04,399
make real things right sisters make fact

3808
02:25:14,150 --> 02:25:12,150
and how many facts how many facts have

3809
02:25:17,030 --> 02:25:14,160
you heard from sensors

3810
02:25:18,469 --> 02:25:17,040
i mean people lie a lot there's like on

3811
02:25:21,510 --> 02:25:18,479
census

3812
02:25:25,270 --> 02:25:21,520
that

3813
02:25:27,590 --> 02:25:25,280

don't trust it

3814

02:25:29,510 --> 02:25:27,600

but like sensors like this again this is

3815

02:25:32,710 --> 02:25:29,520

like the 14th million

3816

02:25:35,910 --> 02:25:32,720

1000 times 100th

3817

02:25:37,349 --> 02:25:35,920

time that sensor has been used as the

3818

02:25:39,510 --> 02:25:37,359

end-all be-all

3819

02:25:43,270 --> 02:25:39,520

this is why we have made this decision

3820

02:25:47,429 --> 02:25:45,750

can we just i mean is it dumb to like

3821

02:25:49,830 --> 02:25:47,439

question that

3822

02:25:50,469 --> 02:25:49,840

like you can have a sensor that can uh

3823

02:25:53,030 --> 02:25:50,479

you know

3824

02:25:53,910 --> 02:25:53,040

detect your pulse you can have a sensor

3825

02:25:57,349 --> 02:25:53,920

that can

3826

02:25:59,750 --> 02:25:57,359

detect light but

3827

02:26:01,110 --> 02:25:59,760

um is anyone questioning how old that

3828

02:26:04,389 --> 02:26:01,120

sensor is

3829

02:26:06,070 --> 02:26:04,399

how sensitive that is to sensing things

3830

02:26:08,150 --> 02:26:06,080

you know like

3831

02:26:09,349 --> 02:26:08,160

what goes into that i think as long as

3832

02:26:11,190 --> 02:26:09,359

the sensor works

3833

02:26:13,190 --> 02:26:11,200

for its intended purpose nobody

3834

02:26:15,110 --> 02:26:13,200

questions the sensor or

3835

02:26:17,190 --> 02:26:15,120

the age of the sensor but if these

3836

02:26:19,349 --> 02:26:17,200

sensors are having trouble

3837

02:26:21,429 --> 02:26:19,359

doing what they're designed to do then

3838

02:26:24,389 --> 02:26:21,439

we have to question the sensors

3839

02:26:25,670 --> 02:26:24,399

boom that's i i kind of like i was kind

3840

02:26:28,070 --> 02:26:25,680

of leading you

3841

02:26:29,190 --> 02:26:28,080

into i'm very glad you said what you

3842

02:26:31,510 --> 02:26:29,200

just said

3843

02:26:33,590 --> 02:26:31,520

you're smart there's a sensor there's a

3844

02:26:35,670 --> 02:26:33,600

sensor i was sensing that you were gonna

3845

02:26:37,349 --> 02:26:35,680

my my refrigerator is like hey you're

3846

02:26:40,630 --> 02:26:37,359

getting warm you should probably

3847

02:26:42,550 --> 02:26:40,640

get cold you know yeah

3848

02:26:43,990 --> 02:26:42,560

honestly i don't know how refrigerators

3849

02:26:46,070 --> 02:26:44,000

get cold i don't know

3850

02:26:47,990 --> 02:26:46,080

refrigerant well they sense that they

3851
02:26:50,950 --> 02:26:48,000
need to refrigerate things and then they

3852
02:26:51,590 --> 02:26:50,960
refrigerate things yeah like sensors

3853
02:26:54,309 --> 02:26:51,600
yeah

3854
02:26:55,110 --> 02:26:54,319
we also like we all need sensors anyway

3855
02:26:57,270 --> 02:26:55,120
so

3856
02:26:59,030 --> 02:26:57,280
read the third bullet point because this

3857
02:27:05,349 --> 02:26:59,040
will this will really drive

3858
02:27:10,710 --> 02:27:09,150
center bandage points and the number of

3859
02:27:13,510 --> 02:27:10,720
sensors

3860
02:27:15,270 --> 02:27:13,520
currently observed ruby come on dude

3861
02:27:17,349 --> 02:27:15,280
like if that's your baseline like this

3862
02:27:18,790 --> 02:27:17,359
is getting ridiculous at this point so

3863
02:27:20,230 --> 02:27:18,800

we got these sensors right we got these

3864

02:27:21,910 --> 02:27:20,240

like scissors like let me tell you about

3865

02:27:23,349 --> 02:27:21,920

the sensors like sensors that they're

3866

02:27:23,590 --> 02:27:23,359

going to save you a lot of like based on

3867

02:27:26,870 --> 02:27:23,600

a

3868

02:27:28,230 --> 02:27:26,880

sorry

3869

02:27:30,389 --> 02:27:28,240

the only reason we know that is because

3870

02:27:32,070 --> 02:27:30,399

the sensor is because of the sensor

3871

02:27:33,750 --> 02:27:32,080

the [h__\h] or will tell me more about

3872

02:27:35,590 --> 02:27:33,760

these sensors dude

3873

02:27:36,790 --> 02:27:35,600

well they sense things tell me more

3874

02:27:39,110 --> 02:27:36,800

about these sensors

3875

02:27:41,190 --> 02:27:39,120

sensor vantage points and the number of

3876

02:27:43,510 --> 02:27:41,200

sensors currently observing

3877

02:27:45,190 --> 02:27:43,520

an object place substantial roles in

3878

02:27:47,270 --> 02:27:45,200

distinguishing uap

3879

02:27:49,670 --> 02:27:47,280

from known objects and determining

3880

02:27:53,910 --> 02:27:49,680

whether uap demonstrates breakthrough

3881

02:27:57,190 --> 02:27:55,670

there's that word sorry i got excited

3882

02:27:58,790 --> 02:27:57,200

and i ended that like

3883

02:28:00,150 --> 02:27:58,800

and it also snapped at you i'm sorry i

3884

02:28:03,349 --> 02:28:00,160

snapped to you dude but there was a

3885

02:28:06,870 --> 02:28:05,190

also you did you you're supposed to

3886

02:28:10,150 --> 02:28:06,880

pause it i know it was supposed to

3887

02:28:13,270 --> 02:28:10,160

do you smart hey so what does that mean

3888

02:28:15,270 --> 02:28:13,280

why they change why they changed from uh

3889

02:28:17,030 --> 02:28:15,280

what did they say earlier from uap to

3890

02:28:17,910 --> 02:28:17,040

aerospace now or has it always been

3891

02:28:24,230 --> 02:28:17,920

aerospace

3892

02:28:28,469 --> 02:28:24,240

aerial aerial

3893

02:28:32,389 --> 02:28:28,479

in my belly button ariel and now

3894

02:28:38,870 --> 02:28:36,230

uh there it is uh

3895

02:28:39,990 --> 02:28:38,880

and distinguishing aerospace from known

3896

02:28:42,230 --> 02:28:40,000

objects and determining

3897

02:28:43,830 --> 02:28:42,240

whether a uap demonstrates breakthrough

3898

02:28:47,110 --> 02:28:43,840

aerospace capabilities

3899

02:28:50,389 --> 02:28:47,120

all right why didn't they say aerial

3900

02:28:52,790 --> 02:28:50,399

well maybe the uap task force

3901
02:28:53,590 --> 02:28:52,800
is looking for unidentified aerial

3902
02:28:55,510 --> 02:28:53,600
phenomena

3903
02:28:56,870 --> 02:28:55,520
and if they identify something that's

3904
02:28:58,870 --> 02:28:56,880
aerospace

3905
02:29:02,070 --> 02:28:58,880
phenomena then that's when they're like

3906
02:29:04,150 --> 02:29:02,080
okay we should take a look at this

3907
02:29:05,190 --> 02:29:04,160
yeah it's not just in the sky it's the

3908
02:29:13,510 --> 02:29:05,200
sensors

3909
02:29:17,590 --> 02:29:13,520
anybody

3910
02:29:20,790 --> 02:29:17,600
asked okay here's this next sentence

3911
02:29:22,150 --> 02:29:20,800
optical sensors have the benefit of

3912
02:29:24,710 --> 02:29:22,160
proving some insight

3913
02:29:26,950 --> 02:29:24,720

into relative size shape and structure

3914

02:29:27,990 --> 02:29:26,960

radio frequency sensors provide more

3915

02:29:31,270 --> 02:29:28,000

accurate

3916

02:29:33,670 --> 02:29:31,280

velocity and range information

3917

02:29:35,270 --> 02:29:33,680

i mean they're selling the sensors yeah

3918

02:29:38,070 --> 02:29:35,280

but who's questioning the

3919

02:29:39,429 --> 02:29:38,080

the validity the validity of these

3920

02:29:45,670 --> 02:29:39,439

sensors

3921

02:29:47,750 --> 02:29:45,680

it's like it's like somebody's saying

3922

02:29:50,070 --> 02:29:47,760

yeah well fact checkers

3923

02:29:50,950 --> 02:29:50,080

told me that this was factually

3924

02:29:52,950 --> 02:29:50,960

incorrect

3925

02:29:53,990 --> 02:29:52,960

who owns that fact checker company oh

3926
02:29:57,190 --> 02:29:54,000
the george

3927
02:29:57,990 --> 02:29:57,200
uh the soros [h__h] company who also is

3928
02:30:01,270 --> 02:29:58,000
owned by

3929
02:30:03,110 --> 02:30:01,280
[h__h] voucher like bananko the [h__h]

3930
02:30:05,750 --> 02:30:03,120
masturbation company eco

3931
02:30:07,349 --> 02:30:05,760
george soros company okay so so if the

3932
02:30:10,070 --> 02:30:07,359
if the george soros

3933
02:30:10,950 --> 02:30:10,080
masturbation company co uh also

3934
02:30:14,150 --> 02:30:10,960
co-founded by

3935
02:30:16,389 --> 02:30:14,160
uh dr fauci who also is also a part of

3936
02:30:18,710 --> 02:30:16,399
the masturbation propulsion technology

3937
02:30:21,910 --> 02:30:18,720
owns that company and they also fact

3938
02:30:24,309 --> 02:30:21,920

check everything on the social medias

3939

02:30:25,030 --> 02:30:24,319

don't you think they have might filter

3940

02:30:28,389 --> 02:30:25,040

out some

3941

02:30:30,950 --> 02:30:28,399

uh some sensory information i don't know

3942

02:30:32,870 --> 02:30:30,960

tammy's saying that they mean radar

3943

02:30:36,710 --> 02:30:32,880

telescopes

3944

02:30:41,590 --> 02:30:36,720

that kind of sensor yes

3945

02:30:43,429 --> 02:30:41,600

yes yes that sounds very smart

3946

02:30:45,240 --> 02:30:43,439

timmy is smart that's why we need you in

3947

02:30:49,190 --> 02:30:45,250

here dammi

3948

02:30:52,230 --> 02:30:51,110

so we take up we take back all the

3949

02:30:54,950 --> 02:30:52,240

negative stuff no

3950

02:30:56,630 --> 02:30:54,960

no no i don't take back anything i take

3951

02:30:59,030 --> 02:30:56,640

i don't take back anything tammy

3952

02:31:00,150 --> 02:30:59,040

uh what you're describing is like the

3953

02:31:03,270 --> 02:31:00,160

what

3954

02:31:05,670 --> 02:31:03,280

like

3955

02:31:06,950 --> 02:31:05,680

so yes you do have the sensor but what

3956

02:31:10,070 --> 02:31:06,960

uh apparatus

3957

02:31:12,950 --> 02:31:10,080

decides what is what there's always a

3958

02:31:15,590 --> 02:31:12,960

computer program that takes the

3959

02:31:18,790 --> 02:31:15,600

telemetry

3960

02:31:21,750 --> 02:31:18,800

recorded from said sensor and decides

3961

02:31:22,710 --> 02:31:21,760

what is uh i mean google does this every

3962

02:31:25,429 --> 02:31:22,720

day i mean

3963

02:31:25,750 --> 02:31:25,439

they trick you they're they're they're

3964

02:31:33,670 --> 02:31:25,760

like

3965

02:31:35,910 --> 02:31:33,680

a street lamp

3966

02:31:36,870 --> 02:31:35,920

oh that's a bike or that's a car that's

3967

02:31:39,590 --> 02:31:36,880

a car

3968

02:31:41,990 --> 02:31:39,600

what you're doing is voluntarily

3969

02:31:44,950 --> 02:31:42,000

improving their ai technology

3970

02:31:45,830 --> 02:31:44,960

because of your human yeah your

3971

02:31:48,389 --> 02:31:45,840

awareness

3972

02:31:49,590 --> 02:31:48,399

you were in you were improving their ai

3973

02:31:52,630 --> 02:31:49,600

technology when you

3974

02:31:56,790 --> 02:31:52,640

that capture holy [h__h] thing like

3975

02:32:00,389 --> 02:31:58,630

have a hat in it and you're like well

3976

02:32:01,670 --> 02:32:00,399

this has like part of a hat in it

3977

02:32:03,510 --> 02:32:01,680

you go ahead and just like click it

3978

02:32:04,710 --> 02:32:03,520

because you're like kind of nervous

3979

02:32:06,230 --> 02:32:04,720

about it you just go ahead and do it

3980

02:32:07,830 --> 02:32:06,240

anyway you're like

3981

02:32:09,910 --> 02:32:07,840

oh take it you're like man it's gonna be

3982

02:32:10,309 --> 02:32:09,920

we need that data we need that data yeah

3983

02:32:13,429 --> 02:32:10,319

so

3984

02:32:16,790 --> 02:32:13,439

not wrong i

3985

02:32:19,670 --> 02:32:16,800

i no i i believe that that the

3986

02:32:21,830 --> 02:32:19,680

the sensors are the technology that the

3987

02:32:23,030 --> 02:32:21,840

telescopes the sensors all that stuff

3988

02:32:26,070 --> 02:32:23,040

but what's

3989

02:32:26,790 --> 02:32:26,080

what's transmuting that data into a

3990

02:32:29,670 --> 02:32:26,800

usable

3991

02:32:30,309 --> 02:32:29,680

form of of information that we're being

3992

02:32:33,110 --> 02:32:30,319

told

3993

02:32:33,590 --> 02:32:33,120

like what's that middle man you know

3994

02:32:37,670 --> 02:32:33,600

that's my

3995

02:32:41,510 --> 02:32:37,680

17 agencies those 17 agencies man

3996

02:32:45,110 --> 02:32:41,520

the uh uh the pip the pip

3997

02:32:48,630 --> 02:32:45,120

uh the dik the dick uh the uh

3998

02:32:51,110 --> 02:32:48,640

b-o-o-b the boob uh the t-i-t

3999

02:32:52,389 --> 02:32:51,120

the tit and there's so many more that i

4000

02:32:55,830 --> 02:32:52,399

could say

4001

02:32:59,270 --> 02:32:55,840

uh the t-o-e the toe uh the

4002

02:33:01,590 --> 02:32:59,280

arm pit uh the nip the nip

4003

02:33:02,870 --> 02:33:01,600

the nip uh that's short from nipple and

4004

02:33:05,030 --> 02:33:02,880

everybody knows that

4005

02:33:06,790 --> 02:33:05,040

and that's all government agencies that

4006

02:33:11,750 --> 02:33:06,800

not a lot of people know about

4007

02:33:14,389 --> 02:33:11,760

those are new ones they started in 2019

4008

02:33:15,830 --> 02:33:14,399

and they are currently active yeah ever

4009

02:33:19,349 --> 02:33:15,840

since the new reporting

4010

02:33:21,910 --> 02:33:19,359

very accurate yeah

4011

02:33:25,190 --> 02:33:21,920

all right so we're on page four you guys

4012

02:33:40,710 --> 02:33:35,670

uh-oh but what's next

4013

02:33:46,230 --> 02:33:40,720

this is like a dry like but wait

4014

02:33:49,510 --> 02:33:46,240

oh no but wait there's more

4015

02:33:51,270 --> 02:33:49,520

where you go oh you leave it all right

4016

02:33:53,349 --> 02:33:51,280

well since he left man hey y'all go

4017

02:33:56,150 --> 02:33:53,359

check out ufo garage pc

4018

02:33:58,309 --> 02:33:56,160

dot com uh wait a second know him yeah

4019

02:34:00,790 --> 02:33:58,319

it's actually ufo garage podcast

4020

02:34:02,150 --> 02:34:00,800

dot com now go check it out it's pretty

4021

02:34:02,630 --> 02:34:02,160

sweet we've got some new threads on

4022

02:34:04,950 --> 02:34:02,640

there

4023

02:34:06,150 --> 02:34:04,960

i wore my new shirt i know sometimes

4024

02:34:06,630 --> 02:34:06,160

it's like you know like when you're in a

4025

02:34:08,870 --> 02:34:06,640

band

4026
02:34:09,830 --> 02:34:08,880
like you don't wear your own shirt like

4027
02:34:12,790 --> 02:34:09,840
on stage

4028
02:34:13,830 --> 02:34:12,800
it's kind of frowned upon but uh this is

4029
02:34:15,990 --> 02:34:13,840
kind of a cool one

4030
02:34:17,349 --> 02:34:16,000
i figured i'd wear it today it's a

4031
02:34:19,110 --> 02:34:17,359
sample shirt

4032
02:34:21,030 --> 02:34:19,120
came out pretty good i like it go check

4033
02:34:23,270 --> 02:34:21,040
it out also go check out our friends

4034
02:34:24,230 --> 02:34:23,280
over at redeemer small batch they're

4035
02:34:27,830 --> 02:34:24,240
pretty sweet

4036
02:34:30,550 --> 02:34:27,840
if you can't you know if you can't relax

4037
02:34:30,950 --> 02:34:30,560
sometimes you can't sleep sometimes you

4038
02:34:33,110 --> 02:34:30,960

know

4039

02:34:35,510 --> 02:34:33,120

it's just uh it's just been a hard day

4040

02:34:38,070 --> 02:34:35,520

some uh some delicious cbd

4041

02:34:39,030 --> 02:34:38,080

to feel uh feel your evening is quite

4042

02:34:41,270 --> 02:34:39,040

nice

4043

02:34:42,870 --> 02:34:41,280

you know sometimes you just don't feel

4044

02:34:45,270 --> 02:34:42,880

like getting all blasted

4045

02:34:47,510 --> 02:34:45,280

and not being able to pay attention

4046

02:34:49,670 --> 02:34:47,520

maybe you're kind of a newbie still

4047

02:34:50,550 --> 02:34:49,680

you just you just need something mellow

4048

02:34:55,750 --> 02:34:50,560

check it out

4049

02:34:59,190 --> 02:34:55,760

redeemer small patch the best in town

4050

02:35:00,870 --> 02:34:59,200

ben hurry up i'm running out of things

4051
02:35:02,870 --> 02:35:00,880
to say

4052
02:35:04,630 --> 02:35:02,880
oh man this has been pretty fun man i

4053
02:35:05,270 --> 02:35:04,640
love i love doing the live thing i like

4054
02:35:07,429 --> 02:35:05,280
getting to

4055
02:35:09,270 --> 02:35:07,439
check you guys out in the in the chats

4056
02:35:12,469 --> 02:35:09,280
and having you all hang out

4057
02:35:16,710 --> 02:35:12,479
let's see uh

4058
02:35:21,030 --> 02:35:18,550
let's see here i'm gonna scroll through

4059
02:35:24,230 --> 02:35:21,040
the chat

4060
02:35:27,270 --> 02:35:24,240
dude dave james they invert physics

4061
02:35:29,750 --> 02:35:27,280
particularly time and space why

4062
02:35:30,790 --> 02:35:29,760
that's why they look like they do 90

4063
02:35:33,670 --> 02:35:30,800

degree turns

4064

02:35:35,429 --> 02:35:33,680

no sonic boom why travis walton spent a

4065

02:35:38,630 --> 02:35:35,439

few hours with them

4066

02:35:40,070 --> 02:35:38,640

and arrived eight days later yeah dude i

4067

02:35:41,750 --> 02:35:40,080

think there's something to that

4068

02:35:43,590 --> 02:35:41,760

i think there's definitely something to

4069

02:35:46,550 --> 02:35:43,600

that you know just kind of

4070

02:35:47,910 --> 02:35:46,560

messing with time being able to move all

4071

02:35:50,070 --> 02:35:47,920

that mess around dude

4072

02:35:51,990 --> 02:35:50,080

yeah i i agree i agree i think there's

4073

02:35:54,710 --> 02:35:52,000

something to that but

4074

02:35:56,230 --> 02:35:54,720

i mean who knows we need more sensors

4075

02:36:01,910 --> 02:35:56,240

that's what we need we need more sensors

4076

02:36:05,429 --> 02:36:04,310

welcome back ben hey joe

4077

02:36:09,830 --> 02:36:05,439

[Laughter]

4078

02:36:14,070 --> 02:36:12,469

he's naked and he can't get up ah hell

4079

02:36:16,550 --> 02:36:14,080

yeah this is uh

4080

02:36:18,389 --> 02:36:16,560

we'll be right over but you better not

4081

02:36:21,590 --> 02:36:18,399

put clothes on daddy

4082

02:36:25,190 --> 02:36:21,600

better not you better stay better or not

4083

02:36:28,870 --> 02:36:25,200

dude we're coming to get you greg

4084

02:36:32,550 --> 02:36:28,880

chad smith what chad what's up dude

4085

02:36:34,150 --> 02:36:32,560

hell yeah we got all the fam in here

4086

02:36:35,960 --> 02:36:34,160

tonight

4087

02:36:40,870 --> 02:36:35,970

we got chill

4088

02:36:45,110 --> 02:36:40,880

[Music]

4089

02:36:47,110 --> 02:36:45,120

we got me wild wonders

4090

02:36:49,349 --> 02:36:47,120

hey thanks all of you guys for hanging

4091

02:36:52,070 --> 02:36:49,359

out tonight this is awesome

4092

02:36:53,270 --> 02:36:52,080

uh you know there's a lot of shows out

4093

02:36:56,950 --> 02:36:53,280

there that talk about the

4094

02:37:00,070 --> 02:36:56,960

ufo and alien stuff and um

4095

02:37:00,790 --> 02:37:00,080

uh we're just like uh we're uh we have

4096

02:37:04,389 --> 02:37:00,800

fun with it

4097

02:37:07,110 --> 02:37:04,399

we're not like

4098

02:37:08,630 --> 02:37:07,120

okay this is a serious subject for sure

4099

02:37:11,190 --> 02:37:08,640

um

4100

02:37:13,349 --> 02:37:11,200

we take it serious but like sometimes

4101
02:37:15,910 --> 02:37:13,359
you just gotta have fun with it and uh

4102
02:37:17,349 --> 02:37:15,920
it's more fun that way and that's kind

4103
02:37:20,950 --> 02:37:17,359
of the approach that we have

4104
02:37:22,790 --> 02:37:20,960
so if you want to support the podcast

4105
02:37:26,309 --> 02:37:22,800
we've uh joe and i have been doing this

4106
02:37:29,110 --> 02:37:26,319
podcast for a little over two years

4107
02:37:29,830 --> 02:37:29,120
uh it's something that we do for fun

4108
02:37:32,150 --> 02:37:29,840
it's like

4109
02:37:33,750 --> 02:37:32,160
hey every like one day a week we get

4110
02:37:35,830 --> 02:37:33,760
together talk about

4111
02:37:36,790 --> 02:37:35,840
everything that's going on it's

4112
02:37:39,190 --> 02:37:36,800
exponentially

4113
02:37:40,150 --> 02:37:39,200

ramped up with like the importance like

4114

02:37:41,990 --> 02:37:40,160

when we started

4115

02:37:43,590 --> 02:37:42,000

like no one was talking about ufos and

4116

02:37:46,790 --> 02:37:43,600

aliens like

4117

02:37:48,550 --> 02:37:46,800

and that summer was when everything just

4118

02:37:51,190 --> 02:37:48,560

exploded it was kind of just

4119

02:37:52,150 --> 02:37:51,200

the right time and i think we kind of

4120

02:37:55,270 --> 02:37:52,160

just caught this

4121

02:37:56,230 --> 02:37:55,280

wave and i think we kind of caught the

4122

02:37:58,389 --> 02:37:56,240

wave

4123

02:38:00,790 --> 02:37:58,399

of other people that are interested in

4124

02:38:04,150 --> 02:38:00,800

this subject that

4125

02:38:06,150 --> 02:38:04,160

loved it like you guys y'all know

4126
02:38:07,750 --> 02:38:06,160
somebody that has an experience or you

4127
02:38:09,670 --> 02:38:07,760
have an experience

4128
02:38:11,190 --> 02:38:09,680
and that's why you're here is is that

4129
02:38:12,870 --> 02:38:11,200
you want to learn more but you also want

4130
02:38:13,990 --> 02:38:12,880
to have fun like there's a lot of places

4131
02:38:17,190 --> 02:38:14,000
out there that you can go

4132
02:38:19,590 --> 02:38:17,200
to learn actual information

4133
02:38:21,670 --> 02:38:19,600
and sources and stuff we do have some

4134
02:38:23,830 --> 02:38:21,680
pretty dope sources but we're not

4135
02:38:26,070 --> 02:38:23,840
sitting here trying to tell you all the

4136
02:38:29,590 --> 02:38:26,080
freaking secrets like

4137
02:38:31,429 --> 02:38:29,600
we're not like hey this incoming

4138
02:38:33,750 --> 02:38:31,439

new information like that's not our

4139

02:38:36,710 --> 02:38:33,760

place you know like

4140

02:38:37,190 --> 02:38:36,720

we uh are our places to to have fun with

4141

02:38:41,429 --> 02:38:37,200

it and

4142

02:38:43,750 --> 02:38:41,439

and try to break it down and uh and

4143

02:38:44,550 --> 02:38:43,760

to kind of interpret it for not only

4144

02:38:46,790 --> 02:38:44,560

myself

4145

02:38:48,630 --> 02:38:46,800

and ourselves but maybe other people

4146

02:38:51,190 --> 02:38:48,640

that might think the same way we do

4147

02:38:52,309 --> 02:38:51,200

hey can you start over i want to hear

4148

02:38:55,670 --> 02:38:52,319

that yeah so

4149

02:38:58,309 --> 02:38:55,680

anyway when i was five years old i

4150

02:38:59,750 --> 02:38:58,319

cannot stop [h__h] my pants i haven't

4151
02:39:04,550 --> 02:38:59,760
stopped [h__h] my pants

4152
02:39:12,469 --> 02:39:08,389
poop i can't stop eating this beef jerky

4153
02:39:14,469 --> 02:39:12,479
whoa [h__h] dude it's so good

4154
02:39:16,950 --> 02:39:14,479
i got my bad where's my job i got this

4155
02:39:20,070 --> 02:39:16,960
this good beef jerky

4156
02:39:21,429 --> 02:39:20,080
it's delicious i was just talking about

4157
02:39:24,230 --> 02:39:21,439
i was just talking about like

4158
02:39:25,670 --> 02:39:24,240
um like there's other shows that like

4159
02:39:27,270 --> 02:39:25,680
actually give you information

4160
02:39:29,110 --> 02:39:27,280
that like there's like secret

4161
02:39:30,309 --> 02:39:29,120
information and like everybody's got

4162
02:39:32,309 --> 02:39:30,319
like a source

4163
02:39:34,230 --> 02:39:32,319

like we don't know any secrets but like

4164

02:39:41,990 --> 02:39:34,240

we do though but we just don't

4165

02:39:45,670 --> 02:39:43,590

we don't share publicly somebody's

4166

02:39:46,070 --> 02:39:45,680

actually said hey don't tell anybody

4167

02:39:47,990 --> 02:39:46,080

this

4168

02:39:50,309 --> 02:39:48,000

yeah there's some [h__h] like when we

4169

02:39:53,429 --> 02:39:50,319

started this party said that to us hey

4170

02:39:54,870 --> 02:39:53,439

don't tell anybody about this but

4171

02:39:56,630 --> 02:39:54,880

when we started this podcast that was

4172

02:39:57,990 --> 02:39:56,640

like the ultimate goals like i wish we

4173

02:39:59,429 --> 02:39:58,000

could meet somebody who knows what the

4174

02:40:01,429 --> 02:39:59,439

[h__h] going on

4175

02:40:03,270 --> 02:40:01,439

in secret and then they would tell us

4176
02:40:06,550 --> 02:40:03,280
and like that happened

4177
02:40:09,910 --> 02:40:06,560
and now we can't tell anybody i'm so

4178
02:40:13,429 --> 02:40:09,920
bummed about it i know and so like

4179
02:40:16,469 --> 02:40:13,439
it's it's such a a thing like

4180
02:40:17,910 --> 02:40:16,479
dude i'm a i'm an open book but with

4181
02:40:20,309 --> 02:40:17,920
those

4182
02:40:20,950 --> 02:40:20,319
specific things like i just i don't ever

4183
02:40:23,349 --> 02:40:20,960
want to like

4184
02:40:27,429 --> 02:40:23,359
ruin the trust of our our buddies that

4185
02:40:31,990 --> 02:40:29,349
let's like don't talk about it i feel

4186
02:40:33,990 --> 02:40:32,000
like i feel like it's like too dumb to

4187
02:40:35,590 --> 02:40:34,000
like no one will believe us anyway all

4188
02:40:38,550 --> 02:40:35,600

right we should just say it

4189

02:40:41,990 --> 02:40:38,560

it's a good it's a good cover right no

4190

02:40:45,670 --> 02:40:44,150

did you get the miles you know yeah

4191

02:40:46,070 --> 02:40:45,680

that's someone the best one that's so

4192

02:40:48,150 --> 02:40:46,080

good

4193

02:40:49,670 --> 02:40:48,160

i know i got the hot and the mild and

4194

02:40:52,389 --> 02:40:49,680

the salt and pepper the mile's the best

4195

02:40:55,429 --> 02:40:52,399

one yeah it's my favorite [h__h] good

4196

02:41:00,550 --> 02:40:55,439

great scooby snacks

4197

02:41:03,030 --> 02:41:00,560

oh yeah and so we were on uh

4198

02:41:04,070 --> 02:41:03,040

unidentified celebrity review on this

4199

02:41:07,269 --> 02:41:04,080

past monday

4200

02:41:10,230 --> 02:41:07,279

that was fun couldn't tell if we were

4201

02:41:14,830 --> 02:41:10,240

getting made fun of or not

4202

02:41:18,550 --> 02:41:16,469

us

4203

02:41:19,750 --> 02:41:18,560

i think their their intentions are like

4204

02:41:21,830 --> 02:41:19,760

very good

4205

02:41:23,510 --> 02:41:21,840

i think they just like us no we're they

4206

02:41:27,190 --> 02:41:23,520

were just having fun

4207

02:41:28,070 --> 02:41:27,200

i just have one there was like like any

4208

02:41:31,190 --> 02:41:28,080

time even

4209

02:41:32,870 --> 02:41:31,200

was like open her mouth like

4210

02:41:34,309 --> 02:41:32,880

we didn't even say anything funny we

4211

02:41:37,910 --> 02:41:34,319

were just like

4212

02:41:41,590 --> 02:41:37,920

[h__\h] talking dude but dude yeah lou

4213

02:41:44,630 --> 02:41:41,600

loved that guy holy [h__h] yeah squidly

4214

02:41:46,389 --> 02:41:44,640

squidlar uh michael all those guys are

4215

02:41:50,389 --> 02:41:46,399

great

4216

02:41:52,710 --> 02:41:50,399

um yeah so that was cool it's been

4217

02:41:54,469 --> 02:41:52,720

it's been a crazy week we had we have we

4218

02:41:56,550 --> 02:41:54,479

were on alien girl y'all should check

4219

02:41:58,510 --> 02:41:56,560

out aliengirl111

4220

02:41:59,670 --> 02:41:58,520

on youtube you also tr uh search

4221

02:42:02,870 --> 02:41:59,680

aliengirl111

4222

02:42:04,469 --> 02:42:02,880

it's all one word all one word and then

4223

02:42:06,150 --> 02:42:04,479

and then go to the filters go to uh

4224

02:42:07,510 --> 02:42:06,160

uh channel where you're on her channel a

4225

02:42:11,030 --> 02:42:07,520

couple years uh here's

4226
02:42:12,550 --> 02:42:11,040
jesus christ a couple of days weeks ago

4227
02:42:14,309 --> 02:42:12,560
not this past friday but the friday

4228
02:42:16,150 --> 02:42:14,319
before that yeah she's

4229
02:42:18,230 --> 02:42:16,160
freaking awesome great support of the

4230
02:42:21,349 --> 02:42:18,240
podcast and we are a

4231
02:42:22,550 --> 02:42:21,359
huge supporter of hers as well and uh

4232
02:42:24,950 --> 02:42:22,560
sor

4233
02:42:26,469 --> 02:42:24,960
space.radio dave scott have you ever

4234
02:42:29,910 --> 02:42:26,479
been

4235
02:42:35,110 --> 02:42:32,550
that was last week wasn't it yeah yeah

4236
02:42:37,590 --> 02:42:35,120
thursday it was after our show

4237
02:42:39,190 --> 02:42:37,600
stayed up way too late i got weird i

4238
02:42:42,469 --> 02:42:39,200

talked too much

4239

02:42:46,870 --> 02:42:42,479

i i took an extra little

4240

02:42:50,309 --> 02:42:46,880

adderall and i talked way too much

4241

02:42:52,950 --> 02:42:50,319

i take it's i i have 80d very bad

4242

02:42:54,150 --> 02:42:52,960

you may notice my eyes go weird that's

4243

02:42:57,670 --> 02:42:54,160

why

4244

02:43:01,110 --> 02:42:57,680

uh anyway butt is the next part

4245

02:43:01,910 --> 02:43:01,120

but but but some potential patterns do

4246

02:43:05,510 --> 02:43:01,920

emerge

4247

02:43:10,550 --> 02:43:08,389

although there was wide variability in

4248

02:43:13,830 --> 02:43:10,560

the reports and the data data set

4249

02:43:16,389 --> 02:43:13,840

is currently too limited to uh

4250

02:43:17,269 --> 02:43:16,399

to allow for detailed trend or pattern

4251
02:43:21,349 --> 02:43:17,279
analysis

4252
02:43:24,550 --> 02:43:21,359
uap

4253
02:43:27,590 --> 02:43:24,560
observations regarding shape size and

4254
02:43:30,469 --> 02:43:27,600
girthiness of propulsion oh

4255
02:43:31,590 --> 02:43:30,479
particularly propulsion not just

4256
02:43:39,510 --> 02:43:31,600
girthiness

4257
02:43:44,950 --> 02:43:42,150
and sorry i'm gonna start over and

4258
02:43:48,469 --> 02:43:47,670
and particularly and particularly

4259
02:43:50,790 --> 02:43:48,479
propulsion

4260
02:43:51,670 --> 02:43:50,800
uap sightings also tended to cluster our

4261
02:43:54,070 --> 02:43:51,680
own u.s

4262
02:43:55,190 --> 02:43:54,080
training and testing grounds but we

4263
02:43:57,510 --> 02:43:55,200

assess

4264

02:43:58,389 --> 02:43:57,520

that this may result from a collection

4265

02:44:01,590 --> 02:43:58,399

bias

4266

02:44:02,630 --> 02:44:01,600

as a result of focused attention greater

4267

02:44:05,349 --> 02:44:02,640

numbers of

4268

02:44:06,309 --> 02:44:05,359

latest generation sensors again that's

4269

02:44:09,429 --> 02:44:06,319

that word

4270

02:44:12,870 --> 02:44:09,439

operation in those areas unit

4271

02:44:16,070 --> 02:44:12,880

expectations and guidance to report

4272

02:44:17,030 --> 02:44:16,080

uh anomalies lots of like run-on

4273

02:44:20,550 --> 02:44:17,040

sentences man

4274

02:44:22,309 --> 02:44:20,560

it's like it's like i'm not i'm pretty

4275

02:44:23,190 --> 02:44:22,319

bad at reading but that's very hard to

4276
02:44:27,990 --> 02:44:23,200
read

4277
02:44:33,110 --> 02:44:31,190
all these uaps seem to cluster around us

4278
02:44:35,190 --> 02:44:33,120
training and testing grounds yeah but

4279
02:44:38,230 --> 02:44:35,200
then they're like

4280
02:44:39,830 --> 02:44:38,240
this is probably biased because right we

4281
02:44:42,950 --> 02:44:39,840
have all the radars

4282
02:44:44,710 --> 02:44:42,960
so so what do you think that maybe what

4283
02:44:47,750 --> 02:44:44,720
they're saying is be

4284
02:44:49,990 --> 02:44:47,760
the reason they're clustering is because

4285
02:44:52,790 --> 02:44:50,000
of the radar

4286
02:44:54,309 --> 02:44:52,800
no i think they're saying i think that's

4287
02:44:57,830 --> 02:44:54,319
a sneaky way of saying

4288
02:44:59,830 --> 02:44:57,840

hey yeah we see them

4289

02:45:01,670 --> 02:44:59,840

but guess what they happen everywhere

4290

02:45:05,190 --> 02:45:01,680

chad says man i need you to invest in

4291

02:45:09,190 --> 02:45:07,670

yeah dude dude yes the only way you can

4292

02:45:12,469 --> 02:45:09,200

see ufos yeah

4293

02:45:13,590 --> 02:45:12,479

no i think they're saying that uh

4294

02:45:15,349 --> 02:45:13,600

i think they're saying hey this is

4295

02:45:16,150 --> 02:45:15,359

happening everywhere the only reason

4296

02:45:17,990 --> 02:45:16,160

we're seeing them

4297

02:45:21,910 --> 02:45:18,000

is because we have the technology to be

4298

02:45:24,950 --> 02:45:23,670

in a very roundabout way that's what

4299

02:45:27,590 --> 02:45:24,960

you're saying you're smarter than

4300

02:45:30,870 --> 02:45:27,600

they're smart as [h__h]

4301
02:45:31,429 --> 02:45:30,880
okay yeah i totally agree okay and the

4302
02:45:34,630 --> 02:45:31,439
hand

4303
02:45:38,950 --> 02:45:34,640
grab of uap appear to demonstrate

4304
02:45:41,110 --> 02:45:38,960
advanced technology a handful of uap

4305
02:45:41,990 --> 02:45:41,120
appear to demonstrate advanced tech dude

4306
02:45:45,190 --> 02:45:42,000
this is like the

4307
02:45:48,790 --> 02:45:45,200
most important part and it's like

4308
02:45:51,590 --> 02:45:48,800
six sentences long in 18

4309
02:45:52,309 --> 02:45:51,600
incidents described in 21 reports

4310
02:45:55,030 --> 02:45:52,319
observers

4311
02:45:56,550 --> 02:45:55,040
reported unusual uap movement patterns

4312
02:45:59,590 --> 02:45:56,560
or flight characteristics

4313
02:46:03,190 --> 02:45:59,600

yes some youtube paragraph yep

4314

02:46:06,469 --> 02:46:03,200

some uap uh appear to remain stationary

4315

02:46:10,070 --> 02:46:06,479

and winds aloft move against the wind

4316

02:46:12,230 --> 02:46:10,080

move abruptly or move at uh considerable

4317

02:46:13,510 --> 02:46:12,240

speed without disturbable means of

4318

02:46:15,269 --> 02:46:13,520

propulsion

4319

02:46:16,710 --> 02:46:15,279

in a small number of cases military

4320

02:46:19,590 --> 02:46:16,720

aircraft systems

4321

02:46:21,269 --> 02:46:19,600

process radio frequency energy

4322

02:46:24,630 --> 02:46:21,279

associated with uap

4323

02:46:26,550 --> 02:46:24,640

sightings so that's that's pretty

4324

02:46:28,710 --> 02:46:26,560

that's pretty interesting so i mean

4325

02:46:32,150 --> 02:46:28,720

that's not well let's finish it

4326

02:46:34,710 --> 02:46:32,160

real quick the ua ua ptf holds a

4327

02:46:37,110 --> 02:46:34,720

small amount of data that appear to show

4328

02:46:40,309 --> 02:46:37,120

uap demonstrating acceleration or

4329

02:46:43,910 --> 02:46:40,319

degree of signature management

4330

02:46:45,510 --> 02:46:43,920

additional what the [h__\h] does that mean

4331

02:46:47,510 --> 02:46:45,520

i almost feel like we need to stop and

4332

02:46:49,429 --> 02:46:47,520

just let's go back

4333

02:46:51,269 --> 02:46:49,439

okay i i all right let's go back to the

4334

02:46:55,349 --> 02:46:51,279

first two things

4335

02:47:00,150 --> 02:46:55,359

in 18 insta incidents described in 21

4336

02:47:05,590 --> 02:47:02,870

reported unusual uap movement patterns

4337

02:47:08,230 --> 02:47:05,600

or flight characteristics

4338

02:47:10,070 --> 02:47:08,240

so so say you looked up in the sky you

4339

02:47:11,910 --> 02:47:10,080

saw 21

4340

02:47:13,750 --> 02:47:11,920

weird looking [h__h] like you and i have

4341

02:47:15,670 --> 02:47:13,760

seen weird [h__h] in the sky

4342

02:47:18,070 --> 02:47:15,680

and i think we're both at a point where

4343

02:47:18,870 --> 02:47:18,080

like very open to the fact that some

4344

02:47:21,429 --> 02:47:18,880

money could

4345

02:47:22,070 --> 02:47:21,439

prevent us or present us with the data

4346

02:47:24,389 --> 02:47:22,080

to say

4347

02:47:26,870 --> 02:47:24,399

what you saw joe and ben that one night

4348

02:47:28,070 --> 02:47:26,880

on cathedral rock in sedona california

4349

02:47:30,950 --> 02:47:28,080

2020.

4350

02:47:33,890 --> 02:47:30,960

arizona arizona did i say that you say

4351
02:47:37,030 --> 02:47:33,900
california california you always say

4352
02:47:40,469 --> 02:47:37,040
[Laughter]

4353
02:47:43,670 --> 02:47:40,479
california doesn't exist

4354
02:47:46,830 --> 02:47:43,680
uh but what you saw ben and joe was a

4355
02:47:48,790 --> 02:47:46,840
satellite because of these reasons

4356
02:47:51,349 --> 02:47:48,800
but

4357
02:47:52,469 --> 02:47:51,359
this is saying out of all of those

4358
02:47:55,670 --> 02:47:52,479
similar stories

4359
02:47:59,190 --> 02:47:55,680
there is out of those 21 there's 18.

4360
02:48:01,510 --> 02:47:59,200
boom 18 and 21

4361
02:48:05,990 --> 02:48:01,520
dude 18 and 21 do you think those do you

4362
02:48:12,630 --> 02:48:09,349
yeah i mean 18 you're a legal adult 21

4363
02:48:17,910 --> 02:48:14,950

[h__\h] yeah dude party hardy the

4364

02:48:21,349 --> 02:48:17,920

government knows that we want to party

4365

02:48:24,309 --> 02:48:21,359

and that's why that's why i like how

4366

02:48:28,070 --> 02:48:24,319

this went from 144

4367

02:48:31,190 --> 02:48:28,080

down to like 18 significant okay

4368

02:48:35,670 --> 02:48:31,200

oh dude yeah okay

4369

02:48:38,070 --> 02:48:35,680

good point yeah so

4370

02:48:39,429 --> 02:48:38,080

now we're talking about demonstrating

4371

02:48:41,670 --> 02:48:39,439

advanced technology

4372

02:48:45,269 --> 02:48:41,680

so before what were they talking about

4373

02:48:48,150 --> 02:48:45,279

and then 144

4374

02:48:50,309 --> 02:48:48,160

if if not advanced technology what were

4375

02:48:51,990 --> 02:48:50,319

they talking about

4376

02:48:54,469 --> 02:48:52,000

i think they were talking about just

4377

02:48:57,590 --> 02:48:54,479

recognizing something anomalous

4378

02:49:02,790 --> 02:48:57,600

okay 144

4379

02:49:07,510 --> 02:49:02,800

provided by the united states gnomes

4380

02:49:10,870 --> 02:49:07,520

the usg oh yeah

4381

02:49:12,469 --> 02:49:10,880

so out of the out of the 144 united

4382

02:49:16,469 --> 02:49:12,479

states gnomes

4383

02:49:19,429 --> 02:49:16,479

18 were

4384

02:49:22,870 --> 02:49:19,439

reported unusual movement patterns or

4385

02:49:28,870 --> 02:49:26,150

okay still pretty high number for me

4386

02:49:29,510 --> 02:49:28,880

at least it's not zero because they're

4387

02:49:31,750 --> 02:49:29,520

admitting

4388

02:49:34,710 --> 02:49:31,760

that their movement patterns or flight

4389

02:49:38,550 --> 02:49:34,720

characteristics are unusual

4390

02:49:39,110 --> 02:49:38,560

so unusual means that it's not something

4391

02:49:42,230 --> 02:49:39,120

that we

4392

02:49:43,830 --> 02:49:42,240

[h__\h] seen before the people that are

4393

02:49:47,670 --> 02:49:43,840

in the sky

4394

02:49:50,230 --> 02:49:47,680

every day for their job say oh i can't

4395

02:49:53,590 --> 02:49:50,240

do that dude

4396

02:49:57,590 --> 02:49:55,110

and those weird things where when to

4397

02:49:58,630 --> 02:49:57,600

loft move against the wind maneuver

4398

02:50:01,510 --> 02:49:58,640

abruptly

4399

02:50:01,990 --> 02:50:01,520

i like the way you say aloft dude aloft

4400

02:50:03,910 --> 02:50:02,000

damn

4401
02:50:07,590 --> 02:50:03,920
die so you're supposed to sit that's

4402
02:50:13,269 --> 02:50:10,389
so some uap appear to remain stationary

4403
02:50:15,429 --> 02:50:13,279
in winds aloft

4404
02:50:17,349 --> 02:50:15,439
also the frequency dude what do you

4405
02:50:20,070 --> 02:50:17,359
think about that part

4406
02:50:22,469 --> 02:50:20,080
military aircraft systems processed

4407
02:50:25,429 --> 02:50:22,479
radio frequency rf

4408
02:50:25,750 --> 02:50:25,439
energy associated with the uap sightings

4409
02:50:36,710 --> 02:50:25,760
i

4410
02:50:39,830 --> 02:50:36,720
what do you what do you take away from

4411
02:50:45,349 --> 02:50:39,840
that so so military aircraft systems

4412
02:50:49,750 --> 02:50:48,469
energy associated so they're not saying

4413
02:50:54,230 --> 02:50:49,760

that

4414

02:51:01,269 --> 02:50:54,240

rf

4415

02:51:05,510 --> 02:51:01,279

they processed that information

4416

02:51:07,990 --> 02:51:05,520

what does that tell you wait

4417

02:51:08,630 --> 02:51:08,000

in a small number of cases military

4418

02:51:11,830 --> 02:51:08,640

aircraft

4419

02:51:15,830 --> 02:51:11,840

systems processed radio frequency

4420

02:51:18,950 --> 02:51:15,840

in quotations rf in quotations

4421

02:51:19,510 --> 02:51:18,960

energy associated with uap sightings so

4422

02:51:22,720 --> 02:51:19,520

the

4423

02:51:25,510 --> 02:51:22,730

uap

4424

02:51:27,670 --> 02:51:25,520

[Music]

4425

02:51:29,110 --> 02:51:27,680

it doesn't say how many doesn't say what

4426
02:51:33,030 --> 02:51:29,120
percentage

4427
02:51:36,710 --> 02:51:33,040
it just says in a small number of cases

4428
02:51:39,990 --> 02:51:36,720
so do you so i wonder

4429
02:51:42,070 --> 02:51:40,000
do you think do you think a ufo would

4430
02:51:43,190 --> 02:51:42,080
produce a radio frequency or do you

4431
02:51:46,710 --> 02:51:43,200
think that's something

4432
02:51:49,990 --> 02:51:46,720
a man-made craft would produce well

4433
02:51:52,710 --> 02:51:50,000
uh okay so what i know about rf so

4434
02:51:55,030 --> 02:51:52,720
our radio frequencies it can it can be

4435
02:51:58,150 --> 02:51:55,040
anything from

4436
02:52:00,790 --> 02:51:58,160
a fm radio to a ham radio

4437
02:52:03,110 --> 02:52:00,800
it it's just it's what we use every

4438
02:52:06,630 --> 02:52:03,120

single day from cell phone data

4439

02:52:10,950 --> 02:52:06,640

to to to bluetooth the wi-fi it's

4440

02:52:13,990 --> 02:52:10,960

it could be literally anything

4441

02:52:14,790 --> 02:52:14,000

so to me if were out in the middle of

4442

02:52:18,150 --> 02:52:14,800

the ocean

4443

02:52:20,389 --> 02:52:18,160

or just off the cour uh the uh

4444

02:52:22,309 --> 02:52:20,399

the coast of the ocean let's see that's

4445

02:52:25,670 --> 02:52:22,319

the setting right

4446

02:52:28,230 --> 02:52:25,680

what i mean i get terrible data have you

4447

02:52:31,670 --> 02:52:28,240

ever been like deep sea fishing

4448

02:52:34,389 --> 02:52:31,680

no i haven't eaten life

4449

02:52:35,510 --> 02:52:34,399

so what do you don't like some wine

4450

02:52:37,429 --> 02:52:35,520

neither one of us have been

4451

02:52:39,910 --> 02:52:37,439

deep sea fishing neither okay so but

4452

02:52:41,110 --> 02:52:39,920

like buddies that have been deep sea

4453

02:52:42,630 --> 02:52:41,120

fishing and they're like dude you get a

4454

02:52:46,070 --> 02:52:42,640

mile out and like you get

4455

02:52:48,550 --> 02:52:46,080

no cell data because all of his from

4456

02:52:49,990 --> 02:52:48,560

cell phone towers so like towers in the

4457

02:52:54,830 --> 02:52:50,000

ocean so those

4458

02:52:57,269 --> 02:52:54,840

those radio frequencies are not being

4459

02:53:00,070 --> 02:52:57,279

transmitted from you know

4460

02:53:00,790 --> 02:53:00,080

there's only a certain limit that they

4461

02:53:04,550 --> 02:53:00,800

can get to

4462

02:53:06,630 --> 02:53:04,560

so if you're on the ocean doing military

4463

02:53:08,230 --> 02:53:06,640

exercises i'm pretty sure you're not on

4464

02:53:11,030 --> 02:53:08,240

the coast of galveston like

4465

02:53:11,990 --> 02:53:11,040

in within range right like you've got to

4466

02:53:15,110 --> 02:53:12,000

be pretty

4467

02:53:17,349 --> 02:53:15,120

pretty far out right yeah far enough

4468

02:53:19,429 --> 02:53:17,359

swings for round

4469

02:53:20,870 --> 02:53:19,439

i mean from like a zoomed up scale

4470

02:53:23,830 --> 02:53:20,880

you're still pretty close

4471

02:53:25,510 --> 02:53:23,840

but like yeah being able to see you from

4472

02:53:28,230 --> 02:53:25,520

the coastline you're pretty far out

4473

02:53:29,110 --> 02:53:28,240

it's crazy how actually dude like it's

4474

02:53:33,030 --> 02:53:29,120

crazy how

4475

02:53:35,269 --> 02:53:33,040

close or how far you don't need to be

4476
02:53:36,870 --> 02:53:35,279
to not get celerous oh yeah i know like

4477
02:53:38,550 --> 02:53:36,880
my buddies that have been deep sea

4478
02:53:41,110 --> 02:53:38,560
fishing they were like literally

4479
02:53:41,990 --> 02:53:41,120
it was an abrupt stop like they were

4480
02:53:45,269 --> 02:53:42,000
trying to like

4481
02:53:47,830 --> 02:53:45,279
snap like live try uh live uh

4482
02:53:48,550 --> 02:53:47,840
record snapchat and like immediately

4483
02:53:51,429 --> 02:53:48,560
boom

4484
02:53:52,309 --> 02:53:51,439
done couldn't get cell reception within

4485
02:53:54,230 --> 02:53:52,319
like a 10

4486
02:53:55,830 --> 02:53:54,240
foot radius of where they were chilling

4487
02:53:57,830 --> 02:53:55,840
and fishing until

4488
02:53:59,590 --> 02:53:57,840

they were like outside of this you know

4489

02:54:01,349 --> 02:53:59,600

little thing where it was like smooth

4490

02:54:05,030 --> 02:54:01,359

waters whatever anyway

4491

02:54:06,870 --> 02:54:05,040

good you're fishing paying attention

4492

02:54:09,030 --> 02:54:06,880

we yeah exactly be tick-tocking and [h__h]

4493

02:54:12,950 --> 02:54:09,040

you're fishing

4494

02:54:15,750 --> 02:54:12,960

marlins no were you a 16-year-old girl

4495

02:54:18,230 --> 02:54:15,760

no no no tammy asked does that mean that

4496

02:54:20,230 --> 02:54:18,240

their radios acted up

4497

02:54:21,429 --> 02:54:20,240

so their communication devices acted up

4498

02:54:24,469 --> 02:54:21,439

when they got a close

4499

02:54:27,750 --> 02:54:24,479

when they got close to the uaps so

4500

02:54:29,990 --> 02:54:27,760

that is a possibility to me i think that

4501
02:54:31,670 --> 02:54:30,000
it doesn't really say it's like in small

4502
02:54:32,830 --> 02:54:31,680
number of cases military aircraft

4503
02:54:35,990 --> 02:54:32,840
systems

4504
02:54:37,349 --> 02:54:36,000
processed radio frequency energy

4505
02:54:40,070 --> 02:54:37,359
associated so

4506
02:54:41,990 --> 02:54:40,080
it's so [h__h] bland dude they this is

4507
02:54:43,429 --> 02:54:42,000
why i love this because it's so general

4508
02:54:46,950 --> 02:54:43,439
like they didn't say

4509
02:54:49,990 --> 02:54:46,960
[h__h] they didn't have to say [h__h]

4510
02:54:52,150 --> 02:54:50,000
yeah but they gave us enough information

4511
02:54:54,150 --> 02:54:52,160
to where we can we can draw our own

4512
02:54:55,830 --> 02:54:54,160
conclusions and be smart about it like

4513
02:54:59,510 --> 02:54:55,840

as a collective and say look

4514

02:55:03,830 --> 02:54:59,520

they're not saying we found aliens

4515

02:55:07,910 --> 02:55:03,840

but they didn't say that they didn't

4516

02:55:12,309 --> 02:55:10,870

on a realist scale though it could be

4517

02:55:15,349 --> 02:55:12,319

just like

4518

02:55:19,670 --> 02:55:15,359

i we observed some weird [h__h]

4519

02:55:22,309 --> 02:55:19,680

that out there you don't get cell phone

4520

02:55:25,110 --> 02:55:22,319

interference and we did it could be as

4521

02:55:33,269 --> 02:55:29,990

yeah yeah definitely definitely

4522

02:55:35,349 --> 02:55:33,279

right look at this look at this look at

4523

02:55:38,630 --> 02:55:35,359

this

4524

02:55:40,389 --> 02:55:38,640

okay so uh ua ptf holds a small amount

4525

02:55:42,550 --> 02:55:40,399

of data that appear to show uap

4526

02:55:48,469 --> 02:55:42,560

demonstrating acceleration

4527

02:55:54,070 --> 02:55:51,030

does that mean signature like the their

4528

02:55:55,670 --> 02:55:54,080

signature that pops up like on a radar

4529

02:55:57,190 --> 02:55:55,680

you have a certain signature so they

4530

02:55:59,830 --> 02:55:57,200

could manage the way that they

4531

02:56:00,630 --> 02:55:59,840

looked so like if you're looking at a

4532

02:56:03,349 --> 02:56:00,640

radar

4533

02:56:03,910 --> 02:56:03,359

and you detect the signature they can

4534

02:56:06,630 --> 02:56:03,920

manage

4535

02:56:07,750 --> 02:56:06,640

the way that they appear to you looking

4536

02:56:12,309 --> 02:56:07,760

at the radar

4537

02:56:13,590 --> 02:56:12,319

ooh oh [h__\h]

4538

02:56:14,710 --> 02:56:13,600

i've not thought about that yeah so

4539

02:56:15,429 --> 02:56:14,720

you're staring at it and you're like

4540

02:56:18,790 --> 02:56:15,439

whoa

4541

02:56:20,469 --> 02:56:18,800

okay i noticed this oh [h__h] it changed

4542

02:56:22,150 --> 02:56:20,479

yeah oh my god changed again they're

4543

02:56:23,670 --> 02:56:22,160

changing their signature the way that it

4544

02:56:27,510 --> 02:56:23,680

looks the whole way

4545

02:56:30,150 --> 02:56:27,520

you know so i think dude

4546

02:56:32,230 --> 02:56:30,160

yeah i love that i didn't know what to

4547

02:56:34,389 --> 02:56:32,240

think about that

4548

02:56:36,150 --> 02:56:34,399

signature management that means that

4549

02:56:38,710 --> 02:56:36,160

they were able to change at will

4550

02:56:40,550 --> 02:56:38,720

what their signature was yeah so like

4551
02:56:42,550 --> 02:56:40,560
maybe it showed up as one point and now

4552
02:56:43,830 --> 02:56:42,560
it's three points and now it's 16 points

4553
02:56:48,790 --> 02:56:43,840
and now it's back to one

4554
02:56:51,830 --> 02:56:48,800
yeah whoa we don't know

4555
02:56:55,429 --> 02:56:51,840
that wasn't a fart it wasn't

4556
02:56:59,030 --> 02:56:55,439
it was my hand

4557
02:57:03,590 --> 02:57:02,550
i like how they added in uh they appear

4558
02:57:07,510 --> 02:57:03,600
to show

4559
02:57:10,870 --> 02:57:07,520
uap demonstrating acceleration

4560
02:57:12,469 --> 02:57:10,880
or where is that right here

4561
02:57:14,309 --> 02:57:12,479
they hold a small amount of data that

4562
02:57:15,429 --> 02:57:14,319
appear to show uap demonstrating

4563
02:57:18,950 --> 02:57:15,439

acceleration

4564

02:57:21,910 --> 02:57:18,960

right of course and then they throw in

4565

02:57:24,630 --> 02:57:21,920

or a degree of signature signature man

4566

02:57:27,429 --> 02:57:24,640

so much more like interesting than like

4567

02:57:28,230 --> 02:57:27,439

they showed acceleration yeah yeah we

4568

02:57:29,910 --> 02:57:28,240

know

4569

02:57:31,590 --> 02:57:29,920

either they're actually doing what

4570

02:57:34,950 --> 02:57:31,600

they're doing

4571

02:57:38,150 --> 02:57:34,960

or they're manipulating how we

4572

02:57:40,950 --> 02:57:38,160

perceive that data well

4573

02:57:43,429 --> 02:57:40,960

additional rigorous analysis are are

4574

02:57:45,670 --> 02:57:43,439

necessary by multiple teams or groups of

4575

02:57:46,469 --> 02:57:45,680

technical experts to determine the

4576
02:57:52,550 --> 02:57:46,479
nature

4577
02:57:56,950 --> 02:57:54,870
we are conducting file analysis to

4578
02:57:59,590 --> 02:57:56,960
determine if breakthrough technologies

4579
02:58:03,110 --> 02:57:59,600
were demonstrated

4580
02:58:03,429 --> 02:58:03,120
i mean isn't that isn't that implied by

4581
02:58:05,910 --> 02:58:03,439
the

4582
02:58:07,990 --> 02:58:05,920
acceleration and signature management

4583
02:58:11,190 --> 02:58:08,000
yep of the object yep

4584
02:58:13,030 --> 02:58:11,200
absolutely like if if five

4585
02:58:15,830 --> 02:58:13,040
people looked at it that were like top

4586
02:58:18,070 --> 02:58:15,840
scientists and they were like yeah

4587
02:58:19,830 --> 02:58:18,080
it demonstrated acceleration and

4588
02:58:22,550 --> 02:58:19,840

signature management

4589

02:58:24,469 --> 02:58:22,560

does getting like 10 more to say the

4590

02:58:28,550 --> 02:58:24,479

exact same thing make a difference

4591

02:58:31,110 --> 02:58:28,560

yeah i feel like well

4592

02:58:31,990 --> 02:58:31,120

i i i think they're just like covering

4593

02:58:34,630 --> 02:58:32,000

all their bases

4594

02:58:35,670 --> 02:58:34,640

yeah sure this is meant to be like a

4595

02:58:37,590 --> 02:58:35,680

general

4596

02:58:38,710 --> 02:58:37,600

report to where they're not expecting

4597

02:58:42,389 --> 02:58:38,720

anyone

4598

02:58:43,510 --> 02:58:42,399

to look to look at it like we are right

4599

02:58:45,990 --> 02:58:43,520

now

4600

02:58:46,790 --> 02:58:46,000

to look at it and in depth like you

4601
02:58:49,830 --> 02:58:46,800
could

4602
02:58:51,910 --> 02:58:49,840
easily as you and i talked about like we

4603
02:58:54,070 --> 02:58:51,920
both skimmed through this [h__\h]

4604
02:58:55,670 --> 02:58:54,080
yeah and it was easy to understand and

4605
02:58:56,389 --> 02:58:55,680
like as we're going through it line by

4606
02:58:58,150 --> 02:58:56,399
line

4607
02:58:59,670 --> 02:58:58,160
i'm learning and like talking to you

4608
02:59:02,150 --> 02:58:59,680
guys in the chat

4609
02:59:02,710 --> 02:59:02,160
are you guys asking questions like i'm

4610
02:59:05,830 --> 02:59:02,720
learning

4611
02:59:27,190 --> 02:59:05,840
way more than i would have by myself

4612
02:59:31,349 --> 02:59:29,510
god but yeah like no one no one was like

4613
02:59:34,150 --> 02:59:31,359

expecting us to like kind of

4614

02:59:36,389 --> 02:59:34,160

like anybody to really look at it but

4615

02:59:38,389 --> 02:59:36,399

when you do it's pretty dope

4616

02:59:39,429 --> 02:59:38,399

and again i i stand by this fact i think

4617

02:59:42,469 --> 02:59:39,439

this was [h__h]

4618

02:59:43,750 --> 02:59:42,479

dope i think the report was awesome and

4619

02:59:47,510 --> 02:59:43,760

it's like

4620

02:59:50,309 --> 02:59:47,520

you have to read between the line

4621

02:59:52,309 --> 02:59:50,319

but that's the thing though no one wants

4622

02:59:54,830 --> 02:59:52,319

to take that time to do that well that

4623

02:59:56,309 --> 02:59:54,840

and they're saying people are saying

4624

02:59:58,230 --> 02:59:56,319

well

4625

03:00:00,389 --> 02:59:58,240

do we have the luxury to read between

4626
03:00:02,309 --> 03:00:00,399
the lines do we have the luxury to come

4627
03:00:05,030 --> 03:00:02,319
up with our own conclusion

4628
03:00:06,150 --> 03:00:05,040
we need the facts right we need the

4629
03:00:10,230 --> 03:00:06,160
facts

4630
03:00:11,670 --> 03:00:10,240
drawing our own conclusion only leads us

4631
03:00:14,469 --> 03:00:11,680
back to square one

4632
03:00:16,550 --> 03:00:14,479
yeah however drawing your own conclusion

4633
03:00:19,750 --> 03:00:16,560
is way more fun

4634
03:00:22,150 --> 03:00:19,760
way more fun way more fun way more fun

4635
03:00:23,670 --> 03:00:22,160
and this makes total sense uap probably

4636
03:00:25,590 --> 03:00:23,680
lacks a single

4637
03:00:26,870 --> 03:00:25,600
explanation it's like they're yelling at

4638
03:00:32,070 --> 03:00:26,880

us like

4639

03:00:36,469 --> 03:00:34,469
so yeah no i get that like single

4640

03:00:40,150 --> 03:00:36,479
explanation

4641

03:00:44,150 --> 03:00:40,160
[h__h] yeah i agree i agree

4642

03:00:46,309 --> 03:00:44,160
finally finally we uh yeah like

4643

03:00:49,349 --> 03:00:46,319
you can't just say hey this is what it

4644

03:00:54,950 --> 03:00:52,389
it's not i feel like in my

4645

03:00:56,790 --> 03:00:54,960
gut i don't feel like it's one thing

4646

03:00:59,830 --> 03:00:56,800
it's gotta be

4647

03:01:00,150 --> 03:00:59,840
it can't be explained by by one thing

4648

03:01:03,030 --> 03:01:00,160
yeah

4649

03:01:04,230 --> 03:01:03,040
for sure like it's it's it's a little

4650

03:01:05,990 --> 03:01:04,240
more you gotta put a little bit more

4651
03:01:08,309 --> 03:01:06,000
effort into it um

4652
03:01:09,670 --> 03:01:08,319
and and i think it requires a little bit

4653
03:01:12,790 --> 03:01:09,680
more effort it's like

4654
03:01:16,710 --> 03:01:12,800
it's like understanding it's like

4655
03:01:21,030 --> 03:01:16,720
understanding your your higher power

4656
03:01:22,630 --> 03:01:21,040
if that may be uh excuse you nibbler

4657
03:01:24,309 --> 03:01:22,640
oh she's ready to get down nibbler's

4658
03:01:24,790 --> 03:01:24,319
ready to go look at that oh she's gonna

4659
03:01:27,030 --> 03:01:24,800
pee

4660
03:01:29,910 --> 03:01:27,040
she is awake and we're ready to go she's

4661
03:01:37,429 --> 03:01:32,469
oh he's a nibbler she's a little pug

4662
03:01:42,070 --> 03:01:40,230
uh but yeah like anybody that you know

4663
03:01:44,790 --> 03:01:42,080

has like a higher power you know

4664

03:01:47,190 --> 03:01:44,800

it's it's it's not that simple it's like

4665

03:01:50,309 --> 03:01:47,200

yeah everybody's been saying god and ju

4666

03:01:51,110 --> 03:01:50,319

and jesus for so long but like i feel

4667

03:01:54,389 --> 03:01:51,120

like

4668

03:01:56,230 --> 03:01:54,399

the more you really understand it it's

4669

03:01:57,910 --> 03:01:56,240

they're way cooler than we thought like

4670

03:01:58,309 --> 03:01:57,920

god and jesus are way cooler than we

4671

03:02:00,870 --> 03:01:58,319

thought

4672

03:02:02,309 --> 03:02:00,880

it's like demons and like angels are way

4673

03:02:07,349 --> 03:02:02,319

cooler than we thought they were

4674

03:02:12,790 --> 03:02:10,790

it's so deep i don't even know where

4675

03:02:15,510 --> 03:02:12,800

that came from

4676
03:02:16,150 --> 03:02:15,520
the uap documented in this limited data

4677
03:02:17,990 --> 03:02:16,160
set

4678
03:02:20,389 --> 03:02:18,000
demonstrating an array of aerial

4679
03:02:22,790 --> 03:02:20,399
behaviors reinforcing the possibility

4680
03:02:25,349 --> 03:02:22,800
there are multiple types of uap

4681
03:02:27,190 --> 03:02:25,359
requiring different explanations

4682
03:02:28,550 --> 03:02:27,200
our analysis of the data supports the

4683
03:02:31,269 --> 03:02:28,560
construct that if

4684
03:02:32,309 --> 03:02:31,279
and when individual uap incidents are

4685
03:02:34,550 --> 03:02:32,319
resolved

4686
03:02:37,590 --> 03:02:34,560
they will fall into one of five

4687
03:02:40,230 --> 03:02:37,600
potential explanatory categories

4688
03:02:42,830 --> 03:02:40,240

nice airborne clutter natural

4689

03:02:45,750 --> 03:02:42,840

atmospheric phenomenon big booty [h__h]

4690

03:02:49,269 --> 03:02:45,760

usg or industry developmental

4691

03:02:52,469 --> 03:02:49,279

programs foreign adversary systems and

4692

03:02:55,190 --> 03:02:52,479

a catch-all other bin so

4693

03:02:55,990 --> 03:02:55,200

yes i don't know you said that on page

4694

03:02:58,070 --> 03:02:56,000

four

4695

03:03:00,469 --> 03:02:58,080

you're repeating but they added the

4696

03:03:02,790 --> 03:03:00,479

important part

4697

03:03:03,670 --> 03:03:02,800

with the exception of one instance where

4698

03:03:10,230 --> 03:03:03,680

we determine

4699

03:03:12,230 --> 03:03:10,240

with high confidence

4700

03:03:15,190 --> 03:03:12,240

as if they've instilled some kind of

4701

03:03:17,510 --> 03:03:15,200

trust with this document

4702

03:03:19,830 --> 03:03:17,520

with the exception of the one instance

4703

03:03:21,750 --> 03:03:19,840

the one instance where we determine with

4704

03:03:25,510 --> 03:03:21,760

high confidence that the reported

4705

03:03:28,870 --> 03:03:25,520

uap was airborne clutter significantly

4706

03:03:30,230 --> 03:03:28,880

a deflating balloon we currently lack

4707

03:03:33,190 --> 03:03:30,240

sufficient information

4708

03:03:34,150 --> 03:03:33,200

in our data set to attribute incidents

4709

03:03:37,030 --> 03:03:34,160

to

4710

03:03:38,469 --> 03:03:37,040

specific explanations so all i did was

4711

03:03:40,950 --> 03:03:38,479

report what happened

4712

03:03:42,150 --> 03:03:40,960

repeat what was on page three or four

4713

03:03:44,389 --> 03:03:42,160

dude i feel like it's the

4714

03:03:47,990 --> 03:03:44,399

the equivalent of us saying like dude

4715

03:03:49,910 --> 03:03:48,000

cause we're like [\h__\h] smart

4716

03:03:51,269 --> 03:03:49,920

like that's the thing the first part of

4717

03:03:53,110 --> 03:03:51,279

that was the most important part

4718

03:03:55,990 --> 03:03:53,120

the rest of it was repeating uh i'm

4719

03:04:00,070 --> 03:03:56,000

gonna middle it has to be

4720

03:04:00,080 --> 03:04:06,870

hurry back bro we're almost done

4721

03:04:11,190 --> 03:04:09,990

jesus christ no we're not may have to do

4722

03:04:14,469 --> 03:04:11,200

a part two

4723

03:04:17,190 --> 03:04:14,479

or that may be all you get to be quite

4724

03:04:20,550 --> 03:04:17,200

honest with you

4725

03:04:20,560 --> 03:04:26,950

lynn oh nibbler no not all nibbler

4726
03:04:29,990 --> 03:04:29,349
yeah oh nibbler she's sweet i like

4727
03:04:34,830 --> 03:04:30,000
nibbler

4728
03:04:34,840 --> 03:04:41,670
um

4729
03:04:41,680 --> 03:04:47,429
oh my gosh

4730
03:04:54,950 --> 03:04:50,710
dude lynn me and ben will totally sing

4731
03:05:00,469 --> 03:04:56,630
it'll be the greatest theme song of all

4732
03:05:08,710 --> 03:05:04,309
let's see dark matter

4733
03:05:11,910 --> 03:05:08,720
is a byproduct of wasted consciousness

4734
03:05:13,190 --> 03:05:11,920
made wild wonders dude just kind of blew

4735
03:05:16,830 --> 03:05:13,200
my mind with that

4736
03:05:17,990 --> 03:05:16,840
dark matter is a byproduct of wasted

4737
03:05:21,590 --> 03:05:18,000
consciousness

4738
03:05:23,190 --> 03:05:21,600

or is it a product of untapped

4739

03:05:27,269 --> 03:05:23,200

consciousness

4740

03:05:31,110 --> 03:05:29,429

you hear this dude i don't know but i

4741

03:05:33,750 --> 03:05:31,120

like i heard a little bit

4742

03:05:34,630 --> 03:05:33,760

dark matter is a byproduct of wasted

4743

03:05:39,030 --> 03:05:34,640

consciousness

4744

03:05:41,429 --> 03:05:39,040

ooh but then i i counted that and said

4745

03:05:44,389 --> 03:05:41,439

or is it a product of untapped

4746

03:05:50,790 --> 03:05:47,670

dude i love that

4747

03:05:52,790 --> 03:05:50,800

lynn wants us to sing um her and katelyn

4748

03:05:57,190 --> 03:05:52,800

a theme song i love that

4749

03:05:57,830 --> 03:05:57,200

kaitlyn lynn and kaitlyn the two best

4750

03:06:00,870 --> 03:05:57,840

buds

4751
03:06:03,990 --> 03:06:00,880
they're better friends than anyone

4752
03:06:05,590 --> 03:06:04,000
knows and ben and joe we're we're two

4753
03:06:08,150 --> 03:06:05,600
best friends and

4754
03:06:08,870 --> 03:06:08,160
lynn and caitlin we're best friends till

4755
03:06:11,750 --> 03:06:08,880
the end

4756
03:06:13,349 --> 03:06:11,760
and we're drinking wine on a saturday

4757
03:06:16,309 --> 03:06:13,359
night and

4758
03:06:16,870 --> 03:06:16,319
a weird rhythm pattern that i can't keep

4759
03:06:19,110 --> 03:06:16,880
up

4760
03:06:36,820 --> 03:06:19,120
while i'm singing with my mouth i'm

4761
03:06:41,990 --> 03:06:38,710
[Music]

4762
03:06:43,750 --> 03:06:42,000
all right that was dope and i finally

4763
03:06:45,349 --> 03:06:43,760

caught it at the end yeah you did it you

4764

03:06:48,870 --> 03:06:45,359

got it

4765

03:06:50,550 --> 03:06:48,880

hell yeah all right okay willie says

4766

03:06:51,990 --> 03:06:50,560

i just asked my brother about sensors

4767

03:06:55,590 --> 03:06:52,000

and he confirmed they're

4768

03:06:56,870 --> 03:06:55,600

everywhere dude scissors are everywhere

4769

03:07:03,349 --> 03:06:56,880

dude

4770

03:07:04,150 --> 03:07:03,359

don john bovee we are like holland oaks

4771

03:07:06,469 --> 03:07:04,160

oh my god i

4772

03:07:07,590 --> 03:07:06,479

love don bon jovi he's my favorite dude

4773

03:07:10,790 --> 03:07:07,600

holy [h__\h]

4774

03:07:12,630 --> 03:07:10,800

he's so funny everybody in this chat is

4775

03:07:15,750 --> 03:07:12,640

hilarious like

4776

03:07:18,150 --> 03:07:15,760

i don't know like i i you just pick one

4777

03:07:20,950 --> 03:07:18,160

and like yeah y'all are hilarious thanks

4778

03:07:23,910 --> 03:07:20,960

for hanging out with us you guys

4779

03:07:24,950 --> 03:07:23,920

ufo garage band yes jason what's

4780

03:07:27,670 --> 03:07:24,960

happening

4781

03:07:29,910 --> 03:07:27,680

uh there's more to this this this this

4782

03:07:30,469 --> 03:07:29,920

uh this report we're only on uh page

4783

03:07:32,710 --> 03:07:30,479

four

4784

03:07:34,070 --> 03:07:32,720

wouldn't it be so us to not finish yeah

4785

03:07:36,230 --> 03:07:34,080

we're not gonna finish

4786

03:07:39,910 --> 03:07:36,240

we're not gonna so we're just gonna

4787

03:07:43,030 --> 03:07:39,920

we're not gonna finish tonight um

4788

03:07:43,590 --> 03:07:43,040

i don't wanna i don't wanna over rush it

4789

03:07:44,790 --> 03:07:43,600

i don't know

4790

03:07:46,550 --> 03:07:44,800

i don't wanna rush it's very important

4791

03:07:47,830 --> 03:07:46,560

we don't wanna rush it yeah wanna make

4792

03:07:49,590 --> 03:07:47,840

sure everybody's understanding and

4793

03:07:52,550 --> 03:07:49,600

learning yeah we wanna learn

4794

03:07:54,309 --> 03:07:52,560

and we wanna learn together okay plus

4795

03:07:57,750 --> 03:07:54,319

now we have to make lynne

4796

03:08:00,790 --> 03:07:57,760

uh a theme song i think we already did

4797

03:08:01,110 --> 03:08:00,800

dude i mean you know they can you hit

4798

03:08:06,070 --> 03:08:01,120

that

4799

03:08:26,150 --> 03:08:06,080

line one more time

4800

03:08:30,550 --> 03:08:28,710

um all right well let's uh let's save it

4801
03:08:31,269 --> 03:08:30,560
for the the next episode i think we got

4802
03:08:35,030 --> 03:08:31,279
pretty far

4803
03:08:36,950 --> 03:08:35,040
don't no one's all

4804
03:08:39,110 --> 03:08:36,960
no one else is kind of going through the

4805
03:08:40,790 --> 03:08:39,120
the the the report

4806
03:08:43,190 --> 03:08:40,800
you know i i think i think i think we

4807
03:08:46,790 --> 03:08:43,200
kind of blew people's minds

4808
03:08:49,030 --> 03:08:46,800
we're so smart dude i think i really

4809
03:08:50,309 --> 03:08:49,040
i think we really got a section of the

4810
03:08:53,510 --> 03:08:50,319
population thinking

4811
03:08:53,990 --> 03:08:53,520
tonight or a whole new level about this

4812
03:08:56,710 --> 03:08:54,000
report

4813
03:08:57,110 --> 03:08:56,720

we like tried to read out loud that was

4814

03:08:59,590 --> 03:08:57,120

fun

4815

03:09:01,670 --> 03:08:59,600

we were reading and everyone everyone

4816

03:09:06,309 --> 03:09:01,680

loves to read out loud

4817

03:09:10,550 --> 03:09:09,269

what popcorn remember in school when you

4818

03:09:12,150 --> 03:09:10,560

would play popcorn

4819

03:09:13,990 --> 03:09:12,160

oh what do you mean you play that game

4820

03:09:16,790 --> 03:09:14,000

until the next okay yeah i do remember

4821

03:09:21,910 --> 03:09:19,910

then i'd be like oh you picked me

4822

03:09:22,550 --> 03:09:21,920

because you knew i wasn't [h__h] paying

4823

03:09:25,990 --> 03:09:22,560

attention

4824

03:09:27,429 --> 03:09:26,000

yeah on purpose that's the whole point

4825

03:09:30,790 --> 03:09:27,439

of the game

4826

03:09:34,229 --> 03:09:30,800

yeah yeah so you had mrs uh

4827

03:09:36,710 --> 03:09:34,239

uh uh oh my god

4828

03:09:37,269 --> 03:09:36,720

that happened like not mrs pig i miss

4829

03:09:41,030 --> 03:09:37,279

his pick

4830

03:09:42,870 --> 03:09:41,040

and i also add uh mrs uh safari too so

4831

03:09:45,190 --> 03:09:42,880

oh yeah is that what you're talking

4832

03:09:46,710 --> 03:09:45,200

about yeah that i mean that happened to

4833

03:09:49,510 --> 03:09:46,720

me multiple times

4834

03:09:49,990 --> 03:09:49,520

in different grades we went to the same

4835

03:09:51,990 --> 03:09:50,000

schools

4836

03:09:53,269 --> 03:09:52,000

you guys we grew up in the same same

4837

03:09:56,870 --> 03:09:53,279

town

4838

03:09:57,349 --> 03:09:56,880

uh anyway you guys thanks for hanging

4839

03:10:00,389 --> 03:09:57,359

out

4840

03:10:03,030 --> 03:10:00,399

uh if you want to support the shirt

4841

03:10:03,870 --> 03:10:03,040

product or parent cast check out ufo

4842

03:10:06,389 --> 03:10:03,880

garage

4843

03:10:07,750 --> 03:10:06,399

podcast.com we have shirts and they're

4844

03:10:09,590 --> 03:10:07,760

[h__h] dope we gotta

4845

03:10:10,790 --> 03:10:09,600

check it out chicken oh you got one on

4846

03:10:14,309 --> 03:10:10,800

two well that's

4847

03:10:17,510 --> 03:10:14,319

this is the this is the old impala but

4848

03:10:19,510 --> 03:10:17,520

the new logo is on joe's shirt

4849

03:10:20,950 --> 03:10:19,520

boom and it's an all-over print it

4850

03:10:24,309 --> 03:10:20,960

actually goes uh

4851

03:10:27,429 --> 03:10:24,319

goes uh there's like a

4852

03:10:29,750 --> 03:10:27,439

a flap that goes towards the anus

4853

03:10:30,630 --> 03:10:29,760

that that uh it's a button it's almost

4854

03:10:35,670 --> 03:10:30,640

like a like a

4855

03:10:37,349 --> 03:10:35,680

where like from the butt

4856

03:10:39,190 --> 03:10:37,359

there's a flap and then from the front

4857

03:10:42,229 --> 03:10:39,200

there's a flap and they button

4858

03:10:43,510 --> 03:10:42,239

and then that is where the secrets hide

4859

03:10:45,990 --> 03:10:43,520

and that's where another

4860

03:10:47,910 --> 03:10:46,000

it's a secret um a print that no one

4861

03:10:51,349 --> 03:10:47,920

knows we don't have that on the the

4862

03:10:51,990 --> 03:10:51,359

uh the website so it's a secret surprise

4863

03:10:53,990 --> 03:10:52,000

custom

4864

03:10:55,269 --> 03:10:54,000

yeah so if you if you order a shirt

4865

03:10:58,469 --> 03:10:55,279

linda got hers

4866

03:10:58,790 --> 03:10:58,479

yeah lin got hers yeah so she can't tell

4867

03:11:00,710 --> 03:10:58,800

it

4868

03:11:02,070 --> 03:11:00,720

tell the surprise she's part of the

4869

03:11:05,670 --> 03:11:02,080

surprise

4870

03:11:06,630 --> 03:11:05,680

so now you know onesies are dope chuck

4871

03:11:10,870 --> 03:11:06,640

hell yeah chuck

4872

03:11:15,349 --> 03:11:13,910

made wild wonders

4873

03:11:17,349 --> 03:11:15,359

which one did lynn get did you get the

4874

03:11:18,309 --> 03:11:17,359

doctor scientist one yeah that's the one

4875

03:11:21,110 --> 03:11:18,319

i didn't

4876

03:11:23,190 --> 03:11:21,120

uh put the logo on the back lin i'm

4877

03:11:24,950 --> 03:11:23,200

sorry i realized that there was no logo

4878

03:11:28,469 --> 03:11:24,960

on the back of that freaking shirt

4879

03:11:30,150 --> 03:11:28,479

lin take a sharpie and just write ufo

4880

03:11:31,030 --> 03:11:30,160

garage on the back for us if you don't

4881

03:11:33,110 --> 03:11:31,040

mind yeah

4882

03:11:35,030 --> 03:11:33,120

but it's gotta look it's gotta be

4883

03:11:36,469 --> 03:11:35,040

identical to the logo

4884

03:11:38,389 --> 03:11:36,479

yeah we're gonna need you to put that on

4885

03:11:40,229 --> 03:11:38,399

there for us

4886

03:11:44,229 --> 03:11:40,239

but like really good if it's not good if

4887

03:11:51,990 --> 03:11:48,309

sue you for defamation it has to be good

4888

03:11:54,389 --> 03:11:52,000

greg getting a shirt hell yeah

4889

03:11:56,150 --> 03:11:54,399

i feel like it's a free audio book yeah

4890

03:11:57,750 --> 03:11:56,160

it is a free is it it's literally this

4891

03:11:59,990 --> 03:11:57,760

is literally a free audiobook that's all

4892

03:12:08,630 --> 03:12:00,000

it is you're learning so much

4893

03:12:11,750 --> 03:12:09,760

phonics worked for me

4894

03:12:15,910 --> 03:12:11,760

[Laughter]

4895

03:12:18,870 --> 03:12:15,920

me too yeah i think yeah i did

4896

03:12:19,990 --> 03:12:18,880

all right guys well this has been fun

4897

03:12:21,990 --> 03:12:20,000

love you

4898

03:12:24,309 --> 03:12:22,000

talk to you next week this has been

4899

03:12:25,190 --> 03:12:24,319

great check out our website hey tell

4900

03:12:27,190 --> 03:12:25,200

people about us

4901
03:12:29,590 --> 03:12:27,200
if you're having fun talking about the

4902
03:12:33,030 --> 03:12:29,600
italian grand

4903
03:12:35,590 --> 03:12:33,040
daughter lin please draw us

4904
03:12:38,389 --> 03:12:35,600
please does she does she she said can i

4905
03:12:41,590 --> 03:12:38,399
draw youtube oh my gosh

4906
03:12:46,389 --> 03:12:41,600
that would be sweet yeah yeah

4907
03:12:47,990 --> 03:12:46,399
yes don't be sweet

4908
03:12:49,670 --> 03:12:48,000
you could sell them on your on your

4909
03:12:52,309 --> 03:12:49,680
tours of of uh

4910
03:12:54,309 --> 03:12:52,319
salem when you become a tour guide you

4911
03:12:56,790 --> 03:12:54,319
could be like yes i'm the tour guide

4912
03:12:57,590 --> 03:12:56,800
here in salem welcome nice to meet you

4913
03:12:59,510 --> 03:12:57,600

all

4914

03:13:00,710 --> 03:12:59,520

i've also on the side have these

4915

03:13:05,110 --> 03:13:00,720

pictures i'm selling

4916

03:13:06,550 --> 03:13:05,120

of ben and joe yeah i'll show up

4917

03:13:08,469 --> 03:13:06,560

i'll be the one of those guys that like

4918

03:13:09,590 --> 03:13:08,479

totally pretends like i'm in that era

4919

03:13:11,830 --> 03:13:09,600

and i'm like

4920

03:13:14,070 --> 03:13:11,840

what for arthur phone what does that

4921

03:13:15,269 --> 03:13:14,080

mean no black screen what we gotta do is

4922

03:13:16,710 --> 03:13:15,279

we gotta just show up

4923

03:13:18,870 --> 03:13:16,720

and nobody knows about it and just sit

4924

03:13:20,870 --> 03:13:18,880

in the bus until somebody recognizes the

4925

03:13:22,870 --> 03:13:20,880

photo that they just bought that's us

4926

03:13:23,910 --> 03:13:22,880

and then we're like they'll be like hey

4927

03:13:25,990 --> 03:13:23,920

is this you guys

4928

03:13:28,070 --> 03:13:26,000

and then we've eaten all of their their

4929

03:13:29,429 --> 03:13:28,080

planned meals and we were like i

4930

03:13:30,870 --> 03:13:29,439

shouldn't have left those meals on the

4931

03:13:35,990 --> 03:13:30,880

bus

4932

03:13:39,590 --> 03:13:38,150

don't leave cold cuts around me and joe

4933

03:13:41,190 --> 03:13:39,600

we'll eat all of them

4934

03:13:43,349 --> 03:13:41,200

are we talking about like it like a bust

4935

03:13:45,429 --> 03:13:43,359

like full like it's it's

4936

03:13:46,950 --> 03:13:45,439

it's all mules covered i don't remember

4937

03:13:48,870 --> 03:13:46,960

that no no i'm just i'm

4938

03:13:50,469 --> 03:13:48,880

no it's like uh i made that up in my

4939

03:13:55,110 --> 03:13:50,479

head like like it's like a

4940

03:14:02,790 --> 03:14:00,309

sexy it's like a like a a 13 minute

4941

03:14:03,830 --> 03:14:02,800

thing so there's really no sandwiches

4942

03:14:06,150 --> 03:14:03,840

involved

4943

03:14:07,110 --> 03:14:06,160

this is like five people like you go

4944

03:14:09,910 --> 03:14:07,120

around the block

4945

03:14:11,030 --> 03:14:09,920

yeah we should be a tour guide of like

4946

03:14:12,070 --> 03:14:11,040

your block

4947

03:14:13,269 --> 03:14:12,080

like hey i just want to take it around

4948

03:14:15,030 --> 03:14:13,279

the block if you guys want to check it

4949

03:14:15,990 --> 03:14:15,040

out this is a historical area that's

4950

03:14:19,750 --> 03:14:16,000

where my mom is

4951
03:14:20,150 --> 03:14:19,760
anyway in 1987 yeah i uh around the

4952
03:14:22,469 --> 03:14:20,160
street

4953
03:14:23,349 --> 03:14:22,479
man she beat my ass right here in this

4954
03:14:26,229 --> 03:14:23,359
very section

4955
03:14:27,429 --> 03:14:26,239
this is when i when i was a i was i was

4956
03:14:29,670 --> 03:14:27,439
young

4957
03:14:31,590 --> 03:14:29,680
i put my pants right here it's right

4958
03:14:33,429 --> 03:14:31,600
here i looked my mom straight in the

4959
03:14:35,830 --> 03:14:33,439
eyes i did not break eye contact and i

4960
03:14:39,110 --> 03:14:35,840
[h__h] my own pants i was 11 years old

4961
03:14:40,229 --> 03:14:39,120
it's gonna be 17 please seventeen

4962
03:14:43,510 --> 03:14:40,239
dollars

4963
03:14:48,389 --> 03:14:46,389

all right people uh hey much love thanks

4964

03:14:52,469 --> 03:14:48,399

for hanging out with us tonight

4965

03:14:54,630 --> 03:14:52,479

uh we'll see you next time on the

4966

03:14:56,469 --> 03:14:54,640

before we leave lynn can can we can we

4967

03:14:58,309 --> 03:14:56,479

be sidekicks on your tour one time

4968

03:14:59,670 --> 03:14:58,319

can we can we come and visit and just be

4969

03:15:01,429 --> 03:14:59,680

part of the tour with you

4970

03:15:03,349 --> 03:15:01,439

oh my god we'll be your sidekick i'm

4971

03:15:05,349 --> 03:15:03,359

getting i'm getting i'm getting oh hold

4972

03:15:09,349 --> 03:15:05,359

on

4973

03:15:10,950 --> 03:15:09,359

did you fart no you farted no it wasn't

4974

03:15:13,110 --> 03:15:10,960

oh yeah no that was your answer that was

4975

03:15:16,790 --> 03:15:13,120

your previous that was a previous

4976

03:15:19,990 --> 03:15:16,800

i'm sorry i'm so sorry sir yes

4977

03:15:24,710 --> 03:15:20,000

no yeah no that was a fart

4978

03:15:27,429 --> 03:15:24,720

no i farted that's what we would do

4979

03:15:28,630 --> 03:15:27,439

is that what you're saying she gives

4980

03:15:30,389 --> 03:15:28,640

tours of salem

4981

03:15:31,910 --> 03:15:30,399

is that what you're gonna do on the tour

4982

03:15:34,229 --> 03:15:31,920

okay i totally must

4983

03:15:35,910 --> 03:15:34,239

i misunderstood i was having a hard time

4984

03:15:39,349 --> 03:15:35,920

i understood the assignment

4985

03:15:40,790 --> 03:15:39,359

that was going i misunderstood the

4986

03:15:42,630 --> 03:15:40,800

assignment i was like no don't do that

4987

03:15:44,150 --> 03:15:42,640

on lin's tour

4988

03:15:48,630 --> 03:15:44,160

i just wanted i just wanted to be like

4989

03:15:50,630 --> 03:15:48,640

uh like i thought you mean like

4990

03:15:54,870 --> 03:15:50,640

psychic reading like like maybe link can

4991

03:16:01,830 --> 03:15:57,990

[h__h] yeah hell yeah i'm down already

4992

03:16:03,830 --> 03:16:01,840

i want a uniform well i think it's about

4993

03:16:07,110 --> 03:16:03,840

him for me dude

4994

03:16:10,229 --> 03:16:07,120

i'm still tired i'm confused

4995

03:16:11,910 --> 03:16:10,239

i was making fart jokes now i feel bad

4996

03:16:15,990 --> 03:16:11,920

lynn says she's sure plenty of people

4997

03:16:18,710 --> 03:16:16,000

fart on the tour oh hell yeah

4998

03:16:19,750 --> 03:16:18,720

the odds are pretty good i'm sure hell

4999

03:16:22,870 --> 03:16:19,760

yeah

5000

03:16:24,070 --> 03:16:22,880

already dude all right bro dude you're

5001

03:16:27,429 --> 03:16:24,080

right you ready

5002

03:16:30,790 --> 03:16:27,439

you read so good dude i'm so proud

5003

03:16:32,790 --> 03:16:30,800

i'm a i'm a born-again reader yeah dude

5004

03:16:34,340 --> 03:16:32,800

that's what's up

5005

03:16:37,910 --> 03:16:34,350

yeah all right man
