UFGARAGE
UFOS ALIENS & ALL THINGS WEIRD

1
00:00:30,250 --> 00:00:05,530

[Music]

2
00:00:33,410 --> 00:00:32,569

thank you

3
00:00:36,110 --> 00:00:33,420

foreign

4
00:00:38,630 --> 00:00:36,120

oh yeah what's up everybody this is

5
00:00:40,369 --> 00:00:38,640

another episode of UFO garage I'm Ben

6
00:00:44,049 --> 00:00:40,379

I'm Joe and this is where we talk about

7
00:00:47,030 --> 00:00:44,059

UFOs aliens and all things weird weird

8
00:00:49,670 --> 00:00:47,040

what are you doing today man oh I'm

9
00:00:52,069 --> 00:00:49,680

doing swell man I'm doing real swell how

10
00:00:53,690 --> 00:00:52,079

are you doing not too bad man not too

11
00:00:56,930 --> 00:00:53,700

bad it's been a pretty good day you know

12
00:00:59,150 --> 00:00:56,940

that's good that's good the uh the sun

13
00:01:01,610 --> 00:00:59,160

is in the sky the Moon is also in the

14

00:01:02,750 --> 00:01:01,620

sky there's water there's air there's

15

00:01:04,189 --> 00:01:02,760

land

16

00:01:05,810 --> 00:01:04,199

there's there's sometimes there's

17

00:01:07,730 --> 00:01:05,820

butterflies if you look hard enough you

18

00:01:09,230 --> 00:01:07,740

know yeah dude and we're getting excited

19

00:01:11,030 --> 00:01:09,240

because we have an event coming up right

20

00:01:14,270 --> 00:01:11,040

November 4th we're all going to be out

21

00:01:16,010 --> 00:01:14,280

at Mystic quarries hanging out uh doing

22

00:01:17,210 --> 00:01:16,020

a little Retreat if you guys want to

23

00:01:19,749 --> 00:01:17,220

come out that's where we're going to be

24

00:01:22,609 --> 00:01:19,759

you can find it on our website UFO

25

00:01:23,929 --> 00:01:22,619

garagepodcast.com there it is got all of

26

00:01:25,910 --> 00:01:23,939

our episodes got a little bit of

27

00:01:28,969 --> 00:01:25,920

merchandise on there all of our episodes

28

00:01:30,590 --> 00:01:28,979

are on there uh Ben even wrote an

29

00:01:32,330 --> 00:01:30,600

article an article's on there that's

30

00:01:35,569 --> 00:01:32,340

pretty cool oh yeah we talked about the

31

00:01:37,069 --> 00:01:35,579

website I did some blogging we got a

32

00:01:38,929 --> 00:01:37,079

little trailer to the documentary on

33

00:01:41,990 --> 00:01:38,939

there experimenter that we've been

34

00:01:44,270 --> 00:01:42,000

working on uh yeah so go check it out

35

00:01:47,749 --> 00:01:44,280

it's gonna be gonna be a good time hell

36

00:01:49,249 --> 00:01:47,759

yeah dude yeah the the uh the reunion is

37

00:01:51,770 --> 00:01:49,259

going to be fondue we're gonna smoke a

38

00:01:53,749 --> 00:01:51,780

brisket I've ordered some night vision

39

00:01:57,289 --> 00:01:53,759

goggles dude

40

00:02:00,649 --> 00:01:57,299

following uh and uh and Dan Warren's

41

00:02:02,749 --> 00:02:00,659

footsteps finally got a freaking uh

42

00:02:04,429 --> 00:02:02,759

monoscope thing well it's a binocular

43

00:02:06,230 --> 00:02:04,439

thing I'm pretty excited to see that you

44

00:02:09,309 --> 00:02:06,240

said you said they're pretty good yeah

45

00:02:13,490 --> 00:02:09,319

I'm excited too yeah so hell yeah man

46

00:02:15,830 --> 00:02:13,500

well uh let's see tonight man I'm so

47

00:02:18,710 --> 00:02:15,840

stoked about our guest Stephanie

48

00:02:21,070 --> 00:02:18,720

Schwartz a distinguished scholar for the

49

00:02:23,809 --> 00:02:21,080

California Institute for human science

50

00:02:25,930 --> 00:02:23,819

award-winning author has multiple TED

51
00:02:28,610 --> 00:02:25,940
Talks uh has been studying human

52
00:02:31,130 --> 00:02:28,620
consciousness for over 40 years has

53
00:02:32,750 --> 00:02:31,140
worked on multiple high-level US

54
00:02:35,330 --> 00:02:32,760
government and Military projects

55
00:02:36,470 --> 00:02:35,340
involved involving remote viewing I mean

56
00:02:38,750 --> 00:02:36,480
this guy

57
00:02:40,070 --> 00:02:38,760
freaking he's interested in all the

58
00:02:41,930 --> 00:02:40,080
stuff we know about we've just been

59
00:02:44,150 --> 00:02:41,940
speculating he's actually done the the

60
00:02:47,330 --> 00:02:44,160
work and the data and worked since the

61
00:02:50,570 --> 00:02:47,340
60s on this stop so yeah everybody uh

62
00:02:54,050 --> 00:02:50,580
welcome Steve Stefan a Schwartz what's

63
00:02:56,509 --> 00:02:54,060

up man welcome to you guys

64

00:02:58,210 --> 00:02:56,519

super excited to have you on man pretty

65

00:03:01,910 --> 00:02:58,220

good we're doing really really good man

66

00:03:05,570 --> 00:03:01,920

uh I gotta say you know uh Ben kind of

67

00:03:07,490 --> 00:03:05,580

introduced uh you to me and uh man I I

68

00:03:11,630 --> 00:03:07,500

really enjoyed your work one of my one

69

00:03:13,729 --> 00:03:11,640

of my favorite things about it is uh

70

00:03:15,350 --> 00:03:13,739

you're you're so eloquent in the way you

71

00:03:17,210 --> 00:03:15,360

put it like it's it's easy to understand

72

00:03:20,509 --> 00:03:17,220

you're a very easy person to understand

73

00:03:22,430 --> 00:03:20,519

like oh God thank you yeah yeah like

74

00:03:24,530 --> 00:03:22,440

explaining like very profound things

75

00:03:27,770 --> 00:03:24,540

like making very profound statements and

76

00:03:30,350 --> 00:03:27,780

and the most simplistic ways uh it's

77

00:03:32,390 --> 00:03:30,360

it's it's easy to follow and man I've

78

00:03:35,030 --> 00:03:32,400

learned so much just over the you know

79

00:03:36,350 --> 00:03:35,040

the short time that I've I've been uh

80

00:03:37,910 --> 00:03:36,360

you know looking at your stuff I'm

81

00:03:39,770 --> 00:03:37,920

excited to get into this

82

00:03:44,509 --> 00:03:39,780

God

83

00:03:48,670 --> 00:03:44,519

heck yeah so right off the bat Stefan uh

84

00:03:50,869 --> 00:03:48,680

we we knowing some of your work you uh

85

00:03:53,869 --> 00:03:50,879

you have been involved with remote

86

00:03:56,809 --> 00:03:53,879

viewing the location of Cleopatra's

87

00:03:59,830 --> 00:03:56,819

Palace Mark Anthony's Timonium and the

88

00:04:04,970 --> 00:03:59,840

ruins of the Lighthouse of the Pharaohs

89

00:04:07,130 --> 00:04:04,980

uh how in the world do you even begin to

90

00:04:10,390 --> 00:04:07,140

find the locations of these lost maybe

91

00:04:12,589 --> 00:04:10,400

talked about uh locations and important

92

00:04:14,330 --> 00:04:12,599

one of them's the seventh one of the

93

00:04:17,270 --> 00:04:14,340

wonder of the world where do you even

94

00:04:18,650 --> 00:04:17,280

begin to try to find these locations or

95

00:04:21,469 --> 00:04:18,660

be involved

96

00:04:25,249 --> 00:04:21,479

well you you know in that particular

97

00:04:28,129 --> 00:04:25,259

project the Alexandria project

98

00:04:29,810 --> 00:04:28,139

um I st I got 11 people scattered around

99

00:04:34,370 --> 00:04:29,820

the world

100

00:04:38,749 --> 00:04:34,380

and I create a uh a special map

101
00:04:41,330 --> 00:04:38,759
I take a regular map that I get from you

102
00:04:43,129 --> 00:04:41,340
know a military group or you know it's a

103
00:04:46,129 --> 00:04:43,139
regular map

104
00:04:49,610 --> 00:04:46,139
I take all of the names off

105
00:04:52,129 --> 00:04:49,620
I take all of the colors off I turn it

106
00:04:55,730 --> 00:04:52,139
into a kind of blueprint in fact that's

107
00:04:58,790 --> 00:04:55,740
how I do it I I take everything off so

108
00:05:01,370 --> 00:04:58,800
that you don't know nothing cues you so

109
00:05:03,409 --> 00:05:01,380
that there's nothing that intellectually

110
00:05:05,270 --> 00:05:03,419
you know if you read something you'd say

111
00:05:08,170 --> 00:05:05,280
oh well it would be most likely to be

112
00:05:11,510 --> 00:05:08,180
there so we take all of that off

113
00:05:15,170 --> 00:05:11,520

we turn it literally into a blueprint so

114

00:05:18,950 --> 00:05:15,180

it's a kind of bluish and gray color

115

00:05:21,409 --> 00:05:18,960

so we know from research that people

116

00:05:23,029 --> 00:05:21,419

tend to be drawn to particular colors

117

00:05:26,450 --> 00:05:23,039

that they like

118

00:05:29,390 --> 00:05:26,460

so we eliminate all of that cueing

119

00:05:31,129 --> 00:05:29,400

they get drawn to particular names or

120

00:05:34,249 --> 00:05:31,139

something maybe they have an association

121

00:05:35,390 --> 00:05:34,259

they read somewhere and we eliminate

122

00:05:38,450 --> 00:05:35,400

that

123

00:05:40,790 --> 00:05:38,460

and then I've sent those Maps out to the

124

00:05:47,990 --> 00:05:43,850

with a series of questions each question

125

00:05:49,790 --> 00:05:48,000

in a sealed separate sealed envelope

126

00:05:52,730 --> 00:05:49,800

and they're numbered

127

00:05:55,550 --> 00:05:52,740

and I ask them to open the envelopes in

128

00:05:57,710 --> 00:05:55,560

number you know in sequence

129

00:05:59,270 --> 00:05:57,720

and answer the question and the

130

00:06:03,010 --> 00:05:59,280

questions start out

131

00:06:06,770 --> 00:06:03,020

for instance uh

132

00:06:10,670 --> 00:06:06,780

Cleopatra had a palace do you see this

133

00:06:13,909 --> 00:06:10,680

Palace within the limits of this map

134

00:06:16,790 --> 00:06:13,919

and if your answer is yes could you

135

00:06:20,749 --> 00:06:16,800

please mark that for me

136

00:06:23,870 --> 00:06:20,759

and make as small a circle as possible

137

00:06:29,390 --> 00:06:23,880

and so they do that

138

00:06:32,450 --> 00:06:29,400

and I you know Mark Anthony had a palace

139

00:06:35,930 --> 00:06:32,460

um could you mark his you know that's

140

00:06:39,290 --> 00:06:35,940

the same sequence over and over

141

00:06:42,909 --> 00:06:39,300

and uh I get a map I start with a map

142

00:06:46,070 --> 00:06:42,919

that says detailed as I can get

143

00:06:51,170 --> 00:06:46,080

but even the so

144

00:06:52,309 --> 00:06:51,180

often the uh the the scale of the map is

145

00:06:57,290 --> 00:06:52,319

such

146

00:07:00,290 --> 00:06:57,300

that we have to do a second probe using

147

00:07:03,950 --> 00:07:00,300

an even more detailed map because what

148

00:07:08,390 --> 00:07:03,960

we're looking for is is where there is a

149

00:07:10,850 --> 00:07:08,400

consensus of locations a consensus Zone

150

00:07:16,490 --> 00:07:10,860

so it's not where any particular person

151
00:07:19,430 --> 00:07:16,500
does make the location but where several

152
00:07:22,370 --> 00:07:19,440
of them do that's a consensus Zone

153
00:07:25,070 --> 00:07:22,380
and then we ask them well describe if we

154
00:07:28,850 --> 00:07:25,080
go there what are we going to find

155
00:07:30,770 --> 00:07:28,860
and they describe in detail uh what they

156
00:07:34,309 --> 00:07:30,780
think we will find

157
00:07:36,589 --> 00:07:34,319
and it gets extremely detailed you can

158
00:07:39,589 --> 00:07:36,599
go to my personal website

159
00:07:42,110 --> 00:07:39,599
stephanayschwartz.com

160
00:07:45,350 --> 00:07:42,120
and you can watch a guy with an eighth

161
00:07:48,589 --> 00:07:45,360
grade education who was a parts manager

162
00:07:52,370 --> 00:07:48,599
at a Chrysler dealership up in Nanaimo

163
00:07:55,430 --> 00:07:52,380

British Columbia on Vancouver Island

164

00:07:58,430 --> 00:07:55,440

and you can watch him walk into 1700

165

00:08:01,610 --> 00:07:58,440

square kilometers

166

00:08:03,589 --> 00:08:01,620

and have a archaeologist who doesn't

167

00:08:06,170 --> 00:08:03,599

believe a word of what he's doing or

168

00:08:09,050 --> 00:08:06,180

that you could actually do it

169

00:08:11,570 --> 00:08:09,060

say to him I want you to locate a buried

170

00:08:15,110 --> 00:08:11,580

city in a bear and then a a single

171

00:08:18,050 --> 00:08:15,120

buried building in the city and one that

172

00:08:22,249 --> 00:08:18,060

has a mosaic floor

173

00:08:25,249 --> 00:08:22,259

hmm and uh we've already surveyed this

174

00:08:27,830 --> 00:08:25,259

area that's buried city so we already

175

00:08:31,490 --> 00:08:27,840

know where everything is

176
00:08:32,930 --> 00:08:31,500
and watch this guy walk around it's 114

177
00:08:35,389 --> 00:08:32,940
degrees

178
00:08:38,089 --> 00:08:35,399
and finally he says okay I know where I

179
00:08:40,550 --> 00:08:38,099
want to go it's about a mile away

180
00:08:43,310 --> 00:08:40,560
and we go down there

181
00:08:46,210 --> 00:08:43,320
and he gets out of the car

182
00:08:50,630 --> 00:08:46,220
and he walks up a hill

183
00:08:52,610 --> 00:08:50,640
and he says okay I'm walking over a wall

184
00:08:54,949 --> 00:08:52,620
and I say you're walking over a Wally

185
00:09:00,110 --> 00:08:54,959
City I'm walking over a wall

186
00:09:05,990 --> 00:09:03,110
and he describes the city

187
00:09:08,269 --> 00:09:06,000
uh the building that he's he describes

188
00:09:10,009 --> 00:09:08,279

the city and then he describes this

189

00:09:13,310 --> 00:09:10,019

particular building

190

00:09:16,370 --> 00:09:13,320

he says it's a Byzantine building uh it

191

00:09:19,730 --> 00:09:16,380

has a tile floor that has red black and

192

00:09:21,170 --> 00:09:19,740

white tiles that are about 5 16 of an

193

00:09:24,110 --> 00:09:21,180

inch around

194

00:09:28,070 --> 00:09:24,120

so this is out of 1700 square kilometers

195

00:09:32,210 --> 00:09:28,080

we're down to 5 16 of an inch wow

196

00:09:34,970 --> 00:09:32,220

and um and I say to him okay

197

00:09:37,250 --> 00:09:34,980

and then he goes away and I bring in a

198

00:09:40,130 --> 00:09:37,260

woman hella Hamid

199

00:09:45,290 --> 00:09:40,140

the George McMullen was the first guy I

200

00:09:47,810 --> 00:09:45,300

bring in hella Hamid and I say uh

201
00:09:50,210 --> 00:09:47,820
can you locate this this city and can

202
00:09:52,970 --> 00:09:50,220
you locate this building

203
00:09:54,290 --> 00:09:52,980
and she describes she goes to the same

204
00:09:56,690 --> 00:09:54,300
place

205
00:09:59,449 --> 00:09:56,700
there's nothing that would lead her to

206
00:10:01,310 --> 00:09:59,459
that place there's no Mark or anything

207
00:10:03,230 --> 00:10:01,320
just out in the desert now you got to be

208
00:10:06,769 --> 00:10:03,240
clear about that I mean there's nothing

209
00:10:09,590 --> 00:10:06,779
it's a desert right and uh

210
00:10:11,030 --> 00:10:09,600
she picks the same place and she sits

211
00:10:14,030 --> 00:10:11,040
down

212
00:10:16,730 --> 00:10:14,040
and she says well there's three rooms

213
00:10:18,949 --> 00:10:16,740

and uh one of the rooms this the middle

214

00:10:22,610 --> 00:10:18,959

room has got a column this strange

215

00:10:25,070 --> 00:10:22,620

column that was built at a later date

216

00:10:27,949 --> 00:10:25,080

then it involves something that involved

217

00:10:33,650 --> 00:10:31,430

and it's a Byzantine building that is

218

00:10:35,630 --> 00:10:33,660

not Roman or Egyptian

219

00:10:39,949 --> 00:10:35,640

a later period

220

00:10:42,290 --> 00:10:39,959

and um it has this tile floor

221

00:10:44,389 --> 00:10:42,300

and meanwhile there's a whole bunch of

222

00:10:46,430 --> 00:10:44,399

archaeologists this main archeology a

223

00:10:48,530 --> 00:10:46,440

guy named fakarani

224

00:10:50,630 --> 00:10:48,540

and his graduate students and they're

225

00:10:54,590 --> 00:10:50,640

all snickering as we're doing this

226

00:10:57,829 --> 00:10:54,600

because when they previously did an

227

00:10:59,389 --> 00:10:57,839

electronic survey of the area which they

228

00:11:01,069 --> 00:10:59,399

have published so there's no question

229

00:11:03,350 --> 00:11:01,079

about it

230

00:11:05,810 --> 00:11:03,360

uh they marked where everything was

231

00:11:08,509 --> 00:11:05,820

located and where this particular spot

232

00:11:11,329 --> 00:11:08,519

that George and hella have picked

233

00:11:14,150 --> 00:11:11,339

there's nothing there according to them

234

00:11:16,310 --> 00:11:14,160

huh and if there were anything there it

235

00:11:18,650 --> 00:11:16,320

would have to be Roman and it wouldn't

236

00:11:20,630 --> 00:11:18,660

have that kind of a tile floor

237

00:11:23,030 --> 00:11:20,640

so they're just you know they're just

238

00:11:25,310 --> 00:11:23,040

snickering into their hands as this is

239

00:11:27,710 --> 00:11:25,320

going on and they're listening to it you

240

00:11:29,750 --> 00:11:27,720

know we already know there's nothing

241

00:11:31,730 --> 00:11:29,760

there oh oh this is going to really

242

00:11:34,069 --> 00:11:31,740

embarrass them you know you hear all

243

00:11:37,310 --> 00:11:34,079

this kind of stuff going on

244

00:11:40,389 --> 00:11:37,320

so okay so then we bring in the the

245

00:11:43,550 --> 00:11:40,399

working guys to do the excavation

246

00:11:46,550 --> 00:11:43,560

and this archaeologist is it's there

247

00:11:48,949 --> 00:11:46,560

guys so he's in control

248

00:11:51,170 --> 00:11:48,959

and they go down and at exactly three

249

00:11:54,050 --> 00:11:51,180

feet they find the wall

250

00:11:56,090 --> 00:11:54,060

oh I left an important part out of one

251
00:11:59,810 --> 00:11:56,100
of the most important parts I then take

252
00:12:02,750 --> 00:11:59,820
hella away and I bring George back

253
00:12:05,329 --> 00:12:02,760
and I give him some wooden Stakes

254
00:12:08,269 --> 00:12:05,339
and I say to him George would you put a

255
00:12:09,829 --> 00:12:08,279
stake in the corners of the the rooms of

256
00:12:11,990 --> 00:12:09,839
the building

257
00:12:16,610 --> 00:12:12,000
so he puts the stake in now remember

258
00:12:19,130 --> 00:12:16,620
this is 1700 square kilometers

259
00:12:21,110 --> 00:12:19,140
so I don't know that's what about 600

260
00:12:24,290 --> 00:12:21,120
square miles

261
00:12:26,569 --> 00:12:24,300
and he's down to sixteenths of an inch

262
00:12:28,910 --> 00:12:26,579
and he puts down these stakes and boy

263
00:12:31,490 --> 00:12:28,920

you can just hear him just laughing away

264

00:12:33,829 --> 00:12:31,500

back there because I mean this is all

265

00:12:35,290 --> 00:12:33,839

from their point of this is all crap

266

00:12:38,509 --> 00:12:35,300

so you're right

267

00:12:41,090 --> 00:12:38,519

location of of this site and someone

268

00:12:44,389 --> 00:12:41,100

physically puts Stakes into the ground

269

00:12:47,090 --> 00:12:44,399

yes in the corners it's the corners that

270

00:12:50,030 --> 00:12:47,100

are the really cool part because you

271

00:12:53,629 --> 00:12:50,040

know if you dug down into your the room

272

00:12:55,850 --> 00:12:53,639

that you've got 500 years from now if

273

00:12:57,949 --> 00:12:55,860

you didn't mark the corners you might

274

00:13:00,350 --> 00:12:57,959

miss it all together

275

00:13:02,210 --> 00:13:00,360

but on the corners where you get the

276

00:13:05,210 --> 00:13:02,220

walls joined together well then that's

277

00:13:07,910 --> 00:13:05,220

uh that's that's really good so they

278

00:13:10,550 --> 00:13:07,920

they anyway they the workmen come in and

279

00:13:12,710 --> 00:13:10,560

they only dig in those the square that's

280

00:13:15,769 --> 00:13:12,720

been marked out

281

00:13:18,470 --> 00:13:15,779

and um at three feet they find the wall

282

00:13:22,210 --> 00:13:18,480

exactly as they described

283

00:13:25,730 --> 00:13:22,220

and uh out of the 1700 square kilometers

284

00:13:28,910 --> 00:13:25,740

George is collectively about 28 inches

285

00:13:31,910 --> 00:13:28,920

off in the orientation of the building

286

00:13:34,310 --> 00:13:31,920

that is he's about six inches to the

287

00:13:37,310 --> 00:13:34,320

right of one stake and you know but

288

00:13:40,790 --> 00:13:37,320

basically he's right on top of it wow

289

00:13:44,210 --> 00:13:40,800

and over the next uh not six weeks or so

290

00:13:46,970 --> 00:13:44,220

as they dig down everything that hella

291

00:13:49,610 --> 00:13:46,980

and George have said it turns out to be

292

00:13:51,190 --> 00:13:49,620

a Byzantine building because it has a

293

00:13:55,550 --> 00:13:51,200

Christian Concentra

294

00:13:57,650 --> 00:13:55,560

consecration Mark in the foundation and

295

00:14:00,170 --> 00:13:57,660

George said well they took most of the

296

00:14:02,449 --> 00:14:00,180

tile floor away at a later day but there

297

00:14:05,210 --> 00:14:02,459

are still some tiles down there and

298

00:14:07,670 --> 00:14:05,220

snicker snicker snicker and they get

299

00:14:11,449 --> 00:14:07,680

down and they find little black red and

300

00:14:14,590 --> 00:14:11,459

white tiles exactly as he described

301
00:14:17,329 --> 00:14:14,600
and he says they're marble on one side

302
00:14:18,230 --> 00:14:17,339
and they've got plaster on the other

303
00:14:20,690 --> 00:14:18,240
side

304
00:14:23,389 --> 00:14:20,700
and sure enough when we dig them up

305
00:14:26,690 --> 00:14:23,399
there's the plaster from the subfloor

306
00:14:28,310 --> 00:14:26,700
and then the little red black and white

307
00:14:30,530 --> 00:14:28,320
tiles

308
00:14:34,129 --> 00:14:30,540
and the consecration marks so we know

309
00:14:35,829 --> 00:14:34,139
that it's uh it's exactly that it's

310
00:14:38,810 --> 00:14:35,839
Christian

311
00:14:41,810 --> 00:14:38,820
we find hella's column

312
00:14:44,569 --> 00:14:41,820
if you go to the website you can watch

313
00:14:47,750 --> 00:14:44,579

it happen I filmed it as it happened so

314

00:14:51,290 --> 00:14:47,760

there'd be no question about it so so uh

315

00:14:53,870 --> 00:14:51,300

and a uh Roman Mosaic floor was

316

00:14:55,850 --> 00:14:53,880

Unearthed in in London is it am I am I

317

00:14:57,590 --> 00:14:55,860

pulling up the wrong thing here or would

318

00:15:00,170 --> 00:14:57,600

this be on your website maybe yeah go to

319

00:15:04,189 --> 00:15:00,180

his website and and he filmed it oh

320

00:15:06,290 --> 00:15:04,199

while they were doing it okay all right

321

00:15:07,250 --> 00:15:06,300

yeah so I mean I you know I filmed it as

322

00:15:08,750 --> 00:15:07,260

it happened

323

00:15:10,790 --> 00:15:08,760

so there'd be no question it was

324

00:15:14,449 --> 00:15:10,800

witnessed by all these archaeologists

325

00:15:17,090 --> 00:15:14,459

who of course are well I'm not well you

326

00:15:18,829 --> 00:15:17,100

know um oh yeah we did this survey and

327

00:15:20,410 --> 00:15:18,839

there shouldn't have been anything there

328

00:15:23,350 --> 00:15:20,420

but well um

329

00:15:26,329 --> 00:15:23,360

there is something there and yeah

330

00:15:30,050 --> 00:15:26,339

exactly where you described it and

331

00:15:32,930 --> 00:15:30,060

and I did that because I wanted to dive

332

00:15:35,750 --> 00:15:32,940

in the Eastern Harbor where I thought

333

00:15:37,490 --> 00:15:35,760

Cleopatra's Palace was and where the

334

00:15:40,730 --> 00:15:37,500

Lighthouse of pharaohs one of the seven

335

00:15:44,389 --> 00:15:40,740

wonders of the ancient world was located

336

00:15:46,670 --> 00:15:44,399

and Mark Anthony's Palace and also the

337

00:15:49,670 --> 00:15:46,680

column ptolemy's column

338

00:15:52,069 --> 00:15:49,680

which was this great big sort of

339

00:15:55,250 --> 00:15:52,079

um Memorial column

340

00:15:57,069 --> 00:15:55,260

anyway and they nobody had ever been

341

00:16:00,530 --> 00:15:57,079

allowed to dive in the Eastern Harbor

342

00:16:03,290 --> 00:16:00,540

and I had Harold Edgerton who invented

343

00:16:06,769 --> 00:16:03,300

side scan sonar who was chairman of

344

00:16:09,650 --> 00:16:06,779

radiophysics at MIT I asked him to come

345

00:16:11,810 --> 00:16:09,660

out and do an electronic survey using

346

00:16:14,269 --> 00:16:11,820

side scan sonar

347

00:16:16,670 --> 00:16:14,279

to see if he could find these locations

348

00:16:19,250 --> 00:16:16,680

which he could not

349

00:16:21,350 --> 00:16:19,260

and uh so I knew exactly where I wanted

350

00:16:25,129 --> 00:16:21,360

to go this is not a searching technique

351

00:16:26,870 --> 00:16:25,139

this is a finding technique uh but I

352

00:16:29,810 --> 00:16:26,880

went so I went to the governor of

353

00:16:32,509 --> 00:16:29,820

Alexandria a man named Muhammad Hill me

354

00:16:34,370 --> 00:16:32,519

and and I said I'd like to dive in the

355

00:16:37,490 --> 00:16:34,380

Eastern Harbor and

356

00:16:39,889 --> 00:16:37,500

and uh they didn't want me to do it

357

00:16:42,170 --> 00:16:39,899

and I said well what would make it okay

358

00:16:43,790 --> 00:16:42,180

for me to do what what how what what do

359

00:16:45,710 --> 00:16:43,800

I have to do to get permission to do

360

00:16:48,230 --> 00:16:45,720

this and they said well you'd have to

361

00:16:49,850 --> 00:16:48,240

prove to us that this this crazy thing

362

00:16:51,829 --> 00:16:49,860

that you're doing remote viewing

363

00:16:55,030 --> 00:16:51,839

actually works

364

00:16:57,530 --> 00:16:55,040

so in order to prove it

365

00:16:58,189 --> 00:16:57,540

excuse me

366

00:17:00,110 --> 00:16:58,199

um

367

00:17:02,569 --> 00:17:00,120

in order to prove it you'll have to

368

00:17:06,350 --> 00:17:02,579

locate a buried building that we select

369

00:17:08,689 --> 00:17:06,360

in a buried city that we select and haha

370

00:17:10,789 --> 00:17:08,699

you'll never be able to do that oh they

371

00:17:13,970 --> 00:17:10,799

were giving you a test oh this was a

372

00:17:17,929 --> 00:17:13,980

test yeah this was in Maria Maria is a

373

00:17:19,270 --> 00:17:17,939

lost city that was at one time a kind of

374

00:17:22,189 --> 00:17:19,280

pleasure City

375

00:17:26,270 --> 00:17:22,199

on the edge of a lake called Lake Maria

376

00:17:30,530 --> 00:17:26,280

which is mostly gone it's just a kind of

377

00:17:34,010 --> 00:17:30,540

Puddles now huh and they had been trying

378

00:17:36,289 --> 00:17:34,020

to find this location and of this city

379

00:17:38,750 --> 00:17:36,299

and map it out

380

00:17:41,210 --> 00:17:38,760

and whether there were Byzantine

381

00:17:42,770 --> 00:17:41,220

structures or Roman or Egyptian

382

00:17:46,909 --> 00:17:42,780

and they didn't think there were any

383

00:17:49,669 --> 00:17:46,919

Byzantine structures anyway so we passed

384

00:17:52,310 --> 00:17:49,679

the test and then the governor who was a

385

00:17:54,590 --> 00:17:52,320

very decent guy said to the the

386

00:17:57,110 --> 00:17:54,600

University of Alexandria archaeologist

387

00:17:59,690 --> 00:17:57,120

well he passed the test so we have to

388

00:18:03,049 --> 00:17:59,700

give him permission to do it and they

389

00:18:05,810 --> 00:18:03,059

him him haha and we then subsequently

390

00:18:08,450 --> 00:18:05,820

found Cleopatra's Palace and Mark

391

00:18:09,710 --> 00:18:08,460

Anthony's Palace exactly and from the

392

00:18:13,730 --> 00:18:09,720

point of view

393

00:18:16,130 --> 00:18:13,740

of uh mikolowski rajevich who was the

394

00:18:18,169 --> 00:18:16,140

leading archaeologist in the city who

395

00:18:20,990 --> 00:18:18,179

was the head of the University of Warsaw

396

00:18:23,150 --> 00:18:21,000

uh

397

00:18:26,150 --> 00:18:23,160

excavation group there was a

398

00:18:29,590 --> 00:18:26,160

archaeological uh team from the

399

00:18:33,590 --> 00:18:29,600

University of Warsaw

400

00:18:35,029 --> 00:18:33,600

we located and they that this that the

401
00:18:39,110 --> 00:18:35,039
sea wall

402
00:18:42,350 --> 00:18:39,120
that of for the ancient period was about

403
00:18:44,870 --> 00:18:42,360
30 feet further out than anybody thought

404
00:18:50,450 --> 00:18:44,880
oh wow and so the whole city had to be

405
00:18:53,090 --> 00:18:50,460
they had to re-re uh calculate the

406
00:18:56,029 --> 00:18:53,100
entire layout of the ancient city

407
00:18:59,690 --> 00:18:56,039
because they didn't realize that the sea

408
00:19:05,289 --> 00:18:59,700
wall was 30 feet further out than uh it

409
00:19:12,230 --> 00:19:05,299
was today because the uh the uh

410
00:19:16,190 --> 00:19:12,240
C4 had sunk also about 15 20 feet

411
00:19:18,350 --> 00:19:16,200
uh just be subsidence of the the

412
00:19:20,750 --> 00:19:18,360
tectonic plates

413
00:19:22,549 --> 00:19:20,760

and so as a result of this they had to

414

00:19:25,070 --> 00:19:22,559

recalibrate everything they knew about

415

00:19:27,770 --> 00:19:25,080

the city

416

00:19:29,990 --> 00:19:27,780

and we were able to locate all of the

417

00:19:32,750 --> 00:19:30,000

you know the Palaces and the the

418

00:19:34,370 --> 00:19:32,760

lighthouse and we filmed all of that you

419

00:19:35,570 --> 00:19:34,380

can see it again you just go to my

420

00:19:36,650 --> 00:19:35,580

website

421

00:19:39,710 --> 00:19:36,660

oh

422

00:19:41,570 --> 00:19:39,720

so everything we found that we tried to

423

00:19:44,029 --> 00:19:41,580

locate

424

00:19:47,930 --> 00:19:44,039

I love this so it were these like uh

425

00:19:49,430 --> 00:19:47,940

like University or like private uh like

426

00:19:51,610 --> 00:19:49,440

research things that you were doing

427

00:19:54,350 --> 00:19:51,620

where they

428

00:19:55,570 --> 00:19:54,360

I ran a research laboratory called

429

00:19:58,909 --> 00:19:55,580

Mobius

430

00:20:00,830 --> 00:19:58,919

and we did research on Consciousness and

431

00:20:02,990 --> 00:20:00,840

and particularly I'm one of the people

432

00:20:04,310 --> 00:20:03,000

that created remote viewing

433

00:20:07,850 --> 00:20:04,320

and

434

00:20:11,330 --> 00:20:07,860

um uh I particularly focused on

435

00:20:14,690 --> 00:20:11,340

archaeological sites because they they

436

00:20:16,909 --> 00:20:14,700

permit complete triple blind conditions

437

00:20:19,370 --> 00:20:16,919

so it's very rigorous you know everybody

438

00:20:21,590 --> 00:20:19,380

knows that that the thing existed but

439

00:20:25,370 --> 00:20:21,600

everybody also agrees they don't know

440

00:20:28,430 --> 00:20:25,380

where it is so if you can locate it then

441

00:20:31,669 --> 00:20:28,440

you have solved a triple blind problem

442

00:20:34,370 --> 00:20:31,679

because at the time that you located no

443

00:20:36,710 --> 00:20:34,380

one in the world knows that it's there

444

00:20:38,930 --> 00:20:36,720

even though they they know that it may

445

00:20:42,169 --> 00:20:38,940

exist or sometimes they don't even know

446

00:20:44,690 --> 00:20:42,179

that it exists and then you locate it so

447

00:20:46,250 --> 00:20:44,700

I was doing uh using remote viewing in

448

00:20:48,710 --> 00:20:46,260

archeology

449

00:20:51,049 --> 00:20:48,720

because it allowed those rigorous

450

00:20:54,289 --> 00:20:51,059

conditions of triple blind

451
00:20:55,610 --> 00:20:54,299
and so there were five universities that

452
00:20:57,350 --> 00:20:55,620
were involved with this project

453
00:20:59,870 --> 00:20:57,360
eventually

454
00:21:02,690 --> 00:20:59,880
uh Peter Fraser was the leading

455
00:21:06,049 --> 00:21:02,700
historian in the world on the history of

456
00:21:09,289 --> 00:21:06,059
archeology of history of Alexandria was

457
00:21:12,230 --> 00:21:09,299
a consultant and rajayovich from Warsaw

458
00:21:13,850 --> 00:21:12,240
the archaeologist from the University of

459
00:21:16,250 --> 00:21:13,860
Alexandria

460
00:21:18,169 --> 00:21:16,260
uh

461
00:21:20,510 --> 00:21:18,179
Edgerton

462
00:21:23,029 --> 00:21:20,520
from MIT

463
00:21:24,710 --> 00:21:23,039

so yeah these are you know these are Big

464

00:21:26,029 --> 00:21:24,720

projects they take it took almost two

465

00:21:27,890 --> 00:21:26,039

years

466

00:21:29,870 --> 00:21:27,900

yeah so what's the what's a red tape

467

00:21:31,970 --> 00:21:29,880

like on this like yeah you know to get

468

00:21:33,350 --> 00:21:31,980

into some of these places you hear that

469

00:21:35,870 --> 00:21:33,360

they're they're not very happy about

470

00:21:37,490 --> 00:21:35,880

people poking around all the time uh

471

00:21:39,289 --> 00:21:37,500

what is that what is that like is it is

472

00:21:41,510 --> 00:21:39,299

it a struggle well it's very complicated

473

00:21:43,909 --> 00:21:41,520

oh yeah yeah it was very complicated I

474

00:21:47,630 --> 00:21:43,919

had to I had to go to the president of

475

00:21:49,730 --> 00:21:47,640

Egypt's uh office and he sent me I met

476
00:21:52,310 --> 00:21:49,740
with his chief of staff

477
00:21:54,950 --> 00:21:52,320
and then they sent me to the Department

478
00:21:56,930 --> 00:21:54,960
of archeology in Cairo

479
00:22:00,950 --> 00:21:56,940
and I talked to the director of

480
00:22:02,870 --> 00:22:00,960
archaeological research in Egypt

481
00:22:04,909 --> 00:22:02,880
and then I had to go down and talk to

482
00:22:07,490 --> 00:22:04,919
Muhammad Hill me it was the governor of

483
00:22:09,710 --> 00:22:07,500
Alexandria yeah it's a big negotiation

484
00:22:11,630 --> 00:22:09,720
you have to get permission to do

485
00:22:13,810 --> 00:22:11,640
everything

486
00:22:19,190 --> 00:22:16,730
you have to talk to all these people and

487
00:22:20,810 --> 00:22:19,200
every time you get all the licenses and

488
00:22:22,610 --> 00:22:20,820

yeah and every time you have to tell

489

00:22:24,470 --> 00:22:22,620

them yeah we're gonna remote view how

490

00:22:26,510 --> 00:22:24,480

does that go over are they normally like

491

00:22:28,549 --> 00:22:26,520

dude they don't believe it they're just

492

00:22:31,930 --> 00:22:28,559

like wait what you're gonna do what or

493

00:22:36,230 --> 00:22:34,669

you say to people they say well how do

494

00:22:38,270 --> 00:22:36,240

you think why do you think that whatever

495

00:22:40,610 --> 00:22:38,280

it is you're looking for why do you

496

00:22:42,649 --> 00:22:40,620

think it's there and I say well because

497

00:22:45,830 --> 00:22:42,659

I did remote viewing and here are the

498

00:22:48,649 --> 00:22:45,840

maps that I produced where people have

499

00:22:51,049 --> 00:22:48,659

marked on the map and and this is where

500

00:22:52,970 --> 00:22:51,059

I want to go and and this is what I

501
00:22:54,289 --> 00:22:52,980
think they're going to find and and you

502
00:22:56,450 --> 00:22:54,299
did it how

503
00:22:58,250 --> 00:22:56,460
you asked people that didn't even go

504
00:23:01,430 --> 00:22:58,260
there who were scattered all over the

505
00:23:04,549 --> 00:23:01,440
world and you sent them maps that are

506
00:23:07,070 --> 00:23:04,559
made to look like blueprints and and

507
00:23:08,750 --> 00:23:07,080
you're asking these questions and and

508
00:23:10,850 --> 00:23:08,760
they don't have any training and they've

509
00:23:13,789 --> 00:23:10,860
never been here and they don't know

510
00:23:16,850 --> 00:23:13,799
anything about whatever the site is and

511
00:23:18,950 --> 00:23:16,860
and and somehow they tell you these

512
00:23:21,409 --> 00:23:18,960
things and how could they possibly be

513
00:23:22,909 --> 00:23:21,419

right how could they know it's that's

514

00:23:24,710 --> 00:23:22,919

the response

515

00:23:27,770 --> 00:23:24,720

but then then you show them your track

516

00:23:29,810 --> 00:23:27,780

record and what you've well yeah and

517

00:23:31,730 --> 00:23:29,820

then they're like oh okay well you might

518

00:23:35,029 --> 00:23:31,740

yeah

519

00:23:37,549 --> 00:23:35,039

I can't imagine like what that

520

00:23:39,950 --> 00:23:37,559

conversation is like like just First

521

00:23:43,010 --> 00:23:39,960

Impressions it's just exactly like you

522

00:23:45,110 --> 00:23:43,020

think it would be yeah have you ever

523

00:23:46,549 --> 00:23:45,120

like because I know like uh holidays you

524

00:23:48,610 --> 00:23:46,559

ever like bring up Consciousness around

525

00:23:50,750 --> 00:23:48,620

your family and they're like wait what

526
00:23:52,610 --> 00:23:50,760
and then all of a sudden you gotta go to

527
00:23:55,610 --> 00:23:52,620
the president of like Egypt and be like

528
00:23:58,250 --> 00:23:55,620
okay so hear me out right all right

529
00:24:05,750 --> 00:24:03,110
it's exactly I I mean you know you find

530
00:24:09,049 --> 00:24:05,760
really good guys like Hill me the

531
00:24:13,010 --> 00:24:09,059
governor he was a very straight guy and

532
00:24:16,010 --> 00:24:13,020
once we passed the test he said okay to

533
00:24:18,830 --> 00:24:16,020
the the University of Alexandria the

534
00:24:20,330 --> 00:24:18,840
archaeologist you set up the test if

535
00:24:22,130 --> 00:24:20,340
they passed the test I'm going to give

536
00:24:24,830 --> 00:24:22,140
him permission

537
00:24:27,169 --> 00:24:24,840
and we passed the test and he gave us

538
00:24:29,630 --> 00:24:27,179

permission he was he was a very clean

539

00:24:30,950 --> 00:24:29,640

guy to work with I mean you know it's a

540

00:24:33,710 --> 00:24:30,960

you're dealing with the government

541

00:24:35,630 --> 00:24:33,720

you're dealing with all the forms you're

542

00:24:38,810 --> 00:24:35,640

dealing with they check you out you know

543

00:24:41,149 --> 00:24:38,820

blah blah blah just what you expect yeah

544

00:24:43,730 --> 00:24:41,159

yeah do they make you go through that

545

00:24:46,370 --> 00:24:43,740

like random randomly selected test line

546

00:24:48,950 --> 00:24:46,380

like uh an international flights were

547

00:24:51,110 --> 00:24:48,960

like it just so happens like a you pass

548

00:24:53,690 --> 00:24:51,120

through a little kiosk and a light turns

549

00:24:56,149 --> 00:24:53,700

on is that is was that a part of your no

550

00:24:57,409 --> 00:24:56,159

no there's no kiosk in the light turns

551
00:24:59,270 --> 00:24:57,419
okay okay

552
00:25:01,970 --> 00:24:59,280
because it happens to me every time

553
00:25:04,310 --> 00:25:01,980
every time every time we fly somewhere I

554
00:25:06,230 --> 00:25:04,320
have to stop and then he can't sit down

555
00:25:07,430 --> 00:25:06,240
very well in the play in the whole race

556
00:25:09,409 --> 00:25:07,440
but yeah

557
00:25:11,450 --> 00:25:09,419
yes it's um it's

558
00:25:13,250 --> 00:25:11,460
it's an interesting experience you know

559
00:25:16,370 --> 00:25:13,260
I've done this all over the world I've

560
00:25:19,130 --> 00:25:16,380
done it in in the Bahamas for instance I

561
00:25:22,730 --> 00:25:19,140
had to go to the prime minister's office

562
00:25:25,310 --> 00:25:22,740
and and I actually had to get them to

563
00:25:27,710 --> 00:25:25,320

change the laws so that and then they

564

00:25:31,610 --> 00:25:27,720

wanted me to do a particular kind of

565

00:25:34,130 --> 00:25:31,620

search and I agreed to do that and so we

566

00:25:37,870 --> 00:25:34,140

had on that project the Sea View project

567

00:25:41,029 --> 00:25:37,880

we had we found the brigglyander

568

00:25:42,950 --> 00:25:41,039

that was that had uh I don't want four

569

00:25:45,169 --> 00:25:42,960

or five universities involved with it

570

00:25:47,990 --> 00:25:45,179

you get researchers that are really good

571

00:25:51,529 --> 00:25:48,000

I get the very best people

572

00:25:52,450 --> 00:25:51,539

because if you if you work with the very

573

00:25:55,490 --> 00:25:52,460

best

574

00:25:57,730 --> 00:25:55,500

they're more open to it than people of

575

00:26:00,610 --> 00:25:57,740

the second or third tier

576

00:26:05,390 --> 00:26:00,620

really really good

577

00:26:08,330 --> 00:26:05,400

scientists recognize that that intuition

578

00:26:12,409 --> 00:26:08,340

is a important part of finding things

579

00:26:15,470 --> 00:26:12,419

you know Einstein says I was wiling away

580

00:26:19,130 --> 00:26:15,480

an afternoon in a canoe after I'd been

581

00:26:23,870 --> 00:26:19,140

sick and suddenly I had I I I I suddenly

582

00:26:26,570 --> 00:26:23,880

saw how relativity worked or Punk array

583

00:26:29,269 --> 00:26:26,580

the French mathematician says I had a

584

00:26:33,409 --> 00:26:29,279

vision going across the street

585

00:26:35,930 --> 00:26:33,419

or Descartes says I I had a dream I had

586

00:26:38,690 --> 00:26:35,940

three dreams that all of these

587

00:26:41,710 --> 00:26:38,700

mathematics that I have been working on

588

00:26:44,930 --> 00:26:41,720

or you know I was um

589

00:26:48,529 --> 00:26:44,940

years ago years later this is after the

590

00:26:51,649 --> 00:26:48,539

Alexandria stuff I was going across uh

591

00:26:54,950 --> 00:26:51,659

the Salk Institute with Jonas Salk

592

00:26:58,370 --> 00:26:54,960

and I said to him how did you figure out

593

00:27:00,769 --> 00:26:58,380

to do the vaccine the way you did

594

00:27:02,529 --> 00:27:00,779

and he said to me I had a dream

595

00:27:05,510 --> 00:27:02,539

oh

596

00:27:07,789 --> 00:27:05,520

kolka had a dream about the Benzene ring

597

00:27:10,610 --> 00:27:07,799

the chemist

598

00:27:12,830 --> 00:27:10,620

so when you when you're dealing with the

599

00:27:15,590 --> 00:27:12,840

first tier people

600

00:27:18,250 --> 00:27:15,600

they recognize that

601
00:27:22,010 --> 00:27:18,260
that this sort of

602
00:27:25,930 --> 00:27:22,020
non-local Consciousness experiences

603
00:27:28,789 --> 00:27:25,940
play a big role in creating

604
00:27:31,549 --> 00:27:28,799
breakthroughs and so they're more open

605
00:27:33,409 --> 00:27:31,559
to it I mean as I say Harold Edgerton

606
00:27:35,750 --> 00:27:33,419
you know he was the

607
00:27:39,830 --> 00:27:35,760
one of the most famous scientists in the

608
00:27:42,649 --> 00:27:39,840
United States he created the side scan

609
00:27:44,570 --> 00:27:42,659
sonar invented it

610
00:27:45,769 --> 00:27:44,580
either he didn't know me from Adam's

611
00:27:48,950 --> 00:27:45,779
house cat

612
00:27:52,250 --> 00:27:48,960
and I just sent him with Telex and said

613
00:27:54,549 --> 00:27:52,260

I'm in Egypt and I've I've gotten

614

00:27:58,010 --> 00:27:54,559

permission to dive in the Eastern Harbor

615

00:27:59,630 --> 00:27:58,020

where I think Cleopatra's Palace and I'd

616

00:28:02,210 --> 00:27:59,640

like to know whether you could find it

617

00:28:04,190 --> 00:28:02,220

with side scan sonar would you come over

618

00:28:07,250 --> 00:28:04,200

and do this

619

00:28:09,230 --> 00:28:07,260

and he wrote me back if you'll give me a

620

00:28:11,810 --> 00:28:09,240

first class ticket and put me up in a

621

00:28:15,350 --> 00:28:11,820

decent hotel and you can do it on these

622

00:28:16,850 --> 00:28:15,360

dates I'm your man first class damn dude

623

00:28:20,029 --> 00:28:16,860

I love it what kind of snacks you

624

00:28:22,430 --> 00:28:20,039

getting there man so I said well I can

625

00:28:25,909 --> 00:28:22,440

do all of that

626

00:28:28,730 --> 00:28:25,919

I love it I love it so so did it uh did

627

00:28:31,610 --> 00:28:28,740

the scans work they didn't work they did

628

00:28:34,610 --> 00:28:31,620

not work it did not work no in none of

629

00:28:37,669 --> 00:28:34,620

my Expeditions have the electronic

630

00:28:39,590 --> 00:28:37,679

survey techniques located the thing that

631

00:28:41,570 --> 00:28:39,600

the remote viewers located

632

00:28:43,610 --> 00:28:41,580

so I heard you say something very

633

00:28:46,549 --> 00:28:43,620

interesting and it kind of peaked piqued

634

00:28:51,769 --> 00:28:46,559

my interest and it was that this isn't

635

00:28:53,450 --> 00:28:51,779

an uh an electric uh phenomena at all it

636

00:28:57,169 --> 00:28:53,460

has nothing to do with like electricity

637

00:29:00,490 --> 00:28:57,179

or like you like carrying a current or

638

00:29:02,630 --> 00:29:00,500

anything it's completely different right

639

00:29:04,010 --> 00:29:02,640

you're dealing with non-local

640

00:29:07,370 --> 00:29:04,020

consciousness

641

00:29:10,430 --> 00:29:07,380

it is not an electromagnetic phenomena

642

00:29:13,310 --> 00:29:10,440

uh in 1977

643

00:29:15,409 --> 00:29:13,320

I did an experiment with a submarine you

644

00:29:18,409 --> 00:29:15,419

can go to my website again and see that

645

00:29:20,330 --> 00:29:18,419

movie I got Leonard Nimoy Dr Spock to

646

00:29:23,930 --> 00:29:20,340

narrated for me

647

00:29:24,889 --> 00:29:23,940

that's awesome and um I I did a I did a

648

00:29:27,130 --> 00:29:24,899

test

649

00:29:30,289 --> 00:29:27,140

to see whether any of this was

650

00:29:32,510 --> 00:29:30,299

electromagnetic in nature and it is not

651
00:29:34,730 --> 00:29:32,520
did that have to that had to do with uh

652
00:29:36,769 --> 00:29:34,740
extremely low frequencies right like

653
00:29:39,710 --> 00:29:36,779
there were right so that was the theory

654
00:29:41,870 --> 00:29:39,720
the theory was it was an elf phenomena

655
00:29:44,269 --> 00:29:41,880
three to three hundred Hertz

656
00:29:46,490 --> 00:29:44,279
and the only way you could shield for

657
00:29:47,510 --> 00:29:46,500
that would be go down in a submarine at

658
00:29:50,750 --> 00:29:47,520
depth

659
00:29:53,450 --> 00:29:50,760
the U.S Navy had spent 125 million

660
00:29:56,029 --> 00:29:53,460
dollars figuring out exactly how deep

661
00:29:57,889 --> 00:29:56,039
elf would penetrate sea water

662
00:30:00,590 --> 00:29:57,899
and what the bit rate of transmission

663
00:30:03,350 --> 00:30:00,600

that's equally important that is how

664

00:30:07,190 --> 00:30:03,360

much information you could get

665

00:30:09,049 --> 00:30:07,200

um and so I knew all that because I had

666

00:30:11,510 --> 00:30:09,059

been the special assistant to the chief

667

00:30:12,769 --> 00:30:11,520

of Naval operation for research and

668

00:30:17,090 --> 00:30:12,779

Analysis

669

00:30:19,310 --> 00:30:17,100

and another part of my life and um

670

00:30:20,690 --> 00:30:19,320

so I knew exactly how deep we had to go

671

00:30:22,909 --> 00:30:20,700

and I knew what the bit rate of

672

00:30:24,970 --> 00:30:22,919

transmission was and remote viewing

673

00:30:29,149 --> 00:30:24,980

provided much more information

674

00:30:32,029 --> 00:30:29,159

than you could possibly get through elf

675

00:30:33,649 --> 00:30:32,039

what are you building problem what do

676
00:30:39,950 --> 00:30:33,659
you think what do you think the bit rate

677
00:30:41,510 --> 00:30:39,960
like ratio is or or uh average is if

678
00:30:44,149 --> 00:30:41,520
you're good at remote viewing I mean

679
00:30:46,310 --> 00:30:44,159
like for those that that you don't know

680
00:30:47,930 --> 00:30:46,320
like uh resolution is not the same as

681
00:30:50,269 --> 00:30:47,940
bitrate you can have the same resolution

682
00:30:52,490 --> 00:30:50,279
not enough information with with like

683
00:30:55,010 --> 00:30:52,500
videography and photography and things

684
00:30:58,850 --> 00:30:55,020
but bitrate like you can export a video

685
00:31:00,950 --> 00:30:58,860
at eight uh megabits per second or 50.

686
00:31:03,289 --> 00:31:00,960
it's just a larger file so there's more

687
00:31:06,169 --> 00:31:03,299
information in that file you can get

688
00:31:08,810 --> 00:31:06,179

anything yeah so you can you could have

689

00:31:13,549 --> 00:31:08,820

one second just one second but at a very

690

00:31:17,149 --> 00:31:13,559

high bit rate you can no it's exactly

691

00:31:18,950 --> 00:31:17,159

it's about the same rate of processing

692

00:31:21,049 --> 00:31:18,960

that you would have if you were actually

693

00:31:22,310 --> 00:31:21,059

looking at it

694

00:31:26,810 --> 00:31:22,320

oh

695

00:31:29,510 --> 00:31:26,820

I mean wow whoa okay love that

696

00:31:31,430 --> 00:31:29,520

um so like visualizing something just by

697

00:31:33,830 --> 00:31:31,440

getting a flash that's why I asked you

698

00:31:35,750 --> 00:31:33,840

if I said to you for instance uh

699

00:31:38,630 --> 00:31:35,760

Ben or Joe

700

00:31:40,850 --> 00:31:38,640

um if I sent you this map and uh and I

701
00:31:43,490 --> 00:31:40,860
said would you please my first question

702
00:31:46,610 --> 00:31:43,500
is is the thing that I'm looking for

703
00:31:48,649 --> 00:31:46,620
uh within the confines of this map

704
00:31:50,690 --> 00:31:48,659
and if you said yes

705
00:31:52,430 --> 00:31:50,700
then I would say well okay would you

706
00:31:54,470 --> 00:31:52,440
please locate it for me

707
00:31:56,930 --> 00:31:54,480
and make a little Mark

708
00:31:59,389 --> 00:31:56,940
and you would do that and that would

709
00:32:01,310 --> 00:31:59,399
take you as long as it took you

710
00:32:04,310 --> 00:32:01,320
and then I would say to you all right I

711
00:32:08,630 --> 00:32:04,320
want you to physically uh in your mind

712
00:32:09,950 --> 00:32:08,640
go to this site and describe for me what

713
00:32:13,549 --> 00:32:09,960

I'm going to find

714

00:32:15,590 --> 00:32:13,559

and then they would say well you know

715

00:32:18,529 --> 00:32:15,600

like Michael Crichton you know the the

716

00:32:20,510 --> 00:32:18,539

author and film director and was one of

717

00:32:22,789 --> 00:32:20,520

my remote viewers

718

00:32:25,190 --> 00:32:22,799

you know I might we were trying to find

719

00:32:27,110 --> 00:32:25,200

the brigaland or this ship that was in

720

00:32:30,470 --> 00:32:27,120

in the Bahamas

721

00:32:32,750 --> 00:32:30,480

and um Michael said well

722

00:32:34,730 --> 00:32:32,760

you're going to find uh it looks like

723

00:32:42,289 --> 00:32:34,740

railroad ties

724

00:32:47,690 --> 00:32:44,029

and um

725

00:32:50,510 --> 00:32:47,700

and you'll find bits of metal

726

00:32:52,250 --> 00:32:50,520

and it's in a location it didn't break

727

00:32:54,889 --> 00:32:52,260

up it sank

728

00:32:57,889 --> 00:32:54,899

and it's so it didn't just come apart as

729

00:33:00,710 --> 00:32:57,899

it you know it strewn over a large area

730

00:33:05,269 --> 00:33:00,720

it's all in one place

731

00:33:07,250 --> 00:33:05,279

and other viewers said to me like uh

732

00:33:09,470 --> 00:33:07,260

things like

733

00:33:10,250 --> 00:33:09,480

well one of them said

734

00:33:13,130 --> 00:33:10,260

um

735

00:33:16,070 --> 00:33:13,140

you're gonna find a box

736

00:33:20,169 --> 00:33:16,080

it's going to be kind of broken up but

737

00:33:24,350 --> 00:33:20,179

in this box are these little glass vials

738

00:33:26,330 --> 00:33:24,360

they're about oh three quarters of an

739

00:33:28,490 --> 00:33:26,340

inch long

740

00:33:31,490 --> 00:33:28,500

and I'd say we'll make a little drawing

741

00:33:34,070 --> 00:33:31,500

of them for me and and they have colored

742

00:33:36,470 --> 00:33:34,080

powders in them

743

00:33:37,789 --> 00:33:36,480

now you think about that this is a guy

744

00:33:40,970 --> 00:33:37,799

in Italy

745

00:33:43,789 --> 00:33:40,980

who's in Rome who's just telling me this

746

00:33:48,230 --> 00:33:43,799

he's recording it on the tape recorder

747

00:33:52,370 --> 00:33:48,240

and uh sending me the the recording

748

00:33:55,610 --> 00:33:52,380

and and and uh so you're gonna find

749

00:33:57,590 --> 00:33:55,620

these little little glass vials with

750

00:34:00,169 --> 00:33:57,600

these colored powders

751

00:34:01,190 --> 00:34:00,179

and there's three quarters of an inch

752

00:34:05,330 --> 00:34:01,200

and he's

753

00:34:08,450 --> 00:34:05,340

I don't know several thousand miles away

754

00:34:10,909 --> 00:34:08,460

he's never been there before

755

00:34:14,570 --> 00:34:10,919

and you know you're diving you're down

756

00:34:16,609 --> 00:34:14,580

about 20 feet or so 25 feet

757

00:34:19,430 --> 00:34:16,619

and um

758

00:34:21,530 --> 00:34:19,440

you're looking around you found the rack

759

00:34:24,710 --> 00:34:21,540

and as you're looking through the wreck

760

00:34:26,810 --> 00:34:24,720

as you're slowly Excavating the sand you

761

00:34:30,050 --> 00:34:26,820

come across this little box

762

00:34:32,510 --> 00:34:30,060

and in this little box are these little

763

00:34:35,690 --> 00:34:32,520

glass files with turns out they were

764

00:34:36,770 --> 00:34:35,700

powdered medicines

765

00:34:40,010 --> 00:34:36,780

um

766

00:34:42,230 --> 00:34:40,020

it's it's very strange let me I want to

767

00:34:45,669 --> 00:34:42,240

tell you this you do this kind of stuff

768

00:34:48,109 --> 00:34:45,679

it's very it's quite weird

769

00:34:50,089 --> 00:34:48,119

I've got a question for you so do you

770

00:34:52,190 --> 00:34:50,099

think that remote viewers those that are

771

00:34:54,710 --> 00:34:52,200

have practiced I mean I've listened to a

772

00:34:58,250 --> 00:34:54,720

lot of your your podcasts and interviews

773

00:35:01,670 --> 00:34:58,260

uh I'm a little bit well versed in in

774

00:35:03,829 --> 00:35:01,680

some of of the nuances but like if

775

00:35:07,130 --> 00:35:03,839

they're okay so if you're really good at

776

00:35:09,349 --> 00:35:07,140

remote viewing is that person guessing

777

00:35:11,750 --> 00:35:09,359

to something that is hidden seeing

778

00:35:13,849 --> 00:35:11,760

something that is hidden now it has some

779

00:35:16,490 --> 00:35:13,859

a relation to time so is that person

780

00:35:19,790 --> 00:35:16,500

seeing the future whereas they are the

781

00:35:23,810 --> 00:35:19,800

Catalyst to make that event happen and

782

00:35:26,750 --> 00:35:23,820

you're not like if I said to you Ben can

783

00:35:28,849 --> 00:35:26,760

you remember when you fell in love with

784

00:35:31,190 --> 00:35:28,859

your wife and you took her out to dinner

785

00:35:34,609 --> 00:35:31,200

for the first time can you do that

786

00:35:37,190 --> 00:35:34,619

oh yeah very vividly yeah can you

787

00:35:38,690 --> 00:35:37,200

remember what the room looked like 100

788

00:35:43,490 --> 00:35:38,700

yeah

789

00:35:47,650 --> 00:35:43,500

you you can remember the whole thing oh

790

00:35:52,790 --> 00:35:50,150

not everything but you you know you can

791

00:35:56,930 --> 00:35:52,800

see her sitting there and and you can

792

00:35:59,150 --> 00:35:56,940

remember how you felt and maybe what you

793

00:36:00,109 --> 00:35:59,160

ordered and that kind of thing can you

794

00:36:03,650 --> 00:36:00,119

do that

795

00:36:07,430 --> 00:36:03,660

100 yeah yeah well that's remote viewing

796

00:36:14,390 --> 00:36:09,290

you gave me chills

797

00:36:17,630 --> 00:36:14,400

so you're

798

00:36:23,270 --> 00:36:21,230

what okay so it it does this is this

799

00:36:25,609 --> 00:36:23,280

where like The Reincarnation stuff Falls

800

00:36:27,470 --> 00:36:25,619

in because like if you were to remote

801
00:36:29,810 --> 00:36:27,480
view something when you technically

802
00:36:32,390 --> 00:36:29,820
weren't alive is that how you're seeing

803
00:36:35,630 --> 00:36:32,400
it through the no the

804
00:36:39,170 --> 00:36:35,640
no so how are you remote viewing you're

805
00:36:41,810 --> 00:36:39,180
you have to you have to

806
00:36:44,750 --> 00:36:41,820
you have to change your whole idea of

807
00:36:46,670 --> 00:36:44,760
what reality is

808
00:36:49,190 --> 00:36:46,680
what we're dealing with what we call

809
00:36:51,950 --> 00:36:49,200
reality is a

810
00:36:54,650 --> 00:36:51,960
well let me start with this story in

811
00:36:57,170 --> 00:36:54,660
1931 Max Planck the father of quantum

812
00:36:59,930 --> 00:36:57,180
mechanics was interviewed by The

813
00:37:02,510 --> 00:36:59,940

Observer newspaper

814

00:37:05,630 --> 00:37:02,520

and they went up to him he didn't give a

815

00:37:08,329 --> 00:37:05,640

lot of interviews so it was a big deal

816

00:37:10,310 --> 00:37:08,339

and they went up to him and said you and

817

00:37:12,530 --> 00:37:10,320

I and Stein are the two most famous

818

00:37:14,450 --> 00:37:12,540

scientists in the world

819

00:37:17,870 --> 00:37:14,460

what have you learned

820

00:37:19,910 --> 00:37:17,880

and I think that that um

821

00:37:22,310 --> 00:37:19,920

they thought he was going to be talking

822

00:37:23,810 --> 00:37:22,320

about molecules and atoms and things

823

00:37:26,270 --> 00:37:23,820

like that

824

00:37:27,290 --> 00:37:26,280

and instead what he said was what I've

825

00:37:31,490 --> 00:37:27,300

learned

826

00:37:34,990 --> 00:37:31,500

is that Consciousness is fundamental

827

00:37:39,349 --> 00:37:35,000

you cannot get behind consciousness

828

00:37:42,109 --> 00:37:39,359

space-time physical reality arises from

829

00:37:43,670 --> 00:37:42,119

Consciousness not Consciousness from

830

00:37:46,690 --> 00:37:43,680

space-time

831

00:37:50,329 --> 00:37:46,700

that is consciousness is not

832

00:37:53,750 --> 00:37:50,339

physiologically based in your brain

833

00:37:56,510 --> 00:37:53,760

I mean it the brain plays a role in it

834

00:38:00,109 --> 00:37:56,520

but but there's an aspect of

835

00:38:03,650 --> 00:38:00,119

Consciousness that is non-local right

836

00:38:06,109 --> 00:38:03,660

you and so when you are doing remote

837

00:38:08,950 --> 00:38:06,119

viewing what you are doing is it's kind

838

00:38:11,810 --> 00:38:08,960

of like doing a Google search

839

00:38:15,290 --> 00:38:11,820

you hold the intention

840

00:38:18,890 --> 00:38:15,300

to discover a particular whatever it is

841

00:38:21,349 --> 00:38:18,900

that's like your Search terms for Google

842

00:38:24,609 --> 00:38:21,359

and you do this Google and you go out

843

00:38:27,609 --> 00:38:24,619

into the great database of the universe

844

00:38:31,310 --> 00:38:27,619

the the the information

845

00:38:33,710 --> 00:38:31,320

and you find the information that you're

846

00:38:35,690 --> 00:38:33,720

specifically looking for so the key to

847

00:38:38,390 --> 00:38:35,700

the whole business

848

00:38:41,710 --> 00:38:38,400

is the ability to attain and sustain

849

00:38:44,329 --> 00:38:41,720

intentions focused awareness

850

00:38:45,829 --> 00:38:44,339

people have been remote viewing for

851

00:38:48,950 --> 00:38:45,839

thousands of years

852

00:38:53,270 --> 00:38:48,960

I mean the the little group of guys

853

00:38:56,030 --> 00:38:53,280

myself I'll put off rustarg Ed May Jim

854

00:38:58,370 --> 00:38:56,040

spottiswood I mean this little bitty

855

00:39:01,010 --> 00:38:58,380

group of guys that created modern remote

856

00:39:07,790 --> 00:39:04,190

each making his own contribution

857

00:39:11,450 --> 00:39:07,800

uh I started in 1968

858

00:39:14,810 --> 00:39:11,460

the SRI guys came along five years later

859

00:39:17,089 --> 00:39:14,820

and you know each of us independently

860

00:39:20,030 --> 00:39:17,099

making our own little contribution but

861

00:39:22,910 --> 00:39:20,040

the fact is the oldest remote viewing on

862

00:39:25,970 --> 00:39:22,920

recorded history that we have is in the

863

00:39:28,250 --> 00:39:25,980

46th chapter of herodotus's histories of

864

00:39:31,490 --> 00:39:28,260

the world and it's about an event that

865

00:39:33,950 --> 00:39:31,500

occurred in the 5th Century BCE

866

00:39:37,130 --> 00:39:33,960

so you know

867

00:39:38,990 --> 00:39:37,140

several thousand years ago and it's done

868

00:39:40,910 --> 00:39:39,000

exactly the same way we would do it

869

00:39:45,290 --> 00:39:40,920

today yeah

870

00:39:48,230 --> 00:39:45,300

so people have been able to open to this

871

00:39:51,230 --> 00:39:48,240

aspect of consciousness

872

00:39:51,910 --> 00:39:51,240

for thousands of years

873

00:39:54,650 --> 00:39:51,920

um

874

00:39:57,109 --> 00:39:54,660

they do it differently there is no one

875

00:39:59,089 --> 00:39:57,119

way to do it now there are people that

876

00:40:03,290 --> 00:39:59,099

sell you commercial programs it'll tell

877

00:40:06,470 --> 00:40:03,300

you this is the way right no there is no

878

00:40:09,589 --> 00:40:06,480

the way religion for people have done it

879

00:40:11,150 --> 00:40:09,599

differently over as I say over thousands

880

00:40:14,390 --> 00:40:11,160

of years

881

00:40:18,589 --> 00:40:14,400

yeah it is a question of being able to

882

00:40:25,250 --> 00:40:22,609

thought response of the that dominate

883

00:40:27,470 --> 00:40:25,260

most of your thinking it's hot it's cold

884

00:40:30,230 --> 00:40:27,480

it's light it's dark it's noisy it's

885

00:40:31,150 --> 00:40:30,240

quiet uh there's a smell there's no

886

00:40:34,010 --> 00:40:31,160

smell

887

00:40:36,290 --> 00:40:34,020

uh I'm thinking about this girl I'm

888

00:40:37,730 --> 00:40:36,300

gonna take out of whatever

889

00:40:40,190 --> 00:40:37,740

I feel like you have to take out an

890

00:40:42,170 --> 00:40:40,200

aspect of ego as well like you put you

891

00:40:43,490 --> 00:40:42,180

put all that all of that recedes into

892

00:40:46,190 --> 00:40:43,500

the background

893

00:40:48,650 --> 00:40:46,200

and you hear what in religion they call

894

00:40:50,990 --> 00:40:48,660

the still small voice

895

00:40:52,250 --> 00:40:51,000

and it's this non-local aspect of

896

00:40:55,490 --> 00:40:52,260

consciousness

897

00:40:58,210 --> 00:40:55,500

and the key as I said is to the the

898

00:41:01,010 --> 00:40:58,220

ability to attain and sustain

899

00:41:03,589 --> 00:41:01,020

intentioned focused awareness

900

00:41:05,510 --> 00:41:03,599

because that is what allows you to open

901
00:41:06,770 --> 00:41:05,520
to this non-local aspect of

902
00:41:09,890 --> 00:41:06,780
consciousness

903
00:41:13,069 --> 00:41:09,900
so how you do it is just there are any

904
00:41:17,089 --> 00:41:13,079
number of ways to do it but one of the

905
00:41:19,430 --> 00:41:17,099
key ones over long periods of History

906
00:41:23,210 --> 00:41:19,440
is that meditation

907
00:41:26,870 --> 00:41:23,220
uh is the is a good way to do it

908
00:41:29,450 --> 00:41:26,880
because meditators we know from research

909
00:41:32,630 --> 00:41:29,460
uh routinely do better than

910
00:41:35,450 --> 00:41:32,640
non-meditators at things that involve

911
00:41:38,690 --> 00:41:35,460
accessing non-local consciousness

912
00:41:41,210 --> 00:41:38,700
that's the first part the second part is

913
00:41:43,609 --> 00:41:41,220

well what what are we talking about and

914

00:41:46,190 --> 00:41:43,619

the key is and the two great mystery

915

00:41:49,609 --> 00:41:46,200

questions and I can't answer them nobody

916

00:41:52,609 --> 00:41:49,619

can yeah nobody I'm aware of anyway and

917

00:41:55,790 --> 00:41:52,619

I've been following this for a long time

918

00:41:58,550 --> 00:41:55,800

what is consciousness I don't know

919

00:42:01,190 --> 00:41:58,560

and what is information I don't know

920

00:42:04,250 --> 00:42:01,200

that either but what you're doing is

921

00:42:06,470 --> 00:42:04,260

accessing information

922

00:42:09,230 --> 00:42:06,480

and you can get anything and in fact

923

00:42:12,230 --> 00:42:09,240

that's what freaked politicians out

924

00:42:14,390 --> 00:42:12,240

because suddenly dawned on another

925

00:42:17,210 --> 00:42:14,400

remote viewer could find out they were

926

00:42:20,510 --> 00:42:17,220

cheating on their wives or that they

927

00:42:22,670 --> 00:42:20,520

were making an illegal graph deal to get

928

00:42:25,250 --> 00:42:22,680

money for something

929

00:42:27,109 --> 00:42:25,260

right yeah

930

00:42:29,510 --> 00:42:27,119

they're not gonna be huge fan breaks

931

00:42:32,270 --> 00:42:29,520

them out because they realize there are

932

00:42:35,030 --> 00:42:32,280

no secrets right

933

00:42:37,970 --> 00:42:35,040

whatever you were a good remote viewer

934

00:42:40,190 --> 00:42:37,980

can get anything yeah

935

00:42:43,670 --> 00:42:40,200

what I feel like there's there's an

936

00:42:48,370 --> 00:42:43,680

entire uh black budget of our government

937

00:42:52,790 --> 00:42:49,910

like

938

00:42:55,910 --> 00:42:52,800

oh well there's a famous story about

939

00:42:58,130 --> 00:42:55,920

this one of the remote viewers

940

00:42:59,930 --> 00:42:58,140

up at the SRI group described

941

00:43:02,630 --> 00:42:59,940

president's office

942

00:43:04,609 --> 00:43:02,640

including details that nobody had ever

943

00:43:08,089 --> 00:43:04,619

been able to know before

944

00:43:11,329 --> 00:43:08,099

and as a mother and I said as I said a a

945

00:43:13,550 --> 00:43:11,339

a senator who was a friend of mine who

946

00:43:16,550 --> 00:43:13,560

was a very senior senator

947

00:43:18,410 --> 00:43:16,560

said to me over dinner one night he said

948

00:43:21,710 --> 00:43:18,420

you gotta understand

949

00:43:24,829 --> 00:43:21,720

it freaks people out to believe that

950

00:43:27,130 --> 00:43:24,839

some remote viewer could be saying you

951
00:43:30,950 --> 00:43:27,140
know what has this Congressman doing

952
00:43:32,630 --> 00:43:30,960
he's stopping this uh woman who's not

953
00:43:35,690 --> 00:43:32,640
his wife

954
00:43:37,309 --> 00:43:35,700
and uh or he's making some kind of deal

955
00:43:38,510 --> 00:43:37,319
that he doesn't want anybody to know

956
00:43:41,030 --> 00:43:38,520
about

957
00:43:44,690 --> 00:43:41,040
or you know whatever

958
00:43:46,790 --> 00:43:44,700
and it makes him crazy I can see why

959
00:43:50,270 --> 00:43:46,800
that would why that would uh become an

960
00:43:53,210 --> 00:43:50,280
issue yeah absolutely you know like I I

961
00:43:55,790 --> 00:43:53,220
have the scent of uh uh a certain

962
00:43:57,370 --> 00:43:55,800
perfume and

963
00:44:00,650 --> 00:43:57,380

like that

964

00:44:02,450 --> 00:44:00,660

Ben had come across this book recently

965

00:44:04,609 --> 00:44:02,460

and it was pretty interesting and I was

966

00:44:06,290 --> 00:44:04,619

wondering like what does even though

967

00:44:08,990 --> 00:44:06,300

like Consciousness isn't directly

968

00:44:11,270 --> 00:44:09,000

related to the brain or anything I would

969

00:44:13,250 --> 00:44:11,280

assume that the brain still uh maybe

970

00:44:14,990 --> 00:44:13,260

functions differently do we know what

971

00:44:17,150 --> 00:44:15,000

the brain looks like while we're remote

972

00:44:19,550 --> 00:44:17,160

viewing are there certain apps we're

973

00:44:21,349 --> 00:44:19,560

just beginning we're just beginning to

974

00:44:23,690 --> 00:44:21,359

get a look at that

975

00:44:26,270 --> 00:44:23,700

we're just beginning to get a sense of

976

00:44:28,490 --> 00:44:26,280

what part of the brain lights up when

977

00:44:31,609 --> 00:44:28,500

you're doing something like this we're

978

00:44:34,609 --> 00:44:31,619

not all together certain the best

979

00:44:37,069 --> 00:44:34,619

research the prefrontal cortex and the

980

00:44:40,370 --> 00:44:37,079

anterior Superior temporal gyrus seem to

981

00:44:43,490 --> 00:44:40,380

be involved but it's early days on that

982

00:44:46,670 --> 00:44:43,500

but we'll get there I mean it's it's a

983

00:44:48,710 --> 00:44:46,680

question of doing the research and and

984

00:44:50,210 --> 00:44:48,720

doing it again and again so that you

985

00:44:52,690 --> 00:44:50,220

know that you're dealing with something

986

00:44:55,430 --> 00:44:52,700

solid but

987

00:44:56,690 --> 00:44:55,440

the brain clearly is involved in this

988

00:45:00,170 --> 00:44:56,700

but

989

00:45:01,150 --> 00:45:00,180

you know what this research also tells

990

00:45:05,390 --> 00:45:01,160

you

991

00:45:07,670 --> 00:45:05,400

Reincarnation research

992

00:45:10,849 --> 00:45:07,680

the near-death research you know

993

00:45:12,410 --> 00:45:10,859

something like 13 14 million people in

994

00:45:14,390 --> 00:45:12,420

the United States alone have had

995

00:45:17,569 --> 00:45:14,400

near-death experiences

996

00:45:22,130 --> 00:45:17,579

and what you begin to understand is the

997

00:45:22,849 --> 00:45:22,140

key is continuity of Consciousness that

998

00:45:25,190 --> 00:45:22,859

is

999

00:45:28,490 --> 00:45:25,200

your consciousness

1000

00:45:30,890 --> 00:45:28,500

existed prior to your incarnating

1001
00:45:34,010 --> 00:45:30,900
and it will continue after you are

1002
00:45:36,829 --> 00:45:34,020
physically gone not you the personality

1003
00:45:38,510 --> 00:45:36,839
but this eternal part what this religion

1004
00:45:41,260 --> 00:45:38,520
calls the soul

1005
00:45:42,770 --> 00:45:41,270
there is this eternal part of you

1006
00:45:45,829 --> 00:45:42,780
[Music]

1007
00:45:47,690 --> 00:45:45,839
and it is all part of a matrix of

1008
00:45:49,730 --> 00:45:47,700
consciousness

1009
00:45:52,190 --> 00:45:49,740
we're now beginning to learn from

1010
00:45:53,950 --> 00:45:52,200
research that

1011
00:45:57,170 --> 00:45:53,960
animals

1012
00:46:00,109 --> 00:45:57,180
plants insects they all have

1013
00:46:02,930 --> 00:46:00,119

Consciousness and that we live in a

1014

00:46:05,329 --> 00:46:02,940

matrix of consciousness

1015

00:46:07,609 --> 00:46:05,339

um and and you know it completely

1016

00:46:11,030 --> 00:46:07,619

changes the way you look at the world

1017

00:46:14,109 --> 00:46:11,040

because then you you understand why

1018

00:46:17,750 --> 00:46:14,119

so many religions emphasize so strongly

1019

00:46:22,550 --> 00:46:17,760

this business of fostering well-being

1020

00:46:24,829 --> 00:46:22,560

for everyone at every level because if

1021

00:46:27,710 --> 00:46:24,839

you're doing something that is degrading

1022

00:46:30,109 --> 00:46:27,720

well-being because the Matrix of

1023

00:46:32,630 --> 00:46:30,119

Consciousness all life is interconnected

1024

00:46:35,390 --> 00:46:32,640

and interdependent then you are

1025

00:46:37,809 --> 00:46:35,400

degrading your own well-being

1026
00:46:41,390 --> 00:46:37,819
and you can see with climate change

1027
00:46:44,270 --> 00:46:41,400
exactly how that plays out I mean we're

1028
00:46:46,609 --> 00:46:44,280
experiencing climate change because of

1029
00:46:49,069 --> 00:46:46,619
the technologies that we developed and

1030
00:46:51,710 --> 00:46:49,079
used without considering what is their

1031
00:46:54,490 --> 00:46:51,720
impact on the Earth

1032
00:46:57,950 --> 00:46:54,500
I mean this is not complicated

1033
00:47:00,670 --> 00:46:57,960
get this then you begin to see that

1034
00:47:03,170 --> 00:47:00,680
fostering well-being at every level

1035
00:47:05,809 --> 00:47:03,180
becomes critical and you develop

1036
00:47:09,050 --> 00:47:05,819
different Technologies and you make very

1037
00:47:11,089 --> 00:47:09,060
different choices you know you don't we

1038
00:47:14,150 --> 00:47:11,099

live in a culture in which there's only

1039

00:47:16,430 --> 00:47:14,160

one social priority and that's profit

1040

00:47:18,829 --> 00:47:16,440

everything in our culture is driven by

1041

00:47:22,069 --> 00:47:18,839

profit we have an illness profit system

1042

00:47:23,930 --> 00:47:22,079

we have we are that one of the parties

1043

00:47:28,790 --> 00:47:23,940

is trying to make an illness education

1044

00:47:31,250 --> 00:47:28,800

or a profit education system uh we know

1045

00:47:35,270 --> 00:47:31,260

that the legal system is deeply

1046

00:47:38,150 --> 00:47:35,280

influenced by by uh your wealth

1047

00:47:42,890 --> 00:47:38,160

and all of that stuff needs to be

1048

00:47:45,410 --> 00:47:42,900

replaced uh with fostering well-being it

1049

00:47:47,630 --> 00:47:45,420

seems like a very very different world

1050

00:47:49,910 --> 00:47:47,640

and I'm looking at the future now I'm

1051
00:47:52,130 --> 00:47:49,920
getting remote viewers to look at the

1052
00:47:55,010 --> 00:47:52,140
year 2060

1053
00:47:58,790 --> 00:47:55,020
and what they're telling me is we're

1054
00:48:00,410 --> 00:47:58,800
going to be a very very different world

1055
00:48:02,690 --> 00:48:00,420
well you can feel it right now it's

1056
00:48:06,410 --> 00:48:02,700
definitely a a different world than it

1057
00:48:09,109 --> 00:48:06,420
was five years ago yeah exactly and it

1058
00:48:11,809 --> 00:48:09,119
seems like uh our our economy and our

1059
00:48:14,510 --> 00:48:11,819
religion is both uh both ruled by

1060
00:48:16,309 --> 00:48:14,520
prophets yeah

1061
00:48:18,109 --> 00:48:16,319
you know uh

1062
00:48:20,990 --> 00:48:18,119
things are changing

1063
00:48:23,030 --> 00:48:21,000

they're not changing fast enough

1064

00:48:25,910 --> 00:48:23,040

uh we're gonna have

1065

00:48:29,150 --> 00:48:25,920

big problems from from climate change

1066

00:48:31,069 --> 00:48:29,160

sea rise uh drought

1067

00:48:33,770 --> 00:48:31,079

we're going to have three big migrations

1068

00:48:36,470 --> 00:48:33,780

in the United States one away from the

1069

00:48:39,290 --> 00:48:36,480

coasts you know like Florida just had

1070

00:48:41,990 --> 00:48:39,300

this horrible hurricane but the

1071

00:48:44,270 --> 00:48:42,000

projections are that Florida from about

1072

00:48:48,050 --> 00:48:44,280

Fort Myers down is going to disappear

1073

00:48:49,670 --> 00:48:48,060

it's going to go underwater Oh it gone

1074

00:48:54,170 --> 00:48:49,680

and um

1075

00:48:55,490 --> 00:48:54,180

and much of the coastline California the

1076

00:48:58,790 --> 00:48:55,500

East Coast

1077

00:49:01,130 --> 00:48:58,800

uh is going to go underwater

1078

00:49:04,190 --> 00:49:01,140

so there's going to be huge migrations

1079

00:49:06,589 --> 00:49:04,200

of people that move away there's going

1080

00:49:10,970 --> 00:49:06,599

to be a multi-trillion dollar real

1081

00:49:11,690 --> 00:49:10,980

estate collapse that's going to occur

1082

00:49:14,630 --> 00:49:11,700

um

1083

00:49:16,390 --> 00:49:14,640

we're going to have a whole set of new

1084

00:49:18,710 --> 00:49:16,400

technologies that are going to develop

1085

00:49:21,170 --> 00:49:18,720

we're going to see the end of the

1086

00:49:25,130 --> 00:49:21,180

internal combustion machine

1087

00:49:28,730 --> 00:49:25,140

uh combustion engine that's exciting

1088

00:49:31,130 --> 00:49:28,740

uh we're going to see a complete change

1089

00:49:33,890 --> 00:49:31,140

in how agriculture works so that

1090

00:49:37,309 --> 00:49:33,900

industrial chemical monoculture our

1091

00:49:38,210 --> 00:49:37,319

agriculture is going to end

1092

00:49:40,670 --> 00:49:38,220

um

1093

00:49:43,430 --> 00:49:40,680

people are going to move into very

1094

00:49:45,770 --> 00:49:43,440

different kinds of communities

1095

00:49:49,849 --> 00:49:45,780

of the remote viewers are telling me

1096

00:49:52,510 --> 00:49:49,859

that between 2040 and 2045 that's going

1097

00:49:55,910 --> 00:49:52,520

to be the big cataclysmic change moment

1098

00:49:58,370 --> 00:49:55,920

those five years are going to be

1099

00:50:01,250 --> 00:49:58,380

truly transitional

1100

00:50:03,849 --> 00:50:01,260

it's probably going to be as a result of

1101

00:50:07,069 --> 00:50:03,859

the end of internal combustion

1102

00:50:09,349 --> 00:50:07,079

uh it's going to be a result of climate

1103

00:50:12,230 --> 00:50:09,359

change the migration away from the

1104

00:50:15,650 --> 00:50:12,240

coasts the migration out of the

1105

00:50:18,589 --> 00:50:15,660

Southwest because of lack of water and

1106

00:50:20,930 --> 00:50:18,599

re increased temperature out of the

1107

00:50:24,109 --> 00:50:20,940

Central States because of cataclysmic

1108

00:50:27,829 --> 00:50:24,119

weather events like tornadoes

1109

00:50:30,470 --> 00:50:27,839

uh so people are going to relocate in

1110

00:50:32,089 --> 00:50:30,480

massive numbers millions of people you

1111

00:50:34,190 --> 00:50:32,099

can just think about what that what does

1112

00:50:36,589 --> 00:50:34,200

that mean you know I spoke at a medical

1113

00:50:38,390 --> 00:50:36,599

conference and I was they asked me to

1114

00:50:40,069 --> 00:50:38,400

talk about this

1115

00:50:43,430 --> 00:50:40,079

and I said

1116

00:50:47,329 --> 00:50:43,440

you live in us in a small City for

1117

00:50:51,829 --> 00:50:47,339

instance yeah and about 11 of the United

1118

00:50:54,589 --> 00:50:51,839

States are have uh diabetes if 50 000

1119

00:50:58,010 --> 00:50:54,599

people moved into your city over the

1120

00:51:00,589 --> 00:50:58,020

course of a few months and would you

1121

00:51:02,450 --> 00:51:00,599

have enough insulin to be able to deal

1122

00:51:05,150 --> 00:51:02,460

with those people and they said no

1123

00:51:08,030 --> 00:51:05,160

there's not enough self-checkout lines

1124

00:51:09,829 --> 00:51:08,040

in HEB yeah yeah we can barely deal with

1125

00:51:11,210 --> 00:51:09,839

the stuff that's coming over the border

1126

00:51:13,670 --> 00:51:11,220

right now if you imagine just like

1127

00:51:16,010 --> 00:51:13,680

people checking in like just even from

1128

00:51:18,290 --> 00:51:16,020

your own country like just in on your

1129

00:51:20,510 --> 00:51:18,300

own you could kind of see that in Texas

1130

00:51:23,089 --> 00:51:20,520

right now with just people just flocking

1131

00:51:25,010 --> 00:51:23,099

all over here absolutely it's already

1132

00:51:27,349 --> 00:51:25,020

happening like like I said within the

1133

00:51:30,250 --> 00:51:27,359

past five years our our life here in

1134

00:51:32,690 --> 00:51:30,260

Central Texas has changed drastically

1135

00:51:36,670 --> 00:51:32,700

it's a lot harder to find Cilantro

1136

00:51:40,010 --> 00:51:36,680

nowadays yeah it's so hard

1137

00:51:42,230 --> 00:51:40,020

the best projections that I see is the

1138

00:51:46,670 --> 00:51:42,240

that there's going to be about 53

1139

00:51:49,190 --> 00:51:46,680

million internal migration people yeah

1140

00:51:52,910 --> 00:51:49,200

we'll be moving so we're a country of

1141

00:51:54,589 --> 00:51:52,920

334 million people right now and 53

1142

00:51:57,230 --> 00:51:54,599

million of them are going to be moving

1143

00:52:01,190 --> 00:51:57,240

imagine what that think about what that

1144

00:52:04,250 --> 00:52:01,200

means where where if uh you look at like

1145

00:52:05,990 --> 00:52:04,260

Texas what the coming across the border

1146

00:52:07,849 --> 00:52:06,000

where are those people going to go to

1147

00:52:09,589 --> 00:52:07,859

the bathroom where are they going to

1148

00:52:10,549 --> 00:52:09,599

sleep I was thinking we send them to

1149

00:52:14,030 --> 00:52:10,559

Canada

1150

00:52:15,950 --> 00:52:14,040

oh good I mean they got a lot of room up

1151

00:52:19,010 --> 00:52:15,960

there you know yeah there's also going

1152

00:52:20,329 --> 00:52:19,020

to be going through massive changes and

1153

00:52:24,049 --> 00:52:20,339

uh they're going to have their own

1154

00:52:25,910 --> 00:52:24,059

problems yeah so it's this is not this

1155

00:52:28,250 --> 00:52:25,920

is not going to be any single country I

1156

00:52:31,609 --> 00:52:28,260

mean you look right now Pakistan three

1157

00:52:32,809 --> 00:52:31,619

quarters of Pakistan are under water

1158

00:52:36,410 --> 00:52:32,819

yeah

1159

00:52:39,170 --> 00:52:36,420

Bangladesh look at a country like

1160

00:52:42,589 --> 00:52:39,180

Bangladesh that's that's very uh you

1161

00:52:46,809 --> 00:52:42,599

know entirely Coastal and low long it's

1162

00:52:52,670 --> 00:52:50,270

you look at the Himalayas the Glaciers

1163

00:52:54,770 --> 00:52:52,680

are all melting so first they're going

1164

00:52:57,230 --> 00:52:54,780

to have floods and then they're going to

1165

00:52:59,930 --> 00:52:57,240

have drought where are all those

1166

00:53:02,809 --> 00:52:59,940

millions of people that depend on the

1167

00:53:06,470 --> 00:53:02,819

glacier cycle that is now going on when

1168

00:53:13,069 --> 00:53:09,770

so it's going to be we're going to see a

1169

00:53:17,089 --> 00:53:13,079

very very different world and we are not

1170

00:53:18,650 --> 00:53:17,099

preparing for it properly at all

1171

00:53:20,930 --> 00:53:18,660

I've got I've got a question for you

1172

00:53:24,109 --> 00:53:20,940

Steph so in in your remote viewing

1173

00:53:26,870 --> 00:53:24,119

finding Cleopatra's Palace uh there's

1174

00:53:29,329 --> 00:53:26,880

there's there's a few other locations uh

1175

00:53:31,309 --> 00:53:29,339

and and surrounding Egypt that have to

1176

00:53:33,290 --> 00:53:31,319

do with either their underwater or close

1177

00:53:35,450 --> 00:53:33,300

to water

1178

00:53:38,270 --> 00:53:35,460

now I don't know if I'm making a

1179

00:53:41,510 --> 00:53:38,280

connection just just randomly or do you

1180

00:53:42,950 --> 00:53:41,520

think this kind of cataclysm event what

1181

00:53:46,549 --> 00:53:42,960

you're seeing that's going to be

1182

00:53:49,370 --> 00:53:46,559

happening in the next 20 30 years do you

1183

00:53:51,290 --> 00:53:49,380

think this is a foreshadowing uh for

1184

00:53:53,630 --> 00:53:51,300

what has happened what you've seen what

1185

00:53:56,990 --> 00:53:53,640

you've able been able to prove and find

1186

00:53:59,270 --> 00:53:57,000

and and what can we expect and what have

1187

00:54:01,490 --> 00:53:59,280

we learned like do you think there's a

1188

00:54:02,870 --> 00:54:01,500

connection has this happened before this

1189

00:54:06,650 --> 00:54:02,880

exact same thing that we're seeing now

1190

00:54:10,250 --> 00:54:06,660

yeah have we seen climate change at this

1191

00:54:12,650 --> 00:54:10,260

level within recorded history yeah no

1192

00:54:14,270 --> 00:54:12,660

not at this level because this is a

1193

00:54:16,490 --> 00:54:14,280

planetary wide

1194

00:54:20,109 --> 00:54:16,500

uh I mean we definitely have seen

1195

00:54:22,250 --> 00:54:20,119

changes as you know uh

1196

00:54:23,990 --> 00:54:22,260

Humanity humans

1197

00:54:29,030 --> 00:54:24,000

came across

1198

00:54:32,170 --> 00:54:29,040

from Siberia to North America at a time

1199

00:54:35,150 --> 00:54:32,180

when when you could do that by walking

1200

00:54:37,490 --> 00:54:35,160

and so there there have been huge

1201
00:54:40,370 --> 00:54:37,500
changes

1202
00:54:43,130 --> 00:54:40,380
um but I don't think anything quite as

1203
00:54:47,030 --> 00:54:43,140
cataclysmic as what we're going to see

1204
00:54:49,990 --> 00:54:47,040
uh but I mean we know from these massive

1205
00:54:55,309 --> 00:54:50,000
changes civilizations have fallen

1206
00:55:00,049 --> 00:54:56,870
you're really smart guys you can

1207
00:55:01,250 --> 00:55:00,059
probably answer me this because I I I've

1208
00:55:03,170 --> 00:55:01,260
looked it up and I still don't get it

1209
00:55:04,910 --> 00:55:03,180
but like you know places that don't have

1210
00:55:06,470 --> 00:55:04,920
water they're pretty close to the ocean

1211
00:55:08,510 --> 00:55:06,480
like we haven't figured out a way to

1212
00:55:10,549 --> 00:55:08,520
desalinate a whole bunch of water yet

1213
00:55:13,190 --> 00:55:10,559

and use it for something important and

1214

00:55:17,329 --> 00:55:13,200

just make fresh water for people

1215

00:55:20,930 --> 00:55:17,339

yeah but desalinization has a whole raft

1216

00:55:25,309 --> 00:55:20,940

of problems yeah it's just not you you

1217

00:55:28,089 --> 00:55:25,319

pour this super saturated salt water

1218

00:55:31,130 --> 00:55:28,099

back in

1219

00:55:33,829 --> 00:55:31,140

the salt doesn't just disappear yeah

1220

00:55:36,829 --> 00:55:33,839

when you do desalinization you send this

1221

00:55:40,190 --> 00:55:36,839

slurry back in and that's a whole other

1222

00:55:42,890 --> 00:55:40,200

problem that disrupts the key to this

1223

00:55:45,290 --> 00:55:42,900

thing Joe it's very clear to me I've

1224

00:55:48,290 --> 00:55:45,300

been doing this now you know I started

1225

00:55:50,089 --> 00:55:48,300

in 1978 getting people to look at 2050

1226
00:55:52,849 --> 00:55:50,099
because I thought we were going to have

1227
00:55:55,490 --> 00:55:52,859
a nuclear war yeah I had just come out

1228
00:55:57,829 --> 00:55:55,500
of government and and it was in the

1229
00:56:00,710 --> 00:55:57,839
geopolitical realm and yeah that's a

1230
00:56:03,470 --> 00:56:00,720
scary time most people that were in the

1231
00:56:05,290 --> 00:56:03,480
world I was in that awful we were going

1232
00:56:10,130 --> 00:56:05,300
to have a nuclear war either by accident

1233
00:56:13,849 --> 00:56:10,140
or uh uh by deliberate choice

1234
00:56:15,829 --> 00:56:13,859
and in fact uh were it not for one

1235
00:56:18,530 --> 00:56:15,839
Soviet Colonel who wouldn't push the

1236
00:56:21,230 --> 00:56:18,540
button we would have had a nuclear war

1237
00:56:24,290 --> 00:56:21,240
he just wouldn't push the button that's

1238
00:56:27,230 --> 00:56:24,300

a story not many people know but anyway

1239

00:56:30,049 --> 00:56:27,240

what I have to give you an example I

1240

00:56:32,510 --> 00:56:30,059

started in 1978 thinking there's going

1241

00:56:34,790 --> 00:56:32,520

to be a nuclear war I had a little

1242

00:56:36,230 --> 00:56:34,800

daughter who just you know was a few

1243

00:56:38,210 --> 00:56:36,240

years old

1244

00:56:40,309 --> 00:56:38,220

and I wanted to know what was her life

1245

00:56:43,309 --> 00:56:40,319

going to be like and you don't want to

1246

00:56:44,630 --> 00:56:43,319

get too far out because if you go too

1247

00:56:47,270 --> 00:56:44,640

far out you can't understand what

1248

00:56:49,010 --> 00:56:47,280

they're saying I mean for instance in

1249

00:56:54,530 --> 00:56:49,020

the 18th century if you'd said to

1250

00:56:56,329 --> 00:56:54,540

somebody uh go to 2022 and they said oh

1251

00:56:59,030 --> 00:56:56,339

well you got this thing you can carry

1252

00:57:01,970 --> 00:56:59,040

around with you that will allow you to

1253

00:57:05,089 --> 00:57:01,980

talk to anybody on the world I mean you

1254

00:57:07,790 --> 00:57:05,099

wouldn't even comprehend it exactly

1255

00:57:09,589 --> 00:57:07,800

so I went to 2050 because I thought if

1256

00:57:11,750 --> 00:57:09,599

we go too much further out I wouldn't

1257

00:57:15,290 --> 00:57:11,760

understand it that's a big issue people

1258

00:57:17,510 --> 00:57:15,300

don't realize that anyway about that and

1259

00:57:18,650 --> 00:57:17,520

I said to that I said to the remote

1260

00:57:21,230 --> 00:57:18,660

viewers

1261

00:57:23,210 --> 00:57:21,240

is there a nuclear war

1262

00:57:26,150 --> 00:57:23,220

and they said no

1263

00:57:26,930 --> 00:57:26,160

and I said oh well is the world safer

1264

00:57:29,329 --> 00:57:26,940

then

1265

00:57:30,589 --> 00:57:29,339

and they said no the world is much more

1266

00:57:33,650 --> 00:57:30,599

dangerous

1267

00:57:35,510 --> 00:57:33,660

I said really why and they said

1268

00:57:41,210 --> 00:57:35,520

terrorism

1269

00:57:43,730 --> 00:57:41,220

really concerned about was the

1270

00:57:47,210 --> 00:57:43,740

Protestant Catholic struggle that was

1271

00:57:50,150 --> 00:57:47,220

going on in Northern Ireland

1272

00:57:53,870 --> 00:57:50,160

I said terrorism really wow

1273

00:57:57,230 --> 00:57:53,880

so well what's the Soviet Union like and

1274

00:58:01,490 --> 00:57:57,240

they said well it doesn't exist damn I

1275

00:58:04,130 --> 00:58:01,500

said what does it exist doesn't exist

1276

00:58:06,890 --> 00:58:04,140

and I went around to all my friends in

1277

00:58:09,109 --> 00:58:06,900

the geopolitical world you know who did

1278

00:58:12,349 --> 00:58:09,119

these kind of this is their area of

1279

00:58:16,370 --> 00:58:12,359

research and I said can you imagine how

1280

00:58:20,270 --> 00:58:16,380

that why what would cause the Soviet

1281

00:58:23,089 --> 00:58:20,280

Union to cease to exist and they said

1282

00:58:26,270 --> 00:58:23,099

you know Stephen that's just that's crap

1283

00:58:29,270 --> 00:58:26,280

I mean you know now that's nonsense but

1284

00:58:32,630 --> 00:58:29,280

of course Christmas Day 1991 the Soviet

1285

00:58:34,970 --> 00:58:32,640

Union cease to exist sure enough and I

1286

00:58:36,589 --> 00:58:34,980

said to him things like well talk to me

1287

00:58:38,450 --> 00:58:36,599

about health care

1288

00:58:41,569 --> 00:58:38,460

and they would describe a very different

1289

00:58:47,450 --> 00:58:43,849

and I said oh well then I guess we must

1290

00:58:50,150 --> 00:58:47,460

be in control of most of these big

1291

00:58:51,829 --> 00:58:50,160

illnesses and they said oh no there's a

1292

00:58:55,430 --> 00:58:51,839

whole series of pandemics that are

1293

00:58:56,450 --> 00:58:55,440

coming really and I said pandemics what

1294

00:59:00,109 --> 00:58:56,460

are you talking about I mean I'm

1295

00:59:02,990 --> 00:59:00,119

thinking 28 the 1918 Spanish flu right

1296

00:59:08,089 --> 00:59:03,000

yeah and they said well the first this

1297

00:59:10,670 --> 00:59:08,099

is 78.79 80. they said the first

1298

00:59:12,950 --> 00:59:10,680

uh first one's going to be a blood

1299

00:59:14,450 --> 00:59:12,960

disease that crosses over from primates

1300

00:59:16,549 --> 00:59:14,460

to humans

1301
00:59:19,789 --> 00:59:16,559
that's a blood disease and it's going to

1302
00:59:21,410 --> 00:59:19,799
kill millions of people dead and I went

1303
00:59:22,910 --> 00:59:21,420
to a friend of mine who was a deputy

1304
00:59:24,049 --> 00:59:22,920
director of National Institutes of

1305
00:59:25,549 --> 00:59:24,059
Health

1306
00:59:27,650 --> 00:59:25,559
and I said Tim do you know anything

1307
00:59:30,289 --> 00:59:27,660
about a blood disease crossing over from

1308
00:59:31,670 --> 00:59:30,299
primates to humans that has the

1309
00:59:33,470 --> 00:59:31,680
potential to kill millions of people

1310
00:59:36,910 --> 00:59:33,480
what year was this

1311
00:59:42,829 --> 00:59:39,530
fall of 79.

1312
00:59:46,250 --> 00:59:42,839
oh and he said to me

1313
00:59:49,069 --> 00:59:46,260

that is complete nonsense whatever it is

1314

00:59:50,990 --> 00:59:49,079

you're smoking Stefan I advise you to

1315

00:59:54,829 --> 00:59:51,000

quit give me some of that

1316

00:59:58,690 --> 00:59:54,839

and um and then of course 1981 AIDS

1317

01:00:03,170 --> 00:59:58,700

comes out HIV kills 35 million people

1318

01:00:04,910 --> 01:00:03,180

then we have SARS then we have h5n1 and

1319

01:00:07,010 --> 01:00:04,920

now we got coveted

1320

01:00:10,250 --> 01:00:07,020

and we're going to have others because

1321

01:00:13,190 --> 01:00:10,260

climate change is causing the viruses

1322

01:00:16,130 --> 01:00:13,200

and bacteria to mutate in order to deal

1323

01:00:17,390 --> 01:00:16,140

with the change in circumstances so

1324

01:00:19,910 --> 01:00:17,400

we're going to have lots of other

1325

01:00:22,910 --> 01:00:19,920

pandemics I think that are going to come

1326

01:00:24,770 --> 01:00:22,920

along like covet just did

1327

01:00:27,349 --> 01:00:24,780

and we're not going to be any better

1328

01:00:31,490 --> 01:00:27,359

prepared for that for them than we were

1329

01:00:33,370 --> 01:00:31,500

for covid I mean who knew about covid

1330

01:00:37,010 --> 01:00:33,380

before you know

1331

01:00:40,250 --> 01:00:37,020

2017 who never heard of Calvin I've

1332

01:00:43,670 --> 01:00:40,260

actually I've actually uh so my

1333

01:00:44,950 --> 01:00:43,680

stepfather's brothers my uncle-in-law I

1334

01:00:49,609 --> 01:00:44,960

guess

1335

01:00:50,870 --> 01:00:49,619

he he is a uh uh he's a scientist I

1336

01:00:53,510 --> 01:00:50,880

don't know the words I'm kind of dumb

1337

01:00:55,910 --> 01:00:53,520

but he's been studying he's been

1338

01:00:57,829 --> 01:00:55,920

studying he's a a virologist or

1339

01:01:01,970 --> 01:00:57,839

something like that so he's known about

1340

01:01:04,190 --> 01:01:01,980

the this form of covid uh you know SARS

1341

01:01:05,630 --> 01:01:04,200

or whatever for a while like it's a

1342

01:01:08,829 --> 01:01:05,640

known thing like it's been it's been

1343

01:01:12,950 --> 01:01:08,839

around for a few years and uh

1344

01:01:15,470 --> 01:01:12,960

that thing it's maybe since like the 90s

1345

01:01:19,849 --> 01:01:15,480

that's been like they're very aware that

1346

01:01:23,390 --> 01:01:19,859

that is a mutation that is a possible

1347

01:01:27,049 --> 01:01:23,400

it's like here's what he said what he

1348

01:01:30,349 --> 01:01:27,059

described it to me was uh they uh rated

1349

01:01:33,530 --> 01:01:30,359

on a variability scale of uh

1350

01:01:35,630 --> 01:01:33,540

of spreadability or can can this happen

1351

01:01:38,089 --> 01:01:35,640

naturally and not just in a lab and it

1352

01:01:39,470 --> 01:01:38,099

was like pretty high like it it's gonna

1353

01:01:40,609 --> 01:01:39,480

happen at some point we just don't know

1354

01:01:42,710 --> 01:01:40,619

when

1355

01:01:44,170 --> 01:01:42,720

yeah well we're gonna and there's gonna

1356

01:01:46,609 --> 01:01:44,180

be other things

1357

01:01:49,970 --> 01:01:46,619

yeah that's the point that's what I'm

1358

01:01:52,670 --> 01:01:49,980

trying to say is as we disrupt the world

1359

01:01:54,589 --> 01:01:52,680

because of what we have done to create

1360

01:01:57,829 --> 01:01:54,599

the climate change

1361

01:01:59,990 --> 01:01:57,839

we're going to see all kinds of all the

1362

01:02:01,990 --> 01:02:00,000

other living beings on the planet

1363

01:02:06,170 --> 01:02:02,000

accommodate

1364

01:02:08,089 --> 01:02:06,180

to adapt to those new circumstances

1365

01:02:10,010 --> 01:02:08,099

and so we're going to have other

1366

01:02:12,650 --> 01:02:10,020

pandemics

1367

01:02:14,170 --> 01:02:12,660

uh we're going to see we're already

1368

01:02:16,010 --> 01:02:14,180

seeing

1369

01:02:18,530 --> 01:02:16,020

plants

1370

01:02:21,589 --> 01:02:18,540

insects

1371

01:02:24,170 --> 01:02:21,599

animals who are mutating to accommodate

1372

01:02:27,950 --> 01:02:24,180

new circumstances and we're going to see

1373

01:02:30,069 --> 01:02:27,960

more and more of that as this goes along

1374

01:02:32,450 --> 01:02:30,079

and as I said

1375

01:02:35,210 --> 01:02:32,460

according to the remote viewers between

1376

01:02:38,630 --> 01:02:35,220

2040 and 2045

1377

01:02:42,589 --> 01:02:38,640

it really it really

1378

01:02:46,010 --> 01:02:42,599

is dramatic because the 2060s talk about

1379

01:02:48,770 --> 01:02:46,020

being on the other side of it

1380

01:02:50,870 --> 01:02:48,780

oh really because I see I was I was

1381

01:02:53,870 --> 01:02:50,880

about to say does that does that hinder

1382

01:02:56,750 --> 01:02:53,880

like our ability in the future to do

1383

01:02:59,510 --> 01:02:56,760

cool stuff like do we not have floating

1384

01:03:01,809 --> 01:02:59,520

hotels in Space by that time or like do

1385

01:03:04,430 --> 01:03:01,819

we or do we not yeah

1386

01:03:06,410 --> 01:03:04,440

you don't get to go to them dude I know

1387

01:03:08,569 --> 01:03:06,420

we're not gonna get to but like you know

1388

01:03:11,089 --> 01:03:08,579

with all this stuff coming you know like

1389

01:03:13,370 --> 01:03:11,099

I feel like we're just we're so close to

1390

01:03:15,530 --> 01:03:13,380

like doing something really cool you

1391

01:03:17,450 --> 01:03:15,540

know that we get to see but like if all

1392

01:03:19,430 --> 01:03:17,460

this stuff happens it like we may not

1393

01:03:21,049 --> 01:03:19,440

have the resources or the time to be

1394

01:03:22,910 --> 01:03:21,059

able to deal with it you know the

1395

01:03:25,069 --> 01:03:22,920

science of a bummer the scientific term

1396

01:03:27,890 --> 01:03:25,079

is a turd and the in the punch bowl

1397

01:03:29,630 --> 01:03:27,900

that's the scientific term that is a

1398

01:03:32,690 --> 01:03:29,640

actually scientific

1399

01:03:34,609 --> 01:03:32,700

well you guys are interested in UFOs so

1400

01:03:37,430 --> 01:03:34,619

let me give you my what I think is going

1401

01:03:39,049 --> 01:03:37,440

on there it will be a UFO show without

1402

01:03:41,510 --> 01:03:39,059

it let's go

1403

01:03:43,789 --> 01:03:41,520

I think what's going on is that we are

1404

01:03:47,510 --> 01:03:43,799

being watched

1405

01:03:50,270 --> 01:03:47,520

because every culture no matter where on

1406

01:03:52,970 --> 01:03:50,280

you know any planet

1407

01:03:55,910 --> 01:03:52,980

as it develops reaches a level of

1408

01:03:59,030 --> 01:03:55,920

technological sophistication

1409

01:04:01,370 --> 01:03:59,040

where it makes has to make a choice it's

1410

01:04:04,430 --> 01:04:01,380

either going to continue as we have been

1411

01:04:08,089 --> 01:04:04,440

doing this which is

1412

01:04:12,829 --> 01:04:08,099

developing Technologies for profit that

1413

01:04:15,950 --> 01:04:12,839

destroy the environmental infrastructure

1414

01:04:18,770 --> 01:04:15,960

or they wake up and be and realize that

1415

01:04:20,089 --> 01:04:18,780

you must promote well-being at every

1416

01:04:22,010 --> 01:04:20,099

level

1417

01:04:25,370 --> 01:04:22,020

and they're watching us like cultural

1418

01:04:28,549 --> 01:04:25,380

anthropologists that I mean it's clearly

1419

01:04:32,210 --> 01:04:28,559

if if any extraterrestrial civilization

1420

01:04:35,270 --> 01:04:32,220

wanted to conquer us I mean be easy

1421

01:04:37,670 --> 01:04:35,280

so that's not the issue right right what

1422

01:04:41,809 --> 01:04:37,680

they're doing is watching because we're

1423

01:04:45,670 --> 01:04:41,819

at the crossroads where we either keep

1424

01:04:50,270 --> 01:04:45,680

going and destroy ourselves

1425

01:04:53,870 --> 01:04:50,280

or we wake up and realize that the first

1426

01:04:57,230 --> 01:04:53,880

social priority of every culture must be

1427

01:05:00,349 --> 01:04:57,240

to promote well-being

1428

01:05:03,950 --> 01:05:00,359

at every level from the bacteria in the

1429

01:05:06,289 --> 01:05:03,960

soil to the birds in the sky and all the

1430

01:05:08,569 --> 01:05:06,299

beings that walk around on the planet

1431

01:05:11,750 --> 01:05:08,579

except mosquitoes have to promote

1432

01:05:14,329 --> 01:05:11,760

well-being because everything is

1433

01:05:17,650 --> 01:05:14,339

interconnected and interdependent and if

1434

01:05:22,609 --> 01:05:17,660

you don't do that if you are causing

1435

01:05:24,890 --> 01:05:22,619

sabotaging the equilibrium of the system

1436

01:05:27,710 --> 01:05:24,900

then you're going to pay a huge price

1437

01:05:29,870 --> 01:05:27,720

and they're watching us to see whether

1438

01:05:33,230 --> 01:05:29,880

we're going to make it or not and I

1439

01:05:35,390 --> 01:05:33,240

would say to you it's a toss-up

1440

01:05:37,549 --> 01:05:35,400

that's fair I'll take it I'll take a

1441

01:05:39,650 --> 01:05:37,559

toss-up as long as it's not a complete

1442

01:05:43,069 --> 01:05:39,660

and total loss yet I'll take a toss-up

1443

01:05:45,289 --> 01:05:43,079

you know okay I you know

1444

01:05:47,390 --> 01:05:45,299

I like to be optimistic about it you

1445

01:05:49,010 --> 01:05:47,400

know but then man dude I don't know and

1446

01:05:52,150 --> 01:05:49,020

then sometimes I like get on the

1447

01:05:57,230 --> 01:05:52,160

internet and I'm like nope we're done

1448

01:06:00,109 --> 01:05:57,240

I will say the 2060s tell me a it's a

1449

01:06:03,890 --> 01:06:00,119

very very different world

1450

01:06:06,710 --> 01:06:03,900

but they're on the other side of the

1451

01:06:09,950 --> 01:06:06,720

worst of the cataclysm

1452

01:06:13,510 --> 01:06:09,960

so uh that's good I'm I'm mildly

1453

01:06:16,370 --> 01:06:13,520

optimistic so yeah I'd rather know

1454

01:06:18,349 --> 01:06:16,380

the other side of it rather than like

1455

01:06:20,510 --> 01:06:18,359

hey like here's the really shitty part

1456

01:06:22,549 --> 01:06:20,520

guys like thank you for not sharing that

1457

01:06:24,289 --> 01:06:22,559

part if you do know and you're just not

1458

01:06:26,450 --> 01:06:24,299

sharing it thank you for not sharing it

1459

01:06:30,410 --> 01:06:26,460

because I feel like

1460

01:06:31,670 --> 01:06:30,420

like you're almost self uh manifesting

1461

01:06:33,230 --> 01:06:31,680

it if you're like focusing on the

1462

01:06:35,630 --> 01:06:33,240

negative like if you focus on the

1463

01:06:38,029 --> 01:06:35,640

positive which I don't know man makes me

1464

01:06:39,230 --> 01:06:38,039

think of this whole manifestation uh

1465

01:06:41,930 --> 01:06:39,240

Stephanie I've heard you talk about

1466

01:06:43,849 --> 01:06:41,940

manifestation and I I have kind of a

1467

01:06:45,890 --> 01:06:43,859

thought maybe a question to see what you

1468

01:06:48,109 --> 01:06:45,900

think about this idea

1469

01:06:50,029 --> 01:06:48,119

um so I wrote some stuff down so it

1470

01:06:51,470 --> 01:06:50,039

sounds like I'm reading I I actually am

1471

01:06:55,130 --> 01:06:51,480

reading I'm terrible reader so I'm

1472

01:06:58,250 --> 01:06:55,140

probably gonna anyway uh so here's here

1473

01:07:00,410 --> 01:06:58,260

goes uh we can all agree all humans are

1474

01:07:02,630 --> 01:07:00,420

in varying degrees capable of

1475

01:07:05,210 --> 01:07:02,640

manifesting non-physical things into

1476

01:07:07,309 --> 01:07:05,220

physical reality and the universe will

1477

01:07:09,410 --> 01:07:07,319

give us what we ask for if our

1478

01:07:11,569 --> 01:07:09,420

intentions are aligned with the larger

1479

01:07:13,370 --> 01:07:11,579

path what do you believe those

1480

01:07:15,829 --> 01:07:13,380

stipulations are like there's got to be

1481

01:07:18,710 --> 01:07:15,839

rules like you can't just ask for a

1482

01:07:20,450 --> 01:07:18,720

banana with wings like I don't know I

1483

01:07:23,809 --> 01:07:20,460

understand exactly what you're asking no

1484

01:07:27,049 --> 01:07:23,819

I will I will give you in fact uh we can

1485

01:07:30,289 --> 01:07:27,059

we close out on this I will give you you

1486

01:07:32,450 --> 01:07:30,299

exactly what I tell people who asked me

1487

01:07:33,950 --> 01:07:32,460

that question I get asked that question

1488

01:07:35,569 --> 01:07:33,960

all the time

1489

01:07:37,730 --> 01:07:35,579

and that is

1490

01:07:40,670 --> 01:07:37,740

the quotidian choice

1491

01:07:42,529 --> 01:07:40,680

every day you make dozens of little

1492

01:07:45,230 --> 01:07:42,539

decisions

1493

01:07:49,190 --> 01:07:45,240

the toothpaste you buy the cat food you

1494

01:07:52,309 --> 01:07:49,200

buy the toilet paper you buy whatever

1495

01:07:55,190 --> 01:07:52,319

you every one of those is a vote

1496

01:07:59,029 --> 01:07:55,200

it's you're either voting for well-being

1497

01:08:01,970 --> 01:07:59,039

or you're voting for something else

1498

01:08:03,950 --> 01:08:01,980

so if you want to become an agent of

1499

01:08:06,410 --> 01:08:03,960

change and I wrote this in a book called

1500

01:08:09,470 --> 01:08:06,420

The Eight laws of change you can go to

1501

01:08:11,529 --> 01:08:09,480

my website or you can you can go up on

1502

01:08:14,809 --> 01:08:11,539

Amazon you can get the book

1503

01:08:16,249 --> 01:08:14,819

every day you make these dozens of these

1504

01:08:17,269 --> 01:08:16,259

little choices you don't even think

1505

01:08:19,189 --> 01:08:17,279

about them

1506

01:08:21,769 --> 01:08:19,199

you know you buy the toothpaste your

1507

01:08:24,829 --> 01:08:21,779

mother bought or your college roommate

1508

01:08:29,809 --> 01:08:24,839

told you to buy or whatever

1509

01:08:31,610 --> 01:08:29,819

but you have to become aware of whether

1510

01:08:34,490 --> 01:08:31,620

the companies that are making the

1511

01:08:38,570 --> 01:08:34,500

products that you're buying are

1512

01:08:43,490 --> 01:08:41,030

and every day you make these choices

1513

01:08:46,910 --> 01:08:43,500

these dozens of little bitty quittedian

1514

01:08:49,430 --> 01:08:46,920

quittedian means ordinary mundane these

1515

01:08:52,189 --> 01:08:49,440

little quittedian choices

1516

01:08:55,070 --> 01:08:52,199

you always pick

1517

01:08:57,590 --> 01:08:55,080

of the options that are available for

1518

01:08:59,990 --> 01:08:57,600

you now you may not have it ever the

1519

01:09:02,689 --> 01:09:00,000

option that you ideally would want but

1520

01:09:06,590 --> 01:09:02,699

of the options available to you

1521

01:09:07,870 --> 01:09:06,600

you always pick the one that is the most

1522

01:09:10,309 --> 01:09:07,880

compassionate

1523

01:09:11,749 --> 01:09:10,319

life-affirming and fostering of

1524

01:09:15,050 --> 01:09:11,759

well-being

1525

01:09:18,410 --> 01:09:15,060

and you tell 10 people that you're doing

1526

01:09:21,070 --> 01:09:18,420

this as a discipline and invite them to

1527

01:09:24,470 --> 01:09:21,080

join you and tell 10 of their friends

1528

01:09:26,570 --> 01:09:24,480

and if you do this if the people that

1529

01:09:27,410 --> 01:09:26,580

are listening to this podcast at this

1530

01:09:29,809 --> 01:09:27,420

moment

1531

01:09:31,249 --> 01:09:29,819

will make that commitment

1532

01:09:33,950 --> 01:09:31,259

you must

1533

01:09:37,789 --> 01:09:33,960

take the time to find out

1534

01:09:40,189 --> 01:09:37,799

the things that you buy for instance you

1535

01:09:43,309 --> 01:09:40,199

want to eliminate all of the toxic

1536

01:09:45,349 --> 01:09:43,319

chemicals that are in your environment

1537

01:09:49,910 --> 01:09:45,359

immediate environment

1538

01:09:52,550 --> 01:09:49,920

stop buying the air fresheners buy

1539

01:09:56,510 --> 01:09:52,560

organic soaps not soaps that have

1540

01:10:00,410 --> 01:09:56,520

chemicals you have to read the labels

1541

01:10:04,669 --> 01:10:00,420

you buy you know life expectancy in the

1542

01:10:08,330 --> 01:10:04,679

United States is going down not up

1543

01:10:10,189 --> 01:10:08,340

American men are less fertile than their

1544

01:10:13,370 --> 01:10:10,199

fathers were

1545

01:10:17,390 --> 01:10:13,380

think about that yeah

1546

01:10:21,050 --> 01:10:17,400

people are have all kinds of awful

1547

01:10:23,750 --> 01:10:21,060

diseases that arise because of the

1548

01:10:26,630 --> 01:10:23,760

toxins in their environment that they're

1549

01:10:29,570 --> 01:10:26,640

not even aware of the it's not just

1550

01:10:31,610 --> 01:10:29,580

things like Roundup that you spray on

1551

01:10:34,370 --> 01:10:31,620

your lawn that can cause cancer but

1552

01:10:36,830 --> 01:10:34,380

there's a whole raft of these things so

1553

01:10:39,530 --> 01:10:36,840

you have to wake up

1554

01:10:42,050 --> 01:10:39,540

you wake up you look at your life you

1555

01:10:45,950 --> 01:10:42,060

look at your household the household

1556

01:10:50,330 --> 01:10:45,960

economy you start choosing things which

1557

01:10:53,270 --> 01:10:50,340

are organic which don't have toxins you

1558

01:10:56,450 --> 01:10:53,280

make choices about the companies you go

1559

01:10:58,790 --> 01:10:56,460

to the the restaurants you go to the

1560

01:11:01,790 --> 01:10:58,800

gasoline you buy whatever

1561

01:11:06,610 --> 01:11:01,800

you always pick of the options that are

1562

01:11:13,850 --> 01:11:10,729

most compassionate life-affirming and

1563

01:11:16,189 --> 01:11:13,860

fostering of well-being choice you do it

1564

01:11:18,410 --> 01:11:16,199

you tell your friends to do it and if

1565

01:11:21,050 --> 01:11:18,420

you did that the people that are

1566

01:11:23,450 --> 01:11:21,060

listening to this podcast today could

1567

01:11:25,570 --> 01:11:23,460

determine the outcome of the election in

1568

01:11:28,010 --> 01:11:25,580

November

1569

01:11:30,050 --> 01:11:28,020

well Stefan that that deserves a

1570

01:11:31,610 --> 01:11:30,060

standing ovation that's the best

1571

01:11:33,590 --> 01:11:31,620

closeout I think we've ever had on the

1572

01:11:37,310 --> 01:11:33,600

program I'm gonna be honest with you you

1573

01:11:39,050 --> 01:11:37,320

uh you won that was great man Stefan

1574

01:11:42,229 --> 01:11:39,060

thank you so much for stopping by and

1575

01:11:44,390 --> 01:11:42,239

hanging out with us uh this evening it's

1576

01:11:46,250 --> 01:11:44,400

been absolutely wonderful man hope to

1577

01:11:48,350 --> 01:11:46,260

see you again thank you so much uh

1578

01:11:50,870 --> 01:11:48,360

ladies and gentlemen uh Stefan Schwartz

1579

01:11:52,790 --> 01:11:50,880

thank you sir

1580

01:11:55,250 --> 01:11:52,800

you have a good night

1581

01:11:58,130 --> 01:11:55,260

you take care guys all right we'll do

1582

01:12:03,709 --> 01:12:00,410

that was great dude

1583

01:12:05,570 --> 01:12:03,719

I was a lot of fun I uh I don't know I

1584

01:12:07,070 --> 01:12:05,580

mean usually we ask you know how where

1585

01:12:10,669 --> 01:12:07,080

can people see you but we've we've got

1586

01:12:14,270 --> 01:12:10,679

the links in the bio to Stefan's website

1587

01:12:16,189 --> 01:12:14,280

to a few YouTube videos of note uh

1588

01:12:17,990 --> 01:12:16,199

including the TED Talks that he's been a

1589

01:12:20,030 --> 01:12:18,000

part of

1590

01:12:22,070 --> 01:12:20,040

um man it's been it's been like an

1591

01:12:25,010 --> 01:12:22,080

eye-opening and Awakening kind of like

1592

01:12:26,990 --> 01:12:25,020

week a couple of weeks since I found him

1593

01:12:28,790 --> 01:12:27,000

yeah and now he's just everywhere

1594

01:12:31,370 --> 01:12:28,800

because you know the algorithm is like

1595

01:12:33,410 --> 01:12:31,380

feeding me stuff and it's like perfectly

1596

01:12:35,330 --> 01:12:33,420

perfectly like where I'm at head

1597

01:12:36,709 --> 01:12:35,340

headspace wise and like well it was

1598

01:12:38,270 --> 01:12:36,719

great because we had like a bunch of

1599

01:12:40,790 --> 01:12:38,280

pieces that we didn't know what to do

1600

01:12:42,350 --> 01:12:40,800

with yeah and like kind of after finding

1601
01:12:45,470 --> 01:12:42,360
him and listening to his talks it was

1602
01:12:49,130 --> 01:12:45,480
like whoa so these pieces go here that

1603
01:12:50,990 --> 01:12:49,140
makes sense now okay it's like you're

1604
01:12:54,169 --> 01:12:51,000
starting to get the picture so yeah

1605
01:12:57,290 --> 01:12:54,179
great I loved it man you know

1606
01:13:00,430 --> 01:12:57,300
freaking fantastic I feel like man if

1607
01:13:02,510 --> 01:13:00,440
if he's down to go on uh you know

1608
01:13:03,830 --> 01:13:02,520
in a month or so I feel like we're gonna

1609
01:13:05,570 --> 01:13:03,840
have even better questions I know

1610
01:13:08,870 --> 01:13:05,580
there's some questions

1611
01:13:11,630 --> 01:13:08,880
that we didn't get to but uh he's a busy

1612
01:13:13,490 --> 01:13:11,640
man so man that was awesome that was

1613
01:13:16,850 --> 01:13:13,500

awesome hell yeah brother

1614

01:13:19,010 --> 01:13:16,860

well do we want to update people what

1615

01:13:20,930 --> 01:13:19,020

we're working on or like just say what's

1616

01:13:22,910 --> 01:13:20,940

hey we're doing the let's just remind

1617

01:13:24,709 --> 01:13:22,920

him about the retreat on the fourth yeah

1618

01:13:26,450 --> 01:13:24,719

yeah uh fourth through the sixth we're

1619

01:13:27,470 --> 01:13:26,460

gonna be out at Mystic quarries we're

1620

01:13:30,350 --> 01:13:27,480

gonna be hanging out we're gonna

1621

01:13:31,850 --> 01:13:30,360

barbecue uh we're gonna be telling

1622

01:13:34,490 --> 01:13:31,860

stories hanging around the campfire

1623

01:13:35,750 --> 01:13:34,500

maybe do a little UFO searching see what

1624

01:13:37,610 --> 01:13:35,760

we can find

1625

01:13:38,750 --> 01:13:37,620

probably satellites but I don't know

1626
01:13:41,390 --> 01:13:38,760
maybe we get one to do something cool

1627
01:13:43,250 --> 01:13:41,400
right uh it's happened before dude I

1628
01:13:44,870 --> 01:13:43,260
think it's Stefan Sports is going to be

1629
01:13:47,870 --> 01:13:44,880
just like

1630
01:13:48,830 --> 01:13:47,880
slowly dropping down from the sky in an

1631
01:13:50,510 --> 01:13:48,840
orb

1632
01:13:52,430 --> 01:13:50,520
you know I gotta tell you man he's he's

1633
01:13:55,370 --> 01:13:52,440
right though you know like people are

1634
01:13:57,890 --> 01:13:55,380
changing uh

1635
01:14:09,290 --> 01:13:57,900
like

1636
01:14:11,689 --> 01:14:09,300
toxins you think toxins are why

1637
01:14:14,030 --> 01:14:11,699
everybody thinks they're ladies now

1638
01:14:17,750 --> 01:14:14,040

dude

1639

01:14:19,790 --> 01:14:17,760

who knows man maybe it's all the grains

1640

01:14:22,669 --> 01:14:19,800

we eat dude all the cereal we was

1641

01:14:25,189 --> 01:14:22,679

munching us the Honey Oats honey nut

1642

01:14:27,110 --> 01:14:25,199

cheers did you know that Honey Nut

1643

01:14:29,570 --> 01:14:27,120

Cheerios isn't the same as regular just

1644

01:14:31,209 --> 01:14:29,580

Cherry like Cheerios the box is yellow

1645

01:14:34,490 --> 01:14:31,219

it says

1646

01:14:36,169 --> 01:14:34,500

it's a totally [h__h] different thing

1647

01:14:37,850 --> 01:14:36,179

dude it's completely different it's a

1648

01:14:40,729 --> 01:14:37,860

whole different vibe they're made of

1649

01:14:42,470 --> 01:14:40,739

different buildings honey not Cheerios

1650

01:14:44,630 --> 01:14:42,480

it's got that booty it's got that sweet

1651
01:14:46,630 --> 01:14:44,640
sauce you know it's got that little some

1652
01:14:50,090 --> 01:14:46,640
some it's got that yeah

1653
01:14:52,669 --> 01:14:50,100
you know it's the only adult cereal I

1654
01:14:54,530 --> 01:14:52,679
can really eat you know we'll have

1655
01:14:57,410 --> 01:14:54,540
marshmallows in it but I know it's it

1656
01:14:59,510 --> 01:14:57,420
sucks I look forward to it but uh yeah

1657
01:15:01,790 --> 01:14:59,520
dude that was that was so great like I

1658
01:15:03,669 --> 01:15:01,800
didn't even get to all my questions I'm

1659
01:15:06,169 --> 01:15:03,679
a napkin I know

1660
01:15:08,270 --> 01:15:06,179
you kind of hit them all he hit him he

1661
01:15:10,610 --> 01:15:08,280
kind of hit on them all

1662
01:15:12,950 --> 01:15:10,620
um but like I felt like if I interrupted

1663
01:15:14,090 --> 01:15:12,960

him I was just gonna make him say I was

1664

01:15:15,649 --> 01:15:14,100

just gonna interrupt it with something

1665

01:15:16,970 --> 01:15:15,659

not as interesting as what he was

1666

01:15:17,990 --> 01:15:16,980

already saying so that's kind of the

1667

01:15:20,750 --> 01:15:18,000

same thing I was thinking it's like

1668

01:15:23,209 --> 01:15:20,760

anytime we talk to somebody like super

1669

01:15:25,130 --> 01:15:23,219

way smarter than us like most people are

1670

01:15:27,050 --> 01:15:25,140

smarter than us but like yeah this is

1671

01:15:27,770 --> 01:15:27,060

full way smarter than us

1672

01:15:29,689 --> 01:15:27,780

um

1673

01:15:31,010 --> 01:15:29,699

I really wanted to show him through the

1674

01:15:33,830 --> 01:15:31,020

curtain

1675

01:15:36,229 --> 01:15:33,840

oh yeah not to be so bad anyway dude

1676

01:15:37,850 --> 01:15:36,239

it's cool I'm gonna go and just before

1677

01:15:40,250 --> 01:15:37,860

we get off I gotta show everybody that's

1678

01:15:41,330 --> 01:15:40,260

still on we still got like 20 people on

1679

01:15:43,250 --> 01:15:41,340

um

1680

01:15:46,070 --> 01:15:43,260

through the curtain y'all

1681

01:15:53,570 --> 01:15:49,850

it is it's this book published in 1983.

1682

01:15:55,669 --> 01:15:53,580

it's like 158 dollars to buy hardback

1683

01:15:57,709 --> 01:15:55,679

paperback you can't it's like No One's

1684

01:16:00,470 --> 01:15:57,719

Gonna buy that like it's it's almost

1685

01:16:02,630 --> 01:16:00,480

it's almost like a gate like no one's

1686

01:16:03,709 --> 01:16:02,640

they're not making it illegal to own

1687

01:16:05,090 --> 01:16:03,719

this book

1688

01:16:06,890 --> 01:16:05,100

but it's they're making it really

1689

01:16:09,830 --> 01:16:06,900

difficult it's pretty expensive No One's

1690

01:16:12,470 --> 01:16:09,840

Gonna Pay 183 dollars or whatever it is

1691

01:16:14,149 --> 01:16:12,480

on Amazon if you can go look it up

1692

01:16:15,350 --> 01:16:14,159

just on a book that you don't know what

1693

01:16:18,590 --> 01:16:15,360

it's going to be about

1694

01:16:21,709 --> 01:16:18,600

but it was uh published in 1983 by Viola

1695

01:16:22,490 --> 01:16:21,719

petite Neil PhD

1696

01:16:27,290 --> 01:16:22,500

um

1697

01:16:29,689 --> 01:16:27,300

she was born 1907 died 1981. uh well I

1698

01:16:31,970 --> 01:16:29,699

guess the writer uh

1699

01:16:35,750 --> 01:16:31,980

died before the book was published

1700

01:16:37,370 --> 01:16:35,760

because this person was the channel that

1701

01:16:38,930 --> 01:16:37,380

provided all the content all the

1702

01:16:41,030 --> 01:16:38,940

information yeah all the information

1703

01:16:43,430 --> 01:16:41,040

dedicated to the Disciples of the

1704

01:16:46,370 --> 01:16:43,440

spiritual hierarchy and Awakening

1705

01:16:48,229 --> 01:16:46,380

Humanity that made that they may know

1706

01:16:49,610 --> 01:16:48,239

the source of their inspiration and

1707

01:16:51,770 --> 01:16:49,620

knowledge

1708

01:16:53,630 --> 01:16:51,780

specifically talks about through the

1709

01:16:55,610 --> 01:16:53,640

curtain uh and this is like in the

1710

01:16:57,709 --> 01:16:55,620

forward dude

1711

01:17:03,169 --> 01:16:57,719

um XVI

1712

01:17:06,290 --> 01:17:03,179

what what is that uh 10 uh 101 106.

1713

01:17:09,350 --> 01:17:06,300

uh the specific uh for those just

1714

01:17:11,870 --> 01:17:09,360

listening the uh the highlighted part is

1715

01:17:14,330 --> 01:17:11,880

For the First Time Dr Neil revealed to

1716

01:17:17,870 --> 01:17:14,340

me her own personal experiences

1717

01:17:19,850 --> 01:17:17,880

one of which was that as she was falling

1718

01:17:22,729 --> 01:17:19,860

asleep she would see her in her Mind's

1719

01:17:24,169 --> 01:17:22,739

Eye in a miniature form frames like a

1720

01:17:26,930 --> 01:17:24,179

moving picture of beautiful flowers

1721

01:17:28,970 --> 01:17:26,940

placed uh places in people and very

1722

01:17:31,010 --> 01:17:28,980

sharp bright colors they had these had

1723

01:17:33,709 --> 01:17:31,020

no particular significance in her own

1724

01:17:36,530 --> 01:17:33,719

personal life reference to this ability

1725

01:17:38,750 --> 01:17:36,540

and its true meaning is discussed in one

1726

01:17:41,390 --> 01:17:38,760

of the night classes this book goes on

1727

01:17:45,229 --> 01:17:41,400

to describe the night classes

1728

01:17:49,130 --> 01:17:45,239

as a form of meditation if you will or

1729

01:17:51,290 --> 01:17:49,140

entering the etheric realm or

1730

01:17:53,390 --> 01:17:51,300

um what's it called Joe like when you're

1731

01:17:56,149 --> 01:17:53,400

like awake while you're sleeping or

1732

01:17:58,370 --> 01:17:56,159

lucid dreaming lucid dreaming thank you

1733

01:18:01,250 --> 01:17:58,380

you go in this this classroom basically

1734

01:18:03,709 --> 01:18:01,260

like there's no sign up board you just

1735

01:18:05,870 --> 01:18:03,719

you're a part of this higher knowledge

1736

01:18:08,390 --> 01:18:05,880

you could go in and sit on these classes

1737

01:18:09,770 --> 01:18:08,400

and these souls or whatever these

1738

01:18:12,410 --> 01:18:09,780

entities I mean if you watch the Disney

1739

01:18:14,810 --> 01:18:12,420

movie Soul it's like this classroom

1740

01:18:16,370 --> 01:18:14,820

where they teach people [h__h] and you

1741

01:18:18,649 --> 01:18:16,380

could just go

1742

01:18:21,530 --> 01:18:18,659

and anybody can do it and this was done

1743

01:18:23,390 --> 01:18:21,540

in the 60s and the reason this is this

1744

01:18:25,250 --> 01:18:23,400

book wasn't published until the 80s is

1745

01:18:27,410 --> 01:18:25,260

because this P these uh two friends

1746

01:18:28,790 --> 01:18:27,420

these female friends

1747

01:18:30,830 --> 01:18:28,800

they were doing these studies back in

1748

01:18:32,930 --> 01:18:30,840

the 60s but the person doing the

1749

01:18:35,450 --> 01:18:32,940

channeling was like hey don't publish

1750

01:18:37,610 --> 01:18:35,460

this [h__h] until I'm dead so yeah they

1751

01:18:40,729 --> 01:18:37,620

had to wait they had to wait

1752

01:18:42,410 --> 01:18:40,739

anyway one more page uh they

1753

01:18:44,270 --> 01:18:42,420

specifically talk about

1754

01:18:47,149 --> 01:18:44,280

the ability to read the planetary

1755

01:18:49,669 --> 01:18:47,159

records akashic has something to do with

1756

01:18:51,950 --> 01:18:49,679

a certain antenna activated in the Kane

1757

01:18:55,070 --> 01:18:51,960

Kate nucleus this is the physical

1758

01:18:57,470 --> 01:18:55,080

mechanism used by the interplay of the

1759

01:19:00,530 --> 01:18:57,480

top head Center in the Kundalini Center

1760

01:19:03,110 --> 01:19:00,540

based of the spine or root Center which

1761

01:19:05,689 --> 01:19:03,120

is the outer focus and Anja Center this

1762

01:19:08,030 --> 01:19:05,699

would be the physical mechanism for

1763

01:19:10,189 --> 01:19:08,040

handling this ability from the etheric

1764

01:19:13,010 --> 01:19:10,199

to the physical this physical mechanism

1765

01:19:15,350 --> 01:19:13,020

is akata nucleus Cate nucleus Joe where

1766

01:19:17,689 --> 01:19:15,360

have we heard that dude hmm the

1767

01:19:21,110 --> 01:19:17,699

ventricles of the brain act as a screen

1768

01:19:23,169 --> 01:19:21,120

like a screen for a moving picture Joe

1769

01:19:26,209 --> 01:19:23,179

where have we heard that

1770

01:19:29,630 --> 01:19:26,219

there were very fine lines thousands of

1771

01:19:32,270 --> 01:19:29,640

them and Connie Kane nucleus is like a

1772

01:19:33,470 --> 01:19:32,280

miniature brain for higher stages of

1773

01:19:36,410 --> 01:19:33,480

development

1774

01:19:38,990 --> 01:19:36,420

the centers for hire since perception

1775

01:19:42,350 --> 01:19:39,000

were located and located in different

1776

01:19:45,470 --> 01:19:42,360

points in this Cate nucleus and the

1777

01:19:47,149 --> 01:19:45,480

antenna for these were focused at a

1778

01:19:48,950 --> 01:19:47,159

point

1779

01:19:52,030 --> 01:19:48,960

they're talking she's talking about the

1780

01:19:54,530 --> 01:19:52,040

katiputamin and the basal ganglia baby

1781

01:19:59,530 --> 01:19:54,540

what have we been talking about for the

1782

01:20:02,870 --> 01:19:59,540

last two thousand million billion years

1783

01:20:04,970 --> 01:20:02,880

bajillion because you're in

1784

01:20:06,950 --> 01:20:04,980

um anyway yeah dude yeah check out the

1785

01:20:08,870 --> 01:20:06,960

book it's pretty cool yeah

1786

01:20:10,130 --> 01:20:08,880

uh it's free on our website if you want

1787

01:20:11,510 --> 01:20:10,140

to take a look

1788

01:20:14,930 --> 01:20:11,520

I don't know if that's legal or not

1789

01:20:16,970 --> 01:20:14,940

please don't tell them okay law people I

1790

01:20:19,189 --> 01:20:16,980

don't know I got it

1791

01:20:22,669 --> 01:20:19,199

um it's on the website keep peoples out

1792

01:20:25,370 --> 01:20:22,679

of it thank you all right dude all right

1793

01:20:26,090 --> 01:20:25,380

dog this is being a good one this is so

1794

01:20:28,430 --> 01:20:26,100

good

1795

01:20:29,689 --> 01:20:28,440

time to go Mimi's time to go Mimi's Dog

1796

01:20:31,370 --> 01:20:29,699

all right man

1797

01:20:34,010 --> 01:20:31,380

well hey

1798

01:20:36,470 --> 01:20:34,020

this has been another episode of you of

1799

01:20:38,450 --> 01:20:36,480

the garage

1800

01:20:40,980 --> 01:20:38,460

talk to you next time

1801

01:21:06,470 --> 01:20:40,990

and goodbye okay bye

1802

01:21:11,400 --> 01:21:06,480
