00:00:11,350 --> 00:00:10,480
it's all good it's all good i feel it's

6
00:00:14,150 --> 00:00:11,360
all good

7
00:00:17,990 --> 00:00:14,160
we'll laugh about it later maybe

8
00:00:19,429 --> 00:00:18,000
all right bro let you go bye we're live

9
00:00:22,710 --> 00:00:19,439
all right what's happening ladies and

10
00:00:24,470 --> 00:00:22,720
gentlemen welcome to another episode

11
00:00:26,950 --> 00:00:24,480
of big willy except for being on the

12
00:00:29,189 --> 00:00:26,960
weekends we are gonna be on a tuesday as

13
00:00:31,429 --> 00:00:29,199

i mentioned taco tuesday

14

00:00:33,030 --> 00:00:31,439

um poor david weiss and now why i

15

00:00:35,830 --> 00:00:33,040

supposed to ask you very soon is it wise

16

00:00:37,830 --> 00:00:35,840

or wise weiss like ice

17

00:00:39,510 --> 00:00:37,840

whites like ice i love it

18

00:00:41,270 --> 00:00:39,520

um for anybody who might be in the chat

19

00:00:42,790 --> 00:00:41,280

um i can see it on here but we are

20

00:00:44,229 --> 00:00:42,800

streaming with zoom as i mentioned

21

00:00:45,830 --> 00:00:44,239

before you guys feel free to ask

22

00:00:47,350 --> 00:00:45,840

questions if you have them i will try to

23

00:00:49,270 --> 00:00:47,360

intermittently get them in there as if

24

00:00:50,630 --> 00:00:49,280

possible but david said he's wide open

25

00:00:52,549 --> 00:00:50,640

for any questions so if you guys got

26
00:00:54,950 --> 00:00:52,559
them bring them our way you might also

27
00:00:56,709 --> 00:00:54,960
notice that we have a

28
00:00:59,189 --> 00:00:56,719
a poll set up

29
00:01:00,069 --> 00:00:59,199
in here for those that are curious i

30
00:01:01,189 --> 00:01:00,079
didn't know i was going to work out with

31
00:01:02,549 --> 00:01:01,199
zoom and you can answer some of those

32
00:01:04,229 --> 00:01:02,559
questions along the way and kind of have

33
00:01:05,750 --> 00:01:04,239
fun with each other as well

34
00:01:07,750 --> 00:01:05,760
uh a couple things really quick this

35
00:01:10,149 --> 00:01:07,760
coming saturday 9 p.m i will be back to

36
00:01:12,070 --> 00:01:10,159
my normal time and we will have

37
00:01:14,070 --> 00:01:12,080
one and only kelvin parker and i'm very

38
00:01:15,429 --> 00:01:14,080

interested in this story this is a a bit

39

00:01:16,630 --> 00:01:15,439

of an older story for anybody who knows

40

00:01:19,030 --> 00:01:16,640

about this one

41

00:01:20,469 --> 00:01:19,040

but i'm very excited to have him on and

42

00:01:22,070 --> 00:01:20,479

and hang out and hear his story that

43

00:01:24,469 --> 00:01:22,080

happened many years ago and joe and ben

44

00:01:26,390 --> 00:01:24,479

have talked about prior as well

45

00:01:28,550 --> 00:01:26,400

other than that i don't think i have

46

00:01:29,670 --> 00:01:28,560

anything else really to mention

47

00:01:31,190 --> 00:01:29,680

um

48

00:01:33,190 --> 00:01:31,200

dave what i'd love to do is right off

49

00:01:34,710 --> 00:01:33,200

50

00:01:37,270 --> 00:01:34,720

54
00:01:45,830 --> 00:01:44,159

55
00:01:46,950 --> 00:01:45,840
the app that you might hear dave

56
00:01:48,149 --> 00:01:46,960
mentioned here a couple times i just

57
00:01:50,069 --> 00:01:48,159
want to scroll down see i can see it in

58
00:01:51,190 --> 00:01:50,079
there so it is in there as well as his

patient incredibly patient to get live

82

00:02:37,430 --> 00:02:35,120

here

83

00:02:38,470 --> 00:02:37,440

and hanging out tonight so welcome to

84

00:02:40,390 --> 00:02:38,480

the show

85

00:02:41,750 --> 00:02:40,400

uh how was your tuesday or how's your

86

00:02:43,350 --> 00:02:41,760

wednesday whatever day it is anyway is

87

00:02:45,750 --> 00:02:43,360

it a wednesday it's a weekend i believe

88

00:02:48,229 --> 00:02:45,760

today is wednesday yeah um

89

00:02:51,430 --> 00:02:48,239

going going great my third interview

90

00:02:54,309 --> 00:02:51,440

today and uh beautiful day

91

00:02:55,750 --> 00:02:54,319

very nice very nice um so all right well

92

00:02:58,229 --> 00:02:55,760

let's jump at this i and i'll give my

93

00:03:00,070 --> 00:02:58,239

little two cents on something and then i

94

00:03:01,350 --> 00:03:00,080

got some questions because i feel that

95

00:03:02,790 --> 00:03:01,360

can't leave you hanging out there right

96

00:03:04,229 --> 00:03:02,800

we gotta have questions for you here

97

00:03:05,830 --> 00:03:04,239

you're here to answer questions people

98

00:03:07,910 --> 00:03:05,840

have questions so

99

00:03:09,589 --> 00:03:07,920

when it comes to flat earth i i first

100

00:03:11,509 --> 00:03:09,599

heard about it myself

101
00:03:13,190 --> 00:03:11,519
five six years ago maybe maybe i heard

102
00:03:14,470 --> 00:03:13,200
rumors but i initially heard someone

103
00:03:16,229 --> 00:03:14,480
taking it serious and then they put out

104
00:03:17,750 --> 00:03:16,239
a netflix series

105
00:03:19,270 --> 00:03:17,760
i can't even be honest with you i don't

106
00:03:21,110 --> 00:03:19,280
remember who the guy was

107
00:03:22,869 --> 00:03:21,120
but i remember watching that thing what

108
00:03:24,630 --> 00:03:22,879
was his name did you know his name was

109
00:03:26,309 --> 00:03:24,640
the name of the well mark sergeant

110
00:03:27,990 --> 00:03:26,319
you're talking about it wasn't a netflix

111
00:03:32,309 --> 00:03:28,000
series it was a

112
00:03:35,190 --> 00:03:32,319
deception put on by netflix to um it was

113
00:03:37,589 --> 00:03:35,200

a complete and total

114

00:03:38,309 --> 00:03:37,599

hit piece they

115

00:03:42,869 --> 00:03:38,319

they

116

00:03:45,270 --> 00:03:42,879

look like we were proving the globe when

117

00:03:46,710 --> 00:03:45,280

when in fact everyone there was like uh

118

00:03:51,270 --> 00:03:46,720

that kind of looks like the earth is

119

00:03:53,910 --> 00:03:51,280

flat i mean it was a total um deception

120

00:03:56,149 --> 00:03:53,920

and uh it was you know but there's so

121

00:03:58,869 --> 00:03:56,159

many people though that saw that and go

122

00:04:01,750 --> 00:03:58,879

oh flat earth is stupid okay right it's

123

00:04:04,710 --> 00:04:01,760

right up there with the flatter society

124

00:04:06,710 --> 00:04:04,720

so the though it was called um

125

00:04:08,229 --> 00:04:06,720

what was it called it was called behind

126
00:04:09,670 --> 00:04:08,239
the curve or something like that is that

127
00:04:11,750 --> 00:04:09,680
what you're talking about that's about

128
00:04:13,750 --> 00:04:11,760
right i think it was it was like you

129
00:04:16,069 --> 00:04:13,760
said it was just that there it is 45

130
00:04:19,349 --> 00:04:16,079
minutes that is the one behind the curve

131
00:04:21,909 --> 00:04:19,359
yeah and netflix deception yes i watched

132
00:04:23,830 --> 00:04:21,919
that with my wife and uh you know there

133
00:04:25,270 --> 00:04:23,840
were elements of it i'm like i'm liking

134
00:04:27,430 --> 00:04:25,280
it it's interesting

135
00:04:28,390 --> 00:04:27,440
you know it was a movie it was a love

136
00:04:30,070 --> 00:04:28,400
story

137
00:04:31,990 --> 00:04:30,080
they made it a movie but the two

138
00:04:33,670 --> 00:04:32,000

experiments that they that they showed

139

00:04:36,150 --> 00:04:33,680

i'll just tell them one at the end where

140

00:04:38,710 --> 00:04:36,160

they were using a laser to to go through

141

00:04:40,310 --> 00:04:38,720

these three holes which would prove that

142

00:04:42,230 --> 00:04:40,320

the earth is

143

00:04:44,790 --> 00:04:42,240

flat if it could do it but the laser

144

00:04:46,870 --> 00:04:44,800

melted it was too powerful of a laser

145

00:04:48,710 --> 00:04:46,880

the condenser melted so they were just

146

00:04:50,629 --> 00:04:48,720

playing with a light and they held the

147

00:04:52,790 --> 00:04:50,639

light up high

148

00:04:56,390 --> 00:04:52,800

the length of my arm not two feet three

149

00:04:57,990 --> 00:04:56,400

feet and the guy goes oh i see it now

150

00:05:00,310 --> 00:04:58,000

right and bring it down and he couldn't

151

00:05:03,670 --> 00:05:00,320

see it and and jaren the guy doing

152

00:05:05,830 --> 00:05:03,680

experiment was oh interesting right but

153

00:05:08,150 --> 00:05:05,840

if the earth was curved his arm would

154

00:05:10,550 --> 00:05:08,160

have to be like 20 feet tall for him to

155

00:05:12,310 --> 00:05:10,560

be able to see it right yeah

156

00:05:14,950 --> 00:05:12,320

and then when he brought it down a

157

00:05:17,110 --> 00:05:14,960

second time after they edited it they

158

00:05:20,550 --> 00:05:17,120

cut it we could see

159

00:05:23,270 --> 00:05:20,560

right so that kind of leans towards the

160

00:05:25,749 --> 00:05:23,280

earth is flat but everyone there goes

161

00:05:27,430 --> 00:05:25,759

too many too many things the ballers and

162

00:05:29,270 --> 00:05:27,440

the globe and the globals and the flat

163

00:05:31,270 --> 00:05:29,280

earth together this didn't prove

164

00:05:33,189 --> 00:05:31,280

anything if it proved anything it proved

165

00:05:35,990 --> 00:05:33,199

that the earth is flat but we all walked

166

00:05:38,950 --> 00:05:36,000

away netflix edited it to make it look

167

00:05:40,870 --> 00:05:38,960

like we're hiding you know failed

168

00:05:43,510 --> 00:05:40,880

experiments when the opposite is true

169

00:05:46,150 --> 00:05:43,520

every experiment for axial rotation and

170

00:05:47,590 --> 00:05:46,160

curvature has failed all through time

171

00:05:49,430 --> 00:05:47,600

all of the big experiments that you

172

00:05:51,990 --> 00:05:49,440

didn't learn about in school by all of

173

00:05:53,029 --> 00:05:52,000

the accredited scientists they've all

174

00:05:55,830 --> 00:05:53,039

failed

175

00:05:57,590 --> 00:05:55,840

so when people say you know

176
00:05:58,790 --> 00:05:57,600
you know you asked me before the show

177
00:06:00,870 --> 00:05:58,800
when we're trying to set up the show

178
00:06:03,270 --> 00:06:00,880
having some technical difficulties is it

179
00:06:05,430 --> 00:06:03,280
harder is it that you know is is this

180
00:06:07,110 --> 00:06:05,440
harder than is

181
00:06:08,790 --> 00:06:07,120
explaining people that the earth is flat

182
00:06:10,790 --> 00:06:08,800
is harder than this and i said no it's

183
00:06:12,870 --> 00:06:10,800
not it's just

184
00:06:15,029 --> 00:06:12,880
there is

185
00:06:16,550 --> 00:06:15,039
i'm not i'm at a loss for words here but

186
00:06:18,230 --> 00:06:16,560
i'll put it this i'll throw it back to

187
00:06:19,510 --> 00:06:18,240
you is people go

188
00:06:21,270 --> 00:06:19,520

there's no proof of flat earth and

189

00:06:23,189 --> 00:06:21,280

there's tons of proof of the globe

190

00:06:26,469 --> 00:06:23,199

nothing could be farther from the truth

191

00:06:28,870 --> 00:06:26,479

there are countless proofs of flat earth

192

00:06:30,950 --> 00:06:28,880

and zero proofs of the globe so much

193

00:06:32,390 --> 00:06:30,960

that i have my flat earth app challenge

194

00:06:35,590 --> 00:06:32,400

give me one proof of the globe you win

195

00:06:37,189 --> 00:06:35,600

three bitcoins we have heard and i i was

196

00:06:39,670 --> 00:06:37,199

telling people about it i was mentioning

197

00:06:40,870 --> 00:06:39,680

it to him i said hey he he's got this

198

00:06:42,230 --> 00:06:40,880

and i put the app out there for some

199

00:06:44,629 --> 00:06:42,240

people early so if they wanted to get on

200

00:06:46,790 --> 00:06:44,639

because you did say to be clear guys

201
00:06:49,430 --> 00:06:46,800
to be fair you said get on there you got

202
00:06:50,870 --> 00:06:49,440
your top 21 questions which to be fair

203
00:06:52,230 --> 00:06:50,880
guys i've downloaded the app i got it a

204
00:06:53,430 --> 00:06:52,240
couple months ago because i said i'm

205
00:06:55,510 --> 00:06:53,440
gonna if i'm gonna do this i'm gonna go

206
00:06:57,990 --> 00:06:55,520
try and interview this guy i wanna know

207
00:06:59,270 --> 00:06:58,000
right i wanna know uh mr weiss here i

208
00:07:00,790 --> 00:06:59,280
said i should know what he's talking

209
00:07:02,870 --> 00:07:00,800
about because as i talked to you before

210
00:07:04,710 --> 00:07:02,880
we started the episode here i said i

211
00:07:06,870 --> 00:07:04,720
feel like any conversation that has

212
00:07:09,510 --> 00:07:06,880
polarizing points of views

213
00:07:11,670 --> 00:07:09,520

generally takes place in this very

214

00:07:13,589 --> 00:07:11,680

disingenuous kind of manner and it could

215

00:07:15,110 --> 00:07:13,599

be anything but what i like to see is a

216

00:07:16,710 --> 00:07:15,120

commonality of we can have different

217

00:07:17,830 --> 00:07:16,720

points of views but let's at least try

218

00:07:19,270 --> 00:07:17,840

and understand where the other person is

219

00:07:21,350 --> 00:07:19,280

coming from and that should

220

00:07:23,670 --> 00:07:21,360

shout them down and all that stuff and

221

00:07:25,749 --> 00:07:23,680

here's here's another another thing

222

00:07:28,070 --> 00:07:25,759

we know as flat earthers that there's

223

00:07:29,749 --> 00:07:28,080

lots of things that we don't know

224

00:07:31,029 --> 00:07:29,759

we know it you know we don't know what

225

00:07:32,790 --> 00:07:31,039

the moon is we don't know how big the

226

00:07:35,589 --> 00:07:32,800

moon is we don't know how far it is

227

00:07:37,909 --> 00:07:35,599

right we don't know a lot of things

228

00:07:41,830 --> 00:07:37,919

globers think they know everything they

229

00:07:43,749 --> 00:07:41,840

say the sun is 93 million miles away

230

00:07:45,430 --> 00:07:43,759

how how did they figure that out and

231

00:07:47,350 --> 00:07:45,440

everyone goes well somebody figured it

232

00:07:48,869 --> 00:07:47,360

out right and the way they figured it

233

00:07:50,550 --> 00:07:48,879

out is such nonsense the way they

234

00:07:52,390 --> 00:07:50,560

figured out how far the sun wasn't and

235

00:07:55,830 --> 00:07:52,400

by the way it keeps changing you know

236

00:07:58,790 --> 00:07:55,840

they keep changing it um was when venus

237

00:08:00,790 --> 00:07:58,800

transited the sun well they know venus

238

00:08:02,309 --> 00:08:00,800

is about the same size as earth so they

239

00:08:04,309 --> 00:08:02,319

did some math and when it started

240

00:08:05,830 --> 00:08:04,319

transiting from the east coast versus

241

00:08:07,589 --> 00:08:05,840

the viewer on the west coast there was a

242

00:08:09,430 --> 00:08:07,599

time difference they did some great

243

00:08:11,189 --> 00:08:09,440

calculus and they figured out the

244

00:08:13,510 --> 00:08:11,199

distance of the sun the problem with

245

00:08:15,830 --> 00:08:13,520

that equation is they assumed venus was

246

00:08:17,830 --> 00:08:15,840

the same size as earth when i say venus

247

00:08:19,830 --> 00:08:17,840

is no bigger than a beach ball you can't

248

00:08:20,710 --> 00:08:19,840

prove me wrong okay

249

00:08:23,430 --> 00:08:20,720

so

250

00:08:26,150 --> 00:08:23,440

again when you assume

251

00:08:29,189 --> 00:08:26,160

a number in an equation the entire

252

00:08:30,550 --> 00:08:29,199

equation is nonsense right

253

00:08:33,990 --> 00:08:30,560

yeah

254

00:08:36,389 --> 00:08:34,000

and that's where it turns into i guess

255

00:08:39,110 --> 00:08:36,399

you could you could say scientology you

256

00:08:41,110 --> 00:08:39,120

know without any evidence to back your

257

00:08:43,029 --> 00:08:41,120

your claim or it's the very least a

258

00:08:45,750 --> 00:08:43,039

hypothesis right it's it's in the realm

259

00:08:47,670 --> 00:08:45,760

of an unknown certainty right and to be

260

00:08:49,030 --> 00:08:47,680

fair guys to i want to i want to say

261

00:08:50,070 --> 00:08:49,040

that to the audience that is listening

262

00:08:52,230 --> 00:08:50,080

because we do have people on there right

263

00:08:53,509 --> 00:08:52,240

now um and i and guys again i did write

264

00:08:54,710 --> 00:08:53,519

it but in case you're listening try to

265

00:08:55,829 --> 00:08:54,720

put your question in caps because i'm

266

00:08:57,670 --> 00:08:55,839

going between two screens and i'll try

267

00:08:59,750 --> 00:08:57,680

to catch it if i missed okay

268

00:09:00,949 --> 00:08:59,760

um but to have this conversation i and

269

00:09:03,590 --> 00:09:00,959

i've asked people to do this before i

270

00:09:04,550 --> 00:09:03,600

said listen a lot of us are into ufos

271

00:09:06,550 --> 00:09:04,560

some could feel there's a lot more

272

00:09:08,470 --> 00:09:06,560

evidence for that than

273

00:09:10,070 --> 00:09:08,480

the flat earth subject for those that

274

00:09:12,630 --> 00:09:10,080

are hearing it the first time but i want

275

00:09:14,230 --> 00:09:12,640

to say please let's just try and you th

276

00:09:15,430 --> 00:09:14,240

what we always say dave was what you and

277

00:09:16,790 --> 00:09:15,440

i have we've jumped in old blue it's

278

00:09:18,550 --> 00:09:16,800

this old advantage that we're traveling

279

00:09:20,070 --> 00:09:18,560

the cosmos we're going to try right

280

00:09:21,430 --> 00:09:20,080

maybe we can only go so far with it but

281

00:09:23,110 --> 00:09:21,440

we're going to try and see where the

282

00:09:24,710 --> 00:09:23,120

conversation goes

283

00:09:26,389 --> 00:09:24,720

and i'd like you guys that are listening

284

00:09:27,750 --> 00:09:26,399

to just hear him out see what he's

285

00:09:28,949 --> 00:09:27,760

saying see if it makes sense maybe it

286

00:09:30,389 --> 00:09:28,959

does maybe it doesn't but if nothing

287

00:09:31,670 --> 00:09:30,399

else it's gonna i think it's gonna leave

288

00:09:33,269 --> 00:09:31,680

you with a few questions this left me

289

00:09:34,630 --> 00:09:33,279

with questions and it's i'll be really

290

00:09:36,230 --> 00:09:34,640

honest with you dave

291

00:09:38,470 --> 00:09:36,240

when i first started looking at it five

292

00:09:41,750 --> 00:09:38,480

years ago six years ago i didn't want to

293

00:09:43,670 --> 00:09:41,760

because the back of my head i was like

294

00:09:45,829 --> 00:09:43,680

a really curious guy

295

00:09:47,269 --> 00:09:45,839

and if this starts to catch it all i

296

00:09:48,870 --> 00:09:47,279

don't want to believe in flat earth

297

00:09:50,870 --> 00:09:48,880

right i want to be the flattest guy and

298

00:09:52,550 --> 00:09:50,880

i don't i don't want to lose my stars i

299

00:09:54,470 --> 00:09:52,560

don't want to lose my astronomy you know

300

00:09:56,310 --> 00:09:54,480

i loved all that you know you don't want

301

00:09:59,030 --> 00:09:56,320

to lose your space travel and your

302

00:10:01,910 --> 00:09:59,040

aliens but i can save all that for you

303

00:10:04,710 --> 00:10:01,920

and i can make it even more real okay

304

00:10:06,470 --> 00:10:04,720

because when you're talking about aliens

305

00:10:09,190 --> 00:10:06,480

coming from distant stars do you know

306

00:10:12,710 --> 00:10:09,200

how far the closest star is

307

00:10:13,910 --> 00:10:12,720

probably not right um 30 yeah 33 yeah i

308

00:10:15,030 --> 00:10:13,920

don't know i'm talking about 33

309

00:10:17,030 --> 00:10:15,040

something light years or whatever it is

310

00:10:21,030 --> 00:10:17,040

30 no it's four and a half light years

311

00:10:23,670 --> 00:10:21,040

away which is which is 25 trillion miles

312

00:10:25,829 --> 00:10:23,680

if i'm yeah 25 trillion miles people go

313

00:10:29,590 --> 00:10:25,839

well how far is 25 trillion miles well

314

00:10:32,550 --> 00:10:29,600

if you were going a mile a second

315

00:10:35,190 --> 00:10:32,560

right after one trillion seconds

316

00:10:36,630 --> 00:10:35,200

you've gone one trillion miles right

317

00:10:38,949 --> 00:10:36,640

a mile a second

318

00:10:41,910 --> 00:10:38,959

times a trillion seconds how long is one

319

00:10:46,630 --> 00:10:42,790

thirty

320

00:10:48,630 --> 00:10:46,640

i'm very close 31 000 years

321

00:10:51,750 --> 00:10:48,640

okay so if you're traveling a mile a

322

00:10:55,509 --> 00:10:51,760

second which is unfathomable

323

00:10:57,269 --> 00:10:55,519

after 31 000 years you're only 125th of

324

00:10:58,829 --> 00:10:57,279

your way to the closest star the other

325

00:11:01,269 --> 00:10:58,839

ones are magnitudes

326

00:11:03,509 --> 00:11:01,279

farther and you believe that aliens are

327

00:11:05,670 --> 00:11:03,519

coming from these stars and crashing in

328

00:11:07,110 --> 00:11:05,680

roswell when in fact maybe they're

329

00:11:09,590 --> 00:11:07,120

crashing

330

00:11:11,110 --> 00:11:09,600

in the outer space here on earth this is

331

00:11:13,269 --> 00:11:11,120

not flat earth

332

00:11:15,430 --> 00:11:13,279

okay no flat earther believes this is

333

00:11:17,509 --> 00:11:15,440

flat earth what flat earth is

334

00:11:19,030 --> 00:11:17,519

is this is where we live it's like a

335

00:11:20,630 --> 00:11:19,040

giant pond

336

00:11:23,110 --> 00:11:20,640

and all of the continents are the

337

00:11:25,590 --> 00:11:23,120

islands they're all surrounded by water

338

00:11:28,470 --> 00:11:25,600

but the water needs a container it's

339

00:11:30,389 --> 00:11:28,480

surrounded by the highest land on earth

340

00:11:32,710 --> 00:11:30,399

right the highest land

341

00:11:34,550 --> 00:11:32,720

um in an area where there's water is the

342

00:11:37,269 --> 00:11:34,560

edge of that puddle the edge of that

343

00:11:38,790 --> 00:11:37,279

pond right a puddle has an edge and

344

00:11:41,509 --> 00:11:38,800

that's because the land is higher than

345

00:11:43,030 --> 00:11:41,519

the surface of the water antarctica is

346

00:11:46,630 --> 00:11:43,040

not a continent at the bottom of the

347

00:11:49,269 --> 00:11:46,640

ball antarctica is the shoreline of our

348

00:11:52,949 --> 00:11:49,279

world pond it is the container of our

349

00:11:55,030 --> 00:11:52,959

pond and out here what's out here well

350

00:11:57,110 --> 00:11:55,040

no one's allowed to go there

351
00:11:59,110 --> 00:11:57,120
no one is allowed to go there when they

352
00:12:00,710 --> 00:11:59,120
say that there's land bigger than the

353
00:12:03,350 --> 00:12:00,720
united states out there that admiral

354
00:12:05,030 --> 00:12:03,360
byrd discovered in the 1950s

355
00:12:06,470 --> 00:12:05,040
um bigger than the united states filled

356
00:12:09,829 --> 00:12:06,480
with resources that no human has ever

357
00:12:12,310 --> 00:12:09,839
stepped by that foot upon set eyes upon

358
00:12:15,750 --> 00:12:12,320
and nobody can explore there we're in

359
00:12:17,590 --> 00:12:15,760
wars for resources and all and all sorts

360
00:12:19,670 --> 00:12:17,600
of stuff and then they're like oh

361
00:12:21,990 --> 00:12:19,680
resources cold uranium everything we

362
00:12:23,829 --> 00:12:22,000
need out there uh no one could go there

363
00:12:26,629 --> 00:12:23,839

and they they made the antarctic treaty

364

00:12:27,990 --> 00:12:26,639

everybody signed on and it's the longest

365

00:12:29,910 --> 00:12:28,000

standing treaty

366

00:12:32,550 --> 00:12:29,920

ever it's still in effect today from

367

00:12:35,430 --> 00:12:32,560

1959 and you can't even question it

368

00:12:36,629 --> 00:12:35,440

until the year 2041 what's going on

369

00:12:37,590 --> 00:12:36,639

out here

370

00:12:39,829 --> 00:12:37,600

okay

371

00:12:41,350 --> 00:12:39,839

maybe the world is set up like this this

372

00:12:44,790 --> 00:12:41,360

is where we live

373

00:12:45,670 --> 00:12:44,800

this ring is antarctica

374

00:12:48,069 --> 00:12:45,680

with me

375

00:12:49,430 --> 00:12:48,079

it rains like a thousand miles wide so

376

00:12:52,230 --> 00:12:49,440

don't don't think it's just a little

377

00:12:53,990 --> 00:12:52,240

wall it's land it's a thousand miles

378

00:12:56,790 --> 00:12:54,000

wide look at the united states

379

00:12:59,269 --> 00:12:56,800

antarctica is huge and what's beyond

380

00:13:02,069 --> 00:12:59,279

antarctica in the outer space oh more

381

00:13:04,150 --> 00:13:02,079

territory extra terror

382

00:13:06,550 --> 00:13:04,160

so you've heard me say this probably if

383

00:13:08,310 --> 00:13:06,560

you've been listening

384

00:13:10,230 --> 00:13:08,320

somebody listen if somebody lived out

385

00:13:11,430 --> 00:13:10,240

there on the extra terror what would you

386

00:13:13,509 --> 00:13:11,440

call them

387

00:13:15,350 --> 00:13:13,519

they'd be extraterrestrials and if they

388

00:13:16,150 --> 00:13:15,360

came to visit us where are they coming

389

00:13:19,350 --> 00:13:16,160

from

390

00:13:21,110 --> 00:13:19,360

the extra territory outer space or yeah

391

00:13:23,829 --> 00:13:21,120

it'd be outrageous outer space the inner

392

00:13:25,750 --> 00:13:23,839

space right why are all of the largest

393

00:13:27,750 --> 00:13:25,760

telescopes in the world in all of the

394

00:13:30,230 --> 00:13:27,760

southern lands that they're in south

395

00:13:32,470 --> 00:13:30,240

africa and santiago and and uh new

396

00:13:35,509 --> 00:13:32,480

zealand and uh they're all and they're

397

00:13:39,269 --> 00:13:35,519

not looking up they're looking out

398

00:13:44,870 --> 00:13:41,110

you know i think too

399

00:13:47,990 --> 00:13:46,150

with that because that's a fair question

400

00:13:49,350 --> 00:13:48,000

for anybody who studied ufology a little

401
00:13:50,389 --> 00:13:49,360
bit and cared about it that's always one

402
00:13:51,590 --> 00:13:50,399
of the questions that you get asked by

403
00:13:52,949 --> 00:13:51,600
anybody who's first getting like come on

404
00:13:54,629 --> 00:13:52,959
dave the aliens could travel around how

405
00:13:56,230 --> 00:13:54,639
are they crash right come on they

406
00:13:58,550 --> 00:13:56,240
traveled all this way light years and

407
00:14:00,629 --> 00:13:58,560
they crashed a couple thousand miles in

408
00:14:02,389 --> 00:14:00,639
a conventional you know probably not a

409
00:14:04,710 --> 00:14:02,399
conventional airplane they probably are

410
00:14:07,910 --> 00:14:04,720
using the real true free energy of this

411
00:14:10,069 --> 00:14:07,920
world electro you know static uh electro

412
00:14:11,509 --> 00:14:10,079
magnetic uh propulsion

413
00:14:13,670 --> 00:14:11,519

so you know people like what about the

414

00:14:15,829 --> 00:14:13,680

secret space program i believe it the

415

00:14:17,990 --> 00:14:15,839

secret propulsion program to go to the

416

00:14:20,389 --> 00:14:18,000

outer space across the earth plane

417

00:14:23,350 --> 00:14:20,399

nobody's going up and away

418

00:14:25,590 --> 00:14:23,360

not even superman they're going out

419

00:14:27,910 --> 00:14:25,600

out south

420

00:14:28,870 --> 00:14:27,920

i i agree and hit on this a little bit i

421

00:14:30,069 --> 00:14:28,880

mean i

422

00:14:31,189 --> 00:14:30,079

um we're gonna dig into this a little

423

00:14:32,389 --> 00:14:31,199

more with what you're saying i do have

424

00:14:34,230 --> 00:14:32,399

two questions i'm gonna try and hit you

425

00:14:35,670 --> 00:14:34,240

with since i told the the people here

426

00:14:37,990 --> 00:14:35,680

watching i would try to get their

427

00:14:39,910 --> 00:14:38,000

questions in for you um one person said

428

00:14:41,990 --> 00:14:39,920

if a person uses the international space

429

00:14:44,470 --> 00:14:42,000

state international space center

430

00:14:46,230 --> 00:14:44,480

tracking app you can watch it pass over

431

00:14:48,629 --> 00:14:46,240

and as it circles the globe it comes

432

00:14:50,790 --> 00:14:48,639

back around again we can observe this is

433

00:14:52,949 --> 00:14:50,800

a unison and collective verif

434

00:14:55,350 --> 00:14:52,959

and collectively verify if it doesn't

435

00:14:56,870 --> 00:14:55,360

change course yeah so that's kind of

436

00:14:58,069 --> 00:14:56,880

their question and i know that you've

437

00:14:59,030 --> 00:14:58,079

hit on this and that is an interesting

438

00:15:01,430 --> 00:14:59,040

one to bring up because that's one of

439

00:15:03,509 --> 00:15:01,440

the ones that people point to

440

00:15:05,829 --> 00:15:03,519

um while we talk about it i'll let this

441

00:15:07,670 --> 00:15:05,839

animation of them building the space

442

00:15:10,069 --> 00:15:07,680

station go in effect because there are

443

00:15:13,269 --> 00:15:10,079

no photos there are no videos of the

444

00:15:14,230 --> 00:15:13,279

most technological advanced thing ever

445

00:15:16,629 --> 00:15:14,240

with a

446

00:15:17,910 --> 00:15:16,639

structurally impossible

447

00:15:19,829 --> 00:15:17,920

um

448

00:15:21,269 --> 00:15:19,839

tin can in outer space it's absolutely

449

00:15:22,949 --> 00:15:21,279

ridiculous but

450

00:15:25,189 --> 00:15:22,959

so let's talk about the international

451
00:15:26,790 --> 00:15:25,199
space station is about the same size as

452
00:15:28,790 --> 00:15:26,800
the 747

453
00:15:31,590 --> 00:15:28,800
right this is this you can look it up

454
00:15:33,189 --> 00:15:31,600
and a 747 is huge when you're standing

455
00:15:35,030 --> 00:15:33,199
underneath one on the ground it's

456
00:15:36,470 --> 00:15:35,040
massive it's almost big as a football

457
00:15:37,910 --> 00:15:36,480
field okay

458
00:15:41,910 --> 00:15:37,920
and then

459
00:15:44,069 --> 00:15:41,920
fly it up to cruising altitude how big

460
00:15:46,790 --> 00:15:44,079
is it when you see a 747 flying a

461
00:15:48,629 --> 00:15:46,800
cruising altitude it's tiny it's the

462
00:15:52,069 --> 00:15:48,639
size of a pencil eraser held at arm's

463
00:15:54,470 --> 00:15:52,079

length it's gray you can barely see it

464

00:15:56,790 --> 00:15:54,480

and if you doubled the distance its

465

00:15:58,310 --> 00:15:56,800

angular size would be so small there

466

00:16:00,470 --> 00:15:58,320

would be so much atmosphere in between

467

00:16:03,829 --> 00:16:00,480

you and it you could not see it with

468

00:16:06,470 --> 00:16:03,839

your eye at double cruising altitude

469

00:16:08,470 --> 00:16:06,480

the international space station is 50

470

00:16:10,389 --> 00:16:08,480

times higher

471

00:16:12,629 --> 00:16:10,399

50.

472

00:16:15,350 --> 00:16:12,639

so you cannot see it now there is a

473

00:16:17,829 --> 00:16:15,360

light i've seen it it comes by regularly

474

00:16:19,509 --> 00:16:17,839

scheduled okay but

475

00:16:20,949 --> 00:16:19,519

if you really look into it i was

476

00:16:23,189 --> 00:16:20,959

thinking for a long time that maybe it

477

00:16:25,670 --> 00:16:23,199

was a natural luminary and they weren't

478

00:16:29,749 --> 00:16:25,680

telling us what it is but i now know

479

00:16:32,470 --> 00:16:29,759

that it is a uh nasa run psyop there's

480

00:16:33,110 --> 00:16:32,480

five i believe they're um

481

00:16:43,269 --> 00:16:33,120

b

482

00:16:45,670 --> 00:16:43,279

led lights and they fly them in sequence

483

00:16:47,910 --> 00:16:45,680

in in sequence in sequential order or

484

00:16:50,230 --> 00:16:47,920

whatever they um

485

00:16:51,749 --> 00:16:50,240

where they're moving where whether it's

486

00:16:54,069 --> 00:16:51,759

it's smaller i'm sorry i'm losing my

487

00:16:55,670 --> 00:16:54,079

words again it's it's smaller it's

488

00:16:57,670 --> 00:16:55,680

closer and it's moving much slower than

489

00:17:01,030 --> 00:16:57,680

you than you see there's times when we

490

00:17:03,269 --> 00:17:01,040

see it from horizon to horizon in eight

491

00:17:04,949 --> 00:17:03,279

minutes well i'm here in connecticut

492

00:17:06,789 --> 00:17:04,959

eight minutes at the speed that it's

493

00:17:08,309 --> 00:17:06,799

going it should be over california but i

494

00:17:10,150 --> 00:17:08,319

can still see it and people in

495

00:17:11,909 --> 00:17:10,160

california can't see it there's also

496

00:17:12,870 --> 00:17:11,919

times where it says okay people here are

497

00:17:15,110 --> 00:17:12,880

going to be able to see it and then all

498

00:17:17,350 --> 00:17:15,120

of a sudden it turns off and nobody in

499

00:17:19,189 --> 00:17:17,360

the next state over can see it why is

500

00:17:21,429 --> 00:17:19,199

that maybe they're going to refuel or

501
00:17:24,549 --> 00:17:21,439
something okay the international space

502
00:17:26,470 --> 00:17:24,559
station is a hoax to make you believe

503
00:17:28,069 --> 00:17:26,480
that there is a tin can

504
00:17:31,430 --> 00:17:28,079
falling around the earth that's

505
00:17:33,350 --> 00:17:31,440
reflecting light brighter than any star

506
00:17:35,990 --> 00:17:33,360
bright as bright as the sun when you

507
00:17:36,950 --> 00:17:36,000
look at that when it comes by it is so

508
00:17:38,870 --> 00:17:36,960
bright

509
00:17:41,350 --> 00:17:38,880
you have to what's the albedo on that

510
00:17:43,669 --> 00:17:41,360
thing whenever show you know guys doing

511
00:17:44,870 --> 00:17:43,679
um space walks outside it's not that

512
00:17:46,789 --> 00:17:44,880
bright

513
00:17:48,789 --> 00:17:46,799

but when you see it go by

514

00:17:50,950 --> 00:17:48,799

just like a planet it's brighter than

515

00:17:52,710 --> 00:17:50,960

any star in the sky look at jupiter's up

516

00:17:53,669 --> 00:17:52,720

in the sky now

517

00:17:55,029 --> 00:17:53,679

um

518

00:17:57,750 --> 00:17:55,039

you know this time

519

00:18:01,110 --> 00:17:57,760

it's been up with uh near the moon and

520

00:18:03,510 --> 00:18:01,120

it's brighter than any star well jupiter

521

00:18:06,150 --> 00:18:03,520

is this gassy planet they tell us right

522

00:18:09,590 --> 00:18:06,160

a gassy not very reflective planet this

523

00:18:11,190 --> 00:18:09,600

is from nasa okay

524

00:18:13,990 --> 00:18:11,200

if you were on jupiter looking at the

525

00:18:17,110 --> 00:18:14,000

sun the sun is going to be tiny because

526

00:18:19,669 --> 00:18:17,120

it's so far away and that tiny sun

527

00:18:22,310 --> 00:18:19,679

is lighting up jupiter

528

00:18:23,830 --> 00:18:22,320

and then it's reflecting that light all

529

00:18:26,470 --> 00:18:23,840

the way back to earth where it's

530

00:18:31,590 --> 00:18:26,480

brighter than any star

531

00:18:37,350 --> 00:18:35,029

[h__\h] it's [h__\h] [h__\h] okay

532

00:18:39,029 --> 00:18:37,360

it's [h__\h]

533

00:18:40,310 --> 00:18:39,039

yeah no i i

534

00:18:41,990 --> 00:18:40,320

well let's back up let's do this a

535

00:18:43,270 --> 00:18:42,000

little bit because probably you know

536

00:18:45,430 --> 00:18:43,280

you've heard some people you've heard

537

00:18:47,110 --> 00:18:45,440

some listen it just took away some

538

00:18:49,350 --> 00:18:47,120

planets okay you're saying space is

539

00:18:51,750 --> 00:18:49,360

facing all of them there are no planets

540

00:18:53,510 --> 00:18:51,760

exactly there are no planets it's a big

541

00:18:55,190 --> 00:18:53,520

statement now why do you think that is

542

00:18:57,430 --> 00:18:55,200

if someone says well i can look through

543

00:19:00,310 --> 00:18:57,440

my telescope right now and i can see the

544

00:19:01,190 --> 00:19:00,320

planets so mr mr david here i've looked

545

00:19:02,710 --> 00:19:01,200

at that

546

00:19:04,630 --> 00:19:02,720

how do you how are you telling me i'm

547

00:19:06,710 --> 00:19:04,640

what i'm seeing is wrong so so this so

548

00:19:08,390 --> 00:19:06,720

see that i i this picture what which

549

00:19:09,669 --> 00:19:08,400

planet is this

550

00:19:11,270 --> 00:19:09,679

well we know which one it's supposed to

551
00:19:12,950 --> 00:19:11,280
be that's supposed to be uh that's

552
00:19:14,630 --> 00:19:12,960
jupiter right it's supposed to be

553
00:19:16,950 --> 00:19:14,640
jupiter but really it's a meadow with

554
00:19:18,870 --> 00:19:16,960
ducks in it okay people imagine what

555
00:19:21,990 --> 00:19:18,880
they want to see this is what nasa

556
00:19:24,070 --> 00:19:22,000
showed us in 2014 they showed us this

557
00:19:25,990 --> 00:19:24,080
picture everyone recognizes it you got

558
00:19:28,710 --> 00:19:26,000
your your storm and everything and these

559
00:19:30,310 --> 00:19:28,720
are all the clouds as i showed you those

560
00:19:32,630 --> 00:19:30,320
these things are spinning in different

561
00:19:34,310 --> 00:19:32,640
directions from the the time lapse that

562
00:19:35,909 --> 00:19:34,320
they just gave us over a couple days

563
00:19:38,310 --> 00:19:35,919

well two years later over two years

564

00:19:39,830 --> 00:19:38,320

later they go oh we got a picture

565

00:19:41,510 --> 00:19:39,840

proving that there's a magnetic core

566

00:19:43,510 --> 00:19:41,520

because we've got the northern lights

567

00:19:45,590 --> 00:19:43,520

look at this right you don't need

568

00:19:47,669 --> 00:19:45,600

photoshop for this you need ms paint you

569

00:19:49,590 --> 00:19:47,679

can probably do this in word okay you

570

00:19:52,870 --> 00:19:49,600

don't even need ms paint all right and

571

00:19:54,390 --> 00:19:52,880

look at it every cloud is the same this

572

00:19:56,549 --> 00:19:54,400

one's just lighter look at the little

573

00:19:59,190 --> 00:19:56,559

cloud right here it's the same they

574

00:20:00,070 --> 00:19:59,200

didn't even make a new model

575

00:20:00,789 --> 00:20:00,080

okay

576

00:20:03,990 --> 00:20:00,799

yeah

577

00:20:07,350 --> 00:20:04,000

why would nasa why would nasa fake

578

00:20:09,430 --> 00:20:07,360

images of jupiter if it was real

579

00:20:11,029 --> 00:20:09,440

well i don't know and to be fair and i'd

580

00:20:13,270 --> 00:20:11,039

have to look this up i could be wrong i

581

00:20:14,789 --> 00:20:13,280

believe with that image and i could be

582

00:20:16,950 --> 00:20:14,799

wrong i think that they admitted that

583

00:20:18,950 --> 00:20:16,960

they did that it was the same age and

584

00:20:20,789 --> 00:20:18,960

they were trying to give

585

00:20:22,230 --> 00:20:20,799

the show what the storm was or whatever

586

00:20:24,230 --> 00:20:22,240

and i could be off on this i could be

587

00:20:26,390 --> 00:20:24,240

wrong guys so forgive me if i am but i

588

00:20:28,950 --> 00:20:26,400

haven't heard that but we often catch

589

00:20:31,350 --> 00:20:28,960

nasa so bad that they backpedal right

590

00:20:33,510 --> 00:20:31,360

away they literally backpedal and they

591

00:20:36,789 --> 00:20:33,520

they change their story like when we

592

00:20:40,149 --> 00:20:36,799

caught them with the bezos and uh and um

593

00:20:41,590 --> 00:20:40,159

brandon branson going into space we said

594

00:20:43,270 --> 00:20:41,600

that they're they're not going to space

595

00:20:44,950 --> 00:20:43,280

they're just going on a zero g plane and

596

00:20:46,230 --> 00:20:44,960

then neil degrasse tyson comes over and

597

00:20:48,230 --> 00:20:46,240

goes yeah they didn't really go into

598

00:20:50,149 --> 00:20:48,240

space they just got a little zero g like

599

00:20:52,549 --> 00:20:50,159

a zero g plane because they have to own

600

00:20:54,710 --> 00:20:52,559

it because when we expose it um they

601
00:20:57,270 --> 00:20:54,720
have to own it this is what a planet

602
00:20:58,310 --> 00:20:57,280
really looks like this is mars

603
00:20:59,990 --> 00:20:58,320
right

604
00:21:02,310 --> 00:21:00,000
and here's another thing

605
00:21:03,990 --> 00:21:02,320
ask me the people well the moon is round

606
00:21:05,270 --> 00:21:04,000
moon the moon is round why you know why

607
00:21:07,270 --> 00:21:05,280
wouldn't the earth be round and i say

608
00:21:09,590 --> 00:21:07,280
well the lights on my ceiling are a

609
00:21:10,390 --> 00:21:09,600
shape but it's not the shape of my floor

610
00:21:11,669 --> 00:21:10,400
okay

611
00:21:13,990 --> 00:21:11,679
um and

612
00:21:16,950 --> 00:21:14,000
is the moon round are these all round

613
00:21:18,789 --> 00:21:16,960

right this one well how about this one

614

00:21:20,630 --> 00:21:18,799

is this one round have you seen this

615

00:21:23,190 --> 00:21:20,640

looks pretty round yeah is this one

616

00:21:25,430 --> 00:21:23,200

round well it looks round

617

00:21:27,029 --> 00:21:25,440

does it mean that it's round um maybe

618

00:21:33,430 --> 00:21:27,039

it's flat

619

00:21:34,470 --> 00:21:33,440

no it's not round so

620

00:21:35,590 --> 00:21:34,480

you

621

00:21:38,070 --> 00:21:35,600

can't

622

00:21:39,669 --> 00:21:38,080

it doesn't matter also don't look at the

623

00:21:40,549 --> 00:21:39,679

ceiling when trying to describe the

624

00:21:42,149 --> 00:21:40,559

floor

625

00:21:44,149 --> 00:21:42,159

okay

626
00:21:47,590 --> 00:21:44,159
right and then here international space

627
00:21:51,590 --> 00:21:49,510
yeah well you can say well there's the

628
00:21:53,350 --> 00:21:51,600
ocean right yeah i'm over the ocean but

629
00:21:54,950 --> 00:21:53,360
look they always show you a selfie with

630
00:21:57,029 --> 00:21:54,960
oh they got the solar panel here well

631
00:21:58,549 --> 00:21:57,039
guess what this was filmed in our front

632
00:22:00,149 --> 00:21:58,559
yard

633
00:22:02,310 --> 00:22:00,159
really

634
00:22:04,549 --> 00:22:02,320
just turned it upside down

635
00:22:06,950 --> 00:22:04,559
very nice okay so i'm just showing you

636
00:22:08,710 --> 00:22:06,960
with zero budget how easy easily it is

637
00:22:11,510 --> 00:22:08,720
to fake right

638
00:22:15,029 --> 00:22:11,520

if you look at nasa at any of their

639

00:22:16,149 --> 00:22:15,039

stuff it all doesn't hold up

640

00:22:17,110 --> 00:22:16,159

okay

641

00:22:22,390 --> 00:22:17,120

this

642

00:22:24,710 --> 00:22:22,400

the space shuttle

643

00:22:27,270 --> 00:22:24,720

falling back to earth here it is this is

644

00:22:28,390 --> 00:22:27,280

falling back to earth who's filming this

645

00:22:29,190 --> 00:22:28,400

do you want me to tell you who's filming

646

00:22:30,549 --> 00:22:29,200

this

647

00:22:31,830 --> 00:22:30,559

the guys that are actually in the

648

00:22:34,230 --> 00:22:31,840

shuttle

649

00:22:36,390 --> 00:22:34,240

rocketing into space at 20 000 miles an

650

00:22:38,950 --> 00:22:36,400

hour they're going up this thing is

651
00:22:40,390 --> 00:22:38,960
falling down and it's gonna burn up

652
00:22:42,789 --> 00:22:40,400
watch right here a piece of paper is

653
00:22:43,669 --> 00:22:42,799
going to blow by okay in about five

654
00:22:45,909 --> 00:22:43,679
seconds

655
00:22:48,789 --> 00:22:45,919
this is going to bur up see it

656
00:22:50,630 --> 00:22:48,799
did you see that yeah

657
00:22:53,510 --> 00:22:50,640
and how are they filming this this thing

658
00:22:55,590 --> 00:22:53,520
is falling at a thousand plus miles an

659
00:22:58,070 --> 00:22:55,600
hour and it's going to burn up before it

660
00:23:00,070 --> 00:22:58,080
gets to those clouds or

661
00:23:03,430 --> 00:23:00,080
is somebody full of crap and this is a

662
00:23:07,669 --> 00:23:05,830
who owns all of the helium companies in

663
00:23:10,149 --> 00:23:07,679

the world and is the largest consumer of

664

00:23:12,470 --> 00:23:10,159

helium now that one i do know because

665

00:23:14,630 --> 00:23:12,480

you do not get up i let nasa does own

666

00:23:16,789 --> 00:23:14,640

the crap out of that one yeah deserve

667

00:23:19,350 --> 00:23:16,799

the rights to right a lot of people how

668

00:23:21,750 --> 00:23:19,360

are they filming this in a ship that's

669

00:23:22,390 --> 00:23:21,760

going into orbit as this is falling to

670

00:23:25,750 --> 00:23:22,400

earth

671

00:23:27,990 --> 00:23:25,760

this is impossible

672

00:23:31,110 --> 00:23:28,000

that's all you need catch nasa lying

673

00:23:33,110 --> 00:23:31,120

once right catch nasa lying once then

674

00:23:34,310 --> 00:23:33,120

you catch them all the time why are they

675

00:23:36,630 --> 00:23:34,320

faking

676

00:23:39,110 --> 00:23:36,640

this in space chris hatfield is upside

677

00:23:40,789 --> 00:23:39,120

down singing this other guy is in

678

00:23:43,029 --> 00:23:40,799

another room they're in green screen's

679

00:23:44,710 --> 00:23:43,039

room and he takes his microphone and he

680

00:23:46,149 --> 00:23:44,720

mislaces where chris is and sticks it

681

00:23:50,070 --> 00:23:46,159

right into his neck

682

00:23:53,029 --> 00:23:51,430

didn't listen

683

00:23:54,310 --> 00:23:53,039

so to be clear so in case someone's not

684

00:23:56,149 --> 00:23:54,320

seeing him that microphone's floating

685

00:23:58,310 --> 00:23:56,159

through his head essentially it's going

686

00:23:59,590 --> 00:23:58,320

in there's so many times where they

687

00:24:02,230 --> 00:23:59,600

screw up

688

00:24:03,750 --> 00:24:02,240

and uh and they they you can see through

689

00:24:05,590 --> 00:24:03,760

them like this guy watch this thing

690

00:24:07,029 --> 00:24:05,600

right here you can see why am i still

691

00:24:10,470 --> 00:24:07,039

seeing that on the wall when his head's

692

00:24:11,350 --> 00:24:10,480

in the way they're fading him in

693

00:24:13,190 --> 00:24:11,360

right

694

00:24:15,990 --> 00:24:13,200

these are done on zero g planes they're

695

00:24:19,190 --> 00:24:16,000

done in studios with wires they're done

696

00:24:22,230 --> 00:24:19,200

all different ways but all you have to

697

00:24:23,750 --> 00:24:22,240

do is catch nasa once

698

00:24:25,669 --> 00:24:23,760

just once

699

00:24:26,789 --> 00:24:25,679

i mean

700

00:24:28,390 --> 00:24:26,799

there

701
00:24:29,990 --> 00:24:28,400
why do they always wear these heavy

702
00:24:31,190 --> 00:24:30,000
harnesses and

703
00:24:32,710 --> 00:24:31,200
what i mean

704
00:24:35,110 --> 00:24:32,720
i'm saying harnesses all right what's up

705
00:24:37,510 --> 00:24:35,120
with the belts no i know i've seen that

706
00:24:40,710 --> 00:24:37,520
it's always cracked me up a little bit

707
00:24:41,430 --> 00:24:40,720
it's absolute ridiculousness

708
00:24:43,029 --> 00:24:41,440
and i

709
00:24:44,549 --> 00:24:43,039
i'm in construction it looks like

710
00:24:45,909 --> 00:24:44,559
something i might be wearing right you

711
00:24:47,430 --> 00:24:45,919
need to be tightened down you need

712
00:24:49,830 --> 00:24:47,440
pockets you got i get that they have

713
00:24:51,669 --> 00:24:49,840

tools and if you're in zero g why do you

714

00:24:53,430 --> 00:24:51,679

even need a belt

715

00:24:54,870 --> 00:24:53,440

you would say right well maybe it floats

716

00:24:57,430 --> 00:24:54,880

off let's give him let's throw him a

717

00:25:01,430 --> 00:24:57,440

bone here david maybe the maybe the the

718

00:25:05,510 --> 00:25:03,750

i listen i i've seen these and to be

719

00:25:07,110 --> 00:25:05,520

fair guys i mean i think anybody can go

720

00:25:09,110 --> 00:25:07,120

on and it's a little bit difficult but

721

00:25:10,630 --> 00:25:09,120

you can find why don't we mention that

722

00:25:11,510 --> 00:25:10,640

right now what the heck of it people

723

00:25:12,870 --> 00:25:11,520

always say because i've heard this

724

00:25:14,390 --> 00:25:12,880

mention about you said oh my god that

725

00:25:16,789 --> 00:25:14,400

guy david all he's doing is trying to

726

00:25:18,870 --> 00:25:16,799

make money off his app and it's true

727

00:25:19,990 --> 00:25:18,880

you're selling it for ridiculous

728

00:25:21,590 --> 00:25:20,000

you know

729

00:25:22,870 --> 00:25:21,600

what hundreds and hundreds of pennies at

730

00:25:25,990 --> 00:25:22,880

this point i think you're up to yeah

731

00:25:28,390 --> 00:25:26,000

it's 300 pennies 300. 300 pennies and

732

00:25:30,310 --> 00:25:28,400

you have it forever and you know what i

733

00:25:32,070 --> 00:25:30,320

tell people is don't buy the app don't

734

00:25:33,669 --> 00:25:32,080

buy the app go to the app store and just

735

00:25:35,029 --> 00:25:33,679

read the reviews and that'll turn you

736

00:25:37,669 --> 00:25:35,039

into a flat earther you don't even need

737

00:25:39,190 --> 00:25:37,679

the app okay just read the reviews for

738

00:25:41,510 --> 00:25:39,200

all of the people it's the highest rated

739

00:25:44,549 --> 00:25:41,520

app and here's the thing am i doing this

740

00:25:45,990 --> 00:25:44,559

for money did i leave my own company i i

741

00:25:47,750 --> 00:25:46,000

went to college worked in corporate

742

00:25:51,190 --> 00:25:47,760

america left corporate america started

743

00:25:53,350 --> 00:25:51,200

my own company super successful and i

744

00:25:55,590 --> 00:25:53,360

walked away from it all to be ridiculed

745

00:25:57,510 --> 00:25:55,600

by clowns that don't even know what

746

00:25:59,830 --> 00:25:57,520

they're talking about that defend a

747

00:26:01,110 --> 00:25:59,840

model that they don't know we have one

748

00:26:03,269 --> 00:26:01,120

of our guys who's been touring the

749

00:26:05,029 --> 00:26:03,279

country in a tour bus for almost a year

750

00:26:07,110 --> 00:26:05,039

now and he goes out in a public square

751
00:26:08,789 --> 00:26:07,120
his microphone and he talks to crowds

752
00:26:10,630 --> 00:26:08,799
and when people start to say oh flat

753
00:26:12,230 --> 00:26:10,640
earth is stupid he whips out a hundred

754
00:26:14,310 --> 00:26:12,240
bucks and says i got a hundred bucks if

755
00:26:16,470 --> 00:26:14,320
you can answer three questions not about

756
00:26:18,630 --> 00:26:16,480
flat earth about your globe and the

757
00:26:20,549 --> 00:26:18,640
first one is how many times does the

758
00:26:22,470 --> 00:26:20,559
earth spin in one day

759
00:26:25,110 --> 00:26:22,480
pretty easy right

760
00:26:26,950 --> 00:26:25,120
supposedly once right yeah it is once

761
00:26:28,710 --> 00:26:26,960
you're right it's not a trick question

762
00:26:30,470 --> 00:26:28,720
the other question is and you might even

763
00:26:33,269 --> 00:26:30,480

get these how um what's the

764

00:26:34,549 --> 00:26:33,279

circumference of your spinning ball

765

00:26:35,990 --> 00:26:34,559

oh i

766

00:26:37,190 --> 00:26:36,000

i always agree i don't know that one

767

00:26:39,590 --> 00:26:37,200

time

768

00:26:43,510 --> 00:26:39,600

nine hundred one miles okay

769

00:26:46,149 --> 00:26:43,520

how fast is it spinning at the equator

770

00:26:48,070 --> 00:26:46,159

uh i think yeah see it i get conflict

771

00:26:49,430 --> 00:26:48,080

reports and i've heard eleven hundred

772

00:26:51,669 --> 00:26:49,440

miles per hour is what i'd heard and

773

00:26:55,029 --> 00:26:51,679

then i've also heard six hundred so i

774

00:26:58,470 --> 00:26:55,039

don't know if it's 24 901 miles around

775

00:27:01,110 --> 00:26:58,480

it's going around once every 24 hours

776

00:27:02,789 --> 00:27:01,120

divide that out it's 1034 miles per hour

777

00:27:05,190 --> 00:27:02,799

just over a thousand miles per hour

778

00:27:07,510 --> 00:27:05,200

but here's the thing people that defend

779

00:27:08,870 --> 00:27:07,520

the globe don't even know the role model

780

00:27:10,630 --> 00:27:08,880

okay

781

00:27:13,269 --> 00:27:10,640

how do you defend a model that you don't

782

00:27:15,830 --> 00:27:13,279

know and he and i am offering three

783

00:27:18,149 --> 00:27:15,840

bitcoins for one proof and here's the

784

00:27:19,269 --> 00:27:18,159

thing i've had i've had shows with guys

785

00:27:22,470 --> 00:27:19,279

you're

786

00:27:23,909 --> 00:27:22,480

it's just between you and me you know

787

00:27:24,630 --> 00:27:23,919

it's okay all right

788

00:27:27,830 --> 00:27:24,640

so

789

00:27:29,110 --> 00:27:27,840

you made a lot of great points but i

790

00:27:31,029 --> 00:27:29,120

still think the earth is a globe and i

791

00:27:32,950 --> 00:27:31,039

say can you give me one reason it's

792

00:27:34,789 --> 00:27:32,960

worth three bitcoins and they're like

793

00:27:36,549 --> 00:27:34,799

well

794

00:27:38,070 --> 00:27:36,559

i'm sure there's one you know i was told

795

00:27:39,909 --> 00:27:38,080

that you know so many people could lie

796

00:27:42,230 --> 00:27:39,919

but it's not that everyone's lying your

797

00:27:43,590 --> 00:27:42,240

teachers are the ones that regurgitate

798

00:27:46,149 --> 00:27:43,600

and memorize and regurgitate the

799

00:27:48,470 --> 00:27:46,159

information the best okay oh you

800

00:27:50,710 --> 00:27:48,480

memorize this book okay you can now

801
00:27:53,269 --> 00:27:50,720
teach it to the next generation

802
00:27:55,909 --> 00:27:53,279
show me curvature show me high pressure

803
00:27:57,350 --> 00:27:55,919
next to no pressure okay

804
00:27:58,789 --> 00:27:57,360
speaking of that i was saying because

805
00:28:00,549 --> 00:27:58,799
these are great points

806
00:28:02,230 --> 00:28:00,559
before it gets too far because champs he

807
00:28:03,190 --> 00:28:02,240
asked a question a while back and i

808
00:28:04,950 --> 00:28:03,200
think it's relevant to what you're

809
00:28:06,149 --> 00:28:04,960
bringing up right now uh this is from

810
00:28:07,430 --> 00:28:06,159
champ campbell thank you for the

811
00:28:09,750 --> 00:28:07,440
question by the way

812
00:28:12,310 --> 00:28:09,760
he said if the earth was flat wouldn't

813
00:28:14,549 --> 00:28:12,320

all the o2 molecules be drawn to the

814

00:28:16,070 --> 00:28:14,559

center so

815

00:28:18,070 --> 00:28:16,080

i mean what do you have any thoughts on

816

00:28:21,350 --> 00:28:18,080

this i mean

817

00:28:24,389 --> 00:28:21,360

so the answer the answer to that is um

818

00:28:26,789 --> 00:28:24,399

you are being gate capped by uh what's

819

00:28:28,789 --> 00:28:26,799

his name vsauce who says if the earth is

820

00:28:30,549 --> 00:28:28,799

flat as you walk towards the edge you're

821

00:28:31,830 --> 00:28:30,559

gonna have to start leaning forward

822

00:28:33,350 --> 00:28:31,840

because it's going to pull you to the

823

00:28:35,669 --> 00:28:33,360

middle well that's because you're

824

00:28:38,149 --> 00:28:35,679

believing in gravitational force at the

825

00:28:39,830 --> 00:28:38,159

center the earth is not a ball cut in

826

00:28:42,310 --> 00:28:39,840

half for the gravitational point in the

827

00:28:44,870 --> 00:28:42,320

center the earth is down

828

00:28:47,029 --> 00:28:44,880

down for you is down for me up for you

829

00:28:48,310 --> 00:28:47,039

is up for me no matter where you are on

830

00:28:49,830 --> 00:28:48,320

this world

831

00:28:51,669 --> 00:28:49,840

left and right forward and backwards are

832

00:28:54,630 --> 00:28:51,679

subject to whatever direction you're

833

00:28:57,269 --> 00:28:54,640

facing but up is always up down is

834

00:28:59,430 --> 00:28:57,279

always down the earth does not move the

835

00:29:01,350 --> 00:28:59,440

earth is the basement of the universe

836

00:29:02,870 --> 00:29:01,360

okay that's the best way i can describe

837

00:29:05,669 --> 00:29:02,880

it the earth is the basement of the

838

00:29:07,830 --> 00:29:05,679

universe it has a negative charge to it

839

00:29:09,909 --> 00:29:07,840

the sky has a positive charge and there

840

00:29:12,149 --> 00:29:09,919

is energy flowing

841

00:29:14,710 --> 00:29:12,159

downwards like a river it's going down

842

00:29:17,350 --> 00:29:14,720

into the earth that sets the direction

843

00:29:19,029 --> 00:29:17,360

of down then buoyancy and density sword

844

00:29:19,990 --> 00:29:19,039

everything else out if i had a helium

845

00:29:22,230 --> 00:29:20,000

balloon

846

00:29:24,549 --> 00:29:22,240

some rocks some ping pong balls in my

847

00:29:26,549 --> 00:29:24,559

hand and i held him over a pool and

848

00:29:27,430 --> 00:29:26,559

opened my hand the balloon's going to go

849

00:29:29,510 --> 00:29:27,440

up

850

00:29:31,510 --> 00:29:29,520

because it's lighter than the air around

851

00:29:33,669 --> 00:29:31,520

it the rocks and the ping pong balls are

852

00:29:35,190 --> 00:29:33,679

going to go down because they're heavier

853

00:29:36,470 --> 00:29:35,200

than the air around it the rocks are

854

00:29:37,750 --> 00:29:36,480

going to go to the bottom of the pool

855

00:29:40,470 --> 00:29:37,760

and the pigment balls are going to stay

856

00:29:43,830 --> 00:29:40,480

on the top relative buoyancy and density

857

00:29:45,029 --> 00:29:43,840

okay and we can do experiments

858

00:29:46,870 --> 00:29:45,039

that show

859

00:29:49,669 --> 00:29:46,880

uh that there is an electric charge to

860

00:29:52,630 --> 00:29:49,679

the earth we can change the electric uh

861

00:29:54,789 --> 00:29:52,640

charge on something and make it heavier

862

00:29:56,710 --> 00:29:54,799

and we can make it we can change the we

863

00:29:59,029 --> 00:29:56,720

could add a negative charge to something

864

00:30:00,710 --> 00:29:59,039

and make it lighter so it floats up

865

00:30:02,149 --> 00:30:00,720

yeah

866

00:30:04,149 --> 00:30:02,159

you know and to be fair man i should

867

00:30:06,789 --> 00:30:04,159

have saved his name ben you sent me this

868

00:30:09,350 --> 00:30:06,799

a while ago something brown

869

00:30:12,029 --> 00:30:09,360

something daniel brown townsend or

870

00:30:15,190 --> 00:30:12,039

townsend brown back in the early

871

00:30:18,149 --> 00:30:15,200

1918 i think it was yeah he discovered

872

00:30:19,669 --> 00:30:18,159

this the the anti-gravity as it were uh

873

00:30:21,590 --> 00:30:19,679

was using electromagnetic he he gave

874

00:30:23,350 --> 00:30:21,600

positive and negative charges considered

875

00:30:24,470 --> 00:30:23,360

contracting with the us government and

876

00:30:25,669 --> 00:30:24,480

those were the three things that got me

877

00:30:27,110 --> 00:30:25,679

back on i'm going to give flatter the

878

00:30:29,350 --> 00:30:27,120

chance of why i even found you was

879

00:30:30,230 --> 00:30:29,360

number one i found out flatter society

880

00:30:31,110 --> 00:30:30,240

if anybody's trying to look that up

881

00:30:32,470 --> 00:30:31,120

right now

882

00:30:34,950 --> 00:30:32,480

that's not

883

00:30:37,350 --> 00:30:34,960

you can go there but come on president

884

00:30:40,710 --> 00:30:37,360

obama plugged the flatter society a half

885

00:30:42,710 --> 00:30:40,720

a dozen times during his presidency

886

00:30:44,950 --> 00:30:42,720

kind of suss for those in the chat you

887

00:30:46,549 --> 00:30:44,960

now know you have to take a drink uh

888

00:30:48,470 --> 00:30:46,559

sorry dave that's we try to get in there

889

00:30:49,990 --> 00:30:48,480

at least once from they gotta they hear

890

00:30:51,510 --> 00:30:50,000

the word suss they got to take a drink

891

00:30:53,590 --> 00:30:51,520

yeah like obviously the video you're

892

00:30:55,750 --> 00:30:53,600

showing there the um

893

00:30:57,750 --> 00:30:55,760

so you have that was a big one for me

894

00:30:59,110 --> 00:30:57,760

and then the rockefellers and the ones

895

00:31:00,470 --> 00:30:59,120

that took over the the educational

896

00:31:02,389 --> 00:31:00,480

program there in the early turn of the

897

00:31:03,590 --> 00:31:02,399

century was another big one for me

898

00:31:04,389 --> 00:31:03,600

because there was a lot of rewriting of

899

00:31:06,149 --> 00:31:04,399

the history

900

00:31:08,470 --> 00:31:06,159

whether we want to talk about it or not

901
00:31:10,230 --> 00:31:08,480
i know it's hard stuff to talk about but

902
00:31:11,830 --> 00:31:10,240
guys sometimes we just don't know what

903
00:31:12,950 --> 00:31:11,840
we don't know and when there's evidence

904
00:31:14,630 --> 00:31:12,960
to show that

905
00:31:17,350 --> 00:31:14,640
and again i'm not knocking education i

906
00:31:19,669 --> 00:31:17,360
love education what i'm saying is

907
00:31:21,509 --> 00:31:19,679
when somebody rewrites it and there's

908
00:31:23,269 --> 00:31:21,519
facts and provable facts in history to

909
00:31:25,350 --> 00:31:23,279
show that that happened you have to at

910
00:31:26,470 --> 00:31:25,360
least question it because biggest

911
00:31:28,230 --> 00:31:26,480
question i gotta give a shout out to my

912
00:31:29,830 --> 00:31:28,240
uncle him and i go back and forth on

913
00:31:31,110 --> 00:31:29,840

this talk about flat earth yeah again

914

00:31:32,389 --> 00:31:31,120

look at the videos

915

00:31:34,470 --> 00:31:32,399

um

916

00:31:36,389 --> 00:31:34,480

he always says listen we could prove he

917

00:31:38,070 --> 00:31:36,399

goes you and i and what you and i

918

00:31:39,350 --> 00:31:38,080

talking about himself and i could go out

919

00:31:41,750 --> 00:31:39,360

with two sticks and the sun and prove

920

00:31:43,430 --> 00:31:41,760

that the earth is over why it is wrong

921

00:31:45,509 --> 00:31:43,440

listen this is this isn't our this is

922

00:31:47,029 --> 00:31:45,519

what he said and you know this is we've

923

00:31:49,509 --> 00:31:47,039

known for we've known for hundreds and

924

00:31:50,789 --> 00:31:49,519

hundreds of years yeah and according to

925

00:31:52,549 --> 00:31:50,799

some of the stuff i've been looking up

926

00:31:53,590 --> 00:31:52,559

and listening to

927

00:31:55,350 --> 00:31:53,600

it sounds like there were people who

928

00:31:56,549 --> 00:31:55,360

believed in flat earth even into the

929

00:32:00,549 --> 00:31:56,559

almost the turn of the century there the

930

00:32:01,590 --> 00:32:00,559

19th cool story bro of course

931

00:32:03,750 --> 00:32:01,600

he'll sit down and talk to you about

932

00:32:06,149 --> 00:32:03,760

anything he would he will start

933

00:32:10,070 --> 00:32:06,159

let's completely destroy

934

00:32:17,110 --> 00:32:13,350

we're gonna completely 100 destroy your

935

00:32:19,430 --> 00:32:17,120

uncle so first first off aristophanes is

936

00:32:21,029 --> 00:32:19,440

the greek guy that talked about 2 000

937

00:32:23,669 --> 00:32:21,039

years ago that did his sticks and

938

00:32:25,990 --> 00:32:23,679

shadows he said okay i'm here sun rays

939

00:32:27,750 --> 00:32:26,000

come in parallel because you know we all

940

00:32:30,389 --> 00:32:27,760

know that sun rays are parallel even

941

00:32:32,870 --> 00:32:30,399

though no one's ever seen parallel sun

942

00:32:34,389 --> 00:32:32,880

rays okay they've never seen them

943

00:32:36,230 --> 00:32:34,399

whether they're refracting or not

944

00:32:39,750 --> 00:32:36,240

doesn't matter they're not parallel but

945

00:32:41,990 --> 00:32:39,760

he's here in uh greece and uh there's no

946

00:32:43,669 --> 00:32:42,000

shadow on this certain day with his it

947

00:32:45,190 --> 00:32:43,679

was a well now it's a stick doesn't

948

00:32:49,029 --> 00:32:45,200

matter same thing

949

00:32:52,630 --> 00:32:49,039

his buddy counts his steps for 500 miles

950

00:32:54,149 --> 00:32:52,640

and uh says over here at the same time

951
00:32:55,750 --> 00:32:54,159
there's um

952
00:32:57,669 --> 00:32:55,760
a shadow and they measured the length of

953
00:33:00,389 --> 00:32:57,679
the shadow and they did some math and

954
00:33:02,870 --> 00:33:00,399
carl sagan goes and he figured it out

955
00:33:04,870 --> 00:33:02,880
within two percent of the size of the

956
00:33:07,190 --> 00:33:04,880
earth so now they know the radius of the

957
00:33:09,430 --> 00:33:07,200
earth because they did some math based

958
00:33:10,470 --> 00:33:09,440
on some shadows with parallel rays that

959
00:33:12,470 --> 00:33:10,480
don't exist

960
00:33:15,190 --> 00:33:12,480
okay there's so many things wrong with

961
00:33:18,149 --> 00:33:15,200
this already but it doesn't even matter

962
00:33:20,630 --> 00:33:18,159
let's say he did do that okay

963
00:33:22,870 --> 00:33:20,640

let's say he did and and they they

964

00:33:25,430 --> 00:33:22,880

measured it and they got it right well

965

00:33:27,430 --> 00:33:25,440

on a flat earth with a small local sun

966

00:33:29,750 --> 00:33:27,440

like we see where you know you have a

967

00:33:32,470 --> 00:33:29,760

local light the sun comes down there's

968

00:33:34,470 --> 00:33:32,480

no shadow here there's a shadow here 500

969

00:33:36,310 --> 00:33:34,480

miles away you can take the same angles

970

00:33:39,110 --> 00:33:36,320

do the same math and figure out the

971

00:33:42,630 --> 00:33:39,120

sphericity of this completely flat

972

00:33:47,110 --> 00:33:42,640

surface right aristophanes was wrong the

973

00:33:55,830 --> 00:33:52,710

and it works perfectly on a flat earth

974

00:33:58,230 --> 00:33:55,840

wait on a flat earth sun rays come in at

975

00:34:00,870 --> 00:33:58,240

um they come in crepuscular they spread

976
00:34:02,230 --> 00:34:00,880
out on a ball earth

977
00:34:03,350 --> 00:34:02,240
they tell us the sunrise come in

978
00:34:05,430 --> 00:34:03,360
straight

979
00:34:07,110 --> 00:34:05,440
well what do you see in nature do you

980
00:34:08,790 --> 00:34:07,120
ever see straight rays or do you see a

981
00:34:11,510 --> 00:34:08,800
muscular rays i'll answer that for you

982
00:34:14,069 --> 00:34:11,520
cabuscular okay on a flat earth and a

983
00:34:17,190 --> 00:34:14,079
ball earth the angles do work

984
00:34:20,550 --> 00:34:17,200
with those separate situations but

985
00:34:23,030 --> 00:34:20,560
we can observe the sun rays they are not

986
00:34:26,470 --> 00:34:23,040
coming in parallel

987
00:34:28,869 --> 00:34:26,480
earth is flat aristophanes proved it

988
00:34:31,109 --> 00:34:28,879

now what if in that that test that

989

00:34:33,270 --> 00:34:31,119

aristotle's did what if he'd added one

990

00:34:35,829 --> 00:34:33,280

prior to it wouldn't have mattered right

991

00:34:37,270 --> 00:34:35,839

if you'd added a a a third well you're

992

00:34:39,829 --> 00:34:37,280

you're you're again you're watching neil

993

00:34:43,109 --> 00:34:39,839

degrasse tyson on him oh yeah we got him

994

00:34:45,829 --> 00:34:43,119

out right he will not talk to us but

995

00:34:47,510 --> 00:34:45,839

again they he did his show with um i

996

00:34:50,470 --> 00:34:47,520

forget with that whatever studio he's in

997

00:34:52,149 --> 00:34:50,480

there and they they're coming after us

998

00:34:54,389 --> 00:34:52,159

like oh well you know

999

00:34:55,909 --> 00:34:54,399

the the airstock these it works on a

1000

00:34:58,790 --> 00:34:55,919

flat earth and a globe earth but if you

1001
00:35:01,349 --> 00:34:58,800
add a third well or third stick but he

1002
00:35:03,109 --> 00:35:01,359
said well um it doesn't work and that's

1003
00:35:06,310 --> 00:35:03,119
all he said he said it doesn't work on a

1004
00:35:08,870 --> 00:35:06,320
flood earth but in his diagram he showed

1005
00:35:11,430 --> 00:35:08,880
that it is working in the third well it

1006
00:35:13,349 --> 00:35:11,440
was at an angle it wasn't straight

1007
00:35:17,270 --> 00:35:13,359
it does work no one's ever done the

1008
00:35:19,670 --> 00:35:17,280
experiment but it works on a flat earth

1009
00:35:21,430 --> 00:35:19,680
okay but he just said it

1010
00:35:23,190 --> 00:35:21,440
and and people just believe it it's

1011
00:35:25,670 --> 00:35:23,200
unbelie it's

1012
00:35:27,270 --> 00:35:25,680
it's it's no people say anything um say

1013
00:35:29,430 --> 00:35:27,280

dave you get so fired up about this i

1014

00:35:30,950 --> 00:35:29,440

get fired up because it's so people

1015

00:35:34,150 --> 00:35:30,960

people are so stupid

1016

00:35:37,430 --> 00:35:34,160

how easily they believe crap okay

1017

00:35:41,190 --> 00:35:37,440

it's unbelievable aristophanes was wrong

1018

00:35:42,630 --> 00:35:41,200

no shadow shadow sphere this is a sphere

1019

00:35:44,390 --> 00:35:42,640

don't let your eyes

1020

00:35:46,870 --> 00:35:44,400

you know believe the nonsense don't

1021

00:35:48,870 --> 00:35:46,880

believe your common sense

1022

00:35:50,069 --> 00:35:48,880

well that you know i'm just saying i had

1023

00:35:51,589 --> 00:35:50,079

to put that question out there because

1024

00:35:53,030 --> 00:35:51,599

if my own i told him i'd ask you at

1025

00:35:54,950 --> 00:35:53,040

least once because that's something

1026
00:35:56,470 --> 00:35:54,960
we've gone back and forth on before and

1027
00:35:57,990 --> 00:35:56,480
i told him and i could be wrong i said i

1028
00:36:00,150 --> 00:35:58,000
believe that that works on both and

1029
00:36:01,910 --> 00:36:00,160
you've confirmed itself it does and now

1030
00:36:03,510 --> 00:36:01,920
did you did you see my interview with

1031
00:36:05,510 --> 00:36:03,520
ruth in uh

1032
00:36:08,950 --> 00:36:05,520
february of 2020

1033
00:36:11,990 --> 00:36:08,960
i did not ruth 102 year old woman right

1034
00:36:13,910 --> 00:36:12,000
i i met her and i and uh i was

1035
00:36:15,670 --> 00:36:13,920
interviewing her about the world's fairs

1036
00:36:16,950 --> 00:36:15,680
never mentioning flat earth and she was

1037
00:36:19,270 --> 00:36:16,960
telling me she had been to the new york

1038
00:36:21,030 --> 00:36:19,280

world's fair and and how it lit up the

1039

00:36:23,109 --> 00:36:21,040

world and i was i was investigating free

1040

00:36:24,710 --> 00:36:23,119

energy and mud floods at the time

1041

00:36:26,069 --> 00:36:24,720

and um

1042

00:36:27,349 --> 00:36:26,079

she had such a great memory i said hey

1043

00:36:28,630 --> 00:36:27,359

what did they teach you in school now

1044

00:36:30,230 --> 00:36:28,640

she didn't go to religious school she

1045

00:36:32,150 --> 00:36:30,240

went to connecticut public school in

1046

00:36:33,589 --> 00:36:32,160

hampden connecticut she knew the name of

1047

00:36:35,589 --> 00:36:33,599

the school the teachers the kids in her

1048

00:36:38,150 --> 00:36:35,599

class and what road it was on and i said

1049

00:36:39,990 --> 00:36:38,160

what did they teach you about the earth

1050

00:36:42,069 --> 00:36:40,000

in elementary school and she said they

1051
00:36:44,230 --> 00:36:42,079
taught me the earth was flat that's here

1052
00:36:46,230 --> 00:36:44,240
in the united states in public schools

1053
00:36:48,630 --> 00:36:46,240
in the 1920s

1054
00:36:50,630 --> 00:36:48,640
they were teaching flat earth and we're

1055
00:36:53,190 --> 00:36:50,640
told that aristotle's figured it out 2

1056
00:36:55,030 --> 00:36:53,200
000 years ago did we not get the friggin

1057
00:36:56,630 --> 00:36:55,040
message or something what happened

1058
00:36:58,230 --> 00:36:56,640
rockefellers forgot to update their

1059
00:37:00,630 --> 00:36:58,240
textbooks

1060
00:37:02,230 --> 00:37:00,640
this is all nonsense we found newspaper

1061
00:37:04,150 --> 00:37:02,240
articles in the new york journal which i

1062
00:37:05,430 --> 00:37:04,160
believe was the previous to the new york

1063
00:37:07,750 --> 00:37:05,440

times

1064

00:37:10,270 --> 00:37:07,760

in the 19 early 1900s about teachers

1065

00:37:13,430 --> 00:37:10,280

being persecuted for teaching

1066

00:37:15,109 --> 00:37:13,440

heliocentrism that's the ball right why

1067

00:37:18,069 --> 00:37:15,119

are they

1068

00:37:20,630 --> 00:37:18,079

changing what we know to be true what

1069

00:37:23,589 --> 00:37:20,640

all of our senses tell us right we're

1070

00:37:25,510 --> 00:37:23,599

not spinning through a you know

1071

00:37:26,310 --> 00:37:25,520

corkscrewing through a

1072

00:37:29,990 --> 00:37:26,320

um

1073

00:37:31,910 --> 00:37:30,000

heliocentric solar system right

1074

00:37:33,910 --> 00:37:31,920

spinning at a thousand miles an hour how

1075

00:37:36,630 --> 00:37:33,920

fast are we orbiting around the sun

1076

00:37:37,990 --> 00:37:36,640

sixty-six thousand give or take sixty

1077

00:37:39,990 --> 00:37:38,000

six thousand give or take we'll just

1078

00:37:40,950 --> 00:37:40,000

call it sixty six thousand six hundred

1079

00:37:42,390 --> 00:37:40,960

because

1080

00:37:44,069 --> 00:37:42,400

that's what they tell us

1081

00:37:46,550 --> 00:37:44,079

yeah and then we're chasing it about a

1082

00:37:48,870 --> 00:37:46,560

half a million miles an hour okay let's

1083

00:37:51,270 --> 00:37:48,880

just fathom those speeds like we did

1084

00:37:53,670 --> 00:37:51,280

what a trillion miles is or 25 trillion

1085

00:37:55,750 --> 00:37:53,680

miles that's the closest star remember

1086

00:37:58,470 --> 00:37:55,760

so this is the hypersonic sled i'm gonna

1087

00:37:59,750 --> 00:37:58,480

go buy a mach 8.6 watch it and don't

1088

00:38:02,230 --> 00:37:59,760

even try not to blink because it doesn't

1089

00:38:06,470 --> 00:38:02,240

matter you still can't see it okay

1090

00:38:08,790 --> 00:38:06,480

mach 8.6 we're orbiting the sun

1091

00:38:09,910 --> 00:38:08,800

10 times faster than that

1092

00:38:10,950 --> 00:38:09,920

10 times

1093

00:38:12,790 --> 00:38:10,960

in a

1094

00:38:15,829 --> 00:38:12,800

speeding up and slowing down speeding up

1095

00:38:17,510 --> 00:38:15,839

slow down a curved linear path when

1096

00:38:19,829 --> 00:38:17,520

you're curving

1097

00:38:20,710 --> 00:38:19,839

that's acceleration okay

1098

00:38:22,310 --> 00:38:20,720

10

1099

00:38:24,550 --> 00:38:22,320

times that speed

1100

00:38:26,470 --> 00:38:24,560

that's that's not bad enough we're

1101

00:38:31,430 --> 00:38:26,480

chasing the sun

1102

00:38:33,430 --> 00:38:31,440

at 90 times that speed

1103

00:38:35,910 --> 00:38:33,440

90. and that's

1104

00:38:37,589 --> 00:38:35,920

corkscrewing through space right

1105

00:38:40,150 --> 00:38:37,599

and we have lakes

1106

00:38:43,109 --> 00:38:40,160

that tell us what

1107

00:38:44,550 --> 00:38:43,119

what are these lakes telling us

1108

00:38:47,510 --> 00:38:44,560

yeah i mean this is and this is the

1109

00:38:53,430 --> 00:38:49,990

nature doesn't lie what is that lake

1110

00:38:56,230 --> 00:38:53,440

telling us what is this lake telling us

1111

00:38:57,030 --> 00:38:56,240

use your common sense no no it doesn't

1112

00:39:00,230 --> 00:38:57,040

look

1113

00:39:03,030 --> 00:39:00,240

pretty still it is pretty cell it is

1114

00:39:05,349 --> 00:39:03,040

perfectly stellar okay

1115

00:39:06,710 --> 00:39:05,359

it is perfectly stealth

1116

00:39:09,430 --> 00:39:06,720

but they tell us that's because of the

1117

00:39:11,990 --> 00:39:09,440

atmosphere no and i got to say with that

1118

00:39:13,670 --> 00:39:12,000

listen i'm re i listen i i hate because

1119

00:39:16,630 --> 00:39:13,680

they say

1120

00:39:18,470 --> 00:39:16,640

i know but i'm saying that the reason

1121

00:39:20,870 --> 00:39:18,480

we're we're smiling through space like

1122

00:39:23,109 --> 00:39:20,880

that uh in the atm because of the way

1123

00:39:27,030 --> 00:39:23,119

the atmosphere works it keeps everything

1124

00:39:28,470 --> 00:39:27,040

intact all right in place cool story so

1125

00:39:33,990 --> 00:39:28,480

so

1126

00:39:35,510 --> 00:39:34,000

we're told that um

1127

00:39:37,190 --> 00:39:35,520

the atmosphere there's a gradient this

1128

00:39:38,470 --> 00:39:37,200

is what the ballers tell us that's a

1129

00:39:39,670 --> 00:39:38,480

gradient it gets thinner and thinner and

1130

00:39:40,790 --> 00:39:39,680

thinner it's the air stand on top of

1131

00:39:42,310 --> 00:39:40,800

mount everest it gets thinner and

1132

00:39:43,990 --> 00:39:42,320

thinner until there's no more air then

1133

00:39:46,710 --> 00:39:44,000

you have a vacuum

1134

00:39:49,829 --> 00:39:46,720

okay the space vacuum can't suck the air

1135

00:39:53,030 --> 00:39:49,839

away from earth but because of gravity

1136

00:39:55,910 --> 00:39:53,040

but i can with a straw with the weak low

1137

00:39:58,950 --> 00:39:55,920

pressure of my lungs okay i could suck

1138

00:40:02,230 --> 00:39:58,960

water and air up and away from gravity

1139

00:40:05,109 --> 00:40:02,240

with effortlessly but the the vacuum of

1140

00:40:06,150 --> 00:40:05,119

space for 17 vacuum which you can't even

1141

00:40:08,950 --> 00:40:06,160

fathom

1142

00:40:12,230 --> 00:40:08,960

you know nasa has their their um their

1143

00:40:15,430 --> 00:40:12,240

vacuum chamber it's 10 11 10 or 11 feet

1144

00:40:17,750 --> 00:40:15,440

thick of steel and concrete the walls so

1145

00:40:19,829 --> 00:40:17,760

it doesn't implode when you suck the air

1146

00:40:22,550 --> 00:40:19,839

out of it okay

1147

00:40:26,150 --> 00:40:22,560

but they can have a friggin tin can

1148

00:40:28,230 --> 00:40:26,160

space station in a vacuum and a vacuum

1149

00:40:30,230 --> 00:40:28,240

next to earth now think about this

1150

00:40:32,069 --> 00:40:30,240

if um

1151

00:40:36,390 --> 00:40:32,079

they say gravity's holding it on so if i

1152

00:40:38,950 --> 00:40:36,400

had an open shoe box filled with air

1153

00:40:41,270 --> 00:40:38,960

and i held it level and i removed all of

1154

00:40:42,950 --> 00:40:41,280

the air from the room

1155

00:40:44,870 --> 00:40:42,960

that

1156

00:40:46,790 --> 00:40:44,880

air in the shoe box is going to stay

1157

00:40:48,150 --> 00:40:46,800

there because gravity is going to hold

1158

00:40:50,870 --> 00:40:48,160

it there

1159

00:40:53,190 --> 00:40:50,880

that's ridiculous okay

1160

00:40:54,950 --> 00:40:53,200

that's ridiculous

1161

00:40:56,309 --> 00:40:54,960

i mean to hit on that i guess too i mean

1162

00:40:58,230 --> 00:40:56,319

it to be fair

1163

00:41:00,390 --> 00:40:58,240

right i gotta at least be fair about

1164

00:41:02,150 --> 00:41:00,400

this and call out both sides or whatever

1165

00:41:04,870 --> 00:41:02,160

some have i have seen some call you out

1166

00:41:06,069 --> 00:41:04,880

and say well now i'm not taking

1167

00:41:07,510 --> 00:41:06,079

anything away from what you're saying

1168

00:41:08,870 --> 00:41:07,520

here but have some have said well dave's

1169

00:41:10,309 --> 00:41:08,880

model of how we're moving through space

1170

00:41:11,829 --> 00:41:10,319

is wrong

1171

00:41:13,190 --> 00:41:11,839

so i just got to ask you myself because

1172

00:41:13,990 --> 00:41:13,200

i've got to go straight to the horse's

1173

00:41:15,589 --> 00:41:14,000

mouth

1174

00:41:16,630 --> 00:41:15,599

is that a model you just went made up in

1175

00:41:18,150 --> 00:41:16,640

your basement

1176

00:41:19,589 --> 00:41:18,160

is that just which model what's wrong

1177

00:41:21,270 --> 00:41:19,599

showing us how we're going through space

1178

00:41:23,750 --> 00:41:21,280

they've said dave's model of how we're

1179

00:41:25,750 --> 00:41:23,760

traveling through space is completely

1180

00:41:27,270 --> 00:41:25,760

my model this is science's model they

1181

00:41:29,829 --> 00:41:27,280

tell us that we're corkscrewing through

1182

00:41:33,270 --> 00:41:29,839

space at those speeds i would never make

1183

00:41:34,950 --> 00:41:33,280

up such a stupid story right i have 100

1184

00:41:38,710 --> 00:41:34,960

bitcoin offer you want to hear my 100

1185

00:41:40,790 --> 00:41:38,720

bitcoin offer five go ahead

1186

00:41:43,190 --> 00:41:40,800

for anything dumber than the

1187

00:41:45,109 --> 00:41:43,200

heliocentric model anything any category

1188

00:41:47,510 --> 00:41:45,119

nothing there's nothing dumber than the

1189

00:41:50,390 --> 00:41:47,520

heliocentric model okay

1190

00:41:53,030 --> 00:41:50,400

right it's so dumb and here's the thing

1191

00:41:54,950 --> 00:41:53,040

why why the lie right yeah they're lying

1192

00:41:56,710 --> 00:41:54,960

about who we are where we are they're

1193

00:41:58,150 --> 00:41:56,720

lying about our divinity they're lying

1194

00:41:59,990 --> 00:41:58,160

about the power that we have or they're

1195

00:42:02,710 --> 00:42:00,000

lying about the resources on earth

1196

00:42:04,069 --> 00:42:02,720

they're keeping us slaves in a prison

1197

00:42:06,230 --> 00:42:04,079

that's the ball

1198

00:42:08,230 --> 00:42:06,240

okay they have us in a prison and they

1199

00:42:10,069 --> 00:42:08,240

also have us playing with monopoly money

1200

00:42:12,630 --> 00:42:10,079

look at your money same color as

1201
00:42:14,470 --> 00:42:12,640
monopoly money and then monopoly it says

1202
00:42:16,309 --> 00:42:14,480
if you run out of money just write write

1203
00:42:17,990 --> 00:42:16,319
more on pieces of paper and keep playing

1204
00:42:19,510 --> 00:42:18,000
while we're playing and that they don't

1205
00:42:22,069 --> 00:42:19,520
need money

1206
00:42:24,069 --> 00:42:22,079
right they're they they control us with

1207
00:42:25,270 --> 00:42:24,079
money so we need to stop playing with

1208
00:42:27,030 --> 00:42:25,280
their money

1209
00:42:29,430 --> 00:42:27,040
get off of it now

1210
00:42:31,670 --> 00:42:29,440
before they make it digital and then you

1211
00:42:33,750 --> 00:42:31,680
have no choice right um and people say

1212
00:42:36,150 --> 00:42:33,760
oh cryptocurrency is bad well some of it

1213
00:42:38,309 --> 00:42:36,160

might be that's if they can control it

1214

00:42:41,270 --> 00:42:38,319

get off get on stuff like monero and

1215

00:42:43,510 --> 00:42:41,280

pyrochain and darrow and um hex and

1216

00:42:45,510 --> 00:42:43,520

there's all sorts of cryptos out there

1217

00:42:47,750 --> 00:42:45,520

if you don't know about crypto this is

1218

00:42:49,990 --> 00:42:47,760

the time right every hundred years

1219

00:42:52,309 --> 00:42:50,000

something crazy happens every 100 years

1220

00:42:54,790 --> 00:42:52,319

1920. you know what happened in 1920. i

1221

00:42:56,790 --> 00:42:54,800

want to stay here right i know we can't

1222

00:42:58,870 --> 00:42:56,800

everybody was you know suffocating

1223

00:43:01,670 --> 00:42:58,880

themselves and and sticking things into

1224

00:43:04,550 --> 00:43:01,680

themselves and dying right but then

1225

00:43:07,349 --> 00:43:04,560

there was a massive wealth opportunity

1226

00:43:10,630 --> 00:43:07,359

that happened it happens every 100 years

1227

00:43:11,829 --> 00:43:10,640

crypto the right crypto is the way to go

1228

00:43:14,150 --> 00:43:11,839

if you don't know anything about it

1229

00:43:15,670 --> 00:43:14,160

start learning just watch a little bit

1230

00:43:17,670 --> 00:43:15,680

in the app there's a link for crypto

1231

00:43:19,829 --> 00:43:17,680

lessons if you want to just learn it's

1232

00:43:21,109 --> 00:43:19,839

easy okay

1233

00:43:22,150 --> 00:43:21,119

really quick dave i gotta ask you a

1234

00:43:23,349 --> 00:43:22,160

question because i'll fall behind on the

1235

00:43:25,349 --> 00:43:23,359

chat form over here guys and i am trying

1236

00:43:26,230 --> 00:43:25,359

to keep up for you yeah more questions i

1237

00:43:28,230 --> 00:43:26,240

love guys

1238

00:43:29,990 --> 00:43:28,240

uh champ campbell again has another

1239

00:43:32,710 --> 00:43:30,000

question he said explain the i'm going

1240

00:43:35,030 --> 00:43:32,720

to say this word wrong the choreo

1241

00:43:38,069 --> 00:43:35,040

coriolis effect it's a thank you it's an

1242

00:43:39,990 --> 00:43:38,079

optical effect it's not real there is no

1243

00:43:42,309 --> 00:43:40,000

coriolis effect now people say well the

1244

00:43:44,550 --> 00:43:42,319

water spins opposite about the equator

1245

00:43:46,790 --> 00:43:44,560

you got these hoaxers at the equator but

1246

00:43:48,790 --> 00:43:46,800

they literally have a like a street line

1247

00:43:50,790 --> 00:43:48,800

drawn down and they walk 10 feet on one

1248

00:43:51,910 --> 00:43:50,800

side and pour water in and it goes one

1249

00:43:53,510 --> 00:43:51,920

way and then they walk to the other side

1250

00:43:54,790 --> 00:43:53,520

it goes another way it's just the way

1251
00:43:56,550 --> 00:43:54,800
they're pouring the water in the bowl

1252
00:43:58,150 --> 00:43:56,560
they've been doing it forever i have

1253
00:44:00,470 --> 00:43:58,160
toilets in my house that go in opposite

1254
00:44:03,829 --> 00:44:00,480
directions toilets in australia do not

1255
00:44:05,910 --> 00:44:03,839
go in opposite directions now storms

1256
00:44:08,470 --> 00:44:05,920
south of the tropic of capricorn and

1257
00:44:10,630 --> 00:44:08,480
north of the tropic of cancer do

1258
00:44:12,790 --> 00:44:10,640
most of the time spin in opposite

1259
00:44:15,750 --> 00:44:12,800
directions and that's because of the

1260
00:44:19,109 --> 00:44:15,760
wake of the sun okay the wake of the sun

1261
00:44:20,829 --> 00:44:19,119
and the moon as they spin around their

1262
00:44:25,829 --> 00:44:20,839
electro

1263
00:44:28,390 --> 00:44:25,839

the force that they make is pushing the

1264

00:44:31,430 --> 00:44:28,400

plasma pushing the air so if you push

1265

00:44:33,510 --> 00:44:31,440

your hand through a tub of water you're

1266

00:44:36,390 --> 00:44:33,520

gonna get opposite spinning vortices on

1267

00:44:39,270 --> 00:44:36,400

the opposite sides but sometimes when a

1268

00:44:41,030 --> 00:44:39,280

storm is coming up north and the sun and

1269

00:44:44,710 --> 00:44:41,040

the moon aren't anywhere near it it will

1270

00:44:46,309 --> 00:44:44,720

cross and there we have storms

1271

00:44:48,790 --> 00:44:46,319

that spin the opposite direction every

1272

00:44:50,630 --> 00:44:48,800

year it happens well if coriolis was

1273

00:44:53,349 --> 00:44:50,640

real that would be impossible

1274

00:44:56,470 --> 00:44:53,359

coriolis you know say well snipers use

1275

00:44:57,990 --> 00:44:56,480

coriolis that's a lie we've talked to so

1276

00:45:02,150 --> 00:44:58,000

many snipers

1277

00:45:05,190 --> 00:45:02,160

they count wind a drop distance humidity

1278

00:45:06,550 --> 00:45:05,200

temperature everything but they do not

1279

00:45:09,109 --> 00:45:06,560

calculate the spin of the earth think

1280

00:45:11,030 --> 00:45:09,119

about this a sniper is looking at a guy

1281

00:45:12,870 --> 00:45:11,040

two miles away he got him right in the

1282

00:45:14,870 --> 00:45:12,880

scope he says okay

1283

00:45:16,470 --> 00:45:14,880

where am i what angle to the spin of the

1284

00:45:19,349 --> 00:45:16,480

earth how fast is the earth spinning all

1285

00:45:21,510 --> 00:45:19,359

right i gotta move my target over here

1286

00:45:22,950 --> 00:45:21,520

so i can hook the bullet and hit him

1287

00:45:25,750 --> 00:45:22,960

it's ridiculous

1288

00:45:28,230 --> 00:45:25,760

it's the dumbest thing ever okay

1289

00:45:29,829 --> 00:45:28,240

it's not happening it doesn't happen

1290

00:45:31,270 --> 00:45:29,839

yeah yeah

1291

00:45:32,230 --> 00:45:31,280

let's hit on this is an important one

1292

00:45:33,990 --> 00:45:32,240

because i don't know how long much more

1293

00:45:35,910 --> 00:45:34,000

i got you for i want two things i want

1294

00:45:37,430 --> 00:45:35,920

to hit on for sure um and guys like i

1295

00:45:38,710 --> 00:45:37,440

said please put any questions in caps

1296

00:45:39,910 --> 00:45:38,720

and i know i missed a couple anyway so

1297

00:45:42,150 --> 00:45:39,920

if i did miss him put him back in there

1298

00:45:43,910 --> 00:45:42,160

again for me please um

1299

00:45:45,109 --> 00:45:43,920

let's talk about

1300

00:45:46,470 --> 00:45:45,119

two things well the three things that

1301

00:45:47,910 --> 00:45:46,480

got me back on even looking at flat

1302

00:45:49,510 --> 00:45:47,920

earth number one finding out that the

1303

00:45:50,870 --> 00:45:49,520

flatter society is basically a psyops

1304

00:45:52,069 --> 00:45:50,880

and ran by the government that was a big

1305

00:45:53,270 --> 00:45:52,079

thing for me and they even admitted it i

1306

00:45:54,230 --> 00:45:53,280

think it was in 2016 they came out we're

1307

00:45:56,470 --> 00:45:54,240

like yeah you got us we were just

1308

00:45:58,069 --> 00:45:56,480

showing that we use fancy words

1309

00:45:59,349 --> 00:45:58,079

that it's that we could create you

1310

00:46:01,750 --> 00:45:59,359

anything but they're still running it

1311

00:46:05,510 --> 00:46:01,760

that was number one number two was the

1312

00:46:09,990 --> 00:46:08,230

yeah that was a big one for me and

1313

00:46:12,470 --> 00:46:10,000

finding out that no one is ever

1314

00:46:15,030 --> 00:46:12,480

at least according to your information

1315

00:46:15,990 --> 00:46:15,040

circumnavigated going south

1316

00:46:17,750 --> 00:46:16,000

but please

1317

00:46:19,190 --> 00:46:17,760

hit on the

1318

00:46:20,230 --> 00:46:19,200

antarctic treaty because i do think this

1319

00:46:22,950 --> 00:46:20,240

is an important one for people to take a

1320

00:46:24,470 --> 00:46:22,960

peek so in 1959 they the admiral byrd

1321

00:46:26,150 --> 00:46:24,480

said that there's land filled with

1322

00:46:28,069 --> 00:46:26,160

resources and like oh nobody can go

1323

00:46:29,430 --> 00:46:28,079

there a dozen companies countries signed

1324

00:46:32,069 --> 00:46:29,440

on and then the rest signed on after

1325

00:46:34,710 --> 00:46:32,079

that the longest standing treaty ever to

1326
00:46:36,790 --> 00:46:34,720
protect the penguins and the ice that's

1327
00:46:38,069 --> 00:46:36,800
that's the what it's for right and i

1328
00:46:39,270 --> 00:46:38,079
don't want the russians sneaking

1329
00:46:40,950 --> 00:46:39,280
underneath the earth which makes no

1330
00:46:43,510 --> 00:46:40,960
sense because they're literally at the

1331
00:46:47,589 --> 00:46:43,520
center which is the top of the ball

1332
00:46:49,670 --> 00:46:47,599
um it's it's all absolute insanity and

1333
00:46:51,510 --> 00:46:49,680
nonsense right

1334
00:46:53,510 --> 00:46:51,520
and it's still in place name another

1335
00:46:55,270 --> 00:46:53,520
treaty that's lasted this long in even

1336
00:46:57,589 --> 00:46:55,280
simple little treaties you know none of

1337
00:46:59,510 --> 00:46:57,599
it none of it works right

1338
00:47:02,390 --> 00:46:59,520

so let me talk about circumnavigation

1339

00:47:04,630 --> 00:47:02,400

but let's talk about plane flights okay

1340

00:47:07,750 --> 00:47:04,640

this this red line is the equator

1341

00:47:08,630 --> 00:47:07,760

southern locations

1342

00:47:12,950 --> 00:47:08,640

right

1343

00:47:14,470 --> 00:47:12,960

from here to here johannesburg from um

1344

00:47:15,510 --> 00:47:14,480

what does it say buenos aires what is

1345

00:47:17,670 --> 00:47:15,520

that um

1346

00:47:20,150 --> 00:47:17,680

buenos aires it goes all the way up to

1347

00:47:23,109 --> 00:47:20,160

amsterdam and then all the way down it

1348

00:47:25,750 --> 00:47:23,119

crosses the equator twice

1349

00:47:28,710 --> 00:47:25,760

why is that okay

1350

00:47:33,670 --> 00:47:30,630

from auckland

1351

00:47:35,589 --> 00:47:33,680

auckland yeah auckland to mexico city it

1352

00:47:37,190 --> 00:47:35,599

stops in los angeles why does it just go

1353

00:47:39,670 --> 00:47:37,200

straight over why does it go to los

1354

00:47:41,990 --> 00:47:39,680

angeles first there's plenty of tourist

1355

00:47:43,990 --> 00:47:42,000

sites in mexico city that they can fill

1356

00:47:46,230 --> 00:47:44,000

up planes it might even be a shorter

1357

00:47:47,589 --> 00:47:46,240

trip but they go here and that's because

1358

00:47:49,270 --> 00:47:47,599

this is what it looks like again

1359

00:47:51,670 --> 00:47:49,280

crossing the equator

1360

00:47:56,870 --> 00:47:53,589

there's another one

1361

00:47:59,829 --> 00:47:56,880

why don't they just fly across here

1362

00:48:02,870 --> 00:47:59,839

why do they go all the way up

1363

00:48:04,150 --> 00:48:02,880

los angeles and the answer is because

1364

00:48:07,349 --> 00:48:04,160

they go here

1365

00:48:09,430 --> 00:48:07,359

over and over this is the route

1366

00:48:11,349 --> 00:48:09,440

right on a flat earth it makes perfect

1367

00:48:12,150 --> 00:48:11,359

sense another one

1368

00:48:13,670 --> 00:48:12,160

right

1369

00:48:15,510 --> 00:48:13,680

why do they why don't they just cut

1370

00:48:17,430 --> 00:48:15,520

across here it's the same amount of trip

1371

00:48:19,589 --> 00:48:17,440

tor across the water

1372

00:48:21,910 --> 00:48:19,599

but when you look at it on a flat earth

1373

00:48:24,630 --> 00:48:21,920

it makes perfect sense it makes zero

1374

00:48:26,309 --> 00:48:24,640

sense on a globe

1375

00:48:30,549 --> 00:48:26,319

southern place southern location to

1376

00:48:32,790 --> 00:48:30,559

southern locations most often cross

1377

00:48:35,030 --> 00:48:32,800

the equator here's the equator

1378

00:48:36,309 --> 00:48:35,040

it's a straight line

1379

00:48:38,390 --> 00:48:36,319

but why do they

1380

00:48:40,790 --> 00:48:38,400

why would they go all the way up here

1381

00:48:43,109 --> 00:48:40,800

and all the way down right well my

1382

00:48:44,309 --> 00:48:43,119

brother had an answer to this one

1383

00:48:46,309 --> 00:48:44,319

we got at least put it out there people

1384

00:48:47,430 --> 00:48:46,319

would say well come on let me let me let

1385

00:48:49,750 --> 00:48:47,440

me tell you what he's to say he's going

1386

00:48:51,510 --> 00:48:49,760

to say because they they need there's

1387

00:48:54,870 --> 00:48:51,520

more people in the north and they need

1388

00:48:57,109 --> 00:48:54,880

to stop at those airports right

1389

00:48:59,109 --> 00:48:57,119

pretty close i mean he said refueling

1390

00:49:00,630 --> 00:48:59,119

yeah well refueling i just proved that

1391

00:49:03,510 --> 00:49:00,640

wasn't wrong because they're flying

1392

00:49:05,589 --> 00:49:03,520

longer distances than the direct route

1393

00:49:07,829 --> 00:49:05,599

and there's plenty of people that want

1394

00:49:09,349 --> 00:49:07,839

to go direct these flights are sold out

1395

00:49:11,750 --> 00:49:09,359

with people from the origin to the

1396

00:49:14,309 --> 00:49:11,760

destination so why do they need to go

1397

00:49:15,510 --> 00:49:14,319

way way out of the way look at this one

1398

00:49:17,109 --> 00:49:15,520

okay

1399

00:49:19,430 --> 00:49:17,119

um

1400

00:49:22,230 --> 00:49:19,440

it goes all the way up and over but it's

1401

00:49:24,470 --> 00:49:22,240

a straight line now here's something

1402

00:49:27,030 --> 00:49:24,480

there's everything inside of the circle

1403

00:49:29,270 --> 00:49:27,040

is the north you can take a

1404

00:49:31,910 --> 00:49:29,280

origin and a destination of any two

1405

00:49:35,910 --> 00:49:31,920

spots in here and never once will any

1406

00:49:38,230 --> 00:49:35,920

plane cross the equator never ever does

1407

00:49:41,510 --> 00:49:38,240

a northern spot to another northern spot

1408

00:49:43,910 --> 00:49:41,520

across the equator never ever okay

1409

00:49:44,870 --> 00:49:43,920

so if you if you look at this like like

1410

00:49:47,030 --> 00:49:44,880

this one

1411

00:49:49,510 --> 00:49:47,040

so take the southern latitude of these

1412

00:49:51,910 --> 00:49:49,520

two airports and the distance find in

1413

00:49:53,910 --> 00:49:51,920

the north um at the same northern

1414

00:49:56,630 --> 00:49:53,920

latitudes and the same distance two

1415

00:49:58,390 --> 00:49:56,640

airports well if the earth is a ball it

1416

00:50:00,069 --> 00:49:58,400

should go all the way down you know and

1417

00:50:02,309 --> 00:50:00,079

all the way up if that's if that was the

1418

00:50:03,589 --> 00:50:02,319

case they say this is the great circle

1419

00:50:04,950 --> 00:50:03,599

route or whatever

1420

00:50:07,270 --> 00:50:04,960

nonsense

1421

00:50:09,670 --> 00:50:07,280

right they're taking these long routes

1422

00:50:12,790 --> 00:50:09,680

because there is no short route

1423

00:50:15,589 --> 00:50:12,800

you know sydney to uh to lima peru it

1424

00:50:18,069 --> 00:50:15,599

stops in los angeles on a ball that's

1425

00:50:21,430 --> 00:50:18,079

insane and this distance here from los

1426
00:50:22,390 --> 00:50:21,440
angeles to sydney is longer or close to

1427
00:50:23,349 --> 00:50:22,400
the same

1428
00:50:26,470 --> 00:50:23,359
as

1429
00:50:29,109 --> 00:50:26,480
the origin to the destination

1430
00:50:31,990 --> 00:50:29,119
it's nonsense

1431
00:50:33,589 --> 00:50:32,000
yeah no i i listen i admit that if these

1432
00:50:34,870 --> 00:50:33,599
if these routes are indeed again

1433
00:50:36,069 --> 00:50:34,880
everyone should look up information

1434
00:50:37,510 --> 00:50:36,079
themselves now this one right here that

1435
00:50:38,950 --> 00:50:37,520
you're talking about the northern

1436
00:50:40,710 --> 00:50:38,960
navigation versus southern was the one

1437
00:50:42,230 --> 00:50:40,720
that bothered me too yeah so this was

1438
00:50:43,670 --> 00:50:42,240

the zq pilot we're like oh this is going

1439

00:50:45,430 --> 00:50:43,680

to be interesting and we could track

1440

00:50:46,870 --> 00:50:45,440

them right and he went from here to

1441

00:50:49,030 --> 00:50:46,880

australia to um

1442

00:50:52,069 --> 00:50:49,040

alaska california out here and then up

1443

00:50:54,390 --> 00:50:52,079

to these islands over to santiago then

1444

00:50:56,069 --> 00:50:54,400

they went to the south pole supposedly

1445

00:50:57,109 --> 00:50:56,079

they're like oh the weather's too bad so

1446

00:50:58,790 --> 00:50:57,119

we're going to change the route we're

1447

00:51:00,230 --> 00:50:58,800

going to come back up through brazil and

1448

00:51:01,430 --> 00:51:00,240

they went around and were like oh well

1449

00:51:03,829 --> 00:51:01,440

they didn't get it they were going for

1450

00:51:05,750 --> 00:51:03,839

the world record and then guinness gave

1451
00:51:07,430 --> 00:51:05,760
them the world's record for southern

1452
00:51:09,510 --> 00:51:07,440
circumnavigation

1453
00:51:11,430 --> 00:51:09,520
look at it on a flat earth map he

1454
00:51:13,430 --> 00:51:11,440
basically went here turned around and

1455
00:51:15,510 --> 00:51:13,440
came back and just flew around and said

1456
00:51:17,750 --> 00:51:15,520
he circumnavigated the world does that

1457
00:51:18,950 --> 00:51:17,760
make any sense to you

1458
00:51:20,630 --> 00:51:18,960
no i'll be honest it may be a

1459
00:51:22,390 --> 00:51:20,640
misunderstood but even the first model

1460
00:51:23,829 --> 00:51:22,400
doesn't really make a whole lot of sense

1461
00:51:26,390 --> 00:51:23,839
to me no it's the same thing i'm just

1462
00:51:28,790 --> 00:51:26,400
showing you what it looks like on a on a

1463
00:51:30,710 --> 00:51:28,800

flat earth map right and then some

1464

00:51:31,670 --> 00:51:30,720

people like what about circumnavigation

1465

00:51:32,790 --> 00:51:31,680

you know

1466

00:51:34,390 --> 00:51:32,800

there there's people that have

1467

00:51:37,030 --> 00:51:34,400

circumnavigated the world like amelia

1468

00:51:38,790 --> 00:51:37,040

earhart right amelia earhart

1469

00:51:40,950 --> 00:51:38,800

these are all the stops that she made

1470

00:51:43,829 --> 00:51:40,960

she circumnavigated the world traveling

1471

00:51:46,069 --> 00:51:43,839

east or west east and west

1472

00:51:47,270 --> 00:51:46,079

um are the only way to circumnavigate

1473

00:51:49,910 --> 00:51:47,280

the world

1474

00:51:52,069 --> 00:51:49,920

the center of the flat earth is magnetic

1475

00:51:53,750 --> 00:51:52,079

so the compass will always point to the

1476

00:51:55,990 --> 00:51:53,760

center so i'm trying to push this

1477

00:51:58,390 --> 00:51:56,000

compass west and where's west is it a

1478

00:51:59,829 --> 00:51:58,400

straight line nope it's a circle

1479

00:52:02,150 --> 00:51:59,839

right this doesn't prove the earth is

1480

00:52:03,190 --> 00:52:02,160

flat because it's the same on a globe

1481

00:52:07,349 --> 00:52:03,200

yeah right

1482

00:52:09,670 --> 00:52:07,359

and then west um east is a circle right

1483

00:52:11,349 --> 00:52:09,680

i got to keep that the compass pointing

1484

00:52:14,549 --> 00:52:11,359

towards the center so i got to keep

1485

00:52:17,030 --> 00:52:14,559

turning i am dead reckoning east as a

1486

00:52:19,270 --> 00:52:17,040

pilot or a ship's captain or driving a

1487

00:52:21,030 --> 00:52:19,280

car or swimming or whatever it is you

1488

00:52:22,790 --> 00:52:21,040

would not know that you're turning to

1489

00:52:24,870 --> 00:52:22,800

the north you're correcting now if i

1490

00:52:27,670 --> 00:52:24,880

don't correct to the north and i head

1491

00:52:29,829 --> 00:52:27,680

west i'm immediately heading south

1492

00:52:31,030 --> 00:52:29,839

yeah i'm heading south

1493

00:52:32,309 --> 00:52:31,040

this won't bother me the first time i

1494

00:52:33,589 --> 00:52:32,319

heard it because you essentially it said

1495

00:52:35,829 --> 00:52:33,599

you know you're only ever heading north

1496

00:52:38,870 --> 00:52:35,839

or south and i was like well

1497

00:52:40,150 --> 00:52:38,880

hmm no you're you're only every

1498

00:52:42,630 --> 00:52:40,160

if you just keep going in a straight

1499

00:52:44,390 --> 00:52:42,640

line every direction south yeah right

1500

00:52:46,069 --> 00:52:44,400

that's that is correct term every

1501

00:52:48,309 --> 00:52:46,079

direction difficult it's difficult it's

1502

00:52:50,069 --> 00:52:48,319

the weirdest thing to hear it is yeah so

1503

00:52:51,910 --> 00:52:50,079

i'm going to go south here and if the

1504

00:52:55,430 --> 00:52:51,920

earth was a globe i should magically pop

1505

00:52:56,950 --> 00:52:55,440

up over here but i don't no one ever has

1506

00:52:59,349 --> 00:52:56,960

okay and now i'm going to bring it back

1507

00:53:00,710 --> 00:52:59,359

i'm going north north north north north

1508

00:53:02,710 --> 00:53:00,720

and as soon as i pass the north pole

1509

00:53:05,270 --> 00:53:02,720

look the compass did a 180 and now i'm

1510

00:53:08,470 --> 00:53:05,280

heading south south south in a straight

1511

00:53:10,470 --> 00:53:08,480

line every direction is south

1512

00:53:11,910 --> 00:53:10,480

and there's a

1513

00:53:13,430 --> 00:53:11,920

man see my uncle would know this he

1514

00:53:15,109 --> 00:53:13,440

would he he sailed on ships and he was

1515

00:53:16,549 --> 00:53:15,119

actually a captain for island stuff but

1516

00:53:17,829 --> 00:53:16,559

he dealt with

1517

00:53:20,390 --> 00:53:17,839

it so you know about this don't he text

1518

00:53:22,150 --> 00:53:20,400

me if i'm wrong but the um

1519

00:53:23,349 --> 00:53:22,160

there's a correction in there right when

1520

00:53:24,790 --> 00:53:23,359

they're when they're navigating isn't

1521

00:53:26,710 --> 00:53:24,800

there something that tells them how they

1522

00:53:28,710 --> 00:53:26,720

have to adjust their compass when

1523

00:53:31,109 --> 00:53:28,720

they're sailing near the magnetic

1524

00:53:32,390 --> 00:53:31,119

magnetic declination so at different

1525

00:53:34,309 --> 00:53:32,400

areas there's different magnetic

1526

00:53:36,549 --> 00:53:34,319

declinations so you got to look at it

1527

00:53:38,630 --> 00:53:36,559

and it says north is this way it goes

1528

00:53:40,390 --> 00:53:38,640

well north is actually 10 degrees off of

1529

00:53:41,829 --> 00:53:40,400

that you're like okay north is that way

1530

00:53:44,470 --> 00:53:41,839

and so you have to check your magnetic

1531

00:53:45,910 --> 00:53:44,480

declination now there's places in

1532

00:53:46,790 --> 00:53:45,920

antarctica

1533

00:53:47,750 --> 00:53:46,800

okay

1534

00:53:50,309 --> 00:53:47,760

um

1535

00:53:52,950 --> 00:53:50,319

i forget exactly where but when you're

1536

00:53:54,150 --> 00:53:52,960

here and your compass said says north is

1537

00:53:57,910 --> 00:53:54,160

this way

1538

00:53:59,589 --> 00:53:57,920

uh it's 107 degrees different so when it

1539

00:54:01,430 --> 00:53:59,599

says north is this way and you're

1540

00:54:04,710 --> 00:54:01,440

pointing towards the actual north it

1541

00:54:06,790 --> 00:54:04,720

tells you that north is behind you

1542

00:54:08,390 --> 00:54:06,800

and you believe that i'm assuming you

1543

00:54:10,710 --> 00:54:08,400

would believe that this is to keep

1544

00:54:12,950 --> 00:54:10,720

anyone from ever actually drifting past

1545

00:54:14,870 --> 00:54:12,960

the 60th parallel lying correct well the

1546

00:54:17,190 --> 00:54:14,880

first thing is compasses don't even work

1547

00:54:19,109 --> 00:54:17,200

in antarctica they work through horribly

1548

00:54:21,109 --> 00:54:19,119

true because you're too far away i mean

1549

00:54:23,030 --> 00:54:21,119

honestly if you're on a ball they should

1550

00:54:24,630 --> 00:54:23,040

never work because they'd be pointing

1551

00:54:26,390 --> 00:54:24,640

down towards your feet

1552

00:54:28,150 --> 00:54:26,400

okay but then people say well the

1553

00:54:29,670 --> 00:54:28,160

magnetic forces you know does it come

1554

00:54:31,589 --> 00:54:29,680

out the north pole and they wrap around

1555

00:54:33,030 --> 00:54:31,599

the earth just like the light wraps

1556

00:54:35,829 --> 00:54:33,040

around the earth

1557

00:54:38,150 --> 00:54:35,839

we can see too far magnetic lines go

1558

00:54:40,950 --> 00:54:38,160

straight across the earth plane there is

1559

00:54:43,030 --> 00:54:40,960

no gravity gravity is the dumbest thing

1560

00:54:45,750 --> 00:54:43,040

it's dumb but it's so dumb it's part of

1561

00:54:47,349 --> 00:54:45,760

the heliocentric model dom

1562

00:54:48,710 --> 00:54:47,359

how do we have these planetary

1563

00:54:49,910 --> 00:54:48,720

alignments

1564

00:54:51,190 --> 00:54:49,920

where all their gravities are

1565

00:54:54,309 --> 00:54:51,200

interacting

1566

00:54:55,109 --> 00:54:54,319

and nothing ever changes

1567

00:54:56,870 --> 00:54:55,119

okay

1568

00:54:59,190 --> 00:54:56,880

they're tightly locked like the moon

1569

00:55:01,589 --> 00:54:59,200

right with yours

1570

00:55:04,870 --> 00:55:01,599

you assume right don't make me put my

1571

00:55:08,230 --> 00:55:04,880

glasses back on um

1572

00:55:11,430 --> 00:55:08,240

think about this we have our distant sun

1573

00:55:14,150 --> 00:55:11,440

okay we have our sun which is a gas ball

1574

00:55:16,230 --> 00:55:14,160

in a space vacuum that's a problem okay

1575

00:55:18,630 --> 00:55:16,240

huge problem you got a gas ball space

1576
00:55:22,549 --> 00:55:18,640
vacuum and it's holding on to mercury

1577
00:55:24,150 --> 00:55:22,559
venus earth saturn mars right jupiter

1578
00:55:25,990 --> 00:55:24,160
it's holding on to all of them that are

1579
00:55:28,069 --> 00:55:26,000
such

1580
00:55:30,870 --> 00:55:28,079
vast distances apart

1581
00:55:32,789 --> 00:55:30,880
and somehow those little rocky balls are

1582
00:55:34,950 --> 00:55:32,799
holding on to their own small rocky

1583
00:55:35,910 --> 00:55:34,960
balls that we call moons

1584
00:55:38,630 --> 00:55:35,920
okay

1585
00:55:41,270 --> 00:55:38,640
why doesn't the sun

1586
00:55:44,789 --> 00:55:41,280
rip our moon away from us why when the

1587
00:55:47,109 --> 00:55:44,799
moon is coming around the earth towards

1588
00:55:49,030 --> 00:55:47,119

the sun doesn't it speed up because the

1589

00:55:51,670 --> 00:55:49,040

sun's pulling on it too

1590

00:55:53,670 --> 00:55:51,680

why does the sun's gravity ignore all

1591

00:55:54,789 --> 00:55:53,680

the moons and only hold on to the

1592

00:55:56,150 --> 00:55:54,799

planets

1593

00:55:57,990 --> 00:55:56,160

okay

1594

00:56:01,270 --> 00:55:58,000

the three body problem is this they

1595

00:56:03,109 --> 00:56:01,280

could take a world super computer

1596

00:56:05,030 --> 00:56:03,119

and they could put a sun in it and uh on

1597

00:56:07,430 --> 00:56:05,040

a planet and set it in orbit set to

1598

00:56:08,789 --> 00:56:07,440

gravities it works perfectly and they

1599

00:56:10,390 --> 00:56:08,799

can figure out where it's going to be

1600

00:56:11,589 --> 00:56:10,400

every second of every day for the next

1601
00:56:13,670 --> 00:56:11,599
million years

1602
00:56:16,150 --> 00:56:13,680
but then they do one thing they add

1603
00:56:18,630 --> 00:56:16,160
another moon going around the planet or

1604
00:56:22,549 --> 00:56:18,640
another planet going around the sun and

1605
00:56:24,230 --> 00:56:22,559
the entire model goes into beehive chaos

1606
00:56:26,710 --> 00:56:24,240
and they can't predict what it's going

1607
00:56:27,910 --> 00:56:26,720
to do next

1608
00:56:30,870 --> 00:56:27,920
i do

1609
00:56:33,750 --> 00:56:30,880
i know i i admit that it but but then it

1610
00:56:35,349 --> 00:56:33,760
stays the same right because we we have

1611
00:56:36,549 --> 00:56:35,359
and i've even brought this up before

1612
00:56:38,069 --> 00:56:36,559
when we're talking about ancient

1613
00:56:38,950 --> 00:56:38,079

megalithic structures and stuff saying

1614

00:56:42,870 --> 00:56:38,960

hey

1615

00:56:45,430 --> 00:56:42,880

basically ways to look at

1616

00:56:46,870 --> 00:56:45,440

uh astronomy and some of those same

1617

00:56:49,270 --> 00:56:46,880

keyholes as it were you know even the

1618

00:56:51,510 --> 00:56:49,280

georgia guide stones uses this

1619

00:56:52,789 --> 00:56:51,520

that they knew this is going to operate

1620

00:56:55,109 --> 00:56:52,799

the same

1621

00:56:56,710 --> 00:56:55,119

and i do believe that i thought that it

1622

00:56:58,789 --> 00:56:56,720

doesn't it's based off a north star but

1623

00:57:01,349 --> 00:56:58,799

doesn't that move isn't that moving over

1624

00:57:03,030 --> 00:57:01,359

time every like in 40 000 years it's

1625

00:57:05,990 --> 00:57:03,040

supposed to move a little bit isn't it

1626
00:57:08,470 --> 00:57:06,000
oh yeah it used to be thuben 40 000

1627
00:57:10,789 --> 00:57:08,480
years ago and then in 40 000 years ago

1628
00:57:12,710 --> 00:57:10,799
there's gonna be another star right

1629
00:57:15,030 --> 00:57:12,720
lined up there and we just happen to

1630
00:57:17,829 --> 00:57:15,040
live in the time where the north star

1631
00:57:20,230 --> 00:57:17,839
lines up with our north pole okay and it

1632
00:57:21,829 --> 00:57:20,240
hasn't moved in all of the history that

1633
00:57:23,589 --> 00:57:21,839
we know we'll just go back a hundred

1634
00:57:25,829 --> 00:57:23,599
years it hasn't moved when it should

1635
00:57:27,589 --> 00:57:25,839
have if it's moving it should be moving

1636
00:57:28,870 --> 00:57:27,599
but it doesn't you look at the georgia

1637
00:57:31,270 --> 00:57:28,880
guidestones

1638
00:57:33,750 --> 00:57:31,280

why work corkscrewing through space four

1639

00:57:36,230 --> 00:57:33,760

and a half billion miles a year right

1640

00:57:37,910 --> 00:57:36,240

never returning to the same spot again

1641

00:57:38,829 --> 00:57:37,920

all the other stars in our galaxy are

1642

00:57:41,589 --> 00:57:38,839

also

1643

00:57:42,710 --> 00:57:41,599

moving and somehow through this little

1644

00:57:44,950 --> 00:57:42,720

hole

1645

00:57:46,950 --> 00:57:44,960

we uh we have

1646

00:57:49,670 --> 00:57:46,960

the north star that when you do a time

1647

00:57:52,230 --> 00:57:49,680

lapse of it it show it shows all the

1648

00:57:55,910 --> 00:57:52,240

other stars going around this alone

1649

00:57:58,069 --> 00:57:55,920

proves that we're not moving and the sky

1650

00:57:59,109 --> 00:57:58,079

is turning above us whatever that sky

1651
00:58:05,829 --> 00:57:59,119
may be

1652
00:58:08,630 --> 00:58:05,839
far it's turning above us and there's no

1653
00:58:10,630 --> 00:58:08,640
denying that other than your

1654
00:58:13,829 --> 00:58:10,640
unwillingness to let go of your

1655
00:58:15,990 --> 00:58:13,839
childhood ball and face reality and

1656
00:58:18,870 --> 00:58:16,000
realize that we've been lied to our

1657
00:58:20,789 --> 00:58:18,880
entire lives okay if i told you that

1658
00:58:22,549 --> 00:58:20,799
your parents are you adopted before i

1659
00:58:23,589 --> 00:58:22,559
tell you this i was

1660
00:58:24,950 --> 00:58:23,599
you were

1661
00:58:26,870 --> 00:58:24,960
partially

1662
00:58:28,309 --> 00:58:26,880
adopted well if i told you that your

1663
00:58:29,750 --> 00:58:28,319

parents were serial killers and every

1664

00:58:32,549 --> 00:58:29,760

time you went to bed they go out and

1665

00:58:34,150 --> 00:58:32,559

they eat children you'd be pretty upset

1666

00:58:36,309 --> 00:58:34,160

and you probably wouldn't even want to

1667

00:58:38,870 --> 00:58:36,319

look at the information for sure sure

1668

00:58:43,670 --> 00:58:41,109

cognitive dissonance is a big problem

1669

00:58:45,990 --> 00:58:43,680

and so and and it's because you you've

1670

00:58:47,990 --> 00:58:46,000

been you you built a whole world view

1671

00:58:49,990 --> 00:58:48,000

around them right everyone has their

1672

00:58:53,670 --> 00:58:50,000

world view and this world view was put

1673

00:58:57,510 --> 00:58:53,680

on us on purpose to limit us we are

1674

00:59:01,190 --> 00:58:57,520

limitless we have amazing abilities that

1675

00:59:02,870 --> 00:59:01,200

have been stolen from us the reason

1676

00:59:05,190 --> 00:59:02,880

that they're hiding

1677

00:59:07,190 --> 00:59:05,200

all of this from us isn't about money

1678

00:59:09,589 --> 00:59:07,200

it's about controlling our minds

1679

00:59:12,150 --> 00:59:09,599

separating us from the creator

1680

00:59:15,510 --> 00:59:12,160

and limiting our powers and literally

1681

00:59:16,789 --> 00:59:15,520

keeping us here as slaves okay

1682

00:59:20,069 --> 00:59:16,799

yeah

1683

00:59:22,630 --> 00:59:20,079

well to that though i mean it to my mind

1684

00:59:24,150 --> 00:59:22,640

if what you're saying is true right if

1685

00:59:25,510 --> 00:59:24,160

we're saying that we don't know how many

1686

00:59:28,069 --> 00:59:25,520

other

1687

00:59:31,190 --> 00:59:28,079

extra territories or uh land could be

1688

00:59:32,630 --> 00:59:31,200

out there that's kind of exciting yes

1689

00:59:34,150 --> 00:59:32,640

and it's here

1690

00:59:36,470 --> 00:59:34,160

it's close by

1691

00:59:37,910 --> 00:59:36,480

right there's x you know i did this um i

1692

00:59:39,829 --> 00:59:37,920

drove back from the flat earth

1693

00:59:42,630 --> 00:59:39,839

conference in south carolina and i

1694

00:59:45,510 --> 00:59:42,640

listened on uh audiobook

1695

00:59:46,950 --> 00:59:45,520

to the iron republic which is the story

1696

00:59:49,270 --> 00:59:46,960

yeah did you watch it did you know where

1697

00:59:52,150 --> 00:59:49,280

to read it i have started i'm a couple

1698

00:59:53,829 --> 00:59:52,160

chapters in yeah it's so good it's so

1699

00:59:56,069 --> 00:59:53,839

good and now whether the iron republic

1700

00:59:59,349 --> 00:59:56,079

is real or not

1701

01:00:00,549 --> 00:59:59,359

if it's real okay flat earth proven if

1702

01:00:03,109 --> 01:00:00,559

it's not

1703

01:00:06,069 --> 01:00:03,119

how were people in the 1890s and the

1704

01:00:08,470 --> 01:00:06,079

early late 1800s early 1900s had all of

1705

01:00:09,829 --> 01:00:08,480

these ideas about technology and

1706

01:00:12,630 --> 01:00:09,839

government and

1707

01:00:14,630 --> 01:00:12,640

and and the world being flat and and you

1708

01:00:19,109 --> 01:00:14,640

know where we are i mean

1709

01:00:20,870 --> 01:00:19,119

it's the story is so intense so immense

1710

01:00:22,710 --> 01:00:20,880

that it's almost impossible for it to be

1711

01:00:24,069 --> 01:00:22,720

a story in my opinion

1712

01:00:25,829 --> 01:00:24,079

and that is something that's been pretty

1713

01:00:26,789 --> 01:00:25,839

uh earth shaking in some ways too is

1714

01:00:28,630 --> 01:00:26,799

finding out a lot of the information

1715

01:00:31,750 --> 01:00:28,640

about the mud floods and what took place

1716

01:00:33,750 --> 01:00:31,760

and how we we've essentially excavated a

1717

01:00:35,030 --> 01:00:33,760

lot of our history because we always

1718

01:00:36,789 --> 01:00:35,040

talk about ancient egypt and different

1719

01:00:38,589 --> 01:00:36,799

megalithic structures but there's some

1720

01:00:40,630 --> 01:00:38,599

structures that were built even in the

1721

01:00:41,670 --> 01:00:40,640

mid-1800s that if you just stop and

1722

01:00:42,549 --> 01:00:41,680

think about it for a minute you're gonna

1723

01:00:43,910 --> 01:00:42,559

go with that

1724

01:00:46,630 --> 01:00:43,920

dynamite

1725

01:00:48,390 --> 01:00:46,640

possible impossible you look at these

1726

01:00:49,910 --> 01:00:48,400

buildings that we could

1727

01:00:52,630 --> 01:00:49,920

we couldn't even build today the

1728

01:00:54,710 --> 01:00:52,640

antiquitech on them it's their

1729

01:00:56,549 --> 01:00:54,720

their technology is so far beyond

1730

01:00:58,069 --> 01:00:56,559

anything that we can even imagine and

1731

01:00:59,670 --> 01:00:58,079

then you look at the pictures it's like

1732

01:01:02,470 --> 01:00:59,680

there's nobody around there's like a

1733

01:01:04,789 --> 01:01:02,480

horse and buggy and two people maybe

1734

01:01:06,230 --> 01:01:04,799

like who built this or who how did they

1735

01:01:08,069 --> 01:01:06,240

build it with horses and buggies we

1736

01:01:10,710 --> 01:01:08,079

couldn't build it with today's you know

1737

01:01:11,990 --> 01:01:10,720

greatest cranes and greatest masons

1738

01:01:15,510 --> 01:01:12,000

all of that and for all of that

1739

01:01:18,309 --> 01:01:15,520

technology was is been stolen from us

1740

01:01:20,630 --> 01:01:18,319

right now who stole it i don't know

1741

01:01:22,870 --> 01:01:20,640

right the evil bastards here you know

1742

01:01:24,789 --> 01:01:22,880

that you can point to a lot of the

1743

01:01:27,670 --> 01:01:24,799

you know religious institutions that are

1744

01:01:29,990 --> 01:01:27,680

controlling things so

1745

01:01:35,589 --> 01:01:32,230

dad well i was just saying i had i had a

1746

01:01:37,030 --> 01:01:35,599

question from um matt uh mata or matt i

1747

01:01:38,390 --> 01:01:37,040

believe it's mad if i'm saying your your

1748

01:01:39,829 --> 01:01:38,400

name wrong i apologize i believe you're

1749

01:01:40,950 --> 01:01:39,839

new to the channel so i appreciate you

1750

01:01:43,109 --> 01:01:40,960

and they have a lot of questions and i

1751

01:01:44,150 --> 01:01:43,119

apologize i can't ask all of them no ask

1752

01:01:46,150 --> 01:01:44,160

them all

1753

01:01:47,750 --> 01:01:46,160

um well he's pretty fired up so i'm

1754

01:01:49,109 --> 01:01:47,760

trying i'm trying to get through them uh

1755

01:01:51,990 --> 01:01:49,119

and make sure i asked right one he had a

1756

01:01:53,030 --> 01:01:52,000

specific question there was a let's see

1757

01:01:54,710 --> 01:01:53,040

because i want to make sure i read right

1758

01:01:56,870 --> 01:01:54,720

it had to do with compressed gas and

1759

01:01:57,670 --> 01:01:56,880

pressure i'm almost back to his original

1760

01:01:59,190 --> 01:01:57,680

question

1761

01:02:01,349 --> 01:01:59,200

i believe he said right here atmospheric

1762

01:02:02,950 --> 01:02:01,359

pressure is not the same as a compressed

1763

01:02:04,390 --> 01:02:02,960

gas pressure

1764

01:02:07,430 --> 01:02:04,400

so yeah

1765

01:02:09,430 --> 01:02:07,440

well so so again

1766

01:02:11,990 --> 01:02:09,440

there's a there is a gradient you can

1767

01:02:14,150 --> 01:02:12,000

take a container of gas

1768

01:02:15,910 --> 01:02:14,160

and there's it's heavier on the bottom

1769

01:02:17,750 --> 01:02:15,920

and lighter on the top inside a

1770

01:02:19,430 --> 01:02:17,760

container of gas

1771

01:02:21,829 --> 01:02:19,440

it's pressurized because it's in a

1772

01:02:24,309 --> 01:02:21,839

container air pressure

1773

01:02:26,710 --> 01:02:24,319

needs a container you need to have a

1774

01:02:29,109 --> 01:02:26,720

container to have pressure there's

1775

01:02:30,950 --> 01:02:29,119

something for it to press against right

1776

01:02:32,789 --> 01:02:30,960

now the globals will go well you know

1777

01:02:34,230 --> 01:02:32,799

here's a gas without a container and

1778

01:02:36,710 --> 01:02:34,240

they have a pipe and they fill it with

1779

01:02:37,910 --> 01:02:36,720

gas it has no top that pipe is a

1780

01:02:38,789 --> 01:02:37,920

container

1781

01:02:43,910 --> 01:02:38,799

okay

1782

01:02:45,750 --> 01:02:43,920

you know you can put one gas into a tank

1783

01:02:48,710 --> 01:02:45,760

and have the tank open because it's

1784

01:02:50,150 --> 01:02:48,720

denser and it doesn't float out

1785

01:02:51,510 --> 01:02:50,160

you can't have gas pressure without a

1786

01:02:52,630 --> 01:02:51,520

container

1787

01:02:53,829 --> 01:02:52,640

we'll see what they end up saying i'm

1788

01:02:55,349 --> 01:02:53,839

sure they'll have an opinion about that

1789

01:02:56,950 --> 01:02:55,359

another one from our my good buddy here

1790

01:02:57,829 --> 01:02:56,960

chad smith chad smith you're doing so

1791

01:02:59,029 --> 01:02:57,839

much work in there with the wrench

1792

01:03:00,390 --> 01:02:59,039

tonight i appreciate it i know they're

1793

01:03:02,309 --> 01:03:00,400

fired up over there so i appreciate you

1794

01:03:03,910 --> 01:03:02,319

doing all the hard work tonight um he

1795

01:03:05,430 --> 01:03:03,920

said you know 32 years here on the earth

1796

01:03:06,630 --> 01:03:05,440

for him he said from what i can tell

1797

01:03:08,710 --> 01:03:06,640

covering up the whole shape of the

1798

01:03:11,270 --> 01:03:08,720

planet would be a giant waste of time

1799

01:03:12,549 --> 01:03:11,280

compared to all the other issues we have

1800

01:03:15,510 --> 01:03:12,559

he said that's just my humble you know

1801
01:03:16,950 --> 01:03:15,520
just his opinion that was mine too

1802
01:03:19,430 --> 01:03:16,960
so the answer

1803
01:03:21,109 --> 01:03:19,440
the answer to that is

1804
01:03:24,230 --> 01:03:21,119
with all the problems going on in the

1805
01:03:26,150 --> 01:03:24,240
world it's because of this lie it's

1806
01:03:27,829 --> 01:03:26,160
because if you're spinning out of

1807
01:03:30,390 --> 01:03:27,839
control

1808
01:03:32,069 --> 01:03:30,400
on a spec to a godless universe

1809
01:03:34,309 --> 01:03:32,079
where you don't know who you are where

1810
01:03:36,870 --> 01:03:34,319
you are what you are you don't know that

1811
01:03:39,589 --> 01:03:36,880
nobody has power over you

1812
01:03:41,589 --> 01:03:39,599
the only power that these governments

1813
01:03:43,349 --> 01:03:41,599

the mind control government govern the

1814

01:03:46,390 --> 01:03:43,359

mind okay

1815

01:03:48,710 --> 01:03:46,400

have is in your imagination right they

1816

01:03:50,390 --> 01:03:48,720

don't want you to know that you're free

1817

01:03:52,789 --> 01:03:50,400

they don't want you to know that there's

1818

01:03:56,309 --> 01:03:52,799

unlimited resources they don't want you

1819

01:03:58,789 --> 01:03:56,319

to know that nuclear bombs are fake they

1820

01:04:00,390 --> 01:03:58,799

don't want you that's a hard one i will

1821

01:04:01,910 --> 01:04:00,400

dude the first time i heard someone and

1822

01:04:04,069 --> 01:04:01,920

i'm still

1823

01:04:06,549 --> 01:04:04,079

well that's a lot you gotta go to crow

1824

01:04:09,750 --> 01:04:06,559

triple seven radio look up the nuclear

1825

01:04:11,990 --> 01:04:09,760

bomb episode in one hour they will

1826

01:04:14,150 --> 01:04:12,000

prove to you that nuclear bombs are fake

1827

01:04:15,829 --> 01:04:14,160

just real quick hiroshima nagasaki three

1828

01:04:17,349 --> 01:04:15,839

days later the trains are running the

1829

01:04:18,950 --> 01:04:17,359

flower shops are opening the sandwich

1830

01:04:21,430 --> 01:04:18,960

shops are opening people are back to

1831

01:04:23,910 --> 01:04:21,440

work okay and nobody's allowed to take a

1832

01:04:25,029 --> 01:04:23,920

picture or write an article except one

1833

01:04:26,710 --> 01:04:25,039

guy

1834

01:04:29,349 --> 01:04:26,720

and if you took a picture

1835

01:04:31,430 --> 01:04:29,359

you were put in jail if you wrote an

1836

01:04:32,470 --> 01:04:31,440

article you were put in jail

1837

01:04:34,630 --> 01:04:32,480

okay

1838

01:04:37,510 --> 01:04:34,640

they have less cancer there than we have

1839

01:04:40,230 --> 01:04:37,520

in the united states okay it's nonsense

1840

01:04:42,630 --> 01:04:40,240

it's all nonsense and there's video of

1841

01:04:45,109 --> 01:04:42,640

them stacking cases and pallets and

1842

01:04:48,470 --> 01:04:45,119

pallets of tnt at what they call ground

1843

01:04:51,349 --> 01:04:48,480

zero prior to the blast okay

1844

01:04:54,789 --> 01:04:51,359

and all around city all of the buildings

1845

01:04:57,349 --> 01:04:54,799

that had fireproofing didn't collapse

1846

01:04:59,029 --> 01:04:57,359

and the ones that didn't did burn down

1847

01:05:01,510 --> 01:04:59,039

does that sound like a nuclear bomb not

1848

01:05:06,390 --> 01:05:03,750

it's all about fear all the wars are

1849

01:05:08,710 --> 01:05:06,400

funded by the same people on both sides

1850

01:05:11,829 --> 01:05:08,720

all this division of countries is

1851

01:05:14,549 --> 01:05:11,839

nonsense it's fake it's all to divide us

1852

01:05:16,710 --> 01:05:14,559

we were one human race look into tataria

1853

01:05:18,150 --> 01:05:16,720

on the app flatter sun moon and zodiac

1854

01:05:20,829 --> 01:05:18,160

clock app i'm here to sell a three

1855

01:05:21,029 --> 01:05:20,839

dollar app that's all in the show

1856

01:05:24,069 --> 01:05:21,039

guys you to sell you a three dollar app

1857

01:05:33,910 --> 01:05:25,190

all right

1858

01:05:35,750 --> 01:05:33,920

button

1859

01:05:37,589 --> 01:05:35,760

and bring food and water because you're

1860

01:05:38,870 --> 01:05:37,599

going in deep mm-hmm

1861

01:05:40,390 --> 01:05:38,880

one last question here really quick are

1862

01:05:41,270 --> 01:05:40,400

two i got for you uh lee just asked and

1863

01:05:42,950 --> 01:05:41,280

i believe you covered this already a

1864

01:05:44,630 --> 01:05:42,960

little bit uh why does water form us

1865

01:05:47,029 --> 01:05:44,640

well i'll i'll hear your opinion why

1866

01:05:49,190 --> 01:05:47,039

does water form spheres is what you look

1867

01:05:51,190 --> 01:05:49,200

like water does not form spheres a drop

1868

01:05:53,670 --> 01:05:51,200

of water where the surface tension can

1869

01:05:55,589 --> 01:05:53,680

create a sphere is because of the way

1870

01:05:57,430 --> 01:05:55,599

surface tension works

1871

01:05:59,270 --> 01:05:57,440

a large body of water

1872

01:06:01,990 --> 01:05:59,280

five gallons or more

1873

01:06:05,109 --> 01:06:02,000

lays flat at rest period large bodies of

1874

01:06:07,430 --> 01:06:05,119

water at rest flat we can see too far i

1875

01:06:09,750 --> 01:06:07,440

don't know how far that we have to see

1876

01:06:12,549 --> 01:06:09,760

um for someone to believe that the earth

1877

01:06:14,390 --> 01:06:12,559

is in the flesh it is isn't a ball

1878

01:06:16,390 --> 01:06:14,400

a baller would believe that this is the

1879

01:06:18,230 --> 01:06:16,400

physical horizon this is a famous

1880

01:06:19,750 --> 01:06:18,240

viewing spot from illusion france when

1881

01:06:23,109 --> 01:06:19,760

you're looking out here

1882

01:06:25,750 --> 01:06:23,119

uh mount canada is 175 miles away at

1883

01:06:28,309 --> 01:06:25,760

that height according to globe math not

1884

01:06:30,150 --> 01:06:28,319

flat earth mass glow bath the top of

1885

01:06:33,990 --> 01:06:30,160

that mountain

1886

01:06:36,549 --> 01:06:34,000

should be over a mile below the physical

1887

01:06:39,589 --> 01:06:36,559

horizon right if the earth is a ball

1888

01:06:40,549 --> 01:06:39,599

there has to be a physical horizon okay

1889

01:06:43,349 --> 01:06:40,559

and

1890

01:06:45,990 --> 01:06:43,359

from this altitude at this location

1891

01:06:49,109 --> 01:06:46,000

uh that physical horizon uh would put

1892

01:06:51,190 --> 01:06:49,119

the top of the mountain at a mile below

1893

01:06:53,670 --> 01:06:51,200

but on a couple days a year when the sun

1894

01:06:54,950 --> 01:06:53,680

lines up on its on its migration

1895

01:06:56,710 --> 01:06:54,960

you can see the mountain right there

1896

01:06:58,309 --> 01:06:56,720

where the mouse is that should be a mile

1897

01:07:01,670 --> 01:06:58,319

below the curve but it's right there and

1898

01:07:04,710 --> 01:07:01,680

the ballers will go oh that's because uh

1899

01:07:05,910 --> 01:07:04,720

that's because the the the sun and the

1900

01:07:08,069 --> 01:07:05,920

mountain are over the earth and it's

1901
01:07:09,910 --> 01:07:08,079
refracting up and it's staying there

1902
01:07:11,750 --> 01:07:09,920
right at at um

1903
01:07:13,029 --> 01:07:11,760
it's all about eye level yeah it's

1904
01:07:14,470 --> 01:07:13,039
already refraction right there at eye

1905
01:07:16,390 --> 01:07:14,480
level and the refraction is good enough

1906
01:07:18,789 --> 01:07:16,400
to block out the sun you know my answer

1907
01:07:20,230 --> 01:07:18,799
to that is

1908
01:07:22,150 --> 01:07:20,240
you know one last thing i'd like to

1909
01:07:23,829 --> 01:07:22,160
leave people with and matt i i apologize

1910
01:07:25,430 --> 01:07:23,839
i mean obviously if you do email david

1911
01:07:26,870 --> 01:07:25,440
if you have your own podcast i guess a

1912
01:07:28,950 --> 01:07:26,880
lot of questions sorry to get to get to

1913
01:07:30,789 --> 01:07:28,960

all of them there but i know we only had

1914

01:07:32,150 --> 01:07:30,799

day for about an hour here but i would

1915

01:07:33,990 --> 01:07:32,160

love if you could just throw up the

1916

01:07:35,829 --> 01:07:34,000

video if you wouldn't mind

1917

01:07:37,910 --> 01:07:35,839

showing that you did in your your

1918

01:07:39,670 --> 01:07:37,920

kitchen there because i think this is an

1919

01:07:41,829 --> 01:07:39,680

important one for perspective at the sun

1920

01:07:43,029 --> 01:07:41,839

setting and why we can see so far if i'm

1921

01:07:45,349 --> 01:07:43,039

correct if i'm wrong but i believe it's

1922

01:07:46,470 --> 01:07:45,359

what every eight miles

1923

01:07:48,710 --> 01:07:46,480

we drew

1924

01:07:52,470 --> 01:07:48,720

no no it's no no no

1925

01:07:54,950 --> 01:07:52,480

it's it's eight inches per mile squared

1926

01:07:57,190 --> 01:07:54,960

because the earth is diving off faster

1927

01:07:58,950 --> 01:07:57,200

and faster um you have to square the

1928

01:08:01,029 --> 01:07:58,960

miles so one mile to eight inches two

1929

01:08:03,510 --> 01:08:01,039

miles it's two times two is four

1930

01:08:06,549 --> 01:08:03,520

times eight is 32 inches three miles is

1931

01:08:09,029 --> 01:08:06,559

six feet so if the earth is a globe

1932

01:08:11,589 --> 01:08:09,039

a six foot tall person standing at the

1933

01:08:14,470 --> 01:08:11,599

edge of a calm ocean

1934

01:08:18,630 --> 01:08:14,480

should have a physical horizon

1935

01:08:20,630 --> 01:08:18,640

no farther than three miles away

1936

01:08:23,990 --> 01:08:20,640

well i can go to a common ocean and

1937

01:08:27,110 --> 01:08:24,000

watch the sunset and the boats and their

1938

01:08:29,990 --> 01:08:27,120

10 20 30 miles away okay

1939

01:08:31,669 --> 01:08:30,000

well that's impossible that's impossible

1940

01:08:33,829 --> 01:08:31,679

right so

1941

01:08:36,149 --> 01:08:33,839

we're we're jumping into the sun setting

1942

01:08:38,550 --> 01:08:36,159

so you know this is the sun setting in

1943

01:08:42,070 --> 01:08:38,560

afghanistan as one of our soldiers took

1944

01:08:43,189 --> 01:08:42,080

it and it's just going away

1945

01:08:44,950 --> 01:08:43,199

so

1946

01:08:46,950 --> 01:08:44,960

this is because there's no humidity

1947

01:08:49,430 --> 01:08:46,960

there's no pollution it's a super clear

1948

01:08:50,950 --> 01:08:49,440

day and the sun is clearly just moving

1949

01:08:52,309 --> 01:08:50,960

away so when they say well if the earth

1950

01:08:54,229 --> 01:08:52,319

was flat the sun would get smaller and

1951

01:08:56,470 --> 01:08:54,239

smaller atmospheric conditions have

1952

01:08:58,309 --> 01:08:56,480

everything to do with it and the reason

1953

01:08:59,749 --> 01:08:58,319

it looks like it's going down is because

1954

01:09:02,149 --> 01:08:59,759

of angular

1955

01:09:04,870 --> 01:09:02,159

um the way we see it so this line is

1956

01:09:07,349 --> 01:09:04,880

level it's over my flat earth counter

1957

01:09:10,149 --> 01:09:07,359

and i'm moving the sun across it viewing

1958

01:09:12,709 --> 01:09:10,159

it from a celestial vantage point from

1959

01:09:14,550 --> 01:09:12,719

an elevated vantage point

1960

01:09:17,590 --> 01:09:14,560

this could be mountains of city skyline

1961

01:09:19,189 --> 01:09:17,600

trees or cloud deck whatever i'm above

1962

01:09:20,950 --> 01:09:19,199

it it's opaque

1963

01:09:22,470 --> 01:09:20,960

now i have another camera that's on the

1964

01:09:25,030 --> 01:09:22,480

flat earth counter at the other end

1965

01:09:26,630 --> 01:09:25,040

where it started and i'm filming looking

1966

01:09:28,070 --> 01:09:26,640

up at it and we'll watch it again from

1967

01:09:30,309 --> 01:09:28,080

the other angle

1968

01:09:31,829 --> 01:09:30,319

kind of looks like it's going down

1969

01:09:34,229 --> 01:09:31,839

if i showed you this first and said is

1970

01:09:36,550 --> 01:09:34,239

this line level you'd say no i'd say is

1971

01:09:38,470 --> 01:09:36,560

this going below this thing that's at my

1972

01:09:39,749 --> 01:09:38,480

eye level it looks like it's at my eye

1973

01:09:41,669 --> 01:09:39,759

level because it's in the distance but

1974

01:09:44,070 --> 01:09:41,679

we know it's higher

1975

01:09:47,430 --> 01:09:44,080

it looks like it's setting behind it

1976

01:09:51,030 --> 01:09:47,440

behind a physical horizon when we know

1977

01:09:52,550 --> 01:09:51,040

that it's higher now i'll compare it

1978

01:09:53,829 --> 01:09:52,560

to a real sunset

1979

01:09:55,910 --> 01:09:53,839

same thing

1980

01:09:56,790 --> 01:09:55,920

sun's been going down down down down but

1981

01:09:59,350 --> 01:09:56,800

look

1982

01:10:01,510 --> 01:09:59,360

what's it going behind here is that a

1983

01:10:03,430 --> 01:10:01,520

transaction is that a mountain in the

1984

01:10:05,350 --> 01:10:03,440

distance that we can't see or is that

1985

01:10:07,270 --> 01:10:05,360

just going behind the atmospheric deck

1986

01:10:09,669 --> 01:10:07,280

of opacity i say it's the atmospheric

1987

01:10:11,350 --> 01:10:09,679

deck of opacity and that's provable if i

1988

01:10:13,430 --> 01:10:11,360

zoomed out you could not see the

1989

01:10:15,910 --> 01:10:13,440

difference between that line and the

1990

01:10:19,350 --> 01:10:15,920

parent horizon because it all merges

1991

01:10:20,870 --> 01:10:19,360

together into the horizon right

1992

01:10:23,510 --> 01:10:20,880

you can only see so far i mean that's

1993

01:10:25,350 --> 01:10:23,520

the other well we see too far i this

1994

01:10:27,669 --> 01:10:25,360

here's the main thing i'll say go ahead

1995

01:10:30,070 --> 01:10:27,679

let me just show you this so

1996

01:10:32,630 --> 01:10:30,080

i'm filming this it's below freezing no

1997

01:10:34,709 --> 01:10:32,640

humidity super clear and the sun is just

1998

01:10:36,550 --> 01:10:34,719

the sun was going down down down down in

1999

01:10:37,990 --> 01:10:36,560

five minutes times it went from up there

2000

01:10:39,830 --> 01:10:38,000

and it should just keep on going if the

2001
01:10:42,149 --> 01:10:39,840
earth was spinning but it didn't it went

2002
01:10:44,149 --> 01:10:42,159
down down down down down

2003
01:10:46,630 --> 01:10:44,159
and then it stopped

2004
01:10:49,110 --> 01:10:46,640
and it sat here for 10 minutes this is

2005
01:10:51,350 --> 01:10:49,120
super sped up and it never went below

2006
01:10:52,950 --> 01:10:51,360
this apparent horizon it just

2007
01:10:55,030 --> 01:10:52,960
disappeared

2008
01:10:57,830 --> 01:10:55,040
into the thickness of the air because

2009
01:11:00,310 --> 01:10:57,840
its throw of energy its throw of light

2010
01:11:02,950 --> 01:11:00,320
its throw of electricity

2011
01:11:04,149 --> 01:11:02,960
couldn't excite the molecules anymore it

2012
01:11:05,750 --> 01:11:04,159
couldn't push through i'm just going

2013
01:11:07,750 --> 01:11:05,760

forward and backwards here

2014

01:11:09,189 --> 01:11:07,760

okay and that's what happens when the

2015

01:11:10,470 --> 01:11:09,199

sun goes away now my friends were at the

2016

01:11:12,630 --> 01:11:10,480

beach

2017

01:11:13,910 --> 01:11:12,640

they saw the sun set 10 minutes earlier

2018

01:11:17,669 --> 01:11:13,920

just like i did in the flat earth

2019

01:11:20,310 --> 01:11:17,679

counter because the sun went away

2020

01:11:21,189 --> 01:11:20,320

and it set behind

2021

01:11:34,950 --> 01:11:21,199

the

2022

01:11:36,149 --> 01:11:34,960

on fire tonight you guys i got a lot of

2023

01:11:37,750 --> 01:11:36,159

opinions over there what i would say

2024

01:11:39,270 --> 01:11:37,760

about this and i would put this out to

2025

01:11:40,470 --> 01:11:39,280

anybody is that i don't want you coming

2026

01:11:41,830 --> 01:11:40,480

away from this

2027

01:11:43,430 --> 01:11:41,840

regardless of your decisions and point

2028

01:11:44,470 --> 01:11:43,440

of views saying well they've convinced

2029

01:11:46,229 --> 01:11:44,480

me or dave didn't convince me what i

2030

01:11:48,070 --> 01:11:46,239

want you to be is curious so guys keep

2031

01:11:50,229 --> 01:11:48,080

it respectful of each other opinions

2032

01:11:51,669 --> 01:11:50,239

have them i'm okay with that but maybe

2033

01:11:52,709 --> 01:11:51,679

easy on the personal tax now we've had

2034

01:11:54,630 --> 01:11:52,719

too many but

2035

01:11:56,709 --> 01:11:54,640

it's just to talk about this and it

2036

01:11:58,630 --> 01:11:56,719

should make you ask questions and i

2037

01:12:01,110 --> 01:11:58,640

understand you guys are fired up but

2038

01:12:02,630 --> 01:12:01,120

it's simply to say go look this up

2039

01:12:05,110 --> 01:12:02,640

dave is offering dave correct me wrong

2040

01:12:06,870 --> 01:12:05,120

get the app what is it ten days three

2041

01:12:07,910 --> 01:12:06,880

bitcoins two weeks

2042

01:12:08,950 --> 01:12:07,920

i don't know what they're going for my

2043

01:12:10,709 --> 01:12:08,960

brother but no my brother's a day

2044

01:12:11,510 --> 01:12:10,719

trading for that stuff yeah i think yeah

2045

01:12:12,950 --> 01:12:11,520

it's right

2046

01:12:15,910 --> 01:12:12,960

up 67

2047

01:12:17,270 --> 01:12:15,920

well whatever it's a 180 100

2048

01:12:19,270 --> 01:12:17,280

whatever it is hold it it'll be worth

2049

01:12:22,870 --> 01:12:19,280

even more later right but here's the

2050

01:12:24,790 --> 01:12:22,880

thing if you're upset with me one proof

2051

01:12:26,950 --> 01:12:24,800

of the globe one all you gotta do is

2052

01:12:29,350 --> 01:12:26,960

send it to me if i can't

2053

01:12:32,229 --> 01:12:29,360

destroy it in one sentence or show you

2054

01:12:35,189 --> 01:12:32,239

one video explaining what you're seeing

2055

01:12:36,470 --> 01:12:35,199

then you come on our debate show

2056

01:12:38,070 --> 01:12:36,480

you present

2057

01:12:40,790 --> 01:12:38,080

and we discuss

2058

01:12:41,590 --> 01:12:40,800

and if you're right you win

2059

01:12:43,030 --> 01:12:41,600

yeah

2060

01:12:45,030 --> 01:12:43,040

and you know what i would really love to

2061

01:12:46,310 --> 01:12:45,040

see dave and this is to another thing

2062

01:12:47,990 --> 01:12:46,320

that kind of got me back on board is i

2063

01:12:49,270 --> 01:12:48,000

like neil degrasse tyson right right i

2064

01:12:51,830 --> 01:12:49,280

really liked him he's got a great boy he

2065

01:12:54,630 --> 01:12:51,840

said listen poor judgment

2066

01:12:56,709 --> 01:12:54,640

i said i liked that's past tense i still

2067

01:12:57,990 --> 01:12:56,719

respect the man if some of the

2068

01:13:00,470 --> 01:12:58,000

accomplishments he's accomplished if he

2069

01:13:01,990 --> 01:13:00,480

did he did okay but did nothing what i

2070

01:13:03,030 --> 01:13:02,000

will say is where i when he lost me a

2071

01:13:04,470 --> 01:13:03,040

little bit is when you guys ask some

2072

01:13:06,070 --> 01:13:04,480

questions and some people ask legitimate

2073

01:13:07,590 --> 01:13:06,080

questions that said explain gravity to

2074

01:13:09,430 --> 01:13:07,600

me a little bit and easy how little mike

2075

01:13:11,590 --> 01:13:09,440

i don't know what gravity is he just oh

2076

01:13:12,790 --> 01:13:11,600

he dropped the microphone yeah to me

2077

01:13:14,950 --> 01:13:12,800

that was a little insulting because like

2078

01:13:16,790 --> 01:13:14,960

i said for me recognize my own ignorance

2079

01:13:19,270 --> 01:13:16,800

and i wanted an answer i said hey help

2080

01:13:20,790 --> 01:13:19,280

me out here right educate me i

2081

01:13:22,709 --> 01:13:20,800

understand you say 96 percent of you

2082

01:13:24,790 --> 01:13:22,719

don't understand but like what are we

2083

01:13:25,910 --> 01:13:24,800

dealing with and if it is a magnetism

2084

01:13:27,830 --> 01:13:25,920

thing would that make sense why wouldn't

2085

01:13:29,110 --> 01:13:27,840

we touch uh what are those little balls

2086

01:13:30,709 --> 01:13:29,120

you go to the science museum you touch

2087

01:13:32,229 --> 01:13:30,719

them and your hair would stand up is it

2088

01:13:34,229 --> 01:13:32,239

simply just a negative and positive

2089

01:13:35,910 --> 01:13:34,239

charge it's affecting

2090

01:13:38,149 --> 01:13:35,920

i mean i don't know i'm not saying i

2091

01:13:39,350 --> 01:13:38,159

know any of this stuff but i'm curious

2092

01:13:41,510 --> 01:13:39,360

yeah

2093

01:13:43,510 --> 01:13:41,520

here here's the thing

2094

01:13:45,510 --> 01:13:43,520

we don't live on a spinning ball

2095

01:13:47,830 --> 01:13:45,520

you're not insignificant

2096

01:13:50,229 --> 01:13:47,840

you're at the center of creation

2097

01:13:52,630 --> 01:13:50,239

you have total control over your life

2098

01:13:56,070 --> 01:13:52,640

there's no shortage of resources

2099

01:13:57,910 --> 01:13:56,080

there's no systemic racism there's none

2100

01:13:59,910 --> 01:13:57,920

of the nonsense that they want they're

2101
01:14:02,950 --> 01:13:59,920
steering your mind with the news north

2102
01:14:05,990 --> 01:14:02,960
east west south okay they're they're

2103
01:14:08,149 --> 01:14:06,000
controlling the limit of the throw of

2104
01:14:09,270 --> 01:14:08,159
your manifestation ability because

2105
01:14:10,550 --> 01:14:09,280
you've got no place to throw it to

2106
01:14:12,390 --> 01:14:10,560
you're on a ball

2107
01:14:15,189 --> 01:14:12,400
and on that ball you think that it's

2108
01:14:16,870 --> 01:14:15,199
overpopulated every family in the world

2109
01:14:20,870 --> 01:14:16,880
can live in texas with a quarter of an

2110
01:14:23,350 --> 01:14:20,880
acre and they can grow food and

2111
01:14:26,709 --> 01:14:23,360
it the overpopulation is a myth water's

2112
01:14:29,750 --> 01:14:26,719
a mess no shortage of water

2113
01:14:32,870 --> 01:14:29,760

all of it they want you insignificant

2114

01:14:35,510 --> 01:14:32,880

lost in space not knowing who you are

2115

01:14:37,590 --> 01:14:35,520

taking poisons when natural things can

2116

01:14:40,390 --> 01:14:37,600

help you that's all i'll say about that

2117

01:14:42,310 --> 01:14:40,400

they don't they they they want you

2118

01:14:45,030 --> 01:14:42,320

thinking that you're flawed and that you

2119

01:14:47,830 --> 01:14:45,040

need to trust big corporations to fix

2120

01:14:51,910 --> 01:14:47,840

your flawed system that keeps you

2121

01:14:54,830 --> 01:14:51,920

healthy okay you need to to do crazy

2122

01:14:57,110 --> 01:14:54,840

things right they're

2123

01:15:00,790 --> 01:14:57,120

controlling your mind

2124

01:15:05,990 --> 01:15:04,310

it is i i will admit excuse me when you

2125

01:15:07,830 --> 01:15:06,000

try to look up actual images just the

2126
01:15:09,669 --> 01:15:07,840
moon alone what do we have one image

2127
01:15:11,750 --> 01:15:09,679
right i believe 77 or whatever it was

2128
01:15:13,350 --> 01:15:11,760
that they they sent there's

2129
01:15:15,189 --> 01:15:13,360
from the earth the earth well i think

2130
01:15:17,990 --> 01:15:15,199
they took it from from the

2131
01:15:19,990 --> 01:15:18,000
well again spaces but i believe we were

2132
01:15:22,470 --> 01:15:20,000
told they took it from being up there in

2133
01:15:25,189 --> 01:15:22,480
the uh in the apollo there and you can

2134
01:15:27,110 --> 01:15:25,199
see how uh it's it's not very it's not

2135
01:15:29,030 --> 01:15:27,120
very bright and i know we've we've

2136
01:15:30,310 --> 01:15:29,040
talked about this in the past even my

2137
01:15:32,149 --> 01:15:30,320
buddy and i have said that and i get the

2138
01:15:34,149 --> 01:15:32,159

moon's the biggest enigma right okay so

2139

01:15:37,110 --> 01:15:34,159

this is the shot from the moon but we

2140

01:15:39,030 --> 01:15:37,120

got the picture uh rob skiba who passed

2141

01:15:41,030 --> 01:15:39,040

away recently um

2142

01:15:43,189 --> 01:15:41,040

got this from their website

2143

01:15:45,510 --> 01:15:43,199

put it into photoshop cranked up the

2144

01:15:47,990 --> 01:15:45,520

levels

2145

01:15:50,870 --> 01:15:48,000

and there's a box around it this is

2146

01:15:52,229 --> 01:15:50,880

crappy photo not even photoshop whatever

2147

01:15:53,669 --> 01:15:52,239

they did this thing i don't even know

2148

01:15:54,870 --> 01:15:53,679

but they didn't get rid of the box they

2149

01:15:57,669 --> 01:15:54,880

didn't know that we were gonna have

2150

01:15:59,350 --> 01:15:57,679

photoshop and since then they've taken

2151

01:16:01,030 --> 01:15:59,360

this picture down

2152

01:16:02,630 --> 01:16:01,040

and they've changed it they they

2153

01:16:05,590 --> 01:16:02,640

re-cropped it and put them and maybe

2154

01:16:09,830 --> 01:16:05,600

they put it back okay this proves that

2155

01:16:12,149 --> 01:16:09,840

the only photo of earth is fake

2156

01:16:14,390 --> 01:16:12,159

you know here's and i think this is just

2157

01:16:16,149 --> 01:16:14,400

me and i and i've heard that flat

2158

01:16:17,669 --> 01:16:16,159

earthers say they're wide open to this

2159

01:16:18,950 --> 01:16:17,679

they say and for those in the chat to

2160

01:16:20,630 --> 01:16:18,960

say hey i wish someone here that has

2161

01:16:22,229 --> 01:16:20,640

some intelligence good chats listen i'm

2162

01:16:24,070 --> 01:16:22,239

right there with you okay i recognize

2163

01:16:25,430 --> 01:16:24,080

where i'm at with this but

2164

01:16:27,270 --> 01:16:25,440

people need to recognize that you guys

2165

01:16:29,430 --> 01:16:27,280

have tried from my understanding and

2166

01:16:31,669 --> 01:16:29,440

nobody's reaching out back out right now

2167

01:16:34,550 --> 01:16:31,679

nobody can well this this one is the

2168

01:16:36,870 --> 01:16:34,560

japanese uh film this earthrise from the

2169

01:16:38,790 --> 01:16:36,880

moon and i really can't debunk this one

2170

01:16:40,550 --> 01:16:38,800

this one really makes me think that the

2171

01:16:44,070 --> 01:16:40,560

earth is a globe because look you can't

2172

01:16:51,030 --> 01:16:46,229

this is part of the problem these days

2173

01:16:55,110 --> 01:16:53,110

i'll admit like i said i i have a

2174

01:16:57,669 --> 01:16:55,120

problem with what nasa provides when you

2175

01:17:00,149 --> 01:16:57,679

really dig into it when they're pushed

2176

01:17:01,510 --> 01:17:00,159

it it gets a bit and and wait i don't i

2177

01:17:03,910 --> 01:17:01,520

don't finish answering the question

2178

01:17:05,830 --> 01:17:03,920

maybe i did but

2179

01:17:07,910 --> 01:17:05,840

if we knew who we were where we were

2180

01:17:10,310 --> 01:17:07,920

what we are the power of our mind that

2181

01:17:11,990 --> 01:17:10,320

the creation um

2182

01:17:13,830 --> 01:17:12,000

they wouldn't when nobody would believe

2183

01:17:15,910 --> 01:17:13,840

the nonsense that's going on they would

2184

01:17:17,590 --> 01:17:15,920

have gone hey there's this thing going

2185

01:17:19,350 --> 01:17:17,600

around and you need to get this thing

2186

01:17:21,270 --> 01:17:19,360

stuck into you by these companies that

2187

01:17:23,510 --> 01:17:21,280

have been causing that that are they

2188

01:17:25,189 --> 01:17:23,520

only make money when you're not healthy

2189

01:17:28,070 --> 01:17:25,199

okay

2190

01:17:30,630 --> 01:17:28,080

everyone's like shut up

2191

01:17:33,990 --> 01:17:30,640

go away from me i'm perfect

2192

01:17:35,110 --> 01:17:34,000

god created me perfectly i don't need

2193

01:17:36,390 --> 01:17:35,120

poison

2194

01:17:38,630 --> 01:17:36,400

okay

2195

01:17:40,709 --> 01:17:38,640

right so

2196

01:17:41,990 --> 01:17:40,719

when they say when people say dave with

2197

01:17:43,510 --> 01:17:42,000

all the nonsense going on in the world

2198

01:17:45,270 --> 01:17:43,520

why are you talking about flat earth

2199

01:17:47,910 --> 01:17:45,280

this is how we got into the situation

2200

01:17:50,470 --> 01:17:47,920

you need two things to get out get out

2201

01:17:52,950 --> 01:17:50,480

but stop using their their money and

2202

01:17:55,430 --> 01:17:52,960

stop believing their nonsense understand

2203

01:17:57,430 --> 01:17:55,440

where you are put your big boy pants on

2204

01:17:58,870 --> 01:17:57,440

drop your ball because because it

2205

01:18:02,149 --> 01:17:58,880

doesn't exist

2206

01:18:03,990 --> 01:18:02,159

and and see where you are

2207

01:18:05,669 --> 01:18:04,000

right see where you are yeah take your

2208

01:18:08,790 --> 01:18:05,679

power back

2209

01:18:10,630 --> 01:18:08,800

from chad smith just because he's

2210

01:18:12,870 --> 01:18:10,640

working so hard there tonight uh he said

2211

01:18:14,709 --> 01:18:12,880

couldn't nasa just stop throwing so much

2212

01:18:17,590 --> 01:18:14,719

money into engineering and produce

2213

01:18:19,910 --> 01:18:17,600

equipment to keep uh lie going i mean

2214

01:18:22,470 --> 01:18:19,920

they take our money and do with it what

2215

01:18:23,830 --> 01:18:22,480

they want already why do they need to

2216

01:18:25,669 --> 01:18:23,840

lie

2217

01:18:28,550 --> 01:18:25,679

because we've covered this a little bit

2218

01:18:29,910 --> 01:18:28,560

but well nasa gets like 63 million

2219

01:18:30,870 --> 01:18:29,920

dollars a day

2220

01:18:33,270 --> 01:18:30,880

okay

2221

01:18:35,669 --> 01:18:33,280

for what would they create velcro no

2222

01:18:38,870 --> 01:18:35,679

they didn't even create velcro okay

2223

01:18:41,110 --> 01:18:38,880

um nasa is just a nasa doesn't really

2224

01:18:43,990 --> 01:18:41,120

get that money nasa is just a total

2225

01:18:45,189 --> 01:18:44,000

psyop it's taking the money from us you

2226

01:18:50,950 --> 01:18:45,199

know

2227

01:18:53,350 --> 01:18:50,960

because i got 3 000 back this year did

2228

01:18:54,790 --> 01:18:53,360

you forget about the 50 000 they took

2229

01:18:56,630 --> 01:18:54,800

from you don't give you started

2230

01:18:59,189 --> 01:18:56,640

unpacking yeah yeah yeah yeah hey by the

2231

01:19:01,350 --> 01:18:59,199

way marty leads marty leads 33 on

2232

01:19:02,950 --> 01:19:01,360

youtube he just uploaded an old video to

2233

01:19:04,149 --> 01:19:02,960

a couple video for i think it's from a

2234

01:19:05,750 --> 01:19:04,159

year or two ago

2235

01:19:09,910 --> 01:19:05,760

awesome it's called we need to talk

2236

01:19:13,030 --> 01:19:12,070

okay one last one from why this is kind

2237

01:19:14,790 --> 01:19:13,040

of relevant to what you were just

2238

01:19:17,189 --> 01:19:14,800

sitting on and it's a fair question are

2239

01:19:20,390 --> 01:19:17,199

all scientists in on the conspiracy or

2240

01:19:21,910 --> 01:19:20,400

simply being ignorant so on the app

2241

01:19:23,830 --> 01:19:21,920

on the app under the frequently asked

2242

01:19:26,550 --> 01:19:23,840

questions there are all scientists and

2243

01:19:28,790 --> 01:19:26,560

pilots in on it and the answer is

2244

01:19:30,390 --> 01:19:28,800

absolutely not um

2245

01:19:31,590 --> 01:19:30,400

you know what scientists how many

2246

01:19:33,189 --> 01:19:31,600

scientists are there you know we know

2247

01:19:35,990 --> 01:19:33,199

neil degrasse tyson and bill lye the

2248

01:19:38,149 --> 01:19:36,000

lion guy with the bow tie and lying box

2249

01:19:40,310 --> 01:19:38,159

right these guys are the spokesmen these

2250

01:19:42,390 --> 01:19:40,320

guys know there's many

2251

01:19:44,229 --> 01:19:42,400

people that don't you know

2252

01:19:46,630 --> 01:19:44,239

we uh we talked to a

2253

01:19:48,390 --> 01:19:46,640

guy that runs the hubble telescope and

2254

01:19:50,470 --> 01:19:48,400

for like 20 years he's been doing it

2255

01:19:53,510 --> 01:19:50,480

since it's been up there and or

2256

01:19:55,669 --> 01:19:53,520

supposedly up there and um he admitted

2257

01:19:58,310 --> 01:19:55,679

that he's never seen a live image from

2258

01:20:00,709 --> 01:19:58,320

the hubble he just gets data that's sent

2259

01:20:02,070 --> 01:20:00,719

to him right there's a university i

2260

01:20:04,390 --> 01:20:02,080

forget which university they have their

2261

01:20:06,870 --> 01:20:04,400

own satellite but anytime they want to

2262

01:20:08,229 --> 01:20:06,880

access it they have to ask nasa nasa

2263

01:20:10,550 --> 01:20:08,239

gets them the information and sends it

2264

01:20:14,070 --> 01:20:10,560

to them a week later

2265

01:20:19,510 --> 01:20:15,350

i agree

2266

01:20:20,709 --> 01:20:19,520

um but yeah guys i don't see i mean

2267

01:20:22,229 --> 01:20:20,719

there are a ton of questions i'm trying

2268

01:20:23,430 --> 01:20:22,239

to find some that that you haven't

2269

01:20:25,590 --> 01:20:23,440

already covered because they're getting

2270

01:20:27,110 --> 01:20:25,600

on some that you've hit already yeah one

2271

01:20:28,470 --> 01:20:27,120

last thing i'd like to add here because

2272

01:20:30,149 --> 01:20:28,480

i know you got to run here dave and i

2273

01:20:31,430 --> 01:20:30,159

appreciate how long you've hung out

2274

01:20:32,629 --> 01:20:31,440

unless you have some more you want to

2275

01:20:34,229 --> 01:20:32,639

share i just don't want to hold you up

2276

01:20:36,390 --> 01:20:34,239

because i know i'm good if you have more

2277

01:20:37,990 --> 01:20:36,400

questions bring them because okay for

2278

01:20:40,310 --> 01:20:38,000

sure because you know they say there's

2279

01:20:43,110 --> 01:20:40,320

no dumb questions they're all dumb

2280

01:20:46,470 --> 01:20:43,120

there's only dumb questions okay

2281

01:20:47,750 --> 01:20:46,480

um 509 i i didn't see anything in caps i

2282

01:20:49,189 --> 01:20:47,760

went back i saw you want to said ask

2283

01:20:50,870 --> 01:20:49,199

questions i didn't see anything in caps

2284

01:20:52,870 --> 01:20:50,880

there um so if i missed it try to put it

2285

01:20:55,430 --> 01:20:52,880

back in really quick uh another one that

2286

01:20:57,910 --> 01:20:55,440

adam ambrose has is if the earth is flat

2287

01:20:59,990 --> 01:20:57,920

and only has people living on one side

2288

01:21:02,070 --> 01:21:00,000

then how can it be that when it's dark

2289

01:21:04,070 --> 01:21:02,080

on one half of the earth it's light

2290

01:21:05,110 --> 01:21:04,080

daytime on the other side that's a fair

2291

01:21:06,709 --> 01:21:05,120

question for when we're talking about

2292

01:21:09,510 --> 01:21:06,719

being flat earth plane

2293

01:21:11,110 --> 01:21:09,520

it is so the when the sun moves away as

2294

01:21:14,070 --> 01:21:11,120

i showed you with that sun fade out

2295

01:21:16,709 --> 01:21:14,080

video um its light can't throw all the

2296

01:21:18,790 --> 01:21:16,719

way around it's low and it's angular

2297

01:21:21,030 --> 01:21:18,800

size it makes it just go beyond the

2298

01:21:23,110 --> 01:21:21,040

opaque horizon called the atmospheric

2299

01:21:24,470 --> 01:21:23,120

deck of opacity

2300

01:21:25,510 --> 01:21:24,480

and you can't see the sun but if you

2301

01:21:26,310 --> 01:21:25,520

compare

2302

01:21:28,629 --> 01:21:26,320

um

2303

01:21:31,430 --> 01:21:28,639

the this is time and date showing you on

2304

01:21:34,070 --> 01:21:31,440

a flat earth map what the light does and

2305

01:21:35,270 --> 01:21:34,080

here is a dome and we're just moving a

2306

01:21:37,750 --> 01:21:35,280

source light

2307

01:21:40,470 --> 01:21:37,760

kind of makes the same patterns which is

2308

01:21:43,910 --> 01:21:40,480

kind of interesting but again when the

2309

01:21:46,629 --> 01:21:43,920

sun is just moving away you can't see it

2310

01:21:49,030 --> 01:21:46,639

if you go in a dark room and get a a

2311

01:21:51,430 --> 01:21:49,040

flashlight or just a bulb and hold it

2312

01:21:53,270 --> 01:21:51,440

close to a table well the other end of

2313

01:21:55,430 --> 01:21:53,280

the table is going to be dark

2314

01:21:57,270 --> 01:21:55,440

right now add some atmosphere in there

2315

01:21:58,470 --> 01:21:57,280

where that light can't push through it

2316

01:22:00,550 --> 01:21:58,480

like you're looking through a pane of

2317

01:22:01,910 --> 01:22:00,560

glass no problem put 50 panes of glass

2318

01:22:04,470 --> 01:22:01,920

together you can't see a light through

2319

01:22:05,910 --> 01:22:04,480

it okay so the atmosphere works the same

2320

01:22:07,590 --> 01:22:05,920

way

2321

01:22:08,870 --> 01:22:07,600

you know that's another good one i we

2322

01:22:10,870 --> 01:22:08,880

didn't get to bring up that i wanted to

2323

01:22:12,310 --> 01:22:10,880

hit on was the dissipation and i've used

2324

01:22:13,830 --> 01:22:12,320

the wrong terms here but the way the

2325

01:22:15,430 --> 01:22:13,840

light breaks down it why there's a

2326

01:22:17,430 --> 01:22:15,440

better term for this but when it spreads

2327

01:22:18,629 --> 01:22:17,440

out you know when you shine it in

2328

01:22:20,390 --> 01:22:18,639

direction

2329

01:22:22,390 --> 01:22:20,400

and that's always bothered me with how

2330

01:22:24,870 --> 01:22:22,400

bright the moon is on a full moon and

2331

01:22:26,310 --> 01:22:24,880

then the sun wouldn't the sun's heat the

2332

01:22:27,990 --> 01:22:26,320

guys i meant in my own ignorance but

2333

01:22:29,510 --> 01:22:28,000

when it scorched us and i get the

2334

01:22:30,950 --> 01:22:29,520

temples the atmosphere helps with the

2335

01:22:32,790 --> 01:22:30,960

rays

2336

01:22:33,669 --> 01:22:32,800

but if it gets here in eight minutes

2337

01:22:35,430 --> 01:22:33,679

i don't even know the temperature of the

2338

01:22:37,270 --> 01:22:35,440

sun outside my head

2339

01:22:40,070 --> 01:22:37,280

it's got to be hot right like i mean

2340

01:22:42,070 --> 01:22:40,080

it's really hot sun's not hot i know

2341

01:22:44,149 --> 01:22:42,080

it's like well it's cold the sun's

2342

01:22:45,910 --> 01:22:44,159

electric right if the gun was we're

2343

01:22:47,910 --> 01:22:45,920

right in the goldilocks zone well the

2344

01:22:50,070 --> 01:22:47,920

higher up you got the colder the hotter

2345

01:22:51,750 --> 01:22:50,080

it should be but it's the opposite it's

2346

01:22:53,590 --> 01:22:51,760

electricity that's coming down that's

2347

01:22:58,229 --> 01:22:53,600

how solar panels work they collect

2348

01:23:00,550 --> 01:22:58,239

electricity not not photons right

2349

01:23:02,790 --> 01:23:00,560

so everything in this world is is

2350

01:23:06,229 --> 01:23:02,800

electric and magnetic in nature we're

2351

01:23:09,350 --> 01:23:06,239

electrical beings we live we're humans

2352

01:23:11,669 --> 01:23:09,360

we're light beings where we we feed off

2353

01:23:13,750 --> 01:23:11,679

the energy of the sun the sun is the

2354

01:23:16,310 --> 01:23:13,760

source of all life on the on in the

2355

01:23:18,390 --> 01:23:16,320

world it's not a burning ball that

2356

01:23:20,550 --> 01:23:18,400

happens to just be working perfectly for

2357

01:23:22,870 --> 01:23:20,560

billions of years where we evolved from

2358

01:23:24,390 --> 01:23:22,880

pond scum that's the dumbest thing ever

2359

01:23:27,990 --> 01:23:24,400

but that's the heliocentric model so you

2360

01:23:28,790 --> 01:23:28,000

don't win 100 bitcoins okay

2361

01:23:30,950 --> 01:23:28,800

it's

2362

01:23:34,229 --> 01:23:30,960

you know

2363

01:23:37,110 --> 01:23:34,239

when we send balloons up

2364

01:23:39,750 --> 01:23:37,120

the sun is over always off to the side

2365

01:23:41,110 --> 01:23:39,760

it's never above the balloon

2366

01:23:43,510 --> 01:23:41,120

okay

2367

01:23:45,110 --> 01:23:43,520

i think the the sun that we see

2368

01:23:48,229 --> 01:23:45,120

isn't very high at all

2369

01:23:51,030 --> 01:23:48,239

i think it's within the earth system

2370

01:23:52,790 --> 01:23:51,040

okay i think when i see the sun rising

2371

01:23:54,870 --> 01:23:52,800

on the horizon

2372

01:23:57,350 --> 01:23:54,880

i think it's less than 100 miles away

2373

01:23:59,590 --> 01:23:57,360

that's the sun that i see now

2374

01:24:01,669 --> 01:23:59,600

we've done some longer shows um showing

2375

01:24:03,750 --> 01:24:01,679

the optics what we call the personal

2376

01:24:07,990 --> 01:24:03,760

atmospheric dome

2377

01:24:09,830 --> 01:24:08,000

and we all see you know the sun manifest

2378

01:24:12,470 --> 01:24:09,840

in a spot

2379

01:24:15,669 --> 01:24:12,480

relative to our own position

2380

01:24:17,350 --> 01:24:15,679

okay so if we're all in

2381

01:24:19,669 --> 01:24:17,360

side of this is our personal dome the

2382

01:24:21,990 --> 01:24:19,679

person's in the middle this intersection

2383

01:24:24,149 --> 01:24:22,000

of light is where this light manifests

2384

01:24:26,229 --> 01:24:24,159

in the dome so over here it's evening

2385

01:24:27,430 --> 01:24:26,239

over here it's noon over here it's

2386

01:24:29,830 --> 01:24:27,440

afternoon

2387

01:24:31,430 --> 01:24:29,840

right if the sun comes back you know you

2388

01:24:33,750 --> 01:24:31,440

can say this is the west coast in the

2389

01:24:34,790 --> 01:24:33,760

east coast it's going backwards so

2390

01:24:37,030 --> 01:24:34,800

so

2391

01:24:39,110 --> 01:24:37,040

this is early morning this is late

2392

01:24:40,790 --> 01:24:39,120

morning this is noon

2393

01:24:42,470 --> 01:24:40,800

this is afternoon

2394

01:24:44,390 --> 01:24:42,480

right if the sun is going this way of

2395

01:24:45,830 --> 01:24:44,400

course

2396

01:24:47,270 --> 01:24:45,840

now i have a question about that then

2397

01:24:48,550 --> 01:24:47,280

and this was a question i was asked by a

2398

01:24:49,910 --> 01:24:48,560

friend we were discussing this a while

2399

01:24:51,189 --> 01:24:49,920

ago it looked right here perfect i'm

2400

01:24:52,229 --> 01:24:51,199

glad you pulled this up because we were

2401

01:24:53,750 --> 01:24:52,239

talking about this image and i

2402

01:24:55,750 --> 01:24:53,760

understand how it moves in and out the

2403

01:24:58,629 --> 01:24:55,760

sun does but we've said okay if this is

2404

01:24:59,990 --> 01:24:58,639

how the sun is moving and i could get it

2405

01:25:01,189 --> 01:25:00,000

why is that i see it right over top of

2406

01:25:02,870 --> 01:25:01,199

my head sometimes how is it right over

2407

01:25:04,149 --> 01:25:02,880

my head in somebody in texas it's right

2408

01:25:06,870 --> 01:25:04,159

over their head too

2409

01:25:09,350 --> 01:25:06,880

yeah let me show you i'm gonna share my

2410

01:25:11,030 --> 01:25:09,360

i want the app for a second

2411

01:25:12,629 --> 01:25:11,040

um can you see that

2412

01:25:14,149 --> 01:25:12,639

i sure can

2413

01:25:15,510 --> 01:25:14,159

all right

2414

01:25:18,470 --> 01:25:15,520

so

2415

01:25:20,229 --> 01:25:18,480

i'm gonna let the sun move here um now

2416

01:25:21,910 --> 01:25:20,239

if you were in texas

2417

01:25:24,149 --> 01:25:21,920

which is you see my mouse my mouse is

2418

01:25:25,830 --> 01:25:24,159

right here but texas is over here the

2419

01:25:27,270 --> 01:25:25,840

sun is not going to be over your head

2420

01:25:28,390 --> 01:25:27,280

it's going to come all the way over here

2421

01:25:30,229 --> 01:25:28,400

it's going to be lower in the sky

2422

01:25:33,350 --> 01:25:30,239

because we're going into the winter

2423

01:25:36,470 --> 01:25:33,360

okay the sun is away where the sun is

2424

01:25:38,790 --> 01:25:36,480

over your head is here in central africa

2425

01:25:41,669 --> 01:25:38,800

here in central america so i'm going to

2426

01:25:42,629 --> 01:25:41,679

move the sun forward to december

2427

01:25:43,669 --> 01:25:42,639

um

2428

01:25:46,070 --> 01:25:43,679

november

2429

01:25:48,709 --> 01:25:46,080

december so it's over the tropic of

2430

01:25:50,550 --> 01:25:48,719

capricorn okay the sun is not over

2431

01:25:53,189 --> 01:25:50,560

anyone's head in the north because

2432

01:25:56,629 --> 01:25:53,199

everyone the north is here in the middle

2433

01:25:59,030 --> 01:25:56,639

right it's over um

2434

01:26:01,189 --> 01:25:59,040

if when it comes over australia people

2435

01:26:03,189 --> 01:26:01,199

in central australia will have the sun

2436

01:26:04,470 --> 01:26:03,199

directly over their head as it passes

2437

01:26:06,390 --> 01:26:04,480

throughout the day

2438

01:26:08,550 --> 01:26:06,400

so at you know solar noon it'll be

2439

01:26:10,149 --> 01:26:08,560

directly over their heads

2440

01:26:14,229 --> 01:26:10,159

um

2441

01:26:16,229 --> 01:26:14,239

we're having our winter the sun is

2442

01:26:17,990 --> 01:26:16,239

farther away from us so it's lower in

2443

01:26:20,070 --> 01:26:18,000

the sky just like a street light down

2444

01:26:21,990 --> 01:26:20,080

the road it's lower in the scar

2445

01:26:23,110 --> 01:26:22,000

especially in the sky that's our winter

2446

01:26:25,030 --> 01:26:23,120

street light

2447

01:26:26,790 --> 01:26:25,040

and the one that we're standing under

2448

01:26:28,870 --> 01:26:26,800

that's our summer street light it's high

2449

01:26:30,310 --> 01:26:28,880

in the sky but they're both the same

2450

01:26:33,030 --> 01:26:30,320

height

2451
01:26:35,110 --> 01:26:33,040
one of them's high directly above us

2452
01:26:36,629 --> 01:26:35,120
lighting me up

2453
01:26:38,709 --> 01:26:36,639
heating me up

2454
01:26:40,790 --> 01:26:38,719
and the other one's far away

2455
01:26:42,870 --> 01:26:40,800
barely getting any light on me

2456
01:26:46,390 --> 01:26:42,880
barely getting any heat on me so now i'm

2457
01:26:51,430 --> 01:26:49,110
to june

2458
01:26:53,270 --> 01:26:51,440
and now it goes right over miami

2459
01:26:56,070 --> 01:26:53,280
directly over their head right over

2460
01:26:58,470 --> 01:26:56,080
texas directly over their head australia

2461
01:26:59,189 --> 01:26:58,480
is having their winter because the sun

2462
01:27:02,310 --> 01:26:59,199
is

2463
01:27:05,030 --> 01:27:02,320

farther away it's lower in the sky just

2464

01:27:08,229 --> 01:27:05,040

like the street light okay that's how

2465

01:27:11,030 --> 01:27:08,239

seasons work the idea of seasons on a

2466

01:27:11,990 --> 01:27:11,040

tilted ball is ridiculous

2467

01:27:15,030 --> 01:27:12,000

because

2468

01:27:17,189 --> 01:27:15,040

on june 21st on a tilted ball seasonal

2469

01:27:20,070 --> 01:27:17,199

world

2470

01:27:22,470 --> 01:27:20,080

it should be freezing cold

2471

01:27:25,110 --> 01:27:22,480

at dawn as soon as the sunrise at

2472

01:27:27,990 --> 01:27:25,120

sunrise because one the sun is at the

2473

01:27:30,070 --> 01:27:28,000

most tilted angle it could be two were

2474

01:27:31,510 --> 01:27:30,080

three and a half million miles farther

2475

01:27:34,310 --> 01:27:31,520

from the sun farther from the

2476

01:27:36,070 --> 01:27:34,320

heliocentric sun than

2477

01:27:38,550 --> 01:27:36,080

in our winter

2478

01:27:40,870 --> 01:27:38,560

during the northern summer

2479

01:27:43,830 --> 01:27:40,880

we are three and a half million miles

2480

01:27:47,030 --> 01:27:43,840

farther away from the sun

2481

01:27:49,430 --> 01:27:47,040

in the heliocentric model right so

2482

01:27:51,590 --> 01:27:49,440

but in june here in connecticut when the

2483

01:27:53,669 --> 01:27:51,600

sun rises i can feel the heat on my face

2484

01:27:55,510 --> 01:27:53,679

as soon as i see it on the horizon i can

2485

01:27:58,310 --> 01:27:55,520

feel the heat of that sun and within 10

2486

01:28:01,990 --> 01:27:58,320

minutes i can i'm toasting in the sun

2487

01:28:04,070 --> 01:28:02,000

it's hot already but in december

2488

01:28:05,990 --> 01:28:04,080

when this at noon when the sun is as

2489

01:28:07,750 --> 01:28:06,000

high as it can get in the sky and

2490

01:28:12,149 --> 01:28:07,760

according to the heliocentric model it's

2491

01:28:17,110 --> 01:28:15,030

i can't even feel the heat on my face

2492

01:28:19,030 --> 01:28:17,120

a much more direct angle if you can

2493

01:28:21,709 --> 01:28:19,040

process that information you'll

2494

01:28:25,430 --> 01:28:21,719

understand that the tilted model is

2495

01:28:27,830 --> 01:28:25,440

destroyed again in the app if you click

2496

01:28:30,229 --> 01:28:27,840

the question mark and you go to the

2497

01:28:35,030 --> 01:28:30,239

seasons button

2498

01:28:37,350 --> 01:28:35,040

click that opens it open up youtube

2499

01:28:40,470 --> 01:28:37,360

um and then there's a playlist there's a

2500

01:28:42,390 --> 01:28:40,480

playlist of videos that will explain it

2501
01:28:45,669 --> 01:28:42,400
better than i did and show you and then

2502
01:28:49,110 --> 01:28:45,679
you can go out and do tests yourself

2503
01:28:51,110 --> 01:28:49,120
uh let's see i have

2504
01:28:53,750 --> 01:28:51,120
uh so another one we have real quick

2505
01:28:55,189 --> 01:28:53,760
here is from uh 509 and the only reason

2506
01:28:57,110 --> 01:28:55,199
i'm funny is because i guess he said uh

2507
01:28:58,229 --> 01:28:57,120
youtube was censoring his question so he

2508
01:28:59,669 --> 01:28:58,239
had to rewrite a little bit of friends

2509
01:29:03,189 --> 01:28:59,679
so it may not make complete sense but it

2510
01:29:04,950 --> 01:29:03,199
says enoch thoth saint germany or

2511
01:29:07,510 --> 01:29:04,960
jeremiah germain are they outer

2512
01:29:08,550 --> 01:29:07,520
territory beings of light or angels now

2513
01:29:09,510 --> 01:29:08,560

i don't know if that's really relative

2514

01:29:11,030 --> 01:29:09,520

to what you've been talking about that's

2515

01:29:12,550 --> 01:29:11,040

his question for you it is but i don't

2516

01:29:15,189 --> 01:29:12,560

know the answer to that there's other

2517

01:29:17,830 --> 01:29:15,199

people that that that

2518

01:29:19,590 --> 01:29:17,840

talk about that uh zen garcia is one of

2519

01:29:23,270 --> 01:29:19,600

the channel you can listen to

2520

01:29:25,910 --> 01:29:23,280

um he uh he he knows a lot about that

2521

01:29:29,030 --> 01:29:25,920

stuff um what i'm showing you here are

2522

01:29:31,910 --> 01:29:29,040

flat earthers that are near me this is

2523

01:29:34,149 --> 01:29:31,920

this is the flat earth uh friend finder

2524

01:29:38,149 --> 01:29:34,159

okay there's flat earth there's

2525

01:29:40,390 --> 01:29:38,159

everywhere let's take a look at florida

2526

01:29:42,390 --> 01:29:40,400

down in florida

2527

01:29:44,390 --> 01:29:42,400

populate bam

2528

01:29:46,470 --> 01:29:44,400

these are all the people

2529

01:29:48,950 --> 01:29:46,480

and there's so many more than this you

2530

01:29:50,709 --> 01:29:48,960

know this is only

2531

01:29:53,590 --> 01:29:50,719

less than one percent of the flat earth

2532

01:29:56,470 --> 01:29:53,600

it's way less i mean because my app um

2533

01:29:58,629 --> 01:29:56,480

only 25 of the people on my app have put

2534

01:30:01,270 --> 01:29:58,639

a blue dot on the map

2535

01:30:04,390 --> 01:30:02,870

i'd say my app is in less than one

2536

01:30:07,830 --> 01:30:04,400

percent of the flat earthers on the

2537

01:30:09,510 --> 01:30:07,840

earth they'll do the math it's like at

2538

01:30:10,870 --> 01:30:09,520

20 30 million people i don't know what

2539

01:30:12,149 --> 01:30:10,880

it is

2540

01:30:14,070 --> 01:30:12,159

um and i believe you already answered

2541

01:30:16,470 --> 01:30:14,080

this one day uh chad once again is

2542

01:30:18,149 --> 01:30:16,480

asking why are we seeing 80 days roughly

2543

01:30:19,189 --> 01:30:18,159

of sunlight in alaska but i believe you

2544

01:30:21,590 --> 01:30:19,199

kind of already covered that in your

2545

01:30:25,350 --> 01:30:21,600

previous diagram well it's because

2546

01:30:27,910 --> 01:30:25,360

because when the sun is in in close

2547

01:30:29,990 --> 01:30:27,920

and tropic of cancer

2548

01:30:32,629 --> 01:30:30,000

it never gets far enough away from

2549

01:30:34,790 --> 01:30:32,639

alaska to set

2550

01:30:37,270 --> 01:30:34,800

okay but then when it goes all the way

2551

01:30:39,110 --> 01:30:37,280

out to the tropic of capricorn it never

2552

01:30:41,910 --> 01:30:39,120

gets close enough

2553

01:30:44,229 --> 01:30:41,920

to alaska to rise

2554

01:30:45,990 --> 01:30:44,239

now if the earth was a ball

2555

01:30:47,510 --> 01:30:46,000

lands that have the same southern

2556

01:30:50,070 --> 01:30:47,520

latitude as alaska should have the same

2557

01:30:52,470 --> 01:30:50,080

thing but they don't there is no 24-hour

2558

01:30:55,110 --> 01:30:52,480

sun in alaska there is 24 hours a night

2559

01:30:57,750 --> 01:30:55,120

because when the sun moves all the way

2560

01:30:59,430 --> 01:30:57,760

into the tropic of cancer

2561

01:31:02,149 --> 01:30:59,440

alaska's having

2562

01:31:03,510 --> 01:31:02,159

all you know 24-hour sun and the sun the

2563

01:31:06,229 --> 01:31:03,520

sun never gets close enough to

2564

01:31:07,590 --> 01:31:06,239

antarctica to rise but then when it goes

2565

01:31:10,310 --> 01:31:07,600

all the way out

2566

01:31:12,470 --> 01:31:10,320

it doesn't it can't be near it you know

2567

01:31:14,709 --> 01:31:12,480

it can't be near this side of alaska

2568

01:31:17,669 --> 01:31:14,719

when it's all the way over here so it

2569

01:31:19,030 --> 01:31:17,679

doesn't there is daylight as i showed

2570

01:31:22,470 --> 01:31:19,040

you in that other

2571

01:31:25,510 --> 01:31:22,480

uh the model where the sun wraps around

2572

01:31:26,310 --> 01:31:25,520

the dome okay and again we can model

2573

01:31:28,149 --> 01:31:26,320

this

2574

01:31:30,229 --> 01:31:28,159

and show you that the sunlight would

2575

01:31:32,310 --> 01:31:30,239

wrap around the dome see when i when i

2576

01:31:35,430 --> 01:31:32,320

move it

2577

01:31:38,229 --> 01:31:35,440

out it wraps see the light

2578

01:31:41,110 --> 01:31:38,239

there's your 24 hours of daylight not

2579

01:31:44,709 --> 01:31:41,120

sunlight the sun is always here in the

2580

01:31:46,390 --> 01:31:44,719

center so the sun is moving out here

2581

01:31:48,470 --> 01:31:46,400

and so people over here can't see it

2582

01:31:50,470 --> 01:31:48,480

even though the daylight does wrap

2583

01:31:52,310 --> 01:31:50,480

around there

2584

01:31:53,910 --> 01:31:52,320

i do have one other question one last

2585

01:31:55,030 --> 01:31:53,920

one and maybe and i don't mean in a

2586

01:31:57,430 --> 01:31:55,040

controversial way i'm just trying to

2587

01:31:59,189 --> 01:31:57,440

make sure i i word it properly as far as

2588

01:32:00,149 --> 01:31:59,199

what i'm trying to i guess say cause you

2589

01:32:01,510 --> 01:32:00,159

said and correct me or wrong because i

2590

01:32:02,950 --> 01:32:01,520

want to make sure i use the words that

2591

01:32:05,110 --> 01:32:02,960

you said you said you believe the sun

2592

01:32:06,629 --> 01:32:05,120

might be roughly 100

2593

01:32:08,070 --> 01:32:06,639

miles in the air or what was the exact

2594

01:32:10,470 --> 01:32:08,080

terminal i forget what you said exactly

2595

01:32:13,110 --> 01:32:10,480

how you were i believe this is me

2596

01:32:15,510 --> 01:32:13,120

i believe that the sun that i see

2597

01:32:16,709 --> 01:32:15,520

is way closer than they're telling us

2598

01:32:18,470 --> 01:32:16,719

and

2599

01:32:21,510 --> 01:32:18,480

the sun is more of a projection or a

2600

01:32:22,550 --> 01:32:21,520

reflection so you know if and you know

2601
01:32:25,110 --> 01:32:22,560
when you're driving down the road and

2602
01:32:27,350 --> 01:32:25,120
you say mom the the moon's following me

2603
01:32:29,110 --> 01:32:27,360
the mom says shut up kid you're you're

2604
01:32:30,790 --> 01:32:29,120
you're full well they're right the moon

2605
01:32:32,950 --> 01:32:30,800
is following you you're seeing it as a

2606
01:32:34,390 --> 01:32:32,960
reflection so you're seeing it relative

2607
01:32:35,189 --> 01:32:34,400
to your own position

2608
01:32:36,470 --> 01:32:35,199
okay

2609
01:32:39,430 --> 01:32:36,480
so

2610
01:32:41,990 --> 01:32:39,440
i say you know you ever watch a movie on

2611
01:32:43,430 --> 01:32:42,000
a hanging sheet and they re they project

2612
01:32:45,590 --> 01:32:43,440
it from the rear

2613
01:32:47,189 --> 01:32:45,600

okay a rear projection yes and then it

2614

01:32:49,430 --> 01:32:47,199

shines through the sheet and you can see

2615

01:32:51,750 --> 01:32:49,440

it but if you look carefully at that

2616

01:32:53,510 --> 01:32:51,760

sheet you can see the light coming from

2617

01:32:56,550 --> 01:32:53,520

the projector you can see the light

2618

01:32:57,990 --> 01:32:56,560

behind it okay so imagine that's just a

2619

01:32:59,830 --> 01:32:58,000

spotlight

2620

01:33:01,910 --> 01:32:59,840

a bright light and you're looking at it

2621

01:33:04,310 --> 01:33:01,920

through the what i call the sky sheet

2622

01:33:06,709 --> 01:33:04,320

you see a bright spot on the sheet but

2623

01:33:09,270 --> 01:33:06,719

as you move that bright spot will move

2624

01:33:10,229 --> 01:33:09,280

across the sheet it's moving with you

2625

01:33:11,910 --> 01:33:10,239

okay

2626

01:33:13,510 --> 01:33:11,920

so if you and i were 10 feet apart and

2627

01:33:14,950 --> 01:33:13,520

we're both looking at the sheet and i

2628

01:33:15,910 --> 01:33:14,960

sent someone to the sheet i said i see

2629

01:33:17,590 --> 01:33:15,920

the light right there and i draw a

2630

01:33:19,270 --> 01:33:17,600

circle on the sheet

2631

01:33:22,229 --> 01:33:19,280

they walk over you're going to see that

2632

01:33:24,070 --> 01:33:22,239

same light 10 feet apart from my light

2633

01:33:26,550 --> 01:33:24,080

are we seeing two different lights we're

2634

01:33:27,990 --> 01:33:26,560

just seeing them manifest their their

2635

01:33:29,510 --> 01:33:28,000

projection

2636

01:33:32,950 --> 01:33:29,520

into

2637

01:33:34,070 --> 01:33:32,960

our reality based on our position

2638

01:33:35,990 --> 01:33:34,080

so this is

2639

01:33:37,270 --> 01:33:36,000

a couple rapid fire questions sorry

2640

01:33:39,750 --> 01:33:37,280

there's some fun ones here really quick

2641

01:33:42,550 --> 01:33:39,760

uh a fun one from chad would dave take a

2642

01:33:45,270 --> 01:33:42,560

free ride in spacex rocket

2643

01:33:47,430 --> 01:33:45,280

straw man argument but absolutely not

2644

01:33:50,070 --> 01:33:47,440

because no nobody goes up in these

2645

01:33:53,510 --> 01:33:50,080

rockets let me show you a spacex rocket

2646

01:33:55,510 --> 01:33:53,520

and tell me if you if you know

2647

01:33:57,350 --> 01:33:55,520

you're asking me a disney question you

2648

01:33:59,830 --> 01:33:57,360

know

2649

01:34:01,669 --> 01:33:59,840

it's absolute nonsense if you watch any

2650

01:34:04,870 --> 01:34:01,679

of these rocket launches

2651

01:34:07,910 --> 01:34:04,880

um they're absolutely pathetic

2652

01:34:10,470 --> 01:34:07,920

on how fake they are so this was a what

2653

01:34:12,229 --> 01:34:10,480

i'm going to show you is a recent spacex

2654

01:34:14,149 --> 01:34:12,239

launch okay

2655

01:34:16,310 --> 01:34:14,159

look at this thing this thing is going

2656

01:34:20,070 --> 01:34:16,320

to mars all right it's not in the middle

2657

01:34:23,110 --> 01:34:20,080

of nowhere right and

2658

01:34:24,709 --> 01:34:23,120

they they edit edit oh fire smoke look

2659

01:34:26,149 --> 01:34:24,719

at this thing going up look how slow

2660

01:34:28,950 --> 01:34:26,159

it's going now this little

2661

01:34:31,110 --> 01:34:28,960

non-smoke this is cgi this isn't real

2662

01:34:33,669 --> 01:34:31,120

this is fake smoke i might it might even

2663

01:34:35,270 --> 01:34:33,679

be real smoke but look at this thing

2664

01:34:37,270 --> 01:34:35,280

now now hold on

2665

01:34:39,430 --> 01:34:37,280

now it's gonna

2666

01:34:41,669 --> 01:34:39,440

it's when it goes back and forth between

2667

01:34:43,270 --> 01:34:41,679

the shot look how low it is you can tell

2668

01:34:45,590 --> 01:34:43,280

it's low because it's got a good angle

2669

01:34:47,910 --> 01:34:45,600

to it now look how high it is right then

2670

01:34:49,590 --> 01:34:47,920

you go back now it stopped

2671

01:34:52,229 --> 01:34:49,600

shooting so now this thing weighs like

2672

01:34:53,910 --> 01:34:52,239

40 000 pounds it's falling it's free

2673

01:34:56,550 --> 01:34:53,920

falling does this look like it's free

2674

01:34:58,629 --> 01:34:56,560

falling look at the speed that the steam

2675

01:35:00,470 --> 01:34:58,639

is coming off of this thing

2676

01:35:02,310 --> 01:35:00,480

that free falling

2677

01:35:04,390 --> 01:35:02,320

this is free falling back to earth now

2678

01:35:05,910 --> 01:35:04,400

watch this this is now look how high it

2679

01:35:07,030 --> 01:35:05,920

is all of a sudden this is their film i

2680

01:35:07,990 --> 01:35:07,040

didn't edit this

2681

01:35:09,910 --> 01:35:08,000

okay

2682

01:35:11,510 --> 01:35:09,920

it's free falling now the engines are

2683

01:35:13,590 --> 01:35:11,520

going to come back on

2684

01:35:15,669 --> 01:35:13,600

it's magically going to turn upright and

2685

01:35:17,350 --> 01:35:15,679

land right where it took off from okay

2686

01:35:19,510 --> 01:35:17,360

now look how high it is

2687

01:35:22,149 --> 01:35:19,520

look at this and now it's free falling

2688

01:35:24,149 --> 01:35:22,159

now watch this i call this the amazing

2689

01:35:25,830 --> 01:35:24,159

cameraman shot it's gonna get right

2690

01:35:29,189 --> 01:35:25,840

underneath it look

2691

01:35:31,109 --> 01:35:29,199

look at this oh so brave right now two

2692

01:35:33,430 --> 01:35:31,119

of the engines are gonna go out

2693

01:35:35,669 --> 01:35:33,440

watch two of them run out now look at

2694

01:35:37,430 --> 01:35:35,679

this thing this thing is 40 000 pounds

2695

01:35:40,149 --> 01:35:37,440

free falling

2696

01:35:43,669 --> 01:35:40,159

right now watch cgi smoke

2697

01:35:45,430 --> 01:35:43,679

okay and now it's landing

2698

01:35:47,430 --> 01:35:45,440

let me ask you a question

2699

01:35:49,350 --> 01:35:47,440

if i could put you in a cartoon with

2700

01:35:51,750 --> 01:35:49,360

bugs bunny and roadrunner would you do

2701
01:35:52,790 --> 01:35:51,760
it or would you be afraid

2702
01:35:54,390 --> 01:35:52,800
okay

2703
01:35:55,270 --> 01:35:54,400
oh man

2704
01:35:57,510 --> 01:35:55,280
yeah

2705
01:35:59,510 --> 01:35:57,520
no i just i had to ask it i mean

2706
01:36:01,590 --> 01:35:59,520
how about how about this chad maybe if i

2707
01:36:04,310 --> 01:36:01,600
got on the chinese lander and i landed

2708
01:36:05,990 --> 01:36:04,320
on mars because this is the only proof

2709
01:36:08,870 --> 01:36:06,000
that the chinese landed on mars look at

2710
01:36:10,870 --> 01:36:08,880
that shadow this is hysterical

2711
01:36:13,270 --> 01:36:10,880
hysterical

2712
01:36:15,189 --> 01:36:13,280
okay ours is not much better

2713
01:36:16,470 --> 01:36:15,199

right

2714

01:36:21,510 --> 01:36:16,480

and then

2715

01:36:22,709 --> 01:36:21,520

bezos and uh his nonsense

2716

01:36:25,189 --> 01:36:22,719

you know

2717

01:36:27,590 --> 01:36:25,199

that that's that whole thing

2718

01:36:29,109 --> 01:36:27,600

again

2719

01:36:30,470 --> 01:36:29,119

wait here's a rocket that took off the

2720

01:36:31,669 --> 01:36:30,480

other day watch this

2721

01:36:33,590 --> 01:36:31,679

watch this

2722

01:36:35,109 --> 01:36:33,600

something goes wrong with their helium

2723

01:36:39,350 --> 01:36:35,119

balloon rocket

2724

01:36:41,669 --> 01:36:39,360

and it just kind of falls sideways

2725

01:36:43,430 --> 01:36:41,679

and they're like well here it is again

2726
01:36:45,350 --> 01:36:43,440
and then they're like oh they're looking

2727
01:36:48,070 --> 01:36:45,360
for it and they zoom out

2728
01:36:49,669 --> 01:36:48,080
and all of a sudden it starts rising up

2729
01:36:50,870 --> 01:36:49,679
like magically

2730
01:36:52,629 --> 01:36:50,880
oh look

2731
01:36:54,790 --> 01:36:52,639
here it is you have to believe this

2732
01:36:57,030 --> 01:36:54,800
thing's going in space this is a

2733
01:36:59,350 --> 01:36:57,040
helium balloon with a little firework on

2734
01:37:01,030 --> 01:37:00,229
okay

2735
01:37:05,910 --> 01:37:01,040
so

2736
01:37:07,030 --> 01:37:05,920
in in a non-existent

2737
01:37:12,950 --> 01:37:07,040
rocket

2738
01:37:14,709 --> 01:37:12,960

looks like right

2739

01:37:18,470 --> 01:37:14,719

yes we are right we've all seen the

2740

01:37:21,350 --> 01:37:18,480

media and look and look how the motion

2741

01:37:23,030 --> 01:37:21,360

of the camera cameraman what's he doing

2742

01:37:25,990 --> 01:37:23,040

what's he doing

2743

01:37:28,790 --> 01:37:26,000

they're they're they're mocking us okay

2744

01:37:29,590 --> 01:37:28,800

they're mocking us

2745

01:37:36,470 --> 01:37:29,600

okay

2746

01:37:38,709 --> 01:37:36,480

nobody it's all nonsense and then this

2747

01:37:39,830 --> 01:37:38,719

with richard brans

2748

01:37:42,550 --> 01:37:39,840

branson

2749

01:37:45,109 --> 01:37:42,560

this is a zero g plane right he looks

2750

01:37:47,109 --> 01:37:45,119

like he's about to puke right and then

2751

01:37:48,550 --> 01:37:47,119

they then they this is filmed ahead of

2752

01:37:50,629 --> 01:37:48,560

time and then they landed him in this

2753

01:37:52,870 --> 01:37:50,639

little plane and he lands and now it's

2754

01:37:54,470 --> 01:37:52,880

grounded because the faa said they went

2755

01:37:55,750 --> 01:37:54,480

where they weren't supposed to go so

2756

01:37:56,629 --> 01:37:55,760

it's kicked the can down the road

2757

01:37:58,149 --> 01:37:56,639

everyone's like well they're going to

2758

01:38:00,830 --> 01:37:58,159

have hotels in space they've been saying

2759

01:38:03,590 --> 01:38:00,840

that since the 1970s

2760

01:38:05,669 --> 01:38:03,600

okay kick the can kick the can this is

2761

01:38:07,990 --> 01:38:05,679

what they're doing they're fooling you

2762

01:38:09,750 --> 01:38:08,000

and they suck at it okay they're

2763

01:38:13,510 --> 01:38:09,760

horrible

2764

01:38:17,990 --> 01:38:13,520

plane this is what we see

2765

01:38:22,310 --> 01:38:20,790

that was it oh okay yeah yeah no no this

2766

01:38:24,070 --> 01:38:22,320

is what it looks like it's just cutting

2767

01:38:26,470 --> 01:38:24,080

back and it's showing you how a zero g

2768

01:38:29,030 --> 01:38:26,480

plane works you know richard branson and

2769

01:38:31,910 --> 01:38:29,040

captain kirk and yeah oliver they got

2770

01:38:34,550 --> 01:38:31,920

four plus minutes of zero g but they can

2771

01:38:37,109 --> 01:38:34,560

only show us three seconds at a time

2772

01:38:40,629 --> 01:38:37,119

okay it's a bunch of edit edit edit cut

2773

01:38:43,189 --> 01:38:40,639

cut cut it's nonsense

2774

01:38:45,990 --> 01:38:43,199

it is a lot to take in i'll say that

2775

01:38:47,270 --> 01:38:46,000

um one last question here guys since i

2776

01:38:49,189 --> 01:38:47,280

don't see one from the chat uh even

2777

01:38:51,910 --> 01:38:49,199

though there's some other comments uh it

2778

01:38:53,189 --> 01:38:51,920

was from oh man i just had it i told him

2779

01:38:55,669 --> 01:38:53,199

i promised that my message was that i

2780

01:38:58,070 --> 01:38:55,679

will ask the question uh hang on one

2781

01:38:59,990 --> 01:38:58,080

second you got it why did it slide down

2782

01:39:01,910 --> 01:39:00,000

on me

2783

01:39:04,310 --> 01:39:01,920

uh right here said question the bible

2784

01:39:05,109 --> 01:39:04,320

mentions the four corners of the earth

2785

01:39:08,790 --> 01:39:05,119

if

2786

01:39:10,790 --> 01:39:08,800

uh fers are using this as their oh as

2787

01:39:12,629 --> 01:39:10,800

flat earthers are using the flat earth

2788

01:39:14,070 --> 01:39:12,639

evidence then the flat earth model would

2789

01:39:15,750 --> 01:39:14,080

be a flat yeah see i don't think you

2790

01:39:16,950 --> 01:39:15,760

said that would be a flat earth square

2791

01:39:21,030 --> 01:39:16,960

not a disc

2792

01:39:23,750 --> 01:39:21,040

way first first off

2793

01:39:25,750 --> 01:39:23,760

i never use the bible ever because the

2794

01:39:27,030 --> 01:39:25,760

science proves it right because if you

2795

01:39:28,550 --> 01:39:27,040

use the bible

2796

01:39:30,390 --> 01:39:28,560

anyone that doesn't live in the bible is

2797

01:39:31,510 --> 01:39:30,400

immediately eliminated

2798

01:39:32,870 --> 01:39:31,520

okay

2799

01:39:34,550 --> 01:39:32,880

so

2800

01:39:36,390 --> 01:39:34,560

i'm not the bible guy my co-host on the

2801

01:39:39,910 --> 01:39:36,400

flatters podcast matt long

2802

01:39:41,830 --> 01:39:39,920

he uh he is a bible guy but the bible

2803

01:39:43,830 --> 01:39:41,840

supports

2804

01:39:45,430 --> 01:39:43,840

flat earth in that in the app just click

2805

01:39:47,270 --> 01:39:45,440

biblical flat earth even if you don't

2806

01:39:49,910 --> 01:39:47,280

believe in the bible watch it it's very

2807

01:39:52,629 --> 01:39:49,920

very interesting amazing things the

2808

01:39:54,470 --> 01:39:52,639

bible backs up planet earth right and

2809

01:39:56,229 --> 01:39:54,480

flat earth is all about god's creation

2810

01:39:58,310 --> 01:39:56,239

so there's a lot of truth there's over

2811

01:40:01,350 --> 01:39:58,320

200 verses in the bible that support a

2812

01:40:02,950 --> 01:40:01,360

flat earth and zero that support a ball

2813

01:40:03,830 --> 01:40:02,960

okay

2814

01:40:05,830 --> 01:40:03,840

but

2815

01:40:08,470 --> 01:40:05,840

um the four corners of the earth doesn't

2816

01:40:10,470 --> 01:40:08,480

the earth is not a disk okay it could be

2817

01:40:12,229 --> 01:40:10,480

an extended plane that could have four

2818

01:40:13,669 --> 01:40:12,239

pillars on it right and you have your

2819

01:40:16,310 --> 01:40:13,679

four you know

2820

01:40:18,470 --> 01:40:16,320

your four corners i don't know i can't

2821

01:40:19,669 --> 01:40:18,480

get it we're not allowed out there

2822

01:40:23,590 --> 01:40:19,679

yeah

2823

01:40:24,870 --> 01:40:23,600

ian is bringing his point up he said

2824

01:40:26,310 --> 01:40:24,880

well here's you know here we go with

2825

01:40:28,709 --> 01:40:26,320

dave every time he's got an answer he

2826

01:40:31,030 --> 01:40:28,719

points you back to the app um

2827

01:40:33,189 --> 01:40:31,040

i point to the app because

2828

01:40:34,550 --> 01:40:33,199

because google flat earth on youtube and

2829

01:40:35,750 --> 01:40:34,560

you might as well just be a baller for

2830

01:40:39,270 --> 01:40:35,760

the rest of your life you're not gonna

2831

01:40:41,669 --> 01:40:39,280

find anything okay don't buy my appian

2832

01:40:43,990 --> 01:40:41,679

remain a baller and keep yourself

2833

01:40:45,750 --> 01:40:44,000

limited waste your life now there's

2834

01:40:47,270 --> 01:40:45,760

people that are having

2835

01:40:51,669 --> 01:40:47,280

good lives they're doing okay they're

2836

01:40:53,750 --> 01:40:51,679

happy god bless you okay me i was doing

2837

01:40:56,550 --> 01:40:53,760

super well i was making more money than

2838

01:40:59,270 --> 01:40:56,560

i ever thought i could make i am happier

2839

01:41:01,270 --> 01:40:59,280

now life is amazing the people i'm

2840

01:41:05,030 --> 01:41:01,280

meeting at that conference they're all

2841

01:41:10,629 --> 01:41:07,910

you have no idea the potential that we

2842

01:41:14,070 --> 01:41:10,639

have and that's being kept from us

2843

01:41:15,990 --> 01:41:14,080

okay that's being kept from us

2844

01:41:17,189 --> 01:41:16,000

yeah no i agree that people and like i

2845

01:41:18,950 --> 01:41:17,199

said to him when i answered this i said

2846

01:41:20,390 --> 01:41:18,960

no one should ever take any but i mean

2847

01:41:22,149 --> 01:41:20,400

even with what you're saying we should

2848

01:41:23,270 --> 01:41:22,159

go and look these things up find them

2849

01:41:25,990 --> 01:41:23,280

out for yourself whether it's to

2850

01:41:28,709 --> 01:41:26,000

disprove dave or to to see if what he's

2851

01:41:30,870 --> 01:41:28,719

saying and agree or indeed it's true

2852

01:41:33,189 --> 01:41:30,880

ian i have a i have an idea you should

2853

01:41:34,790 --> 01:41:33,199

buy my app you should buy my app for all

2854

01:41:37,189 --> 01:41:34,800

of your friends and you should also

2855

01:41:38,070 --> 01:41:37,199

become a patreon of mine at the highest

2856

01:41:41,030 --> 01:41:38,080

level

2857

01:41:45,109 --> 01:41:42,470

that's what i'm saying

2858

01:41:47,189 --> 01:41:45,119

okay and make sure you subscribe and pay

2859

01:41:49,590 --> 01:41:47,199

yearly instead of monthly right because

2860

01:41:52,790 --> 01:41:49,600

eleven dollars a year i can get an extra

2861

01:41:55,350 --> 01:41:52,800

99 cents out of you you pay oh actually

2862

01:41:57,910 --> 01:41:55,360

pay monthly i get an extra 99

2863

01:42:00,149 --> 01:41:57,920

you know the the app is three bucks

2864

01:42:01,510 --> 01:42:00,159

that's it right and you get so much

2865

01:42:03,750 --> 01:42:01,520

suffer but if you want to be able to

2866

01:42:05,510 --> 01:42:03,760

message other flat earthers it's 11 for

2867

01:42:07,030 --> 01:42:05,520

the year essentially you bought me a

2868

01:42:09,430 --> 01:42:07,040

margarita and you didn't tip the

2869

01:42:11,750 --> 01:42:09,440

bartender very well okay you're always

2870

01:42:12,790 --> 01:42:11,760

going to tip them yes

2871

01:42:14,709 --> 01:42:12,800

yes

2872

01:42:17,910 --> 01:42:14,719

but but [h__h] about my app all right

2873

01:42:19,910 --> 01:42:17,920

[h__h] about the one tool that is waking

2874

01:42:22,310 --> 01:42:19,920

people up the one tool that is bypassing

2875

01:42:24,629 --> 01:42:22,320

youtube's algorithms the one tool that

2876

01:42:27,109 --> 01:42:24,639

is bringing people together

2877

01:42:30,870 --> 01:42:27,119

okay and letting them collaborate and

2878

01:42:32,870 --> 01:42:30,880

expand this awakening this awakening

2879

01:42:34,550 --> 01:42:32,880

could be the only thing that saves us

2880

01:42:35,590 --> 01:42:34,560

from the tyranny that's happening right

2881

01:42:37,750 --> 01:42:35,600

now

2882

01:42:39,189 --> 01:42:37,760

not impossible i think if no matter what

2883

01:42:40,070 --> 01:42:39,199

guys it and i would say this for those

2884

01:42:41,030 --> 01:42:40,080

that are getting pretty fired up right

2885

01:42:42,149 --> 01:42:41,040

now about all right here we go they're

2886

01:42:44,070 --> 01:42:42,159

coming in they're instantly seeing flat

2887

01:42:45,910 --> 01:42:44,080

earth they're laughing okay i get it but

2888

01:42:47,750 --> 01:42:45,920

do this i laughed i laughed too i heard

2889

01:42:49,590 --> 01:42:47,760

flutter i laughed i ridiculed and i

2890

01:42:51,430 --> 01:42:49,600

refused the luck

2891

01:42:53,030 --> 01:42:51,440

i think two guys step away from it say

2892

01:42:54,310 --> 01:42:53,040

it wasn't flatter say it was anything if

2893

01:42:55,669 --> 01:42:54,320

you if you're the type of person who

2894

01:42:58,149 --> 01:42:55,679

believes everything and most of us in

2895

01:42:59,669 --> 01:42:58,159

here believe in aliens okay guys

2896

01:43:00,950 --> 01:42:59,679

let's admit that most of us do and even

2897

01:43:03,030 --> 01:43:00,960

if you don't that's what i do

2898

01:43:04,790 --> 01:43:03,040

extraterrestrials right here from earth

2899

01:43:06,790 --> 01:43:04,800

they probably speak english

2900

01:43:08,149 --> 01:43:06,800

yeah yeah you covered that right then he

2901
01:43:10,550 --> 01:43:08,159
did for those who might have missed it

2902
01:43:11,350 --> 01:43:10,560
but i'm saying is that take take flat

2903
01:43:13,430 --> 01:43:11,360
earth

2904
01:43:15,910 --> 01:43:13,440
in a different context pretend it's not

2905
01:43:17,270 --> 01:43:15,920
flat earth just it is a thing

2906
01:43:19,750 --> 01:43:17,280
it doesn't matter what it is it's just a

2907
01:43:21,189 --> 01:43:19,760
word and approach it in that manner try

2908
01:43:22,790 --> 01:43:21,199
to come at it from a position where you

2909
01:43:24,790 --> 01:43:22,800
don't know the conclusion yet and then

2910
01:43:26,950 --> 01:43:24,800
really try and go and formulate that

2911
01:43:29,669 --> 01:43:26,960
conclusion yourself and that's what your

2912
01:43:31,510 --> 01:43:29,679
bitcoins collect your bitcoin

2913
01:43:32,709 --> 01:43:31,520

one proof of the globe

2914

01:43:35,270 --> 01:43:32,719

one proof

2915

01:43:36,070 --> 01:43:35,280

okay it's easy

2916

01:43:37,910 --> 01:43:36,080

yeah

2917

01:43:39,750 --> 01:43:37,920

um and guys anybody might be listening

2918

01:43:41,590 --> 01:43:39,760

to this in podcast format listening back

2919

01:43:43,350 --> 01:43:41,600

all show notes are in there you guys

2920

01:43:44,629 --> 01:43:43,360

will be able to check that out and i do

2921

01:43:45,750 --> 01:43:44,639

highly recommend that you hop on the

2922

01:43:47,510 --> 01:43:45,760

youtube channel if you have not already

2923

01:43:49,590 --> 01:43:47,520

subscribed please do so like the video

2924

01:43:50,950 --> 01:43:49,600

ring the bell and i'm gonna say you need

2925

01:43:52,870 --> 01:43:50,960

to watch this with the video it really

2926
01:43:54,149 --> 01:43:52,880
helps to get the concept of what's being

2927
01:43:55,350 --> 01:43:54,159
talked about because i'll admit it even

2928
01:43:57,030 --> 01:43:55,360
when watching with the video you're

2929
01:43:57,990 --> 01:43:57,040
still like yeah i don't know this is a

2930
01:44:01,910 --> 01:43:58,000
lot

2931
01:44:04,310 --> 01:44:01,920
last question i'll end it for you guys

2932
01:44:06,310 --> 01:44:04,320
this week we gotta let dave go here uh

2933
01:44:07,669 --> 01:44:06,320
thin man is asking what was the tipping

2934
01:44:10,470 --> 01:44:07,679
point for dave so dave what was your

2935
01:44:12,310 --> 01:44:10,480
point of no return yeah so after i

2936
01:44:14,070 --> 01:44:12,320
finally was forced to look i went in

2937
01:44:15,750 --> 01:44:14,080
with a closed mind right you know

2938
01:44:17,910 --> 01:44:15,760

flattering stupid i'm just gonna prove

2939

01:44:19,510 --> 01:44:17,920

the globe and i and and so then i

2940

01:44:21,430 --> 01:44:19,520

started watching all of the stuff i

2941

01:44:23,669 --> 01:44:21,440

watched mark sargent's flatters clues

2942

01:44:25,750 --> 01:44:23,679

and 200 proofs by eric dubay

2943

01:44:27,669 --> 01:44:25,760

and then i started watching um

2944

01:44:29,430 --> 01:44:27,679

some other stuff but then i started

2945

01:44:31,189 --> 01:44:29,440

seeing all of these all right if the

2946

01:44:32,470 --> 01:44:31,199

earth is a globe what's the curvature

2947

01:44:33,990 --> 01:44:32,480

and i looked into the curvature formula

2948

01:44:35,510 --> 01:44:34,000

and i realized there has to be a

2949

01:44:37,030 --> 01:44:35,520

physical horizon when i'm standing at

2950

01:44:39,189 --> 01:44:37,040

the water's edge no farther than three

2951

01:44:41,430 --> 01:44:39,199

miles away well i live on the water i

2952

01:44:43,990 --> 01:44:41,440

know that i can see beaches five six

2953

01:44:46,310 --> 01:44:44,000

seven eight ten miles away okay that

2954

01:44:48,229 --> 01:44:46,320

doesn't make any sense so i watched all

2955

01:44:49,669 --> 01:44:48,239

these videos how things disappear from

2956

01:44:52,310 --> 01:44:49,679

the bottom up and then you zoom in and

2957

01:44:54,070 --> 01:44:52,320

you can bring them back again okay

2958

01:44:56,550 --> 01:44:54,080

um things disappear from the bottom up

2959

01:44:58,070 --> 01:44:56,560

for a couple of reasons and not always

2960

01:45:00,550 --> 01:44:58,080

the same reason because it's depending

2961

01:45:01,510 --> 01:45:00,560

on the conditions of the day so

2962

01:45:03,430 --> 01:45:01,520

um

2963

01:45:05,510 --> 01:45:03,440

i went out and bought a i'm not just

2964

01:45:07,510 --> 01:45:05,520

going to believe a youtube video i

2965

01:45:10,390 --> 01:45:07,520

bought a thousand dollar super zoom

2966

01:45:12,470 --> 01:45:10,400

camera the nikon p900 at the time a good

2967

01:45:14,709 --> 01:45:12,480

tripod and i went down i started zooming

2968

01:45:16,709 --> 01:45:14,719

in on things doing the math i'm like

2969

01:45:18,470 --> 01:45:16,719

even if the curvature calculator is off

2970

01:45:21,590 --> 01:45:18,480

by 50

2971

01:45:23,830 --> 01:45:21,600

not a 60 foot drop only a 30 foot drop

2972

01:45:25,910 --> 01:45:23,840

i'm still seeing things that i should

2973

01:45:27,109 --> 01:45:25,920

not be able to see

2974

01:45:29,830 --> 01:45:27,119

okay

2975

01:45:33,109 --> 01:45:29,840

large bodies of water at rest flat we

2976

01:45:35,189 --> 01:45:33,119

can see too far refraction is a thing

2977

01:45:37,430 --> 01:45:35,199

but it's [h__\h] when it's coming to

2978

01:45:40,709 --> 01:45:37,440

what we're seeing um in all different

2979

01:45:42,229 --> 01:45:40,719

conditions cold dark you know humid not

2980

01:45:45,350 --> 01:45:42,239

humid

2981

01:45:46,550 --> 01:45:45,360

um we're seeing things perfectly clear

2982

01:45:48,870 --> 01:45:46,560

and that's one of my things is that a

2983

01:45:50,229 --> 01:45:48,880

lot of these guys a lot of this what's

2984

01:45:51,750 --> 01:45:50,239

argued about when people get so upset

2985

01:45:53,510 --> 01:45:51,760

with each other about it it works on

2986

01:45:55,830 --> 01:45:53,520

both a flat earth model and a

2987

01:45:58,229 --> 01:45:55,840

heliocentric model or sphere and if

2988

01:45:59,590 --> 01:45:58,239

people would just sit down and not be so

2989

01:46:01,189 --> 01:45:59,600

aggressive first of all i gotta ask that

2990

01:46:02,470 --> 01:46:01,199

question guys and i don't mean this that

2991

01:46:04,390 --> 01:46:02,480

i mean i understand it could just be my

2992

01:46:07,030 --> 01:46:04,400

own ignorance but i don't understand the

2993

01:46:08,390 --> 01:46:07,040

aggression behind it i know i could i

2994

01:46:09,430 --> 01:46:08,400

can understand it i think you said it

2995

01:46:11,990 --> 01:46:09,440

wrong

2996

01:46:13,910 --> 01:46:12,000

some things work on both some things

2997

01:46:16,149 --> 01:46:13,920

work on it east west circumnavigation

2998

01:46:17,830 --> 01:46:16,159

works on both southern circumnavigation

2999

01:46:19,510 --> 01:46:17,840

doesn't well

3000

01:46:23,109 --> 01:46:19,520

never been done

3001

01:46:24,550 --> 01:46:23,119

interesting right um

3002

01:46:27,189 --> 01:46:24,560

there's there's plenty of things that

3003

01:46:28,550 --> 01:46:27,199

work on both but there's nothing

3004

01:46:31,990 --> 01:46:28,560

there's plenty of things that work just

3005

01:46:33,669 --> 01:46:32,000

on a flat earth we can see too far okay

3006

01:46:35,430 --> 01:46:33,679

but nothing

3007

01:46:37,830 --> 01:46:35,440

only works on the globe model there's

3008

01:46:40,629 --> 01:46:37,840

nothing there's not one thing you put in

3009

01:46:42,390 --> 01:46:40,639

the globe only basket there's not one

3010

01:46:44,390 --> 01:46:42,400

thing

3011

01:46:46,390 --> 01:46:44,400

what does that tell you and the reason

3012

01:46:48,629 --> 01:46:46,400

people get so emotional is because of

3013

01:46:50,950 --> 01:46:48,639

this you were programmed before you can

3014

01:46:53,669 --> 01:46:50,960

talk that the earth is a ball you love

3015

01:46:56,310 --> 01:46:53,679

balls everyone loves balls okay balls

3016

01:46:58,629 --> 01:46:56,320

are fun to play with they bounce

3017

01:47:00,310 --> 01:46:58,639

okay and we you know whatever you could

3018

01:47:02,229 --> 01:47:00,320

take that down whatever road you want oh

3019

01:47:04,709 --> 01:47:02,239

i'm sure they will yeah

3020

01:47:06,709 --> 01:47:04,719

and as a child you have mobiles with

3021

01:47:09,750 --> 01:47:06,719

with solar systems on it and you have a

3022

01:47:12,470 --> 01:47:09,760

globe and and i even bought my son you

3023

01:47:15,830 --> 01:47:12,480

know a squishy globe right as a child

3024

01:47:17,189 --> 01:47:15,840

right yeah before i knew but

3025

01:47:19,590 --> 01:47:17,199

people don't like having their ball

3026

01:47:21,510 --> 01:47:19,600

taken away literally you're taking a

3027

01:47:23,910 --> 01:47:21,520

ball away from a child because if you

3028

01:47:26,950 --> 01:47:23,920

believe the earth is a globe you are a

3029

01:47:29,270 --> 01:47:26,960

child your mind you are a child with

3030

01:47:31,590 --> 01:47:29,280

childhood beliefs because belief is the

3031

01:47:33,830 --> 01:47:31,600

enemy of knowing belief

3032

01:47:36,310 --> 01:47:33,840

takes no effort at all you believe my

3033

01:47:39,109 --> 01:47:36,320

name is dave have you ever checked have

3034

01:47:41,910 --> 01:47:39,119

you ever checked no okay you haven't

3035

01:47:44,229 --> 01:47:41,920

right and it takes time and effort my

3036

01:47:45,189 --> 01:47:44,239

name is dave okay but it takes time and

3037

01:47:47,109 --> 01:47:45,199

effort to

3038

01:47:49,590 --> 01:47:47,119

to do these things

3039

01:47:52,149 --> 01:47:49,600

there's there's evil people in this

3040

01:47:54,470 --> 01:47:52,159

world and here's the other thing is

3041

01:47:57,270 --> 01:47:54,480

there's so many people

3042

01:47:59,350 --> 01:47:57,280

in your chat that are not skills

3043

01:48:01,109 --> 01:47:59,360

they're defending something that they

3044

01:48:03,189 --> 01:48:01,119

were programmed to defend they're

3045

01:48:05,350 --> 01:48:03,199

laughing at something they were

3046

01:48:08,310 --> 01:48:05,360

programmed to laugh at they're not even

3047

01:48:11,430 --> 01:48:08,320

skills they're just programmed to tell

3048

01:48:12,790 --> 01:48:11,440

live vision programming

3049

01:48:16,390 --> 01:48:12,800

yeah

3050

01:48:17,910 --> 01:48:16,400

it's something that guys if we just step

3051

01:48:19,430 --> 01:48:17,920

back and you recognize the history of

3052

01:48:21,350 --> 01:48:19,440

what went on in the turn of the century

3053

01:48:22,709 --> 01:48:21,360

there with the education system it begs

3054

01:48:24,149 --> 01:48:22,719

to a lot of questions and i would say

3055

01:48:24,790 --> 01:48:24,159

this going back to the alien thing again

3056

01:48:26,470 --> 01:48:24,800

is

3057

01:48:27,669 --> 01:48:26,480

most of us not saying everybody most of

3058

01:48:28,870 --> 01:48:27,679

us don't necessarily trust the

3059

01:48:31,030 --> 01:48:28,880

government and if you don't trust them

3060

01:48:33,750 --> 01:48:31,040

on other things if the lady about other

3061

01:48:34,950 --> 01:48:33,760

things why is it i know it's a big one i

3062

01:48:36,229 --> 01:48:34,960

know it seems like a big one but what's

3063

01:48:38,629 --> 01:48:36,239

the difference

3064

01:48:40,790 --> 01:48:38,639

what is one lie to another lie

3065

01:48:42,390 --> 01:48:40,800

in my mind one is one is all

3066

01:48:43,669 --> 01:48:42,400

in a sense now i get somewhere bigger

3067

01:48:46,229 --> 01:48:43,679

than others but

3068

01:48:47,990 --> 01:48:46,239

if they'll lie about some things um why

3069

01:48:49,910 --> 01:48:48,000

not why not another one uh one last

3070

01:48:51,910 --> 01:48:49,920

question guys is the last one i swear uh

3071

01:48:55,669 --> 01:48:51,920

asked dave about sail drones

3072

01:48:58,470 --> 01:48:57,510

very easy to look up and verify for

3073

01:49:00,229 --> 01:48:58,480

yourself

3074

01:49:02,390 --> 01:49:00,239

very easy to look up and see a couple

3075

01:49:04,149 --> 01:49:02,400

articles written about this little drone

3076

01:49:05,990 --> 01:49:04,159

that sailed around where no one else

3077

01:49:08,470 --> 01:49:06,000

could go it's a complete and total

3078

01:49:10,470 --> 01:49:08,480

nonsense yes they did build the drone it

3079

01:49:13,030 --> 01:49:10,480

did have a little solar power sail on it

3080

01:49:16,229 --> 01:49:13,040

it never happened right there if you

3081

01:49:17,589 --> 01:49:16,239

look up at the antarctic uh race that

3082

01:49:19,669 --> 01:49:17,599

goes around antarctica well they never

3083

01:49:22,550 --> 01:49:19,679

go near antarctica they're above 50

3084

01:49:24,790 --> 01:49:22,560

degrees south okay they're above 50

3085

01:49:27,430 --> 01:49:24,800

degrees above 50 yeah about 50 degrees

3086

01:49:30,950 --> 01:49:27,440

south and these sailboats are capable of

3087

01:49:32,950 --> 01:49:30,960

going like 40 knots okay but gps tells

3088

01:49:34,790 --> 01:49:32,960

them how far they went according to the

3089

01:49:37,430 --> 01:49:34,800

globe and so they're like oh yeah we

3090

01:49:39,910 --> 01:49:37,440

averaged three miles an hour what these

3091

01:49:42,390 --> 01:49:39,920

sailboats that can that in no wind go 10

3092

01:49:43,669 --> 01:49:42,400

miles an hour okay they're they're

3093

01:49:45,990 --> 01:49:43,679

they're they're averaging three miles an

3094

01:49:47,510 --> 01:49:46,000

hour no they're going greater distances

3095

01:49:49,189 --> 01:49:47,520

and their math

3096

01:49:51,270 --> 01:49:49,199

is off right

3097

01:49:53,350 --> 01:49:51,280

so when you when you actually look at

3098

01:49:56,070 --> 01:49:53,360

these things and not just believe this

3099

01:49:58,390 --> 01:49:56,080

ridiculous story with a couple photos of

3100

01:50:00,550 --> 01:49:58,400

this little drone uh it's the lamest

3101
01:50:02,629 --> 01:50:00,560
argument ever they say prove it didn't

3102
01:50:04,470 --> 01:50:02,639
happen dave well yeah prove it didn't

3103
01:50:07,510 --> 01:50:04,480
happen you prove it to happen it's your

3104
01:50:08,709 --> 01:50:07,520
claim you prove it i know okay

3105
01:50:10,470 --> 01:50:08,719
i know

3106
01:50:12,870 --> 01:50:10,480
by the the sound of your questions you

3107
01:50:14,870 --> 01:50:12,880
have trolls you have real trolls coming

3108
01:50:17,350 --> 01:50:14,880
out yeah we always we we yeah we get

3109
01:50:18,790 --> 01:50:17,360
them yeah yeah they they follow me by

3110
01:50:21,030 --> 01:50:18,800
the way the comment section is going to

3111
01:50:22,629 --> 01:50:21,040
be filled with these guys go check out

3112
01:50:24,390 --> 01:50:22,639
their channels when they comment they

3113
01:50:26,390 --> 01:50:24,400

got nothing right

3114

01:50:29,030 --> 01:50:26,400

there i call them the all-out globe

3115

01:50:31,109 --> 01:50:29,040

proof channels there's nothing on them

3116

01:50:33,270 --> 01:50:31,119

nothing

3117

01:50:35,189 --> 01:50:33,280

yes ma'am let's end on let's end it on

3118

01:50:37,189 --> 01:50:35,199

this one guys tammy says the van is a

3119

01:50:39,830 --> 01:50:37,199

hot box for sure tonight willie great

3120

01:50:41,350 --> 01:50:39,840

show um yeah there's a lot of opinions

3121

01:50:42,870 --> 01:50:41,360

in here tonight and we're obviously

3122

01:50:44,470 --> 01:50:42,880

pulling her back in the garage because

3123

01:50:45,510 --> 01:50:44,480

we've gone way over for dave here

3124

01:50:46,310 --> 01:50:45,520

tonight

3125

01:50:48,390 --> 01:50:46,320

uh

3126
01:50:49,990 --> 01:50:48,400
and you guys like i said i mean this is

3127
01:50:51,350 --> 01:50:50,000
something that for me

3128
01:50:53,109 --> 01:50:51,360
i'm a person who likes to encourage

3129
01:50:54,950 --> 01:50:53,119
people to look things up

3130
01:50:56,149 --> 01:50:54,960
for themselves you should know why you

3131
01:50:58,229 --> 01:50:56,159
believe what you believe and if you

3132
01:50:59,750 --> 01:50:58,239
don't know and i've said this i don't

3133
01:51:01,189 --> 01:50:59,760
actually know what we're on i don't

3134
01:51:03,270 --> 01:51:01,199
accept all the answers i don't know what

3135
01:51:04,709 --> 01:51:03,280
we're on either i know we're not on

3136
01:51:06,470 --> 01:51:04,719
we're not on a spinning ball flying

3137
01:51:07,589 --> 01:51:06,480
through a space vacuum

3138
01:51:09,270 --> 01:51:07,599

you know what i would love and they know

3139

01:51:10,470 --> 01:51:09,280

they won't do it but i just want to see

3140

01:51:13,270 --> 01:51:10,480

it because darn it if i don't like a

3141

01:51:15,750 --> 01:51:13,280

good debate i would love to see

3142

01:51:18,550 --> 01:51:15,760

anybody that nasa gave anybody with with

3143

01:51:20,950 --> 01:51:18,560

the status quo that the the people want

3144

01:51:22,629 --> 01:51:20,960

to sit down and debate and and have to

3145

01:51:24,550 --> 01:51:22,639

debate with you guys they will never do

3146

01:51:26,629 --> 01:51:24,560

it they'll never do it they they they

3147

01:51:28,629 --> 01:51:26,639

even said probably never talk to flat

3148

01:51:30,390 --> 01:51:28,639

earthers because we don't have time and

3149

01:51:31,910 --> 01:51:30,400

now you know obama said we don't have

3150

01:51:34,870 --> 01:51:31,920

time for a meeting of the flat earth

3151

01:51:37,109 --> 01:51:34,880

society right we and the other guy says

3152

01:51:38,790 --> 01:51:37,119

we don't have time to you know something

3153

01:51:42,229 --> 01:51:38,800

the science is settled science has never

3154

01:51:44,950 --> 01:51:42,239

settled okay right that's saying science

3155

01:51:47,270 --> 01:51:44,960

and but then he spends you know video

3156

01:51:49,589 --> 01:51:47,280

after video after video literally

3157

01:51:51,510 --> 01:51:49,599

responding to all the flat earth stuff

3158

01:51:54,950 --> 01:51:51,520

pretending that oh you know we didn't

3159

01:51:57,510 --> 01:51:54,960

hear that it's all his job is to make

3160

01:51:59,030 --> 01:51:57,520

you believe you're insignificant living

3161

01:52:02,310 --> 01:51:59,040

on a spinning ball flying through a

3162

01:52:03,750 --> 01:52:02,320

space vacuum with that said you can find

3163

01:52:05,030 --> 01:52:03,760

my stuff if you can't remember the name

3164

01:52:07,669 --> 01:52:05,040

of my app the flatter sun moon and

3165

01:52:09,189 --> 01:52:07,679

zodiac zodiac clock app it's just flat

3166

01:52:12,470 --> 01:52:09,199

earthdave.com we'll bring you to my

3167

01:52:14,870 --> 01:52:12,480

website there is a fake app out there by

3168

01:52:18,070 --> 01:52:14,880

the flatter society the ron media group

3169

01:52:20,709 --> 01:52:18,080

to be exact um on the google play store

3170

01:52:23,030 --> 01:52:20,719

with the same name so if you get that

3171

01:52:25,030 --> 01:52:23,040

app fine just don't send me an email

3172

01:52:28,550 --> 01:52:25,040

telling me my app sucks because my app

3173

01:52:31,030 --> 01:52:28,560

is the highest rated app in the store um

3174

01:52:32,070 --> 01:52:31,040

check it out read the reviews don't buy

3175

01:52:33,270 --> 01:52:32,080

the app

3176
01:52:35,830 --> 01:52:33,280
and uh

3177
01:52:37,109 --> 01:52:35,840
or you know you can find that no you

3178
01:52:39,830 --> 01:52:37,119
actually can't find this stuff on

3179
01:52:42,550 --> 01:52:39,840
youtube and you'll spend

3180
01:52:45,189 --> 01:52:42,560
like 500 hours of research

3181
01:52:46,790 --> 01:52:45,199
will yield you what an hour on the app

3182
01:52:49,990 --> 01:52:46,800
will yield you as far as research so if

3183
01:52:51,030 --> 01:52:50,000
your 499 hours are not worth three

3184
01:52:52,709 --> 01:52:51,040
dollars

3185
01:52:55,430 --> 01:52:52,719
you shouldn't really be in this

3186
01:52:57,750 --> 01:52:55,440
researching field okay you probably have

3187
01:52:59,589 --> 01:52:57,760
some better things to do um and i'll

3188
01:53:01,030 --> 01:52:59,599

leave you with

3189

01:53:02,629 --> 01:53:01,040

don't let them control your mind with

3190

01:53:03,750 --> 01:53:02,639

cartoons because that's what they're

3191

01:53:06,149 --> 01:53:03,760

doing

3192

01:53:07,830 --> 01:53:06,159

okay they're controlling your mind with

3193

01:53:09,510 --> 01:53:07,840

cartoons

3194

01:53:10,950 --> 01:53:09,520

yup i believe like i said everyone

3195

01:53:12,790 --> 01:53:10,960

should look it up and know for it for

3196

01:53:14,550 --> 01:53:12,800

themselves and and and maybe just take a

3197

01:53:17,270 --> 01:53:14,560

step back you know

3198

01:53:19,510 --> 01:53:17,280

uh one last thing dave uh actually i man

3199

01:53:20,550 --> 01:53:19,520

i i missed this one for my buddy he says

3200

01:53:24,550 --> 01:53:20,560

he's seen

3201

01:53:27,430 --> 01:53:24,560

a plane way up yeah yeah so neil

3202

01:53:29,669 --> 01:53:27,440

degrasse tyson says that you cannot see

3203

01:53:33,270 --> 01:53:29,679

the curve from a hundred and twenty

3204

01:53:36,550 --> 01:53:33,280

thousand feet right so on an airplane

3205

01:53:38,229 --> 01:53:36,560

at flying at 39 000 feet the bot the the

3206

01:53:39,910 --> 01:53:38,239

horizon that you can see out the left

3207

01:53:41,510 --> 01:53:39,920

window and out the right window and if

3208

01:53:44,229 --> 01:53:41,520

you drew a line it goes right across

3209

01:53:48,470 --> 01:53:44,239

your eyes um it should be 78 000 feet

3210

01:53:51,750 --> 01:53:48,480

below you okay 78 000 feet below you

3211

01:53:55,830 --> 01:53:51,760

what you see when you're looking out so

3212

01:53:57,589 --> 01:53:55,840

the the viewer the person is right there

3213

01:53:59,589 --> 01:53:57,599

you see in the same

3214

01:54:03,189 --> 01:53:59,599

same you see the same distance in all

3215

01:54:05,589 --> 01:54:03,199

directions okay so if i flip this over

3216

01:54:07,990 --> 01:54:05,599

this guy is the limit of his vision this

3217

01:54:11,350 --> 01:54:08,000

is the limit of his vision you draw a

3218

01:54:13,109 --> 01:54:11,360

line out there and you see this curve

3219

01:54:15,030 --> 01:54:13,119

right because you can see the sky

3220

01:54:17,350 --> 01:54:15,040

farther but you can only see the land

3221

01:54:19,109 --> 01:54:17,360

this far same distance in all directions

3222

01:54:24,070 --> 01:54:19,119

and this is the curve that your friend

3223

01:54:27,270 --> 01:54:26,149

you can't see the curve of the ball well

3224

01:54:29,030 --> 01:54:27,280

people claim they have in the plane

3225

01:54:30,470 --> 01:54:29,040

that's what he says he says

3226

01:54:32,470 --> 01:54:30,480

they think because you're seeing the

3227

01:54:34,709 --> 01:54:32,480

same distance in all directions you're

3228

01:54:36,470 --> 01:54:34,719

seeing that curve i have a round uh

3229

01:54:37,750 --> 01:54:36,480

dining room table and one day the light

3230

01:54:39,750 --> 01:54:37,760

was on it just right and i took a

3231

01:54:40,709 --> 01:54:39,760

picture and i kind of washed out the

3232

01:54:42,709 --> 01:54:40,719

background a little bit and it looked

3233

01:54:44,550 --> 01:54:42,719

like a sphere it looked like a big

3234

01:54:46,629 --> 01:54:44,560

wooden ball it looked like a big wind

3235

01:54:48,709 --> 01:54:46,639

ball until i told you it was a table oh

3236

01:54:51,270 --> 01:54:48,719

it's a table and so when you're looking

3237

01:54:53,350 --> 01:54:51,280

at things you really can't tell uh

3238

01:54:55,109 --> 01:54:53,360

unless you can physically touch it and

3239

01:54:57,750 --> 01:54:55,119

when you see the horizon

3240

01:54:59,750 --> 01:54:57,760

you're seeing it um

3241

01:55:01,750 --> 01:54:59,760

at a you're seeing this is what you're

3242

01:55:03,350 --> 01:55:01,760

saying you're basically just seeing

3243

01:55:06,870 --> 01:55:03,360

um

3244

01:55:08,950 --> 01:55:06,880

you're seeing a a a curved

3245

01:55:11,589 --> 01:55:08,960

you know the the the limit of your site

3246

01:55:14,709 --> 01:55:13,430

right do you think that the windows or

3247

01:55:15,990 --> 01:55:14,719

it has to do with this like i always

3248

01:55:18,470 --> 01:55:16,000

want around the airport the windows are

3249

01:55:19,589 --> 01:55:18,480

also curved right okay they're curved a

3250

01:55:23,030 --> 01:55:19,599

little bit

3251
01:55:24,629 --> 01:55:23,040
bend it down right so if you're looking

3252
01:55:26,229 --> 01:55:24,639
through a curved window that's what

3253
01:55:28,070 --> 01:55:26,239
you're seeing but you know you can kind

3254
01:55:31,030 --> 01:55:28,080
of center yourself on the window and and

3255
01:55:33,750 --> 01:55:31,040
not not look at the edges of the window

3256
01:55:35,270 --> 01:55:33,760
but just because you're seeing a circle

3257
01:55:37,030 --> 01:55:35,280
you're seeing the circle which is the

3258
01:55:38,790 --> 01:55:37,040
limit of your vision

3259
01:55:40,790 --> 01:55:38,800
right

3260
01:55:42,390 --> 01:55:40,800
and and that's not the case at all also

3261
01:55:44,550 --> 01:55:42,400
like are these tables the same width and

3262
01:55:45,669 --> 01:55:44,560
length

3263
01:55:48,390 --> 01:55:45,679

all right yeah

3264

01:55:50,229 --> 01:55:48,400

are they are they the same aspect ratio

3265

01:55:51,910 --> 01:55:50,239

yeah i mean or no no i mean they don't

3266

01:55:55,430 --> 01:55:51,920

like yes they are they're exactly the

3267

01:55:57,750 --> 01:55:55,440

same okay so again your eyes easily

3268

01:55:59,510 --> 01:55:57,760

deceive you and uh and if you listen to

3269

01:56:02,950 --> 01:55:59,520

the high priest of scientism neil

3270

01:56:04,870 --> 01:56:02,960

degrasse tyson he says that at 120 000

3271

01:56:07,750 --> 01:56:04,880

feet the earth you cannot see the

3272

01:56:11,270 --> 01:56:09,189

so

3273

01:56:14,390 --> 01:56:11,280

well i think this is where i say guys

3274

01:56:15,910 --> 01:56:14,400

you just got to go out and and try to

3275

01:56:17,910 --> 01:56:15,920

engage them i'm sure there's people out

3276

01:56:19,990 --> 01:56:17,920

there anxious to do to debunk this and

3277

01:56:20,870 --> 01:56:20,000

put the flat earth stuff to bed finally

3278

01:56:22,870 --> 01:56:20,880

right

3279

01:56:24,950 --> 01:56:22,880

um last night i checked i heard i heard

3280

01:56:26,629 --> 01:56:24,960

the numbers are way down they said that

3281

01:56:29,189 --> 01:56:26,639

more people were looking up i believe

3282

01:56:29,990 --> 01:56:29,199

was publicly follicle hairs than flat

3283

01:56:32,950 --> 01:56:30,000

earth

3284

01:56:35,350 --> 01:56:32,960

so what no no no that's because no no no

3285

01:56:38,310 --> 01:56:35,360

youtube we we were watching the trends a

3286

01:56:40,629 --> 01:56:38,320

few years ago and the searches for flat

3287

01:56:43,430 --> 01:56:40,639

earth out were out beating

3288

01:56:45,830 --> 01:56:43,440

miley cyrus out beating president trump

3289

01:56:48,229 --> 01:56:45,840

out there were there everything all of

3290

01:56:50,390 --> 01:56:48,239

the top ridiculous searches that people

3291

01:56:53,030 --> 01:56:50,400

look for flat earth was beating all of

3292

01:56:55,669 --> 01:56:53,040

them and i think right after it passed

3293

01:56:57,750 --> 01:56:55,679

trump during the height of trump

3294

01:56:59,430 --> 01:56:57,760

guess what youtube did they took down

3295

01:57:00,950 --> 01:56:59,440

the scoreboard there's no longer when

3296

01:57:03,189 --> 01:57:00,960

you search it doesn't tell you how many

3297

01:57:06,310 --> 01:57:03,199

results there are okay they took down

3298

01:57:08,310 --> 01:57:06,320

the scoreboard because of flat earth now

3299

01:57:10,709 --> 01:57:08,320

they have algorithms that are just

3300

01:57:12,470 --> 01:57:10,719

hiding all the results if you search one

3301
01:57:14,310 --> 01:57:12,480
of the most popular videos is called a

3302
01:57:17,589 --> 01:57:14,320
stranger's guide to flat earth 21

3303
01:57:20,870 --> 01:57:17,599
questions by odd tv you can type in that

3304
01:57:22,950 --> 01:57:20,880
exact name and channel name

3305
01:57:25,030 --> 01:57:22,960
and search and it will not show up

3306
01:57:28,229 --> 01:57:25,040
you'll get professor dave you'll get

3307
01:57:30,950 --> 01:57:28,239
cymandan you'll get vsauce you'll get

3308
01:57:33,589 --> 01:57:30,960
bill nye you'll get all of this crap

3309
01:57:34,709 --> 01:57:33,599
which is gatekeeping for your mind okay

3310
01:57:35,830 --> 01:57:34,719
now you have to

3311
01:57:38,950 --> 01:57:35,840
when um

3312
01:57:40,470 --> 01:57:38,960
this whole fake news [h__\h] came out um

3313
01:57:41,990 --> 01:57:40,480

they were they had a congressional

3314

01:57:44,070 --> 01:57:42,000

hearing youtube was in a congressional

3315

01:57:46,310 --> 01:57:44,080

hearing and they used flat earth as

3316

01:57:48,470 --> 01:57:46,320

their example uh well we're just gonna

3317

01:57:50,149 --> 01:57:48,480

we'll we'll censor flat earth we we

3318

01:57:53,030 --> 01:57:50,159

won't let them we'll we'll send them

3319

01:57:54,310 --> 01:57:53,040

more authoritative stuff now under this

3320

01:57:56,229 --> 01:57:54,320

video

3321

01:57:57,589 --> 01:57:56,239

on youtube there's gonna be a wikipedia

3322

01:58:01,350 --> 01:57:57,599

link saying that flat earth is an

3323

01:58:03,350 --> 01:58:01,360

ancient uh already debunked um

3324

01:58:06,310 --> 01:58:03,360

you know belief and that's not the case

3325

01:58:08,470 --> 01:58:06,320

at all there's still places in the world

3326

01:58:10,310 --> 01:58:08,480

now that that believe of the earth is

3327

01:58:12,550 --> 01:58:10,320

flat okay

3328

01:58:14,629 --> 01:58:12,560

you know publicly

3329

01:58:17,510 --> 01:58:14,639

flat earth is massive flat earth affects

3330

01:58:19,910 --> 01:58:17,520

everybody every day yeah and until the

3331

01:58:22,229 --> 01:58:19,920

world they know that if everyone woke up

3332

01:58:25,669 --> 01:58:22,239

to flat earth we'd all see through their

3333

01:58:27,669 --> 01:58:25,679

nonsense and we'd all stop giving them

3334

01:58:30,149 --> 01:58:27,679

our power the only power governments

3335

01:58:31,990 --> 01:58:30,159

have is the power on us if one person

3336

01:58:33,589 --> 01:58:32,000

fights the government they're in trouble

3337

01:58:35,030 --> 01:58:33,599

if everyone fights the government you

3338

01:58:36,550 --> 01:58:35,040

don't even need to fight

3339

01:58:37,830 --> 01:58:36,560

exactly okay

3340

01:58:40,229 --> 01:58:37,840

don't forget

3341

01:58:45,270 --> 01:58:40,239

they are simply public servants don't

3342

01:58:48,229 --> 01:58:46,470

they always call them the leaders and

3343

01:58:50,310 --> 01:58:48,239

i'm like guys these are elected members

3344

01:58:51,990 --> 01:58:50,320

but that's another time

3345

01:58:53,109 --> 01:58:52,000

uh well dave i tell you what i got to

3346

01:58:55,510 --> 01:58:53,119

wrap it up here for you because i know

3347

01:58:57,109 --> 01:58:55,520

it's been too long and uh we'll we'll

3348

01:58:58,470 --> 01:58:57,119

wrap up those over there at the party on

3349

01:59:00,149 --> 01:58:58,480

the chat i'm sure it'll continue after

3350

01:59:01,669 --> 01:59:00,159

we're off long after off but once again

3351

01:59:03,669 --> 01:59:01,679

guys if you're listening in the show

3352

01:59:05,350 --> 01:59:03,679

notes check it out i'd say come check

3353

01:59:07,350 --> 01:59:05,360

out the youtube channel the flat earth

3354

01:59:08,790 --> 01:59:07,360

sun moon and zodiac clock app should be

3355

01:59:10,950 --> 01:59:08,800

3356

01:59:12,870 --> 01:59:10,960

3357

01:59:14,629 --> 01:59:12,880

back and i have to admit i've met a lot

3363

01:59:24,470 --> 01:59:22,400

of great people locally within i'm

3364

01:59:25,990 --> 01:59:24,480

message them yeah yeah couple now you

3367

01:59:32,229 --> 01:59:30,880

know that you can hit the radius the

3368

01:59:34,390 --> 01:59:32,239

button that tells you how many people

3369

01:59:36,470 --> 01:59:34,400

are within whatever radius you selected

3370

01:59:38,070 --> 01:59:36,480

you can now message all of them at once

3371

01:59:40,550 --> 01:59:38,080

3387

02:00:15,510 --> 02:00:14,310

3388

02:00:17,030 --> 02:00:15,520

3395

02:00:29,669 --> 02:00:28,239

please continue the conversation try to

3396

02:00:31,669 --> 02:00:29,679

respect each other defend your position

3397

02:00:33,430 --> 02:00:31,679

i am all for that keep the personal

3398

02:00:35,030 --> 02:00:33,440

attacks that are a little egregious

3399

02:00:36,870 --> 02:00:35,040

towards one another to a minimum but

3400

02:00:38,550 --> 02:00:36,880

have fun defending your point of view

3401

02:00:40,870 --> 02:00:38,560

and as i always end saying when i end

3402

02:00:43,189 --> 02:00:40,880

the show stay curious

3403

02:00:47,270 --> 02:00:43,199

and keep it weird
