00:00:11,850 --> 00:00:09,080

5
00:00:27,349 --> 00:00:11,860
[Applause]

6
00:00:31,830 --> 00:00:28,470
hey

7
00:00:33,990 --> 00:00:31,840

8
00:00:39,910 --> 00:00:34,000
i'm ben and i'm joe and this is where we

9
00:00:43,110 --> 00:00:39,920
talk about ufos aliens and all things

10
00:00:45,350 --> 00:00:43,120
what is up thirsty thursday how is

11
00:00:47,670 --> 00:00:45,360
everybody doing out there today

12
00:00:50,150 --> 00:00:47,680
we're doing great joe good man i'm glad

13
00:00:51,590 --> 00:00:50,160

that you're all doing great speaks for

14

00:00:53,990 --> 00:00:51,600

everybody

15

00:00:55,670 --> 00:00:54,000

we're very spunky on this thursday i

16

00:00:56,470 --> 00:00:55,680

like it i like it

17

00:00:57,510 --> 00:00:56,480

yeah

18

00:00:58,549 --> 00:00:57,520

and

19

00:01:00,229 --> 00:00:58,559

feeling

20

00:01:01,670 --> 00:01:00,239

good and

21

00:01:02,790 --> 00:01:01,680

enjoying some a little bit of matthew

22

00:01:04,390 --> 00:01:02,800

fox

23

00:01:06,870 --> 00:01:04,400

red wine

24

00:01:09,030 --> 00:01:06,880

he's very classy he's jack he's the

25

00:01:12,469 --> 00:01:09,040

actor that plays jack

26

00:01:15,590 --> 00:01:12,479

and titanic the show uh lost he's a

27

00:01:16,390 --> 00:01:15,600

doctor himself never seen it

28

00:01:17,990 --> 00:01:16,400

what

29

00:01:19,749 --> 00:01:18,000

yeah you haven't seen lost well i

30

00:01:21,749 --> 00:01:19,759

usually wait until like they're done

31

00:01:23,510 --> 00:01:21,759

making stuff and then like i wait till

32

00:01:25,910 --> 00:01:23,520

everybody's reaction at the end and i'm

33

00:01:27,030 --> 00:01:25,920

like oh [h__\h] i gotta see that but lost

34

00:01:28,789 --> 00:01:27,040

was one of those where everybody was

35

00:01:30,149 --> 00:01:28,799

like are you [h__\h] me and then some

36

00:01:31,670 --> 00:01:30,159

of them are like it's the most brilliant

37

00:01:33,429 --> 00:01:31,680

thing in the world and i just didn't

38

00:01:36,390 --> 00:01:33,439

think at the time i had like the

39

00:01:39,350 --> 00:01:36,400
headspace to like have to make the whole

40

00:01:41,270 --> 00:01:39,360
thing be good because i used all my time

41

00:01:43,270 --> 00:01:41,280
watching it you know so i was just like

42

00:01:46,389 --> 00:01:43,280
no we'll hold off i'll wait till i'm in

43

00:01:50,149 --> 00:01:48,310
yeah dude i like that approach because

44

00:01:52,389 --> 00:01:50,159
like it's uh

45

00:01:53,830 --> 00:01:52,399
you weren't emotionally invested yeah

46

00:01:55,510 --> 00:01:53,840
same thing with like game of thrones and

47

00:01:57,749 --> 00:01:55,520
all that it was just like man i'm kind

48

00:02:00,149 --> 00:01:57,759
of glad i didn't waste all my time with

49

00:02:01,910 --> 00:02:00,159
that but now i can i can watch it at my

50

00:02:04,950 --> 00:02:01,920
own leisure you know it's gonna be great

51
00:02:07,109 --> 00:02:04,960
i'm about to start the sopranos oh snap

52
00:02:09,830 --> 00:02:07,119
yeah i'm at that point is that the one

53
00:02:11,190 --> 00:02:09,840
about the the family that makes soap

54
00:02:13,030 --> 00:02:11,200
yeah

55
00:02:14,630 --> 00:02:13,040
the soap making family they're like

56
00:02:15,750 --> 00:02:14,640
it's like a big factory and like the

57
00:02:18,070 --> 00:02:15,760
factory's gonna shut down and they're

58
00:02:19,030 --> 00:02:18,080
like oh no let's talk to mr

59
00:02:23,190 --> 00:02:19,040
uh

60
00:02:28,790 --> 00:02:25,910
we make soap and meatballs just small

61
00:02:31,030 --> 00:02:28,800
family make meat balls and soaps is

62
00:02:31,830 --> 00:02:31,040
shaped like a meat balls i don't know

63
00:02:34,710 --> 00:02:31,840

what

64

00:02:41,030 --> 00:02:36,390

great i like it though

65

00:02:44,390 --> 00:02:42,790

speaking of speaking of shows and movies

66

00:02:46,790 --> 00:02:44,400

man yeah

67

00:02:48,309 --> 00:02:46,800

i just watched a tear in the sky tear in

68

00:02:50,470 --> 00:02:48,319

the sky baby

69

00:02:52,309 --> 00:02:50,480

did you watch it dude i did watch it you

70

00:02:54,470 --> 00:02:52,319

did watch it what did you think i

71

00:02:58,229 --> 00:02:54,480

thought it was uh i thought it was great

72

00:02:59,830 --> 00:02:58,239

dude yeah you know yeah over overall

73

00:03:01,990 --> 00:02:59,840

yeah like

74

00:03:05,110 --> 00:03:02,000

seeing seeing you apx seeing our boy

75

00:03:07,030 --> 00:03:05,120

gary out there you know saying his piece

76

00:03:09,670 --> 00:03:07,040

he was great yeah i really enjoyed

77

00:03:10,630 --> 00:03:09,680

watching it it put a smile on my face

78

00:03:18,949 --> 00:03:10,640

uh

79

00:03:21,030 --> 00:03:18,959

bill shatner bro what

80

00:03:21,830 --> 00:03:21,040

you kidding me that's awesome billy

81

00:03:23,750 --> 00:03:21,840

billy

82

00:03:26,550 --> 00:03:23,760

william shatner was in it man i haven't

83

00:03:27,670 --> 00:03:26,560

talked to billiam in so long

84

00:03:29,270 --> 00:03:27,680

you know he's hard to get a hold of

85

00:03:31,589 --> 00:03:29,280

these days uh

86

00:03:33,509 --> 00:03:31,599

when he's really hard working at the

87

00:03:36,229 --> 00:03:33,519

soap factory you know the they were

88

00:03:37,750 --> 00:03:36,239

gonna shut the factory down um

89

00:03:40,789 --> 00:03:37,760

and so he's probably working really hard

90

00:03:43,190 --> 00:03:40,799

on on preventing that from happening so

91

00:03:45,270 --> 00:03:43,200

i'm glad he was able to you know make an

92

00:03:46,470 --> 00:03:45,280

appearance so you know i'm i don't i

93

00:03:47,270 --> 00:03:46,480

don't want to get too serious about it

94

00:03:49,509 --> 00:03:47,280

you know

95

00:03:51,430 --> 00:03:49,519

absolutely absolutely

96

00:03:53,830 --> 00:03:51,440

well other than like you know just like

97

00:03:55,990 --> 00:03:53,840

having to be on like in front of camera

98

00:03:57,589 --> 00:03:56,000

and like all the weird [h__h] that happens

99

00:03:59,190 --> 00:03:57,599

and like you know

100

00:04:00,390 --> 00:03:59,200

that just comes along with like making a

101
00:04:02,949 --> 00:04:00,400
movie right

102
00:04:04,789 --> 00:04:02,959
i mean the underlying thing is like hey

103
00:04:07,030 --> 00:04:04,799
this movie had a lot of cool

104
00:04:09,750 --> 00:04:07,040
data had a lot of cool numbers had a lot

105
00:04:11,030 --> 00:04:09,760
of cool cameras and pictures and big ass

106
00:04:16,069 --> 00:04:11,040
words that i don't even know what they

107
00:04:17,590 --> 00:04:16,079
mean you know like telemetry yeah like

108
00:04:19,830 --> 00:04:17,600
yeah

109
00:04:23,350 --> 00:04:19,840
so i have a lot of questions uh let's

110
00:04:25,110 --> 00:04:23,360
let's bring in our buddy gary gary

111
00:04:26,469 --> 00:04:25,120
what's up guys

112
00:04:28,230 --> 00:04:26,479
not a lot man how are you doing this

113
00:04:30,629 --> 00:04:28,240

evening pretty good how are you guys

114

00:04:33,430 --> 00:04:30,639

doing man good good good i'm glad you

115

00:04:35,590 --> 00:04:33,440

could join us tonight dude

116

00:04:38,230 --> 00:04:35,600

you know i can never say no to you guys

117

00:04:40,629 --> 00:04:38,240

as long as i can actually do it

118

00:04:43,749 --> 00:04:40,639

hell yeah yeah i can love you man you

119

00:04:45,909 --> 00:04:43,759

look texting me last minute hours ago

120

00:04:49,110 --> 00:04:45,919

that's like yeah for real

121

00:04:51,430 --> 00:04:49,120

oh my god dude yeah that was that was my

122

00:04:56,310 --> 00:04:54,469

oh dude i uh i was like giddy i was like

123

00:04:58,870 --> 00:04:56,320

a little kid watching you up on the big

124

00:05:00,870 --> 00:04:58,880

screen bro i was like i know him

125

00:05:02,710 --> 00:05:00,880

i i know him it was so cool dude just

126

00:05:04,790 --> 00:05:02,720

seeing you up there on the uh well i

127

00:05:07,189 --> 00:05:04,800

mean not like a movie screen but on my

128

00:05:09,029 --> 00:05:07,199

tv and yeah yeah same difference

129

00:05:11,189 --> 00:05:09,039

nowadays we call it the corona movie

130

00:05:13,510 --> 00:05:11,199

screen right

131

00:05:17,189 --> 00:05:15,189

it was it was so cool like seeing all

132

00:05:19,590 --> 00:05:17,199

the stuff that kind of you've been kind

133

00:05:21,430 --> 00:05:19,600

of hinting at over the past well how

134

00:05:23,670 --> 00:05:21,440

long did you guys film this for how long

135

00:05:24,790 --> 00:05:23,680

uh it's been about a year and a half

136

00:05:26,710 --> 00:05:24,800

yeah

137

00:05:28,390 --> 00:05:26,720

and uh i think we had we had you on the

138

00:05:29,590 --> 00:05:28,400

show while you were filming and you

139

00:05:31,029 --> 00:05:29,600

couldn't really say anything about it

140

00:05:32,390 --> 00:05:31,039

you're like hey i'm on location i can't

141

00:05:33,670 --> 00:05:32,400

tell you where

142

00:05:35,909 --> 00:05:33,680

yeah

143

00:05:38,629 --> 00:05:35,919

but well how how was the pasty i mean i

144

00:05:39,990 --> 00:05:38,639

know i think in the movie you guys talk

145

00:05:41,270 --> 00:05:40,000

about you're only there for like five

146

00:05:43,830 --> 00:05:41,280

days

147

00:05:45,110 --> 00:05:43,840

yeah like i didn't sleep but maybe an

148

00:05:47,670 --> 00:05:45,120

hour a day

149

00:05:50,070 --> 00:05:47,680

for five days yeah you could see it dude

150

00:05:53,430 --> 00:05:50,080

you looked visibly tired by the end of

151

00:05:55,270 --> 00:05:53,440

that day you were like

152

00:05:56,950 --> 00:05:55,280

it was just sheer willpower that was

153

00:06:00,150 --> 00:05:56,960

keeping me going you're like let's just

154

00:06:01,909 --> 00:06:00,160

pack this [h__h] up and go home

155

00:06:04,710 --> 00:06:01,919

yeah i'm gary voorhees ladies and

156

00:06:06,870 --> 00:06:04,720

gentlemen and i'm out

157

00:06:09,590 --> 00:06:06,880

yeah it's like it's yeah we worked

158

00:06:11,430 --> 00:06:09,600

really good uh you know especially all

159

00:06:12,629 --> 00:06:11,440

those guys that were at the house on the

160

00:06:15,909 --> 00:06:12,639

laguna

161

00:06:18,309 --> 00:06:15,919

you know there was a real uh

162

00:06:20,790 --> 00:06:18,319

spirit of there were no problems only

163

00:06:23,670 --> 00:06:20,800

solutions we hadn't thought of yet and

164

00:06:25,430 --> 00:06:23,680

so we got through

165

00:06:26,550 --> 00:06:25,440

a lot of equipment issues you know i

166

00:06:27,909 --> 00:06:26,560

mean this is the first time we were

167

00:06:29,510 --> 00:06:27,919

deploying all that stuff we didn't even

168

00:06:30,550 --> 00:06:29,520

know what was going to work what wasn't

169

00:06:32,710 --> 00:06:30,560

going to work

170

00:06:35,029 --> 00:06:32,720

god that must have been nerve-wracking

171

00:06:36,710 --> 00:06:35,039

yeah well we got we got everything up

172

00:06:39,590 --> 00:06:36,720

and running you know through you know

173

00:06:43,029 --> 00:06:39,600

dave mason getting the clear cameras up

174

00:06:44,230 --> 00:06:43,039

and uh you know um

175

00:06:46,830 --> 00:06:44,240

then uh

176

00:06:50,390 --> 00:06:46,840

jeremy spent hours and

177

00:06:52,070 --> 00:06:50,400

hours working on the ufo dab to get that

178

00:06:53,909 --> 00:06:52,080

up and running

179

00:06:55,270 --> 00:06:53,919

yeah so this is the the screen with the

180

00:06:56,550 --> 00:06:55,280

the uh

181

00:06:58,469 --> 00:06:56,560

those are all the thermal that yeah

182

00:07:03,670 --> 00:06:58,479

those are the eight thermal cameras the

183

00:07:07,189 --> 00:07:05,110

oh

184

00:07:08,790 --> 00:07:07,199

i think i i missed over or i

185

00:07:10,710 --> 00:07:08,800

misunderstood that you what was it

186

00:07:13,749 --> 00:07:10,720

called the ufo dapp

187

00:07:16,790 --> 00:07:13,759

uh ufo dap it's just the it's the brand

188

00:07:20,469 --> 00:07:16,800

name it's the name of that device it's

189

00:07:22,790 --> 00:07:20,479

uh there's a gentleman uh ron olsh uh he

190

00:07:24,710 --> 00:07:22,800

runs a company called ufo dap and builds

191

00:07:26,230 --> 00:07:24,720

those

192

00:07:27,510 --> 00:07:26,240

so it's kind of like remember how we had

193

00:07:29,670 --> 00:07:27,520

sky hub

194

00:07:31,350 --> 00:07:29,680

yeah build it yourself well this guy

195

00:07:33,110 --> 00:07:31,360

does that but he actually built it for

196

00:07:34,309 --> 00:07:33,120

you and you can buy them

197

00:07:36,950 --> 00:07:34,319

so

198

00:07:39,749 --> 00:07:36,960

cool pretty neat system but

199

00:07:41,909 --> 00:07:39,759

you do have to be a bit of an engineer

200

00:07:43,589 --> 00:07:41,919

running software

201

00:07:44,790 --> 00:07:43,599

it's like damn so it's not as just easy

202

00:07:47,029 --> 00:07:44,800

as like plugging it into your computer

203

00:07:48,950 --> 00:07:47,039

yeah be like oh yeah that's yeah i know

204

00:07:51,430 --> 00:07:48,960

he's made a lot of advancements since

205

00:07:53,749 --> 00:07:51,440

then so yeah i look forward to seeing

206

00:07:56,230 --> 00:07:53,759

what the new gui looks like but uh yeah

207

00:07:58,150 --> 00:07:56,240

we it was just a learning curve you know

208

00:07:59,430 --> 00:07:58,160

just a new piece of equipment that we

209

00:08:02,469 --> 00:07:59,440

hadn't really

210

00:08:04,550 --> 00:08:02,479

messed with yet so it was uh

211

00:08:06,869 --> 00:08:04,560

do or die with it uh but between the

212

00:08:09,029 --> 00:08:06,879

thermal cameras the ufo dap and the

213

00:08:11,189 --> 00:08:09,039

cosmic watch that we had which was a

214

00:08:13,670 --> 00:08:11,199

which it's they call a muon detector or

215

00:08:16,629 --> 00:08:13,680

radiation detector between those three

216

00:08:19,189 --> 00:08:16,639

things we got a lot of great data um the

217

00:08:22,070 --> 00:08:19,199

rest of the stuff we had there was eh

218

00:08:23,350 --> 00:08:22,080

i wouldn't take it again

219

00:08:25,029 --> 00:08:23,360

they were neat they were neat and they

220

00:08:25,990 --> 00:08:25,039

looked cool but

221

00:08:28,710 --> 00:08:26,000

uh

222

00:08:30,869 --> 00:08:28,720

those are the devices that really

223

00:08:33,750 --> 00:08:30,879

uh got us the information that we wanted

224

00:08:35,110 --> 00:08:33,760

and and are are currently doing analysis

225

00:08:37,190 --> 00:08:35,120

on

226

00:08:39,350 --> 00:08:37,200

dude that's awesome what was what was

227

00:08:42,550 --> 00:08:39,360

the most difficult uh taking on a plane

228

00:08:45,110 --> 00:08:42,560

was it this big cone thing

229

00:08:47,670 --> 00:08:45,120

i have no idea that's actually uh uh

230

00:08:51,430 --> 00:08:47,680

what it was described to me as by from

231

00:08:52,389 --> 00:08:51,440

david mason is this an fm antenna oh

232

00:08:55,269 --> 00:08:52,399

cool

233

00:08:57,350 --> 00:08:55,279

that's what they look like yeah dude i'm

234

00:08:59,430 --> 00:08:57,360

not sure i've never actually seen that

235

00:09:02,389 --> 00:08:59,440

design or style but

236

00:09:05,269 --> 00:09:02,399

the the guy's pretty pretty smart so i i

237

00:09:06,949 --> 00:09:05,279

just took his word for it

238

00:09:08,389 --> 00:09:06,959

how long did all that preparation take

239

00:09:11,110 --> 00:09:08,399

like just from like

240

00:09:12,790 --> 00:09:11,120

already if you already knew the site but

241

00:09:14,630 --> 00:09:12,800

like you know just scouting like the

242

00:09:17,430 --> 00:09:14,640

massive amount of equipment it probably

243

00:09:19,030 --> 00:09:17,440

took mason probably

244

00:09:21,269 --> 00:09:19,040

until the first you know all the way up

245

00:09:25,110 --> 00:09:21,279

in into the first night the whole day

246

00:09:26,550 --> 00:09:25,120

and into the night to set it all up damn

247

00:09:27,670 --> 00:09:26,560

it took us when we were shooting our

248

00:09:29,750 --> 00:09:27,680

dock like

249

00:09:30,870 --> 00:09:29,760

six hours to set up one camera and one

250

00:09:32,949 --> 00:09:30,880

microphone

251
00:09:34,470 --> 00:09:32,959
so luckily the production side wasn't

252
00:09:36,790 --> 00:09:34,480
anything to do with us

253
00:09:38,630 --> 00:09:36,800
and uh i can i can show you a clear

254
00:09:41,990 --> 00:09:38,640
footage of production crews head with

255
00:09:44,870 --> 00:09:43,350
yeah

256
00:09:46,550 --> 00:09:44,880
oh my god dude

257
00:09:47,670 --> 00:09:46,560
i had a thought while watching that

258
00:09:49,829 --> 00:09:47,680
speaking of like the difference in

259
00:09:52,070 --> 00:09:49,839
camera between like production and what

260
00:09:53,350 --> 00:09:52,080
you're actually trying to freaking film

261
00:09:54,470 --> 00:09:53,360
there's so many documentaries out there

262
00:09:57,269 --> 00:09:54,480
where like

263
00:09:59,910 --> 00:09:57,279

the the cameras used like especially

264

00:10:01,509 --> 00:09:59,920

like ghost shows or or documentaries

265

00:10:03,269 --> 00:10:01,519

like the cameras the really nice cameras

266

00:10:04,870 --> 00:10:03,279

are always pointed on

267

00:10:06,710 --> 00:10:04,880

the the hosts

268

00:10:08,790 --> 00:10:06,720

and all the shitty cameras are used for

269

00:10:10,790 --> 00:10:08,800

the ghosts like i'll tell you but in

270

00:10:13,590 --> 00:10:10,800

this case it's the opposite

271

00:10:16,470 --> 00:10:13,600

production crew with vinnie and

272

00:10:18,470 --> 00:10:16,480

those guys i mean

273

00:10:20,389 --> 00:10:18,480

these things are red cameras which in

274

00:10:21,910 --> 00:10:20,399

the industry is like

275

00:10:25,509 --> 00:10:21,920

it's one of some of the best cameras you

276

00:10:26,949 --> 00:10:25,519

can buy a 60 000 camera yeah so i mean

277

00:10:28,389 --> 00:10:26,959

it was being filmed with some of the

278

00:10:30,949 --> 00:10:28,399

best equipment that you could you can

279

00:10:31,990 --> 00:10:30,959

purchase by some people doing doing this

280

00:10:32,870 --> 00:10:32,000

and they really knew what they were

281

00:10:35,829 --> 00:10:32,880

doing

282

00:10:38,870 --> 00:10:35,839

so cinematography wise it's going to be

283

00:10:40,710 --> 00:10:38,880

top notch yeah yeah it looks great and

284

00:10:42,150 --> 00:10:40,720

yeah i guess what i meant by that was

285

00:10:43,110 --> 00:10:42,160

like usually it's like the other way

286

00:10:46,150 --> 00:10:43,120

around but

287

00:10:48,550 --> 00:10:46,160

on this uh film you guys actually had

288

00:10:50,630 --> 00:10:48,560

some really dope equipment like i'm so

289

00:10:52,790 --> 00:10:50,640

glad it wasn't like one computer screen

290

00:10:54,550 --> 00:10:52,800

and like one oh we you know

291

00:10:55,829 --> 00:10:54,560

we picked up uh

292

00:10:57,910 --> 00:10:55,839

one of these cameras i don't know it's

293

00:10:59,269 --> 00:10:57,920

like from amazon or something i'm really

294

00:11:02,710 --> 00:10:59,279

glad yeah the next the next thing you

295

00:11:04,870 --> 00:11:02,720

apx put out will be filmed on gopro so

296

00:11:08,230 --> 00:11:04,880

don't get used to it

297

00:11:14,630 --> 00:11:11,670

uh private funding and uh away from the

298

00:11:16,710 --> 00:11:14,640

the hollywood scene uh we want to just

299

00:11:20,069 --> 00:11:16,720

focus on the science so

300

00:11:23,430 --> 00:11:20,079

um as fun as this was uh i don't believe

301
00:11:26,150 --> 00:11:23,440
that us as a company unless

302
00:11:29,430 --> 00:11:26,160
certain criteria are met i don't believe

303
00:11:31,750 --> 00:11:29,440
we will do this again yeah

304
00:11:33,670 --> 00:11:31,760
yeah it's uh it i guess

305
00:11:34,790 --> 00:11:33,680
with everybody says like a blanket

306
00:11:37,350 --> 00:11:34,800
statement of like

307
00:11:39,430 --> 00:11:37,360
hollywood or like production but

308
00:11:44,630 --> 00:11:39,440
it can be pretty stressful yeah there's

309
00:11:45,990 --> 00:11:44,640
a lot to it it's uh and like i said uh

310
00:11:47,269 --> 00:11:46,000
i just want to

311
00:11:49,509 --> 00:11:47,279
you know we just want to focus on

312
00:11:50,470 --> 00:11:49,519
science you know and

313
00:11:52,230 --> 00:11:50,480

luckily

314

00:11:53,430 --> 00:11:52,240

hopefully soon in the future we'll have

315

00:11:56,790 --> 00:11:53,440

some

316

00:12:01,190 --> 00:11:58,870

good opportunities for private funding

317

00:12:02,629 --> 00:12:01,200

and uh we won't have to rely on on

318

00:12:03,829 --> 00:12:02,639

hollywood for

319

00:12:05,910 --> 00:12:03,839

you know

320

00:12:07,670 --> 00:12:05,920

footing the bill for us to go out and do

321

00:12:11,269 --> 00:12:07,680

our research

322

00:12:14,150 --> 00:12:11,279

yeah dude it uh i just i'm like

323

00:12:15,990 --> 00:12:14,160

i was like uh buzzing

324

00:12:17,990 --> 00:12:16,000

like my body was was buzzing watching

325

00:12:19,670 --> 00:12:18,000

all of that stuff like kind of

326

00:12:22,069 --> 00:12:19,680

go down because i really didn't know

327

00:12:24,949 --> 00:12:22,079

what to expect uh and the fact you guys

328

00:12:26,470 --> 00:12:24,959

actually got some stuff was super cool

329

00:12:28,790 --> 00:12:26,480

and we've only gone through one percent

330

00:12:30,150 --> 00:12:28,800

of what we have

331

00:12:32,870 --> 00:12:30,160

dude that's cool

332

00:12:34,389 --> 00:12:32,880

so there's like you got 99 more stuff so

333

00:12:36,310 --> 00:12:34,399

just like how long do you think it's

334

00:12:39,110 --> 00:12:36,320

going to take y'all to sift through like

335

00:12:41,110 --> 00:12:39,120

most of the data that y'all collected

336

00:12:42,949 --> 00:12:41,120

probably a couple years a couple years

337

00:12:45,110 --> 00:12:42,959

we'll have the first papers out by the

338

00:12:46,790 --> 00:12:45,120

end of the year oh

339

00:12:49,030 --> 00:12:46,800

that's crazy well it's not like you can

340

00:12:50,389 --> 00:12:49,040

like set it into like an ai system to

341

00:12:52,389 --> 00:12:50,399

like track oh i guess that's kind of

342

00:12:56,230 --> 00:12:52,399

what sky is actually that's exactly what

343

00:12:59,030 --> 00:12:56,240

we did oh uh matthew matthew uh

344

00:13:02,230 --> 00:12:59,040

shidagas which is our uh pro

345

00:13:04,710 --> 00:13:02,240

uh phd professor from uh

346

00:13:08,310 --> 00:13:04,720

university of albany sunny he actually

347

00:13:11,269 --> 00:13:08,320

wrote an album an ai to search our flair

348

00:13:13,269 --> 00:13:11,279

so wow we that we've that's what he's

349

00:13:15,190 --> 00:13:13,279

been spending the last since

350

00:13:17,190 --> 00:13:15,200

since we forgot since we finished

351
00:13:20,069 --> 00:13:17,200
filming he's been writing the software

352
00:13:22,790 --> 00:13:20,079
and we're now in the final revisions of

353
00:13:24,310 --> 00:13:22,800
that software and soon we're going to

354
00:13:26,949 --> 00:13:24,320
actually go through the

355
00:13:29,190 --> 00:13:26,959
600 hours of flare

356
00:13:31,990 --> 00:13:29,200
and get that you know that terabytes

357
00:13:33,910 --> 00:13:32,000
worth of data down to just gigabytes and

358
00:13:35,350 --> 00:13:33,920
then from there we're going to partner

359
00:13:37,670 --> 00:13:35,360
with the seu

360
00:13:40,230 --> 00:13:37,680
the scientific coalition

361
00:13:41,670 --> 00:13:40,240
uh to help us actually

362
00:13:43,990 --> 00:13:41,680
analyze that

363
00:13:47,350 --> 00:13:44,000

what's left over after we go through it

364

00:13:48,389 --> 00:13:47,360

dude that is so awesome

365

00:13:50,550 --> 00:13:48,399

dude how does

366

00:13:51,910 --> 00:13:50,560

how does one go about writing a paper

367

00:13:53,910 --> 00:13:51,920

and who do you give it to once you're

368

00:13:55,430 --> 00:13:53,920

done writing that paper like can anybody

369

00:13:56,870 --> 00:13:55,440

write a paper and then like i submitted

370

00:13:58,470 --> 00:13:56,880

it

371

00:14:02,790 --> 00:13:58,480

i'm uh basically i'm just smart enough

372

00:14:03,590 --> 00:14:02,800

to realize i'm stupid so it won't be

373

00:14:06,230 --> 00:14:03,600

yeah

374

00:14:07,829 --> 00:14:06,240

um but basically explain to me that you

375

00:14:10,230 --> 00:14:07,839

know they'll

376

00:14:12,550 --> 00:14:10,240

they anything they find that ends up

377

00:14:13,910 --> 00:14:12,560

being um noteworthy

378

00:14:16,150 --> 00:14:13,920

um

379

00:14:18,629 --> 00:14:16,160

worth studying because there's some some

380

00:14:20,389 --> 00:14:18,639

radiation related information that we're

381

00:14:23,110 --> 00:14:20,399

actually going to be they're going to be

382

00:14:24,310 --> 00:14:23,120

going to be writing up paper on uh but

383

00:14:26,470 --> 00:14:24,320

what they'll do is they'll write up

384

00:14:28,870 --> 00:14:26,480

these these what they call papers or

385

00:14:31,430 --> 00:14:28,880

just white paper and then they want to

386

00:14:34,629 --> 00:14:31,440

submit that

387

00:14:36,550 --> 00:14:34,639

to some type of a scientific publication

388

00:14:38,949 --> 00:14:36,560

for peer review

389

00:14:40,550 --> 00:14:38,959

so then they submit it and then their

390

00:14:42,550 --> 00:14:40,560

reviewers go through it and we don't

391

00:14:45,110 --> 00:14:42,560

know who those reviewers are it's all

392

00:14:47,030 --> 00:14:45,120

blind man's chance uh the only thing you

393

00:14:48,870 --> 00:14:47,040

can kind of do is say well just don't

394

00:14:50,470 --> 00:14:48,880

have this one this one guy because i

395

00:14:51,509 --> 00:14:50,480

don't believe that he can be unbiased

396

00:14:55,110 --> 00:14:51,519

you know

397

00:14:57,110 --> 00:14:55,120

that but other than that you have no

398

00:14:59,829 --> 00:14:57,120

choice and you know they just basically

399

00:15:01,910 --> 00:14:59,839

grab peers from your field to review

400

00:15:06,310 --> 00:15:01,920

your data which

401
00:15:06,320 --> 00:15:09,590
we'll review it dude

402
00:15:12,470 --> 00:15:11,269
i just see that

403
00:15:13,590 --> 00:15:12,480
you know

404
00:15:19,590 --> 00:15:13,600
i think

405
00:15:21,829 --> 00:15:19,600
making sense dude

406
00:15:26,230 --> 00:15:21,839
what do you think

407
00:15:30,150 --> 00:15:27,829
but no it goes through a peer review

408
00:15:32,470 --> 00:15:30,160
process through through submitting it to

409
00:15:35,509 --> 00:15:32,480
scientific journals and to through

410
00:15:37,749 --> 00:15:35,519
publications and so once it's published

411
00:15:38,629 --> 00:15:37,759
and peer reviewed then it's considered

412
00:15:39,350 --> 00:15:38,639
to be

413
00:15:42,550 --> 00:15:39,360

a

414

00:15:44,629 --> 00:15:42,560

is

415

00:15:46,389 --> 00:15:44,639

science money

416

00:15:47,990 --> 00:15:46,399

that's where you get your your funding

417

00:15:49,269 --> 00:15:48,000

your scientific funding from that's

418

00:15:50,230 --> 00:15:49,279

where you get your grant money from

419

00:15:51,910 --> 00:15:50,240

that's where

420

00:15:54,069 --> 00:15:51,920

it's like all right so here's all of our

421

00:15:56,389 --> 00:15:54,079

theories here's our peer review here's

422

00:15:58,310 --> 00:15:56,399

our data

423

00:16:00,550 --> 00:15:58,320

and oh by the way we're published under

424

00:16:02,150 --> 00:16:00,560

this you know this many things under our

425

00:16:05,430 --> 00:16:02,160

our our research

426

00:16:10,069 --> 00:16:08,310

this is like uh uh maybe a smart thought

427

00:16:11,509 --> 00:16:10,079

that i'm not smart enough to understand

428

00:16:13,590 --> 00:16:11,519

it but i feel like when they're whenever

429

00:16:16,069 --> 00:16:13,600

there's money involved there's got to be

430

00:16:17,350 --> 00:16:16,079

politics too so

431

00:16:19,670 --> 00:16:17,360

that's that's why we're getting away

432

00:16:21,110 --> 00:16:19,680

from the hollywood and the uh you know

433

00:16:24,470 --> 00:16:21,120

that's why we don't

434

00:16:26,870 --> 00:16:24,480

accept private investors

435

00:16:27,670 --> 00:16:26,880

only private donations

436

00:16:30,069 --> 00:16:27,680

nice

437

00:16:33,030 --> 00:16:30,079

because you know it's like if somebody's

438

00:16:35,670 --> 00:16:33,040

a part of our team and wants to donate

439

00:16:38,629 --> 00:16:35,680

money that's one thing but

440

00:16:40,069 --> 00:16:38,639

we're not looking for the handouts you

441

00:16:41,990 --> 00:16:40,079

know we're looking for

442

00:16:43,829 --> 00:16:42,000

the money based off of our scientific

443

00:16:45,590 --> 00:16:43,839

merit which is why it's going to take a

444

00:16:47,110 --> 00:16:45,600

long time you know we're just step by

445

00:16:48,310 --> 00:16:47,120

step we're going to build it build the

446

00:16:50,710 --> 00:16:48,320

foundation

447

00:16:53,269 --> 00:16:50,720

you know we're not gonna go the route

448

00:16:54,230 --> 00:16:53,279

like uh other

449

00:16:57,350 --> 00:16:54,240

other

450

00:16:59,030 --> 00:16:57,360

scientific scientific groups um and do

451
00:17:00,949 --> 00:16:59,040
everything from the ground up we're

452
00:17:02,389 --> 00:17:00,959
still going to look at the hot spots

453
00:17:04,710 --> 00:17:02,399
we're gonna

454
00:17:06,630 --> 00:17:04,720
but we are still just studying the nuts

455
00:17:11,029 --> 00:17:06,640
and bolts aspects sorry for the guys

456
00:17:13,590 --> 00:17:11,039
that do really like the the the

457
00:17:15,909 --> 00:17:13,600
the experiencers and the

458
00:17:17,590 --> 00:17:15,919
the you know the sides of the sides of

459
00:17:19,029 --> 00:17:17,600
this field that necessarily you can't

460
00:17:21,350 --> 00:17:19,039
really measure

461
00:17:23,750 --> 00:17:21,360
um the day that we can which i do

462
00:17:24,870 --> 00:17:23,760
believe a lot of that stuff we will find

463
00:17:28,710 --> 00:17:24,880

ways of

464

00:17:33,510 --> 00:17:31,110

it'll be on our list you know but

465

00:17:35,990 --> 00:17:33,520

until then only what we can actually see

466

00:17:37,750 --> 00:17:36,000

and measure and and analyze you know

467

00:17:39,270 --> 00:17:37,760

that's really all we're we're worried

468

00:17:41,270 --> 00:17:39,280

about working but it doesn't mean i

469

00:17:43,669 --> 00:17:41,280

don't i still don't enjoy the

470

00:17:45,029 --> 00:17:43,679

uh endless hours of film

471

00:17:47,350 --> 00:17:45,039

uh

472

00:17:48,630 --> 00:17:47,360

you know oh for sure

473

00:17:50,630 --> 00:17:48,640

you got to walk before you can worry

474

00:17:52,789 --> 00:17:50,640

about you know i i could probably do a

475

00:17:53,990 --> 00:17:52,799

do a uh i could probably give sprague

476

00:17:57,029 --> 00:17:54,000

another another

477

00:17:59,350 --> 00:17:57,039

two books worth of information on people

478

00:18:00,710 --> 00:17:59,360

with the stories that i get you know

479

00:18:02,950 --> 00:18:00,720

yeah

480

00:18:04,789 --> 00:18:02,960

but uh you would do a good job too

481

00:18:07,350 --> 00:18:04,799

no yeah he's he's an excellent author

482

00:18:09,909 --> 00:18:07,360

when it comes to um

483

00:18:11,909 --> 00:18:09,919

publishing uh people's stories about uh

484

00:18:14,549 --> 00:18:11,919

you know the their encounters and stuff

485

00:18:16,150 --> 00:18:14,559

he's he's got a very

486

00:18:17,990 --> 00:18:16,160

he's got a very good way of really

487

00:18:21,190 --> 00:18:18,000

pulling out the humanity in these

488

00:18:23,909 --> 00:18:21,200

stories and i i've enjoyed his i enjoyed

489

00:18:25,669 --> 00:18:23,919

his uh his book tremendously

490

00:18:29,750 --> 00:18:25,679

heck yeah that's awesome

491

00:18:31,350 --> 00:18:29,760

i got an audio i got an audio book so

492

00:18:33,110 --> 00:18:31,360

gotta do the audio books i ain't got

493

00:18:34,390 --> 00:18:33,120

time for [h__\h] anymore does he read his

494

00:18:35,830 --> 00:18:34,400

own audiobook

495

00:18:37,590 --> 00:18:35,840

i don't know

496

00:18:40,470 --> 00:18:37,600

i haven't gotten the audio version yet

497

00:18:43,190 --> 00:18:40,480

but i read the i read the hard copy yeah

498

00:18:44,870 --> 00:18:43,200

dude yeah dude i hope he does i hope he

499

00:18:46,630 --> 00:18:44,880

doesn't i gotta i gotta look if he does

500

00:18:49,190 --> 00:18:46,640

because if he does man i'll i'll reread

501
00:18:51,990 --> 00:18:49,200
it or re-listen to it

502
00:18:53,110 --> 00:18:52,000
that [\h__\h] would be so soothing yeah yeah

503
00:18:57,270 --> 00:18:53,120
like

504
00:18:59,029 --> 00:18:57,280
throw on a ryan sprague

505
00:19:01,029 --> 00:18:59,039
show and i'm like okay this is soothing

506
00:19:02,710 --> 00:19:01,039
yeah something about that fool's voice

507
00:19:04,470 --> 00:19:02,720
just kind of puts you in like a like a

508
00:19:05,830 --> 00:19:04,480
trance it's kind of it's got a nice

509
00:19:08,470 --> 00:19:05,840
vibration

510
00:19:10,789 --> 00:19:08,480
yeah unlike mine is his isn't like like

511
00:19:11,669 --> 00:19:10,799
mine is mine's kind of kind of raspy

512
00:19:13,590 --> 00:19:11,679
deep

513
00:19:14,870 --> 00:19:13,600

yeah yeah that's right you're sexual

514

00:19:15,990 --> 00:19:14,880

that's what it is

515

00:19:18,470 --> 00:19:16,000

is uh

516

00:19:20,710 --> 00:19:18,480

his has got that just that smooth

517

00:19:22,870 --> 00:19:20,720

you know you just trust the guy

518

00:19:24,390 --> 00:19:22,880

immediately it's real

519

00:19:26,710 --> 00:19:24,400

yeah oh yeah

520

00:19:28,390 --> 00:19:26,720

uh speaking of suave gary i got i i'm

521

00:19:30,070 --> 00:19:28,400

gonna i'm gonna i'm gonna show you

522

00:19:33,350 --> 00:19:30,080

something that i said joe when i was

523

00:19:35,350 --> 00:19:33,360

watching it dude and uh i i i kind of

524

00:19:37,909 --> 00:19:35,360

want to see what you think about this

525

00:19:40,870 --> 00:19:37,919

maybe just give your your perspective on

526

00:19:42,710 --> 00:19:40,880

this is from uh tear and this guy and

527

00:19:43,909 --> 00:19:42,720

hopefully the volume plays but i just

528

00:19:47,909 --> 00:19:43,919

kind of want to get your perspective on

529

00:19:47,919 --> 00:19:51,590

why'd they leave you hanging dude

530

00:19:56,310 --> 00:19:53,750

i guess i was just too far away and uh

531

00:19:57,990 --> 00:19:56,320

we had we had uh queues and marks on on

532

00:19:59,669 --> 00:19:58,000

it that was like the fifth or sixth time

533

00:20:01,909 --> 00:19:59,679

that we had done it

534

00:20:04,390 --> 00:20:01,919

oh so you were like let's just go

535

00:20:07,270 --> 00:20:04,400

yeah yeah i was just [h__h] like yep

536

00:20:08,710 --> 00:20:07,280

i'm done

537

00:20:11,350 --> 00:20:08,720

everybody else was like it's morphing

538

00:20:13,350 --> 00:20:11,360

time you're like [\h__\h] let's go

539

00:20:17,190 --> 00:20:13,360

yeah i mean honestly i'm real big into

540

00:20:19,029 --> 00:20:17,200

the whole acting aspect so i'm just like

541

00:20:21,830 --> 00:20:19,039

all right here's the actual information

542

00:20:23,750 --> 00:20:21,840

let's just do this all right

543

00:20:25,430 --> 00:20:23,760

i was so glad that you i'm so glad you

544

00:20:27,350 --> 00:20:25,440

actually didn't go like out of your way

545

00:20:29,110 --> 00:20:27,360

to get that fist bump like you you you

546

00:20:30,310 --> 00:20:29,120

hit it would have been awkward if i did

547

00:20:33,750 --> 00:20:30,320

anyways

548

00:20:35,990 --> 00:20:33,760

yeah yeah i i love it because i like i i

549

00:20:37,669 --> 00:20:36,000

you know for everybody like that doesn't

550

00:20:39,110 --> 00:20:37,679

like know you or maybe hasn't heard you

551
00:20:40,470 --> 00:20:39,120
on a show maybe it's the first time

552
00:20:43,110 --> 00:20:40,480
seeing it like they don't understand

553
00:20:44,630 --> 00:20:43,120
your personality but like for me it was

554
00:20:46,390 --> 00:20:44,640
hilarious it was just cracking me up

555
00:20:48,390 --> 00:20:46,400
because like the things that like i was

556
00:20:50,630 --> 00:20:48,400
thinking like man i bet gary's thinking

557
00:20:52,789 --> 00:20:50,640
this right now like every time you were

558
00:20:54,470 --> 00:20:52,799
on camera i was like gary's saying this

559
00:20:55,990 --> 00:20:54,480
in his head right now it was just making

560
00:20:57,110 --> 00:20:56,000
me laugh

561
00:20:59,190 --> 00:20:57,120
yeah

562
00:21:01,990 --> 00:20:59,200
i i just kept a lot of you know make

563
00:21:03,750 --> 00:21:02,000

sure i was uh

564

00:21:06,070 --> 00:21:03,760

i just made sure i was there to find

565

00:21:07,909 --> 00:21:06,080

things when i need to be found make sure

566

00:21:09,669 --> 00:21:07,919

that i was keeping up with whatever the

567

00:21:11,750 --> 00:21:09,679

guys needed honestly i was just

568

00:21:13,669 --> 00:21:11,760

everybody's [h__\h] for the whole movie

569

00:21:15,510 --> 00:21:13,679

i mean it was just what do you need what

570

00:21:17,110 --> 00:21:15,520

do you need what do you need and just

571

00:21:18,950 --> 00:21:17,120

yeah running around just trying to make

572

00:21:20,870 --> 00:21:18,960

sure everybody had what they needed

573

00:21:22,950 --> 00:21:20,880

even at one point

574

00:21:24,230 --> 00:21:22,960

matthew was distraught because he had to

575

00:21:26,710 --> 00:21:24,240

eat breakfast cat

576

00:21:28,710 --> 00:21:26,720

so i made him up for eggs eggs and bacon

577

00:21:31,190 --> 00:21:28,720

brought him up to the roof too

578

00:21:33,590 --> 00:21:31,200

that is awesome that is badass i love

579

00:21:35,510 --> 00:21:33,600

that you got to be man i mean you know

580

00:21:37,909 --> 00:21:35,520

you're the president you know

581

00:21:40,470 --> 00:21:37,919

and that's good hey yeah those are the

582

00:21:42,630 --> 00:21:40,480

misconception though

583

00:21:45,270 --> 00:21:42,640

you know these guys are the guys that

584

00:21:47,669 --> 00:21:45,280

make this company all i'm here to do is

585

00:21:50,710 --> 00:21:47,679

try to provide what little i can

586

00:21:52,390 --> 00:21:50,720

to them to be able to do their job

587

00:21:54,390 --> 00:21:52,400

that's that's called true leadership man

588

00:21:55,669 --> 00:21:54,400

you know you're not uh yeah you're

589

00:21:57,750 --> 00:21:55,679

leading the pack man that's that's

590

00:21:59,590 --> 00:21:57,760

that's that's good leadership you're

591

00:22:01,029 --> 00:21:59,600

bacon and eggs

592

00:22:02,710 --> 00:22:01,039

nobody's running

593

00:22:06,789 --> 00:22:02,720

dude

594

00:22:08,230 --> 00:22:06,799

and i have to say i'm not a bad cook so

595

00:22:10,950 --> 00:22:08,240

one of these days i'm gonna get i'm

596

00:22:13,270 --> 00:22:10,960

gonna get world famous gary voorhees

597

00:22:14,549 --> 00:22:13,280

baking and eggs one of these days i

598

00:22:16,390 --> 00:22:14,559

promise well i'll be honest with you

599

00:22:19,350 --> 00:22:16,400

they're going to be good damn good eggs

600

00:22:21,430 --> 00:22:19,360

hell yeah i'm excited ben uh your mom

601
00:22:22,510 --> 00:22:21,440
makes real good eggs whoa

602
00:22:26,070 --> 00:22:22,520
your

603
00:22:27,669 --> 00:22:26,080
microphone eggs

604
00:22:29,430 --> 00:22:27,679
i can't tell if you're telling me a mom

605
00:22:32,310 --> 00:22:29,440
joke or not because i know it does make

606
00:22:33,669 --> 00:22:32,320
good yeah no remember um that one time

607
00:22:35,350 --> 00:22:33,679
we stayed at your house and me and

608
00:22:37,029 --> 00:22:35,360
amanda stayed in the tent your in your

609
00:22:39,430 --> 00:22:37,039
boat floated across the lake and then

610
00:22:40,789 --> 00:22:39,440
that morning like we woke up and like

611
00:22:42,630 --> 00:22:40,799
the sheriff's department was there and

612
00:22:45,110 --> 00:22:42,640
[h__\h] and then your mom made those badass

613
00:22:47,029 --> 00:22:45,120

eggs with the cheese in it dude that was

614

00:22:49,270 --> 00:22:47,039

tight i like this

615

00:22:50,870 --> 00:22:49,280

yeah sounds like a good memory guys

616

00:22:52,470 --> 00:22:50,880

well i want to say i'm a little jealous

617

00:22:54,549 --> 00:22:52,480

but you guys have like you guys have

618

00:22:56,870 --> 00:22:54,559

been friends for how many years dude for

619

00:22:58,549 --> 00:22:56,880

a long time yeah so i mean you guys got

620

00:22:59,990 --> 00:22:58,559

some serious history

621

00:23:02,870 --> 00:23:00,000

the other thing i know is from when you

622

00:23:05,510 --> 00:23:02,880

first started uh doing your podcast so

623

00:23:07,190 --> 00:23:05,520

yeah yeah yeah i know my mom would love

624

00:23:09,190 --> 00:23:07,200

to cook you some eggs gary so whenever

625

00:23:10,149 --> 00:23:09,200

you're in texas dude come by bro

626
00:23:12,310 --> 00:23:10,159
how about

627
00:23:15,590 --> 00:23:12,320
does she do charissa with it

628
00:23:16,390 --> 00:23:15,600
no that sounds dull oh dude my mom will

629
00:23:17,750 --> 00:23:16,400
though

630
00:23:20,070 --> 00:23:17,760
i tell you what you know what i would

631
00:23:25,350 --> 00:23:20,080
love is like some carne asada

632
00:23:29,669 --> 00:23:26,950
you might have to come to my mom's house

633
00:23:34,630 --> 00:23:32,230
yeah yeah oh one of my favorite things

634
00:23:36,630 --> 00:23:34,640
when i was uh stationed in san diego man

635
00:23:38,310 --> 00:23:36,640
i'd sneak off the boat about nine ten

636
00:23:40,870 --> 00:23:38,320
o'clock anytime we were like we were

637
00:23:42,710 --> 00:23:40,880
actually in poor anchored you know i was

638
00:23:44,149 --> 00:23:42,720

like for like the last year on my ship i

639

00:23:47,510 --> 00:23:44,159

was literally the only person in my work

640

00:23:48,830 --> 00:23:47,520

center like the only computer technician

641

00:23:50,789 --> 00:23:48,840

the whole last

642

00:23:54,789 --> 00:23:50,799

deployment so

643

00:23:58,149 --> 00:23:57,110

i'd sneak off i'd stick up like gotta go

644

00:23:59,590 --> 00:23:58,159

get some

645

00:24:01,510 --> 00:23:59,600

parts

646

00:24:04,470 --> 00:24:01,520

yeah let's [h__\h] go down down to the

647

00:24:07,590 --> 00:24:04,480

roach coach get a big old freaking uh uh

648

00:24:09,750 --> 00:24:07,600

chorizo burrito breakfast i mean my

649

00:24:12,630 --> 00:24:09,760

thing was as big as my forearm dude

650

00:24:14,470 --> 00:24:12,640

that's awesome hell yeah all greasy

651

00:24:16,470 --> 00:24:14,480

[\h__\h] just that [\h__\h] red [\h__\h]

652

00:24:18,390 --> 00:24:16,480

grease streaming out the bottom oh man i

653

00:24:21,430 --> 00:24:18,400

miss those yes

654

00:24:23,830 --> 00:24:21,440

yes uh it seems like the further south

655

00:24:25,669 --> 00:24:23,840

you go the bigger the food gets and like

656

00:24:27,029 --> 00:24:25,679

i remember making that mistake where i

657

00:24:29,590 --> 00:24:27,039

went to this mexican restaurant i

658

00:24:31,990 --> 00:24:29,600

ordered three tacos and she was like

659

00:24:34,230 --> 00:24:32,000

really and i was like yeah and they came

660

00:24:36,230 --> 00:24:34,240

and they were like big ass burrito-sized

661

00:24:37,990 --> 00:24:36,240

thomas street tacos

662

00:24:40,230 --> 00:24:38,000

i was like [\h__\h] there's no way i could

663

00:24:41,750 --> 00:24:40,240

eat this and she was like hey

664

00:24:45,830 --> 00:24:41,760

i asked you

665

00:24:48,310 --> 00:24:45,840

so i uh i took some tacos to go for sure

666

00:24:51,029 --> 00:24:48,320

that's ridiculous

667

00:24:53,190 --> 00:24:51,039

huge remember been huge remember we

668

00:24:55,909 --> 00:24:53,200

rolled that uh that twelve and a half

669

00:24:58,470 --> 00:24:55,919

pound burrito dude the monster monster

670

00:25:03,269 --> 00:24:58,480

baby monster burritos the super monster

671

00:25:06,789 --> 00:25:05,510

we used to work at this place yeah we

672

00:25:08,789 --> 00:25:06,799

used to work at this place it was called

673

00:25:09,990 --> 00:25:08,799

free birds and we made burritos and like

674

00:25:12,789 --> 00:25:10,000

we had this thing called the super

675

00:25:14,390 --> 00:25:12,799

monster but then like you get like this

676
00:25:17,350 --> 00:25:14,400
then you could get this like off the

677
00:25:19,750 --> 00:25:17,360
menu like four tortilla like each

678
00:25:21,029 --> 00:25:19,760
tortilla was like 16 inches and you

679
00:25:22,950 --> 00:25:21,039
could get four of them put together and

680
00:25:24,789 --> 00:25:22,960
rolled up into a burrito dude this thing

681
00:25:26,549 --> 00:25:24,799
was like it was almost like 12 and a

682
00:25:29,190 --> 00:25:26,559
half pounds it was ridiculous there's so

683
00:25:30,549 --> 00:25:29,200
much food and that fool ate the whole

684
00:25:35,190 --> 00:25:30,559
thing

685
00:25:38,310 --> 00:25:35,200
like reminds me of a place called uncle

686
00:25:40,630 --> 00:25:38,320
robbie's in la and it's just a small

687
00:25:42,950 --> 00:25:40,640
little like in san gabriel valley i

688
00:25:44,470 --> 00:25:42,960

believe i think it was in san gabriel

689

00:25:46,070 --> 00:25:44,480

but it's a place called uncle robbie's

690

00:25:47,669 --> 00:25:46,080

and they made the best burritos but what

691

00:25:49,750 --> 00:25:47,679

they also had was this thing that was

692

00:25:52,549 --> 00:25:49,760

called carne asada fries

693

00:25:54,230 --> 00:25:52,559

it was basically fries with carne asada

694

00:25:57,110 --> 00:25:54,240

and all the [h__h] fixings all over the

695

00:26:01,269 --> 00:25:57,120

top and oh my god dude oh yes that was

696

00:26:05,190 --> 00:26:02,630

we're gonna make every stoner in the

697

00:26:06,870 --> 00:26:05,200

audience go out there

698

00:26:09,510 --> 00:26:06,880

gonna be in the kitchen cooking up some

699

00:26:11,990 --> 00:26:09,520

hamburgers i'm making pizza tacos

700

00:26:13,669 --> 00:26:12,000

yup yup everybody's everybody's putting

701
00:26:15,269 --> 00:26:13,679
the margaritas down and starting to

702
00:26:16,950 --> 00:26:15,279
light the joints and get their nachos

703
00:26:19,350 --> 00:26:16,960
ready

704
00:26:21,190 --> 00:26:19,360
chips and cheese hey i so that entire

705
00:26:22,950 --> 00:26:21,200
time uh i was trying to look up this

706
00:26:24,870 --> 00:26:22,960
meme and i couldn't think of the name

707
00:26:26,310 --> 00:26:24,880
pablo escobar but there's this meme that

708
00:26:27,750 --> 00:26:26,320
uh made me think of what you were

709
00:26:29,830 --> 00:26:27,760
talking about gary being the last

710
00:26:31,230 --> 00:26:29,840
technician on the ship like this is this

711
00:26:35,669 --> 00:26:31,240
is you the last technician

712
00:26:36,710 --> 00:26:35,679
[Laughter]

713
00:26:39,669 --> 00:26:36,720

all right

714

00:26:41,669 --> 00:26:39,679

hour 30 and i'm still awake

715

00:26:44,549 --> 00:26:41,679

i'm sitting here the computer's still

716

00:26:48,630 --> 00:26:44,559

running but i'm not

717

00:26:51,590 --> 00:26:50,549

that's nice though to like not not have

718

00:26:53,350 --> 00:26:51,600

to like

719

00:26:54,789 --> 00:26:53,360

you know you're the only guy you can go

720

00:26:57,830 --> 00:26:54,799

do whatever you want

721

00:26:59,110 --> 00:26:57,840

well to a degree as long as as long as

722

00:27:01,350 --> 00:26:59,120

shit's done

723

00:27:02,630 --> 00:27:01,360

yeah and nothing's broken nobody comes

724

00:27:04,710 --> 00:27:02,640

and talks to you

725

00:27:06,310 --> 00:27:04,720

i literally walked around for the last

726

00:27:09,269 --> 00:27:06,320

six months of my time in the service

727

00:27:11,830 --> 00:27:09,279

with a clipboard and a very well done

728

00:27:13,590 --> 00:27:11,840

like my uniform was like pristine

729

00:27:15,590 --> 00:27:13,600

not one person asked me what i was doing

730

00:27:18,950 --> 00:27:15,600

and i did jack [h__\h] for six months like

731

00:27:22,389 --> 00:27:21,190

that's awesome

732

00:27:24,710 --> 00:27:22,399

i uh

733

00:27:26,630 --> 00:27:24,720

go for it sorry i i was just gonna

734

00:27:27,669 --> 00:27:26,640

[h__\h]

735

00:27:28,710 --> 00:27:27,679

i uh

736

00:28:10,710 --> 00:27:28,720

i

737

00:28:13,590 --> 00:28:12,070

pretty much

738

00:28:15,029 --> 00:28:13,600

i would trust joe to do that actually i

739

00:28:17,029 --> 00:28:15,039

think he would rise to the occasion i

740

00:28:18,710 --> 00:28:17,039

would figure it out dude yeah

741

00:28:19,909 --> 00:28:18,720

i'm a pretty good youtuber i'll youtube

742

00:28:22,070 --> 00:28:19,919

the [h__\h] out of it we'll figure it out

743

00:28:23,669 --> 00:28:22,080

oh good you can help me with my channel

744

00:28:24,389 --> 00:28:23,679

hell yeah

745

00:28:27,190 --> 00:28:24,399

yeah

746

00:28:29,269 --> 00:28:27,200

so about this whole editing thing

747

00:28:30,870 --> 00:28:29,279

yeah just don't do it like we do i

748

00:28:32,630 --> 00:28:30,880

tell you what man that scares me the

749

00:28:34,549 --> 00:28:32,640

most because like so

750

00:28:36,389 --> 00:28:34,559

um like my two big projects for the next

751

00:28:38,389 --> 00:28:36,399

six months while i'm taking this little

752

00:28:40,870 --> 00:28:38,399

social media hiatus is

753

00:28:43,269 --> 00:28:40,880

i got a va claim that i'm trying to push

754

00:28:45,830 --> 00:28:43,279

you know get all all the you know you

755

00:28:47,430 --> 00:28:45,840

gotta do all this leg work to get all

756

00:28:49,269 --> 00:28:47,440

this proof and

757

00:28:51,430 --> 00:28:49,279

you know basically you have to write up

758

00:28:52,789 --> 00:28:51,440

a scientific paper about why you're so

759

00:28:55,750 --> 00:28:52,799

[h__h] up that they need to give you

760

00:28:57,510 --> 00:28:55,760

money uh i'm [h__h] up i got nerve

761

00:28:59,190 --> 00:28:57,520

damage across my whole body i gotta take

762

00:29:01,190 --> 00:28:59,200

medication just to walk around you know

763

00:29:01,990 --> 00:29:01,200

i mean it's yeah

764

00:29:13,269 --> 00:29:02,000

it's

765

00:29:15,990 --> 00:29:13,279

me in a blue collar job because i'm kind

766

00:29:17,909 --> 00:29:16,000

of like you want me to do what oh i

767

00:29:19,830 --> 00:29:17,919

realize that's a stupid thing for me to

768

00:29:21,669 --> 00:29:19,840

do you have no [h__\h] idea what you're

769

00:29:24,310 --> 00:29:21,679

doing you do you yeah

770

00:29:25,669 --> 00:29:24,320

get [h__\h] away from me don't talk to me

771

00:29:28,389 --> 00:29:25,679

come back at me when you guys when you

772

00:29:31,510 --> 00:29:28,399

got your [h__\h] straight because

773

00:29:33,269 --> 00:29:31,520

that would be me talking to my boss

774

00:29:35,669 --> 00:29:33,279

that's why i got fired i just hired you

775

00:29:37,669 --> 00:29:35,679

i'm your boss you can't

776

00:29:39,350 --> 00:29:37,679

i can't i gotta let go after 17 years

777

00:29:40,630 --> 00:29:39,360

from spectrum just for that very

778

00:29:41,909 --> 00:29:40,640

attitude

779

00:29:47,029 --> 00:29:41,919

uh

780

00:29:51,510 --> 00:29:48,950

i had a boss for a long time and

781

00:29:53,190 --> 00:29:51,520

apparently he was really sugar coating

782

00:29:55,269 --> 00:29:53,200

the [h__\h] that i was saying to the

783

00:29:57,590 --> 00:29:55,279

supervisors

784

00:29:59,110 --> 00:29:57,600

like he'd bring me in for a statement

785

00:30:00,950 --> 00:29:59,120

i'd be like nah [h__\h] them tell them go

786

00:30:02,630 --> 00:30:00,960

[h__\h] themselves i don't give a [h__\h] what

787

00:30:04,789 --> 00:30:02,640

they think and it must have been

788

00:30:07,029 --> 00:30:04,799

translated or something because

789

00:30:08,630 --> 00:30:07,039

i never got in trouble

790

00:30:09,909 --> 00:30:08,640

this dude retires i'm getting i'm

791

00:30:13,990 --> 00:30:09,919

getting written up for the first time in

792

00:30:16,549 --> 00:30:15,190

i like this

793

00:30:18,389 --> 00:30:16,559

gary you're the chuck norris or the

794

00:30:20,950 --> 00:30:18,399

paranormal dude

795

00:30:23,830 --> 00:30:20,960

really i'm not sure what that means but

796

00:30:26,549 --> 00:30:23,840

i will take that as a compliment

797

00:30:28,389 --> 00:30:26,559

oh you have to dude yeah he's the most

798

00:30:30,389 --> 00:30:28,399

badass dude you know what you know

799

00:30:32,549 --> 00:30:30,399

there's this other cool thing right

800

00:30:34,070 --> 00:30:32,559

about you know i i

801
00:30:35,590 --> 00:30:34,080
somebody like somebody said that i

802
00:30:37,590 --> 00:30:35,600
should color my beard i'm like no i

803
00:30:38,630 --> 00:30:37,600
really i really kind of like the salt

804
00:30:40,549 --> 00:30:38,640
and pepper

805
00:30:41,990 --> 00:30:40,559
keep the grays dude you got to keep the

806
00:30:44,630 --> 00:30:42,000
grace oh yeah

807
00:30:45,830 --> 00:30:44,640
for sure i'm keeping mine they're like

808
00:30:47,190 --> 00:30:45,840
dude

809
00:30:49,269 --> 00:30:47,200
look awesome

810
00:30:52,230 --> 00:30:49,279
sor just hooked you up with a 20 spot

811
00:30:54,389 --> 00:30:52,240
just for this luscious beard so oh damn

812
00:30:56,870 --> 00:30:54,399
you beautiful beautiful yeah

813
00:30:59,750 --> 00:30:56,880

that's what's up hell yeah love you dave

814

00:31:01,669 --> 00:30:59,760

i love you man dave's not here man

815

00:31:04,070 --> 00:31:01,679

yeah he's about the only other person i

816

00:31:06,549 --> 00:31:04,080

jump online for it an instant notice

817

00:31:09,029 --> 00:31:06,559

there's not too many of you guys that i

818

00:31:11,110 --> 00:31:09,039

i'll jump i'll jump for but uh there's

819

00:31:12,710 --> 00:31:11,120

some good people in this world and

820

00:31:14,230 --> 00:31:12,720

uh you know not saying that any of the

821

00:31:15,750 --> 00:31:14,240

other ones aren't good people but the

822

00:31:17,430 --> 00:31:15,760

relationships you make you know and

823

00:31:19,990 --> 00:31:17,440

that's you know it's like i can always

824

00:31:21,430 --> 00:31:20,000

count on you dave you know

825

00:31:25,590 --> 00:31:21,440

yeah

826

00:31:27,790 --> 00:31:27,269

everybody loves them but we all hate

827

00:31:30,630 --> 00:31:27,800

each other

828

00:31:32,950 --> 00:31:30,640

[Laughter]

829

00:31:33,669 --> 00:31:32,960

oh god that's awesome i love it dude

830

00:31:41,029 --> 00:31:33,679

yeah

831

00:31:42,630 --> 00:31:41,039

but uh dude speaking of like uh

832

00:31:44,389 --> 00:31:42,640

switzerland i it got me thinking about

833

00:31:45,909 --> 00:31:44,399

like okay switzerland that's an island

834

00:31:47,590 --> 00:31:45,919

some of some kind or whatever got me

835

00:31:49,110 --> 00:31:47,600

thinking of catalina that's probably

836

00:31:52,549 --> 00:31:49,120

wrong

837

00:31:55,669 --> 00:31:52,559

catalina island a doctor

838

00:31:58,549 --> 00:31:55,679

but dude i have a q i have a question so

839

00:32:00,549 --> 00:31:58,559

that was a dumb segue

840

00:32:01,830 --> 00:32:00,559

when you were filming the show or i

841

00:32:03,909 --> 00:32:01,840

don't know you've been out there other

842

00:32:05,430 --> 00:32:03,919

times did you watch when i was filming

843

00:32:07,029 --> 00:32:05,440

my show it sounded like my mom's asking

844

00:32:08,389 --> 00:32:07,039

me a question when you're doing your

845

00:32:11,990 --> 00:32:08,399

show

846

00:32:16,230 --> 00:32:13,669

like did you get did you all ever see it

847

00:32:22,070 --> 00:32:16,240

it's a movie ma it was a movie mom it

848

00:32:27,350 --> 00:32:25,830

a feature length movie feature no good

849

00:32:30,630 --> 00:32:27,360

so you guys sorry

850

00:32:33,430 --> 00:32:30,640

thank you mr crowley thank you brother

851

00:32:35,029 --> 00:32:33,440

uh but yeah uh so when the cameras were

852

00:32:36,789 --> 00:32:35,039

shut off i don't know if they were ever

853

00:32:38,149 --> 00:32:36,799

shut off or if there was like a moment

854

00:32:39,909 --> 00:32:38,159

you're on a set i'm gonna give you the

855

00:32:42,230 --> 00:32:39,919

best advice anybody ever give you

856

00:32:44,789 --> 00:32:42,240

nothing is ever turned off you're always

857

00:32:46,789 --> 00:32:44,799

on and you never say a damn thing you

858

00:32:49,190 --> 00:32:46,799

don't want to be

859

00:32:51,269 --> 00:32:49,200

spread across the entire internet

860

00:32:53,029 --> 00:32:51,279

so no hot mics

861

00:32:55,350 --> 00:32:53,039

oh i guarantee you there's tons of them

862

00:32:59,269 --> 00:32:55,360

it's going to go and guess what i still

863

00:33:01,830 --> 00:33:00,310

yeah

864

00:33:02,870 --> 00:33:01,840

someone someone knows all your dirty

865

00:33:05,430 --> 00:33:02,880

jokes

866

00:33:06,630 --> 00:33:05,440

uh i caroline actually put up a clip

867

00:33:08,230 --> 00:33:06,640

where uh

868

00:33:10,310 --> 00:33:08,240

she's like do you guys actually talk

869

00:33:13,350 --> 00:33:10,320

about that i go with with far more [h__h]

870

00:33:14,950 --> 00:33:13,360

than i've said in that savings what

871

00:33:18,310 --> 00:33:14,960

i go yeah

872

00:33:21,029 --> 00:33:18,320

that's got a lot more [h__h] than that

873

00:33:22,710 --> 00:33:21,039

uh well did you guys ever do y'all see

874

00:33:24,149 --> 00:33:22,720

anything off off camera that like you

875

00:33:25,669 --> 00:33:24,159

just didn't happen to catch like the

876

00:33:27,669 --> 00:33:25,679

camera was you know like a like like a

877

00:33:29,269 --> 00:33:27,679

skin walker scenario honestly a lot of

878

00:33:31,029 --> 00:33:29,279

the stuff we caught we didn't even know

879

00:33:32,470 --> 00:33:31,039

we caught it until we started reviewing

880

00:33:34,630 --> 00:33:32,480

stuff because

881

00:33:36,149 --> 00:33:34,640

we were so busy with the filming and

882

00:33:37,669 --> 00:33:36,159

stuff like that we basically were just

883

00:33:39,590 --> 00:33:37,679

trying to make sure our systems were

884

00:33:40,710 --> 00:33:39,600

recording the whole time

885

00:33:42,389 --> 00:33:40,720

that was it

886

00:33:44,070 --> 00:33:42,399

you know so it was just all we could do

887

00:33:46,389 --> 00:33:44,080

just to make sure that you know and even

888

00:33:48,310 --> 00:33:46,399

then we had these big windows where like

889

00:33:51,029 --> 00:33:48,320

a fuse would break and we wouldn't know

890

00:33:53,190 --> 00:33:51,039

our gear was down you know and oh my god

891

00:33:55,269 --> 00:33:53,200

i'd lose my mind why the [h__h] did

892

00:33:57,750 --> 00:33:55,279

anybody tell me the [h__h] cameras are

893

00:33:59,190 --> 00:33:57,760

down you know yeah

894

00:34:01,430 --> 00:33:59,200

then it took uh i remember the first

895

00:34:03,350 --> 00:34:01,440

time a fuse broke it took us

896

00:34:05,509 --> 00:34:03,360

it took us over two hours just to find

897

00:34:07,590 --> 00:34:05,519

where the fuse box was ends up being

898

00:34:12,550 --> 00:34:07,600

like

899

00:34:15,430 --> 00:34:12,560

house is on side of a mountain right so

900

00:34:17,430 --> 00:34:15,440

the front yard is just like sheer rock

901
00:34:18,710 --> 00:34:17,440
and there's this tiny little ledge you

902
00:34:20,069 --> 00:34:18,720
walk out on there's like this little

903
00:34:22,069 --> 00:34:20,079
door that opens and that's where the

904
00:34:23,750 --> 00:34:22,079
panel box is in front of the house and

905
00:34:25,030 --> 00:34:23,760
i'm like that's the most worst place

906
00:34:26,230 --> 00:34:25,040
that's the worst place to have a panel

907
00:34:28,710 --> 00:34:26,240
box like literally if i'm about to

908
00:34:30,790 --> 00:34:28,720
murder you just like on a cliff

909
00:34:32,790 --> 00:34:30,800
just open it up you can't see me i'm

910
00:34:34,389 --> 00:34:32,800
down at the bottom just

911
00:34:37,510 --> 00:34:34,399
turn everything off in the house

912
00:34:39,109 --> 00:34:37,520
boom with the hold up the the fuse box

913
00:34:40,389 --> 00:34:39,119

to the house broke i thought you were

914

00:34:42,230 --> 00:34:40,399

talking about like

915

00:34:44,950 --> 00:34:42,240

well because uh i mean dude i mean this

916

00:34:47,270 --> 00:34:44,960

house is a beautiful home but it's old

917

00:34:48,470 --> 00:34:47,280

it was an old you know it's an old money

918

00:34:50,470 --> 00:34:48,480

home

919

00:34:52,790 --> 00:34:50,480

you know so it's got

920

00:34:54,710 --> 00:34:52,800

you know and then you've got like

921

00:34:56,710 --> 00:34:54,720

a quadrillion month dollars where the

922

00:34:58,150 --> 00:34:56,720

[h__\h] camera gear

923

00:34:59,589 --> 00:34:58,160

lighting and everything else plugged

924

00:35:01,430 --> 00:34:59,599

into these circuits

925

00:35:05,030 --> 00:35:01,440

and then we've got you know

926
00:35:07,109 --> 00:35:05,040
15 000 watts running off the roof

927
00:35:08,950 --> 00:35:07,119
yeah we're having a split we're having

928
00:35:10,870 --> 00:35:08,960
to readjust where everything's plugged

929
00:35:12,710 --> 00:35:10,880
in so we can balance the load across the

930
00:35:17,280 --> 00:35:12,720
whole house

931
00:35:17,290 --> 00:35:24,310
[Laughter]

932
00:35:29,270 --> 00:35:27,030
yeah that didn't work

933
00:35:31,190 --> 00:35:29,280
so me and joe were in a band for like 10

934
00:35:33,030 --> 00:35:31,200
years together and like i swear dude

935
00:35:34,630 --> 00:35:33,040
we've had gigs where it was one

936
00:35:38,150 --> 00:35:34,640
extension cord

937
00:35:40,150 --> 00:35:38,160
and one power power supply and every

938
00:35:41,349 --> 00:35:40,160

single nook and cranny was like plugged

939

00:35:44,550 --> 00:35:41,359

into it

940

00:35:45,910 --> 00:35:44,560

very unsafe very very unsafe yeah and we

941

00:35:49,750 --> 00:35:45,920

would always put it right under the

942

00:35:51,750 --> 00:35:49,760

stage curtain so nobody could see it

943

00:35:53,670 --> 00:35:51,760

right where we can spill our trees uh

944

00:35:56,230 --> 00:35:53,680

they were real good about not really

945

00:35:57,910 --> 00:35:56,240

showing a lot of the wiring but like if

946

00:35:59,510 --> 00:35:57,920

you've got a keen eye you'll see you'll

947

00:36:01,270 --> 00:35:59,520

see it but like most of the shots are

948

00:36:03,589 --> 00:36:01,280

just shot just just above where the

949

00:36:05,589 --> 00:36:03,599

wiring is or yeah you know they were

950

00:36:06,630 --> 00:36:05,599

really good about the cinematography of

951
00:36:09,030 --> 00:36:06,640
this movie

952
00:36:11,349 --> 00:36:09,040
yeah it's very clean there was wires

953
00:36:13,910 --> 00:36:11,359
everywhere i mean it was just

954
00:36:15,829 --> 00:36:13,920
[h__h] everywhere uh it's amazing what

955
00:36:16,790 --> 00:36:15,839
they can do in post too

956
00:36:18,310 --> 00:36:16,800
so yeah

957
00:36:20,550 --> 00:36:18,320
so i went through a lot of tape on that

958
00:36:21,589 --> 00:36:20,560
trip

959
00:36:23,589 --> 00:36:21,599
like yeah

960
00:36:25,270 --> 00:36:23,599
i can't i can't yeah i mean they were

961
00:36:27,270 --> 00:36:25,280
dumping like

962
00:36:30,630 --> 00:36:27,280
you know terabytes of film every day i

963
00:36:32,870 --> 00:36:30,640

mean it was ridiculous i mean just

964

00:36:34,710 --> 00:36:32,880

with those red cameras yeah i mean they

965

00:36:37,030 --> 00:36:34,720

they're so i mean i guarantee they were

966

00:36:40,870 --> 00:36:37,040

filming everything in raw so that's

967

00:36:42,630 --> 00:36:40,880

that so i mean it's

968

00:36:43,829 --> 00:36:42,640

i can't even imagine the amount of

969

00:36:46,550 --> 00:36:43,839

information

970

00:36:48,150 --> 00:36:46,560

yeah we uh similarly we we i don't think

971

00:36:50,790 --> 00:36:48,160

nico had a red it was i think it was a

972

00:36:52,390 --> 00:36:50,800

black magic and still yeah we shot in

973

00:36:54,630 --> 00:36:52,400

raw for a lot of still a very good

974

00:36:57,510 --> 00:36:54,640

camera yeah really good camera uh but

975

00:36:59,910 --> 00:36:57,520

yeah just like unnecessarily amounts of

976
00:37:01,750 --> 00:36:59,920
terabytes like dude when we send it to

977
00:37:02,950 --> 00:37:01,760
our editor i just sent like two

978
00:37:10,470 --> 00:37:02,960
10

979
00:37:12,950 --> 00:37:12,230
one more question dude uh

980
00:37:16,710 --> 00:37:12,960
so

981
00:37:18,150 --> 00:37:16,720
explanation maybe i didn't understand it

982
00:37:21,430 --> 00:37:18,160
fully but

983
00:37:23,349 --> 00:37:21,440
it comes from uh jim goodall's book uh

984
00:37:25,750 --> 00:37:23,359
this lockheed skunk works book where he

985
00:37:29,829 --> 00:37:25,760
talks about this device at lockheed

986
00:37:31,430 --> 00:37:29,839
skunk works that's it's a small radio uh

987
00:37:33,349 --> 00:37:31,440
help me out it's not radioactive but

988
00:37:35,190 --> 00:37:33,359

it's a a nuclear

989

00:37:36,470 --> 00:37:35,200

a fission right yeah you're talking

990

00:37:38,950 --> 00:37:36,480

about it last week i think

991

00:37:39,910 --> 00:37:38,960

yeah small fission device

992

00:37:41,589 --> 00:37:39,920

it's like

993

00:37:42,950 --> 00:37:41,599

yeah it's about like 40 foot he said it

994

00:37:43,910 --> 00:37:42,960

fits in like a shipping container and

995

00:37:46,550 --> 00:37:43,920

like they're working on making it

996

00:37:48,310 --> 00:37:46,560

smaller but like it's like a ridiculous

997

00:37:50,470 --> 00:37:48,320

type thing where like you could keep an

998

00:37:52,069 --> 00:37:50,480

airplane like up in the air like until

999

00:37:54,390 --> 00:37:52,079

we're all gone and dead

1000

00:37:57,030 --> 00:37:54,400

and like being able to run like cities

1001
00:37:58,390 --> 00:37:57,040
for like 40 years on it it's pretty nuts

1002
00:38:00,950 --> 00:37:58,400
we know they're developing nuclear

1003
00:38:02,630 --> 00:38:00,960
batteries like that out of nuclear waste

1004
00:38:05,270 --> 00:38:02,640
see if i can find it

1005
00:38:06,950 --> 00:38:05,280
forgotten well so

1006
00:38:08,630 --> 00:38:06,960
so uh i'm not familiar with that

1007
00:38:10,069 --> 00:38:08,640
particular that particular technology i

1008
00:38:11,030 --> 00:38:10,079
haven't read that book

1009
00:38:13,349 --> 00:38:11,040
so

1010
00:38:15,349 --> 00:38:13,359
well i'm just curious like i'm i'm

1011
00:38:17,829 --> 00:38:15,359
trying to like grasp it at any

1012
00:38:19,750 --> 00:38:17,839
explanation for some of the the

1013
00:38:21,750 --> 00:38:19,760

radioactive uh

1014

00:38:23,109 --> 00:38:21,760

there was some mention of like uh the

1015

00:38:26,230 --> 00:38:23,119

background radiation that we were

1016

00:38:27,910 --> 00:38:26,240

picking up uh it was twofold uh there

1017

00:38:30,069 --> 00:38:27,920

was also a

1018

00:38:32,230 --> 00:38:30,079

uh solar anomaly that happened while we

1019

00:38:33,270 --> 00:38:32,240

were out there that would account for

1020

00:38:36,310 --> 00:38:33,280

some of it

1021

00:38:38,150 --> 00:38:36,320

but not for all of it and uh

1022

00:38:40,630 --> 00:38:38,160

some of the some of the background

1023

00:38:43,190 --> 00:38:40,640

radiations were were so ridiculously

1024

00:38:45,990 --> 00:38:43,200

high that you know it was it was you

1025

00:38:47,030 --> 00:38:46,000

know we definitely were researching why

1026

00:38:48,470 --> 00:38:47,040

dude

1027

00:38:50,470 --> 00:38:48,480

well what went down it was like the

1028

00:38:52,550 --> 00:38:50,480

schumann residence like recorder or

1029

00:38:54,630 --> 00:38:52,560

something like that or what what uh

1030

00:38:55,750 --> 00:38:54,640

something like huge went down when the

1031

00:39:02,310 --> 00:38:55,760

uh

1032

00:39:03,190 --> 00:39:02,320

yeah fuse broke oh that was

1033

00:39:05,190 --> 00:39:03,200

yeah

1034

00:39:06,790 --> 00:39:05,200

there was nothing hokey that happened

1035

00:39:08,870 --> 00:39:06,800

i mean there was a lot of coincidental

1036

00:39:11,430 --> 00:39:08,880

[h__\h] but yeah gotcha there wasn't like

1037

00:39:14,069 --> 00:39:11,440

anything real hokey i mean

1038

00:39:16,950 --> 00:39:14,079

in my experience and in my perception i

1039

00:39:18,150 --> 00:39:16,960

i there was there was failures and then

1040

00:39:20,790 --> 00:39:18,160

there was

1041

00:39:22,790 --> 00:39:20,800

uh you know just [h__h] that happens

1042

00:39:23,990 --> 00:39:22,800

anytime you try to do any type of

1043

00:39:26,310 --> 00:39:24,000

operation

1044

00:39:28,470 --> 00:39:26,320

yeah yeah enzo says there's been a lot

1045

00:39:30,390 --> 00:39:28,480

of uh solar activity since about

1046

00:39:33,349 --> 00:39:30,400

december the cycle is very yeah matter

1047

00:39:34,790 --> 00:39:33,359

of fact we just had a nasty solar storm

1048

00:39:36,069 --> 00:39:34,800

uh if you notice your cell phones

1049

00:39:38,390 --> 00:39:36,079

haven't been working that great in the

1050

00:39:39,829 --> 00:39:38,400

last like week or two

1051

00:39:41,750 --> 00:39:39,839

that's because of the solar activity

1052

00:39:43,349 --> 00:39:41,760

that's going on right now like uh i

1053

00:39:44,870 --> 00:39:43,359

think it was like a week or two ago you

1054

00:39:46,630 --> 00:39:44,880

could actually see the the aurora

1055

00:39:48,470 --> 00:39:46,640

borealis like

1056

00:39:49,910 --> 00:39:48,480

in the farther south that you they

1057

00:39:51,510 --> 00:39:49,920

you've been able to see it in like 100

1058

00:39:53,750 --> 00:39:51,520

years or something like that yeah that's

1059

00:39:55,589 --> 00:39:53,760

crazy

1060

00:39:57,589 --> 00:39:55,599

i love that

1061

00:39:59,510 --> 00:39:57,599

yeah that's not i still i still have not

1062

00:40:00,470 --> 00:39:59,520

seen that in person that's on my bucket

1063

00:40:02,390 --> 00:40:00,480

list

1064

00:40:04,630 --> 00:40:02,400

dude that and uh i've gotten to see

1065

00:40:06,790 --> 00:40:04,640

bioluminescence the power on the flare

1066

00:40:09,430 --> 00:40:06,800

was lost just to uh basically somebody

1067

00:40:11,190 --> 00:40:09,440

would plugged in uh batteries for the

1068

00:40:13,349 --> 00:40:11,200

cameras to charge and it popped the

1069

00:40:14,950 --> 00:40:13,359

breaker

1070

00:40:18,550 --> 00:40:14,960

um

1071

00:40:20,870 --> 00:40:18,560

so so part part two to the question like

1072

00:40:23,670 --> 00:40:20,880

is it uh

1073

00:40:25,190 --> 00:40:23,680

like some of the radar uh sorry right uh

1074

00:40:27,030 --> 00:40:25,200

the the fleer

1075

00:40:28,710 --> 00:40:27,040

uh footage that you guys got do you

1076

00:40:31,030 --> 00:40:28,720

think that could be something that was

1077

00:40:32,870 --> 00:40:31,040

that was ours or do you think maybe well

1078

00:40:35,510 --> 00:40:32,880

i know the only anomalous thing that was

1079

00:40:37,190 --> 00:40:35,520

shown in the movie was the trifoil video

1080

00:40:39,910 --> 00:40:37,200

which wasn't even filmed on the r

1081

00:40:43,349 --> 00:40:39,920

expedition um dave mason actually filmed

1082

00:40:44,710 --> 00:40:43,359

that uh in his home location

1083

00:40:46,150 --> 00:40:44,720

um

1084

00:40:49,750 --> 00:40:46,160

and is that the thing that was reading

1085

00:40:51,109 --> 00:40:49,760

like negative 75 degrees yeah it was

1086

00:40:53,430 --> 00:40:51,119

yeah that wasn't filmed on our

1087

00:40:56,230 --> 00:40:53,440

expedition

1088

00:40:58,069 --> 00:40:56,240

that's pretty crazy though

1089

00:40:59,910 --> 00:40:58,079

then that other little that other little

1090

00:41:01,190 --> 00:40:59,920

thing that comes down the screen that

1091

00:41:02,630 --> 00:41:01,200

kind of looks like a tic tac that's a

1092

00:41:04,309 --> 00:41:02,640

plane

1093

00:41:05,510 --> 00:41:04,319

got it yeah

1094

00:41:06,710 --> 00:41:05,520

uh

1095

00:41:12,950 --> 00:41:06,720

like in the

1096

00:41:14,630 --> 00:41:12,960

um

1097

00:41:16,790 --> 00:41:14,640

i i don't know i'd have to sit down with

1098

00:41:18,390 --> 00:41:16,800

you and oh yeah well you know if we ever

1099

00:41:19,750 --> 00:41:18,400

if we ever get together we'll have to

1100

00:41:20,790 --> 00:41:19,760

sit down and i'll i'll give you a

1101

00:41:25,030 --> 00:41:20,800

personal

1102

00:41:26,470 --> 00:41:25,040

dude a private screening if you will

1103

00:41:29,270 --> 00:41:26,480

what are you doing in november we're

1104

00:41:33,670 --> 00:41:29,280

having a get-together in texas uh well

1105

00:41:36,710 --> 00:41:33,680

in september i'll be in nevada and in

1106

00:41:38,390 --> 00:41:36,720

june i'll be in alabama

1107

00:41:40,790 --> 00:41:38,400

he's a traveling man he's a rolling

1108

00:41:42,870 --> 00:41:40,800

stone i'll be at the seu conference in

1109

00:41:44,630 --> 00:41:42,880

june which is if you're actually serious

1110

00:41:46,950 --> 00:41:44,640

into the science aspect of this that's

1111

00:41:49,750 --> 00:41:46,960

the place to be

1112

00:41:52,550 --> 00:41:49,760

the scu conference it's in

1113

00:41:53,430 --> 00:41:52,560

it's in uh huntsville alabama or rocket

1114

00:41:54,309 --> 00:41:53,440

city

1115

00:41:56,950 --> 00:41:54,319

it's

1116

00:42:02,630 --> 00:42:00,230

huntsville alabama just wrote a [h__h]

1117

00:42:04,309 --> 00:42:02,640

country song

1118

00:42:06,550 --> 00:42:04,319

dude i want to go

1119

00:42:10,870 --> 00:42:06,560

huntsville alabama i mean we could write

1120

00:42:14,470 --> 00:42:12,790

gotta get the good night kisses yeah

1121

00:42:27,349 --> 00:42:14,480

it's the most important

1122

00:42:32,790 --> 00:42:29,670

look at gary he's a good old guy and

1123

00:42:35,589 --> 00:42:32,800

even he's a great old daughter

1124

00:42:38,150 --> 00:42:35,599

wonderful man oh no sorry

1125

00:42:39,270 --> 00:42:38,160

wait is is that captain marvel or wonder

1126
00:42:45,030 --> 00:42:39,280
woman

1127
00:42:46,550 --> 00:42:45,040
say hi to everybody say hello joe hello

1128
00:42:48,790 --> 00:42:46,560
hi

1129
00:42:51,589 --> 00:42:48,800
say hello ben say hello joe

1130
00:42:53,030 --> 00:42:51,599
hi i'm joe hi ben

1131
00:42:55,589 --> 00:42:53,040
hello

1132
00:42:56,790 --> 00:42:55,599
i like it i like good night everybody

1133
00:43:04,309 --> 00:42:56,800
everybody

1134
00:43:08,630 --> 00:43:07,030
yes dude yes

1135
00:43:10,470 --> 00:43:08,640
i'm so excited

1136
00:43:13,910 --> 00:43:10,480
now you know why i disappear for so much

1137
00:43:15,910 --> 00:43:13,920
time oh yeah they get this time back so

1138
00:43:16,870 --> 00:43:15,920

hell no

1139

00:43:21,349 --> 00:43:16,880

yeah

1140

00:43:23,750 --> 00:43:21,359

my daughter just just broke her first

1141

00:43:25,990 --> 00:43:23,760

two two teeth at the bottom uh she's

1142

00:43:27,670 --> 00:43:26,000

seven months ago i tell

1143

00:43:30,069 --> 00:43:27,680

the best thing that we found was that

1144

00:43:31,910 --> 00:43:30,079

the pacifier that has a little trough

1145

00:43:34,230 --> 00:43:31,920

and then get the little numbing gel that

1146

00:43:35,829 --> 00:43:34,240

goes into the trough and they'll chew on

1147

00:43:38,069 --> 00:43:35,839

that and

1148

00:43:40,870 --> 00:43:38,079

go right to sleep i gotta look i gotta

1149

00:43:41,910 --> 00:43:40,880

look that up i think it's a numbie

1150

00:43:43,910 --> 00:43:41,920

is what it's called or something like

1151
00:43:46,069 --> 00:43:43,920
that yep but it's uh it's a t it's a

1152
00:43:47,030 --> 00:43:46,079
teething teething like it's uh it looks

1153
00:43:49,030 --> 00:43:47,040
like a little

1154
00:43:50,390 --> 00:43:49,040
like uh

1155
00:43:51,990 --> 00:43:50,400
it's got like a little trough kind of

1156
00:43:53,349 --> 00:43:52,000
like uh when you go to the dentist and

1157
00:43:54,870 --> 00:43:53,359
they put that thing in there to put the

1158
00:43:59,430 --> 00:43:54,880
the

1159
00:44:03,910 --> 00:44:01,030
she loves it yeah that helped a lot with

1160
00:44:09,860 --> 00:44:03,920
when she was teething

1161
00:44:13,990 --> 00:44:12,550
[Laughter]

1162
00:44:15,750 --> 00:44:14,000
old school [h__h] right there dude put

1163
00:44:19,190 --> 00:44:15,760

there on your chest dude

1164

00:44:21,829 --> 00:44:19,200

ironically she was just born when

1165

00:44:23,589 --> 00:44:21,839

we first went public at the laughlin

1166

00:44:25,670 --> 00:44:23,599

at the ufo megacon

1167

00:44:27,750 --> 00:44:25,680

i was running around ufo megacon with a

1168

00:44:29,750 --> 00:44:27,760

with a baby carrier and she was she was

1169

00:44:32,390 --> 00:44:29,760

just

1170

00:44:34,150 --> 00:44:32,400

tromping around the convention

1171

00:44:36,550 --> 00:44:34,160

with her uh

1172

00:44:37,829 --> 00:44:36,560

strapped to me everywhere so if you ever

1173

00:44:39,589 --> 00:44:37,839

if you were talking about anybody about

1174

00:44:42,150 --> 00:44:39,599

them when they first saw me it's like oh

1175

00:44:44,069 --> 00:44:42,160

the guy with the baby yep yeah

1176

00:44:45,829 --> 00:44:44,079

so awesome

1177

00:44:47,430 --> 00:44:45,839

i feel like that's around the same time

1178

00:44:53,750 --> 00:44:47,440

like

1179

00:44:56,870 --> 00:44:53,760

the front papers dude i would just have

1180

00:45:00,550 --> 00:44:56,880

i i just uh she's uh you know

1181

00:45:02,710 --> 00:45:00,560

between kayla and colon my baby uh

1182

00:45:05,349 --> 00:45:02,720

i probably one of the most blessed

1183

00:45:07,990 --> 00:45:05,359

people in the world um

1184

00:45:11,190 --> 00:45:08,000

i couldn't do any of this without them

1185

00:45:13,109 --> 00:45:11,200

and you know ironically it would also be

1186

00:45:13,990 --> 00:45:13,119

them that i stopped doing this for too

1187

00:45:16,470 --> 00:45:14,000

so

1188

00:45:18,150 --> 00:45:16,480

you know it's uh

1189

00:45:19,430 --> 00:45:18,160

they'd be the only reason i'd willingly

1190

00:45:20,950 --> 00:45:19,440

stop doing this other than the

1191

00:45:22,870 --> 00:45:20,960

government saying i don't think you

1192

00:45:24,870 --> 00:45:22,880

should be doing this anymore

1193

00:45:26,870 --> 00:45:24,880

you know

1194

00:45:30,150 --> 00:45:26,880

but luckily no knocks in the door so

1195

00:45:32,630 --> 00:45:30,160

we're good yeah yeah uh

1196

00:45:34,950 --> 00:45:32,640

that's funny uh so what was up with the

1197

00:45:37,030 --> 00:45:34,960

helicopter that fl that flew over y'all

1198

00:45:38,150 --> 00:45:37,040

oh yeah we we love putting that in there

1199

00:45:40,150 --> 00:45:38,160

because like

1200

00:45:42,470 --> 00:45:40,160

so they must have saw the [h__\h] on the

1201

00:45:44,630 --> 00:45:42,480

roof and like they literally

1202

00:45:46,710 --> 00:45:44,640

we we looked up the tail number and so

1203

00:45:47,910 --> 00:45:46,720

the flight path was like a straight shot

1204

00:45:49,030 --> 00:45:47,920

down the beach because it looks like

1205

00:45:50,150 --> 00:45:49,040

they were just going down the beach and

1206

00:45:52,630 --> 00:45:50,160

then when they were coming back they

1207

00:45:56,630 --> 00:45:52,640

like veered off straight just just over

1208

00:45:57,990 --> 00:45:56,640

our roof and then back onto their path

1209

00:46:01,190 --> 00:45:58,000

they wouldn't tell us who it was because

1210

00:46:02,950 --> 00:46:01,200

it was a private flight oh

1211

00:46:04,630 --> 00:46:02,960

[h__h] dude maybe it was william shatner

1212

00:46:05,990 --> 00:46:04,640

maybe that's who it was

1213

00:46:07,750 --> 00:46:06,000

yeah

1214

00:46:09,270 --> 00:46:07,760

or somebody with with money that wanted

1215

00:46:10,309 --> 00:46:09,280

to see what the hell we were doing yeah

1216

00:46:11,990 --> 00:46:10,319

that's true

1217

00:46:14,309 --> 00:46:12,000

yeah there's a lot of goodies up on that

1218

00:46:18,150 --> 00:46:14,319

route green street that he did show up

1219

00:46:19,990 --> 00:46:18,160

at the show show up while we were there

1220

00:46:22,069 --> 00:46:20,000

uh stephen

1221

00:46:23,510 --> 00:46:22,079

screen shoot yeah oh that's awesome well

1222

00:46:25,270 --> 00:46:23,520

jeremy knows him so he called him up

1223

00:46:28,230 --> 00:46:25,280

he's like yeah come on over

1224

00:46:31,349 --> 00:46:28,240

that's so cool hell yeah he's a super

1225

00:46:33,190 --> 00:46:31,359

chill dude yeah he seems like it yeah

1226

00:46:35,990 --> 00:46:33,200

he seems super cool i think he was on

1227

00:46:37,349 --> 00:46:36,000

ucr today i watched a a little bit yeah

1228

00:46:40,470 --> 00:46:37,359

today yeah he's

1229

00:46:42,870 --> 00:46:40,480

uh super good i love that perspective uh

1230

00:46:45,349 --> 00:46:42,880

uh like from uh

1231

00:46:46,630 --> 00:46:45,359

does he do reporting for the the post

1232

00:46:48,230 --> 00:46:46,640

like

1233

00:46:50,309 --> 00:46:48,240

i think it's the new york post new york

1234

00:46:52,790 --> 00:46:50,319

post dude that is so cool

1235

00:46:54,790 --> 00:46:52,800

that he's also into ufos and in the

1236

00:46:56,550 --> 00:46:54,800

audience for the the new york post that

1237

00:46:59,190 --> 00:46:56,560

is so cool he does that

1238

00:47:01,990 --> 00:46:59,200

you'd be surprised how many people are

1239

00:47:07,349 --> 00:47:05,510

secretly into ufos

1240

00:47:11,190 --> 00:47:07,359

i just found out that the ceo of my

1241

00:47:13,589 --> 00:47:11,200

company is also uni into ufos we had

1242

00:47:16,309 --> 00:47:13,599

beers last night and you know the uh the

1243

00:47:17,190 --> 00:47:16,319

president of uapx the only civilian-run

1244

00:47:20,309 --> 00:47:17,200

uh

1245

00:47:23,670 --> 00:47:20,319

research company on uap

1246

00:47:24,870 --> 00:47:23,680

he uh he was so he just found i got well

1247

00:47:26,790 --> 00:47:24,880

i guess he just started listening to the

1248

00:47:28,309 --> 00:47:26,800

show and then he was like

1249

00:47:30,390 --> 00:47:28,319

so

1250

00:47:31,750 --> 00:47:30,400

uapx right

1251

00:47:34,950 --> 00:47:31,760

i was like yeah yeah i didn't know we

1252

00:47:37,349 --> 00:47:34,960

were like yeah we know those guys

1253

00:47:39,030 --> 00:47:37,359

so he actually knew of yeah

1254

00:47:40,710 --> 00:47:39,040

it was super cool we like grabbed beers

1255

00:47:42,150 --> 00:47:40,720

and like uh

1256

00:47:44,150 --> 00:47:42,160

yeah it was a good it was a good combo

1257

00:47:46,470 --> 00:47:44,160

dude i'll wait till gary's back to tell

1258

00:47:48,390 --> 00:47:46,480

him but tell me dude and tell the

1259

00:47:49,990 --> 00:47:48,400

audience did i tell you and then you got

1260

00:47:51,990 --> 00:47:50,000

to tell gary

1261

00:47:56,630 --> 00:47:52,000

sorry about that my daughter bit into

1262

00:48:00,549 --> 00:47:58,870

luckily they're not toxic anymore but

1263

00:48:01,349 --> 00:48:00,559

yeah that's where the whiskey comes in

1264

00:48:02,230 --> 00:48:01,359

hand

1265

00:48:05,589 --> 00:48:02,240

it

1266

00:48:07,670 --> 00:48:05,599

dude

1267

00:48:09,670 --> 00:48:07,680

that is amazing wait wait they're not

1268

00:48:12,230 --> 00:48:09,680

toxic anymore so like it happened enough

1269

00:48:14,950 --> 00:48:12,240

times like they're the original glow

1270

00:48:16,470 --> 00:48:14,960

stick formula was pretty tough toxic

1271

00:48:18,069 --> 00:48:16,480

yeah

1272

00:48:19,750 --> 00:48:18,079

were you talking about your boss or

1273

00:48:21,910 --> 00:48:19,760

something somebody

1274

00:48:24,390 --> 00:48:21,920

is in the ufos yeah the ceo of the

1275

00:48:26,309 --> 00:48:24,400

company that i work for uh like we just

1276

00:48:28,150 --> 00:48:26,319

grabbed beers last night to you know

1277

00:48:30,069 --> 00:48:28,160

just [h__h] and start talking about

1278

00:48:31,430 --> 00:48:30,079

you know ufos and turns out he had a

1279

00:48:33,910 --> 00:48:31,440

sighting that's

1280

00:48:35,670 --> 00:48:33,920

pretty amazing and actually uh joe i

1281

00:48:37,589 --> 00:48:35,680

think we might have him on the show in a

1282

00:48:39,510 --> 00:48:37,599

couple weeks so that would be cool i

1283

00:48:41,750 --> 00:48:39,520

know he's so he's always a great format

1284

00:48:43,910 --> 00:48:41,760

for him to share it yeah yeah he's a

1285

00:48:46,150 --> 00:48:43,920

great guy he's and the story is really

1286

00:48:48,390 --> 00:48:46,160

good dude it's really good

1287

00:48:50,309 --> 00:48:48,400

so i i'm stoked but yeah you were saying

1288

00:48:52,069 --> 00:48:50,319

like you definitely need more credible

1289

00:48:53,990 --> 00:48:52,079

people like that come out and come

1290

00:48:56,390 --> 00:48:54,000

forward you know somebody that's the ceo

1291

00:48:58,950 --> 00:48:56,400

or the president of a company that's you

1292

00:49:01,270 --> 00:48:58,960

know that's that's outstanding yeah

1293

00:49:03,430 --> 00:49:01,280

yeah he's like ah you know i usually do

1294

00:49:06,470 --> 00:49:03,440

podcasts about business but like this

1295

00:49:07,990 --> 00:49:06,480

would be so fun so uh i just yeah he's

1296

00:49:10,710 --> 00:49:08,000

he's yeah he's a great he's a great guy

1297

00:49:12,950 --> 00:49:10,720

so i'm excited to have him on and

1298

00:49:15,030 --> 00:49:12,960

yeah like somebody that uh

1299

00:49:17,270 --> 00:49:15,040

is definitely well respected in in in

1300

00:49:18,950 --> 00:49:17,280

that community like talking about his

1301

00:49:21,589 --> 00:49:18,960

own experience that's gonna be i think

1302

00:49:22,790 --> 00:49:21,599

it'd be awesome but you were saying like

1303

00:49:25,030 --> 00:49:22,800

uh yeah

1304

00:49:26,549 --> 00:49:25,040

you'd be surprised like who's into this

1305

00:49:28,870 --> 00:49:26,559

kind of stuff man

1306

00:49:31,109 --> 00:49:28,880

how many people in your circle or like

1307

00:49:32,710 --> 00:49:31,119

family like i mean maybe i've asked you

1308

00:49:34,710 --> 00:49:32,720

this before but how many how many people

1309

00:49:37,750 --> 00:49:34,720

just say hey you know what man

1310

00:49:39,349 --> 00:49:37,760

i've actually had my own experience

1311

00:49:40,870 --> 00:49:39,359

um

1312

00:49:43,349 --> 00:49:40,880

there's been people that have come from

1313

00:49:45,349 --> 00:49:43,359

my past and and have told me about their

1314

00:49:47,270 --> 00:49:45,359

experiences um

1315

00:49:49,030 --> 00:49:47,280

and of course my grandmother was really

1316

00:49:51,510 --> 00:49:49,040

into it and

1317

00:49:52,950 --> 00:49:51,520

i didn't know like she was super into it

1318

00:49:54,390 --> 00:49:52,960

until my mom was like yo yeah yeah

1319

00:49:56,309 --> 00:49:54,400

you're kind of stupid into anything

1320

00:49:58,710 --> 00:49:56,319

weird

1321

00:50:00,230 --> 00:49:58,720

you know like oh all right yes makes

1322

00:50:01,430 --> 00:50:00,240

sense

1323

00:50:03,510 --> 00:50:01,440

but uh

1324

00:50:04,790 --> 00:50:03,520

no i've had a couple a couple of my old

1325

00:50:06,230 --> 00:50:04,800

friends you know it's like i know there

1326
00:50:07,510 --> 00:50:06,240
was one story a friend of mine told me

1327
00:50:09,030 --> 00:50:07,520
about how

1328
00:50:11,109 --> 00:50:09,040
uh

1329
00:50:12,390 --> 00:50:11,119
right after he left

1330
00:50:15,109 --> 00:50:12,400
bullshitting with me

1331
00:50:18,630 --> 00:50:15,119
and another a couple of friends on their

1332
00:50:19,750 --> 00:50:18,640
way home they actually saw [h__h] he like

1333
00:50:21,990 --> 00:50:19,760
actually saw

1334
00:50:23,910 --> 00:50:22,000
a ufo and [h__h] like that

1335
00:50:26,390 --> 00:50:23,920
it's it's amazing how many people around

1336
00:50:30,069 --> 00:50:26,400
me have seen stuff throughout the years

1337
00:50:32,309 --> 00:50:30,079
but until 2004 i didn't see [h__h] but it

1338
00:50:33,750 --> 00:50:32,319

seems like everybody around me has seen

1339

00:50:35,510 --> 00:50:33,760

[h__\h]

1340

00:50:38,630 --> 00:50:35,520

maybe they're just really good at hiding

1341

00:50:42,870 --> 00:50:40,790

well i am a bit passive aggressive so i

1342

00:50:45,190 --> 00:50:42,880

can't blame them see that they're really

1343

00:50:49,670 --> 00:50:45,200

good either that or i'm really uh really

1344

00:50:53,430 --> 00:50:51,589

oh dude

1345

00:50:55,670 --> 00:50:53,440

gary's just outside like

1346

00:50:58,390 --> 00:50:55,680

come out you son of a [h__\h]

1347

00:51:00,150 --> 00:50:58,400

i've already been out you [h__\h]

1348

00:51:01,990 --> 00:51:00,160

don't remember [h__\h] they come down they

1349

00:51:03,190 --> 00:51:02,000

just wipe his memory and gary goes

1350

00:51:03,750 --> 00:51:03,200

inside he's like well i guess it's time

1351
00:51:08,250 --> 00:51:03,760
for bed

1352
00:51:08,260 --> 00:51:12,150
[Music]

1353
00:51:14,710 --> 00:51:13,510
an alien somewhere says if you do that

1354
00:51:16,610 --> 00:51:14,720
too many times to him is that going to

1355
00:51:19,990 --> 00:51:16,620
hurt him i don't know

1356
00:51:22,390 --> 00:51:20,000
[Laughter]

1357
00:51:25,349 --> 00:51:22,400
they keep seeing [\h__\h]

1358
00:51:27,910 --> 00:51:25,359
dude that kind of stuff dude

1359
00:51:30,710 --> 00:51:27,920
i haven't like i mean well i've heard of

1360
00:51:33,670 --> 00:51:30,720
like drugs and stuff that can like

1361
00:51:35,510 --> 00:51:33,680
kind of like erase or suppress or like

1362
00:51:38,150 --> 00:51:35,520
kind of wipe memory and stuff like that

1363
00:51:40,710 --> 00:51:38,160

but like do you know of any like

1364

00:51:42,549 --> 00:51:40,720

like do you know of any like

1365

00:51:45,910 --> 00:51:42,559

technology like

1366

00:51:48,150 --> 00:51:45,920

lights or like waves of some kind

1367

00:51:50,309 --> 00:51:48,160

anything that construct that can disrupt

1368

00:51:51,910 --> 00:51:50,319

your information flow from your neural

1369

00:51:53,589 --> 00:51:51,920

from your senses to

1370

00:51:57,109 --> 00:51:53,599

your neural membranes in your in your

1371

00:52:02,309 --> 00:51:57,119

mind can cause a disruption in that

1372

00:52:04,950 --> 00:52:02,319

so if a technology was able to actually

1373

00:52:06,710 --> 00:52:04,960

basically just feed your brain different

1374

00:52:07,589 --> 00:52:06,720

information than what it's actually

1375

00:52:09,670 --> 00:52:07,599

seeing

1376

00:52:12,150 --> 00:52:09,680

then you'd never know the difference

1377

00:52:13,430 --> 00:52:12,160

between reality and and if you're like a

1378

00:52:15,589 --> 00:52:13,440

construct

1379

00:52:17,670 --> 00:52:15,599

dude i am so into that right now bro

1380

00:52:20,870 --> 00:52:17,680

yeah

1381

00:52:24,630 --> 00:52:22,710

oh have you have you read have you

1382

00:52:25,670 --> 00:52:24,640

watched the uh

1383

00:52:28,710 --> 00:52:25,680

it's a

1384

00:52:32,230 --> 00:52:28,720

netflix series uh

1385

00:52:33,510 --> 00:52:32,240

cake or no cake oh my god

1386

00:52:35,190 --> 00:52:33,520

it's the one it's the one where they

1387

00:52:38,069 --> 00:52:35,200

have the technology where your

1388

00:52:39,910 --> 00:52:38,079

your consciousness is put into a device

1389

00:52:43,109 --> 00:52:39,920

that's putting your neck

1390

00:52:48,230 --> 00:52:43,119

uh black mirror altered stay i altered

1391

00:52:52,549 --> 00:52:50,710

that will [h__\h] with you because i mean

1392

00:52:54,630 --> 00:52:52,559

dude it's just like if that kind of

1393

00:52:55,430 --> 00:52:54,640

technology actually exists

1394

00:52:57,030 --> 00:52:55,440

yeah

1395

00:52:58,870 --> 00:52:57,040

you could never

1396

00:53:00,470 --> 00:52:58,880

never know what the [h__\h] really going

1397

00:53:03,510 --> 00:53:00,480

on ever

1398

00:53:04,549 --> 00:53:03,520

that's uh that's the scary part dude you

1399

00:53:07,270 --> 00:53:04,559

know

1400

00:53:08,390 --> 00:53:07,280

and well like something about the uh

1401

00:53:10,069 --> 00:53:08,400

the

1402

00:53:10,950 --> 00:53:10,079

interference and

1403

00:53:12,950 --> 00:53:10,960

uh

1404

00:53:15,589 --> 00:53:12,960

if consciousness is

1405

00:53:17,349 --> 00:53:15,599

made up of a of a wave of some sort

1406

00:53:18,470 --> 00:53:17,359

which i think it is i think it's it's

1407

00:53:20,630 --> 00:53:18,480

kind of like light where it's like a

1408

00:53:24,630 --> 00:53:20,640

particle and a wave and a little bit i

1409

00:53:27,589 --> 00:53:24,640

think we're we're on the cusp of that uh

1410

00:53:29,829 --> 00:53:27,599

if that can be reproduced and altered

1411

00:53:31,430 --> 00:53:29,839

just a little bit

1412

00:53:33,030 --> 00:53:31,440

i think it's possible man you could just

1413

00:53:35,589 --> 00:53:33,040

be something no i mean there's there's

1414

00:53:37,670 --> 00:53:35,599

there's a ton i mean i know the cia has

1415

00:53:39,109 --> 00:53:37,680

done like extensive research and

1416

00:53:41,589 --> 00:53:39,119

everything from

1417

00:53:44,470 --> 00:53:41,599

uh you know brainwashing to

1418

00:53:45,510 --> 00:53:44,480

psychotropic uh reprogramming

1419

00:53:47,750 --> 00:53:45,520

um

1420

00:53:49,430 --> 00:53:47,760

uh you know i mean they've

1421

00:53:51,430 --> 00:53:49,440

they've done some pretty sadistic sick

1422

00:53:53,430 --> 00:53:51,440

[h__h] to figure out exactly how to [h__h]

1423

00:53:54,950 --> 00:53:53,440

with people's brains so

1424

00:53:57,910 --> 00:53:54,960

i don't doubt that they've figured out

1425

00:54:01,349 --> 00:53:57,920

ways to manipulate mass crowds too

1426

00:54:03,829 --> 00:54:02,150

but

1427

00:54:05,430 --> 00:54:03,839

uh there there was a question i want to

1428

00:54:07,910 --> 00:54:05,440

get to see a question for gary during

1429

00:54:10,309 --> 00:54:07,920

the efforts for a tear in the sky did

1430

00:54:12,309 --> 00:54:10,319

you entice provoke etcetera the

1431

00:54:13,589 --> 00:54:12,319

phenomenon any way to show up

1432

00:54:15,829 --> 00:54:13,599

uh

1433

00:54:18,630 --> 00:54:15,839

no i'm not

1434

00:54:22,630 --> 00:54:18,640

i've been studying ce5 and things like

1435

00:54:25,270 --> 00:54:22,640

that and i i so far have come up with

1436

00:54:26,390 --> 00:54:25,280

zero evidence to prove that cd5 actually

1437

00:54:30,150 --> 00:54:26,400

works

1438

00:54:32,390 --> 00:54:30,160

um i am a big proponent of uh

1439

00:54:34,069 --> 00:54:32,400

consciousness and things like that but

1440

00:54:35,990 --> 00:54:34,079

that's also

1441

00:54:37,670 --> 00:54:36,000

you know it falls in that category of

1442

00:54:39,270 --> 00:54:37,680

stuff that

1443

00:54:40,630 --> 00:54:39,280

we can't

1444

00:54:43,349 --> 00:54:40,640

measure yet

1445

00:54:46,069 --> 00:54:43,359

and it's just all theoretical

1446

00:54:47,190 --> 00:54:46,079

work so

1447

00:54:49,030 --> 00:54:47,200

you know

1448

00:54:52,549 --> 00:54:49,040

i don't mind rapping about it but i you

1449

00:54:54,150 --> 00:54:52,559

know i just you can't measure it so it's

1450

00:54:55,109 --> 00:54:54,160

super interesting and i didn't do

1451

00:55:01,270 --> 00:54:55,119

anything

1452

00:55:03,670 --> 00:55:01,280

like that and

1453

00:55:07,430 --> 00:55:03,680

you know i i i meditate on a regular

1454

00:55:09,589 --> 00:55:07,440

basis anyways but it's you know i know i

1455

00:55:11,990 --> 00:55:09,599

was getting pretty stressful towards the

1456

00:55:13,270 --> 00:55:12,000

middle of the shooting so i was

1457

00:55:17,670 --> 00:55:13,280

kind of the only thing i really

1458

00:55:21,430 --> 00:55:18,710

yeah

1459

00:55:24,390 --> 00:55:21,440

on set is is a long

1460

00:55:26,390 --> 00:55:24,400

time dude i i know i know i told you

1461

00:55:28,870 --> 00:55:26,400

told the story on the round table we did

1462

00:55:30,789 --> 00:55:28,880

but uh yeah i just freaked myself out a

1463

00:55:32,630 --> 00:55:30,799

couple times on set because we were

1464

00:55:34,549 --> 00:55:32,640

staying in that house okay there was a

1465

00:55:36,710 --> 00:55:34,559

there was a couple of me jason

1466

00:55:38,870 --> 00:55:36,720

and jeremy uh and a couple other people

1467

00:55:40,390 --> 00:55:38,880

were actually staying in the house just

1468

00:55:42,549 --> 00:55:40,400

dudes being dudes

1469

00:55:44,870 --> 00:55:42,559

yeah so yeah

1470

00:55:46,950 --> 00:55:44,880

so there was a i told the story about

1471

00:55:48,950 --> 00:55:46,960

how there was like a construct in the

1472

00:55:50,710 --> 00:55:48,960

sky it looked like a big ship over the

1473

00:55:52,789 --> 00:55:50,720

top of the house because it was like

1474

00:55:55,990 --> 00:55:52,799

overcast right and it was just the the

1475

00:55:58,069 --> 00:55:56,000

cloud ceiling was like crazy low yeah so

1476

00:56:02,230 --> 00:55:58,079

and so there's it looks like what looked

1477

00:56:03,910 --> 00:56:02,240

like a ship above the house and when we

1478

00:56:05,910 --> 00:56:03,920

were filming and stuff like that we have

1479

00:56:07,670 --> 00:56:05,920

these you know those big studio lights

1480

00:56:09,589 --> 00:56:07,680

and [h__h] like that so we thought that

1481

00:56:11,670 --> 00:56:09,599

was just reflecting off to some pillars

1482

00:56:13,750 --> 00:56:11,680

and making it in there

1483

00:56:15,349 --> 00:56:13,760

and then uh after

1484

00:56:17,349 --> 00:56:15,359

you know about about one o'clock in the

1485

00:56:19,109 --> 00:56:17,359

morning after everything was shut down i

1486

00:56:20,950 --> 00:56:19,119

was walking through the house

1487

00:56:23,109 --> 00:56:20,960

just to shutting all the lights down

1488

00:56:25,829 --> 00:56:23,119

making sure everything's closed up and

1489

00:56:28,069 --> 00:56:25,839

doing a last perimeter check and

1490

00:56:29,030 --> 00:56:28,079

just force a habit things i do because

1491

00:56:31,750 --> 00:56:29,040

i'm

1492

00:56:33,430 --> 00:56:31,760

ptsd hyper vigilance [h__h] can't sleep

1493

00:56:35,670 --> 00:56:33,440

until i know everything is secure you

1494

00:56:38,069 --> 00:56:35,680

know that type of thing yeah and then go

1495

00:56:40,390 --> 00:56:38,079

out go out in this uh the little deck

1496

00:56:42,150 --> 00:56:40,400

area and look up and

1497

00:56:44,309 --> 00:56:42,160

all the lights are off and here the

1498

00:56:46,710 --> 00:56:44,319

[h__h] this thing's still in the sky i

1499

00:56:48,870 --> 00:56:46,720

started losing my [h__h] i woke everybody

1500

00:56:49,589 --> 00:56:48,880

up i'm like oh my god it's still there

1501

00:56:53,670 --> 00:56:49,599

like

1502

00:56:55,589 --> 00:56:53,680

high as i could probably do it to try to

1503

00:56:57,270 --> 00:56:55,599

get the best best picture this thing in

1504

00:56:59,270 --> 00:56:57,280

the black and

1505

00:57:00,950 --> 00:56:59,280

you know and i freaked myself out i'm

1506

00:57:02,069 --> 00:57:00,960

like if this is a [\h__\h] mothership i'm

1507

00:57:04,470 --> 00:57:02,079

out of here

1508

00:57:05,750 --> 00:57:04,480

[\h__\h] this i'm done

1509

00:57:07,190 --> 00:57:05,760

the whole time you're in your wedding

1510

00:57:10,470 --> 00:57:07,200

titties like

1511

00:57:13,270 --> 00:57:10,480

no no i just i just and then uh come to

1512

00:57:15,349 --> 00:57:13,280

find out uh where you couldn't see them

1513

00:57:17,589 --> 00:57:15,359

but there was lights underneath at the

1514

00:57:18,950 --> 00:57:17,599

bottom of the house that was actually

1515

00:57:21,109 --> 00:57:18,960

pointed up

1516

00:57:24,789 --> 00:57:21,119

and reflecting the shape of the

1517

00:57:27,430 --> 00:57:24,799

structure of the house into the cloud

1518

00:57:29,510 --> 00:57:27,440

it's such a simple thing but until you

1519

00:57:31,270 --> 00:57:29,520

realize that you're just freaked out i

1520

00:57:33,910 --> 00:57:31,280

could totally picture that that would be

1521

00:57:36,549 --> 00:57:33,920

that would freak me out i would yeah

1522

00:57:39,750 --> 00:57:36,559

yeah and then uh

1523

00:57:41,349 --> 00:57:39,760

then there was a uh uh we heard a drone

1524

00:57:43,109 --> 00:57:41,359

somebody was flying a drone

1525

00:57:44,309 --> 00:57:43,119

and you know it was probably one of the

1526

00:57:45,910 --> 00:57:44,319

rich neighbors trying to figure out what

1527

00:57:50,069 --> 00:57:45,920

the [h__\h] we were doing or whatever it

1528

00:57:55,349 --> 00:57:52,230

i might or might not have been armed at

1529

00:57:59,670 --> 00:57:55,359

that time so

1530

00:58:02,150 --> 00:57:59,680

i uh i i did a perimeter check and uh

1531

00:58:04,230 --> 00:58:02,160

uh [h__\h] peck of coyotes scared the

1532

00:58:06,630 --> 00:58:04,240

[h__\h] out of me

1533

00:58:08,150 --> 00:58:06,640

had me and jeremy [h__\h] run around the

1534

00:58:09,589 --> 00:58:08,160

outside of this house looking for

1535

00:58:10,710 --> 00:58:09,599

somebody running through the woods

1536

00:58:13,190 --> 00:58:10,720

because we thought somebody was

1537

00:58:14,870 --> 00:58:13,200

encroaching on the house oh [h__\h] yeah

1538

00:58:17,349 --> 00:58:14,880

but yeah luckily it ended up only being

1539

00:58:18,950 --> 00:58:17,359

coyotes yet again we just yeah just a

1540

00:58:22,950 --> 00:58:18,960

couple of ex-military guys scared the

1541

00:58:26,870 --> 00:58:24,390

what was that

1542

00:58:28,870 --> 00:58:26,880

all right uh did any theories develop of

1543

00:58:30,230 --> 00:58:28,880

why the area between catalina and the

1544

00:58:31,910 --> 00:58:30,240

so-called

1545

00:58:33,990 --> 00:58:31,920

coast is a hot spot

1546

00:58:35,750 --> 00:58:34,000

your guess is as good as mine but

1547

00:58:39,190 --> 00:58:35,760

honestly people have been seeing [h__\h]

1548

00:58:40,789 --> 00:58:39,200

over catalina in in that channel and

1549

00:58:42,789 --> 00:58:40,799

for as long as there's been people alive

1550

00:58:44,950 --> 00:58:42,799

in that area i mean we're talking like

1551
00:58:46,150 --> 00:58:44,960
since the first settlers

1552
00:58:48,230 --> 00:58:46,160
so i mean

1553
00:58:49,510 --> 00:58:48,240
your guess is as good as ours that's why

1554
00:58:51,750 --> 00:58:49,520
it's why we're doing the research there

1555
00:58:52,870 --> 00:58:51,760
is because that's where we saw them

1556
00:58:54,470 --> 00:58:52,880
that's where we tracked them in the

1557
00:58:55,910 --> 00:58:54,480
military

1558
00:58:57,750 --> 00:58:55,920
that's where we know

1559
00:59:01,190 --> 00:58:57,760
we're gonna get results

1560
00:59:02,870 --> 00:59:01,200
so i mean it's just

1561
00:59:05,190 --> 00:59:02,880
uh

1562
00:59:07,270 --> 00:59:05,200
no rhyme or reason for it i know preston

1563
00:59:09,829 --> 00:59:07,280

dennett's done a ton of research for

1564

00:59:12,470 --> 00:59:09,839

that area if you're really interested in

1565

00:59:15,270 --> 00:59:12,480

like the history of the usos and the

1566

00:59:17,510 --> 00:59:15,280

ufos in that area and catalina uh check

1567

00:59:19,670 --> 00:59:17,520

out preston dennett's work

1568

00:59:21,829 --> 00:59:19,680

um he's done a lot of stuff i don't

1569

00:59:24,309 --> 00:59:21,839

agree with some of his theories

1570

00:59:26,309 --> 00:59:24,319

but overall the guy is pretty solid when

1571

00:59:28,309 --> 00:59:26,319

it comes to like his uh you know his

1572

00:59:30,829 --> 00:59:28,319

research on the area

1573

00:59:34,470 --> 00:59:30,839

so and he's actually got a couple of

1574

00:59:36,069 --> 00:59:34,480

uh okay it's kind of oh that just got

1575

00:59:38,150 --> 00:59:36,079

foggier

1576

00:59:39,109 --> 00:59:38,160

how did that work that happens to me all

1577

00:59:41,829 --> 00:59:39,119

the time

1578

00:59:44,549 --> 00:59:41,839

it's the low cloud uh it's the cloud

1579

00:59:50,309 --> 00:59:48,069

yeah yours is thc resin

1580

00:59:53,190 --> 00:59:50,319

it is

1581

00:59:56,069 --> 00:59:53,200

just smears whenever i hear it

1582

00:59:58,630 --> 00:59:56,079

i don't smoke music off use your thumb

1583

01:00:05,540 --> 00:59:58,640

oily ass thumb dude

1584

01:00:10,390 --> 01:00:07,990

[Laughter]

1585

01:00:12,829 --> 01:00:10,400

so the popular theory is that there's an

1586

01:00:14,069 --> 01:00:12,839

underwater base over there

1587

01:00:15,910 --> 01:00:14,079

um don't see

1588

01:00:18,630 --> 01:00:15,920

zero evidence to prove it other than

1589

01:00:22,150 --> 01:00:18,640

there's a lot of uso activity

1590

01:00:23,990 --> 01:00:22,160

and so i saw uh two maps

1591

01:00:27,109 --> 01:00:24,000

one map was of

1592

01:00:29,190 --> 01:00:27,119

all the reported uso sightings

1593

01:00:31,109 --> 01:00:29,200

and then one map was all the reported

1594

01:00:32,150 --> 01:00:31,119

ufo sightings

1595

01:00:33,910 --> 01:00:32,160

and

1596

01:00:36,549 --> 01:00:33,920

ironically

1597

01:00:37,910 --> 01:00:36,559

if you overlaid the two maps

1598

01:00:39,990 --> 01:00:37,920

they made this

1599

01:00:42,069 --> 01:00:40,000

huge field like wherever there wasn't

1600

01:00:43,670 --> 01:00:42,079

uso sightings there was ufo sightings

1601
01:00:45,430 --> 01:00:43,680
wherever there wasn't ufo sightings

1602
01:00:47,190 --> 01:00:45,440
there was ufo sightings

1603
01:00:48,789 --> 01:00:47,200
so it's like you could just imagine

1604
01:00:50,069 --> 01:00:48,799
there's like oh they're up here now they

1605
01:00:52,309 --> 01:00:50,079
went down there

1606
01:00:53,750 --> 01:00:52,319
you know yeah okay i mean of course

1607
01:00:55,829 --> 01:00:53,760
they're all at different times but i

1608
01:00:58,630 --> 01:00:55,839
just thought it was weird how that ended

1609
01:01:00,710 --> 01:00:58,640
up coinciding like that yeah so they

1610
01:01:02,630 --> 01:01:00,720
yeah

1611
01:01:04,950 --> 01:01:02,640
off the coast the north

1612
01:01:07,190 --> 01:01:04,960
i think it's the north

1613
01:01:10,549 --> 01:01:07,200

eastern coast of catalina island they

1614

01:01:13,030 --> 01:01:10,559

found the largest dump of dht

1615

01:01:13,829 --> 01:01:13,040

i mean we're talking like there's like

1616

01:01:16,390 --> 01:01:13,839

uh

1617

01:01:18,549 --> 01:01:16,400

crazy um i mean you there's like if you

1618

01:01:20,870 --> 01:01:18,559

search for it online you'll see like

1619

01:01:24,710 --> 01:01:20,880

they've got videos of just fields of

1620

01:01:27,510 --> 01:01:24,720

like dht dump sites

1621

01:01:31,030 --> 01:01:27,520

yeah it's it's like crazy

1622

01:01:33,430 --> 01:01:31,040

d h i don't even know what dht is

1623

01:01:35,589 --> 01:01:33,440

uh it was a fertilizer they used in the

1624

01:01:37,670 --> 01:01:35,599

80s that they discontinued using because

1625

01:01:39,510 --> 01:01:37,680

it actually caused problems with the

1626

01:01:42,309 --> 01:01:39,520

environment and uh

1627

01:01:45,990 --> 01:01:42,319

called uh it called primarily it caused

1628

01:01:47,589 --> 01:01:46,000

the thinning walls of uh eggs on larger

1629

01:01:49,589 --> 01:01:47,599

birds to pray

1630

01:01:57,120 --> 01:01:49,599

like eagles and things like that oh is

1631

01:01:57,130 --> 01:02:03,589

[Laughter]

1632

01:02:08,549 --> 01:02:06,470

i haven't tried that one yet

1633

01:02:10,470 --> 01:02:08,559

look at that why is it glowing blue

1634

01:02:12,789 --> 01:02:10,480

that's okay that's cool though because

1635

01:02:14,549 --> 01:02:12,799

it kills mosquitoes

1636

01:02:17,109 --> 01:02:14,559

that's the only way to kill them is if

1637

01:02:18,829 --> 01:02:17,119

your [h__h] glows blue and then i'm pretty

1638

01:02:20,630 --> 01:02:18,839

sure that's due to

1639

01:02:21,589 --> 01:02:20,640

electricity i'll i'll try anything to

1640

01:02:23,910 --> 01:02:21,599

kill them

1641

01:02:26,470 --> 01:02:23,920

not like that's cut blue but

1642

01:02:28,309 --> 01:02:26,480

yeah so there was a company uh i don't

1643

01:02:29,910 --> 01:02:28,319

know if it was the 80s or 90s but they

1644

01:02:33,029 --> 01:02:29,920

had just dumped

1645

01:02:36,470 --> 01:02:33,039

billions of gallons of ddt into the

1646

01:02:40,950 --> 01:02:38,390

what like i don't understand like the

1647

01:02:43,109 --> 01:02:40,960

thought process behind that like you

1648

01:02:44,710 --> 01:02:43,119

develop something

1649

01:02:46,470 --> 01:02:44,720

that like

1650

01:02:48,710 --> 01:02:46,480

i don't know like who thought it was who

1651
01:02:50,870 --> 01:02:48,720
thought it was a good idea for one and

1652
01:02:52,789 --> 01:02:50,880
then two maybe way off base and they're

1653
01:02:54,309 --> 01:02:52,799
just like you know i don't care

1654
01:02:56,390 --> 01:02:54,319
something's not a problem until it's a

1655
01:02:58,549 --> 01:02:56,400
problem when it comes to industry

1656
01:02:59,990 --> 01:02:58,559
and this was a very very effective

1657
01:03:02,630 --> 01:03:00,000
pesticide

1658
01:03:05,670 --> 01:03:02,640
and so farmers would spray this [h__\h] all

1659
01:03:08,069 --> 01:03:05,680
over their crops and over years of it

1660
01:03:09,349 --> 01:03:08,079
being put into the ground water

1661
01:03:12,470 --> 01:03:09,359
it was like

1662
01:03:13,430 --> 01:03:12,480
just destroying the large bird species

1663
01:03:20,309 --> 01:03:13,440

it was

1664

01:03:24,630 --> 01:03:22,950

that it's yeah i mean

1665

01:03:26,309 --> 01:03:24,640

oh yeah that's that's not new research

1666

01:03:28,069 --> 01:03:26,319

about mushroom languages they've always

1667

01:03:29,670 --> 01:03:28,079

kind of thought that they have a hive

1668

01:03:31,829 --> 01:03:29,680

mushroom language but and it's only

1669

01:03:34,150 --> 01:03:31,839

certain ones but yeah that's super

1670

01:03:36,950 --> 01:03:34,160

interesting and it reminds me of the uh

1671

01:03:39,029 --> 01:03:36,960

the uh that what is it the spore drive

1672

01:03:41,109 --> 01:03:39,039

off of star trek

1673

01:03:43,750 --> 01:03:41,119

yeah dude

1674

01:03:45,910 --> 01:03:43,760

uh i'm guessing that that that was

1675

01:03:48,789 --> 01:03:45,920

incited by that that theory uh the

1676

01:03:51,029 --> 01:03:48,799

mushroom language yeah yeah absolutely

1677

01:03:53,349 --> 01:03:51,039

the whole language man it absolutely

1678

01:03:55,910 --> 01:03:53,359

communicates think about that that next

1679

01:03:58,470 --> 01:03:55,920

time you're killing them there joe

1680

01:04:01,029 --> 01:03:58,480

i don't kill mushrooms dude i eat if i

1681

01:04:03,270 --> 01:04:01,039

eat them you do i like i let them grow

1682

01:04:04,950 --> 01:04:03,280

to full maturity

1683

01:04:06,789 --> 01:04:04,960

and then you eat them and then i eat

1684

01:04:08,950 --> 01:04:06,799

them you know

1685

01:04:11,829 --> 01:04:08,960

and they're happy to hang out with us

1686

01:04:12,710 --> 01:04:11,839

yeah they're doing their job right you

1687

01:04:14,789 --> 01:04:12,720

know

1688

01:04:16,549 --> 01:04:14,799

they're not going anywhere

1689

01:04:19,750 --> 01:04:16,559

everybody's killing me by talking to mr

1690

01:04:21,589 --> 01:04:19,760

gray in chat because uh my old samsung

1691

01:04:25,270 --> 01:04:21,599

phone uh

1692

01:04:27,510 --> 01:04:25,280

auto corrected my name to gray

1693

01:04:29,510 --> 01:04:27,520

so i just left it like that so like you

1694

01:04:33,270 --> 01:04:29,520

get my truck and my you know my phone

1695

01:04:34,950 --> 01:04:33,280

connect to my truck and it'd say mr gray

1696

01:04:36,710 --> 01:04:34,960

that's kind of dope though mr gray is

1697

01:04:38,950 --> 01:04:36,720

connected this is why i just left it

1698

01:04:41,029 --> 01:04:38,960

that way does it say like mr gray

1699

01:04:42,870 --> 01:04:41,039

welcome to your car

1700

01:04:45,990 --> 01:04:42,880

no but i do have an english chick as my

1701

01:04:49,670 --> 01:04:46,000

uh my my the the voice on my uh is it

1702

01:04:52,950 --> 01:04:51,270

it's like a really annoying i think it's

1703

01:04:54,950 --> 01:04:52,960

crazy because it's like

1704

01:05:02,230 --> 01:04:54,960

you know 200 feet until you go into the

1705

01:05:07,349 --> 01:05:04,470

i had a cookie monster as mine

1706

01:05:08,950 --> 01:05:07,359

oh awesome yeah yeah

1707

01:05:10,950 --> 01:05:08,960

it was awesome dude just listen to the

1708

01:05:12,950 --> 01:05:10,960

cookie monster tell you what to do this

1709

01:05:14,870 --> 01:05:12,960

is great man

1710

01:05:17,349 --> 01:05:14,880

he is returned right now you dumb

1711

01:05:20,230 --> 01:05:17,359

bastard

1712

01:05:22,710 --> 01:05:20,240

give me a cookie cookies he would always

1713

01:05:25,670 --> 01:05:22,720

say that cookies want me

1714

01:05:27,510 --> 01:05:25,680

cookie up ahead oh no that police

1715

01:05:31,270 --> 01:05:27,520

officer

1716

01:05:36,470 --> 01:05:33,589

and then and then waves just like sucked

1717

01:05:37,829 --> 01:05:36,480

so i stopped using it

1718

01:05:39,430 --> 01:05:37,839

that was the only reason i used it

1719

01:05:42,150 --> 01:05:39,440

because they had a cookie monster

1720

01:05:44,069 --> 01:05:42,160

filter that you could use that was it

1721

01:05:45,750 --> 01:05:44,079

uh he's got one last question he says if

1722

01:05:47,589 --> 01:05:45,760

others wanted to take similar efforts to

1723

01:05:49,190 --> 01:05:47,599

capture uap data what sensors or

1724

01:05:52,549 --> 01:05:49,200

equipment would you feel

1725

01:05:53,829 --> 01:05:52,559

uh gives you the best data uh so far uh

1726

01:05:56,150 --> 01:05:53,839

what you want to do is try to have

1727

01:05:57,750 --> 01:05:56,160

collaborative data over you know so

1728

01:05:59,910 --> 01:05:57,760

that's like that's the approach that

1729

01:06:02,309 --> 01:05:59,920

we're kind of taking because

1730

01:06:03,670 --> 01:06:02,319

you can take a picture of something and

1731

01:06:04,710 --> 01:06:03,680

we can get the

1732

01:06:08,150 --> 01:06:04,720

best

1733

01:06:09,190 --> 01:06:08,160

uh 12k high-resolution picture of a ufo

1734

01:06:10,549 --> 01:06:09,200

and

1735

01:06:11,589 --> 01:06:10,559

a hundred percent of people will say

1736

01:06:13,750 --> 01:06:11,599

it's fake

1737

01:06:17,990 --> 01:06:13,760

but if we get a high resolution picture

1738

01:06:19,430 --> 01:06:18,000

of a ufo with a standard camera uh flir

1739

01:06:21,190 --> 01:06:19,440

a flea camera

1740

01:06:22,150 --> 01:06:21,200

and you're going to want to use a long

1741

01:06:24,150 --> 01:06:22,160

wave

1742

01:06:25,990 --> 01:06:24,160

flare camera

1743

01:06:28,870 --> 01:06:26,000

because you're going to see they

1744

01:06:30,549 --> 01:06:28,880

just for basics on flair you got short

1745

01:06:32,870 --> 01:06:30,559

wave medium wave and long wave if you

1746

01:06:33,829 --> 01:06:32,880

want a long wave flare camera

1747

01:06:35,109 --> 01:06:33,839

um

1748

01:06:37,829 --> 01:06:35,119

especially because if you're gonna and

1749

01:06:39,109 --> 01:06:37,839

you want like about a 45 degree

1750

01:06:40,549 --> 01:06:39,119

field of view

1751

01:06:41,910 --> 01:06:40,559

and you know

1752

01:06:44,789 --> 01:06:41,920

pointing at the sky and hope you see

1753

01:06:47,109 --> 01:06:44,799

something but uh

1754

01:06:49,349 --> 01:06:47,119

the uh and then something to

1755

01:06:51,510 --> 01:06:49,359

like uh like a cosmic watch or something

1756

01:06:53,990 --> 01:06:51,520

for radiation detection

1757

01:06:55,510 --> 01:06:54,000

um and you could probably build one for

1758

01:06:56,950 --> 01:06:55,520

i mean once you get all the parts which

1759

01:06:57,829 --> 01:06:56,960

is gonna be hard

1760

01:06:59,510 --> 01:06:57,839

um

1761

01:07:01,990 --> 01:06:59,520

but once you get all the parts you can

1762

01:07:02,789 --> 01:07:02,000

build a cosmic watch for probably about

1763

01:07:05,109 --> 01:07:02,799

uh

1764

01:07:07,670 --> 01:07:05,119

about a buck 50 with inflation

1765

01:07:09,589 --> 01:07:07,680

so it's not a crazy amount of money but

1766

01:07:12,230 --> 01:07:09,599

you do need to learn know how to surface

1767

01:07:13,190 --> 01:07:12,240

mount our surface surface mount solder

1768

01:07:14,390 --> 01:07:13,200

and

1769

01:07:16,390 --> 01:07:14,400

you know

1770

01:07:18,230 --> 01:07:16,400

it's not hard but

1771

01:07:23,029 --> 01:07:18,240

you you could make sure you got a couple

1772

01:07:27,109 --> 01:07:24,470

that's great

1773

01:07:29,990 --> 01:07:27,119

matter of fact i've got

1774

01:07:32,789 --> 01:07:30,000

uh 10 pcb boards right here for cosmic

1775

01:07:36,789 --> 01:07:32,799

watches what does that mean what is that

1776

01:07:40,950 --> 01:07:38,710

those are just the the the circuit

1777

01:07:43,029 --> 01:07:40,960

boards for the cosmic watches

1778

01:07:44,950 --> 01:07:43,039

and then i've got a

1779

01:07:47,029 --> 01:07:44,960

whole brick of scintillator material

1780

01:07:49,190 --> 01:07:47,039

right here i got from one of my science

1781

01:07:52,549 --> 01:07:49,200

one of our scientists

1782

01:07:54,950 --> 01:07:52,559

that's awesome and it tracks radiation

1783

01:07:57,270 --> 01:07:54,960

um it detects it detects radiation

1784

01:07:59,190 --> 01:07:57,280

radiation

1785

01:08:00,470 --> 01:07:59,200

what do you do if you wake up like in

1786

01:08:02,230 --> 01:08:00,480

the middle of the night and you and you

1787

01:08:03,510 --> 01:08:02,240

hear some like beeping from those

1788

01:08:04,710 --> 01:08:03,520

devices

1789

01:08:06,630 --> 01:08:04,720

like well i would freak out since i

1790

01:08:09,510 --> 01:08:06,640

don't leave them on

1791

01:08:12,950 --> 01:08:10,870

yeah no

1792

01:08:14,630 --> 01:08:12,960

i i generally the only thing is i leave

1793

01:08:16,229 --> 01:08:14,640

on at night is my computer i don't

1794

01:08:18,070 --> 01:08:16,239

really have any type of research going

1795

01:08:20,789 --> 01:08:18,080

on at my house

1796

01:08:21,749 --> 01:08:20,799

um i don't have time when i'm here uh

1797

01:08:25,189 --> 01:08:21,759

between

1798

01:08:27,510 --> 01:08:25,199

i'm a stay-at-home dad and

1799

01:08:32,309 --> 01:08:27,520

you can't actually purchase a cosmic

1800

01:08:36,229 --> 01:08:32,319

watch but you can go onto youtube and

1801

01:08:37,430 --> 01:08:36,239

do a search for mit muon detector

1802

01:08:39,110 --> 01:08:37,440

and

1803

01:08:41,030 --> 01:08:39,120

then you'll be able to there's like a

1804

01:08:43,829 --> 01:08:41,040

whole tutorial they go through it part

1805

01:08:46,149 --> 01:08:43,839

by part it's uh point by point

1806

01:08:47,749 --> 01:08:46,159

um the guy's got a whole series of how

1807

01:08:49,910 --> 01:08:47,759

to build one and what material and then

1808

01:08:51,189 --> 01:08:49,920

he's got a github

1809

01:08:53,110 --> 01:08:51,199

for

1810

01:08:54,630 --> 01:08:53,120

uh the because like you have to have

1811

01:08:56,390 --> 01:08:54,640

like these

1812

01:08:58,550 --> 01:08:56,400

you can you barely see it because it's

1813

01:09:00,550 --> 01:08:58,560

transparent but these cust these custom

1814

01:09:03,110 --> 01:09:00,560

ends and stuff like that and all the all

1815

01:09:04,709 --> 01:09:03,120

the schematics for the different cages

1816

01:09:07,990 --> 01:09:04,719

yeah there you go

1817

01:09:09,990 --> 01:09:08,000

and uh from there you can

1818

01:09:12,149 --> 01:09:10,000

and this the same the same same the guy

1819

01:09:13,990 --> 01:09:12,159

that came up with it from mit has got a

1820

01:09:15,829 --> 01:09:14,000

whole thing on

1821

01:09:18,950 --> 01:09:15,839

is it

1822

01:09:21,189 --> 01:09:18,960

i was gonna say like isn't muon's uh

1823

01:09:23,510 --> 01:09:21,199

that's kind of the high energy park

1824

01:09:25,349 --> 01:09:23,520

high energy particles yeah it was used

1825

01:09:27,349 --> 01:09:25,359

to map the uh

1826

01:09:28,870 --> 01:09:27,359

the king's chamber the the the area

1827

01:09:30,630 --> 01:09:28,880

above the king's chamber that's how they

1828

01:09:32,390 --> 01:09:30,640

know that they're in the pyramids and in

1829

01:09:33,669 --> 01:09:32,400

the group i'm not sure

1830

01:09:36,470 --> 01:09:33,679

i'd have to read it again i don't want

1831

01:09:37,349 --> 01:09:36,480

to talk about something i don't really

1832

01:09:40,309 --> 01:09:37,359

know

1833

01:09:44,550 --> 01:09:42,390

i'm pretty sure it's like

1834

01:09:46,149 --> 01:09:44,560

these giant plates of muon detectors and

1835

01:09:48,789 --> 01:09:46,159

that's how they figured out that this

1836

01:09:50,229 --> 01:09:48,799

there's like this chamber above the the

1837

01:09:52,870 --> 01:09:50,239

king's chamber

1838

01:09:53,829 --> 01:09:52,880

uh in the great pyramid of giza and

1839

01:09:55,350 --> 01:09:53,839

everybody's saying like oh there's

1840

01:09:56,950 --> 01:09:55,360

nothing up there for for hundreds of

1841

01:09:58,790 --> 01:09:56,960

years oh there's nothing we've explored

1842

01:10:00,790 --> 01:09:58,800

everything there is and the great no

1843

01:10:02,870 --> 01:10:00,800

there's a lot of hollow voids in in the

1844

01:10:04,390 --> 01:10:02,880

pyramid and they also found out that

1845

01:10:05,750 --> 01:10:04,400

there's a bunch of voids inside the

1846

01:10:07,750 --> 01:10:05,760

sphinx too

1847

01:10:09,590 --> 01:10:07,760

i tell you built it so fast dude because

1848

01:10:11,669 --> 01:10:09,600

it's not solid you know there's a bunch

1849

01:10:13,750 --> 01:10:11,679

of empty [h__\h] in there you know and they

1850

01:10:17,030 --> 01:10:13,760

were just like that's one theory it's

1851

01:10:18,950 --> 01:10:17,040

not as many blocks as we all think

1852

01:10:20,390 --> 01:10:18,960

it looks impressive

1853

01:10:23,110 --> 01:10:20,400

like everybody's like you you cut and

1854

01:10:24,870 --> 01:10:23,120

pressed how many blocks every second for

1855

01:10:26,229 --> 01:10:24,880

maybe there's not that many blocks like

1856

01:10:27,750 --> 01:10:26,239

there's a bunch of like there's a bunch

1857

01:10:29,350 --> 01:10:27,760

of wood in there just laying against the

1858

01:10:31,510 --> 01:10:29,360

sides and like they ran out so there's

1859

01:10:32,870 --> 01:10:31,520

like a broom at the very top like it's

1860

01:10:35,830 --> 01:10:32,880

like just holding it up it's like

1861

01:10:38,550 --> 01:10:35,840

painted like a like a a cartoon

1862

01:10:40,790 --> 01:10:38,560

like a wily coyote car cartoon like on

1863

01:10:42,709 --> 01:10:40,800

the inside it's like all the good

1864

01:10:44,630 --> 01:10:42,719

there's like there's a gum

1865

01:10:46,149 --> 01:10:44,640

in the creases

1866

01:10:47,110 --> 01:10:46,159

no we got we got another question that

1867

01:10:49,350 --> 01:10:47,120

came in

1868

01:10:50,630 --> 01:10:49,360

uh question for gary hypothetical

1869

01:10:52,550 --> 01:10:50,640

scenario

1870

01:10:53,910 --> 01:10:52,560

the x-rays are coming the x-rays are

1871

01:10:56,550 --> 01:10:53,920

coming in hot

1872

01:10:58,709 --> 01:10:56,560

do you reach for a chainsaw or a shotgun

1873

01:11:00,149 --> 01:10:58,719

well if they're x-rays i would probably

1874

01:11:04,630 --> 01:11:00,159

reach for the chainsaw because it has a

1875

01:11:06,310 --> 01:11:04,640

larger surface area to reflect x-rays

1876

01:11:10,229 --> 01:11:06,320

yeah smart

1877

01:11:12,790 --> 01:11:10,239

it's smart it's not going to completely

1878

01:11:13,990 --> 01:11:12,800

save me but it's a little bit denser

1879

01:11:15,590 --> 01:11:14,000

material than

1880

01:11:17,910 --> 01:11:15,600

the shotgun

1881

01:11:19,590 --> 01:11:17,920

oh that was another one oh hypothetical

1882

01:11:21,189 --> 01:11:19,600

let's see uh

1883

01:11:22,950 --> 01:11:21,199

sorry i missed the clouds looking for

1884

01:11:26,470 --> 01:11:22,960

that entire time wait something about

1885

01:11:29,750 --> 01:11:26,480

something about a chainsaw or a shotgun

1886

01:11:32,390 --> 01:11:29,760

oh aliens aliens uh i get a feeling if

1887

01:11:34,550 --> 01:11:32,400

they come you don't have a choice um

1888

01:11:36,870 --> 01:11:34,560

that's why uh that's why i'm not a real

1889

01:11:37,830 --> 01:11:36,880

big fan of uh

1890

01:11:40,470 --> 01:11:37,840

the whole

1891

01:11:41,910 --> 01:11:40,480

abduction situation because if it's true

1892

01:11:43,830 --> 01:11:41,920

i mean these people are literally ripped

1893

01:11:46,070 --> 01:11:43,840

from their lives with

1894

01:11:48,630 --> 01:11:46,080

zero i mean who's in their right mind is

1895

01:11:50,310 --> 01:11:48,640

going to be like yeah you know um

1896

01:11:52,149 --> 01:11:50,320

i'm free tuesday night if you want to

1897

01:11:53,510 --> 01:11:52,159

beam me up cut me apart put me back

1898

01:11:55,350 --> 01:11:53,520

together and then put me back into my

1899

01:11:57,830 --> 01:11:55,360

house and you know make me think i'm

1900

01:11:59,990 --> 01:11:57,840

crazy yeah i'm good with that

1901

01:12:02,070 --> 01:12:00,000

you know and i mean

1902

01:12:03,990 --> 01:12:02,080

yeah i don't know [\h__\h] i'm not

1903

01:12:07,590 --> 01:12:04,000

good with that

1904

01:12:10,310 --> 01:12:07,600

i i'm busy tuesday

1905

01:12:14,550 --> 01:12:10,320

actually my schedule is very full and

1906

01:12:17,030 --> 01:12:14,560

i'm really i'm real skeptical on like

1907

01:12:18,950 --> 01:12:17,040

some of some of some of the aspects of

1908

01:12:20,470 --> 01:12:18,960

the experience there's

1909

01:12:21,910 --> 01:12:20,480

um

1910

01:12:23,430 --> 01:12:21,920

and i'll be honest the only reason i'm

1911

01:12:24,310 --> 01:12:23,440

skeptical is because it's never happened

1912

01:12:26,149 --> 01:12:24,320

to me

1913

01:12:27,590 --> 01:12:26,159

and and you know it's like a lot of

1914

01:12:29,669 --> 01:12:27,600

people want to dance around these

1915

01:12:32,709 --> 01:12:29,679

[h__h] things like oh you know they're

1916

01:12:34,870 --> 01:12:32,719

all [h__h] insane or or they're all

1917

01:12:36,229 --> 01:12:34,880

they're all survivors and you know it's

1918

01:12:38,550 --> 01:12:36,239

like it seems like everybody has to be

1919

01:12:41,270 --> 01:12:38,560

on one side or the other

1920

01:12:44,149 --> 01:12:41,280

i've never experienced it

1921

01:12:46,470 --> 01:12:44,159

although before 2004 i never experienced

1922

01:12:47,990 --> 01:12:46,480

anything anomalous period other than a

1923

01:12:49,510 --> 01:12:48,000

couple of weird things that could

1924

01:12:50,790 --> 01:12:49,520

possibly be explained away by other

1925

01:12:53,990 --> 01:12:50,800

things

1926

01:12:56,229 --> 01:12:54,000

um but yeah i reserve the right to

1927

01:12:58,790 --> 01:12:56,239

change my mind at any given point based

1928

01:13:01,030 --> 01:12:58,800

off of information that i receive and

1929

01:13:02,630 --> 01:13:01,040

experiences that i have

1930

01:13:04,310 --> 01:13:02,640

so

1931

01:13:07,270 --> 01:13:04,320

although i do believe that there is a

1932

01:13:09,590 --> 01:13:07,280

good percentage of of uh mental illness

1933

01:13:12,470 --> 01:13:09,600

uh being at play

1934

01:13:15,189 --> 01:13:12,480

but who's to say it's not caused by

1935

01:13:16,070 --> 01:13:15,199

exactly what they're talking about

1936

01:13:21,669 --> 01:13:16,080

so

1937

01:13:23,270 --> 01:13:21,679

to be sympathetic to the situation like

1938

01:13:25,669 --> 01:13:23,280

even if somebody's mentally sick why

1939

01:13:26,390 --> 01:13:25,679

would i want to make fun of them

1940

01:13:27,990 --> 01:13:26,400

yeah

1941

01:13:29,430 --> 01:13:28,000

you know absolutely

1942

01:13:31,030 --> 01:13:29,440

so whether they're telling the truth or

1943

01:13:32,070 --> 01:13:31,040

not there's no point in making fun of

1944

01:13:33,669 --> 01:13:32,080

them because it's really not going to

1945

01:13:36,229 --> 01:13:33,679

help the situation

1946

01:13:40,870 --> 01:13:36,239

yeah um you know like me and melinda

1947

01:13:45,110 --> 01:13:43,110

but i love her to death and you know we

1948

01:13:47,270 --> 01:13:45,120

can we can we can have conversations for

1949

01:13:49,590 --> 01:13:47,280

hours about things and never agree on

1950

01:13:52,310 --> 01:13:49,600

anything and still be great friends yeah

1951

01:13:55,030 --> 01:13:52,320

so you know and then let's see

1952

01:13:57,510 --> 01:13:55,040

uh if you don't do ce5 and there were no

1953

01:13:58,830 --> 01:13:57,520

nuclear assets drawing the phenomena do

1954

01:14:02,470 --> 01:13:58,840

you think it's

1955

01:14:05,510 --> 01:14:02,480

wild neutral filming captured data

1956

01:14:07,590 --> 01:14:05,520

no dude uh i mean you have nuclear

1957

01:14:09,510 --> 01:14:07,600

reactors floating around

1958

01:14:11,910 --> 01:14:09,520

all over there i mean you got

1959

01:14:14,149 --> 01:14:11,920

carriers you've got

1960

01:14:15,430 --> 01:14:14,159

submarines nuclear submarines running

1961

01:14:16,390 --> 01:14:15,440

around that you don't even know they're

1962

01:14:17,830 --> 01:14:16,400

there

1963

01:14:19,510 --> 01:14:17,840

um you know

1964

01:14:22,709 --> 01:14:19,520

you've got a nuclear power plant in san

1965

01:14:23,750 --> 01:14:22,719

diego uh you've got long beach uh you

1966

01:14:26,630 --> 01:14:23,760

mean

1967

01:14:29,990 --> 01:14:26,640

there's nuclear assets all over there

1968

01:14:32,870 --> 01:14:30,000

we also we also blow up

1969

01:14:35,750 --> 01:14:32,880

the guadalupe or uh the island to the

1970

01:14:37,510 --> 01:14:35,760

left of catalina island all the time we

1971

01:14:40,070 --> 01:14:37,520

literally shell the crap out of that

1972

01:14:42,630 --> 01:14:40,080

island with our five inch 54s all the

1973

01:14:45,030 --> 01:14:42,640

time and we use uh ordinance and i know

1974

01:14:48,229 --> 01:14:45,040

the seals do underwater demo practice

1975

01:14:50,229 --> 01:14:48,239

over there you know so i mean

1976

01:14:51,910 --> 01:14:50,239

there's so much [h__h] that happens over

1977

01:14:53,430 --> 01:14:51,920

there i mean and then of course one of

1978

01:14:55,189 --> 01:14:53,440

the big biggest

1979

01:14:57,910 --> 01:14:55,199

uh ecological

1980

01:14:59,270 --> 01:14:57,920

uh problems with the the ddt that was

1981

01:15:00,390 --> 01:14:59,280

spilt over there

1982

01:15:02,229 --> 01:15:00,400

you know

1983

01:15:04,470 --> 01:15:02,239

there's so much [h__h] going on there i'm

1984

01:15:05,830 --> 01:15:04,480

not surprised there's stuff going on

1985

01:15:07,590 --> 01:15:05,840

they're probably just like wow look at

1986

01:15:09,750 --> 01:15:07,600

this [h__h] show

1987

01:15:11,430 --> 01:15:09,760

yeah seriously

1988

01:15:13,750 --> 01:15:11,440

seriously like they just came here and

1989

01:15:15,030 --> 01:15:13,760

just took a [h__h] in our front lawn uh

1990

01:15:16,470 --> 01:15:15,040

they should probably think of us like

1991

01:15:17,669 --> 01:15:16,480

they think of the neighbor's dog you

1992

01:15:19,270 --> 01:15:17,679

know

1993

01:15:20,709 --> 01:15:19,280

it's like easy thing it's like some

1994

01:15:22,950 --> 01:15:20,719

godzilla [h__h] like that's where he's

1995

01:15:24,390 --> 01:15:22,960

gonna come from yeah

1996

01:15:26,390 --> 01:15:24,400

yeah if you want to ask me questions in

1997

01:15:28,310 --> 01:15:26,400

the chat just be consistent just keep

1998

01:15:30,310 --> 01:15:28,320

keep posting them like crazy and then

1999

01:15:31,270 --> 01:15:30,320

i'll see them

2000

01:15:34,790 --> 01:15:31,280

well

2001
01:15:36,470 --> 01:15:34,800
capitals helps too while we wait uh i uh

2002
01:15:39,030 --> 01:15:36,480
earlier you were talking about the

2003
01:15:41,669 --> 01:15:39,040
different types of uh

2004
01:15:43,750 --> 01:15:41,679
uh radar detection and something was

2005
01:15:46,070 --> 01:15:43,760
like long wave

2006
01:15:47,189 --> 01:15:46,080
okay so that was the uh infrared the

2007
01:15:50,310 --> 01:15:47,199
flare

2008
01:15:51,830 --> 01:15:50,320
the product

2009
01:15:53,990 --> 01:15:51,840
um

2010
01:15:55,110 --> 01:15:54,000
if it's if it's a higher end something

2011
01:15:56,950 --> 01:15:55,120
it'll tell you

2012
01:15:59,750 --> 01:15:56,960
the wavelength and or how many

2013
01:16:01,830 --> 01:15:59,760

nanometers the wavelengths are uh and in

2014

01:16:04,229 --> 01:16:01,840

general if you don't understand anything

2015

01:16:06,630 --> 01:16:04,239

about a flare you understand

2016

01:16:09,030 --> 01:16:06,640

shortwave medium wave and long wave and

2017

01:16:10,310 --> 01:16:09,040

what that means is the actual wavelength

2018

01:16:11,110 --> 01:16:10,320

of

2019

01:16:13,430 --> 01:16:11,120

the

2020

01:16:16,630 --> 01:16:13,440

spectrum of

2021

01:16:17,750 --> 01:16:16,640

light that it uses to do what it does

2022

01:16:20,550 --> 01:16:17,760

and so

2023

01:16:23,910 --> 01:16:20,560

longwave will actually be able to see a

2024

01:16:25,990 --> 01:16:23,920

better distance at better at distance

2025

01:16:27,990 --> 01:16:26,000

okay that makes sense but there is no

2026

01:16:30,390 --> 01:16:28,000

action don't ever ask somebody what the

2027

01:16:32,149 --> 01:16:30,400

range of flare is

2028

01:16:35,110 --> 01:16:32,159

it's the resolution

2029

01:16:36,870 --> 01:16:35,120

nuts

2030

01:16:39,350 --> 01:16:36,880

so it's like dialing in a clearer

2031

01:16:41,030 --> 01:16:39,360

picture of something yeah yeah

2032

01:16:43,110 --> 01:16:41,040

range i mean basically either you can

2033

01:16:44,470 --> 01:16:43,120

see it or you can't

2034

01:16:47,189 --> 01:16:44,480

that's rage

2035

01:16:49,830 --> 01:16:47,199

yeah so so what range do you think was

2036

01:16:52,310 --> 01:16:49,840

uh you know that the famous uh

2037

01:16:53,830 --> 01:16:52,320

gimbal video like do we know not a clue

2038

01:16:55,830 --> 01:16:53,840

i don't know enough about that to really

2039

01:16:58,310 --> 01:16:55,840

talk intelligently yeah you gotta

2040

01:17:00,630 --> 01:16:58,320

remember i i there's so much stuff i

2041

01:17:02,950 --> 01:17:00,640

just don't know about this field i mean

2042

01:17:05,189 --> 01:17:02,960

you guys probably know about a million

2043

01:17:07,430 --> 01:17:05,199

times more about a lot of these cases

2044

01:17:09,110 --> 01:17:07,440

that have happened throughout history i

2045

01:17:11,430 --> 01:17:09,120

mean i've probably seen every

2046

01:17:13,350 --> 01:17:11,440

documentary about it but that's you know

2047

01:17:15,590 --> 01:17:13,360

information and information out you

2048

01:17:18,070 --> 01:17:15,600

retain a little bit just to know i i've

2049

01:17:19,430 --> 01:17:18,080

heard that yeah yeah yeah there you go

2050

01:17:20,790 --> 01:17:19,440

there's there's my database and

2051

01:17:23,189 --> 01:17:20,800

knowledge for you

2052

01:17:25,590 --> 01:17:23,199

it's a lot dude i mean it's a lot

2053

01:17:28,310 --> 01:17:25,600

it's a lot i i operate the same thing

2054

01:17:30,229 --> 01:17:28,320

any time my confirmation bias gets gets

2055

01:17:33,430 --> 01:17:30,239

stroked i'm like okay well i'm right on

2056

01:17:34,790 --> 01:17:33,440

that and i never write anything down

2057

01:17:36,229 --> 01:17:34,800

it's just like when we we found some

2058

01:17:38,550 --> 01:17:36,239

stuff that was like oh my god look at

2059

01:17:41,030 --> 01:17:38,560

this this is crazy and then i'm like

2060

01:17:42,470 --> 01:17:41,040

you know like well let's you know let's

2061

01:17:43,590 --> 01:17:42,480

reserve this for

2062

01:17:46,550 --> 01:17:43,600

something and then you know somebody

2063

01:17:48,470 --> 01:17:46,560

will come in and say oh no that's just

2064

01:17:49,910 --> 01:17:48,480

and then we do the research on like oh

2065

01:17:52,070 --> 01:17:49,920

all right and then we just move on we

2066

01:17:54,310 --> 01:17:52,080

don't care we we we're actively

2067

01:17:56,630 --> 01:17:54,320

disproving

2068

01:17:58,870 --> 01:17:56,640

half the [h__\h] we saw as we speak

2069

01:18:02,070 --> 01:17:58,880

which is why it takes so long to do true

2070

01:18:03,990 --> 01:18:02,080

vetting of all of this data yeah

2071

01:18:05,350 --> 01:18:04,000

you know you know what i i appreciate

2072

01:18:07,910 --> 01:18:05,360

about you gary and i mean we've known

2073

01:18:09,910 --> 01:18:07,920

each other for like a few years now and

2074

01:18:12,149 --> 01:18:09,920

uh you know like you're like one of the

2075

01:18:13,669 --> 01:18:12,159

first guests on our podcast like very

2076

01:18:16,470 --> 01:18:13,679

early on and

2077

01:18:18,229 --> 01:18:16,480

one of my favorite episodes with you and

2078

01:18:19,669 --> 01:18:18,239

when we talked about some of your ideas

2079

01:18:20,870 --> 01:18:19,679

when you're just getting going with

2080

01:18:21,910 --> 01:18:20,880

these ideas

2081

01:18:23,830 --> 01:18:21,920

about

2082

01:18:26,070 --> 01:18:23,840

what it could be and i just love talking

2083

01:18:29,910 --> 01:18:26,080

about what could bees and it seems like

2084

01:18:33,430 --> 01:18:31,590

you're no longer

2085

01:18:35,110 --> 01:18:33,440

looking for those what could be you're

2086

01:18:37,750 --> 01:18:35,120

like more focused on all right dudes

2087

01:18:40,870 --> 01:18:37,760

like what can we prove well we have data

2088

01:18:43,189 --> 01:18:40,880

to search there now so it's it's a

2089

01:18:45,830 --> 01:18:43,199

matter of finding the what what it could

2090

01:18:48,470 --> 01:18:45,840

be yeah you know um no i still think

2091

01:18:49,990 --> 01:18:48,480

about it man i still got like i think 27

2092

01:18:52,350 --> 01:18:50,000

active theories and what the what the

2093

01:18:54,070 --> 01:18:52,360

what the tic tacs could have been

2094

01:18:57,110 --> 01:18:54,080

yeah

2095

01:18:59,030 --> 01:18:57,120

one of my favorite ones is is uh an idea

2096

01:19:01,110 --> 01:18:59,040

that you posed that like kind of changed

2097

01:19:03,350 --> 01:19:01,120

my whole trajectory of how i looked at

2098

01:19:05,030 --> 01:19:03,360

it like i'm i'm just being honest dude

2099

01:19:07,110 --> 01:19:05,040

is that you

2100

01:19:09,350 --> 01:19:07,120

yeah it like kind of cracked open my

2101
01:19:11,270 --> 01:19:09,360
skull thinking about it is that it maybe

2102
01:19:13,510 --> 01:19:11,280
this is a possibly a technology that's

2103
01:19:15,669 --> 01:19:13,520
been here for a really long time yeah

2104
01:19:17,830 --> 01:19:15,679
and it's just it's like a like a drone

2105
01:19:20,070 --> 01:19:17,840
of some sort that was left behind it's

2106
01:19:21,830 --> 01:19:20,080
autopilot yeah and it's doing its job

2107
01:19:23,750 --> 01:19:21,840
and like no one's controlling it maybe

2108
01:19:25,750 --> 01:19:23,760
that species long gone maybe that they

2109
01:19:27,750 --> 01:19:25,760
left at some point well they could have

2110
01:19:29,990 --> 01:19:27,760
died out they might have left they might

2111
01:19:32,709 --> 01:19:30,000
have just sent this [h__h] here because

2112
01:19:35,510 --> 01:19:32,719
they they detected life on this planet

2113
01:19:38,470 --> 01:19:35,520

you know or they could have you know

2114

01:19:40,550 --> 01:19:38,480

realized that the the materials for life

2115

01:19:42,470 --> 01:19:40,560

were already here and they're going to

2116

01:19:43,750 --> 01:19:42,480

monitor how

2117

01:19:45,990 --> 01:19:43,760

they developed

2118

01:19:47,750 --> 01:19:46,000

um you know i think form versus function

2119

01:19:49,030 --> 01:19:47,760

when it comes to these ufos because it

2120

01:19:51,430 --> 01:19:49,040

seems like

2121

01:19:54,229 --> 01:19:51,440

you know what the type of ufo that's

2122

01:19:55,430 --> 01:19:54,239

seen definitely dictates severely the

2123

01:19:58,149 --> 01:19:55,440

story

2124

01:20:00,470 --> 01:19:58,159

you know where most people see tic tacs

2125

01:20:02,870 --> 01:20:00,480

uh you know orbs

2126
01:20:04,390 --> 01:20:02,880
or you know cylinder shaped anything

2127
01:20:06,550 --> 01:20:04,400
generally

2128
01:20:08,070 --> 01:20:06,560
they don't really get a nasty vibe off

2129
01:20:09,430 --> 01:20:08,080
of those things they usually just get

2130
01:20:11,990 --> 01:20:09,440
kind of like a

2131
01:20:13,990 --> 01:20:12,000
neutral vibe off of them which could

2132
01:20:16,310 --> 01:20:14,000
indicate that you know

2133
01:20:18,550 --> 01:20:16,320
these are just either ai constructs

2134
01:20:19,990 --> 01:20:18,560
doing a single-minded purpose like our

2135
01:20:22,790 --> 01:20:20,000
satellites do

2136
01:20:24,470 --> 01:20:22,800
or like our mars rover does you know and

2137
01:20:26,390 --> 01:20:24,480
it's just the only difference is it's

2138
01:20:28,629 --> 01:20:26,400

you know a million times more advanced

2139

01:20:30,149 --> 01:20:28,639

than ours and can self-repair itself for

2140

01:20:31,990 --> 01:20:30,159

the next million years

2141

01:20:33,990 --> 01:20:32,000

you know it's just receiving

2142

01:20:35,830 --> 01:20:34,000

intergalactic updates and just 3d

2143

01:20:39,189 --> 01:20:35,840

printing itself new bodies every you

2144

01:20:42,229 --> 01:20:39,199

know 100 years or maybe it's like half

2145

01:20:44,790 --> 01:20:42,239

mechanical half biology so

2146

01:20:46,790 --> 01:20:44,800

i actually just got a theory about uh

2147

01:20:48,870 --> 01:20:46,800

some of these meta materials uh because

2148

01:20:51,110 --> 01:20:48,880

like uh so i had received a report about

2149

01:20:53,510 --> 01:20:51,120

a meta material that had like organic

2150

01:20:56,390 --> 01:20:53,520

material doped into it what happens if

2151
01:20:58,950 --> 01:20:56,400
that's like the burnt out neuro the uh

2152
01:21:00,390 --> 01:20:58,960
neural neurons of a creature that was

2153
01:21:03,270 --> 01:21:00,400
like embedded in

2154
01:21:04,709 --> 01:21:03,280
to it and because of how fast that it

2155
01:21:07,430 --> 01:21:04,719
has to react

2156
01:21:08,950 --> 01:21:07,440
in like making a hyperspace bubble or

2157
01:21:12,390 --> 01:21:08,960
doing something like that it has to have

2158
01:21:15,270 --> 01:21:12,400
like an actual neural network to do that

2159
01:21:16,790 --> 01:21:15,280
to make all the calculations for

2160
01:21:18,629 --> 01:21:16,800
you know the the

2161
01:21:20,149 --> 01:21:18,639
the uh you know

2162
01:21:22,070 --> 01:21:20,159
the how it moves and things like that

2163
01:21:23,750 --> 01:21:22,080

and it has to have all this this neural

2164

01:21:25,669 --> 01:21:23,760

network that stands

2165

01:21:28,790 --> 01:21:25,679

throughout the entire outside shell that

2166

01:21:31,750 --> 01:21:28,800

would be amazing yes dude like a type of

2167

01:21:34,390 --> 01:21:31,760

fungus of some kind oh my gosh

2168

01:21:35,750 --> 01:21:34,400

well it may be yeah i

2169

01:21:39,510 --> 01:21:35,760

remember we were talk we were watching

2170

01:21:41,030 --> 01:21:39,520

that documentary joe yeah the uh fungus

2171

01:21:43,030 --> 01:21:41,040

it's not called fungus among us it's

2172

01:21:46,149 --> 01:21:43,040

kind of something else that's an igbos

2173

01:21:47,350 --> 01:21:46,159

album dude yeah but dude i had this idea

2174

01:21:49,510 --> 01:21:47,360

while i was like

2175

01:21:51,590 --> 01:21:49,520

uh uh you know we were in vegas watching

2176

01:21:53,350 --> 01:21:51,600

this this this documentary i'm like

2177

01:21:55,110 --> 01:21:53,360

sitting just all i could do was sit in

2178

01:21:56,790 --> 01:21:55,120

bed because i had food poisoning all i

2179

01:21:59,590 --> 01:21:56,800

could do is just sit and think about you

2180

01:22:03,030 --> 01:21:59,600

know yeah it's like uh

2181

01:22:04,790 --> 01:22:03,040

but somebody went to the seafood buffet

2182

01:22:06,149 --> 01:22:04,800

i ate sushi off the street okay no one

2183

01:22:09,430 --> 01:22:06,159

told me not to

2184

01:22:11,910 --> 01:22:10,950

it was warm i thought they warmed it up

2185

01:22:13,750 --> 01:22:11,920

it's like it's like that's like a

2186

01:22:16,390 --> 01:22:13,760

chicken salad from a freaking vending

2187

01:22:19,590 --> 01:22:17,830

think man

2188

01:22:20,790 --> 01:22:19,600

so

2189

01:22:24,709 --> 01:22:20,800

there was this guy who's selling

2190

01:22:25,910 --> 01:22:24,719

cheeseburgers i got the number three

2191

01:22:27,750 --> 01:22:25,920

i'll take a look

2192

01:22:30,870 --> 01:22:27,760

if it wasn't moving before i got there

2193

01:22:33,990 --> 01:22:30,880

i'm not gonna eat it as sushi

2194

01:22:37,189 --> 01:22:34,000

hey the only exception is this good uh

2195

01:22:39,510 --> 01:22:37,199

good good good salmon sashimi or a good

2196

01:22:41,270 --> 01:22:39,520

uh yellow fin or blue fin but then again

2197

01:22:42,950 --> 01:22:41,280

you'll see the texture and the way that

2198

01:22:44,470 --> 01:22:42,960

it looks whether it's fresh

2199

01:22:46,149 --> 01:22:44,480

well yeah i didn't have many options

2200

01:22:48,070 --> 01:22:46,159

that we were right there on this yeah i

2201

01:22:49,430 --> 01:22:48,080

was i was i was hungry i had to choose

2202

01:22:51,110 --> 01:22:49,440

someone to hand there was a lot of

2203

01:22:53,750 --> 01:22:51,120

people if you get good sashimi it should

2204

01:22:55,030 --> 01:22:53,760

melt in your mouth and not be fishy yeah

2205

01:22:56,709 --> 01:22:55,040

that's actually true if you get the

2206

01:22:58,709 --> 01:22:56,719

sticky [ʰ__ʰ] that's when you got to worry

2207

01:23:01,990 --> 01:22:58,719

you're like wait a second there's nobody

2208

01:23:05,030 --> 01:23:03,510

wait so hold on wait before you answer

2209

01:23:07,510 --> 01:23:05,040

that one

2210

01:23:10,870 --> 01:23:07,520

is this idea that i thought of like

2211

01:23:12,629 --> 01:23:10,880

if so the japanese subway station was

2212

01:23:15,110 --> 01:23:12,639

kind of mapped out they did this whole

2213

01:23:19,270 --> 01:23:15,120

uh research thing where they they added

2214

01:23:21,990 --> 01:23:19,280

uh protein sources like oats uh to

2215

01:23:24,550 --> 01:23:22,000

map out the most efficient way to build

2216

01:23:27,189 --> 01:23:24,560

the underground subway system subway

2217

01:23:30,390 --> 01:23:27,199

yeah so what if you took that same uh

2218

01:23:33,030 --> 01:23:30,400

biological construct but then uh you

2219

01:23:34,470 --> 01:23:33,040

added some kind of crisper aspect to

2220

01:23:36,390 --> 01:23:34,480

where instead of

2221

01:23:38,790 --> 01:23:36,400

the spongy outer

2222

01:23:41,590 --> 01:23:38,800

texture of whatever the spore or

2223

01:23:45,189 --> 01:23:41,600

mushroom or mold it is instead

2224

01:23:46,950 --> 01:23:45,199

over time it's more carbon mixed with uh

2225

01:23:48,870 --> 01:23:46,960

like iron or something so it hardens

2226

01:23:51,590 --> 01:23:48,880

over time and

2227

01:23:53,430 --> 01:23:51,600

ultimately like calcified calcium thank

2228

01:23:55,590 --> 01:23:53,440

you that's what i'm talking about so

2229

01:23:58,070 --> 01:23:55,600

like it it grows itself and then like

2230

01:24:01,510 --> 01:23:58,080

becomes a very hard structure so in a

2231

01:24:05,590 --> 01:24:03,270

oh

2232

01:24:07,669 --> 01:24:05,600

like that but like an intelligent coral

2233

01:24:09,030 --> 01:24:07,679

like that can that can map out stuff and

2234

01:24:11,590 --> 01:24:09,040

have have a

2235

01:24:13,189 --> 01:24:11,600

like a like a code to fix itself

2236

01:24:15,430 --> 01:24:13,199

you say yeah no yeah that's a great

2237

01:24:17,750 --> 01:24:15,440

point but like there's there's there's

2238

01:24:20,310 --> 01:24:17,760

biologists right now that can like

2239

01:24:22,709 --> 01:24:20,320

change the dna of of small plants to

2240

01:24:24,149 --> 01:24:22,719

make them bioluminescent under like yeah

2241

01:24:25,990 --> 01:24:24,159

that's really cool

2242

01:24:29,669 --> 01:24:26,000

i want some i want some i want some

2243

01:24:33,510 --> 01:24:31,669

was it the uh damn it crisper you can

2244

01:24:35,270 --> 01:24:33,520

make some some glow in the dark goldfish

2245

01:24:36,870 --> 01:24:35,280

dude

2246

01:24:39,830 --> 01:24:36,880

crisper is probably one of the most

2247

01:24:42,550 --> 01:24:39,840

scary and outstanding

2248

01:24:44,229 --> 01:24:42,560

uh inventions of our of our entire

2249

01:24:47,189 --> 01:24:44,239

lifetime

2250

01:24:49,270 --> 01:24:47,199

that technology both

2251
01:24:50,310 --> 01:24:49,280
frightens the hell out of me

2252
01:24:53,270 --> 01:24:50,320
and

2253
01:24:54,950 --> 01:24:53,280
gives me the hope that we could actually

2254
01:24:58,709 --> 01:24:54,960
cure uh

2255
01:25:01,669 --> 01:24:58,719
individual by individually based cancers

2256
01:25:03,750 --> 01:25:01,679
because unfortunately like so cancer

2257
01:25:05,430 --> 01:25:03,760
it's like a misnomer saying oh he had

2258
01:25:07,189 --> 01:25:05,440
cancer well

2259
01:25:09,350 --> 01:25:07,199
cancer is basically just any type of

2260
01:25:11,430 --> 01:25:09,360
anomalous cell that rep replicates and

2261
01:25:13,110 --> 01:25:11,440
causes a problem and makes some type of

2262
01:25:15,350 --> 01:25:13,120
mass or something like that

2263
01:25:17,830 --> 01:25:15,360

and and basically if it's you know if

2264

01:25:20,310 --> 01:25:17,840

it's a bad kind it just

2265

01:25:22,629 --> 01:25:20,320

keeps replicating and becomes a problem

2266

01:25:24,470 --> 01:25:22,639

and so then these cells are basically

2267

01:25:26,790 --> 01:25:24,480

useless they just don't do anything

2268

01:25:29,590 --> 01:25:26,800

other than form a mass

2269

01:25:33,270 --> 01:25:31,669

it could be any kind of cell it could be

2270

01:25:34,550 --> 01:25:33,280

a heart cell it could be a cardiac cell

2271

01:25:36,550 --> 01:25:34,560

it could be a liver cell it could be a

2272

01:25:37,910 --> 01:25:36,560

stomach cell it could be your skin cells

2273

01:25:40,709 --> 01:25:37,920

and that's why you have all of these

2274

01:25:42,470 --> 01:25:40,719

different types of cancers because we

2275

01:25:44,149 --> 01:25:42,480

all have different dna rna and

2276

01:25:46,550 --> 01:25:44,159

everything like that something like

2277

01:25:50,390 --> 01:25:46,560

crispr could actually just go in and see

2278

01:25:53,350 --> 01:25:50,400

like if say you had your umbilical cord

2279

01:25:55,270 --> 01:25:53,360

and so the the purest form of your dna

2280

01:25:57,750 --> 01:25:55,280

would be in that biclor that would be

2281

01:25:59,990 --> 01:25:57,760

the template for you

2282

01:26:01,990 --> 01:26:00,000

you could take that and basically reset

2283

01:26:04,310 --> 01:26:02,000

your body with it

2284

01:26:06,950 --> 01:26:04,320

you know before you stuck your wicker

2285

01:26:10,070 --> 01:26:06,960

you were supposed to before you

2286

01:26:11,990 --> 01:26:10,080

before you got aids before you got

2287

01:26:14,870 --> 01:26:12,000

any types of cancers or you could

2288

01:26:17,750 --> 01:26:14,880

actually be pre-screened for any type of

2289

01:26:19,189 --> 01:26:17,760

genetic flaws yeah to help

2290

01:26:22,070 --> 01:26:19,199

they could turn

2291

01:26:23,990 --> 01:26:22,080

certain genetic markers on and some off

2292

01:26:26,629 --> 01:26:24,000

they could actually be used as a tool

2293

01:26:27,750 --> 01:26:26,639

for destruction in that case too i could

2294

01:26:31,350 --> 01:26:27,760

i could

2295

01:26:33,510 --> 01:26:31,360

mosquitoes that are all infected with a

2296

01:26:36,390 --> 01:26:33,520

virus that only affects your cellular

2297

01:26:38,709 --> 01:26:36,400

level you know your your dna and turns

2298

01:26:40,870 --> 01:26:38,719

on all of the triggers for cancer in

2299

01:26:42,709 --> 01:26:40,880

your entire body next thing you know six

2300

01:26:45,030 --> 01:26:42,719

months later you die of like six forms

2301
01:26:46,629 --> 01:26:45,040
of cancer but you know it's natural

2302
01:26:49,110 --> 01:26:46,639
causes because

2303
01:26:50,390 --> 01:26:49,120
cancer doesn't isn't choosy right

2304
01:26:52,229 --> 01:26:50,400
right yeah

2305
01:26:55,270 --> 01:26:52,239
it kind of reminds me that you got hit

2306
01:26:57,669 --> 01:26:55,280
with a virus from crispr i i realize i

2307
01:27:00,149 --> 01:26:57,679
should not have done the 23andme thing

2308
01:27:01,590 --> 01:27:00,159
now yeah you know as

2309
01:27:04,709 --> 01:27:01,600
that's one of those things that the

2310
01:27:05,990 --> 01:27:04,719
23andme the the ancestors there are all

2311
01:27:07,590 --> 01:27:06,000
that stuff

2312
01:27:09,590 --> 01:27:07,600
when it first came out i'm like oh yeah

2313
01:27:11,590 --> 01:27:09,600

i want to know my breakdown and like

2314

01:27:13,189 --> 01:27:11,600

wait wait a minute who had access to

2315

01:27:15,030 --> 01:27:13,199

that my dad got it for me for my

2316

01:27:16,390 --> 01:27:15,040

birthday once so i couldn't say no i was

2317

01:27:17,990 --> 01:27:16,400

like yeah and i was like wait a minute

2318

01:27:20,229 --> 01:27:18,000

[h__h] no i don't want nobody to have my

2319

01:27:22,870 --> 01:27:20,239

genetic information [h__h] that i mean

2320

01:27:25,350 --> 01:27:22,880

it's bad enough the government has it

2321

01:27:27,430 --> 01:27:25,360

yeah dude

2322

01:27:29,590 --> 01:27:27,440

yeah that would scare the [h__h] out of me

2323

01:27:33,030 --> 01:27:29,600

yeah i i haven't uh didn't do it again

2324

01:27:36,709 --> 01:27:34,629

are you talking about that uh the

2325

01:27:38,870 --> 01:27:36,719

microwave that somebody put an ai into

2326

01:27:40,550 --> 01:27:38,880

that that tried to kill him he said i

2327

01:27:42,629 --> 01:27:40,560

didn't kill a kid all right they were

2328

01:27:44,709 --> 01:27:42,639

talking about i said wait until your

2329

01:27:47,270 --> 01:27:44,719

microwave uh

2330

01:27:48,709 --> 01:27:47,280

i forgot it moved it allows you like it

2331

01:27:51,669 --> 01:27:48,719

allows you to make

2332

01:27:52,950 --> 01:27:51,679

your fried chicken more crisper

2333

01:27:54,790 --> 01:27:52,960

i love the jam

2334

01:27:56,390 --> 01:27:54,800

i'm wondering if that was uh

2335

01:28:00,310 --> 01:27:56,400

related to the uh

2336

01:28:02,550 --> 01:28:00,320

the the youtuber that uh created a uh

2337

01:28:04,310 --> 01:28:02,560

artificial intelligent microwave and

2338

01:28:06,950 --> 01:28:04,320

then that microwave proceeded to try to

2339

01:28:10,709 --> 01:28:08,470

what the hell

2340

01:28:11,990 --> 01:28:10,719

dude that crisper [h__h] reminds me of uh

2341

01:28:16,070 --> 01:28:12,000

remember when we were watching blade

2342

01:28:20,790 --> 01:28:17,750

i love that movie man that's one of my

2343

01:28:22,950 --> 01:28:20,800

all-time favorite movies

2344

01:28:27,430 --> 01:28:22,960

it's a good movie

2345

01:28:29,830 --> 01:28:27,440

ben kept messing it up no it wasn't

2346

01:28:31,910 --> 01:28:29,840

it was gattaca and i was like i bet you

2347

01:28:33,270 --> 01:28:31,920

can't get this movie and like

2348

01:28:35,430 --> 01:28:33,280

he's stuck with

2349

01:28:36,950 --> 01:28:35,440

blade runner of like i actually i was

2350

01:28:39,110 --> 01:28:36,960

like i'm not gonna tell you it was like

2351

01:28:41,669 --> 01:28:39,120

no no it's blade runner like even after

2352

01:28:43,430 --> 01:28:41,679

i told i showed him the title i like did

2353

01:28:45,510 --> 01:28:43,440

the menu thing and he was like

2354

01:28:47,270 --> 01:28:45,520

it's a cool way to spell blade runner

2355

01:28:48,950 --> 01:28:47,280

dude

2356

01:28:50,470 --> 01:28:48,960

i was like wait i've seen this i know

2357

01:28:51,910 --> 01:28:50,480

i've seen this he started [h__h] with

2358

01:28:53,830 --> 01:28:51,920

me and just like named off a bunch of

2359

01:28:55,750 --> 01:28:53,840

random movies and i was like yeah he's

2360

01:28:58,790 --> 01:28:55,760

blade runner so that's what we stuck

2361

01:29:01,830 --> 01:28:58,800

with because you wouldn't tell me

2362

01:29:03,750 --> 01:29:01,840

but yeah that movie uh that was with the

2363

01:29:06,070 --> 01:29:03,760

you know they're like making perfect

2364

01:29:07,510 --> 01:29:06,080

people and [h__h] yeah and like you know

2365

01:29:08,950 --> 01:29:07,520

they're like yeah you can read

2366

01:29:10,870 --> 01:29:08,960

everything on me like that's so crazy

2367

01:29:12,709 --> 01:29:10,880

that like they can just walk up to like

2368

01:29:15,110 --> 01:29:12,719

a little center and give somebody a

2369

01:29:16,709 --> 01:29:15,120

piece of hair and they're like you know

2370

01:29:18,709 --> 01:29:16,719

yeah i want to see if he's a good match

2371

01:29:20,470 --> 01:29:18,719

is they'll give you a little sample back

2372

01:29:22,790 --> 01:29:20,480

saying like yep you're a good match you

2373

01:29:24,550 --> 01:29:22,800

can make like the perfect human like

2374

01:29:25,750 --> 01:29:24,560

that shit's crazy

2375

01:29:28,629 --> 01:29:25,760

they would just be able to get your

2376

01:29:30,870 --> 01:29:28,639

genetic like information like just like

2377

01:29:33,110 --> 01:29:30,880

that like immediately like in the dating

2378

01:29:34,950 --> 01:29:33,120

world instead of tinder it would be like

2379

01:29:36,790 --> 01:29:34,960

feels like how the world's turning i

2380

01:29:40,149 --> 01:29:36,800

mean it's like it does dude you know

2381

01:29:42,390 --> 01:29:40,159

it's like uh you know

2382

01:29:45,830 --> 01:29:42,400

orwell you know we're turning into an

2383

01:29:47,110 --> 01:29:45,840

orwellian society that turns that's like

2384

01:29:49,430 --> 01:29:47,120

not good

2385

01:29:52,629 --> 01:29:49,440

i don't like you know it's like with

2386

01:29:54,790 --> 01:29:52,639

that without all of that junk uh dna

2387

01:29:57,510 --> 01:29:54,800

that they call junk dna we can't have

2388

01:29:58,709 --> 01:29:57,520

variants that can sprout people like

2389

01:30:01,110 --> 01:29:58,719

einstein

2390

01:30:03,430 --> 01:30:01,120

you try to do gattaca i guarantee your

2391

01:30:05,669 --> 01:30:03,440

the population starts to become

2392

01:30:07,510 --> 01:30:05,679

less intelligent instead of and

2393

01:30:09,830 --> 01:30:07,520

instead of more intelligent there will

2394

01:30:11,350 --> 01:30:09,840

be an upper for quite a while but then

2395

01:30:13,910 --> 01:30:11,360

eventually

2396

01:30:15,990 --> 01:30:13,920

just through the removal of a lot of

2397

01:30:18,629 --> 01:30:16,000

junk dna in the in

2398

01:30:21,030 --> 01:30:18,639

in the you know the pool of dna you're

2399

01:30:22,790 --> 01:30:21,040

going to end up with a something you

2400

01:30:24,629 --> 01:30:22,800

don't even [h__h] recognize

2401

01:30:26,390 --> 01:30:24,639

yeah dude yeah i always thought about

2402

01:30:27,510 --> 01:30:26,400

that like because people are always like

2403

01:30:29,030 --> 01:30:27,520

you know you watch documentaries and

2404

01:30:30,470 --> 01:30:29,040

they're like yeah yeah it's just junk

2405

01:30:42,090 --> 01:30:30,480

dna so what i'm saying is everybody

2406

01:30:49,189 --> 01:30:47,110

[Laughter]

2407

01:30:52,709 --> 01:30:49,199

look if anybody could come up with a way

2408

01:30:54,950 --> 01:30:52,719

to to quickly make chicken crispy

2409

01:30:56,790 --> 01:30:54,960

i guarantee you it'll sell way faster

2410

01:30:58,950 --> 01:30:56,800

than anything uh isn't that what they

2411

01:31:00,470 --> 01:30:58,960

did with the air fryer

2412

01:31:02,390 --> 01:31:00,480

yeah so there's a lot of back and forth

2413

01:31:04,629 --> 01:31:02,400

between airfryers now so what i found

2414

01:31:06,390 --> 01:31:04,639

with an airfryer is that

2415

01:31:07,590 --> 01:31:06,400

initially

2416

01:31:08,870 --> 01:31:07,600

it sucks

2417

01:31:11,590 --> 01:31:08,880

but if there's something that was

2418

01:31:21,350 --> 01:31:11,600

already fried and you're just

2419

01:31:24,510 --> 01:31:22,870

why don't we just make everybody hungry

2420

01:31:26,229 --> 01:31:24,520

again and and look at

2421

01:31:31,590 --> 01:31:26,239

this

2422

01:31:35,110 --> 01:31:33,910

oh my god yeah but if you look at it

2423

01:31:37,350 --> 01:31:35,120

it's it's definitely got a lack of

2424

01:31:38,790 --> 01:31:37,360

seasoning um it looks like it's just a

2425

01:31:42,950 --> 01:31:38,800

standard

2426

01:31:44,070 --> 01:31:42,960

really would look like they use

2427

01:31:46,629 --> 01:31:44,080

uh a

2428

01:31:48,470 --> 01:31:46,639

to any type of milk or any type of uh it

2429

01:31:49,830 --> 01:31:48,480

came somewhere from like ohio or like

2430

01:31:51,669 --> 01:31:49,840

maryland you know that's you know it's

2431

01:31:53,510 --> 01:31:51,679

like get some

2432

01:31:55,910 --> 01:31:53,520

that's some i just googled this recipe

2433

01:31:57,910 --> 01:31:55,920

[h__h] right that's not like that's

2434

01:31:58,629 --> 01:31:57,920

not like like big mama's chicken you

2435

01:32:00,950 --> 01:31:58,639

know

2436

01:32:04,950 --> 01:32:00,960

like a child

2437

01:32:04,960 --> 01:32:08,550

look at that wing

2438

01:32:13,590 --> 01:32:10,709

oh my god that is all fried chicken look

2439

01:32:15,430 --> 01:32:13,600

at that wow you didn't realize that

2440

01:32:16,950 --> 01:32:15,440

that's brilliant i wasn't painting i was

2441

01:32:18,709 --> 01:32:16,960

thinking i was thinking about big mama's

2442

01:32:21,110 --> 01:32:18,719

chicken

2443

01:32:23,510 --> 01:32:21,120

that's a new game dude explosion

2444

01:32:26,629 --> 01:32:23,520

attention to detail friends

2445

01:32:30,709 --> 01:32:26,639

explosion or chicken

2446

01:32:33,910 --> 01:32:32,229

yeah and the documentary like shows

2447

01:32:34,790 --> 01:32:33,920

explosions but it's actually fried

2448

01:32:36,629 --> 01:32:34,800

chicken

2449

01:32:37,830 --> 01:32:36,639

it's like we spent most of our budget on

2450

01:32:42,070 --> 01:32:37,840

that

2451
01:32:47,910 --> 01:32:43,830
a bunch of a bunch of shots if you like

2452
01:32:53,189 --> 01:32:51,750
look it's worth it it's totally worth it

2453
01:32:55,350 --> 01:32:53,199
oh dude

2454
01:32:57,189 --> 01:32:55,360
that's so good uh wait but while we're

2455
01:33:00,229 --> 01:32:57,199
on a goofy stint i did want to say

2456
01:33:02,229 --> 01:33:00,239
something about uh you mentioned okay i

2457
01:33:03,830 --> 01:33:02,239
i know i was we were serious

2458
01:33:05,590 --> 01:33:03,840
about the the question about like long

2459
01:33:07,590 --> 01:33:05,600
wave versus shortwave but when you said

2460
01:33:08,950 --> 01:33:07,600
it like this pop this video popped into

2461
01:33:10,709 --> 01:33:08,960
my head i don't know if y'all seen this

2462
01:33:12,709 --> 01:33:10,719
but um it's one of my favorites right

2463
01:33:14,790 --> 01:33:12,719

now

2464

01:33:17,030 --> 01:33:14,800

oh we can't hear it can't we oh gosh

2465

01:33:18,709 --> 01:33:17,040

darn it one second

2466

01:33:22,470 --> 01:33:18,719

one second

2467

01:33:24,470 --> 01:33:23,350

okay

2468

01:33:25,990 --> 01:33:24,480

all right you ready

2469

01:33:29,830 --> 01:33:26,000

mm-hmm

2470

01:33:36,950 --> 01:33:32,149

what's long

2471

01:33:42,629 --> 01:33:39,430

what did you just say what's wrong

2472

01:33:47,910 --> 01:33:44,470

hey can you stop doing that for a second

2473

01:33:50,790 --> 01:33:48,830

i said

2474

01:33:55,910 --> 01:33:50,800

this

2475

01:33:56,620 --> 01:33:55,920

that that's not what you said what did

2476

01:34:00,629 --> 01:33:56,630

you say

2477

01:34:09,510 --> 01:34:00,639

[Laughter]

2478

01:34:11,110 --> 01:34:09,520

yeah uh they were just uh somebody

2479

01:34:13,669 --> 01:34:11,120

commented out a blade runner was written

2480

01:34:15,590 --> 01:34:13,679

by uh philip k dick uh tell you what you

2481

01:34:17,590 --> 01:34:15,600

want to know a trippy series that'll

2482

01:34:19,189 --> 01:34:17,600

really kind of [h__h] with you is his his

2483

01:34:21,030 --> 01:34:19,199

valace series

2484

01:34:23,510 --> 01:34:21,040

um

2485

01:34:26,310 --> 01:34:23,520

philip k dick everything he wrote was

2486

01:34:27,270 --> 01:34:26,320

literally way the [h__h] ahead of his time

2487

01:34:29,430 --> 01:34:27,280

um

2488

01:34:31,590 --> 01:34:29,440

and ironically although he had done

2489

01:34:34,550 --> 01:34:31,600

drugs at certain points in his life he

2490

01:34:36,229 --> 01:34:34,560

was not an abuser of drugs which a lot

2491

01:34:39,510 --> 01:34:36,239

of people think he was

2492

01:34:40,390 --> 01:34:39,520

uh but the dude was just on a different

2493

01:34:43,590 --> 01:34:40,400

level

2494

01:34:45,510 --> 01:34:43,600

but i read his vales series oh i blew my

2495

01:34:47,910 --> 01:34:45,520

mind i loved it

2496

01:34:49,350 --> 01:34:47,920

this is what came up on is this the same

2497

01:34:53,350 --> 01:34:49,360

thing

2498

01:34:58,950 --> 01:34:56,149

that is all what they came up with

2499

01:35:01,830 --> 01:34:58,960

now put in philip k dick uh ballast

2500

01:35:05,590 --> 01:35:01,840

series oh

2501

01:35:08,950 --> 01:35:05,600

phil okay dick flats in series

2502

01:35:11,830 --> 01:35:08,960

not your normal search of hentai

2503

01:35:16,790 --> 01:35:15,270

that's your search history

2504

01:35:18,229 --> 01:35:16,800

it's like no you mean hentai right

2505

01:35:18,570 --> 01:35:18,239

that's all that's all you ever look up

2506

01:35:20,310 --> 01:35:18,580

so

2507

01:35:21,750 --> 01:35:20,320

[Laughter]

2508

01:35:23,270 --> 01:35:21,760

oh you mean

2509

01:35:24,709 --> 01:35:23,280

yeah just

2510

01:35:26,870 --> 01:35:24,719

god guys

2511

01:35:28,470 --> 01:35:26,880

okay that's uh that's i searched philip

2512

01:35:30,629 --> 01:35:28,480

okay all right hold on

2513

01:35:31,430 --> 01:35:30,639

i gotta be careful how i spell things

2514

01:35:35,669 --> 01:35:31,440

okay

2515

01:35:37,830 --> 01:35:35,679

it's not it's not vulva it's balanced

2516

01:35:39,910 --> 01:35:37,840

no not phyllis uh

2517

01:35:43,350 --> 01:35:39,920

uh villus

2518

01:35:47,350 --> 01:35:44,790

i would i

2519

01:35:49,109 --> 01:35:47,360

i didn't do that on first

2520

01:35:49,720 --> 01:35:49,119

novel okay here we go here we go here we

2521

01:35:51,590 --> 01:35:49,730

go here we go

2522

01:35:52,709 --> 01:35:51,600

[Music]

2523

01:35:54,470 --> 01:35:52,719

i don't know if they i don't know if

2524

01:35:56,870 --> 01:35:54,480

there was ever any movies or anything

2525

01:35:58,709 --> 01:35:56,880

made of it but the valid series i think

2526

01:36:00,870 --> 01:35:58,719

it's three books

2527

01:36:02,550 --> 01:36:00,880

but it is uh

2528

01:36:04,950 --> 01:36:02,560

amazing

2529

01:36:06,950 --> 01:36:04,960

hello that looks really cool it's like a

2530

01:36:08,629 --> 01:36:06,960

oh it's like an allegory

2531

01:36:10,790 --> 01:36:08,639

kind of uh

2532

01:36:11,669 --> 01:36:10,800

of jesus on a cross which is like

2533

01:36:13,350 --> 01:36:11,679

like

2534

01:36:15,189 --> 01:36:13,360

once you once you read the book you'll

2535

01:36:17,189 --> 01:36:15,199

you'll you'll understand that picture

2536

01:36:19,109 --> 01:36:17,199

i'll snap

2537

01:36:21,669 --> 01:36:19,119

anything that's allegorical dude i love

2538

01:36:24,550 --> 01:36:21,679

it well yeah it's good stuff i will be

2539

01:36:26,870 --> 01:36:24,560

reading valas very soon i will be

2540

01:36:28,070 --> 01:36:26,880

watching the anime version uh look up

2541

01:36:30,310 --> 01:36:28,080

the uh

2542

01:36:31,990 --> 01:36:30,320

the the read order for it because i

2543

01:36:37,189 --> 01:36:32,000

can't remember if alice was the first

2544

01:36:42,550 --> 01:36:39,350

and there's three books in the series i

2545

01:36:46,310 --> 01:36:42,560

believe so but the way he writes

2546

01:36:53,669 --> 01:36:50,310

perspectives from other books in

2547

01:36:55,430 --> 01:36:53,679

the uh in the writings of different

2548

01:36:56,550 --> 01:36:55,440

novels of his too

2549

01:36:59,270 --> 01:36:56,560

so like

2550

01:37:01,350 --> 01:36:59,280

something that has nothing to do with

2551

01:37:03,109 --> 01:37:01,360

the vowel series but you like all of a

2552

01:37:04,550 --> 01:37:03,119

sudden like one of the characters

2553

01:37:07,270 --> 01:37:04,560

happens to be like

2554

01:37:08,950 --> 01:37:07,280

a passing glancing character from valas

2555

01:37:12,070 --> 01:37:08,960

and they just happen to have a main role

2556

01:37:16,470 --> 01:37:14,709

yeah so he's uh kind of like mandalorian

2557

01:37:18,550 --> 01:37:16,480

and book of boba fett

2558

01:37:21,030 --> 01:37:18,560

yeah yeah something similar like that

2559

01:37:23,030 --> 01:37:21,040

but uh dang

2560

01:37:24,790 --> 01:37:23,040

that's crazy

2561

01:37:27,109 --> 01:37:24,800

i'm gonna watch it i'm gonna read it

2562

01:37:29,830 --> 01:37:27,119

dude honestly just get into hit him as

2563

01:37:31,590 --> 01:37:29,840

an author and you won't be just you will

2564

01:37:33,189 --> 01:37:31,600

not be disappointed hell yeah i'm

2565

01:37:35,830 --> 01:37:33,199

looking yeah i wanna

2566

01:37:38,550 --> 01:37:35,840

the other audio book uh yeah

2567

01:37:40,629 --> 01:37:38,560

uh yeah yeah there is uh i use uh

2568

01:37:42,390 --> 01:37:40,639

scribbid i don't know how to actually

2569

01:37:44,149 --> 01:37:42,400

pronounce it but uh it's like eight

2570

01:37:46,550 --> 01:37:44,159

bucks a month and they got a bunch of

2571

01:37:49,189 --> 01:37:46,560

audio books on there oh that's cool oh

2572

01:37:51,990 --> 01:37:49,199

yeah

2573

01:37:54,950 --> 01:37:52,000

watchful okay dick talk about his books

2574

01:37:56,629 --> 01:37:54,960

uh were actually memories of his from

2575

01:37:59,270 --> 01:37:56,639

different lifetimes

2576

01:38:00,629 --> 01:37:59,280

what there's a video that's one theory i

2577

01:38:03,669 --> 01:38:00,639

don't think he ever came out and said

2578

01:38:06,550 --> 01:38:03,679

that though there's a lot of uh

2579

01:38:08,470 --> 01:38:06,560

because of how in depth and how involved

2580

01:38:10,229 --> 01:38:08,480

and like you know like a good writer

2581

01:38:12,070 --> 01:38:10,239

officially a fiction writer it you know

2582

01:38:14,070 --> 01:38:12,080

he's able to literally immerse himself

2583

01:38:15,830 --> 01:38:14,080

into his own world and understand how

2584

01:38:17,750 --> 01:38:15,840

that world works down to the

2585

01:38:20,149 --> 01:38:17,760

nitty-gritty and that which is well that

2586

01:38:23,270 --> 01:38:20,159

was makes these like the hobbit that's

2587

01:38:25,350 --> 01:38:23,280

what makes uh you know uh all these

2588

01:38:26,950 --> 01:38:25,360

things that we really love and you know

2589

01:38:28,790 --> 01:38:26,960

there's also a

2590

01:38:31,990 --> 01:38:28,800

couple other authors that i really love

2591

01:38:34,149 --> 01:38:32,000

like uh that did like uh

2592

01:38:36,950 --> 01:38:34,159

sort of truth series which is a really

2593

01:38:38,790 --> 01:38:36,960

good one that's a fantasy novel series

2594

01:38:41,830 --> 01:38:38,800

um

2595

01:38:44,229 --> 01:38:41,840

the foundation series which is a science

2596

01:38:45,990 --> 01:38:44,239

fiction series that i think you guys

2597

01:38:49,430 --> 01:38:46,000

actually might like that one

2598

01:38:50,790 --> 01:38:49,440

um but it's a little dry for most

2599

01:38:53,669 --> 01:38:50,800

but it's a

2600

01:38:55,189 --> 01:38:53,679

fascinating read

2601
01:38:57,430 --> 01:38:55,199
but i think that once you start getting

2602
01:39:00,950 --> 01:38:57,440
into into dick

2603
01:39:04,470 --> 01:39:02,709
uh you're gonna be you're gonna be blown

2604
01:39:08,229 --> 01:39:04,480
away by how many

2605
01:39:10,709 --> 01:39:08,239
how many books of his turned into movies

2606
01:39:13,510 --> 01:39:10,719
yeah yeah like you're some of your most

2607
01:39:16,229 --> 01:39:13,520
popular movies from like the the 20th

2608
01:39:18,709 --> 01:39:16,239
century are all based off of like books

2609
01:39:20,709 --> 01:39:18,719
he wrote or short stories he wrote like

2610
01:39:24,070 --> 01:39:20,719
i robot that's him

2611
01:39:25,510 --> 01:39:24,080
no wait no that's not him that's uh

2612
01:39:27,990 --> 01:39:25,520
no that's that's the author talking

2613
01:39:30,149 --> 01:39:28,000

about bicentennial mans

2614

01:39:32,070 --> 01:39:30,159

i don't know about bicentennial man but

2615

01:39:35,830 --> 01:39:32,080

i know like blade runner uh the man in

2616

01:39:39,830 --> 01:39:37,510

i'd have to go through them all man i i

2617

01:39:42,149 --> 01:39:39,840

get i get i've honestly unfortunately

2618

01:39:44,709 --> 01:39:42,159

read so much [h__h] that i get [h__h] mixed

2619

01:39:46,709 --> 01:39:44,719

up too easily like i said i'm just smart

2620

01:39:49,030 --> 01:39:46,719

enough to know i'm stupid so

2621

01:39:50,709 --> 01:39:49,040

i forget i forget which authors write

2622

01:39:52,229 --> 01:39:50,719

what books

2623

01:39:54,390 --> 01:39:52,239

duper copper said something about that

2624

01:39:56,149 --> 01:39:54,400

oh i guess you didn't uh touch on that

2625

01:39:58,390 --> 01:39:56,159

but like i do remember some like

2626
01:40:00,149 --> 01:39:58,400
watching a documentary about this dude

2627
01:40:02,070 --> 01:40:00,159
that just like pretty much told the

2628
01:40:05,030 --> 01:40:02,080
future about

2629
01:40:07,109 --> 01:40:05,040
they were all written in in these sci-fi

2630
01:40:08,390 --> 01:40:07,119
books but like a lot of that [h__h] is

2631
01:40:10,310 --> 01:40:08,400
that's how i do it

2632
01:40:11,910 --> 01:40:10,320
if i knew for a fact i knew the future

2633
01:40:13,830 --> 01:40:11,920
or at least a

2634
01:40:16,470 --> 01:40:13,840
possible future

2635
01:40:18,870 --> 01:40:16,480
i i'd just write sci-fi i'd i'd be like

2636
01:40:21,350 --> 01:40:18,880
i'd be like yeah yeah all right

2637
01:40:22,790 --> 01:40:21,360
i wrote i wrote i co-authored stargate

2638
01:40:26,310 --> 01:40:22,800

no

2639

01:40:30,310 --> 01:40:28,310

i heard i heard the story about uh about

2640

01:40:32,470 --> 01:40:30,320

the um the guy that wrote minority

2641

01:40:34,550 --> 01:40:32,480

report total recall those are all philip

2642

01:40:36,709 --> 01:40:34,560

k dick those are good movies those are

2643

01:40:38,470 --> 01:40:36,719

good movies i heard a story about the

2644

01:40:41,109 --> 01:40:38,480

the guy that wrote lord of the rings

2645

01:40:44,070 --> 01:40:41,119

like um

2646

01:40:46,870 --> 01:40:44,080

yeah how he used to be like a professor

2647

01:40:49,270 --> 01:40:46,880

and he said that like one day like a kid

2648

01:40:51,350 --> 01:40:49,280

turned in like a blank piece of paper

2649

01:40:53,590 --> 01:40:51,360

and on that blank piece of paper he just

2650

01:40:55,510 --> 01:40:53,600

sat there just kind of

2651
01:40:57,030 --> 01:40:55,520
stared off into space and then started

2652
01:41:00,070 --> 01:40:57,040
writing and like

2653
01:41:01,669 --> 01:41:00,080
he was like it wasn't me like writing

2654
01:41:04,790 --> 01:41:01,679
he was like the first line of like the

2655
01:41:06,790 --> 01:41:04,800
whole book like somewhere in the [h__h]

2656
01:41:08,950 --> 01:41:06,800
shire or something and

2657
01:41:11,030 --> 01:41:08,960
yeah he was like down in a hole in the

2658
01:41:12,790 --> 01:41:11,040
shire or whatever he was like yeah so he

2659
01:41:15,109 --> 01:41:12,800
ended up like writing the books and then

2660
01:41:17,109 --> 01:41:15,119
he was also creating all the different

2661
01:41:19,510 --> 01:41:17,119
languages to like

2662
01:41:21,430 --> 01:41:19,520
match up into the books like he was

2663
01:41:24,070 --> 01:41:21,440

really good at like creating new

2664

01:41:26,390 --> 01:41:24,080

languages so he created new languages

2665

01:41:28,310 --> 01:41:26,400

for this entire like universe and he was

2666

01:41:30,070 --> 01:41:28,320

like i ended up having to write more

2667

01:41:31,669 --> 01:41:30,080

books just so that way i could add in

2668

01:41:34,390 --> 01:41:31,679

these languages and characters that i

2669

01:41:37,109 --> 01:41:34,400

created to like fit into this world so

2670

01:41:37,990 --> 01:41:37,119

he's like yeah that's so cool yeah

2671

01:41:40,790 --> 01:41:38,000

that's all i thought was pretty

2672

01:41:42,149 --> 01:41:40,800

interesting back and forth

2673

01:41:44,550 --> 01:41:42,159

maybe

2674

01:41:46,870 --> 01:41:44,560

i i love that idea like it starts out

2675

01:41:49,350 --> 01:41:46,880

like there's no story per se but it's

2676

01:41:51,189 --> 01:41:49,360

like he based it off of like i've got

2677

01:41:53,270 --> 01:41:51,199

all these ideas about this language and

2678

01:41:54,870 --> 01:41:53,280

i built out this like hyper focused on a

2679

01:41:56,790 --> 01:41:54,880

language and built this out so now i

2680

01:41:58,390 --> 01:41:56,800

have to have a build or i have to build

2681

01:42:01,030 --> 01:41:58,400

a story around it that's like there's

2682

01:42:03,030 --> 01:42:01,040

stories of him like supposedly like

2683

01:42:04,229 --> 01:42:03,040

being able to channel

2684

01:42:06,709 --> 01:42:04,239

and so i thought that was kind of

2685

01:42:09,270 --> 01:42:06,719

interesting that just like tied into

2686

01:42:12,229 --> 01:42:09,280

like turn the channel or no like he was

2687

01:42:15,030 --> 01:42:12,239

like receiving messages oh oh oh

2688

01:42:18,390 --> 01:42:15,040

you know you know channeling

2689

01:42:20,310 --> 01:42:18,400

yes dude that channeling stuff

2690

01:42:22,390 --> 01:42:20,320

weirds me out i just always get some

2691

01:42:25,109 --> 01:42:22,400

things i've never experienced so i keep

2692

01:42:27,189 --> 01:42:25,119

i keep kind of a skeptic's eye on i

2693

01:42:28,870 --> 01:42:27,199

guess i get uh so uncomfortable when

2694

01:42:30,629 --> 01:42:28,880

somebody's like i'm channeling i'm like

2695

01:42:32,310 --> 01:42:30,639

please don't do that in front of me

2696

01:42:34,629 --> 01:42:32,320

because i just like i don't want to be

2697

01:42:36,629 --> 01:42:34,639

mean to you because if if if i find out

2698

01:42:38,709 --> 01:42:36,639

that you're just full of [h__h] i'm just

2699

01:42:40,629 --> 01:42:38,719

i'm i'm not gonna be nice to you i'm

2700

01:42:42,470 --> 01:42:40,639

gonna slap your dick while your eyes are

2701
01:42:44,310 --> 01:42:42,480
closed trying to channel some [\h__\h]

2702
01:42:45,590 --> 01:42:44,320
spirit i'm gonna walk over yeah but if

2703
01:42:48,229 --> 01:42:45,600
they were channeling i'm pretty sure

2704
01:42:50,310 --> 01:42:48,239
that would stop it no matter what

2705
01:42:52,470 --> 01:42:50,320
yeah that's true yeah

2706
01:42:54,390 --> 01:42:52,480
yeah i mean that's that's you know

2707
01:42:55,189 --> 01:42:54,400
maybe you pull a hair out instead and

2708
01:42:58,229 --> 01:42:55,199
yeah

2709
01:42:59,830 --> 01:42:58,239
so like a little bit more kinder

2710
01:43:02,229 --> 01:42:59,840
we talk about the stuff that like you

2711
01:43:03,590 --> 01:43:02,239
know you you like to be able to measure

2712
01:43:07,430 --> 01:43:03,600
and like

2713
01:43:09,990 --> 01:43:07,440

some real tangible evidence how would

2714

01:43:11,510 --> 01:43:10,000

you go about trying to measure something

2715

01:43:13,270 --> 01:43:11,520

like that if you're first thing i would

2716

01:43:15,030 --> 01:43:13,280

do first for if i was going to study

2717

01:43:18,229 --> 01:43:15,040

channeling i would literally whatever

2718

01:43:20,470 --> 01:43:18,239

the subject is would be on 24-hour video

2719

01:43:22,790 --> 01:43:20,480

surveillance and have an eeg attached to

2720

01:43:24,229 --> 01:43:22,800

them at all times

2721

01:43:25,109 --> 01:43:24,239

that's a good idea we need to set that

2722

01:43:26,950 --> 01:43:25,119

up

2723

01:43:28,950 --> 01:43:26,960

wait are you saying that eeg machines

2724

01:43:30,790 --> 01:43:28,960

can be like a portable device because we

2725

01:43:31,990 --> 01:43:30,800

wanted that for your documentary what do

2726

01:43:33,030 --> 01:43:32,000

you think what do you think like mendy

2727

01:43:34,950 --> 01:43:33,040

is and

2728

01:43:36,390 --> 01:43:34,960

you mean you can you can you can spend a

2729

01:43:37,830 --> 01:43:36,400

couple hundred bucks on one or you could

2730

01:43:40,229 --> 01:43:37,840

spend a couple of thousand dollars on

2731

01:43:42,629 --> 01:43:40,239

them and get like the real high high-end

2732

01:43:44,470 --> 01:43:42,639

ones that have just like these look like

2733

01:43:46,310 --> 01:43:44,480

they look like brand like trees like

2734

01:43:47,669 --> 01:43:46,320

little plastic trees they just go on

2735

01:43:50,070 --> 01:43:47,679

your head and

2736

01:43:51,590 --> 01:43:50,080

you know it's like the god moment we we

2737

01:43:53,030 --> 01:43:51,600

definitely we wanted to do that with i

2738

01:43:54,629 --> 01:43:53,040

would have medical grade ones that

2739

01:43:55,750 --> 01:43:54,639

actually have the the attachments where

2740

01:43:57,030 --> 01:43:55,760

you have to shave the head and stuff

2741

01:43:58,070 --> 01:43:57,040

like that but

2742

01:43:59,910 --> 01:43:58,080

um

2743

01:44:01,830 --> 01:43:59,920

because you want to make sure you get

2744

01:44:06,470 --> 01:44:01,840

you know very very good contact so that

2745

01:44:10,310 --> 01:44:06,480

you have high resolution eegs so

2746

01:44:14,550 --> 01:44:11,669

i'm not sure if we even have the right

2747

01:44:16,790 --> 01:44:14,560

tools to get through that

2748

01:44:19,510 --> 01:44:16,800

we don't they don't exist it's one thing

2749

01:44:20,709 --> 01:44:19,520

to have a magnificent peppered beard but

2750

01:44:22,229 --> 01:44:20,719

the the the

2751

01:44:23,990 --> 01:44:22,239

he's like on this like entirely

2752

01:44:26,070 --> 01:44:24,000

different plate

2753

01:44:28,149 --> 01:44:26,080

you know he's just like

2754

01:44:30,149 --> 01:44:28,159

his hair is like in another existence

2755

01:44:31,910 --> 01:44:30,159

and then there's also him and then also

2756

01:44:33,990 --> 01:44:31,920

me dude

2757

01:44:35,750 --> 01:44:34,000

my hair is doing [\h__\h] tomorrow that i i

2758

01:44:37,510 --> 01:44:35,760

don't even know about

2759

01:44:40,070 --> 01:44:37,520

your hair it's it's it's writing books

2760

01:44:41,590 --> 01:44:40,080

and he doesn't know

2761

01:44:43,350 --> 01:44:41,600

he just goes to bed at night and like

2762

01:44:45,990 --> 01:44:43,360

his beard is actually this super wealthy

2763

01:44:50,709 --> 01:44:48,310

your beard and hair are living in a 5d

2764

01:44:53,669 --> 01:44:50,719

reality and you're still stuck yeah

2765

01:44:53,679 --> 01:44:58,149

we're having such a good time right now

2766

01:45:01,990 --> 01:44:59,590

everything around me is having such a

2767

01:45:04,390 --> 01:45:02,000

good time except for me

2768

01:45:05,640 --> 01:45:04,400

why is it raining oh relax we're

2769

01:45:08,149 --> 01:45:05,650

laughing with you

2770

01:45:11,510 --> 01:45:08,159

[Laughter]

2771

01:45:13,109 --> 01:45:11,520

i love that god damn it

2772

01:45:14,830 --> 01:45:13,119

okay never get a break not even with my

2773

01:45:17,270 --> 01:45:14,840

own

2774

01:45:19,590 --> 01:45:17,280

hair just look at it this way man at

2775

01:45:21,510 --> 01:45:19,600

least you got here man it's like

2776

01:45:24,310 --> 01:45:21,520

yeah my it's like i have a family member

2777

01:45:27,430 --> 01:45:24,320

that's a close friend of mine

2778

01:45:30,390 --> 01:45:27,440

he's got nothing oh no he's bald you

2779

01:45:32,950 --> 01:45:30,400

know he's got the he's got the bozo hair

2780

01:45:34,950 --> 01:45:32,960

streak but yeah he's smart he shaves it

2781

01:45:36,310 --> 01:45:34,960

all down he looks good but you know it's

2782

01:45:38,709 --> 01:45:36,320

just like my face my favorite thing to

2783

01:45:41,270 --> 01:45:38,719

do to him is like oh man

2784

01:45:44,629 --> 01:45:41,280

oh i gotta go get a haircut all this all

2785

01:45:47,109 --> 01:45:44,639

this thick curls are just oh it's it's

2786

01:45:50,470 --> 01:45:47,119

so hot out lately i need to get me a

2787

01:45:54,470 --> 01:45:50,480

haircut he's just salivating

2788

01:45:59,910 --> 01:45:55,430

yeah

2789

01:46:01,669 --> 01:45:59,920

got me 100 bucks in vegas

2790

01:46:04,310 --> 01:46:01,679

nice

2791

01:46:08,229 --> 01:46:04,320

this beard got you 20 bucks today it did

2792

01:46:10,310 --> 01:46:08,239

it did hell yeah hell yeah

2793

01:46:13,350 --> 01:46:10,320

uh one day

2794

01:46:15,990 --> 01:46:13,360

uh you know we'll we'll figure out that

2795

01:46:18,229 --> 01:46:16,000

that the beard is uh a much larger money

2796

01:46:18,950 --> 01:46:18,239

maker the longer you grow it joe so you

2797

01:46:21,430 --> 01:46:18,960

know

2798

01:46:23,189 --> 01:46:21,440

nice we were told that we were told that

2799

01:46:25,350 --> 01:46:23,199

you know because you shaved it or not

2800

01:46:26,950 --> 01:46:25,360

shaped it sorry trimmed it

2801

01:46:28,070 --> 01:46:26,960

didn't somebody like like sell their

2802

01:46:29,350 --> 01:46:28,080

house or something it was like something

2803

01:46:31,030 --> 01:46:29,360

ridiculous

2804

01:46:33,030 --> 01:46:31,040

they were like you trimmed your beard so

2805

01:46:34,950 --> 01:46:33,040

i like literally i took it personally

2806

01:46:36,390 --> 01:46:34,960

like who are we talking about i don't

2807

01:46:37,750 --> 01:46:36,400

remember

2808

01:46:39,189 --> 01:46:37,760

just look at it this way man i always

2809

01:46:41,270 --> 01:46:39,199

look at it like this if i keep a good

2810

01:46:43,750 --> 01:46:41,280

beard and everybody knows me for my nice

2811

01:46:45,590 --> 01:46:43,760

beard you know it's like i ever kill you

2812

01:46:47,669 --> 01:46:45,600

i just shave and just walk away

2813

01:46:49,990 --> 01:46:47,679

scot-free

2814

01:46:53,109 --> 01:46:50,000

your beards made us 30 tonight man

2815

01:46:56,070 --> 01:46:53,119

that's awesome oh nice

2816

01:46:58,470 --> 01:46:56,080

little davey man i love you very much

2817

01:46:59,270 --> 01:46:58,480

ben you should grow a really long beard

2818

01:47:01,350 --> 01:46:59,280

too

2819

01:47:04,310 --> 01:47:01,360

oh yeah totally totally totally it would

2820

01:47:06,470 --> 01:47:04,320

look great dude you should do this you

2821

01:47:08,470 --> 01:47:06,480

should do it for one year you could you

2822

01:47:10,310 --> 01:47:08,480

if i grew my beard out you could you

2823

01:47:12,550 --> 01:47:10,320

could see my face grew his beard for one

2824

01:47:13,830 --> 01:47:12,560

year i mean he'd almost have like at

2825

01:47:15,830 --> 01:47:13,840

least an inch

2826
01:47:17,510 --> 01:47:15,840
at least how long you've been working on

2827
01:47:19,669 --> 01:47:17,520
that thing ben

2828
01:47:25,510 --> 01:47:19,679
bro this is like 18 months right here

2829
01:47:29,510 --> 01:47:27,109
i could literally shave to nothing

2830
01:47:31,669 --> 01:47:29,520
tomorrow and like in a week be pretty

2831
01:47:32,950 --> 01:47:31,679
close to where i'm at now

2832
01:47:34,470 --> 01:47:32,960
i think there's some i think there's

2833
01:47:35,510 --> 01:47:34,480
also something to be said about just

2834
01:47:38,870 --> 01:47:35,520
embracing

2835
01:47:40,629 --> 01:47:38,880
yeah i've got

2836
01:47:42,870 --> 01:47:40,639
i've got some working on but you know

2837
01:47:44,390 --> 01:47:42,880
what i bought some like died

2838
01:47:45,590 --> 01:47:44,400

wow that was the most depressing moment

2839

01:47:48,870 --> 01:47:45,600

ever i was like

2840

01:47:51,030 --> 01:47:48,880

yeah [h__h] it there's 48 for some [h__h]

2841

01:47:52,470 --> 01:47:51,040

like why do i die you don't need to die

2842

01:47:54,709 --> 01:47:52,480

i didn't i haven't used it i was like

2843

01:47:56,709 --> 01:47:54,719

good okay now i feel like that i'm

2844

01:47:58,870 --> 01:47:56,719

forcing it i'm not i'm embracing it you

2845

01:48:00,550 --> 01:47:58,880

should return it yeah how do i feel

2846

01:48:02,470 --> 01:48:00,560

about my grazes

2847

01:48:07,430 --> 01:48:02,480

i earned every one of these damn things

2848

01:48:10,870 --> 01:48:08,870

yeah

2849

01:48:12,790 --> 01:48:10,880

it's kind of like playing fable but

2850

01:48:15,030 --> 01:48:12,800

worse because i feel it

2851

01:48:16,629 --> 01:48:15,040

i like that hell yeah

2852

01:48:18,870 --> 01:48:16,639

the more grays you get and the higher

2853

01:48:20,470 --> 01:48:18,880

levels you you get the more people you

2854

01:48:22,310 --> 01:48:20,480

can tell what to do

2855

01:48:23,910 --> 01:48:22,320

well not necessarily but the more [h__h]

2856

01:48:25,910 --> 01:48:23,920

you can get away with i've only been

2857

01:48:30,950 --> 01:48:25,920

told what to do by more people now that

2858

01:48:33,990 --> 01:48:32,310

was like at the gas station telling the

2859

01:48:35,669 --> 01:48:34,000

guy like hey can i get the i was buying

2860

01:48:37,430 --> 01:48:35,679

a new views and

2861

01:48:38,629 --> 01:48:37,440

i'm somewhat you know somewhat

2862

01:48:40,629 --> 01:48:38,639

colorblind i thought this from a

2863

01:48:42,310 --> 01:48:40,639

distance was gold it's like a rose gold

2864

01:48:44,310 --> 01:48:42,320

apparently but i kept saying like no the

2865

01:48:46,390 --> 01:48:44,320

one to the left the gold one

2866

01:48:48,229 --> 01:48:46,400

there is no like the guy was like there

2867

01:48:49,510 --> 01:48:48,239

isn't a gold one dude you want the

2868

01:48:50,470 --> 01:48:49,520

silver one

2869

01:48:51,750 --> 01:48:50,480

so

2870

01:48:53,590 --> 01:48:51,760

like in front of all these people i was

2871

01:48:55,510 --> 01:48:53,600

like i had to concede like

2872

01:48:58,709 --> 01:48:55,520

you're right totally i do want the

2873

01:49:00,709 --> 01:48:58,719

silver one and i got home and i'm like

2874

01:49:03,109 --> 01:49:00,719

[h__\h] you told me what to do you

2875

01:49:05,910 --> 01:49:03,119

embarrass me for all these people and i

2876

01:49:10,149 --> 01:49:05,920

get home and it is kind of kind of gold

2877

01:49:14,709 --> 01:49:11,990

ironically my favorite medal to make

2878

01:49:18,470 --> 01:49:14,719

things out of is platinum

2879

01:49:20,470 --> 01:49:18,480

okay like like if like uh

2880

01:49:21,669 --> 01:49:20,480

like if i get a four jewelry on a

2881

01:49:23,109 --> 01:49:21,679

platinum i'd have jewelry out of

2882

01:49:26,790 --> 01:49:23,119

platinum

2883

01:49:28,950 --> 01:49:26,800

thought it was it's it's it's precious

2884

01:49:30,790 --> 01:49:28,960

metal i mean generally it's used in

2885

01:49:32,070 --> 01:49:30,800

electronics

2886

01:49:36,149 --> 01:49:32,080

like a tolkien

2887

01:49:38,310 --> 01:49:36,159

precious metal precious my precious

2888

01:49:40,390 --> 01:49:38,320

i thought i was i i thought it was like

2889

01:49:42,470 --> 01:49:40,400

diamonds crushed with like gold and

2890

01:49:43,750 --> 01:49:42,480

silver and like no it's a totally

2891

01:49:46,149 --> 01:49:43,760

different thing yeah it's a whole

2892

01:49:47,430 --> 01:49:46,159

different metal yeah basically you got

2893

01:49:48,629 --> 01:49:47,440

silver

2894

01:49:51,030 --> 01:49:48,639

then gold

2895

01:49:54,229 --> 01:49:51,040

then various forms of gold that are

2896

01:49:56,950 --> 01:49:54,239

mixed with nickels and alloys and

2897

01:49:59,270 --> 01:49:56,960

that's why you have 18 24k and all that

2898

01:50:01,669 --> 01:49:59,280

stuff and then you have platinum and

2899

01:50:03,510 --> 01:50:01,679

that's basically the

2900

01:50:05,669 --> 01:50:03,520

creme de la creme of jewelry is made out

2901
01:50:07,109 --> 01:50:05,679
of platinum

2902
01:50:10,390 --> 01:50:07,119
dude i uh

2903
01:50:12,310 --> 01:50:10,400
speaking of speaking of metal sorry yeah

2904
01:50:13,910 --> 01:50:12,320
it keeps popping up

2905
01:50:14,709 --> 01:50:13,920
for the most of the time it's all right

2906
01:50:18,709 --> 01:50:14,719
but

2907
01:50:20,709 --> 01:50:18,719
like twice tonight it just went rough

2908
01:50:22,229 --> 01:50:20,719
it happens a couple times can we i i

2909
01:50:24,550 --> 01:50:22,239
think i know how to fix it joe if you if

2910
01:50:26,390 --> 01:50:24,560
you if you click your cog button on the

2911
01:50:28,470 --> 01:50:26,400
right we could do this later i mean yeah

2912
01:50:30,629 --> 01:50:28,480
i mean we've got three minutes okay guys

2913
01:50:32,310 --> 01:50:30,639

can we be professional here come on now

2914

01:50:34,310 --> 01:50:32,320

this is this is

2915

01:50:36,229 --> 01:50:34,320

i can't believe this hold

2916

01:50:37,750 --> 01:50:36,239

up in this in this in the spirit of

2917

01:50:39,270 --> 01:50:37,760

metal i heard this this morning on the

2918

01:50:41,830 --> 01:50:39,280

radio and i was like hey that's a good

2919

01:50:44,070 --> 01:50:41,840

question what's more metal

2920

01:50:45,430 --> 01:50:44,080

uh

2921

01:50:47,510 --> 01:50:45,440

a camaro

2922

01:50:49,750 --> 01:50:47,520

or a giant squid

2923

01:50:52,629 --> 01:50:49,760

uh squid because camaro is just a poor

2924

01:50:55,030 --> 01:50:52,639

man's sports car

2925

01:50:56,790 --> 01:50:55,040

i feel the same way about the mustang

2926

01:50:58,350 --> 01:50:56,800

oh yeah yeah yeah but at least the

2927

01:51:01,189 --> 01:50:58,360

mustang has a good heritage

2928

01:51:02,950 --> 01:51:01,199

[Laughter]

2929

01:51:05,270 --> 01:51:02,960

have you seen the heritage of a squid

2930

01:51:06,870 --> 01:51:05,280

that the the grand uh grants yeah i'm

2931

01:51:09,030 --> 01:51:06,880

pretty sure they're gonna take over at

2932

01:51:10,950 --> 01:51:09,040

some point

2933

01:51:15,430 --> 01:51:10,960

well they've they've uh they've

2934

01:51:17,030 --> 01:51:15,440

officially said that squids are sentient

2935

01:51:18,470 --> 01:51:17,040

yeah they're they are aware of

2936

01:51:19,669 --> 01:51:18,480

themselves

2937

01:51:22,790 --> 01:51:19,679

which is a

2938

01:51:24,310 --> 01:51:22,800

very few individuals on this planet

2939

01:51:27,510 --> 01:51:24,320

yeah it's like us

2940

01:51:29,030 --> 01:51:27,520

squids or fire primates yeah and

2941

01:51:30,550 --> 01:51:29,040

dolphins

2942

01:51:32,229 --> 01:51:30,560

uh ravens

2943

01:51:33,750 --> 01:51:32,239

how do they how do they quantify that

2944

01:51:35,990 --> 01:51:33,760

they're aware of themselves they can

2945

01:51:38,629 --> 01:51:36,000

recognize themselves in a mirror is the

2946

01:51:40,390 --> 01:51:38,639

primary way but there's a whole laundry

2947

01:51:42,390 --> 01:51:40,400

list of tests that they'll do to see

2948

01:51:44,470 --> 01:51:42,400

whether they can actually recognize

2949

01:51:47,270 --> 01:51:44,480

themselves as individuals

2950

01:51:48,870 --> 01:51:47,280

dude after watching my octopus teacher

2951

01:51:51,189 --> 01:51:48,880

on netflix i was like never eating

2952

01:51:53,990 --> 01:51:51,199

octopus ever again dude

2953

01:51:55,910 --> 01:51:54,000

crispy or the better

2954

01:51:57,910 --> 01:51:55,920

[h__h] calamari all the way i was gonna

2955

01:52:00,149 --> 01:51:57,920

say now now calamari's ruined for me

2956

01:52:03,109 --> 01:52:00,159

there's no way it's so damn good though

2957

01:52:05,589 --> 01:52:03,119

um well i guess i can't eat that anymore

2958

01:52:07,910 --> 01:52:05,599

uh but yeah it's not your fault dude

2959

01:52:10,310 --> 01:52:07,920

that they went into your net i mean the

2960

01:52:11,620 --> 01:52:10,320

only thing that i could think of is uh

2961

01:52:12,380 --> 01:52:11,630

squid billys

2962

01:52:14,310 --> 01:52:12,390

[Music]

2963

01:52:17,910 --> 01:52:14,320

[Laughter]

2964

01:52:17,920 --> 01:52:20,790

damn it

2965

01:52:25,270 --> 01:52:23,189

i like i like the one where he's like uh

2966

01:52:27,189 --> 01:52:25,280

he goes in for the interview and like

2967

01:52:30,390 --> 01:52:27,199

the guy's looking at his application and

2968

01:52:32,709 --> 01:52:30,400

says uh it says here you can uh skin a

2969

01:52:34,070 --> 01:52:32,719

buck and run a trout line he's like damn

2970

01:52:36,470 --> 01:52:34,080

right

2971

01:52:39,589 --> 01:52:36,480

he throws his hat

2972

01:52:41,189 --> 01:52:39,599

this is his boobs all the hats oh god

2973

01:52:43,270 --> 01:52:41,199

they were so funny

2974

01:52:44,790 --> 01:52:43,280

god damn it those hats were so funny

2975

01:52:46,709 --> 01:52:44,800

they always said something different in

2976

01:52:48,709 --> 01:52:46,719

every show

2977

01:52:50,629 --> 01:52:48,719

i like what he wanted like one of the

2978

01:52:52,470 --> 01:52:50,639

many times he goes into rob's the store

2979

01:52:54,550 --> 01:52:52,480

but it's like one of the first episodes

2980

01:52:56,790 --> 01:52:54,560

where there and he goes and robs the

2981

01:53:08,229 --> 01:52:56,800

store then takes the back off and buys

2982

01:53:11,189 --> 01:53:09,910

hooked up to a boat that has a truck

2983

01:53:13,030 --> 01:53:11,199

hooked up to it

2984

01:53:15,030 --> 01:53:13,040

it's so great dude this shit's so funny

2985

01:53:17,030 --> 01:53:15,040

squid billy's and metalocalypse were

2986

01:53:20,070 --> 01:53:17,040

like my favorite things

2987

01:53:21,830 --> 01:53:20,080

metal and aqua teen oh man aqua team

2988

01:53:23,669 --> 01:53:21,840

hunger force was

2989

01:53:25,510 --> 01:53:23,679

good for the most part we got kind of

2990

01:53:26,950 --> 01:53:25,520

rough at points all of those shows

2991

01:53:29,589 --> 01:53:26,960

really did to be honest with you because

2992

01:53:31,350 --> 01:53:29,599

there was like i'd say 80 of it was just

2993

01:53:32,870 --> 01:53:31,360

sheer yeah i can get with i can get i

2994

01:53:34,390 --> 01:53:32,880

can get down this is funny as hell and

2995

01:53:35,270 --> 01:53:34,400

then there's like oh

2996

01:53:38,709 --> 01:53:35,280

oh

2997

01:53:43,110 --> 01:53:38,719

yeah

2998

01:53:46,790 --> 01:53:44,950

[Laughter]

2999

01:53:48,790 --> 01:53:46,800

a lot of those adult swim things are

3000

01:53:49,910 --> 01:53:48,800

like make you question like your dark

3001
01:53:51,510 --> 01:53:49,920
ass humor

3002
01:53:53,189 --> 01:53:51,520
yeah well i definitely have one of the

3003
01:53:54,870 --> 01:53:53,199
darkest humors you'll find but i

3004
01:53:57,910 --> 01:53:54,880
generally don't let it out very often

3005
01:54:01,830 --> 01:53:57,920
[Laughter]

3006
01:54:02,950 --> 01:54:01,840
oh dude yes well dude

3007
01:54:04,070 --> 01:54:02,960
go for it ben

3008
01:54:05,669 --> 01:54:04,080
i was gonna say

3009
01:54:07,910 --> 01:54:05,679
i think i read somewhere that uh the

3010
01:54:09,990 --> 01:54:07,920
darker your humor the higher the

3011
01:54:10,950 --> 01:54:10,000
intelligence so i don't know that's just

3012
01:54:14,229 --> 01:54:10,960
yeah

3013
01:54:17,830 --> 01:54:15,750

i should definitely go get my phd

3014

01:54:19,350 --> 01:54:17,840

tomorrow

3015

01:54:22,070 --> 01:54:19,360

hell yeah i was gonna say well sometimes

3016

01:54:23,680 --> 01:54:22,080

you gotta have the dark humor to uh to

3017

01:54:25,669 --> 01:54:23,690

appreciate the light humor you know

3018

01:54:27,830 --> 01:54:25,679

[Music]

3019

01:54:29,669 --> 01:54:27,840

now it's fun

3020

01:54:32,390 --> 01:54:29,679

i think i think dark humor is definitely

3021

01:54:34,550 --> 01:54:32,400

a subtle humor that

3022

01:54:36,470 --> 01:54:34,560

it it i think they say i think it's just

3023

01:54:38,629 --> 01:54:36,480

synonymous with with intelligence just

3024

01:54:41,750 --> 01:54:38,639

because you kind of have to be able to

3025

01:54:43,189 --> 01:54:41,760

pull yourself out of

3026

01:54:45,510 --> 01:54:43,199

every day

3027

01:54:47,830 --> 01:54:45,520

what's acceptable in society and see a

3028

01:54:49,750 --> 01:54:47,840

different picture of the world

3029

01:54:51,189 --> 01:54:49,760

yeah definitely definitely you're not

3030

01:54:53,430 --> 01:54:51,199

viewing it through like rose-colored

3031

01:54:54,790 --> 01:54:53,440

glasses all the time oh hell no you know

3032

01:54:57,990 --> 01:54:54,800

you got to be

3033

01:55:00,550 --> 01:54:58,000

somewhat of a realist about it

3034

01:55:04,229 --> 01:55:00,560

nope nope just covered in just on ben's

3035

01:55:07,910 --> 01:55:06,390

good old rose gold

3036

01:55:09,589 --> 01:55:07,920

i mean come on this looks like silver

3037

01:55:10,310 --> 01:55:09,599

from a distant or gold from a distance

3038

01:55:11,910 --> 01:55:10,320

right

3039

01:55:14,709 --> 01:55:11,920

no it looks silvery

3040

01:55:17,669 --> 01:55:14,719

oh damn it i don't think

3041

01:55:19,430 --> 01:55:17,679

i don't think it looks goldy but like

3042

01:55:21,030 --> 01:55:19,440

like in the middle

3043

01:55:23,510 --> 01:55:21,040

where it reflects

3044

01:55:25,270 --> 01:55:23,520

kind of yeah i'll give you that well

3045

01:55:27,910 --> 01:55:25,280

there was like four people behind me i

3046

01:55:30,229 --> 01:55:27,920

don't know who they were but they judged

3047

01:55:32,390 --> 01:55:30,239

me and so were you a smoker before you

3048

01:55:34,629 --> 01:55:32,400

vaped or were you just hop on the vape

3049

01:55:35,990 --> 01:55:34,639

wagon oh

3050

01:55:37,990 --> 01:55:36,000

joe was my roommate when i smoked

3051

01:55:39,350 --> 01:55:38,000

cigarettes and dipped

3052

01:55:41,669 --> 01:55:39,360

at the same time wow you are a very

3053

01:55:44,390 --> 01:55:41,679

disgusting individual yeah

3054

01:55:45,589 --> 01:55:44,400

i was popular with the ladies 100

3055

01:55:48,790 --> 01:55:45,599

percent

3056

01:55:51,109 --> 01:55:48,800

yep until your teeth fell out

3057

01:55:53,189 --> 01:55:51,119

you know i wasn't busy i was like why am

3058

01:55:55,990 --> 01:55:53,199

i single yeah i'm like dipping and

3059

01:55:57,669 --> 01:55:56,000

smoking yeah your breath smelt and taste

3060

01:55:59,669 --> 01:55:57,679

like in the backside of a [h__h]

3061

01:56:01,510 --> 01:55:59,679

ashtray hell yeah

3062

01:56:03,669 --> 01:56:01,520

i'm i'm i'm a former smoker it's been

3063

01:56:05,669 --> 01:56:03,679

six years since i quit or so roughly i

3064

01:56:07,669 --> 01:56:05,679

just i gave up on counting after like

3065

01:56:10,870 --> 01:56:07,679

the first three or four years but

3066

01:56:13,109 --> 01:56:10,880

it's been a long time at this point so

3067

01:56:15,910 --> 01:56:13,119

i know my wife's pretty happy i quit

3068

01:56:18,629 --> 01:56:15,920

hell yeah yeah oh and being able to

3069

01:56:20,229 --> 01:56:18,639

taste things oh my god because i mean i

3070

01:56:23,669 --> 01:56:20,239

love i love cooking

3071

01:56:24,950 --> 01:56:23,679

i'm a foodie all the way and uh

3072

01:56:27,270 --> 01:56:24,960

man if

3073

01:56:28,629 --> 01:56:27,280

the the amount of things you could taste

3074

01:56:31,830 --> 01:56:28,639

after you

3075

01:56:33,910 --> 01:56:31,840

quit smoking is amazing

3076

01:56:35,350 --> 01:56:33,920

and and uh your clothes don't smell and

3077

01:56:36,070 --> 01:56:35,360

like people don't automatically judge

3078

01:56:42,550 --> 01:56:36,080

you

3079

01:56:43,589 --> 01:56:42,560

like grapes and cotton candy

3080

01:56:44,870 --> 01:56:43,599

yeah

3081

01:56:46,229 --> 01:56:44,880

100

3082

01:56:48,390 --> 01:56:46,239

that's great large marge is

3083

01:56:50,790 --> 01:56:48,400

unsubscribing dude

3084

01:56:54,870 --> 01:56:50,800

large marge

3085

01:56:57,270 --> 01:56:54,880

lie that's how you know

3086

01:56:58,550 --> 01:56:57,280

hmm well he doesn't do it anymore he

3087

01:57:00,629 --> 01:56:58,560

only vapes

3088

01:57:02,070 --> 01:57:00,639

so i don't dip anymore now he just

3089

01:57:05,910 --> 01:57:02,080

didn't no he's just gonna have cervical

3090

01:57:10,070 --> 01:57:08,790

how did you know about that

3091

01:57:13,350 --> 01:57:10,080

how did you know i have a very large

3092

01:57:21,030 --> 01:57:15,750

what okay uh don't tell her to get off

3093

01:57:24,709 --> 01:57:22,790

i'm gonna snap i don't understand the

3094

01:57:26,470 --> 01:57:24,719

vapes uh i did i did try to do the

3095

01:57:29,750 --> 01:57:26,480

e-cigarettes and stuff like that like

3096

01:57:30,709 --> 01:57:29,760

the pre-vape vapes uh i didn't yeah i

3097

01:57:32,790 --> 01:57:30,719

mean

3098

01:57:35,430 --> 01:57:32,800

all i did was all it was swapping

3099

01:57:36,709 --> 01:57:35,440

[h__h] thing for another so

3100

01:57:39,669 --> 01:57:36,719

i finally

3101

01:57:41,350 --> 01:57:39,679

quit everything just

3102

01:57:43,510 --> 01:57:41,360

cold turkey that's honestly i think

3103

01:57:46,550 --> 01:57:43,520

that's really the only true way you can

3104

01:57:47,750 --> 01:57:46,560

just finally quit is cold turkey

3105

01:57:49,030 --> 01:57:47,760

because you have to you have to kind of

3106

01:57:51,669 --> 01:57:49,040

suffer through it and you don't really

3107

01:57:53,030 --> 01:57:51,679

want to ever suffer like that again so

3108

01:57:54,629 --> 01:57:53,040

you know once you're done you're done

3109

01:57:56,310 --> 01:57:54,639

you know you get it out of your system

3110

01:57:58,470 --> 01:57:56,320

you know and i know not everybody can do

3111

01:58:00,310 --> 01:57:58,480

that i'm already aware of that otherwise

3112

01:58:01,109 --> 01:58:00,320

everybody would just quit

3113

01:58:03,350 --> 01:58:01,119

but

3114

01:58:04,870 --> 01:58:03,360

it's just you know it was just one urge

3115

01:58:06,629 --> 01:58:04,880

at a time i kept going until i

3116

01:58:07,510 --> 01:58:06,639

eventually just finally was just done

3117

01:58:09,990 --> 01:58:07,520

with it

3118

01:58:11,589 --> 01:58:10,000

i had to remember i'd uh

3119

01:58:13,750 --> 01:58:11,599

still working for

3120

01:58:15,830 --> 01:58:13,760

the cable company back then driving you

3121

01:58:18,310 --> 01:58:15,840

know doing service work all day long

3122

01:58:19,750 --> 01:58:18,320

dealing with uh we'll just say if you've

3123

01:58:21,750 --> 01:58:19,760

ever worked customer service and you got

3124

01:58:24,070 --> 01:58:21,760

that that one [h__h] that comes in that

3125

01:58:25,510 --> 01:58:24,080

like nothing's good enough for well that

3126

01:58:28,070 --> 01:58:25,520

[\h__\h] is a lot worse when you're in

3127

01:58:30,870 --> 01:58:28,080

his living room

3128

01:58:32,229 --> 01:58:30,880

yeah like like powering over you like

3129

01:58:33,189 --> 01:58:32,239

what's that howard why are you doing

3130

01:58:34,950 --> 01:58:33,199

that

3131

01:58:37,270 --> 01:58:34,960

hold on you cutting a hole through my

3132

01:58:41,510 --> 01:58:37,280

wall man no we're about to [\h__\h] in your

3133

01:58:41,520 --> 01:58:45,669

no i never did that but it's just uh

3134

01:58:49,189 --> 01:58:47,350

you definitely my favorite my favorite

3135

01:58:51,109 --> 01:58:49,199

were the guys that were like you know i

3136

01:58:52,250 --> 01:58:51,119

used to do this 35

3137

01:58:53,830 --> 01:58:52,260

hundred years ago

3138

01:58:55,830 --> 01:58:53,840

[Laughter]

3139

01:58:57,750 --> 01:58:55,840

yeah before i retired yeah that's all i

3140

01:58:59,510 --> 01:58:57,760

did was run cable i go

3141

01:59:00,950 --> 01:58:59,520

did you still crimp cable then it was

3142

01:59:01,890 --> 01:59:00,960

yeah then you have no say in what i'm

3143

01:59:04,550 --> 01:59:01,900

doing now

3144

01:59:06,149 --> 01:59:04,560

[Laughter]

3145

01:59:08,629 --> 01:59:06,159

completely different completely

3146

01:59:09,589 --> 01:59:08,639

different oh yeah it's just

3147

01:59:11,270 --> 01:59:09,599

garbage

3148

01:59:12,870 --> 01:59:11,280

that messes with the uh

3149

01:59:14,709 --> 01:59:12,880

the the flow you know if you if you

3150

01:59:16,629 --> 01:59:14,719

crimp it you know you're supposed to do

3151

01:59:18,149 --> 01:59:16,639

it slows the internet down

3152

01:59:19,830 --> 01:59:18,159

yeah it's stuck

3153

01:59:21,340 --> 01:59:19,840

or my other favorite was well i was an

3154

01:59:24,470 --> 01:59:21,350

engineer i'm like oh really you too

3155

01:59:38,070 --> 01:59:24,480

[Laughter]

3156

01:59:41,830 --> 01:59:39,830

i put a sensor in your attic it's a

3157

01:59:45,510 --> 01:59:41,840

sensor to check your quality just you

3158

01:59:52,950 --> 01:59:47,669

that's so good uh-oh somebody's a cable

3159

01:59:58,310 --> 01:59:55,109

chronos you have a new idea for tomorrow

3160

02:00:00,709 --> 01:59:58,320

so next year yeah rg11 is a thing it's

3161

02:00:03,589 --> 02:00:00,719

still a thing anything over 200 feet man

3162

02:00:06,470 --> 02:00:03,599

you still got to use rg11

3163

02:00:07,910 --> 02:00:06,480

yeah it's a it's a it's a it's a type of

3164

02:00:09,589 --> 02:00:07,920

cable you're the cable that they run to

3165

02:00:12,470 --> 02:00:09,599

your house yeah

3166

02:00:14,629 --> 02:00:12,480

we call that drop line uh so it's uh you

3167

02:00:16,950 --> 02:00:14,639

like i know primarily there's a whole

3168

02:00:20,229 --> 02:00:16,960

bunch of different types but primarily

3169

02:00:21,750 --> 02:00:20,239

use uh rg6 and rg11 rg11 is a much

3170

02:00:23,910 --> 02:00:21,760

thicker line that you use for a longer

3171

02:00:25,430 --> 02:00:23,920

distance run so if like your house is

3172

02:00:27,109 --> 02:00:25,440

like really far off the road we would

3173

02:00:29,430 --> 02:00:27,119

use that thicker line

3174

02:00:31,510 --> 02:00:29,440

oh okay nice

3175

02:00:33,990 --> 02:00:31,520

att does that [h__h] and they don't ever

3176
02:00:36,550 --> 02:00:34,000
bury it

3177
02:00:38,830 --> 02:00:36,560
i watched a video on tick tock joe i

3178
02:00:41,750 --> 02:00:38,840
feel like no jedi

3179
02:00:43,830 --> 02:00:41,760
camper i felt like i was watching your

3180
02:00:45,030 --> 02:00:43,840
uh a story you told me joey like like

3181
02:00:47,189 --> 02:00:45,040
somebody had

3182
02:00:48,629 --> 02:00:47,199
uh a cable company and put like a line

3183
02:00:51,270 --> 02:00:48,639
in and you guys had started doing

3184
02:00:52,550 --> 02:00:51,280
y'all's work and somebody had like

3185
02:00:58,550 --> 02:00:52,560
rg 11

3186
02:01:04,310 --> 02:00:58,560
coaxial cable from yeah

3187
02:01:07,430 --> 02:01:05,750
[h__\h]

3188
02:01:09,090 --> 02:01:07,440

all i know about it is like

3189

02:01:10,950 --> 02:01:09,100

quarter inch cables you know like

3190

02:01:12,790 --> 02:01:10,960

[Laughter]

3191

02:01:15,669 --> 02:01:12,800

hell yeah dude

3192

02:01:16,790 --> 02:01:15,679

no i was a cable guy for about 16 17

3193

02:01:18,629 --> 02:01:16,800

years

3194

02:01:20,229 --> 02:01:18,639

yeah

3195

02:01:22,629 --> 02:01:20,239

that's a long time this is a long time

3196

02:01:24,470 --> 02:01:22,639

to do anything that's pretty crazy i did

3197

02:01:27,189 --> 02:01:24,480

it from the time i moved to florida

3198

02:01:29,589 --> 02:01:27,199

until just recently when i got let go

3199

02:01:32,149 --> 02:01:29,599

yeah so

3200

02:01:32,590 --> 02:01:32,159

with new management i didn't really mesh

3201
02:01:34,790 --> 02:01:32,600
well

3202
02:01:36,550 --> 02:01:34,800
[Laughter]

3203
02:01:38,629 --> 02:01:36,560
i had the same problem

3204
02:01:40,629 --> 02:01:38,639
there's a joke in there somewhere about

3205
02:01:42,709 --> 02:01:40,639
like internet like mesh

3206
02:01:45,430 --> 02:01:42,719
there's a joke somewhere i'm sure there

3207
02:01:47,750 --> 02:01:45,440
is yeah yeah yeah

3208
02:01:51,350 --> 02:01:47,760
well um gary dude before we get out of

3209
02:01:53,270 --> 02:01:51,360
here man uh it's it's about that time uh

3210
02:01:55,350 --> 02:01:53,280
i just want you to know that uh i really

3211
02:01:58,870 --> 02:01:55,360
and i really enjoyed seeing you seeing

3212
02:02:01,430 --> 02:01:58,880
you on my tv man uh it's really cool to

3213
02:02:03,910 --> 02:02:01,440

get to see you and the company uh out

3214

02:02:06,229 --> 02:02:03,920

there like really actually doing some

3215

02:02:10,070 --> 02:02:06,239

[h__h] like that's really awesome uh what

3216

02:02:12,709 --> 02:02:10,080

is what is uh what's the next step

3217

02:02:15,270 --> 02:02:12,719

hold on i i i've been at i asked the

3218

02:02:18,229 --> 02:02:15,280

four times about skin walker that's

3219

02:02:20,629 --> 02:02:18,239

right go for it hit it all right so i

3220

02:02:21,430 --> 02:02:20,639

purposely ignored that today because uh

3221

02:02:36,550 --> 02:02:21,440

so

3222

02:02:38,229 --> 02:02:36,560

little bit more openly about skinwalker

3223

02:02:39,830 --> 02:02:38,239

all right so we'll see you back in like

3224

02:02:42,070 --> 02:02:39,840

two three weeks

3225

02:02:46,310 --> 02:02:43,750

not unless you absolutely beg me like

3226

02:02:48,629 --> 02:02:46,320

calling me a house like new please yeah

3227

02:02:50,310 --> 02:02:48,639

cause i'm i'm i'm i'm going off the grid

3228

02:02:52,870 --> 02:02:50,320

man you guys are

3229

02:02:54,310 --> 02:02:52,880

i'm not doing [h__h] i got i got too much

3230

02:02:57,189 --> 02:02:54,320

personal stuff i got to worry about

3231

02:02:58,709 --> 02:02:57,199

right now yeah hey you got some uh very

3232

02:02:59,910 --> 02:02:58,719

awesome people at your house that need

3233

02:03:01,750 --> 02:02:59,920

you uh

3234

02:03:02,950 --> 02:03:01,760

your full attention you don't need a

3235

02:03:04,550 --> 02:03:02,960

bunch of people asking you dumb

3236

02:03:06,629 --> 02:03:04,560

questions like us you know

3237

02:03:07,990 --> 02:03:06,639

uh you guys you guys always have a side

3238

02:03:09,270 --> 02:03:08,000

i got a soft spot in my heart for you

3239

02:03:11,589 --> 02:03:09,280

guys so

3240

02:03:13,270 --> 02:03:11,599

oh man we love you man and uh dude it

3241

02:03:14,870 --> 02:03:13,280

was yeah again

3242

02:03:16,870 --> 02:03:14,880

same thing with joe said dude it was

3243

02:03:19,109 --> 02:03:16,880

just gave me chills watching you on the

3244

02:03:21,030 --> 02:03:19,119

big screen dude it was so cool man and i

3245

02:03:22,629 --> 02:03:21,040

appreciate the support man absolutely

3246

02:03:24,149 --> 02:03:22,639

yeah everybody go out check out this

3247

02:03:25,109 --> 02:03:24,159

movie uh

3248

02:03:27,990 --> 02:03:25,119

it's

3249

02:03:28,790 --> 02:03:28,000

if anything else it will entertain you

3250

02:03:30,390 --> 02:03:28,800

yeah

3251

02:03:33,430 --> 02:03:30,400

dude a tear in the sky you can check it

3252

02:03:37,990 --> 02:03:36,149

and my man is in there

3253

02:03:39,910 --> 02:03:38,000

yeah make sure you get on there

3254

02:03:41,350 --> 02:03:39,920

even if you hate it you like it whatever

3255

02:03:43,350 --> 02:03:41,360

you know just

3256

02:03:44,550 --> 02:03:43,360

do something have an opinion

3257

02:03:46,709 --> 02:03:44,560

um

3258

02:03:49,990 --> 02:03:46,719

i i don't care if you hate it it doesn't

3259

02:03:52,229 --> 02:03:50,000

bother me if you do if it's if it's good

3260

02:03:53,350 --> 02:03:52,239

then and i'm glad that you guys enjoyed

3261

02:03:55,830 --> 02:03:53,360

it and

3262

02:03:57,109 --> 02:03:55,840

um

3263

02:03:58,940 --> 02:03:57,119

it's probably the last time you're going

3264

02:04:00,709 --> 02:03:58,950
to see me on the big screen so

3265

02:04:02,069 --> 02:04:00,719
[Music]

3266

02:04:04,870 --> 02:04:02,079
hell yeah

3267

02:04:07,510 --> 02:04:04,880
dude well what uh what what is what is

3268

02:04:09,030 --> 02:04:07,520
coming up next for you apx at the moment

3269

02:04:12,550 --> 02:04:09,040
i know you guys got a lot of stuff to

3270

02:04:14,069 --> 02:04:12,560
sift through uh um we've got uh we got

3271

02:04:16,629 --> 02:04:14,079
was it oh it's complete kind of

3272

02:04:19,030 --> 02:04:16,639
collaborations going through uh

3273

02:04:21,830 --> 02:04:19,040
soon that hopefully we can talk about um

3274

02:04:23,430 --> 02:04:21,840
and then we've got the seu conference uh

3275

02:04:26,390 --> 02:04:23,440
matthew

3276

02:04:28,870 --> 02:04:26,400

chidagas and and kevin knuth

3277

02:04:31,350 --> 02:04:28,880

both professors at uh

3278

02:04:33,669 --> 02:04:31,360

tenured professors at uh

3279

02:04:35,030 --> 02:04:33,679

the university of albany uh

3280

02:04:37,030 --> 02:04:35,040

sunny

3281

02:04:39,589 --> 02:04:37,040

they will be presenting our initial

3282

02:04:41,510 --> 02:04:39,599

findings like some of our initial work

3283

02:04:43,270 --> 02:04:41,520

uh i understand this initial work will

3284

02:04:44,629 --> 02:04:43,280

be based off of literally only one

3285

02:04:45,589 --> 02:04:44,639

percent of the data that we've gone

3286

02:04:48,470 --> 02:04:45,599

through

3287

02:04:50,550 --> 02:04:48,480

so um and then so that'll be the more on

3288

02:04:52,950 --> 02:04:50,560

the scientific side so

3289

02:04:54,390 --> 02:04:52,960

you know get you get out your your i

3290

02:04:56,709 --> 02:04:54,400

don't understand what that what what

3291

02:04:58,310 --> 02:04:56,719

they just said meters and get you get

3292

02:05:00,390 --> 02:04:58,320

your smartest friend out there to

3293

02:05:02,950 --> 02:05:00,400

translate for you because

3294

02:05:04,790 --> 02:05:02,960

they translate for me so get your own

3295

02:05:07,990 --> 02:05:04,800

scientists yes

3296

02:05:10,390 --> 02:05:08,000

i want to go to alabama for real ben

3297

02:05:12,709 --> 02:05:10,400

no it's going to be a great time man uh

3298

02:05:14,470 --> 02:05:12,719

these guys uh this is this is the real

3299

02:05:16,550 --> 02:05:14,480

deal these are all

3300

02:05:18,390 --> 02:05:16,560

all the presenters are all actual

3301

02:05:20,149 --> 02:05:18,400

scientists for the most part

3302

02:05:22,149 --> 02:05:20,159

you know and uh you know i think the

3303

02:05:25,030 --> 02:05:22,159

keynote speaker is is one of the pilots

3304

02:05:26,550 --> 02:05:25,040

uh from the 2015 event

3305

02:05:28,069 --> 02:05:26,560

so that's awesome

3306

02:05:29,510 --> 02:05:28,079

uh but uh

3307

02:05:40,470 --> 02:05:29,520

uh

3308

02:05:41,510 --> 02:05:40,480

there

3309

02:05:44,069 --> 02:05:41,520

cool

3310

02:05:46,790 --> 02:05:44,079

so there's like a an event by skinwalker

3311

02:05:49,669 --> 02:05:46,800

ranch well i think it's actually by uh

3312

02:05:52,390 --> 02:05:49,679

the county that

3313

02:05:54,310 --> 02:05:52,400

they're in but the entire cast will be

3314

02:05:55,350 --> 02:05:54,320

there and all of you ipx will there be

3315

02:05:58,629 --> 02:05:55,360

there too

3316

02:06:00,390 --> 02:05:58,639

cool so so if you ever wanted to go hug

3317

02:06:03,830 --> 02:06:00,400

travis taylor no he's not going to hug

3318

02:06:05,669 --> 02:06:03,840

you but he's going to be there you know

3319

02:06:08,390 --> 02:06:05,679

eric bart is probably the guy that i'm

3320

02:06:10,629 --> 02:06:08,400

really most excited to see again i loved

3321

02:06:12,870 --> 02:06:10,639

all the guys from the rants they're all

3322

02:06:15,510 --> 02:06:12,880

great great dudes great people and a

3323

02:06:17,990 --> 02:06:15,520

real tight knit group and uh

3324

02:06:20,229 --> 02:06:18,000

but uh i think eric is the one that i

3325

02:06:22,069 --> 02:06:20,239

was uh you know smitten with the whole

3326

02:06:24,229 --> 02:06:22,079

time because he's god that guy's so

3327

02:06:25,910 --> 02:06:24,239

brilliant

3328

02:06:27,910 --> 02:06:25,920

yes

3329

02:06:30,149 --> 02:06:27,920

love it man

3330

02:06:31,750 --> 02:06:30,159

well i'm excited for the future uh with

3331

02:06:32,870 --> 02:06:31,760

you guys again man like i'm just so

3332

02:06:35,910 --> 02:06:32,880

excited

3333

02:06:38,709 --> 02:06:35,920

that this this idea and and and idea

3334

02:06:40,950 --> 02:06:38,719

yeah this idea and vision came to life

3335

02:06:44,470 --> 02:06:40,960

in such an awesome way all the the data

3336

02:06:46,790 --> 02:06:44,480

and and was able to to be presented in a

3337

02:06:49,510 --> 02:06:46,800

beautiful way man it's just awesome and

3338

02:06:51,830 --> 02:06:49,520

i can't wait to see what's next brother

3339

02:06:54,310 --> 02:06:51,840

oh let me address another thing uh

3340

02:06:57,270 --> 02:06:54,320

kronos all words have weight it just

3341

02:06:59,990 --> 02:06:57,280

matters what years hear them

3342

02:07:01,510 --> 02:07:00,000

can you address this one too uh

3343

02:07:03,830 --> 02:07:01,520

mr grahal says any hot chicks in

3344

02:07:06,709 --> 02:07:03,840

skinwalker episodes oh snap that's a

3345

02:07:07,830 --> 02:07:06,719

great question um there's some hot dudes

3346

02:07:09,669 --> 02:07:07,840

i mean

3347

02:07:13,109 --> 02:07:09,679

i understand well from what i understand

3348

02:07:15,189 --> 02:07:13,119

uh travis is quite the chick maggot

3349

02:07:17,589 --> 02:07:15,199

hey dude

3350

02:07:20,310 --> 02:07:17,599

i used to love that oh my god i haven't

3351

02:07:22,950 --> 02:07:20,320

seen that i haven't even remembered that

3352

02:07:24,790 --> 02:07:22,960

i didn't even remember that that you saw

3353

02:07:30,310 --> 02:07:24,800

this is the new title cover for the

3354

02:07:33,830 --> 02:07:32,149

oh i used to love that damn show

3355

02:07:36,229 --> 02:07:33,840

everybody's pretending like oh we're on

3356

3357

02:07:41,189 --> 02:07:38,480

and right after that is salute your

3360

02:07:47,109 --> 02:07:44,079

another successful thursday dude yeah

3376

02:08:28,390 --> 02:08:26,000

very successful thirsty thursday

3377

02:08:30,709 --> 02:08:28,400

yeah i you know the thing that i i

3378

02:08:32,229 --> 02:08:30,719

messed up on though is that i forgot to

3379

02:08:34,069 --> 02:08:32,239

get a drink before i come up here so

3380

02:08:36,550 --> 02:08:34,079

i've been thirsty this whole time like

3381

02:08:39,669 --> 02:08:36,560

literally you mean i'm the only one

3382

02:08:41,589 --> 02:08:39,679

drinking silly goose juice yes

3383

02:08:44,709 --> 02:08:41,599

and gary had carl's jr

3384

02:08:47,030 --> 02:08:44,719

i i partied with matthew fox you did i

3385

02:08:47,910 --> 02:08:47,040

know way bro and you like you could have

3386

02:08:49,350 --> 02:08:47,920

gotten

3387

02:08:51,830 --> 02:08:49,360

like you could have

3388

02:08:54,069 --> 02:08:51,840

my throats scratchy huh it's kidding i

3389

02:08:55,669 --> 02:08:54,079

was like this is someone who's like wow

3390

02:08:57,589 --> 02:08:55,679

i'm so thirsty right now you're turning

3391

02:08:59,589 --> 02:08:57,599

into an italian guy hey my kids are

3392

02:09:01,430 --> 02:08:59,599

going you're talking about what you're

3393

02:09:05,589 --> 02:09:01,440

talking about some macaroni and cheese i

3394

02:09:07,589 --> 02:09:05,599

call it i call that italian i'm dying

3395

02:09:08,629 --> 02:09:07,599

dying for some mac and cheese metallic

3396

02:09:10,629 --> 02:09:08,639

some

3397

02:09:11,990 --> 02:09:10,639

italian food

3398

02:09:14,790 --> 02:09:12,000

i feel like i could say anything like

3399

02:09:19,109 --> 02:09:16,950

all right cue the music yeah all right

3400

02:09:21,510 --> 02:09:19,119

hanging out you guys uh this has been

3402
02:09:28,520 --> 02:09:23,830
another episode

3403
02:09:32,870 --> 02:09:28,530
[Music]

3404
02:09:37,030 --> 02:09:35,669

it's actually

3416

02:10:02,550 --> 02:10:00,480

the next tuesday

3417

02:10:04,629 --> 02:10:02,560

my apologies but we got a good week

3418

02:10:07,030 --> 02:10:04,639

coming up next week we're gonna be

3419

02:10:08,470 --> 02:10:07,040

um on jim goodall and lynn's show on

3420

02:10:10,550 --> 02:10:08,480

monday

3421

02:10:12,790 --> 02:10:10,560

uh that's gonna be pretty sweet yeah i'm

3422

02:10:14,709 --> 02:10:12,800

excited to talk to them

3423

02:10:18,470 --> 02:10:14,719

two people i love talking to

3424

02:10:21,990 --> 02:10:18,480

rebellious ufology uh it's all good saw

3425

02:10:24,149 --> 02:10:22,000

good all mondays something like that

3426

02:10:26,950 --> 02:10:24,159

yeah and then tuesday we're not doing

3427

02:10:30,310 --> 02:10:26,960

the show but we'll be back

3428

02:10:31,750 --> 02:10:30,320

tuesday we're going to do our show then

3429

02:10:33,430 --> 02:10:31,760

um

3430

02:10:35,270 --> 02:10:33,440

with the next this coming tuesday this

3431

02:10:36,709 --> 02:10:35,280

coming tuesday okay cool we're going to

3432

02:10:39,430 --> 02:10:36,719

do our show because we've missed our our

3433

02:10:41,589 --> 02:10:39,440

tuesday too hey we see we did it on

3434

02:10:44,629 --> 02:10:41,599

purpose we missed two tuesdays in a row

3435

02:10:46,790 --> 02:10:44,639

on two taco two missing two tuesdays

3436

02:10:48,550 --> 02:10:46,800

these were at least we're consistent

3437

02:10:50,149 --> 02:10:48,560

yeah do we keep it in the in the twos

3438

02:10:51,589 --> 02:10:50,159

you know i think i

3439

02:10:53,109 --> 02:10:51,599

i think this next tuesday is going to be

3440

02:10:55,589 --> 02:10:53,119

a shirtless one

3441

02:10:57,510 --> 02:10:55,599

it might be dude

3442

02:10:59,109 --> 02:10:57,520

shirtless tonight on us hey you know i

3443

02:11:00,550 --> 02:10:59,119

mean we'll uh

3444

02:11:02,629 --> 02:11:00,560

we'll discuss it right before the show

3445

02:11:04,149 --> 02:11:02,639

it'll be a surprise yeah we'll see if

3446

02:11:07,990 --> 02:11:04,159

you want if you want to see if we're

3447

02:11:09,589 --> 02:11:08,000

wearing shirts or not show up on tuesday

3448

02:11:11,510 --> 02:11:09,599

i just remember that there's an episode

3449

02:11:13,430 --> 02:11:11,520

where i had i had cut holes in my

3450

02:11:15,669 --> 02:11:13,440

nipples and i showed that i like had

3451

02:11:17,430 --> 02:11:15,679

them ripped i forgot about that i'll

3452
