

UFO HUB

1
00:00:15,470 --> 00:00:11,720
my name is art Hamill I've been in

2
00:00:18,680 --> 00:00:15,480
around UFO studies for a little over 50

3
00:00:21,740 --> 00:00:18,690
years so I've gone through a lot of

4
00:00:24,500 --> 00:00:21,750
things and as I've learned and we're

5
00:00:28,250 --> 00:00:24,510
speaking here from parikamma conference

6
00:00:30,609 --> 00:00:28,260
in 2014 in Kansas City and we've been

7
00:00:34,819 --> 00:00:30,619
asked to say a few words about what

8
00:00:35,150 --> 00:00:34,829
we've been doing over the last a few

9
00:00:38,209 --> 00:00:35,160
years

10
00:00:41,959 --> 00:00:38,219
and I'll start with more recent things

11
00:00:44,810 --> 00:00:41,969
first we've recently discovered some

12
00:00:48,950 --> 00:00:44,820
major pieces of UFO debris that was

13
00:00:53,450 --> 00:00:48,960

discovered in 2011 and found some more

14

00:00:58,430 --> 00:00:53,460

in 2012 it's now being analyzed for the

15

00:01:02,260 --> 00:00:58,440

second time MUFON has taken mutual UFO

16

00:01:05,299 --> 00:01:02,270

network has taken all of our pieces to

17

00:01:07,219 --> 00:01:05,309

have analyzed for the second time we've

18

00:01:09,500 --> 00:01:07,229

hadn't done the first time we answered

19

00:01:11,450 --> 00:01:09,510

elders and helped us with the money and

20

00:01:13,910 --> 00:01:11,460

now we're analyzing all the other pieces

21

00:01:16,760 --> 00:01:13,920

so I'm going to show you today some of

22

00:01:18,380 --> 00:01:16,770

the things we're working on and these

23

00:01:21,260 --> 00:01:18,390

are projects that have gone back over

24

00:01:23,749 --> 00:01:21,270

ten or twelve years or more I've been

25

00:01:26,080 --> 00:01:23,759

working this particular crash site known

26

00:01:31,130 --> 00:01:26,090

as the plan just a set of Gustin site

27

00:01:33,380 --> 00:01:31,140

since 1994 and we started finding things

28

00:01:36,950 --> 00:01:33,390

the first day we were there and I've

29

00:01:39,649 --> 00:01:36,960

been a kind of a Western historian and

30

00:01:42,980 --> 00:01:39,659

I've written several books on western

31

00:01:45,800 --> 00:01:42,990

migration and pioneers and we get a

32

00:01:48,260 --> 00:01:45,810

pretty good feel for what it shouldn't

33

00:01:51,170 --> 00:01:48,270

be at a site and what what is it should

34

00:01:53,620 --> 00:01:51,180

not be at a site so our first visit to

35

00:01:56,450 --> 00:01:53,630

this site and west central New Mexico in

36

00:02:00,020 --> 00:01:56,460

1994 told us that there was a lot of

37

00:02:02,209 --> 00:02:00,030

anomalies on the surface and we've did a

38

00:02:05,600 --> 00:02:02,219

lot of investigation to find out why

39

00:02:10,390 --> 00:02:05,610

well this is a picture of myself at the

40

00:02:13,670 --> 00:02:10,400

site in 1997 I was at the site myself

41

00:02:16,729 --> 00:02:13,680

for about eight years I

42

00:02:19,339 --> 00:02:16,739

about every other summer and it's added

43

00:02:20,830 --> 00:02:19,349

excavation and later on you'll see some

44

00:02:23,119 --> 00:02:20,840

of the things that we managed to find

45

00:02:30,099 --> 00:02:23,129

doing or digging but this one was one of

46

00:02:35,990 --> 00:02:30,109

the early excavations about of 1994 now

47

00:02:37,399 --> 00:02:36,000

stretching up to the present we are

48

00:02:39,679 --> 00:02:37,409

going to see some of the things that we

49

00:02:42,229 --> 00:02:39,689

start finding at the site this is a

50

00:02:50,509 --> 00:02:42,239

recent material which was found in

51
00:02:53,599 --> 00:02:50,519
nineteen 2011 and we've had it analyzed

52
00:02:56,899 --> 00:02:53,609
and what we found here is a very very

53
00:02:59,720 --> 00:02:56,909
hard exterior of the UFO craft we know

54
00:03:01,629 --> 00:02:59,730
its exterior craft from the UFO because

55
00:03:03,740 --> 00:03:01,639
we've had the isotope work done on it

56
00:03:07,520 --> 00:03:03,750
the laboratories have told us that

57
00:03:09,860 --> 00:03:07,530
there's no metal like this in 1947 or up

58
00:03:12,470 --> 00:03:09,870
to the present time so it's very very

59
00:03:16,129 --> 00:03:12,480
unique hard metal which we believe is

60
00:03:19,580 --> 00:03:16,139
the exterior of the UFO these are two

61
00:03:21,319 --> 00:03:19,590
photos of some material that we found at

62
00:03:25,069 --> 00:03:21,329
the site now the one I'm holding the

63
00:03:28,039 --> 00:03:25,079

upper one here is a piece of material

64

00:03:29,809 --> 00:03:28,049

two pieces which here we found and we

65

00:03:32,149 --> 00:03:29,819

found out that they go together

66

00:03:34,429 --> 00:03:32,159

that the one was on the bottom of the

67

00:03:36,469 --> 00:03:34,439

other one and then the top one is a

68

00:03:43,159 --> 00:03:36,479

honeycomb very similar to a wasp nest

69

00:03:46,670 --> 00:03:43,169

and if you cut it down you cut the wasp

70

00:03:47,990 --> 00:03:46,680

nest down get off the dirt and

71

00:03:50,809 --> 00:03:48,000

everything out of it you'll see that it

72

00:03:54,729 --> 00:03:50,819

into the hollow channels like a wasp

73

00:03:57,170 --> 00:03:54,739

embryo would use in what in a wasp nest

74

00:03:58,699 --> 00:03:57,180

well this is called a honeycomb material

75

00:04:01,520 --> 00:03:58,709

and we believe it went all the way

76

00:04:04,759 --> 00:04:01,530

across the 25-foot bottom of the craft

77

00:04:10,999 --> 00:04:04,769

and these little brown dots that you see

78

00:04:13,280 --> 00:04:11,009

below here were a integral part of the

79

00:04:14,780 --> 00:04:13,290

propulsion system and we believe that

80

00:04:16,670 --> 00:04:14,790

nullified the gravity

81

00:04:18,529 --> 00:04:16,680

we're not sure what propelled the craft

82

00:04:24,250 --> 00:04:18,539

but we do know that those little brown

83

00:04:28,600 --> 00:04:24,260

dots they were both above and below the

84

00:04:32,280 --> 00:04:28,610

honeycomb which I'll show you here and

85

00:04:35,380 --> 00:04:32,290

those bought dots were like cylinders

86

00:04:38,170 --> 00:04:35,390

like spark plugs in a cylinder they

87

00:04:40,300 --> 00:04:38,180

would fire some kind of energy back and

88

00:04:42,190 --> 00:04:40,310

forth inside the honeycomb in each

89

00:04:45,340 --> 00:04:42,200

Channel the honeycomb there may be a

90

00:04:48,070 --> 00:04:45,350

million channels on the bottom a 25-foot

91

00:04:50,980 --> 00:04:48,080

UFO and each channel was one of these

92

00:04:53,350 --> 00:04:50,990

things firing up and down both creating

93

00:04:56,050 --> 00:04:53,360

an energy that definitely contributed to

94

00:04:57,940 --> 00:04:56,060

the antigravity so this is one of the

95

00:05:05,280 --> 00:04:57,950

one of the things that we've discovered

96

00:05:07,870 --> 00:05:05,290

and our project at to this time in 2014

97

00:05:10,360 --> 00:05:07,880

we believe we the first civilians to

98

00:05:13,870 --> 00:05:10,370

find this material and analyze it and

99

00:05:18,310 --> 00:05:13,880

then publicize it most of the people

100

00:05:20,860 --> 00:05:18,320

felt that all the material that was out

101
00:05:21,730 --> 00:05:20,870
there was picked up by the army and that

102
00:05:24,550 --> 00:05:21,740
it would be anymore

103
00:05:27,580 --> 00:05:24,560
we're the first ones we think of we know

104
00:05:30,460 --> 00:05:27,590
of to find much more material this was a

105
00:05:33,430 --> 00:05:30,470
very very early Army cleanup site and

106
00:05:36,310 --> 00:05:33,440
they did a snafu here and the army was

107
00:05:39,190 --> 00:05:36,320
to ever screw up and they apparently

108
00:05:43,390 --> 00:05:39,200
covered the site with loose loose dirt

109
00:05:45,520 --> 00:05:43,400
and not knowing that and the 14 inches

110
00:05:47,500 --> 00:05:45,530
of rainfall each year would would worse

111
00:05:50,140 --> 00:05:47,510
way the dirt in several years so we

112
00:05:54,490 --> 00:05:50,150
found much of our debris on the surface

113
00:05:57,400 --> 00:05:54,500

of the of the place where we're working

114

00:06:00,400 --> 00:05:57,410

this at the site back to the early

115

00:06:03,460 --> 00:06:00,410

history of the UFOs in my life

116

00:06:05,080 --> 00:06:03,470

I started the project getting interested

117

00:06:08,320 --> 00:06:05,090

in UFOs right after I got all the Navy

118

00:06:09,880 --> 00:06:08,330

about 1954 I read several books and I

119

00:06:11,980 --> 00:06:09,890

realized that there was a lot more out

120

00:06:15,160 --> 00:06:11,990

there than that I was aware of as a

121

00:06:17,140 --> 00:06:15,170

young a young man a teenager earlier on

122

00:06:19,960 --> 00:06:17,150

and I got out of the Navy when I was 22

123

00:06:23,920 --> 00:06:19,970

and we never really quite found a

124

00:06:25,780 --> 00:06:23,930

religion that we liked and I thought

125

00:06:28,510 --> 00:06:25,790

sort of thought of it being interested

126
00:06:30,910 --> 00:06:28,520
in UFOs if I doubt what people who were

127
00:06:33,640 --> 00:06:30,920
mother plant if we ever found out what

128
00:06:35,320 --> 00:06:33,650
they worshiped I didn't find anything

129
00:06:38,050 --> 00:06:35,330
here the particular turned me on a way

130
00:06:40,330 --> 00:06:38,060
of worship I was looking for

131
00:06:42,340 --> 00:06:40,340
to worship I understand I was looking

132
00:06:45,970 --> 00:06:42,350
for some things that made sense what I

133
00:06:49,540 --> 00:06:45,980
said seen out there didn't make a lot of

134
00:06:51,280 --> 00:06:49,550
sense intellectually to me so it was I

135
00:06:53,620 --> 00:06:51,290
didn't go come into the UFO study with

136
00:06:55,330 --> 00:06:53,630
any baggage to speak of I didn't have

137
00:06:57,430 --> 00:06:55,340
any any prejudice to overcome anything

138
00:07:00,730 --> 00:06:57,440

like that so everything I learned was

139

00:07:07,210 --> 00:07:00,740

was was new and and generally exciting

140

00:07:08,770 --> 00:07:07,220

so we started doing some reading sort of

141

00:07:12,210 --> 00:07:08,780

corresponding with some people involved

142

00:07:14,320 --> 00:07:12,220

with UFOs we started a national

143

00:07:16,810 --> 00:07:14,330

investigations committee for aerial

144

00:07:22,570 --> 00:07:16,820

phenomena group in the Kansas City area

145

00:07:25,990 --> 00:07:22,580

in 1957 and we were lucky to be a pictus

146

00:07:34,530 --> 00:07:26,000

chairman of that group and then we had

147

00:07:37,510 --> 00:07:34,540

the a very strange incident the famous

148

00:07:40,540 --> 00:07:37,520

UFO contactee person who claimed that

149

00:07:43,110 --> 00:07:40,550

he'd been on the spaceship and taken to

150

00:07:45,370 --> 00:07:43,120

Mars and Venus and all kinds of things

151
00:07:48,040 --> 00:07:45,380
came to Kansas City and we gave a talk

152
00:07:51,700 --> 00:07:48,050
to a UFO study club I had been

153
00:07:55,300 --> 00:07:51,710
affiliated with them however I wasn't at

154
00:07:56,860 --> 00:07:55,310
that particular time but he essentially

155
00:07:59,080 --> 00:07:56,870
went to Davenport Island who never

156
00:08:00,820 --> 00:07:59,090
talked and when he came back here on the

157
00:08:01,690 --> 00:08:00,830
train he said well I've been picked up

158
00:08:04,630 --> 00:08:01,700
by the aliens

159
00:08:05,920 --> 00:08:04,640
he called his face people in the Kansas

160
00:08:08,230 --> 00:08:05,930
City train yard and they took me to

161
00:08:09,490 --> 00:08:08,240
Davenport I thought well that's a nice

162
00:08:14,200 --> 00:08:09,500
way to get to Davenport it's a long

163
00:08:16,180 --> 00:08:14,210

train ride so I let major Keyhoe know it

164

00:08:21,700 --> 00:08:16,190

in Washington DC he was in charge of my

165

00:08:23,800 --> 00:08:21,710

cab and he wanted to know if I would like

166

00:08:26,290 --> 00:08:23,810

to investigate it that's why I'm here at

167

00:08:29,650 --> 00:08:26,300

your disposal so he sent me a badge

168

00:08:32,560 --> 00:08:29,660

actually a badge that little black case

169

00:08:33,610 --> 00:08:32,570

or the whole thing and he said this will

170

00:08:35,800 --> 00:08:33,620

get you in to see the railroad

171

00:08:37,750 --> 00:08:35,810

detectives and I thought why don't want

172

00:08:39,190 --> 00:08:37,760

to go see the detective you know he said

173

00:08:41,829 --> 00:08:39,200

we wanted to start with the people who

174

00:08:46,449 --> 00:08:41,839

are in charge and then we'll take this

175

00:08:48,880 --> 00:08:46,459

give you names of people who who you go

176
00:08:51,070 --> 00:08:48,890
to but you need to get the okay people

177
00:08:51,990 --> 00:08:51,080
at the top okay first you said we spent

178
00:08:55,380 --> 00:08:52,000
our experience

179
00:08:58,050 --> 00:08:55,390
that you don't start with the people who

180
00:09:00,510 --> 00:08:58,060
had the sightings or had the affairs you

181
00:09:02,580 --> 00:09:00,520
start with their superiors they bring

182
00:09:04,770 --> 00:09:02,590
them on board a year ago so it was a

183
00:09:06,540 --> 00:09:04,780
great great advice we went down to see

184
00:09:08,760 --> 00:09:06,550
the rail detective in attendance of the

185
00:09:14,190 --> 00:09:08,770
train yard and he gave us the name of

186
00:09:16,640 --> 00:09:14,200
the conductor the the the engineer the

187
00:09:19,590 --> 00:09:16,650
fireman and a brakeman or two on this

188
00:09:22,470 --> 00:09:19,600

plane called train called Rock Island

189

00:09:24,930 --> 00:09:22,480

508 from Davenport the train went right

190

00:09:27,990 --> 00:09:24,940

on up to Minneapolis then there was a

191

00:09:29,460 --> 00:09:28,000

site the car that went over toward

192

00:09:33,120 --> 00:09:29,470

Davenport was about another hour and a

193

00:09:35,760 --> 00:09:33,130

half away in any case he came back and

194

00:09:39,090 --> 00:09:35,770

told the story and then told the UFO

195

00:09:42,080 --> 00:09:39,100

study club the story and I have a

196

00:09:46,850 --> 00:09:42,090

transcript from the from the meeting in

197

00:09:50,040 --> 00:09:46,860

1957 telling about his trip in a UFO and

198

00:09:51,360 --> 00:09:50,050

and he was the guy telling it is the

199

00:09:55,020 --> 00:09:51,370

fellow who was an president of our club

200

00:09:56,810 --> 00:09:55,030

at that time so we investigated it and

201
00:09:59,430 --> 00:09:56,820
found out that the train had stopped

202
00:10:01,980 --> 00:09:59,440
very briefly maybe two or three seconds

203
00:10:05,130 --> 00:10:01,990
and a railroad crossing were to trek

204
00:10:06,870 --> 00:10:05,140
across it's the law and right near there

205
00:10:07,590 --> 00:10:06,880
is a tower and then they witnessed the

206
00:10:09,510 --> 00:10:07,600
whole thing

207
00:10:12,000 --> 00:10:09,520
so the train didn't stop more than two

208
00:10:15,440 --> 00:10:12,010
or three seconds before proceeded on the

209
00:10:17,910 --> 00:10:15,450
508 that had to head to Davenport and

210
00:10:20,400 --> 00:10:17,920
dadsy claimed that the train stopped he

211
00:10:23,010 --> 00:10:20,410
got out and walk around and down the

212
00:10:24,840 --> 00:10:23,020
gravel will see this scenery and so what

213
00:10:26,760 --> 00:10:24,850

we just got all the trade to Kansas City

214

00:10:28,290 --> 00:10:26,770

ten minutes earlier why would he want to

215

00:10:32,240 --> 00:10:28,300

walk around and look at scenery you know

216

00:10:34,320 --> 00:10:32,250

so he said some guy approached him

217

00:10:36,750 --> 00:10:34,330

normal-looking guy approached him and

218

00:10:39,390 --> 00:10:36,760

said would you come with me mister danke

219

00:10:40,800 --> 00:10:39,400

he said well what about my luggage they

220

00:10:42,210 --> 00:10:40,810

said well I'll pick it up for you so he

221

00:10:44,460 --> 00:10:42,220

reads the guys claimed he reached in the

222

00:10:46,620 --> 00:10:44,470

train got the luggage and those days you

223

00:10:48,420 --> 00:10:46,630

couldn't reach luggage from the outside

224

00:10:50,640 --> 00:10:48,430

because of the great big steel door came

225

00:10:52,770 --> 00:10:50,650

down it was actually covered the steps

226

00:10:54,870 --> 00:10:52,780

sort of I would fall off no that's

227

00:10:56,940 --> 00:10:54,880

called the vestibule well the guy

228

00:10:58,710 --> 00:10:56,950

restating got these today is the luggage

229

00:11:02,190 --> 00:10:58,720

which apparently had been put up yet and

230

00:11:05,040 --> 00:11:02,200

it took it took him too

231

00:11:07,760 --> 00:11:05,050

a wooded area they drove a little while

232

00:11:10,730 --> 00:11:07,770

they went to another wooded area and and

233

00:11:13,380 --> 00:11:10,740

South the UFO was waiting for them and

234

00:11:14,820 --> 00:11:13,390

so he said said while he was on his way

235

00:11:18,270 --> 00:11:14,830

to Davenport they took a side trip to

236

00:11:21,360 --> 00:11:18,280

Venus and back and I'm in story gets a

237

00:11:23,340 --> 00:11:21,370

little heavier as she keeps going and a

238

00:11:25,440 --> 00:11:23,350

lot of foolish people will still go

239

00:11:26,970 --> 00:11:25,450

uh-huh uh-huh

240

00:11:30,690 --> 00:11:26,980

he's telling this story for people who

241

00:11:32,310 --> 00:11:30,700

are global and I'm afraid I wasn't in

242

00:11:34,350 --> 00:11:32,320

that crowd I wasn't go we'll all about

243

00:11:36,540 --> 00:11:34,360

what he was saying well we think he

244

00:11:38,330 --> 00:11:36,550

probably is telling this story because

245

00:11:43,560 --> 00:11:38,340

he's only way to England and that summer

246

00:11:46,740 --> 00:11:43,570

this was made for me and oftentimes the

247

00:11:48,900 --> 00:11:46,750

contactee person has to have a phony

248

00:11:51,210 --> 00:11:48,910

story to get more attention they can't

249

00:11:53,070 --> 00:11:51,220

keep telling the old story you don't get

250

00:11:56,010 --> 00:11:53,080

wine and dine on one story you got to

251

00:11:57,240 --> 00:11:56,020

have a new one so it was his new one

252

00:11:58,800 --> 00:11:57,250

well he picked the wrong place to have

253

00:12:01,640 --> 00:11:58,810

it was new experience at Kansas City

254

00:12:04,080 --> 00:12:01,650

when we just started nycap Affiliate and

255

00:12:05,910 --> 00:12:04,090

major Keyhoe told me later is it boy

256

00:12:09,480 --> 00:12:05,920

said he could have picked any word the

257

00:12:10,860 --> 00:12:09,490

country but your place we investigated

258

00:12:13,830 --> 00:12:10,870

and found it to be totally false totally

259

00:12:16,280 --> 00:12:13,840

false got ahold went down to Trenton

260

00:12:19,920 --> 00:12:16,290

Missouri which is down south of here and

261

00:12:21,840 --> 00:12:19,930

to you know hold the conductor well we

262

00:12:24,000 --> 00:12:21,850

got hold of brakeman lived in Kansas

263

00:12:25,920 --> 00:12:24,010

City have statements from all of them

264

00:12:28,110 --> 00:12:25,930

all of them corroborate that

265

00:12:30,300 --> 00:12:28,120

one they don't remember him even being

266

00:12:33,080 --> 00:12:30,310

on the train and to Train didn't stop

267

00:12:36,000 --> 00:12:33,090

long enough for anybody to get off and

268

00:12:39,480 --> 00:12:36,010

so that was essentially the story I got

269

00:12:41,790 --> 00:12:39,490

my start investigation with the UFO

270

00:12:44,100 --> 00:12:41,800

people and this was written up in the

271

00:12:47,070 --> 00:12:44,110

night cap magazine later that year and

272

00:12:49,470 --> 00:12:47,080

we called the story of Georgia dancing

273

00:12:54,600 --> 00:12:49,480

into Rock Island five away and that was

274

00:12:57,450 --> 00:12:54,610

our first experience and we started a

275

00:13:02,790 --> 00:12:57,460

long four years old and I moved to

276

00:13:08,280 --> 00:13:02,800

Colorado after 1960 and I was a coach

277

00:13:11,780 --> 00:13:08,290

football coach and we stayed in small

278

00:13:14,200 --> 00:13:11,790

schools except for a few years for

279

00:13:16,480 --> 00:13:14,210

almost 30 years

280

00:13:18,670 --> 00:13:16,490

and in small towns you don't have a lot

281

00:13:21,100 --> 00:13:18,680

of interest in UFOs

282

00:13:22,660 --> 00:13:21,110

there's nothing many people who have

283

00:13:24,130 --> 00:13:22,670

read much about it they don't have any

284

00:13:26,860 --> 00:13:24,140

news about it they don't sell books

285

00:13:30,460 --> 00:13:26,870

there in the town so we couldn't really

286

00:13:32,980 --> 00:13:30,470

start any UFO discussions or groups and

287

00:13:34,720 --> 00:13:32,990

those in those early years we just had

288

00:13:37,329 --> 00:13:34,730

to just learn those the guys don't get

289

00:13:42,610 --> 00:13:37,339

get our teaching career with oh I I

290

00:13:46,210 --> 00:13:42,620

worked about 1959 worked from 59 to 89

291

00:13:51,190 --> 00:13:46,220

30 years and so we got back into the

292

00:13:52,389 --> 00:13:51,200

UFOs about 1990 and mr. Friedman Stanton

293

00:13:54,760 --> 00:13:52,399

Friedman was the one who told me about

294

00:13:56,889 --> 00:13:54,770

the rancher that had a gap in his

295

00:13:58,420 --> 00:13:56,899

sagebrush and they could never figure

296

00:14:01,780 --> 00:13:58,430

out what it was nothing would grow there

297

00:14:03,519 --> 00:14:01,790

by the way and there wasn't any trench

298

00:14:05,680 --> 00:14:03,529

well they couldn't figure out what this

299

00:14:08,350 --> 00:14:05,690

gap was doing in the sagebrush well it

300

00:14:10,120 --> 00:14:08,360

turns out that the UFO had crashed in

301
00:14:13,269 --> 00:14:10,130
there and gone through the sagebrush and

302
00:14:18,340 --> 00:14:13,279
taken out a swath of sagebrush maybe 100

303
00:14:20,470 --> 00:14:18,350
feet long and all 2530 feet wide we were

304
00:14:21,910 --> 00:14:20,480
able to determine that the material we

305
00:14:25,210 --> 00:14:21,920
found in there couldn't have washed in

306
00:14:26,980 --> 00:14:25,220
that there was a slight rise in the what

307
00:14:29,560 --> 00:14:26,990
into the other which means that material

308
00:14:32,350 --> 00:14:29,570
couldn't wash up hill we found a lots of

309
00:14:34,780 --> 00:14:32,360
tin hand and discarded material earthly

310
00:14:36,460 --> 00:14:34,790
stuff but underneath it was what the

311
00:14:38,500 --> 00:14:36,470
material from the UFO could have been

312
00:14:39,820 --> 00:14:38,510
hidden in a better place it wasn't

313
00:14:42,310 --> 00:14:39,830

deliberate I don't think the army was

314

00:14:43,870 --> 00:14:42,320

that smart they brought in some sand to

315

00:14:47,500 --> 00:14:43,880

fill in the trench in the sand was

316

00:14:50,410 --> 00:14:47,510

debris and over the years the debris the

317

00:14:53,650 --> 00:14:50,420

sand washed away from the debris leaving

318

00:14:55,570 --> 00:14:53,660

the flat surface with tin cans sitting

319

00:14:58,540 --> 00:14:55,580

on it who would think to look under tin

320

00:15:00,160 --> 00:14:58,550

cans for a UFO debris I don't think they

321

00:15:02,019 --> 00:15:00,170

were smart and figured out they sure

322

00:15:04,180 --> 00:15:02,029

worked out that well and of course you

323

00:15:05,170 --> 00:15:04,190

could view a lot of tin hands you can't

324

00:15:07,000 --> 00:15:05,180

use a metal detector

325

00:15:09,790 --> 00:15:07,010

so our first few years we didn't use

326

00:15:13,389 --> 00:15:09,800

metal detectors at all this is our eye

327

00:15:15,730 --> 00:15:13,399

beam that we found in 2012 and I mean

328

00:15:19,630 --> 00:15:15,740

they're especially sacred in UFO

329

00:15:21,819 --> 00:15:19,640

debris because the the original report

330

00:15:24,819 --> 00:15:21,829

by a Jesse Marcel talks about an i-beam

331

00:15:27,579 --> 00:15:24,829

and people were and symbols on it and

332

00:15:28,420 --> 00:15:27,589

all kind of things are this huge it's

333

00:15:34,990 --> 00:15:28,430

about

334

00:15:39,340 --> 00:15:35,000

and a half high and how would think that

335

00:15:41,590 --> 00:15:39,350

I mean works is that it sits on the top

336

00:15:44,320 --> 00:15:41,600

of some other material including the

337

00:15:46,840 --> 00:15:44,330

honeycomb we discussed earlier and a

338

00:15:50,110 --> 00:15:46,850

plate underneath it and a plate under

339

00:15:53,230 --> 00:15:50,120

the honeycomb and the i-beam we think

340

00:15:55,060 --> 00:15:53,240

goes all the way across a basket weave

341

00:15:57,760 --> 00:15:55,070

of I beams goes all the way across the

342

00:16:01,720 --> 00:15:57,770

bottom of the UFO and attached to the

343

00:16:05,740 --> 00:16:01,730

bottom of the basket of ligh beams is

344

00:16:09,280 --> 00:16:05,750

the the light material and a heavy

345

00:16:11,620 --> 00:16:09,290

material and so you see the I mean light

346

00:16:13,480 --> 00:16:11,630

material heavy material and we've

347

00:16:15,550 --> 00:16:13,490

written a book and that it's pretty well

348

00:16:19,120 --> 00:16:15,560

explained in there but this was one of

349

00:16:21,910 --> 00:16:19,130

our bigger finds was was this i-beam one

350

00:16:24,430 --> 00:16:21,920

of our nice lines was this particular

351

00:16:25,090 --> 00:16:24,440

piece of the exterior of the craft it is

352

00:16:27,070 --> 00:16:25,100

very hard

353

00:16:29,500 --> 00:16:27,080

we had great no difficulty getting

354

00:16:31,240 --> 00:16:29,510

through it we had to get to use the

355

00:16:33,670 --> 00:16:31,250

Dremel machine to get some samples off

356

00:16:35,500 --> 00:16:33,680

instead of the lab and it we broke three

357

00:16:37,900 --> 00:16:35,510

discs and almost wrote the demo it was

358

00:16:40,180 --> 00:16:37,910

so difficult extremely hard material

359

00:16:44,019 --> 00:16:40,190

we're pretty sure this is the part of

360

00:16:47,470 --> 00:16:44,029

the exterior of the UFO they found this

361

00:16:50,860 --> 00:16:47,480

in 2011 one of the things I wanted to

362

00:16:53,230 --> 00:16:50,870

mention was that we had almost 26 people

363

00:16:55,930 --> 00:16:53,240

involved in the later investigation of

364

00:16:58,420 --> 00:16:55,940

the crash of the plane of San Agustin we

365

00:17:00,670 --> 00:16:58,430

had one group that had 15 people of

366

00:17:03,610 --> 00:17:00,680

seven metal detectors they found a huge

367

00:17:05,890 --> 00:17:03,620

amount of material and prior to that

368

00:17:08,500 --> 00:17:05,900

they had analyzed our material mr. John

369

00:17:11,110 --> 00:17:08,510

Rao of the open minds organization had

370

00:17:14,910 --> 00:17:11,120

put up the money to analyze our material

371

00:17:19,110 --> 00:17:14,920

we had found earlier up through 2010 and

372

00:17:22,240 --> 00:17:19,120

we found the material to have isotopic

373

00:17:24,610 --> 00:17:22,250

ratios that were not known any metal on

374

00:17:25,510 --> 00:17:24,620

earth now this is just ordinary foil I

375

00:17:28,930 --> 00:17:25,520

thought it was just something for

376
00:17:31,630 --> 00:17:28,940
barbecue or something but the period the

377
00:17:33,760 --> 00:17:31,640
vocals didn't use foil at all until the

378
00:17:38,500 --> 00:17:33,770
mid fifties when they had enough power

379
00:17:40,000 --> 00:17:38,510
to use a freezer so we had the first

380
00:17:41,740 --> 00:17:40,010
things we first started with flat file

381
00:17:45,360 --> 00:17:41,750
foil we

382
00:17:48,010 --> 00:17:45,370
the shoe sole we found other things but

383
00:17:50,170 --> 00:17:48,020
one of the things we found was the foil

384
00:17:52,210 --> 00:17:50,180
well we hadn't analyzed and found out

385
00:17:55,540 --> 00:17:52,220
there was floor was coated with very

386
00:18:00,280 --> 00:17:55,550
very exotic coatings of various elements

387
00:18:02,410 --> 00:18:00,290
and we have 15 pieces of that foil five

388
00:18:05,350 --> 00:18:02,420

of which have been to the bends of

389

00:18:07,930 --> 00:18:05,360

analysis scientific analysis Ted we're

390

00:18:09,760 --> 00:18:07,940

still waiting to do I have five more

391

00:18:11,500 --> 00:18:09,770

pieces that a friend of mine has done

392

00:18:13,930 --> 00:18:11,510

five or six pieces down into the gallons

393

00:18:17,080 --> 00:18:13,940

of Mexico well we put it put all US

394

00:18:19,450 --> 00:18:17,090

material together I was but here we

395

00:18:23,050 --> 00:18:19,460

weren't worked on is a in the last

396

00:18:25,120 --> 00:18:23,060

fifteen twelve years is this book and we

397

00:18:28,330 --> 00:18:25,130

originally called it the UFO crash in

398

00:18:29,800 --> 00:18:28,340

San Agustin well when we're sure we had

399

00:18:33,220 --> 00:18:29,810

found the material and we changed it to

400

00:18:35,500 --> 00:18:33,230

finding the UFO crash in San Agustin so

401
00:18:39,600 --> 00:18:35,510
we took everything we knew about the

402
00:18:42,520 --> 00:18:39,610
crash all the materials are analyzed and

403
00:18:45,100 --> 00:18:42,530
scientific material has gone out of

404
00:18:49,840 --> 00:18:45,110
various laboratories we had a mr. Steve

405
00:18:55,720 --> 00:18:49,850
Coburn who was a materials analyst from

406
00:18:58,510 --> 00:18:55,730
a lateral to review at UCLA in 1992 mr.

407
00:19:02,290 --> 00:18:58,520
Coburn was the first one one of the

408
00:19:04,990 --> 00:19:02,300
first ones to analyze our material he

409
00:19:06,520 --> 00:19:05,000
sends it off to those labs and every

410
00:19:11,440 --> 00:19:06,530
time we sent a piece of material off to

411
00:19:13,750 --> 00:19:11,450
be analyzed it's \$500 so we learned

412
00:19:16,960 --> 00:19:13,760
early on not to mention we were to doing

413
00:19:19,630 --> 00:19:16,970

UFO research we found out from some

414

00:19:22,870 --> 00:19:19,640

other projects that we'll be saying we

415

00:19:25,840 --> 00:19:22,880

do UFO research they had you send you

416

00:19:27,100 --> 00:19:25,850

back your check if they forget it so we

417

00:19:29,440 --> 00:19:27,110

found that we just say we want the

418

00:19:31,990 --> 00:19:29,450

research done and then here's here's

419

00:19:34,960 --> 00:19:32,000

your check to do it from well mr. Coburn

420

00:19:37,420 --> 00:19:34,970

worked for a lab that was well known so

421

00:19:39,870 --> 00:19:37,430

he would send his material in with that

422

00:19:42,490 --> 00:19:39,880

to be analyzed and he'd give his

423

00:19:44,500 --> 00:19:42,500

bookkeeper for \$500 it worked out fine

424

00:19:47,890 --> 00:19:44,510

they didn't know they were analyzing UFO

425

00:19:49,300 --> 00:19:47,900

material and we don't she hasn't getting

426
00:19:53,200 --> 00:19:49,310
compensated but they just thought it was

427
00:19:55,030 --> 00:19:53,210
something out of an industrial metallic

428
00:19:58,720 --> 00:19:55,040
scrap pile they know what it was

429
00:20:00,190 --> 00:19:58,730
and it did here so that's one of the

430
00:20:03,640 --> 00:20:00,200
things that one of the interesting

431
00:20:05,350 --> 00:20:03,650
things about about this was that we had

432
00:20:08,110 --> 00:20:05,360
to keep quiet about the about the

433
00:20:11,560 --> 00:20:08,120
analysis we started a website about five

434
00:20:17,940 --> 00:20:11,570
or six years ago and you can get to it

435
00:20:24,520 --> 00:20:17,950
today this is 2014 but by going to a ww

436
00:20:26,530 --> 00:20:24,530
UFO crash book one word.com so it you

437
00:20:29,200 --> 00:20:26,540
can find out about the project and you

438
00:20:33,130 --> 00:20:29,210

can see that each G the sixteen chapters

439

00:20:36,130 --> 00:20:33,140

in the book and it goes almost 90
