

1
00:00:31,990 --> 00:00:01,830

try

2
00:00:32,950 --> 00:00:32,000

[Music]

3
00:00:34,709 --> 00:00:32,960

oh

4
00:00:37,270 --> 00:00:34,719

yeah hey

5
00:00:39,430 --> 00:00:37,280
this is another episode of ufo garage

6
00:00:43,590 --> 00:00:39,440
i'm ben and i'm joe and this is where we

7
00:00:45,350 --> 00:00:43,600
talk about ufos aliens and all things

8
00:00:49,029 --> 00:00:45,360
weird

9
00:00:52,150 --> 00:00:49,039
hello everyone how are you this evening

10
00:00:55,189 --> 00:00:52,160
hello everyone if you will notice joe

11
00:00:57,110 --> 00:00:55,199
has a tiny hat on his head it is a

12
00:01:00,389 --> 00:00:57,120
mushroom hat and

13
00:01:03,189 --> 00:01:01,910

uh

14

00:01:05,350 --> 00:01:03,199

how are you dude

15

00:01:06,870 --> 00:01:05,360

not too bad man just chilling just been

16

00:01:08,950 --> 00:01:06,880

uh just been hanging out just getting

17

00:01:09,990 --> 00:01:08,960

off of work oh yeah just uh ate some

18

00:01:12,710 --> 00:01:10,000

food

19

00:01:14,550 --> 00:01:12,720

hopping on to hang out on tuesday

20

00:01:18,230 --> 00:01:14,560

dude that's what's up we got we got some

21

00:01:23,830 --> 00:01:21,830

topics topics two topics are you ready

22

00:01:25,429 --> 00:01:23,840

to pop that top off dude dude let's do

23

00:01:29,190 --> 00:01:25,439

it i know you just did you just put a

24

00:01:34,390 --> 00:01:31,060

topic number one

25

00:01:36,230 --> 00:01:34,400

[Laughter]

26
00:01:37,990 --> 00:01:36,240
go to the facebook or you want to do the

27
00:01:41,670 --> 00:01:38,000
james webb

28
00:01:43,429 --> 00:01:41,680
dude uh let's go through

29
00:01:45,350 --> 00:01:43,439
hmm

30
00:01:47,270 --> 00:01:45,360
let's go through james webb stuff first

31
00:01:48,710 --> 00:01:47,280
okay all right give me a second all

32
00:01:50,950 --> 00:01:48,720
right so james webb

33
00:01:53,670 --> 00:01:50,960
they just came out with the the

34
00:01:55,590 --> 00:01:53,680
the new photos right yeah

35
00:01:58,389 --> 00:01:55,600
do they look awesome dude

36
00:02:00,550 --> 00:01:58,399
they look amazing they look amazing

37
00:02:02,069 --> 00:02:00,560
uh i brought up so

38
00:02:03,270 --> 00:02:02,079

uh

39

00:02:05,350 --> 00:02:03,280

i brought up the

40

00:02:07,109 --> 00:02:05,360

just james webb telescope ones and then

41

00:02:08,630 --> 00:02:07,119

there's a comparison between that and

42

00:02:10,790 --> 00:02:08,640

the hubble

43

00:02:13,190 --> 00:02:10,800

uh the james webb like i guess i don't

44

00:02:14,390 --> 00:02:13,200

know how they lined up these photos so

45

00:02:17,350 --> 00:02:14,400

perfectly

46

00:02:18,869 --> 00:02:17,360

to shoot the same exact photo

47

00:02:20,790 --> 00:02:18,879

that the hubble took

48

00:02:23,270 --> 00:02:20,800

but like with yeah with the james webb

49

00:02:24,790 --> 00:02:23,280

telescope it's so nuts

50

00:02:26,309 --> 00:02:24,800

uh but dude this one have you seen this

51
00:02:27,910 --> 00:02:26,319
one it looks like a huge eye like an

52
00:02:29,910 --> 00:02:27,920
iris

53
00:02:32,229 --> 00:02:29,920
it's like there's like a river in the oh

54
00:02:34,869 --> 00:02:32,239
my god yeah it's like it's like the red

55
00:02:38,309 --> 00:02:34,879
with the blue in the middle yes dude

56
00:02:39,270 --> 00:02:38,319
yeah [h__h] that brown like fiery goodness

57
00:02:41,270 --> 00:02:39,280
dude

58
00:02:43,030 --> 00:02:41,280
how dope is that at first i was like

59
00:02:44,630 --> 00:02:43,040
wait a second we've already seen all

60
00:02:47,190 --> 00:02:44,640
these pictures you're trying to pull a

61
00:02:49,030 --> 00:02:47,200
quick one over and then i realized then

62
00:02:51,910 --> 00:02:49,040
i realized oh you took the same picture

63
00:02:54,309 --> 00:02:51,920

so you have a reference as to

64

00:02:57,430 --> 00:02:54,319

why it's important right because yeah

65

00:02:59,270 --> 00:02:57,440

had i not seen the uh first image you

66

00:03:00,710 --> 00:02:59,280

know the original image next to the new

67

00:03:03,190 --> 00:03:00,720

one i would have been like

68

00:03:05,110 --> 00:03:03,200

oh that's horseshit we got robbed

69

00:03:06,710 --> 00:03:05,120

but now i get it i see it

70

00:03:09,589 --> 00:03:06,720

i kind of felt the same way i was like

71

00:03:14,710 --> 00:03:09,599

hmm that looks familiar

72

00:03:19,110 --> 00:03:15,670

i've seen

73

00:03:21,270 --> 00:03:19,120

my

74

00:03:23,430 --> 00:03:21,280

local library in elementary school like

75

00:03:25,509 --> 00:03:23,440

i've seen those before and now i get it

76

00:03:26,710 --> 00:03:25,519

though they're just way better photos

77

00:03:28,710 --> 00:03:26,720

this is what yeah they're way better

78

00:03:31,110 --> 00:03:28,720

photos it's like that that uh

79

00:03:32,470 --> 00:03:31,120

it's like that that uh

80

00:03:34,309 --> 00:03:32,480

filter you could do

81

00:03:35,990 --> 00:03:34,319

it's i don't i don't honestly i don't

82

00:03:37,190 --> 00:03:36,000

believe that it's it can be that good

83

00:03:39,110 --> 00:03:37,200

but there's like a filter there's like

84

00:03:40,869 --> 00:03:39,120

an app you can add like blurry photos to

85

00:03:43,750 --> 00:03:40,879

and it like makes them

86

00:03:45,670 --> 00:03:43,760

like you shot it on a dslr camera

87

00:03:48,789 --> 00:03:45,680

yeah that's kind of i it was kind of

88

00:03:55,110 --> 00:03:52,470

i smell conspiracy i don't know but uh

89

00:03:56,630 --> 00:03:55,120

it's it's a beautiful photo

90

00:04:01,910 --> 00:03:56,640

amazing

91

00:04:05,990 --> 00:04:01,920

am i like am i being an [h__h] because

92

00:04:10,229 --> 00:04:08,149

am i an [h__h] for like one like more

93

00:04:11,190 --> 00:04:10,239

like like

94

00:04:12,710 --> 00:04:11,200

like

95

00:04:15,350 --> 00:04:12,720

i'm sitting here and i'm looking at this

96

00:04:18,629 --> 00:04:15,360

photo judging these scientists right who

97

00:04:20,150 --> 00:04:18,639

like have spent billions of dollars in

98

00:04:21,749 --> 00:04:20,160

years and years

99

00:04:24,390 --> 00:04:21,759

of research

100

00:04:25,590 --> 00:04:24,400

decades and decades to acquire this

101
00:04:27,270 --> 00:04:25,600

photo and i'm like

102
00:04:29,030 --> 00:04:27,280

[Music]

103
00:04:30,710 --> 00:04:29,040

like am i an [\h__\h] for that like i

104
00:04:33,110 --> 00:04:30,720

feel like i'm kind of an [\h__\h] but

105
00:04:34,790 --> 00:04:33,120

then like i'm kind of not you know like

106
00:04:36,710 --> 00:04:34,800

i think it's all about perspective like

107
00:04:38,070 --> 00:04:36,720

i think we were i think i was expecting

108
00:04:39,909 --> 00:04:38,080

something like okay i want to see what

109
00:04:41,749 --> 00:04:39,919

the sun's [\h__\h] looks like yeah like

110
00:04:43,670 --> 00:04:41,759

you're exactly right there it looks like

111
00:04:45,430 --> 00:04:43,680

it looks like you just put a snapchat

112
00:04:47,510 --> 00:04:45,440

filter on the hubble like that's all you

113
00:04:49,430 --> 00:04:47,520

did you just made everything prettier

114

00:04:51,030 --> 00:04:49,440

like look it's the it's the beauty

115

00:04:52,870 --> 00:04:51,040

filter

116

00:04:54,790 --> 00:04:52,880

like it gets rid of all the blemishes

117

00:04:56,629 --> 00:04:54,800

and brings out all the brights you know

118

00:04:59,030 --> 00:04:56,639

like smooth the wrinkles it's like a

119

00:05:01,430 --> 00:04:59,040

lose everything out like that they just

120

00:05:03,270 --> 00:05:01,440

like that's really what they did

121

00:05:04,390 --> 00:05:03,280

like what if that is what they did

122

00:05:06,550 --> 00:05:04,400

though

123

00:05:07,830 --> 00:05:06,560

like like they're just tricking us now

124

00:05:09,670 --> 00:05:07,840

because like really what happened was

125

00:05:11,670 --> 00:05:09,680

the web went out and they didn't see

126

00:05:13,350 --> 00:05:11,680

this big ass like meteorite and as soon

127

00:05:16,230 --> 00:05:13,360

as it like got out of the atmosphere it

128

00:05:18,070 --> 00:05:16,240

was like it like smashed it

129

00:05:20,550 --> 00:05:18,080

and it was going it was done like like

130

00:05:22,870 --> 00:05:20,560

like somebody forgot to to oh hey jerry

131

00:05:24,469 --> 00:05:22,880

did you add the the battery to the the

132

00:05:25,909 --> 00:05:24,479

operating uh

133

00:05:27,029 --> 00:05:25,919

uh gimbal

134

00:05:28,550 --> 00:05:27,039

oh no

135

00:05:30,230 --> 00:05:28,560

like there was like this one tiny piece

136

00:05:32,550 --> 00:05:30,240

that they forgot to add so now they're

137

00:05:34,070 --> 00:05:32,560

like covering their tracks

138

00:05:35,430 --> 00:05:34,080

there's like one guy that walks through

139

00:05:37,510 --> 00:05:35,440

the door as they're all watching it

140

00:05:39,670 --> 00:05:37,520

deploy itself and he's like hey what

141

00:05:41,350 --> 00:05:39,680

does the screw go to

142

00:05:42,469 --> 00:05:41,360

and everybody turns

143

00:05:44,710 --> 00:05:42,479

they're like

144

00:05:46,950 --> 00:05:44,720

it's the one screw that like uh self

145

00:05:49,029 --> 00:05:46,960

combobulates

146

00:05:54,150 --> 00:05:49,039

it's all in space it is slowly just one

147

00:05:57,350 --> 00:05:55,430

that's why they didn't have any live

148

00:05:59,350 --> 00:05:57,360

update videos of it it was like it was

149

00:06:01,029 --> 00:05:59,360

all it was all it was all cgi right he

150

00:06:02,550 --> 00:06:01,039

was like i was yeah that's right it was

151
00:06:04,790 --> 00:06:02,560
on cgi

152
00:06:06,790 --> 00:06:04,800
he was like dude i forgot i put it in my

153
00:06:08,950 --> 00:06:06,800
pocket and then like i meant to bring it

154
00:06:11,430 --> 00:06:08,960
to work the next day but my wife she

155
00:06:13,029 --> 00:06:11,440
washed it and i couldn't find it and

156
00:06:14,550 --> 00:06:13,039
then i heard something bouncing around

157
00:06:17,350 --> 00:06:14,560
in my dryer the other day and i was like

158
00:06:19,830 --> 00:06:17,360
oh [\h__\h] it's that screw

159
00:06:21,830 --> 00:06:19,840
like why my wife washed my pants cause i

160
00:06:23,430 --> 00:06:21,840
happened to [\h__\h] and them

161
00:06:25,430 --> 00:06:23,440
okay is that what you guys wanted me to

162
00:06:27,430 --> 00:06:25,440
tell you that i shared my pants

163
00:06:29,749 --> 00:06:27,440

and that's why the james welch

164

00:06:31,749 --> 00:06:29,759

james webb's telescope is not working

165

00:06:33,830 --> 00:06:31,759

but i would assume i would assume that

166

00:06:35,350 --> 00:06:33,840

these are like i said just uh we're just

167

00:06:37,350 --> 00:06:35,360

comparing right we're comparing the

168

00:06:39,029 --> 00:06:37,360

photographs that they can both take or

169

00:06:40,950 --> 00:06:39,039

the images that they're both taking

170

00:06:43,590 --> 00:06:40,960

right and i would assume here pretty

171

00:06:45,189 --> 00:06:43,600

soon the james well it already is right

172

00:06:46,790 --> 00:06:45,199

but it's about to show out you know it's

173

00:06:50,150 --> 00:06:46,800

about to be like hey look at this [h__\h]

174

00:06:52,950 --> 00:06:50,160

yeah it's good it's about to be like um

175

00:06:55,350 --> 00:06:52,960

like you see those memes like uh

176
00:06:57,189 --> 00:06:55,360
like girls post like

177
00:06:58,390 --> 00:06:57,199
the glow ups after they get out of a bad

178
00:07:03,670 --> 00:06:58,400
relationship it's gonna be kind of like

179
00:07:07,589 --> 00:07:05,670
somebody made a post on our page and

180
00:07:09,189 --> 00:07:07,599
they were like wait a second the

181
00:07:12,070 --> 00:07:09,199
universe is

182
00:07:13,430 --> 00:07:12,080
13.8 billion years old oh yeah then why

183
00:07:15,830 --> 00:07:13,440
did we build the telescope that all

184
00:07:17,029 --> 00:07:15,840
these looks back 13 billion years old

185
00:07:23,510 --> 00:07:17,039
like

186
00:07:25,350 --> 00:07:23,520
yeah i thought that's a good point yeah

187
00:07:27,350 --> 00:07:25,360
like it okay so we made a telescope to

188
00:07:28,309 --> 00:07:27,360

go back 13 billion years the big bang

189

00:07:31,749 --> 00:07:28,319

started

190

00:07:33,350 --> 00:07:31,759

at 13.8 billion i call [h__h] yeah i

191

00:07:35,270 --> 00:07:33,360

mean

192

00:07:36,790 --> 00:07:35,280

you could just go to lead me you're like

193

00:07:39,270 --> 00:07:36,800

wait a second

194

00:07:42,390 --> 00:07:39,280

what's so what's cool is like

195

00:07:45,110 --> 00:07:42,400

from what i understand this the the lens

196

00:07:46,550 --> 00:07:45,120

uh well i'm skipping ahead here the lens

197

00:07:49,350 --> 00:07:46,560

um

198

00:07:51,270 --> 00:07:49,360

distortion is because it's looking at

199

00:07:53,270 --> 00:07:51,280

some like a galaxy that's super super

200

00:07:55,270 --> 00:07:53,280

dense or some object that's super super

201
00:07:57,749 --> 00:07:55,280
dense so it's bending the space and time

202
00:07:59,749 --> 00:07:57,759
around it therefore bending light around

203
00:08:01,909 --> 00:07:59,759
it so you're actually seeing galaxies

204
00:08:04,950 --> 00:08:01,919
and stars behind this object and that's

205
00:08:06,790 --> 00:08:04,960
why they looked warped yeah look warp so

206
00:08:08,629 --> 00:08:06,800
it's like a telescope looking into a

207
00:08:10,710 --> 00:08:08,639
bigger telescope

208
00:08:12,950 --> 00:08:10,720
yeah that is cool yeah i was wondering i

209
00:08:15,670 --> 00:08:12,960
was like are like is there like a black

210
00:08:16,950 --> 00:08:15,680
hole there yeah uh hank green on tick

211
00:08:18,869 --> 00:08:16,960
tock i'll follow him that's where that's

212
00:08:20,309 --> 00:08:18,879
where i heard all that stuff like that's

213
00:08:22,550 --> 00:08:20,319

pretty cool yeah

214

00:08:25,670 --> 00:08:22,560

which also now leads me to believe that

215

00:08:28,070 --> 00:08:25,680

like if we do go to space

216

00:08:29,909 --> 00:08:28,080

like all these photos that we see are

217

00:08:31,510 --> 00:08:29,919

like filtered with different types of

218

00:08:33,029 --> 00:08:31,520

filters so you're able to see the

219

00:08:35,269 --> 00:08:33,039

different light spectrums and things

220

00:08:36,870 --> 00:08:35,279

like that like if we go to space like is

221

00:08:38,550 --> 00:08:36,880

it just dark like does it suck because

222

00:08:40,070 --> 00:08:38,560

there's just like like a bright light in

223

00:08:41,430 --> 00:08:40,080

the distance and like you know like

224

00:08:43,029 --> 00:08:41,440

those badass pictures that they were

225

00:08:44,870 --> 00:08:43,039

taking where like stars are born and

226

00:08:47,350 --> 00:08:44,880

[\h__\h] like when you fly to it like can

227

00:08:49,670 --> 00:08:47,360

you see it is it just like a blackout of

228

00:08:51,190 --> 00:08:49,680

of stars where you don't see [\h__\h] yes

229

00:08:52,310 --> 00:08:51,200

because it's in the infrared spectrum

230

00:08:54,310 --> 00:08:52,320

that's why yeah that's one of these

231

00:08:55,750 --> 00:08:54,320

photos so if it was just you float in

232

00:08:57,430 --> 00:08:55,760

space dude

233

00:09:00,230 --> 00:08:57,440

you wouldn't see [\h__\h] you couldn't even

234

00:09:02,310 --> 00:09:00,240

see it you'd see the kind of stars right

235

00:09:03,190 --> 00:09:02,320

like the kind of the way we see them

236

00:09:04,550 --> 00:09:03,200

up here

237

00:09:06,310 --> 00:09:04,560

apparently

238

00:09:08,949 --> 00:09:06,320

that's all you see but like the

239

00:09:10,389 --> 00:09:08,959

telescope it reads in that uh infrared

240

00:09:11,750 --> 00:09:10,399

spectrum so

241

00:09:13,430 --> 00:09:11,760

like the colors i guess what you're

242

00:09:15,590 --> 00:09:13,440

seeing in these photos aren't like what

243

00:09:18,389 --> 00:09:15,600

you would see what you would see

244

00:09:19,110 --> 00:09:18,399

and also like hank green again explains

245

00:09:23,110 --> 00:09:19,120

like

246

00:09:24,550 --> 00:09:23,120

sand in in the galaxy what we're looking

247

00:09:25,910 --> 00:09:24,560

at right now which is freaking

248

00:09:28,230 --> 00:09:25,920

phenomenal how do they find the same

249

00:09:31,190 --> 00:09:28,240

exact spot

250

00:09:33,750 --> 00:09:31,200

as the the hubble and like i mean crazy

251
00:09:36,150 --> 00:09:33,760
i'm sure they have records right we took

252
00:09:38,150 --> 00:09:36,160
this picture facing this way in this

253
00:09:39,350 --> 00:09:38,160
direction the sky

254
00:09:40,870 --> 00:09:39,360
hey yeah

255
00:09:42,550 --> 00:09:40,880
they're they're they're smart you know

256
00:09:45,190 --> 00:09:42,560
there's computers and

257
00:09:46,710 --> 00:09:45,200
they've got a lot of pins down there

258
00:09:48,710 --> 00:09:46,720
you know

259
00:09:50,630 --> 00:09:48,720
no sure somebody wrote it down somebody

260
00:09:52,630 --> 00:09:50,640
yeah

261
00:09:54,710 --> 00:09:52,640
because this photo is like the the

262
00:09:56,070 --> 00:09:54,720
darkest portion of the sky right and

263
00:09:58,230 --> 00:09:56,080

this is what they pointed at and they

264

00:10:00,630 --> 00:09:58,240

were like look at how many galaxies are

265

00:10:01,590 --> 00:10:00,640

available in the darkest portion of the

266

00:10:04,310 --> 00:10:01,600

sky

267

00:10:06,069 --> 00:10:04,320

like we can't uh like when we look up

268

00:10:07,590 --> 00:10:06,079

that like there's nothing there it's

269

00:10:09,269 --> 00:10:07,600

like a void but then we pointed the

270

00:10:11,110 --> 00:10:09,279

telescope at it

271

00:10:12,069 --> 00:10:11,120

and this is what we saw

272

00:10:13,750 --> 00:10:12,079

dude

273

00:10:15,350 --> 00:10:13,760

this is what i think of when that when

274

00:10:18,470 --> 00:10:15,360

that photo when i saw that photo i was

275

00:10:20,389 --> 00:10:18,480

like have you like seen a a microscopic

276

00:10:21,829 --> 00:10:20,399

view of plankton

277

00:10:24,829 --> 00:10:21,839

where it shows like all these little

278

00:10:26,550 --> 00:10:24,839

tiny oh it was uh my

279

00:10:29,430 --> 00:10:26,560

microscopic

280

00:10:31,269 --> 00:10:29,440

photo of sand

281

00:10:32,630 --> 00:10:31,279

there's like all kinds of awesome [h__\h]

282

00:10:35,190 --> 00:10:32,640

in sand i don't know if you knew that

283

00:10:36,870 --> 00:10:35,200

dude it's pretty dope

284

00:10:38,230 --> 00:10:36,880

just like all kind of there's like teeth

285

00:10:40,550 --> 00:10:38,240

like that

286

00:10:43,269 --> 00:10:40,560

yeah from little little

287

00:10:44,790 --> 00:10:43,279

cephalopods named gerald

288

00:10:46,550 --> 00:10:44,800

all right i'm not finding what i like i

289

00:10:47,350 --> 00:10:46,560

was thinking about

290

00:10:50,069 --> 00:10:47,360

yeah

291

00:10:51,829 --> 00:10:50,079

so that means that like if you had a

292

00:10:54,630 --> 00:10:51,839

spaceship right you would build a

293

00:10:55,590 --> 00:10:54,640

spaceship where your windows could could

294

00:10:57,509 --> 00:10:55,600

like

295

00:10:59,670 --> 00:10:57,519

help you see through all those light

296

00:11:02,150 --> 00:10:59,680

spectrums so when you flew through space

297

00:11:04,310 --> 00:11:02,160

it would actually look cool right you

298

00:11:06,630 --> 00:11:04,320

think it would help you to like actually

299

00:11:08,790 --> 00:11:06,640

see things too like you think maybe if

300

00:11:11,670 --> 00:11:08,800

you flew through that star dust cloud

301

00:11:14,230 --> 00:11:11,680

like is that a bad idea to do that is it

302

00:11:16,470 --> 00:11:14,240

turbulent to a spaceship you know i

303

00:11:19,110 --> 00:11:16,480

would think that their like this cosmic

304

00:11:20,470 --> 00:11:19,120

dust is so like it looks

305

00:11:22,470 --> 00:11:20,480

close together and we can make it out as

306

00:11:24,790 --> 00:11:22,480

one object or

307

00:11:26,949 --> 00:11:24,800

cascade because of the reference like

308

00:11:28,230 --> 00:11:26,959

our perspective but if you get close to

309

00:11:29,350 --> 00:11:28,240

it it's like it's like flying through a

310

00:11:31,670 --> 00:11:29,360

cloud like once you get in there it's

311

00:11:33,910 --> 00:11:31,680

just [h__h] like all right

312

00:11:35,269 --> 00:11:33,920

it's just milk there's milk everywhere i

313

00:11:37,030 --> 00:11:35,279

don't think we would we would get it

314

00:11:38,150 --> 00:11:37,040

like it doesn't look like this it only

315

00:11:40,150 --> 00:11:38,160

looks like this from from this

316

00:11:41,990 --> 00:11:40,160

perspective yeah but that's all i'm

317

00:11:43,910 --> 00:11:42,000

wondering like yeah when you go through

318

00:11:45,910 --> 00:11:43,920

clouds it gets like all turbulent and

319

00:11:47,670 --> 00:11:45,920

[h__h] like is it the same in space do you

320

00:11:50,310 --> 00:11:47,680

get turbulence in space when you fly

321

00:11:52,470 --> 00:11:50,320

through star dust clouds problems or is

322

00:11:55,030 --> 00:11:52,480

it still just like smooth sailing or is

323

00:11:57,110 --> 00:11:55,040

it that like there's like you know like

324

00:11:58,550 --> 00:11:57,120

there's like so like little friction

325

00:12:00,310 --> 00:11:58,560

that like when you fly through this dust

326

00:12:02,230 --> 00:12:00,320

cloud it's a big deal because like now

327

00:12:04,230 --> 00:12:02,240

it's like it's like actual like mass

328

00:12:05,990 --> 00:12:04,240

hitting hitting your [h__h] you know all

329

00:12:10,710 --> 00:12:06,000

right it's different than like maybe

330

00:12:14,629 --> 00:12:12,870

if we had a big-ass plane i don't think

331

00:12:17,350 --> 00:12:14,639

i think we wouldn't feel it but we need

332

00:12:18,949 --> 00:12:17,360

a bit like big big play i'm gonna ask

333

00:12:21,750 --> 00:12:18,959

i'm gonna ask jim goodall what happens

334

00:12:23,350 --> 00:12:21,760

if when you fly through a cloud in space

335

00:12:24,629 --> 00:12:23,360

is it turbulent

336

00:12:27,829 --> 00:12:24,639

that's a great question i'm going to ask

337

00:12:35,350 --> 00:12:28,870

yeah

338

00:12:37,030 --> 00:12:35,360

[Music]

339

00:12:39,030 --> 00:12:37,040

gonna come hang out

340

00:12:40,870 --> 00:12:39,040

all right uh you want to go to this

341

00:12:43,829 --> 00:12:40,880

bring your own couch that's a pretty

342

00:12:46,790 --> 00:12:43,839

sweet photo yes dude

343

00:12:48,870 --> 00:12:46,800

and oh so the refraction the six pointed

344

00:12:51,430 --> 00:12:48,880

uh refractions of light that's because

345

00:12:55,190 --> 00:12:51,440

of the the way that it is

346

00:12:56,710 --> 00:12:55,200

the james the the array of mirrors that

347

00:13:05,730 --> 00:12:56,720

star looks like that because that's the

348

00:13:05,740 --> 00:13:14,389

[Music]

349

00:13:14,399 --> 00:13:17,829

the longer i look the more i see

350

00:13:21,910 --> 00:13:19,670

so like every time you see and so every

351

00:13:23,750 --> 00:13:21,920

time we see this beautiful image of

352

00:13:25,670 --> 00:13:23,760

these stars looking beautiful it's

353

00:13:27,269 --> 00:13:25,680

because it's [\h__\h] up

354

00:13:29,030 --> 00:13:27,279

what do you mean like though it's

355

00:13:31,350 --> 00:13:29,040

because the telescope is [\h__\h] up like

356

00:13:33,430 --> 00:13:31,360

that's why they look so beautiful like

357

00:13:34,870 --> 00:13:33,440

oh no they don't really look that cool

358

00:13:37,110 --> 00:13:34,880

we gave them we gave the telescope

359

00:13:39,189 --> 00:13:37,120

mushrooms just before we

360

00:13:42,310 --> 00:13:39,199

it's still tripping we go we got a like

361

00:13:44,310 --> 00:13:42,320

a couple like two more hours dude

362

00:13:46,790 --> 00:13:44,320

digital psilocybin i wonder what that

363

00:13:49,030 --> 00:13:46,800

would be like a digital soul

364

00:13:50,949 --> 00:13:49,040

could you ever program that

365

00:13:51,750 --> 00:13:50,959

could you could you program like what

366

00:13:54,389 --> 00:13:51,760

like

367

00:13:55,910 --> 00:13:54,399

what a hallucinogenic would do to you

368

00:13:57,670 --> 00:13:55,920

could you i don't know how could you

369

00:13:59,670 --> 00:13:57,680

could you program that was that one of

370

00:14:00,829 --> 00:13:59,680

those like natural things that like just

371

00:14:03,110 --> 00:14:00,839

occurs

372

00:14:04,150 --> 00:14:03,120

like i don't know

373

00:14:06,870 --> 00:14:04,160

i don't know it's kind of a weird

374

00:14:09,430 --> 00:14:06,880

thought if i were building an ai or a

375

00:14:11,350 --> 00:14:09,440

robot or some kind of sentient being

376
00:14:12,629 --> 00:14:11,360
that would be the first thing i would do

377
00:14:15,189 --> 00:14:12,639
like all right

378
00:14:16,790 --> 00:14:15,199
okay we have all systems normal

379
00:14:18,550 --> 00:14:16,800
let's let's figure out the trippy [h__h]

380
00:14:21,110 --> 00:14:18,560
first and then and then work our way

381
00:14:23,030 --> 00:14:21,120
back because normal is like

382
00:14:24,949 --> 00:14:23,040
you know predictable yeah let's figure

383
00:14:28,310 --> 00:14:24,959
out the unpredictable stuff

384
00:14:30,790 --> 00:14:28,320
it's just weird because like when you

385
00:14:32,870 --> 00:14:30,800
i mean i guess in a very like

386
00:14:37,269 --> 00:14:32,880
uh

387
00:14:39,750 --> 00:14:37,279
easy to do it but like if for me like if

388
00:14:41,829 --> 00:14:39,760

you're having a psychedelic trip that

389

00:14:43,509 --> 00:14:41,839

that psychedelic trip is so personal to

390

00:14:45,430 --> 00:14:43,519

you like how could somebody else

391

00:14:46,790 --> 00:14:45,440

recreate your own

392

00:14:49,030 --> 00:14:46,800

uh like

393

00:14:51,110 --> 00:14:49,040

psychedelic trip that you go into but

394

00:14:53,189 --> 00:14:51,120

then it's also easy to just like program

395

00:14:54,710 --> 00:14:53,199

some [h__\h] and be like oh yeah monster

396

00:14:56,949 --> 00:14:54,720

out of the wall and then like a monster

397

00:14:59,430 --> 00:14:56,959

comes out of the wall right

398

00:15:01,910 --> 00:14:59,440

yeah i feel like what they're going to

399

00:15:03,269 --> 00:15:01,920

do completely different things

400

00:15:07,430 --> 00:15:03,279

i wonder if like

401
00:15:11,670 --> 00:15:07,440
the the uh intricacy and like trips have

402
00:15:13,030 --> 00:15:11,680
have gotten more creative because

403
00:15:14,389 --> 00:15:13,040
uh

404
00:15:16,230 --> 00:15:14,399
i don't know like if you're thinking of

405
00:15:17,829 --> 00:15:16,240
it as like people writing code like you

406
00:15:19,670 --> 00:15:17,839
want to like improve on it like get more

407
00:15:22,790 --> 00:15:19,680
creative with it i wonder like

408
00:15:25,430 --> 00:15:22,800
if in the 15th century if if people

409
00:15:28,629 --> 00:15:25,440
tripping on mushrooms had more like a

410
00:15:31,189 --> 00:15:28,639
like a beginner stage

411
00:15:33,590 --> 00:15:31,199
psychedelic experience and now

412
00:15:35,430 --> 00:15:33,600
now like the creators

413
00:15:36,710 --> 00:15:35,440

or the creator has gotten like i don't

414

00:15:38,949 --> 00:15:36,720

know what the [h__\h] did i just throw him

415

00:15:42,790 --> 00:15:38,959

a clown a couple gnomes yeah a couple

416

00:15:45,509 --> 00:15:42,800

reindeer oh or dude or maybe like

417

00:15:46,710 --> 00:15:45,519

maybe the trip has always been like at

418

00:15:49,350 --> 00:15:46,720

maximum

419

00:15:51,910 --> 00:15:49,360

like for everybody who takes it and like

420

00:15:55,030 --> 00:15:51,920

maybe like just back then like they were

421

00:15:56,550 --> 00:15:55,040

learning about these experiences right

422

00:15:59,269 --> 00:15:56,560

and like we just got no point to where

423

00:16:01,350 --> 00:15:59,279

we understand a little bit of the trip

424

00:16:03,749 --> 00:16:01,360

now and the like more advanced we get as

425

00:16:05,269 --> 00:16:03,759

a species and the more that we do those

426

00:16:07,670 --> 00:16:05,279

types of like

427

00:16:12,550 --> 00:16:10,069

those those crazy trips you know

428

00:16:14,710 --> 00:16:12,560

you start to uh maybe you start to just

429

00:16:17,030 --> 00:16:14,720

understand them better like

430

00:16:19,030 --> 00:16:17,040

they start to make more sense maybe yeah

431

00:16:21,829 --> 00:16:19,040

but maybe it's always at its maximum and

432

00:16:23,590 --> 00:16:21,839

it's just always crazy yeah and it's

433

00:16:25,670 --> 00:16:23,600

like just because of like what we're

434

00:16:28,870 --> 00:16:25,680

able to understand and

435

00:16:30,150 --> 00:16:28,880

translate oh i like that oh that's smart

436

00:16:31,670 --> 00:16:30,160

joe

437

00:16:33,990 --> 00:16:31,680

oh my god

438

00:16:36,230 --> 00:16:34,000

uh enzo had a point about those six

439

00:16:37,670 --> 00:16:36,240

point stars look like that because they

440

00:16:39,829 --> 00:16:37,680

are in the foreground of the shot and

441

00:16:43,189 --> 00:16:39,839

that's how it filters it so they can

442

00:16:47,430 --> 00:16:43,199

focus on the nebulas

443

00:16:49,350 --> 00:16:47,440

enzo coming in with them facts what's up

444

00:16:50,949 --> 00:16:49,360

that was way better than our idea it's

445

00:16:55,110 --> 00:16:50,959

just broken

446

00:16:56,949 --> 00:16:55,120

they broke it

447

00:16:58,790 --> 00:16:56,959

i like it though you know

448

00:17:01,350 --> 00:16:58,800

it's a good picture it's a good it's a

449

00:17:03,910 --> 00:17:01,360

good pick um

450

00:17:07,189 --> 00:17:03,920

oh this works kind of like explaining a

451
00:17:11,829 --> 00:17:08,870
oh that's a bigger

452
00:17:13,270 --> 00:17:11,839
a more blown up uh version of it yeah

453
00:17:15,189 --> 00:17:13,280
they blew it up

454
00:17:16,789 --> 00:17:15,199
oh my mouse just died i want to look i

455
00:17:18,630 --> 00:17:16,799
want to look past it i want to go

456
00:17:19,669 --> 00:17:18,640
further let's look further

457
00:17:23,669 --> 00:17:19,679
i love

458
00:17:24,949 --> 00:17:23,679
see one photo

459
00:17:26,870 --> 00:17:24,959
of

460
00:17:28,950 --> 00:17:26,880
20 years in the making you're like go

461
00:17:30,230 --> 00:17:28,960
further

462
00:17:31,909 --> 00:17:30,240
because we all are thinking the same

463
00:17:34,470 --> 00:17:31,919

thing it's just human nature like all of

464

00:17:37,669 --> 00:17:36,390

go further i mean you got the people

465

00:17:39,590 --> 00:17:37,679

that are like oh my god this is

466

00:17:43,350 --> 00:17:39,600

revolutionary right this is the biggest

467

00:17:47,270 --> 00:17:46,230

i mean it's cool but

468

00:17:49,029 --> 00:17:47,280

you built it

469

00:17:51,750 --> 00:17:49,039

so you you know

470

00:17:53,190 --> 00:17:51,760

i get it i get it i know it's amazing

471

00:17:56,710 --> 00:17:53,200

it's amazing it's just like they should

472

00:17:57,669 --> 00:17:56,720

have also shown a picture of like

473

00:17:59,510 --> 00:17:57,679

this

474

00:18:01,750 --> 00:17:59,520

maybe they maybe maybe they just

475

00:18:03,110 --> 00:18:01,760

released this photo because

476

00:18:05,420 --> 00:18:03,120

i don't know how long does it take to

477

00:18:06,549 --> 00:18:05,430

capture this photo you know

478

00:18:07,990 --> 00:18:06,559

[Music]

479

00:18:09,270 --> 00:18:08,000

like how long does that take i don't

480

00:18:11,350 --> 00:18:09,280

know i don't know and then how long does

481

00:18:12,630 --> 00:18:11,360

it take to send it home

482

00:18:13,909 --> 00:18:12,640

it's it's

483

00:18:16,310 --> 00:18:13,919

it's pretty far out there but it's not

484

00:18:18,789 --> 00:18:16,320

that far right i think it's getting

485

00:18:20,549 --> 00:18:18,799

farted i mean

486

00:18:23,190 --> 00:18:20,559

it's not like past the moon or anything

487

00:18:28,470 --> 00:18:27,590

it's not it's so much fast i think it is

488

00:18:30,470 --> 00:18:28,480

that

489

00:18:34,630 --> 00:18:30,480

anybody in the chat if y'all know where

490

00:18:36,310 --> 00:18:34,640

the uh james webb telescope is okay

491

00:18:37,990 --> 00:18:36,320

it is we got a movie on here because i

492

00:18:39,750 --> 00:18:38,000

remember they shot that [h__h] and people

493

00:18:42,710 --> 00:18:39,760

were like watching it fly through space

494

00:18:45,110 --> 00:18:42,720

for like 18 days that was just a cgi

495

00:18:47,350 --> 00:18:45,120

thing though it was all cgi bro it's

496

00:18:49,590 --> 00:18:47,360

like not past the moon i'm like we're

497

00:18:55,190 --> 00:18:49,600

trying like we

498

00:18:58,789 --> 00:18:56,789

yeah you're right it's way past me it's

499

00:19:00,230 --> 00:18:58,799

been a while since i i feel like most

500

00:19:01,990 --> 00:19:00,240

people in the chat are like i can't tell

501
00:19:03,750 --> 00:19:02,000
if they're joking or not

502
00:19:04,870 --> 00:19:03,760
we were not joking i watched it for like

503
00:19:06,549 --> 00:19:04,880
three days and i was like dude if this

504
00:19:08,549 --> 00:19:06,559
is gonna do this for three days like

505
00:19:10,390 --> 00:19:08,559
there's no way i can watch over 18 days

506
00:19:11,990 --> 00:19:10,400
you know

507
00:19:15,029 --> 00:19:12,000
like yeah

508
00:19:17,510 --> 00:19:15,039
oh god 18 days is a long time

509
00:19:21,510 --> 00:19:17,520
dude let's watch that cops episode let's

510
00:19:34,250 --> 00:19:21,520
go clip let's do it dog face boy uh

511
00:19:37,669 --> 00:19:36,549
[Music]

512
00:19:41,029 --> 00:19:37,679
let me

513
00:19:42,150 --> 00:19:41,039

share chrome tab share chrome tab

514

00:19:43,430 --> 00:19:42,160

add

515

00:19:45,590 --> 00:19:43,440

all right so this is the point where the

516

00:19:47,430 --> 00:19:45,600

show we take the show gets taken down

517

00:19:51,110 --> 00:19:47,440

we're not monetizing anyway like it's

518

00:19:52,470 --> 00:19:51,120

tuesday okay geez chill out youtube [h__h]

519

00:19:56,870 --> 00:19:52,480

just let me watch some videos with my

520

00:19:56,880 --> 00:19:59,270

man

521

00:20:04,149 --> 00:20:01,430

this is my house i own it okay i

522

00:20:05,350 --> 00:20:04,159

understand man you brought that window

523

00:20:07,750 --> 00:20:05,360

right there

524

00:20:10,390 --> 00:20:07,760

can you all right i'll jump through and

525

00:20:12,470 --> 00:20:10,400

meet you at front door okay and i'll

526

00:20:14,630 --> 00:20:12,480

show you the dolls that religion you

527

00:20:16,390 --> 00:20:14,640

choose though okay my religion that's

528

00:20:26,310 --> 00:20:16,400

right all right jump in there don't kick

529

00:20:26,320 --> 00:20:30,149

okay

530

00:20:30,159 --> 00:20:43,029

the timing is almost like scripted

531

00:20:47,590 --> 00:20:45,750

dude okay the 90s cops when you watch

532

00:20:49,190 --> 00:20:47,600

that let's let's talk about how cool

533

00:20:51,590 --> 00:20:49,200

those cops were right

534

00:20:53,909 --> 00:20:51,600

he's so chill dude look at him he's like

535

00:20:56,549 --> 00:20:53,919

he's like dude i mean the backstory on

536

00:20:58,549 --> 00:20:56,559

this guy is his old lady beat him up

537

00:21:00,390 --> 00:20:58,559

and like she was mad about this doll

538

00:21:02,549 --> 00:21:00,400

that he had or something he's showing

539

00:21:03,990 --> 00:21:02,559

him his religion now but like it's just

540

00:21:05,590 --> 00:21:04,000

it's so funny this guy was like all

541

00:21:07,830 --> 00:21:05,600

right you know what this guy is

542

00:21:10,070 --> 00:21:07,840

obviously like eager to tell me about

543

00:21:11,750 --> 00:21:10,080

his life like i'll take the time hear

544

00:21:14,070 --> 00:21:11,760

him out like he's being really nice like

545

00:21:17,029 --> 00:21:14,080

he doesn't have to do that like right

546

00:21:18,630 --> 00:21:17,039

he's being super chill

547

00:21:21,990 --> 00:21:18,640

it's for like tweaking this dude is like

548

00:21:24,470 --> 00:21:22,000

he's being very laid back yeah yeah

549

00:21:26,789 --> 00:21:24,480

so he walks in he walks into his house

550

00:21:27,990 --> 00:21:26,799

just for those listening some context

551
00:21:31,190 --> 00:21:28,000
he walks in

552
00:21:33,510 --> 00:21:31,200
he jumps through the window uh let's not

553
00:21:34,549 --> 00:21:33,520
uh the cop in through the front door and

554
00:21:37,270 --> 00:21:34,559
now they're in the living room and

555
00:21:38,870 --> 00:21:37,280
they're looking at this chifforobe um

556
00:21:40,230 --> 00:21:38,880
that has like

557
00:21:42,470 --> 00:21:40,240
snakes in it

558
00:21:43,830 --> 00:21:42,480
it's like i will protect you no you tell

559
00:21:45,750 --> 00:21:43,840
me where the snakes are because i hold

560
00:21:46,630 --> 00:21:45,760
on because there's not snakes in there

561
00:21:48,470 --> 00:21:46,640
are there

562
00:21:50,310 --> 00:21:48,480
protect you no you tell me where the

563
00:21:52,950 --> 00:21:50,320

snakes are cause the snakes are in here

564

00:21:55,190 --> 00:21:52,960

i want you to get a look at him

565

00:21:56,870 --> 00:21:55,200

hey yeah you're right i'll stand right

566

00:21:59,510 --> 00:21:56,880

here now wait a minute you don't

567

00:22:03,270 --> 00:21:59,520

understand how many there are

568

00:22:05,290 --> 00:22:03,280

dude you see all them snakes right

569

00:22:07,510 --> 00:22:05,300

yeah you see them snakes right there

570

00:22:09,190 --> 00:22:07,520

[Music]

571

00:22:11,110 --> 00:22:09,200

on the crowd

572

00:22:13,590 --> 00:22:11,120

it points with two hands oh you

573

00:22:15,909 --> 00:22:13,600

understand how many they are

574

00:22:17,830 --> 00:22:15,919

like everything he says is not at all

575

00:22:18,630 --> 00:22:17,840

what i thought he was about to say you

576
00:22:21,190 --> 00:22:18,640
know

577
00:22:22,310 --> 00:22:21,200
autumn snakes rap chair

578
00:22:23,750 --> 00:22:22,320
like

579
00:22:25,590 --> 00:22:23,760
do we know if they're diamondback ralph

580
00:22:27,190 --> 00:22:25,600
snake so they just like put like pythons

581
00:22:27,990 --> 00:22:27,200
or something dude i don't know they look

582
00:22:30,549 --> 00:22:28,000
like

583
00:22:32,310 --> 00:22:30,559
i don't know i don't know let's assume

584
00:22:34,070 --> 00:22:32,320
they're pythons there's more there's

585
00:22:37,669 --> 00:22:34,080
more snakes

586
00:22:42,310 --> 00:22:39,430
human life

587
00:22:43,430 --> 00:22:42,320
just like that man okay them snakes mean

588
00:22:47,029 --> 00:22:43,440

more to me

589

00:22:50,870 --> 00:22:47,039

than any human being ever born man what

590

00:22:57,510 --> 00:22:54,710

it's so funny okay so

591

00:22:58,630 --> 00:22:57,520

uh mariani there it is right there is

592

00:22:59,909 --> 00:22:58,640

that hey

593

00:23:02,230 --> 00:22:59,919

i don't know what you're looking at one

594

00:23:05,990 --> 00:23:02,240

at 209 right there the dog

595

00:23:21,110 --> 00:23:06,000

that is that is a wine opener

596

00:23:25,350 --> 00:23:23,110

he's like looking at this like altar

597

00:23:27,590 --> 00:23:25,360

with like a skull and like some candles

598

00:23:30,230 --> 00:23:27,600

and like a bunch of dolls around it

599

00:23:32,390 --> 00:23:30,240

i got it down at margaritaville down in

600

00:23:33,430 --> 00:23:32,400

93.

601
00:23:38,870 --> 00:23:33,440
you know

602
00:23:40,390 --> 00:23:38,880
me what that is that's a skeleton where

603
00:23:43,190 --> 00:23:40,400
you use it for a candle holder right

604
00:23:45,990 --> 00:23:43,200
that's all that is yeah but see this is

605
00:23:49,029 --> 00:23:46,000
the thing that she wigs out about man

606
00:23:51,269 --> 00:23:49,039
okay i uh i really don't know what this

607
00:23:53,669 --> 00:23:51,279
means i don't know

608
00:23:56,310 --> 00:23:53,679
what it amounts to

609
00:23:57,350 --> 00:23:56,320
i i believe in god and i don't pray to

610
00:23:58,789 --> 00:23:57,360
satan

611
00:24:00,310 --> 00:23:58,799
but uh

612
00:24:01,990 --> 00:24:00,320
i feel then

613
00:24:05,750 --> 00:24:02,000

the camera zooms up

614

00:24:10,549 --> 00:24:05,760

to this cow skull above

615

00:24:15,669 --> 00:24:13,510

the camera just zooms up to this [h__h]

616

00:24:18,630 --> 00:24:15,679

cow skull

617

00:24:20,549 --> 00:24:18,640

need to build these altars

618

00:24:22,710 --> 00:24:20,559

you know i usually hang feathers from

619

00:24:24,549 --> 00:24:22,720

there hey is there any more snakes back

620

00:24:26,470 --> 00:24:24,559

here is there any more snakes back there

621

00:24:29,190 --> 00:24:26,480

i swear to god i won't let nothing

622

00:24:39,470 --> 00:24:29,200

happen to you

623

00:24:39,480 --> 00:24:45,110

[Laughter]

624

00:24:45,120 --> 00:24:50,870

a closet they're open at the door

625

00:24:56,310 --> 00:24:54,470

oh my god what do you think oh yeah

626

00:25:00,070 --> 00:24:56,320

man that's all right i don't want to see

627

00:25:04,310 --> 00:25:00,080

no more oh my god it's huge she's

628

00:25:08,310 --> 00:25:06,870

what is that a 12 foot [h__h] bug

629

00:25:10,870 --> 00:25:08,320

there's two of them in there they're

630

00:25:13,190 --> 00:25:10,880

hanging out in like a a corner closet

631

00:25:16,149 --> 00:25:13,200

like a broom closet it literally holds

632

00:25:17,430 --> 00:25:16,159

like four coats like six

633

00:25:20,470 --> 00:25:17,440

babies

634

00:25:23,269 --> 00:25:20,480

and uh this is the mail

635

00:25:24,950 --> 00:25:23,279

that's a man handles the [h__h]

636

00:25:26,630 --> 00:25:24,960

hey mr moody you ever thought about

637

00:25:28,070 --> 00:25:26,640

638

00:25:30,549 --> 00:25:28,080

640

00:25:33,909 --> 00:25:31,840

more than three quarters of smoke to the

648

00:25:50,470 --> 00:25:48,400

way cigarette like smoking the butt

649

00:25:52,630 --> 00:25:50,480

somebody's yard we couldn't grab him up

655
00:26:02,149 --> 00:26:00,400
no problem

656
00:26:03,830 --> 00:26:02,159

657
00:26:05,590 --> 00:26:03,840

00:26:15,510 --> 00:26:12,720
man he's scared no i swear to the devil

663
00:26:18,070 --> 00:26:15,520

himself all right

664

00:26:20,710 --> 00:26:18,080

holy [h__\h] 90s cops

665

00:26:23,029 --> 00:26:20,720

are the best cops dude

666

00:26:25,510 --> 00:26:23,039

that's hilarious thank you champ i

667

00:26:27,190 --> 00:26:25,520

needed that dude

668

00:26:29,590 --> 00:26:27,200

it's just like

669

00:26:33,669 --> 00:26:29,600

that dude was hammered

670

00:26:37,350 --> 00:26:35,029

just the fact that that whole

671

00:26:38,390 --> 00:26:37,360

interaction ended with a handshake and a

672

00:26:40,950 --> 00:26:38,400

job offer

673

00:26:42,070 --> 00:26:40,960

it's blowing this just blows my mind i

674

00:26:43,190 --> 00:26:42,080

know

675

00:26:44,070 --> 00:26:43,200

he was like

676

00:26:46,070 --> 00:26:44,080

you know

677

00:26:48,549 --> 00:26:46,080

i see potential in this guy

678

00:26:51,350 --> 00:26:48,559

yeah you know i really do this guy's got

679

00:26:58,310 --> 00:26:55,830

so [h__h] funny dude yes oh

680

00:27:00,710 --> 00:26:58,320

oh [h__h] what time is it 8 44. okay let

681

00:27:02,310 --> 00:27:00,720

me let me get into this dude so i i got

682

00:27:04,070 --> 00:27:02,320

on this little kick dude i was just

683

00:27:06,149 --> 00:27:04,080

watching these ufo videos and we always

684

00:27:07,990 --> 00:27:06,159

hear the zeta zeta ridiculous they're

685

00:27:09,590 --> 00:27:08,000

ridiculous

686

00:27:12,070 --> 00:27:09,600

there's these guys and they come from

687

00:27:13,750 --> 00:27:12,080

zeta reticuli and i was like okay well

688

00:27:16,149 --> 00:27:13,760

like it's like what it's these three

689

00:27:18,549 --> 00:27:16,159

stars up in the sky somewhere and then

690

00:27:20,710 --> 00:27:18,559

like there's these planets over there

691

00:27:23,110 --> 00:27:20,720

and i figured out oh no no no it's the

692

00:27:25,669 --> 00:27:23,120

it's the reticulum

693

00:27:29,190 --> 00:27:25,679

star system and i was like oh reticulum

694

00:27:31,990 --> 00:27:29,200

star system okay and so i looked it up

695

00:27:34,950 --> 00:27:32,000

and i was like reticular right a fine

696

00:27:37,350 --> 00:27:34,960

network or net like structure so i guess

697

00:27:40,549 --> 00:27:37,360

that's referring to like what the the

698

00:27:42,789 --> 00:27:40,559

the constellation or that specific star

699

00:27:43,830 --> 00:27:42,799

constellation breaks down to

700

00:27:47,269 --> 00:27:43,840

they were like yeah and then there's

701
00:27:49,990 --> 00:27:47,279
these two places zeta reticuli one zero

702
00:27:53,029 --> 00:27:50,000
reticuli two right and so i just started

703
00:27:55,510 --> 00:27:53,039
googling and i and i googled uh let me

704
00:27:57,990 --> 00:27:55,520
see and i googled it do aliens live on

705
00:28:00,830 --> 00:27:58,000
zeta reticuli one or two

706
00:28:03,750 --> 00:28:00,840
and i couldn't find i couldn't find an

707
00:28:06,549 --> 00:28:03,760
answer you think google didn't know that

708
00:28:08,710 --> 00:28:06,559
yeah what did the idiot yeah i know i

709
00:28:10,630 --> 00:28:08,720
was like damn it's dude and so

710
00:28:12,149 --> 00:28:10,640
do you want to share your screen or no

711
00:28:13,750 --> 00:28:12,159
no i just read it real quick it's not

712
00:28:15,590 --> 00:28:13,760
really a lot it's just it's i have all

713
00:28:17,269 --> 00:28:15,600

these tabs open this is going to be real

714

00:28:19,110 --> 00:28:17,279

clunky if i share it oh i'm just reading

715

00:28:20,630 --> 00:28:19,120

it off but like and then i started

716

00:28:22,870 --> 00:28:20,640

looking at it i was like okay so then

717

00:28:25,190 --> 00:28:22,880

what does that even mean like reticula i

718

00:28:27,269 --> 00:28:25,200

didn't even know what that meant uh and

719

00:28:29,590 --> 00:28:27,279

so i didn't know that either yeah so

720

00:28:31,990 --> 00:28:29,600

it's like a network or a fine web of

721

00:28:33,190 --> 00:28:32,000

something and then then i was like zeta

722

00:28:34,149 --> 00:28:33,200

i mean that's

723

00:28:36,950 --> 00:28:34,159

probably

724

00:28:39,510 --> 00:28:36,960

something with the alphabet right it is

725

00:28:41,590 --> 00:28:39,520

uppercase z lowercase z uh it's the

726

00:28:44,789 --> 00:28:41,600

sixth letter of the greek alphabet in

727

00:28:46,389 --> 00:28:44,799

the system of greek numericals it has a

728

00:28:50,310 --> 00:28:46,399

value of seven

729

00:28:53,269 --> 00:28:50,320

um and i was like okay seven okay seven

730

00:28:55,750 --> 00:28:53,279

uh zeta reticuli

731

00:28:58,470 --> 00:28:55,760

uh and then like come to find out in

732

00:29:00,789 --> 00:28:58,480

other ancient cultures zeta was a word

733

00:29:02,070 --> 00:29:00,799

for like weapon and then i was like oh

734

00:29:03,190 --> 00:29:02,080

damn

735

00:29:04,950 --> 00:29:03,200

weapon

736

00:29:07,750 --> 00:29:04,960

zeta uh

737

00:29:11,110 --> 00:29:07,760

uh weapon we're talking about all these

738

00:29:13,190 --> 00:29:11,120

uh uh references to zeta reticuli and

739

00:29:15,990 --> 00:29:13,200

then hollywood and they use it in the

740

00:29:17,430 --> 00:29:16,000

films and everything and then uh yeah it

741

00:29:18,870 --> 00:29:17,440

all just fell apart it's all [\h__\h]

742

00:29:20,710 --> 00:29:18,880

like i don't i don't know i can't make a

743

00:29:22,710 --> 00:29:20,720

connection anyway oh you were trying to

744

00:29:23,909 --> 00:29:22,720

like tie it tight

745

00:29:25,990 --> 00:29:23,919

some dots

746

00:29:28,549 --> 00:29:26,000

yeah i was like no this has anything to

747

00:29:30,149 --> 00:29:28,559

do with each other

748

00:29:32,310 --> 00:29:30,159

and then i got to thinking like okay so

749

00:29:34,950 --> 00:29:32,320

where did this like

750

00:29:36,710 --> 00:29:34,960

the zeta reticulum uh

751

00:29:39,110 --> 00:29:36,720

or the reticulum constellation

752

00:29:41,750 --> 00:29:39,120

apparently was found in like the 1700s

753

00:29:43,590 --> 00:29:41,760

by some french guy it's like in a map

754

00:29:45,350 --> 00:29:43,600

they you know they charted it this and

755

00:29:46,950 --> 00:29:45,360

that and then i'll start thinking like

756

00:29:48,870 --> 00:29:46,960

well then where did the original like

757

00:29:52,710 --> 00:29:48,880

where did people where did this this

758

00:29:54,549 --> 00:29:52,720

lore of of the zeta reticuli come from

759

00:29:56,549 --> 00:29:54,559

like who where did where did that come

760

00:29:58,710 --> 00:29:56,559

from and i started doing some digging i

761

00:30:01,269 --> 00:29:58,720

didn't find a whole lot like on just

762

00:30:02,710 --> 00:30:01,279

like the origin of like the story then i

763

00:30:04,230 --> 00:30:02,720

started like thinking back and i was

764

00:30:05,830 --> 00:30:04,240

like wait a second did

765

00:30:07,750 --> 00:30:05,840

this whole thing just come from like the

766

00:30:09,669 --> 00:30:07,760

bob lazar story where he talks about

767

00:30:12,389 --> 00:30:09,679

reading that government document about

768

00:30:15,750 --> 00:30:12,399

how like supposedly they came from this

769

00:30:19,190 --> 00:30:15,760

ada reticuli uh constellation and then

770

00:30:21,269 --> 00:30:19,200

like did did that term just completely

771

00:30:23,510 --> 00:30:21,279

take off after that then you start

772

00:30:26,070 --> 00:30:23,520

hearing it like in the alien movies and

773

00:30:27,190 --> 00:30:26,080

stuff or like like it's just it's

774

00:30:29,510 --> 00:30:27,200

strange

775

00:30:32,630 --> 00:30:29,520

like that's a such a great point oh my

776

00:30:34,149 --> 00:30:32,640

gosh okay sorry i was just i was just

777

00:30:38,389 --> 00:30:34,159

affirming that

778

00:30:41,669 --> 00:30:38,399

yeah uh validating that let me see uh

779

00:30:47,430 --> 00:30:43,750

so it says uh i hate any directors if

780

00:30:49,590 --> 00:30:47,440

you want to promote your oh my gosh

781

00:30:50,870 --> 00:30:49,600

whether or not uh

782

00:30:52,630 --> 00:30:50,880

well i thought he was gonna talk about

783

00:30:54,710 --> 00:30:52,640

zeta from reading this article no

784

00:30:59,909 --> 00:30:54,720

because okay so

785

00:31:01,909 --> 00:30:59,919

um an alien if alien was in 1979 the bob

786

00:31:05,029 --> 00:31:01,919

lazar story didn't come out until the

787

00:31:07,990 --> 00:31:05,039

80s but in the alien movies they mention

788

00:31:12,230 --> 00:31:08,000

the zeta reticuli star system like

789

00:31:13,990 --> 00:31:12,240

that's a big thing oh okay so

790

00:31:16,149 --> 00:31:14,000

okay well here's the here's a quote from

791

00:31:18,470 --> 00:31:16,159

bob lazar there was some paperwork that

792

00:31:21,110 --> 00:31:18,480

indicated that this ufo

793

00:31:22,950 --> 00:31:21,120

was from the zeta reticular reticuli

794

00:31:24,789 --> 00:31:22,960

starts star system

795

00:31:27,190 --> 00:31:24,799

and you're saying it's reticulum not

796

00:31:29,669 --> 00:31:27,200

reticuli so

797

00:31:31,509 --> 00:31:29,679

it's not even it's not even the well

798

00:31:35,029 --> 00:31:31,519

okay so the thing is it's

799

00:31:37,509 --> 00:31:35,039

it's the reticulum star system inside of

800

00:31:39,350 --> 00:31:37,519

this star system

801
00:31:41,029 --> 00:31:39,360
there's these two places

802
00:31:43,590 --> 00:31:41,039
or like planets

803
00:31:45,190 --> 00:31:43,600
and they are around two suns it's it's

804
00:31:49,190 --> 00:31:45,200
like a it's a

805
00:31:51,110 --> 00:31:49,200
uh uh what are they called a bye bye uh

806
00:31:51,909 --> 00:31:51,120
what's that bible

807
00:31:55,669 --> 00:31:51,919
but

808
00:31:57,110 --> 00:31:55,679
by solar by solar dude i mean it works

809
00:32:03,990 --> 00:31:57,120
i know what you mean yeah

810
00:32:09,029 --> 00:32:07,190
anyways and there's like zeta one zeta

811
00:32:11,509 --> 00:32:09,039
two and that's where the term zeta

812
00:32:13,350 --> 00:32:11,519
reticuli comes from because they're zeta

813
00:32:16,310 --> 00:32:13,360

they're named zeta one and two but

814

00:32:19,750 --> 00:32:16,320

they're in the reticulum star system or

815

00:32:21,269 --> 00:32:19,760

cluster constellation

816

00:32:22,630 --> 00:32:21,279

dude

817

00:32:24,149 --> 00:32:22,640

okay well

818

00:32:26,070 --> 00:32:24,159

okay maybe i'm

819

00:32:31,430 --> 00:32:26,080

i am just dumb but i still don't get the

820

00:32:36,310 --> 00:32:33,110

i think reticulum

821

00:32:38,870 --> 00:32:36,320

is just uh it's describing that that

822

00:32:40,630 --> 00:32:38,880

woven network right that's that's what

823

00:32:41,750 --> 00:32:40,640

it is

824

00:32:44,710 --> 00:32:41,760

and then we're

825

00:32:46,310 --> 00:32:44,720

is like the specific plan

826

00:32:48,630 --> 00:32:46,320

maybe yeah

827

00:32:51,990 --> 00:32:48,640

binary star system thank you kevin

828

00:32:57,590 --> 00:32:55,190

we were so close dude we were so close

829

00:33:01,269 --> 00:32:57,600

buy solar freaking

830

00:33:03,350 --> 00:33:01,279

two-time suns and reticulum and zoology

831

00:33:06,310 --> 00:33:03,360

is the second stomach

832

00:33:09,190 --> 00:33:06,320

of a ruminant having a honeycomb like

833

00:33:11,190 --> 00:33:09,200

structure receiving food from the rumen

834

00:33:13,590 --> 00:33:11,200

and passing it through the

835

00:33:14,310 --> 00:33:13,600

omasium

836

00:33:18,070 --> 00:33:14,320

or

837

00:33:21,110 --> 00:33:18,080

amasum it's next to the uh phalangos

838

00:33:26,149 --> 00:33:21,120

that is a reticulating uh

839

00:33:29,830 --> 00:33:27,430

so that's a little homework for

840

00:33:32,549 --> 00:33:29,840

everybody if anybody can find like the

841

00:33:34,470 --> 00:33:32,559

like kind of like the earliest mention

842

00:33:37,590 --> 00:33:34,480

of like

843

00:33:39,990 --> 00:33:37,600

beings coming from this reticuli star

844

00:33:41,909 --> 00:33:40,000

system that would be really cool

845

00:33:44,630 --> 00:33:41,919

you know so to finish that that bob

846

00:33:45,990 --> 00:33:44,640

lazar quote dude oh yes uh there there

847

00:33:48,549 --> 00:33:46,000

was some paperwork that indicated that

848

00:33:51,110 --> 00:33:48,559

this uf this ufo was from the zeta

849

00:33:53,350 --> 00:33:51,120

reticuli star system how they obtained

850

00:33:55,509 --> 00:33:53,360

that i have at the slightest idea it

851
00:33:56,470 --> 00:33:55,519
wasn't just from the zeta reticuli star

852
00:33:59,669 --> 00:33:56,480
system

853
00:34:01,909 --> 00:33:59,679
it was what they called zr3 it was the

854
00:34:04,070 --> 00:34:01,919
third planet in that star system there

855
00:34:06,470 --> 00:34:04,080
was no other information about it other

856
00:34:07,990 --> 00:34:06,480
than that supposedly where the craft

857
00:34:10,310 --> 00:34:08,000
came from

858
00:34:12,109 --> 00:34:10,320
yeah it checks out right yeah

859
00:34:13,829 --> 00:34:12,119
i mean um

860
00:34:14,950 --> 00:34:13,839
zr3

861
00:34:23,030 --> 00:34:14,960
is

862
00:34:24,629 --> 00:34:23,040
no uh

863
00:34:26,710 --> 00:34:24,639

let's see here

864

00:34:29,510 --> 00:34:26,720

what was it called there's like a planet

865

00:34:33,430 --> 00:34:29,520

around it and they called it

866

00:34:37,510 --> 00:34:34,950

and it's like

867

00:34:39,829 --> 00:34:37,520

the size of like friggin jupiter or

868

00:34:41,349 --> 00:34:39,839

something but it it it's

869

00:34:45,190 --> 00:34:41,359

kind of like a

870

00:34:48,470 --> 00:34:45,200

earth-like planet hd13193

871

00:34:50,230 --> 00:34:48,480

no one three one three nine nine

872

00:34:55,510 --> 00:34:50,240

a b

873

00:34:57,670 --> 00:34:55,520

yeah [h__h] star

874

00:34:59,430 --> 00:34:57,680

it's in a star system it's a planet oh i

875

00:35:02,390 --> 00:34:59,440

found it i found it

876

00:35:03,910 --> 00:35:02,400

zr3 star systems

877

00:35:05,589 --> 00:35:03,920

yeah i don't know i don't know too much

878

00:35:09,190 --> 00:35:05,599

about it i started looking it up a

879

00:35:11,750 --> 00:35:09,200

little bit earlier today but also so

880

00:35:13,510 --> 00:35:11,760

with sorry go for it i was gonna say

881

00:35:16,470 --> 00:35:13,520

also i love any time we like talk about

882

00:35:19,109 --> 00:35:16,480

stars or planets or anything all of it

883

00:35:21,430 --> 00:35:19,119

is artist renditions i just love just

884

00:35:23,190 --> 00:35:21,440

knowing that like there's no there are

885

00:35:25,670 --> 00:35:23,200

photos of saturn don't get me wrong but

886

00:35:26,710 --> 00:35:25,680

like stars and stuff like yeah maybe our

887

00:35:28,230 --> 00:35:26,720

sun

888

00:35:29,670 --> 00:35:28,240

you know you could see up the ass of our

889

00:35:31,990 --> 00:35:29,680

sun

890

00:35:34,310 --> 00:35:32,000

uh which i wish you know james webb

891

00:35:36,310 --> 00:35:34,320

telescope i want to see our son's ass

892

00:35:38,230 --> 00:35:36,320

you know i want to get in there

893

00:35:40,230 --> 00:35:38,240

turn around i want to see that son our

894

00:35:43,190 --> 00:35:40,240

son's butt let's see

895

00:35:44,390 --> 00:35:43,200

but like everything else is like cgi man

896

00:35:46,230 --> 00:35:44,400

it's crazy

897

00:35:47,910 --> 00:35:46,240

so you know

898

00:35:49,910 --> 00:35:47,920

it's okay so this is what i was thinking

899

00:35:52,230 --> 00:35:49,920

right you know also in that bible thing

900

00:35:54,710 --> 00:35:52,240

he says like you know

901
00:35:56,069 --> 00:35:54,720
i assume like he was like and you know

902
00:35:58,069 --> 00:35:56,079
in a lot of these documents they

903
00:36:00,230 --> 00:35:58,079
purposely put [h__h] in them so that

904
00:36:02,550 --> 00:36:00,240
way if it leaks they kind of know who it

905
00:36:03,750 --> 00:36:02,560
came from because every document is

906
00:36:04,870 --> 00:36:03,760
different for like the people who

907
00:36:06,790 --> 00:36:04,880
receive them

908
00:36:08,710 --> 00:36:06,800
so each one they put like a couple lines

909
00:36:11,190 --> 00:36:08,720
of [h__h] in there so they know like

910
00:36:12,710 --> 00:36:11,200
where the leak is coming from

911
00:36:14,630 --> 00:36:12,720
and it's like okay that's kind of cool

912
00:36:16,390 --> 00:36:14,640
so

913
00:36:19,109 --> 00:36:16,400

that popped into my head and then i was

914

00:36:21,349 --> 00:36:19,119

like so then where did the earliest like

915

00:36:23,109 --> 00:36:21,359

mention zeta reticulite come from like

916

00:36:25,190 --> 00:36:23,119

in sci-fi did they pull that from a

917

00:36:27,589 --> 00:36:25,200

movie and then you find out like well

918

00:36:29,990 --> 00:36:27,599

alien right that's where they were going

919

00:36:31,750 --> 00:36:30,000

and that was made in 1979

920

00:36:34,230 --> 00:36:31,760

and bob lazar's stuff didn't happen till

921

00:36:35,829 --> 00:36:34,240

the late 80s right so maybe that was the

922

00:36:37,510 --> 00:36:35,839

line of [h__h] that they like pulled

923

00:36:41,030 --> 00:36:37,520

from hollywood

924

00:36:42,630 --> 00:36:41,040

and put in his little document

925

00:36:45,109 --> 00:36:42,640

you know like

926
00:36:46,870 --> 00:36:45,119
and it's not even like it might be from

927
00:36:48,710 --> 00:36:46,880
alien it might not even be from alien

928
00:36:51,109 --> 00:36:48,720
apparently there's like another

929
00:36:52,790 --> 00:36:51,119
um old sci-fi

930
00:36:55,750 --> 00:36:52,800
i guess tv show or something that may

931
00:36:57,910 --> 00:36:55,760
have like made a mention of it

932
00:36:59,670 --> 00:36:57,920
but other than that dude that's super

933
00:37:02,069 --> 00:36:59,680
interesting i kind of want to know like

934
00:37:04,870 --> 00:37:02,079
where that origin story comes from of

935
00:37:06,630 --> 00:37:04,880
zeta reticuli and beings you know you

936
00:37:09,349 --> 00:37:06,640
know san uh

937
00:37:12,870 --> 00:37:09,359
tupacabra is is working on that this

938
00:37:14,550 --> 00:37:12,880

this chart uh mapping out all

939

00:37:16,230 --> 00:37:14,560

like of ufo history i don't know if you

940

00:37:18,310 --> 00:37:16,240

knew that same guy editing our

941

00:37:19,430 --> 00:37:18,320

documentary he's doing this graphic now

942

00:37:25,829 --> 00:37:19,440

uh

943

00:37:28,310 --> 00:37:25,839

wonder if he he would know like when

944

00:37:31,510 --> 00:37:28,320

zeta reticuli was first mentioned that

945

00:37:33,349 --> 00:37:31,520

that might be cool maybe uh uh

946

00:37:36,390 --> 00:37:33,359

aspect to add

947

00:37:38,470 --> 00:37:36,400

cool because dude i'm interested because

948

00:37:41,430 --> 00:37:38,480

who knows man we we've we've talked

949

00:37:43,990 --> 00:37:41,440

about this this before like

950

00:37:46,870 --> 00:37:44,000

i i honestly personally i think bob

951

00:37:48,870 --> 00:37:46,880

lazar is telling the truth

952

00:37:52,150 --> 00:37:48,880

oh yeah i mean i think he is too but

953

00:37:54,150 --> 00:37:52,160

half of me is like okay well are you

954

00:37:55,829 --> 00:37:54,160

sure it was zeta reticuli where did you

955

00:37:57,829 --> 00:37:55,839

read that okay so

956

00:38:00,870 --> 00:37:57,839

he's just repeating something that he

957

00:38:03,270 --> 00:38:00,880

read right he wasn't there he wasn't at

958

00:38:05,589 --> 00:38:03,280

risk or he didn't he never claims to

959

00:38:07,670 --> 00:38:05,599

have so so he's not lying i'm not saying

960

00:38:10,150 --> 00:38:07,680

that doesn't disprove his story at all

961

00:38:11,750 --> 00:38:10,160

all i'm saying is what he read was maybe

962

00:38:14,310 --> 00:38:11,760

influenced

963

00:38:15,270 --> 00:38:14,320

by something else right yeah i think it

964

00:38:17,430 --> 00:38:15,280

was

965

00:38:20,230 --> 00:38:17,440

because because okay so we go back even

966

00:38:22,790 --> 00:38:20,240

further alien was 1979 and then you have

967

00:38:25,589 --> 00:38:22,800

betty and barney hill in the star map of

968

00:38:28,270 --> 00:38:25,599

the reticuli the reticulum star system

969

00:38:30,950 --> 00:38:28,280

and that was what

970

00:38:34,870 --> 00:38:30,960

61 or something like

971

00:38:38,150 --> 00:38:34,880

late 50s early 60s i believe right yeah

972

00:38:40,870 --> 00:38:38,160

so then so then that's the earliest like

973

00:38:43,990 --> 00:38:40,880

i guess account maybe that that sci-fi

974

00:38:46,470 --> 00:38:44,000

movie or sci-fi tv show that came out

975

00:38:47,990 --> 00:38:46,480

was like around that same time period

976

00:38:50,390 --> 00:38:48,000

maybe i don't know

977

00:38:52,150 --> 00:38:50,400

but if it was like later then that would

978

00:38:53,910 --> 00:38:52,160

be the earliest account and then we'd

979

00:38:55,030 --> 00:38:53,920

have to find out anything in between

980

00:38:57,190 --> 00:38:55,040

that because

981

00:38:58,390 --> 00:38:57,200

as i said they they mapped it out they

982

00:39:01,190 --> 00:38:58,400

like

983

00:39:03,190 --> 00:39:01,200

discovered it i guess in the 1700s right

984

00:39:05,030 --> 00:39:03,200

that's when they first like actually was

985

00:39:07,190 --> 00:39:05,040

like okay there's this little place

986

00:39:08,470 --> 00:39:07,200

there's this like tiny little speck in

987

00:39:09,990 --> 00:39:08,480

the sky

988

00:39:11,750 --> 00:39:10,000

that is

989

00:39:13,109 --> 00:39:11,760

because it's very it's very close to us

990

00:39:15,750 --> 00:39:13,119

it's like one of the closest star

991

00:39:17,670 --> 00:39:15,760

systems to us got it okay

992

00:39:21,030 --> 00:39:17,680

so that's what makes it important so

993

00:39:23,510 --> 00:39:21,040

it's like okay we have this star system

994

00:39:25,510 --> 00:39:23,520

it's pretty close to us like how do we

995

00:39:28,310 --> 00:39:25,520

find out like what came first in this

996

00:39:29,750 --> 00:39:28,320

story you know

997

00:39:31,270 --> 00:39:29,760

did people just start saying like oh

998

00:39:33,670 --> 00:39:31,280

yeah well

999

00:39:35,829 --> 00:39:33,680

martians from mars are getting boring so

1000

00:39:37,589 --> 00:39:35,839

let's go to just the next star system

1001

00:39:39,190 --> 00:39:37,599

over right is it a reticuli what if they

1002

00:39:41,190 --> 00:39:39,200

come from a whole new now that we know

1003

00:39:42,630 --> 00:39:41,200

that other stars exist

1004

00:39:44,150 --> 00:39:42,640

okay because we didn't even like

1005

00:39:45,270 --> 00:39:44,160

actually see like a picture of the

1006

00:39:47,829 --> 00:39:45,280

universe

1007

00:39:49,589 --> 00:39:47,839

of like another galaxy until the 80s

1008

00:39:51,190 --> 00:39:49,599

right

1009

00:39:53,190 --> 00:39:51,200

the 80s was like the first time that we

1010

00:39:55,349 --> 00:39:53,200

like discovered like oh [h__\h] there's a

1011

00:39:59,589 --> 00:39:55,359

lot of other galaxies out there

1012

00:40:01,829 --> 00:39:59,599

yeah was when we got the first hubble uh

1013

00:40:04,470 --> 00:40:01,839

photos back right like that we're like

1014

00:40:06,790 --> 00:40:04,480

the photos the mass public i mean

1015

00:40:08,950 --> 00:40:06,800

other people have seen what they thought

1016

00:40:10,870 --> 00:40:08,960

were galaxies for a long time through

1017

00:40:11,670 --> 00:40:10,880

telescopes and then they were like oh

1018

00:40:13,750 --> 00:40:11,680

yeah

1019

00:40:15,510 --> 00:40:13,760

those are totally different telescopes

1020

00:40:17,510 --> 00:40:15,520

so yeah those aren't stars those are

1021

00:40:20,069 --> 00:40:17,520

freaking galaxies dude remember when we

1022

00:40:23,030 --> 00:40:20,079

saw what what nebula did we see

1023

00:40:24,630 --> 00:40:23,040

it was the andromeda uh nebula when we

1024

00:40:26,550 --> 00:40:24,640

were in sedona remember we could see it

1025

00:40:29,270 --> 00:40:26,560

with the name why because we were so

1026

00:40:31,910 --> 00:40:29,280

high and and altitude and the high uh

1027

00:40:35,030 --> 00:40:31,920

the sky was so clear we were like what

1028

00:40:36,550 --> 00:40:35,040

is that and melinda and lorien were like

1029

00:40:39,030 --> 00:40:36,560

no that's that's the

1030

00:40:40,790 --> 00:40:39,040

andromeda galaxy like this uh that's

1031

00:40:44,470 --> 00:40:40,800

like you could see it it was like normal

1032

00:40:45,910 --> 00:40:44,480

to them but we were like oh my god dude

1033

00:40:48,870 --> 00:40:45,920

they're like yeah

1034

00:40:51,510 --> 00:40:48,880

so we see this all the time

1035

00:40:54,870 --> 00:40:51,520

damn i wanna bask in the light of the

1036

00:40:56,150 --> 00:40:54,880

andromeda galaxy yeah dude yeah naked

1037

00:40:57,270 --> 00:40:56,160

dude

1038

00:40:59,750 --> 00:40:57,280

yeah champ

1039

00:41:03,510 --> 00:40:59,760

proxima a and b that's that's yeah

1040

00:41:06,870 --> 00:41:05,349

yeah i don't know it's pretty crazy i

1041

00:41:08,390 --> 00:41:06,880

think that's some homework we can all go

1042

00:41:09,910 --> 00:41:08,400

home with let's see who if we can find

1043

00:41:11,750 --> 00:41:09,920

like the earliest mention of this zeta

1044

00:41:13,829 --> 00:41:11,760

reticuli and people coming from there

1045

00:41:15,670 --> 00:41:13,839

and then we'll report back next tuesday

1046

00:41:17,589 --> 00:41:15,680

actually we'll report back on thursday

1047

00:41:19,990 --> 00:41:17,599

thursday and see what we found we'll be

1048

00:41:21,349 --> 00:41:20,000

having jim goodall with us on thursday

1049

00:41:23,030 --> 00:41:21,359

so you all come hang out that's going to

1050

00:41:24,630 --> 00:41:23,040

be a fun one we haven't done a tuesday

1051
00:41:27,750 --> 00:41:24,640
in a while so we decided to kind of hop

1052
00:41:29,510 --> 00:41:27,760
on and and shake the cobwebs loose

1053
00:41:32,230 --> 00:41:29,520
so a lot

1054
00:41:34,550 --> 00:41:32,240
yeah lots of cobwebs but

1055
00:41:36,870 --> 00:41:34,560
we're back on stream yard too which this

1056
00:41:39,670 --> 00:41:36,880
feels good i mean like

1057
00:41:42,069 --> 00:41:39,680
restream it has its quirks so it's it's

1058
00:41:45,349 --> 00:41:42,079
this has been like no no no issues yet

1059
00:41:48,230 --> 00:41:45,359
so i i like it i like it so far

1060
00:41:50,470 --> 00:41:48,240
back in the stream yard house all right

1061
00:41:52,470 --> 00:41:50,480
man awesome well hey man that's it for

1062
00:41:54,230 --> 00:41:52,480
me today oh wait

1063
00:41:58,150 --> 00:41:54,240

wait what we're going to see we're going

1064

00:42:00,630 --> 00:41:58,160

to see what movie dude on the 21st nope

1065

00:42:02,870 --> 00:42:00,640

nope we're going to see nope

1066

00:42:05,030 --> 00:42:02,880

me joe and two other fools i don't know

1067

00:42:06,870 --> 00:42:05,040

we've got two other tickets if anybody i

1068

00:42:09,589 --> 00:42:06,880

mean i'm sure we could find

1069

00:42:10,630 --> 00:42:09,599

i invited i invited our kids but like

1070

00:42:11,829 --> 00:42:10,640

i'm

1071

00:42:13,750 --> 00:42:11,839

well

1072

00:42:16,470 --> 00:42:13,760

she probably i don't know she'd like

1073

00:42:18,069 --> 00:42:16,480

sitting still for [h__\h] two hours

1074

00:42:20,230 --> 00:42:18,079

she's nine months old

1075

00:42:22,470 --> 00:42:20,240

we should take our old ladies well well

1076

00:42:24,870 --> 00:42:22,480

that's what i told jess and and uh she

1077

00:42:26,230 --> 00:42:24,880

hasn't given me an answer yet so we'll

1078

00:42:28,150 --> 00:42:26,240

we'll see

1079

00:42:29,510 --> 00:42:28,160

nice dude nice but i got four just in

1080

00:42:30,950 --> 00:42:29,520

case we want to take our old ladies we

1081

00:42:32,710 --> 00:42:30,960

want to have a little date night well

1082

00:42:33,750 --> 00:42:32,720

it's 4 p.m so

1083

00:42:35,349 --> 00:42:33,760

yeah

1084

00:42:37,109 --> 00:42:35,359

date afternoon because we have a show

1085

00:42:42,470 --> 00:42:37,119

right after the

1086

00:42:45,430 --> 00:42:42,480

oh yeah it is on thursday isn't it yeah

1087

00:42:47,430 --> 00:42:45,440

i totally planned that

1088

00:42:49,109 --> 00:42:47,440

oh we gotta like book it home to do the

1089

00:42:51,670 --> 00:42:49,119

show yeah

1090

00:42:53,270 --> 00:42:51,680

you want to do it in my place

1091

00:42:56,829 --> 00:42:53,280

i mean yeah we could do it at your place

1092

00:42:59,510 --> 00:42:56,839

dude let's come party

1093

00:43:01,270 --> 00:42:59,520

birdie oh [h__h] man when i gotta go to

1094

00:43:03,190 --> 00:43:01,280

work the next day

1095

00:43:04,950 --> 00:43:03,200

yeah okay well

1096

00:43:06,230 --> 00:43:04,960

no pressure

1097

00:43:07,270 --> 00:43:06,240

let's see let's see how we're gonna go

1098

00:43:08,309 --> 00:43:07,280

home because we're gonna you're gonna

1099

00:43:10,150 --> 00:43:08,319

come to my house and we're gonna drink

1100

00:43:11,910 --> 00:43:10,160

too much beer and then wow we're gonna

1101
00:43:14,069 --> 00:43:11,920
end up staying in my house and then like

1102
00:43:16,710 --> 00:43:14,079
you're gonna wake up and like 4 p.m the

1103
