

TWO TOPIC TWO TACO LUE'S-DAY

8:00PM CST

1
00:00:03,520 --> 00:00:11,440
oh yeah i'm liking this oh no what just happened

2
00:00:14,080 --> 00:00:18,560
we gotta do that again it wouldn't\h
be our show dude if it went correctly

3
00:00:23,840 --> 00:00:29,840
it's a remix

4
00:00:33,120 --> 00:00:37,440
hey this is another episode of ufo garage\h\h

5
00:00:37,440 --> 00:00:43,840
i'm ben and i'm joe and this is where\h
we talk about ufos aliens and a force

6
00:00:48,560 --> 00:00:54,160
oh yeah they look good tonight man oh yeah\h
i'm liking it i got my tacos it's a little\h\h

7
00:00:54,160 --> 00:00:59,760
bit different tonight we're we're wearing shirts\h
tacos and we're wearing shirts yeah dude i've\h\h

8
00:00:59,760 --> 00:01:06,640
got my beers here we're all hanging out it's\h
tuesday evening thank you all for being here uh\h\h

9
00:01:07,440 --> 00:01:13,760
i'm thinking a little round two with lou what are\h
you thinking man round two with lou i know i know\h\h

10
00:01:13,760 --> 00:01:17,840
it's been almost about a year i think maybe since\h
since we've had them on maybe not even that long\h\h

11
00:01:17,840 --> 00:01:23,920
dude i don't know i'm so bad with time but what is\h

time anyways right time is real uh relative dude\h\h

12

00:01:23,920 --> 00:01:28,880

we all know that it's science or something like\h
that that's what they say anyways a lot of people\h\h

13

00:01:28,880 --> 00:01:34,400

do a lot of people are talking about it dude i've\h
heard that i've heard that well dude let's uh\h\h

14

00:01:35,280 --> 00:01:39,200

let's say what's up to everybody really quick\h
man how is everybody doing y'all been kind of\h\h

15

00:01:39,200 --> 00:01:45,840

waiting in here for a little bit uh yeah chad\h
smith in the house adam what's up bonnie let's\h\h

16

00:01:45,840 --> 00:01:51,120

see here nan is in the house yeah there's some\h
newbies in here or maybe they you know they\h\h

17

00:01:51,120 --> 00:01:54,960

popped in before i'm not i'm not too sure but it\h
looks like there's some newbies in here tonight\h\h

18

00:01:55,600 --> 00:02:03,920

right cool cool i'm liking it i'm liking it marcus\h
in the house gordium what's up sun saver liking\h\h

19

00:02:03,920 --> 00:02:10,880

this space out radio how you doing today dave hey\h
is it is it daytime or nighttime in canada man

20

00:02:13,440 --> 00:02:19,600

uh both both well dude let's get this kicked off\h
man let's bring lou in and say what's up to him\h\h

21

00:02:19,600 --> 00:02:25,360

lou james how are you guys doing man we're\h

doing good man it's good to see you again\h\h

22
00:02:25,360 --> 00:02:30,240
you know it's better to see you it's when you\h
guys put your intro on there i gotta say it it\h\h

23
00:02:30,240 --> 00:02:37,280
said ufos aliens and all things weird see to me\h
at this point ufos really aren't weird to me like\h\h

24
00:02:37,280 --> 00:02:44,400
pineapple on pizza is kind of weird i'm not sure\h
that you know the whole ufo topic at this point\h\h

25
00:02:44,400 --> 00:02:47,920
is really you're gonna have to change the moniker\h
at this point it's kind of mainstream people were\h\h

26
00:02:47,920 --> 00:02:54,880
like meh you know it's not really that weird we'll\h
have to tie in a pineapple on a on a pizza next to\h\h

27
00:02:54,880 --> 00:03:00,400
the the weird in the uh in the catch phrase you\h
know so that way people would right people know\h\h

28
00:03:00,400 --> 00:03:06,800
putting fruit on on on a you know on a vegetable\h
dish i'm not i just i just have a hard time\h\h

29
00:03:06,800 --> 00:03:10,400
i know people are really emotionally\h
attached to their pineapple and look i\h\h

30
00:03:10,400 --> 00:03:16,880
like a good pineapple too pina colada but oh\h
pizza guys it's like i mean i don't even try\h\h

31
00:03:18,240 --> 00:03:22,560
i don't agree with it either you know my wife\h

tries to do half and half like i'm a i'm you know\h\h

32

00:03:22,560 --> 00:03:27,440

i'm old school pepperoni guy give me the dude half\h
and half then it you know the juice is kind of\h\h

33

00:03:27,440 --> 00:03:31,680

leak onto the other half and it kind of corrupts\h
the other part of the pizza that you're trying to\h\h

34

00:03:31,680 --> 00:03:37,120

you know preserve and it's just it never works\h
out you know it's it's it's a it's like one of\h\h

35

00:03:37,120 --> 00:03:42,960

those relationships you have you're like look\h
it i love you but this isn't gonna work i'll\h\h

36

00:03:42,960 --> 00:03:49,760

say it dude i like it i like pine i like pineapple\h
canadian bacon dude i like it i hear the odds are\h\h

37

00:03:49,760 --> 00:03:55,760

one in three that's that's the odds of pineapple\h
and pizza people is one and three and bin i mean

38

00:03:58,400 --> 00:04:05,040

well i'm a pretty weird guy so that makes sense\h
that's the way it goes an apple a pizza uh dude so\h\h

39

00:04:05,040 --> 00:04:11,280

yeah ufos i mean we thought we thought about\h
the cha at the beginning okay ufos that's\h\h

40

00:04:11,280 --> 00:04:16,160

that's a very niche thing to to put in our name\h
that's like very specific but now we've got uap\h\h

41

00:04:16,960 --> 00:04:22,720

uh we've got all all the the new paranormal\h

stuff anomalies yeah all sorts of numb num the\h\h

42

00:04:22,720 --> 00:04:29,840

number right yes dude there's a whole plethora\h
of new words and new nomenclature i feel like\h\h

43

00:04:29,840 --> 00:04:36,000

i think you're onto something with like these\h
words themselves not being as weird anymore so\h\h

44

00:04:36,000 --> 00:04:40,800

like well we need to keep in mind too in the\h
infinite wisdom of of the us government we\h\h

45

00:04:40,800 --> 00:04:47,440

love our acronyms and we love i mean something\h
is as simple as a car right we have we call it\h\h

46

00:04:47,440 --> 00:04:54,080

a humvee well humvee actually stands has this long\h
ass and accurate acronym of what it actually means\h\h

47

00:04:54,080 --> 00:04:59,600

and everything we do in the government has these\h
these these long acronyms and things you're like\h\h

48

00:04:59,600 --> 00:05:04,400

what the hell does that mean and you actually\h
have to be part of like oh that's what it means so\h\h

49

00:05:04,960 --> 00:05:11,040

uap you know ufo you know i get it you know\h
some people are like i'm just calling ufos well\h\h

50

00:05:11,040 --> 00:05:16,720

you know there's a couple reasons for that um but\h
yes in the vernacular we obviously call them ufos\h\h

51

00:05:17,440 --> 00:05:23,360

so i gotta i gotta ask you you know um we're\h

talking about the vernacular here and there's\h\h

52

00:05:23,360 --> 00:05:28,800

you know i don't know if you would say that\h
there's a proper um term for it or maybe you\h\h

53

00:05:28,800 --> 00:05:33,920

would but i want to know in your heart\h
what's your favorite one to use you know

54

00:05:35,040 --> 00:05:44,480

uh that makes sense whatever the hell it is\h
i mean look i mean in all seriousness we we\h\h

55

00:05:45,040 --> 00:05:52,080

we say uap because truth be told i know people say\h
well just calm you off us the bottom line is that\h\h

56

00:05:52,080 --> 00:05:56,880

you know we're not even sure back in the\h
50s and 60s and earlier it all worked but\h\h

57

00:05:57,840 --> 00:06:03,360

flying is is a principle of flight right so you\h
have four fundamental forces you have thrust lift\h\h

58

00:06:03,360 --> 00:06:08,640

drag and weight and when you understand those you\h
create lifting bodies and and you can you can fly\h\h

59

00:06:09,360 --> 00:06:13,520

but the things that we're seeing don't even\h
have wings they don't have any obvious signs\h\h

60

00:06:13,520 --> 00:06:17,840

of propulsion they don't have the things we\h
normally associate with flight and by the way\h\h

61

00:06:18,400 --> 00:06:22,640

we're also seeing them in the water and we're\h

also seeing them in space so you know are they\h\h

62

00:06:22,640 --> 00:06:28,080

really are they really flying well yeah they're\h
in our they're in the air right aerial phenomenon\h\h

63

00:06:28,640 --> 00:06:33,440

but we don't even know they're really you know\h
case in point here here's a little model of a\h\h

64

00:06:33,440 --> 00:06:37,440

well i won't say with it but a little\h
aircraft right and you have wings and lifting\h\h

65

00:06:37,440 --> 00:06:43,360

and different forces that act on that and you fly\h
think of a 737 right when you're going from let's\h\h

66

00:06:43,360 --> 00:06:48,400

say new york to l.a but these things don't\h
have any of those associated technologies so\h\h

67

00:06:48,960 --> 00:06:53,280

to say that they're actually even flying\h
may not be accurate i mean they're in the\h\h

68

00:06:53,280 --> 00:06:59,600

sky for sure and they're moving around but but\h
flight may not even be be part of the calculus\h\h

69

00:07:00,240 --> 00:07:04,560

right blew my mind i've never thought\h
about it like that by the way i'm gonna\h\h

70

00:07:04,560 --> 00:07:08,880

have to call jim goodall after him and ask\h
him what that was you just showed me yeah

71

00:07:10,960 --> 00:07:15,840

it's like all that thing oh

72

00:07:22,480 --> 00:07:27,280

you know that's such a great dude\h
i love that guy he's so funny man\h\h

73

00:07:28,800 --> 00:07:34,560

dude hey in the spirit of vehicles do you want\h
to do you want to play a little game with us lou\h\h

74

00:07:35,200 --> 00:07:38,000

guys let's do it you know i'm dying\h
to turn some wrenches with you guys\h\h

75

00:07:39,360 --> 00:07:44,720

all right all right let's do this we got\h
a little game set up garage trivia right\h\h

76

00:07:45,920 --> 00:07:50,240

it's kind of like that yeah yeah so this this\h
little game we got it it's it's dealing with\h\h

77

00:07:50,240 --> 00:07:56,160

cars it's dealing kind of with uh ufos paranormal\h
having some fun we're gonna see uh lou if you can\h\h

78

00:07:56,160 --> 00:08:02,320

guess what car this movie is from and maybe what\h
the car is just by taking a look at little pieces\h\h

79

00:08:02,320 --> 00:08:08,160

and then we'll show you the big picture\h
all right awesome let's do it first car um

80

00:08:10,640 --> 00:08:18,960

well i'd say probably a 1963 you know it almost\h
looks like one of those old thunderbirds to be\h\h

81

00:08:18,960 --> 00:08:26,400

honest with you um but i don't see the i i\h
photoshopped the emblem out because it would\h\h

82
00:08:26,400 --> 00:08:32,720
have given it away oh okay okay i know i know i\h
made it hard i made it hard yeah you did because\h\h

83
00:08:32,720 --> 00:08:36,320
you know back then they were all putting the\h
the four eyes on those cars and they all had\h\h

84
00:08:36,320 --> 00:08:43,600
the chrome grills those big death machines\h
you know plymouth buick ford they were all\h\h

85
00:08:43,600 --> 00:08:50,080
pretty much competing with each other and copying\h
each other mercilessly and so um i'd probably say

86
00:08:52,800 --> 00:08:58,000
could be a galaxy too all right go ahead\h
i'm going to throw in the towel on this\h\h

87
00:08:58,000 --> 00:09:02,880
one what's this one okay would you would\h
you want to take a guess if okay i guess\h\h

88
00:09:02,880 --> 00:09:05,760
if you don't know the movie or the\h
car you might not know the movie but\h\h

89
00:09:06,320 --> 00:09:12,480
don't say christine because that is not oh\h
ghostbusters hearse got it okay ghostbusters man\h\h

90
00:09:12,480 --> 00:09:21,120
you were what was that was that very close what\h
was that 62 63 it's a 59 cadillac filler meteor

91
00:09:22,560 --> 00:09:27,680
yeah yeah that's a good one that was a boat\h
that's hard that was a hearse i mean those\h\h

92
00:09:27,680 --> 00:09:32,800
things were kind of modified yeah they were i\h
was reading down the list on like the actual like\h\h

93
00:09:32,800 --> 00:09:38,800
specs on it and it was like it's a long name\h
like it went like three little spaces yeah you\h\h

94
00:09:38,800 --> 00:09:42,240
know on some of those those those hearses\h
especially vehicles you would actually add\h\h

95
00:09:42,240 --> 00:09:46,080
a couple extra leafs on the leaf spring in\h
the back because it would carry extra weight\h\h

96
00:09:46,640 --> 00:09:51,200
and so they'd have to beef up that that suspension\h
quite a bit yeah i remember that i really do\h\h

97
00:09:51,200 --> 00:09:56,800
remember that the the siren on that car how\h
crazy annoying it was and it was kind of like\h\h

98
00:09:59,760 --> 00:10:06,400
going down down the road yeah you know i was\h
thinking about the leaf spring and the the\h\h

99
00:10:06,400 --> 00:10:11,040
jacked up wheel i wonder if if that was an\h
accidental it looks cool and now everybody\h\h

100
00:10:11,040 --> 00:10:14,880
kind of does that now with adding the bigger\h
tires i mean maybe there was a real reason\h\h

101
00:10:14,880 --> 00:10:20,000
for it i mean initially for traction right so\h
you had vehicles that were having bigger so\h\h

102
00:10:20,000 --> 00:10:25,040
the circumference of the wheel was bigger so when
you spun the wheel you had better velocity quicker

103
00:10:25,040 --> 00:10:29,920
velocity quicker acceleration because you beefed
up the motor and so in order to fit those bigger

104
00:10:29,920 --> 00:10:34,640
wheels bigger bigger circumference wheels and
even wider wheels you had to jack up either jack

105
00:10:34,640 --> 00:10:39,120
with the vehicle or tub it out and tubbing it
out of course is a lot of modification so the

106
00:10:39,120 --> 00:10:43,440
simple way was just simply jack up the back so
you could fit bigger wheels in the back and then

107
00:10:43,440 --> 00:10:47,920
of course when you when you accelerate and give
a lot of gas you know the butt of the car kind of

108
00:10:47,920 --> 00:10:53,360
sinks down when you have those rear wheel drive
cars right so having that you know that that rake

109
00:10:53,360 --> 00:10:56,640
actually there was actually a real reason for it
and of course then everybody said well i want to

110
00:10:56,640 --> 00:11:01,440
have a race car too and you know if i jack up
my car now my car's a race car well not really

111
00:11:03,200 --> 00:11:08,400
four cylinder yeah if you're like in a
74 bonneville that's not going to work

112

00:11:10,960 --> 00:11:13,840

okay to the back of it you dummy

113

00:11:15,920 --> 00:11:21,760

i you know i i wanted to i uh photoshopped out the logo of this one just because i thought it

114

00:11:21,760 --> 00:11:27,040

gave it away but i don't know i don't know if this is this is like no i'm thinking this is

115

00:11:27,040 --> 00:11:32,080

too tough because i totally agree it kind of looks a little bit like a lincoln to be honest with you

116

00:11:32,640 --> 00:11:39,200

uh or a mercury i'd say um and this is all this is tied to a movie so think of any movies well i mean

117

00:11:39,200 --> 00:11:44,080

the black of course you're talking blues brothers would be a big big one right of course um

118

00:11:44,080 --> 00:11:49,920

there's no aliens and blues brothers though but that is a good joke well maybe they are aliens

119

00:11:52,960 --> 00:11:57,360

men in black perhaps you know um

120

00:11:59,600 --> 00:12:01,440

[_] you know what i'm gonna say

121

00:12:03,280 --> 00:12:07,360

i want to say it looks a little bit like uh it could be a chrysler too but i think

122

00:12:08,560 --> 00:12:12,000

i think it's a leaky come on give me a nova\h
man you mean like a chevy nova or a chevelle\h\h

123
00:12:12,000 --> 00:12:16,640
or something like that man those older cars are\h
too yeah these are all grocery gutters man come on\h\h

124
00:12:17,200 --> 00:12:24,640
um i'll get you know what i'm thinking\h
big police car yeah so blues brothers\h\h

125
00:12:24,640 --> 00:12:28,640
out but again you're telling me it wasn't\h
um you know i'd say you know they went to\h\h

126
00:12:28,640 --> 00:12:32,880
the chevy capris later on but earlier on they\h
were really using a lot of the ford products\h\h

127
00:12:32,880 --> 00:12:39,440
and then before that they had some kind of\h
other ones so i'd say that's probably mercury

128
00:12:44,880 --> 00:12:50,160
i'm not a fairy you had you had the the ford was\h
right you got the ball right yeah you got the ford\h\h

129
00:12:50,160 --> 00:12:53,680
right yeah so this one this was a little tricky\h
because it could have been like one of two things\h\h

130
00:12:53,680 --> 00:13:00,960
both of them being afforded but this was a 64\h
ford galaxy 500 i love the galaxy 500 but see you\h\h

131
00:13:00,960 --> 00:13:06,560
show me the tail not the front dammit that car\h
if you look up right now on google that had such\h\h

132
00:13:06,560 --> 00:13:11,440

a fantastic rear end not that i spent my time
looking at revenge but i'm talking about a car

133

00:13:11,440 --> 00:13:15,840

right so for anybody out there listening to this
conversation i'm referring to vehicles oh that's

134

00:13:16,480 --> 00:13:22,880

getting cut and spliced in somewhere yeah yeah i'm
sure it will yeah look at that thing man it's just

135

00:13:22,880 --> 00:13:27,680

um gorgeous oh dude that's sick yeah yeah thing
right there yeah that rear end looks almost like

136

00:13:27,680 --> 00:13:33,360

a rocket i loved it look at that oh see that's
would have said that was a thunderbird right there

137

00:13:33,360 --> 00:13:37,920

but it's it's a galaxy uh you know what in the
60s the thunderbirds were kind of they're really

138

00:13:37,920 --> 00:13:42,560

big you know they went from the from the t-birds
uh in the 50s which were these kind of then the

139

00:13:42,560 --> 00:13:47,760

baby t-bird and then they all of a sudden became
these huge like blue canoes they just made these

140

00:13:47,760 --> 00:13:53,680

huge vehicles with a big 390 block in there um
you know i wasn't i mean they're pretty especially

141

00:13:53,680 --> 00:14:00,080

a convertible thunderbird you know back in the 60s
was nice but um i was more i was always really you

142

00:14:00,080 --> 00:14:05,520

know if i tell you what i really like there's two\h
favorite cars i have and they're gonna be you know\h\h

143

00:14:05,520 --> 00:14:09,040

there's people that are gonna probably spit on the\h
floor right now when i say with the second cars\h\h

144

00:14:09,040 --> 00:14:15,760

the first one is a 1964 and a half ac shelby cobra\h
with a 429 in it and a six-pack on the top i don't\h\h

145

00:14:15,760 --> 00:14:20,720

mean beer six-pack carbureted four three three\h
three two barrels right there there you go that's\h\h

146

00:14:21,520 --> 00:14:26,240

that there is uh i'd probably be willing\h
to sell one of my children for one of those\h\h

147

00:14:27,920 --> 00:14:33,360

yeah that's maybe not but with the\h
427 it's gonna be a really hard choice\h\h

148

00:14:34,160 --> 00:14:40,720

um the other one is i dare i say don't shoot\h
me i just you know i don't know why i like\h\h

149

00:14:40,720 --> 00:14:45,440

them because they're freaky uh the corvair i\h
love that little car man with a little engine\h\h

150

00:14:46,960 --> 00:14:50,480

i know that thing was a death trap i\h
know i hear all the stories about it but\h\h

151

00:14:51,440 --> 00:14:56,720

man i love a corvair man i do i just and there's\h
something about those cars i think they're so\h\h

152

00:14:56,720 --> 00:15:03,840

cool especially like a convertible\h
corvair facebook corvair c-o-r-v-a-r

153

00:15:04,640 --> 00:15:14,720

a-r yeah is it a 1964 uh no tried like\h
a 69 69. the hell yeah oh that's sick\h\h

154

00:15:14,720 --> 00:15:18,160

i love the man mid-engine look at that little\h
red one the little roadster there about four\h\h

155

00:15:18,160 --> 00:15:23,520

over to the right or five over to the right top\h
layer up oh this one that one yeah look at that\h\h

156

00:15:23,520 --> 00:15:26,720

thing man come on that's kind of cool it's kind\h
of like mid like you're sitting in the middle\h\h

157

00:15:26,720 --> 00:15:31,920

in between the yeah the wheels rather than the\h
engines in the back which is yeah on that car\h\h

158

00:15:31,920 --> 00:15:37,120

of course you're gonna use a death trap but you\h
know i could see you scooting in that lou yeah man

159

00:15:50,800 --> 00:15:56,960

you know what it's funny when i had a\h
i had gosh that this was a high school\h\h

160

00:15:58,000 --> 00:16:04,400

and i had a i had on the rare occasion i had a\h
date i wasn't very popular i had managed this one\h\h

161

00:16:04,400 --> 00:16:08,400

one young lady had asked was okay great we're\h
going to go see a movie and i'll go come pick\h\h

162

00:16:08,400 --> 00:16:16,080

you up she says what kind of party driver so i i\h
have a vet [___] i got to pick her up and she's\h\h

163

00:16:16,080 --> 00:16:21,280

like hey wait a minute i thought you said you\h
you have a corvette i said no i dropped a shiv

164

00:16:23,760 --> 00:16:27,200

i just said a vet i'm sorry\h
did i did you misunderstand\h\h

165

00:16:28,720 --> 00:16:35,840

they mean different things to us babe oh\h
my god look what you got against my phone

166

00:16:42,880 --> 00:16:50,640

you know the cat's meow and that thing oh yeah\h
like a dog pacer or a gremlin or uh yeah oh my god\h\h

167

00:16:50,640 --> 00:16:55,280

that's a that's a dating machine right there see\h
i could scoot i could scoot anywhere in that thing\h\h

168

00:16:55,280 --> 00:17:00,640

i like that i like that car bro i bet you could\h
get pizzas places really quick and back alleyways\h\h

169

00:17:01,200 --> 00:17:08,320

yeah and you can get beat up really quick you\h
know i had uh several grandmothers that would\h\h

170

00:17:09,200 --> 00:17:14,560

cheer at me and yeah this is awesome\h
did yours have the wood uh wood panel\h\h

171

00:17:14,560 --> 00:17:18,640

on the side paneling no that actually was\h
long gone by the time i got the car it was\h\h

172

00:17:18,640 --> 00:17:25,680

it was bad shape and it went zero to 60 and never\h
you know there's a bunch of smoke everywhere

173

00:17:27,760 --> 00:17:33,600

it was yeah it was so bad that's awesome\h
all right let's do this third one\h\h

174

00:17:34,160 --> 00:17:37,520

if you don't get this one that's totally\h
all right yeah this one was the hard one\h\h

175

00:17:38,320 --> 00:17:41,680

it's kind of a difficult one but it's it's a\h
cool movie so we thought we'd throw it in there\h\h

176

00:17:43,200 --> 00:17:49,600

yeah that looks like from tremors isn't it oh my\h
god that's a good guess dude that's a guess that's\h\h

177

00:17:49,600 --> 00:17:55,600

what i would have said that's a great truck man\h
i mean that looks that's awesome um i've actually\h\h

178

00:17:55,600 --> 00:18:02,800

never seen this movie either so i mean well yes\h
i tried to give you these defenders are modified\h\h

179

00:18:02,800 --> 00:18:07,520

they've been cut out and replaced and i'm not even\h
sure if that was the original sidestep bed the\h\h

180

00:18:07,520 --> 00:18:11,840

little bed that they have on that truck that was\h
probably replaced too so probably the only thing\h\h

181

00:18:11,840 --> 00:18:16,720

that was really ever original on that vehicle\h
would be the cab and i can't see the hood um

182

00:18:21,040 --> 00:18:28,160

you know believe it or not ford at one time\h
made a big beast of a truck in the 60s you know\h\h

183
00:18:28,160 --> 00:18:33,760
you had also dodged doing the same thing but but\h
ford made a big meme looking truck this was before\h\h

184
00:18:33,760 --> 00:18:40,560
their their f-100 series and i'm wondering if that\h
may be could i see some weld marks on there too so\h\h

185
00:18:40,560 --> 00:18:44,560
it looks like it had some some significant work\h
to in the lines aren't even straight on it so\h\h

186
00:18:45,920 --> 00:18:50,560
well that's a tough call uh it may it could\h
be i can't see the front so i don't know if\h\h

187
00:18:50,560 --> 00:18:57,840
it's a chevy or a ford or or you know that's\h
tough man we'll just give you this one so this\h\h

188
00:18:57,840 --> 00:19:03,920
is from a movie called monster trucks and it\h
was actually dodged custom made like 50 style\h\h

189
00:19:03,920 --> 00:19:10,080
uh trucks for them and well the entire front end\h
and rear end are not to that the only thing that\h\h

190
00:19:10,080 --> 00:19:13,120
might have been part of that truck at some point\h
other than the middle part of the cab would be\h\h

191
00:19:13,120 --> 00:19:17,280
part of the bed but that's a pretty\h
constant background yeah it's all custom\h\h

192
00:19:17,280 --> 00:19:23,360

see i would have said chevy because my dad had a\h
chevy just i mean like you were saying earlier lou\h\h

193

00:19:23,360 --> 00:19:28,720

like in this era a lot of people were copying what\h
was working right like so this this visor hood\h\h

194

00:19:28,720 --> 00:19:33,120

well it is and you know what i think it the the\h
the chevy though had a little bit more of a rake\h\h

195

00:19:33,120 --> 00:19:37,840

if i'm not mistaken on the a-pillar so when\h
you look at between the the windscreen and the\h\h

196

00:19:37,840 --> 00:19:42,080

a-pillar it almost can't it back a little bit a\h
little bit more than that if i'm not mistaken it\h\h

197

00:19:42,080 --> 00:19:49,600

kind of had that almost retro a little bit more of\h
a 50s feel to it yeah but that is that's a that's\h\h

198

00:19:49,600 --> 00:19:54,160

a mean looking truck man that's a cool looking\h
truck all right so we made this game way too hard\h\h

199

00:19:56,000 --> 00:20:02,000

all right we got one more one more and this one's\h
kind of subjective too i guess like but you know\h\h

200

00:20:02,000 --> 00:20:07,040

they've narrowed it down to two options so you've\h
been pretty good so far yeah getting getting close\h\h

201

00:20:08,320 --> 00:20:13,200

yeah well i grew up unfortunately in this genre\h
i actually remember when the mystery machine was\h\h

202

00:20:13,200 --> 00:20:21,840

was you know the mystery machine and and yeah\h
i remember that truck quite well and um i never\h\h

203

00:20:21,840 --> 00:20:28,560

realized until i got older that that shaggy\h
and scooby were um they were they were high

204

00:20:31,200 --> 00:20:34,800

i didn't know that the kids thought they\h
were goofy and when i got older i'm like\h\h

205

00:20:34,800 --> 00:20:40,480

hey wait a minute yeah one of my friend dave\h
acts like that you act just like shaggy dave\h\h

206

00:20:43,360 --> 00:20:49,520

always hungry oh my god i didn't put two and\h
two together i was kind of uh you know kind of\h\h

207

00:20:49,520 --> 00:20:55,840

kind of innocent i guess but i wasn't really young\h
until i got older i might go now i understand the\h\h

208

00:20:55,840 --> 00:21:02,080

innuendos oh man that's it so they claim that\h
that the uh the general consensus is that the\h\h

209

00:21:02,080 --> 00:21:10,080

mystery machine is either a mid-1960s chevrolet\h
g-body panel van or a dodge a100 see i'd say gmc\h\h

210

00:21:10,080 --> 00:21:14,480

i was going to say gmc are we sure it was\h
chevy because i would say more looks like the\h\h

211

00:21:14,480 --> 00:21:19,280

gmc version which i mean that same obviously\h
yeah i know tomatoes tomatoes people\h\h

212

00:21:19,280 --> 00:21:23,040

are going to be updating the same factory\h
or anything i know i get it yeah speaking of\h\h

213

00:21:23,040 --> 00:21:28,960

tomatoes tomatoes i thought it looked like mater\h
from uh uh from from cars uh oh yeah the truck\h\h

214

00:21:28,960 --> 00:21:35,840

from cars yeah oh the movie the legendary\h
yeah that's what i remember at a.s.r\h\h

215

00:21:38,480 --> 00:21:44,960

that's a funny movie man yeah would you when\h
you got little kids oh yeah that's great well\h\h

216

00:21:44,960 --> 00:21:50,000

luke you know uh you got every single one of them\h
wrong but we're still going to send you a t-shirt\h\h

217

00:21:50,000 --> 00:21:54,000

oh you got the mystery machine though oh\h
that's right that was kind of i mean that\h\h

218

00:21:54,000 --> 00:21:58,480

was that was a gimme guys come on you get a\h
koozie too then yeah that was easy i mean i\h\h

219

00:21:58,480 --> 00:22:04,160

don't deserve anything for that i mean any\h
i think anybody would recognize that hey man\h\h

220

00:22:04,160 --> 00:22:10,000

everybody that comes on the show deserves you know\h
at least a t-shirt so do me a favor the next time\h\h

221

00:22:10,000 --> 00:22:16,960

let's put some cars like like you know not grocery\h
getters not you know give me something sports car\h\h

222

00:22:17,520 --> 00:22:20,800

you know we were trying man we were trying\h
to think of some like cool sci-fi cars\h\h

223

00:22:21,360 --> 00:22:27,600

like alien movies but with older cars we're like\h
we couldn't think of anything like we had like the\h\h

224

00:22:27,600 --> 00:22:31,840

you know kip but then it was like he just kind of\h
like fought crime he was just like a futuristic\h\h

225

00:22:32,560 --> 00:22:38,720

light rider you're talking about the 1999 writer\h
yeah come on that was great i told you i'm sorry\h\h

226

00:22:38,720 --> 00:22:43,840

that that was like that's not an alien it was like\h
the mandalorian is a time machine awesome man that\h\h

227

00:22:43,840 --> 00:22:48,720

i remember when that car came out man everybody\h
wanted one of those that was awesome and that was\h\h

228

00:22:48,720 --> 00:22:52,720

yeah the front there man and then after a couple\h
seasons it kind of got cheesy they started like\h\h

229

00:22:52,720 --> 00:22:58,480

adding all sorts of like fake bodywork fiberglass\h
stuff like little wings and stuff that popped out\h\h

230

00:22:58,480 --> 00:23:03,920

at that point i'm like okay yeah it's like the old\h
miami vice show right it kind of starts off really\h\h

231

00:23:03,920 --> 00:23:09,680

good and then after like 10 seasons it's a stretch\h
right so they start adding all sorts of you know\h\h

232

00:23:09,680 --> 00:23:15,200

really outlandish plots and you're like okay this
is the show's coming to an end soon i can tell

233

00:23:16,400 --> 00:23:21,280

you could always tell dude when the dialogue
starts to get like uh repetitive or like the

234

00:23:21,280 --> 00:23:26,000

themes like there's there's there's like the
same bad guy then i'll tell you you know i'll

235

00:23:26,000 --> 00:23:32,160

share something with you i i've never said this
publicly but you know it's um people say oh yeah

236

00:23:32,160 --> 00:23:35,760

you had that show and i said well you know we
did as part of our public engagement and i'm

237

00:23:35,760 --> 00:23:41,760

not really the tv guy and that's not really who i
am i'd prefer to stay in the shadows i remember um

238

00:23:41,760 --> 00:23:46,320

when the show got greenlit and everybody was super
happy and giddy and i got this call from some

239

00:23:46,320 --> 00:23:50,160

people from new york like hey congratulations
to show and they had this kind of little

240

00:23:50,160 --> 00:23:55,040

kind of little happy hour for for us to say you
know this is going to be great and i feel bad now

241

00:23:55,040 --> 00:23:59,840

looking back because i didn't mean it in a bad
way but i looked at one of the producers really

242

00:23:59,840 --> 00:24:05,600

nice lady i won't say her name probably look her
up and i said you know i'll tell you you know uh

243

00:24:05,600 --> 00:24:10,640

you know when you find out your show's gonna get
killed right and she kind of looked at me says no

244

00:24:10,640 --> 00:24:14,000

i think she's looking for like intelligence right
like how do i know a show's gonna get canceled

245

00:24:15,120 --> 00:24:21,280

i said the day you find out it gets greenlit
because no shows forever and so you know yes this

246

00:24:21,280 --> 00:24:27,040

is time for celebration but also as as a time for
celebration it is also a funeral to some degree

247

00:24:27,040 --> 00:24:32,640

because you know that no show lasts forever and
there will come a day where the show will end for

248

00:24:32,640 --> 00:24:36,960

one reason or another people don't want to do it
anymore the ratings are not there or whatever so

249

00:24:36,960 --> 00:24:41,280

you know always be humble you know don't don't
ever get too too full of your britches and too

250

00:24:41,280 --> 00:24:47,040

big of yourself thinking oh this is it and
number one you know this show lasts forever

251

00:24:47,040 --> 00:24:51,520

right well i mean the same could be said about a
lot of things i mean it's all about that balance

252

00:24:51,520 --> 00:24:56,880

the yin and yang i mean it's it's an interesting\h
perspective that you took about like the beginning\h\h

253

00:24:57,600 --> 00:25:02,960

and going forward i mean that's a very human\h
thing but not a lot of people take the time to\h\h

254

00:25:03,600 --> 00:25:08,480

to go that far you know i think that's a wise\h
way of looking at things i feel like a lot of\h\h

255

00:25:08,480 --> 00:25:16,560

subjects could use that empathy or humbleness\h
right so like well it is humility right and it's\h\h

256

00:25:16,560 --> 00:25:20,080

keeping everybody grounded and realizing hey look\h
we're going to do something we're on a mission\h\h

257

00:25:20,720 --> 00:25:24,720

but but don't get too big yourselves remember\h
there's a reason why we're doing it and if you\h\h

258

00:25:24,720 --> 00:25:30,080

think it's just sell advertisements you're wrong\h
we're doing this because we're we we believe in\h\h

259

00:25:30,080 --> 00:25:35,520

this cause and we're gonna do our very best\h
and you know we'll reevaluate in two years\h\h

260

00:25:35,520 --> 00:25:40,000

but understand that you know this is just a\h
means to an end this is this is to get the\h\h

261

00:25:40,000 --> 00:25:44,240

conversation started that's always what this\h
has been has been part of just one pillar of\h\h

262

00:25:44,880 --> 00:25:50,640

of of five pillars that we've been aggressively
you know attacking to some degree and um

263

00:25:51,440 --> 00:25:55,440

you know so it's you know i guess for people in
hollywood it's kind of hard for some people to

264

00:25:55,440 --> 00:26:00,560

to reconcile that because they think you know once
you have a show that means you know your success

265

00:26:00,560 --> 00:26:06,560

you're it that's it you've achieved that and i
tend to disagree you know i i think that's just

266

00:26:06,560 --> 00:26:12,400

the beginning and you know it for us it served a
purpose and when that purpose was achieved then

267

00:26:12,400 --> 00:26:16,160

it was time to do something else now maybe in
the future there'll be times to do it again

268

00:26:16,160 --> 00:26:20,160

don't know but but right now we're
focusing on on getting governments

269

00:26:20,160 --> 00:26:24,400

and our government in particular and congress
informed and our executive branch informed

270

00:26:24,400 --> 00:26:28,400

that our intelligence and defense communities
informed and getting people informed and having

271

00:26:28,400 --> 00:26:33,200

engagements like this you know i i personally
much prefer this type of engagement because it's

272

00:26:33,840 --> 00:26:38,240

it's it's real and authentic and it's now right\h
it's not like you're taping something and then\h\h

273

00:26:38,240 --> 00:26:41,600

five months later it gets shown and people are\h
like oh my gosh that was great you're like well\h\h

274

00:26:42,560 --> 00:26:45,120

yeah but it was five months ago you\h
know i don't even remember what i said\h\h

275

00:26:45,760 --> 00:26:51,120

yeah you see what we're doing now right and so so\h
this in many in many ways this is this is now and\h\h

276

00:26:51,120 --> 00:26:55,520

and this is why i like it so much because\h
your audience is engaged and they can ask\h\h

277

00:26:55,520 --> 00:26:59,600

questions you can ask questions and you know\h
and sometimes poke a little bit you know when\h\h

278

00:26:59,600 --> 00:27:05,280

you're kind of hidden behind the screen um people\h
can kind of lose touch a little bit with with\h\h

279

00:27:05,280 --> 00:27:09,840

reality in themselves and it's always important\h
to remember that really at the end of the day this\h\h

280

00:27:10,400 --> 00:27:14,240

this type of exchange this type of engagement\h
is what it's really about this is how you\h\h

281

00:27:14,800 --> 00:27:19,680

how you you touch people and how you how you\h
interact with people you share ideas and it's\h\h

282

00:27:19,680 --> 00:27:26,800

it's it's alive you know yeah yeah so yeah you\h
know dealing with with all of this and you know\h\h

283

00:27:26,800 --> 00:27:31,040

you know you personally being so close to\h
the whole thing you know there's a lot of\h\h

284

00:27:31,040 --> 00:27:38,480

there's a lot of talk in in uh you know in this\h
realm of stuff what is what it what is something\h\h

285

00:27:38,480 --> 00:27:45,200

that uh you think people should talk more\h
about you know because it's so scattered\h\h

286

00:27:45,200 --> 00:27:50,400

a lot of the times you know that you know if there\h
was one thing that you wish that people would like\h\h

287

00:27:50,400 --> 00:27:54,480

i wish we would talk about this a little bit\h
more what would that one thing be for you man

288

00:27:56,880 --> 00:28:01,760

you know it's probably not what you're expecting\h
talk to your kids i mean we sit here and everybody\h\h

289

00:28:01,760 --> 00:28:06,240

can tell you who won the super bowl and who's\h
a quarterback for whatever team and if you ask\h\h

290

00:28:06,240 --> 00:28:10,720

them okay who's sitting next to your kid during\h
lunch right who's the second who's a second period\h\h

291

00:28:10,720 --> 00:28:17,440

teacher who's her her fourth period math teacher\h
they don't know that they don't know that yeah\h\h

292

00:28:17,440 --> 00:28:20,560

and it's not important and we're expecting\h
other people to raise our kids for us and\h\h

293
00:28:21,200 --> 00:28:25,920
and that's part of the issues we have with society\h
because we're not investing in the next generation\h\h

294
00:28:25,920 --> 00:28:31,200
we're not we're not investing in ourselves you\h
know we're investing in in reality shows and\h\h

295
00:28:31,200 --> 00:28:38,240
keeping up with you know the smiths and jones and\h
you know i won't say it but we know yeah you know\h\h

296
00:28:38,240 --> 00:28:42,640
it's that's that that's our priority and we see\h
and we're seeing it as a nation we're seeing a\h\h

297
00:28:42,640 --> 00:28:48,720
slow and steady decay of of of what we consider\h
you know priorities for humanity you know we don't\h\h

298
00:28:49,840 --> 00:28:54,880
we don't see each other anymore as individuals\h
most of the time when i was living in\h\h

299
00:28:56,400 --> 00:29:02,080
across on the west coast i was i was surprised\h
in some degree even appalled in in that world\h\h

300
00:29:02,080 --> 00:29:07,760
of hollywood because the first thing people do\h
is say what do you do not who are you right yeah\h\h

301
00:29:07,760 --> 00:29:13,760
how are you no what's your name it's what do you\h
do and the reason why is because they're racking\h\h

302
00:29:13,760 --> 00:29:17,200

and stacking in their brain where do they fall
right can they get something from you are they

303

00:29:17,200 --> 00:29:22,640

higher than you on a social status they're lower
than you it's it's very transactional and

304

00:29:23,600 --> 00:29:28,080

that to me was it was very very sad
to see because we lose a little bit of

305

00:29:28,080 --> 00:29:34,160

of our humanness when when we do that you know
i so if you were to ask me the one thing we should

306

00:29:34,160 --> 00:29:39,200

be doing we should be talking to our kids more
we should be asking them how are they doing

307

00:29:39,200 --> 00:29:44,480

are they feeling what's important to them how
they feel about the russia and the ukraine issue

308

00:29:45,040 --> 00:29:49,440

i know they've heard about in school they're
reading about it and current you know events

309

00:29:49,440 --> 00:29:53,440

what yeah what do they think about what they
think about china and the south pacific

310

00:29:53,440 --> 00:29:59,040

the you know south china sea and what do you think
about climate change you know again without giving

311

00:29:59,040 --> 00:30:04,000

a prescript prescribed answer just what do you
think you know why do you think this is important

312

00:30:04,000 --> 00:30:08,640

or do you not think it's important right are there
other things that are more important to you um

313

00:30:08,640 --> 00:30:13,520

i think that's what we should be doing you know
a wise man once said a long long time ago the

314

00:30:13,520 --> 00:30:17,920

greatest nation is about one generation away
from utter ruin and what he meant by that it

315

00:30:17,920 --> 00:30:22,640

doesn't matter how much natural gas and natural
resources and timber and lumber and gold and

316

00:30:22,640 --> 00:30:28,240

oil you have in your country at the end of the
day it's it's it's useless if you don't invest

317

00:30:28,240 --> 00:30:33,760

in the next generation because you're going to
lose it all the greatest from my perspective

318

00:30:33,760 --> 00:30:39,840

the greatest national treasure we have is
ourselves it's our children so why don't we

319

00:30:40,560 --> 00:30:47,360

you know pull your head out of your ass and
and start you know investing in in the future

320

00:30:47,360 --> 00:30:52,160

really in the future right stop stop you know
trading on bitcoin and all this [___] and

321

00:30:52,160 --> 00:30:57,920

trying to find the next high and and choose my
language and and invest in your children talk

322

00:30:57,920 --> 00:31:02,080

to them you know what go out and throw a ball if
it's raining you know what watch a movie together

323

00:31:02,720 --> 00:31:07,520

just just spend time with each other talk to each
other sit around the dinner table if you can and

324

00:31:07,520 --> 00:31:12,640

if you're a hard-working single mother or single
parent and you you can't afford to do it well

325

00:31:12,640 --> 00:31:17,040

you know try to take whatever time you have and
and remember time is precious because there's

326

00:31:17,040 --> 00:31:20,720

people that i've had the chance to work with
good people that are not on this planet anymore

327

00:31:20,720 --> 00:31:23,920

and they don't have an opportunity to talk
to their kids or their loved ones you know

328

00:31:24,720 --> 00:31:28,800

so that would be my advice i know you're
probably asking me more related to the topic but

329

00:31:29,440 --> 00:31:33,760

you know you asked me my opinion so that's it
it's perfect lou it's perfect because there's

330

00:31:33,760 --> 00:31:38,880

no way that we can tackle anything bigger
than that if if our future generations suck

331

00:31:38,880 --> 00:31:45,200

you know how can you it doesn't matter ufos or
nuclear war it doesn't matter anything doesn't

332

00:31:48,880 --> 00:31:54,080

we should have as a nation in my opinion as a
world like i always think about this would you

333

00:31:54,080 --> 00:32:03,600

would you rather know the truth of the phenomenon
or would you rather be happy or or be able to live

334

00:32:03,600 --> 00:32:09,520

a life and and have a happy life and a happy
healthy family like what would you give up

335

00:32:09,520 --> 00:32:13,600

guess this was would be the question i've always
asked myself that like since i've been into this

336

00:32:13,600 --> 00:32:18,320

subject like what would i give up to know the
truth and the whole truth not just about ufos

337

00:32:18,320 --> 00:32:24,000

but like the history where we come from where is
life what is consciousness itself and like what

338

00:32:24,000 --> 00:32:30,720

would i give up and i always circle back like nope
i'm probably exactly where i am right now just

339

00:32:32,000 --> 00:32:37,760

asking questions that's that's that's the thing
that's real truth is is real freedom but it

340

00:32:37,760 --> 00:32:42,640

doesn't necessarily equate to real happiness and
and we need to understand that people people are

341

00:32:42,640 --> 00:32:47,120

looking for the next dopamine hit right and
and whether it's in the latest fashion or

342

00:32:47,120 --> 00:32:54,640

the latest sports car the latest you know trend\h
whatever um and i just think we you know we we\h\h

343

00:32:54,640 --> 00:33:00,320

lose touch sometimes and in that pursuit of of the\h
ultimate truth whatever that ultimate truth is up\h\h

344

00:33:00,320 --> 00:33:04,080

i'm not sure we're ever going to get to the\h
bottom of it i mean we we are a species that\h\h

345

00:33:04,080 --> 00:33:08,800

loves to ask questions and inquire but you\h
know we there's still a lot to this universe\h\h

346

00:33:08,800 --> 00:33:12,720

we don't we don't know about yet you know i was\h
just having this conversation not too long ago\h\h

347

00:33:13,600 --> 00:33:17,680

we've been around as a species for the last\h
hundred thousand years as homo sapien sapiens\h\h

348

00:33:17,680 --> 00:33:21,840

and we've always kind of known there were\h
other little animals that look like us and\h\h

349

00:33:21,840 --> 00:33:26,400

monkeys and you know and then there's these things\h
called fish and birds and insects right and then\h\h

350

00:33:26,400 --> 00:33:31,520

of course plants and someone got real smart and\h
decided to divide up the life forms on this planet\h\h

351

00:33:31,520 --> 00:33:36,480

um according to to the animal kingdoms right so\h
you have the plant kingdom and the animal kingdom\h\h

352

00:33:36,480 --> 00:33:43,360

and fungus and uh you know we were happy and and\h
it was a little bit more than a hundred years ago\h\h

353

00:33:43,360 --> 00:33:47,600

that someone came up and said hey wait a minute\h
you know there's this entire invisible reality\h\h

354

00:33:47,600 --> 00:33:52,960

in fact there is a life form right in front of us\h
on this planet that if you were to take all the\h\h

355

00:33:52,960 --> 00:34:00,960

biomass of all the people and all the animals\h
and all the plants and all the trees and all\h\h

356

00:34:00,960 --> 00:34:06,800

the fungus together and put it all together it\h
still would not equal the biomass of this hidden\h\h

357

00:34:07,440 --> 00:34:14,000

animal this animal this this hidden kingdom of\h
life that we have on this planet and it was until\h\h

358

00:34:14,000 --> 00:34:18,080

a little more than 100 years ago we\h
discovered the the world of microorganisms\h\h

359

00:34:18,080 --> 00:34:23,360

and this whole other category of life forms that\h
are frankly truly the dominant life form on this\h\h

360

00:34:23,360 --> 00:34:29,760

planet and yet it remained right in front of\h
our faces and hidden for for millennia and we're\h\h

361

00:34:29,760 --> 00:34:36,960

constantly realizing you know as a species really\h
how how insignificant we are and yet here we are\h\h

362

00:34:36,960 --> 00:34:42,160

having a conversation about the universe right so\h
what a contradiction um we're skipping a couple\h\h

363

00:34:42,160 --> 00:34:47,840

levels if that's the case i mean right like if if\h
if we are all like say a mitochondria in a cell\h\h

364

00:34:48,560 --> 00:34:55,760

that analogy like we are all a part of that one\h
universe but maybe maybe we're a part of something\h\h

365

00:34:55,760 --> 00:35:00,320

a lot bigger and we're just like skipping that\h
that step right sure well here's a scary notion\h\h

366

00:35:00,320 --> 00:35:05,200

you know i don't want to go down too far down a\h
rabbit hole but you know if i were let's ask a\h\h

367

00:35:05,200 --> 00:35:10,480

basic question can you have matter exist without\h
space well no you have to have a space for matter\h\h

368

00:35:10,480 --> 00:35:15,440

to exist within it has to reside there and to\h
some degree space is defined by how much matter\h\h

369

00:35:15,440 --> 00:35:20,560

you have in it right so the two kind of need each\h
other to exist and so let's say joe you popped in\h\h

370

00:35:20,560 --> 00:35:26,320

all of a sudden into into the universe there's\h
no other matter it's just you and empty space\h\h

371

00:35:27,680 --> 00:35:32,480

there's no way for you to tell how big you are\h
how small you are if you're moving your speed\h\h

372

00:35:32,480 --> 00:35:38,000

because there's nothing else to compare it to now\h
let's say all of a sudden joe then pops into the\h\h

373

00:35:38,000 --> 00:35:45,600

universe right and now all of a sudden it's joe\h
and ben there but you still don't know how big\h\h

374

00:35:45,600 --> 00:35:50,720

you are relative to the big universe or how small\h
you are you just know that you exist joe and that\h\h

375

00:35:50,720 --> 00:35:56,000

you got this guy named ben that exists too and\h
that's all you have and so the more matter that\h\h

376

00:35:56,000 --> 00:36:01,520

begins to to to exist in the universe the more\h
we can start comparing and contrasting well okay\h\h

377

00:36:01,520 --> 00:36:05,360

you're a little bit smaller compared to me well\h
you're a little bit bigger to me so therefore i\h\h

378

00:36:05,360 --> 00:36:11,120

must fall somewhere in the middle and since you're\h
moving away from me relative to me and this other\h\h

379

00:36:11,120 --> 00:36:15,440

person then therefore you must have speed of a\h
velocity of whatever we want to call it you know\h\h

380

00:36:15,440 --> 00:36:22,800

it's really it's arbitrary but at the end of the\h
day no matter how big or how small we are we still\h\h

381

00:36:22,800 --> 00:36:30,000

have no idea the relative size of our universe we\h
know relative scale but we really don't know at\h\h

382

00:36:30,000 --> 00:36:35,600

the end of the day our universe could simply
be within an atom of another universe

383

00:36:36,560 --> 00:36:42,320

or or could be the big universe we sit in this
middle point of scale again not size but scale

384

00:36:42,880 --> 00:36:48,880

where you have roughly 90 billion light years
of of distance within the known universe we

385

00:36:48,880 --> 00:36:53,360

kind of sit right in the middle of it and as
as infinitesimally small and insignificant

386

00:36:53,360 --> 00:36:58,240

as that may seem there is an equal amount of
space in every single human being in fact if

387

00:36:58,240 --> 00:37:04,400

you compare an atom which is 1 times 10^{-26} to the
negative 26 in size you know we are the universe

388

00:37:04,400 --> 00:37:09,840

compared to the atom and we sit right in the
middle of the known universe and and unless

389

00:37:09,840 --> 00:37:15,200

something is one order degree magnitude above or
below we'll never be able to to see it we'll never

390

00:37:15,200 --> 00:37:19,840

be able to interact with it because it's either
too big or too small so therefore by definition

391

00:37:19,840 --> 00:37:26,160

the majority of the known universe is beyond our
grasp it's we have to we have to figure out better

392

00:37:26,160 --> 00:37:31,760

ways to to to to look at it and understand it and\h
so i mean hell we don't even understand ourselves\h\h

393
00:37:31,760 --> 00:37:36,160
how many people go to go to a therapist every week\h
because we're trying to figure [___] out i mean\h\h

394
00:37:36,960 --> 00:37:41,040
we don't even understand ourselves as a\h
species let alone the universe and so i think\h\h

395
00:37:41,920 --> 00:37:47,120
part of my my my regret as as a human is that\h
there are other speed other humans on this planet\h\h

396
00:37:47,120 --> 00:37:55,120
that that seek to to monopolize the conversation\h
about uaps to to provide a false narrative because\h\h

397
00:37:55,120 --> 00:37:59,760
maybe they're making money on it maybe they're\h
insecure about it maybe they just want attention\h\h

398
00:37:59,760 --> 00:38:07,920
or maybe they have some some deep psychosis but\h
either way they're trying to rob us as a people\h\h

399
00:38:07,920 --> 00:38:11,520
from having this conversation because at the end\h
of the day it doesn't matter as i said before\h\h

400
00:38:11,520 --> 00:38:16,160
what lou elizondo thinks what matters is what\h
you think what matters what the data suggests\h\h

401
00:38:16,160 --> 00:38:21,120
because everybody's on this own personal journey\h
together we're all going somewhere together but\h\h

402
00:38:21,120 --> 00:38:25,680

each and every one of us are getting gonna\h
get there a little bit differently some are\h\h

403

00:38:25,680 --> 00:38:31,440

gonna walk some are gonna run you know some\h
are gonna skip um and so you know i guess i\h\h

404

00:38:31,440 --> 00:38:37,440

guess my great greatest regret is that still as\h
capable as we are as a species there are still\h\h

405

00:38:38,080 --> 00:38:42,480

we still have a lot to learn and and humility\h
and humbleness is one of those lessons that\h\h

406

00:38:43,120 --> 00:38:48,080

you know damn it we just we just keep tripping\h
over the same rock man you know there's an old\h\h

407

00:38:48,080 --> 00:38:52,800

saying hubris is a [___] and that's there's a\h
reason for that you know learn your lesson stop\h\h

408

00:38:53,360 --> 00:38:59,840

stop stop pretending to be something you're not\h
and um so that's my two cents maybe three cents\h\h

409

00:39:00,880 --> 00:39:06,560

i like it dude yeah it's a good three\h
cents dude i love it so much there's\h\h

410

00:39:06,560 --> 00:39:10,960

there's so much wrapped into that ben would\h
get there late that's why we're always like\h\h

411

00:39:12,800 --> 00:39:20,080

but uh yeah i mean the the the uh the part about\h
the journey right like uh starting to talk about\h\h

412

00:39:20,080 --> 00:39:28,240

the stuff publicly uh not too long ago um we joe\h
and i have had our own uh journeys on the show\h\h

413

00:39:28,240 --> 00:39:33,840

and separate journeys individually and some of\h
our listeners they'll they've been uh listening\h\h

414

00:39:33,840 --> 00:39:38,880

for a while and started the journey a little bit\h
before us or at the same time or they just they\h\h

415

00:39:38,880 --> 00:39:45,760

just hopped on like last july when the whole thing\h
came out and they're like hey you guys are aren't\h\h

416

00:39:45,760 --> 00:39:51,120

so you know stiff let's let's hang out yeah so we\h
just kind of vibrate with certain people and i'm\h\h

417

00:39:51,120 --> 00:39:55,680

not trying to talk about us but i'm talking about\h
like different people's experiences and journeys\h\h

418

00:39:55,680 --> 00:40:02,640

and how fast and it's all relative back to that\h
relativity thing and that all goes to to has to\h\h

419

00:40:02,640 --> 00:40:08,400

do with this consciousness aspect um i guess my\h
question would be like what do you what what do\h\h

420

00:40:08,400 --> 00:40:15,280

you think consciousness what do you think the role\h
is with what this whole phenomenon is like wow\h\h

421

00:40:15,280 --> 00:40:21,120

is it is it is i don't want to make it more\h
complicated by asking the second part but like\h\h

422

00:40:22,320 --> 00:40:28,960

is everything one or is all not one if that
makes any sense well it's it's all connected

423

00:40:28,960 --> 00:40:34,080

i think is fair to say um you know there are
principles in science now that are looking

424

00:40:34,080 --> 00:40:38,640

into things such as string theory potentially
potentially or holographic theory about our

425

00:40:38,640 --> 00:40:44,560

universe and and there are there are discussions
going on right now within the scientific community

426

00:40:44,560 --> 00:40:48,000

of what human consciousness really is i don't
mean sitting there in the lowest position

427

00:40:48,000 --> 00:40:53,280

meditating i'm talking about about the the the
processes that occur within the human brain

428

00:40:54,160 --> 00:40:59,600

that signifi so you know what i'm going to show
you something if you don't mind storytelling

429

00:41:03,760 --> 00:41:08,880

because i wrote out this whole this whole thing
but i chose to like make it simple so if you

430

00:41:09,600 --> 00:41:15,200

if you need some time i could read that if this
square okay represent i don't know if you can see

431

00:41:15,200 --> 00:41:21,600

it with the glare hopefully yeah you can see it
represents the human body okay and the human body

432

00:41:23,360 --> 00:41:25,920

has something inside the circle\h
which is called the brain\h\h

433

00:41:26,960 --> 00:41:32,080

and that brain resides inside the body and the\h
brain is responsible for certain functions and\h\h

434

00:41:32,080 --> 00:41:36,560

biological functions that keep the body alive\h
keeps your heart rate going and your breathing\h\h

435

00:41:37,600 --> 00:41:42,640

and your body coincidentally is also responsible\h
for keeping the brain alive through circulatory\h\h

436

00:41:42,640 --> 00:41:47,680

processes and whatnot so the brain needs the body\h
and the body needs the brain and so the brain is\h\h

437

00:41:47,680 --> 00:41:51,920

responsible for thinking the body is responsible\h
for protecting and moving and sustaining\h\h

438

00:41:52,640 --> 00:41:57,840

um and and that's what a lot of people consider\h
life but there's another element there's another\h\h

439

00:41:57,840 --> 00:42:03,840

element to the human being and possibly too\h
tall sentient life and that is the notion of

440

00:42:06,160 --> 00:42:15,360

this triangle and that triangle is what some\h
have referred to as the soul or the id or\h\h

441

00:42:15,360 --> 00:42:21,920

the chi or the spirit right it is something\h
that does reside inside the body but is not\h\h

442

00:42:22,560 --> 00:42:31,200

contained necessarily with inside the body and is
it possible that consciousness is part of that

443

00:42:31,920 --> 00:42:38,720

that process that that that that spirit that that
that thing that is it is all-encompassing of what

444

00:42:38,720 --> 00:42:43,360

a human being really is the essence if you were
to if you will imagine distilling a human being

445

00:42:43,360 --> 00:42:49,680

down to its actual essence and and that is what
you have left over once the the carbon of the

446

00:42:49,680 --> 00:42:56,400

body is gone and you know what not the organics
if you will what's left behind and that is the

447

00:42:56,400 --> 00:43:02,160

great mystery of the universe because that it
is possible to some degree some people speculate

448

00:43:02,160 --> 00:43:06,880

that's maybe how people can remote view and
psychic abilities and all these things that

449

00:43:07,440 --> 00:43:12,880

seem to be paranormal when in reality may
have a very perfectly rational explanation

450

00:43:12,880 --> 00:43:19,280

it's just part of a a hidden kingdom um but
a hidden kingdom to which we're all connected

451

00:43:19,280 --> 00:43:25,840

that's that's certainly you know something that is
that is it's possible um it's it's hard to measure

452

00:43:26,400 --> 00:43:32,560

things that you can't see or feel or touch or
taste right so so how do you measure it well

453

00:43:33,200 --> 00:43:39,680

you measure that in in the value of of love
and expression and art right things that that

454

00:43:39,680 --> 00:43:45,360

are intangible but are expressions of the human
spirit um acts of random acts of kindness right

455

00:43:45,920 --> 00:43:54,160

um people who who give more than they take um
so again i don't want to get too esoteric on you

456

00:43:54,160 --> 00:43:59,520

but i think that that human consciousness is
something that we we don't really understand

457

00:43:59,520 --> 00:44:06,880

very well um i think it is potentially um
something that is is beyond the the carbon

458

00:44:06,880 --> 00:44:13,040

units that we call a human being you know case in
point if i if i if i get you know in combat and i

459

00:44:13,040 --> 00:44:18,160

you know god forbid a me or a buddy of mine
loses a leg or an arm or both my legs right

460

00:44:18,160 --> 00:44:25,760

i'm still loo i just you know minus a couple limbs
and if i have a you know a traumatic brain injury

461

00:44:25,760 --> 00:44:30,320

um caused by sustaining combat or perhaps
maybe i was born with it with a you know

462

00:44:30,320 --> 00:44:37,360

unfortunate with a mental challenge um you know\h
i'm still loo just because you know i'm not\h\h

463

00:44:37,360 --> 00:44:43,600

i'm not necessarily as smart as as others i'm\h
still loo so that's not what defines who lou is\h\h

464

00:44:43,600 --> 00:44:48,400

or you ben or you joe or anybody in your audience\h
you're not defined by what you see in the mirror\h\h

465

00:44:48,400 --> 00:44:52,320

and you're not defined necessarily\h
even by what you think or how you think\h\h

466

00:44:52,320 --> 00:44:58,800

there's something else that makes ben ben and\h
joe joe and lou lou so the question is what is\h\h

467

00:44:58,800 --> 00:45:03,840

that what what is that this elusive property that\h
we're looking for this fourth element if you will\h\h

468

00:45:04,400 --> 00:45:11,120

uh of uh of of of matter you know and\h
does it does it lie in the spiritual world\h\h

469

00:45:11,120 --> 00:45:15,840

you know i mean there's i've been privy to some\h
pretty extraordinary things i don't talk about\h\h

470

00:45:15,840 --> 00:45:23,200

them publicly but you know i tend to be a fair\h
fairly rational minded guy i went to to school and\h\h

471

00:45:23,200 --> 00:45:27,920

studied science and and have degrees in that field\h
and believe in the scientific method and process\h\h

472

00:45:28,880 --> 00:45:34,960

but there are other elements out there um that
that science can't explain yet and i think it's

473

00:45:34,960 --> 00:45:39,760

okay and i think we should be be wary of just poo
pooping and be like yeah that doesn't exist well

474

00:45:40,560 --> 00:45:45,520

okay but there was a time that that people didn't
know electricity existed right you saw lightning

475

00:45:45,520 --> 00:45:50,640

in the sky oh the gods are angry you had no idea
that it was electrons moving from cloud to cloud

476

00:45:51,200 --> 00:45:54,480

you know yeah now of course we kind of laugh
about it but that that was you know for a lot

477

00:45:54,480 --> 00:45:57,680

of people that was real and that was the gods
are angry you know i don't know about anything

478

00:45:57,680 --> 00:46:03,680

called electricity but i know that that the
god's mad um so we're always learning we're on

479

00:46:03,680 --> 00:46:09,600

this journey of of of of teaching each other and
learning from each other hopefully and you know

480

00:46:09,600 --> 00:46:13,840

not trying to stifle each other's
thoughts and and dreams and hopes

481

00:46:16,320 --> 00:46:22,480

it's good stuff yeah let's go i'll
ask is the last question dude um

482

00:46:22,480 --> 00:46:28,080

so mine's i mean i guess mine's not as heavy it\h
could be heavy if you wanted it to be though lou\h\h

483

00:46:28,080 --> 00:46:32,960

it's kind of just uh throughout this whole process\h
this whole thing i mean i know you've you said\h\h

484

00:46:32,960 --> 00:46:37,200

you know you like getting to talk to people\h
and stuff like that but what is one of the\h\h

485

00:46:39,040 --> 00:46:43,200

it doesn't even have to be like uap related\h
or anything what has been one of your\h\h

486

00:46:43,200 --> 00:46:49,680

favorite experiences uh just in general through\h
just getting to meet all these people and talk to\h\h

487

00:46:49,680 --> 00:46:56,720

different people not getting to talk to people\h
i mean like what what's i mean what's been\h\h

488

00:46:56,720 --> 00:47:02,240

your favorite thing so far i guess the greatest\h
experience of my life has been that of a father\h\h

489

00:47:03,120 --> 00:47:09,840

that has that is a culmination of anything and\h
everything i could ever ever hope to be um my my\h\h

490

00:47:09,840 --> 00:47:13,760

daughter's the greatest accomplishment of my life\h
period full stop i'll never be able to achieve\h\h

491

00:47:13,760 --> 00:47:20,160

anything greater than that um i still look up to\h
them they're they're my they're they're my biggest\h\h

492

00:47:20,160 --> 00:47:27,280

heroes um i almost lost my my youngest daughter\h
during childbirth and almost lost my wife too so\h\h

493

00:47:27,280 --> 00:47:33,120

i know what it is to to almost lose a loved one it\h
was really touch and go there for a while um and\h\h

494

00:47:33,920 --> 00:47:38,720

for me it's been it's been fatherhood you know i'm\h
always learning something new now as far as ufo\h\h

495

00:47:38,720 --> 00:47:46,640

related it's this it's interacting with with real\h
people people who who want to share ideas people\h\h

496

00:47:46,640 --> 00:47:52,400

who want to improve other people's lives any way\h
they can even if it's just a simple gesture or a\h\h

497

00:47:52,400 --> 00:47:58,880

hug or a handshake um you know i spent a good\h
portion of my life in in a career field where\h\h

498

00:47:59,520 --> 00:48:06,000

you know one could argue you're you're destroying\h
human beings you know and you know i'm at a point\h\h

499

00:48:06,000 --> 00:48:09,120

in my life where i'd like to spend the rest of my\h
life trying to put them back together if i could\h\h

500

00:48:10,880 --> 00:48:20,320

i like it man love that yeah love that so i lu i\h
mean you uh you hit on a couple of things man um\h\h

501

00:48:20,320 --> 00:48:25,920

that that really resonated with me i i started\h
writing a list of questions but like honestly\h\h

502

00:48:25,920 --> 00:48:32,320

i only got to one because it like led me down\
this path man um and it just kept going and and\
h h

503

00:48:32,320 --> 00:48:36,960

you kind of already addressed a couple of these\
these these talking points but this does be back\
h h

504

00:48:36,960 --> 00:48:41,280

to like the deep stuff i just love talking about\
consciousness and like we're not speculating it's\
h h

505

00:48:41,280 --> 00:48:48,000

just like no what is speculation if no one\
knows yet like no one really knows so is it\
h h

506

00:48:48,000 --> 00:48:52,560

speculation or is this discovery or or something\
i think it's discovery i think it said look\
h h

507

00:48:54,000 --> 00:48:59,280

every law of science today every principle that\
we take to heart start off with someone's wacky\
h h

508

00:48:59,280 --> 00:49:03,360

zany idea at one point someone's proposal\
and be like what are you talking about\
h h

509

00:49:03,920 --> 00:49:09,680

so yeah go ahead oh i was gonna say\
so uh this this whole idea like uh\
h h

510

00:49:10,880 --> 00:49:15,520

we we talk about the golden ratio and nikola\
tesla says if you only knew the magnificence of\
h h

511

00:49:15,520 --> 00:49:21,120

three six and nine you would have the keys to the\
universe so then consciousness is merely a word we\
h h

512

00:49:21,120 --> 00:49:27,280

use to describe i'm reading by the way describe
the receiving and emitting of both non-physical

513

00:49:27,280 --> 00:49:33,600

and physical frequencies consciousness much like
love which you hit on earlier is a verb not a noun

514

00:49:33,600 --> 00:49:40,240

not a noun if our brains are the hardware we use
we use to interpret consciousness that means we

515

00:49:40,240 --> 00:49:45,200

are simultaneously interpreting both non-physical
and physical frequencies whether it's while we're

516

00:49:45,200 --> 00:49:51,280

awake sleep consciousness conscious or unconscious
does that mean our individual interpretation

517

00:49:51,280 --> 00:49:57,840

of reality consciousness is subjective and that
100 percent truth doesn't exist or is it both

518

00:49:58,640 --> 00:50:05,120

well you know that's a great interesting question
is there something as a as a as a universal truth

519

00:50:05,120 --> 00:50:09,680

well i think there are but there's also
mostly personal truths and i've said this

520

00:50:09,680 --> 00:50:15,440

before personal truth is like your belief in
in religion your belief in government your

521

00:50:16,240 --> 00:50:20,720

your culture right there's a personal truth
to you and then there's universal truths like

522

00:50:20,720 --> 00:50:25,200

gravity right nobody escapes that um that's that's\h
everybody you can interpret the way you want but\h\h

523

00:50:25,200 --> 00:50:30,000

everybody's affected by the same unless you had\h
a big pizza for dinner then you might be affected

524

00:50:32,480 --> 00:50:37,360

so you know it's it's one of those things and we\h
have to be very clear what is a universal truth\h\h

525

00:50:37,920 --> 00:50:44,720

and what is a personal truth and is a universal\h
truth truly universal is it is it can even can\h\h

526

00:50:44,720 --> 00:50:51,040

that truth even be subjective to some degree\h
right and so um you know i i do think that\h\h

527

00:50:51,920 --> 00:50:55,920

we are we are on a journey i think\h
we are on a journey of discovery\h\h

528

00:50:55,920 --> 00:50:58,640

and i think it's okay to ask\h
the questions and i think\h\h

529

00:50:59,360 --> 00:51:07,760

um be brave and be bold in in in your questioning\h
of everything and everyone it's okay the truth\h\h

530

00:51:07,760 --> 00:51:14,000

has nothing to fear it has nothing to hide um\h
as i said before you know the truth the truth\h\h

531

00:51:14,000 --> 00:51:19,680

sometimes she whispers but if you listen carefully\h
enough you know you'll you can hear her speak and\h\h

532

00:51:20,320 --> 00:51:26,880

i think i think that's what we should probably try\h
to pay attention to because ben and joe and your\h\h

533
00:51:26,880 --> 00:51:32,240
audience you know all have personal truths and\h
and my personal truth may not necessarily be their\h\h

534
00:51:32,240 --> 00:51:36,560
personal truth but they're still truths they're\h
still true to me just like their truth to them\h\h

535
00:51:37,200 --> 00:51:41,760
and we have to be able to reconcile that and\h
understand that and as real as my truths may\h\h

536
00:51:41,760 --> 00:51:47,440
be they may not be real to other people and\h
vice versa and so that is where the friction i\h\h

537
00:51:47,440 --> 00:51:51,760
don't think anybody really argues gravity you know\h
universal truths tend to be everybody agrees okay\h\h

538
00:51:51,760 --> 00:51:56,480
yeah i got it you know the stove is hot yeah i'm\h
gonna get burned got it okay you know um that's\h\h

539
00:51:56,480 --> 00:52:01,200
that's equal for everybody it's the personal truth\h
where we have problems because we don't we don't\h\h

540
00:52:01,200 --> 00:52:05,360
relate to each other very well and we don't we\h
don't really respect each other very well and so\h\h

541
00:52:06,160 --> 00:52:09,680
when you give them your personal truth or say\h
that's crazy you know what you're talking about\h\h

542
00:52:09,680 --> 00:52:16,400

when in reality you do you know it's it's it's\h
just your truth is it's again the old adage of\h\h

543

00:52:16,400 --> 00:52:21,920

the three three blind men you know touching an\h
elephant one's touching the trunk one's touching\h\h

544

00:52:21,920 --> 00:52:25,600

the ear one's touching the foot and they're\h
all describing something completely and totally\h\h

545

00:52:25,600 --> 00:52:31,840

opposite of each other and yet it's part of the\h
same same animal the same the same structure\h\h

546

00:52:33,520 --> 00:52:40,880

boom love that yeah i think i think people get\h
caught up on like like specifically asking you\h\h

547

00:52:40,880 --> 00:52:46,000

things that like you're not allowed to talk\h
about but i just love hearing your perspective on\h\h

548

00:52:46,560 --> 00:52:50,800

this type of stuff man well let me have it it's\h
just my perspective right so i'm not qualified\h\h

549

00:52:50,800 --> 00:52:56,720

i'm not a philosopher i'm not a theologian i'm\h
just i'm just lou and so i'm i'm speaking to you\h\h

550

00:52:56,720 --> 00:53:02,320

from my heart um and you know doesn't necessarily\h
mean i'm right i'm just just telling you you asked\h\h

551

00:53:02,320 --> 00:53:07,520

me a question and i'll provide you an answer\h
that that that i feel in my heart is is true\h\h

552

00:53:08,080 --> 00:53:11,120

but at the end of the day you know\h
that's up for for you to decide

553
00:53:13,440 --> 00:53:19,760
i would i would love to do like an hour episode\h
with you in the future where we do nothing but ask\h\h

554
00:53:19,760 --> 00:53:26,560
you stuff we already know you can't answer you're\h
down with that dude let's make it happen because i\h\h

555
00:53:26,560 --> 00:53:30,880
always you know and and like you know i see you on\h
interviews and stuff like that and you know that\h\h

556
00:53:30,880 --> 00:53:36,560
you we always get to this point to where it's like\h
you can't answer that nope and i would like to\h\h

557
00:53:36,560 --> 00:53:42,800
compile all of those questions into an hour where\h
all we do is just ask you what color are they lou\h\h

558
00:53:43,600 --> 00:53:48,400
what do they look like i'd have to say this\h
no comment i'm just gonna hold up a sign

559
00:53:51,520 --> 00:53:54,880
yeah you wouldn't even have to come on\h
camera we could just put your little\h\h

560
00:53:54,880 --> 00:53:57,840
circle up and it would just say no\h
problem we're here with lou tonight\h\h

561
00:53:59,120 --> 00:54:02,640
i just want to see how many different ways\h
you could say like i'm a lot i'm not allowed\h\h

562
00:54:02,640 --> 00:54:06,240

to talk about that i'm sorry guys like\h
yes you can see we're gonna we're gonna\h\h

563

00:54:06,240 --> 00:54:09,760

test here we're gonna we're gonna have to\h
test you how many ways you can say my wife\h\h

564

00:54:09,760 --> 00:54:14,240

sometimes comes to me she's like you know you you\h
you got to figure something out because you're\h\h

565

00:54:14,240 --> 00:54:19,520

you know you can't just tell people no anymore i'm\h
like what do i say it's just i don't know but you\h\h

566

00:54:19,520 --> 00:54:23,840

got to figure something out because you know it's\h
um at some point you have to explain to people\h\h

567

00:54:24,880 --> 00:54:28,240

why and they said well you're hiding behind\h
your nda well do you know how an mda works you\h\h

568

00:54:28,240 --> 00:54:32,480

know how top secret security works you know how\h
you're getting could constantly reevaluate you\h\h

569

00:54:32,480 --> 00:54:37,360

have to take random polygraphs and random drug\h
tests and you have to be you know psychological\h\h

570

00:54:37,360 --> 00:54:41,760

evaluations and you have your credit report looked\h
at on a monthly basis you know it's called it's\h\h

571

00:54:41,760 --> 00:54:47,600

called the ce program continuous evaluation but\h
anybody holds a clearance like that you know you\h\h

572

00:54:47,600 --> 00:54:54,000

you have to you have to be very mindful of what
you say and it yes it it's very stressful

573

00:54:54,000 --> 00:55:00,160

for me and sometimes even very painful when i
know an answer and i i'm just not at liberty to

574

00:55:01,200 --> 00:55:07,120

to say but i think people need to understand
that a security clearance is like it's like

575

00:55:07,120 --> 00:55:12,080

a marriage and when you take an oath either
you mean it or you don't okay for me i mean

576

00:55:12,080 --> 00:55:17,600

it you know and so in this case my marriage is to
the american people i took an oath swore that i

577

00:55:17,600 --> 00:55:23,600

would never ever compromise national security
classified information and and i don't and if

578

00:55:23,600 --> 00:55:28,080

i were to make an exception to do that then you
could never trust another word i say that comes

579

00:55:28,080 --> 00:55:32,800

out of my mouth because i violated that trust i
violated that oath if i do it one time then i'm

580

00:55:32,800 --> 00:55:37,280

like cheating well i only cheat on my wife once
well it's not only that's you know yeah okay well

581

00:55:37,280 --> 00:55:41,920

if you if you did it a thousand times it's still
bad but cheating once is bad you know it's it's

582

00:55:41,920 --> 00:55:47,600

it doesn't make it any better and so yeah you know\h
that's that's my perspective there's got to be\h\h

583

00:55:47,600 --> 00:55:54,720

like this kind of feeling though of like yeah like\h
obviously we don't really know how like we don't\h\h

584

00:55:54,720 --> 00:56:00,720

know the details of like your your full you know\h
life story and leading up to all of this stuff but\h\h

585

00:56:00,720 --> 00:56:05,680

you know there's got to be like this moment where\h
it's like yeah i'll do that and then maybe things\h\h

586

00:56:05,680 --> 00:56:10,880

go sideways and you're like oh damn i wish i could\h
tell people all this stuff but like now you can't\h\h

587

00:56:10,880 --> 00:56:15,440

because now you're in the nda and you've got all\h
these extra checks that you know you have to go\h\h

588

00:56:15,440 --> 00:56:20,640

through and you know some things you you just\h
can't say but i mean i'm sure it's gotta it's it\h\h

589

00:56:20,640 --> 00:56:25,680

like you said it's gotta kill you just a little\h
bit to be like it does but always say that i think\h\h

590

00:56:25,680 --> 00:56:30,800

we also in you know in fairness it's because\h
i haven't violated that oath we've been able\h\h

591

00:56:30,800 --> 00:56:35,120

to come this far in the conversation it's why\h
i can go to capitol hill and talk to certain\h\h

592

00:56:35,120 --> 00:56:38,720

people there because because they can trust me\h
they know i'm not going to sell them out they\h\h

593
00:56:38,720 --> 00:56:42,800
know i'm not going to violate that trust under any\h
circumstances you can do whatever you want to me\h\h

594
00:56:42,800 --> 00:56:47,520
i'm not going to violate that trust and to me\h
trust this means means everything either you're\h\h

595
00:56:47,520 --> 00:56:52,400
loyal to it or you're not and i'm again i'm not\h
bagging anybody who's not feeling the way i do\h\h

596
00:56:52,400 --> 00:56:56,640
okay but you know here's a personal truth\h
right this is this is my personal truth\h\h

597
00:56:56,640 --> 00:57:00,480
i made a promise damn it and i'm gonna keep it\h
you know if you don't want to keep your promise\h\h

598
00:57:00,480 --> 00:57:05,360
you don't have to fine but but don't don't expect\h
me not to keep mine and that's you know kind of\h\h

599
00:57:05,360 --> 00:57:11,360
kind of kind of how i feel about it yeah i mean\h
it makes sense it makes sense look i gotta ask\h\h

600
00:57:11,360 --> 00:57:15,760
because you were talking about you know like they\h
do like credit checks and all this other stuff\h\h

601
00:57:15,760 --> 00:57:19,520
what if everything is squeaky clean right but\h
then like one day you were just like you know man

602
00:57:21,840 --> 00:57:25,600

no let's get this credit out of here like when
you just take your credit one day like what

603

00:57:25,600 --> 00:57:29,280

would they what would they do to you they're
like lou i need you to come into the office

604

00:57:29,280 --> 00:57:33,600

we notice that your your credit is kind of shitty
lately and we want to know why yeah like what you

605

00:57:33,600 --> 00:57:38,960

know you would just be like well it's not your
business like oh no they so i bought it because

606

00:57:40,080 --> 00:57:44,320

yeah because we want to make sure that you can't
be be compromised we want to make sure that that

607

00:57:44,320 --> 00:57:48,880

if you get into so one of the biggest reasons
people spy uh and i won't go into a lot of detail

608

00:57:48,880 --> 00:57:52,960

here but this is because they get into some
sort of financial issues some financial crisis

609

00:57:53,600 --> 00:58:01,200

and so so to relieve them of that of that monetary
burden um they start if you look at things like um

610

00:58:02,080 --> 00:58:05,200

hanson and alder james and all
these folks that were spies

611

00:58:06,480 --> 00:58:10,800

a lot of them did it because they you know they
were they need money pay out their debts pay off

612

00:58:10,800 --> 00:58:14,880

their debts because you know they don't want to
lose their clearances they don't lose their status

613
00:58:14,880 --> 00:58:21,840
and so um that's one of the the indicators that
that we have when someone's conducting espionage

614
00:58:22,480 --> 00:58:27,120
yep that makes sense that's
smart that is real smart

615
00:58:29,280 --> 00:58:32,240
comes in the middle of the night
and says hey you know i'll give

616
00:58:32,240 --> 00:58:34,800
you a million bucks for that
you know document over there

617
00:58:34,800 --> 00:58:40,640
people think sure right well that's espionage
you know you that's that's you can't do that

618
00:58:42,880 --> 00:58:52,000
we see kind of what happens to to anybody that um
i guess goes against uh the intellectual property

619
00:58:52,000 --> 00:58:58,080
of our of our country and and shares it publicly
uh doesn't go well no it doesn't history doesn't

620
00:58:58,080 --> 00:59:02,960
treat those people usually very well who try to
rush her either um and so these are the lessons of

621
00:59:02,960 --> 00:59:07,360
life that we we need to to consider when you were
doing something like this for me i also took an

622
00:59:07,360 --> 00:59:12,320

oath to the american people and that was that oath
was sacred to me and that was always to tell the

623
00:59:12,320 --> 00:59:17,840
truth and to to defend this the the citizens of
this country from all enemies foreign and domestic

624
00:59:18,400 --> 00:59:24,880
um to me it got to a point where the
oath i took was the american people

625
00:59:25,440 --> 00:59:28,480
and and and to our institution
it was not to the bureaucracy

626
00:59:29,040 --> 00:59:33,520
the bureaucracy is is something completely
separate and different than what america is

627
00:59:34,480 --> 00:59:43,520
the bureaucracy is nothing more than a tool to
support the system my oath was never to the tool

628
00:59:43,520 --> 00:59:49,040
my oath was to to the person who holds the tool
that's the american people this government is

629
00:59:49,040 --> 00:59:53,600
is designed to to work for the people not
the other way around and uh far too often

630
00:59:53,600 --> 01:00:00,320
we forget that we think the government's this
big you know thing out there this big monolithic

631
01:00:01,360 --> 01:00:07,120
thing and we have to you know do what it
says no we don't it does what we we are

632
01:00:07,120 --> 01:00:12,240

the masters of the government not the other
way around and and we cannot allow apathy

633

01:00:12,960 --> 01:00:19,920

to to to subjugate us because it will government
will all governments will eventually if you're

634

01:00:19,920 --> 01:00:24,240

not careful if you allow you know there's an
old saying absolute power corrupts absolutely

635

01:00:25,040 --> 01:00:31,680

so you have to be very mindful of it government
should be should be should be wielded um

636

01:00:33,120 --> 01:00:38,080

and and i think it should be should be managed
i don't think government's job is to manage us

637

01:00:38,080 --> 01:00:42,560

i think it's our job to manage government and that
means getting involved in your local elections and

638

01:00:43,200 --> 01:00:46,720

making sure that you know the right people are
in office there's an old saying that that that

639

01:00:48,080 --> 01:00:50,880

bad politicians are elected
by good people who don't vote

640

01:00:54,400 --> 01:00:56,240

okay yeah yeah i see that

641

01:00:58,880 --> 01:01:06,560

i i was going to say something about me not voting
in 2008 it worked out fine it was great so that's

642

01:01:06,560 --> 01:01:10,880

awesome well part of the problem is too we don't

you know sometimes we have a very good selection\h\h

643

01:01:10,880 --> 01:01:15,760

right you know we're a country of 33 flavors like\h
like like ice cream and unfortunately we're always\h\h

644

01:01:15,760 --> 01:01:19,920

forced to choose between chocolate and vanilla\h
but most americans like either pistachio or\h\h

645

01:01:19,920 --> 01:01:22,640

strawberry right and they're like no yeah you\h
can have whatever flavor you want as long as\h\h

646

01:01:22,640 --> 01:01:26,320

the chocolate or vanilla well wait a minute\h
it said 33 flavors i thought i don't want\h\h

647

01:01:26,320 --> 01:01:31,920

one bubble gum right yeah bubble gum you want\h
chocolate or vanilla they didn't pay us enough

648

01:01:34,320 --> 01:01:41,200

butter pecan man there's so many other options\h
out there yeah those options are terrible i we\h\h

649

01:01:41,200 --> 01:01:47,200

normally don't talk about like [___] politics on\h
this show but like i think the bipartisan thing\h\h

650

01:01:47,200 --> 01:01:52,160

is kind of like like that's a great analogy\h
right like the chocolate first vanilla or\h\h

651

01:01:52,160 --> 01:01:58,000

strawberry versus chocolates like dude um yeah god\h
forbid if you want like a sundae and you want to\h\h

652

01:01:58,000 --> 01:02:05,840

mix the flavors together oh my god dude forget\h

it pineapple canadian bacon dude i mean you if\h\h

653

01:02:05,840 --> 01:02:09,600

you put the chocolate and vanilla together dude\h
it's it's it's like putting matter and antimatter\h\h

654

01:02:09,600 --> 01:02:16,080

together i mean you you still don't want to do\h
it it's a it's an unlimited source of power yes\h\h

655

01:02:16,080 --> 01:02:21,600

yes hey before man we want to respect your time\h
and before you know we get out of here and stuff\h\h

656

01:02:21,600 --> 01:02:25,680

i do want to take a couple like just a little\h
chat room questions that's good absolutely some\h\h

657

01:02:25,680 --> 01:02:32,800

people we had some uh some super chats come in\h
uh one of them is from john music it says to lou\h\h

658

01:02:32,800 --> 01:02:39,120

uh we need to all have a truly serious long talk\h
about the millions of mysterious missing people um\h\h

659

01:02:39,120 --> 01:02:44,640

and abductions uh globally that are done without\h
human consent is an assault or an act of war\h\h

660

01:02:45,840 --> 01:02:50,400

obviously you're not gonna be able to answer\h
any of this but i want to get that out there\h\h

661

01:02:50,400 --> 01:02:55,600

maybe you just have an opinion on it right because\h
people go missing we don't know what happens to\h\h

662

01:02:55,600 --> 01:03:01,040

them and some of them have some pretty interesting\h

stories sure sure well first of all john thanks\h\h

663

01:03:01,040 --> 01:03:05,840

for the question um secondly let me state that\h
you know i'm not sure it's it's millions of\h\h

664

01:03:05,840 --> 01:03:10,480

people but there there's it's substantial\h
there's there's there's enough people who\h\h

665

01:03:10,480 --> 01:03:15,040

wind up missing that someone needs to look\h
into it we know for a fact that folks like\h\h

666

01:03:15,040 --> 01:03:20,400

over in france and in the organization of japan\h
had been looking at some missing persons on the\h\h

667

01:03:20,400 --> 01:03:25,760

french countryside that just disappeared just gone\h
vanished like they were did they never existed\h\h

668

01:03:26,720 --> 01:03:33,600

we've have reports here in in the united states\h
of individuals being gone for days at a time um\h\h

669

01:03:33,600 --> 01:03:37,760

you know in other cases people with missing time\h
i happen to have a very good friend and colleague\h\h

670

01:03:37,760 --> 01:03:42,720

of mine i haven't talked to him for a while but he\h
was uh be careful what i say here he was a patient\h\h

671

01:03:44,480 --> 01:03:52,080

of a effort in the government as it relates\h
to this topic and you know he had missing time\h\h

672

01:03:52,640 --> 01:03:58,560

and it's something we should look into you know i\h

think it's too early to tell to say well you know\h\h

673

01:03:58,560 --> 01:04:04,400

the people are being abducted and you know it's\h
being caused by you know those things whatever\h\h

674

01:04:04,400 --> 01:04:09,680

they are flying um but we do need to look at it\h
and if it turns out that's the case then we've\h\h

675

01:04:09,680 --> 01:04:14,080

got you know we've got some some hard questions\h
we need to ask ourselves because you're right\h\h

676

01:04:14,080 --> 01:04:20,560

if you know where i come from as a former special\h
agent if you take someone away from their location\h\h

677

01:04:20,560 --> 01:04:25,040

against their will that's called kidnapping\h
right and by the way if i touch you that's called\h\h

678

01:04:25,040 --> 01:04:30,240

assault right so now we're talking two felonies\h
right there yeah god forbid anything else right\h\h

679

01:04:30,240 --> 01:04:36,240

uh yeah you know anything else is you know it\h
only gets worse from that so um i don't think\h\h

680

01:04:37,360 --> 01:04:42,960

that the conversation about things being always\h
benevolent and good is necessarily accurate\h\h

681

01:04:42,960 --> 01:04:48,080

again that's a personal truth not a universal\h
truth so i agree yeah i think we need to have\h\h

682

01:04:48,080 --> 01:04:51,920

that have that conversation at some point\h

and this is why you see now the gillibrand\h\h

683

01:04:51,920 --> 01:04:56,000

law that was passed that we're\h
going to look at biological effects\h\h

684

01:04:56,000 --> 01:05:01,120

you know that's because of people like you john\h
who who who are curious about this and say hey\h\h

685

01:05:01,120 --> 01:05:06,640

is there is there a connection well you know what\h
that's a damn good question let's find out awesome\h\h

686

01:05:06,640 --> 01:05:14,400

thank you john yeah um this is from mattduck74\h
can you ask lou if there's an impending event that\h\h

687

01:05:14,400 --> 01:05:21,840

relates to recent disclosure efforts you may have\h
alluded to that in one of your last interviews

688

01:05:23,040 --> 01:05:30,560

this is a highly evolving topic right now we're\h
learning stuff every day um i think people would\h\h

689

01:05:30,560 --> 01:05:37,840

be shocked and and some would be amazed at some of\h
the things that are happening um you know if you\h\h

690

01:05:37,840 --> 01:05:42,880

you're you're focusing on the three videos\h
um that just got the conversation started\h\h

691

01:05:43,840 --> 01:05:47,440

right there's a lot more and it's getting\h
the attention of some very senior people\h\h

692

01:05:49,120 --> 01:05:56,880

yeah all right hell yeah all\h

right um let's see here um hmm

693

01:05:58,960 --> 01:06:02,960

let's see here joe i lost track\h
dude i wish i could did you i know

694

01:06:09,680 --> 01:06:14,320

i think this one's fun uh lou so have\h
you ever heard of a gravity cutter\h\h

695

01:06:14,320 --> 01:06:19,200

like does that does that ring any bells like it\h
doesn't have to do with your specific job but like\h\h

696

01:06:19,200 --> 01:06:25,600

no i'm familiar of a lot of terms like gravity\h
wells and i'm i'm you know i am familiar with\h\h

697

01:06:26,320 --> 01:06:32,480

kissimmee fx and things like that but i'm\h
not familiar with the term gravity cutter\h\h

698

01:06:32,480 --> 01:06:38,400

the problem with gravity is very elusive we don't\h
still know what the hell it is we know the effects\h\h

699

01:06:38,400 --> 01:06:44,720

of it but we still have no idea what it is is\h
it is it is it a particle is it a field a wave\h\h

700

01:06:45,520 --> 01:06:51,760

you know or is it something completely and totally\h
more bizarre um you know it's it's what we do know\h\h

701

01:06:51,760 --> 01:06:59,680

is if you have two objects in space that the space\h
time between those two objects is is is different\h\h

702

01:06:59,680 --> 01:07:06,320

than the space around those objects on the outside\h

why why is that why does why does matter perturb\h\h

703

01:07:06,320 --> 01:07:12,400

space and time the way that it does how does space\h
know that it's there why does space react that way\h\h

704

01:07:12,400 --> 01:07:17,120

in time and so that tells you that there's some\h
fundamental principles we don't understand yet\h\h

705

01:07:17,120 --> 01:07:23,200

space and time are connected but why and how\h
um and why does it matter that that that mass\h\h

706

01:07:23,840 --> 01:07:28,560

in the universe perturbs it right um right you\h
know we have all sorts of mathematical equations\h\h

707

01:07:28,560 --> 01:07:34,720

that can that can describe it but we still don't\h
know what it is is it a leech over effect is\h\h

708

01:07:34,720 --> 01:07:40,240

it a one of the fundamental forces that you know\h
should be technically should be much much stronger\h\h

709

01:07:40,800 --> 01:07:45,920

why is it so much weaker well maybe it's is it\h
bleeding off into another universe or a dimension\h\h

710

01:07:45,920 --> 01:07:52,720

these are all real hypotheses that have been been\h
postulated by by very smart people in academia and\h\h

711

01:07:52,720 --> 01:07:58,800

and physicists we have no idea what gravity is\h
so a gravity cutter you know unfortunately to\h\h

712

01:07:58,800 --> 01:08:04,320

me i i i don't even know what that means other\h

than i i suspect it might be some sort of way to\h\h

713

01:08:06,000 --> 01:08:09,120

to separate gravitational\h
fields but i don't know enough\h\h

714

01:08:10,400 --> 01:08:16,880

yeah gordi m85 thank you for that question yeah\h
the uh i love uh i love that thought so there's\h\h

715

01:08:16,880 --> 01:08:22,640

this difference between is gravity a a wave\h
or or a particle right kind of like with light\h\h

716

01:08:22,640 --> 01:08:28,240

right uh some some scientists have proved theories\h
and disprove theories that when you observe light\h\h

717

01:08:28,240 --> 01:08:33,920

uh it's like yeah i mean some for people they call\h
it a graviton right which is you know similar to\h\h

718

01:08:33,920 --> 01:08:38,160

a proton right so it kind of gives you this idea\h
that oh it's this little little thing that goes\h\h

719

01:08:38,160 --> 01:08:43,440

out and it's called graviton but but others say no\h
it's actually not that at all it's it's it's it's\h\h

720

01:08:43,440 --> 01:08:47,680

it's a wave that travels at the speed of light\h
others say nope not even that yeah it's even\h\h

721

01:08:47,680 --> 01:08:53,280

more bizarre it's a field and that field can be\h
perturbed and others say no it's not even that you\h\h

722

01:08:53,280 --> 01:09:00,080

know so we have we have we have more understanding\h

of to to to do of gravity before i think we can\h\h

723

01:09:00,080 --> 01:09:05,680

i could even begin to try to answer the question\h
a great question about by the way but i know but\h\h

724

01:09:05,680 --> 01:09:09,760

long story short i'm not familiar with the term\h
gravity cutter it seems like every time we figure\h\h

725

01:09:09,760 --> 01:09:13,840

something out like give it 10 years we're going\h
to find out 14 other things that it could be\h\h

726

01:09:14,720 --> 01:09:20,080

every door you open there's 10 more behind it\h
yeah man strong believer in that joe did you\h\h

727

01:09:20,080 --> 01:09:28,480

find another one did uh let's see here well yeah\h
there's one right here um mr growly mr crowley\h\h

728

01:09:28,480 --> 01:09:37,200

said told you guys it's all waves how consistent\h
is low observability uh it's a question uh what\h\h

729

01:09:37,200 --> 01:09:45,360

other types of stealth tactics do they use\h
that's by uh nando is is there in your in your\h\h

730

01:09:45,360 --> 01:09:52,000

research and stuff i mean yeah great question\h
um so low observability was coined because it\h\h

731

01:09:52,000 --> 01:09:57,360

was hard to see both with the naked eye it was\h
hard to see electro optically it was hard to see\h\h

732

01:09:57,360 --> 01:10:05,520

with with things like radar so the question is why\h

and it turns out that there were some principles\h\h

733

01:10:05,520 --> 01:10:10,720

suggested in physics that if you understand the\h
technology behind it then low observability is a\h\h

734

01:10:10,720 --> 01:10:16,880

natural byproduct of that technology it's\h
going to be hard to see unless you power down\h\h

735

01:10:17,840 --> 01:10:24,080

that the vehicle the technology once it's\h
powered up you're going to get this weird effect\h\h

736

01:10:24,880 --> 01:10:32,560

bubble around the the object the vehicle and as a\h
result it's going to be extremely difficult to see\h\h

737

01:10:32,560 --> 01:10:38,240

because it's like looking at a koi fish underneath\h
a pond it looks distorted it looks wavy when in\h\h

738

01:10:38,240 --> 01:10:42,800

reality the fish isn't destroyed distorted or\h
wavy it's it's the way that light behaves when\h\h

739

01:10:42,800 --> 01:10:49,360

it hits the water and is reflected and refracted\h
back into the eye the fish is fine it's not wavy\h\h

740

01:10:49,360 --> 01:10:55,760

at all it just appears that way and it we may\h
be seeing something very similar vis-a-vis the\h\h

741

01:10:55,760 --> 01:11:02,800

the phenomenon of of gravitational lensing okay\h
i've got i'm going to throw this one at you lou\h\h

742

01:11:02,800 --> 01:11:07,520

just real quick dude i i've been thinking about\h

this for a couple of months but since the tic tac\h\h

743

01:11:07,520 --> 01:11:12,880

video came out a couple other videos i it got me\h
thinking like what is recording these videos like\h\h

744

01:11:13,760 --> 01:11:18,880

scale it down it's it's cameras that rely\h
on digital sensors okay well let's break\h\h

745

01:11:18,880 --> 01:11:25,840

down that down what technology makes up that\h
sensor and then that just threw me ultimately\h\h

746

01:11:26,560 --> 01:11:36,080

it boils down to technology that is looking at\h
a very very very narrow spectrum of the we call\h\h

747

01:11:36,080 --> 01:11:42,640

the electro-optical spectrum okay so when you\h
look at at the electromagnetic spectrum and you\h\h

748

01:11:42,640 --> 01:11:47,280

start on one end and you work your way all the\h
way up until eventually you get to this little\h\h

749

01:11:47,280 --> 01:11:52,800

tiny band we call visible light then you move up\h
into ultraviolet and ultimately into x-ray and to\h\h

750

01:11:53,680 --> 01:12:00,560

to gamma radiation right um we perceive the entire\h
universe through this little tiny slit of colors\h\h

751

01:12:00,560 --> 01:12:05,120

we call visible light to us that's the universe\h
everything right but in reality it's not it's just\h\h

752

01:12:05,120 --> 01:12:15,520

a tiny little sliver and so um we when we design\h

equipment like electro optical gun cameras they\h\h

753

01:12:15,520 --> 01:12:22,800

are looking at energy through the that range of\h
visible light you see like on a black and white tv\h\h

754

01:12:22,800 --> 01:12:28,960

and just a little below like infrared and heat and\h
just a little bit above but it's still super super\h\h

755

01:12:28,960 --> 01:12:35,600

narrow yeah um so so it's it's it's really tough\h
because we think that the things these equipments\h\h

756

01:12:35,600 --> 01:12:39,760

these pieces of equipment we have are so so so\h
incredibly capable and some of them are when\h\h

757

01:12:39,760 --> 01:12:43,920

you get into hyper hyper spectral technology now\h
you're now you're talking looking at a much wider\h\h

758

01:12:43,920 --> 01:12:50,240

swath right a think of a much bigger lens that you\h
can you can see stuff with but in reality most of\h\h

759

01:12:50,240 --> 01:12:55,520

the technology we have is designed for combat\h
aircraft you know and let's face it a mig-25\h\h

760

01:12:55,520 --> 01:13:02,560

or an su-22 um is operating you can see it you\h
know so so a gun camera works just fine but when\h\h

761

01:13:02,560 --> 01:13:06,320

you're dealing with the technology and like you\h
mentioned even stealth and stuff like that where\h\h

762

01:13:06,960 --> 01:13:14,720

low observability is part of its design then you\h

have to develop other sensors um that are that\h\h

763
01:13:14,720 --> 01:13:21,280
are that are that complement that that that camera\h
system and we do you know you have you have lidar\h\h

764
01:13:22,240 --> 01:13:26,480
and laser technology now that you can use to\h
quote-unquote ping a target or paint a target\h\h

765
01:13:27,520 --> 01:13:32,160
hyperspectral technology\h
you've got all sorts of stuff\h\h

766
01:13:32,160 --> 01:13:38,400
love it we've got two more two more\h
quick ones uh uh one of them is are\h\h

767
01:13:38,960 --> 01:13:43,600
people who are physically uh affected by\h
these things being studied in universities\h\h

768
01:13:45,600 --> 01:13:51,040
i can't answer that right now because i can't\h
speak on behalf of of those institutions that\h\h

769
01:13:51,040 --> 01:13:56,240
might or might not be involved i don't have\h
i don't have the permission to do that um i\h\h

770
01:13:56,240 --> 01:14:03,200
will tell you that data is being looked at but i\h
can't say by who um not that i don't know i just i\h\h

771
01:14:03,920 --> 01:14:12,960
i i can't say that right now okay and then uh\h
last one guys um hey guys great show question\h\h

772
01:14:12,960 --> 01:14:19,520
for lou lou mentioned about there being roswell\h

data what ra roswell data were you referring to\h\h

773

01:14:20,640 --> 01:14:27,840

thanks for the super chat super chat josh\h
thanks for chop super chat dude the um\h\h

774

01:14:28,880 --> 01:14:33,680

i think people will be surprised to know there's\h
more to roswell than than i think most people\h\h

775

01:14:33,680 --> 01:14:39,440

are aware of some people are aware of it but\h
you know there's there's more to roswell uh\h\h

776

01:14:40,000 --> 01:14:45,840

and you know there's there's other other\h
similar incidents that are equally compelling

777

01:14:48,000 --> 01:14:51,040

love it i want to be careful because\h
like i wasn't around for roswell\h\h

778

01:14:51,920 --> 01:14:58,080

and and we have to be careful because we don't\h
want anecdotes to to to cloud facts right bottom\h\h

779

01:14:58,080 --> 01:15:03,840

line it's a really cold case it happened a long\h
long time ago uh yeah and you know those people\h\h

780

01:15:03,840 --> 01:15:10,240

who were involved most of them are dead quite\h
frankly so the difference the the the distance\h\h

781

01:15:10,240 --> 01:15:16,160

between facts and truths as we were talking about\h
earlier become farther distance as you yeah i mean\h\h

782

01:15:16,160 --> 01:15:20,320

let's let's let's let's look at this from from\h

an empirical data perspective okay let's just\h\h

783

01:15:20,320 --> 01:15:27,840

suspend what people know right now of walmart of\h
roswell or what they think they know um you know\h\h

784

01:15:27,840 --> 01:15:33,920

if a balloon crashes i'm probably going to send\h
a staff sergeant and probably a couple privates\h\h

785

01:15:34,640 --> 01:15:39,280

to go retrieve the balloon i'll probably send\h
a little small security detail a couple mps to\h\h

786

01:15:39,280 --> 01:15:45,760

go out and just secure the area make sure no one\h
you know trips over it i wouldn't necessarily send\h\h

787

01:15:45,760 --> 01:15:56,160

a senior officer with a lot of people and and\h
a flatbed trailer uh lowboy trailer with\h\h

788

01:15:56,160 --> 01:16:01,600

you know three axles that are designed to to carry\h
heavy heavy heavy weights right in big objects\h\h

789

01:16:02,640 --> 01:16:08,240

for a mylar balloon that's that's not that's\h
not the way we do business you know you don't\h\h

790

01:16:08,800 --> 01:16:13,120

you don't do that you don't send an army out to\h
to write a speeding ticket that that's not the\h\h

791

01:16:13,120 --> 01:16:19,680

way it works you know or backhoes to move dirt\h
large amounts of dirt right you know balloons\h\h

792

01:16:19,680 --> 01:16:25,040

don't do that you don't need that for a balloon\h

crash you know you need two people that's it and\h\h

793

01:16:25,040 --> 01:16:31,680

probably the trunk of a jeep a rope yeah and done\h
you know one and done let's hope it's not windy\h\h

794

01:16:31,680 --> 01:16:37,920

that day you got balloon flying all over your face\h
jesus christ come out here maybe we get a raise\h\h

795

01:16:37,920 --> 01:16:45,280

or nothing even tell me where pants i came out of\h
my shorts when we get back i'm telling everybody i\h\h

796

01:16:45,280 --> 01:16:49,200

got sand i got sand burns on my knees when we\h
get back i'm telling everybody it was aliens

797

01:16:51,280 --> 01:16:55,280

so you know that that's some of the\h
you know some of the things that people\h\h

798

01:16:55,280 --> 01:16:58,960

should consider when when you're you\h
know looking at a cold case like this\h\h

799

01:16:58,960 --> 01:17:05,440

you know why is it that you had this asymmetric\h
response this you know to to balloon of all things\h\h

800

01:17:05,440 --> 01:17:12,320

yeah yeah yeah well that's awesome man hey dave\h
scott of spaced out radio said lou some of us miss\h\h

801

01:17:12,320 --> 01:17:18,560

your chin blade man and i gotta say i i i miss\h
it too dude i miss it too i'm a fan of the beard\h\h

802

01:17:18,560 --> 01:17:26,320

i i i i can certainly grow back you know being\h

latino um you know i can i got this yeah i can\h\h

803

01:17:26,320 --> 01:17:31,920

honestly i can i can bench press one time and\h
have a full beard yeah right you probably shaved\h\h

804

01:17:31,920 --> 01:17:38,880

this morning so yeah right exactly yeah about an\h
hour ago um so it it's uh it's not a problem with\h\h

805

01:17:38,880 --> 01:17:44,720

people like that it's just you know i had it for a\h
long time and i don't want it to be a distraction\h\h

806

01:17:44,720 --> 01:17:48,880

you know the one thing i don't want i know it's\h
iconic because oh you're that guy with the goatee\h\h

807

01:17:49,680 --> 01:17:52,880

but then you know you wind up risking being\h
that cult of personality right where that\h\h

808

01:17:53,440 --> 01:17:58,080

you that becomes your identity and all of a sudden\h
people that's you're just you're that ufo guy when\h\h

809

01:17:58,080 --> 01:18:03,040

in reality no i'm just a guy that happened to be\h
studying ufos for the government you know and yeah\h\h

810

01:18:03,600 --> 01:18:10,400

so um i decided i try to try to grow the beard out\h
a little bit and um yeah come on i guess shave it\h\h

811

01:18:10,400 --> 01:18:15,200

off it's i like the one i'm like i'm liking\h
the beard man i'm liking it let it come on\h\h

812

01:18:15,200 --> 01:18:19,120

in because that's what i said last the last time\h

you're on i think you should grow the whole thing\h\h

813

01:18:19,120 --> 01:18:24,400

and let's see what happens and uh here we are\h
you know asking you shall receive everybody\h\h

814

01:18:24,400 --> 01:18:30,560

the problem is i will never have the glorious beer\h
that you have mine will probably come out about\h\h

815

01:18:30,560 --> 01:18:35,920

halfway through and then be all kind of patchy and\h
mangled and you know it looks you know you've got\h\h

816

01:18:35,920 --> 01:18:42,000

to think of like this nice distinguished you know\h
santa claus beard but not in my case some chicken\h\h

817

01:18:42,000 --> 01:18:48,720

nuggets yeah you know birds flying in and out of\h
it and creating nests and all that so in and out

818

01:18:51,200 --> 01:18:53,840

is that a color tv you have hidden there lou

819

01:19:07,520 --> 01:19:13,120

well man this has been a great time lou thank\h
you so much for hanging out with us again and\h\h

820

01:19:13,120 --> 01:19:19,120

answering some of our listeners questions and just\h
kind of shooting it with us man um absolutely love\h\h

821

01:19:19,120 --> 01:19:22,960

it my you know my my wife i mean even if i didn't\h
want to do it she wouldn't let me she loves you\h\h

822

01:19:22,960 --> 01:19:28,000

guys so you know it's uh you're you're right there\h
at the top of the list you guys can ask any time\h\h

823
01:19:28,000 --> 01:19:34,480
and and mrs elizondo is going to to say you\h
know lou you're doing it yeah awesome man\h\h

824
01:19:34,480 --> 01:19:39,440
awesome wait start hitting the gym lou we're going\h
to do a topless episode soon all right and maybe\h\h

825
01:19:40,160 --> 01:19:46,240
we'll be topless and do a full hour especially if\h
you can't answer it you know what you have my word\h\h

826
01:19:46,240 --> 01:19:53,920
i'll do it there we go there we go all right well\h
hey lou thanks for stopping by tonight man it's\h\h

827
01:19:53,920 --> 01:20:00,960
been great joe ben my pleasure and a big big thank\h
you to your your awesome audience um you know at\h\h

828
01:20:00,960 --> 01:20:04,800
the end of the day that's that's who this is all\h
about you know we all know that you know you guys\h\h

829
01:20:04,800 --> 01:20:10,800
and myself it's all about the audience um this\h
is why we do what we do because we don't have\h\h

830
01:20:10,800 --> 01:20:14,960
the ability to talk to each and every single\h
one of them in a room otherwise we would\h\h

831
01:20:14,960 --> 01:20:17,760
so we have to do the next best thing right\h
so we create a virtual room and say come\h\h

832
01:20:17,760 --> 01:20:22,160
on in everybody let's let's let's talk just\h
hang out you know yep figure out the universe

833
01:20:24,960 --> 01:20:30,080
thank you so much man you got it guys my pleasure\h
as always and hope to see you guys real soon if\h\h

834
01:20:30,080 --> 01:20:34,880
you guys are in your even your audience are out in\h
wyoming uh you know you always got a free place to\h\h

stay awesome man that sounds great it sounds great\h
dude yeah we'll definitely hit you up on that\h\h

836
01:20:40,640 --> 01:20:45,520
actually we're just talking about that so next\h
time we take a road trip dude man absolutely come\h\h

837
01:20:45,520 --> 01:20:50,880
on out and show you the jeeps and the motorcycles\h
and all right some of my some of my uh projects\h\h

838
01:20:51,680 --> 01:20:56,240
let's do it man well we'll definitely keep in\h
touch with you all right all right guys be safe\h\h

839
01:20:56,240 --> 01:21:00,080
take care and yes sir again thanks for everything\h
you guys do really appreciate it and thank you\h\h

840
01:21:00,080 --> 01:21:04,160
to your to your amazing audience thank you so\h
much for spending the evening with me yes sir\h\h

841
01:21:04,160 --> 01:21:10,240
thank you thank you for your time brother talk\h
to you later man take care guys bye all right\h\h

842
01:21:10,240 --> 01:21:15,440
cool man hi he did it that's another\h
one in the books round two with lou yeah\h\h

843
01:21:17,360 --> 01:21:22,160
yeah man it was a good night that was a good
night thanks everybody for uh coming and hanging

844
01:21:22,160 --> 01:21:27,200
out with us checking it out sorry we didn't get to
everybody's questions uh it's just you know it's

845
01:21:27,200 --> 01:21:33,280
a lot of them there's a lot of you guys in here
tonight hey yeah hey there's like there's like a

846
01:21:33,280 --> 01:21:39,440
hundred and thirty more of you in here than usual
than usual you guys are fakers you guys are fakers

847
01:21:39,440 --> 01:21:46,400
you guys are fakers i knew it you guys don't watch
the show hey i mean honestly thanks for stopping

848
01:21:46,400 --> 01:21:50,480
by we love you guys if y'all haven't seen the
show thanks for for coming by and hanging out

849
01:21:50,480 --> 01:21:56,080
with us for a little bit even if it was just for
lou i mean we get it we get it but dude that was

850
01:21:56,080 --> 01:22:02,960
so much fun man i i just love talking to that dude
yeah man he's a very interesting guy right i mean

851
01:22:02,960 --> 01:22:08,640
it it really boils down to right there are some
specifics that you can really get into but like

852
01:22:10,320 --> 01:22:19,920
you know it's the conversation you know what kind
of conversation can we have um no matter who it is

853

01:22:21,440 --> 01:22:30,560

we like to start 30 minutes in yeah yeah we loosen\h
up a little bit shoot [___] i mean like i just i\h\h

854

01:22:30,560 --> 01:22:36,160

would never want to like start off i mean that's\h
what that's not the show like this isn't hey\h\h

855

01:22:36,720 --> 01:22:40,400

[___] answer me like that's what i was\h
thinking earlier when you were asking me\h\h

856

01:22:40,400 --> 01:22:45,040

about your question i didn't know if we were going\h
to start it and be like hey everybody we got louis\h\h

857

01:22:45,680 --> 01:22:50,640

lou what do you think about consciousness and\h
is everything everything or is everything not\h\h

858

01:22:50,640 --> 01:22:57,680

everything but one i was like oh [___] that's\h
why i gave you the the moment of silence

859

01:23:03,200 --> 01:23:09,440

you're very polite but i i figured we would you\h
know banter for a little bit and then i mean\h\h

860

01:23:09,440 --> 01:23:13,520

eventually get to the deep question but i just\h
spent so much time trying to think of questions\h\h

861

01:23:13,520 --> 01:23:18,560

and i only came up with one no i thought it was\h
an amazing question i just didn't want to say\h\h

862

01:23:18,560 --> 01:23:25,040

don't say it first and then you think that it\h
wasn't an amazing question oh got it yeah but it\h\h

863
01:23:25,040 --> 01:23:32,720
was a great question so thank you man yeah yeah it\h
was a great night man great night yeah dude let's\h\h

864
01:23:32,720 --> 01:23:39,920
be back on uh what's up oh no i was gonna ask\h
if you ate both of your tacos i didn't i started\h\h

865
01:23:39,920 --> 01:23:44,400
chatting and then you weren't eating your tacos\h
and then he wasn't eating tacos and i was like\h\h

866
01:23:44,400 --> 01:23:49,360
well i'm trying to eat these tacos and like but\h
then i wanted to like ask questions and i couldn't\h\h

867
01:23:49,360 --> 01:23:54,240
because i had mouthful of taco and i couldn't be\h
the only one with mouthful of taco you know yeah\h\h

868
01:23:54,240 --> 01:23:59,360
okay well that's okay that makes me feel better uh\h
because i'm like i'm not starving i ate before but\h\h

869
01:24:01,360 --> 01:24:04,720
it would have been funny if it was\h
just you just nominate tacos the entire\h\h

870
01:24:04,720 --> 01:24:09,520
i mean it would have been like 15 minutes um\h
yeah dude yeah dude thank you all everybody\h\h

871
01:24:09,520 --> 01:24:14,000
in the chat for hanging out with us and asking\h
awesome questions and just hanging out i mean\h\h

872
01:24:14,000 --> 01:24:18,480
that's lou said at the beginning or at the end\h
like that's what this is all about it's like\h\h

873

01:24:19,520 --> 01:24:24,080

open up opening up the conversation talking\h
about this stuff trying to figure this stuff out\h\h

874

01:24:24,800 --> 01:24:31,200

uh even if he can't answer it right then he's like\h
hey i asked the question luke couldn't answer it\h\h

875

01:24:32,080 --> 01:24:36,720

i'm gonna hold it really close and then i'm gonna\h
ask somebody else that question and i'm gonna keep\h\h

876

01:24:36,720 --> 01:24:42,320

asking that question until somebody answers me\h
yeah you know yeah and then that's okay it's okay\h\h

877

01:24:43,120 --> 01:24:47,280

just just because one person maybe didn't answer\h
it or maybe didn't give you the answer that you\h\h

878

01:24:47,280 --> 01:24:52,000

wanted doesn't mean you shouldn't still seek it\h
i think i think every question is is valid like\h\h

879

01:24:52,000 --> 01:25:00,080

we should validate every uh form of curiosity\h
like no like it's so dumb to say like in cliché\h\h

880

01:25:00,080 --> 01:25:04,960

but like no no question is a dumb question i\h
think we should we should validate everything\h\h

881

01:25:04,960 --> 01:25:12,240

right like if we should we should have asked\h
him if the sun was cold dude i thought about it\h\h

882

01:25:12,240 --> 01:25:18,480

thought about it but like it's not true i didn't\h
know this that the well we can maybe this is\h\h

883

01:25:18,480 --> 01:25:22,480

a thursday topic but there's like multiple
layers to the sun that i did not know about

884

01:25:23,920 --> 01:25:28,640

definitely we'll get into that thursday man
definitely thursday thursday will be a fun

885

01:25:28,640 --> 01:25:37,200

one yeah it will be fun uh uh uh flynn bigfoot
and on and maybe that guy is is a super smart

886

01:25:37,200 --> 01:25:41,440

guy maybe we can we can uh uh bounce around
the same kind of because i'm gonna be riding

887

01:25:41,440 --> 01:25:47,120

high on all these these answers and questions
yeah for sure right so i'm sure he'll have a uh

888

01:25:48,720 --> 01:25:53,520

a weigh-in of some sort so we'll see we'll
see you guys uh thursday yeah it's gonna be

889

01:25:53,520 --> 01:25:58,000

it's gonna be a great time everybody that was
here tonight we'll see you thursday come back

890

01:25:58,000 --> 01:26:02,480

on thursday we're gonna be talking to flynn
it's gonna be good times man but yeah you guys

891

01:26:02,480 --> 01:26:09,280

can catch us every tuesday for it's usually
